BROAD POLICY IS ENUNCIATED BY CHIEFTAIN

Mr. Bowser Would Assist Mining Development by Lifting Bans.

HOLD BALANCE JUST ON LIQUOR

Returned Men to Have Every Chance; Record of Social Legislation.

Before an audience that filled the opera house last night, W. J. Bowser, leader of the opposition, outlined the policy of the Conservative party in regard to the encouragement of mining, the administration of the liquor question, the help the government should extend to the soldier settlers, and other broad features of party policy.

Declaring that all the advanced social legislation for which the Oliver government claimed credit, and on which it made its appeal for the support of the women, was either enacted by, suggested by, or supported by the Conservative party, he evoked ringing applause.

The Conservative chieftain also declared the first act of the new government would be to cancel the reserves on coal, iron and oil fields, and outlined the Conservative policy toward the soldier settlers, two of the fixtures of which were quick determination of loan applications and long time for repayment.

President C. D. Blackwood, of the Conservative association, occupied the chair, and Dr. W. O. Rose, the Conservative candidate, and C. R. Hamilton, K.C., and Captain H. P. Armstrong spoke, the last two very briefly. J. A. Irving and J. E. Annable were also on the platform.

Met at the wharf by the Conservative reception committee, Mr. Bowser was driven to the opera house by J. A. Irving, with the Kilties band as an escort. When he appeared on the platform, in the midst of Dr. Rose's speech, the symphony orchestra, which had given selections, struck up "For He's a Jolly Good Fellow."

Receives Ovation.

Commencing to speak before 10 o'clock, Mr. Bowser was received with a storm of applause, and explained that his train had been delayed because of the amount of liquor that had to be transhipped, a considerable amount being still in circulation in spite of Mr. Farris' enforcement of the Prohibition act. A good deal of it was going to the Boundary. He himself was going there later. (Laughter).

"You have seen a lot of the government lately," he said. "You did not see much them for four years, but they are buzzing around now." The reason was extremely obvious, the election making the government suddenly solicitous for this section.

Mr. Bowser said he would not go into the reasons that led to the retirement of his government four years ago, but, viewing it from the standpoint of public benefit, he thought it was a good thing that adverse had come to him, as it gave the people a chance to contrast the four years of Liberal rule with the 13 years of Conservative rule.

Recalling the crimes of which he said his government had been accused, hardshell Liberals no doubt had not expected to see him at liberty in 1920 (laughter). But he was still free, and there were fights for him yet. Though the Liberal government had had an expensive inheritance of the late government's jokes, it was a failure in so far as there was quest for evidence of wrongdoing. Not one dollar administered by his government was shown to have gone astray.

He was not going to charge the present government with misapplication of public funds, but he would charge it with having been uneconomical and wasteful in its administration.

Oliver's Financing.

Premier Oliver's manifesto, Mr. Bowser said, was a million of meaningless words. The premier started out by speaking of the government having extricated the province from the finacial slough in which the late government had left it. This was not an accurate statement of the case.

Not a single loan effected by the Oliver government had been placed on as good terms as the last loan of the late government. (Applause). After the late government effected a certain loan in New York, Britain and France effected loans at a higher rate of interest than that that British Columbia had secured. One loan the Oliver government claimed particular credit for was on the face of it placed at an advantage, but what were the facts? It was sold to brokers in Seattle, who resold it in two days at a discount, owing to the exchange.

Mr. Bowser congratulated Nelson on the choice of Dr. Rose, who was the type of men of whom the Kootenay would furnish several, energetic and able, that he wanted to help him at Victoria. With these young and able legislators to help him, he would be in a position to give the province a strong government. It was said of him by the

Arrest Irish Member of House of Commons at Trinity College

DUBLIN, Nov. 10— Lieut.-Col. L'Estrange Malone, Liberal member of the house of commons, was arrested tonight by a staff officer inside Trinity College where Col. Malone had gone by invitation to speak in a debate on Bolshevism at the College of historical societies.

PARALYZES SINN FEINERS FINANCIALLY

British Raids on Banks Choke off Money Supplies; Activities Subside.

LONDON, Nov. 10—(Toronto Star Special Cable)— Britains paralysing blow at the Sinn Fein was directed at its pocket book according to the Irish office today.

The office declared there was a marked absence of Sinn Fein activity following bank raids in which records and funds were located. Steps have been taken to cut off the supply of money from America also, the report said.

A report of the Sinn Fein minister of finance showed £22,607 set apart for the "self-determination" fund. It also showed £200,000 (nominally $1,000,000) had been received from America in subscriptions to the Irish republican fund. A fund of $2,995,643 was also shown to be on deposit in New York.

Art O'Brien secretary of the Irish Self-Determination League, declared British raiders seized £20,000 from one bank, but that the amount was made good to the Sinn Fein by the banker who had the funds in charge.

Raid Newspaper

CARRICK-ON-SHANNON, County Leitrim, Ireland, Nov 10—A party of men, who are said to have been wearing khaki uniforms, raided the offices of the Leitrim Observer here last night. They entered the premises by force, held up the proprietor and his sister with revolvers, wrecked the machinery and printing plant, smashed furniture and then set fire to the building. The flames, however, were extinguished.

The windows of a jewelry store belonging to the brother of the proprietor of the Observer, were shattered with revolver bullets.

Clash at Ballyboy

DUBLIN, Nov. 10.—A motor lorry containing policemen, with its escort, had a sharp clash last night near Ballyboy, with a party of 100 men, who had barricaded the road. No casualties were sustained by the police.

One constable has been killed and another wounded by armed men near Ballybrack station.

Irish Crime Statistics

LONDON, Nov. 10.—Crime in Ireland increased largely immediately after the funeral of Lord Mayor MacSwiney, according to the latest statistics which record 99 serious crimes in the week ending Nov. 6, as compared with 69 the previous week and 80 for the week ending Oct. 23.

Nine police barracks were damaged or destroyed; twenty-four raids were carried out on the mails and four Sinn Fein raids for arms. Ten policemen were killed, twenty-four wounded and eleven others shot at. Three soldiers were killed; one was wounded and twelve shot at. Forty-five arrests were made for outrages or political offences.

Since the first of January 106 policemen have been killed and 218 wounded; 32 soldiers have been killed and 90 wounded.

Hockey League President Defends Amateur Status

CALGARY, Nov. 10.—Allan McCaw, president of the Big Four Hockey league of Alberta denied the charges made by Frank Patrick of Vancouver, today that players of the Big Four this year and last year had been paid. Mr. McCaw said:

"I have no knowledge of any player in the Big Four either last year of this year receiving money for his services."

Patrick's charges caused a stir in sporting circles here today. The howl from Patrick was expected, since his source of supply for amateur players for the pro game has been robbed.

AUSTRALIAN CITY REFUSES TROPHIES

LONDON, Nov. 10— (Can. Assd. Press)—Australian cables report that city council of Sydney, which is mostly made up of labor elements, has refused to accept the offer of war trophies from the federal government, and will take no part in the conference for their distribution

SAN FRANCISCO, Nov. 10.—Reports that the trading schooner Polar Bear was trapped in the Arctic ocean ice with its crew in danger of starvation, were denied here today by the Alaska Siberian Fur company, owners of the boat. The company said the Polar Bear has put into the Kolyma river, Siberia, for the winter.

