VOL. 18 — NELSON, B. C., MONDAY MORNING, FEBRUARY 16, 1920 — NO. 261

RESIDENT WILSON DISAPPROVES LLOYD GEORGE'S PROPOSALS FOR SETTLEMENT OF ADRIATIC PROBLEM

Notes Delivered to Foreign Offices at London and Paris; Report in Temps Says Wilson Declares United States Will Withdraw From European Affairs if Question is Settled Without America Being Consulted

PARIS, Feb. 18.—Hugh C. Wallace, the American ambassador, according to the Temps yesterday, delivered the foreign office a memorandum from President Wilson which the president said he could not approve of Premier Lloyd George's proposed settlement of the Adriatic question which has been submitted to the Jugo-Slavs. The newspaper says that an identical memorandum was delivered to the British foreign office in London.

The Temps says President Wilson allowed it to be understood that the United States would find it impossible to continue if the allies settled the Adriatic question without consulting the United States.

The premiers have drafted a reply to President Wilson's note on the Adriatic question, which will be transmitted through American ambassadors at London and Paris, according to a member of Premier Millerand's staff who arrived in Paris tonight.

The greatest discretion is being observed as to the contents of the note, and it will not be made public until it is received by the president. *Never another delay in the Adriatic* settlement as a consequence of incident is foreseen in French official circles. Premier Millerand has called a cabinet meeting for Tuesday to hear his account of the London negotiations. He will also make a statement on the diplomatic situation to the senate committee on foreign affairs.

In his memorandum President Wilson criticizes Premier Lloyd George's decision relative to Jugo-Slavia before the *supreme council* of Jan. 20. The president examined the plan but declared he cannot approve of its tenor. He particularly opposes the idea which consists in *giving the Jugo-Slavs the choice* between these plans and execution pure and simple of the London pact.

In addition, according to the Temps, the president finds the Lloyd George plan too divergent from the memorandum drawn up at London last December between Premiers Lloyd George and Clemenceau with the collaboration of the American representative. The president gives it to be understood that if the allies settle the Adriatic problem without consulting the United States government the United States will find it impossible to concern itself in European affairs.

The memorandum was immediately examined by the officers of the allied government before the French premier left London for Paris this morning.

WASHINGTON, Feb. 15.—While house officials tonight refused to discuss the statement of the Paris Temps that President Wilson in a memoranda to the French and British foreign offices had disapproved the latest proposal for settlement of the vexing Adriatic problem, there was neither confirmation nor denial that the position of the United States again had been laid before the allied governments.

Granting that such memoranda as reported by the Temps had been dispatched other officials interpreted the step as designed to bring to a head the negotiations over Fiume and Adriatic territory which have been dragging along for some time.

Disapproval of the most recent proposal which was advanced by Premier Lloyd George and contemplated the making of Fiume a free city under the league of nations and the awarding to Italy as a recompense a strip of territory toward the south from Trieste, it was said, would be entirely with the stand taken by President Wilson at Paris that Fiume should be awarded to the Jugo-Slavs. This position it has been stated, is the only one which Mr Wilson considers is in accordance with his 14 points on which Italy as well as the other allied governments, made peace with the central powers.

REQUEST GRANT FROM GOVERNMENT

VICTORIA, Feb. 15.—The provincial government was asked Saturday by a delegation of British Columbia business men to take a grant of $10,000 to the Alberta-*British Columbia conference to be* held in Vancouver in June. Premier Oliver promised consideration.

SULTAN MAY RETAIN COURT IN CONSTANTINOPLE

PARIS, Feb. 15.—(Havas)—Agreement has been reached by the supreme allied council to permit the sultan to maintain his court in Constantinople but Turkey must give guarantees *especialy relative to the* Dardenelles and must not have an army according to London advices quoting a statement by Premier Millerand.

FRENCH MINERS UNION POSTPONES STRIKE

PARIS, Feb. 15.—The council of the national federation of miners has decided to postpone the strike called for *March first*. This action was taken, it is announced, to give the government sufficient time to consider the demands of miners.

OLIVER TURNS DOWN EXTENSION OF P.G.E. RAILWAY

VICTORIA, Feb. 15.—The Pacific Great Eastern Railway will not be constructed into the Peace River country at present, Premier Oliver has informed a delegation representing the associated boards of trade of British Columbia. The premier intimated that Prince George would be the limit of line according to present plans.

RAILROAD STRIKE TO BE POSTPONED

President Decides Action Should Be Put Off; To Call Conference

DETROIT, Feb. 15.—The strike of 300,000 members of the Brotherhood of Maintenance of Way Employes and Railroad Shop Laborers, set for *next Tuesday*, was indefinitely postponed last night by Allan Barker, international president of the union in accordance with the wish of President Wilson that action be deferred *until a general conference* of the railway union committeemen on Barker's decision to delay the strike he announced.

Action was taken on recommendation of the executive committee now in Washington to whom it appeared he said, that late developments in the railway wage controversy tended to place the maintenance of way union in a position apart from the other unions and "Seemingly forgetful of the public interest." He maintained, however, that immediate relief must be had and that a strike *as planned* would have been fully justified.

A telegram to the membership postponing the strike was sent out last night to the approximately 6000 *local secretaries*. Last night also Mr. Barker replied to President Wilson's telegram informing him of the postponement of the strike and that the maintenance of way union would *not* be represented at the general railway conference.

DOMINION CANNERS PRESIDENT DIES

David Marshall, Member for East Elgin, Taken Suddenly Ill at Vancouver

VANCOUVER, B.C., Feb. 14.—David Marshall, M.P. of Aylmer, Ont., director of the *Dominion Canners*, Limited, and president of the Dominion Canners of British Columbia, died this afternoon of pneumonia and heart trouble. Mr. Marshall arrived in Vancouver on Thursday on a trip of inspection. He was taken suddenly ill last night. The remains will be shipped east Sunday night.

OTTAWA, Feb. 15.—The death of *David Marshall, M.P. for East Elgin*, makes four vacancies in the house at the present time; Kamouraska, where Ernest Lapointe resigned to contest East Quebec; Temiskaming, *owing to the death of Frank Cochrane*; St. James through the death of L. A. Lapoint; and now East Elgin. By a law introduced at the last session of parliament by B. W. Jacobs, M.P., *no constituency may remain* unrepresented longer than six months. The time has not yet expired for any of the vacancies but will do so within the next few *months and the result of this test of* the goevrnment's popularity in the country will be watched with interest. They are all rural constituencies with the exception of St. James.

QUEBEC HOUSE RISES

QUEBEC, Feb. 15.—The Quebec house prorogued on Saturday morning with the usual ceremonies.

NEW YORK CITY IS IN MIDST OF ICE FIELDS

NEW YORK, Feb. 15.—Masses of snow, which have choked the streets of New York for the past ten days, defying the onslaughts of firemen, policemen and an army of flame throwers and brigades of pick and shovel men, were *transformed into ice fields* tonight when the city was gripped in a cold wave which made the prospects of her release from the snow blockade more remote *than ever. One of the* most serious features of the blockade is the inability to move the stores of food, which are piling up in the railroad terminals and on the wharves.

WILSON'S ACTION IS DISAPPROVED

Paris Journal Calls Lansing Incident Example of Autocratic Regime

PARIS, Feb. 15.—Although all Paris newspapers gave prominence to Washington despatches telling of the resignation of Secretary Lansing and his correspondsence with President Wilson but few have commented editorially on the incident. The news arrived too late for yesterday morning's newspapers which went to press an hour earlier than usual because of the daylight saving law coming into effect. The Journal calls the event "A striking example of the autocratic regime the facade (of which is democratic."

In its editorials on the incident, the Libre Parole remarks:

"President Wilson who has governed his country seven years without the least regard for national representation, who threw America into the war after winning the election on a peace program and who domineered over the peace negotiations, returns from a mysterious illness to accuse his foreign minister of governing autocratically during his absence. Isn't that laughable? Mr. Wilson has given the impression for some days that he is preparing to "change his coat" isn't Mr. Lansing's disgrace the first step?"

Not A Crisis

WASHINGTON, Feb. 15.—Secretary Lansing's enforced resignation continues to hold the attention of official Washington. The gossip as to the probable secretary of state *is even subordinated* to discussion of the sensational strained relations between President Wilson and the former secretary of state which are now known to have been in force more than a year.

Such terms as "a crisis" in the cabinet are freely used and in a sense find color in the frank acknowledgement of Secretary Lane that he was equally responsible for the meetings to which the president objected but the best information available indicates that there is no crisis in the sense that more *secretaries* are likely to resign; in fact it has been stated at the White House that no more resignations are expected as a result of the incident.

HAS SCHEMES FOR SOLDIER WORK

Sugar and Pulp Industries Are Among Plans to Solve Unemployment

WINNIPEG, Feb. 15.—Having flayed the profiteers and the grafters and urged returned *soldiers to fight* the battle of the polls as valiantly as they had fought the battle of bullets and the bayonets in order to turn out the parliamentarians who had *failed to get millions* of ill-gotten money returned to the country for the benefit of war veterans and their families, I. D. Baskerville, M.L.A. for Emerson, put schemes of a constructive nature before the meeting of the central branch of the Great War Veterans' association today. The schemes were:

A sugar beet industry in Manitoba, which, he said, would provide work for many returned soldiers; a pulp industry; completion of the Hudson Bay railway by the provincial government, which he declared, ought to be taken out of the hands of the Dominion government or another generation would pass before the line was finished; a glove industry which, he stated, a man was willing to start in Winnipeg, provided he could be *assured that he could get 200 glove* workers.

Mr. Baskerville spoke of the gratuities granted by the federal government as being miserably inadequate considering the magnificent services rendered by the Canadian army and scored the government for putting up the plea of lack of money when it had allowed the profiteers and grafters to get away with so much.

KILLED WHEN PILE DRIVER CRASHES DOWN

VANCOUVER, Feb. 15.—Frank H. Moore, employed on Industrial Island was crushed to death this afternoon. *A pile driver was engaged* nearby in building a wharf, and one of the piles fell while being lifted crashed through the office building in which Moore was working and killed him.

FATHER OF THE CANADIAN PRESS SERVICE, E. F. SLACK, DIES AFTER SHORT ILLNESS; WAS GENERAL MANAGER OF THE MONTREAL GAZETTE

MONTREAL, Feb. 15 (Canadian Press).—E. F. Slack, president of the Canadian Press, *Limited, and general manager* of the Montreal Gazette, died this afternoon at his residence, 658 Grosvenor Avenue, Westmount. He was taken ill with *influenza and this developed* into double pneumonia.

