WESTERNERS' GALL RAISES SENATOR'S IRE

Casgrain is Rattled by Saskatchewan's Claim of Two Million Surplus.

SUGGESTS "INVESTMENT" BY PAYMENT OF DEBTS

Would Put Screw on When Prairie Province Premiers Come to Ottawa.

MONTREAL, Dec. 8.—Senator J. B. Casgrain takes strong objection to the annonucement of the Hon. A. C. Dunning, provincial treasurer of Saskatchewan, that the province of Saskatchewan had a surplus of $1,934,625, and that the money was available in an interview published in a local paper today.

"I cannot account for this alleged surplus," said Senator Casgrain. "Why, I never heard of this province paying either the capital or interest on any of the money—millions and millons—that was guaranteed for the construction of the province of Saskatchewan railways.

East Meets the Charges.

"These fixed charges are met largely by Ontario and Quebec.

"You have no conception of, shall I say the gall of these westerners. Not satisfied with what we have already done for them, they would—if left to themselves—have the country spend more money in that mad scheme of the Hudson Bay route. Thank God, the present government has put an end to that crazy idea."

"But," Senator Casgrain was asked, "is there no way for the Dominion to get its money back?"

"Yes there is. The federal government might ask Saskatchewan to pay what it owes to the people of Canada; the Hon. Mr. Dunning has the opportunity to make good, there is no better investment than paying one's own debts," said the senator.

Change Coming.

"But how could you force that province to pay?" was the next question asked.

"The premiers of the three prairie provinces are coming to Ottawa

SASKATCHEWAN MINISTER HITS BACK SHREWDLY

Treasurer Takes Casgrain to Task for Maligning Credit of Province.

READY TO MEET ALL OBLIGATIONS

No Guarantees to Meet Unless Railways Which Fail to Fail Default.

REKINA, Dec. 8.—That Senator Casgrain's "either does not know what he is talking about, or he intends to injure the credit of Saskatchewan," is the inference placed on his statement that the province has not paid millions it has guaranteed in railway construction by Hon. C. A. Dunning, provincial treasurer, In a statement tonight he says:

"The senator says that he never heard of the province paying either capital or interest on any of the guaranteed bonds of Saskatchewan railways. The answer to this is, of course, that the guarantee of the province operates when the railways themselves do not pay principal or interest. The province is not liable until the railway company defaults.

Province Promptly Paid

"One railway company did default, owing to the fact that the receiver appointed by the Dominion government appropriated for other purposes the bond interest earned by Saskatchewan lines. When the company defaulted, the province immediately stepped in and paid the interest to the bond holders to the amount over $800,000. The province of Saskatchewan has never failed to meet a single obligation and stands ready to meet any that may accrue.

"No other province has had to pay or will have to pay a single

Beautiful Shaft at Edgewood

This monument to men of Edgewood and Fire Valley who gave their lives overseas, was designed by Capt. J. P. Coates, the granite was cut by Sergt. J. N. McLeod and the masonry was laid by F. E. Warner. It was built by subscriptions and voluntary labor of citizens of Edgewood and Fire Valley, members of the G.W.V.A. actively participating.

DECLINES TO CONTRIBUTE DISCUSSION

Wilson Turns Down League of Nations' Invitation to Send Delegates.

WASHINGTON, Dec. 8.—President Wilson today declined the invitation of the League of Nations to send delegates to take part in the discussions of the disarmament commission.

The president informed the League of Nations council that, inasmuch as the United States was not a member of the league, he did not feel justified in appointing a commission to even a de facto participation.

The United States, however, the president declared, is in sympathy with any plan for world disarmament.

FATAL FIRE AT PENDER STREET ROOMING HOUSE

Vancouver Early Morning Blaze Claims Three Victims; One Unidentified.

VANCOUVER, Dec. 8.—Jack Davey, Vancouver, and two other men were burned to death when Park's rooming house, 151 Pender street west, was destroyed by fire at 3 o'clock this morning. Other victims were Tom Freeman, of this city, and one unidentified person. There were 72 people in the building at the time of the fire.

VANCOUVER, Dec. 8.—Victims of the dense smoke which came from building paint and paper, Tom Freeman, returned man, Jack Davey, formerly employed at the general hospital as a nures, and another man, as yet unidentified, were suffocated in a fire here which broke out shortly after 2 o'clock this morning and which destroyed a paint shop and a rooming house above it, causing damage to the amount of $85,000.

Had it not been for the fact that the proprietor's wife, as soon as she smelled smoke, rushed to the rooms of all the 72 roomers, the loss of life might have been much more serious. Every one was warned in time, and several crippled returned men were taken from the building, but it is thought the three fatalities were caused by the men going back to their rooms to save some of their personal belongings. The whole of the inmates were rendered homeless in the midst of a drenching torrent of rain.

Belgian Veteran Airs Grievance by Firing Revolver in Chamber

BRUSSELS, Dec. 8.—Three shots from a revolver were fired in the direction of the president's throne in the chamber of deputies by a spectator in the public gallery, just as the chamber was adjourning this evening.

"I have been four years a prisoner in Germany and have not obtained justince since my return," the man shouted. No one is reported to have been hurt except a few deputies and spectators who were bruised in the scramble to leace the chamber.

Sultan of Egypt Restricts Areas for Cotton Cultivation

LONDON, Dec. 8.—The sultan of Egypt, says a dispatch to the London Times from Cairo, has signed a decree restricting by one third the area to be planted in cotton in 1921. The decree also will prohibit the cultivation of cotton in the basin of the upper Nile, except where there is irrigation.

STARTLES OLD WORLD DIPLOMATS

Rowell Shocks League Assembly With Reflection of European Statesmanship.

GENEVA, Dec. 8.—The liveliest motion this assembly has experienced was provoked today by Hon. N. W. Rowell, of Canada, who expressed his views regarding European statesmanship in a way that startled diplomats of the old world.

A sharp debate arose over the recommendation of the committee, on technical organizations, that the assembly propose to the governments to set up under the auspices of the League, three new organizations, finance, transit and health, with annual conferences on these subjects. Mr. Rowell objected on the ground that it was impossible for distant countries to send their best men abroad four times a year to attend the assembly and the conferences, and declared that the result would be to throw these organizations under European influence. The assembly, he held, should occupy itself with these questions.

Canada, at any rate, he said, felt that they were questions that should not be allowed to fall into European control.

"Fifity thousand Canadian soldiers under the sod in France and Flanders is the price Canada has paid for European statesmanship," he cried, to the astonishment of the entire assembly and the dismay of the delegates.

Arthur Balfour and Mr. Fisher were plainly affected by the thrust from the Dominion; they remained motionless in their seats through the debate with grave faces. Lord Robert Cecil, representing South Africa in the assembly, in a gentle way softened the blow by saying that he agreed with much that Mr. Rowell had said, but thought Mr. Rowell was mistaken in supposing that the organizations would fall under the control of Europe. He could not go into a debate as to whether "Europe had made its way in the world."

Several of the delegates suggested

PRINCE OF WALES EXPOUNDS PRINCIPLES OF IMMIGRATION IN MANSION HOUSE ADDRESS

Exhibits Comprehension of Dominion Problems Far Ahead of Public; Flaming Prospectuses Out of Date; Human Cooperation the True Magnet; Immigrants Should be Received as Friends and Comrades; Made to Feel at Home; Worst Type is Immigrant Who Fails, Best Advertisement One Who Succeeds.

LONDON, Dec. 8 (Canadian Associated Press).—Discussing the visit of the Prince of Wales to the city yesterday, the Times remarks that it is almost a year ago since he spoke at the Mansion House after his return from Canada.

The burden of his speech at that time was the change the war had made in the mutual relations between the various states of the Empire, and he insisted that the old country must understand the ideas and aspirations of the Dominion.

These truths, says the Times, have made their way into the consciousness of the British people during the past year, but they are not yet understood here in their full significance even by some leading statesmen of these islands, as witness the antiquated ideas of what Dominion status means, which have been evident in recent contributions to the Irish question.

The prince, says the Times, is still far ahead of public comprehension here, even in circles which should know better. Had he devoted part of his speech yesterday to a fresh exposition of this theme he would have done valuable public service, but doubtless his visits to the dominions have made *dominion ideas about their national* position and future so much more commonplace to him that it is difficult for him to appreciate the slow progress they are making here.

The prince's final words yesterday were:

"The dominions want population. We have population to spare, but a purely business method of immigration is no good nowadays. Flaming prospectuses will not draw immigration steadily from this country. What is wanted is to plan human cooperation. We should not feel that we are populating places that will be lost to us, and they on their side should welcome our immigrants as friends and comrades and make them feel above all, that they are at home and really wanted there. There is no worse type of immigrant than the immigrant who fails; there is no better advertisement than immigrants who succeed.