IRISH THREATEN ENGLISHMEN IN UNITED STATES

Embassy Calls Attention of States to Threatend Counter-Reprisals.

THREE TO SUFFER FOR EACH REPRISAL CASE

No Reply Yet Received of States' Intentions in the Matter.

WASHINGTON, Nov. 10.—The British embassy announced today it had taken steps to call the attention of the United States state department to a message recently received by the British chief secretary for Ireland, dated New York, and threatening reprisals against Englismen living in the United States, "if there are any more reprisals in Ireland on and after the fourteenth day of November."

The New York message was sent in the name of the Amalgamated Irish Societies of America and bore the signature of "J. V. O'Connor, president."

At the state department it was stated nothing had been received tonight from the embassy in relation to the message. No comment as to the course the Washington government might pursue was available.

The New York message as published by the embassy, reads:

"We hereby inform and warn you that if there are any more reprisals in Ireland on or after the fourteenth day of November, 1920, that the men of Irish blood in this country and their sympathizers will immediately begin reprisals on Englishmen here who are hot citizens of the United States. For every man, woman or child, who is murdered after the above date by the cowardly English soldiers and police, three Englishmen in this country will be paying penalty. Amalgamated Irish Societies of America."

(Signed) J. V. O'CONNOR, President."

JUGO-SLAVS ACCEPT ALL CONDITIONS

Italian Claims Are Admitted; Agreement Is Virtually Concluded.

BULLETIN SANTA MARGHERITA, Italy, Nov. 10—It is reported that Anton Triumbitch, head of the Jugo-Slav delegation who have been conferring here with representatives of the Italian government for a settlement of the Adriatic question, had accepted all the Italian claims. Certain, members of the Jugo-Slav delegation stated this afternoon that an agreement had virtually been concluded.

According to these advices, the principal points in the settlement are as follows:

First—The Austrian frontier practically decided in favor of the Jugo-Slavs.

Second—Fiume to be independent, with territorial continuity to Italy.

Third—Zara under Italian suzerainty.

Fourth—The islands of Cherso, Lusin and Unie granted to Italy.

Premier Giolitti will sign the agreement tomorrow on behalf of Italy.

Premier Leaves for Conference

ROME, Nov. 10.—Premier Giolitti tonight left Rome for Santa Margherita, where representatives of Italy and Jugo-Slavia have been conferring, in an effort to solve the Adriatic problem.

There was a general fear in Rome that the negotiations were about to be interrupted, but this has been replaced by an optimistic view, as it is argued that the premier would not take such a long journey unnecessarily, especially when parliament was sitting.

Accepts Resignation of Industrial Commission

VICTORIA, Nov. 10—Major Don Martyn today sent in his resignation as industrial commissioner to Premier Oliver. Major Martyn has been nominated as the Liberal candidate in Dewdney. The resignation was accepted.

REDS BREAK THROUGH WRANGEL'S OUTWORKS

SEBASTOPOL, Nov. 10—The third Red division has broken through General Wrangel's outer works at Perekop, but the situation is not regarded as serious.

STEAMER ARRIVALS

Empress of France at Liverpool from Quebec.

Corsican at Havre from Montreal.

Lapland at Southampton from New York.

Arrest Policeman Who was Scared to Tackle Bank Robbers

MORDEN, Man., Nov. 10.—George H. Heibert, the policeman at Winkler, who was afraid to tackle the burglars who robbed the bank there a few weeks ago of some thousands of dollars, and got away, was arrested today on a warrant of four separate charges in connection with that robbery. He appeared before the local magistrate and was remanded for a week, being allowed out on bail of $2000.

FORESHADOWS CONSIDERABLE IMMIGRATION

Calder Anticipates Industrial Break in Britain and Consequent Emigration.

MEDICINE HAT, Alta., Nov. 10—Irrigation was no more a problem for the federal government in respect to the actual construction and operation of irrigation systems than was Ontario's hydro-electric a federal matter, said Hon. Arthur Meighen, in addressing this afternoon a luncheon gathering of Medicine Hat citizens.

The premier declared that after the federal government had spent more than one million and a half dollars on elaborate surveys of the irrigation projects, the responsibility for constructing and administering the works rested with the local districts and the provincial government on any arrangement they desired to make. The prime minister pointed out that the federal government had done much for the western provinces which was not done for the east. In the administration of forest reserves and national parks and in other respects.

"While the principle of natural resoures being totally controlled is best," he said, "these resources in Canada have been administered for the benefit of the people of the provinces and only to a small extent has the Dominion government had any revenue from them."

The prime minister losed with a denunciation of class prejudice as "the most fatal and disastrous appeal that can be made by a public man."

Hon. J. A. Calder praised the owrk of the western Canada colonization association. The old homestead possibilities in Western Canada were about exhausted, he said, and land now open for settlement was privately owned. It was impossible for the government to bring in an individual settler and put him in touch directly with the man who had land to sell. The work of the department of immigration and colonization had been devoted very largely to publicity but there was no department in the organization to take care of the intending settler and put him in touch with the owner of the land. In this work, he believed, the colonization association could do very valuable work and if sound policies were laid down and fully executed, he had no doubt that very valuable work would be done.

Mr. Calder said immigration to Canada this year would reach about 200,000 as compared with the peak of 350,000 in one pre-war year. The new settlers were better selected than ever before. He was inclined to think that there was going to be a break industrially in Great Britain and the United States within the next year or two, and if this occurred he believed the subsequent unemployment would cause a very large immigration. To handle the proportion of this immigration which Canada was sure to receive, his department has been reorganized and it was ready for whatever number might come.

OFFICIALS MEET IN SECRET CONCLAVE

Ontario Conference Believed to be on Re-organization of Temperance Act Staff.

TORONTO, Nov. 10—Hon. W. E. Raney, attorney general, Mr. J D. Flavelle, chairman of the board of the Ontario license commissioners, and Chief Inspector Ayearst held a two-hours conference at the parliament buildings today and at its conclusion the secrecy was still maintained as to the subjects under discussion. The suggestion that a reorganization of staff officers enforcing the Ontario Temperance act was in contemplation, was neither denied nor affirmed, but Hon. Mr. Raney, in commenting on the liquor situation, said:

"We feel that there has been considerable improvement in the enforcement of the liquor law, but there is still much room for improvement. This is to be expected when you realize that there are thousands of persons in a position to break the law who have to be watched."

CONSERVATIVES ENTER CANDIDATES TO CONTEST EVERY CONSTITUENCY AT COMING PROVINCIAL ELECTIONS

One Hundred and Fifty Take the Field, Including Three Women; Twenty-nine Seek Suffrage for Six Vancouver Seats, and Ninenteen for Victoria's Four; Labor Candidate Withdraws From Nelson Nomination; No Elections by Acclamation; Range of Choice Includes Conservatives, Liberals, Farmers, Soldiers, Labor and Socialists.

