GREAT THRONGS CHEER CANADIAN CONTINGENT

Arrival at Plymouth Surprise to Devon People

TROOPS ARRIVE IN GOOD HEALTH

Some Leave During Darkness for Salisbury Plain Training Camp

(Canadian Associated Press Cable.)

PLYMOUTH, Oct. 16.—"There came a gallant ship full sail to Plymouth hoe."

Macaulay's lines in which he sang of a stupendous incident of English history will doubtless come to the minds of many when they learn that the mighty transports and convoy bearing the Canadian contingent to the great clash of arms is now snug and safe within the waters of Plymouth sound and as far as the Homoaze. The troops began to disembark early this morning, going to Salisbury plain.

The Canadian troops will not be able to say they found a lukewarm reception even though they came into England almost by stealth. If there was any grumbling on the subject it will come from the people of the famous seaport who were unable, owing to the restriction of attendant circumstances, to give such a demonstration as they would have desired.

Plymouth has seen a few sights in its time but there has never been anything like this.

People Were Surprised.

The arrival of these transports came as a surprise to the great majority of people of Plymouth. The first ships steamed slowly in during the early morning. The folk on shore were watching them more or less idly, which is not a surprising matter considering they have been able to watch the movements of a good many vessels which are strangers to Plymouth during the past few fateful months. It was the men on board who themselves made known their arrival, for as the great vessels drew in shore the soldiers of the Maple Leaf were heartened mightily to find the first incident in their momentous mission accomplished and broke into wild cheers. With eager enthusiasm to look out on the rich land of Devon they swarmed out on to the top decks and into the rigging and cheering passed from ship to ship.

Why, It's the Canadians.

"No ordinary crowd of soldiers aboard these boats," was the thought passing among the still puzzled onlookers. Then in a flash the real character of these voyagers dawned upon the watchers.

"Why, it's the Canadians."

The exclamation passed from one little group of beholders to another. Straightway the cheers of those on the transports received a response from the good folk of the port. The news spread further and each company of watchers added to its number every minute.

Hats and flags were waved both afloat and ashore and from the deck of at least one of the transports there came a skirl of bagpipes. The relief at reaching port was intense among the Canadians. The disappointment was correspondingly intense among the townsfolk because there had been no means of bestowing a hearty welcome other than by an abnormal display of lung power.

Be this as it may, the Canadians will not forget their reception at this port, the demonstration being all the more noteworthy because it was so completely spontaneous. If there were any formal reception for the commanders of the transports by the military and naval heads of the port it was purely of a private character. The public demonstration was entirely between the folk of the three towns and the contingent or the rank and file.

Had Ideal Voyage.

The weather almost throughout the voyage was ideal, scarcely a single man being seriously inconvenienced by the penalty most often imposed on ocean travelers. The case of the horses, though, was not so happy. For this reason they were landed directly on arrival. A great many of them reeled and staggered on being led ashore, but soon recovered themselves and are now being comfortably established on land. Life on board a transport is of a confined character both for man and beast and the latter feels it more than his master. The cramped quarters, too, make life difficult in other ways, but on board the Canadian transports there was quite regular routine. Everybody turned out at 5:30 a.m.

There was a daily drill, especially in the way of physical exercises, and the men were quick to devise methods for keeping fit and trim. Boxing bouts were a great feature and the men of one company challenged others in a tug-of-war. Every transport was a temperance ship.

Those who have already come ashore say life on board throughout the voyage was of the happiest character, the only disadvantage being there was scarcely room enough to move about and little to do except go through the same exercise over and over.

Men Are All Fit.

In spite of these drawbacks the men from Canada were never more fit than at this moment. On nearly every ship a newspaper was published and it gave the latest war news received by wireless, the editor also devoting some portion of his meagre space to small incidents happening on board.

There will be many a laugh in Canadian homes over some of these personal paragraphs when the mail carries these newspapers back along with letters to those left behind.

The voyage at night was conducted with the portholes shrouded, but down below decks the crowded companies contrived to enjoy a good deal of innocent revelry.

The folk on the shore at Plymouth were surprised to find the Canadians apparently were not familiar with "It's a Long Way to Tipperary." Probably they were too busy to learn it when at Valcartier. Songs of a more domestic character were in evidence on the transports.

Only a small proportion of the men received shore leave when the transports berthed, the privileges being granted to men who had friends and relatives in the neighborhood. Some of these came early ashore on various duties, but with the exception of removing horses there was no general movement toward disembarkment and future proceedings are still uncertain.

Fantastic Stories Circulated.

Plymouth just now is naturally under especially strict control and the Canadians are probably as comfortable aboard as they would be ashore.

The weather, having been very unsettled, has picked up again and the men in the uniform of the Maple Leaf will probably pass through a smiling Devonshire when they do begin the

(Continued on Page Four.)

CHARGE MONTREALER WITH HIGH TREASON

OTTAWA, Oct. 15.—The department of justice will at once institute a prosecution for treason against Israel Schafer, the Montreal employment agent, who was arrested today by the military authorities charged with aiding a country at war with Great Britain. It is alleged that Schafer sold steamship tickets to 13 Austrian reservists going from New York to Rumania. As Schafer is a naturalized Canadian he is considered to be guilty of treasonable conduct and will be prosecuted.

SWEDEN WANTS ITS SHIPS RELEASED

STOCKHOLM, Oct. 15.—The Swedish government has applied to Berlin for the release of six Swedish steamers laden with timber destined for Great Britain which have been seized by Germany and brought to Swinmude. No reply has been made so far.

ENGAGED TURKISH VESSELS IS BELIEF

Russian Fleet, It Is Thought, May Have Got Into Action With Goeben and Breslau

(Special Cable to The Daily News and New York Times.)

MILAN, Oct. 15.—The Russian fleet, reported maneuvering off Constanza, passed Varna at 8 o'clock Tuesday morning steaming in the direction of Burgas and Constantinople, according to the correspondent of the Corriere della Sera, who, it is believed in political circles in Bucharest, is responsible for the report that Russia was about to take hostile action against Turkey on account of the Dardanelles.

Rumanian newspapers state that heavy firing was heard and it is assumed that the Russian fleet engaged the Goeben and Breslau and the accompanying Turkish vessels. Constantinople, however, is 75 miles north of Varna, which the Russians since have passed, hence the report for the present may be treated with reserve.

It is stated, however, that the Breslau was off Sulina, at one of the mouths of the Danube, 85 miles north of Constantinople, a few hours before the appearance of the Russian vessels off Constantinople and left escorting outward three steamers flying the Turkish flag. The Breslau was joined by the Goeben and the Turkish vessels, all proceeding southward.

If these accounts are correct the two fleets must have been close together as the Turko-German vessels, handicapped by the slowness of their convoys could hardly reach the Bosphorus long before the Russians.

EARLY ELECTION IS LESS LIKELY

But Government Is Said Still to Have Matter Under Consideration—Cabinet Changes Uncertain

(By Daily News Leased Wire.)

OTTAWA, Oct. 15.—The proposal to hold a general election at an early date is still being considered by the government and a definite announcement may be made before the end of the week. A prominent politician stated tonight, however, that there is less prospect of an election at present than there was earlier in the week.

Cabinet Changes Still Indefinite
(By Daily News Leased Wire.)

OTTAWA, Oct. 15.—"Rumors on Parliament hill today aver that there has been a hitch in the negotiations regarding the changes in the cabinet, although statements are made that none such has occurred," says the Journal. "T. C. Casgrain, K.C., Montreal, who is expected to be sworn in as a member of the cabinet within a day or two, left yesterday afternoon for Montreal. He had conferences yesterday with the premier and other leading cabinet ministers.

"It has not yet been decided what portfolio Mr. Casgrain will take but it is not likely to be inland revenue, although this will be vacated by Hon. W. B. Nantel. It is likely to be the postoffice.

"Hon. L. P. Pelletier, postmaster-general, has intimated his desire to resign and it is said he will insist on his resignation being accepted. He has been seriously ill for several weeks and as soon as he is able to be moved he will go on an extended vacation."

ASKS CHRISTMAS GIFTS FOR TROOPS

Princess Mary Makes Appeal for Money With Which Tokens May Be Bought.

(By Daily News Leased Wire.)

LONDON, Oct. 15.—Princess Mary has issued an appeal in which she says:

"I want you all to help me send a Christmas present from the whole nation to every sailor afloat and to every soldier at the front. On Christmas eve, when like the shepherds of old they keep their watch, doubtless their thoughts will turn to home and loved ones left behind. Perhaps, too, they will recall the days when as children themselves they were wont to hang up their stockings wondering what the morrow had in store.

"I am sure we will be happier on Christmas morning to feel that we have helped by sending our little token of love and sympathy—something useful or of permanent value, the making of which may be the means of providing employment in the trades adversely affected by the war."

It is hoped that the appeal will result in the raising of $500,000 for the provision of gifts taking the form of an embossed brass tobacco or cigarette box, pipe and tinder lighter, and candies for the Indian troops.

COLLIER SINKS.

(By Daily News Leased Wire.)

LONDON, Ont., Oct. 15.—The steamer Bulgaria, with 3000 tons of coal for Waukegan, sank in a heavy gale off Point Pelee last night. The crew is safe. An attempt will be made to raise the boat, which is owned in Green Bay, Wis.

RUSSIANS STILL HOLD LEMBERG

German Report Disposed of. Austrians Defeated

BIG BATTLE IS RAGING IN POLAND

Berlin Claims Successes at Przemysl--Goldap Evacuated

(By Daily News Leased Wire.)

LONDON, Oct. 15.—Of the big battle in Poland the Russian official report says there is no change to record.

Rome is again responsible for the report that the Russians have defeated the Germans south of Warsaw but this is believed to refer to the fighting in which the Russians yesterday claimed to have pressed the Germans back.

There has been more fighting south of Przemysl, in Galicia, on the Stryj-Sambor-Medyka line which disposes of the report that Lemberg has been evacuated by the Russians and also throws doubt on another report that Przemysl has been relieved.

The Austrians say they are attacking the Russians in this position while the Russian report claims victory over the Austrians from whom, it says, the Russians captured seven officers, 500 men and several machine guns.

In East Prussia, the Russians also say, there is no change in the situation.

The Germans have, according to Berlin newspapers, reoccupied Lyck and for military reasons have moved the civilians out of Goldap which is the centre of the region where the Russians are advancing.

Claims Germans Enter Przemysl.
(By Daily News Leased Wire.)

LONDON, Oct. 15.—The following German official statement was received here tonight by the Marconi company:

"It is reported from Vienna that our cavalry already has entered the fortress of Przemysl, Galicia, from the west. The enemy, perplexed by the rapidity of our operations in Russian Poland and Galicia, tried in vain to prevent our relief of the fortress by detaching troops to the west. They were, however, unable to resist the advance of our army.

"The 5th and 6th Russian infantry divisions attacked by us have fled in the direction of the river San.

"A Cossack cavalry division and an infantry brigade in a strong position west of Dynow, Galicia, were defeated after brief resistance."

TRENCHES GIVE GOOD PROTECTION

Short Zone of Fire Found Sufficient by Allies to Repel German Assaults

(By Daily News Leased Wire.)

LONDON, Oct. 15.—The German anti-air craft guns recently have been unusually active. From their rate of fire they seem to be nearly automatic but so far they have not had much effect in reducing the air reconnaissances carried out by the allies.

A striking feature of the allies' line—to use the conventional term which so seldom expresses accurately the position taken up by an army—is that it consists really of a series of trenches not all placed alongside each other but some more advanced than others and many facing in different directions. At one place they run east and west along one side of a valley, at another almost north and south up some subsidiary valley. Here they line the edge of woods and there they are on the reverse slope of a hill or possibly along a sunken road and at different points both the German and the British trenches jut out like promontories into what might be regarded as the opponent's territory.

"Though both sides have moved forward at certain points and withdrawn at others, no important change has been effected in their dispositions, in spite of the enemy's repeated counter-attacks. These have been directed principally against one portion of the position won by us, but in spite of the lavish expenditutre of life they have not so far succeeded in driving us back," says a correspondent.

"The situation of the works in the German front line as a whole has been a matter of deliberate selection for they have had the advantage of previous reconnaisance, being first in the field.

Stop Enemy in Short Distance

"Behind the front they now have several lines prepared for a step-by-step defense. Another point which might cause astonishment to a visitor to our entrenchments is the evident indifference displayed to the provision of an extended field of frontal rifle fire, which is generally accepted as being one of the great requirements of a defensive position. It is still desirable if it can be obtained without the usually accompanying drawback of exposure to the direct fire of hostile artillery but experience has shown that a short field is sufficient to beat back the infantry assaults of the enemy and by giving up direct fire at long or medium ranges and placing our trenches on the reverse slope of a hill or behind the crest, it is in

(Continued on Page Four.)

FRENCH SWIM SWIFT RIVER, CUT WAY THROUGH STARTLED GERMANS

AUSTRO-GERMAN LOSSES FEARFUL

Total Said to Be Admitted in Berlin is Million Three Hundred and Fifty Thousand

(By Daily News Leased Wire.)

LONDON, Oct. 16.—The Chronicle has received from a correspondent in Holland who has lately been in Berlin the following:

The authorities in Berlin estimate their total losses in France and Belgium up to date as more than 300,000 men. This does not include their losses on their eastern frontier, which they estimate at more than 150,000.

They also acknowledge that Austria's losses exceed 500,000. Official reports which have been published only concern a portion of the Prussian losses in France. No official lists have been published regarding the losses of troops from Bavaria, Wurtemburg, Saxony or Hanover.

From this evidence the Austro-German losses approximate 1,350,000. This figure covers killed, wounded and missing, and of course includes all prisoners.

TEN YEARS AND EIGHT LASHES FOR HIGHWAYMEN

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—Three highwaymen, Dominia Lavesque, alias Adelard Gadbois; Joseph Gagnon and Oscar Dion, who were convicted of holding up Napoleon Garvais, a farmer, on the King Edward highway three weeks ago and robbing him of $37, were sentenced by Judge Lagnier to 10 years' imprisonment with eight lashes.

AUSTRIA LOSES WARSHIP BY FIRE

New Dreadnought and Destroyers Are Crippled by Work of Firebug—British Catch Supply Ships.

(By Daily News Leased Wire.)

LONDON, Oct. 15.—Austria which next to Belgium is said to have taken the hardest knocks of the war has suffered another blow in the damage by fire to a new battleship and several destroyers which were about completed at Monfalcone. This fire was of an incendiary nature and shows to what lengths Austria's internal enemies will go to cripple her. The battleship was to have been launched Sunday with imposing ceremony.

The British cruiser Yarmouth has made an important capture in the steamers Markomannia and Pontoporos which had been acting as supply ships for the German cruiser Emden. The Emden has not been heard from since she sank a dozen British steamers in East Indian waters. The Markomannia which was of the Hamburg-American line, was taken and sunk in the north of Sumatra. The Pontoporos, which was a Greek steamer, was taken to port.

The Australians have also helped to cripple the German cruisers in the Pacific by the seizure of the German ship Comet with a wireless station aboard, which was to be utilized to keep in touch with them.

It was reported here today that Turkey has hinted that unless more money is forthcoming she would be compelled to demobilize her army. Turkey generally got her money from England and France, neither of which is likely to advance any under the present circumstances.

