TRIAL AIRPLANE FLIGHT ACROSS ROCKIES, IS PLAN; DAILY NEWS CO-OPERATING

The Daily News is cooperating with the Vancouver World in making plans for an experimental aerial flight over the Canadian Rockies during which two landings will be made in the interior of British Columbia. One will be made in Nelson and the other at Penticton.

According to present itinerary the trip across the mouuntains from Vancouver will be made by way of the Crows Nest Pass to Lethbridge, thence northerly to Calgary and Edmonton and back by way of Prince Rupert over the Yellowstone Pass.

The trial trip is considered to be as important in the annals of aerial navigation as was the first crossing of the Alps by airplane during the war.

Newspapers in Lethbridge and probably in Calgary, Edmonton and Prince Rupert, as well as Nelson and Vancouver, will interest themselves in the attempt to navigate this "rocky" road.

Letters will be carried on the trial trip and mail will be delivered at both Penticton and Nelson.

50 WAR VETERANS VISIT OSOYOOS LANDS

(By Daily News Leased Wire.)

PENTICTON, B. C., March 26.—About 50 war veterans, headed by Sergt. Walter Drinnan, provincial secretary of the G. W. V. A., motored out of Penticton early yesterday morning on the 40-mile trip to Osoyoos to inspect the lands recently purchased by the provincial government from the C. C. Land company.

The whole area was covered and this includes 20,000 acres.

Asked as to his opinion of the purchase of this land by the government on the return from the inspection, Mr. Drinnan said he knew nothing of farming, but after looking over the area and inquiring into the climatic conditions, he felt that the soldier who settled on the Osoyoos lands and made an honest endeavor was certain of success.

ORDER REGARDING EXPENSES OF REPATRIATION AMENDED

(By Daily News Leased Wire.)

OTTAWA, March 26.—Owing to the fact that a number of soldiers' dependents are leaving for England in the expectation of returning with their soldier relatives, the order-in-council in regard to expenses of repatriation has been amended. It now provides that no expenditure shall be incurred by the government in the repatriation of any soldiers' dependents who left Canad for the United Kingdom, France or Belgium on, or after, November 11, 1918.

Those, therefore, who have left Canada for the United Kingdom since the signing of the armistice will have to return at their own expense.

BILL PASSES WOMEN MAY SIT IN LEGISLATURE

TORONTO, March 26.—Government bills to allow women to sit in the legislature; to hold municipal offices and to permit election of farmers' wives to school boards were introduced in the legislature and given their first reading this afternoon.

Premier Hearst on introducing the bills was greeted with applause from the spectators' galleries, as well as from members on both sides of the house.

Hon. I. B. Lucas also introduced the blue sky bill which he described as one to protect investors in stock companies.

DISSATISFACTION MUST BE HEEDED

London Times Says British Authorities Must Explain Reason Clearly to Men.

(By Daily News Leased Wire.)

LONDON, March 26.—(Reuters)—In the course of an editorial on the repatriation of soldiers from England to Canada, the Times says:

"There is, we learn, dissatisfaction among Dominion troops on account of the slowness of repatriation. It would be foolish, even if not absolutely dangerous to ignore what is being said, because it is not always heard by the public. We, ourselves, are disposed to believe that the delays in most cases have been unavoidable, but we are not satisfied that the British shipping authorities will succeed in convincing overseas troops now chafing in camp that everything possible has been done to expedite their return. Have the British authorities sounded the possibilities of securing the assistance of neutral ships? Accommodation of such vessels may not be extensive, but the dissatisfaction of Dominion troops is now so strong that the authorities cannot afford to despise any means of alleviating the discomfort of the men awaiting ships to take them back to their families and homes and business."

BELIEVE CONDITIONS IN EGYPT ARE BETTER

(By Daily News Leased Wire.)

WASHINGTON, March 26.—Internal conditions in Egypt have been greatly improved, according to dispatches today to the state department. Quiet has been restored in Cairo and Alexandria and the lines of communication north of Cairo, which had been interrupted, have been reopened. An adequate system of patrol is said to have been placed.

DEBT OF CENTRAL POWERS IS TERMED CATASTROPHIC

TOTAL DEFICIT WILL BE 2,400,000,000, SAYS MINISTER IN THE ASSEMBLY

(By Daily News Leased Wire)

BERLIN, March 26.—In asking for a credit of ten million marks in the Prussian assembly yesterday, Herr Suedekum, minister of finance, told the assembly that the debts of the state of Prussia would amount to six billion marks by the end of May. The total deficit would be 2,400,000,000 marks, which the minister said was "unprecedented and must be termed catastrophic."

Premier Hirsch declared that the government had no thought of abandoning the eastern districts of the state and that he considered its chief duty was to ward off attacks on the territory of the state, especially attempts aimed at west Prussia, Posen and upper Silesia.

German Debt Heavy

COPENHAGEN, March 26.—German revenues from 1914 to the end of 1918 amounted to 17 billion marks, the German minister of finance, Dr. Schiffer, declared in a memorandum presented to the national assembly at Weimar. The war expenditures totalled 186 billion marks to which should be added the cost of demobilization.

The memorandum showed that war damages in Germany amounted to 5,500,000,000 marks and five million marks was spent for the relief of families of dead soldiers.

The debts contracted by the government during the war aggregated 157 billion marks, the annual interest on which was 7,900,000,000 marks. He estimated that the national annual expenditures for the future would be 14,000,000,000 marks, compared to 2,400,000,000 marks before the war. The annual expenditures of individual states and communities in the future would be five billion marks, compared to three billion before the war. The total amount to be covered by taxation in the future would be 19 billion marks each year. Before the war five billion marks was raised by taxation.

BERLIN, March 26.—The German government has not yet been able to prepare a new budget for 1919 and submitted to the national assembly provisional estimates for April, May and June. These estimates include an authorization to issue new treasury certificates totalling three billion marks to cover expenditures.

A number of new appropriations, in addition to the payment of regular current expenses, are authorized in the estimates. One of these provides for funds to establish a commercial news service in the foreign office to help German foreign trade. The measure fixes the salaries of the ministers at 64,000 marks annually. This sum covers house rent and expenses of "representation."

President Ebert is given 100,000 marks for social expenses and entertainment.

WOULD INCORPORATE THE SOVIET SYSTEM

(By Daily News Leased Wire.)

BERLIN, March 26.—The German government will shortly submit to the committee on the constitution of the Weimar assembly, the proposal for incorporation of the soviet system in the constitution.

The semi-official north German Gazette says the effect of this measure would be to establish a sort of three-chamber system of government.

HAD TO FLEE SAID EX-KAISER

In Letter to Son, Wilhelm Declared That He First Had a Severe Mental Struggle.

(By Daily News Leased Wire.)

COPENHAGEN, March 26.—The Deutsche Zeitung of Berlin has published a number of letters illustrating the attitude of the German emperor and crown prince, during the fateful days of last November according to a despatch from the German capital.

The emperor wrote of Frederick William on Nov. 9, the fololwing:

"My Dear Boy: After the court chamberlain informed me that it was impossible longer to guarantee my safety and maintain headquarters and that the troops were no longer trustworthy, I resolved, after a severe mental struggle, to leave the army, which had collapsed, and go to Holland. I advise you to stick to your post until the conclusion of the armistice.

"In Berlin two governments under the leadership of Ebert and Liebknecht are fighting against each other. I hope to see you again in happier times.

"Your faithful and deeply afflicted father, WILHELM."

The German prince, on Nov. 11, wrote to Premier Ebert, asking permission to remain at his post, so that he might bring back his army in a well disciplined and orderly manner. The government refused his request, whereupon the crown prince, in a letter to Field Marshal von Hindenburg, resigned his command, declaring that he acted under deep emotion and after a hard internal struggle against a course repugnant to his nature.

In his letter the crown prince proceeded to justify his attitude against those representing him as a war instigator and reactionary. He declared he had always taken the standpoint that the war for Germany was a war of defense. He had repeatedly during 1915, 1917 and 1918 urged the persons concerned that Germany must by every possible means endeavor to terminate the war and be glad at maintaining herself against the entire world on the basis of the status qou.

"I had long pleaded with General Ludendorff," he asserted, "for a wise peace by understanding the favorable opportunity when he occupied strong positions during and before the spring offensive.

"As regards international policies I would be the last person to interfere with the liberal development of our constitution and I made this clear in writing to Prince Max.

"Nevertheless when the great event occurred and hurled my father from throne, not only was I not heard, but was simply passed over as the crown prince and heir to the throne.

"No renunciation was either demanded or made by me."

OLYMPIC MAKES DOCK AT LAST; SAILS SATURDAY

HALIFAX, N. S., March 26.—The Olympic, after disembarking the last of her returning soldiers by tender here today, moved down the harbor and docked at Pier A of the new terminals, where she is coaling. The liner will sail Saturday for Liverpool. The liner would have docked easily at those piers any time during the recent gale, but at Pier Two she was more exposed to the wind in docking.

WITHDRAW BILL ON CITIZENSHIP

Six Senators Say Proposal to Disfranchise for 20 Years Back Going Too Far.

OTTAWA, March 26.—In the senate today Senator Bradbury's bill which aims at the disfranchisement of Germans, Austrians and Russians who hav settled in Canada within the last 20 years, and would withhold naturalization from the same persons coming into Canada from now on until they had lived in the country for ten years was withdrawn.

Senators Dandurand, Turiff, Beique, Choquette and Boyer, all spoke in opposition to the measure going too far, while Sir James Lougheed, who concluded the debate, thought that the measures contemplated by the bill were impracticable, and that in view of the proposed government franchise and immigration measures, the bill was premature.

REICHWEHR ARMY HAS HAPHAZARD SORT OF GROWTH

SUCH IS OPINION OF AMERICAN SPECIALISTS ON REBUILDING OF ENEMY FORCES.

COBLENZ, March 26.—The new German army of Reichwehr is proving to be more of a creature of haphazard growth than of regular organization in the opinion of Americans specializing upon the readjustment of the enemy forces. Herr Noske, German minister of defense, announced some weeks ago that the Reichwehr consisted of 25 brigades, largely identical with the old corps districts and would have something less than 250,000 men. Throughout Prussia steps were taken for the Reichwehr fairly well in harmony with the 25 brigade districts. There is a notable exception, for the old third corps district has the von Lusttwitz volunteers army corps of approximately 50,000 and thus has several brigades. Furthermore, this corps has absorbed the volunteers of the old 15th, 16th and 21st corps, districts of Alsace-Lorraine.

There has been no attempt in Bavaria to organize Reichwehr brigades on the Noske plan and in Wurtemburg and Saxony, little has been done in this direction.

The Americans believe there is ground for suspicion that Germany has a considerable force of volunteers stationed or assembled where they may be available in the event of renewed conflicts with the Poles, either in the Posen or Danzig regions.

The commander of the seventh corps at Munster has issued an order establishing training schools for non-commissioned officers at all garrison towns similarly to the schools in operation at Delmold.

NEED DOCTORS IN ENGLAND

Influenza Epidemic Finds Country Short of Medical Practitioners and Nurses—Many in Army.

(By Daily News Leased Wire.)

LONDON, March 26—The return of influenza finds England so short of doctors and nurses that, according to reports from various parts of the country, there are not enough even to give casual attention to patients. The strain on the medical men who are trying to deal with the emergency is so severe that there is danger of many of them breaking down. This is said to be a real possibility in the north of England, where the epidemic is raging with unusual violence.

According to a statement in the house of commons by Winston Churchill, secretary for war, only 1500 of the 11,000 doctors in the army last November have been demobolized so far, and of 23,000 nurses only 3000 have been released.

Doctors emphasize the need for nurses in fighting influenza. They point out that in a large number of cases nurses are required more than doctors, and if more nurses were available the doctors woulr have the time they now lack to devote to the serious cases.

From early morning until far into the night the overworked physician is kept busy. A leaf from a day book supplied by a general practitioner shows that in one day he treated 96 private patients and 100 public patients. His labors began at 7 a. m. and extended well into the night.

NOW ARRANGING TRANS-SEA TRIP

Expect to Be Ready in Two or Three Weeks for Journey Across Atlantic.

ST. JOHNS, Nfld., March 26.—Keen interest is developing in the projected trans-Atlantic aerial flight. At present preparations are in progress for three competing machines to start from St. Johns or vicinity within the next two or three weeks. is also expected that the Sunstedt flight, if undertaken, will start from here on the last lap of its trans-Atlantic ourney.

The three machines for which arrangements are actually in progress are of English construction and will be manned by British aviators.

Capt. Fenn expresses confidence in the success of the attempt and barring accidents thinks it will be accomplished in about 20 hours.

COMPANIES AMALGAMATE WITH $2,000,000 CAPITAL

TORONTO, March 26.—An amalgamation of the Zimmerman Manufacturing company of Hamilton and the Reliance Knitting company of Toronto was affected today.

The new concern, which will be known as Zimmerman-Reliance limited, has a capital of $2,000,000.

NO REFERENDUM

VICTORIA, B. C., March 26.—In a dispatch sent out from this city yesterday it was made to appear that Premier Oliver said a referendum will be taken on the prohibition question. This should have read that "no" referendum will be taken.

HOUSE DISCUSSES PAYMENT TO JUDGE

BELGIANS DECORATE LOOMIS WITH ORDER OF LEOPOLD

(By Daily News Leased Wire.)