Mr. Slack would have completed fifty-second year in 1920, having been *born in Waterloo, Que.*, in 1869. He was educated at the Waterloo Academy Academy and joined the staff of the Montreal Gazette in 1888, as a reporter. He was *successively telegraph editor, city* editor, editorial writer and managing editor, finally becoming managing director of the Gazette. He organized the Canadian Press, Limited, *in 1910, of which he was later made* president. He is survived by a widow and two daughters.

Blow to Newspapers

OTTAWA, Feb. 15.—The Ottawa Journal will say editorially tomorrow: "The sudden death of E. F. Slack of the Montreal Gazette is a heavy blow to Canadian papers from the Atlantic to the Pacific. His work in connection with the Canadian Press, Limited, of which he had been president for a number of years, was of a most generous char*acter and he was animated* largely by the need for a closer intimacy between the people of the east and the people of the west. Mr. Slack had recently brought almost to completion plans for a direct news service from Britain to Canada. The papers of Canada generally will extend sympathy to the Montreal Gazette in the loss of so fine a gentleman."

Gave Canada News

MONTREAL, Feb. 15 (Canadian Press).—The Montreal Gazette will say in part tomorrow, in reference to the death of E. F. Slack:

"In his capacity first as manager *and then as president of the Canadian* Press, Limited, he was instrumental, perhaps more than any one individual in giving Canadian newspapers a national and efficient *news service, allied with and as* good as that which supplies the great dailies of the United States. His return to the presidency year after year shows how the representative newspapermen of the dominion appreciated his worth. He helped in connection with the publicity work to promote the Canadian war loans."

GIVE VERDICT ON DIXON TODAY

WINNIPEG, Feb. 15.—After the long and impassioned speech to the *jury by F. J. Dixon, M.L.A.*, at his trial for seditious libel on Saturday and the charge to the jury by Judge Galt, the 12 men retired and at 5:30 had not reached a verdict. At that *time the judge agreed to a retirement* until 8:30. Shortly before that time, the jury asked for an adjournment until Monday morning and this was granted. The verdict is anticipated at 10 o'clock tomorrow.

TREATY FIGHT RESUMES TODAY

May See Ratification Question Pass Into a More Decisive Stage

WASHINGTON, Feb. 15.—The peace treaty fight will pass into another and perhaps decisive stage tomorrow with the best opinion in official and political circles here div*ided as to whether the outcome will* be ratification or rejection. Under a plan agreed upon a week ago the treaty is to be called formally before the senate with the republican *reservations presented at the present* session of congress.

A brief session of brief debate is expected while negotiations for a compromise are proceeding but it is *the intention of the leaders to hold* the discussion within reasonable bounds and to begin within a few days actual senate consideration of the changes proposed in the resolu*tions.*

Disagreement over article X, which is the crux of the whole controversy, remains in a state which seems ratification.

*The first set speech in the reopen*ed treaty debates will be made tomorrow by Senator McCormick, Republican, Illinois. On Tuesday Senator Thomas, Democrat, Colorado, will *speak on the treaty's economic features*. Both Senators McCormick and Thomas are members of the group irreconcilably opposed to ratification.

REDS CONCENTRATE ON POLISH FRONT

Troops Are Now Massed on Three Points; Development Overshadows Peace

*WARSAW, Feb. 15.—Heavy con*centration of bolshevik troops is re*ported at three points along* the Polish frontier, and discussion of the soviet operations is overshadowing the peace talk ,especially among Polish military authorities. Discussion of peace *negotiations* to open in March continues in Warsaw and Moscow, however.

In shaping peace conditions to be presented to the soviet government Poland *is assuming an attitude sim*ilar to that taken by the allies towards Germany prior to the armistice, Poland contending that she has acted on the defensive from *the beginning, and that the burden* should be placed on the shoulders of the aggressors, the bolshevik.

Military authorities insist on severe guarantees, designed to prevent *bolshevik encroachment in the fu*ture. Return of the rolling stock wrested from Poland by the Esar's armies, as wel as of objects of art and historical treasures, are among *the demands.*

CORK, Feb. 15.—A well known veterinary surgeon, Dr. McSweeney, was shot and wounded by a party of armed raiders on his residence last night. McSweeney mortally wounded one of the raiders.

QUESTION MOUNTIE ON WINNIPEG RIOTS

Only Point of Interest in Saturday Session of Trail of Strike Leaders

WINNIPEG, Feb. 15.—(Canadian Press)—Saturday afternoon passed quietly at the trial of the seven strike leaders and it was only when R. A. Bonnar K.C., counsel for the defense was cross examining Corporal Campbell, Royal Canadian Mounted Police, regarding the rioting in the vicinity of the city hall, June 21, *1919 was there any sign of animation* or particular interest among the jurymen, and spectators.

Most of the time was spent in the production by members of the *mounted police, of documents which* they had seized and which were tendered the crown for identification. William Ivens continued reading to the jury exhibits which had been *put in by the crown and which he* commenced to read at the morning session. Before adjournment Judge Metcalfe ordered to be read in their spare time, an agreement having been *reached between crown and defence* after some argument.

The judge also ordered the evidence of E. Parnell, crown witness, which had before been put in at the *preliminary hearing, might be read* by the crown in view of Parnell's absence in Australia. The request was made by I. B. Coyne, K.C., crown counsel. Counsel for the ac*cused made formal objection on the* grounds that the defense would be placed at some disadvantage by being able to cross examine the witness.

Mr. Bonnar tried to obtain from Corporal Campbell definite details as to the dress, personal appearance and voice of Mayor Gray at the time when witness saw and heard the *Mayor reading the Riot Act in front* of the city hall. Corporal Campbell would not take his oath as to whether or not the mayor was wearing a coat at that time, or whether *he had a moustache or chin whiskers.*

Questioned as to the mayor's voice, whether it was a squaky tenor or base, he replied that he would consider it a baritone ,and de*scribed it as an excited voice dur*ing the actual reading of the act.

Sceargeant Frippe, Royal Canadian Mounted Police, produced documents seized June 30, 1919, at the offices *of the socialist party of Canada*, Pender Street, East Vancouver.

Corporal Fish produced documents seized at the residence of Ernest Robinson, Winnipeg. Inspector How*ard Townsend*, Royal Canadian Mounted Police, produced documents seized at the offices of the British Columbia Federationist Newspaper, Vancouver.

DRURY RUNS FOR HIS SEAT TODAY

TORONTO, Feb. 15.—The by-election in Halton County will be held tomorrow. Premier E. C. Drury, who is being opposed in Halton by *Edward Stephenson of this city*, a returned soldier, who concluded his election campaign addresses on Saturday night at Milton, the county town of Halton. Premier Drury quit cam*paigning several days ago, evidently* having come to the conclusion that his election was a foregone conclusion.

REBELS THROW BOMBS INTO ARMY TRAIN

DUBLIN, Feb. 15.—A train conveying a military guard and arms was held up outside of Dublin Friday night by a large band of armed men, who shot and seriously wounded a signalman and threw bombs into the train, wounding a corporal and doing much damage. The guard did not reply to the fire, owing to darkness. *A wife of a farmer at Hal*lagh, Wexford, resisting masked armed raiders, was shot dead.

CANADA WILL BLOCK TREATY FROM BECOMING EFFECTIVE IF LENROOT RESERVATION PASSED BY SENATE

Hon. N. W. Rowell, Acting Secretary of State for External Affairs, Outlines Dominion's Position in the Peace Treaty Fight in United States; Will Not Consent to Any Impairment of Status and Voting Rights

OTTAWA, Feb. 15.—(Canadian Press)—"If the United States senate should adopt the Lenroot reservations, either in its its original form or amended as now suggested and should also adopt the preamble as proposed, Canada, as one of the dominions of the British Empire and a party to the treaty, would be called upon to decide whatt action she should take under these conditions. There can be no possible doubt what Canada's decision would be. She cannot and will not consent to any impairmentt of her status and voting rights under the treaty. Therefore, when final action in the treaty is taken by the government of the United States, if the ratification can only become effective on Canada's assent thereto, the ratification cannot go into effect so far as Canada is concerned, as Canada will not give that consent."

In these words Hon. N. W. Rowell, president of the privy council, and who, during the absence of the prime minister, is acting secretary of state for external affairs, outlined Can*ada's position today in the treaty* fight in the United States at a mass meeting of veterans tonight. Canada has made her position perfectly clear to the proper authorities in London, and she has asked them to make her position clear to the authorities in Washington.

"We have done this in the interests of good understanding between the United States and Canada," Mr. Rowell continued. "The reasons why Canada cannot assent are so obvious *that they need not be mentitoned.* I shall only mention one. Canada, by the free action of her own government and the whole-hearted co-operation of her own people, raised 500,000 men to take part in this war. She mortgaged her future to carry the burdens which her participation in the war involved. The flower of her youth lie buried in France and Flanders and thousands more are maimed for life in order that Canada, one of the nations, might make *her contribution to the cause of* liberty and the restoration of the world's peace. In the light of these facts it is inconceivable that any government in Canada could be so false to both the living and the dead and to Canada's future as to give the assent of Canada to a proposal which would deprive Canada of her position and status won by her soldiers on the field of battle and accorded to her at the peace conference by the enlightened judgment of nations. *Particularly is this the case when* voting rights are granted, and we think properly granted, to several nations on the American continent, which either by reason of treaties with the United States or of economic necessity are dependent upon her, nations, which took no part in the war and whose combined population probably does not exceed that of Canada.

"The New York Tribune," said Mr. Rowell, "had addressed the for*eign question as from Canada to the* United States: 'You put Cuba, Panama, Hayti, Santa Domingo, your dependencies in the league, but you are not willing to trust us. Why?'

"To *that question*, he *declared*, "Canadians are awaiting an answer and we cannot believe that the American people will finally deny to Canada what rightfully she accorded to Cuba, Panama, Hyati and Gautemala."

Mr. Rowell said Canada appreciated *the prompt recognition* by the president of the United States and by other nations of Canada's right to a place at the peace conference and the league of nations and said Can*ada had no reason to believe that* the statesmen who recognized her rights at Paris would willingly be parties to a withdrawal of such rights at this time.

However, he said, the United States senate was part of the treaty making power, and was entitled to either reject the treaty or approve it with such reservations as the sen*ate might choose to stipulate.* "If the final action of the senate is approved by the president," said Mr. Rowell, "It then becomes the action of the American government and *settles the attitude which the United* States will take in reference to the treaty and the league of nations."