Success Depends on the Spirit

"Success depends upon the way and spirit in which both sides tackle the subject. British population is a very valuable thing and we must see to it that it remains all British. The closer and more human the understanding, the easier becomes the movement of men and I may add, capital, which the empire requires. We want to make that understanding wider and deeper, so that it is never swamped with jealousy, either local or otherwise. I hope the longer I live, the more I see the ties that unite them and us steadily strengthened and multiplied until the bond of fellowship which unites us is unbreakable."

EMBASSY WILL NOT VISE PASSPORTS FOR COMMISSION TO VISIT IRELAND

WASHINGTON, Dec. 8.—The British embassy today refused to vise the passports of the members of the special committee selected by the commission of inquiry on conditions in Ireland, now in session here, to visit Ireland to study conditions there at first hand.

This means that the members of the commission will not be permitted to visit Great Britain.

Gives Reasons for Refusal

WASHINGTON, Dec. 8.—The decision of Sir Auckland Geddes, the British ambassador, not to vise the passports, was made known in a letter sent to William McDonald, secretary of the commission, by R. L. Craigie, first secretary of the embassy. The letter follows:

"With reference to your application for vise of the passports of certain gentlemen whom your committee has designated as their representatives to proceed to the United Kingodm to investigate conditions in Ireland, I am directed by His Britannic majesty's ambassador to inform you that the proposed visit to British territory is not agreeable to His Majesty's government.

"Vises will not therefore, be affixed to the passports. The passport office in New York has been instructed accordingly.

Could Not Establish Truth.

"This decision has been reached after full consideration of the circumstances of the case and I am to refer you to the ambassador's letter of Oct. 23, in which he informed you that he was unable to believe that the truth could be established until there had been a period of quiet in Ireland and then only by persons of the greatest experience of the laws of evidence with power to compel the production of books, papers and records, and that any other form of enquiry would, in his opinion, lead only to a mass of statements unsupported by facts being made for propaganda purposes.

"Sir Auckland Geddes has ventured to hope that the full meaning and significance of this observations would have been clear.

"In view of the fact that the ambassador's letter to you of Oct. 23, last, appeared in the press, I am to inform you that this letter will be published."

Nucleus Fleet to Receive Official Welcome at Halifax

OTTAWA, Dec. 8 — (Canadian Press).—It is unlikely that Canada's warships will reach Halifax before Dec. 18. Today they are leaving the Azores, and it is expected that they will reach Bermuda on or about 15th. They will probably make a brief stay in Bermuda before steaming north for Canada. It is understood that there will be an official reception at Halifax when the fleet arrives. The governor-general and the minister of marine and naval affairs, Hon. C. C. Ballantyne, will be in Halifax for the arrival of the vessels.

Forecast Retention of Beer and Wines in Quebec Province.

QUEBEC, Dec. 8.—Forecasts published toddy of the nature of amendments to the Quebec Temperance act to be introduced at the next session of the Quebec legislature, claim that under them beer and wine of full strength will be retailed through governments venders, but that hard stuff will only be procurable on a doctor's certificate.

Absentee Votes May Reverse Elections in Atlin and Cranbrook

VANCOUVER, Dec. 8.—Belated returns from the four remaining polls in Atlin give B. Kergin, Liberal, a lead of 77. The totals are; Kergin, 308; Ross, Conservative, 212; Casey, Independent, 231. The parties thus stand: Liberals, 25; Conservatives 15;; Independents and Labor, 7.

Count of the absentee vote may change this standing. Supporters of T. D. Caven, Conservative, in Cranbrook are confident that the absentee vote will wipe out Hon. J. H. King's lead of 14 and elect Caven: and friends of Ross, Independent, in Atlin predict his ultimate election in Atlin.

SWISS INVESTIGATE AUSTRIAN INTRIGUE

BERNE, Switzerland, Dec. 9.—The federal authorities have instituted an inquiry into the activities of Former Emperor Charles of Austria in Switzerland, following the exposure of alleged Hapsburg intrigues by the Socialist newspaper Tagwacst.

It is reported it has been ascertained that Charles frequently received Count Von Berchtold, former Austrian foreign minister. The inquiry is being continued.

RAILWAY COMMISSIONERS TO INQUIRE FURTHER INTO DISCRIMINATORY RATES

OTTAWA, Dec. 8 — (Canadian Press).—There is little expectation here that the general inquiry into railway freight rates arising out of the government's action in asking the board of railway commissioner's to re-consider the judgment beer's to re-consider the judgment granting the increases now in effect and the application of the Manitoba government for a suspension of the same will be commenced before the new year. While nothing will be decided before the conference of all the interested parties, to take place on Tuesday, Dec. 14, it is regarded as practically certain that the decision will be that a beginning should not be made with this most important case until after the Christmas holiday.

Next week's conference will decide in a general way what is to be investigated, the principles and procedure to be adopted, and where the sittings are to be held. As the chief question likely to be considered is one of discriminatory rates, it is assumed that the hearings in this case will be held in all most important centres from coast to coast and that they will be protracted.

While the main question at issue is one of discriminatory rates as between the sections of the country lying west and east of the Great Lakes, respectively, British Columbia and the Maritime provinces, will have special representations to make to the railway board. It has been contended in British Columbia for some time past that the coast province labors under discriminatory rates as compared with the prairie provinces, the reason for the higher rates being the assumption that the cost of operation is greater in the mountains of British Columbia than on the prairies. It will be argued that the time has arrived when these difficulties should be wholly or partially removed. Then the maritime provinces will have some demands to make in regard to certain rates that have been complained of so that the case will affect the Dominion as a whole to a greater degree than any matter that has ever been considered by the railway board.

British Navy Estimates Exceed Six Millions and Air Force Two Millions

LONDON, Dec. 8.— (Canadion Associated Press).—It was announced in the house of commons today that the supplementary estimates for the navy will be over six million pounds sterling, and for the air force nearly two million pounds sterling.

CONFESSES TO THEFT

MONTREAL, Dec. 8.—Harold E. Sears, of Buffalo, N. Y., walked into detective headquarters here this afternoon and informed officials that he was wanted in Buffalo for the theft of $400 from the General Chemical company, of that city, with whom he was employed as a bookkeeper.

A telegram was dispatched to Chief of Police Higgins, of Buffalo, and the answer received was that Sears was wanted in that city, and an officer would leave for Montreal to bring him back. Sears told the detectives that he had been wandering around since last January and that he had expected to be arrested any minute. This so worried him that he decided to give himself up.

PROPOSED IRISH TRUCE TERMS BAR AMNESTY, REPUBLIC AND OUTRAGES

LONDON, Dec. 8.—The recent message of Father O'Flanagan of Roscommon to Premier Lloyd-George concerning a truce in the Irish situation, is understood to have been under consideration by the cabinet tihs morning. The knotty problem said to be confronting the government is whether Father O'Flanagan represents the full force of Sinn Fein moderate opinion. It is stated on high authority that if it is decided that Father O'Flanagan does represent such opinion, the government will reply to his message with a *statement embodying the following* terms:

"No amnesty, or republic, and a cessation from the present campaign of outrage and murder.

The opinion was expressed today by some students of the Irish problem here that the repudiation of Father O'Flanagan's message by a section of the Sinn Fein, had its origin in a desire for amnesty for certain Sinn Feiners who are fugitives from justice.

General Hold-Up in Cork.

BULLETIN, LONDON, Dec. 8. — A brief dispatch received from Cork late tonight says there was a general *hold-up of the public in the streets* of Cork by the auxiliary police this evening. Firing was heard in various parts of the city.

A man leaving a church was shot dead. There was much alarm in the streets, which were quickly deserted.

Henderson Not Hopeful.

LONDON, Dec. 8.—Arthur Henderson, the Labor leader, did not see Premier Lloyd-George today and neither Mr. Henderson nor William Adamson will return to Ireland. It is expected that the Labor commission of which they were members, and which has been investigating conditions in that country, will return to London next Tuesday. Its intervention in favor of a truce, it is understood, has been unsuccessful.

Mr. Henderson, questioned on this subject by the parliamentary correspondent of the London Times tonight, replied:

"I am not returning to Ireland; you can draw your own conclusions."

NEW YORK, Dec. 8.—Eamonn De Valera, president of the Irish republic, today issued a statement dealing with the announcement by Andrew Bonar Law in the British house of commons that the British government was considering asking the United States to take official notice of the Sinn Feiners' anti-British activities on this side of the Atlantic.

