RUSSIANS NOW RETREAT ALONG 250-MILE FRONT

Teutons Force Passage of Guila Lipa River

ALLIES HOPE FOR COUNTER-STROKE

Fear Seizure of Warsaw. Germans Win Town in Russian Poland

(By Daily News Leased Wire.)

LONDON, June 29—Driven back over their own frontier north of Lemberg and forced to cross the river Gnila Lipa in southeast Galicia, the Russian armies continue to retreat before the Austro-Germans along a front of approximately 250 miles, about equal to the distance between Arras and Vosges.

The Berlin official statement records progress by the Teuton troops in virtually the entire southeastern theatre, although violent fighting is still in progress beyond the Gnila Lipa, which joins the Dniester at Halicz.

Having forced a passage of this stream Gen. von Linsingen's armies are presumably astride the railway running from Halicz to Lemberg and Stanislau, and now doubtless are aiming at the line which runs from Lemberg to Odessa through Tarnopol.

Hope for Counter Stroke.

It seems evident that Germany is bent on further punishment of the Russians before relaxing the intensity of its Galician campaign, but with the Russians across the frontier the Germans will have to rely almost solely on road transport and their advance will be necessarily slower.

The British press is voicing the hope that the Russians will soon find a tenable line and deliver a counter blow, but there is a note of anxiety in nearly all the accounts, together with the warning that either the capture of Warsaw or the seizure of the great railway lines which supply it would be disastrous to Russia and would surely be followed by another general German offensive in the west.

Russian Rearguard Fights Fiercely.

PETROGRAD, June 29.—The following official statement was issued tonight:

"In the Shavli region we repulsed feeble German attacks. On the fronts of the Niemen and Narew rivers and on the left of the Vistula calm prevails.

"The advance of strong enemy forces along the entire front between the sources of the river Wieprz, in the government of Lublin and the western Bug, continues, and here on rearguard positions in the region of Tomaszow our troops June 27 and 28 repulsed several desperate attacks.

"The enemy army on the Dniester reinforced by fresh German troops quite recently thrown into this region, sought by the fiercest of attacks on the front of Boukatchevetty-Martynoff to throw disorder into our retirement along the Gnila Lipa river, but failed in this object and sustained enormous losses."

Teutons Take Tomaszow.

VIENNA, June 29.—The Teutonic allies in their advance over the Galician border into Russian Poland in the region of Tomaszow have captured that Polish town, according to an Austrian official statement given out tonight. The statement also says that strong Russian forces north of Kamionka, Strumiloia, 25 miles northeast of Lemberg, were repulsed with great loss last night after heavy fighting.

Russians Stand Along Zelder

GENEVA, June 29, via Paris. — A despatch from the Tribune from Innisbrucke, dealing with the fighting in Galicia, says that according to estimates made in Innisbruck, "in the Russian counter attacks around Lemberg the Austrians have lost 4,000 men since June 23."

The despatch continues:

"The Russians are resisting strongly on the left bank of the Zelder. The Austrians have begun a general powerful offensive on the Dniester-Pruth-Sireth front. From the Dniester the Russians have been obliged to retreat which is difficult owing to the rain and mud."

HELD TRENCH AGAINST 20; WINS CROSS

(By Daily News Leased Wire.)

LONDON, June 29.—King George yesterday personally pinned the Victoria Cross on the breast of Corp. Edward Dwyer of the 19th East Surrey regiment, and congratulated him on his bravery in holding a trench without assistance against a score of Germans.

CITIZENS OF FRANK GIVE MACHINE GUN

Alberta Town Raises Cost of Maxim to Be Sent to Canadian Forces Overseas.

(Special to The Daily News.)

FRANK, Alta., June 29.—At a meeting held by the citizens of Frank on Tuesday night for the purpose of donating a machine gun to the Canadian overseas forces a list was circulated through the meeting and the amount necessary for the purchase of the gun was subscribed. The citizens appointed a committee to consult with the militia department at Ottawa as to the expenditure of the money. The gun will be sent as a gift from the town of Frank to the Canadian soldiers who have responded to the call of the empire.

FRANCE NOW WELL ORGANIZED FOR WAR

Output of Munitions Has Grown Sixfold—Factories Turn Out More Machine Guns.

(By Daily News Leased Wire.)

PARIS, June 29.—To put an end as far as possible to the opposition evident in recent session of the chamber of deputies, Premier Viviani, accompanied by eight members of the cabinet appeared at the ministerial bench in the senate today, and taking the floor spoke on the appropriation bills for the third quarter. This bill, which would appropriate $1,120,000 to cover the three months beginning July 1 was passed by the chamber last Friday.

M. Viviani explained that the government had not desired to take the upper hand of the representatives of the people.

"Parliament has the control, the government the execution," he said, "That is the essential principle of all democracy. We wish neither the rapt optimism nor bitter disenchantment which breaks the spring of justice. We ask merely reasoned and methodical confidence.

"It required a great spontaneous action for this country to become tractable. Now it is ready for the worst and patient effort will be the ransom of the peace of the world."

The premier was accorded the warmest of demonstrations by the senate. At the conclusion of his address Alexandre Millerand, minister of war, took the floor. "At the moment the senate is called upon to vote the appropriations necessary for national defense," he said, "I wish to give an account of the stewardship of the ministry of war from the outbreak of hostilities."

When he mentioned the possible discouragement he was interrupted by cries of "there is none."

"From August 1 to April 1," continued the minister, "France has increased its military production sixfold. The curve of munitions has never ceased to mount. I can give satisfactory assurances also regarding the heavy artillery and small arms. From March 1 to May 15 the production of mitrailleuses was doubled. The curve for the other essentials of war is equally encouraging. We are determined to pursue our enemies, whatever arms they may employ."

The minister paid homage to the civil and military physicians whose devotion and patriotism had aided so materially the organization of sanitary service and added:

"None better than I know the errors and weaknesses but we must not let details blind our vision. All our allies publicly recognize the excellence of our military industries. I ask the compatriots to be no less just."

The appropriations were unanimously adopted.

BIG ATTACK ON TURKS PLANNED

Italy to Join Allies at the Dardanelles

FLEET REPORTED TO RESUME ASSAULT

Message from Constantinople Says Successes Are Important

(By Daily News Leased Wire.)

PARIS, June 29.—A supreme effort will shortly be made to force the Dardanelles with Italian troops and warships reinforcing the British and French in that zone of operations.

That was the interpretation placed today upon the announcement by the ministry of war that Italy had broken diplomatic relations with Turkey.

The cause of this redoubled effort to open up the gateway to Constantinople is need of arms and ammunition in Russia.

Fleet Resumes Attack.

LONDON, June 29.—The Mitylene correspondent of the Times sends the following:

"The British gunboat Hussar Sunday bombarded the ports of Chesme, Elidia and Aglegia, opposite Chiasso, destroying some Turkish property, petroleum depots and small vessels."

A Rome despatch to the News quotes the correspondent of the Piccolo as sending this message from Constantinople:

"I have just received authentic news that the action of the Anglo-French fleet in the Dardanelles has been resumed with great violence and is meeting with important success."

POLICE EXPOSE DYNAMITE PLOT

Dominion Officials Believe Detroit Man With German Name Is Implicated in Conspiracy.

(By Daily News Leased Wire.)

WINDSOR, Ont., June 29.—An attempt to prove to the satisfaction of the authorities of the United States that a conspiracy existed between William Lefler, now in jail here, in connection with last week's dynamiting outrage, and Albert Kalkschmidt, a Detroit business man implicated in Lefler's confession, is to be made by Col. Sherwood and Chief Joseph Rogers, head of the federal and provincial police departments, respectively. If this is successful Kaltschmidt's arrest may be ordered shortly. Kaltschmidt declared to a reporter in Detroit today that he had nothing to do with the outrages and that he intended to keep clear of Canada.

INTERNED ALIENS WILL ALL BE HELD

Those at Fernie Will be Sent Either to Vernon or Lethbridge Camp

VANCOUVER, B. C., June 29.—It is understood that when the adjourned hearin gthe habeas corpus application on behalf of the Austrians at Fernie who seek to avoid internment comes up at Victoria next week, evidence will be submitted to show that the federal government has passed an order-in-council declaring that the aliens now held are to be interned as prisoners of war.

It is apparent that this will settle the matter and all now held at Fernie will be sent either to Vernon or Lethbridge. Virtually all English and Italians will be left in the mines.

No Question About Retention.

VANCOUVER, B. C., June 29.—That there is no question but that the alien enemies among the miners of the Crow's Nest Pass who have been detained by the provincial police will finally be interned, was learned today.

