VOL. 20. NELSON, B.C., SATURDAY MORNING, DECEMBER 31, 1921. NO. 209.

NAVAL EXPERTS WOULD OCCUPY MOON SAYS LEE

British Delegate Invites French Frankness on Real Submarine Views.

WASHINGTON, Dec. 30.—Agreements reached today by the naval committee of the armaments conference included size and aggregate tonnage limitations on aircraft carriers and, subect only to French government confirmation on size and armament of auxiliary craft.

That cleared the committee's decks pending replies from the French and Japanese governments on the Root resolution to initiate the banning entirely of submarine warfare against commercial craft.

Adjournment was taken indefinitely but probably until next week, when these commissions are expected to have been recived and completion of the naval limitation agreement in committee made possible.

Working Out Replacement Chart

The Root sub-committee will take up tomorrow the drafting of the Root proposal to reaffirm existing rules of naval warfare against merchant craft and declare their application to submarines and invite adherence of all powers. Simultaneously the committee of naval experts will work out a replacement chart for capital ships to complete that section of the limitation agreement. The proposal to limit auxiliary craft other than aircraft carriers to 10,000 tons and their armament to guns of not more than eight-inch bore was approved formally by all delegations but the French, who deferred formal answer pending advices from Paris.

The proposal to limit aircraft carriers to a maximum of 27,000 tons displacement was unanimously accepted, the basis of relative aggregate tonnage arranged being, Great Britain and the United States, 135,000 each, or five carriers of the maximum size; Japan, 81,000 tons, or three ships of the maximum tonnage; France and Italy, 60,000 tons each, or a little more than would be required for two maximum size ships.

The French tonnage resulted from the statement of French experts that on examination of the question France might prefer to have three 20,000 ton carriers to two 27,000 ton craft.

When the naval committee met today Senator Schanzer said the Root proposal to ban submarine warfare against merchant ships entirely as amended by Mr. Balfour for the British to be immediately effective as between the five signatory powers pending the ratification as a new statement of international law, had been communicated to the Rome government which prevented further debate by the Italians. M. Sarraut made an official statement for the French group and Chairman Hughes said that discussion under the circumstances would be of little value but invited comment by any delegate.

Thinks French Misunderstood

Lord Lee, for the British group, said he felt there was a "misunderstanding in the French group as to the British attitude on the submarine question."

"I cannot help feeling," he said, "that here we have a unique opportunity for the French delegation and government to reassure the British admiralty and public opinion in regard to this matter, which I hope they will avail themselves of."

"I want to explain to our French friends, if I may, why it is we have these special apprehensions which have been expressed so forcibly in connection with France. We are not clear on what are the views of the French naval staff in this matter of utilization of submarines in time of war. It is true the views of experts do not always by any means determine the action of governments; if they did, no doubt, we may some day be placed in a position which the late Lord Salisbury once described, when he said:

Garrison Round Moon

"'If we listened to the experts we should have to put a garrison on the moon to protect it against invasion from Mars.'

"But the views of naval staffs, of the experts, are of importance unless and until they are disavowed by the governments they serve."

Lord Lee then referred to recent articles on submarine warfare in the French review maritimes signed by Captain de Frigate—at that time one of the important bureaus of the French naval staff.

These articles, Lord Lee added, were designed to "throw ridicule on those who criticized the German methods in the late war." He read numerous extracts from these articles claiming that "torpedo" warfare was a French invention, "appropriated" by the Germans.

RUSSELL BYELECTION WILL WAIT AWHILE

TORONTO, Dec. 30.—It is improbable that the constituency of Russell will be represented in the legislature when the house opens. Some time ago the government arranged for the issuing of writs for a byelection in Kingston on Feb. 6, but Russell was not dealt with. The house is billed to open the second week in February, Tuesday, Feb. 7, having been tentatively decided upon, but even if the opening is postponed to Feb. 14, it is unlikely that the byelection can be held before that date. The statute requires a period of 41 days between the issuing of writs and polling, and no move can now be made until after New Years.

ST. JOHN MURDERER TO HANG IN MARCH

ST. JOHN, N. B., Dec. 30.—John Harris was sentenced today to hang on March 30, 1922, for the murder of little Sadie McAuley on August 2, last.

Considers Education in Relation to Emigration

LONDON, Dec. 20.—Speaking today at a conference of educational associations at University college, London, Albert Mansbridge of the Workers' Educational association, dealt with the subject of vocational education, with special reference to the needs of emigrants. He said the problem that was most vital to the future of the British Empire was how far England was to be regarded as a source of population and this depended upon the excellence of English education.

No proper program had been drawn up with regard to the question, he said, and specific information on it was desirable. He said inquiries ought to be made as to what the English educational authorities could do in cooperation with the authorities of the dominions.

IRELAND STILL IN TURMOIL

Wishful to Pass Treaty, But Fears Extremists' Views.

DUBLIN, Dec. 30.—There is nothing on the schedule for Monday's meeting of the Dublin corporation referring to the peace treaty with Great Britain. Many corporation members also are members of the Dail Eireann and it is declared that any debate by the corporation or division on the subject would simply follow the lines of that taken in the proceedings of the Dail.

There are fifty important county and municipal bodies in Ireland.

Ten of them have held special meetings during the Christmas recess of the Dail and passed resolutions favoring the treaty. The opinion is held generally that its endorsement will also be moved at any meeting called during the coming week.

In addition to statutory and administrative bodies, various associations of farmers and horse breeders and trainers are passing resolutions approving the treaty. With very few exceptions, labor bodies heard from thus far dissent from the treaty.

A notable addition to the supporters of the treaty in the Dail Eireann when it resumes its discussions next week will be Pierce Beasley, one of the Kerry members. He was among the original founders of the Irish volunteers, now the "republican army," and fought in the Easter rebellion. He subsequently was court martialled and sentenced to three years' penal servitude for his activities in connection with the revolt.

After being released on amnesty, Beasley was rearrested for participation in agitation against the Land for Soldiers bill, but escaped with Robert C. Barton from Mount Joy prisoner. On the run for three months, he was rearrested and lodged in the Manchester jail, from which he escaped. He continued to evade arrest, coming out from hiding on the declaration of the truce.

The new convert to the treaty declares he is supporting it on its merits "for the opportunity it affords of preserving Gaelic civilization."

Sinn Feiners Favor Treaty

DUBLIN, Dec. 30.—Resolutions favoring ratification of the peace treaty between Great Britain and Ireland were adopted today by the county council of Meath and Monaghan and the Limerick chamber of commerce.

Delegates representing 40 Sinn Fein clubs in County Monaghan, while maintaining the Republican principles and Ireland's indefeasible right to absolute independence, passed resolutions in favor of ratification of the treaty by the Dail for its reference to a plebiscite of the Irish people.

CLAIMS CREDIT FOR REDUCTIONS

Railway Concessions Save Proivince Over $1,000,000 Yearly, Says Oliver.

VICTORIA, Dec. 30.—Concessions by railway companies, which mean a saving of more than $1,000,000 a year to the people of British Columbia have been made since the British Columbia government started its fight for the equalization of freight rates, according to the announcement made today by Premier Oliver on data furnished by G. G. McGeer, counsel appointed by the British Columbia government to argue the case of this province before the railway commission.

The premier thinks that the action of the government combined with that of Manitoba has had something to do in bringing about these reductions.

M'GILL RECEIVES MILLION PLEDGED

MONTREAL, Dec. 30.—McGill university has received the million dollars promised it some time ago from the Rockefeller foundation, it was announced today.

STEAMER ARRIVALS

Minnekdaha, at Hamburg from New York.

Monteagle, at Hongkonk from Vancouver.

Melita, at Liverpool from St. John.

ADVISE STRIKE IN VANCOUVER ON NEW YEAR

Street Railway Men Will Vote Today and Tomorrow Morning on the Issue.

VANCOUVER, Dec. 30.—A street railway strike in Vancouver on New Year's morning is indicated in the recommendation issued by the executive of the street railwaymen's union to its membership that it fail to report for duty on Sunday morning next.

The men will vote on the question of a strike on Saturday midnight and Sunday morning, and the result will be known before the day's traffic begins.

A board of conciliation recently awarded the British Columbia Electric railway a 10 per cent decrease in wages to its employees. The men voted last week to reject the award by an overwhelming majority. The executive tonight decided to recommend a strike. Members of the committee said tonight that there was no alternative for the men but to vote for a strike, following notice served by the company today that the decrease would be put into effect.

FLASHES BY WIRE

Suggests National Conference

WASHINGTON, Dec. 30.—President Harding in a letter today to Secretary Wallace of the United States department of agriculture asked that the latter call a national conference at Washington to suggest practical ways of improvement "for the severe agricultural depression which exists throughout the land."

Favor Leader Convention

CALGARY, Dec. 30.—Dr. Egbert, president of the Provincial Liberal association, tonight stated that Calgary Liberals were favorable to a convention of the provincial Liberals being called to select a leader to succeed Charles Stetwart, who has resigned his seat in the legislature to enter the King cabinet. An executive meeting will be held shortly to discuss it.

Prince Leaves for Rangoon

CALCUTTA, Dec. 30.—After attending several ceremonies here today, the Prince of Wales left tonight for Rangoon. He was cordially received at all of today's functions.

Sinclair Sworn In

OTTAWA, Dec. 30.—Hon. J. E. Sinclair, M.P. for Queens, P. E. I., was sworn in today as minister without portfolio in the Mackenzie King cabinet. Mr. Sinclair attended a meeting of the council immediately afterward.

ISSUE WRITS FOR TEN BYELECTIONS

Seats Not Yet Found for Stewart and Murdock; Will Issue Writs Later.

OTTAWA, Dec. 30.—(By Canadian Press)—Writs for ten federal byelections were issued at a late hour tonight. Nominations will be received on January 19. Election day will be Thursday, February 2. The constituencies have been rendered vacant in each case by the appointment of the member-elect to a portfolio in the new government.

The constituencies in which byelections have been called and the name of the member-elect in each case are:

Nova Scotia—Cape Breton and Victoria, Hon. D. D. MacKenzie, solicitor-general.

Shelbourne and Quebec—Hon. W. S. Fielding, minister of finance.

New Brunswick — Westmoreland, Hon. A. B. Copp, secretary of state.

Quebec — Chateauguay-Huntington, Hon. J. B. Robb, minister of trade and commerce.

Laurier-Outremont — Sir Lomer Gouin, minister of justice.

Beauce—Hon. Dr. Beland, minister of health and soldiers' reestablishment.

Ontario—Essex North. Hon. W. C. Kennedy, minister of railways and canals.

Essex South—Hon. George P. Graham, minister of militia and defense.

Russell—Hon. Charles Murphy, postmaster-general.

York North—Hon. W. L. Mackenzie King, prime minister.

Writs have not yet been issued for Quebec East (Hon. E. Lapointe); Three Rivers (Hon. J. Bureau), and Regina (Hon. W. R. Motherwell), owing to the fact that the general election writs from these constituencies have not yet reached the chief electoral officer.

In the case of Hon. James Murdock, minister of labor, and Hon. Charles Stewart, ex-premier of Alberta, new ministers of the interior, seats have not yet been found. Writs in these cases also will be issued later, as in that of Argenteuil county, Quebec, rendered vacant by the death of the member-elect.

UNEMPLOYED ASK TAG IN MONTREAL

MONTREAL, Dec. 30.—A delegation of unemployed waited on the mayor today and asked permission to hold a tag day so as to provide funds for the maintenance of their friends. They asked the mayor to treat them the same as the Unemployed Ex-Services' association, but he said he could not give them the necessity permission. The men were not formed into any organization, and the mayor suggested that they could try to join in with the ex-service men and share in what the public had given them.

ENGLISH NOTABLES DANCE QUADRILLE

HELPS IN CHARITY

This quadrille was one of the features of a charity affair at Devonshire House, London, recently. In the forefront of the picture are Alfred Noyes, the poet, and Mrs. Hawksley, a granddaughter of Charles Dickens. In the background are Roland Pertwee and Mme. Genee, the famous dancer.

SHALL ONE LANGUAGE BE ENOUGH

Advancement of Science Association Finds Delicacies of Meanings Essential.

TORONTO, Dec. 30.—Shall there be one language for all the world? Sall American, Asiatic, European and Polynesian all speak the one tongue in addition to their own national or native speech?

That question came up for discussion this afternoon, when the special committee on auxiliary languages presented its report to the American Association for the advancement of Science. The document was read by Frederick G. Cottrell, chairman of the international committee of the national research council.

After pointing out that no attempt had been made to discus the detailed requirements of an international auxiliary language and to judge between the various proposed schemes, the report states that two things are essential if practical results are to be obtained in this direction. First, a searching, fundamental study must be made of some of the principles involved and there must be experimental data available. Secondly, authoritative, international agreement must be reached as to the linguistic details and experimental data available. In drawing up the general technical specifications for the ideal auxiliary language, the report emphasizes the fact that it must include all the elements and structures suited to serve the functions which languages now perform. In addition, there must be some simplification of method as will facilitate learning and use to the utmost and at the same time serve as a vehicle for the evident ranges of thought and the finest shades of meaning.

TORONTO, Dec. 30.—(By Canadian Press)—Today's sessions put the Seventy-fourth annual meeting of the American Association for the Advancement of Science in the home stretch, and the windup will take place tomorrow morning. Discussions of the problems confronting the agriculturists featured today's meetings, and all the latest news about the corn borer, the cutworm, and the maple tree moth, was disseminated.

Among the 800 addresses delivered by the scientists, all cram full of information, was one given today by Third-Vice President F. L. Hoffman, of the Prudential Insurance company, who saw a serious danger in the volume of information now being served to the public in publications, moving pictures, and by other means. He believed that this process, carried on in the absence of "a clear recognition of the fundamental principles of the limitations of the human understanding, will lead to hopeless confusion in matters essential to everyday living."

