Disorders Increase Number, Violence; Tense in Peshawar

GRANITE ROAD HOME RAZED BY MORNING FIRE

Property of T. Parker; Valued at $2500

ORIGIN OF FIRE NOT DETERMINED

House Rented by A. Ronmark and E. Ironmonger; Were Absent at Time

Fire of unknown origin completely demolished the T. Parker residence on Granite road about 10:30 yesterday morning Two young men, Arthur Ronmark and E. Ironmonger, who had rented the house during the last two months, lost all ther personal belongings in the fire which developed about three hours after they had gone to work at the C. P. R. freight sheds.

The house, a two-story structure which was valued at $2500, was in flames before it was finally noticed by neighbors who did all in their power to assist in quenching the flames.

The fire had advanced so far that all efforts to stop it were of no avail.

FASTS TO DEATH; LAST SEEN ALIVE DURING NOVEMBER

PORT ARTHUR, Ont., April 24.—A Calendar on which he had checked many days apparently of fasting was found enclosed in a bible in the shack where Pred Pentland was found dead in an isolated spot 10 miles from the city yesterday

The calendar had been placed in a chapter dealing with the size of Noah's ark and on it was written in ink "40 days' fast" together with other quotations. All indications were that Pentland had himself fasted for a considerable time at least.

He was last seen alive in November. He was 31 years old, unmarried, a former member of the Irish constabulary and came to Canada in 1923.

The days checked off on the calendar indicated a fast from November 9 to February 18.

HEAVY FALL OF SNOW DISRUPTS AFFAIRS, EAST

FREDERICTON, N. B., April 24.—New Brunswick yesterday and early this morning received a large share of the heavy storm which, accompanied by a strong wind, brought up to a foot of snow to plunge eastern Canada from spring into conditions approaching mid-winter.

Motorists making long trips were forced to cancel them. In Restigouche and Gloucester counties the unusually severe April storm was continuing today. Snow in the woods in the northern counties is from three to four feet deep.

Whole City Is Idle; Police Have Hands Full

GANDHI ALMOST FORGOTTEN NOW

Bombay District Expects Trouble at Any Moment

BOMBAY, India, April 24—(CP)—The tempo of the war of civil disobedience is waxing swifter. The last t ·· 'ays have seen disorder increasing in number, in violence and in the areas affected.

Peshawar, Pathan capital of the northwest province, is still tense. The city remains idle. Police are experiencing great difficulty in handling the crowds; giant hillmen swagger along the streets exuding fierceness and mutterings and curses are heard on every side. Reports from Kohat indicate trouble there, but the Afghan frontier is, for the time being at least, tranquil. Extra guards have been stationed at the Khyber pass.

The rioting in the province, according to the authorities, may have started on the pretext of the Gandhi movement, but has little relation to the Hindu campaign.

The Pathan inhabitants of Peshawar are Moselems and have been for centures. Only last night Mohammed Ali, who is regarded as the leader of India's Moslems, issued a statement attacking the Gandhi agitation and fearing its success would leave minorities at the mercy of the Hindus.

SOVIET BLAME!

The proximity of the Afgans, who are of the same stock as the Pathans, is partially blamed and Soviet propaganda is also held responsible for the northwest trouble.

The situation in Calcutta is giving the authorities a good deal of anxiety. Colonel Norman White, chief medical officer of the city, visited Mayor Sen Gupta in prison today and reported the chief magistrate's

Toronto Air Pilot Plans Atlantic Hop

NEW YORK, April 24.—Announcement was made tonight at a dinner of the Great Circle Flight, inc, that Captain Erroll Boyd of Toronto, Ont., plans a solo flight from Montreal to London the latter part of May or the early part of June.

Captain Boyd was the first Canadian to enlist in the Royal Air force during the war. He has flown the mails since then and has been active in aviation circles.

Crew Abandons Freighter on Fire

NEW YORK, April 24. — Radio messages tonight told of a fire aboard the freighter Thames which forced her crew to abandon her off Captain's island in Long island sound.

The crew of 24 was rescued.

B. C. Engineer to Manage Mine for Soviet People

VANCOUVER, B. C., April 24—Under contract to the Soviet government for two years, P. E. Peterson, well known Vancouver mining engineer, tonight left for New York, whence he will proceed to Turkestan.

In the mountain regions of Turkestan he will have charge of silver-lead mining and milling operations for the Soviets for the next two years.

Mr. Peterson is only one of many British Columbia miners who will proceed to Russia shortly. It is stated that the Soviet, imbued with a desire to work their mining properties to the best advantage, will employ about 70,000 experienced western Canadian and United States miners in Russia this year.

R-100 SUFFERS DAMAGE AS WIND TWISTS VESSEL

Will Undergo Repairs for Damaged Fin and Elevator

CARDINGTON, England, April 24.—(C P cable)—Giant flares lighted the air field around the dirigible R-100 tonight in preparation for her removal after darkness from the mooring mast to her shed. Officials of the air ministry finally decided, however, in the light of today's unfortunate occurrence not to take a chance of a night operation. The airships, according to the revised plans, will be moved in the morning, weather permitting.

The damage which the great ship suffered at noon today when she was being transferred to the mast from her shed is said not to be serious. The airships will have to be housed again to make repairs, but these will not need to be very extensive.

The ship was being nosed out easily in fairly clear weather when a cross wind suddenly sprang up and caused the outside edge of the starboard elevator to scrape against the side of the hangar. A fin was also injured.

Owing to the mishap Dr. Hugo Eckener, famous master of the Graf zeppelin, who was to have been taken on a trial trip in the R-100 tomorrow, has had to change his plans. He may, however, come to Cardington to inspect the ship in any event.

TAXES ARE CUT

Manitoba Municipalities Share in Tax Cut More Than a Million

WINNIPEG, April 24—(CP)—Municipalities of Manitoba today are being served with a tax-cut of more than a million dollars. Hon. D. L. McLeod, municipal commissioner, is signing warrants to be sent to municipalities—with levies slashed about in half—noting the amounts to be paid before next February 10. Total levy cuts are $1,026,000.

The move follows an announcement made in the legislature by Premier John Bracken when he submitted the province's budget. Winnipeg's municipal levy is sliced from $404,775 to $315,916. Brandon's bill, at $19,580, is less than one-half of the last year's levy. Throughout the province, municipalities will benefit from the tax-reduction.

HEAVY SNOW FALL FELT IN QUEBEC

MONTREAL, April 24.—Winter has come back to Quebec province with bitter cold winds and dry, wind-driven snow. Fields just beginning to show signs of green grass are blanketed in white. Highways have been whitened with a three-inch fall today and motorists have been forced to return to tire chains on the dangerous surfaces. Farmers and fruit growers are growing a little worried at the unseasonable weather, while the thermometer continues to register a few degrees below the freezing point.

BYRD'S SHIP SAILS

PAREETE, Taihiti, April 24.—The steamship Eleanor Bolling, one of the vessels of the yrd antarctic expedition, left here Tuesday for Panama on its homeward journey to New York. The bark City of New York also a vessel of the expedition, left here April 18, for the same destination.

BANK BANDITS ARE CAPTURED IN BRIEF TIME

17-Year-Old "Bobbed-Haired Bandit" Taken as Well; Cash Safe

GIRL SWUNG GUN UPON CASHIER

Holdup Is Amateurish But Bold; One Shot Fired in the Bank

TORONTO, April 24.—(CP)—Within three hours of the holdup, by a man and a girl, of a Bank of Commerce branch this afternoon the police had made four arrests and one of the four was a pretty 17-year-old girl who is already termed the "boned-haired bandit." They had also recovered $200 of the $2800 which the bank states was stolen.

Those under arrest are: Kathleen Boyle, aged 17, of Buffalo, N. Y. and temporarily residing with relatives here; Cecil Irvine, 28, Kathleen's brother-in-law; Edward Connors, 28, and Kenneth Walsh, 26. The latter two were not held in connection with the hold-up proper, but face a charge of aiding Irving in eluding the police.

The robbery was one of the boldest in years. Into the bank stepped a man and a girl. The girl asked the teller to give her small change for a five-dollar bill. She suddenly moved. A revolver appeared in her hand and a man behind her whipped out a sawed-off rifle and marked out the words "into the vault everybody."

The bank employers obeyed the command, but the manager hesitated, and a warning shot ploughed into a picture hanging in his private office.

SCOOPS UP CASH

The bandit ducked into the teller's cage, scooped up all the money in sight, and ran back to the vault door, carrying a black bag with the money.

"Stay where you are, he shouted, "the first person who moves will have his head blown off."

The man and the girl, who had been watching the people in the vault while her companion took the cash, then ran out of the building and jumped into a waiting car whose engine was running and they were out of sight in a few seconds.

The police were phoned immedia-

PIRATES SCUTTLE JAPANESE VESSEL

TOKYO, April 23.—(AP)—A report to the navy office here today from the Mako naval base said that 30 members of the crew of the Japanese steamer Kami Yoshi Maru, which was pirated by Chinese bandits after going aground 35 miles south of Swatow, Kwantgtung province, China, had been rescued from the pirates by a Chinese steamer.

Evidence Shows Brokers Were Short by Eight Millions

TORONTO, April 24—Evidence at the preliminary hearing of William J. Smart, and Maurice E. Young, facing seven charges of theft, fraud and conspiracy, before Magistrate Browne today, brought out the company's "short" position on stocks at different times. W. D. Taylor, who audited the books for the government, stated that on November 30, the firm was short $3,624,000 worth of stocks.

"Do you mean to say they were short $3,624,000 they should have had?" inquired Magistrate Browne.

"Yes," Taylor replied.

Mr. Taylor questioned by A. W. Rogers, of the attorney-general's department, stated that on July 1, 1929, the firm was short $8,000,000. Counsel for the defense objected to this as his clients did not take over the business till September.

DAYLIGHT SAVING

MONTREAL, April 24—Daylight saving will come into force in Montreal one minute after midnight Sunday morning, April 27, an official civic proclamation, today stated.

Mrs. Stevenson of Waldo Missing from Home Since Sunday; No Trace

CRANBROOK, B. C., April 24.—Mrs. Joseph Stevenson, wife of a Waldo truck farmer, has been missing since Sunday. About noon she left her home, suffering from mental abrration, and has not been seen since.

The Stevenson home is situated about three miles northwest of Waldo, in Cranbrook district. Provincial police from Fernie have ben looking since Sunday, but up to this afternoon had found no trace. Friends state that she has been subject to fits of despondency and has several times threatened to destroy herself.

It is believed that she is lost in the dense woods nearby or has fallen into the Kootenay river.

Esling Extends Congratulations to Nelson News

Yesterday afternoon the publisher of The Nelson Daily News received the following congratulatory wire from W. K. Esling, M.P. for Kootenay west. The wire follows:

"Congratulations on the Progress number which has just reached me. Not only does it emphasize the advance in the field of journalism, but serves to reflect the progressive and public spirit of the citizens of Nelson. Its advertising columns indicates the business confidence The News enjoys.

Very truly,

NOW DISCOUNT MURDER THEORY, ALBERNI CASE

Documents Found in River; Further Mystery Shrouds Death

ALBERNI, April 24.—Discovery of muncipal records floating in the waters of Alberni canal Wedesday add further mystery to the death of Martin W. Stephens, city clerk and chief constable of this town, whose body, with a bullet wound in the head, was found in the smoking ruins of the city hall early in the morning.

