VOL. 20. NELSON, B.C., TUESDAY MORNING, OCTOBER 4, 1921. NO. 134.

SHALL CANADA BE BACK DOOR AND A DUMPING GROUND OF THE STATES ASKS MEIGHEN

Premier Opens Campaign in Maritime Provinces With a Big Meeting in Amherst; to Abandon Protection Would Doom Canadian Industries; Mr. McCurdy Deals With Mackenzie King's War Record; New Solicitor General Speaks.

AMHERST, N. S., Oct. 3.—Reiterating his plea for a protective tariff, Premier Meighen today opened his campaign in the maritime provinces with a speech which was heard by an audience of 2000 in the Armories here. The prime minister again charged Hon. W. L. MacKenzie King, leader of the Liberal party, with duplicity in tariff matters and issued another rebuttal of charges of extravagance and autocracy in government.

Mr. Meighen received a respectful hearing from an audience which displayed a serious and concentrated interest in the arguments advanced by him. With great earnestness he warned his hearers of injurious results from abandoning the present tariff system. Canada would become a back door, a mere dumping ground to the United States; her industries would die and the present unemployment system would be aggravated.

McCurdy on Mackenzie King

Hon. F. B. McCurdy, minister of public works, resented charges made by the Liberal leader that the prime minister was autocratic in his methods, and insisted that Mr. Meighen's ability, his courage, his firmness, his devotion to the country, his superb self-confidence mark him out as a man who can safely lead the country.

The minister asked what Mr. King had done while Canada was fighting the war. "Oh," he said, "Mr. King was reserving himself against the day when, the war having been brought to a victorious end, thanks be to God, who, through the gallantry of our noble men, gave us victory, he might go to and fro in the land seeking to make political capital out of things which were done or were not done."

Andre Fauteux, the newly appointed solicitor general, said the people of Quebec had decided to take their

BECK GIVES OUTLINE OF HUGE SCHEME

Hydro Commission's Engineers Would Develop Two Hundred Thousand More.

MAKE ST. LAWRENCE A NAVIGABLE RIVER

Project Will Also Regulate the Levels of lake Ontario.

TORONTO, Oct. 3.—Sir Adam Beck announced today that within a month the hydro-electric power commission's engineers would present to the Canadian section on the international waterways commission, a scheme for the development on the St. Lawrence river which would produce 100,000 or 200,000 more horsepower.

The scheme, he said, would make the St. Lawrence navigable and regulate the levels of Lake Ontario.

SOVIET GOVERNMENT OBJECTS TO BRITAIN AND FRANCE UNITING ON FAMINE RELIEF

Disclaims Having Dealt With Indian Revolutionaries Lately; Says Persian Capital Is No[illegible] Propaganda Center; Says Russia Has Been Friendly W[illegible] Britain Has Been Unfriendly.

LONDON, Oct. 3.—JThe reply of the Russian Soviet government to Great Britain's recent note, charging intrigue against Great Britain in Central Asia, is understood to be on its way from London to Moscow.

The note, it is asserted, does not attempt to answer the charges of the British government, except to assert that the evidence secured by the government was founded on forgeries emanating from a "notorious German agency."

The note maintains that various Soviet officials mentioned by the British government hold different posts from those attributed to them.

Eastern Policy.

It asserts that the eastern policy of the Soviet has been uniformly friend[illegible] Great Britain, and that Tash[illegible] is not an anti-British propaga[illegible] center. Complaint is made in [illegible]ote that Great Britain has sho[illegible]erself unfriendly to the Soviet. [illegible]stances are recorded of arrests made by Brig.-Gen. Harrington, commander of the British forces in Constantinople.

The note emphatically states that the Soviet government has had no dealings with the British Indian revolutionaries since the signing of the trade agreement. It objects to Great Britain and France taking common action regarding famine relief in Russia, and reports that the charges that France has incited Poland and Rumania to war against Soviet Russia.

ASSEMBLY DISCUSSES BLOCKADE

Greece Wishes to Fix Rules and Netherlands Would Strike it Out.

ALBANIAN DISPUTE TROTS ANOTHER HEAT

Procedure Regarding Amendments Is Radically Modified.

GENEVA, Oct. 3.—The assembly of the League of Nations made adoption of the covenant easier by adopting today under the old unanimity rule a change in article 26 requiring unanimity for amendents, and immediately began consideration of the proposed alterations of the covenant under the new rule. Article 26 now reads:

"Amendments to the present covenant, the text of which shall have been vented by the assembly on a three fourths' majority in which there shall be included the votes of all the members of the council represented at the meeting, will take effect when ratified by the members of the league whose representatives composed the council when the vote was taken, and by a majority of those whose representatives formed the assembly."

Many Views on Blockade

The first amendment debated under the new rule was modification of article 16, proposed by the Greek delegation, providing that no state shall proceed to blockade a country breaking the covenant before the date fixed by the council. The smaller states, including Holland and Poland, however, opposed any action in fixing the blockade regulations.

They pointed out that countries moved either by interest or animosity might anticipate the action of the council and blockade on their own account before the question had been sufficiently studied.

M. R. de Mares van Swinderen, of the Netherlands, raised a parliamentary question entirely new to the assembly, by moving suspension of all action on article 16 until the next assembly. Lord Robert Cecil said that something must remain in full vigor and that the effect of the action would be to tear up article 16, leaving the league without any economic arm whatever.

Balkan Disputes Again

The Albanian - Greek - Jugo - Slav problem broke out again unexpectedly, but finally was disposed of so far as this assembly is concerned, by the declaration of the Albanian delegation that it would accept the decision of the ambassadors' council. Lord Robert Cecil took occasion to score the ambassadors for their delay, saying:

"We have heard that the ambassadors are about to give their decision. I hope and trust it is so, because, if I may venture very respectfully to say so to such an august body, delays in such a matter are criminal to the peace of the world."

BOY IS KILLED BY LIVERY CAR.

REGINA, Oct. 3.—Lawrence O'Brien, five-year-old son of Edward O'Brien, Regina, was almost instantly killed here today when he was struck by a livery car driven by George Mathews. Mathews has been placed under arrest on a charge of manslaughter.

OMAHA BOY SCOUTS AVERT TRAIN WRECK

OMAHA, Neb., Oct. 3.—James Caldwell, aged 14, and Clarence Swindholm, aged 12, Omaha boy scouts, saved passenger train No. 6, a through train on the Chicago, Burlington & Quincy, between Omaha and Chicago yesterday from what road officials said would have been a serious wreck.

The boy scouts discovered a large tree lying directly across the track. Pulling young Caldwell's red sweater from his back, the scouts ran down the track waving it frantically. The engineer stopped the train a few yards from the tree.

ARBITRATE SOUTH WALES BONUS TERMS

Mine Owners Accept Government's Proposal to Refer Dispute to Board.

LONDON, Oct. 3.—The South Wales coal mine owners, at a meeting today at Cardiff, decided to accept the invitation of the mines department of the government to refer to an arbitration board the dispute over the terms under which the subsidy was granted, to hasten the end of the recent strike of coal miners. Under the government's interpretation of the terms the mine-owners are asked to pay £750,000 more in wages to the men.

TYROL STARVES AUSTRIA AND MAY SEPARATE

VIENNA, Oct. 3.—The Austrian Tyrol has again closed its frontiers and prohibited exports of food stuffs to residents of other parts of Austria. In a manifesto, the provincial government declared that if the federal government is unable to check the made profiteering and speculation which are threatening the ruin of the country, the Tyrol and Austria must part.

ITALIAN STRIKE IS ABOUT OVER

TRIESTE, Oct. 3.—A solution of the general strike of the shipyard workers today seemed to be in sight. The men are expected to return to work next Wednesday, having received minor concessions. The government has completed an agreement with the shipyards for the construction of 14 vessels so as to insure the companies against losses on material already contracted for.

CARRIES FOUR MILLION DOLLAR SILK CARGO

VICTORIA, Oct. 3.—Completing the trans-Pacific voyage from Yokohama in nine days, the Empress of Asia reached here this forenoon. Dr. Philip Tyau, secretary-general to the Chinese delegation to the Washington conference, was a passenger. The Asia carried a $4,000,000 cargo of raw silk.

INTERNATIONAL JUSTICE COURT IS SUGGESTED

International Chamber of Commerce Will Discuss its Feasibility.

SAVE MILLIONS NOW LOST BY LITIGANTS

Body Will Also Consider Floating of German Reparation Bonds.

PARIS, Oct. 3.—An international court of justice for buisness disputes is one of the suggestions which probably will come before the fall meeting of the council of the international chamber of commerce, to be held here the coming Friday. The international court created by the League of Nations, but would confine its work to the settlement of the world.

Advocates of the plan argue that it would save millions of dollars now spent in litigation, for legal services and other expenditures, which are now unavoidable, through the lack of an international body to adjudicate business differences.

Another matter to come before the council will be an effort to find a way to float the German reparation bonds and give them a market value.

GOOD OUTLOOK FOR TRADE WITH RUSS

Mr. MacKie, Member for North Renfrew, Leaves Riga for London.

RIGA, Oct. 3.—A favorable report on Canadian trade prospects in Russia will be made to Ottawa by H. J. MacKie, member of the Canadian parliament for the North Renfrew district, who has ben in Russia to investigate trade possibilities there, it is understood here. The Canadian delegate passed through Riga on his way home after some weeks spent in Russia on his semi-official mission.

