CAPTURE VERA CRUZ IN FACE OF MEXICAN FIRE

United States Loss Is Four Killed: Twenty Hurt

WARSHIPS SHELL SHARPSHOOTERS

Americans Lose Men in Charges to Clear Streets--Mexico City Isolated.

(By Daily News Leased Wire)

VERA CRUZ, April 21.—The American flag flies above Vera Cruz which is in the hands of the forces from the United States warships but the occupation of the port was not accomplished without loss of American lives. Four Americans, bluejackets and marines, were killed by the fire of the *Mexicans and 21 fell wounded.* The Mexican loss is not known but it is believed to have been heavy. It has been stated at 200.

The waterfront, the customs house and all important piers, including those under the terminal works from which extend the railways to the capital, have been occupied. All the territory around the American consulate is strongly patroled and detachments hold other sections of the city. The Mexican commander, Gen. Gustavo Maas, offered a stubborn resistance to the American advance and for many hours there was fighting in the streets. Toward nightfall it was reported that the main body of the federal garrison was in retreat to the westward.

Rear-Admiral Fletcher, in command of the United States warships, prefaced his occupation of the port by a demand through the American consul, W. W. *Canada, for its surrender. Gen.* Maas promptly declined to accede to this demand and shortly afterward 10 whale boats loaded with marines, were sent off from the side of the transport Prairie. These boats effected a landing in the neighborhood of the customs house before noon, and a few minutes later Capt. William R. Rush of the battleship Florida, who was in command of the operations ashore, brought his flag boat in.

Capt. Rush's men had already taken up their positions. They numbered 150 bluejackets from the Florida. Later these were augmented by a detachment from the Utah.

Mexicans Oppose Advance.

The coming of the Americans was not heralded by any great excitement but small crowds gathered to watch the landing. Soon the bluejackets and marines marched through the streets leading from the waterfront and along the railroad yards. Others proceeded to the American consulate, while others were deployed along the approaches to the Central plaza, in which Gen. Maas had concentrated his men. These maneuvers were effected without opposition but suddenly Gen. Maas challenged the advance with the first shots—a volley fired from a point three blocks from the marines, and two blocks south of the main plaza. The marines replied immediately but the action ceased in a moment and there was a lull for 10 minutes and then another brief exchange from the west end of Montezinos street, where a federal outpost was stationed.

Prairie Shells City.

At 12:30 the firing became general and at 1 o'clock the guns of the Prairie went into action.

Prior to this a detachment of bluejackets from the Utah holding the ground between the consulate and the waterfront, opened with two of their 3-inch guns. The first shots from these pieces were directed against a tower which served as a lighthouse. This was occupied by Mexican sharpshooters. Lieut. Commander Buchanan of the Florida ordered that it be destroyed. Five shots brought the old Benito Juarez tower down.

The women of the American colony in Vera Cruz had already been placed *aboard the chartered steamers Esperanza* and Mexico but the foreign colony, especially the American section, was greatly augmented this morning when three trainloads arrived from the capital. Some of these remained ashore but many were taken aboard the steamers. So far as can be learned none of the refugees was injured.

The postoffice, government telegraph office and the cable office were the first buildings occupied after the customs house. A squad of marines was placed in charge of the cable office. The telegraph wires were found intact and enough Mexican operators were retained to man the lines to Mexico City.

After Gen. Maas had been driven from his position in Central plaza the the Americans found themselves the object of fusillades from the tops of *houses where small groups of soldiers* and citizens had taken up positions. It was learned only tonight that the greater part of those engaged in this resistance were civilians, who refused to accept the American occupation passively. They obtained guns and stationed themselves at points of vantage and did much to prolong the action.

Lieut.-Col. Wendell C. Neville commanded the marines from the Prairie and Majors Reid and Berkeley and Captain Hughes, Hill and Dyer along the line. Every precaution is being taken to prevent a Mexican attack and the lines have been reinforced by a detachment which was originally in position beyond the terminal works.

Mexicans Expect Reinforcements.

Toward the middle of the afternoon a large body of Mexicans evacuated

REBELS CAPTURE AMERICAN TROOPS

(By Daily News Leased Wire)

DOUGLAS, Ariz., April 21.—A special from Tombstone *says news reached there today* that thirteen members of troop B, 10th cavalry, were being held by the constitutionalist troops at a point just below the border between Naco and Herford, Ariz.

The troops, who were on patrol wandered across the line last night without being aware of the fact. It is reported they were surrounded and taken prisoners by a large rebel detachment. Troop A, 10th, left Huachu today to investigate.

SENATE OMITS NAME OF HUERTA

War Resolution Mentions Affronts and Indignities Suffered by States in Mexico—General Campaign

(By Daily News Leased Wire)

WASHINGTON, April 22.—*The senate* at 2:10 a.m. passed the administration resolution declaring that the president is "justified in the employment of the armed force of the United States to enforce his demands for unequivocal amends for the affronts and *indignities committed against the* United States in Mexico."

The senate, by a vote of 47 to 45, rejected the substitute amendment. It would have based the "justification" of the "use of force in Mexico upon the general conditions there instead of the *Tampico incident alone.*"

An amendment by Senator Lafollette to provide that "after the subjugation of Mexico then United States shall retire from that country, leaving Mexico and every portion of it to its own people," was voted down 44 to 39.

Determined upon the passage of the administration Mexican resolution before morning, the senate at midnight was in the midst of a grave and impassioned debate. Ultimate passage of the resolution as reported by the foreign relations committee was gen*erally conceded.*

The house had recessed until 10 o'clock in the morning to await the senate's action. As the night wore on and senator after senator demanded an opportunity to be heard, the atmosphere in the chamber grew more and *more tense.*

Wants Mexico-Wide Campaign

Senator Fall made a lengthy plea for a campaign that would cover the length and breadth of Mexico. He reviewed the list of alleged outrages by Villa, military chief of the rebels, *against American property holders in* Mexico. He declared that the United States stood as a "fence" for the burglars of northern Mexico, and "that we stood indicted as receivers of stolen goods." He declared action against Huerta would not relieve conditions in *northern Mexico.*

British Ambassador in Senate.

(By Daily News Leased Wire)

WASHINGTON, April 21.—An air of excitement and grave concern pervaded the chamber when the senate *reconvened at 8 o'clock.*

Senator Root opened the night session with a speech supporting the Lodge substitute.

"I shall not prolong this debate," he said, "for I believe that whatever action we shall take ought to be *taken tonight.* There should be no further delay."

As Senator Root began to speak, the British ambassador, Sir Cecil Spring Rice, took a place in the diplomatic gallery.

Senator Root said that the foreign *relations* committee resolution, while omitting the name of Huerta, made it plain that it was directed against him. He expressed the highest regard for the president and the highest confidence in his purposes."

"But we are not asked to express our confidence in him," he said. "We are asked as a part of our duty here to declare a certain course of action in certain conditions to be justified. We are called upon to do our duty to the people of this country and our duty to the civilized world."

Forceful Armed Compulsion.

The resolution, Senator Root said, called for "forceful armed compulsion of the de facto government of a friendly nation to make amends for an insult to the flag of this country.

"We cannot justify this on our confidence in the president. We must justify ourselves before the confidence of the people of our country and before the eyes of the civilized world. What is justification Mark you, I do not say there is no justification. I ask what it is."

Senator Root reviewed the Tampico incident as the avowed "justification" by the president. He said the incident was "an insult to our flag."

"But, sir," he said, "amends were immediately made. The officer who made the arrest was himself arrested. The commandant at Tampico apologized. These amends were not enough for the commander of the American vessel and he demanded a salute to the flag."

Painfully Inadequate, He Declares.

Senator Root said these amends were not sufficient coming from a de facto government, but they would have been sufficient from an individual.

"This was the matter in dispute be-

PARIS WELCOMES BRITISH RULERS

King George and Queen Mary Visits Capital

STRENGTHENS BOND BETWEEN NATIONS

Is First State Progress by England's Sovereigns in History of Paris.

(Western Associated Press, Special Cable.)

PARIS, April 21.—For the first time, not only in the history of the French republic, but also in the longer history of the city of Paris, a British king and queen today made a state progress through the streets of the French capital. Once the late King Edward VII was accompanied by Queen Alexandra when visiting Paris in February, 1907, but on that occasion their majesties traveled incognito as the Duke and Duchess of Lancaster and stayed at the British embassy, the visit lacking all state ceremonial.

Paris indeed has had but few opportunities of welcoming British sovereigns within her walls. After the infant, Henry VI was crowned in Paris in 1422, no British ruler entered the city until 1855, when Queen Victoria, accompanied by the prince consort, the Prince of Wales and the princess royal, was the guest of Napoleon III. King Edward, a Parisian to the finger tips, was a fairly frequent visitor to the French capital, both as Prince of Wales and as monarch, and King George and Queen Mary when still Prince and Princess of Wales, made a prior journey in 1908, but that again was an incognito visit made by "Lord and Lady Killarney" as they returned to London from Cologne.

Means Firmer Entente.

The visit with full ceremonial of *state now paid is of greater import* than are such events generally. In 1896 a visit by the Russian emperor to Paris assured the solidity of the dual alliance; King Edward's visit in 1903 rendered firm the entente cordiale. Since there have been persistent efforts to amalgamate the alliance and the entente, but those efforts have not been met with the success for which French diplomacy hoped.

Nevertheless the common understanding of the three powers served usefully during the Balkan war, though on the whole the existence of the triple entente has had an injurious tendency so far as the entente cordiale is concerned. Now King George is taking up his father's work and from the present visit there is expected to grow an entente firmer based and more effective as a factor in European and world politics.

In the preparation of the program for the royal visit there has been displayed a humane desire to check that enthusiasm which converts these affairs into positive tests of physical endurance, every effort having been made to render the royal duties as light as possible, stock functions being omitted in favor of varied and interesting engagements tending both to give the visit a holiday character and to bring their majesties into intimate touch with Parisians.

Arrival in Paris Triumphant.

Crossing from Dover to Calais this morning, the King and Queen traveled to the Gare du Nord, where they entered the underground system to com*plete their journey to Bois de Boulo*gne, where President Poincare and Mme. Poincare formally received their royal highnesses and attended them on the progress under the Arc de Triomphe and through the spacious Champs Elysees, lined with dragoons and mounted infantry, to the Quai d'Orsay, where the splendid apartments of the foreign ministry, with the British royal standard and the Republican tricolor floating overhead, have been converted into a temporary royal residence. These rooms, affording some of the finest suites to be found in the whole of Europe, have been refurnished and redecorated at a cost of £13,000. Priceless examples of national art have been taken from the national collections in order that the apartments may be enriched with rare Gobelin tapestries, Sevres china and furnishings of Louis XIV, Louis XV, Louis XVI and the first empire periods, the various pieces being all articles owned and used by those monarchs. The Queen's apartments are each morning to be profusely decorated with her favorite Malmaison roses and violets and gardenias are also being supplied for the buttonhole of his majesty.

President Gives Banquet.

Tonight their majesties attended a state banquet given in their honor by President and Madame Poincare at the Elysee palace.

The suite in attendance on the King and Queen includes the Duchess of Devonshire, mistress of the robes; Lady Desborough, lady-in-waiting; Sir Edward Grey, minister in attendance; Lord Annaly, lord-in-waiting; the Earl of Shaftesbury, lord chamberlain to the Queen; Lord Stamfordham, private secretary; Hon. G. Lambton,

ARMED STRIKERS QUIT AFTER BATTLE

List of Dead in Colorado Fight With Militia Is Increased to Twenty-Five

(By Daily News Leased Wire.)

TRINIDAD, Colo., April 21.—Hundreds of armed strikers who yesterday fought for 14 hours with militia in the Ludlow district had dispersed this morning and quiet prevailed in and about the strikers' demolished tent colony.

The 100 militiamen who opposed the strikers were in possession of the railroad tracks from the steel bridge to a point near the burned colony. Reinforcements from Lamar and Walsburg swelled the number of soldiers on the ground to 300. The list of dead was increased to 25.

No trace of a large body of armed strikers, which last night was reported to be rushing to the aid of the Ludlow strikers, was seen. They are thought to be in the hills west and north of Ludlow, but the groups are believed to be so broken up that no concentrated attack will be made.

Major Hamecock tonight denied the report that the Ludlow tents were set on fire by the militia. The blaze started, he claimed, near the southwest corner of the colony, while the troops were engaged in an attack on the strikers entrenched in the pumphouse. He also reiterated the statement that the fighting was precipitated by a band of strikers under Louis Tikas, who opened fire on militia tents at Ludlow.

HALF MILLION LOSS IN LONDON FIRE

Head Office of Macabees and Insurance Companies Suffer—Caretaker Rescued by Ladders.

(By Daily News Leased Wire)

LONDON, Ont., April 21.—Fire broke out at 3 o'clock this morning from unknown causes in the Dominion Savings company building, corner of Richmond and King streets, here and did damage to the amount of $500,000. The loss is fairly well covered by insurance. The building, a four-story brick structure, was completely gutted. Although no lives were lost Luke Tucker, the caretaker, had a narrow escape, being rescued by means of ladders from his rooms on an upper floor while the fire was at its height.

The burned structure was owned by T. H. Purdom, K. C., and besides the Dominion Savings company the following firms suffered:

The Northern Life Insurance company (head office); The Remington Typewriter company, the Canadian Pacific railway and Canadian Northwestern telegraph companies, the Macabees (head office), the North American Life Insurance company, the Western Fair News company, the Equitable Life Insurance company, the Confederated Life Insurance company, the Workmen of the World and R. G. Dun & Co.

PICTURE OF SHIPWRECK SENDS GIRL INSANE

Russian Immigrant Loses Mind When Terrors of Atlantic Voyage Are Recalled.

(By Daily News Leased Wire.)

