GOVERNMENT TROOPS PREPARE TO CRUSH CIVIL WAR

DEBATE PROS AND CONS OF IMMIGRATION

Argues Unemployment Will Be Aggravated by Entry of Foreigners.

INCREASED POPULATION CANADA'S URGENT NEED

Jacobs Reasons Open Door Policy Only Solution of Railway Problems.

OTTAWA, March 30.—(Canadian Press)—For the last time this session, the house of commons spent Wednesday afternoon in a discussion of a resolution passed on the paper by a private member. On future Wednesdays, until parliament prorogues, government business will have precedence, and the house will sit in the evening as on other days.

Today the question of immigration as it affects the unemployment problem was debated at some length and widely divergent views were advanced by both sides of the chamber.

H. Deslauriers, St. Marys, Montreal, opened the debate by moving a resolution advocating the suspension of all immigration until Canada and the rest of the world got down to normal again. The unemployment problem was merely in its infancy and it would be aggravated by permitting the entry of foreigners to swell the ranks of the workless, he declared.

Edmond Proulx, Prescott, seconded the resolution, remarking that Canada was adding to her troubles by admitting immigrants of the artisan class who went to the cities. He favored the admission of farm workers.

Unwise to Restrict.

Strong opposition to restrictions on immigration was voiced by S. W. Jacobs, George Etienne Cartier, Canada, he said, was faced with a grave railway problem which could only be solved by increasing population. How was this to be done if the doors were shut against desirable immigration, he asked. It was unfair and unwise to demand that immigrants should be possessed of $250 on their arrival here. He advocated the "open door policy" which had built up the population of the United States.

J. A. Robb, Chateau Huntingdon, supported Mr. Jacobs in advocacy of increased immigration and was doubtful of the wisdom of putting money restrictions on immigrants. George Boyce, Carleton, also thought honest workers should be encouraged to come to the Dominion, but W. G. McQuarrie, New Westminster, emphasized the gravity of the unemployment problem and thought it would be wise to restrict immigration until times were better.

Want Ministers' Estimates.

The debate continued until 6 o'clock when Mr. Deslauriers withdrew his resolution on Hon. J. A. Calder, minister of immigration, promising that he would give the house a statement

(Continued From Page Two)

REVISE MAXIMUM CUSTOMS TARIFF

French Plan Tariff Wall Against All Except Favored Nations.

PARIS, March 30.—The government will soon introduce in parliament a revised maximum customs tariff list, which commercial experts understand will be equivalent to a wall against all imports except foodstuffs and metalurgical products. The proposed increases apply to the so-called maximum list, which has to do with all countries except those favored by the minimum tariff rates. These increases, it is reported, will show a difference between the minimum and maximum lists of from 100 to 300 per cent.

Minimum Rate for Treaty Goods.

OTTAWA, March 30.—Canada will benefit partially from the provisions of the minimum list classification, Sir George Foster, minister of trade and commerce, informed the Canadian Press tonight. The minimum rate will apply to all articles in the Franco-Canadian treaty, negotiated by Sir George, and brought down in the house of commons yesterday.

SAYING FAREWELL TO THE WEST

THE DUCHESS OF DEVONSHIRE.
Is accompanying the Duke, Governor-General of the Dominion, on a final tour of Western Canada before retiring from vice-regal office. Yesterday their excellencies were the guests of Winnipeg. Next week they visit Vancouver and Victoria.

WINNIPEG ENTERTAINS THE GOVERNOR GENERAL OF CANADA AND HIS DUCHESS

WINNIPEG, March 30.—The Duke and Duchess of Devonshire completed the busy program of their first day of their final visit to Winnipeg when they attended at the parliament buildings tonight a reception and ball in their honor, given by the lieutenant-governor, Sir James Aikins, and Lady Aikins. Their excellencies received with Sir James and Lady Aikins.

In the afternoon the governor-genera reviewed at the Minto bar-general reviewed at the Minto barracks the Winnipeg boy scouts. Previously he had received an official welcome from the city and had been the guest of the legislature at an official luncheon at the parliament buidings.

The governor-general told the members of the legislature he felt that within the next few years, if certain changes were made, he would attempt to induce a sufficient number of electors to return him to the British house of commons, as he had aways been interested in legislative affairs.

Addressing the boy scouts, his excellency said the movement had meant much to the youth of the country, and will mean much more to Canada and the empire in years to come.

BRITISH MINERS AGAIN ON WARPATH DEMAND WAGES EXCEEDING PROFITS

LONDON, Marcs 30.—A coal strike seems inevitable on April 1, when the notices of the mine owners of a termination of contracts in order to enforce a reduction in wages will expire. The executive of the miners' federation met today and resolved to instruct all branches of the miners' union to cease work .

The executive then proceeded to the board of trade, when an interview was had with Sir Robert Horne, the president of the board of trade. The miners demanded that the government subsidize the industry so as to enable it to pay wages greater than the present profits and also advocated the pooling of profits for the benefit of less profitable mines. Sir Robert Horne, on behalf of the government, declined to consent to a subsidy. He said most of the other great industries were in a worse position than the coal industry and that it was impossible for the state to provide such help.

Requests Reconsideration.

Herbert Smith, vice-president of the miners' federation, on behalf of the miners' executive then informed Sir Robert Horne of the decision to withdraw all working men, including pumpmen and engineers from the pits.

Sir Robert Horne rejoined that this was a grave decision and that he hoped before adopting such a course the miners would reconsider.

He offered to meet the miners' executive at any time tomorrow.

The executive of the triple alliance, made up of miners, the railways and the transport workers, held a private preliminary meeting today. The executive committee will assemble tomorrow to discuss its course of action.

AUTHORS RESIST COPYRIGHT BILL

MONTREAL, March 30.—That serious infringement of author's right will result if the proposed copyright bill before the Dominion parliament becomes law, is the report of the copyright committee of the Canadian Authors' association. This bill, it is claimed, will destroy United States authors' patents in Canada and Canadian authors existing patents in the United States. Particular objection is taken to the licensing and importation clauses which deprive an author of the right to make his own terms with the licensee, who may garble or abbreviate his work without the author's consent and prevent importation or reproduction of the original authorized edition for 50 years.

TRIP TO COMPETITIONS; PRIZES FOR SHOOTING

OTTAWA, March 30.—A large deputation, consisting of members of the house of commons and representatives of the Dominion Rifle association, waited on the prime minister this afternoon, asking that the government grant assistance to rifle teams from the various provinces.

The Dominion shoot, they said, has suffered of recent years owing to the fact that increased railway fares have kept the riflemen away from Ottawa. The deputation asked that the government pay the fares of a team of 10 men, and the trip to the Dominion competitions would then be put up as a prize in each provincial competition. The premier promised to give the matter full consideration.

BREAK OUT IN BELGIAN ZONE OF OCCUPATION

Whole Region in State of Ferment; Communists Suffer Casualties.

OBJECT TO DISPOSAL OF COAL THROUGH HOLLAND

Germans Address Protest to Reparations Commission and Belgian Cabinet.

COBLENZ, March 30.—Communist uprisings broke out this morning in Moers and Crefeld, in the Belgian zone of occupation, and there were clashes in which casualties were inflicted on the communists.

The whole Belgian zone is in a state of ferment.

The situation in Essen has been controlled by the authorities, according to advices received this evening by the inter-allied commission.

MUNICIPALITIES IN DESPERATION LAUNCH APPEAL

Last Effort Directed to Committee of the Legislature for Financial Aid.

VICTORIA, March 30.—A last desperate appeal for financial assistance was made to the municipal committee of the legislature this morning by the municipalities of British Columbia through a committee comprising Reeve Locksley, Esquimalt, and Alderman A. E. Todd, Victoria, who were appointed at last Saturday's conference between Premier Oliver and the Union of British Columbia Municipalities.

"To put it mildly, a majority of the members of the British Columbia Union of Municipalities' executive were disappointed with the conference with Premier Oliver last Saturday and felt they were in duty bound to seek relief through the municipal committee," said Mr. Locksley. "You are municipal men on this committee and we believe you will be sympathetic. We would strongly impress upon you that something must be done for the municipalities this year. It is absolute folly to shelve this question year after year. We might as well tackle it. Give us temporary relief now and find a permanent solution for our problems as a result of a careful investigation during the year, as proposed by the premier."

FUNERAL TODAY OF CARDINAL GIBBONS

Exclusive Gregorian Chant to Be Feature of Service for Dead Prelate.

BALTIMORE, Md., March 30.—The mighty and the lowly united in sorrow tonight, trod softly past the bier of James Gibbons to gaze for the last time upon the face of a beloved prelate.

For tomorrow morning with all pomp and ceremony and the singing of a Gregorian chant, never before heard outside the Sistine chapel in Rome, the church will bury her dead. The apostolic delegate at Washington, two fellow members in the college of cardinals, archbishops and bishops, arch-abbots and abbots, secular clergy and clergy belonging to the orders, all will be massed in the cathedral of the Assumption of the Blessed Virgin Mary for the final mass.

There, too, will be diplomatic representatives of the Catholic countries of the world while officials of the nation, state and city, will attend the service, mourning a fellow citizen.

The public funeral ended, the body of the cardinal, later in the day, will be carried to the cathedral crypt, unopened since the burial of Archbishop Spalding in 1872.

FORMER AUSTRIAN EMPEROR WAITS IN BORDERLAND CASTLE FOR CHANCE TO RECOVER THRONE OF HUNGARY

Deposed Emperor Plots to Return

CARL OF AUSTRIA.
Hungarians watch the border carefully to frustrate any move to restore the Hapsburgs.

Fifteen Thousand Royalist Troops Guard Deposed Monarch; General Lehar Plans Forcible Re-Entry Into Budapest if Government Opposes; Regent Horthy Despatches Troops to Border; Farmers Resolve That Hapsburgs Are Definitely Dethroned; Entire Frontier Closed Against Carl; Whole Royal Family May Remove to Spain.

BUDAPEST, March 30.—Fears were expressed here tonight that a sanguinary conflict might break out between supporters and opponents of former Emperor Charles, now at Steinamanger castle, near the Austrian frontier.

The ex-ruler is guarded by the troops of General Lehar, who is charged with having 15,000 Royalist troops under his command. It is reported here that General Lehar is planning a forcible entry into Budapest if the government opposes restoration of the former emperor.

Count Stefan Bethlen, fully empowered to act for the safety of the state as the plenipotentiary of Regent Horthy, has been sent to Steinamanger. Count Bethlen, who at times was adviser to the former Premier Archduke Joseph, has a strong force of troops at his disposal to suppress any civil war movement, should any be attempted.

The former emperor informed the government today that he was preparing to remove immediately to some neutral country, probably to Spain. Amid stormy scenes today a mass meeting called by the Farmers' party, adopted a resolution asserting that Charles and all the Hapsburgs have definitely been dethroned.

France Will Not Tolerate Hapsburgs

PARIS, March 30.—France is strongly opposed to a return of former Emperor Charles to the throne of Hungary, it was declared in French official circles today. France, together with the other allied powers, has made it clear to the Hungarian government that the allies will not tolerate any movement looking to a restoration of the Hapsburgs.

Austrians Take Precautions.

VIENNA, March 30.—The Austrian government is taking every possible precaution to prevent former Emperor Charles from re-entering the country from Steinamange, in west Hungary, just over the Austrian border.

The entire Austro-Hungarian frontier has been closed by joint action of the two governments, pending the final disposition of the former emperor.

The Spanish minister here has asked the government for a pass to enable the ex-ruler to cross the country and it is reported the latter intends to transfer the entire former royal family to Spain.

Misled by Monarchists.

LONDON, March 30.—British official circles expressed the opinion today that former Emperor Charles, in his attempt to regain the throne of Hungary, was misled by monrachists who advised him that the time was ripe for his return to Hungary. The advice of Regent Horthy to Charles to leave the country immediately is regarded here as substantiating the view that there is no support for a monarchist coup in Hungary at present.

The Hungarian regent realizes, it is said, that while there are Hungarian elements who would welcome a restoration of the monarchy, the great majority of the people are convinced that the Hapsburgs, and particularly Charles, can not assume the royal power.

