VOL. 17 No. 26 — NELSON, B. C., TUESDAY MORNING, MAY 14, 1918 — 50c PER MONTH

CHIEF BLACK IS RELIEVED

Government Announces the New Order

9 POLICE HEADS LOSE POSITIONS

J. McDonald of Vancouver Succeeds Nelson Pioneer

(By Daily News Leased Wire.)

VICTORIA, May 13.—Nine members of the provincial police department, some of whom occupied prominent positions, have been relieved of their duties by an order-in-council just passed. This action was taken in pursuance of the plan for reorganizing the department. Those affected are Inspector Wynn of Victoria, Detective George Green of Vancouver, Chief Constable Black of Nelson, Chief Constable Simpson of Greenwood, Chief Constable C. Cameron of Ashcroft and Constables G. H. Sproule of Princeton, J. H. Hutchins of Ocean Falls, G. Hannay of Courtenay and G. S. Blue of Hope. Some of the positions have not yet been filled but in other cases, by transfering present members of the department, the vacancies have been supplied. Constable R. W. Bowen of Keremeos has been transferred to Ashcroft as acting chief constable and Chief Constable J. A. Fraser of Vernon goes to Greenwood. Constable G. A. Carter of Creston will be moved to Vernon as acting chief constable. Constable J. McDonald of Vancouver will succeed the former chief at Nelson. Constable A. Macneill of Fernie has been appointed acting chief constable in succession to Chief Constable Welby, who recently resigned.

While the office of chief game inspector for the province, a new position provided for under the amendments to the Game act, has not yet been definitely filled, it is likely to go to Richard Gidly, who for the past eight years has been chief game warden of this district. He will be subordinate to Superintendent McKim of the provincial police, who will be also head of the game department.

Former game wardens who have been reappointed as provincial constables are: J. Carter, Luxton; R. Russford, Cumberland; F. H. Butler, Golden; A. P. Cummings, Sardis and R. E. Hope, Vancouver.

Chief Black's Statement

Chief Constable Black, for 19 years a member of the provincial police force in New Denver and Nelson, expressed surprise when informed of the telegraphic statement from the capital.

"It is news to me," the chief said. "I have received no intimation of any kind that I was to be relieved."

"I have been in the service continuously and have not missed a day."

"Well, I'm going to sleep anyway and there may be something in the mail in the morning."

TWENTY LOGS CRUSH FERNIE LUMBERMAN

(By Daily News Leased Wire.)

FERNIE, B.C., May 13.—A fatal accident occurred this afternoon at Olson, 12 miles east of here, when John K. Limluk, employed by the Elk Lumber company, while loosing a jam at a rollway was instantly crushed lifeless. Twenty logs crashed upon him.

EDWARD SHORTT IS ELECTED FOR NEWCASTLE

(By Daily News Leased Wire)

LONDON, May 13.—Via Reuter's Ottawa Agency.—Edward Shortt, chief secretary for Ireland has been returned unopposed for Newcastle, in the byelection made necessary by his accepting a post of emolument under the crown as a cab'net minister.

CONTINUE C. N. R. INVESTIGATION

I. F. Hellmuth Argues Before the Board of Arbitration in Day's Hearing

TORONTO, May 13.—Discussing the financial situation at the time the Dominion government assumed the control of the Canadian Northern railway, I. F. Hellmuth, K.C., continuing his argument before the Canadian Northern railway board of arbitration today, dealt with the cause of the delay in fruition for which this undertaking was constructed and the reason for placing the property in jeopardy. Sir William Meredith did not believe these points had any bearing upon the issue before the board, but Mr. Hellmuth contended that it had been brought out by the government witnesses in the course of the evidence that the program of betterments suggested by the Coverdale report, prepared for a syndicate of New York bankers, could not be carried out in view of the financial situation of the vendors and the abnormal cost of materials.

Mr. Hellmuth said there was no evidence to show that Mackenzie & Mann was not in a position to tide over the matter.

He also called attention to the fact that Sir Donald Mann had admitted that the Canadian Pacific railway had expressed a willingness to take over the Canadian Northern railway, providing it obtained it on a 100 per cent basis, which deal had been blocked by the Dominion government refusing to dispose of its stock in the road.

Sir William Meredith said that the road was practically in bankruptcy when Mackenzie & Mann, controlling the majority of the stock, appealed to the government for further financial assistance.

INTRODUCE EMIGRANT HELP BILL IN ENGLAND

(By Daily News Leased Wire.)

LONDON, May 13.—(Via Reuter's Ottawa Agency.)—Right Hon. Walter Hume Long, colonial secretary, in the house of commons introduced a bill to improve the organization for affording information and assistance to emigrants from the United Kingdom; providing for a central emigration authority and supervision and control of passage brokers, their agents and emigration societies and for purposes connected therewith.

BERLIN TELLS OF CHARLES' VISIT

Hope to Strengthen Alliance Between Hunland and Austria-Hungary by Conference

BERLIN, May 13, via London.—The chief features of an agreement to strengthen the alliance between Germany and Austria-Hungary have been laid down, says an official statement issued here today in regard to the visit of Emperor Charles to German grand headquarters. The statement follows:

"Emperor Charles visited Emperor William at great headquarters on Sunday. In addition to his personal suite, the emperor was accompanied by Foreign Minister Burian, Field Marshal von Arz, chief of the general staff, and Prince Hohenlohe. Germany was represented by Chancellor von Hertling, Field Marshal von Hindenburg, Gen. von Ludendorff, Foreign Secretary von Keuhlmann and Count von Wedel, ambassador at Vienna.

"A cordial discussion took place and all the fundamental, political, economic and military questions affecting the present and future relations of the two monarchies were thoroughly discussed. There was complete accord on all these questions tending to deepen the existing alliance. The guiding lines of the ontemplated contractual agreements already exist in principle."

HUN GENERAL WANTS TO BOTTLE RUSS FLEET

(By Daily News Leased Wire.)

MOSCOW, May 13.—British Admiralty per Wireless Press.—The commander in chief of the German troops in the east replying to the Russian request for cessation of hostilities on the Ukrainian front, says that German troops, in accordance with terms of the Brest-Litovsk treaty, have cleared the Ukraine of Red Guards and that it should be possible to do so everywhere along the Ukrainian frontier. The commanser in hiief said he only agreed to the cessation of naval operations against the Black sea fleet, provided all ships returned to Sebastopol and were retained there. Then the port of Noverossysk would be opened free to navigation. He claimed that the Black sea fleet more than once had participated in the fighting against German troops in the Ukraine.

ROTHWELL BELIEVES CERTAIN MATES INCOMPETENT

(By Daily News Leased Wire.)

WINNIPEG, May 13.—That there are a number of young men at Ottawa holding mates' certificates, who have been put into the naval department to avoid conscription, was the opinion expressed today by Major F. R. Rothwell, Ottawa delegate and permanent chairman of the convention of Army and Navy Veterans now in session here.

"These men, therefore, in my opinion," said Major Rothwell, "are trying to avoid conscription. They are sons of prominent and wealthy men in most instances. They hold mates' certificates and they couldn't navigate a 'bum' boat.'

There was strenuous discussion for active and associate membership. It was finally decided that active members must have seen active service or have been six years in the regular force or nine years in the active militia.

Consideration of the legislation for a Dominion-wide organization of the veterans will continue into Tuesday's sitting.

112 I. W. W.'S FACE SERIOUS CHARGES IN U. S.

(By Daily News Leased Wire.)

CHICAGO, May 13.—Letters seized from the private files of branch offices of the I. W. W. containing statements relative to the anti-war campaign were identified by the prosecution today at the seditious conspiracy trial of 112 leaders of the organization. These letters intended to prove government charges that the organization entered into a conspiracy, nation-wide in scope, to block American war plans and told of results being obtained in factories and other industries.

"We are making a grand drive on the factories with the leaflet campaign and if the ammunition holds out we will be able to give the bosses that which the Germans gave the Serbians"

AMERICA WILL MAKE BIG RATE INCREASE

(By Daily News Leased Wire.)

WASHINGTON, May 13.—Estimates made today by railroad administration officials indicate that an increase of at least 25 per cent in freight and passenger rates this year in order to meet the higher cost of fuel, wages, employment and other operating expenses, now set at between $600,000,000 and $750,000,000 more than last year.

Recommendation that rates be raised approximately this percentage was made to Director-General McAdoo by his advisors. He is expected to act within the next six weeks and to put increases into effect immediately.

SATISFIED WITH DEAL WILSON GAVE HIM

SIR THOMAS WHITE,
who has been in Washington with reference to money matters.

NEGOTIATIONS PROCEED

(By Daily News Leased Wire.)

OTTAWA, May 13.—It is learned that Sir Thomas White, minister of finance, feels well satisfied with the progress made in dealing with the several questions which he has been taking up at Washington, although full results in regard to the matter of exchange may not immediately appear.

ARMY POLICY REPORT WRONG

London Declares That Statement About American Army Was Absolutely Unfounded.

(By Daily News Leased Wire.)

NEW YORK, May 13.—Before announcing tonight that the statement sent out last evening from Ottawa to the effect that American troops would not be used on the western front until it became a complete and powerful force, had been officially declared in London to be due to an error, the Associated Press carried the following under a Washington date:

"American officials are inclined tonight to characterize reports from London via Ottawa that American troops would not be used until a complete and powerful American army had been developed in France as an echo of the political controversy precipitated in England by the incident of Gen. Maurice. They could see no other explanation since the statement attributed to the "war committee" of the British war cabinet was promptly repudiated by Lord Reading, British ambassador, and later declared by Secretary Baker in a formal statement to be at absolute variance with the facts as known here."

Lord Reading's statement said that he was confident no such announcement had been issued with the knowledge of Premier Lloyd George, adding that the views of the British government, which he was transmitted, were exactly opposite. Secretary Baker said American troops were now being used in battle and would continue to be used as the supreme commander, Gen. Foch, deemed best.

BRITISH COMMONERS TURN DOWN "P.-R." SYSTEM

(By Daily News Leased Wire.)

LONDON, May 13.—The proposal to make an experimental trial of proportional representation in 100 selected parliamentary constituencies, which was tentatively arranged when the electoral reform bill was adopted recently, was rejected by the house of commons tonight by a vote of 166 to 110. This decision finally disposes of proportional representation so far as the present parliament is concerned.

CATEGORY B2 MEN STAY ON FARMS

(By Daily News Leased Wire.)

WINNIPEG, May 13—Hereafter all farmers in category "B2" will be exempted and left on the farms according to information given by by the Winnipeg representative of the Military Service act in the appeal court this morning. This will apply to all cases being brought before the military exemption appeals court at present.

GERMANS RELEASE PRISONER BELAND

Former Canadian Postmaster General Is Freed—Had Been Interned in Germany.

(By Daily News Leased Wire.)

LONDON, May 13.—A telegram was received here today from Dr. H. S. Beland, M.P., former Canadian postmaster general, saying:

"I am released; writing."

Dr. Beland has been interned in Germany since the outbreak of war.

Madam Beland died some months back but the news was kept from the doctor, who was in Germany, in order that he should not have the opportunity of asking to attend the funeral. Madame Beland died in Brussels.

Pleases Commoners.

OTTAWA, May 13.—Scenes of great enthusiasm marked the announcement by Hon. Rodolphe Lemieux at the evening sitting of the house of commons that Hon. Dr. H. S. Beland, who for four years has been a prisoner in Germany, had been released and is now on his way home. Mr. Lemieux made this announcement during the discussion in committee of the civil service bill and it was a signal for sustained cheers by the members which was followed by the singing of "For He's a Jolly, Good Fellow."

Mr. Lemieux stated that a despatch had just been received with the news of Dr. Belands' release.

The announcement was followed a few minutes later by confirmation contained in a cablegram received by Sir Robert Borden from Sir George Perley. The prime minister had not been in the house when Mr. Lemieux gave out the news, but entered shortly afterward. He expressed his own great satisfaction at the good news, saying that all who knew Dr. Beland had a very high appreciation of him and that much depression had been caused by his long confinement. The news was welcome.

Tried to Get Release.

Hon. Rodolphe Lemieux supplemented the remarks of the premier by stating that Sir Robert Borden, Sir George Perley and the government had done everything possible since Dr. Beland was taken prisoner to have him released.

