IRISH BILL TO FEATURE PARLIAMENT

GENEROUS PROPOSALS ARE BEING CONSIDERED BY THE BRITISH CABINET

ULSTER COUNTIES MAY REMAIN SEPARATE UNIT

Present Home Rule Bill Effective as Soon as Turkey Signs the Peace Treaty

LONDON, Oct. 7.—(Canadian Associated Press) — Parliamentarians say the Irish bill will be the feature of the new session of parliament and the cabinet is now considering one drafted on the lines of dominion home rule but with suggested alterations that any county may stand out, or Ulster counties be all included and have their own soldiers.

Policy Taking Shape

LONDON, Oct. 8.—The government's Irish policy is rapidly taking shape under the pressure of recently developed circumstances which surprised the cabinet, says the Daily Mail. The law officers of the crown, the Mail states, discovered after careful examination of the "suspension act," an act carried during the war to postpone the operation of the home rule act, that under its terms the home rule act becomes operative on the day the peace treaty is signed by Turkey, the last belligerent to sign.

It had been generally assumed, the newspaper adds, that the suspension act would operate six months longer, when other measures such as the defense of the realm act, would terminate, but the ruling of the law officials upset this view. The government, however, according to the newspaper, is under urgent necessity of formulating Irish proposals and the carrying of them as an amendement to the home rule act unless the latter is to become operative as it stands on the statute books.

Generous Proposals

The Daily Mail points out that for this purpose the government has only six weeks, as it is stated that parliament will meet a fortnight hence, so there will be only one month of parliamentary time in which to carry out the proposals.

The scheme has not yet been fixed definitely, but the ministers have decided to offer the nationalists of Ireland what they describe as a very generous proposal, indeed.

It will undoubtedly take the form of a wide measure of home rule, but the pledges given to Ulster are held as binding and the exclusion of all counties where Ulster men predominate is contemplated. It is thought that the system of proportional representation recently enacted for the Irish municipal elections will be applied in the elections for the home rule parliament.

The cabinet committee which was constituted to draft the Irish proposals has met frequently and the whole cabinet on Tuesday, the Mail says, discussed the scheme and carried it further.

BELGIAN KING AS AN ENGINE DRIVER

Runs Locomotive On His Train for 10 Miles in State of Ohio

CHICAGO, Oct. 7.—The King of the Belgians today ran the engine of his own train for 10 miles. The special train on which the King and his party are travelling westward, was stopped at Wauseon, Ohio, while His Majesty climbed into the cab of the engine and took over the throttle from the pilot. The King, who has a thorough knowledge of locomotive engineering, ran the heavy train for 10 miles without a jolt, then he stopped the engine and returned to his car.

The King travelling unofficially with the Queen and the Duke of Brabant, passed through Ohio and Indiana today, en route to California.

The train was stopped for an hour at Toledo, the home of Brand Whitlock, American Ambassador to Belgium, where the party received an enthusiastic welcome. The stop was made by the King as a personal friend of Mr. Whitlock and not as an official visit.

The royal train arrived in Chicago late tonight. It immediately was switched on another road and resumed its journey.

TREATY MAY COME INTO EFFECT LATE THIS MONTH

LONDON, Oct. 7.—The German press foreshadows the exchange of documents relating to ratification of the treaty in the latter part of October according to a wireless report received here. This however is contingent on the completion of ratification by Italy, France and Japan, the papers intimate, and they point out that the treaty would thus come into force before the termination of the debate in the United States senate.

LLOYD GEORGE FORESAW LABOR DIFFICULTIES

LONDON, Oct. 7.—During the course of his speech at the Mansion House today Premier Lloyd George made the interesting revelation that he had left the peace conference in February because he foresaw the coming labor difficulties.

The government then started an organization under the chairmanship of the home secretary in preparation for the possible necessity of securing the country's food supply.

This organization, he added, would not cease with complete demobilization, as many people supposed, and this was an important fact to remember.

WILSON MAY HAVE ANOTHER SET BACK

His Physician Says President Is Slightly Improved; Not Overly Optimistic

WASHINGTON, Oct. 7.—President Wilson's condition improved again today and his appetite, the failure of which has been one of the serious drawbacks to his recovery, showed a decided change toward normal.

So far has the president progressed that his two married daughters, Mrs. William H. McAdoo, of New York, and Mrs. F. B. Sayre, of Cambridge, Mass., who came to his bedside several days ago, returned to their homes tonight after consultation with the president's physicians.

Rear-Admiral Grayson, the president's physician at 10 o'clock tonight issued the following bulletin:

"The president has had a comfortable day and is slightly improved."

Dr. Grayson and other physicians showed a decided inclination to guard against over-optimism, however, as they believe another set back still is within range of possibility.

PROMOTION FOR CIVIL SERVANTS

Special Committee Favors Granting of Preference in Their Own Divisions.

OTTAWA, Oct. 7.—Having disposed of the last of the kickers against the reclassification of the civil service at the morning sitting, the special committee considering the act to amend the civil service act devoted the afternoon and evening sittings to consideration of the details of the bill apart from classification.

After a general discussion it was agreed that present members of the civil service are entitled to consideration in respect to promotion and that they should at least be given the right to promotion to the top of the division to which they belong. A sub-committee was named to submit an amendment along these lines, and it will report tomorrow.

At the evening sitting, it was proposed to amend the provision of the act giving preference to returned soldiers by making the preference apply also to the dependents of soldiers, more particularly, of course, to the widows of men who lost their lives.

It was recognized that this would open the door to a considerable degree, and make it necessary to define the meaning of "dependent." Mr. Boys suggested an amendment providing that local appointments to the service should be confined insofar as possible to the people in the district in which the appointment is made.

Before the committee adjourned, Hon. A. K. McLean expressed the hope that the committee would make a recommendation in favor of the reestablishment of a system of superannuation in the civil service, not at once, but some time in the near future. In the discussion which followed, the members of the committee expressed themselves as unanimously in favor of the proposal. The committee adjourned until Wednesday night when it is said the bill will be reported to the house.

INDUSTRIAL CONFERENCE TANGLED IN OWN RULES

WASHINGTON, Oct. 7.—After perfecting an organization today the industrial conference called by President Wilson got tangled up in its own rules and adjourned till tomorrow.

Secretary Lane was elected permanent chairman. In his speech of acceptance he stirred the delegates, representing capital, labor and the public, to get enthusiasm by declaring that the high purpose of the gathering made failure impossible in the effort to harmonize industrial relations in this country.

Proceeding to the adoption of rules, the conference struck its first snag in a protest by John Spargo, of New York, a representative of the public that the report of the rules committee made no provision for minority expression and was a "traversity" on free expansion. His criticism caused early adjournment of the morning session to permit amendments to be formulated by the respective groups, but on re-convening the rules were adopted without material change.

They provide for public sessions and unanimous vote by groups on all questions, and require the assent of a group before any member of it can introduce a resolution. A committee of 15 was named to recommend for or against all resolutions introduced.

DOMINION'S DEBT NEARS TWO BILLION

DEPUTY MINISTER OF FINANCE PLACES FIGURES BEFORE SOLDIERS COMMITTEE

PUBLIC DEBT INCREASED 580 PER CENT SINCE MARCH 1914

Income Taxes Have Been Levied on 51,588 People; 47,091 Have Paid

OTTAWA, Oct. 7.—A presentation of the government's obligations in regard to the payment of perhaps $200,000,000 re-establishment grant in addition to the burdens already to be borne, was given to the special committee on the soldiers civil re-establishment by T. C. Boville, deputy minister of finance.

Since March 31, 1914, the public debt has increased 580 per cent, from $335,996,000 to an estmate for 1919-20 of $1,950,000,000. Persons are estimated this year at $30,000,000, loan settlement, $25,000,000, and soldiers civil re-establishment $10,000,000. Interest on the public debt has risen from $12,093,000 in 1913-14, to $102,762,000 this year.

War expenditures for 1919-20 were estimated at $350,000,000, exclusive of pensions, and this year's consolidated revenue receipts were estimated at $244,000,000.

Income taxes have been levied on 51,588 people in 1919, and the amount of assessment is $12,221,669. Only 47,091 people have paid and the amount collected is just over $10,000,000. Only 32,668 persons paid on incomes between $1500 and $6000, and $1,469,000 was collected from them. Only 40 persons paid on incomes of over $100,000, a total of $1,470,000.

T. C. Cox, officer in charge of gratuities, militia department, was recalled in regard to a difference between his estimate of the number of me reaching France and the number estimated in the G. W. V. A. plan.

It was pointed out that there was a discrepancy which would mean a difference of $79,000,000 if gratuities were paid on the basis of G. W. V. A. figures. Mr. Cox had no means of showing which men had been returned to France a second time, and it was thought that this would largely account for the discrepancy.

OVER MILLION FOR WORK IN MISSIONS

Appropriation Is Made for Coming Year by Methodist General Board

TORONTO, Oct. 7.—Appropriations for mission work at home and abroad for the coming year amounting to $1,156,165 were authorized by the general board of missions of the Methodist church here today.

The board agreed to release Rev. J. H. Arnup from his duties as assistant secretary of foreign missions to act as secretary of the national campaign of the Methodist church.

A recommendation from the Saskatchewan convention that a missionary superintendent be appointed for work among the non-English speaking people was not sustained by the board. The delegates from Saskatchewan urged strongly the need for a special superintendent, but the board thought that the time was not ripe for such an appointment.

COAST HOSPITALS MAY BE CLOSED

Announcement Regarding Qualicum and Shaughnessy Institutions Expected Soon

ICTORIA, Oct. 7.—The long anticipated announcement of change in connection with Qualicum, Shaughnessy and others of the hospitals operated under the assistant director of medical service in Military District No. 11 probably will be made officially within the next few days. Lt.-Col. David Donald, A.D.M.S., said today that so far as the C.A.M.C. was concerned Qualicum as well as the military hospital at Shaughnessy, ancouver, would close on Wednesday, Oct. 15.

"Resthaven also will be closed as soon as possible," said Col. Donald. Ecquimalt is to be retained indefinitely, as long as all undischarged returned soldiers under active medical treatment require care.

A number of the Qualicum and Shaughnessy patients already have received this discharge, and the staff will be demobilized early next week at the former place. Shaughnessy hospital is being kept on by the S.C.R.

FAMOUS COMEDIENNE DIES

LONDON, Oct. 7.—The death is announced of Maggie Duggan, the famous comedienne.

UPLIFT RESOLUTIONS ARE PASSED BY ALBERTA WOMEN

CALGARY, Oct. 7.—Resolutions asking that second offences for bootlegging be punished by jail sentences; that equal parental rights be established in the province; that widows be given greater power under the dower act; that living wages be incorporated in the factories act; that hotels and lodging houses be licensed to bring them under police regulation, and that marriage licenses be issued from the courthouses only by responsible parties and that the lists be published every day, were passed by the provincial executive of the National Council of Women which met here today.

83 AIRPLANES TO FLY CONTINENT

American Army Flyers to Attempt Trip From San Francisco to New York.

SAN FRANCISCO, Oct. 7.—With men and machinery tuned to the highest degree commensurate with endurance and ability 16 regular army flyers are to "hop off" here, beginning at 6 o'clock tomorrow morning for a flight they expect will land them at Mineola Field, New York, 72 hours later.

The race will be on when Lieutenant J. P. Reichter, of Rockwell Field, San Diego, takes the "jump" in his De-Raviland for the ascent to the distant flight leyels. Then will follow a galaxy of DeHaviland's bluebird Sopwith experimentals and two captured German Fokkers, found by the Americans in the St. Mihiel drive. One of the Fokkers, commanded by Lieutenant F. W. Siefert, of Rockwell Field, had failed to arrive late today, and there was a possibility that he would not be here in time to start with the others. The DeHavilands will predominate in the race.

MINEOLA, N. Y., Oct. 7.—Air Commodore L. E. G. Charlton, air attache of the British embassy at Washington, was selected tonight as the first aviator to be sent away from here tomorrow morning at 9 o'clock in the great trans-continental air race and reliability test to San Francisco and return. Commodore Charlton, who is the highest ranking officer entered in the contest, will fly a British machine, and will alternate as pilot with Flight Lieutenant P. E. Traill, also of the embassy staff.

At sundawn tonight 50 machines, representing eight different makes and resembling gigantic grasshoppers, were lined up on Roosevelt Field awaiting the signal of Major-General Thomas H. Barry, commanding the department of the east, which will send them 1700 miles across the 11 states. Seventeen other machines had either arrived and were being prepared by mechanics or were on their way here from neighboring fields. Sixteen machines were preparing to essay the east bound trip from San Francisco. The contest is limited to military aviators.