Would Only Use Moral Suasion.

It is believed here that Charles will enter Switzerland or some other neutral country and not make a further attempt to return to Hungary. If he should try this course the allies would do nothing aside from applying moral persuasion against his return to Hungary, it is said. Such allied action would not be intended as interference in the domestic affairs of Hungary, but as a protection to Europe in general against the possibility of being involved again in war, which authorities say would be inevitable upon the return of the Hapsburgs to power.

FLASHES BY WIRE

Launch Port Arthur Steamer.

PORT ARTHUR, March 30.—The steamer Glenafion was launched at the local shipyards this afternoon. She is a 250-foot freighter, built for the Glen Transportation company of Midland, Ont., and delsgned for both lake and ocean service.

Sir Edward Kemp Ill.

OTTAWA, March 30.—Sir Edward Kemp, former overseas minister of militia, was taken suddenly ill in his office in the house of commons today. He was removed to his apartments in the Chateau Laurier, where his condition late tonight was reported somewhat improved.

Star Baseball Player Dies.

CALGARY, March 30.—Earl Lewis, known as one of the best amateur baseball players in western Canada, died suddenly tonight at his home here.

No Sex in Brains.

TORONTO, March 30.—The Federation of Women Teachers went on record today as favoring equal pay with men teachers for equal work. "There is no sex in brains," declares Miss B. B. Pellitt of Ottawa.

To Arrange Homeseekers' Fares.

WINNIPEG, March 30.—W. G. Duthie, chief rate clerk, passenger traffic department, Canadian National railways, left this afternoon to attend a conference in St. Paul at which arrangements for homeseekers' fares to become effective at once, on lines serving both Canada and the United States, will be dealt with.

Homeseekers' fares have not been in effect for immirgration from the United States since before the war. The new rates to be put into effect will likely represent a 20 per cent reduction on present rates.

ST. JOHN, N. B., March 30—(Canadian Press)—If no new cases of smallpox develop among the passengers of the steamer Carthaginian who are quarantined on Partridge island because of one mild case found on board a few days ago, they will be allowed to go to their destination April 5.

FASTIDIOUS COUNT SHY OF BLUBBER

Passenger on All-Metal Plane Will Not Venture Farther North.

SASKATOON, March 30.—With John Larsen, the inventor, on board, the third all-metal monoplane to cross western Canada on its way to Edmonton and the far north landed in Saskatoon this afternoon. Lieut. Dick Myers, who piloted the first two machines, is in charge of the third.

The plane is owned by Mr. Larsen, who is keen to continue the flight into arctic regions, although definite plans will not be made until Edmonton is reached. The aviators intend to leave Saskatoon tomorrow morning. Count Clares of Sweden, who flew as a passenger from New York to Grand Forks, N. D., has returned east. The count was not keen to eat blubber and sleep with reindeer, Mr. Larsen laughingly remarked.

BOOKBINDING THAT IS WORTH WHILE

Bookbinding is an art. It demands the highest skill. More than that, it calls for the ability to so bind a book that binding will be suitable as well as durable.

Materials employed must be expressive of the book which is bound as well as strong enough to stand wear and tear.

Let us do your work.

THE DAILY NEWS BINDERY

NELSON, B. C.

DEBATE PROS AND CONS OF IMMIGRATION

(Continued from Page One)

covering the whole matter when his estimates came up for consideration.

Increase, Not Suspension

George Boyce, Carleton, saw no reason why honest workers should be excluded from Canada.

J. A. Robb asserted what Canada needs today was not a suspension but an increase in immigration.

An organization has been formed in Winnipeg called the Western Canada Colonization Society, Mr. Robb said, adding that it was remarkable that this new society had not placed the minister of immigration at its head, but had instead chosen Robert Hobson, of Hamilton. It was apparently the intention of the society to take immigration matters into its own hands, sending its agents overseas to obtain immigrants. Mr. Robb wished the minister of immigration would give the house more light on the society. He was opposed to the resolution.

Argues for Restriction

W. C. McQuarrie, New Westminster, took the ground that conditions today demanded restrictions on immigration. If immigrants of the artisan class were suspended for a while, unemployed in the cities would gradually drift back to the farms. Adoption of the eight-hour working day by the farmer, Mr. McQuarrie considered inevitable. Farm laborers were now being "turned out into the back yard to live" and compelled to work extremely long hours. Immediately this situation was remedied, the unemployment question would solve itself as urban workers would be attracted to the land.

Agrees With Open Door

J. M. Douglas, Strathcona, agrees with the "open door" policy. Canada's present development, he attributed entirely to the immigration policy of 1897. He was strongly opposed to the $250.00 "purse law".

The settler was not to be valued by what he had in his pocket but by his willingness to work.

Progress Bound up with Immigration

J. R. Wilson, Saskatoon, said that whether Canada was to progress or stand still was the main question. This was absolutely bound up with the immigraton policy. Prior to the war, immigration was the life blood of Canada. It might be advisable to restrict certain classes of immigrants but Canada needed immigrants of the agricultural class. There was no doubt that agriculture was the basic industry and that in subsidizing railways, Canadian governments had tackled the problem from the wrong end.

Lucien Cannon, Dorchester, blamed the government for not having assimilated its new comers in years past and for depriving them of the franchise after they got there. But the course, which should be far more strongly stressed, was that of encouraging larger families within the country.

Full Quivers in Quebec

"Quebec," he said, "has done its duty in this respect.

"Men should not only understand their political duty, but their paternal duties and if they do this there will be no talk of race suicide," he urged.

H. C. Hocken, Toronto West, was in favor of an intensive policy of immigration from the British Isles.

As to labor, the Dominion Shipbuilding company, Toronto, had gone insolvent not merely because of high wages, but because it had been impossible to get men to do a fair day's work for a fair day's pay, Mr. Hocken declared. He had this on the word of the assignee. The only way to correct it was by having such a period as the one Canada was now going through.

In Toronto, this winter there were men who did twice as much outside work in one day as they did in one day last summer.

Many laboring men did the square thing but there were others who did not work to capacity.

Adjourns for Estimates

Hon. J. A. Calder, minister of immigration, said he would reply to many of the statements made during the debate when the estimates on immigration came up within the next few days. He suggested that as opportunity for discussion would, therefore, then be afforded, the motion be dropped. This was done and the house adjourned.

LUX

for Voiles, Linens, Batistes, Cottons

Do not think of LUX as a cleanser for only georgettes, chiffons, tricolettes, crepe-de-chines. The bubbly LUX lather means double life to anything you can wash—anything that pure water will not harm. Chiffon or linen, it's all the same—use LUX.

DENIES SYMPATHY WITH IRISH CAUSE

Esmonde Declares He Is Not a Sinn Fein Envoy; Deportation a Joke.

VICTORIA March 30.—When the Australian liner Makura docked here today, Osmond T. Grattan Esmonde, alleged Sinn Fein emissary to Australia, who was not allowed to land in that country by the Commonwealth authorities, was detained on board the vessel and continued his journey to Vancouver later in the day. It was stated that immigration officers here had strict orders to prevent Esmonde from coming ashore.

Interviewed, Esmonde appeared unconcerned as to his position. Immigration officials were on hand when the vessel docked but if they intended to halt Mr. Esmonde at the gang plank, they were disappointed, for he remained on board.

Detained on Technicality

Mr. Esmonde denied that he is an envoy of Sinn Feinism and smilingly observed that he had no sympathy for the Irish movement.

It was a mere technicality, he said, which kept him on board a ship for two months in Australia.

"I declined to take the oath of allegiance," he added. "All I intended to do in that country was to visit some friends."

He described his subsequent deportation to the Fiji Islands as he "biggest joke of my career."

"I was not allowed to go ashore when we touched at Suva on the return trip, and the captain was duly notified that I was an undesirable alien," he said.

While the liner lay at Victoria a deputation of two men and three women from the Self Determination League sought vainly to get aboard.

Esmonde Waits Decision.

VANCOUVER, March 30.—Osmond Grattan Esmonde, the Irishman who was refused admission to Australia because of his alleged official connection with Sinn Fein, reached Vancouver early this evening on the steamship Makura. He remained aboard the ship this evening pending a decision on the part of the state authorities as to whether or not he will be permitted to land in Canada.

Weary of Shipboard.

VANCOUVER, March 30.—Until the Canadian department of immigration decides whether or not he may land in Canada, Osmond Thomas Grattan Esmonde will remain aboard the Canadian Australian liner Makura in this port. He has lived on the Makura for four months, since he sailed from Vancouver for Australia, in which country he intended, he says, to look after Irish interests while Archbishop Mannix was abroad. The Australian authorities, however, refused to let Esmonde land there, and when the Makura went into drydock in Sydney the young Irish envoy remained aboard.

Esmonde spent some months in the United States last year assisting the "Irish diplomatic branch" there in the compilation of a history of the Irish situation. He sailed from Vancouver to Australia. Tonight he is good humored, but very weary of his long confinement to shipboard.

"I have been in Canada twice before and the country survived the shock," he said tonight. "I can't understand why you dont' want me here now."

Eight persons, who stated that they represented the Irish Self-Determination league here, came down to the dock, but left quietly when they were informed that Esmonde would not land tonight.

Boulder of Boyhood Days Tombstone for Naturalist

POUGHKEEPSIE, N. Y., March 30.—A large boulder upon which John Burroughs played as a boy and sat in study of nature as a man and world renowned naturalist, will form the headstone of the grave where his body is to be interred next Sunday on his 84th birthday.

The burial plot, selected today by relatives of the great naturalist, who died suddenly while returning to his home near here on a passenger train, is high in the Catskill mountains at Roxbury.

INTEREST OVERDUE ON RUMANIAN LOAN

OTTAWA, March 30.—An interest payment of $1,475,234 on the credit advanced by Canada to Rumania, falls due Friday and there is no present indicatio nthat the payment will be met. An interest payment of $153,916 due Dec. 31 on the credit advanced by Canada to Greece, also remains unpaid. Negotiations with the Rumanian and Greek governments are in progress.

Vivid Description.

An English Tommy was asked to give his versioon of a bursting shell. "Well," he said, "first I 'ears a 'ell of a noise and then I 'ears the nurse saying, 'Try and drink a little of this.'"

The Hat

Pretty new models vie with each other to win your approval. Large hats and small Hats, Walking Hats and Dress Hats—all will claim your interest.

Do you use our PATTERN SERVICE?

A fair question because our pattern service solves many a sewing difficulty. An expert or an amateur seamstress will save herself time, labor and the risk of wasted material by taking advantage of the value of a "good start." The McCall printed pattern is so simple to understand.

Having chosen your style it is but a step to our DRESS GOODS SECTION where you may buy the correct amount of material needed from a lovely assortment of SILKS, SATINS, SERGES, VOILES, plain and fancy in the new patterns. Dress Suitings, Printed Crepe, Crevola, Woven Check, Prints, Ginghams, etc.

LADIES' WEAR SPECIALISTS

ISSUE A FURTHER APPEAL FOR CHINA

Canada Has Given Half Million Dollars So Far—Great Population Starving.

The China famine relief committee, representing the Canadian foreign mission board, has issued the following appeal for further contributions:

"In response to the appeal of China's starving millions, $509,000 has been received up to March 10 by the committee through the various treasurers. While expressing its grateful appreciation of the splendid response, the committee desires to call attention to the present condition of the famine stricken multitudes in north China, and the inadequack of the relief thus far sent and to voice the cry of their continued distress.

Of the fifty millions affected, many thousands have perished. To the horrors of starvation have been added the sufferings from extreme cold and those diseases, such as typhus, which inevitably accompany famine. The terrible distress will continue with increasing severity until the harvest in June. Every Christian and humanitarian instinct demands that relief must be continued till then.

Lieut.-Col. Gray of the British legation at Pekin cables on March 8: "Help still urgently needed. Relief, so far, inadequate for the huge number of starving sufferers."

Rev. Dr. Donald MacGillivray of Shanghai, in a strong appeal just received, says: "Notwithstanding all that can be done many will die. The distress will last until midsummer and perhaps after. There is prospect of a good wheat harvest in June. We all know something of the aftermath of the war, but the aftermath of a famine, involving so many millions will leave lingering distress."