Mr. MacKie left for London with the expectation of sailing for Canada on the Cunard liner Berengaria.

Mr. MacKie said he met many friends whom he made during his visit to Russia during 1914, including some generals, who naturally do not sympathize with Communism, but all of whom believe the present type of government is there to stay, and are working harder than ever for the government in the hope of helping reconstruction.

LINDSAY, Ont., Oct. 3.—Oil has been struck on the Killaby farm, on the edge of the corporation, and experts declare that the test has proven very satisfactory. The farm is at present owned by Thomas Perdue, of Rochester, who purchased it about a year ago.

STATES HONOR UNKNOWN POILU

PARIS, Oct. 3.—The United States today paid its highest tribute to the dead soldiers of France, when General J. G. Pershing, in the presence of an immense throng, including President Millerand and other high officials, laid the congressional medal of honor upon the tomb of the unknown Poilu under the Arc d Triomphe.

HARDING AND HAIG DISCUSS DISARMAMENT

General Congratulates President on Calling Conference; Expresses Good Will

EDINBURGH, Oct. 3.—Field Marshall Earl Haig, who commanded the British forces in France and Belgium in the great war, speaking at a grand rally of the Edinburgh branch of the British legion held here, said he had written to President Harding congratulaitng him upon what he was doing in connection with the calling of a conference at Washington on limitation of armaments and problems of the Far East, and that he had received a reply from the United States president to this communication.

The field marshal read the president's letters to the audience. In it Mr. Harding said:

"I received and am deeply impressed by your letter of July 3, in which your lordship, as president of the British Empire Service league, and in the namé of 7,000,000 ex-service men of the British Empire, conveyed to me their warm congratulations upon our efforts to establish more firmly the foundations of world peace.

"In the same letter I am assured of the league's heartful sympathy and strong hope that this movement may prove an important step toward the realization of those high ideals of just dealing and good will between the nations for the sake of which so many of both our countrymen died in the great war. I greatly prize the spontaneous expressions of sympathy and support of an organization which holds, as does this one for which you speak, a unique and glorious place in the affections and respect of people everywhere on earth who cherish liberty, fair dealing and the peaceful processes of progress.

"Please convey to your colleagues of the league my heartfelt thanks."

SOUTH SLAVS MASS UPON ALBANIA LINE

ROME, Oct. 3.—The massing of Jugo-Slovak troops along the Albanian frontier for the occupation of strategic points is viewed with alarm by the Italian press.

The Tribuna says:

"This concentration of the Serbian army is of extraordinary gravity since the movement is a threat of attack and evacuation by Jugo-Slavia. It has the character of provocation. The Allies can not permit it, for it is an insult to Great Britain, France and Italy, who have just concluded an agreement respecting the Albanian boundaries."

STEEL WAGES IN ENGLAND CUT QUARTER

Many Reductions Since January, But Still Nearly Double Pre-War Scale.

LONDON, Oct. 3.—Under the sliding scale adopted by a board on conciliation and arbitration affecting the manufactured iron and steel trade of North England, wages will be reduced 25 per cent immediately, making total reductions since January of 132½ per cent. The present scale is 97½ per cent above the pre-war scale.

LIEUTENANT GOVERNOR PLANTS MEMORIAL TREE

VICTORIA, Oct. 3.—Lieutenant-Governor W. C. Nichol yesterday planted the first tree in what, it is claimed, will be one of the outstanding war memorials of the Empire, in the form of an avenue, which, when completed, will contain one tree for each British Columbia soldier who lost his life in the great war. A name plate will be embedded at the base of each tree.

CHAOS RULES FARM WAGES IN BRITAIN

Local Voluntary Conciliation Committees Have Completely Broken Down.

LONDON, Oct. 3.—(Canadian Press cable).—According to the London representatives of the Agricultural Workers' unions, absolute chaos now exists in the agricultural areas, following the termination of the agricultural wages board. It is alleged that the machinery of local voluntary conciliation committees has broken down on the wage question, and deadlocks have arisen in a number of cases.

A lockout is threatened in Norfolk because the workers there refused to accept wage cuts to as low as 36, and in some cases even 30 shillings a week. According to officials of the agricultural section of the workers' union, the same conditions are prevailing all over the country, with the whole system of conciliation by voluntary committees breaking down on account of wage reduction proposed by the employers being too high.

Already there is a national reduction in wages of agricultural workers ranging from four to six shillings per week, according to the minimum scale in the various countries. This reduction brought wages down to 2 shillings weekly, and further reductions are being proposed in every county.

BEATTY FARMER SUICIDES.

REGINA, Oct. 3.—Samuel J. Magee, a farmer one mile west of Beatty, Sask., committed suicide Saturday afternoon by poisoning, according to reports to the provincial police.

MARY PICKFORD'S DIVORCE IS UP

CARSON CITY, Nev., Oct. 3.—P. A. McCaran, counsel for Mary Pickford-Fairbanks, motion picture actress, in her divorce proceedings against Owen Moore, motion picture actor, moved in the state supreme court today for the dismisal of an appeal from a judgment upholding the divorce. The appeal was filed by States' Attorney General Leonard Fowler.

McCaran argued that the appeal was not submitted to the court within the statutory time limit, and that the judgment is not subject to appeal.

Deputy Attorney General Richards asked the court to examine the records in order that it might see for itself that the appeal was regular in every way. He admitted, however, that a clerical error might have made it appear that the appeal was not made within the statutory time limits.

FREE TRADE IMPOSSIBLE SAYS KING

Dr. Beland Advocates Friendliness Toward the United States.

DIGBY, N. S., Oct. 3.—If the Liberals in 1911 had not gone down to defeat fighting the battles of the farmers in the reciprocity pact there might be some excuse for putting Farmer candidates in every riding in Canada, declared Hon. W. L. Mackenzie King, Liberal leader, at tonight's meeting. But as it was, they were dividing the forces of progress in seeking, not alone a voice in the government, but a group in the government of their own country. It would not be surprising if the common enemy of Farmers and Liberals had been responsible for many of the Farmer candidates being placed in the field.

"I see my friend, Mr. Davison (the sitting member), in the hall," he said. "Wouldn't he enjoy seeing a Farmer candidate in the riding to take votes away from Dr. Lovett, who represents th Liberals, and who will be the next member for Digby-Annapolis!"

Fielding Speaks.

Hon. Mr. King was well received in Digby. Though a heavy rain fell during the entire evening, well over 2000 people filled the rink for the occasion and gave the speakers of the evening close attention. Hon. H. S. Beland, Hon. W. S. Fielding and Dr. Lovett, Liberal candidates, also addressed the gathering.

Hon. J. S. Beland, member for Beauce county, Quebec, asserted that the only fiscal policy for Canaday was that laid down by Sir Wilfrid Laurier a few weeks before his death. That was the Liberal tariff policy, and by that the Liberal party stood. But the premier could not make the tariff the sole issue and avoid the reckoning for his government's record.

He declared that Canada needed economy, a moderate tariff, friendliness with the United States, maintenance of the British ties, and unity between all classes of the Dominion for betterment of all. The Liberal party, Dr. Beland said, was in the fight for all the people.

MacKenzie King Speaks.

Hon. W. L. MacKenzie King, Liberal leader, declard that it was the people's right to govern and say who shall govern; Mr. Meighen, he claimed, was an old time Tory who denied those rights.

The Liberal tariff policy, declared Mr. King, was wide enough for all the Dominion. He enumerated the different industries found in the surrounding area which include the four great basic industries.

Other industries were dependent on fishing, agriculture, lumbering and mining. The natural resources of the country must be fully developed, the Liberal leader declared, and implements

LLOYD GEORGE AND EXPERTS FINISH TASK

Premier Will Speak Before Newspapermen Only at Inverness.

LONDON, Oct. 3.—(By Canadian Press cable.)—The experts who peceeded to Gairloch to discuss with Premier Lloyd George measures for relieving the unemployment problem spent a busy week-end, though their deliberations led to no concrete decisions.

The premier intimated that it would be necessary first to consult other groups in London. These will include labor leaders.

The experts were very reticent regarding the conference, but it is gathered that they have a big scheme of which they are very hopeful.

Premier Lloyd George starts his return journey to London tomorrow, and will stop en route at Inverness, where he will quietly receive the freedom of the borough. In view of the great public interest he will deliver a speech on unemployment, but acting under medical advice will not unduly strain his voice. The address will be given before a company of press men only.

URGE RELEASE OF THE SINN FEINERS

Military Authorities Will Not Consent While "Republican" Army Drills.

LONDON, Oct. 3.—The movement to procure the release of Sinn Feiners under internment, is growing in strength and insistency, according to advices reaching London. The Irish Nationalist press is urgently supporting the movement, but, so far as is known, the Sinn Fein leaders have made no representations to the government, the attitude of which on the question is not known.

The military authorities, however, according to a dispatch to the London Times from Dublin, are not willing to have the interned men released, not because they are opposed to peace, but largely because of the activity of the "Irish Republican army" which, it is asserted, continues to enlist recruits, and is drilling and marching them in many parts of Ireland without attempts at concealment, according to advices from Dublin.

