DISASTROUS BRITISH COAL STRIKE OVER

SPEECHES VERY NONCOMMITTAL IN CHARACTER

Curzon and Balfour Address Premiers on Anglo-Japanese Alliance.

CONSIDER QUESTION OF OVERSEAS SETTLEMENT

Appoint Sub-Committee on Financial Aspects; Perley Represents Canada.

LONDON, June 28.—(By Grattan O'Leary, staff correspondent of the Canadian Press)—The question of the advisability of renewing the Anglo-Japanese alliance came before the conference of premiers today, but owing to the British prime minister having to attend a conference in connection with settlement of the coal strike discussion was limited to two brief statements by Lord Curzon and Righ Hon. A. J. Balfour.

Both speeches were confidential and at the close no communication was issued to the press, but it is understood they were of a very noncommittal character. The British foreign secretary, in fact, confined himself to a summing up of the arguments for and against renewal of the alliance, while Mr. Balfour, who played an important part in negotiating the existing alliance, gave an outline of its workings, effects and weaknesses.

The dominion premiers asked questions, but took no further part in the discussion. The conference was reinforced today by the presence of Lord Lee of Farenham, first lord of the admiralty, and Sir Laming Worthington-Evans, secretary of war.

Consider Overseas Settlers

In the afternoon while Mr. Lloyd George was attending the miners' conference, Premier Meighen and the other dominion premiers attended a meeting under the chairmanship of Right Hon. Winston Churchill to consider the report of the overseas settlement conference appointed to enquire into the feasibility of keeping British emigrants of a desirable class within the Empire. As a result of the meeting, a sub committee was appointed to inquire into the financial aspects of the matter. Sir George Perley will represent Canada.

This evening Premier Meighen dined with Lord Byng, Canada's new governor-general, who is expected to sail on August 4.

Japan Agrees to Delay.

LONDON, June 28.—It is understood the British government has suggested to Japan a postponement of the date for renewal of the Anglo-Japanese alliance from July to October in order to permit full discussion here and an opportunity to consult the United States, and that the Japanese government has agreed to this course.

HIGHLANDERS WANT EMBARGO RETAINED

Fear Importation Will Be Prejudicial to Crofters and Small Farmers.

LONDON, June 28.—The Marquis of Graham, president of the Highland Cattle society of Scotland, has written to the cattle embargo commission stating that the general opinion of members of that society is against the importation of live cattle. Members of the society consider it desirable to encourage breeding store cattle in the Highlands from native herds. Canadian cattle are, he says, useless for grazing purposes in the Highlands and any measure which discouraged the raising of store cattle would seriously prejudice the living and agriculture of crofters and small farmers.

George Edwards, member of parliament, supported the removal of the cattle embargo before the commission today. The grazing farmer was now seriously handicapped. If store cattle were cheaper, it would mean more employment. The good old prime beef, once the pride of the nation, was now no longer obtainable.

Western Trade Boards to Meet at Regina on Freight Rate Question

REGINA, June 28.—Representatives of western boards of trade will meet in Regina July 6 to discuss reclassification of freight rates on Canadian railroads. British Columbia, Alberta, Saskatchewan and Manitoba will be represented at the meeting, the findings of which will be submitted to the board of railway commissioners.

MAY BECOME TRAINING CENTER

HISTORIC ISLAND ON NIAGARA RIVER.

Navy Island, in the Niagara river, opposite Chippawa, Ont., is now garrisoned by a squad of three soldiers from the Royal Canadian Regiment, and it is stated that the island, which has long been the scene of rum-running and Chinese smuggling, may become a military training center. Upper left photo shows the soldiers' camp, on the eastern side of the island; upper right, ruins of a house built by one Tom Parker, a squatter, in the days when pegs were used for nails; lower left, Mr. and Mrs. John Miller and family, the only residents of the island, with the exception of the soldiers; lower right, the Miller home. Navy Island was the site of William Lyon Mackenzie's occupation during his rebellion of 1837, but no vestige of the stay of his forces upon the isle remain today.

INAUGURATES SOUTH IRISH PARLIAMENT

Purely Formal Function to Satisfy Statutory Conditions Home Rule Act.

DUBLIN, June 28.—The opening of the southern parliament this afternoon lasted less than 10 minutes. The function was purely a formal one, called to satisfy the statutory conditions of the Home Rule act. Lord Chief Justice Maloney and Charles O'Connor, master of rolls, represented the viceroy and read the proclamation summoning the assembly. Only a few members were present. These included four imperialistic members of the senate from Trinity college and four others elected to that body. Nearly all the members of the lower house are Sinn Feiners. They ignored the summons to attend. There was little public interest shown.

Not Sufficient to Elect Speaker.

The proclamation said the reason for the King having summoned the parliament would be announced when a sufficient number of its members were sworn. It added that larger numbers of members of the lower house were necessary for the election of a speaker, but that a chairman should be chosen to direct the time and manner for the taking of the oath.

A continuance of the parliament could not be assured, it said, unless the oath was taken by one-half the total membership within two weeks.

Gill Fitzgibbon was elected chairman of the house of commons and Sir Nugent Everard, former lord lieutenant of County Heath, chairman of the senate. The senators present consisted of a portion of the viceroy's 17 nominees. The remainder represented the Protestant church. After the inauguration parliament adjourned to July 13.

Minister of Mines Orders Prosecution of Company for Breach of Lien Act

VICTORIA, June 28.—Prosecution of the Pacific Coast Coal Mines, Ltd., for failing to comply with the provisions of the act requiring the semi-monthly payment of wages to employees, was ordered today by Hon. William Sloan, minister of mines.

Action against the company was postponed by the minister pending the action of the coal miners which was before the courts. The miners have now obtained judgment under the Mechanics' Lien act for their delinquent wages, amounting in all to $52,000.

ENGINEERS VOTE GOES AGAINST EMPLOYERS

LONDON, June 28.—The ballot of engineers has gone against the acceptance of the employers' terms and a further conference has been called. The gas workers have agreed to a reduction in wages.

OLIVER MAKES FINAL ATTEMPT TO SAVE LINE FOR ROSSLAND PEOPLE

VICTORIA, June 28.—There seems little chance of the railway service on the Red Mountain line of the Great Northern between Rossland and Northport being continued, Premier Oliver said today after consultation with the legal department and communication with the Dominion board of railway commissioners.

The Rossland board of trade appealed to the premier to see if he could do something to prevent the line being abandoned.

In 1895 or 1894, the premier found, the line was declared to be a railway for the general benefit of Canada and passed from the control of the province and came under the Dominion board.

"Last year the earnings of the line were between $7000 and $8000," the premier said. "But the cost of operation was between $42,000 and $43,000. I have taken up the whole question and the advice of our legal department is that we have no authority in the matter, as it is under the board of railway commissioners."

The premier also took up the matter with Chairman Carvell of the railway board. The board, however, has telegraphed the premier that it has no authority to prevent the Great Northern abandoning the railroad. In a last effort to save the railway for the people of Rossland, Premier Oliver today telegraphed Chairman Carvell, urging him to do everything possible to prevent the abandonment of the line.

UNITED FARMERS RUN CANDIDATES

Medicine Hat Result Stimulates Party in Alberta to Greater Action.

CALGARY, June 28.—The United Farmers of Alberta will have candidates in most of the rural ridings of the provincial election on July 18. The success of the Medicine Hat riding has stimulated the Farmers to greater action in the provincial contest. There is not the opposition to the Stewart government, however, among the Farmers, since there is no broad question of policy at issue. The Farmers are preparing for conventions in many of the ridings next week.

It is quite probable that the United Farmers and the government forces will unite on a candidate in certain ridings. For the next week the Farmers will be holding two conventions a day. One of the strongest ridings for the United Farmers is at Red Cliffe, the seat of Speaker Pringle. P. A. Wellderburn, secretary of Gardiner's contest, will be the United Farmers' candidate. Hon. A. J. MacLean, minister of public works, will be a candidate against Hon. C. R. Mitchell in Bow valley. Hon. J. R. Boyle has forsaken his riding in Sturgeon for a seat in Edmonton, and will run there.

Premier Stewart is not likely to be opposed by the United Farmers in Sedgwick, but Hon. Duncan Marshall, minister of agriculeure, is likely to be opposed by a Farmer in Olds.

FINES HYPNOTIST.

MONTREAL, June 28.—Chief Judge Decarie, sitting in the court of special sessions, this afternoon sentenced L. J. Fortier, an exponent of hypnotism, to a fine of $50 or in default to serve one month in jail, for having obtained the sum of $50 from Emelia Poitras. Fortier was arrested some time ago on complaint of Mrs. Poitras following an unsatisfactory attempt to recover her husband's affection through the hypnotic aid of the accused.

ASKS TAXES FOR MUNICIPALITIES

Committee Recommends Financial Concessions From Government Revenue.

VICTORIA, June 28.—The provincial government will be asked by the city of Victoria to hand over to the municipalities of British Columbia, income tax, personal property tax, half of all liquor profits, the amusement tax, half the motor tax and a number of license fees or, as an alternative, to take over the hospitals and schools of the province.

This, in brief, is the proposal which the civic legislative committee will forward to the government immediately, acting on instructions of the city council. These recommendations will be made to the government for consideration in connection with its plans to draw up a new munipical finance policy at a fall session of the legislature. The civic legislative committee, it is understood, believes that the city must be allowed the financial concessions outlined if municipal finances are to be put on a sound basis.

CANADIAN SALMON SOLD AS ENGLISH

OTTAWA, June 28.—An obstacle to the development of the trade in Canadian frozen fish on the British market, is that during the open season for salmon in Great Britain, Canadian frozen salmon is sold as English and Scottish, but in the close season, from September to February, the consumers' demand languishes as salmon is supposed to be a summer fish.

This information is contained in a communication from J. E. Smith, Canadian trade commissioner at Liverpool, to the Weekly Bulletin of the department of trade and commerce.

Mr. Smith advises an advertising campaign to sell Canadian frozen fish in the British Isles. He states that fish weighing from seven to 14 pounds find the best sale.

Germany Pays Further Indemnity Instalment in European Currency

PARIS, June 28.—Germany today paid 44,000,000 gold marks to the reparations commission. The payment was in European currency because of the commission's decision temporarily not to require dollar payments because of the adverse effect on exchange.

Today's payment makes a total of about one quarter of a billion marks Germany has turned over to the reparations commission.

CRAIG ACCEPTS INVITATION TO PEACE CONFAB

Cannot Refuse Appeal From His Majesty; De Valera Not Yet Ready.

