Wanted, Coaches and Leaders in Athletics

With our Kootenay communities largely drained of young men of military age, or of those accustomed to take the leadership in organizing sports, there is a community work calling now to the older men who are capable of being coaches and mentors.

Our youthful leaders in swimming, in baseball, in softball, and in other outdoor sports are largely doing important duty elsewhere.

It is now up to the older men who are competent to coach or to be mentors in various sports, to come forward, and give the suggestions and the leadership necessary.

Necessary, that is, if we believe, what we have always professed to believe, that the Battle of Waterloo was won on the playing fields of Eton and Rugby!

Athletic sports are of prime importance for our growing young folks.

Let no one talk of cutting out outdoor athletics sports for the duration of the war.

Swimming calls for no capital outlay, and no maintenance.

Baseball and softball require chiefly heads, hands and feet, with an occasional bat, ball and glove thrown in.

Everybody is afoot now virtually for the duration. How about the harriers clubs so popular in Britain and in Europe?

There is a definite call for competent persons to take a hand with the boys and girls, and see that athletics are maintained.

In Nelson's case, every encouragement should be given to the systematic development of our young swimmers, and if possible a swimming body should be formed, that could give expert direction.

Aberhart Plays Politics at Expense of War Effort

If the anger of the people of Alberta against their Premier Aberhart is not rising to a high temperature it must be because they have got to the point of a contemptuous shrug of the shoulders and an "Oh-that's-only-Abie" attitude.

Mr. Aberhart is fiddling with politics while part of the Empire is burning and the rest of it fighting for survival.

In characteristic pre-war political tub-thumping manner he ties on to an appeal for prairie farmers the assertion that they are "exploited and bullied by the two ugly sisters, the money-lending institutions and the market manipulators who live by their wits at the farmers' expense."

That statement is not true. It would be reprehensible in peace times. It is little less than iniquitous to drag out so stinking a political red herring in war times.

After the exhibition he gave of coldness towards an all-out war effort the week before the Plebiscite by refusing to make a statement on the issue excepting to give his complete support to Social Crediter Blackmore's broadcast, which leaned more obviously to gaining political suport for the So-Creds than to strengthening the country's war effort, it would have been better for Premier Aberhart to have kept quiet for a few weeks.

Etiquette Hints

Do not go into a first-class restaurant and order a dish of ice cream or a cup of tea only. The profits of the house on these items will not pay even for the laundering of the table linen.

Words of Wisdom

One of the grandest things in having rights is that though they are your rights, you may give them up.—G. Macdonald.

??Questions?? ANSWERS

Open to any reader. Names of persons asking questions will not be published.

F. A., Brilliant—Could you give me some information regarding the Countess of Athlone?

The Countess of Athlone is daughter of H.R.H. the late Duke of Albany and Princess Helena of Waldeck. She was born February 25, 1883, and was married February 10, 1904.

Reader, Cranbrook—Is Prime Minister W. L. Mackenzie King Protestant or Catholic?

He is a Presbyterian.

In chess which line faces the opponent—the pawns or the King, Queen, etc.

The pawns.

Reader, Castlegar—Would you please tell me what the proper procedure is to give the best finish to floors that have been slightly oiled? What treatment, if any, could be used in order to shellac or varnish them?

The best thing to do is to take a strong washing powder and get all the oil off that you possibly can and then shellac or varnish the floor.

A. N., Trail—Please give me some facts about Java, area, population, etc.

Java and Madura—51,000 square miles; population (1930) 40,000,000. Parts of the Netherlands East Indies. Products include sugar, tobacco, tea, coffee, tin, rubber, etc., for exportation. The equator runs through Sumatra, but Java is South of the line.

An Albertan has written, in reference to Subscriber's question on the cause of brittle nails, that if nails are cut rather than filed, it tends to improve this condition.

I would also like to know what days the following dates fell on: November 15, 1881; March 1, 1916; May 1, 1919?

November 15, 1881 was a Tuesday; March 1, 1916 a Thursday and May 1, 1919 a Thursday.

Colombo and Trincomalee

The first key to the Indian Ocean is the port of Colombo, Ceylon, which is the natural clearing house for the commerce of five continents, C. E. Elliott writes in Asia Magazine.

In peacetime, Colombo ranks about seventh among the great ports of the world. The harbor, protected by three breakwaters, is 850 acres in extent; has two modern drydocks and excellent facilities for world-wide shipping, with engineering shops close to the docks. Some years ago the government constructed immense workshops at Dehiwela, near Colombo, far in excess of its immediate requirements, an dadmirably equipped with modern machinery. The port is well defended, for the hilly suburb of Mutwal rises around and above the docks, an dis heavily fortified with big guns. There is ample space to enlarge the present airdrome, and doubtless other airfields have been constructed.

The second key to the Indian Ocean is the naval port of Trincomalee. Trinco—as it is universally called—is normally a small town of some 10,000 people. It has a magnificent inner harbor, landlocked and covering four square miles. There is deep water all round, in many places close in shore. In former days Trincomalee was bitterly contended for by Portuguese, Dutch, French and British, and was finally captured from the Dutch in 1795 and ceded to the British in 1802. Ever since, it has been the naval base of the East Indies squadron, under an admiral, working in with the Royal Indian Navy. This latter force is manned almost entirely by Indians, with a sprinkling of British officers. The sailors are mostly recruited from up-country tribes around Bombay.

Fifth In a Great Line

(Vancouver Province)

Lord Mount Stephen was the spokesman for British investors in a colorful colonial project that promised vast returns for big chances taken.

Sir William Van Horne possessed the expansive vision of a pioneer investor—he raced with his rails Pacific-wards, competing successfully in an era when railway empires held the country in their sway, beating "Jim" Hill and Charles S. Mellon to the punch, laying the same foundations in Western Canada as Collis P. Huntingdon did with Southern Pacific in California.

Shaughnessy followed Sir William and the C.P.R.'s influence, in business and politics, blossomed in the land. Old "T. G." was fond of power for its own sake and be wielded a vast amount of it.

Twenty-five years ago, Beatty, suave, business-like to his finger-tips, inherited a vast physical machine, made it greater by the development of mines and other subsidiaries—fought a war, encountered a depression and incalculable new competition, faced courageously into another world conflict — surely enough to test the spiritual resolution of any man.

Yesterday, said a dispatch from Montreal, the fifth president of the line on the C.P.R. took charge. D. C. Coleman is quite different from any of his pedecessors. We think he is more highly endowed and better trained for his great job than any president of the four he follows.

Like the late Grant Hall, to whose personality and probity C.P.R. owes as much as to any of its great officers, Mr. Coleman has come up from the ranks. He is what railway men call a "railroad man". Member of a cult—nobody ever achieved survival in it without years of hard work—he has been in nearly every job on the system. He was a young boss around Calgary just after the turn of the century. British Columbia can claim him because he was superintendent at Nelson, and Manitoba can insist he was a Prairie product because he filled a number of jobs in Winnipeg at varrying intervals. If anyone ever represented the C.P.R. tradition—and is able to represent it well—it is D. C. Coleman.

Press Comment

MONTREAL'S HEALTH RECORD SHOCKING

Much disappointment will follow the issuing of the 1941 vital statistics of Montreal among those who have worked so hard to improve conditions here and who therefore had legitimate reason for hoping for better results.

Far from such being the case, Montreal appears to be going backward. The infantile mortality rate is terribly increased, for instance. A jump in one year from a death rate of 59.6 for each thousand live births to 71.9 is simply shocking. Dr. Giroulx reveals that one of the reasons for it was "abnormally prevalent" intestinal trouble among babies in one of the foundling institutions. Little by little public health authorities have managed to cut down the casualty lists among the babies of Quebec—in certain places in the Province the highest in the recorded world. It is disappointing indeed to have to record a slip backwards, since ground so lost is not easily regained.

It is also deeply regrettable that last Summer's well prepared and patiently carried out campaign against diphtheria from which so much was expected has simply failed to have any effect. Cases of this easily preventable disease have increased in one year from 133 to 198 and deaths from 11 to 32. The report points out that "the ratio of deaths to cases was 16.6 a hundred last year as compared with 8.3 a hundred the year before." Not only were there many more cases of diphtheria in the city last year than the year before, but the malignancy of the malady seems to be gravely worse. While 193 cases of a disease and 32 deaths therefrom may not seem very great in a city of a million inhabitants, it should not be forgotten that other cities, almost as big, have eliminated the disease to such an extent that it does not appear on their vital statistics at all.—Montreal Star.