Incidents such as the drilling of troops as indicated in the dispatch from Dublin today, are in no wise new, and are well known to the military authorities. The authorities are not interfering, apparently agreeing with the Sinn Feiners that such operations are not technical breaches of the truce. The Times' correspondent says, however, that the authorities cannot be expected to overlook the significance of these preparations, and that it seems unlikely that they will sanction a general release of the 3600 interned men unless they obtain reasonable assurance that civil warfare will not be resumed.

It is probable, the correspondent adds, that their scruples would be removed, if the early proceedings of the peace conference give substantial promise of a political settlement.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent lithia-water drink whic heverybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

MEIGHEN SPEAKS IN SPRING HILL

Premier Illustrates Protective Policy by Reference to the Duty on Coal.

SPRING HILL, N. S., Oct. 3.—Following this afternoon's meeting at Amherst, Rt. Hon. Arthur Meighen, accompanied by Hon. F. B. McCurdy, minister of public works; Hon. Andre Fauteaux, solicitor general, and Lieut.-Col. C. E. Dent, local candidate, motored to Spring Hill and addressed another large meeting in the opera house here.

Mr. McCurdy referred to the fact that a protective duty was put on coal in year 1878. Since that action was taken the coal business in Canada had expanded tremenously.

Referring to this fact, Mr. Meighen said:

"Situated as this country is, alongside the greatest industrial country the world has ever known, a policy of protection is essential to this country. I make this prophesy that you will not have one man on this platform who will say he is against a duty on coal. But ask Mr. King if he told them in the west he favored a duty on coal. He did not, because farmers are in favor of removing the duty on coal."

Mr. Meighen explained once more the importance of keeping up the tariff wall in order that Canadian industry may live.

SHALL CANADA BE DUMPING GROUND

(Continued From Page One.)

part in the councils of the country in a broad, friendly spirit.

Premier Takes up Tariff

Premier Meighen, after referring to the great men Nova Scotia had given to Canada, asked the gathering what they were voting for in the coming election. He declared that the Liberals were advancing other issues in order to evade the tariff issue. He was charged by Mr. King with autocracy, but the most democratic legislation in Canada, the law which gave women votes, had been put through by the Conservative government, though opposed by the opposition.

Turning to the tariff, Mr. Meighen referred to the Liberal policy as announced in the platform of the party. He insisted that the Liberal policy meant free trade.

"Make the platform law, and you will have free trade and nothing else," declared Mr. Meighen. The Liberals had adopted their platform in order to try and swing the Farmer movement in behind them. Why did they want to do that? Because this movement had gained tremendous strength in the west, and the Liberal leader wanted to get control of the organization behind it. Mr. King went out in the west and preached free trade. He came into the east and called for protection.

Liberals Eliminated in West

In the west the agrarian party had eliminated the Liberal party absolutely.

The moment this country decides that it is through with protection, that moment it starts down he path of commercial absorption by the United States," declared the premier.

The premier emphasized that every country in the world had protection today, and every country was increasing it. If there was any country in the world that has everything to lose by abandoning protection, that country is Canada. he said Canadians were living beside a huge nation which had a protective tariff wall and was building it higher.

The prime minister appealed to the farmers. He asked them if they seriously proposed voting for a policy which wou'd admit the exportable surplus into Canada from the United States which wou'd kill the home market for agricultural products. He asked the laboring classes if they wanted to kill the common industries. The platforms of the Progressives and the Liberals were both wrong and the only country which would benefit much against Canadian industry as to vote in favor of American industries," said Mr. Meighen.

Mr. Meighen declared the United States had sold this country $1,800,000,000 worth of goods more than Canada had sold to the United States in the last five years.

The depreciation of the Canadian dollar in the United States was the inevitable result.

Moderate Protection Tariff is Ideal

A moderate protective tariff is the sound and true policy for Canada, insisted the prime minister, and he declared that the great Liberal leaders of the past, as well as the Conservatives, had appreciated this fact. It was time for Canada to hoe her own row on tariff matters.

TWO MEN SHOT IN SEATTLE HARBOR

SEATTLE, Oct. 2.—Two men, said to be union coal miners, were shot and wounded, neither seriously, on the waterfront here tonight by a special deputy sheriff, according to a report at police headquarters.

The wounded men are Thomas Sneddon and Evan Lewis. Sneddon is reported to be president of the Black Diamond (Wash.) local of the United Mine Workers. The police arrested W. V. Kirby, alleged to be the deputy who fired, and two other men, Harvey Wicks and James Wilson, laborers. The police said Kirby had been a deputy stationed at the coal mines in western Washington.

Union miners of the state have been on strike since last March, and the mines recently were reopened on an open shop basis. The trouble tonight, according to witness, arose over a discussion of the strike

KING SAYS FREE TRADE IMPOSSIBLE

(Continued from Page One.)

and instruments of production should be relieved as far as possible from taxation to encourage fullest production. There we should revise the tariff.

Reciprocity in Farmers' Interest.

"There is no one in our party who believes free trade is a possibility in this country," said Mr. King. "Our policy is not based on the interest of one class of industry only; it is based on the needs of all. All industries and all interests grow with increased production, and our aim is to bring about that increase."

The necessities of life, he declared, should be as free as possible from taxation; that is an aim in the interests of men, women and children alike. The tariff must be for purposes of revenue and not to aid any special interests. There is a great national policy, and we believe as this policy is carried out so Canada will be improved and make a better place for all to live.

Mr. King declared that Liberals in 1911 had been defeated while fighting for reciprocity in the interests of the farmer. The government probably had much to do with placing many Farmer candidates in the field, Mr. King thought, since their effort was to divide the forces of Liberalism and progress.

CANADIAN WOMEN ARE ELIMINATED

DEAL, N. J., Oct. 3.—Playing on wet links in a heavy rain, all the Canadian entrants in the United States women's golf championship tournament were eliminated in today's qualifying round of 18 holes at the Holywood Golf club. Miss Kate Robertson of Montreal did not appear at the tournament. The Misses Sybil and Hazel Kennedy of Montreal had cards of 100 and 101, respectively; Miss Willugage of Toronto had 110. Miss Doris Chambers of Great Britain withdrew after playing the round in approximately 106.

BYELECTION IS NOW ON IN LANCASHIRE

LONDON, Oct. 3.—(By Canadian Press Cable.)—There is only one byelection progressing in the country now, this being the contest for the West Houghton division of Lancashire, made vacant by the death of W. T. Wilson, who, as a Laborite, held the seat for 15 years.

Councillor R. J. Davies of Manchester, who was selected as the Labor candidate, worked for 10 years in the coal pits, but for a long time has been connected with mining only on its political side. His opponent, James Tonge, ran as an Independent in 1918 and was defeated, securing 6637 votes to the successful candidate's 11,849. Mr. Tonge is running as a Coalitionist this year.

PROTRACT CONFAB UPON WAGE CUT

Brotherhood Discussions Leave No time for Joint Conference.

MONTREAL, Oct. 3.—Owing to protracted discussions this afternoon the brotherhood representatives on the subcommittee of the conference to discuss the wage reduction of 12 per cen proposed for railwaymen were unabl to meet the representatives of the railways, but a further joint conferenc between the representatives of th men and the railroads has been arranged for tomorrow morning.

The conference met in the mornin without arriving at any basis for settlement, but discussion, it was said was in an amicable spirit.

The conciliation commission held it self in readiness all day for consulta tions or advice, but its services wer not required. A time limit to Wednes day has been set by Mr. Justice Mc Lennan and his colleagues, but thi may be extended if found necessary.

SINN FEIN DELEGATES LEAVE HOME SATURDAY

DUBLIN, Oct. 3.—It is announced that the Sinn Fein delegates to the London conference will leave Dublin next Saturday.

Erskine Childers, the novelist, and Finian Lynch, Sinn Fein member of parliament for South Kerry, have been appointed secretaries of the conference.

Finian Lynch fought during the Easter rebellion in 1916, and subsequently was placed in prison. He was a fellow prisoner with Thomas Ashe, who died in Mount Joy prison on a hunger strike. After his release Lynch was "on the run" for a time. He was captured and placed in prison again, but was released some time ago to attend the sessions of the Dail Eireann under the truce terms. He is a leader in the Gaelic league.

VETERANS DROP BYLAW PETITION

State Ymir Road Project Takes Precedence in Letter to City Council.

Following the consideration last night by the city council of a letter from the Nelson branch of the G. W. V. A., in which the Veterans pointed out their reasons for desiring to proceed no further with the petition for the submission of a new street improvement bylaw, the communication was accepted by the council and it was decided to let the matter rest.

Summing up the position of the council Mayor C. F. McHardy stated the council wished to do only what the citizens required. He considered the letter from the Veterans self-explanatory.

Mayor McHardy also made his report to the council on his recent mission to Victoria as vice president of the Union of British Columbia Municipalities, in company with other executive members of the union, to meet Premier Oliver in regard to municipal revenues.

Those present were Mayor C. F. McHardy, Aldermen John Bell, W. M. Cunliffe, L. H. Choquette, A. D. Emory and City Clerk W. E. Wasson.

The letter from the G. W. V. A. was as follows:

Nelson, B. C., Oct. 3, 1921.

His Worship the Mayor, and Council of the City of Nelson:

Dear Sirs—I have the honor to advise you that the Great War Veterans Association of Canada, Nelson Branch, does not desire to proceed further with the petition—so far as the petition is its work—for the submission of a new street improvement bylaw whose primary object would be to furnish work to unemployed citizens and lessen direct relief.