The 1928 assessment roll, which officials believed was destroyed, in the fire, was picked up on the canal by two boys. Further search however, did not reveal any other papers.

The provincial police now discount the theory that Stephens was murdered and the city hall burned to hide the theft of municipal funds. There was little cash in the safe as Stephens had banked the day's receiptts Tuesday

Auditors going over the books previous to the tragedy found the cash accounts straight.

OIL COMPANIES PUT 'GAS' UP; 40 CENTS HERE

Nelson garages, having been advised of a two cent per gallon advance in the wholesale price of gasoline by the oil companies, are today charging 40 cents per gallon.

When the gasoline tax was three cents per gallon, the Kootenay motorists were paying 35 cents a gallon for the volatile fuel. But the provincial government, at the request of the motorists, raised the tax to five cents to provide more road monies, and this involved a new retail price of 37½ cents

The advance just notified by the oil companies involves the additional advance to make the retail price 40 cents.

TWO WOMEN ARE FOUND MURDERED

LAGUNA BEACH, CAL., April 24—Mrs. Guy Bates Post ad Mrs. Dorothy Murray Palmer, former residents of Chicago, were found shot to death in the fashionable bungalow of Mrs. Palmer here late today. Mrs. Post recently received a divorce from the noted actor.

Mrs. Post, who in her hey-day as an actress was known as Adele Ritchu was shot through the mouth. Mrs. Palmer was shot through the back. The wounds were made by a shotgun but the weapon could not be found in a quick search of the home.

NARROW BRIDGE IS WRECKED BY BIG FREIGHTER

Carried Against Vancouver Structure by Heavy Current at That Point

DAMAGES ESTIMATED TO TOTAL $100,800

Ship Grounds on Rocks; Is Refloated in Safety, Taken Drydock

VANCOUVER, April 24—Sheriff W. D. Cochrane, deputy marshal in admiralty, late today formally placed a libel on the American freighter Losmar which early this morning crashed into the second narrows bridge here and did considerable damage. The libel was placed on the ship at the instance of the Burrard Inlet Tunnel and Bridge company, owners of the bridge, claiming $125,000 damages.

The vessel is at present berthed at the Burrary shipyard wharf, undergoing examination. Its port and starboard plates were buckled and frames were twisted.

VANCOUVER, B. C., April 24—The American freighter Losmar which early today crashed into the second narrows bridge which links Vancouver with the north shore, was refloated late this afternoon when five tugs succeeded in pulling the vessel from the rocks upon which she stranded after the accident. The ship was towed to North Vancouver where she will be put into drydocks for a survey.

The impact carried away the span south of the drag on the bridge and caused damage estimated at $100,800 The structure which serves more than a dozen imporant north shore industries and thousands of commuting motorists will be out of commission for many weeks.

The accident occurred, according to reports to the bridge company and the ship's agents, when the Losmar was steaming down from Barnet in the early morning mists. She signalled for the bridge to open. The draw was lifted but the vessel was caught in cross currents known to prevail in the narrow passage Anchors were dropped. They failed to hold and the ship would not answer her helm and as a result crashed into the bridge.

It is feared that supporting peirs under the bridge were also damaged by the impact

SEEKS NOMINATION

WINNIPEG, April 24.—(CP)—Hon. Robert Rogers, former federal and provincial cabinet minister, today announced he will permit his name to go before the approaching convention of South Winnipeg constituency. Date of the nominating convention will be set next week.

DEMAND REMOVAL OF WARDEN; REFUSE WORK; CALL TROOPS

Blame Guard for the Loss of 318 Lives

GIVE TESTIMONY AT THE INQUIRY

Warden Fights His Suspension; Prisoners Removed

COLUMBUS, Ohio, April 24—With hundreds of Ohio state penitentiary convicts in open revolt tonight demanding removal of Warden Preston Thomas, prison officials faced the task of preventing violence after one of the most troublesome days in the history of the institution.

Developments as an aftermath of the disaster Monday night when 318 convicts died in fire and smoke while locked in their cells, were rapid. At times it was feared that 3000 prisoners would break for liberty.

Leaders of the men said, however, they intended only "passive resistance" until Thomas's removal. Resistance included refusal to obey orders or to work.

In the meantime, a proposal to suspend the warden temporarily was placed before Governor Mayer Y. Cooper.

Prisoners testified in Governor Cooper's investigation that Warden Thomas ruled the convicts with cruelty and that the prisoners were organized to continue resistance until the warden was removed.

BLAME GUARD

The convict witnesses blamed Guard Captain John Hall, aged 72 years, for the great loss of life saying he had failed to order release of the trapped men.

In the meantime relatives of the prison dead continued to remove the bodies from the temporary morgue at the state fair grounds. Several unclaimed bodies were to be buried here tomorrow at mass funeral services. Only about half the bodies were claimed.

At the prison early this morning a revolt of several convicts was quieted, but soon thereafter the convicts in the idle house, where practically all cell door locks had been broken, demanded release into the yard. Seven hundred gallons of hot coffee were served, and for a short time the men quieted.

At dawn plans were made to release some of the soldiers on duty outside, but the orders were quickly rescinded and additional troops called when the unruly leaders in the idle house, and in other cell

Trustees Alarmed at Growth of the "Red Propaganda

WINNIPEG, April 24.— (CP) — Growth of Communistic propaganda today was viewed with "alarm and disapproval" at the annual session of the Manitoba Trustees' association today, in connection with the 25th annual convention of the Manitoba Educational association. An approved resolution recommended that the executive take the matter up with the minister of justice at Ottawa.

A sub-committee was named to obtain facts regarding the Communistic situation in Manitoba.

MEN INJURED AS TRUCK ROLLS OFF ROAD AT BALFOUR

Consolidated Truck Rolls 40 Feet Before Coming to Rest

HARRY MAWDSLEY IN NELSON HOSPITAL

Truck Was Transporting a Seaplane From Kaslo to Trail

Leaving the road one mile north of Balfour, a four ton truck rolled 40 feet down the bank finally coming to rest upside down against a stump early yesterday afternoon. Harry Mawdsley, who was accompanied in the cab by I. Sommerville, sustained the worst injuries and was rushed to the Kootenay Lake General hospital where it was found that he was suffering from fractured ribs sustained as a result of crushing force exerted on his chest. There was also a serious gash on his right arm.

Sommerville got off luckily with severe body bruises. Both men were attended at the scene of the accident by Dr H. H MacKenzie and were brought to the Nelson hospital by the Howell ambulance.

The Consolidated truck was on its way to Kaslo where it was being employed transporting a demounted seaplane from he Consolidated flying school at Trail. On Tuesday the truck passed through Nelson loaded with parts of the plane and was making the last trip to Kaslo when the accident occurred.

The plane was being taken to Trail was the one which turned turtle on Saturday on the lake at Kaslo by one of the student pilots who found difficulty in manipulating the seaplane

WITNESS SAYS THE CONVICTS HAD A CHANCE

Could Have Been Saved if Delay Had Not Occurred

COLUMBUS, Ohio, April 24.—Closing another day of investigation to uncover the cause of the Ohio penitentiary fire, state officials tonight were told for the second time in two days that all of the 318 prisoners who lost their lives could have been saved.

The statement was made by Deputy Warden James P. Woodward, who, like Albert Nice, chief of the Columbus fire department, expressed the opinion that delay in unlocking the cells was responsible for the apalling death toll.

Answering a direct question by a member of the board of inquiry, Woodward said:

HOODLUMS REVEALED

"Who's Hoodlum in Chicago" Published; Capone Leads List of Underworld Crime Workers; Includes Original Beer Barons

CHICAGO, Ill., April 24—"Who's Hoodlum in Chicago" was published today.

With Alfonse Caone, the scarfaced overlord of gangland, named first, the Chicago crime commission prepared a list of 28 notorious gangsters, gunmen and racketeers who "are constantly in conflict with the law."

Edited by Frank J Loesch, president of the crime body, and a member of President Hoover's law enforcement commission, the list was sent to city, county and federal law enforcement agencies with a reminder that "these men are public enemies and should be treated accordingly."

Leaders of every gangland faction were named. There was George (Bugs) Moran, heir to the north side mob hustled together by Dion O'Banion; "Polock Joe" Saltis, stockyards district chieftain; Frankie Lake and Terry Dugan, the original beer barons of Chicago.

A SOCIAL PROBLEM

Child Delinquency Greater Social Problem in U. S. A. Than in Canada, Where Temperance Laws Rule

NEW YORK April 24—(CP)—The New York World today printed the following copyright despatch from Alvinne. Johnson special correspondent for the World at Geneva.

"Child delinquency in the United States, where there is a prohibition law, is a more serious social problem than in Canada, where temperance legislations is in force, in the opinion of Miss Marie Meonie Chaptal, commissioned by the council of the League of Nations to make an international inquiry into the causes of juvenile delinquency.

"Miss Chaptal's report on her investigation in the United States, expressed the opinion that much child delinquency in that country was directly traceable to the disrespect for law generally bred by flouting the dry law.

"Conditions in Canada among children are better than across the border, Miss Chantal's report shows.

SECOND-STORY HALLS TO GET SECOND EXIT

This Is Now Law, Says Fire Marshal Thomas, and to Be Enforced

LEGISLATION GIVES OFFICER WIDE POWER

He Will Hear Appeals in Cranbrook and Also Kimberley

While visiting the Kootenay specifically for the purpose of hearing appeals made at Cranbrook and Kimberley from his rulings, J. A. Thomas, provincial fire marshal, who arrived in Nelson yesterday morning, is taking the opportunity while here of checking up with Fire Chief M. H. Maloney, who by law is his deputy, on structures of two or more stories here that do not comply with the law as it now stands, in regard to exits.

"Under the amendments to the Fire Marshals act, made at the recent session, two-story buildings that have premises in the upper story for assembly purposes, whether as auditoriums, schools, dance halls, or lodge purposes, are brought for the first time under my jurisdiction," Mr. Thomas stated last night, at the Hume.

"While I cannot prevent the building of a structure that fails to comply with the law, I can prevent its being occupied after being built, and I will most certainly use the powers that the legislature gave me without a dissenting voice, to protect life.

ALTERNATIVE EXIT

"There are to be no more two-story buildings where adults or children assembled in a second-story hall or school-room will be trapped when fire cuts off the entrance. There positively must be two ways for those above the ground level of such buildings to get out quickly and safely in emergency. A building may be of substantial construction, handsome appearance, and very suitable in appointments for the intended use, but if it has no means for a crowd to get out safely in the case of the entrance being blocked by fire, then it is a firetrap with terrible possibilities.

"I have letters on my files regarding many such unsafe buildings in many of our cities and towns, letters sent by citizens who are apprehensive of what might happen should a fire break out in them when the upper story is full of people. In the past I have been able to do nothing in these cases, as they did not come under the act. But the new legislation covers all these cases, and was unanimously meant by the house to do so, and you can take it that it is going to be enforced.

BLOCKS MUST CONFORM

"The amended act also requires that my approval must be obtained, of plans for apartment blocks, business blocks, hotels, and all similar structures that cater for public use. I am sorry to say that there are architects who will design building that leave the occupants of the upper story not a chance in the world for their lives in the event of fire cutting off the usual approach . Already, under this legislation, many plans for such buildings have had to be redrawn, to provide the alternative exit needed for the safety of those using the upper story or stories."

