GOVERNMENT CANDIDATE WINS YALE

MacKelvie Carries Conservative Banner to Victory; Defeats Independent.

RETURNS INCOMPLETE, CANNOT ALTER RESULT

Colonel Edgett's Supporters Concede Election at Late Hour Last Night.

VERNON, Nov. 22.—With available figures at a late hour tonight showing that J. A. McKelvie, government candidate, had received 4891 votes against 4491 recorded to Col. C. B. Edgett, the Independent candidate's supporters conceded the Yale by-election, as the small polls to be heard from could not materially affect the result. Telephonic communication is difficult with some of the outlying districts, and returns from these may not be received until tomorrow.

COMPANY BANKS UP FURNACES

Reply to Employees' Ultimatum; Apply to Ottawa for Redress.

SYDNEY, N. S., Nov. 22.—(Canadian Press)—When 125 railroad employees of the Dominion Steel Corporation served an ultimatum on the management this morning demanding a settlement of their wage differences before five o'clock, the company replied by closing down the various mills at noon and ordering the banking of the blast furnaces.

This action automatically threw 400 men out of work, pending the settlement of the dispute with the railroad employees. It is estimated that it will require at least a week to get the furnaces in operation again, and it is believed that the big plant will be tide up for that period at least. The company, in the meantime, it is understood, is making application to Ottawa for redress, under the provisions of the Industrial Disputes act.

It has been stated that lack of orders has been threatening the operations of steel plants for some time past. For the past two years the railroaders employed within the steel plant have been contending for the scale awarded all other railroaders in Canada, following the McAdoo award in the United States.

ULTMATUM MAY PRODUCE TIE-UP

Dominion Steel Lays Off Seven Hundred Men; Yard Force May Quit.

SIDNEY, N. S., Nov. 22.—(Canadian Press)—Seven hundred men were laid off at noon today and four thousand may be idle by Tuesday morning as the result of an ultimatum delivered to the management of the Dominion Steel Corporation by its railroaders this morning. Seven hours' notice was served this morning that unless the men's demands were met the whole yard force would quit at 5 o'clock.

Without the railroaders it is impossible to operate the plant because of the large amount of heavy shunting to be done.

The railroaders' difference between the management of the steel corporation dates from the application of the provisions of the McAdoo award to the railways of Canada, when the increased rates paid to the employees of the Sydney and Louisburg railway, a subsidiary of the steel corporation, were not granted the men operating the railways within the plant itself. Recently negotiations looking to a settlement were renewed and when these failed the ultimatum followed.

ALLEGES PARTICIPATION IN ILLEGAL COMMISSION

NEW YORK, Nov. 22,—Charges that R. W. Bolling, brother-in-law of President Wilson, and treasurer of the United States shipping board, participated in the distribution of $40,000 alleged to have been given by a shipbuilding company for assistance in obtaining a shipbuilding contract, were contained in testimony Saturday before the Walsh commission investigating shipping board affairs.

Denies Rumors of Wilhelm's Installation in Island of Corfu

PARIS, Nov. 22.—The Greek legation here issued a denial this evening of the reports that the former German emperor would be installed on the Island of Corfu. Legation officials said there was no foundation for the story.

Suggest Book of Noble Deeds Done During Great War

LONDON, Nov. 22.—(Canadian Associated Press) — Premier Lloyd George replied sympathetically in the house of commons today to the suggestion for preparation of a book of noble deeds in the great war.

RELEASE CAPTURED OFFICERS

Taken in Siberia, Bolsheviki Allow Canadians to Return to London.

LONDON, Nov. 22.—(Canadian Associated Press)—Captain H. E. Brickett and Sapper W. D. Smith of the Canadian Engineers were among the score of officers and men reaching London today after many months of imprisonment by the Bolsheviki, who captured them in Siberia after the defeat of Admiral Kolchak. This part were all members of the British railway mission.

They described conditions in Russia as very bad. While not themselves ill-treated, they suffered from the want of food and lack of clothing.

FLYNN PROMISES DETAILED ACCOUNT

Refers to Demonstration by Veterans at Meighen's Toronto Meeting.

WINNIPEG, Nov. 22.—A message has been received by the local branch of the Grand Admy of United Veterans from J. Harry Flynn, in which reference is made to the demonstration made by returned soldiers outside Massey hall, Toronto, when Premier Meighen spoke there last Friday. Mr. Meighen is called "a coward because he declined to address the veterans.' At the subsequent meeting at Aylmer addressed by the premier, he said he intended to address the returned men, but the civic authorities refused to allow him to do so.

Mr. Flynn, in his telegram, promises to give greater details of the incident at Toronto in a letter which is being mailed and in which he will amplify his charges.

DISCOVER BILLS IN UNDERWEAR

Suspects Declining Baths Leads to Search and Finding of Money.

ROANAKE, Va., Nov. 22.—William Porter, alias William Harris and Charles Carter, held in connection with the robbery of the Bank of Glasgow, Va., early Friday, upon refusal to take baths, aroused suspicions of jail attendants last night and a search of their persons resulted in the finding of $1200, the police announced today.

Seven one hundred dollar bills were discovered in a bandage on Porter's abdomen. Other $100 bills were found sewed in the lining of Porter's vest and four $100 bills were discovered in Carter's underwear.

HELLO GIRL CONFESSES TO FAKING A HOLD-UP

TORONTO, Nov. 22.—Alice Barber, night telephone operator and office woman at Gray hospital here, raised a commotion last night by calling for assistance. First arrivals found her with her face scratched and clothes torn, lying bound by a rope. The office desk was open, the contents scattered about and money missing. After investigation the police arrested the girl on a charge of stealing $209.00.

She afterwards confessed she had tied herself up, and even scratched her face, pinching pieces of flesh out to draw blood. She gave the police a signed confession. When she appeared in the women's court this morning, charged with the theft of $208.00, she was remanded until Thursday.

FARMER DEFEATS LIBERAL

Conservative Candidate Runs McDermand Close at East Elgin By-election.

FIGHT WAGES KEEN FROM FIRST TO LAST

Bad Weather Keeps Three Thousand Voters Away From Polls.

AYLMER, Nov. 22.—K. S. McDermand, former warden of Elgin county, was today elected in the East Elgin federal by-election as the U. F. O. candidate. He polled 3043 votes as against 2855 for the government candidate, J. L. Stansell, and 1949 for the Liberal, W. C. Charlton, out of approximately 11,000 voters, only about 8000 of whom voted, many remaining at home owing to the unpleasant weather condition.

Hottest Fight Ever Waged

The campaign was easily the hottest ever waged in East Elgin. Premier Meighen spoke twice in the riding and a number of government speakers were constantly on the ground. Hon. W. L. Mackenzie King and Hon. T. A. Crerar, also addressed meeting during the campaign. A big demonstration was held here tonight to mark the success of the Farmer candidate.

OTTAWA, Nov. 22.—(Canadian Press)—Announcement of the U. F. O. victory in East Elgin was received in government circles here today with evident disappointment. Members of the cabinet had gathered in the prime minister's office to receive the returns which, as they came in poll by poll, were carefully analyzed and compared.

Early returns had indicated likelihood of a government victory, but hopes of such an outcome were gradually dissipated as the majority of Mr. Stansell, the government candidate, gradually dwindled, and Mr. McDermand, the Farmer candidate, took and held the lead. A few months ago, a few weeks ago even, a Farmer victory in East Elgin would have been regarded as inevitable. But it was hoped that the strenuous campaigning had changed the suggestion.

Made a Good Running

However, satisfaction is expressed in administrative quarters that the government candidate made so good a running in a constituency, almost entirely rural, the result is the first check which the Meighen government has received at the polls, and means the loss of a seat which has gone Conservative, although with small majorities, since 1891. Whatever bearing it will have on government policy, whether it will accelerate cabinet construction, it is little doubt that cabinet re-construction is not in any event far distant, and that one of the first steps taken will be in endeavoring to secure increased French-Canadian representation.

From first to last the fighting in East Elgin was keen, and the result is particularly interesting in its indication of the organized strength of the garrison movement in Ontario.

Alberta Farmers Exult

CALGARY, Nov. 22.—"So far as I can see the victory in East Elgin is an index to the present government of Canada in particular, and of the political party system in general, and an expression of confidence in the Farmers' movement," said H. W. Wood, president of the U. F. A., when the result of the East Elgin by-election was received this evening.

On behalf of the board of directors of the United Farmers of Alberta, who were in session today, President Wood dispatched the following wire to J. J. Morrison, secretary of the United Farmers of Ontario, Toronto:

"Accept congratulations board of directors of United Farmers of Alberta in session today, on East Elgin victory. Organization means strength. Farmers' organizations fully developed will be irresistible for right and justice. May your success be a step towards sure and ultimate victory. H. W. Wood.'

PARIS, Nov. 22.—France and Great Britain, the Petite Parisian, will say tomorrow, "will refuse to recognize Constantine if he re-ascend the throne of Greece," and adds: "The friends of our enemies are not our friends."

LEADER DENOUNCES GENERAL STRIKES

Unemployed and Adventurous Immigrants Could Stir Trouble, Says Moore.

MONTREAL, Nov. 22.—Tom Moore, president of the Dominion Trades and Labor Council, speaking at the weekly luncheon of the Canadian club today, made it clear that organized labor would not tolerate any reduction in wages. He argued that, although in some cases there have been unusually generous wage advances, in most trades the wage advances had not kept pace with the cost of living, so that organized labor was not prepared at the present time to consider any talk of reductions.

Mr. Moore laid it down that "of all irrational acts workers can attempt, there is nothing more irrational than a general strike.'