PARIS, March 26.—(Reuters)—The municipal council of Mons gave an official reception today to General Loomis, officer commanding the third Canadian division, which formed part of the first army which liberated Mons on November 11. The general was presented by the town with a beautiful flag, on which, in addition to symbols associated with the Canadian army, were inscribed the names of famous towns where Canadian soldiers had particularly distinguished themselves. The burgomaster thanked the general and in the name of the town handed him a small flag bearing the town's colors, together with a document, authorizing the division to display the arms of Mons.

General Hanoteau, who represented the king of the Belgians, invested General Loomis with the insignia of the commander of the Order of Leopold.

SAYS EUROPE SAFE ENOUGH

Financial Expert Declares Facts Do Not Warrant Wild Rumors of Continent Tottering Financially.

PARIS, March 26.—(Associated Press)—Persistent rumors that all Europe is on the verge of a financial collapse are not justified by the facts, a prominent United States financial expert, who has been engaged for many months in studying the problems facing the peace conference, said in a statement today.

Conditions were serious, he added, but not panicky, and will doubtless be relieved greatly when peace is signed and the embargo is lifted. He predicted that England will be stronger within a year than ever before, because of unusual commercial enterprise, and the courage with which she meets her debts by taxation.

Great Britain with a war debt of $40,000,000, the financier added, is in a situation comparing favorably with her debt and her capital wealth at the conclusion of the Napoleonic wars. The allies owe Great Britain between $9,000,000,000 and $10,000,000,000. The financier estimated that only about four billion of the twenty billions of dollars invested abroad by Englishmen before the war had been disposed of.

LONDON, March 26.—It would quickly react on foreign exchanges, Mr. Crammond continued, and turn them more asd more into British favor, because at the end of decennium our income from investments abroad could be increased by £250,000,000 yearly, making the total income from this source of say £400,000,000 yearly.

The knowledge that we had undertaken such a program would be immediately reflected in the international money market and capital would be attracted here for investment.

An ideal condition would be for London to act as a distributer of American capital, accumulated during the war and now available for investment outside.

Mr. Crammond said it was his reasoned and deliberate conviction that as the result of the war economic development will have been compelled to forward by at least two generations and "we are on the eve of intense trade development such as the world has never known."

Mr. Crammond said he was further convinced that the progress of readjusting machinery to the new serial conditions will not be followed by any ill consequence, if we recognized the position and took a broad and enlightened view of it. He strongly believed, having regard to the resources of the British empire and the power of organization of the British people that we need have no fear regarding the economic future of our race if they adopt a bold and courageous policy and learned and applied the economic lessons of the war.

Mr. Crammond estimated the direct cost of the war to the allier at £28,360,000,000 sterling, and to the central European powers, £13,675,000,000. He estimates the total cost of the war, including indirect losses at £52,000,000,000.

There has been nothing, he says, approaching this destruction of capital within the history of the world. The immediate result of the upheaval is to be found in the high cost of living and universal increase of wages. Judging from past experiences he concludes that the fall in the price of commodities and wages will take place slowly and gradually.

(By Daily News Leased Wire.)

OTTAWA, March 26.—After some preliminaries, including the introduction by Hon. N. W. Rowell, of the bill to establish a federal department of health, the commons settled down at the short Wednesday session to a debate on Dr. Edwards' resolution calling for the return to the public treasury of $5000 paid by Charles Fitzpatrick to cover expenses in connection with the judicial committee of the privy council during two years he did not visit London.

Sir Charles, who is now lieutenant-governor of Quebec province, was at the time he was paid the money, chief justice of the supreme court and the representative of Canada on the judicial committee of the privy council.

Critics as well as friends of the ex-chief justice were found on both sides of the house.

Hon. Arthur Meighen in opposing the motion pointed out that during the years 1915-1917, when the money was paid to Sir Charles, although he did not cross the Atlantic, the vote was described as a "special allowance," while in previous years it had been described as traveling expenses. At 6 o'clock the house adjourned until tomorrow. There is a difference of opinion as to whether the resolution now goes to the bottom of the public bills in orders, but the probabilities are that it goes to the top, which means that the debate may be continued at an early date Had the debate been formally adjourned at 6 o'clock, the resolution would have been put at the bottom of the order paper and would, in all probability, not have been resumed again this session.

Sir Charles' Telegram.

Sir Thomas read a telegram from Sir Charles Fitzpatrick in which Sir Charles said that if the government or any officials through whom the money was paid would say they were in doubt as to the legality or regularity of the payments to him, he would return the money.

Sir Thomas concluded that in his opinion the money was legally and regularly paid.

Mr. Nickle said the money was voted for expenditures and should be returned. He was quite frank in saying that it could not be recovered as a question of law.

Mr. D. D. MacKenzie asked why ignore the exchequer court when there was a precedent established in a British Columbia case.

Sir Charles should be heard by his peers before any judgment was given against him.

The acting minister said Mr. MacKenzie had stated that the money paid to Sir Charles Fitzpatrick was merely an indemnity. There was nothing illegal in Sir Charles taking the money. He suggested that the resolution should be withdrawn.

W. S. Middleboro, in supporting the resolution, expressed the opinion that Sir Charles was not entitled to receive the money because he had not gone to England. He was, he said, assured that there were no expenses unless the chief justice went to England.

H. B. Morphy said that the question was whether it was honorable for Sir Charles to keep the money. No one was asking that he be sued to recover the amount; but everyone, Sir Charles included, was entitled to know whether the house thought he should return it.

Was Entitled to It.

Dr. R. J. Manion, Fort William, said that he had gathered from the argument of the afternoon that Sir Charles Fitzpatrick was legally entitled to draw the money. The money had been voted by the government and Dr. Manion felt that if the government was going to demand its repayment it should also demand the repayment of all sums which had been wrongfully taken from the public treasury, during this and previous administrations. He said that Sir Charles could not return the money last year, because if he did so, it would be an admission that he had sloten it.

H. H. Stevens, Vancouver, declared that he intended to vote for Dr. Edwards' motion. It was clear, Mr. Stevens said, that when the house voted the money it was intended to be used for traveling expenses.

Dr. Clark, Red Deer, said that he neither regarded Sir Charles as a thief, nor would Dr. Clark have his vote regarded as indicating that he thought Sir Charles was a thief. He believed Sir Charles took the money in error.

Accepted It Honestly.

E. W. Nesbitt had no doubt that Sir Charles accepted the money honestly. When he voted for the payment, he said, he did so under the impression that it was in the nature of an honorarium for attending, just as a lawyer would be paid a retainer by a cor-

300,000 RUSS READY TO MEET BOLSHIE FORCE

Savinkoff Says He Has Men

NEEDS MONEY FROM ALLIES

Military Intervention Would Not Be Needed

(By Daily News Leased Wire.)

PARIS, March 26.—(Havas)—Boris Savinkoff, acting minister of war in the Kerensky government, declared in an interview given here that 300,000 Russians are ready to fight against the Bolsheviki but lack arms and equipment.

"If the entente will give us moral and financial support and if it will furnish us with the material," said the ex-minister, "it would have no need to furnish men. With the peoples directly interested—the Czecho-Slovaks, Jugo-Slavs and Poles—we could place a barrier against Bolshevism without the military intervention of the entente."

RATES OF M. W. OF A. ARE INCREASED 50 PER CENT

(By Daily News Leased Wire.)

CHICAGO, March 26.—More than a million members of the Modern Woodmen of America, the largest fraternal insurance organization in the country, had their rates increased today to meet the abnormal losses resulting from the influenza epidemic which caused a reduction in the beneficiary fund of the order.

On the present membership the increase is a flat advance of 50 per cent, and all new members joining hereafter wil have to pay materially increased rates.

SINN FEIN JAIL BREAKER APPEARS DUBLIN MEETING

DUBLIN, March 26.—John McGarry, a Sinn Feiner, who escaped from Lincoln prison with Prof. de Valera and who is a member of the Dublin corporation, appeared at a meeting of that body today.

Dublin is perfectly quiet and the people generally welcomed the absence of the disturbances which it had been feared would take place.

STIFF FINES FOR DEFAULTERS

Fathers Pay Heavily in Guelph for Having Kept Sons Out of the War

(By Daily News Leased Wire)

GUELPH, Ont., March 26.—The sequel of the recent spectacular raid on defaulters in the village of New Germany under the military service act, came in the police court here today when stiff fines were imposed on several of the accused.

Charles Hummell, who had previously pleaded guilty to desertion, was fined $500 and costs, with the alternative of two years' imprisonment.

Joseph Hummel, father of Charles, was convicted of having harbored his son, a defaulter, and fined $100 and costs, or two years' imprisonment. He astonished the court by declaring that there was no German blood in his veins and that his ancestors were French, and that his sympathies had been with the allies during the war.

Anthony Rumigan was fined $500 and costs, or two years in prison for having failed to report for medical examination, when ordered to do so.

Anthony Beurberich, Class A1, who had failed to report for medical examination, was fined $500 or two years' imprisonment.

George Beurberich, brother of Anthony, similarly charged, was remanded for examination by a medical officer. It is said he is an epileptic.

Joseph Beurberich, father of the two boys, was fined $100 and costs, or two months in jail for having harbored his defaulting sons.

Emil Rumig, charged with having failed to register, was remanded for a week.

House Discusses Payment to Judge

(Continued from Page One.)

poration, whether his services were required or not.

R. T. Richardson, Springfield, declared that Sir Charles Fitzpatrick had no moral claim to the money. "Let him understand," Mr. Richardson added, "that this parliament does not propose to allow him to go scott free."

Hon. Hugh Guthrie declared that there was no stigma on Sir Charles. The vote has been approved and if a mistake has been made, parliament made it.

H. C. Houcken, Toronto West, said that he would not say that Sir Charles had stolen the money, but he was the one man in Canada who should be careful, being the chief justice of the supreme court.

E. B. Devlin said it was simply a case of Edwards versus Fitzpatrick. He had been brought up under the British system of justice, and it was not a fair trial the house was giving the defendant in the case of Edwards versus Fitzpatrick.

Captain Reed, Queens, thought this war a moral question and asserted that Sir Charles Fitzpatrick "stands acquitted, stainless as a star."

C. G. Power, Quebec South, then moved the adjournment of the debate, seconded by Lucien Cannon, after calling for yeas and nays, the speaker declared the motion lost.

Mr. T. A. Vien, Lothbinierre, started to speak three minutes from 6 o'clock and when he sat down punctually at the dinner hour, the speaker announced that the house stood adjourned until tomorrow at 3 o'clock.

MAJOR ROOSEVELT DIES ON SHIP GOING TO NEW YORK

(By Daily News Leased Wire.)

NEW YORK, March 26.—Major James Roosevelt, commander of the 302nd ammunition train and a second cousin of the late Col. Theodore Roosevelt, who was to have arrived here tomorrow on the transport Great Northern to arrange fo the reception in this city of the 77th division, died on the voyage, acoording to a wireless message received tonight by Lieut.-Col. Theodore Roosevelt.

Major Roosevelt, who became an electrical engineer after studying at Harvard, followed his profession in Boston. Later he became general manager of the British Columbia Electric Railway company.

BODIES OF CANADIENS IN SIBERIA TO BE RETURNED

(By Daily News Leased Wire.)

OTTAWA, March 26.—Provision is made in an order-in-council to return to Canada when possible, the bodies of those members of the Canadian forces serving in Siberia who have died on duty.

Where it is not possible to send the remains back provision has been made on the recommendation of the minister of militia for the establishment of a Canadian burial ground in Siberia. In all cases expenses will be borne by the Canadian government.

SMALL HEADS LABOR PARTY IN WINNIPEG

(By Daily News Leased Wire)

WINNIPEG, March 26.—At the annual meeting of the Dominion Labor party tonight George Barlow, who has hitherto held the position of salaried secretary, declined re-nomination and Flem McGill, a prominent labor organizer, was elected to the position. Robert Small was elected president, and F. J. Dixon, M. L. A., first vice-president.

The question of property qualification for school trustees was taken up and it was decided that if the city council did not take immediate action for the removal of the impediment a referendum on the question would be demanded.

MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If tongue is coated, breath bad, stomach sour, clean liver and bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs"; then see that it is made by the "California Fig Syrup Company."

More Reports of Massacres

Zionists in New York Get Word of Pogrom Conducted in Buenos Aires

(By Daily News Leased Wire.)

NEW YORK, March 26.—Thousands of Jews were slaughtered in a "pogrom" conducted in Buenos Aires on Jan. 9, according to a statement issued here tonight by the Zionist organization of America, quoting a report it has received from the Argentine capital.

According to this report a "white guard" was organized there following a rumor that strikes in that city was the beginning of a Bolshevist revolution incited by the Jews. The report charged that, with the cooperation of the police, the "white guard" raided the Jewish quarters "killing a number that cannot be estimated because all the bodies were buried in a common grave".

Jews and persons who resembled Jews were stopped on the street, it was said, even synagogues were raided on the ground that Maximalists were being hidden there from the police.

The Argentine branch of the Zionist organization, the report continued, finally succeeded in getting the police to end the "pogrom" after it had asserted there were no Bolsheviki among Argentine Jews.

Cable despatches received from Buenos Aires during the progress of the riots in that city made no reference to a "pogrom" and one received two weeks after the "pogrom" is alleged to have occurred did not mention any slaughter of Jews, but reported that an Israelite delegation had waited on President Irigoyen to protest against "unjust atrocities and inexcusable insults" suffered by them.