WAR CREDIT TWO AND HALF BILLION

Prussian Diet to Be Asked to Appropriate Huge Additional Sum—Parties Support Government

(By Daily News Leased Wire.)

AMSTERDAM, Oct. 15, via London, 9:50 p.m.—The Telegraaf today published the following despatch from Berlin:

"The Prussian government will ask the diet for a war credit of more than $2,500,000,000.

"Government work on the railways and highways will be proposed in order to cope with the unemployed situation and to give relief for small communities.

"At a joint session of the party leaders it was decided to support the government program. The sitting of the diet will partake of the character of a war session and will last only a few days."

Holland Votes War Credit.
(By Daily News Leased Wire.)

THE HAGUE, Oct. 15, via London, 6:35 p.m.—The first chamber today passed the measure providing for the second war credit of $20,000,000.

AMERICAN CHILDREN MAY SEND CHRISTMAS PRESENTS

(By Daily News Leased Wire.)

WASHINGTON, Oct. 15.—American railroads may transport free of charge, if they decide to do so, gifts made by the children of the United States for presentation on Christmas day to the children made orphans by the European war.

This ruling was announced by the interstate commerce commission today in connection with the plans of American newspapers to send a "Christmas help" abroad.

Catch Enemy on Flank, Pe[illegible]ing Capture of Estaires. Fresh Teuton Troops Are Poorly Trained--Another Vigorous Blow Expected by Allies

BATTLE SAID TO GO SLOWLY BUT SURELY IN FAVOR OF ADVANCING ALLIED ARMY

Military Experts Believe Kaiser's Progress Toward Coast Has Been Definitely Checked--Cannot Now Be Outflanked--Enemy's Frenches Taken Near Reims. Success in Alsace Is Reported

(By Daily News Leased Wire.)

FROM THE BATTLE FRONT, via Paris, Oct. 16, 12:09 a.m.—Infantry and cavalry, after a period of comparative inactivity, have been doing more fighting during the last few days than for several weeks.

Two thousand French have distinguished themselves by a daring feat in swimming the River Lys where it flows deep and swift. They completely outwitted the Germans who were awaiting them on the other side with machine guns and heavy artillery.

The French horsemen made a long detour during the night. One man swam the river with a rope; then he dragged over a cable which he made fast to a tree. The others, holding to the cable, crossed singly with their horses through the swirling waters.

Arrived on the opposite bank, the French drew up in line and charged the German flank at Merville, driving the Germans back and opening the way for the passage over the river of the allied infantry, which later occupied Estaires.

The present war differs from all previous wars, inasmuch as no one knows just when a battle begins and when it ends. What is now known as the battle of four rivers, the Scarpe, the Oise, Somme, and the Aisne, may be regarded as constituted and a fresh stage of the operations was begun with the fall of Antwerp and the renewed appearance of a strong allied army in Belgian territory where it has made its presence felt by the capture of Ypres.

Allies Make Much Headway.

Meanwhile the siege of the positions farther south has become merely desultory. At one very important point today only 30 shells were fired during the entire day.

The remainder of the strong allied forces at the various points are kept in reserve at measurable distance ready for any emergency. The cold and wet have made trench work very trying.

Many of the advanced German trenches appear to have been abandoned and the allies were able to make much headway today where previously they had met with furious resistance.

It appears evident that the commanders of both armies have been awaiting reinforcements where they are most needed and, in the meantime, are feeling each other out. There is every reason to believe that these fresh forces have arrived and have been assigned to their proper places and a rapid development may be expected. The newly-arrived German troops are thought to have come directly from Germany and are composed of second and third reserves, who need a period of pulling together before going to the front.

The allied commanders expect the Germans to deliver another powerful blow looking to the achievement of their one great objective, Paris. But this is awaited with confidence in the power of the allied armies to respond with a vigorous counter-blow.

Make Gains Beyond Lys.
(By Daily News Leased Wire.)

PARIS, Oct. 15, 11:10 p.m.—The official communication issued by the French war office tonight says:

"The news of the day indicates gains at several points along the front.

"On the left wing, to the north of the Lys we have taken Estaires. On the centre, to the north and east of Reims, we have made an advance of nearly two kilometres (about a mile and a quarter.

"On the heights of the Meuse and in the Woevre region we have made gains to the south of St. Mihiel and near Marcheville."

Teutons Press Toward Ostend.

LONDON, Oct. 16, 1 a.m.—Reuter's Amsterdam correspondent says:

"The Amsterdam Telegraaf learns from its Luis, Netherlands, correspondent, that fighting has occurred in the vicinity of Bruges.

"After a brief battle near Ursel, 10 miles southeast of Bruges," the correspondent says, "the Germans opened the way to Bruges yesterday. They arrived at Bruges and Damme, four miles to the northeast of Bruges, this morning. They also have appeared at Blankenberg (on the English channel, nine miles northwest of Bruges and 12 miles northeast of Ostend) and are expected to arrive at Ostend today."

Battle Favors Allies.
(By Daily News Leased Wire.)

LONDON, Oct. 15, 10 p.m.—Two great battles, one in northern France and Belgium; the other in Russian Poland both with a front of 300 miles, have reached their height but of their progress the public is allowed only an occasional glance through official communications which frequently are widely at variance.

From the French report the western battle is going slowly but surely in favor of the allies. Under the pressure of the troops of the allies the Germans, who started to advance on Calais and other French coast ports, have been forced to evacuate the left bank of the Lys river which is a considerable way east of the points where their advance guards reached last week.

Further east in the Lens district and southward between Arras and Albert where the Germans made their initial attempt to work round the allies' left, the British and French have made "notable advances."

Teuton Assaults Lose Vigor.

Evidence that the German assaults are being delivered with less force is conveyed in the intimation that between the Somme and Aisne their artillery attacks are not being followed up with infantry charges. It is possible that they have withdrawn some of their troops from this position to strengthen their advance to the coast but this, it is considered, would be risky as it might permit the allies to break through and interrupt the communications of their armies which are fighting north of the Aisne.

In the centre the allies have also advanced, particularly toward Craonne and to the northeast of the road from Berry au Bac to Reims and to the north of Prunay. In the direction of Beine, which is slightly to the southeast of Reims, several German trenches have been carried.

All this shows a determined and partially successful attempt to drive the Germans away from Reims, which was again under bombardment today. The French advance in this direction also indicates an attempt to force a wedge through the German right and left wings.

Check German Offensive.

The French claim to have made an advance between the Meuse and the Moselle and after having repulsed the German attacks to have reached south of the road leading from Verdun to Metz. It is probably this fighting which the Germans referred to as having taken place in the neighborhood of Metz.

On the French right, where things have been quiet for some time, the Germans have attempted offensive tactics north of Saint Die but this movement has been "definitely checked."

On the whole the British military critics consider the French communication a "most cheerful one." They believe that the German advance to the French coast has been definitely checked and that the advances reported elsewhere show that the Germans have been compelled to weaken their centre

(Continued on Page Two.)

BOER REBEL WHIPPED IN FIRST ENGAGEMENT

(By Daily News Leased Wire.)

LONDON, Oct. 16, 2:30 a.m.—A despatch to Reuters from Capetown says that Col. Bristow, the officer appointed by Gen. Botha to take over the command of the rebel lieutenant, Col. Solomon Gerhardus Maritz, reports that one of his patrols has engaged a part of Maritz' force at Raledraai and taken 80 prisoners.

Botha Takes Field.
(By Daily News Leased Wire.)

CAPETOWN, via London, Oct. 15, 10:15 p.m.—As a result of Col. Maritz' rebellion in the northwest of the Cape provinces, Gen. Louis Botha, premier of the Union of South Africa, is taking the field earlier than he originally intended to do. Gen. Botha is placing himself at the head of several strong Dutch commands, organized on the old burgher lines, which are affiliated with regiments trained by the union defense force.

The other rebels within the union having openly declared themselves, the government considers itself not obliged to deal gently with them out of consideration for certain Dutch people who, though they are not strong supporters of the government, are said to have drawn the line at rebellion.

The government also is adopting stern measures by arresting prominent men who are suspected of sowing sedition, charging them with high treason.

Gen. Hertzog, who has been one of Gen. Botha's most bitter opponents, has placed his services at the disposal of the premier.

REIMS CATHEDRAL AGAIN BOMBARDED

PARIS, Oct. 15.—The Temps says a German shell fell in Reims cathedral Tuesday and destroyed the gallery of an Apse. Three other shells, according to the newspaper, demolished a part of the law courts. The public attorney was buried in the ruins of the court building. He was extricated, suffering greatly from shock.

TURK WOUNDS BRITISH STATESMAN IN BULGARIA

(By Daily News Leased Wire.)

LONDON, Oct. 16, 2:15 a.m.—A despatch to the Reuter's Telegraph company from Bucharest says:

Noel Buxton, member of the British parliament for North Norfolk, and his brother, Charles Roden Buxton, sons of Sir Thomas Fowell-Buxton, former governor of South Australia, who had been in Bulgaria to confer with Bulgarian politicians regarding Bulgaria's attitude toward the European war, were both shot today by a young Turk, Pachel Hassan.

The Buxtons were traveling in an automobile with a son of M. Guechoff, former Bulgarian premier, to attend the funeral of the King of Rumania, when Pachel fired four shots at the party from a revolver. One of the Buxtons was shot through the lung, the other was only slightly wounded.

The assassin was arrested. It appears that he had just arrived here from Saloniki. He had a passport which was issued at Constantinople on Sept. 26.

Noel Buxton has travelled extensively in the Near East. He is chairman of the London Balkan committee and has actively interested himself in Macedonia. He is 43 years of age.

Charles Roden Buxton was private secretary to his father in South Australia. He has been interested for a long time in welfare work. Mr. Buxton lived for a time in Texas, where he studied ranching.

The correspondent says it is believed that the wound of neither man is dangerous. He does not say which one of the brothers was shot through the lung.

COL SAM HUGHES REACHES ENGLAND

LONDON, Oct. 15.—Col. Sam Hughes, minister of militia and defense for Canada, landed today from the White Star liner Cedric. On his arrival at Euston station he was driven direct to the war office. There were numerous callers tonight at the Savoy hotel, expecting to find him there but all were disappointed.

Kootenay and Boundary

GRAND FORKS TO HAVE MARKET

Indications Are That Large Amount of Produce Will Be Offered on Saturday

(Special to The Daily News)

GRAND FORKS, B. C., Oct. 15.—There is every indication that the market to be held on Saturday on Second street will be a big one.

Fire last night about 12 o'clock destroyed two shacks at Weston, to the west of the city. They were occupied by Chinese and Hindoos.

L. P. ECKSTEIN, FORMER FERNIE LAWYER, SICK

Three Cases of Murder Will Be Tried at East Kootenay Fall Assizes

(Special to The Daily News)

FERNIE, B. C., Oct. 15.—L. P. Eckstein, who for a number of years practised law here is lying seriously ill at Prince George, B. C.

A. J. Watson, at one time a contractor in this city, arrived on Wednesday for a visit of a few weeks.

The Fernie branch of the Canadian Patriotic society was organized last night. Officers elected were: Mayor Gates, president; A. B. Trites, vice-president; A. M. Owen, treasurer; and W. W. Walker, secretary.

The fall assizes will open in Fernie on Monday next. The criminal docket consists of three cases of murder, one of arson and one of assault with intent to do bodily harm and escape from lawful custody.

NEW DENVER NOTES

(Special to The Daily News)

NEW DENVER, B. C., Oct. 15.—Miss Beatrice Hawes of Armstrong, who has been the guest of Mrs. J. C. Harris, went home Monday. Miss Dora Clemson went with her to visit in Armstrong.

Mrs. Clyde White and two children left Friday morning to join Mr. White in Stewart, where they will make their home. Mrs. Oscar White of Sandon went with them as far as Vancouver.

The friends of Mrs. J. H. Strickland gave a surprise party in her honor on Tuesday evening. On Wednesday the Ladies' aid of the Presbyterian church held a social evening for her. Mrs. Strickland and family leave Friday to make their home in Seattle, Wash.

FRUITVALE WOMEN TO HOLD RED CROSS SALE

(Special to The Daily News)

FRUITVALE, B. C., Oct. 15.—The Fruitvale branch of the Red Cross society will hold a sale of home-made cooking in the school house on Saturday.

Varseveld Bros. have a contract to get out 300 telephone poles for the government telephone line between Nelson and Waneta.

MIRROR LAKE NOTES

(Special to The Daily News)

MIRROR LAKE, B. C., Oct. 15.—Miss Dora Wolverton spent the week-end and Thanksgiving day at her home in Nelson.

Miss Polly Waters of Nelson, who has been here for a week's visit at A. Milton's, returned home on Monday.

An enjoyable social evening, attended by the young people of the vicinity, was held at A. Link's residence on Friday.

KEREMEOS SHIPS OUT TEN CARS OF APPLES

(Special to The Daily News)

KEREMEOS, B.C., Oct. 15.—Ten carloads of apples have been shipped from this point and there are ten more ordered and two or three cars waiting.

Mrs. G. E. Graham arrived from the coast last week to spend a few weeks on a ranch. Mr. Beckett, son of Mr. and Mrs. James Beckett, and brother of Mrs. Graham, accompanied her from the coast.

Miss McNamee who has been visiting Mrs. Wright and Mrs. Newton, left on Friday for Spokane.

Charles Saunders of Princeton was here Monday.

Harry Conklin, an old timer in this country, left Keremeos on Monday for California.

THINK HARD.

It Pays to Think About Food.

The unthinking life come people lead often causes trouble and sickness, illustrated in the experience of this lady.

"About four years ago I suffered dreadfully from indigestion, always having eaten whatever I liked, not thinking of the digestible qualities This indigestion caused palpitation of the heart so badly I could scarcely walk up a flight of stairs without stopping to regain breath and strength.

"I became alarmed and tried dieting, wore my clothes loose and used other remedies but found no relief.

"Hearing of the virtues of Grape-Nuts and Postum, I commenced using them in place of my usual breakfast of coffee, cakes or hot biscuit, and in one week's time I was relieved of sour stomach and other ills attending indigestion. In a month's time my heart was performing its functions naturally and I could climb stairs and hills and walk long distances

"I gained ten pounds in this short time and my skin became clear and I completely regained my health and strength. I continued to use Grape-Nuts and Postum for I feel that I owe my good health entirely to their use.

"I like the delicious flavor of Grape-Nuts and by making Postum according to directions, it tastes similar to mild high grade coffee." Name given by Canadian Postum Co., Windsor, Ont.

The most perfect food in the world. Trial of Grape-Nuts and cream 10 days proves. "There's a Reason."