Mr. Thomas stated his business in Cranbrook will mainly be hearing the appeal of the Cranbrook Sash & Door company against his order for disposal of shavings which are considered a menace to the St. Eugene hospital, the hospital being just within the city limits and the manufacturing plant just outside them and therefore beyond the control of the city authorities. The city of Cranbrook will also be at the hearing, and will support the fire marshal's order.

At Kimberley a number of proprietors of two-story buildings whose upper floors are being used for assembly purposes are appealing from Mr. Thomas' rulings that they must be provided with a second exit from the upper story or their use for such purpose discontinued. His trip to Kimberley is for the purpose of investigating these appeals.

REPORTERS ATTEND COMMITTE MEETINGS

The general practice in Ontario cities is for newspaper represenatives to attend the meetings of standing committees of the board of education. This is disclosed through an enquiry completed by Canadian Daily Newspapers Association, Toronto, results of which have been promulgated for the information of members. In four or five cases the question of reporters attending does not seem to have raised. In the cities the press does not attend, but obtains information from the committe chairman of the board.

BANK BANDITS ARE CAPTURED IN BRIEF TIME

(Continued From Page One)

tely from the bank. Almost at the same time another call came to headquarters. A man and a girl had been seen to jump out of a car and run up a lane behind a restaurant. The informant thought was the first time they had come crime though he might, he added, be troubling the police needlessly.

The detectives were soon at the restaurant and interviewing the proprietor. A man and a young woman he knew had just come in. He thought it odd that they should enter through the back door. It was the first time hey had come that way. They seemed in a great hurry. The detectives searched the rear of the restaurant and under a patron's coat they found a sawed-off gun. The proprietor knew the names of the couple and where they lived. The address was the next police call.

It was a house on Gladstone avenue, within two blocks of the scene of the hold-up. There they found Kathleen Boyle, aged 17, who hails from Buffalo, N. Y., and Donald Stewart, aged 23. Stewart was not the hold-up man, however, and they searched the vicinity for the bandit.

He was found after some search in a house on the same street. A place he was known to frequent. At first the two men who answered the detectives said they had not seen the man wanted—Cecil Irvine, 28,—that day. The officers forced their way in and found Irvine behind a door. They took him and two others to headquarters where the "bobbed-haired bandit" and Stewart, the man found at the first house, were already held.

Questioning revealed the fact that Stewart had merely lent his car to Irvine, whom the police charge with the robbery, and was waiting at the Irvine flat until he got back.

Irvine, a meat and grocery man, wanted the car to get some eggs at the station, said Stewart and he convinced the police that he had no part, nor knowledge of the crime.

GIRL IS CALM

The Buffalo girl appeared quite calm and adopted a manner worthy of the best of "bobbed-haired bandits."

Irvine could not account for the discrepancy in the bank's $2800 estimate of the loss and his only having $2500 with him. "I only bought a little beer," he said. And the beer, if Irvine is to be believed, constitutes his sole booty from the hold-up.

Finally, coming back near home they picked upon the Dundas and Gladstone branch of the Bank of Commerce.

The robbery over they hopped into the car, its motor running, went to the restaurant and parted, the Boyle girl to go home, and Irvine to a brewer's warehouse. He took two small carton's of beer to the Walsh-Connors home and most of it was consumed when the police arrived.

Irvine's wife, who is a sister of the Boyle girl, interviewed tonight, said he had been drinking hard for two days, but had been working until then. Her younger sister, she said, was a good girl and "didn't know what she was doing."

CONVICTS QUIT WORK; DEMANDS ARE NUMEROUS

(Continued From Page One)

blocks urged the prisoners to "take a chance on a break. For a time rioting was feared.

Even the calm voices of prison chaplains and of the more cool headed risoners failed to prevail.

THE DEMANDS

Not until Deputy Warden J C. Woodward spoke to the men did they calm down and announce there would be no violence but that they would resist the warden's rule passively

The convicts made four demands: A commutation of sentence for John Richardson, muderer condemned to die tomorrow night, but later in today given a 30-day respite by Governor Cooper because the clemency board had no time to consider his case;; removal of the board of clemency; an unlimited supply of tobacco, and removal of Thomas as warden.

After hearing the demands and testimony Attorney-General Gilbert Bettman announced he would propose to the governor that the warden be suspended No immediate action on the proposal was taken.

Warden Thomas termed the proposal "a giving away on the part of regularly constituted government to the red shirt elment"

FIGHTS SUSPENSION

He indicated he would fgiht any suspension order, and claimed the glamor for his removal came from but 10 per cent of the prisoners.

Realizing the seriousness of the situation within the walls, state officials sought an immediate remedy. Employment of 25 more guards was authorized and steps were taken to transfer as many prisoners as quickly as possible to other institutions.

Among the "casualties" of the day of unrest was Ben Rudner, murderer serving life for his part in the Don Mellett murder. He sought to calm the excited convicts. A blackened eye was his reward. The situation in the prison yard was saved by another convict, an old 42nd division army man—who took command and cautioned against violence.

ALBERTA TO VOTE IN MIDDLE JUNE

EDMONTON April 24—The provincial elections will be held Thursday, June 19, it was announced today by Hon. George Hoadley, acting premier.

Under the circumstances, the men will do almost anything to find an excuse to absent themselves from the home. They are always willing to help by keeping out of the way. Ingenious methods devised by the men to steer clear of housecleaning are coming to light, the latest being that proposal by a father of four children to dive 160 feet of the new Ambassador Bridge.

Catarrhal Deafness and Head Noises

TELLS SAFE, SIMPLE WAY TO TREAT AND RELIEVE AT HOME

If you have Catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmint (Double Strength). Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly 90 per cent of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

CANADIAN GOVERNOR GENERAL NEXT?

In Australia Lord Stonehaven's term as governor-general will expire in October. Efforts are under way to have him succeeded by the first Australian born governor-general. This plan is being met with support and criticism alike from sections of the Australian press.

Whether or not Sir Isaac Isaacs, senior justice of the Australian high court, will be the next governor-general here, remains to be seen.

There has been a similar movement on foot in Canada for some time. Numerous names have been suggested and the big difficulty, as far as the Dominion is concerned, will be to find a Canadian, for the appointment to Rideau hall, who will be satisfactory to all political parties concerned, and who would be depended upon to be impartial in all matters concerning Canada.

From eastern Canada comes a suggestion that Sir Robert Borden succeed Lord Willingdon as the governor-general. Although in his day he was an ardent party follower he has been for a long time inactive in regard to politics. A staunch Canadian with broad vision and exceptional intellectual attainments he thoroughly understands the responsibility as well as the limitations of the high office should he be appointed. Sir Robert, through his activities in Canada during the war, is an internationally known figure.

BLAMING THE REPORTER

It has become a habit with public men when they get in a hole to try to wiggle out by blaming it on the reporter. And the latter is usually compelled to suffer in silence says the Toronto Telegram.

The result is that among certain people there is a tendency to regard reporters as a class who reserve not the truth and who are prepared to set even the law at defiance provided they can get a story.

The exact opposite is the case. While all newspapers encourage enterprise on the part of their reporters no reputable newspaper will countenance dishonest or untruthful methods in the carrying out of their work.

Newspapers want facts but they require them to be honestly come by and the reporter who deviates from the straight and narrow path will suddenly drift into some other occupation.

This means that reporters must of necessity be actuated by a code of ethics that is at least as strict as those that apply to any other profession or occupation. It also means that when public men "blame it on the reporters" they are in the great majority of cases trying to extricate themselves from untenable positions into which they have been forced by their own foolishness.

IN THE SAHARA

Oh, you who stay in cities, saw you this pretty thing?
The moon was new on Sunday, all in a silver ring;
Now it is veiled and curious, no more a serene hoop
And the wind is on the desert, and the sand is in the soup.
The wind that Allah bridles is free to-night to roam,
Like camels in the evening, when the caravan is home;
The tent ropes creak uneasily, the soup is full of grit,
And all the cooks in London have not the like of it.
I know, years hence in cities, when spring has scarce touched Spain,
I shall yearn for mighty spaces and fret to see again,
As on some larger planet, the huge horizon's loop,
When the wind is in the desert and the sand is in the soup.

"Why" she said, "I don't believe one of you boys has an English name.'

Up shot a hand.

"What's your name, then?" she asked.

SPRING POETRY

We love the birds that sing "Tweet-tweet,"
In tones so fresh and nice;
We love the maple syrup sweet,
But cannot find the price.
We love the raven happy sign
That summertime is night;
We love the grapes, fresh off the vine,
But find they comes too high.
When Easter dawns, so bright and fair,
And sunshine floods the flat,
We'd like a nice Spring suit to wear,
In summer's balmy months we live
Without a furnace fire;
Yet find the cost prohibitive
Of peaches we desire.

What the Press Is Saying

ENGLANDT UEBER ALLES

It seems only yesterday that the German was supposed to have devoted certain hours of every day—regular hours, of course, as any well-conducted and systematic German would—to the singing of the Hymn of Hate against the Allies in general and a murmured prayer that Gott might strafe Englandt in particular.

Yet today on every hand we see evidences that Germany is among the fastest of our friends. They have been beaten in a war which we tried to conduct as fairly as possible and they are sportsmen enough to say so. And if there is anyone your Briton loves above all other men it is a sportsman. It may ever be that they are better sportsmen than we are. We have no means of knowing, since we have not been put to the test, whether, of our grand fleet had been compelled to sail into iel and surrender and our King sent into exile, we would have been sportsmen enough to write as Wilhelm Dibelius writes in his German book, "Englandt":

England is the single country in the world that, in looking after its own interest with meticulous care, has at the same time something to give to others; the single country where patriotism does not represent a threat or challenge to the rest of the world; the single country that invariably summons the most progressive, idealistic and efficient forces in other countries to cooperate with it. Free trade and the protection of small nations may not have any great part to play in the future. Their place may perhaps be taken by the League of Nations and the "protection of order against Bolshevism." But this does not alter the essential fact that, so far, Briain is the solitary Great Power with a national programme which, while egotistic through and through, at the same time promises to the world as a whole something which the world passionately desires—order, progress and eternal peace.—Calgary Albertan.

OVER-CANNED STRAWBERRIES

In response to reader friends, I am publishing these directions for Oven Canning of Strawberries: Put clean berries in an saucepan off the range, then stir into them carefully one-fourth as much sugar as there is fruit. Let stand an hour, or till some of the juices are extracted, then place the saucepan over moderate direct flame for three or four minutes, counting the time after the juices begin to boil gently. (This pre-cooking shrinks the berries.) Take pan from fire, cover, carefully in hot sterilized jars to heat sirup till it boils, pack berries let remain in oven for 30 minutes a low oven, at 250 degrees F., and within one inch of jar-top, fill each jar also to within one inch of top with the boiling sirup, put on new rubbers, paddle (that is, slip knife down inside jar close to glass to eliminate air bubbles), adjust lid loosely and place jars in a slow over at once with the temperature at 250 degrees F. After 50 minutes take from oven, seal airtight, and invert to test for leaks.

Oven-canned Rhubarb: Wash, cut in two-inch lengths, and measure. Put it into a baking dish, add one-fourth as much sugar as rhubarb, cover the dish and bake in a medium hot oven, at 350 degrees F. for 35 minutes, or till rhubarb is tender but whole. Now pack the hot rhubarb at once in hot, scalded jars, to within one inch of jar-tops, put on new scalded rubbers, paddle, adjust lids loosely, put at once into and let stand overnight. Next morning, strain berries from their sirup, before removing and sealing airtight.

