KAISER TURNS OVER POWER TO PEOPLE

Claims That All He Wants Is Their Welfare—Vests Government in the Electorate.

(By Daily News Leased Wire.)

AMSTERDAM, Nov. 3.—On the occasion of the constitutional amendment coming into force, says an official telegram from Berlin, Emperor William adressed to Prince Maximilian a decree endorsing the decisions of the reichstag and avowing his firm determination to cooperate in their full development. The emperor's decre reads:

"I return herewith for immediate publication the bill to amend the imperial constitution and the law of March 17, 1879, relative to the representation of the imperial chancellor, which has been laid before me for signature.

"On the occasion of this step, which is so momentous for the future history of the German people, I have a desire to give expression to my feelings. Prepared for a series of government octs, a new order comes into force, which transfers the fundamental rights of the kaiser's person to the people.

"Thus comes to a decisi a period which will stand in honor before the eyes of future generations. Despite all struggles between invested authority and aspiring forces 't has rendered possible to our people that tremendous development which imperishably revealed itself in the wonderful achievements of this war.

"In the storms of four years of war, however, old forms have been broken up, not to leave their ruins behind, but to make a place for new and vital reforms After the achievements of these times the German people can claim that no right that may guarante a free and hapy future shall be held from them.

"The proposals of the allied governments, which are now adopted and extended, owe their origin to this conviction. I, however, with my exalted allies, endorse these decisions of parliament in firm determination so far as I am concerned, to cooperate in their full development, I am convinced that I am promoting the wealth of the German people.

"The kaiser's office is one of service to the people. May then the new order realize the good powers which our people need in order to support the trials which are hanging over the empire and with a firm determination, step into a bright future from the gloom of the present.'

House today was a continuance of the sess prsnoisoieluvau8-nis. ance of the sessions previously held. While the discussion was largely informal it went over the whole range of subjects.

GERMANS IN THE WEST IN BAD SHAPE

Retire Rapidly Under Stern Blows Which Are Being Driven Home by Allied Armies

(By Associated Press.)

In France and Belgium the Germans are being sorely harrassed by the British, French, Americans and Belgians, and there are indications that a debacle is about to occur.

The Argonne massif, which has proved a great obstacle to the advance of the French and Americans, at last has been cleared of the enemy and the entire line appears to be crumbling.

American airmen report that the enemy in front of the Americans are retreating northward, that the roads are densely packed with troops, artillery and transports.

Retreat Before British Drive

Likewise, southeast of Valenciennes the Germans are retreating before the British, who are in pursuit and taking numerous prisoners. North of the Aisne in Champagne, the French continue their pressure and have taken several important villages, large numbers of prisoners and great quantities of war stores.

The advance of the Americans and French on the southern part of the battlefront, taken in conjunction with the operations of Fleeld Marshal Haig and the Belgians in the north, threatens to prove the culminating blow to Germany's attempts to hold ground in France or Belgium. Indeed, it is not improbable, if the advance from the south continues as rapid as it is, the greater portion of the German army will be trapped before the men can reach the border.

The situation of the Germans seemingly is a critical one.

MAY INDICATE TERMS FOR THE HUNS

Washington Awaits Details of Austrian Armistice With Interest—May Attack South Germany

(By Daily News Leased Wire.)

WASHINGTON, Nov. 3.—Armistice terms which the Austrians have accepted are expected here to furnish a clear index to those which the supreme war council at Versailles is preparing for Germany.

Consequently their publication will carry greater significance than otherwise would attach, since the Austrian surrender had been discounted in advance by the internal disintegration of the dual monarchy on the collapse of the Austro-Hungarian forces on the Italian front.

Official announcement that the armistice had been signed reached the state department today. In making this known, officials gave no indication of the terms imposed, nor was there any explanation of why cessation of hostilities had been delayed 24 hours or more after the actual signing of the armistice.

The generally accepted view, however, seemed to be that it was desired to have virtually all Italian soil freed of enemy troops before the Italian armies were committed to end their attacks upon the routed Austrian forces.

Military men here said the terms which the supreme war council had prepared would make it impossible for the Austrians to renew hostilities, probably including the disarming of the enemy troops and the occupation of strategic points as well.