VANCOUVER, Nov. 10—Nominations in 39 constituencies for members of the British Columbia legislature to be voted for on Dec. 1. were made today throughout the province. Approximately 150 candidates have entered the lists for the contest, representing the Conservatives, Liberals, Farmers, Soldiers, Labor and Socialists. There were no elections by acclamation today and in most of the ridings at least three and sometimes four candidates are offering. In Vancouver city for the six seats 29 candidates of the various parties are appealing for support, while in Victoria 19 are in the fight for the four seats. Hon John Oliver, premier and Liberal leader has accepted nomination in both Victoria and Delta ridings. W. J. Bowser, the Conservative leader, is running in Vancouver. Three women are seeking election, Mrs. Ralph Smith, Liberal, and late member for Vancouver; Miss Edith Patterson, a barrister, nominated by Vancouver Conservatives, and Mrs. E. Crossfield, running in Vancouver as the nominee of the women's Liberty league.

The Liberals under the leadership of the late Hon. H. C. Brewster went into office following the defeat of the late administration in 1913 and after the death of Mr. Brewster a year later, Hon. John Oliver succeeded to the premiership.

EXPLOSION WRECKS BIG FREIGHTER

Oil Tank Blows Up Without Warning at New York Pier; Crew All Safe.

NEW YORK, Nov. 10— After a spectacular race against time down the Hudson river, surrounded by puffing tugs and fire boats and with flames licking about her forward decks, the burning Morgan line Freighter El Mundo tonight lay beached on the Communipaw flats, near Ellis island, out of the way of harbor traffic.

Flames which started from an explosion in her forward fuel oil tanks shortly after three o'clock continued to burn briskly, sweeping the freighter from bow to stern.

The ship, a craft of 10,000 tons, is almost a complete wreck. All members of the crew of the ill-fated vessel, which arrived here from Galveston, last Monday, with a general cargo, have been accounted for. Eight of the deck hands were reported seriously burnt.

More than a score of longshoremen and members of the crew were unloading the vessel at the Southern Pacific pier, when the fuel tank, containing several thousand gallons of oil, blew up without warning, hurling men in all directions and carrying away a section of the deck.

Sprayed by burning oil, many workers on the pier had narrow escapes from being burned to death. Several also had their clothes blown from their bodies by the force of the blast, which shook the waterfronts for blocks

DESPERADOES TAKE CHARGE OF SHIP

Mutiny on High Seas; Assault Captain; Throw Passenger Through Skylight.

SYDNEY, N. S., Nov. 10—Forced to abandon her voyage north by four huskies, who it is alleged, smashed the ship's fittings, assaulted the captain, defied the crew and maltreated the passengers, the coastal steamer Aspy docked at North Sydney Monday night bringing an amazing tale of mutiny on the high seas.

Two men named McLellan and another named McEachern from Meat Cove, took passage north on the steamer. It is reported they were intoxicated and failed to understand that the steamer does not go to Cape North until Tuesday.

In their disappointment, they attacked Captain York, threw a passenger named Christiansen through the engine house sky light, and assaulted an old man named Donovan, and generally took charge of the ship.

From Britton Cove, the captain telephoned the North Sydney police and then turned his boad around and steamed back. After a tough fight, the men were arrested.

TODAY SOME MOTHER'S SON FROM THE SILENT HOSTS AT YPRES WILL FILL AN HONORED GRAVE IN WESTMINSTER ABBEY

LONDON, Nov. 10—(Toronto Star Special Cable)— Some mother's son who fought, died and then was buried as unknown, came back to England today to be buried with a field marshall's honors.

The body, picked at random from among the silent hosts at Ypres, will be buried tomorrow in Westminster Abbey, where it will rest with the remains of British statesmen, rulers and warriors.

Whether the oaken casket which arrived here today from France contained the remains of English, Scotch, Irish, Welsh, Australian or Canadian warrior was not known. No attempt was made to identify the body in any way. Every mother who lost a son with the British forces could feel that this might be her boy.

The body arrived in Boulogne yesterday, where it was received with the highest honors, French and British troops participating in the reception.

Marshall Foch and General Weygand were among the dignitaries at the embarkation of the soldier's body for its trip across the channel aboard the British destroyer Verdun.

LONDON, Nob. 10—A large reverend crowd gathered in the Victoria station tonight to pay respectful homage to the unknown warrior whose body will be buried in Westminster Abbey tomorrow while King George dedicates the permanent cenotaph in Whitehall in memory of "our glorious dead." The transfer of the soldiers body from the torpedo boat destroyer Verdun at Dover, and the entraining of it for London were performed with an impressive military ceremony in the presence of the mayor and corporation of Dover. A salute was fired as the train started for the capital.

LONDON, Nov. 10.—The Incorporated Society of Authors is sending its secretary, G. Herbert Taring, on a mission in connection with questions of copyright to Canada.

France Wants Her Colonies Recognized in League of Nations

GTNEVA, Nov. 10— Claim by France that he assembly of the League of Nations should accord the French Colonies the same right of representation as have been accorded to the British dominions, will be made when the assembly of the league convenes here on Nov. 15.

It is recalled that Leon Bourgeois, the French representative at the time of the adoption of the covenant, expressed the hope that the assembly would accord France the same treatment as Britain in this respect.

Geneva is already crowded by representatives and others who will attend the congress. It is expected that at least 41 of the 45 member nations will be represented.

offers you HEALTH when all other systems have failed, and the remarkable results are obtained for the following reasons:

1. Nerves regulate and control every action and function of the body.

2. Displacement of vertebrae (small bones of the spine) causes pressure on nerves.

3. Pressure on nerves causes abnormal functions in the part supplied by said nerve—this is called disease.

Chiropractic Spinal adjustments remove the pressure and health returns.

If your life is worth anything your health is worth a few minutes investigation of this HEALTH SCIENCE.

BROAD POLICY IS ENUNICATED BY CHIEFTAIN

(Continued from Page One)

Liberal manifesto that his would be a one-man government. But he thought the people thought with him that it would have been a good thing if a man of his type had been in charge of the attorney-general's department the last two years instead of Mr. Farris. (Hear. Hear.).

Outlines Plans on Moderation

Mr. Farris' administration of the Prohibition act, the speaker said, was of such a weak description that words could hardly be found to describe it. The government was now pursuing the same course in regard to the Moderation act. Instead of making public the intended provisions of the act, and asking the public to be the judges at the election, it pursued a course of indecision. Did the people want Mr. Farris to administer the Moderation act, or the present speaker (Hear! Hear!)

Some persons said the province in the recent plebiscite voted wet—he said it voted decent! (Applause). The act to be drawn should pursue a middle course, not going to either extreme, but once drawn, it should be strictly enforced. (Hear. Hear!) When he chos the officials to enforce it, he would choose no Findlays, John T. Scotts or Cooks! Why was it that the Oliver government had more absconding officials in four years than the previous government in 13? *Because they appointed the* wrong kind of men in the first place.

