CANADA TO VOTE JULY 28

Today's *Human Comedy*

And yet they send their sympathy!

GOVERNMENT AND LANGLEY IN AGREEMENT ON LIQUOR PROFIT

SALMON TREATY BILL PASSES HOUSE, SENATE

OTTAWA, Ont., May 29. (CP) —The bill ratifying the treaty concluded betwen Canada and the United States for the preservation and extension of the sockeye salmon fisheries in the Fraser river system, passed the *house of commons today, and* tonight was adopted by the senate.

To the terms of the treaty there was no dissenting voice, but the measure of ratification did not pass without somewhat protracted and at times slightly acrimonious, discussion. British Columbia members were largely responsible for the discussion which took place, although toward the end of the debate both the prime minister and the leader of the opposition spoke.

Stenographer Pleads Guilty Theft; Freed Suspended Sentence

VICTORIA, May 29.—Allegations that Rita Vaughan, former St. Joseph's hospital stenographer was influenced by a man in the robbery of $770 in cash and $837 in cheques belonging to the hospital were made by W. C. Moresby, K. C., who appeared for Miss Vaughan in her trial in police court today.

Miss Vaughan changed her plea from not guilty to guilty and was released on suspended sentence following explanations by counsel that the case had been considered by the attorney-general's department, which was agreeable to this procedure.

Cloverdale to Finance Under Control of the Government

MURRAYVILLE, May 29—The government has paid a cheque to Langley municipality for $8457.47. The amount was withheld from the municipality since last December against work done on the Yale road. The amount represents payment in full of the municipality's share of the liquor profits and pari-mutuel money. A further sum of $4825 is owing the municipality, and government representatives on Wednesday afternoon made certain proposals to the Langley municipal council whereby settlement will be ultimately made ,it is understood.

The government representatives were Hon. William Atkinson, minister of agriculture; J. W. Berry, M. L. A.; P. Philip, public works engineer; E. H Erner, district engineer, and H C. Anderson, assistant engineer. The meeting with the council was in camera, the press and even the municipal clerk were excluded

GOVERNMENT CONTROL

A similar meeting was held in the *morning at Cloverdale, and the* Surrey municipal council agreed to certain proposals made, which will allow the municipality to finance its major projects, under government sanction this year, leaving the main issues in dispute to be settled at a round table conference later on. From what can be gathered this amounts to government control of the municipality's major activities. Surrey received no cheque, and still claims from the government $21,000, withheld, as in Langley's case. The municipality has been billed for $36,000 for work done on primary highways.

The councils were bound to secrecy, however, but is said that Surrey was told that there was a cheque for Langley. Langley's money has not been transferred to the consolidated revenue fund, while that of Surrey had been. It is now impossible to recover Surrey's money without passing a special act of the legislature, according to an alleged statement made at the meeting.

The government representatives, after leaving Langley, went on to Matsqui, Sumas and Mission, where grants were also withheld against work on primary highways.

VICTORIA, May 29.—Mrs. Louise Alexander was elected president of the British Columbia chapter of the P. E. O. Sisterhood at its closing session here today.

Just 20 Years Ago Curtis Flew First Odd-Looking Plane

Big Commemoration Today; Canada Shares in Glory

NEW YORK, May 29.—(By Guy E. Rhoads s.C. P. staff writer).—Twenty years ago today Glenn H. Curtiss flew his odd-looking pusher biplane from Albany to Manhattan and accomplished a feat which the late William Howard Taft, then president of the United States, described as "the greatest in the history of aviation." Curtiss flew 137 miles at an average speed of 50 miles an hour.

The commemoration of the Curtiss flight which will take place tomorrow when an armada of modern aircraft will retrace the pioneer's course is of interest to Canada, for the first two really successful airplanes ever built in Canada were being exhibited the previous years at the Petawawa, Ont., military camp under the eye of the department of militia and defence.

The Canadian planes known as the Silver Dart and the Baddeck No. 2, were built at Baddeck, N. S., under the direction of Dr. Alexander Graham Bell, inventor of the telephone, who was then prominent in the National Geographical society and very much interested in the development of a feasible heavier-than-air flying machine.

The Silver Dart was flown at Petawawa by John McCurdy, now prominent in a Canadian aircraft manufacturing concern, and Casey Baldwin, who is still at Baddeck experimenting with variable pitch airplane propellers.

The ground at Petawawa proved very rough for the trials, and, after one successful flight, McCurdy

Urgent Plea Made in House for the Miners of Fernie

350 Unemployed Miners Wire Ottawa for Some Aid

SUBVENTION SOUGHT TO REVIVE INDUSTRY

Esling Brings Up Matter in House; Is Critical of Dr. King

OTTAWA, Ont., May 29. — The distressing condition of Fernie miners and the importations of Russian coal, was again brought to the attention of the house tonight, by West Kootenay's member, W. K. Esling. The latter had received a wire from W. A. Harrison, secretary of the Fernie Miners' association, which read:

"Three hundred and fifty miners are unemployed and the balance are working half time. Subvention of freight rates to Manitoba market would assist in rebuilding the market for Fernie district. Immediate relief is needed and requested by the Fernie miners. The situation is getting more serious every day."

(Signed) W. A. HARRISON, "Secretary."

The distress of the Fernie miners was cited by the West Kootenay member in contrast to what he termed the extravagant travelling expenses of Hon. Dr. King, the minister from British Columbia.

He said that in the last five years the minister received $70,000 in salary and indemnity, in addition to which Mr. Esling referred to the auditor-general's report that during the same period the British Columbia minster had *charged $21,950 for travelling* expenses plus $10,750 for his automobile upkeep and chauffeur.

The three items totalled over $100,000 for five years and in view of the fact that parliament was usually in session for six months each year, the travelling expenses averaged a little better than $4,000 for the other six months of each year.

"I want to ask the minister, in all candor," said Mr. Esling, "if he thinks he is worth it."

The minister replied that he did.

"BON VOYAGE" SAYS PRISONER AS GOES TO ELECTRIC CHAIR

OSSINING, N. Y., May 29.—Stephen Ziolkowuki was executed tonight in the electric chair at Sing Sing prison for complicity *in the slaying of John Perraton during a payroll holdup in* Buffalo. He was 24-years-old and a resident of Buffalo.

The slayer entered the death chamber at 11:01 p.m. and was pronounced dead at 11:05. He maintained an air of bravado to the last, calling out "bon voyage" as he was strapped in the chair and exclaiming, "go ahead" *a moment before the current was* turned on.

SENATE KILLS PROHIBITION OF RACING STORIES

OTTAWA, May 29—(CP)—The senate today killed the amendment to the criminal code prohibiting the publication of race track betting odds and tips.

BENNETT TO START CAMPAIGN IN EAST

GLACE BAY, N. S., May 29.—Hon. R. B. Bennett, Conservative leader, will open his election campaign in the east on July 7, speaking at Glace Bay and Sydney on that date, it was stated here.

STORMS HOLD UP PROGRESS OF GRAF

HAVANA, May 30. — Heavy storms are impeding progress of the Graf Zeppelin on her way to the United States. As a result the trips over Cuba and a stop at Havana have been cancelled. The ship will likely steer straight for New York.

HOUSE WORKS UNTIL EARLY MORNING HOUR

Toil on Estimates in Order to Finish Business Today

OTTAWA, May 30.—(CP)—Canada's 16th parliament is near an end. It will likely pass into history today. Last night and into the early hours of this morning the commons toiled with the estimates—the last talk before finis is written.

The interest as the end approaches was evident on every side last night. The galleries were well-filled—some of them crowded until midnight. Many political enthusiasts remained even later than that. The official gallery kept filled as deputy ministers and their assistants waited to be called onto the floor of the house to assist their ministers to explain the items in the estimates for their departments.

The members kept in the chamber or the adjoining lobbies and as a *rule they were carrying well the* strain of the long sittings. However, it took very little to raise squalls which broke out at unexpected times and at unexpected items in the estimates as the night proceeded.

The house sits again at 11 o'clock today.

WINNIPEG IS BAFFLED OVER MURDER CASE

Unable Locate Gun That Killed Man; Wife Held as Material Witness

WINNIPEG, May 29—(CP)—Twenty-four hours of search has failed to reveal the gun that dealt death to Wasyl Baran, 50-year-old Ukrainian machinist, killed in his home here last night.

The case promises to be one of the most baffling in the annals of local police history.

It has been established by police authorities that Baran's own .32 revolver was used in the slaying; a cartridge box, with one bullet missing, was found hidden in the yard of his home today, and tonight a reward to the finder of the gun was offered by the city.

Mrs. Baran remained in custody at police headquarters tonight. She is held as a material witness, pending further investigation and the inquest. The inquest will be held tomorrow.

It was Mrs. Baran who discovered the body when she returned from a church meeting shortly before midnight last night. The body was slumped on the floor with a bullet wound in the right temple.

18 KILLED AND 30 WOUNDED IN POLITICAL WAR

BEUNOS AIRES, May 29.—(AP)—News agency dispatches from Sao Paulo, Brazil, today stated that 18 persons had been killed and 30 wounded in a political battle between police and citizens of the town of Andradas, state of Minau Garaeu

The dispatches add that the *officer commanding the police* and the local political leader, named Orestas Gomes, were among the dead. Andradas is near the state border of Sao Paulo.

DEPRESSION FELT IN NEW ZEALAND

WELLINGTON, New Zealand, May 29.—(C. P. cable via Reuters)—New Zealand, like the rest of the world, in involved in the maelstrom of international trade depression. The *effect of the depression on the* country's national finances is demonstrated by the fact that the new premier, Hon. G. W. Forbes, estimated that there will be a budget deficit of 3,000,000 pounds (about $14,600,000) due to the contraction of the national income due to falling prices of New Zealand's products.

IRELAND SAID TO HAVE MADE MONSTER SUM

Maxwell Estimated City Official, Vancouver, Got $4800

MAXWELL SENTENCED 18 MONTHS TERM

Ireland on Stand Before Investigators Refuses to Answer Questions

VANCOUVER, May 29—Faced with charges by his former assistant Clifford Maxwell that he had participated in city relief meal ticket speculation, George D. Ireland, former relief officer, *refused to answer* questions when he was brought before the investigating committee of the city council this afternoon.

"I have been advised by my counsel not to answer questions until I can confer with him." Ireland said.

Testifying before the investigating committee today, Maxwell estimated that Ireland had made forty eight hundred dollars from the redemption of meal tickets since April 1929, and said he believed Ireland had been cashing meal tickets to the extent of two hundred dollars a month since 1927. Maxwell said he never cashed any meal tickets except at the investigation of Ireland.

Maxwell was today sentenced to eighteen months imprisonment for the theft of $2900 worth of chattels in the form of meal tickets. He had pleaded guilty and made full restitution to the city before he was sentenced

SIMILAR CHARGE?

G. E. McCrossan, K.C., corporation counsel, announced to the investigating committee that he would advise that a charge be laid against Ireland similar to that on which Maxwell was sentenced.

Ireland already stands committed for trial on charges of accepting commissions from cafe proprietors on meal tickets and of accepting money gifts. He is at liberty on $10,000 bail.

George S. Wrinkle, restaurant proprietor, who pleaded guilty to paying a five per cent commission to Ireland on meal tickets, was today sentenced to a fine of $750 *or six months imprisonment.*

F. F. Kennedy, another restaurant proprietor charged in connection with the enquiry stands remanded until Wednesday next.

PRINCESS ELIZABETH IS THE HIT AT BIG MILITIA, NAVAL SHOW

LONDON, May 29. (CP cable) —Tiny Princess Elizabeth, the daughter of the Duke and Duchess of York, was the star *attraction today* at the royal tournament, the military and naval display which is among London's greatest annual affairs. Alternately clipping gleefully the items in the pageantry and standing up solemnly to take the salute of the marching regiments, the popular little princess seemed to enjoy herself immensely. This is *the second successive year* His Majesty the King has been unable to attend the opening of the great display of his troops' prowess at the Olympia.

Her Majesty the Queen, with the Duke of Gloucester and Prince George, occupied the royal box.

WILL ATTEMPT TO STUNT WHIRLPOOL OF NIAGARA TODAY

NIAGARA FALLS, Ont., May 29 —Elaborate arrangements are being made by police and bridge officials for the trip through the rapids and whirlpool of William "Red" Hill tomorrow.

The day being an American holiday, it is expected that there will be a tremendous crowd on hand to see the stunt. Hill will start at the Canadian Maid of the Mist landing at 1:15 p.m., and expects to paddle himself down, with the lid open, to the lower rapids where he will pull down the cover, go through the whirlpool and, if *successful, be taken ashore at* Queenston.

SHRINE COURT AND JURY ARRANGED AT BIG CONVENTION

TORONTO, Ont., May 29. — An American and a Canadian judge will sit side by side, at a special court that will hear any cases brought to its attention by the Shriner police, the provost guard. It will be one means of maintaining order during the pending Shrine convention. The jury will be composed of 12 men from different cities in North America.

Dissolution Seems Certain Today; All Parties Agreeable

TOT CARRIED AWAY BY BEAR RECOVERED; RECOVERY LIKELY

PORT ARTHUR, Ont., May 29. —(CP)— Two-year-old Mary Geske, believed to have been carried off by a rambling black bear yesterday, today was found in the woods near Dinorwio, Ont. The child was hurried to *hospital here, though suffering* from exposure, her chances of recovery are reported as good.

BULL RIVER LAD GAINS $12,000 DAMAGE AWARD

Jack Sales Wins Case From East Kootenay Power; Arm Useless

CRANBROOK, B. C. May 29.—The findings of the grand jury in the Sales vs East Kootenay Power case which has occupied the court for most of the sitting and until three o'clock Thursday morning was a verdict awarding the Sales boy damages amounting to $12,000.

The suite arose out of injuries sustained by the boy, Jack Sales *of Bull River, when a metal* fishing pole he was carrying touched a power wire of the company. Falling to recover from the shock the boy's arm has shriveled so as to be of no use to him. G. J. Spreull was Sales' attorney and A. McLeod Sinclair of Calgary was counsel for the defense.

'KING OF HOAXERS' GETS NINE MONTHS FOR ART FRAUDING

LONDON, May 29. (CP cable)—Hunter Charles Rogers, laborer, and so-called "king of hoaxers," was today sentenced to nine months in jail at the Berkshire assizes for uttering forged documents purporting to bear the signature of William Penn, founder of Pennsylvania.

The sentence was the sequel to Rogers' attempt last January to sell a collection of his own paintings and "art relics" in Toronto. He claimed the paintings were the works of old masters and that the papers were of great historic value. The collection was said to be worth $500,000, and to have been in the possession of a descendant of William Penn, who ordered them sold in America out of dislike for European art dealers.

COAL MINES BILL GETS THIRD READING IN HOUSE OF LORDS

LONDON, May 29.—(CP)—The house of Lords tonight gave third reading to the coal mines bill, in which the lords had previously inserted several amendments. Lord Sankay the Lord Chancellor, announced the government could not accept all the amendments and that the bill would not be returned to the house of commons.

Legislation of Contentious Nature Is Thrown Aside

ESTIMATES, SUPPLY TO BE DEALT WITH

Premier Shows Why Election Should Be Held on July 28

OTTAWA, Ont., May 29. (CP) —Unless there are some entirely unexpected developments election day will be Monday, July 28. This evening in the house of commons Prime Minister Mackenzie King asked for and obtained assurances from party and group leaders that they would cooperate with the government in an attempt to conclude the work of the session in time to prorogue tomorrow evening. The prime minister informed the house that if it was found possible to prorogue tomorrow he would ask His Excellency the governor-general for immediate dissolution, and the election would take place on July 28. Failing this, the election would have to go over for two weeks until August 11.

WITHDRAW BILLS

The prime minister's request to the house came after the government had withdrawn from the order paper all remaining legislation of a contentious nature, leaving only the parliamentary estimates to be dealt with. Mr. King gave the members a number of reasons why he considered it very *important that the election* day be in July instead of August.

At the outset he denied a rumor that the government was contemplating asking for dissolution tomorrow night, even if the business of parliament remained unfinished. He had never had any such intention, and the business of parliament would be finished *in an orderly manner.*

THE CONFERENCE

But, said Mr. King, an imperial conference had been called at which Canada should be represented. No matter what party was returned to power, the government would have to make some preparation for that

(Continued From Page Two)

BELIEVE CANADIAN TARIFF BOARD TOO BRIEF ON NOTICES

LONDON, May 29—(By George Hambleton, Canadian Press staff correspondent)—The methods of the Canadian tariff advisory board at Ottawa were brought up by the English representatives at the congress of the Empire chambers of commerce today. It was submitted that the board sometimes gave notice they would a week hence consider changes in tariffs. British representatives held this notice was too short to make adequate representations to Ottawa.

P. J. Hannon, speaking for the British manufacturers said they *thought it would "be better if* the actual imposition of modification of duty were in the hands of the Canadian executive itself."

Campaign in India Against Salt Laws Is Sweeping Onward

Massed Raids Planned; Another Leader Is Sent to Jail

BOMBAY, May 29.—(AP)— The campaign instituted against India's salt laws by Mahatma Gandhi is sweeping onward despite that leaders interment and the arrest of his lieutenants daily.

While the war council of the Bombay Nationalist congress has decided to renew the mass raids begun against the government salt works at Wadala last week, raids on the salt pans and resultant arrests continue at Dharasaana.

One hundred Nationalist volunteers were arrested today at Dharasaana when they arrived from Bulsar to rush the pans. They were interned at Dungari, and 16 were given sentences of six months rigorous imprisonment. Some who apologized were released, as were all those under 20 years of age.

Dharasaana has been the focal point of the attacks for two weeks. Hundreds of volunteers have been arrested, and others have bbeen injured by the sticks of the police. Mrs. Sarojini Naidu, who became leader of the Nationalist movement following the internment of Gandhi and his next in command, Abbas Tyabji, was arrested there and imprisoned last week for her part in the campaign.

Meanwhile, another leader was sentenced to one year's rigorous imprisonment today for his part in the Dharasaana raids. Chimanhal Chinoy, president of the Surat National congress committee, and also leader of the League of South of India,

(Continued on Page Two)

BRITISH WEST INDIA SUGAR MATTER AIRED

Chambers of Commerce Discuss Ways of Saving the Industry

LONDON, May 29.—The plight of the British West Indies sugar industry was a subject laid before the Empire chambers of commerce congress this afternoon.

G. F. Huggins of Trinidad declared the small preference given by Great Britain to the sugar projects of the islands was insufficient to save the industry. "Is it fair," he asked.

Mr. Huggins declared that, if nothing were done then the colonists might have to turn to the United States and said, "Help us before we are entirely wiped off the map."

The West Indies, added Mr. Huggins, were most grateful to Canada for what she had done and the attitude of the Dominion was one of the few bright spots in the island's situation.

"The attitude of Mr. Snowden, the chancellor of the exchequer, almost brings a blush to the cheeks of Englishmen," said Sir Stanley Machin, who has in the past been president of the London chamber of commerce and president of the British association of chambers of commerce. Sir Stanley was speaking of the sugar duties and he added: "If Snowden doesn't bend he will break."

Tomorrow the delegates will be received by the king at Buckingham Palace.

LORD DAVIDSON IS LAID AT REST

LONDON, May 29. (AP)—Funeral services were held today in Westminster Abbey for Lord Davidson, former archbishop of Canterbury, and primate of England, who died last Sunday.

In the throng that attended the impressive ceremonies were the Duke of Gloucester and many others of the uttmost prominence in the life of England.