NO ONE CAN SIT IT OUT

Three months after Pearl Harbour, is there any American so deluded as to suppose that he can sit this one out? There are many, we gather, and we pity them. If you do not like the way this war is being prosecuted, it is your privilege and your duty to use all lawful pressure on your representatives to correct it. But if it is merely that you do not like this war, then you can lump it. Every last one of the 130,000,000 of us is in this up to his neck. Your way of life, your life itself, all you own or hope to own, your job, your freedom, your self-respect are at stake. No one is sitting this one out.—The British, the Germans, the Russians, the Japanese have no illusions. They know they are fighting for self-existence, and the devil take the hindmost. So are you.—Saturday Evening Post.

Looking Backward

10 YEARS AGO
(From Daily News, May 12, 1932)

Mr. Harold Whitmore arrived in Kimberley Sunday. He is with the Bank of Montreal, and has recently come to the Kimberley branch.

Chief of Police H. Long and Mrs. Long have had as their guests, Mrs. R. Anderson, Mrs. George Brown and son of Rossland.

Mrs. J. Draper has left for a visit to Grand Forks.

Miss Peggy McKay of Waldo spent Monday in Fernie.

25 YEARS AGO
(From Daily News, May 12, 1917)

George Helbecque of Upper Bonnington left Monday for Ottawa, were he is going to join the Royal Canadian Flying Corps. His sister, Denise, accompanied him as far as Nelson.

G. W. McBride will leave this morning for St. Louis, Mo.

S. A. Billington of Longbeach visited Nelson yesterday.

D. J. McElroy of Phoenix is in the city.

40 YEARS AGO
(From Daily News, May 12, 1902)

D. H. McDermid, brother of E. B. McDermid, is in the city.

Captain J. C. Gore left for the Okanagan on business concerning the re-launching of the steamer Aberdeen.

W. McFarland Evans returned yesterday from his trip to Sheguendah, Manitoulin Island.

J. W. Gallup this week trapped two handsome bears behind West's ranch at Queen's Bay.

Today's Horoscope

Ambition, practicality, mental keenness and a stern capacity for carrying plans and hopes to a successful conclusion mark today's birthday children. They are affectionate and literary. A financially successful year awaits them. Those in government employ win promotion, and inheritance is not improbable. Some little love or domestic agreement may arise during this time. A child born on this date will be ambitious, enterprising, capable, and a good organizer. Recognition and success will be achieved early. Such a child will evince many fine traits.

War—25 Years Ago

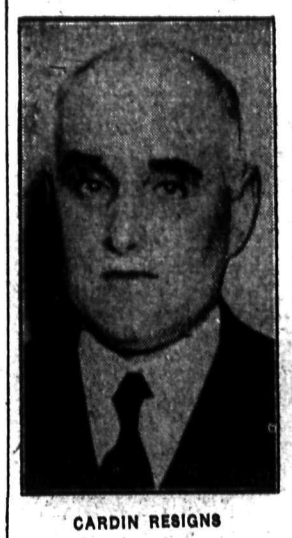
By The Canadian Press

May 12, 1917—Zeebrugge, Belgium, heavily bombarded by British ships and airplanes. Canada welcomed Marshal Joffre and René Viviani, French Minister of Justice; Viviani address joint session of Parliament at Ottawa.

TODAY'S News Pictures

U. S. MARINES DEMONSTRATE TRANSPORT OF LIGHT ARTILLERY BY AIR

Demonstrating how they will use huge transport airplanes as carriers for light artillery and mechanized equipment for surprise attacks, men of the U. S. Marine Corps drive their 37-mm. anti-tank gun, drawn by a new type midget car, up to the side of a waiting transport where it can be loaded aboard in a few minutes. At right the interior of the plane is shown with the gun, car and gun crew aboard. The marines plan to use this type of transport for quick dispatch of mechanized equipment to hard-pressed fronts, or as aids to air-borne surprise attacks.



CARDIN RESIGNS

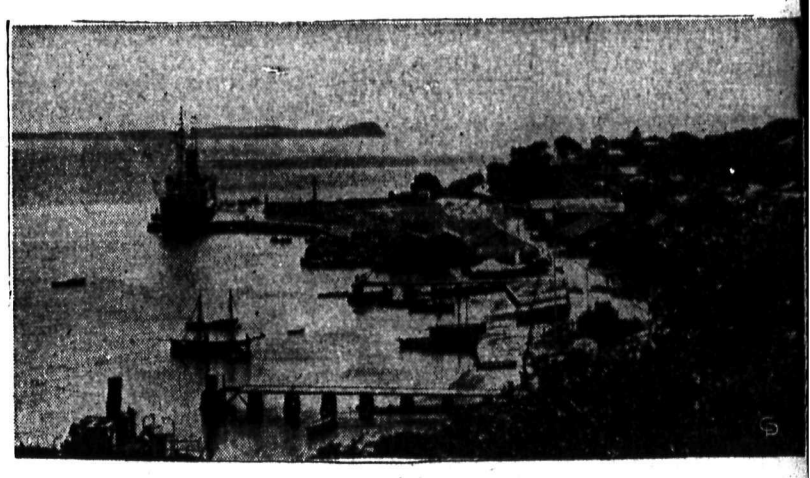
Hon. P. J. A. Cardin, Minister of Transport and Public Works, who has resigned from the Dominion Cabinet "due to his inability to suport the Government on its compulsory service policy."

UNSHEATHING THE CLAWS OF A KITTYHAWK

Streams of light from tracer bullets pour from the machine-guns of a Curtis Hawk P40E perhaps better known as the Kittyhawk, in the first public demonstrations of this U. S. Army Air Corps' fighter. The plane, its machine-guns chattering and its propeller a mere blur, is shown mounted in flying position on the Curtiss-Wright firing range at Buffalo, N. Y. This machine now has a successor, the new Curtiss Warhawk. Tracer bullets are used so that gunners can see if their missiles are hitting the target.

TANK-RIDING U. S. GOVERNOR

Coveralls and helmet of the U.S. army tank crewman, Governor Herbert H. Lehman, of New York is shown emerging from the light tank in which he took a rough ride at Pine Camp, N.Y., home of the Fourth Armored Division, of which his son, Lieut. John R. Lehman, is an officer. The governor also rode in a Jeep and tried his hand and eye firing a Garand rifle and a Tommy gun.



MADAGASCAR NAVAL BASE NOW IN BRITISH HANDS

This view shows a portion of the harbor at Diego Suarez, French naval base on the strategic island of Madagascar, off the East coast of Africa, which is now occupied by British forces. The occupation, which has the approval of the United States Government, was decided upon to prevent its seizure by the Japanese.

CONFIRM ELECTION OF NEW CHURCH OF ENGLAND PRIMATE

Conifrmation of the election of the Right Rev. William Temple, former Archbishop of York, as the new Archbishop of Canterbury took place in the crypt of St. Paul's cathedral in bomb-scarred London. This picture was taken during the ceremony. The new archbishop is seated in the foreground with his back to the camera.

GETS VALOUR MEDAL

One of Russia's women war heroes, Vera Bolshova, is shown here after she had been decorated with the Red Star for Valour. She is a military surgeon (third rank) serving with the Soviet army.

50-Mile Radius of Nelson Is Tungsten Area, Says Maconachie; Engineer Tells Rotary of Needs

Brief highlights of "secondary" minerals were given Monday by R. Maconachie, resident Mining Engineer, to the Rotary Club.

He explained that secondary minerals had been comparatively unimportant until the last six months. "They have always been imported," he said, "sent straight to the manufacturing centres, and they come to us in manufactured articles, consequently we have seen these minerals only in the finished product.

"The sources of some of these secondary minerals, especially tin and tungsten, have become inaccessible in the past six months, now that the Dutch East Indies and Malay, from which 75 per cent of the world supply of tin was drawn, have been cut off. Supplies of manganese from Gold Coast and chrome from South Africa depend on shipping. Of the world supply of tungsten, 33 per cent was obtained over the Burma Road, and now that the road is lost, tungsten is at a premium."

Mr. Maconachie suggested two alternatives for overcoming the shortage of indispensable minerals. One was by substituting and the other by increasing the supply. Canada and the United States were the only sources that could be reached where tungsten could be produced.

"There are many known occurrences of tungsten in British Columbia," he said, "of these perhaps the greatest concentration of occurrences is within a 50-mile radius of Nelson."

NEEDED FOR HARDENING STEELS

The principal uses of tungsten are in the preparation of hard steels, and in the preparation of carbides. The place of tungsten alloy steels have long been recognized in the preparation of armor piercing shells, and shell resisting armor. The place of the carbide compounds of which tungsten is a part has only been recognized recently by the allied nations. The Germans patented the process in 1935, and by processes of powder metallurgy involved a new and simple method of turning out steel articles on a mass production basis. This invention is credited by some authorities as being the outstanding factor in permitting the mechanization of the German Army between the years of 1935 and 1939.

