VOL. 20. NELSON, B.C., WEDNESDAY MORNING, OCTOBER 19, 1921. NO. 147.

WAS CRERAR ONLY ANGEL IN POLITICS?

Meighen Declares Farmers' Leader's Manifesto Cowardly; Inuendos.

DILAPIDATED ANNEX OF LIBERAL PARTY

Progressives' Policy Calculated to Strangle Canadian Industries.

BROCKVILLE, Oct. 18.—(Canadian Press Staff Correspondent)—Premier Meighen opened his Ontario campaign today with two meetings in constituencies which contributed ministers to the cabinet of Sir Robert Borden and Right. Hon. Mr. Arthur Meighen. At Spencerville, in the county of Greenville, formerly represented by Hon. J. D. Reid, as minister of railways and canals, the prime minister spoke to 2000 people following the Liberal-Conservative convention held early in the afternoon.

In the evening Mr. Meighen addressed a large meeting in the new theater here, in the interests of H. A. Stewart, who has been selected to contest the constituency of Leeds, formerly represented by Sir Thomas White, minister of finance in Sir Robert Borden's government. At the Spencerville meeting the speakers includedd G. Howard Ferguson, Conservative leader in the Ontario legislature, and at Brockville the premier was supported by Hon. G. D. Robertson, minister of labor.

Crerar's Language Cowardly.

The premier was unsparing in his criticism of statements which, he said, had been made by Hon. T. A. Crerar, leader of the Progressive party, in his recent manifesto. The language of this document, he insisted was cowardly. It charged the government with dishonesty, and with allying itself with the big interests, but he said it pointed to no specific instance, and made no definite charges.

"Until Mr. Crerar is man enough to put his hand on act of this government open to attack he fails to demonstrate the courage necessary to a prime minister," said Mr. Meighen.

Continuing his criticism of Mr. Crerar's manifesto, the premier charged that the exependitures of the Progressives on propaganda greatly exceeded those of the government.

Propaganda Expenditure.

"I tell you Mr. Crerar and his party has spent more on political propaganda than this government, five dollars to one, in the last five years," he said. "Profits made from

(Continued on Page Two.)

KING CONCLUDES MARITIME TOUR

Denies Free Trade the Issue Either With Farmers or Liberals.

CAMP BELLTON, N. B., Oct. 18.—(Canadian Press Staff orrespondent).—Hon. W. L. Mackenzie King, leader of the Liberal party, addressed the final meeting of his Maritime provinces tour here tonight.

The premier claimed to have taken the railways out of politics said Mr. King. However, one of the directors of the Canadian National board was in the field as a Meighen candidate in Nova Scotia and there had been no announcement of his resignation from the directorate.

"The company he is connected with," said Mr. King, "received contracts for $11,000,000 worth of railway equipment last year."

The Liberal leader also referred to J. B. M. Baxter, who, he said, had not resigned from the local house. Apparently, said Mr. King, Mr. Baxter was keeping the seat in case the Meighen government went to pieces even before December 6. Referring to the manifesto of Hon. Mr. Crerar, Mr. King said, the Progressive leader had not pressed free trade in that manifesto, and certainly the Liberal party did not, and never had preached free trade; therefore Mr. Meighen's choice of an issue was absurd.

Says Freight Rates Double Sugar Distribution Costs British Columbia Province

VANCOUVER, Oct. 18.—(By Canadian Press.)—That it cost from 86 to 99 per cent more to distribute sugar in British Columbia than it did in eastern Canada, owing to higher freight rates, and any reduction in freight rates would be immediately reflected by decreased prices of sugar, was the statement made to the board of railways commissioners today, said J. F. Jackson of the British Columbia Sugar Refinery.

From Vancouver to Bowie, B. C., and Montreal to Toronto, the distance being equal, the freight rate is 88 per cent higher in British Columbia, he said. He quoted equal distances of haul east of Vancouver and west of Montreal, showing differences in favor of the eastern averaging to 76 per cent.

Telephone matters took up much time.

Vienna Dispatch Reports Death of Former King of Bavaria at Sarvar Castle

LONDON, Oct. 18.—An Exchange dispatch from Vienna today states that a report has been received there of the death of Ludwig II, former king of Bavaria, at Sarvar castle, in Hungary. Owing to the Burgenland trouble in Hungary, telegraphing is practically suspended from that country, and it is difficult to obtain authoritative information of events pertaining thereto. A Reuter dispatch from Budapest says Ludwig died today.

LEGISLATURE REASSEMBLES AND ADJOURNS

Salute of Fifteen Guns; Formal Opening and Business; Session Today.

VICTORIA, Oct. 18.—Fifteen guns of artillery boomed a salute across the harbor from Work Point barracks at 3 o'clock this afternoon, as Lieutenant Governuor Nichol drove up to the main entrance of parliament buildings. He wore his Windsor uniform, cocked hat and sword, and as he stepped from the car a guard of honor from the Princess Patricia regiment presented arms. The lieutenant governor inspected them, then, accompanied by General Ross and Commander Nixon of the navy, he went up the entrance stairs. The center aisle of the building was lined with officers.

Rev. W. D. Spence, pastor of the First Congregational church, read the prayers. Then a number of formal motions were made and passed, including one calling for the printing of proceedings of the legislature.

Attorney General Farris arose and moved the introduction of amendments to the Summary Convictions act.

Encourage Short Speeches

The legislature then adjourned until 2 o'clock Wednesday afternoon, when J. B. Clearihue of Victoria will move the reply to the speech from the throne. Members are being encouraged to cut their talks short.

Speaker Manson plans a number of improvements in the mode of conducting.

"There will be nothing this session like the way some of the members conducted themselves last session," he said today.

All the galleries were full this afternoon. On the floor of the house were seated 295 persons who are leaders in the official and religious life of the province. Each cabinet minister had six persons as his guests and each private member two guests.

After the ceremonies guests of members were entertained to tea at the Empress hotel. Tonight all members of the legislature are guests of the lieutenant governor at the formal state dinner at Government house.

Seven Members Absent.

Of the forty-seven members of the house, seven are absent—Dr. Sutherland, Revelstoke; M. A. Macdonald and Captain Ian Mackenzie, Vancouver; W. A. MacKezie, Similkameen; David Whiteside, New Westminster, and R. H. Pooley, Esquimalt.

Hon. John Hart, minister of finance, presented the public accounts for the fiscal year ended March 31 last, and the premier submitted a statement showing the status of the Pacific Great Eastern railway up to June 30, 1921, and a supplementary statement covering loans up to September 30 last.

Attorney General J. W. DeB. Farris introduced a bill to amend the Summary Convictions act, providing that where a corporation is found guilty of an offense calling for punishment with imprisonment, it may instead be fined.

Both parties held lengthy caucuses following the opening of the session.

J. B. Clerihue, Victoria, will move the address in reply to the speech from the throne. A. D. Patterson, Delta, will second it.

FLASHES BY WIRE

Flour and Bran Cheaper.

WINNIPEG, Oct. 17.—Reductions on flour and bran of 50 cents a barrel and 25 cents on a 98-pound sack and of $2 a ton on bran and shorts went into effect at the Winnipeg mills today.

Orders Sheriff Stop Fight.

OKLAHOMA CITL, Oct. 18.—Governor J. B. A. Robertson today ordered the sheriff of Tulso county to take such steps as may be necessary to prevent the Mike Gibbons-O'Dowd middleweight boxing contest in Tulsa next Tuesday, warning the promoters it would not be permitted in Oklahoma.

As Protection for Traveling Girls.

LONDON, Ont., Oct. 18.—Four hundred delegates were present at the opening of the Ontario Women's Christian Temperance union here today. Dr. Sarah De Wiler appealed for greater protection for girls traveling in strange districts, and pointed out that 68,000 girls had disappeared in the United tSates during the year 1919 and urged upon the women of the Dominion the necessity for a determined effort to resist similar conditions growing up in Canada.

GILLIS FOR SENATE

OTTAWA, Oct. 18.—A. B. Gillis, formerly M. P. P., has been appointed to the senate completing the representation from Saskatchewan it was officially today.

INSISTS ON CLEAN ARMY

RUSSIAN RED GUARD PARADES

Soviet soldiers march to government baths.

Briand Demands Support of Chamber of Deputies as Delegate for France

PARIS, Oct. 18.—Premier Briand went before the chamber of deputies today and made it clear that his policy must have the support of the deputies if he was to represent France at the Washington conference on limitation of armaments. If France desired a policy of force, the premier declared, the representative of the country must say so He would, however, decline to associate himself with such a policy.

WILL INTRODNCE FOUR NEW BILLS

Chamberlain Announces Measures for Unemployment Relief.

LONDON, Oct. 18.—Four bills which Austen Chamberlain, the government leader in the house of commons, announces will be introduced by the government, will be concerned, first, with export credits and means for dealing with collapsed exchanges; second, the equalization of rates and the problems arising out of the recent incidents surrounding the imprisonments of the councillors of the borough of Poplar; third, with a new levy of two pence on employers and workmen to provide additional funds for unemployment insurance benefits, and fourth, with relief of the unemployment situation in Scotland.

Political Pot Steadily Boils

Farmers Name Ward.

DAUPHIN, Man., Oct. 18.—J. Ward, a farmer, was nominated here today by the National Progressives for Dauphin in the coming election.

Reid Withdraws Favor Casselman

SPENCERVILLE, Ont. Oct. 18.—(Canadian Press).—A. B. Casselman of Prescott won the nomination for National Liberal Conservative party in Greenville Couty at a convention here this evening.

Five names were submitted to the convention including that of Hon. J. D. Reid, who withdrew.

Government Candidate Withdraws.

WINNIPEG, Oct. 18.—Confirmation of the report thta R. C. Henders, government candidate in Macdonald constituency, would withdraw from the contest, was obtained here tonight with the announcement that a new convention had been called for October 25. This will make the third nominating convention held in the Macdonald constituency for the election of a government candidate.

Major Black Yukon's Choice.

DAWSON CITY, Oct. 18.—By Canadian Press)—The National Liberal and Conservative party in convention here last night, nominated Major Black of Vancouver, former commissioner for the Yukon, as its candidate in the federal elections. No other name was brought out. Dr. Alfred Thompson, who has represented the constituency since 1911, had announced his intention to retire.

Runs for Marquette Liberals.

SHOAL LAKE, Man., Oct. 18.—Reeve E. Henry of Oak River was selected by the Liberals tonight to contest the constituency of Marquette in the forthcoming federal election.

STEAMER ARRIVALS

Canopic at Naples from New York.
Potomac at Danzig from New York.

CANADIAN STRIKE NOT POSSIBLE

MONTREAL, Oct. 18.—No Railway strike in Canada on Oct. 30, the date on which the strike is said to occur in the United States, is possible, it was stated in railway circles today.

GOVERNMENT, LABOR UNIONS AND PUBLIC TAKE SIMULTANEOUS ACTION TO AVERT GENERAL RAILWAY STRIKE IN STATES

CHICAGO, Oct. 18.—Efforts to avert the general railway strike scheduled for October 30, tonight found government agencies, representatives of the public and some railway labor unions taking action simultaneously, which all hoped would prevent a tie-up of the country's transportation system through a walkout of nearly two million employees in protest of wage cuts.

Foremost among the moves being made by the different groups was a meeting between the United States Railroad Labor board and the heads of the five unions, which have already authorized their men to strike, called for Thursday by the board at the request of President Harding, it was said by board members.

The first move on the part of a public organization to avert the strike came when the American Farm Bureau federation, representing 1,250,000 farmers, sent petitions to the interstate commerce commission, asking an immediate 10 to 20 per cent rduction in freight rates on necessities, and announced that it also would appeal to the labor board not to grant a new 10 per cent wage reduction, which the roads have announced they will seek, but rather to generally revise wages in accordance with the cost of living in various sections. Concurrence in the request should avert the strike, the federation said in its announcement, through which it volunteered to meet with union and rail representatives as mediator.