LONDON, June 28.—Mr. Lloyd George, in announcing in the house of commons tonight the receipt of a telegram from Sir James Craig, the Ulster premier, expressing the willingness of himself and colleagues to attend a conference in London on the Irish question, added that he had not yet received a reply from Eamonn De Valera.

In a letter to Mr. Lloyd George, Sir James says:

'In view of the appeal conveyed to me by the King in his fracious message at the opening of the northern parliament, for peace throughout Ireland, we cannot refuse to accept your invitation to a conference to discuss how best his can be accomplished."

De Valera in Conference

DUBLIN, June 28.—Eamonn De Valera, the Irish Republican leader, is not yet ready to give a definite answer to Mr. Lloyd George's letter inviting him to a conference for an Irish settlement. He has briefly replied to the prime minister, however, expressing the earnest desire for a lasting peace, but deems unity of Ireland essential to that end.

The Irish Bulletin, organ of the Dail Eireann, in a special issue, publishes Mr. De Valera's reply to the British prime minster.

It is as follows:

"I am consulting with such of the principal representatives of our nation as are available. We most earnestly desire to help to bring about a lasting peace between the peoples of these two islands, but see no avenue by which it can be reached if you deny Ireland essential unity.

"Before replying more fully to your letter I am seeking a conference with certain representatives of the political minority in this country."

Writes to Craig

De Valera has written to Sir James Craig, the Ulster premier; Earl Middleton, who in 1920 advocated one parliament for southern Ireland, with the six Ulster counties under the Imperial parliament; R. Maurice Dockrell, M.P for the Rathmines division of Dublin county, who was returned as a Unionist supporter of the Coalition government, except as to its Irish policy of home rule; Sir Robert Henry Woods, member of parliament for the Dublin University and former president of the Royal College of Surgeons in Ireland, and Andrew Jameson, asking them to meet him at the Mansion House in Dublin on Monday for a conference. He wishes to learn from them at first hand, the views of certain sections of the people they represent.

Shoots Republican Army Leader

CORK, June 28.—Commandant Leo Murphy of the Mid-Cork brigade of the Irish Republican army was shot today in a military roundup at Waterfall, near here. Forty-five rebels were captured.

Murphy was wanted on charges in connection with several deaths and kidnapings. The military surrounded a house in which Murphy was presiding over an "Irish Republican army" meeting. He escaped through the back door, but was killed after he had gone 100 yards.

A quantity of arms was seized.

CONVICTS BREAK JAIL

CHATHAM, Ont., June 28.—Requested today by Turnkey Softley of the county jail here, to assist in carrying scaffolding which had been used in repair work outside the jail, two prisoners, Joseph Burroughs and James Brown, acquiesced with alacrity. No sooner were they outside the jail doors than they determined their duty was ended and, dropping the scaffolding, they made a wild dash for liberty. At last reports they were still missing. Burroughs was doing a sentence of two years and Brown one year.

EDMONTON, June 28.—The Liberals of Beaver River have nominated Joseph Dechene to contest the provincial riding.

Rains Flood Souris Valley.

ESTEVAN, Sask., June 28.—A torrential rain tonight has caused the Souris river to rise to an abnormal level, flooding the grain fields in the Souris valley south of Estevan. The dam of the pumping station of the Canadian Pacific railway is entirely submerged beneath several feet of water while bridges below the dam which, in ordinary times, are from 10 to 20 feet above the water level, are hidden from sight beneath the murky waters. If the water continues to rise further damage will be sustained to growing crops, while already there is heavy loss through hay stacks in the flats being carried away.

PROPOSES COMPROMISE ON CANADIAN LUMBER

WASHINGTON, June 28.—Agricultural and other Republicans in the house who are opposed to a tariff on lumber from Canada, who planned a protest to the house ways and means committee today against the Fordney plan for a lumber tariff, were obliged to postpone the hearing because of pressure of house business. Another meeting will be arranged.

Chairman Fordney, who has been compelled partially to give way before the strong demand for free lumber, wants now to compromise on a plan to make it optional with the president whether or not to assess a duty on Canadian lumber.

The advocates of free lumber express great reluctance to accept this compromise, fearing that such a provision would lead the fir interests to direct a hard campaign against the president to induce him to impose a duty.

TO STAND TRIAL FOR MURDERING HUSBAND

YARMOUTH, N. S., June 28.—Mrs. Clara Elizabeth Perry will stand trial before the petit jury of the criminal trial sittings of the supreme court here on a charge of murdering her husband, the late Captain George Henry Perry, on the night of February 26, last.

Late this afternoon the grand jury of the court returned a true bill against the widow

ZEMENOFF QUITS JAPANESE VESSEL

Anti-Bolshevik Leader Effects Escape; Directs Siberian Troops Disposal.

VLADIVOSTOK, June 28.—General Zemonoff, the anti-Bolshevik leader, who for some time has been on board the steamer Shodo Maru, from which he was not permitted to land, disappeared from the steamer Sunday night.

Prior to the disappearance of Zemonoff he sent his troops in the direction of Grodeko, about 100 miles northwest of Vladivostok on the railway, from which place it is anticipated a separate government may be proclaimed. One regiment which was seen on the way to Grodeko was accompanied by an automobile having in it Russian and Japanese officers.

Zemonoff was perhaps the most prominent of the anti-Bolshevik leaders in eastern Siberia until his forces and other opponents of the Moscow government were badly broken up in the Bolshevik sweep eastward more than a year ago, which resulted in the collapse of Admiral Kolchak's all-Russian government at Omsk and was followed by the establishment of governments more or less friendly to the Moscow regime at Chita and Vladivostok. Zemonoff disappeared from view for some time.

Long Drawn Struggle Ends; Miners Accept Reduced Wages Agreement, Terminable on Three Months' Notice.

CONSIDER SETTLEMENT PROMISING EXPERIMENT

Inaugurates New Relations Between Capital and Labor; Believes Sincere Performance Will Reward Nation for Damage Suffered.

LONDON, June 28.—The house of commons tonight completed the settlement of the miners' strike by sanctioning a wage subsidy agreement which will stand until December 31, 1922, and then will be terminable on three months' notice thereafter. Reductions in wages are two shillings in July, half a crown in August and three shilling in September. The men are to resume work on Monday.

The men's leaders make much of having established a new principle of profit sharing on a national basis. The owners will forego profits for three months. Afterward, to meet general costs, the owners will take seventeen pounds sterling to every hundred paid in wages, and the balance as profits, to be divided in the proportion of 17 pounds sterling in every hundred to the owners and 83 to the workers. Wages are assured at 20 per cent above the 1914 standard. National and district boards will be established to adjust wage matters.

Renews Subsidy Offer

The prolonged stoppage in the coal industry will end Monday by a settlement reached today when the government agreed to renew its offer of a subsidy of £10,000,000 to avert the hardships of the next three months, because of necessary wage reductions, thereby conceding the one condition required by the miners in the settlement reached yesterday between the miners and the mine owners. By the terms of the new arrangement a wage basis will come into effect for the next 18 months, whereby the miners receive 20 per cent above the pre-war scale of wages, with an additional share of profits on an agreed percentage basis which will be regulated by the creation of a national board and district boards.

Parliament's sanction to the subvention is certain and little doubt is entertained that the miners will accept the advice of their executive and resume work forthwith. The settlement is only a slight modification of the terms the miners rejected by their last ballot, and covers the period up to September 30, 1922, but either side must give three months'

NELSON, B. C.

LIFE MEMBERSHIP GIVEN AT ST. PAULS

St. Pauls branch of the Presbyterian Women's Missionary society held a rather notable session yesterday, one of the feature of the meeting being the presentation of two life memberships. Mrs. Christina McCallum, who has been a member of the organization in the west for 30 years, was given this testimonial by her daughters, Mrs. A. J. Dill of Nelson, and Mrs. Anderson, while Dr. Annie Smith, who was nearly 25 years in India, was presented this honor by the local auxiliary, Mrs. M. Gibbs and Mrs. R. Smillie presenting the certificates to the new life members.

Mrs. A. Barnard of Edmonton brought greetings from the branch of which she was a member in that city. Mr. G. Douglas of St. Andrews, Toronto, and Mrs. Irwin, of Kamloops, also bringing fraternal greetings from those cities. Mrs. E. M. Auld of Honan, China, also communicated with the branch through her mother, Mrs. Grant Smith.

The gathering was held at the residence of Mrs. R. Smillie, Hall street. Solos were rendered by Mrs. J. B. Stirling, Mrs. A. H. Crossley and Miss Erma Brown. Refreshments were served before dispersal.

THE HAQUE, June 28.—Queen Wilhelmina, who for years has never left Holland, is planning a three weeks' boat trip to the Norwegian fjords this summer. She will travel incognito.

SHACKLETON TO COMMAND ANOTHER VOYAGE OF ANTARCTIC DISCOVERY

LONDON, June 28.—Sir Ernest Shackleton, who commanded the British antarctic expedition in 1907-09, which reached within 500 miles of the south pole, and also the antarctic expedition in 1914-16, will be leader on a new voyage of discovery covering 30,000 miles of uncharted sections of the southern Atlantic, the Pacific and antarctic seas. He will sail from the Port of London the end of August in a 200-ton ship named the Quest. He will have with him a small picked staff, including six companions of former polar expeditions.

The Daily Mail publishes this announcement.

The expedition, which will be called the Shackleton-Rowell oceanographical and antarctic expedition, will be financed by John Queller, minister of agricultural research, and Frederick Becker, a well-known paper manufacturer.

Will Explore Islands.

The Quest will be equipped for every branch of scientific research. She will carry a complete hydrographic survey and soundings, and will touch at various little-known islands, where the flora and fauna and geographical structure will be studied and photographed. A specially constructed seaplane will be taken and air currents will be charted.

The first objective vill be the Salvages, a group of rocky islands in the Atlantic between the Canary and Madeira islands; thence the vessel will proceed for St. Paul's rock, a little-known island on the equator, thence to Trinidad, where Shackleton landed in 1901 from Captain Scott's ship Discovery and saw the great petrified forest ,which will be explored.

Shackleton will go to Tristtanda Cuhna in the south Atlantic, and Gough's island, eight miles long and 4000 feet high, which has only been visited once before by the Bruce expedition in 1904, when four unknown species of birds were observed.

Soundings will be taken of the ocean plateau about Gough's Island in an endeavor to settle the surmises regarding an underwater continental connection between Africa and America.

