TIPPERARY QUIET UNDER NEW RULES

PROCLAMATION ISSUED MONDAY IS RECEIVED WITHOUT DEMONSTRATION

SINN FEINN ORGANIZATIONS DECLARED TO BE UNLAWFUL

County Under Military; Demand Is Made That Law Be Extended to Whole Island

DUBLIN, July 10.—The County of Tipperary and Ireland have received quietly the proclamation of the government Monday declaring all Sin Fein organizations and Irish volunteers in County Tipperary unlawful associations. The proclamation places all local activity in Tipperary under control of the military and prevents all persons from entering the district without a permit, thus restoring business.

It is expected in Tipperary, after the murder of a police inspector at Thurles, that the government would pursue the same policy it took up after the murders in County Clare and elsewhere. The crimes act proclamation if a revision of the methods employed against the national league in Parnell's time. Under the terms of the proclamation membership in the various prohibited organizations becomes a criminal offense and meeting of these bodies and the publication of the reports of their proceedings become illegal. The proclamation in actuality, substitutes the civil tribunal constituted by the act of 1887 for the military court martials held under the Defense of the Realm act.

In Tipperary Only

It is taken in some quarters to point to the policy to be pursued by the government when the Defense of the Realm act is no longer in operation. The organizations are not prohibited anywhere but in Tipperary, although the Lord Lieutenant has the power to extend the proclamation, which is looked upon as a possibility in some quarters.

In Irish political circles in Dublin not favorable to the government it is believed the proclamation is likely to have the effect of consolidating popular feeling against the government and to make the situation more unfavorable for an impartial consideration of any self-government proposals.

The Sinn Feiners, who repudiate all suggestions of compromise or negotiation on home rule and are holding out for an independent republic, welcome the proclamation as assisting their policy.

Want Proclamation Extended

The Ulster party is urging that the proclamation be extended to the rest of Ireland and will decide at the forthcoming Orange celebration upon a demand for repeal of the home rule and the maintenance of the union as essential for the preservation of their liberty and the security of the British Empire.

This is a revision of their former exposition departed from temporarily when the Ulsterites agreed to home rul for the rest of Ireland provided that the six noreheastern counties would be excluded. The southern unionists, who at their convention recently showed a willingness to compromise are assuming an attitude similar to the Ulsterites against home rule.

The vacancy in the representation of Trinity college, it is said, will be filled by the election of William Jellett, who organized the southern unionists against those who were willing to come to terms on home rule.

The home rule act at present on the statute books is regarded as a national asset obliging the government to deal with the question, and its repeal, it is held generally, would be resented by all except the extreme Sinn Feiners.

According to the terms of the suspension act enacted shortly afeer the war began, home rule must come into operation not later than six months from the end of the war.

Several leading Irish lawyers are of the opinion that even if nothing is done the act is so framed that it could not be brought into operation. Other lawyers, however, hold a contrary view.

Federalization Scheme

In political circle the belief is increasing that the government at Dublin Castle will seek to gain time in which to arrange a settlement by providing for the continued operation of the suspended act and by the appointment of a committee of inquiry with special reference to the possibility of whether such a settlement might fit in with a scheme of federalization defined for the entire United Kingdom. Ireland, under such a scheme, would be on the same footing as Scotland and Wales, but with the possibility that Ulster might be created a separate federal unit.

It is not believed that such a policy

(Continued on Page Two)

POLITICAL ACTION IS DISCUSSED

CANADIAN COUNCIL OF AGRICULTURE LEAVES ISSUE TO PROVINCES

GOVERNMENTS ASKED TO ASSIST STOCK RAISERS

Co-operation of the Dominion and Provincial Authorities Is Asked in Petition

WINNIPEG, July 10.—Future political action was discussed at tonight's session of the Canadian Council of Agriculture. It was decided that the question of making the political action that has been taken already in the various constituencies in Alberta, Saskatchewan and Ontario federal in scope be left to the provinces to decide when the farmers' political conventions are held. Hitherto only district conventions have been held in the various constituencies. The United Farmers of Alberta have selected July 26 as the date for their provincial convention.

Co-operative action by the Dominion and provincial governments to meet the feed shortage in Alberta was suggested at the afternoon session of the Canadian Council of Agriculture. In the following message sent to Ottawa the council urges the Dominion government to investigate the matter and take immediate action:

"The Canadian Council of Agriculture in session at Winnipeg has received information that nearly half a million head of stock in Alberta are without feed in consequence of the continued drought. Amount of feed below average north of Edmonton. Only small surplus in central Alberta. No feed in southern Alberta.

"Similar conditions exist in parts of Saskatchewan in districts which have endeavored to introduce mixed farming on the prairie. No grazing available for immediate want. Hay usually available for feed is also a failure.

"Information is also supplied to the council that large quantities of feed are available in Manitoba for present needs and feeding.

"Canadian Council of Agriculture strongly urges the Dominion government to investigate through its officials so that actual facts as to stock and feed may be ascertained. If immediate action is not taken a serious calamity will ensue that will disastrously affect the western cattle industry for several years.

"Suggestions, co-operation by Dominion and provincial governments. Farmers' organization of the west offer every assistance possible in meeting the situation."

Political Action

Reports from the different provinces with regard to political action were received and considered. Considerable time was devoted to the discussion of them. No definite step on the question of political action was taken at this session, however.

In his report, J. B. Musselman, secretary of the Saskatchewan Grain Growers' association, suggested that the time was opportune for calling a convention, in which the different provinces which have taken independent political action would be represented. He said that steps should be taken toward consolidating the movement which heretofore has been confined to the provinces into a federal one. An invitation to attend the Liberal convention in Ottawa in August has been received by the council and was given consideration. No decision was reached.

MAGYARS INVADE LOWER AUSTRIA

Nearly 5000 Bolshevik Are Reported to Be Concentrated Near Altenburg.

BASLE, July 10.—Detachments of Hungarian bolshevik are penetrating lower Austria, according to dispatches from Vienna. Nearly 5000 bolshevik are concentrated in the region of Altenburg and Neustadt, supposedly with the intention of moving against Vienna and Neustadt.

PARIS, July 10.—Minister Czobel Bela Kun, head of the Hungarian soviet government, has demanded that the campaign against the Hungarian legation at Vienna be stopped. The dispatch reports that supporters of Bela Kun are entering Austrian territory.

LONDON, July 10.—(Reuter.)—Reuter learns that the warship Renown, escorted by two cruisers, will probably take the Prince of Wales to Canada.

LLOYD GEORGE SENDS GREETINGS BY AIRSHIP

OTTAWA, July 10.—The Right Hon. David Lloyd George, prime minister of Great Britain, sent the following message to Sir Robert Borden by the R-34, the letter being mailed after the safe landing of the dirigible at Mineola:

"Dear Sir Robert Borden:

"Our airmen, who during the course of the war earned undying glory, are now adding to their laurels the record of wondrous achievements in time of peace. I am glad to have the opportunity of sending by them a message of cordial greeting to you and to our kinsfolk in Canada. I need not say how much we in this country welcome every additional instrument for still further strengthening the bonds of sympathy and understanding between the Dominion of Canada and the motherland, which have been forged in the heat of war.

"Very sincerely,

(Signed) David Lloyd George."

BIG DIRIGIBLE IS MAKING FAST TIME

SPEED OF EIGHTY MILES AN HOUR ATTAINED AT TIMES BY R-34.

Airship Is Aided by 40-Mile Westerly Wind—Is Advised to Keep Southern Course.

WASHINGTON, July 10.—Aided by a westerly wind that sometimes reached a velocity of nearly 40 miles an hour, the British dirigible R-34 tonight was well out over the Atlantic on the return trip to East Fortune, Scotland, after a stay of 86 hours in America. The last message from the airship, received late today by the navy department, gave her position at that time as 605 miles due east of Bar Harbor, Maine, and more than 1000 miles from Mineola, Long Island, from which she started last midnight.

The dirigible, according to a wireless report received by the navy department throughout the day, averaged more than 60 miles an hour for the first 10 hours of the return flight, and at times the big airship's speed reached between 75 and 80 miles an hour. The dirigible thus was making better time than at any period of the flight to this side of the Atlantic, and if weather conditions remain favorable naval officers here believe Major G. H. Scott, commander, and members of the R-34's crew will see British shores early Saturday.

The first word heard from the R-34 after the big dirigible left American shores this morning was a radio message sent at 4 a.m., giving the ship's position as 130 miles due east from Long Island. Direct communication was maintained with the navy department thereafter. At 1 p.m. a message said the dirigible was then making 58 knots an hour, equivalent to about 64 land miles. An hour later the R-34 signalled that the wind was becoming stronger and that the dirigible's speed had reached 80 miles an hour at times.

The last weather report sent to the R-34 from here tonight said that a storm centre off Newfoundland was moving due east and that another over Ontario was moving towards Newfoundland. Strong westerly winds were predicted over the western Atlantic as far as the fiftieth meridian, and probably much further. The weather reports compiled by Forecaster Bowie concluded:

"You will have strong westerly winds next 24 or 36 hours, with some clouds and a falling barometer. My advice is to keep well south and take advantage of westerly winds attending rapid eastward movement of disturbances north of latitude 45. Good luck and a quick trip."

LONDON, July 11.—The British dirigible R-34 was in direct touch by wireless with the Clifden station at 4 o'clock this morning, Greenwich mean time. It gave its position as 43 degrees and 40 minutes north latitude and 46 degrees west longitude, the speed of the craft at that time being 45 knots an hour.

REGINA REGIMENT

REGINA, July 10.—At an organization meeting of the Regina regiment, Col. J. A. Cross, D.S.O., was appointed officer commanding, with Lieut.-Col. Renkine second in command.

WARREN NOW HEAD OF CONSOLIDATED

Is Elected President of Trail Firm—Head Office Moved to Montreal.

MONTREAL, July 10.—Following closely the announcement that the head office of the Consolidated Mining & Smelting Company of Canada is to be transferred to Montreal was another today to the effect that J. J. Warren had been elected president of the company in succession to the late W. D. Matthews.

LEAGUE TO ADMIT THE AUSTRIANS

MUST FIRST HAVE GOVERNMENT ABLE TO FULFILL ITS OBLIGATIONS.

ALLIES NOTE STAND WITH SATISFACTION

Glad to Know That Foe Shares Their View Regarding Settlement of Future Disputes.

PARIS, July 10.—Austria will be admitted to membership in the league of nations as soon as the allied and associated powers consider that she possesses a responsible government with both the will and the power to fulfill international obligations. The reply reads as follows:

"The principal allied and associated powers note with satisfaction the adherence of the Austrian delegation to the project of a league of nations and to the principle upon which such a league has been founded by the covenant embodied in the conditions of peace. They are glad to know that the Austrian government shares their view that the establishment of such a league will conduce to the maintenance of peace in these parts of the world which hitherto have been centres of international friction and misunderstanding.

"The principal allied and associated powers have taken into careful consideration the demand of the Austrian delegation for the admission of their country as an original member of the league of nations. It never has been their intention to exclude Austria for any long period from the league. On the contrary, they wish to reiterate that it is their hope and conviction that the league will, at the earliest possible date, include all nations that can be trusted to carry out the obligations accepted by members of the league.

Recognize Claim.

"They must point out, however, that in urging the claim of Austria to membership in the league, necessary to the safety of their territory, the delegation has used some arguments which appear to indicate that they have not fully appreciated the provisions of the covenant. But they recognize, nevertheless, the strength of the claim put forward by the Austrian delegation. They fully appreciate the evidence which, by the attitude which she has hitherto observed. Austria as given of her good intentions. They see no reason why she should not apply for admission to the league, in accordance with the provisions of article 1 of the covenant, at the earliest opportunity that may present itself after the ratification of the treaty of peace.

"As soon as they are assured that Austria possesses a responsible government and that this government has both the will and power to fulfill its international obligations they are prepared to support Austria's candidature for admission to the league.

The note pointed out that German Austria had been charged with "the responsibility for the war," but said that it had been thus charged without any fault of its own. The principles upon which the new nation is founded is essentially democratic, the principles being those of the social democratic and Christian socialistic parties. Therefore, the note continues, the nation is founded "on the two principal classes, working men and peasants, who, under the old regime, never had a real share in the decision of the state and could never freely realize their political aims."

As a further argument for the immediate admission of German Austria to the league, Dr. Renner states that she is surrounded largely by states formed from the former monarchy and that she is interested in the many problems connected with the liquidation of that monarchy, for which agreements among the various states would be necessary. The territorial arrangements made by the peace conditions also would bring new questions into being among the several nations.

German-Austria prefers pacific means, the note declares, and it argues that the various problems cannot be solved without the assistance of the league of nations.

With the Austrian note some proposals by Professor Lammasch, a member of the delegation, regarding the covenant of the league of nations were submitted in an annex, together with a substitute for the section of the covenant dealing with freedom of transit and equitable commercial treatment, proposed by the delegation as a whole.

206,000 ON THE RHINE.

LONDON, July 10.—(Reuter's.)—Reuter's learns in regard to British forces overseas that the army on the Rhine numbers 206,000.

INCREASE IN WAGES IS BLAMED FOR HIGH COSTS

PARIS, July 10.—Emmanuel Brousse and Andre Lefevre, prominent members of the chamber of deputies, today declared in the chamber that steady increase in the cost of living was entirely due to continual increases in wages.

M. Brousse accused Albert Thomas of starting prices upward by paying workmen in the arsenal at Roanne excessive wages at the time he was minister of munitions.

M. Thomas admitted that increasing wages was not the solution of the high cost of living and said that when he added 10 per cent to the wages of the arsenal workers, the tradesmen immediately added the same amount to their prices.

