VOL. 18 NELSON, B. C., FRIDAY MORNING, FEBRUARY 27, 1920 NO. 271

TEXT OF AGREEMENT REGARDING JUGO-SLAVS GIVEN TO PUBLIC WILSON ADHERES TO DECISION

Provisions Afford Italy Full Satisfaction for Ambitions; Would be Given Absolute Strategic Control of the Adriatic; City of Zara Gets Full Sovereignty Under League; Free State of Fiume With Full Autonomy for the City

WASHINGTON, Feb. 26.—President Wilson, in his reply o the British and French premiers on the Adriatic question, dheres to his previous decision that unless the terms of settle-ent are returned to the provisions of the agreement of Dec. "he must take under serious consideration" the withdrawal f the treaty of Versailles and the French alliance from the enate.

The response of the premiers was despatched from Lon-on today but has not yet been received tonight in Wash-ington.

With the exception of this note the exchange on the subject, cluding the December agreement and subsequent agreement ommunicated to Jugo-Slavia last month by British and French remiers, was made public today by e state department. The joint reement of Dec. 9, subscribed to by rance, Great Britain and the United tates, providing in substance the llowing:

Austria was to have a frontier hich while "widely overlapping" e recognized ethnical line be-een Italy and Jugo-Slavia, would ave given to Italy more than 300,000 go-Slavs, and further extended stwart to give Italy territory in e region of Albania, also including go-Slavia.

A buffer state between the Italian rritory is Istria and the Serb-oat-Sloven kingdom, containing me 230,000 Jugo-Slavs to Italians s to be placed under the league nations. The so-called assigned gion was to be permanently de-litarized. There was to be a free te of Fiume under control and future delimitation by the league th full autonomy for the city of ume.

The city of Zara was to have com-te sovereignty under the league d continue control of its own fa-rs. The islands of the Pelgosa oup, Lisa and the small islands st of it, Lussin and Unie, were to ss to Italy on demilitarized status th local autonomy for the Slavs Lissa. Italy was to have a man-te over the independent state of bania, under the league. Alban-frontiers north and east were be those fixed by the London con-ence but the south was left for gotiation. France was to have cer-n territory, the lines for some of ich were to be left for negotiation. e city of Valona and much hinter-d strictly necessary to defense d development were granted to ly in full sovereignty. These pro-ions were declared in the memor-dum as affording to Italy full tisfaction for her historic national pirations," and as giving her "ab-ute strategic control of the riatic." The conference declared y had carried "their concern for lian sovereignty to the point of atralizing for Dalmatian coast and jacent waters from the northern rder of the Regusa region to ume."

Italy, however, has asked for control the diplomatic relations of Zara, association of the city of Fiume m the free state of Fiume; con-tion of the city of Fiume to aria by a corridor and annexa-n to Italy as a counter to every sideration of geographic and terri-ial convenience explaining their sons for arriving at the previous cision.

REPAREDNESS IS CURRIE'S METHOD

OTTAWA, Feb. 26.—Those people o were opposed to the mainten-e of an efficient militia force in nada were either Bolshevitically lined or they belonged to another ss which had profited financially of the war, declared Lieut. Gen. Arthur Currie, inspector general Canadian forces, in the course of address before the Canadian illery association at the annual eting of the organization today.

One of the best ways of prevent-attacks, contended Sir Arthur rie, was by being completely pre-ed for all eventualties and he ongly advocated the continuance Canada's militia. The inspector eral said he was pleased with the rganization scheme for the Can-n militia.

ORMER NELSON OFFICIAL NAMED

ALGARY, Feb. 26.—Robert A. wir, city electrical engineer, will recommended by the city com-sioners to receive the appoint-t of superintendent of the street way to take the place of Thomas McCauley, who resigned from that recently. It is understood, ever, that part of the new scheme men that Mr Brown will oc-y the dual position of city el-ical engineer, and superintend-of the street railway. Mr. wir formerly held positions in son, B.C., Winnipeg and Montreal.

FIRE WIPES OUT NOVA SCOTIA BANK BLOCK; LOSS $160,000

SYDNEY, N.S., Feb. 26.—Fanned by a 40 mile an hour gale, with the temperature registering around zero, fire this afternoon completely destroyed the Bank of Nova Scotia building block, causing losses estimated tonight at $160,000. The blaze was one of the worst in many years, and the Bank of Nova Scotia, Oak clothing establishment, the legal offices of A. J. Dunn K.C., and Gillies and Hill and the magnificent home of the Sydney Council, Knights of Columbus was totally destroyed.

ASK GRANT FOR DAIRY SCHOOL

Alberta Convention Closes; Want Buttermakers and and Dairymen to Train

EDMONTON, Feb. 26.—The fifteenth annual convention of the Alberta Dairymen's association was concluded on Thursday afternoon. At the final session a number of resolutions were passed and officers for the year were elected.

Among the resolutions was one regarding the formation of a dairy school in Alberta and was to the effect that the convention was heartily in favor of a grant being made by the Alberta provincial government to be placed at the disposal of the University of Alberta for the purpose of increasing and maintaining better educational facilities for the training of expert butter makers and dairymen than the university is now able to maintain.

Two resolutions were passed asking the railway companies to maintain better facilities for the handling of produce and to put on refrigerator cars on all lines in Alberta. Another resolution was passed asking the councils of the cities of Alberta to adopt the pasteurization of milk as a preventive of disease and to make the milk more suitable for consumption. It has been found by tests conducted by the department that when milk is heated to from 120 to 140 degrees that practically all disease forming germs are killed.

D. Morkerburg, M.P.P., was appointed president of the association, and G. E. Cahoon, vice-president, and the board of directors chosen are Dr. T. Hayes, P. Palisen, H. E. Love, W. W. Prevey and C. F. Christenson.

NEPHEW OF JOSEPH DESCHAMPS KILLED

FERNIE, Feb. 26.—A fatal accident occurred at the logging camp of the Baker Lumber company, Waldo, yesterday when Isadore Deschamps was killed on the skidways. Deceased is a nephew of Joseph Deschamps, lumberman, of Rossland, and leaves a wife and three children in Fournier, Ont.

FURTHER DETAILS OF IRISH BILL

Six Counties Constitute Ulster Parliament; Each Legislature to Have Judiciary

LONDON, Feb. 26.—(Canadian Press)—The home rule bill introduced in the house of commons yesterday sets up two parliaments one for Ulster and the other for the rest of Ireland. Six counties only, Antrim, Down, Armagh, Londonberry, Tyrone and Fermanagh, will constitute the Ulster unit.

Legislative bodies are to be linked by a council on which they will be equally represented and which will undertake duties common to Ireland. Each will have a separate judiciary The proportional representation proposed is dropped but will probably be left to a free vote of the house.

AUCKLAND GEDDES DEFINITELY CHOSEN

LONDON, Feb. 26.—It was definitely stated in the lobby of the house of commons tonight that Sir Auckland Geddes, minister of national service and construction has been selected as British ambassador to the United States. Official announcement of his appointment it was said was only awaiting notification from Washingtong that Sir Auckland is persona grata. Sir Robert Stevenson Horne, minister of labor, will succeed Sir Auckland as president of the board of trade, it was reported.

United States Hears Nothing

WASHINGTON, Feb. 26.—The reported decision of the British foreign office to send Sir Auckland Geddes here as ambassador has not been communicated to the state department it was said tonight nor has any inquiry been made relative to the willingness of the United States government to receive him.

PRESENTS BILL TO REFORM LAND LAWS

LONDON, Feb. 26 (Canadian Press).—The law property bill, introduced in the house of lords by the lord chancellor, is the most important measure of land laws reform for the past 300 years, and of mammoth size, containing no less than 178 clauses and 16 schedules, altogether 260 pages.

Its main object is to make real estate and personal estate laws alike, and to that end simplifies conveyancing, without, however, abolishing the power to settle land on descendants or dispose of it under will.

PRICE BROTHERS DISOBEY SUMMONS

OTTAWA, Feb. 26.—The order of the board of commerce calling for the presence of one of the partners in the newsprint manufacturing firm of Price Brothers and company, at the hearing by the board on Saturday morning will not be obeyed by that firm. Price Brothers are applying through their counsel, Aime Geoffrion K.C. at once to the supreme court for a hearing to test the jurisdiction of the board in the control of the sale of newsprint, and Mr Geoffrion will appear in the exchequer court Friday afternoon to state the case for Price Brothers.

FATALITY OCCURS IN FERNIE MINE

Italian Worker Is Instantly Killed by Fall of Coal From Above

FERNIE, Feb. 26.—Caught beneath a fall of top coal, Frank Digosta, an Italian miner, was instantly killed today at No. 1 East mine, Coal Creek. Every effort was made to rescue the entombed man, but life was extinct before his body could be removed from the debris.

William Wyatt, proprietor of the Fernie hotel, is dead at Medicine Lake, Washington, where he was taken to a sanatorium two months ago.

NEW SEED GRAIN ACT IN ALBERTA

EDMONTON, Feb. 26.—Real business of the legislature was begun Thursday afternoon, although in the most modest manner, when a number of bills were introduced, these including the charter amendments of the cities of Edmonton, Calgary and Medicine Hat, the formal pronouncement of a new seed grain act by the minister of agriculture and the notice of motion respecting the contemplated plebiscite on the question of liquor importation, submitted by the attorney-general.

A. F. Ewing, member for West Edmonton, introduced the bill to amend the Edmonton city charter; Nelson Spencer presented the bill to amend the Medicine Hat charter, and W. M. Davidson submitted the bill respecting the Calgary charter amendments. Hon. C. Mitchell, provincial treasurer, laid on the table a report of the international labor conference that he had attended in Washington last November as a representative of the government of Alberta.

SOVIETS MAKE NEW PEACE PROPOSAL; WOULD WITHDRAW DECREE ANNULLING FOREIGN DEBT IF POWERS WILLING TO GIVE UP INTERVENTION

WASHINGTON, Feb. 26.—In a New peace proposal to the great powers, according to official despatches received here today, soviet Russia pledges the establishment of democratic principles in that country and calling of a constituent assembly. It promises to withdraw the decree annulling Russia's foreign debt, restoring 60 per cent. of the liability and also to pay arrears of interest, giving to an Anglo-American syndicate as a guarantee of the fulfillment of its obligations, valuable platinum and silver concessions. In return the powers are asked to give up intervention in Russia.

The United States is asked to allow a credit to Russia, conditioned upon considerable concessions.

SUGAR CONTROL ORDER REPEALED IN ORDER TO TEST USEFULNESS

Board of Commerce Raises Regulations Fixing Price of Commodity

OTTAWA, Feb. 26 (Canadian Press).—In a totally unexpected order abrogating the sugar control in Canada, the board of commerce has issued a challenge to those who have questioned the usefulness of the board or have urged its dissolution. Claiming to have saved the general public about $100,000 a day during the seven months in which it has regulated the price of sugar, the board has suddenly rescinded its orders fixing the retail price of sugar to provide the Canadian public with a demonstration of "whether or not the orders of the board have been effective and especially as to whether or not profit control is possible or beneficial."