Mr. Hoffman gave it as his opinion that teaching people to think right is a greater service than filling them with information on subjects as wide apart as the universe.

According to a paper delivered before the entomological section by L. S. McLaine, of the entomological branch, Ottawa, the habitat of the European corn borer in Ontario comprises Brant, Elgin, Essex, Haldimand, Huron, Kent, Lambton, Lincoln, Middlesex, Norfolk, Ontario, Oxford, Perth, Waterloo, Welland, Wellington and Wentworth counties.

BOSTON, Dec. 30.—Judge Crossby of the supreme court announced late today that unless the trustees of the Christian Science Publishing society and the directors of the First Church of Christ, Scientist, agreed by next Tuesday upon a new trustee to succeed Lamont Rowlands, whose removal by the directors was upheld by the court recently, he would appoint a temporary receiver for the society.

MOUNTIE GOES INVESTIGATING CANNIBALISM

Embarks on Perilous Journey Through Barren Lands to Visit Starving Indians.

EDMONTON, Alta., Dec. 3.—To discover whether the Caribouceater tribes of Indians have resorted to cannibalism is giving a member of tht Royal Canadian Mounted Police force a long and dangerous journey into the barren lands north of Lake Athabasca, and a party is now leaving Fort Fitzgerald to investigate the matter.

Reports which reached the northern detachment of Canada's frontier force last summer stated the Caribouceater Indians, who hunt in the barren lands, had missed the annual migration of the caribou herds from the shores of the Arctic and were in consequence starving.

The personnel of the party consists of one constable of the R. C. M. P., an Indian guide and two dog team drivers with two teams of huskies. The party will penetrate the barrens for a distance of approximately four hundred miles northeast of Fort Fitzgerald, and will be absent for two months. The country through which they will travel is a howling wilderness; no food can be obtained, so the party must carry with them sufficient food for the entire trip.

If there be any reason to suspect that crimes have been committed the constable will return to civilization with his prisoners. It is impossible to reach the country during the open season.

TELLS STORY OF STAMPING FURS

Chief Warden Alleges Baker Ordered Marking of Beaver Skins.

VICTORIA, Dec. 30.—At the court house this morning the Shaw commission investigating the Pooley charges against Dr. A. R. Baker, closed the hearing of Chief Game Warden Hird and his story of Dr. Baker's activities as the head of the game board.

Much of the narrative revolved around the activities of one French, of Kamloops, who appeared to be a hunter of game, big and small. Mr. Hird declared Dr. Baker had, on September 2 last, insisted upon the stamping of four beaver skins, obviously shot out of season, and when protest was made had remarked, "Oh, well, we may as well get the dollar apiece royalty."

Dr. Baker had at the time stated French to be the owner of the skins, whereupon Mr. Hird retorted, "Oh, that fellow, he ought to be in jail," or words to that effect, he recalled.

Telling of Dr. Baker's demands for stamping furs, Mr. Hird declared Dr. Baker had violently abused him and eventually demanded return of furs under discussion. "Send the d—— things to me. I'll stamp them myself," Dr. Baker was declared to have said.

The furs in question were four days later found in Lund's fur store, after Dr. Baker had issued a permit to French to dispose of the skins as he saw fit. Game Warden Hird had warmly urged that he be called to "get after" French on this case, but Dr. Baker had put a stop to his efforts.

Hearing adjourned to meet in Vancouver next week.

LADY STRATHCONA TO PEARSON FUND

LONDON, Dec. 30.—(By Canadian Press cable—Lady Strathcona has Press cable)—Lady Strathcona has son memorial fund. At the suggestion of Lady Pearson, the fund is to be divided as follows: One-third of the subscriptions will be devoted to St. Dunstans, the noted institution for the blind, founded by Sir Arthur; one-third to the National Institute for the Blind, and one-third to be divided amongst all other blind charities. Subscriptions to the fund are open to all parts of the British Empire. The memorial fund is intended as a perpetual encouragement for all who dwell in darkness.

FREE MASONS OFFER GIFT TO PRINCESS

Fraternity Leaves Choice to Recipient; Will Signify Later Her Pleasure.

LONDON, Dec. 30.—Princess Mary has received from Lord Ampthill, grand master of the grand lodge of Free Masons of England, a resolution adopted by that body requesting her acceptance of a wedding gift, the choice of which was left to herself. The princess has replied, expressing appreciation of the kindness of the Free Mason and stating that she would later signify her pleasure as to what form the gift shall take.

STORM MODERATES; RELIEVES STEAMERS

HALIFAX, Dec 30.—The storm which has been raging over Nova Scotia for the past 24 hours, began to moderate at midnight. Only one marine casualty has been reported on the coast, that of the Newfoundland schooner Defender, 100 tons, driven on Petrie ledge, near the entrance to Sydney harbor and expected to be a total loss. Her crew landed safely. The steamer Canadian Voyager, blown ashore in Bedford basin this morning, is resting comfortably and will be floated tomorrow. She had not sustained any serious damage, officials of the Canadian government merchant marine stated tonight.

A heavy fall of snow piled in drifts by the 40 mile northerly gale has interrupted the railway train service throughout the province, but telegraph and telephone lines have not been effected to any extent. In Halifax the tramway company, by employing an army of men throughout the day, was able to resume the tram service tonight.

SCOT FOOTBALLERS GIVE FLAT DENIAL

Put Forward Team's Version of Recent Tour on This Side of Atlantic.

MONTREAL, Dec. 30.—The Montreal Gazette publishes this morning a letter from the acting manager, T. D. Sloan, and the manager, R. M. Connell, of the Scottish footballers' tour in this country and the United States, and signed also by the chairman of the Third Lanark Athletic club, Scotland, the organization that sponsored the tour, stating that the recent article in a Toronto paper purporting to cover statements from Dan McNeill, president, and Dave Roy, secretary of the Dominion Football association, is "a column of fabrication from beginning to end with a falsehood in every paragraph."

The letter then proceeds to state what it describes as the plain, uncontrovertible facts.

"It alleges that no contract of agreement was signed by the D. F. A. or the Scottish team, and that the conditions provided that the team was to be furnished with first class travel across Canada, first class hotels and all expenses paid. To meet incidental expenses, an allowance of $75 per man was agreed, and also it was agreed to accept second class passage across the Atlantic.

A plain statement of facts follows:

No Money Paid on This Side.

"No money was either paid, deposited or guaranteed before we left Glasgow, unless it may have been paid over to the shipping or railway companies, of which we knew nothing.

"No money was paid to any players until they reached Montreal, by which time several had exhausted the pocket money they had started with. A small portion of the agreed sum was paid there, further instalments were paid later, and latterly the balance of the amount of $500 was paid."

A direct contradiction is given to another statement attributed to Mr. Roy, namely:

"That at the benefit game in Vancouver we gave $1300 to each player, and were compelled to do it." The latter asserts "Not one cent was paid for that game by either Mr. McNeill or Mr. Roy or the D. F. A. The match there was an extra game beyond our program, and was played on a new ground and enclosure constructed by Con Jones and was largely meant to advertise the ground. The party was promised the proceeds, and the amount each received was $111."

LABOR PARTY GOES THE LIMIT

LONDON, Dec. 30.—(By Canadian Press cable—The new federal constitution of the Australian Labor party demands that compulsory naval and military service shall be abolished, and that no forces shall be raised to serve outside Australia and that the commonwealth shall take no part in overseas wars, except by the decision of the people.

SENATE WILL REDRAFT THE TARIFF BILL

Work to Be Begun Next Week Will Be Completed by February.

HUNDRED THOUSAND ITEMS INCLUDED

First Task Is to Decide on United States Valuation or Alternative Plan.

WASHINGTON, Dec. 30.—Senate tariff makers plan to start next week the redrafting of the so-called permanent tariff bill, passed by the house last spring. Their aim is to have the measure ready for the senate by early February, but, because of the great task involved in passing on the more than 100,000 items in the bill, this hope may not be realized.

The first task before the finance committee is a decision as to the adoption of a straight-cut United States valuation plan of assessing duties, or the substitution of a plan similar to that outlined by President Harding in his message to congress early this month.

Special Valuation Seems Necessary.

Most members of the committee apparently agree that some special arrangement will have to be made if the measure to be drawn is to afford real protection to United States industries from the cheap producing countries in central Europe.

Hearings of the tariff virtually were closed today, though on Jan. 9 representatives of the Southern Tariff association will appear.

PERSONATION CHARGES ARE NOT PRESSED

MONTREAL, Dec. 30.—Judge Leet, sitting in enquette court here this afternoon, dismissed a charge of conspiring to impersonate voters on December 6, the date of the federal election, against Sam Saylor. Similar cases also have come before the court here, and have been dismissed for lack of evidence. A large number of charges set for hearing next week are similarly expected to collapse, following non-appearance of complainants.

PRESIDENT BEATTY ASKS COOPERATION

WINNIPEG, Dec. 30.—The following New Year's message was today sent out by E. W. Beatty, president of the C. P. R company:

"In wishing the officers and employees of the company and the members of their families the greatest measure of health and happiness during the coming year, may I express the hope that the same good will and cooperation, enthusiasm and loyalty which have marked the career and inspired the success of the Canadian Pacific during the 40 years of its existence, will be continued in 1922, and that above and beyond all else, our chief aim be to promote the best interests of the Canadian people and by our united efforts and efficient service accelerate the development and progress of our great Dominion."

RAILROAD PEOPLE IN ANNUAL FROLIC

Banquet and Dance of C.P.R. Social Club in Eagle Hall Is Great Success.

All available space in the Eagle and K. P. halls was taken up by a happy crowd of members of the C. P. R. Social club last night, when the club's annual banquet was held in the latter hall, followed by a dance in the former. All told, 145 officials and employees, representing all departments of the service, were present, and the entire function was voted the best yet.

The catering was done in excellent style by the Church Helpers of St. Saviour's mission in Fairview, under the able leadership of Mrs. R. A. England, both menu and service being extolled on all sides.

R. V. Ramsden, the chairman, proposed the toast to "The King," which was given the customary honors, after which Miss Ruth Sindel pleased the company with her recitation, "My Shadow."

Miller Responds for Company

Proposed by the chairman the toast to "The Company" was heartily honored, and was felicitiously responded to by W. O. Miller, division superintendent. Superintendent Miller laid stress on the good work done by the Social club in bringing together officials and employees, this making for a better understanding and cooperation between them.

After pleasing songs by J. E. Hughes, E. J. Stobo proposed the toast to "The Club," taking the place of Capt. Douglas Brown, who was called out of town. Vice-President H. Armshaw responded, making reference in a speech full of humor, to the very efficient way in which the club members looked after the ladies. J. E. Bennett then rendered comic songs, and led an enthusiastic audience in the choruses.

In preposing the toast to "The Club Officers," W. B. Bamford, district freight agent, paid a warm tribute to the work of the recipients of the honor, and T. B. Tellyn, in responding, described some of the ups and downs experienced by those guiding the club's destinies. He urged the members to give their cooperation more wholeheartedly, and not to leave it to George.

G. S. Paton brought down the house with his molologue—one of several—describing the man with one hair, the trouble he took with it and his grief at the loss of it.

Humphrey and the Recall

L. W. Humphrey, M.P.-elect, proposed the toast, "To the Ladies," and bringing the old adage up to date, contended that, now that women had the vote, "the hand that rocked the cradle rocked the politics of the world." In replying, Miss E. M. Rodger made a telling speech, and incidentally intimated to the proposer of the toast, amid laughter, that if the women concluded he was not pursuing what in their estimation was the right course, they would exercise the right of recall on him.

At the special invitation of the chairman, T. L. Bloomer, F. J. Boles, John Argyle, Dr. D. H. Hartin and Dr. H. H. MacKenzie made brief speeches, expressing their pleasure at being present. Past President E. Y. Brake also made a happy speech.

On the motion of Mrs. H. McKenzie, who made her motion in lieu of a speech, and who was abetted by Mrs. E. R. Redpath, adjournment was taken to Eagle hall for the dance.

All the talent used at the affair, the chairman stated, was "C.P.R.," and special mention was made of the good music furnished by the C. P. R. Social club orchestra, whose selections played before the banquet, and whose playing later for the dances, were very favorably commented on.

Dancing, under the direction of E. Y. Brake was in progress till the early hours.

THIN, FLAT HAIR GROWS LONG, THICK AND ABUNDANT

all dandruff, stops itch-

"Danderine" costs only 35 cents a bottle. One application ends ing and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks' use, when you see new hair fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

GREENFIELD WANTS P. R.

That the next provincial election in Alberta will be under the proportional representation system appears to be assured from a statement mad by Premier Greenfield of Alberta.

"The United Farmers of Alberta have always stood strongly for proportional representation and there is no doubt that the question will come before the provincial legislature before the next elections," declared Mr. Greenfield. The premier added that personally he was a strong adovcate of the system and would like to see it brought into force. From what can be gathered the same attitude generally pervades the rank and file of the United Farmers, which adds to the likelihood of early legislation on the question.

"Every election which has been held recently simply adds to the force of the arguments presented in favor of proportional representation," asserted Mr. Greenfield. No better examples of the unfairness of the present system of electing representatives, whether federal, provincial or municipal, could be found than the elections of July 18, December 6 or the municipal election the other day.

SCHOOLBOYS ON CROMWELL.

The following are some answers made by English schoolboys (aged about 12 years) who were recently examined on the time of Charles I:

Cromwell first fought as a cornet boy.

They made him a colonial over an army.