Dr. King's Road Map

Mr. Bowser next took up Dr. King's road administration, and referred to the map he had shown in the legislature with his road policy outlined on it.

"There were roads on this map," said Mr. Bowser, "that will not be built in a million years" One of these was a motor road from Port Essington to Hazelton, where there were not 10 persons living

Mr. Bowser said a project that Dr. Rose had pressed for in the legislature in session and out of session was the Ymir road. The late administration, in a time of depression, and with many settlers' roads needed, did not feel justified in building the Ymir road. Lately, however, there had been a great lumber development in the Salmon valley, and there was now urgent need of this road, to serve the district already developed. The Dominion government had given a great grant to the provinces for roads, and he understood this road was in the classification that would permit it to be built with the aid of ha. grant.

Conservatives' Mining Policy

The government had talked of reducing the price of coal to the consumer. But, by putting a reserve on new coal fields, it sent up the stock of existing companies, and confirmed their monopoly.

Then a reserve had been placed on the iron lands. Next a high board fence was built around the oil fields.

In these various operations, the government took care of its friends. The next step might be to put a reserve on the quartz mine.

Who founded the Kootenay mining industry? Who discovered the underground wealth of Rossland hill? The hardy old prospector, not any government! When it came into power, the new Conservative government would cancel these reserves, and would put into effect a policy of helping the prospector.

Mr. Sloan was a paper legislator, and had put many schemes on paper. But where were the smelters, the steel mills, and the other industries that were to arrive from his plans? Not one had come into being and most particularly not the sampling plant that the Kootenay wanted.

When he came to choose his minister of mines, Mr. Bowser said, he would not choose a man from a coal town on Vancouver Island. He would choose a man from the Kootenay, the home of mining.

Pioneers in Social Legislation

The first mention of mother's pensions, Mr. Bowser said, was in the platform adopted by the Conservative convention held in the Hotel Vancouver, last year, when the party pledged itself to enact a measure providing for such pensions. The government, not previously interested in the matter, grabbed this plank and enacted it, giving the credit to Mrs. Ralph Smith, though the act came into force and the money was available on April 1, no checks were issued until Oct .1, when an election was in sight.

Next came the minimum wage measure for girls, which the Conservatives supported. *This had two* defects, however, in that it only applied to certain trades, and in that it was being beaten by some department stores, which, though included in the classification got around the minimum by employing girls for less than a month at a time. It was proven in the house that some girls on the staff of the labor department were receiving less than the minimum the government was willing to prescribe for other employers.

When the late government was in office, the Liberals offered violent criticism on the subject of the widow's dower, and when they came into power K. C. McDonald fathered a resolution of the house declaring in favor of the principle of dower. This resolution, as soon as passed, went into the waste paper basket, and not until the last session did Attorney-General Farris introduce a bill, giving a widow the right to go into court and fight the heirs for one third of the property. The only effect of this act was to increase the number of lawsuits. Eventually there would be a proper dower act, and it would be placed on the statute books by the Conservatives.

The government was making a great attempt to mislead the women into believing it should be credited with giving them the franchise. But the bill to enfranchise them was drafted by the speaker when attorney-general, and was submitted to the people by referendum at the same time that the late government went to the country. *It carried.* The new government however, before it could be declared carried, as part of the overseas vote was still uncounted, jumped in and rushed through its own act. The original at was actually carried by an overwhelming majority.

The equal guardianship of infants, Mr. Bowser said, bulked larger o upaper than in actual life, for not more than three or four cases a year would be affected.

Uneconomical Government.

Wasteful administration in every department characterized the Oliver government, said Mr. Bowser. He referred to the huge expansion of the civil service, to the $150,000 spurt by the government for automobiles, and to many other instances of unconstitutional government.

The public works department in particular was a sinner, and a distinguished example of the way it operated was now to be seen in the road work that Dr. King was starting everywhere with winter imminent. In one place, at 7,000 feet, a gang was trying to put up tents in the snow to commence work; in another case the men worked in gumboots and right and left was work starting that should have been started early in the summer.

Policy on Returned Men.

Although the Oliver government claimed it had spent over $2,000,000 on the returned men, not one of its soldier settlers had yet received his title and everywhere the returned men wer so dissatisfied that it was freely predicted that 90 per cant of them would vote against the government, while a number of able soldier-citizen were accepting Conservative nominations and one of these soldiers was Col. Lister, who *was in the field because of the in*justices he saw the Oliver government inflicting on his comrades.

He described the obnoxious agreement which the department of agriculture had prepared for the settlers at Camp Lister to sign. One of its clauses forced the settler to clear land or otherwise continue development of his tract at the pleasure of the board—Col. Davis—whether able to do so or, not. But the really iniquitous clause was that which caused a man to forfeit his equity in the land he had bought, worked on and improved, if at any time the land board should consider him unlikely to make a success of farming. In the language of the agreement it might be his "disability, lack of energy, or any other reason," that led the board to decide to remove him, and even if he had put in 10 years on his land, he would lose it all. "It is the most monstrous thing I have ever heard of," declared the Conservative chieftan.

When returned to power, Mr. Bowser said, he would see that the returned soldiers were given every chance. One of his reforms would be that a man applying for a loan to purchase land would get a final answer inside a month. Another *would be that the man should have* all the time they needed in which to make repayment.

"One thing I am determined on," declared Mr. Bowser. "That is that the extravagance and mistakes of t Oliver government must not be pa for by the soldier settlers. The m must only pay a fair price for the tracts. The excess costs of the settl ment areas must be taken out of t taxes, and can fairly be charged the incompetence of the Oliver go ernment."

Mr. Bowser also outlined his poli toward the municipalities, whic were unable to operate on their pr sent revenues. The government's s lution of granting them a poll t not especially meeting the bill. H would take the motor licenses, gam licenses, amusement taxes, and large variety of such special revenu es, including a share of the revenu from the sale of liquor, which wou be moderate, for the governme would fix fair prices,— and wou put them all into the consolidate fund, from which disbursemen would be made to the municipaliti on a per capita basis. This wou put all the municipalities on the feet, and would ensure that the sma

Catarrhal Deafness and Head Noises

TELLS SAFE, SIMPLE WAY TO TREAT AND RELIEVE AT HOME

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be *entirely overcome in many instances* by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmint (Double Strength.) Take this home and add to it ½ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

MAKES CURLS OR "EAR MUFFS" STAY IN PLACE

You will be glad to learn that you can *keep your hair beautifully wavy* and curly by using a perfectly harmless liquid known to druggists as "silmerine." You need only apply a little with a clean tooth brush just before doing up the hair, and in three hours or so you will be most agreeably surprised with the effect. And this effect last for quite a considerable time, so a small bottle goes a long way and is quite economical to use. Pure silmerine is really beneficial to the hair and there is no greasiness, stickiness nor anything unpleasant about it. It is a good idea to divide the hair into strands and moisten these one at a time, drawing the brush *down the full length.*

With the aid of liquid silmerine it is easy to shape the prettiest "ear muffs" and easy to keep them placed all day. Just try it!

