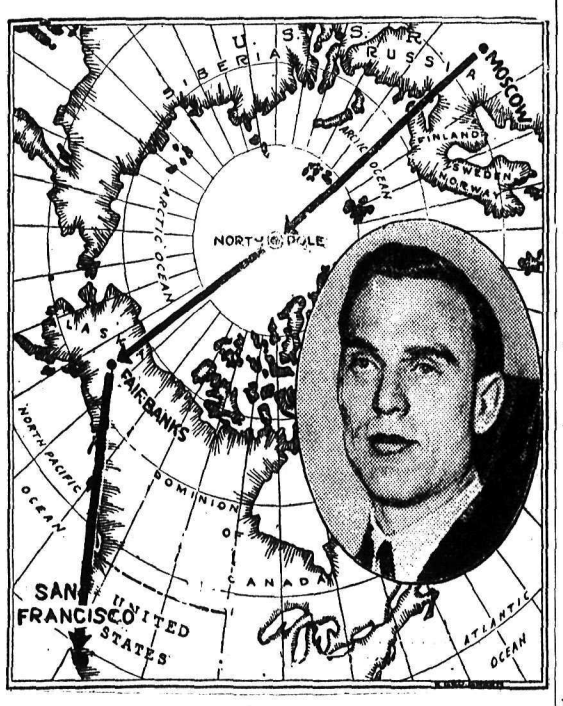
Japanese Stage First Night Attack

London Puzzled as Portugal Cuts Diplomatic Relations With Czechoslovakia; Lack Details

Scene of Search for Soviet Ship



The third Russian transpolar plane, a four-motored machine piloted by Sigismund Levaneffsky, is missing in the Arctic somewhere short of Fairbanks, where it was to make the first stop on a proposed flight from Moscow to the United States. The plane, carrying six Russian aviators, is reported to have run into severe storms over the north pole and was using only three of the four motors when last heard from. The fliers planned to stop at Fairbanks and Edmonton to refuel.

Wilkins, Hollick-Kenyon, to Search for Russian Airmen

Sir Hubert Will Use Large American Flying Boat

BELIEVE FLIERS ON CONTINENT

FAIRBANKS, Alaska, Aug. 18 (AP)—Ace rescue fliers sought an opening in the cloudy, rain-laden northern Alaska skies today to speed their planes on the air trail of a native clue to the whereabouts of six lost Soviet transpolar airmen.

Bob Randall, a Canadian, planned to take-off from Point Barrow to check up on the story of natives in the Barter Island area that they heard what might have been an airplane motor four or five days ago.

Their story raised the possibility the missing fliers, headed by the Soviet ace Sigismund Levaneffsky, actually reached the North American continent instead of coming down in the ice-covered Arctic ocean, as Moscow officials believed.

The three-nation search gained momentum when the Soviet embassy in Washington arranged through the Explorers club of New York for Sir Hubert Wilkins, noted Arctic explorer, to join the hunt with a large American flying boat stationed at North Beach Airport, N. Y.

The plane was expected to get under way from New York tomorrow, fly to Toronto and cross Canada to Aklavik and base there for the search.

Air Commodore Herbert Hollick-Kenyon, noted Canadian aviator, was chosen to accompany Wilkins as first pilot, along with a second pilot, a radio operator and a mechanic.

N.E.C. URGES 'GRANTS-IN-AID' BE EARMARKED FOR SPECIFIC NEEDS

Relief Assistance to Be Divided Into Three Classes, Government Decides Following Report of Employment Commission

OTTAWA, Aug. 18 (CP)—A division of relief assistance into three classes is contemplated by the federal government, according to a statement issued today by Labor Minister Norman Rogers.

The division, he stated, was recommended by the National Employment commission and was designed to tighten relief administration costs. The classes specified are embraced by (a) unemployment aid, (b) agricultural aid and relief, and (c) assistance to unemployables.

The government has accepted the commission's recommendations that each of these groups "should receive aid appropriate to its special problems, with improved administrative controls brought about by conditions attached to federal grants-in-aid," the minister said. His statement adds that, in accordance with the commission's proposals, special measures will be taken to increase employability of the workless group so that the physically fit among them "may be absorbed more readily in the labor market."

COMMISION REPORT

The statement was prompted by the release today of an interim report of the commission, covering its activities from June, 1936, to the end of July, 1937. The report lists 24 recommendations made by the commission to the government. Nine of these were approved in whole; four received partial approval; nine have so far not been acted upon, and two have been rejected.

In a press interview accompanying the release of the report, A. B. Purvis, commission chairman, emphasized that all of the recommendations had been unanimous. In its work the commission had been confronted with problems calling for immediate solution, and it had grappled with these, rather than with "long range" questions which might have relation to future depressions.

The commission held strongly, said Mr. Purvis, that the present *method of indiscriminate grants-in-*aid to the provinces, without any control over the untimate administration of the monies, should be abandoned.

"This method of making grants-in-aid, without any special intent, should be replaced by more specific grants, governed by the types of need," he declared.

DORCHESTER, N. B. (CP) — "Drinking" bears are becoming an increasing source of revenue to owners of roadside canteens, catering to tourists in New Brunswick. Tourists treat the bears to "pop", costing five cents a bottle. One bear near here drinks an average of 200 bottles a day or $900 worth in three months.

CENSORS HIDING DETAILS, CAUSES; NO EARLIER HINT OF ANY DISPUTES

Observers Wonder If Connected With Bombings

MINISTER LEAVES LISBON SHORTLY

LISBON, Aug. 18 (CP-Havas)—The Portugese ministry of foreign affairs late tonight handed the press a communique announcing that the Portugese government had broken off diplomatic relations with Czechoslovakia.

The Portugese minister to Prague, capital of Czechoslovakia, left Prague yesterday, the government announced. The Czechoslovakian minister here will leave Lisbon shortly.

DETAILS CENSORED

LONDON, Aug. 18 (AP) — The *Portugese government, said a dis*patch from Lisbon today, has severed diplomatic relations with Czechoslovakia.

The dispatch did not mention the cause or details of the reasons for severance.

Further details were not at once available because of censorship.

The action came as a complete surprise. There has been no hint of dispute between the two countries so far as is known here.

Pending receipt of more definite news from Lisbon, Foreign observers speculated whether the rupture might have been the outcome of two *recent events—a series of bomb ex*plosions in Lisbon last January and *the recent attempt on Premier Oli*veira Salazar's life—since the government claimed foreigners were implicated in both events.

John Roosevelt Denies 'Slapped' Mayor of Cannes

PARIS, Aug. 18 (AP) — John Roosevelt, youngest son of President Roosevelt, denied today that he had squirted champagne in the face of the mayor of Cannes or *slapped him with a bouquet of* flowers at a Cannes "battle of flowers" *on Sunday.*

He said the playful celebrant must have been someone else.

However, George Goin, chairman of the fete committee who made the original identification of young Roosevelt as the one who encountered the mayor, said in Cannes:

"It was young Roosevelt who attacked the mayor and there is no mistake.

"I was sure of it before and I verified it afterwards."

Mayor Pierre Nouveau himself, who had a telephone conversation today with American Ambassador William C. Bullitt, asserted:

"I was told that my attacker was young Roosevelt although I had never seen him before. I regret to say that I am certain now it was Mr. Roosevelt. I wish the whole affair were ended."

Lapointe Urges Law Observance

TORONTO, Aug. 18 (CP) — Observance of law and respect for the courts were held out as essentials to the preservation of liberty, the continuance of democracy and sound social progress by speakers who addressed the annual meeting of the Canadian Bar association here today.

Incidental indirect references to the disallowance of Alberta legislation by the federal government yesterday and to the recent controversy over the United States supreme court added a timely note to enunciation of legal principles.

Rt. Hon. Ernest Lapointe, minister of justice, said governments should set an example to their citizens in law observance. If they wished the people to obey law they should themselves observe the constitution *which was the supreme law.* Yesterday Mr. Lapointe recommended to the cabinet disallowance of the Alberta bills.

New Boat for Kootenay Lake

The "Vivian B" aboard a flat car as it arrived at the C.P.R. shipyards from Vancouver. This towing tug was purchased by the West Kootenay Power & Light Co., Ltd., and will be used in connection with dredging work to be done around Granite. The "Vivian B" is 40 feet long and is diesel powered. It has a double planked bottom and was used in booming and towing work on the Fraser river prior to coming to the Kootenays. The tug will, in all probability, be taken from the flat car and placed in the waters of the west arm today or tomorrow.

54 WAR VETS GET 6 WEEKS IN JAIL

VANCOUVER, Aug. 18 (CP)—Fifty-four unemployed war veterans, charged with obstructing the police, received sentences of six weeks in jail when they appeared before Magistrate Mackenzie Matheson in police court today.

The men were arrested last week when they thronged downtown intersections, bearing placards and jangling coins in tin pans in an apparent effort to solicit funds from passersby.

INSURGENTS TAKE TOWN OF ARENAS

HENDAYE, Franco-Spanish Frontier, Aug. 18 (AP)—The insurgent radio at Bilbao announced tonight that Gen. Francisco Franco's troops have occupied the own of Arenas, 28 miles from Santander.

Arenas is 11½ miles north of Reiosa, important northern Spanish town taken earlier in the week by the insurgents in their campaign against government-held Santander.

The radio communique said 1700 government militiamen surrendered.

Thinks Dominion Is Committed to Fight Next War

LAKE COUCHICHING, Ont., Aug. 18 (CP)—Canada will go into the next war "behind the British government," Prof. F. H. Underhill of the University of Toronto said in an address today to the Canadian Institute of Economics and Politics. To say Canadians will decide themselves whether to fight is "pretence", Prof. Underhill believed.

"Of course there will be a great deal of squirming in certain quarters but the decision has already been made. Our minds have been made up for us. We are going into the next British war, so what I say is completely academic," he said in opening his address on Canada's foreign policy.

"The way the new policy of the government and its propaganda hypocrisy was put over is nauseating. The pretence that no commitments had been made and Canadians could make up their minds whether *they would join Britain was com*pletely nauseating. The government has decided to join the next British war but they don't think it is expedient to say so."

James A. Mills, Veteran A. P. Scribe, Arrives at Shanghai Under Fire From Chinese Snipers; Tells of Slaughter

Watches Great Sheets of Fires Rising From Ruined Areas and Sees Bombing by the Japanese Planes; War Ships Roam

James A. Mills, veteran Associated Press foreign correspondent, reached Shanghai today from Japan, where he has been chief of the Tokyo bureau. Mills followed the Japanese troops in the Manchuria campaign and was in Shanghai during the 1932 Sino-Japanese hostilities. His last war assignment was in Addis Ababa during the Italian campaign in Ethiopia.

(By James A. Mills)
(Associated Press Foreign Staff)

SHANGHAI, August 18, (AP) —I arrived in Shanghai today under fire from Chinese snipers.

With some 300 foreigners, twice targets ourselves, I witnessed scenes of rampant destruction and slaughter a few hundred yards from our ship, the President McKinley.

We watched great sheets of fire rising from ruined areas of the city and bombings by squadrons of Japanese planes.

Coming up the 50 miles to Shanghai by liner and tender along the Yangtze and Whangpoo rivers from the China sea I counted 38 Japanese destroyers, six cruisers, four dreadnaughts, an airplane carrier *and numerous gunboats.*

The gunboats all were cleared for action. Decks, pilot houses and turrets were barricaded with sandbags.

I saw only a few Japanese ships at anchor. Most of the destroyers and gunboats darted up and down the Whangpoo seeking exchanges of guerilla fire with Chinese snipers on the shore.

It seemed as though fully half of all Japan's navy was clogging that vitay waterway, an array of strength formidable enough virtually to blow Shanghai off the map.

TERRIFIC BOMBARDMENT

We arrived amid a terrific bombardment, by far the worst, I was told, in the six days of incessant fire. Along the shore, as far as we could see, great sheets of fire, dense columns of smoke and impenetrable clouds of dust were rising from ruins of Chinese areas.

Passengers of the McKinley came under fire four times. Twice Chinese *snipers deliberately fired on* them, apparently mistaking the Dollar Line's tender for a Japanese craft despite huge stars and stripes flying from her masts and spread over her decks like awnings.

After taking inward-bound passengers to Shanghai, the tender returned to the President McKinley with outward-bound refugees.

The latter, mostly women and children, were panic stricken when bullets began splattering around the vessel. They dropped to their stomachs on deck, afraid to stand long enough to dash for safety below.

Some of the McKinley's arriving passengers after experiencing the *furious hostilities, stayed aboard.* When the McKinley lated upped anchor for Manila every inch of her space was taken.

Malone and Gilker Receive Tribute From the Citizens of Nelson and of Oldtimers

Each Receive Picture of First Council at Pioneers' Picnic

MAYOR MORGAN IS MEDAL RECIPIENT

Surrounded by old timers, by past and present incumbents of city offices, and by young folk, the lone survivors of Nelson's first city council J. J. Malone and J. A. Gilker—received the tribute of *Nelson at Lakeside park Wednes*day as the fortieth anniversary of *incorporation of the city was cele*brated in conjunction with the Nelson and District Old Timers' association annual picnic. Cheers and the song "For They Are Jolly Good Fellows" were added to the tributes.

The day was marked by a threefold presentation as Mayor J. P. Morgan received from Mr. Gilker, dean of Nelson old timers, the George VI. coronation medal he recently received, Mr. Gilker reading as he presented it, His Majesty's letter accompanying the medal. Mayor Morgan also received a medal at the silver jubilee of King George V.

Ross Fleming president of the Old Timers' association, presided, paying tribute at the opening to John Houston, pioneer of the city and its first mayor.

WORK TOGETHER

Mayor Morgan also paid tribute to John Houston and the mayors and aldermen who had served the city since its incorporation for their foresight in obtaining Nelson's public utilities and for their management of the city. He declared: "It isn't *the mayor who makes a city; he must* have a council which will work with him."

His worship presented to Mr. Malone and Mr. Gilker photographs of the first city council.

Mr. Malone, in his reply also lauded John Houston, describing him as "the most brilliant man I have ever worked with," and possessing "a great executive mind."

The work of early councils was largely his, the speaker declared, adding "he planned Nelson and we executed his orders." Houston had difficult and ambitious plans, including city ownership of utilities, and had to fight hard to carry through his ideas, said the pioneer resident.

RECALLS ELECTION

Mr. Gilker asserted it had been a great privilege to have served Nelson. He recalled being elected to office 40 years ago.

W. K. Esling of Rossland, M. P. for Kootenay West, "came over to add *his good wishes and congratulations* to the early residents of Nelson, to whom present-day Nelson is largely indebted for the growth and progress of the most beautiful city in south-

(Continued on Page Five)

LONG AIR RACE TO START TOMORROW

ISTRES, France, Aug. 18 (AP)—Crack fliers of many nations, including Bruno Mussolini of Italy, wil ltake off here Friday on a 3840-mile race to Syria and back.

Fifteen planes are entered for the race, a substitute for the Paris-New York competitive flight in memory of Col. Charles A. Lindbergh's transoceanic dash 10 years ago that the United States government ruled out as "too hazardous".

BODY FOUND IN CELLAR

HAILEYBURY, Ont., Aug. 18 (CP) — *The body of Mrs. Frank* Dolan, Elk Lake resident missing since March 21, was discovered this afternoon five feet underground in the cellar of her home, about 50 miles north of here. Sergeant V. T. Reed of Ontario provincial police made the discovery. Frank Dolan, the woman's husband, was in Elk Lake when the body was found and he was brought to Haileybury where he was questioned by Inspector *F. B. Creasy of the provincial* police.

"WIND SOCK" USED AS PETTICOATS

CANBERRA, Australia, August 18 (CP)—An air field "wind sock" at the gold mining district of The Grantes disappeared recently, and when found was being used as three petticoats. The wide end of the wind direction indicator was being used by a husky aboriginal woman; the middle section by a young girl; and the narrow end by a tiny black boy.

...names in the news

ANDREW MELLON

Secretary of the United States treasury for eleven years, Andrew W. Mellon is an outstanding figure in world finance. Following his long term as treasury secretary, Mellon was ambassador to the court of St. James, the *highest diplo*matic post in gift of the United States government.

HERBERT HOOVER

Former president of the United States, Herbert Clark Hoover is rumored as joining forces with Alfred M. Landon for a united front of the Republican party for the 1938 congressional campaign. Herbert Hoover, however, will not likely run again as president, preferring to throw his weight behind Mr. Landon.

Buses Will Run on Street Car Schedule Today

Nelson people will continue today to be served by bus service until such time as the street railway is again in operation. John Learmonth, manager of the *Greyhound company, stated last* night that there would be an hourly service coinciding with the street railway service and if possible he might have two buses to operate in the afternoon and evening.

Black Confirmed as U.S.A. Justice

WASHINGTON, Aug. 18 (AP)—Hugo L. Black, 51, who came out of the deep south as a Liberal senator 10 years gao, will put on the robes of a United States supreme court justice next October.

The outspoken Alabaman, confirmed by his colleagues late yesterday by a 63-16 vote, is the first Roosevelt appointee to the high tribunal.

By their one-sided confirmation, senators rejected the contention of opponents that he once belonged to the Ku Klux Klan and was temperamentally unfitted for the bench.

JAPAN WARNS IT WILL SINK WHOLE CHINESE NAVY IF SHIPS ATTACKED

Admiralty Angered by Torpedo Raid on Flagship

TOKYO HEARS OF HER CASUALTIES

(By the Associated Press)

SHANGHAI — Japanese forces, paced by the first night raid, launch heavy attack on Chinese in Shanghai area on both sides of Whangpoo river; Chinese seize six Japanese vessels to block upper stream; Japanese land forces reported yielding to superior numbers of Chinese; 294 Americans under fire leave for Manila.

TIENTSIN — North China separatist campaign opens in Tientsin and Peiping, seeking separate peace with Japan and formation of regime divorced from Nanking government.