FREE TRADERS FAIL AT REGINA

Liberals in Convention Refuse to Consider the Resolution Presented

REGINA, July 10.—Liberals in convention here tonight passed resolution paying a tribute to the soldiers and declaring the first duty of the government was to make generous provision for their dependents and the maimed and disabled; that a franchise act be enacted which accords full rights to all law-abiding British subjects; that a protest be voiced at the continuance in a democratic government of "such an irresponsible body as the Canadian senate which its acts has shown itself to be."

A resolution declaring for complete free trade was brought in by the resolutions committee, but was referred back with the request that a motion be brought in and passed on the tariff declarations of the Canadian Council of Agriculture and the Saskatchewan legislature.

Premier Martin, who presided at the meeting, stated that he thought the free trade resolution went too far.

E. S. Miller was elected president; P. P. Reynolds, Bense, A. Grant, Lumsden, and Mrs. Purdy, Regina, vice-presidents; D. A. McNiven, Regina, secretary, and J. J. Galloway, Regina, treasurer. An executive of 50 was selected, half from the city and half from the country.

The delegates to the national convention are Hon. Walter Scott, W. J. Vancise, M.L.A., and C. H. Palmer.

McKenzie Convention

SASKATOON, July 10.—Still another largely attended and rousing Liberal convention was held by one of the Liberal constituencies of Saskatchewan, when delegates from all parts of McKenzie constituency met today at Canora to elect delegates to the Dominion Liberal convention and instruct the delegates as to what policy they were to insist upon at the convention.

H. M. Sutherland, of Canora, was chairman and R. J. Hill of Canora was secretary, and on the platform were seated some of the leading Liberals in the constituency with the members of the cabinet as the principal speakers of the evening.

Hon. W. F. A. Turgeon, attorney-general, and Hon. C. A. Dunning, minister of agriculture, were on the platform. The following were elected delegates and alternatives to the convention at Ottawa: Norman MacKay of Canora, J. K. Johnston of Kamsack, and Thomas H. Geary of Yorktown, as delegates, and George Newort of Ivermany, J. H. Abercombe of Togo, and Dr. Brass of Yorkton as alternatives.

In addition to these, G. W. MacPhee of Yorkton, defeated Liberal candidate at the last Dominion election, and H. P. Hermanson, M.L.A., of Buchanan, will also be delegates to the convention from the McKenzie constituency. The following were chosen as the Liberal delegates for the constituency with power to add to their number, the members being chosen from the different provincial constituencies in the McKenzie federal constituency, Yorkton provincial constituency, R. J. Rothwell, William McDougall and M. Pachal; Canora provincial constituency, F. X. Dufour, Steven Sturgis, F. R. Rousch; Belly provincial constituency, J. H. Abercrombe, J. S. Clark and J. H. Hermanson. Wadena provincial constituency, George Newort, W. C. Humphrey and Charles Degallier; Wynyard provincial constituency, Sam Wonder and F. R. White; Saltcoats constituency, William Hamilton and F. Gallagher.

MINERS SAY INCREASE IN PRICE NOT JUSTIFIED

LONDON, July 10.—(Reuter's.)—In an official statement of the miners' position regarding Sir Eric Geddes' announcement of July 9, the miners deny that any justification has been shown for an increase of six shillings per ton. In any case, they contend that the government, which has absolute control of the mines and dictates to both owners and miners the settlement of disputes regarding wages and conditions, is responsible for the results. The miners deprecate the raising of prejudice against nationalization and urge that if the high price of coal proves anything, it is the failure of private ownership plus government control.

PRESIDENT WILSON LAYS TREATY OF PEACE BEFORE SENATE OF UNITED STATES

WAS GREETED WITH CHEERS BEFORE AND AFTER DELIVERING ADDRESS; DID NOT GO INTO DETAILS; CHIEF EXECUTIVE DECLARES THAT HE IS READY TO GIVE FURTHER INFORMATION AT ANY TIME; INDEMNITY CLAUSE WAS MADE INDEFINITE AGAINST HIS WILL

WASHINGTON, July 10. — The peace treaty with its league of nations covenant was laid before the senate by President Wilson today in an address accounting to the country for his part in the negotiations at Versailles.

The league, declared the president, was born of the conviction of practical statesmen that an interest concern had become a world necessity to end the old greed and guarantee civilization. He asserted that in such a concern the world looked confidently to the United States for leadership, and added that while the treaty might not be exactly as the United States delegation would have written it, no vital principle had been sacrificed by the necessary compromise.

Cheers in Senate

The senate, already divided in a bitter fight over this league proposal, received the president with cheers, and listened to his words in grave silence. When he had concluded there was another burst of cheering, until he had passed out of the chamber and had gone to his capital office, where he talked for an hour with senators who wished to ask about specific features of the treaty, or of the negotiations.

In these conferences the president discussed freely such subjects as the disposition of Shantung, the German indemnities and Irish freedom.

In his address, however, there was no direct reference to many of the question around which senate debate has centred, the president declaring he could not construe details of the treaty in a short address. He did not directly mention the Monroe doctrine, Shantung or the obligations assumed under article 10 of the league covenant, nor did he allude to the proposal to write reservations into the ratification. He asserted that he desired that he would be given opportunity to discuss details later, either with the whole senate or the foreign relations committee.

Ready to Give Aid

"My services and all the information I possess," said Mr. Wilson, "will be at your disposal and at the disposal of your committee on foreign relations at any time, either informally or in session, as you prefer, and I hope that you will not hesitate to make use of them."

United States isolation, the president asserted, was ended 20 years ago when the war with Spain put the nation in partial control of Cuba and the Phillipines, "but we have not exploited them," he continued. "We have been their friends and have sought to serve them—there can be no question of our ceasing to be a world power. The only question is whether we shall accept or reject the confidence of the world. The stage is set, the destiny disclosed. It has come about by no plan of our conceiving, but by the hand of God, who has led us into this way. We cannot turn back, we can only go forward with lifted eyes and freshened spirit, to follow the vision."

League a Necessisty

Alluding to the skepticism with which the plan for a league of nations was firse received, President Wilson said to all the delegates that such a concert was "a practical necessity," demanded by "all the peoples of the world."

For the United States to reject it, he asserted, would "break the heart of the world."

Pointing out that many minor compromises were necessary to secure the support of all the nations, he continued:

"The treaty as a result is not exactly what we would have written. It is probably not what any one of the national delegations would have written. But results were worked out which on the whole bear testimony.

"I think that it would be found that the compromises which were accepted as inevitable, nowhere cut to the heart of any principle."

In Open Session

In disregard of precedent, the senate received the address in open session, and afterward ordered that the treaty be published in the congressional record, as a public document. Speaking from the same platform where, thirty months ago he astounded the world with his first declaration for a league of nations, the president read his address slowly and in a clear, quiet voice. Before him on the vice-president's desk lay the treaty, brought by him in person from Versailles. There was no attempt at oratory and no applause interrupted the address. Nearly every senator was in his seat and all listened attentively.

Afterwards his supporters were unstinted in their praise for the presirent's words, while those opposed either declined to comment or declared he had dealth only in unsatisfactory generalties.

In his talks afterward, with league supporters, the president is said to have discussed at length the Shantung and Irish questions.

He was quoted as saying he was not satisfied with the treaty provision, giving Shantung to Japan, but declaring there was an informal understanding among the peace delegates themselves that eventually Japan must make an acceptable agreement with China in the matter. He was reported as expressing confidence that Japan would deal rightly in the final settlement.

Discussing the failure of the peace conference to receive the representatives of the Irish-American organizations on behalf of Irish freedom, Mr. Wilson was said to have told senators that the representatives had so identified themselves with the revolutionary element in Ireland that it became impossible to receive them. He was quoted as saying that both he and David Lloyd George, the British prime minister, had been anxious to arrange for . hearing.

Desired Fixed Indemnity

The decision not to bind Germany to a definite indemnity, the president was reported to have said, was reached over his protest. He was quoted as saying he consented to the plan to help Premier Lloyd George over domestic obstacles.

It was said the question of Fiume was not mentioned. In talking to the senators, the president was said to have taken a firm stand against any reservations in the senate's ratification of the treaty. It was asserted he would not be disposed kindly even towards interpretive reservations to make the senate position clear, pointing out that there always might be doubt as to whether any practical reservations really were innocuous or would vitate some league principle.

24-HOUR STRIKE CALLED IN FRANCE

Government Notifies Railway Employees That They May Face Court-Martial.

PARIS, July 10.—A general strike lasting 24 hours will begin at 5 o'clock in the morning on July 21, and terminate at 5 o'clock a.m. July 22, according to statements issued by the labor exchange today.

Instructions issued to the railway workers are that all trains in motion at 5 o'clock on the morning of July 21 must stop at the nearest watering and coaling station.

Though the indications early today were that sentiment in labor circles favored the strike, it was far from unanimous. The organizers of the movement appear determined to carry it out in defiance of the government's warning "as the risk of partial failure" and so in the face of criticisms that stoppage of the railroads will obstruct demobilization, which the manifestation ostensibly was organized to hasten.

After a meeting of the cabinet today it was announced that government employees who join in the general strike decided upon for July 21 will be considered as having resigned their positions. It was decided at the meeting that the minister of public works, Albert Clavelle, should address an appeal and a warning to the railroad employees, assuring them that freedom to work will be guaranteed and pointing out the penalties to be incurred if they abandon their positions. The railroad men were notified that they may be court-martialed. Minister Clavelle appealed to the sense of duty of the workmen to make it unnecessary for the government to apply rigorous measures of discipline.

GOES TO JAIL FOR ONE HOUR; APPLIED UNWRITTEN LAW

TRURO, July 10.—R. N. Lovely, charged with shooting and wounding Harry Blair, who paid too much attention to his wife, was yesterday given one hour in jail by Judge Webster at the assizes here. Lovely, after the shooting, which took place in Blair's store here, was arrested and bailed out. When his case was called he did not appear and a search was made for him. He was found in a cellar under a factory and had lived on water from a faucet from May 30 to June 21 and was in an emaciated condition.

LONDON, July 10.—(Canadian Associated Press)—In the Bisley meet today, Colonel Mellish Sherwood, of the Forestry Corps, won the Wimbledon match rifle cup, 15 shots at 1100 yards.

GRANBY CONSOLIDATED OPERATING NEW OVENS

ANYOX, B. C., July 10.—Granby Consolidated Mining, Smelting & Power company today began drawing coke from their new $200,000 plant here. Coal for this purpose is mined from the company's property on Vancouver Island, with headquarters at Cassidy. Thirty-two ovens are in operation. Aside from coke, the company is producing such by-products as toulol, benzol, sulphate of ammonia and coal tar. The coal tar is to be shipped to Vancouver to be manufactured into pitch and creosote. The oils of the latter are in demand in harbor improvements.

WINNIPEG HAS A HOUSING SCHEME

Proposal Is That the City Build Houses and Not Loan the Money for Building.

WINNIPEG, July 10.—Out of all the talk and meetings on a housing scheme for Winnipeg, it was regarded as evident, following the joint conference of city fathers and citizens this afternoon, that a scheme has now been evolved which will make the plan to start building immediately a feasible one. The financial end of the scheme apparently was the stumbling block at Wednesday night's special council meeting. Briefly, the plan considered satisfactory to everyone is this:

The city will build houses and not loan money to build. The owner will put up 10 or 15 per cent of the cost, another 75 per cent will be put up by the city on first mortgage, and the remainder will be furnished by a second mortgage company.

The first and second mortgages would be payable in monthly installments and would include insurance and taxes.

The city will get $1,000,000 at 5 per cent of the federal loan and loan it out at 6 per cent. The one per cent additional interest will nearly cover the cost of administration. It was explained that the next step for the city will be to decide on its policy regarding construction. The council may decide to build on its own or call for tenders on a given number of houses. The building in any case is to be under the supervision of city inspectors.

Another point made clear at the conference was that the returned soldiers would get preference in applications.

TIPPERARY QUIET UNDER NEW RULES

(Continued from Page One.)

would gain much popular support in Ireland.

The moderates who formerly favored it generally have become identified with the new Irish dominion league under the leadership of Sir Horace Plunkett.

The Irish centre party, which was established to advocate a scheme of federalization within Ireland, with a parliament for each province, have been dissolved and the leaders have asked the members to support Sir Horace Plunkett's plan.

ROUND TABLE CONFERENCE IS CALLED AT WINNIPEG

WINNIPEG, July 10.—Now that the strike is past the Great War Veterans are to go ahead with the round table conference suggested by the executive of the organization during the strike period. A meeting of all public and semi-public bodies in the city, including labor, will be called and they will meet as a round table to discuss the alien question and the high cost of living, according to C. W. Angus, provincial secretary. The initial meeting will be called in the near future.

The paramount topic of the G.W.V.A. will be undesirable aliens, because there is a commission working on the high cost of living in the east.

COMMITTEE TO REPORT ON FEDERALISM PROPOSAL

LONDON, July 10.—The government has decided to appoint a parliamentary committee to report on some measures for executive evolution along the lines of federalism. This was announced today in the house of commons by Andrew Bonar Law, government leader.

DEMANDS INVESTIGATION OF STONY MOUNTAIN JAIL

WINNIPEG, July 10.—Formal demand for an investigation of conditions at Stony Mountain penitentiary is made in a letter sent to the Canadian department of justice today by Ward Hollands, of the law firm of Bonner, Trueman & Hollands. The letter alleges, among other charges, that a convict was forced to put a horse bit in his mouth and then the bit was pulled from behind until the convict's mouth was torn; that fish was served with entrails and scales unremoved; that one of the convicts bears wounds from the teeth of a dog owned by the warden, and that convicts were punished until the prison doctor ordered the punishment abated.