At the time the G. W. V. A. put forward the suggestion of such a bylaw, there was ample time to have the bylaw go through, and be the means of providing work over quite a stretch of time this fall, and no competing suggestions were before the community to lessen its appeal to the serious-minded ratepayers of the city. At that time the suggestion, we believe, was a good one, and, had nothing intervened, we believe it would have commanded the sanction of the property-owners, and would shortly be saving money to the city.

Almost immediately, however, the suggestion of the Ymir road came up, with the result that such a laudable project immediately took the right of way, as it was entitled to do. It was the expressed view of many Veterans that, if the government immediately undertook construction of the Ymir road at the Nelson end, the Association's object would be achieved.

After the report of the delegates that interviewed the government, which gave promise of substantial road work being done, it was apparent that the need for the bylaw was somewhat less than before, but that it could nevertheless be of the greatest utility, and numerous friends of the proposal urged that it be proceeded with. On the basis, therefore, of the stand the Association had previously taken, the officers and members of the executive felt bound to associate themselves with the petition which had already been started by Mr. Dow, and did so.

The result of the canvass for signatures was successful enough from the point of view of legal requirements, and also as to the large number of substantial business men and citizens who associated themselves with the movement. On the other hand, it was disappointing in that there was no movement to form an organization or tender support of an active nature. This feature is the principal factor that convinces the executive of the Association that the vote of the property-owners would not be affirmative, joined with the fact that organization opposition has appeared.

As submitted to your honorable body last Monday, the petition was, in fact, sufficiently signed—on the basis that the canvassers were working for, one in 15 of 1000 property-owners. Since then the city has concluded that the list should be estimated at 1500 names. This, of course, necessitates that more names be appended to the petition.

It would be extremely easy to get the names required. But to proceed to do this would, in the light of the conclusions we have reached as to the reception the bylaw would meet, be merely to put your honorable body in a difficult position and the community to inconvenience and expense, without the reasonable assurance that the unemployed would be benefitted and the city save money on the deal.

The object of the G. W. V. A. in the beginning, and all the time, was to make a useful suggestion, which would benefit both those out of work, and the city.

We hope not many will believe the implication made before your honorable body last week, that the G. W. V. A. has been seeking to dictate in a matter that did not at all concern it. The implication that the Nelson, G. W. V. A. does not represent the returned men of Nelson will have to be its own answer.

In thanking your honorable body for the courteous consideration that you have given our representations, we take the opportunity of also thanking most sincerely the many property-owners — whose number could easly have been multiplied—who associated themselves with us in our effort to find a solution of a coming problem, mutually beneficial to the unemployed citizens and the city exchequer.

Yours respectfully,
W. HOLMES
President.

WELFARE COUNCIL DISCUSSES NURSE

Asks Organizations What They Will Contribute; Self-Supporting Soon.

Placing of a public health nurse in the district was discussed at a meeting of the Kootenay child welfare council yesterday afternoon. The representatives of the various constituent organizations were asked to confer with their organizations, to ascertain what proportion of the nurse's support each could undertake. It is expected that after six months the nurse will be self-supporting.

ELECT A MUTINEER TO PARIS COUNCIL

PARIS, Oct. 3.—Andre Marty, chief engineer of the French torpedo boat Le Protet, who is serving a 15-year prison sentence as leader of the Black Sea mutiny in 1919, has been elected a municipal councillor of Paris. As Communist candidate in the 20th ward, a workmen's quarter, he received a three to one vote. His election, however, is expected to be annulled on the ground that a felon is ineligible for office.

MOWATT TALKED OF FOR BENCH

TORONTO, Oct. 3.—Major H. M. Mowatt, K. C., member for Parkdale in the Dominion house, has definitely retired from politics, and it is expected that with dissolution of parliament, his elevation to the high court bench of Ontario will be announced at a near date. There are two vacancies, one created by the death of Chief Justice Falconbridge and the other by the death of Mr. Justice Clute.

WAR COMEDY GETS UNUSUAL FAVOR

Mademoiselle From Armentieres Goes Over Extremely Well Even With Vets.

Last night's presentation here at the Nelson opera house of "Mademoiselle From Armentieres," played to a full house, went over extremely well and found great favor.

It was a war comedy of the Lens sector, full of characteristics scenes and incidents, and it survived the strongest test of all in its realism, the test of a presentation to men who have experienced just such stresses and contrasting emotions as those depicted. It was a well balanced bit of soldier life over there, showing what they did and experienced, and reproducing some of the popular soldier songs. The whole presentation was thoroughly enjoyable.

Outstanding features were acting of Russell A. Young as Private Henry Hawkins, and Edgar Warburton as the brigadier general. The delightful songs and dancing of Mademoiselle Julie, the estaminet keeper's daughter, by Miss Doreen Thompson was a real bit of France to many of the "boys," as was also the admirable acting of her chic sister, Mademoiselle Suzanne of Armentieres.

FEED TEN THOUSAND SHEEP AT LAKEHEAD

Lethbridge Man Leases Warehouse on Banks of Kam for Immediate Use.

FORT WILLIAM, Ont., Oct. 3.—R. C. Harvey of Lethbridge has leased, through G. R. Duncan & Co., the large freight warehouse on the banks of the Kaministiquia river, owned by the Canadian National railway, and will use it for feeding 10,000 sheep, which he will bring here to fatten on the screenings from the elevators. The warehouse is only 200 yards from the Ogilvie elevator and already plans are made to install a conveyor pipe from the elevator to the shed. The sheep will be sent here early in November, and Mr. Harvey is contracting for hundreds of tons of local grown hay.

FINES FACE USERS OF HOSPITAL ROAD

Joyriding Over Private Road Must Stop, Declares the Board; Annoys Patients.

The Kootenay Lake General hospital board has asked the police to take action against automobile drivers who annoy the patients by joyriding over the private road to the hospital in the evenings and late at night.

The road is private and prosecutions are to be entered against any drivers who use it excepting as a means of reaching the hospital.

The board is also on the warpath against the drivers of delivery rigs who make unnecessary noise which the patients can hear by delivering goods at the front of the building instead of the back.

A DOCTOR'S DAUGHTER & Zam-Buk

Well-known Salvationist Tells of Mother & Son Saved from Blood-Poison & Disablement.

"One cannot speak too highly of this wonderful Zam-Buk," says Mrs. Jane E. Zealley, an ex-Major of the Salvation Army and daughter of the late Dr. Bevan, of St. David's, South Wales.

Called upon at her home, 3, Bushness Avenue, Toronto, Mrs. Zealley said: "Eight years ago my boy Alfred scratched his leg with the brass tag of a shoe lace and blood-poisoning set in. I had used various ointments on the sore, without doing good, when, hearing splendid reports about Zam-Buk I decided to give it a trial. You can imagine my relief, when, after a few applications of Zam-Buk, I saw that healing had already started. Continued treatment quickly removed every trace of the obstinate sore. It made me realise what pain and suffering I might have saved the boy, had I got Zam-Buk at first.

"When I fell over a steel fender and injured my knee badly, I again used Zam-Buk. My daughter, who was a nurse, thought an operation would be necessary to remove the mass of inflammation and pus, but I hadn't forgotten my previous experience with Zam-Buk. Again regular applications of the balm took out all pain and swelling and healed the wound in a few days. The knee has never given further trouble." Herbal Zam-Buk is 50c. box, all dealers.

John Bull Gets After Trade.

Particulars have reached the department of commerce, Washington, about the great trade ship "British Industry" which in 1923 is to set sail for a cruise around the world. It is to be a floating exposition of wares "Made in Great Britain." Although two years off, a detailed itinerary has been worked out. The ship will first proceeded to the east coast of South America, then to South Africa, thence to Australia, New Zealand, Fiji, Japan and China. On the 358th day after leaving London, she will start home via Manila, the Dutch East Indies, and India. During 18 months a voyage of 43,000 miles will have been covered, with 34 important trade centres visited. A week's sojourn is planned to each port. Specially built for the purpose, "British Industry" will be a vessel of 20,000 tons, and in itself serve as an advertisement of the British shipbuilding trade.

Long live Old John Bull!

Was It a Fight?

The grand jury of Hudson county, N. J., is now confronted with the necessity of deciding whether the proceedings at Jersey City on the second of last July, in which the chief participants were Dempsey and Carpentier, could properly be called a fight.

If the participants "fought together or committed or attempted to commit assaults and batteries upon each other," they were guilty of a misdemeanor under the New Jersey state crimes act of 1898. If they did not fight, but simply illustrated certain body-building exercises, then the grand jury has no kick coming.

It may be a little difficult to get evidence at this late date, thinks the Medicine Hat News. Already there is considerable disagreement as to whether a fight actually took place in Jersey City on July 2. Different people carried away different impressions. Some now hold that it was a sporting editors' convention, other that it was old home day in Jersey City, still others that it was a formal ratification of the treaty of Versailles. All this will have to be taken into consideration by the grand jury.

It is the law almost everywhere that if two men fight on the street they must be arrested and punished. But if they take most of their clothes off and fight with gloves before a paying audience that takes the curse off.