The vessel will continue to Capetown, whence begins the exploration of the Antarctic regions, where no keel has been in the last 90 years. Enderby Land will be visited. This is a large tract, but whether a continent or an island, is unknown, as its limits remain unmarked. Possibly the ice-bound coast may bar the progress of the "Quest," but if she succeeds in getting through the pack ice interest centers in what she shall come upon—volcanoes or open seas. The vessel will emerge from the Antarctic by the Weddell Sea and call at the south Sandwich Islands and South Georgia. She will then proceed eastward and make landings at various sub-Antarctic islands, such as Bouvet island and Heard island.

Seek Lost Island

The next country to attract the Quest will be New Zealand, and the Pacific will be dredged for the lost island of Tuanaki, which has been mentioned in old nautical records and native legends, but has since disappeared. The party will search for Dougherty island, whose existence and position are doubtful. If accessible, it might serve as a wireless relay station between New Zealand and South America. The Quest is now at Southampton. She is 111 feet long, 23 feet breadth of beam and 12 feet in depth. She was built in Norway in 1917, is of oak, pine and fir and has been tested in heavy ice. Her sides are two feet thick and her bows are of solid oak sheathed with steel. Her steaming radius is 9000 miles, and under sail with a stiff breeze she can make eight knots.

She carries wireless equipment. Shackleton's chief companions will be Frank Etild, second in command; Commander Frank Worsely; Major A. H. Mack'in, biologist; Lieutenant-Commander J. T. Stenhouse and Captain T. L. Mussey, meteorologist.

GOMPERS ENTERS FORTIETH TERM

Veteran Labor Leader Is Re-elected President After Strenuous Opposition.

DENVER, Colo., June 28.—Sapuel Gompers, overcoming bitter opposition, was re-elected president of the American Federation of Labor for his fortieth term.

The western labor leader won over John L. Lewis of the Coal Miners' union, who put up a strenuous fight for leadership.

Lewis was unable to overcome the handicap of the strong sentimental hold which Gompers obtained on the labor movement by nearly two score years of administration.

The vote was taken amid dramatic scenes in the auditorium. The galleries were packed with supporters of both factions.

The floor of the convention hall was crowded with spectators. Delegates applauded every vote as it was announced.

It was the first time Gompers has been strenuously opposed since 1894, when he was defeated for the president by a miner.

READJUSTMENT LESS SEVERE IN CANADA

TORONTO, Ont., June 28.—"The readjustment pains are severe, but not nearly so severe in this country as in other countries," said R. J. Daly, president of the Home bank, at its annual meeting of shareholders today.

Mr. Daly continued: "The manufacturers have suffered from three different causes:

"First, overstocking; second, the sudden decline in commodity prices, and third, the discontinuance of foreign buying. It is encouraging to note that the heavy surplus stocks of a year ago are rapidly disappearing and that purchases on a broader scale by distributors can not long be delayed, and we have every reason to anticipate a more active domestic trade in the early fall.

"Retail trade is rapidly readjusting itself. The frequent turnover of merchandise has enabled the retailers to replace their stocks at lower prices and the drop in commodity prices has stimulated buying on the part of the public."

The former directors were reelected with the exception of Ambrose O'Brien of Renfrew, who resigned owing to pressure of private business, and his place was filled by T. A. Mitchell, London, an English shareholder, who is also connected with the bank.

VICTORIA, June 28.—J. P. Dougherty of Vancouver has accepted the office of superintendent of insurance under the provincial government at a salary of $3600. He will move to Victoria shortly.

REDS HELP AT MEDICINE HAT

Notorious Characters on Side of Grain Growers in By-Election.

MONTREAL, June 28.—Eastern newspapers comment on the byelection at Medicine Hat is as follows:

Montreal Star: "Those who talked of a government victory in Medicine Hat reckoned without their host—the most highly organized and smoothly running political machine in the Dominion."

Montreal Herald: "The sweeping majority shows that whatever the feeling in the east, the west is strongly inclined to give the United Farmers a try out."

Reds Assist.

Ottawa Journal: "The defeat by so great a majority of the Dominion government candidate in Medicine Hat seems to prove beyond cavil that the grain growers' party is much the strongest of any in the provinces of Alberta and Saskatchewan. Labor has apparently no distinct political fighting program."

William Ivens, who was sent to jail for his part in the Winnipeg riots, was one of the leaders in support of the grain growers' candidate in Medicine Hat. There were several others of that kind in Winnipeg and Vancouver helping Mr. Crerar. Mr. Meighen a few months ago stated that leaders of the Farmers' party had aligned themselves with the Winnipeg and Vancouver seditionists.

"For these utterances he was savagely attacked. Yet, in the election Monday in Medicine Hat, several notorious reds in the west, besides Ivens were speaking against the union candidate, and in the Medicine Hat district the red element is strong. The main conflict in the next general election will evidently be between the union party and the Farmers' party. If the Liberals can maintain a solid bloc in Quebec, they may be a good also-ran."

Opposition in West.

Fort William Times-Journal (Independent): "Viewed from a temporary standpoint, the victory of Robert Gardiner shows that the Meighen administration has such opposition in the west as to give it grave concern if a general election were called."

Crerar Sends Message.

WINNIPEG, June 28.—(Canadian Associated Press)—Hon. T. A. Crerar, leader of the National Progressive party, today sent the following message to Robert Gardiner, the successful candidate in yesterday's Medicine Hat byelection:

"Hearty congratulations to yourself and workers upon your splendid victory. It is an emphatic condemnation of the government and unmistakable evidence that people have set their eyes upon new standards and new ideals in public administration. What Medicine Hat said yesterday Canada will say when it gets the opportunity."

WASHINGTON, June 28.—Establishment of peace by congressional resolution neared its final stage today when senate and house republican conferees agreed upon a compromise resolution which they hope to have in President Harding's hands late this week. The compromise embodies the house plan of declaring the state of war with Germany and Austria at an end and adds the senate provisions reserving United States property and other rights.

VICTORIA, June 28.—Hon. W. Sloan, provincial minister of mines, will leave in a few days on a two months' vacation on the advice of his physician. He has not been in good health for some time and has been ordered to take a complete rest.

MINERS RESUME WORK MONDAY

(Continued from Page 1)

notice of a desire to terminate the agreement.

Justifies Grant

Announcing the settlement in the house of commons, Mr. Lloyd George justified the granting of the subsidy on the ground that the coal exporting district were so hard hit by the collapse of the export trade that, if economic conditions had full play there would be unsupportable reductions in wages.

The settlement, he said, was a great and promising experiment, no such principle had ever before been applied in such a vast scale in any industry. He was hopeful that it would inaugurate new relations between capital and labor, not only in coal, but other industries, and he believed that if it was sincerely carried out with good will it would repay the nation for all the damage suffered through the dispute.

Create National Board

A national board, with district boards, will be created representing equally the miners and mine owners, to regulate the rather complex system of profit sharing, under which 83 per cent of the proceeds after the payment of standard charges will go to the miners in the shape of wages, and the remaining 17 per cent to the owners. The British industry will have been idle 94 days when the miners resume Monday. While in point of duration this closely approaches the record for a British mine stoppage, established in 1897, when the strike lasted 16 weeks, its effect upon the nation's industrial and economic life has been far more disastrous.

Through the enforced closing of steel mills and the curtailing of rail service and other industries closely allied with or dependent upon mining, the ranks of the unemployed have been enormously swelled and the resultant hardships have been increasingly felt by owners, investors workers and all classes of the population.

Worst Strike Yet

The present strike is regarded as the most injurious the country has ever suffered. The most dramatic incident of the protracted dispute was the cancellation of the triple alliance of its orders for systematic walkouts by the railways and transport workers on the eve of these orders becoming effective.

At that time the government was holding thousands of men under arms through the royal proclamation of a state of emergency.

Reduces Railway Apprehension

In view of the final adjournment of the miners' dispute, the country is less apprehensive as to what may result from withdrawal of the government's subsidy on the railways in August. It was what was described as the "premature" cancellation of the government's financial assistance to the coal industry that precipitated, according to the miners, stoppage of work, and in some quarters there have been fears that a similar difficulty might follow the cessation of aid from the treasury to the railways.

GOLF HOLDS SWAY ON DOMINION DAY

Beautiful Links in Fine Shape for Week-end Tournament Arranged by Club.

With the season now in full swing and the royal and ancient game daily gathering fresh devotees, the Nelson Golf and Country club has arranged an attractive series of competitions for this coming week-end.

Commencing as early as possible in the forenoon of Dominion day, Friday, the several events scheduled below will be played off, for which the winners will be awarded golf clubs and the runners up golf balls.

Following are the principal events:

1. Men's handicap singles.
2. Men's foursomes.
3. Mixed two-ball foursomes

All members, the match committee hope, will take part in one event and will send in their entries either to G. A. Potter or C. W. Appleyard by Thursday evening, when entries close.

Never has the course looked in better shape than at present, and the many visitors who have recently tried a round on the picturesque links are loud in its praises.

Lately, in addition to the usual Wednesday and Saturday jitney service, a "bus" has been put on to run out just after 5 o'clock on Thursday and Fridays in the afternoon to give jaded business men a chance to enjoy a happy round and develop an appetite for dinner.

HAWKINS WANTS A FULL PRACTICE

Jimmy Hawkins, manager of the lacrosse team, wants tonight's practice to be a good one, as it will be the last before the eventful game on Dominion day with the Trail-Rossland team. This is the way he looks at the situation:

"This is the first time since the war that the national game of Canada has been played in Nelson. We ask that from now on the oldtimers turn out with the present generation playing lacrosse, as we have today in Nelson the making of a first class team.

"Further, it is up to the citizens of Nelson to be on hand the first of July and help to cheer the boys along, and show that our national game is still to the front."

Manager Hawkins wants to have everyone out tonight, the last practice before the game, including A. A. Perrier, A. Flumerfelt, G. Benwell, B. Thompson, A. Williamson, J. Curran, D. Richardson, E. Murphy, T. McKinnon, H. Ferguson, S. Barker, T. Armstrong, J. Spencer, J. McGee, Joe Thompson, H. Murphy and M. Walley.

Blouses of Beauty

The late models are extremely beautiful in design, material and trimming. They come in fine voile, crepe de chine and georgettes.

At present prices they are good buying.

Summer Millinery.

Our range of hot weather hats you will find includes the light, gauzy hats, the popular straws that the season demands, at prices which are exteremely moderate.

Our Summer Dress Goods, including Voiles, Muslins, Crepes, Ginghams, etc., offer a splendid assortment of carefully selected materials.

SEEKS INJUNCTION TO PREVENT FIGHT

International Reform Bureau Tries to Stop Dempsey-Carpentier Bout.