Mr. Moore added that with low wages and unemployment, he knew of no country outside of Russia more liable to revolutionary movements than Canada, with its employing classes generally one generation old, made up of enterprising men, and the employed class largely comprised of adventurous immigrants who could easily be stirred to trouble, should conditions become too bad.

WILL UNFOLD NEW NATIONAL POLICY

United Farmers Arrange for Appearance of Premier Drury at Winnipeg.

WINNIPEG, Nov. 22.—(Canadian Press)—Friday, Dec. 10, has been fixed as the date for the appearance of Premier Drury, of Ontario, and Hon. T. A. Crerar, before a Winnipeg audience to speak on the new national policy as advocated by the organized farmers of Canada. The meeting will be held in the Industrial bureau, recently the scene of meetings addressed by Hon. Mackenzie King and Hon. Arthur Meighen, and will be under the auspices of the United Farmers of Manitoba.

TWO BANKS CLOSE IN NORTH DAKOTA

Reserves Sank Below Required Limit; Marks Eight Banks Closed in Week.

BISMARK, N. D., Nov. 22.—Two more North Dakota banks closed today, O. F. Loftus, state bank examiner, announced. They are the First State Bank of Kildeer and the Security State Bank of Columbus. Mr. Loftus said his advices indicated the banks closed because their reserves sank below the required amount. This marks the eighth bank bank closed in the state in the past week for the same reason.

BISMARCK, N. D., Nov. 22.—Three more banks were added today to the string of North Dakota financial institutions that have closed their doors i nthe past six days, due to depletion of their reserves, which, officials say, is due to failure of farmers to meet notes held by the banks.

DUBLIN TRAGEDIES SPUR MILITARY AND POLICE TO DRASTIC RAIDING MEASURES

Activity Tremendous All Over Country; City Is Surrounded, Being Combed Out Systematically; Firing Incessant During Evening; Thirty Arrested at Cork; Child and Old Man Killed; Kidnapped Constable Released.

DUBLIN, Nov. 22.—There has been tremendous police and military activity in all parts of the country today. Raids, searches and arrests have occurred in all directions. This evening the city of Dublin is surrounded and apparently is being combed by the military and the police. There was incessant firing early in the evening. A boy of 10 years and a man of seventy were shot.

There was much firing in Cork tonight, but no fatalities have been reported. Raids by men in lorries were made at the Cork and Queenstown town halls, and the residences of the town clerks of these cities. Many documents were seized. Thirty arrests were made at Queenstown.

Other places raided included Formoy, Carrick-on-Shannon, Galway, Listowel and Clonmel. In nearly all these places documents belonging to the local councils were taken.

At Galway those taken into custody included Professor O'Brien and man ystudents of the college. Some houses in the vicinity of Galway were burned. George Murneghan, a well known North Ireland solicitor and prominent as a Sinn Feiner, was arrested at Omagh. Constable Ryan, who was kidnaped in Cork county, has been released.

LONDON, Nov. 22.—(Canadian Associated Press)—The moving scene in the house of commons over the recital of the Dublin murders and the stormy incident of the intervention of Joseph Devlin, were followed by further consideration of the Agricultural bill on report.

Premier Lloyd George, answering questions, said the trading agreement with Russia was not yet signed an dthe house would be given an opportunity for discussion.

REGINA, Nov. 22.—Among the three bills passed in the provincial legislature today was one which amends the Deserted Wives act, authorizing the maximum weekly allowance that may be ordered by a police magistrate to a deserted wife from $10 a week, as it stands now, to $20 a week.

FREIGHTER SINKS IN PRESQUE ISLE BAY

DULUTH, Nov. 22.—The ore freighter J. H. Sheadle stove a hole in her bow and sank yesterday in Presque Isle bay, four miles from Marquette, Mich., without loss of life, according to an unconfirmed report in shipping circles here today.

RESERVE JUDGMENT ON RAILWAY RATE SUSPENSION APPLICATION

OTTAWA, Nov. 22.—(Canadian Press)—Judgment was reserved this evening by the board of railway commissioners in the application of the Manitoba government for suspension of the railway rate increases granted recently by the board. Chairman F. B. Carvell, in reserving judgment, stated that the board would use every effort to deal with the matter promptly, and that its written finding might be expected before the end of next week. He stated that many of the questions brought before the board at the present hearing would be discussed in the judgment.

The chief commissioner also announced that there would be an exhaustive investigation into railway rates generally, along lines to be indicated in the pending judgment. It should, he said, be thorough and the board was prepared to do its utmost to make it so. If any injustice existed in railway rates, not only in the west, but in any part of the Dominion, it was desirable that it be eliminated. He suggested that, as many of the counsel were present who would doubtless appear during the investigation, that the date of the initial meeting be decided upon immediately. It was finally decided that a conference between the board of railway commissioners and all parties interested in the railway rates investigation shall be held in Ottawa on December 14, to determine the lines that the investigation shall pursue, and to decide on further dates.

F. H. Phippen, K.C., representing the Grand Trunk railway, and F. H. Chrysler, K.C., who appeared for the Canadian Railway association, spoke briefly before the case concluded. The former strongly objected to the contention that the Canadian Pacific railway should be made the basis for rate increases, and argued that such a course would discourage railway development in Canada. The board, he insisted, could not review conditions on the most prosperous railway in making rates. Mr. Chrysler took the ground that the order of the governor-in-council referring back the last judgment of the board afforded no ground for suspending the increased rates. He also insisted that a mere examination of tariffs could not possibly show whether or not a discrimination existed between rates in the east and west. Only an exhaustive investigation could do this.

G. R. Geary, K.C., corporation counsel for the city of Toronto, made a plea for a scientific readjustment of freight rates in Canada, pending such a judgment, he said, railway rates should have been left as they were before the last increase was granted by the board. The Canadian Pacific railway, he said, had been doing well in past years, and its records showed good surpluses and mounting dividends. It could very well stand a few lean years, while a full inquiry into rates all over Canada was being made. There was a public demand for fair rates.

The chief commissioner remarked that he had recently toured the west, and that on only four occasions had the subject of freight rates been brought before him. The people generally, he believed, were not objecting to the new rates.

Mr. Geary insisted, however, that there was sufficient public demand to have the whole question of rates reviewed. He was unable to agree with all that Mr. Symington had said regarding discrimination against the west in the matter of rates, but he said that if there was any unfair discrimination it should be righted after investigation.

The chief commissioner remarked that after the last rate judgment of the board was issued certain newspapers had decided that the judgment would provide the Canadian Pacific railway with a surplus of fifteen millions.

This, he said, was not the case, and was not stated in the judgment. What the judgment had said was that, if the railways got all they asked for the Canadian Pacific railway would have this surplus. But the railways had not been granted their full request.

Railways Argue Claims

Two witnesses were produced by the railways to prove that estimates made as to increased freight and passenger rates at the hearing in August were too optimistic. They were Assistant Controller Moule of the Canadian Pacific railway, and J. B. McLean, general auditor of the Grand Trunk. Mr. Moule's estimate in August was that there would be a twenty per cent increase in freight and a ten per cent increase in pas-

NEW ORCHESTRA MAKES ITS DEBUT

Enthusiastic Audience Welcomes First Performance of Symphony Orchestra.

A large and enthusiastic audience greeted the Nelson Symphony Orchestra's first public appearance, when they gave a delightful program in the Eagle hall last evening.

The program was well selected and each individual piece was afforded an artistic rendition.

Special mention, however, must be made of the selection from "Chu Chin Chow" in which the players were forced at several occasions to change from light fantastic to wierd, heavy or dramatic measures. The short passage in "The Cobblers Song,' by the saxaphones, excited special comment as did the violins, piano and orchestral effects in the "Robbers Song" of this piece.

Another difficult selection in which the orchestra did great credit to itself was in "La Traveata," by Verdi. In this operatic masterpiece the orchestra rose to the height of its laurels by its artistic execution.

In producing the incidental music to "The Merchant of Venice" the intermezzo "Portia" was a little too heavy for the audience. This, however, was immediately relieved by the second section, "Doge's March."

John Adams sang several selections which were highly encored. the "Little Side Car," song done in an Irish accent, was, however, the hit with the audience. He was accompanied by Miss Ina Steed.

Dr. W. O. Rose, M.P.P., was chairman, and in opening the concert stated that he considered it an honor to be called upon to act as chairman to the opening program of an institution whose aims were so high He then proceeded to give a brief history of the orchestra.

Ross Fleming, the conductor, is receiving many very flattering tributes.

After the program a dance was given to the delightful accompaniment of the orchestra. At midnight a table supper was served.

POLICE ROUND UP GANG OF THIEVES

Local Youths Effect Series of Robberies From Den on Stanley Street.

Out Sawyering Tom Sawyer and his companions in mischief, three local youths between the ages of 15 and 16, have, on their own confession, conducted a most modern and up-to-date robbers' cave, fitted up with stolen lumber, carpets, stoves and fittings, electric lights, secret panels, and buried treasure, all of which represented the results of their depradatory visits to private houses in the city and other buildings, and the possession of which will be the reason for their appearance in the police court this morning.

For about two months the gang has been under the surviellance of the city police, who yesterday, armed with a warrant made a search of a house on Stanley street in the basement of which the youthful adventurers in crime made their headquarters and stored their misappropriated goods. Silverware buried in the earth floor of the basement was brought to light, a camera, a shotgun, a revolver and ammunition were discovered, as well as other stolen material concealed in a secret panel built into the cellar wall. Two compartments had been made with stolen lumber and fitted with stolen doors and locks, heated from a stolen stove, and furnished with carpets. High powered electric lights stolen from the Presbyterian church and the skating rink flooded the place with light, the current for which was secured gratis by tapping the city's electric current wires.