Although for more than two years disorder has been rife in the Argentine capital the most serious riot occurred last January about the time of the alleged Jewish pogrom, when, in trouble growing out of the harbor strike, which later led to the nationalization of the port, 80 persons were killed and 80 wounded on the streets. Steady growth of Bolshevism was reported and fololwing word that a Bolshevist army was invading Argentine after a battle with frontier police at Fort Natalies, Chile, 1400 Reds were rounded up and put on a cruiser for deportation.

BOLSHIES MUST ACCORD PRISONERS PROPER TREATMENT

(By Daily News Leased Wire.)

LONDON, March 26.—(Reuters)—Replying to George Jones in the house of commons today, Under Secretary C. B. Harmsworth said the Bolsheviki government arrested the British mission in the caucasus last October and they were now incarcerated in Moscow. They were allowed a certain amount of air and extra food comforts were supplied by the government of Great Britain through the medium of the Red Cross.

The Bolsheviki had stated that the treatment of the mission would depend on the treatment of Bolsheviki officials whom the British government had imprisoned. Negotiations were pending for the exchange of all British naval and military men and civilians in Bolsheviki hands.

The Bolsheviki leaders had been notified that they would be held responsible personally for ill-treatment of any British prisenrs.

COL. R. SELBY OF CALGARY RETURNS ON OLYMPIC

(By Daily News Leased Wire.)

HALIFAX, March 26.—Col. R. Selby, of Calgary, is in command of the 8th field ambulance, which returned on the Olympic. Colonel Selby, who proceeded to France with the first contingent and established a very fine record throughout the struggle, stated that the unit had proceeded to France in the spring of 1916. It had sustained upward of 60 casualties. None of the original officers were returned with the unit and only 40 originals. The unit did especially good work in the fighting before Amiens, on August 8 last. The attack was launched at 5 a. m, and at noon practically every wounded man had been taken from the field.

Members of the unit had won approximately 40 decorations. The unit had lost two motor ambulances on one day and a third on the day following.

APRIL 1 WILL NOT BE DIVIDEND DAY THIS YEAR

(By Daily News Leased Wire.)

TORONTO, March 26.—"What will happen to the dividend of the Toronto Railway company ", was the question asked Sir Henry Pellatt, one of the directors of the company today, to which he replied:

"There is not likely to be any dividends. Think of all the new cars we have got to provide and the increased wages and cost of operation."

Toronto Street Railway dividend usually goes out on April 1.

M'KINNON, EDMONTON LAWYER, DIES; WAS FORMER M. P.

(By Daily News Leased Wire.)

EDMONTON, March 26.—Death took place this afternoon, following a brief illness from pneumonia, of a well-known Alberta lawyer in the person of Donald H. McKinnon. Deceased, who was a pioneer of the Yukon, came to Edmonton in 1902. He was a native of Nova Scotia and represented Guysboro in the legislature of that province for several years.

Allies Suspend Coblenz Paper

Gazette Stopped for Three Days Because it Criticized Entente Action Regarding Hungary.

(By Daily News Leased Wire.)

COBLENZ, March 26.—(Associated Press)—The morning and evening editions of the Coblenz Gazette were today ordered suspended for three days by General Dickman for criticizing the allies in connection with an article on developments in Hungary. This was the first offense of the newspaper, the editor of which is Dr. Karl Mehrmann.

Commenting upon the displacement of the people's republic by the present government, the article said the change was made as a result of allied demands, and added:

"The responsibility is to be placed upon the deluded entente imperialists who are thus preparing for their own destruction and that of the monstrous peace they have planned."

COPPER COMPANIES READY TO GO AHEAD WITH PLAN

(By Daily News Leased Wire.)

WASHINGTON, March 26.—An agreement was announced today by the war department whereby the United States Metal Selling company representing the copper producers, will sell for the department approximately 100,000,000 pounds of copper and whatever copper scraps the department may have to dispose of. Not less than 5,000,000 pounds of the metal will be delivered to the copper producers each month for a period of 10 months and then 10,000,000 pounds a month for a period of five months.

The copper will be sold by the copper producers at market prices as determined by the average published quotations. A small consideration will be allowed the producers in marketing the copper for the government to cover expenses of sales.

EDMONTON CIVIL SERVANTS FORM ORGANIZATION

(By Daily News Leased Wire.)

EDMONTON, March 26.—Nearly 500 employees of the provincial government civil service organized as an association tonight. All departments were represented, men and women alike and a keen interest was taken in the proceedings.

Resolutions were passed endorsing the government policy of giving preference to returned soldiers in employment and expressing pleasure at the prospect of adding still more veterans to the staff.

BLOCKADE IN ADRIATIC HAS BEEN ABANDONED

(By Daily News Leased Wire.)

PARIS, March 26.—The Italian delegation to the peace conference today notified the conference of the abandonment of the military and the commercial blockade in the Adriatic by which trading in the Adriatic returns to conditions before the war, except that until peace is declared, allied ships will have the right to search merchantmen.

GERMANS TO REVIEW EVENTS OF WORLD WAR

(By Daily News Leased Wire.)

COPENHAGEN, March 26.—A Weimar dispatch says it is understood that a provisional committee will shortly create a tribunal to enquire into events at the opening of the war and during its progress. Such an inquiry has long been demanded, the dispatch adds, on the ground of foreign and home politics.

BRIG.-GEN. STEWART BACK

(By Daily News Leased Wire.)

VANCOUVER March 26.—Brig.-Gen. J. W. Stewart has returned from overseas service. He reached here at a late hour Tuesday night and early this morning was in "civies" and at his desk at the offices of Foley, Welsh & Stewart, consulting with his staff and gathering information of what has transpired since he went to France nearly four years ago.

NEW MAXIMUM RATE FOR SILVER 95 CENTS

(By Daily News Leased Wire.)

LONDON, (Tuesday) March 25. The government has fixed a new maximum price for silver dating from today. It is equivalent at the current rate of exchange to 95 cents per standard ounce.

SPAIN IN MIDST OF STRIKE AGITATIONS

(By Daily News Leased Wire.)

LONDON, March 26.—A wireless dispatch from Madrid says that strikes have been declared in several towns including Valencia and Alcoyo.

Agitations are in progress in Madrid and Coruna. The censorship put into operation today, forbids the publication of strike news, labor troubles and the movement of troops.

GERMAN COMMISSION GOING TO SPA SOON

(By Daily News Leased Wire.)

COPENHAGEN, March 26.—A German finnce commission which will go to Versailles to meet an inter-allied commission has been sumoned to Weimar to receive instructions from the German government. According to Berlin newspapers the commission will include Dr. Theodore Melchier, a banker of Hamburg; Dr. Wilhelm Herton, one of the managers of the Frankfort metal works; two representatives of the Reichbank and two members of the German armistice commission.

PHYSICIAN SUSPECTED OF WIFE'S MURDER

NEW YORK.—Charles R. Weeks, district attorney of Nassau county, went before the grand jury here to seek an indictment against Dr. Walter K. Wilkins for the murder of his wife on February 27.

The Nassau county police force has been augmented by fifteen New York City policemen and several private detective agencies in the search for Dr. Wilkins, missing since Sunday last. A watch is being kept at railroad stations and steamship piers in New York City, in the belief that Wilkins might attempt to leave the country. No trace of his whereabouts has been found.

Before Wilkins fled it was learned today, he spent considerable time burning papers and packing his clothing. When District Attorney Weeks heard this, he discarded the theory that Wilkins had committed suicide. Weeks also admited that Wilkins' capture might be more difficult, as the fugitive is evidently well supplied with funds.

One of the most important witnesses summoned before the grand jury was Mrs. Mary Nitzl, Wilkins' housekeeper. According to Weeks' information, an unknown man telephoned here the night of February 27, and informed her in German, that Doctor Wilkins had just murdered his wife at their home in Long Beach. When Wilkins returned to his New York house next day the woman told him of this call. He became enranged, she says, and told her to keep her mouth shut.

DOG FIGHT COST E. R. DECARY $27

MONTREAL.—In court yesterday Mr. Justice Dorion rendered judgment condemning Ernest R. Decary, chairman of the administration commission, to pay John A. Hodgson $27 damages and costs, to compensate him for the loss of shepherd dog, which had been bitten by two big St. Bernards the property of Mr. Decary. It was proved at the trial that Commissioner Decary's dogs were vicious, in fact, they had to be kept chained up. In the circumstances which brought about the trial, the dogs, it appears, had succeeded in breaking their chains and had gone to Mr. Hodgson's yard to attack the latter's dog.

KEEPING A DIARY.

This seems to be the season of the year when we begin to keep diaries. Two weeks from now is about the season of the year when we drop keeping diaries. Every once in a while we read of men who have kept diaries for years and years—since babyhood or longer. What a weird idea to be locked up in that relentless manner with the past! Only, of course, they don't really. They say they did, but they lie about it. We saw one of these diaries once. Six months of it were filled with two entries repeated over and over;—"Saw May;" "Did not see May.". The last entry was, "Married May." That was the only sensible diary we ever saw, and we haven't a doubt in the world that it was all faked up afterward to jolly along May.—Los Angeles Times.

A new "rush" to Alaska seems to be on. Northbound passengers from Seattle report so many people are going north that not even steerage accommodations can be had on the steamers until April.

NEWS AFFECTS STOCK MARKET

Early Gains in Metals and Others Are Lost Before Close—European Dispatches Watched

(By Daily News Leased Wire)

NEW YORK, March 26.—Political and economic complications in eastern and central Europe were the subjects of wide discussion in high financial circles today, supplemented by advices which bore adversely on the status of important oil properties across the Rio Grande.

Some of the day's news was distinctly hopeful and illuminating, however, notably the report of the country's foreign February trade.

United States Steel rallied 1½ points from its low of the morning, but only a fraction of the rebound remained at the end, the entire list selling off on fairly large offerings of rails, Canadian Pacific yielding almost three points.

As a whole the market may be summarized by the statement that investment shares were heavy when they moved at all, while early gains in metals, oils and the shippings were largely dissipated later. A six per cent rate for call loans added to the unsettlement at the close.

Sales amounted to 775,000 shares. Every division of the bond market was heavy or weak. Foreign issues lost fractions to a point and the general domestic list shaded.

Total sales, $15,250,000.

New York metal exchange quotes lead quiet; spot, $5.12 to $5.17½; March, $5.12½ to $5.25. Spelter firm. East St. Louis delivery, spot and March, $6.15 to $6.35.

Copper, firm; electrolytic, 15 to 15¼. Iron steady.

At London—Spelter, spot, £39.

ROSS RETURNING

(By Daily News Leased Wire)

VANCOUVER, B. C., March 26.—J. W. Ross, Canadian trade commissioner to China, is a passenger on the steamship Empress of Russia, due to arrive here from the Orient Monday next.

BUSINESS IS GOOD ON MONTREAL MARKET

(By Daily News Leased Wire)

MONTREAL, March 26.—Two features were prominent in today's local market, the strength of the stocks in the fact of a sagging market in New York and the activity of the bonds, particularly of the 1933 Victory, which furnished more than half the trading.

Montreal Power changed hands at a gain of half to 93, a new high price for the stock. Laurentide Power also made a new high record, selling up a fraction to 69¾, with closing bid further advanced to 69½.

Shawinigan closed at 117¾, a small fraction down. The steel stocks were neglected, with Canada continuing weak, today's close at 62⅛ showing a net loss of 1 point, while Dominion was unchanged at 60¾.

The 1933 Victory sold up to 105. The 1937 old war loan sold again at its best price of 100 and the 1927 Victory added ⅛ at 102¾.

MONTREAL PRODUCE

(By Daily News Leased Wire)

MONTREAL, March 26.—Potatoes steady. Butter firm. Quotations:

Cheese—Finest easterns, 24 to 25c.

Butter—Choicest creamery, 59 to 61.

Eggs—Selected, 36; No. 1 stock, 35.

Potatoes—Per bag, car lots, $1.50.

CORN PRICES UP

(By Daily News Leased Wire)

CHICAGO, March 26.—All deliveries of corn soared today to new high records for the season, but reacted sharply at the last. Gossip had been current that the seaboard exporters were bidding and this factor was afterward more or less offset by bearish advices from Argentine. The market closed nervous at the same as yesterday's finish to half cent higher, with May 1.38⅝ to 1.43⅝ and July 1.38⅝ to 1.39.

Oats lost ⅝ cent to 1½. Provisions gained 20 to 50 cents.

EMPIRE'S FUTURE LOOKS BRIGHT

Banker Tells Colleagues That Britain's Economic Position Is Good; He Is Optimistic of Prospects

(By Daily News Leased Wire)

LONDON, March 26.—(Reuter's)—In the course of a lecture before the Institute of bankers of London today Edgar Grammond gave an optimistic survey of Great Britain's economic position and prospects.

Mr. Grammond estimated the nation's wealth at present at £24,000,000,000 and the income at £3,500,000,000, while the national debt would be represented by two per cent of the former and the post war budget 22 per cent of the latter.