The cablegram from Sir George Perley, which the premier read, was as follows:

"Have telegram from Beland at oRtterdam saying he has been released from Germany. Om personally delighted and feel sure this news will be most welcome to you and all other Canadians."

CZECHS PROTEST COUNT CZERNIN'S ATTITUDE

(By Daily News Leased Wire.)

WASHINGTON, May 13.—A diplomatic despatch from Vienna tonight says the Vienna papers publish a declaration of the Czech members of the Austrian house of lords in which an independent state is demanded. The document protests against what it calls the unexampled attacks of Count Czernin against the Czech nation and concludes:

"We protest against the aims and plans of the government which tend to resolve into an anti-constitutional and one-sided manner the national questions of the kingdom of Bohemia, in accordance with the desires and to the advantage of a single nation. We seriously warn the government against actions for the very reason of the gravity of the period which we are traversing."

NEW YORK HEARS THAT WOODS HIDE CANADIANS

(By Daily News Leased Wire.)

NEW YORK, May 13.—Rumors persist that there are hiding in the forests of northern Maine hundreds, if not thousands, of Canadians, who are either too proud or too timid to fight for their country. Most of these slackers are from the province of Quebec, a few said to have come from the maritime provinces of New Brunswick and Nova Scotia.

The fact that one of the big lumbering concerns has not been obliged to come to Bangor for its log drivers this spring indicates that a new source of labor has suddenly been developed up north.

HUN RAIDER IN PACIFIC IS REPORT

(By Daily News Leased Wire.)

A PACIFIC PORT, May 13.—The Hon. William M. Hughes, premier of Australia, arrived here today with a party of Australian officials en route to a war conference in London. Passengers on the vessel said a German raider had attacked and damaged a British transport on which the premier had sailed previously.

Passengers, said Premier Hughes and his party, on the return to port of the damaged vessel had caught a train to another port and embarked on the steamship on which they reached here.

With Premier Hughes are William Ferguson Massey, prime minister of New Zealand; Joseph Ward, Labor leader and former premier of New Zealand, and Robert Curran.

HUN GUNS ROAR NORTH OF SERRE AND KEMMEL HILL

Drive May Start Near the Village

ENEMY APPEARS TO BE RESTLESS

Believe Local Preparations May Develop Into Big Drive

(By Associated Press.)

Germany's resumption of the gigantic offensive against the allies on the western front has not yet materialized. In various sectors there have been local operations which have no bearing on the situation as a whole. But along the entire front there is quiet that might be encouraging were it not for the fact that the Germans are known to be moving up men and materials for a new move in the mighty drive launched on March 21.

Active Around Serre

Field Marshal Haig's report makes special note of activity by the German artillery north of Serre. This little town is situated behind the Teutonic lines north of Albert and marks the apex of a triangle, the base of which is the line between Hebuterne and Bucquoy.

For several weeks military experts have been watching developments in this particular region for the reason that it is the logical point from which the Germans may be expected to launch a great turning movement against the Arras sector. During the early days of April, when the allies made a final stand on the line which they at present hold, the Germans centred their fiercest drives on Hebuterne and the wooded hills to the south and southwest. They failed to advance further and later lost ground to the allies at this point.

Kemmel Artillery Busy

Field Marshal Haig mentions, too, considerable artillery fire to the north of Kemmel, but this has been a region where the cannon of both sides have been roaring for weeks.

The southern portion of the British front has also been under heavy fire from the enemy's guns and this may indicate that the Germans are getting ready for a new effort to reach Amiens.

Active During Morning

(By Daily News Leased Wire.)

LONDON, May 13.—Field Marshal Haig's report from headquarters in France tonight says:

"The hostile artillery developed considerable activity early this morning near Serre and has been active durin gthe day on the southern portion of the British front and in the sector north of Kemmel. There is nothing further of special interest."

French Have Quiet Day

PARIS, May 13.—The official statement issued by the war office tonight reads:

"There were no events of importance along the front today, with the exception of bombardments, which

GETS 30 YEARS JAIL FOR BEING UNPATRIOTIC

(Special to The Daily News.)

AYRE, Mass., May 13.—Ernest Flentje of Cambridge, a sergeant in the 301st infantry at Camp Devens, today was sentenced to 30 years imprisonment at Fort Jay, N.Y., for unpatriotic utterances.

ALLIES BOMB OSTEND DOCKS

Airmen Start Fire in Seaplane Shed, Destroying it—Down 8 Enemy Machines.

(By Daily News Leased Wire.)

LONDON, May 13—The admiralty announces that during the period, May 6-12 inclusive, air force contingents, working from Dunkirk carried out successful bombing operations against the Ostend docks and seaplane base, the Zeebrugge mole and lock gates and enemy shipping in the vicinity.

"Several direct hits were obtained on the sheds on the Zeebrugge mole and a larger shed at the seaplane base was completely burned up," the statement continued.

"In the course of the offensive patrols, six enemy machines were destroyed and two others were driven down out of control. One of our machines is missing.

"On May 10 one of our seaplanes in the North sea sighted a zeppelin on patrol and an indecisive action lasting half an hour was terminated by the zeppelin retreating to its base."

SIX HUN PLANES FALL ON SUNDAY EVENING

(By Daily News Leased Wire.)

LONDON, May 13.—In aerial fighting Sunday evening, six German machines were brought down by British aviators and many tons of bombs were dropped on targets behind the enemy lines, says an official statement on aerial operations. The text reads:

"Flying again was impossible on Sunday until evening. The visibility was then excellent and over eight tons of bombs were dropped on targets in the neighborhood of Menine, Armentieres, La Bassee and on the docks at Bruges. In aerial fighting six hostile machines were brought down. One of ours is missing.

"During the night fourteen tons of bombs were dropped on the railway stations at Don, Marcoing, Chaulnes, Bapaume, Peronne and on the docks at Bruges. One of our machines did not return."

ALLIES BOMB NAVAL BASE IN AUSTRIA

(By Daily News Leased Wire.)

AMSTERDAM, May 13.—Six airplanes bombed the Austrian naval base in the Gulf of Cattaro Saturday afternoon, according to Vienna advices. There was no loss or damage. One machine fell, the occupants being captured uninjured.

COOPERATE WITH KHAKI BOYS SAYS THOMPSON

Must Match Sacrifice With Soldiers in Trenches, Declares Food Board Chairman.

(By Daily News Leased Wire.)

OTTAWA, May 13—Henry B. Thomson, chairman of the Canada food board, left Ottawa tonight on a short speaking tour, including the cities of Hamilton, London and Toronto. Before leaving the capital, he gave the following statement to the Canadian Press:

"As chairman of the Canada food board, I earnestly appeal to the people of Canada to seek to understand the spirit as well as the object of all food regulations. The help which we shall give to our soldiers and allies will be measured, not only by compliance with the letter of the regulations, but also by observance of their spirit. To evade the object and the spirit of food regulations is little less than treachery to our troops and allies.

Difficult to Act.

"If the situation be as stated, why is not more vigorous action taken by those in authority. It should be recognized that food regulations of this nature can be enforced only with great difficulty in a country where the population is widely and sparsely distributed as ours is. At present the food problem is further complicated by difficulties of finance and transportation. Moreover, drastic food orders might easily lead to derangement of important industries and ultimate harm to the production or the distribution of necessary food. So, too, orders which might with reason be made to apply to certain classes of workers would, if applied generally, result in a lessening of general efficiency. Individual responsibility cannot be dissociated from a wise consideration of the circumstances connected with food control.

"The chief object of all food orders is to conserve food to secure an equitable distribution of the available supplies and to prevent unfair price inflation. There is no difficulty in recognizing the aim and object of any specific order. It will help our men at the front but little if compliance with the letter of the regulations is made an excuse for failure to observe their spirit. I appeal to one and all wholeheartedly to comply with the spirit of these orders. Let us begin by measuring our helpfulness according to the extent to which each of us personally has replaced meat and wheat by more perishable and less needed commodities.

"A present paramount need is the conservation of wheat. Substitution cannot be added too generally or carried too far, until the new crop becomes available. Our allies must have wheat to find their bread. Let us, therefore, reduce our consumption of wheat and wheat products as much as our circumstances will permit. Generous cooperation has been given and is being given in the adoption of wheat and meat substitutes.

"But more is required. May we match our cooperation and sacrifice with the spirit of our men in the fighting lines in Europe. If our spirit be as theirs, we shall not fail."

COMMONS HEARS REPORT ON CIVIL SERVICE BILL

Western Farmers Crowd Galleries as Members in Committee Discuss Proposed Legislation.

(By Daily News Leased Wire.)

OTTAWA, May 14.—Members of the house of commons spent another sitting yesterday in committee on the Civil Service bill. There was considerable criticism of the act as drafted and many amendments were offered, a number being accepted, either as proposed or in a modified form.

At the opening session the scene was enlivened by the presence in the galleries of a large number of members of the farmers of Canada who wait upon the government this morning in regard to the enforcement of the Military Service act.

So great was the crush of visitors from the rural constituencies that the gallery doors were closed at 10 o'clock. No more room was available, although there were scores still seeking admission.

The most outspoken criticism of the bill from the government benches was offered by J. H. Burnham, Peterboro. He declared it to be an insult to the people to assume that members of parliament were not fit to recommend appointments. He declared that he would vote against every section of the bill.

Returned Soldiers Preferred.

A considerable body of opinion in favor of special consideration for returned soldiers was expressed by the members.

W. G. McQuarrie, New Westminster, wanted soldiers to be exempt from examinations, but Hon. A. K. Maclean, who is piloting the bill through the house, thought that this would not be in the best interests of the service, although declaring that the returned soldier must be looked after. In withdrawing his amendment, Mr. McQuarrie expressed the belief that the house would be willing to adopt it next session.

An amendment by H. C. Hocken requiring the publication of a list of appointments made during the year showing relationship with persons already in the service provoked considerable discussion and was finally rejected on a vote of 73 to 19.

It was 12:15 a.m., after three days in committee, when the civil service bill was finally reported. It now stands for third reading.

The sitting ended in a sharp passage between Hon. Jacques Bureau, Three Rivers, and the minister of railways. Following the reporting of the civil service bill, Dr. Reid was preparing to proceed with second reading of the bill to consolidate the railway act. Immediately there were cries of protest from the opposition side.

Bureau's Error.

"I was told this was coming up," Mr. Bureau declared. "I was told in the corridors the gangs were being organized to relieve one another so there could be an all night session of the house."

"Order, order," came in cries from the government benches.

"We are not going to be treated like slaves," Mr. Bureau continued in pro-

COMMONS HEARS REPORT ON BILL

Continued from Page One.)

test. Again there were cries of "order, order."

"I was told that and I have reason to believe it so," Mr. Bureau persisted.

Dr. Reid here remarked that he had no desire to go on with second reading if there was objection.

Mr. Bureau—There is objection.

Mr. Carvell remarked that Mr. Bureau was in error in stating that there was an attempt to keep the house sitting all night.

"If I am in error, I am glad to acknowledge it," observed Mr. Bureau.

Then the house adjourned.

Resident Employees.

W. G. McQuarrie, New Westminster, moved an amendment providing that except as to the city of Ottawa, appointment in any province should, insofar as possible, be made from residents of that province. He said that within the last few days application had been made for an additional stenographer in the government offices at New Westminster. He had been informed that one would have to be sent from Ottawa. He thought his amendment a reasonable one.

Sir George Foster opposed the amendment on the score that its tendency would be to cultivate provincialism. There was no valid reason why a man from British Columbia should not have an opportunity of serving in any part of Canada.

H. H. Stevens, Vancouver Centre, said that residents of British Columbia were not afforded proper opportunities to participate in competitive examinations.

Sir George Foster agreed that there should be equal opportunity to residents of all the provinces.

Unless there were some safeguards provided, Mr. Cockshutt remarked, all the plums would go to residents of Ottawa and the large cities.

Sir Sam Hughes stated that when positions in the civil service are vacant they should, whenever possible, be filled by men residing in the constituencies in which the vacancy occurs.

An amendment to this effect was moved by Mr. Maclean and carried by the house. It had no reference to the inside service. Mr. McQuarrie's amendment stood over.

