OVER THOUSAND REPORTED DEAD IN EARTHQUAKE

Mexican Town Was Destroyed With Two Thousand Casualties

MANY ROADS WERE FLOODED

Others Were Destroyed; Sea Rose Twenty-Five Metres

MEXICO CITY, Jan. 6.—Couzetlan was destroyed by Saturday's earthquake, with 2,000 casualties, including more than 1000 dead, according to official reports from the presidential military headquarters from *advices received from officers in the* Vera Cruz centre of disturbance. The entire garrison of Teocelo was killed or injured. The dead number 30 and the injured 60. Virtually all the road in the district was flooded or destroyed according to reports. Six hundred dead are reported at Barranca Grande, near Couzetlan. The sea at Port Barrance rose 25 metres.

MANITOBA GRAIN GROWERS MEET

Name May Be Changed to United Farmers of Manitoba

BRANDON, Man., Jan. 6.—With *farmers gathered from all corners* and with the past year full of interest on the entry of agricultural men generally into all phases of political activity the annual convention of the Manitoba Grain Growers which opened here tonight promises to focus attention of a dominion wide character.

This convention, according to old timers who have watched its growth during the past decade, promises to crystallize the growing sentiment among western farmers to the extent that independent political action will be favored in hearty support of the Farmers' platform. Much has happened in the past year to occupy the attention of delegates. Paramount of importance was the resignation of R. C. Henders, M.P., following his stand on the tariff question. Mr. Henders has been president for many years and was often called one of the fathers of the association. J. L. Brown of Pilot Mound, the acting president, will make his first report tomorrow. The convention is also likely to change the name of the association to read: "United Farmers of Manitoba."

Among many important resolutions to be discussed is one strongly opposing the idea of opposing a tariff commission. Another to inaugurate Grain Growers' Sunday, a third to better rural telephone service, and a fourth motion will ask that military *forces in Canada be reduced* to a minimum. This is interesting as it comes from Lieut.-Col. C. D. McPherson, M.L.A., of Portage la Prairie, who saw much service in France and Belgium. Among the speakers at the convention will be Hon. T. A. Crerar, M.P.; H. W. Wood, president of the Canadian Council of Agriculture; J. B. Musselman, secretary of the Saskatchewan Grain Growers' Association; J. A. Maharg, M.P., Regina; and Mrs. Brodie, president of the United Farm Women of Ontario.

AWAIT WILSON'S MESSAGE BEFORE TREATY ACTION

WASHINGTON, Jan. 6.—Satisfaction was evidenced by leaders of all senate factions today to await President Wilson's message to the Jackson Day dinner of Democratic leaders Thursday before taking any further action in the German peace treaty situation. The only new developments today in the treaty controversy was the inauguration of discussion between a few Democrats and mild reservation Republicans of modified reservations said to have been prepared by Senator Kendarick, Democrat, Wyoming.

MONTREAL WATER SYSTEM AT NORMAL

MONTREAL, Jan. 5.—At six o'clock tonight matters were once again normal in regard to the water system in this city.

TWO AMERICANS ARE MURDERED BY MEXICANS

WASHINGTON, Jan. 6.—Earl Bowles and H. J. Rooney, Amer*icans employed by the Interna*tional Petroleum company, have been murdered by Mexicans within one mile of Palo Blanco, near Port Lobos, according to private advices received here today from Tampico.

ARRANGING FOR PRESS CONFERENCE

Leading Newspaper Men From Great Britain Are Coming

MONTREAL, Jan. 6. — C. F. Crandall, honorary secretary of the Canadian Press executive in charge of the imperial press conference to be held in Canada next *summer, left Montreal* last night for Ontario and the western provinces, arranging for preliminary organizations committee upon which fall the local responsibility in connection with the proposed trans-continental trip of the delegates to the conference.

It is proposed that the delegates, numbering 100 of the leading editors and publishers of Great Britain and the overseas dominions, will arrive in Halifax during the latter part of July. The sessions of the conference itself will be be held in Ottawa, after which the delegates will be *entertained as guests of the* Canadian Press association on a trip to the coast and back on two special trains. Mr. Crandall will be in Toronto Jan. 7, in Winnipeg Jan. 9 and 10, and Vancouver Jan. 12, visiting Calgary, Edmonton and Regina on the return trip.

BIG SEAPLANE IS DAMAGED

Missing Machine Reported Near Oceanside, Cal.; None Hurt

SAN DIEGO, Jan. 6.—On of the big F-5-L seaplanes used in carrying naval mail and passengers from here to San Pedro was missing for some time today, shortly after it began its flight north with seven men aboard and it was not until several hours later that the big craft was found.

It was reported from North Island tonight that the seaplane had made a forced landing on the beach near Oceanside and had smashed badly, but that none aboard had been injured. This report came from a submarine chaser, one of several which went out to search for the missing aircraft.

WOULD CLOSE PAPER MILLS

Price Brothers Issues Threat as Protest Against Order

TORONTO, Jan. 6.—R. A. Pringle, controller of newsprint paper, in an interview here today referred to the threat of Price Brothers to close thei paper mills because of the control of the Canadian paper produce which was begun during the war under the War Measures act, was still being continued. "This would be most unfortunate," said the controller, "as it would be a serious loss both to ourselves and to the publisher with whom they have contracts. It would also throw a large number of workmen out of employment. I have no indication whether *or not the threat* will be put in force."

Controller Pringle replied to Price Brothers' claim that the contol of paper, now that the war is over, is ultra vires and that the act of 1919 which ratified and confirmed all previous orders in council in connection with the control of newsprint is invalid owing to the fact that the dominion has no jurisdiction in *matters which pertain solely to the* provinces. Such action on the part of the present government, Mr. Pringle said was absolutely within its jurisdiction and was in the public interest. Continuing, Mr. Pringle said. "Price Brothers have absolutely refused to comply with government orders and consequently the minister of customs has placed at their mills officials who will pre*vent the export of paper from Can*ada to the extent that may be necessary to insure to the Canadian press the quota of paper.

ORDER EMPOWERS MINISTER TO BAN EXPORT OF PAPER

Governor Signs Order-in-Council to Control Export

CONTROLLER HAS WIDER POWERS

May Enter Plant and Take Any Paper Requisitioned

OTTAWA, Jan. 6.—An order in council signed today by the governor in council gives the minister of customs power to refuse export licenses to any one seeking to export newsprint paper, the product of a mill which has refused or is refusing to comply with any order of the com*missioner* and controller of newsprint, book paper, etc.

Another order in council signed today provides that when the paper controller shall have ordered any newsprint paper manufacturer to provide newsprint for the use of any newspaper publisher in Canada at prices fixed by the controller or the controller may, by notice in writing, equisition on behalf of his Majesty *any such quantity within the limit* fixed by such order of newsprint paper made or belonging to the said manufacturer, in whose possession it may be found and the controller may enter any building to take possession of newsprint paper requisitioned.

Compensation at the rate which would have been paid by the publisher to the manufacturer had the latter obeyed the order of the paper controller is provided for.

The order also provides that any manufacturer or his manager, agent or employe who fails to comply with any lawful order of the paper controller shall be liabe, under the criminal code, to a penalty of $500 a day for a period not exceeding 10 days during which the paper so ordered to be sold remains unsold or undelivered to the publisher.

FIRST DAY OF SASKATOON POULTRY SHOW SUCCESS

SASKATOON, Jan. 6.—The close of the first day of the Saskatoon poultry show marked the event as the most successful ever held in the city. More than 500 attended to view the 2000 birds on exhibition and hear the address by Prof. R. K. Baker on poultry raising and poultry association work.

ASK SUM TO FIGHT RADICALS

Over 2500 Arrested Are Now Waiting for Deportation

WASHINGTON, Jan. 6.—Determination of the government to carry on to the finish its fight to rid the nation of communist and communist labor party members, more than 2500 of whom *await deportation* proceedings as a result of the recent nation-wide raids, was seen in the request transmitted today by the department of labor to congress for new appropriations aggregating $1,150,000 to be used in the enforcement of laws against radicals and for their eportation.