NANKING — Executive yuan of Chinese central government approves measures for evacuation of Chinese nationals from Japan; Generalissimo Chiang Kai-Shek awards Chinese air force extra *month's pay for showing against* foe.

WASHINGTON — Secretary Roper says Sino-Japanese situation "is so unequal" that application of United States neutrality *act might "put us in the position* of favoring one nation"; Representative Fish (R-NY) attacks ordering of 1200 additional marines to conflict zone; state department reports show between 1600 and 1700 Americans will have been evacuated from Shanghai by end of week.

(Copyright 1937 by the Havas News Agency)

TOKYO, Aug. 19 (Thursday) (CP-Havas)—The Japanese admiralty, angered by a tiny Chinese motorship's "provocative" torpedo attack on the flagship Idzumo while the old cruiser lay in the Whangpoo river last Monday alongside Japan's Shanghai consulate-general, gave serious thought today to destroying the entire Chinese navy.

111 SHIPS IN NAVY

Navy experts reported to their superiors the Chinese fleet consisted of 111 ships—mostly small and ob-

Lady Tweedsmuir on Her First Horseback Ride in B.C.'s North

INTATA LAKE, B. C., Aug. 18 (CP Via British Columbia Police Wireless)—Lady Tweedsmuir took her first horseback ride today when she accompanied Lord Tweedsmuir and other members of the governor-general's party on a trail from this northern British Columbia lake to Chelaslie Lake. It was the first ride for the governor-general on his present northwestern tour.

Bad weather with heavy rain and cold forced the party to return *after completing two miles of the* 12 mile-trip.

Guides said her excellency took easily to riding and appeared to enjoy herself. Lady Tweedsmuir herself said she was also beginning to enjoy flying.

Four other members of the camp here accompanied their excellencies on today's ride. They were Hon. Alastair Buchan, their eldest son, T. W. S. Parsons, assistant commissioner of B. C. provincial police, Mark Connelly, M.L.A. for Omineca and Louis Lebourdais, member *of the legislature for Cariboo.*

Assistant Commissioner Parsons, in charge of the vice-regal itinerary in British Columbia, has yet to announce plans for the remainder of the Tweedsmuir park tour.

MUSIC, DANCING AND BOXING ON EVENING PROGRAM OF THE OLD TIMERS' PICNIC AT LAKESIDE PARK

Heavyweights Battle to Draw; Kiddies Put Up Fast Bouts; Stout Children Dance and Play; City Band and Old Time Orchestra Heard

Old time music that set feet to tapping during the supper hour and to flying as the evening drew to a close; City band presentations that the big crowd settled back to thoroughly enjoy during the "breathing spells" of the program; boxing that set onlookers, jammed about the ring, to frenzied cries in support of their fancy of the moment; and Scotch and Irish dance numbers that won many a phrase of admiration provided an usual and completely interesting windup Wednesday to the Nelson and District Old Timers' association annual picnic at Lakeside park.

Scotch and Irish dances were presented by Helen Stout and Jimmie Stout, with Jack Stout playing the bagpipes.

Theb and program included: March, "Colonel Bogey"—Kenneth J. Alford; medley selection, Southern Plantation songs, arranged by L. Conterno; old favorites, Selection of Well Known Standard Songs—Julius S. Seredy; medley overture, "Down on the Farm"—Harry von Tilger; march, "Indiana State Band"—Farrar; and march "The Melody King"—Stanbaugh; overture "Sunshine"—Fred Jewell; selection "Neapolitan Nights"—Zamecuik.

Providing the old time music were Joe Bachalski, Frank Bachalski, Pete Leschuitta, J. S. Goulding, Jack Goulding, Dave Dyck, Tom Anderson, Glenn Morris and Jim Bentley.

BOXING PROGRAM

Major A. E. Dalgas, officer commanding the 111th battery, expressed previous to the main event the pleasure of the battery in being able to contribute to the program and announced the battery would promote additional boxing shows during the coming winter.

Terry Fisher went in from the opening in his bout with Jimmie Pennington, looking for results. He produced them that fast, disposing of Jimmie via the K. O. route in the first round.

In the second prelim, Tommy Pennington and Ted Frederickson provided a lot of action, going to a draw decision.

CROWD ENTHUSIASTIC

A wild crowd and wild boxing featured the main event in the old timers' boxing show, a six-round affair, matching Jack Strong, claimant of the Saskatchewan heavy title, and Frank Johnson, ex-Winnipeg heavy. Johnson went in at 227 pounds compared to Strong's 190, and used his weight to advantage throughout. He was called repeatedly for heeling, using the elbow and so on, while Strong was warned several times for hitting coming out of the breaks. The crowd liked it, anyhow, though the draw decision was not exactly popular.

CROWD HOWLS

Working to the head and using his weight, the beefy Johnson carried the first round. His wide swings gave Strong considerable trouble.

Strong livened up his attack in the second and the big fellow covered up. Strong missed plenty trying to uppercut when Johnson's body was wide open. Neither of them looked good.

Strong was backing up at the start and close of the third, but in between he poured leather into Johnson in mid-ring while the crowd howled.

Johnson went in from the start of the fourth and drew the claret with a heavy right to the head. Then, alternately driving in for one wallop and hanging his weight on Strong during the remainder of the round, he had the lighter man wobbly at the gong.

LOOKS BETTER

Strong looked better in the fifth as he carried the fight to Johnson and worked alternately to head and body, Johnson getting in fewer of his swings to the head.

The last round was Johnson's at the start, as he went in fast, bringing the blood to Strong's mouth, but Strong stood him up and pounded him as it progressed. He was going to the head and Johnson had it well covered, so that he inflicted little damage.

Officials—Borden Pearson and E. C. Wragge, judges; Ralph Robinson, referee; Ernie Collinson, timekeeper; Sergeant W. Fisher, promoter; George Horstead, announcer.

Robert Hunter Laid at Rest

Funeral services for Robert Hunter, who died Sunday from injuries sustained in an automobile accident Saturday night in Nelson were held Wednesday afternoon from the Somers Funeral Home, conducted by Rev. H. W. Guscott. The hymn "Nearer My God to Thee" was sung at the service which was attended by a large number of friends. Floral tributes were numerous. Mr. Hunter came west some 20 years ago from Campbell's Bay, Quebec, and at the time of his death was about 48 years of age. Pallbearers were P. Mariner, P. Sullivan, H. McGuire, Charles Madden, George Davis and Donald McDonald.

MOUNTAINS IMPRESSED

CHATHAM, Ont (CP)—The "trail of '98" to the Yukon is not so impressive, thinks John Engli, 17, who made the trip. He thought Banff, Lake Louise and Mount Rainier the most impressive sights on the tour.

Overheard Among the Oldtimers at Lakeside Picnic

Pungent paragraphs from the Old Timers' picnic.

J.J. O'Donnell—Well, it happened just right. There weren't any street cars when we came.

Al Bunker—There's only one man in Nelson ahead of me. Jim Gilker came in two or three days before I did.

F. Rossman, late of Trail—I was in Nelson when they were building the road from Five-Mile to Procter. But I went to Trail then.

Al Tregillus — When I was in Princeton a little while back I took a picture of a house I built there 50 years ago. An old prospector has it now. (Al arrived in B.C. in 1883, and came to Nelson in 1890.)

J. A. McDonald—Sure, I was in B.C. three years before I came to Nelson in 1893.

Alderman Roy Sharp—Did you see that picture in the paper of the horse race on Baker street? My uncle, Bruce Wright, owned that horse. They called him Greasy Buck. Do you remember him?

John Blomberg—You bet I do.

(Bruce Wright, a well known mining man, died in the 'flu epidemic of 1918).

Percy F. Horton arrived in the Kootenays in 1895. Now is manager of the Salmo-Malartic Mines Ltd., in the Sheep Creek district.

Charlie Jones—One of the Trail visitors of the day.

F. M. Cairns — Superannuated rancher of Trail and Willow Point. "I remember when the road to Willow Point was being put through. The road foreman was sitting in his tent one night and said, 'In 20 years this may be a road'."

Dominic Maglio—Came in 1893. Helped put in the Spokane road through Ymir.

J. E. Riley, Bonnington—When I came to Nelson it was all bush from Robson street up.

John Notman—In 1907 I landed in Nelson and the foundation for the Central school was just being laid.

T. L. Bloomer—I took the first train of ore cars to Robson to be run from Rossland. I was working on the railroad out of Castlegar when the Columbia was bridged.

E. J. McGregor—I worked for old John Houston in 1897. I also brought cattle into Nelson with Pat Burns.

Robert Qua—It's 40 years this summer since I came to Nelson. I worked at the Hall Mines smelter when they put up the big smokestack.

Frank Rossman — When I first landed in Trail in 1900 there were two small blast furnaces in the smelter; now there are 12. I was here when the railroad was being put through from Troup Junction to Procter.

S. F. McKay, Trail—I came from Lethbridge and helped build the first narrow guage railroad to Rossland for Augustus Heinze who founded the Trail smelter and who built the narrow guage railroad.

W. J. Astley—I bought out Lindsay's Launch and Boat company which was one of the first in Nelson, and ran it for many years.

R. E. Lanyon, now of Vancouver—I got here just as the town was incorporated and when there were three bridges across Baker street. All the old boys used to sit on the railings of the bridges and "rubber-neck at everyone who went by."

George A. Hunter—A life insurance man since 1896 in Nelson until four years ago. For many years secretary of the Launch club, lacrosse club, curling club and the Nelson club.

J. E. Annable—Like George A. Hunter, has been insurance man for many years here. Sold 30,000 acres of Kootenay fruit land. Sold Peter Verigin of the first Doukhobors $30,000 worth of land for the Doukhobors. Had first contract let by the newly incorporated city council. This was the moving of the city cemetery from its old site at the present city auto camp to the site which is now used. I moved 96 bodies in that contract.

Mrs. Margaret Madden — Wife of the late Thomas Madden who had the first hotel in Nelson. This was nothing like the present Madden hotel, it was a very small building of just a few rooms. The Maddens came to Nelson in 1891.

Lady old timers—Mrs. Madden, Mrs. A. McL. Fletcher and Mrs James A. Gilker were three of the oldest timers at the picnic Wednesday. Mrs. Fletcher came to Nelson on the second boat from Revelstoke. Mrs. Gilker had four very interesting pictures of the old days. One was of Nelson in the days when it consisted of nothing but a lot of shacks, dust, rocks, timber and one street (Vernon street). Another was of the Old Timers' picnic about the time of the first school when Mrs. John Hamilton was the teacher. The third picture was of the first train to come through Nelson in 1891 and the fourth was of a group of boats on the lake by the wharf with one of the old steamers tied up by them.

George Horstead—Baggagemaster of the C.P.R. in 1901. Went to the Boer war in 1902, and came back and went into customs brokerage, insurance and real estate in partnership with Capt. D. C. McMorris. In 1907 pulled out and has been in business by himself ever since. Is now secretary of the Nelson Old Timers' association and was one of the leading lights at the Old Timers' picnic Wednesday.

W. K. Esling, M.P., for Kootenay West. In 1896 went to Trail and in 1899 went to Rossland where he published the Rossland Evening Record. In 1898 published a paper at Brooklyn, a thriving town of some 700 people across from Deer Park. There is nothing but one shack there now. Was in the newspaper business till 1915 publishing the Trail Creek News and the Rossland Evening Record. In 1920 was made M.P.P. for Kootenay West in the provincial government and in 1925 became M.P. for Kootenay West in the federal government.

Mrs. W. O. Rose—Wife of the late Dr. W. O. Rose, who for many years made trips to the sick in the Kootenays on horseback. Mrs. Rose remembers the great number of steps in the town in the early days which have now been abolished. All strangers were heartily welcomed and everyone was as cordial as could be.

E. W. Widdowson—I have been in the assaying business in Nelson for over 33 years. Provincial assayer since 1901, a member of the Canadian Mining Institute since 1907, and a justice of the peace for over 20 years and present treasurer of the Old Timers' association.

Jens C. Hansen—I hit the Kotenays when Rossland was a booming town in 1896. I can remember eating porcupine and bear meat on some of my prospecting trips when the going got tough. Lived in the Sheep Creek district for over 25 years.

William J. Sturgeon—I've lived in Nelson since 1895 and still think its a fine place.

Neil McColman—I remember the good old days when the going was tough for a lot of us and we ate sourdough and porcupine on our prospecting trips.

George W. Steele—A member of the Northwest Mounted police on the prairie and a veteran of the Northwest Rebellion of 1885.

W. E. Wasson—City clerk for over 35 years and still serving the city.

Aver E. Jerome—The country certainly was wild when I first came in 1897, the year of the incorporation. I've mined in the district for 40 years.

Ross Fleming—I came as a lad to Nelson in 1897, but just about two months too late for the incorporation. Ward street was just an open gulley with three bridges across it and we school children went along a narrow path up the side of the gulley to the old Central school which had two rooms. How we school children envied Nate Mallette who brought the first bicycle to Nelson! I am one of the only two remaining students in the district of the first high school which is the present city band hall; Dr. W. B. Steed is the other student. In 1898, my father, in partnership with an American, ran the Star restaurant on the site of the present L. D. cafe.

Temperature Takes Drop But Minimum Higher Wednesday

Wednesday's maximum was 78, six degrees lower than Tuesday's high and there were but eight hours of sun, two hours less than the previous day but all that didn't dampen the enthusiasm of the Old Timers who turned out in great style for the picnic. One good thing about the weather was that the minimum was 49, which was four degrees higher than the previous day and nine degrees higher than the mark of a few days ago when Nelsonites began to think Old Man Winter was just around the corner.

Nearly 10,000 Checks to Date; Water Is Warm

Patronage of Lakeside park by swimmers has been well maintained the last three weeks, despite the cool, rainy and windy intervals that have marked the period, as reflected by check-room figures, which are a partial measure. The last week in July saw 1444 checks issued by Miss Avonia Hancock, check-room attendant; the first week in August, 1107 and the second week 1485.

This brings the season's total from July 1 to 9634 up to and including Saturday, and this week's figures to date already assure that the 10,000 mark will be passed with the next tabulation.

July saw a total of 7042 checks issued, the month ending with a cold week that included one day of nine checks, and one of 40, along with three of high figures, between 355 and 384. The same cold spell opened August, whose first week had one day of five checks, and only three that went over the 100 mark. The week that ended last Saturday was better, with a range from 71 to 342, the 200-mark being passed only three times, however.

Despite the variable weather, the water is still 65 degrees or higher, as tested under the float daily, a splendid temperature for swimming and bathing.

CHINA-JAPAN WAR ECHOES

STEAMSHIPS UNDER JAPANESE SCRUTINY

ABOARD S. S. PRESIDENT McKinley at the mouth of the Yangtze, August 17, (AP)—All foreign steamships plying between Japan and China are now under the rigid scrutiny of Japanese sailors. Four Japanese bombers from Saishu Island, Korea, roared over this ship enroute from Kobe to Shanghai, established her identity, and returned to their base. A Japanese destroyer sped past the President McKinley's bow in the inland sea, apparently for purposes of identification.

B. C. FOLK SAFE

VICTORIA, August 18 (CP)—Safely evacuated with other British and American nations from the Sino-Japanese battle ground around Shanghai, Alderman W. T. Straith in a cablegram received here, said his wife, two daughters and himself were safe and returning to Yokohama. Mr. Straith and his family were enroute to visit the alderman's sister, Mrs. Glenn Fuller, in interior China, but when warfare broke out around Shanghai they decided to turn back.

SNIPERS ENDANGER AMERICAN REFUGES

SHANGHAI, August 18, (AP)—Chinese snipers' bullets three times imperilled United States nationals while the Dollar Liner President McKinley evacuated 294 American women and children refugees off Shanghai today. Near panic broke out on the tender carrying the refugees to the President McKinley when Chinese snipers, evidently mistaking the craft for a Japanese vessel despite waving American flags, peppered it with rifle fire. Passengers on deck flopped to their stomachs, not daring to stand long enough to race for protection below. Twice, shore snipers opened fire on the tender.

JAPAN PREPARES PUT NATION ON WAR BASIS

TOKYO, August 18, (CP-Havas)—Japan prepared today to militarise its economic and financial structure and place it on a war basis for the duration of the hostilities in China. It is for this purpose the diet will be convoked in special session September 3, by which time detailed plans sponsored by the army will be ready for approval.

EXTRA PAY FOR AIR FORCE

NANKING, August 18, (AP) — General Chiang Kai-Shek granted the Chinese air force an extra month's pay today "as an encouragement and reward" for their showing against the Japanese.

SEPARATIST MOVEMENT REVEALED IN N. CHINA

TIENTSIN, China, Aug. 18 (AP)—An underground North China separatist movement, encouraged by Japanese, came into the open here and in Peiping today. It sought separate peace with Japan. It urged establishment of an anti-war and anti-communist administration divorced from the Nanking central government in a "North China for North China" campaign.

TROOPS TO LEAVE SINGAPORE FRIDAY

SINGAPORE, Aug. 18 (CP-Reuters)—The first battalion of the Middlesex regiment will sail from this Straits Settlements fortress Friday for Shanghai via Hong Kong to reinforce Britjsh troops protecting lives and property in the war-ravaged city.

Why Not a Want Ad?

WAKE UP YOUR LIVER BILE—
And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c. (Advt.)

Nasookin Laid Up Further By Engine Trouble

Steamer Nasookin, scheduled to go back on its provincial government ferry run on the main lake yesterday, was forced to remain at the C.P.R shipyards when trouble developed in a main valve. An effort is being made to secure a replacement from the Arrow lakes or the Okanagan lakes from either the steamer Bonnington or Sicamous. The C.P.R. steamer Moyie, which came in from the ferry run Tuesday night, returned to the run yesterday morning. Meanwhile steam is up on the tug Granthall, which will take the regular run of the steamer Moyie.