Following the sinking of the Lusitania and publication of news of proved atrocities in Belgium, the miners of Crow's Nest revolted at working together with Germans and Austrians in the mines. The police immediately segregated the alien enemies, who, however, have attempted through the courts to regain their freedom.

Test cases by habeas corpus applications first came up a few days ago and the hearing at Victoria yesterday was again adjourned until next week. Both before and since the Austrians sought freedom through the courts vigorous representations were made by the government at Victoria to Ottawa.

The order-in-council from Ottawa is looked upon as removing any possibility of success of the Austrians' move to obtain freedom.

With the addition of the party now under detention at Fernie, about 900 people in all will now have been interned in this province since the move was inaugurated on Vancouver Island.

WANTS TO KNOW ALLIES' PEACE TERMS

(By Daily News Leased Wire.)

LONDON, Juee 29.—D. M. Mason, Liberal M. P. (Coventry), has given notice that he will ask Premier Asquith in the house Wednesday whether, in view of certain speeches by some members of the German parliament demanding a speedy and honorable peace, "his majesty's government will consider the advisability of stating more specifically than heretofore the terms on which such a peace would be possible, with the object of hastening such a happy consummation."

CANADIAN GUNS WELL HANDLED

Losses Avoided by Clever Placing of Batteries

ONE POSITION WAS TORN INTO RIBBONS

Germans Pump 260 Shells At One Point and Bombard Headquarters

(By Daily News Leased Wire.)

OTTAWA, June 29.—Two more of Col. F. W. Morison's narratives were received today by Mrs. Morrison. The 1st artillery brigade, of which he is commander, has evidently seen a lot of the hottest fighting since it went into the memorable action near Ypres in April, but is still going strong. The outstanding incident mentioned in the letters is probably the experience of the 2nd (Ottawa) battery, into which the Germans pumped 260 6-inch shells one day, tearing the whole position into ribons. It is a fine tribute to the officers and men, however, that, owing to the placing of the guns, only one was injured and not a casualty was suffered, the latter, owing to a clever piece of work in moving the men out of the position while the fireworks were on. So picturesque was the work that Gen. Alderson made a trip from headquarters to view it. On another occasion the Germans put 60 or 70 shells into Col. Morrison's headquarters in 40 minutes, but bagged no one.

Hell for Someone if Foe Wins

"If we do not smash the Germans it will be hell for someone, not excepting Canada and the United States," the colonel remarks, and he goes on to say that such a contingency is not beyond the range of possibility. As an illustration of the extent of the fighting, he says the battle of Waterloo lasted but one day and the battle of Gettysburg three days—mere trifles in comparison with Ypres, where the Canadian artillery was in continuous action for 17 days.

Gunner Fleming, son of Sir Sanford Fleming, is mentioned for his good work and will be recommended for a commission. A particularly fine bit of descriptive writing in one of the letters is the story of a soldier's burial at dusk, the services in the thickening gloom being read by Capt. Leslie Goodeve, Ottawa.

"Just fancy," he writes, "little Leslie Goodeve, whom we knew as a mischevous kid, standing at the head of a grave reading the burial service by the light of a seige lamp held by a grimy-faced soldier."

CANADIAN NORTHERN TELEGRAPH LINE FINISHED

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 29.—The Canadian Northern railway telegraph line has now been completed to the coast. The final connections were made a few days ago at Yellowhead pass.

CANADIAN COMPANY BUYS $1,000,000 BRITISH WAR LOAN

(By Daily News Leased Wire.)

MONTREAL, June 29.—The first large subscription by a Canadian institution to the British war loan was announced today by T. B. Macaulay, managing director of the Sun Life assurance company, who stated that his company is applying for $1,000,000 of the new issue.

PROMISES NOT TO BOMBARD ROME

Austrian Aviators Will Respect Treasures, Emperor Francis Joseph Is Said to Have Promised

(By Daily News Leased Wire.)

PARIS, June 29.—According to a Rome despatch the pope has received a letter from Emperor Francis Joseph in which the Austrian ruler promises that Austro-Hungarian aviators will not bombard Rome. The letter is said to have been in reply to a message from the pope saying that Rome must be respected because it is the world's great depository of church treasures.

ITALIANS WILL USE HEAVY GUNS

Prepare for Assault on Forts of Riva

INVASION THROUGH NOTA VIL BRILLIANT

Austrians Take Offensive at Several Points But Are Repulsed

(By Daily News Leased Wire.)

ROME, June 29.—Heavy masses of artillery are being sent from Brescia to the Ponale river for the reduction of Austrian forts defending Riva at the northern extremity of Lake Garda.

With Riva in Italian hands the way will be opened for an advance against Trent wrom the west and thus three Italian armies will be driving against Trent simultaneously—one from the west, one from the south and the other from the northeast.

The invasion of Austria by way of the Nota Vil passes, west of Lake Garda, is the latest of the brilliant successes that have crowned the Italian arms since the war began.

Austrian Attacks Repulsed.

The following official statement was given out tonight:

"In the Tyrol and Trentino regions, especially along the eastern part of this frontier, the Austrian artillery continues active. The enemy by repeated attacks tried to capture the position of Monte Civaron in Valsugana, but was repulsed.

"In Carnia we effectively bombarded the Austrian places of shelter at Strainginer, driving out the troops

(Continued on Page Four.)

FRENCH RECAPTURE VOSGES POSITIONS

Have Again Occupied Positions They Took East of Metzeral—No Change Elsewhere.

(By Daily News Leased Wire.)

LONDON, June 29.—Notwithstanding the French attacks around Arras it is argued that the Germans feel comparatively secure in the west, else they would not have risked their tremendous enveloping move against the Russians. The French are persisting in their assaults in the neighborhood of Arras, but without appreciable change in the situation.

French Regain Positions.

PARIS, June 29.—The official communication issued by the war office tonight says:

"In the Vosges we regained this morning all the positions which we had occupied to the east of Metzeral.

"On the rest of the fronts there is nothing to report except artillery actions."

SIR ROBERT BORDEN MAKES STATEMENT

To Render Work for Empire More Effective He Will Interview British Government Members.

(By Daily News Leased Wire.)

NEW YORK, June 29.—Sir Robert Borden reached here today. He was averse to discussing the reasons for his trip to England, but finally gave the following formal statement:

"It is my intention to proceed to Great Britain in the immediate future for a conference with the imperial government. During the war there has been close co-operation between the British and the Canadian governments in respect to all matters relating thereto and touching the common interest of the empire.

"This co-operation has involved incessant correspondence both by letter and cable, with the colonial secretary and with Sir George Perley, acting high commissioner in London.

"It is considered that co-operation between the two governments can be rendered more effective and the common interests more thoroughly safeguarded if certain important questions could be discussed at a personal interview. This is the chief reason for my approaching visit to London."

While Sir Robert did not say so, the principal questions to be discussed are believed to be those of finance and munitions. The premier will sail on the Adriatic tomorrow.

PRESIDENT POINCARE PAYS VISIT TO FIRST LINE

(By Daily News Leased Wire.)

PARIS, June 29.—President Poincare spent Sunday and Monday in the first line trenches talking with the officers and men.

The president watched a number of batteries in action and then inspected the field hospital just behind the lines. He pinned the military cross to the flags of six regiments which have been cited in the order of the day for valiant conduct.

BULGARIAN ARMY OFFICERS RECALLED

(By Daily News Leased Wire.)

GENEVA, June 29. — Four Bulgarian army officers left Geneva for home yesterday, having been recalled by telegrams. All Bulgarian students in Switzerland of a military age have received notice to be prepared to leave immediately.

RUSSIA FORMS MUNITION BOARD

Special Committee, Responsible Only to Czar, Will Speed Up Manufacture of Supplies.

(By Daily News Leased Wire.)

LONDON, June 30, 1:52 a.m.—"An important step toward the removal of the drawbacks under which the Russian army is suffering has been taken by the formation of a special 'board of military supplies,'" says a Petrograd despatch to the Telegraph.

Presided over by the minister of war, it will comprise four members of the duma, four members of the imperial council and four representatives of industry and commerce, all nominated by the emperor, to whom alone the board will be responsible. The board has extensive powers for the production of munitions.