May Attack Huns from South

Some of these, namely, Trent and Trieste, already have been occupied by Italian and allied forces.

Free movement of the allied forces through Austria to attack Germany from the south should the supreme war command decide such a stroke necessary in the future, also is expected to be a stipulation.

Unofficial reports from Vienna today said the Germans were preparing for such an attack by digging trenches on and fortifying the Bavarian frontier. The defection of Austria leaves Germany stripped of its last ally and most of the military men here, both allied and American, believe that her capitulation will follow soon after the terms from Versailles are submitted. Exchange of views between Colonel House, special representative of the American government in France, and the allied premiers, continueed today at Col. House's home in Paris and apparently the general terms for Germany aree not yt ready for submission to the allied military leaders for consideration with regard to the military needs.

Great importance is attacher hede to the course followed by the allied and American governments in referring peace settlements with Austria, Turkey and Bulgaria until Germany also shall surrender or be crushed.

This policy is counted upon to prevent any eleventh hour attempt on the part of the Germans to sow seeds of discord among the allies.

To Press Aolentlessly

In view of the general situation, the smashing Franco-American victories north and west of Verdun are regarded as significant.

Unless an armistice interfers, it is believed the thrust will be pressed home relentlessly to cut the German front in the west in half before there is another halt.

With hardened mountaineers of the Italian army available for use elsewhere, with the surrender of Austria, some observers look for immediate preparation for the invasion of Germany by way of Alsace-Lorraine. Italian picked troops might be spared at once to join such a campaign as they would not be needed to carry out operations incidental to the Austrian surrender.

Favorable Reports Come from East—Churches Are Opened in Toronto—Practically no New Cases.

(By Daily News Leased Wire.)

TORONTO, Nov. 3.—Reports from all sources in Ontario indicate that influenza has ceased to be an epidemic, in the opinion of the authorites. At the city hall here today only three calls were received in place of 150 two weks ago.

While there is a general decline in the epidemic, there are a number of patients seriously ill with pneumonia and other complications of influenza and new cases are still being reported.

Up to noon on Saturday registrations of deaths with the Toronto city clerk numbered 212 influenza, six pneumonia and four from other causes.

The theatres in Toronto will reopen on Monday. The churches were open for two services today, instead of only one service as was the case for two Sundays.

Kingston churches opened today and the theatres will open tomorrow. The schools, however, will remain closed for another week.

In London the number of influenza patients admitted to hospitals has dropped from 142 to 123. No new cases have developed at the Carling Heights camp and there are only 40 patients there now, less than half the number of a week ago.

In Brantford six deaths from influenza occurred today and there were 33 patients in the emergency hospital. Schools and theatres continue to be closed. The influenza epidemic is abating at Hamilton. During the past week 407 cases were reported.

Steadily Abating.

MONTREAL, Nov. 3.—Deaths over the weekend from influenza totaled 93. Total cases since Oct. 1 now number 16,698, with 2904 deaths. Military records both here and at St. Johns now show a clean sheet. Up to Saturday 833 municipalities had reported to the provincial board of health with 156,740 cases and 3510 deaths.

In the opinion of the oMntreal city health officer the epidemic is steadily abating.

One of the most picturesque spots in Vermillion County, Danville, Ill., and on eof the best known of the old landmarks, soon wil be a thing of the past. The spot in question and from which the neighborhood receives its name, is Walnut Corner, ten miles northeast of Danville, near the Indiana state line.

The road for half a mile south and half a mile east is lined with walnut trees, which are fast falling before the woodman's axe. The lumber will be made into gun stocks for the United States government. Walnut lumber is so scarce that a part of the trees, the most solid, are being dug up by the oots.

It is estimated that 30,000 feet of solid walnut lumber will be added to the Government's supply.

Winnipeg Finds that Conditions Are Growing Much Better—Good Reports from Calgary

(By Daily News Leased Wire.)

WINNIPEG, Oov. 3.—If the number of cases reported to the health authorities over the weekend can be taken as a criterion of the number of new cases of Spanish influenza which developed in Winnipeg during that period, then there is every reason to believe that the crest of the epidemic has been passed. Following the development of 553 casees on Friday, only 312 nw cases were reported to the health officials on Saturday, with four deaths. Today's returns, however, are considered by medical men to be remarkable, only 112 new cases and nine deaths among civilians being reported.