VETERANS DEBATE UNITY; POLITICAL CLAUSE PROVES BONE OF CONTENTION

PORT ARTHUR, Ont., Oct. 18.—(By Canadian Press.)—With the housing and unemployment resolutions disposed of, the delegates to the fifth annual convention of the G. W. V. A. this afternoon commenced discussion of what appears to be the most important matter before the soldiers' parliament, namely, unification in some form. The fraternal delegates of the Imperial Veterans in Canada, and the Grand Army of United Veterans, took part in the proceedings by invitation.

The discussion was precipitated by the introduction of a resolution recommending that the convention place itself on record as being in favor of federation under the constitution and bylaws of the British Empire Service League as the first step toward unity.

The convention also had before it the resolution adopted at Sunday's conference which was intended as the foundation of combined action after the governing bodies concerned had ratified it. W. J. Irwin, Edmonton, was appointed chairman at this stage in order that the president might take part in the discussion. An amendment to the resolution submitted today that a plebiscite of the membership be taken has not yet been dealt with.

Advocates Federation.

President Maxwell recounted the proceedings of Sunday's conference and was followed by G. C. McNeil. Mr. Maxwell advocated federation because it seemed to be the only logical thing. It was better to try that first before embarking upon anything of a larger scale. The G. W. V. A. had always believed in unity, but the thing could not be rushed.

Mr. McNeil gave a resume of the negotiations which led up to the Sunday conference, a summary of which has been made public.

J. V. Marsh, secretary of the G. A. U. V., declared his association has never advocated immediate amalgamation, but he believed with "a government threat of 50 per cent pension bones being cut off" it was time for unity of some sort at once.

Captain W. Vaughan, Winnipeg, secretary of the Imperial Veterans, said his association had no axe to grind. He hoped to see the returned soldiers organized under one head, with two branches, one for Canadians and one for Imperials.

G. R. McNicholl, Hamilton, president of the G. A. U. V., also advocated unification in some degree as soon as possible.

G. A. U. V Under Fire.

The fraternal delegates of the G. A. U. V. were then the objectives of a verbal bombardment regarding the G. A. U. V. constitution, to which Mr. Marsh responded.

The bone of contention up to adjournment was regarding the political clause in the G. A .U. V. constitution. How could Mr. Marsh reconcile the clause in the G. A. U. V. advocating direct representation, with a statement made by Mr. Marsh to the effect that his association was nonpolitical? Mr. Marsh declared the legislature of the G. A. U. V. went on record two weeks ago that the amalgamation would be nonpolitical, having been empowered at the Winnipeg convention to do so when amalgamation was advocated.

Questions were also asked on all sides regarding the Canadian Legion. Who comprised the membershiup, who were its leaders, and what were its objects? Was the G. A. U. V. at the back of them? As far as Mr. Marsh knew, there was no connection whatever. If the bodies were going together in Winnipeg as intimated by a delegate, it was being investigated.

H. L. Rowe, Toronto, a delegate, said he was on the temporary committee of the Canadian Legion and its objects were to stir up the minds of returned men to the benefits which he said would result in unity. They were not out to destroy, but on the other hand were worthy of support of the G. W. V. A. It was fulfilling its object in the present negotiations for unity.

Ask Veterans' Preference Clause.

The relation of housing to employment was also dealt with. The suggestion that qualified persons should be granted an "interior passport and a certificate of citizenship" was withdrawn and will be dealt with under the heading of "naturalization." An unemployment resolution adopted this afternoon recommends to the federal, provincial and municipal governments that all contracts they control should carry a clause giving preference to returned men.

The final clause regarding unemployment was a request that all employers give preference to returned men when reducing staffs, by adding for that purpose to his seniority the time he gave to the service of the country.

HOT IN CALIFORNIA.

SAN BERNARDINO, Cal., Oct. 18.—The thermometer registered 103 degrees here today, the hottest day after the first week in October for the past 30 years. The temperature was 101 degrees yesterday.

Relieve Unemployment by Reinstating Workmen Laid Off on National Railways

TORONTO, Oct. 18.—A move to relieve unemployment was made today by the Canadian National railway sending out instructions to the general managers to reemploy the men laid off in the past six months, according to an official announcement made by the management here. In addition to the work to be undertaken in the shops of the Canadian National railways, contracts for repair work will be carried on in the car building plants of the various Canadian equipment companies located at Fort William, Hamilton, Montreal, Amherst and New Glasgow, N. S. The announcement states that the work will be begun at once.

REPRESENTS CANADA AT CONFERENCE

On Lloyd George's Suggestion Borden Joins Delegation for Washington.

OTTAWA, Oct. 18.—Right Hon. Robert Borden will represent Canada at the disarmament conference in Washington, it was announced here today L. C. Christie, legal advisor to the department of external affairs, has been appointed a member of the secretariat of the British Empire delegation. An official communique contained notification of the appointment. The Canadian government has appointed Right Hon. Sir Robert Borden as the representative of Canada, the prime minister of the United Kingdom having suggested that a member of the Canadian government be appointed.

Prohibitionists Petition Against Legislation for Sale of Beer by the Glass

VANCOUVER, Oct. 18.—The executive of the People's Prohibition association of British Columbia has forwarded to Premier John Oliver and members of the legislative council a petition protesting against the passing of any legislation that would permit the sale of beer by the glass. It is also requested that the club privileges be stopped and the liquor clubs be disbanded.

BANDITS HOLD UP BANK OF HAMILTON

Daylight Robery in Full View of Public; Escape in Auto After Gun Fight.

TORONTO, Oct. 18.—Five armed bandits, foreigners, held up the branch of the Bank of Hamilton, College street, and just afternoon robbed the teller's cage of $3000 in cash and escaped after a thrilling gun battle in an auto. The robbery was carried out in full view of scores of passers-by on College street, numbers of whom saw the getaway and the futile pursuit by the bank manager, E. W. Warren. None of the robbers were masked or disguised.

BOARDS ADJUSTING MOTHERS' PENSION

Curtail Amount Where Recipient Has Other Means of Subsistence.

VICTORIA, Oct. 18.—A readjustment in the pensions paid by the government under the provisions of the Mothers' Pension act is being made by various boards throughout the province.

This will mean, in some cases, that the recipient of a pension will find the amount hitherto paid somewhat curtailed, the board in its review of several cases taking the attitude that where a woman has no other means of subsistence is entitled to a larger pension than is a woman who has some other source of income or has relatives who can do something for her.

It has been found that the amount of money applied to payment of pensions—$400,000 for the whole province—is not sufficient to meet the demands upon it.

AUTHORIZE COMMISSION ARRANGE FOREIGN DEBTS

WASHINGTON, Oct. 18.—Favorable report authorizing the creation of a commision to arrange for finding and refunding of the foreign debt, was ordered today by the House ways and means committee. The measure is a substitute for the bill which would have been given the secretary of the treasury blanket authority over foreign debts.

The impression was given in several quarters that a freight rate reduction was under consideration.

CONFERENCE CONSIDERS AIR RIGHTS

Sinn Fein Views Relax on British Privilege Proposals; Officials Meet.

ULSTER VOLUNTEER FORCES REORGANIZE

Many Ex-Service Men Enrol; Well Armed With Pre-War Rifles

LONDON, Oct. 18.—A committee of Sinn Fein and British delegates to the Irish conference which has been holding sessions here for the past week, met at the colonial office this afternoon to consider facilities that should be given the British air force in case an agreement should be reached on the Irish question.

When Premier Lloyd George made his original proposal on this subject, one of the terms of which was the necessity of the air force having certain privileges in Ireland, the Sinn Fein officials strongly objected. But is is understood they have since modified their views regarding the proposal, with the result that the delegates today met Colonial secretary Churchill, Frederick E. Guest, Major General Trenchard, Sir Laming Worthington Evans and others interested in the air force to discuss the matter.

Enrols Volunteers

BELFAST, Oct. 18.—Reports that the Ulster volunteer force was being reorganized were verified in official quarters here today. It was stated that Ulster men were being enrolled from ex-service fighters.

LONDON, Oct. 18.—The Belfast correspondent of the Evening News today sent the following dispatch to his newspaper.

"There has been much talk of Ulster volunteers reorganizing and this body is estimated at 100,000. More than one fourth are ex-service men who fought in France and elsewhere and who are well used to firearms. The Volunteers will be well armed as they have kept their rifles since the 1914 days."

Contend Truce Observed

DUBLIN, Oct. 18.—Replying to statements printed in English newspapers concerning the "Irish Republican Army," the Irish bulletin, issued today, contends that the Irish army has observed the terms of the truce, under which it undertook to indulge in no provocative display of force.

The bulletin adds that the campaign of the Irish armies are situated far from any public place. The existence of the Republican army, says the Sinn Feiin organization. "Is not in dispute. Every army must have its camps and training stations. These infringe no article of the truce and are safeguards of peace."

Arraigns Sinn Fein

WINNIPEG, Man., Oct. 18.—In an arraignment of the Sinn Fein, W. Copeland Trimble, editor of the Impartial Reporter, Enniskellen, Ireland, discredited statements that there were any grievances in Ireland, in

GRAIN CAR SUPPLY MORE SATISFACTORY

TORONTO, Oct. 18—The movement of a record number of cars of grain into the Great Lake terminals over the Canadian National railways is announced here by officials as having been made on October 14, when 1000 cars were received in the Lake Superior terminals.

Up to October 14, 1921, there had been 21,260 cars delivered, as compared *with 13,920* cars in the corresponding period last year, an increase of 7340, or more than 52 per cent.

It is stated that the car supply is more satisfactory to western shippers than in any previous year.

DOHERTY RETURNS.

OTTAWA, Oct. 18.—(By Canadian Press.)—Right Hon. C. J. Doherty, former minister of justice and one of the Canadian representatives at the League of Nations meeting at Geneva, is expected in the capital on Monday.

Mr. Doherty is expected to land at New York.

LOSS LESS THAN ESTIMATE.

QUEBEC, Oct. 19.—Instead of a loss of $100,000,000 as estimated shortly after the severe drought last summer, Quebec 1921 crops will not be more than $30,000,000 below the 1920 yield, according to semi-official statements today from the provincial bureau of statistics which estimate that the total value of he crop will be *about $300,000,000 as against* $330,000,000 last year.

A double apple blossom which was like a fine white rose was found on a Puget Royal, a graft on a Golden Sweet, 30 or 40 years old, by a farmer in Massachusetts. The apple tree belongs to the rose family botanically and is not as strange as it might appear at first sight.

BREACH OF PROMISE CASE HEARD HERE

Startling revelations of the depravity of the youth of this city was brought to light in the case of Olsen vs. Hinton, heard in the parish hall last night before his reverence, Norman Larmonth. The case was an action for damages for breach of promise.

As the court, filled with St. Saviour's young men and young people, was called to order by Sheriff Jack Fraser for the entrance of his reverence, there was a tense moment, broken only by a discreet cough from Registrar Nelson Ball.

Miss B. Olsen, the principal witness, related a heartrending story of a proposal of marriage tendered in a downtown cafe over doughnuts and coffee. Her statements were substantiated by Mesdames J. Astley and L. Cornish, *during the less noisy slumbers of his* reverence.

The alleged scandalous treatment of the weeping Miss Olsen was flatly denied by the Misess Clara Graham and Vera Parker, the first two witnesses for the defense. The third witness, Miss M. Bloomer, caused a sensation *when she alleged she was the defendant's wife.*

A plea of insanity was entered by Miss Jean Hunter and Percy Bloomer, counsel for the defendant, and was given great weight by the entire concurrence of E. T. Applewhaite, counsel for the plaintiff.

Imputations by *the counsel for the* defense that his reverence was influenced by the youth and beauty of the plaintiff and something far, far more potent, resulted in the court being cleared to make way for refreshments of a less intoxicating variety.

