SEP 30 1918

ENTENTE TAKE 12 TOWNS, 5000 MEN

USKUB IS 15 MILES AHEAD

More Gains Made In Macedonia

BULGARIANS DEMORALIZED

Capture of City Means Big Victory for Allies

(By Daily News Leased Wire.)

LONDON, Sept. 16.—(Reuter's)—On the *Saloniki front* the Serbians have captured Veles and the Anglo-Greeks have reached the western slopes soutth. *The main line*, Monastir-Prelip-Veles, is now entirely in the hands of the allies, and the Bulgarian army is completely broken in two. These forces will undoubtedly endeavor to reunite at Uskurb, but cavalry of the allies is only 15 miles out of Uskub and it is extremely doubtful if any of the enemy will slip through.

Serbians Hold Veles

LONDON, Sept. 26.—The reports received today emphasized the demoralization of the Bulgarians, who are *retreating* in confusion leaving behind an enormous amount of material, and probably many thousands of prisoners, as the allied troops strain every energy to get to Uskub, and thereby make the victory complete.

It is pointed out that the Bulgarian army, estimated to aggregate 300,000 men, is in a very dangerous position, but the victory will not be decisive in the opinion of the military experts until Uskub, *the centre of all the enemy* communication lines, is captured. If that is accomplished, it is believed that the victory will be numbered among the few decisive ones of the war.

Advance Not Stemmed.

The renewed resistance of the Bulgarian rear guard and the arrival of German reinforcements in Macedonia have not succeeded in stemming the great allied advance. British cavalry today entered Gari, opposite Kosturino, thus avoiding the Belachista mountains which, *it is figured*, might bar its progress, while the Serbians, French, Greek and British troops routed the Bulgarians from either side of the great salient which now stretches far into Siberia.

The Serbians, who are taking the *leading* part in the liberation of their country, are at the gates of Ishtib, and British cavalry entering the town of Isver has cut the only remaining road northward—that running from Prilep to Veles, and a large body of Bulgarians is reported to be attempting to escape. This probably will lead to an abandonment by the enemy of the Bagduna mountains, which are considered virtually impregnable.

The review of the first day's fighting in this attack shows that it is not a case of the allies chasing an enemy who is willing to retreat. On Sept. 18 Greek and British forces attacked on either side of Lake Doiran, which lies almost at the eastern extremity of the present line.

Gain West of Lake.

West of the lake, the allies captured the ridge running from Doiran westward, but the allied west was driven back. Some Bulgarian outposts east of the lake were captured, but all attacks against the Bulgarian main line were fruitless. The next day the allied troops gained a little more ground west of the lake, but were unable to hold all their gains. The Bulgarians are described as having put up a determined resistance in the first fighting.

The next day, however, the Serbs, French and Italians broke the Bulgarian front westward and the Bulgarians began a general retreat along the whole line which since has developed into a rout. The report of prisoners and guns taken are not surprising, owing to the rapid advance of the allies and the centering of all allied energies in getting to their objectives.

Italians Blocking Road.

It was reported that Italian cavalry had reached the river that affords the only avenue through the mountains for the escape of the Bulgarians.

It is pointed out that prior to the beginning of this push, the allies had not great superiority in numbers, and that they face a studpendous task in maintaining communications through the 50 miles they have penetrated. Some of this country is extremely rough. *Even should the allies not take* Uskub or if there should be some other development which would prevent the making of the victory a decisive one, the experts believe that the Bulgarians have suffered so heavily in men and material that it is doubtful if the army will be able to recover without the aid of the central powers and that contingency is viewed as unlikely.

At any rate the Serbians have regained the greater part of Serbian Macedonia.

Bulgarian Official.

LONDON, Sept. 26.—A Bulgarian

(Continued on Page Two.)

PREMIER BORDEN LEAVES OTTAWA FOR REST

(By Daily News Leased Wire.)

OTTAWA, Sept. 26.—Hon. Sir Robert Borden, prime minister of Canada, has left Ottawa for a much needed rest and is not expected back in the capital before a coule of weeks.

PEASANTS HAPPY IN RUMANIA

People Revolt Against Huns on Hearing of Entente Advances—Germans Worrying.

(By Daily News Leased Wire.)

ROME—Sept. 26.—The situation in Rumania according to information received here, has become alarming to the central powers. The Rumanian peasants made enthusiastic by the victories of the entente countries are be*ginning to resist openly the German* and Austro-Hungarian military.

Local revolts have occurred at a number of places, and the Rumanian government has sent agents to Berlin and Vienna to obtain a mitigation of the Austro-Hungarian rule. The Ru*manian government is reported* to have pointed out that if its request is not granted it will be unable to guarantee the order or avoid the sanguinary crisis.

PRESS OPERATORS MAY QUIT WORK

Telegraphers Threaten to Resign Unless They Are Given $6 a Week Increase.

(By Daily News Leased Wire.)

TORONTO, Sept. 26.—Telegraphers employed by the Canadian Press, limited, receive less money now than they were given two years ago, accordin Bert Thompson, who on Tuesday morning submitted to the *Canadian* Press, limited, the resignation of practically every operator in the service unless a bonus of $6 a week is granted to meet the outgrowth of the conditions caused by the tremendous high cost of living.

Other press associations in the United States, the Associated Press, United Press and the International News Service, realizing the unprecedented high cost of living at this time, have made provision to compensate their employees, and in practically all cases they have been granted substantial increases, said Mr. Thompson. The Associated Press pay their telegraphers $40 a week in New York and in addition presented *their employees with a* $1000 life insurance policy and compensated their employees for time off during illness and also furnish them with medical attention.

As to the claim of the Canadian Press of a 7½ hour "trick" this is only *prevalent west of Winnipeg to Van*couver, says the men's representative. The men east of these points work eight hours. Although the United Press telegraphers work but 7½ hours, the United Press men employed in Toronto receive $34.10 for 7½ hours, while Canadian Press telegraphers in Toronto and elsewhere receive $30 for an eight-hour day. The night men receive $32.50. One telegrapher re*cently employed by the Canadian Press* as sending operator in New York, convinced the management of the justice of the demands for increases and was given $40 a week. He was offered more, however, by the United Press, and is now with that organization. Last week, with overtime, he made $73 and was not compelled to work at night.

Statement Not Endorsed

Prominent labor officials do not endorse the statement of Operator Thompson that the largest and strongest labor organizations have abrogated their contracts. When questioned on this subject this morning D. A. Carr, of Toronto, said:

"I am not aware of anything of the kind. I don't think it is true, it is entirely contrary to the principle of unionism."

In reply to a wire from the president of the Canadian Press, S. J. Konenkamp wires as follows:

"Have no report on situation, wiring Vice-President Campbell in Toronto for information. We will live up to our contract."

ASK MINERS TO GO BACK TO WORK IN BUTTE

(By Daily News Leased Wire.)

BUTTE, Mont., Sept. 26.—Striking miners today were requested by Federal Mediator Tom Barker to resume work with the understanding that trouble existing between them and the mining companies will be adjusted by the national war labor board.

Government policies were outlined to the men by Mr. Barker at a meeting of I.W.W. miners this afternoon. He promised them that he would not file his report in Washington until he had completed a thorough investigation of conditions and demands.

They will answer Mr. Barker tomorrow night.

The Metal Mine Workers' union declared that its members would abide by the decision of the I.W.W. by whom *the strike was called. A conference* between Mr. Barker and the mining operators is being arranged.

SURROUNDING TURK TROOPS

Ottomans Are in Bad Plight

FLEE TOWARD DAMASCUS

Jordan River Crossings Now in Allied Hands

(By Associated Press.)

Turks in Palestine are being sadly harassed by the British and the tribesmen of the king of the Hedjaz. Almost surrounded east of the Jordan, the Turks are frantically endeavoring to extricate themselves from the converging allied forces. From the east and south, the British are driving the *Ottomans northward and coming south* to meet the enemy and crush him between the two allied forces are the Arabs.

Seemingly, with all the crossings of the Jordan now in allied hands, the Turkish fourth army has little chance *to escape.*

Overcome Resistance.

LONDON, Sept .26.—Reuter's—In Palestine the southern and western shores of the Lake of Tiberius are generally in our hands. The Turkish garrisons resisted stiffly but were overcome. Our cavalry occupied Amman and are now driving the enemy up the Hedaza railway into the arms of the Arabs at Deraa. Some of the enemy may escape to Damascus, others going southward to the Dead Sea, the object being to extricate the garrison, which is being hard pressed by the Arabs.

Full Strength Unknown.

LONDON, Sept. 26.—The full Turkish strength in Palestine is not definitely known, as hardly two Turkish divisions are of the same size or organization. It is known that the allies had to deal with 18,000 fighting men west of the Jordan, with about 10,000 men on communication, as well as many thousand east of the Jordan.

One of the chief advantages of the victory is that it will allow a large British force from this section being used on the western front, or any other front.

The communications of the Turkish army in Mesopotamia cannot be con*sidered secure. It is pointed out that* there is justification for the Turkish operations in Persia, which will be paralyzed in view of the allied successes in the Balkans, which seriously threaten the Turkish position in Europe. But it is also shown that even should the allies push on and capture Aleppo and cut the Bagdad railway it would only result in Turkish evacuation of upper Mesopotamia and not af*fect the Turkish army in the Caucasus* and Persia, which is based on the Black sea.

The military critics do not fail to point out also that the attack in Palestine was timed to take place when the Germans were unable to spare men from the western front.

NO SETTLEMENT OF FERNIE STRIKE

Describe Situation as One of Expectancy—Conferences Being Held—Outlook Hopeful

(By The Daily News Leased Wire.)

CALGARY, Sept. 26.—Expectancy is the word that describes the present *situation* of the Crow's Nest strike. Several conferences were held today, but none of the principals would divulge what took place. Hon. Wm. Sloan, minister of mines, acknowledged that conferences had been held and said the outlook was hopeful, but would not discuss matters further.

William Wilson, manager of the mines at Coal Creek, is expected to return to Calgary tomorrow and there *is a general feeling* that some definite solution of the difficulty will be arrived at before night. The miners in district 18 are are becoming restless at the continued delay and may demand definite action if it is not speedily forthcoming.

SAYS SULTAN IS ANXIOUS FOR PEACE

(By The Daily News Leased Wire.)

LAUSANNE, Switzerland, Sept. 26.—(Havas Agency)—Public irritation in Constantinople has become so great, according to a despatch from the Turkish capital to the Lausanne Gazette, that rumors are again spreading *that the Ottoman government will seek* a separate peace. The sultan, himself, the Gazette says, would favor a separate peace if he could obtain favorable conditions from the entente powers.