LONDON, Oct. 7.—The Cork Development Association has received a cablegram from Henry Ford, stating that he is considering running a line of steamers to Ireland.

CITY TAKEN BY TURKISH NATIONALISTS

FALL OF KONIEH SAID TO HAVE CAUSED RESIGNATION OF CABINET

APPREHENSION OVER THE FATE OF OTTOMAN THRONE

Capture Indicates That Vase Area Is Under Control of Mustapha Kemal

PARIS, Oct. 7.—Konieh, an important railroad centre, is in the hands of the Turkish nationalist troops.

This city, which in the days of roman power was known as Iconium and was the capital of province of Lyaconia, stands in a position which virtually dominates South Asia Minor. Its capture appears to indicate that Mustapha Kemal is in control of a vast region stretching from Konieh from the southwest to Erzerum, the principal city of Turkish Armenia, a distance of 425 miles.

It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger.

On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustapha Kemal.

Great Britain began to withdraw her troops from Armenia in August and it is probable this movement is now far advanced. France has forces in Syria while Greece and Italy have small detachments at various points along the coast of Asia Minor. None of these nations, however, appear to have sufficient forces to conduct a campaign in the interior of the country. Great Britain's army in Mesopotamia and Palestine, to the east and south, seems to be too far away to menace the spread of the Turkish nationalist movement led by Mustapha Kemal.

DUKE AND DUCHESS ARE TENDERED A RECEPTION

VANCOUVER, Oct. 7.—Duke ann Duchess of Devonshire and Lady Dorothy Cavendish were tendered a farewell banquet this evening by the city, Mayor R. S. Gale officiating as host. The affair had quite a social flavor, heads of all the elected civic and educational bodies being present, but at the same time the easy democratic ways of the vice-regal visitors made the affair quite an informal and thoroughly enjoyable one.

DECEMBER SIXTEEN TO BE MOVING DAY FOR WILHELM

AMERONGEN, Oct. 7.—The former German emperor will remove from Amerongen about December 16 and take up his residence at Doorn.

KOOTENAY AND BOUNDARY LINE UP ON VICTORY LOAN

CAMPAIGN MAKES FINE RUNNING START—ORGANIZATIONS ARE IN WORKING ORDER IN NELSON, TRAIL, ROSSLAND, GRAND FORKS AND GREENWOOD—ORGANIZER SAMPSON LEAVES TODAY FOR SLOCAN TOWNS—GENERAL ENTHUSIASM MANIFESTED -- CONFERENCE OF PUBLICITY CHAIRMEN IN VANCOUVER FRIDAY.

With Nelson, Rossland, Trail, Grand Forks and Greenwood organized and stripped for action in the last five days, it can be said that the Victory Loan campaign in the Kootenay and Boundary is making a running start. The Slocan is next in line, and C. E. Sampson, provincial organizer, leaves this morning for New Denver, with Silverton, Sandon and Kaslo as additional objectives.

The Crow line will next receive attention, Creston, Cranbrook and Fernie being due for organization in the order named. The Kootenay-Columbia valley and the main line points will furnish the last stage of Mr. Sampson's tour, with Fort Steele, Windermere, Golden and Field on the itinerary.

Having assisted at the organization of Victory Loan committees in Rossland, Trail, Grand Forks and Greenwood since leaving this city Saturday, Mr. Sampson was in Nelson yesterday for a further conference with the local committee and to lay out the balance of his itinerary. This is his last visit to Nelson, and F. W. Sterling, who was here last year, will shortly arrive from the coast to assume supervision of the campaign for this section of the interior.

Trail's organization meeting was held Saturday night, with great enthusiasm, the following organization being effected: Chairman, Mayor F. E. Dockerill; vice-chairman, G. F. Reimaun; secretary, Holt C. Caldicott; committee chairmen, tabulating and indexing, G. R. Thompson; publicity, Elmer R. Hill; canvassing, G. F. Reimaun; recording and secretarial, Holt C. Caldicott.

At Rossland the organization meeting was held Sunday, that being the miners' free day, and the city hall was packed, the enthusiasm of the golden city over the big concentrator being regarded as a guarantee that the city would more than raise its quota. The preliminary organization was effected as follows: Chairman, Mayor Alex Pitt; vice-chairman, W. J. Garbutt; acting secretary, R. D. Mitchell; publicity chairman, Sergt. W. A. Turner. The organization will be completed at a later meting, by the appointment of other chairmen.

Boundary Ready

The mission of the provincial organizer, as far as Grand Forks was concerned, consisted in confirming and giving advice to the fine Victory Loan committee organized two weeks ago, of which Dr. G. H. Acres is chairman. It was decided to open an office at once. Dr. Acres has handled previous loans, and has a live organization around him.

Though hard hit by the closing of its smelter Greenwood plans to hit the ball for home runs, and many of them. The Victory Loan organization is in the capable hands of Mayor T. M. Gulley and City Clerk G. B. Taylor, and canvass will be made for every available subscription.

Midway and Rock Creek are also organizing, and are lined up to pass last year's totals.

Publicity Conference

A conference is called for Friday at Vancouver, of all publicity chairmen, to be addressed by Oscar A. Olson, provincial publicity commissioner. The object of the conference will be to co-ordinate publicity work throughout the different units in the province.

The Kootenay delegates for this convention thus far are J. W. Holmes, Nelson; Noble Binns, Trail; Sergt. W. A. Turner, Rossland; S. T. Hull, Grand Forks.

SAYS GILL NETS WERE FIRST USED BY INDIANS

DUNCAN, B.C., Oct. 7.—Among Indian witnesses called to give evidence at the fisheries commission investigation today was John-See-Et-Teen, who attributed the depletion of the supply of salmon to the presence of traps. Louis Underwood, another Indian witness, said in answer to Commissioner Eberts that the nets used were approximately eight feet in depth, and that the Indian had first given the white men the idea of the gill net now used. He attributed the depletion to the purse seine net outside and to the traps, and also to the Japanese who used gill nets, and who, though restricted to the use of one net, invariably, he said, used more.

DRYS WIN OUT AT POLLS IN NORWAY

National Prohibition Adopted at Plebiscite Held There on Monday

CHRISTINIA, Oct. 7.—National prohibition has been adopted in Norway by the vote of a general plebiscite held yesterday.

The country has been greatly excited over the question and Premier Knudsen announced that he would, resign if prohibition failed of adoption.

The measure applies only to whisky, brandy and other strong liquors. Champagnes and all other wines and beers are not affected.

Had War Time Prohibition

CHRISTIANIA, Oct. 7.—(Associated Press)—War time prohibition operating since December, 1916, and forbidding the sale and private importation of spirits and strong liquors, was made permanent by yesterday's plebiscite.

Despite this prohibition arrests for intoxication have been steadily increasing throughout the country, and in some places have been higher than before the war time prohibition was put into effect.

Substitutes for liquors, especially denatured alcohol, are being used everywhere. Illegal distillation also is increasing, especially in the rural districts.

It is feared than France, Spain and Portugal, from which countries liquors were imported, may retaliate with a tariff on Norwegian products, such as timber and fish, thereby injuring especially the Norwegian fish trade, the greater per cent of which goes to Portugal.

STANDARDIZATION OF COAL URGED

Proposal is Put Forward by Miners at Commission Inquiry at Edmonton.

EDMONTON, Oct. 7.—Evidence was given before the coal commission on Tuesday by C. G. Sheldon of the Humberstone Coal Company; W. S. Cupples of the Great West Coal Company; H. C. Anderson of the Twin City Coal Company; L. E. Drummond, of the Mountain Park; W. R. Bond, formerly connected with the Carbondale Collieries at Nanaimo; W. C. MacKay of the MacKay Coal Company.

All the operators were agreed that there was great over-development of mines in this district, the fact that they only work five or six months a year was a big factor in the cost, for the upkeep during the remainder of the year had to be borne by the coal products during the short period of the year.

They also agreed that there would be much benefit in the marketing of coal by the standardization of screens, and this was especially true when catering to a competitive market such as Manitoba. The quality of coal being shipped into Manitoba should be very carefully controlled.

The operators felt that there was as much reason for the standardization of grades in coal as with wheat, butter or other products made for export or even for home production the satisfaction to the consumer was much greater. Another suggestion was that there should be a commission to regulate and control the opening and operation of coal mines in the province. There should be some man with authority along the lines of the railway commission and to this commission an man proposing to open a coal mine would have to show that he was financially able, not only to open the mine, but to carry it through. The standardization of the coal for export would also be under this commission.

Evidence was also taken with regard to the housing conditions at the coal mines.

Other hearings already arranged are at Calgary, October 15, 16 and 17; Drumheller, October 20, 21 and 22; Edson, October 27, 28 and 29; Lethbridge, November 10, 11 and 12; Blairmore, November 13, 14 and 15, and Edmonton again November 18, 19 and 20.

NO ARRANGEMENT MADE TO TAKE OVER ALBERTA ROAD

OTTAWA, Oct. 7.—Replying to a question by H. A. McKie in the house today, Hon. J. D. Reid, minister of railways, said that no arrangements have ben made by the government for the taking over of the J. D. McArthur road in Alberta, the Edmonton, Dunvegan and British Columbia railway.

TO PROVIDE 'BONE-DRY' PROHIBITION

LEGISLATION WOULD EXTEND AUTHORITY OF INDIVIDUAL PROVINCES

MAY PROHIBIT IMPORT AND MANUFACTURE OF LIQUOR

Bill Providing That Aliens Must Have Permit to Carry Guns Read Second Time.

OTTAWA, Oct. 7.—Legislation making it possible for a province to have absolute prohibition, either of importation or manufacture, or both, of spirituous beverages, was introduced in the house this afternoon by Hon. C. J. Doherty, minister of justice.

Before a province can bring about bone-dry conditions, however, there must be a plebiscite taken under the authorization of the amendment by the provincial legislature. When this has been done, and a plebiscite is duly taken, then, whatever the plebiscite provides for will be brought about by proclamation issued in accordance with the proceedings provided in the Canada Temperance act, of which the bill introduced today is an amendment.

Present Law in Ontario

Replying to a series of questions by W. F. MacLean the minister explained that the present law in Ontario in regard to which a referendum is being taken, does not deal with the question of the importation or manufacture of liquor. The province, he said, takes the position that they cannot deal with that question. "This," added the minister, referring to the bill he had just introduced, "would be a method whereby, in virtue of Dominion legislation becoming operative by the vote of the electorate of a province, importation into that province or manufacture in it would be prohibited."

Mr. MacLean—"Then Ontario would have to have a separate referendum on this question in order to avail itself of this bill?"

Mr. Doherty—"Upon a petition, this government would hold a referendum in the area of the province on whose behalf the petition was made."

Majority Vote

Hon. Charles Marcil—"Does the minister provide for this coming into effect on the majority of the total votes cast, or on a majority of the voters on the list?"

Mr. Doherty—"It is a provision of the Canada Temperance Act, which I think provides simply for a majority."

Another bill introduced by Mr. Doherty amends what is generally known as the Doherty act, a piece of legislation prohibiting the sale or use of intoxicating liquors.

On second reading of a bill to amend the criminal code providing that aliens must not have firearms without a permit, an amendment by S. W. Jacobs, calling for like treatment for all citizens, was negatived on a division of 65 to 34.

At the opening session the house considered a resolution by Mr. Guthrie to permit the manufacture and importation of oleomargarine until August 31 next and its sale until March 1, 1921. The opposition of the Dairymen's association was voiced by Donald Sutherland, but the resolution carried on a division of 22 to 15, and a bill introduced.

Lloyd Harris' Return

Sir Sam Hughes said he had noticed an item in a newspaper that Lloyd Harris, head of the trade commission in London, was returning to Canada. He wished to know why he was coming back.

Sir George Foster replied that Mr. Harris was returning for purposes of consultation with the government on plans for the furtherance of Canada's export trade.

Second reading was then given to an act to amend the criminal code. The amendment provides that no alien shall have in his possession any firearm or offensive weapon without having a permit.

S. W. Jacobs strongly opposed the bill. Why, he asked, should aliens thus be discriminated against; was not a pistol as dangerous in the hands of a British subject as of an alien? There should be one law applicable to all alike.