No less than four residences had been entered by the youths, who were supplied with an abundance of pass keys, during the last few months.

The boys attributed their thieving and house-breaking habits to a wish, fostered in them by frequent visits to the movies, to emulate the works of fiction. After their discovery by the police the boys confessed to several robberies.

DO ALL MY HOUSE WORK

Before I took Lydia E. Pinkham's Vegetable Compound I could hardly get about.

Cobourg, Ont.—"For many years I have had trouble with my nerves and have been in a general run down condition for some time. I could not do my work half of the time because of the trouble with my monthly sickness. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good, and I strongly recommend it. Since I have taken it I have been able to do all my own work, and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELLEN FLATTERS, Box 761, Cobourg, Ont.

Why will women continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For forty years this good old fashioned root and herb remedy, which contains no narcotics or harmful drugs, has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

COUNCIL REJECTS QUIZ ON REVENUE

Turns Down Ald. McHardy's Plan to Question Candidates; Premier's Stand.

Reporting verbally to the city council last night on his recent trip to Victoria, as a member of a large deputation representing th Union of British Columbia municipalities, which waited upon Premier Oliver and Attorney-General Farris on the subject of new sources of revenue for the municipalities, Ald. C. F. McHardy stated that the premier's reply to the deputation was: "Gentlemen, I promise you nothing."

The deputation urged the proposals of the Union of Municipalities, which were that the government assume the cost and administration of the schools, and of the cost and administration of the hospitals, and grant to the municipalities a fair proportion of the proceeds of the motor vehicle licenses and of the amusement tax.

Ald. McHardy said the premier flatly refused to commit himself, either personally, or on behalf of the government, on any of these proposals, though the attorney-general was more responsive.

While a statement had appeared in the press that the premier had promised to give Vancouver $200,000 the coming year to supplement municipal revenues, Ald. McHardy said he had looked into that report, and could not find that there was anything in it.

The council adopted a vote of thanks to Ald. McHardy for his efforts.

A letter was read from the Ratepayers' association of Kelowna, proposing that all candidates in the provincial election be asked to state whether they would support or oppose giving the municipalities all the taxes on personality, a share of the motor vehicle license fees and the proceeds of the moving picture tax, and having the province assume a larger proportion of the school expenditure.

Ald. McHardy moved that the city council lay the question of new municipal revenue before the candidates in the Nelson riding.

This proposal was hotly opposed by both Ald. Mrs. W. G. Foster and Ald. J. O .Patenaude, both contending that such a move would be to inject the city council into politics. Ald. Foster also argued that it would be unfair to the candidates.

Ald. C. H. Bean said he didn't think the municipalities were getting a fair deal at present.

This remark brought strenuous objection from Ald. Patenaude who asserted it would be read in the paper next morning, and was capable of being used against the Oliver government for political effect.

Ald. A. A. Perrier also gave his voice against intervention.

Ald. McHardy held that his motion was an entirely proper one, and that candidates for the representation of the riding should be willing to state their views on the issue. He drew a picture of the sad case of Victoria, which had to provide facilities for an influx of population from its present revenue, the new population providing none.

Ald. McHardy's motion did not secure a seconder.

In connection with the influx of population into British Columbia for the winter, Ald. Foster advised taking measures, in the shape of warning prairie centers, that there was not work here for an unlimited number of new arrivals. She said many families were moving into Nelson with the hope of securing work, and the school population was rising steadily.

It was agreed to communicate with the outside world on this matter through police channels.

WEST ARM ASKS RATES ON POWER

City Council Instructs City Electrician to Report on Feasibility.

Possibilities of extending the city's electric power service to the north side of the West Arm for the benefit of the residents of that section who would put in electric lighting, are to be investigated by City Electrician G. T. MacGuire, as a result of a letter from Thomas Wilkinson, read at last night's city council session.

Mr. Wilkinson's letter was as follows:

"The ranchers on the northwest side of the lake are very anxious to secure light and power, and I have been asked to approach the council with a view to ascertaining what the chances are of obtaining an extension of your system. Would you kindly place the matter before the council, and instruct your city engineer to give us an estimate as follows: The probable cost of construction per mile, the minimum number of services required to make the system pay carrying charges, etc., the probable minimum charge for service, either for kilowatt or flat rate, and any information necessary to lay before a meeting which it is proposed to call as soon as the information is obtained, so that a petition may be signed which will carry with it the necessary guarantee and put the matter in concrete shape.

"We believe that an extension of power along the lake would add much to the revenue of the business men of your city, inasmuch as it would encourage people to locate along the lake and go into winter residence, encourage tourists and immigration, and add to the comfort and well being of the settlers and aid production. It is not reasonable to expect people to come here and settle along the lake which could be made a great asset to the city—and build up a strong prosperous and contented community, without doing what it is in our power to contribute to their comfort and prosperity.

"Competition is keen, and other districts are putting forth every effort to secure tourists and settlers. We therefore ask your hearty support and co-operation in our effort to assist in building up the community."

On motion of Alderman Mrs. W. G. Foster and C. F. McHardy, the city electrician was instructed to make an investigation on the lines suggested.

FIRE DESTROYS MERRITT STORE; ONE FATALITY

MERRITT, B. C., Nov. 22.—William Edwards received such injuries today in a fire which destroyed a newly-erected restaurant and store, that he died a few hours later in the hospital. Edwards, it appeared, had been attending the fire in the cook stove, when his clothing caught fire, and during his struggles the flames set the furniture on fire.

Michigan Central Shops Lay off More Workmen

ST. THOMAS, Ont., Nov. 22.—Another ten per cent of the employees of the Michigan Central shops were laid off today. Although the staff is being gradually reduced the men claim there is much unfinished work to be done. The older men see in the periodical reduction of the staff the possibility of the company making the piecework system a permanent institution in the shops.

UNDERWRITERS HANDLE KOOTENAY QUESTIONS

Various matters pertaining to the upper country were discussed at the session of the board of administration of the British Columbia Fire Underwriters, held at Victoria last week, according to Ald. C. F. McHardy, who returned from Victoria the end of the week. The board represents 195 board companies doing fire insurance business in this province.

Unlike most other kinds of service, fire insurance rates have been trending downward for the last four years, Ald. McHardy states, and expert opinion looks for a slight further decrease.

LIBERALS WILL INVADE KOOTENAY

Hon. William Sloan, provincial minister of mines and Mrs. Stanley Brown, of Vancouver, will address a political meeting in Fernie tomorrow night, and one here Wednesday night.

F. C. Congdon, of Yukon fame, will speak here at the end of the week, probably Friday.

Hon. P. D. MacLean will speak this week at Trail, Rossland, Grand Forks, and Greenwood.

GRAND FORKS SENDING COOPS

Prize List Is Out for Big Poultry Show Here; Extra Features Planned.

In staging the annual poultry show of district No. 8, on Dec., 7-9, the West Kootenay Poultry and Pet Stock association will have not only its own cooping facilities, and those of the fair board, but will have a large *consignment of the knockdown coops* of the Grand Forks Poultry association. The Grand Forks coops are already on the way here, according to a wire received by Secretary A. Wallach, and will increase the local cooping facilities by over 200 coops approximately. The Grand Forks association has also put in a case of its water cups in the consignment.

The prizelists have been issued, and are now in the mails. In addition to the regular prizemoney in the various classes, there are 48 special prizes donated by city councils, poultry associations, business firms, and *individuals*.

Entries close on Saturday, Dec. 4. All birds must be on the grounds by 10 o'clock on the night of Monday, Dec. 6, except those arriving by the night train, and for which the West Kootenay Poultry & Pet Stock association is responsible. All birds must have legbands, but must not be otherwise marked, and the same birds may be entered singly and in pens. The rules specify that only the judge, his assistant, and the show superintendent may be present while the judging is in progress.

In the course of the show, two or three public addresses will be given by Judge J. A. Lloyd, of the faculty of agriculture of British Columbia university, and a proposal is under discussion for a poultrymen's supper or banquet on one of the evenings.

WALDO FERGUSON HAS FIRST CRASH

Is Doing Month's Flying at Camp Borden; Flew Two Years Without Accident.

After flying in England for the last two years of the war, during the greater part of which he was an instructor, Waldo Ferguson, of Nelson had his first crash a few days ago at Camp Borden, where he was summoned on Oct. 20 to do the month's flying that Canadian air reservists have to do each year. An uneven landing ground was responsible for the wreck, from which he emerged uninjured.

Describing his experieces at Camp Borden, in a letter to his father, Ed. Ferguson, Lieut. Ferguson says:

"Borden is a large camp, having an area of 45 square miles. We have 18 large hangars. Barrie is only a few miles distant.

"I took a couple of dual flights at Avros, about 20 minutes each, to brush up a bit, and then went solo work for some days at Avros, and am now using a single seater scout, S.E. 5's, with a stationary engine. It has a speed of about 120 miles per hour. I am now in No. 1 squadron. I have never flown in one of these busses before.

"I had the first crash in my experience, on my first flight in this machine. I was making a landing, and had just touched the ground, and gave her the engine again to avoid a ridge in the drome. She swung to the left and did not respond to the controls. The left wing caught the ground, and she came down on her nose and crashed over upside down. My head just touched the ground. I crawled out and looked her over—she was certainly a writeoff, both wings, two ailerons, tail, and propeller smashed. I was pretty lucky *to crawl out of that mess without a* bruise. This is the first smash I have experienced—a very wonderful sensation, but too often would not conduce to good nerve control.

"On the whole we are having a splendid time—in the air every day, discipline not too strict, in fact pretty free and easy. We have a dance slated for the 26th and expect a car from Toronto and one from Ottawa.