He became leader of the Eastern Counties and foundered the Ironsides.

Cromwell did England a fairly moderate amount of good.

Helping England was a hobby of his.

He conquered Ireland and thus made another colony.

Oliver Cromwell, John Hampden's cousin, did a great deal of quiet work, though only a country gentleman.

Cromwell was a stern man, and stopped theater-going and Christmas festivities, and thus made England a first-rate country.

He was a puritan himself, but he gave toleration to Christians.

Unfortunately for England Cromwell died in 1658.

These are all little masterpieces of terse lucidity. But the last item is more than a little "intriguing." Does the thoughtful young commentator imply regret that Cromwell did not live until the present year of grace? And what would he expect him to do in his quiet way Colonise Ireland still further? Or once more turn the British house of commons out into the street?

SELLS HAIR TO FEED FAMILY

A pathetic case of poverty has been discovered at Horsham, where a mother of several children in desperation cut off her hair and sold it to buy food. She was entirely without sustenance, and the family had been living upon what kindly neighbors were able to spare. The case came to light through inquiries which were made by the local police, whose football club found itself with a surplus in hand, and it was the unanimous wish of the constables that this should be given to help to alleviate distress in the town. It was while this money was being distributed by the police that the mother's sacrifice became known. Struck by the amount of distress which they encountered, the police with the hearty approval of the chief constable and superintendent decided to develop their work of assistance. They arrange to play another fotball match, and organized a concert, the proceeds to go to help distressed families.

A Russian woman writing to a friend in America appeals for food and canties, saying that the craving for sweets at times is almost unbearable.

Supremacy in lumber production he'd by the Southern pine belt, has passed the zenith and is moving faster yearly to the West.

The first woman's missionary society in the United States was organized in 1861 with a membership from six churches.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Nelson, B. C. (5292)

BRITISH COLUMBIA SHOWS DEEP BLUE

November Was Very Wet Month in This Province By Weather Map.

British Columbia was a reasonably wet area during November, and is represented on the meteorological map of Canada for that month by a big blue splotch. The maritime provinces are also a deep blue, indicating precipitation, while Quebec and Ontario are lightly tinted, as a result of their modest acquisition of moisture. The prairies appear to have been bone-dry in more senses than one.

Some great rain figures are shown for British Columbia. Agassiz had 9.74 inches, Nicomen 9.68 inches and Goldstream 9.67 inches, with all parts of the province except the Kootenay and Okanagan sharing the prevalent conditions. There were floods in the Fraser valley and also in the Fort George district in the latter part of the month. Invermere appears to have made the sunshine record for the month, with 65 hours of sunshine. Nelson had 1.75 inches of rain and 18 inches of snow, equivalent to 1.8 inches of rain. Grand Forks was one of the driest spots in the province, with .48 inch of rain and 12 inches of snow. Most portions of the interior had touches of zero weather.

VICTORIA COMMISSIONER

VICTORIA, Dec. 30.—George L. Warren was today appointed commissioner of the Victoria and Island Development association and the chamber of commerce to take effect January 1.

The Roosevelt Memorial association plans to erect a monument in Washington and to beautify a park at Oyster Bay.

SUP OF PORRIDGE AND TO THE RINK

Thirty-six Games in City Curling Series Are Drawn for New Year's Day.

With the rest they will be supposed to enjoy tomorrow, Nelson's dyed-in-the-wool curlers will bounce out of bed before daylight on Monday morning, don breeks and tams, match a sup of porridge, and beat it to the curling rink, where they will put in one gran' day at the roaring game. At least, those will require to be thus bright and early on the job who are down for the 8 o'clock draw in the city series. As a matter of fact, none of those down for the 8 o'clock draw have been caught in the act of giving three loud cheers, and one game was played yesterday, and at least one is planned for today, in order that tired businessmen shall not lose their beauty sleep.

Six draws are arranged, for 8 and 10 o'clock on New Year's morning, 2 and 4 o'clock in the afternoon, and 7 and 9 o'clock at night. This will give nearly two games around for the 43 rinks, if all of the six sheets of ice are occupied each draw. The draws are as follows:

Six Draws

8 a. m.—Smyth vs. Whitehouse; Steele vs. Wasson; Douglas vs. St. Denis; Fotheringham vs. Graham; Andrew vs. Keith; Wright vs. McLeod.

10 a. m.—Perrier vs. Meagher; Dill vs. Gibson; Otterburn vs. Blackwood; Rutherford vs. R. Bell; Myers vs. Cartmel; Daniels vs. Thomson.

2 p. m.—D. J. Robertson vs. J. Bell Jr.; Sharp vs. Horswill; Steed vs. Barnes; Bunyan vs. Smyth; Armstrong vs. Leith; Ritchie vs. Druswell.

4 p. m.—Boles vs. Martin; Hortstead vs. Blackwood; Horswill vs. H. W. Robertson; Carrie vs. Redpath; Whitehouse vs. Steele; Wasson vs. Douglas.

7 p. m.—Holmes vs. Bush; R. Bell vs. Myers; McLeod vs. Perrier; Meagher vs. Dill; Gibson vs. Otterburn.

p. m.—St. Denis vs. Holmes; Bush vs. Fotheringham; Cartmel vs. Daniels; Barnes vs. Carrie; Redpath vs. Armstrong; Leith vs. Martin.

R. Andrew and H. Wright, in "B" section of the series, played their game yesterday afternoon to serve the convenience of their members. Wright winning 13-5. A movement is on foot to have the Wright-A. D. McLeod game curled today, in order that worthy citizens shall not imperil their health by too early rising on a statutory holiday.

PAPERS ARE SERVED ON BOARD MEMBERS

Papers were served on the Nelson school board and on L. V. Rogers, principal-elect of the high school, in connection with the suit which A. J. Mather, the present principal, is bringing against them, asking for an injunction and a mandamus.

James O'Shea, city solicitor, is by virtue of his office, counsel of the school board in the case.

Pending the hearing of the action by a judge of the supreme court probably at the coast, the school board will be bound by the restraining order issued by Judge J. A. Forin here on Thursday and which *is effective until June 16*, up to which date Principal Mather will be in undisputed control of the high school.

GETS EIGHT STITCHES FOR PLUCK AT FIRE

At the fire in the Annable block on Wednesday night W. J. Miles received a severe cut on the wrist in breaking in one of the windows of the rooms in which was thought to be a woman and two children. Mr. Miles being the first to climb the ladder on Sergeant Alex. Stewart calling for volunteers for this purpose. Mr. Miles was attended by Dr. D. Hartin, who happened to be around, and dressed the wound putting in eight stitches. Mr. Miles will be incapacitated for a few weeks through his plucky action.

POSTPONE PROPOSED MEETING ON SCHOOLS

The following statement has been handed to The Daily News for publication on behalf of the committee that met the school board after the public meeting on school affairs in the interests of Principal A. J. Mather:

"A public meeting which was to have been held tonight for the purpose of informing the citizens of certain facts which have come to light in connection with the high school appointment has been postponed owing to the case being now before the courts.

"Should the situation warrant it, this meeting will be held later, as the citizens' committee deems it advisable the public should be informed of all the facts of the case in order to understand how much far-reaching than at first indicated the situation has become."

SIDNEY MERCHANT IS BELIEVED LOST

SYDNEY, N. S., Dec. 30.—Police and relatives tonight are seeking George A. Libbey, a well known local merchant, who disappeared on Tuesday last. Early Monday morning Libbey's store burned, with $25,000 loss, and although this was well covered by insurance, it is feared the accident preyed on his mind so that he wandered away and perished in recent storms.

APPOINTS MAGISTRATES

VICTORIA, Dec. 30.—Thomas Powell has been appointed magistrate of Peachland and George G. Henderson police magistrate of Fernie, Premier Oliver announces.

E. T. Kenny of Terrace is to be a stipendiary magistrate.

NEW YORK, Dec. 30.—Two persons were killed and 15 others were injured tonight in a rear-end collision at the 42nd street station off the Ninth avenue elevated railway. Passengers were boarding a southbound train when another traveling in the same direction crashed into it.

SANTA'S ARRIVAL DRAWS BIG HOUSE

Repeat Performance of Presbyterian Christmas Cantata Proves Its Excellence.

The repeat performance of the splendid cantata "Santa Claus Arrival," at the Presbyterian church Thursday night was even better performed and as well enjoyed as the first. Both performances attracted very large audiences.

The opening chorus, "His Coming," was again sung in ensemble. May Kirk in "Expectation," Millie Martin in "We All Believe," and Grace May in "When Santa Comes," sang the solos, and were supported by choruses.

The wonderful sunburst, opening from a small center to hugh dimensions in a wonderful rainbow of color, again amazed with its beauty, as the chorus of fairies danced in the shadows. The fairies were the queen, Jean Glendenning, and her troupe, Gladys McLeod, Elma Smith, Molly Mossan, Florence Grant, Grace Young and Ruby Young.

The "Christmas Birds," sung by Myra McLeod and chorus, was staged in a woodland scene.

A chorus of all the performers sang "Songs of Joy," Jean Glendenning singing the solo. The "Plea for Surprise" and the "Wasp's Christmas," were sung in solo by Rose Hartwig and Henrietta May, who were supported by choruses. May *McFarland recited the series of* tableaux that followed.

Other members of Santa's retinue were Japanese maidens, Helen Murphy, Christiana May, and Helen Sutherland; his Eskimos were Martha Scott, Daisy May, Sarah Evans, Velma McIntyre and Ruth Ore; his newsboys were Allan McInnes, Guss McEachern, Jack Frances, John Hunter, Tom Price, Rankin Hanna, Francis Kellogg, and the newsgirl, Molly, Henrietta May.

The Nelson prima donna was wee Muriel Stirling, who made her initial bow to the public.

The hero of the hour, Santa, and his wife Mrs. Santa, were Jack Morris and Mrs. M. Gibbs.

During the interlude Norman Lauritz rendered an excellent violin solo, for which he was vigorously encored.

A splendidly staged series of tableux formed the third part of the program, the figures being portrayed by members of the cantata cast.

The tableaux, beautiful in appearance under the spotlight manipulated by Olly Innes, were: "Rock of Ages;" a series, "The First Christmas," and "Peace," in which every member of the bi gcase appeared.

This splendid production was a great credit to all the members of the cast, as well as to the producers Mr. and Mrs. Warner Smith. Miss C. Wallach played the pianoforte accompaniments with excellent effect.

TREES AND LIGHTNING

It seems to be a fact that lightning differentiates between trees. The general opinion that neither the beech nor the birch is ever struck by lightning has been confirmed by careful investigations. A Mr. McNab, a fellow of the Botanical society of Edinburgh, collected data regarding lightning struck trees throughout Great Britain and failed to discover that either of these species had ever been struck by lightning. Investigations in this country have given similar results. In the forest regions a beech tree is regarded as the safest place in a thunder storm.

Metallurgist.

Famous metallurgist of the United States, who will attend the convention of the American Association for the Advancement of Science at Toronto this week.

STINNES TO SEEK LOAN.

The National Gazette of Berlin features a report that Hugo Stinnes is going to the United States shortly in connection specifically with his plan for joint Anglo-American-German reconstruction and exploitation of Russia. The Gazette says the information is from an absolutely reliable source. Stinnes' Berlin bureau in the Hotel Esplanade, Berlin, however, categorically denied this.

Stinnes has launched a sharp personal offensive against state control of coal prices. He contends that the fixation of maximum prices is undoubtedly part of a great drive to wrest the railroads from state control. He charges that as a result of the German state control's policy in fixing too low a price for coal the wages of miners for overtime were reduced so low that the men refused to work after hours, and the consequent diminution of production is further calculated to cause trouble when new coal mining scale is negotiated for the new year.

Further, Stinnes charges that his diminution of production must be covered by importing coal from abroad, notably from America, England and the Sarre region, Czechoslovakia and Poland, all at excessively *high prices*, and that this movement is likely to cause the collapse of the railroads, which are physically unable to cope with imported coal traffic.

Thirdly, by artificially keeping prices low the allies' demands for cheap German reparation coal and coke have been stimulated and vastly increased, with the incidental result that French and Luxemborug industries are able to offer severe competion to German industries.

WASHINGTON, Dec. 30.—President Harding today characterized as "silly" newspaper reports that relations between him and Secretary Hughes had been greatly strained by developments during the armament negotiations.

Admiral Kato, one of Japan's delegates to the disarmament conference, is learned both in statesmanship and war.

Spain's failure to recognize the Sultan made all the trouble in Morocco, declares a French officer.

WORK DONE ON RAMPOLO AND SILVER LUMP CLAIMS

I am the owner of the Rampolo, Lot No. 2408 and Silver Lump, Lot No. 2409, Group I. Crown granted mineral claims suitated Grand Forks mining division, Yale District, British Columbia.

SATURDAY, DEC. 31, 1921.

One Good Result.

The war was a friuhtful evil but out of it comes one good result. That was the advancement of medical science in several important directions.

New or revolutionary discoveries since 1914 have not been numerous, but methods have improved, so that in some ways medicine and surgery have progressed as much in these years as they usually would in a century of peace. Every great war has been accompanied and followed by an improvement in the practice and theory of science.

One important gain is connected with healing wounds. Drs. Carrel and Dakin keep wounds unbound and open, letting an antiseptic liquid drip on them, and serious wounds heal much more rapidly than if they had been bandaged. Far bigger areas can be treated by the Carrel-Dakin method than by the old method, and the new system seems likely to prove particularly useful in handling burns.

Italy is credited with the invention of artificial limbs that are said to be much superior to those previously invented. The Italian inventor is described as having devised agencies by means of which fingers and even toes can be moved separately. It is alleged that sometimes they are operated as deftly as if they consisted of flesh and blood.

