VOL. 27. NELSON, B. C., MONDAY MORNING, MARCH 11, 1929 No. 287

PRINCE WALES MAY BE REGENT

Kimberley Man Killed in Mine

CONSIDERED FOR REGENCY

That the Prince of Wales may be appointed regent is stated this morning by the London Daily Mail. The council of six to whom His Majesty issued a commission to sign state papers, last fall for the period of his incapacity through illness has not the authority to summon or dissolve parliament, and a dissolution must take place shortly. Under these circumstances, a regency may be decided on, since the King, though gradually gaining strength, is obviously too frail to take any steps in regard to state matters.

NITAS FALLS HEN FEDERALS OUT URBALEJO

nce of Cruz Also Checked Government Claims; guirre Sues for Safety

T OPERATION AGAINST TORREON

Federal Body to Advance n It; Rebels Who Took uarez to Aid Defence

HCO CITY, March 10.—Defeat of al Urbalejo and his rebel dement at Canitas, was officially anced here tonight.

rebel general was said to have th an escort of 30 men before torious advance of federal troops. campaign was under the personal on of Secretary of War Elias

vernment circles were jubilant at ews. Marter Gomez secretary of ulture and official spokesman for overnment said:

e revolution is over in Vera Cruz just about over in the north."

L REINFORCEMENTS

AREZ, Chihi, March 10.—Victorrebel troops who conquered Juaraz five day struggle last Friday, enroute today to reinforce the itionary army near Torreon, in ern Chihuahua, where a decisive is expected within a few days st a large government force.

Meet Violet Ends St. Boniface, One by Tram, One on River Ice

NNIPEG, March 10.—Two unitfield men met violet deaths in oniface city today.

man, about 60 years of age, struck and killed by a street The motorman failed to see the and the body was dragged 300

body of the other man, about ars of age, was found on the ice e Red river directly below Norbridge. He is believed to have ed from the bridge railing.

Zealand Quake Busts Rail Tracks

LLINGTON, New Zealand, March severe earthquake seriously damrailway tracks at Canterbury to-The shock also was felt at Christh. No casualties were reported either.

PREVENTS SPEED ATTEMPT BY SEAGRAVE

TONA BEACH, Fla., March 10.— and northeast winds of almost proportions today prevented Major D. Seagrave of England from atting to break the world's auto record.

FALLING ROCK FROM A STOPE KILLS ED KEMP

Kimberley Mine Worker Meets Instant Death; Five Years in Kimberley

KIMBERLEY, B. C., March 10.—Ed Kemp, age 32, met instant death in a mine accident here Saturday morning. The fatality occurred shortly after he had gone on shift. Falling rock from a stope, which struck the unfortunate victim, was presumed to be the cause of the tragedy.

Deceased was highly respected by his fellow workers, having resided in Kimberley for the past five years. He was a widower, his wife having predeceased him about a year ago.

FIGHTS STORM FOUR DAYS ON LAKE ICE

Postmaster of Duck Bay Forced From Trail on Lake Winnipegosis

WINNIPEG, Man., March 10.—After a battle of four days and four nights against snow and wind while attempting to cross Lake Winnipegosis, R. L. Jones, colored, postmaster of Duck Bay, and pioneer trapper and fisherman, is safe at his home tonight.

Caught in the fury of a northern blizzard 15 miles from shore on Lake Winnipegosis, Jones was forced far from the ice trail across the lake, but when the storm abated the old trapper was able to guide his team of sturdy ponies, hitched to a sleigh, back to within five miles of the shore, where he sought shelter for a night in an abandoned fisherman's cabin. Then he finished the journey to his home at Duck Bay.

His face was frozen slightly, but despite his being without food for the four days, he was in fair physical condition after his strenuous battle against the elements.

Toronto Truck Driver Aids Ten to Escape From Burning Block

TORONTO, Ont., March 10.—Using his truck as an impromptu fire escape, George Neath rescued 10 persons from a burning building on Bloor street today.

Neath noticed three persons were climbing to a ledge on the front of the building. With great presence of mind he drove his truck up on the side walk, and thus enabled the people to jump from ther positions to the top of the truck, and then to the ground.

Seven more persons followed out the upper windows.

Body of Victoria Indian Is Found Under His Launch

VICTORIA, B. C., March 10.—The body of Phillip Frenchy, Chemainus Indian, was found Saturday under his launch, Frenchy visited Victoria Friday, and failing to return home Saturday, a search was instituted. He had apparently fallen overboard.

King Amanullak Off on March Aimed to Recover His Throne

LONDON, March 10.—The Mail tomorrow will print a dispatch from Lahore, India, saying that former King Amanullah has commenced a march from Kandahar to Kabul to attempt to recover the throne of Afghanistan.

Britain Orders a Machine That Will Ascend Vertically

LONDON, March 11. — The Mail todays says that a flying machine called a "Helicogire" is being built at the order of the British air ministry and is nearly ready for tests.

It is a development of the helicopter and was invented by Vittoro Isaac, who in 1917 collaborated with Pescarain making five helicopters.

The new machine is designed to ascend and descend vertically and to hover motionless in mid-air.

DRAFTSMEN AT COAST ASSUMES TITLE OF BARON

"Ricky" Carmichael Succeeds to Two Baronetcies Vacated by Death of Counsin

VANCOUVER, March 10.—A second Canadian romance of the British peerage within recent weeks has come to light in Vancouver in the succession of Eric Windham Francis Carmichael-Anstruther to the baronetcies of Carmichael and Anstruther.

The Vancouver man, now Sir Eric Windham Francis Carmichael-Anstruther, has left for the family seat, Carmichael House, Thankerton, Lanarkshire, Scotland, to settle matters in connection with the estate, following the death of his cousin, Sir Windham Carmichael-Anstruther, Bart.

NOW "SIR ERIC"

Sir Eric expects to be in the old country about three months, after wheih it is his intention to return to Vancouver, where he has been employed as a draftsman for the past three years. It is not known whether he will make his permanent home here. He is 29 years of age and unmarried. He is familiarly known to his friends here as (Ricky).

Sir Eric comes of a very old Scottish family which traces its ancestry for 700 years. He will be the eleventh baronet of Anstruther, created in Scotland in 1700, and eighth of Carmichael, created in England in 1798. According to a directory of titled persons, he will also assume the honors of hereditary carver to the royal household in Scotland and one of the masters of the household.

Fort Churchill and Flin Flon Townsite Handed to Manitoba

WINNIPEG, Man., March 10.—The Manitoba Free Press in a news page story, says:

"Both the towns of Fort Churchill and the townsite at the Flin Flon mine have been transferred to the Manitoba government, it was learned in the city last night.

"Definite announcement that Churchill had been turned over to the provincial authorities was made in Ottawa over the week-end, followng a conference between Hon. Charles Dunning, minister of railways, and Hon. D. G. MacKenzie, minister of mines and resources for Manitoba.

Turkish Passenger Train Hit by Rock; Fifteen Casualties

CONSTANTINOPLE, March 10.—Four persons were killed and 11 seriously injured last night when a huge boulder crashed from the mountain-side on a passenger train near here. The locomotive and several cars of the train were demolished.

MAKES FIRST LEG TO MOOSE FACTORY ON MERCY ERRAND

Capt. Roy Maxwell of the Ontario Flying Service on Way to Sick Clergyman

SUDBURY, Ont., March 10.—Bound for Moose Factory on a mission of mercy, Captain Roy W. Maxwell, director of the Ontario government flying service, arrived in Sudbury at 5:10 p.m. today, and with favorable weather, will take off for Remy Lake, the next leg of his flight, early tomorrow morning. He will be accompanied from Sudbury by Air Engineer George Gill, and at the lake will pick up a physician and proceed to Moose Factory where Rev. G. Morrow, Anglican clergyman of Rupert's House, lies at the point of death from injuries.

"I confidently expect to reach Moose Factory tomorrow, that is if we have any sort of weather," Captain Maxwell stated when interviewed this evening.

Asked if he would bring the injured man back to civilization, Captain circumstances.

Maxwell said that it depended on well said, he would "cut" a place to

Should it be necessary, Captain Maxaccomodate the patient.

Today's flight from Camp Borden to Sudbury was not without adventure, Captain Maxwell encountering several snow storms. The machine is a Moth plane.

CLAIMS DISTRESS NORTH ONTARIO

Sturgeon Falls Member Says 25,000 People Living in Shacks in Northland

TORONTO, Ont., March 10.—Conditions of distress comparable to those of the mining areas of Great Britain exist in northern Ontario according to T. Legault, Liberal member of the Ontario legislature for Sturgeon Falls. He has invited Premier Ferguson, Sir Joseph Flavelle, chairman of the Ontario research foundation and Hon. Wm. Finlayson, minister of northern development, to "follow the example of the Prince of Wales," and investigate conditions for themselves.

"There are 25,000 people in that northland living in shacks, the worst possible kind of homes," Mr. Legault states.

Ten Casualties in Hongkong Holocaust; Great Hotel Burns

VICTORIA, Hongkong, March 11.—Fire broke out in the King Edward hotel here early this morning, and still was burning seven hours later. It was believed that there had been at least 10 casualties.

The King Edward hotel is one of the largest and most frequently patronized by tourists in the city. It is located near the water front in the heart of the British section.

An American seaman named Kish from the cruiser Memphis, was killed when he jumped from the burning hotel to a sheet held by firement and spectators. He missed the sheet and struck the pavement.

ZIONISTS TO RAISE FUNDS IN DOMINION

MONTREAL, Que., March 10.—A Dominion-wide campaign to raise $240,000 towards the restoration of Palestine will be inaugurated in Montreal by Colonel Frederick Kisch, D. S. O., C. B. E., a noted British army officer, and head of the Palestine Zionist executive.

ESLING FIGHTS FOR FACILITIES FOR NEW DENVER

Gives Railway Commission Report of Conference and Digest of Correspondence

OTTAWA, March 10.—Complaints of New Denver merchants, mine operators and citizens concerning inadequate wharf and boat service has been taken direct to the railway commission by West Kootenay's member, W. K. Esling. He furnished the commission not only with details of the conference by members of the board of trade with C.P.R. officials and the railway commission's representative, but with a complete summary of all correspondence, promises and understandings as between the board of trade, Thomas Hoben on behalf of merchants and mine operators and others who complained of the company's lack of wharf and boat facilities for receipt and shipment of merchandise and ore in carload lots.

THE REPRESENTATIONS

The C. P. R. suggested that Denver Siding or Silverton offered necessary accommodation, but New Denver residents assert the extra haul would involve from $1.50 to $2 per ton additional freight, and would place them at a distinct, disadvantage.

They further contend that this additional charge on ore would discourage operation of such mines as usually shipped from New Denver.

The C. P. R. in support of present limited wharf and boat facilities, contends that the construction of the highway along Slocan lake has materially decreased the company's business.

Fred A. Starkey of Nelson has been endeavoring to effect arrangements satisfactory to all interests.

The matter is now under review by the railway commission.

In addition to taking the case to the railway commission, Mr. Esling personally interviewed D. C. Coleman, vice-president of the C. P. R. for western lines, and presented a statement of fact similar to that presented to the railway commission.

ROSSLAND LINE SLIDE BLOCKED MUD AND GRAVEL

Noon Train Forced to Return Nelson; Expect Resume Service Tomorrow

A crew of 30 to 40 men was rushed to Birchbank with equipment yesterday to clear mud and gravel slides which blocked the line and disrupted train schedules on the Nelson-Rossland branch of the C.P.R. Robert Armstrong, divisional superintendent, and his assistants followed by a later train to supervise line clearing work. It is expected service will resume tomorrow.

The train due in Nelson at 9:30 from Rossland made its run, but the train leaving Nelson at 12:45 for Rossland was forced to return here. The service will be discontinued today and until the line is cleared.

Several slides dropped on the line in the vicinity of Murphy creek, near Birchbank. Some were of good size.

Late last night it was reported the Kettle Valley train due here at 11 o'clock had been delayed two hours through a rock falling on the line near Beasley. This was not confirmed by railway officials.

Timber Royalties Will Be Continued an Additional Year

VICTORIA, March 10. — Existing British Columbia timber royalties will be extended to January 1, 1931, under legislation introduced in the legislature by Hon. F. P. Burden, minister of lands.

This legislation will give the timber industry two years under existing conditions and the house will decide a year from now whether any change should be made after that time. The government's decision to postpone any change in the existing royalty followed emphatic protests from lumbermen all over the province against the increase of approximately 25 per cent due to go into effect on January 1, 1930, under the law as it stands.

Formerly royalties have been fixed for five-year periods on the basis of lumber prices in the preceding five years.

Safe Crackers Get Loot in Winnipeg

WINNIPEG, Man., March 10.—Thieves were successful in a week-end robbery at a local bakery plant, escaping with $500 which has been taken from a safe after the iron door had been cracked open.

The office of an oil company also was entered, and the safe door blown off, but no loot was obtained. The safe contained only papers.

Victoria Aviator and Friend Injured When Plane Hits Plowed Land

VICTORIA, B. C., March 10.—When the engine of his airplane stalled at a considerable height here today, A. W. Carter, local aviator, attempted to land n a plowed field at Cedar Hill with disastrous results to himself, F. G. Aitken, who accompanied him, and the Moth plane of the Victoria Aero club. The landing was made on a slope, the nose of the machine hitting the ground first.

The plane was wrecked, and both men seriously injured and taken to a hospital.

FIVE VICTIMS AT COAST WHEN CAR HIT BY TROLLEY

Mrs. Giroux Is Killed When Car Struck by Interurban at Crossing

TWO MEN, TWO WOMEN ARE INJURED IN SMASH

Motorman Rogers Is Arrested on Technical Charge of Manslaughter

VANCOUVER, March 10.—One woman was killed and four other persons were injured when an automobile and a British Columbia electric interurban train collided at the Sixth avenue and Pine street crossing here this afternoon.

The dead is Mrs. J. T. Giroux, Ogden avenue.

The injured: J. T. Giroux, husband of the dead woman; Mr. and Mrs. J. M. Kerr, Mrs. Catherine Stevens.

Alexander Stevens, driver of the automobile, escaped uninjured.

A. Rogers, motorman of the tram, was arrested on a technical charge of manslaughter and is held on bail.

VISCOUNT FINLAY DIES IN LONDON

Member of International Court of Justice and a Former Lord Chancellor

LONDON, March 10.—Viscount Finlay of Nairn died here last night at the age of 86.

He was the British member of the permanent court of arbitration at The Hague in 1920, and a member of the international court of justice established by the League of Nations.

Born in Edinburgh, he graduated in law at Edinburgh university and was called to the bar in 1876. He was a solicitor-general from 1895 to 1900; Lord Rector of Edinburgh university in 1902 and 1903; attorney-general from 1900 to 1906, and lord chancellor from 1916 to 1918. He represented Edinburgh and Saint Andrew's university in parliament for six years.

His heir is Sir William Finlay, who is also known as a lawyer.

Three Days Lost on Great Lakes, Two Men and a Woman Make Home

CHICAGO, Ill., March 10.—Two men and a woman who were reported missing in their lake boat Wednesday, and given up as lost during a storm, pulled up at the south coast guard station Saturday, safe and sound, although suffering from exposure.

The three persons who were lost on the the lake three days were Nels Jensen, 30, Waukegang fisherman; his wife, Anne, 21; and his brother, Charles, 21.

Since Wednesday they had drifted in the lake between Waukegang and Grandhaven, but Saturday they succeeded in partly repairing their disabled motor, and pulled into the Chicago station under their own power.

Three Men Lost From Japanese Steamship in Crossing Atlantic

NEW YORK, March 10.—Three men were lost from the Egypt Maru, a Japanese steamer, during a hurricane on February 24, and the wireless operator disappeared a day or two later, the officers reported today when the vessel arrived from Hamburg.

The Egypt Maru left Hamburg February 15, and was battered for 24 hours by the hurricane. The storm swept overboard the third officer, boatswain and another seaman.

The wireless operator was missing a day or two later when the storm abated, and officers could not account for his disappearance.

POSSIBILITY OF REGENCY BEING DISCUSSED NOW

Complicated Constitutional Po- for Regency; Queen Can Be Chosen

COUNCIL OF STATE CANNOT GRANT DISSOLUTION

Competent Precedents Exist for Regency; King May Soon Go Outdoors

LONDON, March 11.—(Monday)—The Mail this morning says the possibility of appointing the Prince of Wales regent to act for his father is being discussed. The complicated constitutional position resulting from the long illness of King George was said to be the reason.

The newspaper says it is now clear that his majesty, although his progress is maintained, will not be able to undertake duties of state until after the general election, which is expected during May.

He will therefore be unable to dissolve parliament himself.

The council of state, which was appointed to act for the King during his illness, cannot perform this function.

The proclamation which constituted that body declared: "The counsellors shall not dissolve parliament."

MINISTERS IN THE COUNCIL

Other difficulties arise from the fact that Prime Minister Stanley Baldwin and Lord Chancellor Lord Halsom, are among the counsellors.

The Mail understands that the situation is under consideration and that the policy under which the prince would become regent is under consideration. The paper recalls that there are competent precedents for the proposed course.

KING IMPROVING

BOGNOR, Sussex, March 10.—Glorious sunshine, accompanied by little or no wind, made weather conditions at Bognor ideal today. The King was officially stated to have passed a good day today, and a good night last night.

Thousands of visitors came to the coast today by motor and rail, and many of them walked or drove out past Craigwell House.

If the present spring-like weather continues, his majesty may be able to go out into the grounds of Craigwell in the near future.

LONDON, March 11.—The question of introducing a bill to make the Prince of Wales regent to act for his father is being considered, according to information gathered in parliamentary and political quarters this morning.

The possibility of calling upon parliament to act on the matter was said to be under advisement of the law officers of the crown, the attorney-general and solicitor-general.

Although the King has been making satisfactory progress toward recovery from his long and serious illness, morning newspapers were led to speculate in what way parliament could be dissolved before the general elections scheduled for May. His Majesty was not likely to have regained strength for such duties of state, and the council of state, which has acted for him in lesser matters for some time, was expressly forbidden to dissolve parliament, in the proclamation which created it.

Other difficulties arise from the fact that two members of the present Conservative government, Prime Minister Stanley Baldwin and Lord Hailsham are among the councillors.

It was said to be considered unwise to risk retarding the recovery of the King by calling for his personal consideration of matters which will necessarily arise in connection with the appointing of a new government after the elections. In every case, the formation of a new administration body entails upon the sovereign a great number of interviews with statesmen, with intricate discussion of suggested appointments.

These are naturally more numerous and prolonged in event of the existing government being defeated. If either the Laborites or Liberals should win, Ramsay Mcdonald or David Lloyd George would have to consult the King constantly with reference to suggestions of new ministers with whom His Majesty would be less familiar than the present holders of government officers.

The duty which develops upon the law officers is to consider the constitutional position in event a decision is reached that the condition of the King necessitates his acting by deputy, and how far precedents cover the situation.

It was suggested that a way might be found to empower the existing council of state to function in such a manner, but the general assumption was that the likeliest way out of the difficulty would be the creating of a regency, with the heir to the throne most probably, but Queen Mary, possibly as regent. The decision will not be fostered immediately but must be made before the elections which are expected before the middle of May.

Boy Scout Doings

In the Kootenay and Boundary Districts

This column is open to all Scout organizations in the Kootenay and Boundary districts. Scout news must be in the editorial department by Saturday night at the latest.

