TREACHERY PROLONGED WORLD WAR

Russian Collapse Almost Entirely Due to Turks, Says Lloyd George

JUSTIFIES GREEKS IN SEEKING PROTECTION

British Anxious to Bring Settlement Between Turkey and Greece

LONDON, Aug. 4.—Prior to prorogration of the house of commons this afternoon for its summer recess, there was a discussion of the situation in the Near East, during the course of which the government was urged to bring about an immediate settlement of the differences between Greece and Turkey.

Premier Lloyd George, in reply to question, said the government had nothing to conceal in its policy and desired above all that peace should be established in the Near East. Reviewing Great Britain's relations with Turkey, he said this country had fought one big war to preserve Turkey from extinction and had constantly intervened to protect her from attack.

Conspired Against Allies

"But," he continued, "in August, 1914, we engaged in the struggle of life and death, when Turkey could have assisted France and Great Britain, she, without hesitation, as a result of conspiracy and intrigue entered into the war with our greatest enemy, and us the greatest dis-service. I have no hesitation in saying that her action prolonged the war probably two years."

Lloyd George argued that the collapse of Russia was almost entirely due to Turkish action.

"It would never have happened," he declared, "if the Black sea had been free. The same applies to the collapse of Rumania."

The premier said it was a great mistake to suppose that the occupation of Smyrna and the proposals of the treaty of Sevres were entirely the work of Great Britain as what was done was the work of the commission appointed by the great powers in Paris.

"The British government," he said, never interfered with that commission which recommended that Smyrna and the adjoining territory be handed over to Greece."

Turk Activities Worse

Lloyd George said it was perfectly true that deplorable atrocities had been committed by Greeks, but the Allied commission's inquiries had shown that the Turkish atrocities were greater and more ferocious. In the Pontus region, he said, tens of thousands of men, women and children were deported and tens of thousands were dying. In view of such conditions, he said, he thought the Greeks were justified in demanding guarantees of protection before the Allied troops retired.

Lloyd George said the position now was that the allies were defending Constantinople against the Greeks, who undoubtedly would occupy it forthwith if the allies were not there.

Would Subject Sunday Workers to Imprisonment

LONDON, Ont., Aug. 4.—Any person who works on Sunday should be subject to a stiff fine and imprisonment as well, is the substance of a resolution calling for a strict enforcement of the Lord's Day Alliance act, which will be submitted by the London delegates to the Dominion Trades congress at Montreal two weeks hence.

The labor men admit that there is such thing as the Lord's Day act, but maintain that the same excites but little attention. If there was a law compelling a fine and imprisonment as well for the man who accepts employment it would certainly tend toward a stricter adherence to the law, they claim.

Coal Operators Refuse to Meet Miners' Unions but Submit Proposals

CHICAGO, Aug. 4.—Illinois coal operators meeting today refused to attend the meeting of union officials and operators called for Cleveland next Monday by John L. Lewis, president of the United Mine Workers, but submitted a proposal to Frank Carrington, president of the Illinois Miners' union, which, if accepted, would result in reopening Illinois mines.

VAUDEVILLE ACTOR DIES.

NEW YORK, Aug. 4.—Robert Dooley, 53, vaudeville actor and head of the Dooley family of variety headliners, died today of wood alcohol poisoning.

Householders Must Learn Science of Burning Soft Coal

BOSTON, Aug. 4.—Before winter comes householders must master a new science, the proper method of burning soft coal, James Story, fuel controller, said in a statement made public tonight. Anthracite, he said, would be scarcer next winter than at any time during the war and bituminous coal must take its place in household use.

Canadian Writer Dies

MISS EVERARD COTES

Who died in London, England, on Sunday, was well known as a writer under the name of "Sara Jeanette Duncan." She has contributed to Canadian publications for many years. Her husband, Everard Cotes, was in Canada with the Prince of Wales.

HOIST FLAG AND CLAIM TERRITORY

Party Winters on Wrangel Island and Claims It for Britain

NOME, Alaska, Aug. 4.—After spending a year on Wrangel island in the Arctic ocean, the advance guard of Stefansson's expedition to the far north is to be brought back here on the power schooner Nokota. On telegraph instructions from Stefansson, Capt. Fred Anderson is fitting the Nokton out to go after the party.

The party, which landed on the island last summer and wintered there, is said to have hoisted the British flag and claimed the territory for Britain. Previously the island had been regarded as Russian territory, according to ship masters familiar with the arctic.

Expect to Resume Trade Relations Soon With Russia

OTTAWA, Aug. 4.—Canada's adherence to the Anglo-Russian trade agreement which became effective July 3, this year, is expected to lead to a resumption of trading between the Dominion and Soviet Russia within a short period. Preparations are now being made for the sending of a Canadian trade commissioner and other representatives to Russia and it is anticipated that the Soviet government will send a representative to Canada.

The agreement is briefly summarized as follows:

1. Refrain from hostile propaganda.

2. British subjects in Russia are free to return and Russian nationals in Britain free to return to Russia.

3. No blockade or obstruction to trade in legal commodities, no discrimination in trade in either country against the other.

Equal Treatment of Ships

4. Equal treatment of ships in ports.

5. Sea mines clearance operations to be facilitated and information given as to what has been done.

6. Each appoint nationals to effect agreements and promote movements of traders and usual exemptions while so engaged.

7. Each appoint agents or representatives necessary to carry the agreement with usual rights and to have freedom of mails and telegraphs.

8. Each to renew exchange of private, postal and telegraph communication.

9. Exports of Russian gold, funds and other securities not to be attached if not identifiable as property of British government.

10. After 12 months' operation notice to terminate six months thereafter may be given.

Hon. James Robb, minister of trade and commerce, who is at present in London, is expected to take up the matter while there and it is not likely that any trade commissioner will be appointed before his return. In connection with the resumption of trade with Russia, it is pointed out that the Canadian government accepts no financial responsibility, which will lie with the Canadian exporters.

ONTARIO TO HAVE FUEL CONTROLLER

TORONTO, Aug. 4.—Ontario is to have a fuel controller who will be empowered to superintend the rationing of coal should the coal strike in the United States continue until the cold weather sets in. The foregoing announcement was made this afternoon following a conference between representatives of the Wholesale Coal Dealers' Association of Ontario, the Ontario Retail Coal Dealers' association and members of the government.

STEAMER ARRIVALS

Majestic, at Cherboug, from New York.

REQUESTS REDUCTION OF FIGURE

Germany Replies to France on Question of Debts to Frenchmen

BERLIN, Aug. 4.—In a supplementary note sent to Paris tonight, the German government reaffirmed the position it assumed in its original communication with regard to the payments of debts contracted with Frenchmen before the war. The note declares the German government does not propose to default in carrying out the payments, but merely requested a reduction of the amount to be paid.

The note calls attention to the British and Belgian replies and asserts neither the Versailles treaty nor the London agreement provides for punitive measures before August 15 on which date the next installment of the debt payment is due.

It concludes with the hope that action will be deferred until the reparations question is regulated.

Listen In on the Radio Program for Tonight; It's Good

Tonight's radio program, which will be broadcasted from The Daily News station by the Canadian Auto & Electric company, will be a half hour later than usual.

The Daily News will be glad to hear from anyone in the district or elsewhere who picks up news and music broadcasted from this station.

STATION C. J. C. B.
400 Metres.

Program commences tonight at 9 o'clock, Nelson time; closes at 10 p. m.

(Records loaned by courtesy of Heintzman & Co.)

1. "Chimes of Normandy," played by Sousa's band.
2. "Naila Intermezzo," played by Pryor's band.
3. "Il Trovatore" selection, played by Vessella's Italian band.
4. "Rigoletto," quartet, played by Kryl's Bohemian band.
5. News Items.
6. "Blue Danube," waltz, played by Sousa's band.
7. "Southern Roses," waltz, played by Pryor's band.
8. "Jewels of the Madonna," played by Victor Concert band.
9. "Merry Wives of Windsor," played by New Symphony orchestra of London.
10. "Nights of Gladness," played by Victor Military band.

17. "Lovable Eyes," by the Club Royal orchestra.
18. "I've Got the Blues for My Kentucky Home," sung by the Van Eps quartet.
19. "Where the River Shannon Flows," sung by John McCormack.

Good night.

Dr. Bayley to Oppose Lady Astor at the Next General Election

PLYMOUTH, Eng., Aug. 4.—Dr. Bayley has been chosen unanimously as the Imperial Conservative candidate to oppose Lady Astor for the Sutton division seat in the house of commons at the next general election. When accepting the nomination Dr. Bayley announced himself opposed to prohibition, saying it would only lead "to a dangerous increase in the use of alcohol."

Berlin Bourse Is Optimistic About Foreign Situation

BERLIN, Aug. 4.—The bourse today in the main was optimistic on the foreign situation. In consequence, the market showed visible improvement, closing 60 points above the post-bourse quotation of 730 to the dollar.

The optimism was based largely on the assumption that the forthcoming conference between the allied leaders in London would result in some definite settlement of the reparations problem.

JITNEYS WILL RUN FREE

BUFFALO, Aug. 4.—Excepting a decision by Justice Pooley ordering the mayor to stop operation of jitney buses which have been carrying passengers since Buffalo's strike of street car men began July 1, the jitney men's organization tonight announced that the passengers would be carried free beginning tomorrow.

CONSIDER COMMUNITY COAL SYNDICATE

WINNIPEG, Aug. 4.—A community syndicate for coal buying may result from an investibation to be carried out by Alderman J. A. Barry and the city engineer as to the local requirements in view of a possible coal shortage.

National Troops Launch Decisive Action Yesterday

LONDON, Aug. 4.—The Daily Mail's special correspondent with the National army in southern Ireland says the Nationais began their final attack on Kilmalloch at dawn Friday; that they are steadily progressing and that when the dispatch was filed they were within half a mile of the center of the town, which the National artillery commands from Quarry Hill, taken from the Irregulars after hard fighting. The dispatch adds that the fighting is on a wide front and that there have been many casualties on both sides.

British Columbia Will Appeal Rates Equalization Case

VANCOUVER, Aug. 4.—The province of British Columbia will appeal the recent decision of the board of railway commissioners for Canada in the railway rates equalization case. This was decided here today in a consultation between Premier John Oliver and other provincial cabinet ministers and G. G. McGeer, K. C., counsel for this province in the railway case.

Immediate application will be made to Ottawa for a hearing of the appeal by the Dominion cabinet, sitting as the Canadian privy council, which is the sole court of appeal against the railway commission's findings.

Counsel Defends Statements From Merchants' Bank

MONTREAL, Aug. 4.—Chief Justice Decarie today heard the arguments of two of the counsel for the defense in the hearing of the charge againsh D. C. Macarow, former general manager of the Merchants' Bank of Canada, that he had wilfully made false statements in the October, 1921, return of the bank to the government.

The defense has split its argument into three parts. Ex-Judge Bazin took up yesterday and completed this morning the purely legal aspect of the case and contended that the accused had merely "signed" the return which had been made in conformity with the books of the bank by Gillespie Muir, chief accountant. None of Mr. Macarow's actions were irregular, he contended, nor was he guilty of negligence unless Mr. Muir had made false statements of which there was not, he said, a shred of evidence.

Confines Arguments to Accounts

George Montgomery, K. C., second defense counsel, followed ex-Judge Bazin, and confined his argument to the manner in which the various assets and liabilities of the bank had been classified.

He drew attention to the fact that whenever a different classification of an item had been suggested by George Edwards, Toronto accountant called in by the government to examine the affairs of the bank, such classification would have worked to the advantage of the bank as compared with the classification in which it was actually placed in the October return.

Further, he contended that the return in question had been made out strictly in accordance with the books of the bank and under the direction of the chief accountant, who had certified it correct.

Expert Unaware.

Finally Mr. Montgomery went at length into the questions of the various realty companies acting on behalf of the Merchants' bank in connection with bank premises and other estate. He stressed as important, the fact, which he said, had been established in evidence, that H. B. Mackenzie, the expert called in to investigate the affairs of the bank by the president, had not been aware that an arrangement had been operating since 1920 under which a total of $5,200,444 would eventually be written off bank premises within a period of 30 years. The significance of this was, he said, that when Sir Montagu Allan and F. Howard Wilson accepted Mr. Mackenzie's report, they were leaving out of consideration a sum of over three-quarters of a million dollars already applied to bank premises written off and of which Mr. Mackenzie's report made no mention, since Mr. Mackenzie was ignorant of it.

Doubtful Debts Next

In regard to the classification of the Thornton Davidson account, he contended that the item of $822,000 realizable on stocks, etc., deposited as collateral by that firm would, if classified under stocks and bonds, suggested by Mr. Edwards, have been much more to the advantage of the bank. The third count in the defense argument will be in connection with the appropriations for bad and doubtful debts. This will be taken up by N. K. Laflamme, K. C., when hearing of the case is resumed next Tuesday.

TO REGULATE FERTILIZER SALES

OTTAWA, Aug. 4.—The Canada Gazette this week contains a proclamation bringing into force as of August 5 the act to regulate the sale of agricultural fertilizers.

TRAPPED OUTLAW FIGHTS.