DEATHS

By the Canadian Press

Quebec—Thomas J. F. King, 56, assistant district engineer for the Canadian National Railways.

New York—Miss Terese R. O'Donohue, president of the Ladies of Charity of the Catholic Charities of New York.

Rodeo, Cal.—Mrs. Elizabeth Ann Gomez, 67, mother of Vernon (Lefty) Gomez, New York Yankees pitcher

Boston—Edwin Doak Mead, 87, author, lecturer and noted peace worker.

Montreal—Sibley Angus MacDermid, 42, former office manager of Ronalds Printing company.

Los Angeles—Rodolfo Chiari, 67, former president of Panama republic.

Hendaye, Franco-Spanish frontier—Monsignor Justo Echeguren, bishop of Oviedo, Spain.

A perfumed non-inflammable spot remover has a self-feeding brush top which lets out enough cleaning fluid for the job.

Name Davidson Fund Committee

The committee in charge of the $1000 Mary E. Davidson fund has been organized.

This money was sent to Mrs. H. H. Pitts, president of the Kootenay district Womens' institutes, for the benefit of children suffering from defective vision, whose parents are unable to care for them.

The committee is Mrs. H. H. Pitts, convenor; Mrs. H. E. Thain, Mrs. Hector Mackenzie and Mrs. R. Eunson, secretary.

Thirty institutes come under the presidency of Mrs. Pitts as district president. All are being informed as to the fund. Already 40 applications for aid have been received. Many must be denied, because the fund is limited and is only for those whose people cannot help them.

NO PROVINCIAL TAX SALE, 1937

VICTORIA, Aug. 18 (CP)—Hon. John Hart, British Columbia minister, has announced the provincial government had abandoned its decision to hold a provincial tax sale this fall. He said complaints from farmers had caused the abandonment.

Mr. Hart's announcement was followed by one from Premier T. D. Pattullo that a sale would be held next year.

Gets C. P. R. Post at San Francisco

BANFF, Alta., August 18— E. Corbin of Cincinnati, Ohio, has been appointed to the post of general agent for the Canadian Pacific Railway of the North California territory with headquarters in San Francisco, according to an announcement issued today by N. R. DesBrisay, assistant passenger traffic manager of Winnipeg.

Having served as general agent in Cincinnati for some time Mr. Corbin is succeeding the late Fred L. Nason and will in turn be succeeded in Cincinnati by A. D. MacDonald at present chief clerk in the company's Los Angeles bureau.

Cable Flashes From Europe-Asia

PARK BENCHES ARE "FORBIDDEN FOR JEWS"

BERLIN, Aug. 18 (AP)—Strollers in Teutoburger platz today found 92 of 100 park benches stenciled: "Forbidden For Jews," on the other eight, constituting the "ghetto section," Jews could sit. Similar arrangements will be made in other Berlin city parks and public squares

BISHOP WILSON DEAD

MANCHESTER, Aug. 18 (CP-Havas)—Rt. Rev. Cecil Wilfrid Wilson, suffragan bishop of Middleton, Manchester, died suddenly last night. He was 62. He had been suffragan bishop of Middleton since 1932.

SELASSIE ASKED TO BE ETHIOPIAN EMPEROR?

LONDON, Aug. 18 (CP-Havas)—Philip Jordon, political commentator writing in the News Chronicle today said Emperor Haile Selassie twice had been asked by agents of Premier Mussolini to return to the throne of Ethiopia as an Italian-dominated monarch but had refused to negotiate except through the League of Nations.

NAZIS CHARGE BRITISH "UNFAIR"

LONDON, Aug. 18 (AP)—Nazi charges that Great Britain beat Germany at a track meet last Saturday by "unfair methods" created a stir in the British Amateur Athletic association today. The complaint was made by the Berlin newspaper, National-Zeitung, organ of the national Socialist party, that the javelin and hammer throws and the hop, skip and jump were excluded from the program. Britain won 69 to 67.

HUGE AIRSHOW IN RUSSIA

MOSCOW, Aug. 18 (AP) — The Soviet government treated the public to a huge airshow celebrating Soviet aviation exploits today while behind the scenes it organized a search for its missing Polar flier, Sigismund Levaneffsky and his five comrades. News of the hunt for Levaneffsky's plane was subordinated in the Soviet press to columns on Soviet flying records and reports of the growing military airforce, the size of which is a carefully guarded secret.

LINDBERGH TO BUY ISLAND?

PARIS, Aug. 18 (AP) — Col. Charles A. Lindbergh was reported today to be negiotiating for the purchase of Milo, a small island once owned by Aristide Briand, near Trebeurden on the Breton coast. The newspaper Le Journal published the report in a special dispatch from Perrosguirec, saying its informants believed the flier would buy the property to be near Dr. Alexis Carrel with whom he has collaborated in scientific research.

CANADIAN U. S. WIRE FLASHES

BOYCOTT B.C. LUMBER

SEATTLE, Aug. 18 (AP)—The United Brotherhood of Carpenters has ordered its members to boycott cott lumber produced in British Columbia, Abe Muir, general executive board member of the brotherhood, announced here today. He said craftsmen of his organization would refuse to work with lumber shipped across the line because the brotherhood had been notified that members of the Lumber & Sawmill Workers' union in the Canadian province had bolted the American Federation of Labor in favor of the Committee for Industrial Organization.

NOT WORRIED OVER BOYCOTT

VANCOUVER, Aug. 18 (CP)—The United Brotherhood of Carpenters' boycott of lumber produced in British Columbia will have "little or no effect" on the United States sales of Canadian Pacific coast sawmills, an officer of British Columbia Lumberman, trade magazine, said today.

STRIKE TIES UP SERVICE STATIONS

SEATTLE, Aug. 18 (AP)—Pickets stopped gasoline trucks from delivering gas today as a strike affected more than 100 company and individually owned service stations handling products of the Richfield Oil company. It was called by local 44 of the Garage Employees' union Service station operators said the union is demanding a minimum wage for station attendants of $30 for a 48-hour week.

18 FIREMEN INJURED

SAN FRANCISCO, Aug. 18 (AP)—Eighteen firemen were injured, four seriously, while fighting a blaze in the basement of a wholesale company in the downtown district today.

SCHMELING IN U.S.

NEW YORK, Aug. 18 (AP)—Max Schmeling, only man ever to whip Joe Louis, returned to the United States today with the announced intention of signing to meet the Detroit "Bomber" for the heavyweight boxing championship of the world.

FAMED MINSTREL DIES

SOUTHAMPTON, N.Y., Aug. 18 (AP)—James McIntyre, 79, died today from euremic poisoning, ending the 64-year-old partnership of McIntyre and Heath, famed minstrel men and one of the best known vaudeville teams of the last generation.

$236 ROBBERY HAUL

VICTORIA, Aug. 18 (CP)—Breaking into the office of A. P. Slade & Co., produce wholesalers, safecrackers last night got away with $236 and a large quantity of postage stamps.

SAWMILL STRIKE ENDS

FOLEYET, Ont., Aug. 18 (CP)—The month-old sit-down strike in the Pineland Lumber company sawmill here was settled today when Hon. Peter Heenan, Ontario minister of lands and forests, obtained the strikers' approval of an agreement drawn up in Toronto yesterday by company officials and Premier Mitchell Hepburn.

WOMAN SENATOR?

MONTGOMERY, Ala., Aug. 18 (AP)—Mrs. Dixie Graves, a source close to her husband-governor said today, will be appointed to the United States senate as soon as Hugo L. Black (D., Ala.) formally resigns to become a supreme court justice.

FOUR KILLED IN BLAST

PHILADELPHIA, Aug. 18 (AP)—Four men were killed and 10 injured by a steam explosion aboard the United States destroyer Cassin today at the Philadelphia navy yard, the commandant's office announced.

A. T. & T. DIVIDEND IS $2.25 A SHARE

NEW YORK, Aug. 18 (AP)—Directors of American Telephone & Telegraph Co. declared today the regular quarterly dividend of $2.25 a share on the capital stock, payable October 15 to holders of record September 15. The dividend means distribution of about $42,000,000 to more than 600,000 shareholders.

Hot Days Bring Forest Fire Fear

VICTORIA, Aug. 18 (CP) — General rains and high humidity have created a favorable condition throughout British Columbia from a forest protection standpoint, the forestry department said today in its weekly fire report.

There were only 39 fires occurred last week and most of these were put out before they had advanced far.

The advent this week of more hot weather is the signal for even greater care with cigarette butts and other lighted substances, however, the department reported.

The total number of fires reported to date in the province is 820 as against 1110 for the same period last year and 771 in 1935.

Plants can be made to grow bigger, producing a large seed yield, by "stuffing" them with carbon dioxide which they use in making food.

LONDON CORRESPONDENT TALKS ABOUT ROYAL FAMILY

Keeps Active . . .

Queen Mary Carries on Duties While on Holiday, Is 'Resting' in Country

By MOLLIE McGEE
(Canadian Press Correspondent)

LONDON, (CP) — The King's expressed preference for picture gowns with high trim waists and full skirts is setting a fashion, and dressmakers preparing autumn shows of new styles are all making up a model or so "to the King's taste."

The off-the-shoulder line of a century ago will reappear at fall functions and behind scenes next season's debutantes are going into excited huddles to discuss the advisability of growing longer hair to go with the gowns.

Meantime, members of the royal family are taking a well-earned rest. Queen Mary's personal standard was fluttered down from the flagpole of Marlborough house, indicating her Majesty is no longer in residence. She went to visit old friends, Lord and Lady Somers at Eastnor Castle, Hereford—her first visit since she was young "Princess May." Even in those peaceful surroundings she is not resting, but with handwrought silver trowel "well and truly" laid the foundation stone of a new county council hospital. She also unveiled, from her car, commemoration stones at the entrance to playing fields named after her husband, George V, and listened to a speech from the mayor.

Always quickly aware of what is going on around her, Queen Mary noticed several nurses from the local Red Cross unit standing at one side. Beckoning the head nurse she inquired about them. "These nurses do extraordinary good work," said Queen Mary to those beside her before she drove away.

It was the good work of Miss Betty Nisbet's embroidered sampler—seven months in the making—that persuaded Queen Mary to accept it as a present, evidently her first present from an outsider. When Miss Nisbet offered the gift, she received a letter from Marlborough House explaining that members of the royal family do not usually accept presents from any but their own relatives and friends, but that Queen Mary would accept the sampler in this case. Miss Nisbet is the daughter of a naval commander.

YOUNGER ROYALTIES

School is not over in England until mid-July, reopening about Sept. 19, so Princess Elizabeth and Princess Margaret Rose studied in the schoolroom at Buckingham palace while the King and Queen toured Wales. For a treat they were allowed to have picnic teas down near the little lake in the gardens as they do at York cottage, Windsor, during family week-ends. Princess Margaret Rose is making a collection of wild flowers and rather turns up her tiny nose at the palace gardens.

The younger royalties expect to spend part of their holidays with their grandparents at Glamis castle where Princess Elizabeth is hoping to receive as a present the desk at which her mother did her lessons an which she greatly admires. The Countess of Strathmore has promised to give it to her "when you are old enough." Later both princesses have begged for the English child's holiday—"a trip to the seaside."

Trail Girl Married

Mrs. John Decembrini, daughter of Mr. and Mrs. Eugenio Merlo, Trail, a recent bride who is making her home in Trail.—By Progress Studio, Trail.

Wants Work . . .

Sympathy Offered to Crippled Girl by Many Readers

(By VIRGINIA LEE)

One of the finest things in all the world is helpfulness and one of the loveliest words is service. That may sound like tosh to you but it is absolutely true. I have proved it by experience.

Whenever I ask for help in this column people rush to my assistance. Remember when I asked for the words of a song? I was overwhelmed with answers from everywhere.

The other day I asked for help for a girl who was crippled from infantile paralysis, and although I haven't as yet had the offer of a job for her, I have letters of comfort—which I have sent her, and a request for her address from a girl similarly handicapped. I still have hope that I may get a clue to a job. After all, why shouldn't these people be employed as well as their more robust brothers and sisters? This horrible disease does not impair their minds—merely their bodies. Surely there is some work they can do which would give them enough to support themselves and so give them self-respect. I feel strongly on this point.

I was told recently of a pretty and bright girl who is a cripple and was insulted by the employer to whom she applied for a job that she was perfectly capable of filling. He said she "didn't have the 'lines' for it!" And it was a clerical job—not one that needed a clothes model or one in which a pretty figure was a qualification. How could a man—no matter how tough and hard—say such a thing to a young girl. I cannot imagine. He surely had no daughters of his own and had never suffered or he couldn't have done it.

* * *

ROSALIND: Yes, Rosalind, you can learn self-control. You can keep yourself busy and your mind off your worry. How do you suppose all the unmarried women in the world manage? They take their emotions out in doing good jobs, studying, in doing things for people. They get work into which they throw themselves and forget about their own little selves. You can do the same. Do it.

And you'll probably marry in time—if you care to—and that will be that. Good luck to you.

* * *

BLONDE is very tall, although she is only 16, and very thin. A year ago she had plenty of friends, but now has none. Do I think she can have changed in a year? She feels that she looks "awful", is getting wrinkles in her forehead and her hands look like a woman's who does hard work. Whenever she goes anywhere she feels that people are looking and laughing at her. She loves to swim but doesn't do it because "people call me awful names."

I would imagine that you have grown faster than your strength can stand, dear, and that accounts for your thinness and everything. However, the best thing to do is to go to a doctor and have a thorough physical examination. Get your mother and father to take you.

Is your appetite good? Do you rest well?. If your health is good, swimming should help develop your muscles so that it is too bad that you have given it up. I suppose people call you skinny, etc. Can't you train yourself to laugh and not mind them?

You yourself have not changed, dear, except that you have become too conscious of yourself because of your rapid growth.

Do everything you can to keep your mind off yourself and to win friends. Drink plenty of good rich milk, eat custards, cereals, bread and butter, fresh vegetables and fruits, get plenty of sleep and rest and check up with the family doctor. As you stop growing and develop physically you will lose the thinness and round out, if there is nothing physically wrong with you.

Keep in touch with me.

* * *

MRS. M.: Thank you for writing about the girl who said she was lonely. I do not happen to have her real name or address, so I am afraid you cannot help her personally. Thank you again for your kind offer.

* * *

Worried Kay: Why not tell your mother that she hurt the boy's feelings by saying that she wanted you to go with other boys besides him, and let her make it right with him so he will come in your home again? Your mother doesn't want you to care too much for one boy before you have any experience, so she wants you to go out with others.

I am sure she will be sorry she hurt the young man's feelings, for she apparently has nothing against him. If she knows how he feels she will make up with him.

* * *

To ONE WHO IS INTERESTED: I do not know the real name of the person who wrote to me under the name you mention. Neither have I her address.

Canadian Woman Wins High Place in Public Life

GUELPH, Ont., (CP)—Years ago, in Guelph a litle girl, flaxen-haired, with deep blue eyes and a wide engaging smile, wended her way to school where she was a much-loved pupil. The same girl, grown to a cosmopolitan, public-spirited and broadminded woman, is the new president of the Pan-Pacific Women's association.

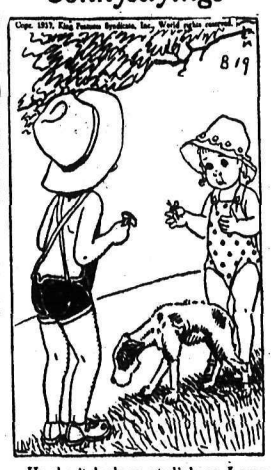
Many residing in Guelph vividly remember Mary L. Bollert, daughter of the late Mr. and Mrs. E. R. Bollert, who was named to this important office at the triennial meeting in Vancouver of the Pan-Pacific association this month.

The Bollert family resided on Dublin street and Mr. Bollert was a merchant on Wyndham street, taking an interest in all civic affairs. The family were members of Dublin Street United church, where Mrs. Bollert was always active.

Miss Bollert now is dean of women of the University of British Columbia, and a telegram of congratulation has been sent from Guelph on her appointment.

LONDON (CP) — Isabel Griffin fell in front of a train at Bound's Green underground station and escaped with shock and a cut on the thigh. She landed in a safety pit.

Sonnysayings



He don't look as stylish as I was expectin'! But he'll be cool in spots! Mother's nail scissors an' Daddy's safety razor is too small fer this work!

Dessert . . .

hints for housewives

BREAKFAST
Bananas and Cereal With Top Milk
Toast Scrambled Eggs
Jam Coffee
LUNCHEON
Baked Beans German Cole Slaw
Sliced Peaches Cookies
Milk
DINNER
Veal Roast
Potatoes Baked With Meat
Creamed Young Onions
Sliced Tomatoes
Pecan Ginger Pudding Tea

Here is a day's menu. It is pretty simple, with an unusual dessert for dinner. Are you fond of preserved ginger? I am, especially the candied kind that comes by the pound or in tin boxes. The kind called for in this recipe is preserved in heavy syrup.

GERMAN COLE SLAW — Cut cabbage very fine with slaw cutter, or chop fine. Place on chopping board and sprinkle with salt. Roll with rolling pin and pour off accumulated moisture. Put cabbage into deep bowl, adding one cup sugar. Cover with sufficient liquid in proportion of two-thirds cup vinegar to one-third cup water. Let slaw remain in liquid one hour before serving. When ready to serve, pour off vinegar and roll into cabbage enough whipped cream to make slaw very light and fluffy.

PECAN GINGER PUDDING — Three tablespoons quick-cooking tapioca, two cups milk, scalded; one-fourth teaspoon salt, six tablespoons sugar, three tablespoons white corn syrup, four tablespoons ginger syrup (from preserved ginger), two egg whites, one cup heavy cream, whipped; four tablespoons pecan meats, four tablespoons finely diced preserved ginger. Add tapioca to the scalded milk and cook in double boiler over hot water for 15 minutes, or until tapioca is clear and mixture thickened. Mix four tablespoons of the sugar with corn syrup salt and ginger syrup; stir until sugar is dissolved. When cool, add remaining two tablespoons sugar to egg whites and beat until stiff. Fold into cold tapioca mixture. Fold in whipped cream, nuts and ginger. Pour into trays of mechanical refrigerator and stir three times while freezing. Serves six.