An amazing prospect is held forth to the blind. Dr. Koppavni, an Austrian of professional reputation for his success in remedying injuries of the eye, expects to be able to graft living eyes into the eyesockets of blind men and to restore their sight. He has experimented in this way with rats, and it is alleged that his experiments have succeeded. But the claims advanced must be regarded with caution. It may be long before success can be attained for human beings.

What Mother Earns.

Collier's Weekly, in a recent issue, carries a story the truth of which is amazingly obvious, yet its theme is amazingly unusual. It has to do with the earnings of our mothers. It is generally the rule to refer to the head of the house as the bread winner, but the story which is reprinted below gives food for thought as to who, after all, is the "Great Heart" of the home. Here it is:

"She never earned any money—she lives on an Ohio farm, but she lives on almost every other farm. She is somebody's mother, maybe your own. She has earned nothing. No, but during her thirty working years she has served 432,983 meals; she has made 3123 garments, 32,000 loaves of bread, 5390 cakes, 7932 pies, 1500 gallons of lard; she has grown 1432 bushels of vegetables, and has raised 7660 chickens, churned 5430 pounds of butter, put up 3625 jars of preserves, scrubbed 177,825 articles of laundry, and she has put in 35,839 hours of sweeping and washing and scrubbing. At accepted prices for this work it is worth $115,-480.50. She can't retire on her savings—she has kept on. Not earning! No. How do you define the ordinary woman's contributions to her family wealth?"

The Lighter Side

Battleships are not the first line of defense. The first line consists in friendships.

—o—

The Irish are now free and equal, but when there is no fighting how can they pursue happiness?

—o—

The most popular winter sport consists in a frantic effort to keep within two jumps of expenses.

—o—

The discovery of a way to silence the big guns isn't new. Christ taught the method 1900 years ago.

—o—

An editorial says Russia is in the grip of ice. That's nice. It will keep her from tottering for a while.

—o—

A little experience will teach you that the "T" in a T-bone steak doesn't stand for "tender."

—o—

The old-fashioned gossip is becoming extinct, but government prys into your private affairs just as thoroughly.

—o—

If your every effort to get rich fails, you can learn to scorn money and become interested in "the higher things in life."

—o—

New Year greetings would be more popular if somebody would invent a substitute for the worn-out sentiment, "Please Remit."

—o—

About the only pleasure a two-by-four gets out of life is in using an insulting tone of voice when he answers the telephone.

—o—

When the movie director wishes to put over an atmosphere of aristocracy, he lets the hero use an eight-inch cigarette holder.

—o—

When a man says it is impossible to be a Christian in this age, he means that he has some pet crookedness that pays him a profit.

—o—

Some physicians say radium cures a local disorder but has ill effects that are far-reaching and permanent. It must be related to war.

—o—

Wells says primitive man was impressed by the squareness of four. We have an uneasy feeling, however, that China is no longer primitive.

—o—

The members of the League of Nations won't have time to fight, anyway. They'll be too busy making separate treaties with the United States.

Efficient Housekeeping

By Laura A. Kirkman

HAVE YOU TRIED "BATIK" DYEING?

"Batik" dyeing was done by the Japanese hundreds of years ago, and the Dutch explorers introduced it later into Europe. Today many professional interior decorators are successfully doing this same kind of dyeing, and home women are trying it.

Because this art is a rather difficult one, I would advise the housekeeper to use unbleached muslin for her first attempt. Splendid bed quilts can be made of unbleached muslin dyed in blue, Batik stlye. Or the dyed muslin may be used effectively for window drapes.

"Batik" dyeing was done by the Javanese meant "painting in wax." And that is what a part of the process really is The first step in this work is to draw an original pattern on the muslin with an ordinary lead-pencil. If you are not good at free-hand drawing, cut a conventional design out of stiff cardboard and mark around this, moving it for a repetition of the design for bed spread or window curtains make an all-over pattern with a fairly large design.

When you have marked your design on the material, the next step is to "paint it in wax." Take paraffine and beeswax in equal quantities and melt them together. Ordinary beeswax could be used for lighter materials perhaps, such as silk or geogette crepe, but for a heavy goods like muslin it is best to use the combination. The wax must be kept at an even temperature as you apply it to the muslin with a little brush with stiff bristles. The stiff bristles will help the melted wax to get right into the fibres of the material so that it goes through to the other side. (A glue brush will do.)

And right here I want to warn my readers that there is a good deal of art required in putting the wax on! I cannot promise success, but I can say that this kind of dyeing is worth trying out. Some fabrics require a hotter wax than others to make it stick.

When you have gone over the pencil marks with a thin line of wax (which must harden before dyeing the material) the next step is to dip the muslin into a dye which does not require boiling. There are many cold-water dyes on the market—tint dyes and soap dyes—and when you have immersed your bed spread in one of these, dry it well. If it is not deep enough in color you can dip it a second, or even third time, in the dye.

You must now get the wax out in this way: Shave a cake of mild soap into 1 quart of boiling water and boil it until the soap is dissolved, then put the dyed spread into this bath, letting it boil. Change the water often (each time with the same amount of soap in it) until all the wax is discharged. The surplus dye will also come out, leaving the bed spread with a fine, fixed dye, so that it can later be washed like any other bed spread, when soiled. Rinse in cold water, dry well, and the process is completed.

I strongly advise my readers who are interested in Batik dyeing, to experiment with a small sample of muslin—or of any goods they wish to dye—before working on the large piece. Go through the entire process on this sample—designing, waxing, dyeing, and boiling to discharge the wax. If your results with the sample are good, you need not fear submitting the bed spread to the process.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Barbadoes Calls Archdeacon Beer

(Letter No. 1.)

Ottawa, Ont.

I left Kaslo late in November for another of my winter trips. I am off for the third time to Barbados, having engaged to relieve the vicar of St. Jame's church for six months. The poor man is sick, and is already in Des Moines, Iowa, and is very anxious that I should step into his shoes while he is on furlough.

I may honestly say that it is by special request that I am going to send you some letters again. I have been most pleasantly surprised to learn how many dozens of your readers have enjoyed my letters during the past two winters, and many of them have expressed the hope that they would hear from me again in the West Indies.

So, since I have successfully accomplished the first lap of the journey and am safely arrived in Ottawa, I am sending a short letter and one of the most important things I shall state here is the cost of the trip. I think some would be glad to take a holiday such as I am enjoying, if only they could afford it; and that they may know whether they can afford it, I will give the exact cost. I may mention that I have not got any cheap rate because of my cloth; the figures I give are just what anyone would pay. I have had no favors because I am a clergyman.

How Archdeacon Beats the Game

First, then, my ticket from Kaslo to Ottawa was $85.75; Pullman from Kootenay Landing to Medicine Hat was $5.80; tourist car from Medicine Hat to Ottawa was $11.55. So for transporation and accommodation from Kaslo to Ottawa, I paid $103.10. You will note that I have not said anything about meals on the way. I took a lunch basket with me, and only had a few meals in the diner, but I can give you some idea of the penalty you will pay if you go into the dining car by telling you what a man said, while sitting in the smoking room. He said, a man with his wife could not take three meals in the diner under $15 a day. Of course, you are so outrageous that it gives you a sick feeling in the pit of your stomach. Some other travelers declared that persons who could afford it, yet kept out of the diner because they felt so indignant at the holdup. There is very little difference between being robbed by a bandit, and the charges in the diner. There is one diference, however, and that it the bandit gives you no chance except to hand over your cash, while you are not obliged to take your meals in the car. I suppose it did not cost me a dollar a day to eat out of my basket and drink my hot tea out of my thermos bottle. Of course, stylish people must put on style, but I was never much smitten with style, and try to keep my expenses down within the limits of "a living wage."

Today I have bought my ticket to Halifax and on the steamship Caraquet from Halifax to Barbados. Because I bought a steamship ticket I got a cheaper rate on the train, and saved $6. Remember, as I said above, I got no special favor because of my cloth, everybody would get the same. The ticket was $19.15, and the sleeper is $6. The steamboat ticket was $162.65. Here, then, is another charge of $187.80, and board myself between Ottawa and Halifax. So my total is $290.90 from Kaslo to Barbados. Add to this say $25 for tips, drays, meals and incidentals, and you have the tidy little sum of $315.90. I have been making inquiries about the poor house down here for I suppose that is where I shall land instead of getting back to Kaslo after my enjoyment is completed.

Last year the steamboat company took me from Halifax to Barbados for $124, but they have jumped the price to $141 before I returned to Halifax. This time they charge $162 from Halifax to Barbados. What the return passage will be I cannot tell, but I fear I may say a final adieu to British Columbia and shall be greatly interested in the kind of accommodation to be found in the poor house.

H. BEER.

FINES DECREASE

MONTREAL, Dec. 30.—According to estimates made to date total receipts in fines, etc., in the recorders court here for 1921, will amount to $162,500, as against $263,806 for last year. This is the lowest since 1917.

The number of complaints laid before the court to date is 23,904 against 27,889 cases last year. Prisoners appearing before the court numbered 16,044, of whom 10,696 were charged with drunkenness This represents an increase of 10 per cent on the number brought before the court for this offense in 1920 and is nearly double the number in 1919.

SUSPEND CONSTABLES DRUMHELLER DISTRICT

CALGARY, Dec. 30—Trouble at the Collie mine at Drumheller may be settled as a result of the suggestion made by Attorney-General Brownlee that the miners and mine officials confer on the difficulties. In the meantime, the attorney-general has suspended the three special constables named to protect the mine property from what the mine officials state is violent action by the striking miners. This action of the attorney-general's was resented by the mine company, who wired him denying the charges made against the special constables. The district board of the U. M. W. of A. is continuing its support to the striking miners and is treating the strike as a lockout, saying that the mine company broke the agreement and reduced wages.

Paris is using natural monkey, a speckled black and white coloring that satisfies the Pierrot vogue.

Styles

By Lenore

Like the first fair rose of summer is a dance frock of two shades of rose taffeta, the lighter petals looking like a soft reflection of the deeper tone. The corsage is drawn snugly to the sides to give the flat effect across the front which contrasts so piquantly with the billowy contour of the skirt, and the scallops, as well as the petals of the skirt are all finely corded with self-material.

If a softer effect is desired, however, these edges may be picoted. The result will be equally smart. Sparkling rhinestones form the slender shoulder straps, and the low "V" is filled with silver tulle tissue, which suggests itself also for the headress. Or a rhinestone filet may be used.

PATTERN NO. 345

A pattern for the above model (No. 345) can be obtained in sizes 34, 36 or 38, by sending to The Daily News, *your name, address, and 30 cents in* postage stamps. Be sure to keep this newspaper clipping of the sketch and description of the garment to use as a working model when the pattern reaches you—which will be within two weeks' time.—The Editor.

Daily Recipe

(Paste this in your cook book.)

MACARONI BALLS.

Boil half a package of macaroni as directed, chop fine, add half a cupful of grated cheese, salt, pepper, a tablespoonful each of crumbs and chopped nuts and the yolk of an egg. Mould into balls and set to cool. When ready to use dip the balls in egg, roll in fine crumbs and fry in hot fat. Drain the balls on brown or blotting paper and serve them with a cream sauce. Garnish with parsley.

Told in Rhyme

GREETINGS

As one who sands in silent contemptation
In awe beneath some vast cathedral dome,
Wherein the mighty organ softly whispers
Some vibrant harmony we long have known;
We pause again—once more upon the threshold—
As in the midnight hours the old year ends
And hear again the kindly salutations:
Heart harmonies of old and valued *friends.*

For some year has brought its pain and sorrow;
For some the way was dark as darkest night.
To those we send sincere and heartfelt greetings
For, just ahead, there softly gleams the light.
For some the year was filled with joy and gladness:
The way was bright with love and kindly cheer.
May greater joys still lie along their pathway
And peace be theirs throughout *the coming year.*

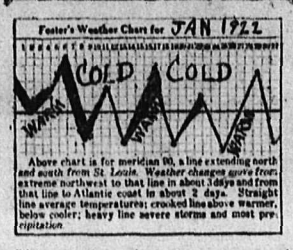
And, as the first pale flush of rosy morning
Gleams softly in the distant eastern sky
And paints the snow-clad peaks with wond'rous glory—
Great diadems high in the azure sky—
So may the light of love and friendship
Light all your future days with kindly cheer.
God grant with lavish hand your expectations
And cherish you throughout the *coming year.*

—W. C. Motley.

HALIBUT CATCH RECORD

PRINCE RUPERT, Dec. 30.—Twenty-four million pounds of halibut has been handled here during 1921. The year's catch is the best in the history of the fishing industry in northern waters.

FOSTER'S WEEKLY WEATHER BULLETIN



This weather chart is for your vicinity. Dates of month are at top. Warm waves are expected to reach your vicinity near dates where crooked line goes to tops; cooler than usual where they go to low points. Storm waves follow warm waves. Severe storms and increase of precipitation are indicated by widening of the zigzag temperature line.

WASHINGTON, D. C., Dec. 31.—The week centering on Jan. 5, will bring the highest temperatures of January from the Gulf of Mexico to the far north. This will be the only kind of message that can be received from the planets that revolve around the sun outside the earth's orbit. Those planets are feeding on the original matter that comes from outer dark space and after they digest that food the residual, or the left over, not being suited to their makeup, comes to earth, enters at our North American north magnetic pole, creates what I call a disturbance, the front part of which, in this case, will be the great wave of January.

The great storms of the month will come in behind that warm wave, which will cover Alaska near Jan. 3, meridian 90, Jan. 5, and eastern sections, 7. If you are interested in what Mercury, Venus, Jupiter, Saturn and Uranus, in every strong combination with sun and earth can do with our weather, watch and study that which occurs during the first half of January. Cold? Not very; you will get enough of that during last half of month and that cold weather will begin along the northern part of meridian 90 near Jan. 17.