Bishop White, who is director of transport and supplies in Honan, writes: "Of the three million most destitute in Honan, the amount received will enable us to save the lives of approximately one million. This means that two million will die unless additional funds are available."

Alberta Asks Funds for Telephone Construction

EDMONTON, March 30.—To take care of telephone and railway expansions under government control during the present year the legislature was asked this afternoon to provide the sum of $11,512,132, the bulk of this to be capital expenditure, with $4,250,000 to be devoted to construction of telephones, and $4,752,532 to the improvement of railway lines under provincial jurisdiction and the meeting of fixed charges on bond obligations.

Premier Stewart admitted that there had been overexpenditure on telephone construction last year to the extent of $500,000, but this was due to overreaching in the projects being carried out and in no way involved wastage of funds.

COUNCIL PASSES FINANCE BYLAWS

Seven Measures Are Completed at Brief Formal Session—Ald. Bell in Chair

A brief formal session of the city council was held yesterday afternoon for the purpose of completing the passage of the financial bylaws. Alderman John Bell, as acting mayor, was in the chair, and there was a bare quorum present, Aldermen L. H. Choquette, A. D. Emory and W. M. Cunliffe making up the number.

The bylaws put through and finally enacted were 338, authorizing a current loan of $35,000 against the 1921 taxes yet to be collected; 339, imposing a $5 poll tax on males over 18 not paying that amount of taxes on real estate; 340, altering the yearly minimum gas charge of $9 to a monthly minimum of 75 cents;; 341, levying 823 mills on land for interest and 5.02 mills on land for sinking fund; 342, levying 17.50 mills on land and on 50 per cent of improvements, for school purposes; 343, levying a library rate of 1.25 mills on land; and 344, levying 12 mills on land for general purposes.

TENDERS WANTED FOR DRIVING ROCK TUNNEL.

The Cadomin Coal Company, Limited, Cadomin, Alberta, purpose driving one thousand feet of rock tunnel. This tunnel will be nine feet wide and eight feet high in the clear, and will be started in sandstone near the river bottom. The dip of the rock being almost vertical.

The company has just purchased from the Canadian Ingersoll Rand company an air compressor (624 cu. ft.) No. 88 Leyner type water drills, drill sharpener, drill steel, air receiver and after-cooler, and will sharpen and blank all drill steel and furnish repair parts for drills. The contractors will furnish their own powder. The company will sell same to them at cost. The contractors will be expected to work three shifts per day, as speed of drivage is desired. The measures in general consist of alternating sandstone and shale.

The Cadomin mine is located on the Mountain Park branch of the Grand Trunk Pacific, 70 miles southwest of Edson. The company has good accommodations for men, free bunk house, board $1.50 per day.

The company hereby calls for tenders for driving 500 feet of said tunnel. Tenders will close on April 15th, and work must start not later than April 15th. Address all communications to Cadomin Coal Company, Limited, P. O. Box 1167, Nelson, B. C. (2325)

MINNG REQUIRES TO BE ORGANIZED

Chairman Armstrong of Late Convention Advocates the Closing Up of the Ranks.

Advocating a closer organization of the mining community, for the general benefit of all branches of the industry, and in particular specific steps to develop possible new lines, L. K. Armstrong of Spokane, chairman of the committee of control of the late Northwest Mining convention held at Spokane, has summarized the lessons emphasized by the convention, in a letter to Fred A. Starkey, and other representative convention boosters.

In the letter Mr. Armstrong says:

"The 1921 Northwest Mining convention, which recently closed after a week of the best work ever done by such a convention held in Spokane, indicated several things which should be done in the future. Some of these I wish to point out, and ask you to cooperate to the end that the mining business in this region may remain an important factor in the financial, commercial and civic life of the communities of the Pacific Northwest.

"There should be better state and provincial organization.

"Convention dates should not conflict with legislature.

"Communities should have local organizations which should cooperate with state or provincial organizations wherein they reside.

Determination of Deposits

"More attention should be paid to the definite determination of deposits of all minerals, both rare and common. The clay of a community may be the most valuable asset. Higher prices for wood as building material are certain to be met with cement, rock, tile, brick, etc. Raw materials of these should be determined as to location, character and quantity.

"The information which you may have as to the minerals of your locality, if made public through proper channels, may result in their exploitation, development and marketing.

"The local organization first, and then the state or provincial organization will be found increasingly useful in giving publicity to the resources and in protecting and fostering the industry."

Mr. Armstrong wishes to be furnished with a complete list of the mining men and prospectors of the Kootenay."

QUIET WEDDING AT PRESBYTERY

A quiet wedding was solemnized at the presbytery of Mary Immaculate yesterday morning between Clarence J. Lyonnais, son of Mr. and Mrs. E. E. Lyonnais, and Miss Frances M. Cobbett, daughter of Mr. and Mrs. H. M. Cobbett, Rev. J. A. Althoff, V. G., officiating. Immediately after the ceremony the young couple took the Great Northern train for Spokane, where they will spend their honeymoon.

FREIGHT DERAILED NEAR NORTHPORT

A derailment Tuesday evening, of the southbound freight train from Nelson, at a point one and a half miles this side of Northport, obstructed the line for yesterday's Great Northern train on its trip to Marcus, and on the trip south the passengers were transferred. The line was cleared for the return trip in the afternoon.

ALLEN AGAIN SHOWS CLASSY BOWLING FORM

Some phenomenal bowling was put on by Jimmy Allen in last night's fixtures of the Y. M. C. A. club tournament. He again took the lead in the high aggregate class, both for a single game and for two fixtures, with 595 and 1146 pins respectively.

E. L. Buchanan was a close runner up with 511 in the singles and 1070 for the two fixture aggregate. Two matches were played last night, Allen winning the point in the Allen vs Scholander clash, and Nagle winning in the Nagle vs Maurer fixture.

The scores were:

Allen vs Scholander				
C. Cryderman ...	122	143	130	395
G Wharton	152	127	141	420
J Allen	168	193	234	595
Total				1410
A. Meston	115	134	132	381
H Hinitt	119	128	152	399
G C Scholander..	138	136	163	437
Total				1217
Nagle vs Maurer				
E L Buchanan ..	181	168	162	511
W Brown Sr ...	152	168	154	474
D. Nagle	142	147	146	435
Total				1420

A. Graves Sr. ...	157	119	126	402
R. Maurer	90	148	154	492
Total				1231

We all admit that education ought to be more handsomely subsidized in the future than in the past.

MACHINE GUNS FOR CITY'S GUN PARK

Nelson Allotted Two Pieces of Light Ordnance—Also Ammunition Boxes.

Another allotment of captured German war material has been made to the city of Nelson by Lieut.-Col. Archibald Douglas, director of war trophies, this time in the shape of machine guns and ammunition boxes. According to the shipping bill, received yesterday at the city hall, these squat German killers left Ottawa on March 23.

In his letter to the mayor Lieut.-Col. Douglas says:

"In accordance with the distribution of war trophies approved by the government, the municipality of Nelson has been allotted the following trophies: Two German machine guns, Nos. 5178, 858; two German ammunition boxes.

"These trophies, which have been declared the property of the people of Canada, are sent to you with the understanding that proper care will be taken of them, and in taking over these guns it is understood that you agree to this condition."

Whether the machine guns and ammunition boxes will be added to Nelson's gun park on Vernon street until the question of the memorial site is finally settled, or will go under lock and key, has not yet been determined. To be safe from molestation such light ordinance would probably have to be chained to its eventual concrete base.

INTERMEDIATES BATTLE AT PLATE

Nifty Nines and Pickups Open Ball Season With Scratch Game.

Baseball fiends here tore loose in the first battle across the diamond this season yesterday afternoon when two scratch intermediate teams, the Nifty Nine and the Pickups, pasted the pill all around the field. Victory rested with the Nifties with a score of 11 runs to 7. Walley was the live boy at grabbing the hot ones behind the plate for the Nifties while Hinton at third kept travelling right along on the circuit. The Nifties had a lineup that could give strenuous battle to other intermediate teams in the city.

The line up was

Nifty Nines	Position	Pickups
M. Walley....	catcher..	G. McEachern
C. Bradshaw...	pitcher..	B. Stevenson
A. Gallagher...	1st Base...	G. Burgess
B. Pickering..	2nd Bas...	P. Rutledgge
J. Curran.....	s.s.....	R. Bradshaw
D. Hinton....	3rd Base....	J Gagnon
J. Binnish....	L. Field....	G. Benwell
L. St. Denis....	C Field.....	H. Pitts
W. Bradshaw.	R. Field..	G. Armstrong

TURKS CAPNURE GREEK DIVISION

Taken at Eski-Shehr, One of Important Obectives of Offensive.

CONSTANTINOPLE, March 30.—An entire Greek division has been captured by the Turks at Eski-Shehr and the Greeks are fleeing from that city, according to notices posted up in Anatolia.

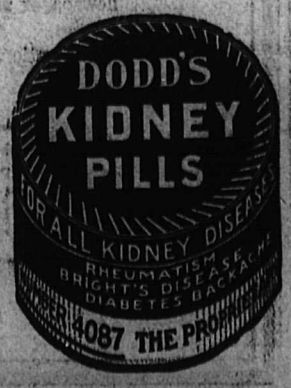
The Greeks thus far have made no statement on this report.

Greek troops occupied the city of Eski-Shehr, in Asia Minor Monday night.

This was one of the important objectives of the Greek offensive, as it is a junction point on the main line of the Bagdad railway.

PROFESSOR DEPLORES NEGLECT OF LIBRARY

TORONTO, March 30.—Professor J. L. Morrison, of Queens university, Kingston, addressing the English and history section of the Ontario Educational association today, expressed regret that the average young Canadian today cares nothing for books. He said "the disuse of the Bible today is a disaster to education. Organized amusement, the automobile, and the moving picture shows are challenging the reading of books. The garage has displaced the library; golf clubs have taken the place of books."



REALTY MEN JOIN HANDS AT FORKS

Decide to Boost for Community—Expect Influx of Settlers.

"Grand Forks real estate men have clasped hands and decided that their business and the community's business can be better promoted by cooperation than by working at cross purposes," declared George C. Egg, the Grand Forks real estate broker, who arrived in Nelson last night by the Great Northern train, after a trip in the Pend d'Oreille. On Monday night, Mr. Egg states, the Grand Forks Real Estate Men's association was formed, with the seven realty firms all members. J. S. Weir is president of the association, and Donald McCallum is secretary. A code of ethics is being formulated, to which all the firms will agree to conform, and while keen competition may be expected in certain respects, the fraternity will act together.

"We figure our district is going to advance, and we propose to work as intelligently as we can to help that advance," said Mr. Egg. "Something like 500 persons were added to the population of the valley during the past 12 months, and there are signs that a movement of settlers is getting under way.

Mr. Egg put through two sales of ranches and three of houses last week, his record week for the winter.

MORNING WEDDING AT ST. SAVIOUR'S

Miss Mabel Astley Bride of Kenneth Attree of Queens Bay; Honeymoon Spokane

The marriage took place at St. Saviour's church yesterday morning of Miss Mabel Louise Astley, only daughter of Mr. and Mrs. W. J. Astley of Nelson, to Kenneth Ross Attree, younger son of Mrs. G. F. Attree of Queens Bay, Rev. Fred H. Graham, rector of St. Saviour's, officiating. The wedding took place at 7 o'clock to enable the couple to leave on the 8 o'clock train for a honeymoon trip to Spokane for a few days prior to their settling down in their new home at Queens Bay. Many friends were at the church to witness the event. Miss Olive Bealby assisted as a charming bridesmaid and the best man was Alex. Attree, brother of the groom. The wedding presents were beautiful and numerous, amongst them a handsome set of cutlery from the teaching staff of the Nelson school. Capt. Douglas Brown officiated at the organ, rendering Mendelssohn's Wedding March. Nelson sunshine favored the happy event. The bride has been a resident of Nelson since the age of 18 months.

INSANITY PLEA HOLDS

BROCKVILLE, Ont., March 30.—A verdict of not guilty on the ground of insanity, was returned tonight by the jury which tried the case of Derrick Tennant, 79, charged with the murder of Robert Wood, husband of Tennant's niece, at Caintown, on Feb. 7, last.