"I will finish about end of month, and intend to spend a few days in Toronto before returning home."

FREDERICK RUFFLE TO BE TRIED ON FRIDAY

Appearing before Judge J. A. Forin at the sitting of the county court yesterday morning, Frederick Hardy Ruffle, of Fairview, the Park House Poultry farm proprietor, who is charged with obtaining money under false pretenses, pleaded not guilty, and elected for a speedy trial. The hearing was set by his honor for Friday morning at 11 o'clock. James O'Shea, of O'Shea & Farris, represented the accused.

SHRINERS BOUND FOR CRANBROOK

A large party of devotees of the Mystic Shrine arrived from the coast last night, and, reinforced by a contingent from Nelson, boarded the Crow boat, to proceed to Cranbrook, where some interesting proceedings are to take place. While in Nelson they were at the Hume.

The coast party included Potentate G. D. Christie, Recorder E. E. Leason, George Kirkendale and J. W. Hudson, Victoria; Frank McKee and George Marshall, Vancouver; Nels Nelson and James Welch, New Westminster; Dr. Anderson, Summerland and George Pickering, Penticton. Among those joining at Nelson were J. A. Kinney, W. E. C. Koch and A. McL. Fletcher.

Mrs. Lilian Taylor Tells How Cuticura Healed Her Baby

"Our baby was two weeks old when his face became very red and terribly itchy, and he was fairly crazy rubbing and scratching till the skin broke and bled. He could not sleep, and did nothing but cry. His face looked as though he might be disfigured for life.

"I thought I would give Cuticura Soap and Ointment a trial. I found the free sample so good that I bought more and two cakes of Cuticura Soap and a fifty cent box of Cuticura Ointment healed him." (Signed) Mrs. Lilian M. Taylor, Box 99, Bracebridge, Muskoka, Ont., Dec. 30, '18.

ELECTORS WILL VOTE ON FAIRVIEW ADMISSION AND ON WARD SYSTEM

Ald. Foster Will Mother the First Bylaw, Ald. McHardy Will Father the Second; Litigation is Threatened Over Vernon Street Retaining Wall; City Will Take Expert Advice; Provisional Grant to Fair Board.

Without any loss of time, the electors of Nelson will have the opportunity to decide the issue of whether or not Fairview is to be taken into the city, the city council last night deciding that a bylaw should be submitted to the voters at once. This was after a letter was read from William Douche, secretary of the Fairview ratepayers committee, advising the council that the required 51 per cent of the property—within the area proposed to be taken in—lot 58A and part of lot 96—had legally consented. Mr. Douche was present in person and supported his report verbally. The tabulated consents were submitted as an exhibit merely, and in a few days will be on their way to Victoria.

The bylaw will stand in the name of Ald. Mrs. W. G. Foster, who gave formal notice of its introduction for the next council meeting.

Another bylaw will be submitted to the electors at the same time on the initiative of Ald. C. F. McHardy, who has been holding in reserve his proposal to abolish the ward system, so that it could be placed before the electors at the first bylaw election. He gave notice of the introduction of a bylaw on these lines, for the next council session.

Lights for the Bluff Road

A petition from 14 residents of Selwyn street, Pine street, and Union street, all but two of the number residing within the area that may be taken into the city, requested the placing of lights on the road above the hospital, which connects park street with Selwyn street, and is the main highway between the city and most of Hume Addition. This petition was referred to the fire, water and light committee.

The council decided to accept an offer of $200 from T. H. Waters & Co. in settlement of an old account of Waters & Pascoe.

An offer of $1060 for the old Royal hotel property was accepted.

Bylaws to give effect to these two bargains will be introduced at the next session.

Donaghy, Brown & Dawson wrote asking the setting aside of the late tax sale, in so far as it affected a property of D. J. Robertson. It was stated Mr. Robertson had given a check for the payment due from him on Sept. 1 for consolidated arrears, but that the bank had not honored it. On the morning of the tax sale, it was stated, Mr. Robertson had money in the bank to cover the check, but by the time City Clerk W. E. Wasson was notified of this fact, the sale had taken place. In due course the property was certified to the land registry office as having reverted to the city, and as being open for redemption.

Inquiry established that the delinquency which caused the property to be sold was $244.61, but that, under the terms of the act, it was sold to the city for the full amount of taxes owing, which was $688.60.

As the council has refused many other persons whose property had been sold in circumstances where the late owners were unaware of what was going on, similar requests, the mayor and aldermen went into the matter very carefully to see if this case was essentially different from the others.

The fact that the city actually had Mr. Robertson's check, even though it was not covered up to the day before the sale, was regarded as perhaps giving a claim that did not exist in the other cases, and it was agreed to have the city solicitor give his opinion on the matter. It was stated that the law only permitted sales to be revoked in cases where there was "manifest error."

Vernon Street Protection

Donaghy, Brown & Dawson also raised the matter of the retaining wall on Vernon street, which Paul Nippou, manager of the Nelson steam laundry, claims the city undertook to construct to protect his building, the law firm suggesting that the city council state whether or not it would build the wall, so that the firm could advise its client what steps should be taken.

Ald. A. A. Perrier said W. M. Cunliffe was also threatening legal action against the city over the same matter, as affecting the warehouse of the Nelson Iron Works.

A long discussion ensued, in which Mayor McDonald was reminded by many of the aldermen. Ald. Foster being the first, that the work had been started, but that he had stopped it, it being stated that he must accept responsibility for the delay.

The mayor admitted stopping the work on the proposed cement wall, but argued that after the council had agreed "over his head" to proceed with it, he had not again interfered.

Ald Foster wanted the legal aspects gone into with the city's solicitor, and Ald. C. H. Bean wanted the engineering points gone into with the city's consulting engineer.

Ald. Perrier said it would have been out of the way if the council had had its way, but after a $200 crib had been put in the mayor had taken Mr. Rock off the job.

A disagreement arose between Ald. Foster and the mayor over the latter having recently laid off five men who were on street work, two of them returned men, and over the statement of the mayor that certain work could not be done as the city now had few men on street work.

The mayor contended that about five times as much street work had been done as in ordinary years, and at less cost. He also accused Ald. Foster of destructive criticism.

Ald. Foster said the mayor was often urging the aldermen to forget differences of opinion and cooperate. She asked the mayor himself to cooperate in this instance by permitting the fixing of the hospital road.

On motion of Ald. Foster, a special committee was authorized to take up the concrete retaining wall matter with the city solicitor and the consulting engineer, to bring in a final recommendation as to the city's course. The mayor named Aldermen John Bell, A. A. Perrier and C. F. McHardy as this special committee.

Fair Board Finances

A financial statement from the fair board was before the council, in connection with the board's request for a grant to help meet the deficit on the late fair.

On motion of Ald. McHardy, it was decided to make the board a grant of $250, provided the board succeeded in raising elsewhere $500, the total sum to be applied to the payment of prize money.

Those present at the meeting were Mayor J. A. McDonald and Aldermen C. H. Bean, J. O. Patenaude, C. F. McHardy, A. A. Perrier and Mrs. W. G. Foster.

A. V. Carlson, president of the Nakusp Lumber company, was among arrivals yesterday.

Cecil Taylor, who has been spending the summer months at Revelstoke, has returned to the city.

Mrs. H. F. Young, of Rossland, accompanied by her niece, Miss Moffatt, of Detroit, spent yesterday in Nelson.

Francis A. Talman, who has been very sick and confined to the hospital at Salmon Arm, is expected home in a few days.

L. H. Choquette has received a wire from Edward Lahair, of Escanaba, Mich., formerly of Nelson, announcing the death of his six year-old daughter, Patricia. The family left Nelson for Escanaba four years ago.

H. P. Riley, president of the Western Grocers company, spent Saturday and yesterday in the city looking over the local house of the company. He left on the Kettle Valley train last evening.

WITCH DOCTORS OF CHINA.

In spite of having a well-equipped mission hospital in the city of Saichow, China, where men and women can receive the best of medical care and treatment, the native doctor or witch still flourishes. He sits at the street corner and the ignorant Chinese flock around him, especially on market or festival days. No method, however painful or drastic, deters the believers in his powers of healing—indeed they expect to be made to suffer acutely in order to "expel the original pain." Or they are held up to the ridicule of the mob because their disease portends the possession of an evil spirit.

Are you naturally attractive?

WHERE can you find a more pleasing picture than a group of young, healthy, vigorous girls playing tennis?

Alert, quick to think, and quick to act, their faces aglow with enthusiasm and radiant with health.

How many there are, however, among our growing girls of whom this cannot be said. You see them sitting on the side benches looking on, or lolling around in a listless, careless manner, and, as a rule, irritable and nervous.

Nature intended women to be strong, and healthy and happy as the day is long. MILBURN'S HEART AND NERVE PILLS have proved so beneficial in such a multitude of cases, that they can be recommended without hesitation.

They give sound, restful sleep, tone up the nerves, make the heart beat regular and strong, create new red blood corpuscles, and impart that sense of buoyancy to the spirits that is only possible when enjoying mental and physical vigor.

Mrs. Fred Lee, Almonte, Ont., writes:—"My oldest daughter was so bad for over a year, with her heart and nerves, that she was compelled to give up her work. I was very discouraged about her, as I had her to two doctors, but they did not seem to do her much good. She could not sleep at night, would have to walk the floor, and felt as if she would go out of her mind. One day a friend told me to use Milburn's Heart and Nerve Pills, and I cannot speak too highly of them. She used three boxes and is feeling fine, and started back to work again two months ago."