While members of congress were yet giving the request preliminary consideration from the temporary headquarters here of the Russian soviet bureau, located less than three blocks from the department of justice building, there was issued a written statement by S. Nuorteva, who said he was secretary to Ludwig Martens, self-styled ambassador to the United States from the Russian soviet government, setting forth general charges against the department of justice agents.

These charges were that department agents had "actively participated in the formulation of some of the planks in the communist and communist labor party platforms, which the statements said now form the basis of the persecution of thousands of people. Another charge was that "the chief figures in such celebrated bomb plots were agents of a similar nature.

Prediction was made at the department of justice that the hearings on deportation cases which are scheduled to begin tomorrow in sev*eral cities, will require that much* time in themselves. Additional time then will be required for final review of the cases in Washington.

RATIFICATION MAY BE DELAYED UNTIL MONDAY

FOUND DEAD IN VANCOUVER HOTEL

Alberta Man Discovered in Room With Throat Cut

VANCOUVER, Jan. 6.—A. S. McLaren, formerly of Lougheed, Alta., who was found in his room at a local hotel with his throat cut, and in connection with whose death a *coroner's jury on Monday returned* an open verdict, was stated today by John Jones, of Union street ,to have enlisted in Edmonton early in the war and returned from overseas last May. According to Jones' statement McLaren had had marital troubles and during the summer separated from his family, leaving his wife and two children on his farm at Lougheed and coming to Vancouver to start life over again. Deceased held the delusion that some one was going to shoot him.

JELLICOE PLANS ARE REPORTED

Is Expected to Urge British Fleet in the Pacific

NEW YORK, Jan. 6.—The New York Evening Sun publishes the following dispatch, under Washington date:

"A formidable British fleet in the Pacific and Indian oceans will be recommended by Viscount Jellicoe when he returns to England and reports on his tour of naval investigation of the British dominions, according to authoritative information here today. This fleet will be recommended to consist of eight battleships of the latest types, eight bat*destroyers and about forty* submatle cruisers, ten light cruisers, forty rines, it was said.

"The expense of construction and maintenance of the proposed fleet would be borne in part by the British dominions concerned, and the acceptance of the plan is at their discretion."

VETERANS DEFEND FELLOW COMRADES

Deny Patriotic Fund Is Inducing Returned Soldiers to Loaf

WINNIPEG, Jan. 6.—In the war veterans' circle quite a storm has raged by a statement made by a *member at the sergeant branch of* the G.W.V.A. to the effect that the $40,000,000 being distributed by the federal government to help returned men was encouraging loafing. It was said men who had been working on the farms at winter wages threw up their jobs and came to the city to get in on the patriotic fund grants. Several strong instances of proof were adduced by returned men at the meeting that the $15 a week was drawing in men who are said to have been no good in the army and equally unreliable in civil life. Today the other veteran officers are out with denials of the assertions, one stating that he did not believe more than 1 per cent of the soldiers would be low enough to the alleged crime.

FARMERS OF PRAIRIE AND EASTERN PROVINCES MEET IN CONFERENCE TO DECIDE ON BASIS FOR PART THEY WILL PLAY IN POLITICS OF FUTURE

Will Call Platform New National Policy; Declare Intention of Electing as Many Representatives as Possible to Federal House at Next Elections; Political Activities for the Present Will Be Conducted on the Provincial Basis; Big Convention Lasts Throughout Entire Day

WINNIPEG, Jan. 6.—The all-day conference of representatives of farmers organizations in the prairie provinces and the east, called to complete plans for action in federal politics concluded its business here tonight by deciding that organizations should continue on present lines, the different units being united on the new national policy.

This policy, as set out in the resolution adopted, appeals for support to all classes in the community who believe in the principles it lays down. The conference did not discuss the question of action in provincial political affairs. Neither was the subject of alliance with labor broached further than the call to all parties believing in the ultimate success of the new national policy. The following final resolution embraced the result of the full deliberations:

"Whereas the cause of better government in Canada has been ever a provincial consideration in the work and peparation of the organized farmers movement in all the provinces of the dominion; and

Whereas this cause has been the dominating feature of our work as organized farmers, during the past 12 months; and

Whereas the need of continued ac*tion to bring into effect the reforms* recommended in the farmers platform which has been promulgated by the Canadian council of agriculture, is most urgent, considered from the broadest national point of view; and

Whereas this platform which has been described as a national policy for Canada is based on the principle of the greatest good to the greatest *number of people living in the dom*inion, without regard to race, creed or occupation, and is in no sense a demand for special legislation to benefit the few at the expense of many;

Be it therefore resolved, that we, the members of the Canadian council of agriculture in conference with the accredited delegates of the federal electoral districts of Alberta, Sask*atchewan and Manitoba, and the re*presentatives of the rural districts of Ontario, here assembled in the city of Winnipeg on this sixth day of January 1920 to declare our intention of electing as many representatives as possible to the house of commons at the next general election, who will ndeavor to bring the farmers platform into effect, and to this end to this end invite the support and assistance of all citizens who believe in the principles enunciated in that platform.

Whereas the poltical platform advocated by the organized farmers is in no sense a vocational class platform; and

Whereas it is the hope of those advocating this platform that those of all classes who believe in the principles enunciated in it, will support *candidates at the next federal elec*tions who will have been pledged to its support;

Therefore be it resolved: That this platform shall be known in future as the new national policy.

As in the past, the farmers political movement will be conducted on a provincial basis. his was unanimously decided upon at a convention here today of representatives of all farmers *associations including the Cana*dian council of agriculture.

It was contended by some of the speakers that the farmers movement should be more centalized but it was ultiately conceded that as the present political strength of the movement had developed on the basis organization with the provinces, it would be wise to continue as before for the time being, at any rate. The resolution was as follows:

Whereas political action amongst the organized farmers of the provinces here epesented has been taken in esponse to the demands formulated in rsolutions which were adopted by the provincial associations at their last conventions; and

Whereas whatever political strength that exists at present amonst the oranized farmers has ben developed on the basis within the provinces; and

Whereas for future action it is necessary to preserve intact that machinery and oranization which have already been advised within the provinces.

Therefore be it resolved: that the political activities under the auspices of the oranized farmers movement shall continue for the present to be conducted on the provincial basis, accordin, to any plans which the existin organizations may see fit to adopt."

DR. ELLEN DOUGLAS IS MANITOBA REPRESENTATIVE

WINNIPEG, Jan. 6.—It is announced officially that Dr. M. Ellen Douglas has been appointed by the provincial government to represent Manitoba at a conference of the Canadian souncil of immigration of women for household service, to be held in Ottawa, starting Jan. 13. The chief business to be discussed at the conference will be the determinging of arrangements for the reception of the large number of women immigrants from the British Isles who are expected in the spring and summer. The conference will last three days.

LOSE LARGE SUM IF THEY JOIN THE O.B.U.

WINNIPEG, Jan. 6.—In connection with the meeting of the local street railway employees tomorrow night to decide whether they will link up with the O.B.U. or remain with the *international some of the more* modcerate members are pointing out to their comrades that a move to the O.B.U. means the loss to the motormen and conductors of the sum of $100,000. This represents the insurance the men are entitled to for affiliation with the international and is higher as the men has been in the union the longer. This will affect the opinion and vote of the older members.

SAY SITUATION NOT ALARMING

Seriousness of British Railway Problem is Overestimated

LONDON, Jan. 6.—While the railway situation is delicate, sober opin*ion inclines to the belief that it is* not so critical as the resolutions presented by the branch unions seem to suggest. The many columns of newsprint appearing just now are also more excited than the situation warrants. Delegates will meet in London tomorrow and the meeting will probably last over night.