Mr. Rowell dealt with the revised form of the reservations on voting *rights submitted to the United States* senate on Wednesday last and said the later part of the reservation which refers to disputes between any portion of the British Empire, and *the United States but expresses* what we understand to be the effect of the treaty as it now stands, and is therefore an interpretation rather than an amendment of the treaty. *The first part of the reservation*, however, is a clear amendment to the treaty, and a direct challenge of the status voting rights of Canada and the other dominions. We are *at a complete loss to understand* why the United States, our nearest neighbor, should be the one nation of all nations of the world to challenge our position."

CANADA'S QUOTA IN FORWARD MOVE ALMOST REACHED

TORONTO, Feb. 15.—With incomplete returns up to Saturday night, showing a total of $8,408,263 subscribed by the Presbyterians, Methodists, Anglicans, Baptists and Congregationalists of Canada in the inter-church campaign to raise $11,400,000, national committee in charge of the campaign tonight expressed cheery optimism as to the ultimate results.

WINNIPEG STREET CARS IN COLLISION

Three Person Injured When One of the Cars Topples Over

WINNIPEG, Feb. 15.—Two street cars collided at nine o'clock this evening at the intersection of their runs on the *Sherbrooke Street and* Sargent Avenue lines and one of the cars toppled over from the shock of the contact ,injuring three persons, R. W. Johnson, a elerk in the post-office, who was *badly injured*; Thomas Stewart, conductor of the Sherbrooke car, suffered sever injuries and Miss Isabella Angus, of the Success Business College, was less badly hurt.

The Sherbrooke car had stopped at the north side of Sargent Avenue and R. W. Johnson had gotten on. The car was then moving slowly across as the *Sargent Avenue car* plunged into it. The conductor stated that the brake did not act. The Sherbrooke car was forced off the tracks and over on to its side. The car had to be *lifted to get the* passengers out by a number of men who came up. Several were shaken up but only three were needing medical attention, these being rushed to the hispital. *The police took the* motorman and conductor of the Sargent car and are holding Harry Stone, motorman, pending further enquiries.

NEXT BY-ELECTION IN HORNCASTLE

LONDON, Feb. 15 (Canadian *Press*).—*The next* byelection to claim attention is the Horncastle division of Lincolnshire for a successor to Col. Weigall, unionist, representative since 1911, when he followed the present Lord Ancaster. The vacancy occurs through the colonel's appointment as governor of South Australia. It is noteworthy *that the coalition* candidate, Col. Hotchkiss comes from the same place as Col. Weigall, viz, Spa, near Horncastle. His local position and popularity will stand *him in good stead, but his prospects* are not improved by his refusal, though really a Unionist, to describe himself as of either wing of the coalition.

The free Liberal choice is Ald. Pattison, also a Lincolnshire man, who was defeated at the last election. Labor is represented by Holmes, a local labor party official. The constituency, which is entirely agricultural, has always been Conservative, but the labor man is sure to have a large *following among the* workers on the land and the real fight will be between him and the coalition candidate.

AGAINST TRADING WITH THE SOVIETS

NEW YORK, Feb. 15.—The American Manufacturers Export Associa*tion has* warned its members against trading with Soviet Russia, it was announced tonight. Assurance of the safety and permanence of business with Russia cannot be obtained *under* the present Russian government, the warning asserted. In resolutions adopted by its board of directors the Association declared it was eager to resume commercial in*tercourse* with Russia and the Russian people under a government chosen by a properly elected assembly.

TEXT BOOKS AND SUPPLIES GIVEN FREE TO PUPILS

ST. CATHERINES, Feb. 15.—All text books and supplies are to be furnished free to St. Catharines public school pupils, according to a decision of the board of education.

Nelson, B. C.

EVERYTHING ELSE FAILED, HE SAYS

Nothing Helped Mat Oszman Till He Took Tanlac; Feels Fine in Mornings Now

"I will never be able to praise Tanlac enough for the way it has fixed me up after everything else failed," was the statement made recently by Mat Oszman, a well-known logger, who lives at the Newton Rooms, 110 Water Street, Vancouver, B. C.

"I was troubled with indigestion so bad that I lost my appetite," continued Mr. Oszman, "and half the time I did not care whether I ate anything or not. Many a time when I just passed by a restaurant the smell of food would make me feel nauseated, and whenever I did force myself to take a few bites it always disagreed with me. Gas would bloat me up so tight I would have to open my vest and it made my heart palpitate so bad I could hardly breathe. I was troubled with constipation and at times I had dizzy spells so bad I would have to quit work. My back ached just about all the time and I was hardly able to stoop over to pick up anything as it looked like my back would break in two. I got so little sleep that I felt bad every morning and just simply had to drag myself off to work.

"That was my condition but since I have taken Tanlac things are the opposite—I am never troubled in any way and am in as good health as a man could want to be in. Indigestion is a thing of the past and I can eat anything I want and as much as I want without having any bad effects in the least. My constipated condition has been relieved and I am no longer bothered with headaches and dizzy spells, and the pain in my back has disappeared entirely. I am getting a good night's sleep and rest every night, and of mornings I just feel fine. Nothing is too good to say about a medicine that has done as much as Tanlac has done for me."

Tanlac is sold in Nelson by Canada Drug & Book Store, and by the leading druggist in every town.

Grip, Influenza

Hamlin's Wizard Oil a Reliable. Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

A Witness Testifies

SHE WAS WEAK AND NERVOUS

Brampton, Ont.:—"About five years ago I began suffering with woman's trouble. I became all run-down weak and nervous. I was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength and I have been in better health than I ever was before. I have had no use for medicine since, but should I need it I would take these same remedies, knowing them to be excellent."—MRS. HARRY KNIGHT, Jessie St.

OWES HER LIFE

Ft. Saskatchewan, Alta.:—"It is with great pleasure that I write the following and I hope it will help the many sufferers who do not know the good Dr. Pierce's medicines would do them if they would try them.

"In regard to my condition, I will say that I suffered from childhood from a very weak back; I had the misfortune of having spinal meningitis when I was one year old and until I was 13 I did not see a well day, but a very kind lady told my mother about Dr. Pierce's Favorite Prescription and she got a bottle to try it. It did me so much good that mother got me 6 bottles. Recently I happened with a car accident and hurt my back badly. My doctor gave me up and said I would not live, but I still stick to Dr. Pierce's Favorite Prescription and to my surprise in three weeks I was out of bed and better. I owe my life to it and nothing else, and shall never be without it.

"If any sufferer wishes to write I will answer with pleasure."—MRS. NOEL BARTHOLOMEW.

ENGINE BACKS OFF END OF RAILS

Mishap Occurs While Great Northern Engine Being Turned at Troupe

While being turned at the Y at Troup Junction on Saturday morning, the engine of the Great Northern train from Spokane, backed off the end of the rails, without doing more damage than putting the passengers to some inconvenience and delay in reaching the city.

It is stated that the train, which was in charge of E. F. Hardy, arrived at the junction at 7:40 a.m., where it was necessary to uncouple and turn the engine before continuing the journey to Nelson. While backing down the Y, the brakes would not hold the engine owing to the wheels skidding on the film of ice covering the rails.

Another engine had to be commissioned from the city to bring the train in, and later a Canadian Pacific railway wrecking crew was sent out to put the displaced engine on the track again, which was done by 6:30 in the evening.

GOLF CLUB READY FOR BUSY SEASON

Course is Being Improved; Two Tennis Courts Ready for Play

C. U. Appledell, the secretary of the Golf Country Club, states that as soon as spring opens up the club will be away to a good start for the season. The services of Bob Smith have been secured to act as professional and he will be on hand every day in the week except Mondays and will supervise the improvements to be made on the course. Mr. Smith has been over the course several times and states he is exceedingly pleaced with its possibilities.

In addition to the Golf Course two first class clay tennis courses are in readiness, situated close to the club house.

Mrs. Fowles will be in charge of the catering as before and members will be able to have lunch or tea served any day in the week including Sundays.

It is also the intention during the summer to hold a number of flannel dances at the Clubhouse so the members are looking forward to a lively season.

"Why don't you let the little dear Katie?"

"The master's shirt studs, ma'am."

"Why don't you let the litte dear have them, then?"

"I did, ma'am, and he's swallowed 'em!"—Yonkers Statesman.

SHORT OF BREATH

Could Hardly Walk Without Resting

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, allgone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

COUNTRY CLUB DANCE TONIGHT

Proceeds Will Be Used to Furnish Club House and Improve Links

Nelson Golf and Country Club members will hold their dance, the last before Lent, in the Eagle hall tonight, when dance devotees and lovers of outdoor pastimes, may have an opportunity to assist in raising funds for the contemplated improvements to the golf course, and for finishing the furnishing of the club house preparatory to the summer season's activities.

It is hoped to give the city an added attraction to tourists and city visitors by having a first class set of links where visitors may indulge in the royal game without having to leave the Queen of the Kootenays in search of facilities to indulge in their favorite sport. For this reason members and friends are endeavoring to make the dance an unqualified success.

VALENTINE TEA IS SUCCESSFUL

Gay red hearts, significant of the spirit of St. Valentine, combined with flowers, were used to decorate the home of Mrs. J. F. MacKaracher, Stanley street, Saturday, when it was the scene of a successful tea in aid of the St. Saviour's memorial hall fund. The affair was under the auspices of the Mothers' club.

The numerous guests were received by the hostess, assisted by Mrs. G. A. Hunter and Miss MacKaracher.

During the afternoon the guests were delighted with several vocal and instrumental numbers by Mrs. Andrews, Miss P. Whitehead, Miss M. Garvis, Miss MacKaracher and Miss Lillian Hunter. Prizes were won by Mrs. Garvis, Mrs. Bridges, Miss Brett, Mrs. W. H. Walker and Mrs. S. Fletcher.

About $50 was realized for the fund.

SANTO DOMINGO HAD ROMANTIC GROWTH

In connection with the petition sent to Washington by a group of Spaniards, suggesting that this would be an opportune time for the United States to withdraw its troops from Santo Domingo, the National Geographic Society has issued the following bulletin concerning the island republic:—

"Geographically, the island of Haiti ,including within its limits the two republics of Santo Domingo and Haiti, is in the class of the most favored of nations, situated on the Western Continent about midway between its two grand divisions of North and South America and abounding in natural resources," says the bulletin.

"The name Haiti or 'High Island,' is significant of the character of its topography. 'Sire,' once said a British admiral to his king, George III, when asked about the island, 'Haiti looks like that,' and he crumpled up a piece of paper and placed it upon the table. A brief description though this may be ,it well fitted the case. The island is about 400 miles long and 150 miles wide. It is irregular and is intersected by three chains of mountains.

"Historically, Haiti, or Santo Domingo, is the senior of our own country, if we leave out of consideration the legendary reports concerning the visit of the Norsemen to our northern coasts 800 years ago, and we are somewhat indebted to this beautiful island for our own development.