PRINCESS PATS SUFFER LOSSES

Six Sappers, 1st Field Company Canadian Engineers—Nelson Man Wounded—Casualty List

Further heavy casualties in the expeditionary forces were reported by the militia department last night. Two lists contained 172 names, including 14 killed ,14 missing and believed to have been killed, three dead of wounds, four missing, 93 officially or unofficially reported prisoners and 34 wounded. The 14 missing and believed to have been killed are all of the Princess Patricias. Six of the killed were sappers from the 1st field company, Canadian engineers. T. O'Toole, 1st battalion, formerly of 12th battalion, a lumberman who enlisted at Nelson, is reported wounded and B. C. Tyler, a brother of C. W. Tyler of Nelson, previously reported missing, is now listed a prisoner at Westphalia. The lists follow:

1st Battalion

Wounded—Sam Smith, England.
J. Slater, England.
W. A. Scott, Scotland.
M. J. Borluk, Poland.
F. Fenton, New Zealand.
G. Micholoff, Bulgaria.
E. Wheaton, England.
A. Townsend, England.
C. E. Hughes, England.
E. T. Burger, Cornwallis, Ore.
S. Hawkins, Hastings, Ont.
Lance Corp. J. C. Martin, Muskoka, Ont.
R. Mills, Marine City, Mich.
W. B. Mouck, Southampton, Ont.
T. J. B. Kick, Wainwright, Alta.
J. Cunningham, Edmonton.
Lance Corp. T. Foster, Edmonton.
H. Fitzclarence, Hollywood, Man.
Lance Corp. A. Hutton, Cloverbar, Alta.

Suffering from concussion—T. A. Betts, Dundas, Ont.

4th Battalion

Killed in action—S. T. Williams, Milton, West Ont.
Wounded—W. S. Sawyre, England.
J. Butler England

5th Battalion

Previously reported missing, now unofficially reported prisoner at Westphalia, Germany—R. Dell, England.
W. J. Broughton, England.
B. C. Tyler, England.

Previously reported wounded, now unofficially reported prisoner at Westphalia—S. G. Wood, England.
R. F. LaGorgendiere, Prince Albert, Sask.
Sergt. F. G. Hammersley, Winnipeg.
Missing—C. N. Nuttall, Saskatoon.
Wounded—G. Steward, Scotland.

7th Battalion

Prisoner at Giessen—E. R. Fournier, Humbolt, Sask.
George B. Teather, England.

Previously reported missing, now reported wounded and prisoner—L. Tugwell, England.

(Continued on Page Two)

MONTENEGRIN TROOPS HAVE TAKEN SCUTARI, ALBANIA

Meet Little Resistance in March on City

WON IT BEFORE BUT PRISONERS OBJECTED

Claim They Are Following Example of Others By Invasion

(By Daily News Leased Wire.)

LONDON, June 29.—King Nicholas' Montenegrin forces are again in Scutari, Albania. The Montenegrins captured the city in April, 1913, after six months' siege, but the powers combined to expel them from that country and forced Montenegro to evacuate. This occupation comes after a campaign—or a march, for they met with little resistance—of several weeks.

Montenegro claims to be following the example of other powers in taking over portions of the short lived kingdom of the prince of Weid, who was placed on the throne late in 1913, and fled shortly after war began between the powers which had co-operated in establishing his kingdom.

Make Triumphal Entry.

PARIS, June 29, 9:20 p.m.—Describing the occupation of Scutari by Montenegrin troops, the Rome correspondent of the Havas agency says:

"Mussulmans, Catholics, members of the orthodox churches, the communal authorities, members of the government, the police force, the schools and most of the population, preceded by flags and bands, marched out of the city. At noon came the triumphal entry of the Montenegrins, preceded by an advance guard. Following the advance guard were priests in the ceremonial robes, carrying the cross and religious standards; then came the main Montenegrin army, led by Gen. Vechovitch and the Montenegrin consul and bands of irregular Albanians followed.

"The Austrian consul lowered the flag and placed the consulate in the care of the Greek consul.

"The general staff of the troops occupying Scutari have taken charge of the administration of the city, declaring that citizens must henceforth consider themselves subjects of Montenegro. Gen. Vechovitch addressed the foreign consultes announcing that he was taking possession of the city in the name of King Nicholas. Patriots guard the consulates and public buildings."

Montenegro Won It Before.

Scutari was an object of contention between Montenegro and the great powers during the Balkan war. The Montenegrin forces April 23, 1913, captured the city. Prior to this the powers had decided to include Scutari in the future state of Albania and had offered compensation to King Nicholas in money and land on condition that he give up Scutari. The Montenegrin king announced that he would hold Scutari against the powers and, as a result the international naval blockade of the Montenegrin coast was extended.

Eventually on further demand of the powers, King Nicholas decided to evacuate Scutari, which was occupied by an international force May 14, 1913.

A note issued by the Montenegrin government says for strategical reasons the descent on Albania was necessary and that other powers had already occupied portions of that country.

Montenegro Explains

ROME, June 30.—The Tribuna publishes a note issued by Montenegro to the powers explaining its action in Scutari. The note says:

"Montenegro and Servia have both suffered as the result of difficulties created by Albania."

The note condemns Austrian influence in Albanian affairs and adds:

"The sacking of Montenegrin transports on the Boyana river by the Albanians and their interruption on Montenegrin territory compelled Montenegro to occupy some necessary positions to avoid new attacks."

CALL FOR ANOTHER 50,000 CANADIANS IS EXPECTED

(By Daily News Leased Wire.)

OTTAWA, June 29.—There is every reason to believe that beginning in August another 50,000 men will be called for in Canada and every effort made to mobilize, equip and partly train this new army by the last of October.

The men will be needed. In the beginning of the war the British government estimated that it would require 40 per cent. reinforcements to keep the army in the field at full strength. This calculation was soon proven erroneous and after the retreat from Mons the estimate was raised to 300 per cent. This estimate has since been carefully revised and reduced by half, so that to maintain two army divisions of 50,000 men in the field at full strength for a year would require 75,000 reinforcements.

Three army divisions would require reinforcements of 122,500 men. A call for another 50,000 men is inevitable.

CANADIAN SOLDIERS ARE HONORED WITH D. S. O.

(Canadian Associated Press Special Cable.)

LONDON, June 29.—The following have been granted the Distinguished Service Order:

Major Douglas Rykert McCuag, 13th Canadian battalion; Major Gordon Brooks-Wright, 3rd field company, Canadian Engineers.

TRIED TO BRIBE MILITIA DEPARTMENT OFFICIAL

(By Daily News Leased Wire.)

OTTAWA, June 29.—Col. Hurdman created a mild sensation at the inquiry today by stating that V. J. Brawn, a real estate agent, who sold some binoculars to the government, left a check for $30 for him under his writing pad. Two months later Brown called and asked Hurdman why he had not cashed the check. Hurdman said he had never seen it. Brown then lifted the writing pad on Hurdman's desk and the check was there. Hurdman returned the check to Brown, stating that he could not accept it under any circumstances. Brown was called and confirmed Hurdman's statement. He thought, he said, that Hurdman deserved something for the trouble he had taken in connection with the enspection of the glasses. Hurdman had laughed when he asked him to take the money.

A warning by Sir Charles Davidson to W. J. Brown, a witness, that he would be liable to criminal prosecution based upon his own evidence, was the feature of this afternoon's sitting of the war contracts commission.

Sir Charles plainly informed the witness when he concluded his evidence that in endeavoring to give money to Col. Hurdman, an official of the militia department, with a check for $30, he had committed a criminal offense.

The story as told by Brown, who is

FLOODS BEGIN TO SUBSIDE EDMONTON BRIDGE SAVED

(By Daily News Leased Wire.)

EDMONTON, Alta., June 29.—With the Saskatchewan river here falling rapidly since morning, at the rate of a foot an hour, all danger of flood seems over. This afternoon was spent in making repairs of damage on the flats, where hundreds of the poorer classes have been driven from their homes. This evening, shortly before 6 o'clock a mass of debris which has piled up at the low level bridge broke away and relieved the pressure on the bridge, which was in danger of being swept away last night.

The trainloads of ballast which were kept on top to prevent its being carried away were removed and the bridge itself was again open after two days for traffic.

Private owners have tendered the use of houses and flats for the relief of flood victims. The civic relief department is looking after the immediate needs of the victims.

It is a matter of general comment that the flood has been attended with no loss of life. This feature is accounted for by the ample warning that was given and by the careful guard maintained by the police. Yesterday afternoon a man was taken off the remains of a house in the river near the powerhouse.

The portion of the city affected by the flood is only the portion lying in the valley, the greater portion being far above the water line.

Unfortunately the power house, including the pumping plant and electric light plant, is located in the valley. This has been temporarily shut down owing to the flood.

The lumber mills have been wrecked, the residences in the valley have been abandoned for the time and some of them have been carried away or shifted from their foundations. This, together with the loss of lumber piles and other movables from the banks, represents the more serious damage sustained.