Joseph Read, Prince, P. E. I., introduced a further amendment to section 41, designed to bring the employees of the Canadian government railway under the operation of the Civil Service act. This body of railwaymen might easily become a dominating factor in politics and they should be removed from participation in the political life of the Dominion.

J. H. Sinclair said that he understood some steps had been taken to place the government railway employees under the commission.

R. L. Richardson, Springfield, drew the attention of the house to the fact that the Drayton-Ackworth commission had recommended that all the government railways should be placed under a separate commission. If the amendment were carried it would take the railway employees out of this commission's hands, should such a commission be appointed. He thought it would be better to wait and see how the government acted about the Drayton-Ackworth report

Hon. Rodolphe Lemieux told Mr. Richardson that the Drayton-Ackworth report had been before the house for a long time and the government had not acted upon it. There was no indication that the government would do so. This excellent report had been discarded by the government; they would never act upon it.

Government supporters—What do you know about it?

Mr. Richardson argued that the government must take the responsibility. The best element of the Liberal party was now on the government side of the house and he went on, "I do not see how you can get out of it."

Placing government railway employees under the civil service commission met with strong opposition from G. B. Nicholson, East Algoma. Such an act, he said, would result in chaos.

Qualifying Men.

What knowledge had the civil service commission of the qualifications of a train dispatcher or a railway conductor, Mr. Nicholson asked. The only workable system, Mr. Nicholson argued, was to employ railwaymen and give them authority to get their employees. The amendment was declared lost.

"On the promise that the Drayton-Ackworth report will be adopted," observed Mr. Lemieux.

Mr. Maclean replied that he did not understand that any promise had been made. During recess, however, he would give study to some method of putting government railway employees under the operation of the act.

Mr. Lemieux again remarked that he did not think the government would adopt the Drayton-Ackworth report.

Mr. Richardson rejoined that he could not see how the government could do anything else than act on the report, although action might not be immediate.

"The members of the government are intelligent men and will give an intelligent study to the question. So far as I am concerned, I shall hold the government responsible for it later on. I believe that no time should be lost."

Question of Examination

When the clause dealing with the appointment of returned soldiers in the civil service bill was reached, Mr. McQuarrie moved an amendment which had for its object the exemption of soldiers from competitive examination necessary for entrance to the service.

J. G. Turriff, Assiniboia, stated that he would support the amendment if it was intended only to apply to men who had seen service in the trenches. He declared that many men had gone to England in uniform to avoid getting within sound of a gun.

Mr. Maclean said that the civil service must be kept strong and efficient. Also soldiers who returned from overseas must be taken care of by the country. When, however, it was proposed to appoint soldiers to positions in the civil service without examinations he could not agree. Soldiers who passed their examinations would be placed at the head of the list and would be given every consideration, but in order to keep up the efficiency of the service there must be an examination.

J. H. Burnham disagreed with the minister, saying that the examinations, in his opinion, were of little use. He went on to criticize the whole bill, saying that it was an insult to the people to assume that their representatives were not fit to recommend appointments. He would vote against every part of the bill, he said.

Will Get Preference.

Mr. McQuarrie withdrew his amendment providing for the exemption of soldiers from examination, although he stated that he felt the house would be willing to adopt it at the next session, if not this. Most of the members were agreed that returned men should be given special consideration.

On the clause regarding salaries, Mr. Morphy put in a plea for what he termed the "under dog," the messengers, sorters and packers, who were being paid $600 a year. He wanted a little democracy put into the thing, he said. How could the government justify itself paying $600 a year to a man who was probably married and had a family. Mr. Morphy thought also that both maximum and minimum in this grade should be increased to the returned soldiers. "I do not want to see the returned soldiers," he declared, "at the mercy of the civil service commission."

Dr. Manion put in a plea for the soldier who had been over to England and had not seen active service. From personal experience, he said, he knew the majority of the men in England wanted to get to France and had not been able to do so. It must not be forgotten that the soldier overseas could not help himself if he were not ordered to France.

Mr. Maclean remarked that the purpose of the bill was, primarily, to provide for the civil service. He added that the amendment suggested by Mr. Morphy would not be in order at the present stage. A resolution on the order paper would be required.

Discuss Wage Question.

Mr. Richardson observed that the civil service commission was empowered to pay, in the grade referred to, a salary up to $1200 and probably very few returned soldiers would care to accept a position at, say, $800. The returned soldier had every right to be considered but if the throttle were thrown wide open it might be asked where the country was going to. Parliament had to see that the country was protected. "Let us do justice to the returned soldier," Mr. Richardson proceeded, "but do not let us be swept off our feet by the demagogue cry of the returned soldier."

Here Mr. Morphy suggested that the salaries of the higher grade of officials might be cut to increase those of the lower grade. He instanced Sir Charles Fitzpatrick as having been paid $17,500 last year and the chairman of the research committee, $10,000.

Mr. Keefer protested that it would be a mistake to reduce the salaries of those who by their faithfulness had earned a higher and better salary. Unless these men were paid they would leave public life and join private corporations.

GOOD-BYE DOUGHNUT; COME AGAIN SOME DAY!

It has come to it at last. There is nothing left of the doughnut except the hole, for now the food board has banned the ever-reliable sinker and no more will it be except as a memory of the good old lunch counter days that have gone by. No more will the familiar "coffee and" echo across the blue of early morning in the lunch stands of the Dominion.

Nelson doughnut bowls are empty. Customers are questioning. Cafe men can't help it. There's a reason. It's no use. It's the passing of the sinker, at least until that song is sung, "Bill Is Beaten."

GIRLS TAKE JOBS ON BOATS AS WAITRESSES

Owing to the shortage of waiters for the lake and river service of the Canadian Pacific railway, waitresses are being used to fill in vacancies and where they have been tried, on the Kuskanook between Nelson and Kaslo, the appointment is reported to be satisfactory. Capt. Brown said yesterday that it was possible that future Nasookin vacancies might be filled by waitresses.

ST. BONIFACE INCREASES WAGES OF CIVIC EMPLOYEES

(By Daily News Leased Wire.)

WINNIPEG, May 13.—At a meeting of the St. Boniface city council tonight it was decided to give the civic employees, firemen, policemen and other permanent employees an increases of approximately $10 a month.

Dyspepsia Overcome

Tone up the Stomach with Hood's Sarsaparilla.

When you have dyspepsia your life is miserable. You have a bad taste in your mouth, a tenderness at the pit of your stomach, a feeling of puffy fulness, headache, heartburn, and sometimes nausea.

Dyspepsia is difficult digestion—that is what the word means—and the only way to get rid of it is to give vigor and tone to the stomach and the whole digestive system Hood's Sarsaparilla, sold by all druggists, is the one medicine which acts on the stomach through the blood and also directly. Its beneficial effects are felt at once. Improvement begins immediately.

Hood's Sarsaparilla purifies the blood, makes the rich red blood that is needed for perfect digestion and builds up the whole system. No other medicine can take its place.

CALDWELL BACK FROM OTTAWA

Kaslo Mining Man Is Satisfied With His Visit to the Capital

C. F. Caldwell of Kaslo was in the city yesterday on his way to Spokane and was at the Hume. Mr. Caldwell has just returned from a trip to Ottawa, where he has been as a delegate to present the resolution of the Mine Owners' and Operators' association to the federal authorities. Regarding his interview at Ottawa Mr. Caldwell issued the following statement:

"I accomplished all that I expected in placing the facts regarding a royal commission before the members of parliament and found no opposition from either side regarding the placing of a duty on lead ores coming into Canada.

"Our aim is to have a royal commission instead of the present mining committee. The commission is to consist of three members, one member from the mine owners, one from the smelters and one from the government.

"The proposed duty will have a tendency to cause the smelters to use more Canadian ore and less United States fluxing ore and therefore increase the Canadian payrolls and stimulate production in Canada. It will cause the smelters to use more Canadian ore and less American ore. The proposed tariff will have the tendency to decrease the shipments of American lead to the Canadian smelters and would therefore induce them to confer with the United States government with a view to bringing about reciprocity in lead ores.

"I interviewed Premier Borden and several members of the house for British Columbia and received expressed interest in the questions I put before them. I expect the questions to appear in the budget at the present session.

"I arranged a conference with Sir George Bury, vice-president, and W. R. Beatty, chief counsel of the Canadian Pacific railway and pointed out that the question was of vital importance to the operating department of the railway.

"We want a royal commission that our rights and privileges, which are necessary to the successful development and operation of the great mining resources of British Columbia, may be properly encouraged. We want to be protected by having proper smelting and other treatments by railroads to insure such confidence that men with capital will be seeking investment in the mines of British Columbia. The mine owners association expects that all British Columbia and Canada will back us up in these aspirations and we will keep at it until we do. We now hope that the present government will give the necessary support to accomplish these important questions.

HUN GUNS ROAR NORTH OF SERRE AND KEMMEL HILL

Continued from Page One.)

became quite lively on both banks of the Avre river."

Berlin's Statement

BERLIN, May 13, via London.—The text of the official communication from general headquarters today reads:

"In the Kemmel region lively artillery activity continued in connection with local infantry engagements. In other fighting sectors it also revived several times during the evening.

"In the Ancre valley, southwest of Albert, a British partial attack was repulsed. At various points on the front the enemy continued his reconnoitering thrusts. In repulsing them, we made some prisoners on several occasions."

MANITOBA OFFICIAL QUITS.

(By Daily News Leased Wire.)

WINNIPEG, May 13.—A. E. Ham, provincial superintendent of insurance and finance minister for Manitoba, has resigned after 13 years' service.

Lovely White Skin!

Strain lemon juice well before mixing and massage face, neck, arms, hands.

By all means, girls, prepare a lemon lotion to keep your skin flexible and young looking. You will soon realize that true loveliness does not mean the powdery-look or waxen colorlessness of some hothouse flower, but is typified by the velvety softness of your skin, your peach-like complexion and rosy-white hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and hidden beauty of any skin. It is simply marvelous to smoothen rough, red hands.

TOM THUMB WEDS HERE TONIGHT

Popular Kiddies Play Will Be Staged Again at Trinity Methodist Church—Gala Costumes

Confident with the success of their last performance, the 30 young persons who staged the Tom Thumb Wedding are confident of a bumper crowd when the play will be given in the Methodist church tonight. The proceeds will go entirely to the Red Cross society.

The young persons did remarkably well last time and gave those present a surprise. Very few persons thought such tiny folk could give a play in such a magnificent manner.

After the wedding, which provides a very novel ceremony, the players give a program of musical selections, vocal renderings and recitations.

Many persons have intimated their intention of again seeing the performance and it is thought there will again be a large crowd, as many were unable to be present last time.

BANANAS MAY DISAPPEAR FROM MART

Bananas may disappear from the local markets entirely in the near future, it is stated, if the United States government commandeers any more of the ships which ply between South and Central American ports and New Orleans.

Although no definite advice has been received by local dealers as to a shortage of supply it has been noted that the price has advanced of late.

UTICA MINE ELECTS OFFICERS; ACTIVE SOON

At the annual meeting of the directors of the Utica mine held at Kaslo, H. H. Armstead was elected president and C. F. Caldwell, vice-president and general manager.

Mr Caldwell stated at the Hume last evening that he expected active operations to start on the property within the next 30 days when it is thought that the snow would be sufficiently gone to allow the opening of the roads

COURT CHAMBERS.

In chambers yesterday E. A. Crease obtained an order for leave to proceed, notwithstanding the War Relief act, in the following:

Hudson's Bay company vs. Hanson and Hudson's Bay company vs. Luciani.

Mr. Crease also obtained letters of administration, with will annexed, to issue the estate of Hugh John Taylor. He was killed in France and the estate is valued at $450.

STRIKE SITUATION GETS WORSE AT 'PEG

(By Daily News Leased Wire.)

WINNIPEG, May 13.—With the exhoice of virtually meeting all of the civic employees' demands as was recommended by the special committee of the city council or as an alternative of insisting upon a policy of compulsory arbitration on the part of the unions, the city council at the conclusion of a lengthy debate last night chose the latter course. This means a continuance of the strike with the likelihood of the firemen going out this morning.

COAST WAGE TROUBLE.

(By Daily News Leased Wire.)

VICTORIA, B.C, May 13.—Members of the Vancouver and Victoria Metal Trades council were in conference here today on the shipyard wage question and tomorrow morning will confer with R. P. Butchart, director of wooden shipbuilding for the imperial munitions board.