The returns of the week end being the total number of cases reported since Oct. 3 up to 3139 with 96 deaths.

Two deaths among the soldier patients here were reported during the weekend, bringing the death total from thee pidemic among the men stationed in the city up to 13.

CALGARY, Nov. 3.—The influenza seems to be on the decrease in Calgary. Fifty-five new cases were reported on Saturday as against 75 on Friday and only 50 were reported today. Only two deaths wore officially reported.

Inocculation Brings Remarkable Results in South Africa, Where Disease Is Raging

(By Daily News Leased Wire.)

CAPETOWN, South Africa, Oct. 31, via London, Nov. 3.—Some idea of the magnitude of the influenza scourge can be gained from the fact that almost every village has sustained losses. Besides 7500 victims in Capetown, 4500 in Kimberley, the known reaths today total 1000 in Pretoria, 600 each in Johannesburg and St. Ellenbosch.

Durban escaped with only 47 deaths. Deaths among the British official community in southwest Africa have been 125.

Up to the present time it has been impossible to estimate the death roll in native territories.

The outstanding feature of the epidemic has been the success of the nfluenza vaccine supplied by the government bacteriologist.

This has proved to be a wonderful preventative and safeguard against pneumonia, while some doctors achieved remarkably satisfactory results from inocculation during illness.

TELLS SORDID TALE OF ABUSE AND NEGLECT

(By Daily News Leased Wire.)

DETROIT, Mich., Nov. 3.—A sordid tale of abuse and neglect by her husband, whom she married at Banff, Alta., when only 14 years old, was told in circuit court here yesterday by Mrs. Grace Mayward, in her application for a divorce from William Mayward. The couple were maried in 1908. Shortly afterward Mayward took his girl wife to a homestead he had taken up some 45 miles from any other habitation. He left her telling her she must remain on the land so they might hold it. For six years Mrs. aMyward liver alone in this shack and received only occasional visits from her husband. Seed wheat, furnished by the government she ground between stones to make a coarse meal for bread. Through the long Canadian winters her only garment was a loose dress made by cutting holes for arms and hed in the coarse sacking in which the wheat had been shipped. For three years, her bill asserts, she neither saw nor spoke to any human being except at rare intervals when her husband came for a day or tfo into the desloate wilderness, where her only companions were wild beasts that howled around her cabin through the cracks in the poor shanty. She bore three children, all, she said, without medical attention or care of any sort. A stranger passed on day and to him she told her story. He did not wait, but drove her with her children, to the nearest post of civilization where her story brought funds sufficient to bring her to Detroit where she has a sister. The divorce case will be decided in a few days.

UBIQUITOUS PACIFIC FISH.

Pacific fish is gradually finding its way into homes all over Canada. Three steam trawlers are engaged on the western coast in catching soles, flounders, brills, plaice, skate, red, grey and ling cod, and as this fishery develops other trawlers will be placed in commission.

Halibut is caught in the North Pacific and up in the Gulf of Alaska but more and more is it establishing itself in the luxury class of food. Canadians have used halibut until they have depleted the supplies available and the long distance to and from the fishing grounds has further contributed to putting it beyond the pale of common use.

WHY TO BUY VICTORY BONDS

Returned Prisoner Gives Vital Reasons Why People Should Subscribe to Canada's Loan

(By a Rturned Prisoner of War.)

At the request of the Nelson Victory Loan committee I am endeavoring to place before the citizens of Nelson and district a few vital reasons why everyone who possibly can should purchase Victory bonds, not only to the extent of their ready cash, but to the limit of their borrowing capacity. If it were only possible for any returned prisoner of war to personally relate his experiences to the people of Nelson and district I have no hesitation in saying that not only would we reach our quota but this amount of $400,000 would be greatly exceeded.

The treatment of prisoners of war in Germany is extremely bad in the best of cases and in the majority of cases is cruel to a degree. Contrary to international law the prisoners are forced to work down the coal and salt mines and at the coke ovens and under conditions which no civilized government would permit. The food is only sufficient to sustain life, and consists of acorn coffee, without milk or sugar, and about 10 ounces of black bread per day. Dinner and supper consist of soup made out of mangel wurzel, carrots or turnip tops. No meat was supplied and occasionally potatoees, but in this case thy were invariably bad. As a luxury (?) we were occasionally supplied with a soup which was commonly known amongst us as "sandstorm." No one ever solved the ingredients, the only thing we ever knew about it was that it was "gritty" and the color of sand. Were it not for the home government supplying the necessities of life the majority of the prisoners would have died. The Germans did not supply clothing to the prisoners of war and this also was remedied by the British government.