EDMONTON, Alta., April 21.—One actual shipwreck on the Atlantic and the flickering representation of another shown on a motion picture screen in a local theatre were responsible for the insanity of Kzenia Zaplotinski, who was taken in charge by the Edmonton police on Monday and held until today when she was turned over to the care of her brother.

Through an interpreter the brother explained that he came to Canada from Russia and took up a homestead after which he sent passage money to his sister. The trip over was a terrible ordeal and during a six-day storm the craft on which she was sailing became partly submerged and the survivors were picked up by a passing American boat. Landed in *Montreal, the girl appealed to the* Russian consul there who got in communication with her brother and she was eventually started on her last lap of her journey west. She arrived last Tuesday.

On Saturday she was taken about the city to see the sights of her new home and incidentally taken into a picture show. The feature reel was a shipwreck and just as the flames started to lick up the leviathan of the sea and as the boat started to sink in the ocean grave in the pictured representation, the girl gave a scream and fainted. When she came to her senses several hours later, she failed to recognize her relatives and has since mumbled incoherently of the memory of the dreadful six days and nights of living death in mid-Atlantic.

SHOOTING AND HITTING

Only the shots that hit win battles.

The same thing is true in advertising. Only the advertising that reaches possible buyers is worth-while.

Because they can concentrate their shots and score a larger proportion of hits, manufacturers are coming to use the daily newspapers more and more.

They reach consumers direct. *They gain the friendship of the* local dealers.

Every dollar they spend counts definitely.

They can see the results and can tell just exactly when and how they hit.

Perhaps you would like some *suggestions. Write to the Bu*reau of Advertising, American Newspaper Publishers Association, World Building, New York.

Booklet on request.

PAYS TRIBUTE TO MARTIN BURRELL

Minister of Agriculture Has Done Much for Farmers

ONTARIO MEMBER SPEAKS ON BUDGET

Marcil Declares Only Bright Spot Is Increase in Exports.

(By Daily News Leased Wire)

OTTAWA, April 21.—Not much new ground was covered by the majority of the speakers in the budget debate which was continued today *and which promises to run for some* time yet.

J. H. Sinclair, Liberal M. P. for Guysboro, who is regarded as one of the most serious members of the house, surprised and amused both sides by an unexpected line of banter. *He said that in Ontario at the last* general election, J. H. Burnham, Capt. Tom Wallace and the minister of war were particularly interested in the question, "are we married or not?" "Now that their party is in power, they don't care two cents whether we are married or not," he said.

Mr. Sinclair figured out that the saving to a farmer on a mower which resulted from the reductions in the duty was just enough each year to buy half a pound of poor tobacco. He compared Hon. W. T. White to a reckless son of a wealthy farmer who did not want to do anything but 'dash away and spend the money."

Had Done Much for Farmers.

Dr. Michael Burrell, South Perth, made a long speech in a more serious vein. He said *that the present gov*ernment could take particular credit for what it had done for the farmers. At no time in the past had parliament been devoting the attention to the interests of agriculture that it was giving today. Hon. Martin Burrell min*ister of agriculture, was receiving the* approval of every farmer in the country for the assistance which he was given and especially through the Agricultural Instruction act.

Dr. Steele maintained that the high freight rates on the Atlantic afforded *protection to the British miller* just as effectively as an import duty on flour. Lower rates would be of great advantage to both the farmer and the miller. The establishment of a line of boats to carry agricultural products to the British market and return *cargoes of British goods* would mean a great deal for the farmers of Canada.

In closing, Dr. Steele said that the people of Canada sympathized with the west, but western farmers should remember that the farmer of Ontario was to be considered. He hoped it would be possible for the government to shape a policy which would be mutually beneficial to the west and to the east. This would be better than to adopt the policies advocated by the opposition.

Says Government Like Bourbons.

Hon. Charles Marcil said he was glad the minister of finance had made it clear that the Conservatives proposed to adhere absolutely to the old national policy. Liberals who had been foolish enough to vote for the present government in 1911 with the expectation that it would be progressive, now knew what they were to expect. Mr. White had made no reference to the progressive fiscal legislation since 1896, including the Brit*ish preference and other legislation* modifying the national policy. The declaration of the government reminded one of the Bourbons who declined to recognize anything new. The minister had recognized that there had been a check in the progressive *development of the Dominion;* wages had decreased while the revenues had fallen. The only bright spot has been the increase in export trade, due entirely to the new American tariff, yet no provision has been made to deal with these new conditions.

The debate was continued by H. B. Morphy, North Perth, and Roch Lanctot, Laprairie-Napierville.

BANDITS ISOLATE TOWN BLOW SAFE AND GET LOOT

(By Daily News Leased Wire)

PHILLIPSBURG, Mo., April 21.—Four bandits, after cutting this town off from all wire communication with the outside world early today, broke into two stores, blew open the vault in the Farmers' State bank and escaped to the hills west of town with loot estimated at $3,000. More than 100 shots were fired by the robbers at presons who attempted to interfere. A posse of 50 men led by Sheriff Huff of Laclede county and Sheriff Shields of Webster county started in pursuit with bloodhunds.

DUKE LAUDS EFFORTS OF SOCIAL WORKES

MONTREAL, April 21.—The Duke of Connaught and Princess Patricia visited the Iverly settlement this morning. An address was delivered and the duke replied, commending the efforts of social workers to improve the condition of the poor. Tonight he will dine quietly at the Strathcona residence.

IMMIGRANTS SOON BECOME SUBJECTS

Bishop Stringer of Yukon Voices Confidence in Future of Canada at London.

(Canadian Associated Press)

LONDON, April 21.—Confidence concerning the development of Canada owing to the varied nature of her increasing population, provided a theme for oratory tonight at the Canadian club.

E. R. Peacock, who presided drew attention to the useful, unostentious work which is being done in many directions in Canada for the welfare of the incoming population. This influx had put a strain on the municipalities which few here could realize which provided sufficient answer when the city of London wondered why Canadian cities were always needing money.

Premier Sifton of Alberta said folks living in the west were not worried *over the future amalgamation of the* different races. They found out there the newcomers almost unanimously became their subjects within three years of their arrival.

Bishop Stringer of the Yukon voiced his confidence in the future and added that he first visited England seven years back; he was pleased to note during the present visit that the folk of the old country knew a great deal more now than hitherto about Canada's real aspirations and possibilities. Canada, on her part, ought to acknowledge what she owes to the old country.

Among those present were Col. Jeffrey Burland, A. J. Glazebrook, Frederick Nicholls, Dr. Parkin and W. E. Rundle.

INHALATION OF SMOKE HARMFUL

Otherwise Cigarettes Not Worse Than Other Forms of Tobacco—Child Smokers Deficient Mentally.

(By Daily News Leased Wire)

OTTAWA, April 21.—That cigarette smoking is not worse than any other kind, provided the smoke is not inhaled into the lungs, was the declaration of Edward W. McGill, chief analyst of the Dominion government, giving evidence before the cigarette commission today.

The injurious effect of cigarettes upon children were described by Mrs. Rose Henderson, an officer of the juvenile court of Montreal.

"My observation," she said, "is that children excessively using cigarettes are under size as well as deficient in morality and mentality. I have known them to come into court with their stomachs almost burned out—unable to eat or sleep properly because of using cigarettes. I have known many *cases where mothers have given cig*arettes to children simply to humor them without regard to moral or physical effects."

LAND OPENED FOR PREEMPTION

Areas in Cranbrook and Fernie Land Districts to be Opened for Settlement.

(By Daily News Leased Wire)

VICTORIA, B. C., April 21. — Hon. William R. Ross, minister of lands, has announced the opening for preemption of a number of areas in var*ious parts of British Columbia.* On May 1 areas in Cranbrook and Fernie land divisions of East Kootenay will be opened to settlers at the offices of the government agents at Cranbrook and Fernie, these tracts aggregating over 10,000 acres, the bulk of which are logged-off lands. On the same date a tract of logged off land on Manaspina peninsula, about a mile back from the settlement of Lund, one of the various ports of call for coasting steamers, situated 90 miles from Vancouver, will be opened to *settlers at the office of the govern*ment agent in the court house at Vancouver. On May 18 two large tracts of logged-over lands in the Salmon River valley, Vancouver island, a district in which settlement is advancing rapidly, will be open for preemption, also at the office of the government agent at Vancouver.

The largest of the many areas to be opened to settlement in the near future are those on the South Fork of the Fraser River. In this valley, through which the Grand Trunk Pacific railway has just been completed, *in the reserve created in 1907* about 50,000 acres of farming land will be opened to settlement, the eastern part, in the neighborhood of McBride and east to Mount Robson park on June 1 at McBride, a divisional point on the Grand Trunk Pacific railway, where a growing city is situated 145 miles east from Fort George, a special office being opened there for the purpose for one week by the government agent at Fort George, and the western half at Fort George on June 15.

On June 15 also at the office of the government agent at Alberni, a tract of 5,000 acres, which has been subdivided into lots of 40 acres, on Ucluelet peninsula, between Wreck bay and Long Bay and Kennedy Lake will be opened.

LORD INCHCAPE RETURNS.

(*Western Associated Press, Special* Cable.)

LONDON, April 21.—Lord Inchcape has returned to London from the continent.

Lord Brassey arrived at Plymouth today from India on board the yacht *Sunbeam, after a five months' trip.*

Lady Betty Bertie, youngest daughter of the Earl of Abington, was married today to Capt. S. W. Trafford of Wroxham, Norfolk.

SIMCOE RECTOR DIES.

(By Daily News Leased Wire)

LONDON, April 21.—Rev. R. Hicks, D. D., rector of Trinity church, Simcoe, and a canon of Huron diocese, died this morning aged 65, from pneumonia.

MOUNTED POLICE DELVE IN DEBRIS

Seek for Bodies in Charred Ruins of Macoun Hotel

FIRE SPREAD WITH GREAT RAPIDITY

Train Loads of Visitors Arrive to View Scene of Holocaust.

(By Western Associated Press Staff Correspondent.)

MACOUN, Sask., April 21.—All day long trains from north and south brought throngs of curious people to *this little town,* where 10 lie dead and half as many more lie suffering in hospitals from injuries received when the gas plant of the Macoun hotel exploded yesterday. In the hospital at Estevan seven others are being cared for and one of these, Stella Peterson, *the hotel cook, is likely to die.* At 10 o'clock tonight she was sinking.

The numerous visitors all day formed a moving circle round the charred ruins of the wrecked building, watching silently the men of the mounted police, their red coats blackened and *torn, delve into the debris,* seeking those who were lost in the holocaust. The remains found were charred beyond recognition and only the knowledge of those seen in the hotel immediately before the explosion and the checking up of those who escaped *provided the police with a basis for* the death list.

Death Roll Changed

The number of dead remains at 10. There are some changes, however, in the list as published yesterday.

The man Thomson, reported to have *perished,* has been located alive, the remains believed to have been his being now identified as those of Dan Egan, a telephone lineman, of Moose Jaw. Egan was a native of Charlottetown, P. E. I. The remains of another who died, supposed to be a man, have *been found, but the identity has not* been established.

Stella Peterson, the hotel cook, who was given yesterday as having died of her injuries, is still alive, but little hope is held out for her recovery. About two-thirds of her body is deeply *burned and scarred.* When the explosion wrecked the building she was pinned down on to her stove in the kitchen and held down on the metal for some time before being rescued.

School Teacher Recovering

Miss Margaret Wilson, the school teacher reported as dying, is recovering, though suffering badly from the shock. She was coming down the stairs at the time of the explosion and was thrown against the wall, dropping back amidst the falling woodwork, sustaining an injury to her head and bad wounds in her feet. She is a native of Woodstock, Ont.

Late last night an inquest was held by Dr. Eaglesham, coroner, of Weyburn, and a formal finding returned. The bodies were viewed in a temporary morgue some distance from the hotel. The list of known injured has grown as details were secured from the homes at Macoun where sufferers were hurriedly taken yesterday. Following is a complete list:

List of Injured

In Eastevan hospital: Thomas Robertson, 35 years old, telephone lineman, Scotsman; Ludwig Eik, 37, painter, a Norwegian; W. L. Peter, 30, hotel clerk; Stella Peterson, cook; D. M. Buddoch, 33, traveller, Winnipeg; Margaret Wilson, teacher, Macoun; L. M. McDermid, school principal, Macoun.

Billeted at Macoun: Miss G. Hockhaus, daughter of the proprietor of the hotel; Carl Hockhaus, son; Bernard Hockhaus, son; W. A. Davis, Standard Trust company, Winnipeg; Miss Cypt, chambermaid; Hugh Beaton, hotel clerk.

With the exception of Miss Peterson, none of the injured is dangerously hurt, though Miss Wilson's injuries are somewhat serious.

It was thought till late this afternoon that there were three more of the telephone linemen burned in the fire, but the superintendent on arriving at Macoun in the forenoon, drove out to the country where he had a squad of men at work and ascertained that those who were thought to be missing were there.

Had Miraculous Escapes

There were some miraculous escapes from the building when the fire broke out. Hugh Broadfoot, a clerk in the Macoun Hardware company store, was sitting at dinner when he complained of sensing a strong odor of gas and rose and went out. He had just reached the outside of the dining room door when the explosion occurred. The little son of the proprietor of the hotel was playing with a dog in the vestibule of the hotel and when the explosion came he was shot with the dog right through the door and out into the street.

One of the guests was in his room on the third storey and was projected through the window when the building toppled partly over.

None of the people who were in the dining room of the hotel at the time of the explosion escaped and all who were in other parts of the house met with injuries of some sort. The dining room was adjoining the kitchen and right over the acetylene plant

WESTERN FEDERATION OFFICIAL RETURNS TO NEW DENVER

William Davidson is Back From Tour of Mining Districts in Ontario and Michigan.