There was one of the largest attendances of scouts Friday night, that there has been for some time, when 54 members being present. It is very gratifying to have such a large number turn out, for it shows the hold the scout movement has on the boys of the city, especially when it is remembered that the troop has been in existence for over seven years. Judging from all appearances, it is good for another seven as the Cub pack, which is a feeder for the troop, is very strong. As long as the pack keeps up to strength there is no fear of the troop going out of business but the question of how to handle so many boys, will have to be faced some day. Unless volunteers who have been through the scout business themselves come forward at no distant date, those in charge of the First Nelson troop will be compelled to close the door on any boy wishing to join and depend entirely on the annual promotion from the Cub pack to keep up the strength of the troop.

At the last meeting there were three classes for first aid and one for map reading, as well as the classes for general scout work. Those classes for special subjects are under the charge of Fred Blakeman, Dave Rees, W. G. Crowthers and Boyd Affleck, and the boys are making steady progress in their studies.

Ken Rees was in attendance Friday for the purpose of making up with the boys the matter of forming a scout basketball league. The boys were greatly in favor of this move, and the troop will be able to form seven teams. It is expected that the Third Nelson troop will enter a team in the league as well.

The nights set apart for the games will be Tuesdays after the regular Cub meeting, and Thursdays and Saturdays after 8 o'clock. Each member of the regular junior team, will have charge of one of the new teams.

All arrangements have been made in connection with conducting the service in St. Paul's United church in a short time. It is expected that in addition to the members of the First Nelson troop and pack, there will be present the Third Nelson troop and pack and also the first and second companies of Girl Guides and the First Nelson pack of Brownies.

FIRST NELSON WOLF PACK

It may be realized what a hold the cub movement has on the younger boys of town when it is noted that there was a turn out of 60 members at the pack meeting last week. The pack was divided into three groups, two being under Garnet Kerr and Bill Price respectively. The third, numbering 24, made up of the cubs who will be eligible to move up into the scout troop next fall, was under the charge of the scoutmaster.

The scoutmaster will in future have personal charge of the latter group, and it is the intention to gradually work them into scout activities during the coming summer, and in the fall to set aside an evening for their training. It is not the intention to move them up into the troop till the fall of 1930, and by that time it is expected that they will be first class scouts. Should the membership of the troop be as large in the latter part of next year as it is at present, and there is no reason why it should not be, it may be a matter of forming another troop, but when that time comes, it will be a matter for the district scout commissioner to decide. Great things are expected from those future scouts, and by this time next year they will be a valuable addition to the scout organization. Most of them have been in the cub pack for several years, and all of them have had a thorough grounding in the cub principles and what cubbing means, and it will be fairly easy work to carry them through the early stages of scout work. A goodly number of cubs turned out Saturday night for a basketball workout, and there is no doubt that this branch of their activities will prove very popular.

FIRST TRAIL TROOP

Thursday, as has been respected in a previous issue of this paper, was a letter day for the scouts in Trail. It was the first time in the history of the movement in this city, that a public display of scout work was given. Judging from the comments made by interested spectators, who packed the gallery around the gymnasium, it was one of very great merit. The press has reported it and so we will not have to give it mention here, except to say that this was the first, we hope, of many.

At the meeting Friday two recruits were invested with the rank of tenderfoot. Recruits Bill Hopkins and Carl Lunde are now scouts and have taken the promise to share in the ideals of the millions of brother scouts, and help to carry the great work along. Jack Gibson who was at one time leader of the Cougar patrol, but gave it over to his second, was invested with the rank of patrol leader, such rank not having been conferred before. Jack was appointed, on the advice of the advisory council, as acting assistant scoutmaster. Art Morris, who was at one time patrol leader of the Beavers, and who also gave his patrol over to the second, has been appointed troop secretary and will look after all records. Patrol Leader John Hollington continues to look after our dues and pay all accounts, and of corse bears the title of troop treasurer.

Several new ideas were introduced last meeting, and with the compulsory uniform starting March 22, the troop will look smart outwardly, as well as being smart inwardly.

The new competition will start April 1, and will be handled mainly by Jack Gibson.

It is expected that we will have an announcement to make shortly in regard to more of the combined troop activities.

A REJUVENATED BRITAIN DRAWN BY LORD WEIR

British Industrial Peer Tells Coast Canadian Club of Great Advances

MILLION MORE WORK THAN BEFORE WAR

All Obligations Met and Service Extended; Iron and Coal Are Healthier

VANCOUVER, March 10.—A picture of improvement in general conditions throughout Great Britain, "accurate and not unreasonably optimistic," was given to the Canadian club here Saturday by Lord Weir of Eastwood, British industrialist.

In spite of unemployment, one million more people were at work in Great Britain than in 1914, Lord Weir emphasized. The gold standard had been reestablished, and the grave sacrifices of deflation dealt with, more than 1,250,000 houses had been constructed at vast cost to the state, the great social service system of old age, widows and other pensions, health and unemployment, insurance had been extended on a scale far in excess of all other countries; all the vast debt obligations had been met, and Britain was sustaining a burden of taxation unheard of in history. Moreover, London was still established more firmly than ever as the center of the financial world, and finally, the country had successfully met and dealt with the "great unconstitutional attack made on it in 1926 at the general strike."

UNPARALLELED FEAT

"I suggest to you in real seriousness," Lord Weir declared, "that is a very great performance, not paralleled in history. It is certainly not the performance of a down and out people."

The speaker reviewed difficulties with which Great Britain was contending. For the most part, they were the outcome of the war. The country's trouble might be summed up in the single word "unemployment."

In regard to the iron and steel industry, Lord said:

IRON ORGANIZATION

"Perhaps we have been rather slow in adapting ourselves to the new tendency to what is called 'rationalism' or large scale cooperation. May I put it that we have always placed quality in front of cheapness, and individual effort before modern organizations. The rejuvenation of iron and steel to me represents the key to a solution of most of our difficulties. It is therefore gratifying that in the past 12 months a very general appreciation has developed of the need of rationalism and reorganization."

In the course of his references to Canada, Lord Weir said he felt it would be a good thing to organize a party of 12 of the younger group of financiers of Great Britain to pay a special trip to British Columbia and set up trade contacts.

Hon. R. Randolph Bruce, lieutenant-governor of British Columbia, and Hon. Dr. William Egbert, lieutenant-governor of Alberta, were guests at the luncheon.

MARY ELLEN BALLOT BOOSTER IN THE EAST

Urges Votes for Women in Club Address, Montreal; for Canadian Tours

MONTREAL, March 10.—"Women seek the ballot for the power it gives them to create better conditions, to make homes happier and hearts lighter," Mrs. Mary Ellen Smith, formerly of the British Columbia government, told members of the Montreal Central Women's club in a luncheon address Saturday.

Living conditions were bettered, she declared, by having women included in the national housekeeping of the country.

Mrs. Smith praised Canada's war pensions system and the finances system generally, declaring that it was such as to inspire confidence abroad and encourage others to make their homes in this country.

"Canada is a country well worth living in," she said, "and all should know it from coast to coast to appreciate it fully." She believed that every member of parliament should have a thorough knowledge of Canada gained by a tour from coast to coast.

HOLDS THEM!

D. KEMP

Trail goalie, against whom the Vancouver Ex-Kings were able to score only two goals in the province hockey playoffs. In Friday's game he held off the coast champions when two Trail men were taking enforced rests, leaving him with only three defenders. He succeeded Percy Jackson, star net minder of the Pacific Coast professional league, between Trail's pipes.

FEMININE ARMY FOLLOWS THE MEX REGULARS

Women Are Commissariat, Blue Cross, and Other Extra Services

MEXICO CITY, March 10.—(By Lindbergh's Air Mail)—Behind former President Calles' army of around 18,000 men rolling northward on box cars toward what is expected to be the crucial battle of the revolution, a feminine army is pushing forward in any type of conveyance it can find. Some of the women even are afoot.

Some might characterize these volunteers as camp followers, but they have a much more important function in the Mexican armies, where they serve as the commissary department, and at times as the Blue Cross and several other branches of war service.

They have no official status, and they receive no pay from the government, yet Mexican generals referred to them as the "Noblest of Mexico's warriors."

WIVES, SWEETHEARTS, MOTHERS.

They are the wives, sweethearts, mothers, and sisters of the soldiers. Many of them devote their lives for caring for the fighters.

They cook for the soldiers, mend their clothing, forage food if necessary, and cheer them up when they are downcast.

Their lot is a hard one when the army moves they follow afoot or in any way they can find. If a soldier is killed in battle, the woman who has been caring for him frequently adopts another, and goes on with her commissary duties.

GRAIN PROBE NOW DUE AT WINNIPEG CHECK INSPECTION

WINNIPEG, Man., March 10.—The Saskatchewan royal grain inquiry commission will commence sessions in Winnipeg tomorrow morning, and while here will investigate closely into the inspection and grading systems. Members of the board of grain commissioners also are expected to appear before the commission here.

The first witness tomorrow is expected to be J. D. Fraser, chief inspector of the government inspection department.

CHURCH WILL FIGHT BEAUHARNOIS PERMIT

TORONTO, Ont., March 10.—T. L. Church, Conservative member of parliament for Toronto Northwest, in an interview here tonight said he would introduce a bill in the house of commons tomorrow to revoke the Beauharnois permit for power development on the St. Lawrence river.

HOOVER CABINET GETTING STRID[E] PRESIDENT BUS[Y]

Head of Government Is Int[ent] on Farm Relief and Tariff Situation

NOT LIKELY TO USE HIS TARIFF POWE[R]

Special Session, However, W[ill] Deal With Those Subjects First of All

WASHINGTON, March 10.—(By [Lin]braith)—The change of government produced very little disturbance [in] Washington. At the end of its [first] week in office, the Hoover cabi[net] seems to be getting its stride, [and] President Hoover himself is concern[ed] chiefly with the farm relief and ta[riff] situation of congress, which opens [on] April 15.

There will be many appointme[nts] to be approved when the new co[n]gress meets, and one or two pie[ces] of legislation left over to be dealt wi[th]. But Mr. Hoover is determined t[hat] the special session shall waste no ti[me] over anything except farm proble[ms] and he seems to have an agreem[ent] with leaders of both houses to t[his] effect.

NO EMERGENCY ACTION

Meanwhile it is pretty certai[n] no changes will be made in th[e] tariff under the provision of th[e] Tariff act, under which the presi[]dent, by advice of his tariff com[]mission, may vary the existing dut[y] on a specified commodity not mor[e] than 50 per cent of the existin[g] duty, up or down. The tariff com[]mission makes its recommendation[s] after investigating in open sessio[n] the cost of production in the coun[]try from which most of the specif[]ied commodity is imported. It i[s] known that the commission at on[e] time or another in the last tw[o] years had made recommendation[s] to President Coolidge on a numb[er] of commodities. Those of chie[f] interest to Canada are milk an[d] cream, maple sugar, flax seed, lum[]ber and shingles.

The investigation of the cattle [in]dustry made for the United States t[a]riff commission in western Canada [this] summer by Dr. L. G. Conner was c[on]ducted under the broad powers of [the] commission to get data for the congr[ess] and not under section 315, wh[ich] gives the president power to vary ta[riffs] without reference to congress.

WHOLE REVISION UP

The recent hearing by the ways a[nd] means commission of congress gath[er]ed evidence in favor of increased t[a]riff on practically everything produ[ced] on the farm. It is not likely t[hat] Hoover will make any arbitary chan[ges] in the tariff on a limited range [of] products while congress is revising [the] whole Fordney-McCumber tariff.

Mr. Hoover stated yesterday to ne[ws]papermen that he would reveal [his] policy on agricultural tariffs in [his] message to the new congress and [not] before. It is understood that he [is] in favor of some increase in dut[ies] but is opposed to the wholesale [in]creases demanded by the farm asso[ciac]tions before the ways and means co[m]mission.

MRS. WALDIE IS LAID REST HER[E]

Many Attend the Funer[al] Beautiful Floral Tributes Are Received

Mrs. Margaret Waldie, who died Tu[es]day, was buried Saturday aftern[oon] from D. J. Robertson's parlors. R[ev.] F. R. G. Dredge officiated at the p[ar]lors and at the graveside.

The pallbearers were George Th[o]cott, David Kerr, C. W. Will, Wa[lter] Davis, P. Johnson and T. H. Hulls.

Those sending floral tributes w[ere] Pillow, the family; wreaths, Percy [and] Elizabeth, James Graves and fam[ily], Mr. and Mrs. George Truscott, Mr. [and] Mrs. Thorndale, Mr. and Mrs. Bald[win], Mr. and Mrs. George Talbot and fam[ily], Mr. and Mrs. P. Johnson; sprays, [Mrs.] Heath and family, Mrs. R. Wal[ker], Bruce and Jennett, Mr. and Mrs. [Ed] Balding, Mr. and Mrs. E. G. Spar[ks], Mr. and Mrs. J. Will and Corb[ett], Mr. and Mrs. C. Fandgren, Mr. [and] Mrs. John Burns, Mr. and Mrs. Geo[rge] Webster, Mr. and Mrs. David Kerr, [Mr.] and Mrs. M. Lauritz, J. Rogers, [Mr.] and Mrs. H. Hulls.

No Time Like the Present

To take a look through that accumulation of furniture in your attic and basement. You'll be surprised to find that a good percentage of it could be sold for cash. To do this, you have only to make out your list and telephone it to the "For Sale" department of

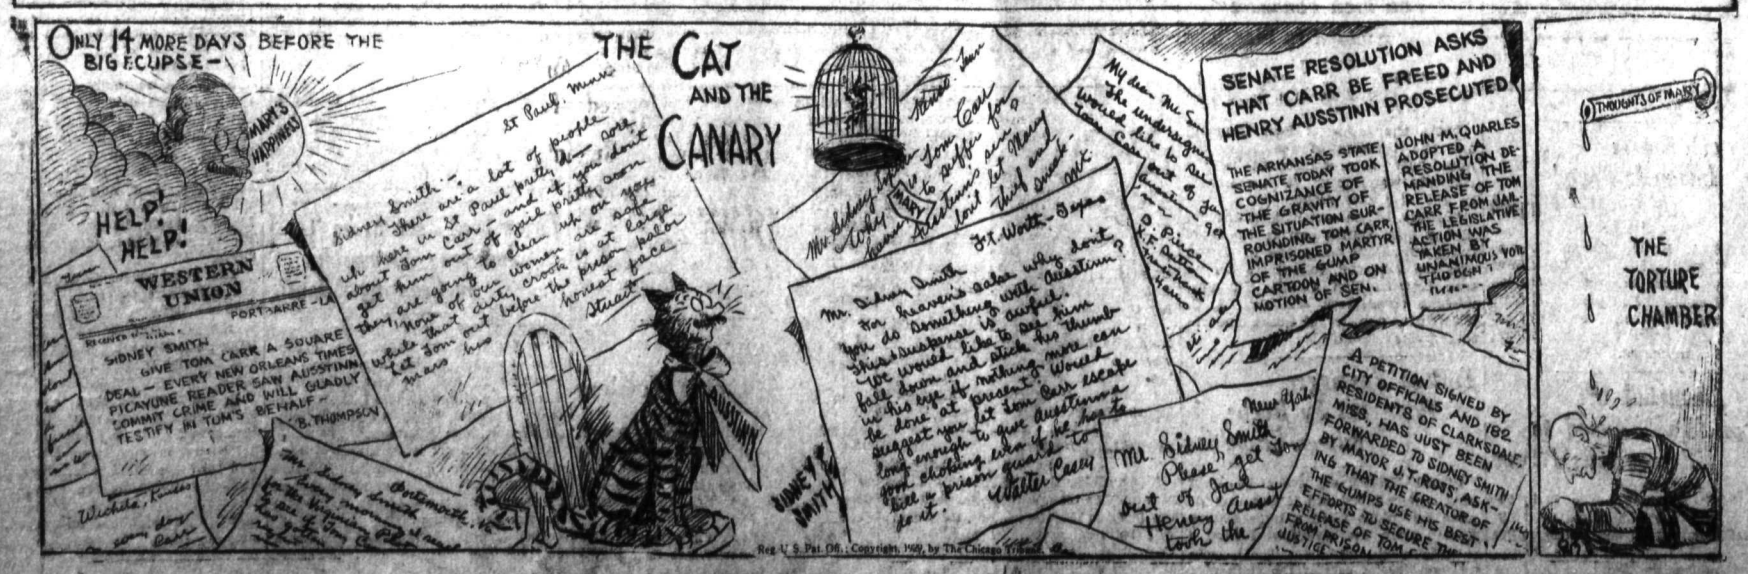
THE GUMPS—IT WON'T BE LONG NOW



ONE BOX ENDED HIS SUFFERINGS

Serious Bowel Condition Relieved by "Fruit-a-tives"

MR. PAGE

Mr. James Page of Cabano, P.Q., was in a very dangerous condition. The Constipation from which he had suffered for five years was undermining his whole system. It was not only ruining his digestion and poisoning his blood, but had also brought on painful piles. Various treatments failed to help him until he tried "Fruit-a-tives," made of intensified fruit juices combined with scientific medicinal ingredients. "One box of this wonderful medicine," he writes, "gave me complete relief. 'Fruit-a-tives' gives results as nothing else does, and I sincerely recommend it to every sufferer." Try this great medicine. 25c. and 50c. a box—at dealers everywhere

England Ends First Innings With 519 Runs in Fifth Test

MELBOURNE, Australia, March 11.—(CP Cable)—Englanr ended their first innings of the fifth cricket test match with Australia today with a total of 519 runs.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time."

—MRS. W. V. RUSSELL, R. R. No. 5, Fenwick, Ontario.

BIKER IS NAMED WORKS ENGINEER GOLDEN VICINITY

Succeeds Stevens; Hayne of Fernie Goes to Williams Lake; General Shuffle

W. J. Biker of Nelson will become department of public works engineer at Golden, in a general moving around of engineers, necessitated by the resignation of Major E. M. Taylor, district engineer at Kamloops, to take an important position with a contracting firm.

Evan S. Jones, transferred from Williams lake, will succeed Major Taylor. Mr. Jones place will be taken by District Engineer H. Hayne of Fernie, and W. H. Stevens will succeed Mr. Hayne.

Mr. Biker, who thus attains the position held by Mr. Stevens, was formerly connected with the water branch, lands department.

KASLO NOTES

KASLO, B. C., March 10.—Gordon Bowker of Mirror Lake has returned to his home after visiting friends in Nelson.

J. P. Coates of Nelson is in the city and is making a survey of the local electric light plant.

Mrs. H. E. Enright arrived in the city Tuesday from Johnson's Landing, where she made an extended visit with her brother and sister-in-law, Mr. and Mrs. W. Wadams. Mrs. Enright left for her home at Burns, Wash., Thursday morning.

L. Wood, O. Neilson, A. Eliason and B. Randall arrived in the city from Whitewater Wednesday.

W. Callin is here from Sinclon for a few days.

W. Camayon returned from the Lucky Jim mine Wednesday.

The Ladies' Hospital aid met Monday afternoon, the president, Mrs. Charles Bowker, being in the chair. Final arrangements were made for the annual ball.

W. V. Papworth, city clerk, was a Nelson visitor Tuesday.

Tuesday evening the members of the Kaslo Orange lodge entertained friends at a party in the lodge rooms. Cards provided amusement during the early evening, winners being Miss Winona Rouleau and Ernest Creed. After refreshments, dancing was the order of the evening. James Edwards was in charge of affairs.