GERMANS PERFECT NEW MACHINE GUN

Spreads 2000 Rounds a Minute in Complete Circle; Triple Barrelled.

LONDON, Oct. 18.—The Munich correspondent of the London Times is informed by an unnamed expert that the Germans have perfected a triple-barrelled machine gun, electrically operated, weighing some 22 *pounds and capable of spreading* 2000 rounds per minute in a complete circle. The three barrels could be operated by a gunner on land a half mile distance.

The correspondent asserts he has heard the conviction expressed by more than one authority that the Oppau explosion would not have occurred had not experimental work connected with the manufacture of engines of war in some shape or form been indulged in there.

SAN ANTONIO, Texas, Oct. 18.—Orders for a canvass of all military commands in the Eighth army corps are, comprising five states, for soldiers experienced in the operation of railroad *trains and the maintenance of ways,* have been issued at area headquarters.

Dyspepsia is Man's Nemesis

Stuarts Dyspepsia Tablets Have Turned Many a Grouch Into a Regular Good Fellow Again —Try Them.

Indigestion makes people feel homeless, *despairing, despondent and blue* all over. It is only temporary, 'tis

You Just Know You're All Right After a Stuart's Dyspepsia Tablet

true, but while it lasts it's awful. Wise people keep a box of Stuart's Dyspepsia Tablets handy to prevent these attacks or relieve them when they come. And such people eat what they like—pie, cheese, sausage, griddle cakes, pork and beans and other *such supposedly indigestibles—without* suffering from the acid, sour, belching, gassy stomach due to dyspepsia. These tablets give the alkaline effect to thus sweeten the stomach and make it comfortable. Try them if you are subject to indigestion. You will find them on sale at all drug stores at 60 cents a box.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

Rub pain from back with small trial bottle of old St. Jacobs Oil.

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time *you count fifty, the soreness and* lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, bachache or rheumatism so promptly. It never disappoints!

ARMY TUBERCULAR PATIENTS CONVENE

Dominion Wide Organization to Break Down Aversion to Association.

WINNIPEG, Oct. 18.—"The tubercular men in this country, who know how to conduct themselves, are an educational force, not a menace," Major G. *W. Andrews, M. P., told delegates at*tending the first annual convention of tubercular military patients here today. A Dominion-wide organization is to be formed and one of the aims of the association will be to remove from the public mind the general aversion to associating with tubercular cases.

H. Howie of Fort Qu'appelle, Sask., is acting as president of the convention, and C. H. Holbeach of Calgary as secretary. The sessions will probably be concluded Wednesday, when permanent officers will be elected.

SLUMP IN MARK INJURES SWISS

Cheap German Watches Paralyze Swiss Industry; Close Frontier Trade.

BERLIN, Oct. 18.—The accelerated slump in the price of German marks *has caused a run on stores in many* parts of Germany by foreign buyers who, despite the enhanced price of most manufactured articles, are still able to purchase advantageously.

The Swiss frontier, according to the Vorwaerts today, has been closed for across-the-border trading in textiles, as *Swiss buyers* have completely stripped the frontier towns around Baden of articles of apparel. It is also reported that the Swiss watch industry is almost paralyzed on account of the cheapness of German watches in consequence of the slump in German marks.

CRERAR DEFINES REAL BIG ISSUES

Claims Industries Might Develop Under Competition Impulse Without Tariff.

SIMCOE, Ont., Oct. 18.—Hon. T. A. Crerar carried the campaign into Norfolk, a federal constituency which since its creation in 1904 twice has sent a Liberal and twice a Conservative. Speaking here he took occasion to state the same argument as at Brampton. On the economic issue *he again insisted that the Progres*sives had no intention of sweeping away the tariff overnight, although the ultimate goal was the elimination of the protective tariff. He cited figures how, in his view, Canadian industries, instead of stagnating for lack of protection, might develop *under the impulse of competition.*

He instanced cream separators. For over 20 years, he said, the manufacturer of the cream separators had been protected. Yet a thriving establishment had been established at Renfrew which marketed in every country in the world.

Mr Crerar again challenged the government to give the source of its campaign funds. He complained that efforts were being made by government speakers to distract attention and obscure the real issue of the campaign by charges that Progressives represented a class movement. *In his opinion the real big issues were* economy in public administration; revision of the methods of taxation; the railway problem and that of Canada's declining trade.

Labor Candidate Supports.

Generally Mr. Crerar followed the lines of his opening speech at Bran*don a couple of weeks ago, and of* his manifesto. The meeting had, however, two features of particular interest. It marked the first occasion on which a Labor candidate has, since the opening of the campaign, stood side by side with the Progressive leader and supported his *program.* It gave evidence that the signed "recall" which occasioned so keen a debate in the house of commons last session, still marks the local arrangements of some Progressive candidates.

At the Brampton meeting, Bert Keyler, Progressive candidate in Peel county, was emphatic that he had signed no recall and did not believe in the principle of leaving a signed resignation in the *hands of a com*mittee at home.

Today at Simcoe, Mrs. Hammond, woman director of the local U. F. O., declared "We have the recall on the Progressive candidate in Norfolk, J. A. Wallace. We can bring him back if he does not do right."

J. J. Morrison, secretary of the U. F. O., favored the recall resignation on the ground that it safeguarded both the electors and the candidate.

It was A. E. Hookway, announcing himself as a Labor candidate in West Elgin, who supported the Pro*gressive movement from the view*point of labor.

"I come from the ranks of labor," he said, "and I have brought the protest of West Elgin against the mismanagement of the present government. When these two great political forces, the Farmers and La*bor, stand together, no power can* sweep them away."

Tomorrow night Mr. Crerar speaks in Woodstock, North Oxford, a county which, since confederation, has constantly returned either a Labor member or, until more recently, a Liberal Unionist.

WASHINGTON, Oct. 18.—The senate tonight ratified the treaty of peace *with Germany with the reservations* reported by the foreign relations committee.

WAS CRERAR ONLY ANGEL IN POLITICS?

(Continued From Page One.)

the grain trade, amounting to hundreds of thousands, had, the premier, said, been used by the Progressives for political propaganda. The pre*mier defended the government's rail*way policy and emphasized his absolute adherence to the policy of protection.

"In this Dominion, protection is the cornerstone of our industrial life," he declared.

Supporters Address.

Before Mr. Meighen spoke brief addresses were delivered by A. C. Cassellman, National Liberal and Conservative candidate in Greenville riding; James Sanderson, the runner-up at the convention which was held immediately before the meeting, and G. Howard Ferguson, Conservative leader *in the Ontario legislature.*

Mr. Ferguson contended that the tariff policy of Mr. King would place this country under the domination of the United States. Hon. T. A. Crerar, he declared, stood for class domination, and does not attempt to deny it.

Good Right to Address Farmers

Mr. Meighen said that he, perhaps, showed great boldness in appearing on a public platform after Mr. Crear had declared so openly that the government was dishonest and in the pay of big interests. He felt, however, that his right to address a meeting of farmers was just as good as that of Mr. Crerar; the latter, he said, having left his father's farm somewhat earlier in life than he (Mr. Meighen) had himself, to become the head of a great commercial organization.

*The language of Mr. Crerar's mani*festo, he said, showed lack of courage, because it voiced vague charges without pointing out a single improper act on the part of the government.

"I ask Mr. Crerar to get up and say where and when we did the bidding of the big interests," declared the premier emphatically.

"Mr. Crerar was himself a member of this government for almost half its term. Was he doing the bidding of big business then? Does he think that we ceased to be virtuous just as soon as he left the government? Does he think that he was the only angel in the Sodom of politics?

Arouses Passions by Innuendo.

"Mr. Crerar seeks to arouse passions and prejudices of men who work hard and he seeks to do so by cowardly in*nuendo.* Let him come out in the open and name an act in which the government has been dishonest or catered to the big interests, and I will guarantee to meet his charge."

Mr. Meighen insisted that Mr. Crerar was at heart a Liberal.

"By everything that animates Mr. *Crerar, he is Liberal to the bone,"* he declared.

"I say he used his party in the house of commons and he will use it out of the house if he is allowed, simply to further the interests of the old Liberal party with whom his heart is. That is why I described his party in the house as a dilapidated *annex of the Liberal* party."

Mr. Meighen followed his usual line of argument in discussing the tariff. He condemned the policies of the Liberals and Progressives as being calculated to strangle Canadian industries, and said that if the whole world was free trade he would *still favor a* protective policy for Canada. The Fordney Tariff bill had already shut out Canadian goods to the value of $168,000,000 in a single year. When *other countries* were building up their tariff Canada would be ill-advised to lower hers.

Pass Bill Extending Emergency Tariff Law to First of February

WASHINGTON, Oct. 31—A bill to extend the life of the emergency tariff law to February 1 was passed late to*day by the house,* 197 to 74. The measure now goes to the senate.

If the extension is not authorized the emergency law will expire November 27.

M. A. Macdonald Resigns Provincial Parliament; Candidate for Dominion

VANCOUVER, Oct. 18.—M. A. MacDonald, one of the members for Vancouver city in the legislature and Liberal candidate for the federal riding of Burrard, *resigned* today his seat in the provincial parliament.

Rule of the Road Changes in Vancouver Island and Lower Mainland January 1

VANCOUVER, Oct. 18.—Change in the rule of road from left to right on the lower mainland and on Vancouver Island will take place at 6 a. m. on January 1, 1922.

Official word to this effect was brought to a meeting of the Vancouver *Auto club rule of the road commission* by William Rae, government inspector of equipment, who has been in Victoria conferring with provincial authorities.

his addresses at the Canadian Club *here today.*

"Before the war there were in the joint stock banks alone sixty one millions of money deposits, and during the war the farmers, who *prospered,* added one million and three millions to this," he said.

"It has been told us that if we in Ulster do not throw in our fortunes with Ireland we had better prepare to leave the country. That is what has been issued as a mandate to us."

"I say *in all sincerity,"* concluded Mr. Trimble, "If that should be final we should prepare to sell our lives as our fathers did to preserve liberty within the laws of God, that the Union Jack shall be with us, as with you, the symbol of national nobility and glorious independence."

Methodist Missionaries Pass Million Mark for Collections in One Year

TORONTO, Oct. 18.—For the first time in its history, the Methodist church in Canada has received in one year from its missions over one million dollars for the carrying on of its missionary work in Canada and *in the Orient, according to figures* presented at today's session of missions.

UNIVERSAL TELEPHONE FIRE STATION NUMBER

TORONTO, Oct. 18.—During the past year Ontario suffered commercially from fire losses to the extent of $3,000,000 a month, fully one-half of which might have been prevented by ade*quate precautions, it was reported to* the Ontario Fire Prevention league, which held its annual meeting here today.

As the situation was outlined to the *convention by Arthur Hewitt,* while there was an increase in the number of fires in the Dominion there was a falling off of 440 in Ontario over the previous year, and he felt that much of this could be traced to the activities of the Ontario Fire Prevention league.

Among the resolutions adopted was *one recommending the adoption of a* universal telephone number for fire stations all over Canada. Others urged the appointment of a commission to investigate grain transportation and the appointment of a commission of fire chiefs to investigate the various kinds of roofing with a view to the *general adoption of one most imper*vious to fire.

GOVERNMENT CAUCUS DISCUSSES FINANCE

VICTORIA, Oct. 16.—New taxation plans in British Columbia will be produced by the minister of finance, Hon. John Hart, at the present session, it is said. The financial problem was discussed at a caucus of government members today and it is expected that 1 per cent additional will be levied on personal property.

FORMER EDITOR OF VANCOUVER SUN DIES

KAMLOOPS, Oct. 18.—Captain E. G. Sheppard, 31, formerly managing editor of the Vancouver Sun, son of Edmund E. Sheppard, founder and for many years editor of the Toronto Saturday Night, died here today from tuberculosis, which he contracted while *serving overseas with the university* contingent. He came to Kamloops a week ago from Gravenhurst, where he had been receiving treatment.