"I do not think that the British government will, in fact, make any official representations to the United States government, because even the British government well knows that my activities have not been anti-British, but pro-Irish," said Mr. De Valera.

LIVERPOOL, Dec. 8.—Prior to sailing today for New York on board the Baltic, Sir Horace Plunkett, chairman of the Dublin convention said:

"I see no hope of a truce in Ireland and no hope in the overtures reported in the press. There cannot be peace while there is frightfulness on both sides. In my judgment, the British government is blameable.

"If the people know how many *persons* had been killed in Ireland, we would soon have peace."

Sir Horace Plunkett recently was

ENTERTAINS NEW EDITOR OF TIMES

Stuart Discusses Firm Foundation of Anglo-American Friendship.

LONDON, Dec. 8.—(Canadian Associated Press)—The Canadian club here tonight entertained Sir Campbell Stuart, managing editor of the Times.

Sir George Parkin presided and proposed Sir Campbell's health and the toast was supported by Sir George Perley, Canadian high commissioner.

Sir Campbell Stuart, responding to the toast in his honor, said he could imagine no greater honor for a Canadian than to be a guest at such a gathering, nor was the honor lessened by the presence of the chairman, whose high privilege it was to be the guardian of that treasury if imperial sentiment and faith which Cecil Rhodes, the boldest and biggest figure of our times, bequeathed to the empire of his vision and our vision.

Sir Campbell was also grateful to Premier Meighen and ex-Premier Sir Robert Borden for the messages they had sent Canadians, he said, who lived away from their native land, were able to appreciate the services Sir Robert Borden had rendered.

Continuing, Mr. Campbell said:

Community of Ideals.

"Anglo-American friendship is based on deep and firm foundations; on a community of race and a community of ideals. If there have been, if there are any differences between the two countries, they are essentially family differences, the outcome of a close similarity rather than of any natural divergence. But we Canadians cannot regard those relations as being reciprocal between Great Britain and the United States alone. We of the the British race are also of the western continent. We possess an individuality of our own. In this matter, we agree with Ambassador Davis that we are conscious that we have our own part to play in cementing true union of ideals between the Anglo-Saxons."

United States War Expenditure Exceeds Twenty-four Billion

WASHINGTON, Dec. 8.—The net cost of the war to the United States government was fixed by Secretary of the Treasury Houston today at $24,010,000,000.

HOLDS AT HOME FOR PARISHIONERS

Monster Gathering Celebrates Rev. Fred Graham's Twenty-fifth Anniversary.

Celebrating the 25th anniversary of his ordination as a priest Rev Fred H. Graham, rector of St. Andrews Anglican church, was "At Home." to his concregation and parishoners at a monster social gathering at the Eagle Hall, last night, and was the recipient of numerous congratulatoins and tributes of esteem. Music, songs, and speeches, reminescent and humorous, filled a good two hours full of enjoyment for the guests prior to light refreshments, which were served by the Young Men's club. Afterwards, dancing and cards were the order of the evening, there being tables specially reserved for cards for those disinclined to dance.

With the hall filled with guests Mr. Graham arose, and expressed in felicitious terms his happiness at having so many of his parishoners with him to celebrate the day, He briefly sketched his career since his ordination 25 years ago in London, Ont., related some of the humorous experiences that befell him as a curate to Archdeacon McKenzie, of Brantford, and at his first church in Montreal, which he declared "was a very large church, with a very small congregation, and with a very large debt." After spending several years struggling along at that church he had received the call from Nelson.

He told of his reception on his arrival in Nelson and of the cordial relations that have always existed between himself and his parishoners during his 19 years service here, Concluding he touchingly referred to the generous support given to him by his wardens, particularly Fred Irvine, who had been his rectors warden almost from his arrival. He left Mr. Irvine in charge of the proceedings for the remainder of the evening.

The Bihsop of Kootenay, Right Rev. A. J. Doull, called on for an address, spoke of the stressful times during which Mr. Graham took charge of the spiritual welfare of the congregation of St. Andrews, and of the parishoners of Kokanee, told of the splendid work of Mr. Graham as seen in the growth of the church work in the parish, which at present was in a most flourishing condition, and extended the thanks of the synod. He classed Mr. Graham as, a preacher of ability, an able organizer and an unwearying worker in all parochial matters.

A splendid tribute to the esteem in which Mr. Graham is held by his congregation at St. Andrews, was contained in an address from the congregation, read by Leslie Craufurd, and later presented to Mr. Graham. It referred to the phenomimal growth of the congregation, the number of communicants, and societies, and commended his work as a preacher, and an organizer. Not only at the church, but throughout the parish, in diocesan work, and as a rural dean. Mr. Graham had been a zealous worker and had energetically forwarded the work of the church. The congregation all joined in congratulating him on his 25 anniversary as a priest, and on his 19 years of service in Nelson.

George Johnstone, also gave a brief, but decidedly humorous speech recalling the lighter side of church work at St. Andrews during his long acquaintance with the church.

The remainder of the evening was enjoyably spent in music, song and dancing. The Nelson Sympony orchestra contributed several splendid selections, including "Chu Chin Chow selections, including "Chu Chin Chow." and "Dogie's March," besides playing for the dances and during the arrival of the gu ests.

Master Jim Benson, Nelsons' wonderful boy pianist, entertained with selections on the piano and was repeatedly enored.

F. J. Arundel and Leslie Craufurd gave vocal solos, the former singing "In an Old Fashioned Town," and a rollicking encore "Rueben," and Mr. Craufurd, by special request singing "The Laddies Who Fought and Won," and the laughable "Wiggle Waggle o' his Coat."

Miss Ivy Brown also contributed vocal numbers, "My Curly Headed Baby" and "Flancian Song."

From 11 o'clock onwards, the gathering indulged themselves with the dance.

PROJECT SCHEME FOR PIPE LINE

Will Seek Sanction for Route From Mackenzie River via Yukon and Porcupine.

OTTAWA, Dec. 8. — (Canadian Press).—Conveyance of the oil products of the Mackenzie river basin to the Behring sea, to the pipe line from whence it would be carried by tankers to the markets of the world, is an ambitious project for which sanction will be sought by a bill to be considered by parliament at the approahcing session. The proposed pipe line would be laid from the Mackenzie river to the Yukon river systems by way of Rat river and Dell river, thence by the Porcupine and Yukon.

Dr. Alfred Thompson, member for the Yukon states that the late William Ogilvie, at one time commissioner of the Yukon territory, predicted a good many years ago that this method of getting oil from the Mackenzie river basin to the market would some day be adopted. Mr. Ogilvie's first mention of the matter, was in a report on McDougall Pass written in 1887.

SASKATCHEWAN HITS SHREWDLY

dollar for Saskatchewan guaranteed branch line railways, for the reason that none of these railway lines falis to earn more than the interest on the bonds issued and sold for its construction.

"More than this, the excessive freight rates now being charged are not made necessary by the requirements of Saskatchewan lines, every one of which is a traffic producer, but by reason of lines built through barren non-traffic producing portions of other provinces of Canada.

'Senator Casgrain forgets, or is possibly ignorant of the fact that immense tracts of Saskatchewan land have been granted by the Dominion government to railway companies for the construction of lines in other provinces of the Dominion.

Not Taken Seriously

"If Senator Casgrain were a responsible individual or were authorized to speak for the government of Canada or for any province in Canada, one might take his statement seriously. The fact that it has received wide publicity, however, and may, in consequence, be taken seriously by many people who do not know, the senator impels the government of Saskathcewan to state plainly that the province is able to meet the obligations arising under its railway guarantees should the Canadian Northern or Grand Trunk Pacific default in payment to the bond holders. All Canada should clearly understand, however, that such payment by the province will, by the terms of the guarantee, involve the surrender of the lines to the province. Such surrender would cripple the Canadian National railway system by robbing it of its best traffic producing and most profitable lines.

"The government of the province has no hestitation in affirming its belief that the default by the railway companies and consequent acquition of these lines by the province would be to the financial advantage of the people of Saskatchewan and to the financial disadvantage of the people of Canada as a whole, the reason being that the people of this province would not then be burdened with freight rates high enough to pay interest on the cost of lines in other provinces, some of which do not earn enough to pay the cost of Senator Casgrain's pass and franking privileges over them.'