The fixed price under amended regulation of the board was one per cent. per pound less freight and refiners, and wholesalers were ordered to sell sugar at such prices as would enable retailers to derive a profit of one and one-half cents a pound on sales.

The exchange situation and the increased cost of raw material has greatly increased the cost of production and retailers have demanded recently permission to make a profit of three cents a pound on sales.

VERNON SHIPS THREE CARLOADS OF UNDESIRABLES

ST. John, N. B., Feb. 26.—A carload of undesirable aliens was brought here today from Vernon, and two more will come tonight from an internment camp in Ontario. All will be deported to Europe on the steamship Melita.

TWO BARRACKS ARE ATTACKED

Besiegers Driven Off After Two Hours Struggle; Attackers Are Killed

DUBLIN, Feb. 26.—Two constabulary barracks at Timmoteague and Mount Pleasant, County Cork, were subjected to a prolonged siege after midnight last night by large bodies of armed men. The beseigers employed customary tactics of blocking the roads with trees and cutting the telephone wires. The attacks lasted for more than two hours during which attempts were made to set fire to them by piling hay against the doors. The assailants finally were driven off.

The members of the garisons escaped uninjured. In the morning several civilians were found around Timmoteague. It is believed that the dead men were members of the raiding party. There also was found a wounded man who declared that several other wounded men had been carried away.

The police are searching the neighborhood, but thus far no arrests have been made.

BABY FALLS FROM NURSE'S ARMS; DIES

WINNIPEG, Feb. 26.—The two months old son of Mr and Mrs. Eggertson died at the general hospital of skull fracture early this morning. At 7 o'clock last night, the child's nurse was carrying the infant in her arms. It was wrapped in a shawl, and accidentally slipping through the covering fell to the sidewalk ,striking its head.

TREATY RESERVATION READOPTED IN SENATE

WASHINGTON, Feb. 26.—The republican treaty reservations regarding mandatories, attached last November was readopted today in the senate by a vote of 68 to 4 after the administration leaders had withdrawn their opposition.

This was the first time a question of the treaty had been adopted with the acquisition and acquiescence of leaders, and the first time more than two thirds of the entire senate had voted together in approving gan reservations. It is noted, however ,that the reservation was one of those to which the democrats had agreed to at by-partisan conferences.

The resolution provides that no mandate can be accepted by the congress.

BORDEN MAY NOW BE IN CANADA

HALIFAX, Feb. 26.—The Cunard Liner Carmania on which Sir Robert Borden is reported by Ottawa to be a passenger is expected to arrive a this port late tonight from Liverpool according to a wireless message from the steamship. The radio said that the ship was in a dense fog and that the exact hour of her arrival was problematical. At the office of the steamers agents here it was said that no official advice had been received that the premier is aboard the ship though some letters have arrived at that office for him.

FORMER FRENCH WAR MINISTER DIES

PARIS, Feb. 26.—(Havas)—General Pierre Auguste Roques, former minister of war, died today. He served with distinction during the war.

HON EDWARD BROWN WILL NOT SEEK RE-ELECTION

WINNIPEG, Feb. 26.—Local papers state that Hon. Edward Brown, provincial treasurer, will not seek re-election at the next provincial elections.

PLAN VANCOUVER TO CALGARY FLIGHT

VANCOUVER, Feb. 26.—In a letter to the Province, received today the McCall Aero Corporation of Calgary announces its intention to stage a Vancouver-to-Calgary non-stop flight early this spring. The flight will be made by either Captain Fred McCall, D.S.O., M.C. and D.F.C., one of the most noted of Canadian airmen, or Capt. Claxton, D.S.O., M.C., D.F.C. with bar, another well known pilot.

A bristol tourer airplane, the latest product of the Bristol company, having a 260 horsepower Siddeley Puma Engine, is now on the way to Calgary., It will probably be shipped from there to Vancouver, and will be set up here. The "hop off" will be made as soon as the weather in Calgary permits after the plane is ready here. It is hoped that by the addition of an auxiliary tank the plane will be given sufficient cruising radius to make Calgary from Vancouver without stopping.

FARMERS TO FORM CENTRAL COUNCIL

To Act Until Amalgamation of United Farmers and Farmers' Institutes

VICTORIA, Feb. 26.—Besides ending the Farmers Institute-United Farmers feud, delegates at the agricultural conference today settled the council of agriculture problem by deciding to have three members from each body act as an advisory council to the government, until the farmer amalgamation is completed at the end of the year. The members of this council will be three from the institute and three from the United Farmers who will have charge of the amalgamation negotiations.

As soon as the amalgamation under the United Farmers, embracing all branches of agriculture, is completed the United Farmers will take over this council and elect members to it as the supreme agriculture representative body.

J. Y. Copman, of Cowichan, William Peterson, of Duncan, and George Clark, of Sidney, were chosen by the United Farmers to represent them in the dual capacity. Representatives of the Farmers' institutes will be announced later.

"Now that we have amalgamated there is no use of us going on with the council of agriculture," said President Copeland of the United Farmers.

"We are all going to get together in one body and be 'united farmers,'" said Prof. W. T. McDonald, representing the stock-breeders. "The other associations will continue to exist to represent special endeavors and will feel that they have the sympathy of the main organization when they have any reasonable request to make."

"It is now our duty to go home and advise all our friends to join the United Farmers," said J. W. Berry, chairman representing Fraser Valley dairymen.

Representatives of the various specialized branches in turn spoke and endorsed the proposal.

REOPENING OF PARLIAMENT IN NEW BUILDING MOST BRILLIANT CEREMONY FOR OVER FIVE YEARS

House Is Crowded With Visitors; Two New Senators Sworn In; In Speech From the Throne Governor-General Expresses Gratification Over Standing of Canada in League of Nations; Bills to Come Up During Session Include One Providing for Dominion Franchise

OTTAWA, Feb. 26 (Canadian Press).—With all the glories of the pre-war pomp and formality, parliament was opened this afternoon, the governor-general, His Excellency the Duke of Devonshire, in the commons chamber of the new buildings. The scene was one such as Ottawa has not witnessed since the dark cloud of war over-shadowed the world.

Ladies in evening gowns occupied seats on the floor and filled the galleries of the commons chamber, which for the afternoon had been turned over to the use of the senate, while here and there were parliamentarians in their court uniforms. The sun streaming through the west windows of the building made the interior of the handsome chamber one bright color. After the hour set for the governor-general the seats in the chamber were all occupied and so great had been the demand for tickets for admission that it was found necessary two days ago to cease issuing them.

The commons met first in the railway commissioner's room, which is to be the temporary senate chambers, and were summoned from there by the gentleman usher of the black rod, Col. Ernest Chambers, to the chamber where the senate had met to hear the speech from the throne. Following the delivery of the speech the member of the commons returned to their temporary chamber and in the senate several formal motions were put through and the senate adjourned to meet again tomorrow afternoon.

Visitors on the floor of the senate chamber for the ceremony of opening included many former members of parliament as well as the consuls for the different governments who are stationed in Ottawa.

Commissioner A. S. Lamb and other officials of the Salvation Army were present, as also were Archbishop Gauthier and the Anglican bishop of Ottawa. The judges of the supreme court in their robes of scarlet and ermine, occupied seats in the centre of the floor. At the opening of the senate two new senators, Hon. Lorne Webster and Hon. Thomas Chapais, were sworn in and in the commons, after the speech from the throne, Messrs R. H. Halbert, North Ontario, and O. H. Gould, Assiniboia, were introduced. Following the ceremony in the senate chamber the governor-general held a reception in the reading room of the commons.

Speech From Throne

The speech from the throne referred to ratification of the peace treaty between the allied powers and Germany and the formal constitution of the league of nations.

"It is satisfactory to note," the speech significantly remarked, "that the status of Canada as a member of the league has thus been definitely fixed."

The treaty of peace with Bulgaria had been completed and would be submitted for approval. Negotiations were well advanced for conclusion of peace with Hungary and Turkey. If concluded in time, the treaties would be laid before parliament.

Exchange Situation

In the European economic field, the governor-general continues, clear vision was still impossible. The unsettled state of exchange, the lack of international credits and inflation of paper currency, combined with the scarcity of raw materials and the demoralization of labor and transport united to retard production and restrict the rebuilding of waste caused by the war. But, the governor-general proceeded, it is cause for thankfulness that of all countries affected by the war, Canada has maintained a record of social order and industrial and commercial prosperity second to none.

The address in reply to the speech from the throne will be moved in the senate by Senator Proudfoot and seconded by Senator Chapais. In the house it will be moved by Hume Cronyn of London and seconded by Alexander McGregor of Pictou.

Legislative Program

The government's legislative program outlined in the speech from the throne comprises:

A bill to provide for Dominion franchise.

A bill respecting copyrights.

Bills providing for the amendment of the patent act, of the loan and trust companies act, the Indian act and the exchequer court act and a bill to ratify the international opium convention.

Get Down to Business

Following reading of the speech from the throne the commons retired to the railway commission room and proceeded with business. Two members were introduced, R. H. Halbert, member for North Ontario, was introduced by W. C. Kennedy and Dr. Clark. O. R. Gould, member for Assiniboia, was introduced by Thomas McNutt and Andrew Knox.

The speaker read the following cabiegram from the king:

"London, Feb. 26, 1920.—I desire you will convey to my faithful senate and house of commons of Canada my warmest greetings on this the first occasion of their assembling in the new buildings, with the

(Continued on Page Five)

WANTS TAX ON JEWELS AND FURS

LONDON, Feb. 26.—Continuing his evidence before the war wealth commission today Sir John Anderson, inland revenue official said it was proposed to tax any person whose war wealth—the net amount whereby his wealth had increased since 1914—exceeded £5000 but allowances should include £1000 for a wife and £500 for each child. He thought some concession should be made to a man who had continuously invested his wealth in war loans.

A very large amount of money, said Sir John, had been spent in jewelry, furs and motor car investments to escape the excess profits tax. It was the view of his department that these should be taxed and that heavy penalties should be imposed for failure to disclose such valuable possessions.

FORECASTS SCHOOL TEACHER FAMINE

Manitoba Drained to Supply Other Provinces; Are Leaving Profession

WINNIPEG, Feb. 26.—There is absolutely no one in training in Manitoba to take the place of the present leaders in public educational matters when the time come for them to lay down the gauntlet, S. H. Forest, former president of the Manitoba Trustees Association declared today in addressing the teachers salaries commission at the final session of the convention today.

He declared there would be a famine of teachers in the province during the next year and that no help could be looked for from the east as they had jacked up their salary scales and will be keeping their teachers at home. The shortage was due, he said, among other things, to Manitoba being drained of 847 qualified teachers to supply the other western provinces in the last three years. A tremendous number of teachers had also gone into other professions, because they could not live on salaries paid to teachers.

BILL TO AMEND CRIMINAL CODE

OTTAWA, Feb. 26.—Dr. J. F. Edwards, Frontenac, has given notice that he will introduce on Monday a bill to amend the criminal code in regard to capital punishment.