Even if there is a majority for rejection of the terms of the government it is unlikely that action toward strike will be taken at once. There are indications that the railwaymen are well aware that another strike would have no moral strength behind it. It is notorious, although it may not be openly acknowledged, that the last strike was entered upon with very lukewarm assent from some other big unions. The miners, for instance, are ambitious for bigger things than the railywaymen and will not countenance their own pitch being "queered." The Daily Graphic remarks that after full allowance being made for the rise in prices *railwaymen will be earning, for short*er hours of work, larger real incomes than before the war."

The Manchester Despatch asserts that at several union meetings the resolution for rejection was cut and dried ready for proposition before the men even assembled. As a last resort the executives of the unions could take a ballot of all members which would almost certainly support them in accepting the present terms, not, indeed, as final, but as reasonable, for reinstatement.

Hoover Thinks America Should Keep on Business Basis

SACRAMENTO, Cal., Jan. 6.—Herbert C. Hoover, former food administrator, in a statement made public here today, urged that in no circumstances should further loans be made to any foreign nation out of the treasury of the United States, but that all future commercial relations between Europe and America be confined to originally business processes.

As far as commercial credits were concerned he pointed out that England and France still had on hand *sufficient foreign securities to cover* their needs, while Italy could help herself by demobilizing her army and getting down to a peace time basis. He remarked that there was no ground for hysteria on either side of the Atlantic.

BUDAPEST, Jan. 6.—Gen. ORDERS MISLEG SENT TO JAIL

Radical Admitted Assisting the Communist Party With Big Sum

NEW YORK, Jan. 6.—An order for commitment to jail of Dr. Michael Misleg, treasurer of the Russian radical paper, Novy Mir, on which Trotsky worked before going to soviet Russia, was prepared today by Deputy Attorney General Berger.

Misleg was treasurer of the Russian socialist federation which, he testified, was engaged in spreading bolshevist propaganda throughout the United States by 10,000 members. Bolshevism and socliaism are synonymous and socialism is the ideal government. Misleg told the committee. He admitted dispatching several *thousand dollars in federa*tion checks to the communist party of the United States, but denied the money was "contributed by the federation."

GROCERS MAY QUIT HANDLING OF BREAD

WINNIPEG, Jan. 6.—As a result of a meeting of the retail grocers' section of the retail merchants association held here questionaires will be sent out to the trade in connection with the handling of bread. G. H. Curle, secretary, announced today. The present margin allowed retail grocers on bread is very small and while the cost of the grocer is twice as much as formerly, the margin remains the same. The questionaires will be sent with a view to obtaining opinions as to whether the retail grocers wish to continue handling bread and statements as to the cost of handling and the proportion of profit.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about $2.

You know that pine is used in nearly all prescriptions and remedies for coughs The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex (50 cents worth) in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for $2.50. It is pure, good and very pleasant—children take it eagerly

You can feel this take hold of a cough *or cold in a way that means business.* The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

PYTHIAN LODGES INSTALL OFFICERS

Christmas Tree for the Kiddies; Certificates for Soldiers

Nelson Lodge, No. 25 Knights of Pythias, and the Pythian Sisters held their annual Christmas tree for the children, social evening and installation of officers in Knights of Pythias hall last evening. The events were largely attended and greatly enjoyed by some 200 knights members of their families and their friends.

Festivities commenced at 6 o'clock when the beautifully decorated hall was thrown open to the children, who, to the number of close to 100, revelled at the foot of the two big Christmas trees, which were laden *with gifts for the little ones.* At the conclusion of the Christmas tree the kiddies were dined in the Veterans hall, whither they retired to a glorious feast. Following this they indulged in games at the foot of the Christmas trees, at which they kept happily busy until 8 o'clock in the evening, when the older folk took over the program.

Officers were installed for the ensuing year in both the Knights of Pythias and Pythian Sisters lodges, and both beautiful ceremonies were thrown open to the friends and relatives of members of the lodges.

Following this portion of the ceremony handsome certificates were presented to members of the lodge who had seen servic with th colors during the period of the great war. Of the membership of the Nelson lodge there were 27 names on the honor roll, and two of these paid the *supreme sacrifice, J. Ingram and J.* Thomson. Ten members were present to receive their certificates last night.

The officers of the Pythian Sisters were installed by Past Grand Chief Mrs. D. Laughton, assisted by Mrs. W. Bennett, P.C.C., and Mrs. W. O. Rose, P.C.C. The officers for the ensuing year are: Past chief, Mrs. A. The evening was brought to a close with a musical program, refreshments and dancing. Among those taking part in the musical program were: Miss Dunham, E. H. Evans, Miss A. Lawson, A. Brown, W. Brown, and John Brown.

SENTRY FIRED AT COOK AT LODGE

LONDON, Jan. 6.—Rumors of a fusillade of shots shortly after Sunday midnight in Phoenix Park, Dublin, reported in news dispatches Monday night, are explained by the Press Association today as having been caused by a sentry firing at a soldier cook who was seen scaling a wall.

AFTER SUFFERING A WHOLE YEAR

Mrs. King Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Iola, Kansas.—"I was a constant sufferer from female trouble for about a year. I had pains in back and stomach, in fact all over me, and was all rundown. A friend of mine was cured of the same trouble by Lydia E. Pinkham's Vegetable Compound. I took it and it gave me health and strength and made a new woman of me. I cannot praise your Vegetable Compound too highly, and you may publish my testimonial as it may be the means of helping some other suffering woman."—Mrs. IRENE KING, 105 West Campbell Street, Iola, Kansas.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, ready to bring you health and may save your life.

NEW WELSH MAYOR SENDS GREETINGS

Councillor Peter Wright of Newport Remembers Board of Trade

Peter Wright, known to fame the world over as the seaman's champion, and to Nelson as the brilliant orator who charmed all who heard him last year by his eloquence and sincerity, is now the mayor of Newport, South Wales. The Nelson board of trade has been remembered by a card from the new mayor and mayoress, embellished by a portrait of the dignitary in his robes of office.

It is generally conceded in England that Newport has inaugurated the man who will prove the best *mayor* in its history. In connection with a description of the official attendance at church on mayoral Sunday, the South Wales Argus has the following account of Mr. Wright's career:

"An authority on education, a man of seven languages, a student of economics, a veteran in the evolution of the labor movement, the champion of a better understanding between capital and labor, a patriot in the truest sense of the word, a denunciator of lawlessness, a man with a broad outlook and wide knowledge gained in the world of bitter experience—all these and much besides, is Newport's new mayor, Councillor Peter Wright. It is doubtful if Newport, in its long history, has ever produced a chief magistrate with such a varied knowledge of the world, men and affairs. For nearly half a century—he was born at Grangemouth on the Firth of Forth in 1867—he has *travelled from one end of the world* to the other; he has read all the great writers on philosophy, eugenics, pathology, history, drama—Spencer, Huxley Darwin, Shakespeare, Karl Marx etc., not in the drawing room of comfort, but in the fo'castle. And he *has taken to heart what he read.* He has always been a deep thinker and a prober to the bottom of all things.

"Forty-three years since, the mayor commenced a seafaring life, which he continued until about the year 1891, when he undertook the duties of landsman at the Mount Stuart dry dock, Cardiff. Eight years later he settled at Newport as a contractor in connection with shipping. From that day to this he has given himself up entirely to two things—his daily work and the uplifting of the 'bottom dog.' Always ready to help all who needed assistance, he gave of his best, financially and educationally. He turned to good account his remarkable athletic powers as a champion wrestler, boxer, sprinter, swimmer, jumper, hammer-thrower, in order to povide money for charity. In this way a total sum approaching £3,000 has been raised, and while in Canada recently he lectured in aid of those most dear to his heart—the noble seamen—and realized another huge sum."