TWENTY YEARS SINCE KASLO SANK, AINSWORTH

Submerged Pile Drive Hole in Hull; G. B. Matthew Recalls Experience on Board Ship

Old-timers in Nelson will remember that it was just 20 years ago this week that the Great Northern steamer, Kaslo, had her hull stove in on the wharf at Ainsworth, with the result that she gradually filled with water and sank as she was beached a short distance from the wharf. When the boat came to rest the stern was in about 14 feet of water and the bow practically free from water.

As the boat made the wharf at Ainsworth about 10:30 on the morning of Friday, May 27, a stiff side-wind drifted the stern around in such a manner that the rise and fall of the waves drove a hidden pile through her hull.

BEACHED QUICKLY

The Kaslo pulled away from the dock and suddenly about 100 yards out Captain J. E. Moore discovered that the boat was listing and filling. He immediately swung the wheel hard over and brought the prow of the boat in to shore. He was none too soon, for the ship was settling fast, and just reached the shelf of shore where she settled with her upper works showing.

Before any particular damage was done, the 15 passengers that were aboard were transferred ashore and the boat secured by a hawser to the shore.

Prolonged bad weather resulted finally in the Kaslo slipping off the ledge into deep water, where she remains today.

G. B. Matthews, of Nelson, who was on board the Kaslo on the day of the accident, recalls that he and several other passengers were playing solo as the boat pulled away from the Ainsworth wharf. On glancing out of the window they were astounded to see the boat heading for shore at full speed. Glancing at the shore, they also saw many people running from Ainsworth to a point where the boat would beach.

There was no particular excitement or danger except from the boilers, which might have blown up, coming in contact with the cold water of the lake. In fact, Mr. Matthew and several others got row-boats and fished for the remainder of the day.

He also recalled that since the passengers had not been set down at the destination called for on their tickets that each had his fare refunded.

STRAWBERRY CROP ONLY 50 PER CENT NORMAL ON ISLAND

Main Crop Should Be Rolling About June 12, Says Report, Victoria

The strawberry crop is only about 50 per cent normal on Vancouver Island this year, says the Victoria report in the current news letter from the markets branch, department of agriculture.

Strawing is about three-fourth done. The main crop should be rolling by June 12. It is quite evident that the Island growers will be short of cannery and jam supplies and that their 1-lb. carton cold-pack will absorb at the peak of the season. Planting has been heavy to British Soverign this season.

VANCOUVER

Vancouver—The weather has been very unsettled during the past week. Apples are cleaning up fairly well although some of the varieties such as Delicious are rather late on the market. Practically all of the strawberries are now coming in from the interior of Washington; prices are down $1.00 from those of a week ago. A few Black Tartarian cherries are in from California. Further light arrivals of California canteloupes are in. Local headlettuce now has the market and dealers are compelled to dispose of the late arrivals of the California products at a loss to get rid of them. Local cauliflower has also arrived in sufficient volume to displace the imported article. New potatoes are now arriving from California sharing the market with the Texas tubers. Prices remain at the same level. Trading, generally speaking, is about normal. This is a between season period prices are high and movements are light.

The following fruit and produce was imported at Vancouver during the seven-day period ending May 22, 1930. Washington, strawberries 805 crates; asparagus, 1187 crates. California; cherries 72 crates; canteloupes, 253 crates, tomatoes, 640 lugs; celery 200 crates; green peas, 843 crates; green beans 16 crates; carrots 2215 crates; cabbage, 1448 crates. New potatoes Calif. and Texas 1773 sacks.

Hay grain and feed wholesale at mill; Wheat, No. 1, $47.00 ton; No. 2, $43.00 ton. Oats, $45.00 ton. Barley $41.00 ton. Corn, $45.00 ton; cracked corn, $47.00 ton. Bran $38.00 ton. Shorts, $40.00 per ton. Middlings, $47.00 ton. Scratch feed, $47.00 ton. Lay Mash, $53.00 ton. Timothy $23.00 ton. Clover, $25.00 ton. Alfalfa, $29.00 ton. Poultry live to shipper; Light hens, lb 16c; medium hens 18c lbs; heavy hens, 22c lb; stags, 11 to 14c lb; broilers, 16 to 18c lb; old ducks, 20c lb; young ducks, 25c lb. Eggs to producer cases returned: Fresh extra, 25c doz; fresh firsts, 23c; pullets extra, 22c. Veal; Country dressed tops to shipper 16c lb.

CALGARY

Calgary—The first car of Kennewick strawberries was received here on the 20th, and selling at $6.00 to $6.25 for 24-pt. crate. A car of Arkansas quarts which came in last Monday was not in the best of condition and had a slow sale. Quotations started at $12.00 per 24-qt. crate and later dropped to $8.00. A few crates of this car had to be jobbed at almost any price. There is no Walla Walla rhubarb on this market at present, due no doubt, to the low price of B. C. rhubarb which is now selling at $1.35 a box. The first car of California field tomatoes arrrived here this week but was very green and it will be some days before they will be ripe enough to sell, so the market is a little short of tomatoes. B. C. Calgary, Lethbridge and Medicine Hat H. H. tomatoes are being offered at a price of $7.00 per 4-basket crate. Cucumbers are still slow with plenty being offered from Medicine Hat and Lethbridge. The market is clean on cauliflower and the next will likely arrive from B. C. Headlettuce is in fair demand and still being received from California and Washington. Tartarian cherries in 12-lb. boxes, and Bings are now arriving from California. The Bings are quoted are $5.50 and the Tartarians at about the same price. Weather cool, cloudy and unsettled.

EDMONTON

Edmonton—Business is fair to good. The apple market is quiet. Newtowns, Winesaps, Ben Davis and a few Romes are being offered at steady prices. We received a car of New Zealand Delicious some two weeks ago, but comparing the price with the quality they are not wanted, besides, they are showing increasing deterioration and look as though they will wind up with a heavy loss. B. C. hothouse tomatoes are arriving in fair volume but not enough to affect the market and prices are firm. Cucumbers are plentiful with prices slightly weaker. The market is overstocked with B. C. rhubarb and prices are breaking. Asparagus is becoming fairly plentiful, arriving both from B. C. and Washington and prices are slightly weaker. Potatoes and onions are unchanged with prices very firm. On the 19th we received a car of new cabbage, but on account of the duty prices remain high and is retailing at 9 to 10c per lb. New beets and carrots are coming from Texas and are firm at $7.00 to $8.00 per cwt. We have received the third car of Arkansas strawberries. The last one sold to the trade at $7.50 but this one is quoted at $12.00 per 24-pt crate. People are asking when will the B. C. berries be ready, and it might be well to let the public know. A little advertising at the present would be very effective.

Wholesale prices Apples, B. C. Newtowns, Winesaps, fancy, $2.85 to $3.00; Washington, Winesaps, C. grade, small sizes, $2.15 to $2.25; New Zealand, Delicious, extra fancy, $4.50 to $4.75. Strawberries, Arkansas, 24-qt. $12.00 Tomatoes, B. C. Hothouse, 4-bskt. $6.75 to $7.00; California lugs same price. Cucumbers, B. C. hothouse extra fancy, doz. $2.25 to $2.50; Washington, hothouse dozen $2.00.

SEATTLE

Seattle—Cold weather retarding asparagus growth, receipts light market firm and higher. Best quality 10 to 11c lb; second quality 8 to 10c lb. First car Pasco peas received today $2.75 to $2.85 per hamper to retailer. Carlot lettuce shipping season started with first car to Chicago last night. Growers getting $1.00 to $1.25 delivered packing shed. Receipts of local strawberries increasing, best bringing $4.50 to $4.75. Some showing effects rain and selling at $3.50. Eastern Washington Kennewick berry deal to be over middle of this week.

REGINA

Regina—The weather during the week has been cool with occasional showers. Seeding is about completed. Business continues fair. Missouri strawberries are now on the market. This deal promises to be short and snappy, as people are waiting for B. C. berries to take care of their coming requirements. B. C. field rhubarb continues to arrive in good supply, the quality is excellent and there is a good demand. B. C. apples and onions are cleaning up. There is a plentiful supply of imported vegetalbes on the market including celery, headlettuce, cabbage, field tomatoes. A sample case of B. C. headlettuce arrived on the 20th, and was favorably commented an B. C. and Alberta H. H. Cucumbers are now supplying the market. The local greenhouses are supplying green onions and radishes to the trade.

WINNIPEG

Winnipeg—Business just fair. Weather during the past week has been cool, raining almost every day. Apple movement slow with no change in prices. Strawberries moving slowly on account of weather conditions. They are taking quite a long time to clean up a car of berries and there is a car on the track waiting for the market to clean up on the last car. Price $9.00 per crate. All lines of green vegetables meeting with fair demand with practically no change in prices, excepting Texas cucumbers which are now being received by freight, lowering the price to $4.50 per bushel hamper. We are now being supplied with rhubarb coming from Minnesota which is selling at 4½c lb. About the only potatoes now supplying the market here are received from the Maritimes, and are selling for about $2.90 to $3.00 per 90-lb. bag.

Wholesale prices: Apples, B. C. Winesap—Newton, fancy, $3.00 to $3.25; Stayman and Spitz, fancy, $2.75 to $3.00; Washington Winesaps, $3.25. Cabbage, Calif. cwt. $6.00 Strawberries, 25-pt. crate, $6.00. Tomatoes repacked, lugs, $5.00 to $5.25. Rhubarb, field, Minnesota, 4c lb. Celery, Calif. per crate, $9.50. Cucumbers, Texas field, bushel hamper $3.75; B. C. hothouse doz. $2.00 to $2.25. Lettuce, Calif. 5-6 doz. $5.50. Onions. Bermudas, 50-lb. crate No. 1, $2.50

APAIRY NEWS

Aparies in B. C. are now required to be registered by the Department of Agriculture. The penalty for failure to do so is from $10. to $50. A free Bulletin of Bee Culture in B. C. may be secured by writing to the Department of Agriculture, Victoria.

Bees have wintered well and are now in good condition. There are an abundance of honey producing flowers and everything points to a good honey crop.

REVIVE CONTROL FOR POTATO MARKETING

Will Become Effective Within Next Few Days

VANCOUVER, May 29.—Control of potato marketing in the lower mainland, under the Interior Committee of Direction has again been revived and will become effective within the next few days.

Two months ago the Interior Committee of Direction suddenly announced that it had dropped the potato control in the lower mainland, giving as its reason the heavy legal costs that were being incurred in enforcing the act. Those costs, although entailed by the potato growers, became a charge against the Interior Committee of Direction which is mainly interested in the welfare of the apple producers. A sum of over $6000 had been charged up against the apple growers in this way and they naturally objected to paying it since it was the result of legal costs in test cases affecting the validity of the orderly marketing of lower mainland potatoes.

Since then a ballot has been taken of the growers to ascertain what the sentiment for or against control actually was.

CANADA WILL CAST BALLOTS ON JULY 28th

(Continued From Page One)

conference, if Canada was to be adequately represented. He doubted if this would be possible unless the election was held on July 28.

There was always the possibility that the result of the election would leave the question of which party was entitled to form a government uncertain. In that event, said Mr. King, parliament would be summoned in order to decide what course of action should be taken. But then it would be even more difficult, in fact impossible, for Canada to have representation at the Imperial conference.

HARVEST TIME

Other reasons advanced by Mr. King against delaying the election were the approaching wheat harvest in the west; the dislocation of business due to the uncertainty of a long campaign; and that fact that it was now a month since he announced the government's intention to hold an election and the campaign had been virtually in progress during that time.

In agreeing to assist in the bringing about of prorogation tomorrow, Hon. R. B. Bennett, opposition leader, issued a warning that government supporters would find themselves confronted with the prime minister's request for a speedy dissolution if they endeavored to say, during the campaign, that the Conservatives had endorsed the estimates.

NOT ENOUGH TIME

It would be idle to say that a full opportunity to examine the estimates had been given, if the house prorogued tomorrow night. On the other hand, the effect on the business of the country must be considered as well as "the very earnest desire everywhere apparent that this administration should be replaced by another one at the earliest possible moment."

From the U. F. A. seats, Robert Gardiner, group leader, blamed the government for not calling the session earlier and thus avoiding a last-minute rush. A shorter recess might have been taken at Easter. Mr. Gardiner agreed, however, that prorogation should take place tomorrow if possible.

While protesting against the present method of voting estimates, Henri Bourassa, Independent member for Labelle, said that he had no objection of prorogation tomorrow.

TILDEN WINS HARD ONE

AUTEUIL, France, May 29—(AP)—William T. Tilden caught a tartar in G. P. Hughes, one of England's rising young tennis stars, today in the men's singles of the French Hard court championships. The United States veteran achieved a victory after a bitterly contested battle in which Tilden was repeatedly on the defensive. The score was ....-1, 8-1, 7-5, 6-3.

MEN'S QUARTER FINALS TENNIS, FRANCE

AUTEUIL, France, May 29—(AP)—The men's quarter finals in the French Hard Court tennis play pit Tilden against Lytleton Rogers, the Irish giant; Jean Borotra, France, vs. J. Colin Gregory, England; E. F. Moone, Australia, vs. Baron Morpuurgo; Henri Cochet, France, against Harey Opnan, Australia.

Fitting jackets are smarter than straight cardigans for the separate wrap of the summer sports suit.

Hermes' sleeveless jackets of baby blue leather, with bags and shoes to match are a smart summer sports feature in Paris.

HEAVY JUNE CROP APPLES FORECAST IN THE OKANAGAN

But Frost Takes Heavy Toll; Tomatoes Suffer; Seek More Plants

VERNON, B. C., May 29.—Reports by fieldmen to Sales Service Limited, are that there will be a heavy June drop of apples and pears and that this season there will be a great deal of misshapen fruit. This is attributed to the cold frosts this spring. Frost damage to apples will only account at present for a two or three per cent reduction. This will amount to between five and 10 per cent in pears. Cherries show three or four in clusters where originally there was seven or eight.

Estimates are made of a reduction of tomato acreage about Kelowna ranging from 125 to 200 acres. Allowing for this there will be about 300 acres more tomatoes this year than in 1929. One prominent canner is looking for more plants. He states there will not be more than three-fifths of the supply needed to replant the tomato acreage which suffered frost damage on Sunday night in the Kelowna district.

BIG AUTO RACE TODAY, INDIANAPOLIS

INDIANAPOLIS, Ind., May 29—Men who race death that may come with the snapping of a coter pin, again drew attention of the world's sportsmen and sportswomen to the 500 mile automobile race at Indianapolis.

As reckless and probably as skillful a band of drivers as ever donned goggles will start in the eighteenth renewal of the international classic over the weather beaten, bumpy Birch course at ten o'clock (central standard times) tomorrow morning.

Thirty-eight drivers—the largest field since the first 500 mile race in 1911—will face the starter, thinking not of the tragedies of other races but of the $115,000 prize money and the fame which go to the winner.

MISSING FROM HOME IN EAST OVER A MONTH

Chief of Police Thomas H. Long recently received information from the police department of Windsor, Ont., requesting that a watch be kept for Miss Catherine C. McHugh, who disappeared from Windsor on Monday, April 21.

Miss McHugh was about 33 years old, 5 feet four inches tall, weigned 115 pounds, had blue eyes and hair prematurely gray cut pompadour style. She was secretary of a law firm.

Miss McHugh had been in poor health and suffering from depression, and is believed to have lost her memory. Since she was of a deeply religious nature it is thought that she may turn to her church or some Catholic institution for assistance.

Cut out flowers appliqued on chiffon are the newest in decorative effects for evening frocks—the cutouts also forming a dainty edge for the bertha collar.

Was Constipated, Bilious, Tired. Now Well, New Woman

"Was aways constipated, bilious, tired, out of sorts. Since taking 'Fruit-a-tives' feel like new woman, perfect health. Constipation all gone." — Muriel McHendry, Montreal.

Hosts of men and women write years-old constipation and liver trouble ended overnight with "Fruit-a-tives" Biliousness, indigestion, heartburn, gas vanish like magic. Kidney and bladder ills, pain in back fade away quick. Nerves quiet, sound sleep at once. Rheumatism, neuralgia, pseuritis, sick headaches decamp in hurry. Complexion clears.

Ten of nature's greatest remedies combined in handy tablet. Marvelous discovery by famous Canadian doctor. Speedy results amaze all.

Quit being sick, tired, weak. Get "Fruit-a-tives" from druggist today.

FREIGHT HEADS ARE INVITED TO MEET OKANAGAN

C. P. R. and C. N. R Officials May Meet Okanagan Rates Body

VERNON, B. C., May 29.—The Okanagan freight rate committee at the suggestion of W. Sanford Evans has decided to invite the men chiefly responsible for the freight traffic on the two transcontinental lines to come to the Okanagan valley for a discussion of matters on which it is believed an amicable decision may be reached.

J. G. Thompson, secretary to W. Sanford Evans, promised that Mr. Evans would bend his best efforts to secure the presence in the valley of George Stephens, vice-president in charge of traffic for the C. P. R., Montreal, and C. E. Jefferson, assistant freight traffic manager, western lines, C. P. R., Winnipeg.

C. N. R. heads whose presence is sought are G. T. Pettigrew, assistant general freight traffic manager, Montreal, and W. G. Manders, Winnipeg, freight traffic manager western region.

FOUR MANSLAUGHTER CASES UP AT VERNON

VERNON, B. C., May 29.—Four manslaughter cases will be the feature of the spring assizes which commence in Vernon on Tuesday, June 10. Other criminal charges include attempted murder, forcible seizure, theft, and an attempt to do grievous bodily harm. Three civil cases are all that are at present included although there may be additions.

In one other respect this court will be noted. It is the first occasion on which women have been summoned for attendance on the grand jury.

POWER PLANT AT CHRISTINA LAKE DESTROYED, FIRE

GRAND FORKS, B. C., May 29.—Fire of unexplained origin demolished the power plant of Alpine Inn at Christina Lake Tuesday night. Extensive damage was done and light and water was completely cut off. Plans are being made for reconstruction of the power plant. The Inn will be closed until the plant is rebuilt.

McCoy's Cod Liver Extract Tablets Fine for Thin Frail Kids

Children Love Them Because They Are Sugar Coated and as Easy to Take as Candy

It's your duty, Mother, to see that the frail, peaked, sickly youngster grows up to be strong in body, keen in mind and robust in health.

Extracted from the livers of the lowly codfish are the health weight and strength producing vitamines that are found in McCoy's Cod Liver Extract Tablets which are sold by pharmacists all over North and South America.

Doctors know about them and so do City Drug & Books and druggists everywhere and if your children need building up ask for these tablets today if you want to give your loved ones a good appetite and put pounds of good healthy flesh on their bones. But be sure and get McCoy's.

They are not expensive—60 tablets—60 cents, and if you are not pleased with the improvement after 30 days—your money back.

A very sickly child, age 9, gained 12 pounds in seven months and is strong and healthy.

One skinny woman gained 8 pounds in 24 days.

FLORIDA MAN IS AMAZED TO FIND GOOD ROADS HERE

On 15,000-Mile Auto Trip; Thought Scott Fouled by Sharkey, Miami

L. O. Blatchford, car dealer from Miami, Fla., who passed through Nelson last night on his 15,000-mile auto tour of the United States and Canada, was surprised that roads in British Columbia were so good. Accompanied by his wife, he had motored through via the Fraser Canyon highway and Penticton to Nelson where he took the boat for Kuskanook.

They had left Miami late in March and had more or less loafed along the southern route across to California and up the Pacific coast to Seattle and Vancouver. Mr. Blatchford was surprised to find that there was a highway through the southern portion of British Columbia.