Whether you are having your new home painted or your old one repainted, there are several things to consider before the job is begun, says Lonore Kent, in Good Housekeeping. She goes on to give these pointers on painting:

Consider carefully the color scheme before you instruct your painter what colors to use. There are several angles to consider; the color of your roof, the color of neighboring houses, the style of architecture and your own personal preference.

Remember that color used on large areas looks quite different from the way it does on the small region occupied by a color chip.

Also that some colors dry darker than they appear as put on—others lighter. For this reason it is a good idea to have your selected colors brushed out on a large board and allowed to dry before you give the painter your final okay. It is wise to inquire as to the permanence of the shade and select those of enduring service even at a higher price.

Finally, be sure to entrust the painting of your home to workmen who have a reputation for their dependability and skill. Experienced painters will know how to deal with the problems of old as well as new constructions.

Hot Fudge Sauce

One and one-half ounces bitter chocolate, one cup boiling water, one cup sugar, two tablespoons of light corn syrup, three tablespoons butter, dash salt, few drops vanilla. Grate chocolate or break into small pieces. Put into saucepan add boiling water. Heat slowly, stirring until chocolate is well blended with water. Stir in sugar and corn syrup. Heat again to boiling and boil until the mixture forms a thick jellylike mass when tried in cold water. Remove from stove, add vanilla and butter, stirring them in. Serve hot or cold. This sauce may be stored and reheated as needed.

Guiding Child . . .

Chair-Sitting Punishment Is Best for Tots

By GARRY C. MYERS, PH. D.

We parents would like to guide our children so well and live with them so well that if we dropped off at any time they would be able to live a good life without us. Now suppose you were very sure that you had only about two more years to live with your family. Let me quote from a letter by a mother of a boy 12 years old.

She says:—"Since he was a few months old my health has been gradually failing, and it now seems quite certain that I will have to leave him in just a few more years. He, of course, does not know this, altnough he knows I am not well, and we have a happy time, the three of us together.—

"Sometimes I have made mistakes; sometimes I have been at a complete loss to know what to do and learned not to do anything until I had decided; sometimes I thought I was doing the right thing but wasn't; but I have learned that many things I have worried about have straightened themselves out in time, and I was rushing things too fast.

"Some things we agreed upon very early: we would tell Jack he was a good boy when he was, but never that he was bad; he must not be promised something 'if he were good'; any promised thing must not be denied because of some last-minute 'badness'; we must not show him off before others or discuss him before others. I think we have been fairly successful in these resolves. I do not wonder that some children act as they do when I have listened to their mothers for a while —

CAUGHT IN SMALL THEFT

"Once I caught Jack in a small theft; he was five years old. Once I caught him in a lie; yet when these things were adjusted he never knew that I remembered them, and would trust his honesty anywhere. I have never made it necessary for him to lie to me. We once lived by some people very religious, very conscientious, who taught their children to lie and steal by their methods, and it taught us a lesson. I never tattle on Jack, and certainly there is no 'You just wait until your dad gets home' at our house.

"I early discovered the chair-sitting punishment, and I thing it a good solution to this problem, although Jack has had a few spankings when quite small. We have an electric clock, and almost at once he learned that he could not get off the chair even ten seconds before time. I did not let him read or play while on the chair, either.—I have tried never to threaten, but have not always succeeded, and sometimes I have failed to make good my word. I am sorry to say. It really is not fair to the child. Sometimes, perhaps oftener than I realize, I have been too lenient because I feared I hadn't the backbone to go through with the more rigorous program."

Caused by Pollen . . .

Sufferers With Hay Fever Aided Remedies Listed

By LOGAN CLENDENING, M.D.

The treatment of hay fever, once an attack is on, is pretty hopeless. The use of eyewashes and nose sprays gives a little temporarly relief; a substance called estevin dropped into the eye helps most people more than anything else, as do ephedrine sprays. But this is only temporary and not complete at that.

Hay fever, we know, is caused by the pollen in the air—in the fall, pollen from agweed is the plant almost always responsible. So prevention by using vaccines made by dissolving this pollen in simple salt solutions has been a logical method of treatment. The vaccines must be used very weak at first in order to accustom the body to the material, so this treatment should be begun some time before the season starts. I would advise all hay fever patients to try this method, for when relief occurs it is practically complete, but such relief is not obtained in all cases.

These patients then must choose between enduring the attacks, having an air filter in the bedroom and workroom, or going on a vacation.

Air filters or air conditioners are available in many forms and to fit nearly any purse. If a room is kept closed so that all the air that enters it passes through a filter which catches all the pollen, any hay fever patient will be comfortable so long as he remains inside, but this is hard to do continuously for six weeks.

VACATIONS NOT LONG ENOUGH

Vacations which last out the whole hay fever season are also too long to be practical for most people. The heaviest pollen fall, however, occurs in twenty days from August 20 to September 10, and a vacation during these dates will get one out of his worst suffering.

Where to go? Well, the hay-feverites themselves found that out, each for his own local, long ago. The New Englanders go to the White Mountains, most middle westerners go to Northern Michigan, Wisconsin, Minnesota or Canada, or Colorado or California, and the southerners go to El Paso or the seashore.

Most of these resorts advertise themselves as hay fever refuges, and some physciians think they overstate their claims. When a Great Lakes resort says, "You are practically imune from hay fever at——" that is about as far as they can go with perfect truthfulness. But some of them go further and say, "No sneezing at——"or "Ragweed and other pollens simply cannot reach——". There is no place fit for a vacation which ragweed pollen simply cannot reach if the wind is in the right direction. But the amount is very small in the localities mentioned, and for all practical purposes the claims are justified.

Serial Story . . .

Rustle of Silks

By MARIE BLIZARD

READ THIS FIRST:

Ambitious to be a dress designer, Mary Barrett accidentally meets Tony Castle, owner of a smart New York dress shop. After examining some of her sketches, he offers her a job. Mary, working late, is accused of copying a design in Castle's shop and is dismissed by Francine Long, his head buyer. Tony comes to Mary's rescue with a job in his advertising department. Tony begins to see Mary frequently. Before long their friendship ripens into love.

(NOW GO ON WITH THE STORY)

CHAPTER 6

The telephone buzzed angrily. Mary reached for it and smudged charcoal on the front of a white linen blouse that had been crisp and clean an hour before. She pushed the damp curls out of her eyes and picked up the instrument.

"Hello . . . yes, this is Miss Barrett . . . oh, I'm sorry. You see we decided to hold the sale at the last minute . . . yes, the copy will be sent over immediately . . . you're sure the sketch is okay? . . . fine. I'll let you know what we're running Saturday . . . no, I'll have to speak to Mr. Castle about it."

She hung up, wiped her sticky hands on a smock that was too hot to wear and went back to the problem of sketching a short ermine jacket when the temperature hovered around a hundred in the shade.

The door at the back of her hot-box studio immediately beyond the workroom opened. Kay Ericson, Castle's secretary, popped her head in.

She collapsed on a chair covered with proofs. Mopping her forehead with her handkerchief, she let off steam:

"Phew! You don't mind if I try to cool off, do you?"

"Not at all," Mary answered pleasantly, "if you give me the secret."

"You may think it's hot here but you ought to be in the boss' office," Kay retorted. "Between the temperature and his temper . . ."

"Temper?" Mary asked mildly. Tony had the reputation among his employes of being "sweet".

"Maybe you'd call it agitation. Can't say I blame him. Henry Gordon just sent over a play for him to costume"—she waved a blue covered manuscript in the air—"and Francine would take this time to have appendicitis. He's called out every good designer in New York and no luck! Most of

(Continued on Page Eight)

Crinkled Crepe Gown

By LISBETH

The hostess gown, or robe, certainly appears in many guises. It may be a simple cotton coat in stripes or floral design with a zipper down the front; or it may be in silk or satin or combinations of these luxury fabrics and lace, expensive and glamorous.

The one pictured, worn by Iva Stewart, screen player, is of pink crinkled crepe with a complicated effect in the material on each shoulder and short sleeves, and sophisticated touches of maroon colored velvet in the belt which is fastened with a jeweled clasp, and in the small ascot scarf.

Mention of the jeweled belt reminds me that beads, both large and small, in clusters will be a favorite fashion of the autumn. They are used to stress draped necklines. Necklaces have been definitely out of the picture until last spring when pearl beads and gold ones were used to set off black dresses. Many women will be glad of the chance to again wear the beads which they have been hiding away the past few seasons.

The more elaborate of the hostess gowns, worn for entertaining, are in chiffon this season. A trailing gown of turquoise chiffon, for instance, with ruffles of the same material edging the gown from neckline to hem and around the hemline, is decidedly attractive when seen hovering over a coffee table. This particular model was belted with ribbon velvet.

"SAFETY FIRST" GATE PLANTING

When planning a driveway for the home grounds, if there is to be a gate, have it placed well back from the road. This allows a machine that is being driven in to be stopped well off the highway in case the gates are closed.

Do not plant tall shrubs or evergreens between the gate and the road. Low plantings permit a free view of the road, which is essential for safety when driving out into traffic.

Plantings of low growing shrubs should be used as far back as the gate posts. Taller shrubs can then be used from there in.

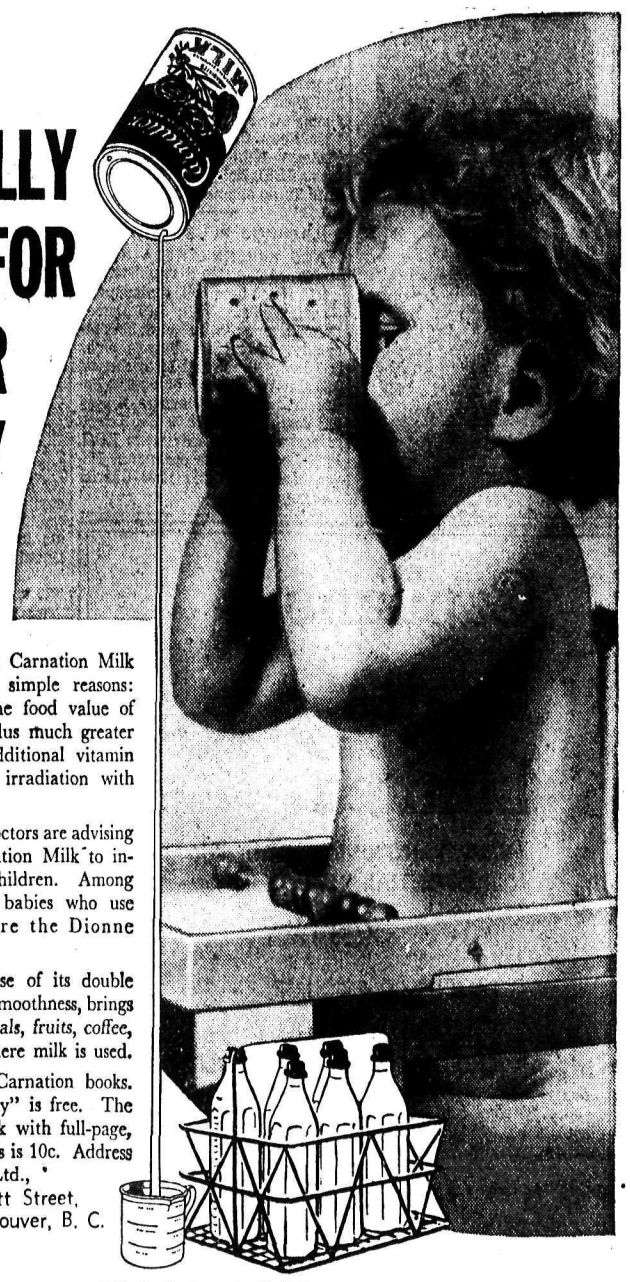
SPECIALLY GOOD FOR YOUR BABY



BABIES thrive on Carnation Milk for these very simple reasons: Carnation has all the food value of pure, whole milk—plus much greater digestibility AND additional vitamin D potency through irradiation with ultra-violet rays.

More and more doctors are advising the feeding of Carnation Milk to infants and growing children. Among the world's famous babies who use Carnation Milk are the Dionne Quintuplets.

This milk, because of its double richness and creamy smoothness, brings a new delight to cereals, fruits, coffee, and to all baking where milk is used.

Write for these Carnation books. "The Contented Baby" is free. The Carnation Cook Book with full-page, full-colour illustrations is 10c. Address Carnation Company Ltd., Abbott Street, Vancouver, B. C.

• Mr. and Mrs. J. Fisher of Hall spent yesterday in town.

• W. J. Astley of Queen's Bay was in town yesterday to attend the Old Timers' picnic.

• Mr. and Mrs. A. Lenarducci of Trail and their little daughter are guests at the home of the latter's parents, Mr. and Mrs. D. DeFerro, Robson street.

• Mr. and Mrs. Stewart Fletcher and daughter Rosemary of Calgary are visiting the former's mother Mrs. A. McL. Fletcher, Nelson avenue, and Mr. and Mrs. George Helbecque at Bonnington.

• Mr. and Mrs. J. Percy Coates have left on a month's holiday to Vancouver.

• Mr. and Mrs. E. Thouret of Vancouver have returned after visiting relatives, Mr. and Mrs. Frank Soucci at Vallican.

• Mr. and Mrs. Rossman, Nelson avenue, have as their guest their daughter, Miss Teresa Rossman of Trail, who just returned from holidaying in coast cities.

SAINT JOHN, N.B. (CP)—Two exhausted young men clinging to an overturned canoe near Sand Point were rescued by a trio including G. N. Hatfield. After accepting the hospitality of Hatfield's home they beached the canoe carelessly and disappeared. Later it became known they had stolen the craft. And Hatfield discovered a pair of shoes was missing from his house.

SPORTS ASHORE AND IN WATER, FUN AT PICNIC

Old Timers in Charge Have as Much Fun as Youngsters

NOVELTY EVENTS AMONG FEATURES

Old timers of Nelson and district staged a program of sports with their picnic and city birthday celebration at Lakeside park Wednesday, and it was difficult to figure who enjoyed them most—the youngsters who participated or the old timers who ran the show or crowded in among the youngsters on the spectator sidelines.

But it was grand fun by any measuring stick, and produced loads of laughter.

Added events on the afternoon program were the boxing bout staged by the glove-flinging mites, Tarzan Milburn and Dynamite Swain, to the delight of the big crowd; and dancing exhibitions by Jimmie Stout and Helen Stout, who gave the Highland Fling and double sword dance to the pipes of their brother, Jack Stout.

Results follow:

Novelty Events

Tunnel Ball—

Boys—George Lapointe, David Wigg, Jimmie McIvor, Lloyd Ridenour, Tommy Wallace, John Worthington, Jim Ritchie, Jack Whitehead and D'Arcy Duncan.

Girls—Agnes Pennington, Evelyn Perdue, Dorothy Hanson, Carol Perdue, Audrey Hinton, Margaret Singleton, Pat Gillott, Frederica Davis, Norma Simpson and Denise Romano.

Egg and Spoon—

Girls 10 and under—Dorothy Wallace, first; Viola Smiley, second; Glenna Lowes, third.

Girls 12 and under—Eleanor Maglio, first; Denise Romano, second; Nora Anderson, third.

Sack Races—

Boys up to 14—

First heat—Eddie Vulcano, first; Tony Triggs, second; Raymond Ketcham, third.

Second heat—George Perdue, first; Lloyd Ridenour, second; Jim Brown, third.

Third heat—Tommy Wallace, first; Stewart Irving, second.

Final — Tommy Wallace, first; Stewart Irving, second; Tony Triggs, third.

Peanut Race—

Girls up to 14—Nora Anderson, first; Margaret Singleton, second; Viola Smiley, third.

Crutch Race—

Boys—Fred Stainton, first; George Ioanin, second; George Lapointe, third.

Balloon and Plate Race—

Girls—Rosalie Triggs, first; Coral Sahara, second; Agnes Pennington, third.

Wheelbarrow and Balloon Race—

Boys—Beverly Cady and Raymond Ketcham, first; Eugene Catalano and Tommy Wallace, second; Teddy Jackman and Eddie Vulcano, third.

Broom and Balloon Race—

Girls—Margaret Singleton, first; Dorothy Gormley, second; Coral Sahara, third.

Three-legged Race—

Boys—Jim Ritchie and Ernie Wilson, first; Douglas Frederickson and Harry Pennington, second; Victor Graves and Tommy Wallace, third.

Log Rolling Race—

Girls—First heat—Annie Sikorsky, first; Dorothy Gormley, second.

Second heat—Lillian Hickey, first; Carol Perdue, second.

Third heat — Eleanor Vulcano, first; Carrie Langill, second.

Final—Lillian Hickey, first; Annie Sikorsky, second; Carol Perdue, third.

Log Rolling Race—

Boys—first heat—Douglas Frederickson, first; George Ioanin, second.

Second heat—John Worthington, first; David Wigg, second.

Third heat—Tony Triggs, first; Fred Moffatt, second.

Final—David Wigg, first; John Worthington, second; Tony Triggs, third.

FREDERICTON (CP) — Winter killing and unfavorable weather during the picking season contributed to a 20 per cent reduction in New Brunswick's strawberry crop this year as compared with a bumper yield last year.

FREDERICTON (CP) — New Brunswick's 1937 apple crop is estimated at 40,000 barrels. This would be the best yield since 1933, when the commercial crop amounted to 43,291 barrels. Picking of early varieties is under way.

MALONE, GILKER

(Continued From Page One)

eastern British Columbia. Your civic pride is your basis of progress," he asserted.