Prisoners refusing to do work which they considered would be helpful to the German military power were cruelly tortured and in many cases succumber to the injuries received by such treatment. You can readily conceive the severity of the German punishments by recalling the sinking of the Lusitania and the murders of Nurse Cavell and Captain Fryatt.

Consider for a moment the position of the prisoners of war in Germany at the present time. In many cases these unfortunate men have beeen suffering from this degrading captivity since the second battle of Ypres in April, 1315. For over three years they have been fighting a far greater battle against the tyranny of the Hun than has been fought on the plains of Flanders. They have been and are fighting to save their intellect, to preserve their national spirit of independence, and to show the depraved Hun that a Lritisher cannot be cowed by such methods, and the courage of the prisoners of war in the hands of the Germans is as splendid today as it was in the pre-war days. These men left the shores of Canada (and other countries) to fight for the freedom their forefathers had so nobly fought for and won, and unde: such terriblee conditions as ar existing today in the hellish prisoners of war camps in Hunland their spirit is still unbroken. Every minute of their existence in Germany they are shouting by their actions, much louder than by words, the crop that has echoed from billions of British mouths, "Britains neevr, never shall be slaves." To-day Germany hears her death knell. What do you people in this beautiful free country hear. Do you hear the eternal cry that is echoing from thousands of prisoners of war. "How long before we can escape from this hell on earth." You, and you alone, can relieve this almost unbearable agony. Yours is the easy part. The men who have gone overseas have offered and given their lives. You are not asked to "give" anything, you are only asked to "lend." Surely this is a trifle to do in these days. Are you going to keep the prisoners of war one day longer in Germany than is absolutely necessary? Yet you will be doing so unless you lend to your full capacity. There is no argument to this appeal at all. There is no "other side of the question." The soldier has done and is doing his share for your sake. What are you going to do fo his sake. The prisoners of war are helpless to help themselves. They are hounded from pillar to post in the prison compounds. They are kicked, spat on, stabbed with the bayonets and suffering untold indignities, and are unable to protect themselves. You alone can help them. Are you going to fail them in their hour of need. Not one of Canada's sons overseas have failed you. It is due to them and their comrades. They are waiting for your answer? What shall it be?

I am not quoting you from any blue or white papers, but I am speaking as one who has suffered at the hands of the Hun in prison camps. For 13 months I was in Germany as a prisoner of war, and as a result of my treatment there they were compelled to exchange me with others into Switzerland. During my captivity I lost nearly 50 pounds in weight, solely through the conditions under which I lived and the treatment I received. I spent 21 month sin Switzerland recovering my health and strength. I have been extremly fortunate, but what must be the condition of the men who were captured with me in the second battle of Ypres, in April, 1915, and are still prisoners of war in Germany. These are the men for whom I appeal. You will meet some of these men. Will you be able to face them on their return if you have not subscribed to the Victory loan to the full?

In Switzerland we had a club whose motto was, "He who lives for himself lives of nobody. He who lives for others lives for himself."

Let this be the spirit of everyone in this district, and you will soon see the boys back home again.

Every prisoner of war in alien enemy camps and every soldier fighting for Great Britain and her allies is an argument for purchasing still more Victory bonds. More dollars means fewer graves.

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape.

While the skin is the seat of the irritation, unsightly pimples, the real disease is in the blood.

Medicated lotions and powders may allay the itching and irritation, but never cure, no matter how long and faithfully continued and the condition is often aggravated and the skin permanently injured by their use. The disease is more than skin deep; the entire circulation is poisoned.

Burdock Blood Bitters quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions.

B. B. B. Cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack.

Miss E. M. Davids, Daysland, Alta. writes: "Last summer I was greatly troubled with pimples breaking out all over my face, arms and neck. I was advised to try Burdock Blood Bitters and after taking two bottles the pimples had almost all disappeared. I shall always recommend this remedy to any one afflicted with skin troubles."