SCOTT FOULED

Mrs. Blatchford, who is more or less of a boxing fan, stated that he had seen the Scott-Sharkey fight earlier in the year in Miami and from where he was sitting in the 20th row he would have said that Sharkey actually did hit Scott a shade too low for a fair blow. It was his opinion, however, that neither Sharkey nor Scott would ever reach the top rung of the heavyweight ladder, Schmeling looked like a better prospect.

WILL BROADCAST NAME OF LIBERAL LEADER TONIGHT

TRAIL, B. C., May 29.—James Skinner, secretary of the Trail Liberal association, announced this afternoon had been advised that the name of the new British Columbia leader of the Liberal party, to be chosen at the party convention at Kamloops Friday, would be broadcast Friday night from a Vancouver radio station.

FATHER OF TRAIL LADY DIES

TRAIL, B. C., May 29.—Mrs. G. J. Kinnis received a cable from England yesterday telling of the death of her father, J. J. Egdell of Newcastle-on-Tyne, England.

Mr. Egdell died early yesterday morning at the age of 78 years.

He is survived by his wife and four daughters, Mrs. G. J. Kinnis of Trail; Dorothy, Gladys and Ella of Newcastle-on-Tyne; and one son, D. Egdell of Nanaimo.

AIR BATTLE IN CHINA

SHANGHAI, May 29. (AP)—The first aerial battle in Chinese warfare occurred today when two Nationalist airplanes shot down a northern rebel plane, said a dispatch from Nationalist military headquarters in Nanking.

FIRST SHIPMENT OF CHERRIES ROLL FROM THE OKANAGAN

VERNON, B. C., May 29.—The first shipment of cherries to go out of the Okanagan this year moved on Wednesday en route to Edmonton. They were grown by D. R. Dawson of Osoyoos, and looked to be of exceptional quality and flavor. The first cherries to leave the valley in 1929 did not move till June 11. Gooseberries moved on Monday to Vancouver.

NELSON HAS MOST RAINFALL IN WEST

Fall for Day Is .76 Inch; Calgary Is Next With .32 Inch

Rainfall registering .76 inch in Nelson yesterday was the most reported from any point in the west. At intervals throughout the day heavy showers were experienced and not once did the sun appear.

Registrations at other points were: Spokane .12; Penticton .01; Vernon .15; Calgary .32; Edmonton .02.

CAMPAIGN IN INDIA ON SALT STILL GOES ON

(Continued From Page One)

was taken from his bed to answer a charge of inciting salt attacks. He pleaded guilty.

The Surat district immediately declared a cessation of work in mourning for the loss of another chieftain.

At Madras a bomb was thrown into the municipal revenue office and damaged furniture. Rangoon, the Burmese capital where fighting has caused 1 deaths and more than 700 injuries the last few days, was the scene of a new disturbance which required police and troops to quell.

The trouble is the outgrowth of a dock laborers' strike, and as a result shipping is halted. The main Indian business quarters are closed and the streets have not been cleaned in days.

SPEEDY TRIAL IS ELECTED BY PAIR ON THEFT CHARGE

Mr. and Mrs. A. Bailey appeared in the provincial police court here yesterday morning before Stipendiary Magistrate John Cartmel and elected speedy trial, after being remanded for trial on charges of taking goods to the value of $50 from the home of W. R. Baxendale, near Procter.

The trial will be held before Judge W. A. Nisbet on June 10.

$68,245,443 Is the Gross Value of All Minerals Last Year

Figure Is $2,872,860 Greater Than 1928 Output; Total Tonnage Is 6,977,681; Sullivan Plays Big Part

According to John D. Galloway, provincial mineralogist, in his report, just released, the steady progress that has characterized mining in the province of British Columbia in recent years was again shown in 1929. An increased gross value of production was coupled with much development, and exploration and prospecting were vigorously carried on in widespread areas.

The gross value of the mineral production of British Columbia in 1929 was $68,245,443, a new high level record in the history of mining in the province. This figure is $2,872,860 greater than the value of the output in 1928, or 4.4 per cent, and 1.6 per cent higher than the previous record production in 1926.

Until the last two months of the year, metal and mineral production was at a slightly higher rate, in the aggregate, than in 1928, but curtailment in November and December resulted in decreased yearly outputs in some of the products of the industry. The explanation of the higher valuation is largely due to the much higher price of copper metal during 1929 and also a slightly higher average price of lead.

The tonnage of metalliferous ore mined in the province during the year was 6,977,681 tons, as compared with 6,241,3170 tons in 1928, an increase of 11.8 per cent. This increase was almost entirely due to larger tonnages mined at the Sullivan and Britannia. Slightly lower grade ore was handel at ly lower-grade ore was handled at these properties, so that the metal production from them was approximately the same as in 1928. The average gross value of the ore mined in the province in 1929 was approximately $7.35 a ton, as compared with $7.75 a ton in 1928.

FOUR CLASSES

The mineral production of British Columbia is divided into four classes—metal-mining, coal-mining, structural materials, and miscellaneous metals and minerals. Of these, the first class is by far the most important, with a production for 1929 valued at $51,293,570 (including placer gold). This is followed by coal, with an output valued at $11,256,260, and structural materials and miscellaneous metals and minerals, totalling together $5,695,613.

As compared with 1928, the production figures show increased valuations for copper, lead, structural materials, and miscellaneous metals and minerals, and decreases in all others.

By value, the various products of the mineral industry produced in 1929 are ranked in the following order: Copper, lead, zinc, silver, structural materials, gold, miscellaneous metals and minerals.

NEW COPPER RECORD

The quantity of copper produced was 101,483,857 lbs., which is a new high record and the first time that the output has been in excess of 100,000,000 lbs.; the valuation at $18,375,682 is also a record figure.

The output of lead in 1929 was 302,346,268 lbs., or only slightly less than in 1928. Owing to a higher market price for lead, the value was more than a million dollars greater than in the preceding year.

The coal production for the year is valued at $11,256,260, as compared with $12,633,150 in 1928, a decrease of $1,376,890, or 10.9 per cent. The decrease was general in all districts in the province. The decline in coal output does not indicate a lessened fuel consumption in the province, but shows the further inroads being made in the provincial coal industry by imported fuel-oil and imported coal, the latter particularly from Alberta.

The output of zinc in 1929 was 172,096,841 lbs., valued at $9,268,792, which compares with 181,763,147 lbs., valued at $9,984,613, in 1928. It was expected that a record output of zinc would be made in 1929, but curtailment of mining operations at some properties and the storage of zinc concentrates by others in the last two months of the year reduced the estimated figure considerably. There are large reserves of zinc ore in the province, but a decided improvement in the price of zinc metal will be required to stimulate increased production.

The production of gold in 1929 amounted to $3,004,419, as compared with $3,888,097 in 1928, a decrease of 22.7 per cent. The decrease was mainly caused by a lower production from the Premier.

Placer-gold output also decreased the value being recorded at $116,711, as compared with $143,208 in 1928—a decline of 17.1 per cent.

STRUCTURAL INCREASE

Structural materials produced in 1929 were valued at $3,921,768, an increase as compared with 1928 of $513,082, or 15 per cent. This shows clearly that building activity continued to increase throughout the Province. The larger part of the output of structural materials is made in the Western District (Southern Coast) and the principal market is in the Coast cities.

The output of miscellaneous metals and minerals continued to show in 1929 the raid growth that has characterized this branch of the industry in recent years. A value of $1,773,845 was recorded for 1929, as compared with $905,354 in 1928 and $459,514 in 1927. The output has therefore been approximately doubled in each of the last two years. Continued expansion of this branch of the industry may be expected, as there are many deposits of such materials that will gradually be utilized in Provincial industries.

From the foregoing brief summary it is evident that mineral production in 1929 was quite satisfactory, says Mr. Galloway. Decreases in some of the products were more than offset by increases in others. The marked decline in the prices of silver, lead, and zinc which marked the end of 1929 and the early months of 1930 had but little effect on the production for 1929. The principal producer of these metals in British Columbia is the Sullivan and it it not likely that low prices will cause any marked decline in output from this mine in 1930.

The outlook for 1930 is that probable declines in the production of silver, zinc, and coal will be compensated by larger outputs of other metals and minerals—at least in part. With present conditions, however, it is not to be expected that 1930 will set a new resord for production, but an output close to that of recent years should easily be attained.

CAT'S RIGHT TO BITE IF TAIL STEPPED ON

CLEVELAND, May 29—A cat is entitled to a bite if someone steps on its tail, a common pleas court jury decided

The jury after deliberating 35 minutes found that neither cat nor its owner could be blamed or held liable for $10,000 damages sought by Mrs. Alice Compton, 56, who alleged a feline bit her when she stepped on its tail in a grocery store.

Mrs. Compton charged the store with negligence in not controlling the cat's whereabouts, while counsel for the store countered that she was careless where she stepped.

BAYNES LAKE SOCIAL

BAYNES LAKE, B. C., May 29.—J. Aye left last week for Corbin.

Miss Adolph and Miss Grenfell motored to Fernie on the 24th to visit friends.

Among visitors to Fernie on Monday were Mr. and Mrs. Sharpe and son, Lloyd, Mrs. C. Tanner and daughter Louise, Mrs. Clemens and son Frank.

Mr. and Mrs. Stirling were Fernie visitors Monday.

Mr. and Mrs. M. Melusik left for Vancouver on Tuesday. Mr. Melusik has been sawyer at the Baker Lumber Company's mill at Waldo for some time.

Mr. and Mrs. Peter Backs were Fernie visitors during the week.

Mr. and Mrs. Beauvis of Elko were visitors at Baynes on Monday.

D. Ross left on Monday for Bull River.

G. McFarlon was a businesss visitor to Bull River on Monday.

Mr. and Mrs. Lawrence Backs motored to the coast this week to visit with the latter's parents, Mr. and Mrs. Ardiel.

MRS. MILLER RETURNS GRAND FORKS

GRAND FORKS, B. C., May 29.—Dr. W. Truax left Tuesday morning for Vancouver and is expected to return the end of the week.

Mr. and Mrs. A. Sater of Greenwood motored to Grand Forks on Tuesday and spent the day in town.

Mrs. F. J. Miller returned Monday from Powell River, where she had been attending the annual assembly of the Pythian Sisters.

Mrs. W. Madden and children of Greenwood are visiting in the city this week.

Mr. and Mrs. D. C. Manly returned Tuesday from the coast. They had also attended the grand assembly of the Knights of Pythias. Mr. Manly is being congratulated on having received the honor of being elected the new Grand Chancellor of the K. of P. for British Columbia. Mrs. Manly is the new Grand Protectorate of the Pythian Sisters of British Columbia.

EASTPORT DOCTOR IS DEAD

EASTPORT, Idaho, May 29.—Dr. A. F. H. de Lespinasse, who has resided here with his family for the past two years, died very suddenly at his residence here Saturday night. He is survived by his wife, a daughter and two sons. Dr. de-Lespinasse was highly esteemed by the people of both Kingsgate and Eastport.

Four-piece suite for travelling are very much in favor—consisting of a skirt, blouse, jacket and cape or topcoat as the case may be.

PRICES, COPPER, LEAD HIGHER DURING YEAR, SILVER, ZINC ARE OFF

Silver Little in Demand; Many B. C. Properties Closed Down

SULLIVAN HEAVIEST LEAD ZINC PRODUCER

Expect Larger Producers Maintain Normal Output in 1930

The important metals mined in British Columbia which are affected by fluctuations in market price are copper, lead, zinc and silver ,according to the annual report from the British Columbia mines branch, just released by John D. Galloway, provincial minerologist.

During 1929 the average prices for copper and lead were higher than in 1928, but these increases were offset by lower average prices for silver and zinc. The following table shows comparative average yearly prices for these four metals for the years 1927, 1928 and 1929:

Silver (New York)—Cents per ounce 1927 *56.370; 1928 *58.1760; 1929, *52.993.

Copper (New York)—Cents per pound: 1927, *12.92; 1928, *14.570; 1929, *18.107.

Lead (London)—cents per pound: 1927, *5.256; 1928, *4.5754; 1929, *5.0504.

Lead (New York)—Cents per pound; 1927, 6.755; 1928, 6.305; 1929, 6.833.

Zinc (London)—Cents per pound; 1927, 6.1946; 1928, *5.4932; 1929, *5.3858.

Zinc (St. Louis)—Cents per pound 1927, 6.242; 1928, 6.027; 1929, 6.512.

* denotes prices used in compiling total metal valuations in 1927, 1928, and 1929 annual reports.

The above table shows that in 1929, as compared with 1927, there were increases in the average prices of copper and lead of 24.2 and 10.4 per cent respectively, and for silver and zinc, decreases of 8.9 and 2 per cent.

SILVER DOWN

The price of silver has trended almost steadily downward in recent years and the future outlook is not encouraging. The lessened world demand for silver as currency and the relatively limited use of it in the arts has resulted in a tremendous overproduction of the white metal. Much of the world output of silver is a by-product from the mining of other metals and this production is made almost without regard to the price of silver. Unless important new uses are found for silver, an increased price can hardly be expected.

The effect of the lowered price of silver, in conjunction with low prices for lead and zinc, has been to close down a number of small mines which were producing silver-lead and silver-zinc concentrates. It is improbable that these mines will resume operations until prices obtainable for the concentrates are considerably higher, either by increased metal prices, more favorable treatment rates, or a combination of both.

SPEEDED UP

Productive copper-mining was speeded up in 1929 because of the increased price of copper. A considerably higher tonnage of copper ore has been treated but the grade of ore has been somewhat lower, and as a result the output of copper is only slightly higher than in 1928. However, with an 18-cent price for copper the two large copper companies have made considerably higher profits. Development of copper properties has also been accelerated this year and, owing to this, increased production may be anticipated in the future.

Expert opinion is by no means unanimous regarding the trend of copper-metal prices in the next year or two. The price has been stabilized at 18 cents by the Copper Export association, and by balancing supply and demand this association expects to keep the price stabilized. That price may, however, not be 18 cents, but at least it is not at all likely to return to the relatively unprofitable levels of recent years. It seems likely that the price of copper metal will probably be maintained at a level profitable to copper-mining in British Columbia.

BULK FROM SULLIVAN

In the last two months of the year lead and zinc prices declined materially. The bulk of the lead and zinc production of the province comes from the Sullivan mine—95 per cent of the lead and 92 per cent of the zinc output. This mine could continue to produce lead and zinc profitably when low prices would shut down most of the other lead-zinc mines in the world. The ore from this mine is milled and smelted and the metals refined and marketed by the owning company—the Consolidated Mining and Smelting Company of Canada, Limited—so that the company gets all the available profit in producing this lead and zinc. Costs in relation to selling-price are not likely, therefore, to influence the Consolidated company in curtailing production from the Sullivan. However, the Consolidated is now an important factor in the world marketing of lead and zinc and world conditions may be such in the next six months as to warrant some curtailment. Actually the company is in shape to make a considerably larger production just as soon as more hydro-electric energy is made available, plans for which are being pushed ahead just as fast as possible. The zinc-refinery of the company now has a capacity of 400 tons of zinc a day.

Summing up, it may be said that while some curtailment of production will take place with the small mines in 1930, due to low metal prices, it is expected that the large producers will maintain normal production of outputs and that the quantities of silver, copper, lead, and zinc produced may equal those of 1930.

Summer days will bring forth more frocks in new aquamarine shades.

CRANBROOK GRAND JURY CONDEMNS BUILDINGS THERE

Present Government Building and Courthouse Inadequate

CRANBROOK, B. C. May 29—A strong recommendation was brought in by the grand jury for the spring assizes, now being held here, condemning the present government building. The recommendation will be handed by Mr. Attridge, foreman of the jury, to Mr. Justice W. A. Macdonald, for forwarding to the government. It is worded as follows:

His Lordship, Mr. Justice W. A. MacDonald, the Supreme Court, Cranbrook, B. C.

We, the Grand Jury convening for the Spring Assizes 1930, after due examination and consideration, herewith make the following recommendations:

A.—The present government building and courthouse is totally inadequate to carry on the business of the district inasmuch as the government is put to the additional expense of paying rentals for three departments, namely, the agricultural offices, the labor bureau and janitor's quarters.

B.—The public works department is located in a separate building, causing considerable inconvenience to the public.

C.—The present court room and offices are quite inadequate for the amount of business transacted the jury's room being occupied by the district water engineer and the library by the school inspector. The lighting and ventilating of the whole building is very bad. The heating plant, during winter, is not sufficient to properly heat the building, it being almost impossible to use some of the rooms during severe weather.

D.—The Jail quarters are entirely inadequate, as prisoners are brought in from a large district and at time there is considerable overcrowding. Also there is no provision for female prisoners or separate quarters for lunatics.

E.—In our opinion the vaults are not properly fireproof, therefore endangering records of this district, going back as they do to 1864.

F.—We would suggest a land registry office for South East Kootenay be established in Cranbrook, and that provision for same be made in the new building.

The Cranbrook City Hall was visited by the Grand Jury and we suggest that immediate changes be made in the sanitary arrangements specially in the prisoners quarters In the place where the prisoners eat there is an open toilet, which is against all health regulations and should be changed. We also recommend that the cells be cleaned out and all blankets and bunks be fumigated and that the blankets be properly folded and put in proper shape each morning.

Respectfully submitted; W. F. Attridge for the Grand Jury

A New Rork editor remarks: "Nowhere yet have we seen quoted the line for which alone we think John Masefield should have been made poet laureate—"The days that make us happy make us wise"."

SPLENDID FOOD!

Appetising! That just describes the food you get when you travel Third Class by Cunard or Anchor-Donaldson. The best . . . lots of it . . . beautifully cooked . . . nicely served. 5 or 6 courses for dinner, 4 or 5 for lunch. Menu changed every day. Printed Menu cards. Spotless linen. Flowers. Stewards to wait on you!

TOUGH LUCK FOR ENGLAND'S GIRL FLYER

Fate sometimes is unkind. Take the case of Miss Amy Johnson, British girl aviatrix. Over mountains, hills, deserts, seas, jungles and wilds she piloted her sturdy plane. Several times she had minor accidents to her plane but never too serious to carry on.

Alone and practically unaided she conquered the long trail of 11,000 miles to fly from Croydon field, England, to far-off Australia. With daring flying and steel-like nerve she completed her trip. But on Wednesday, after all this hazardous trip, she crashed near Brisbane, Australia. Luckily she was only shaken up but her plane, her boon companion, is wrecked. To come a cropper after 11,000 miles of air travel is hard luck indeed.

AUTOS INJURE MOST BUT STAY AT HOMES ARE NOT IMMUNE

Auto accidents account for the greatest number of claims against casualty insurance companies. According to the actuarial records of one of the largest of these, doing business in Canada and the United States, more than 51% of the personal injuries reported in 1929 were due to car mishaps. Yet a great many who stay at home get hurt, too—16.59% of claims were the results of falls from chairs, tables and windows, from getting in and out of bed, from slipping on rugs and polished hardwood floors; tumbles in bathtubs and showers, headers down trapdoors and chutes, and from bumping down stairs.

One out of every forty was hurt in passing through doors or by being caught in windows.

Other applications for indemnity involved asphyxiation, assaults, bitten by animals, bitten by insects, burning buildings burns by acids or chemicals, burns on stoves or radiators, burns by matches or cigars, burns by steam or hot water, collisions with inanimate objects, collisions with persons, foreign particles in the eyes, explosion of gasoline or fireworks, handling, lifting or carrying objects; using hand tools or machinery, poisoned by shrubs, plants and other infections due to stepping on broken glass or rusty nails.