WOULD MAKE PROFITEERS DIVIDE UP

DRASTIC PROPOSALS TO BE MADE AT CONVENTION AT MONTREAL

ARMY AND NAVY VETERANS TO CONSIDER LIVING COST

Increase in Pensions to Soldiers, Sailors and Dependents Asked in Resolution

WINNIPEG, July 10.—Drastic proposals for making profiteers refund excess profits to the national treasury, for reducing the high cost of living and keeping the cost of the necessary commodities of life at a reasonable figure and for insuring for labor a fair return on the capital actually used, are to be made at the Dominion convention of the Army and Navy Veterans' association at Montreal July 23, by the Winnipeg delegates, according to a lengthy resolution handed out to the press today.

Text of Resolution

Following is the full text of the resolution embodying the proposals which is to be presented:

Whereas, Canada is laboring under a tremendous burden of debt, occasioned largely by the successful conduct of the war, and this burden will be still further increased by expenditure yet to be made in connection with the war and in the payment of pensions and allowance to soldiers, sailors, aviators and their dependents.

And, Whereas, in order to do justice to soldiers, sailors and aviators who have been incapacitated, either partially or totally, and their dependents and to the dependents of those who have been killed, it is necessary that the pensions and allowance now being granted shall be very materially increased.

And, whereas, the cost of the necessities of life has become exhorbitant and is continuing to increase, and apparently will continue to increase unless some drastic and immediate steps are taken to control same,

And, whereas, recent investigations before a commission appointed by the federal government have shown that certain firms or corporations engaged in the maunfacture ad distribution of the necessary commodities of life have during the war been making unfair and exorbitant profits as a result of which profits the price of said commodities to the consumer has been increased tremendously and the purchasing power of money paid in wages to employees has been diminished,

And, whereas, as a result of this ever increasing cost of living and the revelations as to the undue profits which have been made during the war unrest and discontent have developed among all sections of the people, and particularly among the wage earners, and this unrest is showing a tendency to develop into revolution;

Now, therfore, it is hereby resolved that a competent and impartial tribunal should forthwith be appointed by the federal authorities, upon which tribunal organized farmers' organized labor and organized soldiers should be represented with full powers of investigation, the duties of such tribunal to be as follows:

1—To thoroughly investigate the business of every individual person, partnership, company or corporation which is now or which may have been engaged in the production or distribution of any of the necessary commodities of life, or in the production or manufacture of munitions of war during the period commencing the first day of August, 1914, to date.

2—To ascertain through investigation or report to the extent by which the capital of such person or persons, partnership, company or corporation has been increased from the said first day of August, 1914, to date of investigation.

3—To give judgment to the effect that the amount by which such capital has been increased during said period, less a reasonable annual increase of not more than 10 per cent., shall be paid to the treasury of the Dominion of Canada as, and by way of special contribution on the part of owners of such capital to the national debt of Canada; and said tribunals shall have power to say in what manner and upon what terms moneys so found to be due shall be paid; and to order such security for the payment thereof as such tribunal shall think fit and proper so as to absolutely insure the payment of the amount judged to be due.

"This convention further resolves that legislation should be passed in the federal house which shall provide for an annual or more frequent inspection of the books of all persons, partnerships, companies or corporations engaged in the production, manufacture or distribution of any of the necessary commodities of life for the purpose of ascertaining from time to time the profits being made and such legislation should provide that all profits earned in excess of a reasonable return upon the capital actually used shall be paid to the state in the form of taxes, to apply to the national debt of Canada."

CONSIDER TREATY UNTIL SEPTEMBER

French Chamber to Pass on Term First—Senate to Follow Later

PARIS, July 10.—Debate in the chamber of deputies on the bill to ratify the peace treaty probably will begin August 1. It is said that the debate will consume 10 or 12 sessions of the chamber, so that the deputies may ratify the treaty about August 15. The senate will debate ratification during the first ten days of September.

The assumption is based on the report made today by Louis Barthou, vice-chairman of the chamber's committee which will make a report on the peace treaty. M. Barthou said that the treaty report would be ready within two weeks.

Premier Clemenceau and Foreign Minister Pichon will attend the meeting of the peace treaty committee on Friday, when M. Pichon will discuss the league of nations.

VALUABLE SKINS ARE SEIZED IN ALASKA

DAWSON, Y.T., July 10 (Canadian Press).—Seven hundred and fourteen marten skins valued at approximately $25,000 were seized at Eagle, Alaska, yesterday by John Powers, deputy United States marshal, acting under instructions from the justice and post office departments. Ten days ago 690 beaver skins valued at $7,000 to $10,000 were seized at Tolovana.

Alaska prohibits the trapping of marten and beaver before 1921, owing to the threatened depletion of these animals.

The marten skins were shipped by the mail from Tolovna addressed to a Tacoma company, some being enclosed in bear skins and other low priced furs. They were seized on the steamer Alaska, and are being returned to Fairbanks to await action of a grand jury.

A penalty of $200 and confiscation is provided for the illegal possession of each skin.

PRINCE WILL NOT MAKE AFTER-DINNER SPEECHES

VANCOUVER, July 10.—The Prince of Wales during his Canadian tour has decided not to accept invitations "which wohld involve his speaking at public luncheons," according to a telegram from Sir Johseph Pope to the Vancouver Canadian club.

VALUE OF GERMAN MARK FAILS TO MAINTAIN GAIN

BERNE, July 10.—The German exchange here, which in a few days after the signing of the peace treaty rose from 35 francs for 100 marks to 51 francs, has lost most of the gain, and 100 marks now are quoted at 37 francs. Austrian crowns, after a similar brief recovery, dropped from 21 francs for 100 crowns to 17 francs.

DENOUNCES AMERICAN FEDERATION OF LABOR

VICTORIA, July 10.—Denouncing the American Federation of Labor and praising the One Big Union, W. A. Pritchard, a Vancouver labor leader, addressed a mass meeting of 2000 persons at the Royal Athletic park for nearly two hours tonight. He replied to the claims that the One Big Union originated among a few men by asserting that the session of the Trades and Labor Congress had crowded out the requests of the western delegates last year and the western men had withdrawn and held a conference in Calgary. They were then faced, he said, with a stack of requests from all brands of workers throughout the country from the Great Lakes to Victoria, asking for a new form of industrial organization. It was then that the One Big Union had arisen.

It's one thing to talk and another to say something.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for woman's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

UNIONISTS INVITED TO JOIN LIBERALS

Credentials Are Extended to the Hon. W. S. Fielding to Attend Big Convention

OTTAWA, July 10. — Credentials have been extended to Hon. W. S. Fielding to attend the National Liberal convention in August. It is said that he will be in attendance with other Liberals who left Sir Wilfrid Laurier on the conscription issue. Preparations for the convention share with the prospective cabinet in keeping the political pot boiling. Reports received by the convention organizers have indicated that throughout the various ridings there seems to be a free mind on the question of a successor to Sir Wilfrid Laurier, as permanent chief of the Liberal party. There is indication also, it is stated, for a general desire for the laying down of a thoroughly progressive policy.

When the call to the convention was issued, invitations were sent to a number of organizations outside party limits, while, generally speaking, they will not send delegates to the convention, a number will present their views. The Canadian Brotherhood of Railroad employees has advised that it will have representatives present on the opening of the convention to present its views. The Proportional Representation society has asked permission to present the case for proportional representation.

In Quebec and Ontario most of the riding conventions have been held and the delegates chosen. In Nova Scotia nearly all the delegates have been chosen, but in New Brunswick a number still remain to be appointed. Arrangements are said to be well forward in the western provinces.

PAROLED ALIENS NOT FREE IN CANADA YET

OTTAWA, July 10.—Ratification of the peace terms by Germany doet not have the effect of freeing paroled aliens in Canada. The acting minister of justice said today that there will be no change before the peace treaty is ratified by Great Britain. Afterwards the question will be considered.

TO ORDER POLES TO CEASE FIGHTING IN LITHUANIA

PARIS, July 10.—Marshal Foch was today instructed by the council of five to send notification to the Polish troops to cease action in Lithuania.

The Bulgarian treaty, it is announced, will come up for consideration on July 25.

An inter-allied commission has been named to discuss the military occupation of the Rhine with the German delegation after consultation with Marshal Foch.

FRENCH HAVE PLAN TO REDUCE COST OF LIVING

PARIS, July 10.—Important decisions to reduce the cost of living were reached at a conference of the war office today between Premier Clemenceau, Minister of Finance Klotz, Minister of Public Works Clavelle, Minister of Agriculture Borst, Minister of Reconstruction Loucheu and Minister of Commerce Clemntel, according to an official announcement.

VANCOUVER, July 11.—The constitution of the One Big Union was adopted tonight by the Vancouver Trades and Labor Council without opposition.

QUICK, PAINLESS WAY TO REMOVE HAIRY GROWTHS

(Helps to Beauty.)

Here is a simple, unfailing way to rid the skin of objectionable hairs: With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about 2 minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.

EX-CROWN PRINCE DID NOT MAKE HIS ESCAPE

PARIS, July 10.—The council of five received today a reply from Holland in answer to the council's note regarding the reported escape from the Island of Wierengen of the former German crown prince. The Dutch note, in what were said to be rather curt terms, pointed out that the rumor of the escape was unfounded and expressed surprise at the warning given by the council. The Dutch government, the reply adds, is conscious of its international obligations and must be left free to exercise its sovereignty as it sees fit.

ITALIAN EXPENDITURES

ROME, July 10.—Signor Schanzer, minister of the treasury, in a statement before parliament today on the financial situation, said that expenses in last year's budget amounted to over 6,500,000,000 lire, as against revenues of 1,500,000,000 lire, leaving a deficit of 5,000,000,000 lire. The minister said that a deficit in the budget of 1919-20 of over 650,000,000 lire could be expected, while the war liquidation expenses would amount to nearly 2,000,000,000. The public debt, Signor Schanzer continued, has risen to over 15,000,000,000 lire, including Italy's debt abroad, which is 4,000,000,000 lire, but reparations asked from the enemy are somewhat superior to this last amount.

Mining and Markets

IRREGULAR GAINS ON WALL STREET

Indications of Easier Money and an Industrial Revival Rule Market.

NEW YORK, July 10.—Cumulative indications of increasing monetary ease and additional evidence of general industrial revival were the controlling factors in the further irregular advance of the stock market today. Early gains of one to five points were impaired in the later dealings on extensive offerings. Initial rates for call loans were 7 to 7½ per cent, against yesterday's opening quotations of 9 to 10, as low as 6 being quoted in the final hour, although the ruling figure was 7 per cent.

The increase of slightly more than 600,000 tons in unfilled orders disclosed by the June statement of the U. S. Steel Corporation marked the first gain since October of last year, when production of iron and steel began to develop reactionary tendencies.

Reports submitted by other steel and iron concerns, as well as leading equipment and metal producing companies, confirmed the statement of the steel corporation, and coppers were further stimulated by purchases for foreign accounts, including the Orient.

Sales amounted to 1,635,000 shares. Trading in bonds, domestic and foreign, was again light and without noteworthy change. Total sales, $9,750,000. Old U. S. bonds unchanged on call.

HOG PRICES HIGHER AT OPENING AT CHICAGO

CHICAGO, July 10.—Hogs—Receipts, 35,000; estimated tomorrow, 25,000. Opened strong to 10c higher than yesterday's general trade, but closed weak except for mixed and packing grades, which were strong to 25c higher. Top, $22.85, a new record. Bulk, $21.40 to $22.65; heavy weight, $21.85 to $22.60; medium weight, $21.75 to $22.85; light weight, $21.75 to $22.70; heavy packing sows, smooth, $21.25 to $21.75; rough, $20.50 to $21.15; pigs, $18.50 to $20.30.

Cattle—Receipts, 11,000; estimated tomorrow, 3000. Higher. Beef steers, medium and heavy weight, choice and prime, $16.25 to $17.25; medium and good $13.60 to $16.25; common, $11.35 to $13.60; light weight, good and choice, $14.50 to $16.75; common and medium, $10.40 to $14; butcher cattle, heifers, $8.35 to $15; cows, $8 to $13.25; canners and cutters, $6.75 to $8; veal calves, light and handy weight, $14.75 to $19.50; feeder steers, $9.50 to $12.25; stocker steers, $8.25 to $11.75.

Sheep—Receipts, 16,000; estimated tomorrow, 11,000. Firm. Lambs, 84 pounds down, $14.75 to $17.35; culls and common, $9 to $14.25; yearling wethers, $10.50 to $14.25; ewes, medium, good and choice, $7 to $9.25; culls and common, $3 to $6.50.

WAYAGAMACK AND POWER ADVANCE AT MONTREAL

MONTREAL, July 10.—In today's broader and more active market interest centered chiefly in stocks not recently active. Wayagamack rose to 53½ and closed at 53¾, a gain of 4¾ points. Montreal Power moved up to a new high record at 93½, with the close at 92½, a gain of 2½ points, and with closing bid advanced to 92¾.

Following the publication of a good earnings statement for Tooke the common was in some demand today, selling up to 46, with only a light shading at the close, a net gain of 2½ points, with the closing bid at 45¾.

Total sales: Shares, 25,763; bonds, $229,750.

BANK CLEARINGS.