No Money for Roads, but—

The stock answer to criticism of the Oliver government for its failure not only to build new roads but even to maintain those constructed prior to 1916 is that there is no money. Yet money is found to pay Dr. Baker, a Vancouver dentist who was appointed head of the game department, $300 a month salary and an additional $300 a month expenses, as well as supply him with an automobile which is maintained at the expense of the people. There is also money to enable the president of the Rutland Liberal association to make a $9600 rake-off on the sale of the Christian ranch, which was abandoned as useless after the government had spent nearly $90,000 on it.

Naturally it is hard to find money for building roads and carrying on constructive work when the revenue is being wasted in expenditures such as these.

Irish Finances

The financial arrangements under the home rule bill are exciting considerable comment, favorable or unfavorable, depending on the viewpoint of the critic on the Irish question generally. The balance of Irish revenue over expenditure this year is estimated at £22,250,000, but the government proposes to require from Ireland a contribution of only £18,000,000 and to make Ireland a free gift of the land annuities, valued at £3,250,000 a year. With other items, Southern Ireland will have a surplus revenue of £7,000,000 and Northern Ireland a surplus of £2,250,000. Moreover, the treasury will grant at least £1,000,000 for the two parliament buildings that will be required. The government will insist on retaining the control of customs and excise and of the income tax in Ireland. The Six-County area would pay 44 per cent of the total Irish contribution.

WHAT THE PRESS IS SAYING

Old Customs Die Hard

The whipping-post, once a familiar sight, along with the stocks and pillory, in every considerable New England town, has long been tolerated by statute in this country only i nthe state of Delaware, as "every school boy" knows. And the statute is very far from being a dead letter. The statute indeed provides for the imposition of lashes in addition to jail sentences at the discretion of the trial judge and there is not a trial judge who has not imposed a whipping sentence. Between thirty and fifty men are whipped in the state yearly, and whipped publicly; that is, residents of the state are permitted by law to witness the ordeal if they wish. The stripes are laid upon the victim's bare back with a cat-o'-nine-tails, which, however mildly applied, raises red welts upon the skin.—Springfield Republican.

The Royal Marriage Law

The engagement of Admiral Sir Adolphus Fitz-George, the late Duke of Cambridge's second son, and a recent widower, his wife having died in February, to Margarita Beatrice, daughter of the late Mr. John Watson, of Waresley Court, Worchestershire, reminds one what a curious thing the royal marriage law is. Our Royal Family does not possess the morganic rule as it has been understood on the Continent, but in some ways it is even stricter. For instance, the marraige to Miss Fair-

ANSWERED LETTERS

Interested Reader: I sent your recent article on "Just How to Bake Bread" to a cousin of mine who lives across the country and she says she tried making bread by it but the result was rubbery. Yet I get fine results from the same recipe. my loaves are not all rubbery. What makes this difference?"

Answer:The water in your cousins' part of the country must be very hard. Write her to use all milk in the recipe instead of half milk, half water. (The recipe calls for 1 pint of milk and 1 pint of water, but she should use 1 *quart of milk and no water). If she* will do this she will have no further trouble.

Business Girl: The desk at my office has two wide cracks in it and I can't work happily when things about me are in a state of unrepair. How can I fill the cracks? The janitor has a varnish with a stain it it with which he says he will re-varnish my desk if I can fill up the cracks. Can you help me?

Answer: Putty is generally used to fill up cracks, but chewing gum formed into a long, thin roll (roll it between the hands) and wedged into the cracks, will do just as well.

Sunday School Teacher.: Recently I saw in your column a "hint" from another Sunday School teacher about some party she gave, and this gave me the idea that you might answer an inquiry from me. My pupils are supposed to read their Bible daily, the numbers of the verses they are to read being given in the lessen-leaflet each sunday in advance. But they have no time, with school work, to look up the place in the Bible where they are to read each day. What would do? I have thought of offering a prize to the girl who, at the end year has done the most Bible reading—but can't think just how to work this plan.

Answer: I have given quite a little thought to your problem and have worked out this plan: Take six slips of paper and write on one slip, "Monday's Reading," on the second slip, "Tuesday's Reading," and so on until you have put all the days of the week *(except Sunday) on the slips.* Call a week's set of slips "bookmarks". Give each girl a set and insist that each bring her Bible to Sunday School and, right there, before you start the lesson, make them all hunt up the Bible verses they are to read each day, putting in a slip for each day's reading. I think you will find that if the girls have only to open their Bibles and read, each day, instead of spending time to hunt up the verses, they will fulfill their duty, I would also suggest that you advise them to do this reading at night before going to bed, when they are not in a hurry. I do not believe in giving a prize for a thing which should be done from principle. Talk to the girls, pointing out that if they form the the habit of reading their Bibles now, their entire future lives will be enriched, forever after, when they face life's problems, they will always naturally turn to the greatest source of wisdom and comfort in the world— the Bible.

Emerge From Their Caves

Summon an international conference and a ceartain type of Englishman creeps out fro mhis obscurity to bask and chirp in its presence. It is a strange phenomenon and one worthy of scientific consideration. It is difficult to define this interesting type, but we all know or at least have all read about them in these recent peace, these Englishmen are always anti-English. They are not anti-English for pecuniary or vindictive motives; they are so because they cannot help themselves—London Morning Post.

The Latest Petty Graft

Although railroad officals are primarily responsible for the reported refusal of some employees at Middle States ticket offices to make reservations on the best trains except for those who pay extra fees it may be said that the public is partly to blame for such petty grafting. Passengers who are asked for gratuities are not obliged to pay them; it is their business to report the holdups to the higher officals and to insit upon the stopping of the practice. Publicity is the best remedy for the abuse.—Providence Journal.

REGISTRATION OF VOTERS ON MONEY BYLAWS.

To The Editor of The Daily News,

Sir:—I wonder if your readers who are property owners in Nelson realize the significance of the notice that was published in the News lately regarding getting on the voters' list before the end of November??

I had no reason to believe that my name would not appear, as I have had an infeasible title to my property for more than a year, and have been on the list for several years However, on looking over the list this morning I found that my poroperty was not listed in my own name. I take it that what could happen to me may happen to a number of people. As at least three important bylaws will be voted on the coming year, it seems to me rather a pity that anyone owning property in the city and so morally entitled to a vote which involves the taxation of that property should be disqualified for a legal technicality.

NELSON'S GUNS.

To the Editor of The Daily News:

Sir:—As an old time resident of Nelson for 15 years, I must say, that I was rather shocked the other morning, on looking out of the window of the Hume hotel, while having breakfast, and noticed the very indifferent way in which the captured German guns presented to the city of Nelson, as a trophy of bravery of those who enlisted from here, were treated.

I immediately got busy, and through the kindness of Messrs Lambert, Amas, C. F. McHardy, Alex Leith and R. Andrews, I was enabled to employ several returned men out of work to put these guns up out of the mud, and have them oiled. And as a returned man I trust the citizens of Nelson will immediately take steps to provide them with a permanent home for all future generations to look at.

WONDERFULLY HEALED by Zam-Buk—Doctors Advised 'Skin-Grafting' Operation.

As an example of genuine gratitude, the letter of Mrs. Currie, of 194, Waterloo Ave., Guelph, Ont. is notable.

She says:—"One day baby fell out of his high chair on to the stove and got severe burns under the chin. The child suffered terribly and though I called in the doctor his treatment brought the child no relief. I consulted another doctor, but was told that skin would have to be grafted.

"Then I sent for a box of Zam-Buk. After using this soothing herbal balm a short time a wonderful improvement was noticeable. In less than three weeks, the child's burns, although so severe, healed perfectly without leaving any trace of a scar."

TRAIL SMELTER EMPLOYEE KILLED

Earl Kennedy Accidentally Gets Into Ore Bin and Is Suffocated.

TRAIL, Nov. 22.—Earl Kennedy, a man 18 years old in the employ of the Consolidated Mining & Smelting company here, while breaking down ore in an ore bin about 7 o'clock this morning, so that it would enter the chute into a car, accidently got into the ore and was suffocated. An inquest was held by Coroner Thom later a verdict of accidental death returned.

The man in charge of the crew of which Mr. Kennedy was a member, not noticing the accident, but discovering Mr. Kennedy was missing from his post, shortly after 7 o'clock, instituted a search. The body was found with little delay, but life was extinct. During the last few months a number of narrow escapes from similar accidents have been reported.

It is thought that as the ore is of a clayey nature, Kennedy, contrary to instructions, climbed onto the ore to pry it loose and was precipitated into the bin by a cave-in of the ore and that other ore falling on top of him, he was buried and smothered.

Try The Bitro-Phosphate Health System

NEW YORK. If you are feeling run-down, weak, nervous, tired-in-the morning, and generally ailing, these are the symptoms that should warn you to take care of your health.

Four persons in every ten are needing more phosphorous in their bodies. When you see thin and fretful people; or those who are anaemic, pale, frail, oft despondent or lacking in energy, you may look for the need of certain elements that make for a strong constitution.

Some people, after relying upon preparations composed chiefly of salts, quinine, drastic drugs, iron calomel, cod-liver oil, etc., wonder whiy they find no benefit. That is easily explained by the fact that such persons need the phosphoric element, which is a most potent essential to health, and contained in BITRO-PHOSPHATE, the famous health preparation. Now obtainable everywhere.

The right thing for you to do is to make a trial of BITRO-PHOSPHATE beginning at once. It is not a patent medicine; the formula is prescribed by many physicians for the ailments and weaknesses mentioned above.

Buy a box of BITRO-PHOSPHATE. It is sold and recommended by all good druggists everywhere.

DEWDNEY TAKES ROSSLAND BRANCH

Succeeds Mr. Lafferty as Manager of Bank of Montreal; An Old-timer.