Mr. Grammond thought that for the next decennium the country will be in a position to spend £400,000,000 yearly at home on renewals, machinery, houses and roads, etc., and invest £300,000,000 yearly largely within the Empire. This might provisionally be allocated as follows:

£100,000,000 in India, £100,000,000 in Africa, including Egypt, £30,000,000 in Australia, £50,000,000 in Canada, £20,000,000 in the rest of the Empire, and £200,000,000 in foreign countries.

Any such scheme must obviously be elastic, Mr. Grammond said, and the amounts invested in different parts of the Empire and foreign countries must be in accordance with the flow of immigration and other conditions, but the provisional adoption of such a program would give great confidence to British manufacturers.

MINING NOTES

MINER GETTING WELL

Billy Patterson of Grand Forks, who has been seriously ill with the influenza in that city, is now convalescing and will probably return to the Rock Candy mines in a few days, where he is employed.

LARSON IN CITY

A. G. Larson, well known mining man of Spokane, came into the city last night from Spokane.

ELLIOT VISITS YMIR

R. Elliott of Nelson, representing outside interests, was in Ymir on Monday examining the "Jubilee" group of claims belonging to J. and A. Campbell.

CALDWELL RETURNS

C. F. Caldwell, mining man, returned to Kaslo yesterday after a brief visit in the city on his return from the coast.

COPPER CAMP REOPENS

The Copper Mountain camp of the Canada Copper corporation is being reopened, and already some 50 miners and other laborers have been put to work up there, says the Princeton Star. Several families are moving from the company's townsite at Allenby to the mountain.

VISIT CONVENTION

The Princeton Star says: Francis Glover, A. S. Black and W. C. McDougall of Princeton, A. F. H. Meyer of Allenby were over at Vancouver this week attending the mining convention. Mr. Glover was one of the speakers at the gathering, his subject being "The Better Utilization of British Columbia Coal."

When Hon. Mr Lemieux was asked *what tariff platform he supported* he replied the "Liberal" one. This seems to be one without planks, but consists of a light in a window.

Wireless telephony between Canada and Ireland is now announced, which may lead some Canadians to talk directly to the Irish and not write so voluminously to the newspapers.

ORE RECEIPTS AT SMELTER

Total Shipments for Week Ending March 21 Show Increase Over Previous Week

Shipments of ore to Trail smelter during the week ended March 21 showed a considerable increase over the total of the previous week. The amount shipped totaled 8208, compared with 7546 tons the week before.

Following are the shipments for the week and year to date:

SUN LIFE ASSURANCE COMPANY OF CANADA

1871 HEAD OFFICE MONTREAL 1919

T. B. MACAULAY, President

Splendid Record Achieved during 1918

THE year 1918 was for the business of life assurance a year of supreme achievement.

Owing to the combined effect of the war and the influenza epidemic, death claims were unusually high. The payment of these claims enabled the Companies to render an unprecedented measure of public service, and to fulfill to a more noteworthy degree than ever previously the beneficent purpose for which they were founded.

The record achieved during 1918 by the Sun Life of Canada was one of particularly striking success. For the first time in the Company's history new assurances paid for exceeded Fifty Million Dollars. The growth in size, strength and prosperity accentuates the Company's position as not merely the leader among Canadian life offices, but one of the great insurance corporations of the world.

The Company's financial power is emphasized by its large Assets, Income and Surplus. During the year $7,460,000 was added to the Assets, which at December 31st, had reached the huge total of $97,620,000. The Income is now $21,651,000, while the undivided Surplus is $8,027,000.

Some idea of the magnitude of the benefit to the community from the Company's operations is afforded by the disbursement to policyholders of $9,768,000, of which 33,268,000 represented sums paid to the beneficiaries of policyholders swept away by death.

The Policyholders have again had the opportunity, of taking, through the Company, the leading part in subscribing to the 1918 Victory Loan. Besides fulfilling to the utmost of its ability its patriotic duty in this regard, the Company has also been able to take advantage of the unique opportunity to purchase on very favourable terms large amounts of long-term securities, the beneficial effects of which will be felt on the earnings for many years to come.

The impetus given to life assurance by the experience of 1918 continues into the current year, and the results of the operations for the first two months greatly surpass all previous records.

THE RESULTS FOR 1918

ASSETS	
Assets as at 31st December, 1918	$97,620,378.85
Increase over 1917	7,460,204.61
INCOME	
Cash Income from Premiums, Interest, Rents, etc., in 1918	21,651,099.69
Increase over 1917	2,862,102.01
PROFITS PAID OR ALLOTTED	
Profits Paid or Allotted to Policyholders in 1918	1,546,607.16
SURPLUS	
Total Surplus 31st December, 1918, over all liabilities and capital (According to the Company's Standard which is more severe than that laid down by the Insurance Act).	8,027,378.55
TOTAL PAYMENTS TO POLICYHOLDERS	
Death Claims, Matured Endowments, Profits, etc., during 1918	9,768,564.28
Payments to Policyholders since organization	78,862,881.15
ASSURANCES ISSUED DURING 1918	
Assurances issued and paid for in cash during 1918	51,591,392.04
Increase over 1917	3,779,824.56
BUSINESS IN FORCE	
Life Assurances in force 31st December, 1918	340,809,656.13
Increase over 1917	28,938,710.42

THE COMPANY'S GROWTH

YEAR	INCOME	ASSETS	LIFE ASSURANCES IN FORCE

Business letters should be addressed and checks and money orders made payable to The News Publishing Company, Limited, and in no case to individual members of the staff.

Advertising rate cards and sworn detailed statement of circulation mailed on request or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Subscription Rates: By mail 50 cents per month; $2.50 for six months; $5 per year. Delivered 60c per month; $3 for six months; $6 per year, payable in advance.

The News reserves the right to refuse any copy submitted for publication.

THURSDAY, MARCH 27, 1919.

BUILDING UP ITS OWN INDUSTRIES.

It is of interest to note, in connection with the tariff discussion in Canada, that Australia is proposing to revise its tariff in the light of the experience of the war.

This revision, says a despatch from Melbourne, is to have the object of preserving Australian industries brought into existence during the war, encouraging contemplated new industries and extending and diversifying existing industries.

The depatch refers to the fact that the industries which Australia will make a particular effort to develop are those which can be built up out of the manufacture of Australian raw materials. In other words, the Australians want to manufacture their raw materials into the finished product, employing Australian labor for the work. This would appear to be a sound policy for any country to follow.

EASTERN PRESS STRONG FOR DAYLIGHT SAVING.

Eastern newspapers are urging very strongly that a daylight saving bill be placed before the house at Ottawa, not necessarily by the government, which is in a difficult position, but by a private member so that parliament could deal with the matter on its merits. It is not a political question.

Discussing the opposition to the bill, the Ottawa Journal says:

"Sheer obstinacy and unthinking resentment at any interference with habit are, we believe at the bottom of the whole campaign against daylight saving. How long it will take to break down that simple perverseness we do not know, but the Canadian administration might at least take advantage of the continuance in the United States of daylight saving during 1919 to give us another year's experiment. Just as Canada could not satisfactorily adopt daylight saving until the United States had done the same, so there will be untold inconvenience here if the clocks of the United States are all one hour ahead of Canada's owing to th latter's refusal to adopt the new time."

Perhaps "sheer obstinacy and unthinking resentment" is a little too strong a phrase, but the advantages of daylight saving so heavily outweigh the disadvantages that it would be a pity if Canada did not again put the measure into effect.

EFFECT OF THE ARMISTICE ON HOARDED MONEY.

There is reason to think that hoarding was practised a great deal more during the war than was generally believed. With peace assured, the hoarded money is now beginning to appear, and it is to be hoped that quite a lot of it may go to buy War Savings Stamps.

In the United States it is estimated that $1,500,000,000 were hoarded by foreigners during the war period. Banking authorities say that since the signing of the armistice, this hoarded money has come out to a surprising extent and this opinion is confirmed by the savings bank deposits. In New York state this class of deposits increased by $39,400,000 during the period from Dec. 28, 1918, to Jan. 12, 1919.

Undoubtedly the cessation of hostilities has had a similar effect on hoarded money in Canada, for it is well known that hundreds of people of foreign birth drew money out of the bank and either carried it on their person or hid it. The question is—how much of this money will go into war savings stamps? The whole country is vitally interested in seeing that a large portion of it is thus invested, while it is to the interest of the person holding such money to put it to this use.

The reprehensible practice of lobbying in the legislature appears to have been revived to some extent during the course of the present session, says the Victoria Colonist. It is a practice that is not approved by the government, and for that matter, we cannot see how it could have the sanction of any individual member, for if it has, it implies that his or her attitude on any particular subject may be susceptible to change through the pressure of interested influences. The members themselves, individually and as a body, can put an end to the practice with ease by simply refusing to meet any overtures.

COMMUNICATION

NO INTEREST ON THRIFT STAMPS

The Editor of The Daily News:

Sir:—I beg to call your attention to an error in your article in this morning's issue in connection with our Thrift Stamp campaign.

I refer to your statement wherein you say that Thrift stamps bear interest. In this you are in error, and I believe it was simply a slip on your part.

Thrift stamps do not bear interest, but just as soon as any purchaser of Thrift stamps gets his card filled up, which holds 16 Thrift stamps, or in other words, $4 worth, he can, by going to the postoffice or the bank, get a War Savings stamp, for which the government will pay him $5 on January 1, 1924. This means an investment backed by the government which yields over 4½ per cent interest, compounded semi-annually.

The owner of this card of Thrift stamps during the present month will have to pay two cents in addition to his card for a War Savings stamp and one cent additional for each succeeding month. By this I mean that in April he will have to pay three cents and his Thrift stamp card and May four cents, and so on.

What I particularly would like you to urge upon the citizens of Nelson is the necessity of all Canadian saving small amounts. The government is anxious that every man, woman and child save at least $1 per month. This would mean a total of about $90,000,000 per year.

The government wishes all holders of large amounts of money to use their money to develop industries, thus providing labor, but strongly urge people of small means to save every available cent and for this reason are offering Thrift stamps and War Saving stamps, which are really government bonds, as low as 25c apiece, so that even the school children are provided with means of buying and owning government bonds.

The government realizes that every huge brick building is built one brick at a time and also that huge amounts of money can be saved by the citizens of any country, by the citizens of that country investing their change in Thrift and War Savings stamps.

The local committee are very anxious that these stamps be placed wherever people meet to transact business so that the stamps are readily procurable and for this reason will call upon all merchants and other business people asking them to take on at least a small supply of stamps, *which they in turn will invite their* customers or employees to purchase. If the people would realize the necessity of this campaign for thrift there would be no difficulty in disposing of the stamps.

What the local committee wish is that all places of business should keep a supply on hand and that the citizens in general should make a point of asking for their change in stamps instead of in money.

Faithfully yours,

CHAS. F. McHARDY,
Chairman for Nelson and District National War Savings Committee.

Nelson, B. C., March 26, 1919.

COLD STORAGE.

"Doesn't Jones lie a great deal about that second-hand automobile of his?" "I don't know about that. I notice him lying a good deal under it."—Baltimore American.

"I thought you had an umbrella when you left home."

"I had," answered the man who was drenched. "I went to a Socialist meeting where everybody was in favor of *eliminating any individual advantage.* By the time they got through dividing my umbrella around, there wasn't anything left of it that anybody could use."—Washington Star.

TOLD IN RHYME.

TO SNOW.

When first you spread your mantle white
(Excuse the somewhat hackneyed phrase)
I felt a mrimitive delight
In tramping unfrequented ways,
A pioneer in lands unknown
I sang the beauties of the snow
In lilting measures all my own.
But that was many weeks ago.

But if the truth must be confest
To see all nature stark and dead
In one unvarying whiteness drest
Soon leaves the soul distinctly fed.
And though the wind blew strong and cold
I joyed to see the teeming rain
That drove you from your stranglehold
And showed the face of earth again.

Now, in a somewhat bumptious mood,
Upon the landscape washed and clean
Once more you venture to intrude
And whitewash all the varied scene,
You had your innings; be content.
We but await the days that bring
The burgeoning, the hues, the scent
And all the wonders that are spring.

Touchstone, in London Daily Mail.

REPATRIATION PROBLEMS...

Imagine, if you can, an organization that has handled the reception of such a party as 600 women and children or 180 babies under the age of 12 months, asking, like Oliver Twist, for more, and you have an idea of Halifax's women's organizations at the present time.

The above number, 180 infants in arms, arrived on the Megantic last trip. On another occasion the total number of women and children arriving was 1000. Yet the workers state that they would be glad to welcome more at the port.

Since the first boatload of soldiers' dependents arrived, Halifax has achieved wonders, 100 voluntary workers, representing all branches of women's organizations, hold themselves in readiness to assist at the port any hour of the day or night.

Reception rooms for the mothers and children are splendidly adapted with good light and heat. There is a large nursery containing 20 beds, a rest room for the mothers with cosy chairs and couches, and a tea-room adjoining, where light refreshments are served at a very small cost. For instance two sandwiches and tea and coffee can be obtained for ten cents, or refreshments are free for those who are short of money. Milk is distributed free of charge to the children and babies.

One of the best patronized departments is the babies' washroom. This is stocked with all kinds of necessities for the little ones.

Frequently the rooms are kept open all night to accommodate travellers of small means who have to wait over and on these occasions some entertainment, either in the form of a concert or pleasant social evening, is given. In this respect the Y. M. C. A. has given splendid cooperation.

Special attention is given to the needs of the sick people. They are taken to the hospital, visited frequently and the military authorities have loaned an ambulance for such cases.