YMIR PROSPECTOR PAYS THE PRICE

Napoleon Des Harnais Succumbs to Injuries Following Ancient Lure.

Napoleon Des Harnais, 65 years old, a resident of Ymir for 26 years, died in Ymir hospital yesterday from injuries on his last prospecting trip. Mr. Des Harnais was the owner of a number of mineral claims in that district. While he was eating his lunch in the vicinity of a newly discovered venin on one of his claims, on Saturday, a big boulder rolled down the mountain side, hit his leg, and smashed it at the thigh.

Mr. Des Harnais managed to crawl about three quarters of a mile from the spot, but then fell down a bank, helpless. His cries for help brought responses from W. T. McDowell, whose answering shouts could not be heard by Mr. Des Harnais however, he being deaf.

J. Poland and A. Bremner, who were higher up the mountain heard McDowell's shouting, and thinking that he was hurt, descended, and located Des Harnais. He was taken to Ymir hospital in a wagon, where Dr. D. Hartin, of Nelson, attended him. Later the injured man asked for Rev. Father McKenzie, who administered the last sacrement. His death was the result of exposure and shock, rather than the broken leg, which was progressing satisfactorily.

FOUR CASES ARE ON COUNTY COURT SLATE

Four cases are on the county court slate for a hearing before His Honor Judge J. A. Forin today. One case, the Foundry Products Company Ltd., vs Walter B. Jackson, an action for $437 on a promisory note was heard yesterday, and occupied the whole day. Judgment was reserved.

Today's cases are:

James Foulds, of Nelson, vs Carl Mohr, of Willow Point. E. G. Matthews represents the plaintiff. F. C. Moffatt represents the defendant.

H. W. Bischell vs R. J. Dodds and the Slocan Pole Merchants association, of Silverton. E. G. Matthews represents the plaintiff. James O'Shea, of O'Shea & Farris represents the defendants.

Wilson vs. W. Britton, of Harrop. Hamilton & Wragge represent the plaintiff. E. G. Matthew represents the defendant.

Strauss vs. Stephen. Hamilton & Wragge represents the plaintiff. F. C. Moffatt represents the defendant.

DANCE IN ARMORY ENTICES TONIGHT

Ladies' Auxiliary of Veterans Arranges Bright and Cheery Hop.

Tonight the Ladies Auxiliary of the G. W. V. A., are giving a dance in the armory which promises to be a particularly bright and cheery function. The decoration scheme is principally carried out in flags, but streamers and autumn flowers also help to beautify.

With a really good floor, some original lighting effects and Marimba's orchestra reinforced with extra musicians the dance is one that should make a strong appeal to all trippers of the light fantastic.

Entrancing dance music brand new to Nelson will be a special feature and a buffet supper will be served.

Altogether the dance is one, too good to be missed, either by veterans, for whose general benefit it is primarily staged, or the younger set of the dancing folk who have tripped into the arena since the clash of arms ceased three years ago.

MEDERIC MARTIN MONTREAL'S MAYOR

MONTREAL, Oct. 18.—Hon. Mederic Martin, member of the legislative council in the province of Quebec, was elected mayor of Montreal today for the fourth consecutive term by a majority of about 30,000 over his opponent, Luc Rocheforte. Hon. Mr. Martin has been chief magistrate of this city since 1914 and will remain in office until April, 1924, at least.

Mayor Martin stated prior to the election that he would continue to present himself at the polls for the mayoralty until elected by acclamation.

BASKETBALL LEAGUE FORMED

Five Junior Teams Will Play Series for Pennant; First Match Tonight.

A five team Junior Basketball league has sprung into existence at the Y. M. C. A. almost overnight, the teams have been line up with a view to equal strength, captains have been appointed, and last night a tentative schedule of games was drawn up by the executive committee, who arranged that the first match would be played at the Y. M. C. A. Gymnasium tonight.

The following are the five teams, the captain being mentiond first in each case;

Foxes—Ted Black, J. Huddleston, A. Bradshaw, B. Shaw, R. Berry and B. Hall.

Seals—J. Kinnahan, T. Price, V. Eperson, H. Gillette, J. Horstead and G. Houston.

Anzacs—G. Burns, H. Maundrell, A. Jeffs, A. Ringrose, W. Luncia and J. France.

Beavers—B. McLean, J. McLean, E. Whitfield, H. Dunham, B. Bunyan, and G. Wallach.

Rovers—S. Gustafson, V. Parker, C. Hall, G. Campion, E. Carmell and B. Pool.

The series will be played for a three foot basketball pennant.

Some of the main rules governing the fixtures are:—

A win will count two points. A draw will count one point. Any team late for a fixture will lose the game by default, and their opponents will check two points for the match.

Each team has been allotted six players, although only five can be used at a time. However, to give every player a chance and to assure him of a number games, it has been decided that the spare man must be allowed to play for one period. Any team neglecting this rule will be docked a field goat as penalty.

The first gun in the battle for the pennant will be fired by the Foxes and the Seals tonight.

DELEGATES ARRIVE FOR METHODIST MEET

Four delegates to the West Kootenay District meeting in connection with the Methodist church which opens at Trinity church at 2 o'clock this afternoon, arrived in the city last night from Grand Forks. They were the Rev. W. P. Bunt, Mrs. J. Smith, Miss Dinsmore, and Miss A. Tyrah. The following delegates are expected to arrive this morning: Rev. and Mrs. W. Willan, and Mrs. A. Wagstaff, of Trail; Rev. and Mrs. R. Hughes, Mrs. R. Dawson, Mrs. S. Taylorson, and Mrs. T. Brean, of Kaslo, Rev. and Mrs. W. Scott, of Rossland; and Rev. W. D. Scott, of New Denver.

The Women's Missionary society of the West Kootenay district, in connection with the church, will also meet in convention this afternoon.

The National Crisis

"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion."

Arthur Meighen

THE Election to be held on December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and, indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's vast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts—unemployment is acute—and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of confidence.

Taxes are heavy because of the country's efforts in the Great War, but have become burdensome on account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Crerar and his Free Trade Policy.

This is no time for King and his wobbling "charted" policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group or class but of all the people.

It is the time to support Arthur Meighen and his Candidates.

Meighen will lead us through

A1

The National Liberal and Conservative Party
Publicity Committee.

Member Audit Bureau of Circulation

WEDNESDAY, OCT. 19, 1921.

The Wheat Outlook.

There is no danger of a world shortage of wheat during the coming year, and there is at present no indication of an undue surplus. World wheat production and requirements are approximately in balance.

Estimated 1921 production of wheat in twenty countries which before the war produced 68 per cent of the known wheat crop of the world, aggregates 2,490,609,000 bushels, as compared with 2,384,143,000 bushels produced last year.

The 1921 crop of the United States is estimated at 754,000,000 bushels and of Canada at 294,388,000 bushels. Allowing 600,000,000 bushels in the United States and 90,000,000 bushels in Canada for consumption and seeding requirements, and assuming a normal carryover at the beginning and end of the wheat year, there would be available for export from the two countries before July 1, 1922, a little over 350,000,000 bushels.

All hope of surplus wheat supplies from Russia has been abandoned and famine relief in that country may make an appreciable drain on international supplies. Crops in northern Africa are fairly good, following a very poor harvest last year, but a normal exportable surplus is not expected. Exports from India are reported to have been prohibited entirely, because of the poor crop and high prices, and no improvement can be expected before the 1922 harvest. Argentina and Australia still have a fairly large share of their last crops. The amount available for export from Argentina on July 1 is estimated at over 40,000,000 bushels, and from Australia at about 50,000,000 bushels, allowing for a normal carryover in each country.

Current stocks in Europe are not large, but are distinctly better than last year and are sufficient to meet requirements until the new harvest is available. Normally western Europe imports an average of 400,000,000 bushels of wheat annually. Of this amount Russia formerly supplied 150,000,000 bushels. In the last crop year, ending July 1, 1921, Canada and the United States together furnished net exports of about 475,000,000 bushels, of which the greater part was sent to Europe.

The estimated exportable surplus of 350,000,000 bushels from the United States and Canada, together with the 90,000,000 bushel carryover in Argentina and Australia, therefore, make a total of 440,000,000 bushels available to meet the international demand. This apparently balances the probable European requirements of approximately 400,000,000 bushels, with a reasonable allowance for Russian requirements.

Fruitgrowing, Lumber i n g, Mining "Privileged Interests."

The burden of Hon. Mackenzie King's speeches on the tariff is that he does not favor free trade, but that he proposes that the tariff should be primarily for revenue and not for the protection of "privileged interests."

It is worth while to examine just what these so-called "privileged interests" are.

It will be found that these "privileged interests" are virtually every industry and its employees in the Dominion.

Fruitgrowers and producers of vegetables and other farm products are protected. They are included in what Mr. King called "privileged interests."

The lumber industry and the manufacturing industry which uses lumber as its chief raw material are protected. They are a "privileged interest," according to Mr. King.

There is a duty, a substantial duty on lead. Consequently, according to Mr. King, the mining industry of British Columbia is a "privileged interest."

Does not examination rather reduce Mr. King's proposal to an absurdity, excepting, of course, to those who believe in wiping out Canada's protective policy. The Liberal leader's platform cannot appeal to anyone else.

The Lighter Side

Cold Storage

Not the Answer She Expected.

The teacher was giving a lesson in mental arithmetic and was asking the class all sorts of questions. Johnnie was bored and inattentive. He never did like arithmetic anyway.

"Now, Johnny," said the teacher, sternly, "if there were seven flies on the table, and I killed two, how many would there be left?"

"Only the two you had killed," said Johnnie, quickly.

And, after all, he was quite right.

It Exploded.

Teacher—How was Alexander I of Russia killed?

Student (vaguely)—By a bomb.

Teacher—Be a little more explicit, please.

Student (in desperation)—Well, you see—er—it exploded.

Not Time to Change.

Little Mary came into the house bedraggled and weeping.

"My goodness," cried her mother, "what a sight you are. How did it happen?"

"I am s-sorry, mamma, but I fell into a mudpuddle."

"What! With your best dress on?"

"Y-y-yes, I didn't have time to change it."

"Pa, are you going to have any girlvanished iron on our new house?"

"Any w-h-a-t?"

"Any girlvanised iron?"

"Galvanized, you mean, don't you?"

"Yes, pa; but teacher says we must not say gal—it's girl."

Efficient Housekeeping

BY Laura A. Kirkman

D PICKLES — **MORE GOO**

The wise housekeeper stocks her preserve closet shelves with a goodly number of pickle jars. For, she realizes that she can serve her family more cold meats and more meat leftovers if she has a delicious pickle on the table to "help out" the meat course. The following are recommended.

Cabbage Relish: Soak separately, in brine, overnight, 1 quart chopped cabbage and 1 quart chopped green tomatoes. The brine should be be made by using ¼ cup of salt for every quart of cold water. In the morning drain the vegetables and add to them the following: 1 pint chopped white onion, 1 cup minced red pepper, 1 cup granulated sugar, 4 tablespoons white mustard seed, 1 tablespoon celery seed, 2 tablespoons salt, 1 quart vinegar, and 1 cup of minced green pepper. Mix well, *let stand 2 hours, then boil up* and let simmer till the tomatoes look yellowish and clear. Turn into hot jars which have been "sterilized" (that is, boiled 10 minutes in clear water) and seal airtight at once.

Tomtato-Pepper Pickle: Put the following vegetables through the meat grinder: 1½ quarts of green tomatoes, 1½ *quarts of red tomatoes*, 3 *red* peppers without seeds and 3 large onions. Mix well, sprinkle with ½ cup of salt, let stand overnight and in the morning drain thoroughly. Now put the mixture into the preserving kettle, add 1 quart of vinegar, 1 teaspoon ground cinnamon, ½ teaspoon ground cloves and 2 cups of granulated sugar and let cook until the tomato is tender and transparent. Seal airtight at once in hot, sterilized jars.