Look in pkgs. for the little book "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

ROSSLAND NEWS

(Special to The Daily News)

ROSSLAND, B. C., Oct. 15.—A meeting of the city council was held last night, with all present except the mayor. The following accounts were ordered paid: Henderson's livery, $11.80; Brackman-Ker Milling company, $65.30 and $46.80; Hunter Bros., $6.45 and $13.15; Robertson-Godson company, $86.17; J. A. Henderson, $2.07; Rossland Water & Light company, $33.55; Canadian Consolidated Rubber company, $49.73; Robert Barrie, 60c; West Kootenay Power & Light company, $142; W. F. McNeil, $4.50; Consolidated Mining & Smelting company, $36.92; C. J. Miles, $36.60; McKay & Beverly, $13.50 and $9.30; W. S. Murphy, $1.75; J. F. Charron, $12; J. H. Lee, $2.30; Co-operative association, $27.35; Robert Barrie, 85c; J. S. Deschamps, $94.72; Arthur Makings, $45.50; board of works payroll, Sept. 26, $64.75; Oct. 3, $63; Oct. 10, $63. Bridge account, H. R. Eagles, $14.10; J. S. Deschamps, $459.81; McKay & Beverly, $44.40; Fox & Grant, $45; Arthur Buissin, $55; Plester Cartage company, $3; Mrs. C. P. Doell, $32; Consolidated Mining & Smelting company, $8.60; Hunter Bros., $9.75; payroll, $183.75. Finance and relief—G. A. Urquart, $16.60; telegraph company, $12.19; S. R. Rowe, $10; Goodeve Bros., $3.75; W. A. Drummon & Co., $18.50; Rossland Miner, $18; Henderson livery, $23.25; John Berg, $86; Mrs. C. P. Doell, $41; W. J. Evans, $17.50; E. S. H. Winn, $100; C. F. R. Pincott, $20.

Quotations for coal were received as follows: A. B. McKenzie & Co., $7.75 per ton; M. A. Henderson, Princeton lump screened coal, $7.50; Lethbridge, $7.50; North Wyoming, $9; Blairmore furnace coal, $7; Blairmore mine run, $6.50. Robert Barrie, Galt coal, $7.50 per ton.

TRAIL WOMEN COLLECT CLOTHES FOR BELGIANS

(Special to The Daily News)

TRAIL, B. C., Oct. 15.—A very large meeting took place on Tuesday afternoon in the parish hall when an auxiliary to the Trail branch of the Canadian Patriotic fund was placed on a working basis. At the present time it is the intention to gather clothes for the relief of the Belgian refugees and to get the shipment away by Oct. 20.

A meeting will be held at 3:30 o'clock on Oct. 20 in the parish hall, at which it is hoped clothing will be delivered on the afternoon of Oct. 19.

Following are the officers: Hon. president, Mrs. Wade; president, Mrs. Reese; vice-president, Mrs. Skill; secretary-treasurer, Miss Weir.

W. T. COOK WINS GOLF CONTEST IN BOUNDARY

(Special to The Daily News)

GRAND FORKS, B.C., Oct. 15.—The golf handicap just concluded was won by W. T. Cook.

MADAGASCAR MISSIONARY GOES TO SLOCAN CITY

(Special to The Daily News)

SLOCAN CITY, B.C., Rev. Mr. Mathie, who has been a missionary in Madagascar for 15 years, has been appointed to fill the vacancy here in the Presbyterian church, Rev. D. Gray going to Vancouver.

DECLARES FINANCES OF ALBERTA ARE GOOD

(By Daily News Leased Wire.)

EDMONTON, Alta., Oct. 15.—Provincial Treasurer Hon. C. R. Mitchell delivered his annual budget speech in the legislature today. Despite the stringency as a result of the war, he said, the finances of the province were in good condition. The net provincial debt on Dec. 31, 1913, was $18,420,000 and at the end of December of the present year it would be $21,333,000. Of this amount $19,500,000 has been expended in public works, including $7,885,000 for telephones, which department now has a surplus of $476,000 available for a sinking fund. All liabilities have been promptly paid during the year and at the end there will be an estimated surplus of $1,323,000. This includes $475,000 held for elevator assistance.

The estimates for 1915 on current revenue are $5,628,000, exclusive of any borrowed money, and the estimated expenditure $5,402,000. It may be necessary in 1915 to curtail the expenditures if the revenue should further drop off

The provincial treasurer dealt at length with the railways guaranteed by the province. Of a total mileage of 2,435 guaranteed by the province, 1,209 had steel laid and 387 more would be completed by the end of the year. This represented a total liability to the province of $40,000,000.

Many telephone extensions had been made during the year and despite the war the revenues had kept up and larger revenue was expected next year. To meet shortage some new measures for raising revenue had been introduced, including taxation of wild lands and increase in succession duties as well as increased license fees.

A number of bills were passed during the routine proceedings and an effort is being made to reach prorogation by the end of the week.

PRIVATE AMERICANS MAY LOAN TO BELLIGERENTS

(By Daily News Leased Wire.)

WASHINGTON, Oct. 15.—Administration officials, it has become known, now consider loans to belligerent nations by private individuals in the United States to be in the same class with ordinary commercial transactions. Under this construction such loans would not be considered violations of neutrality and therefore would not be interfered with by the United States government.

FRENCH SWIM SWIFT RIVER

(Continued from Page One.)

and left in order to strengthen their right.

Enemy's Flanks Now Safe.

However, although the Germans have failed to break the allied line and have themselves been compelled to give ground they are now in a better position, having a front which stretches from the Swiss frontier to Antwerp and Dutch territory, so that there are no flanks which the allies can turn.

The allies can attempt to break the enemy's line and it is believed that this is what they are trying to do on the Belgian frontier.

Of the fighting in northern Belgium the French communication says that German troops coming from Antwerp are marching toward the west and on the evening of Oct. 14 reached Bruges. The opposition offered to this advance was not serious and apparently was only intended to delay them. The Germans have occupied Bruges and are probably at the present time near Ostend. The main German force, however, is believed to have proceeded southward to assist in the attempt of the Germans to establish themselves on the French coast.

Next Battle Near Coast.

With the forces of the allies occupying Ypres and doubtless other troops between that city and Nieuport, 10 miles southwest of Ostend, they will probably be compelled to fight their next serious battle along the roads and railways running eastward from the coast. Again they may join with Gen. von Kluck's army, which occupie. Lille and the country north of that city.

The people of the country affected are rapidly making their way to the coast ports and to England and bring reports of the prevalence of panicky conditions.

Belgian Wounded Reach Britain

Belgians are now coming to England in large numbers. About 3,000 wounded Belgian soldiers have reached this country, while England is also getting more refugees from Holland, the towns and cities of which are overcrowded and are finding difficulty in feeding them.

Plans are under way for the repatriation of many of those who fled from Belgium on the approach of the Germans. A committee representing the refugees has gone to Antwerp to make arangement with the German authorities for their return. The Germans say they are unable to guarantee the safety of the innocent should any of the population fire upon or otherwise interfere with the German troops.

The report comes from Basle through Rome today that the French have reoccupied the towns of Altkirch and Mulhausen in Alsace but if this were so it probably would have been mentioned in the French official statement.

Ostend Closed to Ships.

(By Daily News Leased Wire.)

FOLKESTONE, Oct. 15, via London 6:55 p.m.—The cross channel steamers which have been busy for days transporting refugees from Ostend say that port is now closed and they are being employed now in bringing refugees from Dunkirk and Calais. These refugees are Belgians who succeeded in getting to France from their own country and owing to the panicky feeling in the French port are now just as anxious to come to England.

The Leopold II, one of the regular Ostend liners, which left here last night, was warned not to enter Ostend and proceeded to Dunkirk where it remained until this afternoon, when it returned to Folkestone.

Heavy firing could be heard at Dunkirk throughout the night but it was said that the Germans were a long way from the town.

The Princess Henrietta which left Ostend yesterday with Belgian soldiers who were landed at Calais also arrived here this afternoon bringing refugees Calais, they reported, is filling up with people from the surrounding country and from Belgium. A fleet of fishing boats has also arrived filled with passengers from coast ports.

Three thousand Belgian wounded have arrived here. Some have not had their wounds dressed for six days.

URGES RANCHERS TO FORM CENTRAL AGENCY

The following appeal to all agricultural associations is made by O. J. Wigen, the Wynndel, B. C., fruit grower:

"Will each fruit and agricultural association in East and West Kootenay kindly make themselves acquainted with the article by John S. Steele, reproduced in the Weekly Free Press and Prairie Farmer, Winnipeg, under date of Oct. 7, page 6? When this article is carefully studied by all of us, it appears to me, we should be ripe and ready to gather all our grievances—consisting of envy, spite, selfishness, neighborly grudge, individually and collectively—and put them in the heap and let loose the batteries of co-operative spirit and patriotic duties to exterminate them. This done, each association should pass resolutions addressed to our deputy minister of agriculture, William E. Scott, urging upon him to use his influence to induce our government to send a lecturer, organizer and instructor to all parts of our districts, as early as possible during fall and winter, so as to perfect permanent local organizations along lines as recommended in the first part of the report of the provincial commission on agriculture and so pave the way for a central selling organization, including all organized localities, to work in conjunction with the Okanagan central organization for handling our next year's output. It is also of utmost importance that each locality closely looks up what wastes from the field and orchards are going on in their neighborhood so as to be prepared to request the government to finance the stoppage of them."

GERMANS COMPLAIN SOLDIERS OVERFED

The Berliner Lokalanzeiger in several issues complains that prisoners of war are fed much better than millions of Germans who often have no butter and eat meat only twice a week, whereas the prisoners get meat daily. The same paper also suggests that wounded and dead horses on the battlefield should be immediately converted into sausages and other food for the German population and prisoners.

HUGE THEFT OF GRAIN REPORTED

Three-Quarters Million Bushels Declared Missing at Montreal—Officials Say Loss Is Less.

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—A large quantity of grain, said by some to be more than would fill two of the biggest "tramps" plying out of Montreal, is said to have been stolen from elevators owned by the Montreal harbor commissioners. The figure is set by several persons at 750,000 bushels. The harbor commissioners state, however, that only a few hundred bushels have disappeared.

A few hundred bushels" is the way Commissioner Farquhar Robertson puts it. Others closely connected with the harbor board do not take the same optimistic view, however.

Col. Labelle and Farquhar Robertson, two of the harbor commissioners, this afternoon admitted that inquiries were being made into shortages, but they declared that the total shortage they had found was small.

The first intimation of the thefts was received from England, where a cargo was reported about 10,000 bushels short. An investigation followed and the deeper those conducting it go the more they are amazed.

FOOD AND FODDER FOR GERMAN ARMY

Kaiser Maintains Supply Depots Throughout Empire as Reserve for Men of Army.

In order to meet the great demand for food during such a war as this Germany, decades ago, organized a great system of food and fodder depots throughout the empire, and it is confidently believed that the food stores there gathered are in themselves sufficient to feed all the armed forces as well as the civilians of Germany for an entire year, writes J. W. Van Eyndhaven in Leslie's. These governmental commissary depots are scattered over the empire, and, although it is well known that they are in the most secure spots and covered by fortifications, their exact locations are among the most carefully guarded military secrets.

Each depot is composed of a series of storehouses, usually five in number. These are filled in rotation at the rate of one each year, one being depleted each year in the feeding of the regular standing army and navy. It will be readily seen that under this system the commissary depots are at all times filled to at least four-fifths of their capacity with grain and other food staples.

Food Sold at Low Rate.

Whatever is not required of the annual allotment to feed the army and navy is sold at a low fixed rate to the public. The purchasing of these immense quantities of foodstuffs is carried on in a simple, methodical manner. Whenever a farmer is unable to obtain in the market the price for his products that he figures upon, he can get a fair fixed rate for them from the government and he, under these circumstances, is never obliged to throw his crop on the market at a ruinously low price. He simply informs the nearest office of the intendantur, the imperial commissary department, that he has so much rye, wheat, oats, peas, straw or whatever staple on hand, and the intendantur purchases his goods at the regular fixed rate. Whatever can not be obtained in this manner is purchased in the open market, but the government takes care that every year one entire fifth of these stores is renewed.

Erbswurst in Quantities.

In addition to the enormous quantities of grains and other non-perishable foodstuffs the government has in reserve large stores of canned goods of all sorts used in the regular provisioning of the army. The best known staple of this kind, and one of which a great stock is kept, is the famous erbswurst, a compact and well-balanced ration, composed of peas and other vegetables and meat, dried, pressed and put up in tins. A portion of this compound put into a quantity of hot water quickly dissolves and furnishes a hearty meal. Each soldier in the field carries a three days' supply of this and other compact food as emergency ration in his knapsack or saddlebag, and it is also frequently used at the regular field mess.

CAIN.

(Betty D. Thornley in October Canada Monthly.)

There's many a man in flaring hell
For a single twist o' the knife;
There's many a rotting prison corpse
That keeps his cell for life;
But there's none will stand
By the man who planned
With a pit-perverted skill
To mint the world with a German die—
At the price of a million-kill!

It isn't the uhlan battle thirst,
It isn't the Belgian rage,
It isn't the English greed for land
That mires the reeking stage,
But the monstrous plan
Of a single man
With a world-engulfing will,
Who calls to the vultures out o' the north
To feast on a million-kill.

The kaiser sits in an armored train,
Far back from the battle-grip.
It's the Leipzig boy and the Paris boy
Who crouch where the bullets nip,
It's the Antwerp man
Who is ending his span
With a blood-choked prayer, if he will
As he lies by the side of the Liverpool lad
In the kaiser's million-kill.

The kaiser's mother—rest her soul!—
She hides her face in heaven.
She prays that she were the Yorkshire maid,
Or the widowed wife in Devon.
They mourn their dead
With proud-held head,
Whose souls are in God's will,
She mourns for the thrice-damned soul of him
Who planned the million-kill.

INDICTS KAISER FOR DELIBERATELY CAUSING WAR

Great New York Newspaper Declares Germany Cannot Be Free Until Militarism Is Obliterated

The following is from the New York World:

For more than 40 years the civilized world has been under tribute to German militarism. Not a nation has escaped.

Five years ago David Lloyd-George, the British chancellor of the exchequer, estimated that the civilized countries were spending $2,500,000,000 annually on armaments and preparations for war. Last year the total sum was nearer $3,000,000,000. Most of this tax has been imposed from Berlin.

Germany has been developing her industries and commerce largely with borrowed capital, while her own resources went into the construction of a monster military machine that some day was to override the world. As the burden increased, the crisis approached, until the German autocracy came to see that the empire would soon have to choose either a war that decided a mastery of Europe or a social revolution at home. So this autocracy bent all its energies to the congenial task of making ready for war.

During the last 10 years, under the inspiration of the kaiser, the German people have been taught to think war, read war, write war, talk war, dream war and prepare for war until the whole nation became obsessed by the devil of conquest. Practically every activity of the empire was directed and shaped toward this single end. The "place in the sun," of which the kaiser so often spoke, was a place to be won with the sword. It was a place to which the German troops would "hack their way" as they have hacked their way through Belgium.

Not a nation, including Germany's own allies, but came to regard itself as a possible victim of Germany's military ambition. Even the United States, far removed as it is from the sphere of the kaiser's ordinary activities, has twice been on the edge of hostilities with Germany, through no fault of any American, and the Monroe doctrine has been derided by every German imperialist as "a scrap of paper" that ought to be torn up by the war lord of the Teutons.

The kaiser's defenders boast that he has kept the peace of Europe for 25 years; but they all omit the significant fact that every crisis in which he kept the peace was a crisis of his own creation.

Ever since the Morocco incident the belief had been growing throughout Europe that war could not long be avoided and that the kaiser would strike the moment he thought that Germany was fully prepared and held her antagonists at a disadvantage. That belief has been vindicated by events. The kaiser did precisely what it was predicted that he would do.