SENATOR IRATE WITH WESTERNERS

on Dec. 15 to ask for favors; they want no less than all the lands and natural resources within their provinces; in brief, they wish to be put on the same footing as the old provinces which formed confederation. Now is the chance, and I say to Mr. Drayton, our minister of finance, who is looking for money deep down in the pockets of all the income tax payers, that he might say to the western premiers:

"'Pay us first and then you may come back to Ottawa and ask for lands and resources upon which the old provinces of Canada have a lien for all the money they squandered west of Lake Superior.'"

invited to visit the United States and testify before the committee of one hundred on conditions in Ireland.

QUEBEC, Dec. 8.—Lindsay Crawford, president of the Irish Self-Determination League for Canada and Newfoundland, arrived here today from Moncton enroute to Toronto. Mr. Crawford said, in referring to the flag incident at the Moncton meeting:

"The flag was thrust into my hands by an excited mob. I did not use the words attributed to me concerning this incident, neither did I kiss the flag, as was erroneously reported."

to Mr. Rowell that his words had created a different impression than he had intended. The Canadian delegate took the floor and again said he did not mean to attack European statesmen and rather than give offense, preferred to withdraw his words.

Mr. Rowell was supported by Mr. Miller, Autstralia, and was mildly taken to task by Gabriele Hanotaux, of France. Dr. Gaston Da Cunhaft, of Brazil, who had offered an amendment, united with the others however, in agreeing to let the question go over until tomorrw. In the meantime, endeavors will be made to arrive at a compromise.

Delegates Grow Weary.

Some of the principal delegates, wearying of the discussions and somewhat discouraged in their efforts to hasten the work of the assembly, are talking of going home. M. Viviani, who has been away from his law practice nearly a month, said he would not stay longer than the end of the week. The general opinion, however, is that it will be impossible to finish before the end of next week, unless the debates are summarily shortened.

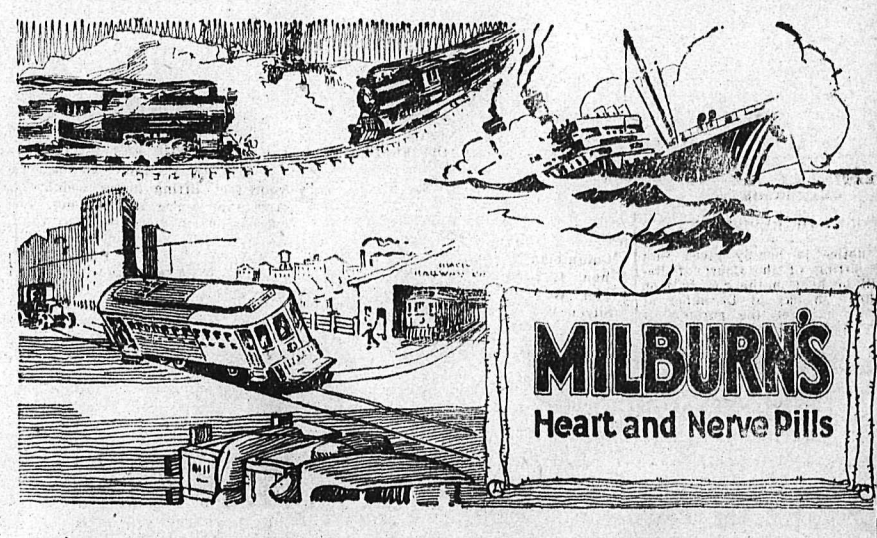
THE SHOEMAN



Are you rushing on to disaster?

TRAIN, marine, street car—in fact, all disasters are on the decrease, largely due to educational propaganda preventing carelessness. The toll of human life through ill health and disease is also on the decrease. People of the 20th century are realising more and more the necessity of keeping themselves fit and well, for without health they can never attain their ambitions.

There are still some, however, who ignore a vital factor in preserving their health and strength. They ignore medical scientists who tell us the necessity of repairing the ravishes on the heart and nerve centres. These are the people who fail to wake up one morning; the people who drop dead in the street, in the car or train, and just at a critical time when they are specially needed by friends and dependents.

ARE YOU IN THESE RANKS, inviting disaster? Do you ever feel that your work is proving a slight strain upon you? Would you be able to fill a bigger position to-morrow, make the rapid, clever decisions which bring success? Would your employer choose YOU? You can rest assured he won't if you're not in robust health. He can't take chances with ailing people. But you can obtain the health that will MAKE him choose you by r oring the heart and nerve centres, the vital organs of the entire system. Thousands of people have accomplished this by the use of Milburn's Heart & Nerve Pills.

One simple step. Go to your nearest druggist. He sells and recommends Milburn's Heart & Nerve Pills, and will be pleased to hand you a box; or send 50c. and they will be mailed direct by The T. Milburn Co., Limited, Toronto, Ontario.

Twenty Years in The Nelson Library

Few people perhaps realize what an interesting record of a book's history is kept by the library stamp. Here is a record that tells of a book's popularity or the percentage of a certain kind of reader in a given place at a given time. This does not of course apply as much to popular novels as to books with other interests.

For instance there is the Nelson public library at the present time a copy of "The Unknown," by Camille Flammario a book of great interest to those engaged in the study of occult phenonmema. This book was published in 1900, and was added to the Nelson collection in August of that year. It was out from August to November six times, Then not again till March 1901, and in that year only four times in all. It was out twice in 1902, once in 1904, twice in 1905, once in 1906, 1907, 1908 respectively, ad then for six years remained in oblivion, appearing again once in 1914, then neglected till 1918. Interest seems to have revived again in 1919, for it was out three times in that year, and already in 1920 it has been four times.

Such is the story of a Nelson library book can tell—read 27 times in a little over 20 years. One wonders how many of those readers are still in Nelson, whether they sought Flammarion's pages out of *curiosity, or for purposes of study*, or on the recommendation of a friend. Over 20 years in use, and having an average of a little over one reader a year.

It will be interesting to know what tales are told by other books in the collection.

SPLENDID ARRAY OF PRIZE POULTRY EXCITES ADMIRATION OF VISITORS

All Leading Breeds and Varieties Are Well Represented; Latest Product of Fanciers' Art, "British Columbia Fowl," Is Officially Recognized; Judging is Completed; Today is Final Day; Lecture Will be in Afternoon.

"The finest poultry show held in Nelson since pre-war days," is the general verdict of the fanciers, on the poultry show of district 8, now entering on its third and last day.

A splendid representation of the leading varieties, and also of many less well distributed, is the particular feature of the present show, as the crowds of visitors constantly remark. Of course the White Leghorn class, as usual, is to the fore, furnishing the hottest kind of competition between different fanciers and different districts, but this time several other classes are close on its heels in the matter of entries.

The White Wyandotte alley is a panorama, of white fluff. The old Silver Wyandottes are also on deck.

In Leghors there are Brown, Buff and Black, as well as the popular White.

The Rhode Island breed is represented by four varieties, the single-comb and rose-comb Reds, and the same in Whites.

The Orpingtons, formerly great favorites here, are seen in Black, Buff, White and Blue.

One whole side of the building is black, with the lordly Minoreas and with the two sub-varieties of Mottled Anconas.

The Red Sussex and the Speckled Sussex draw many encomiums. Dark Cornish help to swell the English class.

Plmouth Rocks are shown in the Barred and Columbian types.

Black Langshans and Silver Campines face each other across the width of the showroom.

There is a particularly fine showing of Bantams, much admired by the juvenile visitors.

Waterfowl are represented by Toulouse geese and wild Mallards.

There is a heavy showing of pens, and particularly strong competition in the utility section.

Judging was completed yesterday and the outside fanciers and the home talent have divided honors very evenly.

A New Bird.

One of the curiosities of the show is the pen of beautiful birds shown by Frank Thompson, of Midway, under the name of "British Columbia breed." Mr. Thompson claims to have bred these fowl true to type for the last eight years, and now seeks recognition for them. It was decided to award the new breed a diploma. Brown Leghorn, White Leghorn and Barred Rock entered into the ancestry of these birds, which are of a general Mediterranean type, but considerably heavier than Leghorns. The neck hackle is reminiscent of the Brown Leghorn, as is also the bright coloring of the wing bow and wing bar, but the wing bay is a slaty blue, and the breast also shows a touch of blue, similar to the Blue Andelusian. The tail also carries this characteristic hue. Mr. Thompson's aim was to produce a breed having the Leghorn and Rock qualities of egg-production, but medium in weight between the two types so as to serve a useful purpose on the table.

Admission to the show is free, and doubtless the general public will be out in force this afternoon and evening to inspect this fine array of Kootenay birds. This afternoon Judge V. S. Amundson will give another of his practical lectures and demonstrations, dealing with the matter of culling the flock, and general utility questions.