Mrs. F. T. Abey has returned from Nelson, where she was the guest of her daughter, Miss Olive Abey.

Lance Hillman was down from Whitewater Wednesday.

Mayor James Anderson is a business visitor in Nelson.

Miss Queenie McQueen of Balfour spent the week-end with her parents here.

Mr. and Mrs. Peter Price have as their guest, Mrs. Osborne of Nanaimo, a sister of Mr. Price.

Mr. and Mrs. Cecil Pangburn of Retallack spent the week-end in Kaslo.

Rev. D. W. Scott was in Nelson attending a meeting of the United church presbytery.

Mrs. Black of Sandon is the guest of Mrs. J. W. Green.

Mrs. A. B. Fleener, who is spending the winter in New York with her daughter, Mrs. Loye, is recovering from a recent illness.

E. Helsing and K. Wickstrom came down from the Whitewater mine Monday.

Angus MacPherson, superintendent of the Cork-Province mine, is spending a few days in town.

Otto Kahle was down from Whitewater Monday.

A. Karlson is spending a few days in the city.

At a recent big London wedding the page wore a pale blue Chinese suit.

Trail News of the Day

TRAIL, B.C., March 11.—A delightful but quiet wedding was solemnized at the residence of W. Langland, Riverside, yesterday afternoon, when John Robert Holland and Mrs. Katherine Julia Locke were united in marriage. The service was conducted by Rev. H. P. Humphreys of the Trail Baptist church. The bride who was given in marriage by Mr. Langland, was becomingly gowned in a white satin dress, with veil and orange blossoms. She was supported by Mrs. Divina McTeer. Mr. Holland was supported by P. Norris. Following the ceremony, a delightful supper was enjoyed. It is understood the couple will reside in Trail.

* * *

Miss Constance Bennett of the Consolidated Mining & Smelting company office staff, who was entertained at a shower Tuesday evening, left this morning for her home in Seattle. The engagement was recently announced of Miss Bennett to Ian Hastings, also of the company's staff, who will, it is stated, leave for Seattle at the end of the month.

* * *

Mrs. John Hintz of Waneta was in Trail Saturday.

* * *

F. Jenkins of Robson spent Friday in Trail.

* * *

Mrs. Pete Hardie of Castlegar spent Friday, the guest of Mrs. J. C. Robertson.

* * *

Misses Ella and Edith Thompson entertained at bridge Friday evening at the home of their sister, Mrs. Donald McDonald, Pine avenue.

* * *

Miss Louise Harper of the staff of the Bank of Montreal, has accepted a position with the West Kootenay Power & Light company in Rossland.

* * *

W. Tullet of Vancouver has arrived to take up residence in the city.

* * *

Mrs. N. Skene of Winnipeg, who is touring through this part of Canada, was in the city Thursday.

* * *

Mrs. Holt C. Caldicott, Riverside avenue, entertained at bridge last night in aid of the boy scout fund.

* * *

Mr. and Mrs. Dave Calder, Bay avenue entertained this week in honor of their son, Arnold's birthday. The evening was spent at music and games and a most delicious supper.

* * *

J. Whitney returned Friday night from Vancouver, where he has spent the last week.

* * *

B. Petroni, who has been visiting his old home in Italy for some time, has returned to Trail.

* * *

Mrs. Anderson and her two granddaughters, Florence and Marjorie, are visiting in Spokane.

* * *

Mrs. E. Crowe entertained at bridge at her residence on Hannah bench.

* * *

Miss Muriel Stanley has returned to her home in Trail after spending some time in Nakusp.

* * *

R. M. Powers of Thrums visited the city yesterday. He is well known in Trail. He and Mrs. Powers are leaving the district shortly to reside in Vancouver.

* * *

Mrs. B. T. Simpson, Farwell street, entertained last evening at five tables of five hundred.

What Do You Think?

Notice to Correspondents

Several letters from all parts of the district not having signatures as well as nom de plume have reached The Daily News office. Several of these letters are being held and will be run if the writers will send their names, not for publication, but as an evidence of good faith on behalf of the writers. It is necessary that all letters for this column be signed by the writer even if a nom de plume is used.

Mail Failure on Lower Arrow Due to Tug's Lack of Power, Asserts Nash

To the Editor of The Daily News:
Sir:

I have been 16 years on the lower Arrow lake and I would like to say a word about the failure of the mail delivery this winter.

In 1916 we had similiar ice conditions only worse. There the powerful tug Whatshan, pushing a barge, delivered our freight and mail. You could hear her coming miles away crushing the ice, and it seemed to make no difference to her speed. She came right along and delivered the goods and on time. She had the power.

In 1920 when the Columbia was launched to take the place of the Whatshan I was lin Nakusp and feared when I saw her engine. The authorities did not give her sufficient power to cope with ice conditions such as we have had this year or such as prevailed in 1916. The Columbia has not the power.

F. W. HACH.

Renata, B. C., March 9, 1928.

GEORGETTI AND BATTES WIN LONG BIKE GRIND

NEW YORK, March 10.—Approximately $15,000 in guarantees and bonus money was distributed today in Madison Square Gardens for the 46th international bicycle race, which came to an end last night.

Franco Georgetti and Gerard Battes, who won the grind by the overwhelming margin of five laps, split about $10,000 between them.

NEW HAVEN NOSES OUT SPRINGFIELD FOR THIRD

NEW HAVEN, Conn., March 10.—New Haven nosed Springfield out of third place in the Canadian-American Hockey league, defeating Boston, 2 to 0, tonight.

FRENCH FLYWEIGHT MAY BOX, CANADA

Both Schwartz and Belanger Sign to Meet Him if Winner of Coming Bout

TORONTO, March 10.—Emil Pladner, sensational French flyweight, who recently knocked out Frankie Genaro in 47 seconds of fighting, probably will box in Toronto this summer for the world's flyweight championship, Matchmaker Playfair Brown of the Shamrock Athletic club announced tonight.

Both Corporal Izzie Schwartz, recognized by the New York state athletic commission as world's champion, and Frenchy Belanger, Canadian title holder, who fight for the title here Tuesday, have signed contracts for the winner to meet the Parisian hero, probably at the Maple Leaf baseball stadium in June.

The world's champion is a 6-to-5 favorite for his bout with Belanger, who he defeated on points recently.

Rainfall Exceeds Inch and a Half Over the Weekend

No Hope of More Ice This Season; Snow Disappearing Quickly

Starting early Saturday evening rain fell to the extent of 1.58 inches, or over an inch and a half, by 5 o'clock yesterday afternoon. Rain fell practically all morning and well on into the afternoon yesterday. It was the largest rainfall recorded in 24 hours since last fall.

The temperatures were well up yesterday, the mercury going only to 36 at the coldest time of the day, and rising to 41 during the warmest part. The minimum temperature Saturday was 33, one degree above freezing, and the maximum was 42.

CLOUDY TODAY

The forecast for today promised continued cloudy weather, probably with showers.

The rain over the week-end removed considerable snow and there was now little left except where it was banked deeply. Many street crossings throughout the lower and the hill sections of the city were almost impassable yesterday.

That spring is here was definately proven yesterday when members of the Nelson Curling club decided that it was hopeless to expect Jack Frost to give them another sheet of ice on which to complete their invitation competition. There was no curling all last week, but there were hopes. The curlers will wind up their season this week with the annual supper. Hope as also been given up of obtaining another ice sheet at the skating rink.

Pussy-willows have been in bloom for about 10 days. This is considered an indisputable sign of spring.

PARLIAMENT WILL RESUME ON BUDGET

Discussion Will Probably Not Be Prolonged; Bennett Back From Coast

OTTAWA, March 10.—Parliament will enter tomorrow on its second week of discussion on the budget. Hon. R. B. Bennett, Conservative leader, will be back in the house following a trip to the Pacific coast, and with his return the debate will probably take on a more lively complexion.

Division on that main motion, and the opposition amendment expressing regret that the government's fiscal culture and industry, is generally expolicy affords no safeguards to agripected within the next 10 days.

From all indications, discussion of the annual financial statement of the minister of finance will be briefer in duration than in 1928. Last session the debate extended from February 28 to March 14. This year only four days of actual discussion have so far taken place.

Discussion tomorrow afternoon will be resumed from the Conservative side by General J. A. Clarke, Burrard.

YMIR NOTES

YMIR, B. C., March 10.—Miss M. Burgess returned from Kimberley Wednesday. She had been nursing in the Kimberley hospital.

G. L. Thompson, manager of the Yankee Girl mine, returned from Nelson Wednesday.

The Ymir Ladies' guild met at the home of Mrs. M. Peters Thursday afternoon. Those present were Mrs. M. Peters, Mrs. W. Clark, Mrs. J. H. Clarke, Mrs. S. A. Curwen, Mrs. A. B. Clark, Mrs. L. P. Bond, Mrs. J. M. Gille, Mrs. A. Burgess, Mrs. W. A. Buchanan and Mrs. W. B. McIsaac. Refreshments were served.

Mrs. N. Peterson and son, Elmer, left for the Kootenay-Florence mine at Ainsworth Thursday, to spend the week-end.

YMIR, B. C., March 10.—A. Chernoff went to Nelson Thursday for medical attention, returning Saturday.

Mr. and Mrs. C. A. Camley of Salmo were Ymir visitors Friday.

J. V. Hughes and J. Reisterer were down from Wild Horse camp Friday.

Mrs. C. McIsaac and Mrs. W. B. McIsaac entertained at the tea hour Friday. The guests were Mrs. S. A. Criswen, Miss E. Thompson, Mrs. J. M. Gille, Mrs. J. H. Clarke and Mrs. H. Stevens.

Mr. and Mrs. S. A. Creswen entertained at bridge Friday evening. The guests were Mr. and Mrs. C. A. Canley of Salmo, Miss E. Thompson, Mrs. H. Stevens, J. V. Hughes and J. Reisterer. Honors for high score went to Miss E. Thompson and C. A. Canley, consolations being awarded to Mrs. C. A. Canley and J. V. Hughes.

FACES STORM

Hon. Charles Stewart, minister of the interior, will be under fire in the house of commons when the discussion of the Seven Sisters power grant is brought up by the Winnipeg members. It is alleged that Mr. Stewart after a meeting with the Manitoba members declared he would take no action except that which they could approve. They voted nine to four against granting the site to private interests.

BROCKVILLE, Ont., March 10.—The stress of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the past in Canada, says Dr. W. M. English, medical superintendent of the Ontario hospital here, with over 800 patients. Telephones, motorcars and radios, he adds, have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known. A change in this respect has been observed particularly in the west.

El Ouafi, Arabian of the 1928 Olympic marathon, earned $5000 during his first American tour as a professional distance runner.

NAMES

By GERALD REES

The other day I received a latter from Hoop End Bend, bearing an English stamp. It is in Hampshire, not shown on a large scale map, though apparently every other two by four hamlet is registered. It was not even in the atlas index. The nearest to it was De Hoop, in latitude 34, longitude 20, east, a Sabbath day's journey from Cape Aghulhas, where "the aching berg props the speckless sky," and the great cape combers roll. How fascinating these old country names! Whence came they and how grew they? Why their hyphenation, and what moment baptized them twins? Names like Sutton-Mandeville and Kingston-Deverill, Maiden Bradley and Compton Chamberlayne (rather reminiscent this of a Picardy village known to all Vimy Ridgites). Also Chew Magna and Nether Wallop. What do you know about that? Did ye ever hear the-like? How de lightfully they roll from the tongue.

WHAT'S IN A NAME?

Whence came Upper Noble and Buckhorn Weston? Refer to a map of England, and make your own selection of glorious oddities. An inventive mind must have coined Pudley-cum-Salterton, Wooton Fitzpaine and Sydling St. Nicholas, presumably the village of all good Christmas cards. These picturesque places, I wot, are as charming as their nomenclature, brooding over their past, deadly quiet in their seclusion, though of recent years, they have come to a "certain liveliness" through the advent of juggernaut chars-abancs that roam around the countryside devouring gas at hydra-headed petrol stations which now blot the roads, leaving in their wake broken bottles and orange peel to mark their smoky passing. Fine inns are to be found in these old places, with bread and cheese and cider. Good enough for me, and for you too. If not too intellectually inclined, you can therein chat with the yokels (not so wurzel-headed as some folk believe) who have large mugs in front of them. Absolutely old fashioned—a faded framed dagurreotype on the wall of "granfer" and his spouse taken in the eventful year of the Hyde Park exhibition. Another picture, not so faded, of a self-conscious but determined groom standing very much at attention with one hand resting on the shoulder of his smiling bride, the village belle.

IN LILAC TIME

Another one, an enlargement, new, of a lad in khaki, maybe a tiny piece of crepe attached to one corner to tell of a youthful Odyssey ended in flame at Suvla Bay, or in the swamps of the old salient. His name "known unto God" is deeply engraved perchance, on the tablets of the Menin Gate memorial athwart the Menin road. Usually, a weezy old piano is propped against the further wall, with torn music to keep it company in its dottage, and the family album, that monument of affection, almost a handbook of biology! A few books, school prize volumes, gold backed "awarded to Emily Scruggins for good conduct and scriptural knowledge." Dear Emily, likely eno' a twin to Matilda, a sweet young thing in cotton hose (giving a longer run for her money than Rayon) I can see her now with a soap-shiny face, rosy cheeck free from rouge and lipstick, with hair in pigtails. How odd she appears alongside the dimpled darling Miss 1929, new model, with her high heels, and air-cooled knees, ever about two whoopees ahead of fashion's latest whisper.

I wonder what happened to Emily, and if this jazzy age has had any deleterious effect on her recorded virtues.

YOU'RE MY BABY

As I endeavor to write this, I see from coach window as we shovel along through the valley of the Kettle, making up some lost time, such prosaic names as Ruth, Lorna, Myra, Loos and Lola. The selector of these cognomens was dreaming of the last "hop" and of the dear little girls with whom he stepped the light fantastic.

TOO OBVIOUS FOR ANYTHING—ROCKS

There is a gleam of fancy about Zamorra and Arrawana, but little about Rock Cree! For a change, and such a change, I would wish to be sitting in first class carriage behind a 'sixty-mile" green "King" compound of the Great Western.

Shaped long and arrowy
For tearing the gusty side of Space.

Bound for the west countries out of Paddington, bound for the Cornish Riviera, non stop, where the magnolia, the red camelia and the euculptus flourish, where once King Arthur with his magic sword excalibur and his perfect knights, carried out their precepts in the Vale of Avalon and at the court of Camelot. Whizzing along through the exquisite scenery of the southlands past rich pastureland and heather clad moors, fields of golden corn and green apple orchards; deep lanes and stone cottages ivy-bound, with wild flowers in vivid masses against the green of cool woods. Here a glimpse of open water and hard sandy beaches

The scimitar of ever shining sea
For right hand use, bared blue against the sky,

there a faint line of distant hills, the hills o' home . . . And in the passing to hurriedly glimpse such honey tongue-rolling names as High Willaye, Venn Ottery, Plympton Earls and Westward Ho!

Good

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Duplicate, Triplicate Quadruplicate Forms

In manifold forms, it is essentiol that the work should be well and carefully done. The ruling and printing, or if printing alone, must be in perfect "register". Otherwise line No. 1 on the original sheet may not "hit" properly in the duplicate or triplicate sheets.

For the same reason, the sheets must be padded or bound in perfect position.

We have been very successful in work of this nature and are proud of the satisfaction we have been able to give customers

The Passing Show of 1929

It's a show that changes every day. Keep abreast of the times. Always up-to-date—ever in step with the mode, or a little ahead—turning the spotlight for you on the things that are new, smart, stylish, convenient—desirable.

The passing show of current times—the advertisements in your newspaper. Packed with interest—alive with the vitality and surging change of this modern day.

The advertisements are more than reliable buying guides. Indications of quality they are, surely—for today no manufacturer can win lasting success by buying publicity for a cheap or shoddy product. Advertiseing weeds out the unfit. But more than that—advertisements are the fascinating daily record of progress in industry—of advances in the world of goods and services. And of such things you need to be fully informed—for you are the one who buys them.

Buy intelligently—with open eyes. Read the advertisements every day. Compare values . . . know what's new, what's better, and why. When you start out to spend your money—be informed!

Make it a habit to follow the advertisements. Every day there's a new edition of the passing show!

THE DAILY NEWS

Published every morning except Sunday by The News Publishing company, limited, Nelson B. C. Business letters should be addressed and checks and money orders made payable to The News Publishing company, limited and in no case to individual members of the staff.

Advertising rate cards and A B C statements of circulation mailed on request, or may be seen at the office of any advertising agency recognized by the Canadian Press association.

Tolmie Government Intends to Continue Big Highway Program

loan bill of $9,000,000 providing for construction of new highways, Hon. Nels Lougheed, minister of public works, stated that it was intended to continue the policy of having engineers instead of road foremen during the construction era which would "probably last another 10 years."

At the end of 10 years it will undoubtedly be found good policy to continue the policy of having trained engineers in charge, but the interesting point to the minister's observation is that he evidently proposes to complete within a decade the main work of constructing highways in British Columbia.

That such a vigorous policy of road construction should be planned is good news. It shows that while the government is to make a loan of $9,000,000 for highways this year, the largest highway loan in the history of British Columbia, this is no flash in the pan, but the first step in a permanent policy of worthwhile expenditure on roads by the Tolmie government.

That is splendid, and the government will find that the public is behind it in its policy of constructing good roads which will stand up under modern conditions of travel.

Let's Invite the Doctors to Come This Way

The British Medical association will hold its annual meeting in Winnipeg from August 26 to 29 and of the 2500 persons who are to attend the meeting a party composed of one-third will visit the coast.

Nelson board of trade might take up the matter with the C. P. R. and endeavor to arrange for this party to travel one way via the southern interior of the province.

In Kootenay, Boundary and Okanagan we have much which would be of interest to the visiting medicos.

Britain Prunes Its Naval Program

While the United States is preparing for the largest naval expenditures in its history, Breat Britain is pruning severely its naval program.

Of course, the United States has the right, legally, to build all the warships it pleases, whether it really needs them for defence or whether the present insistance on more ships is, as one American critic of the naval bill puts it, "merely to gratify the vanity of a bunch of admirals."

In any event, Great Britain is showing something more than lip loyalty to the principles expressed at Locarno and Geneva.

Glenbank Nakusp W.C.T.U. Makes Plans Hold Contest

GLENBANK, B. C., March 8.—A meeting of the W. C. T. U. was held in the Glenbank church Tuesday afternoon, Mrs. Harley occupying the chair.

It was decided to hold a contest at an early date. Mrs. Balderson read the third chapter of MissMcYockindale's study book, "Alcohol Is the Enemy of Life."

The Lighter Side

If you would know a man's history, just ask his opinion of friends.

—o—

A free land is one that wont stand for any dictator except one interested in its soul.

—o—

Among the sins of the fathers visited on the children to the fourth generation are paying bonds.

—o—

NATURE BALANCES THINGS. IF A HUSBAND FEELS SORRY FOR HIMSELF, THE NEIGHBORS FEEL SORRY FOR HIS WIFE.

—o—

"You're a pharmacist," said Sherlock Holmes. "I see spots of mayonnaise on your vest."

—o—

If it accomplishes nothing else, the work of our great critics reminds us of our own sophomore days.

—o—

When a modern youth says he wants to begin work at the bottom, he probably has in mind the signing of letters and checks.

—o—

Canadianism: Keeping ourselves as poor as the rich once were by trying to live as the rich do now.