Among those on the platform were four former mayors, C. F. McHardy, J. A. McDonald, L. H. Chaquette and S. H. Smythe.

Mr. McHardy appealed to the young people attending to take an active part in any of the dozens of community activities, just so they were active. "We of the past are proud of our city and we want you to carry on," he urged.

That it was easy for any mayor to carry on upon the foundation laid by John Houston and his council and the mayors and councils who followed, was asserted by Mr. Choquette. He was "very happy to take part in the fortieth anniversary and old timers' picnic.

OWN FAULT IF FAIL

"I came here 44 years ago and I have no regrets," said Mr. McDonald. He had done his best to build up a business in the city, and the city had been "very kind" to him. "Nelson is a good town and anyone who can't do well in it—well, it's his own fault," the firmer mayor declared.

All honor was due to former mayors and councils, and to the old timers of today who had done much for the city, asserted Mr. Smythe. For civic progress co-operation was essential, and Nelson had enjoyed it to the full in the past.

Besides the guests of honor, Mayor Morgan and the four former mayors who spoke, those on the platform included Aldermen Roy Sharp, T. W. Slader and P. G. Morey of the present council; former aldermen A. D. Emory, J. F. Coates, W. R. Campion, R. A. Peebles, Harry Houston and William Rutherford, W. E. Wasson, city clerk; T. L. Bloomer of Castlegar and Al Tregillus of the reception committee, and the following early-day lady residents of the city — Mrs. George Steele, Mrs. Joseph Sturgeon, Mrs. C. V. Gagnon, Mrs. Angus Shaw, Mrs. Thomas Madden, Mrs. Charles Watts, Mrs. J. A. Gilker, Mrs. J. E. Annable, Mrs. J. J. Malone, Mrs A. McL Fletcher and Mrs George Brown.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful cramps; when your nerves are all on edge—don't take it out on the man you love.

Your husband can't possibly know how you feel for the simple reason that he is a man.

A three-quarter wife may be no wife at all if she nags her husband seven days out of every month.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

PENTICTON'S PLAN FITS IN WELL WITH GENERAL SCHEME

Penticton is urging that the road between Osoyoos and Kamloops should be hard-surfaced.

*This should be done. It is a section of the Kootenay-*Coast highway which connects with the Kootenay to Boundary road which at present is so badly in need of relocation and reconstruction. This relocation should be carried out before construction of the Hope-Princeton road. Once we have replaced the present Rossland-Cascade road with a suitable all-year highway there will then be a reasonably good road from the Crows Nest to the seaboard. It will be by way of Penticton, Kelowna, Kamloops and the Fraser Canyon.

All Kootenay should get behind R. R. Burns, M.P.P., for Rossland-Trail, in pounding a way for the relocation and reconstruction of the connecting link between Kootenay and the Boundary.

SUPPLY AND DEMAND IN THE PROFESSIONS IN CANADA

Nearly three per cent of the young people growing up in Canada today become graduates of a university,—about four per cent of the young men and one-and-one-half per cent of the young women, according to a bulletin prepared by the Dominion bureau of statistics. The proportion receiving a degree in Arts or Science is nearly double what it was 15 years ago, but in several of the professions the increases has not kept pace with the increase in population, and in a few the annual number of graduates has definitely fallen. The population is larger per doctor or clergyman now than it was a generation ago, and is nearly double in some provinces what it is in others; the number of veterinaries has actually fallen while livestock has become much more numerous.

Some of the most rapid increases in professional workers have been in the several branches of engineering. Native-born Canadians have met little more than half the demand for mining, mechanical or electrical engineers, designers, draughtsmen and architects, and only about two-thirds of the demand for civil engineers, surveyors, chemists, assayers, and metallurgists. Much the greatest ouside source of supply has been the British Isles, while the United States has supplied larger numbers than the continent of Europe. In spite of greater liability to unemployment than most other salaried professionals, the earnings of engineers and other applied science workers are higher than for the average professional, whose salary in turn is more than double that of a non-professional worker.

The continent of Europe has contributed its greatest proportions to Canadian professionals among clergymen, artists and musicians, and only in these fields has its contribution exceeded that of the United States. Yet by racial origins music and art are two of the most "English" of the professions in Canada, and theology one of the most "French". Journalism is one of the most "British", in the sense that persons of English, Irish and Scottish origins all occupy a considerably greater share of positions in journalism than other occupations. Considering all the progressions together, persons born in the British Isles occupy more than their share of positions, i.e. considerably higher percentage of the total than in other occupations, while the opposite holds for immigrants from Europe.

NEW YORK GOING FOR A "P.R." RIDE

In Canada we have tried proportional representation, DeValera to his sorrow has it as part of his policy in Ireland; some years ago we tried it in Nelson, but we did not like it very well. It was too cumbersome, too involved, too much of a darn nuisance and gave no proof of counterbalancing improvement in government.

New York has a new charter and proportional representation is a part of the changes. While the new charter does not come into effect until Jan. 1 a staff is already being taken on to prepare for the change. Proportional representation will create an uncertain number of new jobs. The staff which will meet at one central headquarters in each New York borough to count the vote for councilmen will consist of directors of the count at $30 a day, consultants at $20 a day and canvassers at $10 a day. The three titles were created in conformity with the provisions of the new charter.

In asking the Board of Estimate to make financial provision for the compensation of the employees the director of the budget recommended that the number of incumbents of each title be unlimited. Patronage will be given out in New York in handsful. The proportional representation bill itself provided for a board of two competent persons as directors in each borough, one from each of the two political parties which at the last preceding election cast the highest and next highest number of votes. No attempt was made in the law to fix the number of employees in each borough, but there must be equal representation of the two dominant parties.

How long the count will last and how many employees will be necessary to make it remains in the realm of conjecture. Some of the employees will hope not to be out of the trenches by Christmas. And the same sort of thing will go on prior to each New York election.

..Between You and Me

By J. B. C.

FEW ENGLISH WORDS THAT AREN'T STOLEN

Americans have been accused of being "the greatest language thieves in history."

The accuser is Wilfred J. Funk, dictionary maker, poet and publisher, who asserts that four out of every five words in the English language are "stolen."

It is common knowledge that German "sauerkraut", Hungarian "goulash", a Spanish "canyon", an Italian "piazza" and even the Yiddish "kosher"—which Americans make use of as a synonym for "O. K." — are what Funk calls "stolen goods."

But now he puts the thieveries at 80 per cent, and in the American, as contrasted with the English language, he says, it runs a few points higher.

Funk has chosen "the 10 most remarkable stolen words." Here they are:

1. Bungalow—Bengalese.
2. Verandah—Asiatic Indian.
3. Pickaninny — Spanish (from "Pequeno.")
4. Kimona—Japanese.
5. Caboose—Dutch.
6. Pyjama—Asiatic Indian.
7. Avenue—French.
8. Salt—Latin (from "Saltus").
9. Hippopotamus—Greek.
10. Potato—American Indian (or tomato.)

"We need not be ashamed that only a fifth of our vocabulary is from the original Anglo-Saxon," Funk consoles. "It shows youth, vitality Only dead languages are honest."

DEAN OF LAW SCHOOL SPEEDER, FINES SELF

Dean Leon Green, of the Northwestern University Law School, of Chicago, at the direction of Judge J. M. Braude, before whom he was arraigned on a charge of driving at 58 m.p.h., suggested that he be found guilty and assessed a fine of $5 and no costs. The court was lenient, however, and dismissed the charge when Dean Green said that he had driven an automobile 500,000 miles and never been arrested before.

"You know enough of the law to judge this case for yourself," said his Honor. Accused pondered for some minutes before fining himself.

DANCE WHAT YOU LIKE NO SINGLE STYLE NOW

Take it smoothly, shake it up or whirl it—no matter, you'll be in dancing style.

It might be a tantalizing, smoothly gliding rhumba or tango, it might be a red-hot fox trot or you might choose the old-fashioned waltz. They *are tops in popularity and nobody* knows where or when one will outdo the other. Just let your music be your guide and dance, advises the Chicago News.

The bringing together of dancing instructors from forty different states and from Canada at the annual normal school of the Chicago Association of Dancing Masters has resulted in the discovery that there is no single trend in dancing, but that the rhumba and the tango are coming the nearest to "taking the country by storm."

"The dancing masters have given up trying to set the trend of dancing all over the country," said Leo Kehl, principal at the school. "We no *longer dictate dances. The teachers* learn them all and teach what is popular in their own communities.

"Certainly the nationally popular radio bands are influencing the dance, but I daresay that the rhumba is not danced by 10 per cent. of the ballroom dancers in cities under 10,000."

Paul Shahin, of Chicago, was positive that the tango and slow fox trot was the most popular dance today.

THE CANCER CRUSADE

By J. W. S. McCullough, M.D., D.P.H.
Secretary Cancer Committee
THE HEALTH LEAGUE OF CANADA

The marvels of the telegraph, the telephone, electric light, wireless and the radio, were discovered only after long preparation of the ground-work in physics. The discovery of insulin was made possible by a considerable preliminary groundwork which aided its discoverers in forging the final link.

In the infectious diseases a similar ground-work was established by the science of bacteriology, the life study of the immortal Pasteur. It is through this work that either by the prevention of infection or through direct attack by means of curative serums, that diphtheria, lockjaw, typhoid fever and pneumonia have been brought more or less under control. There are strong hopes that by the efforts of research workers, cancer too, may yield up its secrets.

Cancer, in the opinion of most scientific workers is not a single disease; it is rather a group of diseases, each one of which may have a cause or group of causes. It arises in the body itself and so far as known, has no direct cause such as a germ, to produce it, although outside agencies (such as irritants of various kinds) may have a part in its causation. It appears in persons otherwise apparently well; it may be born in a child. The disease seems to be one of life and growth resembling in many ways the growth of a child in the mother's womb, but with the difference that, while the child has a father and mother, the cancer has no father—only a mother; the mother being the tissues of the body which in some way have changed so *that the microscopic cells which* compose these tissues can grow uncontrolled. Since cancer is a part of our own bodies and is derived from them, it obviously cannot be very different from the healthy cells from which it grows.

Next article—"Cancer Research No. 2".

?? Questions ?? ANSWERS

This column of questions and answers is open to any reader of the Nelson Daily News. In no case will the name of the person asking the question be published.

A.R.K., Nelson—Rev. A. E. Roberts in reviewing a book "A New Church faces a New World", by Rev. Jesse H. Arnup, D.D., mentions its work "among the five Color divisions of the Human Race" i.e. White, Red, Brown, Yellow and Black." Can you explain how these five are merged into three?

While different ethnologists divide mankind according to dif*ferent characteristics it is gener*ally accepted that in dividing according to color there are three basic races, the yellow-brown, the black and the white. Some ethnologists however divide the yellow-brown race into three distinct races, the red, the brown and the yellow thus making five basic color races.

P.R., Castlegar—Do I need a license to cut hair if I get paid for it and do I need a license to buy stock from wholesalers and order from mills?

You must have a license to cut hair and you must also pass examinations to get the license. Would suggest that you write to the Barber's Association of B.C., Room 208, 509 Richards street, Vancouver, B.C. for full particulars. You do not need a license to buy from wholesalers or mills.

K., Farron—Will you please give me the address of a jam and tomato can manufacturer?

American Can Company Ltd., foot of Princess Avenue, Vancouver, B.C.

VERSE

VAGABOND

Some may long for a cottage trim,
With a well kept hedge and lawn;
But give me a winding dusty road,
And far off hills in the dawn.

Prune your maple and water it well,
But the tree for such as I,
Is a lonely pine on the mountain's crest
Silhouetted against the sky.

Oh, the open road has a vibrant call,
For the vagabond's heart alone;
And it lures him over the horizon,
With its haunting restless tone.

And sometimes in your cottage trim;
With its well kept hedge and lawn,
Don't you wish you knew where the white road led
As it stretches out to the dawn.
—Roy R. H.

JUDGE'S ROPE TRICK

When the body of Abdul Rahiman was bound with rope in Bombay Mohammed Ghoshakhan Shavjarak was arrested because the end of a piece of rope found in his house fitted exactly into the end of Abdul's lashing. Also, the cut looked quite fresh. Mohammed was convicted of murder, sentenced to death, appealed. In Bombay High Court, Mohammed found a friend in Mr. Justice Macklin. He took the two ropes, cut one, found the ends of any two pieces could quite easily fit. His cut looked no fresher than the earlier ones. Mohammed went free. — (From Cavalcade.)

"From experience, which do you prefer—English, Australian, or Argentine beef?"—Humorist.

WHAT DO YOU THINK?

A Foundation of Justice Is Only Hope World Peace

Human and Garden Weeds

To the Editor:
Sir:

I hasten to reply to the very interesting and instructive letter which "Botanist" has contributed to today's issue of your paper, in answer to my letter on the numerous weeds that infest Canada.

Botanist and myself are in complete agreement on many important points. For instance, we both regard weeds, whether the vegetable or human variety, as plants or people that are out of place. We do not think of them as inherently vicious or harmful, we can see very often great possibilities of usefulness in them, but as they are and in the place they occupy, they are weeds.

Botanist and myself have seen once-despised weeds elevated to the position of highly esteemed crops. For instance, Sweet Clover which was classed amongst the weeds a few years ago is now recognized as a very valuable plant (in it's proper place). Also as my last letter pointed out, a fine young cabbage plant, *growing like a weed amongst a row* of beans, had only to be carefully transplanted to a proper situation and the useless weed may develop into a magnificent vegetable of great value.

Our scientific friend is shocked at my "crude classification" of plants into useful crops and weeds and contends quite rightly that many common plants which he or I would ruthlessly hoe out of our gardens, may be quite beautiful and therefore useful, by the roadside or in some waste place. I make no apology for my "crude classification" as I was not attempting to talk science but to set forth the very simplest and profoundest division of society.

My illustration struck the mark. That is why our friend "Botanist" objects to it. That is why he complains that "I have grievously misread the human problem" and has had to publish his very able and interesting letter under an assumed name. He has a strong suspicion that the general public would include him in the weed class. Once more, I do not blame our human weeds. They are the natural outcome of our unregulated society, where we are trying to grow our cabbages by sowing them broadcast and leaving them to fight it out.

Even a "Botanist" will agree that we cannot get good results by such "crude" means and that many weeds must result.

But many people ask me. How can you tell who is useful and what is useful work? The reply is simple. Society must decide what work it wants done and who should do it. In other words, we must organise the nation to do the nation's work. If *war broke out tomorrow there is* no doubt but that amongst the first actions of the government would be an order to each Canadian "to do his or her bit." You would organise the nation for war and send some to the trenches, others to munition factories, others to grow food, make roads, etc., etc., as required. Rich and poor under the law would be ordered to get busy (of course very many rich people would seek to evade the law and for a time at least, would do so.)

Conscriptionists declare that it is just as necessary to organise the nation properly for Peace as for War. Moreover we assert that only by adopting Conscription for Peace can *Justice be attained* and only on foundations of Justice can there be any hope of World Peace. At present, both on this continent and in Europe and in Asia and in Africa, we steadily drift towards WAR.

It is not nice to be a human weed. I know, because I have had ample opportunity to try it out. It is degrading to be classed amongst the weeds and we can get rid of them, but at the proper price. The price is: That we give up our chance to climb onto our neighbors' backs and steal a long ride at their expense (our present idea of Liberty), and that we resolve that each and all shall "do their bit" in a well organised Canada.

Like "Botanist" I long to turn our Canadian weeds into really useful (and ornamental) plants or human beings. Suggestions from "Botanist" or any other intelligent person for the solution of this, which is by far our biggest and most important Canadian problem, will be most welcome.

J. C. HARRIS.

New Denver, B. C.

AUNT HET

By ROBERT QUILLEN

"Cousin Bill has quit ice cream cones. He's too dignified to lick, and there ain't no other way to reconcile ice cream cones and mustache."

CONTRACT BRIDGE

As Written by SHEPARD BARCLAY

A HOLDUP AT SUIT PLAY

Ordinarily the "holdup" is thought of as a play to be used by no trump declarers. In certain circumstances it is just as valuable to the manipulator of a suit contract. By waiting until one opponent has no more cards of a particular suit, the declarer may with impunity let him win some other trick, knowing that he cannot enable his side to pick off a couple of the declarer's losers

North: ♠ A 7 5 ♥ 6 4 ♦ Q 8 3 ♣ 9 8 6 4 1
West: ♠ J 3 ♥ 9 3 2 ♦ A J 7 5 4 2 ♣ J 5
East: ♠ K Q 10 9 8 ♥ Q J 10 8 7 ♦ 10 9 6 ♣ None
South: ♠ 6 4 2 ♥ A K 5 ♦ K ♣ A K Q 10 7 3

(Dealer: West. East-West vulnerable.)

East opened the bidding on this deal in the third hand position with 1-Spade, South overcalled with 2-Clubs, West 2-Diamonds, North 3-Clubs, East 3-Hearts, South 4-Clubs and North 5-Clubs.

West led the spade J, which North won with the Ace, drew trumps, cashed his two top hearts, ruffed a heart and then led a diamond to the K, which West won *with the Ace and returned a spade.* East cashed two spade tricks and set the contract one trick.

Had East held the diamond Ace, it would have been impossible for the declarer to have made his contract, but with the diamond Ace held by West the contract could easily have been made. When the spade J was led, South could have counted from the bidding that West probably held two spades. If that was the case, the first spade trick should have been passed and the second won. Then if West held the diamond Ace, there would have been no possible way for East to gain the lead to cash the spades.

* * *

Tomorrow's Problem

North: ♠ 9 5 ♥ K J 6 3 ♦ 10 6 4 ♣ A K Q 5
West: ♠ K Q J 10 8 7 2 ♥ 7 ♦ 8 3 2 ♣ 9 3
East: ♠ 4 3 ♥ 9 8 2 ♦ A K J 5 ♣ 10 7 6 2
South: ♠ A 6 ♥ A Q 10 5 4 ♦ Q 9 7 ♣ J 8 4

(Dealer: East. East-West vulnerable.)