His lecture last night was on egg production, and the preparation of birds for the showroom.

The following are the awards in the various classes:

Barred Plymouth Rocks — 1, 2 cock, 1, 2, 3 hen, 1, 2 cockerel, 1, 2 pullet; 1 pen, T. Roynon; 3 pullet, H. H. Currie.

POP-NITE HAS PROGRAM UNUSUALLY EXCELLENT

Three big features specially designed to appeal to all tastes have been included in the program of the Popular Night's entertainment at the Y. M. C. for this Saturday, when a senior men's basketball game will be pulled off by two local teams. Choice selections will be played by the Nelson Symphony Orchestra, and as the star feature of the evening, Miss Maude Willis, of Chicago, famous throughout the United States as a wonderful dramatic entertainer, will give her best in the reproduction of great plays.

As usual the entertainment will take place in the Y. M. C. A. gymnasium, where extra seating accommodation in the shape of grand stands will be installed. There on Saturday night, basketball players and fans will be able to see a rip-snorting game between the Hot Dogs and the Spark Plugs; the musical epicure, the student, and the everyday lover of music may have his taste indulged by the Symphony orchestra; while the student of literature, the budding dramatist, the playgoer, and the observer of human nature, may all find a pleasurable stirring of the emotions, a kindling of the imagination, and food for thought in the masterly interpretations of the great dramatists by Miss Maude Willis. On account of the introduction of Miss Willis into the program, it has been found necessary to slightly increase the admission for this entertainment.

EPIDEMICS OF COLDS SWEEPING CANADA

Question as to Whether Disease is Contagious Being Discussed.

The wave of colds which is now reported from all parts of Canada has aroused the old question as to whether colds are contagious. Many people firmly believe that they are. At any rate, it is advisable that close contact with persons having colds should be avoided.

If you have a cold or there is a case of cold in your family, get a box of Grip-Fix from your druggist. It is a preparation which, after a trial of ten years, stands unequalled for the prompt treatment of colds. It will relieve even a bad cold in a night and a case of grippe in 36 hours. It is sold in capsule form and the ingredients plainly stated on each box. They are just the drugs usually used to treat colds. Coming in capsule form, they may be easily taken, and act most promptly.

Try Grip-Fix for that cold. It works wonders. On sale at all druggists—35 cents per box.

POULTRYMEN AT FESTIVE BOARD

Judge Announces Extension Export for Interior; Trail Next Year.

That another appointment to the staff of the faculty of agriculture of British Columbia university is definitely in prospect for the spring, and that the new oppaintee will very probably be an additional poultry instructor who will devote his time to extension work in the interior of the province, was announced last night by Instructor V. S. Amundson, at the banquet at the Nelson Cafe which celebrated 10 years of progress of the West Kootenay Poultry and Pet Stock association!

The poultry department of the university, Judge Amundson stated, was anxious to cooperate with the poultrymen of all parts of the province in every possible way, would answer courteously all inquiries, and would keep in as close touch with the various sections as circumstances permitted.

Referring to the present poultry *show, Judge Amundson said*, while he would have liked to see more strength in some of the classes the show was good in numbers and good in quality, and most postively a great credit to the district.

Judge Amundson's remarks were warmly applauded.

A. F. Atkinson, president of the West Kootenay Poultry and Pet Stock association who occupied the chair, made appropriate references to the work of the local association, and to the desirability of co-operation among the various association embraced in district No. 8.

On motion of T. Wright and W. J. Richards, it was decided that Trail should have the next annual show.

Those present were V. S. Amundson, Vancouver; Mr. and Mrs. Peter Finch, Fruitvale; J. F. Stevenson, Harrop; Mr. and Mrs. A. F. Atkinson, little Miss Venus Atkinson, Mr. and Mrs. R. H. Maber, Mr. and Mrs. A. Wallach, Mr. and Mrs. R. T. Simpson, J. Simpson, W. E. Jones, T. Roynon, H. H. Currie, T. Wright, W. E. McKim, W. J. Richards, A. G. Sullivan, J. P. Morgan, and W. Billington.

Safety in the Air

In an automobile race at Los Angeles eleven machines competed. The winner covered the distance of 250 miles at a speed of 103 miles an hour. Two of the cars crashed and three men were killed.

In an airplane race at Mineola, N.Y., 34 planes flew the course of 132 miles. The victor's average speed was approximately 178 miles an hour. Two machines met with slight accidents and no one was killed.

A few years ago the prophet who would have ventured to predict that the time would come when races through the air at a rate of nearly three miles a minute would be less dangerous than speed contests between automobiles running 75 miles an hour slower, would have been jeered to silence. Yet here is the proof.

Justice—Or Alms!

In a speech here the other night the premier, in dealing with proposed aid to the municipalities, spoke in a strain that was far from encouraging to those who hoped for substantial assistance from the government, says the Vancouver World. As justification for going slow in that connection he mentioned that "the government had come to the assistance of South Vancouver, only to receive a slap in the face for their pains in the election of an independent candidate at the polls, and similar treatment for their kindness in the interior." He ridiculed Mr. Bowser's offer of aid as a "bribe."

One can only gather from this kind of talk that municipalities if they receive government aid, obtain it in the form of a kindness and not of justice; and that in return they are expected to support the administration of the day.

Surely such is not a fair attitude. When the government grants aid to a municipality they do so with public funds, not with their own. They do so either in the public interest or for the sake of securing support. If the former, they have no right to talk of their "kindness" if the latter, they should have the good taste to abstain from charges about their opponents trying to "bribe" constituencies.

A CHRISTMAS PARTY FOR YOUR CHILD THAT COSTS BUT $1.50.

Now, at the beginning of December, many a mother is asking herself this question: "Can I afford to give my daughter (or son) a Christmas Party this year?" With the cost of everything so high, there is no money in the average family pocketbook for anything not an actual necessity. Yet Mother is torn two ways when her child wistfully wishes to give a party "like other children." It seems too bad not to let the little ones invite their friends in for an afternoon of jolly games. "But how about the refreshments, game prizes, and other expenses that go with a party?" the mother asks herself.

If my suggestions be followed, any woman can give her child a Christmas party for eight children at the slight cost of $1.50. The expenditures will be: 80c for 1 quart of ice cream (eight children can be served from one quart) 10c for red crepe paper to cut into *streamers for table-decoration*: 15c for a quart of peanuts; 20c for the ingredients for home-made cookies; and 25c for one game prize—a child's book, for instance, or a puzzle.

Send out the following invitations on ordinary note paper: "Master Edgar Jones requests the pleasure of Miss Tillie Smith's company at a Christmas Party to be held on the afternoon of December 26th at 3 o'clock." These should be mailed 10 days in advance, so that there will be plnety of time for either acceptances or regrets.

On the day of the party, when the children arrive, have them leave their wraps in a room assigned for the purpose. When all are gathered in the living room start a lively Peanut Hunt. Hide the quart of peanuts all over the room and the child who finds the most will have his name entered in a score book.

Now gather all the nuts from the children, put them in a pile on the floor, give each child a big needle threaded with doubled shoe-thread and at a signal, let all start stringing the peanuts on their threads; the child who has strung the most when the nuts are gone, will have his name entred in the score book.

The third contest is the old game of "Going to Jerusalem." If any reader does not know how to play this, I will be glad to tell her upon receipt of a stamped, self-addressed envelope. The child who gets the last chair, at the end of the game, has his name put down on the score book as the winner.

Contest 4: The mother-hostess has previously made a jig-saw puzzle by cutting out a square colored picture from a magazine, pasting it on stiff cardboard, and then cutting this cardboard into small pieces. The game is to see which child can put the puzzle together in the fewest number of seconds. Time them, letting them take turns. The winner's name goes down in the score book.

Contest 5: Pinning the Sack on Santa. *Trace a picture of Santa Claus* on tissue paper from a child's book; lay this tissue on wrapping paper and run the dull edge of a knife around the outline. This will make *a dented outline on the wrapping paper*, which should then be followed in pencil. Cut out "sacks" of stiff paper, putting a pin through each sack, and the child who can pin his sack, blindofided, nearest to Santa's shoulders, wins and has his name entered in the book.

Now will come refreshments—simply ice cream and cookies. Afterward there will be games such as "Puss in a Corner," "Button, Button, Who's Got the Button" and "Hide the Thimble." The prize should go to any child who has won two or more of the five contests; or, if no one has, each winner of one contest must repeat the puzzle contest, and the winer of this "rubber" receives the prize—which is awarded just before the children's departure.

EX-KAISER KEEPS STYLE IN EXILE

Menage Includes Courtiers, Cooks, Physician and Charwomen.