After detailing the various offices held in Newport by Mr. Wright, the paper proceds:

"When we hear of his magnificent reception on the American continent, of the eulogies poured on him from premiers, bankers, professors, judges, business men, labor men, etc., we begin to wonder whether his services have been rightly utilized and his efforts fully *appreciated* by those aong whom he has labored for so many years. At the national conference on character education in relation to Canadia citizenship, held at Winnipeg last month, which he attended by special request, he took a leading part in debates with lieutenant-governmors, ministers of state, archbishops, judges, professors, university presidents, college principals, etc., and, judging from the many requests he received to remain in Canada, and from his remarkable receptions, Newport's mayor was the shining light of the conference. In one week-end alone he addressed over 16,000 people, and the Canadian press speak in glowing terms of the value of his services to the dominion against bolshevists, enemy aliens, etc., at a critical period."

AUSTIN AFTER THE MAYORALTY

Red Slate Talked of; See In Split Vote Chance to Rule

Ald. I. A. Austin stated yesterday that he would be a candidate for mayor.

With three others in the field to split the vote he believes that he has a chance of election as the city's chief executive.

Whether he will have a ticket of aldermen is not announced, but there is talk of an "All-Red" slate.

Ald. Austin has been on the city council for a number of years. In the last Dominion election he ran as the Socialist candidate.

ALLIES REFUSE TO DECREASE TROOPS

PARIS, Jan. 6.—An allied note handed to the German delegation late this evening refused to decrease the number of troop effectives destined for the territories in which plebiscites are to be held. The note says that non-participation by the United States in the proposed occupation already has decreased the effectives by one-fourth and Germany's expenses will be reduced accordingly and that, therefore, Germany's request for a lessening in the number of troops is unwarranted.

POISON LIKE UNTO VENOM OF SNAKES

Professor H. Strauss, M. D., of the Royal Charity Hospital, says, "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before *an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there.*"

When your kidneys feel like lumps of *lead, when the back hurts or the urine is* cloudy, full of sediment, or you have rheumatic pains or lumbago, gout, sciatica, obtain at your nearest drug store "Anuric" (anti-uric-acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "Anuric" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as *hot coffee dissolves sugar.*

"Anuric" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins.

Montreal, Que.:—"I *cannot praise* Dr. Pierce's Anuric (anti-uric-acid) enough for what it has done for me. For three months I was under the doctor's care and got no better. I was always complaining of my kidneys. I did not know what to do. I read about Anuric and made up my mind to try it. I have taken two boxes and don't complain any more. I have gained in weight and am still gaining. My appetite is great and sleep has come to me. That is what the Anuric Tablets have done for me. I do truly recommend them to those who are suffering the way I did. The tablets *are mighty good,* though not expensive. Easy to buy, but hard to beat."—T. A. BROWN, 388 Dorchester St. W.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE

Frederick H. Kolle, M. D., Editor of New York Physicians' "Who's Who," says that weak nervous people who want increased weight, strength and nerve-force, shoud take a 5-grain tablet of Bitro-Phosphate just before or during each meal.

This particular Phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well, if you tire easily, do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two week's supply—it costs ony fifty cents a week.

Eat less; chew your food thoroughly, and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing .

ATLANTIC SUGAR DROPS ON MONTREAL MARKET

MONTREAL, Jan. 6.—The bulk of the trading today was again in Atlantic Sugar, in which dealings amounted to 13,295 shares. Fluctuations in the stock with closing price at 82¼ showed a net loss of 1 point. Closing bid was further reduced to 82. The preferred was unchanged at 120.

Price Brothers again furnished the spectacular issue in the price movement, jumping a further 20 points to a new high record for any stock on this market at 350, with a broken lot selling as high as 351, making a 90 point rise since the end of the year. Only 190 shares of the stock changed hands.

Laurentide was the second most active stock and one of the strongest. On buying of some 2000 shares the price advanced to a new high record of 282, but eased at the close to 279. Net change for the day was a gain of 5 points.

Carriage Factories common advanced to a new high at 371. Abitibi was quiet and easier, losing 5 points at 285. Among the stocks to close on the higher side of the market was Cement at 72, a gain of 1point; Glass at 67, a similar gain, and St. Lawrence flour at 136, also a gain of one point.

STERLING EXCHANGE

NEW YORK, Jan. 6.—Sterling exchange 374¾; 60 day bills 376½, for demand.

Canadian dollars 91.75.

SUGAR STOCK GOES DOWN AT TORONTO

TORONTO, Jan. 6.—Atlantic Sugar was again the centre of interest in today's trading on the Toronto exchange, the turnover in the issue being easily the largest of any of the listed stocks, and the price rising to a high record level, the advantage being, however, forfeited before the close. Sugar opened at 84, but in the afternoon there was an abrupt decline to 83, with the closing bid 82.

Although the Brazilian November revenue statement was the best of the year to date, the stock was under fresh pressure, selling off a half point to 50, and closing at the low. Toronto Railway sold a point higher at 45 with that figure bid for more and 50 asked. Winnipeg railway established a new low record at 30 with more on offer at that price and no bids. MacKay was firm, moving up half a point to 76. Dominion Iron held steady around 75. Canada Bread at 29 was off half a point and Canadian General Electric steady at 104.

GRAIN MARKETS

CHICAGO, Jan. 6.—Pronounced strength developed in the corn market today owing to the stormy weather, largely, and to surprising smallness of receipts. The close was firm 1⅞ to 2⅞ net higher with May 136⅝ to 136¾ and July 134¾ to 134⅞. Oats gained ½ to ¾. In provisions there was a set back ranging from 5 cents to 55 cents.

Oats—No. 2 White 87 to 88½; No. 3 White 85½ to 87½; rye No. 2 184½; barley 145 to 158.

MINNEAPOLIS, Jan. 6. — Cash grain—Wheat, No. 1 Dark Northern 325 to 350; No. 2 Dark Northern 320 to 345; No. 3 Dark Northern 310 to 335; No. 1 Northern 315 to to 325; No. 2 Northern 320 to 320; 3 Northern 300 to 330. Flour 25 higher in car load lots, standard flour quoted at 14.50 a barrel, in 98 pound cotton sacks; shipments 82,370 barrels. Barley 125 to 156; Bran 43.00. Flax 480 to 486.

LIQUIDATION ON NEW YORK MART

Reaction Caused by Advice to Reduce Essential Loans

NEW YORK, Jan. 6.—The significant feature of today's stock market was the reaction which set in on publication of the address of Governor Harding of the federal reserve board at Washington to leading bankers of the country advising the reduction of "essential loans."

Liquidation was not disorderly in any instance, but the rapidity with which leading shares fell 2 to 5 points and specialties 3 to almost 10 indicated that the market remained extremely sensitive to monetary conditions. Rails were the only important shares to hold their ground while liquidation was under way, but shippings, steels, motors, oils and their subsidiaries, and high priced specialties, notably American Woolen, yielded, American Woolen being used in another drive against the shorts, with several of the oils, sugars and miscellaneous issues, including Endicott-Johnson.

Sales amounted to 1,250,000 shares. Bonds were heavy in the main, although several investment rails and high grade industrials made material advances. Liberty and internationaul issues were irregular within contracted limits.

Total sales, par value, $17,500,000.

Old U. S. bonds unchanged on call.

LIVESTOCK MARKETS

WINNIPEG, Jan. 6 (Dominion Livestock Branch). — Yesterday's sales were made up of 487 cattle and 791 hogs. Disposition of stock from the yards was as follows: 401 hogs were shipped to Hull, Que., while 33 stockers left the yards for Weldon, Sask. Shipments to southern points were light and consisted only of 63 stockers and 131 feeders for South St. Paul. Local packers secured 165 cattle and 206 hogs, while 20 calves, 38 cattle and 151 hogs were purchased by local butchers. Receipts up to 9 a.m. this morning consisted of 834 cattle, 1814 hogs and 216 sheep. The market opened this morning with buyers bidding strong prices for most grades of cattle, and towards noon there was quite a little activity to the market. The effect of stronger prices to the south was clearly noticeable on this market, with buyers being anxious to operate.