Mental experts testified that the prisoner was suffering from senile dementia marked by hallucinations that he was being constantly pursued by Mr. and Mrs. Wood.

Speaker's Casting Vote Decides.

WINNIPEG, March 30.—The legislature today gave second reading to Attorney-General Johnson's bill providing for the prefertential votingn system in single member constituencies when more than two candidates are running. The speaker cast the deciding vote and the motion was carried, 26 to 25.

KASLO FAST BUT NOT FAST ENOUGH

Cadets Win From Visiting High School Team—Return Match Fixed.

In a clean snappy game, in which the referee had only occasion to hand out three penalties, the Nelson Cadets won basketball honors from the Kaslo high school boys at the Y. M. C. A. yesterday afternoon, by a score of 25 to 17. While the upper lake lads were fast and capable, the Nelson boys took the lead, and were never headed, the halftime score of 12 to 8 being almost exactly doubled in the full game. Of the three penalties two were against the home team and one was against the visitors.

The Kaslo team arrived on the morning boat, under charge of Manager L. B. Brown, and immediately took up their quarters at the "Y". The game was completed in time for them to have a shower and rub down before catching the boat for home.

A return game at Kaslo has been arranged for April 8.

The lineup and official yesterday were as follows:

Kaslo		Nelson
E. Perkins	forward	P. Rutledge
R. Butler	forward	A. Ioanin
K. Roberts	center	T. McVicar
C. Ovy	guard	G. Long
R. Goodwin	guard	K. Rees
E. Zwicky	spare	C. St. Denis

Referee—Stan Moderell; timekeeper, C. Cryderman; scorekeeper, R. Waldie.

DEER CHEW BUDS OFF WANETA TREES

Deer are chewing the buds off the apple trees in the vicinity of Waneta, according to a visitor who was the guest of Capt. W. A. Duncan this week. The deer are seen in bands of three or four at a time, and, not being molested, are making themselves something of a nuisance. Grouse are also reported to be plentiful throughout the Pend d'Oreille.

ANGLICAN BAZAAR HAS MANY ATTRACTIONS

All sorts of attractions and novelties greeted the continuous storm of visitors to the Anglican Easter bazaar that was held in the Knights of Pythias hall yesterday afternoon. The affair was decidedly successful both from the standpoint of the ladies to whose efforts most of the edible delicacies, choice pieces of fancywork and useful articles of wearing apparel on sale were due, and of the enjoyable time the visitors spent in having their fortunes told, in fishing for lucky catches, or in social chat over tea. Mrs. Fred H. Graham was the convenor. Those presiding at the fancy-work and bake tables were: Mesdames D. A. McFarland, P. G. Morey, J. England, F. P. Armstrong, and the Misses Ruth and Charlotte Armstrong. At the tea and ice cream tables Mesdames W. Evans, C. D. Risk, and R. Hopkins, were assisted by a contingent of helpers.

A delightful dance, which was a separate but wholly enjoyable event was held by the ladies of the church in the Eagle hall in the evening. About 100 people attended. At midnight, a dainty table supper was served in the gallery. Mrs. Leslie Craufurd was the convenor. She was assisted by Mesdames W. Thorpe, J. England and I. Brant.

The C. P. R. are putting up almost ten thousand tons of ice for their own use at Cranbrook.

Your personal differences are not worth considering if they interfere with progress.

THURSDAY MARCH 31, 1921

Mary Ellen and That Cabinet Position.

Mrs. Ralph (Mary Ellen) Smith, honorable member of the provincial cabinet, asserts that she is also president of the council.

Hon. John Oliver declares that Hon. Mary Ellen is member of the cabinet without portfolio and that he intends himself to continue to preside over cabinet meetings.

It is quite an interesting little scrap, and, having in mind that famous experience of the premier's osculatory exuberance at the big politcal lovefeast in Vancouver after the provincial election last December, Hon. Mary Ellen may object to carrying out the advice to "kiss and make up" which is being tendered by jocular onlookers.

She has precedent on her side, too. Hon. L. G. McPhillips, for some years member of the provincial government without fortfolio, held the dignity of president of the council. Sir Richard McBride preferred to have someone else in the chair, as it left him free to enter into cabinet discussions without violation of the rules of order.

Anyway, Hon. Mary Ellen knows what she wants and most people will rather hope that she will win out in the argument. The cabinet would lose neither in dignity nor comeliness if she won the right to sit at the head of the table.

Editorial Notes

One of the best arguments against anything ending in ism is North Dakota, where Townleyism and the Non-Partizan league have control of affairs. Socialistic schemes have been tried with fatal results from an economic and financial viewpoint.

—o—

Very frequently success is the result of living up to flattery or living down a knock.

—o—

With the cost of propaganda mounting daily, how can you expect Germany to pay indemnities or Ireland enough to buy meal tickets?

—o—

People seldom need money until they persuade themselves that they need something else they don't need.

—o—

Germany boasted that the world would soon forget atrocities if she won. And apparently it has, anyway.

—o—

Reparation: Noun; money paid by a loser who has wrecked the premises. Synonyms, Conversation; whines.

—o—

Just keep the record straight, it is recorded the fact that the Harding cabinet contains one full beard, three mustache sets, and three bald heads.

Cold Storage

"Was that home-brew of Palmer's very potent."

"Well, during the evening Palmer tried to get inside his own grandfather's clock with the idea of phoning his wife that he wouldn't be home on time."

George—"That horse knows as much as I do."

Clara—"Well don't tell anybody. You might want to sell him some day."

SWAM FOR BRIDE.

NEW YORK, March 30.—G. Washington Tayor, 2923 Creston avenue, The Bronx, colored, swam the Hudson at Dyckman street, guided by the song of Lilian Tibbets. She had promised to marry the first of two suitors who accomplished the feat. When Taylor landed he was met and embraced by the dusky maiden.

Efficient Housekeeping

BY Laura A. Kirkman

THAT LEFT OVER CUP OF SOUR MILK

"What can I do with a cup of sour milk?" asks a reader-correspondent "Usually I don't have enough to make cheese of it." Try the following recipes

Gingerbread Cup Cakes—Cream together ½ cup butter and 1-3 cup sugar, add 2-3 cup molasses, ½ cup sour milk in which 1 teaspoon of soda has been dissolved, and last add 1 teaspoon ginger. Mix well, then add flour until very thick. Bake in gem pans for about fifteen minutes in a hot oven.

Sugarless Gingerbread—Sift 2½ cups of flour with ½ teaspoon salt into the mixing bowl. Add 1 cup sour milk in which 1¾ teaspoons soda have been dissolved, then add 1 cup molasses, ¼ cup melted butter and 2 teaspoons ginger. Pour into a shallow pan and bake 25 minutes in a moderate oven.

Sour milk Cake—Cream together 1 cup of sugar and ½ cup of butter; add ½ cup sour milk in which ½ teaspoon soda has been dissolved, then add 1 unbeaten egg, 2 cups flour sifted with a pinch each of salt, ground cloves, cinnamon and nutmeg and, last add 1 cup seeded raisins and the grated rind of 1 lemon. Beat vigorously an bake about twenty-five minutes in a good oven.

Sour Milk Monkeys for Children—Cream together 1 cup of sugar and a piece of butter the size of an egg; add 1 well beaten egg, and ½ cup sour milk in which 1 teaspoon of soda has been dissolved; last add 2 cups flour and four or five dates stoned and chopped finely. Drop with a small teaspoon in a well buttered pan. Bake in a hot oven (about 8 minutes).

Corn Cake—Break 1 egg into a bowl, add 1 cup sour milk in which ½ teaspoon soda has been dissolved, 1 cup Indian meal, 1 cup flour, ½ cup sugar 1 teaspoon salt and, last, 3 tablespoons butter melted. Bake either in gem tins or in one cake. The gems will require about fifteen minutes of baking, the cake twenty-five to thirty minutes.

Sponge Corn Cakes—Sift into the mixing bowl 1 cup flour mixed with ½ cup corn meal; add 1 cup sour milk in which has been dissolved ½ teaspoon soda; add 2 well beaten eggs, 1-3 cup sugar, ½ teaspoon salt, and, last, 1 tablespoon melted butter. Bake in gem pans in a hot oven—about fifteen minutes.

Sour Milk Griddle Cakes—Rub into 2 cups of flour 1 rounded tablespoon of butter or lard; add 2 cups sour milk, ni which has been dissolved 1 tablespoon soda. Next add 1 teaspoon salt stir well, and let stand several hours. Then add 1 cup of cold hominy (or hot) and 1 rounded teaspoon soda dissolved in a little col water. Beat well and fry on a hot griddle.

Pancakes Containing One Egg—Beat one egg and add to it 1 cup sour milk and flour to thicken—about 1½ cups. Drop on a hot griddle and serve with sirup.

Oatmeal Gems—Mix together 1 cup uncooked rolled oats and 1½ cups sour milk and let stand several hours, preferably over-night. Then add 1 teaspoon soda, a pinch of salt, 2 tablespoons sugar, 1 egg, butter size of an egg, and ½cup flour. Bake in gem pans in a quick oven.

Tomorrow—Can You Run Your Home On $75 a Month?

WHY HOPE-PRINCETON ROUTE FOR THE TRANS-PROVINCIAL EXCELS ALL POSSIBLE RIVALS

By P. W. GREGORY, A. M. E. F. C., B. C., L. S., Secretary Princeton Board of Trade.

We have searched without success for any argument which might favor the construction of the highway via the Fraser or Yale canyon as against the southern location.

It is admittedly a shorter journey for the traveler from Kamloops, Ashcroft and Spences Bridge and the extensive territory lying north to the coast, but it can only boast of being 60 miles shorter than the journey via Princeton and Hope. We should not lose sight of one of the principal objects of the highway, namely, a trans-provincial highway; capable of forming the British Columbia link in the All-Canadian highway; yet for the sake of 16 miles it is asked that the scheme should be abandoned. Not only is this demanded, but in effect that all travellers from points east of Penticton, such as Grand Forks, Trail, Nelson, Cranbrook, Fernie, from Lethbridge and Alberta points, from Spokane and places throughout eastern Washington, Idaho and Montana, must needs travel 180 extra miles to reach Vancouver and the British Columbia coast. That is the difference in distance between the direct Yale Canyon route and the direct Southern Route. Penticton for instance, is about 453 miles from Vancouver via the Canyon as against 273 via Hope-Princeton.

The superiority of the Hope-Princeton route over all others from the point of view of saving distance. This difference in mileage practically represents two days additional travel for the motorists along the canyon route, an extra which in the consumption of gasoline, oil and wear and tear of tires and machinery would assume large proportions in dollars and cents to be extracted year by year by this indiscretion from the pockets of a multitude of travelers, It represents a serious handicap to the towns and districts mentioned. It destroys the advantage British Columbia would otherwise possess in having a highway as in the Southern route, capable of the motor highway running east to the west across the neighboring state of Washington, for the increasing volume of American motor travel.

Route Almost Snow Free

The Hope-Princeton link is unjustly assailed in certain quarters on the question of snowfall. It is spoken of as "the route over the snowbound Coquihalla.'

It is in no sense a road over the Coquihalla. A reference to the map will quickly reveal that the Coquihalla lies in closer proximity to the Yale Canyon than to the Hope-Princeton Route. In fact, the Coquihalla lies wholly within the Dominion Railway Belt, and it is at no place more than 18 miles in a direct line east of the Yale Canyon. The Hope-Princeton route on the country runs from Hope up Silver Creek, and the Skagit, then down the Roche and Similkameen rivers, varying from 20 to about 50 miles southeast of the Coquihalla. As regards the Coquihalla Pass and Canyon, we do not attempt to deny that it is snowbound in the winter months. It is a deep, and narrow defile traversed by the Kettle Valley railway on its way to Vancouver. Here the snowfall is particularly heavy, and snow collects on its steep sunless slopes to a great depth. Snow conditions are almost as bad as it is possible to meet with, a succession of intermittent and heavy snowfalls, followed periods of determined thaw, causing the mixture of snow and water to slide down the mountain-sides to the lower levels where it packs into an almost immovable mass, probably further consolidating under a subsequent period of cold weather.