(Special to The Daily News.)

NEW DENVER, B. C., April 21.—William Davidson returned on Saturday after a prolonged stay in the mining centres of Ontario and Michigan.

The Ladies' Aid of the Methodist church has announced a social evening in Bosun hall on Friday, May 1. There will be an excellent program, followed by a supper.

Miss Elsie Cadden of Rosebery spent the week end in town, the guest of Mrs. Edwin Tingle.

Miss Gertrude James of Silverton spent Sunday in town, the guest of Miss Eleanor Dawson.

Mr. and Mrs. S. Y. Brockman and Alan Brockman of Rosebery spent Sunday in town.

A farewell dance will be given in Knights of Pythias hall on Wednesday evening in honor of Provincial Constable and Mrs. R. J. Sutherland who will leave shortly to make their home in Golden, where Mr. Sutherland will be chief provincial constable.

Mrs. Walter Tattrie of Sandon is spending the week in town with her mother, Mrs. Samuel Burgess.

W. H. Webb of the Dominion hydrographical survey, came in Saturday and is registered at the Newmarket.

Herbert W. Sharpe of Nelson was in the district last week.

Clyde White spent Wednesday in Sandon.

Mrs. Clarence D. Goopel of Victoria is visiting Mrs. M. S. Davys.

Easter services were held in the Methodist church on Sunday evening and in Silverton in the afternoon. There was special music and both services were well attended.

The Easter festival was celebrated in St. Stephen's church on Sunday, April 19.

Mrs. S. J. Towgood of Sandon spent the week end as the guest of Mrs. F. H. Hawkins at Bosun cottage.

Mrs. William Vallance left on Wednesday morning for a short visit in Vancouver.

SOUTH SLOCAN DISCUSSES FIELD CROP CONTESTS

(Special to The Daily News.)

SOUTH SLOCAN, B. C., April 21.—The Kootenay River Farmers' institute held a special meeting in the hall on Saturday evening under the presidency of John Shepley, C. Gray not being able to attend. It was chiefly to discuss the field crop competition. It was decided to charge $1 entrance fee to each competition.

W. E. Knowler and James Macaulay of Vancouver spent the day here the guests of O. W. Humphrey. Mr. Macaulay has just recently returned from a trip around the world and after traveling for a year he is delighted to be back in Kootenay. Mr. Macaulay, who has a summer home here, contemplates erecting a new residence during the coming summer. He is returning to the coast tonight and hopes to be back at South Slocan again for May 24 for the early fishing.

John McLeod of Nelson, fisheries overseer, spent the day around the junction.

A general meeting of the Kootenay River Conservative association is called for April 25 at 7 p. m.

Mrs. Ernest Hall of Kentucky is visiting her mother, Mrs. A. Robertson of Shoreacres.

Miss Bessie Leadbeater returned from Nelson yesterday where she was a patient at the Kootenay Lake hospital. Miss Leadbeater has quite recovered from her illness.

F. J. Lyms left for Nelson yesterday after a week's holiday spent at the junction.

CONDITION OF AUSTRIAN EMPEROR IMPROVES

VIENNA, April 21.—The bulletin issued this morning concerning the health of Emperor Francis Joseph, says: "There is a general improvement in the emperor's condition."

CLEAN YOUR LIVER AND 30 FEET OF BOWELS WITH "SYRUP OF FIGS"

More Effective Than Calomel, Castor Oil or Salts; Gently Cleanses the Stomach, Liver and Bowels Without Nausea or Griping. Children Dearly Love It

You know when your liver is bad, when your bowels are sluggish. You feel a certain dullness and depression, perhaps the approach of a headache, your stomach gets sour and full of gas, tongue coated, breath foul, or you have indigestion. You say "I am bilious or constipated and I must take something tonight."

Most people shrink from a physic—they think of castor oil, calomel, salts or cathartic pills.

It's different with Syrup of Figs. Its effect is as that of fruit; of eating coarse food; of exercise. Take a teaspoonful of delicious Syrup of Figs tonight and you won't realize you have taken anything until morning, when all the clogged up waste matter, sour bile and constipation poisons move on and out of your system, without gripe, nausea or weakness. Nothing else cleanses and regulates your sour, disordered stomach, torpid liver and thirty feet of waste-clogged bowels like gentle, effective Syrup of Figs. Don't think you are drugging yourself. Being composed entirely of luscious figs, senna and aromatics, it can not cause injury.

If your child is cross, sick and feverish, or its little stomach sour, tongue coated, give Syrup of Figs at once. Its really all that is needed to make children well and happy again They dearly love its pleasant taste.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," and look on the label for the name—California Fig Syrup Company. That and that only, is the genuine. Refuse any other fig syrup substitute with contempt.

SPREADING RAILS DITCH COAL CARS

Passenger Service Tied Up by Accident Near Fernie—Mudslide Narrowly Misses Water Main.

(Special to The Daily News)

FERNIE, B. C., April 21.—Owing to spreading rails six cars of coal are piled in the ditch at Dorr on the Great Northern railway. Passenger service will be tied up until late today.

A huge mud-slide occurred on Sunday morning on the banks of the Elk river near the Fairy creek bridge, north of the city, and came within a few feet of the city water supply pipe line.

Dr. Burnett, who has been relieving Dr. Corsan for the past three weeks, has returned to his home in Victoria.

Miss Whitehead of Cranbrook, who has been visiting Miss Nash, returned to her home on Cranbrook on Sunday last.

Dr. B. R. Ilsley, V.S., is testing cattle in Fernie and vicinity for tuberculosis and is registered at the Napanee.

Provincial Constable C. B. Welsley is acting chief until a successor to Chief Minty is appointed.

Judge Thompson will hold county court here tomorrow when three men will come up for speedy trial.

Ald. Rizzuto has commenced work on an addition to his hotel and expects to have it completed in the early summer.

L. W. Boyes, formerly secretary of the Fernie Fort Steel brewery and now of Frank, is spending a few days in the city renewing acquaintances.

Joseph Stivers, cashier for the Great Northern railway, has been promoted to Kalispell, Mont. Frank Harring, formerly of the Home bank, is taking the cashiership.

Owing to the heavy rain on Sunday the open air concert to have been given by the bands of the city was called off.

SLOCAN CITY

(Special to The Daily News.)

SLOCAN CITY, B. C., April 21—D. B. Lattey, principal of the public school here, spent the week end in Nelson, returning home on Saturday.

Miss Anna Turnbull of Perry's Siding was a visitor in town last week, and was the guest of Miss J. Armstrong.

Mrs. H. Parker has been appointed organist in Knox Presbyterian church to fill the vacancy made by Mrs. R. Graham, who now resides at Colville, Wash.

Dr. M. J Vigneux of Nelson made a professional visit to town on Saturday. He was accompanied by Mrs. Vigneux and son, who will be the guests of Mr. and Mrs. A. Madden for a few days.

E. W. Graham and R. E. MacMillan came home on Saturday from Kootenay Lake general hospital.

James Madden was down from the Ottawa mine over Sunday.

Elmer Munro of Nelson is in town, the guest of A. A. Holt.

Victor Marks, William Greenwood and J. Rae spent their Easter holidays at Lemon creek.

COLUMBIA RIVER RISES RAPIDLY AT ROBSON

(Special to The Daily News)

ROBSON, B. C., April 21.—The Columbia river is rising rapidly, being now nearly up to the landing dock, having risen several feet within the last week.

The Canadian Pacific steamer Rossland which has been docked at Robson during the past winter, left on Wednesday evening last for Arrowhead and will soon resume her summer trips. While here she has undergone a thorough overhauling and is now in shape for business.

E. E. Watts has been appointed fire warden for the coming season by the Canadian Pacific railway to cover the territory between Castlegar and Shields. He will assume his duties on May 1.

Misses Maggie, Jessie and Gladys Clyde who have been spending the Easter holidays with their parents, returned on Sunday night, the two former to Deer Park and the latter to Nelson.

John Horn spent Sunday in Nelson

J. Whitehouse returned Monday morning from Nelson.

NEW DENVER MAN TAKES SEAT ON UNION DIRECTORATE

J. C. Harris of New Denver has accepted the vacant seat on the directorate of the Kootenay Fruit Growers' union. Mr. Harris is one of the largest producers and shippers of fruit in Kootenay and his presence will give additional strength to the board, it is stated.

"How is my inebriate patient getting along?" inquired the doctor breezily.

"He has been singing all morning," replied the nurse.

"Singing, eh? And what has he been singing?"

"'Sailing, sailing, over a bounding sea.'"

"Hum! Let's see his chart."

HOW YOU CAN REMOVE UNSIGHTLY HAIR OR FUZZ

(Boudoir Secrets)

By having a small package of delatone handy, you can quickly banish ugly, unsightly hairs wherever they may appear. Just enough paste to cover the hairy surface is made with some of the powdered delatone and water. This is applied for about 2 minutes, then removed and the skin washed. This simple method not only banishes every trace of hair or fuzz, but leaves the skin firm, smooth and free from blemish.

DISMISSES MINE CASE IN ROSSLAND

No Negligence on Part of Assistant Superintendent Shown—Kootenay Hotel Sold—General News.

(Special to The Daily News)

ROSSLAND, B. C., April 21.—Police Magistrate Plewman on Tuesday dismissed the action brought against Ed G. Montgomery, assistant superintendent of the Centre Star and War Eagle mines of the Consolidated Mining & Smelting Company of Canada, Limited, by James McGregor, inspector of mines of Nelson. Mr. McGregor conducted his own case, calling as witnesses William Purcell, Alex Aitken, W. Jones and William Richards, all timbermen in the War Eagle, Mr. Richards being timber boss. C. R. Hamilton, K. C., of Nelson, appeared for the defense.

The case arose out of the death, on March 28, of Joseph Pendray, a timberman, who fell down a winze. Mr. McGregor sought to show that the opening was not covered and that the management was negligent in permitting a dangerous hole to be thus uncovered. Mr. Hamilton called no witnesses in defence, resting his case on the evidence of the timbermen that the standing instructions from headquarters made it incumbent upon the men themselves to keep the cover on holes that could be considered dangerous.

His worship held that the evidence did not prove negligence on the part of Mr. Montgomery or any other particular person, or that the hole was frequently left exposed. He therefore dismissed the case.

Epworth League Holds Social.

B. Ursin of Grand Forks is in the city for a few days.

The Epworth league of the Methodist church held its regular meeting last night and was in the hands of the social and literary committee. The program consisted of impromptu speeches. Mr. Nixon spoke on "That Men of 25 Years of Age and Ladies of 30 Should Be Taxed, If Not Married;" S. John gave a few minutes on "The Ladies;" Mr. Plath spoke on "Pride;" Mr. Morrell gave several minutes on "Real Estate," and Mr. Harris on "Why Ministers Should Keep Out of Business and Politics." About 35 members were present. J. A. Paull was in the chair. The annual banquet will be held next Monday and invitations are being sent to the members by the executive. Election of officers for the new term will also take place.

A. S. Goodeve & Co., Ltd., reports the sale of W. J. and E. Pendray property to Rose A. Lefevre. The consideration is withheld.

Mining Students Coming.

Arrangements are being made by Dr. J. Bousall Potter, professor of mining engineering at McGill university, Montreal, for his senior students in mining engineering to hold a summer mining school in the Kootenay and Boundary district of British Columbia. The party will come some time in May and in the course of its trip will spend a few days in Rossland as in past years.

Mrs. T. Ternan left this morning for a short visit to Spokane.

The invitations for the curlers' dance are out and great preparations are being made for its success.

Mr. and Mrs. M. J. Nugent have returned from Florida where they spent the winter.

A quiet wedding took place at the home of Mr. and Mrs. John Cox on Monday when Albert Cox was married to Miss Elizabeth Turner. The bride is a sister of W. Turner and arrived in Rossland on Saturday evening from her home in Staffordshire, England. Rev. S. H. Sarkissian performed the ceremony in the presence of a few friends and relatives.

Trail Man Buys Hotel.

The Kootenay hotel has changed hands, the purchaser being Isaac McLeod of Trail. George D. George, the vendor, had applied to the board of license commissioners for a transfer of the liquor license from Frank J. Kinkle, the former proprietor. Objection had been taken to the issuance of a license to Mr. George and the matter had been further in the limelight owing to charges recently brought against George and another. Mr. George's application with the transfer fee was returned by the board at its Monday night's meeting following the sale to Mr. McLeod who is running on a permit until he obtains his own license.

The board granted bartenders' licenses to Edwin J. Burkart, John Ramsey and Matt Rozeck, the first two in the Kootenay and Rozeck in the Centre Star hotel.

MOUNTED POLICE DELVE IN DEBRIS

(Continued from page one.)

which was in the basement. In another part of the basement there was the furnace, which was burning, the day being cold.

Acetylene Leaked

The acetylene gas plant was attended to shortly before 12 o'clock and it is supposed that it was afterward that the leakage occurred and ignited from the fire in the furnace.

It was some minutes after the explosion before the flames appeared in the building and at this time there were 20 or 30 of the people in town in different parts of the house trying to effect the rescue of those who were injured and who were calling for assistance. Many of the rescuers had also very narrow escapes. The flames spread with extraordinary rapidity, there being a strong gale blowing at the time and soon buildings on either side were ablaze. From the one building it leaped to the other and within an hour the telephone exchange, a house, the barber shop and a butcher shop were all in ashes. All the buildings are covered by insurance, $10,000 being on the hotel.

Lost Wife and Daughter

C. Hockhaus, the proprietor of the hotel, who, along with his daughter, Mrs. Holly, and her husband, had been spending a few days at Grassy Lake, Alta., arrived in Macoun on the train due at 1 o'clock.

Mr. Hockhaus said he was unable to give expression to his thought and he could not realize the terrible calamity that had befallen him.