Mr. Maharg also opposed the amendment. It would neve been all right, he said, in war time, but not when the country was at peace. If these aliens were fit to live in the country they should not be discriminated against in a matter of this kind.

I. E. Pedlow thought the bill would work a hardship to numbers of aliens who have perhaps lived 60 years in the country, but had never been naturalized. Many were good, reliable farmers, he said.

Make Aliens Show Good Faith

Hon. C. J. Doherty replied that the bill was designed to make aliens show their good faith by being willing to apply for permit to carry firearms. The criminal records of the country would, he thought, show that a large majority of crimes of violence had been committed by newly arrived aliens.

An amendment was moved by Mr. Jacobs to the effect of which was to place all citizens on the same plane with the aliens as far as carrying

Donald—"Whist, mon, it wisna a marriage—it was 'a fun'ral.'"

CLASSIFIED ADS BRING RESULTS

SIMULTANEOUS PROCLAMATIONS

Canada and Overseas Government to Announce Peace at Same Time.

OTTAWA, Sept. 7.—That Canada expects to make a proclamation of peace simultaneously with the British proclamation and not before, was announced to the senate today by Sir James Lougheed. The anouncement was made in the course of discussion on the bill giving effect to the treaty. This bill was put through the committee stage and stands for third reading.

The senate also passed a resolution asking the government to provide for the free importation of machinery for the mining of oil shales, when such machinery is not manufactured in Canada. The motion was made by Senator Fowler for Senator Domville. The reservation providing for free importation only of machinery not produced in Canada was inserted at the instance of Senator Nicholls.

The government was urged to undertake the mining of coal by Senator Bradbury at some length as an introduction to his suggestion that the government should undertake mining in Alberta.

NO MATERIAL CHANGE IN THE STEEL STRIKE

PITTSBURG, Oct. 8.—Conditions in the steel workers' strike in the Pittsburg district were without marked change yesterday. No additional plants were reported to have started up and the strikers did not announce any material gains to their ranks.

TO PROVIDE BONE DRY DRY PROHIBITION

(Continued from Page One)

weapons was concerned, and was lost on division by a vote of 34 for and 65 against. The bill was reported and carried.

A resolution was then passed in regard to pensions for dependents or men in the Royal Northwest Mounted Police. The object of the bill, Mr. Rowell said, was to put the wife and children of mounted policemen who had served more than 10 years and were still in the service in the same position as the widow and children of the men who had served 10 years and who had retired, and were in receipt of a pension. A bill was then introduced based on the resolution.

Patents Act

Second reading was then given to an act respecting patents of invention, and the house went into committee on this bill. The bill provides, among other things, that the minister of trade and commerce may extend the time prescribed by the patent act for the filing of documents of payment of fees in connection with patents if it is shown that the patentee was prevented from doing these things by reason of active service. The bill was reported and given third reading.

BALLOONISTS MISSING OFR SIX DAYS; SEEN OVER LAKE

ST. LOUIS, Oct. 7.—Although six days have passed since the national championship balloon race started no word had been received today from Captain Carl Dammon, pilot, and Lt Edward J. Verheyden, the Wichita aero club's entry. The two balloonists were last seen flying low over Lake Michigan. They carried provisions sufficient for three days.

IMPOSSIBLE TO SAY WHO INVENTED THE TANKS

LONDON, Oct. 7.—"It is impossible to say that this or that man invented the tank," Winston Churchill, secretary of war, testified today before the royal commission on awards to inventors, which is dealing with the claims of eleven men, who are seeking the honor and bounties attached to the invention of this formidable instrument of war.

The testimony and the statements of the attorney's indicated that the tank was a sort of middle ground between armored motor cars, which wide trenches rendered ineffective, and the huge steam rollers, planned to batter down barbed wire and other obstacles.

Mr. Churchill testified, that from the beginning of the war numerous types of landship plans had been submitted.

Eighteen of these types appeared feasible and models were constructed and trials made, and it might be said that the original tank, first used in the Somme offensive in 1916, was the result of the experience gained at the trials of each of these eighteen.

Armored cars had failed, said the secretary because they could not get over or under the trenches, whereupon he had called into conference Vice Admiral Sir Reginald Bacon, the ordnance expert. Admiral Bacon built a motor with bridges to be laid across a trench on the approach and picked up on the return, but this failed to get over a double line trench. Then came tests of machines with huge wheels able to span a wide space, but these were discarded. Finally the caterpillar tractor scheme was adopted, beginning with an extended discussion as to whether they should be constructed to transport troops through fire swept areas. Out of these discussions came the trials of the Mark One tank with which the inquiry is dealing.

The caterpillar plan was once abandoned by the war office, one of the claimants testified. It was kept alive in the admiralty because, according to a statement by one of the attorneys, of Mr. Churchill's belief in the necessity of producing some machine to over ride the trenches.

Among the claimants are Major Gen. Ernest D. Swinton; Commodore Murray Fraser Sueter; Sir Eustace Tennyson Deven, director of naval construction of the admiralty, and Sir W. A. Tritton, of the ministry of munitions.

Gen. Swinton was the only one heard today.

KINGSTON VETERANS ENDORSE ACTION OF COMRADE MACNEIL

KINGSTON, Oct. 7. — The local branch of the G.W.V.A. has gone on record as endorsing the action of the executive of the G.W.V.A., the Army and Navy Veterans and the Imperial Veterans, in repudiating the action of J. H. Flynn and endorsing the action of Comrade MacNeil, on behalf of the returned soldiers. The majority of the men ask for further aid from the government, some for financial aid, others for vocational training and some for land. The financial aid desired is either a bonus or a loan, on a five per cent basis.

WORLD SERIES ATTENDANCE

CINCINNATI, Oct. 7.—The attendance figures as announced by the national commission for today's game follow: Total attendance 32,006; gross receipts, exclusive of war taxes $101,768. Commissions share $10,176.80, clubs and leagues shares $91,591.20.

When a doctor gives a patient hope he expects him to pay for it.

LONGSHOREMEN'S STRIKE AT NEW YORK SPREADS

NEW YORK, Oct. 7.—The strike of longshoremen which has been on and off at various points along the Atlantic coast for several weeks, took a definite turn here today when between 7000 and 8000 workers from the different docks walked out. Later nearly 1000 more men employed at the Royal Mail Steamship company the Panama Line and the Morgan and Southern Pacific piers quit work. Officials at the piers admitted the serious extent of the strike which is for higher wages and a "rest hour." The Carmania, of the Cunard line, which was due to sail today for Liverpool, postponed its departure until tomorrow. The strike stopped the bunkering of coal.

REFUSES TO ACCEPT CABINET

PARIS, Oct. 7.—(Havas).—The Prince regent has refused to accept the cabinet formed by M. Trikovitch for Jugo-Slavia, and has called upon M. Pavlovitch to form a cabinet which will be able to count upon the support of parliament according to a despatch from Belgrade today.

DRUGGISTS CONVENE

WINNIPEG, Oct. 7.—Three hundred delegates were present today at the opening session of the seventh dominion gathering of the Canadian Pharamaceutical association. A presage of the decisive attitude of the association could be gathered in the address of welcome by H. D. Campbell, the local president. Mr. Campbell first stated that it was the duty of all druggists to employ the returned soldier druggist. The second point Mr. Campbell emphasized was that Canadian druggists should primarily support Canadian and British industries and be on guard against any attempt by former enemy nations to re-establish a monopoly of the Canadian market. Mayor Grey went to the opening session by airplane from the St. Charles aerodrome.

NELSON OBSERVES FIRE PREVENTION DAY TODAY

Citizens Asked to Remove All Fire Traps and Impress Children With Immense Annual Loss

Today is fire prevention day in Nelson. Mayor J. A. McDonald, on instructions from the city council, has issued a proclamation asking the citizens to observe the day properly and to use the half holiday this afternoon in furthering propaganda with respect to fire prevention, cleaning up throughout the city and making Nelson as free as possible from the fire menace.

The city fathers have expressed the desire that the teachers in the educational institutions of the city spend some portion of the day in placing before the students the seriousness of the fire menace throughout Canada. An effort will be made to place the Dominion's astounding figures of fire losses before the pupils in order to impress them with the value of the counutry's resources which must be protected from fire.

The city's fire wardens will, it is expected, cooperate today in the effort at cleaning up the city and removing any fire traps which may exist. They will also endeavor to take steps to prevent the collection or further occurrence of such fire traps.

Statistics issued by the Dominion government show that in 1918 Canada's fire loss was over $4 per head of the population. Together with the expenditure on protection, fires cost every family of five persons more than $40 in 1918. The figures further state that in 1918 there were over 17,600 fires in Canada and that 75 per cent of these were caused by carelessness and could have been avoided. A government circular further points out that "in 1916 there were 563 persons burned to death, 235 in 1917 and 261 in 1918. About 60 per cent of all fire fatalities occur in dwellings and the large majority of the victims are children under 12 years of age."

TRAIL RANGERS ARE ORGANIZED FOR YEAR

Organizing last night for the winter season, the order of Trail Rangers, at the Presbyterian church, held an initiation at which 12 candidates were admitted to the order. The initiation was conducted by Chief Ranger W. S. Stanley, Deputy Chief Ranger Charles Morris, Cache Rege Dill, Tally M. Campbell and Mentor Ernest Keatley, an artificial trail being provided, which figured prominently in the mysteries.

After the initiation the newly formed band elected officers as follows: Chief ranger, Ben Martin; deputy chief ranger, Bert Peebles; cache, Charles Hoare; tally, J. G. Shannon; mentor, Ernest Keatley. Meetings will be held weekly.

Y. M. C. A. TROUPE WIL VISIT BALFOUR THURSDAY

On Thanksgiving day, Monday next, the members of the Y. M. C. A. dancing and balancing troupe will pay their postponed visit to Balfour sanatorium to put on a display for the benefit of the patients there.

The party had expected to visit the sanatorium over a week ago, but owing to a mishap to the ferry it was found impossible to make the trip. It is expected the trip next Monday will be made by motor launch.

CHURCHMAN'S CLUB ELECTS FOR YEAR

The annual meeting of the Churchman's club of St. Saviour's church was held in the parish hall last night. T. L. Bloomer, retirin president, occupied the chair. The following officers were elected for the current year: Honorable president, Lord Bishop of Kootenay; honorable vice-president, Rev. F. H. Graham; past president, T. L. Bloomer; president, P. G. Morey; vice-president, Alf Jeffs; sec-treas., Nevil Shaw; executive committee, H. M. Cobbett; E. Woolls, G. A. King, E. W. King, Rev. Dr. L. P. Thatcher, W. Campion, D O. Thomas, A. S. Horswill, C. W. Busk, G. Glaser, R. G. Joy and H. Townshend.

PERS

Miss F. Mackay of Toronto is visiting her aunt, Mrs. N. G. McCallum, Nelson.

AT THE THEATRES.

One of the strongest photoplays seen here in many weeks is "Paid in Full" starring Pauline Frederick, the brilliant Paramount star, now showing at the Starland theatre.

Miss Frederick has the role of the patient wife of a shiftless clerk whose non-progressiveness keeps her in constant poverty. When he commits a theft the husband does not hesitate to send his wife to the man he has despoiled, caring little whether she sacrifices her honor to save him from jail. The wife finally adjusts the matter and when she leaves her husband for ever, he betrays his cowardice by commiting suicide.

The wife ultimately finds happiness in the love of a worthy man, which is as it should be. A charming play affording Miss Frederick a powerful characterization in which her artistry is never at fault.

BOLD MAN

"The Gadspurs had a quarrel this morning. It seems that in some matter pertaining to the dignity of the family Mr. Gadspur failed to show what Mrs. Gadspur regarded as the proper spirit, so she called him a mouse."

"And what did Mr. Gadspur say to that?"

"He said, 'I wish I was a mouse, my dear. I'd have you standing on a chair in no time'."

Many cannot drink coffee within four hours of bedtime and get their natural sleep. . . . . But bear this in mind, when a cheery evening table drink is wanted—

You can drink

POSTUM

without disturbance.

There's no caffeine in Postum, no sleeplessness or nerve irritation. . . And you'll be pleased with the flavor. . . Try Postum ten days and find out for yourself.

AUTUMN BLOUSES

This season the blouse has won a new place for itself in the fashionable woman's attire. No longer is it a subsidiary element in relation to the suit. It occupies a position all its own. The suit coat may be dispensed with and the blouse takes the place of honor at tea, luncheon or the matinee.

New models in Georgette and Crepe de Chine, daintily beaded or embroidered; others lace trimmed—all moderately priced.