One little mother, who anticipated a new arrival, landed with two children. She was put into a hospital and local organizations cared for the children until the mother was fit to travel again. It was six weeks before the little party were reunited. In the meantime all had been cared for voluntarily by the organization at this port. At the end of the time the mother of the bonny new-born babe and her other children were put safely on the train and in the care of other workers departed for their new home.

The National Red Cross society has a trained nurse at this port to give advice and assistance, and her work has been particularly valuable in the case of young mothers traveling with infants.

Immigration and railway officials have all contributed their share to make the work and reception and entertaining pleasant and smooth.

The kindly, sympathetic women who meet their stranger sisters from overseas, look after their baggage, help them through customs, see that the little parties get sufficient rest, post and write letters, exchange money and in every possible way, even to providing warmer clothing for the children, help the new-comers feel that they have come to a land of friends.

Nor does the good work cease when the parties leave the port. They are escorted to the train by the same willing helpers and placed in charge of *trained nurses, who travel with them.*

One such train, a few weeks since, carried 400 women and children in ten cars. The entire party was in charge of a medical officer and a trained nurse. The first day away a number of the children developed colds and minor ailments and the doctor established a clinic in the smoking room of one car, where the patients came daily for dressings and medicine. Those who were too sick to walk to the little clinic were attended to by the nurse in their births.

The women who are the objects of so much care and forethought are not slow to express their gratitude and appreciation.

The old saying that "first impressions are everything" is being worked to death in Halifax, for the women of that city are evidently determined that no impression but the best and kindliest shall be carried away by the parties whose initial entry into Canada *will probably colour their whole aspect* of life in this country for future days.

WOMAN CHARGED WITH MURDER OF INFANT

KINGSTON—Mrs. Lovice Thompson, of Kennebec, was committed for trial by Magistrate Farrell on the charge of murdering her two weeks' old baby. The prisoner took the proceedings seemingly without tremor and showed no signs of nervousness or unrest. Col. Connell, who made a post mortem, stated that the child had been suffocated by a handkerchief being stuffed in its mouth. Inspector Boyd said the prisoner had told him that she had given the child to a woman at the local C. P. R. station and had not seen it again. The prisoner is being defended by T. J. Rigney, who is also acting for James Hartwick, charged with the murder of his stepson.

FROM THE FIRST DOSE

Hood's Sarsaparilla Begins Its Reconstruction Work.

First, it creates an appetite.
Second, it aids digestion.
Third, it perfects assimilation.
Fourth, it carries 100 per cent. of the nourishment in the food you eat into the blood and the body, thereby enriching and vitalizing your blood, which in time renews your strength and builds up again your reserve strength and vitality.

This makes Hood's Sarsaparilla one of the great remedies of the world. From the first dose you are on a definite road to improvement. It is of inestimable value just now to *restore the health and nerve force so* greatly exhausted by war excitement, the grip and influenza epidemic and the changing season. It is the right medicine for you this Spring. Get a bottle today.

And if you need a mild, effective cathartic, get Hood's Pills.

It is expected that an English company will shortly take over the Chapleau, a gold proposition on Lemon Creek. Ernest Mansfield, who went to England in mining business some weeks ago is expected back any day, and it is likely that he will have some announcement to make about the Chapleau.

IT TAKES COURAGE

To live according to your convictions.

To be what you are and not pretend to be what you are not.

To say "No" squarely and firmly when those around you say "Yes."

To live honestly within your means and not dishonestly upon the means of others.

To speak the truth when by a little prevarication you can get some special advantage.

To refuse to knuckle down to and bend the knee to the wealthy, even though you are poor.

Whn mortified and embarrassed by humiliating disaster, to seek in your ruins the elements of future success.

To refuse to do a thing which is wrong because others do it, or because it is customary and done in trade.

To stay home evenings and try to improve yourself when your comrades spending their evenings having a good time.

To remain in honest poverty while others grow rich by questionable methods which you could easily use yourself.

To refrain from gossip when others about you delight in it and to stand up for an absent person who is being abused.

Not to bend the kneed to popular prejudice, but stand firmly erect while others are bowing and fawning for praise and power.—New Success.

WIRELESS TELEPHONES USED BY BOARD OF TRADE

MONTREAL—Wireless telephones are being installed in the offices of the Montreal board of trade. It was said the telephones will enable brokers to talk with Kingston, Ottawa, Three Rivers and Quebec.

When they hear that the Pats are home again, maybe the Huns will become a little cheeky.

Birks

GUM-ARABIC.

Medicine draws her strength from all quarters and use many means to achieve her ends. Not the least interesting or modern therapeutic agents is ordinary gum-arabic, which that very great English physiologist, Professor Bayliss, has recently recommended as a means of combatting shock resulting from wounds.

The story of the use of gum-arabic in this fashion is one of the romances of modern science, and, as the British Medical Journal properly observes, indicates anew the claims of physiology, the usefulness of which during the war has "ranged from the preservation of the aviator to the regulation of food, fro mgas defence and treatment of gas poisoning to the prevention of scurvy among the troops." The basic idea is this. No matter what may be the exact cause of "shock," the condition is characterized by a loss of fluid from the circulation (which is, of course, by no means the same thing as loss of blood from the body). This fluid must be made good, but that end cannot be achieved by the simple injection of salt solution or other ordinary means, since salt solutions escape through the walls of the very small vessels, and are soon lost to the circulation. Professor Bayliss came to the conclusion that a fluid of greater viscosity must be added to the salt solution.

The materials most likely to be of use were gelatine and gum-arabic. There are certain dangers and disadvantages attaching to gelatine. But gum-arabic is free from objectionable qualities. Its use has been attended by excellent retules, and it can be taken anywhere in bottles, ready for administration. The British Medical Journal is convinced that "many patients were saved who without the injection would certainly have died of the original injury or of the necessary subsequent operation."

Among the views which have been advanced to explain this curious state of shock may be mentioned that which sees in it a paralysis of the smaller blood-vessels owing to the action of some poison upon them or upon the nerves controlling them. The vessels then dilate; they fill with blood, which is thus for the moment withdrawn from the general circulation, and blood serum leaks out of them into the surrounding tissues, further depleting the fluid in circulation. The patient, so to speak, "bleeds" into his own body.

It is a matter of common experience that a great mental disturbance will produce this condition of shock; the condition is also seen after severe blows and injuries from time to time, and there can be little doubt that it may occur as the result of the use of certain drugs, etc., the prenomenon of "anaphylaxis," in which a subsequent dose of drug that on first administration proved harmless precipitates the patient into a state of shock which often ends in death.

Whether or not these varieties of shock differ in essential particulars has not been determined to the satisfaction of all. Possibly, then, poisoning of one kind or another—etc., a chronic infection—bay produce in the *body a state of nervous hyper-excita*bility which gives to a smaller stimulus the force of a very great one. This would explain why it is that while a severe mental or physical disaster is necessary to produce shock in some people, in others much less severe conditions will determine the onset of the state. It would also explain why one wounded man will show symptoms of shock and another escape these *symptoms; why one operation patient* will suffer from it and another not so suffer.

We must await further light on this aspect of the question. Meanwhile when shock, no matter how caused, does arise, a new and powerful weapon against it is ready to hand. Medicine owes physiology a debt beyond estimation. The debt mounts up, and this use of gum-arabic is not, we think, the least of the items composing it.

THE FLANDERS POPPY.

Probably it is not generally known in Canada that the poppy is one of the worst weeds there is in the grain fields of the European continent and in England. It is practically ineradicable. The tiny seeds are spread broadcast over the ground in millions every season; in fact, it is one of the most prolific weeds with which agriculturists have to contend. It is not at all impossible that if it is introduced into Canada it may become equally pestiferous here. We have enough European weeds running riot in this country as it is—look at the dandelion, for instance. We would suggest that the government should firmly discourage the idea of importing this weed from Europe—for weed it is—even though some sentimental value naturally attaches to it.—Montreal Herald.

DISEASE RAGES IN LABRADOR

Say Conditions During Winter Have Been Shocking—25 Per Cent of Natives Died.

(By Daily News Leased Wire.)

MONTREAL, March 26.—The Montreal Star today published the following dated St. Johns, Nfld.: By mail to Battle Harbor and wireless to this city comes intelligence of shocking conditions in northern Labrador, as a result of influenza, smallpox and measles, which swept the coast during the winter. Earlier in the season reports of deaths on the southern section of the coast showed that over 25 per cent of the natives died.

"The first reports from the northern section reached here only yesterday. From Cross Water Bay to Nain the epidemic raged for four months, carrying off approximately 50 per cent of the inhabitants on that area of the coast. At Nain 40 Newfoundlanders, who wintered on the coast for trade purposes died, and over 40 natives also died, which represents practically the whole population of the settlement. Okak, with a population of over 200, is entirely wiped out. At Hebron 200 died, leaving only a remnant of residents at that station to dispose of the bodies. At the latter place the survivors dug a pit, into which they threw them without shroud, coffin or burial rites, about 100 being disposed of in that manner. On the island in the vicinity of Okak, 15 people who resided there for sealing died and the bodies were devoured by the dogs.

"Many outposts which are invariably connnected with the central mail posts failed to report, and the conclusion is that the whole population of these places have succumbed to the disease.

"It is estimated that only 400 inhabitants from Gross Water Bay to Nain are left alive. The full extent of the calamity will not be known until the opening of navigation in the coming summer, but well grounded fears are expressed that the diseases which ravaged the south and centre area of the Labrador coast extended north, and that the most appalling conditions will be disclosed when the ice barrier permits investigation. Medical aid was unobtainable and the unforunate stricken people perished as if by the plague."

TELLS DYSPEPTICS WAHT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antiacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestent. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestents.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

C.W.V.A. MEETING NOT AT FERNIE

Conference Will Be Held in Vancouver Instead, Says Capt. Whittaker—Mrs. Davis Passes Away.

(Special to The Daily News.)

FERNIE, B. C., March 26.—Capt. Wellesley Whittaker, president British Columbia Command, Great War Veterans association, spent Sunlay in the city conferring with the officers and members of the local branch. He occupied the pulpit in the United church here on Sunday morning and addressed a mass meeting of the G. W. V. A. in the council chamber in the evening. While here Capt. Whittaker took up the matter of the forthcoming annual provincial convention of the association, which it was decided at the last convention, would be held in this city in June of the present year. The provincial executive desired that in view of the Dominion convention coming to Vancouver in June this year that it would be much more satisfactory to have the provincial convention also held at Vancouver just prior to the Dominion conference and thus save a large amount of expense as well as havinb a greater representation of B. C. delegates at the Dominion convention. This matter was taken up with the boys here and, upon receiving an absolute guarantee from the provincial executive that the 1920 annual British Columbia convention would be held in Fernie, they consented to relinquish their unquestionable claim to this year's convention and accordingly it will be held in Vancouver.

The death of Mrs. Hesther Davis, aged 84, and highly respected resident of this community for many years, occurred at the family residence on Friday last. The funeral was held Sunday afternoon under the auspices of the local Salvation army.

GRAND FORKS NOTES.

(Special to The Daily News.)

GRAND FORKS, B. C., March 26.—W. K. C. Mauley returned from Victoria Monday by way of Spokane over the Great Northern line.

The 2-year-old daughter of Mrs. Mary Bean of Columbia has been a patient at the hospital for three weeks with abscess of the ear. She was taken home Wednesday.

The first buttercups of the season were gathered near town Sunday.

Gardening also has started in sunny spots. Farming operations, however, will not be started for some days, owing to the unsual heavy frost in the ground, as well as the rather heavy frosts at nights.

N. L. McInnes returned Monday from Spokane.

James Cadoo returned Monday from Spokane. Mrs. Cadoo is a patient at a hospital, having undergone a serious operation a week ago. She is now recovering.

Dr. Guy returned Saturday from Vancouver, having received his discharge from military service. He conducted a dental parlor here for several years.

Bob McCutchion is importing several carloads of dry lumber from Republic, owing to shortage of that class of lumber in this district.

Miss Ethel Huscroft of Creston was a weekend visitor at the home of Mrs. H. Weber.

Old timers claim that the orchards in the valley are in better condition this spring and that owing to the late spring, late frosts that ruined about one-third of the crop last year, will not need to be feared this year.

CAUGHT ON STREET WITH STOLEN TIRES

TORONTO—While escorting Alec. C. Mason, no home, to detective headquarters on a charge of shop-breaking in Trenton, Ont., Detectives Levitt and Young picked up Frank Hyland, Callander street, on a similar charge. A number of watches and a small quantity of jewelry were found on Mason, and Hyland admitted stealing a couple of auto tires from the Standard Cartage company, 109 Richmond street west.

According to the story of the two officers, they were bringing Mason along Simcoe street, when, at Richmond street they passed Hyland carrying two tires on his shoulder.

"I believe that's one of the Kellys," remarked Levitt, as they passed, referring to a man well known to the police.

So they turned back and accosted Hyland, who stated that he had bought the tires. His story being unsatisfactory, he was arrested. At headquarters he denied stealing the tires, but on being pressed, admitted the theft, stating that he had broke into the company's premises and stole the goods.

A delight to the palate; a comfort to the nerves—
INSTANT POSTUM
instead of tea or coffee.

ONE BIG UNION MEN IN FERNIE

Naylor and McKenzie Get Cordial Reception and Meeting Endorses New Move.