DOORN, Holland, Dec. 8.—(Associated Press)—Revelations in the Prussian state legislautre at Berlin of the sums of money which the former German Emperor has been permitted to draw from Germany during the past two years, together with the announcement that the Dutch governonment will tax him for an annual income of 1,300,000 guilders, have caused the burgers of Doorn to speculate as to what he does with all this money. (Nominally a guilder is worth 40 cents.)

From Germany, the former emperor is said to have drawn 1,000,000 guilders, equivalent at present rates of exchange to 11,138,000 German marks, also the proceeds of the sale of some of his property in the Wilhelmstrasse, said to be 40,000,000 marks. Besides all this income the Prussian government has contributed additionally to the furnishing of his new house at Doorn.

For a long time William complained of being financially embarassed. Now, however, according to the people of Doorn, he appears to be living in high style.

Not counting his marshall, General von Gontard and other members of his immediate suite, approximately 50 servants are now employed to keep up the house at Doorn. This does not include the workmen who are still engaged in various repairs about the house and grounds.

There are 24 charwomen, who are kept busy polishing the floors, brasswork, and otherwise keeping the castle up to the standard of old German cleanliness demanded by the former Empress Augusta Victoria. They receive the equivalent of about a dollar a day. Ten of them live in the castle.

In all, William now employs six cooks, who include a chef and an assistant living at the castle and four women who come in to work by the day. There are also a number of gardeners and personal servants.

Wages Bill is Considerable.

To maintain this army of servants, whose average wages, the people of Doorn say, must be something more than a dollar a day, William pays in wages alone about $20,000 a year. Their upkeep costs him as much more and this does not include the high salaried employes, like General von Gontard, Captain von Illseman, the "court physician" and secretaries, who must cost the ex-emperor about $20,000 more.

NAQUIB OF BAGDAD TO FORM COUNCIL

Announces New Plans for the Government of Mesopotamia.

LONDON, Deq. 7.—(Associated Press)—A new plan of government for Mesopotamia announced by Andrew Bonar Law in the house of commons provides that the Arabs shall be governed by Arabs. While an electoral law for the creation of a representative Mesopotamian congress is being drafted, the country is to be administered by a council of state, composed of native dignitaries and subject to the guidance of the British high commissioner, Sir Percy Cox.

The Naquib of Bagdad has been invited to form a council of state of about 18 members, with himself as president, until the national assembly can meet and decide on the future form of government.

The council will be representative of all parts of the country. One member is a leading Christian in Bagdad, and one of Mosul. A third is a prominent Kurd; a fourth is the head of a leading Shia family of Bagdad and two others are influential Shia sheikhs.

Eight portfolios will be assigned to the Naquib: Interior, finances, justice, pious foundations, defence, public works and commerce. Among those who have been invited to form part of the provisional government are a former general of the Emir Feisal's army, an ex-dignitary of Mecca and some leading merchants and lawyers of Bagdad, Basra and Mosul.

YOUR STAR

You hitched your wagon to a star
It fell while you were flying—
I mean the waggon, not the star—
You reached this old earth with a jar,
And lay there, hurt and crying.

Hitch on again with right good-will
Your courage has not crumbled.
And see, above the highest hill,
The star — you star — is shining still—
'Twas only you that tumbled.

—Jean Blewitt.

Styles

BY LENORE

This lady whose eyes are almost concealed by a curtain of glycerined ostrich feathers, emphasizes the effectiveness of black and white in a costume of black satin, with white crepe de chine bodice covered with an all-over pattern of roses artistically traced in tiny jet beads.

This fashion for combining contrasting colors offers many suggestions for utilizing beautiful pieces of material for another season. One must be careful, however, not to disturb the effect of harmonious porportions in the figure. In fact, only a very well proportioned figure can afford to introduce conspicuous contrasts.

For those who happen to be shorter or longer waisted than the average, this same style may be used as a basis for an exceedingly lovely and practical spring gown by combining georgette and satin or Canton crepe in the same color, say gray or Belgian blue, trimmed with steel beads.

DAILY RECIPE

(PASTE THIS IN YOUR COOK BOOK)

Stuffed Shoulder of Lamb.

Remove all the bones, or have the butcher do so. Make a filling of chopped parsley, a little onion, 1 teaspoon salt, one-eighth teaspoon pepper, a little dripping. Fill boned shoulder with mixture. Roll as near as possible into former shape. Skewer, tie and bake, allowing quarter of an hour for each pound of meat. Make gravy in the usual way.

COLD STORAGE

After the "personally conducted" tour abroad a band of English travelers were crossing the channel home. It was very rough and most of the ladies retired to the cabin. Only on—an elderly little spinster—stayed on deck.

As the vessel pitched and tossed, and heavy showers of spray drenched everything, a fellow tourist came to her.

"Excuse me, Miss Black, but I thought perhaps you feel the need of a strong arm to lean on—something to support you, you know."

"Oh, Mr. Binks!" sighed the lady, as she lurched toward him and leaned her head on his shoulder. "How sweetly and romantically you have expressed it."

A certain doctor rather shy, was invited to dinner by a lady who was at least 50, but frivolous enough for 20. At dinner she asked the young surgeon to carve a chicken and, not having done so before, he failed lamentably. Instead of trying to cover his confusion, the hostess called attention to it pointedly by dooking down the table and saying loudly:

"Well, you may be a very clever surgeon, but, if I wanted a leg *off I should not come to you to do* it."

"No, madam," he repiled politely, "But then, you see, you are not a chicken."—Los Angeles Times.

WHEN HONEST JOHN KISSED MARY ELLEN

That was a decided smack in the face Honest John gave Mary Ellen at the Liberal jamboree Friday night. You could hear it from the sub-basement to the roof-garden, it was that hearty. It had a real old-fashioned, rustic touch, a flavor of new-mown hay and left a decided imprint of rural simplicity.

No mere city politician could have carried it through with such verve and eclat, or, to give it in plain English, with such spirit and splash. Kissing a lady in public is not an acquired habit, it's a gift. Few could do it; fewer would. But Premier Oliver is and always has been a pioneer and is not at all deterred by the absence of precedents.

As for Mary Ellen, like Barkis, she's willin'.

The most competent shorthand reporter west of the Rockies took verbatim notes of the pre-osculatory conversation between the Premier and Mrs. Smith. In the subsequent excitement he swallowed his notes, but coughed up the following fragments by request:

"Maryallan, I'm going to KISS you."

"Honest, John? O, spare my blushes."

"Maryallan, I like your cheek."

(Business of brushing aside troublesome whiskers, and then)

SMACK

(Only, of course, much louder than any type we can possibly get in this column.)

* * *

If it wasn't exactly what Don Juan would have described as "a Long, Long Kiss, a Kiss of Love and Youth," it was at least a solid, substantial and sounding smack. Experts agree that if John had been forty or fifty years younger, Mary Ellen would have given him smack for smack. But Webster, as you know, describes more than one kind of smack, and nobody knows which smack Mrs. Smith would have returned. Mary Ellen knows, but she won't tell—at least, not until next election campaign.

* * *

Honest John, we have been told on most reliable authority, had some explaining to do in certain quarters regarding this chase salute. First of all he offered to bet the Elliott two-bits that Bowser couldn't prove it from the records of the house, but soon shifted his ground and assumed an air of virtuous resignation, and pointed with pride that this was one of the penalties or privileges of the greatenesses that have been thrust upon him.

"THIS KISS WAS A DUTY, NOT A SIN," he thundered like a sucking dove.

And then the hurly-burly Premier brought down the family Bible and, in a very loud voice, read the story of the prodigal son, and drew quite a clever analogy between the two cases.

....."And he fell on his neck and kissed him!" "Surely," said John. "If my namesake the apostle saw merit in that rich farmer kissing the prodigal son when he returned to the fold, shouldn't I, as farmer-premier kiss the prodigal daughter who has returned to the Liberal fold after straying in the land of the Independents for a brief session?"

So that instalment fo the story ends.—Vancouver World.

Canadian Pacific Cars in Italy

(1) C. P. R. Observation Cars in Austria, 1913 (2) The same cars leaving Rome, August, 1920.

During the war the question was often raised—"What has happened *to the Canadian Pacific Observation* Cars on the Austrian State Railways"? On the cessation of hotilities it transpired that they had been used by the Austrian War Office as Red Cross Cars, and on the signing of peace they were handed back to the Canadian Pacific in fairly good shape. It will be remembered that before the war these Observation Cars were operated by the Canadian Pacific on the Express trains of the Austrian States Railways from the Arlberg to Vienna, and from Innsbruck to Trieste, where they were extremely popular, particularly with American tourists visiting Tyrol. Owing to the internal conditions of the country, *tourists travel in Austria has naturally* disappeared for the time being, but Italy has been in different shape, and the Italian Government made an offer for these Observation cars which the Canadian Pacific accepted, with the result that they are now being operated by the Italian State Railways through the most picturesque districts of the Italian peninsula.