ROSSLAND, Nov. 22.—E. E. L. Dewdney has been appointed manager of the Rossland branch of the Bank of Montreal. He succeeds G. A. Lafferty. Mr. Dewney lived here for five or six years prior to the war, and was for a time accountant in the branch to which he now comes as manager. The "Dewdney" trail, which passes close to Rossland, and was used for many years by prospectors and miners in bringing in supplies to the Rossland mining camp, was built by Mr. Dewdney's uncle, the late Hon. Edgar Dewdney, ex-lieutenant-governor of British Columbia, who was engineer in charge for the government at that time.

Mr. Dewdney entered the service of the Bank of Montreal as a junior at New Westminster in 1897. He was later promoted to positions in Victoria, Rossland and Vernon, and in 1915 he was appointed manager of the Greenwood branch. In the following year he took over the management of the New Denver branch, and has remained in this position until his present appointment. Mr. Dewdney is much interested in out-door sports. He was the winner for three years of the Rossland Tennis club cup, open singles, presented by ex-Lieutenant-Governor C. H. Mackintosh; the winner for one year, 1911, of the Nelson Tennis club cup, open singles, and the winner, with C. F. R. Pincott, Rossland, of men's open doubles at the Kootenay tennis tournament held at Nelson last September.

Consolidated Company Appoints Crowe to be Permanent Barrister

TRAIL, B. C., Nov. 22.—R. C. Crowe, Barrister and solicitor, of Trail, has accepted a position as general solicitor for the Consolidated Mining and Smelting company and will discontinue his private practice of law, in future attending to the business of that company only.

A graduate from the University of McMaster, at Toronto, as Bachelor of Arts in 1910, the newly appointed solicitor for the Consolidated company, studied Law in the city of Vancouver and after being called to the bar became a partner in the well-known firm of Woodworth, Fisher & Crowe of Vancouver. In November, 1915 Mr. Crowe opened a Law office for himself in the city of Trail, where he has had a good practice with Trail and Rossland citizens during the last 5 years.

The many friends in this district of the Trail barrister will be very glad to learn of this appointment, which must be considered as a well-merited promotion, in consequence of his assiduous work in connection with the large amount of legal work handled by him for the company in the past two or three years, and more particularly in connection with the smoke litigation which is now in a fair way of being finally settled, through the arbitration proceedings about to come to trail.

RESERVES JUDGMENT

(Continued From Page One)

senger rates for the last half of 1920, as compared with the same six months in 1919. These figures, he said, would have to be completely revised.

For the Grand Trunk, Mr. McLean stated that he had estimated a betterment of 15 per cent in freight and five per cent in both freight and passenger rates as compared with the last half of 1919.

Submitting a detailed statement showing a freight traffic comparison for the latter half of 1920, as compared with the same period in 1919, based upon the number of revenue producing cars handled by the Canadian Pacific railway, Mr. Moule stated that, while in July the increase had been over 23 per cent it had fallen to slightly over 13 per cent in October. He estimated that the showing for the remaining month of the year would be worse.

The company's gain traffic earnings for October, 1919, were 24 per cent of the gross freight earnings, while in 1920 they had decreased to slightly over 23 per cent.

Coming to a comparison of the passengers carried, one mile, Mr. Moule stated that July showed an increase of four per cent, August a decrease of over two per cent, September an increase of nine per cent and October an increase of 13 per cent.

Still another statement submitted by Mr. Moule covered estimated earnings and expenditures for 1921 and anticipated a deficit for next year of $415,000.

Mr. Moule said that since August there had been a depression in business which would probably be felt by the railways during the first half of next year. Returns so far received he said, indicated a falling off in sleeping car earnings since the new rates became effective.

Sleeping Car Rates Too High

Mr. Carvell said he had got the impression that sleeping car rates were too high for the travelling public.

He suggested that the increased passenger and Pullman car rates should not be continued after Jan. 1.

Mr. Tilley thought that in view of the prospective deficit in 1921 the new rates should, on the contrary, be allowed to stand until such time as the returns show a reduction to be justifiable.

Business Bad in East

Under cross-examination by Mr. Symington, counsel for the Manitoba government, Mr. Moule said that owing to the fact that the British government is not purchasing Canadian wheat, the movement eastward to Port McNichol is not as large as it was last year. The movement to Fort William had been heavy, however, and the grain was in the elevators to come eastward when the market is restored. It would not be possible to more more over eastern lines than last year. Mr. Moule agreed that business is bad in the east but observed that if western wheat is not sold, the purchasing power of the west will be affected and the east will suffer. The western lines of the Canadian Pacific railway had maintained their percentage of earnings.

Justifies Order

W N. Tilley, K.C., counsel for the Canadian Pacific railway, defended the order of the board. The order, he said, was amply justified on the showing made by the Canadian Pacific railway, and he felt that the railway commission had proceeded on the assumption that the Canadian Pacific railway figures were the basis on which rates should be figured. The opinion of the C.P.R. was that the order did not go far enough.

Anticipate Deficit

That the elimination of the present rate increases would have produced a deficit of $18,400,116, was the conclusion arrived at in a statement submitted by Mr. Moule.

A further statement was submitted to show that even with the present rates continued in force until the end of the year, the Canadian Pacific railway will have a deficit of $1,935,790. Estimated net earnings were placed at $38,057,540, while fixed charges, pension funds, income tax, dividend requirements, etc., will exceed that amount by nearly two millions.

GIRLS ACTIVE IN IRISH DISORDERS

Run Arms and "Spot" Houses for Assassins in Dublin on Sunday.

LONDON, Nov. 22.—Girls played a prominent part in yesterday's scenes in Ireland, according to reports reaching London this afternoon.

A motor car driven by a nurse, Linda Keerins, which was proceeding towards Dublin late Saturday night, was held up near Sligo and the car was found to contain ten rifles, four pistols and much ammunition.

Another report said the men who did the shooting Sunday morning evidently were strangers in Dublin and some of the squads were led to "spotted houses" by girls.

Three of the assassins of British officers in Dublin Sunday were captured red-handed with their arms, it was annonuced in the house of commons this afternoon, by Sir Hamar Greenwood, the chief secretary of Ireland. One of the assassins, had been wounded, he added.

WOMEN AND CHILDREN BURN IN FARM FIRE

QUEBEC, Nov. 22.—Further details of a farm house fire at Padoue, Matane county, yesterday, in which two women and seven children were burned to death shows that a lighted lamp being filled with oil fell on the floor and exploded. The flames spread with great rapidity and cut off the retreat of the inmates to the door. They ran up stairs but could not are: Mrs Alphone Thibeault and five children; Mrs. L'Italienne and get out of the windows. The dead two children.

Mr. Thibeault was filling the coal oil lamp when it slipped from his hands. He rushed through the smoke and broke all the windows so as to give the smoke an outlet and then tried to rescue his faimly, but was driven back by the flames.

TORONTO'S BREAD TO BE CHEAPER FROM TODAY

TORONTO, Nov. 22.—The price of Toronto's bread will be reduced one cent commencing tomorrow, according to announcements made today by local bakers. One baker stated that he would sell for 11 cents a single loaf, which is at the rate of 10 tickets for one dollar and ten cents.

Takes Measures to Assist Newfoundland Fishermen

ST. JOHNS, Nfld., Nov. 22.—The Newfoundland government is taking active steps with a view to preventing serious loss to the fishermen of the colony as a result of the prevailing low prices for fish.

A great amount of fish caught off the Labrador coast during the last season and cured at Newfoundland fishing ports, remains unsold. This is explained as largely due to the fact that because of differences in the exchange rates and other abnormal conditions, there has been a very poor market in the Mediterranean ports, which ordinarily absorbed most of the Labrador product.

FILES DIVORCE SUIT

CINCINNATI, Nov. 22.—Mrs. Anna M. Chase today, in this city, filed suit for divorce from Hal Chase, former first baseman of the Cincinnati and New York Nationals under indictment in Chicago in connection with the alleged fixing of the 1919 world's series.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

WOOL MARKET

OTTAWA, Nov. 22.—The wool market report for the week ending Nov. 18:

The London wool sales have reopened and prices for fine wools have advanced 10 to 15 cents, with a drop of 10 to 15 per cent for average lots, and a decline of 15 per cent to 25 per cent for inferior offerings. The Ohio Wool company pool reports sales of 250,000 pounds of fine Delaine. The price was not made public, but the best opinion places it at 52 to 53 cents. The Bradford market is reported to be quiet with prices tending downward. The Boston market is showing very little interest in the New Zealand sales which opened at Christchurch on Nov. 15.

There was little or no trading in Canadian wools during the week. The Canadian trade is no doubt suffering a period of inactivity as a result of the recent lowering of the British government reserve on medium cross-bred wools, and the decline in prices at the Adelaide sale.

DOMINION LIVESTOCK

TORONTO, Nov. 22.—Cattle receipts 4878; trade very dull; prices steady for anything choice. Common to medium stuff steady to a little weaker in price in places. Good cows and bulls a little stronger. Trade in feeders was fairly active at prices a little better than last week's close.

Calf receipts 232. Trade steady. Tops 18 cents; very mew choice veal calves were offered.

Sheep receipts 5388. The bulk of lambs sold at 11 cents to 11½ cents, but a few went at 11¾ cents.

Hog receipts 2352. Prices unchanged.

WINNIPEG, Nov. 22.—During the week the receipts in the yards were 4839 cattle, 485 hogs and 342 sheep. Receipts up to 9 o'clock this morning were 2300 cattle, 160 hogs and 395 sheep, with 160 additional cattle on through billing.