Mr. Hockhaus is a German by birth and has been in Canada for the past 30 years. He bought the Macoun hotel only six weeks ago. This is the first death that has occurred in his family, he states, and at the loss of his wife and young daughter under such awful conditions he is stunned with grief. Arrangements were made this afternoon to have the remains of Mrs. Hockhaus and Emma Hockhaus taken to Lethbridge tomorrow for interment.

Trainloads of Visitors Arrive

Splendid work was done by the people of Macoun in attempting to rescue the injured and in caring for them when they were taken to places of safety. Dr. Mitchell and H. Westergaard, bankers, were indefatigable in seeking to alleviate the suffering of the injured and a number of married women who were trained nurses by profession also lent valuable aid. The telephone exchange being burned, the town is without telephone communication.

Trainloads of visitors arrived in the town today to view the scene of the disaster. Offers of assistance are being sent into Macoun from all the surrounding towns.

DR. MACNAMARA RELATES SOME AMUSING ANECDOTES

Many good stories were told by Dr. Macnamara, M.P., recently, when he gave some of his "Reminiscences and Reflections" at the Herne Hill Congregational church, London, with Sir Albert Spicer in the chair. Beginning with the barrack-room at Montreal, he was alternately serious and humorous. On the one and only day he played truant at Pembroke Dock his mother went to ask the schoolmaster if he could leave early to go out to tea. "And this," he remarked sorrowfully "I have always regretted as hard lines."

Half the failures in life, he said, are those of people who thought they could do something else better. This was his first reflection. And so, although he wished to be a solider, he did his best as a pupil teacher. At Exeter he was taught singing by a lame man who waved his stick threateningly when his pupils did not grasp a melody quickly. This lent itself to Dr. Macnamara's first witticism, for this, he thought, must be the meaning of the "staff notation."

He broke out as a speaker at the Borough Road Training college. Then he became a pioneer in advocating smaller classes in schools, more effectually equipped teachers, provision for medical inspection and treatment of children—all of which he gratefully admitted had become to a large extent realities of today.

Among the unconscious witticisms of children (for which he did not vouch) he narrated that a small boy defined "Mediator" as "a chap who says hit me instead." Another boy, whose home-lesson sums were all wrong, told his teacher, "I knew they would be; father would help me." An alleged answer to the question, "What does 'etc.' mean?" was, "A sign to make believe you know more than you do."

His platform anecdotes were in several cases told against himself. Last year, speaking in a marquee at Brislington in torrential rain, he said, "I'm afraid I've kept you too long," when a voice in the rear replied, "Go on, it's still raining!"

ORDER OF QUEEN MARY.

Pointing out that the great services performed by women are generally overlooked in the Honors List. The Gentlewoman suggests that an Order of Noble Womanhood—the Order of Queen Mary—should be instituted as an order to be bestowed by a Queen upon women.

PUTNEY OARSMAN ISSUES CHALLENGE TO DURNAN

(By Daily News Leased Wire)

TORONTO, April 21.—Eddie Durnan announced today the terms upon which he will agree to meet William Albany of Putney, England, who has expressed the intention of rowing Durnan for the championship of America. In the challenge which Albany sent he stated that he would row the local man for $1,000 and $250 expenses.

Durnan said this morning that he would be willing to give Albany $250 for expenses.

Green, the Berlin oarsman, who was defeated on the Toronto course by Durnan last fall, is anxious to contest the championship again with Durnan, but this time on his home course.

"I will go down to Boston and meet him for a $2,500 bet and expenses," said Durnan.

FEDERAL LEAGUE CUTS INTO INTERNATIONAL GATE

BALTIMORE, Md., April 21.—That the Federal league is going to make itself felt in the International circuit was shown today at Baltimore. There were 3,000 spectators at the Federal park, while there were only 1,000 watching John Dunn's crew play Buffalo in the opening game of the International season. Baltimore, like St. Louis, is a major league town, and it looks as if the Federals will hold the balance of power in these two cities, also the International park and the Federal plant are only a block apart.

ANNECY WINS GREAT METROPOLITAN STAKE

(Canadian Associated Press, Special Cable.)

EPSOM, England, April 21.—The Great Metropolitan stakes, a handicap of $5,000, about two miles and a quarter, for the first long distance handicap of the season, was won here today by the favorite, C. Burns' 5-year-old colt, Annecy, by Simontault-Stolen Armor, carrying 104 pounds and starting at 5 to 4. P. F. Heyburn's Vermouth, 5 to 2, was second, and Sir William Cook's Vraveloote, 100 to 6, third.

Tomorrow the City and Suburban is run, this being the most important perhaps of the spring season.

UNCONSCIOUS JUDICIAL HUMOR.

The funny sayings of a judge who never joked form one of the finest collections of judicial humor ever published. This is "Arabiniana," a selection of the dicta of Sergeant William Arabin, who sat as a judge at the Old Bailey, London, from 1830-1839. They savour somewhat of Sir Boyle Roche. For instance, his remark to counsel, "If you can show precisely at what moment the offence was committed and prove that the prisoner was not there when he did it, he could not possibly have done it." And he sagely added as an afterthought: "We cannot divest ourselves of common sense in a court of justice." Another axiom he delivered himself of has been fathered on many other occupants of the bench: "If ever there was a case of clearer evidence than this case, this case is that case."

FEDERAL LEAGUE.

Make It Five Straight.

(By Daily News Leased Wire)

ST. LOUIS, April 21.—The local Federals won their second game from Chicago 4 to 3 today, making the fifth consecutive victory out of six games played thus far.

Score by innings:		R.	H.	E
Chicago	0 0 1 1 0 0 1 0 0	3	5	2
St. Louis	0 0 0 0 1 2 0 0 1	4	7	1

Batteries—Brennan and Wilson; Willett and Hartley.

Hit Over Scoreboard in Tenth.

(By Daily News Leased Wire)

BALTIMORE, Md., April 21.—Pitcher Jack Quinn won Baltimore's game with Brooklyn today by hitting the ball over the scoreboard in deep centre in the tenth. Baltimore tied the score in the ninth, when Walsh hit the ball over the scoreboard.

Score:	R.	H.	E
Brooklyn	2	7	2
Baltimore	3	5	1

BODY WAS TERRIBLY DISFIGURED BY ICE

(By Daily News Leased Wire.)

WINNIPEG, April 21.—The unidentified body of a man was found in the Assiniboine river at Pidgeon lake this afternoon by a lumberman driving a raft of logs on the river. The body was terribly disfigured by its contact with the ice. It is believed that it has been in the water two or three days only. Some money was found in the pockets, but nothing to designate the man's identity. The body has been brought to the city and will be held as long as possible for identification.

PARIS WELCOMES BRITISH RULERS

(Continued from Page One.)

gentleman-in-waiting; Sir Frederick Ponsonby and Lord Charles Nairn, equerries-in-waiting; Sir William Tyrrell, private secretary to Sir Edward Grey, and Sir James Reid, physician-in-ordinary.

Sir Edward Grey and his secretary are in residence at the British embassy.

The greeting accorded King George and Queen Mary was a flattering one. The evening newspapers published their welcome to the royal couple in English.

At tonight's banquet in honor of the King and Queen, President Poincare proposed the toast of their majesties. He declared that public opinion on both sides of the channel was associated in a fresh demonstration of confidence in the mutual sympathies of the governments of the two countries. Their majesties' visit consummated the friendship which had endured the test of time and experience and undoubtedly the bonds of intimacy were daily drawing closer.

The King, in reply, referred to the intimate and cordial relations of the two countries, which directed their joint labor to the humanitarian work of civilization and peace.

WHY TOOTHACHE IS BLESSING IN DISGUISE

It's hard to believe that any good can come of any torment so excruciating as an aching tooth, yet science assures us that toothache is really a blessing in disguise, says the Montreal Standard. Were it not for this pain in our jaw we might soon have much more serious troubles in other parts of our bodies to worry us.

The teeth and gums are the restricted residential section of the body for high-class disease-producing bacteria. In the mouth every condition favors the growth and increase of harmful microbes, and once they are lodged there they are extremely hard to get rid of.

The famous Mayo brothers report mouth infections in 86 per cent of the patients who come to them to be treated for "stomach trouble." The records of every dental clinic show that more than 10 per cent of the sufferers from neglected teeth are in more or less serious danger from blood poisoning or other troubles, which can be traced directly to the harmful microbes in the mouth. All these facts show why we should be thankful that our teeth do ache when they become diseased.

Many of us do not realize that the gums and other parts of our bodies are connected by a complicated series of canals, known as the lymphatic tissue.

If the teeth are not looked after properly germs collect on them and on the gums. When the mouth becomes over populated some of the microbes emigrate by way of the lymphatic canals to other parts of the body. There they often find conditions were more favorable to their increase than in the mouth, and a disease promptly results.

In nine cases out of ten the only thing that prevents this general poisoning condition is that the teeth begin to decay and sooner or later a nerve is exposed. Then the tooth begins to ache and its pain serves as a timely warning that there is trouble on foot.

The dentist is visited in haste, and either the tooth is pulled out or the decay is removed. Thus the toothache, a blessing very much disguised, warns us in time to prevent serious illness.

Not only toothache, but any form of pain, serves a highly useful purpose. *An aching head is often a signal that* we need more rest, recreation and sleep. A pain in the stomach is nature's way of calling attention to the fact that we have been eating or drinking unwisely. Most of us would undoubtedly die long before our time were it not for these timely little warnings which nature gives now and then in the shape of little aches and pains in various parts of our bodies.

IMPERIAL NAVY DEFENCE CONFERENCE POSTPONED

(Canadian Associated Press Cable.)

LONDON, April 21.—The proposed imperial navy defence conference, in which the whol coverseas dominions are to take part, has been indefinitely postponed. A white paper issued by the colonial office tonight states this fact and gives the correspondence that took place with Australia and New Zealand on te subject. Canada, it is pointed out, assented to the defence conference and inquired after a suitable date. New Zealand said she would like to be represented, but could not make adequate arrangements until the time and place were convenient. The Australian government wired March 23 that it was now impossible to send minister to London during 1914, but urged the principle of continuous representation on the committee of imperial naval defence.

PRINCE ALBERT CITY CLERK GETS GOVERNMENT JOB

(By Daily News Leased Wire)

PRINCE ALBERT, Sask., April 21.—The resignation of C. O. Davidson, city clerk, has been accepted by the city council. Mr. Davidson, it is understood, has decided to accept the position on the local government board for Saskatchewan, offered him some weeks ago, and will in future make Regina his home.

LEGAL AND OFFICIAL ADVERTISING.

Effective on and after Jan. 1, 1913.

Legal Advertising (includes municipal and government notices) — 12c per line for the first insertion and eight cents per line for all subsequent insertions.

In certain cases, however, for the convenience of the public, flat rates have been set, as follows:

Applications for Liquor Licenses:—Once per week for four weeks, $5; daily for month, $20.

Applications for Transfer of Liquor Licenses:—Once per week for four weeks, $7.50; daily for month, $45.

Land Purchase Notices:—Once per week for 60 days, $7.

Land Lease Notices:—Once per week for 60 days, $7.

Certificate of Improvement Notices:—Once per week for 60 days, $12.50.

Delinquent Co-ownership Notices:—Once per week for 90 days, $25.

Duplicate Certificate of Title Notices:—Four insertions, $8; eight insertions, $14.

Water Application Notices:—Four insertions up to 100 words, $6; over 100 words, in proportion.

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

WEDNESDAY, APRIL 22

CANADA AND THE MEYICAN SITUATION.

In the house of commons at Ottawa yesterday a private member asked the government what steps were being taken to protect Canadians and Canadian interests in Mexico during the present crisis. The reply was that the government was in communication with the Imperial authorities on the subject, in other words, and put bluntly, that the Dominion was depending upon the British fleet, to which it does not contribute a cent, for the protection of Canadians and Canadian interests.

This is the situation which has been forced upon Canada through the action of the senate last year in rejecting the government's naval proposals which consisted of a contribution of $35,000,000 toward the Imperial navy. Had that money been granted and paid over Canada could today with good face have delegated the protection of Canadian lives and Canadian interests to the British navy for the Dominion would have been able to say that it had done at least a portion of its share in the matter of Imperial naval defence.

Nothing could have done more to bring home to Canada the invidious situation which the country occupies, as a result of the senate's action a year ago, than the present situation.

AN EVENT TO BE TAKEN ADVANTAGE OF.

The promised visit of a party of Winnipeg business men to Kootenay and the Boundary promises to be an important event for this section of British Columbia. These men representing the most progressive of the business element of the prairie metropolis, as they will, during their trip through will have an opportunity of seeing for themselves the resources of this country and of learning of the development which is taking place.

Those interested in the various industries of the country owe it to themselves and to the district to welcome the prairie tourists and to put them in the way of getting any and all the information which they may desire. The boards of trade and other public bodies of the various cities which are to be visited should lose no time in making preparations for the occasion. The welcome should be one worthy of Kootenay and the Boundary and the information prepared for the visitors should be complete so far as it relates respectively to the different sections as well as to the district as a whole.

The visit will afford an opportunity to do a real service to Kootenay and the Boundary. It remains with the people of Kootenay and the Boundary themselves to see that this is rendered.

HEALTHY HAIR---NO MORE DANDRUFF

Parisian Sage Makes Dry, Unattractive Hair Soft, Fluffy, Abundant and Radiant With Life.

It's entirely needless to have unsightly, matted, scraggy or faded hair. A little care is all that is needed to make it soft, pretty, perfectly healthy, and free from dandruff, the hair destroyer.

Use Parisian Sage—it supplies hair needs and is absolutely harmless. It cleanses the scalp of all dandruff, quickly stops itching head and falling hair, and is one of the best tonics to stimulate the hair and make it grow long and beautiful.