Railway reports show a fairly heavy run of stock to arrive in the yards tonight and early tomorrow morning, 49 cars are reported over the Canadian Pacific and 25 from the Canadian Northern.

Steers, choice 10.50 to 11.25; fair to good 9.50 to 10.25; medium 8.00 to 9.00. Butcher heifers, choice, 9.50 to 10.50; fair to good 7.50 to 9.00. Butcher cows, choice 9.50 to 10.00; fair to good 6.75 to 9.00; medium 6.00 to 6.50; canners and cutters 5.00 to 5.75. Bulls, good, 6.50 to 7.50; common 5.00 to 6.00. Oxen, good, 8.00, medium 6.75 to 7.50. Feeders, choice 9.50 to 10.00; fair to good 8.00 to 9.25. Stockers (steers and heifers), choice 7.00 to 7.50; fair to good 5.75 to 6.50.

Sheep and lambs, good 14.00; good sheep 10.00 to 11.00; common sheep 6.00.

Hogs, selects 17.00; heavies 15.00; lights 14.50 to 15.25; sows 13.00.

TORONTO, Jan. 6.—Cattle receipts 966. Cattle had a good demand today at Monday's advance. No heavy cattle were sold, but a few extra choice butchers sold from 14.00 to 15.00 per cwt., with good heavyweight butchers selling at 12.00 to 13.00 per cwt., while choice cows and bulls sold at 11.00 to 12.25; canners trade steady with stockers and feeders quite. Calves, receipts 110, market steady with choice at 19.00 to 21.00, good calves 17.00 to 19.00 and rough at 8.00 to 11.00. Milch cows choice 12.50 to 17.50; springers, choice 100 to 150.

Sheep receipts 362, lambs and sheep trade was featureless with top lambs selling at 18.25.

Hog receipts 1440, market was unsettled, a few selling at yesterday's prices, but bulk were unsold at the close of the market. Packers bid 75 cents lower, fed and watered basis; selects 18.50; lights 1650; heavy 17.30; sows 13.50 to 15.50.

MONTREAL, Jan. 6.—Cattle receipts 137, with so few cattle on sale prices were naturally firm but there was no material change in the prices. Butcher steers medium 9.00 to 11.00. Butcher heifers medium 9.00 to 10.00; butcher cows medium 3.50 to 6.80; butcher bulls common 6.00 to 7.00. Calf receipts 94, no change in prices, good veals 14.00 to 17.00. Sheep receipts 295. There seems to be a little weaker tone in the market for lambs. Ewes 8.00 to 10.00; lambs, good, 16.00 to 16.50.

Hog receipts 400. Hogs remainded at 20.00 for selects for the local shop trade. Off car weights, selects 19.50 to 20.00; lights 18.00 to 20.00; sows 15.50 to 16.00.

YEAR'S RECEIPTS AT TRAIL SMELTER ARE HUGE FIGURE

Total Tonnage Over 320,000; Half of Slocan Output Is of Concentrates; East Kootenay Leads in Ore Volume, With Sullivan at Head of List; Rossland Next

With receipts of ore and concentrates at the Trail smelter for the last ten days of December amounting to 6956 tons of ore and 861 tons of concentrates, or 7817 tons of smelter feed, the receipts fo rthis plant of the Consolidated Mining & Smelting company for 1919 are boosted to 308,437 tons in ore, and 12,041 tons in concentrates, or a total of 320,478 tons of smelter feed for the 12 months. This is about the same as for 1918.

Using these additional figures, the production table for the Kootenay metalliferous mines for 1919 is now as follows:

	Ore	Production	
To Trail smelter..	135	308,437	12,041
To Granby smelter	3	156,821	.....
Exported	19	3,143	13,260
Total	157	468,401	25,301

If the 25,000-odd tons of concentrates were accounted for in terms of raw ore, the actual primary ore production for the Kootenay Boundary would be shown to be far in excess of half a million tons.

The following revised table gives an analysis of the year's receipts at the Trail smelter, by districts, and distinguishing between ore and concentrates:

Nelson—	Mines	Ore	Con.
Arrow Lakes ..	13	1,879	206
Rossland	5	107,495	..
Bound., Si'kameen	22	23,437	.....
Slocan-Ainsworth			
Lardeau	59	8,513	8,786
East Kootenay ...	12	149,896	.....
Other districts ...	6	377	2,789
Yukon	1	37	5
Manitoba	1	8,401	.....
Washington	15	8,368	255
Idaho	1	34	.....
Totals	135	308,437	12,041

The Last Receipts

In the ore statement for the last 10 days of December, one new shipper appears, the Lincoln, at Blaylock in the Slocan. The Sullivan tonnage, of over 2,000 tons, for the first time since early in September includes a proportion of lead ore. The following is the statement of receipts for the 10-day period:

Emma, Coltern	1,169
Josie, Rossland	597
Le Rose, Alice Arm	22
Lincoln, Blaylock	89
Molly Gibson, Kitto	38
Millie Mack, Burton	23
North Star, Kimberley	292

Guarded Reference to Discovery of Potash Starts People Talking

VICTORIA, Jan. 6.—When the premier of the province made guarded reference in a speech at New Westminster several weeks ago to the alleged presence of large deposits of potash on the west coast of Vancouver Island he was not to suppose that a somewhat optimistically colorful reproduction of his remarks by a Vancouver newspaper would send the apparently grand tidings round the world.

Information has now reached the department of mines indicating that the interest that was manifested in the premier's statement by the people of the Australian commonwealth. Enterprising salesmen, not fully informed, it would appear, upon the precise origin of the originial statement or the geographical location of the "find," have written from New South Wales to some friends in New Haven, Conn., asking them to interest themselves to the extent of placing him in communication with responsible persons on this continent to the end that he might be successful in obtaining the agency for the "newly discovered" potash in the antipodes.

Inflammatory Rheumatism Cured by B.B.B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year with rheumatism, and who has tried remedy after remedy in the hope of relief, and without success should not give up hope.

Burdock Blood Bitters, by invigorating the digestive organs and eliminating the uric acid from the system, will give prompt and permanent relief

Mrs. D. Berry, Purlbrook, Ont., writes:—"I feel it my duty to let you know of the great benefit my husband derived from using your Burdock Blood Bitters. He had been suffering for the past two years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so and after taking five bottles he felt like a new man and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over 40 years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

HER CASE SEEMED HOPELESS

But "Fruit-a-tives" Brought Health and Strength

29 St. Rose St., Montreal.

"I am writing you to tell you that *I owe my life to "Fruit-a-tives"*. This medicine relieved me when I had given up hope of ever being well.

I was a terrible sufferer from *Dyspepsia*—had suffered for years; and nothing I took did me any good.

I read about "Fruit-a-tives" and tried them. After taking a few boxes, *of this wonderful medicine made from fruit juices*, I am now entirely well"

THIS IS LEAP YEAR

The display of calendars and almanacs in stationery stores brings to mind the fact that 1920 is leap year—that year of an extra day when it is right and proper that maidens woo and not be wooed. Nobody knows how this custom originated, but the fact that for well over 600 years, since the time when an ancient Scottish law ordained that "ilk mayden ladye of bothe high and lowe estait shall hae liberte to bespeke ye man she likes," maidens have taken advantage of the old custom, and with varying success. The extra day produced by February this year—the 29th—will fall on a Sunday.

The social season of 1920 will close fairly early for Ash Wednesday comes on February 18. Easter will be correspondingly early—on April 4, Good Friday coming on April 2.

Those addicted to week-end jaunts will be pleased to learn that May 24 falls on a Monday, while the King's birthday, a school and bank holiday, will be on a Thursday. July 1, Dominion Day, will also be on Thursday. Labor Day, the holiday following which the public schools usually open for the fall term, will be observed on Sept. 6.