B.B.B. is manufactured only by the T. Milburn Co., Limited Toronto, Ont.

HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those weak, "all gone," sinking sensations, which come over some people from time to time, are warnings that must not go unheeded.

They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off but the next may be serious.

Those who are wise will start taking Milburns Heart and Nerve Pills before their case becomes deep rooted and perhaps hopeless.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McCoy, Algoma Mills, Ont., writes: "I was awfully troubled with fainting and weak speisl and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of those spells and she got me a box of Milburns Heart and Nerve Pills. That was six years ago and from that day to this I have never had any of those spells. I would not be without your pills for any money and can highly recommend them to any one."

Milburns Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SOUTH SEA ISLANDS IN SWAY OF COMMERCIALISM

PAPEETE, Tahiti.—The cold calculating hand of commercialism has gripped these South Sea islands.

Various trading companies are located here, sending their schooners through the islands buying copra and distributing such merchandise as is in request among the inhabitants. According to residents here, these trading companies are amassing money and, as there is no excess profit tax or commissions, are said to be profiteering "for all the traffic will bear."

By way of eprisal the natives are said to have raised the price of all domestic foodstuffs and the innocent bystander complains that he is being torn to shreds by this economic rip saw. Says one resident:

"To the east of us is an archipelago of about 80 coral atolls called the Paumo tu group, whence come both copra and pearl shell and it is there that competition among the traders is raised to the nth power. The difficulties are increased by the canniness of the Paumotu native, for his islands having been, since time began, the cruising ground of most of the hard shelled buccaneers of the Southern Seas, he is well learned in "ways that are dark and tricks that are vain."

The retail trade of the islands is almost exclusively in the hands of the Chinese. Papeets is so filled with their shops that it has the appearance of a Chinese town with all the accompanying smells associated with the Orient.

SAYS CALIFORNIA BEER SEED BREW WILL BEAT NEAR BER

SACRAMENTO, Cal.—A plea for a "ctake" of "California beer seed," that will produce a beverage which is "mighty good ginger cake, beats sassafrastea and ice tea and is better than near beer," has been received by Charles Paine, secretary of the California State Agricultural society, from W. A. Adair of Marshall, Texas. Paine said he held no information concerning "beer seed," but has appealed to the public for assistance that he may comply with the request.

Adair's letter said:

"During the civil war we made a home beverage called California beer, made from California beer seed. The seed multiplied several hundred fold monthly, is my recollection. I know that a seed the size of a grain of sugar grew to be as large as a buckshot, rose gradually from the bottom of the container to the top, then burst into hundreds of little ones and sank to the bottom again.

"Some friends laugh at me and say this is a dream. Dream or not it was mighty good with ginger cake during the war, and beat sassafras tea. As it is made of water and cheap molasses it will beat ice tea without sugar and I believe it will be better than near beer.

"Can you lend me to a stake of seed? Will send you back the stake and interest."

COMMISSION TELLS HOW TO STORE POTATOES

Many have grown potatoes this year who never did so before, and consequently will be unfamilia rwith the best methods of protecting the crop.

Owing to the excessive rains this autumn, potatoes in some districts have become infected with rot and many have been harvested under unfavorable conditions. In many instances they have been stored in cellars before being properly dried. Potatoes showing any indication of rot should not be stored with sound ones. This is especially true if there are abnormal conditions of moisture, as such conditions will cause a greater activity of the fungus and, consequently, quicker rotting of the potato.

Potatoes should be stored in as dry and cool a place as possible without freezing. The drier they can be kept the less ot rwill develop.

This year, especially, potatoes should be carefully sorted within from three to fou rweeks after storing in the cellar, those showing any signs of developing rot being discarded. This will protect the remainder of the crop.

Food is badly needed, and it is our positive duty to take care of what has been produced.

BLIND, ONE-LEGGED, SMILING

In tre current number of the monthly magazine brought out by the blinded soldiers of the hostel, there is a paragraph: Drummer Downs was drummer of the Royal North Lancashires once; he lost his right arm as well as his sight when fighting for his country, and only the little finger remains on his left hand. But he goes blithly about with a signet ring on that one remaining finger, and bangs the big drum in St. Dunstan's Own Ragtime Band, clashes the cymbals and blows a whistle, all at one and the same time. He manages, too, without letting go of the whistle, to smile the jolliest smile one need wish to see.