The principal ore of tungsten that occurs in Canada in the form of mineral known as scheelite, a tungstate of calcium. Locally this occurs in many of the quartz veins which have been recognized in the past as carriers of gold values.

The recognition of this mineral by use of the ultra violet lamp thus reopens a field for prospecting in an area such as the Nelson area, even on the properties which have been explored or developed and passed up as valueless when viewed only with regard to the gold content of the vein, Mr. Maconachie said.

"Bev" Bevington of Vancouver and John Cowen were visiting Rotarians and Sidney Norman was guest at the luncheon.

W. B. Bamford was chairman in the absence of President J. R. McLennan, and Vice- President N. E. Morrison.

Ban Use of Vital War Metals in 90 Articles

OTTAWA, May 11 (CP)—Prohibition of the use of vital war metals in the manufacture, processing or assembling about 90 commercial articles, household equipment, novelites and containers was announced today by the Wartime Prices and Trade Board.

The Board said the list of prohibitions is comprised primarily of goods regarded as non-essential, over which the metal requirements of the war program must take priority.

Tourists from the United States will not be able to buy in Canada any articles for which the use of war metals is prohibited at home.

The order, issued by D. P. Criukshank, Coordinator of the Metals Administration, said no manufacturer, processor or assembler may hereafter use "any metal other than gold or silver" in production of the articles listed, except as may be required for fittings, joining hardware, reinforcing strips and struts.

Stocks of steel, copper, and the like, already processed to such a stage that they cannot be used for anything else may be utilized, up to June 30, for completion of any of the articles listed, but after that date it will be necessary to apply for a special permit from the Administrator of the metal concerned.

"There are about 90 articels in the list which forms a schedule to this order," the Board said.

"This compared with about 400 covered by a somewhat similar order issued in the United States May 5 and including many articles not manufactured in Canada.

"The Canadian list is comprised primarily of goods regarded as non-essential, over which the metal requirements of the war program must take priority. Tourists from the United States will not be able to buy in this country any articles for which the use of war metals is prohibited at home."

Germans Deny Gas Used

BERLIN, May 11 (AP)—Berlin broadcasts commenting on Prime Minister Churchill's Sunday speech denied today the German troops have used poison gas and recalled pledges by Hitler that Germany would refrain from using it.

(Mr. Churchill declared Britain is prepared to retaliate if the Germans dare to use poison gas first.)

German newspapers carried no mention of Mr. Churchill's speech. The authoritative commentary, Diesnt Aus Deutschland, however, said official assurances that Germany would not use poison gas "hold as good today as ever."

"The manner and method with which Churchill dealt with the problem is, however, extremely significant," Diesnt added. "The matter without a doubt concerns primarily competent military authorities in Germany.

23 SHIP SURVIVORS AT EASTERN PORT

AN EAST COAST CANADIAN PORT, May 11 (CP)—Reporting nine men killed when a torpedo sank their merchant vessel in the Western Atlantic, 23 survivors have been brought to this port.

Picked up by fishermen as they drifted in three lifeboats, only one of the survivors was seriously injured.

Petain Appeals for French to Remember Joan of Arc

LONDON, May 11 (CP)—Marshal Petain appealed to the French people Sunday to apply the example set by Joan of Arc in overcoming their present difficulties.

His broadcast, heard in London, was in messages to the towns of Chambery and Limoges on the occasion of the unveiling of monuments to the French heroine of the wars with the English.

"If Joan of Arc could save France which had fallen so low, there is no doubt that her remedies again will cure her," said Petain. "These remedies were love and faith in France. Think more of others and less of yourselves. Close your ears to foreign propaganda and form up closely behind your leader with only French thoughts in your heart."

Cardin Resigns in Protest of Gov't Policy

OTTAWA, May 11 (CP)—Resignation of Hon. P. J. A. Cardin, Minister of Transport and Public Works, was announced in the House of Commons today by Prime Minister Mackenzie King.

Mr. King read correspondence in which Mr. Cardin explained that his resignation was due to his inability to support the Government on its compulsory service policy.

Mr. Cardin, in his letter of resignation, said he could see no reason why the Government should so soon after the plebiscite vote—introduce a measure which carried with it the principle of conscription for overseas service.

The Prime Minister's announcement preceded his introduction of a bill standing in his name on the order paper and which, it had generally been expected, would be for the purpose of removing from the National Mobilization Act the ban against calling men for compulsory service outside Canada.

There was a full attendance of members on the floors of the House, and the galleries were well-filled as the Prime Minister announced the first resignation from his Cabnet on a difference of opinion.

After Mr. King finished reading the exchange of letters with Mr. Cardin Conservative House Leader Hanson asked:-

"Will the Prime Minister table the correspondent and when will he announce the next resignation?"

"I regret I must take exception to my friend's last question," said Mr. King. "I think when he reflects on it no one will regret it more than he will."

"I will be glad to table the correspondence."

The veteran French-speaking minister was not in the House when Mr. King announced the resignation and read the exchange of letters, which showed the Prime Minister made a final effort to induce Mr. Cardin to change his mind.

"The presentation at this time of an amendment to abrogate Clause 3 of the National Mobilization Act is not, in my judgment in accordance with the attitude taken and the views expressed in the speeches and declarations made soliciting an affirmative vote on the plebiscite" Mr. Cardin wrote in his letter of resignation which was dated May 9.

Mr. Kings reply was dated today and denied the Government had adopted any new policy. Had a new policy been adopted, he said, he would have agreed it was Mr. Cardin's duty to resign.

Retail Federation Secretary to Speak at Grand Forks

VANCOUVER, May 11 (CP). — George S. Hougham, Secretary of the Canadian Retail Federation, largest organization of its kind in Canada, will address a series of meetings in British Columbia on regulations of the Wartime Prices and Trade Board, it was announced here today. He will speak at Victoria, May 26, Port Alberni, May 27, Courtenay, May 28 and Grand Forks May 30.

MINERS RETURN TO WORK

SYDNEY MINES, N.S., May 11 (CP).—Eighteen hundred striking miners of the Princess and Florence Collieries of the Nova Scotia Steel and Coal Company returned to work today pending negotiations of their grievances.

Add to Banned List of Import Subsidies

OTTAWA, May 11 (CP)—Addition of a lengthy list of products to the group ineligible for import subsidy and establishment of a new category for goods which will be eligible for subsidy only when prior approval of the commodity prices sabilization corporation has been obtained were announced tonight by the Wartime Prices and Trade Board.

The new ruling is effective tomorrow. These items were specifically excluded from import subsidy: coffee, coffee extracts, imitations, of substitutes therefore, and chicory, green peanuts in the shell, fruit juices and syrups, dried fruits other than prunes or plums, nutmegs and mace, mustard, ground; ginger and spices other than pepper, horsehair, popping corn, sago and tapioca, extracts of meat and fluid beef not medicated, eggs, egg yolk or egg albumen, frozen, fried, evaporated, desiccated, powdered or otherwise, prepared.

Peanut butter, dried beans, dried lentels and dried peas, whole or split, pot, pearl, rolled, roasted or ground preparations, hops, soup lentels, tablets, cubes or other soup preparations; hops yeast, candles of any material, parts, finished or unfinished, of the following: dolls, toys, games, amusement devices, musical instruments, sporting goods, jewelery and ornaments, macaroni and vermicelli, matches, oatmeal.

Growers Demand Account on 1941 Fruit Crop

The Creston Review reports that following a discussion of the pooling of fruit, some 45 growers voted unanimously the following resolution: "The Growers of Creston Valley District disapprove of the method of pooling the 1941 crop and demand from B. C. Tree Fruits Limited the full amount received from each variety less the usual expenses and until this matter is settled to our satisfaction we refuse to sign the new contract. We, therefore, desire a personal explanation from the War Measures Committee." A further resolution was passed that "Copies of the above resolution to be sent to all B. C. F. G. A. Locals in British Columbia." The meeting also endorsed the motion that the growers should ask for an early inspection of soft fruits and to begin at the first of the season. William Truscott was in the chair and the guest speaker of the evening was Dr. J. Marshall, entemologist and expert on the codling moth control.

Consider Special Trade Schools as Post War Plan

OTTAWA, May 11 (CP)—Specialized trade schools, operated cooperatively by the province and the Dominion, are being considered as a post-war possibility, R. F. Thompson, Labor Department supervisor, of training, told the House of Commons Vocational Committee today.

The committee is considering the vocational training coordination act which would meet a definite need in specialized industries and which be too costly to operate on a small scale.

J. W. Noseworthy (CCF York South) suggested the government should consider extending student assistance to upper grades of secondary schools. More than 50 per cent of the brightest students left the upper grades because they were financially unable to continue, he said. Assistance was given students of this type under a plan in operation in Great Britain.

In discussing the bill, Mr. Noseworthy suggested it should be extended to include persons serving with the forces of allied nations who came to Canada after the war.