Along the Hope-Princeton Route snow conditions are entirely different. The valleys are shallower, and wider, the mountains further receding and the snowfall lighter. We have collected statements from men who have trapped, prospected and travelled through that section of the country during the winter months of the past fifteen and twenty years. These statements have been certified and deposited in the hands of the Minister of Public works. They all point to the snowfall being similar to that met with at Princeton, with snow generally lying about 30 to 36 inches deep during the extreme winter months. Only for a stretch of about two miles at the summit is there any material difference in that condition.

Snow conditions in Princeton are found to offer no serious obstacle to motor travel. Cars have operated daily throughout the winter to Copper Mountain mining camp. which is much the same elevation as the summit of the highway on the road to Hope.

Fraser Canyon Often Impassable

As to the Fraser Canyon, does it not also have its snow troubles? A reference to the "Daily Province" of 15th January this year discloses the following paragraph, headed "Trains Delayed on Two Systems: "Heavy snow of the past few days, followed by heavy rains had caused serious trouble to both the C. P. R., and C. N. R. railways. The service on both lines is badly interrupted today. The C. P. grade at Haig was washed out and no trains are likely to get through until Sunday morning. The C. N. R. encountered troubles at Boston Bar where the grade was affected similarly as at Haig by snow and rain. To add to the C. N. troubles, however, their wires are down."

Travellers over the C. P. R. on this particular occasion tell that the torrents formed by the melted snow coursing down one of the many steep ravines that drain into the Fraser river tore a huge gap in the railway grade about 100 feet wide and probably 50 feet or more deep, leaving the track suspended in midair. The trouble on the C. N. R. was seen to be almost exactly similar. A month later we read in the "Vancouver Sun" of February 11th, of the wreck of a C. N. R. train in the Fraser Canyon below Lytton. A landslide caused by thawing snow and rain blocked the track for a distance of fifty feet, completely covering the rails, The engine and express car were thrown from the track and slid down the steep mountain side. Two days later C. N. R. trains were held up by slides near Boston Bar for eleven hours and the C. P. R. service was similarly interrupted.

Volume of Traffic

Snow is inevitable by whichever route the trans-pravincial highway is contructed and we fail to see that the Yale canyon can boast of any better winter conditions than are to be found along the Hope-Princeton road. In fact, it is highly probable they are for worse.

The question arises as to what volume of motor travel may be expected during winter months. Experiences on the best winter roads of the interior is that it is exceedingly small. We venture the opinion that the Hope-Princeton road, passing as it does through lands suitable for settlement, connecting with rich mineral territory capable of development, and extensive timber areas, is in a position to serve and consequently to be kept in a more serviceable condition by a greater volume of general traffic during the winter, than a purely motor road along the unpromising confines of the Fraser canyon.

In an article dated 31st December, 1920, in the Daily Province by Percy Gomery, discussing the question of the trans-provincial highway, he quotes an interview with L. A. Agassiz, an old pioneer of Harrison Lake, wherein the latter says, "Imagine trying to find a horse path up the Yale Canyon today, or up Silver Creek on the former government's mad attempt to get over the Hope Mountain to Princeton." We respect Mr. Agassiz' opinion as a pioneer and do not question his thorough acquaintance with the deficiencies of Yale canyon; we do, however, refute his wild statement respecting the Hope to Princeton route. If a highway can be built at reasonable low cost between there two points, through, and not over the Hope Mountain, on easy grades, where the maximum is only eight per cent and that, for short stretches only of a few hundred feet, it cannot be justly characterized as a "mad attempt."

The people of the province who will "foot the bill" will prefer to accept H. A. Cleveland's report as engineer on the trans-provincial road He states in the report under the heading of "General Route,": "The selection of the general route for the road being the most important consideration in connection with the undertaking, it was thougt advisable to further confirm the opinion arrived at last year (1910) as to the superiority of the so-called Southern Route. Then as to grades, he further adds: "That a location has been made on which a road with grades not exceeding eight per cent can be built at a reasonable cost, must be a matter of some surprise to anyone having a close acquaintance with the the features of that great area of uplifted and broken country between these two points." (Hope and Princeton). Then as to scenery, he continues: "It may not be out of place to here refer to the scenic beauties of this rugged route. Apart from the the attractiveness of the location along rushing creeks and rivers, and the splendid forested areas of the western half of the line. there exists within a couple of miles of the main pass, and to the southward thereof, one of the finest areas of mountain scenery to be found anywhere. The whole route is one of varied attractions for the tourist and traveller, and should form one of the most inviting links of the great project in which it forms at present the largest gap."

The selection of the southern route by the provincial government as the route of the trans-provincial highway, should at no time be in question as it compares favorably in cost of construction and maintenance with other proposed routes, as it opens up new provincial territory, as it will assist in the development of resources to which in any event a road must ultimately be built, as it traverses the difficult mountain sections on low grades, as it affords in comparison with the proposed Yale canyon road an equally direct route to the northern interior of the province, and as it is by far the most direct route for the All-Canadian highway, effecting a saving of about two day's journey over other proposed practical routes.

It is not intended to disparage either of the alternative routes; the Harrison Lake-Lillooet route, or the Squamish-Lillooet route. They have much to recommend them as highways to the northern interior of the province, and they should eventually be constructed. They cannot, however, claim to offer any more than can the Yale canyon road, any advantages as the route for British Columbia's link in the All-Canadian Highway.

Twenty Years Ago Today

(From the Daily Miner of March 31, 1901.)

Mrs. George B. Bous, wife of the accountant of the Chapleau mine, on Lemon creek, was seized with a fainting fit while working about a cook stove. She fell across the stove and was discovered in this position some time later. The unfortunate woman had sustained burns from which she died before medical attendance could be secured.

Styles

BY LENORE

Soft, light and graceful to drape are the new varieties of crepes which are fashionable this season. All weaves are featured, from familiar crepe de chine to the now well-established Canton crepe with its pebbly surface, and that soft and clinging fabric with a satin broche figure.

This latter is a clever material for a black frock, if one chooses to be influenced by the famous Renee, who has marked black as the smartest color for the elegant Frenchwoman. In her model shown above, interest centres in the material and in the tricky application of the plain crepe bands, which hang loose from the waist and accomplish a somewhat tapering silhouette by nipping the skirt in slightly at the hem.

PATTERN NO. 125

A pattern for the above model (No. 125), can be obtained in sizes 34, 36, 38 or 40, by sending to Daily News, your name and address, the number of this pattern and size required, and 25 cents in postage stamps. Be sure to keep this newspaper clipping of the sketch and description of the garment to use as a working model when the pattern reaches you—which will be within two weeks.—THE EDITOR.

NURSE DEAD IN BED.

VICTORIA, March 30.—Miss Ada Horning, a trained nurse, staying with her brother-in-law and sister at 516 Harbinger avenue, was found dead in bed this morning. An inquest will be held.

VICTORIA, March 30.—Work on the Kettle Valley railway will be speeded up, Hon. T. D. Pattullo, minister of lands, announced today, following action taken by the government to have the line more rapidly pushed forward.

Daily Recipe

(Paste this in your cook book.)

Vegetable Salad.

Two carrots.
One turnip.
Two medium-sized beets.
One-half cup diced celery root.
Canned peas.
Mayonnaise.

Cut the vegetables, except th beets, into dice and cook until ten der. Drain. The beets should b cooked separtaely and diced. Mix th vegetables with enough mayonnai to moisten and serve in a salad bo lined with lettuce. The peas a beans may be left over from dinne

The Daily Newspaper is an Instant Force

WISE national advertisers are not making longtime commitments these days. Conditions are changing too rapidly. What may have been a bad market yesterday may be a good one tomorrow.

What might be a fair price today may be low or high a week hence.

Alert merchandisers are marshalling their selling forces so they can have the right men on the right spot at the right moment.

In times like these there is no force so adaptable to the problems of the manufacturer or national ditsributor as newspaper advertising.

The national newspaper advertiser can change his appeal overnight. He can move from one market to another instantly.

He can start here or stop there. He can make every advertising dollar count one hundred cents in efficiency.

In no other medium except the daily newspaper can he have like advantages.

The daily newspaper is the medium of complete adaptability, just as it is the medium of immediate results.

Manufacturers and distributors interested in the problems of modern merchandising are invited to wite to the Bureau of Advertising, 806 World Building, New York, for a copy of the book, "National Advertising and the Newspapers"

A Dainty Slipper

This Slipper we are showing in dull black kid and patent leather. A very dressy creation and is suitable for evening or afternoon wear.

COULD NOT GIVE FRIENDS THE SLIP

Bridal Pair Quit Train at Tadanac, But Friends Get Wise and Give Reception.

TRAIL, March 30.—Miss Jeannie A. Robb and Victor J. Corbett of this city were quietly married in Nelson yesterday and planned to return, unknown to their many friends in this city, on the 11:30 trian last night, and to make doubly sure of a quiet and unobtrusive arrival arranged that an auto should meet the train at Tadanac and convey them to the Arlington, where they were to return.

But, oh, my! it proved to be a far from quiet return, as nearly one hundred of their friends, although missing them at the station, learned of their arrival at the hotel and proceeding thence gave them what was probably the noisiest reception heard in Trail for many years.

ROCK CREEK NOTES

ROCK CREEK, March 29.—Robbers broke into the post office at Rock Creek last week and got away with several hundred dollars. Up to the present no arrests have been made in connection with the robbery.

G. Lingstrum is erecting a combined blacksmith, wheelright and repair shop at Rock Creek for Carl Olsen.

The Kettle Valley hockey team played their first game last Saturday. The membership has increased since last season.

S. Larsen, assessor for Princeton and Rossland districts, returned from Penticton on Saturday's eastbound train.

Neil O'Donnell has rented the Madge ranch from Mrs. M. Kayes. Mrs. Kayes has removed to her residence at Rock Creek.

Harold Moil is relieving Mrs. A. Whiting as postmaster at Kettle Valley for two months

N. Robinson shipped in a carload of seed oats last week and has another car on the road from the United Grain Growers at Calgary.

C. Bodman and W. Clark, who bought the Johns ranch on the Bridesville road came in from Grand Forks with a carload of settler's effects on Good Friday.

Most of the logging camps on Kettle river have closed for the season. Several new tie contracts have been let.

Some men have a regular Sunday morning attack of homesickness when the church bell rings.

SCHOLARS STAGE IMPOSING SCENA

Ancient Greece and Modern Christians Feature Entertainment.

TRAIL, March 30.—A very successful entertainment was given by the Methodist Sunday school to their parents and friends on Thursday. It took the form of a supper served at 5 o'clock in the Baptist church, which had been kindly loaned for the occasion. About 200 were served.

A concert was then given in the Methodist church, commencing at 7:30, the building being packed to the doors and many being turned away.

The program was a very good one and the performance was put on almost entirely by the Sunday school children.

Highly Trained Children.

Not only the children, but their instructors, are deserving of great credit for the high class of the entertainment, in the preparation of which a considerable amount of training must have been required as well as a good deal of artistic ability and planning of effects.

In particular the Easter drill, in which the performers by marches and countermarches arranged themselves, letter by letter, into the word "Easter," showed great precision and by arrangement of colors very pleasing effects, and finally the grouping into the form of an Easter lily made a fitting climax to this drill.

Ambitious Production.

The Grecian poses, composed of girls costumed in the ancient Greek modes of dress, were arranged to represent, as the name implies, the best examples of Grecian statuary, and illustrated many attitudes assumed in playing various Grecian games, as well as small groups symbolic of a few of the highly esteemed virtues of the ancient Greeks With the almost professional skill with which this number was put on, assisted by the well arranged stereopticon colored lights, the effect was certainly charming.

Nations Pay Tribute.

The acting song, "Tribute of the Nations," in which the various nations of the world represented by a number of the junior girls and boys each in the typical costume of the country or nation represented, was illustrative of the worldwide spread of Christianity and the acknowledgement by those nations of their belief in the fundamental truths of that great first Easter day.