REVERSE $10,000,000 UNITED STATES COURT DECISION

(By Daily News Leased Wire.)

SAN FRANCISCO, May 13.—Decision of the United States district court of Montana, which granted the Mineral Separated limited owners of a patented process for extracting ore by flotation, approximately $10,000,000 against the Butte and Superior Mining company, for infringement of patent, was reversed here today in an opinion handed down by the United States circuit court of appeals.

BUTTE, Mont., May 13.—Butte and Superior stock jumped 7 points immediately after word of the decision in the San Francisco court was received here over the Associated Press wires.

Mother and Children Had Awful Coughs
WERE CURED BY
Dr. Wood's Norway Pine Syrup

Mrs. Arthur Appleyard, Novar, Ont., writes: "This past winter my children and I had awful colds and coughs, which we got by being in drafts. I tried a number of different remedies for us but got no relief. I thought I would try Dr. Wood's Norway Pine Syrup and I found it a most excellent and sure cure. It gave relief to the tickling in the throat and stopped the cough and with a few bottles we were all cured."

Dr. Wood's Norway Pine Syrup is a remedy that has been on the market for over twenty-five years and we can recommend it as being, without doubt the best cure for coughs and colds that you can possibly procure.

There are a lot of imitations on the market, so when you ask for "Dr. Wood's" see that you get it. Put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c; manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

STOCKS STILL SOAR ON MART

Gains Range from Two to 10 Points—Steel Leads Throughout Day

(By Daily News Leased Wire.)

NEW YORK, May 13.—Last week's bull campaign in stocks was promptly resumed with greater vigor at the opening of today's market, extreme gains in a wide variety of issues ranging from 2 to almost 10 points.

The rise was emphasized particularly in all the popular war issues. Rails were slow but made gross gains of 1 to 2½ points during the intermediate period. These were materially reduced in the extensive selling for profits that marked the final hour. United States Steel's leadership was again undisputed, rising 2⅝ to 112, but closing 1¼ under its maximum, a net gain of 1⅜. Steel contributed no less than 275,000 shares to the day's total turnover of 1,235,000 shares.

Other noteworthy features were Sumatra Tobacco at an extreme advance of 9⅜ to the new maximum of 125⅞; General motors, 4½; Industrial Alcohol, 3¼; Distillers, 3; Malting first preferred, 5¾, and Republic Iron, 3½. Shippings were 2 to 5 points higher at their best.

The better bank statement caused perceptibly easier conditions at rates for call money.

Enlarged offerings forced the Liberty 4s down to the new low of 97 and the second 4s made a new minimum at 94.60; first 4s and 3½s also denoted renewed pressure. Total sales, par value, $8,950,000. United States bonds, old issues unchanged on call.

Closing Quotations.

TRADING IS LIVELY AT MONTREAL STAND

(By Daily News Leased Wire.)

MONTREAL, May 13.—With an accumulation of orders in their hands over the weekend, stimulated by last week's bullish demonstration, brokers gave the local stock market a fine start today, which provided all the appearance of a real Monday bull market.

The steel issues were once more the favorites. Both were quite strong, Steel reaching a new high for the movement. Compared with last week's high of 65, it reached 65¼, while Iron was a fraction under the high of 63½, touched last week, selling at 62¼ to 63¼ to 62¾. Steel of Canada opened at 64¾, compared with 64½ at the close on Saturday and after touching 65¼, closed at 64¾.

One of the notable features was the creation of a new high for Canadian Cottons at 64. The market for Dominion Textile continued strong today, equalling the former high at 91½ to 91¾. Brompton continued firm under demand around the top at 54 to 54¼.

RUSSELL MOTOR HOLDS ITS PLACE IN THE LEAD

(By Daily News Leased Wire.)

TORONTO, May 13.—Russell Motor preferred continued today the upward movement suddenly begun on Saturday and the steel stocks added fractionally to recent gains. There was a marked subsidence of activity in the afternoon as a result of Wall street's tendency toward irregularity following the attainment of new high levels of the year in United States Steel and a number of other issues.

Russell Motor preferred opened at 73¼, unchanged from Saturday's close and advanced to 76¾, closing at the top.

Twenty-five shares of Russell common sold at 70, compared with 60 asked and 55 bid a week ago. Steel of Canada sold at 65¼, closing at 65, for an advance of ¼ and Dominion Iron ¾ higher at 63¼. Total dealings in the steels aggregated only 360 shares. Cement was firm at 60¾ and 20 shares of Toronto Railway again sold at the minimum price of 58. There was fresh liquidation of Canada Permanent, preferred shares coming out at the minimum of 162½.

The third war loan was a shade easier. It was the only one dealt in. The days' transactions: Shares, 1574; war loans, $1400.

CORN BULGES ON NEW YORK MARKET

(By Daily News Leased Wire.)

CHICAGO, Ill., May 13.—Corn bulged in value today owing more or less to a good sized decrease of the visible supply. Prices closed strong at a shade to 2⅛ cents net higher, with May at $1.27⅝ to ¾ and July at $1.45⅛ to ¼.

Oats advanced 1⅝ to 2¼ cents. Provisions finished unchanged to 45 cents lower.

WINNIPEG GRAIN.

(By Daily News Leased Wire.)

WINNIPEG, May 13.—Oats: May, 80⅝; July, 78⅞.

Barley: May, $1.38.

Flax: May, $3.69½; July, $3.70.

STOCKS STEADY AT SPOKANE

COPPER COMPANY MAY START DEVELOPMENT

(By Daily News Leased Wire.)

VANCOUVER, B.C., May 13.—A request is said to have been made of the Dominion government by the Canada Copper corporation, which holds very valuable copper deposits at Copper Mountain, near Princeton, to admit free of duty mining machinery to the value of $400,000. Should the government meet the wishes of the company in this respect, it is stated that within 60 days the machinery will be shipped to British Columbia and work started on a big plant for extensive development.

It is probable that in addition to other work a concentrator and eventually a smelter will be built.

LIVESTOCK MARKETS.

(By Daily News Leased Wire.)

WINNIPEG, May 13.—Livestock receipts at the Union stockyards today totaled 1250 cattle and 1177 hogs. The cattle market was steady on quality butcher cattle, medium and common stuff slow at easier prices, while lightweight stockers and feeders have declined. Best quality stuff steady. Hog market was unchanged, prices holding steady at last week's close.

Butcher steers, 10 to 15.50; heifers, 8 to 14.50; cows, 5 to 13; bulls, 6 to 11.50; oxen, 7 to 12; stockers and feeders, 7.50 to 11; veal calves, 8 to 16.

Hogs: Selects, 19.75; heavies, 16 to 17; sows, 16 to 17; stags, 8 to 10; lights, 16.50 to 19.

Chicago.

CHICAGO, Ill., May 13.—Cattle: Receipts, 12,000; strong. Beeves, 10.15 to 17.70; stockers and feeders, 9 to 12.85; cows and heifers, 6.90 to 14.25; calves, 8 to 14.

Hogs: Receipts, 52,000; unsettled. Light, 17.30 to 17.85; mixed, 17.15 to 17.85; heavy, 16.25 to 17.65; rough, 16.25 to 16.60; pigs, 14 to 17.25.

Sheep: Receipts, 18,000; weak. Native, 12.25 to 16.50; lambs, 15.25 to 20.50.

EGG MARKET REMAINS FIRM—BUTTER STRONG

(By Daily News Leased Wire.)

MONTREAL, May 13.—The egg market today was firm and active. Cheese unchanged. Butter strong.

Cheese: Finest westerns, 23½; finest easterns, 22.

Butter: Choicest creamery, 44½ to 45; seconds, 43½ to 44.

Eggs: Selected, 44; No. 1 stock, 42; No. 2 stock, 38 to 39.

Potatoes: Per bag, carlots, $1.45 to $1.50.

Fourteen new amusement corporations, capitalized at well over $500,000, have been incorporated in New York State in the past week.

ORE SHIPMENTS SHOW AVERAGE

Receipts for Week Ending May 7 Show Slight Decrease from Previous Week.

Ore shipments to the Trail smelter showed a decided decrease for the week ending May 7, when 7439 tons were received. During the week previous the amount was 9706 tons. Three new shippers were reported as follows: Electric Point, Boundary, Wash.; Idaho-Alamo, Alamo, and Molly Hughes, New Denver. Following is a list of the week's shipments and of the total for the year to date:

APPEAL COURT DEALS WITH PROVINCE CASES

(By Daily News Leased Wire.)

OTTAWA, May 13.—In the supreme court today judgment was delivered in the British Columbia case of Rutter vs. Orde, the appeal being dismissed with costs.

Another British Columbia case disposed of was Ashwell vs. Canadian Financiers. This appeal was allowed and a new trial ordered with costs of the supreme court, and court of appeal cost of trial to abide the events.

The case of Rutter vs. Orde was heard on the 10th. It is an appeal from the judgment of the court of appeal for British Columbia affirming the judgment of the trial judge, the court being equally divided. The action was for an injunction restraining the appellant from entering upon and trespassing upon respondent's timber licenses and damages. O. C. Bass for the appellants; A. H. Macneill, K.C., and R. M. Macdonald for the respondent. Judgment was reserved.

TORONTO STREET CAR MEN PROTEST CONDUCTORETTES

(By Daily News Leased Wire.)

TORONO, May 13.—Toronto street railway employees have taken an antagonistic attitude to the proposal of the company to train women as conductors for many vacancies made by the calls to war. At a big mass meeting on Sunday morning the organized employees of the company passed a resolution that they would refuse to operate cars or instruct women in training on cars.

Use It in All Your Baking

The *One* Soap for Every Household Purpose

WITHIN a very short time UTILITY SOAP has become a household word. The reasons are plain: Because by using UTILITY SOAP the burden and strain of washday has been removed. Think of it—under the old system, rubbing, rubbing, rubbing was the chief thing to do. Now, with UTILITY SOAP, all the rubbing is a thing of the past.

Utility Household Soap
"'Twill Banish the Rub from Every Tub"

BEGIN today to use UTILITY SOAP. You'll never go back to any other. And remember this: UTILITY SOAP cannot injure delicate hands or fine fabrics. Laces, handkerchiefs—nothing—can be harmed. There are positively no harmful ingredients in this ideal soap. IT COSTS NO MORE THAN OTHER KINDS.

GETTING AFTER THE UNDER-MINER

The people of the United States generally are displaying an aggressive, wholehearted spirit in their attitude toward the war which is wholly commendable.

They will not stand for refusals to subscribe to war bonds by those who can afford to do so. They will not permit unpatriotic statements to go unchallenged. The man who endeavors to undermine the country's war effort by carping criticism of those in authority, by spreading wild rumors of defeats which never occurred, by repeating slanders the effect of which is to weaken the morale of the people and destroy confidence in the country's ability to win the war, receive short shift.

The sort of half-sedition which just "gets by" without violating the law brings prompt action.

And the Americans are right. A war can be lost at home as well as on the battlefield. Germany knows it. That is why it pays agents to start rumors, to be spread by the unthinking, to the detriment of the allies and the aid and comfort of the Boche.

THE UKRAINE A DISAPPOINTMENT TO THE HUN

A report that the Ukrainians are displaying a "very cool" attitude toward the Teuton invaders appears to put the situation mildly.

Just before the separate peace was signed with an alleged representative body of the Ukrainians the German and Austrian governments gave their people glowing accounts of the vast amounts of food they were going to get from the Ukraine. But they reckoned without their hosts. They were unwelcome guests and the Ukrainians were not at all hesitant in showing it. Germany and Austria got some food, but they got it by force and force alone. Soldiers armed to the teeth were sent into the Ukraine to collect food. It was the only way in which the enemy could get any. The Ukrainians were not merely passive resisters. They tore up the fields which had been planted, they burned the stocks of grain on hand, they put every possible inconvenience in the way of the Boche and his brother, the Austrian soldier.

THE FIENDS WE FIGHT AGAINST.