PREVENTING MENTAL TROUBLE

Figures now show us that 40 per cent of the patients entering mental hospitals are able to return to home and business.

As we think of former days, when the mental cases were considered hopeless, this is most gratifying, but on the other hand the number of mental patients is greater than ever before, and is steadily increasing.

Notwithstanding the fact that every mental patient is carefully examined and every physical handicap removed—such as errors in diet, infected teeth, tonsils, sinuses drained, the patient given work to do to increase his physical and moral strength, the mental hospitals are filled to overflowing.

Now what makes a mental case. You perhaps believe the condition is inherited and in a sense it is, but only because the children of nervous parents brought up in a wrong home atmosphere, do not get the training that will fit them to meet life properly.

Some of the children are pampered and protected in every possible way, perhaps taken to school by the parents for a year or two after starting school; are not allowed to play with other children in the school yard or neighborhood; if there is difficulty with a teacher the teacher is blamed by the parent.

Now you can understand how hard it is going to be for this youngster to fit into the scheme of life with parents doing everything to prevent him being normal.

And it is here that the family doctor can help to prevent these youngsters being mental patients in the future.

As Dr. O. R. Yoder of Kalamazoo, points out prevention is the only solution to the problem of lessening the number of mental cases.

He knows and understands every member of the family; he knows their bad family relations, their quarrels, their problems and ideals.

By friendly suggestions he may be able to prevent many irresponsible acts.

This is just another reason why it is so gratifying to see the general practioner becoming popular in households once more.

There is still a place for the specialist of course, but the family doctor can prevent many cases from ever reaching the nerve specialist.

THE MEANNESS OF SOME PEOPLE

(From the Northport, Wash., News)

The state of mind of some of the people in Northport is in a terrible condition. We belive it is on account of the smelter fumes and uncertainty of how or when the trouble will be settled. There are lies told about each other, back-biting, imaginations without cause and false accusations by the wholesale. One friend told us last week that we were the most despised men in Northport on account of our dry opinion and church affiliation. We do not see how that should be, when the wets tell us that the votes to be cast will show us that the country will be wet. That ought to show that the opinion of a little sourdough editor can not seriously injure their cause. Well, we are not greatly worrying over the matter. Some of our enemies continue to let us play with their dogs, and so long as they do not take that pleasure away from us we will be happy.

Unstylish Stout Plan to Stop Cramming Battleship Shapes Into Cruiser Gowns

NEW YORK, April 24—The unstylish stout is on the rampage and something is going to be done about this business of trying to cram a battleship figure into a cruiser-line gown .

A brand new line of clothes will be displayed on Fifth avenue next fall by the ladies who tip the scales at 175 pounds or more.

Next Tuesday afternoon women, who confess to being mighty sick of trying to wear their daughter's clothes, will gather at the home-making center of the state federation of women's clubs to select a committee to wage the battle. And for perhaps the first time in their history they're going to see themselves as others see them.

To show how much in earnest they are over this business of getting clothes to suit them, a number of women have offered to display themselves as "horrible examples" in a style show.

"The great touble has been," one of the leaders of the movement declared, "that women who haven't stream line figures anymore just won't see themselves as they really are."

They're going to begin after the style show Tuesday by selecting a committee to tell the dress manufacturers who are already interested, what they want in the way of colors and belts and hemlines, and a few other things.

A number of prominent New York shops have promised to take on and sell the revised models.

CRANBROOK GYROS HEAR OF PROGRESS OF SWIMMING POOL

City Superintendent D. Philpot Outlines the Work

CRANBROOK, B.C., April 24—City Superintendent D. Philpot was a guest at the Gyro dinner Tuesday evening giving a report on the work of the Gyro project, the new swimming pool. He stated that the work on the pool was approximately half completed and that it was expected that the pool would be ready to turn over to the club for the opening in the latter part of May.

The new plan of the engineer is to divert St. Joseph's Creek, from which the water from the pool will be taken. Instead of having it run under the pool in a large pipe, it will be carried past this part of its original bed in a flume or ditch, which will be made attractive and an addition to the beauties of the park. The water will be diverted to pass the pool on the eastern or deeper side of the pool.

Walter Fanning was also a guest of the club and rendered two solos which were greatly appreciated.

Some time was spent in discussing the forthcoming carnival to be held at the official opening of the pool . The resignation of W. Ollivier as general manager of the project makes necessary considerable reorganization of committees. The matter was left with the executive, which will report on its new arrangements at the next meeting.

'Pat' Maitland May Contest Vancouver Federal Riding

VANCOUVER, April 24—It is reliably stated that an attempt is being made in Conservative circles to have Hon. R. L. Maitland, K.C., minister without portfolio in the provincial government, run in the constituency of Vancouver-Burrard in the next federal election.

MANNING TELLS OF NEW FRANCE AT CRANBROOK MEET

Rotarians Hear of Champlain's Explorations

CRANBROOK, B. C. April 24—V. Z. Manning was speaker at a Rotary luncheon Tuesday, giving another of his talks on the early history of Canada, of which he has a special and interesting fund of knowledge.

His subject was New France and the daring exploits of the explorer Champlain. From a blackboard chart he sketched the pioneering settlement of Nova Scotia, Newfoundland and Cape Breton, telling of the disagreements between the French and English over possession of the rich new lands.

The exploration of the St. Lawrence river, where Champlain figured prominently, was also described. Members of the club appreciated to the full the interesting and illuminating half hour which the speaker gave them.

On the first of May a cleaning up and tree planting bee will be held in the playground park. Members will be on hand with rakes and other cleaning up tools and trees ... that did not weather the winter.

Plans for the forthcoming Spokane conference occupied some of the time, and a new song committee was appointed to consist of Alan Graham, Jake Jacobson and Sully Sullivan. A real, old-time "jig" dinner was served and greatly enjoyed.

State ownership of taverns, in London dependent on a local vote, is one probable recommendation in the forthcoming report of the royal commission on licensing. Prohibition will not be suggested.

DEATH CALLS TWO PIONEERS, GOLDEN CITY FEW HOURS

Mrs. Louisa Webb, Resident 30 Years, Dies at Home

BOTH FORMERLY OF MICHIGAN, U. S. A.

Mrs. Mary Stephens, 31 Years in Rossland, Passes Away

ROSSLAND, B. C., April 24.—Rossland lost two pioneer ladies within five and a half hours when Mrs. Louisa Webb, a resident of the city for 30 years, died at 10 o'clock last night; and Mrs. Mary A. Stephens, who came here 31 years ago, died at about 3:30 o'clock this morning. Coincidentally both before coming here, had lived in Michigan.

Mrs. Webb, who was the wife of Edward Webb Sr., died at her home at the corner of Queen street and Princess avenue. She was born in Cornwall, England, 63 years ago. Before coming here to reside she had lived in Michigan and Ymir, British Columbia.

In addition to her husband, she is survived by three daughters and four sons. The daughters are: Mrs. Paula Thomas and Mrs. Della Templeton, both of Seattle and Mrs. Jennie Hepburn of San Francisco. The sons are: Harry, Edward Jr., and William, all of Seattle; and Richard of Vancouver. There are also two grand daughters.

Mrs. Webb was a member of the W. B. A. Maccabees.

Adanacs Take 3-Point Lead on Nova Scotia Champs

Adanacs Behind 15-12 At Half Time; Recover to Win by Score 26-23

WOLFVILLE, N. S., April 24.—(By the Canadian Press)—New Westminster Adanacs tonight gained a three-point lead over Acadians when they defeated the eastern Canada champions 26-23 in the first of their two-game series for the Dominion basketball championship, and are now favorites to retain the title they won last year from the Windsor collegiate alumni.

Acadia played a wonderful game but the westerners played bang-up basketball and thoroughly deserved their victory. They did not appear to be the least tired from their long train ride east. Acadians, although defeated, are not downhearted, and are confident that they can overcome the Adanacs' lead and lift the coveted title in the second game here tomorrow night.

After being behind 15-12 at half time, the New Westminster quintette showed their championship class by coming back in the second session and outscoring the locals 14-8 to take the game, 26-23. The winners tonight were not the brilliant handlers that the Windsor alumni were but they played a faster type of basketball.

USE FIVE MAN DEFENSE

Both team used the five-man defense style of play. The Adanacs used a bounce pass to perfection tonight and by this means of passing were able to get around behind Eville, the tall, rangy defensive star of the Acadians.

The game was witnessed by a capacity crowd.

Wally Myers was the outstanding performer netting the ball for 13 points, including six field goals and one foul shot. Trask, center for the Nova Scotians, led his team in scoring with two field throws and five fouls for a total of nine points. Matthews, star forward for the losers, had an off-night and managed to sink only one field and one foul throw for three points Eville and Davidson played good defensive basketball but the bounce pass of the Adanacs baffled them time after time. Captain Dug Fraser and Dick Butler formed a great rearguard for the visitors with their splendidi bocking. Acadia played the entire game without substitution while the westerners put new men into the play twice.

New Westminster scored 11 field goals and four fouls against eight field goals and seven fouls for Acadia. The westerners missed 10 foul tosses while the red and white missed five.

Walter Williams of Moncton, and Andrew "Beef" Malcolm of Saint John, refereed the game.

Barackman Beats Arthur Two Out of Three Falls

TRICKS OF THE GAME WIN FOR ALBANY ARTIST

Jumps on Arthur's Foot; Ernie Leans Down and Is Out

BOTH FALLS ARE NEARLY GIFTS

Barackman Gets First When Ernie Stops to Argue With Ref.

—TRAIL, B. C., April 24—Ernie Arthur' Canadian middleweight wrestling champion, was defeated for the first time in years tonight by Mervin Barackman, of Albany, Ore., Pacific Northwest champion. He has beaten twice and drew with once. Barackman took two of the three falls. Arthur's title was not at stake.

Barackman took the first fall at 21:45. Ernie was down under a headlock, with Barackman punishing him. He wriggled off the mat but Barackman held him as the referee told them to break. Ernie got up and started to argue with the referee and Barackman caught him in the back of the head with a vicious rabbit blow. Ernie was down and nearly out. Barackman slammed a bar lock about his head and started to punish him, forcing the Trail man to call quits.

ERNIE'S FALL

Arthur made it one each at 15:40. Ernie caught Barackman three times under the chin with locked hands and threw him backward. Barackman was dizzy and Ernie caught him with the double wrist lock and arm scissors. Barackman was in a bad shape.

When they started out for the third session Ernie was forcing the fight. Barackman was nearly out. Ernie had him against the ropes and was about to put on a headlock when Barackman stamped on his foot . Ernie yelled and bent over to grab his foot and Barackman snapped in another rabbit blow, threw Arthur head over heals and put his shoulders to the mat with a crotch hold and body slam. It was clearly a case of Barackman thinking faster than Ernie.

ARTHUR CARELESS

The Trail man again and again left himself open to vicious attack through not watching his man and through forgetting that he was wrestling under the new style.

Barackman caught him in awkward corners a dozen times but the Trail man's great endurance and tremendous strength brought him out of them nearly every time.

Barackman was hard pressed throughout, but he thought faster and used the tricks of the trade to much greater advantage than Ernie. A good many times Barackman got himself out of tight corners by wiggling to the edge of the mat.

He was not the better man tonight, as far as actual wrestling went, but in knowledge of the new style and in quick thinking and taking advantage of every break, he had Ernie beaten easily.