PIMPLES ON FACE "CUTICURA HEALS"

Caused Disfigurement. Itchy and Burning. Had Restless Nights.

"My face came out in little pimples that were sore, and I scratched them constantly, and then they turned into scales, causing much disfigurement. The skin was so itchy that I irritated it by scratching. The burning was fierce, and I had many restless nights.

"This trouble lasted about a year before I used Cuticura Soap and Ointment, and after using three cakes of Soap and two boxes of Ointment I was healed." (Signed) W. Byrne, St. Basile, Que., Nov. 23, 1918.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations.

For free sample each of Cuticura Soap, Ointment and Talcum address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

Baby Loves It

It's hard to bring up a baby without MENNEN'S TALCUM POWDER. It relieves and cools his tender skin. It makes him "comfy" and happy.

Be sure it's MENNEN'S—then you know it's pure, sanitary and safe. For 40 years MENNEN'S has been the baby's best friend.

Mining and Markets

WALL ST. MARKET LIVELY YESTERDAY

Stocks Whose Movement Is Usually Restricted Lead the Movement

NEW YORK, Oct. 7.—Specialties dominated today's very lively stock market for the time, the movement comprehending a variety of issues, whose technical position and high price levels usually restrict dealings to limited proportions.

Activity centred in the oil, motors, equipment, leather, food and miscellaneaus groups, where a new high was made by Texas Company. Mexican Petroleum, General Motors, Kelly Springfield Tire, Endicott Johnson and Worthington Pump, were also active. These made gross gains of from three to 10 points, while National Biscuit advanced 14 points.

Some of these gains were severely impaired or entirely forfeited in the reaction of the last hour, when call money, duplicating its recent movements, rose to 12 per cent after the customary opening rate of six per cent.

United States Steel was conspicuous throughout the session for its backwardness. At no time did it advance more than a fraction, reacting 1½ points. It closed at a slight loss, as did a few affiliated shares.

Harvester, Baldwin Locomotive, General Electric and Westinghouse led the strong equipments, Hide and Leather preferred, American Woolen, Industrial Alcohol, Sears-Roebuck, Woolworth's and National Lead being included among the other strong stocks.

Demands for rails were again limited to minor or secondary shares, and shippings were prominent during the early and intermediate stages of the session, but fell back later, when Atlantic Gulf temporarily lost most of its advance.

Sales amounted to 1,450,000 shares.

Investments contributed to the strength of the bond list with transactions. Internationals also tended higher but Liberty issues were barely steady.

Total sales, par value $11,750,000. Old United States 2's declined ½ on call.

FOREIGN BALANCES NOT REQUIRED AT LONDON NOW

LONDON, Oct. 7.—The Bank of England has notified British banks that they will no longer be required to maintain foreign balances there. Existing balances will receive interest to Sept. 19. This action is due to the one per cent advance in interest on treasury bills to 4½ per cent from which the treasury expects to obtain sufficient money.

WINNIPEG LIVESTOCK

WINNIPEG, Oct. 7.—(By Dominion Livestock Branch).—With 2300 head of cattle on sale today trading was active from the beginning and continued throughout the day. Good demand for butcher steers found this class of cattle steady at 25 cents higher for good quality stuff, while common grades sold about steady. Butcher heifers and cows steady with Monday's close. Veal calves a shade easier with liberal supply. The market closed today with a strong tone on nearly all grades. Steers over 1200 topped at 12 cents with good proportion weighed up at 11.75. Butcher steers 1000 to 1200 pounds good quality ranged from 10.25 to 11.25, with common grades moving from 8.25 to 9.25. One even load of steers averaged 1160 pounds, contained 20 head and sold for 11.85, while one or two other drafts weighed up at 11.50. Steers choice 10.50 to 11.75, fair to good 9.25 to 10.25, medium 8.25 to 9.25, and common 7.25 to 8.00.

Butcher heifers, choice 9.25 to 10.25; fair to good 8.00 to 9.00. Butcher cows, choice 8.50 to 9.75, fair to good, 7.25 to 8.25, medium 6.25 to 7.00; canners and cutters 4.75 to 5.75. Bulls good 6.00 to 7.00, common 5.00 to 6.00. Oxen, medium 6.00 to 7.00, common 6.00 to 6.25. Feeders choice 9.00 to 10.25, fair to good 7.75 to 8.75. Stockers and heifers, choice 7.25 to 8.25, fair to good 6.00 to 7.00

Calves, choice 10.50 to 11.50, good 9.25 to 10.00, common 7.50 to 8.50 Sheep and lambs, good lambs 12.00 to 13.00, common lambs, 8.50 to 9.00, good sheep 8.50 to 9.00.

Hogs, selects, 17.00; heavies 14.00 to 15.00; lights 16.00 to 17.00; sows 13.00 to 14.00.

WAR LOANS

MONTREAL, Oct. 7.—Dominion war loan quotations: War loans 1925, 97¾; 1931, 98¾; 1937, 100.

Victory loans: 1922, 100¼; 1927, 102½; 1937, 104⅝; 1923, 100¼; 1933, 102½.

MINES MINISTER SLOCAN OPTIMIST

Says District oming Into Its Own; Asked to Further New Denver-Sandon Road

Returning from his visit to the Slocan, full of optimism, Hon. William Sloan, provincial minister of mines, declared before going aboard the Crow boat Monday night, that there was no doubt the Slocan was at last coming into its own.

While in the famous silver district the minister paid visits of inspection to several of the big properties, and was given the first-hand dope on others.

Entering the Silversmith—the old Slocan Star—on the tent level, Mr. Sloan explored the workings up to the eighth level, and, just after shooting, saw what Oscar White described as the prettiest showing he had seen in the Slocan in the last 16 years.

Clarence Cunningham's big concentrator at Alama is working well, Mr. Sloan reports, his flotation process working smoothly.

Good progress is being made on the 200-ton concentrating plant which is being built for the Noble Five, the Dunsmuir property, of a type similar to the A' ' o.

The minister also saw some of the sensational ore of the McAllister, which went 5000 ounces.

There is a great showing on the Surprise, and the Ivanhoe also looks well.

On the Standard, the former banner producer, steady work is going on, and new areas are being developed which give good promise.

"I always was an optimist on the Slocan," declared the minister, "and now I am a bigger optimist than ever."

While Mr. Sloan was in the Slocan representations were made to him that the district would much appreciate a road connecting New Denver with Sandon for both wagon and automobile traffic, also giving connection with Nelson by way of Slocan City.

Mr. Sloan said that he appreciated that this connection would be of great service to the district, and as far as he could do anything from a mining standpoint he would do all he could to assist it.

OPTION ON LARGE BLOCK OF SILVERSMITH SHARES

Accordink to a report from the Slocan, J. M. Harris, of Sandon has given an option on 250,000 shares of Silversmith common stock, at 20 cents per share, to a Spokane broker. The Silversmith, which is one of the deep mines of the Slocan, is the old Slocan Star.

MINNEAPOLIS GRAIN

MINNEAPOLIS, Oct. 7.—(Close).—Wheat: No. 1 Dark Northern 260 to 280; No. 1 Northern 250 to 260.

Oats: No. 2 White 66 to 69; No. 3 White 65½ to 68½.

Barley: 107 to 132.

Rye: No. 2 1.40 to 140½.

Bran: 36.00.

Flax: 445 to 450.

Flour unchanged.

CHICAGO GRAIN

CHICAGO, Oct. 7.—New declines took place in the corn market today, chiefly as a result of ideal weather and owing to the sharp break in the value of hogs.

Corn closed heavy ⅞ to 1¼ cents net lower, with December 122¾ to 122⅞, and May 121 to 121⅛.

Oats finished unchanged, ½ to ⅝ off. Provisions down 55 cents to $1.60.

ONE OF BUSIEST MARKETS OF YEAR AT MONTREAL

MONTREAL, Oct. 7.—Business on the Montreal stock exchange increased by 6000 shares over the preceding day, to 29,708, one of the largest totals for the year. The trend of the market was generally higher and many substantial gains were made. About 2500 shares of Lyall changed hands. After the opening, the price continued on the down grade as on the preceding day, and just before noon touched 115, a decline from the high of 45 points. Around noon the price advanced to 122, opened at 124 in the afternoon and closed at 123½, a net loss for the day of 10½ points.

Stock was offered at 123 at the close, with 121½ bid.

Atlantic Sugar advanced 4½ points to 66, and closed 2½ points net higher at 64. Canadian Locomotive sold from 97½ to 101½ and closed at the latter price, a net rise for the day of four points.

Carriage Factories continued the preceding afternoon's downward movement, receding a further three points to 27 in the morning, with stock offered at 26 and 28 bid. In the afternoon the asked price was raised to 28 without bids.

Brazilian advanced steadily to 55½ and closed at 54, a net gain of 3¼ points.

TORONTO EXCHANGE

TORONTO, Oct. 7.—Brazilian and Canadian Locomotive featured dealings on the Toronto Stock exchange today. Brazilian opened at 51½ and closed at 56. Canadian Locomotive opened at 97¾ and advanced to 101. The large business in Brazilian here was the result of the successful financial operations in New York and the activity in Locomotive was due to the resumption of work at the plant following the strike. Scattered trade at steady prices characterized the remainder of the market. In the war bonds, the fifteen year Victory's were active.

NOW DRIFTING ON EVENING STAR LEAD

Granite Dyke Cuts Down Rate of Progress—Reopen Silver Nugget in Spring.

Development work on the Evening Star property on Dayton creek, near Slocan City, is progressing favorably, according to Manager William Moore, who is in the city on a brief business trip. The mine buildings are all completed, and the winter supplies are now being packed up to the mine, which is at an altitude of 5000 feet.

In the workings, the tunnel found the ledge, which is now being followed in the direction which will eventually bring the tunnel under the shaft. A granite dyke, 20 feet in width, materially cut down the rate of progress in the drift, but the face is again in the vein, and the two shifts of hand drillers are again making good progress. The vein is now becoming mineralized, though the values as yet are insignificant.

Mr. Moore has been expecting that Hugh Sutherland, the owner of the Evening Star and of the Silver Nugget, would come this fall from Winnipeg on a visit of inspection, but Mr. Sutherland has not yet set a date for his trip.

Although it was originally Mr. Moore's intention to also reopen the Silver Nugget, he has now decided, on account of the advanced season, to postpone this to the spring.

METAL MARKETS

NEW YORK, Oct. 7.—Copper quiet. Electrolytic spot 23 to 23½; last quarter 23½. Iron steady and unchanged.

Metal exchange quotes lead steady, October 610 bid, 620 asked. Spelter nominal, East St. Louis delivery, spot 705 bid.

At London—Spot Copper £103 17s. 6d., futures £103 5s. Electrolytic, spot £113, futures £120. Tin, spot £282 2s. 6d., futures £282 12s. 6d. Lead, spot £26, futures £27.

STERLING EXCHANGE

NEW YORK, Oct. 7.—Sterling exchange steady $4.17 for 60 day bills and $4.20 for demand.

TORONTO LIVESTOCK

TORONTO, Oct. 7.—The local cattle market today had the usual light run of fresh offerings, but with quite active demand, everything, including hold over stuff from yesterday's market, was practically cleaned up at steady prices. For the choice butcher steers and heifers there was a little better tone to the market than yesterday. There was no heavy steers on the market, and probably none wanted, but for the handy choice weight butcher, it was in good demand.

Lambs firmed up the market being good and strong, at an advance of 50 cents to 75 cents.

Hogs nominally the same as yesterday, steady at $16.65 to $17.00 f.o.b., though as a matter of fact, there were no sale tickets marked up to noon, nothwithstanding the new government regulation requiring the sale price shall be marked on the weigh scale tickets.

Receipts for today at the Union Stock Yards were: 38 cars with 68 cattle, 393 calves, 784 hogs and 6306 sheep and lambs.

INSTITUTE TO MEET AT COAST SHORTLY

First Time Dominion Mining Body Has Come to Western Canada—General Program.

A letter from Prof. Edwin T. Hodge, of British Columbia University, general secretary of the Canadian Mining Institute, to F. A. Starkey, states that the annual meeting of the institute will be held in Vancouver on Nov. 26, 27 and 28, this being the first time that the annual gathering has come to western Canada.

"Those of us who are boosters and workers for this end of Canada will do everything in our power to make this one of the most successful meetings ever held, so as to induce other meetings to be held here," writes Mr. Hodge.