Nobody knows when Thanksgiving Day will be, for the date of this occasion is determined in September by proclamation of the governor-general-in-council. Should the last few years be taken as a precedent, it will be a Monday in mid-October. Next Christmas will be on Saturday.

Further information yielded by the almanac shows that several eclipses, both of the sun and the moon, will take place in 1920. Two of these will be interesting to Canadians. Those phenomena will be a total eclipse of the moon on Oct. 27, and a partial eclipse of the sun on Nov. 10.

THE DEATH OF SIR WILLIAM OSLER

More perhaps than of any other of the sons of Canada can it be said that Sir William Osler belonged to the world. In the science of medicine, which is devoted to the cause of humanity at large, and of which the catholic spirit was not better exemplified by any practitioner than by him, Sir William stood preeminent. As the grand discoveries of medical science have leaped over international bounds and spread their benefits wherever suffering mankind was to be relieved, so Sir William Osler's activities, the Toronto to Mail points out, have not been confined to a single nation. The brilliance of his life-work and his world-wide fame shed a lustre upon this Dominion, in which he was born and from whose medical schools he passed to the practice of his profession. The United States, in which his great powers were unfolded, especially by his work as professor of the principles and practice of medicine at the Johns Hopkins Medical School, feels as much pride in him and affection for him as does his native land. He went from Johns Hopkins University to Oxford, where he was appointed regius professor of medicine. There he went on adding to his reputation as a medical authority and a surgeon, and winning golden opinions as a noble-minded humanits. At every seat of learning in which the study of medicine is carried on his death will be lamented. At most of those institutions his works are read and taught. Sir William Osler was not only a great man, but a man well beloved by his co-workers and acquaintances. His death is a loss to the world, which his splendid abilities so well served and adorned.

BRITAIN AS A BUILDER OF WORLD RAILROADS

When the Germans planned the Berlin-to-Bagdad railway, which was intended to enable them to dominate the Near East, they never imagined that on its completion it would prove a link in a chain that was to bind together their enemies. But that is exacly what the allies are planning.

At present the fast mail route from London to India is by way of Calais, Brindisi, the Suez canal and the Red sea. This route is to be shortened by the construction of a tunnel connecting France and England, and a traveller will not leave the train until he steps out to take the steamship at the Italian port.

The next step, says the Detroit Free Press will be the construction of a line running eastward from Italy, through Jugo-Slavia and connecting with the Bagdad railway at Nish. his will link up five of the Allies, facilitate their commerce in time of peace and enable them in time of peace to switch their troops from one end of the semi-circle to the other as needed.

But the system will by no means end in Serbia. The railroad is already completed into Turkey-in-Asia crossing at Constantinople. One fork runs through Palestine and into the heart of Arabia. It is completed as far as Medina and partially on to Mecca. A short link through the desert would connect it with the Egyptian railways, and when the Cape-to- Cairo road is completed it will be possible to ride from London to Capetown.

It is the other fork of the line, that to Bagdad, that is the most important, both commercially and strategically. It will be continued to Kowheit, on the Persian gulf, cutting short the se avoyage to India alternative route to the Suez canal very materially. It will provide an and a much speedier one. In time it may eliminate the other, as the latter did the Cape route.

Kowheit seems the natural terminal of the reailway, as east if it lies Persia, which does not own decent roads, much less railroads. But that country is now under the tutelage of Great Britain, and the latter will undoubtedly see to it that railmay eliminate the other, as the latBagdad railway wth the Indian system, which extends through Burmah to the Indian ocean. A short line through French Indo-China would brig the traveller to the China sea.

Nothing but death immuneth a man from a second exposure and a bad run, for his heart like unto a fortress, is weakened by every arrow from Cupid's machine-gun.

ON BEING DISAPPOINTED IN LOVE.

1. Verily, Verily I say unto you, my Son, to succeed in Love is not always success, neither doth defeat always spell disaster, for know ye, that usage hath made of Love a thing of chance and the Son of man knoweth not how it is going to work, nor on what it is going to light; and therein lieth the secret, which leads either to a 10 caret solid gold Heaven of exalted bliss, or to a tarnished brass mounted fraud, on a down grade greased road with Hell the terminal.

2. For I say unto you, my Son, neither science, theory nor theology hath determined the exact dosage by which Love is at all times suitable, safe and sane for human consumption; for as no two persons are afflicted with enther chicken-pox or itch, with the same violence, so no two persons are affected by Love with the same vehemence; for the Love virus varies in strength and action, according to the method of exposure, the time of year and the climate; and man varieth in resistance and susceptibility, according to his age, occupation and how many previous attacks he hath had; and farthermore, like the Flu, nothing but death immuneth a man from a second exposure and a bad run, for his heart like unto a fortress, is weakened by every arrow from Cupid's machine-gun.

3. Therefore, my Son, if the time is spring and thou art 50, beware ye of all pink and white protoplasms, that quiver with life and look like a peach and have a heart like its pit, for they have neither a soul nor a place to put one; they measure a man's love by the number of his auto cylinders, and their demands are more costly than a Wall St. campaign contribution; and when a man's finances fails to meet their requirements, their love the way of the spark plug and leaveth him naught of Love, but a faint hope that history will repeat itself.

4. Beware ye also, my Son, of that kind of Love which begineth like a cyclone and flattens out like a dying Welsh Rabbit; for it is likened unto a spring freshet which carries all the debris which lines the shore and can neither be staved in its channel nor directed in its course; and it becometh as surfeiting as too much sugar in thy coffee, when Mr. Hoover isn't looking, and as nauseating as a he-flirt who hath lost his skill but not the inclination.

5. Farthermore, I say my Son, get thou not an overexposure, for men have made the romantic finish and angle worms have eaten them from an unreciprocated over dose of Love; for no worser ills to face there are, than to be unable to sponge her likeness from thy slate, even if she hath used thee for the tail of her kite, eloped with another and left thee panting and pining by the wayside.

6. But moreover, I adjure thee, my Son, avoid thou not exposure, and refuse thou not to be staked to a good thing, for around the little bug of Love, is hinged all thy gladness, inspiration, hope and happiness, past, present and future; and if thou eludeth its sting, thou shalt be more lonely than a spinster from whom all the sparks hath flown; and thou shalt die disappointed of Love and never know, whether all thou hast missed, was because thou hadst a fiber too few, or because thou hadst a fiber too many.

Ah-man Oh-Woman.

TOLD IN RHYME

CANADA.

O, land of the maple, fir and pine,
O, land of the boundless plain;
Four thousand miles thy border line
Extends from main to main.

Free as thy north winds' restless wings,
Thy sturdy children roam,
And build with British love of right
The true Canadian home.

Thy mother's beauties shine in thee;
That mistress of the world,
Whose fleet afar on every sea,
The British flag unfurled.

And said that right and pease shall reign,
Where every billow curls,
And blessed thy heart, O, Canada,
The fairest of her girls.

From out thy mighty mountain chains,
Thy waters strong and cold,
The victory for thy sons remains
To win thy wealth of gold.
Reclaim the beauteous wilderness
And till the fruitful plain,
Where snow and sunshine give the world
A million miles of grain.

Thy slaves shall be the iron and steam,
The lightning at thy will,
Shall flash from many a mountain stream
Thy mandate to fulfil.
Thy marshalled hosts, O, Canada,
The horse, the sheep, the cow,
Thy sons in manhood true shall change
The cannon for the plow.

We love, O Canada, thy flag,
Wher'er we Britons roam,
But never this nor other rag
Shall dearer be than home.
While liberty and truth and right
She still declares shall reign,
Our fathers' god to lead the way
She ever will remain.