Spiced Pickled Grapes: Slip the pulps from the skins of 7 pounds of *grapes. Put the pulp in a galvanized* saucepan over the fire and let simmer till very soft (about 15 minutes. A very little water should be added at the start). Then press the stewed grapes through a sieve fine enough to keep back the seeds and add this sifted pulp to the skins. Also add 4 pounds of granulated sugar, 1 pint of vinegar, 1 tablespoon ground nutmeg, 1 table*spoon ground cinnamon and* ½ teaspoon cloves. Let this simmer for 2 hours, then turn into hot, sterilized jars and seal at once. (If the water boils out a very little more may be added, but grapes are watery and do not need much).

Old-Time Chutney: Stone and chop 4 ounces of raisins; put 2 large onions, and 1 garlic through the meat grinder. Crush 2 ounces of mustard seed and put this seed with the garlic, onions and raisins. Now pound all these ingredients smooth, adding to them 2 teaspoons of salt and 1-8 *teaspoons of* cayenne pepper. Pare, core and dice tart apples, then weigh them. There should be 1 pound of them diced. Boil this prepared apple in the preserving kettle with 2 cups of vinegar and ¼ pound of sugar until the apple-pieces are tender and transparent. Press it through a sieve, return it to *the kettle, add the pounded mixture,* let come to boiling point again, then seal in hot, sterilized jars at once.

Tomorrow—A Pretty Muslin Bed Set.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. —The Editor.

Daily Recipe

(Paste this in your cook book.)

PEPPER RELISH.

Ingredients: Twelve green bell peppers, twelve red bell peppers, three onions, three tablespoons salt, two cups sugar, one quart vinegar. Wipe peppers, cut in halves lengthwise and remove seeds. Pare onions, add to peppers and put through meat grinder. Put in kettle, cover with boiling water and let stand ten minutes, drain, again cover with boiling water, bring to the boiling point and let stand ten minutes. Drain as dry as possible, return to kettle, add remaining ingredients, bring to the boiling point and let sim*mer fifteen minutes. Bottle and seal.*

Ten Years Ago Today

From The Daily News, Oct. 19, 1911.

C. A. Van Hemert, who is connected with the Western Canada Investment *company, returned yesterday from* Lethbridge, where he closed a deal with Lethbridge capital for 310 acres at Crawford Bay. The property is to be subdivided and will be sold through the Western Canada Investment company. Mr. Van Hemert is registered at the Hume.

Dr. H. L. Keller yesterday received intelligence that his brother, Captain R. H. Keller, has received a bullet wound in the stomach during an encounter that took place at Itala, South Africa, on October 4th. Captain Keller was a short time since awarded the D. S. O. He belongs to the First Foresters of the First Derbyshires and has been in other campaigns, including the Afridis.

LUNGFISH.

Lungfish, the link between reptiles and fishes, the nearest of kin to the stock from which fishes and reptiles both spring, are found in South America, Africa and Australia. Their relations were scattered over the whole world in fossil times. The lungfish is described by ichtpyologists as a most wonderful fish. It cries like voice is not the strangest thing about this creature, in that it has lungs and puts its head out of the water, opens its mouth and breathes air into them like the land animals. The lungfish have preserved themselves because they can live through droughts. Alligators are almost the only enemies strong enough to master them. In a natural state the African lungfish is about 18 inches long, but when kept in aquariums and fed the year round, instead of lying dormant for lack of water they grow to be two feet and a half long and weigh six pounds or more. Their rich, salmon flesh is highly prized by Indians, who go after them with spears.

Styles

BY LENORE

PARIS.

Of all the lovely sights of Paris *none is more enchanting* than its children, as they romp about in the gardens of the Champs-Elysees, where they bowl their hoops and spin their Diabolo spools, and ride on the horses of tiny merry-go-rounds turned by hand, And their little frocks are miracles of chic. That is, what there is of them. They are so short that they end almost be-

fore they begin. But they make the kiddies adorable.

Many of the shops here show knit wool frocks, either in tiny chemise models or made with suspenders, like the design in the sketch, featured in white with gold, blue or scarlet border. The skirt simulates pleats. The older little girl's frock is of marine blue velveteen, with circular tiers, self-*material buttons and cream batiste collar.*

PATTERN NO. 287

Patterns for the above models (No. 287; styles 1 and 2) can be obtained for ages 4, 6, 8, 10 or 12, by sending to The Daily News, aged desired, style number, name, address, and 50 cents (25 cents apiece) in postage stamps. Be sure to keep this newspaper clipping of the sketches and description of the frocks to use for working models when the patterns (or pattern) reach you—which will be within two weeks' time.—The Editor.

HOW FLYING FISH FLY.

The question whether flying fish really fly, or whether they merely jump, has been one of the classics of ichthyology. Their progress certainly looks like flying, for while they are in the air they flutter their fins much as some insects do their wings.

Of late, however, the consensus of opinion has been that these fin move*ments are totally inadequate to sustain* the fish in the air, and that his "flight" is really a long, powerful leap. Those who have felt that this leap is somewhat too long to be true will be interested in a letter to Nature (London) by H. H. Clayton, the eminent meteorologist, who believes that the fish gets into the air by leaping and then assists his forward progress by fin*movement.*

His explanation of how this comes about is ingenious. If Mr. Clayton is right the fish both jumps and flies, and both sides to the famous controversy are right, or partly so. He writes in his letter:

"In 1905 I was in charge of the Tiesserene de Bort and Rotch expedition for exploring the atmosphere with balloons and kites over the tropical part of the Atlantic. The Otaria, on which we traveled, was a small boat not much more than 100 feet in length, with the decks near the water, so that I had excellent opportunity of studying the movements of flying fish, which we *saw in great numbers.*

"As these fish left the water the powerful lateral strokes of the tail which lifted them into the air could be plainly seen. As they rose into the air the pectoral fins vibrated with great rapidity, and my earlier experiments with a rod and flexible web led me to believe that exactly this same principle was used by the flying fish to drive itself forward. The forward part of the pectoral fin is rigid and the rear flexible, so that its rapid vibration gives a strong propelling force.

When the fish had gained velocity and the rising impulse given by the tail had culminated, the fins ceased to vibrate and were used as airplanes, on which it glided forward, slowly sinking until its tail touched the water, when another lateral stroke lifted it into the air and the process was repeated. In this way the fish could remain in the *air for long flights when necessary.* The only way in which the motion differs from the flight of birds is that the vibration of the fins probably gives no lifting force, but only a forward driving force, and the fish needs to depend on the tail strokes for the lift. Had the fish developed a concave undersurface of the fin it could probably have obtained both lifting and propelling force from the fins."

"Thief proof boxes" are the latest packages for shipping apples. They are firmly bound with wire.

The Plural of Child?

What is the plural of man, Joh ny?" asked the teacher of a small p pil. "Men," answered Johnny. "Co rect," said the teacher. "And wh is the plural of child?" "Twins,' w was the logical, but unexpected rep

Printed Butter Wrappers

Either With Your Name or with the words

Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words

"DAIRY BUTTER"

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled, even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

Prices

PRINTED WITH NAME OF FARMER OR BRAND NAME

If you have your own name or brand on your wrappers you gain valuable advertising for your butter. It causes people to ask for the same brand again.

Removes Hairy Growths Without Pain or Bother

(Modes of Today)

It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment be careful to get real delatone. Mix fresh as wanted.

Healing Cream Stops Catarrh

Clogged Air Passages Open at Once—Nose and Throat Clear

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snouffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.

STOP TAKING MEDICINE.

GET YOUR TEETH ATTENDED TO

How can you expect to enjoy good health when every particle of food is contaminated as you *swallow it?* It may not be a pleasant thing to contemplate, but it is, nevertheless, a fact that bad teeth practically poison each mouthful of food you swallow, and unless your system is strong enough to absorb and throw off the poison ill health and disease is the result. You wouldn't eat decayed food, would you? But yet you do not hesitate to chew your food with diseased teeth. You are particular about your person, are you not? You keep your body clean and well clad; but so long as your teeth don't ache and pain you you let them go. Of course, you brush your teeth—not as regularly, perhaps, or just in the way you should.

But the use of the tooth brush and all the dentifrice in the world will not restore your teeth once they have commenced to decay. Don't be afraid of that necessary dental work. Remember my well-known *promise*—"If it Hurts, Don't Pay Me."

Painless extraction by my Novathesia method.

URGE SPEED ON RECLAMATION

Expect All Data in Fortnight; Appoint Export Trade Committee.

CRESTON, Oct. 17.—There was a full turnout of members at the October meeting of the Creston Board of Trade on Thursday night, with President Bevan in he chair. Owing to the board's 1921 appropriation for publicity being already overdrawn no action was taken in connection with joining up with the newly-formed tourist association which was asking for $200 from Creston as this town's share of the cost of issuing a folder to attract tourist traffic via the Crow's Nest route.

As the newly-revised assessment roll is not yet available Messrs. Garland, Speers and Rodgers were unable to make a final report on village incorporation as without the roll they are unable to define the proposed village limits that would produce sufficient taxation to make municipal incorporation workable.

President Bevan announced the appointment of a committee on expert trade that includes every point from Sirdar to Kitchener, the idea being to this year submit a statement at the end of the year showing the shipments of fruit, vegetables and timber products from all points in the Valley.

In the past no such information has been gathered from Sirdar and Kitchener—the latter point being a particular heavy shipper of lumber, ties, posts *and poles.*

For the Kootenay Flats Reclamation committee Chairman Constable reported that Engineer Biker had completed the finishing-up investigational work on which his staff of ten men had been working for the past six weeks.

Mr. Constable estimated that not more than two weeks would be needed to put the data gathered in shape to present to the joint conference of B. C. and Idaho state reclamation heads, and the board has written Hon. T. D. Pattullo, minister of lands, urging the utmost possible speed in getting the information in shape so that the proposed conference, which will be held at Creston, may take place while the weather is suitable for a careful look over the flats area on this side of the line by Messrs. Cleveland and Swensden, the B. C. and Idaho reclamation heads, who will be here.

Apples Nearly Finished; Potato Harvest Begins

CRESTON, Oct. 16.—Apple picking is pretty well completed at all points in the Valley. Special attention has been paid to this work this year so as to complete the harvest ahead of the cold and disagreable weather that invariably sets in for a couple of weeks about the middle of October. The two packing houses at Erickson and one at Canyon City are employing full staffs at the had style of packing, while at Creston the grader in the Union warehouse is running nights and Sundays to cope with the much-bigger-than expected crop—and there will hardly be any letup until the end of the month.

Potato harvest is under way at present, and from all acounts the yield of tubers is the lightest on record almost. Too frequent planting of the same variety of seed and a rather dry July and August are held accountable for the poor showing made by spuds.

The moth known as Alabama argillacea, a serious pest of the cotton plant, is one of the most prolific of insects. In the gulf states it produces at least seven generations annually, and at the end of the fourth generation the progeny of one moth, if they all survived, would amount to more than 300,000,000 individuals.

"CASCARETS" TONIGHT FOR LIVER, BOWELS

You're bilious! You are headachy, constipated, your eyes burn, skin is *yellow; your stomach is sour, gassy,* upset. No wonder you feel miserable. You need a thorough physic with "Cascarets" tonight to cleanse the stomach of sour, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated poison in the bowels. Get a 10-cent box now and let *"Cascarets" straighten you out* by morning.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

35 cents buys a bottle of "Danderine" at any drug store. After one application you can not find a particle of dandruff or falling hair. Besides, every hair shows new life, vigor, brightness, more color and abundance.

WOMENS INSTITUTE HAS BUSY SESSION

Discuss Uncontrolled Immigration; Oriental Ownership; Health Nurse.