DOGS CAN OUTRUN HORSES

How fast can a dog run? Trout and Stream, an authority on out-of-doors matters, says:

Eskimo dogs can travel 45 miles in five hours, according to an authority, who relates that he once drove his dog team seven miles in half an hour. Ordinary domestic dogs, at full speed, run at the rate of from 33 to 49 feet a second; setters and pointers, about eighteen and a half to twenty-one and seven-tenths miles an hour, and they can maintain this speed for two or even three hours. Foxhounds are very fast, an in a recent trial one of them beat a thoroughbred horse, covering four miles in six and a half minutes. Greyhounds can run at the rate of 59 to 75 feet a second. Horses cannot exceed 63 feet a second.

FISHING WITH CORMORANTS.

Canadians might well take a lesson from the Chinese in the use of fish. They are among the greatest fish eaters in the world and they have accepted so many varieties in their list of edible fishes that they can have a different kind for breakfast every morning in the year. Not only are their seas filled with fish, but their rivers as well and through a hundred generations the Chinese have cared for their fish supply.

They have a picturesque mode of fishing with cormorants. The birds are hatched under hens and when about three months old they are taught to fish. The trainer ties a string to one of the bird's legs and drives it into the water. He then throws out some small fish which the bird at once catches. It is taught to dive and come back at the call of a whistle. When trained collars are put about the bird's neck so that it cannot swallow the fish it catches. A fisherman goes out with the rail of his boat lined with string hitched cormorants. At a given signal they dive and the fish that can outswim them under water is a rarity indeed.

THE COMMON GOAL

Since the Canada food board started its "Eat More Fish" campaign last year the general consumption of this meat substitute has increased 100 per cent, while in some districts it has gone up by 700 per cent. Even this increase does not bring us to the level of the pre-war per capita consumption of Great Britain and other European countries, however. Our goal must be a pound of fish a week for every one.

While descending in a thick fog, an airplane which had been helping the Liberty Loan at Hartford, Conn., crashed to earth. The occupants were uninjured.

LOAN SUBSCRIPTION.

Subscribers to the new issue of Victory loan will be enabled to use the facilities of the banks to the fullest extent, it is pointed out by Toronto Saturday night. Arrangements have been completed with the chartered banks under which the banks will finance subscribers to the loan for the period of one year. Upon payment of the original 10 per cent by the subscriber the banks will loan up to 90 per cent of the subscription at the same rate as that earned by the bonds, being at the rate of 5½ per cent per annum. The banks will then expect the subscriber to make monthly or quarterly payments into the bank so that upon the expiry of one year the subscriber will have his bonds paid for in full. This allowance wil lenable many who, despite the liberal terms of payment set down by the finance department, may have melt unequal to paying for their bonds in full within the limited period, to take a full year for payment. It will also relieve many of our mercantile and business firms of the responsibility of bookkeeping involved in their handling of subscriptions from employees The latter may deal direct with the bank. This is a good move, such an one as has been instituted in the United States before this in connection with Liberty loan subscriptions.

The banks wil lalso take charge of interim certificates from smal linvestors and the definitive bonds later, for the term of one year at no cost to the subscriber.

ETERNITY.

The love that lived through all my stormy past,
And meekly with my harsher nature bore,
And deeper grew and tenderer till the last,
Shall it expire with life and be no more.

The way is dark, my Father, cloud on cloud
Is gathering thickly o'er my head,
And loud the thunder roars above me,
See, I stand like one bewildered,
Father take my hand,
And through the storm lead safely home thy child.

HOLD MEMORIAL SERVICE FOR SOPHIA VICTIMS

(By Daily News Leased Wire.)

TORONTO, Nov. 3.—The worst marine disaster in the history of the Pacific coast was commemorated in two of Toronto's churches today.

In the morning a service for the victims of the Canadian Pacific railway steamer Princess Sophia, which went down with all on board Saturday, Oct. 25, was held in Bonar Presbyterian church, and in the evening in the Church of the Redeemer.

Bishop Stringer of the Yukon spoke at the latter service.