NEWARK, N. J., June 28.—A complaint charging criminal conspiracy to hold a prize fight in violation of the statelaws of New Jersey will be submitted tomorrow, and Prosecutor Garvin in Jersey City will attempt to prevent the Dempsey-Carpentier bout on Saturday, Herbert Clark Gilson, attorney for the International Reform Bureau, announced tonight. Mr. Gilson declared that he would ask Prosecutor Garvin to appear before the Hudson county grand jury, now in cession, and apply for an indictment against Tex Rickard, promoter of the bout, Jack Dempsey and his manager, Jack Kearns, Georges Carpentier and his manager, Francois Deschamps.

Alleges Criminal Conspiracy.

This action was decided upon after two applications for an injunction against the fight had been refused in civil proceedings before two vice chancellors. Attorney Gilson declared his complaint will allege that a criminal conspiracy to violate the laws of New Jersey by holding a prize fight exists, that the claim will be supported by alleged statements of the principals, that a prize ring has been erected and tickets printed and distributed and that large numbers of persons of criminal propensities will be attracted to New Jersey to the injury of the morals of the community.

Chancellor Declines

TRENTON, N. J., June 28.—Chancellor Walker tonight declined to consider an application of the International Reform bureau for an injunction to prevent the Dempsey-Carpentier fight in Jersey City next Saturday.

The chancellor ruled thatthe application, which alleged the state athletic commission exceeded its authority in granting the permit to hold the bout, was not in legal form and he could not take judicial notice of it. He said he would enterta an application for an injunction it were accompanied by "suppo ing affidavits," and made in th "to give the other side a reasonal time in which to reply."

WANT ENTRIES IN THE WATER SPORTS

Swimmers Canoeists and Log Rollers Should Give in Names Early as Possible.

All entries for the water sports at Lakeside park on the morning of Dominion Day should be in the hands of Capt. W. T. Tait, at the Y. M. C. A., as early as possible, the committee in charge of thi ssection of the big celebration urged last night.

These events include swimming races for both sexes, canoe tilting, greasy pole climbing, pillow fighting and log rolling.

Besides entering the swimming section of the water sports, it is reported that some fair oarsmen or oarswomen will take their places in the shells in one or two of the rowing races of which Coach T. D. DesBrisay has personally listed five.

In connection with the log rolling, it is reported that some of the river drivers of the Lindsley Brothers Canadian Company are out to lift the prizes "for the honor of the regiment." Prizes of $15 and $10 are up for this event. The firm's champion roller, Foreman Giroux of Lindsley Bros. at Nakusp, is on the sick list at present, or he would have been in the event.

CHICAGO, June 28.—Joe Lynch, bantamweight boxing champion, was shadedby Joe Burman, this city, in their 10-round bout at East Chicago, Ind., tonight in the opinion of newspaper men. As decisions by referees championship was not lost to Burman. The bout was the fourth in which the men have engaged, each having won a decision and one being declared a draw.

SAYS FIFTEEN MINUTE SERVICE WITH AID OF SMALL SAFETY CARS WILL INCREASE TRAFFIC BY THIRD

Mr. Lloyd Says if Council Adopts His Recommendations Operating Costs Will Be Reduced and Revenue Will Expand; With Present Fare Retained System Would Pay Its Way, Even Interest on Bonded Debt; Increase of Fare Would Make it Revenue Producing.

That a 15-minute street car schedule operated with two small Birney safety cars and the present cars altered to a one-man basis, would increase traffic by 30 per cent, is the contention of H. M. Lloyd, the B. C. Electric expert, who recently looked over the Nelson street railway system for the city council. With lowered operating costs and a larger traffic, the system, Mr. Lloyd estimates, would completely pay its way, including interest on debentures, existing and new, besides giving a service to the public infinitely more satisfactory. This would be on the basis of the present 5-cent fare, which, he states, is the lowest in the northwest. With an increased fare, on the basis of his figures, the system would become a revenue producer.

The section of Mr. Lloyd's report to the city council dealing with housing of the cars, operation and the probable financial results, is as follows:

Car Barn and Shop.

"The present car house is located up on the hillside, half a mile from the river front where the railways, foundry and machine shops, etc., are, and practically in the residence district. There does not appear to be room on the site to extend the building, which is a frame one with two tracks, and a wing containing store, office and small workshop, and with allowance for working on one car it has just room to house the two passenger cars and the snow sweeper. If additional cars are bought another site will have to be got for a larger building.

"This being the case, and other civic departments having their headquarters in various places, would it not be better to obtain a site convenient to both the street and other railways, and near the outside repair shops, upon which could be gathered together all the city works equipment, with yard accommodation for ties, water pipes, rails, etc.? One stores staff and one general repair shop and staff could care for all the city's equipment with greater efficiency and economy.

"The cost of such a scheme would depend upon the type of buildings erected, cost of land, less the amount that would be realized from the disposal of property vacated. There would be also a saving in teaming and other handling costs, as material received by rail, for example, could be unloaded direct from cars.

"As to the car house, it could be of frame and sheet metal construction. In any case it should be as nearly fireproof as possible, and protected by automatic sprinklers, arranged to protect both cars and building. The present equipment for handling car bodies, motors, etc., with a crane over the end of the repair pit should be sufficient for the truck shop. The repair shop should have a forge, drill press, lathe, air compressor and air line for blowing out motors, operating air drills, etc., and an armature-winding equipment. As to rewheeling it would hardly pay to put in a wheel press and boring mill for four cars, and in this connection the adoption of the Davis cast steel wheel, which we have been using in Victoria, and which is now past the experimental stage, would materially reduce this item of maintenance, on account of its long life.

Operation of Cars.

"From the schedule now effective, and the 20-minute one tried out, copies of which are attached, it would appear that with three cars, a 15-minute service is possible. While I was there, one car was making hourly trips with a 17-minute layover at Lakeside park, or a running time of 43 minutes. Traffic was light, and the car ascended the hill mostly on 'series,' and could easily have made better time, even with heavier traffic.

"What increase in travel would result from a 15-minute service I could not say without more familiarity with daily loading conditions, but comparing with the results obtained with increasing the headway in cities where safety cars have replaced larger ones, and allowing for the population from which traffic can be drawn, Nelson having about 8000, the following figures show what has happened elsewhere—the figures quoted showing increases:

	Car miles	Receipts
City.	Pct.	Pct.
Tampa, one line	51	51
El Paso, one line	50	50
El Paso, another line	40	36
Houston, one line	70	36
Tacoma, one line	75	42

"From these figures, allowing for a smaller population, there ought to be an increase of 25 to 30 per cent at the least. However, this might be considerably exceeded, once the public get the riding habit cultivated a little.

"With three cars, a 20-minute service would mean an increase in car mileage of about 50 per cent, while a 15-minute service would make the increase about 95 per cent over the present service, but in both cases the increase in car hours would be about 50 per cent. Substituting one-man operation for two-men, the platform hours would be reduced about one-third, with corresponding saving.

"Referring again to the Dominion railway statistics, I find that the Nelson street railway for the year ending June 30, 1919, reported as follows:

Car miles run	59,100
Fare passengers carried	390,201
Passenger regnue, $15,115.11; gross revenue	$15,180.36
Operating expenses, (wages, $8,351.81), total	14,767.26
Net operating revenue	413.10
Interest on funded deebt	4,050.00
Deficit	$ 3,636.90

No charge was made for power purchased, and under 'maintenance of equipment' there do not appear to be any charges for maintenance of rolling stock, the figures given being substation costs. Taking the figures as given and allowing, say, 10 cents per hour more per man for one-man operation, this would have reduceed the operating cost for wages by about $3400.

Financial Results.

"Taking the above figures for 1919 as a basis, let us assume an increase of 30 per cent in passenger receipts. Your revenue would be increased to $19,715.

"Assuming three cars, two Birney and one old car, in service, the car mileage would be increased with 15-minute schedule to about 115,000. Track maintenance would not be affected, as the new cars are together less in weight than one old one. Car maintenance, with new equipment, would be reduced per car slightly, but you have 50 per cent more cars in service which would add, say, $700. Other expenses, except car service and insurance would be unaffected, add, say, $100. Platform expenses would be reduced, as the 50 per cent increase in car hours is offset by about 45 per cent decrease per car hour, the reduction being about $2700. Your total operating expenses would then be about $12,867.

"Interest charges would be increased with the new capital expenditure, and at 6 per cent on, say, $45,000, the total would be $6750. Deducting these two figures from the revenue leaves a balance of about $600.

"Now if a charge is made for power, we can assume that with Birney cars running the power consumption per car mile will be less than with the old ones, the reduction being from 3.8 to 2.4. We would then have 312,500 k. w. hours which, at 1 cent, would cost $3,125. This would turn your balance to a deficit of $2525.

"The above figures are merely guess work, without details of the operating costs, but they seem to indicate that, if power is charged to the railway and other operating costs approach the estimates above, you would require an addition in traffic of at least 50 per cent to break even. If this is not attained the alternative is to increase the fare.

"If the figures of revenue and fare passengers quoted are right, the average fare in that year was only 3.88 cents, which is low. A straight 5-cent fare would have brought the estimated income up to $25,000, at which you would have a surplus."

TWO MORE DAYS TO GET DISCOUNT

Tax Payers Will Lose if They Let Bills Go to July; Income Instalment.

Today and tomorrow are the last days for settling with Tax Collector John Cartmel for provincial taxes at a discount, and for settling with Assistant Inspector of Taxation D. O. Thomas for the second instalment of Dominion income tax without penalty.

With July the 10 per cent discount for prompt payment of provincial taxes goes by the board. In the case of the Dominion income tax Inspector Thomas has to assess $5 for any delinquency in meeting an instalment due.

Fairview taxpayers have to make their settlements for this year with Mr. Cartmel and are on exactly the same basis regarding discounts and penalties as if the new section of the city were still under the direct rule of the government.

SHAPE UP GROUNDS FOR DAY OF SPORT

Many Volunteer Workers Are Working on Site of Friday's Events.

For the next two days many volunteer workers will be putting in time at the Recreation grounds, getting the grounds in shape for the various sports of which it will be the scene on Dominion day. The footballers are putting up new goalposts for their match with Trail, which is set for 1:30 in the afternoon. The baseballers will mark afresh the base lines of the diamond and tighten up the sacks for the game with Kaslo in the morning. The lacrosse boys also have their lines to run for the great exhibition game between the Trail-Ross and team and Nelson late in the afternoon.

In addition to other operators Captain W. T. Tait has to make the measurements for the foot races and bicycle races and choose the sites for the other athletic sports.

Practice for the various athletic contests is going on every evening, both at the Recreation grounds and elsewhere. Some pole vaulers are practicing at the courts of the Nelson Tennis club.