(Special to The Daily News.)

FERNIE, B. C., March 26.—Joseph Naylor, representing the miners of Cumberland, B. C., and A. McKenzie, Vancouver, B. C., Loggers' union, visited the city on Saturday and Sunday in connection with the campaign for the "One Big Union," the new policy for the organization of labor along industrial lines, as opposed to the present principle of craft organization.

This is the platform adopted by the Western Canada Labor conference held in Calgary, and these gentlemen were delegates to that conference. On Saturday evening a smoker, open to everyone, was held in the Grand theatre, and was largely attended. The reception tendered Messrs. Naylor and McKenzie as organizers for the One Big Union was very cordial and upon the chairman at the conclusion of their addresses requesting the audience to signify their opinion with regard to supporting this new department by show of hands, the chair announced the meeting was unanimousely in favor of the One Big Union. Messrs. Naylor and McKenzie addressed a mass meeting of Gladstone local union at Fernie Sunday afternoon and also a meeting of the miners at Coal Creek Sunday afternoon.

YMIR NOTES.

(Special to The Daily News.)

YMIR, B. C., Maerh 26.—Mrs. P. Campbell of Salmo was a weekend visitor, being the guest of Mrs. Coleman.

The dog poisoning season has opened up again. The other day a spaniel dog, the property of R. R. Shrum was the victim of this German method of dealing with dumb animals. This is the second dog Mr. Shrum has lost in less than a year under similar circumstances.

TRAIL NOTES

(Special to The Daily News)

TRAIL, March 26.—The Great War Veterans' association gave a dance in Swartz hall on Monday evening. There was a large attendance and everyone reported having a most enjoyable time.

Mrs. D. B. Stevens of Rossland is the guest of Mrs. D. H. Chapman.

Mr. and Mrs. Kirkwood of Battle Creek, Mich., are the guests of their daughter, Mrs. J. B. Thom.

Brigadier McLean, who has been visiting the local Salvation army corps, left on Tuesday for Nelson.

ROSSLAND NOTES

ROSSLAND, B. C., March 26.—Mrs. J. S. Deschamps and family returned this afternoon from spending the winter months in California.

Mrs. L A Campbell, who has been spending a few weeks in the city at her home here, leaves Thursday for Vancouver.

Mr. and Mrs. W. Wood of Paterson spent Tuesday evening in the city.

Mrs. C. H. Wallace entertained at a bridge party last evening at her home on Thompson avenue in honor of Mrs. W. M. Archibald, who left this morning on an extended trip to the south.

RAILWAY CAR ROBBED WHILE TRAIN MOVED

LONDON, Ont.—One of the most daring attempts to rob a C. P. R. freight train of merchandise was reported to have been made a short distance west of London. The train, in charge of Conductor Nugent, pulled out of London at an early hour, and was proceeding westward when the air brakes were suddenly applied. The train was brought to a stop and the crew on investigation found the door of a car, which had contained a consignment of shoes, open. Then it was discovered that the air bag between two cars had been cut with a knife while the train was in motion. Railway detectives who hurried out from London found nine cases of shoes strewn along the line. It was believed that the thieves, after having thrown the shoes off, intended only to slow up the train to enable them to alight. A search of the district was made, but no trace of the robbers was found.

SEATTLE UNDERTAKER CHARGED WITH FRAUD

SEATTLE—Counsel for G. M. Butterworth, local undertaker, indicted on a charge of defrauding the government and relatives of deceased sailors and marines of the Thirteenth naval district, asserted in federal district court during his trial that plain wooden boxes substituted and other changes made in the government contract were proper because the caskets had been passed by naval inspectors.

The government charges that Butterworth, manager of E. R. Butterworth & Sons, charged relatives for extra funeral expenses when materials were supplied by the government, and also collected the government contract price in addition. Various undertakers, including Everett M. Smith, from Brockton, Kan., were called as witnesses by the government.

One of the several caskets exhibited to the jury had been exhumed from a grave in Montana.

GERMAN PEOPLE SING MARSELLAISE

The story of how the German revolution came to a camp of French prisoners near Munster is being told in Le Figaro by Maxime Girdrd, himself one of the interned French soldiers liberated by the signing of the armistice.

"It was almost like a theatrical performance, enacted for our special benefit," he writes. "For two hours on Nov. 9 I almost rejoiced in being a prisoner of war.

"Ke knew already on the 7th that the sailors had revolted and Kiel, Hamburg and Cuxhaven and hoisted the red flag on many ships. The next day we heard that Gen. Ritter, commander of the 7th army corps, was just outside of our camp, walloped by a soldier whom he had reprimanded for not saluting him properly.

"But the real thing started on the 9th. Early in the morning we were told that a delegate of the soldiers' and workingmen's council would visit the camp. We thought it was a practical joke.

'But it was true. A civilian, wearing one of the famous small, green hats featured by cartoonists and a wide red brassard, appeared at the gate of the camp. The soldiers surrounded him. It was the 'delegirte' from Munster. A guard of honor, consisting of four soldiers with bayonets fixed, accompanied him.

"After the soldiers of the camp had examined his credentials, he mounted a table and read the order of the day as follows: 'Tear off your cockades, Degrade the officers. There is only one here to issue orders and that is me.'

„In a minute the ground was covered with eagles and cockades which the soldiers tore off their caps and unfiorms and trampled under their feet. All this was going on before our eyes.

"Then came the turn of the noncommissioned officers. The delegate entered the office of the sergeant-major and demanded that he also should tear off the cockade. The sergeant-major started a speech, but was rudely interrupted by the delegate, who gave him two minutes to make up his mind. It took about 30 seconds before the cockade lay on the floor.

"Another sergeant who showed signs of resistance was disarmed without any parleying. Even his helmet was taken from him.

"A soldier exclaied: 'Let's go to the officers.' A delegation was dispatched to confer with Capt. Baron X., commander of the camp. They met him in the yard. Without uttering a ward one of the soldiers pointed a finger at the cockade on the captain's cap. The captain registered lack of comprehension. Silently the soldier repeated the gesture. And the captain, Baron X., commander of the camp, very obediently lifted his cap and tore of the imperial emblem, throwing it on the ground.

"Then the 'delegirte' came to us prisoners and began a parley with the head of our relief society. He told us that there was no question of giving us our freedom; that in our own interest we should strictly adhere to the rules issued for us, but at the same time he asked if we had any grievances. Our representative presented a series of complaints, and the 'delegirte' issued orders on the spot, granting our demands in full.

"Then the 'delegirte' asked to be conducted to the headquarters of our musical society, called 'Symphonie.' His request was complied with. And then the real surprise was sprung on us.

"The delegirte' asked the leader of our orchestra to play the 'Marseillaise.' And while the band played the 'delegirte' lifted his hat and stood thre uncovered, and all the German soldiers uncovered, too. When the song was finished the 'delegirte' applauded vehemently, and all the German soldiers applauded, too.

"The same scene was reenacted in the hall of our musical society, 'Harmonie.' The 'Marseillaise' was played and all the German soldiers stood there, their caps pressed to their hearts at attention.

"Nor was this all. The 'delegirte' asked if we had any French flags. Of course, each of us had a flag, but we were afraid to say so. Then the German repeated his question, adding that if we did not happen to possess any French flag we had better make a few right away.

"In a couple of minutes the whole camp was bedecked with the tricolor flags of the French republic. It was a dream come true."

SOLDIER BADLY BEATEN BY BRUTAL THUGS

MONTREAL—A story of wanton brutality on the part of thugs in Montreal West, was told to the doctors at the Royal Victoria hospital yesterday by a soldier, Pte. Walter Sanueswky, 33 years of age, of the Peel street barracks, who told of being tracked and beaten near the Montreal park and Island tracks, early yesterday morning.

He said he was on his way to see some friends at Ville St. Pierre and had alogited at Montreal West in error. As he stepped off the car he saw three men coming towards him. Thinking that they meant to rob him, he threw away his money, $45, and his military pay book. The three men then set on him, and beat him so thoroughly that his left arm was broken in three places. He was afterwards removed to the Royal Victoria hospital, where it was yesterday found necessary to amputate the arm. The money was found in the snow by a section hand of the Grand Trunk, and was handed over to Lieut. John Collins, at the Tircot police station. The police of Montreal, and Montreal West are investigating the affair.

Our Spring Stock of
"American Lady," "D & A" and "Nemo" Corsets
Is Here

This is the proper time to select your Corset to wear with Easter Outfit. "American Lady," "D. & A" and "Nemo" Corsets can be purchased to fit any form, but to get the best results a Corset should be made easy, in order to have the new frock or suit look its best over it.

MILNER PLANS BIG PARADE FOR CANADIANS IN LONDON

(By Daily News Leased Wire.)

LONDON, March 26.—It is understood that Lord Milner, secretary of state for the colonies, is giving his personal attention to the question of the ceremonial parade through London by the Dominion troops before their departure for home.

Many newspapers here are constantly expressing regret that the overseas soldiers are being allowed to depart practically without a send off.

56,000 CANADIANS IN FRANCE; 100,000 NOW HOME

(By Daily News Leased Wire.)

LONDON, March 26.—(Canadian Associated Press)—The Scotian has sailed from Liverpool for St. John, with 13 nurses, 54 officers, 40 cadets and 1619 men from Kinmel camp, bound for all areas.

Upwards of 100,000 Canadian soldiers have now left the British Isles for home since the armistice.

The third division is now entirely cleared and the major portion of the first division is now here.

Only 56,000 Canadians now remain in France.

Since March 1, 15,000 Canadians have cleared from Kinmel camp.

E. D. Hand, 87, one of the oldest newspaper men in aCnada, died at Lindsay, Ont. He founded several weeklies in his neighborhood.

NO CONSTIPATION NO PILES

We think, without a doubt, that constipation is the most prevalent and at the same time one of the greatest troubles human nature is afflicted with, and causes more sickness than anything else.

Unless a free action of the bowels occurs at least once a day, constipation is sure to ensue, then comes the sore and uncomfortable piles, sick and bilious headaches, coated tongue, obnoxious breath, sour stomach, heartburn, water brash, and many other ailments.

Milburns Laxa-Liver Pills will regulate the flow of bile to act properly on the bowels, thus removing the constipation and its allied troubles.

Mr. Dan Doucette, Eel River Crossing, N.B., writes: "Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four vials and am completely cured. I can gladly recommend them to anyone who suffers from constipation."

Milburn's Laxa-Liver Pills have been on the market for the past 25 years and have been used with the best results by thousands of people in that time and we have yet to hear of a complaint as to their curative powers.

Price 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ABOLISH POST OF FRENCH COMMISSIONER IN U. S.

(By Daily News Leased Wire.)

PARIS, March 26.—(Havas)—President Poincare, acting on Captain Andre Tardieu's suggestion, has signed a decree abolishing the post of French high commissioner at Washington on April 1.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parmint (double strength), and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.

Are You Nervous? Are You Played Out?

If Your Recuperative Power Seems to Have Left You, You Need

PHOSPHONOL

A quick, nerve-building tonic—one that checks decline—steadies your nerves—one that puts you on your feet again.

Today you should get a box (Same price everywhere), of Phosphonol.

The Scobell Drug Co., St. Catharines, Ont. Price $3.00 box, 2 for $5.00.

Mrs. Borne Sends This

She calls them Crumb Muffins. We have tried this recipe and can vouch for its goodness.

Soak 2 cups of stale bread crumbs for ten minutes in ¾ cup of Pacific Milk, diluted with an equal amount of water.

Add 1 cup of sifted flour, 2 teaspoons baking powder, ½ teaspoon salt, 2 well-beaten eggs and 1 tablespoon of melted shortening. Mix well and put one tablespoon of batter to each cup in a well heated and greased muffin tin.

Bake 20 to 25 minutes in a hot oven.

REPORT OF SUN LIFE BEST YET

48th Return Shows Record Gains—Over 50 Millions of New Business.

A remarkable degree of progress characterizes the Sun Life Assurance company's activities in 1918. The 48th annual report of this company is the best in its history, being such as to easily enable the company to maintain first place among Canadian Life Assurance companies.

Gains were made in new business, total assurances in force, income, total assets and net surplus.

The new business written and paid for amounted to $51,591,000, a gain of $3,700,000 over the figures for 1917,

F. G. COPE
Secretary of the Sun Life Assurance Co., whose annual report published elsewhere in this issue shows another year of striking progress.

which was the best year previous to this in the company's history. The fact that the company is able to pile one record year on top of another speaks volumes for their organization and business methods. Total assurance in force now stands at $340,800,000, a gain of nearly $29,000,000. Income received totalled $21,651,000, or a gain of $2,300,000, over the previous year, assets now stand at $97,620,000, a gain of $7,460,000, while undivided net surplus over all liabilities and capital stock exceeds $8,000,000.

Policyholders have reason to feel gratified at the showing made by their company. The year was a particularly trying one to insurance companies and that fact that Canada's largest insurance company, the Sun Life, made such a splendid showing is a matter of congratulation to the officers, policyholders and the Dominion at large. The fact that our largest insurance company could establish new high records during a war year and in the midst of an influenza epidemic is a fact that should not be lost sight of by the people of Canada.