When one word from him would have submitted the Austro-Servian controversy to mediation, he shut his lips and plunged the world into war. Today nine nations are in battle. A week from today a dozen may be involved. With the kaiser's original plan of French conquest already aborted, now come the first faint overtures for peace. Nothing definite, nothing formal, but a tentative diagnosis of public opinion to ascertain the largess which the kaiser might obtain for his consent to extinguish the conflagration he has started.

It is easy to talk of immediate peace, but upon what possible terms? To restore Europe to the condition of an armed camp would not be peace. It would be merely a truce. The grim tragedy that is now going on in France and Belgium and East Prussia and Poland would be resumed as soon as Germany was again prepared to strike. Nothing has yet been decided, and a treaty of peace, like the treaty guaranteeing Belgium's neutrality, would be only "a scrap of paper" which the German autocracy could proceed to violate at will. The nightmare of militarism would still hang over the nation and every laborer in Europe—perhaps every laborer in America—would have a soldier on his back. The war would end only to begin anew as soon as the belligerents had had a breathing spell of five or ten years.

When certain questions are submitted to the court of cannon they must be decided by the court of cannon. The issues in this case were submitted to that court by the kaiser himself, and they cannot be withdrawn. The decision must now be written in blood and iron, or there is no final adjudication. Either all Europe will come under the yoke of military despotism or all Europe will be free. Europe cannot be free—Germany herself cannot be free—the German people cannot be free—until German militarism is destroyed, until the monster is obliterated.

Peace is no more possible in Europe now than peace would have been possible in our own civil war before the issues of slavery and secession were determined for all time. Out of this war must come more than a mere truce—more than a paper peace. There must come a new emancipation proclamation, striking from civilization the shackles of military autocracy. Without a new birth of freedom all this sacrifice and suffering and bloodshed will have been in vain.

NEW FOLDERS TELL OF WEALTH OF PROVINCE

British Columbia's Great Natural Resources and Development Made Possible by New Railway.

The provincial government has issued two new folders describing the natural resources and fast developing opportunities of the province and the lands along the Pacific Great Eastern railway from Vancouver to Fort George.

Many facts concerning the manufacturing, lumbering, mining, agricultural and fishing industries of the province are given. The production in the various industries for 1913 is given as follows: Agriculture, $23,947,529; lumbering, $30,000,000; mining, $30,296,398; fisheries, $14,455,488; manufactures, (estimated) $66,000,000, making a total of $163,726,415. The population of the province is given as 539,855 and the total trade in 1913 as $93,683,848.

Many pertinent facts are given in regard to the adaptability of the soil and climate for mixed farming, fruit growing, vegetable growing, poultry raising, dairying, stock raising, and truck gardening. British Columbia timber and the manufacture of pulp, paper, etc., the abundance of water power, readily convertible into electricity, the coalfields, gold, silver, copper and lead mining, zinc, subsidiary products, coast and inland fisheries of the province are described.

The folder describing the Pacific Great Eastern railway contains information concerning the mining, timber and agricultural possibilities in the adjacent country.

The railway is the only trunk line running north and south within the province, which it practically bisects. While constructed to afford facilities for the transport of produce for home consumption, it is also being built to provide facilities for export trade and involves the erection of commodious wharves, elevators, warehouses, and kindred facilities on its tide water terminals at Vancouver, North Vancouver and Squamish. It has rendered available thousands of acres of fertile soil which have hitherto remained vacant for lack of transportation facilities, it is stated, and the district through which the railroad passes is described as rich in mineral formations, commercial possibilities, marvelous scenery and big and small game.

Fill Your Windows With Live Merchandise

To Every Merchant Who Sees This Advertisement---

NATIONAL Newspaper Window Display Week, beginning next Monday, October 19, offers every retailer an opportunity to reach out after more business.

The live goods you have in stock are those that are advertised by the makers in this and other good newspapers.

These are the goods for which there is a direct demand. You can turn this direct demand into sales over your counter if you let the public know, through your show windows, that you sell these standard articles.

Every time a manufacturer advertises his products which are sold by you in the newspapers he is making customers for your store. You can help him make these customers by keeping your show windows attractively decorated with this live merchandise.

National Newspaper Window Display Week is a movement that will extend all over the North American continent. It is bound to encourage many other manufacturers to spend money in advertising which creates direct demand upon your store.

This newspaper has furnished you with signs to paste upon your windows during next week when you show goods advertised in these columns. If you want any more of these signs we will gladly furnish them free of charge.

Make this Window Display movement a big success in this community. This is a good time to reach out after more business.

Every Movement of this Kind is Bound to Hurry Along the Prosperity Which is Within Sight

LEGAL AND OFFICIAL ADVERTISING

Effective on and after Jan. 1, 1913.

Legal Advertising (includes municipal and government notices) — 12c per line for the first insertion and eight cents per line for all subsequent insertions.

In certain cases, however, for the convenience of the public, flat rates have been set, as follows:

Applications for Liquor Licenses:—Once per week for four weeks, $5; daily for month, $30.

Applications for Transfer of Liquor Licenses:—Once per week for four weeks, $7.50; daily for month, $45.

Land Purchase Notices:—Once per week for 60 days, $7.

Land Lease Notices:—Once per week for 60 days, $7.

Certificate of Improvement Notices:—Once per week for 60 days, $12.50.

Delinquent Co-ownership Notices:—Once per week for 90 days, $25.

Duplicate Certificate of Title Notices:—Four insertions, $8; eight insertions, $14.

Water Application Notices:—Four insertions up to 100 words, $6; over 100 words, in proportion.

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

FRIDAY, OCTOBER 16

FIRST CONTINGENT IS WELCOMED.

Canada's first contingent has landed in England, the first story of the arrival there apparently having been a mistake. As might have been expected, they were given an enthusiastic welcome.

The landing of these troops in the mother country is a striking tribute to the solidarity of the Empire. It constitutes Canada's first contribution on a comprehensive scale to the Empire's cause.

That the contingent will receive every possible attention in the mother country can be taken for granted and that its members will acquit themselves in a manner worthy of Canadians before taking the field as well as while on active service can be taken for granted.

CONTRASTS.

The course pursued by Germany in the matter of Belgium's neutrality in 1870 and at the outbreak of the present war and the attitude taken by France both in 1870 and in connection with the present conflict were strikingly contrasted by Right Hon. Lloyd George in a recent speech in London. Speaking at Queen's Hall, he said:

This was not the only country to defend Belgium and her integrity. Russia, France, Austria and Prussia—they are all there. Why did they not perform the obligation? It is suggested that when you quote this treaty it is purely an excuse on our part. It is our low craft and cunning, just to cloak our jealousy of a superior civilization which we are attempting to destroy.

Our answer is the action we took in 1870. What was that? Mr. Gladstone was then prime minister. Lord Granville, I think, was then foreign secretary. I have never heard it alleged to their charge that they were ever jingo. What did they do in 1870? We called upon the belligerent powers to respect that treaty. We called upon France; we called upon Germany. At that time, bear in mind, the greatest danger to Belgium came from France and not from Germany. We intervened to protect Belgium against France exactly in the same way. We invited both the belligerent powers to state that they had no intention of violating Belgian territory. What was the answer given by Bismarck? He said it was superfluous to ask Prussia such a question in view of the treaties in force. France gave a similar answer.

We received the thanks at that time of the Belgian people for our intervention in a very remarkable document. This is in a document addressed by the municipality of *Brussels to Queen Victoria* after that intervention:

"The great and noble people over whose destinies you preside have just given a further proof of its benevolent sentiments toward this country. The voice of the English nation has been heard above the din of arms. It has asserted the principles of justice and right. Next to the unalterable attachment of the Belgian people to their independence the strongest sentiment which fills their hearts is that of an imperishable gratitude to the people of Great Britain."

That was in 1870. Mark what follows. Three or four days after that document of thanks the French army was wedged up against the Belgian frontier. Every means of escape shut up by a ring of flame from Prussian cannon. There was one way of escape. What was that? By violating the neutrality of Belgium. What did they do? The French on that occasion preferred ruin, humiliation to the breaking of their bond.

The French emperor, French marshals, 100,000 gallant Frenchmen in arms preferred to be carried captive to the strange land of their enemy rather than dishonor the name of their country. It was the last French army defeat. Had they violated Belgian neutrality the whole history of that war would have been changed. And yet it was to the interest of France to break the treaty. She did not do it.

It is to the interest of Prussia *to break that treaty, and she has* done it. Well, why? She avowed it with cynical contempt for every principle of justice. She says treaties only bind you when it is to your interest to keep them. "What is a treaty?" *says the German* chancellor; "a scrap of paper."

Mr. Lloyd George has set forth the facts here in a way that are enlightening and that bring into strong relief Germany's callous dishonor of her plighted word.

WHAT THE PRESS IS SAYING

Making a Soldier.

Kitchener's war school uses a 26-week course to prepare a man to be shot over. This causes impatience among the patriots and at the same time cures it. Every young man that enlisted for the Spanish war expected that he would be snapping at the foe as fast as a steamer could take him to Cuba, and undoubtedly the same spirit prevails in England. But Kitchener knows the folly of sending untrained men into the fight against such a machine as the kaiser's. The English clerk, rushing to the colors, is getting at Aldershot a taste of the discipline which made the sirdar master of Egypt.—New York Press.

Nothing to Do.

There seems to be nothing for the British navy to do but to patrol the North sea and blockade the German coast, and be content to bottle up the German battle fleet, and thus control the seven seas, with the consequence that the enemy can get no food and supplies from abroad.—New York Sun.

A Demonstrated Fact.

It is not the spirit of Goethe, it is the spirit of Neitschke which has influenced German opinion and directed German culture in the present generation. Admitting that the German people did not want war, admitting even that the German emperor has on occasion avoided war, the fact remains that it was Germany that compelled in this instance the final arbitrament of the sword.—Philadelphia Public Ledger.

COLD STORAGE

Bobby—Ma, you said that I shouldn't eat that piece of cake in the pantry—that it would make me sick.

Mother—Yes, Bobby.

Bobby (convincingly)—But, ma, it hasn't made me sick.

"Mother, you know the way me an' Johnny Smith play I'm Indians an' he's soldiers?"

"*Yes, dear; what of it?*"

"Well, if I don't let him lick me every time we play he says I am not patriotic."

"I wish I had taken my mother's advice when she begged *me not to marry you.*"

"Did your mother try to keep you from marrying me?"

"Yes."

"Oh, how I have wronged that woman!"

"There!" said Mr. Nagg, after a labored explanation of why he had stayed out so late, "I hope this is satisfactory."

"It is more than satisfactory," Mrs. Nagg told him; "it is simply beautiful."

KAISER WILLIAM MOVES FARTHER INTO FRANCE

(By Daily News Leased Wire.)

LONDON, Oct. 15.—That Emperor William of Germany is following with the sharpest interest the fortunes of his soldiers is indicated by the fact that his headquarters have been *moved farther into France.* The imperial German chancellor, Dr. von Hollweig, and his suite have arrived at Brussels.

GREET THRONGS CHEER CONTINGENT

(Continued from Page One.)

journey inland.

England has been awaiting the arrival of the contingent for months *past. Military necessities have hitherto* rendered it impossible to give precise information concerning the movements of the troops from the Dominion and in consequence some fantastic stories concerning them have been circulated.

Many voluntary agencies in England are eager to assist in their well being, while here special efforts are being made to keep the contingent supplied with newspapers from the Dominion of Canada colony in London. London is considering several proposals for their comfort.

Disembarked in Rain

(By Daily News Leased Wire.)

PLYMOUTH, England, Oct. 16, 1 a.m.—The Canadians received a debarkation order from the war office unexpectedly this morning. Despite the rain, crowds of people turned out to watch the landing and entraining of the troops, which began with a contingent of Strathcona horse.

The various contingents were headed through the streets by their bands and pipes. Owing to the difficulty of berthing the transports in consequence of the neap tide the debarkation of the Canadians is expected to be slow.

Some Reach Salisbury.

(Canadian Associated Press Cable.)

SALISBURY, England, Oct. 15.—The country folk for many miles around lined the streets of Salisbury during the whole of this afternoon and late in the evening to give the Canadian troops a rousing welcome on their entry into the famous city, but much to their disappointment there was no sign up to nearly midnight of any of the contingent arriving. It was, in fact, just on the strike of 12 when the first detachment made its appearance. The men looked none the worse for the long sea and train journey, and on reaching camp they were refreshed with tea that had been brewing for something like 16 hours in expectation hourly of their arrival. The remainder of the troops will be brought in tomorrow.

Contrary to all previous reports, the camps are all on Salisbury plain within three or four miles of each other and the men will live under canvas.

In more ways than one the Canadians will find their new quarters a great improvement on Valcartier, where sand and dust in particular caused some trouble. The grounds are judiciously situated on gentle slopes and are well drained, so the men should be quite dry.

Ships Make Imposing Display.

(Canadian Associated Press Cable.)

PLYMOUTH, England, Oct. 15.—Plymouth is agog with excitement over the landing of the Canadian troops. Right up in the estauary transports *are steadily discharging their* cargoes amidst scenes of the greatest enthusiasm. Yesterday the surprise in this famous port was unbounded when the transports suddenly came into harbor. From the south to the *north Eye they traveled up to Hamoaze,* following what seemed an almost unending line of masts and funnels, until it faded away in the dim light of the higher waters before taking the turn for Saltash bridge.

It was an unprecedented sight, one, indeed, without a parallel in the history of the great western port. Never before has there been such an assemblage of this class of ships in the waters and it was altogether most inspiring.

Little steamboats, dwarfed almost into insignificance beside the great leviathans, passed about in every direction and added to the din of welcome by sirens and hooters As small passenger steamers passed those on the boat waved and cheered to the smiling faces high above them, who acknowledged the greeting in true British fashion and as each of the ships passed along the skirl of the bagpipes came over the waters and the men cheered to the echo. The townsfolk were only allowed to see them in the distance for, much to the disappointment of the public, none of the Canadians were allowed ashore.

Military necessities render it impossible to say anything concerning many matters upon which the Canadian public will be eager for information. The voyage to Britain was a delightful one and on every transport there was maintained the same eagerness and fine spirit which were shown in the days before sailing. It is understood there is a clean bill of health, but a good many horses have died on the voyage. The task of disembarking such immense numbers of men and material is naturally tremendous but arrangements are working with complete smoothness.

Champion Justice and Liberty.

The Western Morning News today says the arrival of the first contingent of the Canadian forces at Plymouth was an event of good augury for the future of the country.

"These splendid men have come, some of them, nearly 6,000 miles to testify to the unity of the Empire and *to take their share of the burden* which rests upon Britons the world over of being the stoutest champions of justice and liberty.

"Even if their numbers were smaller," adds the News, "we should hail *their arrival as a symbol of the solidarity* of the British race, but they come a large number in themselves and yet are only the earnest of many more to come if they are needed to help in defeating the imposition of *German tyranny and militancy on the* world. The cheers they raised for the old country when they steamed into harbor yesterday and the splendid spirit they displayed showed they have both the will and the power to give a good account of themselves at the front and prove worthy comrades of the dauntless band of heroes who, under Sir John French, have won the unstinted admiration of our French and Russian and Belgian allies, and indeed of the whole world."

Secrecy Well Maintained.