"You Have Set An Example," Avers King To Nurses

OTTAWA, Sept. 26.—Fred James, official correspondent with the Canadian forces in the field, France, writes as follows:

"During his visit to France his majesty paid a visit to the Canadian hosital at Doulins, which was deliberately bombed by the Huns a few months ago. The king had once before inspected the building, just after the Amiens retirement in March and had congratulated the staff on the excellent work they were doing. His majesty had especially admired the big operating room at that time but on this occasion he found it a mass of charred ruins. From the lips of the commanding officer the king heard the *story of outrage and as he was leaving* the royal visitor paid a splendid tribute to the sisters and doctors.

"By continuing your work of mercy after such a terrible experience you have set an example to the whole world."

Another Canadian unit the king inspected was the railway construction battalion, which is turning a placid French landscapes into one of the *largest railway yards in France.* Steam shovels were leveling the rolling country, bridges were rising across the little rivers which flowed through the valley and miles of track were being put down each day The king watched the scene with such fascination that *he remained much longer than he ex*pected and had to curtail other engagements for the afternoon. He finally rode away on a Canadian ballast train

NAVAL CRAFT SINK TWO SUBS

One German Is Saved When U-Boat Destroyed by Different Aggressors.

(By Daily News Leased Wire.)

LONDON, Sept. 26.—The destruction of two submarines by naval craft *is described here as follows:*

"The captain of a destroyer saw a German U-boat attack a merchant steamer two miles off. The destroyer went to the assistance of the steamer and the submarine dived.

"When I judged that we were direct*ly over her, I let go a depth charge,* with a life buoy to mark the spot," said the captain. "Within 15 seconds of the explosion the submarine came to the surface with a slight list to starboard. Immediately the conning tower showed above water all our starboard *guns opened fire and the conning tower* was riddled."

A British submarine accounted for the other German U-boat.

"I fired both bow torpedoes almost simultaneously," said the captain of the British submarine, "and about a *half minute later there was a terrific* explosion, a big flame and a fountain of water 100 feet high. The German submarine totally disappeared. There was a lot of oil about and the smell of paraffine but no sign of any part of the boat. I heard shouting in *the water and picked up one man.*"

ITALIANS REPULSE FOE; ARTILLERY IS ACTIVE

(By The Daily News Leased Wire.)

ROME, Sept. 26.—The war office *statement issued today says:*

"There have been artillery duels of some intensity in the Pasubio region at Cima Di Val Bella, and Col Del Rosso and in the area along the Piave, near Pazillon and Sibbo.

"Enemy reconnaisance parties were driven back by patrols at our advanced posts at Bertigo and in the Ornic valley."

ARREST VETERAN AS AN IDLER

Lieut. McCormick Disappears After Being Allowed Out on Bail at Vancouver

(By The Daily News Leased Wire.)

VANCOUVER, B. C., Sept. 26.—Lieut. John W. McCormick, one of the original Princess Pats, and a veteran of three years' fighting, including St. Eloi and Vimy, was arrested at his home by plain clothesmen Wednesday night as an idler. Despite his protestations he was taken to the city jal, where later he was released upon $100 cash bail. Returning to his home, Lieut. McCormick, greatly agitated, went to bed. Today he is numbered among the missing, leaving shoes, coat and hat in the house.

Tonight delegates from various military organizations joined in a delegation which will wait upon the attorney general and will demand an investigation of the police department by means of a royal committee. R. H. Young, secretary of the Campaigners of the Great War, announced tonight that recent deportment of the police force toward returned men will not be allowed to further pass unnoticed. McCormick's arrest and subsequent disappearance have caused a sensation.

SPANISH GRIPPE STILL SPEADING

More Cases Reported in Canadian and U. S. Army Camps—Civilians Stricken in St. John.

(By Daily News Leased Wire.)

CAMP MEADE, Md., Sept. 26.—Tomorrow the big cantonment of 50,000 will be quarantined because of the spread of influenza. There are now 1500 cases.

200 Cases in Niagara Camp.

NIAGARA CAMP, Ont., Sept. 26.—Two more deaths occurred today in the Polish camp from Spanish influenza. This makes a total of eight so far, all privates. There are about 200 cases in the Polish camp hospitals.

6139 New U. S. Cases.

WASHINGTON, Sept. 26.—During the 24 hours ending at noon today 6139 new cases of influenza in army camps had been reported to the office of the surgeon-general of the army. One hundred and seventy deaths, resulting chiefly from pneumonia following influenza and 723 new cases of pneumonia also were reported.

100 Die Daily in Italy.

NAPLES, Sept. 26.—The epidemic of Spanish influenza, complicated by acute pulmonary conditions in many cases has caused many deaths estimated at about 100 daily. Rome, Milan and other cities are similarly affected.

BOSTON, Mass., Sept. 26.—An urgent appeal for nurses to assist in combatting the alarming spread of influenza and pneumonia in this state was made tonight to Mayor Thomas, through the church of Toronto by Lieut. Governor Colidge, who declared that the state's medical and nursing resources were taxed to their limits, and that many cases were re*ceiving no attention whatever.*

The humanitarianism and skill of Canadian nurses were so well recognized, Lieut. Governor Colidge said, that he had no hesitancy in addressing his appeal to the mayor of Toronto. Any aid Canada could render, he said, would be gratefully accepted by the state.

HON. BURRELL SPEAKS AT FAIR

Minister of Mines Talks to Exhibition Gathering on Current Topics—Discusses War Loan

Hon. Martin Burrell, minister of mines, in a brief address at the Nelson fair last night expressed his pleasure at the development of an exhibition, the start of which he had witnessed 16 years ago. He spoke of the part fairs did in helping the production which was a war necessity.

"I know something of the difficul*ties with which you have been faced* in keeping up your production during these trying years of war," Mr. Burrell said. "The best of your manhood is abroad fighting the battles and achieving that success which alone makes it possible for us to live in peace and comfort at home. Recreation and innocent pleasures we must still have and I am quite sure that those I am addressing, from the *youngest child to the oldest man* in the room will never cease to remember those who are sacrificing themselves for us and will never slacken their efforts to give them that full support which they so richly deserve from those of us are left behind."

In an interview with The Daily News later, Mr. Burrell touched on several questions of public interest. In reference to the approaching victory *loan the minister expressed* every confidence that there would be a wide and satisfactory response. He pointed out the gratifying feature that today the savings deposits in the chartered banks of Canada were $300,000,000 more than they were in 1914, that the post office savings deposit were still keeping up and that in addition there had been no less than $750,000,000 subscribed by the people of Canada to *the various war loans.*

"Four weary years of war," said Mr. Burrell, "have not weakened the energies or daunted the courage of the Canadian people in financial power or manpower. In respect to the latter, in spite of the sacrifices involved we have been enabled up to Aug. 31 to send 411,000 men overseas. It is no exaggeration to say that the Canadian army corps is today one *of the most formidable fighting forces* on the western front with every division up to full strength and thoroughly equipped in every particular. Since the drive of the early part of August and culminating in the smashing of the famous Drocourt Queant line, the Canadians have captured more than 14,000 prisoners, 250 heavy guns and thousands of machine guns. It is true that the casualties have been *heavy, but there has been no more* brilliant achievement since the start of the war, and it must never beforgotten that the magnificent morale of the men who have been able to do these things is partly due to their conviction that they would be supported by their people at home and in spite of the sacrifices involved we have not failed in that support.

Mr. Burrell, in discussing the min*ing question of the Kootenay express-*

(Continued on Page Two.)

FRANCO-AMERICANS GAIN 7 MILES ON 20-MILE LINE

Allies Sweep West of Verdun, Completely Smashing German Defenses and Adding to List of Gains---Town of Servon Held by Teutons Since 1914 Captured

(By Associated Press.)

Twelve towns and more than 5000 German prisoners have been taken by American troops, fighting in conjunction with the French, in a new of*fensive begun* with the break of day Thursday in the region extending from the northwest of Verdun to within 15 miles of the cathedral city of Reims.

Advance Averages Seven Miles.

The Americans advanced to a depth of *seven miles, overcoming the* stubborn resistance of the enemy. Pennsylvania, Kansas and Missouri troops were among the fighting forces, which in less than a day won territory of great importance to the enemy and further depleted his army through men captured, killed or wounded.

Americans in New Sector

American troops have taken over a new sector in France, and in conjunction with the French have forced the Germans *on the defensive on* still another battlefront.

The gage of battle has been thrown down on a 40-mile front, extending from the Suippe river, in Champagne, *15 miles* east of Reims, eastward through the Argonne forest to the Meuse river northwest of Verdun.

Gain Ground Rapidly.

In the first stages of the battle the allied lines were rushed forward for material gains—that portion immediately northwest of Verdun held by the Americans to a depth of from five to six miles and that of the French to the west nearly four miles at certain points.

Under the terrific bombardments preceding the commencement of the battle the Germans hurriedly quit numerous positions and into these the Americans and French went unimpeded. At last accounts the allied attack was progressing favorably. Many French villages and German strong points had been captured.

Pershing's Statement.

WASHINGTON, Sept. 26.—Attack*ing this morning over a front of 20* miles west of Verdun, in cooperation with the French, the American first army advanced to an average depth of seven miles and captured 12 tonws and more than 5000 prisoners. Gen. Pershing's communication follows:

"*Section A—This morning north of* Verdun the first army attacked the enemy on a front of 20 miles and penetrated his line to an average depth of seven miles.

"Pennsylvania, Kansas and Missouri troops serving in Maj.-Gen. Liggett's *corps stormed Varennes, Mont* Blainville, Vauzuers and Chappy after stubborn resistance. Troops of other corps crossing the Forges brook, captured the Bois de Forges and wrested from the enemy the towns of Malancourt, Bethincourt, Mont-Faucon, Cuisy, Natilles, eptbarges, Danneoux and Gercourt-et-Drilliancourt. The prisoners thus far reported number 5000."

Take Vantage Positions.

WITH THE FRENCH ARMIES IN THE CHAMPAGNE, Sept. 26.—7 p.m.—Troops of the French army operating in conjunction with the Americans, in a battle along the Champagne front, have today conquered positions that the Germans have been fortifying for four years, positions that they have sacrificed thousands of men to hold. *The French losses have been remark*ably light in spite of the fact that the German resistance stiffened this afternoon.