Of all the sports except baseball more persons, oddly enough, were injured playing golf than in any other way—ten times as many injuries as football caused. The figures are: Baseball, 491; golf, 433; and football, 67. There were 167 hurt in parks and at picnics, 71 at theatres, churches and concerts; 208 horseback riding; 151 hunting; 32 in the woods or country; 142 scuffling and wrestling; 188 at tennis and squash; 105 at winter sports; 52 while dancing; and only 21 while boxing and 229 at basketball.

Sixty-five per cent. of all accidents which happened while persons were travelling, excluding motor car accidents, involved railroads, but the figures also showed plainly that railroad travel is becoming safer every year. In 1918 fully 7 per cent. of all mishaps involving people, irrespective of their occupations, took place on railroads. In 1929 the percentage had fallen to 4.6.

The insurance people reckon that probably one-third of most common accidents could be avoided if persons would be more observant of what is going on around them—more careful of where they put their feet and hands and not be so absent-minded.

Aunt Het

"Maybe I was'nt as smart as modern girls, but I didn't go traipsin hot-foot down to the front gate when some impudent little squirt set in a buggy an' tooted for me."

The Lighter Side

When Masefield polished up that bar,
Or rubbed the rail below it,
Few patrons dreamed he'd go so far
And win fame as a poet.

THE MODERN TYPE

The go-getter type is not the one chosen by heads of corporations for high executive positions, according to Prof. J. P. Day, of McGill University.

In years that are sped, the executive head
Who was picked as a leader of men
Was a quick-moving guy with a gleam in his eye,
Who could travel the hundred in ten;
Before break of day, he leapt out of the hay,
And he toiled like a beaver till noon;
From luncheon of soup he returned with a whoop
And he quit by the light of the moon.
Now, the man who is head of a business, instead
Of cavorting around his day in a leisurely way
With a brain that is quiet and clear;
Though the boss of the past was excited and fast,
Like a mongrel pursuing a flea,
After two of the clock, he is handling a sock
To a little white ball on a tee.

HIS DIFFICULTC

Little Billy, returning from school, was asked by his mo, them, "How was the lesson?" to which Billy replied, "Not so good, Mummy."

"How do you mean, "not so good?"

"Well," said the contemplative four-year-old, "I couldn't get the step the teacher showed me."

"Oh, so that was it. What do you think was the trouble?"

"Well, Mummy, I've been thinking about it, and I think it was my feet's."

TEN YEARS AGO

(The Daily News of May 30 1920)

Fierce forest fires are now raging in the Maritime Provinces. The fire at Herbert Country, Nova Scotia is especiallly bad. Hundreds of miners have battled for several days now, but with out avail. Several towns have been wiped out.

* * *

Local hikers to the Silver King on Toad mountain report that there is 12 feet of snow in that vicinity. That is more than in midwinter. It is due to the exceptionally heavy rainfalls which has been experienced here.

* * *

William Lancaster, inspector of mines, met with instant death when his auto crashed over a bridge near Fernie yesterday.

* * *

Mrs. Caroline Shardelou, wife of John Shardelou, C. P. R., car inspector, died here last night.

HOUSE-FURNISHING IDEAS

I have been taking notes of original and tasteful ideas in house furnishing, and I believe that the following hints will help the young couples who plan "a home of their own":

The New Bedroom Over-Drapes: These consist of two narrow strips of colored silk at either side of the window, over loped-back dotted swiss curtains; and across the top of the window, instead of the customary straight or ruffled valance, hangs a piece of the same colored silk looped in many folds, over all, measuring about 12 inches in depth in the center and gathered tightly at either end, where it is attached to a rod. A simple ball fringe edges this looped valance, and the same tiny balls decorate the bottom of each side strip of silk.

The Dining Room surfaces: Often the question: "What shall I put on my dining table between meals, and what shall I use on buffet and serving table?" is a puzzle to the young housekeeper. At the present moment Italian filet runners are very smart. These come in a brown thread (in the net part) with cream colored figures on the brown background. You will have no trouble having a runner the right length for your dining table, so that it comes nearly to the edge but does not fall over. These runners also can be found the correct length for buffet and for serving table. In the center of the table runner I should stand a pink glass bowl with flaring edges, in which to set a matching glass stemholder for artificial pink flowers. On the buffet runner I should stand a tray holding your silver coffee service, flanked at either side by a pewter pitcher (one for water, one for fruit drinks, in summer—for, one cannot own too many generous pitchers!)

Effective Hall Arrangement: If you have a fairly small Oriental rug, hang it in your largest hall space, and in its center hang a framed mirror; under this wall group place a slender console, and on the console an electric drop lamp of artistic design. At either side stand twin, high-backed, formal chairs.

TOLD IN RIME

Shorthand, shorthand, shorthand!
That's all I ever hear;
At home it's quite as bad as school
Though I've only been a year.
I just can't seem to learn it,
I just don't seem to know
That alphabet, those grammalogs,
Contractions, phrasing, oh!

At first it seemed so easy,
So simple, that I said,
"I'll know it all within a year,
I'll have that book all read."
But first it was the alphabet,
Oh, dear, I plodded through,
But when I had that finished
More grammalogs came in view.

I tried my hand at phrases,
But that was just as bad,
They always were too clumsy,
And they nearly drove me mad.
Monday was transcription,
With a curve, a dash, a dot,
That such a way meant something,
But another way did not.

"Now just you look here, Tommy,
It's as simple as can be."
But my head was all a-whirling
For this was "Greek" to me.
So back I started over,
Went o'er it all again;
My struggles weren't futile,
My efforts not in vain.

I studied and I learned it,
And I rememberded, too,
The intervening vowels,
Contractions, too, I knew.
And though I still don't know it all
And sometimes now forget,
I keep on, for I'm determined
To master shorthand yet.

FERNIE, B. C. May 29—A cone to indicate the direction of the wind was erected at the Fernie airport on Tuesday by Harold Minton and assistants. The cone was donated.

That Body of Yours

By JAMES BARTON, M. D.

DON'T LET HEART GET STALE

When Dempsey, Tunney, Sharkey, or other boxer is getting ready for a bout, he starts training in an easy fashion at first, a little jogging or low running on the road a little skipping or shadow boxing in the gymnasium, and two or three rounds of boxing.

He gradually increases his work until he is doing as much as he will have to do during the bout. In addition to this he is running three to five miles daily.

However, a few days before the bout you will read that he is 'down to weight', has cased up on his training, and for two or three days before the bout he does no real work, just a little walk or shadow boxing to keep him limber.

Why this 'let up' on his training when you would think he would work right up to last minute?

Because he does not want to become 'stale'.

Staleness means that the athlete has been doing so much work that the wastes from his work have not been carried away by the circulation, and actually prevent the muscles working at their best. In fact if work is kept up too long the muscles become practically paralyzed until they are rested for some time.

An so to avoid any chance of too much waste being in the muscles—even a little too much—the athlete stops his hard training for a few days before the bout and the heart and circulation can thus carry away any wastes, should there be any.

Now why do I speak about this?

Because your heart is made up entirely of muscle. True it is, not within your control, but it is muscle just the same and so should be treated in the same manner as the other muscles of the body.

As you know, the heart gets a rest between the first beat and the second beat, and again a longer rest between the second beat and the first beat again.

But perhaps you have an illness, or infection of some kind, and the heart has been beating at the rate of 100 or 140 to the minute, instead of 72 to 76.

It can keep up this rate for a long time because of its 'reserve' power.

However just as the other organs of the body need a prolonged rest after weeks of training, so also does the heart.

It may not become dilated, may not increase in size, may be working along pretty well as far as your physician can tell, but just the same it has lost some of its reserve during the ailment, and this reserve must be regained.

And just as the athlete rests for a few days before his bout, so also you should remain in bed, or at least sit or lie around the house for a few days after the infection or ailment has passed away, before you go about your daily work.

Thus you will build up your heart reserve again.

TWENTY YEARS AGO

(The Daily News of May 30, 1910)

At a lengthy session of the city council last night it was decided to build a city band stand next to the Hume Hotel.

* * *

Salvation work will commence at once on the steamer Kaslo, sunk at Ainsworth. George Hales, who has the contract, will urge the plan of sinking tow barges alongside the boat and jacking it out of the water on the tugs.

* * *

United South Africa was formed recently by the federation of Cape Colony, Orange River Natal and the Transvaal. With Viscount Gladstone as governor, the union will come into operation tomorrow.

* * *

Archie Leitch, founder and president of the East Kootenay Lumber company died suddenly at his home in Cranbrook yesterday. Mr. Leitch bought the first sawmill to the Kootenay a year before the railway. He freighted the machinery from Golden a distance of over 200 miles.

* * *

Gus B. Matthews and Al Tregillus who went up the lake three days ago and who were on the steamer Kaslo when she struck the piles and sank at Ainsworth, returned yesterday. Mr. Matthews came in on the steamer Kuskanook and Mr. Tregillus rowed in from the Bluebell Mine a distance of 30 Miles.

While cutting grass on her husband's grave, Mrs. Margaret Lynch of Mahonoy City, Pa., was fatally stricken with a stroke.

What the Press Is Saying

A HOME-MADE GOVERNOR GENERAL

Will Australia choose an Australian as Governor-General? The present Governor-General is Lord Stonehaven and the government has recommended Chief Justice Isaacs as his successor. It is said that no surprise has been expressed by London at the announcement, and even that it has been regarded with satisfaction. The Manchester Guardian declares that the demand of Australia marks the taking of a new step on the road of autonomy, just as the right to her own diplomatic representation marked a similar step. There was a time when the Governor-General played an important role in the destinies of the Dominion, but today the office is practically stripped of its powers. Events in Canada, continues The Guardian, have shown that some difficulty may yet arise between ministers of the government of a Dominion and a Governor-General who comes from Britain. The paper makes allusion to an incident in which Lord Byng was embroiled when he asked Mr. Meighen to form a Conservative government—an administration which it is well known had but an ephemeral existence. If Australia obtain an Australian as Governor-General of the country it would set an example which other British nations would want to follow. The question of a Canadian Governor-General will be raised some day or other, for the idea is generally popular.—The L'Action Catholique.

THE LAW AND SPEED

For some time past the speed with which criminal and other cases are disposed of in British countries has been the subject of much newspaper comment in the United States. Many public men in the neighboring rejublic seem to be beginning to despair of any alteration in the present system This is how a recent case in Britain strikes The Detroit News:

Another difference between British and American courst recently was illustrated in London, where Mr. Justice McCardle of the King's Bench was trying a case involving among other matters, the character and reputation of a man who had spent some time in Bolivia. It was represented that this man had a certain prestige for being able to shoot from the hip. The man explained that he had learned to shoot from the hip, but that it was necessary to have the revolver hanging in a belt with a swivel. "You can not shoot from the pocket," he said.

"Yes, you can," said Mr. Justice McCardle, and, turning to the jury, explained how it was done.

Now, an American court would have had a lot of experts in to testify on how to shoot from the hip. One expert would have testified for the plaintiff and another for the defendant. Then, probably the jury would have been taken to a shooting gallery, or into the country, and an exhibition of shooting from the hip would have been staged. And in the end, the jury probably would have known less about it than its members have already discovered in novels about the wild west.

In the British courts, the judge is supposed to know something. In the American courts, he is too often merely an umpire. That is one reason a British court can try a case in two days which in America would last two months.

In the courts of Canada and other British countries, of course, counsel as a rule sticks to the fundamentals of the case at bar. He may sometimes try to wander; but the judge usually brings him back to the point before he has strayed very far into the realm of irrelevances—Victoria Times.

SHORTER CAMPAIGNS

The general public is beginning to take the election campaign as more of a side-order, whereas it used to be a whole meal, Premier King pointed out some time ago that election campaigns are due to be shortened up. He states that with the wonder-the Canadian newpapers, and with national radio hook-ups which allow party leaders to talk to practically the whole country at one time, there is not the same need of long-drawn out campaigns as a few years ago, when leaders felt it their duty to travel across the country on speaking tours of two or three months.

We entirely agree. There is nothing now to be gained by campaigns extending over three or four months. By cutting down the time the business dislocation, which always accompanies election campaigns to more or less extent, can be reduced to a minimum. That is what should be aimed at. —Lethbridge Herald.

If by any chance there should come a frost and your lilies get touched, you might perhaps be able to save them by getting up early in the morning and letting your spray of cold water play on them until they thaw.

JACK GRANT IS HOST AT YMIR

YMIR, B. C., May 29.—Jack Grant entertained a number of his friends on Tuesday afternoon, it being the ninth anniversary of his birthday. The guests were: Miss Betty Clark, Lottie Anderson, Evelyn Emilson, Olga Hagkinson, Harry Stevens, James Tilton, Tom Clarke, Jim Grant, Elmer Peterson, Sam Veregin and Norman Burgess. Games were played for a couple of hours. Delicious refreshments were served by Jack's mother, Mrs. Grace Grant.

Mrs. S. A. Curwen was a Salmo visitor on Tuesday and was the guest of Mrs. C. A. Cawley.

C. A. Cawley of Salmo was a Ymir visitor on Tuesday.

Capt. W. O. Richards of East Trail was a Ymir visitor on Tuesday and was the guest of Mrs. M. Peters. Capt. Richards left for Salmo on Wednesday.

F. W. Holdsheimer, manager of the Howard mine, was a Ymir visitor on Monday. Mr. Holdsheimer spent Tuesday in Nelson.

Mr. and Mrs. A. B. Clark and family and Mr. and Mrs. W. Clark were the guests of friends at Waneta on Sunday, going via the Reeves-McDonald camp and returning through Fruitvale.

MEN UNEMPLOYED AS MILL CLOSES, WALDO

BAYNES LAKE, B. C., May 29.—Quite a number of local men are unemployed now, following the closing down of the Baker Lumber company's mill at Waldo.

Society

This column is conducted by Miss Helen Murphy. All news of a social nature, including receptions, private entertainments, personal items, marriages, etc., will appear in this column. Telephone Miss Murphy at her home, Kerr apartments.

Thomas MacDonald Jr. of Regina, accompanied by his parents, Mr. and Mrs. T. MacDonald, who have been Nelson residents for a great number of years left yesterday morning by motor for Victoria, where Mr. and Mrs. MacDonald will make their home. T. MacDonald Jr., after holidaying in coast cities, will return to Regina. Mrs. H. H. Currie and son Ian accompanied them.

• • •

Mrs. E. Gammon who has been the raison d'etre for so many social affairs during the past few weeks left last evening for her new home in Revelstoke.

• • •

Mrs. Ivor Jones of South Slocan was a city shopper yesterday.

• • •

A. J. Lewis of Gray Creek was a town visitor yesterday.

• • •

Mr. and Mrs. W. E. Stafford of Spokane are spending a few days in Nelson.

• • •

Mrs. Hector MacKenzie's Circle of St. Paul's United church entertained yesterday afternoon at the home of Mr. and Mrs. W. R. Blanchard Fairview, when they honored Mrs. F. R. G. Dredge, who leaves next month for Kamloops. The house was a bower of fragrant lily of the valley and large vases of lilacs artistically placed around the room. Mrs. MacKenzie, convenor of the circle, expressing regret in losing such a splendid worker, presented Mrs. Dredge on behalf of the ladies with a solid walnut sewing cabinet, also wishing her good luck in their new home. During the tea hour Mrs. Blanchard was assisted by Miss Wightman and Mrs. J. Stobo. The circle members present were Mrs. H. MacKenzie, Mrs. W. Taylor, Mrs. W. B. Anderson, Mrs. L. Wightman, Mrs. J. A. Stobo, Mrs. Glendening, Mrs. R Smillie, Mrs. C. Watts, Mrs. M. V. Allan, Mrs. E Ferguson, Mrs J D Barnes, Mrs E. Donaldson, Mrs . Foggo, Mrs. J. J. McIntyre, Mrs. . M. Auld, Mrs. W. E Shaw, Mrs J H. Bean, Miss Elsie Briss, Mrs. T. Bedingham, Mrs Smith, Miss Ida Graham, Mrs. M. Armstrong, Mrs. J. M. Whimster, Mrs. W. Robertson, Mrs R A Grimes, Miss M A Bell, Mrs W. Graham and Mrs. D Maloney.

• • •

Mrs. Budd of Vancouver passed through Nelson on Wednesday on her way to Cranbrook where she was called following an accident in which her daughter, Miss Nora Budd, was injured.

• • •

• • •

Mrs. N. Goodie of Spokane is in Nelson the guest of Miss Jean Popoff and Miss Laura Andeen.

• • •

Honoring Miss Dorothy Ellwood, a June bride-elect, a bridge and kitchen shower was given on Wednesday evening by Mrs. W. Calbick, Mrs. G. R. Pickering and Mrs. Harold Ronmark at the home of Mr. and Mrs. Calbick, Granite road. Profusions of lilacs in purple and white were used throughout the rooms as decorations. Bridge was played for a few hours, the first prize being won by Miss Signie Kilberg, while consolation went to Miss Hilda Kilberg. A sumptious supper was much enjoyed. The nicely-appointed table with covers for 16 was attractive with its floral centre of purple lilacs and white narcissi flanked with yellow tapers. The evening's real fun was an indoor treasure hunt during which each guest followed their given cue and resulted in Miss Ellwood finding as her treasure as basket beautifully trimmed in pink and white with sprays of lilac and filled to overflowing with the many gifts from the friends present, who were Mrs. H. Thorpe, Mrs. R. Vyse, Mrs. Calbick Sr., Miss Gwen Thorpe, Mrs. J. J. Boyd, Mrs. E. Collinson, Miss Esther Levine, Mrs. M. B. Scully, Mrs. J. Duffy, Miss Hilda Kilberg, Miss Helen Scully, Mrs. R. Gausdel, Miss Signie Kilberg, Mrs. Rogers and

• • •

Mrs. R. Diamond of Trail spent yesterday in the city shopping. Miss Nellie Calbick.

• • •

Mrs. Clarke, Fairview, is spending the week-end at Nakusp.

• • •

Mr. and Mrs. J. E. Schafer of Priest River is spending a few days in Nelson.

• • •

Mrs. W. Farmer of Kitto's Landing spent yesterday in Nelson shopping.

• • •

Mr. and Mrs. J. Hoogerwerf, Victoria street, left last night for Nakusp where they will spend some weeks.

Printed chiffon handkerchiefs to match your summer evening gown are scalloped around the edges and nearly a yard square.

NEWS OF CANADIAN WOMEN

ATTENDS COUNCIL

Mrs. E. Atherton Smith of Saint John, N. B., has sailed for Europe where she will be a Maritime representative at the quinquennial meeting of the International Council of Women in Vienna, which opened May 27. Mrs. Smith intends spending some time in Rome and Florence and other Italian cities, to stay for special invitation from Princess Cantacuzene to visit here in Bucharest, a time at Lake Gards, and has a Mrs. W. E. Sanford, a former president of the National Council of Women of Canada, will also attend the conference.

100 YEARS OLD

A Maritime lady, a former resident of Moncton, N. B., has celebrated her 100th birthday at the home of her daughter, Dr. Emily G. Bedford, Northern Avenue, Swampscott, Mass. She is, so far as known, the excellent health. She reads the oldest living resident of Swampscott, and despite her years is enjoying papers, makes her bed, goes up and down stairs without assistance. Her only infirmity is defective hearing. She is happily of a light heart and displays great interest in what her relatives and friends are doing.