WINNIPEG, July 10.—Following are the bank clearings for the principal cities of the Dominion for the week ending today:

Brandon	629,774
Fort William	705,947
Lethbridge	781,694
Medicine Hat	474,881
New Westminster	570,762

Several carloads of potatoes have been shipped from points along the C. P. R. between Kenora and Murillo to eastern Ontario for seed. The shipments were composed chiefly of the Irish Cobbler variety.

PREPARE FOR OPEN TRADING AT 'PEG

Members of Grain Exchange Make Plans to Conform With Government Decision.

WINNIPEG, July 10.—On Monday last the Hon. A. K. MacLean, acting minister of trade and commerce, issued a statement to the press in effect that at the present time it is not the intenion of the government to prohibit or control trading in wheat in the year 1919-20 and that in the meantime it is the opinion of the government that open markets should prevail. The members of the Winnipeg grain exchange considered the subject matter of this statement at a general meeting today and unanimously declared themselves in favor of the opening of facilities for trading in wheat, and for the organization of all necessary machinery for the purpose of carrying out as far as possible the regulations as suggested by the acting minister of trade and commerce.

TORONTO LIVESTOCK.

TORONTO, July 10.—The livestock market today was rather slow in comparison with the active markets of the earlier part of the week. There was little change in prices. For the medium butcher lots, prices were barely steady. Anything real choice, steady to firm.

Calves, firm with an active demand for the Buffalo market.

Sheep and lambs, slightly easier.

Hogs probably touched the highest peak today at $24, fed and watered. The feeling of the market today was that next week will bring a sharp decline. Receipts at the Union stock yards were 1294 cattle, 127 calves, 180 hogs and 229 sheep and lambs.

WINNIPEG LIVESTOCK.

WINNIPEG, July 10.—Cattle trading was active for butcher cattle, which sold a shade higher than last week's prices. This is due to the light run of cattle, very little butcher stuff being in the offerings. Bulls and oxen steady. Stockers and feeders sold about steady with yesterday's market. Veal calves sold stronger. Sheep unchanged. A few lambs were in today's offerings and brought $18.25. Hog receipts were liberal, with prices steady at yesterday's close.

ACUTE WEAKNESS DEVELOPS ON CHICAGO GRAIN MARKET

CHICAGO, July 10.—Bearish aspects of government crop reports, together with increasing difficulty of trading in old crop months led to acute weakness today in the corn market. Prices closed heavy, 1⅜c to 3⅛c net lower, with September $1.93 to $1.93¼ and December $1.58 to $1.58⅛. Oats gained ⅞c to 1c to 1½c.

In provisions the outcome varied from 12 cents decline to an advance of 22 cents. Although July and September deliveries of corn touched at one time today the highest price yet this season, the fact was evident from the outset that this position of holders had become strained. Most of the trading appeared to center in the December delivery and there was a general effort to discourage further dealings in the nearer months, inasmuch as the scanty supply of old corn seemed too precarious a basis for the filling of contracts on a large scale. Besides, high price hogs appeared to have lost charm as a stimulus to corn buying. Under such circumstances the official prediction of a big yield in corn than had been looked for became the ruling factor, especially as prevailing weather conditions were excellent.

Oats bulged owing to export sales and crop damage advices. Provisions were dull, but advanced higher.

MONTREAL PRODUCE.

MONTREAL, July 10.—Eggs strong; cheese unsettled. Quotations:

Cheese—Finest easterns, 29c.

Butter—Choicest creamery, 34c.

Eggs—Selected, 54c; No. 1 stock, 48c; No. 2 stock, 42c to 44c.

Potatoes—Per bag, car lots, 75c to $1.

TORONTO EXCHANGE.

TORONTO, July 10.—Brazilian was the absorbing feature of the stock market today, 1984 shares being traded in and the price advancing from 58⅞ to 60¾ and closing at 60. Dominion Steel went back ¼ to 70¼. Spanish River advanced ¾. Steel of Canada lost 1¼, and Maple Leaf also gained 1¼. Dominion Canners sold off ½ point. Canada Locomotive went back ½ point to 56½.

One small patch of weeds will sow many acres with seed.

INLAND MINING COMPANY BUYS GRANITE-POORMAN

PROPERTY COMPRISES THIRTEEN CLAIMS AND A MILL; HAS BEEN IDLE SINCE EARLY IN THE WAR; HAS BEEN ONE OF THE BEST GOLD PRODUCERS IN THE INTERIOR OF THE PROVINCE; NEW OWNERS PLAN TO START IMMEDIATELY ON DEEP CROSS CUTS SO THAT ALL WORKINGS ON 600-FOOT LEVEL MAY BE WORKED THROUGH ONE TUNNEL

The Granite-Poorman mine, the property of the Kootenay Gold company, has been sold to the Inland Mining Company, Limited, of Walla Walla, Wash. The purchase price is stated to be about $60,000.

The Inland Mining Company, Ltd., has for its directors many prominent business men and farmers of Walla Walla and district. Alfred Batchtold will be managing director and W. Myers of Green Bros. & Burden, of Nelson, is to be engineer.

The property comprises 13 crown granted claims, including the mill site, which cover in all about 355 acres. It is located five miles from Nelson, between Sandy and Eagle creeks.

It is the intention of the new owners to start immediately the construction of a deep cross cut tunnel so that all other workings at the 600-foot level may be worked through one tunnel. The proposed cross cut will also provide drainage for all the lower workings.

It is stated that the Granite-Poorman besides having to its credit a large production value of gold, has possibly had more high grading carried on during its life than any similar gold property in the province. This is due to the many bunches of high grade ore found throughout the several workings.

The various ownerships have shown the possibilities of the property. It was expected in 1915, at the time the property was bonded by Butte and Spokane mining men, that sufficient capital would be at hand to carry out any scheme of practical development decided upon. With the organization of a company under the title of the Kootenay Gold Exploration Company, Ltd., capitalization $1,500,000, came reports that the ore going to the mill was giving a value of $10 in gold. Then came the opening of the Hardscrabble vein, which was believed to be averaging $14.66 in gold, with an average width of ore of two feet two inches. Other assays taken from the same vein and level showed values of $28, $40 to $80.

In 1917 mining men were astonished to hear of the closing of the Granite-Poorman. The reason for the cessation of operations was given as the high cost of production of gold brought about through the excessive price of supplies and labor, and the unchanging price of the metal.

Just before the closing down the company had equipped the mine with a 300 h.p. motor, a large cross-compound compressor, transformer house, and in addition to being thoroughly overhauled, the 20-stamp mill was equipped with three Diester-Overstrom sand tables and one slime table. The work had been done at a large expenditure.

Several anecdotes are told by mining men of the early history of the mine.

In 1888 it was owned by Jim Wardner, in partnership with a man named Davenport. Later the two partners are said to have played "seven-up" for it. Jim lost.

One mining man tells a story about Wardner's "floating" of a champagne eggnog. He went to Fred Hume, who was then proprietor of a hotel in Nelson, and made an agreement to provide the eggs if Mr. Hume would furnish the champagne. He then went went to a grocer and offered to furnish the champagne if the grocer would provide the eggs. The bargain was struck and the grocer and Jim went to the hotel with the eggs. The eggnog was made and the three shared it. "Didn't you get into this rather cheap, Jim" asked Mr. Hume. "I am the promoter," was Jim's reply.

TRAIL SMELTER ORE RECEIPTS

SOLD HUSBAND'S HOUSE TO GET WIFE'S ALIMONY

TORONTO—In order to meet a wife's claim for alimony Master-in-Ordinary Alcorn, at Osgoode Hall, sold for $2850 the house at 2062 Dundas street west, owned by John Alexander Baker. Some time ago Baker disappeared from the military barracks at Hamilton and has not been seen or heard of since. In consequence the suit brought by Mrs. Barker, for alimony, was not defended.

INCREASING THE PAVED ROADS IN UNITED STATES

CHICAGO.—Down in Oklahoma the citizens are strong believers in paved highways. Over a year ago Tulsa county citizens authorized a bond issue of $2,000,000 with which they proposed to pave over 100 miles of their main county roads. Work could not be commenced upon this system last year because the country's activities were required to carry the war to a successful conclusion. That job being out of the way, the citizens this year are proceeding with the awarding of contracts, and they hope to have a large mileage complete before snow falls again. In February the first contracts covering about eight miles of highway were awarded and concrete pavements 18 feet wide, six inches thick at the edges and eight inches thick at the centre were specified.

Further work was advertised and recently contracts were awarded for advertised and contractors' proposals will be received early in May for about 20 miles more. All of the work that has been awarded will be modern concrete pavements. The enterprise of these citizens and their officials in proceeding with their construction is typical of the progressive sentiment in Oklahoma. The state is considering a proposition to authorize a bond issue of $50,000,000 for the construction of a state-wide system of paved highways, and the citizens will express their wishes on the matter at a special election on May 6.

Paving in Milwaukee

Both this year and last the city of Milwaukee, Wis., has been actively engaged in a campaign for alley improvement. Clean and sanitary concrete pavements have been built in many thousands of Milwaukee alleys, and the work is expected to go on until every alley in the city, where the condition of the property requires, will be paved in shape to keep it in a neat and sanitary condition. Two groups of pavement contracts have already been awarded by the city this year, and a third group, comprising some 22 alleys, was awarded on April 21. This work went to seven different contracting firms, all of Milwaukee, the prices ranging from $1.45 to $1.55 per square yard. The total amount of pavement to be placed under these contracts is approximately 25,000 square yards.

Maryland and Virginia

The states of Maryland and Virginia are actively increasing the mileage of paved highways in the state this year. Maryland already has some 300 miles of concrete highways in the state, and is much further along in this respect than is Virginia. Maryland will award contracts for about 30 miles of concrete paved highway early in May, and Virginia has recently awarded contracts for about 16 miles in Norfolk, Southampton and Princess Anne counties.

More in California

The state of California will submit to its voters on July 1, 1919, a proposal for a new bond issue of $40,000,000 to provide funds for the extension of the pavements on the state highway system. In 1910 the state authorized an issue of $15,000,000, and a second issue of $18,000,000 in 1915. The paved roads which have been completed under these issues have inspired a desire for more—and have created a need for more, by reason of the development of new areas which are reached by these highways. Among the new projects the citizens desire to undertake are the Kerns River highway, the road from San Diego to Yuma, Arizona, and a concrete boulevard 100 feet wide from Merced to the Yosemite Park through El Portal.

California has found that paved roads return dividends to the taxpayers, not only on account of the tourist business, but on account of the facilities they afford to the great agricultural districts like the Sacramento Valley, the San Joaquin Valley, the Santa Clara Valley and many other equally rich districts of smaller area. Overwhelming endorsement of the new bond issue is predicted.

The counties of Michigan are losing no time in getting action on their individual programs for this year, while the state is preparing its plans for construction work under the new $50,000,000 bond issue, authorized by the voters April 7. To date, this year, the counties of Michigan have awarded contracts for more than 500,000 square yards of concrete highways. This puts the state among the leaders in this line of activity for the year, even without the large program made possible by the bond issue. Recently Kalamazoo county awarded a contract for five and one-fourth miles of concrete highway, 16 feet wide, near Kalamazoo to the Intra State Highway Co., of Kalamazoo. The total contract price for the job is $142,200. This improvement will be one on the line of the main road from Chicago to Detroit, which is being paved by the counties through which the road passes.

Improving Streets

A number of counties in Iowa this year have been very effective in letting contracts for improving their streets. Recently the enterprising little city of Spencer, in Clay county, awarded a contract for 90,865 square yards of reinforced concrete pavement to be six inches thick, to J. S. McLaughlin & Sons, of Red Oak, Iowa. The contract price for this work will be $2.72 per square yard. At the same time a contract for a number of cincrete alley, pavements was awarded to William E. Pepper, contractor of Everly, Iowa, at $2.25 per square yard. In view of the size of this improvement it is worthy of mention that the population of Spencer is approximately 1,500, and the example set by these enterprising citizens is certainly worthy of commendation.

Georgia Contracts

Two important street paving contracts were recently awarded in Atlanta, Ga. The Meador Construction Co., of Atlanta, was given a contract for paving 20,203 square yards of Juniper stret at $2.38 per square yard, and the Pittman Construction Co., also of Atlanta, was given a contract for paving 24,130 square yards on Marietta street at $3.40. It is expected that a large amount of street improvement will be undertaken in Atlanta this year, and Fulton county, of which Atlanta is the seat, expects to improve a large mileage of the county highways, with concrete pavement.

Extensive Construction Programs

Many of the counties in Ohio have extensive construction programs for the improvement of their highways this year. Among these is Defiance county. Two important contracts were recently awarded, one for about 7 1-4 miles of concrete on the Jewel road, being awarded to Newell and Daust, contractors of Defiance, at a total cost of $174,755.50. This is equivalent to a square yard price of approximately $2.52. Another contract was awarded to J. A. Elder, of Bryan, Ohio, for three miles of concrete pavement on the Farmer-Mark road. The total cost of this contract will be $54,254.90, which is equivalent to a square yard price of approximately $1.83.

CORSICAN DUE JULY 14.

OTTAWA, July 10.—The liner Corsican, with 1206 on board, of whom the majority are soldiers and their dependents, will reach Quebec on or about July 14, according to militia department advices. She carries 155 officers, 431 other ranks, 292 women, 287 children, 17 infants, 21 members of the nursing service and three nurses.

TEXT OF THE GERMAN RATIFICATION ON WAY

PARIS, July 10.—The text of the German national assembly's ratification of the peace treaty will arrive here shortly by a courier from Weimar, Baron Kurt Von Lorener, head of the German peace mission, announced today in a note to Premier Clemenceau, president of the peace conference. Baron Von Lorener therefore asked that the blockade against Germany be raised and that prisoners of war be liberated as soon as possible.