CHEROKEE, Okla., Aug. 4.—Trapped in a corn field, an outlaw negro, who shot three men in the last 48 hours here, battled for life against 800 armed men, wounded one, and was killed by bullets from the guns of Henry O'Neil and John Stiles late today.

The negro was not identified.

POINCARE HAS PLAN PREPARED

Maintain Strict Secrecy; Probably Involves Moratorium Proposal

NO OPTION BUT TO APPLY COERCION

Suggest Seizure of Railways Should Germany Again Default

PARIS, Aug. 4.—Although the strictest secrecy is being maintained concerning the plan Premier Poincare will take to the London conference, it has been learned on what is usually considered good authority that the French premier will propose that a moratorium of from four to eight weeks be granted the German government for its next monthly payment, but Germany in return must give unequivocal proof of good will by accepting and applying a radical program of financial reforms.

Mortgage Must Apply.

At the same time the general mortgage on Germany held by the allies under the peace treaty must come into play—the levy of 26 per cent on capital of German industrial corporations, the exploitation, even the cession of government mines and the forests on the left bank of the Rhine and other matters. If Germany declines to submit to the proposed measures or raises difficulties to them her absolute intention to default will be considered to have been established beyond doubt and the allies will have no option but to apply coercion—after the expiration of the delay period fixed—in the Rhineland and the Ruhr, notably by the seizure of the railways.

Would Act at Once.

In that eventuality the French government, considering the measures of control as indispensible, would, it is understood, act forthwith. These are said to be the main lines of M. Poincare's plan. It is pointed out that this plan does not touch the question of interallied debts, the problems arising from this question probably being considered too closely bound up with the question of reparations and necessitating separate deliberations.

Conciliation Board Chairman Promotes Good Fellowship

ST. THOMAS, Ont., Aug. 4.—J. M. McEver, K. C., chairman of the conciliation board that is investigating the wage reduction grievances of the Michigan Central railway shopmen in Canada, tonight tendered a unique banquet to the employees' and employers' representatives, Michigan Central railway officials and Shop Craft federation officers.

Mr. McEver required the representatives of the different crafts to sit beside the officials and vice versa and to propose each other's good health in toasts. He explained that he wished to arrive at the finest spirit of harmony possible between the opposing bodies and facilitate the work of the board.

H. T. Malcolmson, of Hamilton, the company's representative, proposed the toast of W. D. Robbins of Toronto, the shopmen's member.

FIREMEN OVERCOME IN MONTREAL BLAZE

MONTREAL, Aug. 4.—Seven firemen were overcome by smoke in fighting a fire at the plant of the Dominion Flour mills last night. The fire, which originated in the drying room of the cooperage department, where three carloads of materials were ready for making into barrels, had not been brought under control at 1:30 this morning. The firemen are in serious danger.

CHINESE CONVICTED FOR OPIUM SMOKING

CALGARY, Aug. 4.—The first conviction in Calgary under the amended Opium and Drug act was recorded in police court today when Sam Wing was sentenced to nine months in jail for having opium in his possession. When he is freed, the police will ask that he be deported. Sam admitted he had smoked opium for 20 years.

ONTARIO CITY TO AVERT WINTER COAL CRISIS

LONDON, Ont., Aug. 4.—Taking definite action to avert a coal crisis in London this winter, dealers of this city, representatives of the chamber of commerce and the city council decided today to recommend that the city immediately order 10,000 tons of Welsh anthracite to be delivered here in September.

TORONTO'S ORDER FOR COAL IS ACCEPTED

TORONTO, Aug. 4.—Mayor McGuire this afternoon received a cablegram notifying him that the city's first order for 5000 tons of anthracite coal had been accepted.

SIXTY-ONE BANKRUPTS

OTTAWA, Aug. 4.—Sixty-one notices of bankruptcy are contained in this week's Canada Gazette.

Wounded

HSU LAN-CHOW

One of Chang Tso-Lin's generals, wounded in China.

BOTTOMLEY STILL HAS SOME HOLD

Expelled Member Has Adherents in Spite of Court Revelations

LONDON, Aug. 4.—The hold which Horatio Bottomley, who has just been expelled from the house of commons in consequence of his conviction on a charge of fraud, had upon the constituents of South Hackney, is evidenced in the fact that canvassers in the recent byelection frequently encountered voters who declared that if he came before them again, they would support him, despite all that has been revealed in the courts.

Some people who know London say this is probably mostly idle talk among folk of the densely populated and rather squalid districts.

Selford Knight, the Labor candidate, will probably have some awkward times in the course of his electioneering because of his alleged objection to conscription. His Coalition opponent, Captain E. Erskine Holst, however, is not likely to stress this matter. Captain Holst admits that on the political side he has a foeman who is his intellectual equal. The electors in such an area probably will show themselves more interested just now in the outlook for the renewal of the Rent act next summer than in high politics. The dwellers in small tenements the country over are quaking at what will happen if the Rent act lapses, leaving the owners free to impose what rent they choose.

The government is not likely to permit such a thing. A commission has just been appointed to consider what is best to be done. The present act is admittedly imposing hardships on both owners and tenants.

Bulletins Give Little Hope for Lord Northcliffe

LONDON, Aug. 4.—The serious tone of the bulletins issued today regarding the condition of Viscount Northcliffe, British publisher, give a strong impression that there is little hope for his recovery.

While bulletins are very vague concerning the nature of his illness, it is believed to be the result of a complete breakdown brought on from hard work and excitement which he has undergone for the past year or more.

Flashes By Wire

Austrian Exchange Still Falling

VIENNA, Aug. 4.—The exchanges continue to fall and the crown tonight was quoted at 52,000 to the dollar, or 1000 more than yesterday's quotation. Business is severely hit, many shops being closed and some are open only short time.

Typhoon Wrecks Chinese Port

HONGKONG, Aug. 4.—Word was received here today of a typhoon that on August 2 did considerable damage at the port of Swato, about 250 miles northeast of Hongkong. Mortality among the Chinese was heavy.

Simple Funeral for Boland.

DUBLIN, Aug. 4.—Simplicity marked the funeral today of Harry J. Boland, close friend and associate of Eamonn de Valera, who died here Tuesday night of wounds received the day before while attempting to evade arrest by National army troops.

Rain Subdues Forest Fires.

PRINCE RUPERT, Aug. 4.—(By Canadian Press.)—Slight rains have helped the forest fire situation here and there along the Grand Trunk Pacific in northern British Columbia. Danger to some settlements is not past, however, and the labor of fire fighting goes on. The Royal Mills plant on the Skeena, which was menaced by the fire, has been saved, it is believed.

Italian Cities Mostly Calm.

LONDON, Aug. 4.—A dispatch received from the semi-official Stefansson agency at Rome says that normal conditions have been restored in all the provincial cities except Parma and Bari, whence come reports of violent collisions between the Communists and Fascisti.

Decision Favors Rail Clerks.

CHICAGO, Aug. 4.—Railroad clerks were favored today in a decision announced by the United States labor board ordering railroads to continue customary sick leave and vacation with pay gratuities pending settlements of disputes regarding these practices.

IRISH PEOPLE WELCOME FREE STATE TROOPS

Diehards Harass Government With Debate on Ireland

CHURCHILL GIVES AN OPTIMISTIC VIEW

Does Not Anticipate Reign of Terror from Rebel Activities

LONDON, Aug. 4.—Rupert S. Gwynne, Unionist, and other diehards, initiated a debate on Ireland in the house of commons yesterday with the puprose of embarrassing the government before the adjournment of the house, which is set for today. They criticized the failure of the provisional government in Ireland to restore order.

Pays Tribute to North

In reply, Winston Spencer Churchill, secretary for the colonies, gave an optimistic review of present conditions in Ireland. He asserted that he did not anticipate a reign of terror in consequence of the activities of the Irregular forces. The Free State troops, he said, were being welcomed by the Irish people and he was convinced they would be successful. Paying tribute to the northern government in Ireland, Mr. Churchill said that if the south won out and established a decent and orderly structure of government, he was convinced the north would reach out the hand of help and comradeship.

Canada Stands for Payment in Full Says Dr. Shortt

WILLIAMSTOWN, Mass., Aug. 4.—Canada stands for "payment of all genuine obligations at 100 cents on the dollar," Dr. Adam Shortt of Ottawa, chairman of the historical documents publication board of the Dominion, said tonight in commenting on the note of Earl of Balfour to allied governments on the cancellation of interallied debts. Dr. Shortt is here attending sessions of the institute of politics.

"If there is to be a remission of obligations, it is a question of what our obligations are," he added. "We don't ask any remission on the ground that we wish to escape our debts, but there might be a very considerable remission on the ground of equity. The question of interest is wholly pertinent. Some minimum rate of interest will be an inducement.

"The matter should not be discussed from the point of view of gold reparation but from the point of view of putting things back as nearly as possible as we found them when we began. While Canada is quite willing to meet all obligations, she does not wish to find herself with a frightful burden while the debts of others are remitted and additional benefits conferred on them."

GAS TWO CENTS CHEAPER

NEW YORK, Aug. 4.—The Standard Oil company of New York tonight announced a reduction of two cents a gallon in the price of gasoline which now sells at 25 cents through out its territory.

IF RHEUMATIC DISSOLVE THIS IN YOUR MORNING TEA

Then watch the pains, aches, swellings, *stiffness, and other misery disappear.* They simply **LEAVE** to go, says **ALICE LANDLES**, certified nurse.

Rheumatism can be caused in but one way. That is by acids and impurities in the blood. Chemical analysis and microscopic examination of the blood prove this beyond the possibility of doubt or argument, as any standard medical work will explain in detail. Of course, various conditions, such as exposure to cold and dampness, or committing certain errors of diet, can make rheumatism worse, but the primary cause always remains the same. Therefore, *trying to get rid of rheumatism* without ridding your blood and system of the acidulous impurities which directly cause this physical calamity, is exactly like trying to get rid of smoke without putting out the fire. Pain-causing and kidney-irritating uric acid is no different from any other acid in that it must be neutralized by an alkaline liquid. Nothing else can have just the same effect, this being an elementary principle of chemistry, of course. It naturally follows that to dissolve, neutralize and wash out the rheumatic acids the liquids you drink must contain the necessary alkaline elements to be absorbed into the blood and act upon the acids. These elements are easily provided. Simply get a small supply of the refined Alkia Saltrates compound from any chemist. A pinch of this should be dissolved in your tea, coffee, water, or any other drink and taken every morning. No trace of any bitter, salty, sour, or other taste can possibly be detected. Also it cannot upset or irritate even the most delicate stomach. The only evidence that you are taking *a medicine will be the plainly noticeable* relief from rheumatic pain which it quickly reduces. In each package of Alkia Saltrates the refiners enclose an authoritative and extremely valuable treatise, giving useful diet hints and other interesting information for rheumatic sufferers.

Benedictine Monks Rebuild Abbey on the Ruins of Old One

LONDON, Aug. 4.—(By Canadian Press Cable.)—Catholics from all parts of the United Kingdom attended the inauguration today at Buckfast abbey, Devonshire. The abbey was rebuilt solely by Benedictine monks upon the ruins of the prereformation foundations.

Communist Newspaper Pays Up Damages for Libel Suit Judgment

LONDON, Aug. 4.—(By Canadian Press Cable.)—M. H. Thomas, Labor leader, who some time ago secured a judgment for £2000 damages for libel against a Communist newspaper, has now received the money. The whole amount, he says, will be devoted to charities, largely in his own constituency. ....

Confer With Workers on Continuous Loading of Ships on the Tyne

LONDON, Aug. 4.—(By Canadian Press Cable.)—At a meeting of ship owners and colliery owners of Newcastle it was decided to seek a conference *with the transport workers, with the* object of establishing continuous loading on the Tyne by a three-shift system.

Motor Works Must Close Unless Coal Shipments Received

LANSING, Mich., Aug. 4.—The entire army of the Ford Motor company employees will be thrown out of work unless Ford obtains new coal shipments within 14 days, his representatives told the fuel committee here today. The Ford Motor company consumes 3500 tons daily.

OFFICIALS RECOMMEND SYMPATHETIC STRIKE

WILKESBARRE, Pa., Aug. 4.—William *D. Robert, president of the* United Brotherhood of Maintenance of Way Employees and Railway Shopmen, announced tonight that he and S. E. Lenke, also of this city, a member of the brotherhood executive board, had telegraphed President E. F. Grable, at Detroit, their recommendation of a *sympathetic strike* with the railway shopmen. They hold jurisdiction over the maintenance of way employees on 28 eastern railroads from the New York, Ontario & Western, on the north, to the Baltimore & Ohio, on the south.

China had no foreign debt till 1874.

According to Moses, Cain was the first founder of a city.

States Athlete to Compete at Calgary Amateur Field Meet

CALGARY, Aug. 4.—The national championship meeting of the Amateur Athletic Union of Canada for field and track events, to be held at Calgary on Saturday, August 12, assumed international importance on Friday night when the entry of Paul Sharples was received from Pennsylvania. This athlete will compete under the colors of the collegiate branch of the A. A. U. of the United States in the running broad jump and pole vault.

A. I. Miller of Sussex, N. B., will compete in all the jumps, and competitors are expected from every large center in the Dominion. Entries close first post on Monday, August 7th.