STORSTAD OWNERS HAVE NOT YET APPEALED

MONTREAL, June 29.—Attorneys for the Norwegian company owning the collier Storstad, which rammed the Canadian Pacific liner Empress of Ireland in the gulf of St. Lawrence over a year ago, have not yet received instructions to appeal from the judgment of Justice Dunlop of the admiralty court, which held the collier responsible for the disaster.

The regular time limit for entering the appeal expired yesterday, but Messrs. Atwater, Duclos and Bond, the Storstad counsel, have secured an extension of time until August.

Mr. Justice Dunlop, whose judgment followed the terms made in the report made by Lord Mersey, who conducted the inquiry into this disaster, left the amount of the damages—the Canadian Pacific claimed $3,000,000—to be determined by W. S. Walker, clerk of the admiralty court. In the meantime 37 claims for damages for loss of life and baggage and personal injury have been entered in the admiralty court.

Boston	29	32	.475
New York	26	29	.473
Cincinnati	24	31	.436
Brooklyn	26	34	.433

(By Daily News Leased Wire.)

NEW YORK, June 29.—New York made it four out of six from the Braves by dividing a double-header today. New York won the first game 3 to 2 and Boston shut out the Giants in the second game 2 to 0.

First game—	R.	H.	E.
Boston	2	6	1
New York	3	10	0

Batteries: Rudolph and Gowdy; Stroud, Schauer and Meyers.

Second game—	R.	H.	E.
Boston	2	10	0
New York	0	5	1

Batteries: Hughes and Whaling; Perritt and Meyers.

ST. LOUIS, Mo., June 29.—The Cardinals divided a double-header here today with the Pirates. The first game was lost by St. Louis 5 to 8, when Pittsburg scored four runs in the ninth inning, chiefly through poor work by Dolan in left field. Dolan redeemed himself by a spectacular catch in the second game. This contest was won by St. Louis' hard and timely hitting, 6 to 4.

First game—	R.	H.	E.
Pittsburg	8	13	1
St. Louis	5	8	4

Batteries: Harmon, Adams and Gibson; Meadows, Conzelman and Snyder, Schang.

Second game—	R.	H.	E.
Pittsburg	4	8	2
St. Louis	6	11	2

Batteries: Cooper and Gibson; Robinson, Grinder and Gonzales.

PHILADELPHIA, Pa., June 29.—A home run by Becker with two bases occupied in the fourth inning proved the turning point of today's game with the Superbas, Philadelphia winning 5 to 4.

	R.	H.	E.
Brooklyn	4	7	0
Philadelphia	5	8	4

Batteries: Bell and Miller; Chalmers and Killifer.

Chicago-Cincinnati, postponed, rain.

Philadelphia	22	40	.355

(By Daily News Leased Wire.)

BOSTON, Mass., June 29.—New York tied the score in the ninth inning today, gained a lead of one run in the tenth, put out two Boston batsmen in the last half of that inning and then lost the game 4 to 3. The Red Sox scored the winning run on Speaker's long hit to centre, his fifth hit in as many times at bat.

	R.	H.	E.
New York	3	8	1
Boston	4	10	1

Batteries: Caldwell and Nunamaker; Ruth and Thomas.

Cleveland-Detroit, postponed, rain.

CHICAGO, June 29.—For the third consecutive time a triple (Faber's) with men on bases clinched the game for Chicago today, the locals defeating St. Louis 4 to 2.

	R.	H.	E.
St. Louis	2	5	2
Chicago	4	4	1

Batteries: Hamilton, Perryman and Severoid; Faber and Schalk.

WASHINGTON, June 29.—The Senators hit the ball hard today, while Boehling was invincible, and the locals shut out Philadelphia 8 to 0.

	R.	H.	E.
Philadelphia	0	7	0
Washington	8	15	0

Batteries: Wyckoff, Davies and Lapp; Boehling, Heffner and Henry.

NEW ZEALAND MAY HAVE A COALITION

(By Daily News Leased Wire.)

WELLINGTON, June 29.—Premier Massey announced in parliament today that the New Zealand government was prepared to form a national ministry until the close of the war with a view to the whole forces of the country being concentrated in the prosecution of hostilities.

Sir Joseph Ward, leader of the opposition, asked time to consider the proposal.

AIMING AT GOPHER INJURES WOMAN

Mrs. R. S. Phillips of Fernie Annex Seriously Injured by Neighbor Trying to Shoot Gopher

(Special to The Daily News.)

FERNIE, B. C., June 29.—Late Monday afternoon a serious case of accidental shooting occurred when the wife of R. S. Phillips of Fernie annex received the charge from a small calibre rifle discharged by William Cooper, a resident of Fernie annex while he was attempting to shoot a gopher. The bullet was deflected and struck the women, who was some distance away, entering the abdominal region and passing through to the back. The injured woman was removed to the hospital and is in a very critical condition.

TRAIL NEWS.

(Special to The Daily News.)

TRAIL, B. C., June 29.—There will be a dance Wednesday in the Swartz hall.

Gooseberries are being shipped from the ranches round here, the crop not having apparently suffered fom the recent wet weather. The prospect for clover and hay is excellent; much of the former is now cut and a good yield of both is anticipated.

J. A. Mackinnon has disposed of his tobacco business here to B. O. Bean, late of Revelstoke, who took poessession yesterday.

G. W. Weir, reported wounded, is the son of George Weir, the mill boss at the smelter. When he enlisted he was employed at the assay office of the Consolidated company and previously had been a teacher in the school at Annable.

F. P. Wright, whose hand was damaged as a result of an accident with an axe, is progressing satisfactorily.

DOMINION DAY PICNIC PLANNED

Rossland Epworth League Makes Arrangements for Outing Thursday—News of City

(Special to The Daily News.)

ROSSLAND, B. C., June 29.—Dominion day the Epworth league will hold its annual picnic at the city park. The picnic will begin at 10 o'clock in the morning. An express team will leave the Methodist church at 9 a.m. and all baskets on hand at that time will be taken to the city park by the team. A committee of young men has visited the park and put the swings and merry-go-rounds in first class shape. All those who intend to be present at the picnic are requested to bring enough food for those who attend with them. The league will serve ice cream, lemonade, etc., on the grounds. The list of races as proposed by the sports committee is as follows: 100 yards races for girls 14 to 17 years, for boys 14 to 17 years, for women, for men, for married women and married men, 100 yards sack race for boys and girls, 100 yards three-legged race for boys and girls, men's high jump, girls' high jump, women's nail driving contest, tug-of-war, married men vs. single.

The members of the league have extended an invitation to the citizens of the town generally to attend as guests of the league.

Miss Genevieve Cosgriff returned on Monday from a visit to friends in Spokane and Burke and Wallace, Ida.

Mrs. Machlachlan of Trail spent Monday in the city.

Miss Louise Allison has severed her connection with the Bank of Montreal and with Mrs. Allison left last evening for Victoria. Miss Allison intends training for a nurse. Miss Lillian Renwick of Trail succeeds Miss Allison as stenographer in the bank.

Mrs. Robert Lennox and family have gone to Davenport to spend the summer.

Miss Ethel Cocking went to Spokane this morning to spend the summer with her aunt, Mrs. Cocking.

A meeting of St. Andrew's Young People's society was held in the church parlors last evening with the president, Charles W. Steele, in the chair. Addresses on "How to Improve the Social Life of Our Church" were given by Miss Blackman and Messrs. Gillespie, Varcoe, Smith, Ferguson and Stokes and Rev. W. Robertson. A social time was spent with music and games in the gymnasium.

Mrs. Fred Graham went to Nelson last night to spend a fortnight with the Misses Smith.

J. J. Niven left last night to spend a few days at the pool fishing.

St. Andrew's Young People's society will give a strawberry and ice cream social on the church lawn on Friday night, July 9. The city band will furnish the music. Great preparations are being made to make the affair a success.

F. Meller of Victoria, an old-time Rosslander, is in the city.

Miss Blair and Miss Larson of Nelson are visiting the city.

Miss Helen Truswell and Miss Pope of Trail are visitors in the city today.

Mrs. Girard of Edmonton is in the city visiting her sister, Mrs. J. S. Deschamps.

Mrs. J. W. Cox and son Eugene of London, Ont., are in the city visiting Mrs. Cox's daughter, Mrs. A. Rolland, for two weeks, after which they will visit friends at the coast.

SLOCAN NOTES.

SLOCAN CITY, B. C., June 29.—Miss B. Paris arrived home from New York Thursday.

On Sunday evening a patriotic service was held in the Presbyterian church. Rev. C. Matthey occupied the pulpit.

R. G. Henderson left for Victoria on Friday.

A dance was given on Friday evening in I. O. O. F. hall in honor of Miss Effie McVicar and Miss Vera Spurr of Vancouver.