B. C. WOMAN IS HONORED

An honor has been conferred upon Dr. Evelyn F. K. Farris of Vancuover, she having been elected as one of the 15 members to serve a three-year term on the University of British Columbia senate. She is the wife of John W. deB. Farris, K. C., who read law with Weldon & McLean, Saint John, and is a daughter of Rev. E. M. Keirstead, D. D.

Social Events Trail City

TRAIL, B. C., May 29.—Mr. and Mrs. R. McKinnon and children have gone to Moyie, where they will take up residence for two months.

• • •

Mr. and Mrs. [illegible] Morrison, Topping street, entertained at cards Tuesday evening in honor of John Taylor, who leaves tomorrow evening for Scotland. At the conclusion of the party Mrs. Morrison served dainty refreshments.

• • •

TRAIL HOUSES AND LOTS. Insurance. Notary. J. D. Anderson, Trail. (12901)

Arthur O'Reilly and his mother, Mrs. A. O'Reilly, returned last week from Vancouver, where they were holidaying for two weeks.

• • •

J. C. Mackinnon has returned from spending a few days in Spokane.

• • •

Miss Jean McKinnon and Miss Anna McKinnon were visitors to Nelson over the week-end.

• • •

A number of little friends spent Monday afternoon at the home of Mr. and Mrs. Theodore Padberg, Columbia avenue, on the occasion of their son Hendrik's sixth birthday. Games were enjoyed, and Mrs. Padberg served supper. Hendrik was presented with his first violin by his parents. The guests were Jimmie, George and Allen Harvey, Jerry Colbourne, Harry Morish, and Bobby Jewell, and Garfield Acorn of Rossland.

• • •

S. Dodge returned from a visit to Nelson.

• • •

E. J. Levesque and H. Hopkins spent Sunday in Slocan City.

SENT FLOWERS

Among floral tributes received at the funeral of Mrs. W. Marquis was a spray from Mr. and Mrs. A. Wigg and family, Nelson.

In addition to measurements and finger prints of criminals, phonographic records of their voices can now, with their knowledge, be taken.

MRS. HALLETT RETURNS GREENWOOD

GREENWOOD, B. C., May 29.—Mrs. A. L. V. Flood was a visitor to town on Tuesday. Mrs. Flood motored from Wenatchee, U. S. A. and spent the day renewing old acquaintances.

Mrs. F. Hallett returned to Greenwood on Wednesday after a short visit to Spokane.

Mrs. James Drum of Beaverdell is spendinga week in town, the guest of the Rev. and Mrs. A. Walker.

Mrs. C. Nichols and three children are arriving in Greenwood this week to join Mr. Nichols, the newly appointed government agent. They will take up residence in the Bank of Montreal house.

A. J. Morrison of the Wellington mine, Beaverdell, paid a business visit to Spokane this week.

MRS. CARTER, EASTPORT, AT CRANBROOK

EASTPORT, Idaho, May 29.—Mrs. A. Carter and son Dudley left for Cranbrook on Sunday. Mrs. Carter will visit with friends there for a couple of weeks. Dudley returns home the end of the week.

Mr. and Mrs. Warren Rapp and baby arrived in town on Wednesday from Priest River, Idaho. Mr. Rapp is taking Mr. Lewis' place in the Customs.

Mr. and Mrs. Eldon Bellinger left on Saturday for Spokane where they will reside.

Miss Sally Carter, Dudley Carter and Bill Miller are home from Bonners Ferry where they attended high school for the past year.

Mrs. Miller, Sr., of Seattle spent a week visiting at the home of her daughter-in-law, Mrs. W. E. Miller, here.

URGES SUBVENTION IN RATES ON COAL, FERNIE-MANITOBA

FERNIE, B. C., May 29.—The Miners Union on Tuesday sent a strong wire to the Federal government urging it to grant a subvention in freight rates on coal to Monitoba so as to relieve unemployment in this district.

MISS A. GAINEY BACK AT HARROP

HARROP, B. C., May 29.—Miss Agnes Gainey has returned home after spending the winter in Calgary.

Mrs. K. Douglass was a recent visitor here with Mr. and Mrs. W. S. Ashby.

Mrs. C. J. Rowley had as her guests on Saturday Miss Gwen Thorpe and Mr. Schamp of Nelson. Nelson, was a Harrop visitor Wed-

Mr. and Mrs. P. J. Cote, Nelson, were guests Sunday of Mr. and Mrs. W. W. Britton.

Mr. and Mrs. J. S. Levick and children, Jean and Margaret of Silverton, were week-end guests of Mr. and Mrs. J. F. Stevenson.

E. C. Hunt, district horticulturist, Nelson, was a Harrop visitor Wednesday.

E. HARROP S[illegible] OUT AT HARROP

HARROP, B. C., May 29.—Owing to ill health, E. Harrop, pioneer merchant and postmaster here, recently sold his store interests, and in comany with Mrs. Harrop will leave Sunday evening for Victoria where they intend to holiday for the next two months.

NEW GENERAL STORE AT HARROP

HARROP, B. C., May 29.—H. Fairbank and J. Berry, who recently purchased from the Harrop and District Co-operative association, the oil house site, building and equipment, and gas station, are erecting a store building on the property and intend opening a general store about June 1.

MRS. KUNST RETURNS TO BOSWELL

BOSWELL, B. C., May 29.—Mr. and Mrs. Cheshll and Mrs. Wells and children, who have been the guests of Mr. and Mrs. Harry Johnstone for some time, left at the week end for their home in Vancouver.

Mrs. F. Kunst and her baby son returned on Tuesday from Nelson.

Mrs. Charles Allen and her brother, John Waddington, visited Nelson this week.

Mrs. N. Bowden and her brother, John Waddington of Moose Jaw, have left for Lumberton where they will be the guests of Mr. and Mrs. W. L. Hunter.

R. E. Stratton of Nelson was the guest of Mr. and Mrs. W. L. Hepher last week-end.

A wedding of great local interest took place this month in Victoria when Miss Minnie Matilda Knight, youngest daughter of Mr. and Mrs. J. W. Knight, became the bride of Sylvester Spence, youngest son of Mr. and Mrs. Harold Spence, Sanca P. O. The ceremony was performed by Adjutant Fred Merrett of the Salvation Army Citadel. The bride, who was given in marriage by her father, wore a smart gown of shell-pink, crepe back satin with lace trimming and a net veil held in place with a coronet of orange blossoms. She carried Ophelia roses, sweet peas and narcissi. Miss Ivy Knight was bridesmaid in a frock of nile green taffeta, with a wreath of gold leaves in her hair. She carried a bouquet of sweet peas and narcissi. W. H. Knight was the best man. Among the guests was the bridegroom's grandmother, Mrs. J. Bainbridge of Victoria, who is in her 85th year. A reception was held at the bride's home, Mrs. J. W. Knight, the bride's mother, assisting in receiving.

Among the gifts was a silver basket from the bride's fellow employees of F. W. Woolworth Company and a handsome carving set and silver fork from the songester brigade of the Salvation Army Citadel. After spending their honeymoon in Vancouver, Mr. and Mrs. Spence arrived here recently and are making their home on the bridegroom's property at Sanca.

TRAIL ORCHESTRA IS COMPLIMENTED

TRAIL, B. C., May 29.—Complimenting the Veteran's orchestra on returning to Trail with the B. A. Stimmel cup won at the Kootenay Musical festival, members of the Trail branch of the Canadian Legion held a most successful smoker in the Legion room at the Memorial hall last night.

BIG CROWD, PICNIC BOSWELL

BOSWELL, B. C., May 29.—In spite of inclement weather, there was a good turn-out at the annual May 24 picnic. The Lewis Bay recreation ground was gaily decorated with flags. Basketball, baseball, rounders and football were played during the day.

Ice cream, pop and pop-corn were on sale, members of the Woman's Auxiliary being in charge.

In the evening the badminton club held a dance, arrangements being in the hands of Miss Grace MacNe, Miss Kathleen Hughes, Miss Patricia Johnstone and Miss Ruth Cummings.

Raymond Cummings was master of ceremonies.

DEVELOPMENT OF MINES CONTINUES ON WIDE SCALE

Consolidated Most Active in This Line Says B. C. Report

ORE RESERVES SHOW LARGE INCREASES

More Prospectors in Field Than in Previous Years

During 1929 there was a steady continuation of the intensive development and exploration that has been a feature of the mining industry of the province of British Columbia during the last three years, states the annual report of J. D. Galloway, mineralogist. Aas usual, the Consolidated company has been the most active in optioning and developing properties, but the Britannia, Granby, and Premier companies have also carried on much scouting and development. This has been largely argument by numerous small companies and individuals.

Most of the large operating companies maintained or increased ore reserves notwithstanding large tonnages mined. More ore was developed at the Premier than in 1928, but hardly enough to equal the tonnage mined. At the Sullivan, Copper Mountain, Britannia, Monarch, and smalled properties development was quite satisfactory.

At a number of properties not yet producing, development during the year has brought them much nearer the shipping stage. Of these, the most important are the Coast Copper company, the Ferguson Tulsequah Chief, Manville, Big Missouri, British Columbia Silver, Toric, Emerald, Mammoth, and Reeves-McDonald.

MUCH ACCOMPLISHED

While the closing months of 1929 brought a slowing-up of production owing to low metal prices, this condition had but little effect on development and exploration. Owing to financial conditions work was also discontinued on certain properties, but in the aggregate much useful and satisfactory development was accomplished in 1929.

Reports would indicate that more prospectors were in the field than in the previous years. Some of the larger mining companies, notably the Consolidated, placed prospecting parties in various parts of the province. As an aid to prospecting, hydroplanes were used in places in northern and central British Columbia.

NEW PROPERTY

An important new discovery during the year was the Manville property in the Taku river area, which was shortly after acquired by the Alaska Juneau company and intensive development commenced. A number of new discoveries have been reported from various districts, which will be investigated in 1930.

Plenty of capital would now seem to be available for British Columbia mining. The large mining companies in the prolnce all have sustantial surpluses which they are using to acquire and develop mineral properties. Many small companies have been formed in British Columbia, which in part get their capital locally and in part from various sources outside the province. Large mining companies from many parts of the world have had scouting engineers looking for promising mineral properties in British Columbia during 1929.

During the last five years good progress has been made in trying out hundreds of prospects in the province; many of these of course will never make mines, but a fair measure of success is being attained. The result is that prospectors, small mining syndicates, and small companies can feel assured that, once a promising prospect is shown up, abundance of capital is available to carry it forward to the production stage.

KOOTENAYS PLAY BIG PART HUGE MINERAL OUTPUT

Districts 4 and 5 Produce More Than Half of Province Output

According to the annual report of J. D. Galloway, provincial mineralogist, just released from Victoria, the Eastern district (No. 5) and the southern district (No. 4) which include the East and West Kootenay and Boundary mining divisions produced minerals valued at $39,286,069 in 1929. This is more than half the mineral wealth of the province which for the same year totalled $68,245,433.

The Eastern district produced minerals valued at $33,119,358 and the southern district, $6,166,711.

Following is a conservative statement of production in the various centers of the two districts for the years 1927, 1928 and 1929 in order:

SOUTHERN DISTRICT (No. 4)

Grand Forks, Greenwood, and Osoyoos, $699,808; $540,573; $872,978. Similkameen, $3,303,100; $4,325,841; $5,293,733.

EASTERN DISTRICT (No. 5)

Fort Steele, $29,905,168, $31,269,770, $31,596,722. Windermere and Golden $10,038; $62,995; $27,056. Ainsworth, $521,931; $357,169; $337,318. Slocan and Slocan City, $740,413; $1,408,503; $1,029,734. Nelson and Arrow Lake, $370,246; $99,661; $120,392. Trail Creek, $208,938; $209,460; $5475. Revelstoke, Trout Lake and Lardeau, $512; $16,334; $20,661.

TEACHERS' FEDERATION

The Nova Scotia Teachers' union meeting at Halifax appointed Miss Georgie McMinn of Truro as their delegate to the Canadian Teachers' federation in Edmonton. Other Nova Scotia delegates will be Miss B. E. Fry, Halifax, G. F. Morehouse, Amherst.

CROAK OF THE FROG MEANS "I'M IN LOVE"

MONTREAL, Que. May 29—Why does a frog croak? The answer to this question was supplied to the Royal Society of Canada by Dr John Tait and W. J. McNally who revealed that the female frogs croak because they are in love.

Frogs are an honest race, and the ladies make no bones of the fact that they want to be married. It is not the sound of the croak that brings the young man up to the mark, but the vibration set up under the water.

The vibration is caused by the lady frogs suddenly forcing air from lungs to mouth, mademoiselle frog's equivalent of the human sigh.

TOTAL PROFITS LARGER MINING COMPANIES HUGE

In 1929 Dividends Declared in B. C. Totalled $13,743,308

PROFITS OF MINING COMPANIES

The following table shows the dividends declared by companies engaged in the mineral industry in the province during 1928 and 1929: The Consolidated Mining and Smelting Co. of Canada, Ltd., 1928, $6,366,594; 1929, $6,373,750. Premier Gold Mining Co., Ltd., 1928, $1,300,000; 1929, $1,208,250.

Howe Sound Co., 1928, $1,984,152; 1929, $2,480,190. Duthie Mines, Ltd., 1928, $50,000. Granby Consolidated M. S. and P. Co., Ltd., 1928, $1,344,515; 1929, $3,150,005. Bell, 1928, $55,714; 1929, $46,539. Crow's Nest Pass Coal Co., Ltd., 1928, $372,696; 1929, $372,699. Others, 1928, $83,017; 1929, $111,875. Totals, 1928, $11,556,688; 1929, $13,743,308.

The amount of $13,743,308 shown above as distributed in 1929 by no means represents the total net profits earned during that year. In nearly all cases substantial sums are set aside from profits to the credit of surplus and reserve accounts. Profits accruing to private companies and individual mining enterprises as a rule are not given publicity as dividends, as is the case with the large companies, so that no record of these profits, which in the aggregate are considerable, is available.

The following shows strikingly the growth of dividends in recent years: 1923, $2,809,295; 1924, $2,896,174; 1925, $6,319,808; 1926, $9,747,270; 1927, $10,800,838; 1928, $11,556,688; 1929, $13,743,308.

MISS MacAULEY VISITS AT SILVERTON

SILVERTON, B. C., May 29.—Miss Irene McAulay, who teaches at Perry's Siding was the week-end guest of Miss Dorothy White.

Miss Hazel Marshall spent the week-end in Grand Forks.

A number of the residents motored to Kaslo on Empire day. Among those motoring were: Misses Esther Kesler, Riza Rider, J. Fleury, H. Leibschere, W. Marshall, A. Olsen, A. Johnson, E. Marshall, G. Hedgburg.

Miss L. Evans of Nakusp is visiting in town, the guest of Mrs. A. Fairhurst.

K. MacKinnon has returned from a short motor trip to Nelson.

Mrs. McDearmid and M. McDearmid were visitors in town from Three Forks on Sunday night, the guests of Mrs. J. Kelly.

Mrs. C. Norris and her little son, John, spent the week-end with Mrs. J. Ironsides.

Miss Helen and Florence Maundrell, H. Maundrell and T. Bishop of Nelson attended the dance on Friday evening.

Mrs. A. Wetterhaus is spending a few days in Nelson.

MONSTER DANCE HELD SILVERTON

SILVERTON, B. C., May 29.—A monster dance was held in the Memorial hall on Friday night in aid of the Slocan Community hospital. Whist was played during the evening, prizes being awarded to Mrs. T. Burley, first; Miss D. Hunter, consolation; J. McAulay, first; B. Dungee, consolation.

A very large crowd attended from the following points: Sandon, Rossland, New Denver, Slocan City, Perry's Siding, Rosebery.

Music was supplied by a local orchestra consisting of Miss Dorothy White, piano; F. Angrinan, saxaphone; S. Harris, violin; A. Avison, drums. Extras were volunteered by E. Pinchbeck, H. Swan, and Dr. and Mrs. Francis.

J. Draper acted as master of ceremonies.

GOOD CROWD AT DANCE, APPLEDALE

APPLEDALE, B. C., May 29.—A big crowd gathered on the sports ground for the celebration on Empire Day. A good program was arranged but, the rain settling in steadily, only a part of it took place. The baseball game could not be played. The basketball game between Appledale and a team from Nelson was played in the hall, the Appledale team winning by a score of 6-5.

There was a good old time crowd at the dance at night.

During the supper a quartette was sung by Mrs. C. Dickey, Mrs. F. Soucey, J. V. Meyer and E. W. Kopeck; solo by Mrs. Soucey; duet, Mrs. Soucey and E. W. Kopeckl. Music for the dance was supplied by Mrs. C. Dickey, Miss N. Swanson, piano; C. Clarke, saxaphone; H. Horne, trombone; J. Chapman, cornet; J. H. Wynne and F. Carter, drums.

"DO NOT DIE FROM DREAD DIPTHERIA"

First of a Series of Two on This Disease

Practically every child who dies from diphtheria does so because its parents are either ognorant or careless. Because diphtheria can be prevented. Just as vaccination prevents smallpox, so does the administration of a substance called "Toxoid" prevent diphtheria. This process is easy and inexpenssive. When one realizes that between 1000 and 1200 Canadians die every year from diphtheria, while 13,500 sicken of the disease, it would seem to be a pity that people are too lackadaisical to save their lives, and the lives of their children from a disease which is preventable.

The purpose of this article is to tell readers of The Nelson Daily News how to save their lives, and the lives of their children, from diphtheria. It will do more. It will tell how this disease can be utterly stamped out, from the Atlantic to the Pacific, within 10 years.

In the first place, it is necessary to consider what causes diphtheria, and why this disease kills.

GIVE OFF POISON

It begins when the diphtheria germ, a tiny living organism, attacks the throat. These germs, as they develop, give off a poison, or Toxin, that spreads throughout the system, and, as any other poison would do, causes illness that sometimes results in death.

But there is an old saying that every poison has its antidote and the first great advance that medical science made in fighting this disease was in 1890, when an "antidote" to the toxin of the germs causing it was discovered.

This they named "anti-toxin," and for years it was mankind's great bulwark against diphtheria.

It is developed by injecting the virus of the diphtheria germ into the blood of a healthy young horse. Immediately the horse's system develops a substance to fight the poison. This poison-fighting substance, or "anti-poison," is withdrawn from the horse's blood, refined, and made suitable for human use.

Injected into the body of a diphtheria patient, this anti-toxin counteracts the poison of the germ, just as it did in the body of the horse, and years of testing have proven that there are few cases that cannot be cured if anti-toxin is administered shortly after the symptoms manifest themselves. Every hour of delay, however, means added danger, and every year many children die of diphtheria because their parents neglect to call a doctor early, believing that their children are suffering from so-called simple sore throat, when actually they have diphtheria.

PREVENTION PAYS

Important as it is to treat it early, however, diphtheria is one disease that completely proves that an ounce of prevention is worth a pound of cure, for there is another substance, called 'toxoid' which does even more than anti-toxin. Toxoid will actually keep the disease out of the system altogether.

When you take your children to the doctor for this treatment, he will inject about seven drops of toxoid underneath the skin. The process, not a painful one, is repeated at monthly intervals until a total of three injections have been made. The sooner it is done to children after six months of age, the better.

Occasionally the injection produces a very slight soreness for a day or so, and sometimes the child feels a little bit sick for a few hours, but outside of those trivial discomforts which are negligible when one considers the great good that the treatment does, there are absolutely no ill effects.

Toxoid is manufactured right here in Canada and distributed free by most Provincial Departments of Health. So thoroughly has it proven its value, that many local boards of health administer it free. There is no question, but that if almost every one availed himself of the protection that it affords, diphtheria would pass off the face of the earth in very short order.