The two falls that he got were practically presented to him.

Herb Shepherd was referee and T. A. Fittus was announcer. Dave Longmuir was time-keeper.

HELEN GETS INTO SHAPE

Expecting formidable onslaughts against her title as world's tennis queen, Helen Wills Moody is practicing a new game—a man's game—at the West Side Tennis club in Toronto. The mighty Californian is also developing a new stroke, the chop stroke, which she formerly disdained to use. With all this, says Elmer C. Griffin, another California tennis graduate, the "one best bet in America this season in lawn tennis is none other than the great Helen." Mr Griffin should know. Playing gallantly, as men do when they play with women, he went through two practice sets at the West Side court with the woman champion of the United States and Europe and lost both, 7-5, 6-3.

GEORGE FISHER'S BAT LEADS CARDS TO 9-2 VICTORY

Only One National League Game; Cubs on Short End of Score

CHICAGO, April 24—George Fisher, young St. Louis outfielder, continued his sensational hitting streak today and led the Cardinals to a 9 to 2 victory over the Chicago Cubs in the odd game of the seven teams have played this season. Only about 3,000 chilly fans watched the one National league game of the day.

Fisher hit two doubles and a single in three official trips to the plate and sacrificed on one other occasion, driving in four of the Card's runs.

SCHMELING ON HIS WAY TO NEW YORK FOR BATTLE

Meets Sharkey on June 12; Tells Homeland He Is Confident

BERLIN, April 24—(AP)— Max Schmeling, with a small daschund in his arms and the cheers of friends and fans ringing in his ears, left tonight for New York where he battles Jack Sharkey for heavyweight supremacy the night of June 12.

"The German Dempsey" declared that the longer the fight lasts—even if it goes the full 15 rounds—the better for him as then his youth would tell over Sharkey. Schmeling is 24 and Sharkey 27. Max also pointed out that he is used to long bouts whereas most of the Boston boxer's more recent matches have been on brief duration.

GERMANY TAKES FIRST CONTEST FROM BRITISH

Austin Falls in Davis Tennis Play; Light Saves Lee

LONDON, April 24—(CP)—Germany won the first and was well on the way to winning the second game if the opening Davis cup series with England today, when bad light caused postponement of play. After the victories of Britain's two star tennis players on the continent the day's results were disappointing here.

Heinz Landemann of Germany defeated H. W. "Bunny" Austin, 6-3, 8-6, 5-7, 4-6, 6-1. Daniel Prenn Germany and H. G. N. Lee of England stood at 6-4, 7-9, 6-3 when play was postponed.

Austin had defeated Borotra in Paris and had shown brilliant form to defeat J. T. Gregory in the trials last Monday; while Lee had defeated Prenn on the Rivera, so English tennis enthusiasts had bright hopes of victory. Instead there was gloom in the English tennis world tonight.

Landemann defeated Austin after a brilliant and bitter struggle lasting two and a half hours.

TRAIL BOY IS PRESENTED WITH A SILVER MEDAL

Harry Graves, Trail Scout, Honored for Saving Life

FIRST OF ITS KIND IN TRAIL

Scouts Give Demonstration of First Aid and Signalling

TRAIL, B. C., April 24—Harry Graves was presented with a silver medal, second highest award of the Boy Scouts, when the annual meeting of the Boy Scouts was held in the Memorial hall tonight. The medal was awarded for saving a girl's life, when she almost drowned at Fruitvale last summer. It is the first award of this kind to be made in Trail.

Five certificates were awarded to E. L. Hodge, district commissioner of Boy Scouts; H. G. Busby, scoutmaster; John L. Kitchen, scoutmaster; Charles F. Brown, assistant scoutmaster, H. N. Major, assistant scoutmaster ,B. A. Stimmel, chairman of the Trail Boy Scouts association, made the presentations.

Mr. Stimmel opened the meeting with a short talk explaining the work of the Boy Scout movement. He asked every scout to live up to his promise of being a good scout, which law asks that every one swear "on my honor, I promise to do my best to serve God, King and the people of the world."

Company B gave a practical demonstration of first aid work as in need in case of accident work. A stretcher, made from two scout staffs and coats was used to carry out the supposed accident victim after first aid had been given.

The meeting drew to an end when the scouts joined around a camp fire scene and gave a number of favorite campfire songs. Out of town guests attending were: Scoutmaster Pluman, Rev. D. S. Catchpole and three scouts of Rossland.

The committee of the Boy Scouts association was composed of B. A. Stimmel, president; Walter Brown, secretary; Dr. J. H. Palmer, Charles Wright, Geoffrey Browning and H. C. Caldicott.

Troup No. 1 gave displays of fencing, balloon game and elimination drill contest. The boys of this company did excellent work building a signal tower and sending a signal message .

Three boxing matches were featured with Gordon Balfour vs. James Donaughy, James Deans vs. Arthur Kelly and Ralph Taylor vs. William Baldrey. Troop No. 2 section C sent a signalling message by relay which when read was "This demonstrates the usefulness of signalling."

RULING SOLDIERS INSURANCE TOLD KIMBERLEY LEGION

Widow Not Entitled to Full Value if Getting War Pension

KIMBERLEY, B. C., April 24—The regular monthly meeting of the Kimberley branch of the Canadian and Legion, B.E.S.L. was held in the I.O.O.F. hall on Monday evening, and was well attended. President Weaver occupied the chair.

One new comrade was welcomed to membership.

The secretary reported that a grant of $25 had been received from the British Columbia canteen fund on behalf of the widow of a comrade who is in necessitous circumstances. The Pensions appeal board, sitting at Vancouver in May, will have this particular case brought before it, and it is hoped that the result will be that the widow in quesion will be granted the pension to which she is undoubtedly entitled.

Delay in sending out honorary members cards for 1930 is due to their being revised in Ottawa. Word has been received that they will be forwarded very shortly, when they will be sent out without further delay.

L. Bonell, O. P. Callahan, Dan Morrison, S. McL. Norton and A. J. Richmond were appointed delegates to zone meeting to be held at Cranbrook Legion hall on Sunday next, when matters to be brought up at British Columbia convention at Nelson on June 2, 3 and 4 will be discussed. H. S. Smith will be delegate from Kimberley to Nelson.

ON SOLDIERS' INSURANCE

The secretary reported that a letter had been received from the provincial command stating that when a widow of a returned soldier, who had taken out Returned Soldiers insurance, was already in receipt of a war pension from the federal government she was not eligible *for the par value of the policy* taken out by her late husband, but would in such cases receive a grant of $500 cash and the return of all premiums paid. If the widow had been refused a war pension, however, she would receive the full par value of the policy, whatever it might be. This is important, and cannot be too generally made known, it was held.

An invitation from Cranbrook branch, to hold a joint meeting at Cranbrook in the near future, on a date to be mutually agreed upon, was enthusiastically accepted, and arrangements to that end will be made shortly.

To fill vacancy caused by Comrade Torgeson having been transferred to Fernie, O. P. Callahan was elected to the executive, and J. McNicholas was elected to take his place on the finance committee.

After all the regular business had been disposed of, a very enjoyable smoker was held, a light lunch also being served. Bully-beef and hardtack was consumed and enjoyed under vastly different conditions from during-the-war days.

FINE PROGRAM

T. S. Claricoates gave several well-rendered piccolo solos and also some old-time comic songs. Dan Morrison recited several of Service's poems in his usual inimitable style.

April 22, being the 25th anniversary of the Battle of St. Julien, the occasion upon which the Canadians astonished the world by their wonderful stand against the first German gas attack, it was but natural that incidents reminiscent of that historic period should be recounted by some of those present who had been through it and still lived to tell the tale.

PUBLIC SCHOOLS OF ENGLAND ARE DEFENDED, COAST

Doctor Norwood, Headmaster of Harrow, Speaks at Canadian Club

SHOWS ADVANTAGES OF CLASSICS STUDY

"Play the Game for the Game's Sake," Urges His Hearers

VANCOUVER, April 24.—A spirited reply to critics of English public schools was given here today by Dr. Cyril Norwood, headmaster of Harrow, in an address at a Canadian Club luncheon here today.

"An American critic—whose name I am glad to say I forget—set out to write a book about Europe," Dr. Norwood related. "In his book he stated that the test of the war prved hat the English public school type was 'shown up in the trenches'.

"He evidently started out with a theory and returned with a prejudice," Dr. Norwood said, "and I give hi mthe lie direct."

In the Canadian army one man of every 10 who served was kil :d; in the ritish forces, on various fronts, one man in every 10 was killed; of the public school boys who served during the war one of every five met death."

eplying to the objection that the English public schools provided only a classical education, Dr. Norwood reiterated his belief that for those who were fit, good classical knowledge was by far the best tducation available. But public schools now were not driving boys through a narrow curriculum, but had as wide, if not wider, range than any other educational institution in Britain.

English public schools, said Dr. Norwood, have been criticized for producing a type. The type was the need of the 19th century.

Pioneer administrators in the colonies of Britain were the type produced by the schools. The Indian civil service was perhaps the finest tribute to public schools.

"England," continued Dr. Norwood, "does not worry because she taught the world to play games in the middle of the 19th century—taught them so well that they come back oday to take championships. It does not matter that England has no learned to play games, the new way, so long as she plays the old way, the clean way, the English way.

"Play the game for the game's sake," said the speaker. "Help your side to win rather than advertise."

GASOLINE WILL COST 40 CENTS GALLON, TRAIL

Price to Dealers Is Up Four Cents; Cash, Credit

TRAIL, B. C., April 24—Trail garage operators announced today that the price of gasoline here would be advanced to 40 cents a gallon, cash or credit, effective immediately.

This action followed directly upon a four-cent advance in wholesale prices. At the recent session of the provincial legislature the gasoline tax was increased two cents, making it five cents a gallon. Wholesalers announced a two-cent advance, making gasoline four cents a gallon higher to retailers. It was hoped when the government increased the tax to five cents, that it would be possible to keep the price at 37½ cents a gallon here, but the additional two cents in wholesale prices made this out of the question.

Proposal to give a reduction for cash was generally opposed by retailers of Trail at a meeting last night.

TRAIL KIDDIE IS HIT, MOTORCYCLE

TRAIL, B. C., April 24—Struck by a motor cyce, Sydney lQuattrain, aged five years was badly bruised yesterda and is now under doctor's care.

The motorcycle was in the hands of Gustav Augustinson..

The youngster was playing in the lane near the site of the proposed children's playground in the Rossland avenue district.

RESULT OF THE PRELIMINARIES IN TRAIL WRESTLING

TRAIL, British Columbia, April 24—Young Kramer wan an undisputed decision over Slim Meredith in their four round boxing semi-wind-up, an event that rose the fans to a frenzy from the first bell to the last. Meredith was out on his feet at finish. Both were bloodsmeared at the finish with the claret pouring from pounded noses. There is no doubt as to the winner. Meredith started fast but he was knocked to his knees half way through the first and went down again before it finished. The second round was a repetition of the first. In the third and fourth, Slim went into one clinch after another and in between pounded Kramer until the latter went into a clinch.

Jim McMahon refereed, Sam Stewart and Herb Shepherd were judges.