"On St. Nicholas Day (December 6), 1492, Columbus entered a port at the extreme west of the island of Santo Domingo or, as the whole island was then called by the aborigines, Haiti. The natives themselves called the port Bohio, but Columbus christened it, in honor of the day he was celebrating, Port St. Nichoas, the name itself existing as St. Nicholas Mole. This date will ever be memorable in the annals of the Haitiens as marking the beginning of the history of the island.

"Columbus now called the island Hispaniola in honor of the country which had sent him forth to discover it, and it is to be regretted that this name given by the immortal discoverer has been lost, for its present two names are conflicting and confusing.

"Columbus then determined to build a permanent settlement, and after reconnoitering, he selected for this purpose a site on an elevated plain near a spacious bay on the north coast of the island. Here was established the first town in the new world, which was dignified by the name of his queen and patron Isabella.

"But the course of empire was still south, and soon Santo Domingo City became the centre of the colonial activities.

"A little love affair connected with the growth of this city is interesting. One of the Spanish party, Miguel Dias, having got into difficulty with an officer, severely wounding him in combat, fled to escape punishment. Finding shelter in an Indian village, and being, received with much cordiality and hospitality he in return gave his heart to the young Caguisas, who was then governing the tribe. His protestations met with favor, and the young Spaniard found himself the consort of a queen of no mean accomplishments. But he soon wearied of his environment and signed for his old companions. The queen, seeing his discontent, and fearing to lose him, gave him the secret of her vast wealth and loading him with the precious metal, sent him back to the Spaniards to induce them to return with him and settle in her country. Dias delivered this message to Columbus, who immediately ordered an exploration of that part of the island to ascertain the truth of the Spaniard's report.

"The sequel to this love affair is also interesting, but most pathetic. Zamcaca, after giving her all to her lover, who was thereby promoted to high honors in the colony, being the first alcalde of the new city, was so disheartened by the cruel treatment accorded her people that she fled from civilizitaion and affluence to the wilds of the forests, leaving her two children and still faithful husband to mourn her loss, and was never heard of again.

"From this origin, so casual and domestic, arose the first permanent city of the new world."

PIONEER OF WEST DIES IN WINNIPEG

WINNIPEG, Feb. 15.—The death took place at the general hospital today of John MacKay, one of the real pioneers of the west at the age of 87. Deceased was born at Caithness, Scotland and had been in Manitoba 65 years. He was with Thomas Scott at the time of the Riel troubles and had been one of the prisoners held at that time in Fort Carry.

Despite his years, the late John McKay was hale and hearty and had undertaken to drive north before the last cold spell set in. He had forgotten to carry mits and when the horses became unmanageable on the trip his hands were frozen. He was brought into the hospital but died from the effects of his exposure.

KEWPIES AND HOT BISCUITS AT TEA

Those attending the afternoon tea given by the members of the Excelsior club of the Presbyterian church on Saturday were regaled with something choice in the way of hot biscuits, made before their eyes by Mrs. H. McKenzie and Miss E. Ross in an improvised delicatessen in the rooms under the church. Tea was served by Mrs. Godfrey and Miss Simons.

The rooms were decorated in conformity with St. Valentine's Day, there being hearts of all sizes and shapes in profusion, none of them being attached.

A counter of Kewpie dolls was on display and those in attendance were gratified at the number of purchasers, the total proceeds from the tea and from the sale of Kewpies was around $30.

DRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N.Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an icebag on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERMILLA HULSIZER, 218 E. Fall St., Ithaca, N.Y.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

If Thin and Nervous Try Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorous may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve, tissue soon produces a welcome change — nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Kootenay and Boundary

KOOTENAY LURES OLD-TIMER BACK

FORT STEELE, Feb. 11. — R. T. Richardson, one of the old timers of the country, found that the lure of the mountains was too great to resist and returned to Fort Steele on Monday, bringing with him a carload of effects and livestock. Mr. Richardson left a few years ago to settle in southern Alberta and go in for wheat raising, but he says he found he had lived in the hills too long to leave them. He has not decided as yet where he will locate, but figures it will be close to Fort Steele.

A dance was held, to which parties came from Wasa, Bull River, Fenwick, Cranbrook, and the immediate surrounding district, to warm up the boards. Dancing was kept up until a late hour.

Rev. F. V. Harrison of Cranbrook conducted services in St. John's church here, when he spoke of the aim and objectives in view in connection with the church forward movement.

Mrs. Cameron, mother of W. S. Cameron of Wasa passed away last Friday. The deceased was 82 years old. She had not been ill but went to sleep as usual and did not awak. The remains were shipped east for interment.

The morning mail trip of the stage to Rampart has been cut off. From now on the stage will only meet the eastbound train at Rampart.

ROSSLAND NOTES

ROSSLAND, B.C., Feb. 14.—Mrs. C. B. Smith entertained about forty guests at a tea at her home Thursday afternoon. Those assisting in the tea room were Mrs. W. A. Elletson, Mrs. T. H. Gilmour, Mrs. W. M. Archibald, Mrs. E. Chester, Mrs. I. J. Trembath and Miss Marie Fraser.

Mrs. J. Solomon and young son, who have spent the winter months with Dr. J. W. and Mrs. Coffin, left this evening for their home in Point Roberts. Mrs. Coffin and niece, Miss Julia, accompanied them to Castlegar.

Mrs. J. G. Denison, who has been visiting friends in Trail for a few days, has returned home.

T. I. Peck, who was operated on a few weeks ago at the hospital, has been removed to his home, and is recovering.

William A. Elletson, Jr., entertained prior to the Valentine dance, Friday evening, with a dinner party. Covers were laid for twelve. The centre piece was a shower of hearts and cupids from the dome, and appointments carried out in red and white. Those present were Mr. and Mrs. I. J. Trembath, Miss Gay Shannon, Miss Edith Peters, Miss Grace Cosgriffe, Miss Marjorie Fraser of Vancouver, Miss Florence Henderson, Mr. Howard Wilson, G. M. Wadds, Mrs. W. A. Elletson and Will A. Elletson, Jr.

Mr. Leo of Trail spent Friday afternoon and evening in Rossland.

James J. Warren, president of the Consolidated Company, was in the city Friday.

Mrs. C. F. McNaughton of Trail is in the city visiting friends.

GRAND FORKS LOSES AN OLD TIMER

GRAND FORKS, Feb. 13.—Mrs. D. C. McDowell, for many years a resident of Grand Forks, died Wednesday evening at the Grand Forks hospital. The body will be taken to Chesaw, Wash., for interment. She leaves a husband and two children, a boy of 17, and a daughter 15 years old.

The home of the late Dr. G. W. Averill was sold this week to Frank Moore of Saskatchewan, for $15,000. The house, which is the finest in the valley, was constructed by the late Dr. Averill. The grounds include about 30 acres excellent farming land. The deal was negotiated by S. T. Hill of Grand Forks. The new owner, Mr. Moore, and family, will take possession at once.

Charles Harrigan, a war veteran, is a patient at the Grand Forks hospital suffering with bronchial trouble.

L. C. O'Dell moved to his ranch on Christina lake Thursday.

B. A. Brooks of Springdale, Wash., was a Grand Forks visitor Thursday.

Mrs. Dr. Acres received news of the death of her sister at Winnipeg on Tuesday.

Jack McDonald, one of the owners of the Union mine, is spending the week in the city.

M. Burns was called to Spokane on Monday on account of the serious illness of his daughter.

Miss Joyce McLeod left for Toronto Wednesday for an extended visit with her grandmother.

Colin Tilley, was discharged from Grand Forks hospital Wednesday after a three weeks' siege of quinsy.

VESTRY MEETING AT BONNINGTON FALLS

BONNINGTON FALLS, Feb. 14.—Rev. F. H. Graham presided over the annual vestry meeting at St. Mary's, Bonnington, February 4. Church accounts and reports were presented and passed. Mr. Graham appointed Collingwood Gray as vicar's warden and after some discussion as to whether it was expedient to have more than one warden, Mr. Gray was also chosen as people's warden.

Turner Lee and C. Gray were elected delegates to the synod. The following in addition to the church warden were chosen to serve on the church committee: Mrs. Bennett, G. Noel Brown, Turner Lee.

Mr. Graham afterwards held an evening service.

Mr. and Mrs. A. Willey entertained on the evening of Feb. 5th.

Mr. and Mrs. W. A. Rockcliffe of San Francisco, arrived Wednesday to visit Mrs. Bennett.

The usual whist drive was held on Wednesday evening. The prize winners were: Mrs. Willey, Mr. McDougall, and the consolation prizes were awarded to Mrs. Epsom and Mr. Watt. Dancing finished up the evening.

Mrs. B. G. Rennie was a visitor on Tuesday, the guest of Mrs. Gray.

Mrs. Epsom of Trail is visiting Mrs. R. G. Long.

Miss Kathleen Gray was out from Nelson and attended the Leap Year dance at South Slocan.

Lorne A. Campbell of Rossland is a visitor to the West Kootenay Power & Light plant here today.

PELT OF HUMBLE MUSKRAT BECOMING THING OF RESPECT

Consider the muskrat, he toils not, neither doth he spin, yet Solomon in all his glory was not arrayed like one of these. The fur of this once despised rodent, this humble inhabitant of marsh and creek, a pelt only a few hand breadths in area, is worth almost its weight in silver. Only a few years ago these pelts fetched at the village grocers from 9 to 15 cents each; within a few weeks a trapper sold 100 such at $4 apiece, and the price is going higher. Trappers in some regiions are earning from $25 to $35 a day on the muskrat marshes.

Teacher—What is a vacuum?

Student—I have it in my head, but just can't think of it.

GREENWOOD GAME RESULTS IN DRAW

GREENWOOD, Feb. 14.—Playing to a draw the Boundary branch of the Great War Veterans clashed with the Greenwood city boys on Greenwood ice Friday night.

The Veterans' team was composed of all returned men, and the city team was made up of some of the team which won the Boundary cup, filled up with promising intermediates.

It was a good game and the teams were evenly matched. The Vets had by far the heaviest men. They were the favorites with the fans, but the Cits. were well supported.

In the first period the Cits. scored one goal, the Vets scoring in the second, but before the second period was over the Cits. scored again. In the third period the Vets scored again which left the score two goals each. Five minutes each way resulted in no score, so the game was left a draw. The following were the teams:

Vets.	Position	Cits
A. N. Mowat	G	N. D. Docksteader
J. Morrison	P	R. Taylor
R. Murray	C	R. Wood
C. Carlson	R	G. Hallett
G. Grieves	C	J. Hallett
E. McMynn	L. W.	W. A. Docksteader
J. McCreath	R. W.	J. Royce

Referee, G. Clerf. Timekeepers, P. H. McCurrach and G. Hartley.