One says 'almost everyone' because there are some people who do not need toxoid, because nature herself has made them immune to diphtheria.

SKIN TEST

And a skin test has been developed whereby a physician can tell whether your children are immune to this disease or not. It is called the 'Schick Test'. About three drops of a test toxin are injected into the skin of the forearm. If the subject is susceptible to diphtheria, a little red spot, about as big as a dime, will appear on the arm a couple of days later. The test is quite harmless.

One of Canada's greatest authorities has said that the day will come when a coroner's jury will investigate all deaths from diphtheria, to find out who is to blame. You know the sort of deaths that are investigated by coroners' juries—deaths that are not believed to be altogether natural, or in which somebody is believed to have contributed by negligence.

So that if the time ever comes when diphtheria deaths are so investigated, it will mean that the state will regard diphtheria as a preventable disease—which it is—and will want to know who is to blame when anyone dies of it. Such deaths will be regarded not as the result of bad luck, but of somebody's carelessness, and somebody will have to be punished.

GIVE THE TEST

From all this, we may realize our individual responsibility. Every mother should see that her children, as they reach the age of six months or so, are given the Schick test. Every community, through its medical officer of health, should see that toxoid is available to all physicians, and that the public is made aware of this. Every physician should advise his patients accordingly. If this were done universally, a single decade would stamp diphtheria out of Canada entirely.

A second article on this subject will appear later.

INSTITUTES ARE ACTIVE

News of Women's Institutes in Canada and Abroad

AT VIENNA

Mrs. W. R. Lang of Toronto, convener of the legislation committee of the Federated Institutes of Canada, is representing that organization at a meeting of the liaison committee of rural women's organizations, which is beng held May 28 to 30 in Vienna, and of which Mrs. Alfred Watt, the Canadian woman who took the Women's Instiutes idea to England, is president. This committee is meeting at the same time as the convention of the International Council of Women.

VACATION FOR RURAL WOMEN

Manitoba Women's Institutes pass along two plans for a week's vacation for rural women. The first is a "farm women's vacation week" at the Agricultural College in Winnipeg—June 14 to 21. During the week a fine program of round table conferences, shopping trips, good lectures and theatres has been planned, all at a minimum cost. The other idea is a summer camp at a suitable place. Warren W. I. has tried this out very successfully at Laurentia Beach, where a cottage was rented.

TOXOID CLINICS

Prince Edward Island Women's Institutes will cooperate with the provincial health department and the Red Cross society in the conducting of toxoid clinics for immunizing against diphtheria. The dates of the annual convention are July 9 and 10.

TO HONOR CANADIAN

There is a move on foot in England to have a picture of Mrs. A. B. Watt, the Canadian woman who founded the Women's Institutes in England and Lady Denman, president of the National Federation of English and Welsh W. I.'s available for every branch so that "in years to come the younger generations will be reminded of the splendid work of these women." There are now 4517 W. I. branches in England.

EXHIBIT BOTTLED FRUITS

The English and Wales W. I.'s are arranging a special exhibit of "bottled" fruits and vegetables, jams, jellies, pickles and chutnies—in a "countrywoman's store cupboard," at the World's Poultry Congress, which is to be held in the Crystal Palace, London, England, in July. It is hoped that a fresh supply of vegetables and fruit will be available each day.

FOR A MEMORIAL BUILDING

The Quebec Womne's Institutes have contributed $1000 to the proposed Women's Memorial building to be erected at Ottawa.

Indian boy farmers in New Rork state are being organized into 4-H clubs by government to promote knowledge of farming.

Jones Will Meet Fiddian Today

ONLY EIGHT LEFT IN CHAMPIONSHIP PLAY IN SCOTLAND

Six Are From British Isles and Two From the United States

GEORGE VOIGT IS OTHER AMERICAN

Jones Adds to Presitige by His Sixth Round Victory

ST. ANDREW'S SCOTLAND, May —(AP)—Of the 270 competitors who started play last Monday for the British amateur championship only remained tonight, six from the British Isles, including a Welshman and two from the United States. They are Roger Wethered, Eric W. Fiddian, William Sutton, Lister Hartley, Douglas Grant, Henry Howell, Bobby Jones and George Voigt, the latter two being the transatlantic contenders. Grant is also a native of the United States, but is now a resident of London, Howell is the Welshman.

Golf gossip in St. Andrew's tonight, and they talk of nothing else here, centers on Jones' chances of winning the title he covets most. He has had a tough fight so far and he faces more stiff opposition tomorrow. Eric Fiddian, boys' champion three years ago, whom he meets in the morning match, is regarded as one of the best of the younger crop of British golfers.

If the open champion of the United States defeats the youngster, he has Voigt to face in the afternoon and the New Yorker, with his execution run-up shots, so essential at St. Andrew's, has won hosts of admirers among Scottish critics. His luck went up today when he defeated Hope, a great match player, after losing the first three holes.

The gallery crew was still larger today, thousands swarming over the course and often hampering the players.

The defeat of Von Elm by Hon. Michael Scott in the fifth round this morning ended the possibility of an all-American final as Von Elm was the only player from the United States left in the lower bracket. Scott was himself eliminated in the sixth round by Douglas Grant of London.

CRICKET SCORES

LONDON, May 29.—Second day games in old country cricket matches today were:

Middlesex vs Hampshire at Lord's. Middlesex 236 and 201 for three wickets (Haig, 66, Canning, 64, not out); Hampshire 230 (Houle 63, Brandeson 52, Jurston five wickets for 74).

Gloucestershire vs Surrey at the Cheltenham oval — Gloucester 150 and 334 for six wickets (Lyon 72); Surrey 104 (Hobbs 83, Goddard five wickets for 67 runs, Neale four wickets for 92 runs.

Derbyshire vs Kent at Ilkesto — Derby 136 and 385 runs for nine wickets, declared (Jackson 140); Kent, 107 and 26 runs for no wickets.

Yorkshire vs Essex at Dewsbury — Yorks, 365 for nine wickets declared; Essex, 336 for six wickets (Nchols, 87).

Lancashire vs Leicestershire at Nelson — Lancashire 260 and 230 for five wickets (Hallows 52, Watson 71); Leicestershire 126 (Macdonald, four wickets for 41 runs, Dick Tydesley, six wickets for 20 runs.

Worcestershire vs Northamptonshire at Worcester — Northants 160 and 45 runs for one wicket; Worcester 272 (Walters 85, not out; Vark, five wickets for 62 runs.

Cambridge university vs Sussex at Cambridge — Sussex 265 and 280 for six wickets, declared; Cambridge 146 and 29 for two wickets.

VIOLITE QUOTED THREE TO ONE AGAINST, DERBY

LONDON, May 29.(CPcable)—The Beaufort club call-over quotes the following odds for the derby, England's greatest racing event, which is to be run on June 4: Diolite, three to one aganst; Ru Tom Pasha, five to two; Silver Flora, Ballyfarris and Traws, 100 to eight; Blenheim, Jerlson, Illiad, Noble Star and Spout 11, 20 to one; Parenthesis, 50 to one.

CALIGULA IS WINNER

PARIS, May 29. (AP)—Caligula, a three-year-old colt owned by Mataas de Hoz, became a leading candidate for the Grand Prix today by winning the Reiset stakes over the Grand Prix distance of a mile and three quarters.

16 DAYS, OLYMPICS

BERLIN, May 29. (AP) — The Olympic congress decided on 16 days' duration for the Los Angeles games, including three Sundays.

PIPES and LIGHTERS

You will find a wonderful selection of Pipes and Lighters at

GELINAS

TOBACCONISTS

THE FAN'S OWN Sport Column

JERRY'S DECISION

There are many arguments in favor of "Jerry" Fittus' action in disqualifying George Harlow in his bout with Orville Darr at Trail Wednesday night. Among them is the fact that Harlow was warned twice for hitting low and Fittus stuck by his word and disqualified the Nelson boy on the third time. But it is quite possible for a boxer to hit low accidently. Often the fighting style of the fouled man is responsible. At any rate, if no one is hurt, and the fouled man is quite willing to carry on, the fans should be considered. They pay good money to see these bouts and if there is a possibility of the bout going the limit and producing some real boxing, it should be allowed to do so. Referees generally, even if the fouled man is hurt, give him the choice of taking a rest or claiming the bout on a foul. No boxer, if he is a real sportsman, wants to win a bout on a foul. It is no feather in his hat. It doesn't settle anything. If Harlow was intentionally fouling Darr he deserved to be disqualified but it is not likely that he would deliberately run such a chance after being warned. The fact that he hit low a third time after two warnings would seem to show that it was an accident. And if such was the case and Darr was willing the best plan from the fans' viewpoint would seem to be to let the bout continue.

AUSTRALIA WINS OVERWHELMINGLY OVER OXFORD U.

Several Batsmen Qualify as Centurians During Day's Play

LONDON, May 29 (CP cable) — The Australian cricket team won an overwhelming victory over Oxford university today, their margin of advance being an innings and 158 runs. Only three Australian batsmen were used, while Oxford were thrice dismissed today for small totals. Scores were: Australia, 406 for two wickets; Oxford, 124 (C. Grimmett, five wickets for 48 runs); followed on, 124 (Wall, four wickets for two runs.

Nottinghamshire defeated Glamorganshire by an innings and 126 runs at Nottingham. Scores were: Glamorgan 231 and 86; Nottingham 443 for nine wickets, declared (Payton 64, Lilley 68; Barratt 61; S. Staples 52, not out. Mercer four wickets for 99 runs).

Centurians today were:

Wally Hammond 199, for Gloucestershire against Surrey.

L. Townsend 104, and G. R. Jackson 140, for Derbyshire against Kent.

Prince Duleepsinhji, 147, for Sussex, against Cambridge university.

A. Russell 132 for Essex against Yorkshire.

RESULTS AND TODAY'S DRAW, ST. ANDREW'S

ST. ANDREW'S, Scotland, May 29. —(AP)—Sixth round results in the British amateur golf championship were:

William Sutton, West Cheshire, defeated Dr. William Tweddel, four and three.

Eric W. Fiddian, Stourbridge, defeated T. A Torrance, four and three

Roger Wethered, London, defeated Gordon Simpson, one up, 21 holes.

Lister Hartley defeated G. . Hill, Sandy Lodge, four and three.

Henry Howell, Glamorgan, defeated John Robinson, Halifax, four and three.

George Voigt defeated W. L. Hope, St. George's Hill, two up.

Bobby Jones defeated Harrison Johnston, one up.

Douglas Grant defeated Hon. Michael Scott, three and one.

Pairings for the quarter finals tomorrow morning are

Voigt vs. Sutton.

Jones vs. Fiddian.

Howell vs. Wethered.

Grant vs. Hartley

EVENTS FOR WOMEN, OLYMPIAD

BERLIN, May 29. (AP)—Events for women will be left on the Los Angeles Olympics, as at Amsterdam, including track, field and fencing, as a consequence of today's rejection of the Baillet-Latour proposal to admit them only in gymnastics, swimming, tennis and skating. The vote was overwhelming.

NEAR READY FOR CROW GOLF PLAY; STARTS SUNDAY

Big Championship Tourney to Be Staged at Cranbrook

NEW CLUB HOUSE NOW COMPLETED

Expect 150 Contestants Compete in Three-Day Tournament

CRANBROOK, B. C. May 29—Preparations are practically complete for the staging of the Crows Nest Golf association championship play on the Cranbrook course on June 1, 2 and 3. M. A. Beale president of the association and Mrs. Hogarth, vice-president, have spent a great deal of time on the arrangements and most successful tournament is expected.

The ocasion will be the formal opening of the new club house which has just been completed and which, in size and appointments, is a credit to the club. The central room is a large lounge 21x31 with a big fireplace constructed of broken stone. This is flanked by the men's and women's dressing and locker rooms. At the back is a conveniently appointed kitchen. Circling the entire house is a wide veranda which will be screened and be used for serving tea, as well as making a comfortable vantage point from which to observe the final play of the matches.

At one side of the house a clock has been constructed, the play on which can also be seen from the side veranda.

One hundred and fifty contestants are expected from the various towns in the association, extending from Cranbrook and Kimberley east to Lethbridge. An able reception committee, with Alan Graham as convenor, will look after visitors from out of town.

Lunch and afternoon tea will be served each day at the club house.

Clock golf competitions, under the supervision of Judge Thomson, will be carried on all three days of the tournament.

Social events of the tournament will be a reception for visitors at the home of Mr. and Mrs. Beale on Sunday evening and a reception for visitors and members in the Parish Hall on Monday evening. Arrangements for this are in the hands of Mrs. Marshall and the house committee.

Considerable work has been done on the course during the past few weeks, members stating that it was never in better shape.

NATIONAL LEAGUE

ROBINS AGAIN AT TOP

BROOKLYN, May 29—The Brooklyn Robins regained their tie with the St. Louis Cardinals for first place in the National league today by defeating their closest rivals, the New York Giants 4 to 1. Babe Herman hit two home runs.

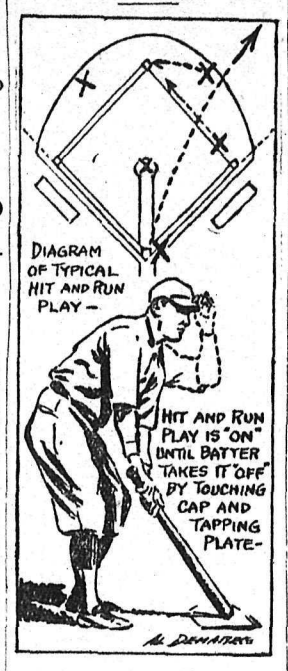
Montreal 5, Rochester 4.
Toronto-Buffalo—Rain.

16 BALL GAMES TODAY

NEW YORK, May 29— Sixteen baseball games will be played in the major leagues tomorrow, Decoration Day, with five scheduled as morning games and the remainder as double headers and single games in the afternoon.

Big League BASEBALL "Hit and Run" Plays



By AL DEMAREE
(Former Pitcher New York Giants)

The "hit and run" play is really a "run and hit" play. The object of the play is to "break up" the infield of the opposing club. By means of a prearranged sign between the batter and the baserunner, the batter signals his intention to hit the next base as the pitcher delivers the ball. Either the second baseman or shortstop must cover second to try and catch the runner stealing and the batter endeavors to hit the ball hrough the position thus vacated.

The batter usually "hits and runs" when he has the pitcher in the "hole"; when he is reasonably sure that the pitcher must throw him a good ball. However, no matter where the ball is thrown, he must make every effort to hit it and protect the baserunner, once he has flashed his intention.

The sign I have given in my cartoon is a simple one. In this sign, the "hit and run" sign is in force on every ball pitched, until it is called off by the batter touching his cap and tapping the plate with his bat before each pitch.

Some major league batters like to "hit and run" with the runner on second base. When the runner starts for third the third baseman must cover the bag and this gives the batter a chance to hit through his vacated position.

Save this Big League Baseball Series, another will appear Tuesday.

Al Demaree has prepared a free illustrated leaflet on "Batting" which will improve any boy's percentage. Send for it. Address Al Demaree, in care of this paper, and be sure to enclose a self-addressed, stamped envelope.

AMERICAN LEAGUE

ATHLETICS WIN

PHILADELPHIA, Pa., May 29—Mahaffey, the Athletics' pitcher from Portland, Oregon, bested Milt Gaston in the twirling tangle here today, pitching the Mackmen to a 2 to 1 victory over the Boston Red Sox.

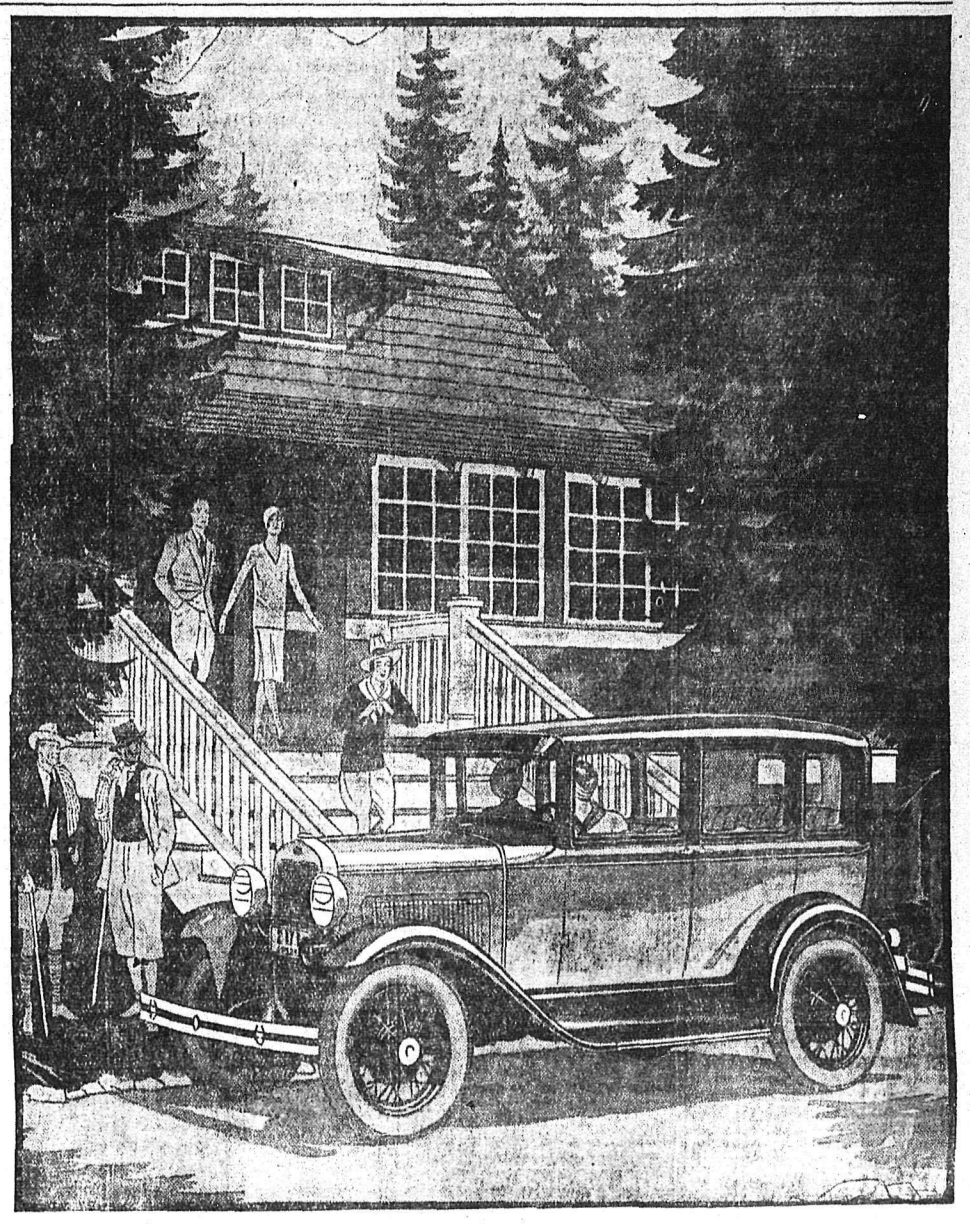
You Ought to Take a Ride in the FORD



Wherever the Long Trail Leads

THROUGH heavy city traffic—across fertile valleys and desert sands—to the top of snow-capped mountains—wherever the long trail leads—you will find the Ford car and cheery words about it. Its flashing beauty gives it distinction at the Country Club, yet it is no stranger to deeply rutted roads and hard daily usage in the far-off places. Its sturdy strength, reliability and capable performance, at all times and under all conditions, reflect the care and enduring quality that have been built into it. « «

By its constant, faithful service through many months and years you will know that it is a "value far above the price." « «

KOOTENAY MOTORS
H. HARROP

Cranbrook Stars Did Well

At Big Track Meet, Comparisons Show

CRANBROOK, B. C. May 29—Friends of Fred Large, Cranbrook's high school runner, who lowered his record to ten seconds in the 100 yards at the recent Kootenay Schools Athletics Associations meet, are expressing pride in their candidate, especially in the light of how his achievement compares with other records being made and having been made in the Dominion.