(Canadian Associated Press Cable.)

LONDON, Oct. 15.—How the secrecy of the port of arrival of the Canadian troops was maintained, says a Plymouth message, may be gathered from the fact that Plymouth's population of *nearly 250,000 was officially ignorant* that the Canadians were to disembark there. All the same, many thousands of people have lined the harbor front all day, cheering transport after transport as they have, with stately dignity, *threaded their way in across the harbor* to the inner waters on their way to the government anchorage.

The heartiness of the welcome has been unmistakable, all classes of the population having turned out and left *their work to greet Canada's sons.*

Men with megaphones have shouted words of welcome. In response to cries of "Are We Downhearted?" have come across the stretch of waters such negative replies as have startled even the sturdy and lusty folk of Devon. On the approach of the Canadians the men working in the government dockyards dropped their tools and ceased their labors to greet them, while the men of Kitchener's army, training near the sea front, stopped their drill and shouted lustily.

Strathcona's horse came in for a gratifying reception. They could be distinguished by a special banner displayed on the liner's bridge.

Those who have come in close touch with the contingent are delighted with the soldierly bearing and the heartiness of the troops and their splendid spirit. They will do Canada credit and are to be a sturdy help in the field.

TRENCHES GIVE GOOD PROTECTION

(Continued from page one.)

many places possible to gain shelter from the frontal fire of the German guns, for the men are well trained in musketry and under good fire control and the dead ground beyond the short range from their position has comparatively small terrors.

"Many of the front trenches of the Germans equally lack a distant field of fire but if lost they would be ren*dered untenable by us by the fact that* they would be exposed to a fire from the German guns in the rear and to cross fire from neighboring works.

"The extent to which cross-fire of all kinds is employed is also remarkable. Many localities and areas along the Aisne are not swept from the works directly in front of them but are rendered untenable by rifle fire from neighboring trenches. So much is this the case that among these hills and valleys it is difficult for troops *to find out whence they are being* shot at.

"There is a perpetual triangular duel. A's infantry can see nothing to shoot at but is under fire from B's guns. The action of B's guns then brings upon them the attention of some of C's artillery, waiting for a target, the latter being in their turn assailed by other batteries. And so it goes on."

BRITAIN WAGES WAR FOR JUSTICE AND RIGHT

Following are extracts from a speech by David Lloyd George, British chancellor of the exchequer:

"The great and noble people over whose destinies you preside has just given a further proof of its benevolent sentiment toward our country. The voice of the English nation has been heard above the din of arms. It has asserted the principles of justice and right. Next to the unalterable attach*ment of the Belgian people to their in*dependence, the strongest sentiment which fills their hearts is that of an imperishable gratitude to the people of Great Britain."

"*That is what we are fighting, that* claim to predominancy of a civilization, a material one, a hard one, a civilization which, if once it rules and sways the world, liberty goes, democracy vanishes and unless Britain *comes to the rescue, and her sons,* it will be a dark day for humanity."

"German merchants and German traders have the reputation of being as upright and straightforward as any traders in the world. (Hear, hear). But if the currency of German commerce is to be debased to the level of that of her statesmanship, no trader from Shanghai to Valparaiso will ever look at a German signature again."

"They can understand vengeance and mastery, and greed of territory; they can not understand a great empire pledging its resources, its might, the lives of its children, its very existence to protect a little nation that calls for its defense."

"It was a great war for the emancipation of Europe from the thraldom of the military caste which had cast its shadow upon two generations of men, and had now plunged the world into a welter of blood."

THE REVEILLE.

Hark! I hear the tramp of thousands
and of armed men the hum;
Lo! a nation's hosts have gathered
Round the quick alarming drum—
Saying, "Come,
Freemen, come!
Ere your heritage be wasted," said the
quick alarming drum.

"Let me of my heart take counsel;
War is not of life the sum;
Who shall stay and reap the harvest
When the autumn days shall come?"
But the drum
Echoed, "Come!
Death shall reap the braver harvest,"
said the solemn-sounding drum.

"What if, 'mid the battle's thunder,
Whistling shot and bursting bomb,
When my brothers fall around me,
Should my heart grow cold and
numb?"
But the drum
Answered, "Come!
Better there in death united than in
life a recreant,—come!"

Thus they answered—hoping, fearing,
Some in faith, and doubting some,
Till a trumpet voice, proclaiming
Said, "My chosen people, come!"
Then the drum,
Lo! was dumb,
For the great heart of the nation
throbbing, answered, "Lord, we
come!"

ANOTHER HOSTILE CRUISER ARRIVES

German Warship Geier Reaches Honolulu From Tsing-tau—Japanese Liner May Be in Danger.

(By Daily News Leased Wire.)

HONOLULU, Oct. 15.—The German gunboat Geier from Tsing-tau, China, arrived here today with a complement of 100 men, 25 hours in advance of the Japanese liner Shinyo, which is due here tomorrow bound for San Francisco.

Beyond saying that they intended to coal the ship, the officers of the Geier were silent. The gunboat showed no signs of having been in action, but the scraped appearance of her port side indicated that she might have been coaled at sea.

Inasmuch as this is the Geier's first appearance in an American port she is entitled to 24 hours' stay and as much coal as will take her to the nearest German port. Since all the German naval bases in the Pacific have been seized, this is equivalent to permission to fill her bunkers, but after coaling she must not revisit any American port for the next three months.

The Geier is a sheathed third-class cruiser of 1,597 tons displacement, completed at Wilhelmshaven in 1896 It carries eight 4.1-in. guns and seven machine guns. Its speed is 16.2 knots and the full complement of men is 165.

CONFIRMS DEATH OF CRAWFORD BAY MAN

The following *official list* of the officers lost in the sinking of the Aboukir, Cressy and Hogue includes the name of Lieut.-Commander Thomas E. Harrison, a son of Commander M. K. Harrison of Crawford Bay, B. C.:

Aboukir.

Lieut. Bertram H. M. Bradford, Lieut. Oscar W. Tottie, Lieut.-Commander Thomas E. Harrison, Lieut. R.N.R. H. A. Deane, Lieut. R.N.R. J. G. Watson, *Engineer Commander* A. E. Everitt, Capt. R.M. C. Field, Chaplain Rev. E. G. U. Robson, Surgeon H. J. Hopps, Fleet Paymaster P. W. Roome, Acting Assistant Paymaster R.N.R. P. S. Mahon, Midshipman J. D. Stubbs, Midshipman G. G. Gore-Browne, Midshipman G. B. Barchard, Midshipman A. V. G. Allsopp, Midshipman H. L. Riley, Midshipman A. D. C. Robertson, Chief Carpenter G. W. Dobinson, Gunner W. J. Shrubsall, Acting Gunner C. W. Brooking, Acting Gunner J. P. Leathwood, Warrant Mechanician T. G. King, Warrant Engineer R.N.R. W. H. S. Dennier, Warrant Engineer R.N.R. A. W. Inwood.

Cressy.

Kell, R.N.R.; Engineer-Commander R. H. Grazebrook, Engineer Lieut.-Commander F. C. Haydon, Fleet Paymaster H. de C. Ward, Surgeon A. F. Turnbull, R.N.V.R.; Assistant Paymaster A. L. Braddock, R.N.R.; Midshipman C. P. Delmege, Midshipman V. H. Corbyn, Midshipment F. G. Matthews, Midshipman J. A. Froade, Clerk G. T. Baskerville, Assistant Clerk J. V. Poore, Acting Boatswain J. E. Cox, Acting Gunner E. J. Catlin, Acting Signal Boatswain R. J. Cole, Carpenter J. B. Clarke, Artificer Engineer F. Monks, Artificer Engineer C. Manton, Warrant Engineer W. E. Keen, R.N.R.

Hogue.

Lieut.-Commander Clive Phillips-Wolley, Lieut.-Commander H. E. de P. Rennick, Lieut. R.N.R. E. P. J. Tinne, Acting Assistant Paymaster R.N.R. L. W. Pinhorn, Midshipman H. H. Ward, Midshipman G. C. Harold, Midshipman C. W. Holt, Clerk H. G. Lloyd-Roberts, Gunner W. J. Wallace, Signal Boatswain G. F. Gardner, Artificer Engineer W. J. Batting.

PRO-GERMAN PAPER IS SHUT OUT OF CANADA

(By Daily News Leased Wire.)

OTTAWA, Oct. 15.—*The postoffice* department has prohibited the use of the Canadian mails for transmitting of a newspaper calling itself the Fatherland. The paper is printed in New York and is the product of the pro-German element in the United States. *It is ostensibly* written for the purpose of distributing the truth about the war among the people of the United States but achieves the opposite result. Its articles are calculated to stir up a strong anti-British feeling. Other publications of a similar nature are being held up also.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine

Time it. In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, *so make your stay agree*able. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belong in your home anyway. Should one of the family eat something which don't agree *with them,* or in *case of an attack of* indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

CONGRESS HEARS GERMANY RAPPED

Kaiser's Cause Called Unholy by Massachusetts Representative—Bombast Cannot Stop Bullets, He Says.

(By Daily News Leased Wire.)

WASHINGTON, Oct. 15.—President Wilson's neutrality proclamation was torn to shreds in the house today when Representative Gardner of Massachusetts flayed the Germans and expressed *the opinion that God would* visit defeat upon them.

"It is true that with respect to the present European war my views are not those of a neutral," said Mr. Gardner. "I am entirely convinced that *the German cause is unholy and, moreover,* a menace to the principles of democracy. Furthermore, I believe the God of battles will visit defeat upon the Germans.

"But no matter which side wins we *must remember that since the beginning* of time victorious nations have proved headstrong and high-handed. We must begin at once to reorganize our military strength if we expect to be able to resist high-handedness *when the day of necessity comes.*"

He stated his opinion that the United States is unprepared for any kind of war and that the effect of vast sums of money spent by Carnegie in his peace propaganda had tended to blind Americans to the fact that their national security from a military point of view is undermined.

"I simply cannot understand," said Mr. Gardner, "how any intelligent student of history can fail to see that we are impotent to defend outselves and to enforce the Monroe doctrine by moral suasion and financial might alone. The time has not yet come when the United States can afford to allow the martial spirit of her sons to be destroyed and all the Carnegie millions in the world will not silence those of us who believe that bullets cannot be stopped with bombast nor powder vanquished with platitudes."

NEWCASTLE IS NOT SUFFERING FROM WAR

Newcastle is one of the towns in England which is not suffering badly on account of the war. The average of unemployment at the present is very slightly higher than last year, which was an outstanding year in the town's prosperity, and actually lower than in 1912, a normal year. Newcastle is primarily a shipbuilding and engineering centre and is now hard at work on government orders and likely to remain so while the war continues.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those *which are rich in* blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in the vital energy which can only come from a well fed body. For the benefit of those *sufferers who have been obliged to ex*clude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amounts, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed and instead of the usual feeling of uneasi*ness and fullness,* you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the *source of the acid irritation which in*flames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia as directed about, and see if I'm not right."

QUEEN'S TO INSTRUCT IN SHOOTING AND DRILL

(By Daily News Leased Wire.)

KINGSTON, Ont., Oct. 15.—The senate of Queens university has decided to establish a training school to give preliminary instruction in drilling and musketry to students who will volunteer for it.

A committee appointed by the senate and composed of Principal Gordon and Dean Stone will confer with other Canadian colleges and with the militia department at Ottawa regarding the possibility of organizing a unit of Canadian university men to go on overseas service, preferably at the end of the Canadian universities' winter session.

NATAL MINERS GIVE TO PATRIOTIC FUND

(By Daily News Leased Wire.)

OTTAWA, Oct. 15.—The Mutual Life Insurance company of Waterloo, Ont., has contributed $10,000 to the Canadian Patriotic fund, while William Thoburn, M. P. for North Lanark, has given $1,000.

Contributions acknowledged today include $71.50 from 36 Bohemian miners in Natal, B. C.

The fund now totals $301,485.

THE WOMEN'S PRAYER

Our men go out to war, in every street
Is heard the steady tramp of soldiers' feet.
They go forth gladly, confident and strong,
But for our hearts the waiting will be long,

We cannot fight, we can but watch and pray,
And dread the worst, and face it every day.
Like other women all the wide world through
We must keep dumb, it is not ours to do.

The cheering dies within our throats like pain;
The singing fades, and all our tears are vain.
They go so gladly from our eyes' dim sight
We turn alone to face the gathering night.

They are our men! Dear God, in heaven above,
Have You no pity for our human love?
No knowledge of the hearts that break and die
Beneath your cold, imperishable sky?

Our cries fall back on silence, yet we feel
Some comfort drawing nigh us as we kneel.
Even though there come no answer to our prayer—
God shall defend the right!—we leave is there.

—Margaret Peterson.

BELGIAN COMMITTEE TO INVESTIGATE AT ANTWERP

(By Daily News Leased Wire.)

LONDON, Oct. 15.—A Rotterdam despatch to Reuter's says the Belgian fugitives in Holland elected a committee which went to Antwerp today to study the possibilities of repatriation of fugitives. If the report of the committee is favorable it is likely there will be a general return of the Belgians to their homes.

MANY PEOPLE DEPEND ON THE WANT AD

FRENCH CANADIANS URGED TO ENLIST

Sir Wilfrid Laurier Says Death for Liberty, Law and Justice is Worth While.

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—Sohmer park was crowded tonight at the mass meeting called in support of the movement to organize a French-Canadian regiment in the province of Quebec and besides the thousands jammed within the big building several thousand disappointed people stood around outside. Hundreds of women were present and the enthusiasm was at a high pitch throughout. Noted public men on both sides of politics took part but the chief attraction was Sir Wilfrid Laurier, who was one of the speakers.

Sir Robert Borden had been invited to the meeting but was unable to attend. He wired his regrets and expressed warm sympathy with the object of the gathering. Besides Sir Wilfrid Laurier the following spoke: Sir Lomer Gouin, premier of Quebec; Hon. Louis Coderre, secretary of state; Hon. Rudolph Lemieux; J. M. Tellier, leader of the Conservative opposition in Quebec; Hon. T. Chase Casgrain; Lieut.-Col. F. M. Gaudet, probable commander of the new regiment; L. T. Mercier, K.C.; Hon. W. B. Nantel and Dr. Arthur Mignault, chairman of the meeting, who has contributed $50,000 toward the expense of organizing the regiment.

Sir Wilfrid was given a great ovation.

"The object of this war," said he, "is not only to vindicate the honor of France and the neutrality of Belgium but the supreme object is to defend the cause of civilization against the cause of barbarism.

"Among those who enroll in this regiment," said Sir Wilfrid, "will be many who will never see their country again, but they will sleep in the land of their ancestors."

Sir Wilfrid added that the dead would share in the triumph and death in a fight for liberty, law and justice was one that a man could consider worth while. Canada was a free country, absolutely free, and what she did to aid England she did of her own free will. There was no effort to rush them to the front by aid of conscription. He himself was a man of party but he was equally and more a patriot. As soon as it was certain that Great Britain would engage in the war he had stopped all discussion on the naval law or on any question that would in the least embarrass government action. He called upon them to enroll for the fight in the French-Canadian regiment, to fight in France with the British for the cause of France, for the cause of Belgium, for the cause of the British Empire, for the cause of all humanity.