SOUTH SLOCAN NEWS

SOUTH SLOCAN, Feb. 14.—Mr. and Mrs. Yeatman entertained a number of young people at their home, Braeside, on Tuesday evening. Five hundred and whist were played, those having the highest scores being Mrs. Parker and Mr. Bikkerton. The remainder of the evening was spent in varied games.

Mrs. W. C. Motley is the guest of Mrs. Yeatman.

Mr. and Mrs. Cox of Cranbrook have come to reside here.

Frank Watts of Wattsburg, has leased Mr. Fenwick's house. His car of household goods has arrived and he is now moving in. Mrs. Watts is expected shortly.

Mrs. H. Woods was the guest of Mrs. Wheildon for the dance.

A Valentine dance was held in the hall Feb. 13, arranged by the following committee: C. McDougall, W. D. Ridge, B. Watt and J. D. Yeatman. The excellent music was supplied by an orchestra from Nelson. Mrs. Ridge and Mrs. Yeatman were hostesses for supper. There was a good attendance.

GRAND FORKS VALLEY CAN GROW PRUNES

That the dry districts of British Columbia are very suitable for the production of prune plums has long been recognized, yet experienced fruit growers of that province have found that fruit of that kind cannot be grown to advantage unless a large supply of water is available. It has been found that with the help of artificial irrigation the prune crop on the Sunnyside Ranch, one of the few orchards in the Grand Forks valley, is such as to indicate an era of prosperity for the district as soon as irrigation is introduced on the many thousands of acres available for prune growing under conditions of sufficient water supply.

John Simpson, now of Rivers, Man., whose experiences with fruit growing at Grand Forks, B.C., satisfied him of the possibilities existing for the successful production of of prunes under irrigation at that point, led him to call attention to the fact some three years ago. He produced an article on the subject of prune growing in British Columbia, in which he had at that time refused to encourage many who were sufficiently interested to propose investing or taking an active part in the industry, because he knew that at that time a large supply of water could not be secured in Grand Forks.

Since three years ago, the prospect of a sufficient water supply for fruit irrigation in the Grand Forks Valley has improved very greatly and the possibilities of producing a heavy crop by such means have been amply demonstrated, as in the case of the Summerside Ranch, where this year over 10,000 boxes of prunes were picked from the nine acres of orchard—the prunes selling at $1.10 a box at prairie points. In round figures $11,000 was the value of the crop harvested from the nine acres. "Nor is this a record production for the prune orchard," says the Grand Forks Gazette. "Fourteen thousand boxes were harvested in a former season."

Recognizing the possibilities of the Grand Forks district, the British Columbia provincial government is to put in an irrigation system at once, which will place one-third of the water of the Kettle river on nearly 6,000 acres of land. The district gets about 14 inches of water from natural causes every year, and the irrigation system will give 30 inches more, making 44 inches altogether. The government engineer, Mr. Bicker, made all the measurements. He is a great enthusiast on the matter, and says he is positively certain that the quantity of water supplied by the irrigation system will be at least thirty inches.

As indicating the importance of the Grand Forks Valley as a source of prune and other fruit supply, the following from an item in the Grand Forks Gazette of September 19 is interesting:

"Forty-three carloads of fruit have been shipped from Grand Forks this season to date, exclusive of express shipments, which would amount to several additional cars. Up till last night shipping over the C. P. R. included 21 cars of prunes, nine cars of apples, one car of plums, and six cars of mixed fruit. Two cars of prunes and one of apples have gone over the same line today, and three additional cars were shipped via the Great Northern."

So far as can be learned it has not yet been found profitable to manufacture prunes in British Columbia. The price of labor and fuel are said to be too high, and there is a larger percentage of moisture in the prunes than in those grown in California and Oregon. In California a large proportion of the prunes are made by drying them in the sun. Now, however, with the prospect of a large supply of the fruit available at one point, and the moisture content possible of control by reason of the artificial irrigation, the possibility of manufacturing the surplus over the demand for the fresh fruit is probably worth considering.

Merscham, because of the lather it forms when soft, is often used by the Turks as a substitute for soap.

SUFFERED WITH BOILS Last 5 Years

Boils are simply a breaking out of bad blood, and anyone who has suffered from them, knows how sick and miserable they make you feel. Just when you think you are cured of one, another seems ready to take its place and prolong your misery. All the poulticing and lancing you can do will not get rid of them.

While the skin appears to be the cause of the irritation the real disease is rooted in the blood, and to get rid of these painful pests it is necessary to get right at the seat of the trouble.

When the blood is purified, cleansed and vitalized, by Burdock Blood Bitters, the boils will quickly disappear, your misery is at an end, and health and strength come back again.

Mr. Robt. Johnson, Barkway, Ont., writes:—"I have suffered very much, during the last five years from boils, having as many as five at once. I tried different remedies without any relief. I was advised to try Burdock Blood Bitters, which I did, and after taking just one bottle I have had no more boils."

B.B.B. ha been on the market for over 40 years and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CLOVER-ALFALFA EXPERIMENTATION

ormer Gives Higher Yield in Combination With Grasses Than Latter

Two years experimentation at the vermere experimental farm, on the tility of alfalfa and clover when ixed with grass, has brought out ome surprising results in favor of over.

In the early history of the western rovinces it was an easy matter to btain all the native hay required y the settler on or near the farm. ith the breaking up of the virgin il most of the hay marshes and oughs have been drained, and nave hay is becoming increasingly arce. This state of affairs has mpelled the farmer to seek other urces of supply and now the ltivated grasses and clovers with w exceptions are superior in qualy and yield to the native grasses.

To ascertain the relative merits of e various grass and clover mixres an experiment is being carried at the experimental station at vermere, using alfalfa and grass ixture in one case, and clover and rasses in the other. These plots ere seeded in June 1917 to the rious mixtures, so that these rearks are based on the results of o years crops. The following table ows the relative value of the difrent grasses when added to clover alfalfa.

Average Yield for Two Years

	Tons	Lbs.
lfalfa	4	350
lfalfa, Timothy	5	475
lfalfa, Western Rye	5	80
lfalfa, Meadow Fescue	5	290
lfalfa, Orchard Grass	4	1390
lfalfa, Tall Oat	3	1140
lfalfa, Timothy, Western Rye, Meadow Fescue, Orchard Grass, Tall Oat	4	660
over	5	845
over, Timothy	5	1010
over, Western Rye	6	765
over, Meadow Fescue	6	690
over, Orchard Grass	6	270
over, Tall Oat	6	120
over, Timothy, Western Rye, Meadow Fescue, Orchard Grass, Tall Oat	6	750

As will be noticed in the table, e addition of a grass to both over and alfalfa increased the yield, being more pronounced in the case clover. In the past two years e clover and grass mixtures have the average yielded a little over ton more hay per acre than the lfalfa and grasses. The first year this was thought to be due to the fact that alfalfa takes about two years to become established, while clover requires but one.

Alfalfa Smothered Grass

The clover and grasses on the whole ripened more evenly than did the alfalfa and grasses, and were easier to make into hay. While the same amount of grass seed was sown in each case, by far the best stands were obtained in the clover plots. This past season in same of the alfalfa plots there was practically no grass, it having been smothered or crowded out by the alfalfa. This shows quite clearly the advisability of using clover instead of alfalfa as a base in grass mixtures.

The experiment so far has only been in regard to the yields of hay obtained, but plans are being made to conduct a somewhat similar experiment with pasture mixtures in the near future.

AMERICANS WANT HIGHER TARIFFS

League Demands Adequate Protective System; No Reciprocity Treaties

The following resolution was passed at the thirty-fifth annual meeting of the American Protective Tariff league:—

"Whereas, under the Underwood Law of 1913 importations of foreign merchandise are the largest in our history and growing; and

"Whereas, production, cost, standards of living, hours and conditions of service that vitally affect prices when the finished marchandise is on the market, must be kept steadily in view; and

"Whereas, when normal conditions return and industrial energy is again devoted to production, we cannot hope to survive on American wage scales and standards unless there is adequate protection; and

"Whereas, the American system of protection was never so imperatively needed as now and in the immediate future; and

"Whereas, industrial danger will increase in proportion to foreign industrial recovery; therefore be it

"Resolved, that the Underwood Tariff law of 1913 be repealed; and

"Resolved, that an adequate protective tariff be enacted at the earliest possible date that shall apply to all competing imports from all countries alike; with no reciprocity treaties, no favored nations clauses, or other forms of favoritesm or discrimination.

EXTENSIVE DEPOSIT OF GLAUBER SALT

The story of the discovery of a lake of solid Glauber salt or sodium sulphite, occupying about one hundred acres and containing approximately 2,000,000 tons of this commodity, which, in its raw state is analyzed as ninety five per cent pure, as told by J. O. Williams, of Calgary, adds another interesting chapter to the romance of industrial development in western Canada. Mr. Williams is at present busy forming a syndicate under the name of the "Soda Deposits Limited" for the purpose of exploiting this lake which is located near Fusiller, Sask. on the Lacombe Kerrobert branch of the C.P.R. Speaking of this large deposit of sodium Sulphite, which lies just over the Alberta boundary, Mr. William says:

"The discovery was made by a man who was working with a gas drilling outfit near Court, Saskatchewan, in 1918. During one of his tours through the country he came upon what he thought was a large lake. At some distance, however, he noticed that in spite of the wind which was blowing, the surface of the water was quite smooth. On closer examination he found that the "Lake was a solid mass of white crystal. It tasted like washing soda and took some samples which he sent away for analysis. He received a reply stating that the sample was pure glauber salts. He and a chum staked the lake for mineral and filed two claims. I was in that district in the fall of that year and visited the lake. It was clear as ice and I walked from end to end on the solid crystal. It is about a mile long and one thousand yards across.

"We put down some pits and found that the depth ranged from two feet near the shore to 11 feet near the middle. By putting down a pit in tht centre of the lake we found that it was fed by a spring which gave forth strongly impregnatet water. Although the neighborhood was interested in the lake, few seemed to realize its value. Later I met the man who had staked the lake and was able to make arrangements for the formation of a syndicate to work this deposit. There is a great demand for this mineral in the pulp manufacturing industry and there is no doubt of a ready market.

"It is estimated that there are over 2,000,000 tons of sodium sulphate in the lake now, and I believe that the natural flow of the brine springs is sifficient to keep the deposits up to that tonnage even when it is being worked.

THE FAMILY MOTTO

Years ago, through careful breeding, there was developed the hen which first achieved the record of laying 303 eggs in one year. She was called Lady Macduff. Twelve of her descendants in Oregon have surpassed her performance, one reaching the extraordinary number of 330 eggs. The motto of that family is easy to understand: "Lay on, Macduff!"—Medicine Hat News.