Manitoba Sends Thirteen.

WINNIPEG, Aug. 4.—Thirteen Manitoba athletes, in charge of Blake Kempton, manager, and Walter Robertson, coach, will participate in the national track and field championships at Calgary next Saturday. The men are:

C. H. Coaffee, W. E. Belits, R. Smyth, G. Aylward, T. Town, A. Smith, L. S. Armstronng and Archie Murray of the Winnipeg North End club; J. Harris, K. Asseltine, J. Murray and L. Thompson, Canoe club, and P. F. Merritt, Y. M. C. A.

Belyea Shows Great Form in Philadelphia

PHILADELPHIA, Aug. 4.—Hilton Belyea, the 37-year-old veteran sculler of St. John, N. B., gave remarkable displays of his prowess today in annexing the association singles at the Golden Jubilee regatta of the National Association of Amateur Oarsmen over the mile and one-quarter straight away course on the Schuykill river. Belyea looms as a strong challenger for Walter Hoover's supremacy with the sculls. Tomorrow he faces Paul Costello, of the Vesper Boat club, this city, and Louis Shea of the First Bohemian, New York, in the race which carries with the singles title.

Judged by his race today, it will take a sturdy rival to beat him. Hoover will not defend his title because he has not sufficient time to get into condition since his trip abroad.

Intermediate single scull, won by Robert Agnew, Philadelphia; W. C. Boris, University Barge club, Philadelphia, second; Manuel Gomez, Riverside Boat club, Cambridge, Mass., third. Time, 7:57 1-8.

Senior international four-oared shells, won by Vesper club, Philadelphia; Duluth Boat club, second; Pennsylvania Barge club, third; Philadelphia, third. Time, 6:52 4-5.

GIVE WILD WEST STUNTS

VERNON, Aug. 4.—Bucking horses and steers that refused to be ridden by the best cowboys of the Okanagan and interior ranges were two of the features of Vernon's big celebration and carnival held here today.

In the lawn bowling tournament, Lyon's rink of Revelstoke, captured the Howe challenge trophy, emblematic of the championship of the interior from a Vernon rink, while Messrs. Lyons and Marshall, Revelstoke, took the open doubles.

LACROSSE SQUAD HAS GOOD WORKOUT

An interesting and hard workout was indulged in by the Nelson senior lacrosse squad last night, when they went through an hour's stiff playing.

In all 18 players appeared on the field, and a lively practice of passing, checking and shooting was gone through.

One more workout will be held before the game here on Wednesday next, when the Trail stickhandlers invade the city.

FAILS TO SWIM CHANNEL

CAPE GRIS NEZ, France, Aug. 4.—The French swimmer, Poulilly, failed this morning in an attempt to swim *the English channel to Dover.* Although when he entered the water at 8 o'clock, favorable conditions prevailed, light wind and comparatively smooth water, he gave up his task after four hors.

PROF. J. J. CRAIG

Who is testing in the courts the superannuation of rule of the University of Toronto. He claims it is not in accord with his appointment, and that the superannuation of a professor at 65 is an unfair system.

CLONIE TAIT GETS A DECISION AT TORONTO

TORONTO, Aug. 4.—Clonie Tait, Canadian lightweight champion tonight received the decision over Frank Ball of Toronto in a 10-round open-air bout.

Fern Ball, Frank's brother, was knocked out by Tiger Smith, in the last round of their scheduled six-round bout.

NEGRO SHOOTS TWO.

NEWARK, Ohio, Aug. 4.—John Kalman, former Baltimore & Ohio railroad shopman, was shot and instantly killed, and P. Susi, a striking Baltimore & Ohio shopman, was wounded here tonight by Moses Slocum, a negro, who claims to be a United States deputy marshal sent here three days ago.

Propose Iron and Steel Works for British Columbia

VICTORIA, Aug. 4.—Legislation for the establishment of iron and steel works in British Columbia will be put through at the next session of the legislature, *Premier John Oliver* announced this afternoon. The announcement was made following a cabinet meeting with representatives of the Coast Range Steel company, a $15,000,000 corporation organized a year ago under H. J. Landahl.

According to the announcement the *provincial government will unite with* the Imperial and Canadian governments and guarantee as its share bonds not to exceed $4,000,000.

Under plans which have been discussed by the steel people with the British Columbia government and the facilities committee of the Imperial *board of trade, the total investment in* the plant will run to $12,000,000, for the production, ultimately, of 120,000 tons of finished steel a year.

Nationalists Capture Tralee and Are Now Advancing on Listowel

DUBLIN, Aug. 4.—National headquarters at the Beggars' Bush barracks announces that National troops landed at Fenit, county Kerry, and captured the town of Tralee. They continued to advance and seized Tarbet and Ballylong ford and are now advancing on Listowel.

M'LEARIES AND SAINTS PLAY FOOTER MONDAY

Monday night's City league football match between the St. Saviour's club and the McLearies will take the form of a benefit game, in aid of a couple of players who in past matches have been injured to such an extent as to keep them from their work.

This clash will be a real nifty affair, as these two teams had but two points separating them at the end of the first half of the City league schedule.

The Macs were, however, the winners of this half. In Monday's match they will be somewhat handicapped by the absence of Metcalfe at back, who was injured in a recent match.

Traces of the most ancient cavemen found in Europe seem to identify them with the Eskimo.

SMELTER SMOKE CASE NEAR END

Arbitrator Home After Seven Weeks' Hearing at Rossland; Results Two Months

His honor, Judge Forin, has returned from Rossland, where for seven weeks he has been hearing evidence in the arbitration proceedings between a number of ranchers and the Consolidated Mining & Smelting company.

Proceedings were first commenced some years ago by writs of summons in the supreme court, the parties deciding to refer the dispute to arbitration with Judge Forin as sole arbitrator.

The question is one of the extent of damage by metallurgical smoke from the Trail smelter, the injurious gas being known as sulphur dioxide.

Half Claims Settled

There were over 50 claimants, and more than half of them have settled during the proceedings on terms agreed on. The amounts claimed ran into some hundreds of thousands of dollars.

Proceedings have, in the course of time, been conducted by the experts and legal representatives of the company and the claimants. A thorough inspection was made of all the ranches included in the dispute and then evidence was heard for both sides.

Experts from Canada and the United States appeared before the arbitrator. The practical and scientific sides of the issue were dealt with by well-known plant patholigists, farmers and forestry experts.

Witnesses Numerous

Scores of witnesses gave testimony on the respective sides, among others, Mr. Lewis, of Salt Lake City, who for many years was engaged with the United States Smelting company, and Mr. Elmendorf, the well-known mining man of Seattle, gave evidence for the claimants; while S. G. Blaylock, the general manager of the company, Mr. McCallum, the company's chemist, M. S. Middleton, late provincial horticulturist, and Professor Moe of the B. C. University were included with the witnesses for the company.

C. F. R. Pincott is the lawyer for the claimants and R. C. Crowe represents the company. C. W. Tyler was official stenographer.

To File Arguments

Written arguments are to be filed by the solicitors within two months, when the arbitrator will take up his final duties and dispose of the case.

It is expected that this will finally settle the question of economic damage to vegetation by metallurgical smoke.

Climbers Conquer Kokanee Peak and Explore Glacier

A party of Kootenay lake and West Arm residents this week stormed Kokanee peak and explored the glacier which surmounts it.

The party included Colonel and Mrs. Taylor, Mr. and Mrs. Metcalfe A. J. McDonnell and Ian Campbell of Willow Point, Capt. R. Ellis, Capt. F. Oatts and Capt. R. Lindsay of Boswell and Miss Kitty Johnstone of North Nelson. They were joined at the Molly Gibson mine by Mr. and Mrs. Wilfred A. Cameron.

They left on Monday morning and camped for the night at the Molly Gibson mill. Tuesday they made the complete circle of Kokanee lake, climbed the mountain and finished the day at the mine, where they enjoyed the bountiful hospitality of Mr. and Mrs. Cameron.

On Wednesday they climbed to the summit of Kokanee, using ropes and other means of assistance in order to make the stiff climb. All members of the party reached the peak. They then traveled for a mile and a half over the snow, inspecting the glacier.

Returning, the party discovered a new route down the mountain, returning by an entirely different route to that by which the ascent was made.

Install Hose Reel in Greater Nelson

As a precautionary measure the city has installed a small fire fighting apparatus on Nelson avenue in Fairview. This station, which is situated at the corner of Anderson street and Nelson avenue, has axes, shovels and 500 feet of fire fighting hose on a reel built on wheels.

This new station, small as it is, will be a great help if any fire should occur in Nelson's latest residential district.

Well-Known Lumberman Undergoes Operation

News which reached this city from Cranbrook stated that J. S. Deschamps, the well-known lumberman, whose mill is situated at Brichbank, was taken from a train at Cranbrook suffering from appendicities.

Mr. Deschamps, who was en route to his home in Rossland by way of the C. P. R., was stricken before reaching Cranbrook, and it was found necessary to remove him from the train at that place. He was rushed to the Eugene hospital, where an operation was performed.

Latest reports from Cranbrook physicians stated that the lumberman had gone through a successful operation and that he was doing as well as could be expected. Mrs. Deschamps is now at Cranbrook with her husband.

The hand printing press of 1691 would produce about 700 small sheets in 10 hours.

PETITION FOR PRISONERS' RELEASE

United States women petition President Harding to release political prisoners still in confinement.

'PEG PIONEER VISITS CITY

Angus McDonald Admires "Glad-to-Meet-You" Spirit of Nelson

One of Canada's best known men, president of the Great West Life Insurance company since its inception 31 years ago, and owner of the long chain of Macdonald wholesale grocery establishments located in every large city in western Canada, arrived in Nelson last night on the Crow boat from Winnipeg, in the person of Angus McDonald, who is visiting the local house of A. Macdonald & Co., on his way to Vancouver.

Mr. McDonald is one of the early pioneers of Winnipeg, coming from his home in Perthshire, Scotland, to that city 51 years ago, when there were less than 500 people located there, and when it was known under the cognomen of Fort Garry. He turned out the first copy every printed of the Free Press 50 years ago, on the old style hand presses, and was at one time owner of the Tribune.

In referring to the crop situation on the Canadian prairies, Mr. McDonald stated that the indications were for a bumper crop in almost every section, and trading was taking on an optimistic aspect in view of this.

Mr. McDonald has a warm spot in his heart for Nelson, stating that one would go a long way to find a niecer or prettier place where the people are always so hearty, congenial and genuine, and where they meet one with a real glad-to-see-you look and manner."

NAVAL CADETS NOW IN CAMP

Trail Boys to Share Outing at Syringa Creek; Obtain High Awards

Syringa creek on the lower Arrow lakes will be the headquarters of the Trail Naval cadets for 10 days, commencing on Wednesday last, according to word received from the Trail cadet headquarters.

In all 40 boys will go under camp under command of Warrant Officer H. L. Jackson, R. N. R. Great credit is due to the citizens of Trail for securing such an outing for the Smelter City cadets, who have in the past year made a name for themselves throughout British Columbia. The officer in command of the camp is desirous of hearing from any ex-naval officer who would like to visit at the camp which is now established, in order to put the lads through an inspection.

Trail has great reason to be proud of these cadets as in the last inspection the Trail boys received the highest percentage for drills and general routine work of all cadet brigades in British Columbia. The officer in charges received a personal letter from Brigadier-General Ross, D. S. O., commanding M. D. 11., congratulating the instructors and boys for their smart work.

In the near future the corps will be sending two teams to the coast to compete in the first aid competitions which will be held there.

BOY SCOUTS PASS FIRST AID TESTS

No. 1 troop, Nelson Boy Scouts, who have been coached by Instructor D. McFarlane, recently underwent a first aid examination. Those successful in the second test first aid included: Ralph Berry, Crofton Hall, Roy Johnston, Gilbert Anderson, Bob Hall, Edward Rhodes and Arnold Carlson.

Before the introduction of centrifugal machines in 1850 sugar was light brown instead of white.

RHEUMATISM
Apply Minard's Liniment to the aching spot and get quick relief. The remedy your grandmother used. Nothing to equal it. 11
MINARD'S "KING OF PAIN" LINIMENT

Reduced Freight Helps to Offset Rising Market

WHOLESALE ROW.

Local wholesale prices on all grocery lines are holding fairly firm and showing an upward tendency. The recent reduction in freight rates between Nelson and Vancouver will reflect back on commodities. The fifth class rate, which is the general rate for car lot goods, is reduced from 93 cents to 81 cents per 100. Wholesalers report steady business without any great increase, yet prospects for the fall are said to be unusually bright.

Sugar—Slight advance over last week.

Syrup—Rogers', 60c advance per case of 24-2s, 70c per case of 12-5s and 75c on 6-10s, due to the increased prices on sugar.

Raisins—New pack on arrival will be somewhat cheaper than prevailing market.

Canned Fish—There is little to note in the canned fish situation. Salmon of the sockeye, pink and cohoe variety is ruling fairly firm. Prices ruling for the new pack have been named at slightly higher prices.

Canned fruits—Opening prices have been announced by California packing houses, who advise that a number of lines have been oversold, which will mean advanced prices. The new pack will arrive on a practically bare market.