UNIFORMS FOR CADETS HERE

First Class Uniforms Arrive in Time for Camp; to Be Worn Friday.

Messrs. Emory & Walley have notified the cadet commander of the arrival of the suits for the Nelson Cadets, who are attending the summer camp, for which they will leave on the third or fourth of July. The uniforms are second to none in the Dominion, being composed of khaki tunics, breeches, putties, havershacks and aviation caps with red and black tassles.

The full uniforms will be worn for the first time in public as part of the G. W. V. A. Dominion day celebration on Friday, as the boys will parade in the forenoon and sell official programs and otherwise help the veterans during the remainder of the day.

The parade will be in charge of Acting Company Leader Palmer Rutledge and Adjutant Carl Johnson, with Half Company Leader Cameron St. Denis in charge of A company and Half Company Leader Kenneth Campbell in command of B company.

Cheap Fruit, Cheap Sugar—Good Time for Preserving

Not for four or five years have housewives' had such attractive conditions for preserving fruit as this year.

Berries are selling at lower rates than for some seasons and sugar also is down. In fact, it has just taken another drop, just at the right moment from the viewpoint of preserving.

It is good business to preserve fruit. It is an economy for the housewife and it will help to find a market for the fruit which the growers are offering at such attractive prices.

If You Have Not Been Enumerated.

The census taking will close tomorrow, June 30.

This district and every city and town in it, should make the best possible showing in the grand counting of heads which is in progress.

A growing population is good advertising. Let us make sure that this district gets full credit for its population in the official figures which the government will shortly publish and which will stand as the official figures for the next 10 years.

HAWAIIAN TEMPLE SHELTERED COOK

Natives Believed Him to Be a God; Will Be Visited by Press Congress.

HONOLULU, T. H., June 28.—An ancient temple at Napoopoo, island of Hawaii, in which Captain Cook, discoverer of the Hawaiian islands, lived during the period in which he was worshiped by the natives as a god, has been restored and will be among the numerous places of interest visited by delegates to the press congress of the world meeting at Honolulu next October.

According to the island legend, a native priest, emerging from his temple one sunny morning in 1779, noticed two great ships, unlike anything he had ever seen before, in the tiny harbor below. Strangely enough, a rainbow loomed up in the sky over the vessels and the priest, seeing this, fell upon his knees and declared that the ships had come down from the sky along the rainbow which, to the natives, was the pathway to the gods.

The landing of Captain Cook occasioned the greatest excitement among the natives, who believed him to be the reincarnation of the god Lono, whose second coming to earth had long been foretold among them. The great temple of Lono was offered Captain Cook for his residence, and he was installed with many rites as the long looked-for god. Captain Cook met his death in February of the same year that he landed on Hawaii, at Kealakekua, which, in the Hawaiian language, means "pathway of the gods," and near this spot a monument, which still stands, was erected.

Beneath the floor of the temple of Lono were found hundreds of skeletons of Hawaiian chiefs and chiefesses. Countless temples at one time existed throughout the islands, but the one at Napoopoo is among the very few that have been restored.

ICELANDERS PRESENT A MONUMENT

WINNIPEG—Presented to the province of Manitoba by the people of Iceland through their people in Canada, a monument of John Sigurdson, the famous Icelandic patriot and statesman, was unveiled here June 17, the Icelandic national festival day. Efficient Housekeeping

BY Laura A. Kirkman

SEASONABLE CANNING RECIPES.

June peas are the ones to can. They should be freshly picked and tender. Shell them, grade for size, and place them in cheesecloth; blanch (that is, dip the cheesecloth) in boiling water for five minutes, then "cold dip" (that is, plunge it into cold water for a second) and pack the peas into hot, sterilized jars; add one teaspoon of salt to each quart-size jar, and fill to within one-half inch of top with boiling water.

Dip rubbers into hot water and place them on the jars, put on sterilized glass tops, and put the top wire over the glass cap, but do not press down the side bail—or, with the Mason jar, screw the top on wit hthe thumb and little finger so that it will not be screwed on very tightly.

Now place the jars on the wire rack in your wash boiler canner, in boiling water to cover to the depth of two inches, and let "sterilize" in this way, with the water boiling constantly—do not begin to count till the water boils again aftre the jars have been placed on the rack—for three hours. Be careful not to break the peas while packing them in the jars, as this will give the jar a cloudy appearance.

To can sour cherries, remove stems, wash in cold water, grade for size, and pit. Then pack them into hot, sterilized jars and fill to within one-half inch of top with a boiling hot medium thin sirup made by boiling three quarts of sugar and two quarts of water together for five minutes; adjust rubbers and covers, partially seal, and sterilize under boiling water for 16 minutes for quart-size jars. Then completely seal, invert to test for leaks, cool and store.

To can sweet cherries, follow the above directions exactly, but use a boiling hot thin sirup instead of the medium thin called for above. (To make the thin sirup boil three quarts of sugar and two quarts of water together for exactly one *minute, not beginning to count until it* is actually boiling).

To preserve cherries, wash and pit them (either sweet or sour cherries) and put them in alternate layers in the preserving kettle with three-quarters their weight in granulated sugar. Let them stand in this way overnight, to draw out their juices. In the morning simmer gently until the cherries are tender, then *pour them into hot, sterilized jars*, adjust rubbers, put on covers, partially sealing, and sterilize for 10 minutes in your wash boiler canner. Then completely seal.

The first string beans are also the right ones to can. Wash, grade for size, removing strings, and place in a large piece of cheesecloth; blanch in boiling water five minutes for the smallest, tenderest ones, and almost 10 minutes for the larger and tougher (although none should be really tough and old). Then cold-dip, pack into hot, sterilized jars, adding one teaspoon of salt to the quart-size jars (add one-half teaspoon of salt to the pint-size) and fill to within one-half inch of top with boiling water. Adjust rubbers and covers, partially seal, sterilize under boiling water for two hours, remove and completely seal, and invert to test for leaks. In packing them you may either leave them whole or cut them across. If left whole, an easy way to pack is by holding the jar in the left hand and laying the beans in place; this gives an even, uniform pack, and the last beans may be pushed into the center to make a closer pack and *keep the outside row, next the glass*, even.

To can Lima beans, simply follow above directions for string beans—as periods of blanching and sterilization are identical.

NEW HYDRO-GLIDER.

VICTORIA. — The "hydro-glider," which is being launched here soon, is something entirely new in the shallow draft boat construction line. The boat is propelled by an airplane type petrol engine with an air propeller. The hull is of the hydroplane type, which skims the surface up to a speed of fifty miles an hour. Eight passengers can be carried by this novel craft which differs greatly in construction and method of propulsion from the American "sea sled," which demonstrated its speed off this port last year. The boat will be used to reach almost inaccessible places in exceptionally shallow water.

CARVELL NOT IN GOVERNMENT.

CALGARY—Addressing a meeting of railwaymen in Medicine Hat, when the men were asked to state any grievances which they might have, Senator Robertson, minister of labor, said that he was sorry to find that many railway employees were under the impression that Hon. F. B. Carvell is a member of the government, and that the government is responsible for any utterances he may have made.

"No government could ever have expected that a man in Mr. Carvell's position would have gone out and publicly discussed matters that were properly dealt with in his court alone," Senator Robertson said, according to a report in the Calgary Herald. "The railwaymen have a right to feel aggrieved at the statements he has made with regard to railway work or wages, some of which were not correct. When I found that the railwaymen were being so unfairly attacked I took the matter up in parliament and I might point out that *there have been no more of the* speeches referred to, because Mr. Carvell is now convinced that he was wrong in the stand that he took."

LIABLE FOR COLD APARTMENT.

WINNIPEG.—A case of wide interest to tenants in apartment blocks was decided here recently when Henry H. Pigott, a tenant, brought suit against W. W. Cross, owner of a local apartment block, for failure of the janitor to provide sufficient steam heat. The plaintiff claimed that his lease entitled him to enough heat to keep his suite at a comfortable temperature. Evidence showed that the janitor was negligent on numerous occasions in this respect, one night the temperature dropping to 45 degrees.

A verdict for the lpaintiff of $450 damages and costs was returned, the jury contending that the defendant was liable because he did not personally see that the janitor kept the suite at a proper temperature.

Styles

Even a frock from 6 to 12 may know that long waistlines are smart, and emphasize the fact by an airy sash of organdie tied jauntily at the side. Yes, it

is the smart little frock at the left that we mean (1), and it points the gingham path to girlish charm by using a check of red and white, with inserted panels of organdie embroidered with red cross-stitch. The pattern is cut on kimono lines. In the back the frock is plain, the fastening accomplished by a close together row of small pearl bone buttons that extends to the waist.

For the superior age of 10 to 14 the chambray frock at the right should please both maid and mother (2). It is a cleverly constructed design for the early adolescent figure, the basque bodice permitting graceful adjustment at the waist. This attractive little frock was shown in a practical tan shade with green stitching on bands of self-material, and a white organdie vestee shirred on green cord. White or colored rickrack braid may be more convenient, and the frock may be copied in green, jonquil yellow or light blue chambray, with white trimming.

SALUTE FOOD STEAMER

RIGA—(By Canadian Press)—Honors such as are usually accorded to royalty or to officials of high rank were given the Dutch steamer Alexander Polden when she arrived at Petrograd recently. The steamer brought the first large crop of food that has entered the haror for about three years, ad as she passed Kronstadt *she was saluted by the battle*ship Marat, while Russian sailors lined the docks and cheered. The Dutch captain dipped his colors while the ship's band played, and the vessel steamed direct to the dock and began to unload her varfo of herring.

With years of starvation at the back of them the workers at the dock, by day and night shifts, unloaded 5350 barrels of the ship's cargo so swiftly that the next day twenty carloads of herrings were dispatched to Moscow, while the rest left for distribution in Petrograd. Only the day before she arrived the Economic Life wrote as follows about Petrograd:

"The fate of the city is so tragic that no comparison can be found in the world's history. The immense mortality of Russia during the past few years may be regarded as far more tragic than the fall of Pompeii."

Since the Alexander Polden made port, two more steamers have arrived at Petrograd carrying 17,000 barrels of herrings, hich were quickly unloaded.

ECONOMICS AND FINANCE JAZZ

Money Situation Chaotic, But Living Conditions Improve in Austria.

VIENNA, June 28.—(Associated Press.)—Finance and economics seem to have parted company in Austria. With its money situation chaotic there is at the same time a generally acknowledged betterment of conditions of living.

Travelers revisiting Vienna say they do not recognize the city of a year ago. The mass of the people are better dressed and more plentiful food is shown in their healthy appearance. The green and sallow faces have disappeared and, on the whole, the Viennese are nearly back to normal as far as external evidence goes.