"BEND A CRAB" TEN TIMES

Great Exercise to Keep Liver and Bowels Active, But if You Won't, Then take "Cascarets".

There is nothing like bending exercises, taking long walks or chopping wood to keep the liver and bowels active, but most folks take their exercise in an easy chair. Such folks need Cascarets, else they suffer from sick headache, sour, acid stomach, indigestion, colds and are miserable. But don't stay bilious or constipated. Feel spendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel. Salts, Oil, or nasty, harsh Pills. They cost so little too—Cascarets work while you sleep.

John Bull Doing Very Nicely, Thank You!

It must be rather amusing for the people of Great Britain to read articles published on this continent which give the impression that the mother country financially and commercially is on its last legs and rapidly tottering to destruction.

British exports in 1918 were £502,000,000. Last year they were £772,000,000, or over $1,300,000,000 more. Total trade, as represented by imports and exports, reached £2,100,000,000 or more than ten thousand million dollars, beating that of the preceding year, which was a record, by nearly two thousand three hundred millions.

That does not look like commercial extinction or financial bankruptcy, does it?

British traders are in rather a fortunate position as far as international exchange goes. Depreciation of the pound sterling in New York gives British manufacturers a percentage of protection which amounts at the present time of about 50 per cent. If a British buyer wants to get a $100 worth of goods in New York he has to pay about £30 for a draft. Formerly it cost him £20. Hence British manufacturers are getting the business.

Of possibly greater importance is the fact that while sterling is at a discount in New York it is at a big premium in Europe, from an exchange viewpoint, in the rest of Europe and in Asia.

And the depreciation of sterling in New York is increasing the sale of British goods in the United States, because of the fact that it takes less dollars to purchase sterling exchange than in normal times.

Roughly, the situation is about this: The tendency in Great Britain, when goods have to be bought for import, is to purchase from other European countries and Asia where exchange is in Britain's favor and sell them on this side where the exchange situation has produced eager buyers at prices which give the British trader good profits. In shipping, marine insurance banking commissions, and exchange itself Great Britain is gaining in the same way.

It is predicted that the next British budget, to provide for the finances of the coming fiscal year, will show a surplus of nearly half a billion dollars in revenue.

Mr. Lansing Quits

The resignation of United States Secretary of State Lansing is bound to cause a lot of discussion. No one will believe, for a moment, that the real cause was the fact that Mr. Lansing came into conflict with constitutional usage by, as ranking cabinet officer, calling informal conferences of the American cabinet during the illness of the president. President Wilson's letter, in fact, speaks of Mr. Lansing's "reluctance and divergence of judgment" from his own views and suggests that it would be better if someone were selected whose "mind would more willingly go along with mine."

Despatches intimate that the trouble began at Paris.

Mr. Lansing is of a ratther practical and common sense school of diplomacy. President ilson is inclined sometimes to ideals that seem visionary.

It is not unlikely that when it came to the question of the practical application in their full categorical sense of the famous "Fourteen Points" President Wilson found that Mr. Lansing was more inclined to sympathy with the practical and experienced European statesmen at the peace council table than with the views, strongly as he may have admired their high idealism, of his chief.

The Lowly Cat and the Fur Market

Soaring prices for raw furs have brought a not inconsiderable increase in revenue to Kootenay and Boundary. Many a trapper has made a small fortune out of the furs of wild animals caught in the Rocky or Selkirk mountains during the past two winters.

But in London, England, the fur trappers look nearer home for their quarry.

A bulletin issued by the American consul-general in London states that 35,834 house cat skins were sold in the British metropolis during the year 1919, which was double the number sold in the previous year, and prices were 50 per cent. higher.

But the house cat is not the only lowly animal heretofore somewhat sneered at, which is attaining recognition in the social fur world. There were 1,629,723 skins of moles sold on the London market during 1919, and 918,783 skins of skunks. Since spring the skin of the American opossum rose 40. per cent in price, and that of the raccoons 75 per cent.

Even the humble muskrat has joined the high cost parade, a despatch from Pennsylvania stating that muskrat hides which sold before the war at 15 cents apiece brought more than $2 each several days ago.

Probably before long the skins of rats and mice will be in great demand. And when that time comes the frenzied financier of the family will take their turn at the rat holes as successors to the long-sold cat. And father and brother and perhaps mother and sister, will pounce daringly upon all rodents that venture into the room. There will be a brief struggle, then a squeak from the victim, and perhaps a squeal from sister. After which, the body of the rodent will be locked securely until a buyer from the fur market can arrive and purchase the treasure.

A column of flying locusts has been seen in India estimated to be several hundred miles long and dense enough in some places to obscure the light of the sun.

Mounds containing relics show that a portion of the site of the city of Cincinnati was occupied in prehistoric days, or at least far in advance of the time the white man came to America.

Mining and Markets

NEW YORK MART MAKES RECOVERY

NEW YORK, Feb. 14.—Further progress towards recovery from the low levels of recent sessions was made by the stock market today, the movement in many instances reducing the week's losses to nominal proportions. As on the previous days, oils, shippings and steels were the chief element of strength and figured most conspicuously in the short coverings. Motors also threw off much of their depression, with various specialties, notably leathers, textiles and coppers, while rails advanced easily on moderate accumulation. The further advance was attended by another sharp rally in foreign exchange, especially the London rate, but much of the improvement in that quarter was cancelled after the market's close.

Sales amounted to 575,000 shares.

Further contractions of local loans was shown by the clearing house statement, the decrease of a little more than $58,000,000 making a total of almost $275,000,000 since the first week of the new year. Reserves of numbers in the federal reserve bank were reduced by about $12,000,000, or mor than twice the amount of the previous week's gain and excess reserves fell to slightly over $23,000,000 on a moderate decrease of cash holdings.

Liberty issues were the only irregular features of the bond market, where enlarged dealings in rails and industrials were attended by greater firmness.

Total sales, par value $7,650,000.

Old U. S. Bonds unchanged on call during the week.

ATLANTIC SUGAR IS LEADER AT MONTREAL

MONTREAL, Feb. 15.—Active leadership in the local tock market Saturday was held by Atlantic Sugar, in which there were dealings tallying 1685 shares, the stock scoring a further 1¾ points gain at 87½. Spanish River aso showed strength, the preferred rising 1½ points to 122½ and the common ⅝ points to 84½. National Breweries scored the largest gain in the list, advancing three points to 195.

Other substantial gains were made by Riordan up two points to 179, Bridge up two points to 103 and Carriage Factories up 2½ to 36. Brazilian showed a much improved tone, the price rising 1¾ points to 43¾. Paper stocks were steady. Brompton gained one point at 76. Total trading: listed 6,890; bonds $242,150.

SATURDAY SESSION AT TORONTO MARKET DULL

TORONTO, Feb. 15.—Extreme dullness marked trading on Saturday. Price changes were, however, mostly in the direction of net gains, the buoyant tone of the New York market lending some needed encouragement. Atlantic Sugar opened firm at 86½ and advanced to 88, closing at the top, but with the closing bid lowered to 87½. Cement sold up one point to 67, but yielded later to 66⅛ and closing bid was down to 66.

Offerings of Brazilian showed further curtailment, the improvement in the pound sterling having checked English trading. Brazilian sold at 61½ at the close. Black Lake Asbestos common sold up one point to eight at 7½ the preferred advancing one point to 18 and the bonds moving up sharply ¾ points to 4¼, closing at the best.

MONTREAL PRODUCE

MONTREAL, Feb. 15.—Eggs steady and unchanged, butter and cheese quiet.

Cheese, finest easterns 30 to 30½.

Butter, choicest creamery 63 to 64; seconds 61½ to 62½.

Eggs, fresh 75 to 78; selected 60 to 62; No. 1 stock 53 to 54; No. 2 stock 45 to 50.

Potatoes, per bag, car lots, not quoted.

SIMPLE LIFE

The Roman soldiers, who built such wonderful roads and carried a weight of armor and luggage that would crush the average farm hand, lived on coarse, brown bread and sour wine. They were temperate in diet and regular and constant in exercise. The Spanish peasant works every day and dances half the night, yet eats only black bread, onions and watermelons.

Teacher—Name three planes.

Student — Airplanes, hydroplanes and monoplanes.

BRITAIN BUYS FROM WAR TORN COUNTRIES

LONDON, Feb. 14.—(Canadian Press)—The trade returns for January furnished a commentary on exchange conditions. The figures plainly show that Great Britain is buying mainly from countries which have suffered relatively from the war and is selling most to countries least able to meet their obligations immediately. Imports from the United States are £534,000,000 and exports £33,000,000. Australian imports £111,000,000 and exports £26,000,000. New Zealand imports £52,000,000 and exports £9,000,000. Canada imports £150,000,000 and exports £16,000,000. On the other hand imports from France are £48,000,000 and exports £147,000,000. Italy imports £14,000,000 and exports £27,000,000. Belgium imports £9,000,000 and exports £48,000,000. Germany imports £993,000 and exports £14,000,000. Rumania imports £10,000 and exports £5,000,000.

STERLING EXCHANGE

NEW YORK, Feb. 15.—Sterling exchange steady, 3.42½ for 60 day bills and 3.45½ for demand.

Canadian Dollars 86.50.

GRAIN MARKETS

CHICAGO, Feb. 14.—New advances in the price of corn took place today largely as a result of the continued smallness of receipts. The market closed unsettled, ¼ to ⅞ cents net higher with May 134½ to 135⅝ and July 130¼ to 140⅜. Oats gained ¼ to 1 cent. In provisions the outcome varied from five cents decline to 10 cents advance.

Minneapolis

MINNEAPOLIS, Feb. 14.—Wheat spot No. 1 Northern 275 to 290. Flour unchanged, shipments 52,234 barrels. Barley 116 to 135. Rye No. 2, 152⅜ to 153⅜. Bran 43.00. Flax 530 to 535.

LOAN QUOTATIONS

MONTREAL, Feb. 15.—War loans—1925, 95½; 1923, 95½; 1937, 99¾; 1925, 95½; 1923, 95½; 1937, 99¾.

Victory loans—5½'s due 1922, 100; 1927, 100½; 1937, 104¼; 1923, 100; 1933, 102¼; 1924, 100; 1934, 100.

LAND REGISTRY ACT
(Section 134)

In the Matter of Application No. 68511 and in the Matter of Lot 20, Block 4, Town of Salmo, Province of British Columbia, Map 622.