Report Giraud In Vichy

NEW YORK, May 11 (AP).—Private advices reaching the Associated Press in New York today said that according to the best available information Gen. Henri Giraud, the French soldier who presented Pierre Laval with a dilemma by escaping from a German war prison, is still in Vichy, France.

This was the latest word of the whereabouts of the General who on Saturday was said in private reports to the New York Times to have been arrested in Geneva, Switzerland, while travelling with false papers under circumstances which seemed to indicate he was attempting to escape to Lisbond, Portugal.

Previously the Government of Laval had denied he had been surrendered to the Germans upon their demand.

High-Priced Runners Beaten by Little Horse in Tight Run

NEW YORK, May 11 (AP).—Belmont Park opened the Spring season for fashion society and the two-buck bettor today, but it turned out to be bargain day when cheap little Omission came on to whip the high-priced gallopers in the featured Toboggan handicap. Attendance was 19,763.

The four-year-old son of Jock, who was bought by Victor Emanuel for $560 in the Saratoga yearling sales ring three years ago, boosted his earnings to $53,145 by standing off a long, hard drive to finish a nose in front of Overdrawn, from the barn of George D. Widener, Belmont's new Presidency.

Boston Chalks Up 11th Win

BOSTON, May 11 (AP).—Boston Braves, just about the hottest team in the National League at present, chalked up their 11th victory in 15 games today with a 3-2 verdict over Philadelphia. It was the only game scheduled.

Ernie Lombardi's third homer of the season in the sixth inning was the deciding blow. With Eddie Miller on, Lombardi lifted one over the left field fence to score the two needed runs. Alban Glossop hit a homer for the Phils in the fourth.

Philadelphia	000 100 001—2	7	1

Sports Roundup

By HUGH FULLERTON Jr.
(Associated Press Sports Writer)

NEW YORK, May 11 (AP). — John Heydler, former President of the National League who can tell you about baseball almost back to the beginning, comes up wih this explanation of why modern clubs murder the pitchers with those big innings. . . . It's because they swing any time they think they can hit the ball, even going for the 2-0 and 3-0 pitches. . . . "In my day," he says, "we would have been benched for trying to hit after three balls had been called instead of waiting out a walk.". . .

MARRIAGE OF CONVENIENCE

Story just trickled in about Fr. John Chisholm of Fort Scott, Kans., visiting the Kentucky Derby. . . . After a couple of races a fan who had imbibed too many of those one-buck mint juleps appeared with a girl companion. . . . "Can you marry me right now?" he demanded. . . . Father Chisholm suggested that some time later would be more appropriate. . . ., "Maybe later I won't have the dough," the would-be bridegroom objected. "I just won all it takes, but I got to get married before the next race. Might lose it all back."

MONDAY MATINEE

Story from San Francisco is that one reason for Clark Shaughnessy's departure from Stanford was that instead of handing out the customary $1000 bonus for a Rose Bowl coach, Stanford didn't come through until Clark asked for something for his assistants and it was only $500 for the boss and $250 for the aides.

RCAF Casualties

OTTAWA, May 11 (CP)— The Royal Canadian Air Force in its 261st casualty list of the war today reported eight men killed on active service, one dead from injuries suffered on active service, three missing after air operations and one missing on active service.

All casualties were overseas.

Killed on active service—Osten, Max Martin, Po., Oxbow, Sask., Palin, Peter James Huke, Po., A. H. Palin, father, Victoria. Blake Leonard Herbert, Sgt., Saskatoon., Hancock, Thomas Lloyd, Sgt., Wolseley, Sask., Maxwell, Arnold Grant, Sgt., Portage la Prairie, Man., Mesheau, George Lawson MacIntosh, Sgt., Rexton, N. B., Sadler, John Murray, Sgt., Chatham, N. B.

Died as result of injuries sustained on active service—Blue, Donald Archibald, Sgt., Ottawa.

Previously reported missing, now for official purposes presumed dead—Batchen, Alexander, George, Sgt., Edinburgh, Scotland.

Stephens, Robert Francis, Flt. Sgt., Westbourne, Man., Younger, Robert Laing Roy, Flt. Sgt., Winnipeg.

Missing after air operations—Gibb, George William, Flt. Sgt., Abbotsford, Que., McLean, George Arthur, Flt. Sgt., Toronto., Long, James Andrew, Sgt., Toronto.

Missing on active service—Appleton, Douglas Charles, Sgt., Toronto.

Previously reported missing, now reported prisoner of war: Otten, J. Francis, Sgt., Kingston, Ont., Wilson, John Baird Douglas, Sgt., Blairmore, Alta.

Previously reported missing, now reported interned: MacIntyre, Donald Philip, Fo., East Saint John, N.B.

HOLD GYPSIES ON CHARGE OF STEALING BONDS

TORONTO, May 11 (CP)—Three Gypsies, two men and a woman, were held by police today on a charge of stealing bonds valued at $20,000 from an unnamed 80-year-old farmer of Raleigh Townehil.

May Have More Ball Games Sundays, Nights

By JUDSON BAILEY
(Associated Press Sport Writer).

NEW YORK, May 11 (AP)—More than the early developments in the pennant races, what interests baseball men most these days are the Sunday attendance figures in the major leagues.

Before the season opened several magnates expressed the common belief that the crowds either would be very good or very bad. Nobody knew which to expect, but nobody expected the war to have any half-way effect.

Now it appears that the result is going to be small turnouts on week days and big business on Sundays.

Yesterday 163,879 fans turned out for eight games, producing a crowd of more than 20,000 at every park except St. Louis, which had 6362, a goodly throng for a home game of the Browns.

The record for the three previous Sundays shows 222,744 on May 3; 211,972 on April 26; and 134,247 April 19.

he largest crowd of the season, 68,394 including 2500 soldiers and sailors, was the one that jammed Yankee Stadium Sunday before last to see the Yanks play the dismal looking Chicago White Sox.

Big crowds like these have more than offset the dwindling count on weekdays.

This is likely to have two results—first the postponement of many weekday games to make Sunday doubleheaders; and second the scheduling of twilight contests during the week for the convenience of workers.

Rookie Gals Take Wolves Bowlers

Gene Nadeau's Rookies girls took the Wolves five pin squad for two straight falls to one in a "friendly" contest on Gelinas Alleys Friday night, and came out on the long end of the score sheet 2427-2256.

Lillian Hickey, first, rolling a 692 aggregate, led the girls to the win, which, said the onlookers, had Lefty Mydanski et al of the touted Wolves tearing their hair at the downfall. Len Bicknell copped the high singles score with a 280.

Teams and scores were:

ROOKIES

	1st	2nd	3rd	Tot.
L. Hickey	201	237	254—	692
C. Hamson	101	128	111—	340
R. Stewart	153	147	127—	427
A. Romanic	132	243	214—	589
C. McLeod	110	122	147—	379
	697	877	853—	2427

WOLVES

	1st	2nd	3rd	Tot.
T. Romano	114	121	247—	482
L. Laithwaite	95	110	162—	359

LONDON, (CP). — Raiders destroyed only a few binoculars when they bombed Woolwich Arsenal during the heavy raids on London, vast stores having been removed into the country after Dunkerque.

Statement About N.H.L. to Be Under Discussion

MONTREAL, May 11 (CP). — Tommy Gorman, General Manager of the Canadian Arena Company, said today that a statement about National Hockey League plans for the 1942-43 season, allegedly made by Clare Brunton of Ottawa at a recent Quebec Senior Hockey League meeting here, would be discussed at a meeting of the Board of Governors of the N.H.L. in Toronto Friday.

Brunton, Ottawa representative, at the Q.S.H.L. meeting, was quoted as saying: "We know the National Hockey League is going to fold up and plans to place teams in Ottawa, Quebec and another in Montreal next season." Next day in Ottawa Brunton said he had been misquoted and denied any knowledge of N.H.L. plans.

Conn Breaks His Left Hand In Private Battle

PITTSBURGH, May 11 (AP)—Billy Conn, heavyweight title aspirant who was slated to meet Champion Joe Louis in a tile bout next month, broke his left hand last night in a fight, friends said, with his father-in-law, Jimmy Smith, one time ball player.

Conn' manager, Johnny Ray, said another examination of Conn's hand would be necessary before a decision was made on calling off the Conn-Louis match. Conn, a private in the Army was sheduled to return to Fort Wadsworth, N.Y., today after a weekend furlough here.

The incident last night topped off a long-standing feud between Conn and Smith, who had objected to Conn's marriage last summer to Smith's daughter, Mary Louise, a former model. Conn was married a few days after Louis knocked him out in the 13th round of their title match.