At the close of the sermon, while the Dead March was being played, officers and boys of the British and Foreign Sailors society and of the boys naval brigade of the Navy League of Canada, marched up the aisle, carrying flags representative of the nationalities on the fallen ship, and marine ensigns at half mast and stood while Rv. Alfred Hall, senior chaplain of the British and Foreign Sailors Institute for Canada, read the burial servicee at sa.

Miss Jane Starr, Los Angeles, is the first from that city to win a war garden service flag from the National War Garden commission.

Canada CAN and WILL

ON July 31, 1918, Canadians had on deposit in banks more than a billion five hundred million dollars — that was $160,000,000 more than was on deposit on the same date in 1917.

And, in the meantime, Canadians had invested $425,000,000 in the Victory Loan 1917. Besides that they had bought $60,000,000 worth of provincial and municipal bonds.

So the people of Canada during the past year have accumulated $485,000,000 in bonds and over $160,000,000 in cash more than they had on July 31, 1917. That represents concrete accumulated wealth.

Canada is to-day the richest country in the world, per capita.

Her war debt per capita is lower than that of any other fighting nation.

So Canada undoubtedly has the ability to oversubscribe the Victory Loan 1918.

And Canada must manfully and loyally support the Victory Loan 1918, because the national safety, the national honor and the prosperity of the country are at stake.

Canada's business prosperity is necessary to the maintenance of Canada's war efficiency.

Get ready to oversubscribe the Victory Loan.

ABANDON ATTEMPT TO RECOVER LOST TREASURE

PAPETTE, Tahiti, Nov. 3.—Seekers of treasure, after spending more than $100,000 in chartering a steamer and equipping an expedition, have discovered that the object of their quest is worthless and the money expended lost. An iron vessel was wrecked on the shore of the island at Takaroa. The same company which some six years ago raised the steamer Walkure in Papeete harbor dispatched a representative to report on the condition of the wreck. On the strength of his report the steamer Raymond was chartered and outfitted. When ready for the work of salvage to commence it was discovered that the plates on the vessels hull were rusted through and that they could not stand the strain of an ordinary squall. All attempts to salvage the ship had to be abandoned.

Miss Henrietta Rosenthal, Detroit's first woman lawyer, won her first case a damage case against the Michigan Central railroad.

Friends of General W. A. White, head of the British recruiting mission in the United States, entertained him at a dinner in New York.

NOTICE
Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

"**106.** Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for reporting or for military service, imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid."

"**106A.** Every person who HARBOURS OR CONCEALS OR IN ANY WAY ASSISTS ANY MAN WHO IS A DESERTER OR ABSENT WITHOUT LEAVE FROM THE CANADIAN EXPEDITIONARY FORCE, or who is in default in the performance of any obligation or requirement for reporting or for military service imposed upon him by the Act or Regulations or any proclamation thereunder, shall be guilty of an offence punishable upon summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he was not aware and had no reasonable ground to suspect that the man so harboured, concealed, or assisted was a deserter or absent from the forces without leave or in default in respect of any of the obligations or requirements aforesaid."

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT to Depot Battalions and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

RELIEF from that tired feeling at the end of each day, those headaches and minor ills—can be obtained by the right glasses. Few people realize that in most instances the eyes are the cause of the suffering. Where the eyes are responsible an examination will tell and enable us to make, fit and design glasses that will overcome it.

Call and let our examination show if glasses will stop your suffering.

WATCHES

Did you ever stop to consider that the balance of your watch vibrates 157,000,000 times in 12 months, and that the rim of this tiny wheel travels in that period as far as from New York to San Francisco and back? It keeps at its alloted work with untiring energy, showing you the value of every speeding moment. Do not frown because it asks a drop of oil once a year.

DISTRICT SAILING OVER TOP IN BIG LOAN CAMPAIGN

Nelson	$255,000
Grand Forks	60,000
Silverton	22,000
New Denver	34,000
Nakusp	35,000
Sandon	60,000
Kaslo	55,000
Revelstoke	100,000

Nelson's Victory loan total soared to $255,000 Saturday, within $145,000 of the city's quota of $400,000. Saturday total for the loan was $27,650.

The committee is eager to win an honor flag and hopes to climb well above last year's total of $400,000.