TAKE NOTICE that the above application has been made to register Winnifred Eleanor Hayward as owner in fee of the above lands (inter alia), and for the issue to the said Winnifred Eleanor Hayward of a Certificate of Indefeasible Title thereto, and that in support of such application there has been produced a conveyance dated 1st December, 1919, from David Banning, the registered owner of said lands by virtue of a conveyance dated 9th July, 1909 from John Toye, whose title was derived under a Tax Sale deed from the Assessor of the District of Nelson and bearing date 23rd September, 1907.

And on investigating the title it appears that prior to the 21st October, 1902, (the date on which the said lands were sold for overdue taxes) you were the assessed owner thereof.

AND FURTHER TAKE NOTICE that registration will be effected in pursuance of the above application and a Certificate of Indefeasible Title to the said lands (inter alia), issued to the said Winnifred Eleanor Hayward after the lapse of 30 days from the service upon you of this notice (which may be effected by publication hereof as hereunder directed, unless you shall take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Nelson, B.C., this 7th day of February, A.D., 1920.

E. S. STOKES,
District Registrar of Titles.

To Duncan McLennan:

I direct service of this notice to be made by publication thereof once a week for two weeks in a newspaper circulating in Salmo, B.C.

E. S. STOKES,
District Registrar of Titles.

TEN YEARS AGO TODAY

The city council last night adopted estimates for the year amounting to $158,600. It also decided to incur an expenditure of $15,000 to place the electric light consumption on a meter basis, and to take up the question of a central fire hall in a new location.

• • •

Mr. Fred Chapman and family arrived here on Wednesday from Nelson and have taken up residence here says a dispatch from Moyie.

• • •

A large number of the most prominent business men gathered at the C.P.R. depot on Saturday night to bid God speed to W. C. B. Manson, says a dispatch from Fernie.

THE MINE-SWEEPERS

They never had a half a chance at glory;
To them the joy of battle was denied;
The nation never thrilled to read the story
Of how they lived and toiled, and how they died.
Unseen, unmarked, they went where duty called them;
On mine-encircled seas their nets were spread;
No storms delayed, no dangers grim appalled them,
Tho' death was always lurking just ahead.

Day in, day out, their dreary vigil keeping,
As on across the tide their vessels stole,
Alert of mind, untroubled and unsleeping,
They calmly kept their perilous patrol.
And if there came a flash, a roar of thunder,
And smothered in a whirl of hissing foam,
A ship, and all aboard of her went under,
No cable sent the tragic story home.

Geometry Professor—George, define a line.

SOCIALIST MAYOR OF BREST IS DISMISSED

PARIS, Feb. 15.—(Havas)—The minister of the interior has dismissed from office the socialist mayor of Brest. This action was taken because of the recent interdiction of the mayor against a patriotic demonstration which was to have been held in Brest in honor of the men of the city wounded in the war. The mayor's refusal to permit the demonstration resulted in several untoward incidents. The sub-prefect of the district also is to be removed from office.

LOOKS FOR OTHER MOTIVES IN LANSING RESIGNATION

NEW YORK, Feb. 15.—William C. Redfield, who was secretary of commerce in the Wilson cabinet until Nov. 1 last, said today that the cabinet meetings called by Mr. Lansing were "necessary, if the nation's business was to proceed regularly." He expressed the belief that other reasons than the calling of these conferences lay behind the president's request for Mr. Lansing's resgnation.

REVISITING NO MAN'S LAND

Many a Canadian who fought in the war is wondering what the front looks like now, a year and more after the last shot was fired.

A newspaper writer, who was recently over the ground, states that one actually sees much less change than would be expected. It is so easy to destroy, so difficult to restore.

From the Ypres-Bailleul road, from Hell Fire Corner, from the La Bassee-Lens road, from the Arras-Douai road, and from many other such points, one might almost imagine that the armies had withdrawn but yesterday from their lines.

Everything easily lifted has been picked up and carried away by the seekers of souvenirs, but the change that most impresses the soldier is the silence, the now vacant highways once crowded with war traffic. The noise of war is gone, and the color of khaki is seldom seen. You look out over regions that seem to be forever reduced to silence and sterility.

The restoration of France and Belgium is going to be a long job. Those know best how complete the destruction was who were present and saw it done.

SPORT

FOURTH VISITING TEAM DEFEATED

High School Students Get Away With Several Hockey Teams in Week

Nelson high school students were successful in carrying off the fourth victory to fall to local hockey palyers over visiting teams during the last week, when they defeated the Trail high school team with a score of 6 goals to 3, at the local rink on Saturday afternoon.

Play started at 2 o'clock and the local boys, getting the lead within two minutes, were never in danger of losing the victory except for a short time in the last period when the Trail boys, scoring two goals in *rapid succession, seemed bent on retrieving* their fortunes; but it was all to no purpose, the local boys countered with another two goals before the bell rang for time.

The first goal was scored, for Nelson, in 2 minutes, by G. Armstrong, and was quickly followed by another for Nelson by Walley. The next went to Trail, S. Garilik, the Trail rover, scoring in 8 minutes. Just before the bell rang J. Curran got in the third for Nelson.

The only goal scored in the second period was also landed by J. Curran in 9 minutes of play.

For the first 10 minutes in the last period the Trail boys kept the local players and fans anxious as to the outcome; A. Bell, and E. Dovey, having both bulged the Nelson net in that time. However, the local boys soon came into their own again. D. Debrisay landing a fifth and J. Curran the sixth for Nelson in the last five minutes before time.

The following was the linup:

Trail	Position	Nelson
E. Dovey	centre	M. Walley
S. Gavrilik	rover	G .Armstrong
A. Bell	L. wing	J. Curran
P. Demidoff	R. wing	H. Calvert
V. Dovey	L. defence	D. Debrisay
G. Gordon	R .defence	J. Binnish
D. McDonald	goal	R. Smith
B. *Thompson*	*Sub.*	*H. Pitts*

Referee Ed. Murphy. Time-keeper, C. Murphy.

OTTAWAS TAKE GAME FROM THE CANADIENS

MONTREAL, Feb. 15.—(Canadian Press)—Ottawa took the lead in the second half of the national hockey schedule here Saturday night when they took the Canadians into camp 3 to 2. Overtime was necessary, the teams having battled through 60 minutes of hard hockey to a 2 to 2 tie. Boucher, of the visitors, initiated the attack which brought victory to his team mates, when by a sensational corkscrew rush he placed a well directed shot on goal which Cy Denenny poked in before Zezina could clear. Play was fast throughout and although steruous was free from any real ruff tactics. Both teams used every possible method to earn a victory; part of the time using the three men defense and then changing to wide open tactics, and sending all but a defense man on dashing combination rushes.

JACK JOHNSON MUST TAKE THE CONSEQUENCES

CHICAGO, Feb. 14.—If Jack Johnson wishes to return to the United States and surrender to federal authorities to serve a sentence of a year and a day in Leavenworth penitentiary it must be unconditionally and under the same terms accorded any other fugitive from justice, Charles H. Clynes, district attorney, said yesterday. Mr. Clynes said he would pay not attention to Johnson's plea in a letter from Mexico City, that he be allowed 36 hours grace to arrange bail if he returned. Johnson fled the country after being guilty of violation of the Mann act.

FERNIE RINK LOSES IN WINNIPEG SPIEL

WINNIPEG, Feb. 15.—At the bonspiel Saturday 44 city of Winnipeg rinks opposing a like number of visiting rinks won out by five points, the aggregate scores being Winnipeg 470, All-Comers 465.

Ross of Regina, scored a nice win over the strong Gorlay rink of the local Strathconas 10 to 8, while Herchmer, of Fernie, B.C., lost to Wallace of the Assiniboian, 10 to 14 and Marshall of Welwyn tied with his opponent, Haig, of the Strathconas with the score at 13. McLeod of Saskatoon, defeated McKee of *Elmwood 11 to 10.*

LEW EDWARDS AGREES TO MEET MITCHELL

MILWAUKEE, Feb. 15.—Lew Edwards, champion lightweight boxer of Australia today signed articles to meet Ritchie Mitchell, Milwaukee, in a 10 round no decision contest in Milwaukee on or about Feb. 26. Mitchell is expected to sign in a day or two.

YALE MAN WINS SQUASH CHAMPIONSHIP

NEW YORK, Feb. 14.—A. J. Cordler, Yale club, today won the national squash championship defeating Anderson Dana, Harvard club, in three straight games in the final round of the national squash tennis association. The scores were 17-15; 15-9; 15-3.

HARVARD DEFEATS QUEBEC HOCKEY CLUB 6 TO 4

CAMBRIDGE, Mass., Feb. 14.—The Harvard University team defeated the Sherbrooke (Quebec) club at hockey here tonight six to four.

CUBS MAY MEET HOCKEY CHAMPS

George Ferguson is Negotiating for Game With Vancouver Bluebirds

Hopes are entertained of staging a real classy hockey contest for the Nelson Cubs in this city in the near future of George Ferguson's wire to Frank Patrick of Vancouver is successful in making arrangements, if possible, to have the Vancouver Bluebirds stop over a day in Nelson and give the local Cubs a game while on their way to contest the all-Canada junior championship at Toronto.

The Blue Birds, the junior champions of British Columbia, are also due to play two games with the Alberta Kids in Calgary, Feb. 24 and 26, and it is thought that the chances are good of getting them to play a game with the local boys before they proceed to Calgary.

An answer to the telegram is expected today.

MANITOBANS DEFEAT SASKATCHEWAN SEVEN

WINNIPEG, Feb. 15.—Playing a fast brand of hockey at all stages, the Manitoba representatives outclassed Saskatchewan's puck chasers six to two, in the university hockey game here Saturday night, before a crowd of 3000 people. Both teams exhibited lost of speed, but the locals had the better combination.

OLD COUNTRY FOOTBALL

LONDON, Feb. 15.—(Canadian Press)—Rugby football results Saturday were as follows:

Northern Union

Barrow 15; Winden 5.
Bramley 25; York 12.
Bradford 0; eKigh 0.
Broughton Rover 7; Leeds 18.
Swinton 12; Dewsbury 0.
Wakefield Town 8; Halifax 5.
St. Helens 13; Rochdale Hornet 3.
Hull 3; Oldham 16.
Hunslet 0; Huddersfield 21.

CARPENTIER DECIDES TO MEET DEMPSEY

NEW YORK, Feb. 15.—William Fox, moving picture and theatrical man, said tonight that he had received a cable message from M. Deschamps, manager of Georges Carpentier, the French heavyweight champion, accepting an offer for Carpentier to engage in a world's championship contest for the heavy weight championship with Jack Dempsey in America on July 4 or Labor Day.