Another resolution from the same member sets forth that the lack of systematic grading of butter and other dairy products is causing heavy loss to Canadian farmers. To overcome this he urges that establishment of a uniform system of grading so that Canadian dairymen can successfully compete with those of other countries.

TAR TANK EXPLODES KILLING FIREMEN

NEW YORK, Feb. 26.—Two firemen lost their lives and several others were injured tonight during a fire in the Nassau plant of the Brooklyn Union Gas company, on the waterfront. They were burned when a huge tank of tar exploded.

TWO AERIAL MAIL CARRIERS KILLED

PANAMA, Feb. 26.—Lieuts. Forman and Vaughn, two United States army aviators, carrying mails were killed today when their plane crashed from a height of 5000 feet at Agua Duloc.

ARREST FORMER HUNGARIAN PREMIER

BASLE, Feb. 26.—Vienna newspapers received here announced the arrest of Alexander Garbala, former premier of Hungary.

Wives and Mothers of Canada

Stratford, Ont.:—"I am very enthusiastic in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers. I have had experience both *with* the 'Prescription' and *without* it, and am in a position to know that there is a vast difference. I was never nauseated or sick at all with my 'Prescription' babies but I was extremely uncomfortable with the others and my suffering was greater when I had not taken the 'Favorite Prescription'. I shall always take pleasure in recommending it to expectant mothers."—MRS. LEOTA M. PEPPER, 114 Grange St.

COULD NOT SLEEP

Halifax, N. S.:—"I was in a run-down, nervous condition for over two years, had been treated by several doctors and only found temporary relief. I could not sleep at night my heart palpitated so, and I was almost afraid to close my eyes. Being persuaded, I wrote and stated my symptoms to the Medical staff at Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., I was advised to use Dr. Pierce's Golden Medical Discovery with the 'Favorite Prescription' and the 'Pleasant Pellets'. I did so with the very best results. I could sleep and became my natural self again. I certainly recommend Dr. Pierce's medicines to all sufferers, for they have done for me what doctors failed to do and they have saved me doctor bills, too."—MRS. JOHN HOMANS, Clam Harbor.

Toronto, Ont.:—"For over thirty years I have been a user of Dr. Pierce's Pleasant Pellets. I have taken them for liver trouble, biliousness, constipation and sick-headaches and they always gave me the relief wanted. I am sure the 'Pleasant Pellets' have saved me many a sick spell. I can highly recommend them."—MRS. HANNAH BOWNESS, 60 Strange St.

BAPTIST PASTOR COMING IN MAY

Rev. Mr. Tyner One of the Strongest Men in the Alberta Ministry

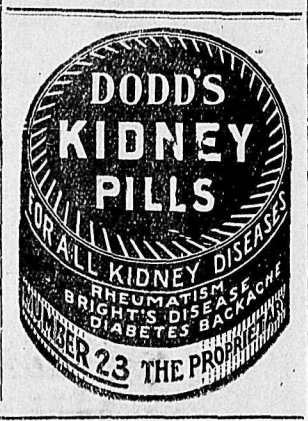
Rev. T. E. Tyner, Baptist minister in charge of the Vermilion field in Alberta, has accepted the call recently extended to him bf the Nelson Baptist church, the announcement being made at the weekly meeting last night. It is expected that he will arrive in Nelson with his family in time to preach here the first Sunday in May.

Mr. Tyner has been nine years in the Vermilion field, and besides serving the Vermilion church, has developed and served two out-stations, traveling 70 miles by motorcar every Sunday, and preaching three times. It is stated that he is regarded as one of the strongest men in the Baptist pastorate in Alberta.

Until Mr. Tyner's arrival, Rev. T. J. Strawbridge, who recently arrived in Nelson from California, will perform the pastoral duties in Nelson. The church has been pastorless since last fall, when Rev. H. S. Bagnall, after a pastorate of some years, accepted a call to Medicine Hat.

DOMINION TRUST COMPANY TO DECLARE DIVIDEND

ST JOHN, N. B., Feb. 26.—Word has been received here from W. J. Gwynn, liquidator of the defunct Dominion Trust Company, at Vancouver, which had branch offices here that about $300,000 will be distributed in a dividend to creditors on Monday. The dividend will be ten per cent of $3,000,000 direct liabilities.



GROVE'S O-PEN-TRATE SALVE

Opens the Pores and Penetrates

A Remedy for Chest Colds, Head Colds, Spasmodic Croup, Sore Throat, Stiff Neck, Earache and kindred ailments. Apply freely to the skin over the affected parts and rub it in.

When two Wives Meet

Secretly, every wife is fiercely ambitious for her husband—his success, appearance, strength—his standing among his fellow men.

Be worthy of that wife of yours. Keep healthy! Strength, appearance, success depend on health.

Living habits today are largely artificial—indoor—sedentary. To be healthy, we must regard Nature's laws. And one of the first of her laws is "Avoid Constipation. Keep the poisons of intestinal matter moving out of your body."

By an *entirely new principle* Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system Nujol works on the waste matter instead of on the system.

Nujol *prevents* constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only bearing Nujol trade mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."

A New Method of Treating an Old Complaint

SUMMIT LAKE CASE SETTLED

Lumber to Be Converted Into Cash by Liquidator to Satisfy Claims

A satisfactory solution of the legal tangle in which the mill plant and product of the Summit Lake Lumber Company, Ltd., now in liquidation, and whose lumber has been purchased by the Allen Stoltze Lumber Company, Ltd., has been involved through the lumber being attached under liens to satisfy about 40 claimants for wages, was reached in the county court at Nelson yesterday, when, after the actions had proceeded a certain distance, the various parties came to an agreement, which was accepted by Judge J. A. Forin, and duly entered. Under the agreement, the claims for wages will be completely satisfied, the plant will operate and finish the lumber for market, and the purchasers, the Allen Stoltze Lumber Company will market the lumber, paying in certain sums as it is marketed, until the terms are completed. The liens are for a gross amount of about $12,000.

Under the terms of the agreement, D. St. Denis, provincial official liquidator, is accepted by all parties as the permanent liquidator, and Mr. St Denis will forthwith operate the plant to enable the lumber to be dressed finished and shipped. He will employ Frederick Chester Robinson as manager.

The Allen Stoltze Lumber Company will act as selling agents, and will market the lumber at the best available price, on behalf of the liquidator, paying 90 per cent of the price, on sight drafts by the liquidator, and retaining the 10 per cent balance as commission.

Out of this 90 per cent, the liquidator will pay, in the order named (a) Royalties and other prior liens of the crown; (b) operating expenses in connection with finishing the lumber and shipping it; (c) the liens claims, 25 per cent at a time, as the fund accumulates, to the solicitors for the various lienholders.

The balance that will remain out of the 90 per cent after these various charges are satisfied, is apparently still in issue, and the liquidator will pay it into a special fun, subject to later disposition by the court. The parties, other than the lien-holders, who will be interested in its disposition, agree that the present agreement is not to prejudice in any way their claims to that balance.

On the part of the lien-holders, who receive judgment for their claims and costs, it is agreed that proceedings under the judgment will be withheld for the reasonable time necessary for the lumber to be converted into cash.

In addition to the lumber covered by the numerous liens referred to ,there is 200,000-odd feet of lumber at Summit Lake cut after Sept. 13 last not claimed by the Allen Stoltze Lumber Company as its property, covered by liens in the hands of C. F. R. Pincott, of Rossland, and F. B. Hill and W. I. Mriggs, of Revelstoke. This lumber will also be finished after the other is out of the way, by the liquidator, and sold on commission by the Allen Stoltze people, and from this fund these last claims will be paid, with also the sheriff's costs. The balance of this money will go into a special fund, which will be kept separate from any other.

A galaxy of counsel was in court in the case. James O'Shea, of O'Shea & Farris, represented some of the lien claimants, and C. R. Hamilton, K.C., of Hamilton and Wragge, appeared for the balance. The Summit Lake Lumber Company was represented by D. St. Denis, liquidator, and A. Donaghy, of Donaghy & Donaghy, his counsel. The Allen Stoltze Lumber Company was represented personally by J. M. Allen, and by its counsel, H. C. N. McKim and G. E. Housser.

BIG GATHERING HEARS DRINNAN

Provincial Secretary of Veterans Expounds Principles of Association

Fifty members of the G.W.V.A. and returned men heard a practical address on the work of the G.W.V.A. and the problems of the returned man, at the G.W.V.A. rooms last night, when Walter Drinnan, secretary-treasurer of the provincial command, discussed various topics emerging from his work. Mr. Drinnan is on his way to the coast after a short tour of the Kootenay district.

Criticism, Mr. Drinnan said, was made by those who did not know the great things that had been accomplished by the G.W.V.A. to date. Much had been done to help the returned man to re-establish himself, and much remained to be done. It was for this reason that the dominion convention was called. At this executive meeting all matters that had not already been satisfactorily dealt with by the present government would be taken up, with the view to getting them put before the ruling powers, until every man who had served overseas would receive justice, and the wives, mothers and children as well.

Re-establishment

Mr. Drinnan explained the mistakes that had arisen regarding the gratuity scheme, which had been much understood not only by the general public, but by the veterans themselves. The Calgary scheme had been much altered before being presented to the government. They had not asked that all men should receive the gratuity, but chiefly those who had difficulty in repatriating themselves. There was, he said, no reason why men who had other training than that of farming should not benefit by government assistance. Under the present system there was only help for the farming class, and this had led to many men undertaking work they were totally unfitted for.

In regard to the vocational courses, while the officers in charge did great work, the scheme did not apply widely enough to be the benefit it was promised. Men who had enlisted under age ,and men who were over age, were not eligible under the present system.

Many people thought that the G.W.V..A. lost its case on the gratuity question, but this was not the case. Every returned man owed it to his comrades to get into the associaion and be a force behind the executive to see that the comrades who were disabled and the widows and orphans got a just allowance.

In regard to the housing scheme, it was another vexed question, and in his opinion it was a joke as it stood at present, because where a man might get a perfectly good house cheaply, he was required to build one at a greater cost.

Mr. Drinnan closed his remarks with a request for an open discussion of all questions and a general exchange of opinion on all matters of interest.

The discussion that followed brought many points of interest and was participated in by Messrs Taylor, Baker, Simpson, O'Grady, Roberts, Bostock, Dr. Wallace, Mr. Astley, and several others.

It is probable that a convention of the different branches will be called in a few days to take up the question of the representation at the Montreal Convention which takes place on March 22.

Blouses

A charming assortment of the Spring's Dainty Creations are meeting great favor.

They come in fine Voiles, Crepe de Chene, Georgette, Habutai, etc., and are beautifully made.

The price, too, is an attractive feature, as they were well bought and a good deal below the present market price.

SLOCAN TO HAVE WAR MEMORIAL

Daughters of Empire to Keep Memory of Fallen by Granite Monument

Tenders have been let, by the Imperial order of the Daughters of the Empire of Slocan City, to the Kootenay Granite and Monument Works, of this city, for a handsome granite war memorial monument, to be erected on Main Street, Slocan City, in memory of the men from that city and the Slocan Valley that paid the supreme sacrifice in the war.