Quotations:

Sheep and lambs—Good sheep, $4.50 to $6.00; common sheep, $2.50 to $3.50; good lambs, $7.00 to $9.00; common lambs, $5.00 to $6.50.

WHEAT PLUNGES ELEVEN CENTS

CHICAGO, Nov. 22.—Paralysis of general business led to a collapse of 11½ cents a bushel today in the price of wheat. The market afterward rallied, but the close was semi-demoralized, 2½ to 9 cents net lower, with December $1.60 to $1.60½, and March $1.55 to $1.56.

Corn gained ¾ to 2⅛ cents, and oats lost ¼ to 1⅛ cents.

In provisions there was a setback ranging from 57 cents to $1.50.

MONTREAL LIST

MONTREAL, Nov. 22.—Most of the stocks traded in today on the local stock exchange began the day with higher levels, which were maintained to the close, sentiment being helped at the close by the strong upturn in New York. The market was, however, not active and offerings were light. The least inactive trading was in the Spanish Rivers, Abitibi, Riordan, Brompton and Sugars.

The paper stocks showed a continuation of Saturday's improvement, all the issues traded in showing a net gain for the day except Howard-Smith. St. Maurice and Spanish River preferred. The first named lost a point; St. Maurice was down 22 points from a sale on Oct. 7, and Spanish River held steady at the week-end close. Abitibi was up a point and Riordan up 3½ points. Laurentide and Brompton gained two points each, and Wayagamack 2½.

The seels were weak to steady and the utilities were more or less neglected. Prominently weaker issues were Carriage Factories, which made a new low for the year at 8, and Sugar, which was fractionally lower at 21¾. Total sales, listed, 5195; bonds, $40,000.

SUGAR REGISTERS DROP

MONTREAL, Nov. 22.—Today the price of sugar registered a further drop, wholesalers offering it at 11 cents less 5 cents cash, and the retail trade selling at 12 to 13 cents.

STOCK MARKET TURNS CORNER

Whole List Shows Disposition to Throw off Acute Depression of Recent Days.

NEW YORK, Nov. 22.—The stock market today "turned the corner" in the vernacular of the speculative element, the list almost as a whole manifesting an unmistakable disposition to throw off the acute depression of the last three weeks.

This improvement, extending from two to almost 10 points in many issues, was accomplished in the face of renewed unsettlement in other markets for leading staples, notably grain and other food stuffs.

Events over the Sunday recess were mainly helpful to the recovery of stocks. Local federal reserves strengthened, call money dropped to 5 per cent, the lowest quotation in many months, after opening at 7 per cent, and it was generally believed that many impaired accounts had been "taken over" by strong interests at private settlement.

Foreign exchange also indicated conditions abroad, although London reported further distrust over the outlook for commodities and contraction of trading securities growing out of the situation in Greece.

As was to be expected, today's greatest gains were made by issues of recent weakness in the steel, equipment, oil and shipping divisions. The more conspicuous net gains included Crucible Steel, 8⅞; Mexican Petroleum, 8¼; Pan-American Petroleum, 5¼; Baldwin Locomotive, 4⅛; American Locomotive, 3; Retail Stores, 5; Tobacco Products, 5⅛, and Reading, 3½. Sales amounted to 1,100,000 shares.

Convertible railway bonds benefited chiefly by the rise in stocks and Liberty issues also closed at gains. Total sales, par value, aggregate $13,850,000. Old United States bonds were unchanged on call.

Egyptian Women Take Interest in Education

LONDON, Nov. 22.—Egyptian women are at last beginning to take an interest in public affairs, particularly in the schools. Viscount Milner in his report as High Commissioner of Egypt says that no change which has taken place in that country in the last few years none is more striking than the awakening interest of women in affairs outside of the home.

The commissioner added that a few years ago it was rare to find a mother showing a direct personal interest in the welfare of her daughter at school. All this was left to the father who often had to overcome the mother's opposition to the education of her daughter.

"During the last few years these larger towns where mothers now visit the schools and discuss their daughter's progress with the head teacher," said the report.

This change is attributed by the High Commissioner largely to education and he predicts that its influence will be potent on the future progress of educational development in Egypt.

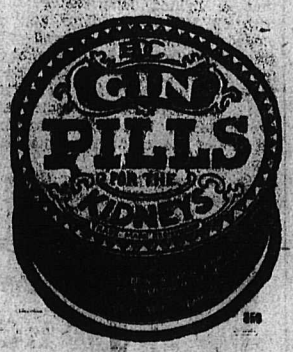
WEDDING QUEUES IN GERMANY

No amount of prospective taxation prevents young people marrying in Germany, writes a correspondent. A recently married acquaintance tells me that when she went to her district registrar to make inquiries about the civil ceremony, she was told by that official that there were two quarters-of-an-hour vacant in the ensuing month, and that she could take her choice. He and his assistants, he said, were booked up for weeks ahead. "Marriage queues" outside the registry offices are to be seen daily, whereas food queues have vanished. German Nationalists, advocates of an increasing birth-rate applauded the courage of the young people and tell the Government to appoint more registrars.



Correspondent Penetrates Moorish Inland Secret City

LONDON, Nov. 22.—(Canadian Press).—The Morocco correspondent of The Times claims to be "almost with certainty" the only living European who has hitherto visited Sheshawan, the mysterious "secret" Moroccan inland city which is officially stated to be occupied by a Spanish expeditionary force.

Sheshawan, or more correctly, Shestawan, he writes, is a small town of a few thousand inhabitants situ- of Tetuan. The times man says he Zejel, about 40 miles to the south ated in the tribeland of the Beni visited it in Moorish disguise in 1888 and only escaped with difficulty.

He adds that the town is small, built along a sort of terrace on the high mountain side, and is renowned for its springs and streams. With the exception of its picturesque situation among mountains, its aloofness and its surrounding gardens, Shestawan presents no very particular features.

Its inhabitants are poor. Their industries are the making of furniture in painted wood—bracelets and tables—and the weaving of wollen stuffs. They are renowned for their meanness, and a native proverb states: "If you see a Moslem merchant from Fez weeping, it is only a Moor of Shesawan who could have got the better of him."

TO BE DYSPEPTIC

IS TO BE MISERABLE

The poor dyspeptic suffers untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Becknorth, Fesserton, Ont., writes:—"I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

GOLF CLUB HOLDS ANNUAL MEETING

Banquet, Business and Dance; Reports Show Sound Progress.

The Nelson Golf and Country club held its annual meeting last night, at the Hume hotel, the business being sandwiched between a banquet and a dance.

Sixty-five members sat down to the banquet, at the conclusion of which James O'Shea, as president, took the chair and opened proceedings.

Secretary C. W. Appleyard presented the financial statement, announcing that $1425 had been received in fees and that no dues were outstanding. The total receipts he said were $1,572.45. There was a credit balance at the bank of $60.99.

Proceeding to the election of officers, G. A. Potter, as captain, C. T. Archibald as vice-captain and John Fraser as auditor, were unanimously elected.

For the 10 directors, 14 names were submitted and put to the ballot, resulting in the choice of C. W. Appleyard, E. C. Wragge, A. Leith, John Cartmel, J. H. D. Benson, L. McBride, Dr. E. G. Smyth, James O'Shea and G. A. Potter.

In the course of an address President James O'Shea referred to the terms on which the club held the ground, namely, practically as tenants of the Nelson Golf and Country Club, Ltd., which leased the grounds to the club at a nominal rental of $1 per annum. The club had spent a good deal of money on the grounds, which were in the nature of permanent improvements, and in view of that the company had subsidized them to the extent of $450. In coming years they would increase the rental as the club became more and more established.

He was sure the club was now an assured financial success, and they were looking to make further improvements, steps towards which already taken were, leasing the orchard, grounds on favorable terms, clearing grounds for extension and getting the telephone and possibly electric lighting installed.

Mrs. A. L. McCulloch, for the house committee, detailed the finacial operations of that committee, and reported a credit balance of $60, and a probability of another $100, which she recommended should bo towards installing the telephone. A dance had been mooted and the house committe had secured Eagle hall for Dec. 30. She hoped the incoming committee would take advantage of that booking.

T. G. Nelson, C. T. Archibald, William Gosnell, Alex. Leith, John Cartmel, A. Higginbotham and other speakers referred in eulogistic terms to the pioneer work done by C. W. Appleyard and E. C. Wragge and on the motion of W. J. E. Biker, it was ardered that an appreciation be written into the records of the club—"as a matter of history," said Mr. Biker.

Mr. Biker also proposed a vote of thanks to the ladies. It was carried by acclamation.

President O'Shea dwelt on the beauties of the course, and of the game, both of which had extracted admiration from distinguished golfing visitors. Major Bruce, who was a visitor during the season, had given a donation of $20 to provide two prizes during next year.

William Gosnell, later in the evening, announced amid applause, that he would give $25 for prizes.

Votes of thanks were generously passed to the retiring directors, the secretary, C. W. Appleyard ,and the various committees.

All agreed it was an excellent scheme to precede business with a banquet.

The evening closed with a most enjoyable dance.

Following is a list of those who attended.

ALL IN TRIM FOR WINTER HOCKEY

TORONTO, Nov. 22.—The Canadian Hockey association issued the following statement today:

"No claim has been made regarding Holmes or Lehman of the Coast league. Rickey is on his way east from Seattle and will be here the end of the week. Wilson will report Nov. 20. Only five players will be taken from the west No attempt is being made to wreck Patrick's league.

"There is more than enough material in the east available and though many players at the coast were desirous of coming here, negotiations in most instances were not carried beyond the initial stage.