Reuter's Agency has received copies of carefully verified sworn statements which have been received from British soldiers who have returned from German prison camps and hospitals as to the systematic brutality practised upon Italian prisoners. These emanate not from one particular centre only, but from over a dozen different parts of Germany, and are confirmed by independent testimony. They are all of recent origin, as the persons by whom the evidence is given have lately left Germany, the majority having been released from the camps in question only a month ago. In regard to the camp at Langensalza evidence has been received from over a dozen independent sources. Some of it is given below:

Private J. Taylor, Essex regiment, says: "In November about 2000 Italian prisoners were brought in and put in a separate part of the camp behind barbed wire. They were unnecessarily knocked about by the noncommissioned officers and guards, who struck them with rifle butts and scabbards. The Italians seemed famished and used to rush for their soup, which was the supposed cause of the guard's brutality. When I left they were still separated from us by barbed wire, so we could not help them with food, except one or two who slipped through the wire. Among these Italians were some who spoke English."

Lance-Corporal Horace Hills, Suffolk, says: "Five or six thousand Italians came in. They had traveled three or four days and had had nothing at all to eat. After they arrived soup was brought in and as they were starving they rushed at it. The Germans then dashed forward and stabbed at them with their swords and bayonets, and killed and wounded a lot. Seven or eight Italians were dying of starvation every day in the camp. They had no parcels. I saw an Englishman give an Italian bread and the Italian went down on his knees and kissed his hands."

The new food orders put it up to the people. And they will not be found wanting.

To observe the food laws in the letter but violate them in the spirit is to help Germany.

There was "complete accord" between Emperor William of Germany and Emperor Charles of Austria at a meeting a few days ago, according to a despatch. In other words, Charles did not disagree with any action proposed by the All-Highest kaiser.

That Dr. Beland has been released by the Germans is good news. The doctor, a member of the Canadian house of commons, was in Belgium at the time the war broke out. He did noble work in aiding the wounded Belgians when the German invasion began and it was on account of this that the enemy refused for so long to release him.

WHAT THE PRESS IS SAYING

Cutting Figure "8s."

The kaiser rushed back to Potsdam when he was informed that trouble was brewing in Hunland. Soon the kaiser will be running around in circles trying to find a loophole of escape from the fate that is bound to overtake him.—Butte Miner.

Ode to the Knocker.

The industrial agitator who seeks to disrupt industrial conditions in this country is merely camouflaging when he tries to make out that his talk is "constructive criticism" and the fact of the matter also is that everyone knows he is camouflaging.—San Francisco Times.

His Headache

The despatches tell us that one of the kaiser's sons is laid up with a headache. We have always been told that cold feet were responsible for many ills.—Vancouver Daily Sun.

COLD STORAGE

The head of an east-end household had no sooner arrived home the other evening than he was sent forthwith to see "what in the world was the matter with the furnace." His derby hat encountered the top of the door leading into the basement, with the result that the hat received a good-sized "stove" in the front.

As he emerged from the basement, after a tussle with the offending heating plant he was met with a shout of laughter by the six year old heir to the family fortune.

"Gee, mother!" exclaimed the lad, "Look, dad's got a dimple in his hat.

Mother—I don't like the looks of that little boy you were playing with on the street today. You mustn't play with bad little boys, you know.

Son—Oh, but he isn't a bad little boy, mamma. He's a good little boy. He's been to the reformatory twice and they've let him out each time on account of good behavior."

A farmer who lived in a certain rural village had 20 employees on his farm and as none of them were as energetic as the farmer thought they should be, he hit upon a plan which he believed would cure them of their lazy habits.

"Men," he said one morning, "I have a nice easy job for the laziest man on the farm. Will the laziest man step forward?"

Instantly 19 of the men stepped forward.

"Why didn't you step to the front with the rest?" inquired the farmer of the remaining one.

"Too much trouble," was the reply.

TOLD IN RHYME.

CALL OF THE WOODS

(By Allen F. Brewer.)

Call of the Wood, I love you,
When the gray goose spreads its wing,
From the sugar brakes
To the northbound lakes,
Where the freshets ripple "Spring."
Aye! Call, and the hills will echo
The messages you bring.

Call of the Woods, I hear you,
When the evening shadows creep,
Through the timbered glens
To the alder fens,
And the pools where the brook trout leap.
Aye! Call, and your song shall bear me,
Afar to a peaceful sleep.

Call of the Woods, you lure me,
Far from the path of man,
Where the north winds wail
Down the balsam trail,
O'er the home of the forest clan,
Aye! Call, and my heart will follow
Your charms where'er I can.

Call of the Woods, you grip me,
When the gray wolf leaves his lair,
To hunt with the pack
Where the red deer track,
As the snowflakes fill the air.
Aye! Call, and the winds shall waft you,
E'en to the Southland fair.

GREEN URGES GOVERNMENT TO ACT ON ALIEN LABOR QUESTION

Copies of Hansard, which have just been received from Ottawa give details of the debate which occurred on H. S. Clement's resolution with regard to alien labor in Canada and the speech on that question which was made by R. F. Green, Unionist member for Kootenay. The resolution was as follows:

"That, in the opinion of this house, all the regulations and orders-in-council respecting alien labor in Canada should be consolidated into one uniform law, but that in framing such legislation due regard should be had to the local conditions and needs of the different parts of the Dominion."

Hansard quotes Mr. Green as follows:

Mr. Speaker, I am not goin gto detain the house at any length. It has not yet been demonstrated in this house that we have not sufficient manpower in Canada to attend to all the essential industries that we possess. The difficulty is that we, as a whole, have not yet realized that we are at war. We have not yet realized the necessity of production, not only of foodstuffs, but of everythi g else essential to the winn'ng of the war. This debate is covering rather a wide field when one considers the substance of the resolution on the order paper.

Replies to Lemieux Attack.

My hon, friend from Maisonneuve (Mr. Lemieux) this afternoon took an opportunity to throw the usual brick at the province of British Columbia.

This is not the first time he has done so; it seems to be one of his chief pleasures, though why I am at a loss to understand. He said that we, in British Columbia fought the 1908 election on a white British Columbia, and he is perfectly right; not only did we fight for a white British Columbia in 1908, but we are prepared to fight an election today for a white Canada. I believe that we have white inhabitants enough in Canada to carry on the industries of this country, and I think I can demonstrate to this house that it would be false economy to attempt to bring Orientals into our Dominion.

The hon. member for East Algoma (Mr. Nicholson) said he felt the time might come when it would be well to introduce coolies from northern China into Canada. That time may possibly come, but God grant that it may not, because we who have lived and suffered under Oriental labor know best what it means. I repeat it would be false economy to introduce Oriental labor into this country except as a last resort. You cannot compare Canada today with France, where every able-bodied man, and many who are not able-bodied, are in the ranks, and only the women are left to run the farms and the munition factories. In such a country as this they might well introduce Chinese or anybody else to do their work. But we are not in that position, and until it is demonstrated that we have not sufficient white labor in this country to do our work, I, for one, am prepared to fight every inch of the ground that would be taken by anyone seeking to introduce Orientals into Canada.

How can you possibly expect to build up an industry with a class of labor that you cannot assim.late and do not want to assimilate? A class of slave labor, you may call it, because these men come in under contract to superior Chinese and work as slaves until they have paid off the money which has been advanced to them at a large percentage of profit to the men who have contracts for their labor.

Must Protect White Men.

These men come in and work at a wage a white man cannot live on. Suppose an industry is built up upon that kind of labor, and then suddenly the time comes when you realize the detriment the Orientals are to your country and you want to get rid of them. If you send them out of the country, the industry is then in a worse position than before, because it has been carried on under false economy, the products it has put upon the market have been produced by cheap labor. You cannot possibly get white men to take their place for the same wage, and the consequence is that the industry is bound to be ruined then and there. The only way to build up Canada is to do what we are trying to do in British Columbia—build it up with our own people—white people from other countries as well as from the British Isles, whom we can take into our families and assimilate, and who will grow up and become a part of us. An industry built up under those circumstances can live.

The Enemy Alien.

As to the alien enemy within our gates, I did not know the trouble was as widespread as it appears to be. We on the Pacific coast have the problem very close to us, because we have a great many of these people there. In my opinion a great many of the aliens are in very much the same position as the alien enemies. They are not troublesome; I do not agree with some statements that have been made this afternoon that they are always ready to make trouble wherever they are working. I believe these men are willing to work as long as they are paid the high wages that are being paid at the present time, but I do say they are not bearing their share of the burdens of this country while the war is on.

While I do not wish to see anything done to make things worse for civilians of British Columbia of allied birth, or for prisoners of war in Germany, I do hope that some solution will be found so that these alien enemies will be made to bear their share of the burdens of this war. There are in British Columbia today, two or three internment camps. These men were given the opportunity of working at 25 cents a day, in addition to their food and clothing. This would enable them to buy a few luxuries, but the men had not been in the camps, which had been started in order to make some use of their services, before very long they made up their minds they were not going to work. They refused to work and from that day to this they have been kept in the camps and fed on the fat of the and; in fact, if my information is correct, they are better fed than a great many of the working people of this country.

Urges Action

That is one of the places where the government should put forth its hand; it should reorganize the conditions under which these men are interned. They have not, unless it is recently, been put upon rations, and I believe they are still allowed white bread, beef and all such food. I think the government should take this matter up at once and see that these men are treated in a very different manner. The ordinary alien at large in this country and the alien enemy who will not fear his fair share of the burden imposed by this awful war should be forced to do so. Like some other hon. members, I cannot state exactly how that should be done, but I repeat that these men within our gates enjoying all the privileges that the Canadian citizen enjoys, and making high wages as well, should be compelled to take up the duties of citizenship or else be told to leave the country, and until they do bear their full share of the burdens of this war they should not be allowed to use the food produced by the other people of Canada.

HUN DRILL SERGEANTS KEEP FRITZ BUSY.

An account of the training German troops are receiving for the present campaign in France, as related by a German who has just been captured, is contained in a message from the Belgian front to Senator Henri La Fontaine.

"We are taught to throw at a target at some distance while standing, lying, sheltered in a trench or while running," the account says. "At first empty grenades are used, then half charged ones and finally ones fully charged. We also have to learn to throw grenades used by the enemy in case they should be found in any trenches. Then we are taught to run into all kinds of obstacles; to construct, leap over and destroy them. We also have to be able to handle guns and to be able to manipulate bombs, machine guns and infantry cannon. This all takes place in the morning. In the afternoon we are taught the theory of the exercises practised in the morning, while in the evening we learn to take the enemy's position and how to outflank him.

"There is no limit to the time of instruction, which continues until everyone has perfected the art of throwing. Those who are not fitted for the work are immediately s.nt back to their original units, as the work is very hard, even though extra rations are received.

"When ready to make an attack we are taken in auto trucks to the trench from which we are to start. The artillery opens fire and we leave in Indian file. Each squad is made up of fifteen men. The captain in the centre with a fighter on each side who carries six grenades, 12 half grenades and two smoking grenades with six cartridges. Each squad has their own artillery, operated by five men. At the given moment the artillery demolishes the parapet wall of the trench and the attacking unit makes the assault where the other troops hope to enter."

Cleris Derosis, an alleged wife beater,, was tarred and feathered by an Endicott, Conn., mob.

War Garden Bulletin

Practical Daily Guide for Vacant Lot and Backyard Gardeners Enlisted in Greater Production Campaign.

Issued by the Canada Food Board in Collaboration with experts on the Staff of the Dominion Experimental Farm.

COVER SOIL WITH STRAW

Here is a tip for the gardener who wants extra early and tender radishes, lettuce, mustard and cress. It is a popular practise in France and Great Britain, but one that is little indulged in on this side of the Atlantic. All the salad crops can be induced to be more sprightly in their growth if the row or patch is covered with straw for three or four days after the seed has been sown. The straw shades the ground, keeps in the moisture and rapidly draws up the young seedlings.

The crop gets a good start if this is done and the tenderest of radishes, lettuce and onions shoot up and are ready for use at least a week earlier than they would otherwise be.