SPARKLING PERFORMANCE

Tommy Rush and Joe Tonelli gave the most sparkling exhibition of the preliminary program in their three minute wrestling prelim. They opened in a swirl of action and one and a half minutes after the start, Rush got the first fall, with a jackknife; two and a half minutes later Joe caught Tommy with a half Nelson and bar-arm; Tommy got the bout when he won his second fall one and one quarter minutes afterward, forcing Joe to give up with a torturing bar-arm lock. Their scheduled three round, 15 minutes, go was completed in five and a quarter minutes.

The A. B Condy-Albert Ilott 10 minute mat preliminary was a comparatively slow but highly interesting exhibition with boys showing the resulting of heavy training under Ernie Arthur. Both of them went at it scientifically and cleverly. Condy was the aggressor and Ilott displayed the greater head work. They drew, neither being able to get a fall in the prescribed time.

Curly Butorac refereed these matches.

The piece de resistance was the *blindfold boxing in which six youngsters* blinded put the gloves on and knocked each other about to their hearts' desire. A battle royal was thus a barrel of fun.

A new Paris model features rows of self-tabs which are ravelled and applied in layers on the skirt and bodice of a parrot green flat crepe frock, while the quaint off-the-shoulder decolletage is upheld by string shoulder straps and the bodice is marked by seams which effect skirt fulness at back and front.

M. J. McGarvin, M.A., of Central Collegiate staff was appointed principal of Delta college, to succeed Ben Simpson, who will take charge of the new $1,000,000 Westdale Collegiate. Others on his staff likely will be: F. H. Gillan, science; J. E. Guenther, classics; R. F Ettinger, English; F. W. Hone, mathematics, and George Allan, Jr., physical training.

NORANDA LOSES 20 ON TORONTO MINING BOARD

Drops Back to Close at a New Low of $32.50

NICKEL JUMPS 50 TO CLOSE AT $37

Trading in Precious Metals Is Listless

TORONTO, April 24—With uncertainty in the price of copper still manifest, trading today on the Standard Mining exchange was marked by extreme caution. Several of the issues which suffered the greatest losses in the recent break recovered some of the ground lost but on the whole the trend was still downward, activity being confined to a small number of stocks. Total sales were 231,705 shares.

Nickel and Noranda were features of the list. The former with a turnover of 7,298 shares advanced 50c to 37.00 while the latter on sales of 10,100 shares dropped back another 20c to close at a new low of 32.50. Hudson Bay dropped back 10c to 9.85. Trading in the cheaper priced base metal stocks was moderately active with a slight move toward firmer prices.

The Lindaleys were dull with a mixed price movement. Falconbridge dropped 30c to 3.05. Ventures lost 5c to 1.50 while Sherritt-Gordon and Sudbury gained 7 and 1 cents respectively, the former closing at 1.99 and the latter at 2.31.

Trading in the precious metals was listless. Lake Shore dropped back 50c to 23.00; McIntyre declined 10c to 19.40 and Hollinger fell 5c to 6.45 while Mining Corporation moved up 5c to close at 1.95.

Most of the oils moved to lower prices on dull trading. Imperial went down 50c to 27.25; International Pete declined 45c to 23.25; Chemical Research lost 15c to 5.00; Mayland proceeded a like amount to 1.00; Foothills off 10c to 1.50 and Southwest Petroleum lost 7 points at 55. Home advanced 5c to 70 and Ajax showed an advance of 7 points at 1.57.

When no witnesses appears against him George Elliott, Strathroy, was dismissed by County Magistrate F. T. Zapha. He had been held on $5,000 on a charge of sending through the mails an obscene letter to a Strathroy girl.

TORONTO STOCK EXCHANGE POINTS SLIGHTLY UPWARD

Many Issues Are Subjected to Heavy Depressions

TORONTO, April 24.—International Nickel and Brazilian Traction monopolized the trading throughout the day on the Toronto stock exchange and the tendency of the board today was slightly upward.

Many issues were subject to heavy depression with losses as great as seven points while Dominion Stores and Hunts "A" registered the highest gains, each picking up three points to 27 and 28 respectively, the latter being a new high for two years.

Turnover for the day totalled 49,698 shares.

Brazilian Traction led the mild upward flurry with a 1½ point gain to 45½ when 13,991 shares changed hands. At one time it sold at a new high for the year of 55¼. Canadian General Electric preferred advanced 1½ to a new high of 61½. Twin City Rapid Transit sold up 1½ to 21½ and Canada Power was fractionally stronger at 17. Dominion Power was unchanged at 70½.

Emulating its movement on the Montreal exchange, Montreal Power dropped six points to 146, continuing the usual selling off after the announcement of the split which began on Wednesday. Bell Telephone lost two to 152.

After a week of treading the down path, International Nickel wavered in a comparatively wide range throughout the day and finished at 37⅛ for a net gain of ⅜ of a point. In all, 13,124 shares of Nickel were called. Noranda continued to shrink when 3320 shares carried it down 1¼ points to 32¾. Consolidated Smelters suffered the heaviest setback of the session, dropping seven to 228.

Oil stocks marked time with the majority of the issues buoyant and unchanged.

SLIGHT DROP IN C. P. R. EARNINGS

MONTREAL, April 24.—Traffic earnings of the Canadian Pacific Railway company for the week ended April 21, 1930, amounted to $3,103,000 as compared with $3,942,000 for the corresponding week of 1929, a decrease of $839,000.

CANUCK INSURANCE FIRMS WITHDRAW BUSINESS, MEXICO

Sun Life and Confederation Refuse to Invest Reserves

MONTREAL, April 24—The Sun Life Insurance Company of Canada and the Confederation Life of Canada have agreed to discontinue issuing new business in Mexico, it is announced here today.

This decision was reached at a conference of officials of the two companies. The Mexian government demanded that all foreign companies. The Mexican govern- Mexico invest the majority of their reserves in Mexican securities. This the Canadian companies refused to do and their withdrawal followed.

Each of the two companies will continue to maintain offices in Mexico to handle routine work and to serve policy-holders resident in the republic.

EGG MARKETS

OTTAWA, April 24.—Canadian egg markets continued to display a firm trend today. The prevailing cold weather is holding down production somewhat and also stimulating consumption.

Toronto—Prices on the local egg market are unchanged but the situation is firm. Extras 31½, firsts 23½ f. o. b.

Montreal—Egg receipts here yesterday were 2965 cases. The market continues firm under a good demand with cold weather stimulating consumption. Dealers have offered Ontario country shippers extras 19½, firsts 26½, seconds 25 f. o. b. cases returned. Eggs are jobbing on spot between dealers at extras 32, firsts 30 seconds 28

Halifax—The situation on this egg market continues very strong. Receipts of local eggs are heavy but are being quickly absorbed by the brisk demand from consumptive channels. Wholesalers have advanced their prices to retailers to extras 35, firsts 33, seconds 23

Saint John—This egg market is quiet and unchanged today. Receipts are moderate and surplus stock are moving into storage.

B.C. MAINLAND SPUD GROWERS OUT IN COLD

May Have to Provide Own Marketing as Turned Down by Committee

NEW WESTMINSTER, B. C., April 24—Potato growers on the lower mainland are faced with the problem of marketing their 1930 crop without the service of the committee of direction and an organized marketnig system.

Unless some arrangement is made to pay the interior committee of direction some $9,000 expenses incurred in litigation and other costs, that body will stand by its decision to divorce the coast organization. F. M. Black of the Okanagan growers told a meeting at New Westminster on Wednesday night.

Another alternative which is open to the lower mainland organization would be to obtain special authority from the government to organize a committee of its own. This would necessitate a vote among the growers of which 70 per cent would have to agree to the compulsory marketing before the plan could be put into effect.

HOME OIL JUMPS 75 CENTS, COAST

C. & E. Drops Eight and Hargal Ten Cents

VANCOUVER April 24.—Falling oil values were checked somewhat on the Vancouver stock exchage today when the market turned irregular. The mines continued dull and soft, however.

C. and E. Corporation, Hargal and Freehold led the oils in point of activity, with the first-named dropping eight cents to 7.32 and Hargal losing 10 cents to .72. Freehold gained two cents to .62. Nine cent losses were suffered by Mayland Oil and Van Alta. Firm spots included Homestead which gained seven cents on a small turnover, and Home Oil which jumped 75 cents to 7.70. A. P. Consolidated was fairly active but remained unchanged at 7.61.

Big Missouri with a six cent loss at .42 and Pend Oreille with a five cent drop to 1.50 were the leading issues in the mining list.

GROSS REVENUE OF C. N. R. IS DOWN

MONTREAL, April 24.—Gross operating revenues of the Canadian National railways for the month of [illegible] decreased as compared with March, 1929 the total in that month being $22,888,042

That jurymen in future should receive $6 a day was the suggestion made by the grand jury of the assize court at Sault Ste Marie. At present they receive $4 and it is contended this does not meet expenses.

MANY LOSSES ON MONTREAL LIST; NICKEL HIGHER

Brazilian Also Better; Montreal Power Is Weak

SALES IN 49,143 SHARES, BRAZILIAN

Reactionary Tendencies Continue to Make Headway

MONTREAL, April 24 —Though Brazilian and International Nickel were both in better demand today at higher prices, reactionary tendencies continued to make headway in other parts of the Montreal stock exchange list and at the close of active trading net losses retained a majority of nearly two to one over net gains.

Further weakness in Montreal Power, with another five point break to close at 145 was one of the day's features, but the weakness was confined to that stock and Shawinigan closed ½ higher and Quebec Power up a point, while Power Corporation eased a fraction. Power New stock, too, was softer, closing 1½ lower than Wednesday's close. Of the paper stocks, Canada Power and Paper was the more active, closing off ¼ at 16½, while Price lost 2½ and Abitibi a point. Bridge was down slightly at the close as were Cockshutt and Massey. Other stocks to record losses were Smelters, McColl, B. C. Packers, National Steel Car, Fraser and Gurd, while advances were shown by, among others, International Hydro-Electric, Twin City, Canadian Car, Royal Bank and Bank of Nova Scotia. Famous Players, an active feature, closed unchanged, as did National Breweries.

Brazilian was active leader, with sales in 49,143 shares, and at the close was 1¾ higher at 54¾, after selling at the new high of 55¼. International Nickel second with sales in 21,783 shares, closed ⅝ higher at 37⅛. Montreal Power provided trading in 6,387 shares, came third in activity, closed 5 lower at 145.

Total sales were 92,353 shares; total sales of bonds were $79,900.

WHEAT IN SETBACK ON CHICAGO LIST

CHICAGO, April 24—(By John P. Boughan, Associated Press market editor)—Indications that government sponsored agencies were selling wheat on price bulges led to a maximum setback of 2¾c a bushel at one time here today.

Generally favorable crop reports from the northwest as well as forecast of showers in drought districts southwest, counted also as a bearish influence.

Closing quotations on wheat were unsettled, ⅝ to 1⅛ a bushel lower than yesterday's finish. Corn closed ¼ to ⅝ off, oats ⅛ to ¼ down.

RADIO KEITH HITS NEW HIGH RECORD NEW YORK MART

Pathe Up as Rumor to Be Taken Over by Radio Keith

STUDEBAKER, HUDSON AT NEW LOWS, YEAR

Market Is Conspicuously Heavy; Large-Scale Bear Selling

NEW YORK, April 24.—(By Claude A. Jagger, Associated Press financial writer)—An increasing inclination to take profits on advances together with a revival of large-scale bear selling, turned the stock market conspicuously heavy before the close of today's session, although pools made powerful efforts to retain control of the price movement and succeeded in sending some of their favorites among the amusement and specialty shares to new high levels

Reduction in Chile Copper's annual dividend from $3.50 to $3 and reports of reduced first quarter earnings for such companies as A. M. Byers, National Cash Register and Electric Auto Lite, probably contributed to the selling.