The question: When does disorderly conduct stop being disorderly conduct? is a tough one. Still, it can be said for the consolation of future grand juries, not many prize fights of the present day are studies in assult and battery. Problems in high finance, expositions of esthetic dancing or debating contests they may be called, but there is not much real fighting in them.

SUCH IS LIFE.

Old John Penman died at the age of 72 and had enough insurance to bury him. He worked in an office.

Bill Sweatman had to quit work from rheumatism at the age of 60 and had to live on his friends. He worked with a pick and shovel.

Harold Whitler died at the age of 46 and had to be buried by his friends. He drew pictures.

HOW TO MAKE GOOD CHOCOLATE CREAMS

To Make Chocolate Cream Candies "just like the bought kind," follow these directions: It is best to buy a candy thermometer to put into the saucepan with the boiling sirup; when the thermometer registers 238 degrees Fahrenheit, the "soft ball" stage is reached—and there is no need to test the sirup by dropping a little in cold water, as is usually done. One can't make a mistake with a candy thermometer, and the same thermometer may be used in making boiled icing for cake. If any reader wishes to know where she can buy one of these thermometers by mail, I will gladly tell her upon receipt of a stamped, self-addressed envelope. (The thermometer costs around two dollars).

To Make White Fondant: Put into an agate or aluminum saucepan 5 cups of granulated sugar and 1-3 teaspoon cream of tartar well mixed together; add 1½ cups boiling water and set over a slow fire. Heat slowly to the boiling point with the thermometer in the sirup and do not stir. Watch the mercury on the thermometer and at 238 degrees remove pan from rannge and pour the hot sirup onto a large oiled meat platter or onto a marble slab or porcelain-topped table. Let cool for about one hour, or until a dent will remain upon the surface of the sirup when it is touched with a dry finger. There should be no crust on the sirup; if there is a crust, it must be removed or else the sirup must be boiled over again.

When the sirup "dents" after touching with finger, you must work it as dough is kneaded, with a wooden spoon or butter paddle. This working and stirring will make it a creamy white mass. When creamy, and it begins to harden on the table, scrape it all off and put it into a bowl in ball-shape. Let stand overnight covered with oiled paper or a damp cloth.

The next morning it is ready to receive a chocolate coating. Form the fondant into small round balls and dip them into the following chocolate preparation either with the fingers or with a piece of wire shaped like a spoon (make this yourself). The small twist at the top such as is found on store candies, can be made by touching with the finger-tip just before dry:

To Dip Fondant Candies: Melt ½ pound (or 1 bar) of the regular confectioners' "dipping chocolate" and one-tenth of a bar of cocoa butter (the cocoa butter comes in bars the same shape and weight as the chocolate and if any reader would like to know the address of a firm that will sell her either the cocoa butter or the dipping chocolate by mail, I will gladly send it upon receipt of a stamped, self addressed enevelop). I cannot give it here, as that is advertising). The cocoa butter makes the chocolate harden and keeps it from being sticky. Melt these together over mild heat, then remove from fire and beat until cool and of the consistency of molasses. It is now ready to coat the fondant balls. Dry on a thick quality of oiled paper. If you have done it right, the first candy's chocolate coat should be dry when the seventh candy is being dipped.

Fondant made by the above given recipe may be kept an indefinite length of time if it is wrapped in a damp cloth and tightly covered. It will have to be steamed in the top of a double boiler till warm (over simmering water) before being dipped, and often it is necessary to add a very little cold water to as it steams, to allow for evaporation.

Tomorrow—Answered Letters.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these colums in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed enevelope must be enclosed with the question. —The Editor.

THE PERPLEXITIES OF AN IRISHMAN

(by J. C. Mitchell)

DUBLIN, Oct. 3.—As an Irish-American visiting the old country, the serious question now confronting us is naturally of great interest, and at the *same time most perplexing.*

Expecting to find such names as O'Rourke, Flynn, O'Shaughnessy, O'Flannigan, etc., as leaders of the Irish nation endeavoring to free Erin's soil from the hated foe, my amazement is great to discover such names as Eamonn de Valera, Griffiths, Childers, Markiewcz, Collins, etc., leading the children of Erin out of the so-called wilderness.

Careful research seemed to be the only solution in an effort to ascertain the real fundamental truths of the situation, and as a matter of interest I give the results of my investigations.

De Valera Means Egg-Poacher.

(1.) Eamonn de Valera. To trace the origin of this family or the original meaning of the name is not an easy matter, but, as far as one can go, it seems to be derived from words in the Spanish patois on the northwestern Portuguese border. Here we find the two words "Ucamon Valereta," meaning the egg poacher (in the culinary sense, not the predatory), and in all probability the founder of the house was a chef of note, who became famous or perhaps originated the Spanish omelette, which was undoubtedly a marked advance in civilization. Historians of those times were evidently philosophers, as one of them remarks that great though the art of Ucamon Valereta (i. e., poaching the egg) may be, it would be a still greater feat if one could "un-Ucamon" the eggs, i. e., convert them back into their original compact and useful form, as they were in before the poaching process took place.

(2). Griffiths. A name which causes trouble when endeavoring to trace through Irish channels, but on going to Wales we find ample evidence of strength and strong family connections. The most remarkable, as far as one can find, was one Llewellyn ap Griffith, who was "some" Welshman in those days, and is credited with having put the "Cader" on Cader Idris.

Childers of English Derivation.

(3). Childers. One at first glance might assume that this was the plural of the much used word in Ireland, "childer," meaning very young people, but as it always conveys the idea of more than one child this source has to be dismissed at once, and the only available information is English, and the family name probably comes by direct descent from one Forensic Childeric, who was made keeper of the keys of London bridge by Queen Boadicea when she was absent at the sea coast repelling the invading Roman. Records also go to show that one of a similar name was appointed as keeper of the cash box of the hated Sassenach.

(4). Markiewz is somewhat obscure, but by looking up the sign boards in *Petticoat Lane in the east end of London* about the commencement of Dickens' fame, a journalist recorded the fact that many Polish Jews were infesting these parts, and commenting on the uncanny names he mentions among others Markeivitchz, which probably may throw some light on the origin of the present holder of the title.

Collins and Kentucky Colonels.

(5). Collins. On looking through the English "Who's Who," one finds many of this name, both distinguished and otherwise," and recollections at once revert to Jesse and Lottie Collins, the latter made famous by her essentially British song, "Ta Ra Ra Boom de Aye." There are also "John" and "Tom" Collins, which were names closely associated with favorite beverages of American colonels before that unfortunate country went "dry," and are now only names of remorseful recollections of the wonderful past. On consideration, this derivation must be discarded as improbable, because John Collins took its name from John de Kyper Holland gin, and Tom Collins from London Tom gin, and records go to show that under no circumstances did Irish whisky form any part of these confections. This data makes the origin of the name Collins more and more obscure, but the weight of evidence would lead one to conclude it could not be considered of Irish extraction or distillation.

When Foreigners Are Expelled

The above notes, as the result of research, may be of assistance in throwing some light on the peculiar problem of who really is freeing Ireland, and the question arises if all the foreign foe are expelled from Irish soil, who will be left to govern or be governed. Research along these lines is far from exhausted, and there are many fields for investigation left.

Another thing that is hard to understand is why the official communications to the British government from the "president" of the Irish are in Erse. This seems strange when the Dail Eireann, or Irish parliament, can not conduct their legislative functions in Erse, as only a handful of the members can write, read or speak it.

It would be a matter of interest to estimate how much money would really reach Ireland if the appeals were made to the Irish of the United States in Erse, particularly among the clubs and associates of that country who have adopted the motto of "Herren go Bragh."

W. N. Brayton arrived in Nelson yesterday and will proceed to put another townsite on the market, that of Silver Hill, which is situated at the foot of the tramway from the Silver Hill mine. The location of the townsite is said to be a very good one, as there are a number of shipping properties in the immediate neighborhood. The town is situated beside Crawford creek, at the mouth of Canyon creek and the valley of Crawford creek at that point is wide and flat-bottomed. The government wagon road will traverse the main street. A hotel has been built and will be opened shortly. There is also a general store already established.

There is a very interesting shade of bronze brown which is exceedingly smart for afternoon frocks. In the Vionnet model shown in the sketch this color is used, and emphasized by a novelty metal belt of greenish shades. The design of the dress follows the flat back and front silhouette

but widens at the hips by the use of diamond shaped panels attached so as to cascade gracefully down each side with the long point extending several inches below the hem. Note the brief sleeves, almost entirely open at the top. Narrow pleats provide the slenderizing panels in back and front.

OUR LESSON.

No more the cannon's roaring o'er devastated France; no more the war planes soaring where sun and moon beams glance; no longer poison gases, old Satan's hell-breath passes, to stifle human masses while fiendish elfins dance.

The high explosive missile shrieks not past friend or foe; the bullets no more whistle, nor light balls burst and glow; no more machine guns rattle their death song midst the battle, to slaughter men like cattle while blood in torrents flow.

The German foe has yielded to strong men for the right; the sceptre they have wielded of greed and selfish might; has led the League of Nations to offer strong dictations and solve some tough equations to vindicate their plight.

Our boys in France now lying at peace 'neath Flander's sod; what have we for their dying but Kaiser Bill outlawed? From anguish death and sorrow, we hoped through loss to borrow a pure, glad, bright tomorrow at peace with man and God.