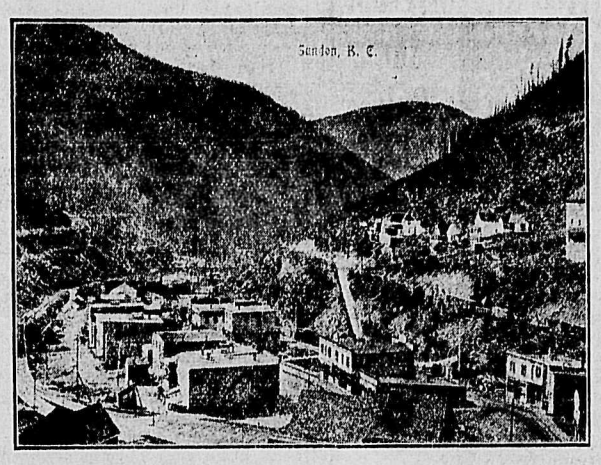
OLD TIMERS TELL OF SANDON'S BIG FIRE EIGHTEEN YEARS AGO

MANY INCIDENTS KEEP FRESH THE DESTRUCTION OF THE LITTLE CITY IN THE SLOCAN WHEN THREE-QUARTERS OF A MILLION DOLLARS WORTH OF PROPERTY WAS BURNED—UNDAUNTED BUSINESS MEN BUILT NEW STORES AND OFFICES WITHIN A NIGHT

EIGHTEEN YEARS AGO THIS LITTLE CITY WAS WIPED OFF THE MAP BY FIRE



While the smouldering ruins of Sandon were still hot, lumber for new buildings was on the way and within a remarkably short time business was conducted as if nothing had happened. Sandon has held its place as one of the rich mining centres of the Slocan.

In May, 18 years ago, the town of Sandon was destroyed by fire. The estimated loss was $750,000, with very little insurance. One man was killed and most of the town was razed by the fire, which started in a building owned by Mr. Spencer and used at that time as an opera house.

Just at this time Sandon was booming. The strike of 1899 was nicely settled and all the mines were working at full capacity. Everything was flourishing to an extent which can only be realized by one who has been in a mining boom.

H. H. Pitts was mayor of Sandon at that time and Mr. Stubbs, Sr., of Fairview was chief of police.

On the evening of May 3, 1900, a play, called "The Bitter Atonement," was given in the opera house. The fire started shortly after the building had been cleared and as there was poor means of fighting fire the blaze soon got beyond control and swept right up the one street of the town and took everything with it except some shacks on the outskirts of the little city, the power house and a stable, which soon afterwards became the Reco hotel, and the Denver house, owned by Mrs. Mallette, which was across the creek just above the Great Northern railway depot.

$60,000 in Sack

The Bank of British Columbia, which was the only bank there at that time, was burned. The safe in the bank was burglar proof but not fire proof. However, the staff managed to get the paper currency out and it was put in a bag and carried to Payne Siding by the messenger. How $60,000 was carried in a sack from Sandon to the Payne mine and with hundreds of miners hurrying to the scene of the fire is what one old-timer proclaimed a miracle.

The following day the bank was open for business and although some papers were destroyed, the bankers started up in a store. In the same building Mr. Giegerich had a general merchandise store and Mr. Byers ran a hardware store.

The first building to be put up after the fire was by James Thompson and it afterward became the Miners hotel. On the day after the fire, Mr. Thompson found a piece of paper in a shoe box and wrote an order for lumber to the mill at Nakusp. The order just asked for sufficient material to construct a building about 25 x 40 feet. D. StDenis, now of this city, was in the lumber business at that time and he asserts that the car left Nakusp the following morning and that two days later "Jim" Thompson was selling beer in the new building.

The next building which was completed was the Filbert hotel, owned by W. Walmsley and W. Bennett and was built by Foley & McMillan, contractors. Other buildings followed in close succession, including the Sandon house, erected for "Bob" Cunningham; the Palace, built by Mrs. Egan; the Reco, by J. N. Harris; the Balmoral, by Mr. McDonald; and the Miners Union hall.

SAY PRUSSIAN BILL MAY YET BE REJECTED

(By Daily News Leased Wire.)

STOCKHOLM, May 13.—The Berlin correspondent of the Tidningen reports that the Prussian franchise reform measures are likely to be rejected on their third reading by an increased majority.

The third reading begins today and a vote probably will be taken on Tuesday.

CHASED TURKS 20 MILES IN MESOPOTAMIA

(By Daily News Leased Wire.)

LONDON, May 13.—British mounted troops, after capturing Kirkuk, in Mesopotamia, pursued the Turks a distance of 20 miles to the northward, says an official statement issued today by the war office. On May 11, the Turks were driven across the Lesser Zab river at Altyn Kuhri. The latter place is 60 miles southeast of Mosul.

ENEMY AMMUNITION DUMP IS DESTROYED

(By Daily News Leased Wire.)

WITH THE AMERICAN ARMY IN FRANCE, May 13.—(By the Associated Press.)—A big enemy ammunition dump at Cantigny was fired by the American artillery bombardment. At the same time, two fires were started at Montdidier, followed by numerous explosions.

BUFFALO EXPRESS JUMPS TRACK; ONE KILLED, 10 HURT

(By Daily News Leased Wire.)

SCHODACK LANDING, N. Y., May 13.—The Buffalo express from New York to Chicago was wrecked here late tonight. One fireman was killed, one passenger fatally injured and eight or 10 other passengers more or less seriously injured. The engineer was badly scalded.

Practically every car was derailed, it was stated.

'PEG COUNCILLOR AUGURS GLOOM FOR TAXPAYERS

(By Daily News Leased Wire.)

WINNIPEG, May 13.—During the regular council meeting tonight, Controller Wallace hinted that an increase of about 7 mills was probable for the 1918-19 assessment.

VETERANS MAY GO BACK.

(By Daily News Leased Wire.)

WINNIPEG, May 13.—By a unanimous vote the delegates to the Army and Navy Veterans' convention at the afternoon session today decided to wire Ottawa an offer to raise a work battalion immediately.

THREE DAYS HUNGER ENDED HER VACATION

LOS ANGELES, Cal.—A romantic vacation by Myrtle Burrows, 18 years old, began recently with 90 cents in her pockets, no friends in the city, and without work or home, came to an abrupt ending when weakened by three days hunger and aimless tramping through the streets, she fainted at Fourth street and Grand avenue and was taken to the Receiving hospital. The girl was turned over to the juvenile department and will be cared for by the police until some action can be taken in her case.

Twenty-five were injured when a Staten Island trolley jumped the track on a curve.

The new United States anti-sabotage law carries penalties of $10,000 and 30 years' imprisonment.

"I Had Rheumatism But Now I Haven't"

Why Peter R. Shirman Recommends Dodd's Kidney Pills.

Manitoba Man Tells How His Troubles Vanished When He Used the Old Canadian Kidney Remedy, Dodd's Kidney Pills.

ETHELBERT, Man., May 13.—Special.—"I had rheumatism and now I haven't." That is the reason in a nutshell why Peter R. Shirman, a well known resident here, is singing the praises of Dodd's Kidney Pills.

"I could not work, but now I am strong," Mr. Shirman continues. "That is why I think Dodd's Kidney Pills are the best of all remedies."

Asked as to the symptoms that troubled him during the early stages of his illness, Mr. Shirman said:

"I caught cold a year ago. I was troubled with stiffness of the joints and headaches and my sleep was broken and unrefreshing. I was always tired and nervous and my skin had a dry, harsh feeling. I was often dizzy and I had a bitter taste in my mouth, especially in the morning.

"Finally rheumatism and lumbago and Bright's disease set in. Then I decided to try Dodd's Kidney Pills. They made me well."

If you haven't used Dodd's Kidney Pills, ask your neighbors about them.

CRESTON CONSTABLE GOES TO VERNON

Provincial Constable George A. Carter, now stationed at Creston is being transferred to Vernon to take the position of chief constable at that point.

Provincial Constable E. A. Vachon of Silverton will be transferred to the Creston station. It is expected that the change will take place immediately.

DEER DAMAGE WAR GARDENS AT GRAY CREEK

(Special to The Daily News.)

GRAY CREEK, B. C., May 13.—Corp. Geoffry Haddon, who has been under treatment at the military hospital at Vancouver, has received his discharge and will return here shortly.

Miss C. A. M. Smith has left on a visit to Hanna, Alta.

The deer are plentiful in here this spring and are causing much damage to gardens and fruit trees.

The compressor for the molybdenite claims owned by Charles Swanson arrived here during the week and will be installed as soon as the road to the mine is completed.

RUBBER OF GREAT IMPORTANCE IN WAR

Allies Fortunate in Having Adequate Supply For Its Many Uses

Rubber has been said to be the fourth prime necessity in the world war. Men, munitions, food and rubber—their importance ranks as they are named. The allies would be in a serious plight without rubber in its various forms, it is said. The progress of the allies would be slowed up almost to the point of defeat and thousands would suffer and die in European base hospitals without the aid of rubber.

America and her allies have a tremendous advantage over the enemy by having an adequate rubber supply. This advantage manifests itself in the air, on water, in the front line trenches, and behind the lines in the hospitals. Rubber is indispensable in submarine manufacture; in airplane and dirigible balloon construction; in the trenches the men must have waterproof clothing and rubber boots—and the agonies of thousands of soldiers are alleviated by various rubber appliances.

Enemy Has Little

Armored motor cars—the new powerful weapon to be used on an extensive scale by the allies, and recently introduced on the western front—will not be used to any extent by the Germans, because of their lack of rubber. The success of the light armored car lies in its ability to quickly maneuver, its development would have been impossible without the use of pneumatic tires. These armored cars, equipped with rapid firers, are playing an important part in checking the present drive the Huns are making toward Amiens. On being rushed to threatened parts of the front they have frequently held up large bodies of German troops. They furnish a remarkable steadying effect for the British lines.

One of these armored cars found itself in a certain village filled with German infantry. The crew was killed with the exception of the driver and one gunner. When the capture of the car seemed certain the gunner took his heavy rapid firer to the ground, where he held off large numbers of the enemy until the driver was able to turn the automobile around. This done, the machine was thrown into the car and the machine sped away. Recent newspaper despatches say that one of these Canadian motor cars held back an entire German battalion which was attempting to cross a canal. A battery of these cars is reported to have gathered 150 infantrymen about it and held the enemy off until British tanks and guns were safely withdrawn, and then escaped themselves.

Lots for Allies

While the Prussian ambulances, ammunition and supply trucks are slowly rumbling along on steel tires, and newly devised spring wheels, American, British, French and Italian automobiles and trucks are swiftly carrying out their missions on fleet rubber tires.

French officers, captured by the Germans and recaptured by the French, state that the Prussian officers immediately stripped them of every scrap of rubber, including the rubber from their shoes and clothing. In trench raids Fritz is ordered to thoroughly search the captured dugouts for Tommies' soccer football bladder. It will be remembered that the principal item of the Deutschland's cargo, on her return trip from this country, was rubber.

Rubber has served miraculously in the base hospitals on the western front. American surgeons marvel at the wonderful strides being made by the Army Medical corps. In these hospitals the surgeon and his assistants wear rubber gloves and aprons; rubber blankets are used on the operating tables; many of the instruments are made of hard rubber; and the equipment of the hospital includes syringes, hot water bottles, ice bags, air pillows and many styles of surgical bandages. One of the most remarkable uses rubber is being put to is the repairing of facial wounds. The irrigation of wounds by perforated rubber tubing has saved thousands of lives. To mitigate shocks, Sammies' helmets are rubber-cushioned. Submarine battery jars are made of hard rubber. Rubber is aiding in the prosecution of the war in countless ways.

ENGINEER HELD BY CHINESE BANDITS FREED

NEW YORK.—George A. Kyle of Portland, Ore., the American engineer who, since March 5, has been held captive by Chinese bandits in the province of Honan, China, has been released, according to advices to the state department from the American legation at Pekin, forwarded to the Siems-Carey Railway and Canal company here. Two other Americans and a Chinese engineer had been previously freed.

Ten thousand dollars, the first installment of money raised in San Francisco for the benefit of the Irish Nationalist party by T. P. O'Connor, noted journalist and member of the British parliament, was sent by him to John Dillon, leader of the party. Mc O'Connor said he hoped to raise an additional $10,000 before leaving for Los Angeles.

WOUNDED SOLDIER HEARS DAD ON RECORD

Morgan Kingston, the famous operatic tenor, now singing in New York (years ago he worked in the Notts coalfields) has just received news from the younger of his two sons, who are fighting at the front. The young man says he was lying in a field hospital when he heard his father's voice singing, "I Hear You Calling Me." He said to the attending nurse: "I know the man who is singing that record."