—o—

Trotzky is a unique character—unless you count the Wandering Jew.

—o—

One reason why girls leave home is because there isn't anything to eat this side of the drug store.

—o—

The only word meaning both "nosty" and "dull", one gathers from publishers' blurbs, is "frank."

—o—

One thing dad gives up during Lent is all thought of getting Christmas bills paid until after Easter.

—o—

So they want a name for the new Einstein theory that nobody understands. What about "she"?

—o—

There are no swear words in the Welsh language, the authorities believing the climate sufficient.

—o—

CORRECT THIS SENTENCE: "YES, I KNEW YOU WERE TAKING THE WRONG TURN," SAID THE LADY IN THE BACK SEAT, "BUT I HATED TO SAY ANYTHING."

—o—

So live that you never feel an urge to denounce the intolerance of a narrow-minded world.

—o—

THE CAREFUL DRIVER HAS ONE CONSOLATION. HE ALWAYS GETS BUMPED IN THE REAR, WHERE THERE'S NO WINDSHIELD.

—o—

An "old maid" is one who resents it. A "bachelor girl" is one who has sense enough to know when she's well off.

—o—

What's the use? If you have sense enough to earn two or three cars, you have sense enough to walk for exercise.

—o—

Still, a man sucker enough to marry a gold-digger would be trimmed by somebody else if he didn't pay alimony.

—o—

The bride, scene 1: "Thank my stars; I'll never have to work any more." Scene 2: "I wish I had some spending money of my own."

—o—

The ideal servant is one with brains enough to work for less than you would.

—o—

It would be intersting to know at just what stage Methuselah got a new lease on life by having his tonsils and appendix removed.

—o—

CORRECT THIS SENTENCE: "I DESPISE OUR NEW PREACHER," SAID BROWN, "BUT I'M TOO BIG TO LET THAT AFFECT MY CONTRIBUTIONS TO THE CHURCH."

C. P. R. Survey Kootenay Lake Now Completed

PROCTER, B. C., March 10.—T. Francis and his survey party have completed their survey from Kootenay Landing to Procter for the proposed new C.P.R. connecting link, and leave for points near Trail Monday.

The new C.P.R. slip, which has been under construction for the last two months, is now nearing completion. It is expected it will be put into position within the next week.

Although Procter is at its worst at this season, several of the men have announced their intention to return as permanent residents. Every house is occupied, for the first time in several years.

Kidd and Miss Grieve Winners Whist Drive Fruitvale Institute

FRUITVALE, B. C., March 10.—An enjoyable whist drive and dance, the fifth of a series, was given by the ladies of the womens' institute in the hall Friday evening, a large number attending.

The winners of the first prize were Miss D. Grieve and R. Kidd, Mrs. F. M. Barrett and J. Grieve received the consolation awards. A dainty lunch was served.

Dancing was enjoyed till the early hours, music being supplies by local musicians.

TOMORROW'S MENU

Breakfast
Bananas
Cereal
Broiled Slice of Ham
Pop Overs Marmalade
Coffee

Luncheon
King's Salad
Cornbread
Stewed Prunes Cookies
Cocoa

Dinner
Mustard Steak
Lyonnaise Potatoes Corn
Lettuce French Dressing
Baked Apples with Cream
Coffee

King's Salad: Soak one-half envelope of granulated gelatine in one-half cup of cold water for several minutes, then dissolve this in one cup of boiling water, add six table-spoons of sugar, a pinch of salt and a few drops of lemon juice and set aside till it starts to congeal (that is, when it begins to cling to the sides of the bowl). Then stir in one cup each of chopped celery and raw apple, one-half cup of broken walnut meats and one tablespoon of chopped pimentos or red sweet pepper. Let become firm and serve on lettuce with Mayonnaise. You may divide this between individual molds after adding the fruit and vegetables, or just let it mold in the mixing bowl and then break up with a spoon into fairly large pieces for serving.

Cream of Squash Soup: Heat four cups of sweet milk in the top of a double boiler and to it add one and one-half cups of sifted squash, either the freshly-cooked Hubbard squash, or the canned variety put through a 20 minutes over briskly boiling water. water, one-third cup of chopped raw celery and two tablespoons of ground raw onion, and let this mixture cook 20 minutes over brisky boiling water. Then thicken it with four tablespoons of flour previously rubbed into four tablespoons of soft butter. Season with one teaspoon (or more) of salt, stir till thickened slightly, cook 10 minutes longer with the cover on, and serve.

"Mustard Steak: (Contributed by Mrs. X.) Spread prepared mustard over the entire surface of a beefsteak, using one tablespoon of the mustard to a pound of the meat. Broil steak over a hot flame. The mustard gives a wonderful flavor and, when spread on both sides, holds the meat juice."

Tomorrow—Answers to Inquiries.

TWENTY YEARS AGO

(From The Daily News March 11, 1909)

Nelson Cricket club held its first meeting of the season yesterday when arrangements were made for the coming season.

* * *

Dr. F. P. Paterson, who left Trail last spring for England, is returning to British Columbia shortly.

* * *

Building commenced today on the government bridge over the Slocan river about half a mile from Little Slocan.

* * *

E. J. Avison came into town last night from Cranbrook.

* * *

James Anderson of Kaslo is a mining visitor in the city.

Ten Years Ago

(From The Daily News March 11, 1919)

Private Bert Hodben of Creston returned home last night after serving three years with the colors.

* * *

Miss Myrtle Gebert, and Joseph B. Scols were married recently at Silverton.

* * *

Two Fernie rinks skipped by James Johnston and Frank Greenwood visited the Coleman Curling club recently.

* * *

Captain H. Greenwood, M.C., arrived from overseas last night after serving with the colors since 1914. He enlisted as a private and won his promotion on the field.

That Body of Yours

By James W. Barton, M.D

THAT BODY OF YOURS

Why the Spring Tonic Seems Necessary

As the spring arrives you begin to see advertised in the drug store windows all kinds of spring tonics.

There is no question but that at this particular time a great many individuals have that "don't care" feeling, very much like the after effects of the flu, tonsillitis, or any other depressing ailment. Perhaps you feel that way yourself as the early spring weather arrives.

One of the reasons is that you have been living indoors without much exercising during the cold weather, and have likely accummulated the usual five pounds or more of weight that the normal man or woman takes on between fall and spring.

Now the fact that you put on this weight is not a bad sign at all, in fact shows that your tissues respond well.

However in addition to accumulating the weight, you have been living the inactive indoor life, and when spring comes you feel "loggy", not because of this extra weight but for two other reasons also. First this extra weight acts as a sort of inculator to the body and you retain more heat. This may be valuable in cold weather but is certainly most uncomfortable when the warm spring days are at hand. You have little desire to work or exercise and when you do you feel very "stuffy."

Second, weather or not you put on much extra weight, if you've lived the indoor life, you have put too much work on one particular organ and the feeling of depression in the spring in the majority of cases is due to this overwork.

The more food you eat the more work the body should do to use up that food. The tissue that was put on that body of yours to do work is muscle tissue. Your whole body is covered with it, large masses of it. However you eat the food and don't use the muscle, or at least use it very little. What happens?

The organs of the body have not only to take care of that food but get rid of its wastes.

The liver, big as it is, and it is the biggest organ in the body, gets so much food material to work on that it can't do a complete job, and some of the poisons that should be washed out of the blood, are left in, and this partly poisoned blood goes all over the body. Do you wonder than that you feel "heavy as a log" in the spring? Get busy, burn up these poisons or any extra weight by some outdoor exercise.

That is better than washing out with drugs.

Foster's Weekly Weather Bulletin

WASHINGTON, March 9. — Storm wave of mild intensity expected to cross continent during week centering on March 10 will be of considerable importance, causing warm wave and moderate precipitation to be general during storm period, making good crop weather in south and subsoil moisture in central and northern latitudes. March is expected to average below normal precipitation in most areas, but will furnish sufficient moisture for early southern crops in most all sections; west end of cotton belt, east of Rockies, will be expected to receive least moisture during this month. Storm wave of mild intensity, expected to cross continent during week centering on 18, will also cause a general rise in average temperatures during passage of storm center, but following the storm center, a cold wave will be expected in central and northern latitudes.

During 1929 crop season, I will expect principal crop damage to occur during last half of season; more damage probable from unseasonable frosts than from hail; more damage from excessive moisture than from rainfall shortage; no drouth will be expected; principal moisture shortage will occur during spring, heavist precipitation during last half of summer. Best yields in spring wheat belt will be from early sowing of short season varieties of grains. These remarks are of a general nature, to be applied to the general average. Crop season of 1930 will be almost the reverse of 1929 conditions applied to given localities.

Present estimates of world wheat acreage are that winter acreage has been about 3.5 per cent less than for 1928. Severe weather in both Europe and North America has had no effect upon price levels. The immense wheat crop of 1928 stays in the minds of the public and makes an uneasy feeling as to probable values. Excluding Russia and China, latest government estimates are that world wheat production in 1928 was 3780 million bushels; 175 millions more than 1927 production; 740 millions more than pre-war average. I cannot see present world supply of bread grains as excessive, considering probable 1929 crop conditions. The value of wheat is now entirely dependent upon new crop conditions. Reliable reports of of northern hemisphere winter kill will be the first adverse condition; of greater importance will be the first abandoned acreage. It is now safe to say that Russia, China and India will export no bread grains during the next year. It is entirely too early in the season to rush grains to market as farmers are now doing.

Sale of 50 head of Holsteins to a United States buyer for delivery next week, was reported by Byron Jenvey, sales agent of the Oxford Country Holstein Brooders' club.

Husband Was Afraid She Was Getting Pneumonia

Mrs. Charles Edwards, R. R. No. 2, Wheatley, Ont., writes:—"Last winter I was bothered with a very bad cold, and my husband was afraid I was getting pneumonia.

"One day one of my neighbors came in and she suggested that I try

Dr. Wood's Norway Pine Syrup

I took a few doses and I was greatly relieved.

"It also relieved my son, aged nine, of the croup.

"I will never be without a bottle of 'Dr. Wood's' in the house, and I cannot recommend it too highly."

Shipping Tags

In the transportation of thousands of items, there is no substitute for the Shipping Tag. It is attached to all kinds of merchandise parcels to insure their delivery to desired destinations. Whether used in conection with a parcel post package weighing but a few ounces, or with a gigantic machine or steel casting weighing several tons, it does its duty like a faithful messenger.

Shiping Tags are also manufactured to answer various needs with respect to durability. There is a size and quality suited for each purpose for which a Shipping Tag is adapted. Those meant for light weight parcels and short distances, need not be of a durable nature; while those intended for heavy castings and other articles which may be transported long distances, should be of a quality to withstand hard usage.

Shipping Tags are also used as a means of identification in repair shops. These are usually perforated in one or two places and consecutively numbered in duplicate or triplicate, one coupon of which is given to the customer. Instructions for repairs or alterations sometimes form a part of the tag, when used for identification purposes.

FERNIE TAX RATE SET AT 41 MILLS BY CITY COUNCIL

East Kootenay Power Company Seeks to Purchase City Power System

FERNIE, B.C., Mar. 10—At the meeting of the council Thursday evening, Mr. Doherty, representing one of the truck companies, talked to the council relative to a new dumping attachment for one of the city trucks. As the truck was an old model, this attachment would have to be made to order. He advised having a steel dump body built and be attached by an iron works. It would have to be worked by hand, as a power model would not be practicable. The works committee was instructed to procure a body along this line.

Mr. Wilson waited upon the council, asking a reduction in the peddlers' tax levied by a city bylaw. He thought $100 a year too much to charge a man who wished to go from house to house to solicit business. No relief could be granted for fear of creating a precedent, and having to grant similar licences at the reduced rate to others.

A grant of $100 was made to the board of trade.

A grant of $25 was given to the Salvation Army for relief work during the past winter.

James Bigrigg applied for $45 remuneration for his goat, which was killed by two dogs owned in the annex. The application had been filed too late after the incident to take advantage of the bylaw covering this question.

Harold White applied for the position of truck driver for the city. This was laid over.

TRUCK TENDERS

Tenders received from Mr. Beaumont and Mr. Dicks to supply a truck for the city, were laid over for further investigation. There was a tender also for a truck body, but this did not meet with the aldermen's approval.

The city clerk was instructed to advertise for tenders for one of the former trucks of the city, to be in by March 30.

The revised estimates of the school board requirements for the year were passed by the council. The mayor had requested the board to reduce its original estimates by $2000, this being the amount of certain poll tax. The accepted estimate was $45,929.

The estimates for the current year were considered. The total amounted to 41 mills, as compared with 41.2 mills last year. Of this, 13.95 mills would go for general expenses, and 22.06 mills for school purposes. This would mean a reduction of $9800 in the amount of taxes collected. This is effected by approximately the same mill rate and a reduction in the assessment.

POWER PROPOSITION

A. B. Sanborn and Sherwood Herchmer, representing the East Kootenay Power company, waited upon the council. Mr. Herchmer outlined the company's proposition for buying the light and power organization of the city of Fernie. The city was not in the electrical business and therefore the power company thought it could build up business in the city to better advantage. The city had paid $65,000 to the coal company in 1910 for the plant. The power company would also assume responsibility for poles and other equipment, which would likely cost the city $10,000 to $12,000 for maintenance in the next 10 years.

Mr. Sanborn spoke of the happy relations between company and city since beginning to supply city with power in May, 1922. Soon after this, a cheaper rate for light and power had been put into effect in the city, with the result of a marked increase in the net earnings of the city from this source.

The proposition the company was offering was $100,000 cash for a 10-year franchise to sell power in the city and school district, and take over the present plant and distribution system. The company was also offering a lower rate for consumers, in that the discount allowed would be 25 per cent instead of 10 per cent. The company would charge no meter rate.

LOW RATE

The company's proposition would give Fernie the fifth lowest rate in western provinces for residential lighting, said Mr. Sanborn, with proportionate reductions in the commercial blocks. They would also give a flat rate for window lighting and a better arrangement for street lighting.

Mr. Sanborn was sure his proposition was to the advantage of the city as well as satisfactory to his company. The city's average earnings from this source for the last 10 years had been about $8000 a year, whereas the company was offering well over $10,000 a year, or $10,000 with interest.

Mr. Sanborn sketched the growth and reliability of his company. It started with one small plant and had gradually added units. It had acquired new rights on Phillips canyon, which had to be developed in the near future. Plans had to be on file with the water department by the end of 1929, and unless an extension was sought construction would have to begin by the middle of next year.

City accounts for the month to the amount of $2961 were ordered paid.

Procter Ladies' Aid to Mark St. Patrick's Day

PROCTER, B. C., March 10.—A meeting of St. Andrew's United church ladies' aid was held at the house of Mrs. A. Heighton Thursday afternoon.

After the devotional period final arrangements were made for a St. Patrick's birthday party.

Tea was served by Mrs. Heighton. Those present were Mrs. C. Carne, Mrs. R. Walton, Mrs. F. Campbell, Mrs. A. Hodgson, Mrs. W. Donaldson and Mrs. George Kinney.

Early Days of Sandon Are Described Members of the Anti-Kare Club

SANDON, B. C., March 10.—The weekly meeting of the Anti-Kant club was held Monday night in the basement of the United church. The business of the meeting being quickly dispersed with, the attention of the audience was directed to a few short talks on the "Early Days of Sandon," given by Mrs. M. Thompson and Grant Cameron. Recitations were given by Stan Rudkin and Miss V. Sharpe.

Mrs. Thompson was particularly interesting, describing actual incidents as they occurred. Her talk was concluded with a reading by Robert Servis.

A guessing contest appertaining to the names of mines about Sandon was of interest. Prizes donated by a group member were won by Mrs. C. McMllan, ladies first, and Harold Russel, men's first.

Floor games were played preceding the serving of light refreshments by the group in charge.

BALFOUR NOTES

Balfour, B. C., March 10.—Miss I. McQueen spent the week-end with her parents at Kaslo.

T. E. Levasseur, Silica street, has returned from a visit to Edmonton and Calgary.

* * *

P. McGuire, mining man of Slocan City, was in town Saturday.

* * *

Mr. and Mrs. R. I. M. Powers, Thrums, were in Nelson Saturday and left that evening for the coast.

* * *

N. Dozenberger of Sunshine Bay paid a visit to town Saturday.

* * *

Jesse Sanders of Balfour spent Saturday in Nelson.

* * *

Mrs. A. Dunsmore was in town from South Slocan Saturday.

* * *

Among shoppers to town from Harrop yesterday were Mr. and Mrs. Charles Peterson.

* * *

The Excelsior club held a most successful tea and bake sale Saturday afternoon at St. Paul's church. The tea tables, under the supervision of Miss Ena Hunter and Miss Bessie MacKenzie, were tastefully decorated with daffodils and pussy willows. During the afternoon Mrs. W. Anderson and Mrs. Louis Choquette poured tea, while those serving were Miss Maud Simons, Miss Irene Laughton, Miss Katie Bebington, Miss Margaret Arthur and Miss Charlotte Notman. Miss Eileen MacKenzie was in charge of the fancy work, Mrs. A. D. Oliver and Miss Grace Laughton presided over the home cooking and Miss Emma Kahle was the cashier.

* * *

Mr. and Mrs. George McKay of Trail, who have been spending the week-end in town, guests at the home on Latimer street of Mrs. McKay's parents, Mr. and Mrs. Gregoire Choquette, leave for their home this morning.

* * *

Mr. and Mrs. W. L. Smith of Lardo were city visitors Saturday and left yesterday morning for Sand Point, Idaho, where their son resides.

* * *

Mrs. J. Norris and her daughter, Miss Betty, were in from South Slocan Saturday.

* * *

Mr. Anderson of Ymir and his daughter, Miss Muriel, motored to the city Saturday.

Mrs. William Swannel and her family left for the Coast Saturday night.

* * *

Circle No. 1 of Trinity United church held a very successful tea and bake sale Friday afternoon at the home on Silica street of Mrs. J. C. Grummett. During the afternoon the guests were enjoyably entertained by Mrs. A. H. W. Crossley, Mrs. E. Marsden and Miss Enid Etter in vocal solos, accompanied by Mrs. E. Swanson. Readings were given by Mrs. Gordon Allen and Mrs. George Simms, while Miss Edna Buchanan provided piano selections. The tea table, which was centered with daffodils, was presided over by Mrs. George Steed and Mrs. J. Lundie. Acting as serviteurs were Mrs. G. E. Sparkes, Mrs. D. H. Ferguson, Mrs. J. Woodall, Miss Frances Rowe, Mrs. E. J. Cook, and Mrs. W. Jeffs. The bake table was in charge of Miss M. E. Smith and Mrs. E. Rowley acted as cashier. The hostess of the afternoon was assisted in receiving the guests by Mrs. J. B. Stallwood.

* * *

S. Pond left Saturday to spent a week in Salmo.

* * *

Mr. LePage returned to Salmo Saturday, after a few days spent in Nelson, with his family on Silica street.

* * *

Mrs. J. Foy of Procter spent Friday in the city shopping.

* * *

Mrs. T. A. Wheildon of South Slocan paid a visit to Nelson Saturday.

* * *

Honoring her mother, Mrs. S. G. Brewester of Fruitvale, Mrs. R. A. Aldersmith Observatory street, entertained at the tea hour recently.

* * *

Mrs. Charles Moll of Rossland was a visitor to the city Saturday.

* * *

Carl Nystrom of Ymir spent Saturday in town.