Paris can hardly show a more fashionably gowned crowd of women than that which turns out for the ring promenade in the afternoon or throngs the high class shopping district in the mornings.

The shop display of luxurious wares of every description increases until the Arbeiter Zeitung says it exceeds Vienna's best days of before the war. The same newspaper admits there is steady progress and betterment in business and general conditions.

The famous delicatessen shops are reopening with almost their old-time excellence. The windows are filled with fancy dainties for which the city was noted, canned stuffs of the finest foreign makes are to be bought, American crackers and biscuits are common in the groceries, the candy shops are restocked and while last winter a pound of sweets was virtually unprocurable the finest fresh bon bons now are to be had in any quantity.

White bread is served in nearly every restaurant and the bakery windows again display the famous Vienna pastries and cakes. In the poorer districts even the butcher shops and groceries reflect the same condition.

Presses Busy Printing Notes.

Turning to finances the current statement of the Austro-Hungarian bank speaks for it. There are at the moment 45,000,000,000 crowns in circulation and 4,000,000,000 outstanding treasury notes issued to the banks for discount. But this cheap money is plentiful. Every one seems to have it and to be spending it. Enormously advanced prices for everything seem not to have affected the volume of business. Printing presses are now turning out a round 5,000,000,000 crowns a month to meet the government expenses. The current budget shows a deficit of 50,000,000,000 crowns. The wealth levy has produced thus far about 9,000,000,000,000 crowns, one-half of which was paid in war bonds, leaving enough cash from this source to meet about one month's running expenses for the government.

Through its spokesmen and newspapers the government is urging the need of haste in the proposed credit plan of the League of Nations, by which enough foreign capital is sought to establish a bank of issue whose new currency on a gold basis is expected to gradually retire and stabilize the value of the present crown.

FLYING SERVICE TO NORTH

EDMONTON.—Three flying boats of five passenger capacity, will inaugurate a passenger airplane service from here to the north early in July, according to J. C. Gibson, managing director of the Great North Services. Mr. Gibson recently returnturned from the east, where he arranged for the shipment of the machines and interested a group of prominent brokers in Toronto, Montreal and New York in the Alberta-Mackenzie flying service and its allied schemes.

The company has been reorganized and an aerial service on a larger scale than originally proposed will be provided. Several big flying boats of a different type from those now on the way west will be put on the route. They will have a capacity of 12 passengers each. The immediate program of the company is stated to be the installation of an aerial service to Fort Norman and intermediate points.

A wireless telegraph service is under consideration and the company will go more extensively into prospecting and development work. These larger operations are being planned for next year.

RAISE EDUCATION STANDARD.

WINNIPEG.—Insisting on higher qualifications for public school teachers, a movement has been launched to raise the standard of education in Manitoba. There is no longer a shortage of teachers in the province, and it is now believed that the time is opportune to raise the standard. The proposition is to make the necessary qualification grade 12 instead of grade 11, and to increase the period of normal training.

Dr. Thornton, minister of education, was recently waited upon by a delegation from the Teachers' Federation regarding the extension of professional training for teachers. The teachers claimed that the grade 12 academic training should be the minimum for second class teachers and that the normal training should be extended. Grade 11 is the present standard for Manitoba teachers, a normal training now consists of ni months. Dr. Thornton promised give the request consideration.

SOCIAL REALIZES FUNDS FOR CHURCH

WANETA, June 27.—The ladies of the valley gave a social entertainment at the home of Mr. and Mrs. M. A. Selby on Saturday evening to aid the building fund of the Presbyterian church at Trail.

A sumptuous midnight lunch was served to the 60 guests that were present. A musical program, both vocal and instrumental, and recitations, that were highly entertaining was thoroughly enjoyed by all. A silver collection was taken, which netted the neat sum of $28. The ladies wish to express their thanks for the success of the happy occasion.

WEDDINGS

McCamon-Edwards.

NAKUSP, June 27.—At St. Peter's church, Revelstoke, on Tuesday evening, Miss Florence Ethelyn Edwards, daughter of Mr. and Mrs. Lewis J. Edwards of Nakusp, was united in marriage to *Edgar Reginald McCamon of Calgary*, Dean Gretton of Revelstoke officiating. The bride was given away by her father and her sister Doris acted as bridesmaid, while Thomas Morris of Revelstoke attended the groom. A number of friends were present at the ceremony. Supper was served at the residence of Mr. and Mrs. F. B. Wells and the happy couple left for the station at midnight, accompanied by several old friends. Mr. and Mrs. McCamon after visiting Calgary will take a motor trip to Banff and Lake Louise for their honeymoon and will reside at Calgary.

TRAIL NOTES

NAKUSP, June 27.—The Misses Cox and Keel of the teaching staff of Glenbank school left for the Coast on Saturday and will not be returning to Nakusp after the vacation, much to the regret of their many friends.

Rev. Mr. Donaldson of the Anglican church, in charge of the Edgewood parish, officiated at St. Mark's church at Nakusp on Sunday.

The Misses France and Hedley are visiting Mrs. Sharman at Crescent Bay. Miss France will be leaving for England in a month or so.

Mrs. Chambers of Fosthall is in town visiting Mrs. Carver at Torch farm.

Mr. and Mrs. Hudson of Fosthall have just returned from their honeymoon trip to the Coast and will reside permanently at Fosthall.

E. W. Somers will leave for the east in a week or so, accompanied by Mrs. Somers. Mr. Somers has been on the sick list for some months and his many friends are glad to see signs of his complete recovery.

SLOCAN CITY NOTES

SLOCAN CITY, June 27.—T. G. Carter, who was principal of the public school here for two years and was forced to resign owing to serious illness about two months ago and has, since recovering from his illness, been added to the Nelson teaching staff of the central school, came in from Nelson Saturday night with his wife and baby for the summer holidays. Mr. Carter's many friends are glad to see him hale and hearty again.

Mrs. M. Birish of Nelson, an old-time resident, came in on Saturday on business. She is visiting with friends while in town.

Alexander R. Cameron, who has been a student at the Nelson high school, came home on Saturday for the summer holidays.

Mrs. Francis Hufty and little son Charles returned home from Nelson on Saturday.

F. A. Buchholz of Arrow Head, who was at one time a resident of the place, is in town renewing old acquaintances.

George S. Henderson, who runs a jitney between Rossland and Nelson, came in on Saturday to visit his father, R. G. Henderson, and sisters, the Misses Myra and Muriel Henderson. He was accompanied by the Misses Orpha and Hope McGauley of Castlegar.

SLOCAN CITY, June 28.—Miss M. Bassett of Victoria, who has had charge of the junior grade classes of the public school during the last term, left on Monday for her home in Victoria.

Miss Florence Beck, who was in charge of the public school as principal for the past two months, left on Monday for her home in Kaslo.

TRAIL NOTES

TRAIL, June 27.—Dr. W. H. Coghlin, who has been on an extended visit to the east, returned to Trail on Saturday night.

About 50 Rossland citizens came down to see the Rossland-Trail baseball game on Sunday afternoon.

TRAIL, June 27.—Harry Adair, Ed Johnson and W. Brown have gone to Pend Oreille to work for the Waneta Power and Light company, who are proceeding with construction of their new power plant, which will be located just below the mouth of the Salmon river.

Miss Hazel Eldridge left on Saturday for her home in Nelson for the school holidays.

Miss Mabel Morrow left for Castlegar on Saturday.

Miss Margaret Fraser will spend a week at her home in Rossland and will then proceed to Victoria with her sister Florence, where they will take a month's training at the summer school in special courses.

Mrs. R. Gordon entertained a few of the school teachers at her home, Riverside avenue, on Friday evening prior to their departure for the holidays.

The G. W. V. A. held another of those popular smokers on Saturday evening, for which the Trail branch is becoming so well known. A splendid program of music, recitations, step dancing and songs was rendered and coffee, sandwiches, cake and "smokes" were served.

A surprisingly large amount of first-class talent has recently come to light through these "free and easy" social evenings and it is the intention of the "vets" to keep things warm by holding the "smokers" at frequent intervals.

The Columbia river, having reached last year's high water mark and then dropped over three feet in the last couple of weeks, has again risen a foot and is still rising. This may spoil the fishing, which was just beginning to get pretty good, a falling water being better than a rising water for this class of sport.

William R. Mitchell of Annable left on Sunday morning with his team for Nelson, where he will probably remain if he finds the treatment for nerve trouble, from which he has been suffering for some years, which he is now taking, is benefited thereby. He has arranged for constant work in Nelson for himself and team and if his health improves will remain there permanently, bringing Mrs. Mitchell to Nelson later.

WANETA NOTES

WANETA, June 27.—Wilfred Barrett of Fruitvale and Miss Alma Hodgson of Trail were week-end guests of Mr. and Mrs. A. M. Adie.

Robert Rankin, who has been seriously ill for the past year, died recently in Trail. Mr. Rankin resided in this valley for many years and his many friends are grieved to learn of his death.

Miss Margaret Wadds, who has been teaching school at Columbia Gardens, is here for a few days visiting friends. Miss Wadds will leave on Wednesday for her home at Crawfords Bay.

Mrs. A. A. Johnson and two little daughters, Louise and Mildred, of Spokane arrived last week to spend the summer with her husband, the Great Northern agent of this place.

Miss Grace Buckley of Bunker Hill came Saturday for a week's visit with Miss Ruth Selby.

Fred Roberts of Ymir and H. O. Mitchell of Fruitvale are in this district taking the government census.

Easiest Way to Remove Ugly Hairy Growths

(Beauty Culture)

Here is a method for removing hair from arms, neck or face that is unfailing and is quite inexpensive: Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh.

CONSIDER SMALL FRUIT GROWING

Agricultural Department to Send Expert to Appledale District.

APPLEDALE, June 28.—The monthly meeting of the United Farmers was held on Saturday night. A debate on "Does Poultry Keeping in the Slocan Pay?" was won by the affirmative.

A letter from the agriculture department was read referring to the request for an expert on small fruits to be sent to Appledale to see if the land was suitable for commercial growing of all small fruits and which said an expert would be here shortly.

It was decided to ask the Winlaw United Farmers to the next meeting and to have another debate, the subject to be decided later.

TEACHERS ENTERTAIN HIGH SCHOOL PUPILS

TRAIL, June 27.—On Friday evening the students of the metriculation class and these former students, Peter and Joseph Demidoff and Brian Thompson, now B. C. university students, were entertained at a banquet in the Star cafe by the high school teachers, Miss F. McArthur, Miss Lingle and Miss Orr. The tables were tastily arranged and the banquet was enjoyed by all.