In the song each nation in order laid a tribute of flowers at the foot of a cross, the national anthem of that country being sung, and each child gave a recitation on behalf of the country represented.

After the last tribute and recitation the well-known missionary hymn, "From Greenland's Icy Mountains," was sung by the whole assemblage, the whole being very picturesque and effective. All the items were heartily encored, but time did not permit of repetition.

The program consisted of: Recitation, Della Webb; song, Hilda Barnes; recitation, Duncan Mackenzie; recitation, David Balfour; chorus, Edna Randell's class; dialogue, Clifford Watson's class; Grecian poses, Mrs. MacLeod White's class; chorus, "Nature's Fields" girls.

Action song, "Tribute of the Nations": Canada, Eva Randell; England, Archie Phillips; Ireland, Ray Barnes; Scotland, Marjorie Mackenzie; Wales Evelyn Davies; Australia, Clifford Watson; France, Dorothy Young; Holland, Gladys Randell; India, Dudy Carr; China, William Whaley; Japan, Agnes Martindale; "Easter," Millicent Davies. Closing, chorus.

Devoted Services.

Amongst those who devoted their time and talents toward making the entertainment such an unqualified success should be mentioned Mrs. MacLeod White and Mrs. Don Forteath, the former having planned the details and trained the performers for the Grecian poses and Mrs. Forteath undertaking the same service for the Easter drill and the "Tribute of Nations."

Easter Monday Dance.

The annual Easter Monday dance held by the Woman's Auxiliary of St. Andrew's church in Swartz hall last night proved to be very successful, about 100 couples being present. The music was supplied by the G. W. V. A. five-piece orchestra and the dancing was kept up until about 2 o'clock.

SLOCAN CITY NOTES

SLOCAN CITY, March 29.—Howard Hufty and Miss Florence Hufty of Rossland are spending the Easter holidays with their brother and his wife, Mr. and Mrs. Francis Hufty.

Miss Marjory Stobo of Nelson is here the guest of Miss Bernice Reid.

Miss Edith Anderson of Lemon Creek is in town visiting with relatives during Easter week.

Miss Mary Dearin of Nelson is spending the Easter holidays here with her aunt, Mrs. William Greenwood, and other relatives.

Mr. and Mrs. Jeffrey Greenwood have purchased the Pendry cottage in the Brandon townsite and have taken up their residence there.

EXTEND RELIEF FOR DISABLED

Will Enable Department to Deal With Most Needy Cases.

OTTAWA, March 30.—An order-in-council has just been passed extending the relief granted to disabled men by the department of soldiers' civil reestablishment, until April 23, subject to certain modifications. It is now provided that the men for whom assistance shall be granted shall be married or single with dependents who have received assistance as such prior to March 31, the maximum amounts which may be expended on behalf of any case are:

Man and wife, $60.00; first child under 16 (girl 17), $12.00; second child under 16, (girl 17), $10.00.

Maximum payable $85.00.

No further assistance will be granted to single men without dependents after March 31. This extension will enable the department of soldiers' civil re-establishment to deal with the most needy cases during the next three weeks. By that time, it is hoped that a majority of the men who are now receiving assistance will be able to secure employment. It will be noted that no new cases for relief can be taken on under this extension.

BUSINESS MEN TO DRAFT TAXATION

Manufacturers, Merchants, and Retailers Join Forces to Advise Government.

TORONTO, March 30.—(Canadian Press)—After a lengthy joint conference on the question of federal taxation here today, in which representatives of the Canadian Manufacturers' association, the Wholesale Grocers' association, the Canadian Creditmen's Trust association and the Retail Merchants' association of Canada took part, a joint committee was appointed to draft a plan of taxation to be presented and discussed at a further conference tomorrow. The conference will also deal with the question of the best methods to adopt for increasing the sale of Canadian-made goods, so as to overcome the adverse trade balance between Canada and other countries, and to provide more work for the people of Canada.

All Taxes Unpopular.

The inevitable unpopularity of taxes was hit off by J. H. Douglas, wholesale clothing manufacturer, of Hamilton, Ont., who declared:

"Whatever form of taxation the government may introduce will be objectionable, but we will have to make the best of it."

J. Walsh, manager of the traffic department of the Canadian Manufacturers' association, submitted a plan as follows:

"That the business profit war tax shall not be reenacted.

"That the revenue war tax as regards corporation shall be repealed.

"That the sales tax now in effect in Canada shall be amended and extended sufficiently to provide the necessary revenue required by the government."

Opposes Lump Sums.

T. W. Leary of the Canadian Credit Men's association, opposed taxation in lump sums. He said that if the penalties prescribed in connection with the sales tax act were made of a confiscatory character there would be very few retailers manufacturers or importers who would attempt to evade it. The retailers presented a strong case for the levying of taxation at the source of supply some features of which appealed to the manufacturers and importers.

J. A. Banfield, Winnipeg, declared that the retailers did not wish to shirk their duty to the government, and the small merchant would pay his share of taxes as well as the "big fellow." Mr. Banfield asserted that the farmers of the west were paying their taxes, but the farmers in the east were not. He criticized the government's management of the government merchant marine and complained that the government had imported engines from Buffalo for launches when these could have been purchased in Canada.

Horace Chevrier, Winnipeg, who spoke for the retailers, said that by the government's proposed taxation, foreigners who could scarcely read or write, would be compelled to keep books instead of "making chalk marks behind the door." If the government introduced new methods of book keeping it would result in trade stagnation and many people would be thrown out of employment, he said.

IMPERIAL PRESS TOUR A SUCCESS

Results in Vast Publicity for Canada Throughout the Empire.

MONTREAL, March 30.—The executive committee of the Canadian Daily Newspaper association which, under the chairmanship of Lord Atholstan had charge of the organization and arrangements for the imperial press conference held in Canada last summer, has concluded its work. Reports presented showed that the conference and the transcontinental tour of the delegates had been successful in every way, resulting already in a vast volume of publicity for Canada. The committee has on file several hundred columns of reports of the conference and the tour printed in prominent papers over the British Empire, and several pamphlets and books descriptive of the visit, more of which are to follow.

The costs of the conference were guaranteed by the members of the Canadian Press and contributions were made by the federal government and the various provincial governments. The Canadian National railway, the Canadian Pacific railway and the Grand Trunk and the Grand Trunk Pacific, Canada Steamship Lines and the Northern Navigation company furnished invaluable cooperation.

The expenses have been kept well within the preliminary estimates and the committee now finds itself with a surplus on hand which is to be returned to the contributors.

Mrs. Hurd Golf Champion.

PINEHURST, N. C., March 30.—Mrs. Dorothy Campbell Hurd, of Pittsburg, retained her title as North and South golf champion by defeating Mrs. F. C. Letts, Jr., Chicago, four and three, today.

SENATORS WARY OF IMPERIAL COUNCIL

Advises Caution at Empire Conference and "Unity of Diversity."

OTTAWA, March 30.—Moving in the senate today for copies of all correspondence exchanged between the Imperial government and the government of Canada in connection with the representation of Canada either in the British parliament or in any council; its participation in the administration of the British empire; its contribution to wars of the British empire and to the establishment of a British or Canadian navy, Senator L. O. David said that, in his opinion, any scheme that would have the effect of diminishing the autonomy enjoyed by the various dominions and colonies within the Empire would be productive of disastrous results.

It could not be supposed, Senator David said, that Canada, Australia, New Zealand and South Africa would think alike on all world problems; what would suit one would not suit the other, and any scheme designed to mould them into a single attitude would bring nothing but harm. What was wanted was the unity of diversity, unity based on local autonomy. After all, Britain had no reason to complain of her dominions. They had in recent years shown a high measure of devotion, and no one supposed that they would have done more had relations between them been more close. Why then was it deemed necessary to part from the present position? He warned the senate and the country to be on guard as to what might be done at the coming conference of premiers.

No Objection—With Reservations.

Senator Robertson said the government had no objection to tabling the correspondence asked for, with the reservation, however, that there might be communications of a character which would not be in the interests of the public.

The bill amending the post office act by increasing the amount of insurance that may be placed on mailable matter, and effecting other changes, was considered in committee and progress reported. The senate adjourned until 3 o'clock on Thursday.

RESENT CHEAP COAL.

BERLIN, March 30.—Protest against the sale by allied governments to neutrals of coal delivered by Germany on the reparations account, is made in a note addressed to the reparations commission and the Belgian cabinet by the German government. It is asserted that Belgium is disposing of German coal in Holland and that coal aggregating several thousand tons has been offered for sale abroad at prices below those Germany is able to quote.

As the result, the note declares, German interests are being severely injured.

Spokane's Largest Dental Office

DR. COHEN, OWNER

The Recognized Home of
Painless Dentistry

I Say Absolutely Painless and I Guarantee It

This office is known throughout Spokane and the Inland Empire for its wonderful painless methods. Thousands have been satisfied at this office—so if you are one of the many who dread the dental chair you should investigate the great results given by our famous Novathesia Method.

Novathesia is used exclusively at this office. No sickly gases to endure, no bad after effects.

Ask for Dr. Cohen. I will serve you personally.

"Nature Teeth" Have Proven Their Superiority

Not in a few cases, but in hundreds of cases—"Nature Teeth" are so far superior and different from the ordinary false teeth that this office now receives nearly double the plate business of any other Spokane office. "Nature Teeth" are natural, light, sanitary and a perfect fit.

Nature Expression Bridge-Work with free extractions. Nature Expression Teeth with free extraction.

15-Year Guaranteed Quality

All Peerless Dentistry is guaranteed for 15 years—an ironclad guarantee which is backed by Spokane's largest Dental Office and by Dr. Cohen personally.

Your friends know Peerless Quality. Ask them.

Canadian money accepted at full value.

Daily Hours 8:30 to 6. PEERLESS DENTISTS Sundays 10 to 1.

Rooms 205, 6, 7, 8, 9, 10, 11, 12, Second Floor Jamieson Bldg., over the Owl Drug Store, Wall and Riverside, Spokane, Washington.

Markets and Finance

OPERATIONS DASH HOPES TO GROUND

Optimism Dispelled by Selling Activity; Call Money Rate Rises.

NEW YORK, March 30—The hopeful feeling created yesterday by the increased American Telephone dividend rate and signs of greater industrial activity were dispelled today, extensive selling of special issues at net reactions of 2 to 10 points unsettling the general list.

Shares under great pressure comprised those of companies which rumor associated with new financing or dividend revision. Chief among these were International-Harvester, American Linseed, International Paper, and Mexican Petroleum. Sentiment was also adversely influenced by the circumstances attending the offering of $47,000,000 of New York city short term issues. Bids aggregated little more than half the amount authorized and these were mostly at six per cent, a figure regarded as excessive by the municipal authorities.

Average quotations were at lowest levels in the last half hour, the reaction being accelerated by a rise in call money to seven per cent. This hardening of rates was attributed to the withdrawal of funds required to meet payments maturing tomorrow, the end of the year's first quarter.

Sales amounted to 665,000 shares.

The foreign exchange market was unusually active, decided strength being shown by British and Italian rates, French, Dutch, Swiss, Swedish and Danish remittances also hardening.

Liberty issues closed at fractional gains and Paris six's strengthened, but Pennsylvania 6½s made a new low at 96.

Total sales, par value $10,375,000.

Butcher cows—Choice $6.50 to $7; fair to good $5.25 to $6.25; canners and cutters $2.00 to $3.75.

Bulls—Good $4.00 to $5.00; common $3.00 to $3.75.

Oxen—Good $5.50 to $6.50; medium $4.25 to $5.00; common $3.00 to $4.00.

Feeders—Choice $7.00 to $8.00; fair to good $5.50 and $6.75.

Stocker steers—Choice $6.00 to $6.50; fair to good $5.00 to $5.75.

Stocker heifers—Choice $5.75 to $6.25; fair to good $4.75 to $5.50.

Calves—Choice $10.00 to $11.00; good $7.00 to $9.00; common $5.00 to $6.00.

Sheep and lambs—Good sheep $6.00 to $7.50; common $4.50 to $5.50; good lambs $10.00 to $12.00; common $7.00 to $9.00.