Come in and let us give you a copy of "Edison and Music" Tells about the chief period designs—what they look like, what they stand for Pithy descriptions Beautiful illustrations. Just the information you want.

Let us show you what an exquisite thing a phonograph cabinet can be.

Every New Edison on our floor—no matter what its price—is encased in a genuine period cabinet.

Period Furniture is the world's most exquisite development of furniture. It originated in the 16th, 17th, and 18th Centuries. Europe was ruled by a Gorgeous Aristocracy. Fine living was the ideal of the day. An unparalleled race of artists, architects, and designers built palatial living-places for kings and nobles, and furnished them. The palaces of the nobility became treasure-houses of fine furniture. It was called the "Golden Age of Furniture."

So Mr Edison had his designers go back into the manor houses of England, the chateaux of France and the castles of Italy. They adapted 17 designs from historic masterpieces. They preserved entire "the character and feeling of the best periods" in these superb phonograph cases for the modern American home.

No matter which Edison cabinet you choose, you get both the arts that make your house a cultured home—music perfectly RE-CREATED and furniture of purest period source.—What finer gift for all the family?

Mr. Bowser's Speech

Mr. Bowser's Speech at the Nelson opera house last night was one of the best in his career.

He kept the discussion throughout upon a high plane, never descending to personalities, nor unfairly criticising his opponents. His reasoning was sound and the moderate and broadminded manner in which he dealt with the issues of the day evidently made a deep impression upon the audience.

It is unusual in our political life for a leader of the opposition to devote so much of his address to constructive criticism. Speaking with a sense of the responsibility of public men at this time to do more than offer destructive criticism, Mr. Bowser dealt in a constructive way with changes in methods and policy which he believes will enable this province to reap during the coming years the prosperity which its natural resources and advantages entitle it to.

Those in the audience could not but be impressed with the sincerity and honesty with which Mr. Bowser put forth the views of the party to which he belongs and his whole-hearted determination to put them into effect when the expected change in government takes place on Dec. 1.

REQUESTED RECIPES

Bride-to-be: "Please give a recipe for Bride's Cake with Ornamental Icing."

Answer: Bride's Cake.—½ cup butter, 1½ cups sugar, 3 teaspoons baking powder, ½ cup milk, 2 1-2 cups flour, ¼ teaspoon cream of tartar, ½ teasnoon almond extract, egg-whites Cream the butter, add the sugar gradually. Mix and sift the flour, baking powder cream of tartr and add these alternately with the milk to the first mixture. Now add the almond extract and the stiffly-beaten egg-whites. Put in a buttered round and deep pan, a gold ring, a thimble, and a dime in the cake, and bake forty-five to fifty minutes. Cover with ordinary plain white (boiled) frosting, then ornament with the following:

Ornamental Icing.—4 egg-whites, 4 cups confectioners' sugar, 1-3 teaspoon cream of tartr. Beat the egg-whites with ¼ cup of the sugar for 3 minutes steadily; then add the sugar gradually, beating between additions, ½ cup at a time, till it is half used up. Now mix the cream of tartr with the sugar that is left and, still beating vigorously, gradually add the rest. When a knife makes a "clean cut" in the frosting it is ready for use. (It possible that a little of the sugar may be left over.)

Mrs. F.: "Please send recipe for Beet Pickle."

Answer: Beet Pickle.—6 medium-sized beets, 1 quart vinegar, ½ teaspoon black pepper, ½ tespoon allspice, 1 teaspoon salt, 1 small horseradish, grated. Wash beets, put them in boiling water and cook until the skins loosen, then remove skins and cut them into ½ inch slices and place them in glass jars which have been sterilized. Pour over them the following vinegar mixture: Boil the quart of vinegar with the pepper, salt, allspice and grated horseradish for four minutes, then let it cool, when cold pour it over the beet sand seal the jars.

Alice L.—"Please tell me if there is a way to can peppers in brine, without cooking them, so that I can use them baked and stuffed or in salads later on? Also give recipe for candied citron to use in cake."

Answer: Brining Peppers.— Remove stems and seeds from fresh peppers—either red or green peppers. Wash and pack in a jar with the blossom end down. Cover with a brine made by adding 2 pounds of salt to 1 gallon of water. Put a paraffine cork on the top to weight the peppers down. Grease rubber rings with vaseline to keep the salt from oozing out, and seal. Thse may be kept from 8 to 10 months, freshened by soaking in cold water, and srved as stuffed baked peppers, in relishes, or in salads.

Candied Citron.—Cut citron melon into quarters, pare and remove seeds, then cut into small pieces. Drop these into sirup (1 cup sugar to ½ cup water) boiled until it spins a thread—just as boiled cake icing does. Cook the citron in this sirup until transparent, then drain and dry in a slow oven. Finish drying on top of range, off the very hot part.

ARMISTICE DAY NO HOLIDAY

Rev. Mr. Graham Holds Only Service in City; Schools and Business Open.

That the second anniversary of the Armistice will be practically unceelebrated was assured yesterday when the school children were informed that there would be no school holiday today.

According to reports late last evening, all business houses will be opened for business as usual and no arrangements have been made for the two minutes' silence in commemoration of the dead which was observed last year.

Rev. Fred H. Graham has, however, arranged to hold a short public service this evening at St. Saviour's church, where the public is invited to attend for the purpose of giving thanks for the blessings of peace, during the half hour's service.

Styles

BY LENORE

One of the most striking gowns imported from Paris this season is of that challenging type which so delightfully suits the dark-haired young woman of rich complexion and colorful personality.

Made of navy blue serge, it turns for trimming to brilliant red with utter abandon, applying it in embrpidery at neck, sleeves and circular motifs, to say nothing of the crepe de chine girdle twisted in Zouave fashion about the hips.

Such prominent trimmings on the skirt, while entirely in keeping with a tall figure, are not so becoming to a short person, as they direct the gaze downward and therefore have the effect of shortening the stature.

(Paste this in your Cook Book)

Christmas Cake.

Half cup butter, 2 cups flour, 1 cup currants, 2 tablespoons chopped almonds, ½ cup sugar, ¼ cup candied peel, 3 eggs, a little milk, ½ teaspoon baking powder.

Cream the butter and sugar, add almonds and well beaten eggs. Sift in the flour and baking powder together, stir in currants and finely chopped peel, beat well and add milk. Pour into tins which have been lined with greased paper and bake in a moderate oven.

CELEBRATE FOUR HUNDREDTH MEETING

To celebrate the four hundreth meeting of their organization the members of the Junior Daughters of the King of St. Saviour's church met in the Parish hall for tea yesterday afternoon and enjoyed a whist drive in the rectory, which was tastefully decorated for the occasion with masses and garlands of rowan berries and Oregon grapes, in the evening.

The Junior Daughters of the King is an organization to bring the young women of the church into connection with the character, worship and work of the church, to welcome new comers, visit the sick and care for the Font roll of the Sunday school, also to engage in special missionary work. The special object at present is the outfitting of an Indian girl at the Alert Bay mission.