SMALL SHACK BURNS NEAR WATERFRONT

Fire from an unknown source last night destroyed a shack at the rear of P. J. Rahl's blacksmith shop on Vernon street. The shack was a one-room dwelling and occupied by J. Carmichael. The blaze was noticed shortly after 9 o'clock and an alarm turned in to the fire hall, but by the time the firemen arrived on the scene the whole of the interior was in flames. It was worth about $100, but it was not known last night if any insurance was carried or if anything of value was lost in the flames.

FINED FOR BEING DRUNK AND DISORDERLY

Henry Berlingette was fined $25 and costs in the city police court yesterday on a charge of being drunk and disorderly. He was tried before Magistrate E. A. Crease. He paid the fine.

ROYAL YEAST CAKES

The quality of Royal Yeast Cakes is such that it cannot be improved, so we are improving the package. The change from a round to a square package will be made as rapidly as practical. The quality of the round and square cakes is guaranteed to be identical in every respect. Each of the square cakes are wrapped separately by machinery, in wax paper, in such a manner as to make them practically airtight, and scientifically hygienic.

ROYAL YEAST HAS BEEN THE STANDARD YEAST OF CANADA FOR NEARLY HALF A CENTURY

MUST USE SEED OF HIGH GRADE

E. C. Hunt Speaks to Audience in Annable Hall Dealing Wish Diseases of the Potato.

In the hall of the Annable block on Monday night, E. C. Hunt, assistant horticulturist, gave an instructive lecture to the memberof the Nelson Improvement association entitled "The Diseaes of the Potato." During the course of his remarks he asserted that one of the biggest losses in yield occurred through using inferior seed, which failed to germinate and resulted in many blank hills. Rotting in storage due to blight attaching the tuber and taking constant toll was also the cause of considerable loss.

Mr. Hunt was emphatic against using scabby potatoes for seed, as well as spreading lime or wood ashes on the ground previous to planting, as this was conducive to the scab disease.

To avoid this malady as much as possible, he advised that whenever opportunity offered rotation of crops should be practiced. Scab was a difficult thing to eradicate as it lives in the ground for a considerable period. Mr. Hunt warned growers to avoid the planting of tubers in contact with manure, as this held the moisture and had a tendency to cause scab. Damp and undrained land was also a hotbed of scab. He suggested that seed potatoes be treated before cutting.

Another disease that was causing great losses in the potato crop, declared Mr. Hunt, was the late blight. For this he recommended spraying with Bordeaux mixture about July 1, and three later sprays at regular intervals. Blight, being a stem disease, it would only be fought by spraying, disinfecting the tuber being of no avail.

Mr. Hunt advised those present that if they found themselves with some new disease in their potato patch or anything of a like nature they did not understand to refer the question to him and he would endeavor to enlighten them on the subject.

After the lecture, questions were asked by the members, to which Mr. Hunt replied. A hearty vote of thanks was passed by the meeting to Mr. Hunt.

NELSON TPYOS DENOUNCE "BIG UNION" MOVEMENT

At the monthly meeting of Nelson Typographical union, No. 340, held Wednesday afternoon, a resolution was unanimously passed registering disapproval of the moment for the "One Big Union,' and expressing unqualified loyalty and confidence in the present international affiliation.

DAWSON IS BACK WITH 3 STRIPES

Former Knight of the Grip Pays a Visit to Old Town After Three Years in France.

D. P. Dawson, one of the Kootenay knights of the grip in the days before Germany started on its quest for world dominion, is back in Nelson for a few days, after three years in the trenches and in hospitals. He was wounded three times but, as he says, "I'm coming back and within a few months I hope to be all right again." Mr. Dawson went over with a draft of the 54th, but later transferred to the 7th battalion, as his old home was in Ontario.

Mr. Dawson returned on the Regina in December. Since that time he has been visiting in Ontario and recently has been at the coast awaiting his discharge, which he received a few days ago.

The return trip on the steamer was "fine," Mr. Dawson said. "Soup, entree, chicken, everything—and with regular railway dining car service, Well, Say—Oh!—it was great. None of the boys on the Regina had a kick coming anywhere," Mr. Dawson said.

After spending a few days in Nelson he will go to Calgary where he will prepare to go back to his old job on the road.

U. S. MISSION IN HUNGARY LEAVE CAPITAL SAFELY

(By Daily News Leased Wire.)

WASHINGTON, March 26.—Professorr Philip Brown and Captain Nicholas Roosevelt, American members of the inter-allied mission in Budapest, have succeeded in leaving the Hungarian capital in safety, it was announced today by the state department.

MENNONITES FINED FOR IGNORING SCHOOL ACT

(By Daily News Leased Wire.)

BORDEN, Man., March 26.—For not complying with the provincial school act, five Mennonites were given fines ranging from $20 to $50 before Provincial Police Magistrate Noble, here this morning. The fine must be paid within 24 hours or the defendants will have to go to jail. This is the second time Mennonite parents have been so fined.

Score Is 0-0 After Playing Overtime

SEATTLE AND CANADIENS PLAY ONE OF THE WONDER GAMES OF MODERN HOCKEY WHEN THREE PERIODS AND 20 MINUTES OVERTIME PASS WITHOUT A SINGLE SCORE FOR EITHER OF THE ASPIRANTS FOR THE CHAMPIONSHIP OF THE WORLD—FANS YELL THEMSELVES HOARSE AS FAST HOCKEYISTS PLAY SUPERBLY IN ENDEAVOR TO "GET ONE IN"

THE ARENA, SEATTLE, March 26.—Seattle's Metropolitans and Montreal Canadiens fought a 0-0 draw here tonight in the fourth game for the world's championship and the Stanley cup. Twenty minutes' overtime was played.

The game was under eastern rules, the home rules of the visitors. Despite the handicap Seattle fought the Flying Frenchmen at their own game to a standstill. The next game, Saturday night, will be under western rules.

All the men on the ice in tonight's game played through until they were exhausted. Eighty minutes of hockey was played, the last 40 minutes without rest.

Six-Man Saturday.

Manager Kennedy of Montreal announced that Saturday night's game would be under six-man hockey rules. This did not agree with Manager Muldoon's statement that a seven-man game would be played.

As to the game itself, tonight's was evenly contested. Lalonde, Pitre and Hall starred in the open play for Montreal, while Vezina proved a brick wall at the Montreal net.

Managers of the rival Seattle and Montreal teams have decided to postpone until 11 o'clock tomorrow morning their decision as to whether Saturday night's game will be played under eastern or western rules.

Manager Pte Muldoon of the Seattle team, is working for the seven-man rule, with which Seattle is familiar.

Manager Pete Muldoon of the Seatnadiens wants the game under eastern rules. He contends that tonight's game is "dead," as it was a tie. Kennedy immediately after Mudloon's announcement that the game would be western, made a denial.

Big Crowd.

Seattle fans jammed to the fourth game in just as great numbers as they did to the first. When the Canadiens skated out to war they looked and acted as full-of-fight as before.

"Cully" Wilson took the puck from *the first face-off and carried* it close enough for a futile shot.

Play shot back and forth, Berlanquette and Lalonde making long passing advances. Corbeau was sent to the bench for tripping Rickey. Cleghorn replaced him.

Cleghorn made a pretty shot that looked like a goal. Holmes, however, was on the job and kept the net gate locked.

Vezina stopped a number of near tallies, Wilson doing most of the peppering.

Holmes was made a target also, Pitre making a couple of shots.

Jack Walker drew applause by his nifty checking. He took the puck from Cleghorn after the latter had carried it the length of the ice. Seattle was giving the Canadiens a stiff fight under their eastern six-man rules. The two teams appeared eveninly matched.

Long shots were tried by the visitors, Lalonde making several from near the blue ice line near centre.

Bombardment of the two goal keepers continued throughout the period. Lalonde made what appeared to be a goal, but again Holmes had the net boarded up.

Jack Walker seemed to solve the outer defense line of the Flying Frenchmen, for several times he dodged the entire field, only to lose the puck at the goal.

Seattle had a narrow escape near the end when Cleghorn took the puck near to the Seattle goal. One second after the whistle closed the first period Wilson put the puck in the Montreal net. The goal umpire signalled "goal," and the crowd stood to cheer, and all was serene until Referee Ion announced no score had been made.

Second Period.

At the opening of the second period play continued about even, with the puck first at one end and then the other. Jack Walker's wizardly stick handling featured the start. He made several futile shots. Murray and McDonald also took aim and fired at Vezina. The Frenchman, however, was too much on the job for them. Hall got the habit and tried a long one into Holmes' arms. Lalonde made the closest shot of the period when, within a yard or two of Holmes, he let fly. Holmes stopped it with his chest. MacDonald replaced Corbeau.

Goalies Kept Busy.

Both goalies worked hard this period. Rickey and Lalonde broke into the spotlight by their fast work up and down the ice. Hall was penalized for shoving Rickey into the wall. Corbeau replaced him. A hot melee was staged around Seattle's net when the Montreal forwards massed and were prevented from scoring only by a stone wall defense. Wilson finally worked the puck out, carried it down the ice and nearly scored himself. No tallies were made. The teams continued to stage their even fight.

It was a great battle, replete with spectacular work by both Canadiens and Metropolitan stars. Lalonde led his team in several determined attacks. The Montreal leader tonight seemed to be skating and playing at his best.

Rush Again.

The third period started with a rush. Cully Wilson lined one for Vezina 10 seconds after the whistle. As usual the Montreal guardian was in the way.

Lalonde was again in the spotlight. Cleghorn replaced Corbeau. Another gathering was staged at Seattle's net, Cleghorn tried a shot, Holmes blocked it, Lalonde tried it, Holmes repeated. McDonald replaced Wilson.

"Bullet" Pitre got into the game and guided the puck through the Seattle team, but failed to ring the bell. Vezina saved Montreal's bacon a number of times when the Mets massed an attack, Foyston and Rickey handling the shots.

Play speeded up, both teams trying hard, making great runs, checks and shots. The two defense lines held hard, Seattle being especially good on defense. Wilson replaced Foyston and Macdonald replaced Cleghorn.

Everybody got into the fast play. One minute the attack would be on *the Seattle goal*, the next on Montreal's. Seattle appeared at home with six men on the ice. Wilson replaced McDonald. Couture replaced Pitre. Berlanquette staged a spectacular rush and made a pretty shot, but failed. Berlanquette left red blotches on the white ice when he went down and out for several seconds. He was assisted off the ice.

Wilson was held responsible for the accident. Berlanquette was hit on the face. Pitree replaced Berlanquette.

Third period ended with no scores.

Play Overtime

The first overtime period of the big title series opened immediately at the close of the third. McDonald went in for Wilson and MacDonald for Couture. Wilson replaced McDonald. Seattle started the overtime playing hard, for a goal meant the world title and the Stanley cup. The Canadiens fought just as hard to keep their basket protected.

Lalonde almost scored on a close shot, but Holmes held. Wilson, out again, replaced by McDonald. Walker was penalized for tripping Pitre. Most of the players showed signs of exhaustion. They played on each side determined to win. Play got rougher as the period went on. None of the offenders, however, caught Ion's official eye. The overtime was played in 10-minute periods, with no intermission.

Jack Walker went down and out with a bad cut on his head. Wilson replaced him.

Captain Bobby Rowe got a big hand when he went on to replace Wilson. Rowe has a sprained ankle and limped when he skated, but he fought hard. The crowd stood and roared when Foyston made a long run and almost got past Vezina. Rowe was ruled off for holding. He got a big hand. Walker was back on the ice with a big patch over his eye. He replaced Rowe.

Walker was ruled off also for body-checking, Wilson replacing him. Bobby Rowe went back, replacing Murray. Lalonde almost caught Holmes napping and barely missed placing the puck against the net.

Go After Book

Manager Muldoon announced that the question of draw or further play would be decided as soon as a book of eastern rules could be obtained. Some held the eastern rules called for 30 minutes overtime before a draw could be called, while others claimed only *20 minutes was decreed*. In the meantime, while authorities argued and while a messenger was dispatched somewhere for the book, the crowd waited impatiently.

When a book of rules was finally located it was decided that 20 minutes overtime met the requirements, and there was no further play.

Line-up.

Seattle		Canadiens
Foyston	Centre	Lalonde
Walker	Wing	Berlanquette
Wilson	Wing	Pitre
Murray	Defense	Hall
Rickey	Defense	Corbeau
Holmes	Goal	Vezina

Summary.

First Period—No score.

Penalties—Corbeau, Canadiens, three minutes.

Substitutes—Cleghorn for Corbeau.

Second Period—No score.

Penalties—R. MacDonald and Hall, three minutes.

Substitutes—MacDonald for Corbeau; McDonald for Wilson; Cleghorn for MacDonald; MacDonald for Cleghorn; Hall for Corbeau.

Third Period—No score.

Penalties—None.

Substitutions—Cleghorn for McDonald; McDonald for Wilson; MacDonald for Cleghorn; Wilson for Foyston; Foyston for Wilson; Wilson for McDonald; Couture for Pitre; Pitre for Berlanquette.

MATHEWSON TO BE ON THE JOB

No Inactive Coachship for Him, But a Regular Active Pitchership, According to Attitude of McGraw.

GAINESVILLE, Fla., March 26.—While John McGraw would make no predictions, it is likely that Christy Mathewson, once peer of pitchers, will not be an inactive coach with the Giants this season, but rather a regular pitcher and possibly one with a winning record. "Matty" tried out his wing yesterday and while he did not exert himself, he possessed such remarkable control and got by the labor so easly that he belives there is a lot of "pep" in his right arm yet.