Hogs—Selects $14.00; heavies $10.00 to $12.00; lights $12.00 to $14.00; sows $7.00 to $9.00; stags $7.00 to $8.00.

TORONTO, March 30.—Cattle receipts 836. A few heavy steers brought 10½ cents, with bulls 8½ to 9½ cents.

Calf receipts 280; bulk 10 cents a pound.

Sheep receipts 463. Choice lambs 14½ cents; common 6½ cents; choice 9 to 10½ cents.

Hog receipts 1168. Hogs 14 cents to 25 cents higher.

SILVER QUARTER POINT STRONGER

NEW YORK, March 30.—Silver, domestic 99½; foreign 57½.

LONDON, March 30.—Silver 33⅝d.

CANADA BONDS

WINNIPEG, March 30.—Bid prices for Dominion bonds today:

War loans—1925, 94½; 1931, 92½; 1937, 97½.

Victory bonds—1922, 98⅛; 1923, 97⅝; 1927, 97½; 1933, 97⅝; 1937, 99¼; 1924, 96; 1934, 94½.

CANADIAN DOLLARS

NEW YORK, March 30.—Canadian dollars 88.87.

STERLING EXCHANGE

NEW YORK, March 30.—Sterling exchange strong at $3.88¾ for 60-day bills and at $3.93¾ for demand.

NELSON, March 30 — Current counter exchange for sterling $4.40¾.

METAL MARKET

NEW YORK, March 30.—Copper steady; electrolytic, spot and nearby 12¾; May and June 13. Iron nominally unchanged. Tin steady, spot and nearby 29 to 30; futures 29¾ to 30½. Antimony, quiet, spot 4.12 to 5.25. Lead, steady, suot 4.10. Zinc quiet, spot 4.65 to 4.75.

LONDON, March 30 — Standard copper, spot £70, 15s; futures £70, 2s, 6d. Electrolytic, spot £72 10s; futures £74. Tin, spot £159, 12s, 6d; futures £161, 17s, 6d. Lead, spot £20; future £20, 10. Zinc, spot £24, 5s; futures £26.

MONTREAL LIST

MONTREAL, March 30.—Extreme dullness featured the transactions on the local stock exchange today, although the strength of some of the cotton stocks was an important development. Other features were the erratic movements of Riordan and an improved tone throughout the list generally.

Riordan was only dealt in to the extent of 180 shares, but on this turnover the price moved up and down between 104 and 108, opening and closing at the latter price, two points below yesterday's close. The remainder of the papers were without interest.

Textiles strength was the outstanding feature of the market, the stock rising seven points to 121 and holding its gain. Other cottons were strong.

The steels were not as strong as recently. Canadian held its ground at sixty and Iron lost a point at 45¼.

Among the higher grade stocks, Canadian Cement was up half a point to 60⅞ and Shawinigan was up a large fraction. Asbestos was down 1¾ at 75¼ and General Electric lost a fraction at 112.

There was a sharp falling off in dealings in bonds which, however, showed little price changes.

Total sales—Listed 3502; bonds $173,000.

RURAL LEGISLATION DEPRECIATES GRAIN

CHICAGO, March 30—Grain underwent a severe setback in price today, largely as a result of liquidation on the part of rural holders of corn. Wheat closed heavy, 3 to 5¼ cents net lower, with May $1.39½ to $1.40 and July $1.21 to $1.21¼.

Corn lost 2⅛ to 2¼ cents to 3¾ cents and oats ¼ to 1⅝ cents. Provisions gained five to 50 cents.

MINNEAPOLIS GRAIN

MINNEAPOLIS, March 30.—Flour unchanged to 25 cents higher; $9.00 to $9.15 a barrel; shipments 61,166 barrels.

Bran—$18.00 to $20.00.

Wheat—No. 1 Northern $1.63¼.

Corn—No. 3 yellow 49 to 50 cents.

Oats—No. 3 white 33¾ to 34¼ cents.

Flax—No. 1, $1.76⅛ to $1.79½.

TORONTO BOARD

TORONTO, March 30.—There was some recovery on the Toronto stock exchange today, but trading was dull. Pronounced weakness in Riordan existed during the day, the last sale here taking place at 104¼; the closing bid, however, was 109 Paper stocks had little volume in trading, although they took part in the slightly firmer tendency.

Canadian Pacific acted badly on the publication of the annual statement, but the lead in reaction came from New York. The decline here was 1¼ ponts. A smart demand was noticed for McKay, and another move up of ¾ took place.

An interesting incident of the day was the declaration of the annual dividend of preferred by International Paper with nothing as yet on the common. Earnings on International Paper common have been reported at about $40.00 a share.

Victory bonds were easier, the 1934 losing ¼ point at 94¼ while the 1924 and 1937 were each down ⅛.

MONTREAL PRODUCE

MONTREAL, March 30.—The produce market was steady today.

Cheese—Finest easterns 29½ to 30 cents.

Butter—Choicest creamery 55 to 55½ cents.

Eggs—35 cents.

Potatoes—Per bag, carlots $1.00 to $1.05.

EGG MARKET

OTTAWA, March 30.—Many who study the egg market situation closely are of the opinion that it has touched bottom.

ADVISES REVISION OF ALBERTA LAND VALUES

EDMONTON, March 30.—In one of the most important reports ever prepared in the province the commission appointed by the government, under authority of the legislature last session, to equalize assessments in land values of Alberta, has advised drastic revisions in the realty assessments of the cities, this amounting to many millions of dollars in the cases of Calgary, Edmonton, Lethbridge, Medicine Hat, Red Deer and Wetaskiwin.

RESTORE AUTONOMY TO SOUTH VANCOUVER

VICTORIA, March 30.—Autonomy will be restored to South Vancouver and the franchise to voters of that municipality, Premier Oliver announced in the legislature this afternoon. The necessary bill will be introduced at this session of the legislature.

The government under this legislation, it is understood, will retain the supervision of the financial affairs of the municipality to protect its own interests, the government having an inestment of some $790,000 in the district.

COPIES BRITISH COLUMBIA

PORT ARTHUR, March 30.—A moderation league was formed here tonight by a number of prominent business men of the city. The members pledged themselves to work for the defeat of the referndum in April and also to petition the government for government control of liquor, to be patterned along the same lines as the control bill in British Columbia.

From Sword to Plowshare

Newspaper advertising rallied the men and women of North America for war.

Today it is rallying them for peace.

It is picking up the broken threads of commerce and weaving the fabric of enduring prosperity.

It is moving the goods from the store to the home and sending the echo of reviving business back to the factory and the farm.

It is putting men to work. It is stabilizing industry. It is restoring good cheer.

Read the advertising in this newspaper and patronize the merchants and manufacturers who advertise.

TONIGHT'S HOCKEY CRUCIAL GAME FOR MILLIONAIRES

VANCOUVER, March 30.—East meets west again tomorrow night in what may be the final round of the season's tussle for the world's professional hockey championship. The Vancouver Millionaires, encouraged by the prospect of having their six best men on the ice, expect to prevent the Ottawa Senators from making a third win and retaining the Stanley cup. The Senators, on the other hand, with the record of two straight victories and the odds slightly in their favor, expect to make it the last game of the series. There is still hope that Skinner and Mackay will be back on the Vancouver team for this game.

The players on both teams will cut the largest financial melon in the history of professional hockey. Members of the winning team will receive $630 each and players on the losing team will get $420. These figures are based upon the teams dividing the pot ten ways. Full shares will go to every player on the contending teams. The foregoing figures, based upon the receipts for the first three games of the series, in which alone the players are financially interested, were net after deducting the provincial tax, under which winning players lose $120 each and losing players $80 each.

Last year's players in the world's series received $390 and $319, respectively, the next highest bonus paid for championship hockey. The three games of the present series attracted approximately 25,500 spectators, while the five games of last year's series had a total gate of only 23,134.

Tomorrow's game will be eastern hockey, six men a side.

A cow has two horns, but thank goodness, she is not forever blowing them.

During February Detroit plants hired nearly eighteen thousand men.

OLD COUNTRY FOOTBALL

GLASGOW, March 30.—Patrick Thiste and Hearts again played a scoreless draw in the semi-final of the Scottish cup today.

The Scotish team to meet England in the International football match here on April 9 folows:

Ewart, Bradford; Marshall, Middlesboro; Blair, Cardiff; Davidson, Middlesboro; Brewster, Everton; McMullen, Patrick; McNab, Morton; Miller, Manchester; Wilson, Dumferline; Cunningham, Rangers; Morton, Rangers.

OXFORD WINS GOLF SINGLES.

LONDON, March 30.—(Canadian Associated Press.)—In the inter-university golf singles contests today Oxford beat Cambridge by 12 matches to 3.

Of 38 annual golf contests Oxford has won 18 and Cambridge 17. Three contests were halved.

CAPABLANCA WINS FIFTH CHESS GAME

HAVANA, March 30.—Joseph Capablanca, the Cuban chess champion, defeated Dr. Emmanuel Lasker, the German expert, in the fifth game of the international series for the world's championship.

The end of the game came after forty-six moves. Tonight's game was the first decisive result of the tournament, the four previous games having been drawn.

LIGHT BLUES WIN CLASSIC BOAT RACE; OXFORD CREW EXHAUSTED

LONDON, March 30.—The Cambridge eight today won a victory over the Oxford oarsmen by a scant length in one of the closest and hardest races ever rowed on the Thames between Putney and Mortlake. The official time was 19 minutes and 44 seconds.

There was never more than a length separating the boats from start to finish, Cambridge leading at the beginning. Oxford, however, went into first place at the mile and a quarter mark, but retained the lead by only a slight advantage until the Cambridge oarsmen plowed the water with their oars and shot their boat ahead and won by a hard effort.

By winning the toss the Oxonians got the better position, but this was insufficient to overcome the superiority of the Cambridge men, which was evident in the condition of the crews at the finish. Here the light blues paddled their shell to the boathouse after a minutes' rest, while the majority of the Oxonians fell over their oars exhausted. It was five minutes before the Oxonians gathered themselves togehpr and paddled to their boathouse.

THIRTY PER CENT CROOKED

CLEVELAND, March 30.—Certain owners of major league clubs have been not true to their trust and will be driven from baseball, Ban Johnson, president of the American league, declared here today. These facts, Mr. Johnson said, developed from the recent fivestigation into the baseball scandals.

"Thirty per cent of the owners of teams in the American and National leagues must go,' Johnson said. "Changes in ownerships are necessary for the good of the game and I expect to see the other owners combine with me in helping bring about the much needed change."

Mr. Johnson refused to state who the accused owners are.

SPORTING BRIEFS

Bowling Tournament Ends.

BUFFALO, March 30.—Five-man bowling of the 1921 American Bowling congress tournament came to a close tonight with Saunders, Toronto, showing a total score of 3,066 pins. The A. H. Arnold and Brothers, Chicago, were second, with a score of 3,047 pins, and the Fleming Furnitures of Cleveland, third, with a score of 2,961 pins. The winners receive $1,000 and the runners-up $950 and the third place $890. Final games will be rolled tomorrow afternoon in the twom-man and individual events of the tourney.

To Overhaul Quebec Hockey

MONTREAL, March 30.—Plans for the complete overhauling of the constitution of the Quebec branch of the Canadian Amateur Hockey association with a view to drawing a tighter line upon amateur hockey players, will be laid this week at meetings of the executive and registration committes.

Scores Technical Knockout.

NEW YORK, March 30.—Pete Hermann, former bantamweight, scored a technical knockout over Willie Spencer, of this city, in the twelfth round of a scheduled 15-round bout here tonight. Spencer weighed 117 1-4 pounds and Hermann 120.

Olsen Downs "Bull" Montana

VANCOUVER, March 30.—Charlie Olsen, Chicago, defeated "Bull" Montana, Los Angeles, here tonight by securing two out of three falls, in a well contested wrestling watch. Olsen took the first fall with a combination arm hold in 31 minutes, 15 seconds; Montana secured the second fall in 31 minutes, five second, and Olsen finished the struggle with a hammerlock in eight minutes, 52 seconds.

HEARS ARGUMENTS UPON WATERWAYS

Canadian and Middle West States Approve St. Lawrence Plan.