PRESIDENT OF C.P.R. OFFERS TO ASSIST STOCKMEN

TORONTO, July 10.—"If reports of the Alberta drought are correct, then it is very serious for Canada as a whole," declared E. W. Beatty, president of the C.P.R., here tonight.

"I have not heard a word as to the conditions out west other than what I read in the papers and it contained the reported injury of the Alberta livestock industry."

Mr. Beatty has no suggestion to offer off-hand to alleviate the conditions in Alberta, but intimated that if there was anything at all he could do through the great railway system of which he is head, he would be anxious to do it.

A few sheep running on the summer-fallow will look after the weeds more effectively than a hired man and four horses.

FRIDAY, JULY 11, 1919

ANOTHER DISAPPOINTMENT REGARDING THE YMIR ROAD.

It is disappointing to learn from Hon. J. H. King's letter that the government at Victoria has definitely decided that it will do nothing with the Ymir road this year.

The residents of the large district which is vitally concerned in the project would have been less disappointed if Dr. King had come out in the open before. Stalling always makes a disappointing decision worse.

It is understood that the Thrums-Brilliant cut-off is to be constructed this year. That is most satisfactory. It will represent a road improvement of great value to the whole of Kootenay-Boundary. But it is not a substitute for the Ymir road and will not be accepted as such.

Both highways are needed and both must be built, if not by this government then by another.

CANADA FREE TO MAKE ITS OWN DECISION.

Those who have expressed fears that the treaty of peace would lessen Canadian autonomy are finding that, as is usual in such cases, Canada's interests have been well protected. The peace treaty, in the clauses which bind Great Britain to go to the aid of France in the event of an unprovoked attack by Germany, says:

> The agreement between Great Britain and France (to act together if France is attacked by Germany without provocation) corresponds with that between France and the United States with an added provision that the treaty imposes no obligation upon any of the dominions of the British Empire, unless, and until it be approved by the parliament of each dominion interested.—Associated Press Dispatch.

That is how the matter stands as far as the peace treaty goes, but Canada and the other dominions have a moral obligation which goes far beyond the mere words of the treaty. They should immediately recognize that obligation by joining Great Britain and the United States in pledging their assistance to France if Germany should again play the aggressor.

It is for Canada and the other Dominions to decide of their own free will. There is no doubt as to what the decision would be if Germany attacked France unprovoked, but Canada should come out into the open now. Let Germany know that this Dominion is solidly behind France and would have to be reckoned with in the event of another war of aggression.

THE PEACE TREATY AND ITS CRITICS

While there were a lot of honest critics in the United States of the peace treaty, there are also a not inconsiderable number who have in view the fact that there will be a presidential election in 1920. Then, of course, there are the Bolshevists, the "New Republicans," and various other brands of extreme theorists. An amusing skit on their views is given by a writer in a Chicago paper, who has gathered together the various proposals and set them out in the following form:

1. The treaty must give full self-determination to all Poles, Czecho-Slovaks, Jugo-Slavs, Danes, grave and frugal Transylvanians, Margarines, Letts, and Hindrances.

2. The ancient boundaries of Poland and Bohemia, including its sea coast, must be integrally restored.

3. This must be done without taking an inch of territory from the German empire.

4. France must have the coal of which she has been deprived by the destruction of her mines.

5. But it is robbery, infidelity to the Fourteen Points, just as bad as Prussia, etc., etc., to take this coal from Germany.

6. Reparation must be made for all material damage committed in France and Belgium.

7. But it is outrageous, undemocratic, inhumane, and all the rest of it, to do it with German money.

8. We have to insure to the new and victim nations the peaceful enjoyment of their liberty.

9. The first step toward this must be for the allies to disarm themselves completely.

10. The league of nations is (a) a tyranny of the black and yellow races over the white; (b) a world-power trust of the "Big Four" (all white); (c) a surrender of American sovereignty; (d) useless because powerless; (e) the most potent instrument of tyranny ever devised. (f) insincere, because it doesn't involve immediate disarmament; (g) insane, because it may involve ultimate disarmament.

11. Any mandate under the league offered to Great Britain will be land grabbing and camouflaged annexation on Britain's part.

12. Any mandate under the league offered to the United States will be an intolerable expense and responsibility that we cannot think of accepting.

Jess Willard is now in a class with Bill Hohenzollern, being retired to the wood pile.

For a country with no money to pay its debts, Germany has a surprising amount of cash to pay out for propaganda.

Peter Wright, the great British labor leader, is to visit Canada again in the fall. Nelson should not miss the opportunity of arranging to hear him during this second tour of the country.

Don't quit boosting for the Ymir road just because it is hard to get. The district needs the highway. It also needs the highway between Queens Bay and Kaslo, which is being at least partially built and it is to be hoped will be completed this year. And then there are roads to connect the Slocan Valley with Slocan Lake points. The whole district should continue to pound away, and more vigorously than ever, for the construction of roads—and good roads at that.

COMMUNICATION.

CRESTON OBJECTS.

To the Editor of The Daily News:

Sir—In your issue of July 5 there is a short paragraph dealing with the sale of a Willow Point property to Col. A. W. N. Taylor, C.S.I. It is stated therein that Colonel Taylor before making this purchase made a tour east through the Creston valley. While both Willow Point and Colonel Taylor are to be congratulated on the purchase, the above statement is unfair, as Col. Taylor saw nothing of the Creston district except what a few minutes would permit him while passing through the short section which may be seen from the train.

Lest the impression should be gathered that Colonel Taylor inspected this valley and then made a preference for Willow Point, the board has seen fit to draw attention to this little matter.

C. F. HAYES,
Secretary Creston Board of Trade.
July 10.

LABOR VERSUS HYSTERICS

At Atlantic City the American Federation of Labor has, with no uncertain voice, declared itself in favor of the craft union as against the Bolshevik—I.W.W.-One Big Union. The project to have all contracts so co-related that the total arrest of all industry might be instantly accomplished was frowned upon. The convention also bumped the proposal that workers should elect their own foremen. The sane and safe forces in trade unionism showed in the federation a majority of practically six to one against those who are so violently seeking to hoist aloft the red flag of Bolshevism. These are cheering words for those who seek to gain a livable life from their work rather than merely to battle with their foes, real or imagined, upon any pretext whatever. President Gompers is today, as he has always been, the leader of firmness in the rights of labor as against hysterics, and President Gompers is a safe leader to follow.

SPEED!

When it comes to the non-living world speed takes on a new meaning in which the swiftest of our motions seems almost rest by comparison. The sun moves through space at the rate of nearly 44,000 miles an hour, and some of the stars are known to travel in that time more than 70,000 miles. There are particles which leap out from the radio-active substances with a velocity of 720,000 miles an hour, and the "cathode rays" in X-ray phenomena move three times as fast. Even these tremendous speeds are outdone by light, the ether waves producing which carry their impulses at the rate of 186,000 miles a second, or 669,600,000 miles in an hour.—Halifax Chronicle.

COLD STORAGE.

We stood the other day in the Art Museum in front of Turner's famous "Slave Ship." "Some picture!" remarked a chap who ambled along. "Some picture!" we admitted. "On the whole, though, I think ark Twain was right about it." "And what did Mark say?" "Mark said it looked to him like a tortoise shell cat having a fit in a platter of stewed tomatoes."

DE VALERA, LEADER OF IRISH REBELS

TORONTO.—We have it on the authority of a leading American newspaper that nobody who has visited the United States since the beginning of the war, not even President Wilson, has received such a tremendous reception as Eamonn De Valera, the so-called president of the so-called Irish republic. Tremendous crowds gather to hear him, wait for hours to catch a glimpse of him, and the cheers that greet his appearance are almost hysterical in their enthusiasm. It is not the personality of De Valera that commands this tribute, but the fact that he represents an Ireland free from the English yoke, the Ireland of the dreams of the Irish-Americans. Millions of Americans can see no difference in the condition of Ireland today and the condition of Poland before the present war. With their intelligence we are not now concerned. The fact that is important, and is indeed amazing, is that this sentiment exists, and it may not be an exaggeration to say that more Americans are keenly interested in the fate of Ireland than in any other foreign question today, except, of course, the fate of Germany. This explains the delight with which vast American audiences welcome De Valera.

Man Without a Country.

There may be American as well as Irish patriotism involved, for the Sinn Fein leader was born in New York City. What his nationality is it would take an international expert to say. His father was a native of some South American country, his mother was Irish. She is living now in Rochester, having married again after De Valera's father died. The boy was at that time two and a half years old, and was sent to his mother's family in Limerick. It was there that he imbibed his hatred of England and dreamed his first dream of an Irish republic. He was educated at Bluroe, Charleville, and the French college, Black Rock, County Dublin, and later attended lectures at Trinity college, Dublin. As a student he was brilliant, and prize after prize and scholarship after scholarship fell to him in arts, science and pedagogy. In mathematical science he taught the special honors courses in Dublin university, the late Royal university, at Black Rock, St. Stephen's Green, Eccles street, Loretto, and later was lecturer in these courses at Maynooth college. For ten years he was professor at the Royal Training college for primary teachers and was mathematical examiner for the intermediate and national universities and examiner in Irish for the Royal College of Surgeons. It is interesting to note that, like Casement, De Valera has drawn considerable state money in his comparatively brief career.

The Dublin Rebellion.

De Valera first came into prominence in the Easter rebellion of 1916, when the Sinn Feiners made their attempt to seize Dublin. He was in command of one hundred men, and it is said that this little group put up an unusually stiff fight. When the rebels surrendered, De Valera was among those to be court-martialed. He was sentenced to life imprisonment, and was thus luckier than any of his chief associates, for the rest of them suffered the death penalty. He was sent to Dartmoor with sixty-four other Irish prisoners, and for some time endured the rigors of penal servitude. When Professor Eoin McNeil of the National university of Dublin arrived as a prisoner one day, De Valera called out, "Irish volunteers! Attention! Eyes left." A few days later he committed another breach of prison rules and was set to pick oakum. He refused to work, and when charged with this additional offence went on a hunger strike until the charge against him was withdrawn. Next he was removed to Maidstone prison, where he associated with English convicts who had no interest in Ireland. He was not there long before the British government released about 2000 Irish prisoners and modified the conditions for the others, among whom was De Valera.

Fenians and Sinn Feiners.

He was taken to Lewes, but had not been there long before he organized a rebellion among the 125 Irishmen who were also prisoners. As spokesman for them De Valera demanded that they be treated as prisoners of war, and not as felons, and when this was refused the prisoners returned to their cells, wrecked what furniture there was and smashed the windows. This led to the men being split up again. They were put in the chain gangs and their former concessions were cancelled. But again the British government weakened in response to pressure from some quarter, and the rebels were released. As De Valera left Pentonville he received a telegram urging him to run as republican candidate for East Clare. He accepted and was elected with a great majority. He then gave his attention to organizing the Sinn Fein party. It appears that among the Sinn Feiners were those who, believing in Irish independence, did not recommend rebellion, but adhered rather to peaceful propaganda. The others, the real Fenians, wanted bloody action in large and immediate doses. De Valera was the only man in sight who had the respect of all factions.

The Irish Parliament.

His organizing ability was responsible for the results of the last election when his followers elected seventy-three members of the house of commons, although each Sinn Fein candidate was pledged not to attend the accursed chamber. Then was held that famous Irish parliament in Dublin, whose proceedings were conducted haltingly in the Erse tongue and which declared the independence of Ireland and hailed De Valera as president of the new republic. In May, 1918, the British government arrested and deported from Ireland one hundred male Sinn Feiners, and three women, and until the following March, held them prisoners. Of course De Valera was among them. He was confined in Lincoln prison, which appears to have points of resemblance to the Toronto jail, for De Valera escaped therefrom to Ireland. He lay hidden, but whether the British police were really sincere in their effort to recapture him is a question. At any rate he was at large for some months, and then appeared dramatically in the United States to float a loan of $5,000,000 for his republic. It is likely that he will do this if everybody who is willing to give him a cheer is willing to lend him a dollar.—Mail and Empire.

GEN. SIR H. PLUMER AND GEN. SIR W. ROBERTSON VISIT THE NAVY ON THE RHINE

DOMINION POLITICS.

The Unionist party, or at least all the members and senators with two exceptions, who gave their allegiance during the war to that union, have decided during a recent caucus to perpetuate the alliance with their respected leader, Sir Robert Borden. This evidence of respectful admiration and respect is the finest bouquet which the political world could offer to the prime minister during this, the sixty-fifth anniversary of his birth. The ties of the Unionist party, between the Conservative and Liberal members, will be better to serve the affairs of the nation in the program of mutual concessions in matters of tariff and with a leader as sure and as able as Sir Robert Borden, this party, irrespective of its future, should be a force for the great Canadian nation. It is the closing up so much desired of the eastern and western interests, not so far apart after all, to which the real patriotism of the country tends at the present moment. It is a rampart against the threat which lately raised its ugly head at Winnipeg as well as an organization of a sort of national guard around our national flag. We hope also that the province of Quebec, which, in spite of the names which she gives herself, is ever profoundly conservative in instinct as well as in tradition, will not look with fear any longer upon the eminent statesman who has so often shown himself so patient and so wise with the French-Canadian element although it may be difficult to put away the clouds of blind prejudice accumulated so long amongst our people by unscrupulous agitators. The esteem, however, in which educated public opinion in this province holds the prime minister should be the first pont of departure in a conversion so just and so necessary.—L'Evenement Quebec (Cons.)

CURRENCY EXPANSION.