The monument, which when erected will stand over six feet high, on a base four feet, by two feet, 6 inches, will be of the form, known as a four piece, capped, monument, the base being made of gray Kootenay granite, surmounted by three large shafts, and a cap, all of which will be made of Royal Balmoral granite. On the lower shaft will be engramed the names ,of the fallen heroes, in whose honor the memorial is to be erected.

It is expected that the monument will be finished and set up some time in May.

Silk hats combined with fabrics are expected to be a large item in spring millinery.

STOCK MARKET SHOWS STRENGTH

NEW YORK, Feb. 26.—Stocks were unsettled again at the outset of today's trading in consequence of the cuts in the dividends of low priced copper shares. The market was unchanged and uncertain during the forenoon, but strengthened substantially later, when rails were in good demand.

Almost the only features of weakness were the secondary and independent steels, in which future liquidation was percipitated by adverse statements issued recently by the Republic Iron and Steel company. There was sporadic selling also of leathers, shippings, metals and minor specialties of the several miscellaneous groups. This was more than offset ,however, by the steady recovery of motors, oils, equipments and kindred shares from their acute depression of two preceding sessions.

Foremost amon gthe gains of the day were General Motors, the high grade petroleums. Crucible Steel, Baldwin and American locomotives, American car and American international. Gross gains of 2 to 13 points in these issues were shaded by realizing sales at the end. Sales amounted to 1,000,000 shares.

Most of the day's needs and developments relating to market values was favorable, if only in a negative sense. Time money was a main deadlock but call loans were plentiful at 10 per cent, that rate ruling throughout, against yesterday's maximum of 15 per cent. Recurren weakness of liberty and victory issues was the outstanding feature of the bond market, new low prices being established in all but a few of these groups. Rails and industrials rallied slightly and internationals were steady.

Total sales, par value ,aggregated $12,150,000. Old U. S. bonds unchanged.

BREWERIES AND SUGAR MONTREAL LEADERS

MONTREAL, Feb. 26.—Breweries and Sugar again were the active leaders in today's dealings on the local stock exchange Breweries gained ½ point at 51½, but Sugar sagged to 89⅞, a net loss of ⅝. Spanish River was strong, closing at a net gain of 1½ points on the day's trading. Abitibi lost four at 250; Brompton added 1 at 75; Price Brothers and Laurentide unchanged, Riordan up 1 at 174, Wayagamack off ½ to 7½. The tractions were steady to stronger. Milling stocks were weaker, Ogilvie losing 3½ and St .Lawrence losing 1 cent at 103¾. Apart from the above the market was not especially interesting. Total trading, listed 7708; bonds $147,450.

GRAIN MARKETS

CHICAGO, Feb. 26.—Damage to winter wheat in Kansas had a bullish effect today on the corn market. Prices of corn closed firm at ⅝ to 2 cents net higher with May 137½ to 137⅝ and July 131⅝ to 131¾. Oats finished ¼ off to a like advance. The outcome in provisions was 2½ cents to 15 cents down.

Minneapolis

MINNEAPOLIS, Feb. 26.—Cash grain—No. 1 Northern Dark wheat 270 to 295; No. 1 Northern 260 to 270. No. 2 White Oats 83 to 84½. Flour unchanged, shipments 55,706 barrels.

INSTITUTES WANT MORE PUBLIC NURSES

WINNIPEG, Feb. 26.—The Women's Institute closed their convention here today. The first two clauses of the amendments which the Graduate Nurses Association will bring to the Manitoba legislature this session were resolutions including the calling for a grade II standing for those entering the profession in the province training of attendants and licensing practical nurses. Clauses asking that no one outside these classes be allowed after July 1, 1923, to nurse for gain, was tabled. The convention passed a resolution calling on hospital authorities to place more emphasis on the education of the public nurses.

Other resolutions passed called for the building of a provincial institution for the feeble minded, more travelling libraries, establishment of first aid classes in the rural schools. Persons wishing to get a marriage license in future will have to show a doctor's certificate testifying to their mental fitness, if the authorities act upon a resolution passed at the convention.

LIVESTOCK MARKETS

Toronto

TORONTO, Feb. 26.—(Dominion Livestock Branch)—Cattle receipts 134. With 7200 cattle on sale this week values depricated from $1.00 to $1.50 a hundred on all butcher cattle. Top sales for the week were on steers of 1500 pounds at 14.25 and a load of 1200 pounds at 13.85 with several at 13.00 to 13.50; bulk 11.00 to 12.50 a hundred. Today's trade was a trifle stronger and prices from 10 cents to 25 cents higher.

Calf receipts 84. Trade unchanged. Prices fairly stationary all week. Top sales 23.00.

Sheep receipts 112. Lamb and sheep trade active, bulk of lambs selling at $2.00 to $3.00 and one load of shep averaging 140 pounds 14.50.

Hogs, receipts 902. Hogs were evenly settled for on the basis of 18.50 fed and watered, a decline of $1 from last week's high price.

Winnipeg

WINNIPEG, Feb. 26.—(Dominion Livestock)—Yesterday's sales were extremely light and consisted only of 140 cattle, 844 hogs and 47 sheep. Disposition of the stock from the yards was as follows: Local packers bought four calves, 84 cattle, 525 hogs and 51 sheep, Local butchers operated lightly and secured only four calves, 23 cattle and 98 hogs. Western shipments were composed of 33 stockers and two feeders, while 20 butcher cattle and 11 stockers made up the shipment to South St. Paul. Receipts up to 9 a.m. this morning were 263 cattle, 811 hogs and 10 sheep. There was a fairly strong market today for good grades of butcher cattle and this class of stock sold freely Medium weight butcher steers composing bulk of sales. There was little demand for any other class of stock while the receipts were also limited.

Steers, choice 11.75 to 12.50; fair to god 9.50 to 11.50.

Butcher heifers, choice 10.00 to 11.50; fair to good 8.25 to 9.50.

Butcher cows, choice 10.00 to 11.00; fair to good 8.00 to 9.60.

Medium 6.50 to 7.50; canners and cutters 5.00 to 6.00.

Bulls, good 7.50 to 8.50; common 5.50 to 6.50.

Stockers, steers and heifers, choice 8.00 to 9.00; fair to good 6.00 to 7.50.

Calves, choice 13.00 to 14.00; good 10.00 to 11.00.

MAPLE LEAF MILLING DROPS SEVERAL POINTS

TORONTO, Feb. 26.—Maple Leaf Milling's decline of 7½ points was a disturbing incident on an otherwise quiet and steady local market today. The immediate effect of the dominion government's measures to curb importation of securities is apparently to curtail still further speculative interest in stocks listed on the Toronto exchange but is argued that eventually the embargo will work out to the advantage of local security business by limiting them. Maple Leaf opened a point off at 178 and sold off to 171½, the lowest figure representing a net loss of 7½ points, prevailing at the close with the final bid lowered to 170½.

Another weak spot was Atlantic Sugar. In the morning 100 shares came out at 90¼, a net loss of ⅞ and in the afternoon the stock was offered down to 89½, with 88½ bid. Canada Steamships at 70¼ showed a gain of ½ a point, the closing bid being down to 72. Canadian Locomotive at 98½ was up an equal fraction and a gain of ¼ was registered by Brazilian at 42¼ and Canadian General Electric at 104¼. In the war bonds sectio naaeerutf :..t the war bonds section a feature was the stiffening in the quotation for the war loan of 1937, which sold ⅜ up at 99⅞. A $50,000 lot of the victory loan of 1937 changed hands at 100¾ unchanged.

LIKE A TIDAL WAVE

HEART DISEASE AND NERVE TROUBLES SWEEP THE COUNTRY.

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain.

On the first approach of any breakdown of the system Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mr. W. A. Wright, Hopewell Ave., Ottawa, Ont., writes: "After suffering for some time with my heart I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes cured me completely. I am feeling fine now, and can attend to my work every day. I can recommend your pills to any one suffering as I did."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FRIDAY MORNING, FEBRUARY 27, 1920

The New Home Rule Bill

It has been said that the new home rule bill does not please anyone in Ireland. No doubt this criticism will be repeated in many different forms during the discussion in the British house.

In spite of this, or perhaps because of it, the plan outlined would seem to contain the fundamentals of success. It provides for two legislatures in Ireland, one for the north and one for the south, these two bodies to be linked together by a council whose members will be selected by the legislatures.

One legislature for Ireland is practically out of the question. By establishing two, Ireland is divided into two provinces, much in the same way that Canada is divided into nine. By means of the council the two provinces will have what in military terms would be described as "liason," and it is to be hoped, a medium of conciliation.

Through the legislatures each of the main conflicting elements in Ireland will be given home rule. Each will be allowed to run its own affairs, free of interference or dominance by the other.

Canada's Trade Figures Encouraging

On the whole the statistics dealing with Canadian import and export trade are encouraging.

While imports from the United States exceed exports to the United States by $230,000,000 in the past ten months, the trade of the Dominion with Great Britain shows a favorable balance of $537,600,000. Canadian imports from Great Britain, however, are increasing. A growth of about $10,000,000 is shown for January as compared with the same month of 1919. This may tend to cut down the favorable trade balance which Canada now enjoys as far as the mother country is concerned.

Taking all export and import trade together, Canada has a favorable balance of $263,600,000 for the past ten months. This is a good showing when it is considered that before the war Canada had an unfavorable trade balance of over $300,000,000 a year. In other words, it was buying more goods from other countries than it was selling to them. Now it is selling to other countries at the rate of more than $300,000,000 a year more than it is buying from them.

The New Franchise Bill

Indications from Ottawa are to the effect that the coming session will not produce very much controversial legislation, with the possible exception of the new franchise bill. There will be controversy over that, of course. There always is over franchise bills.

A new act is necessary, as it would be out of the question to conduct an election now under the war franchise bill which was designed specially to meet war conditions and in many respects it is unsuited to an election in peacetime.

There are a number of features, however, in the war franchise bill which should be incorporated in the new measure. The system of enumeration, for example, is an excellent one. It assures a much more complete voters' list and consequently a larger and more representative vote than if it is left to the individual to get on the list, or to the party organizations to persuade people to register. When both parties are active probably not many qualified voters are left off the list under the present system, but there are occasions and places where party organizations are more or less sleepy. Then the result is an unrepresentative voters' list, because the average person wont' take the trouble to register unless someone prods him into it. In any event the making up of the lists should not be left to chance. The system of enumeration provides for an up-to-date list, made up of all persons who are qualified, by officials employed by the government to do the work. That is obviously the better way.

TEN YEARS AGO TODAY

(From the files of the Daily News, Feb. 27, 1910.)

Over 100 members attended the meeting of the Woman's Institute yesterday. Dr. Isabel Arthur read a paper on "Men and Women of the Future." Mrs. E. A. Crease gave a talk on Physical Culture and Miss Leith demonstrated the art of omelet making.

• • •

Another defeat was administered to the Ashdown Hardware Company's rink last night by the combined rink of Brackman-Ker and A. MacDonald Co., the score being 14 to 8.