Gen. Gouraud's soldiers, who advanced to those positions three years ago, and have been facing them ever *since, are now enjoying a peculiar sat*isfaction in being in them.

In the battle of Champagne in 1915 the taking of these positions would have demanded sacrifices that the advantages to be gained then would not warrant. The situation has changed *now. Successive blows dealt the Ger*mans on the different parts of the front give a different meaning to the attack.

Prisoners Coming in.

The number of prisoners taken by the French is increasing steadily. They *are filing back by all roads in groups* of from a score to several hundred. Among them there is a larger proportion of very young than heretofore taken. Some of the captives are recruits of the 1920 contingent.

They are leaving behind them scores *of burning villages.* Thirty had been observed in flames up to noon today. Even this additional and unjustifiable devastation can scarcely add to the desolation that has been spread over the sharply disputed ground. The ridges are covered thick with shell *holes that touch each other every*where; all vestiges of vegetation long ago disappeared, the surface of the ground giving the impression that it must have been reduced to a state of mud violently churned and difficult to dry. The ground is crossed and criss-crossed in every direction by trenches that have been blown out of shape.

A feature of today's operation was the activity of the enemy's airmen, which furnished several spectacular encounters with French observation balloons and anti-aircraft. White puffs from the French shrapnel were seen everywhere over the field.

French Hit West of Forest.

WITH THE FRENCH ARMY ON THE CHAMPAGNE FRONT, Sept .26.—The French troops attacked the German positions in the Champagne from Aubervie to Main Masignes this morning about 5 o'clock and carried their first objectives without much opposition except on the left where rather stiff fighting was required.

By 9 o'clock Gen. Gouraud's troops had taken Servon which had been in German hands since 1914 and were in possession of the Main Massignes, Butte du Missnl and Navarin.

The operation which was personally directed by Gen. Petain, recalls in some of its features the first battle of the Champagne, of which yesterday was the anniversary. Gen. Petain was then as now in command and the direction of the attack was the same, but the means available for the attack then were less in proportion to the material obstacles to be overcome.

The developments today resembled also those of the second battle of Champagne in July. Then Gen. Gouraud skillfully met the German thrust by drawing his infantry back out of range of the artillery, leaving his own guns in position to inflict smarting losses on the advancing infantry. It is learned from prisoners that the Germans were imitating Gen. Gouraud in retiring their infantry from the first line, but that is as far as they profited by Gouraud's lesson. Their artillery went back with the infantry.

Reaction Is Feeble.

The reaction against Gen. Gouraud's artillery preparation was feeble. The French guns, heavy and light, opened fire at 11 o'clock last evening and for six hours the front of that attack was clearly defined, a long line of bright *flashes lighting the fog and the sky,* with here and there steady glow from burning dumps of munitions and supplies behind the German lines.

The glare of the bursting German shells could be seen from time to time, between the flashes of the French guns, until about 4 o'clock, when their artillery reaction practically ceased.

French aviators, favored by bright moonlight, took the air and cooperated *with the artillery* by bombing the enemy's positions and attacking his troops with quick firers.

After six hours of preparation in the last hours of which it developed into an intense drumfire, French infantry bounded out of the trenches in a thick fog which furnished the best possible camouflage, covering the lower ground and ravines to the slopes of the heights where most of the formidable German positions were to be stormed.

The abandonment by the Germans of formidable positions that they had not ceased to strengthen from the time they occupied them reveals a state of nervousness, symptoms of which have *appeared at different points along* the front during the past month. This is taken more as a confession of weakness than a tactical measure.

Attack on Aniversary.

LONDON, Sept. 26.—The new allied *offensive in the Champagne* was begun three years almost to a day after the first offensive of the French on the same front on Sept. 25, 1915. The French army is conducting the attack anew with American forces and the front extends to the east and west of the *Argonne forest.*

"The fourth army," says La Liberte, "has held this sector since the first battle of the Marne. The enemy expected the attack, it is learned, and his troops in that sector had been given special instructions. The struggle will be *of a different character* to those indentified in recent communications which showed the allies almost galloping to victory."

French Official.

PARIS, Sept. 26—The Franco-Amer*ican attack on both sides of the Ar*gonne is progressing satisfactorily, according to the war office statement tonight. French troops have made an advance of nearly four miles on certain points west of the Argonne. The statement says:

"Storming Franco-American troops, in close contact carried out an attack on both sides of the Argonne.

"The operations continue satisfactorily. The French troops at some

BRITISH AIRMEN BOMB GERMAN CITY, FRANKFORT

(By The Daily News Leased Wire.)

LONDON, Sept. 26.—(9 p. m.)—British airplanes yesterday dropped bombs on the German city of Frankfort, according to an official statement issued this evening by the war office. Five enemy machines were shot down. Four British airplanes are missing.

Another communication says:

"On Wednesday 10 enemy machines were brought down. In 24 hours we dropped 35 tons of bombs on airdromes and railways."

SAYS REIGN OF TERROR IS OVER IN MOSCOW

(By The Daily News Leased Wire.)

AMSTERDAM, Sept. 26.—The Russian Bolsheviki has issued a decree rescinding its reign of terror, according to the Mir of Moscow. The question was discussed at a meeting of the central committee of the Soviet, the newspaper says, and when Premier Lenine expressed an earnest desire to *return to orderly methods of government* a number supported him.

INTERNATIONAL NEWS SERVICE ALLOWED AGAIN

(By Daily News Leased Wire.)

OTTAWA, Sept. 26.—Col. Chambers, the chief press censor, today issued instructions to the telegraph and telephone companies restoring to the International News Service the privilege of using Canadian land line telegraphs and long distance telephones as previous to the institution of the embargo placed upon this news service in 1916. The manager of the International Service has pledged himself to strict compliance to Canadian press censorship requirements. The change does not affect the embargo placed upon the admission to Canada of the so-called Hearst newspapers.

COSTS 67 PER CENT MORE TO LIVE IN PHILADELPHIA

WASHINGTON, Sept. 26.—Cost of living investigators of the bureau of statistics now working in the principal cities, reported today that costs in Philadelphia have increased 67.17 per cent since December, 1914. Clothing *increased 108.12 per cent in cost*; furniture, 105.76 per cent; food, 68.09 per cent; housing, 9.69 per cent, and fuel and light 31.65. The increase was 13.36 per cent since December, 1917.

REV. RUSSELL OF ENGLAND COMES TO LECTURE

NEW YORK, Sept. 26.—Right Rev. Henry Russell, Wakefield, Episcopalian bishop of Birmingham, England, has arrived in the country to undertake a speaking tour in Canada.

FRANCO-AMERICANS GAIN 7 MILES

(Continued from Page One.)

points west of the Argonne advanced six kilometres."

Huns Withdraw Forces.

PARIS, Sept. 26.—American troops attacked west of the Verdun region in cooperation with the French this morning. The Germans anticipating the attack seemingly had withdrawn a portion of their forces.

According to the latest official reports reaching Paris, the American advance is progressing well and is now from five to six miles from the point of departure. Among the places taken are Gercourt, Cuisy, Cheppy and Varennes, all northweset of Verdun.

Gen. Gouraud's progress also has been good, his troops having occupied the enemy's first line.

British Are Advancing.

BRITISH HEADQUARTERS IN FRANCE, Sept. 26.—(Reuter's)—Last evening after a sharp bout at bombarding and bayonetting, the British took a trench of some length—a section of a small formidable line. By sundown they had worked through Celency to the neighborhood of Chateau wood.

Between here and Fayette the Germans delivered several counterattacks without achieving any results. These minor affairs gave the British three figures in prisoners and a good haul of machine guns and small arms.

British Prisoners 1500, Total.

LONDON, Sept. 26.—Two British divisions have captured in the last few days a German system of trenches *and strong points northwest of St.* Quentin with 1500 prisoners, according to the war office statement tonight. There were only minor encounters today.

The text of the statement reads:

"Except for encounters between raiding parties and patrols on different parts of the front, in the course of which we captured a few prisoners, there is nothing of special interest to report.

"In the past few days the 1st and 2nd divisions of the corps, under command of Lieut.-Gen. Sir W. P. Braithwaite, captured by hard fighting, but at a small cost, an intricate system of trenches, strong points, woods and villages northwest of St. Quentin, with over 1500 prisoners.

"In these operations the enemy has delivered many counterattacks in strength, all of which have been repulsed by the troops concerned with great gallantry and determination."

Intentions Undiscovered.

WITH THE AMERICAN ARMY ON THE CHAMPAGNE FRONT, Sept. 25—The assumption of the general staff that the Germans had not discovered the intentions of the Americans to attack was proved by the earlier phases of the fighting. Apparently dazed by the suddenness and ferocity of the artillery preparation, the German artillery reaction was slow in being registered. It never recovered its balance. Fromthe minute the Americans swarm*ed forward the inferiority of the ene*my resistance was marked. Early this morning the enemy had laid down artillery fire calculated to cover a local road. That incident was quickly forgotten in the magnitude of the operations that followed.

One division reported the capture of twenty .77 guns and plentiful supplies of ammunition. The check of the amount of booty has not yet been taken, but every report indicates that the amount of it will be large.

Officer prisoners show that there was much enemy perplexity as to the exact point of attack, but say they were aware that one was impending.

Gen. Gouraud Leads

WITH THE FRENCH ARMY ON THE CHAMPAGNE FRONT, Sept. 26. (Reuter's)—Three years and a day after launching their memorable Champagne offensive of 1915, the French again attacked the German front along the line of the old battlefield today.

The attacking army was led by Gen. *Gouraud, with Gen. Petain in supreme* command. Brief reports already received warrant full confidence in the result.

Gen. Gouraud's tactics on July 15 were imitated by the German command and the enemy troops were quietly withdrawn from the exposed advance, and as soon as it was realized that an attack was imminent.

The enemy left only a few posts in *command of non-commissioned of*ficer to maintain a semblance of resistance. The French general, however, is not a man to fall into his own trap. When it was learned that the enemy was falling back on his principal line of resistance fresh orders were issued to the artillery, and instead of battering the empty trenches abandoned by the Germans, the French batteries kept their fire directed with appalling intensity on the German defences and the road over which the enemy reserves were moving up.

Losses Are Light

At 11 o'clock last night the allied artillery preparation began. One night cannonade is very like another, but an interesting feature of this one was that the enemy's reaction was unexpectedly feeble and caused but slight losses among the troops moving to the attack.