Get a bottle of Parisian Sage today from the Poole Drug Co., or at any drug counter. It costs but 50 cents. Rub it into the scalp — all dandruff disappears—your head feels fine—the hair is pretty and perfectly healthy.

WHAT THE PRESS IS SAYING

Canada's Educational Standing

The conceit of the ordinary Canadian in the relative educational standing of his country is rudely punctured by the criticism of Dr. Robertson, who intimates that Canada is about where Scotland was 40 years ago in education.—Saskatoon Phoenix.

A High-Priced Privilege

The president of the Singer Manufacturing company has given $500,000 to a New York church on condition that he be made a member of the choir. If he needs to pay that much it gives some idea of the kind of singer he is. However, unless he insists on singing solo parts, perhaps it will be all right.—Toronto Star.

The Entente Cordiale

The entente cordiale between Great Britain and France has lasted ten years. It appears more harmonious than ever, and Canadians are not the last to rejoice at the fact.—La Presse, Montreal.

THIS DAY IN CANADIAN HISTORY

When the Liberal party came into power in July 1896, Hon. W. S. Fielding resigned his position as Premier of Nova Scotia, and became Minister of Finance, and it was on April 22, 1897, that he first presented the budget. It is an interesting fact, by the way, that this task fell to his lot fifteen successive years, an experience attained by no other Canadian Minister of Finance.

There were various changes in the tariff, the most notable departure from the "National Policy" being the introduction of what is known as "the British Preference." From time to time during the preceding decade (and even earlier) the plan of giving a tariff preference to Great Britain had been discussed; but it was left to the Liberals in 1897, to put the idea into practice.

The deduction from the general tariff, in favor of British imports were "one-eighth in 1897-98, one-quarter in 1898-1900, and one-third in 1900," but since that year the preference has been diminished in the case of certain classes of goods.

THE WEATHER

Fine weather prevailed in the western provinces yesterday. It was cool in Manitoba and comparatively mild further west.

COLD STORAGE

"When we sent you to congress you said you were going to make some speeches that would wake 'em up," said the constituent

"Everybody there went to congress with the same intention," replied the new member. "I couldn't find anybody asleep."

Mr. Rural Hamlet (to ministerial guest)—Do have some more of the corn, Dr. Eighthly. It came out of our own garden.

Little Buttin Hamlet—Yes, 'n' the chicken came outer our own garden, too. Pa said he bet the folks next door would keep their hens at home after he caught a few more of 'em."

"The new currency bill will improve our reputation abroad," said Jerome S. McWade, the Duluth collector and financier. "Abroad, you know, thanks to the methods, now reformed, of 'big business,' we are regarded as a pretty sharp and tricky race.

"Once, in Devon, I asked a little boy some question in history.

"Who was George Washington?" I began.

"'A great general, sir,' he replied.

"'Right, my little fellow,' said I. 'And now tell me, if you can, what George Washington was remarkable for.'

"'He was an American,' said the urchin, 'and he told the truth.'"

No Dust No Dirt || Nothing but virtuous, fragrant tea leaves, giving their full quota of deliciousness in the tea-pot.

"SALADA" 26

You cannot imagine how good it really is unless you try it. WHY DELAY?

AT THE THEATRES

CHELSEA 7750

At the Starland, tonight and matinee, at 2:30 o'clock this afternoon, will be shown Henry E. Dixey in the great four-part feature, "Chelsea 7750."

Miss Ruth Manhart, Nelson's wonderful contralto, will sing at the matinee, as well as at the evening shows. Those who have not heard Miss Manhart sing are advised to do so for it is certain that Nelson theater-goers have never listened to a more enrapturing song-bird. It is beyond the limitations of written words to describe the glories of her voice. Young, rich, resonant, mellow and of marvelous volume are puny adjectives when applied to Miss Manhart's voice, which is aided by a perfect mastery of technique and by the gracious and pleasing manner of this young lady.

Tt the Gem Theatre this evening the extra special Domino Irish feature "The Filly," a dashing Irish story written by William H. Clifford, with Bob Stanton and Anna Little in the leading roles, will be presented. This is a racing story of the old time sort and full of interest. The squire's white horse is taught to go lame; later he and the girl color it up and she rides it in jockey costume in the big Donnybrook event. The villain is foiled and the money won. This is certainly a lively picture throughout and comes highly praised. A Keystone comedy, "The Bowling Match," twenty minutes of hilarious fun, and a Reliance feature, "The Hardest Way." Pathe's English gazette, showing "Over the Sticks," exciting incidents in a steeplechase handicap at Gatwick; French military reserves; whippet racing; Harold Fleming's match and all the latest news in animated pictures, make a fine treat for all picture-goers.

COMMUNICATION

THE ZINC QUESTION

To the Editor of The Daily News:

Sir,—Like other citizens I have been interested in the results of the experiments at the old electrical zinc smelter at Nelson and was one of the surprised ones present when Mr. Ingalls, in his report, advised that the experiments at the plant be stopped, but stated that a Mr. McA. Johnston had in contemplation the building of a ten ton furnace in Butte and perhaps he might be induced to come to Nelson. I noticed that Mr. Ingalls did not go into many details in reference to the experiments at Nelson. I, as one interested in the welfare of our community, thought that it would be a good idea to visit the works and verify the reports of success which had come to my ears. Come with me and I will tell you what I learned.

I had one advantage in introducing myself as a member of the publicity bureau of the Nelson board of trade and Mr. Dedolph, in charge, told the men to answer any questions I might ask them. As a business man I am always interested in system, etc., and found that nothing was left undone in the way of recording everything that might be of use in later experiments. I was shown the water jacket furnace, the electrodes used in generating heat in the furnace and the men were just finishing a new condenser of which is expected further success. Some of you who were present at the meeting when Mr. Ingalls gave his report may have noticed the question of W. R. Maclean, M.P.P. He asked if the blue powder could be smelted by the means of coke. I wanted to find out what this blue powder was in the process of smelting zinc ores. In the furnace Mr. Dedolph has constructed the electrodes to keep the slag melted and to such a heat that the charge above it goes off in vapor to the condensor and is condensed to zinc metal and zinc in the form of blue powder, which has to be smelted again to get the zinc metal, which any person can see by visiting the plant. I understand that Mr. Dedolph is convinced that he can so perfect the condensor as to attain a larger per cent of metal and less blue powder. I marvelled at the optimism of the man and thought of the pessimism of Mr. Ingalls. I then learnt some history of the experiments in zinc smelting at Nelson and I think it deserves publication and those who were so optimistic about the final success of zinc smelting by electricity surely have some cause for it.

Perhaps some may smile when they read this letter, a layman writing of a subject far removed from his business, but as one who observes and as one who is curious I am giving you the result of my curiosity. I have oftentimes noticed that the man who thinks he knows very little is the man who sets out to learn something.

Mr. Ingalls is admittedly a zinc expert, but an expert on the old process of zinc smelting; a man of this kind is apt to have his mind set against new ideas. Mr. Fowler, in his remarks, said that he knew what Mr. Ingalls was going to say, he did not come to hear him, but to meet him as an old friend. He must have known that Mr. Ingalls was set in his ideas. I thought the government was wise in getting an expert, and I was ready to abide by the advice of Mr. Ingalls, but curiosity got the better of me and to the works I went.

I understand experiments were conducted at McGill with a 200lb. furnace, in Nelson with a 2,000lb. furnace. Unfortunately the first furnace in Nelson was not a success, although the 200lb. furnace at McGill worked very favorably. The 2,000lb. furnace was planned and specified at New York and Ottawa according to the plans of Mr. Ingalls and lasted only a few days. I asked Mr. Dedolph from whose plans was the present furnace built. He then told me the department was anxious to show results and instructed Mr. Dedolph to construct a furnace, which Mr. Ingalls acknowledges is only a lap or two behind that of Mr. McA. Johnston's. I understand that Mr. McA. Johnston has a staff of technically educated assistants, while Mr. Dedolph was single handed, breaking in carpenters, blacksmiths and laborers to do electric smelting; to quote Mr. Ingalls, "The most delicate operation in metallurgy." The last furnace, which has been a success, was built from the scrap found around the old plant, with some help from the Nelson iron works.

I have no business interest in any zinc property, but I have an interest in the success of mining in Kootenay-Boundary for that means success for my business and a future for my children; and we as citizens should do our best to influence the government to continue the experiments in Nelson. I do not need to dwell upon the large quantities of zinc which could be smelted in Kootenay, and we who have seen the country develop in the last 22 years think of the great development which would accrue if the problem of commercializing the electric smelting process of zinc ores was made possible.

R. G. JOY.

Nelson, B. C., April 21.

AMAZING DISCOVERIES ABOUT PUSHING POWERS OF SUNLIGHT

What do you know about the moth and the flame? Does the flame pull the moth into the light? Does the moth resist the flame? If the insect has an instinct to reach the light, where is Darwin's law that animals have instincts to preserve their species? Or does the moth have curiosity, and is it merely investigating the light?

At one time there were some who denied that moths fly into a flame. But no more. Naturalists have proved that moths, flies, bees, butterflies and birds will burn themselves up in flame or butt their heads out against a lighthouse on a dark and stormy night. It follows that if physicists would prove that light had a pulling power or repulsive influence many observant persons would fail to be astonished.

Professor Arrhenius, the distinguished Swedish scholar, in the course of investigation about Halley's comet and the pushing power of luminous things has found that all illuminated bodies have a pushing force surpassing that of most human machines.

The reason this pushing power of light is not more readily recognized in large city streets or in the rooms of houses is easily explained. Almost as much light is reflected back against the source of light as the latter gives forth. So powerful is the pushing strength of sunlight that celestial bodies millions upon millions of tons in weight are prevented from being drawn into the vortex of the surf by old Sol's force of gravity—by the counterrush of the sun's light.

If you really wish to appreciate how vigorously any ignited or luminous body pushes, you may easily carry out a little experiment yourself. Turn on an ordinary electric bulb and hang near it a thin sheet of aluminium suspended from a string. There will appear after a little while a slight rise upward of the metal's free edge, much as a trapeze performer swings from the angle of the trapeze.

Dr. G. G. West, a young physicist, has elaborated upon this experiment to show in a highly ingenious and accurate manner the pushing effect of even so small a light as comes from an Edison lamp. His investigation was made, not in the air, but in almost a vacuum bottle in which a very little hydrogen was placed. A trace of mercury was also present, and he used gold leaf, better known as "gold beater's skin," instead of metal.

Hydrogen gas was used because most celestial bodies, such as meteors stars, suns, comets and the like are often surrounded in their outer layers with hydrogen gas. It is therefore certain that hydrogen interferes, but slightly, if at all, with this wonderful power of light to push and repel heavy metallic and other objects.

Dr. Jerome Meyers, the electrical engineer, estimates that if a man were to stand facing the edge of a cliff with the sun at his back, and all reflected light were to be neutralized or other wise checkmated from acting, he would be forced over the edge, beyond the shadow of a doubt. Indeed, though the sun is 93,000,000 miles away, its light has a pushing power greater than that of a large crowd of people.

Everybody recalls how the tail of Halley's comet a couple of years ago preceded the comet as it circled away from our greatest luminary. It puzzled all the savants of the New and Old World. They were compelled to denounce all known theories of astronomy, until the Scandanavian scholar and experimenter, Professor S. Arrhenius, showed that the tail of Halley's comet was actually repulsed and forced away from the sun by the powerful pushing force of the sun.

Since then much new knowledge has been gathered together to show that this wonderful and novel effect of the sun applies to all luminous things. Moreover, it is not only effective against mere dead weight, but plays an important part in living nature.

There is a tiny water animalcula that looks not unlike a cornicopia. It is greenish in tint and it gyrates about the water like a top, which it also resembles in other ways. Tests made in the biological laboratories on the behaviour of these animalculae are suggestive of the repellant effect upon them of this pushing power of light.

Much work remains to be done on microbes—easily killed by exposure to light—amoebae, worms and roaches. Independent of their habits and instincts, it is barely possible that sunlight pushes them back into their dark crevices.

CANADIANS GET DIVORCES.

OTTAWA, April 21.—The private bills committee of the commons today reported formally the senate bills granting a divorce to H. C. Pugh of Winnipeg. Bills for the relief of George C. Smith of Stewart Valley, Sask., and John A. Horn of Calgary were also reported.

The bill to incorporate the national council of women of Canada was also reported by the committee.

Houses for Sale

The following list represents some of the very best House Bargains in the city today. Prices will never be lower. The city's growth is steadily increasing. There is more building this spring than there has been for the past three years. It is cheaper to buy than build. Labor, material and land are continually advancing.

Eight-Roomed House on Victoria Street

Situated 2 minutes from the heart of the business centre; in good condition, with every convenience. Lot worth $1,200 at least. Owner left town. Rents at $35. Price for quick sale, $3,300. Terms $1,300 cash, balance can remain on loan.

A Five-Roomed Bungalow

Hot water heating, three well-improved lots. Cars by door. Very attractive property. A good buy at $3,000. Terms $500 down, balance arranged.

First-Class House on Vernon Street

Seven rooms, well finished throughout. Large roomy basement, cement floor. Every possible convenience. Open fireplace. Price $4,500 or nearest offer.

Three Rooms, Bath and Pantry for $950

Lawn, bearing fruit trees, level lot; city light and water; one block from car line. About $350 cash wanted, balance $15 or $20 month.

DISESTABLISHMENT BILL AGAIN PASSES

(Canadian Associated Press Cable)

LONDON, April 21.—The government is completely satisfied with tonight's division on the Welsh disestablishment bill although compared with last year's figures there is a drop of 15 votes. The figures were: For the bill 439, against 265.