Roberta Covington is home from Nelson where she has been attending high school.

T. W. Jameson went to Sandon on Monday.

J. Wafer went to New Denver on Monday.

Miss McVicar and Miss Spurr visited friend at Lemon creek on Tuesday.

UPHILL RE-ELECTED BY MINERS AT FERNIE

Checkway Men Also Returned to Office—Interned Aliens Do Not Trust Banks With Money.

FERNIE, B. C., June 29.—At the annual local election of financial secretary and checkweighmen held on Friday, the local miners re-elected Thomas Uphill for the fifth consecutive term. The proportion of votes cast in his favor was three and a half to one received by his opponent. Of the six candidates for checkweighman the four chosen were re-elected. They are: Thomas Biggs, 174; Harry Martin, 172; Samuel Heaney, 142; W. B. Phellips, 130.

Born June 17 to Mr. and Mrs. George Schupe, a daughter.

On Friday 300 internes received the amount due them from the Crow's Nest Pass Coal company for wages earned before being placed in custody. The total amount was in excess of $8,000, and of this amount only a very small sum was deposited in the local banks, the internes preferring personally to assume the responsibility of taking care of their earnings.

Robert Williams of this city received notification last week that his brother, E. Williams, while serving with the 7th fusiliers had been slightly wounded. Mrs. Manning of Coal Creek has been advised that her brother, William Gallamore, was recently taken prisoner. Stephen J. McNally, a member of the first Fernie contingent, now with the 14th battalion, is reported as suffering from chlorine gas.

GRAND FORKS PYTHIANS ATTEND CHURCH SERVICE

GRAND FORKS, B. C., June 29.—On Sunday evening the Knights of Pythias and Pythian Sisters of Grand Forks lodge, No. 30, attended service at Holy Trinity church, the sermon being preached by Rev. P. C. Hayman, vice-chancellor of the lodge.

R. D. Irons of Victoria has arrived in the city to take the position of teller in the Royal Bank in place of H. W. Jones, who has enlisted.

A meeting ofe the city council was held last night, all the members being present with the exception of Alderman Smith. The contract for street sprinkling was let to Scott Bros. at 65 cents an hour. With regard to the noxious weeds bylaw the board of works was instructed to have all weeds on city property destroyed and to have the bylaw strictly enforced. The council endorsed a resolution from the city of North Vancouver "that the land of all soldiers who enlist and go to the front be protected from and exempt from sale for arrears of taxes in all municipalities until the end of the war and for a further period of six months thereafter."

WEDNESDAY, JUNE 30, 1915.

CANADA'S LARGER ARMY MEANS GREATER EXPENDITURES

A despatch from Ottawa predicts that a call for another 50,000 volunteers is likely to be made in August. If this call is issued the total number of Canadian troops at the front, in training and in process of enlistment will be approximately 200,000.

The cost of maintenance of troops and similar war measures during the first eight months of the struggle was $50,000,000, or $75,000,000 per annum. For similar purposes a vote of $100,000,000 was made last session for the fiscal year 1915-16. The number of troops in the field at this time and the number under training is nearly double that of February last, while the cost will be further increased by new calls which are made during the year.

The special war taxes are fulfilling their function of bringing the revenue up to that of last year but it appears extremely probable, in view of the increased number of troops already raised and those which are expected to be raised, that Canada, like Great Britain, will be called upon to vote a large additional war credit.

Canada is in this fight with its last man and its last dollar and the people will meet all necessary expenditures in the same ungrudging spirit as they will fill the ranks of the armies which are being sent to the front.

HAPPINESS AS A FACTOR IN HUMAN EFFICIENCY

Happiness has long been recognized as a factor in human efficiency. It has remained for the scientists to prove the measure of its importance.

Experiments have been made which show that a man is not at his highest mental and physical efficiency unless he is happy as well as well fed and living under healthful conditions. Pleasure provided to the taste, to the sense of smell and to the eye has been proved to bring about greater efficiency.

A group of men was the subject of one test. The ordinary efficiency was recorded. Then a record was made of the men's condition while each held in his mouth but did not swallow an article of pleasing taste. The third test was made while each had an article of objectionable taste. The highest efficiency was recorded when the sense of taste was being pleased, the lowest while it was being offended.

Similar results were secured by experiments with the senses of smell and sight.

THE ANTI-BRITISH WILLIAM RANDOLPH HEARST

It is not easy to predict successfully what attitude the Hearst papers of the United States will take upon any public or international question—unless Great Britain is concerned. If the British Empire is connected with the question at issue it is sure that William Randolph Hearst and his press will be loud in support of the other side of the case.

That policy has been strongly evident since the war broke out. British actions have constantly been held before the public as offenses against the American people and no effort has been spared to stir up as much indignation as possible.

Hearst for years has virulently opposed W. J. Bryan but when that exponent of "persuasion" left the Wilson cabinet he became a warm supporter of the Nebraskan. Hearst, the sabre rattler who probably did more than any other individual to force the United States into war with Spain, is now Hearst the pacifist. If there were any possibility of real trouble at this time with Great Britain he would again be Hearst the fire-eater.

A WARNING AGAINST CARELESS CIVIC FINANCING

Property owners of Vancouver having voted down a number of money bylaws on Monday, it appears that the administration of that city is face to face with some difficult financial problems.

Out of approximately $600,000 covered by the defeated bylaws it was proposed to devote about $350,000 to rehabilitate the city's finances. The balance was largely to provide work for unemployed.

Much of the financial trouble is said to have resulted from the switching of amounts voted under previous bylaws for purposes other than for which they were intended. Overhead and interest charges have also to be provided for.

The conditions, as they are described, are a warning against the overhopeful type of civic government which goes ahead with expenditures which have not been provided for along the sound lines laid down by the best precedents.

Of course Vancouver will get out of its difficulties—the city's wealth and position are guarantee of that—but its administration seems to have a trying time before it.

This is the three hundred and thirtieth day of the war.

Have you made your entries for the flower show yet?

Make the display of flowers at the show on Thursday the greatest that has ever been seen in Nelson.

War developments, the names and dates of battles and all the other features of the war are confusing enough at this time but think, with pity, of the unlucky school children of the coming generations who will have to memorize them.

Up to March 4 there had been 606 cases of typhoid in the British army. There were only two deaths among 247 who had been partially or fully inoculated. Among the remaining 359 cases there were 48 deaths. Yet there are still some faddists who would have the public believe that inoculation is almost a crime.

The member of the British parliament who wants the government to lay its hand on the table as far as peace terms are concerned would be better employed in directing his energies to helping the allies to win complete victory. This is a war in which peace terms must be forced upon Germany and not arranged by negotiation before a decisive victory has been attained.

WHAT THE PRESS IS SAYING.

Strengthening Britain's Arm

There may be many zeppelin raids to come. There was much in that of Monday night to suggest that it was merely a trial trip. But, if the kaiser supposes that these outrages will have any effect on our people except to strengthen their arm and their resolution, it only shows how completely he misapprehends the spirit of this country. We may suffer some inconvenience and some loss and the lives of some innocent people may be sacrificed, but for every home that is burned and every life that is destroyed there will be a more assured triumph and a heavier reckoning.—London News and Leader.

International Nihilism

Neither right nor law exists for Germany when she is at war. They exist, she insists, for others, but where she thinks she can snatch a military advantage neither treaty nor universal custom, neither promises nor oaths nor the first instincts of humane feeling are to hold her back. For her and for her alone, the plea of military necessity, which she construes to include the slightest prospect of military advantage, wipes out all the obligations of morals, of religion and of law. The rights of neutrals have ceased to exist in her eyes, as completely as the rights of belligerent enemies. If neutrals like to waste ink by asserting them on paper, she is quite willing to humor this weakness.—London Times.

A Change of Mind

We have no doubt whatever that if the government, putting aside all theoretical prepossessions, were to tell the country that voluntary enlistment entails a half-speed prosecution of the war, the country would embratically pronounce for a change of policy. The feeling is taking root that in a great struggle which seriously drains the country of its manhood, it deals unfairly both as between man and man and between one enterprise and another. These unfairnesses are telling, and have done much to reconcile unwilling minds to the idea of compulsion should compulsion come. The new government might do worse than begin its work by ascertaining the available resources by means of a registration.—People's Journal.

COLD STORAGE.

"You have had seven appropriations for that river," complained the chairman of the committee. "What does it drain, anyhow?"

"The treasury," answered Congressman Graball.

Tambo—What is the difference between cigarette smoke and a cyclone?

Bones—Well, what is the difference between cigarette smoke and a cyclone?