Shortly before dawn the roar of the guns rose to hurricane violence in preparation for the assault which was launched just as the day was breaking. As the Germans did not resist in their advance soon this was quickly penetrated along the whole front. In the first hours of the battle some of the highly important buttresses of the fortress which the Germans had dug for themselves fell.

Still Threatening St Quentin.

Around St. Quentin both the British and French armies have made further progress against the Germans and repulsed heavy counterattacks. In Flanders and also near Arras, the British have advanced their fronts.

Berlin's Report.

BERLIN, Sept. 26.—The attacks by Franco-American troops launched on a wide front this morning in Champagne and between the Argonne forest and the Meuse rivers has not succeeded in *breaking the German front, according* to the German official communication issued this evening. The battle began after artillery preparation lasting 11 hours and the fighting continues.

The text of the communication follows:

"In the Champagne and between the Argonne and the Maas (German for Meuse) Franco-American attacks have commenced on a wide front after *11 hours' artillery preparation.*

"An American break-through has been frustrated. The fight for our positions continues."

USKURB IS 15 MILES AHEAD

(Continued from Page One.)

communication issued today and received here today says:

"North of the Cerna without being *disturbed by the enemy, our units re*tired in accordance with plans on the Babuna range. Near Krivolka the enemy attacked with strong forces. The fighting continues."

Will Not Move Now.

PARIS, Sept. 26.—In an interview with the Associated Press, the Serbian minister to France, Dr .Vesnitch, said:

"The Serbian government would not remove to Monastir for the present; *the work necessitated by the removal* of the archives and documents of all sorts from Corfu to the mainland would have to be repeated when the allied troops captured other cities in old Serbia."

The minister would not specify, but intimated that the Serbian government would not leave Corfu until Uskub was solidly occupied by the allied troops. Asked about the probable ef*fect of reinforcements of German* troops sent from Rumania under Field Marshal von Mackensen, the minister replied:

"The German troops in Rumania are old classes of the landsturm. do not believe that Von Mackensen has with him any great reserves, but only has an army of occupation necessary to hold the Rumanians down under the mailed fist. If reinforcements are drawn from Rumania the country will soon make things uncomfortable for the remaining garrisons and Von Mackensen would have a hostile population in his rear, hampering communications."

Von Mackensen Dubious.

He referred to Von Mackensen as unwilling to assume charge of the armies of Ferdinand.

"The Germans will probably come," he said, "but they will not be led by Von Mackensen. The German field marshal, owing to his English extraction, has always refused to meet British troops and he has already told the *kaiser so, when the latter, last spring,* asked him to assume charge of part of the operations on the western front.

"Von Mackensen has made the biggest reputation of any German general in this war. Having conducted his campaigns to a successful conclusion on the eastern front, in Rumania and in Serbia, he is unwilling to risk defeat by leading Bulgarian soldiers."

PILES

Are you a sufferer? Know that terrible aching, dragging-down pain, that robs you of pleasure, even of rest, and makes life miserable? Don't you believe in the law of average? If a remedy has cured hundreds of people, don't you think it likely it *might* at least cure you?

Just give Zam-Buk a fair trial!

Mr. J. McEwen, of Dundas, suf*fered from piles for fifteen years.* He says: "I tried pretty nearly everything, but got no permanent relief until I tried Zam-Buk. This balm relieved the pain; continued use completely and permanently cured me."

The rich herbal essences of which Zam-Buk is composed, quickly remove congestion, relieve the dull, gnawing, burning pain, and cure.

ed his gratification that the various questions in dispute between the ore producers and the smelter were now to be gone into by S. S. Fowler, Ivan DeLashmutt and J. Anderson, and he believed that the result of the investigation which will be carried on will do much to clear the atmosphere of any misconceptions that have obtained and tend towards the adjustment of any difficulties which may have existed.

Mr. Burrell has recently put an assayer at Vancouver for the purpose of assaying platinum and purchasing it at the rate which he was enabled to arrange recently with the British government, namely $105 an ounce.

"This metal," said the minister, "is *in extraordinary demand for war pur*poses and we are doing everything in our power to assist in further discoveries and increased production."

Mr. Burrell leaves his morning for the boundary and after a brief trip through the Okanagan will be at the coast for a short while before returning east.

Touching on the Siberian expedition, the minister stated that arrangements were being rapidly proceeded with and he expected that the despatch of the first shipment of troops to Vladivostok would take place in the very near future.

Mr. Burrell is accompanied by Mrs. *Burrell on his trip.* They were guests at the Strathcona last night.

JUDGE HONEY COMPETION

Keen Competition Noted in Beekeepers Class at the Fair—Announce Prize List.

Keen competition was noted in the honey competition judged at the fair yesterday. The display which was arranged in the central part of the building attracted considerable atten*tion. John Blinco of Creston did the* judging. The Nelson Hardware company also contributed to the exhibit by showing a number of articles used in beekeeping. Following are the prize winners:

Best 12 one-pound jars of extracted honey—T. L. Bloomer, W. J. Sheppard and Gordon R. Brown of Robson.

Best 6 one-pound jars of extracted honey—H. E. Sainsbury, Cranbrook; T. L. Bloomer and G. R. Brown.

Best one-pound jar—H. E. Sainsbury, T. L. Bloomer.

Best 12 one-pound jars of chunk honey—W. J. Sheppard.

Best 6 one-pound sections comb honey—W .J. Sheppard.

Best section of comb honey—W. J. Sheppard.

Best deep frame comb honey—A. E. Pittaway, Castlegar.

Best exhibit beeswax—A. E. Pittaway, W. J .Sheppard.

Best jar fruit preserved in honey—W. J. Sheppard, A. M. Black.

Best jar of jam made with honey—*W. J. Sheppard.*

Best single comb of observatory hive of Italian bees—A. E. Pittaway, W. J. Sheppard.

MORE PUBLICATIONS BANNED IN CANADA

Secretary of State Issues Warrants Forbidding Possession of Numerous Publications.

OTTAWA, Sept. 26.—Warrants have been issued by the secretary of state under the orders respecting censorship forbidding the possession in Canada of the following publications:

Defense News Bulletin, published by the Industrial Workers of the World at Chicago, probably the most widely circulated I.W.W. publication not previously under the Canadian censor's ban. Anarchism and Communism, a pamphlet printed in the Russian language, the place of publication and identity of the publishers being unknown. Kolol, another Russian pamphlet of the same description. To The Young Workers, a pamphlet in the Russian language and published by the Union of Russian Workers in the city of New York. The three last named publications are all of the Bolsheviki anarchist type. Attempts were being made to circulate large numbers of these publications in Canada.

COFFINS TO BE MORE SIMPLE

U. S. Army Needs Wool Used in Broadcloth, So California Will Ban Rich Shrouds.

(By Daily News Leased Wire.)

SAN FRANCISCO, Cal., Sept. 26.—*Bronze coffins, rich shrouds and trap*pings and all but the simplest settings are to be eliminated in funerals after Oct. 1, according to an announcement at the fourth annual convention of the California Funeral Directors' association by its chairman, Charles H. J. Truman, today.

Mr. Truman read a letter from the war industries board saying that the broadcloth coverings must go, as they *contain wool needed for army cloth*ing, and shrouds must be reduced to four styles for men and eight styles for women, with black, white and gray as the only colors permissible. Present shroud styles are legion.

THEY'RE SAVING GAS IN VICTORIA TOWN

(By Daily News Leased Wire.)

VICTORIA, B. C., Sept. 26.—The gasoline situation has taken definite shape from an economical point of view, 75 per cent of the dealers having closed up absolutely on recent Sundays and the remainder are following suit. Reports from the district show that 50 per cent fewer cars were on the roads leading out of Victoria last Sunday and the percentage undoubtedly will increase next Sunday. *The suggestion was made that a rec*ord should be kept of all numbers of motor cars by the police, with a view to action similar to that in the United States, wide publicity given to owners. No estimate is available of the saving in the amount of gasoline.

SANDERS, TURK LEADER, ON WAY TO BERLIN

(By Daily News Leased Wire.)

GENEVA, Sept. 26.—Field Marshal von Sanders, commander of the Turkish forces, who fled from Nazareth shortly before the attacking British troops appeared, has reached Constantinople. Advices from the Turkish capitay say that Von Sanders will return at an early date to Berlin.

TROOPS MUTINY IN PARAGUAY; REVOLT CRUSHED

(By Daily News Leased Wire.)

ASUNCIAN, Paraguay, Sept. 26.—A mutinous outbreak of troops in the district of Villa Hayes has been suppressed. Calm now prevails throughout the republic. Dr. Eduardo Scherer, former president of Paraguay, has been appointed minister of war.

SOLDIER SHOOTS GIRL, THEN KILLS SELF

(By Daily News Leased Wire.)

HACKENSACK, N. J., Sept. 26—Pte. Edward Kutler, 27 years old, home for a short furlough from Camp Meade, and his sister-in-law, Mrs. Frederick Kutler, his former sweetheart, were found dead today in a room in the girl's home in Park Ridge. Both had been killed by revolver bullets. Murder and suicide was indicated in a note left by Kutler.

TALK FISH AND GAME QUESTIONS

Representatives from Kootenay and Boundary Hold Convention—Will Submit Resolutions.

A representative gathering of sporting men from East and West Kootenay and from Boundary districts gathered in the city hall yesterday morning for a convention with a view to discussing fish and game questions. Mayor M. R. McQuarrie called the meeting to order and explained why it had been called. He asked those gathered to choose a chairman and secretary and the meeting appointed Mr. McQuarrie and A. M. Black as secretary.

Letters were read from J. W. Cockle of Kaslo, the Windermere district board of trade and L. Ogilvie gave information bearing on the subjects of discussion.

Dr. Henderson of Creston was among the more ardent members who took part in the discussion and the convention profited by his experience in game and fish problems.

Following ideas outlined by Mr. Ogilvie, the meeting considered resolutions should be drawn up and presented to the Dominion and provincial governments asking for a fish hatchery at Nelson.

Windermere Report

A report was received from the Windermere district board of trade embodying the board's opinion on fish and game preservation throughout the province. The report said that the point in which it was particularly interested was the conservation of game and its proper breeding. In regard to conservation the main thing was better protection from Indians and poachers.

It was pointed out that in the Windermere district, embodying about 3200 square miles, but one game warden was employed in that area. At times there were two. It was generally conceded that in such outlying districts it was not advisable for one warden to be by himself so that when the patrol was made by two there was little ground effectively covered at seasons when protection was most necessary.