My readers are supposed to know the snow movements; they have been told often enough. In this first storm of January the warm wave will be in Alaska near Jan. 3, all along meridian 90 Jan. 5, eastern sections, 7. Very severe storms will follow about one day behind storm wave. Usually such great storms bring unusually heavy precipitation, but in this case rain and snow, as an average, will not be excessive. A great fall in temperature is expected from near Jan. 5, to near Jan. 26. This will be contrary to the usual 10-year average change of January temperatures.

I have sounded an interesting note about 1921 and 1922, world cropwathr; it will be important and the nations should have the complete details. But the public does not feed my family and I am under no obligations to give away that which has cost me so much. But I will say this much; no permanent change is anticipated. The planets do not make permanent changes to cropweather and crops. Look at your own hands and examine your own brain. Man is making a desert of North America. We are going just as Persia, Arabia, North Africa and Egypt went and from the same causes. In destroying the forests, wild grasses and other wild vegetable growths thoughtless, careless man is preparing to destroy his race.

Six months ago I warned that one of the important crops of North America would fall short for 1922. I had reference to the American winter wheat crop. You are begining to suspicion that I was right. But I also told you that the general crops of some considerable sections of North America would fail for 1922. These failures will not come from drouth, because there will be no excessive evaporation; they will come from a shortage of rain and snow, because of the distance, direction and location of the oceans from whence the moisture must come.

BANISH RUSSIAN RELIEF SEEKERS

Nine Consigned to Remote Village; Maxim Gorky Escapes to Germany.

MOSCOW, Dec. 30.—(By Associated Press)—Banishment to Totma, a small village in Vologa province more than 100 miles from the railway, is the penalty imposed upon Dr. N. M. Kishkin and nine of his associates on the all-Russian committee for Famine Relief who were arrested three months ago just as they were preparing to leave for England to enlist foreign aid in the battle against famine.

Maxim Gorky was a member of this committee. He has since left Russia and gone to Germany, to the intense displeasure of many Russians, who allege that Gorky gave his word he would never leave Russia until his associates on the relief committee were released.

Dr. Kishkin was minister for home affairs under the Kerensky regime and was several times mayor of Moscow. He was formerly a prominent leader in the Cadet party. Among the prominent Russians who are to suffer banishment with him are Professor Prokopovich and his wife, who is known in public life as Catherine Kukova.

Osorgin, a journalist who was issuing a relief journal for the committee, is also to suffer banishment.

The all-Russian Committee for Famine Relief was dissolved several months ago on the charge that anti-Bolshevists abroad had intended to use the committee as a tool to overthrow the Soviet regime in Russia.

It was reported in September that four of its members, N. M. Kishkin, S. N. Prokopovich, Catherine Kukova and M. Avsarkissoff, were about to be executed. To save them, Michael Fedoroff, president of the *United Relief committee of Russian* organizations in Europe, asked the British government to intervene. Metropolitan Archbishop Platon of the Russian Orthodox church, residing in the United States, issued an appeal at that time to the heads of all Christian churches, imploring them to make every effort to save the lives of the four former members of the disbanded relief committee.

George Tchitcherin, the Russian minister of foreign affairs, soon after denied that the four persons had been executed and said they were "quite safe."

COMPLAIN CARNIVALS ARE TOO FRIVOLOUS

BERLIN, Dec. 30. — (Canadian Press).—The German government has been asked to forbid the annual prelent carnivals which for four days are held in virtually every south German and Rhineland city.

Complaint is made that the carnival season is "too frivolous and impoverishes the population which cannot refrain rfom participating."

During these carnivals the whole population of country and city parade the streets, dance, throw confetti, blow whistles and feast. It is necessary to purchase tickets for the restaurants in advance, and all stores are closed for the four days.

"It is impossible to keep aloof from the merriment of these carnivals," said a resident of Cologne, where the merriest of the merry carnivals once was held. "The people dress up fantastically and celebrate with utter disregard for strangers. A gloomy countenance is a cue for a bombardment of confetti of ribboned paper, until its owner laughts and joins the frolickers."

The complaints declare this is a time for frivolity in Germany and that it would waste money which will be sorely needed.

A number of municipalities banned the carnivals on their own accounts last year, but preparations for scores of celebrations this year prompted the appeal direct to the central government.

CHRISTMAS ENGAGEMENTS

Christmas when so many young people meet at social gatherings—is essentially a time for engagements. And to mark the engagement is the one essential gift—a Birks' Diamond.

It may seem much to say, but it is nevertheless a fact that Canada's National Engagement Ring is a Birks'. It has a recognized standard of quality—and value anywhere in Canada *all that is looked for on an Engagement Ring* is the name Birks.

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms. Burned Badly. Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were scattered all over me, and itched terribly at times, and I scratched them, causing them to fester and get sore. Sometimes they would dry away and form scales which burned badly.

"Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Ointment together with the Cuticura Soap." (Signed) Miss Bertha Kass, Russell, Manitoba, February 19, 1919.

Use Cuticura Soap and Ointment for all toilet purposes. Soap to cleanse, Ointment to heal.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St Paul St., Montreal.

Cuticura Soap shaves without mug.

The Best Cough Syrup is Home-made.

Here's an easy way to save $2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for $2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

CASCARETS 10¢

For Constipated Bowels—Bilious Liver

The nicest cathartic-laxative to physic your bowels when you have

Headache	Biliousness
Colds	Indigestion
Dizziness	Sour Stomach

is candy-like Cascarets. One or two tonight will empty your bowels completely by morning and you will feel splendid. "They work while you sleep." Cascarets never stir you up or gripe like Salts, Pills, Calomel, or Oil, and they cost only ten cents a box. Children love Cascarets, too.

MINARD'S LINIMENT.

King of Pain

The old reliable remedy for Rheumatism and Neuralgia, Sore Throat, Sprains, Strains, Swelling of any sort and Bruises

RELIEVED THE PAIN

Miss Ruth Tarkington, 12 Trafalgar St., St Thomas, Ont. "My grandmother was subject to rheumatism and used to call me from my playmates to go to the druggists to get Minard's Liniment. I was often unwilling and declared I hated that old stuff, but I soon found out how good it was. I got neuralgia. Grandma came with the Liniment and applied it to my head and I was very much surprised to feel how quickly it relieved the pain."

HOME BURNS ON CHRISTMAS NIGHT

While Owner Spending Evening With Friends Fire Totally Destroys House.

On Christmas night, the home and contents of C. A. Cock, south of town, was totally destroyed by fire. Mr. Cook was spending the evening with friends in town and when notified of the fire hurried home only to find it in smouldering ashes. His loss is partially covered by insurance. It is thought the fire caught from the base of the chimney.

BONNINGTON FALLS

BONNINGTON FALLS, Dec. 28.—Mr. and Mrs. R. C. Lockyer and little son, are spending Christmas and New Year in Vancouver, the guests of Mr. and Mrs. H. T. Lockyer.

Mr. and Mrs. R. J. Anderson are spending a few weeks at Butte, Mont.

Mrs. Turner Lee was a visitor to Penticton last week to meet her daughter, Nancy, who was returning from school at Vernon, to spend her holidays with her parents.

Mrs. G. L. Thompson and children, Jimmie and Elizabeth, leave today for Everett, Wash., to visit Mrs. Thompson's parents.

Mrs. Ritchie, of Cascade, is the guest of Mrs. A. Willie for a few weeks.

Mrs. C. Miller, of Nelson, was the guest of Mrs. H. Broadwood for Christmas.

Christmas services were held at St. Mary's, Bonnington, on Monday, Dec. 26, Ven. Archdeacon Graham officiated. The church was prettily decorated for the occasion. There was a very representative attendance.

Mr. and Mrs. G. E. Helbecque, of Nelson, have come to reside at Upper Bonnington. Mr. and Mrs. S. F. Fletcher, of Nelson were their guests over Christmas.

The Misses Brown and Cora Lynn, are visitors to Nelson to attend the Cinderella dance on Wednesday evening.

INSPECTS APPLIANCES

CRESTON, Dec. 30.—R. B. Staples, manager of Staples Fruit Co., Ltd., is at Vernon and other Okanagan points this week, where he is making an inspection of apple packing shed equipment and apple grading machines. He contemplates outfitting his warehouses at both Erickson and Creston with the latest equipment in this line for next season's operations.

OBITUARY

CHARLES MAGEE

CRANBROOK, Dec. 30.—On Saturday afternoon, Dec. 24, death claimed another well-known, and highly respected citizen when Charles Magee passed away in the St. Eugene hospital. The cause of death was hernia. Mr. Magee, who was the oldest locomotive engineer in this district, being in his Seventy-second year, was taken ill on his customary run, and brought in from Sirdar. The funeral took place Wednesday morning; the service being held at the Catholic church and interment was made in the Roman Catholic cemetery.

WEDDINGS.

AULT-SPENCE

CRANBROOK, Dec. 30.—A wedding of considerable interest to their many friends in Cranbrook and Fernie, took place on Saturday afternoon, Dec. 24 when Miss Gladys Laura Spence, daughter of Mr. and Mrs. J. W. Spence, became the bride of J. M. Ault, of the office staff of the Crow's Nest Pass Coal company, Fernie.

The ceremony was performed by Rev. W. T. Topscott, at the family residence on Norbury avenue, which had been beautifully decorated for the occasion.

The bride, who looked very charming in her traveling suit of toupe velour and carried a bouquet of bridal roses, was given away by her father. She was attended by Mrs. Bert Song as matron-of-honor.

Miss Della Graves played the wedding march and sang during the signing of the register.

A dainty buffet luncheon was served after the ceremony and the happy couple left on the evening train for Fernie, where they will make their home.

Several showers were tendered the bride the week proceeding the wedding.

Both young people are very well known in the East Kootenay and they have the best wishes of their many friends for a long and happy wedded life.

CHRISTMAS EGG IS A WHOPPER

CRESTON, Dec. 30.—A White Orpington pullet belonging to K. Kleist, a local poultryman, effectively demonstrated that she was possessed of the genuine yuletide spirit by producing, on Christmas morning, an egg that measured 9½ inches, measured lengthwise, and 7½ inches in circumference. To ensure it being weather proof, in case the owner should be away from home for the holiday, the biddy enclosed the hen fruit in a double shell—the two outer coatings being separate and distinct from each other.

PRESENT WELL FILLED PURSE TO PASTOR KNOX

CRESTON, Dec. 30.—A pleasant feature to the annual Methodist Christmas Sunday school entertainment on Friday night last, was the presentation of a well filled purse to Pastor Geo. Knox, in appreciation of the splendid work he has done the past year both in the interests of the Sunday school as well as the church work in all its other branches.

GIVE AT HOME FOR WHIST AND DANCING

CRESTON, Dec. 30.—Mr. and Mrs. F. E. Loveday were host and hostess at a large boxing night at home in the Parish hall, when some 50 or 60 couples were their guests at cards, which were followed by a few hours dancing. At whist the ladies' high scores were made by Mrs. Garland and Mrs. Erickson, of Invermere, while the consolation prize fell to Mrs. Henderson. The gentlemen high scorers were Mr. Garland and Mr. Brousson. A very sumptuous lunch was served at midnight, and excellent music for the dance was furnished by the Foreman-Lidgate orchestra.

CRESTON NOTES

CRESTON, Dec. 30.—Sam Hatfield, who until about eighteen months ago was in charge of the Fourth street barber shop and pool hall, but who is now in the same line of business at Saginaw, Mich., is here for a few days looking after business affairs.

Mr. Strudwick, vice-president, of the Kitchener Timber Co., Ltd., Kitchener, is a visitor in town this week, the guest of Mr. and Mrs. W. S. Watson.

Miss Elsie Hendren, who is with the telegraph and telephone system, at Vernon, is here with her parents, Mr. and Mrs. George Hendren, for a couple of weeks' vacation.

Miss Phyllis Lyne, who is in charge of domestic science work in one of the Portland, Ore., suburban high schools, arrived on Sunday for a ten day holiday with her parents, Mr. and Mrs. Henry Lyne.

Miss Foxall, of Cranbrook, is spending a couple of weeks with Creston friends, and is the guest of Mrs. Collis.

Leslie Mawson, of Wycliffe, was a week-end visitor here with his parents and family.

Miss Selma Anderson, who is taking a commercial course at Nelson Business college, is home for the yuletide vacation.

Miss Erma Hayden, of Portland, Ore., arrived on Saturday for a weeks' holiday with her parents, Mr. and Mrs. John E. Hayden.

Mr. and Mrs. P. G. Ebbutt have as their Christmas guest their son Frank, who is here from attending the B. C. University, Vancouver.

Mr. and Mrs. Frank Staples were Christmas visitors with Mr. and Mrs. H. A. McKowan, Cranbrook, Mr. and Mrs. Geo. Cartwright were also at Cranbrook for the week-end, guests of their daughter, Mrs. Macdonald.

Mr. and Mrs. Erickson, of Invermere, Miss F. Erickson, of Spokane, and Mr. Walsh, of Lethbridge, Alta., made up a house party that were Christmas guests of Mr. and Mrs. C. G. Bennett.

Principal Smith, of the public school accompanied by Mrs. Smith, are with Silverton and New Denver friends for the Christmas holidays.

Mr. Speers, sr., arrived the latter part of the week from Grassy Lake, Alta., and will spend the next few weeks here with his son, S. A. Speers.

Miss Olive McLarty, of Vancouver, is here for a short holiday with her friend, Mrs. Stocks. Miss McLarty spent the summer of 1917 in Creston, and since then has successfully completed the nurses' training course in Vancouver General hospital.