After the dinner Miss Gladys Thompson, on behalf of the students, presented each of the teachers with a memento of the occasion and as an expression of the appreciation and esteem in which they are held by their late pupils.

Juniors Give Dance.

Later in the evening the matriculants were the guests of the high school junior students at a dance given in their honor in the central school assembly hall, which was beautifully decorated for the occasion.

Games were first indulged in, followed by dancing. At midnight a dainty repast was served, after which another short period of dancing brought to a close what had been to the matriculants a very busy and eventful day. The young ladies were chaperoned by the high school teachers.

PERRY SIDING NOTES

PERRY SIDING, June 28.—The Slocan-Kootenay Farmers' exchange has just distributed a carload of flour and feed to its members.

Miss S. Dawney, who has been writing for the entrance examination at Slocan, returned on Friday last.

A number of the folks from this point took in the baseball club's dance at Appledale last Friday.

Strawberries are being shipped out now at a rapid rate.

Mrs. Norris was a visitor to Slocan on Monday last.

APPLEDALE NOTES

APPLEDALE, June 28.—Mr. Bridge came home from Nelson on Monday.

Mrs. Hill of Winlaw was the guest of Mrs. D. F. Peters for the dance on Friday.

Mrs. C. J. Stainton of Trail is visiting her parents, Mr. and Mrs. Wynne.

A very pleasant time was spent at the dance given by the Athletic club on Friday night. A crate of strawberries donated by Mrs. Good was raffled, Miss Brooks being the lucky winner.

Mrs. P. Le Duc of Trail is the guest of Miss Wynne.

Mr. Fraser was a visitor to Slocan City on Saturday.

Mr. Scott of Slocan City held service on Sunday.

H. Wynne was home for the week-end.

PROPOSE TO BUILD LIQUOR WAREHOUSE

TRAIL, June 27.—It is reported on reliable authority that arrangements have been made by the government liquor control board with the Trail Mercantile company for construction of a liquor warehouse on the vacant lot at the rear of the latter's store, on Cedar avenue, the lease of which is to run for five years. Also that Mr. Holt C. Caldicott of this city will take charge of the liquor store on completion of the new building.

SOCIETY BEMOANS SEASON'S DULLNESS

Coal Strike Has Depressing Effect on London Season, But Health Improves.

LONDON, June 28.—(Associated Press)—All society is bemoaning the failure of the London season. The week preceding the Derby should have seen social gaiety approaching its height; but the widespread effects of the coal crisis have put a damper on the round of pleasure scheduled for this time of the year, and old stagers find it hard to recall any similar period when so little private entertaining was done.

No society debutantes are coming to town. Shortage of money has caused many society folk to cancel their London engagements and to spend the summer as cheaply as possible in the country. By the King's desire courts have been postponed and hotels and theaters are reporting slumps.

There are a number of overseas visitors in London, but "not enough to go around," as one hotel manager put it, and were it not for the Americans who have come over for the polo games those who have to live out of profits made in the season would be in despair.

Dressmakers, tailors and entertainment carterers are doing next to nothing, the reason being that the present period of industrial unrest makes is impossible to see a month ahead.

Efforts were made to make the Henley regatta a social success. Henley is always a gay dress pageant. According to the fashion papers the modish corols are yellow and red, with flower and fruit designs and with hats trimmed with wreaths of imitation vegetables.

The only benefit the coal strike has conferred upon London is the absence of smoke and fog. The continued clearness of the atmosphere is surprising Londoners, who are discovering views of their city the existence of which they hardly suspected.

Public health has benefitted very greatly, according to official health statistics. There has been an astonishing decrease in bronchial and pulmonary complaints. Pneumonia cases have gone down as much as 50 per cent compared with March.

Dr. John S. Owens, chief of the advisory committee to the meteorological office on atmospheric pollution is the authority for saying that London's air has now reached a purity never before attained under modern conditions of life.

LEND MONEY TO FARMERS.

WINNIPEG.—The province of Manitoba has loaned farmers more than $4,150,000 for agricultural purposes during 1921, according to figures obtained at the parliament buildings. The loans made were: Purchase of seed grain, under the Seed Grain act, $1,000,000; rural credits loans, $2,400,00; farm lands, $750,000.

The farm loans boards at the present time has applications before it for loans amounting to another $750,000.

The provincial savings bank, operated by the government, is advancing several hundred thousand dollars for the rural credits and farm loans.

ENFORCE TAXATION ACT REGARDLESS

VICTORIA, June 28.—Instructions to the taxation department to strictly enforce the provisions of the Taxation act, without reference to results were issued today by Hon. John Hart, minister of finance. This is the opening of a campaign by British Columbia to get in some of the money that is owing the province.

Persons who have not received income tax forms from the government are required by law to apply for them.

MARKET FOLLOWS UNCERTAIN COURSE

Alternate Reactions and Recoveries Attend Session; Brighter Towards Close.

NEW YORK, June 28.—The stock market today followed an uncertain course. Early gains of 1 to 3 points later were subjected to considerable revision.

Overnight developments received favorable interpretation in speculative circles. Transportations hardened on the administration's proposal to fund the country's railway debt; oils rallied sharply on reports that the Mexican government would postpone enforcement of foreign tax decrees and foreign exchange responded to settlement of the British miners' strike.

Alternate reactions and recoveries attended the sluggish mid-session, *oils and several investment rails*, including Canadian Pacific, showing pronounced pressure with several of the obscure specialties.

Prices attained highest levels in the final hour on a demand for steels and equipments which extended to oils, motors and rails. Crucible and U. S. Steel finished at substantial gains, as did Baldwin Locomotive, Mexican Petroleum, Chandler, Reading and Southern Pacific.

Sales were 525,000 shares.

Announcement was made after the market closed that the dividend on American Ice common had been increased to five per cent from four.

Call money was less plentiful, the rate rising from five to 5½ per cent toward the close, because of withdrawal of $33,000,000 to meet government demands and in anticipation of July interest and dividend *payments*.

Speculative railway bonds were aided by the government's proposed refunding program, but industrials eased, with irregularity in Liberty issues. Mexicans were strongest of the foreign group.

Sales, $10,875,000.

MONTREAL LIST

MONTREAL, June 28.—Net changes were highly irregular today with substantial gains and losses shown. The paper group was the strongest of any, there being only two small losses of a fraction, both in Wayagamack and Laurentide. The Spanish issues were strong, the common advancing 2 points to 50 and the preferred 2¾ points to 63, both closing at the high.

The largest gain of the day was scored by Ontario Steel, which rallied 4¾ points to 36¾. The largest loss went to Cement preferred. Dominion Steel preferred and Winnipeg Railway, each of which lost 2 points.

The utilities were not very active.

There was less trading in the bond list with prices irregular.

Total sales: Listed, 5432; bonds, $157,900.

TORONTO BOARD

TORONTO, June 28.—Developments today which might have a tendency to affect the stock market favorably, and as a result there was an improvement in tone and a good proportion of advances in prices.

Before noon it became known that the Spanish River pulp and paper mills had declared the regular dividend on both common and preferred. The effect was immediately seen on the position of the two Spanish issues and sales of the common were made at 48½, a gain of 1 point, and of the preferred at 63¼, a gain of 3¼. Abitibi moved up a fraction and Old Rieardan sold at 13½.

Toronto Railway had a renewal of interest, gaining 1 point to 71½. Quebec Railway moved up a fraction, but Winnipeg declined a point. Dominion Steel was weaker; Canadian Pacific made a loss of half a point.

Victory bonds were irregular.

WHEAT CRASHES ON STRIKE PROSPECTS

CHICAGO, June 28.—Wheat crashed down in price today. Chances of railroad and elevator strikes together with pressure to new market wheat from the winter crop district brought about a selling flurry and left values nearly without support. The close was semi-demoralized, 6 to 9 cents net lower with July $1.19 to $1.19½ and September $1.17 to $1.17½. *Corn lost 2⅝ to 3¼, and* oats 1½ to 1¾. In provisions the outcome varied from 20 cents decline to 10 cents advance.

BRISK TRADING AT WINNIPEG FUR SALE

WINNIPEG, June 28.—More than 60,000 pelts were disposed of at the third fur sale conducted by the Winnipeg Auction Fur Sales company today, and approximately $180,000 was realized. Two hundred buyers gathered here from New York and Chicago and bidding was brisk. *Prices advanced over the previous* sale. Silver fox at $275 showed an advance of 25 per cent, while lynx at $40 and mink at $13.50 showed a 20 per cent advance. Beaver, otter, fisher, marten and bear were unchanged.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-tives"

LITTLE BRAS D'OR, C. B.

"I was a terrible sufferer from *Dyspepsia and Constipation* for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, *a friend told me to try "Fruit-a-tives"*. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

GIVE LONG ODDS ON CARPENTIER

Ten to One Frenchman at Montreal; Four to One Dempsey New York.

MONTREAL, June 28.—While Champion Jack Dempsey is quoted in Wall street betting as a 4 to 1 *choice to beat Georges Carpentier*, local pari-mutuel wagering in auguated here today makes Carpentier a 10 to 1 favorite. In other words at the present rate of betting a two dollars on Carpentier should he win will return only $2.20, while a two dollar ticket on the champion, if he wins, will net a two dollar ticket holder the liberal return to $22.00. Nearly $10,000 was wagered on the outcome of the fight in Montreal today. Of this amount less than $1000 was wagered on Dempsey. The largest individual bet was $2000, wagered by a well known local hotel keeper on Carpentier's chances.

SENIOR BASEBALL LEAGUE FORMED

Nelson Kaslo Trail and Rossland Arrange Schedule; Friday's Game Starts It.

Negotiations of the last two or three days have resulted in the formation of the West Kootenay Baseball league, of four clubs, the clubs being those of Nelson, Kaslo, Rossland and Trail. The first three named are certainties, and Trail is expected to confirm its membership today. Each of the four clubs will play every one of the other clubs home and home games.

The opening game of the league will be the big contest between Kaslo and Nelson on the Recreation grounds Friday morning, as part of the Dominion Day celebration.

Nelson will go away for two games over the week-end, it is expected, playing at Trail Saturday, and at Rossland Sunday. It will then give Kaslo its return game, going up there a week from today.

FALL SCHEDULE STARTS AT ONCE

Footballers Will Open Second Half of League Series Next Week.

At a big football meeting at the Y. M. C. A. last night it was decided to allow only one week's intermission before bringing on the second half of the senior league schedule. Two games will be scheduled next week, the McLearies and Corinthians playing next Tuesday night, and the St. Saviours and the Corinthians on Friday night of the same week.