Prunes—There is little, if any, change in the prune market. Reports show an active market in this line. A heavy export inquiry is reported and present prices are firm.

Teas—All advices received during the past week indicate a strong tone and a firmer market is expected.

Flour and cereals—Market continues to rule steady.

Starch—An advance of ¼c per pound is reported on laundry and corn starch.

Canned milk—Firm, with a likelihood of advance in the near future, due to the dry season and shortage of pasture.

Biscuits—Manufacturers advise an advance of 1½c per pound on all bulk sodas.

Cotton goods—All grades 5 per cent higher, with prices for this year's crop pending.

Furniture—All hardwoods of lesser grades have dropped 7 per cent. High grades remain firm.

Carpets—Five to 6 per cent decline.

Metals—Hardware: Tendency is for a slight increase. Latest developments in the past few days mark increase in price of nails and iron, and with these commodities arising tendency is for other lines to follow.

Paints—Steady.

Leather—Tanners advise a slight advance in the price of packers' hides. Several changes have been felt in the last few weeks.

Hay—Arrival of new crop has been delayed on account of car shortage, due to strike conditions.

Mining Activity Developing on An Imposing Scale

R. H. Graves, the mining man from Poplar creek, passed though the city on his way home on Thursday. Mr. Graves has been up in the Kaslo country, where he was inspecting the Bullock mines. He was very optimistic over these workings and predicted some excitement in the near future.

Reports from Sandon state that a mine crew of 26 men are busy on development work and breaking ore for shipment in the fall.

John B. White, R. C. Laners, in company with John Moriarity, Dr. H. C. Lampblack, H. F. Sexon and H. G. Klopp, all of Spokane, returned to Nelson yesterday on their way home from the Slocan country, where they have been inspecting several mining properties.

The Standard mine and mill, situated at Sandon, has been leased by H. Kelsall and party, who will put things in order and will sortly commence operations.

H. Gienerich Sr., accompanied by H. Gienerich Jr., of Kaslo, accompanied by Mr. Green, the provincial land and mining surveyor, are at present in the Slocan country making a survey of the Panama mine, which is located at Zincton.

The Alama mill, near Sandon, will, according to reports, be running at full capacity early next week. The recent discovery at the Monarch mine has proven to be much larger and cleaner than at first anticipated.

Printed Butter Wrappers
Either With Your Name or with the words
Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words
"DAIRY BUTTER"
The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled, even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

Prices
PRINTED WITH NAME OF FARMER OR BRAND NAME
If you have your own name or brand on your wrappers you gain valuable advertising for your butter. It causes people to ask for the same brand again.
500, Paper and Printing $4.25
1000, Paper and Printing $7.00
PRINTED WITH WORDS "DAIRY BUTTER"
100 for $1.00
250 for $1.50
500 for $2.50
1000 for $4.50

SATURDAY, AUG. 5, 1922.

Doctor of the Future

The physician of the future, according to Dr. George E. Vincent, president of the Rockefeller Foundation, will be more a periodic examiner and health counsellor than an emergency man called in after disease has made serious progress. Certainly there is need of periodic examination by physicians of persons seemingly not in bad health. The evidence is overwhelming that the mortality rate could be greatly reduced by such a practice.

Take for example, the statement recently issued by the American Society for the Control of Cancer. Ninety thousand persons died of that disease in the United States last year. "A considerable percentage of those who died could have been saved," we are informed, "had they known of their ailment in time." The same is true of tuberculosis and other insidious diseases which frequently creep on one unawares and which are responsible for the deaths of many who, if they were regularly examined by a physician, would nip the malady in the bud and so be permitted to live many more years.

Indeed the value of such examinations is now so widely recognized that it has been proposed they should be made compulsory. The Canadian people, however, are prepared for no such invasion of their personal liberty, though admitting that it is justified in the army and to a certain extent also, perhaps, in the public schools.

The movement for voluntary physical examinations is rapidly spreading in the United States. The "life extension institute," organized by Chief Justice Taft, Professor Irving Fisher and others, is adding largely to its members. Physical examinations, if carried to the limit in thoroughness, with blood tests, chemical analyses of other body fluids, X-ray photographs of the teeeth, etc., are somewhat of a nuisance, and more or less they are well worth while and economical, if they help to keep one out of the hospital.

A Job for the Red Cross

After making all arrangements to investigate Turkish attrocities, the allies have decided to entrust the task to the International Red Cross. It is well that the Red Cross representatives should perform this duty, and they can be depended on to do it thoroughly. Many of their workers have first-hand knowledge of the Turks' treatment of the Christian population and their interference with the agents of the Near East Relief and similar organizations.

This inquiry has been delayed so long as to take on the nature of a post-mortem. Earlier action might have saved many lives. Still if it results in the presentation of facts which the allies can no longer ignore, it will have served a good purpose. Major Yowell of the Near East Relief, who was among the citizens recently expelled by the Turks from Harpoot, says the deportations are "the culmination of a long series of unfriendly acts by the Turks and are the prelude to fresh Turkish outrages against all the remaining non-Turkish population in Asia Minor. Unless outside interference comes soon the final chapter in the history of Asia Minor minorities will shortly be completed."

A relief work tells of seeing 5000 bodies of Armenian refugees on the road to Harpoot. There is no doubt that the Red Cross inquiry will bring out the whole horrible story.

What the Press Is Saying

No Bolshevism Required

A few years of Swaraj of the promised kind, even if there were no domestic anarchy would reduce India to a state of barbarism. We do not know anything of the greatness of India in Vedic times. Those times have been reconstructed for us not by historians, but by poets. What we do know is that when India was great under her own sovereigns, she was administered very much as the British administer her now. There were rulers, officials and an army. Taxes were collected, road and public works of various kinds were undertaken, commerce was encouraged. If India is to continue great outside the British connection she must be governed like any other great country. No Bolshevism or Tolstoyan experiments.—The Englishman.

Spoiling the War.

The airplane of the 109th Aero squadron of the National Guard, which is Minneapolis' own, went out and gummed up a sham battle in the National Guard practice near Madison, Minn., the other day. It was the only airplane in the field. The chances are it is the only airplane in the National Guard of the United States. And that after all the bitter lessons the country is supposed to have learned in the late war. It is utterly silly today to send any kind of soldiers out anywhere for any kind of maneuvers without approximating the conditions under which the maneuvers would have to be conducted in war. And that means there must be airplanes on both sides, not merely one airplane that comes along and gives the whole thing away and spoils the war.—Minneapolis News.

Efficient Housekeeping

BY Laura A. Kirkman

HELPFUL HINTS FROM READERS

It makes one feel that it's a pretty generous-looking old world, when busy housekeepers stop in their work to take time to write me a letter containing some household hint that will help other women. The following are splendid:

Anonymous—"I noticed in your column that Mrs. J. M. would like to know how to wash out lettering on flour bags. The following is a method used by a certain biscuit factory (who use flour bags for pan holders): Rip the stitching, then dip the bags in cold water (soft water preferred). Rub any good laundry soap on the lettering, roll up and let soak a while, then wash out and boil in a strong suds. After this treatment, the letter will be gone. If not, repeat the process."

M. K.—"I recently noticed that one of your readers wanted to know how to bring back lustre to amber beads which have been washed. I simply put a few drops of olive oil on a soft cloth and polish the beads gently (do not unstring them). Then I roll up the beads in the cloth and leave for some time till they have absorbed the oil. They will be as bright as when new."

E. D.—"I read in your column that 'Theresa A.' wanted to know how to remove scorch stains from a dress. I would like to have her know of this method, which my husband used when he worked for a tailor, some time ago: If the scorch is not so bad that the material is not burnt, the scorch stain will come out by steaming. To do this, lay a wet piece of cloth over the scorched spot, and iron over the wet cloth. Do this again and again till the scorch stain is entirely gone."

G. L.—"Have you ever tried a paper bag over the cutter part of the food-chopper, securing it there with an elastic band, when you are putting stale bread through the chopper to make bread crumbs? This prevents the crumbs from flying about, and they are all ready to pour into jar or can."

L. K.—"I think that the following is a better egg-preservative than water-glass: Dissolve one quart of lime in eight gallons of water. This makes enough of the solution to preserve 40 dozen eggs. It is a very old method. The eggs never spoil in it, even if they chance to be cracked."

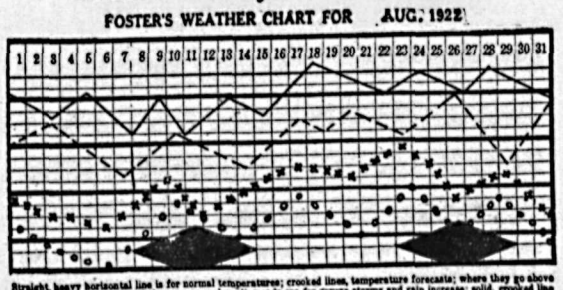
E. B.—"Our receipt for canned frosting is different from yours, so I am sending it for publication: Two scant cups of brown sugar, one heaping tablespoon of cornstarch, one-half cup of sweet cream, one tablespoon butter; stir all these ingredients together and boil till thick, then spread on cake when cool."

A Reader—"Here is a discovery I have made: When a pan has anything in it that is hard to wash out, (like cooked oatmeal), sprinkle a handful of common table salt in it, let stand a few minutes, and the contents will wash out easily. Salt is fine for loosening anything that sticks."

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use YOUR full name, street number, and the name of your city and province.—The Editor.

Foster's Weekly Weather Bulletin

FOSTER'S WEATHER CHART FOR AUG. 1922



Straight, heavy horizontal line is for normal temperatures; crooked lines, temperature forecasts; where they go above normal line means warmer, below means cooler; diamonds are for severe storms and rain increase; solid, crooked line for all north of latitude 36 between meridian 90 and Rockies crest; broken line for south of 36, between meridian 90 and Rockies crest, also Louisiana and Mississippi; X line, east of meridian 90, north of 36; O . . . line, north of 36 and west of Rockies crest.

WASHINGTON, Aug. 5.—As the first severe storm period of this month, covering about seven days, centers near August 11, I will give some special explanations. If I do not say dangerous don't expect danger. I have no better term than "severe storm" to express weather extremes. Severe storms, not necessarily dangerous, sometimes cause extremes of heat, cold, rain, drought, snow, floods, hail, wind, thunder storms, frosts, hot winds. The severe storms near August 11 will be of a character that require watching, though not expected to be very dangerous. Crop weather for middle third of August will be of the same kind as for past three months, but a little more extreme than the average. I have no personal interest in wheat, corn, oats or cotton, but I still advise farmers to sell their old cotton, but hold their grain. My reputation is at stake on farmers getting better prices for grain later this year. I also advise local dealers to buy and hold all the grain they can carry.

Local Forecasts.

Northeast—Low temperatures near August 6 and 12, high near 10, averaging below normal; more than usual rain during next seven days, distributed near the average of past three months.

Northwest—Low temperature near 7 and 11, high near 10 and 13, averaging lower than usual; more than usual rain for those eight days, distributed about as the average of past three months.

Southwest—Low temperatures near 7 and 14, high near 10, averaging lower than usual; more than usual rain, distributed near the average of past three months.

Pacific slope—Low temperatures near 6 and 13, high near 10; less than usual rain distributed westward of the gaps in the Rockies, because the moisture from the Caribbean sea must pass the Rockies. Following August 22 moisture for Pacific slope will come from west of Mexico and Pacific slope rain will increase for a short time.

The cotton crop will get a good top growth and the crop will be better than now appears. Grain of North America will be near the 10-year average; Europe, Australia, New Zealand will be immensely short; South America will have a shortage, but not so great as Australia.

Not an opium smoker, but a silversmith of Lucknow.

Styles

BY LENORE

The dummy lady in the sketch shows how original a simple sport blouse may be. It is built on the tailored lines of a man's shirt, with finely tucked bosom, but shows a scarlet and black monogram on the tab in front that isn't the least bit mannish. The collar may be worn

buttoned high, low to the neck, or opened into a deep V.

Practically any serviceable material may be used for the skirt, the simplicity of the pattern lending itself to cloth or the heavier silks, in solid colors, or in stripes. Two slender panels are inset at the sides, and the uppermost "V"—one-inch wide self-material straps are used in this idea—outlines a fairly deep and serviceable pocket.

What Do You Think?

The Daily News invites letters from readers upon matters of public interest. A non-de-plume may, if desired, be employed, but every letter must be signed by the writer as a guarantee of good faith, though not necessarily for publication. Letters should be brief and must avoid personalities. The Daily News does not hold itself, in any way, responsible for the views of correspondents. Letters which contain advertising matter or propaganda which is classed as advertising will not be accepted under any circumstances.

Lack Spotsmanship and Manners Charge Against Some Visitors to the Pool

To the Editor of The Daily News:

Sir—They came in a car. There were two young fellows down here from Nelson. There were two ladies with them. They had a boat for four or five hours and they went away without paying for it. I put a table in the shade for these people to eat off and they went away and never cleaned it off, but just left it the same as a lot of pigs had been eating off it. They took a lard tin off my porch, a new one, and made tea in it, burned it up, and when they got through with it they threw it on the ground.