What is the correct bidding on this deal, South opening with 1-Heart?

Looking Backward . . .

TEN YEARS AGO
(August 19, 1927)

Bert Slye, traveller for P. Burns & Co., was killed at Sirdar when his car hit a boulder which had rolled onto the road. . . . The steamer Moyie was forced to seek shelter in Galena Bay Tuesday night when waves about six feet high beat against it. . . . Marion Short, Kaslo, is a guest at the Savoy. . . . Wharf at Deanshaven was torn out, telephone lines were down and trees littered the roads as a result of the storm which hit the district Tuesday night. . . . Miss Eva Randall and Miss Mary Patterson have returned to Trail from Victoria where they were attending the summer school. . . . W. C. McKenzie who has been spending his holidays on Kootenay lake has returned to his home at Trail. . . . J. E. Lee, Trail, is a guest at the Hume. . . . W. Douvian, South Slocan, is a guest at the Queens. . . . George Goddard and F. A. Newell left Trail for a two weeks vacation at Ginol. . . . J. A. Benson, Salmo, is a guest at the New Grand. . . . Mr. and Mrs. *Sam Whittaker of Cranbrook* were recent visitors to Creston, the guests of Mrs. Whittaker's mother, Mrs. A. Hobden. . . . Miss M. Sinclair left last night for Calgary via the Arrow lakes. . . . Mr. and Mrs. A. Sheraden of Ainsworth were shoppers in the city Tuesday. . . . Mrs. W. H. Hudson and her two sons of Longbeach were visitors to Nelson . . . Mrs. W. O. Rose returned from Procter where she visited Mrs. W. R. Jarvis who is holidaying there. . . . Kenneth Campbell, ex-M.P.P., left Nelson Tuesday night for the coast en route to his home in Scotland.

TWENTY YEARS AGO
(August 19, 1917)

Miss Evelyn Barker of Revelstoke is spending a few days in the city. . . . Mrs. A. G. Will, Balfour, is a guest at the Hume. . . . J. S. Lane, Ymir, is a guest at the Queen's. . . . E. S. Anderson, Slocan, is a guest at the Grand Central. . . . Canadians are still advancing at Lens. . . . Cathedral at St. Quentin, France, was destroyed by fire set by the Huns. . . . J. C. Stites, Marcus, is a guest at the Nelson. . . . Provincial Police Chief Black is in Fernie on official business. . . . Mrs. W. S. Stanley and her two daughters, Celia and Cassie, left for Huxley, Alberta, where they will visit Mrs. Stanley's sister. . . . British have gained additional ground in the Ypres area. . . . E. O. Weber, Kitchener, is a guest at the Hume. . . . Charles Summer, Rossland, is a guest at the Strathcona. . . . Mrs. Holstead, Queen's Bay, is a guest at the Queens. . . . Miss Alice Archibald who has been visiting Miss Mary Gilmour at Deer Park, has returned to her home at Rossland. . . . Miss Nina Fraser will return Monday to Bellingham after spending a fortnight at her home in Rossland. . . . Mr. and Mrs. Highfield have returned to their home at Lethbridge after spending a time with Mr. and Mrs. C. Cummins at Appledale. . . . Mrs. J. H. D. Benson is visiting friends in the Okanagan district. . . . Born August 19, to Mr. and Mrs. Fred Garner, Crescent Valley, a son.

THIRTY YEARS AGO
(August 19, 1907)

Smelters and mills throughout *B. C. are closing because of lack* of fuel. . . . Ottawa—An electric smelter is to be built here. . . . St. Paul—Great paper combine has been formed including papers in Wisconsin, Minnesita and Michigan. . . . Kingston, N.Y.—Explosion of a car of dynamite caused $200,000 damage. . . . CONVINCING FIGURES

The volume of British external trade continues to grow in a way which affords an effective proof of the success of the change of economic policy which took place in 1932. Some men like the late Lord Snowden and Sir Herbert Samuel, who remained sincerley attached to the doctrine of "Free Trade," which implied the keeping open of British markets to all foreign imports, even without receiving a quid pro quo, must have felt in their inmost hearts that the succeeding monthly trade statistics have falsified their gloomy predictions. Four months of the present year have now expired, and the progress of trade recovery has not slackened.—Belfast Telegraph.

CUB'S LEAD CUT TO TWO AS PIRATES IN 7-6 WIN

TRAIL BOXLA SQUAD HANDS 24-18 LICKING TO NELSON AFTER GET INTO HOLE EARLY IN THE GAME

Dazzling Combination Play, and Tight Defence

PENALTY BOX OVERCROWDED

TRAIL, B.C., Aug. 18—Displaying a dazzling combination attack and a relentless defence, Trail whipped Nelson 24-18 in the latter's last appearance here in the West Kootenay Boxla league schedule.

Both teams were penalized heavily, Trail getting 44 minutes and Nelson 48, but the visiting squad's penalties were meted out in clusters. Both teams were reduced in manpower frequently through the struggle, but in the majority of cases Nelson had fewer men on the floor.

Leafs took the situation in hand at the outset and established a strong lead half way through the first period but Trail came back to push ahead 5-4 at quarter time.

PENALTY PARADE

Nelson escaped the first stanza without a penalty, but received them heavily in the second, getting 31 minutes in that frame compared to 23 for Trail. The local squad increased its margin by two goals at half time.

Apparently realizing the futility of rough checking and heavy penalties both squads settled down in the third quarter, when each was penalized to the extent of six minutes.

The third quarter ended with Trail in the lead 19-14.

Competition was keenest in the final quarter when Trail scored another five counters and Nelson four. Penalties in the final stanza were 15 minutes for Trail and 11 for Nelson.

The surprise of the night was the splendid combination play of Hooker and Dingwall, who each scored two goals in the first quarter and assisted each other in that frame. Apparently the pace told on the youngsters, for their combination was broken up. Hooker scored two more goals unassisted in the remainder of the game for a total of four, to lead the visiting team in scoring.

TWO MAJORS

Snowdon and Kelly boosted the second quarter penalties when they drew 10 and 12 minutes respectively for engaging in fisticuffs. Apparently Snowdon objected to Kelly's method of checking and dropped stick and gloves to enter into combat.

Twice in the second period Gibbons was caught out of his goal and Trail scored.

REMEMBER WHEN?

By The Canadian Press

Don Bradman and W. H. Ponsford set an all-time partnership record for any wicket in test cricket three years ago today at London. The Australian pair, batting against England, rolled up 449 runs—Ponsford hitting 205 not out and Bradman 244. Ponsford was out next for 266.

Trail Trounces Medical Lakers in Ball Tussle

Bogstie Holds Hard Hitting Club to Eight Hits

TRAIL, B.C., Aug. 18—Trail senior nine collected revenge for two previous defeats dished out by Eastern State Hospital squad of Medical Lake when they whipped the boys from the pond 9-3.

Cliff Bogstie kept the visitors guessing all the way, allowing eight scattered hits, striking out six and walking four.

The local hitters walloped two visiting chuckers for 11 safeties, well grouped to push home runs.

Diminutive Clint Hodges banged out the only homer of the game, Louie Demore collecting a triple.

Spectacular catch of the game was made by Bailley, Medical Lake centre fielder who snagged a line drive off Crellin's bat with the bag of his mitt against the score board.

Score by innings:		R	H	E
Medical Lake	100 110 000—	3	8	3
Trail	030 200 04*—	9	11	2

CRICKET SCORES

LONDON, Aug. 18 (CP cable) — Closing scores in first-class cricket matches started today follow:

Middlesex 393 (Edrich 129, Hart 84, Compton 81); Somerset 34 for one wicket, at Lord's.

Yorkshire 312 for seven (Mitchell 105, Barver 86), vs. Glamorgan, at Scarborough.

Essex 301 (Wilcox 90, Harris four for 34); Nottinghamshire 70 for no wickets, at Southend.

Warwickshire 253 (Cranmer 85, Watts four for 52, Gover four for 53); Surrey 16 for one wicket; at Birmingham.

Hampshire 103 (Parks six for 47); Worcestershire 109 for five wickets; at Worcester.

Northamptonshire 186 for six (Snowden 108 not out); vs. Lancashire; at Manchester.

Gloucestershire 434 (Parker 210, Barnett 70, Sinfield 74 not out, Watt six for 129); Kent 28 for no wickets; at Dover.

Sussex 219 (James Langridge 91, Copson eight for 64); Derbyshire 121 for three wickets; at Derby.

Combined Services 180 (Lieut. Borgnis 101); New Zealanders 189 (Vivian 76); at Portsmouth.

Lakeside Park Water Gala Is Next Wednesday

Annual water sports at Lakeside park under the patronage of the parks committee have been fixed for next Wednesday afternoon, the sports including the cross-lake swims for the two sexes.

Official life-saving tests, for the class of young life-savers taking work under Miss Shirley Boomer, swimming instructress, are expected to take place the latter part of this week. Mrs. Ronald Seal of Balfour, has been named to conduct the tests.

M.C.C. BARELY NUDGES OUT B.C.

By H. H. GORDON
Canadian Press Staff Writer

VICTORIA, Aug. 18 (CP)—The Marylebone Cricket club team today scored the narrowest victory of its Canadian tour to date. After getting the British Columbians out for a meagre 87 the Englishmen started disastrously but managed to pass the total with one wicket in hand and went on to compile 97 runs.

Chief credit in the visiting team's victory went to A. G. Powell, youthful Essex wicket keeper who made 35 runs while his colleagues lost their wickets.

J. Payne, Victoria spin bowler, played havoc with the M.C.C. batsmen, who were put out for the smallest total of the tour. He captured five wickets for 23 runs.

For the visitors A. P. Singleton, going on near the end of the innings, took five Canadian wickets for 12 runs.

The score card:

Victoria:
R. Poyntz, b Singleton, 29.
R. Wenman, c Taylor, b Brocklebank, 29.

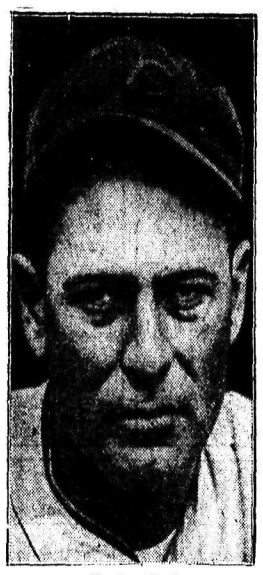
TOP + TOSSERS In the Majors



Charley Root

By Walter Johns
Central Press Canadian Sports Writer

At 38, Charles Henry Root, grand old man of the Chicago Cubs, is still pitching winning ball and is largely responsible for the Cubs' present position as head of the senior loop.

Charley's remarkable record after all these years is something for the young pitchers of today to aim at. His stamina is equally as remarkable.

Last year Charley won only three games. This season he has won three times as many and the season still has two months to go. Several of his victories this season were as a relief pitcher.

Most unusual item in Charley's make-up is his left-handed-right-handed complex. By nature a left-hander, Charley pitches and bats right.

Charley is one of the many Ohio boys to make good in the majors. Born in Middletown, O., in 1899, he began his baseball career by pitching for a town team. St. Louis Browns' scouts heard of his feats and he was signed to a 121 contract. He was sent to Terre Haute of the Three-Eye league where he won 16 games in 1922. That warranted another Brownie trial, but he was given only relief hurling and failed to come through with a victory.

Los Angeles was the next stopping place and there Charley won 46 games in two seasons. Purchased by Chicago he won 18 games his first season with the Cubs, 1926.

The veteran Cub slabsman's best season was in 1927 when he swished through for 26 victories against 15 losses. He appeared in 48 games that season, a record for the year.

Charley is five feet, 11 inches tall. He weighs 176 pounds. He has pitched three world series. He likes to travel, lives in California. Likes to hunt.

Time 1:39.

Also ran: May Roam, Van Hastings, Burning Feet, Color Miss and Jeffrey. (Declared: Rosser S., Santa Marita and Wasatch B.

Quinella paid $30.30.

DiMaggio's Blow Wins For Yankees

NEW YORK, Aug. 18 (AP)—The Yankees' chief game wrecker, Joe DiMaggio, broke up another ball game today.

With one out in the ninth inning and the score tied, the deadpan dynamiter drove his 36th homer of the year into the left field stands to give the Yanks a 7-6 victory over the Washington Senators.

Since the second-place Detroit Tigers were whipped by Chicago, the victory stretched the Yanks' American league lead to 11½ games.

Washington	6	10	2
New York	7	11	1

Linke, Cohen, Appleton and R. Ferrell; Malone, Andrews and Dickey.

WHITE SOX MOVE UP

CHICAGO, Aug. 18 (AP)—The Chicago White Sox climbed back to within half game of the second-place Detroit Tigers today when Vernon Kennedy held Detroit to four hits for a 6-0 triumph in the second game of the series.

More than 6000 fans saw Kennedy pitch his best game of the season while the Sox walloped Eldon Auker for four runs in the third inning and two more in the sixth.

Detroit	0	4	2
Chicago	6	7	0

Auker, Russell and York; Kennedy and Sewell.

BROWNS IN AND OUT OF CELLAR

ST. LOUIS, Aug. 18 (AP)—The St. Louis Browns dropped into the American league cellar and then promptly climbed out again as they split a doubleheader with the Cleveland Indians, losing the first game 5-2 and winning the second 11-6. Philadelphia was shoved back into last place by the Browns' nightcap victory.

First game:

Cleveland	5	14	1
St. Louis	2	9	1

Harder and Pytlak; Hoggsett and Hemsley.

Second game:

Cleveland	6	9	1
St. Louis	11	16	2

Hudlin, Wyatt, Whitehill, Heving and Sullivan; Trotter, Walkup and Huffman.

ATHLETICS WIN AGAIN

PHILADELPHIA, Aug. 18 (AP)—The Athletics broke a season-long jinx held over them by the Boston Red Sox by taking a 4-2 decision at Shibe park today, their first victory in 13 games with Boston this year.

Boston	2	7	2
Philadelphia	4	9	0

Newsom, McKain, Walberg and Desautels, Castor and Brucker.

Batting Leaders

(By The Associated Press)

In a complete shift of the American league trio in baseball's batting "Big Six", Cecil Travis of the Senators dropped to third place in the loop standing yesterday as Charley Gehringer of the Tigers took over the top and Joe DiMaggio of the Yanks, climbed into second. Gehringer, getting one-for-three, held a .375 mark. DiMaggio, belting three-for-five, climbed three points to .374, while Travis, leader for two weeks, dropped to .373, getting only one hit in five tries. The National league standings went through the day unchanged.

Standings of the leaders (first three in each league):

	G	AB	R	H	Pct
Medwick, Cards	105	421	90	169	.401
P. Waner, Pirts.	106	429	74	167	.389
Gehringer, Tig.	95	368	92	138	.375
DiMaggio, Yank	102	425	113	159	.374
Travis, Sen	85	327	49	122	.373
Hartnett, Cubs	74	234	29	87	.372

HUBBELL TWIRLS GIANTS TO A 9-1 DEFEAT OF BEES

Cubs Use Five Pitchers and See Lead Wiped Out in 9th

PITTSBURGH, Aug. 18 (AP) — The skidding Chicago Cubs saw their National league leadership whittled to two games today as they dropped their fifth straight contest, the suddenly ferocious Pittsburgh Buccaneers winning 7-6.

Pep Young singled home the winning marker in a thrill-studded ninth inning, with the bases loaded, two out and a driving thunderstorm making it difficult for players or spectators to see the ball.

The Cubs, who used five pitchers, had rallied valiantly in their half of the ninth to take the lead.

Trailing 4 to 5, the visitors filled the bases when Jurges was hit by pitcher Swift, Cavarretta singled and pinch-hitter Frey was purposely passed. Hack's single counted Jurges and Cavarretta and brought young Russell Bauer to the mound for Pittsburgh. He retired the side without further trouble.

PAVES WAY

Then Jurges paved the way for the Pirates' fifth consecutive triumph by throwing Lloyd Waner's grounder wild. Vaughan pinch-hit a sacrifice bunt.

Paul Waner singled his brother to third and Gus Suhr's double sent Lloyd home with the tying count. Todd was passed purposely, filling the bases. After Lucas, also pinch-hitting, popped out, Young lined the game-winning hit to left.

During the Pirates' five-run rally in the fourth, Dr. J. H. Cary, 60, of Washington, Pa., collapsed and died in the stands.

Chicago	6	9	1
Pittsburgh	7	12	0

Bryant, Root, Parmelee, Shoun, Carleton and Hartnett; Weaver, Swift, Bauer and Todd.

GIANTS WIN 9-1

BOSTON, Aug. 18 (AP) — Carl Hubbell and his New York Giant mates climbed to within two games of the National league lead today by walloping the Bees 9-1 for their fifth straight victory.

The pitching mastery of the great lefthander baffled the Bees with seven hits as his mates clubbed Lou Fett out of the park under a five-run barrage in the first inning and coasted in with a 12-hit attack. The win was Hubbell's 17th of the year.

New York	9	12	0
Boston	1	7	1

Hubbell and Danning; Fette, Lanning, Weir and Lopez.

Home Runs

Yesterday's homers: DiMaggio, Dickey, Yankees; Almada, Simmons, Senators; Solters, Indians; Clift, Browns, one each.

The leaders: DiMaggio, Yankees, 35; Foxx, Red Sox, 31; Gehrig, Yankees, 28; Medwick, Cardinals, 26; Greenberg, Tigers, 26; Trosky, Indians, 25.

League totals: American 589, National 480, total 1069.

African Bowlers to Start For the Interior Today

VICTORIA, Aug. 18 (CP)—The touring South African lawn bowlers today marked up their third consecutive victory in Victoria when they defeated a combination of Canadian Pacific and Victoria West lawn bowlers, 146 to 91.