No doubt a time will come when war and post-war expenditure made upon credit will drop off, and deflation will ensue. In December last the United States government was spending at a rate of $2,000,000,000 a month. It has reduced that rate to $1,000,000,000 a month now, and other governments are striving to reduce expenditures, though cleaning up of war commitments, and objections to less government spending by the people seem to delay the return to economy. However, for the good of the people, the time of contraction must not be hurried. Considering revenue needs by all countries from the war, no haste in reducing prices need be expected. To raise, as Canada now has to raise, $300,000,000 in a year, would impose hardship on us if commodity prices weer now at their pre-war level. On the inflated basis, $300,000,000 a year can be borne easily, but to double the burden—which would be the effect of cutting general prices in half—might lead to trouble. A writer in the Boston Transcript tells of the experience the United States had with deflation long after the civil war. When the bonds came due, they were paid off. From a maximum of $352,000,000 in National Bank notes in 1882, the amount in circulation decreased to $162,000,000 in 1891. The distress of that period will be recollected by many people who today are grumbling about inflation and high prices. The government had reduced its debt from $2,332,000,000 in 1865 to $610,000,000 in 1891, and the low point was $585,000,000 in 1892. Money in circulation had diminished alarmingly, credit had been punctured and unemployment was general. People in those days had no revolutionary ideas. They were content to fight for mere existence, without thought of manipulating state finances to produce artificial prosperity.

In his budget speech Sir Thomas White said that the policy of the Dominion government would be to restore the Dominion note issue to the statutory condition as regards gold cover. But the over-issue cannot be completely got rid of for years, contracting gradually only as the needs of business permit—for any other course would mean disaster. In the United States the increase in currency has been from $34 per capita to $56, and Canada's proportion has been somewhat larger. But the effect of this currency inflation seems to be relatively small, compared with that caused by the huge expansion of credits in the enormous war bond issues.

GAVE SMALL LOAN, HOPED FOR RICHES

TORONTO.—Charged with obtaining $1500 by false pretenses from Harold Dignem, a Kingston farmer, David Russell, a middle-aged man, was sent from the police court yesterday for trial and allowed $2000 bail. The farmer's story was to the effect that on the strength of an alleged tale by Russell that he was suing in the courts Sir E. B. Osler, the estate of the late H. C. Hammond, Sir Augustus M. Nanton, Hon. William Pugsley and Charles S. MacInnis, vendors of the Qu'Appelle, Long Lake and Saskatchewan Railway and Steamboat company, for sums of money amounting in all to over eight million dollars, he advanced accused the money, and received in exchange notes of the value of $9000. Complainant's mother had to mortgage the farm in order to find the money for the loan. Russell, according to Dignem, stated that there might be an early settlement of the claim, which was backed up by government title, for $5,000,000, and that in any event, complainant would get three or four thousand dollars in return for his money in three weeks' time.

No, Cordelia, a good cook isn't necessarily one that attends church seven times a week.

Doubtless You Can

think of a great many things you could give the bride, but can you think of any think that meets the requirements of the occasion better than "Community," the Long-Life Plate? Sets or single pieces. Teaspoons the half-dozen $3.50. Other pieces in proportion. Write for any particulars required.

Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words

"DAIRY BUTTER"

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

If you have your own name or brand on your wrappers you gain valuable advertising for your butter. It causes people to ask for the same brand again.

BIG DIRIGIBLE BUILT FOR WAR

NEW YORK.—The R-34 and her sister airship, the R-33, are the world's greatest dirigibles. The war brought them into being for they originally were designed to out-Zeppelin Germany's Zeppelins and bring death and destruction to German cities. When they were building it was reported that they would be the flagships of a gigantic fleet of aircraft that would be launched on a tremendous air raid on Berlin. For this purpose they were equipped with openings through which four 800-pound bombs and sixteen of 120 pounds could be dropped, while on the upper structure emplacements were built for batteries of eight guns

Remodelled for Peace

The sudden end of the world war put a stop to the plans for a raid on Berlin and the architects of the dirigible turned their attention to remodelling their craft for peaceful purposes. But their plans were again interrupted in June when the war clouds gathered again as reports gained strength that Germany would refuse to accept the allied peace terms. The R-34 was swiftly put on a war basis and started on a cruise of 2,000 miles over the Baltic and the German coast region. She carried no bombs, but, equipped with rapid firing guns, swept over the enemy's territory at a low altitude, her enormous shadow giving a grim promise of the possibilities of the future. The cruise was made without a mishap and when peace finally was assured the crew of the R-34 resumed their preparations for the flight to America. Originally it was planned that the voyage should be made by the R-33, also, but it was decided that too much time would be needed to remodel the sister ship.

Built Near Glasgow

The R-34's birthplace was Inchinnan, a little village near Glasgow. In size she rivals all but the very largest ocean liners. Her length is 640 feet, her beam 79 feet and from the bottom of her lowest gondola to the top of the gas bag measures 79 feet. Her measurements are very closely those of the liner Adriatic, and if she was stood on end she would overtop the famous Singer building in New York by 27 feet. Two million cubic feet of gas are imprisoned in the enormous balloon, whose resemblance to a monstrous fish is heightened by the fact that it is painted silver color, proved by experiment to be the most successful for resisting the action of the sun in expanding the gas bag.

Speed 70 Miles An Hour

The driving power of the airship is supplied by five Sunbeam motors with a total of 1,000 horse power, sufficient to give a speed of close to 70 miles an hour in favorable weather. To feed these motors the airship carries between 7,500 and 8,000 gallons of gasoline, weighing 16 tons and giving her a cruising radius of 4,300 nautical miles, or considerably more than the distance between Europe and America and return. Her lifting capacity is 59 tons, of which 21½ tons is dischargeable weight, or weight which can be disposed of from the ship.

Crew of Thirty

Five gondolas are swung from the gas bag, connected by a 600-foot platform. In these cars there are comfortable accommodations for the crew of 30, with sleeping quarters for half that number. Radiators on top of the motors supply them with hot water and electric stoves assure them of hot meals. Communication with mother earth is provided for by a wireless equipment with a radius of 1,500 miles.

Mrs. Testy—"What are you burning, my dear?"

Mr. Testy—"The letters I wrote you before we were married."

Mrs. Testy—"Oh, you heartless wretch! Have you no sentiment, no tender—"

Mr. Testy—"Shut up, my dear! I'm doing it for your sake. I'm trying to manage things so that when I die nobody will dispute my will on the ground of insanity."

SERATHOL IS FINE FOR INDIGESTION SAYS DR. PARRISH

Since the publication of Dr. Edward Parrish's recommendation of ordinary serathol for indigestion, gas, acidity and dyspepsia, it has won instant favor with scores of dyspeptics all over the country.

When you have that "big lump in the stomach" feeling or belching, gas or bad breath from an upset stomach, just take a little ordinary serathol, wait one minute by the watch and you'll probably say what others have said: "Serathol works like magic." At any rate it is perfectly harmless, pleasant to take and can be obtained at triffing cost from Canada Drug & Book Co. in Nelson, and all first class druggists.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides it loosens and takes out every particle of dust, dirt and dandruff.

Dr. Williams Fly and Insect Destroyer

Spray your Cattle and Horses with it and Flies and Mosquitoes will pass them by.

It is perfectly harmless and easy of application.

Use it on your Milk Cows and increase the milk supply.

Put up in 1-gal. cans. Price, $1.75 per can.

SETTLEMENT BOARD INSPECTS LAND IN SALMO DISTRICT

TRAIL, B. C., July 10.—On Saturday the chairman of the Soldiers' Settlement board, B. E. Paterson, accompanied by R. G. L. Clarke, visited Trail in connection with the Salmo land scheme. The gentlemen, together with Mr. Merry and Secretary G. F. Reimann, were driven to Salmo by Billson Merry to make an inspection of the land. They were very much impressed with the quality.

Some of the veterans have already staked out sections in view of the likelihood of the area being thrown open at an early date.

Mr. Paterson promised to recommend the opening up of the logged-off timber limit of 4000 acres. Messrs. Paterson and Clarke have returned to he coast.

Mr. and Mrs. K. A. Margeson left last Friday via Revelstoke for a visit to the coast. Mrs. Margeson intends spending the summer months there. Mr. Margeson will return in two weeks.

Geo. Redpath of Nelson, a returned veteran, has accepted a position in the time office at the smelter, replacing J. Nichols, who has been transferred to the general office.

The coke supply at the smelter is gradually decreasing in magnitude, and unless some means of getting more is found within the near future the furnaces will be forced to close down.

A joint installation of the K. P. lodges of Rossland and Trail and the Pythian Sisters lodge of Rossland will take place at the Pythian Temple in Trail on Thursday evening, July 10. It will be followed by a social evening, to which members and their friends are invited.

There was a splendid turnout of War Veterans and Army and Navy Veterans at the thanksgiving service held in St. Andrews' Anglican church on Sunday evening. The church was filled to overflowing, and the service was specially appointed for the occasion. The chancel was beautifully decorated with roses and plants. A very forceful address was delivered by the rector, H. R. Ragg.

R. Laughton of Nelson is in the city and has accepted a position at the smelter.

The C. M. & S. Co have given a fifteen cents per day increase to its employees, according to the agreement the company and the men based on the market value of metal.

BURTON NOTES

BURTON, July 10.—A Canada of Revelstoke is here looking over timber up the creek.

Robert Stevens arrived home from Creston on Saturday.

Miss Alice York, who has been visiting Mrs. Stevens for the past week, has returned to her home in Rossland

Allan Eades of Revelstoke has arrived to spend his vacation with Mr. and Mrs. J. H. McCormack.

A. A. Burton is in Nelson.

Mr. and Mrs. Vestrup, Mr. and Mrs. Blackstock and Miss Edwards of Nakusp attended the banquet and dance here on Friday night.

Mrs. D. A. Smith and Miss Smith of Lethbridge are the guests of Mr. and Mrs. W. H. Robson.

Burton Women's institute and friends entertained the returned soldiers and their friends on Friday night. A dance was held in the hall, which was loaned by Mr. Burton. Visitors from Grahams Landing, Arrow Park and Nokusp attended. The music was supplied by M. S. Hill, Mrs. Blackstock, Mrs. Bethume and Miss Edwards. Dancing was kept up until an early hour.

During the evening supper was served in the hotel dining room, kindly loaned by Mrs. Podbrelnak. A company of over one hundred and twenty sat down to an excellent spread. The table and dining room were beautifully decorated by the ladies with flags and roses.

D. Smith has left to visit friends at Lumby, B.C.

WANETA NOTES

WANETA, July 10.—George Neelands left fo the coast on Friday.

Miss E. McDougall, Miss M. Wick, Glen Wick and Wilfred Barrett drove over to Fruitvale on the first.

A dance was held at the Fort Shepherd hotel on the fourth.

The ranchers are busy getting in their crop of timothy hay. Owing to the unusually dry weather it is only on a few of the farms that the yield is as heavy as in average years.

Capt. E. A. Floyer, M.C., made the trip through from Nelson last week in his new car.

In consequence of an injured knee T. G. Hopper was obliged to seek medical aid in Trail.

A nephew of Mrs. A. E. Churches of Waneta, Fred Turner of the big dirigible R-34, has made the Atlantic trip.

Pend d'Oreille river, almost wiped out by fire the other day, will be remembered by old-timers as the scene of great activity in the early mining days.

United States shipping losses caused by the war amounted to 136 vessels.

War contracts cancelled in the United States since cessation of war amount to over $1,336,000,000.

PASTURE CATTLE ON CROWN LANDS

CRESTON, July 10.—The livestock industry in the Creston Valley is now in a fair way to be put on a business basis in at least the direction of making best use of the pasture obtainable on the crown lands, as well as having the hay cut on the flats handled in the same equitable manner. This is likely to be brought about through the agency of the Creston Valley Stock Breeders' association, which has come into existence following the visit of Grazing Commissioner MacKenzie, who at an informal meeting of the stockmen set forth the regulations of the new grazing act, and explained the advantages that should accrue through having the haying and cattle ranging in this locality administered directly by such an association. The following officers have been elected: President, J. W. Dow; vice-president, C. Sutcliffe; secretary-treasurer, Guy Constable. Executive, Geo. Hobden, Frank Rose, A. D. Pochin, George Benney, John Hobden. For this year the membership fee will be $2.00. Applications for permits to cut hay on the flats are being filled in now. These will show the number of head of cattle and horses each rancher has, as well as the quantity of feed that each will cut on his bench lands. With this data available the hay cutting permit will be issued to ensure that the applicont will have sufficient hay for an ordinary winter's feeding. The jurisdiction of the association extends from Kootenay Landing to Yahk. For this year the grazing feature of the powers vested in the organization will not be enforced, but next year it is proposed to systematically graze the Valley cattle in one big herd over this stretch of country under the direction of herders, whose services will be paid for by a pro rata levy according to cattle owned by each rancher benefitted. The herders will see to it that the cattle are salted regularly, and that an ample water supply is also available. The absolute authority with which the association is clothed will enable it to deal promptly and effectively with the Indians who, in the past, have been prone to pasture their cattle on the white's hay lands in order to give the Indian hay areas full opportunity to grow a maximum crop of hay.