CHURCH GIRLS LINE UP FOR PHYSICAL TRAINING

A number of girls belonging to the Canadian Girls in Training organizations of the local churches, made their initial appearance at the Y. M. C. A. for physical training yesterday afternoon, according to the arrangements made recently between the churches and the Y. M. C. A. They were chaperoned by Dr. Isabel Arthur, city health officer. It is estimated that about 25 girls will enter the class.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like 14 Karat on gold. It positively identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

COOKERY COLUMN

COCOA SPONGE CAKE

¼ cup Cowan's Cocoa
4 tablespoons hot water
3 eggs
½ cup sugar
1 tablespoon lemon juice
½ cup pastry flour
½ teaspoon salt
½ teaspoon baking powder
1 teaspoon vanilla
1 teaspoon grated lemon rind

Beat egg yolks until thick and creamy. Add sugar gradually, beating all the time. Add lemon rind and juice. Add whites of eggs beaten stiff. Mix flour, baking powder, cocoa and salt together, sift three times. Fold in above mixture. Bake in a greased and floured pan 40-50 minutes in a slow oven.

ler municipalities, which might not enjoy as many resources of revenue as the larger ones, would be fairly treated.

Cheers for Next Premier

Owing to the government having forced the election in this inclement season, it would be impossible for him to get over the country fully. His appeal for good men, who would be able to help ably in administration, thus far had been well answered, and it remained for the electors to confirm this selection with their ballots. He had many shortcomings, Mr. Bowser said, but his intentions were good, and his neighbors, who ought to be good judges, had returned him for 17 years. He contrasted this record with that of Premier Oliver, who had never sat twice for the same seat. If the good people of Nelson would send Dr. Rose to support him, and the good people of the Kootenay selected those candidates to send to Victoria that appearance now indicated, with the other parts of the province doing their share, he would be able to head a government that would so administer affairs that the next five years would be the brightest in the history of the glorious province that all loved. (Prolonged applause).

After the National Anthem had been sung, three rousing cheers were given for "the next premier of British Columbia."

Other Speakers

Capt. Armstrong, the first speaker, eulogised Mr. Bowser, referred to the record of the late administration, and asked for support for the party, and for Dr. W. O. Rose, the conservative candidate for Nelson.

C. R. Hamilton, K. C., the next speaker, criticised the present administration for its failure to abolish the patronage system as was promised, for its disregard of local claims, instancing the "disgraceful" ferry and the Ymir road; its execution of the prohibition laws; and the equivocatory statements of its leader, Premier Oliver, in regard to an immediate, or postponed election being contingent on the result of the plebiscite. He paid a tribute to the integrity of Mr. Bowser, and asked for support for Dr. Rose as the election on Dec 1.

Dr. Rose Speaks

When Dr. Rose came forward to address the meeting, he was greeted with a hearty round of applause. He thanked his friends for their support in the past, and congratulated the ladies on being admitted to full citizenship, whih he believed would inject a higher degree of political morality into public life.

He confined his attention chiefly to a riticism of the present administration, which he declared had fallen down on most of its pre-election planks. He instanced the enactment in 1916 of the referendum, which he stated had been too cumbersome to be of any use; proportional representation for municipalities, which was rescinded within two years; equal suffrage, which was really put into effect by the voters of the province and the abolition of patronage in civil service. Regarding this last he mentioned numerous examples of liberal party supporters being appointed to lucrative positions in the civil service by the present administration.

The Liberal planks of a "white British Columbia" and free lands for bona fide settlers and their non-application were also criticised by Dr Rosd as was the operation of the land settlement board.

He charged there had been unnecessarily extravagant expenditure of public moneys in trying to establish returned men on the land, which in some cases had amounted to absolute waste. He instanced a fruitless expenditure of $20,000 at Fernie, $50,000 at the Christian ranch, and between $8,000 and $9,000 on the Klondike ranch at Victoria. He believed that no returned man had ever been on the Klondike ranch with the intention to settle.

A great saving could have been effected by the government by holding the plebiscite and the election together. The sum of $100,000, the cost of taking the plebiscite, would have built several roads such as the Ymir road, for which the people of this district were agitating.

What had been the achievement of the present administration in its four years of office, he asked. The late administration had left a tangible record of activity in public buildings, roads and bridges to justify its expenditures, which could not be advanced for the present government. The Ymir road would be built by the party going into power on Dec. 1.

With regard to his opponent, Dr. Rose stated he had nothing but the kindliest feelings for James O'Shea, whom he know was a good private citizen.

HONOR ARMISTICE DAY BY SILENCE

Dominion Will Officially Recognize the Occasion by Two Minutes Silence.

TORONTO, Nov. 10. — Armistice day, the second anniversary of the ending of the great war, will be celebrated tomorrow throughout the British Empire, and practically every city, town, village and hamlet in the Dominion of Canada will officially recognize the day. It is believed that the two minutes silence, which featured the anniversary last year, at the renewal of His Majesty's request, will be generally observed by British subjects everywhere.

As was the case on Nov. 11, 1919, all business will be suspended for two minutes at 12 o'clock noon, and people in all walks of life will cease their daily duties during that period. Factory wheels generally will stop revolving, and the telegraph instruments in the various telegraph offices will be silent. The Canadian Press, Ltd., will stop its service for the two minutes. It is anticipated that a general quietness will prevail and that even conversation will be suspended for this brief period, thus indicating that the people have not forgotten and do not wish to forget the triumph of the allied armies in the world's greatest conflict.

Gratitude Still Fresh

The feelings of sadness over the losses caused by the war may be less acute this year than last, but the sentiments of gratitude and patriotism are still fresh among the people and doubtless the second anniversary of the historic day will be fittingly celebrated.

In Toronto, the visit of their excellencies, the Duke and Duchess of Devonshire, is coincident with Armistice day and they will attend a special service in St. Paul's Anglican church tomorrow. A cenotaph has been erected in front of the city hall in commemoration of the brave men who gave their lives in the war, and a special service will be held on the city hall steps at noon tomorrow. At night a large electrical sign in front of the city hall will bear the Scriptural message that has comforted countless mourners:

"Their name liveth for evermore."

There has been some confusion as to the hour on Armistice day when the two minute silence is to begin. It was 11 o'clock in the morning last year, but by proclamation of the governor-general, the hour this year has been placed at 12 o'clock noon.

DISAPPROVES OF CURRENT FASHION

Woman Doctor Would Have Some of the Ultra-fashionable Arrested.

TORONTO, Nov. 10.—"Some of the fashionably dressed women of Ontario should be arrested for indecent exposure," declared Dr. Margaret Patterson, of this city, at this afternoon's session of the annual convention of the Ontario Women's Institute. The question of women's dress came up in connection with a resolution submitted from the Muskoka women's institute, condemning the present day tendency toward immodesty of dress.

Censorship of the moving pictures came in for considerable discussion and the convention demanded a more rigid censorship.

Burglars entered the new Allen Theatre at St. Catherines, Ont., removed the safe from the office, forced it open, and secured $428.28, after which they dumped it down an embankment.