From German thirst for power, from selfish greed and lust, we watched the storm-clouds lower and brave men bite the dust. Yet now heed we the warning, presented new each morning, each social faction scorning what's right and true and just.

Beneath our social structure each thinker must discern conditions that will rupture our craft from stem to stern; to help not self, but others, would constitute us brothers, but love of gold now smothers those truths we soon must learn.

Our brave dead gone before us have died in vain if we allow the storm-cloud o'er us to sink our craft at sea; no camouflage or lying will recompense their dying, nor ease this old world's sighing for things as they should be.

We've stayed the German menace with blood and heart-torn sigh; let us do humble penance before that "throne on high"; let capital and labor hang up their whetted saber and be to each a neighbor and cease this senseless lie.

Advance through evolution toward a better day, not through red revolution where men their brothers slay. Oh, gold-blind, sneering brother, your senseless greed now smother, let's act toward one another as Christ has shown the way.—D. E. Melrose.

A man was sent to jail the other day for getting married twice. And there are some crusty old bachelors who will say that it serves him right.

ROSSLAND PARTY NAMES DELEGATES

Supporters of Meighen Government Organize; Lorne Campbell Speaks.

ROSSLAND, Oct. 3.—Supporters of the Meighen government met here Thursday evening to organize and select 15 delegates to attend the West Kootenay convention. Considerable enthusiasim was apparent, especially as regards the efforts being made to induce Lorne A. Campbell to make the race for the Dominion house in West Kootenay.

Mr. Campbell was present and addressed the gathering. He could not see how any elector could do otherwise than support Rt. Hon. Arthur Meighen since the protective tariff policies of the Meighen government meant so much to the industries of this section, or the West Kootenay. "If Mackenzie King is elected," said Mr. Campbell, "we might as well close up our factories and mining industries. Such a policy as Mr. King advocates means ruin to our country."

W. K. Esling, M. L. A. for Rossland, *also addressed the gathering, and felt* confident that West Kootenay would support Mr. Meighen.

The meeting organized a branch of the National Liberal and Conservative party, and elected the following officers: Honorary President—Rt. Hon. Arthur Meighen, Honorary Vice-President—Hon. W. J. Bowser, President—H. W. Atkinson. First Vice-President—Mrs. Samuel Irvin. Second Vice-President—William R. Braden. Executive—H. W. Atkinson, William Evans, A. G. Monkhouse, P. C. Taylor, Frank Loeder, J. H. Crowe, S. S. Jarvis, Will A. Elletson, Mrs. Samuel Irvin, Mrs. *J. H. Crowe, Mrs. D. J. Lowe, Mrs.* Samuel Forteath, Mrs. George Nixon, Lorne A. Campbell, Wm. K. Esling, M. L. A., Wm. Hooper.

The following delegates were named, from which number fifteen are expected to attend the nomination convention in Nelson: Mrs. Samuel Irvin, Mrs. J. H. Crowe, Mrs. D. J. Lowe, Mrs. Wm. Evans, Mrs. S. Forteath, Mrs. Wall, Mrs Geo. Nixon, S. S. Jarvis, J. H. Crowe, F. E. Loeder, P. C. Taylor, A. G. Monkhouse, H. Cherrington, William K. Esling, M. L. A., Wm. Hooper, Will A. Elletson, W. J. Weir, H. Cherrington.

After the election of the delegates, *a resolution was passed* instructing the delegates, in the event of the name of a Rossland man being before the convention, to support his name until nomination or his withdrawal.

MAN IS DEAD IN ROSSLAND SHACK

Charles Henry Withers Was Man of Long Residence in Kootenay.

ROSSLAND, Oct. 3.—Charles Henry Withers, a miner, aged about 55 years, was found dead in a shack in the *northern portion of the city* Friday morning. The man had not been seen for several days by neighbors, and a search was instituted. The chief of police found him dead upon the kitchen floor. Little is known regarding the unfortunate man, but he has lived here for many years. An inquest was conducted by Coroner H. R. Townsend Friday afternoon, but was adjourned to Oct. 5, to await the result of a post *mortem being conducted by Dr. J. W.* Coffin.

KASLO NOTES.

KASLO, Oct. 3.—A largely attended meeting of the Kalso and District Women's institute was held in the institute rooms Friday afternoon, when the various women's committees for the forthcoming fair were appointed. Kaslo did not hold its annual fair last year, and this time the Farmer's and Women's institute are working together to make this year's fair a big success, and from present indications all roads will lead to Kaslo for fair day, next Friday.

J. F. Noff of Kamloops was a visitor to town Friday.

F. S. Temple of Vernon was registered at the King George Friday.

H. A. Parker, W. W. Bennett and T. E. Levasseur were Nelson visitors to town Saturday.

J. M. Dunlop of Vancouver was a business visitor to town over the week end.

H. L. Lindsay was down from Johnson's Landing Saturday.

Mrs. Walthers and little daughter, of Lardo, paid the city a visit Saturday.

Mrs. Walter Gardiner accompanied by her little daughter and her sister Miss M. Roe, spent Saturday in town.

A. C. Branscombe of Cranbrook is spending a few days in town.

W. L. Bergman and L. A. Palmer of Vancouver are registered at the King George.

L. J. Smith of Victoria is a visitor in the city.

FORTY WORKMEN AT BULL RIVER

Power Company Will Rush Work Before Cold Weather; Carpenters Busy.

BULL RIVER, Oct. 3.—The home of Mr. and Mrs. Ray Burlingham was the scene of a very gay time on Monday night last, when the young folks gathered together to celebrate the birthday of their daughter Loiuse.

A baby boy was born to Mr. and Mrs. Mahon, Front street, on Tuesday

Ralph Setter, who has been employed at the *local mill for many years*, is sailing on the Empress of Britain on Oct. 4, for his old home in England. He expects he will return in the early spring.

An additional 40 men for the British Columbia & Alberta Power company arrived today. It is the intention to rush the work to completion before the severe weather sets in.

H. Trueman, C. P. R. grain door inspector, arrived from Yahk Thursday. He expects he will be leaving for his headquarters at Winnipeg some time in October.

A gang of 12 carpenters are working on the Chinese restaurants and the dwelling of John Carlson. It is expected both buildings will be completed by the middle of October.

"Fort Steele" Brown was in town Thursday removing the remnants of his Bull River poultry farm. He reports gophers very plentiful at his present location, and predicts a mild winter.

LEAVE TO INSPECT THE SILVER CUP

KASLO, *Oct. 3.—C. T. Porter and* Daniel G. Machlan came in Thursday evening from Spokane, and left Saturday morning, accompanied by Mayor James Anderson, to make an inspection of the Silver Cup mine at Trout Lake. Mr. Porter is the owner of the Waggoner group also in the Trout lake district, and Mr. McLachlan is a mining man from Falache, Idaho.

J. McK. Anderson of Toronto arrived in the city Saturday, and is the guest of his nephew A. W. Anderson. Mr. Anderson is interested in timber properties in the Lardeau Flats country, *and with a party from Cranbrook* will leave on Tuesday evening's boat to make an inspection of the timber, with a deal as the possible result.

POLITICAL POT IS ABOIL AT CRESTON

Government Supporters Form Association; Both Parties Choose Delegates.

CRESTON, Oct. 3.—There was a fairly large and thoroughly representative turnout at the meeting on Saturday night called for the purpose *of organizing* the Creston Valley National Liberal Conservative association, with C. B. Garland occupying the chair, and J. W. Hamilton acting secretary. A motion was put and carried unanimously that the meeting proceed with the organization of the association, following which came the election of officers, with the following selected: President—C. B. Garland. 1st Vice-president—J. Mallandaine, 2nd, *Vice-president—Jas. Compton, Secretary* —J. W. Hamilton, Treasurer—F. H. Jackson, Executive—Col. Fred Lister, M. P. P., Walter Hall, Hilton Young, Mrs F. H. Jackson and Mrs. C. B. Garland.

As definite information was not available as to the number of delegates this section would be entitled to seat at the nominating convention at Nelson on Oct. 6, it was agreed that the full quota of convention *representatives* should be selected from the officers and executive.

There was a fine turnout at the meeting of the Creston Valley Liberal association on Saturday night in Speer's hall, which was presided over by President R. B. Staples. The only business before the gathering was the selection of eight delegates to attend the nominating convention at Nelson. Of the eight, it was decided to have the Kitchener association select one, and Sirdar will also be requested to name another, while the other half dozen from Creston will be President *R. B. Staples, M. J. Boyd, C. F. Hayes,* S. A. Speer's Alex. Lidgate and A. D. Pochin.

ENTRIES SWAMP CRESTON FAIR

Over Twelve Hundred in Hands of Secretary Walmsley; Opens Tomorrow.

CRESTON, Oct. 3.—With a total of over 1200 entries recorded on the books of Secertary R. Walmsley when closing time came on Saturday night, all worry as to the success of the Creston fair, which is to be held on Wednesday, ceased, and the chief concern of President Jackson and his associate directors is to find room for the display that the main building will have to house.

Last year with but 900 entries, the available space was pretty well all taken, and with a 30 per cent increase in exhibits—practically all of which is for the hall classes—to come with the situation, while pleasurable, is bound to give those in charge some extra work to accomodate.