• • •

The ladies of the Nelson hockey team returned home last night at 10.25 accompanied by their chaperone, Mrs. W. Rutherford.

PEELED CHICKEN

Three-year-old Ruth came from Chicago to visit her grandmother on a farm in Knox county. Everything about the farm was a novelty to Ruth of which she never tired. Another pleasant thing about the visit was grandmother's constant questioning of "Now what shall we eat today?" One morning she asked the usual question as to the menu. Little Ruth studied a minute and then made answer: "Oh grandma, won't you please catch a chicken and peel it for dinner?"—Indianapolis News.

For sheer grace there is no material to equal duvetyn.

COLD STORAGE

It was in Paris. The talkative guide was exhibiting to the interested American tourist the tomb of Napoleon with all the customary flourishes of both language and claimed the guide, "weighs forty hands.

"This immense sarcophagus," detons. Inside of that, sir, is a steel receptacle weighing twelve tons, and inside of that is a leaden casket, hermetically sealed, weighing over two tons. Inside of that rests a mahogany coffin, containing the remains of a very great man."

For a moment the American was silent, as if in deep meditation. Then he said:

"It seems to me that you've got him all right. If he ever gets out cable me at my expense."—London Tit-Bits.

Hub—"My dear, isn't that dress a trifle extreme?"

Wife—"This dress, darling! Why, I put this on merely that you may become accustomed to the one I am having made."

"Did you see how that conjuror took the rabbit from the hat?"

"Nope. I tried hard to catch on too. It would help reduce the cost of living."—Louisville Courier-Journal.

Some of the tops with which the Chinese amuse themselves are as large as barrels. It takes three men to spin them, and it gives off a sound that may be heard several hundred yards away.

COMMUNICATIONS.

RED CROSS DONATION

To the Editor of The Daily News:

Sir:—In your issue of Feb. 21 I am credited with $30 for the amusement fund of the Balfour sanatorium. This sum was voted to the fund by the Sandon Red Cross auxiliary, and I was directed to sell all equipment, such as oilstove, dishes, articles left over from bazaars, etc., and send the money to the amusement fund. Although I stated this in my letter, the acknowledgment would make it appear that the gift was from me, which is not the case.

MRS. S. J. TOWGOOD.

Sandon, B. C., Feb. 23, 1920.

To the Editor of The Daily News:

Sir:—Could you kindly have this following letter, which was received by Mrs. W. Thomlinson, published in your paper.

We, in this town are going to try and do our best to help these little ones in France and can only hope that other towns that receive your paper *will read this letter and do what they* can to help these little ones, too.

LA SERVAN CLUB,
Per Secretary, Clara M. Aylwin.
New Denver, B. C,
Feb. 25, 1920.

"*Dear Madam:—I have the honor to* inform you that the Canadian Red Cross has been very generous towards our little ones here in France; what a surprise and what a pleasure it gave me to find your card in the pretty blue bags. Thank you, Madam, also in the *name* of our little ones and their parents, but why has God permitted me to know your address. It is, perhaps, that I may knock at the door of your good Canadian hearts, so generous and so good. France is now more unhappy than during the war.

"I am directress of an orphanage. I have 200 poor children two to seven years of age, boys and girls.

"Madam, if you could possibly send me a few yards of goods to dress my children I would be very contented. God bless you, our little ones are in rags, having lost their fathers in the war and their mothers being too poor are unable to buy them clothes.

"Have pity on our dear children and their families, don't think I am misinforming you.

"Inquire of the Canadian Red Cross *Dauphine Bastin 99, Paris. She often* sends me things, but it needs the whole charitable world to bring help to the needy. Count Madam, on the prayers of our little ones.

"In hope of a reply I have sent my address.

"MADEMOISELLE LE BIHAN,
"Directrice De L' Asile
"Rue Du Pre' Brecel,
"Tile A. Vilaine,
"St. Servan, France."

This is given me as the truth of what M. Clemenceau said when the draft of President Wilson's original note with the 14 points was handed to him. He said: "Quatorze points! Mais cela c'est un peu fort—le bon Dieu a'en avait que dix." ("*Fourteen* points. But that is a little too strong—the good God had only ten.")

Satin and serge frocks are showing cutout embroideries in large, splashy designs.

JAZZERWOCKY

'Twas grilling, and the Jazzlewags
Did glomp and scrimble o'er the board;
All gladsome were their dazzlerags,
And the loud Nigs uproared.

"Beware the Hickle Trot, my son,
The fet that twink, the hands that clug;
Beware the Shimmy Shake and shun
The *thrustful Bunny Hug.*"

He put his pumpsious shoon on foot,
He bent his knes to slithe and sprawl,
Till, fagged and flausted by disdoot,
He brooded by the wall.

And, as in broody case he lay,
The Jazzerwock, with shoulders bares,
Came swhiffling through the juggly fray
And grapped him by the hair.
One, two! One two! and through and through
The prancing maze they reeled and *pressed,*
Till both feet ignored the beat
And woggled with the best.

"And has thou learnt at last to jazz?
Come, take my arm, my clompish boy"
O hectic day! Cheero! Cheeray!
He chwinckled in his joy.

'Twas grilling, and the Jazzlewags
Did glomp and scrimple o'er the boards;
All gladsome were their dazzlerags,
And the loud Niggs uproared.

COMMERCE BOARD MAY INVESTIGATE LIQUOR PRICE

TORONTO, Feb. 26.—Application by the Ontario government to have whiskey brought within the jurisdiction of the board of commerce may be an outcome of the increases in prices recently put into effect by the Corby Distillery Company. J. D. Flavelle, chairman of the Ontario *License Commission said today that* the question had been brought to the license commission and that he had forwarded to Hon. C. S. Nixon, provincial secretary a recommendation that action to secure a reduction in the price of whiskey in question be taken. Hon. Mr. Nixon was not in Toronto today but it was intimated that a request might be forwarded to the dominion for action by the board of commerce.

A Chinese custom is the throwing into the sea of thousands of pieces of paper when a friend is about to sail away. Each piece of paper bears written on it a prayer.

CLOUDS IN THE PACIFIC

Down the blue night the unending columns press
In noiseless tumult, break and wave and flow,
Now head the far South, or life rounds of snow
Up to the white *moon's loveliness.*
Some pause in their grave wandering comradeless,
And turn with profound gesture vague and slow,
As who would pray good for the world, but know
Their benediction empty as they bless.
They say that the Dead die not, but remain
Near to the rich heirs of their grief and mirth.
I think they ride the calm mid-heaven, as these,
In wise majestic melancholy train,
And watch the moon, and the still-*raging seas,*
And men, coming and going on the

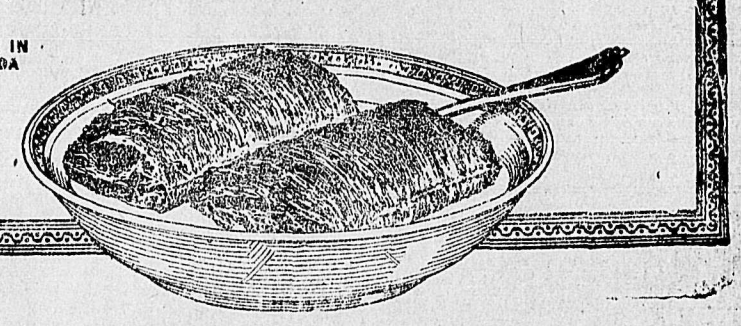
WHAT ARE The "VITAMINS"?

A little attention to food values will add to your health, happiness and working efficiency. The outer coat of the whole wheat contains a mysterious chemical substance called "vitamine" which is essential to life and health. When you eat Shredded Wheat Biscuit you get all the vitamins, mineral salts and other tissue-building material in the whole wheat grain—all prepared in a digestible form. It is the most real food for the least money.

MADE IN CANADA



TO-DAY

in medicines, as in every other necessity, the public is satisfied with nothing but the best! This explains the ever-increasing demand for Zam-Buk. Not only is this great balm the best household remedy to-day, but it is also the most economical.

Zam-Buk's superiority is due to the fact that it is *all medicine*, containing none of the coarse animal fats or harsh mineral drugs found in ordinary ointments. Again, the medicinal properties are so highly concentrated that they contain the maximum amount of healing, soothing and antiseptic power, so that a little of this balm goes a long way.

Another reason why Zam-Buk is most economical. It will keep indefinitely and retain to the last its strength and purity. Best for skin diseases and injuries, blood-poisoning and piles. All dealers, 50c. box.

APPOINT GOOD ROADS DELEGATE

ROSSLAND, Feb. 25.—The regular meeting of the city council was held last evening in the city hall, those present being: Mayor Pitt, Aldermen Dunn, Wilmot, Fox, Garbutt, Gregory and Robertson.

A communication from Alfred W. Morgan, secretary Rossland public market, was read, being a statement of receipts and expenditures from Sept. 1, 1919, to Feb. 19, 1920, together with a general review of the workings of the market. The report was received accepted and placed on file. Mayor Pitt and Aldermen Fox were reappointed members of the market committee for the current year, the other members of the committee consisting of Messrs. Cox, Morgan and Palmquist, who were appointed by the Farmers' Institute.

A letter was received from R. H. Gale, president of the Good Roads league of B. C., wherein he advised the council that a convention of the league would be held in Victoria on March 2, at which time matters pertaining to good roads would be taken up with the minister of public works, and asking that the city send a representative to the convention. The council decided to take the matter up with Mr. Willson, the local member, and have him represent the city.

A copy of the resolution passed by the Kaslo city council and board of school trustees urging upon the provincial government the necessity of increasing the provincial grants now being made to municipal school districts, was endorsed, and the clerk was instructed to forward a similar copy to the government and local members.

The seretary of the Rossland school board submitted a statement of estimated expenditures as required by the Rossland schools over the current year, and which amounts to $29,580. his amount was made up as follows: Teachers' salaries, $20,100; janitors' salaries, $2,700; incidental expense, $6,780. The estimates were adopted by the council.

Alderman Dunn, to whom was referred at the last meeting of the council the matter of Swift & Co., having refused sale of meats to the tenants of the public market, informed the council that he had taken the matter up with the Canadian board of commerce and presented to the council copies of communications and telegrams received by him from the secretary of the board, wherein they advised him that wholesalers or jobbers are under no obligation to sell to other than their regular customers.

Various matters that were previously before the council were reported to have been attended to by the committees.

CRAWFORD BAY INSTITUTE MEETS

CRAWFORD BAY, Feb. 26. — The monthly meeting of the Women's Institute was held at Mrs. Fournier's Saturday, Feb. 21. There was a good attendance and there wass an interesting discussion on the best way to invest $10. Poultry was decidedly the favorite. After the business a program was given. Among those contributing were: Mrs. Corbett, Mrs. Gooch, Mrs. Oliver, Mrs. Dale, Miss Fraser, Mrs. Kidman, Mrs. Fraser, Mrs. Uhthoff.

Audience and performers were then served with tea.

Mrs. and Miss Fraser and Miss Walker were in the city during the week and were the guests at the Hume.

Mrs. McQueen of Kaslo visited the Bay on Friday.