The subjects for the discussion of the opening day are coal and iron for the morning, and iron and steel for the afternoon. The second day will be devoted to copper, gold and silver, with a smoker in the evening. On the last day the convention will discuss in the morning the relations existing between the mining industry and the government, and in the afternoon the relationship of technical mining men to the public and their right to organize. Trips to the Britannia copper property, and to the coal fields at Nanaimo will take place on the day following the close of the convention.

W. D. Jennings, Sydney, N. S., was fined $600 for not filing his income tax return as required by the Income Tax Act.

MONTREAL PRODUCE

MONTREAL, Oct. 7. — Potatoes easy. Eggs strong. Butter strong. Cheese, finest easterns 25.

Butter, choicest creamery 56 to 57. Eggs, fresh 68; selected 63; No. 1 stock 56 to 57; No. 2 stock 52 to 54. Potatoes, per bag, car lots, $1.40.

NEW LIGHT CAST ON IRISH AFFAIRS

LONDON—If Mr. Frederick William Pim is a truthful man the whole world has been under a complete misapprehension with regard to Sinn Fein. Since Mr. Pim, who writes in the Nineteenth Century and After, was one of the founders or revivers of the Sinn Fein Society, he is in a position to know the facts. The story he tells is most interesting. It begins with Arthur Griffth, who as a clever young journalist began to edit a small Dublin weekly paper 17 years ago. While thus engaged he produced a book called "The Resurrection of Hungary," in which he sought to show how Ireland might make herself virtually independent of England, by following the example of Hungary in her relations with Austria. Though a policy of self-reliance by withdrawing her members from the Austrian Parliament, boycotting Austrian goods, developing her own industries and generally acting on the principle of passive resistance, she had been able to make almost whatever terms she demanded with Austria. Griffith used the words, "Sinn Fein," as the Erse equivalent for self-reliance.

"The Hungarian Idea"

The book had considerable popularity and resulted in attracting quite a number of thoughtful and wealthy people, and eventually a society was organized which was to attempt the application to Ireland of the "Hungarian idea," Mr. Griffith being the acknowledged leader and expounder. The association was immediately attacked by the Nationalists on the ground that it was formed of a lot of desperate and bloodthirsty men, but Mr. Pim strives to show that the Nationalists disliked Sinn Fein not because it was not extreme, but because it was not extreme enough. It acknowledged the authority of the King and its ultimate political aim was to bring about the repeal of the Act of Union. It is to be noted that the Sinn Feiner of today does not recognize any act of the British Parliament as legal with regard to Ireland and seeks to establish the independence of the country by revolution and civil war. The new movement gained ground until a by-election was fought on the issue, and the Sinn Fein candidate was beaten. Then, says our author, Sinn Fein died, and for seven years had no more influence than a philatelic society. It retained offices that were never used and had a membership of a few hundred, but as a political factor was extinct.

The Irish Volunteers

When the Ulster Volunteers were formed by Carson, some of the more hot-headed of the Nationalists began to organize the Irish Volunteers, and the body grew so rapidly that John Redman had to move cautiously with regard to it. He sought to have Nationalist delegates appointed to the central committee and was succesful, these delegates then, we are told by Mr. Pim, doing what they could to wreck the organization. When Redmond made his first recruiting speech on the advent of war, the Volunteers threw out his representatives. The secret objects of the Volunteers being thus exposed, namely, that they were German sympathizers, the membership of 250,000 immediately shrank to about 5000. It was then that Mr. Redmond nicknamed the Volunteers "Sinn Feiners" in order to associate them in the public mind with a society whose collapse had become a local proverb, although not one in ten of the Volunteers, it may be, had ever veen a member of the Sinn Fein society. Mr. Pim was asked to organize or reorganize the Volunteers, and undertook the task. When all the papers were suppressed except "The Volunteer," he launched a series af booklets called "Tracts for the Times," and these had a large circulation, though he does not tell us what their character was. The authorship was divided among Pim, Pearse, MacNeill, The O'Rahilly and Griffith.

The Easer Rebellion

In March, 1916, Pearse sent Pim the manuscript of the last tract nd asked that it be published without fail not later than April 17. This was done and when to Mr. Pim's alleged astonishment, the rebellion broke out, he understood the reason for the rebellion was the work of a very few persons and the following they had may be judged, he says, from the fast that "Nationality," the paper bought by all persons more or less sympathetic, but not necessarily believing in physical force, was never more than 7500 a week. The evidence would be more convincing if we assumed that all Sinn Feiners were literate. The author spent some time in an English internment camp, so whether he knew that a rebellion was in prospect, at least he was considered to have helped bring it about. On his return to Ireland he set about reviving the original Sinn Fein, and to achieve this end produced another weekly paper. Through this medium he gave the public, in tabloid form, the principles for which Sinn Fein stood, and made a success both with his paper and with propaganda.

No More Rebellions

Mr. Pim admits having taken advantage of the wave of Irish sympathy for the Sinn Fein victims of the rebellion, which ensured enthusiastic support of anything using the magic words, and thus has been able to lay Griffith's "Hungarian plan" before a tremendous number of people who before were ignorant of, or indifferent to it. Next de Valera appeared on the scene after his release from prison, and was hailed as a popular hero. His policy was that Englishmen must clear out of Ireland "bag and baggage," and he talked gloriously about "wiping out the British Empire." Mr. Pim says: "As the Irish Nationalists apart from Mr. Redmond's followers, consistently supported de Valera in his ten-foot-pike farce, it was brought home to me that the Southern Irish preferred wild talk to common sense, and were, consequently, racially childish." He is convinced that the majority in Ireland, while it will shout with the agitator, will vote against him. De Valera he regards as a dangerous fanatic. For Prof. MacNeill and Arthur Griffith he has the highest respect, and believes that the Easter rebellion will be the last in Irish history, if the Empire's rulers govern Ireland firmly and sanely.

MANITOBA GOVERNMENT TO ENFORCE MINIMUM WAGE ACT

WINNIPEG, Oct. 7.—The minimum wage act, in relation to the proprietors of the five restaurants in Winnipeg, which refuse to pay their waitresses in straight salary the amount of compensation ruled by the board, will be enforced to the limit, and if through a technicality, the proprietors are able to continue their present scale of wages, the act will be amended so that they will be compelled to pay the minimum wage of $12.50 per week. This was announced by the government.

NEW PRAIRIE PRODUCT

REGINA, Oct. 7.—Fine samples of binder twine and felt made from the fibre of Saskatchewan grown flax have been received by the provincial department of agriculture, from F. W. Van Allen, who has been conducting experiments begun in Regina and completed in Ottawa for the federal government.

TO PLACE 2000 MEN

REGINA, Oct. 7.—The Saskatchewan bureau of labor is in a position to place 2000 men in employment, according to Hon. C. A. Dunning. Special arrangements are being made to advance travelling expenses to men going to lumber camps from any of the government employment offices.

Long-Standing Evil

Effective Measures Taken

Since childhood Mr. A. Cail was under the shadow of a great evil, which always menaced his comfort and safety. Read what he says:—

"I was troubled with my kidneys since childhood and spent a large amount of money trying to get cured. Instead of getting better, I kept getting worse until a friend of mine advised me to try Gin Pills. I did so, and after taking one box, I was able to get out of bed and walk around. Two more boxes relieved me completely, and since then I have had no return of the trouble."

Many people have kidney and bladder trouble without knowing it. They think nothing of the backache, the pains in the sides, the constant headaches, the rheumatic, sciatic and neuralgic pains, the floating specks before the eyes, the swollen joints, the highly-coloured urine—all signs of trouble—all signs which should receive immediate attention and treatment with Gin Pills, which are by far the most effective of all preparations, and which may help you to avoid a fatal operation. They quickly relieve pain and heal the congested tissues, bringing the organs back to normal. At druggists and dealers, 50c a box. Money back if no relief. Send for free sample.

BUY VICTORY BONDS AND HELP THE DISTRICT

Kootenay and Boundary owes a duty to itself as well as to the country in connection with the Victory Loan Campaign which has begun. This part of the interior of British Columbia last year made a showing which gained for it a great deal of valuable publicity all over Canada. Its per capita subscriptions were not surpassed in any urban or rural district in the Dominion.

Kootenay and Boundary must this year live up to that record. As a district it cannot afford to fall down. As individuals we cannot afford to fall down as every dollar invested in Victory bonds strengthens the position of the individual making the investment as well as strengthening the district in which he lives. A man backed by an investment in Victory bonds is a better citizen in every sense of the word than one who possesses no estate in the country.

THE UNIONIST POLICY

Despatches state that in the policy which Sir Robert Borden submitted to the Unionist caucus there were five major headings. With regard to imperial matters Sir Robert proposed the maintenance of the British connection upon the basis of equal partnership with the mother country within the Empire. Second he proposed a revision of the tariff on a scientific basis. The third head covers trade and Sir Robert proposed the extension of foreign trade by the encouragement of ocean and railway transportation and the development of inland waterways and harbor and shipping facilities. He suggested that the labor policy of the Unionist party should be based on the principles set out in the labor clauses of the peace committee. The fifth head relates to defense and the prime minister proposed a standing army of sufficient size only to meet domestic requirements.

With regard to headings number one and five there is very little room for argument excepting of course by those who are not in favor of the maintenance of the British connection. There will be a pretty general approval of the proposal to revise the tariff on a scientific basis. It goes without saying that there are items in the tariff which can be changed to the advantage of the country but tinkering with the customs duties has never proved satisfactory. What the people want is scientific revision.

While in the published report no mention is made of the principle of protection, it may be taken for granted that the necessity for preserving Canadian industries will be fully taken into account in any policy which may be formulated by the Unionist party with regard to tariff.

Sir Robert Borden's proposal for the extension of foreign trade is in effect a policy for the development of domestic trade because that ultimately depends for extension, to a very marked extent, upon the increase of Canadian exports.

Principles incorporated in the labor clauses of the peace treaty have met with the approval not only of the leading statesmen of the allied countries but also of the most prominent allied labor leaders. They represent a progressive policy which this country should not hesitate to put into effect.

FINDING THE FUTURE

Naval construction never ceases. Nothing else that man builds ages quite so fast as a battleship.

The majestic pageant of today is the scrap heap of tomorrow. Scientific progress blasts more armament than war will ever destroy.

Admiral Lord Fisher, former first lord of the admiralty, is telling the British people that their grand fleet is obsolete. The grand fleet he looks for now is a species of mechanical hippopotami, and he confidently expects the same kind of craft for the merchant marine as well. Why? Because the destructive possibilities of air fighting makes submersible vessels a necessity.

Naval scientists are ever alert to heed new ideas. What the great war revealed of the possibilities inherent in man's striking prowess in the air and under the water set a fast pace for them, but they will keep up with it.

Recent books written by Sir Henry Newbolt and others show how much was done in naval warfare about which the public knew nothing. As the Montreal Star remarks new naval construction will have its surprises. And all the world has an interest in them because they represent the scientific advance guard of progressive humanity.

Lord Fisher lays emphasis on the possibilities of oil fuel. This means that, in the mechanical age now taking shape, oil is the determining factor. Men and nations will go forward slowly or swiftly, according to their appreciation of the advantages of oil for constructive achievement on land and sea and in the air.

The British navy's service to civilition is great in peace as well as in war. It leads the way and sets the pace.

Don Quixote D'Annunzio is the new name for the Italian poet.

Sir Sam Hughes says he raised 400,000 for the Canadian army. He raised more than that.

The Toronto Mail and Empire remarks that the German mark is in hot pursuit of confederate bills.

The stage is still set for the trial of the Kaiser but the villain of the piece continues among the absent.

ORIGIN OF THE DOLLAR

Now that a wider public is realizing the meaning of the American exchange, and is beginning to look anxiously at the daily quotations of the sovereign's equivalent in America, it will occur to many to ask themselves the origin of the word "dollar." Surprising to say, the word is of late enemy origin. Silver was found many years ago in Bohemia, at a village called Joachimsthal (the valley of Joachim), and the coin became known as a Joachimsthaler, which became abbreviated into thaler As the "h" is silent, it is easy to see the anglicization of the word in "dollar."—London Daily Express.

TRADING WITH GERMANY

That Germany is about to trade with the outside world, and must do so in the interests of all, is clear enough. Then with whom? French and American agents are already pouring across her frontiers, and American credits are being put at her disposal. It is absurd to imagine that we can afford to stand aside and neglect the new conditions which peace has produced. Whilst individuals may restrict social intercourse as long as they feel inclined, whilst we must take obvious precautions against anw permeation of our trade such as existed before the war, on the other hand it is absolutely opposed to our own and to all interests that Germany should remain an economic sore in Europe.—London Daily Chronicle.