Radio was again a strong feature, rising 3½ points to a new 1930 high at 69¾ while Radio Keith mounted about two to a record for all time at 50, but about half of these gains were lost before the close. Pathe and Shubert sold up about three to six points in response to rumors that they would be taken over by Radio Keith and Warner Bros. respectively. Diamond Match shot up 10 points to another peak level at 237, making a gain of nearly 100 points this year, and Worthington Pump and Vanadium normally fast movers, were sent up a few points.

J. I. Case reacted 15 points and closed off 10. Allied Chemical lost seven, and American Water Works, Byers, Canada Dry, Colorado Fuel, Dupont, Eastman Kodak, Lambert, Marmon, Nash, McKeesport Tinplate, United Aircraft, Union Carbide and Western Union lost two to five points.

Motors were under pronounced pressure, Studebaker and Hudson selling at new lows for the year. Gillette, U. S. Industrial Alcohol, Julius Kayser and National Cash Register also touched new 1930 lows.

ANACONDA IS TO MAKE WAGE CUT

BUTTE, Mont., April 24.—Owing to the decreased price of copper, the Anaconda Copper company posted notice today of a wage reduction of 25 cents a day in its mines, smelters and plants at Butte, Anaconda and Great Falls.

The reduction, affecting all employees on the daily payroll, will be effective May 1.

Other operating mining companies here took similar action.

No value Anywhere like the Nash

EIGHTS and SIXES

The Nash owner is as proud of the greater value of his investment as he is of its beauty and performance.

He is reassured by the knowledge that a higher price could not buy any better design, or finer engineering, or greater certainty of long life.

Men who formerly paid more are now appreciating the wisdom of buying two Nash models instead of one high-priced car.

The wonderful ease of Nash steering, the smooth power, the great speed, the roominess of the bodies, the rich upholsteries and appointments that Nash provides are the best the market affords.

No matter the size or body style of the Nash you select it embodies the same quality of engineering, and the same faithfully accurate precision standards of manufacturing.

Nash Features You Should Know

Centralized chassis lubrication, bullet-in, automatic radiator shutters, and the world's easiest steering in every model. Adjustable front seats. Steel spring covers with lifetime lubrication, in the Twin-Ignition Eight and Twin-Ignition Six lines. The priceless protection at no extra cost of Duplate, non-shatterable plate glass in all doors, windows, and windshields throughout the Twin-Ignition Eight line. This glass is also available at slight extra cost in all other Nash cars.

INSTALMENT XI

"Well, you'll be able to name her as co-respondent. She'll be my mistress, living here openly with me. She won't mind being named; she's been named before. Now, you want a divorce. Go on, get it. Here—wait a moment. Shove that table over here, will you, please?"

This was a Tim she had never known before; she had known a mad and violent Tim, who, she thought, would stop at nothing in the gratification of his passions.

This was a Tim whose very illness lent a contradictory vigor to his contemptuous denunciations. Meekly she pushed toward him the table he indicated.

He opened a drawer, drew forth a check-book, and began writing in it with a fountain-pen. He ripped a leaf to her. She saw that it was a check made out to her order for two hundred and fifty thousand dollars.

"You—made this—out of your real estate?" she asked.

He nodded.

"Didn't steal it, either," he sneered.

"Earned it. You needn't be afraid to take it; you'll not be arrested for sharing in the proceeds of a theft. And your lawyers can confer with mine about settlements and alimony and the rest of it."

"Do you think,' she blazed, "that I'd take a cent of your money? Do you think I'd do that?"

She left him.

* * *

"Ma'am, Mrs. Stevens, could I have a word with you?"

She didn't like the man but—

"I certainly owe you a word, Modane," she said. "You saved my life, you know."

Modane had removed his yachting-cap now, and was twisting it in his fingers.

"I dunno how you made that mistake, Mrs. Stevens," he said. "And the boss let it ride that other time you mentioned it, but it was him who went overboard after you and Dr. Faunce, ma'am. He knew it was you, too, for he yelled your named as he dived."

"He saved me?" she gasped.

"Nobody else, ma'am. And I—he's kind o' bugs, ma'am, with all what he's been through, and he's taking a dame aboard tonight, and—well, it's none of my business, Mrs. Stevens, only—if the boss was my brother and sister too, I couldn't like him more. And I want to say—do you think it's sporting to run out on him like this? Because there wouldn't be no other dame aboard the Minerva if you was there."

"Am I his keeper, Modane?" she asked.

"Sure you are! A man like that needs some one to look after him. And if his wife don't do it, who will?"

"But suppose that his wife doesn't want to? What then, Modane?"

"Well, if she don't want to, she ought to, just the same. Do you think he'd take a run-out powder if you was in trouble, ma'am? Why, he'd walk through the blaz' gringes of hell, ma'am. And that's where he's headed at that, Mrs Stevens."

"He'll go where he belongs, where her chooses to belong, Modane," said Lucy.

"I get you, ma'am. A man finds his own level and that sort of thing But that stuff goes for Sweeny when there's a dame rung in on the play. Say if he wasn't a regular person, I'd brought him out of the water when he was goin' down, but most gents would 'a slipped me some coin and let it go at that. Made an American cut o' me too. Say ma'am, if I was worth a play, don't you think he's worth one?'

She stared at him.

"Maybe, Modane, youre right," she said.

FREE PORT COMES INTO BEING IN THE SALONIKA DISTRICT

BELGRADE, Jugoslavia, April 23 —King Alexander today signed the law organizing a Jugoslavian free port in Salonika. Signature of the free port law follows a recent treaty signed by Jugoslavia and Greece whereby a free zone 12 miles deep was established in Salonika along the entire frontier between the two countries.

Traffic is free and no passports are necessary.

CHECKS RETURNED

WELLAND Ont., April 23 — Cheques valued at $250, stolen with $460 in cash on Monday from the rectory of the church of our lady of Hungary, while Rev. Father Hedley and two priests were celebrating mass in the adjoining church, were recovered by Welland police today. The thieves, finding the cheques worthless to them, had thrown them into the box of Welland post office. No arrest have been made.

WORKER IS BURIED

TORONAO, April 23—George Edwards, 44, and employee of York township was killed here today while engaged in digging under a concrete sidewalk on sewer contruction. He was buried beneath tons of clay and concrete in the ten-foot trench he was working in. Workmen, after 15 minutes work, were able to remove the body by means of ropes. A doctor was called and pronounced life extinct.

JONES WILL LEAD LIBERALS OF N. B.

FREDERICTON, N. B., April 24—The New Brunswick Liberal convention this afternoon unanimously chose Wendell P. Jones, K.C., of Woodstock, as leader of the party, Hon. A. Dysart, Liberal leader in the legislature having declined the position.

CANADA'S LARGEST ORGAN COMPLETED

Mighty Organ of New Metropolitan Church Made in Canada

TORONTO, Ont., April 34.—Jessie McTaggart writes in the Mail and Empire of the greatest organ in Canada, erected in the rebuilt Metropolitan Church ,which this month is being tuned:—Every pipe from the tiny metal tube, six inches long and an eighth of an inch thick, to the huge wooden column 32 feet high and two and a half feet square, has to be tuned individually. And there are nearly 8,000 of them. Then, each pipe has to be tuned, in unison with its accompany pipes that form a "stop". The stops must harmonize. And there are 110 stops.

Thus is created the source of the harmony that awaits release at the touch of an artist's fingers. Faint birdlike pipings, shrill and sweet, deep, reverberant volumes of sound that throb and vibrate through the stones of the massive building. This is the organ that has hidden within its mechanism the sound of the universe.

Echoing from the high empty galleries of the church, each weekday, come shouts of workmen. Long glittering metal pipes rest upon the backs of the pews. Straw and empty crates strew the chancel floor. Ladders lean against the pulpit. The workmen are French-Canadians. At least the majority are, for most have come from St. Hyacinthe, Quebec, the birthplace of the organ at Casavant Freres. In their very origin the organs of Casavant Freres have an artistic charm. For every workman in the factory, with the exception of one German and Cornishman, have been born and raised in St. Hyacinthe. And some are members of families that have helped to create organs for three generations.

Pipe organs are always designed for the building in which they are to be installed. The shape and size of the building, the position of radiators ,the placing of the electric lights, even the temperature of the air must be considered, so delicate is the tremendous thing whose music rocks a church. And the mechanism of Metropolitan Church organ extends to speak in terms of a house, from the basement to three floors above. At the back and both sides of the chancel, high over the heads of the choir ,huge pipes glimmer through carved wooden screens. But this is a mere glimpse of the forest of tubes that lies in five rooms beyond. "Positively no one in the organ, please," reads a sign on the doorway among the galleries "behind the scenes." And it's meant for men, not mice.

A 25-horsepower electric motor in the basement controls four fans and two bellows that bring in air that is compressed beneath the floors of the pipe rooms. Through the mists of memory comes a vision of a boy, a little breathless with effort ,pumping vigorously. Each of the five pipe rooms is operated by a separate key board on the organ. Each group of tubes in each room is controlled by a key, and each of the 7565 pipes is controlled by a magnet. Air rushes into the pipe room when the floor board is released. It rushes into tubes when the magnets are released. Through the church throbs an organ note.

AFRAID OF POTATOES

"Before you sell more potatoes you will have to approach the ladies," declared Stanley Lief to the delegates of the Fruit and potato trade assembled at London. 'Some Ladies," he said "have the idea that potatoes are fattening, and the result is they won't use them. It is the greatest mistake they can make. They feed on chocolate cakes and that sort of thing, and after they get fat they blame the poor old potato." A resolution was passed asking the government to order an investigation into the operation of recent legislation, which was said to have a restrictive effect on the distribution of fruit and fresh vegetables, thereby increasing the cost to the consumer.

IF HE LOVES ANIMALS, HE IS ALRIGHT

"I am always rather suspicious of a man who drives a horse that is dead lame," said Lord Somers, Governor of Victoria, Australia, recently when officially opening an animal clinc here. I feel that I can safely accuse such a man of wife-beating, the Governor added. He explained by saying that the kind of a person who would leave his pets without water during a week-end would in all probability habitually disregard the feelings of his fellow beings. On the other hand, those who loved animals could be counted upon to love their fellows. Lord Somers expressed the hope that the animal clinic would help to remind the people om Melbourne of their duty to animals.

Nelsonites in California

By Mrs. W. A. Nagle

Since writing my last letter we have visited the famous Huntington Art allery at San Marino. We had been planning to see this all winter, but have not found it convenient until now, sort of saving the cream for the last. This is considered the choicest and rarest of collections of any here in California. There are of course the various art museums at the exposition buildings where everything from the skeletons of the prehistoric animals down to the present day arts can be seen, but for choice paintings statuary rare period furniture such as chippendale, Hepplewhite and Sheraton there is no other here in comparison with it.