DETROIT, March 30.—Arguments for and against development of the St. Lawrence waterway were submitted here today at the opening of the final hearing of the international joint commission.

Representatives of Canada and middle western states made pleas for the waterways, while Henry W. Hill of Buffalo, former New York state senator, urged against it.

C. S. Latchow, secretary of the Farmers and Grain Dealers' association of Ohio, and representing the National Grain Dealers' association, declared the proposed waterway was essential to the future prosperity of United States and Canadian farmers and said the association he represented included in its membership 5000 co-operative grain elevators.

B. R. Inman of Indianapolis, representing the Indiana state chamber of commerce, declared the waterways would aid in repopulating farms in the United States by providing cheaper transportation for farm products.

A. C. Lucas, secretary of the Canadian Water and Power association, and J. H. Duffey, secretary of the National Waterway association of Canada, presented a plea for the waterway.

President Harding has fifty thousand appointments to make, carrying aggregate salaries of $100,000,000.

For restoring a $2,500 diamond and $6,000 cash, a New York bus conductor was rewarded with $20.

REGINA TEACHERS SEND ULTIMATUM

Fix Date for Settlement; Demand Revised for Scale of Salaries.

REGINA, March 30.—What might be regarded as an ultimatum has been sent by the Regina teachers to the public school board. The teachers have fixed Friday, April 8, as the final date for settlement of their grievances.

Along with their request for a settlement by the date mentioned, the teachers have sent the board a schedule for salaries which they wish adopted, and in the event of the board declining to adopt this schedule they are asking for the appointment of a board of arbitration. An important feature of their demands is that the salary schedule be applied to the individual teacher according to length of service.

Proposed Schedule.

The following is the schedule of salaries for which the teachers are asking:

Assistant vice-principals—From a minimum of $1800 to a maximum of $2200, with annual increments of $200.

Vice-principals—From $2200 to $2800, with annual increments of $200.

Principals—School of one to seven rooms, from $2200 to $2800, with annual increments of $200.

Pincipals—School of eight to 14 rooms, fom $2800 to $3400, with annual increments of $200.

Principal—School of 15 rooms and up, from $3400 to $4000, with annual increments of $200 after maximum of eight to 14 rooms has been reached.

BAKER STREET NELSON, B. C.

SANATORIUM ACCOMMODATION FOR TUBERCULAR CASES INSUFFCIENT

(By W. O. RYLETT.)

On several occasions during the present session of the legislature at Victoria, attention has been drawn to the tuberculosis situation in British Columbia.

Mrs. Ralph Smith, Canon Hinchcliffe and Dr. W. O. Rose have each spoken about the menace of the most insidious disease known to science, and the last named member gave figures in the house a few days ago, which show that tuberculosis is on the increase.

A brief review of the situation as it exists today will, perhaps, help the public to realize its seriousness, and the necessity for further action if this dread enemy is to be checked.

Only One Public Sanatorium.

At present the only sanatorium of a public nature in this province is situated at Tranquille, ten miles west of Kamloops, and accommodates about 230 patients of both sexes.

An agreement with the department of soldiers' civil reestablishment and the sanatorium officials provides that 130 beds must be held for ex-soldier patient as long as required.

It is a well known fact that many weeks, and often months, elapse before admission to the sanatorium can be obtained for cases which should have treatment as soon as diagnosed, and in many instances the delay means that improvement is retarded, resulting in a much longer period of treatment being required.

Although a sanatorium is supposed to accept incipient cases only, there are quite a number of incurables at Tranquille, some of whom have been there several years.

Incurables Have No Institution.

The reason these incurable cases remain at Tranquille is because there is no other place in this province where such cases could receive the attention they require, and the fact remains that accommodation for those suffering from pulmonary tuberculosis is far from adequate.

Medical men both at the coast and in the interior have frequently complained of the difficulty of obtaining reasonably prompt admission for people suffering from tuberculosis, and have pointed out that the delay is not only dangerous for the sufferer, but also a positive menace to other people from a standpoint of infection.

This being the case, it is easy to see that pulmonary tuberculosis cases that are not under proper supervision and control must and do constitute a menace to public health. Although science is doing everything possible to combat this dreaded scourge, deaths from the disease are on the increase, as pointed out by Dr. Rose in the house a few days ago.

There can be no doubt that increased sanatorium accommodation is urgently needed in British Columbia, as well as in other parts of the Dominion, if this disease is to be successfully fought.

A System of After-Care.

The question of post-sanatorium treatment is also a vital one, for it is a lamentable fact that many cases break down again after discharge, and medical men have expressed the opinion that if some form of after-care for discharged patients could be devised, it would help greatly in the elimination of the danger of infection.

The necessary precautions for care at home after sanatorium treatment, such as sleeping porch, sputum cups, gauze, antiseptics, etc., are financially beyond many of the discharged patients, and the one outstanding feature we must resolutely face is that tuberculosis is not an individual question, but a national one.

The ex-soldier patient who breaks down again is taken care of by the department of soldiers' civil reestablishment, but the civilian in like circumstances finds it a very difficult matter to obtain readmission to a sanatorium within a reasonable time.

The situation is certainly deserving of serious consideration, and a hopeful sign is that some of the people's representatives are drawing attention to its needs.

PROVINCIAL ESTIMATES UNDER FIRE

Opposition Attacks Expense of Agent-General, and Failure to Build University

VICTORIA, March 30.—Sharp criticism of the government for its failure to proceed with the erection of the British Columbia university buildings was voiced by opposition members in the legislature today when the vote of $445,000 for university purposes was under consideration in committee of supply.

Mr. Bowser recalled the pre-election promises of a $3,000,000 loan for a scheme whereunder Point Grey property would be developed, and sold, the proceeds to go to a building fund.

Premier Oliver held that under exsiting financial conditions, the work could not be proceeded with. The vote was passed.

The agent-general's office in London also was under fire, some complaint being made of the cost compared with alleged lack of results, but Mr. Wade's administration of the office was defended by government members and the appropriation was approved.

Opposition Scores.

The opposition scored a point when, on a vote to eliminate the provision in the bill to amend the public schools act, giving boards of trustees the right to superannuate teachers, the government was defeated by a vote of 18 to 13. The vote was taken in committee of the whole, and therefore had no political significance, but it afforded the opposition satisfaction none the less. The proposal to grant boards of trustees power to levy a one-mill rate for extraordinary purposes was curtailed to the extent of providing that no such levy should be permitted without the consent of the municipal council. This one-mill levy was strongly opposed by the executive of the Union of British Columbia Municipalities at their recent conference with Premier Oliver.

VICTORIA, March 30—New legislation introduced in the house this afternoon included an amendment to the constitution permitting the addition of Hon. Mrs. Smith to the cabinet, as a minister without portfolio; the elimination of the ten per cent increase in the amusement tax granted to the municipalities two years ago, but which the latter failed to take advantage of; the disincorporation of the corporation of the city of Phoenix owing to decline in population and consequent inability of the residents to carry on municipal government and changes to the Poll tax act, whereunder no poll tax will be collected from any one who has paid or is liable to pay any municipal collector any poll tax for the current year.

DAY IN PARLIAMENT

HOUSE OF COMMONS

Suspension of all immigration "until a normal condition of affairs is established," was moved by H. Deslauriers, St. Mary's, Montreal, and seconded by Edmond Proulx, Prescott. Both speakers opposed admitting artisans while unemployment continued throughout Canada. Other speakers in the debate were: E. W. Nesbitt, North Oxford; S. W. Jacobs, George Etienne Cartier; George Boyce, Carleton; J. A. Robb, Huntingdon, W. G. McQuarrie New Westminster; James Douglas, Strathcona; F. Rinfret, St. James; Donald Sutherland, South Oxford; W. K. Baldwin, Stanstead; J. R. Wilson, Saskatoon; H. C. Hocken, Toronto, West.

Resolution withdrawn at six o'clock on a promise of Hon. J. A. Calder minister of immigration, that he would make a statement when the immigration departments estimates were before the house.

SENATE

Hon. L. O. David moved for the production of the correspondence between the Imperial and Canadian governments dealing with Canada's representation in the British parliament, or in any council, participation in the administration of the Empire, contribution to Empire wars and to establishment of a British or Canadian navy. Hon. G. D. Robertson said the government did not object to tabling the correspondence but there might be some of which could not, in the public interest, be brought down.

Amendments to the post office act considered in committee and progress reported.

TOMORROW IN PARLIAMENT

The commons will take up the estimates of the labor, interior and trades and commerce departments and will also proceed with the Lake of the Woods control bill.

The senate meets at 3 o'clock.

A Frenchman is said to have just invented a gun which has a range of 225 miles.

Social and Personal

A. G. R. Strickland, the Balfour rancher, is a visitor.

F. L. Churchill, the Mankin Spur lumberman, is registered at the Hume.

Dr. Wilson Herald will leave tomorrow morning for Cranbrook and Fernie.

J. E. Annable returned last night from a trip to Spokane.

John Smallwood arrived from Beasley this week to record his assessment work on the Abalone mineral claims.

W. T. McDowell, superintendent of the Texas-Yankee Girl mine, came in from Ymir yesterday.

Mrs. H. Frendenthal of this city left yesterday on the Great Northern train with her two sons to join her husband.

Harold and Ethel Gillett are spending their Easter holidays with their sister, Mrs. Depretto, at the Florence mine, Princess Creek.

Rev. J. W. Litch, who conducted special services for the Baptists here for two weeks, and left Monday for Trail, is now at Vernon to discuss with the local church there the arrangements for a new pastor. He will then proceed to Nicomen Island.

J. F McKaracher is believed by Nelson friends to be wetting a line in Shuswap lake. Two reasons for this belief are that Mrs. McKaracher received a fine steelhead at the weekend, and that Howard Bush received a fine freehand drawing of Jack, in company with Albert Fahey, being towed by a mammoth steelhead, their gasoline being supposedly exhausted. The drawing was signed by A. T. Kenward.

Alderman C. D. Shaw claimed last night there was a misunderstanding regarding yesterday's council meeting, at which he was not present, being out on the Slocan run. He states he understood that the meeting was for the last day of the month, which is today. This impression was shared by others of the aldermen, who were, however, rounded up when it was found that they were not on hand. Alderman L. H. Choquette, who moved the adjournment on Saturday, however, claims that his motion was as recorded in the minutes.

BEER CLAUSE AGAIN ON TAP

Liquor Control Bill Comes Up for Third Reading Today; Motion to Recommit

VICTORIA, March 30.—Once more a beer control clause will come before the legislature when tomorrow the liquor control bill comes up for its third reading. Thos. Uphill, Fernie, has given the notice of a series of amendments he proposes to present. He will ask that the bill be re-committeed to permit of the insertion of a clause providing that no person shall sell beer by retail unless he is a holder of a license therefor, issued in respect of sales within the boundaries of a municipality by the municipality, and, in respect of sales elsewhere, by the board of control, and that every society association or club which distributes or divides beer among its members shall be deemed to be a person selling beer within the scope of the section.

Mr. Uphill's amendment would grant power to the board of control to cancel or suspend licenses with or without a hearing and upon the conviction of a holder of a license to sell beer for any infraction of the act the license shall, ipso facto, be cancelled.

Defines Beer

For the purpose of the act, it is proposed that beer shall be any beverage containing alcohol to the extent not exceeding 2½ per cent, whether made from malt or hops, or without the use of malt or hops. This percentage would amount to about 7 per cent proof spirits.

Under the Uphill amendments treating is to be prevented, and no intoxicating liquor shall be kept on the premises licensed to sell beer.

DEMAND GOOD FOR HIGHER GRADE FISH

VANCOUVER, March 30. — Notwithstanding adverse exchange conditions the export demand for the higher grades of fish was good last year. It was stated at the annual meeting of British Columbia Fishing and Packing Co., Ltd., held here. The total salmon pack was 238,769 cases. Fourteen canneries were operated by the company last year and these will be operated again this year. Last year's officers were re-elected.

A VERY REAL DANGER

First Playwright—You don't mean to say you are dubious about your play.

Second Playwright—I certainly am. They liked it so well in Danbury, Conn., that I'm afraid it's over the head of Broadway.