Kootenay Flats reclamation was very much to the fore at the July meeting of the Creston board of trade on Tuesday night. Ottawa has at last woke to action on the resolution of the provincial government turning the area over to the federal interior department for the purpose of determining the feasibility or otherwise of the project. A joint conference of the provincial and Dominion engineers is proposed for this month, and the board is insisting both at Ottawa and Victoria that when this joint conference takes place that Colonel Muerling, who made the only surveys on the proposition, shall sit in at the meeting as one of British Columbia's representatives. To still further bring Ottawa to a sense of its responsibility Hon. Arthur Meighen has been asked to come on here and look the Flats over in August, following a proposed visit to Southern Alberta. At this meeting it was enthusiastically resolved to invite the Nelson business men, via the Nelson board of trade, to pay their proposed visit to Creston on Saturday, September 27. This fall fair day, thus affording opportunity to see a display of the Valley's products, as well as investigate the reclamation project. Another member was added to the list in C. W. Allan, manager of the Imperial bank. A committee of five will be named by the president to study the effect the land settlement board land purchase and soldier settlemen policy will have on the Valley as a whole, so as to enable the board to act intelligently in the whole undertaking as it develops.

The first of the Valley's July weddings was yesterday morning, when Lieut. Sherley A. MacDonald, late of the 54th battalion, and since Easter principal of Summerland school, was united in marriage with Ella Dow, daughter of Mr. and Mrs. J. W. Dow, Rev. T. McCord tieing the nuptial knot in the presence of quite a large assembly. A wedding dinner was served at the home, and the young couple left on the noon train on a wedding trip to the groom's home on Prince Edward Island.

The Canyon City Lumber Co., Ltd., brought in a 5-ton Duplex motor truck on Monday, and propose using it on the lumber and log haul at their mill. It is expected to haul at least 2,500 feet of logs and average a speed of 10 miles an hour under load. The company also utilizes a caterpillar engine that pulls three trucks to the load.

On Monday, Ike Lewis unloaded a car of 35 head of cattle which he bought in the Slocan, and which he will range on Lewis Island. In the lot was eight head of registered Poll Angus, including a pure-bred male.

The barn on the P. J. Dunn ranch at Corn Creek was destroyed by fire on Sunday morning, a registered Clyde stallion as well as harness and other stable equipment going up in smoke. Mr. Dunn arrived about a year ago from Oregon and was located on the late Dan English place.

The weather still costinues very dry, with Wednesday the hottest day of the year when the mercury hit 92 in the hade. Despite the lack of moisture raspberry shipping, which opened last week, is running higher than was the case a year ago. There is a considerable export of currants and cherries, but another week will see the end of the strawberry shipping.

The section crews are getting the right-of-way in shape for the laying of a spur to the site of the Imperial Oil Co.'s new warehouse to be erected here this season.

Mr. Binnelson, a Trail lathing and plastering contractor, has been here for the past three weeks, doing the work in his line in the Stocks, Boyd, Staples and Speers' residences. He will be back later for the same work on new homes which are under way for Jas. Cook and Mrs. Jos. Wilson.

R. R. Piper was a week-end visitor at Cranbrook with Mrs. Piper, who is still in the hospital of that city. She is recovering nicely, but it will be at least another month before she can return home.

W. E. Stringer has hung out his shingle here as a practising barrister with an office in the Jackson block. He is from Athalmer, where he was located until 1915, when he joined up for overseas service.

Miss H. G. Robinson of Edmonton arrived here yesterday to spend the summer vacation with her sister, Mrs. C. F. Hayes.

Mrs. M. McCarthy left on Tuesday for Morley, Alta., where she will spend a month with friends.

Jos. Heath was here over the week-end from Invermere, taking Mrs. Heath back with him, where they will reside in future.

Three more overseas veterans got back here this week in Sergt. Attwood, who went over with the 225th, but was drafted into the Engineers; Lionel Forrester, who was with Major Mallandaine's forestry corps, and Sergt. Horspool, who was a member of the 54th battalion.

Col. Lister, who is in charge of the land settlement board operations at Canyon City, is moving his family into the house vacated by Mrs. Heath on Victoria avenue. Account Coop of the same corps has the furnished Alex. Smith house for the summer months.

Coroner Dr. Henderson and Provincial Policeman Vachon were at Boswell on Tuesday, in connection with the drowning of the Johnstone child at that point on Monday.

COULDN'T AFFORD IT.

A father noticed that his rather obstreperous young son had the quality of thriftiness, and resolved to appeal to it.

"Sonny," he said, "I'm going to give you a nickel every day you're a good boy, on condition that every day you are naughty you are to give me a nickel. Is it a go?"

"I'd like to do it, dad," answered the kid. "But I can't afford it. I've only got $1.26 in my bank."

JULY CLEARANCE SALE

HAVE YOU PAID THIS GREAT SALE A VISIT YET? IF NOT, DO NOT PUT IT OFF ANY LONGER. FAIRLY COMPLETE ASSORTMENTS ARE STILL ON HAND TO CHOOSE FROM, IN SPITE OF THE HEAVY SELLING FOR THE PAST TEN DAYS. THEREFORE AN EXCELLENT VARIETY AND CHOICE I ASSURED ON THE LINES YOU WANT MOST.

NEW SILK AND JERSEY SUITS
Clearing at $49.95

Some of the prettiest Summer Suits we have ever shown. They come in plain Taffeta or novelty Silk, as well as a few all-wool Jersey. The styles are extremely smart as usual, and come in such colors as Navy, Taupe, Copen and Bisque. Sizes 16 to 40. VALUES TO $69.00.

MEAGHER & CO.

THE STORE FOR STYLE THE STORE FOR QUALITY

TRADE OUTLOOK IN FAR EAST

TORONTO.—That while there was an opportunity for Canadian export trade in European countries in the immediate future, such business would after all prove of a temporary character and that the general natural export marmet for Canadian manufacturers was in China and the East, was submitted to a gathering of the members of the staffs of the various MacLean trade and business publications this week by Dr. J. W. Ross, Canadian trade commissioner to China. He predicted that within 25 years the nations of the world will be tumbling over one another in an effort to get Chinese business. Canadian products, he stated, will be given as favorable consideration as those of any other nation, but Canadian firms must be prepared to face keen British and American competition.

Now that the war was over, Mr. Ross declared that China was facing an era of new development. European nations were taking the great Eastern empire in hand and the financing of transportation and industrial development was assured. This would mean a market for machinery and other supplies on a large scale. But as between this work for construction and other machinery and supplies for public and government works and the ordinary domestic market, he indicated that there was a distinct line. Fully 80 per cent of the 400,000,000 of population made their living off the land. They worked for very low pay and their buying power was small. Thus it was only the more prosperous who were able to buy imported manufactures and the larger demand was for cheaper articles.

Study Conditions.

Mr. Ross urged all those who are contemplating doing business in China to make a close study not only of the requirements of the markets, but of the methods of doing business there. There is room, he said, for great improvement in methods and a splendid opening for any firm that will carry a stock from which the needs of the buying public can be quickly supplied. At present, he stated, a great deal of business is lost because dealers carry only small stocks, and if anyone comes in and asks for a quantity of goods they have to cable for them. Chinese firms, Mr. Ross stated, will take an agency for anything and many of them sell any number of different lines. If anyone specialized in hardware lines and put in a complete stock of the kind of goods that will sell in China, there was, he said, good business to be done. Many of the firms have been selling largely from catalogue not even bothering to carry the stock. Mr. Ross stated, however, that the time for this kind of business is past.

Mr. Ross thought good results might come if Canadian firms were to go after business collectively, form combinations and send a representative to China, who would go into trade matters personally.

"Canadian firms," he said, "cannot expect to stay 10,000 miles away and dangle their goods at the Chinese and expect to get business, especially when the British and American firms are going keenly after it. This question has not been taken seriously enough. It is a big one and one which offers great possibilities. The European needs at best are going to be only temporary. In China is one of the greatest markets in the world, and it will be permanent. It is worth going after, and Canada should get her share of the business.

Goods in Demand.

In addition to all kinds of construction machinery, railway supplies, etc., Mr. Ross mentioned that there was a market in metal lines for steel bars, corrugated sheets, stoves, plates, wire nails, locks, hinges enameled ware, and nearly every class of hardware. In textiles there was a demand for cotton cloth in large quantities. In provisions there was a call for condensed milk, fruits and vegetables in tins, jams and preserves, canned salmon and meats and other household stores. There was also opening a very good demand for paper.

GIRLISH, WRINKLE-FREE SKIN EASY TO HAVE

Since its remarkable astringent and tonic properties became known, clever women all over the world have been using the saxolite face bath to "tone up" their faces, remove wrinkles and draw flabby cheeks and neck back to normal. After using the solution, the face immediately feels much firmer. The skin tightens evenly all over the face, thus reducing lines and sagginess. The formula is: Powdered savolite, one ounce, dissolved in witch hazel, one-half pint.

This simple and harmless face bath is a splendid thing for the outdoor girl, since sun, wind and flying dust are so provocative of squinting and other contortions which cause wrinkles and crow's-feet. Also it is fine to freshen up a tired face in hot, depressing weather.

AVIATION INSURANCE

MONTREAL—A Montreal firm of insurance brokers announce that they are prepared to arrange for policies for aviation purposes. It is understood that the risks will be taken by Lloyds.

Word has been received in Toronto that it is possible the Canadian forestry corps will shortly extend its operations to Ireland. An officer of the corps reports that there are areas suitable for operations. During one month the corps handled over 35,000 tons of material in Great Britain alone.

General News of the City

YMIR ROAD WILL NOT BE CONSTRUCTED THIS YEAR

"THE MATTER OF THE YMIR ROAD HAS BEEN BEFORE THE EXECUTIVE, AND IT HAS BEEN DECIDED NOT TO PROCEED WITH THAT WORK AT THIS TIME," READS PORTION OF LETTER RECEIVED BY BOARD OF TRADE FROM HON. J. H. KING, MINISTER OF PUBLIC WORKS—INDIGNATION MEETING OF NELSON CITIZENS IS SUGGESTED.

The provincial government has finally decided to drop the matter of building the Ymir road for the present, according to a letter from Hon. J. H. King, minister of public works, received by the Nelson Board of Trade.

To protest this action it was suggested by members at the board of trade rooms last night, that an indignation meeting of the citizens of Nelson should be called in the near future.

The matter of the Ymir road has been pushed strenuously by the Nelson board of trade for some time, delegations having gone to the coast to interview Dr. King on the question and returning with the understanding that the road would be built either out of ordinary provincial funds or out of a guaranteed bond issue.

The letter the board has now received from Dr. King is as follows:

"In reply to your letter of June 25, would say that the matter of Ymir road has been before the executive, and it has been decided not to proceed with that work at this time. There are many districts within the province where people are settled without means of communication and it is felt that they should at least be given consideration before this work is undertaken."

A Toronto financial firm had already become interested in the proposed bond issue, and with reference to it the following letter has been received by the board from A. E. Ames & Co.:

"We note that at a recent meeting of the Nelson board of trade a resolution was passed to the effect that the provincial government be asked to issue bonds for the building of the Ymir road. If these bonds were issued directly by the provincial government or by any of the municipalities and guaranteed by the province, we would be interested in making a proposition for the purchase of these bonds."

FIRE DEPARTMENT PUTS OUT TWO SMALL FIRES

The city fire department responded to two small fires yesterday. Only one of the fires did any damage, and that was slight.

The first alarm was run in at 10:05 yesterday morning from the Queens hotel. The blaze was in the alley in the rear of the Eagle block. It was caused by employees of Meagher & Company's store burning paper and cardboard boxes in an open stove in the alley. The flames spread to the wood pile at the back of the Queens hotel, but before they could make any headway they were extinguished by the firemen, using only two hand extinguishers and garden hose. The damage was only $5.

At 3:15 the fire department was called out again, this time to a brush fire in the gully on the corner of Victoria and Falls streets. The alarm was turned in from W. Rudduck's residence. Within five minutes of the arrival of the firemen on the scene the fire had been put out. There was no damage. The cause of the fire is unknown.

EDMONTON RACES.

EDMONTON, July 10.—Immense crowds took advantage of the civic half holiday to visit the fair today, Citizens' day. The livestock parade in the afternoon was led by President J. R. McIntosh and Manaker W. J. Stark.

Champions in the various classes followed. In the racing, the Edmonton Derby was won by Jerry, owned by F. Heavener of Walla Walla, Wash. Jerry took the lead, passing the judges' stand the first time and kept it until the end of the race. The summary is as follows:

First race, 2:24 pace, 2:19 trot, purse $800—Sarah Todd, Mr. Johnson, Walla Walla, 1-1-2; Francis Earl, Sanderson, Owatonna, Minn., 6-3-1; Romala, J. Stewart, Calgary, 10-2-9; Braden Direct, McGuire, Denver, 2-8-3; Garland, California Stock Farm, 3-5-5; Gwin Direct, Armour, Ottawa, 4-6-7; Beauty Silk, Chamberlain, Kelowna, B. C., 8-4-6; Frank Allerton, Crang, Edmonton, 9-7-10; Acirema, Mrs. Johnson, Walla Walla, 7-9-8; Eleanor Stewart, Stewart, Calgary, 5-10-4. Time, 2:14¼, 2:14¼, 2:16½.

Second race, 2:12 pcae, 2:07 trot, purse $800—Philpada, Strang, Brandon, 3-1-1; Black Bass, Sanderson, Owatonna, Minn., 1-2-3; Daisy D., McDonald, Winnipeg, 2-3-2; The Wilk Mer, Tonkin, Calgary, 4-5-4; Hal Victor, Kettlewell, Moose Jaw, 5-4-5. No time.

Third race, the Driscoll purse, six furlongs—Yorkist, Thurston & Thomas, Calgary, first; Echo, S. A. Roe, Calgary, second; Bonnie Buck, Emmert, Connors Creek, third. Time, 1:18¼.

Fourth race, the Wilson purse, five furlongs—Rag, F. Heavener, Walla Walla, first; Sir Robert, McLeod & Powley, Regina, second; Volmia, Mrs. McFarland, Calgary, third. Time, :59½.