As in yesterday's match, which the South Africans won 138 to 103 from the Burnside and Lakehill bowlers, only two out of the visiting rinks were defeated.

Tomorrow the South African team will return to the mainland to play in southern British Columbia before travelling direct to Montreal.

Dan McKenzie Quits Coast Boxla Offices

NEW WESTMINSTER, B. C., Aug. 18 (CP)—James McConaghy, president of the Intercity Box Lacrosse association, announced today the resignation of Dan McKenzie as member of the intercity commission and delegate to the Provincial Box Lacrosse association.

A meeting of the Intercity association has been called for Friday evening to discuss the resignation, which McKenzie in a letter to McConaghy said was due to ill-health.

CRESTON Social . . .

CRESTON—Mr. and Mrs. Charles O. Rodgers and grandson, Jimmy Rodgers, are holiday visitors at Spokane.

• Mr. and Mrs. Harold Goodwin and daughter, Evelyn, who have been visiting the former's parents, Mr. and Mrs. T. Goodwin, here, and friends in Saskatchewan, left Tuesday to return to Trono, Calif. They will visit at Victoria en route south.

• L. N. Leamy an old time resident of Creston, is in hospital. He is a pioneer of East Kootenay, coming here with the construction of the C. P. R. Crow line in 1898.

• Miss M. Messinger has joined the staff at Creston post-office.

• S. J. Willis, deputy minister of education, and public school inspector J. E. Brown, of Cranbrook, are to be here Friday night for a meeting of the school trustees of the valley to discuss high school consolidation.

• Mr. and Mrs. Percy Robinson were week-end guests of Mr. and Mrs. G. A. Hunt at Kitchener. Mrs. Ray McKelvey and daughter, Shirley Ann, and Mrs. T. Wilson were also visitors the latter part of the week.

• Ed. Benney and his pack team are taking in supplies to L. Nowlin and Claude Simpson who are clearing trail up Goat river.

• Mr. and Mrs. D. W. Dow of Cranbrook spent the week-end at Creston, guests of the former's parents, Mr and Mrs. J. W. Dow.

• Mr. and Mrs. S. A. MacDonald and children of Summerland, are visiting here guests of Mrs. MacDonald's parents, Mr. and Mrs. Dow, returning from a trip to Yellowstone park and a few days' stay in Calgary.

• Mrs. H. Langston is vacationing at Vancouver and Victoria.

• Mr. and Mrs. Axel Anderson returned Monday from visiting their daughter, Miss Ellen, at Toronto, and friends at other points in eastern Canada.

• V. M. Vasseur has unloaded two more combines to be used in the wheat harvest, purchased by E. E. Cartwright and W. Dale.

• Mr. and Mrs. H. A. Dodd and sons, Arthur and George, are home from a holiday at Victoria and coast cities.

• Mr. and Mrs. Hilton Young are visiting at Banff and Lake Louise.

• Mr. and Mrs. Tom Kirk, Reginald Smith and Jim Griffith are back from Oregon, where they were helping with the pea and grain harvest.

• Tom Daly, who is now resident at Banff, was a guest of E. Gross.

• J. Cameron and three sons of Skookumchuk were week-end visitors at the home of Mrs. J. Cameron

• Mrs. Landon is visiting friends at Winnipeg. After a stay with her parents Mrs. R. Vincent has returned to Coleman. Mrs. Ledieu, who has been at Coleman, Alta., has returned.

• Mr. and Mrs. H. Leadbetter of Nova Scotia are visiting the former's father, Ben Leadbetter.

• Mrs. W. Percival and children of Nelson, who have been visiting her mother, Mrs. R. Dodds, have left to visit friends at Yahk.

• Shirley Fisher, a student at the Kinsman business college at Spokane, is home for a holiday.

• Miss N. McClure returned to Nelson Sunday after visiting Mr. and Mrs. James Cook.

• J. R. Hunter of Nelson has arrived to take a position here.

• R. R. Howard of Fernie is relieving accountant at the Bank of Commerce in the absence of A. Gilroy.

• En route to eastern Canada from Nelson, Mr. Walsh spent two days in Creston, guest of Father Cooney.

• Mr. and Mrs. J. R. Murray of Yahk returned Sunday from Kootenay Bay where they spent the week-end with Mr. and Mrs. H. A. Powell. Mr. Powell came home Monday.

• A. Mackie of Boswell visited Creston Thursday. He estimates the apple crop in that district will be on a par with other years.

• Mrs. W. M. Archiblad is home from a vacation trip that took Mr. and Mrs. Archiblad to points in Florida. Mr. Archiblad is still absent on business.

• Mrs. W. B. Martin returned Thursday from a visit to Spokane.

• Rev. C. E. Baase is back from Camp Lister, where he spent several days last week conducting a summer religious school. Mr. Baase is pastor of St. Paul's Lutheran church, Creston.

• Mrs. Ray O'Brien of Kimberley is visiting her parents, Mr. and Mrs. J. W. Pendry, at Camp Lister.

Serial . . .

RUSTLE OF SILKS

(Continued From Page Four)

them are in Paris for the openings."

A bell began to tinkle distantly in Mary's agile mind. Quite casually she nodded toward the blue covered manuscript. "Is that the play?"

"It is! And I've got to type six copies of the darn thing. Isn't that just my luck when Herb wanted to take me out to Westchester tonight? How I'll ever . . ."

"I can type it for you," Mary said as if it were nothing more than a nice gesture. "As soon as I finish this sketch I'm through. That sales copy takes a lot of work off my hands today. I'm a pretty good typist." Then she added:

"Oh, Kay, please let me do it! You don't know how much I've got to know about that play!"

"Honest? What a brick you are! By the way, Liane Weston is the actress to be costumed."

Liane Weston — tall, slim, ashen blond. New York's favorite light comedienne. Typing the play, memorizing every situation, every nuance, the very genre of it as it came from the playwright's mind, Mary kept a clear picture of the actress in mind.

That night while the city wilted under heat that drove its dwellers to the parks in search of vain sleep, Mary Barrett twisted her silken ankles about the stool before her drawing board. Above her a cruelly hot light blazed and at her side was pitcher after pitcher of iced coffee.

* * *

Across the courtyard, Mrs. Gallagher reached sleepily for the alarm clock, shut it off and shook her husband into wakefulness.

"Git up, Mike. It's 6 o'clock and time you wuz gittin' me breakfast tray." That was Mrs. Gallagher's little morning joke. Then she got up and cooked sausages and pancakes, put them on the table and lowered herself into a place opposite her ruddy-faced mate. She looked out the window across the courtyard and stirred her coffee.

"Will you be lookin'?" She waved her spoon to the window where a light still blazed across the way. "That poor little thing is still workin'. All night, too. Ah, it's glad I am, Mike, you're a prosperous cop. I'd hat to be havin' a c'reer like that."

It was only 8 when Mary entered the Castle shop that morning. She didn't go directly to her studio she stopped at Tony's desk and laid the contents of her portfolio there. Then she went out to a longshoreman's breakfast of sausage and pancakes.

* * *

"What's the matter with all of you? Wasn't any one of you aware of what was going on her yesterday? Somebody must know where these came from! Am I supposed to believe in Santa Claus?"

The angry, excited voice was Tony's. Mary paused in the passageway and hugged herself silently. Then she knocked at his door and opened it.

"Perhaps Mary knows where these came from. They aren't even signed. Some nit-wit . . ."

She looked at the sketches. "Oh," she said casually, "they're mine."

"You . . . you mean these are your originals?" Incredulous.

She nodded.

When the others had gone, she picked up the sketches one by one. The first showed a saffron gown weighted with sable. A gown that was both sophisticated and young. A gown to beworn by a woman who knew the world but not how to cope ith it. A gown for Liane Weston to wear as Marguerita.

"You like them, Tony." She said it; she didn't ask.

"Mary!" That was all he said but she saw that doubt had clouded his eyes.

"Well," she said tonelessly, "you don't think so much of them now that you know I did them?"

"Yes," he answered, "I congratulate you on your talent but . . ."

Mary waited with a stone dropping into her.

". . . you see this is only the first step. This is the inspiration but the execution is another matter. Only an experienced designer could execute them in fabric."

He saw the deep hurt in her face and sorrowed for her. "But wait . . . Francine will be back in another week. She ca nsuperintend it."

So Francine would have the credit! Tony had told her that she was too impulsive. She counted to 20 under her breath and said generously, "Of course, she can! In the meantime, I've learned more than you know. Can't I cut the first patterns? That would make it a bit easier for Mrs. Long."

He looked at her gratefully. "Good girl!" he said. "You know, we'll have to get Liane's — Miss Weston's —approval?"

"Oh, Tony," she said, the words tumbling out of the excitement in her as she picked up the scond sketch, the one of the black gown. "A minute ago you said this one was like the exclamation point of a tragedy. Please tell Miss Weston about it. Tell her what it is supposed to do. It's for a woman who has grown up too late and realizes it. The only person who sees her as she is, is her lover and he is lost to her. That's why it has to be an exclamation point."

Tony watched the lights in Mary's eyes.

"It's the gown that shows her as only he sees her. It has to be subtle and simple so that the audience can see the same thing. She emerges from it as she really is!"

"I'll tell her," he said softly and pinched color into her white cheek. "But don't burn yourself up this way, darling. It's only a gown."

Only a gown . . .

(To Be Continued)

BIRTHS

MORRISON—To Mr. and Mrs. W. Morrison of Trail, at Trail-Tadanac hospital, August 9, a son, Barry MacKenzie.

Market and Mining News

EDGING SLICES WINNIPEG PRICES

WINNIPEG, Aug. 18 (CP)—Moderate hedging of western Canada's new crop shook wheat futures down cents on the Winnipeg grain change today.

Support generally was thin in response to bearish outside market influence although minor buying steadied prices in the last hour. Final quotations were 2½-2⅝ cents down, October at $1.26½, December $1.23½ and May $1.24¾.

Cable estimates world wheat imports needed for the new crop year 1937-38 would be 99,000,000 bushels less than last year resulted in Liverpool and Chicago prices nose-diving two pence and two cents, respectively.

Liverpool closed 1¾-2⅛d down. Part of the London selling was attributed to Broomhall's estimate world wheat requirements this year would likely total only 496,000,000 bushels compared with 595,000,000 bushels taken by importing countries during the 1936-37 crop year.

Buenos Aires at noon was ⅜ cent higher to ¼ cent down with erratic trends following forecasts of possible rains to relieve the drought area of Argentina.

U. S. DOLLAR AT PAR

MONTREAL, August 18, (CP) — Pound sterling advanced ⅜ cent on Montreal foreign exchanges today to 4.99 3-16. The French franc moved up .01 cent to 3.76 cents while the United States dollar eased 1-32 to par.

Dow-Jones Averages

	High	Low	Close	Change
30 industrials	189.10	187.30	187.39	—off 1.29

Montreal Mixed

MONTREAL, August 18, (CP) — Minor selling unsettled the stock market at the close of today's session and prices finished irregular.

Loss of a point showed up for St. Lawrence Paper preferred at 96 with Price Brothers up two points at 45. The preferred eased ½ to 74½.

General Steel Wares displayed main strength among constructions with a gain of ½ at 17½ after touching 17⅞. Cement preferred picked up ½ while Steel of Canada lost ¾ at 88.

Nickel and Noranda gained ¼ each, with Smelters about even while C. P. R. declined ⅛ to 11¾ and Massey Harris gained ½ at 10½.

MARKETS AT A GLANCE

(By The Canadian Press)

Toronto and Montreal— Stocks irregularly lower.

New York—Stocks closed lower.

Winnipeg—Wheat down 2½ to 2⅝ cents.

Toronto—Bacon hogs off truck steady at 10.75.

London—Bar silver lower; copper and lead unchanged; zinc higher.

New York—Silver, lead and zinc unchanged; export copper firmer.

Montreal—Silver unchanged.

New York—Cotton, rubber and sugar lower; coffee higher.

New York—Canadian dollar unchanged at 99 63-64.

Boundary Cattle Shipped to U. S.

GRAND FORKS, B.C. — J. C. Madge, Ed Richter and Oscar Richter recently shipped a car of beef cattle from Rock Creek to Washington State. P. Tjebbes and Sam Talerico left recently for the prairies to purchase cattle in the drought areas.

POTATO BEETLE

Max Ruhmann, provincial entomologist(and G. L. Landon, district agriculturist, visited Colville Thursday to confer with A. K. Millay, county agent for Stevens county and on Friday visited Republic to confer with J. E. French, county agent for Ferry county, regarding potato beetle and grasshopper control matters in Washington state. Beetles have been in Stevens county for several years but so far none have been reported in Ferry county.

In connection with the potato beetles local growers have been urged to watch for the appearance of the second brood larvae. The period of emergence of the second brood beetles is about over and any larvae should show up soon. Dust is available in the agricultural office.

Judging of the chickens in the poultry clubs will commence shortly. Following dates have been set:

Grand Forks clubs	Aug. 23
Midway clubs	Aug 24
Harrop club	Aug. 30
Fruitvale club	Aug. 31
Rock Creek clubs	Sept. 8

Club members have been requested to have their records completed ready to hand in the day of the judging.

Money

(By the Canadian Press)

Closing exchange rates:

At Montreal — Pound 4.99 3-16; franc 3.76; U. S. dollar par.

At New York—Pound 4.99⅛; franc 3.75½; Canadian dollar .99 63-64.

At Paris—Pound 132.94 francs; U. S. dollar 26.65 francs; Canadian dollar 26.63⅛ francs.

In gold—Pound 12s 2d; U. S. dollar 59.46 cents; Canadian dollar 59.44 cents.

Dividends

Sheep Creek Gold Mines, Ltd., regular quarterly dividend of two cents a share, plus one cent extra, payable October 5 to shareholders on record September 30.

Montreal Metals

MONTREAL, Aug. 18 (CP)—Spot: copper, electrolytic, 15.80; tin 62.13; lead 6.55; antimony 15.25; per 100 pounds f.o.b. Montreal, five-ton lots.

LONDON STEADY

LONDON, Aug. 18 (AP) — The stock market exhibited a steady tone today as traders paid less attention to the far eastern happenings. The giltedged group was mixed, while industrials were firm with motor and shipping issues in fair demand. Transatlantic securities moved higher and the oil and mining groups were also better. Foreign bonds moved irregularly.

FLIN FLON TO ISSUE 15,000 NEW SHARES

WINNIPEG, Aug. 18 (CP) — Shareholders of Flin Flon Gold Mines limited have approved company plans to issue 15,000 convertible preference shares to be sold at $10 each to provide sufficient finances to bring the northwestern Manitoba mine into production. Shareholders have been offered the right to purchase these shares. It is estimated $100,000 will put the mine into production, including working capital, installation of a new smelter, and additional power units.

LAKE SULPHITE PULP STOCK LISTED

TORONTO, August 18, (CP)—The Toronto stock exchange has decided to accept the Lake Sulphite company limited stock for listing and the shares will be called Monday, August 23. The company has a capitalization of 300,000 no par value common shares with 150,007 shares outstanding.

BAR GOLD UNCHANGED

MONTREAL, Aug. 18 (CP) — Bar gold in London unchanged today at $34.77 an ounce in Canadian funds; 139s 4½d in British. The fixed $35 Washington price amounted to the same in Canadian.

SUMMERSIDE, P.E.I. (CP) — Councillor A. S. MacKay is furnishing pictures of former mayors of Summerside for the council chamber. The latest addition is a picture of the late Ronald Campbell, mayor from 1899 to 1900 and the first mayor to hold office in this town. Previously civic affairs were governed by a town chairman, the last of whom was A. C. Rogers.

OILS UP AT CALGARY

CALGARY, Aug. 18 (CP) — Oil stocks were higher on the Calgary stock exchange today, Okalta leading the advance with a noon close of $1.66, up 10. Calmont was up 3½ cents at 58½; A. P. Con. up 1 at 33½ and Monarch 1¾ higher at 33. Several other oil stocks showed fractional gains.

U.S. DOLLAR OFF IN LONDON

LONDON, Aug. 18 (AP)—In today's foreign exchange market the United States dollar closed with a decline of 9-16 cent to $4.98 15-16 to the pound, compared with yesterday's New York sterling rate of 4.98¾. French francs finished 132.94 to the pound against 132.87 the previous day.

Building Gains in July, Canada

OTTAWA, August 18, (CP)—Value of building represented by permits taken out in 58 cities during July showed an increase over July, 1936, the Dominion bureau of statistics reported today.

Value of permits for July was $5,397,422 against $5,029,802 in the same month last year. In the first seven months of 1937 value of permits totalled $33,376,744 a gain of 42.9 per cent over the $23,352,686 in the corresponding period of 1936.

The leading cities were as follows with figures for July, 1936 in brackets:

Toronto $1,027,580 ($776,851) Montreal $619,659 ($1,182,471); Vancouver $514,655 ($338,520); Windsor, $504,779 ($101,802); Halifax $396,170 ($96,445); Hamilton $275,299 ($90,550); Winnipeg $212,850 ($168,250); Ottawa $125,438 ($195,799); Three Rivers, $87,745 ($427,810); St. Boniface $84,080 ($2,950).

SHEEP CREEK UP 1

VANCOUVER, Aug. 18, (CP) — Oils provided the only sign of life on Vancouver stock exchange today, advancing one to five or more cents in quiet trading while golds and base metals remained practically unchanged. Transfers totalled 107,978, 25,000 less than Tuesday.

In the golds, Cariboo Gold Quartz slipped 1 point at 1.58, while Sheep Creek upped 1 at 91. Most other issues were unchanged.

Pend Oreille took the biggest loss in the base metal section, closing down 5 at 4.25. Reeves MacDonald suffered a 2-point set-back at 90, B. C. Nickel dropped 1 to 16, and Whitewater ¼ to 14¾.