Reg Watson was here for Christmas with his parents, Mr. and Mrs. W. S. Watson. Ray McKelvey, who is working at Yalk, spent the holiday with his mother, Mrs. A. McKelvey.

Miss Marie Vaness, who has been at Cranbrook for the past two months, is home for a short visit with her parents, Mr. and Mrs. J. W. Vaness.

Mrs. Laflambois, of Wynndel, was the holder of the lucky ticket on the drawing for the Baby Gladys doll, raffled by the ladies of Holy Cross church on Christmas eve. Postmaster Gibbs was the winner of the cue offered as a prize by Manager French, of the Exchange Billiard hall, in a bean guessing contest that has been running since early December.

Thawing-out operations are in evidence along the Erickson Community Water System pipe line, which takes some three miles distant from the its supply of water from Sullivan creek, area in which it is used. In the entire absence of snow the exceptionally cold weather we have had the past week has enabled the frost to get down to the main pipe at some point, and has shut off entirely the water supply.

According to Postmaster Gibbs the 1921 Chrisimas season was by long odds the busiest in the history of Creston postoffice—his estimate as compared with a year ago being an increase of at least 200 per cent on both outgoing and inward mail matter. For the twodays before Christmas rush two extra clerks were required to give efficient service.

Alex. Duperry, who sold out the last of his ranch holdings here about six months ago, and left almost immediately intending to spend many months on a visit to his old home in Switzerland, landed back in Creston in time to spend Christmas with old friends.

C. O. Rodgers got away on Wednesday on a business trip to the Fort Steele and Cranbrook districts on a work horse buying trip. He is in quest of about ten teams to put to work on the Canyon City Lumber Co., Ltd., log haul. At present the haul is being taken care of by a fleet of three motor trucks, but in the event of snow not materializing, it is proposed to make ice roads and put available teams to work.

Mr. and Mrs. James Cook left on Tuesday to spend the next two or three months with friends at Toronto, Brampton, and other Ontario points, intending to make a visit at Winnipeg and Medicine Hat en route home. It is at least a quarter century since Mr. Cook last saw Toronto—the Queen city of his day not even being equipped with electric street railway; the old horse cars being in use when he left for the west.

CRANBROOK NOTES

CRANBROOK, Dec. 30.—Mr. and Mrs. W. E. Wasson, of Nelson, spent the holiday here visiting.

Dr. and Mrs. Miles left on the noon train, Thursday, for Spokane, where they will spend New Years.

W. D. Gilroy is in Fernie on business and will be away several days.

ST. LAWRENCE IS THE OLDEST RIVER

What is the oldest river in the world? The St. Lawrence. It is also one of the few rivers that did not have to make its own bed, and has remained unchanged since the very beginning of the American continent.

Try to think of a time when the earth was covered by a mass of water, hot, steaming, and often tremendously disturbed by the throes of a globe beneath it that was shrinking because it was becoming cooler. As the globe shrunk, every particle of the outside was naturally pulled in toward the center, and the hardening crust which could not be packed any more solidly than it was had to wrinkle, sinking down here, and bulging up somewhere else. After a time, certain of these rising wrinkles, or folds, the thicker, or firmer part of the earth's crust, stood the strain, and became permanent ridges. The oldest of them that geologists know, and apparently the first that bulged up above the universal ocean and remained high and dry, was the broad mass on which Canada now rests. It is a part of the original crust of the earth, and we can see it today, wherever it is not covered by newer rocks or soil, just as it crystallized and cooled out of the premeval molten material.

This mass formed a broad V from Labrador down to Lake Heron, and thence northwestward to Alaska; on account of its shape, geologists call it the Canadian Shield. It is the oldest land known, and apparently the strongest, for there are no signs of any extensive changes in it (except the wearing away of the surface) since it first rolled the ocean off its shoulders.

Off the eastern coast of this primitive continent lay a chain of lofty islands, about on the line of the Blue Ridge, the White Mountains the Maine coast, and Nova Scotia. Between these islands and the mainland was a trough-like space that ran from eastern Quebec southwestward to Ohio. It was two or three hundred miles wide, and filled with a shallow sea; and just outside the island chain was the great hollow that held the Atlantic ocean.

Time went on. For ages the straining and cracking of the shrinking globe, earthquakes, sun and frost, pounding surf, running water, blowing gales, tide—all labored to tear down the mountains and dust the wreckage of rocks and dust away into the valley and seas. In this way vast masses of rocks in layers of shales, sandstones, and what not, were laid down in that narrow, trough-like sea between the chain of islands and the continent. All these "sedimentary" rocks were soft and weak, as compared with solid old granites deeply rooted on either side of them; and the trough itself a sagging fold, was a line of weakness in the crust. As the load of deposits became heavier and heavier, the floor of this trough slowly yielded, and as it sank toward the heated region below, the under side melted, and grew thinner and thinner.

That could not go on forever, and soon the continual shrinking of the globe and the enormous pressure of the weight of the ocean became irresistible. The Canadian Shield was immovable, so the rock in the trough began to bulge or crumple all along its length. Gradually, not all at once, but by slow and varying movements, those folds were squeezed up, which in their broken and worn-down form, we know as the Appalachian mountains.

A Trench Formed

Toward the south there was room for this action to be rather gentle and regular, but in the far northwest the trough was narrow; and the soft rocks were set on edge, overturned, and splintered against the solid continent. Very early in the strugle a great fracture of the earth's crust occurred here along a curving northeast and southwest line. It left a deep and broad trench between the crushed and displaced rock of the trough and the granite shore of the Canadian Shield. Into this trench rushed all the interior waters of the continent, draining away to the sea, and the St. Lawrence river was born! There, no doubt it will remain as long as earth keeps its present form.

At that time there was no Gulf of St. Lawrence. The land extended out to a coast line that stretched unbroken from Nova Scotia to Labrador. The present gulf is the result of a sinking of the coast region. Most of it is very shallow, but a chart of soundings shows the ancient river bed as a channel winding out between Newfoundland and Cape Breton to the deep sea.—The Youth's Companion.

IF STOMACH IS BAD LET DIAPEPSIN END GAS, INDIGESTION

"Pape's Diapepsin" has proven itself the surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually.

WILLIE HUNTER

British golf champion, who was a visitor to Canada recently.

SCIENTISTS DISCREDIT VOLCANO RELATIONSHIP

NEW YORK, Dec. 30.—Theories that some scientific relationship might exist between concurrent volcanic activity reported during the month from Mexico, Argentina and Chile, Italy and Japan are discredited by geological authorities.

Dr. Edmund O. Hovey, geologist of the American museum of Natural History, and a recognized authority on volcanoes and earthquakes, said the areas of disturbance were too widely separated to have any connection.

"The eruptions reported," he said, "are from volcanoes so far apart that any relationship is only a presumption. It is beyond belief that the same cause could exist in each case."

J. Edmund Woodman, professor of geology in New York university, took the view that volcanic eruptions, occurring almost simultaneously in different parts of the world are merely coincidences.

"I believe, however, that concurrent eruptions in Alaska and in the Andes mountains of South America have a certain relationship," he added. "There is mountain building going on in many parts of the world, and there are times when we have a series of disturbances extending, for instance, from the tip of Canada to Cape Horn. Doubtless the same mighty forces have a hand in each of such eruptions, and this might account for simultaneous outbreaks in Chile and Mexico, but would have no bearing on similar disturbances in Europe or Asia."

The theory of Professor Woodman regarding a probable relationship between disturbances in the same general range of mountains, as for instance, the great divide extending down the western edge of North and South America, is strengthened by reports received from Buenos Aires, describing eruptions in the Andes, and following within a few hours other reports of distrubances from Mexico.

The activity in the Andes resulted in considerable damage to the villages of Osorno, Union and San Pablo, while the Mexico disturbance was causing grave fears among the natives in the vicinity of Mexico City. Following due south on a meridian of longitude the South American cities are some 1800 miles east of Mexico City, yet lie in what geologists term the same range or strata.

The causes and effects of eruptions in this particular range, however, are not necessarily found in stratas across the Pacific ocean, or deep under the Italian peninsula.

Great internal heat, geologists point out, might begin generating in one locality, and cast its influence over strata bearing a direct relationship or directly connected by gigantic fissures or channels miles under the earth's surface, while volcanoes such as Vesuvius and Etna are believed to receive their energy from sources quite local to their bases.

HOW A CAMEL IS SHOD

A camel is a very wise beast. Although his feet are covered with natural pads or layers of thick skin, blisters sometimes form, and these are exceedingly troublesome. When a horse has a sore foot he will usually hold it up and stand patiently while the trouble is being corrected. This is not so with the camel. He simply lies down when a long journey has caused his foot to blister, and nothing will persuade him to move; is this way the camel driver knows that something is wrong, and he immediately looks around to find the blister. This has to be done with caution, for the camel strenuously objects to having his feet touched.

When the blister is located four or five of the strongest men in the caravan suddenly rush upon the camel when he is not looking, and, throwing him on his side, tie him fast so that he cannot move a muscle. They they take a piece of leather large enough to cover fully the blistered place and sew it on to the bottom of the foot, the skin there being so thick that the sewing does not hurt the animal. The leather that is used in the shoeing process is made from the camel skin. When one of the beasts dies the thickest portions of the hide are cut off and saved just for making these peculiar shoes. With infinite patience the drivers "work" this leather, stretching it in all directions, so as to make it pliable. The result is that it becomes very soft, and the camel, relieved by such a shoe, is willing to continue his journey. Though the camel appears so grateful after the shoeing is finished, he never will submit to the operation willingly, and every time he has to be taken unawares and tied up before his foot can be touched.—Selected.

HONOR SIR GEORGE PERLEY

LONDON, Dec. 30.—(By Canadian Press cable)—The Duke of Connaught will preside at a dinner to be given by the Canadian club here January 17, in honor of Sir George Perley, Canadian high commissioner, who is retiring and returning to Canada.

Gas for illuminating purposes was first manufactured in the U. S. by David Melville, of Newport, Rhode Island, in 1806.

WALL STREET YEAR ERRATIC AT CLOSE

Conflicting Fluctuations; Sound Note of Optimism for Coming Year.

NEW YORK, Dec. 30.—The stock exchange's final full session of the year was marked by conflicting and erractic fluctations. Heavy cash sales to meet income tax returns occurred in many of the low priced issues, but representative rails and favorite industrials were comparatively strong.

Opinions of authoritive sources dealing with general conditions in the coming year sounded a note of optimism, especially in relation to commercial and industrial prospects.

Sears Roebuck was the most prominent of the day, although its extreme advance of slightly more than seven points was reduced to 4¾ at the close.

Sales amounted to 775,000 shares.

Sterling bills were at the highest level for the week and all allied quotations were firm; the Italian rate making full recovery. Dutch and Scandinavian quotations were 10 to 20 points higher. Trading in foreign exchanges was larger than at any recent period and the strong tone suggested a more encouraging view of European economic conditions.

The bond market was active as a whole, but irregular movements marked the foreign division. Victory 4¾'s featured the domestic list, odd lots selling at 100.20, the year's maximum quotation.

Total sales, par value, $17,350,000.

BIG WIRE HOUSE FAILS ON CHANGE

Wagner Firm Assigns to Creditors; Operated Heavily in Grain Options.

NEW YORK, Dec. 30.—(By Canadian Press).—Announcement was made today on the floor of the New York stock exchange that E. W. Wagner & Co., one of the biggest wire houses in the United States had assigned in favor of creditors.

The announcement had little immediate effect on the stock market, but some little nervousness in the grain market was attributed to the failure

The firm had many branches throughout the United States and had a membership on the Winnipeg grain exchange. The financial district had been looking for an announcement of the suspension for the last two days. The business conduct committee of the stock exchange had examined the affairs of the company recently and as a result, members of the firm were called before it.

According to reports current in Wall street, the firm's most extensive committments were in Chicago, where it operated heavily in grain options. It also held a membership on the Chicago stock exchange.

CHICAGO, Dec. 30.—(By Canadian Press).—E. W. Wagner, president of E. W. Wagner & Co., which suspended business today, issued a statement in which he said the company was long on stocks which were being closed out. Petitioning creditors appeared before Federal Judge Landis today and filed an involuntary petition in bankruptcy against the company.

The petitioners are Jos. Anderson, H. Earnest and the Wood Repp Co., all doing business on the local board of *trade from which the Wagner firm* was suspended today. The petition declares that the estate of the company had substantially $2,000,000 in assets and for the preservation of the estate it is necessary that a receiver be appointed.

Judge Landis appointed the Central Trust company as receiver with power to take charge of and hold the estate and "to continue said business and for such order as shall be just and lawful."

DOMINION LIVESTOCK

WINNIPEG, Dec. 30.—Quotations:

Steers—Choice, $5.25 to $5.50; fair to good, $4.25 to $5.00.

Butcher heifers—Choice, $4.75 to $5.50; fair to good, $3.50 to $4.50.

Butcher cows—Choice, $4.25 to $4.50; fair to good, $3.25 to $4.00.

Bulls—Good, $2.50 to $3.00.

Oxen—Good, $3.50 to $4.00.

Feeder steers—Choice, $4.00 to $4.25.

Stocker steers—Choice, $3.00 to $3.50; fair to good, $2.25 to $2.75.

Stocker heifers—Choice, $2.75 to $3.00; fair to good, $2.00 to $2.50.

Calves—Choice, $5.50 to $6.50; good, $4.00 to $5.00.

Sheep—Good, $4.50 to $5.50.

Lambs—Good, $7.50 to $9.00.

Hogs—Selects, $9.75; lights, $9.00 to $9.25; heavies, $6.00 to $7.50.