They were used for the first time for a party organized by the Moroli Company of Rome for the transportation in Italy of the delegates of the National Council of Women of the United States proceeding to the International Feminist Meeting in Christiania. They left Naples on the 21st August, and proceeded via Rome to Florence, Venice and Milan to Geneva, where they arrived on the 28th August.

Naturally the operation of these observation cars for the first time on the Italian State Railways created a great amount of interest and aroused intense admiration on the part of the people and the Railway officials, whilst the delegates from the United States declared that these cars were as elegant and comfortable as they had ever travelled on.

DISMISSES CLAIM IN ENGINEER MINE

Richest Gold Mine in North; Bases Action on Carbon Copy Unwitnessed.

VANCOUVER, Dec. 8.—Judgment was rendered by Justice Morrison, dismissing the claim of W. Pollard *Grant, Vancouver lawyer, to a one-*fifth interest in the Engineer Mine, a famous gold property of Atlin.

Suit had been brought by Mr. Grant against the estate of the late Captain James Alexander, who, together with his wife, perished in the Princess Sophia disaster. The defendants were James A. Fraser, official administrator for the Atlin Lake Mining division, who was sued as administrator of both Alexander and the latter's heir, Allan L. Smith, and the remaining defendants were Veda M. Smith, Chas. C. Smith, and Louisa Chapman Smith.

*Mr. Grant had sought a de*claration from the court that he was entitled to an undivided one-fifth interest in the mine and based his claim upon an instrument which purported to be signed by Alexander. His lordship in his reasons for judgment pointed out that the document was not witnessed, although there were persons at hand who could have witnessed the signature. Further, it was not the original but a carbon copy. The plaintiff also claimed for monies alleged to have been paid and goods supplied Alexander during their business relationsship.

The property involved in the litigation is the rihcest gold mine in the Northern country and has been valued by experts between $2,000,000 and $3,000,000. Captain Alexander was completing arrangements for its sale and was travelling to Vancouver for that purpose when he lost his life.

WOULD REMOVE BOND EMBARGO

Finance Minister Expected to Take Action to Revert to Normal Trading.

OTTAWA, Dec. 8.—With the return to Ottawa of the finance minister, it is likely that early *consideration will be given to rep*resentations urging removal of the so-called embargo on re-importation of dollar securities from London. The embargo was first imposed to keep Canadian money at home as much as possible and secure a better market for victory bonds. The tendency now is to return to normal trading as was evidenced in the recent removal of control from victory bonds. Important questions, would, however, be raised by removal of the embargo, and close study would be given before final action is taken.

Although generally termed an *em*bargo, there is no embargo in the strict sense of the term. The ban on re-importation of the security mentioned is secured by means of an understanding between the minister of finance, banks and brokers.

ACCENTUATES DEPRECIATION

Adverse Factors Keep Securities Market in State of Ferment.

NEW YORK, Dec. 8.—Additional depreciation of quoted values on the stock exchange was accentuated by a continuance of the many adverse factors which have kept the securities market in a state of ferment for the past month.

Standard or representative shares were relatively steady but speculative issues, including numerous specialities, which are likely to modify or suspend dividend payments, broke two to eight points. Pierce Arrow preferred was in a class by itself, sustaining a gross decline of almost 20 points, but regaining about half.

Concerted examples of dividend policy were furnished by Stromberg Carburetor, directors of which ordered a 50 per cent cut in the quarterly dividend, and United States Food Products, whose executive committee recommended the passing of the current dividend on that stock.

There was heavy selling of Mexican and Pan-American Petroleums at extreme recessions of eight and four points respectively. Based in part on the failure of the latter company to increase its dividend, accompanied by rumors that the proposed absorption of Mexican was off.

Other oils fell two to seven points and motor accessories two to five. Steels, including Vanadium, which announced an indefinite suspension of domestic operations, broke one to five and recessions in food, metal, chemical and fertilizer issues ranged from two to five points. Sales amounted to 865,000 shares.

The noteworthy feature of the money market was the absence of new offerings of time funds, all accomodations being limited to renewals. Foreign exchange was a trifle steadier, Scandinavian rates rallying sharply.

Local tractions were the weak features of the bond list, where lower quotations prevailed. Total sales, par value, $16,9000,000.

Old United States twos and fours again reacted ¼ per cent on call.

EMBARGO TALK RAISES WHEAT

Market Opens Lower but Recovers; European Buyers Get in Quietly First.

CHICAGO, Dec. 8.—Aggressive calling in which houses with eastern connetions were active, caused the wheat market, to average lower today notwithstanding several likely bulges. It was not definitely known until long after the close that meanwhile, purchasing for shipment to Europe had been on a much larger scale than usual. Prices closed unsettled, ¼ to 1¼ cents lower, with December $1.69 and March $1.66⅞ to $1.67.

Corn finished ⅜ off to ⅜ cent up. Oats gained ¼ to ½.

In provisions the outcome was unchanged to 25 cents lower.

Removal of hedges on Canadian wheat taken by the British Royal commission, tended to lift prices later, as did talk of placing an immediate embargo on wheat imports into the country. It was nearly night fall before estimates were out putting European buying of domestic wheat at 1,500,000 bushels and of rye at 400,000 bushels.

New requirements of Canadian wheat for Great Britain were said to be 2,000,000 bushels.

KAISER BRONCHITIS IN EXILE

Thousands Liberated

What have you not heard the joyful tidings? Bronchitis has been exiled—kicked right out of society—and 100,000 Canadians liberated from the bondage of this disease. Every trace of bronchial trouble is blown to atoms by the world's most effective disease-destroyer, Buckley's Bronchitis Mixture. No wonder people are rejoicing! No longer do they dread the effects of coughs, colds, asthma, etc., and so anxious are they that others should benefit also, hundreds of letters have been written proclaiming the merits of this wonderful miraculous remedy. Here is one letter:—To Whom it may Concern: "This is to certify that I had been suffering for over three weeks with bronchitis and was advised to try Buckley's Bronchitis Mixture. I purchased a bottle and after the third dose I received relief, and before the bottle was finished, I was perfectly well. In making the above assertion I have no hesitation in saying it is the best remedy I ever came in contact with for heavy colds and bronchitis."—(Signed), Mrs. M. Harding, c/o Dustless Brush Co., Toronto. The original of this testimonial may be seen at W. K. Buckley, Limited, 142 Mutual St., Toronto. This mixture, proven in thousands of Canadian households, will give you sure relief. It cannot fail. Seventy-five cents is the price that stands between you and the road to health. Take no substitute—insist on the bottle with the "Satisfaction guaranteed, or money refunded." Ask your druggist. 19

MONTREAL LIST

MONTREAL, Dec. 8.—Despite the loss of the most of yesterday's gains in the Spanish River issues and the one-point decline in Breweries, the general market today showed a material improvement over Tuesday, and although the close showed some easiness in sympathy with New York, final prices showed a net gain for the day in most issues.

BOILS SO BAD HAD TO GIVE UP WORK

From the days of Job up to the present time, boils have been one of the afflictions of the human race.

All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James Fahey, Newport Island, Que., writes:—"I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

Played Fiddle While Town of Granard Burned

DUBLIN, Dec. 8.—(Associated Press)—There was a Nero who fiddled during the burning of Granard by the "Black and Tans" last month. He was a roving musician who makes the town his headquarters.

According to the story told in the town, the musician, awakened by the tumult, rushed from his logings with his precious violin under his arm.

He was captured by the police, and under threats compelled to walk down the main street playing English national airs while the town was burning.

Hounds Follow the Funeral of Famous Hunting Squire

WHADDON, Eng., Dec.8.—(Associated Press)—Twenty-one pairs of hounds filed solemnly past the grove at the funeral of William Selby-Lowndes, a well-known English county squire of the old school, who had been master of the Whaddon Hounds for 25 years.

The village churchyard overlooks the famous Whaddon Chase. After the burial service, the members of the hunt led the famous Whaddon Chase pack past the flower-lined grave.

CHILEAN RAIL GAUGES VARY

Travelers Must Change Many Times on Cross-Country Journey.