TOO ELOQUENT

It was the young barrister's chance The court had appointed him to defend the prisoner, who was charged with theft. And he proceeded to make the most of it. After his impassioned appeal on behalf of his helpless client many spectators were sobbing, while even the jurymen were furtively using their handkerchiefs. Then the prisoner bestirred himself, turning to the warder with the question: "Who's the bloke wot's been talking?" "That's your counsel," replied the official gruffly. "He's been pleading for you." "Ain't 'e a dismal chap?" commented the prisoner.

CLEANING LONDON'S AIR

Unsuspecting Londoners would probably be very uncomfortable if they knew that the Atmosphere Pollution Research department recently discovered about their city: that each cubic inch of air in the vicinity of London contains six million particles of dust. Pure mountain air contains only thirty thousand such particles to the inch.

Germs, too, are so plentiful that it is estimated a man putting in a ten-hour day in the city inhales some thirty-seven million microbes of all kinds.

It has been put up to the Atmosphere Pollution Research department to find a remedy.

INDIA RAISES MOST CATTLE

Contrary to popular opinion, the United States is not the world's greatest cattle country. India has one hundred million more than America, though America is second, and there are twenty-nine countries that have more than two millions each.

In the last thirty-three years the Guernseys led by far all other breeds in numbers of pure-bred cattle imported into this country, and of the five breeds leading the importations four were distinctly dairy types.

More than 8750 Guernsey cattle were imported. Jerseys ranked second in number ,with Durhams ,including Shorthorns, third; Holsteins fourth, and Ayrshires fifth. The volume of pure-bred cattle importations has been extremely variable.

HOUSES AND MONUMENTS SHATTERED BY TRAFFIC

Paris is feeling the effect of the immensely heavy motor lorries that, during hostilities, traversed her boulevards and streets. There was nothing to be said about it while the war lasted, and no one complained; but now the matter will have to be given quite serious consideration. If Parisians are not to have Paris tumbling about their ears. At present the roads are in ruts and holes, reduced to such condition not only by unavoidable neglect but by those heavy army lorries which go by at great speed at every hour of the day or night. Besides the roads the houses are effected. Paris was motly built before motors were thought of, and there are very evident signs that Paris houses, as well as her palaces and monuments, cannot endure such strenuous conditions indefinitely. Already the statuary which ornamented the river facade of the Louvre has been shattered by the vibration of traffice on the quays.

Iron Will

That great strength of mind and body, that exhaustless energy, that IRON WILL that make a famous merchant out of a humble clerk, a millionaire out of a penniless immigrant, a Lincoln out of a woodchopper—often come from red blood—rich in iron.

"Do you lack power of decision, energy, and stamina? Are your ambitions greater than your strength? You need not be discouraged," says Dr. James Francis Sullivan, formerly of Bellevue Hospital (Out-door Dept.), New York, and Westchester County Hospital. "By feeding the blood pure organic iron—Nuxated Iron—many a weak, run-down, discouraged man has changed to a red-blooded American, full of force and energy that win success."

Nuxated Iron is used and endorsed by former United States Senators and Members of Congress, and by such world-known men as Paderewski, Premier of Poland. It often increases strength and endurance in two weeks' time.

SILVERTON ENJOYS A WEEK OF FESTIVITIES

SILVERTON, Jan. 6. — Christmas week was practically a series of festivities. Miss Dorothy Hunter entertained a number of her friends at an afternoon party and all had a real good time. Miss Margery Emerson invited a host of her friends to a most enjoyable evening, and the home of Mrs. R. Hambley was the scene of a New Year's frolic when her pianoforte pupils gathered to enjoy themselves.

A New Years party was held at the home of Mrs. H. J. Emerson on Saturday evening. A game of "Pit" was the first order of amusement, the prize winners being Mrs. E. A. Walton, first lady and Mrs. A. S. Macaulay second, J. Ironside first gentleman and R. Hilton second. Music was supplied by Mrs. Macauley, J. W. M Tinling, and W. Mills, and the songs by Miss Watts, Mrs. Hilton, Mr. Walton and Mr. Macaulay were very much enjoyed. Dancing followed, and the happy crowd broke up at 1 o'clock.

BOARD UNDECIDED ON PROFITS OF CLOTHIERS

OTTAWA, Jan. 6.—No decision was reached by the board of commerce today in regard to an order fixing the profits of clothiers at 26 per cent on suits costing less than $25 and 33 1-3 per cent on suits costing over that amount.

The board on the suggestion of their counsel adjourned until tomorrow to permit of the examination of figures submitted by Ottawa merchants.

BILINGUAL TROUBLE IS SETTLED AT OTTAWA

OTTAWA, Jan. 6.—The bilingual trouble which for 17 years has practically disrupted the separate school system of the city, and which has faced the schools with dangerous bankruptcy is now to all intents and purposes at an end as far as the English supporters of the school is concerned. In the future the administration of the English speaking schools will be entirely in the hands of the English speaking trustees, who now number five, with Rev. Father Cornell at their head.

All the striking teachers are to return to work tomorrow.

THREE HUNDRED PRINCESS PATS REACH LONDON

LONDON, Jan. 6.—Three hundred strong, the famous Princess Pats, led by Col. Willets, reached the city at 2:30 this afternoon and marched to Wolsely Barracks which will be there permanent home.

The famous regiment was welcomed by thousands of citizens along the line of march. Gen. Panet, D.S.O., and his staff, took the salute at one point of the march from the depot to Carling Heights.

PROVIDENCE, R.I., Jan. 6.—The federal women suffrage amendment was ratified by the legislature today. The ratification resolution passed the house by a vote of 89 to 3 and a few minutes later was adopted by the senate with one dissenting vote.

TONIGHT! YES! YOU MUST!

You Can't Stay Bilious and Constipated. Your Liver and Bowels Need "Cascarets"—No Gripe!

Turn the rascals out—the headache, biliousness, indigestion, colds, the sour stomach and misery-making gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascaret's cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

Cascarets tonight straighten you out by morning. They work while you sleep.

SMOKING BY WOMEN NOT IMMORAL DECIDES JUDGE

NEW YORK, Jan. 6.—Smoking of cigarettes by women was judicially decreed today as not immoral. The decision was made by Supreme Court Judge Mullan in a separation suit in which counsel for the husband tried to show that cigarettes had been found in the wife's dresser drawer and that this constituted evidence of "bad character." "It is not immoral for women to smoke cigarettes," declared the judge. "Some of the best women in the country and in the world, smoke cigarettes. It would not make any difference if she had a thousand packages of cigarettes there. This is not Hickville, out in the centre of the farming country."

TO HAVE PERFECT SKIN THROUGHOUT THE WINTER

These days the face and hands need special care and attention. Strong winds, quick changes of temperature from indoors to outdoors, are severe on the skin. Their despoiling effects are best overcome by the application of pure mercolized wax. This keeps skin and pores in a cleanly condition, the complexion beautifully white and spotless. Chapped, reddened, blotchy and roughened cuticle are actually absorbed by it.

One ounce of mercolized wax, obtained at any drug store, is sufficient to completely renovate a weather-beaten complexion. It is used like cold cream, allowed to remain on over night, and washed off in the morning.

DON'T PAMPER YOUR STOMACH

Fear of Dyspepsia Robs the Entire System of Necessary Nutriment. Eat a Diversified Meal and With Stuart's Dyspepsia Tab. lets You Will Avoid the Distress of Indigestion

Just because the stomach sours with gassiness, heartburn, water brash and such distresses after eating, is not a good reason for depriving the system of nourishment.

Instead of indigestible and innutritious bran and skim milk try the better plan of eating what you like and follow your meals with Stuart's Dyspepsia Tablets. They digest food, they assist the saomach to secrete juices that keep the stomach sweet, active and with the alkaline effect, just as when the stomach is in perfect health. Nor is it necessary to discriminate. You may eat freely of onions, sausage, mince pie and baked beans, or other dishes, such as the average dyspeptic views with *horror, and suffer no distress* if you follow with Stuart's Dyspepsia Tablets. There is thus no need to fear any kind of food at any time or place, for with these tablets you may prevent those distresses that formerly made you pamper your stomach as if it were a tender infant. You can get Stuart's Dyspepsia Tablets in any drug store at 50 cents a box.