"Oh, no," answered the nurse, "you must be mistaken, for that is one of the world's greatest singers."

LEFT HIS WIFE AND FIVE CHILDREN TO GO TO WAR

MERIDEN, Conn.—Leaving a wife and five children, one of them an infant and the oldest not yet 14, Ernest Swatkins left his job as metal spinner at the Meriden Britannia company to join the British-Canadian fighting forces.

Swatkins is 36 years old but decided that he was not too old to fight. He is a British subject.

The little family gade him a brave farewell. They will receive $80 a month from the British government while he is in the service.

New Summer Corsets

Now Invite Your Inspection

THEY PORTRAY THE STYLES WHICH WILL BE WORN WITH THIS SEASON'S APPAREL. AMONG THEM WE FEEL SURE YOU WILL FIND SOME WELL SUITED TO YOUR FIGURE, AND OVER WHICH YOUR NEW SUIT, SKIRT OR DRESS WILL FIT WITHOUT A WRINKLE.

THE STORE FOR STYLE THE STORE FOR QUALITY

If Baby is Teething

he is liable to be fretful, but frequently a good deal of this is due to skin irritation which generally accompanies teething. Keeping baby's skin in perfect condition will do a great deal toward helping him through this trying period.

As soon as the slightest rash appears it should be treated with Zam-Buk. Nothing is so suitable for baby's tender skin. The absolute purity of this herbal balm never fails to commend it to mothers of discriminating tastes.

Mrs. C. B. Ritcey of Riverport, N.S., says: "My baby had sores on her face caused by teething, and although I tried numerous salves nothing would heal them. On a friend's recommendation I commenced using Zam-Buk. After the first two applications the sores began to heal and with continued treatment they entirely disappeared."

Zam-Buk should also be used for eczema, ringworm, boils, scalp sores, blood-poisoning, cuts, bruises, burns and scalds. All dealers or Zam-Buk Co., Toronto. 50c box, 3 for $1.25. Send 1c. stamp for postage on free trial box.

WHEAT SHIPMENTS TO WEST COST MORE

(By Daily News Leased Wire.)

OTTAWA, May 13.—According to a ruling in a judgment by the railway commission, just out, the movement of wheat from prairie points to the Pacific coast, is subject to the increase allowed in the freight rates December last, making an approximate increase of 15 per cent in freight and passenger rates. The ruling was asked for by the Grain Growers British Columbia Agency, Limited. It will be recalled that on a special application on behalf of those interested in the grain business in the west, the board ordered that the rates authorized by the main judgment to be charged on wheat, in carloads, to Port Arthur and Fort William only, would not be made effective until June 1.

The board finds that this judgment applied only to the movement of wheat to the head of the lakes and that westward shipments are subject to the increase allowed in the main judgment.

Paud Didato, a New York wholesale flour dealer, has been fined $5000 for violating food rules.

MAKE NEW BALL RULING

Must Be More Careful About Players in Leagues—No Effect on Soldiers.

(By Daily News Leased Wire.)

CINCINNATI, May 13.—All major and minor baseball league presidents were notified today by the national baseball commission to notify their clubs that all championship games in which a voluntarily retired player participated in before returned to good standing are illegal and cannot be included in the record of its league championship games.

The notice was issued after the commission's attention was called to the fact that players under reservation by major league clubs as a voluntarily retired player have played with minor leagues. The commission stated in the finding, however, that the right of voluntarily retired players who are in the military or naval service of the United States to engage in games as members of their teams representing their post or department is allowed and as such they may play against National league clubs in benefit or exhibition games prior to official restoration of their names to the active list of the club entitled to their services.

AMERICAN LEAGUE

New York, 3; Detroit, 2.

NEW YORK, May 13.—A two-base pinch hit by Caldwell enabled the New York team to defeat Detroit in the third game of the series here today, 3 to 2. With New York a run behind and the bases full in the sixth inning, Caldwell's double drove in the winning runs. A double by Pipp in the first inning enabled the Tigers to score their two runs.

	R.	H.	E.
Detroit	2	7	2
New York	3	8	2

Batteries—Erison and Yelle; Russell, Mogridge and Hannah.

Took 17 Men to Lose.

BOSTON, May 13.—St. Louis used 17 men today, but Boston, with Bush pitching, made it two out of three, winning by a score of 7 to 5.

	R.	H.	E.
St. Louis	5	10	3
Boston	7	14	1

Batteries—Sotheron, Rogers, Davenport, Leifield and Nunamker; Bush and Agnew.

Philadelphia Wins.

CHICAGO, May 13.—Chicago knocked Myers out of the box in the first inning today, but Adams and Geary, recruit pitchers, held the world's champions safe thereafter and the Athletics batted Danforth for a victory, 6 to 4.

	R.	H.	E.
Chicago	4	9	3
Philadelphia	6	10	1

Batteries—Danforth, Benz and Schalk; Myers, Adams, Geary and McAvoy.

Cleveland-Washington, postponed; rain.

NATIONAL LEAGUE

Cincinnati Wins.

CINCINNATI, May 13.—Grimes was so wild in the first two innings today that the Cincinnati team secured seven runs on two hits, a double by Blackburn and a triple by Sam Magee, enough to win the game.

	R.	H.	E.
Brooklyn	5	15	2
Cincinnati	7	7	0

Batteries—Grimes, Marquard, Cheney and Kreuger; Toney, Bressler, Wingo and Allan.

Rain Halts Tie.

ST. LOUIS, May 13.—Rain which had been intermittent throughout the game, caused a halt in the 10th inning of today's game between Philadelphia and St. Louis when the score was tied at 3 to 3. The game was a pitcher's duel between Oscheger and May, the former allowing but two hits. These came in the first inning, one of which was a home run by Cruise, with two men on.

	R.	H.	E.
Philadelphia	3	4	0
St. Louis	3	2	3

Batteries—Oscheger and Adams; May and Snyder. (Called end 10th, rain.)

Chicago Runs in 10.

CHICAGO, May 13.—Chicago batted Boston's pitchers freely today and won, 10 to 2. Merkle and Killduff led the attack, the former having a perfect batting average. He drove in three runs, while Killduff, with his four hits drove in five of the locals' runs.

	R.	H.	E.
Boston	2	6	2
Chicago	10	16	0

Batteries—Neff, Canavan and Wilson; Tyler and Killifer.

INTERNATIONAL LEAGUE

	R.	H.	E.
Rochester	0	4	2
Newark	4	10	4

Batteries—Grant, Russell and Flaherty; Rommel and Madden.

	R.	H.	E.
Syracuse	1	4	1

Batteries—Destro and Hopper; Horsey and McGraw.

	R.	H.	E.
Toronto	1	7	1
Baltimore	6	9	2

Batteries—Crabble and Fisher; Mason and Egan.

Binghampton-Buffalo, postponed; rain.

JOE JACKSON QUITS SOX FOR SHIP JOB

(By Daily News Leased Wire.)

PHILADELPHIA, Pa., May 13.—Joe Jackson, star outfielder of the Chicago Americans, notified Manager Rowland tonight that he had accepted a position with the Harlan & Hollingsworth Shipbuilding company at Wilmington, Delaware, a subsidiary of the Bethlehem Steel corporation, and that he would not play with the White Sox any more this season.

THOMAS DEFEATS BROOKS.

(By Daily News Leased Wire.)

CHELSEA, Mass., May 13.—Charles (Kid) Thomas of Philadelphia was awarded the decision over Terry Brooks of Boston at the end of a 12-round bout here tonight. The fight was close throughout.

GREBE BEATS M'COY.

(By Daily News Leased Wire.)

CINCINNATI, O., May 13.—Harry Grebe of Pittsburg received the decision over Al McCoy of New York after 10 rounds of boxing here tonight. Grebe had the better of every round. McCoy displayed extraordinary capacity for taking punishment.

SCHUPP SEES DOCTOR

(By Daily News Leased Wire.)

YOUNGSTOWN, Ohio, May 13.—Fred Schupp, star southpaw pitcher of the New York Giants, came here today to consult a bonesetter about his pitching arm, which has kept him out of the line up till now this season, except for a few exhibition games. Schupp tried out his arm Sunday but it was not firm. He was told to keep away from the game for two weeks.

AT THE THEATRES

Sessue Hayakawa and Fatty Arbuckle

The cast which has been chosen for Sessue Hayakawa's newest Paramount picture, "The Secret Game," is an exceptionally notable one, including Jack Holt, Florence Vidor, Mayme Kelso, Charles Ogle and Raymond Hatton. The latter, who has made several notable hits, once with Mary Pickford in "The Little American" and once with Geraldine Farrar in "The Woman God Forgot," takes the difficult role of a spy disguised as a woman. "The Secret Game" is one of the most up-to-date photoplays of the year and deals with the Japanese-American situation in a new and unexpected manner, showing the two great countries to be the strongest of allies and friends. The photoplay will appear at the Starland theatre, commencing on Wednesday.

Of all his disguises, save, of course, the time-honored overalls and derby, "Fatty's" most becoming and funniest is a demure bathing suit which he wears in his newest Paramount comedy, "Fatty in Coney Island." His adventures in the famous beach resort are wonders and the scenes were actually filmed there during the recent Mardi Gras festival. "Fatty in Coney Island" will appear at the Starland theatre on Wednesday and Thursday.

Real West on the Screen

In his new photoplay, "The Honor System," William Fox is said to have accomplished purely as an incident the most valuable reproduction of western life that the camera has yet given. For the first time in the history of the screen it is certain that the future historian of this country will turn for verification from the wonderful word paintings of Bret Harte and O. Henry to the scenes depicted in this master drama.

In realism Frederic Remington has been outdone, for what we have been wont to consider Remington realism becomes in "The Honor System" truth itself. The dance hall, the lazy burro, the biting mustang, the bat-eared cayuse and a thousand other things characteristic of the brave, upstanding West are all there, real, breathing, speaking.

"The Honor System" will be presented at the Gem theatre Wednesday and Thursday, with a matinee Wednesday at 2 p.m. Regular prices will prevail.

A SLUGGISH LIVER CAUSES LOTS OF TROUBLE

When the liver becomes sluggish it is an indication that the bowels are not working properly and if they do not move regularly many complications are liable to set in.

Constipation, sick headache, bilious headache, jaundice, heartburn, water brash, catarrh of the stomach, etc., all come from a disordered liver.

Milburn's Laxa-Liver Pills are a specific for all diseases or disorders arising for slow, sluggish, lazy or torpid liver and they have been universally used throughout Canada for over 20 years with the greatest success.

Mrs. W. A. Harrison, 7 Poplar Grove, Halifax, N.S., writes: "I take pleasure in writing you concerning the great good I have received by using Milburn's Laxa-Liver Pills for a sluggish liver. When my liver got bad I would have severe headaches, but after using a couple of vials of your pills I have not been bothered any more."

Milburns' Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

NELSON BASEBALL CLUB IN DAYS OF REAL SPORT

Here's a Picture of the Local Line up Taken During the 1911 Season. The Aggregation is all Broken up. Most of the Boys Have Played Their part in the World's Series Game Over There.

The names; First Row—W. Sturgeon, T. Houston, S. Booth, D. Chapman.

Second Row—Manager W. R. Maclean, W. Moore, L. Phillips, D. Phillips, George Bartell, Harry Bishop, Archie Bishop.

And who said "Pete" Hannah—he was the mascot.

Nelson baseball team in 1911 was the only one able to take the heavy end of a score in a game with Cranbrook during that season. W. R. Maclean and Harry Bishop are the only ones in the picture who are in the district at present. Mr. Maclean was manager of the team and Harry Bishop played infield, mostly at second.

"Billy" Sturgeon, who is now a lieutenant, is recovering from wounds received in France and is at present doing light duty in connection with the transportation of troops. He is stationed at Victoria.

"Tommy" Houston lost a leg in France and is now at Toronto where he is receiving treatment.

"Sam" Booth is a captain in the Y. M. C. A. and has been to France several times and has been forced to return to England for operations to a knee which was injured playing baseball.

D. Chapman, who was a motorman on the Nelson street railway, is at present in Washington. He was the star pitcher during the season of 1911 and has many games to his credit.

Archie Bishop is at present in Calgary and Moore and Bartell have not been heard of by any members of the team for some time.

L. and D. Phillips played several seasons with the maroon and white and made a name for themselves in baseball circles in the city.