There will come a time when they will have to bring their own boats down here. We try our best to help these people out and we get the cold shoulder. Some of them come down here and we take them out and if they don't catch fish they kick and growl all the time, and we do our best for them. They think we should supply them with boats and attend to them and not charge them anything. Some of them are all right, but others kick all the time. We would rather the ones who kick keep away. If not satisfied, we can't help it. If the fish don't bite, they ought to get someone to hook them on for them. Yours, etc.,

J. KILLEY.

South Slocan, August 2, 1922.

Twenty Years Ago

FINE OLD TIMER CROSSES DIVIDE

Dies on Trail in Mountainous Wilds; E. T. Johnson Had Adventurous Career

INVERMERE, Aug. 3.—The body of Thomas Johnson was discovered on Tuesday afternoon by a search party not far from the pack trail leading to the main road 40 miles from here. Evidence shows he reached Sheep Creek spring, where he had come in search of land, but apparently overcome from fatigue and heat exhaustion had laid down and died while aid was hurrying to his rescue. Burial took place on Wednesday at Windermere.

On Thursday of last week Mr. Johnston, who was 79 years old and retired, left the ranch at Fairmont Hot Springs, where for some years he has been residing, and going by train to Canal Flats left from there on foot to visit the hot springs on Sheep creek, some 14 miles distant in a rough, mountainous and uninhabited country.

Before leaving he remarked that if he did not return in two days a search party should look for him. Not coming back search was made by some of his friends, but without success.

Finally, a large search party was organized, under Hardwick Grainger of Canal Flat, many of Mr. Johnston's friends being amongst the number, and a thorugh, systematic search was carried out, with the tragic result recorded.

The long time which had elapsed since his departure, Mr. Johnston's great age and the extremely hot and smoky weather which has prevailed had caused much anxiety as to his welfare.

Ranking as he has done amongst the strict old-timer class of the eastern interior of British Columbia, Edmund Thomas Johnston's life is well worthy of a review at length. Those who know the eastern interior in the days of the early '80s are slowly but surely narrowing their numbers.

Mr. Johnston was of Irish descent, his father being George Bell Johnston and his mother Emily Sophia Donnelly. One of a family of eight, four brothers and four sisters, he was born on September 2, 1843, on his father's farm in the township of Moore county of Lambton, Ont.

Had Roving Disposition.

When 17 years of age he took to the water and became quartermaster on a steamer sailing between Buffalo and Duluth. After four years of seamanship he left the lakes for life as a miner, going in 1864 to work for a New York company operating at Black Bay, part of Thunder Bay. One year at that work and he returned home for a spell, leaving again in 1870 for the western states. He visited Minnesota and then on to Louisiana.

Still wandering, 1872 found him in California, where he remained but two weeks, and then shipped on a lumber hooker, which took him to Puget sound. Still bent on mining, he left Puget sound in the fall of 1873 and, passing over the Coeur d'Alene mountains by the old Mullan road reached the Missouri river, then up the river to Superior, Mont., where for the next eight years he engaged in placer mining, when, moving north he journeyed on through Horse Plains to Thompson Falls.

Conditions there becoming too quiet for an active man and hearing of the stirring times created in British Columbia by the advent of the Canadian Pacific railway, Mr. Johnston worked on up into the Windermere district, arriving in this part on October 4, 1882.

Traded Guns for Ranches.

Those were exciting days in this part, land and anything stable in its character was of but little value, as instanced by Mr. Johnston's statement that he traded guns for two of what for many years were afterward the best ranches in the neighborhood of the village of Windermere. It was not for him to remain in that neighborhood for long, so proceeding further north he located a ranch just outside the 20-mile limit of railway construction and in a tent opened up a hotel on the main pack trail running north and south, which became famous under the name of "the Hog ranch." The late George Starke of this place became a partner.

After construction days and the opening of the sale of liquor on the line of railway the "Hog ranch" closed down and Mr. Johnston took up farming and mining as his pursuit. In the many years which he has lived in here he took up and owned many of the best farms, and owned, bonded and sold many mineral claims.

As an old-timer his tall, stately figure and ability to tell stories of the early days made him a well liked and distinguished person whom every one rejoiced to meet.

In 1912 he married Mrs. Rose May Brown and two little girls, Edith May and Leona Frances, were the result of the union. Mrs. Johnston died in 1914, since which time Mr. Johnston has been lying in the neighborhood of either Canal Flat or Fairmont Hot Springs.

From an old motorcycle engine a suction pump may be readily constructed.

LUMBERJACK GETS NEWS OF FORTUNE

According to Swedish Advices Inherits Quarter of Thirty Million

WYCLIFFE, Aug. 4.—On Monday of this week, Fred Sandberg, a lumber piler in the employ of the Otis Staples Lumber Co., received a letter from Sweden stating that he was heir to one-quarter intrest in an estate of $30,000,000 left him by an uncle who died recently in New York.

Kaslo Students Win Honors in Music at Recent Examination

"DR. FOWLER'S"

Saved the Lives of Four Children

Diarrhoea, dysentery, cholera infantum and summer complaint are responsible for more deaths, especially among children, during the summer months than any other form of disease. According to statistics, in the City of Toronto alone, in the past five years out of 1008 deaths of children, from diarrhoea, 757 died during the four summer months. It therefore behooves every mother to look after her children on the first sign of any looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has been proven to be the best there is.

Mrs. Herald Sellers, Pennifield, N. B., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of four of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I will always recommend it, and now always have a bottle on hand in case of emergency."

Price, 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is Indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have Indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal. "FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your Indigestion or Dyspepsia and enable you to enjoy every meal. Try it.

Sore, Tired and Blistered Feet

Bathe them in hot water, then rub well with MINARD'S LINIMENT. It will relieve you. Never be without a bottle. 10

Bathe with the Soap and hot water on rising and retiring, using plenty of Soap. If any signs of pimples, redness or roughness are present smear with the Ointment and let it remain five minutes before bathing. Always include the Cuticura Talcum in your toilet preparations.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

HOTEL MENUS

We print Hotel Menus, either with complete menus or with the different headings and blank spaces for typing in the bill of fare,

The Daily News Job Department

The Home of Good Printing
Nelson, B. C.

The Kootenay Veteran

Appearing Weekly.

The G. W. V. A. is an organization of the returned soldiers of Canada.

Its aims are:

To enshrine the memory of those who died.

To maintain the ties of comradeship.

To cherish in loving care the widow and the orphan.

To assure due provision for the sick and disabled.

To lend the strength of numbers to the cause of the weak.

To hold aloft the torch of unselfish service.

To perpetuate British ideals.

'Shun!

Branch correspondents kindly have copy in at first of each week. What are your regular meeting dates?

Veterans who have constructive ideas that might benefit the returned men or the Association, please loosen up.

Prospect of Completion of Memorial Is Pleasing

Nelson Branch.

The people of Nelson, and the G. W. V. A. in particular, feel a great degree of satisfaction at the prospect of at last having a suitable memorial to the memory of those who remained over there.

The site chosen meets with general approval. *The material, the finest of* native white marble, is now in the city and is already being prepared, the belief being that the monument will be ready for formal unveiling on Armistice day, which would lend a particularly suitable impetus to the ceremonies annually carried out on that occasion in this city.

Parliamentary Veterans Render a Good Account

Nelson, with other branches of the association, hail with great satisfaction the reports of their particular members on the proceedings at Ottawa during the past session of the house in connection with what pertains to the welfare of the returned man and his dependents. *Comrades Maxwell, president,* and McNeil, secretary, wrought like heroes, knowing but little rest night or day whilst the sittings lasted. On frequent occasions they had hard battles to fight, but their ability and perseverance generally overcame the opposition met with and the results of their efforts were not only successful in most instances, but in some cases even more was obtained than was generally expected. *The West Kootenay* member, Comrade L. W. Humphrey, who had the distinction of being appointed a member of several committees, was of great assistance to the representatives of the G. W. V. A. on many occasions, and well deserves the gratitude of the many who will profit by his efforts.

The appointment of the royal commission was a matter which veterans *may feel perfectly confident will have* splendid results, and Comrade Humphrey assures that their investigations will be full, fair and free from all political influence.

Looking for New Home and Planning a Picnic

Fernie Branch.

Executive and general meetings were held on Thursday evening, Past President H. Bryant giving his report on the zone convention, which was held here a few days ago. Quite a number of cases are being looked into of local comrades who have not been treated as well as one woud like.

The usual picnic of the G. W. V. A. is fixed for August 13 and will be held at *Morrissey,* leaving Fernie by trucks in the morning from the headquarters at 9 o'clock. The Ladies' auxiliary will provide good things to eat and the veterans will find the transportation.

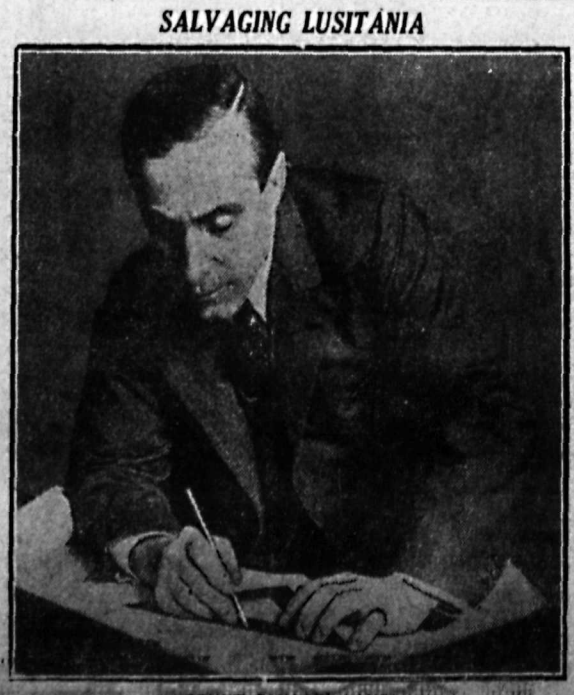
The reconstruction committee called a public meeting, which was held in the city hall July 31, to decide what should be done with the money left over after the shafts were bought, but nothing was decided. President Uphill and *Comrade Bryant were there to represent* the returned men, who are trying hard to get a building for the G. W. V. A., as their lease of the building they now occupy is nearly out and they will have no place to go if turned out.

Nothing was done at that meeting, but a special meeting is called for Sunday for all returned men to draw up plans for the disposal of the surplus money, which was at one time meant *for a home for the returned boys.*

Comrades Bryant and F. Yeabry had old Spud Murphy out of the hospital this week for a car ride and he is looking a lot brighter for the little trip he had.

Secretary D. Markland has been laid up in bed for a few days, but is now much better.

SALVAGING LUSITANIA



COUNT CANARDI LANDI

In charge of the British plans to salvage the Lusitania.

AUTO TOURIST CAMP PLEASES

Visitors Pleased With Situation and Convenience of Local Camp

Nelson's well lighted and spacious auto camp, which has for the past month and a half been occupied almost daily by auto tourists, has received some real fine compliments from visitors to it.

First visitors to the local camp were a party of tourists who came in on the *night of June 6.* In this party were Colonel Armstrong and wife, accompanied by W. Grieve of Calgary. This party went into an unprepared camp. However, Colonel Armstrong was loud in his praise for the auto camp. "We certainly appreciate the efforts of the people of Nelson to make so commodious a camp ground, and do not hesitate to state that their efforts will be repaid a hundred fold," was the remark made *by the first tourist camped on the local* grounds this season.

Since June 7 the camp has been in constant use. Parties have camped in it who have come from the prairie provinces, from the coast, from the United States and from points closer home. Not one voice has been raised as far as is known in protest against the location or conveniences of the camp. In fact, all campers who have *used it have passed very favorable* remarks about it.

Tourists Recommend Register.

A register placed in the camp with a space for comment would be a good move on behalf of the local automobile club, as this would enable an accurate count of cars using the camp in the season. A register is at present being kept in the city, but a large number of cars are missed at times.

"Finest place on our trip," "Free from mosquitoes," "Has fine accommodations," and many other encouraging remarks are written in the register now in use.

Following are the names and home towns of some of the tourists who have visited the camp this season, as well as some of the remarks made by them:

Visitors and Their Comments.

July 12—J. B. Colver and family, *Moose Jaw:* "Been here a week; finest place on our trip."

July 12—E. A. *Temple and family,* Vernon: "Free from mosquitoes."

July 12—Mrs. H. Headley, Trail.

July 14—J. Jakinson, Wetaskiwin, Sask.

July 14—C. W. Traves and wife, Grand Forks, B. C.: "A credit to my old home town."

July 15—G. C. Lawrence, Spokane; *Doris Lawrence,* Spokane; Claudia Loop, Spokane: "Can truthfully say that *Nelson tourist camp is the most* comfortable camp we have found in British Columbia. People so congenial. Shall come again."

July 16—C. L. Bower, wife and family, Sidney, Mont.: "First-class and well lighted."

July 18—W. W. Sexton and wife and family, Swift Current, Sask.: "The accommodation of camp much appreciated."

July 20—G. A. Mitchell and wife, Calgary: "The best place to camp on our trip."

July 21—P. W. Haworth, Pasco, U. S. A.

July 21—Earl Gilmore and wife, Spokane: "Arrived 10 p. m., found good, dry, well lighted camp."