NELSON FAMILY ARE BEREAVED

Father of Robert, Harry and Edward Bishop Dies in East

Father of four sons all of whom live, or have lived, in Nelson, Robert Bishop, a pioneer of the Niagara district, died at his home in St. Catharines on Christmas Eve at the age of 75 years. Robert, Archie, Harry and Edward Bishop are the sons, all but Archie being still residents of this city.

The St. Catharines Standard gives the following account of the late Mr. Bishop's demise and career:

"For the many friends of Robert Bishop, one of the town's oldest and most highly esteemed citizens, the Christmas festival was saddened by the news of his death, which occurred on Christmas Eve after an illness extending over several months, and sincere sympathy is felt everywhere for his devoted wife, who has cared for him so assiduously.

"The deceased, who was the last survivor of a large family, was born in Niagara about 75 years ago, and has lived here nearly all his long life. Devoted to the town and its interests always, he served a number of times as a councillor, and was always an ardent advocate of any measure that was likely to improve conditions or advance the interests of the town and its citizens. The deceased was an active member of the A.O.U.W. and of the Canadian Order of Home Circles, in both of which he held the principal offices. He was a successful business man for many years, also an ardent sportsman. He is survived by is widow and a grown up family, including four sons, Robert, Jr., Harry, Edward all of Nelson, B. C.; and Archie, of Niagara; and by one daughter, Mrs. W. H. Ball, also of Niagara; also by a number of grand children, including Glenn and Winston Bishop, sons of his eldest so, Charles, who died some years ago; Albert Bishop, and Goring Ball, all of this place.

CALGARY, Jan. 5.—A convention of aviators from Western Canada will be held here January 17, arrangements for which were made at a meeting of the local air club here tonight.

HEART SO BAD

WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I *decided to resort to proprietary* medicines and took several different kinds, but seemed to receive but little benefit from them. On day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

IS UNABLE TO DO A BIT OF WORK

All Run Down But Tanlac Makes Him Well and Strong Again

"No, Sir, I didn't believe it was possible but Tanlac is helping my wife just about as much as it did me," said J. J. Walker, who lives at Coppice Hall, Alberta, twenty miles east of Edmonton, a few days ago.

Continuing, Mr. Walker said: "When I got up from the 'flu' I was left a perfect wreck and I was so weak that I could hardly walk. I had little or no appetite and what I ate disagreed with me, even if it was only a few bites, and sometimes it would make me deathly sick at my stomach. I was so nervous and restless that when I went to bed I could not close my eyes till in the early hours of the morning, and you can imagine how little sleep I was able to get from then on till daylight. I could hardly drag myself out of bed in the mornings and during the day I wasn't able to do any kind of work at all.

"When I saw what Tanlac did for my brother-in-law I commenced taking it myself and I want tell you it set me straight after my troubles. My appetite came right back and now I can hardly get enough to eat and everything agrees with me and I am not troubled one bit with indigestion. My nerves are so steady that I can sleep all night long, and in the mornings I am ready for as big a day's work as any man. I have gained from ten to fifteen pounds in weight, and I am stronger than I was before I had the 'flu.' My wife was in a weakened, rundown condition and all the time she went about looking wornout and draggy. Her blood didn't give her any strength and she was losing weight fast. Of course the natural thing to do was give her Tanlac, and I did, and sir, it is proving just as good in her case as it did in mine. She has taken only two bottles of Tanlac but already she is feeling better and looking better. Tanlac has certainly been a blessing to my family and my wife joins me in recommending it to other people."

Tanlac is sold in Nelson by Canada Drug & Book Store, and by the leading druggist in every town.

After a Hard Day's Work

rub the tired muscles with a few drops of the soothing, refreshing, antiseptic liniment, Absorbine, Jr. You will find it pleasant and convenient to use and remarkably efficacious. This liniment invigorates jaded muscles, limbers the joints and prevents second day soreness and lameness after a strenuous, tiresome day of sport or work.

America's best athletes and trainers use Absorbine, Jr., to relieve strains and wrenches and also as a rub down before vigorous exercise to prevent such conditions.

Absorbine, Jr., is concentrated and therefore economical—only a few drops are required at an application. One ounce Absorbine, Jr., to a quart of water or witch hazel makes an invigorating rubdown and general purpose liniment.

$1.25 a bottle at druggists or postpaid. Send 10c for liberal trial bottle or procure regular size from your druggist today.

Civic Elections

At the request of a large number of electors I have agreed to offer myself as a candidate for mayor of Nelson in 1920.

As a large property owner in Nelson I am deeply interested in seeing that the city's business is efficiently and progressively administered so that the best possible results may be obtained from the funds expended.

The coming year will be one of great importance to the citizens. Many vital matters must be dealt with and upon the manner in which they are handled will depend to a large extent the future growth of Nelson and the stability of its finances.

The waterworks main pipeline must be replaced and an adequate supply of water assured. If elected I will take immediate steps to secure all the necessary data and to submit a money bylaw to the people. If this is approved it will be my endeavor to assure that the construction work is carried out with a view solely to efficiency and economy.

Street improvements and sidewalk construction are necessary. I believe that this work should be carried out by modern methods and with a view to permancy and that if this policy is adopted we can secure lasting improvements from expenditure no greater than that which has been made in the past under existing methods.

I believe that every legitimate inducement should be offered to new industries to establish in the city.

I expect before election day to have an opportunity to go further into these and other matters of civic interest and to place them in detail before the electors at a public meeting.

Mayoralty Election 1920

Do you want a business administration? I do—that is why, and the only reason why, I am running for mayor.

NOTE DEPARTMENT RESULTS

1. Street Railway—Heavy loss.
2. Gar Plant—Heavy loss.
3. Scavenger Department—Heavy loss.
4. Electric Plant—Just an even break.
5. Street Work—Heavy loss, owing to lack of supervision.
6. Water Department—Carrying the losses, and now in a serious condition.

CUPID AND STORK HAVE BUSY YEAR

Births in Nelson Outnumber Deaths by Three to One

Dan Cupid worked hard last year in Nelson, but not so hard as his collegue the stork did in an effort to outdo the grim reaper by a proportion of three to one.

Although the stork did not quite attain his objective yet he and Dan are to be recommended for their splendid efforts to put Nelson on the map as the most desirable place in the world to live from a health standpoint.

Cupid's stock was soaring in August and September, when 25 of the 68 couples committing matrimony took their plunge but there were no quotations in March, the little archer scoring only a goose-egg.

In eight of the 12 months the births ran into two figures, and in only one month, June, did the deaths outnumber the birth. The healthiest month was October, which recorded no deaths, 13 births, and 7 marriages.

The following figures are for the year, by months:

	Births	Deaths	M'r'ges
January	15	7	6
February	10	5	2
March	13	3	0
April	12	2	4
May	6	5	4
June	4	7	6
July	6	5	13
August	14	2	5
September	8	2	12
October	13	0	7
November	10	3	4
December	16	5	5
Totals	127	46	68

"Jazzed Honeymoon"

To the Citizens of Nelson:

At the request of a large number of citizens I have decided to offer myself as a candidate for the Mayoralty for the coming year for the City of Nelson.

I appeal for your support on my record for last year, and on my standing as a progressive business man, whose confidence in Nelson—displayed in my enlarged business—proves that I am willing to practise what I preach and to get results in Civic affairs also.

If elected, I will place a By-Law before the people to sell Debentures to provide funds necessary to improve our Water System under a competent engineer. All monies spent will be for permanent improvements. I will pledge myself to continue my best efforts towards seeing that the Law is enforced, and will not lend myself as a tool to be used by any clique.