All Canadian Pacific railway employees are doing well, the committee stated last night, the shipyards, under the chairmanship of Mr. Stobo, making a particularly fine showing.

Fairview is turning in a big total. William Douche is in charge of the committee which is operating in that section. This committee has turned in over $15,000 in applications.

The committee reports a most encouraging response from all the districts, and F. W. Sterling, district organizer, stated last night that he believed that every unit in the Kootenay would raise more than its quota.

The results from Saturday in Nelson son were very encouraging, he said, and the committee were sure of sailing right over the top.

Today starts the second week of the campaign and the members of the canvassing committee say they are going to make every effort to exceed the city's quota by Saturday night.

Mr. Sterling received a telegram from headquarters Saturday night congratulating Nelson on its splendid showing.

NO INCREASE IN INFLUENZA

Several Serious Cases in City—Dr. Arthur Tells of Symptoms and Treatment

There is not known to be any increase in the number of cases of influenza in the city, but there are still several cases in a serious condition.

Things are getting fairly well organized now as volunteers have turned out well and are doing efficient work. More volunteers are still needed.

For the benefit of those who are not sure as to the symptoms and treatment of the epidemic, Dr. Arthur has cited the following:

Symptoms are fever, chill, soreness all over the body, high temperature, pains and aches everywhere, sneezing and coughing, great prostration, neuritis, bad headache and backache. The first treatment when any of these symptoms appear is to go right to bed and stay there. The people who usually develop pneumonia are those who do not go to bed or who get up too soon; get into a perspiration; take laxatives. Patients should stay in bed at least 48 hours after the temperature becomes normal. Mustard poultices should be used on the chest.

A donation of sheets, pillow cases and towels was sent over to the hospital by the I. O. D. E. and jellies, custards and broths to last for two or three days have been sent in from various sources.

GET ANOTHER DEFAULTER

Magistrate Gives Him Eight Days to Prove He Is Married—Arrest Italian

Horace Cote, claiming Admiral, Sask., as his home, was before Stipendiary Magistrate Crease in the provincial police court Saturday charged by the military police under the military service regulations as a defaulter. The medical examination showed him to be in category A2. The case was adjourned for eight days to give the accused time to prove the statement that he is a married man.

Angelo Merlo, a naturalized Italian of Wayne, Alta., also appeared on a charge of having left the province of Alberta without notifying the registrar at Calgary of the change of address. Merlo obtained an exemption in the province of Alberta as a coal miner and was arrested by the military police near New Denver working in a silver-lead mine. The case was adjourned for eight days and referred to the attorney-general of Canada as required by the Military Service act.

Seven Year Old Boy Turns up at Victory House with Money in Savings Bank.

Saturday morning was set aside for receiving children's applications at Victory house which as usual was not due to open until 10 oclock. At 9 o'clock passersby noticed a little Italian boy patiently waiting outside.

Tightly clasped in his little fist was a tin Dutch Cleanser savings bank. On being questioned by the canvasser he said his name was Joseph Vingo, 314 Hoover stret and that he was seven years old and wanted to help the soldiers. In a very business like manner he stated that he had brought his money box down and that it would have to be opened by the canvasser with a jack knife and that if there was not enough inside to pay for a $50 bond he could get the rest out of his real big bank. On opening the tin box it was found to contain nearly $10, mostly in coppers. The balance the little fellow drew out of his big bank and marched away from Victory House the proud possessor of a Victory bond and remmarking that he was sorry he could not do better.

Negrette was sentenced to be hanged on Nov. 29, 1918 was one of several murders which have been committed in recent years within the confines of Folsom penitentiary. The next day, Negrette, according to two guards, attacked Castellano in the prisonyard and stabbed him to death with a dagger made of a small file. Negrette at the time was serving a term of 25 years for second degree murder. He was sentenced from Los Angeles. After his conviction in the superior court Negrette appealed to the supreme court. NURSES URGENTLY NEEDED

We MUST have more volunteers—don't you think you could help.

The need is very great.—Volunteer at once.

Those on duty can't stay there indefinitely.

Men are also very much needed to light fires, for in some cases whole families are ill.

People with no sickness at home could help very much by sending prepared food to families where all are ill.

If any family in need of assistance will let us know we will do the best we can to get help for them.