MONTREAL LIST

MONTREAL, Dec. 30.—Other than a partial recovery in Dominion Bridge, there was little feature in the stock market today which was steady to firm. Dominion Bridge closed 2¼ points higher at 59½.

Montreal Tramways showed further strength, advancing 1½ to 146. The most marked change was in Riordan preferred which sold 5½ points to 2½. At that point it sold 2 points under the common which lost half point to 4½.

Bonds were firm. Quebec Railway bonds led by a four point advance to 69. Victory loan 1927 made a sixty cent advance to par.

Oats—No. 3 white, 30⅝ to 31⅛.

Flax—No. 1, 1.96½ to 2.02½.

TORONTO BOARD

TORONTO, Dec. 30.—All Canadian stock exchanges will enjoy another lengthy recess on account of the New Year holidays. The various markets will be closed Saturday as well as on Monday. Although the New York markets will be open Saturday, they will be closed on Monday.

The market lacked feature and was irregular. After the weakness of the previous day, Dominion Bridge was stronger. Locally, it closed up 2 points to 59¾.

There was fair activity in the banks. Hamilton eased 5 points to 170. Union gained ¾ to 142 while Imperial was off ½ at 173½.

FREE SELLING LOWERS WHEAT

CHICAGO, Dec. 30.—Free selling, due to the government report on winter wheat and to liquidation on the part of a house in financial difficulties, led to material setbacks today.

Wheat closed unsettled, 2c. to 2⅞c. net lower with May 1.15 to 1.15⅛ and July 1.03⅞ to 1.04.

Corn lost 1c. to 1¼c. net and oats ⅝c. to 1½c.

In provisions the outcome varied from 15c. decline to 2½c. advance.

Freight Tonnage Lower; Wheat Higher on Lake Navigation for Season

SAULT STE MARIE, Mich. Dec. 30.—Movement of freight through the Canadian and United States locks here in the 1921 navigation season that closed Dec. 24, aggregated 48,259,254 short tons, it was announced today by the United States engineer's office. The figures compare with 79,282,126 short tons in 1920.

Movement of wheat down the lakes 54,258,523 bushels, an increase of 54,258,523 bushels as compared with last year. Grain other than wheat aggregated 95,694,264 bushels, exceeding that of 1920, by 41,064,064 bushels.

LONDON, Dec. 30.—The new loan issue movement which was interrupted in the Christmas holidays will be resumed in earnest next Tuesday when £3,000,000 6 per cent government of South Australia stock will be offered by subscription at 96 per cent, repayable in 1940. The South Australian government will have the option of redemption after 1930. It is understood the loan represents money required for purposes other than those included in previous loans.

DOMINION TRADE OUTLOOK BETTER

No Cause for Complaint in British Columbia; East Quiet, But Promising.

WINNIPEG, Dec. 30.—(By Canadian Press).—The old year is passing out with business conditions throughout Canada generally quiet. While it cannot, by any means, be taken as a lull before a storm, there are those who see better possibilities for early 1922, states the weekly trade report of the Canadian Credit Men's Trust association.

Montreal, Quebec, Toronto and other parts of the east report wholesalers generally quiet with traveling staffs during the holidays. Some boot and shoe houses find orders encouraging; ladies' and men's wear fairly active and grocery lines active, while drygoods and other non-essential lines are very quiet, together with boots and shoes.

Winnipeg and the Prairie provinces have had a quiet week between holidays. Wholesalers state business is still quiet and many have taken the opportunity of convening their outside representatives. The general opinion seems to be that January will see better business in most lines.

Vancouver and British Columbia is exhaustively dealt with in the report, the association's branch in that province having made a general canvass of its hundreds of members. Considering the poor canning season and the mining situation, business is considered by many very good. Manufacturers in many lines state that when all things are considered, little cause remains for complaint. All report prospects for 1922 are considered good.

Retail trade generally report sales about 10 to 12 per cent over the same *month of 1920. Building trades look* for a busy spring. Collections are slow and the outlook in this respect for the early months of 1922 is not good.

SCOUR COUNTY FOR MURDEROUS BANDITS

PEARL RIVER, N. Y., Dec. 30.—Four armed bandits today swooped down on Pearl River, failed in an attempt to rob the First National bank, and fled in their automobile after slaying two men and probably mortally wounding another.

One robber, wounded by one of his victoms, left a slight trail of blood in the snow, but this was lost when he entered the machine. Tonight the town fire department in their trucks, citizens in private machines, and the police afoot and *on horses* were scouring the countryside for trace of the robbers. The dead are James P. Moore, assistant cashier, and S. Butz, a clerk.

TRAVELERS SCORE INCOME TAX POINT

TORONTO, Dec. 30.—An optimistic note was struck at the annual meeting of the Commercial Travelers' association here this afternoon, when the directors' report stated the coming year should be looked forward to hopefully. The report pointed out that a satisfactory settlement had been reached over the difficulty experienced by travelers in submitting their dominion income tax returns. The department had refused to allow for the travelers' full expenses, including hotel as well as transportation, but in future ample deduction can be made from the gross earnings for legitimate expenses.

SOVIET RUSSIA BUYS UNITED STATES GRAIN

LONDON, Dec. 30.—The agreement negotiated here last week whereby Soviet Russia will turn over to the United States Relief administration $10,000,000 worth of gold for the purchase of grain in the United States for famine relief in the Volga region, was signed here today.

A road to the summit of Mauna Loa volcano, to be built by the government will enable tourists to make the trip from Honolulu in 24 hours.

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

MRS. PENNINGTON

NEW ROCKLAND, P.Q.

"In 1919, I was taken with *Bronchial Asthma* and no one knows what I suffered with it during the winter. *I began having Choking Spells*—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me.

"In the spring of 1920, *I started taking "Fruit-a-tives"* and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about "Fruit-a-tives" for I know how they must suffer.

Some thought the Asthma would come back on me as winter came on but it has not, thanks to "Fruit-a-tives" Mrs. J. M. PENNINGTON.

50c a box, 6 for $2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

False Economy

It is false economy to keep your important papers, such as bonds and insurance papers and other valuables, at home where they may be stolen, or destroyed by fire or carelessness.

News of Sport

ROSSLAND ROMPS TO EASY VICTORY

Defeat Nelson Puch Chasers in Second Game of West Kootenay League.

After establishing a decided lead in the second period, the Rossland team completely demoralized the home puck chasers and won with a score of 8-1 in the second game of the West Kootenay Hockey league series played here last night. The first period was an even break at 1-1 the brand of hockey being extremely interesting, and showing little to favor either side. In the second, the visitors sent in many hot ones, and showed considerable superiority in stick handling, good defense, and accurate shooting. In this period, Richardson, the Nelson defense man, showed up in remarkable style, and seemed able to do as he liked other than advance his score His play was outstanding, and was only approached by that of Jewell, the Rossland center.

First Period

Play opened with Rossland making a determined onslaught on the Nelson goal, Jewell at the puck. Nothing came of it however, and each team settled to feeling out the other, individual bursts and swift hard checking being the rule. Flumerfelt was called on to save from Jewell and McKenzie. Murphy tried to find the Rossland net with a shot that brought Valentine to his knees to save. Ferguson also sent in a hot one, but Valentine was equal to it. At 8 minutes, Jewell, a speedy skater and good stick handler, got away alone, penetrated the defense, and scored the first for the visitors. At 15 minutes, Richardson, the lone star on the Nelson lineup, emerged from a mixup behind with the puck, travelled by good stick handling to center, shot, and tied the score. Rossland came back strong, forcing the battle around the Nelson net, but could not regain the lead before the bell rang.

Second Period

Nelson started off by rushing the Rossland goal in the second. A return ended in a melee in front of the home net, Flumerfelt saving twice. Jewell came down the ice and received an accidental kick in the forehead with a skate, laying him out temporarily. The game was suspended for four minutes

When play was resumed, Richardson, who was fast establishing himself in the favor of the home fans, made two fine individual breaks, passing the wings and penetrating the visitors' defense to shoot. His shots were wide of the mark. The third time he assayed the trick, he lost the puck to Jewell, who cleared the forwards on a pass to Singer, took the return, beat Murphy, and scored, at 25 minutes. A pretty bit of combination played by McKinnon, Ferguson and Richardson, was broken up by Michaley and Jewell, following which McKinnon was up on the fence for one minute. Flumerfelt saved three shots in the minute, McKinnon, on again, got loose with the puck on the wing, but falling foul of McKenzie, lost it, to see McKenzie travel down the ice, beat the defense, and score the third for Rossland, at 21 minutes. The score stood so at the end of the period.

Third Period

Rossland's speedy left wing, McKenzie, made several fine individual plays, getting as far as the Nelson defense in the opening stages of the third. Murphy, Madden and Ferguson tried to score for the home team on long shots. The last 10 minutes saw overwhelming disaster for the home boys. Jewell grabbed a loose puck, travelled up the ice, beating everything, including Flumerfelt. Within a minute, Singer took a pass and with only the goalie to beat, shot, Flumerfelt saving with his pads. Jewell shot from center almost immediately, and bulged the net, and apparently demoralized the home team In the last two minutes, Jewell put two more through and Singer added the eighth and final goal for Rossland.

The teams were:

Rossland	Position	Nelson
Valentine	Goal	Flumerfelt
Michaley	R. Defense	N. Richardson
McKenzie	L. Defense	E. Murphy
Jewell	Center	W. Ferguson
Thomlinson	R. Wing	C. Miller
Singer	L. Wing	T. Madden

Spares—Rossland, Stephens; Nelson, L. McKinnon, Mathews, Carrie and Cryderman.

H. Bishop, of Nelson, refereed, George Benwell and G B. Mathew were the timekeepers.

FROM GREAT STOCK

BLOOD BROTHER TO MAN O' WAR

Playfellow, full brother of the "horse of the century" sold by Harry F. Sinclair to James F. Johnson for $100,000 last summer and who is alleged by the latter to a wind-sucker. Johnson entered suit in a New York court for recovery of the money and a jury filed a sealed verdict.

MILLIONAIRES HALF A GAME AHEAD TODAY

Defeat Aristocrats; Continue Valliant and Desperate Efforts to Quit Cellar.

VICTORIA, Dec. 30.—The Vancouver Millionaires slipped half a game ahead of the Victoria Aristocrats tonight in the race for league position when they defeated Victoria, 5 to 3, in a Pacific Coast Hockey league game. With Micky Mackay and Lloyd Cook ranging the ice through every minute of play, the Millionaires continued their desperate attempt to pull themselves out of the league cellar into which they had dropped a week ago. Dunderdale and Oatman starred for the home team.

Summary.

First period—1, Skinner from Mackay, Vancouver, 5:33; 2, Vancouver, Adams from Mackay, 5:09; 3, Vancouver, Skinner from Duncan, :40.

Second period — 4, Vancouver, Adams unassisted, 16:42; 5, Vancouver, Cook unassisted, 1 minute; 6, Victoria, Dunderdale from Oatman, :12.

Third period—7, Victoria, Dunderdale from C. Loughlin, 3:24; 8, Vancouver, Frederickson from Oatman, 7:53.

Lineup.

Vancouver	Position	Victoria
Lehman	Goal	Fowler
Cook	Defense	W. Loughlin
Duncan	Defense	C. Loughlin
Adams	Forward	Johnson
Skinner	Forward	Oatman
Harris	Forward	Dunderdale
Mackay	Forward	Frederickson
Tobin	Reserve	Mecking
Parkes	Reserve	Halderson

NEW BASKETBALL LEAGUE FORMED

Canadian Girls in Training Enter Four Teams in City Pennant Series.

New enthusiasts have appeared on the local Basketball horizan, this time among the fair sex. Four teams composed of members of the C. G. I. T. attending the Y. M. C. A. gym. were yesterday organized into a league to play off a 12-game series for a pennant trophy. The pennant will be a gorgeous affair about three feet long bearing the photo of the winning team, and the inscription, C. G. I. T. Champions, 1921.

Tuesday will see the opening game played by the Sharpshooters and the Jaguars. Following are the four teams:

Jaguars—Jean Waldie, Dorothy Hall, Helen Wharton, Margaret McLeod, Jean Wallach, Helen Sutherland and Hubert Large.

Sharpshooters—Edith Ryan, Jane Lidec, Ethel Shaw, Eleanor McHardy, Alma Smillie and Adge Graves.

Wildcats—Gladys Hall Dorothy Jeffs, Gertrude Ritchie, Grace Hall, Ethel Sutcliffe, Helen Harwood and Florence Hanna.

Wolverines—Ada Ryan, Eva Brown, Irene Edmondson, Cecelia Olsen, Rita Robinson and Lily Sostad.

MONTREAL, Dec. 30.—It was stated in the well informed sporting circles here today, according to the Star that Edouard Bouchard of Quebec city, tired of the trouble it is causing him to prove that he only accepted money last season for traveling expenses, has finally accepted an offer by Leo Dandurand, manager of the professional Canadien team in the National Hockey league and will play against Ottawa next week.

CANADIANS TAKE SERIES STRAIGHT

PHILADELPHIA, Dec. 30.—The University of Toronto hockey team defeated the St. Nicholas sextette of New York tonight 5 to 1. The victory gave the Canadians a clean sweep of three games played here.

SPORTING BRIEFS

Argonauts Defeated

CLEVELAND, Dec. 30.—The Cleveland hockey team continued its winning streak tonight, defeating the Argonauts of Toronto 8 to 2.

Victorias Win

WINNIPEG, Dec. 30.—Victorias won the opening game of the Winnipeg senior hockey league here tonight, defeating Varsity 9 to 6.