A White Leghorn hen belonging to Mrs. Corbett laid an egg weighing 3¾ ounzes.

A daughter was born to Mr. and Mrs. H. Mawdsley Tuesday, Feb. 23.

Mr. Graham of Coleman, with his son and nephew, are in the Bay and intend setting up a shingle mill.

The phoebe bird, popularly supposed to be a forerunner of spring, was heard in the Bay Feb. 24.

A lantern lecture in aid of the Anglican movement was given in the Bay last Wednesday by Canon Hall of Kaslo, aided by the Rev. J. S. Mahood. The lecture was interesting and was well attended. The proceeds were $9.50.

REOPENING OF PARLIAMENT MOST BRILLIANT CEREMONY

(Continued From Page One)

erection of which my son is proud to have been associated. It is, my assurance that the deliberations of the parliament of Canada will, as in the past, redound to the happiness and prosperity of the great dominion whose well being is so vital to the whole empire."

Buildings Historic

Sir George Foster, acting premier, moving a resolution of acknowledgment, stated how the legislative buildings of Canada had been linked up with the royal family. The acting prime minister said the site had been chosen by Queen Victoria, the first corner stone laid by King Edward, then Prince of Wales, the corner stone of the present building laid by H. R. H. the Duke of Connaught and the corner stone of the peace tower laid by the present Prince of Wales during his recent visit here.

Sir George spoke in a reminiscent vein of the early trials of legislators in seeking a permanent home. With the uniting of the provinces the parliament of United Canada had first sat at Kingston, then in turn at Montreal, Toronto and Quebec, and in 1867 came to Ottawa. Parliament continued to meet here until the fire, when a temporary home was found in the Victoria Museum and now parliament had moved back to its new home which had been built on the site chosen by Queen Victoria many years before.

Great strdes have been made by Canada in the interval between the first and the present sitting at Ottawa. The first legislators of United Canada must have been beset with hopes and fears, yet one was forced to wonder what would transpire in the next fifty or sixty years.

The acting premier evoked much applause when he addressed the French members in their own language at the close of his speech in English.

Sounds Note of Harmony

Hon. W. L. MacKenzie King, leader of the opposition, seconding the resolution of acknowledgment, referred to the general regret felt at the absence of the premier, Sir Robert Borden, and the circumstances which compelled his absence. There was another whose absence was sadly felt, said Mr. King, in referring to the late Sir Wilfrid Laurier. Especially on such an occassion of ceremony was the absence of Sir Wilfrid Laurier noticeable. The Liberal leader paid a tribute to Sir George Foster and to the architects of the building. As an additional edifice, the new building symbolized Canada, said Mr. King. The central tower, when completed, would tell the story of the unity of Canada and the British Empire, and what the parliament and legislatures of Canada owe to the mother of parliaments in the old land. The tower, which was to be the crowning feature of the structure, would commemorate the sacrifices of the men and women who suffered and gave their lives for Canada. The note of harmony, so impressively sounded throughout, might well be taken as symbolical of the harmony which is being sought in our national life. "Let us seek to make this noble structure a temple of reconsideration of all that pertains to our national life," said Mr. King.

Consider Speech Monday

Dr. H. S. Beland, who followed, spoke briefly in French, referring to the future that lay before parliament in tis new home and expressing his appreciation of the beauties of the new building. Sir George Foster moved for consideration of the speech from the throne on Monday.

Hon. N. W. Rowell tabled the treaty of peace between the allied and associated powers and Bulgaria. Before adjournment Hon. Charles Murphy asked Sir George Foster if he would make any statement as to when Sir Robert Borden fould return to his place in the house. "I am not prepared to do so," replied Sir George. The house then adjourned until 3 o'clock on Monday afternoon.

Anaximander of Miletus, 610-547 B.C., is believed to be the first man to have made a serious attempt to map the then known world.

Football was prohibited in England in the fourteenth century to prevent the decadence of archery.

DEAN EXPOUNDS UNIVERSITY WORK

Splendid Addresses at Evening Sessions of Extension School; Milk Discussed

In spite of counter attractions, the evening session of the university extension board held at the city hall last night for the general public drew a large attendance, and in point of interest, the addresses given were of a notable character.

Prof. F. N. Clement, dean of the faculty of agriculture, gave a most informing address on the work and policy of the university.

After commenting on the rapid growth of the institution, he explained that around the faculty of arts, the main body, were clustered the faculties of applied science and agriculture, and one just in its infancy, the faculty of forestry.

These main divisions corresponded in relative importance to the main divisions of industry in the province. The faculty of arts was necessarily the parent body, as representing a general and basic education. Applied science provided training in mining and engineering, the foremost industry of the province.

The ground covered by the faculty of agriculture naturally fell into five main divisions in this province; as, animal husbandry, horticulture, poultry raising, agronomy, and dairying, which corresponded with the main divisions of agricultural practice. Practical men of dominion wide reputation were at the head of these divisions, he stated.

Of the courses of study offered by the university on agriculture, the first wos of four years' duration leading to the degree of bachelor of science, agriculture. There were also short courses of two weeks' duration given in the winter for people unable to attend the long term. These had been suspended for the present but would be resumed as soon as possible.

A number of returned men were being trained in agriculture by courses lasting three months each, which were provided with the object of giving enough acquaintance with general farm work so that the men could gain employment as farm workers.

In addition, the short courses on the same lines as those given in this city were given, and a new departure was expected shortly which would allow of the university accepting a number of farm boys and girls who required more agricultural and general education, for tuition.

In his closing remarks the dean stated that though the university was making rapid strides it depended on the use made of it by the people of the province, and if it was to nontinue to grow it must serve an ever increasing number of students.

Milk Analysed

An extremely interesting address was given by W. Sadler, associate professor of dairying, who in speaking of "The Milk the Public Wants," told of a substance he refered to as fat soluable "A," a substance that defied chemical analysis, but which nevertheless was of such vital importance to human life that no child could make even normal growth if deprived of it. This substance was found in mild milk, and it was this that made milk and futter fat impossible of substitution, particularly for children and babies.

From these premises he went to show that this substance would be negatived in milk unless proper care were taken to have the mild milk absolutely pure.

Prof. J. A. Boying gave the first address of the evening, tracing the history of alfalfa from Egypt, where it was known as the big food yielder. He caused considerable surprize to his hearers by stating that alfalfa should be roughtly treated when it had once made good its hold in the soil, and emphasized the need for thoroughly cutting it up and stirring the soil around the roots of the plants in the spring, as a means of securing a good, strong, and rapid growth.

In the afternoon Professor Bass gave a brief talk on the principles of pruning, stating that they are based on a knowledge of the way in which buds were formed, and the relation of fruit bearing to proper pruning.

H. R. Hare, of the department of animal husbandry also gave a brief address in the afternoon, and discussed the production of pork in British Columbia, stating that less than 25 per cent of the hogs consumed in the province were raised by provincial growers, and much of the imported pork and pork products coming from eastern Canada and the eastern states.

REVIEW GUTTED

CRESTON, Feb. 26.—The worst fire the town has experienced in the business section in a dozen years occurred Monday, when the Creston Review building was partially destroyed, the whole front being burned and the rear portion gutted, this including the printery and pressroom. The building and plant are owned by C. F. Hayes.

URGES CAREFUL USE OF DURUM WHEAT

WINNIPEG, Feb. 26.—Exercise of patience and caution before introducing into western Canada durum wheats, which have been extensively grown in North Dakota for years, was counselled by W. C. McKillican, director of the experimental farm at Brandon, and L. B. Jackson in charge of the laboratories of the Western Canada Flour Mills. Their views on the subject were expressed at the convention of the Manitoba Agricultural societies today and followed an address on durum wheats by Prof. L. R. Waldron in charge of plant breeding at the experimental station Fargo, N.D.

Prof. William Southworth led the discussion and gave figures on experiments in growing wheat which had been made at the Manitoba agricultural college. He believed that the production of a white flour as rust resistant as the Kubanko variety of durum wheat could be produced. Experiments showed that Marquis took 96 days to mature while durum required 106 days, which was a point to be seriously considered in Manitoba, where early maturing varieties are needed to escape damage by frost.

INCORPORATIONS

VICTORIA, Feb. 26.—The following corporations are gazetted today; Perry Lumber and Shingle Company, Ltd., public, authorized capital $50,000; registered office, Arrowhead. Beattie-Oatway, Limited, private, authorized capital, $25,000; registered office, Creston. HOW TO DARKEN GREY HAIR

Cincinnati Barber Tells How to Make a Remedy for Gray Hair.

Mr. Frank Harbaugh of Cincinati, Ohio, who has been a barber for more than forty years, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce bay-rum, a small box of Orlex Compound and 1 ounce glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy and does not rub off."

Thin, Nervous People Need Bitro-Phosphate

Weak, thin people—men or women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

By strengthening the nerves, weak, tired people regain energy and vigor; thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health.

CAUTION—Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks. Those taking it who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.

SINCE 1870 SHILOH 30 DROPS STOPS COUGHS

REGINA CREAMERIES IN GOOD STANDING

REGINA, Feb. 26.—At the third annual convention of the Saskatchewan Cooperative Creameries Company, Limited, held here today, reports were presented showing profits for the last year of $116,900. The reserve account was increased to $142,968. The turnover was $2,342,863, an increase of 25 per cent over previous years.

BY GOLLY! IT'S A SHAME!

Why Don't You Take "Cascarets" for Your Liver and Bowels and Feel Cheery, Fit and Fine?

Cascarets end biliousness, headache, colds, and constipation so gently you're never even inconvenienced. There is no griping and none of the explosive after-effects of cathartics like Calomel, Salts, sickening Oil or cramping Pills. Why don't you take Cascarets and get rid of the bowel and liver poison which is keeping you miserable and sick? Cascarets cost little and work while you sleep.

It Is Not Enough

to have the bowels move. It is more important to persuade liver, kidneys, skin, and bowels to act in harmony and against self-poisoning. BEECHAM'S PILLS act favorably upon all organs concerned in food-digestion and waste-elimination; they remove causes as well as relieve symptoms.

THE REAL CAUSE OF MOST BAD COMPLEXIONS

It is a stern fact that no truly beautiful complexion ever came out of jars or bottles; the longer one uses cosmetics the worse the complexion becomes. Skin, to be healthy, must breathe. It also must expel, through the pores, its share of the body's effete material. Creams and powders clog the pores, interfering both with elimination and breathing. If more women understood this, there would be fewer self-ruined complexions. If they would use ordinary mercolized wax instead of cosmetics, they would have natural, healthy complexions. This remarkable substance actually absorbs a bad skin, also unclogging the pores. Result: The fresher, younger underskin is permitted to breathe and to show itself. An exquisite new complexion gradually peeps out, one free from any appearance of artificiality. Get an ounce of mercolized wax at your druggist's and try it. Apply nightly like cold cream, for a week or so, washing it off mornings.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach, accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnersia (in powder or tablet form—never liquir or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

General News of the City

COMMITTEE UPON FREIGHTS ACTS

Approves Armstrong Bill on Coastwise Shipping; Also Freight Classification

At a meeting of the freight and transportation committee, held on Wednesday, the Armstrong bill, designed to bring coastwise and lake shipping under the railway commission, and classification 16, as lately amended, setting the tariff on freight carriage of merchandise, were submitted to intensive study.