"Pete" Hannah, that little chap, was mascot for many years and gained a reputation among the players for being able to obtain the ball when knocked over the fence and in danger of being stolen by small boys who lurk behind the field for this purpose. "Pete" has been to France and was wounded in the foot.

TENDLER DEFEATS BLOOM.

PHILADELPHIA, Pa., May 13.—Lew Tendler, the Philadelphia lightweight, had the better of a slow six-round bout with Phil Bloom of Brooklyn here tonight.

Washington has decided upon a separate motor transport department for the United States army.

CURTAIL U. S. TRAINS TO DEFEAT GERMAN EMPEROR

WASHINGTON, May 13.—Director-General McAdoo today ordered curtailment of transcontinental passenger schedules from Chicago west, effective June 2, to save 11,720,000 train miles a year by eliminating competition and cutting down running schedules.

"THE HONOR SYSTEM,"
At the Gem Wednesday and Thursday

Retaining of a lawyer to take up the matter of alleged impositions that are practised upon the wives of soldiers daily by landlords and agents is advocated by the Army and Navy Veterans association at Winnipeg.

CHURCH COUNCIL MEETS AT COAST

Rev. W. W. Abbott Is One of Committee in Session at Vancouver.

(By Daily News Leased Wire.)

VANCOUVER, B. C., May 13.—The stationing committee of the British Columbia Methodist conference met this morning in Wesley church. Rev. B. C. Freeman of Revelstoke was elected secretary.

The following delegates were present from the upper country: Kamloops district, Rev. B. C. Freeman, Rev. W. J. Frank; Okanagan district, Rev. William Vance, B.A., Rev. R. W. Lee; West Kootenay district, Rev. W. W. Abbott, B.A.; East Kootenay district, Rev. Thomas Keyworth, Rev. M. W. Lees.

The committee will recommend to the conference that the name of the Fort George district be changed to Hazelton, in view of the fact that the work of Fort George and the east of the district has been left in the hands of the Presbyterian church. This is one of the arrangements made by the cooperating committee of the Methodist and Presbyterian churches.

COOL DAYS RETARD WHEAT SPROUTING

(By Daily News Leased Wire.)

REGINA, May 13.—Wheat seeding is completed and 40 per cent of the oats are now sown in Saskatchewan, according to reports received by the provincial department of agriculture from their correspondents throughout the country.

The cold, frosty weather of the past week has delayed seeding operations somewhat in many parts of the province and has also had the effect of making the growth slow and backward. Little barley or flax has been sown as yet.

No lack of moisture is reported, with the exception of the middle western district, where rain would be welcomed. The area under spring plowing is estimated to be increased from 10 to 12 per cent.

EXPECT ALLIED WAR BRANCH IN CHRISTIANIA

(By Daily News Leased Wire.)

LONDON, May 13.—Referring to the trade agreement between Norway and the United States, the Morgenbladt of Christiania, according to a despatch to the Times from the Norwegian capital, says the allies intend to establish in Christiania a sort of branch of the war trade board to facilitate commercial transactions. The staff, it adds, will be installed in the American legation, where representatives of British, French and Italian commercial institutions will meet and confer.

HUNGARIAN HEADS QUIT CABINET OFFICE

(By Daily News Leased Wire.)

AMSTERDAM, May 13.—A Budapest despatch announces that Andrew Barkocsky, president of the Hungarian upper house, has resigned, as have the two vice-president of that chamber.

33 FRUIT AND VEGETABLES.

CONSPIRACY PLOT TO BE PROBED IN NEW YORK

NEW YORK, May 13.—An investigation into alleged holdings for German account in the United States of 1,000,000 Mauser rifles, machine guns and ammunition will be begun here tomorrow by Attorney-General Lewis of the State of New York, it was announced today. About 60 witnesses who are supposed to have knowledge of the existence of the munitions, will be examined.

The investigation is being undertaken at the request of the army intelligence bureau.

SWISS WEAR GAS MASKS FOR PROTECTION

(By Daily News Leased Wire.)

GENEVA, May 13.—Swiss troops on the Alsatian frontier have begun to suffer from poison gas floating back from the western front toward the Rhine, Swiss newspapers say. The civilian population along the Rhine has been warned to provide themselves with gas masks. The school children in Freiburg wear gas masks daily.

TO USE ALL SCHOOLS FOR REGISTRATION

(By Daily News Leased Wire.)

VICTORIA, May 13.—Attorney-General Farris has placed the schools and government buildings throughout the province at the disposal of C. G. Mahon, superintendent for British Columbia of the man power registration, for one day, upon which the registration will take place. It was also suggested that offers of voluntary assistance on that day would be possible.

AIRPLANE POST SERVICE FOR NORTHERN ROUTE

(By Daily News Leased Wire.)

LONDON, May 13.—Despatches to the Exchange Telegraph company from Christiana say that an aerial service between Aberdeen and Stavenger is expected to open soon for carrying mail. It is pointed out that economic interests between Great Britain and Norway are so great that improved postal and passenger service is a necessity.

LITHUANIANS PROTEST GERMAN ACTION

(By Daily News Leased Wire.)

AMSTERDAM, May 13.—Strong opposition is developing among the Lithuanians against Lithuania becoming a German "semi-federal" state without the rights of a federal state, according to the Berlin Socialist newspapers. This, the newspapers declare, demands an entirely independent Lithuania, under a monarch chosen outside the belligerent monarchies.

LARGEST STATUE IN THE WORLD IN JAPAN

The largest statue in the world is being carved in Japan. It is a recumbent effigy of Nichiren, a Japanese patron saint, cut from a natural granite rock on a hill side on the Island of Ushigakubi, in the inland sea of Seto, Japan. The stone image will be 240 feet long from head to foot, 60 feet longer than the Sleeping Buddha statue at Segu, Berma, and considerably larger than the Sphinx in Egypt.

NELSON'S TOTAL NOW NEARS GOAL

Subscriptions to Red Triangle Fund Last Evening Amounted to Approximately $6000.

CANVASS TODAY FOR LAST $500.

Committee Needs Assistance to Finish Campaign—200 Persons to Be Seen.

Last night the total amount subscribed to the Red Triangle fund for the city of Nelson amounted to about $6000. The actual figures will be learned today when the treasurer is expected to make his report.

J. R. Hunter stated last evening that he believed the committee would find no trouble in securing the remaining $500 to bring the total up to the $6500 quota.

There are about 200 persons yet to be seen and the committee will work today in an endeavor to clear up the remainder.

Granite road will be canvassed and the men who have not been seen in the city will be asked to subscribe.

Mr. Hunter said that there would be no difficulty in obtaining the money if only sufficient canvassers could be secured to complete the district.

Social and Personal

P. Clark, Spokane mining man, was registered at the Hume last evening.

Austin Elliott is in the city visiting his mother, Mrs. R. A. Elliott, Carbonate street.

Mrs. G. S. Wood of Creston was a guest at the Hume last evening.

Mrs. E J. Ryall was a Creston visitor in the city last night and was registered at the Hume.

According to the reading made at the city guage yesterday afternoon the water in the lake stood 9.4 feet above low water level.

Mrs. Sturgeon has received a telegram from her son, Lieut. William Sturgeon, from New Westminster in which he states that he is leaving for Toronto and has been unable to obtain leave to visit his home before reporting to the Royal Air force.

"Jack is a deceitful man."
"What makes you think so?"
"He pretended to believe me last night when he knew very well I was lying to him."

C. P. R. Photoman Is Here—Takes Baker Street Picture at Midday Sharp

SMILE AND STEP SMARTLY

Mayor McQuarrie Suggests That Automobiles Would Show Up in Fine Shape

J. C. S. Bennett of Montreal, official photographer of the Canadian Pacific railway, is in the city and is taking photographs for general advertisement purposes. At noon today Mr. Bennett will take photographs of Baker street and Mayor M. R. McQuarrie stated last evening that he hoped the street would have a busy appearance at 12 o'clock noon.

Mr. Bennett stated yesterday that he had made his visit early this year so as to get pictures of the district before there were any fires, in order that he could take some distance views. A couple of fires on Saturday have made a haze over the city and he has found it impossible to get good views of this sort.

In company with J. S. Carter, district passenger agent, he made a trip yesterday to Bonnington Falls and expressed his satisfaction at the views obtained there.

Mr. Bennett is securing photos of blossoms and catches of fish.

He expects to leave in a few days for the Windermere district, where photos will be taken of the new irrigation project, after which he will return to the main line, where Field and Glacier are on his itinerary. During his stay in the city Mr. Bennett makes his headquarters in his private car.

FLOUR ORDER SOON EFFECTIVE

Dealers Say "Common Sense View" Is Their Idea of Meaning of the Act.

Dealers in the city state that "the common sense view" is the way in which they are looking at the recent drastic regulations enacted by the Canada food board. They believe that it is not the intention of the food controller that sacks of flour should be broken in order to give purchasers the exact amount required for their 15-day supply. One dealers pointed out yesterday that the breaking open of sacks meant wastage and that the regulations did not encourage any such action.

Many enquiries have been received by the dealers as to the amount of flour certain customers should buy. "Use common sense and be patriotic" was the reply of one local dealer. Even though a 49-pound sack of flour and and 20-pound sack of sugar would mean more than a 15-day supply to some families it is not thought that the food controller would require these supplies to be reduced. Dealers believe that the requirements of the food board as just to prevent hoarding.

Regarding the regulations as applied to dealers themselves they point out that it is impossible to plan for a 60-day supply as regulations prevent the shipping of fractions of carload lots. Although a carload of flour may last a dealer more than 60 days it is impossible to tell beforehand whether or not this amount is going to be used before the 60 days or not.

Several retailers stated that for some time they have been refusing to sell more than one sack to persons whom they knew did not require that amount and for this reason believe that in the city there will be very few cases in which purchasers will be required to return flour or sugar.

The police point out, however, that under the regulations which are to hand there is no mention of "broken sacks" and that this fact and the word from the western secretary of the food board regarding beet sugar are not contained in their regulations.

Much anxiety prevailed in the city yesterday as to whether the police would prosecute in the case of persons who had more than the 15-days supply although it may be a 49 or 98-pound sack which had been opened.

Regarding the difficulty of getting a supply for persons living out of the city the regulations make allowances as follows: A person living at a greater distance than two miles and less than five from a licensed dealer, may have in his possession, or under his control, cane sugar or flour, not more than is sufficient for his ordinary requirements for a period of not exceeding 30 days; a person living over five miles and less than 10, may have sugar and flour not more than is sufficient for his ordinary uses for a period not exceeding 60 days; and for persons living 10 miles or over not more than is sufficient for more than 120 days.

FISHING SEASON IN FULL SWING

Old Timers Make Some Fine Catches During Day's Sport, Say City Stories.

Old timers in the city state that the salmon never were more plentiful in the lake than at present. Nearly 200 pounds of fish were brought in from Proctor and district during the last two days and some splendid catches were reported.

Mr. Potter caught three which weighed nearly 40 pounds altogether. Mr. Clark brought one which weighed 13½ pounds. It took just 45 minutes to land this fish and Mr. Clark reports that it put up a great fight.

J. Montreall, lighthouse keeper at Proctor, was out in his steam launch and hooked a char, the weight of which onlookers estimated at 40 pounds. He had the fish right up on deck and, unlike a salmon, the char puts up its greatest fight after it is out of the water. The gaff twisted when the great fish gave a lunge and it got loose. Mr. Montreall tried to get his arms about the fish so as to prevent it from slipping off the deck, but it got away.

Howard Bush and J. Wightman spent Sunday and Monday at Proctor and brought back eight salmon and four char. They reported that most of the fish were caught between Coffee creek and Queens bay. They used a bronze spoon and found that the salmon took it well. One salmon which must have come up between the boat and the bait struck and whizzed out about 50 yards of line before it was halted. "Jim" was lying on his back in the bottom of the rowboat when the fish struck and he jumped so quickly that the boat lurched to one side and shipped water. In the confusion the salmon got loose.

"Bob" Bell brought back two beautiful specimens, which he is accused of catching, although a friend gave the information that he believed the Proctor Indians were richer than before his visit.

Other fishermen who were successful were A. Tregillus who landed five, J. D. Caverhill and W. Gerbracht.