Dismissing of Wardens

When changes had been made in the government, sometimes, for various reasons, the service of the game warden had been dispensed with in favor of a new candidate for office. As a consequence of this it was seen that each new incumbent held the duties of his office more or less lightly and cared not for the naturalist or game-keeping end of the work. The board believed that the convention should urge a larger number of game-keepers and that they would be taught the art of game-keeping and that the appointments should be non-political and for life, or during good conduct.

Along these lines much was hoped for from the newly appointed provincial board of game conservation. In this respect it was to be remembered that the vast eastern area was not strongly represented as regarded numbers.

Stocking of Lakes

The board stood for the stocking of the larger and more convenient lakes lakes with good, gamey fish. At present these were largely infested with squawfish, suckers, char and at times ling, all of which were credited with being predatory varieties living to a large extent on the spawn and fry of any and all fish. The board, therefore, suggested that the officers of the Dominion government be urged to carry out their proposed examination as to the habits and characteristics of the native fish and if they were such as credited with being that steps be taken at an early date leading to their destruction.

When this was accomplished they advised that the question of restocking these lakes with game fish be taken up. The board had favored the stocking of the lakes with bass, but this request had run counter to the representatives of the Dominion fisheries department.

Windermere Board Aids

Last year, through the instrumentality of F. H. Cunningham, chief inspecteer of Dominion fisheries, and with the assistance of John McLeod of Nelson, 100,000 fry of the Kamloops trout had been placed in the streams and lakes in the Windermere district at the expense of the board of trade. It would be two years before the result of the experiment would be determined, but it was a step in the right direction and good results were hoped for.

The board stood for more intelligent and feeling protection of large and feathered game by appointment of permanent game wardens along the line of the British game-keeper; stronger representation for the interior of southeastern British Columbia on the provincial game commission and a survey by the Dominion government fisheries department of the characteristics of the native fish and if found to be greatly predatory that immediate steps be taken for the destruction and their being replaced in the lakes and streams of the southeastern interior by game fish.

Considerable discussion followed the reading of the report from the Windermere board of trade. It was heartily agreed that the question of making the appointments for game wardens would be with a view of retaining the warden for sufficient time to enable him to get acquainted with his district. Men had been dismissed just as they were getting to know their territory and were in a position to give valuable information regarding it. It was also pointed out that the remuneration for such positions was not sufficient.

L. Ogilvie, manager of the Gerrard hatcheries, was asked to give ideas relative to the purpose of the convention. Mr. Ogilvie gave his opinion of the situation as gathered from his four years' experience in the district. He spoke of the distribution of fry as already accomplished from the Gerrard hatcheries and the benefit derived from this distribution. He told of plans for future distribution and methods by which it could best be done. Mr. Ogilvie gave figures showing the amount of fry distributed and collected in the various lakes and streams of the district for the past few years.

Distribution of Fry

He said that the distribution of fry into the Lardo river was the same as stocking the Kootenay lake. Owing to the present train service it was impossible to successfully distribute fry from Gerrard to Nelson on account of the transportation service. He had, therefore, reported to the chief inspector informing him that it was impossible to successfully distribute fry or collect ova to and from the outlying districts under existing circumstances. He advised that a hatchery be erected and maintained by game associations or the department as near to Nelson as possible, having, in conjunction with the main hatchery, stations at outlying spawning beds. The eyed eggs would be transferred from the main hatchery just before hatching. He believed that by this means successful stocking of the waters in the neighborhood of the city could be successfully brought about.

Hatchery for Nelson

Mr. Ogilvie advised the amalgamation of the game protective associations and the boards of trade with a view to erecting a hatchery at Nelson. He considered the residents of the Kootenay enttled to a hatchery The Gerrard hatchery was necessary for the continuance of Kootenay lake Kamloops trout. The head of the Lardo river was the natural spawning bed of this species and it always would be.

Sportsmen to Pay

At present the department derived no benefit from the sporting fish and therefore he thought it would be fair to ask the man with the rod to pay a certain sum yearly to help defray the cost of operating the hatcheries. He thought that every sportsman would be willing to do so. This statement received expressions of assent from the meeting.

Mr. Ogilvie said that he believed that if figures could be given of the food value of the fish caught in the rivers and lakes in the district, they would startle the department as well as the people. Such figures would interest everybody and would be the means of increasing the protection of fish and thereby a benefit would be obtained, not only by the extra amount of food but also by an increased tourist trade, which meant prosperity to any district.

Netting of Suckers

He advocated the netting of suckers and squawfish. This would not only do away with a nuisance but would provide an appreciable amount of fertilizer

If a hatchery were installed at Nelson it would benefit the outlying district mostly, while the hatchery itself would be of interest to the tourist, as it would show the artificial propagation of fish and the sport would be good.

Mr. McQuarrie thanked Mr. Ogilvie for his interesting and valuable information and paid him a tribute for the work done at the Gerrard hatchery.

A letter was read from J. W. Cockle of Kaslo stating his regret at not being able to attend. He said it was a long, up-hill fight which would try the patience of every one before anything tangible could be done. Mr. Cockle advised that all the fish from the hatchery should be placed in the Kootenay lake for several years at least. The reason he gave was that eventually all the indigenous fish would travel out to the environing tributaries, not only of the Kootenay river but also hose of the upper reaches of the Columbia.

Mr Cockle said that strong efforts should be made to have a warden appointed who was capable of studying the life histories of the fishes of his dstretntturaeistribta aofwiui woul n district and one who would devote a large portion of his time in trying to unravel the perplexing propositions which were present in connection with the determination of the validity of the species of the different varities of salmonidae found in the district waters.

Mr. Cockle also paid a tribute to the Gerrard hatchery and said that in his opinion the good fishing of last fall was largely due to the hatchery.

It was moved and seconded that the chairman appoint a committee to draw up resolutions to be presented to the federal and provincial governments embodying the ideas contained in the discussion. Dr .Henderson, J. H. Schofield, M.P.P., D. O. Thomas and J. Kennedy were appointed to draw up the resolutions.

Among those who attended from outside points were Dr .Henderson; J. Macaulay, South Slocan; J. H .Schofield; G. E. Parham, Invermere; J. Kennedy, Balfour; L. Ogilvie; J. J. McMynn, Midway and J. Lawrie, Castlegar.

SOUTH SLOCAN NOTES

(Special to The Daily News.)

SOUTH SLOCAN, B. C., Sept. 26.—Mr. and Mrs. John Oliver and child from Calgary arrived on Monday to visit Mr. and Mrs. Robert Oliver of Shoreacres. Mr. Oliver returns today aud Mrs. Oliver and child are staying for some weeks.

Mrs. John Allison with her daughters, Jean and Ruth, who have been spending the summer visiting Mr. and Mrs. R. Oliver, left yesterday for their home in Regina.

Pte. J. Killey of Morrissey is spending a week's leave at South Slocan.

Mr. and Mrs. Frank Tarry and family and Mrs. J. Tarry motored to Nelson to attend the fair. Other visitors from the district to the fair were Mrs. Powers of Thrums, J. Dodd, Mr. and Mrs. R. Passmore, Mrs. C. Fenwick, Shoreacres, the Misses Schiavon and George Schiavon, Shoreacres; Mrs. Yeatman, Mrs. Macaulay, Mrs. Whiteley, Mrs. Humphrey, South Slocan; Mrs. W. C. Motley, Mr. and Mrs. R. G. Long, the Misses Brown, Mrs. Cuthbe, Mrs. R. Georges, Bonnington.

Mrs. Cuthbe of Willow Point is the guest of Mrs. G. N. Brown, Upper Bonnington.

HARVEST HOME CONCERT AT GRAND FORKS

GRAND FORKS, B. C., Sept. 26.—On Monday evening an old fashioned harvest home concert was held in the Methodist church. Miss P. Dinsmore played several instrumental solos, while Miss Edith Caniff gave recitations. She was dressed as a Red Cross nurse. Mr. Ruskin of Cascade gave a sketch on "An Hour in a Soldier's Life." Mr. Walker and Mr. and Miss Carter sang. Later fruit and vegetables were sold.

ALIEN ENEMY FINED $100 AT GRAND FORKS

(Special to The Daily News.)

GRAND FORKS, B. C., Sept. 26—On Sept. 21 John Cortin was arrested at Cascade, B. C., by Provincial Constable George Stanfield, and locked up in Grand Forks jail for not reporting as an alien enemy. He was brought before W. B. Cochrane, justice of the peace, and fined $100 and costs.

DRAFT EVADER HIDING IN WOODS, ARRESTED

(Special to The Daily News.)

GRAND FORKS, B. C., Sept. 26.—On Sept. 22 William Gilmore was arrested near Farron by Provincial Constable George Stanfield. He had been hiding in the woods since May 1. He was wearing a long beard and presented a very dejected appearance. He gave his age as 46, but was passed by the medical board as apparently 30, and fit for military service. He is held awaiting a military escort.

Mr. and Miss Stephens left yesterday for California on receiving word that Mrs. Stephens' mother was seriously ill.

WANETA NOTES.

(Special to The Daily News.)

WANETA, B. C., Sept. 26—Capt. and Mrs. Duncan gave a party on Saturday evening in honor of their niece, Miss M. Duncan.

Glen Wick and Earl Pearson have returned from a week's camp at Kokanee. They caught a fine bunch of fish.

The wire for the telephone line is now being strung through the valley.

Apples and pears are being shipped out in considerable quantities, crops being excellent this year. Good prices are being realized.

Canada Food Board License 14-156

Mrs. Hopkins Is a Splendid Cook

Mrs. A. E. Hopkins is a splendid cook and we like to have her judgments on recipes. We often find out things from her.

But even she failed to add enough water to Pacific Milk in a recipe she was trying and did not get the expected results.

We mention this because we know that Pacific Milk is unusually rich and that some women who try it for the first time do not add enough water, and then the milk is blamed, of course.

In most recipes, especially cakes, you can use two parts water to one of Pacific Milk.

SICK WOMAN NOW WELL

Took Lydia E. Pinkham's Vegetable Compound. Read Her Letter.

Potterville, Pa.—"For a long time I was bothered with pains in my side, and was so weak from my trouble that I could not do any lifting or hard work of any kind. If I tried to straighten out when lying down it seemed as though something would tear loose. Lydia E. Pinkham's Vegetable Compound has restored my health and I am quite myself once more."—Miss HAZEL CHUBBUCK, Potterville, Penn.

Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Chubbuck, or suffering from displacements, irregularities, inflammation, ulceration, backache, sidache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Chubbuck's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

AT THE THEATRES

"My Soldier Girl."

"My Soldier Girl," the first of the season's musical comedies at the Nelson theatre, is one of considerable pretensions, snappy, full of witticisms, good music, dancing, and an excellent chorus, in fact as good as has visited Nelson in many a day. The costumes are all new, elaborate and the chorus is large in numbers, and can sing and dance. This is an exception to the usual array brought along with musinently in tthe comedy.

The opera house was packed to the doors last evening and many were turned away. The seat plan was sold out long before the doors of the opera house were opened.

Billy Moore, a Jewish boy, with Robbins, are the two fun and pun makers par excellence. They stand out prominently in the fun making.

Mae Marvis in the title role, is a vivacious, dashing piquant, little coquette, and has two songs that are winners.

Leona Stater, the prima donna, has a wonderfully sweet voice and sings three particularly good numbers .Time and again she was recalled last evening by the crowded house.

To Charles George came the greatest outburst of applause in his winning number "Greatest Mother of Them All."

James L. Barber, one of the authors, who callaborated with Charles George is a loveable southern colonel and in that role enhances the plot to a great degree.

Dale Going as light comedian of the Follies has a minor part but puts across a couple of good numbers.

The attraction is a meritorious one, no vulgarity, full of laughs and patriotic songs and speeches, a gripping theme which makes it clearer at every stage that Canadians do not believe Germany is a good nation gone wrong but that she is a bad nation gone mad.

"My Soldier Girl" comes to the Nelso nopera house on Friday, Sept. 26.

As the company are unable to leave for Revelstoke until this evening the show will be repeated this afternoon.

AutoStrop SAFETY RAZOR

From the War Zone

Comes the news that the AutoStrop Safety Razor is helping officers to maintain the high morale of the soldiers.

Nothing makes a soldier feel more like himself than a clean, velvety shave—this is only possible with an AutoStrop. Because of its self-stropping feature it is the only razor that is always in perfect condition.

FRIDAY, SEPT. 27, 1918.

THE FAIR.

Those responsible for this year's agricultural fair are to be congratulated upon the success attained. The exhibits of fruit, vegetables and poultry were of a particularly high quality. Every year this district's reputation is enhanced by the display of produce at the various fairs which are held.

The directors and secretary of the fair, upon whom the chief burden of the work fell, must find the results extremely gratifying.

To the visitors from outside points, the entertainers from the Slocan, those who brought exhibits from Trail and elsewhere Nelson owes a debt of gratitude. They contributed to a marked extent to making the exhibition a success.

MORE VICTORIES.

On three sections of the western front the allied troops yesterday gained important victories. The Americans pressed ahead west of Verdun, capturing terrain and prisoners, while similar victories on a somewhat smaller scale fell to the arms of France and Britain.

In the Balkans, where the opportunity for securing a decision at a comparatively early date is interesting, the allies have pushed closer to Uskub and increased the demoralization which appears to have begun to Czar Ferdinand's army.

With a few more such victories to their credit, the allies might well be within sight of separating the kaiser from his ally in the Balkans and Turkey.

GERMANY'S EXCHANGE SLUMP

German exchange in neutral countries adjoining is now at a discount of about 50 per cent, says the Toronto Mail and Empire. This is not unbearable at present, because Germany's purchases in these countries are very limited. The Scandinavian peoples and the Dutch have had to make economic agreements with the allies to get supplies for themselves, and Germany has been effectually cut off from their stocks of materials except when produced from home industry entirely. But when Germany has to begin buying raw materials for industry after the war, this adverse exchange rate—which then will probably be even more adverse—will cause it much difficulty and loss. It will have to pay double prices for the goods it must have to retain its industrial footing.

From many German sources come admissions that Germany is in dire need of wool, cotton, rubber, tin, jute, oils, copper, and many tropical products. Most of these must be procured from countries Germany is now fighting and a large part of them from the British Empire. In the Frankfort Zeitung, the great organ of the commercial classes, Arthur Feiler writes that the war in any event will be lost to Germany unless economic war after the war is excluded, and Germany can have full opportunity to sell and buy in world markets on the most-favored nation basis. If full freedom of entente markets is granted the exchange and transportation difficulties can be overcome in time, especially by putting out large quantities of German manufactures to pay for necessary raw materials. Like other German economic writers, Feiler sees Germany's need. But the question is, How far will the entente nations go toward granting relief along desired lines? As the allied peoples know full well, if the Germans do not, Germany has no outlook for allied trade. She will find few purchasers of her manufactures among Anglo-Saxon and Latin peoples, and in the British Empire, French and Italian territories at least, she will face a system of priority in the sale of raw materials giving home and allied purchasers first call on all materials for industry.

Thus if Germany has to go hunting in the world's markets for whatever scraps are left her exchange difficulties will be augmented by the higher prices she will have to pay for such materials as she can get. The outlook is dismal enough to depress the boldest German optimist, but the German general staff will not permit open discussion in Germany of the probabilities of the future. The industrial leaders, however, must know what they face, and they must think painfully of the mess into which the war lords have got them, and all Germany.

And now that the fair is over let's get ready for the Victory loan campaign.

It is reported that the Bolsheviki have rescinded the order for a "Reign of Terror." Do the Bolsheviki tribes hear the footsteps?

A big campaign to save gasoline for use overseas and to save money for investment in Victory bonds is being conducted in Canada in the form of a movement to discourage Sunday joyriding in automobiles.

Von Sanders, leader of the Turks in the Holy Land has arrived in Constantinople and will soon go on to Berlin. This particular Von seems to have a failing for moving in the same direction as the men of the entente.

It is good news to learn that Germany is weak in aviation, says the Christian Science Monitor, but it is still better news to find that her balloons d'essai, or trial balloons for peace, are ineffective. Professor Lotz of Munich, sent up one the other day. He wanted to substitute for a league of nations a United States of Europe in which all Europeans should sit down amicably together, like one great family and forget their differences. He should try again. The Prodigal Son had repented of his ways before he returned and was again taken into the family fold.

WHAT THE PRESS IS SAYING

Fortunate Canada.

Three tons of babies were weighed at the competition at the Toronto exhibition. Good thing the "baby killers" are not on this side.—Kingston Standard.

Not All Pay.

A total of $90,000,000 contributed by Canada during the past four years to various patriotic purposes, is very praiseworthy. But there are a large number of parsimonious Canadians who can take little or no credit for it. —Hamilton Herald.

COLD STORAGE

"I am looking for something to read."

"What kind of reading do you prefer?"

"I'm not particular; I've got some time to kill."

"All right; here's something that ought to appeal. It's a copy of an anti-loafing law."

"Fine garden you have."

"Yep."

"Tall corn."

"Yep; don't wander in too far. Several visitors have gotten lost this summer.

"Look at this picture of the new Russian ambassador."

"Ah, yes. How nice. So this is Bolsheviki himself, is it?"

TOLD IN RHYME

A SONG OF WOMEN.

Our lips shall sing the victory,
Vow vengeance for defeat,
Our gold we bring with willing hands
Nor come with languid feet .

With voices brave and kindly eyes
We arm our men to fight;
And when the last farewell is said—
We stand and face the night.

At night the little lamps go forth
To seek the newly slain,
The broken-into house of life
That shall not stand again.

England! a splendid name; for thee
With all we have to part,
Nor keep but woman's heritage—
Fears and a breaking heart.
—E. C. in Westminster Gazette.

HURRICANE SINKS TWO SHIPS; OTHERS DAMAGED

(By Daily News Leased Wire.)

SAN DIEGO, Cal., Sept. 26.—Two United States shipping board vessels on their maiden trips were sunk and a fleet of other craft were badly battered, the City of La Paz was partially destroyed and the floating equipment of the United States naval coaling depot at Pichilinque damaged to the extent of thousands of dollars during a terrific hurricane that raged off the Lower California and northwest coast of Mexico, Sept .17. This was the news brought to this port today by a long overdue fishing launch.

Pearl White in "The House of Hate," at the Starland Tonight.

Mining and Markets

STOCKS ARE DULL ON WALL STREET

Listless Market Is Without Feature and Numerous declines Are Recorded—Some Gains.

NEW YORK, Sept. 26.—A stock market of comparative dullness today was virtually devoid of feature, except for pooling activity centered on a few issues. This buying was noteworthy in American Steel Foundries, Baldwin Locomotive, American Car, American Locomotive, Railway Steel Springs and American Ice. United States Steel after declining almost a point to 109¾, ended at 111¼. Sympathetic strength developed in other portions of the list and the session closed with a general upturn in progress. A rapid upturn in Liberty bonds, coupled with further advances in foreign issues, notably Paris 6s, which reached a new high figure at 97¾, also had a beneficial effect on General sentiment.

The general bond market moved narrowly and uncertainly. United States bonds, old issues, were unchanged on call, but the registered 4s advanced ¼ on sales.

BANK CLEARINGS FOR PRINCIPAL CANADIAN CITIES

(By Daily News Leased Wire.)

WINNIPEG, Sept. 26.—Following are the bank clearings for the principal cities of the Dominion for the week ended today:

Montreal	$91,798,313
Toronto	61,872,214
Winnipeg	36,885,049
Vancouver	11,186,045
Ottawa	5,742,623

Medicine Hat	507,183
New Westminster	478,121

CIRCULATION INCREASES SAYS BANK OF ENGLAND

(By Daily News Leased Wire.)

LONDON, Sept. 26.—The weekly statement of the Bank of England shows the following changes:

Total reserve, decreased, £551,000; circulation increased £1,097,000; bullion, increased £546,633; other securities, increased £788,000; public deposits, decreased £6,191,000; other deposits, increased, £4,032,000; note reserves, decreased £569,000; government securities, decreased £3,625,000.

The proportion of the banks reserve to debit this week is 17.73 per cent; last week it was 17,89 per cent. Rate of discount, 5 per cent

CORN IS WEAK.

CHICAGO, Ill., Sept. 26.—Decided weakness in the corn market today resulted chiefly from announcement of government measures to restrict grain dealers' profits and the likelihood of large receipts. The close was heavy, 1⅝ to 2⅜ cents net lower, with October at 147⅛ to ¼ and November at $1.44⅛ to ¼. Oats finished ⅛ off to ⅜ cent higher and provisions ranged from 10 cents decline to 2½ cents advance.

UTICA ADVANCES ANOTHER POINT

Silversmith Falls off ⅛—Rambler Remains at 5½—Standard Not Quoted Yesterday.