* * *

W. W. Powell, who has been in Nelson for several days, left Saturday morning for his home in Spokane.

* * *

F. R. Rotter of Rotter's Spur, spent the week-end with his family in Fairview.

* * *

Mrs. J. L. Purdy of South Slocan was a city visitor Saturday.

* * *

Mr. and Mrs. N. Murphy, Kerr apartments, have as their guest, Mrs. Harry Burns of Canal Flats.

* * *

The Misses Marjorie and Murriel Russel of South Slocan were visitors to town Saturday.

* * *

Mr. Tattrie of Silverton spent Saturday in the city.

* * *

I. Hanna, Cedar street, left yesterday morning for a visit to eastern Ontario.

* * *

A very pretty wedding took place Friday at the home of the bride's aunt, Mrs. W. Langlands of Trail, when Katherine Lock, daughter of Mrs. Horace Lapointe of Nelson, became the bride of John R. Holland, son of Mrs. J. E. Holland of Trail. The ceremony was performed by Rev. H. P. Humphreys. The bride was becomingly dressed in a gown of duchess satin trimmed with tulle, and carried a bouquet of pink carnations and lilies of of the valley. Mrs. R. G. McTeer, matron of honor, wore a pale shell pink taffeta frock with a picture hat of crepe de chene to match. P. Norris of Trail, brother of the bride, supported the groom. The bride was given in marriage by her uncle, W. Langlands. Only immediate relatives and friends witnessed the ceremony.

* * *

Saturday night, E. G. Matthew entertained at four tables of bridge at his home in Rosemont, when his invited guests included R. E. Norton, E. L. Buchanan, A. D. McLeod, W. J. Gerbracht, John Cartmel, D. D. Townsend, Dr. E. L. Reid, W. M. Walker, Harry Ferguson, John A. Ferguson, J. Holland, P. H. Sheffield, Eugene Poulin, Robert Crerar, Dr. H. H. Mackenzie, W. M. Myers and W. J. Sturgeon.

Direct from New York, or other Eastern Centers. These are among the really smart Hats shown this season. They come in all the new shapes and in lightweight straws or Novelty Silks. Many with scarfs to match. EACH $8.50, $10.50 TO $15.00.

SALMO NOTES

SALMO, B. C., March 10.—Mrs. G. G. Fair entertained a number of the younger set at her home Tuesday, cards being the feature of the evening. The high score was held by Mrs. G. Leahy. Mrs. M. Lindow held the low score. The invited guests were the Misses F. Sapples, K. Sapples, M. Lindow, M. Riesterer, M. Harrop, G. Leahy, C. Hauson, H. Grutchfield, J. Fair, G. G. Fair and Mrs. E. Nord.

Mrs. W. C. Gelling of Rossland is spending the week here as the guest of Mrs. C. Lindow.

Mr. and Mrs. W. R. Henley entertained a number of friends at bridge Thursday. Their guests were Mr. and Mrs. C. W. Lindow, Mr. and Mrs. H. Johns, Mr. and Mrs. W. C. Gelling and Mr. and Mrs. J. Linnes.

The home of Mr. and Mrs. M. C. Donaldson was the scene of a jolly party Thursday afternoon when their oldest daughter, Peggy, entertained a number of her girl friends in honor of her twelfth birthday. Her guests included Betty Bustin, Merle McCaslin, Stella and Hazel Darey, Mary Feeney, Mary Miller, Olive and Doreene Fais, Patsy and Lydia Henley, Kathleen Hearn, Eliza Finley and Shirley Donaldson.

Mr. and Mrs. M. Stevenson and family left Thursday for Ymir, where they have taken up residence in the Cosmopolitan hotel.

Mrs. R. Stewart spent Tuesday in Nelson.

PROCTER NOTES

PROCTER, B. C., March 10.—G. Ashley spent Thursday in Nelson.

Mrs. J. Fay spent Friday in Nelson.

Miss Iris Cronin spent Saturday in Nelson.

Mrs. F. Campbell arrived at Procter Wednesday from Ainsworth. She is the guest of Mrs. R. Walton.

Miss Eleanor MacCallum spent Saturday in Procter, the guest of Mrs. R. Walton.

Miss Leslie Montgomery and Miss Ruth Heath arrived at Procter Friday to spend the week-end visiting Mrs. G. Kinney.

Tom Williams left Saturday for his home in Nelson.

Nakusp Institute Backs Resolution on Health Clinics

NAKUSP, B. C., March 10.—A meeting of the women's institute was held Thursday afternoon at the home of Mrs. J. Parent, Sr.

Those present were Mrs. G. H. Gardner, president; Mrs. H. W. Herridge, secretary pro tem; Mrs. Grigg, Mrs. J. Parent, Jr., Mrs. Hiltz, Mrs. Thurgood, Mrs. Howarth, Mrs. Millar, Mrs. Sutherland, Mrs. Fowler, Mrs. Harvey, Mrs. Johnson, Mrs. Clingsmith, Mrs. Doxy, Mrs. Baird, Mrs. Kershane and Mrs. Parent.

The resolution regarding communicable diseases and maternal and infant mortality in child-birth, as well as the medical inspection of school children throughout the smaller towns and villages and rural areas of the Dominion, was passed.

Members of the institute accepted an invitation to spend the evening of March 20 at a concert to be held in the opera house.

Report from the president, Mrs. Gardner, on the bridge party held Friday, showed $15.50 was raised for the Eileen Anderson fund.

The following committees were formed: Cemetery, Mrs. Gardner, Mrs. Carruthers and Mrs. Parent; visiting committee, Mrs. Parent and Mrs. Fowler; hospital, Mrs. Fowler and Mrs. Sutherland.

Home-making of rugs was demonstated.

A solo by Mrs. Howarth was greatly appreciated.

Afternoon tea was served.

HARROP NOTES

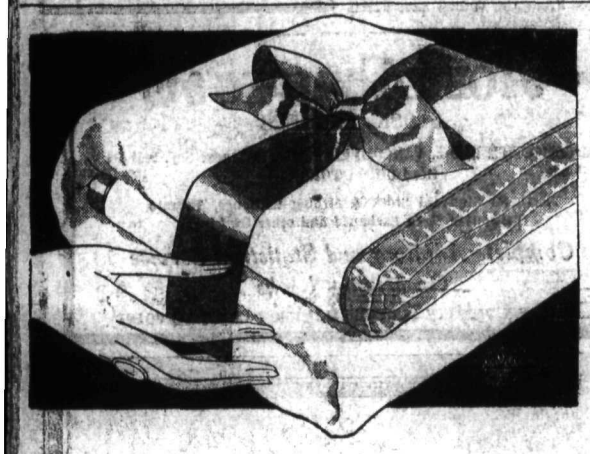
HARROP, B.C., March 10.—Miss Helen Quin entertained at a small bridge Wednesday afternoon. Those playing were Miss L. Grant, Miss Jessie Harrop, Miss S. McIntosh, Miss K. Renton, Mrs. E. D. Serres and Mrs. C. Peterson. L. O. Serres, Mrs. W. W. Britton Mrs. C. D. Ogilvie returned to Trail Tuesday evening.

Bertie Simons left Tuesday morning for his home at Divide, Sask., having spent the winter with Mr. and Mrs. F. Andrews.

W. J. Ashley of Nelson spent Wednesday here.

F. H. Smith, who has been wintering in Vancouver, arrived at his ranch, Kilkare, Tuesday.

Velvet nightdresses are a new Paris fancy.



Lux keeps them new-looking

more than twice as long!

HOW do you keep them so soft and fluffy?" says the young housewife. For the Lux-washed blankets of experienced housekeepers are not a bit like the ones that come through ordinary washings!

Many soaps, whether flakes, chips or cakes, contain harmful alkali which dries up the delicate wool fibres—makes blankets hard and shrunken.

With pure Lux suds, blankets are washed easily and safely—woolly nap kept downy, lusciously soft—for years!

At the touch of hot water, the tissue-thin Lux diamonds dissolve completely, foam up into rainbow bubbles. Add cold water, then press the lovely lukewarm suds through the blankets—soil and dust are carried away. Rinse in two or three luke-warm waters, then gently squeeze out. Now the blankets are ready to hang in a warm (not hot) place to dry, soft as new.

To keep your blankets like new, always use pure Lux, sold only in the blue box!

If it isn't in the blue box it isn't Lux

ILS AT TORONTO A MIXED PICTURE

ew Operations Strong on Whole While Older Established Show Declines

TORONTO, March 10.—Light trading n a narrow margin, with no significant moves in either direction featured e stock exchange's short session turday.

International Nickel opened at 62, ned three-quarters of a point, then ped off for a quarter-point loss the day's trading.

Noranda slipped down a quarter point 61.

The oils presented a mixed picture. ome Oil took an adverse turn following its $24 peak on Friday. With drop of $4 a share, it closed at 0. Foothills, on the other hand, ntinued to soar. By adding another cents it closed the day at $10, its ghest to date.

The more firmly established oils re inclined to be uncertain. North tar and Super Test recorded gains, hile Dominion, Imperial and the nadian Oil companies scored losses. Apart from a 3-point drop in Dominion Stores to 148, there were no her losses of significance.

Among the gains for the day were perial Tobacco, up one to 11¼; mpson's Preferred, a gain of 3 points 108; Goodyear Tire, 5, up to 295.

LUCTUATIONS IN TORONTO NARROW

Home Oil Down $4 From Friday Close; Ontario and Manitoba Mines Change Little

TORONTO, March 10.—With half a zen exceptions, stocks on the Standard Mining exchange moved within extremely narrow margins Saturday.

Home Oil, outstanding feature of the revious day, opened unchanged at 24, but fell back rapidly to an extreme low of $19.50 and later rallied $20. Dalhousie Oil declined 25 nts to $3.40. Wainwell ranged from cents to 43½ cents, with final ansactions at 41 cents steady with e previous close. Southwest Petroum sold up to a peak of $3.50 and nished at $3, a gain of 25 cents.

International Nickel receded to 1.75, a loss of 75 cents, Falcon Bridge Nickel was also 75 cents lower. Sudbury Basin touched $12 and ended at $11.85, up 15 cents. A broken lot of Treadwell Yukon came out at $15.50, down $1.

Noranda fluctuated between $61 and $61.25, closing at the latter mark, a loss of 20 cents.

McIntyre made a gain of 25 cents to $21.50, and Dome 20 cents up to $20. Teck Hughes advanced 25 cents to $9.50, while Wright Hargreaves was 28 cents better at $2.18.

Manitoba Basin was, as usual, very active, ranging from 69 cents down to 67 cents, a decline of 2 cents. Hudson Bay Mining was 10 cents higher at $21.10. Sherritt-Gordon moved up 10 cents to $9.40.

Big Missouri advanced 2 cents to $1.75. Premier eased 5 cents to $1.90. Pioneer made a gain of 5 cents to 55 cents.

TRADING IN OILS IS HEAVY UPON VANCOUVER MART

Mines, However, Are Relatively the Stronger; Reeves, Misby Death of Cousin

VANCOUVER, B. C., March 10.—Trading continued in heavy volume on the stock exchange with oils again showing the way in volume of trading. Several of the mines were stronger with early gains. In the oils price changes were mixed. Home, opening unchanged at $20, sold down to close at $19.25 for a net loss of 75 cents, but trading ranged between the opening and $19.50. A. P. Consolidated was again the heaviest trader and scored an advance of 11 cents, to $3.11.

Devenish Petroleum moved up 12 cents, to $1.12; Illinois Alberta 13 cents to $1.83; Mayland 25 cents to $6.50; and McLeod 5 cents to $4.80. Dalhousie was steady at $3.45, and Calmont 10 cents to $1.95. Fabyan turned over to the extent of 85,000 shares between 14 and 16, closing unchanged at 14½.

In the mines, Reeves McDonald was strong, finishing 15 cents higher at $3.85; Big Missouri moved up 20 cents to $1.70; and Kootenay King 8 cents to 51. Planet Mines gained 5 cents to 85 and Cotton Belt 2 cents to 65. Pend Oreille ranged between $12 and $12.25, closing at the former figure for a net loss of 15 cents. Mixed gains and losses extended through the balance of the list.

CEMENT LEADS MONTREAL BOARD

For First Time in Months International Nickel Second; Papers Strong

MONTREAL, March 10.—With the exception of a wave of buying in a number of selected issues, in reflection of spectacular developments, the Montreal stock exchange in Saturday's brief session continued in the dull and irregular manner of recent markets.

For the first time in months, International Nickel failed to lead in activity, that position going to Canada Cement, while Nickel came second with a turnover of 5700 shares. The stock moved within an extremely narrow price range, and closed ¾ lower at 62. Canada Cement and Lyall Construction both gave firm and active displays. Cement had a turnover of 8270 shares and closed ¼ higher at 34. Lyall had sales totalling 3115 shares and closed at 63, for a net gain of one point, after touching the new high of 65.

The paper stocks were quiet, but for the most part firm. Abitibi was steady at 45; Brompton touched the new high of 49, and closed at 48½, for a net gain of ½ point. Canada power & Paper was unchanged at 30 and Wayagamack sold up two points at 84.

GRAIN SHORTS BUY SELVES FROM HOLE

Their Frantic Bidding Shoots Up Wheat and Corn Prices in Chicago Pit

CHICAGO, March 10.—Wheat prices ran up like a steeplejack Saturday and corn followed in quick order. Speculators discovered they had sold themselves into a hole, and that to get out before the week-end they had bid against each other at such a lively rate as to force a sharp increase in values.

Closing wheat was strong 1⅝ to 2c to a bushel net higher. Corn finished ⅞c to 1⅛c up. Oats unchanged to ⅝c advance and provisions unchanged to a rise of 12 cents.

Low (1929)	201.8	132.6	193.1

NEW YORK, March 10.—Stock prices were churned about in erratic fashion Saturday but, except in a handful of issues, *the day's net changes were* negligible. The market opened with a surprising outburst of strength, turned reactionary in the last hour, and then made irregular recovery.

Call money was not a direct factor in today's market because the Friday rate carries over the week-end, but credit conditions continued to receive widespread attention in brokerage and banking house comment. Retention of the 4½ per cent rediscount rate by the San Francisco federal reserve bank generated some bullish enthusiasm on the theory that the New York federal reserve bank would not increase its charge until all other central bank rates had been brought to the 5 per cent level.

However, the recent decline in sterling, threatening a further drain on Great Britain's gold, is likely to result in another increase in the Bank of England rate, which undoubtedly would draw foreign funds from New York.

Most traders confess they are completely at sea regarding the credit situation and outlook. While many veteran observers point out that stocks yielding 3 to 4 per cent or less can not be carried indefinitely on margin at the recent call rates of 6 to 12 per cent, stock market operators continued to show defiance to the federal reserve authorities in their effort to curb securities inflation by bidding up many issues to new high records.

Radio issues were again the spectacular feature. The old stock fluctuated widely and closed at 461. The new stock closed at 92, up 3 points net. Western Union touched a new high record at 220¾, broke to 213 and rallied to 215, up 2½ net.

Kennecott Copper was heavily bought in the late trading, touching a new high record at 99½. Miami Copper advanced 2 points. On the other hand, Anaconda fell 2½ points, Greene Cananea 1⅝, Andes ½ and American Smelting and Cerro de Pasco yielded fractionally.

Wide swings took place in some of the higher priced specialties. Adams Express and Burroughs Adding Machine jumped 89 and 11¾ points respectively, on one sale each. Brooklyn Union Gas soared 7¾ points and Crossley Radio, Commercial Investment Trust, Mandel Bros., Allied Chemical, Gillet Safety Razor and People's Gas moved up 2 to 5¼ points.

Baltimore and Ohio, International Combustion, International Harvester, Southern Railway and Vanadium were conspicuously heavy.

Tulsa — McCuster, Trapp, Graham, Keats, Shepherd, Marxer.

Subs—Lafrance, Cook, Johnson, Wakeford, Moran.

CANADIENS AND COUGARS CANNOT BREAK THE TIE

No Score Until Overtime, When Each Team Gets a Single Marker

DETROIT, March 10.—The last game of the season between the Detroit Cougars and Montreal Canadiens here tonight proved to be the most sensational of the year, ending in a tie, 1-1, after an overtime period that never has been excelled here for entertainment. Nearly 14,000 people, a record National league crowd, saw the battle.

Howie Morenz scored for the Canadiens with three minutes to play on a lone rush. Reg Noble got a break and slipped a shot from along-side the net to beat the goalie.

Summary:

First period—No score.

Second period—No score.

Third period—No score.

Overtime period—1, Canadiens, Morenz, 7:30; 2, Detroit, Noble, 1:00.

St. Francis Xavier Quebec Champions; Now for Maritimes

MONTREAL, March 10.—The St. Francois Xavier intermediates will carry the hopes of Quebec into the Allan cup playdowns. The Saints won the provincial amateur hockey championship when they held Victorias, senior Quebec champions, to a one-all tie in the second game of a home and home series here today.

The winners won the first encounter 5 to 3, thus taking the round by a score of 6 to 4.

St. Francois leaves here for Halifax tomorrow morning when they play Bathhurst, maritime champions.

ST. PAUL DEADLOCKED WITH KANSAS CITY

ST. PAUL, Minn., March 10.—St. Paul and Kansas City remained deadlocked for third place in the American Hockey association by playing a 1-1 overtime tie here last night.

Kansas City has finished its league schedule while St. Paul has two games to play. The Saints need only a tie game to gain one point and thus nose out Kansas City for third place and a berth in the league play-off series for the championship.

LINE UP:

St. Paul — Stark, Gohen, Nicholas, Dejardines, Wilson, Ingram.

Subs—Milligan, Romnes, Rennie, Conroy, Capen.

Kansas City—Byrne, McLeod, Dutkowoki, Mitchell, Scott, Dunfield.

Subs—Lessard, Campbell, McCormick, Ranger, Munro.

DULUTH HORNETS STUNG BY MILLERS

DULUTH, Minn., March 10.—Duluth finished its home season here last night by dropping a slow and uninteresting American Hockey association game to Minneapolis, 3 to 0. The Hornets were powerless before the steady defense presented by the Millers, together with brilliant work by Winkler.

LINE UP:

Duluth — Turner, Davies, Williams, Koski, Merrill, Bergle.

Subs—Thorsteinson, Goodman, Morrison, Jamieson.

Minneapolis—Winkler, Bostrom, Benson, Gordon, Hill, Crawford.

Subs—Adams, Stanley, Garrett.

NEW YORKER TAKES THE CANUCK SQUASH TITLE

MONTREAL, March 10.—H. Rawlins, of New York, won the Canadian squash racquets championship, by defeating R. Powers, of Boston, in the final match here tonight. Rawlins won in three straight games: 16-5, 15-5, 15-6.

MILLIONAIRES BEAT LOWLY CATARACTS

HAMILTON, Ont., March 10.—Harry Holmes' Toronto Millionaires tightened their grip on a play-off berth in the Canadian Professional Hockey league here last night with a 2-1 verdict over the lowly Niagara Falls Cataracts.

BATHURST VICTORS

BATHURST, N. B., March 10.—Bathurst won the amateur hockey championship of the Maritime provinces here tonight holding the Halifax Wolverines 2 to 2 in the deciding game of the series. They defeated the Wolverines one to nothing at Halifax Tuesday night.