The display of fruit will assuredly *be throughly* representative of the bumper crop that is being harvested. One ranchers' entry form alone shows entries of 30 boxes and almost 50 per cent more plates, and there are a half dozen others almost as generous. The ladies are going equally strong and the entries in the cooking class is fully 50 per cent in excess of 1920, with fancy work fully as big, and the poultry section bidding to be 100 per cent in *excess of a year ago—due in* some measure to quite a large exhibit of birds from outside points. In the fruit classes the Valley will have to meet the competition of Boswell growers, several of whom are represented in the entries already booked.

To assure ample time for judging all exhibits will be placed by not later than 3 p. m. Tuesday, and those entrusted with the work of placing the awards will have Tuesday afternoon and Wednesday morning to do their work.

The government has been generous in supplying judges—all these officials *being from outside points.* Assistant provincial horticulturists Hunter and Black, of Vernon and Grand Forks respectfully, will make the awards on fruit and vegetables, Mr. Newton of the Invermere experimental farm will judge the livestock, Mr. Greenwood will place the tickets on the poultry, while Mrs. Kipp of Revelstoke and Mrs. Rutherford of Nelson will judge the cooking and fancy work respectfully.

The opening will be at 1 o'clock and will have an international aspect to it. Quite a delegation will be here from Bonners Ferry, Idaho, and out of courtesy to them Judge Flood of that city will assist Lieut. Col. Fred Lister, M. P. P., in the opening exercises, along with some other notables who have accepted invitations to be present.

There will be a big line of sports in the afternoon, and also a matinee showing of pictures at the Grand theatre, while at night there will be a picture show and dance—Manager Rodgers opening his commodious new dance hall on the second floor of the theatre building that evening.

MAKE POINT AWARDS AT THE SLOCAN FAIR

SLOCAN CITY, Oct. 3.—Supplementing the list of prizes at the Slocan valley fruit fair, published, the following awards have been made on points:

Silver cup donated by the Canadian Bank of Commerce, Nelson, given to the winner of the highest aggregate of prizes for fruit, vegetables and field crops, won by E. W. Dawney, Perry's Siding.

StDenis challenge trophy, presented by D. StDenis, Nelson, for winner of most first and second prizes in fruit, vegetables, field crops, dairy and *poultry, won by E. W. Dawney, Perry's* Siding.

Western Grocers, Nelson, donated 10 lbs. of their special coffee, which was distributed in special prizes at follows:—John Avis, Perry's for highest points obtained in fruit; M. Cameron, Slocan, for highest points obtained in vegetables; V. K. Soharev, Slocan, for the best display in the dairy section; K. Popoff, Slocan, for the best general display in the poultry section; Mrs. A. A. Blackbourne, Slocan, for the best general display in fancy work.

Miss Isabel Blackwood, the teacher of the junior grade classes of the public school here, spent the week end at her home in Nelson.

Mrs. H. Parker was a visitor to New Denver on Friday.

SELECT DELEGATES FROM NEW DENVER

NEW DENVER, Oct, 3.—At a meeting of the local Conservative association on Friday evening delegates were appointed to attend the forthcoming nominating convention to be held at Nelson. They were Mr. McLean and Mr. Willis.

At a meeting of the local Liberal association on Friday evening, delegates were appointed to attend the forthcoming nominating convention to be held at Nelson, being D. McLachlan, J. Hawthorn and Colin Campbell.

Harvest Thanksgiving services were held at the Methodist church yesterday, there being a full church and Mr. R. Craig of Edinburgh preached the sermon, and A. Watson sang the Solo "When the Harvest is Past."

The House on the hill for A. H. Sanderson is nearing completion, Mr. McLean being the contractor.

WRITERS INSPECT REPUBLICAN UNIT

Sixth Battalion "Marches Past" Headquarters Staff in Dublin Hills.

DUBLIN, Oct. 3.—Numerous newspaper writers and photographers were permitted on Sunday to visit the camp in the Dublin hills of the 6th battalion of the South Dublin brigade, Republican army, to witness the inspection of the troops. Throughout Ireland drilling and inspections of this kind have been proceeding since the truce was signed.

The battalion ordinarily numbers about 1000, but 120 of its members are at present interned, and about *100 are on leave of absence.*

The battalion is well equipped with arms, and furnished with what is termed sufficient incendiary services. The visitors saw field telephones set up and a large ambulance class with stretcher bearers.

Many of the instructors and men had served in the British army during the war. Two machine guns stood on the ground, and a large class was studying them. Eventually the battalion marched past the Republican headquarters staff and formed a hollow square.

LE PAS POSSESSES BIG FUEL SCHEME

THE PAS, Man., Oct. 3.—That fuel wood can be landed on the prairies and sold at $7.50 a cord in order to relieve the unemployment situation and solve the fuel problem is the scheme outlined by The Pas Herald. The paper states there is lying alongside and close to the Hudson Bay railway several thousand acres of spruce and tamarac unfit for anything but fuel.

In support of its argument, the paper states the clearing away of *this timber would not only* supply the prairies with winter fuel at almost half the cost of last year, but it would give employment to a few *thousand* idle men, and let the sunshine in to dry up muskeg soil, and fit it for agriculture. The success of the project would depend on a favorable freight rate.

Life without love may not be so bad. At any rate, most old bachelors appear to be satisfied with their lot.

A strenuous season makes a society bud look like the last rose of summer.

For the money that was spent for that ill-fated dirigible balloon many comfortable homes could have been built.

Markets and Finance

MONEY MARKET HAS FIRM TONE

Stocks Are Hesitant; Marks Are Again Close to Low Point.

NEW YORK, Oct. 3.—The stock market was hesitant today, favorites moving within restricted areas, while specialties continued to denote the increasingly doubtful prospects indicated in the less essential lines of industry.

Foreign and domestic oils were firm ot strong. Coppers moderately enhanced last week's gain under what seemed like pool operations. Rails, excepting coalers, were unusually sluggish and many of the motor, chemical and food issues showed progressive weakness, incidentally establishing lowest quotations for a year or much longer.

Sales were 535,000 shares.

A firmer tone was evinced by the money market, call loans opening at 5½ per cent, presumably in favor of last week's deficit in clearing house reserves. On the limited inquiry, however, the rate fell to 5 per cent at noon. London furnished a higher level of exchange rates to this market, although Italian and Belgian bills reacted here, marks also falling to within a point of their low record. Heaviness of French and Belgian war issues, also Mexicans and Cuba Cane 7s, detracted from the strength of the bond market.

Total sales, $17,375,000.

THRESHING WILL RESUME QUICKLY

Is Already Under Way in Saskatchewan; Good Weather Indicated.

WINNIPEG, Oct. 3.—Unsettled weather throughout the west was responsible for holding up threshing operations in most districts during last week. Cool temperatures prevailed, however, and very few reports of sprouting have been received, states the weekly crop review issued today by the Canadian Pacific railway. Indications are now good for a spell of more favorable weather, and threshing should be generally resumed during the present week.

In Manitoba threshing operations continue spasmodically. In the southern and central parts of the province, 85 per cent of the grain has been cut, 50 to 55 per cent in the northern districts, while from 35 to 40 per cent in the north. Alberta reports threshing resumed in most districts and good progress made. Southern and central portions report 75 to 85 per cent thrshed.

While threshing was held up early last week along the Edmonton, Dunvegan and British Columbia railway, operations have again been resumed. Latest report indicates excellents yield, especially wheat.

Plowing is proceeding in the prairie provinces with reports from of 10 to 25 per cent completed.

NEW BRITISH FLYING BOATS HAVE WIDE CRUISING RANGE

As is well known, the British government has practically decided to abandon the construction of lighter-than-air flying machines. There is a reason. Recent developments in heavier-than-air machines demonstrate their superiority, and indicate remarkable possibilities. As a commencement in this direction the British air force is now building large machines of the flying-boat type. The first machine completed was a wing span of 140 feet. Its hull is almost circular in cross section, being very light and strong with a resiliency that yields to the blow of a wave in a choppy sea. In this are mounted five machine guns, and there are sleeping and working accommodations for a crew of seven men. Its cruising range is 1500 miles, and its air speed 110 miles an hour.

Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words

"DAIRY BUTTER"

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled, even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

TRAIL ABANDONS REST OF GAMES

Veterans and Pythians Will Play Best Two Out of Three; Vets Take First.

TRAIL, Oct. 3.—At a general meeting of the Trail Football association held Friday the remaining fixture of the City League have been abandoned owing to the resignation of the Tadanac and Outside teams. This change left the K. P.'s and Veterans in the running for the shield, emblematic of the City Championship, the Veterans having won the first section, and the K. P's in the lead of the second section. The final arrangements were that a series of three games be played off between these two teams, the winners of the best two out of three be proclaimed champions of the City league.

A Good Game

Accordingly the first game was played on Saturday, and this game provided the spectators with a fine game, full of many thrills and exciting moments. Referee Brown was obliged to call the game with eight minutes to be played, on account of darkness. When time was called the Veterans were leading 1-0. There were several arguments over the result of this match following the game but an ultimate decision will be reached before the next game is played.

On Saturday's game it was hard to pick the winning team as each team appeared to be the superior side on many occasions. W. Brown scored the only goal from a free kick received about the middle of the first half. It was a fine long shot into the upper corner of the net. O'Donnell in goal for the K. P's. reached the ball but it twisted out of his hands into the net.

The second game of the series will be played Wednesday afternoon at 4:30 p. m. sharp. The following are the teams.