TO CLOSE DOWN McKENZIE MINE

MONTREAL, Aug. 18 (CP) — Decision to close down the McKenzie mine at Cedar lake, belonging to Consolidated Chibougamau Goldfields, limited, by "freeze-up" this fall was made known today in a letter to Quebec department of mines from Consolidated Mining & Smelting Company of Canada, Ltd., which controls the Chibougamau company.

Montreal Produce

MONTREAL, August 18 (CP) — Egg prices firmed on Canadian commodity exchange today while butter eased slightly.

Butter 26¾-⅝; cheese unquoted; eggs A large 29A; A medium 27A; B large 23A; C, 20A.

Futures—Butter easier, ⅛ cent lower; August 26½-¾; Nov., 27⅛-⅜.

Wheat, Northern No. 1, 1.43; barley C. W. No. 3, 67½; oats, C. W. No. 2, 60; No. 1 feed 55; spring wheat flour, first patents, 8.00.

Apricot Production in Okanagan and Boundary 33 Times Last Year

VICTORIA, August 18, (CP)—The British Columbia department of agriculture said today a survey of the Okanagan Valley conducted under direction of agriculture minister, K. C. MacDonald, indicated this year's crop would total more than 5,000,000 boxes, 13 per cent more than last year.

If the estimate proves correct, it will be the second largest crop recorded, being exceeded only by that of 1934.

Apricot production in Okanagan and Kootenay districts, according to the survey, will be 132,858 crates, compared with 3,783 crates last year. Peach production will jump from 81,803 crates to 353,500 crates.

N.Y. IS LOWER

NEW YORK, August 18, (AP) — A thin stock market idled downhill fractions to a point or more today.

At the start prices were marked up. Later steels rallied with the aid of cheerful news from the industry and coppers took strength from cable reports, the fall in copper prices abroad had halted for the time being.

Advances in these two groups and demand for specialties gave the market a bright appearance during the middle of the day, but sentiment was chilled by unwillingness of other sectors to join the rise, brokers said.

Transactions totalled 701,990 against 658,060 Tuesday.

Except for American and foreign power, which lost a point to 7¼ in response to hostilities in Shanghai where properties are held, utilities were notably inactive despite a rise in electric power production to the highest weekly total on record.

JAPANESE LOANS TUMBLE AT N. Y.

NEW YORK, Aug. 18 (AP)—Losses ranging as much as 12 points were recorded in Japanese loans on the stock exchange today as the far eastern war news brought more selling into the group.

Great Consolidated Electric Power 6s, among the Japanese issues, tumbled 12 points to 70 and the 7s of the same company were off 10 at 78. Loans of the Japanese government, city of Tokyo and corporate enterprises were all off about 3 to 7 in addition to previous sharp declines.

The 5 per cent bonds of American & Foreign Power, which controls the Shanghai Power Co., fell more than 5.

Smelters Up One

TORONTO, Aug. 18 (CP)—Consolidated Chibougamau Goldfields declined to 57 cents today on the Toronto exchange and closed at 59, down 33 cents, on the news that work on the company's largest property would be stopped shortly.

Preston was offered in quantity at a loss of 8 cents to 1.28. An official announcement appeared yesterday that the company had recently sold 10,000 shares of treasury stock at $2 a share and that the balance of the treasury stock—240,000 shares—had been optioned at the same price.

Smelters added a point and Hudson Bay and Nickel were up fractions while gains of a few cents were boarded by Waite-Amulet, Chromium, Jack Waite and Reeves-MacDonald. Falconbridge, Normetal and Aldermac were off.

Newlyweds Are Honored, Robson

ROBSON, B. C.—Thursday evening the young people of the valley entertained at a banquet at the hall honoring Mr. and Mrs. H. Weibe, who were recently married.

About 100 sat down to supper served on long decorated tables. The bride and groom were at the head.

Music charades and dancing held sway.

Dr. McDiarmid made a presentation of an oak chair and end table to the young couple.

Saturday evening the third of a series of dances under auspices of the Women's Institute was held at the hall. The hostesses were Mrs. Miller, Mrs. Martin Mrs. W. Waldie, Mrs. Houston, Mrs. Campbell and Mrs. Thorp.

BUS SERVICE FILLS BREACH AS CARS DOWN

With the city street car service tied up by a second burned-out generator at the city substation, bus service filled the breach Wednesday and it is expected that the city will keep a bus in operation until car service can be resumed. The city arranged for one bus Wednesday and two others were added especially for the Old Timers' picnic. The bus obtained by the city followed, as closely as possible, the street car lines.

Work of tearing down the burned out generator continued Wednesday and it was expected that it would be possible to size up the extent of the damage today. Parts for the generator which burned out recently arrived Wednesday and were immediately forwarded to Trail, where repairs will be made at the Consolidated Mining & Smelting company's electric shop. This work is to be rushed.

MORE ABOUT CHINA - JAPAN

(Continued From Page One)

solete gunboats—totalling about 70,000 tons.

Admiralty spokesmen, aroused by the "insolence" of the attempt to sink the Idzumo, warned that every Chinese warship would be sent to the bottom of the sea if there were any more such incidents.

Admiral Prince Fushimi, head of the navy general staff, reported to Emperor Hirohito late yesterday on the progress of Japan's forces at Shanghai.

SIX STEAMSHIPS SEIZED

Developments of the last 24 hours added powerful fuel to demands here for crushing action against the Chinese central forces:

Six abandoned Japanese steamships previously used as evacuation transports were reported seized at Pootung wharf to be used in a Chinese blockade across the Whangpoo river.

Two Japanese civilians were reported murdered by Chinese mobs in Shanghai.

Figures on Japanese casualties in this week's fighting began arriving here. Although the number of deaths was small, each was regarded as an "assassination."

At Tientsin, the ashes of 214 Japanese soldiers killed on July 27 in the battle of Nanyuan were put on a Tokyo-bound boat for burial at their regiment headquarters here.

Three Japanese marines were killed and 50 wounded, 45 seriously, in fighting in Shanghai Monday and Tuesday, the admiralty announced.

District Delegates Are at Spokane for Gyro International

SPOKANE, Wash., Aug. 18 (AP)—District governor Alex M. Mitchell of Edmonton, Alta., predicted tonight registrations at the eighth district convention of Gyro International would pass 300 when the sessions open here tomorrow.

Scores of visitors were already on hand for the meeting which will last through Saturday. International President Alf Williams of Calgary was expected before the opening session.

Clubs sending delegates include Calgary, Edmonton and Lethbridge, Alta., and Nelson, Rossland, Trail and Grand Forks in British Columbia.

Pretty Scene at Rossland Wedding

Grace Freeman Wed to H. L. McCallum of Tadanac

ROSSLAND, B.C., Aug. 17—Large baskets of stately gladioli, bowls of roses and sweet peas, and an altar draped with greenery, interspersed with sweetpeas in pastel shades, made St. Andrew's United church, a beautiful setting, Monday afternoon, for the ceremony which united in marriage, Grace Harriet, only daughter of Mr. and Mrs. Archibald H. Freeman, and Herbert L. McCallum, son of Mr. and Mrs. A. L. McCallum of Tadanac.

The bride, who entered the church on the arm of her father, was a charming picture in white satin, with an overdress of white chiffon made redingote style, floor length, with a slight train, short puffed sleeves and white accessories. Her veil of white tulle was waist length, worn cap style, held in place with orange blossoms, and she carried talisman roses.

Bridesmaids were Miss Loretta McDonell and Miss Jean McCallum. Miss McDonell wore coral satin, floor length, with over dress of coral point d'sprit and carried a sheaf bouquet of blue asters. Miss McCallum's dress was of pale blue satin, flor length with an overdress of flowered chiffon, and she carried a sheaf of pink asters. Both bridesmaids wore Juliette caps to match their dresses. Lewis Freeman, brother of the bride, was best man, and Rev. T. W. Reed the officiating clergyman. The ushers were Gordon MacCallum and Robert Henricks of Tadanac.

The junior choir under direction of Miss M. Wilkie led the singing of the hymn, "O Father All Creating," and during the signing of the register Lewis Freeman sank "Beloved It Is Morn."

After the ceremony a reception was held at the home of the bride's parents, First Ave. Mrs. Freeman received the guests in a gown of Alice blue lace, with short jacket to match, and dark blue linen hat trimmed with white and blue accessories. She was assisted by Mrs. A. L. McCallum who wore black and white crepe, with large black hat, and white accessories. The rooms were beautifully decorated with gladioli and sweet peas. Mrs. T. W. Reed and Mrs. Gordon McCallum poured, Mrs. W. J. Ternan cut the ices and Miss Mabel Wilkie, the wedding cake. The serviteurs were Mrs. George Nixon, Jr., Miss Jean Morrison and Miss Jessie Sommerville of Rossland, and Miss Peggy McCallum and Miss Ruth McLaren of Trail. The toast to the bride was proposed by W. K. Esling, M.P.

The couple left late in the afternoon by motor for a honeymoon to be spent in Spokane and coast cities, and on their return will take up residence at Tadanac. Mrs. McCallum travelled in a suit of turquoise blue linen lace trimmed with brown with hip length jacket and short sleeves, a brown taffeta manderin hat, with white ruche outlining the crown, brown accessories, and carried a dark brown jigger coat.

The groom's gift to the bride was a diamond set wrist watch, and the bridesmaids received rings set with aquamarine.

Woman Facing False Pretences Charge, Rossland

ROSSLAND, August 18.—Charged with obtaining money under false pretences, involving a cheque June Kenny, transient, was arraigned in Rossland City court, today.

The case was adjourned for a week on application of Constable Gordon Lennox, Crown prosecutor. The accused fought the adjournment.

FERRIES SHOW A PICKUP FOR MONTH OF JULY

Nelson and Castlegar Crafts Have One of Busiest Months

Nelson ferry crossing the West Arm carried more of every kind of traffic in July except motorcycles, rigs, cattle and graders than in the month of July, 1936, ferry returns at the provincial department of public works show. An increase of 1846 autos, 82 round trips, 93 one-ton trucks, six two ton trucks, 34 three ton trucks, 179 five ton trucks, 40 trailers, four 10-passenger buses, 31 20-passenger buses, 4199 passengers (exclusive of the drivers), and 324½ tons of freight was carried by the ferry. A decrease of 20 motorcycles, 50 rigs, nine horses, one cow and one grader was shown.

Castlegar ferry showed an increase of 279 buses of over 20-passenger capacity. A decrease of 275 buses of 20-passenger capacity, 38 trailers, 25 motorcycles, 148 rigs, 21½ tons of freight and 19 horses. Otherwise an increase of all other kinds of traffic was carried.

July district ferry returns in comparison with those of July 1936 follow:

Placer Claims Are Located at Waneta and Pend d'Oreille

Four placer claims have been located in the Nelson mining division since July 1, three on the north bank of the Pend d'Oreille river and one on the Salmon river.

The claims on the Pend d'Oreille were the Riversite, located by Kasper Baily, Waneta; the Weebit located by Ted Jeblanski, Waneta, and the Prosperity, located by J. G. Adams, Trail, while the other was the White Rock, located by Frank Shelswell, Salmo.

SAINT JOHN, N.B. (CP)—Four boys thought they were seeing things when they found $58 in bills, half of a $50 bill and several cheques along the river shore near here. They returned the money and the cheques to a bank clerk who had lost them from a yacht some weeks previously.

TRAIL SOCIAL

By MRS. GLENN QUAYLE

TRAIL, B. C., August 18— Mr. and Mrs. Allen Merry were week-end visitors to Nelson. While there they visited their daughter at Kootaree, Sunday.

- Mr. and Mrs. E. Schwarz and daughter have returned to home from a holiday at Christina Lake. They were accompanied by Mrs. Schwarz's sister, Miss Grace Singer, of Rossland.
- Mr. and Mrs. Dave Forrest and son have returned to the city from a vacation at the coast.
- "Barney" Sheats was among those from Trail who visited at the week-end at Spokane.
- Miss Irene Richardson, who, during the past two months has been visiting at her home at Drumheller, and who returned to Trail a few days ago, leaves at the end of the week for Vancouver, where she will make her home.
- Miss Mattie Young visited during the week-end at Spokane.
- James Young is a holiday visitor to coast cities.
- "Bud" Merry of Annable, left during the week-end on an extended vacation to Banff, and later to Salt Lake City, Utah.
- Miss E. Edwards spent the week-end at Spokane.
- Thomas Brooks of Annable, returned Monday from a short holiday at Spokane.
- Gordon Schenk has as his guest his mother from Alberta.
- Miss Mildred Merry is vacationing at Penticton, where she is the guest of her cousin, Mrs. J. Foster.
- William Fish has returned from Spokane, where he spent a short holiday.
- Mr. and Mrs. H. Swedberg, who have been spending a vacation at Ainsworth, have returned to their home in Trail.

Balfour rancher and old Indian army officer, believes some of the canned fruit consumed by the Indian army could be produced here. (Photo by McGregor).

Rosslanders Are Wed at Spokane

ROSSLAND, B.C., Aug., 18—A wedding of interest to Rosslanders was solemnized in the First Baptist church, Spokane, at 9:30 o'clock Sunday morning, when Miss Tabea R. Arndt of Trail, became the bride of Leonard C. Nyman of Rossland.

The bride who was attired in pale pink brocaded silk organdie with blue accessories was attended by her two sisters, Mrs. Albert Shields and Tusnalda Arndt of Trail. Albert Shields of Trail was best man.

Rev. C. E. Resckke, an old friend of the bride's family, was the officiating clergyman.

About 35 friends were present, and after the ceremony a wedding luncheon was served in Nim's cafe, the tables being beautifully decorated with gladiolas and sweet peas.

TRAIL POLICE COMMISSIONER IS ANXIOUS FOR MORE COOPERATION FROM MEMBERS OF CITY COUNCIL

Newman Suggests the Commission Become Thing of Past

TRAIL, B. C., Aug. 18 — Maintaining there was not sufficient cooperation between the police commission and the city council of Trail. Police Commissioner Charles Newman suggested the commission either be dissolved, if such was according to law or that the commission be consulted more frequently, when the Trail police commission, presided over by Mayor Bruno Lerose, met this afternoon in the chief of police's office. In response, Mayor Lerose asserted he felt the council did not intend to act out of turn but was doing only what was considered the duty of the councillors. The discussion arose out of the employment of a traffic officer for Columbia river bridge. The mayor pointed out the government would not put on a special constable and that the traffic was practically composed of city dwellers and the council felt called upon to take some action which would practically eliminate accident causes during the period of time the bridge is being repaired.

TRAFFIC SIGNS

Discussion centred around the traffic speed-limit signs, Chief John Laurie stating he felt illumination was unnecessary. He contended the police department should have been consulted before the sign were put in place, Mayor Lerose declared members of the board of works, himself, and members of the police commission might tour the avenues where the signs have been placed and if more suitable places were found for the signs, they could easily be removed. That the speed limit signs were cutting down the hazardous driving in the city was unanimous opinion of the meeting, great improvement having been noted in all areas where the signs are erected.

TRAFFIC LANES

Suggestion that traffic lanes be repainted was endorsed by the meeting and a notion was made that the police department recommend to the city council that this work be undertaken at once. Recommendation that the work be done after the hour of midnight, and with a lighter color if possible, was favorably received. Although there was no law yet in force for "jay walking," the chief felt the traffic lanes served admirably to induce pedestrians to cross the streets at straight angles, thus lessening possibility of accident from crossing cornerwise.

Chief Laurie produced the official map of the city and asked if it would be possible to have it framed as it would have to be produced in court where traffic regulation cases were being tried. The chief was empowered to get prices.

During the month of July 19 cases were heard, four under the Criminal code of Canada, 14 under Provincial statutes, and one under city bylaws. Fines collected during the month totalled $205. The report follows:

Criminal Code of Canada:

Vagrancy, 1; assault, common, 1; theft, 1; fail to return to scene of accident, 1; total, 4.

Provincial statutes:

Vehicles act, 13; vehicles act (regulations), 1; total, 14.

City bylaws:

Trades licence bylaw, 1; total, 1.

Grand total, 19.

Disposition of cases was as follows: fines paid, 13; sent to industrial school, 1; sentence suspended, 1; dismissed, 1; withdrawn, 3; total, 19.

Fines collected during the month amounted to $205.

U. S. PLANE ON WAY TO ARCTIC

VANDERHOOF, B. C., August 18, (CP) — A tri-motored all-metal monoplane enroute from Los Angeles to Fairbanks, Alaska, to assist American pilot Jimmy Mattern in his search for six missing Soviet airmen, landed here at 10:45 a.m. today after a three-hour flight from Vancouver.

The plane, piloted by Garland Lincoln and carrying co-pilot Frank Tomick, aerial photographer Charles Marshall, will probably leave here early tomorrow morning for Whitehorse, Y. T., after taking on a full fuel load.

40 Join Battery, Trail-Rossland

TRAIL, B. C., August 18—Recruiting for the recently-formed 109th Rossland-Trail Battery of the 24th (Kootenay) Brigade, Royal Canadian Artillery got away to a good start at the City Hall Tuesday night more than 40 signing up Capt. Thomas Dunn M. C., officer commanding, announced this morning.

Majority of the recruits are former army or militia men whose experience will materially assist other members and officers.

Recruiting will continue Thursday night in the Rossland Armories when a parade will be held.

CHARLOTTETOWN (CP)—From the tourist standpoint Amram Scheinfeld, prominent New York writer and artist, believes development of improved roads, and also of the highways of Nova Scotia and New Brunswick is "vitally necessary" to form a connecting link with the magnificent federal highway system in Maine." Poor roads in the adjoining maritime provinces will always, to American visitors, be a deterrent from visiting this province, he said.

DUCKS FIND SANCTUARY

GUELPH, Ont. (CP)—With feed plentiful and safety assured because it is a crown game reserve, Puslinch Lake is providing a summering place for hundreds of wild ducks this summer.