Tambo—The one a man blows through his nose; the other he knows through its blows.

"So Miss Passay is angry with her doctor. Why is it?"

"He tactlessly remarked that he would soon have her looking her old self again.'

WILSON ON WAR

(From an address delivered at the Denver Auditorium, May 7, 1911.)

I do not know that peace lies in constant accommodation. I was once asked if I would take part in a great peace conference and I said: "Yes, if I may speak in favor of war—not the war which we seek to avoid, not the senseless and useless shedding of human blood, but the only war that brings peace, the war with human passions and the war with human wrong—the war which is that untiring and unending process of reform from which no man can refrain and get peace."

No man can sit down and withhold his hands from the warfare against wrong and get peace out of his acquiescence.

The most solid and satisfying peace is that which comes from this constant spiritual warfare, and there are times in the history of nations when they must take up the crude instruments of bloodshed in order to vindicate spiritual conceptions.

For liberty is a spiritual conception, and when men take up arms to set other men free, there is something sacred and holy in the warfare.

I will not cry "Peace" so long as there is sin and wrong in the world.

Why Most Statues Were Built to Honor Fighters

Did you ever look about you in any great city, in any great capital, at the statues which have been erected in it? To whom are these statues erected? Are they erected to the men who have piled fortunes about them?

I do not know of any such statue anywhere unless after he had accumulated his fortune the man bestowed it in beneficence upon his fellowmen. And alongside of him will stand a statue of another meaning—for it is easy to give money away.

I heard a friend of mine say that the standard of generosity was not the amount you gave away, but the amount you had left.

It is easy to give away of your abundance, but look at the next statue, the next statue and the next in the market place of great cities and whom will you see?

You will see here a soldier who gave his life to serve, not his own ends, but the interests and the purpose of his country.

I would be the last to disparage any of the ordinary occupations of life, but I want to ask you this question: Did you ever see anybody who had lost his son hang up his yardstick over the mantelpiece?

What is the difference between the yardstick and the musket?

There is nothing but perfect honor in the use of the yardstick, but the yardstick was used for the man's own interest, for his own self-support. It was used merely to fulfill the necessary exigencies of life, whereas the musket was used to serve no possible purpose of his own. He took every risk without any possibility of profit.

The musket is the symbol of self-sacrifice and the yardstick is not. A man will instinctively elevate the one as the symbol of honor and never dream of using the other as a symbol of distinction.

Soldiers Win Only Gratitude

Doesn't that cut pretty deep and don't you know why the soldier has his monument as against the civilian's?

The civilian may have served his state—he also—and here and there you may see a stateman's statue, but the civilian has generally served his country—has often served his country, at any rate—with some idea of promoting his own interests, whereas the soldier has everything to lose and nothing but gratitude of his fellowmen to win.

Let every man pray that he may in some true sense be a soldier of fortune, that he may have the good fortune to spend his energies and his life in the service of his fellow-men in order that he may die to be recorded upon the roll of those who have not thought of themselves, but have thought of those whom they served.

ITALIANS WILL USE HEAVY GUNS

(Continued from Page One)

which were there. We also dispersed groups of workers which were about to construct positions for artillery near the defile of Giraimonde.

"From its side, the enemy bombarded the summit or Zellenkofel and afterward attacked at different times, but unsuccessfully.

"In the region of the Isonzo weather conditions remain unfavorable. Some isolated attacks which the Austrians attempted were repulsed."

THE DESERTED GARDEN

I mind me in the days departed,
How often underneath the sun,
With childish bounds I used to run
To a garden long deserted.

The beds and walls were vanished quite;
And wheresoe'er had struck the spade,
The greenest grasses Nature laid,
To sanctify her right.

I called the place my wilderness,
For no one entered there but I.
The sheep looked in, the grass to espy,
And passed it ne'ertheless.

The trees were interwoven wild,
And spread their boughs enough about
To keep both sheep and shepherd out,
But not a happy child.

Adventurous joy it was for me!
I crept beneath the boughs, and found
A circle smooth of mossy ground
Beneath a poplar tree.

Old garden rose-trees hedged it in,
Bedropt with roses waxen white,
Well satisfied with dew and light,
And careless to be seen.

—Elizabeth Barrett Browning.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

ST. JEAN DE MATHA, Jan. 27th, 1914.

"After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives" and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, *I am fully recovered*, thanks to 'Fruit-a-tives.'

MME. CHARBONNEAU.

Land Registry Act.

In the matter of an application for the issue of a duplicate Certificate of Title to Lot 5 and the westerly 20 feet of Lot 6, Block 81, Nelson City.

Notice is hereby given that it is my intention to issue at the expiration of one month after the first publication hereof a duplicate of Certificate of Title to the above mentioned lots, in the name of George A. B. Jackson, which Certificate is dated 27th February, 1912 and numbered 15883-A.

SAMUEL R. ROE,
District Registrar.

Nelson, B.C., 1st June, 1915.

NOTICE.

Pound District Act, and Pound District Act Amendment Act.

Whereas notice has been duly given of the intention to constitute the following district as a Pound District under the provisions of Section 3 of the above act, namely, that portion of the County of Kootenay known as Burton and comprised within the following boundaries, namely, bounded on the north by the north boundary lines of Block 8 of Lot 7695 and Block 23 of Lot 8687, Group 1, Map 845; on the west by Lower Arrow Lake; on the east by the Scalping Knife Mountain; and on the south by the south boundary of Blocks 4 and 5 of Lot 6919, Group 1, Map 923, in the County of Kootenay.

And whereas, objection to the constitution of such proposed Pound District has been received from 26 proprietors of land within such proposed Pound District;

Therefore, notice is hereby given that the majority of the proprietors of land within the above mentioned district must within thirty days of the posting and publishing of this notice, forward to the Hon. the Minister of Finance and Agriculture a petition in the form in Section 5 of the Act, or otherwise such Pound District will not be constituted.

Dated this 1st day of June, 1915.

W. J. BOWSER,
Minister of Finance and Agriculture.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the province of British Columbia, may be leased for a term o twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa or to any Agent or Sub-agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

EXCHANGE DECLINES CHECK ON MARKET

Remittances to Paris, Berlin and Rome Establish Low Records—Sterling Quotations Higher

NEW YORK, June 29.—Recurrent demoralization in foreign exchange was the salient feature in today's developments and more than anything else served to hold the stock market in check. Further declines occurred in remittances to three of Europe's leading capitals.

Paris checks were quoted at 5.65, marks at 80⅛ and lires at 6.66. These returns were not only the lowest reported since the outbreak of war, but established records for many years previous.

London exchange made slight recovery with demand sterling at 4.37 3-16. No more gold was received from Canada, despite yesterday's hopeful intimations from London.

There were rumors of another inflow of gold from France, but these were not borne out by events across the water.

With few exceptions securities were heavy or irregular throughout, the weakness in Canadian Pacific Railway, United States Rubber and several other active issues conducing to that end. Canadian Pacific Railway was as low as 141¼, an overnight loss of ⅜ point and its lowest quotation in seven years.

Rubber repeated yesterday's low price of 48½ and Rock Island, as well as the shares of the Chicago, Rick Island & Pacific now are quoted at 15 with a renewal of pressure against Missouri Pacific and Missouri, Kansas & Texas.

No new explanation was offered for Rubber's weakness. There were material gains in copper, war shares and motors, but the movement in these issues was plainly professional and failed to carry conviction. Trading dragged in the final hour with lower average prices, interest at that time centering around the New York city bond offerings. Total sales of stocks amounted to 237,000 shares.

There was further heavy selling of bonds at more or less substantial recessions. Total sales, par value, $2,140,000. United States bonds unchanged on call.

NEW YORK CITY OFFERS $71,000,000 BOND ISSUE

NEW YORK, June 29.—Unusual interest attached to today's sale by the city of New York of $71,000,000 of 4½ per cent. bonds, not only because of the magnitude of the offerings, the largest in the city's history, but more particularly because of its bearing upon the general investmeno situation at this time.

Considering the enormous cash resources available at this and other domestic centres and taking the attractive rate in account, the raise was said to be much below expectations.

MONTREAL PROVISIONS

MONTREAL, July 29.—Cheese—Finest westerns 17, easterns 16½ to 16¾.

Members who will go are kindly requested to hand their names to the secretary or captain as early as possible. (1033)

MONTREAL HEAVY ON CANADIAN PACIFIC SLUMP

(By Daily News Leased Wire.)

MONTREAL, June 29.—Heavy selling of Canadian Pacific Railway in New York, depressing the price of that stock four points more to a new low level for the movement of 141¾, was the outstanding development in the stock market of Montreal today. The break induced no activity in the stock here, not a share changing hands.