Two Liberals abstained from voting and one Liberal, Sir E. Beauchamp, voted against the bill. The Irish members attended in full force, more than 70 of them supporting the government.

This marks the third succeeding session in which the commons has affirmed the principle of the present measure.

Chartered Special to Vote.

(Western Associated Press Special Cable)

LONDON, April 21.—Davidson Dalziel, who has been on a business mission to Brussels, in response to an urgent whip, chartered a special train and a tug and made a record run from Brussels across the channel to London in order to vote in tonight's division on the Welsh church disestablishment bill.

ECZEMA IN BLISTERS ON ARMS AND LEGS

Suffered Seven Years. Itching and Burning. Did Not Sleep Half the Night. Cured Completely by Cuticura Soap and Ointment.

982½ Yonge St., Toronto, Ont.—"My sister suffered for seven years with eczema. The trouble began on her arms and legs in water blisters and she scratched. Her clothes were rough around her legs and she suffered from itching and burning and loss of sleep; she did not sleep half the night.

"We used ——, —— and —— Ointment and they did not seem to do any good until we got Cuticura Soap and Ointment by which she was completely cured." (Signed) Miss Bessie McManus, May 17, 1913.

HANDS ROUGH, BADLY CRACKED

Muldoon, Que.—"During the cold winter weather I was troubled with chapped hands and also a rash on my face caused by sharp cold winds. My hands were very rough and were badly cracked open and if I went out in the cold air they always bled. I could not do my regular work. I used salve, cold cream and other remedies and still they were left unhealed. At last a friend advised me to try Cuticura Soap and Ointment. I sent for some and applied it to the affected parts and immediately found relief. My hands and face were cured within a week." (Signed) Miss Jennie Findlay, Jan. 9, 1913.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address post-card Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

CAPTURE VERA CRUZ IN FACE OF MEXICAN FIRE

(Continued from page one.)

its position and is now somewhere in the sandhills back of the interior where, it is reported from Mexican sources, they are expecting to be joined by reinforcements sent down from the capital.

This withdrawal, however, was not entirely premeditated. Those watching on the ships observed through their glasses a large force of Mexicans moving over the hills in the western outskirts of the city, apparently with the intention of flanking a batallion of marines in the railway yards and along Montezinos street, which runs east and west, not far from the American consulate.

Instantly the five-inch guns of the Prairie let go, breaking the Mexican formation and causing a hasty retreat. This ended the flanking movement.

Shell Sharpshooters.

Only a few minutes before the three-inch guns of the Prairie were used effectively, small detachments of Mexicans had gained positions near the customs house and their concealed marksmen were causing trouble. A few shots from the Prairie's guns served to silence that position. From time to time the same guns played their shells along the line of the shore keeping that territory comparatively free of sharpshooters.

In the action about the customs house two of the bluejackets in a launch which carried a rapid firer, were wounded.

Spectators Laughed at First.
(By Daily News Leased Wire.)

VERA CRUZ, April 21.—The Americans have captured Vera Cruz but at the cost of the lives of several men and a much larger number of wounded.

The Mexicans, under Gen. Maas, the commander of Vera Cruz, put up a stubborn resistance. Gen. Maas challenged the advance of the Americans almost from the first and made it clear that the Mexicans do not propose to permit a peaceful occupation.

Less than half an hour after leaving the side of the United States steamer Prairie, the marines had landed and the absence of resistance at the waterfront and failure on the part of the Mexicans to contest the taking of a position caused the spectators in the street to laugh and when one Mexican peon ran for cover, having had the temerity to shout at the top of his voice, "Viva Mexico," loud guffaws came from the onlookers.

Fighting in Earnest Begins.

But the lull was not indicative of compliance. A few shots came within a few minutes, later a brief exchange and the spectators whose curiosity alone brought them into the street lingered thinking only a show of resistance would be made. But after another brief interval fighting in earnest began and hour after hour the Mexicans continued to oppose the Americans fiercely in some quarters, although the main body apparently seemed ready to quit.

Most of the firing was done by outpost parties placed on roofs of houses at various points of vantage whose only choice was to keep on firing or surrender.

The guns of the Prairie assisted the landing party. Toward evening the fighting continued but it was not determined organized resistance.

Finally the Mexican soldiers who had not been captured, killed or wounded, retreated westward.

With all the eastern side of the city occupied and also the tracks of the railway as far west as the roundhouse near the western edge, on the north side, and with the Mexicans unable to do more than keep up an annoying but ineffectual fire from housetops, Capt. Rush at 4:20 o'clock this afternoon sent under a flag of truce a messenger chosen from among the natives to Gen. Maas, or whoever happened to be in command, to ask if he was not ready to surrender.

Lost Men in Charges

Capt. Rush was loath to resort to a bombardment from the warships and on the other hand did not desire to lose any more of his men by charges. He recognized that the tactics of the Mexicans might leave the housetop fighters in this position indefinitely and that it was not impossible that those who were sniping from the roofs might be reinforced by others of their kind during the night.

The messenger was told to remind Gen. Maas that while there were ashore at that time only a few more than 1,000 men there would be available for the American forces by morning some 10,000.

It was left to Gen. Maas to draw his own conclusions from this message.

Capt. Rush supplemented his wigwag system of communication with Rear-Admiral Fletcher as soon as he landed by radio operated from the roof of the Terminal hotel. Admiral Fletcher was kept constantly advised of the operations and in turn reported to Rear-Admiral Badger, who was off shore, and whose reinforcements would bring the available number of men up to 10,000.

Reluctant to Bombard

Capt. Rush was reluctant to take action which he knew would result in loss of life to his men and possibly noncombatants. He expressed the hope that the Mexicans would not persist until he had to call on the big ships for bombardment.

Lieut-Commander Buchanan, second in command, with other officers conferred with Capt. Rush constantly. At no time did Capt. Rush appear worried as to the final outcome of the combat.

Americans Use Roofs, Too

The fiercest fighting occurred an hour or two after the opening shots.

For a time the rifle and machine gun fire gave the people of Vera Cruz and the foreign refugees aboard the steamers in the harbor more thrills than most of them ever had.

Like the Mexicans, the Americans also took advantage of the roofs. The top of the Terminal station afforded an excellent position for sharpshooters. These naturally drew a return fire and it was there that two men were killed. Both of them had been detailed on signal work.

Refugee Train Stalled—Wires Cut.
(By Daily News Leased Wire)

VERA CRUZ, April 21.—The second section of the morning train from Mexico City, filled with refugee Americans, and a special train of refugees have both been held up somewhere along the road to Vera Cruz, presumably by General Maas.

Telegraphic communication with Mexico City was cut tonight and it is assumed that railroads are also cut.

There are several hundred Americans in Mexico City including Charge Nelson O'Shaughnessy, his wife and child.

Asks as to Canadian Interests.
(By Daily News Leased Wire.)

OTTAWA, April 21.—W. F. Cockshutt of Brantford is anxious about the safety of the lives and property of Canadians in Mexico and has placed on the order paper the following question to the government.

"In the advent of war between the United States and Mexico will the government take any precautions to insure the safety of Canadians in Mexico, and if so, what action will be taken?"

The question will likely be answered in the house tomorrow. It is understood that the government is keeping in close touch with the British authorities in regard to the safety of Canadian interests.

Pope Pius Interested.

ROME, April 21.—Pope Pius is evincing great interest in the situation between the United States and Mexico.

Mexicans Volunteer for Service

EAGLE PASS, Tex., April 21.—At a meeting of Mexican citizens here today, 500 volunteers were organized and equipped to resist what they call unjust intervention by the United States.

British Influence for Peace
(By Daily News Leased Wire.)

LONDON, April 21.—Whatever influence Sir Lionel Carden may be able to exercise in Mexico City will be in the direction of peace, and especially toward Gen. Huerta to recognize that a continued resistance to America's demands can have only one result. Beyond using its good office in this manner, British diplomacy cannot go, at any rate under existing circumstances, Britain's recognition of Huerta's government is an accomplished fact and nothing yet has occurred to cause the foreign office to recede from the position it took upon information similar to that supplied by the then American minister to Mexico himself.

WHY 7000 DRUGGISTS

Guarantee and Recommend Vinol.

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic reconstructor and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter & McGee, druggists of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. Wm. Rutherford, Druggist, Nelson, B. C.

NEARLY IN CONVULSIONS

With Acute Indigestion. "Fruit-a-tives" Cured Me.

NEWBURY, ONT., MAY 29th, 1913

"I am not a strenuous user of medicines or patent medicines, but I have taken nearly everything recommended for Indigestion and Constipation.

I have been so bad with Acute Indigestion that I was nearly in convulsions and had to be held. I have used "Fruit-a-tives" and I have not had another attack nor suffered at all with Indigestion since taking them.

"Fruit-a-tives" is the only remedy I ever used that did me any good, and I am grateful to "Fruit-a-tives" for making me as well as I am today, and everyone agrees that I look in firstclass health.

My husband likes "Fruit-a-tives" very much and takes them whenever he has occasion to use a remedy for Constipation"

MRS. D. McRAE

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for $2.50, trial size, 25c, or will be sent to any address on receipt of price by Fruit-a-tives Limited, Ottawa.

Huerta Appears Unperturbed.

LONDON, April 22.—A special cable from Mexico City says:

"Huerta remains absolutely unperturbed.

"The city is calm. Business is proceeding as usual. The poorer classes do not know the gravity of the crisis. Scores of United States citizens are preparing to depart.

"Charge O'Shaughnessy said he had received no instructions from his government relative to his departure.

"The foreign minister said that Americans there would be protected to the full extent of the government's power."

Seize Ammunition.
(By Daily News Leased Wire)

HAVANA, April 22.—One thousand boxes of ammunition and 25 machine guns, consigned to the federal commander at Vera Cruz have been removed from the steamer Monterey by orders from New York. This consignment will be deposited in the government powder magazines.

Use Machine Gun—City Quieter.
(By Daily News Leased Wire)

WASHINGTON, April 22.— This paraphrase of a despatch from Vera Cruz was made public at 3 a. m. today by the navy department:

"It is reported that Commandant Gen. Maas left Cruz in a carriage, that his family followed in another carriage and that he has not since been heard from. The Mexican troops were turned loose to act as they pleased, few if any officers remaining.

"It is said there is some looting, making it dangerous for natives and foreigners. At the time of this despatch the Mexicans are firing a 75-millimetre machine gun at the corner of Callee street and Morelos and Main streets.

"Mexican Col. Cerrillo was wounded early in the battle.

"A telegram from Vera Cruz says the town is quiet except for occasional shots by pickets. A few refugees are still in the consulate.

"It is believed the Mexican soldiers on the house tops will escape under cover of darkness and there will be no more fighting.

"A second messenger was sent to Gen. Maas again requesting him to stop firing and prevent the shelling of the town."

ONTARIO BUDGET NEAR TEN MILLION DOLLARS

TORONTO, April 21.—An increase in estimated current expenditure and a decrease in estimated capital expenditure, with an increase in the total amount asked for of near $300,000 are the chief features of the main estimates for 1914-15, tabled in the legislature tonight by Hon. I. B. Lucas.

The main estimates, which will be followed next session by the supplementaries, reach a total of $9,810,749. Of this amount, $8,811,749 is to be voted to meet current expenditure, while $849,000 will be set aside for capital expenditures, $150,000 being provided for other purposes. Last session's main estimates totaled $9,524,387.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine — double strength — is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine as this is sold under a guarantee of money back if it fails to remove freckles.

UNION WISHES T OINCREASE NUMBER OF BAND MEMBERS

(By Daily News Leased Wire.)

WINNIPEG, April 21.—The musicians' union of this city i sinsisting upon the number of players which shall be engaged in orchestras and in bands. They have informed the parks board that no band of less than 30 pieces must be engaged and the park board tonight decided to pay no attention to this ultimatum but to reserve the right to engage the number it thinks proper. As a rsult there may be no concerts in the parks this summer. Some similar trouble occurred a few years ago.

Your Privilege and Your Duty

Learn Nature's will, obey, and she will make you whole.

I am only Nature's humble student and interpreter. I examine, analyze the findings, then instruct you, aid you where necessary, and xtend you free consultation and advice as long thereafter as you are worthy.

Three Departments of Service

OPHTHALMOLOGICAL (Complete).

For those who are able and willing to make the necessary temporary sacrifices for complete and permanent recovery. Recommended to those with serious Acute or Chronic Eye Troubles, such as Cross Eyes, etc., Granulations, Growths, Inflammations, etc., etc.; and to sufferers from such ills as Nerve Troubles, Headaches, Heart Troubles, Neuralgia, Bladder Troubles, Hysteria, Abcesses, Insomnia, Anaemia, Asthma, Debility, Hay Fever, Incontinence, Piles, Menstrual Derangements, Stomach and Intestinal Disorders.

No vile diseases dealt with. No drugs nor operations. No embarrassing examinations. Don't suffer and risk delay. Special terms temporarily.

DIETICS, ETC.

For those who want the benefit of only such treatment as their environments and willingness permit. Always beneficial and very often entirely successful with: Indigestion, "The Blues," Grouchiness, Catarrh, Indisposition, Eczema, Abnormal Fat, Diabetes, Pains in Head, Rheumatism, Abnormal Sentimentality, some Eye and Nerve Troubles. Prices and terms reasonable.

SPECIAL.

For those who "just want glasses"—such glasses as can be fitted quickly without the fogging, dieting, etc., often necessary for full corrections and benefits. This is the old school service accounting for the re-examination idea and the myth about eyes changing. The advantage I offer you in this method is that the McCormick graduates, knowing so well its limits, can always avoid the harm often done, warn against unnecessary expense, save themselves work and worry and charge accordingly. This department is a temporary concession to certain industrial and social demands and may be withdrawn at any time. Its life depends upon the amount and quality of demand for the service.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal sub divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

N.B.—Unauthorized publication of this advertisement will not be paid for.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

Salmo Lock-Up.