SANTIAGO, Chili, Dec. 8.—(Associated Press)—Diversity in railway gauges in use in the southern republics of South America is one of the difficulties facing railway officials in this continent who are trying to facilitate international train service. In the Argentine the gauge mainly in use is 1.435 meters; in Brazil a meter and in this country, 1.68.

Travelers from Argentina to Chile must change trains at Mendoza, Argentine, where the wide gauge ends and a meter gauge crosses the Andes to the Chilean town of Los Andes. Here another change must be made since virtually all the Chilean state lines, including the Longitudinal railway of 1,620 miles are 1.68 gauge. If, however, the traveler's destination is northern Chile, he proceeds to Valparaso on a ide gauge then changes again to meter line. If he wishes to visit copper mines in this vicinity he must also change at Santiago or Rancagua.

A traveler may proceed by rail from Buenos Aires to Bolivia but he must change trains in Tucman, Argentina, where the wide gauge ends. He then rides over a narrow gauge state line to the frontier. A similar diversity in gauges exists in connections from the River Plate countries to Brazil.

RUSSIAN STATUS QUEER IN CHINA

No Diplomatic Relations Exist Between Chinese and Russians.

PEKING, Dec. 8.—(Associated Press)—Russians in China are having a difficult time in establishing their status and rights since the Chinese government severed relatons with the legation which represented the government of the late Russion Emperor Nicholas. This left them without representation since the Chinese government has not established diplomatic relations with the Soviet government of Russia.

The conditions in which the Russians are placed by this turn of events is illustrated by the fact that the military governor of the northern province of Manchuria has asked the Chinese government whether Russian offenders are now liable to the death penalty like the Chinese, since the governor understood that Russian offenders were amenable to Chinese law.

The question was referred to the Chinese ministry of justice and the foreign office for consideration.

In an effort to solve the problem of the standing of the Russians now in China, several non-political organizations in Harbin, Tientsin and Hankow have asked the Chinese Foreign minister to appoint a Russian administrator to have control of Russian affairs in China. They ask that Russian councillors be appointed to assist Chinese commissioners in centers where there is considerable Russian population.

The Russian petitioners requested that legal cases affecting the property or personal rights of Russian citizens in China be left to the decision of Russian courts in conformity with the Russian code.

Methylpropylcarbinol Induces Anaesthesia

PARIS, Dec. 8.—An anesthetic with relatively no danger and "pleasant to take" is said to have been produced and used in the hospitals of Soviet Russia. Dr. Marcou, once an interne of the Paris hospitals, describes the process in an article whitten for L' Information. He asserts that he watched the new method used in Petrograd hospitals. He attributes its experimental use on animals to Professor Kravkoff and its application to operations on persons to Professor Fedovoff, formerly surgeon to the Emperor.

It is methylpropylcarbinol in the proportion of one to 100 parts of warm, salty water that does the business, he says. This is injected directly into a large vein in the elbow and the hollow tube is left in the vein so more may be pumped in as needed.

First Causes Sleep

When from 100 to 200 grams of the liquid have been put in the blood the patient sleeps but there still remains reflex action in the eyes, which is taken as the standard of anasthetization.

As more of the sleep-producer is used, sensitiveness leaves the eyes and the surgeon operates, testing the eyes from time to time so as to keep the blood-system supplied with the fluid. The patient sleeps several hours after the completion of the operation.

"Hundreds of operations," says Dr. Macou, "were performed in Russia during my stay. I watched some of them. Not one case of death has yet been reported."

The anaesthetic is said to be particularly valuable for head and neck operations where the use of the ether or chloroform mask interferes with the surgeon's work. In such diseases as make the introduction of salty solutions into the blood undersirable or dangerous says Dr. Marcou, salt may be replaced by glucose or bi-carbonate of soda.

AMERICA'S WAR MEMORIAL TO HER SOLDIER DEAD

The monument in the form of shafts will be placed on the battlefields in France in memory of American heroes who sacrificed their lives for their country. Center top piece of the shaft is the work of the American sculptor, Joe Davidson. The American eagle perched on a shell will decorate the shafts to be placed at Verdun, the Argonne, and Soissons in memory of the dead of the First Division.

turnover and sold up to 24⅛, closing at 24, a net gain of two points. Toronto railway closed at 59⅝, a net gain of 2⅜ points.

Asbestos gained 2⅞ at 84 and Car preferred moved up to 87. Abitibi and Brompton both added a fraction, the former, at 57 and the latter at 58½.

A one-point gain in Riordan and Rayol Bank were scored. An encouraging feature of the trading was the continued large turnover in victory bonds with strength in all issues which all showed advances, except the 1934, which held at yesterday's advance.

The balance of the bond list was irregular.

Total sales: listed 6256; bonds $312,700.

CANADIAN BONDS

MONTREAL, Dec. 8. — Today's bond quotations:

War loans:—1925, 92; 1932 89; 1937, 94¾.

Victory bonds:—1922, 97⅝; 1927, 97⅛; 1937, 97⅜; 1923, 96½; 1933, 95¼; 1924, 94; 1934, 92½.

STERLING EXCHANGE

NEW YORK, Dec. 8.—Sterling exchange steady at $3.39⅜ for 60-day bills, and at $3.43⅞ for demond.

NELSON, Dec. 8.—$4.00.

EGG MARKET

OTTAWA, Dec. 8.—The most interesting features of the egg market are the possibilities of shipping British Columbia fresh eggs to Ontario and Quebec, and the heavy imports of Chinese fresh arriving at Vancouver. British Columbia eggs are selling at 67 cents country points and the express charges on carlots would be about 5½ cents per dozen Vancouver to Toronto. Yesterday the following arrivals of Chinese fresh were reported at Vancouver: 999 cases for London, England, 1000 cases for Montreal, 4000 cases Vancouver and 3883 cases fresh and 10 barrels of liquid yolks, destination not stated.

TORONTO BOARD

TORONTO, Dec. 8.—Victory bonds continued to absorb the interest of the Toronto exchange today, when several strong advances were again made. Five of the issues moved upward and two remained unchanged, so that the strength of the past few days has been retained in all cases, and in the majority of instances, improved upon.

The rise of the 1934 to 93¼ in two cases of broken lots was an illustration of the strength of the market in that direction. The largest advance was made by the 1937 victorys closing ⅝ up at 97⅞, the high for the day.

Some strength of the bond market spread to the general list. Toronto railway had another exhibition of firmness, selling as high as 59½ and closing at 59, with a gain of one point. Interests close to the railway company stated during the day that there was every prospect of a better showing for the company at the end of of the franchise than had yet been made apparent, assuming that the city would take its physical assets, as was thought would be necessary in order to carry on the sytem. It was claimed that, as a result of the present deal there would be a net balance to the campony of about $3,558,823, to which would be added the value of the plant when it is taken over.

The increase of this figure compared with the deductions from the public report, appears to be due to the interlocking in the holding of securities between the varoius subsidiaries of the Toronto railway which reduced the liabilities to the public, and which is something that none but the insiders understand.

Winnipeg railway had a distinct recovery, selling five points up at 40.

PYTHIANS ENTERTAIN

The Knights of Pythias held the first of their series of monthly whist drives and dances Tuesday evening in the K. of P. hall. There was about 100 present and a very enjoyable evening was spent.

Messrs B. F. and V. Cranes kindly contributed songs and the orchestra gave a selection. The winners of the whist drive were as follows: First lady, Mrs. E. Gammon; first gentleman, J. J. Walker; lady's booby, Mrs. J. Long; gentleman's booby prize, F. Deacon. Refreshments were served before dancing commenced. The committee in charge consisted of D. Rees, H. Svoboda and W. Holmes.

MANY GUESTS ATTEND

A large number of guests attended the third of the Cinderella series of dances at Eagle hall, Tuesday evening. At 11 o'clock light refreshments were served and the dancing was kept up until one o'clock a. m.

POLISH STUDENTS SUFFER POVERTY

Demobilised Men Homeless, Penniless and Short of Clothes.

TORONTO, Dec. 8.—Appalling conditions prevail among Polish students following the partial demobilization of the Polish army, according to a cablegram received today by the national council of the Young Men's Christian Association, Toronto, from W. G. Rose, the Canadian Y. M. C. A., representative in Warsaw.

Mr. Rose, formerly of Winnipeg, and a Rhodes scholar from Montreal who has charge of the student work and training of Y. M. C. A., secretaries in Poland, reports that 1200 recently demobilized students are homeless, sleeping in the streets and railway stations at Warsaw.

The demobilized, students who played so great a part in repelling the Bolsheviki invader, are penniless. They are absolutely without underwear and have insufficient clothes to face the rigorous winter.