July 24—H. N. Jackson and wife, Lorne Jackson, Miss Marion Jackson of Spokane: "Fine, good roads in British Columbia."

July 24—P. Rogers and wife and *family, Gadsby, Alta.:* "Park much appreciated by tired travelers."

July 26—Capt. George Bain, Mrs. Bain and son, Alastair Bain: "Travelling from Calgary, Alta., to Vancouver island. Appreciate very much the *pleasant* situation and conveniences of the camp."

July 26—Albert Trash and Walter Cook, Calgary.

July 28—B. W. Biddlecoren and family, Veteran, Alta., A. W. Caulfield, Veteran, Alta.: "Park has fine accommodation."

July 28—J. S. Davidson and wife and family, Calgary.

July 28—Percy Bennett and wife, Calgary: "Mighty fine camp."

Is Hero of Romance

SIGNOR GUIDO PODRECCA

Distinguished Italian anti-clerical journalist, who is now visiting Canada, accompanied by his bride. His recent marriage is the outcome of a romance which began 16 years ago, when he saved the young lady who is now his wife from drowning.

Communication Between the Planets by Electron Flow; Solar System Is an Audion

By H. GERNSBACK

Member American Physical Society. Editor Science and Invention and Radio News.

THERE is nothing new under the sun, goes the old saying, and the older it becomes the truer it is. We are wont to think, for instance, that the audion as developed by Fleming and De Forest is comparatively a new invention of not more than twenty years' standing, at the utmost.

It will probably come as a shock to most people to learn that the audion principle is one of the oldest in the world, and dates back at least several billions of years. It shows as usual that man after all his ingenuity finds his peer in omniscient Nature.

The exact counterpart of the audion or vacuum tube is found in the heavens, as will be made clear in the following:

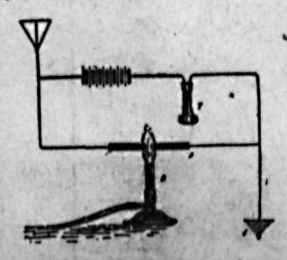
In the audion tube we have first a filament, a grid and a plate. This will be seen from Fig. 2. The filament has the office of sending out electrons, i. e., highly charged electrical particles, which passing through the open grid, strike the plate P. This electronic bombardment goes on as long as the filament F is in full incondescence and the plate at a positive potential. We make use of an incandescent filament in the vacuum tubes of today because it is the simplest means of controlling the electronic flow.

The filament, however, is not absolutely necessary. Any glowing body heated to incandescence will do the same trick. Indeed, DeForest, in his early experiments, used an ordinary Bunsen burner, as shown in one of our illustrations, to obtain an electronic flow. He found that this worked exceedingly well, the only trouble being that the gas burner was not steady enough for practical purposes.

In Fig. 2 we also find that for best results the three elements, namely, the filament, grid and plate, should be enclosed in a glass vessel, the latter to be exhausted of all air. While the device works under ordinary atmospheric pressure, as demonstrated by DeForest's Bunsen burner audions, it has been found *that for best results an evacuated* vessel which has a very good vacuum should be used.

Now let us lift our heads from our experimental tables, heavenward. If we refer to Fig. 1 we find that all the conditions of the vacuum tube shown in Fig. 2 are duplicated in our own solar system. The sun now becomes the filmament, or the glowing body. The earth becomes the plate, while the moon, which is between the sun and the earth, becomes the grid. Nor does the analogy stop here by any means.

As we know well, for many years the sun has been sending earthward a constant stream of electrons, bombarding the earth with these, exactly as the filmament bombards the plate. The effect is not only analogous here, but it is literally so as well. As a matter of fact, the electrons sent out from the sun to the earth are not at all different from the electrons sent out from the filament of the vacuum tube. Both are identical, *and both have exactly the same* physical character.



One of the earliest types of audions designed by Dr. DeForest. A Bunsen burner was used for the filament which is the most primitive form of producing a flow of electrons.

The sun and its planets are moving in a vacuum,as we well know. This vacuum, scientists tell us, is far more perfect than the best vacuum we have in our vacuum tubes. For this reason, if for no other, the electronic transmission between the sun and the planets is far more efficient than in our vacuum tubes.

In Fig. 3 we consider the sun with the various planets as a whole and the counterpart would be a vacuum tube with many grids, as shown in Fig. 4. If, for instance, you were located on the planet Jupiter, you could consider that Mercury, Venus, the Earth, and Mars were part of a grid, as shown in Fig. 4.

We can go still further citing another analogy. We know what happens in the average vacuum tube when the voltage becomes too high. The entire inner tube becomes enveloped in a blue glow. In technical parlance this is called "sloping over" or "running over," due to excessive voltage. This *blue glow is due to the rarified* gases inside of the vacuum tube. The same are our northern lights—Aurora Borealis — as shown in Fig. 5. These northern lights, as is known today, are nothing but an electrical phenomenon, the same as that which occurs in a vacuum tube. Not only that, but the cause is identical, that is, excessive voltage. On Earth, whenever we have northern lights they can usually be traced back to solar upheavals such as sun spots and the like. Whenever this sun spot activity starts upon the sun, the electronic flow from sun to earth become very much larger than usual, and the immediate effect upon the earth some hours or days later is that the rarified atmosphere extending about 200 miles beyond the poles becomes highly electrified and the blue glow is the result.

Consider now Figs. 7 and 8. In this case, when the moon comes directly into the path, hiding the sun, we have what is termed a solar eclipse. The sun is entirely blotted out, and all electronic flow from the sun to the earth is stopped. We have the counterpart in a vacuum tube constructed as shown in Fig. 8. We know very well that if we have a positively charged plate P-1 midway between the filament and the plate P, but little current will reach the plate P. Hence the necessity of the grid.

This condition has its counterpart in the solar eclipse when not only darkness covers the earth for the path of the eclipse, but it has been actually proven that all other phenomena on earth caused by electronic transmission, are cut off as well, for the reason that the electrons cannot pass through the heavy body of the moon. As soon as the moon moves on, the old relations are established again, and we then have the true condition of planetarian communication.

What practical results can we take from this discussion? It would seem as though there would not be any, but there is no doubt that in years to come, practical use will be made of the idea. Just how it will come about, no one can tell. One result may be interplanetarian communication.

Consider Fig. 9. We notice that *here we have the Earth and Mars* opposite each other. This condition is reached during the month of June this year when the two planets will be in opposition. It goes without saying that electromagetic transmission of intelligence should be relatively easy from Earth toward Mars, for the reason that the electronic flow is in the direction of the Earth toward Mars. Just as we are using continuous waves (carrier waves) upon which we implant speech currents in radio telephony, just so will we use in future years the sun's electronic flow as a carrier upon which to impress our radio waves, to be carried out into space.

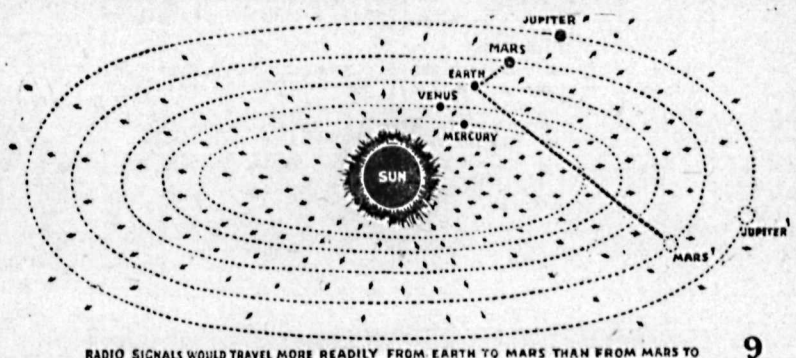
From this diagram it will be understood that if there is a superior intelligence upon the planet Mars, why it is so tremendously difficult for them to get into communication with us. It makes no difference at which point of the orbits Mars and the Earth respectively are, Mars can never be in any position where the condition will be reversed. Mars will always have to send intelligence against electronic streams, which is almost impossible.

It is as if you were trying to send the electrons in a vacuum tube from plate to filament, a thing that is almost impossible to do with a small amount of energy. Consider that the sun is sending out a tremendously large flow of electrons and it will be realized how difficult it is for the Martians to work against the stream. It is as if an ant were trying to swim up Niagara Falls.

The same is true of all the exterior planets, as for instance, Jupiter or any of the others. Wherever located in their orbits when signalling to us, they would always be sending against the stream of electrons. On the other hand Venus should be in a favorable position to send intelligence earthward, just as the earth is in a favorable position to send Marsward or to the other exterior planets.

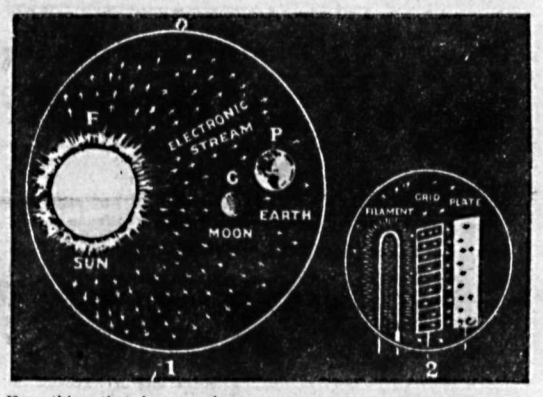
Here the expert steps in and says that it is impossible for our radio waves ever to leave the earth, due to the so-called heavy-side layer. It is our opinion that the heavy-side layer presents no great obstacle for radio waves. It is our firm belief that the thin blanket of air only measuring about 30 miles is not sufficient to stop the *radio waves, even though our experts* may tell us that the upper layers of the atmosphere of the earth are constantly ionized. It is our belief that our atmosphere is no thicker in proportion than the gasses adhering to the surface of the grid plate, and perhaps vastly less.

We know that in a vacuum tube nearly all gasses cling in a thin film to the grid and plate as well. Does this make electronic flow impossible? Certainly not. The diameter of the earth is 8000 miles and the film of air on the surface —our atmosphere—is 30 miles thick. It is almost certain that the layer of gas on the plate of an audion is greater in proportion than the atmospheric layer on the earth.

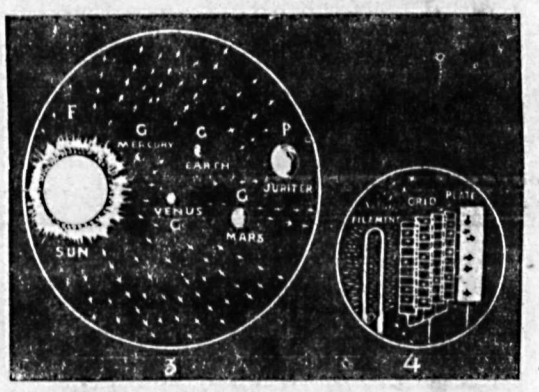


RADIO SIGNALS WOULD TRAVEL MORE READILY FROM EARTH TO MARS THAN FROM MARS TO EARTH, OWING TO THE CURRENT OF ELECTRONS RADIATING FROM THE SUN MARSWARD

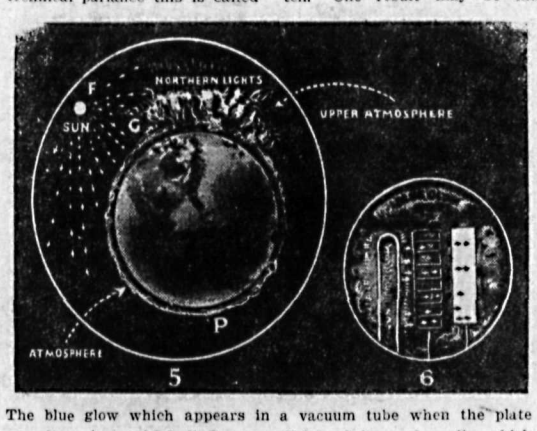
On account of the direction of the flow of electrons from the sun it would be practically impossible to transmit radio signals from Mars to the earth, although transmission would be possible in the opposite direction.



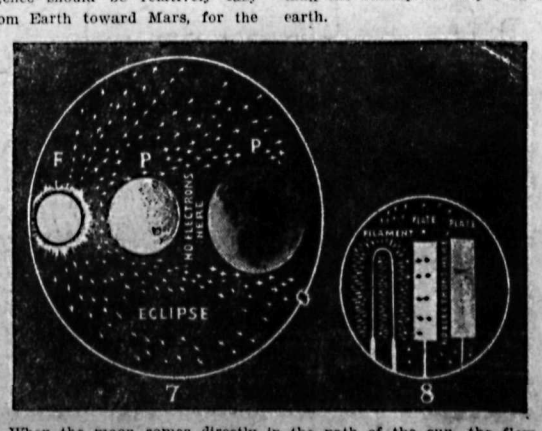
Everything that happens in a vacuum tube is duplicated in the *solar system. The sun corresponds to the filament, the earth* to the plate and to the moon to the grid of an audion.



The various planets of the solar system correspond to a vacuum *tube in which there are a number of grids. The sun constantly* sends out streams of electrons.



The blue glow which appears in a vacuum tube when the plate voltage is too high finds a parallel in the auro borealis, which is explained by the increased flow of electrons from the sun, due to a sun spot.



When the moon comes directly in the path of the sun, the flow of electrons from the sun is stopped, which corresponds to an audion in which there is a positively charged body between the filament and plate.