Fight to Draw

NEW YORK, Dec. 30.—Johnny Dundee and Willie Jackson fought 15 rounds to a draw in Madison Square Garden tonight. Dundee weighed 128 1-2 and Jackson 134 1-2 pounds.

McGILL WINS

BOSTON, Dec. 30.—The McGill University hockey team won its second victory in its series of three games with Boston teams when it defeated the Boston college sextette tonight 3 to 0.

SWORE AFFIDAVITS ONLY AS A BLUFF

MONTREAL, Dec. 0.—Hugh McKinnon, a McGill student, today admitted to reporters that he swore out the affidavit accusing thirteen amateur athletes of the Maritime provinces of professionalism, as a bluff. McKinnon, who is suspended, said he hoped to get his own card back by threatening to disrupt athletics in eastern Canada and was now sorry for what he had done. He said he made his affidavit on December 7, but President Covey of the Maritime branch of the Amateur Athletic union of Canada, held it until Dalhousie university was about to leave Halifax to play the Harvard hockey team before acting upon it.

Temporary cards were issued today to the Dalhousie hockey players suspended. They were:

Leon Fluen, Arthur Lilly, Duke McIsaacs and J. I. McNeil. These men denied the allegation of McKinnon.

Hudson's Bay Company INCORPORATED A.D. 1670

This the Last Day of the Old Year of 1921

Will see many price concessions in useful merchandise. Take a look around and you will find your dollars will purchase more Quality Merchandise than you had thought possible.

Pro Pelle Cutem *Dec. 31st, 1921*

The Kootenay Veteran

Appearing Weekly.

The G. W. V. A. is an organization of the returned soldiers of Canada.

Its aims are:

- To enshrine the memory of those who died.
- To maintain the ties of comradeship.
- To cherish in loving care the widow and the orphan.
- To assure due provision for the sick and disabled.
- To lend the strength of numbers to the cause of the weak.
- To hold aloft the torch of unselfish service.
- To perpetuate British ideals.

'Shun!

Branch correspondents kindly have copy in at first of each week. What are your regular meeting dates?

Veterans who have constructive ideas that might benefit the returned men or the Association, please loosen up.

Fernie Branch Secures a Grant From the City

Fernie Branch.

At the annual meeting of the Fernie G. W. V. A., held two days before Christmas, Secretary D. F. Markland was able to report that great financial progress was made during the year now concluding.

President H. A. Bryant, now beginning his third year as president, occupied the chair, and he and other officers and committees reported. The organization of the branch for the coming year was completed.

R. Billsborough and Secretary Markland reported on their interview with the Fernie city council, respecting the work done by the branch, which interview brought the branch a grant of $100.

During the year Fernie branch gave out in relief $400 from its own funds, and also handled the disposal of the federal relief grant, which amounted to $768.

Civic Candidates.

Comrade Billsborough reported on interviewing members regarding offering for municipal honors, and was instructed to continue his duties by getting into touch with the members of the Fernie Working Men's club.

An appreciation of the work of President Bryant and Secretary Markland is being arranged for the next smoker.

A keen debate on the cards sent out by the canteen fund disposal committee for the returned men's plebiscite, resulted in the secretary being instructed to forward a protest to Ottawa. A suggestion to send a circular letter to all the British Columbia branches on the matter was turned down.

Christmas Festivities.

Our branch sent a little Christmas cheer into the homes of the widows of our fallen comrades in the shape of turkey in each case. Our band serenaded the residents on Christmas morning, to the extent that the cold weather permitted.

A series of tournaments were run off by the branch during the festive season.

The Christmas tree for members' children was staged on Monday in Hawthorne hall, placed at the service of the branch by the Loyal Order of Moose. President Bryant shouldered the bulk of the work and was ably assisted by H. Wheeler, W. Phillips, H. Brown and J. Longdon. The Ladies' auxiliary provided the refreshments, the I. O. D. E. made a handsome subscription, Comrade Black gave a handsome check, and the band provided the music required.

Cranbrook Gets Out Kootenay Periscope

"The Kootenay Periscope," the little magazine of 50 to 60 pages published by the Cranbrook G. W. V. A. as a Christmas effort, is now on sale, and is full of things of interest to readers of this page. Secretary A. F. Crowe, the editor, got it out at high speed and in record time, and it is evident that next year, with all the time in the world to work in, he will be able to make it a genuine review of Veterans' affairs in the Kootenay.

Aside from an article on the West Kootenay branches, and some general articles on insurance and other general subjects, the Periscope chiefly sets forth the Cranbrook idea, and is embellished with portraits of the hustling executive that has kept Cranbrook to the fore. There is also a cut of the Edgewood war memorial. Humor of 57 varieties calculated to appeal to ex-service men fills many pages. Cartoons of war incidents of a more or less fanciful nature, and a cut of the G. W. V. A. clubhouse in Cranbrook, ornament the brown front cover.

CRANBROOK BRANCH SECURES ADJUSTMENTS; FINE FINANCIAL STATEMENT IS SUBMITTED; MAJOR HICKS GUIDES DESTINIES COMING YEAR

Cranbrook Branch.

A notable record of progress during 1921 was disclosed at the annual banquet of the Cranbrook branch, held Tuesday evening.

President Lunn Reviews Year.

First came the annual meeting, which was attended by about 50. President J. G. Lunn, in his presidential report, outlined the work of the branch on behalf of returned soldiers and their dependents regarding the obtaining of pensions, gratuities and back pay, and relief provided for by the branch. The association has in 1921 been responsible for over $3500 in claims being properly adjusted, one claim in the nature of a pension resulting in a widow obtaining a pension of $75 per month, and back pension of $1300. This case we had been working on for over 15 months. Another claim of $600 was adjusted, a gratuity payment of $150 and a back pay claim of $125 being among those adjusted.

The financial report disclosed the fact that our association had handled receipts to the amount of over $15,000, and had spent nearly as much in the district, leaving a bank balance of some few hundred dollars. Our assets total $9500 and our liabilities stand a trifling $1100 which is indeed a very good showing for a young association. Although our revenue from the canteen is practically nil, we havve every hope of steadily increasing our financial rating by the time the closing shadows of 1922 begin to fall.

Officers Are Chosen.

The election of officers resulted in Mayor H. B. Hicks being elected to the presidential chair by acclamation. In a short talk the president-elect outlined his position as regards the branch, and promised his continued energetic support to the running of the institution for 1922.

The following subordinate officers were elected after energetic balloting: First vice-president, James G. Childs; second vice-president, W. B. Kay; P. W. Willis and James Turaley to the executive.

A sincere vote of thanks to the retiring president was carried, to the accompaniment of "He's a Jolly Good Fellow."

The boys then adjourned to the banquet hall, where they did more than justice to the turkey and chicken which greeted them. This was followed by a few speeches by the invited guests, and recitations and songs by local talent. All in all this annual reunion was up to the standard set by the previous years, and when the last of the company filed out of the hall around the hour of midnight, they went with the conviction that they will occupy a seat at the next year's board if it is at all possible.

Magazine Is Success.

The local magazine was placed on the stands Dec. 23, and by the manner in which the copies have been snapped up here, it looks as if the branch pulled off a good thing when it launched the Kootenay Periscope on the market of periodicals. While there are many things missing among the contents which should have been put in, still on considering the rapid manner in which the idea was carried out, the booklet is not so bad. Next year there will be a different tale, and now that the paper is definitely launched, the coming years should see it reach great proportions, both in size, sale and interest.

Arrangements have already been started in connection with our annual winter ball. The hall has been engaged for March 17, on which date the association is going to hold a grand masquerade dance.

The preliminary movements with regard to the Empire Day celebration are being made, and soon the battalions of committees will be on the job. Last year, with an early start, we were not any too soon, and this year the association is going to be well prepared beforehand.

WANDERERS WIN JUNIOR CLASH

Defeat Nelson Vics by Deciding Goal in Third; Real Peppy Battle.

Forcing a third goal in the last period by sheer hard play, the Wanderers established a victory over the Nelson Vics by a score of 3-2 in the junior city league match, which was the second event in the hockey doubleheader at the skating rink last night. The match was as pretty a junior clash as one could wish to see, was full of pep, fast, tricky skating and stick handling, and was exciting all through. There is considerable credit due to the Wanderers, who were a little outweighed.

Honors were even in the first period, which opened with both teams strongly aggressive. There were some pretty individual rushes, notably by Jim Madden, Annable and Thompson of the Wanderers and DesBrisay and McLean of the Vics. One of these, staged by DesBrisay, resulted in the first goal for the Vics. Combination was frequently good, some of the boys showing themselves adept at taking the pass and getting away on the instant. After Thompson had done some fancy stick handling, Annable took one such pass, and walloped the puck fairly into the net to tie the score. Often, however, the Wanderers' combination play broke up on DesBrisay, the Vics' star, whose defense and goal getting was again the feature of the Vics' play. Though goals were few, both Freno and Waldie were called on frequently, accurate shooting and aggressive tactics by both teams resulting in many hot shots at the net.

Goal Summary.

First period—Vics, D. DesBrisay, 7 minutes; Wanderers, Annable, 11 minutes.

Second period—Vics, D. DesBrisay, 1 minutes; Wanderers, Thompson, 14 minutes.

Third period—Wanderers, Annable, 12 minutes.

Lineup.

Vics	Position	Wanderers
Freno	Goal	Waldie
Pitts	Defense	Bradshaw
DesBrisay	Defense	Madden
Hall	R. Wing	DesBrisay
McLean	L. Wing	Annable
Murphy	Center	Smith
Grizzelle	Spare	Thompson
Benwell	Spare	Madden

BETWEEN SPASMS GAME WAS WEAK

Calgary Tigers Hopelessly Outclass Cresents in First Contest.

SASKATOON, Dec. 30.—The Saskatoon Crescents were hopelessly outclassed by the league leading Calgary Tigers in their first meeting of the Western Canada professional hockey schedule here last night. The Tigers outguessed and outplayed the locals and won 6 to 2. The first 10 minutes and the last 10 minutes saw pretty hockey, but in between these spasms the game was almost totally lacking in thrills.

A crowd of 4000, the largest this season, saw the Crescents go down to defeat. Saskatoon's team was decidedly off color while the Calgary team played a steady game.

Each goal keeper stopped 27 shots.

Half way through the first period, Jock Anderson, Calgary, left wing player and former Selkirk star, collided with Newell and sustained a fractured collarbone.

Summary.

First pediod—1, Saskatoon, Nagle from Dutkowski, 8:40; 2, Calgary, Dutton, 2:15; 3, Calgary, Murray, 2:15.

Second period—4, Calgary, Stanley from Arbour, 10:40.

Third period—5, Calgary, Dutton, 9:40; 6, Calgary, Brandow, 3:15; 7, Saskatoon, Dutkowski from Adams, 11:21; 8, Calgary, Brandow, 3:14.

Lineup.

Saskatoon	Position	Calary
Hebert	Goal	Reid
Denson	Defense	Dutton
Newell	Defense	Gardiner
Adams	Defense	Gardiner
Nagle	Center	Stanley
Dutkowski	Forward	Anderson
Crawford	Forward	Martin
Campbell	Forward	Brandow
Grant	Forward	Murray
McCarthy	Forward	Arbour

Referee—Brehaut.

MAYOR WASHES WINDOW.

The mayor of Southwark lately celebrated his escape from the toils of office by taking on a new job which was more in the nature of a ritual than of real work. In the presence of the vicar of Southwark cathedral and a group of press photographers, who at 1:30 had to use magnesium light, he climbed up a ladder and, armed with a bucket of hot water and hearth brush, ceremonially cleaned one of the cathedral's stained glass windows. It was an act of great pride. Those windows had not been cleaned for twenty-five years, but by the mayor's efforts a sum of £40 has been collected and a contract has been let for the work. Dressed in a suit of white overalls and waving his wet brush, the mayor stood halfway up the ladder and begged the lookers-on to say that another £25 was required to pay the window cleaner's bill. Then he became too busy to talk.

Methodists in the United States united in Chicago to honor the memory of Francis Asbury by the unveiling of a bronze statue.

MUST REDUCE TAXES TO IMPROVE TRADE

The Federation of British Industries has sent to the chancellor of the exchequer a grave warning of the consequences of a continuance of the present high level of taxation which, says the warning, is one of the chief factors retarding industrial recovery, and may permanently diminish the productive capacity of the country. The manifesto expresses the conviction that a substantial reduction in taxation would speedly lead to such an increase in the volume of trade as would yield a larger revenue than is otherwise possible. It points out that the capital resources of many industries have already been strained to the utmost by the need for larger working capital to meet post-war conditions of production and operation. The excess profits duty, it is affirmed, has prevented the accumulation of reserves sufficient to meet the crisis, while enromous local taxation and the corporation profits tax have still further depleted the available resources of industry.

Under these circumstances, says the manifesto, the burden of the income tax at the high rate assessed upon the average for three years, which included the greatest industrial boom in history, assumed crushing proportions, and many firms have been driven to impair their future productive capacity by paying the current year's taxation out of capital or by loan.

Forty-three disasters have called for emergency relief of the American Red Cross since the close of the war.

Mr. and Mrs. W. T. Goulding, after spending the Christmas holidays with their parents, left yesterday morning for their home at Leader, Sask.

George Redpath, who has been spending his Christmas holidays with his parents, leaves this morning for Portland, Ore., to resume his studies at the North Pacific college.

FIRE DESTROYS A VANCOUVER CHURCH

VANCOUVER, Dec. 30.—Robson Memorial church was destroyed by fire tonight. The fire is believed to have originated in a defective chimney pipe.

The church, which was built in 1904 in memory of a pioneer Methodist clergyman of Vancouver, was only partially insured. The loss is estimated at $7500.