SKATING CONTESTS TO LAST THREE DAYS

LAKE PLACID, Feb. 15.—The international skating championship which begins here Wednesday will continue until Friday, because of the large entry list the Lake Placid Skating Association announced tonight. The field will double that of any previous skating races in the United States or Canada it was stated, and it was decided to add a day to the meet because of the greater number of elimination races.

DISTINGUISHED OFFICER DIES OF PNEUMONIA

MONTREAL, Feb. 15.—Lieut.-Col. Dick Worrell, D.S.O. and bar, Military cross and bar, former officer commanding the 14th battalion, Royal Montreal Regiment, died at the Royal Victoria hospital soon after midnight Saturday. He was taken ill with influenza on the Saturday previous which developed into broncho-pneumonia to which he succumbed.

Bones of 100 mastodons and 20 elephants were dug out of one bog in Kentucky.

TO DECIDE WEST KOOTENAY TITLE

Special Train to Carry Nelson Players and Fans to Rossland Wednesday

A special train is being chartered to carry the Nelson senior hockey team and their supporters to Rossland on Wednesday, when the local boys meet Rossland in a match that will decide their standing for championship honors in the West Kootenay hockey league.

The fixture is expected to bring out every ounce of play in both the teams and the Nelson aggregation must at least tie with Rossland in this game or their chances of pulling off the championship is gone for keeps.

All the players are keen for the tangle and it is expected that a goodly crowd of fans will go along to see that the home team does not lack for supporters.

The special will probably leave Nelson in the late afternoon or the early evening.

TENNIS CHAMPION DEFENDS HIS TITLE

BOSTON, Feb. 14.—Jack Soutar, of Philadelphia, professional champion of the United States and Canada at squash racquets, defended his title successfully today against Otto Glocker, professional player of the Boston Athletic Association in three games.

AMERICAN SWIMMER WIINS AUSTRALIAN CHAMPIONSHIP

ADELAIDE, South Australia, Feb. swimmer, today won the three quarter mile Australian championship covering the distance in 17 minutes, 29 1-5 seconds. He beat the Australian swimmer, F. E. Beaurepaire, by five yards. There were eight starters.

TORONTO SCHOOL WINS ONTARIO HOCKEY TITLE

TORNTO, Feb. 15.—University of Toronto schools defeated DeLasalle in overtime here on Saturday 9 to 3 and won the Ontario hoceky association junior group title.

PREMIER DAVIDOVITCH'S CABINET QUITS OFFICE

BELGRADE, Feb. 14.—The cabinet headed by Premier Liouba Davidovitch resigned yesterday owing to the refusal of Prince Regent Alexander to dissolve the present provisional national representation and other elections for a national constitutional assembly. The Davidovitch ministry was formed on August 16 last.

An official communication with regard to the right of the cabinet says:

The prince regent declined to accept the application for the royal government to dissolve the provisional assembly and ordain elections for a national permanent assembly. The Davidovitch cabinet has tendered its resignations.

PROTESTS AGAINST ISLANDS BEING CEDE TO STATES

PARIS, Feb. 15.—A report which has been current that the Island of Martinique and Guadeloupe are to be ceded to the United States in return for a loan, has brought a vigorous protest from Senator Henry Berrenger, who represents Guadeloupe in the French upper chamber. In an open letter to Premier Millerand which is pubished in the Temps, he says: "I ask on behalf of my constituents who were among the first to come to the battlefront, that you give an official denial to this story."

SUNDAY CONCERT DRAWS CROWD

Nelson Symphony Orchestra Assisted by Local Talent Feature Program

Nelson Symphony Orchestra appeared for the first time in the series of Sunday concerts given under the auspices of the G.W.V.A., yesterday afternoon at the Gem theatre and was given an enthusiastic reception by the audience that filled the theatre to overflowing.

Opening the program with a march, "Preparedness," the orchestra, under the direction of Ross Fleming, gave an intimation of the musical treat in store and it its conclusion was vigorously applauded. The march was followed by "Farmers' Mass" in B Flat, and by the popular "Rubenstein's Melody in F," which was probably the best received of all the offerings of the orchestra. Five other selection were rendered by the orchestra: "Credo" from St. Theresa's Mass," a paraphrase on Mason's "Nearer My God to Thee," a selection entitled "Night," and a march, "Flag Day," all of which were well rendered and commanded the attention of the audience.

A vocal solo by Mrs. J. T. Andrew, in which her fine soprano voice was heard to perfection, was encored.

Master Jim Benson, Nelson's boy pianist, delighted the gathering with interpretation of Paderewski's "Minuet" and Dvorak's "Humoreske," both of which were well received.

Recitations by Miss Freda Hume showed considerable ability and were deservedly applauded.

"Glory to Thee My God This Night," a vocal solo by J. P. Pitner, accompanied by the full orchestra, was an outstanding number on the well rounded program and was received with marked enthusiasm.

Athough two items were omitted from the advertised program, it being found impossible to give all the numbers in the time allowed, music lovers were enabled to enjoy their fill of classical pieces for a full two hours.

MANKIN TO START SAWING AT ONCE

Mill on Hall Creek to Operate on Hot Logs; Winter is Very Open

Owing to the comparatively open winter weather now being enjoyed, and excellent conditions in the hills, C. Mankin, head of the Mankin Lumber company, and of Mankin & Co., has decided to start sawing this week with his mill an Hall Creek.

Three winters ago Mr. Mankin operated this mill throughout the season but the last two winters the plant remained shut down, in company with the vast majority of the sawmills in the Kootenay, which are not in general adapted to winter operation.

The mill which is to start sawing is the smaller of Mr. Mankin's two mills, the other being located at Hall. The latter takes its logs from a pond, whereas that on Hall creek, on high ground, uses no pond, but does hot sawing, the logs going direct to the saw. This higher mill have a capacity of 25,000 feet per day.

Through having two mills at different altitudes, Mr. Mankin states he has been able to log to advantage all winter, and going higher up on Hall creek for the upper mill when the moderated. As a result, his company had had the largest log cut in several years.

MAY CLOSE THEATRES AND BAN DANCES IN VICTORIA

VICTORIA, Feb. 15.—A ban on all dances and theatrical performances will be declared here early next week if the city council adopts the recommendation that City Health Officer Price will lay before it Monday night.

RED RIDING HOOD DELIGHT TO MANY

Capacity Houses Greet F. Stuart Whyte Company in English Pantomime

For the fourth time Nelson audiences have been treated to a real English Pantomime in all its glitter and gorgeousness. The company played to a full house on Saturday afternoon and to a capacity one in the evening, many failing to secure seats for the second and last performance.

The musical fantasy, Little Red Riding Hood, is one of the famous London pantomimes and is produced here in Canada by F. Stuart-Whyte, the well-known London director, on his fourth Canadian tour.

Beautiful lighting effects, elaborate scenery and tuneful songs added much to the brilliancy of the production.

The plot, playing at will with the old time characters of nursery rhymeland, presents Old Mother Hubbard as the ailing "Granny" of Red Riding Hood, though of rather flirtatious tendencies for a woman of her years; old King Cole II in quest of a queen; and Boy Blue, a wanderer "joggin' along the highway," who finally is transformed into the king of Hearts with Bo-Peep as his queen.

The efforts of His Majesty King Cole to win Bo-Peep for himself being of no avail ,turns the kingly wrath against Little Red Riding Hood who has refused to help him. Hence Jack and Jill (two of a kind) are hired to get the Wolf-man on the track of the child. This deadly scheme is thwarted by the good offices of the Fairy Queen, who by her magic spell brings out all things well. Finally King Cole comforts himself by making love to Old Mother Hubbard, whose fondness for Boy Blue has caused her many tears earlier in the play.

The three outstanding artists in this production are Miss Zara Clinton as Boy Blue; Johnny Osborne, late of the Hippodrome, London, England, and Wee Dorothy MacKay as Little Red Riding Hood. Grace and charm marked Miss Clinton's work as Boy Blue. In her song "Joggin' Along the Highway," "A Bachelor Gay," Theres a Wild Wolf Awaiting," "Song Memories" and "Rot," she was entirey satisfactory. And in her song with Bo-Peep, "If You Could Care for Me as I Could Care for You," which lifted its way all through the scenes in appropriate places, slie was hauntingly sweet.

Johnny Osborne made the funniest "Old Mother Hubard" imaginable, although he repeatedly assured the audience that "It was no laughing matter." As teacher of the village school, where the strap was the order of the day and as the poor old granny when the wolf followed the traditional lines of the story he was all that could be expected of any comedian. He kept the audience in a right good humor and made them feel like voicing his ofte repeated sentiments, "The same to you with knobs on."

As for Red Riding Hood herself, a more winsome little lady could not be imagined than Wee Dorothy MacKay, who danced and sang her way into everybody's heart. Her song with the First Page, "The Old Four-Posted Bed," was very cunning and her song and dance "A Wedding in Fairyland," was bright and winsome.

Besides these principals Old King Cole II in the person of J. V. Barrett-Lennard, Bo-Peep, and Miss Madge Locke and Jack and Jill in Charles Caudle and Miss Harriet Fawn were all exceptionally good. Mr. Barrett-Lennard handled a difficult part very skilfully. Bo-Peep and chorus were perhaps most chaming in the song "A Modest Little Thing." While Jack and Jill were in the lime-light to best advantage in "Love Me Just the Same." These two were a most amusing pair.

Of the dances and scenes "The Floral Dance," "Dawn," "Song Memories," and "Brave Old Contemptibles," stood out most strongly. Of these "Dawn" was the most beautiful. In this scene beautiful lighting effects, artistic posing, the Ballet and the wonderful dancing of Miss Daphine de Lisle were the features.

The work of Ian Hunter which portrayed in turn "The Village Blacksmith," The Wolf-man and the Highlander in the scene "Brave Old Contemptibles," was good throughout. Jack Horner, Little Miss Muffet, Peter Piper, Polly (putting the kettle on) were others in the cast besides an excellent chorus.

The whole extravaganza was a great treat to Nelson theatre-goers, this no doubt rather confusing to the little tot who several times asked her mother "Has the Granny been eaten yet."

TWO BURGLARS ARE KILLED IN FRACAS

GREENWICH Conn., Feb. 15.—Two alleged burglars were killed at Sound Beach today in a gun duel in the dark with Alden L. McMurtrey a state policeman. The shooting occurred in the cellar at the summer home of Mrs. Eliza G. Morris at Rocky Point, Sound Beach. One of the supposed burglars, John Noccia, was instantly killed by a bullet through the stomach, while the other Anthony Forlenso, died in the hospital.

Social and Personal

A. V. Mills of Kokanee was in the city on Saturday.

R. Lamont of Creston was a Nelson visitor yesterday.

Angus McInnes of New Denver was in the city yesterday at the Hume.