The speeches were all highly patriotic and in response to the appeals made to the French population there is expected to be a rush on the part of the young French-Canadians of the province to enroll for active service.

MOST BULLETS NEVER FIND HUMAN BILLET

As a matter of fact, most of the bullets fired in actual warfare are billeted nowhere. Even at the present day, taking into account the immensely increased precision and deadliness of firearms and the improvement in rifles the ratio borne by the numbers of the killed and wounded to the number of bullets fired must be very small, says a London newspaper article. Not so long since Lord Roberts said that if the British soldier could be so trained as to make it certain that one shot in 20 "got home" our army might be pronounced five times as formidable as any continental army has yet shown itself. As it is, the army is twice as formidable. The shooting of the British lines at Mons the other day excited the unbounded admiration of the French. The firing was not that of nervous or excited men, such as happened to the New York 73rd, let us say in the Philippines when poor chaps (who had just left the land office and the ice cream counter) for the little time learned the awful fact that it was no fancy play at the ranges, but a matter of life and death with a real enemy popping at them, until they found themselves firing with shut eyes like Mr. Winkle at the partridges, and the roof of every man's mouth was hot with trouble.

And if our British—those cool, methodical, efficient men—lost heavily in that five days' fighting, what of the Germans?

Our boys, say the reports, went silent and happy to their positions, without singing, which is forbidden these days, but with their own sallies of humor—that of Little Ortheris, and Mulvaney, and now Johnny Canuck.

It is estimated that in the Franco-Prussian war the Germans fired 200,000,000 bullets. The French killed and wounded amounted to about 140,000 men. Acording to this only one ball out of 143 fired hit its man! and assuming that on an average one man out of seven was actually killed, it would seem that only one bullet in 858 proved efective. At the battle of Bantzen 714 bullets were fired for one man put hors de combat. At Vittoria, Wellington's army fired 500 shots for one man killed or wounded.

In 1849 at Kobling the Prussians fired 77,000 cartridges and killed or wounded 475 Danes; that is, one man was hit out of every 163 shots fired. Such estimates might be vastly extended without serving much purpose, but they show how necessary is efficient marksmanship, and how futile, for all murderous purposes is a rifle practise that exercises a man's marksmanship at the rate of 60 shots a day for comparatively a few weeks or a year.

MANY VOLUNTEERS RESPOND TO CALL

A despatch from Lord Kitchener arrived at a certain engineering works in Glasgow on a Saturday calling for instant volunteers for motor transport work. The night shift was on duty and on the call beng read out, 21 men out of 30 immediately responded. They set off at once for the railroad depot, caught the night mail and arrived in London on the following morning just as they had left work, grime-stained faces and clothes.

BRITISH DISPLAY COOLNESS IN WRECK

Sing "It's a Long Way to Tipperary" As Ship Goes Down—One Rescues Woman

(By Daily News Leased Wire.)

NEW YORK, N. Y., Oct. 15.—A collision in the lower harbor late today between the steamer Metapan, coming in from Colon, and the freighter Iowan, leaving port for San Francisco, resulted in the sinking of the Metapan shortly after she had been driven as far as posible on the nearby beach. All her 77 passengers and her crew were rescued. The Iowan, less seriously damaged, stood by and her boats took two of the Metaplan's passengers aboard. The remainder were transferred to rescuing craft and landed in New York tonight. The extent of the damage could not be learned definitely but passengers on the Metapan said her bow was badly bent and twisted.

The Metapan is a United Fruit company steamer and sailed from Colon for this port on Oct. 8. According to her officers and passengers the Iowan hit the Metapan about 30 ft. from the bow of the ship on the port quarter, plowing through the steel and iron and inflicting a wound that caused the Metapan to fill quickly.

The wireless operator on the Metapan immediately sent forth calls for assistance, which were answered by six or eight vessels, among them being the United States dredge Atlantic and the British cruiser Lancaster on patrol duty off this harbor. When it was seen that the steamer was sinking Capt. Spencer of the Metapan headed the vessel for shoal water and ordered out the boats and without confusion or excitement everybody was taken off.

A party of six young Britishers on the way from Peru to England to join the army were on the Metapan and, their fellow passengers say, proved to be the coolest of the lot. As their boat, among the last to leave, was lowered from the davits they joined in singing "It's a long way to Tipperary." Just as they were set afloat one of the women passengers was seen standing on the deck, apparently afraid to go down. One of the English promptly climbed to the deck and, taking the woman on his back, slid down the falls to the lifeboat.

Officers of the steamer decline to discuss the accident until after they have reported to the officials of the United Fruit company.

BRITAIN MAY GIVE AID TO HOLLAND

Burden of Caring for Half Million Belgian Refugees Falls Heavily on Netherlands

(By Daily News Leased Wire.)

LONDON, Oct. 15.—There is every likelihood that the British government will soon be called on to consider the question whether Great Britain should offer aid to Holland in caring for 500,000 Belgian refugees in Dutch territoty. Providing food, shelter and clothing for so huge an army of fugitives is already beginning to be a severe drain on the authorities of the Netherlands and a strong feeling prevails here that the burden of succoring the subjects of King Albert belongs to England. The Daily Chronicle prints an editorial believed to be inspired officially in which it is urged that a wiser course than bringing the Belgians in Holland to this country would be "for our government with or without those of our allies, to compensate the Dutch for the cost of keeping them."

Besides showing Great Britain's gratitude to Belgium such a step, it is argued, would aid in solidifying the good relations now prevailing between the United Kingdom and the Netherlands.

At the Dutch legation it was said that the people of Holland are aiding the Belgian refugees without hope of recompense and would continue to do so to the best of their ability. Wherever possible, however, the government of the Netherlands will urge upon the Antwerp fugitives the desirability of returning home under the guarantees offered by the German authorities. The legation is without knowledge of any negotiations begun by the British government concerning compensation to Holland for the hospitalities to refugees.

With regard to rumors concerning the alleged weakening of Holland's neutrality in favor of Germany the Dutch minster said today:

"I would like you to reiterate the fact that Holland's neutrality remains unshakable, the Netherlands will turn its guns on the Germans should they attempt to violate our neutrality at the mouth of the Scheldt as quickly as she would on the English if they sought to enter the Scheldt from the North sea."

PILLAGING GERMANS PUNISHED BY FRENCH

Two Are Shot, Two Sent to Prison—Soldier of France Refused to Wash Feet, Jailed.

(By Daily News Leased Wire.)

PARIS, Oct. 15, 6:45 p.m.—Four German prisoners, convicted by court-martial of pillaging and housebreaking, have been given severe sentences. Two, named Shriek and Bruggman, were ordered shot. A third, named Pabrezech, was condemned to life imprisonment, and a fourth, Weber, was given 10 years in prison.

Louis Dutherin, a French soldier 25 years of age, belonging to the territorial infantry, was sentenced to five years at hard labor on public works for having refused to obey the command of his lieutenant to wash his feet in a stream when all the others of his company did so after a march on an August day.

BELGIUM SAID TO CALL ALL FIGHTING MEN

(By Daily News Leased Wire.)

LONDON, Oct. 15.—The Belgian government before removing to France says a despatch from The Hague to the Exchange Telegraph, ordered all male citizens between the ages of 18 and 45 to enter the army within two days or be treated as traitors.

GRAIN PASSES THROUGH PANAMA

Thirty Days Saved on Voyage From Tacoma to Dublin—Saving in Cost Effected.

(By Daily News Leased Wire.)

DUBLIN, Oct. 15.—A good deal of interest in shipping circles, says the Irish Times, was attracted by the arrival from Tacoma, Wash., of the steamship Daldorch, which is the first British vessel to pass through the Panama canal and has made Dublin its port of arrival. The Daldorch left Tacoma on Aug. 4 and in consequence was able to pass through the canal, which was officially opened on Aug. 15, the voyage to Dublin being accomplished in 50 days. Usually the time occupied in the passage around the straits of Magellan, involving long steaming by South America, was 80 days and frequently more. The saving of 30 days at least on the voyage has been attended with many advantages, such as less consumption of coal, shorter period of engagement of crews and reduction in provisioning. The total dues paid for the passage through the canal locks was $4,000, but the incidental circumstances attendant on the saving of 30 days on the voyage more than compensated for the outlay.

The vessel has brought a cargo of 6,500 tons of wheat, which has the distinction of being the first grain cargo of the season brought from Tacoma to Europe.

The vessel had to adopt precautions to avoid the German cruiser Karlsruhe which was known to be off Porto Rico, and did all its night steaming without lights. A British man-of-war spoke the Daldorch off Teneriffe. Two of the vessel's crew being German and one an Austrian, they have been detained by the customs authorities at Dublin for removal to Arbor Hill.

LONDON WOMEN ARE PREPARING TO FIGHT

The women of London do not confine themselves to knitting socks, sewing shirts, making bandages and attending the wounded. Mrs. Haverfield, wife of a British officer, has formed a volunteer corps for home defense, and the women are drilling, rifle shooting and marcaing. If the Germans come an enthusiastic and capable body of women fighters will be offered the war office.

WANTONLY DESTROYED VILLAGE IN ALSACE

A pathetic story of the wanton destruction of the picturesque Alsatian village of Purgweiler by a horde of drunken Germans is recounted for the first time in the Turin "Gazetta del Popolo," whose war correspondent has collated the narratives of fugitive survivors.

It was on Aug. 15. A thousand villagers were gathered around the image of the Virgin celebrating the festival of the Assumption. German troops who had been pursuing the retreating French were lodged, some outside, some inside the village.

Towards midday a subordinate cavalry officer rode into the central square on a horse which was fast losing blood from an ugly wound. Soon it dropped to the ground in agony. The officer, whipping out his revolver, shot the animal dead.

Hearing the report, a group of German soldiers, who had been getting tipsy in a wine tavern hard by, seizing their rifles ran out into the street, exclaiming, "They're shooting down our men." So they began firing recklessly into houses, and, indeed, at everybody they chanced to meet. The terrified people rushed indoors, barring the entrances to their dwellings.

In the meantime officers on horseback went round the district to summon their men from pastimes. They then broke down the doors of the houses with sledge hammers and ordered out forthwith the entire population of men, women and children, giving each family a few minutes' grace to collect a day's rations and a few scraps of clothing.

Fire and Murder

The villagers all seemed to realise that they were fated never to return to their homesteads. Many on leaving chalked on the doors some such inscription as: "For God's sake spare this habitation. It belongs to an innocent man—the bread-winner of a big family."

Amidst a strong guard of soldiery all the villagers were next lined up along the principal streets and absolute silence was called while all the menfolk were bidden hold up their arms. Then, towards the hour of sunset, five of their number were told to stand forth and were accused of having fired upon the German troops.

They were led 50 yards down the slope on the hillside, while the terrified spectators were directed to line the crest of the hill to witness a deadly volley of lead being poured into the bodies of the five victims one after the other.

In the interval automobiles were busy carrying barrels of petroleum for the destruction of the place. Bands of troops went from house to house, piling up the furniture in the middle of the ground-floor rooms, saturating it with the same inflammable fluid and setting the whole on fire. Factories and the larger buildings were wrecked with bombs. Only the village church was spared and for some unexplained reason a pretty, isolated country house standing in its own flower-decked grounds also escaped.

Five hundred homeless families were made to stand in the pen all through the night to watch the burning of their homes. The corpses of the slain quintette were thrown into a common grave.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs"

Every mother realizes after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother. If coated, give a teaspoonful of this harmless "fruit laxative" and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diaharrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

CALL MONEY IS MORE PLENTIFUL

Rate Drops From Eight to Seven Per Cent—Amalgamated Copper Cuts Dividend.

(By Daily News Leased Wire.)

NEW YORK, Oct. 15.—Reduction in the rate for call money from 8 to 7 per cent was the most significant financial development today. The higher rate was established soon after the outbreak of the war and has prevailed since that time.

Cables on London rose to 4.98 3-8 and sight drafts were a cent lower. Francs were again nominally quoted but the market seemed to be bare of marks.

In point of fact, today's exchange was extremely dull, except for some business in cotton bills. Brokers declared that another fortnight of exports on the scale recently reported will be productive of a large credit balance in London, with resultant lowering of existing rates of exchange at this centre.

The cut in the Amalgamated Copper company's quarterly dividend from $1.50 to 50 cents was in line with general expectations and a logical sequence of the recent proportionate reduction made by the Anaconda Copper Mining company. Further sales of copper metal at the low figure quoted last week were announced, with intimations of more curtailment of production. Pittsburg advices suggested continued shading of prices for finished iron and steel.

Bank Piles Up Gold.

The Bank of England's weekly statement was notable for a further piling up of its gold holdings by about $12,400,000, a total reserve increase of $13,200,000 and a gain of 2 per cent in reserve liabilities. Trading in London's financial markets manifested no pronounced tendency other than extreme caution.

Gold exports to Canada were resumed on a large scale today in connection with the further liquidation of New York city's obligations in London and Paris. The banking syndicate which floated the recent $100,000,000 6 per cent city issues shipped about $6,300,000 to Ottawa, where it will replenish the gold reserve of the Bank of England.

WARRING POWERS BUY IN CANADA

Purchasing Agents Will Come to Dominion from Great Britain and France.

(By Daily News Leased Wire.)

OTTAWA, Oct. 15.—Ontario industrial centres are sending deputations to the capital these days requesting that in the letting of contracts by the government the importance of keeping the wheels of industry moving in the various centres be not forgotten and that as far as possible each institution be given a share of the contracts. A large deputation headed by T. J. Stewart, M.P., Hamilton, waited upon Hon. Robert Rogers and Hon. J. D. Hazen, acting minister of militia, today with this purpose in view. They were promised consideration.

The contracts to be let will be extensive as they include not only those for material needed for the equipment of Canadian troops, etc., but also for France and England. A purchasing agent from France is expected here tomorrow and one from England at the end of the week. These men will work in conjunction with the subcommittee of the cabinet, which has the work of purchasing supplies in hand.

HOLDING THE MARKET STEADY

Advertised goods have won everlasting fame for themselves during the present crisis.

They have held out firmly against advances in price even in the face of higher cost of materials.

Men who advertise are believers in the square deal.

They win public confidence because they are deserving of it.

They do not take advantage of the public when a pinch comes.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY.
Deputy Minister of the Interior.

Mining News

ELEVEN CERTIFICATES OF IMPROVEMENT GRANTED

Eleven certificates of improvement for mining claims in Nelson district have been issued during the past week from the office of the mining recorder. They were to:

Nels Everson, for the Allys and Ecleston on Jubilee mountain.

George H. Colwell, for the Gold Nugget on Wild Horse creek.

Charles Huscroft, for the Creston at Rykerts.

J. R. Cranston, for the New Day near Nelson.

H. C. A. Cornish, for the Quebec, Gracie R. and Arnold at Green City.

J. R. Cranston for the Old Discovery on Sheep creek.

R. McLeod, for the Tommy and Ontario on Kokanee lake.

THREE NEW CLAIMS ARE RECORDED

Three new mining claims in Nelson mining district have been recorded at the office of the mining recorder during the past week. They were:

On the east side of Columbia river near Fruitvale, the Tripole by Berardo Contini.

On Whitewater creek, the Bachelor's Best by E. B. Irving.

At head of west fork of Rover creek, the Beatrice by Willard J. Moore.