GRANITE-POORMAN BIG TUNNEL WILL TAKE ABOUT YEAR

Big 4000-Foot Adit to Be Followed by Crosscut to Cut Six Veins

SMITH AND FOX WILL USE LATEST METHODS

Company to Renew Water Lines; No Mill Work Until the Ore Is Opened

With letting of a contract to H. R. Smith of Vancouver and F. H. Fox of Nelson, for a 4000-foot adit tunnel into the base of the mountain, to be the avenue for deep development for the company's six gold-bearing veins, Granite Poorman Gold mines, organized last year and now financed for a year's development work, is launched upon its big program for attacking its numerous ore bodies from beneath.

Aside from paying for the big tunnel, which is to be seven by eight feet, the company's only other current outlay will be fore replacing the flumes from Sandy and Eagle creeks with wire wound wooden piping.

When the big tunnel is completed, at a point under the approximate center of the veins, a year or so from now, it is expected that money will be in the treasury for the crosscut to cut all the veins at depth, and to raise on the Granite ore to the old workings, through which the Granite and Poorman, which are connected by their workings, will be drained, making available extensive stoping ground already existing. Engineers' reports show $250,000 worth of ore now blocked out in the Granite.

IN UNDER ALL VEINS

The "big bore," which starts from the mill level, is going in between the Poorman and Granite veins. The crosscut to follow later, and which may be driven either by the company, or by contract, will go both ways, to the right or lower side of the mountain cutting successively the Poorman, Hardup and Harscabble veins, and to the left or upper side, the Granite, Greenhorn and Beelzebub veins. Five of these veins have been independently developed, all yielding pay ore; while the older ones have been mined at intervals over a period of 30 years or so. The deep work will give 600 feet depth below the bottom of the 1000-foot inclined shaft on the Granite vein, and proportionately in the case of the others.

ORGANIZING THE JOB

Mr. Fox, who is the working partner in the contract tunnel driving, moved out Thursday to the mine, which is four miles below Nelson, his present crew of five men going on the job a day earlier, to put the camp buildings in shape for immediate occupancy. From the tunnel site, which is on the upper side of the Granite road out of Nelson a trestle will be built 150 long to cross the road to a dump site beside the 20-stamp mill of 75 tons capacity. Within a month, or earlier, the crew will be enlarged to 15 men, and tunnel driving will commence from the site which was stripped and fazed last August, when an open cut was made for 18 feet. This brings the work into the formation and from the first shot the work will be in solid rock.

While it may take the company two or three months to lay its 4000 and 2000-foot pipe lines from Sandy and Eagle creeks a little patching to one of the existing flumes will make water available for Mr. Fox's immediate purposes. The mill plant has both electrical and water power attachments, and both kinds of power may be made use of for the tunnel work. Compressors at the mill have a combined capacity of over 3000 cubic feet of air, sufficient for nearly a score of drills.

USE LATEST EQUIPMENT

Working two shifts, Mr. Fox expects to make 10 to 12 feet per day, the rock being granite, and he figures that the tunnel should be completed in 13 or 14 months. The air for ventilation will be taken into the tunnel in wire wound pipe a foot in diameter, and electrically driven booster fans will be installed at intervals. After 00 or 400 feet, a mechanical mucker will be used, and the waste rock will be brought out by electrical haulage, a storage battery locomotive having been purchased for this work.

In going in, the tunnel will pass through the Golden Queen claim, purchased last summer from George Marral, and at 1500 feet should cut this vein, which has surface gold showings of its own, the Golden Queen vein belonging to a different vein system from the Granite-Poorman series.

Unless important ore should be opened in this vein, or in blind veins not now known, the company does not expect to touch the mill until the development program outlined "brings in" the ore of the Granite-Poorman series.

Fred A. Starkey, resident manager of the company, states that stock subscriptions are being received from various residents through the Granite area who are familiar with the property from having worked in it.

It is the general belief in the district that the present program, which will give great depth on all the ore bodies, mine the ore from below without pumping and hoisting necessary under all previous operations, deliver the ore at the mill without aerial trams, and use large scale methods, will result in one of the large permanent operations of the Kootenay.

ior Rep Hoop Team to Practice Signals Tonight

son's senor B representative hoop will turn out at the new junior school gym at 7 o'clock tonight half hour of signal practice. officials have stressed the im- nce of having the players out at the starting time as the must be vacated for the opening s of the second half of the senior y league at 7:30.

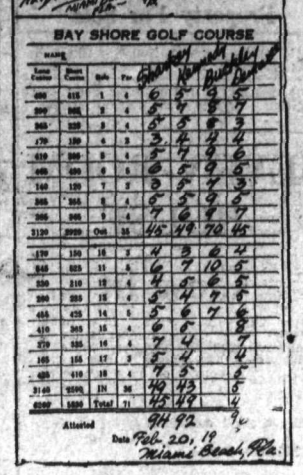
players worked out Friday night the coaching of A. A. Pagdin, tly appointed team coach and in. They were n fine shape and n lined up several players who urn out tonight.

players are: "Scotty" Notman and ly" Martin, center; Al Jeffs, Ken Orville Shugg and "Roddy" Mc- forwards; "Deacon" Hanna, Bill , Gordon Roynon and Dave Lan- , guards.

TREAL VICS WIN PRELIM ROUND 17-2

NTREAL, Que., March 10.—Vic- won the right to enter the nion junior hockey playdowns by ting the Sherbrooke district win- Stanstead college, 9 to 0, on day in the second game of the and home series. The junior won the first game at Sherbrooke 8 to 2 count, thus taking the 17 to 2.

Pugilists and Managers Fall For Golf Bug



By AL DEMAREE

(Former Pitcher New York Giants)

Jack Sharkey, the fighter, is the latest athlete to take up the Scottish pastime.

Golf is certainly becoming the universal sport, where exponents of every line of atheletics meet on a common ground.

Amoung the fight managers, Leo P. Flynn is in a class by himself when it comes to golf, and Buckley probably the worst.

Nearly all the ball players, with the notable exception of Rogers Hornsby, play golf whenever they have the opportunity, and the contagion is fast spreading to the boxers, swimmers, tennis players and track athletes.

Babe Ruth takes as much pride in a long tee shot or an iron shot to the green as he does in knocking out a home run in a world series game.

It's a great game. Once a man starts playing it he never quits.

OLD COUNTRY FOOTBALL RESULTS

LONDON, March 10—Scheduled league football games yesterday in the British Isles resulted as follows:

ENGLISH LEAGUE

First Division

Aston Villa 1, Birmingham 2.
Burnley 2, Derby 2.

NEWCASTLE HALTS SUNDERLAND IN LEADERSHIP TRY

Fifty-five Thousand See Gallacher Head Winning Goal Into Sunderland Net

SIXTY THOUSAND SEE BIRMINGHAM DO VILLA

Bradford City Scores Eight Goals in Match with Barrow; Four By Whitehurst

LONDON, March 10.—No change at the top of the averages was made by Saturday's matches in the English Soccer league. The leaders are The Wednesday, first division; Middlesboro, second division; Northampton, third division, southern section; and Stockport County, third division, northern section.

The feature match in the first division was Sunderland's battle at Newcastle. The former team were halted in their attempt to draw close to the Wednesday. Fifty-five thousand people witnessed the game and got lots of thrills, seven goals being counted, of which Newcastle had four. Gallacher got the winner two minutes from time, when he headed into the Sundeiland net.

GREAT GAME AT VILLA PARK.

Sixty thousand people saw Aston Villa get a beating from Birmingham at Villa park. The first half was open and even, each side scoring. The Villa pressed after resumption but in a counter attack Crosbie got a fine pass from Briggs and scored in the twentieth minute. Villa worked hard after that but could not find an opening.

A ground record was broken at Southampton, where Chelsea pulled off a neat victory by two goals to one. Twenty-four thousand were in attendance. The pensioners were the stronger team in the second half, in which all the scoring took place.

Crystal Palace again demonstrated that they are a very powerful team, by defeating Northampton by the one goal scored. The tally was earned by Butter in the second minute of play.

The star in the match between Bradford City and Barrow was Whitehurst, who scored 11 goals last week. His contribution to Bradford City's eight tallies Saturday was four.

BLACKHAWKS GET ONLY COUNTER IN GO WITH PIRATES

Ripley Scores on Rebound When Goalie Miller Stops Shot by Gottselig

FORT ERIE, March 10.—In a tame National Hockey league game here Saturday night, Chicago Blackhawks defeated the Pittsburgh Pirates, 1 to 0. The lone score was made by the Hawk ace, Ripley. Johnny Gottselig coralled the puck back of the Chicago net and rushed the length of the ice to drive a hard one at Miller. The Pirate goalie made a brilliant stop but could not handle when Ripley let fly when he secured the rebounding puck.

SENIOR, JUNIOR HOOPERS RESUME LEAGUE TONIGHT

Senior Games at Junior High Tonight; Intermediates Resume Wednesday

High school basketeers will battle tonight with the Wolves, and the McLearies will tackle the Fairview squad, opening senior B men's games in the second half of the Nelson Basketball association's league schedule at the new junor high school gym. Fairview and the high school will open the junior division at the Central school tonight at 8:30. The senior games at the junior high school will get under way at 7:30 and 8:30.

The intermediate division will resume play Wednesday, when Fairview and the Wolves will clash at 8:30 at the high school.

Wednesday will also see two more senior B games and a junior game. Old Timers will battle High School and Checker Boys will tangle with the McLearies in the senior games at the junior high school, while Pirates and Callies will battle in the junior game at the Central school.

MISS WEIR WINS EAST FLORIDA GOLF TITLE

ST. AUGUSTA, Fla., March 10.—Miss Ellen Van Weir, Chicago, won the East Florida golf championship by defeating Mrs. Helene Hitches of New York, 3 and 2, in the finals Saturday.

Travelling With Nelson Cubs En Route Calgary; Much Music; Challenge Canadiens to Marbles

CRANBROOK, B.C., March 10.—(En route to Calgary with the Nelson Cubs)—Full of pep and optimism, 10 members of the Nelson Cubs hockey team are the life of the train rolling Calgary-ward tonight. Thus far there has not been a dull moment.

The boys are not wanting for entertainment. Besides being hockey players, this bunch of juniors, British Columbia champions, are an accomplished lot when it comes to music. No less than three banjo-ukeleles are among the crowd, and there are some real mouth organ players.

Traveling in a private parlor car the boys, to the accompaniment of the ukes and mouth organs, about exhausted all the old-time tunes, even including "Moonlight and Roses." The club musicians are Wilfred Lauritz, Carl and Cecil Ramsden and Walter Gillette. George Marshall has definitely proven that as well as carrying the puck, he can carry a tune. Aboard the Nasookin the boys surrounded the piano and made merry. It was indeed a happy throng of young athletes.

CALGARIANS HEAVY

The Cubs are taking the Calgary games seriously and hope to send home favorable reports on Tuesday and Thursday. Advance information received on the train is that the Calgarions are a much heavier aggregation than the Cubs. "Bigger they are the heavier they fall," say the boys.

Everywhere along the route the boys are being wished the best of luck, showing the interest taken in the Kootenays in the junior series. Best two out of three games will decide the series.

Eddie Foulin's Calgary Canadiens are recognized in Alberta as the premier junior aggregation of years. They have gone through the season without a loss. They played 11 league games and scored three shutouts. One game was a draw.

Coming into Yahk the boys got a real thriller when the Spokane International and the C. P. R. train on which the Cubs were travelling had a race for about two miles. The Spokane, backed by Joe Ramsden, won out.

TEAM CROSSES LAKE

That Moyie lake was a solid mass of ice of great thickness was demonstrated to passengers on the eastbound train today when a team of horses pulling a loaded sleigh was observed crossing the lake. Indications at the old mining city are that considerable ice has been cut. Steady rain does not seem to have weakened the ice any.

Cliff McKinnon, express messenger on the westbound train, informed the Cubs that there was no ice in Calgary, but undaunted, the Cubs promptly issued a challenge to the Alberta champs at marbles.

Rain, rain all along the line so far, and very little snow left in this vicinity.

So far Joe Ramsden and Jimmie Curran, in charge of the British Columbia champions, have had little trouble with the players, the hardest job of all, they report, is keeping the boys well supplied with pork chops, etc.

ALL BADMINTON CHAMPS BUT ONE ARE DIFFERENT

Mrs. Coke of Toronto Only 1928 Champion to Retain Her Title

VANCOUVER, B. C., March 10.—Mrs. E. F. Coke of Toronto was the only champion of 1928 who retained a title in the finals of the Canadian badminton championships, concluded Saturday afternoon at the Vancouver club. She defeated Miss Eileen George of Vancouver, 11-4, 11-2, Mrs. Coke's exhibition was one of the big features of the three-day tourney.

Three titles came to the coast and two go east.

Jack Purcell of Guelph, Ont., defeated the champion, Jack Underhill, Vancouver, in the men's singles, 15-9, 14-7, 15-7. Purcell now holds the J. K. L. Ross challenge cup for the first time, while Mrs. Coke will hold the Ottawa challenge cup.

VANCOUVER GIRL'S AJM.

Miss Eileen George and Miss Milliner, Vancouver, created a surprise by defeating the national champions, Mrs. Coke and Mrs. Boome of Toronto, 18-13, 5-15, 15-12, thereby winning the Montreal challenge cup.

Jack Muir and Noel Radford, Vancouver, played championship-brand badminton to defeat Jack Purcell and Dr. Cramer of Guelph in the men's doubles 11-15, 15-9, 15-7, earning the Quebec challenge cup.

Miss Eleen George and Jack Underhill, Vancouver, defeated Mr. and Mrs. Jack Muir, Vancouver, for the mixed doubles title and the Toronto challenge cup, 15-9, 15-6.

In consolation finals Miss L. Mowatt, Montreal, won ladies' singles, defeating Mrs. Gordon Pirt, Winnipeg, 11-5, 11-0, and the Misses Lafferty and Dupre, Quebec, defeating Mrs. Gooderham and Miss Emsley, Toronto, 15-10, 15-12.

COUGARS BEATEN BY MAPLE LEAFS

Toronto Tickled When Home Team Blanks Detroit; Probable Playoff Opponents

TORONTO, Ont., March 10.—An indication of what Toronto Maple Leafs may do in the National Hockey league playoffs was given here Saturday night when the locals decisively defeated Detroit Cougars, 3 to 0. The teams probably will finish in third places in their sections and meet in the playoffs, so Toronto's exhibition of their clear superiority was particularly pleasng to local fans.

Scoring twice in the first period, and again in the third, the locals had command of the game at all times. They should really have several markers, but Dolson's spectacular work in the Cougar cage thwarted them.

STANFORD UNIVERSITY, Cal., March 10.—Erik Krenz, blonde giant of the Stanford track and field team broke the world's record in the discuss throwing Saturday with a heave of 163 feet 8¾ inches.

High River Takes Lead on Blairmore in Alberta Series

HIGH RIVER, Alta., March 10.—High River Flyers, senior champions of Alberta, defeated Blairmore 3 to 1 here Saturday night in the first game of the provincial series. The second game will be played in Blairmore Monday night, and if the intermediate champions win, a third game will be played at Nanton on Thursday.

MARLBOROUGHS MAKE JUNIOR SEMI-FINAL

TORONTO, Ont., March 10—Marlboroughs of Toronto won their way into the junior O. H. A. semi-finals by defeating Young Rangers, Toronto, 2-1 here Saturday afternoon. The two finished in a 3-3 deadlock Friday night, and the Saturday victory gives the Marlboroughs a 5-4 verdict on the round.

HOCKEY PLAYDOWN DATES ARE FIXED BY THE OFFICIALS

Nelson Cubs Play at Calgary Tuesday and Thursday; Winners Play in Saskatchewan

ABBOTT FINALS AFTER MANITOBA PLAY

Western Finalists Meet Winners of the Winnipeg-Thunder Bay Series

REGINA, Sask., March 10.—Jack Hamilton of this city, the vice-president of the C. A. H. A., and the officials in charge of the western Canada playdowns tonight announced the dates for the junior playoffs for the Abbott cup, the western Canada championship and the right to meet the winners of the eastern honors in Toronto for the O. H. A. Memorial trophy and the Dominion title.

Nelson Cubs, British Columbia champions, meet the Calgary Canadiens, Alberta champions, at Calgary on March 12 and 14. The winners play the Saskatchewan winners, either Regina Batts or Saskatoon on March 16 and 18.

Manitoba champions, Winnipeg Elmwoods, play in Kenora or the lake heads on March 15, and back in Winnipeg on March 18.

WESTERN FINALS MARCH 20, 22

The Abbott cup finals for the western Canada junior championship and the right to play in the O. H. A. Memorial cup finals will be played in Winnipeg on March 20 and 22, the winners of the Winnipeg-Thunder Bay series meeting the western finalists.

The senior Allan cup game scheduled here for next Saturday night between Port Arthur and the Saskatchewan champions, either the Regina Vics or Moosomin, has been advanced a day, and will be played on Friday night, March 15.

Nurmi Is Reinstated and Celebrates With Countryman by Winning

NEW YORK, March 10.—Paavo Nurmi, greatest of Finland's many runners, was reinstated to good standing by the registration commission of the Metropolitan association, A. A. U. Saturday, and celebrated his return to competition by winning, with his countryman, Ova Anderson, a two-mile two-man team race at the seventh regiment games last night.

Tohill of Toronto Still Billiard King; Nearly Doubles Quinn

MONTREAL, March 10.—Tom Tohill of Toronto retained his title as professional English billiard champion when he ended his 8000-point match with James Quinn of Montreal Saturday night with a lead of 3214 points over the challenger. The final count was: Tohill, 8000; Quinn, 4786.

Tothill today expressed a desire to meet Ernest A. Leigh, Montreal, a former champion, in a 8000-point game, Tothill conceding 1000 points.

IROQUOIS FALLS WILL MEET TORONTO VARSITY

TORONTO, Ont., March 10.—Defeating Kitchener Green Shirts, Intermediate O. H. L. champions, 3 to 1, here Saturday afternoon, Iroquois Falls won the right to meet University of Toronto, senior O. H. A. title holders in the Allan Cup play-down.

The Northern Ontario Hockey association's senior champions won the round 4-3 as Kitchener had won 2-1 in the first game Thursday.

ELMWOOD TEAM TO PLAY FOR MANITOBA

WINNIPEG, Man., March 10.—The Elmwood Millionaires, city champions, qualified last night to represent Manitoba in the Memorial cup play downs here for the third consecutive season, by defeating Minnedosa—Billy Juniors 11 to 0, in a one-sided fixture. The local team was never extended.

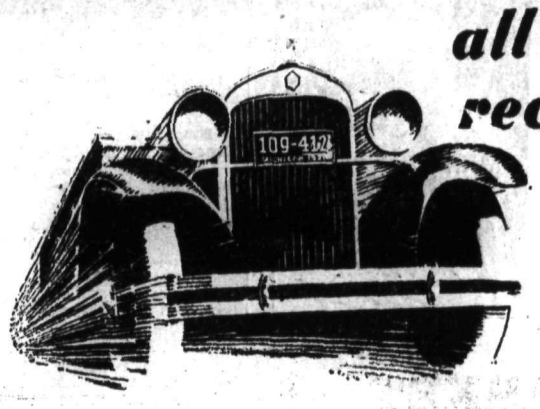
ESSEX
the CHALLENGER...sets all these records....