Business, however, was small and general heaviness set in, but was offset to some extent by the strength of Tram Power, the most active stock of the day. The franchise rumors resulted in a brisk demand for the traction securities and about 1,000 shares were taken at 42⅛ to 43½, with the close at 43¼.

Scotia was a weaker feature in the war stocks, selling off 1½ to 63. Iron sold unchanged at 30. Steel of Canada after touching 15¼ closed at 15. Locomotive fell 2 to 39.

METAL PRICES

NEW YORK, June 29.—Spelter not quoted; at London £100.

NEW YORK, June 29.—Lead 5.62½; at St. Louis 5.55; at Montreal 5.60; at London £25 11s 3d.

DYNAMITE FOUND NEAR QUEBEC MUNITION WORKS

QUEBEC, June 29.—The militia division in Quebec is investigating today the finding of 50 sticks of dynamite near the Mercier machinery shops in Shaw park, Levis.

The dynamite was buried in the ground close to the plant.

It was found last night. The shops are expected to receive an ammunition contract from the British government.

TRIED TO BRIBE MILITIA OFFICIAL

(Continued from Page One)

a real estate dealer, was that he sold nine glasses for the use of soldiers. He slipped a check under a large blotting pad on Col. Hurdman's desk Sept. 23, when no one was in the office.

At the afternoon sitting Miss McDougall, bookkeeper for Brown, corroborated his evidence as well as that of Col. Hurdman as to the $30 check which Brown had left in his office. She said she telephoned Col. Hurdman, asking why he had not cashed the check and Col. Hurdman said he did not know anything about it. The check was brought back the same day by Mr. Brown. Miss McDougall said that when the check was made out Brown said he was giving the money to Hurdman for the "trouble" he had taken.

It is Criminal Offense

Brown, recalled, again told Sir Charles that he left the check for Hurdman for the trouble he had taken. He had called Hurdman up at his residence several times in regard to the contract.

Sir Charles—Are you aware that it is criminal to make gifts to a public officer?

Witness—No.

"It is only fair that I should call your attention to your evidence because it leaves you open to criminal prosecution," said Sir Charles.

"I did it innocently," was the reply.

Sir Charles repeated that under the provisions of the criminal code the witness would be liable to find himself in a difficult position as a result of the report he would make in the report to the department.

The witness said he did not think the fact that the money had been offered after the glasses were accepted could be taken as wrong.

"Radically wrong, illegal and criminal," commented Sir Charles.

"I would not have done had I thought it was wrong," said the witness as he stepped down.

Sam Bilsky, an Ottawa jeweler, examined in regard to his connection with the Birkett contract, denied that he had told Birkett that he controlled the sale of a certain number of glasses. Birkett told him he had an order for 400 glasses and he undertook to try and secure them.

Said Rake-Off for Hurdman

Both were to share in providing the capital and both to share the profits. The reason why Bilsky later abandoned his demand was because he was unable to provide his share of the capital.

A draft agreement was drawn up and his office copied it. This agreement differed from the later one. The first agreement contained the words "with $2 per glass for incidentals."

These words Bilsky struck out.

What explanation did Birkett give you?" asked Mr. Thompson.

"He said $2 per glass was going to Col. Hurdman."

"Did Birkett object to the erasure of the words?"

"He did until I said I would not stand for it. Then he agreed."

Bilsky was sure he had made the erasure before the agreement was signed.

"Birkett says he never mentioned Hurdman's name," said Mr. Thompson.

"Do you still maintain that he said $2 per glass was to go to Col. Hurdman?"

"I still maintain he said that," said the witness.

"In whose presence?" asked Sir Charles.

"In my presence; Taylor had gone to the station."

The commission adjourned until tomorrow.

W. M. Archibald of Trail arrived in the city last night and is staying at the Hume.

Thomas Walsh of Greenwood arrived in the city last night and is registered at the Strathcona.

A most successful sale of home cooking and strawberry tea was held under the auspices of the officers and teachers of St. Paul's Sunday school on the manse grounds yesterday afternoon and evening. The grounds were prettily decorated and a large number of the congregation and friends attended.

PAID SALT THROUGH DETECTIVE AGENCY

Lawyer in Winnipeg Says He Obtained $10,000 from Dr. Simpson to Give Missing Witness

(By Daily News Leased Wire.)

WINNIPEG, June 29.—Some points hitherto obscure in connection with the efforts of William Salt to keep away from Winnipeg were cleared up before the royal commission today through the evidence supplied by Henry Whitla, K. C., who testified that he obtained $10,000 from Dr. Simpson and got the Pinkerton Detective agency to give it to Salt.

Mr. Whitla said he did this for the benefit of his client, Horwood.

At the afternoon session several bank officials filed with the court documents relating to the financial affairs of former ministers. One was the ledger account of Hon. J. H. Howden. Attached to it was a note given Feb. 24, 1915, for $35,000.

POPE EXPECTED TO MAKE WAR STATEMENT

(By Daily News Leased Wire.)

ROME, June 29.—An important diplomatic document with reference to the war is being prepared by Pope Benedict XV., it was learned today. It is expected to be announced shortly.

The pope is showing keenly, it is said, the strain of the war and the worry imposed upon him by the "views" credited him by various correspondents.

Nelson News of the Day

MANY MORE MEN STILL REQUIRED

Applications for Work in Ammunition Factories Must be on the Regular Forms—Meeting of Unemployed

At a meeting of unemployed who are desirous of obtaining work in the British ammunition factories, held last night in Miners' hall John Notman, the delegate who has just returned from Vancouver, communicated the results of his mission to the coast.

Mr. Notman stated that he had met and talked with George Barnes, British M. P., regarding the employment of men from Nelson and district, and that he had informed him that as soon as the technical experts who are examining the applicants complete their work in Vancouver, he and his assistants will begin their trip east, which will bring them to Nelson en route.

Mr. Notman explained that the applications which had been filled out on the typewritten forms supplied to the men here would have to be made again on the special printed forms provided for the purpose. These forms may be had from the mayor or at the city clerk's office. No applications should be sent to Vancouver, as that would mean that the men who send their applications to Vancouver will have to go to the coast to be examined by the technical experts. The forms should be filled up and sent to the city clerk at Nelson and Mr. Barnes will go over them here when he arrives and pass them on to the examiners, who will question the applicants as to their knowledge of the trade for which their services may be required.

Special Work

Mr. Notman said that Mr. Barnes had stated emphatically that no men could be taken over other than those who are specified on the forms, but Mr. Notman went on to explain that when he visited the rooms where the applications were being sorted, he found that there were certain of the forms being filed away under the title of "specials." These, he said, were from men who did not belong to any of the trades specified but who had a knowledge of some branch of work which might be useful to the government at the present time. He advised any of the men who felt that they might qualify under this head to fill in applications stating what they could do, on the chance that places might be found for them. In the case of the regular applicants, Mr. Notman assured the men that it did not matter whether they had been employed recently at their trade, as the examiners would determine their fitness. The only men, he said, who stood no chance were men who had jobs at the present time. In the opinion of the speaker Mr. Barnes needed a great many more men than he had already engaged.

ROSE FESTIVAL OPENS THURSDAY

Great Variety of Entertainment Planned for Patrons—Sporting Events in Afternoon

Volunteers to the step-ladder and hammer and tack" brigade were busy yesterday arranging the decorations in the building for the rose festival. Those in charge declare that this year's show bids fair to be the most artistic display as well as the most successful show of its kind ever held in Nelson. The festival will open with a parade of children and flower decorated automobiles at 1 o'clock and the building containing the exhibits will be opened to the public at 2.30 o'clock.

The afternoon program will include a ball game on the recreation grounds between the Kaslo ball club and Nelson high school, and an exhibition lacrosse match by the Nelson lacrosse club, which has donated its services to the festival for the day. There will also be a series of sporting events for the kiddies with prizes for the winners. Luncheon and light refreshments will be served by the Nelson and District Women's institute, the proceeds from which will be devoted to the Red Cross fund.

Judging has already begun in the garden competition and it is said that the results thus far have hit a very high average. Entries in this class will be received up till 3 o'clock on Thursday. The judges will visit the gardens four times during the summer and the results of the first judging will be announced at the close of the show on Thursday night, the final results to be made public at the fall fair.

A musical and vocal program has been arranged by the committee for the patrons who attend the show in the evening, and an orchestra will be in attendance during the entire day. The committee have urged upon the exhibitors the necessity of being on hand early on Thursday morning so that there will be plenty of time to place the exhibts to the best advantage. The building will be open at 7 o'clock, and all flowers, with the exception of those arriving by boat must be in place and ready for judging by 11 o'clock.