PIRATES WIN CLOSE GAME

Defeat Giants in Junior League Ball Game; Score Six to Five

Playing a close game all through, the Giants and Pirates gave a wonderful exhibition of baseball yesterday morning in a junior league game. The youngsters, this year are certainly playing a wonderful brand of ball. It would do ball fans, in this town, a lot of good to see these games.

The juniors play the game with whole heart and soul and yesterday's exhibitions were no exceptions to the usual games.

The final score was 6–5 in favor of the Pirates, who played a superior game, the work of Carlson on the mound for the winners being exceptional. His teammates gave him good support at all times and only two errors were chalked up against them.

Here is a brief summary of the play.

First Inning

Giants—Philbert struck out. Ionian flied out to Roynon. Young out, Carlson to Marquis. No hits, errors or runs.

Pirates—Irving singled. Carlson singled, scoring. Irving, Marquis, walked. Chapman hit to right field, scoring Carlson. Gustafson, safe on fielder's choice. Chapman foced at third by Fawcett. T. StDenis safe on fielder's choice. Roynon grounded out to Philbert. Fawcett caught between third and home. Three hits, 2 runs, no errors.

Second Inning

Giants—Houston struck out. Stromstead fanned. Ritchie struck out. No runs, hits or errors.

Pirates—Toodles StDenis out, Philbert to Noxon. Irving grounded out, Ionian to Noxon. Carlson out, Noxon unassisted. No hits, runs or errors.

Third Inning

Giants—Fereno safe on Marquis' error. Carlson safe on Houston's error. Noxon walked. Philbert singled to left, scoring Fereno, Carlson and Noxon. Ionian out, Chapman to Marquis. Young doubled to left, run down on line. Stromstead safe on wild pitch. Ritchie out, Carlson to Marquis. Three errors, 2 hits, 3 runs.

Pirates—Carlson singled to left. Chapman flied to Young, doubling Carlson at second. Gustafson grounded out, Stromstead to Noxon. One hit, no runs, no errors.

Fourth Inning

Giants—Fereno singled. Carlson safe on Marquis' error, scoring Fereno. Noxon beat out infielder's hit to short. Philbert out to Marquis, scoring Carlson. Ionian struck out. Young flied out to Marquis. Two hits, one error, two runs.

Pirates—Fawcett struck out. Toney StDenis beat out infield hit. Roynon out, Ionion to Noxon. Toodles StDenis singled to right, scoring Toney StDenis. Irving walked. Carlson doubled to left, scoring StDenis and Irving. Marquis singled. Chapman singled and scored Carlson. Gustafson forced Chapman at second. Five hits, no errors, four runs.

Fifth Inning

Giants—Houston singled to center. Stromstead hit by pitcher. Ritchie singled. Houston out at plate Stromstead run down on line between third and home. Fereno safe on Toney StDenis' error. Carlson out, Fawcett to Marquis. Two hits, one error, no runs.

Pirates—Fawcett out, Philbert to Noxon. StDenis flied out to Ritchie. Roynon grounded out, Philbert to Noxon. No hits, no errors, no runs.

The score.	R.	H.	E.
Pirates	6	9	2
Giants	5	7	5

Batteries—Carlson and Irving; Philbert and Houston. Umpire—E. Boyes.

POST OFFICES TOO FEW STATES WRIGLEY'S MAN

There are 1499 centers of population in British Columbia which have post offices, according to Frank H. Horn, secretary of the Wrigley's Directories, limited. The 1922 issue of the directory was brought out recently. These centers of population while small, still are communities, said Mr. Horn, to the Vancouver World. There are 835 post offices in the province. The directory gives the name of the post offices nearest to the out-of-the-way points.

The 1922 issue contains 1348 pages, the first 36 pages containing personnel of the British Columbia government and synopsis of the various governmental departments in Victoria and throughout the province.

The gazetteer portion of the directory deals with 2334 separate and *distinct cities, towns, villages and settlements* in the province, giving a directory of each place, while in Vancouver and Victoria the directory lists the business and professional people.

The publishers announce that the 1923 directory in addition to being a complete directory of the province, will contain a full and complete city directory of Vancouver and Victoria, giving street, alphabetical and classified sections, covering all firms, professions and all residents.

The directory also gives the names, locations and complete description of 4193 rivers, streams, lakes and mountains within the province, a new feature this year.

The classified business section under 714 headings gives the names of all business firms, manufacturers, wholesalers, distributors and retailers throughout the province.

The 1918 edition contained 968 pages, and described 2010 places, while the 1922 contains 1348 pages, and describes 2334 places.

Wrigley's Directory is purely a British Columbia institution, the stockholders of the company being property owners in Vancouver. The advertising solicitors, directory salesmen, name takers and employees of the company are all residents of Vancouver. One of the largest printing jobs done in Vancouver is the printing of the British Columbia directory.

Besides the British Columbia directory, they issue the Alberta directory, the Saskatchewan directory, the Hotel Red Book, which gives information regarding hotels throughout the world, and the Canadian Storage directory.

Sues for Divorce

MRS. HEDDA HOPPER

Fifth wife of De Wolfe Hopper.

PLAN NEW BUILDING IN BUSINESS CENTER

Baker street is to be graced in the near future, with another new and up-to-date building, on the property now occupied by the Gridley bakeshop. Al Gelinas, the well-known local cigar store man, has recently acquired this property, and plans for a building are now in the hands of the local archetect, Alexander Carrie.

The new structure will be constructed of concrete, and will be one story in height, so built as to admit of the addition of a second story, should the need arise. Over all it will measure 25 by 120 feet with a full sized basement.

A small store 12 by 40 feet will occupy one side of the new building, while the other side will be used as a cigar stand by Mr. Gelinas. An up-to-date billiard and pool parlor will occupy the back portion of the new building. Work will commence shortly on demolishing the present building on the property.

Down to the thirteenth century people seem to have been destitute of chimneys.

The United States produces from two to three billion bushels of corn annually.

Reading a Heap of Letters

PACIFIC EVAPORATED MILK

The big part of the contest, which closed yesterday, is now on our shoulders. We have something like a thousand letters to read and judge. Just as soon as we can get through them and select the best we will announce the winners.

But first let us thank each one who has written us. We only regret that we can not send all a prize.

Market Weak and Uncertain; Steels Lead an Advance

NEW YORK, Aug. 4.—On a light turnover today's stock market strengthened gradually from its early uncertainty, final prices in a number of cases being practically at the day's highest levels.

Mexican Petroleum, which opened slightly higher after closing yesterday at a net gain of 6 points, fluctuated within a 4-point radius today, cancelling all its gains in the final hour on heavy week-end profit taking. Other oils were irregular, showing only nominal changes.

Crucible Steel, with a gain of 1⅝ points, led the moderate advance in steels, which was attributed in part to a resumption of heavy railroad buying. Equipment issues followed in their wake, American Locomotive and Baldwin making appreciable gains.

Total sales were 550,000 shares.

Foreign exchange showed an improvement in the tone, demand sterling advancing ⅝ of a point with a sympathetic trend in the continental remittances. German marks were quoted at 13⅞c a hundred, or one-half cent above yesterday's figures.

Call money renewed at 4 per cent, but eased to 3½ per cent, then to 3, where it closed. The time money market was active, with a fairly good demand.

Closing Quotations.

Toronto Board

TORONTO, Aug. 3.—In spite of the fact that the exchange will be closed tomorrow, and Monday, trading in stocks locally was well maintained, the approach of the double holiday having little effect in curtailing business. Brazilian stiffened up ¼ to 45¼. Toronto Railway also gained ⅛ to 82½ on light trading. Canada Bread, which has been a strong feature lately, was 1⅛ off to 34⅞.

City Dairy gained 8 points to 130. This was the greatest gain.

C. P. R. was unchanged at 141, while the Canada Steamship stock, both common and preferred, were fractionally lower. Riordon common was down 2 points at 9, while Spanish River preferred was up ⅜ to 96⅜.

Montreal List

MONTREAL, Aug. 4.—Trading in listed securities on the local stock market today, though still lacking in volume, showed a much better tone. Riordon and Montreal Power led in activity and the former was unchanged, while the latter was down ¼ point.

The greatest gain was scored by Canada Cement preferred, up 2¼ to a new high at 97½. Detroit Railway was up 2 points to 67. Other strong stocks took in Dominion Bridge, up 1⅜ to a new high at 83.

British Empire Steel first preferred was the heaviest loser, but was only down a point to 73½.

Bond trading was somewhat better in volume and was featured by gains of 2¼ points to 95 in Canada Felt bonds and off 1¾ to 99½ in Canada Cement bonds. Both were new highs.

Total sales, listed, 3176; bonds, $100,300.

Dominion Live Stock

WINNIPEG, Aug. 4.—Receipts in the yards up to 9 a. m. today were 920 cattle, 551 hogs and 80 sheep.

Steers—Choice, $5.75 to $6.00.
Butcher heifers—Choice, $5.00 to $5.50.
Butcher cows—Choice, $3.75 to $4.25.
Bulls—Good, $2.50 to $2.75.
Oxen—Good, $3.50 to $4.00.
Feeder steers—Choice, $4.00 to $4.25.
Stocker heifers—Choice, $3.00 to $3.50.
Calves—Choice, $5.00 to $6.00.
Sheep—Good, $3.50 to $4.50.
Lambs—Good, $7.00 to $9.00.
Hogs—Selects, $11.00; heavies, $5.00 to $8.00; lights, $11.00 to $11.50.

Montreal Produce

MONTREAL, Aug. 4.—Potatoes fair; butter quiet; cheese up ⅛c to ¾c per pound.

Cheese—Finest easterns, 15c to 15¼c.
Butter—Choicest creamery, 33½c to 34c.
Eggs—Selected, 32c to 33c.
Potatoes—Per bag, car lots, $1.00 to $1.25.

WINNIPEG GRAIN QUOTATIONS.

Minneapolis Grain

MINNEAPOLIS, Aug. 4.—Flour unchanged at $7.10; shipments, 57,780 barrels.

Bran—Unchanged.
Wheat—No. 1 northern, $1.26⅛ to $1.29⅛.
Corn—No. 3 yellow, 58½c to 58¾c.
Oats—No. 3 white, 29¾c to 30⅜c.
Flax—No. 1, $2.43¼ to $2.45¼.

Had man the relative power of a flea in his leg he could jump 300 feet high.

Holding Supply Enhances Wheat

CHICAGO, Aug. 4.—Efforts to induce farmers to hold back their grain had much to do with bringing about a material upturn today in the price of wheat. Demand was on a broader scale than for some time past. The market closed firm, 1¼c to 2⅜c net higher, with September $1.08¼ to $1.08¼ and December $1.09 to $1.09⅛. Corn gained ⅝c and oats ⅜c to ⅝c. In provisions the outcome ranged from 10c decline to 5c advance.

Business Outlook for Fall Bright

WINNIPEG, Aug. 4.—The fall business outlook in Canada is bright, according to the weekly trade report of the Canadian Credit Men's Trust association, issued here today.

Toronto, Montreal and Quebec advices state that wholesalers in most lines are generally active, especially in dry goods, ladies and men's wear and hardware, especially the latter. Fine holiday weather is having a beneficial effect on retail conditions, merchants say. Collections for the time being are slow, but expected to look up with results of fall conditions.

Winnipeg wholesalers and manufacturers are finding orders on the increase. Wholesale hardware houses particularly busy. Dry goods, ladies and men's wear and light summer goods are active.

General conditions throughout the west hinging to a great deal on the crop outlook, which experts say was never better.

Canada Bonds

WINNIPEG, Aug. 4.—Bid prices for Dominion war issues:

War loans—1925, $97.50; 1931, $97.80; 1937, $99.70.

Victory loans—1922, $99.85; 1923, $99.80; 1927, $100.60; 1933, $102.70; 1937, $105; 1924, $99.45; 1934, $100.20.

News of Sport

RUTH IN FORM FOR YANKEES

Tigers Blank Red Sox; Browns Hammer Phillies; Senators Win

AMERICAN LEAGUE

	Won	Lost	Pct.
St. Louis	60	42	.588
New York	60	44	.577
Detroit	57	47	.548
Chicago	53	49	.519
Cleveland	53	53	.500
Washington	48	53	.475
Philadelphia	40	59	.404
Boston	39	63	.382

Tigers Bunch Hits

DETROIT, Aug. 4.—Dauss had the best of a pitching duel with Pennock today and Detroit defeated Boston 2 to 0. The Tigers bunched four hits with a stolen base for their two runs.

	R.	H.	E.
Boston	0	8	0
Detroit	2	9	2

Batteries—Pennock and Walters; Dauss and Woodall.

Athletics Fall Again

ST. LOUIS, Aug. 4.—In a long distance swatfest today, the Browns defeated Philadelphia for the second straight time, 9 to 4. Out of 25 hits made by both teams, 15 were extra base drives, including home runs by Tobin and Collins.

	R.	H.	E.
Philadelphia	4	14	2
St. Louis	9	11	1

Batteries—Harris, Ogden and Perkins, Bruggy; Van Gilder and Collins.