Fifth race, the Edmonton Derby, one and a sixteenth mile run, purse $1000—First, Jerry, F. Heavener, Walla Walla; Lone Star, Rice & Hubanks, Denver, second; Bassano Boy, T. H. Hunter, Bassano, third. Time, 1:50 1-5.

Sixth race, one mile, selling purse—Bell F. Kidhen, Emmert, Connors Creek, first; Yowell, Thomas, Calgary, second; Royalty, Rice, Edmonton, third. Time, 1:44½.

DROWNED MAN CARRIED NELSON REGISTRATION CARD

VANCOUVER, July 10.—A Canadian registration card issued at Nelson, B. C., bearing the name of John Robson, was found in the clothing of the decomposed body of a man found floating off the ferry dock here today.

MC KENZIE PREDICTS GREAT CONVENTION

SYDNEY, July 10.There is every evidence that the national convention in Ottawa next month will meet with unequaled success, said D. D. McKenzie, house leader of the Liberal party, on his return to North Sydney from Ottawa this morning.

"The information which comes to me and other members of the national committee indicate that there will be a complete representation of delegates from all parts of the Dominion. In addition there will be a very large number of adherents of the party, who will by their presence show loyalty to liberalism and their confidence in its future. The largest auditorium at Ottawa, Howick Hall, at Landsdowne Park, has been engaged for the occasion, and the convention which it will accommodate promises to be the greatest political gathering Canada has known."

RIOTER IS CONVICTED; TO BE SENTENCED TODAY

WINNIPEG, July 10.—Joe Ortenburg, convicted in police court this afternoon on a charge of rioting, was remanded until tomorrow for sentence. Frank W. Bater and Alfred Cox, also charged with rioting, were remanded until tomorrow. Charges of rioting preferred against S. Krenik, Leo Lehto, W. A. Cooper, James Craig and Sidney McCrum were given stays of proceeding. A charge of rioting preferred against John Kantscharnk was dismissed.

CAPT. DAVID HARTIN TO ARRIVE IN FEW DAYS

Capt. David Hartin, of the medical service, is expected to arrive in Nelson within a few days. Before sailing from London on the Olympic he cabled his parents, Dr. and Mrs. G. Hartin, of his departure for Canada. The Olympic arrived at Halifax last Tuesday.

FIRST NELSON MAN TO BE DECORATED IS RETURNING

Sergt. Joe Holland, of the 7th battalion, will arrive in Nelson tonight on the Crow boat, according to a wire received in the city yesterday. He arrived in Canada from overseas on July 4.

Sergt. Holland was one of the first half-dozen men from Nelson to sign up for active service at the outbreak of the war. In addition to this he was the first Nelson man to receive a decoration for his work in the war.

THE WEATHER.

VICTORIA, B.C., July 10.—Nelson and vicinity: Continued fine and warm.

DEMAND PUBLICATION OF SECRET SESSION RECORDS

PARIS, July 10.—Socialistic deputies, with a few radicals, numbering in all 100, have introduced a resolution in the chamber asking for the publication in the official journal of the stenographic reports of secret sessions of the chamber held during the war.

ALBERTA FOREST FIRES ARE WELL UNDER CONTROL

CALGARY, July 10.—Forest fires west of here are practically under control, according to Attorney-General Boyle, who made a trip to the fire area this afternoon. Settlers and ranchers have made a hard fight and the battle is not yet over, but the fires are now pretty well confined.

TRAINING SCHOOL FOR NURSES.

The Royal Inland Hospital, Kamloops, wishes to announce that the class for first year probationers will open in a few days. All those wishing to take advantage of same should apply to the Lady Superintendent for forms. (3404)

SACRIFICE HOUSE SALE

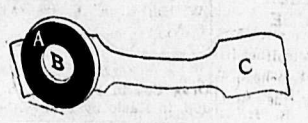
I have been instructed to offer a four-room house and two corner lots for sale at a very low price; owner has moved from Nelson and will sacrifice. There are about 16 bearing fruit trees, small chicken house. Two rooms of the house have not been finished, the other two plastered; water and electric light. The price is only $500.00, and this I consider is only half of its real value. Terms, $100.00 cash and balance $25.00 per month. An opportunity to buy a good home on easy terms and at a low price. Call and get particulars at once. This snap will not last long.

Hugh W. Robertson
Successor to McQuarrie & Robertson
Ward St. Phone 68. Nelson, B. C.

The Man Who Banished Corns

Blue-jay was invented by a scientist of distinction. By a man whose lifetime has been spent in the study of surgical dressings.

This is a master's method—correct, complete and efficient. And the millions of people who know it, never think of enduring a corn.



All in One

The first step is to stop the pain. This is done by removing all pressure—by the soft protecting ring marked A.

The next step is to gently cause the corn to disappear.

This is done by the remarkable B & B Wax, which no corn can resist.

This bit of wax—marked B—is centered on the corn. It cannot spread. So, unlike old-time methods, it acts on the corn alone.

C is rubber-coated adhesive. This snugly wraps the application, protecting everything.

You apply this Blue-jay in a jiffy. The corn pain stops at once. The wrapping is comfortable and you forget it.

In two days you remove it and the corn can be lifted out. Only rare corns need a second application.

This is the scientific way, the easy, sure and right way to end corns. You will never return to any wrong method when you try a Blue-jay once.

Try it tonight.

B&B Blue-jay
The Scientific Corn Ender

Stops Pain Instantly Ends Corns Completely

VISIONARY

"I'm going to get a nice little wife. I'll have a cosy little home well-cooked meals, my slippers ready warmed for me when I get home at night, my pipe always handed to me and peace and contentment for the rest of my days."

"You ought never to marry."

"Why not?"

"Well, when a man has a dream like that he ought not to risk waking up!"

SOLDIERS ENJOY FISHING ON THE WHITE SEA

AT THE THEATRES

At the Gem Theatre Friday and Saturday

Always charming in her attire May Allison is no less attractive—but possibly more so—in the raggedy trousers which she wears in her latest Metro presentation, "Her Inspiration," which will be shown at the Gem theatre Friday and Saturday.

Of course this is only for a scene or two, when she poses as a boy to save her sweetheart from the tar and feathers promised him by the angry moonshiners. But barefooted and brown, with a tangle of golden hair half concealed under a cap, May Allison is charming in the extreme and fully lives up to her title of "Sunshine May."

Besides the trousers which find themselves in the wardrobe of the dainty star are cunning gingham dresses and aprons and later all the gorgeousness which is connected with the clothes of a society butterfly or a famous actress. That she is delightful and captivating in all these costumes is obvious to those who see her—the trouble is to decide in which one would prefer to see her aftenest.

SPORT

MINORS BREAK WITH MAJORS

All Relations Between Baseball Interterests Broken at Chicago Meeting.

CHICAGO, July 10.—All relations between the major and minor baseball leagues were deliberately broken off at a meeting today of a committee representing the National Association of Minor League.

The committee adopted resolutions ratifying the action taken at the joint meeting with the major leagues in New York last January when the national agreement was abrogated. The minor leagues will operate independently of the major leagues and will attempt to settle all disputes within their own organization instead of appealing to the national commission for final decision or review of any case.

The action of the minor league committee means that the major leagues will not be permitted to draft players this fall. Contracts and territorial rights, however, will be respected.

TACOMA WOMAN GAINS 25 POUNDS

Mrs. Perry Will Praise Tanlac for the Remainder of Her Life, She Says.

"I will certainly praise Tanlac the remainder of my life," said Mrs. George Perry, residing at 1920 North Stevens street, Tacoma, Washington, recently, for the medicine has really and truly made me feel like a new woman and in just about two months' time after I began taking it my weight had increased twenty-five pounds.

"Seven or eight years ago," she continued, "my stomach began to act in a very peculiar manner. Things I had always been eating failed to agree with me and I had no relish for my food any more. Then my appetite left me entirely and what I ate seemed to do me harm instead of good, as I would bloat up so with sour gas that I was miserable all the time. My whole body, even to my face, would bloat terribly and this gas would press on my heart, causing it to jump and palpitate fearfully. I suffered so with shortness of breath that I could not walk a block without having to stop several times to get my breath, and was completely exhausted by the time I had walked that far. I felt absolutely worn-out all the time, although I did very little work, being physically unable to do much, and was so nervous and restless that I would lay awake night after night—my eyes just seemed to be propped open—and there was no sleep for me. I often had raging headaches, my kidneys were in bad shape, too, and there was such awful cutting pains in my back that I could hardly bend over to put my shoes on. My limbs and feet got so they would often swell until I could not get my shoes on and sometimes I could not walk at all.

"I was paying out money all the time for treatment and medicine, but only got worse, and at last reached the point where life did not seem worth living. My mother finally persuaded me to take Tanlac and the results are I am a well and happy woman. My appetite is splendid and I eat just anything I want at any time without suffering the least bit afterwards. Since the gas has stopped forming on my stomach I can walk any distance, in fact, I am walking nearly all the time every day, and never suffer any more from palpitation or shortness of breath. I have also gotten entirely rid of the headaches, as well as the pain in my back, and my kidneys are in fine shape. I sleep like a child every night, and I never have that tired feeling any more, although I am going all the time. To put it all in a few words, I was never in better health than I am right now and words cannot express the gratitude I really feel for what Tanlac has done for me. It has been a godsend to me."

Tanlac is sold in Nelson by Canada Drug & Book Store, in Rossland by W. H. Wahnman, in Creston by Creston Drug & Book Co., in Bull River by B. E. Markle, in Field by Field Drug Co., in Fernie by A. W. Bleasdell, in Kaslo by Frank Abey, in Trail by E. W. Hazelgood, in Revelstoke by Walter Bros., in Nakusp by E. H. S. McLean, in Cranbrook by Beattie-Noble, Ltd., in Wilmer by Elena May Taylor, and in Golden by J. A. Buckham.—Advt.

DISPERSAL AREA FOR ENTIRE WEST

Semi-Official Announcement Is Made That Winnipeg Will Serve For All.

WINNIPEG, July 10.—Winnipeg is to be made the military dispersal area for the entire west, and no more troop trains will be run farther than this city after those carrying soldiers from the Olympic go westward on Saturday, it was semi-officially announced tonight. The reason given is the comparatively small numbers of troops that will have to be handled from now on.

This will be so small that it is considered the dispersal work could quite well be done here and that there is no longer any necessity for keeping open the dispersal offices that have been established west of here. Among the dispersal areas headquarters which will be closed under the new regime will be those of Saskatoon, Regina, Calgary, Medicine Hat, Edmonton, Revelstoke, Victoria and Vancouver.

When troops have been discharged at Winnipeg they will travel to their destinations on ordinary passenger trains.

Corporation of the City Nelson
Water Users Attention!

The City Council wishes to draw attention to the wastage of water through leaky taps and fixtures and to point out the absolute necessity of conserving the available water supply during the hot weather.

Look over your taps and fixtures and assist the City by having them repaired where necessary.

Otherwise an inspection of all premises will have to be made and services discontinued where water wastage is found and the hours regulated for sprinkling and garden services.

By Order,
W. E. WASSON,
City Clerk.

MENNONITE CASE GOING TO LONDON

Fight to Retain Schools. Crown Will Show Degraded Condition of Institutions

WINNIPEG, July 10.—The Mennonite school case which is to decide whether Mennonites will be allowed to retain their present system of education, including the teaching of German, is to be taken to the privy council of the House of Lords. The test case will begin next Wednesday morning.

Both sides have collected a mass of evidence and no matter what the decision of the local court is, the question will be taken to the final court of appeal of the British Empire.

The crown will present evidence to show that in one Mennonite school the only books in use are a Lutheran Bible, printed in German, and some patent medicine almanacs in the same language. There are nine cases to come up for hearing Wednesday, each being a charge against a parent for failing to send his children to school.

The province takes the stand that the institutions at which certain Mennonite children are taught do not come under the classification of schools, according to the act.

ANDERSON BROTHERS PLAY GREAT TENNIS

TORONTO, July 10.—Playing of the Canadian championship progressed today according to schedule and splendid progress was made in all the events. Tomorrow's two semi-finals in the men's opens will bring together Kashio and the three youngsters, Westbrook, the Detroit star, and the two Anderson brothers, of New York. Semi-finals will also be played tomorrow in the men's, women's and mixed doubles, and will bring together all the stars of the tournament. The final in the ladies' open singles was the feature event today, bringing together Miss Zinderstein of Boston and Mrs. Bickle, Toronto, the former winning 8-6, 8-4.

In the men's opens the Anderson boys, Fred and Frank, disposed of Rennie and Holmes, respectively, in straight sets, the scores respectively being 6-3, 6-2 and 6-3, 6-1. They showed their best form of the week and gave many a spectator reason for changing his guess as to who is going to win this event.

Bank of Montreal has opened a branch in Paris, France.

Nelson Improvement Association Floral Festival
WEDNESDAY, JULY 23rd, 1919

WHO IS TO BE QUEEN OF THE FESTIVAL?

Nominations may be made with Mr. J. W. Holmes at The Ark, Vernon Street, not later than 9.30 Saturday evening, July 12th. Each ticket of admission to the Rose Show costing 25 cents entitles the holder to one vote for one competitor.

First nomination receives 200 votes and each succeeding contestant 10 votes less than the previous one.

The contestant receiving the highest number of votes before the closing of the ballot at 9.30 Monday evening, July 21st, 1919, will be declared Queen at the opening of the Show at 2.30, July 23rd, and the two next highest contestants will act as attendants. All three young ladies will be awarded suitable souvenirs of the occasion.