Veterans	Position	K. P's.
C. Reese	Goal	O'Donnell
Holdsworth	L. Back	McIlroy
C. Minton	R. Back	J. Balfour
T. Wright	L. H. Back	Matthews
J. Leckie	C. H. Back	McHardy
D. Forrest	R. H. Back	Masterton
Elmer	Outside Left	Downie
W. Ramsay	Inside Left	Sommen
E. Johnson	Center	E. Cook
W. Brown	Inside Right	A. Burns
Harrison	Oustide Right	Ed. Cook

Referee—T. Brown.

JUNIOR TEAMS BATTLE TO SCORELESS DRAW

Junior City League.

Teams.	P.	W.	L.	D.	Pts.
Rangers	8	6	1	1	13
Shamrocks	9	5	3	1	11
"Y" Juniors	8	4	2	2	10
Hotspurs	7	3	2	2	8
M. Wolves	8	3	6	0	6
Livewires	8	0	8	0	0

So sternly contested was the Junior City league fixture, Y. M. C. A. Juniors vs. Shamrocks, yesterday that the teams battled to a scoreless draw. Three times the aggressive "Y" boys threw away excellent chances to score and win the needed victory that would put them almost certainly in line to tie with the Rangers and come up in the finals for the Canada Drug cup. A brilliant defense game was played by the Shamrocks' halves and backs, G. Roynon particularly showing up with decisive tactics every time the ball was forced into the danger zone. Never have the Shamrocks shown to better advantage than in yesterday's game.

The teams were:

Y. M. C. A. Juniors—Goal, W. Freno; backs, J. Madden and T. McVicar; halves, G. Long, A. Eldridge and F. Thorpe; forwards, A. Ioanin, A. Stringer, S. Allibone, T. Cherry and F. Risden. *Reserves—G. Cherry and T. Black.*

Shamrocks—Goal, K. Rees; backs, G. Fawcett and O. St. Denis; halves, M. St. Denis, G. Roynon and J. James; forwards, H. Scott, G. Thain, C. St. Denis, G. McKenzie and J. Shanks.

Referee—A. Wallach.

ROOTERS WAR IS ON IN NEW YORK

NEW YORK, Oct. 3.—New York plunged into a sea of baseball argument today and at the same time divided itself for a rooters' war when the Yanks and Giants meet in the world series combat at the Polo grounds Wednesday afternoon. On the subways, the elevated, the busses, and in surface cars and hotel lobbies, everywhere, baseball fans were debating the respective merits of the various players. Whether the speed and the resourcefulness of the Giants can overcome the punching power of the Yanks is one of the big points at issue. Yank rooters expect big things of Babe Ruth, home run king, who is undoubtedly the greatest individual figure in the series.

WORLD SERIES UMPIRES.

CHICAGO, Oct. 3.—President Ban Johnson of the American league today appointed George Moriarity and Ollie C. Hill as the American league umpires for the world's series.

RELEASE HUGE LIQUOR STOCK

Ottawa Magistrate Dismisses Charge and "Returns" Wet Goods Now in Quebec.

OTTAWA, Oct. 3.—Over $175,000 worth of liquor is released from official hands by a judgment handed down here by Police Magistrate J. E. Askwith, today, in dismissing a charge of an infraction of the Ontario Temperance act against Joseph Barnaby of Hull, and R. Devlin, Ottawa. The decision is regarded as of wide importance.

On June 4 last, officials of the *provincial department seized the liquor* on the ground that it was being illegally kept within the province. By a clever ruse, the liquor was taken from the custody of the officials into Quebec, a wet province, and sold to the Quebec liquor commission, which body held it until the legal aspect was cleared up. A charge of kidnapping in connection with the removal of the liquor from the custody of the Ontario officials is to be heard tomorrow.

BRITISH PARTY WILL BE FIFTY

Australian Representation at Washington Conference Is Being Discussed.

LONDON, Oct. 3.—The advance party of the British delegation to the Washington conference on limitation of armaments and Far Eastern questions will sail October 26. The remainder of the secretariat and the delegates, who will bring the representation up to about 50, will take passage a few day later, and arrive in New York only a few days before the opening of the conference.

Announcement of the personnel of the British delegation will be made Thursday, following a meeting of the cabinet, will will be held Wednesday.

A dispatch to the London Times from Melbourne says the cabinet tomorrow will consider the question of Australia's representation at Washington. The dispatch adds that it is understood at Melbourne that communications on the subjct recently have passed between the federal and imperial governments.

Suggest One Australian With British.

The opinion has been expressed that Premier Hughes should not go, even as a member of the British delegation, but it is suggested that Sir Joseph Cook, minister of the treasury, be appointed a high commissioner to attend the conference. A section of the press of Melbourne and Sydney, says the dispatch, takes the ground that it will be wise to leave Australia's viewpoint in the hands of the British delegation.

The chamber of commerce at Melbourne has sent a letter to Mr. Lloyd George requesting that a representative of Australia be included in the British delegation. If this suggestion is not approved by the premier, the chamber asks that Australia be permitted to have a representative to advise with the British delegation.

Political Pot Steadily Boils

Fraser Is Renominated.

WELLAND, Ont., Oct. 3.—The Conservatives in convention here today nominated Evan Fraser as their candidate in the federal riding of Welland. Mr. Fraser is the sitting member.

Dundas Nominates.

OTTAWA, Oct. 3.—O. D. Casselman, present member for the federal constituency of Dundas, was again nominated at a convention today of Liberal-Conservative electors of the united counties of Dundas, Stormont and Glengarry.

Farmer in Wellington.

ARTHUR, Ont., Oct. 3—John C. Pritchard, of Harriston, was nominated here today as the Progressive candidate in the federal riding of North Wellington.

Burnham Again in Fold.

PETERBORO, Ont., Oct. 3.—J. H. Burnham, government candidate for West Peterboro, today received word that Premier Meighen will, at an early date, address a public meeting in this city in Mr. Burnham's interests. At the by-election last February Premier Meighen spoke in the interest of one of Mr. Burnham's opponents.

Farmer in Peterboro.

PETERBORO, Ont., Oct. 3.—G. A. Brethren, a cattle breader, of Norwood district, was today chosen as the Progressive candidate in the federal riding of East Peterboro.

Farmer in South Vancouver.

VANCOUVER, Oct. 3.—J. J. Richmond has announced his intention of contesting the seat for Vancouver South in the federal elections as a National Progressive party candidate, according to the Daily Province. This is the first definite intimation that the agrarian party would contest a British Columbia seat. The nominating convention has not been held.

Dent in Cumberland.

AMHERST, N. S., Oct. 3.—Colonel Charles E. Dent, D. S. O., was today chosen as the Liberal-Conservative candidate for the federal constituency of Cumberland.

DISSOLUTION IS NOT YET A FACT

Absence of Premier May Retard Announcement of Appointments.

OTTAWA, Oct. 3.—There were no new developments in the political situation here tonight. Contrary to expectations, official announcement of the dissolution of parliament was not made, although this was finally forecast for tomorrow, together with the publication of the prime minister's manifesto. The date of the election will probably be the chief subject discussed at the meeting of the cabinet tomorrow, although considerable time may be given to the consideration of appointments.

The absence of Premier Meighen may retard the final announcement of appointments to senatorships, although he is in close touch with his colleagues in Ottawa.

ARBUCKLE CASE POSTPONED

SAN FRANCISCO, Oct. 3.—The grand jury indictment charging Roscoe C. Arbuckle, motion picture comedian, with manslaughter in connection with the death of Miss Virginia Rappe, motion picture actress, was on the calendar of the Superior Judge Harold Louderback for a plea today, but was put over until Monday, Oct. 10.

Former General Superintendent Busteed Dies in Vancouver at Advanced Age.

VANCOUVER, Oct. 3.—Francis Ferguson Bustead, former general superintendent of the C. P. R., and one of the best known railroad construction superintendents of the west, died suddenly of heart disease last night at his home here.

Mr. Busteed was 63 years of age, and had been a resident of Vancouver for many years.

He was born at Battery Point, Quebec, in 1858, attended Montreal *high school, and graduated from* McGill university. He was married in 1885 to Miss Clara Ferguson and entered the C. P. R. service in 1879.

Mr. Busteed was in charge of some of the greatest engineering undertakings in Canada, among them the construction of the Spiral tunnel through the Rockies at Field.

FIVE DIE WHEN A PLANE CRASHES

Fallen Machine Bursts Into Flames; Accident Occurs Near London.

LONDON, Oct. 3.—An airplane crashed today near the Manstone airdrome from a height of 200 feet and a flying officer and four mechanics were killed. A strong wind was blowing at the time and the machine burst into flames. A sergeant of the air force ran to the blazing mechine in an attempt to rescue the men in the wreckage, but the flames drove him back.

FOSS IS REMANDED FOR MEDICAL EXAMINATION

When the case of William G. G. Foss came up before Magistrate William Brown in the police court yesterday, E. G. Matthew made an application for adjournment of the case pending a medical examination into Foss' sanity. The application was granted. Foss appeared for sentence on two counts, beating a board bill, and obtaining money from Nils. Nilson under false pretenses, and for the resumption of the third case, a charge of obtaining $45 under false pretenses from Eli Julien. The prisoner was visited by Doctors W. O. Rose and D. Hartin during the day.