In the schools sports held in Calgary on the same day the best record made for 100 yards was 10 3-5. The time of 10 seconds equal the best available records of the Canadian Inter-collaiate Union, this time having been made in Toronto in 1909 and at McGill in 1922. Ranking as he does with the best in Hamilton in August.

Large's itme for the 220 race was 23 seconds, a little slower than the previous Canadian record made in Edmonton in 1924 that being 22 seconds.

A new role was developed by Large at this year's sports, that of a shot putter. The best Canadian throw was made by Welland at the Inter-scholastic sports at Hamilton in 1923, began 39 feet and 11½ inches. Fred's distance was only one inch behind the great throw which has not been equalled in seven years.

On account of the decision of the schools association that contestants might not enter into more than three events and that none might compete for a grand aggregate prize, the big cup of the meet, the Cranbrook Sash and Door Trophy, could not go to Large, so was given to Martello in the open competition. But as Large made three firsts out of his three tries, in other words perfect marks, he stands at the top of all the entrants of the meet.

As regards the relays, the greatest race of the meet, the senior High School relay, was won by Cranbrook, with a tie of only 6 seconds slower than the best Canadian record, made in Edmonton in 1924—one minute, 36 seconds. Cranbrook also won the girls relay and the open relay. They lost their chance at junior boys relay by being fouled. Being hosts, they did not protest though it was held they had every right to do so.

K. Martin, Cranbrook's stellar girl runner made the 100 yards in 12 1-5 She was running against a strong wind so did not make as sgod time as her trainers says she has repeatedly made on practise runs. The best Canadian record in 11 4-5 made by Miss Bell in Toronto.

In the girls broad jump Rubena Miller, who won at Trail with 13 feet, beat her own record also 11 entrants, making a jump of 15 feet three inches. The best Canadian record made by Fanny Rosefield in 1925 is 16 feet 6 inches.

The Taxi Dancer

By ROBEERT TERRY SHANNON

CHAPTER XXIX

The irritation at being roused from his sleep, was still upon Kelvin and he surveyed Joslyn's tear-flushed face with his mouth sour at the corners.

"What's the big idea, sweetheart?" he demanded. "Was, the big party a flop, or what?"

She looked at him with a sharp steadiness; it was the first time he had spoken to her with anything resembling harshness and the effect was to galvanize her with surpise. As the last lingering effects of sleep were dissipated from Kelvin's brain he realized his own abruptness and brushed it aside with a quick return to his usual note of devotion.

"Say—I spent the whole evening stewing with jealousy while you were gone, but that's all out when I see you crying as though somebody had stepped on your heart. What's the matter, dear? Won't you tell me all about it?"

He came close to her and sat on a stool at her feet, capturing her hands and holding them in a tight, comforting grasp. At his very touch the old magnetic flow began to course through Joslyn's veins like a faint opiate that deadened the pain of the letter from heme.

"Oh, Jim dear—it's nothing to worry you about. It's the folks at home; they want me back."

His dark eyes were momentarily sympathetic but, almost at once, he smiled, shook his head.

"It can't be done, sweetheart. Folks are always like that, but they forget that you have your own life to live. At that, they really wouldn't want you to waste your existence in some two-by-four Hiramville. Deep down, they want you to have your chance. If you went home tomorrow they'd be glad to see you, but all the same they'd be sorry. Their conscience would give them hell for wrecking your freedom."

Something in Joslyn's heart melted and she ran her fingers through Kelvin's thick hair.

"You're sweet, Jim," she murmured. "And I believe you're right. Anyway, that's what I want to believe."

"Of course, I'm right. And besides, you can't go back now. You're going to stick with me, aren't you dear?"

He rose from the stool and sat on the arm of her chair, his arms encircling her shoulders. When he kissed her there was a blank space, during which [illegible] was blotted from Joslyn's mind.

"I want to stick to you Jim as long as you need me," she said, "but you don't realize how frightened I get sometimes. I don't dare admit it even to myself, but it's there all the time—a black horrid fear of—I don't know exactly what. Of everything—the city. Sometimes it seems too powerful for me, that it'll crush me . . . tear me to bits."

"You're all worn out, dear. In the morning—"

"I'm all unstrung, Jim—I couldn't sleep. I'm wondering if I didn't make a terrible mistake in coming to the city at all. Right now—if it were for you—I'd give anything on earth to be back safely in dear, rickety furniture that I've known ever since I can remember—"

Kelvin gripped her with a steady pressure, "If you hadn't left all that stuff we'd never have met," he reminded her.

Joslyn patted his hand. "I know dear, but the strain of it . . . — strain! When I was reading mother's poor little letter it came to me that I was at the fork fo the road, Jim dear. There's time yet to turn back. In a week it may be too late. It's fast here, Jim; everything's speeded up in New York and before you realize it you're too far along to turn back. If I'm going back I feel like I've got to go right away, or else never."

"You're blue because the bankroll's flat," he told her encouragingly. "But that's only an incident. You'll get a big money job and the breaks'll come right and left."

"I'm standing in with De Costa tomorrow in Mercedes' place."

His face became blank with amazement. "Say that again!" Joslyn explained briefly how the opportunity had sprung up.

"Kid, you ring all the chimes of Heaven!" he declared. "Do you realize that if this thing goes through you're made absolutely. Listen, honey—you stepped your little foot right into a 100-proof miracle!"

But Joslyn did not respond to his lift of encouragement, her eyes retained, their baffled, hunted look.

"My heart's too heavy to grasp it, I reckon," she said. "I'm afraid I'm what up here they call a small-timer. I'm sort of hard, in a way, but I'm not hard enough. Would you mind it a lot Jim if I went back?"

James Kelvin's nostrils widened as he filled his lungs with a quick involuntary expansion of air. In one movement he was on his feet with Joslyn pulled up facing him, ferociously grasped in his arms.

"How could you go when we belong to each other?" His voice was low, shaking. "Joslyn, Joslyn! Don't you see I couldn't give you up? Or, if I could only make you my own forever! If we could only be married! And we will be, too, sometime darling—when we're some place far away and I'm out of this murder mess! Promise me, darling—promise me!"

Her eyes were wide, serious. "You want to marry me, Jim?"

"Yes, yes. When it's so I can certainly. That's understood. But you're mine, Joslyn, dear, by the right of love—you belong to me in all ways, in every way. Tell me you do, sweetheart. Say, yes—yes."

The hurricane of his emotion tore at her mental stability until her breath came in gasps through her parted lips. Only in the furthermost recess of her mind did a speck of sanity remain.

LEGAL NOTICES

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that the Corporation of the City of Nelson, whose address is Nelson, British Columbia, will apply for a license to take and use five (5) cubic feet per second of water out of Grohman Creek, which flows southerly and drains into Kootenay River about one and a half miles west of Nelson. The water will be diverted from the stream at a point about two miles from the mouth and will be used for waterworks purposes upon the lands described as Subdivision of Lots 58A, 95, 96, 97, 98, 150, 182, 183, 229 and 304, Kootenay District.

This notice was posted on the ground on the 5th day of May, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Nelson.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The petition for the approval of the undertaking as per section 26 of the act will be heard at the office of the Board of Investigation at a date to be fixed by the Comptroller and any interested person may file an objection hereto in the office of the Comptroller or of the said Water Recorder. The date of the first publication of this notice is 23rd day of May, 1930.

B. C. Co-Op. Feed Pool Announced

S INCORPORATED; TO SECURE HALF MILLION CAPITAL

Will Sell Shares at Par Value $10; G. I. Wallace, Chairman

VANCOUVER, May 29—The incorporation of the British Columbia Co-operative Feed pool and the taking of an option by it on the business of Buckerfield's limited, was announced today by Alister Forbes, provincial secretary.

Meetings throughout British Columbia will be called as soon as possible to acquaint farmers with the proposed activities of the pool and recruit them as members.

The directors plan to secure a subscribed capital of $500,000 by the sale of shares of a par value of $10, and bearing interest at 7 per cent on the amount paid up. Under its incorporation charter, it is authorized to issue an unlimited number of these shares, depending on the amount necessary to start business.

Mr. Forbes stated that the pool intends to coordinate, if possible the existing feed cooperative bodies in British Columbia and assist members in the economic purchase and distribution of feed.

G. I. Wallace, president of the British Columbia Egg and Poultry Co-operative association, and director of the Canadian poultry pool was named as chairman.

LEADERS LITTLE CHANGED, TORONTO

Volume of Sales in All Lines Low on Stock Exchange

TORONTO, May 29—Price changes on the Toronto stock exchange today were uniformly within fractional ranges. The leaders were for the most part unchanged or slightly off, with volume of sales in all cases low. Brazilian was off 1. Walker closed unchanged as International Nickel at 33¼. The motors were stronger. Ford closed at 36, a gain of ½. Chrysler preferred was off ½, the common gaining ⅛. Durant gained 1, closing at 7.

British Columbia Power with a light turnover gained ¼. Bell Telephone was up ½ and C.P.R. off 1 to close at 302. The new was unchanged.

Recent interest in the oils seemed to have subsided. British American fell off ¼, Crown Dominion was unchanged, Imperial gained ⅛.

In the metals prices were firm and stronger. International Nickel was unchanged at 33¼.

Total sales 15,501 shares.

WHEAT FAILS IN ATTEMPT CLIMB IN CHICAGO PIT

CHICAGO, May 29—(By John P. Boughan, Associated Press market editor) —End-of-the-month deliveries of wheat on a big scale proved a decided handicap today for friends of higher prices. The market at times made strong rallies on account of bullish crop reports both domestic and foreign, but the gains failed to hold well.

Closing quotations on wheat were irregular, ranging from ⅞c a bushel setback to ½c gain, compared with yesterday's finish. Corn closed ⅛ to ¼ off to ⅝c up. Oats unchanged to ⅝c higher, and provisions unchanged to 20c decline.

NEW ZEALAND TRADE WITH CANADA GROWS

Purchases From Dominion Increases During Past Year

OTTAWA, Ont., May 29—(By The Canadian Press)—The value of New Zealand's purchases of Canadian goods in 1929 was $23,935,905 as compared with $17,295,520 in 1928 an increase of 46.89 per cent, whereas the total imports showed an increase of just under 9 per cent, writes C. M. Croft, Canadian Trade Commissioner in Auckland, in the current issue of the Commercial Intelligence Journal.

Imports from Canada showed a substantial decline in 1926 and 1927, particularly in the latter year, due principally to decreased imports of Canadian motor vehicles. In 1928 a marked improvement was noted and even greater development is obserable in 1929. Here again the imports of motor vehicles were responsible for a large percentage of the increase. In 1928, 5,149 motor vehicles valued at $2,966,880 were imported This number of vehicles represented 27.41 per cent of the total number imported, Canada being the second largest supplier. Returns for 1929 show that Canada supplied 13,013 ehicles to the value of $7,871,230. In other words, Canada shipped more motor vehicles than any other country, having sold 44.65 per cent of the total number imported. The United Statcs was next with 11,515 valued at $9,203-870, this showing a higher value than Canada but a lesser number.

The value of Canadian motor vehicles imported last year represented 32.88 per cent of the total trade from Canada. Motor tires was the second largest item imported, and here again a substantial increase is noted. Other products showing notable increases were fish, potted and preserved; provisions; chocolate confectionery; fresh apples; wheat; wheat flour hides and skins, undressed wood pulp an paper pulp; hoisery; boots an shoes, rubber and canvass; wrought iron pipes, tubes, and fittings; electric meters; saws; iron wire; woodworking machinery; Douglas woodworking mahinery; Douglas fir, rough sawn; shooks; plaster of Paris; newsprint; and pianos.

LIVE STOCK

WINNIPEG, May 29—Dominion livestock receipts are as follows: 200 cattle, 95 calves, 50 hogs, no sheep.

Steers, up to 1050 lbs.—Good and choice, 9.75 to11.00.

Steers, over 1050 lbs.—Good and choice 9.75 to 10.75.

Heifers—Good and choice, 9.00 to 10.00.

Fed calves—Good and choice, 10.00 to 11.00.

Cows—Good, 7.50 to 8.25; canners and cutters 3.00 to 4.50.

Bulls—Good 6.00 to 6.50.

Stocker and feeder steers—Good 7.50 to 8.25.

Stock cows and heifers—Good 6.00 to 7.50.

Milkers and springers, 60.00 to 100.00.

Veal calves—Good and choice 10.00 to 12.00.

Hogs—Select bacons $1.00 per head premium; bacon 11.00; butchers 70c per head discount; lights and feeders, 11.50 to 12.25.

Lambs—Good handyweight 13.00 to 15.00; good heavies, 10.00 to 11.00; bucks, 7.00 to 9.00.

Sheep—Good heavies, 6.00 to 6.50; good handyweight 7.00 to 8.00.

EXPANSION OF CONSOLIDATED MINES FEATURE

Annual Report of B. C. Mines Department Treats With Kootenay Firm

MUCH CONSTRUCTION WORK DURING 1929

Research Department Active; Power Operatioins Extensive

As has been customary in recent years, the most important metallurgical events of the year, states the annual report of John D. Galloway, provincial mineralogist, have been those related to the continued expansion of the Consolidated Mining and Smelting Company of Canada, Limited, at the Trail plant. The following excerpts from the annual report of this company indicate the scope of this expansion:

"Construction work completed during the year included the 35-ton contact acid plant, the enlargement of the zinc plant electrolytic department and the casting department from 300 to 400 tons daily capacity; the electric steel furnace addition to the foundry; the addition to the cadmium plant; a 40-room staff house at Tadanac, and an additional capacity of 3000 gallons per minute to the Columbia river pumping station, besides the items mentioned in the report of the vice-president in charge of mines. Modern fire trucks have been installed both at Kimberley and Tadanac.

"The principal construction work under way but still to be completed at the end of the year includes the finishing of the Sullivan mill extension, which is about 80 per cent completed; the slag-fuming plant for the recovery of zinc and lead fume from zinc rejects and lead furnace slags, which is about 60 per cent completed; and the leaching plant for these fumes, about 70 per cent completed.

FERTILIZER PLANT

"Work has been commenced on the first unit of the fertilizer plant. Water mains, road and railway connections have been constructed. The shops, offices, chemical laboratories, etc., are nearing completion. The plans for most of the plant are out and a considerable part of the machinery has been ordered.

"The sullivan mine.—The tonnage mined increased from $1,502,348 to 1,778,000 tons. The cost of the ore delivered to the mill was slightly higher than in 1928, largely due to extra development work being carried on. The reduction in milling cost was sufficient to offset most of this increase.

"There is a large quantity of ore in the Sullivan deposit which at first was considered too low-grade to mine. Improvements in operating costs and metallurgical recoveries now allow this ore to be worked at a profit. Consequently, the capacity of the concentrator has been increased in order to allow the low-grade ore to be utilized without decreasing the metal output of the mine. Some of this increased capacity was in use during 1929 and on this account the average grade of the ore mined in 1929 was lower than that mined in 1928. There will be further increase of capacity in 1930, when the average grade will be lower still on account of further dilution with this low-grade ore.

"All the remaining mine dumps, some 87,000 tons, were recovered and milled during the year.

"The Kimberley concentrator.—This plant has been run at over normal capacity during most of the year and recoveries have suffered somewhat from this cause as well as from the lower grade of the ore. A very satisfactory reduction was made in the cost per ton milled and the grade of the zinc concentrates was materially increased.

"The research department.—While employed on almost innumerable problems, gave much more attention to fertilizer tests on the Canadian prairies than before, with gratifying results, considering the unfavorable season. This work will be much extended in 1930, when 60 cambination seed and fertilizer drills will be spread over Manitoba, Saskatchewan and Alberta to test various fertilizers on various crops and soils.

POWER DEVELOPMENT

"Power.—Hand in hand with the expansion in your operations, the West Kootenay Power and Light Company, Limited, continues to increase the development of hydro-electric energy. No. 3 unit (capacity 25,000 horse power) of the South Slocan plant was completed in the spring of last year and immediately went into satisfactory operation.

"An application has been made to the International Joint Commission to permit the storage of flood-water in Kootenay lake, to be used to maintain the minimum flow of water required to run the power plants on the Kootenay river to full capacity during the winter months. The commission has ordered an investigation to determine the effect of this storage on lands in the state of Idaho, reserving judgment in the meantime.

"Investigation of the proposed power site on the Pend d'Oreille river about seven miles from its mouth disclosed unsatisfactory physical conditions. Upon further examination of the river a site has been found about one mile from its mouth which appears to be satisfactory.

"Confirmatory exploration is being proceeded with, and, if favorable, development will be actively prosecuted. Ultimately over 300,000 horse power may be generated.

"A considerable part of this power will be required by your fertilizer plants. Your directors are confident that a profitable use of the remainder will be found in good time through the output of further products, which will add materially to employment and the production of wealth in the southern interior of British Columbia.

"The right to develop hydro-electrical energy on the Adams river, a tributary of the Thompson river, has been secured. Work is being proceeded with at an estimated cost of $2,662,000. The development will give a maximum of 30,00 horse power. The actual output will cary according as the storage is drawn upon. This power will be available to supply any needed electrical energy during the low-water period of the Kootenay river.

"The right to investigate the power available on the Kokish river, which flows into the sea not far from Alert Bay, on the east coast of Vancouver Island, has been secured. If found satisfactofy this power can be used to supply electrical energy to your Coast Copper property, and the Kimman property on Nimpkish lake, as well as to the proposed copper smelter and refinery."

Production was speeded up at the Britannia during the year, so that now the daily tonnage handled is about 6000 tons, and some days more than this is put through the mill.

An important event of the year was the construction of a 300-ton flotation mill at the Monarch at Field. This property is now well developed and equipped and should be an important producer in the future.

Construction was proceeded with during the year on the Mammoth mill at Silverton, and it is expected this will be ready to go into production in 1930.

The Union gold-silver property in the Grand Forks division is being equipped witha 100-ton concentrator, which will go into production in 1930.

Construction of a small flotation concentrator was completed at the Silver Cup near Hazleton and production commenced.

A 30-ton cyanide plant was constructed and production commenced at the Reno, Nelson mining division.

The new concentrator and hydro-electric power plant at the Cork-Province, Ainsworth mining division, was completed during the year and production commenced. Late in the fall this plant was closed down.

A 100-ton flotation mill was completed at the Planet, Nicola mining division, and production commenced.

NICKEL FALLS 10 CENTS, TORONTO

Noranda Closes Unchanged; Lindsley Group Is Soft

TORONTO, May 29—A somewhat reactionary trend was noticeable on the Standard Stock and Mining exchange today with the volume of trading showing a marked reduction from the two previous days. Price changes for the day were of small proportions with all groups on the soft side.

Both International Nickel and Noranda received more trading attention today. Nickel fell 10c to $33, while Noranda was unchanged at $28.90. The Lindsley group held an edge of softness. Falconbridge fell 5c to $3.65 and Sudbury Basin declined 20c to $2.65. Ventures advanced 4c to $1.84 and Sherritt-Gordon closed unchanged at $2.00.