THE ANGLING BOOM

A revival in angling is taking place. On the river banks there are more patient fishermen than ever before, and at the seaside resorts the angler has to arrive early to find room to cast his line. At a moderate estimate 2000 worms are drowned daily at Brighton. By all accounts the fish are showing proper gratitude for this increased interest in their diet, and reports of good "catches" abound. It is even said that some species absent from certain waters for years have returned to encourage their patrons.

A CLASSICAL FISH

That tunny, weighing 640 lb., which has been caught off Arran, belongs to a triple group of the mackerel tribe, some members of which weigh three-quarters of a ton. It is a fish of ancient lineage and respectable classical antecedents, for there are frequent allusions to tunnies and tunny-fishing in Greek literature. In their native Aegean the tunnies usually swim in large shoals, and are taken with nets, like pilchards but giants such as those which occasionally visit our coasts become unpopular with their smaller brethren, and are compelled to lead a solitary life. Salted tunny, which looks like beef, can be seen for sale in almost every sea-coast town of the Mediterranean, and just before the war a promising trade had begun in exporting it, tinned, to England.—Westminster Gazette.

A LESSON THAT MUST BE BURNED IN.

The Boston police strike is a matter of grave concern to the entire country. If unionism as applied to a great body of public employees, charged with the protection of lives and property should achieve a triumph over organized government, the immediate effect would be the unionizing in other cities of police and firemen to enforce demands for higher wages and shorter hours of work. That would be the only natural result of a successful strike. Policemen, firemen, and other classes of public employees who feel they are underpaid, are always tempted by the example of the organized industrial classes to employ the strike weapon as a method of compulsion. Dwelling upon their grievances rather than their duty to the public, they will the more easily succumb to this temptation if they have before them the spectacle of a great American city yielding to the exactions of its striking police force which has deliberately invited ruffianism to sustain its claims.—Brooklyn Eagle.

TRANSLATION'S PITFALLS

A member of the Bible Society recently dealt at some length with the difficulties attached to translation into obscure tongues. In the language of New Britain there is no word meaning "to forgive." In the Ibo language, current among 3,000,000 tribesmen in Southern Nigeria, the same word has to do for "might" and "right", while "servant" and "slave" are synonymous. There is a tribe in Papua which deems the seat of emotion to be the throat, not the heart. Hence "bad throat" means "sorrow," a "throaty" man is a wise man, and "to take the throat" means "to love."—London Daily News.

JUST COLLECTS

A Bolshevist cares nothing about collective bargaining. He omits the bargaining and just collects.—Washington Star.

AND THE NATIONAL HEALTH

With the daylight saving law in the discard, the farmers, of course, will sell their produce cheaper; but how about the gas and electric light bills?—Springfield Republican.

SALVATION VS DESTRUCTION

Strikes in the leading industries of the country at such a time are almost as much an offence against the nation as those in public service, national, State or municipal, which are actually treasonable. For the great task of recovery from conditions produced by the destruction of war and the burden it has put upon nations, the people need to do their utmost in working together, and not waste their time and efforts in conflict for gaining some supposed advantage over each other which would prove to be calamity instead of advantage.—New York Journal of Commerce.

BOXER DIES AS RESULT OF BLOW IN SQUARE CIRCLE

JERSEY CITY, N.J., Oct. 7.—Receiving a fracture of the skull when knocked down in a boxing bout tonight, Meyer Ellis, 20 years old, of New York died soon afterwards in a hospital. His opponent Wilfrid Doyle, of New York, was arrested on a technical charge of murder.

WINS BY DEFAULT

CEDAR RAPIDS, Oct. 7.—Wrestling before the largest crowd that ever attended a wrestling match in this city, Buzukos, San Francisco, won from Jack Reynolds, of this city, tonight by default. Bezukos won the first fall in 55 minutes with an arm scissors and Reynolds failed to come back having been injured in the bout a few seconds before Buzukos won the fall.

FAST 10-ROUND DRAW

BISEBEE, Ariz., Oct. 7.—In one of the fastest and cleanest 10 round bouts ever staged here, Chet Neff, of Seattle, and Al McManus of Los Angeles, fought to a draw tonight. Both boys were in fine condition and battled almost without a shade of difference through the entire mill.

SHOULD BE A NATIONAL SLOGAN

The principle of "more work and less talk" still seems to be distinctly applicable in this country.—Taunton Gazette.

SAYS RESULTS OF RHODES SCHOLARSHIPS DISAPPOINTING

LONDON, Oct. 7 (Canadian Associated Press). — The Manchester Guardian devotes a leading article to comment on a paper on the Rhodes scholarship by Dr. C. R. Parkin, who, it says, was one of the instruments chosen by Sir Cecil Rhodes to carry out his large schemes of Oxford scholarships, is disappointed with 14 years of United States results, which he explains by the fact that for various reasons, the scheme is not drawing from the United States good enough brains.

The Guardian observes that Dr. Parkin's careful and candid survey of the difficulties encountered, shows once more, like some of the experiences of the late Andrew Carnegie, how much more than good intentions and a great deal of money is needed in order to be efficiently munificent.

TO INVESTIGATE WALK-OUT

TORONTO, Oct. 7.—The strike of employees of the Toronto Electric Light Company, who walked out of their stations on the evening of September 1, last, thereby causing a tie-up of the street railway service at exhibition time, and forced thousands to walk home, is to be investigated by the federal authorities. Judge John Abron, of Stratford, has been appointed by the minister of labor as commissioner.

STOPPED HER HEADACHES

Years Of Suffering Ended By "Fruit-a-tives"

112 HAZEN ST., ST. JOHN, N. B.

"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine "*Fruit-a-tives*", made from fruit juices. I was a great sufferer for many years from *Nervous Headaches and Constipation*. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-tives".

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since". Miss ANNIE WARD.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

"Nuxated Iron Put Added Power Behind My Punch"

Says Jack Dempsey—Tiger Of The Ring

Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Tissue and Build RED BLOOD, STRENGTH and ENDURANCE.

THE SUPERMAN OF THE AGE

Since his overwhelming victory at Toledo when he wrested the World's Championship title from the Goliath-like Jess Willard, Jack Dempsey, the modern David and Miracle Man of the Fistic World—Jack Kearns, his manager, and Jimmy De Forest, his chief trainer, have been besieged with inquiries as to the methods employed in rounding him into such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations—Nux and Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy De Forest, the Champion's Chief Trainer, is quoted as saying: "For seven weeks previous to July 4th I was in sole charge of the training and preparing of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

The importance that the Champion himself places upon the part Nuxated Iron played in winning for him the highest laurels known in the athletic world is clearly shown in the following statement made by Jack Dempsey at his training quarters in Toledo, the scene of the big battle, when he said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should leave nothing undone that might help me to win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaughts of a giant like Willard. It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

Manufacturers' Note: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who predicted Dempsey's victory over Willard.

Jimmy DeForest, the Champion's Chief Trainer, tells here why he believes the use of Nuxated Iron by Dempsey contributed to his success.

QUALITY GOODS

Never in the history of the trade has the demand been so great for QUALITY GOODS, as it is at the present, owing principally to the high prices. We all insist on goods that will stand the wear and give the service.

Put Vim in Jaded Muscles

by stimulating and arousing the circulation with light applications of Absorbine, Jr., rubbed in thoroughly. This invigorating liniment acts quickly and surely. It is fragrant and pleasant to use—leaves no greasy residue on the skin.

As Absorbine, Jr. is a powerful germicide as well as a liniment, it is effective for prophylactic and aseptic uses; it destroys the germs in cuts and sores; it may be diluted and used successfully as an antiseptic and germicide for the mouth and throat.

Athletes will find it efficient for limbering sore, stiff muscles. A good formula for a rub-down is one ounce of Absorbine, Jr., to a quart of water or witch hazel.

It is composed of vegetable extracts and essential oils and is positively harmless. Get a bottle today and keep it in your desk, in your traveling bag, in your medicine cabinet or in the side pocket of your automobile. It is health insurance of a high type.

At most druggists or sent postpaid upon receipt of $1.25. Trial bottle for 10c in stamps.

W. F. Young, Inc., 445 Lymans Bldg., Montreal, Can.

MINES ARE REMOVED FROM THE NORTH SEA

WASHINGTON, Oct. 7.—Removal of the great North sea barrage laid by the United States navy during the war has been completed.

This was disclosed today when Secretary of the Navy Daniels made public a cablegram of congratulations sent to Rear Admiral Strauss, who commanded the force which since last October had been engaged in the task of sweeping the 50,000 mines from the sea.

Only one serious accident attended the work, one of the sweepers being blown up, with the loss of several lives.

CANADIANS AGAIN SHOW BRITISH HOW TO DO THINGS

LONDON, Oct. 7.—(Canadian Associated Press)—The recent railway strike brought about a smart piece of Canadian resourcefulness at Buxton depot. On Saturday 600 men were to join the Belgic at Liverpool and a special train had been arranged for Saturday morning, but on Friday evening it was cancelled. Col. Hanson, commander, and his staff, were determined not to be detained here and began organiging a road transport. By Saturday morning lorries were on hand. Saturday evening brought news that the last man was aboard the boat. At a civic farewell ceremony at Buxton on Thursday next, Colonel Hanson will plant a maple tree commemorating the Canadians' long and intimate association with the town.

DEWS OF EVE

No More Gentle Than "Cascarets" for the Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock-absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts. Cascarets give quick relief without injury from Constipation, Billiousness, Indigestion, Gases and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.

PROCTOR ITEMS

PROCTOR, Oct. 7.—Percival Coles, who is shortly leaving for the old country, was recently the guest of honor at a banquet and musical evening held at the home of Mr. and Mrs. S. W. Blackmore.

At the last meeting of the Farmers' Institute E. J. Chandler was appointed secretary to succeed P. Coles, the retiring officer.

"Watch Proctor Progress" is now the slogan.

Two more settlers arrived this week, Mr. Faux, from the prairie, who has bought the improved ranch of G. G. Holmes, and Mr. Carne, who has purchased a part of the Slevney estate. This property boasts a young orchard of several hundred trees.

At the general meeting of the Proctor Red Cross society on Oct. 5 the following officers were elected to officiate for the forthcoming year: Mrs. H. Severn, president; Mrs. A. G. Gallup, first vice-president; Mrs. E. J. Chandler, second vice-president; R. S. Frances, secretary-treasurer; F. G. Sammons, auditor. General committee, Mrs. G. McLean, Mrs. E. Merrifield, Mrs. H. J. Chowmat, Mrs. H. D. Ward, Mrs. S. W. Blackmore and Mr. P. Coles. The president, commenting on the work of the branch of the society, mentioned that since its inception there had been forwarded to headquarters 108 night shirts, 6 day shirts, 6 flannel shirts, 232 pairs of socks, 48 pairs bed socks, 159 suits pyjamas, 30 helpless jackets, 12 bed jackets, 12 trunk caps, 59 face cloths, and 45 personal property bags. The society has been advised by headquarters that only cash is needed in future, Proctor being asked to contribute $25 monthly. The society has a balance of cash on hand amounting to $42.75.

DANCE AT ROSSLAND

ROSSLAND, B.C., Oct. 6.—Prof. Helman is holding a dance in the Armory Hall on Wednesday evening, October 8. Dancing commences at 9 p.m. Eddie Hall Jazz Mixture Orchestra will furnish snappy music. An egg and spoon waltz competition will be a feature of the evening. Everybody welcome. A bushel of fun is in store. (4592)

QUESTION OF IRRIGATION CONSIDERED IN COMMITTEE

OTTAWA, Oct. 7.—The agricultural committee of the commons today gave consideration to the question of irrigation in the dry areas of the prairie provinces. During the discussion the important announcement was made by Prof. J. A. Grisdale, deputy minister of agriculture, realizing the importance of this matter, is undertaking to carry on a thorough inquiry into the whole question which may lead to important results.

W. A. Buchanan, of Lethbridge, who introduced the subject told the committee that crops to the value of $4,000,000 had been produced on irrigated land in the Lethbridge district, and emphasized the importance of irrigation.

Dr. Cowan and Mr. Argue pointed out that it was a matter which affects southern Saskatchewan as well as Alberta and drew attention to the fact that it was a problem in which the provinces as well as the dominion are interested.