"The report that Heffernan will not be with the C. H. A. is incorrect. It is not advisable at the moment to give out a complete list of the players who have signed, accepted terms, or are available, but from 24 to 30 required for the three teams."

Practice will commence Dec. 6th.

AT THE THEATRES

"Experience is Coming"

"Experience," George V. Hobart's modern morality comedy drama, will be presented by F. Ray Comstock and Morris Gest at the Opera House next Monday night. This play is now in its seventh year of success. It contains a little of everything, and is a blending of musical comedy, a bit of drama, a dash of "Pilgrim's Progress," and a touch of farce comedy.

Mr. Hobart has taken as his theme the journey of Youth, the average young man of today, through life, and dressing it in most modern garb, setting it in the gilded joy places and the sordid vice dens of today, has told the story of Youth's adventures in the big world. The curtain rises on a pastoral scene in the land where Dreams Begin, with Ambition. Youth is discovered taking leave of his sweetheart, Love to go with Ambition into the great wide world to seek his fortune. He leaves Love in the good care of Hope and sets forth on his pourney. Arriving in the great city, his first meeting is with Experience, who becomes his companion and the one acquaintance who never leaves him.

Pleasure meets him next, and with her coming Ambition ceases to retain his hold on Youth, and Experience's kind advice is tossed aside as worthless. Opportunity calls, but is unable to obtain a hearing, and then, following Pleasure along the Primrose Path, Youth becomes acquainted with Travel, Sport, Frivolity, Deceit, Slander, Pride, Wealth, Passdion, Intoxication, and a host of others.

From the gay night life in the Golden Cabaret on the Primrose Path of Pleasure, Youth steps into the Corridors of Chance, where he loses all his worldly wealth playing roulette and then his path goes downward. On he goes to the House of Lost Souls, into the Street of Forgotten Days where he is saved from Crime by the never-failing miracle of a mother's love, and goes back at last to the Land Where The Dreamer Awakens where he meets Love and Hope and again finds Ambition.

The cast engaged is exceptionally strong. It will be given here by the same company that plays Calgary, Vancouver, Seattle and Winnipeg.

ASKS QUESTIONS ON SUBSIDIZED NEWS

Public Events of Importance Hitherto Sent Condensed Are Cabled.

LONDON, Nov. 22.—(Canadian Associated Press)—Percy Hurd, in the house of commons today, asked whether any fresh arrangements were being contemplated with Reuter's agency for the continued transmission of subsidized news to Canada and other parts of the empire, and if so, what is the character of the news to be subsidized, the amount of public money involved, what contributions would be made by the other governments of the Empire, and the terms of the arrangements.

Colonel Avery, under-secretary of state for the colonies, in reply, said the only news service at present in operation to which the government contributed to is one to the Union of South Africa, the colonies and proctorates of East Africa, Malaya and Hongkonk, which had been approved up to December.

The cost approximately is two-thirds paid by the overseas governments, and one-third by the Imperial government. The news re-states events of public importance which in ordinary circumstances were to be sent only in a condensed form.

In regard to Canada, the government would be glad to see the news service from the United Kingdom improved. There is reason to think that the Canadian government takes a similar view. Various discussions have taken place, but no arrangements have been arrived at.

WILL PRESERVE HISTORIC YPRES

Permanent Memorial to British Troops Is Under Consideration.

LONDON, Nov. 22.—(By Mail Canadian Associated Press).—E. Wood has addressed a question to the prime minister in the house of commons asking whether he is aware that considerable anxiety evists in this country as to the permanent preservation of the remains of the Cloth hall at Ypres as a memorial to the historic defence of the town during the late war by British and Imperial troops, and whether he can state what steps, if any, have been taken by his Majesty's Government to approach the Belgian Government in order to secure this object.

Lloyd George in a written reply, says: The Belgian Government have agreed temporarily to leave the Cloth Hall, the cathedral and the ramparts of Ypres in their existing state pending formulation of a scheme by the British Government for the erection at Ypres of a memorial to the troops that fought there. As announced by the financial secretary to the war office on June 14, the question of the erection of national memorials has been referred by the cabinet to a committee presided over by the Earl of Middleton. This committee has made certain recommendations which include the re-building of the Menin gate at Ypres, and I hope to be able to make a fuller announcement before long.

REVEALS TRADES UNION ANOMALY

Bar Against Other Than Skilled Unemployed Brings Building to Standstill.

LONDON, Nov. 22.—(By Mail, Canadian Associated Press).—Why is there such a shortage of housing accomodation? Dr. Addison, Minister of Health, in an article in a recent issue of the Sunday Times attempts to give the public some explanation of hundreds of thousands of families being without a home of their own. He admits that while plans for houses have been passed exceeding in number a quarter of a million, yet the houses themselves are only fourth coming in driblets.

In the first place the Minister of Health points to the decrease of skilled workers in the building trade. Between 1910 and 1914 the number of bricklayers had shrunk from 116,000 to 74,000 joiners, masons and workers in subsidiary trades had shrunk in a like proportion. Building in the war years practically ceased, the workers being transferred to munition making.

"There are not enough men in the trade to do the work; that is the first fact," continues Dr. Addison. "There are thousands of men outside the trade who are out of employment; that is the second fact. Somehow or other these two facts with the Trade Union bar.

The minister goes on to indicate how the Government have attempt negotiations with the building trades on this matter especially in regard to payment for time which men lose owing to wet weather. He admits that unemployment has been the bugbear of the trade in the past. The contention is that if the personnal is to be unduly inflated now, unemployment will be even more rifle when the present demand is satisfied.

Sectionally Tyranny

Moreover, the house-building is only one side of the demand; the reconstruction and expansion of industrial buildings, though for the moment subsidiary, will prolong the demand for labor still further.

"In the fact of the national demand for houses in the face of the widespread of unemployment among ex-service men and others, can any trade union maintain its restrictions? Can one class, one trade, permanently stand in the path of the community, and in its own class interest bar the way to progress, prosperity, and re-settlement? The state which will submit to such action is saddling itself with a sectional tyranny."

Grand Trunk Stock Holders Want to Know Their Position

LONDON, Nov. 22.—(By Mail Canadian Associated Press).—Holders of the Four per cent Debenture stock of the Grand Trunk Pacific Railway says the Times, have been awaiting with some anxiety to know exactly how they stand under the agreement for the exporation of the line by the Dominion Government. Some ing their stock, judging by the selling their stoc, judging by the fact that it stands at only 45-50, as compared with 55-58 for the four per cent Guaranteed stock of the Grand Trunk Railway, although the latter price includes only about six months' interest, whereas Pacific Debenture stock carries interest arrears as from February 1919.

The difference of course, is that the position of Trunk guaranteed stock has been determined in a way that admits no doubt, while there is still uncertainty as to the Dominion government's attitude towards Pacific Debenture stock, although the agreement provides for the taking over by the Government of the whole liabilities of the Grand Trunk Pacific. The informal committee that has been watching the interests of the stock has been staying its hand awaiting the return from the other side of the Atlantic of Sir Alfred Smithers, the chairman.

Harvard-Yale Game Today

NEW YORK, Nov. 19.—The Harvard-Yale game, the last of the great eastern inter-varsity football classic, is the outstanding contest of tomorrow's gridiron schedule. Regardless of the two defeats which mar the Eli's record and the tie game registered between Harvard and Princeton, interest in the annual battle of the crimson and blue transcends that centered in any of the other games which go to make up Saturday's football card.

FIRE IN QUEBEC DESTROYS STORES

QUUEBEC, Nov. 21.—The stores of Marconi & Company, and the F. W. Woolworth company on St. Joseph street, were destroyed by fire early today while the stores of the Paquet company and J. B. La Liberte suffered smoke damage. The total loss is over half a million dollars. One fireman, Frazer Papointe, was severely burned.

Surely, you want to keep well right through the winter.

YOU don't want to suffer with an ulcerated throat or inflamed tonsils. You don't want to be bothered with a racking cough that is disagreeable all day and that keeps you awake at night. You don't want to be in bed for months with pleurisy or pneumonia.

If you wish to keep well, realize at once that a cough is a dangerous, insidious disease, which should be stopped at its very outset, and not allowed to develop into anything more serious.

An ounce of prevention is indeed worth many pounds of cure, in the case of a cold.

DOMINION C. B. Q. TABLETS are the ounce of prevention that prevents a cold from developing into tonsillitis, bronchitis, or pneumonia.

These tablets contain Cascara, Bromide and Quinine in a pleasant form; are mildly laxative; relieve headache and neuralgia; and break up a cold in a few hours.

MACDONALD'S CUT BRIER

¶ MACDONALD'S "BRIER" has become a Canadian institution. Smoked by the men who made history. In the bush, on the trail, in mining camps, prospectors' huts, factory yards, on trains, steamships, in the luxurious homes and downtown clubs of our Canadian cities—Macdonald's has always been recognized as *the* smoke.

¶ MACDONALD'S CUT "BRIER"—the same tobacco but in new form—maintains every Macdonald tradition since 1858, and gives to smokers—*more tobacco for the money.*

Men's Overcoats
20 to 25% discount—every overcoat in our stock remarked at revised prices. Everything is marked in plain figures in both the old and revised prices.

As a rule this store tries to avoid sales, especially at this season of the year. Market conditions, however, at present are so unusual that we decided to unload our clothing stock. We see nothing whatever at present to warrant the wholesale slaughter as advertised in some papers, and up to today we have not offered any clothing at a lower price than we have paid for our present stock. We are taking the chance, and if we cannot replace them at lower prices we are the losers and you are the gainers. Judging by the results of our first day's sale this is the opportunity the people have been looking for. We honestly believe you will not be able to buy clothing of the quality we are selling at as low a price next spring as we are offering today.