There are eight Gainsboroughs in addition to the original "Blue Boy." Master Jonathen Buttall son of an iron monger long forgotten together with "Pinkie' 'by Sir Thomas Lawrence were purchased from the Duke of Westminster in 1922 by Mr. Huntington for the sum of one million and a half alone. Here is also "The Tragic Muse," posed by the noted actress Mrs. Siddons and painted by Sir Joseph Reynolds another section is given over to the works of Romney. There are many large Tapestrys and other objects of rare import. The first printed bible, also a first edition of the "King James" Bible and other priceless works. Then we come to the gardens which surround the art gallery. One could easily spend a couple of days here and there why wouldn't we thoroughly, one is simply enchanted with its beauty. Especially at this time of the year when the Wisteria is just at its best as it droops down over the arches and trealises like bunches of grapes together with the climbing crosses in all their various coloring and a background of trees and statuary here and thre, why wouldn't we love to linger? 14,725 people visited this gallery during the month of March, an average of 505 a day, and none can enter without a ticket These are issued by mail to ayone for the asking, and in this way they can regulate the crowds for each day. One should not miss seeing this on coming to California. It is located at San Marino just 12 miles out of Pasadena.

From here we drive 9½ miles up the mountain side to an elevation of 6000 feet and arrive at Mt. Wilson in the Sierra Madre range. The best time to come here is at evening when the sun is setting. Here flashes into view the lights of 60 town also Catalina Island 50 miles away. Mr Wilson is the astronomical center of the world, it has the largest telescope, a 100 inches minor type whose lens alone weighs 4½ tons. The solor observatory has been endowed by Carnekie. There are two 150 feet sun towers used exclusively for observing the sun and taking photographs of same. A 200 ft. telescope in now in course of construction. We had the privilege of looking through this telescope at night and though the moon is 260,000 miles away, yet this powerful lens brings it within 1000 miles in observation we also listen to an interesting lecture regarding these heavenly bodies with slide pictures that are actual photographs. We are informed that we must not miss seeing the sight of the sunrise at 430 in the morning over a sea of clouds are all below and the sun always shines. So we are awakened at this early hour and we rush out with many others to the spot where we can see the sun just rising above the mountains and as we look below, we see the thick masses of clouds far above looking like a great flock of sheep and finally as we start on our journey down the mountain side we gradually see the clouds lifting and we can imagine ourselves in an airplane overlooking the cities below. However this is worth staying overnight to see and one finds lovely accomodations here at the height of 6000 feet.

Very recently we took a trip to Palm Springs, located 125 miles from Los Angeles. We went via Redlands ,where the University and "Smiley Heights" an exclusive residence distinct, we pass through Banning noted for its Cherry and Almond crops, beautiful orchards, and we come to the Santa Rosa range and the Sierras and at the edge of the desert. Here are seen the painted hills and Chocolate mountains. In this vicinity are nine different hot springs resorts. We stopped at Palm Springs as it is the most beautiful one and is well known for its fashionable hotels and a lot of others attractions

The ancient sea bed has become a veritable play ground and is an attractive resort for the winter months as it is so much warmer than any other place except Death Valley. Quite a few notables have their winter homes here such as Peter B. Kyne, Al Jolson, George Bancroft and others. But it is only open for tourists from October to May. During the summer the thermometer reaches from 126 to 132 so no white person can stand it and everything is closed until the fall. Here is where the finest dates are grown. Here too we bought some Caotus candy , made from the big barrel cactus.

"The date palm has its feet in the water and its head in the fires of Heaven." Meaning that is requires heaven irrigating and a long hot summer. Here are every variety of wild flowers and the smoke trees Indigo Rosin and lavender bushes, palm trees and every variety of cacti indigenous to these parts.

Having traveled slightly over ten thousand miles we are now content to start our journey homeward.

LARGEST MONOPLANE BOAT

The largest and most powerful monoplane boat yet built in Great Britian, the Blackburn Rolls-Royce Sydney, is being constructed on the Humber and will be entirely of metal. As soon as successful tests have been made with this machine construction is to begin on a still larger flying-boat capable of carrying 50 passengers and as powerful as the Great German Do. A This new machine will be capable of long day and night non-stop flights and will have sleeping berths for the whole of the 50 passengers ,in addition to kitchens, where meals can be cooked while the machine is flying at over 100 miles per hour.

SHARKS MENACE BATHERS

Danger to bathers from sharks in the surf beaches at Sydney, Australia has been cause for alarm, for a long time any many unsuspecting "surfers" have been killed or mangled by the dangerous denizens of the deep. Now however there is an aeroplane patrol over the beaches with a view to safeguarding the bathers. This service was installed recently with a Moth aeroplane piloted by Goya Henry, who searches for sharks in the danger area and drops a red cloth as a warning when any are sighted. Pilot Henry claims that even when the visibility is poor he can see a shark if one comes dangerously close to the bathers.

"GROW MORE WHEAT"

During a short an intensive campaign to assist the appeal of the Prime Minister of Australia, Hon. James Henry Scullin, for the growing of more wheat this year, the Postal Department has issued a special cancellation stamp bearing the words: "Grow More Wheat."

Johannes Nehring, Germany's foremost glider pilot, was killed when the plane he was flying crashed. His observer saved himself by jumping with a parachute.

NELSON BOARD TRADE HAS BIG JOB ON HANDS

Asked for Information About Nechacco Valley, 500 Miles Distant

Mystery surrounds the circumstances that have lately connected the Nechacco valley, 500 miles distant, with the Nelson board of trade. *Within the past week,* D. A. McFarland, secretary of the board of trade, has received dozens of enquiries for information concerning the Nechacco valley from points that range anywhere from Boswell to Eastern Manitoba.

The only clue to the influx of enquiries is a clipping from the Free Press Prairie Farmer, a Winnipeg publication. The clipping was attached to one of the letters of enquiry received by Mr. McFarland, and reads as follows:

"Dear Editor—I believe this Nechako valley is a place of refuge for the dried out, hailed out, disgusted *prairie farmers. Last year we had* a splendid crop on what we considered our poorest land. We are only a few miles from the railroad, and land available as far back as one cares to go. Information regarding the district may be obtained from the secretary, Board of Trade, Nelson, B.C.,—Nechako."

The Nechacco valley is about 500 miles northwest of Nelson on the C.N.R. line that runs into Prince Rupert.

Enquiries that have been received here have been from farmers on the prairie provinces who wish to escape the rigors of the prairie *weather and the uncertainty of the* crops. Mr. McFarland thinks that the Nechacco valley has been represented on the prairies as a "land flowing in milk and honey" but is at a total loss to explain how Nelson board of trade became connected with this north country.

C. CROSSLEY TO OPERATE MILL RELIEF CLAIM

Situated on the Arlington Group; High Grade Ore in Early Days

Cecil Crossley left yesterday for the Second Relief mine at Erie to take charge of the mill. The Second Relief mine in the Arlington group is now owned by the Oscarson brothers.

The mine has been developed and a large quantity of ore has been milled. Both the Arlington and the Second Relief mines have records for production. The Arlington was formerly owned by an English concern.

In 1908 the Second Relief from 16,600 tons of ore milled $15,700 was netted anr the same year the Arlington netted $65,000 from 1190 tons, the ore averaging $55 per ton.

Canadian Weather Reports to Guide R-100 Over Ocean

TORONTO, April 24.—The giant British airship, R-100, on its transatlantic trip to Montreal next month will be guided by weather reports it will receive from the Canadian Meteorological bureau's headquarters, Toronto. Those on board will know what kind of weather lies ahead of them. A few days prior to the ship's departure, the bureau will commence supplying detailed meteorological data and, will continue to do so— by wireless—until the ship reaches Canada. The Canadian weather service, aided by similar English bureaus, will assume full responsibility of the giant air liner until it reaches the Montreal mooring mast.

Court Revision to Be Held Here Monday, April 28

Thirteen appeals against over assessment arising from local improvements in the city of Nelson have already been filed at the city hall.

These appeals will be heard by the court of revision consisting of the mayor and full council at 7:30 on Monday night, April 28

FIRST LEGISLATION

OTTAWA, Ont. April 24.— (By the Canadian Press)— Legislation dealing with the return of the natural resources to the western provinces will be dealt with by parliament before the budget is brought down. This was stated tonight by Premier Mackenzie King at the conclusion of a cabinet meeting.

DR. KING HOPES ZINC SITUATION BEING CLARIFIED

Writes Commissioner Starkey He Made Representations

Good offices have been extended by Hon. J. H. King in furtherance of the Kootenay protest against nullifying of the zinc duty by the new ruling by the customs department, a letter from the British Columbia minister at Ottawa to Fred A. Starkey, commissioner of the Associated Boards of Trade of Eastern British Columbia, reveals

This recent ruling permits zinc for any use whatever to be imported into Canada duty free if turned out in the shape of plates, a classification that for a decade or more has *been understood by both parliament,* the Canadian producers and the metal trade of the world to apply only to certain acid-neutralizing plates for installation in marine boilers. The Consolidated Mining & Smelting Company of Canada, the producer of the overwhelming proportion of Canadian zinc, appealed from this ruling and the Associated Boards of Trade made a similar protest on behalf of the small producers.

MINISTER WRITES

Dr. King, in writing Commissioner Starkey, reported:

"I regret to find that I have not acknowledged your letter of March 6 in regard to tariff on zinc plates. We have this matter in hand as I have made representations to the finance department and hope that the situation can be clarified."

While it would afford him great pleasure to be present at the Associated Boards annual convention next month at Cranbrook, Dr. King advised Commissioner Starkey that the chances were that parliament would still be in session at that period, in which case of course it would not be possible for him to be present.

VAN RYN, ALLISON BEAT HUNTER AND LOTT IN TOURNEY

Youthful Players Enter Final Round at Sulphur Springs

WHITE SULPHUR SPRINGS, W. Va., April 24.—Francis T Hunter of New Rochelle and George M. Lott jr. of Chicago, Davis cup stars, saw their hopes of gaining permanent possession of the Plaza bowl, emblematic of the Mason and Dixon tennis championship, crushed to earth this afternoon in the semi-finals round by the youthful Davis cup doubles combination. John Van Ryn of South Orange, N. J., and Wilmer Allison jr., of Austin, Texas. Both Hunter and Lott hold two legs on the trophy.

The veteran Hunter never played a more courageous game than he displayed on the Casion courts this afternoon, only to bow eventually before the sheer brilliance of Van Ryn. The scores were 6-2, 4-6, 6-2, 2-6 and 6-4.

In the other semi-final contest Lott, after staring aggressively and winning the first two sets, was unable to withstand the inspired Allison and walked from the court with a heavy heart after having victory wrested from his hands. The score in this match was 4-6, 6-8, 6-3, 6-3 and 6-4.

POLICE SEARCH FOR CIGAR BOX CLUE ROBBERY

Think That if Found Other Clues Might Arise in Search for $1500

Chief of Police Thomas H. Long stated last night that though Nelson had been searched through street and alley no trace had been found of the cigar box in which $1500 was stolen from the Golden Gate cafe on Monday night. Police thought that even if the box could be found that some further clue might arise.

The cigar box was one of the Christmas Simmonds variety with a small brass catch on the lid.

Col. Taylor Is Dangerously Ill in Hospital Here

Colonel A. W. N. Taylor of Willow Point, dangerously ill in the Kootenay Lake General hospital, Nelson, was very weak throughout yesterday, his condition holding out small hope of improvement. Latest word this morning was that he *seemed easier.*

Colonel Taylor has been ranching at Willow Point since the war at the conclusion of which he retired from a life-long service in the British army. He served in Mesopotamia with General Townsend's division, and following Townsend's surrender at Kut-El-Amara was a Turkish prisoner of war for three years.

MEANS OF ESCAPE