Ray said:

"That's the second time Jimmy Smith knocked this kid out of the heavyweight championship of the world. You have no idea how his actions before the fight last June upset Billy. He didn't sleep or eat for a couple of days before the fight. Now when it looked like a sure thing that Billy would win the return bout, this has to happen."

Batting Leaders

By The Associated Press

Batting (three leaders in each league):

Fleming's Three Run Homer Wins for Tribe

CLEVELAND, May 11 (AP). — Les Fleming's three-run homer in the ninth inning climaxed an uphill battle for Cleveland Indians and gave them an 8-5 victory over Detroit Tigers today in the only scheduled American League game.

The rookie first baseman's circuit clout punched across the winning runs after an eight-inning tribal scoring spree that netted five runs to tie up the ball game.

The victory put the Indians a full game ahead of the Tigers and 1½ games behind the Yankees, who were idle.

Detroit	500 000 000—5	7	3
Cleveland	000 000 53—8	12	1

Trout, Fuchs (8) and Tebbetts; Kennedy, Gromek (1) Milnar (6), Ferrick (6) and Heaving (9) and Denning.

Send twenty cents for this Marian Martin pattern. Be sure to write plainly your SIZE, name, address and style number.

Send your order to The Daily News. Pattern will be sent to your home within 10 days.

SURVEYS SHIPYARDS FOR BUILDING OF WOODEN SHIPS

VANCOUVER, May 11 (CP)—A. Innes-Taylor, of the United States Maritime Commission, said today he was making a survey of British Columbia shipyards with a view to the possible placing of orders for wooden freighters here.

AUNT HET

By ROBERT QUILLEN

"The neighbors meant well, but it would have been a lot kinder and more sensible to give the poor widow the money instead o' spendin' it for flowers."

Vichy Envoy Calls to Discuss U.S. Martinique Plans

WASHINGTON, May 11 (AP)—Gaston Henry-Haye, Vichy Ambassador to Washington, called at the State Department today to present his Government's views on United States proposals to safeguard French Caribbean possessions and commented that "this is not time to pour oil on the fire."

"The less I say today the better," he told newspapermen before meeting State Secretary Cordell Hull. "Patience is called for at the moment. I am trying to avoid complications by refraining from commentaries which might interfere with the adjustment of a delicate problem."

The Ambassador indicated he had come to discuss, rather than to protest, the American negotiations which were opened directly with Admiral Georges Robert, French High Commissioner, at Martinique last Saturday.

He declined to discuss the nature of the American proposals or to disclose the attitude of the Vichy Government. State Department officials likewise have declined to discuss details of the negotiations.

BERLIN, May 11 (AP)—DNB dispatches from Paris today called United States demands upon the Governor of Martinique an "ultimatum" and quoted Le Matin as saying "it is not as brutal as that which Britain handed to the Governor of Madagascar but it is no less cynical."

Tells B. C. Security Commission to Make Decisions

VANCOUVER, May 11 (CP)—Labor Minister Humphrey Mitchell notified Mayor J. W. Cornett by letter today that the Federal Government "feels that the British Columbia Security Commission's hands should not be tied by having the Government itself lay down regulations which the Commission would then be expected to rigidly adhere to."

Mr. Mitchell said that "details to be formed can be developed by the Commission and its Advisory Board based on experience from day to day."

British Wreck Trondheim Railway Line

STOCKHOLM, May 11 (AP)—British electrical experts were reported today to have sabotaged the Tramshams railways South of Trondheim after they had been smuggled into German-occupied Norway.

The railway—Norway's first electrified line—is between the large sulphur mine at Orkala and the sea.

The Britons were reported to have rendered the guard of the transformer at Bordshaug harmless, and then to have blown up the big station. The transportation now is by old steam locomotives.

Rumors from the neighborhood said the guard was found with a 1000 crown note in his pocket.

Yesterday's Cryptoquote: GOOD CONSCIENCE YOU OWE TO YOURSELF; GOOD FAME TO YOUR NEIGHBOUR—ST. AUGUSTINE.

Cryptoquotes are quotations of famous persons written cipher. A substitute character has replaced the original letter. For instance, an "R" may substitute for the original "E" throughout the entire cryptoquote, or a "BB" may replace an "LL". Find the key and follow through to the solution.

CONTRACT . . . By Shepard Barclay

DOUBLING DEDUCTIVELY

INSISTING upon having a probable defensive trick in the trump suit, before you decide to make a business double, is a pretty good rule as a generality. Sometimes, though, it pays to go to the other extreme and double on a bunch of side strength if you reckon that your partner may be able to take a trump trick. The limit of this reasoning is found when you have not a solitary trump in your hand, and consequently know that your partner has all of the defensive trumps bunched against the declarer in a single string.

North: ♠ K 6 ♥ None ♦ 7 4 2 ♣ Q 10 9 8 6 5 4 2
West: ♠ A 10 8 7 3 ♥ None ♦ A 10 9 5 3 ♣ K J 7
East: ♠ Q J 9 5 2 ♥ J 9 4 2 ♦ J 8 6 ♣ 3
South: ♠ 4 ♥ A K Q 10 8 7 6 5 2 ♦ K Q ♣ A

(Dealer: North. East-West vulnerable.)

North	East	South	West
3♣	Pass	5♥	Dbl
Pass	Pass	Rdbl	

Here was a case of fine bidding proving useless because of the vagaries of distribution and the acumen of a defender.

Harold C. Richard, star of the Manhattan club of New York, made that sound effort to shut out the opponents with his opener of 3-Clubs, and his partner made an equally clever bid by calling 5-Hearts for two purposes. One was to make it hard for the opponents to overcall in spades if one of them had a long string, and the other was to make sure that his partner would go to 6-Hearts if he happened to hold a blank suit and a couple of hearts.

Their fine work proved a boomerang when C. Edward Van Vleck, Jr., great defensive bidder of the Whist club, reasoned that he probably could take two tricks, and there was a great chance his partner could get one in trumps, especially since his own double might make the declarer misplay. South, of course, could not resist the temptation to redouble.

It is not difficult to see how easy it was to set this contract by taking two aces and then waiting until South had to give East a heart trick.

* * *

Tomorrow's Problem

North: ♠ 8 ♥ Q 8 4 2 ♦ A K J ♣ A Q J 6 3
West: ♠ 10 5 2 ♥ 9 6 5 ♦ 9 6 5 4 2 ♣ 7 2
East: ♠ 9 ♥ A K J 7 3 ♦ Q 10 8 3 ♣ K 8 4
South: ♠ A K Q J 7 6 4 3 ♥ 10 ♦ 7 ♣ 10 9 5

(Dealer: South. Both sides vulnerable.)

If, when the heart 9 is led, a garrulous East remarks, "Here's one you won't make," how should South play this deal for 6-Spades, after the heart K is led to the second trick?

Machinists Hold Out Against Shipyard Order

VANCOUVER, May 11 (CP)—Machinists and blacksmiths maintained their stand over the weekend against cooperating in a full-time production program in British Columbia shipyards despite an order-in-council legalizing the program and posted in the shipyards during the past week.

Members of nine other unions, however, worked full time over the weekend on production of freighters for Wartime Merchant Shiping Limited.

Eldorado Reopens Mine at Great Bear Lake

TORONTO, May 11 (CP)—Eldorado Gold Mines Limited has reopened its mine at Great Bear Lake, N.W.T. and an advance staff has gone in, Gilbert A. LeBine, President, told shareholders at the annual meeting here today. The schedule calls for the mine to be supplying concentrates to the Port Hope Ont., refinery, he added.

WINNIPEG EXCHANGE OBSERVES ARBOR DAY

Paris Restaurant Is Dynamited

NEW YORK, May 11 (AP)—Dynamiters have damaged the station of Radio Paris and the famous Parisian restaurant of Margueyrs, trustworthy advices to the Associated Press from Europe said today.

The extent of the damage was not fully known but several persons were reported killed in the restaurant.

The BBC, in a broadcast heard by CBS, said that the main broadcasting station of Radio Paris, located 130 miles South of the capital at Bourges, had been blown up and the aerial had been downed.

These same sources said 20 more hostages had been shot near Rouen after two German sailors were killed and that five others faced a firing squad at Saint Auben.

It was said that 50 more would be shot if the guilty persons were not produced by May 15 and that 500 would be deported to Eastern territories.

The Paris long wave transmitter has not been heard since regular close down time Saturday night.

Huns Claim Warship Bombed in Harbor of Malta

BERLIN, May 11 (AP)—The German High Command claimed today that German planes bombed a warship in the harbor of Malta yesterday and shot down nine British fighters which engaged them in fierce combat.

Italian fighter planes participating in the action were credited with shooting down eight more British planes.

(British dispatches reported heavy aerial fighting over Malta all day yesterday and the previous night, during which 41 Axis planes were destroyed or damaged.)