Utica advanced another point on the Spokane market yesterday and stood at 8½. Rambler remained at Wednesday's quotation of 5½. Silversmith eased off ⅛ from 12⅝ to 12½. Standard was not quoted yesterday. The market:

Spokane Stock Quotations.
(Reported by D. St. Denis.)

	Bid	Asked
McGillivray	$ .31	$ ...

U. S. Steel	112	109¾	111¼

Sales: Anaconda, 1500; C.P.R., 100; Chino, 800; Miami, 700; Inspiration, 300; Ray Con. 200; U. S. Steel, 49,600; total sales, 254,000.

NEW YORK, Sept. 26.—Cotton futures closed quiet.

TRADING IS BROADER ON TORONTO MARKET

(By Daily News Leased Wire.)

TORONTO, Sept. 26.—Trading on the Toronto Exchange today was somewhat broader than on the previous two days. The only dealings locally in the paper group consisted of small lots of Spanish River common and preferred, the former selling ¾ lower at 14 and the latter unchanged at 53. Maple Leaf continued its decline. Colonial loan had the largest total transactions, ¼ up. Cement at 68⅛ was off ½. Brazilian held at 44. In the war loans there was a firm tendency, the 1925 issue advancing 1⅛ to 96⅛ and the 1937 issue advancing to 94¼.

CLASSIFIED ADS BRING RESULTS EVERY TIME.

BUILD AIRLINE TO EUREKA MINE

Get Power for Drilling—Shipments of 40 to 50 Tons Daily Will Begin About Oct. 1.

Improvements which have been made at the Eureka mine will result in the commencement of shipment of between 40 and 50 tons of ore daily about Oct. 1, it was announced yesterday.

A lease has been taken on the power plant of the Kootenay Gold mines and an air line 6000 feet in length constructed. This connects with the former airline of the Kootenay Gold company and by Oct. 1 air drills will be in operation at Eureka. This will do away with hand drilling and greatly facilitate ore production and development.

Shipments will be made to Trail smelter. The silicious nature of the ore has resulted in the securing of particularly favorable smelter rates. Twenty men will be employed.

Other improvements which have been made include the relaying of the tracks, the timbering of the mine and the repairing of the tramway and wagon road. The mine has been put in such condition that when the work of shipping ore begins it will be possible to continue it without difficulty.

During this month about 250 tons of ore have been taken out for shipment.

The Eureka has shipped already 5000 tons of ore and has about 9000 tons blocked out ready for mining. The possibilities of the development of great tonnage are considered excellent. The ore averages about $15 to the ton in silver and copper.

The Eureka has been taken over from the Eureka company by the Inland Mining company, which has headquarters at Walla Walla, Wash., and which is well known throughout Kootenay and Boundary for the persistency and courage with which it is successfully developing the Inland Empire mine at Paulson. Mining men state that this district is fortunate in having these Walla Walla capitalists take over the Eureka, as it assures persistent operation of the property.

W. M .Myers, representing Green Bros. & Burden is manager of the property and Barney Crilly is foreman.

LIVESTOCK MARKETS.

CHICAGO, Ill., Sept. 26.—Hogs: Receipts, 17,000; market closing active and nearly steady with yesterday's average; highest sales, 19.80. Butchers, 19.95; light packing, 19.40 to 19.80; packing, 18.35 to 19.15; rough, 17.75 to 18.25; pigs, good and choice, 18 to 18.95.

Cattle: Receipts, 18,000; all classes very slow and unevenly lower; mostly 15 to 25 cents down. ONLY BRIEF REPORTS OUT OF GROEBER SPEECH

(By The Daily News Leased Wire.)

LONDON, Sept. 26.—Only brief reports of the speech by Adolph Groeber, one of the German clerical leaders, at the session yesterday of the Reichstag main committee, have been received here.

According to a despatch from Copenhagen to the Exchange Telegraph company Herr Groeber sharply criticized the imperial government and said evidently there was disunion between the civil authorities and the military. He declared that resistance in subordinate circles to the plan of the government must be stopped and that military rule in the frontier states must be ended.

Herr Groeber also demanded that the secret order of the military authorities prohibiting public speeches on the reichstag peace resolutions be rescinded.

Among those who won prizes for fruit at the Trail fair and also the local fair were William Rutherford and George Hawthorne .

The body of David Lickers was found on the Ohsweken reserve. Robbery was not the motive for his killing as money was found in his pocket.

SCHOOLS HOLD FIELD MEET

Crowds of Pupils and Parents Attend Annual Sports at the Recreation Grounds.

Crowds of children and parents were at the recreation grounds yesterday morning and afternoon to witness or take part in the annual field day of the Nelson schools. The morning events were mostly for juniors. The events were conducted by the staffs of the central, high and Fairview schools assisted by C. W. Busk and R. B. Jackson. A. Higginbotham presented the prizes on behalf of the scheel board. James Curran won the shield for the best athlete. He gained 13 out of a possible 24 points. Following is a list of the winners:

SALE OF GOVERNMENT PROPERTY.

Donkey Engine.

Tenders will be received by the undersigned up to October 19th, 1918, for the purchase of the Donkey Engine and necessary equipment lying near Appledale station, on the Slocan Branch of the C.P.R.

Further particulars can be obtained on application to the District Engineer, Court House, Nelson.

The highest or any tender not necessarily accepted.

JAMES PATERSON, Purchasing Agent.
Victoria, B.C., August 19th, 1918.

NOTICE TO CONTRACTORS.

Kaslo District.

Kaslo-Ainsworth Road.

Sealed tenders marked "Tender for Kaslo-Ainsworth Road," addressed to Public Works Engineer, in care of the Government Agent, Kaslo, B.C., will be received up to noon on Saturday, Oct. 5th, for the construction of about 4¼ miles of the above road .

Each proposal shall be accompanied by a certified cheque payable to the Government Agent at Kaslo, B.C., for a sum not less than 10 per cent of the tender, which shall be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work as required.

The cheques of unsuccessful tenderers will be returned upon execution of the contract.

Specifications may be seen at the Government Office, Kaslo, and at the District Engineer's office, Nelson, B.C. J. D. Moore, General Foreman, Kaslo, will be prepared to meet intending contractors at Kaslo on Tuesday, Oct. 1st at 8 a.m. and accompany them over the line of the proposed work.

The contract to be commenced immediately on acceptance of Tender, and completed on or before May 31st, 1919.

The lowest or any Tender not necessarily accepted.

WM. RAMSAY, District Engineer.
Nelson, B.C., Sept. 26th, 1918.

PUBLIC NOTICE.

Notice is hereby given that, under the Imperial Army Act, a soldier of the Regular Forces cannot be placed under stoppages of pay for a private debt.

If the inhabitants resident within this district suffer soldiers of the Permanent Force or Canadian Expeditionary Force to contract debts, they do so at their own risk.

E. C. ASHTON, Major-General, Acting Adjutant General.
Ottawa, September 9, 1918.

Lead: St. Louis, 7.75; New York, 8.05; Montreal, 9.86; London, £29 10s.

Spelter easy; East St. Louis delivery, spot, 9.25 asked. At London: Spot, £54; futures, £50.

Copper at London: Spot and futures, £122; electrolytic, £137.

MONTREAL PRODUCT.

(By Daily News Leased Wire.)

MONTREAL, Sept. 26.—Market for eggs and potatoes very firm.

Cheese: Finest easterns, 24½.

Butter: Choicest creamery, 47 to 48.

Eggs: Selected, 58 to 60; No. 1 stock, 54; No. 2 stock, 49.

Potatoes: Per bag, carlots, $2.40 to $2.50.

STOCKS AT MONTREAL QUIET BUT FIRM

MONTREAL, Sept. 26.—Uronounced strength in the milling stocks, and a quiet but firm market in the paper stocks, were the chief features of the trading on the Montreal exchange today. New high record prices were established in the milling stocks with the exception of Maple Leaf ,with Lake of the Woods advance of 7½ points to 162, the principal price change. Ogilvie rose 2 points to 197½ and St. Lawrence 1½ points to 92½. Lake of the Woods preferred was concurrently strong with the advance in the common rising 4 points to 104.

Laurentide sold at 182 to 183 against a high of 184¼ the previous day. Brompton was active at a fractional advance to a new high price of 62½, but the gain was lost later. Spanish River was unchanged at 14, but the preferred 1⅛ to 54, while Price Bros., after equalling its high record of 149, closed at 150 bid. Wayagamack was 52 and Riordon 122½ to 122¼.

Shawinigan was strong in the power division, finishing at 117 ex-dividend. Montreal Power was a shade lower. Dominion held firm at 96¾, but Montreal at 59 lost 2 points of its recent increase.

Sales: Shares, 5331; bonds, 36,500.

EXPECT FOUR VETS. ON MISSOURI "U" TEAM

COLUMBIA, Mo. — Coach Henry Schults of the University of Missouri football team faces the task of building up a team this year with prospects of only four veterans returning. They are Morris, Edwards, Kirkpatrick and Urie.

Coach Schults is of the opinion that the representatives of the Missouri valley conference school will have to decide in favor of allowing freshmen to play because of the lack of Varsity material.

UNITED KINGDOM IS DEALER IN SALMON

(By Daily News Leased Wire.)

OTTAWA, Sept. 26.—The Canada food board has received from the British ministry of food a copy of the canned salmon requisition order dated Sept. 2, 1918.

Under this order the British food controller has seized all canned salmon packed in Canada and the United States arriving in the United Kingdom after Sept. 4, 1918.

Since Sept. 4 no one in the United Kingdom, except under the order of the food controller, has been permitted to deal in canned salmon packed in Canada or the United States.

Returns of shipments of canned salmon en route to the United Kingdom were made to the food controller prior to Sept. 15. Canned salmon is under complete food control in the United Kingdom. There is no private dealing in it.

BOLSHEVIKI PLANNED FOR 500,000 MEN

(By Daily News Leased Wire.)

LONDON, Sept. 26.—The plans for the Bolsheviki army on the Volga front, which seriously endangered the Czech army in the region of northern Russia, called for 51 divisions or 500,000 men. The army is constantly being reinforced by Germans and to a great extent it is led and instructed by Germans.

The reports indicate that while some of the Bolsheviki personnel of this army have improved in value, a majority of the soldiers are comparatively worthless.

A Classified Ad. will bring results.

"Welcome. No dues. No don'ts," is the sign painted on the outside of the front door of the Soldiers' and Sailors' club at Seaside, Ore. The club is patronized heavily by men from nearby spruce camps.