CRESTON, 17.—President Mrs. G. Cartwright presided at the October meeting of Creston Valley Women's Institute on Friday afternoon, which attracted a representative turnout of the membership. The feature of the meeting was a paper by Mrs. H. Lyne, provincial advisory board member, who *briefly* elucidated the outstanding features of the address of Mrs. Pankhurst on Immigration, delivered at the Kootenay-Boundary Women's Institutes' conference at Crawford Bay last month.

That the ladies are not mindful of the serious aspects of uncontrolled immigration is shown in the passing of a strong resolution protesting against the sale and lease of properties to Orientials. Mesdames R. B. Staples and Bennett, who are in charge of the Institute cook book, reported excellent progress in its compilation and also reported substantial support by the business men in taking space on the advertising pages. It is hoped to have the book ready for sale before Christmas. The Institute has appropriated Armistice Day, Nov. 11, on which date they will give a whist party and dance in the Parish Hall.

The Valley's Public health nurse who was brought here largely due to the efforts of the institute, has been forced to give up her work due to ill *health, and as some trouble* has been experienced lately by the health committee in financing the nurse, it was decided to call a public meeting of all interested at a later date this month at which the whole situation will be discussed with the citizens generally, and a final decision come to as to whether to bring in another nurse or not.

At the annual school meetings in July an effort was made to have each of the five school sections make a pro rata levy to pay the nurse's salary but none of the districts looked favorable on the new idea of financing public health work.

At the close of the session Mesdames Bennett and F. V. Staples were in charge of the serving of refreshments.

CRESTON NOTES

CRESTON, Oect. 17.—Father Kennedy, until two years ago in charge of Holy Cross parish, but now at Fernie, was renewing old acquaintances here the latter part of the week.

C. W. Allen, manager of the Imperial Bank, has just returned from a three weeks' holiday at Edmonton and Calgary, and Accountant Jones, who relieved him, has returned to Nelson.

Dr. Lee Hedger, dentist, of Golden, has arrived at Creston, and announces that he will locate here permanently. At present he is at the Creston Hotel, pending securing a permanent location. He will move his family here as soon *as a vacant house is available.*

Yardmaster Loasby, of Sirdar, was a visitor here on Saturday. He states that the C. P. R. is making excellent progress on the big fill at the trestle at Kootenay Landing, and that Sirdar is a hive of industry with the added population the three work train crews bring, and with yard operations being carried on at night.

An appreciation drop in the cost of living is noticed this week. Baker Norris has increased the weight of his bread loaves 20 per cent.

Miss Selma Anderson, who is attending business college at Nelson, was a week end visitor with her parents, Mr. and Mrs. A. Anderson, Victoria Avenue.

C. O. Rodgers was a business visitor at Cranbrook a couple of days the latter part of the week. He states that some of the big lumber companies in East Kootenay are preparing to log on a reduced scale this season. While there is no notable demand for lumber the trade shows some improvement, particularly on the United States market.

T. M. Edmondson has just completed the construction of a 600-foot ditch from one of the flats sloughs to his five-acre place along the K. V. It is the intention to install a pump and utilize the water to irrigate the Edmondson and Quist ranches in that locality.

Col. Lister, M. P. P. accompanied by Mrs. Lister, left on Friday for Victoria, for the annual session of the provincial legislature. Prior to his departure the colonel made a vis*it to the Kaslo end of the riding to* acquaint himself with the needs of that end of the constituency in the way of public works.

Road foreman John D. Moore, of Kaslo, was here yesterday and spent Saturday in the Kitchener section. Near that point two very important bits of new road are to be built on the trans-provincial highway in which the Dominion government pays 40 per cent of the cost and it is expected work on these may commence next month. Word has also been received from Victoria that a further grant has been made for the hard surfacing of the roads in the Erickson section, and this work will continue until the middle of November, weather permitting.

YAHK NOTES.

YAHK, Oct. 17.—Miss Carr of Creston, is Mrs. and Miss White's guest.

Miss Todd, of Erickson, is Mrs. Percival's guest.

Mr. and Mr. C. V. Edwards, Mr. and Mrs. J. Harrison, Mr. and Mrs. Cecil Larson, Mr. and Mrs. H. White, Miss White, Miss Carr, Miss Ray Harrison, Messrs W. Bond J. Grant, F. Mitchell, W. Persival and Miss Todd attended, on Saturday, the dance held at Eastport, Idaho.

Miss Johnson from Moyie was, on Saturday, a visitor at Yahk.

While engaged in coupling cars on the Yahk, Idaho, Montana Logging road Lee Herrick had one of his *fingers very badly crushed on Friday.*

L. Perron, Fred Mitchell and A. Singleton were at Cranbrook last week.

YAHK CHILD DIES IN FIRE ACCIDENT

YAHK, Oct. 17.—The third fatal accident here within two weeks occurred on Saturday morning, when Mr. and Mrs. Simms Evjin's four year-old daughter Kelina Bernace lost her life. Mrs. Evjin left the children in the house alone for a few minutes, and upon hearing them crying discovered the little girl's clothing was on fire. With all possible haste Dr. Thompson arrived, but found it impossible to save the childs life, nothing could be done but relieve the suffering as death took place two hours later. Mr. Evjin with a party of friends was on a hunting trip forty miles from Bull River arrived home on Sunday morning. A large number of friends accompanied the parents to Cranbrook where interment took place Monday morning.

Have you ever heard of terrapins drinking a spring dry? Well, here's an instance. A Kentcky farmer noticed that a spring in the back part of his farm had stopped running, and sent his son to clean it out. The young man, *after removing some mud, began to dig* out live terrapins that had buried themselves in the mud. He counted and carried to the house 60 full-grown terrapins and one turtle. This obstruction being thus removed, the water came forth as usual and trickled down the stream.

CHINESE DROWNS IN MOYIE RIVER

YAHK, Oct. 17.—On Thursday afternoon Chan Gar a chinaman recently employed at the Yahk Mills was drowned in the Moyie river three miles east of Yahk. He and a companion spent the afternoon fishing. About 6 p. m. Chan Gar was on a raft, and it is *likely fell off, as the other man who* was about 100 yards from him on the river bank, saw his feet floating on the water and could not find him, came into Yahk to notify the constable. Search was made as early as possible next morning, when Constable W. H. Laird found the body. Lee John from Cranbrook arrived and took charge of funeral arrangements. The funeral, held at Cranbrook, was attended by a number of friends from here.

WANETA NOTES

WANETA, Oct. 18.—Mrs. A. E. Churches returned Sunday from a two weeks visit with friends in Trail.

Mrs. A. G. Long, of Trail, who has been visiting friends in the Valley, returned home on Saturday.

Miss Ruth Selby is home from Northport for a week, during the teachers institute convention which is being held at Colville.

Captain Floyer motored to Rossland on Saturday returning on Sunday with Mrs. Floyer where she has been visiting for some time.

Mr. and Mrs. J. McSin, of Trail, visited on Wednesday with Mr. and Mrs. A. M. Adie.

RIGIDLY ENFORCE BALLOT SECRECY

Dominion Election Act Provides Special Safeguards and Heavy Penalties.

OTTAWA, Oct. 19.—(By Canadian Press.)—The secrecy of the ballot has always been considered one of the safeguards of the franchise in Canada. Throughout constitutional history a fight has been waged to secure the secret ballot, and once that was gained *to guard it inviolate. No matter what* proceedings may arise from elections, no man or woman is required, or permitted, to divulge the name of the candidate for whom he or she voted in the election under review.

Provisions for guarding the electors' right to the secret ballot, contained in the Dominion Elections act, the law governing all federal election contests are of interest at the present time, inasmuch as there are many persons throughout Canada, both men and women, who will this year vote for their first time in a federal election.

Forbids Irregular Communication.

Clause 60 of the act requires every candidate, officer, clerk, agent or other person in attendance at a polling station or at the counting of the votes, to maintain and aid in maintaining the secrecy of the voting; and no candidate, officer, clerk, agent or other person shall:

(a) Before the poll is closed communicate to any person any information as to whether any person on the list of voters has or has not applied for a ballot paper or voted at that polling station; or

(b) *At the polling station interfere* with or attempt to interfere with a voter when marking his ballot paper, or otherwise attempt to obtain information as to the candidate for whom any voter is about to vote or has voted; or

(c) At the counting of the votes attempt to ascertain the number on the back of any ballot paper; or

(d) *at any time communicate (except* to a court or judge lawfully requiring him to do so) any information as to the nnmber on the back of the ballot paper given to any other voter at a polling station; or

(e) At any time or place, directly or indirectly, induce or endeavor to induce any voter to show his ballot after he has marked it, so as to make known *to any person the name of the candi*date for or against whom he has so marked his vote; or

(f) At any time communicate to any person any information obtained at a polling station as to the candidate for whom any voter at such polling station is about to vote or has voted; or

(g) At such counting attempt to obtain any information or communicate *any information* obtained at such counting as to the candidate for whom any vote is given in any particular ballot paper.

Contravention Punishable.

Clause 2 of the section states that "any person who contravenes or fails to observe any provision of this section is guilty of an illegal practice and of an offense against this act punishable on summary conviction as in this act provided."

It is also against the law for any voter, unless unable to read on incapacitated by blindness or other physical cause from voting in the manner prescribed in the act to show his ballot paper, wehn marked, to any person so as to allow the name of the candidate for whom he has voted to be known, "and any person who violates the provis.ons of this section shall be guilty of an illegal practice," the act states.

A person unable to vote without assistance is not debarred from voting, but he is required to make oath in the prescribed form of his incapacity and the deputy returning officer may then assist, the voter by marking his ballot in the manner directed by such voter, in the presence of the sworn agents of the candidates or of the sworn electors, representing the candidates in the polling station, and of no other person, and place such ballot in the ballot box. The deputy returning officer is required by law to indicate in the poll book where scuch votes have been marked by him.

Interpreter for Foreigners.

In the case of a voter applying for a ballot, when the deputy returning officer does not understand the language spoken by the applicant, he is required to swear an interpreter, "who shall be the means of communication between him and the voter with reference to all matters required to enable such voter to vote, and in case no interpreter is found such voter is not to be allowed to vote."

Voters are required to vote without undue delay, and as soon as they have voted the law requires them to leave the polling station. Provision is made that in each polling station there must be separate rooms, or parts of the room cartained off, into which the voter may retire for the purpose of marking his ballot, and these must be fitted out with a table and a pencil.

A section of the act governing court procedures under the act provides that "no person may be required to state for whom he voted" in any proceedings which may arise.

Penalties are provided in the act for persons guilty of illegal or corrupt practices at elections. Section 85 of the act provides that: "Any person who during an election commits a corrupt practice or an illegal practice shall ipso facto become disqualified from voting and incompetent to vote at such election. He shall also in addition to any other punishment for such offense by this or any other court prescribed forfeit to any person who in any competent court shall therefore sue, "(a) for every corrupt practice committed the sum of two hundred dollars and costs; and, (b) for every illegal practice committed the sum of one hundred dollars and costs."

CHIEF ELECTORAL OFFICER'S DUTIES

Coming Dominion Election First Since Abolition of Crown Clerk in Chancery

OTTAWA, Oct. 19.—(By Canadian Press.)—The coming general election will be the first in Canada which has been held since the abolition of the office of the clerk of the crown in chancery. Provision was made, in recently amending the Dominion Elections act, for abolition of that office, and the appointment instead of Colonel O. M. Biggar of Ottawa as chief electoral officer. The duties of the chief electoral officer, as set forth in the act, are:

(a) Throughout every election to properly direct all returning officers, and, in case of incompetency or neglect of duty on the part of any of them recommend his removal and the appointment of another in his stead.

(b) Exercise general direct on and jurisdiction over the administrative conduct of elections, with a view to insuring the fairness and impartiality of all election officers and compliance with the provisions of this act.

Ranks Equal to Puisne Judge.