WEARING DRESSES MADE OF LEAVES AND GRASS

PARIS—People in some of the villages of Southern Russia are wearing dresses made of leaves or grass, sewn together with bamboo fibre, owing to the difficulty in obtaining cloth, says Major G. M. Towse, who is in charge of the Red Cross activities along the shores of the Black Sea.

"It is an ideal costume for the summer, when Southern Russia has a temperature like that of the Garden of Eden," said Major Towse, "but I shiver when I think of what will happen to those little girls when the snow begins to fly."

The Red Cross is expected to distribute a shipment of clothing in Southern Russia before autumn.

PROFITS LIMIT ORDER IN EFFECT IN BRITAIN

LONDON.—An important food order comes into operation on Monday next, the new feature of which is the local control of trades, nt by fixing prices, but by limiting profits. The order is to be applied first in the Midlands and the commodities affected are fish, fruit and vegetables, on which the maximum gross profit permitted to retailers will be 35 per cent. The margin of profits has to cover all loss from wastage.

Little George Walton, of Lostock Hall, swallowed a half-penny and died before a surgion could remove the coin.

$30 A BARREL CHARGED FOR APPLES AT HALIFAX

HALIFAX, Oct. 7.—W. F. O'Connor, vice-chairman of the board of commerce, criticized the local milk dealers' association, at a hearing here this morning.

A member of the association had told Mr. O'Connor that this body had fixed the price of 15 cents a quart in November last year, whereupon the vice-chairman told this representative that at that time such price fixing was a criminal offence.

Complaints of high prices of various commodities were lodged before Mr. O'Connor by various consumers, one man protesting that ham in Hamilton, Ont., cost but 25 and 28 cents a pound, while in Halifax the consumer was charged 48 cents. Alderman Buckley said that small shops in Halifax were retailing apples at the rate of $30 a barrel.

SWEDISH LEGATION LOOTED

STOCKHOLM, Oct. 7 (Havas).—Dr. Hellner, the minister of foreign affairs, has received from private sources news that the Swedish legation at Petrograd had been looted by bolshevists. An inquiry has been opened.

BOARD OF COMMERCE WILL NOT SIT FOR A WEEK

WINNIPEG, Oct. 7.—Judge Robson chairman of the board of commerce will not return to Winnipeg until early next week, Harry Whitla, K.C., counsel for the board was informed by telegram from Ottawa tonight. Mr. Whitla had earlier in the day wired the commission asking if owing to the absence in the east of Judge Robson and James Auld, who has been acting commissioner in the city, the board would appoint some one else to continue the investigation. The sessions in Winnipeg will be accordingly suspended until next week.

NO NEW DEVELOPMENTS IN WINNIPEG CAR PROCEEDINGS

WINNIPEG, Oct. 7.—There were no new developments in the street car situation today and what next turn events will take depends on the proceedings in court tomorrow morning. T. A. Hunt, K.C., counsel for the city, will move for a permanent injunction against the increase of fares until the issues between the city and the Winnipeg Electric Railway company which involves the jurisdiction of the public untilities commisssioner to hear the application in vew of the contract of the company with the city, have been disposed of.

$25,000 BREACH OF PROMISE SUIT AGAINST GLOVE MAKER

TORONTO—In the action for $25,000 damages for alleged breach of promise brought by Miss A. M. McFarlane, of this city, against Griffith B. Clarke, president and managing director of A. R. Clarke and Company, Limited, glove manufacturers, Toronto, the plaintiff's statement of claim has been served on the defendant and she agreed in August, 1916, to get married, and the following month the defendant gave her an engagement ring. Immediate marriage was not possible because of certain provisions in the will of the defendant's father, so he told, she claims, and they kept company until August 9th, 1919. Then he broke his engagement to her, she says, and married a lady at Niagara.

Miss MacFarlane says further:

"Replying on the defendant's promise to marry the plaintiff as soon as possible, and by reason of her strong love and affection for the defendant, which the defendant stated was fully returned by him, the plaintiff complied with all his wishes and demands, and did not associate with other men, but gave herself and her whole time during the said period to the defendant exclusive of all other persons.

"In consequence of the breach of plaintiff has lost the said marriage and all benefits therefrom, and has been greatly injured in her health, feelings, affections and reputation, and has suffered degradation and dishonor as a result of the conduct of the defendant."

Griffith Clarke is well known locally in sporting circles, and was one of the leading participants in the motor boat races on the lake front in connection with the Canadian National Exhibition recently.

EXPLAINED.

Butcher—"This pound of butter you sent me is three ounces short."

Grocer—"Well, I misiaid the pound weight so I weighed it with the pound of chops you sent me yesterday."

The whole of a twenty-acre field of barley, belonging to John Richards, near Oswestry, was destroyed by fire.

Many a man who is sure he is right is unable to go ahead.

GIANT BLACK OPAL FOUND IN STATES

WASHINGTON.—America wins the palm for the largest uncut gem ever discovered. A giant black opal, flawless, devoid of any dimming matrix, and weighing, according to the balances in the office of the assayer of the treasury department, 16.95 Troy ounces, with a tiny fraction to spare, has been exhibited to a select few in the office of Secretary of the Interior Lane.

In color the new gem is a commingled glow of translucent greens and blues, very deep in tint, and is shot with flames of red. Roughly estimated the mass of the stone is 21 cubic inches. Its weight in carats is 2,572,332; in grains, 8136. No determination has yet ben reached as to its intrinsic value.

The nearest approach to America's record-breaking opal is the famous Viennese opal discovered in northern Hungary in 1770. That gem, not flawless as is the American "champ," is approximately two-thirds the size of the American find. The Viennese apal weighs 10.93 Troy ounces, or 1,658,327 carats, which, translated into grains, is 5,247,012. The mass of the Viennese stone is, roughly, 13 cubic inches.

The shape and apparent size of the American stone is like a quarter of a brick. Its length is 3 15-16 inches, its width 3 1-8 inches, and its thickness 1 3-16 inches. The Viennese stone, which is wedge shaped, is 4 3-4 inches long, 2 1-2 inches wide and its thickness varies from three inches to one-half inch.

The new stone is at present held by its possessors to be worth $250,000; at least that is what they have hoped it might bring in the gem market. It was discovered more than two years ago, but the discovery was not announced for the reason that in the emergency of war it was felt that the time was neither ripe nor seemly for the introduction of such a stupendous luxury to the ge mbuyers and gem wearers of the world.

FIFTEEN MILLION CAPITAL FOR NEW LOCOMOTIVE FIRM

TORONTO—Plans are being discussed in Toronto for the incorporation, with a capital of $15,000,000 of a concern to manufacture locomotives and engines. Already a number of Canadian and American investors have expressed their willingness to subscribe for stock in the new concern, and the representative of a group of New York financiers visited Toronto this week in connection with the proposed corporation.

The development of the Hydro-Radial projects throughout the province led to the promotion of the company, according to W. P. Young, of Toronto, who is attending to the detailsofincorporationicus? -ss ,.1S details of incorporation. It is expected that with the construction of the proposed radial lines between Toronto and London, in the Niagara, Hamilton and St. Thomas districts, and between Toronto and Bowmanville there will be a demand for electric traction motors. At present none of these ar built in Canada, and all the electric locomotives used on street railway lines and interurban lines in Canada are imported from the United States. The new company, if the incorporation is consummated, will specialize at first on a locomotive of the type now used on the London and Port Stanley radial. Later street cars will probably be manufactured, as well as electric engines of other types. The plant will be equipped for the manufacture of steam locomotives also if the development of Canadian railroads makes this business sufficiently profitable.

Factory Being Sought

At the present the local promoters of the scheme are looking for a suitable plant for the manufacture of their products, but if a properly equipped factory can not be found, a new factory will be erected at a cost of $3,000,000, probably in the arbor Commission's Industrial Area.

The majority of the stock will be held in Canada, but until a general meeting of the promoters is held early next week, the proportion of capital to be subscribed by Canadian and American interests will not be definitely known. There will probably be a public offering of stock.

It is known that the proposed company will seek some sort of affiliation with the Baldwin Locomotive Works of Philadelphia, but no final arrangements have been made with the latter corporation. The Baldwin company is capitalized at $40,000,000 and manufactures about 3000 locomotives yearly.

BUSINESS LEAING PRE-WAR RECORDS FAR IN THE REAR

OTTAWA.—Everyone's hope that Canada will never fall back to pre-war standards, runs a splendid chance of being realized. Bank clearing records, most reliable of all business indices, are away up this year. Not only topping the best of the pre-war years by more than 50 per cent, they are exceeding the best of the war order months by 20 per cent.

Clearings, which are a sure barometer of the amount of business Canadians are doing one with the other, and with people outside the country, will approximate fifteen billion dollars in 1919. For the first eight months of the year they had reached ten billions, with the best business months of the year still to come.

The figures, which represent millions, for this and last year, are as follows:

	1918	1919
January	1,022	1,193
February	838	1,008
March	950	1,121
April	1,125	1,212
May	1,138	1,413
June	1,139	1,340
July	1,114	1,410
August	1,072	1,296
September	1,042	....
October	1,373	....
November	1,433	....
December	1,515	....
	13,776	9,996

In ten years the bank clearings have almost trebled. In eight months of 1919 we exceeded the best pre-war year by almost a billion dollars.

Topically applied, the lesson of the bank clearing figures is that Canadians are in splendid shape to share the Victory Loan. Every subscription to the loan will buy a continuance of the good times which Canadian are enjoying.

FINED FOR HAVING MASH

OWEN SOUND.—Frank Coture was fine $200 and costs this morning for having in his possession a mash capable of making spiritous liquor. The charges were laid under the Inland Revenue Act, and the Ontario Temperance Act. H. G. Tucker, the counsel for the defence, pleaded for the minimum fine, but Police Magistrate Creasor imposed the larger amount, stating that he was determined to stamp out the manufacture of the rotten stuff.

'SYRUP OF FIGS'
CHILD'S LAXATIVE

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels

NORTH AND SOUTH HIGHWAY DEVELOPS

Big Link From Bonners Ferry South Next Year; North Section Surveyed

What will be one of the main highways between the West Kootenay and the territory south of the line, the north and south road through Bonners Ferry, Idaho, is to come in for a large measure of construction work, to start first thing in the spring, according to the current issue of the Kootenay alley Times, of Bonners Ferry. This is the highway that was prominently mentioned at the recent Creston banquet to the Nelson visiting delegation, as one of the two great routes from the south into the West Kootenay, the other being by Rossland.

The Idaho newspaper notes that official assurance is given that both federal and state appropriations have been allotted for the section of the international highway from Bonners Ferry south, and that construction work will start April 1.

Regarding the northern section, between Bonners Ferry and Port Hill, on the boundary, the survey of the unconstructed portion, which is that fartherest north, has now been completed, and the state highway engineer, who is quoted by the Times, urges the district to put its congressional influence behind the bill for a federal appropriation of $100,000 annually for four years.

It was pointed out at Creston that in a matter of a couple of years this through highway will be linked up with the Creston road system, provided one short link is constructed, and that in that event the tourist traffic that will be ready to pour into the West Kootenay will make the link from Sirdar to Kuskanook, for cars trans-shipping to Nelson, doubly important.

FISHERIES OVERSEER BACK FROM EAST KOOTENAY VISIT

C. H. Robinson, Dominion fisheries overseer, has returned from a tour of Fernie and Elko districts. While there he inspected the waters with the view to restocking them with fish next spring. Mr. Robinson says the Fernie Rod and Gun club is a real live, boosting organization. It has a membership of in the vicinity of 300 and is doing everything in its power to protect the game and fish and further the interests of sport in its district, he states.

Mr. Robinson expects shortly to make a tour of the Slocan and Arrow Lakes districts.

ANNUAL FAIR YIELDS A HANDSOME PROFIT

Fair Board Will Clear Five Hundred to Six Hundred Dollars; Reduces Note at Bank

Clearing between $500 and $600 on the recent Nelson fair the Nelson Agricultural society has made a substantial reduction in its note at the bank, and, when all accounts have been paid and all subscriptions have been realized on will later make a further reduction. The note for $1100 fell due at the Imperial Bank yesterday, and was renewed for $650 for three months, when the further adjustment in accordance with the actual balance will be made.

Collections made by the finance committee consisting of J. E. Annable, A. D. Emory, F. J. Boles, R. G. Cox and J. W. Holmes, amounted to $58[illegible].

These facts were reported at a meeting of the fair board held Monday night. The board voted $200 to the secretary-treasurer, and $50 to the stenographer.