The meeting also decided to have a football basket picnic at Proctor one week from Sunday, when the footballers and their families will foregather for a holiday outing.

ROSSLAND TOO HOT FOR TRAIL

Smelter City Ball Team Loses First Game of League Fixture.

TRAIL, June 28.—Trail and Rossland met here this afternoon in a West Kootenay baseball league fixture, Rossland defeating the local nine by the score of 5 to 2.

A large crowd turned out and the game was one of the finest here for some time and, with the exception of the third and fourth innings, both teams played air-tight ball. Trail gathered their only runs in the first and second inning and Rossland collared two in the third and three in the fourth.

Morrish for Trail pitched good ball, but lacked support in the critical moments. In the third inning the Rossland boys fell on him rather heavily. For Rossland Waldo pitched a splendid game, getting twelve strikeouts and allowing four hits, against Morrish's record of five strikeouts and ten hits.

For Rossland B. Forteath and D. McKenzie played stellar baseball, the former batting well and making a splendid running catch in the fifth inning. McKenzie brought the crowd to their feet when he made a wonderful catch off his shoe strings, losing his balance in doing so. For Trail Henry and Mayes played well, doing some very nice fielding.

Lineup.

Rossland—Coen, Pollin, B. Forteath, McKenzie, McPeak, Drew, Michaely, Singer, Waldo.

Trail—Henry, F. Weir, Vannetter, Mays, Patton, Butorac, C. Morgan, McDonald, D. Morgan, F. Morrish.

CARPENTIER HAS HITTING POWER

Jeanette Convinced Something Must Go When Georges Lands That Right

The early months of 1914, the close of which was destined to see Carpentier a soldier in a real fight, brought the Frenchman his first defeat since he had lost to Billy Papke in 1912. Joe Jeannette, the American negro heavyweight and one of the game's hardest hitters, was the victor over the Frenchman in a slashing 15-round bout. Many spectators thought that Carpentier should have been awarded the decision.

In spite of that Carpentier's hitting power shown in that battle convinced Americans that here was a real top-notch heavyweights. Twice he sent Jeannette to the canvas with crashing blows to the head. Jeannette has since declared that the blow with which Carpentier floored him early in the bout was the hardest that ever connected with his anatomy.

The veteran ngero, who has done little fighting for several years, is now a resident of Hoboken, N. J. He has done considerable work with Carpentier while the Frenchman has been training at Manhassett. One afternoon recently Carpentier, while sparring with the negro, unleashed his right with its full power and once again Jeannette hit the canvas, stunned but not knocked out.

"Can that boy hit?" was Jeannette's question as he slowly rose to his feet, while Carpentier apologized. "Ah'll say he can hit. What that right hand hands on must go. And that includes Mistah Dempsey."

Dempsey's Last Fight.

Jack Dempsey knocked out Bill Brennan in the 12th round of their bout at Madison Square Garden, December 14, 1920, in his most recent contest.

The champion's showing that night against Brennan, a good second-rate boxer, was far from reassuring. The champion appeared to have suffered from the long lack of action. He was much slower than in previous bouts. Brennan hit him and appeared to hurt him and Dempsey left the ring after the fight bleeding from an injured ear.

The bout, however, was slow through most of the rounds. Motion pictures were made and many believe that therein lay the reason for Brennan's unexpectedly good showing.

Dempsey throughout failed to show his usual aggressiveness, Brennan apparently had no fear of the champion and took the initiative in several of the rounds, often standing toe to toe with Dempsey slugging. However, Dempsey managed to wear down the challenger in the later rounds and in the 12th, a left to the body and a right to the head, sent Brennan to the canvas in a neutral corner. It was the only knockdown of the unsatisfactory bout.

FIGHT FOR RIGHT TO MEET TILDEN

Challenge Tennis Round Between South African and Spanish Experts.

WIMBLEDON, June 28.—William T. Tilden, the world's singles tennis champion, will meet either B. C. Norton of South Africa or Manuel Alonzo of Spain for the British championship at the singles on turf courts. Both of the finalists had hard matches to win in order to secure their positions. Norton defeated Francis T. Hunter, United States, in a five-set match, 6—0, 6—3, 5—7, 5—7, 6—2, while Alonzo also was carried to five sets by Z. Shimidzu, the Japanese expert. The score of this match was 3—6, 7—5, 3—6, 6—4, 8—6.

Mrs. Craddock and Miss McKane of Great Britain defeated Mrs. M. B. Mallory, the United States champion, and Miss Edith Sigourney of Boston, 4—6, 6—4, 6—0, in the second round of the women's doubles. Miss Shepherd and Miss F. M. Hawkins of Great Britain defeated Miss Rose and Miss Tanner, also of Great Britain, 6—4, 5—4, in the same round. In the semi-finals of the women's singles Mrs. Satterthwaite of Great Britain defeated Mrs. Clayton, also of Great Britain, 8—6, 6—2. In the third round of the mixed doubles A. E. Beamish and Mrs. Lacombe of Great Britain defeated Mr. Haughton and Miss Haughton, both British, 8—6, 5—7, 6—4.

In the third round of the women's doubles Miss Elizabeth Ryan of California and Mlle. Suzanne Lenglen of France defeated Mrs. Lambert Chambers and Mrs. Lacombe, Great Britain, 6—2, 6—2.

SCOTS WEND VICTORIOUS WAY.

PRINCE ALBERT, June 28.—The touring Scottish professional football team this evening defeated a picked team of this city, 3 to 0, in sultry weather, which slowed down the game considerably. Two thousand people saw the contest.

The home team, though defeated, put up a tremendous fight against the brilliant short passing and combination game of the Scotsmen. The team will leave tomorrow morning for Winnipeg, where they play on Dominion day.

THE Eye is a wonderful organ. When in normal condition it registers all the beauties of nature as rapidly and as beautiful as they appear.

For the great service they render they are usually the most abused and neglected. Give them the best of care and if glasses are wanted do not hesitate to wear them.

Our thorough examination will soon reveal the conditions. We are prepared to diagnose all eye troubles and give you a positive statement.

ARMORY TO BE SCENE OF GAIETY

Dance Will Be of Carnival Type With Special Music and Confetti.

Special carnival features with a specially augmented jazz orchestra and a super-special supper are some of the special attractions being prepared for the big feature dance to be held in the Armory by the G. W. V. A. in connection with their celebration on July first. George Horstead has secured a limitless quantity of real carnival confetti and the orchestra will execute all the very latest dance hits, importations from New York, Chicago and London. Much care is being devoted on the floor and it is taking on good form.

WEDDINGS

HOLMGREN-SANTER

At St. Saviour's church on Monday, by Ven. Archdeacon Graham, rector, Gustave William Anderson Holmgren, of Johnson's Landing, was married to Miss Nora Santer, daughter of Mrs. A. J. Santer of Silica street, the service being choral. The church was fittingly decorated by the bride's fellow members of the Altar guild. Little Misses Mollie and Marjorie Thomas were the flower girls, and the bridegroom was supported by J. B. Conway of the forestry department, which which both of the principals have been associated, the bride as stenographer. The bride, whose late father, Rev. A. J. Santer, was a missionary in India, was given away by her mother.

Mr. and Mrs. Holmgren went to Proctor yesterday and are leaving for Lardo, where Mr. Holmgren will be stationed for the forestry department until the fire season is over, after which they will take up their residence on Mr. Holmgren's ranch at Johnson's Landing.

LUMBERMEN WILL CURTAIL OUTPUT

Mills With Logs on Hand Will Saw Them Up, But No New Logging.

That those mills that have stocks of logs on hand will keep on cutting until the logs are used up, but that in general there will be no further logging this season, and that a number of mills will close down on July 1, is the report of lumbermen of this section who attended the general meeting of the Mountain Lumber Manufacturers' association at Chase at the latter end of the week. They returned by way of Golden and the East Kootenay.

Stocks, which dwindled during the winter, have now been built up till they are equal to the large figures of January 1, and there being but a very light demand for mountain lumber, and at only very low prices, the mills are individually taking steps to curtail production.

The canvass of the situation made by the members at the meeting showed that while the fine crop prospects lead to the expectation that there will be some improvement in the demand for lumber, no one anticipates any large demand. Consequently, the manufacturers of lumber have decided to go slow, not cutting more than they have means to carry and from which they can reasonably expect to get their money back.

Among the topics discussed in an academic way by the association were the possibility of a further freight reduction toward the end of the year in the event of the railways being successful in reducing costs, and the proposed new United States tariff on lumber, which would hit the Canadian lumbermen, but about which, of course, they could do nothing.

Some 25 members of the association, several of them having ladies with them, attended the sessions, and on the second day of the gathering, Saturday, visited the plant and bush operations of the Adams River Lumber company, which was host. Friday night the company had a show for its guests, importing a Hawaiian troupe, a dance following.

Some of the members left Saturday night for the Coast, but a considerable number went east to Golden and motored Sunday through the Kootenay-Columbia valley. This latter party included J. S. Deschamps of Rossland, John Waldie of Castlegar, Secretary-Treasurer I. R. Poole of Nelson and C. O. Rodgers of Creston.

Mr. and Mrs. T. L. Bloomer and daughters Marjorie and Lillian leave on the Crow boat this morning for a visit to Truro, N. S. They will be away three or four weeks and will visit Toronto and Niagara Falls en route.

"Bosun" W. J. Richards, manager of the Silver Reefe group on Anderson creek, returned yesterday from a visit to the property and reported that his partners, W. K. Symonds and Richard Baron, had been doing great work. They expect to have a car of high grade ore in about 30 days. A sample of the ore is in the window of the Rutherford Drug company.

THIRTY CENT AD SELLS SEVEN PIGS

George Brant Says it Pays to Advertise in The Daily News.

That it pays to advertise in The Daily News is the firm belief of George Brant, secretary of the Nelson and District Horticultural society. In yesterday's issue he advertised seven young Yorkshire pigs for sale and by 4 o'clock in the afternoon the last one was sold, with demands still coming in. The advertisement cost Mr. Brant 30 cents.

Mr. Brant says he could have disposed of an unlimited number of young pigs if he had had them.

"What Women Will Do"

With the Fascinating

Anna Q. Nilsson

She—the Girl in this case—
Was a confidence pal;
Smuggled opium, dodged the police;
Wore spangles in a cabaret;
Thrilled pleasure seekers by her dive from a flying trapeze;
"Faked" a "spirit" message;
Masqueraded as a society belle;
"Framed" a horse race;
Planned to "get" a widow's wealth.
And then the unexpected happened to her.

"What Women Will Do" is a production glittering with gayety, crammed with sensations and supreme in its appeal to the heart.