The rest of the players are enthusiastic.

"Matty" pitched to the men in batting practice, and when he wanted to he placed the ball with such skill he completely baffled the batters.

Beny Kauff, Pep Young and Heinie Zimmerman found it hard to get safe drives off the former famed pitcher.

It is likely that George Burns will play centre field at the Polo grounds this coming season. Burns has so much speed, is such a certain outfielder *on fly balls and has so strong* an arm that McGraw believes he should be in the busy section. That means Kauff in left and Young in right.

The veteran infield is prancing around more like youngsters than men who have seen ten or more years' of service in the big leagues. Chase is performing his hair-raising stunts around first, Doyle cavorts around the keystone, Fletcher takes care of more territory than ever, and Zimmerman lets nothing go by around third. It is going to be a hard-driven ball that outwits that quartet this summer.

TORONTO RUGBY PLAYER DIES IN LONDON HOSPITAL

(By Daily News Leased Wire.)

TORONTO, March 26.—Lieut. Robert B. Sinclair, R. A. F., former rugby star of the University of Toronto, died from pneumonia at a hospital in London, England, last Saturday. He played outside wing on the college football team which won the Earl Grey cup in 1911 and the Dominion championship.

Lieut. Sinclair was 27 years of age and had been overseas four years.

INFERNO, GREAT RACER, IS PUT TO DEATH

(By Daily News Leased Wire.)

TORONTO. March 26.—Inferno, probably the greatest race horse ever foaled in Canada, was put to death yesterday at the Ontario Veterinary college, where sections of his skeleton will be preserved.

Inferno was foaled at Joseph Seagram's farm at Waterloo in 1902 and three years later at the Woodbine spring meeting won the King's plate, the Blue Ribbon of the Canadian turf.

In subsequent years he won the King Edward Hotel three years in succession, the Toronto cup, the Queen's Hotel cup, the Stanley Produce stakes, the Dominion autumn handicap and the Durham cup (twice), and was for years the idol of the Canadian turf.

HER FIVE CHILDREN

HAD WHOOPING COUGH AT THE SAME TIME

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever and cough, sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets and suffocation seems imminent till relief is brought by the "whoop."

On the first sign of whooping cough we would advise the use of Dr. Wood's Norway Pine Syrup. This famous remedy will clear the bronchial tubes of the collected mucous and phlegm and in this way ease the racking cough and in a short time make it disappear entirely.

Mrs. Walter McGaughey, North Battleford, Sask., writes: "I have five children, the eldest thirteen and the baby two years old. They all had the whooping cough at the same time. I tried two or three cough remedies, but *none gave the same satisfaction as Dr.* Wood's Norway Pine Syrup. A home where there are young children should never be without it. I will highly recommend it to those who want a quick cure.'

There are many imitations of Dr. Wood's Norway Pine Syrup, so be sure you get the genuine by insisting that the package is put up in a yellow wrapper; three pine trees the trade mark; price 25c and 50c, and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

KOLNITZ OF WHITE SOX QUITS BASEBALL FOR SEASON

NEW YORK, March 26.—Al von Kolnitz of the Chicago White Sox will not return to baseball this season. Kid Gleason, manager of the White Sox, has made an unsuccessful effort to lure the player back to the diamond.

STECHER DEFEATS FREEBURG IN TWO STRAIGHT FALLS

SPRINGFIELD, Mass., March 26.—Joe Stecher defeated John Freeburg here tonight in two straight falls, using the body scissors both times. The first fall came in 70 minutes and 10 seconds, and the second in 11 minutes and 40 seconds.

BENNY LEONARD OUTPOINTS THORPE; WINS EVERY ROUND

(By Daily News Leased Wire)

JOPLIN, Mo., March 26.—Benney Leanard, lightweight champion, easily outpointed Harvey Thorpe of Kansas City in a 10-round bout here tonight. Leonard won all the ten rounds.

The Quebec legislature abolished the courts of review.

DEMAND FOR LOANS REVIVES AT TORONTO

(By Daily News Leased Wire.)

TORONTO, March 26.—Revival for the demand of the war loans, particularly the Victory issue of 1933 and 1923 was the chief feature of interest in the Toronto market today.

In the 1933 loan the total ran well over half a million dollars, the high price of the day, 104 7-8 being equal to the recent top level, while the closing at 104 3-4 was 1-4 up. Dealings in the 1923 loan amounted to $137,000, the price holding firm between 100 3-4 and 100 5-8.

Brazilian weakened to 53 in the afternoon, the day's net loss being 1-4 point. Barcelona held at 98 7-8, despite further news of grave disorders, and Winnipeg Railway at 48 and Duluth Traction at 31 showed no change. The bid for Toronto Railway was stationary.

Canadian General Electric firmed up a point in the afternoon to 103. The announcement of the Maple Leaf bonus had no marked effect on the stock, fifty shares selling at 139 unchanged.

The steamship issues were slightly firmer, the common selling at 44 3-8 and the preferred at 77 3-4.

William Lang, for several years, assessor and collector at Palmerston, is dead.

HUGHES PROPOSES SEVEN AMENDMENTS TO DRAFT

(By Daily News Leased Wire.)

NEW YORK, March 26.—Seven amendments to the league of nations covenant, intended primarily by their author to insure the American continent against European agrgession, to protect the United States from enforced administration of foreign territory and to revoke the "trouble breeding" guaranty of the existing political independence of member nations were proposed here tonight by Charles E. Hughes in address before the Union League club.

The Monthly Meeting of the

Nelson Women's Institute

will be held Friday afternoon in the Y. M. C. A. at 3 p. m. Two important resolutions will be brought before the meeting. Election of new directors. Further arrangements will be made for the Children's Meeting to be held on Saturday afternoon.

MRS. AUSTIN ELLIOTT WILL SING

All members are requested to try and be present at this meeting.

C. F. CALDWELL BONDS CLAIMS JOINING "MOST REMARKABLE PROPERTY IN THE WORLD"

C. F. Caldwell, vice-president and manager of the Utica Mines, Limited, and president of the Mineowners' and Operators' association at Kaslo, was in Nelson yesterday on his way home from the coast, where he has been attending the mining convention. While there he was responsible for the passing of a resolution asking the governments of the United States and Great Britain to take the "lid off silver," thus giving a free and open market to the silver producers. Mr. Caldwell says he believes that such action on the part of the governments would result in silver reaching the actual coinage value of $1.29 an ounce.

49 and Yellowstone

During his stay at the coast Mr. Caldwell bonded two groups of claims known as 49 and Yellowstone groups. These are associated in the same zone as the R. K. Neil and associates' property. Mr. Caldwell is of the opinion that this territory will prove to be the richest gold and silver camp ever discovered in the history of the mining world.

The property which R. K. Neil and associates are developing is proving to be one of the most remarkable mines in the world, declares Mr. Caldwell. One tunnel driven on the vein for about 500 feet and crosscut for 80 feet gives a depth of the ore body of 300 feet. The average sample taken from this ore gives values of $160 in gold and 200 ounces of silver.

The estimated value of the ore bodies in sight on Neil's property would stagger one's imagination, says Mr. Caldwell. The outcrop of the ore bodies on the 49 and Yellowstone groups is traceable for miles. Considerable development has been done on these through open cuts and the sinking of slight depth shafts, which give values of $19 to $65 a ton. These veins are 100 to 200 feet wide.

Attracting Attention

These phenomenal ore deposits which carry such marvelous tonnage as well as values are fast attracting the attention of the mining capitalists of the United States, Mr. Caldwell says, and it is his belief that such important discoveries cannot fail to bring British Columbia vast sums of money for investment from the outer worlds.

Mr. Caldwell says he hopes the government will at once appreciate the necessity for the construction of a railway to facilitate the development of this potential mining camp. If such a railway were constructed, he says, it would mean employment of thousands of miners and other labor, besides bringing about the building up of new communities.

This would add to British Columbia's already known mineral wealth, making her stand out distinctly as the province containing the most potential wealth producing resources in the Dominion. Taking these new discoveries, added to the immense deposits of copper, iron, coal and the large areas of timber on the coast, with the wealth areas of minerals in the interior, which comprise silver, lead-zinc, copper, gold, iron, coal and other metals, including a vast wealth of timber standing to be manufactured into articles which could be exported to foreign markets, Mr. Caldwell declares that the Kootenay and Boundary districts are abundantly blessed with untold wealth-bearing natural resources, all of which to a certain extent are waiting for the advent of capital for exploitation.

Possibilities Ahead

"Canada should be alive to today's possibilities," he says, "so we may, through the development of our natural resources become a nation known through our ability to produce from this heritage of wealth such raw and manunfactured articles as are needed in all parts of the earth. Canada could be the great factor in the exporting of goods to supply the markets of the world.

"All things are possible if only our people and governments would cooperate. Our tremedous water powers running to waste could be used to aid in the economic production of these natural resources and also in the cheapening of the manufactured product."

Social and Personal

G. W. Orr came in from Porto Rico last night.

Anthony Madden of Spokane is a visitor in the city.

C. Brawn left for Vancouver last night on a business trip.

Capt and Mrs. B. H. Olson of Balfour were in the city yesterday.

Mr. H. A. Parker left on yesterday's Crow boat for a business trip to Toronto.

Rev. Father Althoff returned yesterday after a few days' visit in Spokane.

W. J. McKim and son, Earl, will leave on the Crow boat this morning for a visit to Medicine Hat.

Miss Nicholson, matron of the Ymir hospital, came into the city yesterday and will return to Ymir Friday.

J. J. Malone of Nelson is spending a few days in Princeton looking after his interests.—Princeton Star.

J. A. Lord manager of the Hudson's Bay shoe department, left yesterday morning on a business trip to Calgary.

Pte. T. Ashton of the 102nd battalion and C. Towgood of Sandon arirved in Nelson last night on the train from Revelstoke.

Mrs. F. J. McCrohan left on the Great Northern train yesterday for Spokane to meet her mother, who is going to Spokane from Montana.

M. Cameron of Slocan City will leave this morning for Whitewater, Ont., where he will spend two months. This is the first time Mr. Cameron has been east in 25 years, having lived in Slocan City since 1896.

Miss Bessie Clark of the staff of the Vancouver General hospital arrived in the city yesterday to meet her mother, Mrs. William Cark, who is in Nelson for medical treatment. They will leave for Ymir Friday.

Mrs. J. A. McDougall and little daughter, Margaret, have arrived in the city from Vancouver to join Mr. McDougall, operator for the Canadian Press, Limited. They are staying at the Strathcona for a few days and will reside at 417 Cedar street.

Pte. William Keatley arrived in the city last night from overseas. He enlisted in Vancouver with the 196th university battalion in 1916 and has seen considerable service in the front line. He was in France at the time the armistice was signed. He is the oldest of the three Keatley brothers, and all three enlisted and went overseas.

300 ALIENS REFUSE WHILE 1200 TAKE LOYALTY CARDS

(By Daily News Leased Wire.)

WINNIPEG, March 25.—Since the alien enemy investigation board started proceedings in January, 1200 aliens have been granted loyalty cards and 300 refused them, J. H. Mansfield, secretary, asserted today.

The 300 have been classed as undesirable citizens.

Government employment agencies have been instructed to prevent them from securing jobs, Mr. Mansfield said.

CZECH MISSION ARRIVES IN HUNGARY AFTER ARREST

(By Daily News Leased Wire.)

COPENHAGEN, March 26.—A dispatch from Pressburg, Hungary, announces the arrival of a Czecho-Slovak mission from Budapest. All the members of the mission were arrested March 21 and all their documents and money was seized. Finally they were allowed to leave the next day, but were searched at the frontier. Valuables to the amount of more than 1,000,000 crowns were taken from them.

COMMITTEE ON LABOR UNREST READY TO REPORT

(By Daily News Leased Wire.)

LONDON, March 26.—The committee appointed by the industrial conference summoned by Premier Lloyd George in February last to consider the causes of labor unrest and to inquire into the question of hours and wages, has completed its report, which will be submitted to another meeting of the conference on April 4. The committee consisted of 30 representatives of the employers and 30 representatives of the trade unions.

The report contains a whole series of far-reaching recommendations for improving the conditions of the workers and the returns between employers and employees. It is said to have been unanimously adopted, which is considered a favorable augury for the preservation of industrial peace in the future.

CUSTOM DUTIES WILL NOT BE TAKEN UP

(By Daily News Leased Wire)

LONDON, March 26.—(Reuter's)—Replying to Brig.-Gen. Croft in the house of commons today, Right Hon. Andrew Bonar Law said that no agreement will be entered into in Paris which would interfere with the full control of the United Kingdom or the dominions over their own customs duties.

FOUND NOT GUILTY OF MURDER OF SON

(By Daily News Leased Wire.)

PORTAGE LA PRAIRIE, Man., March 26.—Charles Gunn, placed on trial here this morning accused of the murder of his 12-year-old son, was found not guilty late this afternoon by the jury on account of insanity.

Pending word from the lieutenant-governor as to what disposition shall be made of Gunn he will be continde to the Portage pail.

He will probably be examined as to his sanity.

Gunn fired five shots into the body of the boy, then gashed his own throat and laid down beside the boy. When found he stated that he felt he was going to die because of ill health and did not wish to leave the boy behind in charge of his stepmother.