Three Straight for Indians

CLEVELAND, Aug. 4.—New York made it three straight from the Indians by winning today's game 7 to 5. Ruth got his 19th home run of the season in the seventh and scored Dugan ahead of him, knocking one of Walter Mails' offerings over the right field wall. He also made several spectacular catches.

	R.	H.	E.
New York	7	12	4
Cleveland	5	13	3

Batteries — Murray, Jones and Schang; Morton, Mails, Uhle and O'Neill, Sewell.

White Sox Lose Out

CHICAGO, Aug. 4.—Washington defeated Chicago for the third consecutive time today 3 to 2.

	R.	H.	E.
Washington	3	8	0
Chicago	2	5	2

Batteries—Zachary and Picinich; Robertson and Schalk.

ENGLISH CRICKET

LONDON, Aug. 4.—(By Canadian Press Cable).—Today's county cricket results:

Middlesex beat Essex on the first innings.

Surrey beat Hampshire on the first innings.

Somerset beat Worcestershire on the first innings.

Nottinghamshire beat Lancashire by 117 runs.

Northamptonshire beat Glamorgan by 24 runs.

Bicycle tobogganing is a new winter sport in Europe.

CHAMPION AND CHALLENGER

Principals in Jersey City bout, Thursday night. Left, Benny Leonard, champion; right, Lew Tendler, challenger. Benny Leonard was awarded the decision in a close contest.

FAIRVIEW BOYS STILL WINNING

Hammer Red Pitcher in Junior Ball League Game; Pile Up Large Score

Fairview ball stars, leaders in the *city league series, had an easy time* yesterday morning in walloping the Reds to the tune of 15-6. This win practically assures the suburb boys a cinch on the pennant for 1922.

Good fielding and timely hitting by the Fairview sluggers proved the undoing of the Red players.

Here's a summary of the opening innings.

Fairview—Fereno out to Noxon. Young flied out to Noxon. Ionian singled to center. Marquis flied out to Gustafson. One hit.

Reds—StDenis singled. Gillette struck out. Noxon flied out to Roynon. R. Bradshaw out, Ionian to Marquis. One hit.

Second Inning

Fairview—T. StDenis flied out to Ritchie. Chapman singled out on steal to second. Roynon safe on R. Bradshaw's error. Fawcett doubled to center. Houston walked. Fereno hit for two bases, scoring Roynon and Fawcett. Young flied out to Gustafson. Two runs, three hits, one error.

Reds—Irving hit safe. StDenis struck out. Ritchie out, Houston to Marquis. Carlson hit to center, scoring Irving. Gustafson forced out to Houston. Two hits, one run, no errors.

Third Inning

Fairview—Ionian safe on Irving's error. Marquis singled and scored Ionian. Toney StDenis out, Toodles StDenis to Noxon. Chapman safe on Irving's error, Marquis scoring. Roynon safe on R. Bradshaw's error, scoring Chapman. Fawcett walked. Houston singled, run out at third. Fereno safe on Ritchie's error. Young safe on Noxon's error. Ionian walked. Marquis lined out to R. Bradshaw. Three runs, two hits, five errors.

Reds—Toodles StDenis out, Ionian to Marquis. Gillette singled to right. Noxon singled to center. R. Bradshaw grounded out, Ionian to Marquis. Irving out. Two hits.

In the remaining innings the Fairview batters continued their onslaught, which with almost airtight fielding gave them the game.

Here is the score.

	R.	H.	E.
Fairview	15	12	3
Reds	6	8	5

Batteries—Ionian and Houston; Toodles StDenis and Gillette.

Umpire—James Ringrose.

Play Semi-Finals of Connaught Cup Upon Equal Terms

WINNIPEG, Aug. 4.—United Westons of Winnipeg and the Hillhursts of Calgary will enter the final game tomorrow afternoon of the semi-final of the Connaught football series on even terms as they played to a one-goal draw in the first game of two here tonight. Struggling for the lead the teams played brilliantly throughout, going through the first period without a tally.

The visitaors opened the scoring after 15 minutes of give-and-take play in the second session when Cartwright shot a pretty goal from across the left by Davis. Winnipeg fought back hard and Knill headed through on a rebound from Harley's shot, which hit the bar from close range.

The locals were real dangerous after scoring, twice, hitting the bar with the goal keeper beaten. Brilliant defensive tactics by Wilson, Foster and Stephen in the closing *session enabled the Hillhursts to go* into the final game on even terms.

Duncanson was referee and the teams were:

Calgary—Wilson, Foster and Stephen; Austin, Scott and E. Wakelyn; Deluce, Cartwright, Davis, Banks, Wright.

Winnipeg—Scott, Lennon and Queen; Sidders, Harley and McNeil, Gregg, Bruce, Knill, McKenzie and Grant.

CARDINALS RUN TO FIRST PLACE

Pirates Shut Out Braves; Giants and White Sox Divide; Reds Win

Boston	33	64	.340

St. Louis Leads Again

PHILADELPHIA, Aug. 4.—The Cardinals, by taking their second straight victory from Philadelphia, 9 to 7, went into the lead. Williams, Moran, Leslie and Stock each knocked out a home run.

	R.	H.	E.
St. Louis	9	13	1
Philadelphia	7	12	1

Batteries—Sherdel and Ainsmith; Singleton, G. Smith and Henline.

Braves Slip

BOSTON, Aug. 4.—Babe Adams of Pittsburgh shut-out Boston 3 to 0 today, allowing but three hits in eight innings. A thunder storm caused the game to be called at the end of the eighth.

	R.	H.	E.
Pittsburgh	3	11	0
Boston	0	3	1

Batteries—Adams and Mattox; Miller and Gowdy.

Giants Tumble

NEW YORK, Aug. 4.—The Giants lost first place in the National league today, dividing a double-header with the Chicago Cubs. A sensational ninth inning rally enabled Chicago to *win the first game* 3 to 2. New York defeated the veteran Alexander in the second contest 2 to 1. Two former Boston pitchers, McQuillan and Scott, pitched the double-header for the Giants.

First game—	R.	H.	E.
New York	2	8	0
Chicago	3	10	1

Batteries—Kauffmann, Alexander and O'Farrell; McQuillan, Jonnard and Snyder.

Second game—	R.	H.	E.
Chicago	1	7	0
New York	2	6	0

Batteries—Alexander and O'Farrell; Scott and Smith.

Reds Victorious

BROOKLYN, Aug. 4.—The Reds evened the series today by staging a ninth inning rally, after the Dodgers had knocked Couch out of the box in the eighth. The score was 6 to 5.

	R.	H.	E.
Cincinnati	6	15	1
Brooklyn	5	8	3

Batteries—Couch, Keck and Wingo, Hargrave; Ruether and Deberry.

England Scores Three Wins in Chess Tourney

LONDON, Aug. 4.—In the play in the international chess tournament today Jose R. Capablanca, Cuban, who is holder of the world's chess championship, won from J. S. Morrison, Canada.

Dr. Vidtmar, Jugo-Slavia, defeated E. G. Watson of Australia.

Other results were:

A. Rubenstein, Poland, defeated V. Maroczy, Hungary.

Dr. S. Tartakover, Russia, won from E. S. Borowsky, Russia.

M. Wahltuch, England, won from A. Reti, Czecho-Slovakia.

H. B. Atkins, England, won from Dr. David E. Maroti, Italy.

P. O. Yates, England, won from E. D. Bogoljubo, Russia.

Senior Ball Nine to Play at Trail

Nelson's senior ball nine will pay a visit to Trail over the week-end, where they will meet the smelter city baseballers. In the last game played in Nelson the locals were completely off color and consequently the Trail tossers walked away with the game.

Trail's win of last week was, however, the first in three games, the Nelsonites having capped two victories before this. Final practice was held last night, when the local nine went through a good workout.

Tomorrow at 9:30 the boys will board cars for the trip to Trail. The following players will be seen in Nelson uniforms: Brennan, Langill, Moddrill, Kirby, Anderson, Scanlan, Notman, O'Neill, Richardson, Byng Anderson and McDaniels.

Charleston, S. C., has one of the safest and most commodious harbors in the United States.

It is believed that paper pulp can be made from corn cobs, according to chemists.

Sacco Loses Decision to Minneapolis Boxer

VANCOUVER, Aug. 4.—Jack Josephs, of Minneapolis, was given the decision over Jimmy Sacco of Boston, here tonight after 10 rounds of hard fighting. Sacco appeared to be the more clever and in the better condition, but held Josephs too lightly with the result that Josephs piled up many points in the early rounds which Sacco could not overcome. They fought at catch weights.

Noodles Knox of Vancouver was given the decision over Battling Suddington of Winnipeg at the end of their 4-round go. They are welterweights.

RELEASE KENWORTHY

SAN FRANCISCO, Aug. 4.—W. J. Kenworthy, former manager of the Portland club of the Pacific Coast league, was given his unconditional release today by President McCarthy. He expects to join a team in the east.

LOCAL BUILDING SHOWS ADVANCE

New Stores and Residences in City Nearing Completion; Buildings Started

Nelson has this year had quite a boom as far as building is concerned. New homes in the city and suburbs are going up rapidly, while larger buildings and stores are also being quickly completed.

Work is now progressing speedily on the Scott building on Baker street. This new modern building is being erected on the property formerly occupied by the Nelson Cafe, which was destroyed by fire some months ago, and will be modern in all ways, and will, when completed, comprise two stores and a restaurant.

Over all the new structure will measure about 50 by 75 feet, the stores being each approximately 16 by 75 feet. Red pressed brick will adorn the fronts, which will be the latest designs.

Work is now going on rapidly on this new structure and the floor joists are now practically in place. The contractors, T. H. Waters & company hope by the first of the week to have the basement walls, and floor joists all in place. About 15 men are now steadily employed on the job. The walls and supports are so constructed that the basement may be excavated at any time.

Completed Next Month

Mr. Waters stated yesterday that he hoped to have the building completed by September 1, as the stores are rented from that date.

Work on the new memorial hall, situated on the corner of Carbonate and Ward streets, is now going on apace, all the stone work has been completed, and work on the roof is progressing favorably.

The roof, which is a square pitched affair, has many gables, and will have a huge ventilating tower in the center of the building. Seven men are employed on this work, which is being carried on by the contractor, W. Pascoe. The roof is partly shingled at present, the Carbonate street side, being about finished, while the Ward street portion is now well under way.

New Residences Going Up

Three new residences are at present going up on the hill. Their total value when completed will amount to about $11,000. T. H. Waters & Co., are erecting two of these modern homes, one for Fred Waters of this city, and the other for Mrs. E. Grizzelle.

The Waters bungalow, which is being erected on Carbonate street, between Hendryx and Cedar street, will be a modern one-story dwelling of eighth rooms with a fireplace and all conveniences. When completed the house will have a value of approximately $4000.

The Grizzelle residence, which is being built on Hoover street will be a one-story shingled bungalow with seven rooms. When completed it will have an approximate value of $3000.

John Burns & Sons are now completing a seven-roomed bungalow on Latimer streets between Hendryx and Hall streets for Claude Miller of this city. This residence, which will have a value of $4000, will be a story and a half structure, consisting of seven rooms. The building will be shingled, and will be fully modern in all respects and will have a brick fireplace.

Work is now going on rapidly on several Fairview homes, which were started recently. Those of W. Pascoe and T. Nelson, on Nelson avenue are about completed, while work on that of W. A. Curran on Third street is making good progress.

Several new buildings will in the near future be erected at different points in the city, all of which show Nelson's growing prosperity as a residential center.

FIRE MENACES TIMBER LIMITS

Forestry Department Recruits Fire Fighters; Many Leave From Nelson

Latest reports on the fire situation in this district show in spite of determined efforts by the forestry department, who are putting forth every effort to keep under controi the various fires, that if rain does not fall shortly, some fires will take on alarming proportions.

The fire 17 miles up the south fork of Kaslo creek, which has been burning for about a month, is now threatening the timber limits of L. Hanna. This fire is fairly well under control, but rain is needed to put it out.

In the Lardo country, Glacier creek, near Howser lake, is the scene of a large fire, and also Meadow creek.

A number of fire fighters were despatched from Nelson yesterday by the forestry department to the scene of the fire. Every available man in Kaslo has been recruited, and all are busy fighting the red menace.

Vandalism Active on the Waterfront

Youths who frequent the waterfront in the vicinity of the boat houses are of late becoming quite a nuisance to boat owners and proprietors of boat houses, according to reports yesterday.

On Wednesday afternoon the boat house of W. W. Ferguson was broken into and his canoe taken out. The culprits who took the canoe, having no further use for it, left it on the far side of the boat house float. When found the boat was full of chips, bark and boards, the latter were in all probability used as paddles. To enter the boathouse, it was necessary that a window, which was boarded up, should be ripped open. Fortunately no other damage was done.

Several other boathouse owners have lately complained of ruthless vandalism on properties on the waterfront.

TO OPEN NEW MASONIC TEMPLE AT NAKUSP

Nakusp's new Masonic temple, which is now nearing completion at that city, will be formally opened on August 9. The building, which is entirely modern in design and construction, is being erected by the Star of the West lodge, No. 61. Invitations to the ceremony of dedication of the new temple will be sent out shortly.

Water takes longer to grow hot than does land and stays hot longer.