The Germans also reported they had destroyed two British planes over North Africa yesterday and claimed their bombers had fired a 5000-ton merchant ship off Alexandria.

TIM BUCK LETTER URGES BAN ON COMMUNISM BE LIFTED

TORONTO, May 11 (CP)—A copy of a letter over the typewritten signature of Tim Buck, Secretary of the Communist Party of Canada, urging "removal of the ban which now prohibits the Communist Party of Canada from carrying on public activity in support of our national war effort" was recived last night by The Canadian Press, the letter was postmarked Ottawa.

In a covering letter, dated May 7, over the written signature of Tim Buck, it was stated that copies of the letter of appeal were sent to Prime Minister Mackenzie King, Justice Minister St. Laurent "the Parliamentary leaders of the Conservative, C.C.F. and Social Credit Parties" and Mrs. Dorise Nielsen of the Unity Party.

Woodsmen Learn Tactics of Modern Warfare at Camp Nanaimo

By STUART UNDERHILL
Canadian Press Staff Writer
Passed By Censor

CAMP NANAIMO, B. C., May 11 (CP) - Hardened Ontario bushmen who have handled rifles since boyhood and Indian guides to whom fieldcraft is second nature are teaming up with hundreds of others just as tough as themselves and soldiering with the Sault Ste. Marie and Sudbury Regiment.

Stationed at Camp Nanaimo on Vancouver Island, the "soapy suds" are learning how to direct their natural aptitude for outdoor work to modern warfare.

Most of the Regiment is drawn from the area between Sault St Marie and Sudbury, Ont., and when they ask with a shaking of their heads: "Did you ever know such a bunch?" They mean it proudly.

A visit to the outdoor rifle range where the men were firing from 100 yards found Capt. D. H. Forster of Sudbury acting as range officer and trying to coax keen-eyed woodsmen who had been shooting most of their lives into more othodox firing positions without affecting their skill.

Looking on was Sgt. A. W. Harmer of Brandon, regarded by the men in his company as one of the crack shots in the Regiment. He was a well-known rifleman in Manitoba before he enlisted.

With him was Pte. J. A. Desauliniers of Sudbury, who speaks 11 languages including two Indian dialects. To prove it he fell back on the Ojibway tongue to ask Pte. Dominic Corbielle of Manitoulin Island for a match.

The men, who belonged to a company commanded by Capt. P. B. Clifford of Sudbury, were practising grouping their shots on a target and most of them plugged five bullets into the target within a few inches of one another.

Willkie Implores Students to Give Thought to Vote

SCHENECTADY, N. Y., May 11 (AP)—To make sure this war is not "just another season of blood-letting," Wendell L. Willkie implored Union College graduates today to "defend your country not only with your guns but by your votes."

Speaking to a class of 166 seniors, the 1940 Republican presidential candidate declared in a prepared address "leaders without convictions who were thinking in terms of group vote catching" betrayed the United States after the last war.

"As citizens, you may be called on to give your very lives to preserve your country's freedom," he said. "For God's sake, elect to important office men who will not make a mockery of that sacrifice."

Huns Cut Telephone Lines to Sweden

STOCKHOLM, May 11 (AP)—Telephone communication between Germany and Sweden was cut off without explanation for nine hours Saturday night.

Swedes recalled that the Germans on many occasions in the past had interrupted communications in advance of, and at the time of, new war movements.

Before they launched their invasion of Russia last Summer, for instance, they interrupted communications at least once a week for a period of a month.

PLANT WORKERS STRIKE

BRANTFORD, Ont., May 11 (CP)—About 300 employees of the Mohawk Street Plant of the Brantford Coach and Body Company went on strike today after an alleged breakdown in negotiations with representatives of the Company.

DOW JONES AVERAGES

	High	Low	Close	Change
30 industrials	99.49	98.46	99.20	up .50
20 rails	24.69	24.49	24.64	up .13
15 oils	11.85	11.76	11.84	up .12

Market Trends . . .

LONDON, May 11 (AP)— The stock market ended on a higher note today, overcoming a tendency to take profits late in the session.

Gains ranging to ¼ of a point were registered by British Funds.

Industrials were generally steady despite backwardness in some of the store stocks. Home Rails improved along with Kaffirs.

NEW YORK,—Steels, Motors and other selected stocks overrode profit selling for modest gains in the latter part of today's market but many leaders failed to make much progress. Fractional plus signs were plentiful in the final hour.

TORONTO, — The Gold Stocks registered their best advance in a month or more and they were trailed by other groups on sizable volume.

Gains were general also in the base metal group led by the Seniors, including Smelters and Hudson Bay. Higher prices ruled in the industrial section for Foods, Steels and miscellaneous issues.

MONTREAL,—After a weak start, firming tendencies entered trading today and losses and gains were about evenly distributed near the final hour. Imperial was harder and International Petroleum a loser.

VANCOUVER—There was a definite pick-up in trading during the morning session.

Bralorne was the most active, up 20, also in Mines, Pioneer was up 4 at 1.39.

CHICAGO—After losing almost a cent as a result of selling blamed largely on reports that a Bill to reduce the potential ceilings on farm prices to parity will be introduced in Congress, wheat prices rallied today to recover practically all of the loss.

Creston Blossom Carnival Is Huge Success

CRESTON, B. C.—Midnight Saturday saw the close of one of the most successful entertainments ever sponsored in the Valley, when the Lion's Blossom Carnival closed down after two nights of record activity. Hunreds of Valley residents as well as visitors from East and West Kootenay turned out on Friday and Saturday evenings to try their luck at the various wheels, crown and anchor, bingo or dart throwing.

The executive committee in charge of the celebration, Dr. W. N. Fraser, A. R. Speers, S. Parker, T. Ricketts, G. Sinclair, G. Thorpe, F. V. Staples, and G. Constable, were well pleased with the results of the celebration and carnival. Adding to the gayety of the evening entertainments was the old time and comic costumes of the booth's operators.

Highlights of Saturday's carnival was the drawing of the grand prize, a radio, which took place near midnight. It was won by Alice Boffey.

Japanese Claim Conquest of All Philippines

TOKYO, May 11 (AP)—Domei declared in a French-language broadcast tonight that "the conquest of all the islands of the Philippines by the Japanese forces now has been completely achieved."

Quoting a dispatch from Mindanao, the Japanese agency said that Maj. Gen. William F. Sharp, described as Commander in Chief of the American-Filipino forces in the Mindanao region, surrendered unconditionally last night.

Thus the dispatch said, "four days after the fall of Corregidor, all the American-Filipino forces in the Philippines have submitted."

Domei said Gen. Sharp's surrender was in accordance with "orders issued by Lt. Gen. Jonathan M. Wainwright, Commander in Chief in the Philippines." These orders, it was asserted, were communicated to Gen. Sharp by Col. Jesse T. Traywick "on behalf of Gen. Wainwright on the afternoon of May 9."

An earlier dispatch said Col. Wade D. Killen, identified as Sharp's Chief of Staff, had been captured.

Domei also reported that Col. E. H. Mitchell, described as Commander of the U. S. 61st. Rgiment, had been captured by Japanese forces operating South of Lake Lanao, 55 miles Northwest of Davao.

Domei said Gen. Sharp's main body of troops had held positions near Malaybaley, 30 miles North of Davao.

Col. Killen was said to have been captured during operations near the North shore of the island.

LONG RANGE RUSS GUNS SHELL FINNISH COASTAL POSITIONS

HELSINKI, May 11 (AP). — A Finnish communique said today that the long-range guns of Russia's Kronstadt Island fortress, still in action, unsuccessfully shelled Finnish coastal positions.

DEATHS

NEW YORK—Graham McNamee, 53, veteran radio announcer who once estimated that during his carear he used more than 10 times the number of words in the unabridged dictionary. A native of Washington, D. C., McNamee was regarded as the dean of Sports Announcers.

COBOURG, Ont.—Judge L. V. O'Connor, 72, Judge for Northumberland and Durham Counties.

Trail C.C.F. Club Lays Plans

TRAIL, B.C., May 10—A committee was appointed by the C.C.F. Club to formulate plans whereby to contact each individual in the district as a whole in an effort to urge the Government for a total war effort. This was preceded by a discussion by the members of the club on the action of the government following the manpower plebiscite. The committee is expected to start its campaign immediately in the Trail district.

Salmo W. I. Hears From Soldiers

SALMO, B. C.—Eight members and one visitor were present at the meetng of the Salmo Women's Institute at the home of Mrs. H. Cosnet.

Letters of thanks were read from Overseas, namely, R. D. Thexton, Fred Golightly, Dick Kleef and Sparky Adams.

A donation of $5 is being sent to the Othea Scott Fund, in aid of the Queen Alexandra Solarium.

Six babies were examined at the Baby Clinic.