CONSOLIDATED OBTAINS TOAD MOUNTAIN CLAIMS

The Shut Down, Shut Out and Shut Up fractional mining claims on Toad mountain have been transferred to the Consolidated Mining & Smelting company by P. W. Racey, W. M. Archibald and Dan Matheson, respectively. S. G. Blaylock has transferred to the Consolidated company the Starlight fractional and Victoria fractional claims, also located on Toad mountain.

BONDS GROUP OF CLAIMS IN BOUNDARY

A Vancouver man this week secured a working bond on the Guedetta group in Franklin camp, north fork, from John Morrell, the veteran prospector, says the Grand Fork Gazette. The group includes 14 mineral claims upon some of which exceedingly good ore has been demonstrated. Development work under the bond will commence in the course of a few weeks.

ROSSLAND SOUTH BELT MINE LEASED BY RUFFNER

ROSSLAND, B. C., Oct. 15.— The A. S. Goodeve company has leased to John Ruffner the Phoenix mine, located in the South Belt, the property of the Phoenix Mining company. The lease is for a term of years and calls for a certain number of men to be working it.

GIVES DESCRIPTION OF A BAYONET CHARGE

In very picturesque language a man who was wounded at Tournai gave the following sketch of a bayonet charge in which he took part: "They can stand fire, can those Tootans. We were picking them off like winking and still they came on. Then, when they got within shouting distance we received the word to charge. Our officer was a sprinter, but we were out of the trench and heeling after him, all of us shouting—shouting like hell-oh. The perishers seemed stuck. They just stood and gaped as we came chasing down the slope—their mouths wide open as if they were wondering what the blazes we were up to. When we were within 20 or 30 yards of them there was an alteration. They knew then what we wanted and they just threw down their rifles, turned about, and set the pace. Some of them, as they went, chucked off their packs and a few even tried to pull off their tunics! But we had 'em! I never knew I could run before, nor the other chaps, and we pinked the blighters in the back by the score."

CO-OPERATION HAS PROVED SUCCESS

Alberta Farmers Company Reduces Spread in Wheat Price and Makes Profit—Handles Hogs

(By Daily News Leased Wire.)

CALGARY, Alta., Oct. 15.—Four hundred delegates, representing the 6,000 shareholders of the Alberta Farmers Co-operative Elevator company, an offshoot of the United Farmers of Alberta, met in Calgary today and reviewed the business affairs of the company for the first fiscal year. The company handled 3,774,381 bushels of grain in the 78 elevators it is operating, reduced the spread in the price of wheat, steadied the price and made a profit of $17,000.

The livestock department will handle a little less than 50,000 head of hogs and the officials are positive that next year the hog output will be in excess of 50,000. When it goes over this mark the Alberta government is pledged to finance a co-operative packing plant for the farmers. The co-operative purchasing department tried out in an experimental way during the past six months has been a success and will have an enlarged scope. This department buys supplies for the members and sells it to them at wholesale prices.

MANY HONORS ARE GIVEN CANADIANS

War Despatches Record Names of Officers Decorated for Bravery.

Hundreds of times have Canadians been mentioned in official despatches and scores of decorations have been won by them, suggests the Army and Navy Journal.

In the Boer war four Victoria crosses were won by Canadians. One hundred and sixty-nine soldiers of the Dominion were mentioned in despatches by Lord Robert, Lord Kitchener and Gen. Buller; five Canadians won the "C.B." (companion of the order of the Bath), five more won the "C.M.G." (companion of the Order of St. Michael and St. George), and 17 others won the "D.S.O." (distinguished service order).

Inglis a Famous Name.

Probably the most famous name in Canadian military annals is that of Inglis, the defender of Lucknow. Inglis, who was born in Halifax, saw service in the rebellion of 1837 in Lower Canada at St. Denis and St. Eustache. At the outbreak of the Indian mutiny in 1857 he was a lieutenant-colonel and in command of the 32nd regiment at Lucknow, being next in seniority to Sir Henry Lawrence, the commander of the city. Five days after the siege of Lucknow began Lawrence died of his wounds and for 82 days, through July, August and until September 25, Inglis commanded the garrison in a siege which will be forever glorious in British history.

Havelock Raised Siege.

Sir Henry Havelock, by a memorable feat of arms, raised the siege. Inglis, "for his enduring fortitude and persevering gallantry in the defense of the residency of Lucknow against an overwhelming force of the enemy," was made a major-general and knight commander of the bath. Three young Canadian subalterns served under Inglis at Lucknow and each was given a captaincy for gallantry, one of them later in the mutiny winning the Victoria cross and subsequently having it presented to him in the presence of the whole garrison of Gibraltar.

The authorities state that the first Canadian to receive the Victoria cross was Alexander R. Dunn of Toronto, who was a lieutenant in the Light brigade that charged into eternal fame at Balaklava. It is stated that "when the Victoria cross was instituted Dunn was unanimously recommended by the officers of the Light Cavalry brigade as the man above all others who should get this reward and the man above all who had distinguished himself by his intrepidity," and he received the cross from Queen Victoria in person. He later served with distinction in the Abyssinian campaign under Napier.

CANADIAN PAPERS HELD UP IN BRITAIN

LONDON, Oct. 15.—Now that the Canadian troops have been landed it is hoped that the post-office will deliver the Canadian papers which have not been delivered for many weeks, presumably to guard against any information in regard to their movements becoming known. The latest file which was delivered was dated Sept. 10.

News of Sport

EASTERN HOCKEY WAR DEVELOPS

National Association May Offer to Loan Players to American Clubs, Hits Opposition

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—The National Hockey association will probably upset the plans of the promoters of the proposed new international professional hockey league if a proposition which George Kennedy, manager of the Canadian Athletic club of Montreal, one of the two local clubs in the National Hockey association, says he will put before the National Hockey association directors at a meeting to be held shortly, is carried through. The National Athletic association of Montreal, the moving spirit in promoting the new league, in which it hopes to include New York and Boston teams, will, if Boston and New York clubs accept the plan Mr. Kennedy intends presenting to the National Hockey association directors, be left to one side completely so far as these two American cities are concerned.

From time to time Boston and any clubs which have taken part in the past in any annual post season series with National Hockey association clubs, have evinced a desire of going in for professional hockey and forming an international league.

Not only have they often told this desire to members of the National Hockey association but it has been claimed by promoters of the new league that Boston and New York are prepared to throw in their lot with them, in fact New York has done so and Boston will do so.

Mr. Kennedy, manager of the Canadians, will propose:

"With a view of giving the hockey promoters of Boston and New York, who have been good friends of the National Hockey association thus far, an opportunity to try out professional hockey in proper style, without encumbering them with too big a loss should the venture prove unprofitable, which, however, it is not expected it will, the National Hockey association, in affiliation with the Pacific Coast Hockey league, makes them the following offer:

"A free loan of a franchise in the National Hockey association, to be free of encumbrance for one or two years, the period to be later decided upon, and purchasable at the end of that time at the current market value. The use of two players on loan from each of the six National Hockey association and each of the three Pacific Coast Hockey league clubs, which will be sufficient for two teams of nine men each."

Naturally, in addition to a desire on the part of the proposer to make hockey more popular in the United States another idea is behind the proposition and that is to take the wind out of the sails of the newly proposed league which will be unable to offer to the United States clubs anything nearly as advantageous while the acceptance of such an offer will hardly affect the bigger body.

CHICAGO AMERICANS WIN CITY CHAMPIONSHIP

(By Daily News Leased Wire.)

CHICAGO, Oct. 15.—The Chicago Americans today won the city championship by defeating the Nationals 3 to 2 in the seventh game of their series.

This is the fourth consecutive series in which the Americans have triumphed over their rivals. Score:

		R.	H.	E.
Nationals	200 000 000—2	8	1
Americans	000 300 000—3	8	2

Batteries—Humphries, Vaughn, Lavender and Archer; Scott, Cicotte and Schalk.

GYMNASIUM CLASSES TO HAVE LEADERS' CORPS

Those of the preparatory class who have been successful in the tests set by Physical Director Howell of the Y. M. C. A. are: G. Wilson, 65 points; Leonard Thompson, 63½; F. Steele, 63; James Curran, 62. Willard Wade and Lorne Thompson also passed. The tests consisted of three exercises each on the parallel bars, mats and horse, for which there were 37 candidates. The day juniors will finish their test on Saturday afternoon. Each gymnasium class this year, with the exception of the business and professional men, will have a leaders' corps.

HOPPE TAKES LEAD.

(By Daily News Leased Wire.)

CHICAGO, Ills., Oct. 15.—Willie Hoppe, champion American billiardist today took the lead over Melbourne Inman, champion at the English style, by winning two matches at 18.2 balkline, 1000 to 183. Hoppe now has 2494 points against 2119 for Inman.

WALTER JOHNSON BEATEN BY BADER

Loses Game for His Home Town Team in Kansas Against International Pitcher

(By Daily News Leased Wire.)

INDEPENDENCE, Kas., Oct. 15.—Walter Johnson, pitcher for the Washington American league team played ball with Coffeyville, the home town team, today and was defeated 1 to 0 in a pitchers' contest with Loren Bader, of the Buffalo International league team, whose home is also Independence. Bader won his game by singling and scoring on a three-bagger.

COMMITS SUICIDE IN CALGARY JAIL CELL

(By Daily News Leased Wire.)

CALGARY, Alta., Oct. 15.—Percy Stuart, son of a former alderman, committed suicide in the cells of the city jail today by taking poison. He was under arrest for issuing spurious paper.

RE-ELECT RAILROAD HEADS

(By Daily News Leased Wire.)

NEW YORK, Oct. 15.—At a meeting of the directors of the New York, Ontario & Western railway, Chairman Howard Elliott, President John B. Kerr and the other officers were re-elected.

THE HOMELAND'S CALL

(By Ronald McCaskill in Maclean's Magazine.)

Hearken, ye whelps of the Loan!
Stir ye, awake from your dream;
Hark to the world-flung challenge,
List to the eagle's scream:
Thrown in the teeth of the nations
Terrible; menacing; grim:
Hear ye the words of defiance,
Hurled to the Empire's rim?
"Stand from the path of my southern mate.
Stand aside lest ye be too late,
And I tear thee limb from limb."

Hearken, ye whelps of the Lion!
Hear ye his arrogant cry?
"Where is there one to dare me,
One who'll do battle and die?
Fear I the bear that was conquered,
Cowed by the small yellow man?
Heed I the squeaks of an upstart
I ground in the dust of Sedan?
Who talks to me of the Lion's sway?
A lion's cubs may be eagle's prey!
And mercy is none of my plan."

Hearken, ye whelps of the lion,
What says thy mother's roar?
"Who is this Teuton boaster
To prate so loud of war?
Long have I stood his insults,
Long have I leashed my might
But never brooked dishonored peace.
The time has come to fight!
Rise then ye whelps of the Lion's breed,
Thy mother's call is the Empire's need
And battle for the right.

"Send me the men from the Southern cross
Eager to do their part;
Send me my sons from the frozen north,
Men of the mighty heart,
Give me the men from the sun-baked veldt,
Bred to the rifle's crack;
Send me alike both rich and poor;
No fear that men I'll lack;
Making one cause with my sons at home,
Warring on land or on salt sea foam,
To fight for the Union Jack."

FIELD OF CHALONS LUCKY FOR ROMANS

Attila Was Defeated There—French Army of This Year Occupied Same Location

It was said in a recent despatch from Europe that possibly Gen. Joffre had retreated purposely to choose fighting ground east of Paris so as to bring the French troops on the field of Chalons as an inspiration to them, declares the New York Sun. This is probably a fantastic notion. At all events the great plain round Chalons was in the year 451 the battlefield where the Roman legions under the general Aetius and the Christian Visigoths under King Theodoris defeated Attila, "the scourge of God," and saved Rome for a time. It was Rome's last victory. Twenty-five years later the Roman empire of the west was extinguished by Odoacer.

Bounded by Plains

There is a broad expanse of plains around Chalons and a few years ago there were and may be still grassy mounds and trenches about five miles from Chalons which showed, according to tradition, the ancient fortifications of Attila's camp. The Visgoths held the north of Spain and all Gaul south of the Loire. They, with the Franks, the Alemanni and kindred tribes, held the whole of western Europe from the Scandinavian country down to and including Spain, and the significance of the battle of Chalons is that it was a triumph of Germanic civilization over the onset of the nomadic tribes of central Asia, of which then the Huns were far and away the dominant representatives. The distinction of the Germanic tribes compared with the Sarmatic and Slavic nations was their personal freedom and regard for the rights of man and the respect they paid to women. In the battle of Chalons these traits and this civilization triumphed and saved Europe for what it is today.

Crossing Made Near Coblentz

Attila crossed the Rhine near Coblentz. He conquered Orleans in France, which he besieged. The Roman general Aetius collected all his forces, enlisted King Theodoric as his ally and advanced to the relief of Orleans. Attila raised the siege and retreated to the river Marne, along which the battle of the present war in the French centre raged. Here on the plains of Chalons the Romans and Visigoths met him. The Romans under Aetius were on the right wing, King Theodoric, with his Visigoths on the left. Attila commanded his forces in the centre. There was much maneuvering until Aetius succeeded in occupying a hill which commanded the left flank of the Huns. Attila saw this menace and detached some of his best troops from the centre to aid the furious assault made on the Romans. But they were repulsed. Meanwhile, King Theodoric assailed the right of Attila. As he rode at the head of his column he was struck down by a javelin. His death, however, seemed to inspire his troops and his cavalry charging over his body and backed by the infantry, routed the Huns and then wheeled and attacked the flank of the centre. Attila withdrew to his camp, where, under the shelter of his entrenchments, he repulsed the onslaught of Theodoric's battalions. The Roman Aetius had not pressed his advantage on the Huns' left, but with their right crushed and their centre driven in, they were virtually defeated.

The battle ended here, and Attila withdrew, unmolested and lived to make other assaults on the western world and its civilization. But the virtual victory over him and his retreat saved Europe from Asiatic domination. And this is why the battle of Chalons-sur-Marne is classed by Creasy as one of the 15 decisive battles of the world.

NELSON NEWS OF THE DAY

Judge Forin paid a visit to Kaslo yesterday.

There will be a meeting of the Bartenders' union on Sunday afternoon at 3 o'clock.

Mrs. J. A. McCarthy and son have left for Vancouver to take up their home.

Mr. and Mrs. Frank R. Perry and family left on the coast train last night for Vancouver where they expect to take up their residence.

The Boy Scouts will meet tonight at 7 o'clock at the armory for semaphore flag drill. Scoutmaster Rylett states that an announcement of some importance to the corps will be made tonight.

Mr. and Mrs. George Kennington and son of Salmo will leave on the Crow boat this morning for Montreal whence they sail on the Missanabie on Oct. 22 for Liverpool.

A concert in aid of the Nelson branch of the Canadian Patriotic fund will be given by the Knights of Columbus on Wednesday evening, Nov. 4. The concert will be held in the Catholic parish hall.

F. E. Staintial, nephew of Sir Francis Grenfell, leaves for England today where he will join his father's regiment en route for the front. Mr. Stantial expects that he will receive a commission shortly after his arrival in England.