The chief electoral officer holds office "on the same tenure, is removable only for cause and in the same manner,and is from time to time paid the same salary and superannuation allowance" as a puisne judge of the supreme court of Canada. "He shall rank as a deputy head of a department, shall communicate with the governor general through the secretary of state of Canada, "the act states, and in addition to taking charge of the administration of elections he is required to act as counsel for the crown or the attorney general and make such inquiries as the governor general may direct.

Outside of his assistant and two stenographers, "all of whom shall be appointed by the governor in council," the chief electoral officer is not given any permanent staff attached to his department. Provision is made, however, for him to appoint such temporary help as may be necessary from time to time for carrying out his duties in connection with the holding of election. The chief electoral officer is, of course, in charge of all other election officers.

Act Provides Penalties.

It is not generally known that provision is made in the Dominion Elections act for the penalizing of any election officer "who is guilty of any misfeasance or any wilful act or omission in violation of this act." The act provides that such election officer shall "forfeit to any person thereby aggrieved a sum not exceeding five hundred dollars in addition to the amount of all actual damage to such persons thereby occasion.

"Every election officer who refuses or neglects to perform any of the obligations or formalities required of him, by this act shall, for each such refusal or neglect, forfeit the sum of two hundred dollars to any person who sues therefor," the section continues.

A learned young man who prided himself that he knew more than most people, went one evening to call on a professor under whom he had once worked. He found his old master bending anxiously over a spirit lamp on which a small pop bubbled.

"What is the experiment this time?"

"Very important—guess," answered the professor.

The student brought out a number of technical names, but all was in vain; and he forgot the coal strike.

"I'll give it up," he said at last.

"Sausages," replied the professor, poking his evening meal.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare and really there is nothing better for coughs.

Into a 16-oz. bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

STOCK EXCHANGE PRESSURE LIFTS

Rails and Allied Issues Recover; Foreign and Domestic Oils Rally.

NEW YORK, Oct. 18.—The financial community was disposed to take a more hopeful view of the railroad strike situation today. This was reflected in the tone of the stock market, which showed little of yesterday's pressure.

Occasionally a quotation was confined to a selected issue among food and allied specialties. American Sugar common and preferred suffered greatest depression, the latter's decline of 5 points pointing to dividend reduction or omission.

Rails recovered the greater part of yesterday's setback and shares more or less identified with transportation recovered also. Oils were strengthened by short covering, Royal Dutch rallying on denial that the company has sold its holdings in Mexican Eagle. Other foreign as well as domestic oils rose 1 to 2 points.

Sales amounted to 436,000 shares.

Monetary conditions relaxed, the opening rate of 6 per cent dropping to 4 per cent at midday. Freer offerings of time funds and a better inquiry for merchants' papers, the latter from out of town, were reported.

Foreign exchanges were confusing, sterling losing about 2½c.

In the bond list convertible rails were heavy, the entire domestic division being inclined to lower levels. Changes among Liberty issues were trivial on smaller dealings.

Total sales, $16,750,000.

Hogs—Selects, $10.50; heavies, $5.50 to $8.50; lights, $10.50 to $10.75; stags, $4.00.

TORONTO, Oct. 18.—Trade slow and draggy. Seven cents was paid for five steers averaging 1260 pounds. Feeder trade was slow.

TORONTO BOARD

TORONTO, Oct. 18.—Recent weakness in the stock market came to a halt today with better news on the railway strike outlook.

There was a good deal of stir in Ontario Steel Products, with a rapid decline in the morning, some recovery in the afternoon and a slight weakness in the closing bid. There was a pronounced change in Canadian Pacific, which rallied 3 points to 123.

Wall street's improvement in the rails embraced C. P. R., and followed the more encouraging news as to a possibility of averting the strike. Steamships preferred and Laurentide were higher and Bell Telephone gained a fraction.

Bonds slipped off a little and banks were steady.

New York, current extra firsts, 52c to 54c; firsts, 43c to 48c.

CANADIAN NATIONAL EARNINGS DECREASE

TORONTO, Oct. 18.—The Canadian National railways' gross earnings for the week ending October 14 were $2,648,460, a decrease of $2,453,342 from those of the same month last year. The gross earnings forthe period from January 1 to date were $83,961,232, an increase of $4,314,349 over those of last year.

MONTREAL LIST

MONTREAL, Oct. 18.—Some pronounced losses in specialties which have been active and strong lately, and easier conditions throughout, featured the trading today on the local stock exchange.

The most important decline was in Canadian Car, while the preferred was one-quarter points lower. Ontario Steel followed up the weakness displayed in Toronto yesterday by selling 5 points lower to 47. Natoinal Breweries led the market and the price fell off.

IF YOU WANT RESULTS TRY A CLASSIFIED AD. IT HELPS

MEXICAN OUTLOOK DEPRESSES WHEAT

CHICAGO, Oct. 10.—Bearish views of the Mexican situation and of the foreign financial outlook carried the wheat market downward today to the lowest points yet this season.

Closing quotations were unsettled at 3¾c to 4¾c net decline, with December $1.00 to $1.04.

ERRATIC EXCHANGE PUZZLES BANKERS

LONDON, Oct. 18.—Erratic movements in foreign exchange are frankly puzzling bankers and exchange dealers here, who say they are thoroughly at a loss to account for the motives back of the selling of German marks, which has been in progress since the reported condition in Upper Silesia.

MINNEAPOLIS GRAIN

MINNEAPOLIS, Oct. 18.—Flour—Unchanged; shipments, 79,131 barrels.

Mrs. Almas,
Saskatoon, Sask.

Dear Friend:

I have been in miserable condition for five years, not able to be up at work and been in the hospital two weeks at a time with attacks. When I took the first treatment of Hepatola it was only one hour when I passed gall stones, the chamber was a mass of them, and now I am in good health and gained about 30 pounds with the five treatments.

Yours truly,
MRS. JOHN BRUCE.

BRINGING UP FATHER By George McManus

RIENDS SEE A BIG CHANGE IN MRS. AXON

egina Woman Suffered Five Years From Stomach Trouble Before Finding Relief

"Whenever I meet any of my old iends now the first thing they want know is what I have been taking cause such a big change in me, d I lose no time in telling them it as Tanlac," said Mrs. Mary Axon, Dewdney street, Regina, Sask.

"Until I got hold of this grand edicine I had not known a well day five years. Everything I ate disreed with me, and my nerves were yed up to a high pitch on account my suffering, and I couldn't get a ound night's sleep.

"My appetite picked up almost om the first dose of Tanlac, and matter what I eat I never have e slightest distress afterwards. My erves have quieted down, too, and I eep like a child all night long. I'm w a well and happy woman."

Tanlac is sold in Nelson by The anada Drug & Book Co., and by ading druggists everywhere.

BEING POPULAR.

Learn to laugh, a good laugh is better than medicine.

Learn how to tell a story; a good ory, well told, is as welcome as a unbeam in a sick room.

Learn to keep your own troubles yourself; the world is too busy to are for your ills and sorrows.

Learn to stop croaking; if you cannot see any good in the world, keep he bad to yourself.

Learn to hide your aches and pains nder pleasant smiles; no one cares hear whether you have headaches, raches or rheumatism.

Learn to meet your friends with smile; a good humored man or oman is always welcome, but the yspeptic is not wanted anywhere.

Above all, give pleasure; lose no hance of giving pleasure.

You will pass through this world ut once.

Any good thing, therefore, that you an do, or any kindness that you can how to any human being, you had etter do it now; do not defer or eglect it.

For you will not pass this way gain.

INSURED HIS WEDDING.

An insurance policy for $500 against unfavorable weather on his wedding ay was issued to a Boston man by a ocal insurance company recently. The ridegroom had declared he wished to void extra expense should rain alter he carrying out of arrangements. The ompany found the risk a good one, as the sun shone on the bridal couple nd the stars twinkled as they left on heir honeymoon.

News of Sport

Rangers vs. Shamrocks Is Challenge Match

Convinced that the Shamrocks won the only junior city league victory over the Shamrocks by a fluke, the Rangers, the junior champions, yesterday issued a challenge to a replay, and were immediately taken up by the Shamrocks. The game was arranged to take place this afternoon at 4:15 o'clock. A. Wallach will referee.

The teams will be:

Rangers—Goal, H. Henry, backs, J. Pitts and J. Gagnon; halves, D. McLean, H. McKenzie and W. Waldie; forwards, D. Thair, F. Weir, E. Welsh, A. Godfrey and B. Wallach.

Shamrocks—Goal, K. Rees; backs, G. Fawcett and O. StDenis; halves, M. StDenis, G. Roynan and J. James; forwards, H. Scott, G. Thain, C. StDenis, G. MacKenzie and J. Shanks.

CECIL LEITCH WINS FIRST ROUND MATCH

NEW YORK, Oct. 18.—Miss Cecil Leitch, holder of the English French and Canadian women's golf championship won her first round match of the Belle Claire invitation tournament today, defeating Miss Louise Elkins, Pittsburg, eight and seven.

Miss Glenna Collett, Providence, won from Mrs. Nowak, New York 3 and 2.

Mrs. W. A. Gavin, eliminated Mrs. Worchees, 5 and 3.

Mrs. Hucknell, New York who finished second to Miss Leitch in the qualifying round, defeated Miss Kate Bomann, Plainfield N. J. 7 and 6.

CADETS' SOCCER TEAM WILL PLAY AT TRAIL

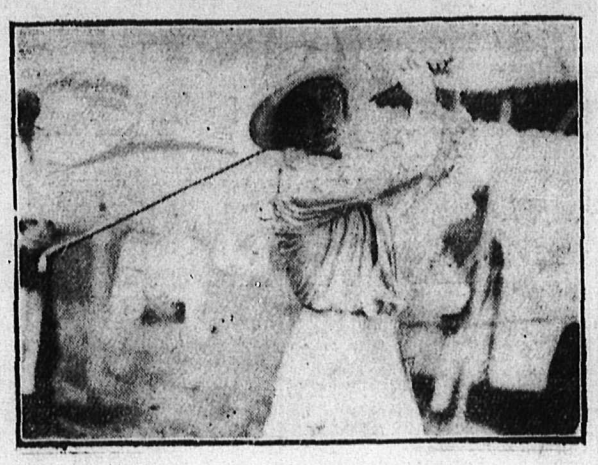
In line with the proposed exodus of Nelson school athletes to Trail to attend the big field and track meet of the Trail Amateur Athletic association on Friday, arrangements have been completed for a soccer match between the Trail Juniors and the Nelson Cadets. The Cadets will go over in the special train, which is now considered a practical certainty, on Friday afternoon. Their team, which was selected last night, will be:—K. Rees; backs, F. Risden and J. Gagnon; halves, S. Carlson, C. StDenis, and G. Long; forwards, B. Stringer, M. StDenis, P. Rutledge, A. Ioanin and T. Black.

BABE NOT WORRYING

JAMESTOWN, N. Y. Oct. 18.—Babe Ruth played first base and had two doubles in six trips to the plate in an exhibition game here today. Bob Meusel pitched and Piercy played center field for Ruth's team, which won the game by a score of 14 to 10.

The star slugger reiterated his statement against prohibiting Worlds Series contestants participating in post-season games, "I don't care if my case comes up tomorrow. I am not worrying," he said.

VANQUISHES A CHAMPION



MRS. F. C. LETTS, JR.,

Of Chicago, who defeated Cecil Leitch in the United States woman's golf tournament, but was herself defeated by the ultimate champion, Miss Marion Hollins.

DEFEND TRACK CHAMPIONSHIP

WINNIPEG, Oct. 18.—Nine men of the University of Manitoba left here tonight for Edmonto to defend the track championship of western Canada and the Cairns trophy on October 21.

FISH MINING.