Sealed tenders superscribed "Tenders for Salmo Lockup," will be received by the Honourable the Minister of Public Works up to noon of Friday the 1st day of May, 1914, for the erection and completion of a single constables' quarters and lock-up at Salmo in the Ymir Electoral District.

Plans, specifications, contract and forms of tender may be seen on and after the 9th day of April, 1914, at the office of Mr. J. Cartmel, Government Agent, Nelson; Mr. H. R Townsend, Government Agent, Rossland; the Provincial Constable, Salmo, and the Public Works Department Victoria.

By application to the undersigned contractors can obtain one copy of the plans and specifications for the sum of ten dollars ($10), which sum will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a Chartered Bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to 10 per cent of tender which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer, Public Works Department.
Victoria, B. C., 6th April, 1914.

NEWS OF THE MARKETS

STOCKS RISE ON MEXICAN NEWS

Believe That United States Action Will Improve Conditions for Corporations—Removes Uncertainty.

(By Daily News Leased Wire)

NEW YORK, April 21.—Notwithstanding the depressing influence of the Mexican crisis the stock market advanced today. Technical conditions proved to have a stronger influence than the Mexican news. It was apparent that the steady selling on the decline of the past week had brought about an oversold condition. It was said by some brokers that in proportion to the amount of business there was now outstanding a larger short interest than at any other time recently.

Only once, shortly after the opening rise, was the upward movement halted. Prices were forced back to yesterday's close, but the remand expanded on the recession and the market quickly sought a higher level Once again the bears attempted a raid and succeeded in forcing down Lehigh Valley to 132 1-4, but the weakness of this stock had no effect elsewhere. The advance was most general in the railway list, in which there were nearly a score of gains of 1 to 2 points, but some of the industrials, including Steel and Amalgamated, rose strongly.

The street was also greatly absorbed in Mexican news as it was yesterday and speculators were on edge all day awaiting some developments of sufficient importance to exert a decided influence on the market. Washington news definitely showing the attitude of the administration relieved the uncertainty of the last few days and led to a demonstration of strength.

Bullish traders pointed to the rise of today as proof of their prophesy that the market would advance in case of hostilities. They held that decisive action in Mexico would put an end to the long period of uncertainty and promised ultimately more favorable conditions for corporations with interests in Mexico. The government's weekly weather report showed that conditions had been favorable for corn and wheat to which was attributed in part the advance of the western railway shares.

Bonds did not share in the rise in stocks. Municipal issues in particular here heavy. Total sales, par value, $2,830,000. United States bonds unchanged on call.

LONDON EXCHANGE CLOSE ABOVE LOW

Market Hoped for Peaceful Settlement of Mexican Trouble—Austrian Emperor's Health Helps.

(Western Associated Press Special Cable)

LONDON, April 21.—The stock market was again depressed and narrow but closed above the day's low on repurchases due to the more helpful outlook for an eleventh hour settlement of the Mexican trouble and to reports on improvements in the Austrian emperor's health. Consols were offering at 75⅝. New scrips were weaker, the Montreal scrip declining to par.

C. P. R. closed stronger after a weak start. Oil shares were stronger but trading was most professional. Insiders are again discussing the likelihood of another oil share boom. C. P. R. was easier despite realizing sales from Berlin. The closing price was 204⅞, more than a point above the day's low. G. T. R. sold slightly off on publication of the half-yearly report today.

Train mileage for the last six months of 1913 decreased 1.53 per cent as compared with the same period of 1912. Capital expenditure for the half year amounted to over $100,000,000.

Canadian industrials were irregular and weaker in spots and shares were inactive. South American tractions were flat showing declines ranging from 1 to 2 points.

Call money was unchanged at 1 per cent. Discount rates were firmer, three months' money being quoted at 2 per cent. Of the $4,500,000 gold which arrived from the cape today, India secured half and Russia the other half, despite competition from Paris. The price paid was 77s, 9⅝d an ounce, the highest since October.

The chairman of the London-Brazilian bank says the financial position of Brazil will continue this year and perhaps next year owing to the poor coffee crop.

MONTREAL RALLIES IN SYMPATHY WITH NEW YORK

(By Daily News Leased Wire)

MONTREAL, April 21.—The local market experienced a good rally today, the reversal of the preceding day's movement following the upturn in the New York list. Richelieu was the active and spectacular feature on the rally. After opening heavy at 90¼ and falling to 97¾, equalling the low record price of several years established last week, it rallied a full two points in the morning. The advance was later continued to 91⅝ with the close at the highest.

Upward of 2,700 shares changed hands and interest in the day's trading centred largely on that one stock London was again reported a buyer and it was claimed in Richelieu circles that the stock was being taken up on a short interest.

Power, C. P. R., Brazilian, Laurentide and Shawinigan were other leaders to share in the day's improvement. Power, after slipping off, jumped 2¼ points to 221. C. P. R. rose to 200 and finished at the best. Laurentide, which was easy at 188½ finished 112½ bid and Shawinigan after selling at 130 in the morning closed 132 bid.

While advancing prices for leaders such as those named had a cheering effect on the general market some weak spots were in evidence. Heavy liquidation of Crown Reserve broke the price of that stock from 1.41 at the close of the previous day to 1.20. From this there was a rally to 1.32. Ames-Holden preferred fell 2½ to a new low at 57½ and rallied only ½. Nova Scotia Steel fell 2 to 66 and was offered at the low price at the close.

PRODUCE

MONTREAL PROVISION MARKET

(By Daily News Leased Wire.)

GRAIN

IMPROVED DEMAND IN EUROPE HARDENS PRICES

(By Daily News Leased Wire)

WINNIPEG, April 21.—The proximity of war between the United States and Mexico was not credited with firming wheat prices, an improved demand in Europe being a strengthening factor.

At Liverpool there was a good demand for Manitoba wheat by British millers, which was encouraging to holders while offers of Argentina and Australian were very small and Russian arrivals were also light.

The European visible for the week has decreased over 4,000,000 bushels, while world's stock has also declined to the extent of over 8,000,000 bushels and these facts caused uneasiness.

On the other hand the United States winter crop continues satisfactory, barring some complaints of dry spots and of dry winds with no actual damage as yet reported by green crops.

A despatch from Minnesota and North Dakota states seeding is rapidly progressing, 35 per cent to 50 per cent being done. A fairly good business in wheat for export was transacted on the local market while there was no inquiry for oats or flax.

Winnipeg opened ⅛ to ¼c higher and closed ⅝c higher. Minneapolis opened ⅛c lower to ¼c higher and closed ⅛ to ¾c higher. Chicago opened ⅜c lower to ¼c higher and closed ¼ to ⅝c higher.

Liverpool cables closed unchanged to ¼c higher; Paris ¾ to 1c advance; Berlin ¼c lower and Budapest 1⅛c higher.

Local cash demand for spot was quiet.

Cash wheat closed ⅜ to ¼c higher for contract grades. Cash oats closed ⅛ to ¼c advance; cash barley closed unchanged to ¼c advance; cash flax ½c advance on all grades at close.

Winnipeg wheat close—May 90¾; July 92⅝; Oct. 89⅝.

Oats—May 34¾; July 35⅞.

Flax—May 1.36⅝; July 1.39⅝; Oct. 1.40.

Minneapolis wheat close—May 89; July 90½; Sept. 87⅛.

Chicago—May 91½; July 86¼; Sept. 85⅞.

WANT AD HOROSCOPE

APRIL 22

Artists, discoverers, musicians and scientists have been born on this birthdate. Venus is the ruling planet of this destiny. Taurus is the sign dominating this birthdate. Only those who learn absolute self control can hope to command success of this is their birthdate. For little children of this birthdate only quiet and happy surroundings will counteract the influences of Venus.

Married life with a person born on this date is a difficult matter, for Taurus gives a jealous, suspicious, domineering nature, which is quick to resent.

As Taurus people are always anxious to marry and generally do marry more than once, they would do well to choose a mate whose birthdate falls not earlier than December 31 and not later than January 23.

The coming month will be favored by planetary influences for the buying and selling of real estate through the Want Ads for automobile interests and general department store wants

REPORT SHOWS GRAIN CROP OF HIGH QUALITY

(By Daily News Leased Wire.)

OTTAWA, April 21.—A bulletin issued today by the census and statistics office reports on the proportion of grain of last year's harvest that proved of merchantable quality and of the quantities in farmers' hands at the end of March, 1914, the report being based upon returns by crop reporting correspondents on March 31. Of the total estimated production of wheat in Canada in 1913, amounting to 231,717,000 bushels, 224,810,000 bushels, or 97 per cent, proved to be of merchantable quality. This is a larger proportion than in an yprevious year since estimates were first obtained in 1910 and bears out the known results of last year's excellent ripening and harvesting seasons in northwest provinces. The corresponding percentages in previous pears were 92.87 and 94. By provinces, the proportions are lower throughout eastern Canada, being about 87 per cent for Prince Edward Island and Nova Scotia, 90.56 in New Brunswick, 90 in Quebec, and 91 in Ontario. In British Columbia the proportion was 85.6 per cent. About 16.5 per cent of the total Canadian wheat crop in 1913 is reported as remaining in farmers' hands on March 31, 1914, this proportion representing 38,353,000 bushels. This, too, is a lower figure than in any previous year, and is consistent with the high records of inspection and shipment.

Of the oat crop of 404,669,000 bushels, 94.58 per cent is estimated to have been of merchantable quality, representing 383,745,000 bushels.

FORMER INSPECTOR-GENERAL OF MILITIA IS DEAD

(By Daily News Leased Wire.)

ALMONTE, Ont., April 21.—Maj. Gen. W. H. Cotton, former inspector-general of the Canadian militia, died suddenly at the residence of his son-in-law, Alex Rosamond, here last night at 11 o'clock. Death was due to heart failure.

CHARGES ASQUITH STATEMENT UNTRUE

Leader of Opposition Declares Country Wants Truth Regarding Alleged Ulster Plot

(Canadian Associated Press Cable)

LONDON, April 21.—Before the house of commons met today there was a conference between Premier Asquith and Gen. Sir Arthur Paget, attended, among other ministers, by Right Hon. Winston Churchill and Col. Seely, ex-minister of war.

True to his promise of yesterday, Andrew Bonar Law this afternoon demanded from the premier a judicial inquiry into recent matters in Ulster. Mr. Asquith was not so laconic in his reply today as yesterday. "I do not exactly know what is meant by 'judicial inquiry,' said the premier. "I see no reason for such procedure. If the honorable gentleman's charge is that the government advised and organized a plot with the object of promoting an armed rising in Ulster and if such a charge be seriously made the proper place to make it is in this house and I will give a day for the purpose of making that charge at the earliest possible date."

Alleges Statements False.

This brought the opposition leader to his feet at once. "Is not the right honorable gentleman aware that statements made by him have proved false?" he asked amid loud cheers from the men on the benches behind him.

"What guarantee have we that a similar line of defence will not be taken on a further occasion?"

"I am not aware of anything of the kind," answered Mr. Asquith, amid cheers from his own side. "If the right honorable gentleman is prepared to sustain his allegations I will give a day for that at the earliest possible date.

"I have made the charge twice and the right honorable gentleman has not dealt with it," retorted Bonar Law.

"Then I am to understand that he does not want a day?" asked Mr. Asquith.

"The house and the country want the truth," declared Mr. Law in reply. "It is only by getting the testimony from those directly employed by the government that we shall get the truth."

"I really do not know on what authority the right honorable gentleman claims to speak for the country," answered the prime minister.

There was an angry growl from the opposition at this. "They are running away," exclaimed a Liberal member.

Mr. Asquith said that the additional papers which had been promised dealing with the material matter not already published, in reference to incidents over the army's duty in Ulster would be ready tomorrow.

"When we see the papers we shall consider what steps we think are worth while to take," declared Bonar Law, which brought a burst of ironical laughter from the ministerial benches.

Not Afraid, Says Premier.

"Why is the right honorable gentleman afraid of a judicial investigation where all evidence must be under oath?" demanded Mr. Law after the peers from the Liberal benches had subsided.

"I am not in the least afraid," promptly replied the premier.

"If the leaders of the opposition make charges against the ministers, they must make them in the house."

To this Mr. Law offered to audible reply.

John Ward, the Labor member, who a few days back declared the house would legislate without interference from King or army, urged the premier himself to introduce a motion which would force the opposition to debate the question. The premier gave no answer and the house proceeded to consider the Welsh church bill.

WHEELS TO STOP THREE MINUTES

Every Train on Canadian Pacific to day Will be Stationery During Whyte Funeral.

(By Daily News Leased Wire.)

WINNIPEG, April 21.—An official announcement was give nout tonight that all trains on the entire Canadian Pacific railway system would be stopped for three minutes tomorrow, from 3:15 to 3:18 p. m., during the interment of the late Sir William Whyte.

Sir Thomas Shaughnessy arrived in the city tonight to attend the funeral and will leave for Montreal again on Friday.

SENATE OMITS NAME OF HUERTA

(Continued from page one.)

tween this government and the de facto government of Mexico and this is the justification upon which the resolution now before the senate is based.

"This justification, it seems to me, is painfully inadequate. If this is all there is between this government and the poor harried people of Mexico, it is painfully inadequate. But is this all?

"We learn tonight that Vera Cruz has fallen, that four American marines lie dead; that 20 lie suffering from wounds. Is there anything else but this dispute of the number of guns—the form and ceremony of a dispute to justify the loss of American lives?"

Pictures War.

"Deeply as the president desires to limit the scope of his action—the maintenance of peace, all history suggests that once lighted the fires of war cannot be quenched at will. It is war in its essence that we are to vote to justify tonight. What will be the result of these incidents no man can tell. Men will die—men dear to us will die because of the action we are to take tonight.