DENIES BACKUS HAS MONOPOLY

Drury Produces Conditions of Sale to Prove Point Challenged.

TORONTO, Nov. 10—Premier Drury stated in a very vigorous way today that the agreement made between the crown and E. W. Backus for the English River timber limits and the power rights of the White Dog rapids, would by no means give the Backus interests a monopoly. It was pointed out to Mr. Drury that in a story from Fort Frances it was stated that the agreement provided that the successful bidder for the English River limits would have to do all the manufacturing in the town of Kenora. That story also contained the statement that, as Mr. Backus had a monopoly of power in the town of Kenora, no other timber men could possibly bid.

To this, Mr. Drury denied emphatically that the Backus interests had a monopoly of power and produced the agreement and the conditions of sale to prove his point.

MINERS' VOTE AVERTS PHYSICIANS' STRIKE

GLACE BAY, N. S. Nov. 10—A threatened strike of medical practitioners in the mining districts has been averted by a practically unanimous vote of the various locals of the United Mine Workers granting the doctors an increase in the levy on the miners who pay for their services, of 15 cents per week.

The new rate of 40 cents asked by the doctors, will now be put into effect.

HOW about it? Are you able to keep up to your prescribed task? Is the boss watching your time sheet? Has he reason to think you are slipping back?

The efforts put forth to keep up to the new scale of work in conjunction with "high pressure" mode of life these days soon tells on the strongest system, shatters the nerves and weakens the heart.

Thousands are finding life a burden and others an early grave. The strain on the system causes palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells.

Milburn's Heart and Nerve Pills have helped hundreds just in such a condition by making rich new blood, strengthening and regulating the heart, renewing the nerve centres and infusing new life and energy into the system.

This remedy builds up and maintains a healthy, vigorous constitution, according to the testimony of hundreds who have used them.

Mr. Alfred Arsenault, Lot No. 6, P.E.I., writes:—"I was very nervous and run-down, and was so bad I could not sleep at night. I used two boxes of Milburn's Heart and Nerve Pills, and I was relieved. That was one year ago, and I have been well ever since."

STEEL AND SUGAR DEPRESS MARKET

Session Opens Firm, Sinks But Rallies On a Bear Squeeze.

NEW YORK, Nov. 10— The stock market was firm at the active opening of today's session, becoming acutely weak at midday, and rallying vigorously in the latter dealings, when confident buying of rails, oils and equipment caused short covering and effected pronounced readjustment of quoted values.

Sentimental reasons for the sharp reversal at noon were provided by the publication of the United States Steel October tonnage report, showing a very large decrease in unfilled orders on the preceding month and the announcement of the suspension of te extra dividend on American Sugar. These incidents gave the bears an excuse for resuming aggressive operations. Leaders in the industrials and specialties group reacted one to six points to new low records for the year, while United States Steel fell another fraction to 82⅞, another low for the year.

Another factor in the late rebound was the easing of money rates, call loans falling back to nine per cent after attaining the usual maximum of ten per cent. Time money ruled at 8 per cent on prime collateral with freer offerings.

Foreign exchange was another encouraging feature, the rate on London making a further recovery to almost seven cents over the low of Monday.

Individual stocks, mostly affected by today's more temporary setback included Mexican Petroleum, Crucible Steel, Shippings, Sugars and Tobaccos, but in a majority of instances, losses were replaced by substantial gains at the close. Sales amount to 1,350,000 shares.

Bonds moved uncertainly during the greater part of the day, Liberty issues scoring net advances.

Total sales, par value, aggregated $15,875,000.

Old United States bonds were unchanged on call.

BRITISH BUYING SENDS UP WHEAT

CHICAGO, Nov. 10—Swift upturns in the price of wheat today followed word that for the first time in nearly two months, Great Britain was buying on this side of the ocean. The market was also bullishly affected by the announcement that no general calling of rural loans in Kansas was looked for. Prices closed strong, 5⅞ to 9¾ cents net higher; with December $1.86¼ to $1.86⅞ and March $1.81 to $1.81½.

Corn gained ⅝ to 1¾ cents, and oats ⅝ to 1½ cents.

In provisions, the outcome varied from 25 cents decline to 15 cents advance.

British purchases of wheat was estimated at from 2,500,000 bushels to 3,000,000 bushels and notwithstanding the greater part of the total was said to be Canadian grown, the influence on the market was electric. Bullish sentiment was further stimulated by gossip that Belgium had bought 500,000 bushels of United States wheat.

The coal tribunal in Australia has awarded the miners there an increase of three shillings a day in wages, bringing them up to 16s 6d a day.

WALL STREET RECOVERY STRENGTHENS CANADIAN

TORONTO, Nov. 10—A timely rally changed the position of the Canadian stock market materially today. The influence of the recovery in Wall street spread to the Canadian exchanges, and there were other favorable factors. A smart advance in the price of Canadian wheat on news of British buying was one of the most important developments of the day. Pools were in operation to buy stock after the price slashing, and it was thought likely that the new holders of the stock would seek a fair advance in the market before they took their profits. One influence said to have been operating during the day, was a rumor that one of the largest Canadian banks had taken over the accounts of one, if not two, of the sugar refineries, following hesitation by another Canadian bank, and assuming that the change had been made, it was thought that the position of the refineries had been strengthened.

Investment orders began to reappear and quite a few of the blocks of stock held on margin and sold within the past few days have been bought for cash by watchful investors.

Another source of money was reported by one broker who spoke of a Toronto business man who had used Canadian collateral in New York to secure a loan for ninety days at six per cent.

There was again much interest in Atlantic Sugar, which fell to 39 here closing at 42½, a net advance of 3½ points on the local exchange. Both the Spanish River issues moved up by about three points, Brompton also had some recovery, gaining 1¾ to 62¾.

Dominion Steel had a downward turn and trading in 330 shares it dropped to 47½ just before the close, but firmed up at 48, leaving a net loss of 1½ points. Canada Steamships was also weaker, the common losing 2¾, the preferred 1 point. Little attention was paid to Brazilian, which closed unchanged at 35⅛. Some of the industrials, which also closed weaker, were F. N. Burt, General Electric, Steel of Canada, Tuckett and Nova Scotia Car. Imperial sold at 114 on the curb. Crow's Nest Coal, which has not been active for some time, was quoted at 44 bid, compared with 40 for some time past.

BOARD REFUSES TO RECLASSIFY

OTTAWA, Nov. 10.—The board of railway commissioners, in a judgment handed down today, declined to grant an application by the Great Lakes Dredging company to have the classification of fir piles shipped from British Columbia to Ojibway, Ont., for the construction of docks and piers, made the same as the classification that applies to round timber.

BOILS SO BAD HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race.

All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James Fahey, Newport Island, Que., writes:—"I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

B. B. B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.

SUSPENDS ISSUE FOR WANT OF PRINTERS

HAMILTON, Nov. 10—The Ontario newspapers corporation, Limited, has made the following statement tonight:

"It has been found necessary to suspend the publication of the *Hamilton Morning Times*. This has been brought about by a combination of circumstances, largely unforeseen and uncontrollable, which culminated today in the inability of the management to secure sufficient printers to make the issue of tomorrow's edition possible."