Wide Range of Colors at No Extra Cost
$840
AND UP
F. O. B. Windsor
taxes extra
Coach, $840; 2-Pass. Coupe, $840; Phaeton, $840; Coupe (with rumble seat), $875; Standard Sedan, $960; Town Sedan, $1025; Roadster, $1025; Convertible Coupe, $1080.
Standard Equipment includes: 4 hydraulic shock absorbers—electric gas and oil gauge—radiator shutters—saddle lamps—windshield wiper—rear view mirror—electrolock—controls on steering wheel—all bright parts chromium-plated.

during Nation-wide CHALLENGER WEEK

SPEED—As fast as you dare drive.
RELIABILITY—As long as you wish to drive at 60 miles per hour.
ACCELERATION—From 10 to 70 miles in 17 seconds.
ECONOMY—Over 20 miles to the gallon of gas.

Above we show some of the local records, officially observed by newspaper men, which Essex the Challenger established during Nationwide Challenger Week. Owners here, and owners by thousands all over the country, have duplicated these tests, or, at least, verified the capacity of their own Essex the Challenger to reproduce any or all of these proofs.

IN FAST GET-AWAY—no car is excepted. IN SPEED—anything the road offers up to 70 miles an hour. IN HILL CLIMBING—against any car you choose. IN APPEARANCE—match it for smartness with costlier cars. IN EASE OF DRIVING—note smoothness of motor—ease of steering—roadability and effectiveness of brakes. IN ENDURANCE—60 miles an hour all day long is well within its range.

One million owners know the special advantages of the Super-Six. They are best qualified to compare the Essex the Challenger. To them we offer first opportunity to test the most powerful, the largest, roomiest, smoothest, easiest riding—most complete Essex ever built. But all motordom must be astounded that even with seventy-six notable improvements, the price is the lowest in Essex history—a price but little above the lowest-priced car on the market.

Watch ESSEX the CHALLENGER

An Essex Challenger won the trophy offered by the Oakland, Cal., Post-Enquirer, for the fastest time up Mt. Diablo. It climbed the 11-mile tortuous twisting trail in 23 minutes, 43 1-5 seconds. A remarkable demonstration of its perfect balance and sturdy construction.

New Cars Now on Display

FERNIE GOLFERS REDUCE DEFICIT OF CLUB $750

Make Reduction of $250 in Year; to Buy New Mower; Drive for Members

FERNIE, B. C. The annual meeting of the Fernie Golf and Country club was held in the council chambers Wednesday.

The retiring president, A. B. Sanborn, gave an account of his stewardship.

The Stewart Cup competition had been the only one to be played through to completion. The Herchmer Cup had been started but not finished. The Liphardt Cup was not even started. This was in accordance with the procedure of the previous years. The ladies' competitions were played more completely.

TOURNEY SUCCESS

The Crow's Nest Golf association had been the guest of the local club at the district tournament. This was well attended. The club emerged from this venture with over $50 on the right side of the ledger.

On Labor day an invisation tournament was held. There were few entries in this but it was, nevertheless, a financial success.

The services of Mr. Ellidge, the greens-keeper, were highly satisfactory. The equipment was in fair shape except for the mower which must b replaced.

The tennis courts had been well kept during the year. The regular expense of tapes and surfacing was greater than need be last year.

Some bunkering and lengthening of holes had been done.

It had not been wholly satisfactory having the ladies' organization incorporated with that of the men. The ladies would prefer their own association.

FEES DROP

The fees had dropped $300 as compared with the previous year. The deficit at the first of the year had been over $900. The present deficit was $750. This was too little reduction in the deficit, he said.

An executive meeting had been held a few days previously and had drawn up recommendations for the incoming executive to put before the meeting. The president thanked his executive for its help and commended the excellent serivces of the secretary.

J. S. Irvine reported for competition committee. Explaining the men's competitions, he said the two-ball foursome was a difficult competition. Too many people did not turn up to play in it.

NEED NEW MOWER

Sherwood Herchmer, giving the report of the green committee, stated himself and Mr. Hayne comprised the committee. The course was now long enough, well laid out, and in good condition for continued play. A new mower was needed, as the greenskeeper spent more time mending the machine than cutting grass. With a new mower the rough could be kept cut and conserve the players golf balls. No other expenditure was needed on the greens.

The president called attention to the fact that the mower had cost, in repairs and keeper's time, over $200, which was a large fraction of the cost of a new mower.

E. K. Stewart moved that the executive should be increased by two men members. This was done to so augment the executive that it would enable the ladies to withdraw and form their own organization, or appoint representatives to the general executive at their option.

The following officers were elected: Honorary president, W. R. Wilson; honorary vice-president, J. L. Gates; president, Donald M. Mitchell; vice-president, Charles Bennet; members of executive, A. B. Sanborn, ex-president exofficio, Stanford Wilson, E. K. Stewart, Sherwood Herchmer, J. S. Irvine, N. E. Suddaby, Dr. Kelman, F. Perry and J. R. Wallace.

The tennis players will be asked to appoint two representatives to this executive, making 13 in all.

The meeting authorized the purchase of a new triple, horse-drawn mower at a cost of $750. There was a great deal of discussion on this. Some wanted a tractor form of mower, but it was pointed out that the horses cost only their feed, which was not comparable with the cost of operating a motor. The executive was ordered to see that the rough was kept well cut and certain fairways widened so that in future the lost ball nuisance would be kept at a minimum.

As a number of excellent players both men and women, had been lost to the club last year through families removing from town, it was decided to put on a drive for new members. In view of the initial expense for clubs and other equipment it was decided to admit green members to all priveleges of the Country Club for one year at a special reduced fee. Other fees will be the same as last year.

PEARCE BATTLES BONNERS FERRY TOMORROW NIGHT

Will Tackle Jack Berg of Sandpoint; May Box McCormack of Kellogg

Dean Pearce, manager-trainer of George Harlow, Nelson heavyweight, will leave tonight or tomorrow morning for Bonners Ferry, where he will battle Jack Berg of Sandpoint in the main event of a boxing card tomorrow night. Eddie Bush of Creston, a protege of Pearce, will appear on the card in the semi-final.

"Chuck Snyder of Kellogg, Idaho, whence Pearce hails, is negotiating with Pearce to meet George McCormack, snappy welterweight of Kellogg, in a 10-round main event. If terms can be arranged, Pearce will go from Bonners Ferry to the Idaho city direct. He will be accompanied to Bonners Ferry and probably to Kellogg by George Harlow.

WILL BE COMEBACK

If the Pearce-McCormack bout is arranged, it will be a comeback for both battlers after a year of no real tough battles. Pearce has confined his boxing for the past year to keeping Harlow in shape and battling one or two short bouts. He knocked out Mike Scherrup in the first round at Creston recently.

McCormack is battler of no mean ability. He knocked out Young Firpo, well-known welterweight, in two rounds; *Jimmy Cottrell of Spokane*, well known in Nelson, in seven rounds, and Jimmy Sacco, anothery widey known scrapper, in six rounds.

Barrow Omits Hornsby From All Star Team

By AL DEMAREE

(Former Pitcher New York Giants)

Sinister Ed. Barrow, secretary and general manager of the N. Y. Yankees, says that Hans Wagner is the greatest baseball player of all time and I agree with him.

"Wagner could do more things better than Ty Cobb, who was only an ordinary fielder and thrower," says Barrow. "Babe Ruth is a great player, but not in a class with Wagner, La Joie, or Cobb."

Barrow, who has seen practically all the great teams of the National and American leagues since the days the Baltimore Orioles, names his all time lineup as follows:

First Base—Hal Chase
Second Base—Larry La Joie
Third Base—Jimmy Collins
Shortstop—Hans Wagner
Left Field—Ty Cobb
Center Field—Tris Speaker
Right Field—Babe Ruth
Catcher—Ray Schalk
Pitchers—Walter Johnson, Mathewson, Pennock.

I agree with all of Barrow's selections except that I would name Roger Bresnahan as the catcher and add the names of Cy Young, Rube Waddell and Grover Alexander to the list of pitchers.

What do you think, fans? I would like to hear your views on all-star teams. Send your line-ups in. What do you think of the idea of putting Hornsby on third in place of Collins?

CELTIC DEFEAT ROVERS, NOW IN LINE FOR SECOND

Falkirk Penalized for Two Goals Yet Draws With Cowdenbeath in Weird Tussle

GLASGOW, March 10.—Teams both at the top and bottom of the Scottish first division soccer averages were affected by yesterday's games. Celtic, who are now favorites for the second place behind the Rangers, met and downed Raith Rovers, who look doomed relegation. Clyde and Hamilton Academicals improved their positions, but Third Lanark went back a little. Hearts lost on their own grounds to St. Johnstone while Motherwell lost two valuable points to Kilmarnock.

The most interesting game of the day took place at Falkirk where the home team had two goals struck off for offside, missed two penalties, and yet managed to draw with Cowdenbeath, two goals all. Cowdenbeath had a new recruit in action in Campbell, who made a most promising debut by scoring his side's two tallies.

Rangers had an easy time against Hibernians. They scored through Fleming.

Neil Harris made his reappearance in Scottish football for the Third Lanark but the old international did not get a chance to shine. Hamil and Callags did the scoring for Third Lanark.

MCNALLY SCORES THREE

McNalley, who on one occasion scored eight goals for Arthurlie, scored three goals for Hamilton Academicals against St. Mirren.

Riley scored first for Ayr at Aberdeen, Cheyenne equalizing and also getting the winning counter.

Airdrie had scored two goals through McDonald before Dundee made a start, but Barrcet enabled them to get a point out of the match.

The Perth men were easily the better team at Edinburgh and Hearts, who ad their strongest team in the first *line were a disappointment.*

Kilmarnock were good winners against Motherwell though both elevens were under strength.

Queen's Park scored their fifth successive victory when they beat Patrick Thistle. McCleland, two and Chalmers had queen's goals. Both were chosen to play on the Scottish Amateur team which meets England at Leeds next week.

Raith Rovers fell at home to Celtic.

BRUINS TAKE LEAD NOW IN AMERICAN RACE

By Defeating Rangers 3 to 2, They Are Now in Preferred Position

NEW YORK March 10.—Boston's Bruins took undisputed possession of first place in the American division of the N. H. L. tonight by detfeating the New York Rangers, 3 to 2.

The Bruins now have three games in which to hold the lead, while only two are on the Ranger schedule.

It was the hardest and closest battle of the season here.

Harry Oliver played the leading role in Boston's scoring, putting his team ahead with a goal in the first period, *and scoring the winning tally in the* final frame.

LINEUP

New York	Position	Boston
	Goal	
Roach		C. Thompson
	Defence	
Abel		Shore
Bourgeault		Hitchman
	Center	
Boucher		Gainor
	Wing

OTTAWA SHAMROCKS WIN VALLEY TITLE

OTTAWA, Ont., March 10—The Shamrocks, amateur hockey champions of the capital, will represent the Ottawa valley in the Allan Cup playdowns. They swept through the Cornwall Colts to a 3 to 1 victory here Saturday night to eliminate the valley title holders from the hunt, and thus earn the right to contest for the All-Ontario title against the winners of the Iroquois Falls-Toronto Varsity series. They won the round 6-2.

Suggest Handball Be Played Junior High School Gym

Prominent Sportsmen Think Good Game; Good Footwork Is Essential

Among the many indoor sports which prominent Nelson sportsmen have suggested could be played at the gymnasium of the new junior high school here is the game of handball. This suggestion has met with the favor of athletes, both young and old, as a game which provided both exercie and interesting competition whether played as scratch games or whether on an organized league basis.

The Nelson Basketball association has already obtained the use of the gym, and it is held that if a handball league or club were formed, the school board would probably grant an evening or more a week. It was thought that it was probably too late to organize a league this season, but if a handball was obtainable at the gym, many players would turn out for scratch games.

Handball is considered one of the best games devised for a small number of players. Two or four people can play. If four play, two play on each side. Handball is a highly developed game and is splendid exercise because it brings all the muscles of the arms, legs and body into constant play.

A tennis ball would be satisfactory for play. The regulation handball is about two inches in diameter and is especially made for the game.

HOW TO PLAY

Standing behind the middle or "short" line of the court the server bounces the ball on the ground and while the ball is on the rebound bats it sharply with the palm of the hand so that it strikesc against the part of the wall inside the markings and bounces back into the outer half of the court. The opposing side strikes it either on the fly or the first bounce so that it again hits the wall and comes back into any part of the entire court. The serving side again plays on the ball, and play continues unti one side misses or the ball strikes out of bounds.

If a ball is caused to strike the wall outside the lines, or goes outside the court lines the side which hit it last loses the point. It is necessary to have the ball bounce out into the outer court only on the serve. The server has a second try at serving in case the first one is too "long or too "short" to land inside the outer court. But if the server strikes out of bounds on the wall or outside the court lines, the server is out in the first try. If a second attempt falls the server is out. The players take turns in serving, both players on a side serving before the other side serves.

SCORING POINTS

Points are scored only when a side is serving. If the side which is not serving wins a point it puts out the side that it serving, but does not count a point in the score. When the side that is serving wins a point, *it counts one. The side wins which* first scores 21 points. Should each side score 20 points, a side to win must score two points in succession.

If a ball strikes a line it is counted inside the line. The server may stand anywhere he pleases behind the "short" line, but experience shows it is best to stand at one end of the other. Other players must standing outside the court on the serve but may move inside as scon as the server bounces the ball.

If a regulation ball is used it is well for the players to wear thin gloves, to prevent prespiration making the ball slippery.

All returned balls and all served balls must tcuch the wall before touching the ground.

If a ball leaving the board strikes a player it is against the side so struck and is either a point or a put out for the other side. If a ball in play strikes an opposing player on its way to the board it is a "hinder" and two "hinders" caused by one side in one serve constitute a point or put our against that side. *Such a ball* hitting a partner scores an out or a point against the side committing the error. If a player completely misses a ball, his partner may play it.

There is no game where footwork counts more than in handball. Foot freedom and noslip shoes are absolutely required to make the game worth while.

Bringing Up Father By George McManus

The Snob

By Vida Hurst

CHAPTER XXIX.

"Come out of it, Nancy. You're punching a time clock today."

Nancy opened sleep-sodden eyes to see her roommate, flat on the floor, coming into a sitting position, touching her toes and down. . . .

"What are you doing?"

"Taking my exercises. I'm going to have a figure like Annette Romaine's if it takes me ten years."

"And who's Annette Romaine?" Nancy queried, stretching wearily and without much real interest.

"Classiest girl in the store. She's in the jewelry, but she models new dresses part of the time, too. You'll see her."

Sue rolled across the floor twelve times and came up breathless.

"Come on. We'll have to hurry."

Out into the shivering, clamminess of the unheated room, Nancy drew her clothes on, gratefully. Glancing at her trim reflection, wondering how soon she would begin to look like a "salesperson," already the term "shop girl" had been deleted from her vocabulary.

As they hurried down the street, Sue said, briskly: "I hope the girls will like you, Nancy. You were always so popular at school."

It seemed to Nancy rather unimportant. She was not greatly concerned over what the girls at the store thought. Her ambition was to make good with the management, earn some money, and get into something else as quickly as possible.

She had expected to be treated as a servant by her superiors. To be known as a number only. She was therefore surprised to hear herself addressed by everyone as "Miss Gage."

The new girls were sent to Miss Deane, who gave each her number and department and sent them, with a guide, into the cloakroom.

"Time clock's right over there," this girl announced, carelessly.

But Nancy had never punched a time clock. What did one do? Was there a trick to it? She watched for a moment, then slipped her card in and pressed the lever.

"Nancy Gage, Dept. 10—No. 90—8.45."

Her spirits sank for a moment, then swung upward in sheer interest in the new experience. All right. What next?

"Which department are you in?" asked her conductor.

"Department 10."

"That's jewelry. Got your book and pencil? Let's go."

Back into an elevator of chattering girls. Girls who were smartly attractive in the well-fitting dark dresses. Most of them wore black satin. Many with white or pale pink collars, immaculately dainty and fresh.

"How do they keep them clean?" Nancy wondered.

She was yet to learn that the working girls' routine for the night includes a little washing hung over the back of a chair. A pair of stockings, a "teddy" or bloomers, a lace or satin collar. . . .

She was startled to hear her own name spoken by the other girl addressing a floor man.

"Miss Gage, Mr. Henderson."

He looked her over, swiftly, and consulted a memorandum.

"Jewelry?"

"Yes, sir!"

Nancy followed him to the jewelry counter.

"This is Miss Gage, Miss West. Your buyer, Miss Gage. She'll tell you what to do."

Businesslike but amazingly courteous. Nancy saw a pair of keen blue eyes in a smiling face. She was introduced to the other girls in her department as if she were at boarding school.

"Miss Gage, Miss Romaine, Miss Bronson." . . .

Nancy managed a smile in response to their frankly scrutinizing gaze. A moment later she was rearranging a pile of assorted broaches. The buyer had departed saying: "You might arrange those pins, Miss Gage. We won't be busy for an hour or so."

The other two, dusting the glass shelves, sorting beads and bracelets, carried on a low conversation which ceased if Nancy came two near. Urged by Sue and chilled by this aloofness, she attempted to be friendly. In the bright, supercilious tones reserved for others than her own "class," she asked a question, discovering that she was forced to repeat it as many as three times. If the girls were waiting on customers they ignored her requests for information altogether.

Finally she said, "How can I tell the price of these pins when they aren't on a card?"

"Look through them when you aren't busy," advised Evelyn Bronson. "There will be another just like it on a card. Haven't you ever sold jewelry before?"

Cheeks flaming, Nancy answered, "Not jewelry—no!"

A little later it came to her that they were deliberately "ritzing" her. One of the girls employed in the store bought a strand of pearl beads for $2.95. Nancy could not figure the 15 per cent discount.

When she turned to Evelyn Bronson, crying "For Heaven's sake help me out. How do you do it?" the other girl seized the book and made it out without a word. . . .

Nancy had never felt so humiliated in her life. Not even in the old days at High School.

At noon in the dressing room, hands pressed to her smarting eyes, she whispered to Sue, "The girls don't like me."

"Why not, Nancy? What have you done?"

"I haven't done anything. And I don't care. It's nothing to me what the girls in this store think of me."

But Sue was worried. She insisted that Nancy would need the cooperation of everyone in her department. They could "get her bad" by refusing information or reporting her mistakes. Mistakes a beginner was sure to make.

"Don't be uppish with them," begged Sue. "They won't stand for condescension from anyone living. Do as they tell you and keep sweet, no matter what happens."

Nancy flushed, but she dared not disobey the advice of this friend whose hospitality she was accepting. If this were a part of the game, why then she'd play it. She returned to the jewelry department grimly determined to win their respect. She would prove that she was "one of them" as she had long ago proved it to the wealthy girls of her own town. Proof it was of her own new clear-sightedness that she realized this would be no less of a task.

After lunch a mob gathered about the counter with its "specials" of pearl beads, dollar pendants and "flapper" rings that Nancy had no time for speculation. But she worked cheerfully.

"May I help you?" became her slogan, repeated with a smile copied from the petite Annette. Annette was never too busy to give a customer the full benefit of her personal attention. In the midst of a sea of faces, a babel of voices, she would say placidly "The pink beads are more becoming. Do you wish to try the choker? Yes, the others are newer, of course. Never too rushed to hold a glittering pendant against the whiteness of her own throat. Or to murmur "Thank you."

Her methods were a revelation to Nancy. The end of the stampede left her weary-eyed.

"Better rearrange those slave bracelets, Miss Gage."

She fancied the tone was kinder. Two hours of working side by side, reaching around each other, had done much to break the ice. They discussed their sales impersonally.

"The pendants went over fine, didn't they?"

"We need some more of these rhinestone pins, Miss West."