The Armstrong bill came before the board of trade from the British Columbia Retail Merchants' Association, with the request that it be endorsed, as much opposition was being worked up against it. The committee thought it advisable to recommend support of the bill.

A close study of the freight classification as proposed to be amended, showed that the majority of the changes were in he direction of improved handling, and that this general trend was not in the direction of higher charges. It was the general opinion that their net effect would be to reduce damage to certain classes of goods in transit, which would be to the advantage of both carriers and consignees.

It was decided to report favorably on the classification.

G. A. Brown was in the chair, and the others present were I. R. Poole, W. M. Cunliffe, C. H. Cauldwell, J. A. Irving, F. J. Boles, and Secretary E. F. Gigot.

E. G. MATTHEW OPENS LAW OFFICE HERE

E. G. Matthew has opened offices in Nelson as a barrister and solicitor, in the Allan block.

Mr. Matthew attended public and high school in Nelson, and graduated with the degree of B.A., at Toronto university. He enlisted in 1915 in the Princess Pats, and served with them in the trenches until wounded. He was given a commission in the 8th London regiment, and then joined the Royal Air Force, remaining with that branch until demobilization.

He was called to the bar in January, 1919, and since then he has been employed by Hamilton & Wragge.

At the beginning of the nineteenth century the West Indies supplied nearly all the cotton required for the world's markets.

RAMSAY MAKES WINTER RECORD

Road Work Has Not Been Suspended Since It Started Last Spring

With the winter about on its last legs, William Ramsay, district engineer of the provincial department of public works, has made the unusual record of keeping road work going throughout the season. While the general open conditions have permitted road construction to proceed practically without interruption, the lack of snow and the keen weather has resulted in the frost penetrating the ground to a greater depth than usual, with the result that the frozen earth has to be blased just like rock.

On the Thrums-Brilliant cut-off work is proceeding from both ends, and is well advanced. On this stretch the frost averages now 18 inches in depth.

The Three-Forks-New Denver road is also proceeding actively, the principal handicap here being that it is necessary to blanket the shots so as not to injure the power line of the New Denver electric light plant. Since this particular piece of contsruction started only once has the line been injured.

As soon as April 1 arrives and the new road appropriations become available, the surfacing of the rock sections of the recently opened Kaslo-Ainsworth road will be done.

No road building was done last winter or the winter previous.

IMPORTANT DEVELOPMENTS IN BOARD OF COMMERCE

OTTAWA, Feb. 26.—(Canadian Press)—It is stated in well informed political circles that important revelations are due when questions are asked in the house regarding the recent internal frictions in the board of commerce and it is intimated that these revelations may develop even before the questions are asked in th house. If they do come before the house deals with the matter, it is said it will be because such easly disclosure has been provoked by the publication of Judge Robson's version of his reasons for leaving the board.

Were it not for the multitude of storks that throng to Egypt every winter there would be no living in some parts of the country, for after every inundation frogs appear in devastating swarms.

SHE BUYS LESS SINCE SHE DYES

"Diamond Dyes" Turn All Her Old, Faded, Shabby Apparel Into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods,—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

413 Acres

Mixed Farming and Cattle

Everything Complete—A Great Bargain

This property offered as a going concern and includes 34 head of cattle, 6 head horses, pigs and chickens; implements of all kinds necessary to work farm; harness, and sufficient hay to winter stock. The cleared land consists of 76 acres. Of this 56 is planted to fall grain crops and the balance ready for planting. On the uncleaned land, which is all suitable for pasture, there is a great amount of timber suitable for ties and cordwood.

The buildings consist of frame house, log barn and hay loft, sheds, chicken houses, etc. School about 10 minutes walk from ranch; plenty of water piped; 200 acres fenced with barbed wire for pasture. Owners wife delicate and ordered to southern climate for change.

This property is in a good mixed farming country and surrounded with prosperous farmers. For quick sale offered at $9000, one-third cash and balance on easy terms.

I consider this a great snap and am prepared to give full particulars on request.

URSING THE FLU BROKE HER DOWN

fter Taking Tanlac Mrs. Nixon Feels So Fine She Buys It For Her Friends

"I never felt better in my whole e than I do right now and I am ing to praise Tanlac every time get a chance," said Mrs. Ethel xon, of 859 Bannatyne Ave., Winpeg, Manitoba, when she called at ggett's Drug Store at that place few days ago.

"Last Christmas our little boy ad such a severe attack of the flu e thought we were going to lose m," continued Mrs. Nixon, "and stayed up with him night and day til he finally pulled through, but e strain and worry was too much r me, and by the time he was up was almost a complete nervous and ysical wreck and about ready to ke to my bed myself. My nerves re so completely unstrung that could hardly stand the least noise, d it was all I could do to keep m screaming at times. I lost my petite and I was troubled with igestion so bad that the little I eat kept me in misery for gas med terribly bad and caused a rning sensation in my chest and in my throat, and it also pressed around my heart so that I could rdly get my breath, and it was xt to impossible for me to get a ht's sleep, for I was so restless I uld roll and toss all night long. 'None of the medicines I tried l me a particle of good and then decided to take Tanlac, as I had ard so much about it. Why, I dn't taken but a few doses before began to feel better and I could t feel my nerves getting steadier, d now they are as steady as a ck, and no kind of noise disturbs and at night I sleep as sound as child. My appetite came back d it was no time before I was eating anything I wanted without a sign of indigestion or gas. It has been several months now since I took my last dose of Tanlac and I am still in perfect condition. I have come in here today to get a bottle of Tanlac for my husband to take to a friend of ours who has been troubled terribly with indigestion for years and is in an awful condition. I have all the confidence in the world in this medicine and know it is just what he needs."

Tanlac is sold in Nelson by Canada Drug & Book Store, and by the leading druggist in every town.

CENTENARIAN OF MOOSOMIN DIES

MOOSOMIN, Sask., Feb. 26.—Allan McDougall, one of the oldest residents of this district died yesterday at the age of 101. He was born in Scotland in the same year as Queen Victoria and resided in Ontario prior to moving west; he came to Moosomin in 1884.

WANTS DETAILS OF GOVERNMENT SHIP PLAN

OTTAWA, Feb. 26.—Hon. Charles Murphy has given notice of several questions which he will ask of the government on Monday. He asks if it is true as stated in a despatch to the London Daily Telegraph that the Canadian government has decided to build ships as part of their naval policy, when was such determination reached, and when will the details be given to parliament.

He also raises the question of the contracts of sale of wheat to the Greek government. The whole affair has been called a muddle in certain newspaper reports and Mr. Murphy wants to know who will bear the loss of such, if sustained by the carrying out of the contract as stated in these newspaper articles.

Something more than a century ago paper was so dear in England that butchers used to give their customers the meat wrapped in a large vegetable leaf.

An interesting jumper blouse which recently was shown combined grenadine colored chiffon velvet with tan margot lace sleeves.

News of Sport

BLUEBIRDS DEFEATED AGAIN AT CALGARY

CALGARY, Feb. 26.—All visions that the Vancouver Bluebirds had of going to Regina in quest of the Abbott Memorial Cup dwindled here tonight when the Calgary Monarchs defeated them 8 to 0. The previous game was 1 to 0 for the Monarchs. The result came as quite a surprise as it was figured that the British Columbia champions with the advantage of their own rules would make matters interesting. They did well for twenty minutes, but then wilted. The superior weight of the locals had a telling effect.

Lineup

Monarchs	Position	Bluebirds
Thompson	Goal	Claman
Carr	Point	Muling
Edwards	Cover	Jacobs
Timmins	Rover	Rover
Curliss	Centre	Patrick
McTeers	R. Wing	Buck
Lawther	L. Wing	Smith
Scott	Sub	Steed
Wolf		Owen and Bolt

Referee, Dan McLeod; judge of play, Jack Gordon.

The goals were scored as follows:

First Period—First, Calgary, McTeer, assisted by Lawther, 7 minutes.

Second Period—Second, Calgary, Curliss, assisted by McTeer, 3.30; third, Calgary, Lawther, 6.30; fourth, Calgary, Scott, assisted by Timmins and Curliss, 3.30; fifth, Calgary, Lawther, assisted by Carr, 3.30; sixth, Calgary, Lawther, off Claman's stick, 1 minute.

Third Period—Seventh, Calgary, Lawther, off Jacob's stick, 14 minutes; eighth, Calgary, Timmins, 3 minutes.

JUNIOR HOCKEY ENDS IN A DRAW

Trail Intermediates and Nelson Cubs Battle Overtime in Fine Game

"Good hockey," was the verdict of the crowd of fans congregated at the rink last night, when Trail intermediates met the local Cubs in a game of 50 minutes duration, which ended in a draw of 2 goals to 2.

No goals were scored in the first period, which, owing to an oversight of the time-keepers, lasted only ten minutes, but was made up by a twenty minute period in the second, in which all the goals of the game were scored.

Williamson of Trail scored the first goal of the game, in six minutes play. Half a minute later Ingram of Nelson evened matters up by landing the first one for Nelson, after a straight run up from centre by the Cub's forward line. The next goal also went to Nelson, Cryderman making a clean shot for goal from away down the ice, taken *from a neat pass from wing,* after nine minutes. W. Dovey of Trail got away with the fourth and last goal of the game in 11 minutes, thereby *evening up the scores.*

Although no goals were scored in the third period both sides made fine efforts to obtain the lead, and for the first five minutes the Cubs held the puck around their opponents' net by sheer hard work. Later the Trail boys managed to reverse matters, and kept the local boys strictly on the defensive.

Five minutes overtime were played in an effort to decide the match, but with no further result. No penalties were handed out during the game.

The following was the lineup:

Trail	Position	Nelson
M. Marshall	Goal	P. Norris
A. Bell	Defence	L. Discreau
M. Lougheed	Defence	D. Hinton
W. Dovey	Rover	S. O'Genski
B. Dovey	Centre	C. Cryderman
A. McDonald	L. Wing	J. Curran
R. Williamson	R. Wing	F. Ingram
W. Howard	Sub	G. Dill, M. Marquis

Referee, Ed. Murphy. Timekeepers, R. McFarland of Trail, L. McKinnon of Nelson.

FALCONS DEFEAT MANITOBA TEAM

WINNIPEG, Feb. 26.—Outclassing *their opponents in* nearly all departments of the game the Falcons, champions of the Manitoba league, defeated the Winnipeg winners of the league 5 to 0 *here tonight in* the first game of two to decide the Manitoba championship and the right to figure in the Allan Cup elimination series.

THREE UNIVERSITIES TO HOLD REGATTA

CAMBRIDGE, Mass., Feb. 26.—Harvard will meet Princeton and the University of Pennsylvania in a triangular regatta on the Charles *river, on May 1, it* was announced last night by the Harvard athletic authorities.