FAIR ATTENDANCE THIS YEAR IS DOUBLE THAT OF 1917

LARGE NUMBER OF OUTSIDE VISITORS AND EXCEPTIONALLY FINE EXHIBIT GIVEN AS REASONS FOR INCREASED FAIR ATTENDANCE—HAVE NOVEL EXHIBITS—I. O. D. E. AND HOSPITAL AID MAKE MONEY—WILD WE ST SHOW IS DISAPPOINTING

Yesterday's attendance at the second day of the 1th annual Nelson fruit fair made the total for the two days just double that of the two days of last year. The number of outside visitors was largely responsible for the large attendance and it is thought that the exceptionally fine fair was also a factor in bringing the crowd. The field day of the Nelson schools drew large crowds to the recreation grounds. In the evening Prof. McFee's t roupe of wonder workers entertained a crowd in front of the stage in the building.

The merry-go-round was stated to be the best money-maker at the fair. Every trip was crowded yesterday by the huadreds of children and grown-ups on the recreation grounds.

I. O. D. E. Gets $169.70

The superfluity table and the swat the kaiser conducted by the I. O. D. E. netted $169.70. Stanley Bostock and J. Lamont tied for the Charlie Chaplin doll given for the most number of correct shots. The two men threw the tie off and Mr. Bostock won. A brass kettle donated by Mrs. B. R. Dawson was raffled and won by Miss Annie Fernstrong. A sack of potatoes donated by W. R. McLean was also raffled and won by M. E. Watts. The chapter thanked Mr. Dunlop, who drew for the winners.

The net proceeds from the refreshment booth conducted by the Womans Hospital aid society was $360. Two raffles were held. A box of apples was won by Charles Maynard, and a box of plums of Charles Cryderman.

Show Disappointing

The Wild West show was very disappointing. A good sized crowd assembled in the space set apart for it and after waiting for nearly two hours it was announced that three of the performers had gone on strike and refused to perform unless they received a settlement on their wages or a lien note on the equipment of the show. Mr. Perry, the manager, offered to give a portion of the receipts in Nelson, but the strikers, who included two ticket sellers and a member of the band, wanted a signed agreement according to their request.

William Irvine, the president of the fair, announced the situation and stated the company was willing to show minus the three performers.. He asked for a vote and told those present that they could get their money back if they did not wish to remain and see the show. The vote was unanimous for having the show.

The question of amusement tax also caused considerable trouble. The provincial police arrived and as no arrangements had been made to issue amusement tax tickets they proceeded to count the admissions and took the tax. The sum of $150 was also stated to have been deducted from the gate receipts and sent to the Alberta provincial government for amusement tax. The receipts were taken in hand by the fair management and all outstanding bills in the city paid.

The strikers stated last evening that the show would not move from the city until their overdue wages were paid, as they would seize the equipment before they would move with the company sill owing them money.

FOUR MORE JOIN SIBERIAN FORCE

Nelson and District Men Leave for Victoria This Morning—Makes 14 from Vicinity .

Four more volunteers for the Canadian expeditionary force to Siberia will leave the city this morning for camp at the coast. They are A. E. Murphy, Nelson; Chester Robinson, Summit Lake; Stuart Smith of Seven-Mile and Francis Valentine Smith of Gray Creek. Four more are signed up and will leave on Monday. This makes 11 recruited by S. Laycock in Nelson and district. Laycock will also leave this morning for the coast.

Mr. Murphy is well known in the city having conducted a painting and paper hanging business here for a number of years. He has been an active member of sporting organizations in the city. He played on the hockey team for a number of years and was a member of the senior lacrosse team. Mr. Murphy had gained a reputation and won many prizes at local regattas as well as at Coeur d'Alene and other places. He was an active member of the Y.M.C.A. and was a good basketball and baseball player.

According to information received last night from Wynndel, E. S. Butterfield, youngest son of Mr. and Mrs. E. Butterfield has been accepted for service with the Siberian force. He will leave on Monday for the training camp at Victoria. He was recently rejected by the medical board of the Royal Air force on a technical point in his physical condition. He is the seventh boy in the family to volunteer for overseas. Two of the brothers have been killed, two are on light duty in England, having been invalided home from France, and the remaining two are still in the firing line.

GIVE PRIZE WINNERS FOR SOLDIERS DRAWING

The raffle conducted by the returned soldiers from the Balfour sanitarium for four articles from their display of work at the fair were won as follows: First, Alfred Wood, ticket No. 221; second, ticket No. 7; third, C. E. Johnberg, ticket No. 106, and fourth, Mrs. C. F. R. Pincott, ticket No. 154.

The drawing was made by Logan McPhee and the prizes may be obtained by calling at the Canada Drug and Book Store.

NURSES GET $663 FOR NEW HOSPITAL

Sell Nearly 6000 Tags in the City Yesterday—Report Good Responses Everywhere.

Selling nearly 6000 tags and taking in $663 for the building fund of the new building, the nursing staff of the Kootenay Lake General hospital, assisted by a number of women of the city, established a record for Nelson insofar as tag days are concerned. Last year the nurses made $700 but of this amount $200 was in one donation. Miss S. A. McCallum, matron of the hospital and the nurses thanked the residents of Nelson and the visitors who so freely donated .

The taggers reported excellent responses from everyone asked to help the fund. In no case were they refused and everybody seemed anxious and ready to give to the hospital.

At 5:30 yesterday morning some of the nurses could be seen starting to tag. Persons leaving on the Crow boat were canvassed. So ardently did the women work that at 1 o'clock the order of 3000 tags were all sold out. Another 3000 tags were rushed out by The Daily News job department and at 11 o'clock last night when the canvass closed, this order was nearly all sold out.

Those who tagged were: Mrs. Martin, Mrs. Fletcher, Miss Viggars, Miss Thatcher, Miss Kilpatrick, Mrs. McCharles, Miss Norma Irving, Miss Eva Irwin, Miss Cameron, Mrs. Shaw, Miss McCallum, Mrs. Watts, Miss Barkley, Miss Pearsall, Mrs. Wright, Mrs. Douche, Miss Stewart, Miss L. Stewart, Miss Groom, Miss Moscrop, Miss Ferguson, Miss Ebbutt, Miss Knott, Mrs. Arnold, Miss White and Miss Clapp.

Social and Personal

Mrs. B. Purdy of South Slocan is a fair visitor in the city.

S. J. Towgood of Sandon was a guest at the Hume last night.

A. Hender was among Rossland visitors to the fair last evening.

Owing to the misplacement of a number of the judges' score cards yesterday's prize list stated that Miss Violet Ross won first prize in oil painting. It should have read Mrs. F. E. Morrison.

Elmore Colbick has left for Vancouver to attend the university. He has his senior matriculation which qualifies him to start in the second year. It is thought that he will be one of the youngest, if not the youngest, student in the province who holds that standing. He is 14 years old.

Fred Bachtold, George Retzer, C. E. Nye, Albert Niebergall, John Arbini, Charles O'Neil, all prominent business men or farmers in Walla Walla, Wash., and the adjacent district, and who are interested in the Eureka mine, reached Nelson last night on their way to make an inspection of the property. They are at the Strathcona.

MRS. CHALMERS WAS SECOND CHOICE FOR ADVISORY BOARD

Owing to the names of Mrs. Chalmers and Mrs. Mohr being inadvertently omitted from the minutes of the Women's institute meeting reported on Monday, it was not stated that they were second and third choice of the meeting for members of the advisory board. The department of agriculture asked the institutes to mention two names as first and second choice. Mrs. W. Rutherford was first choice, with eight votes and Mrs. R. W. Chalmers was second with five votes.

It was pointed out that it was quite in order for any institute to support either of these two women.

W. P. Hinton of the Grand Trunk Pacific, thinks the western wheat crop will be 160,000,000 bushels .

A Vancouver city council committee has squelched the proposal that aldermen be elected at large for a two-year term.

OPEN NEW ROOM AT HIGH SCHOOL

Increased Attendance This Year Necessitates Using all of New Building.

Owing to the increase in the attendance at the high school, a new room has been opened. The science room, for some time used as a class room, has been vacated except for science classes only. The whole of the new building is now in use with the exception of the gymnasium, which is nearing completion. Most of the boys who have been at work during the summer in the Creston district and on the prairie have returned and the total attendance now is 175.

Of last year's third year class 24 obtained matriculation standing. Sixteen of these out of 17 who wrote the departmental examinations in June obtained matriculation standing without the necessity of any supplementary examination. The remaining eight, who engaged in soldiers of the soil work, were granted their certificates by the department of education without examination. None, however, were recommended for certificates without an equal standing, throughout the school year, with those who remained at school and wrote the examination.

In preceding years the number of students in the senior grade, fourth year, has not exceeded three. This year there are 10 in the fourth year. Of these eight are studying for senior matriculation.

Senator Prince of Battleford suffered a slight stroke of paralysis a few days ago. At last accounts his condition was improving.

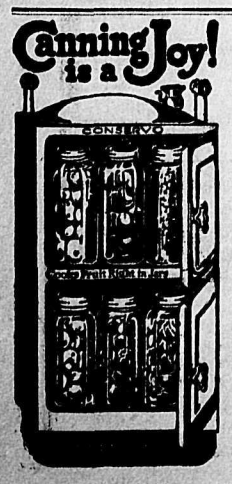
Notice to Subscribers to the New Kootenay Lake General Hospital

Now that the new hospital building is nearly completed it is necessary that funds be provided to secure the equipment and supplies needed before the building can be occupied. When the construction of the new building was proposed a lengthy list of subscribers was secured. These subscribers agreed to make payments to aid in the construction of the building.

The directors appreciate very strongly the kindness of the many subscribers who have sent in their donations to the secretary, George Johnstone, and a committee will shortly call on the other subscribers, who have not sent in the amount of their pledges. The directors feel that this committee will have no difficulty in securing the amounts due on the pledges and the sum so secured will aid materially in providing the money required for the completion of the building.

Have Your Subscription Ready for the Committee when it calls



WITH AN
Ideal Home Canner and Steam Cooker

CANNING IS A JOY, BECAUSE FOODS ARE BETTER CANNED AND WITHOUT THE WORK AND WORRY ATTACHED TO OTHER METHODS.

All foods, meat, fowl, fish, soup, vegetables and fruit can be cooked in the "IDEAL."

The "IDEAL" is a tremendous fuel saver, too —"Can to save, and save to can."