The Sick Committee reported 10 calls made and two cards sent out. Mrs. Morris and Mrs. Stirling are on the Committee for May.

The sum of $7.05 was made on a basket of groceries.

Final arrangements were made for a Grandmothers' Tea.

Mrs. C. A. Cawley won the War Savings Stamp.

HUNS SAY ALLIED NAVAL FORCES WERE OF GREAT STRENGTH

BERLIN, May 11 (AP). — Allied naval forces which participated in the Coral Sea battle were of exceptional strength and constituted by far the most powerful fleet units the Japanese navy has yet encountered, the Berlin radio quoted the Japanese press as saying today.

Say Paris Radio Will Take Weeks to Repair

By The Canadian Press

Saboteurs have wrecked Radio Paris, the key broadcasting station for Nazi propaganda in Occupied France, and the station is silent for the first time since the Germans marched into Paris nearly two years ago, the London Daily Mail reported in a dispatch from the French frontier today. (Also see "Paris," page 9.)

"The giant masts and pylons at Bourges, 130 miles South of Paris, were destroyed by a gigantic dynamite explosion Saturday," the dispatch said.

"Reports reaching here from Bourges declared the damage will take weeks to repair. Masts, pylons and aerials were shattered and twisted. Transmitting and relaying machinery was wrecked."

Nazi Big Guns In Action

A TOWN ON THE ENGLISH SOUTHEAST COAST, May 11 (CP)—German heavy guns on the French Coast were in action early tonight for the first time in weeks.

The batteries firing tonight were believed to have been installed recently for use against any invasion attempt by Britain.

The weather was clear and the gun flashes were easily seen from this side in the early dusk.

One battery was in action between Cap Gris Nez and Boulogne. Another was nearer Calais. The cannonade continued about two hours.

CRESTON

CRESTON, B. C.—Mrs. G. Young visited her sister, Mrs. Drifta at Kitchener.

Mrs. Hipwell has returned from the Coast where she was the Creston delegate at the I.O.D.E. convention held in Victoria.

Miss E. J. Husband, who has been visiting her brother, N. K. Husband, returned to Calgary, Alta., on Tuesday.

E. C. Hunt, of Nelson, was a visitor in Creston last week. He accompanied Dr. J. Marshall of Vernon, who addressed Valley growers on the control of codling moth.

Aircraftman Arthur Dodd of the R.C.A.F. has returned to Edmonton, after a few days' leave here with his wife and young son.

Mrs. E. Roope has announced the engagement of her eldest daughter, Margaret, to David Taylor, son of Mr. and Mrs. G. W. Taylor of Wynndel, B. C. The wedding will take place shortly.

Mrs. Smith arrived last week from Ottawa to visit her son, S. Smith. Mrs. Smith is staying at the home of Mrs. C. F. Hayes.

Mr. and Mrs. M. R. Joyce and daughter Kathleen, and Mrs. C. F. Hayes were motor visitors to Cranbrook and Kimberley during the week.

Miss Agnes Lovestrom has returned to Kimberley after visiting her parents, Mr. and Mrs. A. Lovestrom.

The fourth Creston soldier to be reported married overseas is Victor Gendron, who was well known among the younger set in the Valley. The wedding which appeared in an English paper stated Victor George Gendron, of the Canadian Army, youngest son of Mr. and Mrs. A. Gendron was married at St. Edmond's Church, Becenham, on March 8th, to Miss Muriel Marie Wooloff, youngest daughter of Mr. and Mrs. A. Wooloff, of Birchtree Avenne, West Wickham. Rev. Father O'Rourke performed the ceremony and Frank Nadon, the groom's stepbrother from Creston, British Columbia was the best man.

Five Witnesses Heard In Opening of Martha White Manslaughter Case Here; Kantel Gets Separate Trial

In the first of two manslaughter trials for the present assizes in connection with the death of a 10-week-old Trail infant, Martha Aileen White, 20-year-old mother of the infant, was arraigned Monday before Mr. Justice Ellis of Vancouver at the opening session of the Supreme Court at Nelson.

Frederick William Kantel, registered as the infants' father, who is charged with manslaughter in the same death, will have a separate trial.

CONTINUES TODAY

Miss White's trial will continue today, five prosecution witnesses having been heard Monday.

Examination and cross-examination of the witnesses, Miss Catherine E. Duke and Miss Florence H. McDonald of the Trail-Tadanac Hospital nursing staff, Dr. Edward S. Hoare of the C. S. William Clinic at Trail and Robert Weir, Trail photographer, and Constable John E. Gordon of the Trail City Police, were completed.

C. B. Garland of Nelson is Crown Prosecutor and A. G. Cameron of Trail is Defence Counsel.

Mr. Garland in outlining for the jurors the case for the prosecution declared the Crown evidence would prove the 10-week-old infant came to its death through the defendant's neglect to provide it with suitable food and medical care. The charge against Miss White was that "at Trail between Nov. 17, 1941, and Dec. 26, 1941, she did kill and slay Edward Wayne Kantel otherwise known as Edward Wayne White."

Evidence, he said, would establish the weight of the babe as six pounds, ½ ounce at birth Nov. 17, 1941; at six pounds, 4¾ ounces on leaving the Hospital; and at five pounds, 11½ ounces at its death Jan. 26, 1942. Furthermore a posthumous medical examination had proved the infant's body to be in an emaciated condition, and that there were exterior signs of advanced malnutrition.

Birth of the child was registered Jan. 15, 1941, naming Frederick William Kantel, age 50, as the father and the defendant as the mother. Kantel and Miss White were known at an apartment house, 1199 Dewdney Avenue, where they had lived, as Mr. and Mrs. Kantel.

UNAWARE IF FORMULA SUPPLEMENTARY

Kantel had not ascertained whether the formula for the baby supplied to him when he applied to her on Nov. 28 was a supplementary feed, Florence Helen McDonald of the Trail-Tadanac Hospital nursing staff, prosecution witness, answered under cross-examination. She was not sure if Kantel repeated the formula after her as he wrote it, nor could she recall if she had balanced the hospital scale when weighing the baby for the last time in the maternity ward Nov. 27.

The formula supplied Mr. Kantel was intended as a supplement to breast feeding, Miss McDonald said during examination by Mr. Garland. When she saw the baby in the hospital, it appeared normal, though possibly a little less than average weight. He progressed normally.

"PICTURE OF EMACIATION"

Dr. Edward S. Hoare of the W. S. William Clinic, Trail, described the body of the baby as he saw it a few minutes after death as "the picture of extreme emaciation". He had attended the confinement of Miss White Nov. 17, he said, declaring the delivery "absolutely normal." At birth the child seemed to be perfectly normal and it had progressed well.

When cross-examined, Dr. Hoare said he had obtained no pre-natal history of the mother, and he had not visited her or the baby after they had returned home from the hospital. It might be assumed, he agreed, considering the average weight of a male baby to be 7¼ pounds, that the Kantel baby was born slightly immaturely. It was impossible with the present clinic staff to perform a voluntary check-up of new mothers and babies, he said, but well baby clinics under women's organizations were established for this work.

The staff was fully occupied handling emergent calls, Dr. Hoare testified, replying that he had received no calls from the mother in December or January. Asked by Mr. Cameron if the clinic members did not on occasions avoid emergency calls, he answered "when possible."

"It is definitely not true," Dr. Hoare replied to a question as to whether the medical practice in Trail was not largely commercialized. He answered questions revealing the Clinic's annual estimated income as in excess of $120,000, while 11 Trail doctors and two Rossland doctors were partner members or salaried members.

It would not be good nursing practice to give an oral formula for a baby to an applicant without consulting with or reporting to the doctor, the witness said. He deemed it however the duty of a parent to consult a doctor before making any change in a baby's feeding.

FOND OF BABY

Miss Catherine Elizabeth Duke of the Hospital nursing staff outlined the feeding program for the baby while it was in the hospital. She described its progress at the hospital as "very good" and the progress of the mother as "good."

"I would say she was quite fond of the baby," the nurse said of the defendant.

PHOTO "GROTESQUE"

Contable John Edward Gordon of Trail City Police, first prosecution witness, identified three photographs, introduced as exhibits, as those he had taken of the body of the baby at a Trail funeral home Jan. 26. One photograph he described as "grotesque" when cross-examined by Mr. Cameron. Later when re-examined by Mr. Garland, the Constable said, "it was not a picture of a baby two months old." The defence's objection to this statement was sustained, Mr. Garland replying that he was attempting only to show the witness meant the subject of the photo, and not the photo itself, was grotesque.

Slight distortions in parts of the body shown in the pictures were attested to by Robert Weir, Trail photographer, when pointed out in the defence cross-examination. The subject of the photographs was in focus, he said, after identifying the prints as ones he had made of films brought by Constable Gordon in later January.