FREIGHT OFFICIALS TO VISIT NELSON

W. R. MacInnes of Montreal and W. B. Lanigan of Winnipeg Here Tomorrow Night.

W. B. Lanigan of Winnipeg, assistant freight traffic manager for the Canadian Pacific railway in charge of western lines, and W. R. MacInnes of Montreal, freight traffic manager for the company, will reach Nelson tomorrow night on the Boundary train. They have been making a tour of western lines and are at present covering Okanagan valley and the Kettle Valley railway from Penticton to Grand Forks. It is expected that they will spend Sunday and Monday in Nelson, leaving Tuesday morning for the east.

F. W. Sterling, district freight agent for the company, will leave this morning for Grand Forks to meet the touring officials and it is expected that he will be accompanied by W. O. Miller, division superintendent.

NEARLY ALL SPACE IN ENGLISH CAR TAKEN

Applications Continue to Come In to Kootenay Fruit Growers' Union

Many applications are being received by the Kootenay Fruit Growers' union for space in the car which is to be dispatched to England on Wednesday, Oct. 21, containing a large proportion of individual boxes being sent to friends in the old country, states Raymond T. Hickes, manager of the union.

While the majority of shippers are sending one and two boxes, some people are shipping in large numbers, the greatest individual shipper having reserved space and made arrangements for the inclusion of 50 individual boxes. The amount of advertising through this medium is readily realised and is being taken advantage of, Mr. Hickes states. There is still room in the car, but the time is getting short and would-be shippers are advised to get their orders in without delay, Mr. Hickes points out.

GRANTED LETTERS PROBATE—ESTATE FOUR THOUSAND

In the estate of Joseph Carton, deceased, C. R. Hamilton, K. C., has obtained an order for the issuance of letters probate to a brother of the deceased, Charles Carton. The estate was valued at $3,765.50, $2,626 of this amount being in real estate and $1,139.50 in personal estate.

In the suit of Braddell vs. Mar Low, Mr. Hamilton for the plaintiff obtained an order for substitutional service on the defendant.

AT THE THEATRES

The Starland theatre tonight presents the movie dramatization of "Oiana of the South Seas," produced by the Bison company at Honolulu, in the Hawaiian islands. Possibly in no film of the kind produced has the tropical scenery been shown in such splendor. The photography is really excellent and the backgorunds chosen with the utmost care. The subject is undoubtedly a good one, some of the scenes are thrilling to the very extreme and there is a certain finished style to this famous cast of players. An Eclair comedy, "Pirate Box 23," will also be shown, and in the Rex drama entitled "Out of the Darkness" Robert Leonard and Ella Hall are seen at their very best.

TRIESTE'S TRADE HAS HIT PERIOD OF STAGNATION

Local trade in Trieste, Austria's port on the Adriatic, is in a state of stagnation. The largest department store has discharged half its employes and the rest are working on half pay.

ARNDT'S DESCENDANT GOES INTO FIELD WITH FATHER

The last descendant of Ernest Moritz Arndt, the German bard of the war of liberation and author of "Was ist des Deutschen Vaterland?" has gone into the field with his father, a retired major-general.

CAR OF PRODUCE BROKEN OPEN

Ninety-Eight Pounds of Butter and Case of Eggs Fall Prey to Thieves

Some time in the interim between noon on Monday, Thanksgiving day, and Tuesday morning freight car No. 18420 of the Canadian Pacific railway, loaded with butter, eggs and cheese, consigned to the A. Macdonald company, wholesale grocer, was broken open while standing at the rear of its warehouse on Front street. The car was spotted at noon on Monday and on being opened on Tuesday morning by the employes of the firm was checked short three 14-lb. boxes of butter, two 56-lb. boxes of butter and one case of eggs. The butter was stamped "Crescent Dairy company."

USE OF ELEPHANTS IN WARFARE NOT NEW

It is reported that a troupe of performing elephants has been requisitioned by the French military authorities, and is now taking a solidly useful part in transport work. There was a time when elephants had a place in the fighting line. The Carthaginians employed these animals in their wars with Rome, and Antiochus, according to the books of the Maccabees, "to every elephant appointed 1,000 men, armed with coats of mail, and 500 horsemen; wherever the beast was, and whithersoever he went, they went also, and upon the elephants were strong towers of wood filled with armed men."—London Chronicle.

THIS LEAVES THE SKIN FREE FROM HAIRY GROWTHS

(Toilet Talks.)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish ever stubborn growths. To remove hairs make a thick paste with some powdered delatone and water, spread on hairy surface and after about 2 minute rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment be certain you get delatone.

SUNDAY SCHOOL CONVENTION HERE

British Columbia Association Convention at Nelson Next Week—Noted Workers Expected.

Preparations are going forward for the entertainment of the delegates who will be in attendance at the special convention of the British Columbia Sunday School association which will be held here Wednesday, Thursday and Friday of next week. A committee of three members from each church of the city has been appointed to arrange for the entertainment of the delegates and it is expected that at least 75 Sunday school workers from Kootenay and Boundary will be in attendance.

Among the speakers who will be present are W. C. Pearce, associate general secretary of the international association, and a great specialist in adult Sunday school work; Mrs. Mary Foster Bryner, who is a well known elementary worker, and Rev. G. T. Pratt, general secretary western Washington, who will give special aid to teen-age workers. Rev. I. W. Williamson, general secretary for British Columbia, will also be present.

S. G. Newell has been appointed convention secretary and delegates should communicate with him in regard to entertainment while here.

ARCHBISHOP HOWLEY OF NEWFOUNDLAND IS DEAD

(By Daily News Leased Wire.)

ST. JOHNS, Nfld., Oct. 15.—Archbishop Howley, Catholic primate, died here this evening aged 71. The archbishop had been ill only a few days. He was the first Newfoundlander created by the pope archbishop of the colony. He was noted as a historian and also an active public spirited Christian who prominently identified himself at all times with the public affairs of the colony.

BUY BLANKETS NOW.

All the world is demanding blankets and European governments are coming to this continent to place orders for immense quantities.

That means busy-i-ness.

It also means shorter stocks and the possibility of highest prices.

It emphasizes the fact that now is the time to obey the buying impulse and lay in supplies for the cold days ahead.

The advertising columns of The Daily News are a daily index to the stores where blankets can be purchased with certainty as to quality and assurance of fair prices.

There will be a meeting of the West Kootenay Poultry & Pet Stock association this evening at 8 o'clock in the city council chamber.

INSURANCE AGENT IS HEAVILY FINED

Placed Insurance With Two Companies Not Registered in British Columbia.

J. F. Morris, an insurance agent, was recently fined $400 and costs by Magistrate Shaw of Vancouver for having issued two policies in an unregistered insurance company. In imposing the fines Magistrate Shaw remarked that he thought that Mr. Morris was but technically guilty and that he would join with Crown Prosecutor W. M. McKay in urging upon the attorney general that the fine be remitted.

It appears from the evidence given that Mr. Morris, who was representing registered board companies, insured the contents of a building for $9,000. Later the underwriters and insurance companies canceled the insurance. Mr. Morris was asked by the insured to secure for him re-insurance in another company, and endeavored to do so. Finally he was told that Seeley & Co. would accept insurance of $2,000 and to oblige his client he placed that risk with them.

Mr. Morris was summoned for having placed the insurance, which was in two policies, in unregistered companies.

Magistrate Shaw said that he thought that it was only technical guilt on the part of Mr. Morris, but as the section of the act did not give him any option he must fine him $200 and costs on each charge. His worship remarked that he would concur in the suggestion of Crown Prosecutor McKay that representations be made to the attorney-general for a remission of the fine.

PRAIRIE PROVINCES TO GIVE PATRIOTIC MILLION

This Is Amount H. B. Ames Estimates Will Be Donated to Fund—Speaks of Conditions.

(By Daily News Leased Wire.)

OTTAWA, Oct. 15—H. B. Ames, M.P., honorary secretary of the Canadian Patriotic fund, has just returned from a tour of the three prairie provinces in the interests of the fund and reports that they will do their share, despite unusually hard times in many parts. He estimates that the three prairie provinces will provide close to $1,000,000.

Mr. Ames has presented a report, which reads in part:

"The large recruitment from the prairie provinces has been supplemented by generous contributions toward the support of those dependent upon the soldiers. Generally speaking though the prices for war products are high by reason of war, the crops have been less abundant than in previous years and the ability of the people to contribute money is much restricted.

"The cost of living, especially during the midwinter months, is higher than in the east and a more generous scale of disbursement will be necessary to equalize the degree of comfort with that of the other parts of Canada. In every western centre the dread of unemployment is resting heavily on the community and double purpose funds are being almost universally raised.

"Finding that this was inevitable, I endeavored, generally with success, to induce the local committees to set aside especially at least half of their collections for the patriotic fund and to separate its distribution as far as possible from the ordinary agencies for distribution of relief."

SHOT BY ITALIAN MAY BE ACCIDENT

(By Daily News Leased Wire.)

MEDICINE HAT, Alta., Oct. 15.—What may have been a case of attempted murder, but looks more like an accident, happened this afternoon at the city power house when George Willet, the foreman at the power house, was shot through the left lung and abdomen by a laborer who is still at large. An Italian who owned the gun applied to the foreman for leave of absence for the afternoon to go shooting, this being refused. Another Italian picked up the gun, the gun exploded and the shot went through another tent, hitting the foreman. The man who held the gun is still at large and was last seen on the railroad tracks near Irvine. Three other Italians who were present are being held by the police.

COMET VISIBLE EACH EVENING

Said to Disappear Behind Granite Mountain About Seven O'clock—Has Immense Tail.

A comet plainly visible to the naked eye can be seen in the heavens each evening about 7 o'clock or prior to that hour as the stars begin to show plainly. It can be seen to disappear behind Granite mountain at about 7 o'clock, according to W. G. Marten of the Venus mine, who has made observations of the body and stated the result last night to E. W. Widdowson.

The comet, according to Mr. Marten, is to be located at a point about 70 degrees north of west at an angle of about 45 degrees west of the handle of the dipper or at a point on a level with the bottom of that constellation.

Observations made by Mr. Marten at the Venus mine with the aid of his transit show that the tail of the body is about 147,000,000 miles long, he told Mr. Widdowson.

PRINZIP SAYS AUSTRIA TRAMPLED ON SLAVS

Used Every Weapon at Its Disposal to Oppress People, Assassin of Archduke Asserts.

(By Daily News Leased Wire.)

ROME, Oct. 15.—Additional details have been received here of the arraignment at Sarajevo Tuesday of Gavrio Prinzip, the assassin of Archduke Francis Ferdinand of Austria, and Prinzip's wife and 21 alleged accomplices in the crime.

According to these details Prinzip, in addition to being admitted that he shot the archduke and his wife, declared that far from repenting his deed he was proud of what he had done. It was not a crime, he said, as his object was not to kill a man but to show the world the desperation to which the whole Slav population under Austria had been reduced.

After having tried by every means, legal and illegal, to obtain justice and recognition of their rights, Prinzip said Austria continued to trample on the nationality, language, culture, religion and everything which the Slav nation as a whole or families as individuals considered most sacred, using all the weapons at its disposal.

The moment arrived when rebellion was a duty, when the only thing possible was to protest by striking at the individual who incarnated such a despotic and cruel organization, Prinzip declared.

The prisoner grew eloquent as he proceeded, declaring that he was no more a criminal than the Hungarians, Italians, Poles or Irishmen, "for the same distressing conditions in their countries during the nineteenth century caused Kossuth, Mazzzini, Mieroslavski and Daniel O'Connell to attack tyrants and tyranny regardless of the means used."

MAKE CLOSE INSPECTION OF RAILROAD TRACKS

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—Fifty railway officials, drawn from all parts of the Grand Trunk system, passed through Montreal today completing the first part of a tour of inspection organized along unusual lines. The railway men are traveling in a special train of nine cars, including an "inspection" car designed for the purpose of this trip. Every yard of the track comes in for the closest scrutiny from 50 men, whose business in life is track construction and maintenance. H. R. Safford, chief engineer of the Grand Trunk, this year has broadened out the inspection which heretofore was made by a limited number of higher officials.

TO VOTE ON LOCAL OPTION IN PRAIRIES

(By Daily News Leased Wire.)

REGINA, Sask., Oct. 15.—Five local option bylaws will be submitted in Saskatchewan at the time of the next municipal elections in December. The places from which petitions for a vote have been received are Preeceville, the rural municipality of Preeceville, the village of Sturgis, the rural municipality of Snipe lake and the rural municipality of Newcombe.

HAMBURG-AMERICAN LINER PRIZE OF ALLIES

(By Daily News Leased Wire.)

LONDON, Oct. 15, 9:45 p.m.—A despatch to Lloyds from Gibraltar says the Hamburg-American line steamer Graecia, New York for Cadiz, was brought into Gibraltar today as a prize.

The last records of the steamer Graecia gave her sailing from New York on Aug. 27 for Cadiz. She is a vessel of 2799 tons and is commanded by Capt. Methenthim.

UNIVERSITY CLUB HEARS ADDRESS

Dr. Klinck of University of British Columbia Outlines Work in Agriculture

At a special meeting of the Nelson University club last evening, Dr. L. D. Klinck, dean of the faculty of agriculture in the new university of British Columbia, gave an outline of the work in agriculture which it is proposed will be carried out by the university. He said that before the work could be clearly mapped out it would be necessary to spend considerable time studying the conditions in the province, in finding out what the people are doing, how they were doing it, what measures of success they were having and the causes of any discouragement that might exist.

He discussed the three main divisions of the work in agriculture, teaching, investigation or research work and the extension work. In the teaching it would be necessary to adopt a different course from that which the other faculties might follow, as there would probably be many who would not wish to take a full degree course but who would prefer to take only one or two years in order to familiarize themselves as much as possible with the science and practise of agriculture. There would be short courses probably at Point Grey or at different places throughout the province, lasting one or two days or more. He said it was hoped that the university would be able to devote a great deal of time to research work, as this province offered greater opportunities for this kind of work than any other province in the Dominion on account of the diversity of climate and soil conditions.

Dr. Klinck added that the extension work would probably be carried on by a special department or organization, whose work it would be to carry to all parts the results gained by those in the college engaged in research work. In this way a larger number of agricultural people would be reached than if the results were spread only by the students of the college and would prove of greated benefit.

He regretted that he could give no statement of the general policy of the university of British Columbia as that had not been sufficiently worked out. The work carried on by McGill college at present would be taken over by the university, he stated, and it was expected that the building which is now under way will be completed by next fall, but that it would be about two years before the agricultural work would be under way.

MONTREAL MUSICIANS ON STRIKE PARADE STREETS

(By Daily News Leased Wire.)

MONTREAL, Oct. 15.—The striking musicians and stage hands from the Orpheum and Gaiety theatres at noon today held a parade of protest against the alleged employment of foreigners in the orchestra in the two theatres. The men whose places have been filled were headed by a band and the route of march was through the principal streets. It is alleged American musicians have been imported.

G. Ralph Lawrence, of the staff of the Forest Mills of British Columbia, Limited at Revelstoke, and Gordon Sutherland of Revelstoke, reached the city on the coast train last night and registered at the Hume.

Business is Good

In fact, it never was bad with us, but it has been specially good since we commenced clearing out the whole of our Crockery, China and Glassware. Just think, a nice Tea Set for $2.50 or less.