Mining for fossil fish is a very profitable occupation in certain parts of the world. These fossils retain the oil that was present in the bodies of living fish thousands of years ago. Matured by its immense age, this oil has extraordinary curative properties when used in the treatment of chilblains and certain forms of skin disease. The fossils are dug out, often from considerable distances beneath the soil, and the oil known as ichthyol is distilled from them. It is extremely valuable, for a great quantity of fossil fish is needed before a pint of oil can be produced. Many thousands of years ago the oceans covered large portions of the world which now are dry land. The whole face of the globe has altered, for you may now find high mountains in places where formerly there were plains or even great seas. As the mountains were heaved up by subterranean explosions, the water receded, leaving behind the remains of countless millions of inhabitants. That is why we find in Switzerland enormous deposits of fossil sea-fish hundreds of miles away from the sea.

CRUELTY TO ANIMALS BY STAGE TRAINERS

Tales of cruelty to animals by trainers and vaudeville artists in the London music halls, which may lead to revolutionary changes in the conditions governing the "turns" of the dumb actors on the stage, have been revealed in the course of an inquiry by a select committee on the performing animals bill in the British house of commons. Rallying to the support of their four-footed friends artists, chorus girls, stage hands and property men have testified to one grewsome incident after another which has taken place behind the scenes as the animals have been made to perform feats before the applauding audiences.

The house commons committee room has had the air of a circus as animal tricks of every description, from a "vanishing canary" act to a "drunken dog" sketch, have been rehearsed. Several of the performers who have denied the charges have been exonerated, the verdict of the members of parliament in these cases being that the tricks were comparatively harmless.

That invisible wires, chains and trapdoors are made use of to effect the clever stage business of dogs, monkeys, birds, bears and lions, that months of systematic torture and cruelty in rehearsal are preliminaries to the public appearances, and that a conditions of stage fright resembling shell shock and nervous derangement is induced in the beasts by the footlights, the applause and the atmosphere of the theatre are some of the contentions made by the witnesses who were questioned in the investigation.

Actress Chased Out of Window.

One witness told of a panic stricken elephant who ran amuck behind the scenes, up two flights of stairs and into the leading lady's dressing room, frightening her into a leap out of the window into a taxicab. The elephant, according to the chorus girl's description, was in a frenzy, lashing about and tearing to pieces the furniture in the dressing room, from which he had to be hauled by ropes. She affirmed the belief that he had been stampeded by hot irons.

In defense of the elephant's trainer the suggestion was made that in extreme cases one could hope to make no impression on the tough epidermis of an elephant without using some sharply pointed instrument.

Strings and wires, the same witness declared, had been fastened to the arms and paws of monkeys and jerked by persons concealed behind the scenes, making it appear to the spectators that an orchestra of trained apes was simulating the rhythmical motions of musicians. The monkeys lay completely exhausted, bound hand and foot for an hour after the performance, she said.

The mechanical device by which bears were taught to spring from their cage to the floor was described. Chains grappled the bears about the flanks, the witness said. These, passed through bolts, were drawn so that the bears were forced out of the cage, where they were struck on the snouts with logs of wood by the trainers. This had been repeated for three or four months, according to the witness.

Had to Bring Down Curtain.

In one cat-and-dog act, the witness related, so much suffering was inflicted that the manager had rung down the curtain in spite of the showman's threats to kill him.

In the course of a brief nightly appearance before the footlights, Athole Stewart, an actor, testified, his dog, although well cared for by the players, had endured so much mental agony to allow the dog to continue to appear in the piece, an Australian sheep farm sketch.

"Nothing would induce me to allow that dog to appear again," said Athole Stewart. "It was treated with the utmost kindness by everybody, but the noise and bustle behind the scenes of the orchestra, and especially the lights, affected it.

Every night I found its eyes were bloodshot, and its eyesight became so affected that it failed to recognize me a little way off. It developed eczema and seemed terrified at everything, especially of going down to the theatre."

Time and again the inquiry, which it continued for two weeks in the house of commons, has taken a surprising or humorous turn. A well known manager was asked whether animals liked performing on the stage. "They hate it," he replied without hesitation. "Is that not due to professional jealousy?" the M. P. wanted to know next.

Dogs Bound to Trapeze.

Various actors who gave testimony, not content with vividly describing the cruelties which occurred in the theater, told of chance visits they had made to the houses of trainers and furtive glimpses caught of little dogs bound to a trapeze, being instructed in the art of walking on their forelegs. Other artists testified to having witnessed small terriers flogged with canes by actresses, lions jagged with tridents, and various punishments inflicted on elephants and monkeys.

Early in the inquiry the animal trainers scored a point when a "vanishing canary" act was rehearsed in the committee room of the house of commons. In the presence of the members of the investigating committee, the conjurer made the bird "vanish" by flinging it into the air. He denied that the velocity at which the bird traveled injured its heart. At the end of the flight the canary chirped as if nothing had happened.

The performer said he had done the trick for 30 years, and although he had often had trouble with the S. P. C. A. he had never used more than three canaries. Other animal trainers made their pets perform for the members. One of the most entertaining acts witnessed by the M. P.s was that of a well known dog, who is said to have the most realistic drunken gait in the world. The owner said that dogs were naturally imitative and that he had never resorted to compulsion in teaching his pet to stagger.

HONOR TRAIL SOCCER VISITORS WITH SOCIAL

Preliminary organization of an entertainment committee to arrange a social affair in honor of the visit of the two Trail football teams here on Saturday was effected at a meeting of the senior football club last night in the Y. M. C. A. It was definitely announced that the two proposed matches will take place. The Navy League team, of Trail, will play the Nelson Junior League team at 1:15 o'clock.

The Knights of Pythias team, the champions, of the Trail senior league, will play the McLearies, champions of the Nelson city league, at 3:00 o'clock. This match will be for the intercity championship.

By the courtesy of the Y. M. C. A. a social evening for the four teams and other soccer men will be held in the Y. M C A at which the Trail visitors will be the guests. A committee of ladies was formed last night to take charge of the social affair.

Breaks World's Record

SADI LECOINTE,

Famous French aviator, has broken his own world's record for airplane speed, by flying in the Ville Saurage airdrome at the rate of 205 miles an hour.

SAM LANGFORD WINS.

TORONTO, Oct. 18.—One of the largest crodwds that ever attended a boxing program in the armories was present at the opening of the fall sessio ntonight, and saw Sam Langford, the "Boston Tar Baby," administer the sleep producer to Young Peter Jackson of Windsor in the second round. Jackson was outweighed, 198 to 171.

A veteran of the civil war 81 years old was married in Chicago a few days ago. He said he was getting lonesome. The bride was 83 years old. The couple are the oldest to apply for a license in the history of Chicago's marriage license bureau.

CURZON EULOGIZES BALFOUR'S SERVICE

Says No More Fitting Representative Could Be Sent to States.

In the house of lords, Earl Curzon in making a statement similar to that of Lloyd George, added "I am sure your lordships will join in an informal tribute to Mr. Balfour for being willing, in addition to the many public labors he has undertaken, to add this additional service, and you will recall his former reception in the United States. No more fitting representative of the British view could be secured."

He expressed, on behalf of the house of lords, his most earnest wish for the success of the British representatives. He voiced the hope that under the guidance of Providence and through the cooperation of statesmen, results might be obtained which would secure the peace and welfare of mankind.

A reader writes that on a farm in Nova Scotia there was a white fowl with the head, comb and wattles of a rooster, while the body was that of a hen. Occasionally it would crow, but had no spurs on its legs. On being opened a large number of tiny eggs were found, as well as undeveloped male organs.

A St. Johnsbury (Vt.) woman cut up a lemon and found that a seed had sprouted and a dark green leaf had formed inside the fruit, which was fresh and plump.

MINISTER REPLIES TO PROSPECTOR

The following letter has been received by William Moore, of this city, in regard to a letter concerning the Engineer's Act, over which feeling runs high in the British Columbia Prospector's association.—

Victoria, B. C. 13th October, 1921.
William Moore, Esq.,
302 Hoover Street,
Nelson, B. C.

"Dear Sir:—

I have yours of the 10th inst. with enclosure, and contents noted.

In reply beg to state that the representations you make regarding the Engineer's Act will be given careful consideration."

I am, yours faithfully
WM. SLOAN,
Minister of Mines

Social and Personal

Mr. Justice Macdonald, of Vancouver, who presided at the Nelson fall assizes, leaves this morning for Fernie.

Mrs. E. West and Miss Grace West, *returned last night from the coast* where they have been visiting friends.

Mr. and Mrs. Geo. Kemerling, Mrs. A. Brown and Mrs. V. Beaudro left last *night for a week's hunting at Taurus,* B. C.

Mr. Taylor, steveadore S. S. Kokanee is taking a few days lay off owing to a dislocated shoulder due to a fall at Queens Bay, yesterday.

Mrs. M. J. Vigneux returned from Ymir where she has been the guest of Miss Nicholson, the matron of the Ymir General hospital.

C. H. Robinson, dominion fisheries overseer, returned to the city last night from a two weeks trip in the Sheep Creek district where he was engaged in clearing the creek or log and brush jambs.

Charles Hamilton, son of C. R. Hamilton, a recent graduate of the Royal Military college, Kingston, Ont., is now a student-at-law with the firm of Hamilton & Wragge, and will reside in the city.

George (Young) Maxwell, the boxer who fought Charlie Lucca two 20 round bouts, one in Nelson and one in Rossland in 1913-14, spent yesterday in the city visiting a number of old friends. He is now running a gymnasium in Vancouver and claims to have two or three real comers among his ring followers.

SUPREME COURT MOTIONS.

Two court motions were heard by Mr. Justice Macdonald in the supreme court here yesterday.

In Kerr vs. the Nelson Realty company, E. P. Dawson of Brown & Dawson, obtained an order appointing the date for payment by mortgagor or foreclosure.

In J. H. Fox vs. C. H. Hall, William Brown, of Brown & Dawson, obtained an order nisi.

THREE SHIFTS TO DEVELOP BAYONNE

John B. White arrived in the city last night from Spokane en route to Sandon to visit the Silversmith mines. He spent yesterday at Salmo visiting the Bayonne groups in which he is interested. He stated a force of ten men is working on the Bayonne in three shifts, driving a crosscut to tap the ore at depth, and that the work will be carried on all winter. Only the lack of good transportatio nfacilities has held the *Bayonne from becoming a big producer,* he believes.

An interesting and successful surgical operation on a pullet has been performed by a woman of Reading, Eng. The bird had swallowed a large bone and was suffering from the effects. The woman opened its neck, pierced the crop and was able to remove the bone. Then with softened catgut she sewed up the crop and outer skin. The wound has now entirely healed, and the young fowl is in promising condition for the beginning of the laying season.

EARN and LEARN

BECOME AN EXPERT ACCOUNTANT

Our system of Bookkeeping condenses the lifetime experience of over 10,000 practical, expert accountants.

You can obtain this same experience in the NIGHT CLASSES during the coming winter months.

Individual Tuition Commence Now

NIGHT CLASSES held every Monday and Thursday evening from 7:00 p. m. to 9:15 p. m.

For particulars apply P. O. Box 14, or the Nelson Business College. Phone 602.

The Star and Theatre

The Tale That Has Thrilled the World!

Maurice Tourneur

PRESENTS

Treasure Island

By Robert Louis Stevenson

A roaring romance for boys and girls 'twixt nine and ninety!

Greatest of all adventure stories, greatly picturized. With its brawling, guzzling rovers of the sea, and all their immortal escapades, done to life.

Played by a perfect cast including SHIRLEY MASON and LON CHANEY.

Comedy
"The Three Jokers" | **"The Son of Tarzan"**

Monuments

CAMPBELL & RITCHIE MONUMENTAL COMPANY
Successors to Kootenay Granite and Monumental Co.

"IN THE PUBLIC EYE"
BY A. Higginbotham

Glasses that were not made to fit the exact measurements of your eye-deficiencies are worse than useless and should not be worn. The crystalline lenses, from another person's eyes would not give you the proper sight if they were placed between the pupils and the retinas of your eyes. Neither will glasses that are not made to your eye measure benefit you. We are competent to serve you.