John H. Hoyle, Miss Hoyle and W. A. Hoyle of Queen's Bay are paying a visit to Nelson and are staying at the Hume.

FAIRVIEW CONTEST TO CLOSE JULY 8

Gardening Competition to be Finished Next Week—More Entrants Wanted. Constitution is Adopted

At the meeting of the Fairview-Hume Improvement association Monday a constitution was adopted and resolutions were passed regarding noxious weeds in Fairview. Literature on gardening was received from the provincial government. It was decided at the meeting to close the gardening competition which is now being held under the direction of the association on July 8. The judging of 25 entries which are now in the competition has already taken place and the leaders will be announced at the evening session of the rose show on July 1.

The association urges that all those who are desirous of entering the gardening competition join the association and hand their names to the secretary, Ross Fleming, as soon as possible.

Although it was decided at first to conduct the competition without an entrance fee, the association now finds that it will be impossible to continue this plan and a small amount will be exacted from each entrant.

KOOTENAY AND BOUNDARY

TWELVE VOLUNTEERS JOIN AT CRANBROOK

Are Ready to Leave for Vernon Camp Directly Transportation Arrangements Are Made.

(Special to The Daily News.)

CRANBROK, B. C., June 29.—Another 12 men are ready to leave for Vernon camp to take their places with the 54th battalion. They are awaiting their transportation. The new names are as follows:

FIRST RASPBERRIES AT MIDWEEK MARKET

New Potatoes at 4½ Pounds for 25 Cents—Attendance of Public Only Fair.

At yesterday's mid-week market the first raspberries of the season made their appearance and sold at 10 cents per pint box. Prices kept up well on the whole, but new potatoes dropped to 4½ pounds for 25 cents. A few crates of preserving cherries were on sale at 10 cents per box, three boxes for 25 cents, and white cherries sold at 5 cents per pound. One rancher disposed of 45 crates of strawberries at $1.50 per crate.

The attendance was not up to that of Saturday.

HOLLAND IS WELL PREPARED FOR WAR

Little Dutch Kingdom's Aid to Allies Would Be of Vast Importance—What She Can Do.

In an article in the New York Times, John Martin, American, writes on the probability of Holland being swept into the European war. He says preparations have been made for such an event by the little Dutch kingdom. Huge imports have been made of raw and manufactured materials—at first suspected to be got into Germany—but there are stores of wheat, canned meats and other prepared food products from Great Britain and America at all the ports of the Zuyder Zee. She has bought ammunition also, while shoes, shirts and woolen cloth have arrived as well as nickel, copper and gasoline, some of these latter from Canada.

Military Work Finished.

Not only has Holland prepared as far as supplies are concerned, but earthworks and trench fortifications have been constructed along the west bank of the Meuse from Mook to Roermond, a distance of 50 miles, and on the east bank of the Meuse from Roermond to Maestricht, a distance of 25 miles.

Moreover the Dutch nation has steadily since the outbreak of the war, mobilized one section of its army after another, and has stationed them in various camps but short distances from the western German frontier and along the boundaries of northeastern Belgium.

Seemingly this has been a movement to protect Holland from invasion by Germany. But underneath all there has been a quiet and definite preparation for an aggressive movement against Germany, should opportunity offer and necessity require it.

Germany Deceived.

Germany herself was at first deceived regarding the purpose of Holland's increased importations. Gerof his army can move from behind the trenches at Maestricht and descend upon Liege, both by railway and along the Meuse, thus preventing Germany from sending her troops from Belgium to interfere with the action of the central army. In this way the southern army would menace all railway communications between Liege and Germany.

The eastern army, of which a very large division is stationed at Felden with great supply quarters at Zwolle, can move along three railway lines into Germany, and also by water down the Rhine, in the direction of Munster and Wesel, and on toward the great Krupp works at Essen, only a few miles farther south and east. The Krupp works are strongly fortified, but it is not necessary to take them. If the lines of communication between Essen and the western army are severed, that is sufficient.

One Railway Illustration.

Meanwhile the central army divisions are stationed at Arnhem, at the junction of two railway lines, and on the bank of the Rhine, at Nijmengen, and at Venloo, and Roermond. These divisions can move east and south by the river and railway and sever the railway communications between Essen and Aix-la-Chapelle. There are more than fifty miles of this railway within ten miles of the Dutch border.

While Holland is a small country, it is long and narrow; the eastern frontier bordering Germany is two hundred and thirty-six miles long. The frontier from which an advance can be made into Belgium is over 60 miles long.

The central army can move in two sections, one down the Rhine, past Wesel and Ruhort, and the other from Arnhem to Crefield by railroad. Both the Rhine and the railway intersect the German railway between Essen and Aix-la-Chapelle. To the movement of this central army there could be but little opposition. There is not a single German fort along the entire Dutch frontier and all the land forces of this portion of Germany have been taken to Belgium to aid in the struggle there.

If the Germans attempted to withdraw any portion of their army fighting in Belgium and France, the French, Belgians and English would have an opportunity they have long been waiting for; and if the German armies were not withdrawn to prevent the Dutch invasion, the Dutch army, in two days, even without forced marches could cut the four railway lines running from Essen, Cologne and Coblentz to Belgium and Luxemburg, and two million German soldiers, all of those in the western army, with the exception of those in Alsace-Lorraine, would be cut off from their source of supplies, from their food and from their ammunition.

British Would Aid Them.

The western German army would then find itself with the English, French and Belgians in front of it and the Dutch behind it. And not only the Dutch behind it, but 700,000 English also. The massing of great numbers of English troops in the east of England during the last few months has not been for the protection of the English coast, but to be ready to aid the Dutch should Holland decide to move. From the east coast quick transportation to Holland is possible and then—a rapid campaign from Holland's eastern border into Germany and on toward Bremen, Hanover and Berlin.

There would be nothing to stop them. The Germans would not dare to draw troops from their eastern frontier, as the Russians would seize the opportunity and the Cossacks would gallop into eastern Prussia.

Could Cut Off Supplies.

Three-fourths of the western army cut off from supplies and starving would have to fight for its life both with the English, the Belgians and the French on the west, and with the Dutch on the north and east. That portion of the German army in Alsace-Lorraine itself, unaided, would be compelled to combat one million Frenchmen.

Would it not be strange if once against this little country of the lowlands should be the deciding factor in overthrowing the doctrine of the divine right of kings?

It was the influence of a Holland general, backed by his Dutch army, that banished forever the claim of "divine right Louis" to the throne of Spain; it was Holland's influence and Dutch power that ended the reign of "divine right James" in England, and guaranteed for all time constitutional privileges to the English people; it was the Dutch who, by redeeming Holland from the control of Louis Bonaparte, made it possible for England and Germany to co-operate in overthrowing Napoleon I.

May not Holland in this great war become the determining factor in shattering forever the "divine right claim" of Wilhelm II. to dominate and to rule the world?

GERMANS SEIZE SWEDISH COASTING SHIP BROTTNING

(By Daily News Leased Wire.)

LONDON, June 30.—A Stockholm despatch to the Post says: "The Germans seized the Swedish coasting vessel Brottning Sophia, with passengers and a general cargo, in the Baltic and took it to Swinburne."

QUEEN OF BELGIUM WEEPS OVER RUINED YPRES

(By Daily News Leased Wire.)

DUNKIRK, June 29.—Queen Elizabeth of Belgium visited the British lines Sunday. As she viewed the ruins of Ypres from a hill she wept over the destruction wrought by artillery and fire in the Flanders town.

Joy Bros. Stores

415 Ward St. and Corner Josephine and Mill Streets.

Telephones:

Ward St., 149. Mill St., L. 19.

P. O. Box 637.

To Keep Skin in Fine Condition All Summer

It would be much better for the skin if little cream, powder or rouge were used during the heated term. Mixed with perspiration, dust and grime these things are anything but beautifying. Ordinary mercolized wax will do more for the complexion and without giving an oily, streaked, spotted or pasty appearance. It is the ideal application for the season, as it not only keeps the pores clean, but daily removes particles of scarf skin which have been soiled by dirt or weather. By constantly keeping the complexion clear, white, satiny, it does more toward perpetuating a youthful countenance than any of the arts or artifices commonly employed. One ounce of mercolized wax, obtainable at any drug store, will completely renovate the worst complexion. It is applied at night like cold cream and washed off in the morning.

To keep the skin from sagging or wrinkling, or to overcome such condition, there's nothing better than a face bath made by dissolving one ounce powdered saxolite in half a pint witch hazel.