"American homes will be desolated. American children will go through life fatherless because of the action we will take tonight, and when they turn back the pages to find why their fathers died, are they to find that it was about the number of guns or the form of salute?

"We are to justify. What is the justification? Is there none but that. We, the representatives of the great democracy that prides itself before the world that democracies can be peaceful and just. Is there no justification that we can lay before the before the world, before the judgment seat of history, except a dispute about the number of guns?"

As Senator Root paused, he raised his hands Heavenward and turning to the senators about him, said:

Behind Resolution.

"How can we justify ourselves if we have no justification. But, sir, that is not all. If it had been all, the president would not have come to congress yesterday. If it had been all, we would not be discussing this subject here tonight. Back of this incident, back of the special circumstances of the resolution reported by the committee there is a great array of facts."

Senator Root asked what would have been done if a similar incident had occurred in an English, French or German port. He said that any such dispute could be settled by peaceful negotiations.

"If this dispute was all," he said, "there should be no difficulty in reaching a peaceful conclusion.

"If this be all, how can we justify, in our arrogance, our present attitude toward bankrupt, weak, despairing Mexico, if this be all?

"But this is not all," he continued. "There is matter of justification and the senator from Massachusetts has sought to lay it before the senate in his substitute for the preamble of the resolution.

Americans Must Have Protection.

"Lying behind the insult to the American flag are the lives of Americans, property destroyed, Americans reduced to poverty because of the destruction of their property. Lying behind it is a condition of anarchy in Mexico, a condition which makes it impossible to secure protection for American life and property. Lying back of this incident is a condition of things in Mexico which absolutely prevents the protection of American lives and property except through respect to the American flag, the American uniform, the American government. It is that that makes necessary the demand that public respect be made for the flag of the United States.

"There is our justification. It is a justification lying not in Victoriano Huerta nor in his conduct alone, but in the universal conduct of affairs in Mexico and the real object to be attained by the course which we are asked to approve is not the gratification of personal pride; it is not the satisfaction of a government or an admiral, it is the desire of the United States to protect its citizens under these conditions."

Gives Real Justification.

Tension was heavy in the chamber as Senator Root, in a voice that sank lower and lower, reached his conclusion and pleaded for greater justification than a mere dispute over the form and ceremony of the salute.

"Ah, Mr. President," he said in a voice that sank almost to a whisper, and the galleries leaned forward breathlessly to hear, "the capture of Vera Cruz, the death of our marines, the wounds and the suffering of those who lie there tonight, demand something more, far more, than a formal insult, for justification. The recitals of the substitute to the preamble are weak in the face of death and suffering in Vera Cruz tonight.

"The substitute is weak, but it gives far more adequate grounds for the great formidable movement of the great naval and military power of this government. It gives the justification that is needed."

Charges Alliance With Rebels

Senator Fall (N. M.), who has had a long experience in Mexican affairs, caused something like a sensation when he charged that President Wilson had promised immunity for all past crimes of the rebels on condition that they should not support Huerta. The rebels, he said, had committed many crimes against the Americans and foreigners and had so far escaped serious censure. Mr. Fall read a telegram saying that while all ports would be blockaded the rebel towns would remain open.

"The president is either uninformed or misinformed on Mexican matters," said Mr. Fall, "or he would not have promised immunity to these murderers."

Senator Fall added that Great Britain would have insisted on the punishment of Villa for the murder of Benton except for the protection the United States and distance gave the rebel leaders. England and Spain, he said, had suffered heavily from the rebels, but the president had asked those nations to leave free rein to his policy of "watchful waiting."

PROVINCIAL ELECTIONS ACT

Nelson Electoral District

Take notice that I have received objections in writing to the retention of the following names on the register of voters for the Nelson City Electoral District, on the grounds as stated below:

AND TAKE NOTICE that at the Court of Revision to be held on the 18th day of May, 1914, at the Court House, in Nelson, at Ten o'clock in the forenoon, I shall hear and determine the said objections, and unless such named persons, or some other provincial voter on their behalf, satisfies me that such objections are not well founded, I shall strike such names off the said register.

J. CARTMEL,
Registrar of Voters.

Dated this 20th day of April, 1914.

The following persons are reported absent from the district:

FOUR HUNDRED THOUSAND FOR STREET BETTERMENTS

(By Daily News Leased Wire.)

WINNIPEG, April 21.—From estimates submitted at the meeting of the works and property committee of the city council today, $400,000 will be required for payments, sidewalks and lane openings for this year.

CHOOSE STAFF FOR CALGARY C. P. R. HOTEL

WINNIPEG, April 21.—C. H. Rawlins, manager of the Palliser hotel, the new Canadian Pacific railway hostelry to be opened in Calgary on June 1, has arrived in Winnipeg for the purpose of engaging a staff to operate the new enterprise. This morning Mr. Rawlins set out upon the work of choosing some of the 350 employes who will be needed in the Calgary hotel. He has also to select about 200 people to operate the Canadian Pacific railway hotel at Banff.

C. Crotty, of the Empress hotel, Victoria, will act as chief clerk, and he will be assisted by L. Stump, of the Chateau Frontenac, Quebec, and W. Little, of the Alberta hotel, New York.

WARSHIP MAKES THIRTY-FOUR KNOTS AND WINS RACE

(Western Associated Press, Special Cable.)

LONDON, April 21.—It was reported today that the ships of the home fleet, Lion, Queen Mary, Princess Royal and the New Zealand, recently engaged in a speed contest in the channel and that the Queen Mary, speeding 34 knots an hour, won. The Lion finished second and the Princess Royal third.

Sees Menace In White Bread

The eminent scientist—**Prof. Le Tulle**, of Paris, recently made a remarkable statement regarding food conditions in France. It is even more applicable to this country. He said:

"France has changed an essential of her nourishment. White bread is made more and more starchy, and is less and less nourishing. The rich products which are extracted go to feed the pigs. The baker now utilizes only fifty per cent of the wheat elements, whereas fifty years ago he utilized eighty-five per cent."

The "rich products" referred to, which are "extracted" from wheat, are the mineral elements—phosphate of potash, iron, sodium, etc. These elements are absolutely essential to proper nutrition of body, nerves and brain, yet they are nearly all thrown out by millers just to make the flour look white and pretty!

The lack of these invaluable phosphates is one of the chief causes of nervous protration, dullness, languor, constipation and other ills—big and little.

In the making of

Grape-Nuts

FOOD

all the "rich products" of wheat and barley, from which the food is made, are retained.

A regular ration of Grape-Nuts is not only a delicious part of the meal, but admirably supplies the mineral salts which the ordinary diet often lacks.

(Special to The Daily News)

VICTORIA, B. C., April 21.—The following have passed their final examinations for surveyors in British Columbia: R. P. Brown, R. A. Carton, H. A. Cornwall, W. P. Dunbar, W. F. Gregg, A. Lighthall, W. Laidlaw, R. F. McIntosh, R. B. McLelland, D. E. Pye, G. E. Revell, (Nelson) Major C. B. Simonds and Norman C. Wood.

ANOTHER ROOM FOR PUBLIC SCHOOL

Provide Accommodation for Beginners —Delegates From Improvement Association Address Board.

Additional accommodation for the number of new children desiring to attend the public school will be provided by placing a class in the assembly hall during the remainder of this term and a new teacher will be secured at a salary of $75 per month. This was the decision of the school board last night after E. S. Martin, principal, reported that he had turned away 23 children who had applied to attend the classes commencing after the Easter vacation.

A deputation from the Nelson Improvement association appeared before the board to request that steps be taken to have the teachers impress upon their pupils the necessity or the protection of public and private property. The matter was referred to the principals of the high and public schools for action and the board recommended that the principals extend an invitation to the members of the improvement association to address the assembled children when they see fit. The deputation was introduced By J. W. Holmes, president of the Nelson Improvement association.

Dr. W. O. Rose said that the object of the deputation was to endeavor to have the board impress upon the teachers the necessity of fostering a constructive instead of a destructive tendency among the children. The public buildings of the city bore testimony of the necessity of steps being taken along these lines he said and he cited the skating rink, agricultural building and the recent fire in the poultry building as cases of youthful vandalism. Shade trees and shrubs were being planted in an effort to beautify the city, he said, and it was shameful the manner in which they were being destroyed.

Wm. Ebbs thought that the teachers could do more than the chief of police and he stated that what they wanted was the co-operation of the trustees so that five-minute talks might be given to the children at intervals.

F. A. Starkey suggested that the trustees might address the children on the subject and J. W. Holmes agreed with the remarks of the previous speakers.

Dr. N. Wolverton, who was in the chair, suggested that speakers might be obtained to address the children and stated that the school board was doing all in its power to beautify the school grounds but sufficient money was not to hand at the present time.

Harry Amas stated that parents should keep children of from 9 to 12 years of age off the streets at night. This brought a remark from Mr. Starkey on the lack of observance of the curfew bylaw.

Dr. Jones sympathized with the deputation and said that the inside of the school was beautified, but the grounds were not fit for the children to play on and in this respect she did not think the children were being properly treated by the city.

Mr. Martin stated that he had always made an effort to teach the pupils not to interfere with the property or person of others. He had done all in his power to provide means whereby the children would be kept busy after school hours. They had a gymnasium, but he thought better outdoor facilities might be provided by the city. He promised to do all in his power to further the objects which had been discussed by the deputation and he invited speakers from the improvement association to attend at the Empire day celebration at the school on May 4 when the children would be massed in the assembly hall.

The city council will be asked by the school board to have the city engineer take steps to obtain the proper grades at the public school grounds and permission will also be asked the council to have the city engineer oversee all grading work that is carried on at the school.

Alex Carrie, architect, is preparing a rough plan of a new cornice for the public school building.

The matter of prism lights for the public school was referred back to the property committee as it was the opinion of the board that the tenders were too high.

The supply committee recommended the acceptance of the following tenders: For scribblers and ink, the Rutherford Drug company; for foolscap, compasses and chalk, pencils, colored paper and colored cards, the City Drug company, and for boards, maps, pointers and globes, the Canada Drug & Book company.

The contracts for the supply of soaps, brushes and cleansers were divided among J. A. Irving, the Hudson's Bay company, H. Svoboda and the Nelson Hardware company.

The ban will be put on the use of roller towels in the public school. A disinfectant for cleansing purposes, sanitary soap and sanitary towels of a new pattern will be purchased by the board, the details in connection with the purchase being left in the hands of the purchasing committee.

A communication from C. H. Swannell, who applied for position of instructor of the school cadet corps, was filed and a letter was read from the trades and labor council protesting against any reduction of the salary of the janitor by the board and against contracting for janitor work or for coal supply.

The Y. W. C. A. physical culture class asked for permission to use the assembly hall on the evening of May 8 and the secretary was instructed to reply saying that the association might use the hall only on its own night, which was Wednesday. It will also be asked to pay for damages done to the equipment of the hall.

Walter Poole wrote applying for the position of gardener for the public schools and J. L. Thomas wrote advising the board that he was taking the matter concerning the placing of his daughter in a lower grade to the board of education at Victoria.

Perennials for the school garden will be secured if possible from the Dominion experimental farm at Agassiz.

HYDROAEROPLAINING AT CHAHKO MIKA

Exhibition Now Assured—Manager Paterson Will Visit Spokane and Coeur d'Alene.

Estimates of the probable amounts required to carry out the programs of the various lines of sports during Chahko Mika week were under discussion at a meeting of the directors of the Nelson Carnival company last night.

After the meeting George Paterson, manager of Chahko Mika, announced that it was now absolutely certain that there would be an exhibition of hydroaeroplaning in the city during Chahko Mika week and it is expected that there will be quite a fleet of hydroplanes here for the occasion.

Mr. Paterson will leave for Spokane on Thursday morning on business connected with the carnival. He will visit Coeur d'Alene during his trip and there complete arrangements for the appearance here of a fleet of hydroplanes. An effort will also be made to institute a princess competition in Coeur d'Alene.

It is announced that R. J. Schnar and Martin & Smillie, both eastern firms, have donated prizes for competitions at Chahko Mika. The Martin & Smillie prize will be cut glass and will be for a motor boat race. The boats competing in the race must be driven and handled by ladies without any assistance. The value of the prize is stated to be $22.

NELSON NEWS OF THE DAY

Mrs. W. F. Bassett, 717 Cedar street, will be at home today and not again this season.

The Y. M. C. A. physical culture class will meet this evening at 7:15 o'clock in the assembly hall of the public school.

Clan Johnstone No. 212 will hold a dance and social evening for members and friends on Wednesday evening next, April 29.

The mock parliament which was to have been held at the Presbyterian church this evening has been postponed until May 5.

Rising 3 in. yesterday the water in the West Arm now stands at 4 ft. 8 in. above low water mark, according to the guage of the Nelson Boat & Launch company.

A whist drive and social evening will be held by the churchman's club of St. Saviours church this evening at 8 o'clock in the parish hall. Refreshments will be served.

Classes today at the Y. M. C. A. are: High school 4:30 to 5:30 o'clock; professional men 5:30 to 6:30 o'clock; boxing and wrestling 8 to 9 o'clock; basketball practice 9 to 10 o'clock.

The Women's Missionary society of Trinity Methodist church wishes to thank an anonymous give of a donation of $50 which has been donated to forward the women's medical work in Canada.

LEADER IN BACONIAN THEORY CONTROVERSY DIES

(By Daily News Leased Wire.)

LONDON, April 21.—Sir Edwin Durning-Lawrence, who attained celebrity by his two works, "Bacon Is Shakespeare," and 'The Shakespeare Myth," died here today, aged 77 years.

Sir Edwin was for more than 40 years in English politics, part of the time as a member of the commons. He was made a baronet in 1898.