TRAIN BOYS HERE TO BE SAILORS

Navy League Takes Up Matter of Local Naval Brigade; Lecturer Coming

As a result of the first steps taken last night by the Nelson branch of the Navy League of Canada, it is possible that Nelson may become a training center for future sailors. J. P. Forde, the retiring president, pointed out that the branches at Windermere and Golden were applying to the provincial division of the league for grants for boats, for the training of boys in seamanship, and he said if anywhere in the province there were the ideal conditions for training boys in this subject, these conditions existed at this point. He advised taking up the matter, with the object of having a naval brigade here.

C. W. Busk added that the branch at Vernon was also asking for a grant.

The branch directed the incoming executive to take up the matter with the provincial headquarters.

In response to a wire received yesterday from H. J. Davis, of the provincial executive, stating that Capt. Evans of the Scott South Pole expedition ,and of H.M.S. Broke fame, was now lecturing in Canada on the operations of the Dover patrol, in the interests of the Navy league, it was decided to apply at once to have Nelson put on Capt. Evans' itinerary.

Officers for the new year were elected as follows: Honorary chairman, Lieut.-Commander Rowland Bourke, V.C., D.S.O., Chevalier of the Legion of Honor; chairman, John Fraser; secretary, H. A. Lowe; executive committee: J. R. Hunter, P. G. Morey, J. P. Forde, W. M. Cunliffe, C. W. Busk, Alex. Leith.

In his report of the work of the past year, Secretary H .A. Lowe, who succeeded H. P. Thomas in that office some month's ago, described the educational campaign carried on among the schools of the district, in which the Nelson, Fairview, Willow Point, Harrop, Proctor, Bellevue, and Belfort schools competed. He referred to the visit of Lieut Helmsing with slides of Zeebrugge, the matinee *to junior members,* and the prizes for school essays on the lecture. The report also dealt with comforts forwarded to Halifax for Canadian sailors, *and to Vancouver for sailors of* Admiral Jellicoe's flagship. The tag day held last fall produced $253 for the sailors.

*The report showed an adult mem*bership of 175, and a junior membership of 37. The sum of $223.85 was forwarded to the provincial *headquarters.*

Mr. Forde supplemented Mr. Lowe's report with some further details of Lieut. Helcing's visit, and *assistance in organizing branches in* various portions of the district.

Before adjourning, the meeting passed a very appreciative resolu*tion regarding the services of Mr.* Thomas as secretary for the last year and as a private member, expressed regret at his approaching departure to Australia.

TRADE EXPERT IS AFTER DATA

Particulars Given by Commissioner Ponton; Trade Department Suggested

*When Assistant Trade Commis*sioner, G. M. Ponton visits Nelson in the net few days, on behalf of the Canadian trade commission, ac*cording to a letter just received by* Fred A. Starkey, he wants to be placed in possession of the following data:

1.—*Particulars regarding the es*tablishment of specific industries, and the possibility of increased production in industries already estab*lished.*

2.—Reasons and advantages for location of such industries in any particular district.

3.—*Capacity of plant suggested.*

4.—Estimated cost of plant.

5.—Estimated number of employees.

6.—Market for products.

7.—*Total yearly imports, domestic* and foreign, of present industry, into district such as industry would serve.

8.—*What proportion of raw ma*terials are obtainable, both domestic and local?

9.—What proportion of raw ma*terials would have to be imported,* both domestic and foreign?

10.—Market for waste and recovery of by-products.

11.—*Any further details of interest.*

Discussing the immediate future, Mr. Ponton writes:

"It has been suggested that in view of the *many problems affect*ting productions and trade conditions in western Canada, indeed all over Canada, the dominion government should organize a department having permanent representatives all over the dominion, who will be in constant touch with all such problems and working naturally in cooperation with all boards of trade and industrial development associations.

"My report to Ottawa wil strongly support the organization of such a department. Every town we have touched and interviewed, manufacturers, boards of trade, and other associations have intimated they will strongly support such an organization.

"I am requesting that every person interested should prepare detailed information concerning such problems as they have at the present moment, and in this way I will be able to show definitely at Ottawa that such an organization is urgently need, and at the same *time prove to the dominion govern*ment that we can depend on every one in the west for industrial and trade development."

Mr. Ponton is now at the coast.

SICK HEADACHES

FOR LAST 10 YEARS

Headaches affect all ages and both sexes alike, but in all cases the treatment should be directed to remove the cause, for with the cause removed the headaches vanish for *all time.*

What is necessary for a permanent cure is something that will go right to the seat of the trouble. For this *purpose it is impossible to find a* better remedy for headaches of all descriptions than Burdock's Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Flora Hall, Dominion, N.S., writes:—"I have been troubled with sick headaches for the last ten years. I had lost faith in all remedies until recently a friend of mine advised me to try Burdock Blood Bitters. This I did, and found relief in a very short time. I would now recommend B. B. B. to anyone who is suffering as I did. I only took *three bottles,* and am never troubled with sick headaches any more."

B. B. B. has been on the market for over 40 years. Manufactured *only by The T. Milburn Co., Lim*ited, Toronto, Ont.

NELSON, B.C.

At THE THEATRES

Percy Hutchison, the star of "The Luck of the Navy," which F. Ray Comstock and Morris Gest will present at the opera house tonight, is one of the leading actor-managers to today. He is the nephew of the late Sir Charles Wyndham and for the past 20 years has been one of the most prolific producers in London theatricals, in addition to acting as the personal manager and representative of this distinguished actor-uncle. For 10 years, when he was exclusively with the late Sir Charles Wyndham, he controlled all the productions at the three London Theatres managed by Sir Charles, and also acted in a number of other productions. He appeared in "David Garrick" with Sir Charles and Lady Wyndham at Windsor Castle at the notable state performance, given by command, before the late King Edward and Queen Alexandra.

"The Luck of the Navy" has been the most successful production Mr. Hutchison has ever made in London. It has broken all records of any play ever produced under his management, and yet it is a notable fact that during the past few years Mr. Hutchison personally produced in London, and acted the leading roles of the following success: "Brewster's *Millions," in which he played Monty* Brewster; "Arsene Lupin," in which he played the title role; "Capt. Kidd, Jr."; "Officer 666," "Stop Thief," "A *Pair of Sixes' and "The Off Chance,"* which was originally produced and acted in London by Mr. Hutchison.

Although a London producing *manager for 20 years,* Mr. Hutchison is a comparatively young man, being exactly forty years of age, but seems very much younger in the role of the naval lieutenant in "The Luck of the Navy."

EMPIRE WEEK

Experience Has Developed "Brain Cells" In This Expert's Finger Tips

INSPECTING leather for over 40 years, judging balance, substance and finish, has developed in this man's finger tips a "feel" that is far more accurate than the "see" of the human eye.

Each piece of leather going into the LECKIE DRESS BOOT must pass through *such an expert's hands.* And it is the thoroughness of his work that has put into the LECKIE BOOT that which gives "More Miles Per Dollar."

The LECKIE DRESS BOOT is sort of a "city brother" to the famous LECKIE LOGGING BOOT. It possesses those same rugged, wear-resisting qualities, besides having a refinement of style that is correct in every detail.

Easing your foot into a LECKIE DRESS BOOT is providing shoe insurance for months to come. Sold almost everywhere.

Look for the Name LECKIE on the sole.

The Leckie BOOT

Social and Personal

J. B. Conway of Edgewood, is visiting Nelson.

J. O. Clay, of Slocan, was in the city yesterday.

Roy McFarland, of Trail, was a visitor in the city yesterday.

P. T. Swanby, of Boulder, was a visitor in the city yesterday.

H. M. Major, of Proctor, is taking in the extension school sessions.

F. G. Graham, of Vancouver, is a guest of Mr and Mrs. J. P. Pitner.

J. E. Annable returned Wednesday night from his trip to Spokane.

Mr. and Mrs. L. Clarke, of Gray Creek, are registered at the Strathcona.

P. C. A. Biker of Glade was in the city yesterday, stopping at the Strathcona.

Capt. and Mrs. J. M. Jephson, of Boswell, were business visitors to Nelson yesterday.

Collingwood Gray, the Bonnington rancher, was at the sessions of the extension school yesterday.

Miss Rose Linblad entertained a number of her friends at an informal party at her home last night.

D. G. Mackay, who has been visiting in Nelson for the past three days, left last night for Merritt.

J. A. Grant, provincial markets commissioner, goes out to Proctor today to address a gathering of ranchers on the packing question.

Robert Anderson, manager of the Rossland branch of the Brackman-Ker company, was in Nelson Wednesday, visiting the Nelson branch, and also relatives.

Otis Hawkins, of the Mankin Lumber company, will leave this morning for Seattle, to buy a drying kiln, to be used in connection with the mill plant at Hall.

M. S. Davys, who is operating both the Silver-Bear mine on Kaslo Creek and the Hewitt mine at Silverton, arrived from Kaslo yesterday, bound for the Hewitt. Owing to the slides which are still keeping the railway line between the two basins closed, he has to come around by Nelson and lose a day.

H. R. Hare, of the department of animal husbandry, who is one of the speakers at the agricultural short course now being given in the city, made a visit to the ranch of H. Bourgeois, at Crescent Valley, yesterday, and pronounced Mr. Bourgeois' herd to be one of the finest herds of dairy cattle he had seen in the interior.

HUNDRED ATTEND WILLIS CONCERT

Nearly 100 persons attended and enjoyed the first of the phonographic concerts given at the store of the Willis Piano company on Wednesday afternoon. An extended and varied program of music by the greatest singers and the most famous orchestras was given, and the concert was successful to a degree. These concerts will be given every Wednesday afternoon for the balance of the winter.

NOTICE

We, the undersigned Moving Picture Exhibitors of British Columbia, find that owing to the material increase in the rental of pictures and all theatre supplies, it becomes imperative to either lower the standard of entertainment or increase admission prices. We are unwilling and we feel confident that our patrons would resent being offered anything but the highest class motion pictures that the market affords.

In order that our patrons may not be denied the advantage of the best, and if our theatres shall continue to operate without loss, an increase in admission is absolutely necessary, therefore kindly take notice that on and after March 1 the adult evening admission price at the undermentioned theatres will be 35 cents.

FUNERAL NOTICE
The funeral of Mrs. Archie Cunningham will take place Saturday at 2 p.m., from Robertson's Undertaking Parlors. (6569)

ARBITRATION BOARD FOR SCHOOL DISPUTES

WINNIPEG, Feb. 26.—A board of reference to investigate all cases of disagreement between teachers and trustees is created by a bill given second reading in the legislature of Manitoba this afternoon on the motion of Hon. Dr. Thornton, minister of education, amending the education department act.

The board, which will be composed of a representative of the school trustees, a representative of the teachers and a chairman, who shall neither be a trustee or teacher, was recommended by the commission which recently inquired into the status of the teaching profession in the province. It will ast as a board of arbitration at the request of either party and will have power to fix salaries.

The first division of the session took place when the house rejected a motion made by Albert Prefontaine, leader of the opposition, that counsel be appointed by him should appear for the opposition before any of the select standing committee of the legislature to cross examine any witnesses. The motion had the support of the opposition members.