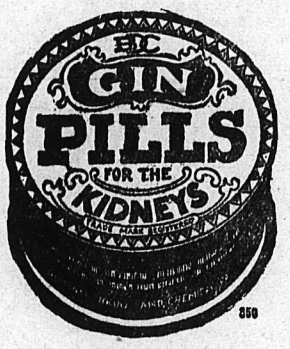
Fat That Shows Soon Disappears

Prominent fat that comes and stays where it is not needed is a burden; a hindrance to activity, and a curb upon pleasure. Many forms of advice to reduce weight have been advanced, such as dieting, hard work, excessive exercise, etc., all of which are either unpleasant or dangerous.

The latest, more modern and pleasant way to take off burdensome fat, is to take, after each meal and at bedtime, a Marmola Tablet. These little tablets are as effective and harmless as the famous Marmola Prescription from which they take their name.

To get rid of fat at the rate of two, three or four pounds a week, simply take one of these little tablets after each meal and at bedtime until you have reduced your weight to where you want it. No wrinkles or flabbiness will remain to show where the fat came off.

They are for sale by all druggists at $1 for a good size box. If you prefer to have them come to you direct by mail, prepaid, in plain sealed cover, send amount to the Marmola Co., 97 Geoffrey Building, Detroit, Mich., and bid good-bye to dieting, exercise and fat. Be yourself slim, trim and attractive.



At the Gem, Tonight, Tomorrow and Saturday.

ADVISES WIVES TO BAKE OWN BREAD

Says Home Cooking Would Soon Bring Price Down From War-Time Rates.

CHICAGO, Nov. 10—Board of trade reports from Winnipeg that yesterday's drop of 80 cents a barrel in flour was followed by a reduction of one cent a loaf of bread, brought nouncement that no drop is anticipated here.

The new Winnipeg price is 8 cents for a 16-ounce loaf, which now sells in Chicago for 12 cents.

The 20-ounce loaf sells for 10 cents in Winnipeg, while the 24-ounce loaf here brings 18 cents

L. L. Winters, of Hulburd, Warren and Chandler a board of trade firm, today adviser house wives to make their own bread.

"Bread is practically the only commodity that remains at war time prices," Mr. Winters said. If house wives should bake their own bread, the price would soon come down, he declared. Home cooking also will help the farmers by stimulating the demand for wheat, he added.

DECORATE GRAVES ON ARMISTICE DAY

NEW YORK, Nov. 10—In this city and throughout the United States Armistice day will be observed tomorrow by decorations of soldier and sailor graves and presentation of war honors to officers and men who obtained distiction in overseas service.

Chief among the exerises in New York will be the award of honors to 13 officers and men of the United States naval forces at the New York navy yard for distinguished war service.

France will pay every dollar of the $250,000,000 loan due in New York on October 15, M. Francois-Marsal, minister of finance, offically announced.

Fit Yourself to an Ingersoll

—by this window display

WATCH needs—and watch tastes differ. But there are Ingersolls to fit every need or taste. The display pictured above helps you to fit yourself.

Find a display—and then find yourself. It's a fascinating quest and bound to be successful. Maybe your taste doesn't correspond to the choices we suggest. All right, make your own choice—so much the better. Ingersolls are made to meet *your* likes, not ours.

OBITUARY

NELSON VETERAN DIES SUDDENLY

Last night on the eve of Armistice day, Sidney John Skinner of Cemetery road, aged 48, a veteran of the great war, died at the Kootenay Lake general hospital following a paralytic seizure the day before. He leaves a widow, three sons and four daughters.

CROSS

The funeral of the late Jack Cross, of this city, was attended by a body of the Brotherhood of Locomotive Engineers, and members of the local Masonic order, as well as by relatives and individual friends, took place yesterday afternoon from the undertaking parlors of the Standard Furniture company at 1:45 o'clock.

Leaving the undertaking parlors the funeral procession proceeded to St. Saviour's Anglican church where the funeral service was held. Rev. Fred H. Graham officiated. Afterwards the body, togethed with a large number of beautiful floral offerings from fraternal organizations, friends and relatives, was conveyed to the city cemetery.

Among the mourners were Fred Cross, of Souris, A. Peers of Moose Jaw, and George Johnson, of Edmonton, three relatives who came to the city to attend. The pall-bearers were J. Cadden, J. W. Harritt, L. W. Humphrey, J. P. Hunter, D. Scala, P. C. Lindsay, W S. McPherson and R. A. Peebles.

COOMBER

H. Broadwood of Bonnington has just received news of the death of his sister, Mrs. B. Coomber, who died at Winnipeg general hospital on Sunday morning, Nov. 7.

ORR.

The funeral of the late John Westley Orr, of Mill street, took place on Monday afternoon. A private service was held in the undertaking parlors of J. D. Roberson at 1:30 o'clock, and was followed by a service in the Methodist church at 2. Rev. J. P. Westman officiated at both services. At the church service a vocal solo, "Beautiful Isle of Somewhere," was rendered by Mrs. C. W. Tyler.

Th pall bearers were Messrs Charles Wilson, Fred L. Irwin, W. J. Rutherford, J. J. Smith, C. Mankin and H. W. Shore.

HOLLIDAY.

Mrs. Ruth Holliday, wife of James Ernest Holliday, died suddenly at 7 o'clock, at her home, 418 Gore street, last evening.

Mrs. Holliday was born in London, England, and came out to Canada about 10 years ago. She leaves besides her husband, a little daughter, Vera, eight years old.

One farm in every four in Ontario has an automobile.

Godfathers and godmothers, in baptism, are not mentioned in the scriptures.

CANADIAN BANKS ARRANGE BOYCOTT

Will Discontinue Accounts of Brokers Importing Overseas-held Securities.

MONTREAL, Nov. 10—That Canadian banks, at the request of Sir Henry Drayton, minister of finance, have undertaken to discontinue the account of any individual or firm persisting in the importation and sale in the Dominion of overseas-held Canadian securities, is announced in a circular just sent out by the Montreal committee appointed by the minister.

The circular has been mailed to stock exchange firms, bond houses, financial institutions and individual dealers

The above measure is being put in force against a small minority of houses and individuals who are continuing to import these securities from Great Britain.

Widow Threatens to Prosecute Spracklin for Heavy Damages

TORONTO, Nov. 10—The Toronto Star in a dispatch from Windsor says: "The institution of a civil action for $50,000 against Rev. J. O. L. Spracklin, as damages for the shooting of Beverly, "Babe" Trumble, late proprietor of the Chappel house, is under consideration by Mrs. Trumble, and the family solicitor, W. F. Furlong.

Mrs. Trumble, according to a statement of Mr. Furlong, has expressed her determination not to permit matters to stand as they are. Further pressed, Mr. Furlong admitted that this would indiate that Mrs. Trumble has decided to prosecute Mr. Spracklin.