Those present at the meeting were President J. W. Holmes, Secretary George Horstead, Mrs. C. V. Gagnon, A. W. Nagle, R. V. Ramsden, A. M. Black, William Irvine, F. J. Boles and R. G. Joy.

Mr. and Mrs. E. Maccagno, who have been residents of Nelson for 12 years, keeping a fruit shop at the corner of Hall and Vernon streets, disposed of their household furniture at private sale yesterday and will leave this morning for Spokane. They will make their home with their son, Charles, in the Coeur d'Alene.

The Best Cough Syrup is Home-made.

Here's an easy way to save $2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex (50 cents worth); then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for $2.50.

It's really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

HAD SUFFERED 14 LONG YEARS

"I've Found Right Medicine At Last," Says Skelton—Health Restored

"I tried for fourteen long years to find a medicine or treatment that would relieve me of my suffering but all my efforts failed me completely until I commenced taking Tanlac," said W. A. Skelton who lives at 614 Seventh Ave., Calgary, while talking to a Tanlac representative the other day.

"You will have to go a long way to find a medicine to equal Tanlac," continued Mr. Skelton. "I have spent piles of money for different medicines that were recommended to relieve my kind of trouble, but Tanlac is the only one I have yet found that will do just what they say it will do. No man ever suffered worse from rheumatism and kidney trouble than I did. Sometimes I would be laid up for weeks at a time and not able to hit a lick of work. I had awful pains in my back, and the leaders and muscles would get so sore and stiff I could hardly bend over. I also suffered from indigestion a great deal and just kept going down hill until I was about all in.

"One day I heard about a man who had suffered just like I did, and he had been greatly relieved by taking Tanlac, so I made up my mind to give it a trial. It didn't take long to convince me that I had found the right medicine at last, so I just stuck to Tanlac until I had taken seven bottles, and the result is, I am as well and strong now as I ever was. The rheumatism is a thing of the past, and so are the pains in the small of my back. My appetite is fine and I never have a sign of indigestion. In fact, my troubles have been completely overcome, and my entire system has been greatly built up in every way. There may be better medicines in the world than Tanlac, but I don't believe it. Any way, I am satisfied to stick to Tanlac and as long as I live I will praise it for the good it has done me."

Tanlac is sold in Nelson by Canada Drug & Book Store and by the leading druggist in every town.

NELSON, B. C.

JIM was a lineman before the war. It was difficult to find a uniform broad enough across the shoulders for him when he "joined up" in 1914.

Jim found army discipline hard at first, but picked up the "war business" very quickly. He was one of the first of the "trench raiders," a Canadian contribution to the art of warfare. Jim seemed to bear a charmed life. Time after time in the dead of night Jim jumped into a German trench, spreading fear and disaster, and returned safe and sound.

But one fell night his luck gave out. He stepped into a stream of machine gun bullets. When consciousness came to him again, far in the rear of our lines, he was horrified to find his right leg missing.

During the ensuing months Jim's progress was —Clearing Station,— Boulogne,— "Blighty" and Home—Canada!

The shock of the operation left Jim pretty weak for a time. He was content to sit idly in a chair in the sun. But this grew tiresome after a bit. When he began to think about getting back to work he realized that a lineman with an artificial leg was rather impractical. That was his trade. He had spent years at it. And now he was barred from following it.

At this critical juncture, the Department of Soldiers' Civil Re-establishment came forward and with knowledge and experience pointed the way out.

After long and earnest discussion, it was mutually decided that the nearest thing to his old trade was that of a telegrapher despatcher. If Jim couldn't any more string wires on the poles he could learn to send the messages over the wires that the other fellow put up. So under the direction of the D.S.C.R. telegraph instructor Jim studied and perfected himself as an operator. This accomplished, the D.S.C.R. quickly found him a position.

Jim is all right now. He's contented as only a man who works can be contented. He is earning more money than before. His enthusiasm is high for the D.S.C.R., which gave him the training whereby he is again an independent and prosperous citizen. After all, it was for Canada that Jim fought and suffered —and Canada is only too eager to repay Jim and every man impaired in body or health through service to his country.

* * * * * * * * *

The records of the Department of Soldiers' Civil Re-establishment contain endless details in the matter of re-training ex-soldiers—a disabled farm laborer is now a machinist; a carpenter who lost four fingers on his right hand is now a draughtsman at a good salary; a former plasterer is now a printer. So it goes—a long and interesting record of men deprived of limbs or impaired in health—equipped with training and knowledge, now following new and suitable trades.

Department of Soldiers' Civil Re-establishment

Brief summary of the work to August 31st, 1919.

VOCATIONAL	
Total number of retraining courses undertaken	17,449
Variety of occupations taught	260
Total number of men now in training	11,484

INFORMATION AND SERVICE	
Total number of applications for employment	68,873
" " " placed in employment	61,278
" " " enquiries answered re soldiers benefits	245,103

This great nation-wide organization of the D.S.C.R. requires a considerable expenditure. To meet its expenses a part of the Victory Loan 1919 is to be used. But its maintenance, until every disabled ex-soldier is fitted with a vocation enabling him to earn for himself an adequate and independent living, is one of the most sacred obligations that Canada has to discharge. Support to the limit of your ability—the

VICTORY LOAN 1919

"Every Dollar Spent in Canada"

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

REDS NOT SO SURE OF WORLD PENNANT

Sixth Game Taken by Sox by Score of 5 to 4; Series Now Stands Four to Two

CINCINNATI, Oct. 7.—The person who was directed yesterday to shine up the pole at Redlands Park and measure it for the world's championship bunting slid down the shaft a bit today and the measuring was postponed. The reason was that as the Chicago White Sox did not dare lose today's game, for with it would have gone the championship, they overcame a lead of four runs and by delivering one more run in the tenth round won the game, 5 runs to 4.

It was a contest replete with thrills and heartbreaks, varied by some weird fielding, snappy base running, mighty clouts and catches, and in short, practically everything relating to baseball.

Was Cincinnati's Game

Cincinnati looked like a certain winner in the third and fourth rounds, in the course of which four Reds crossed the plate. In the 5th, however, the Sox turned two passes and a single into a run, and in the sixth two doubles and two singles were the major factors in the three runs which tied the score.

To Buck Weaver, sterling third baseman, who wielded a mighty stick in the game, fell the distinction of recording the winning run in the 10th.

He was the first man up and doubled to centre, his second two-sacker of the game. The partisan crowd became hushed and then began to shout encouragement to Ring, who had displeased Reuther as pitcher for the Reds. Jackson tried a bunt and missed but on a second attempt the ball dribbled a few feet down the third base line and while the ball was perfectly fielded, Jackson crossed the initial sack with time to spare, Weaver landing on third. "Happy" Felsch, who had delivered a double in the sixth, struck out, but Gandil, who had previously delivered nothing, singled and Weaver scored.

In their half of the 10th the Reds went out in order and the day closed with the series standing four victories for Cincinnati an dtwo for Chicago.

Chicago Players Determined

The Cincinnati team entered the field confident that they had so drubbed the visitors that the last ounce of fight had departed from them. The latter, however, had been hauled over the coals in unmistakable fashion by Manager Gleason during the morning and they came on the field looking determined enough to win. The crowd gave Reuther a rousing welcome, but although he held his adversaries hitless during the first three innings, experts noted that the Sox were slugging them savagely into the outfield or sizzling them down the foul lines in a way that was not present in the first game. There were some out in the 6th when Manager Moran, more in sorrow than in anger, beckoned Reuther to the bench and Jimmy, a right-hander, who pitched the Reds to a 2 to 0 victory at Chicago, was called on to save the day. He was wild but effective until the 10th, aided by some sparkling fielding. Dick Kerr, who pitched Chicago's only prevous victory to a 3 to 0 shut-out at Chicago, was gain called upon by Manager Gleason and although 11 hits were scored against him he was steady in the pinches, and kept them well scattered save for his two bad innings.

Ray Schalk, who was banished yesterday, was back in the catcher's box, and J. Collins started the game in right field for the Sox, but was disabled in the 7th inning by Liebold, as Ring, a right-hander, was pitching.

City Engineer Jones, Brantford, announces that for the third time in the city's history building permits will go over the million mark.

BOTH MANAGERS ARE CONFIDENT

CINCINNATI, Oct. 7.—Pitching selections for the seventh game of the world's series scheduled for Redland Park tomorrow are generally believed to be Cicotte for Chicago and Sallee for Cincinnati.

"Slim" Sallee, who defeated the Sox 4 to 2 in the second game og the series, probably will be Manager Moran's pitching choice, although he may decide to give Luque, the Cuban pitcher, a chance to face the White Sox.

Sallee was batted hard in the second game, the Sox getting 10 hits, but only scored two runs.

"Today's game was a heartbreaker for the Reds to lose," said Manager Moran tonight. "We should have won it half a dozen times. But the strain of the world's series is beginning to tell on my players and they were a bit unnerved. They will regain themselves tomorrow and wind it up."

"Kerr pitched more balls than either Reuther or Ring," he said. "He demonstrated his gameness when he pitched himself out of a couple of tight places and got some poor support. It is possible that I shall start Sallee against the Sox tomorrow.

"The Sox have hit their winning stride and although tremendous odds are against us, we are far from out of the running," sad Manager Gleason. "The players have begun to hit and it will be a different story from now on. They slammed everything Reuther and Ring had today and will do the same thing tomorrow to Sallee if he pitches.

"Despite the fact that the breaks were gainst us we played a better game of ball than the Reds. We should have cinched the game in the eighth only for Rousch's lucky catch of Risberg's liner. It would have gone for a double sure and we would have scored two hits. I am proud of Kerr's pitching. He possessed extraordinary pitching skill and displayed remarkable gameness.

"I have every confidence that Cicotte can beat Cincinnati and may start him tomorrow if I think he is right."

GEM, FRIDAY AND SATURDAY

"The Million Dollar Dollies!" The very title suggests luxury, daintiness, refinement—fascination. All of these are realized in this Metro screen production de luxe which will be seen at the Gem theatre on Friday and Saturday. And when one discovers that the "Dollies" in question are the famous Dolly Sisters, Roszika and Yancsi, Broadway's celebrated dancers, "the plot thickens."

The charm of these clever girls permeates the entire production, which has been prepared with an Oriental splendor in keeping with the brilliant story that has been written to display the talents of the Dolly Sisters. It reads like a chapter from the Arabian Nights, and deals with a Rajah and a Maharajah, an Indian Palace, and other exciting things. The Dollys swim, dance, and otherwise disport themselves daintily in beautiful and glittering apparel. And there is a love story.

Roszika and Yancsi impersonate themselves in this five-act succession of marvels, and naturally no one could improve on that. They are surrounded by a capable cast in production of excitement and charm.

"The Million Dollar Dollies" will be shown at regular prices.

The charried remians of Frank and Victor Wanoleski, Galician laborers, were found in the ashes of their shack at Battrum, near Swift Current, Sask.

Ranches

Grand Forks Valley

I have some splendid listings in this Valley which I can recommend.

I. 47 ACRES about 3 miles from Grand Forks, 20 acres has been under cultivation. Dwelling and outbuildings have not been occupied for some time. This is the makings of a good Ranch but on account of being run down can be purchased for $1,000.00 cash. Clear Title.

II. 5 ACRES all cultivated, 125 trees, 6 years old, good up-to-date barn; 4 room dwelling, concrete cellar, water piped. A nice home, and worth the money. $3,000.00.

III. 10 ACRES all in orchard trees 7 years old and commencing to bear this years crop over 300 boxes clean apples. Water piped through orchard with stand pipes. Close to city and one of the best in valley at the price $3,000.00, on terms to suit purchaser.

IV. HERE IS A GOOD ONE—27 ACRES, close in, 350 bearing trees, 1800 strawberry plants, 1½ acres in alfalfa, 5 roomed plastered dwelling, large up-to-date barn, garage, root cellar, etc. A good buy $8,500.00 on terms.

Call and get full particulars. I have a branch office in Grand Forks, and am ready to do business at any time.

CANADA'S FIRE LOSS

amounted to $33,800,000. This was $92,600 a day, $7,717 per hour, or $129 per minute.

In order to have the wishes of the Dominion Government carried out the City Council desires the Mayor to request the Citizens to observe

Wednesday Afternoon, October 8

as a

Fire Prevention Half Holiday

for the purpose of clearing up all rubbish and inflammable material from their backyards, attics and basements.

The Government considers this a