"I ordered them this morning, Miss Bronson. How about the sale on those new characters?"

"Great. We only have a few of them left."

And these, thought Nancy, shifting her weight from one swollen ankle to the other, were the girls whose conversation was supposed to consist of "And I says, and he says to me" . . .

Only one glimpse did she have of romance. When a blue-eyed, sullen-mouthed youth approached the counter and stopped before Annette Romaine.

"I can't talk to you now," she heard her say, hurriedly.

"When will you talk to me? Tonight?"

Her voice was full of scorn and a bright, burning pain.

"Oh, I suppose so. But don't come here any more, Howard. Please!"

As he stalked away she turned to a customer with an unclouded smile.

"May I help you, madam?"

Never in her life had Nancy been so interested in a member of her own sex as she was in this low-voiced, swift, smiling girl. . . .

SILVERTON NOTES

SILVERTON, B. C., March 10.—Miss Annie McNaughton left Monday for Nelson to resume her duties at the Kootenay General hospital.

T. Brown left Monday for Nelson.

Mrs. T. Crow, who has been visiting her daughter Mrs. R. White, left Friday for her home at Beaverdale. She was accompanied by her grand daughter, Miss Dorothy White.

A jolly young people's party was given by Miss Molly Harding, at her home here Wednesday, the occasion being her birthday.

The invited guests were the Misses Dorothy Hunter, Adaline Hanna, Gunley Peterson, Dorothy White, Audry Watson, Frances Johnson, Giza Reeder, Mary Moir, Johanna Groenhuysen, Minnie Wetterhause, Marjorie and Edith Tattrie and Isabell Leibschere.

A very pleasant whist drive was held in the union hall here Thursday by the Silverton Whist club, 11 tables being in play. The prizewinners were Mrs. Leibschere and Joe Johnson, first, Marjorie Tattrie and Percy Hayward, consolation. Mrs. G. T. Ironside and Mrs. A. S. McAuley were the hostesses for the evening.

Walter Tattrie was a business visitor to Nelson Friday.

HAPPY MEETINGS

. . "at that I hate to leave, it's really home to me"

. . . they met in the classified columns

It was not the sort of a home that one could pick up on the auction block . . . or even contrive one's self on short notice. It was the result of years of development in supplying home comforts. But Evans was leaving town and had to sell. What a stroke of good fortune for Carr to find such a home ready to step into.

All Important Buildings Located, Including Junior High School

TRACES NEW COURSE OF ANDERSON CREEK

Will Be for Engineer's Use; Will Place Sewers, Sidewalks and so on

A map of the city of Nelson, including Fairview and Rosemont and showing changes in recent years, and all new buildings, is being traced by City Engineer Boyd C. Affleck. The map when completed will be for the engineer's personal use. He will have several blue prints made. The blue prints will be used, one for showing the city water system; one for showing the electrical system; another for showing the material sidewalks are made of in the different parts of the city, and for various other information vital to the city engineer in carrying on his work.

The map will be about five feet long and three and a half feet wide, and will show the new city boundary on the north east, created when Fairview became a part of the city several years ago. It will be the first map that has not shown Fairview as a suburb of Nelson.

NEW COURSE ANDERSON CREEK.

Among the many changes since the map that is in use now was compiled and which will be shown in the new map, is the change of the course of Anderson creek in Fairview from almost due west to north. The creek formerly emptied into what was known as Connaught park, now Lakeside park, but now it empties into the old city park.

Several changes will be shown in the city sewer outlets when the copy of the map showing the water system and sewers is completed.

At one time, at the Fairview terminus of the street railway system, the motorman had to change ends in order to make the return trip to town. This was shown on the old map with a bumper at the end of the track. On the new map, the loop at Fairview, which allows the cars to continue on their return trip without changing ends, is shown. The loop was constructed several years ago but never shown on a map.

NEW FEATURES.

Other features shown on the new map but not on the old one, are the city gravel pit with bunkers in Rosemont; the new junior high school, which, although no longer known by that name, is shown as Trafalgar school; Cottonwood park, which includes the Cottonwood canyon and creek river in the locality of the Rosemont bridge; the city gas works on Railway street and the railway spur into the works; the old Silver King mine tramway to what used to be the Hall Mines smelter in Rosemont, and the ore bunkers at the end of the tramway; the street car barn with the spur leading into it at Hall Mines road and Kootenay street; the newly completed Terrace apartments at Vernon and Kootenay street and the Nelson Transfer located next to it, both new buildings within recent years.

ALL CHURCHES SHOWN.

The Christian Science church, a modern stucco building on Baker near Fall street, will be shown as well as all other churches in the city. The fair buildings and recreation grounds will be depicted, as will Gyro or Houston park on the bluff shown on the old map as the City park. New roads cut through the park since its improvement was undertaken by the Gyro club will also be shown.

The location of the Kootenay Lake General hospital, not shown accurately on the old map, will be shown correctly on the new one. The nurses' home adjacent to the hospital, completed a little over a year ago will also be marked.

The city wharf, C. P. R. depot and the Canadian Legion building formerly shown as the Y. M. C. A., as well as all other most well-known buildings in the city, will be included.

ROSEMONT BOUNDARY.

The actual boundary of the city at Rosemont and the two roads, one leading past the street car barns and the other from the end of Latimer street across the bridge to Rosemont, will be shown. Neither of these roads were shown on the old map, there being no means of entering Rosemont depicted whatever.

The boundary in Rosemont shows something that few Nelson residents realize. The general impression is that the city limits are at Cottonwood creek, and that once the Rosemont bridge is crossed, one is in Rosemont. Such is not the case. Roughly 10 city blocks on the Rosemont side of the bridge are within the city limits.

The new junior high school, situated almost in the center of a block formed by Josephine, Robson, Hall and Observatory streets, is partly within the original townsite of Nelson and partly in a part later included in the city.

The northern half of the school building is in lot No. 95, the original townsite, and the southern half is within the first division of lot No. 105, surveyed later than No. 95, and later included within the city limits.

EDGEWOOD AVENUE CHANGED.

The change in the route of Edgewood avenue and High street at the hospital will be traced. Edgewood avenue at one time ran at right angles to Cedar street, but this was changed to make Edgewood avenue run into Cedar street. The same thing was done with High street passing the hospital. Both these intersections are now gradual curves instead of right-angle intersections.

When the new map is completed, the engineer intends to compile a loose leaf book, showing the city in sections on a large scale. Each page will contain a map of about four city blocks with everything in detail, giving an enlarged reference map which would prove a boon to the engineer's work.

CANUCK AIR MAIL AMONG FIRST RANK

Aerial Service Proves Highest Importance Troughout Dominion

OTTAWA, March 10.—In the provision of rapid and safe channels of postal communication into places difficut of access, Canada's air mail service has already a proud record of achievement. To the remote mining district of Ontario and Manitoba and the scattered, isolated communities on the north shore of the St. Lawrence river and Anticosti and the Magdalen islands, mails are conveyed by plane over routes that otherwise would involve the use of canoe, dog team and other slow and costly means of transportation.

After the close of navigation the lonely fishermen on the Magdalen islands in the gulf of St. Lawrence were completed cut off from communication with the mainland before the advent of the air mail. For several months they received no word of what was going on in the world. Now a daily service carries them letters newspapers and parcels. The same situation was present in Seven Islands and Anticosti. Now a regular service conveys 1500 pounds of mail a month.

Besides the regular services to isolated points, special trips have been made along the coast of James bay and into the rich mining areas in northern Alberta and British Columbia. Christmas parcels were carried into the north, which otherwise would have to wait on the slow and infrequent journeys of dog sleds. The development of the mining districts in the sub-arctic has been in no small degree due to the transport of air mail.

MAIL CARRIED

In the less spectacular developments solid progress has been achieved. During 1928 the service between Montreal and Albany, N.Y., carried 30,660 pounds of mail. Between Montreal and Toronto, 17,248 pounds were carried and on the Winnipeg-Regina-Calgary-Edmonton route 4820 pounds. The latter was on an experimental service, lasting only a few weeks and looking toward a complete trans-Canada route. Latterly a service between Ottawa, Montreal, Saint John and Halifax has been instituted. Formidable objects in the geography of the country have had to be met in this route. Consideration is now being given to the construction of a series of air harbors to facilitate flying in eastern Canada and shorten the mail time between the maritime provinces and the central part of the country.

A most significant development has been the mail route between Sioux Lookout and the Red Lake area in northern Ontario. Mineral deposits in that locality are bringing about rapid growth of population. On that route alone 13,000 pounds of mail were carried during the past year.

ORE CONFIDENCE

The use of airplanes for carrying mail has definitely stimulated public interest and confidence in aviation. The dependability of the service as well as its novelty is developing a spirit of air-mindedness in the Canadian people. In the experimental flights the national defence department has provided planes and aeronautical engineers to study proposed routes. After feasibility has been established contracts are awarded private companies by the post office department.

In adopting the policy of awarding contracts rather than granting subsidies, post office authorities have sought to give impetus to the development of Canadian aviation generally. They believe it arouses a vivid air concept in the minds of the people and gives solid financial assistance to private enterprise.

"DING UP

The air mail service has played a very positive part in the development of inter-Empire communication. The speeding up of trans-Atlantic air mails is rapidly overcoming the handicap of slower speed which formerly militated against quick communication between the British Isles and other parts of the Empire. The service from Montreal, Ottawa and Toronto, covers the distance of 330 miles in less than 2½ hours and effects a saving of from 24 to 96 hours for mail from the British Isles to the Pacific coast. A similar saving is effected in the Ottawa-Saint John route, which is still in the experimental stage.

Many of the problems the development of air mail communication faces—the enormous distances and the formidable natural barrier of the lakes and mountains—would seem almost insurmountable if it were not for the courage and tenacity of the Canadian aviator. Many flights have been hazardous in the extreme. Frequently flyers have had to cover long distances over country where a forced landing would have been disastrous. To the skill and experience of the Canadian aviator is due the fact that no accident or serious delay has occurred.

POWER COMPANY IS PURCHASER OF OLD RECLAMATION FARM

Contracts Being Let for Additional Reclamation on Kootenay River Tract

Sale of the old Reclamation farm on Kootenay river by the Alexander interests, represented in this country by James Anderson of Kaslo, to the Kootenay Valley Power & Development company has been practically concluded.

Announcement to this effect was made Friday by E. C. Wraggle, solicitor.

Howard A. Amon of Spokane, the moving spirit in the Kootenay Valley company, is now at the Reclamation farm arranging for the letting of contracts for additional reclamation work. This will involve work at both ends of the tract and probably the raising and widening of the present dykes.

When this work has been completed, the intention is to subdivide the land and sell it for farming purposes.

CRANBROOK CITY COUNCIL DEBATES FIRE HALL BY LAW

Debentures Involving Paying $10,000 Yearly to Be Retired This Year

CRANBROOK, B. C., March 10.—A special meeting of the city council was held in the council chambers of the city hall Tuesday to discuss the bylaw which will be submitted to the ratepayers of the city March 25 to raise $1,000 by the sale of debentures for the purpose of constructing a new fire hall and purchasing a new combination chemical and ladder truck for the fire brigade.

The obvious need of a new fire hall and fire fighting apparatus has been apparent to the members of the council for some years and has had the consideration of different councils at various times but delay has always been considered advisable, awaiting the retirement of certain existing debentures before entering upon the expenditure which this bylaw would entail.

Final payments are being made this year on four debenture issues which will reduce the annual interest and sinking fund charges by nearly $10,000. These payments are: Bylaw No. 63, streets, $803.25; bylaw No. 57, schools, $2811.01; bylaw No. 65, water, $5622.02; bylaw No. 173, arena rink, $351.69, the total is $9587.97.

The interest and sinking fund charges will amount to $2591.05, spread over a 20-year period.

PROPOSED BUILDING

A sketch plan of the proposed building shows the main part of the ground floor occupied as an apparatus room, with the fire chief's office on the north side and hose tower, hose room and work room on the south side.

The first floor plan provides for reading and recreation rooms and dormitory for the firement, together with the bath room. The chief's quarters will be across the front of the building.

The location of the proposed building has not been definitely decided upon. One site suggested is that facing on Norbury avenue between the city hall and MacPherson's undertaking parlors, an important advantage in the choise of this site being a saving of about $1500 in the cost of construction, as the building could be heated by the heating plant now installed in the city hall.

The provincial fire marshal's department has, on several occasions, called the attention of the council to the urgent need of additional chemical and ladder equipment, and the inadequacy of the present apparatus if called upon to fight a conflagration in any one of the numerous two and three-storey buildings now existing in the fire limits.

OLD QUARTERS

The Cranbrook fire department started out in 1904 in temporary quarters, located at what is now the entrance to the Y. M. C. A. grounds at the corner at Van Horne and Baker streets. The building was later increased in size to make room for the fire team and additional equipment as procured. In 1908, the building was moved to its present site, when further additions were made to meet the increased demand upon the department for fire protection.

Few changes have been made during recent years, as it was felt that the next move should be the replacing of such building with a more permanent structure. The building is now in such a dilapidated condition that it is almost uninhabitable, and unless a new hall is built the council will be forced to consider a large expenditure in repairs, which is not considered warranted.

Another matter which was dealt with at this meeting, one which had been laid over from the regular meeting of February, was the purchase of additional trucks for the works department at the request of the city superintendent, D. Philpot. Mr. Philpot asked for the purchase of three trucks but the council felt that all the dealers in trucks in the city should be given an opportunity to figure on these, and had laid the matter over. As they need for the equipment was pressing, the council decided to buy at once one medium duty truck, and defer the purchase of the other two until later.

SLOCAN CITY NOTES

SLOCAN CITY, B. C., March 10.—G. W. Long went to Nelson Wednesday night for medical treatment.

The ladies' aid of Knox United church met at the home of Mrs. E. E. McMillan. Those present were Mrs. T. McNeish, Mrs. Rogers, Mrs. J. Terry, Mrs. W. A. Jackson, Miss I. Grant and Mrs. McMillan. Lunch was served and the conclusion of the business.

Henry Gill Mails $246 to Himself Each Year

THE $246 is Henry Gill's annual payment on his North American Life "Four Way" Policy. But he is actually sending the money to himself. Here's how this policy works out:

(1) At age 65 he will receive $10,000, or if he prefers it, $895 yearly for the balance of his life.

(2) Before reaching age 60 if he becomes unfit for work, he will receive $100 monthly; will make no further annual deposits; and at 65 will receive $10,000 or $895 yearly.

(3) If he dies before age 65 his family will receive $10,000.

(4) If his death is accidental his family will receive $20,000.

This "Four Way" Policy makes perfect provision for the future comfort of one's self and one's family. It covers every emergency.

Why not plan to start putting away a portion of your income each year for yourself on this North American Life "Policy That Pays Four Ways."

CHRIST STRONG MIND AND BODY BISHOP STATES

Bishop Doull Tells Redeemer Congregation Conception Is Wrong

Drawing a picture of Christ as the strong Son of God and not a weak effeminate being as most of the famous painters depicted him, Rt. Rev. Alexander J. Doull, D. D., bishop of Kootenay, addressed the congregation of the Church of the Redeemer, Fairview, last night. The bishop also preached at the morning service.

The reason that religion did not appeal to the young men and boys of the present generation was that Christ was often pictured as a weakling by hymn writers and painters, his grace pointed out.

If certain hymns were cut out of the hymnal it would be a good thing, he asserted.

Disregarding hymns and pictures and turning to the gospel, the speaker gave several illustrations of the physical and normal strength of the Son of God.

STRONG PHYSIQUE

That it was never recorded that Christ was ill, although he worked continually among the sick and lepers, pointed to his strong physique.

The evanglists tell that Christ had not time to eat on occasions. He spent nights in prayer without sleep. Did this point to a weak man or did it indicate a man strong in body and in mind, asked the speaker.

When one reads of how Christ drove the vendors out of the temple, how he declared that he was the Son of God, did one think of a weakling, one who was afraid of what people thought, the bishop asked. These actions pictured a Christ who was courageous and unflinching in his actions.

That one who was not the strongest of men, both bodily and mentally, could not have endured the sufferings and trials of Christ's passion was shown by the speaker.

Encouraging the younger generation to seek for itself the true type of Christ in the gospel, not to think of him as a man who was effeminate and soft, but as a captain who was ever at the head of his men, the bishop concluded.

FRUITVALE NOTES

FRUITVALE, B. C., March 10.—Pat Healy arrived in the valley Tuesday. He is the guest of his mother, Mrs. Sharp.

Mrs. L. DeBruyn, who spent the winter in Trail, returned to her home here Friday.

R. Kidd and W. Nipkow were visitors to Trail Friday.

Harold Mason returned Friday after spending several months in Chicago.

Earl Grieve came home Friday from McRorie, Sask., where he spent the past few months.

L. De Bruyn spent Friday in the valley.

E. Cole, A. Webster and R. Stainthorpe were Trail visitors Saturday.

Log Hauling Ceases Glenbank for Season

GLENBANK, B. C., March 10.—The cessation of log hauling has made quite a difference to the appearance of the Glenbank roads. Eight teams have been kept going without a break for the past three months. The contract between W. Bailey and the Arrow Lakes Lumber company has terminated. The roads have become impassable with the disappearance of snow.

WALDO NOTES

WALDO, B. C., March 10.—Frank Belanger, contractor for the Baker Lumber company during the past winter, will build summer camps near the Black Tail timber reserve, in the near future. He expects to log extensively when road conditions will permit the use of motor transportation.

David Price, of "Sour Dough" farm, has accepted a position with James Muir as chief cook, to succeed John Clement, resigned.

John Pero, teamster, will leave shortly for Riverside, Calif., where he expects to resume his former work.

William Cochlan, blacksmith and handyman for Frank Belanger, camp 15, has completed his season's work and is recuperating for a few days at Waldo.

Frank Boleaux is spending a few days among friends at Waldo, after an absense of several months in the forests of Bear mountain.

Billie Tolson has resigned his position with James Muir, and will proceed to Seattle in a few days to join his uncle, who is in business at the coast.

"Chic" Abbey has left the Bear mountain timber area and may go to the U. S. A. for the summer, after spending a few days at his home at Armstone.

The warm wind and the increasing sun heat at this period is raising havoc with winter truck roads, making the highways almost impassable for heavy hauling.

Announcing —
Columbia Electric Ltd.
305 Baker St., Nelson
and Kimberley, B. C.
Nelson Branch open to the public Thursday, March 14
We invite your inspection

The Columbia Electric Ltd., has been incorporated to operate in Nelson and Kimberley. It is district agent for FRIGIDAIRE DELCO LIGHT, WATER SYSTEMS, products of General Motors, and will sell all kinds of Electric Appliances and engage in Electrical Contracting including wiring and complete installations.

The Columbia Electric Ltd., will have a staff of highly trained Electricians and Frigidaire and Delco Service men.

Under the name of the Kimberley Electric Co., this company has been engaged for a number of years in the Electrical business in Kimberley. It has been so successful there that the new Company has been formed to expand the business to cover West Kootenay as well as East Kootenay. West Kootenay headquarters will be at Nelson and East Kootenay headquarters at Kimberley.

All over the continent the demand for Frigidaire equipment is growing by leaps and bounds and Columbia Electric Ltd., as district agents will be able to give the public a service it has not been able to obtain before.

A specialty will also be made of Electric Wiring and installation work and on account of the connections Columbia Electric has established, it will be able to supply materials of the highest grade at very economical prices, while the competency of its employees will enable it to guarantee the high quality of all work.