The precious metal stocks received a large proportion of trading attention McIntyres moving up 25c to $19.25; Dome Mines at $9.05 gained 5 points; Hollinger rose 15c to $6.50, Lake Shore at $22.90 and Teck Hughes at $6.90 declined 5c.

Nordon and Ajax were again the most active of the oil stocks. Ajax moved up 8c to $2.47, and Nordon fell 4c to close at $2.06. Calmont Oil fell 11c to $1.51 and Dalhousie dropped 5c to $1.20 while Mayland gained 10c to $1.00. The higher priced oil stocks in limited trading held to the firmer side in the price movement.

tTotal sales were 314,975 shares.

LOANS HELD, NEW YORK, ARE INCREASED

WASHINGTON, May 29—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending May 28 were announced by the Federal Reserve board today as $4,022,000,000 representing an increase of $7,000,000 as compared to the preceding week.

Rotarians, Cranbrook Enter Softball

CRANBROOK, B. C. May 29—Rev. Bryce Wallace was the speaker at Tuesday's Rotary luncheon, dwelling on new points received in the department of Boys Work at the recent Spokane conference, where boys problems were given considerable time, and the forming of summer camps, which is of special interest to the Cranbrook club which has plans on foot for the erecting of one this season.

A soft ball team to enter the city league was formed with W. Harris as captain. Reports were made on repairs being made to the playground equipment, A. E. Jones having men at work on repairing the ocean waves and other pieces needing repairs. It was also reported that trees have been replanted where last years' were winter killed. This work was in the hands of L. P. Sullivan.

No final plans were made for the inter-city meet between Cranbrook, Fernie and Kalispel, the other clubs not hot having been heard from.

FRUIT GROWERS ELECT AT BOSWELL

BOSWELL, B. C., May 29.—The annual meeting of the Boswell Fruit Growers was held in the Memorial hall on May 27, with a good attendance of members. President W. L. Hepher was in the chair.

The balance sheet showed the finances to be in a satisfactory condition.

Directors elected for the coming year were: A. H. Ascott, A. Mackie, S. R. Sherman, S. S. Frank, W. L. Hepher, K. Wallace and E. Bainbridge.

S. Coutse and H. Johnstone were named auditors.

PRICE MOVEMENTS ARE IRREGULAR ON MONTREAL MARKET

National Breweries Leads and Climbs to 35½

MONTREAL, May 29—(CP)—Price movements on the Montreal stock exchange today continued to exhibit a considerable degree of irregularity, with main trend on the list decidedly firm. Total sales were 30-893 shares.

The new stock of Montreal Power was again in better demand, touching 137⅞ and closing there for a fractional gain, while the old advanced 2 to 126. The other utilities were firm, Power Corporation holding steady, and Shawinigan advancing a point. McColl-Frontenac advanced 1½ to 28.

Other moderately active stocks, with their net changes, were Dominion Bridge, off ½ at 64½; both Famous Players issues, a point lower at 55; Gurd, up ⅜ at 39¾; Dominion Steel and Coal, unchanged at 11; Canada Power and Paper, off ¼ at 16; Canada Car, ¾ higher at 27½; National Steel Car, up ⅛ at 68⅞.

National Breweries was active leader, with sales in 15,245 shares, and at the close was up 1¼ at 35½. Nickel was second, with sales in 4,435 shares, and closed ⅛ higher at 33¼. Brazilian, third with sales in 2,068 shares, closed off ¼ at 49⅝.

CALEDONIANS AT CRANBROOK END SEASON, CONCERT

The windup of the season for the Cranbrook Caledonian Society was held in the K. P. Hall on Monday evening, with a concert followed by a supper ,the evening ending dancing. Mr. McCrindle, president of the association was in the chair.

The concert which received an enthusiastic reception, consisted of solos by Mrs. Paxton, Mrs. Makinrot, Mrs. Norgrove, Miss M. Parker and Mr. Manson. Herbert Potter rendered selections on the mirampophone with Mrs. Potter at the piano. Miss Edna McPhee recited and Miss Nan McCleary danced. There was piano solos by Miss Edwards, who also acted as accompanist for the singers.

Meetings of the society will be suspended during the months of June, July and August.

SILVERTON WINS AT BURTON

SILVERTON, B. C., May 29.—The Intermediate basebell team motored over to Burton City and played against the Burton boys on Empire day. The Silverton team won by a score of 14-6. Those making the trip were: J. Kelly, B. McAulay, A. Elsmore, H. Cline, R. Peachy and J. Harding.

Brazilian Earnings Up

LARGE GAINS OF WEEK AT END DAY, NEW YORK

In Food, Specialty Shares; Pre-Holiday Session Dull

NEW YORK, May 29—(Financial—By John L. Cooley, Associated Press financial writer)—The stock market shut up shop for the week end today after worrying through a typically dull pre-holiday session. Buying of the merchandising, food and specialty shares enlivened the late proceedings and brought out some of the largest net gains of the week, but the tone of the general list, with the exception of the rails, was only firm.

The price indices for 70 stocks showed an advance of slightly more than two points for the short trading week. Utilities fared well, making a gain of nearly 6 points, while the rails, steadily liquidated on the April earnings reports, lost more than a point and are now near their 1930 lows.

The move in the favorites embraced perhaps a score of stocks, which rallied 2 to 9 points under the leadership of Worthington Pump, up 9⅛ to a new high, Air Deduction, Ingersoll Rand, Canadium Steel, Columbian Carbon, and such merchandising shares, as R. H. Macy, Sears Roebuck, Safeway Stores, Real Silk Hosiery, Hahn Department Stores preferred, Gimbel Bros., preferred and United Cigar Stores preferred.

Bar silver again went down to a new record low, carrying far eastern exchanges down. Other exchanges showed slight changes.

SILVER TOUCHES NEW LOW LEVEL

LONDON, May 29.—Silver touched a new low record of £17 16d an ounce in the open market today, due to selling by Chinese interests.

Since the adoption of the gold standard in India considerable selling from that quarter has accelerated the decline, but the chief source of weakness has come from China.

Foreign countries now using the gold standard have more silver than required, and brokers in the London bullion market say they would not be surprised to see prices go still lower.

MRS. HERMAN IS BACK AT APPLEDALE

APPLEDALE, B. C., May 29.—Mrs. J. Herman, who has been visiting in Trail, returned home on Friday. She was accompanied by her daughter, Mrs. Hamilton Currie who came for the week-end.

Miss Hettie Lansdown and W. Wadel motored in from Trail on Friday to spend the week-end with the former's parents, Mr. and Mrs. B. Lansdown. Mr. Lansdown is home from Trail for three weeks.

Mayor and Mrs. R. D. Barnes of Nelson were guests of Mr. and Mrs. S .T. Best on May 24th.

Miss M. Merry and J. Chapman of Annabelle were the guests of Mr. and Mrs. J. Fordyce over the week-end.

W. Cant was home from Trail to spend the holiday with his parents, Mr. and Mrs. A. Cant.

Mrs. A. Bridge and Mrs. Stanley Bridge were visitors in Slocan City on Saturday evening.

Bright billard and Irish greens are two of the smartest summer shades in Paris.

NORDON INCREASES HOLDINGS

TORONTO, May 29—Shareholders of the Nordon Corporation, limited, were told today at the annual meeting, that during the past year the company had greatly augmented its holdings both in the United States and in Canada. The company now holds 161,820 acres of prospective oil land in western Canada and owns leases and royalties on 86,487 acres in the United States for a grand total of 248,307 acres. Negotiations are under way for the acquisition of more lands.

Directors elected were Lan O. Ruby Vancouver; General D. M. Hogarth, Toronto; C. Willis, Los Angeles; B. F. Hate, Calgary; McKenzie Williams, Toronto; W. E. W. Rother, Dallas, Te.; Robert Moran, Los Angeles; Hon. Manning Doherty, Toronto and Reginald H. Smith, Vancouver.

MINES IN GOOD DEMAND, COAST

Trade on Vancouver Market in Greater Volume; Premier Strong

VANCOUVER, May 29—Trading on the stock exchange was in great volume today with several of the mines in good demand.

Premier Gold was the strong feature, scoring a net gain of six points at $1.04, while Porter Idaho was four points stronger at .19. Pend Oreille, on a light trade, eased five points to $1.60.

In the oils Freehold gained eight points at 44, Home was unchanged at $6.80 and Calmont four points lower at $1.53.

The balance of the list held about steady.

NET EARNINGS INCREASED BY 12 PER CENT

Exact Increase is 12.80 per Cent, Annual Report Shows

TORONTO, May 29—The annual report of Brazilian Traction, Light & Power company, for the year ended December 31, 1929, just released shows a net revenue of $16,861,096 available for dividends. After providing for dividends on the preference, shares this was equivalent to $2.03 per share on the average outstanding ordinary shares of the company for the year.

Revenue received under contract with subsidiary companies totalled $17,184,634 and interest on investments, etc., to $420,545, making a total of $17,605,179. General Amortization $350,000. The increase in gross earnings last year was 15.37 per cent and the increase in net earnings, before depreciation was 12.80 per cent. During the year additions to capital account of the enterprises of subsidiaries amounted to $22,368,830.

The balance sheet shows total assets of $368,956,552, of which capital account totalled $332,160,-675, sinking fund investments $10,-003,260 and floating assets $26,-752,417. Liabilities included floating liabilities of $12,679,284 stocks $170,563,398, funded debt $60,084,200, reserves $114,044,100 and profit and loss of $11,484,628. The annual meeting will be held June 1 at noon at the offices of the company in Toronto.

Kitchen Efficiency

Adds to Home Happiness

An Electric Range adds enormously to the efficiency of the kitchen.

It reduces housework because of absence of dust and ashes and easiness of cooking—you just turn a switch and the range does the rest.

CONSUMERS MAY FIX PRICES IN BRITAIN IN TIME OF PEACE

Most Radical of Legislation Introduced in House

LONDON, May 29.—(AP)— The Labor government is aiming a blow at peacetime profiteers with a bill, now before parliament for its third and final reading, which would place the fixing of prices in the hands of the consumer.

It is considered by many political observers to be the most radical, socialistic piece of legislation yet attempted by the MacDonald government. since the bill, if enacted, will force business firms, when so requested by a specially created consumers' council, to disclose all information with regard to costs of production, distribution and supply of food, fuel, clothing or any other article in common use.

The consumers' council would then designate a "fair selling price which, if not adhered to, would make the merchant liable to a fine, imprisonment or both."

The consumers' council will consist of seven members, of whom at least two are to be women, appointed by the board of trade, under whose direction the present bill has been drawn up. The board of trade may remove any member that it considers unfit to continue in office

DISCOVER TEAR IN ONE GAS BAG OF DIRIGIBLE R-100

LONDON, May 29. (CP cable) — The air ministry announced today that a small tear had been found in one of the gas bags of the R-100, giant dirigible, whose flight to Canada was a few days ago postponed to the end of June or the beginning of July.

The ministry stated that the defect had been repaired. The mishap was attributed to the chafing of one of the wires and not to deterioration of the fabric.

MORE EDUCATION PLANNED FOR THE CHILDREN, BRITAIN

LONDON, May 29—(C P cable)—Half a million children of Great Britain will be given an extra year of education under the government's education bill, providing for the raising of the school age from 14 to 15 years. The bill was given second reading in the house of commons this afternoon, the vote being 280 to 223.

20 YEARS AGO CURTIS MADE PLANE FLIGHT

(Continued From Page One)

crashed the machine and broke his nose. The two flyers were equally unlucky with tests on a second machine differing from the first in that it was a tractor biplane instead of a pusher which was rushed from Baddeck, and though they escaped without injury, the two young pilots were forced to give up flying from the rough cavalry parade ground which had been their airdrome and to go home leaving military authorities only half convinced of the practicability of airplanes.

Curtiss and the Canadians were closely associated during the early days of flying on this continent, in fact, it was at the Curtiss motorcycle plant that Dr. Bell and his associates tried the first successful machine. These tests made McCurdy the first Canadian and the sixth man in the world to fly. Baldwin flew after McCurdy and came next in the list.

The Baddeck type of plane looked odd compared with modern machines with all their refinements, yet it flew over 2000 miles before its pilot hung it up on a tree one morning and then climbed down to the ground uninjured.

Of the first two Canadians to fly McCurdy gained more renown. He was the first pilot in the world to perform figures of eight in the air, a feat he accomplished near New York a short time after the Petawawa exhibitions. Later he competed for a prize offered by the Cuban government to the first man who would fly from the mainland of the United States to the island republic. McCurdy took off from Key West, Fla., flew the long stretch of water and was forced down by engine trouble within 12 miles of Havana, his destination. The Cuban authorities were so greatly impressed by his effort they gave him the prize even though he fell a bit short of the mark.

McCurdy has retired from active flying, although he often goes aloft as a passenger. He thinks modern aircraft too fast for him, although he says they do not differ from his old plane except in the matter of mechanical perfection.

Although, he says, he never thought of it at the time, McCurdy realizes that he took some pretty big chances in the juvenile days. He and Baldwin taught themselves to fly at a time when flying was practically an unknown art. What these two did was figure out what might be expected to happen under certain conditions in the air, and then go up and try it. They made numberless flights, crashed several machines and yet were never seriously hurt.

MORE EVIDENCE GRUESOME CRIME UNEARTHED, EAST

MONTREAL, May 29.—Provincial police were today furnished with an additional section of the dismembered body of a man picked up at Varennas Island, a few miles below Montreal in the St. Lawrence river. The part found today was a right foot and part of a leg, picked up by a fisherman near the scene of the original discovery. The head and a hand are still missing.

A man is being detained, Adam Forbes, 35, but no charge has been laid as yet and the inquest has not been held. Police are acting on the assumption that the victim is Philip Lafontaine, 17, who had been a frequent visitor at Forbe's apartment for a year but who has been missing since May 1. Search of the apartment, police said, had revealed unmistakable signs of bloodstains on the furniture, walls and floors, all of which had been covered by recently applied red paint.

STRYCHNINE SALT CAUSED REDFERN'S DEATH IN JAIL

LONDON, Ont., May 29.—(CP)—Strychnine salt administered caused the death in a local police station of George H. Redfern on May 22 last, a coroner's jury decided tonight. The enquiry into the death of Redfern, who had been hunted over a 2000-mile trail in connection with the death af Reta Gardner, Baden, Ontario, was exceptionally brief. The jury came to their conclusion within five minutes after the evidence had been delivered.

Redfern's statement concerning the death of Miss Gardner in a Montreal hotel from strychnine poisoning a week pevious to his arrest was not disclosed by Fergus Murphy local barrister, to whom Redfern is said to have told the complete story of the affair.

Unemployment Confab to Be as Representative as Possible Says King

OTTAWA, Ont., May 29. (CP)—It is proposed to make the interprovincial conference on unemployment which may be held this year as representative as possible, Premier King stated in the house of commons today. The government had placed an appropriation of $10,000 in the supplementary estimates to enable the conference to be held. Representatives of labor, of the transportation companies, and other large employers would be invited.

The conference would consider all matters relating to employment and unemployment. This was the premier's reply to a question from Mr. Heaps as to whether the matter of uniform legislation respecting the eight hour day would be taken up.

CRANBROOK GYROS INSTALL OFFICERS

W. J. Barber Is New President; Prepare for Big Carnival

CRANBROOK, B. C., May 29.—Installing of officers for the coming year took place at the Gyro club dinner on Tuesday evening, the ceremony being conducted by President W. Cleaves of the Kimberley club. W. J. Baker is to be the new president, Dr. Mitttun vice-president, Dr. Fergie, secretary J. Ellis, treasurer and E. Leigh sergeant at arms.

Past President A. McBroom gave a short address reviewing the work of the past year and expressing good wishes for the incoming directorate. Vice-president Lloyd Crowe and R. McLeod of the Kimberley Gyros both gave brief addresses complimenting their Cranbrook neighbors on the undertaking of the swimming pool project and their progressive spirit in all community enterprises.

Following this there were reports from various committees at work on arrangements for the coming carnival and water sports to be held on the site of the swimming pool on the last three days of next week. Dr. Mittun and D. Gray, joint managers of the enterprise, reported work on the pool nearing completion, men working overtime in order that everything may be complete for the dates of the opening. The cement walls are now in place and the sand filling for the beach side of the pool being hauled. The sidewalk around the pool has been completed. When the water is turned in the pool will have the proportions of a small lake, 25 x 250 feet in dimensions. The water will be seven feet deep at one side and will taper to a beach safe for the smallest kiddies at the other side. There will be a safety zone marked off with a fence to keep the tiny tots from going beyond their depth. Diving boards of various heights are being constructed.

The program of water sports for the opening dates is in the hands of Dr. Fergie and E. A. Leigh and application blanks are ready for those wishing to enter in the various events. Other committees in charge of arrangements are R. Harris and J. McLaren presiding over grounds lights and men for booths; advertising, E. Taylor and E. Ballard; opening ceremonies, A. McBroom and B. Sang. The Krembo club will arrange for the dancing which will take place each night. R. Harris has charge of the special lighting arrangements.

Several new attractions have been secured for the midway. Goods for the various booths, most of it produced locally, are being secured rapidly.

The pool is being presented by the club to the citizens of Cranbrook. A great deal of time and thought have gone into the planning of it. A great deal of money has been expended already and the Gyros have gone considerably into debt to complete the pool. They are hoping that all public minded citizens will do their part to make the opening a financial success so that the indebtedness incurred will be wiped out and the pool get away to a start with a clean slate.

LAST WEEK IN WHICH CAN CLEAR LIQUOR FOR U. S. A. FROM CANADA

OTTAWA, Ont., May 29. (CP) — This is likely the last week that clearances will be granted liquor from Canada destined to the United States. The new bill preventing such clearances will come into effect when it receives royal assent which will be one of the last acts before parliament is prorogued — probably either Friday or Saturday. It is proposed that messages be telegraphed to all customs collectors notifying them that the change is in effect as soon as the act has been signed by the governor-general.

HOPEFUL STEP IS TAKEN TO END THE WOOL, TEXTILE ROW

LONDON, May 29.—(C. P. cable)—A move which is regarded as a definite and hopeful step towards ending the great woolen and textile strike, which has been crippling the industry for the last six weeks and has left Yorkshire almost idle, was made today by the executive committee of the National Association of Textile Trades Unions. A resolution of the executive expressed willingness to enter into an agreement with any firm or federation on certain terms.

SEDITION CLAUSE DEFEATED IN SENATE TO COME UP AGAIN

OTTAWA, Ont., May 29.—(CP)—Although one section of the bill amending the criminal code, dealing with sedition, was defeated in committee stage by a vote of 25 to 18, in the senate today, Hon. James Murdock gave notice later that he will move tomorrow to re-open the matter. The clause, which was defeated, would repeal certain sections of the code dealing with sedition which were inserted following the 1910 Winnipeg strike the proposed amendment of Senator Murdock would have the same effect.

TWO TORONTO MEN GUILTY, CONSPIRACY

TORONTO, Ont. May 29.—Frederick T. Hilroy and Robert W. McClintock were found guilty of conspiring to defraud the public by the general sessions jury here today. The jury recommended clemency in the case and McClintock and expressed the belief that Hubley, a Montreal man, was also guilty of conspiracy. Sentence will be passed tomorrow. Another charge of stealing $10,000 from creditors was withdrawn.

IS PASSED

OTTAWA, Ont., May 29.—(CP)—After a stormy passage through the house of commons today the bill to prevent adulteration of maple sugar was passed.