The jury consists of W. A. Harrison of Nelson, foreman, Albert Renwick, Leo Albert Desireau of Nelson; Samuel James Harlow of Sheep Creek; William Nelson, Ronald D. Ramsden, N. G. Elder of Trail; Harold Evans of Rossland; Allister C. Milne of Edgewood; William Ernest Lane Jr., of Ainsworth; Wilfred Leroy Lake of Warfield; and Cyprian D. N. Taylor of Ymir.

Interpreting
The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

Implicit in every line of Winston Churchill's anniversary war review is his reasoned conviction that the doom of Hitlerism and the Axis will be sealed in Russia, perhaps within months instead of years.

He did not say so. Yet that meaning can be read in his grim and formal warning that if the ultimate horror of poison gas is loosed by Hitler against Russia, it will be used by Britain against Germany.

Unquestionably Mr. Churchill believes that Hitler's case—within two years of his defeat of France—is becoming desperate. And there is much to justify his belief that only desperation could impel the Nazis to resort to gas warfare in Russia. It could prove a two-edged weapon, more dangerous to Germany than to her foes.

Unless Hitler stands prepared to mass his whole air power in the West defensively, which he cannot do and master Russia, his resort to gas warfare in the East would bring terrible vengeance upon his people.

That is the most potent aspect of the Churchill warning. The Nazis have lost air mastery in the West, and along the 2000-mile fighting front in Russia gas must prove a far less effective weapon than it might have been against Britain.

First German reaction to the Churchill warning tends to confirm that. It interprets Mr. Churchill's words as a British alibi for soon loosing gas bombs on Germany.

Yet the Russians have already charged Germany with the use of gas. Apparently it was upon those charges, not as yet officially confirmed, that Mr. Churchill based his warning.

Gas is essentially a weapon for use in restricted and congested areas. On the wide and windy Russian steppes it could be brought into play effectively only in limited local actions in sufficient concentrations to have strategic value.

It was a shift of wind that saved the British forces in the first Great War when the first German gas attack was launched in France in an effort to break through to the Channel.

The surprise factor was the prime element in that case. Mr. Churchill's words have helped to eliminate or at least restrict the surprise values of a German gas attack against the Russians if it now comes.

TWO FLIES KILLED

CALGARY, May 11 (CP)—Flt. Lt. R. P. Mainguy of Vancouver and Flt. Lt. A. Strugnall of England were killed instantly yesterday when their plane crashed near Seebe, approximately 50 miles from Calgary.

Farris Takes Place as Chief Justice

VANCOUVER, May 11 (CP). — Hon. Wendell B. Farris, taking his place as Chief Justice of the British Columbia Supreme Court, today told a large gathering of barristers that it was not for a judge to seek popular acclaim but to do that which his own conscience tells him is right.

Sanitary Officer Has Busy Time During April

Among the varied duties of Sanitary Inspector Robert Jardine in April, as summarized in his report to the City Council Monday night, were weely inspection of the public market, daily inspection of alleys in the business section, weekly inspection of all other alleys, enforcing a clean-up of four premises dealing with eight complaints respecting scavenger service, reporting on one fire hazard, checking on four houses as to plumbing and as to water rating, reporting sidewalk repair conditions to the City Enginess, setting rat traps around "Wholesale Row" and garbage bins—and realizing four rats—enforcing remedying of "open air plumbing" in the 800 Block of Sixth Street, securing milk samples from all licensed milk vendors for the purpose of laboratory tests, and making collections.

MRS. G. KUMOREK DIES AT FERNIE

Mrs. Carolina Kumorek, aged 47 years, wife of Mike Kumorek, died May 4 at Fernie after a long illness. Mrs. Kumorek resided at Fernie for 29 years.

The funeral was held from Holy Family Church on May 7. Pallbearers were Jan Bachlet, John Pachara, James Mat, William Slemko, Joseph Ferovicz and Joseph Warshawski.

Besides her husband, Mrs. Kumorek is survived by five sons, Frank of Calgary, Mike, Wadsworth, and John of Trail and Eddie of Fernie, and a daughter, Helen, of Fernie.

W.G.H. Stainton of Nelson Dies, Tranquille

KAMLOOPS, B. C., May 11 (CP)—William George Hillier Stainton, 55, of Nelson, B. C., died at Tranquille 18 miles West of here, Sunday afternoon. He had been ill for the past 22 months.

A native of Ontario, Stainton lived in British Columbia for 39 years. He was a Canadian Pacific Railway trainman.

Mrs. Stainton was at Penticton, B. C., en route to visit her husband when advised of his death. She returned to Nelson where the body is being sent for burial.

Besides his widow, Stainton is survived by three children.

Miss F. Wheaton of Cranbrook Weds LAC S. Young

CRANBROOK, B. C., May 11 (CP)—Of wide interest in this district was the marriage of Frances Emily Wheaton, only daughter of Mr. and Mrs. James Wheaton, Cranbrook, and LAC Stanley Dames Young, R.C.A.F., Dafoe, Sask., son of Mrs. Charles Young, Acme, Alta.

Miss Patricia Condon was bridesmaid and LAC. Lionel Young, Dafoe, groomsman. Rev. Frank Patch officiated.

The couple left on a wedding trip to Calgary.

The bride was born here while the groom worked at Kimberley prior to his enlistment last Summer. He pitched for the Cranbrook Baseball Club for three years and played hockey with the intermediate Rangers.

KASLO

KASLO, B. C. — Mr. Horsley of Nakusp has returned to his home after several days spent at the Cork-Province.

NAZIS OPEN BIG OFFENSIVE IN CRIMEA

POLITICAL CRISIS OF FIRST RANK FACES PREMIER

French-Speaking Men Lining Up Against Overseas Clause

LIBERALS PLAN CAUCUS TODAY

OTTAWA, May 11 (CP.) — Prime Minister Mackenzie King appeared to be confronted with a political crisis of the first rank tonight as a result of the introduction of a bill to make conscription for overseas service possible and the opposition of a sector of his following.

A way out of the crisis, which was brought to public notice by the resignation today of Hon. P. J. A. Cardin, as Minister of Public Works and Transport, may be sought as a Liberal party caucus called to meet tomorrow.

In advance of that gathering, however, a solid anti-overseas-conscription bloc appeared to be in formation among the French-speaking members of the House of Commons.

BACK CARDIN

The Canadian Press learned from more than one informed source that practically every French-speaking member from Quebec, and perhaps some English-speaking members from that province will suport Mr. Cardin in opposing the amendment of the National Resources Mobilization Act to remove the ban on sending conscripted men outside of Canada.

Hovering on the fence and believed likely to join the bloc are several members representing French-speaking constituencies in Ontario and New Brunswick.

Political observers said the situation brings Mr. King up against two problems—the retention of as much suport as he can from the Liberal membership of the House and the finding of two or more French-speaking members to represent the Province of Quebec in the Cabinet.

The concern of members representing Quebec and other French-speaking constituencies, seemed to be Quebec's "no" vote on the plebiscite. They felt bound to respect the views of their constituents and oppose amendment of the law.

Observers thought that consideration was likely to deter some if not all the French-speaking members who might be asked to enter the Cabinet from accepting.

There now are three vacancies in Quebec's normal representation in the Cabinet as no successors were ever appointed to Hon. Pierre Casgrain, who resigned some time ago to accept a judicial apointment, and to Rt. Hon. Raoul Dandurand, Minister without portfolio, who died in March.

VICTORIA EMPLOYEES GRANTED BONUS

VICTORIA, May 11 (CP)—Payment of cost-of-living bonus to civic employees was authorized by the City Council today on motion of Ald. W. Lloyd Morgan, Chairman of the Finance Committee.

CANADIANS WIN U. S. SCHOLARSHIPS

NEW YORK, May 11 (CP)—Two Canadians—Elie Abel of Montreal and Frances Cadzow of Calgary—were announced today as winners of scholarships by the Graduate School of Journalism of Columbia University.

Italians Dressed as Women Escape

LONDON, May 11 (CP.)—Ten Italians, wearing women's clothing, wigs and make-up—theatrical props—have escaped from a Midlands prison camp and that is why police in Britain are pay particular attention to women with deep voices and stubble on their chins.

Soon after the Italians clambered over a nine-foot wall topped by barbed wire early today searchers found discared prison clothing and discovered that the camp's theatrical wardrobe had been rifled.

AMENDMENT TO GIVE FREEDOM IN RAISING MEN

Will Remove Clause 3 of Mobilization Act

OTTAWA, May 11 (CP)—A bill Mobilization Act, removing the ban on compulsory service outside the Dominion, was introduced in the House of Commons today by Prime Minister Mackenzie King.

Purpose of the amendment, Mr. King said, was to give the government "the same freedom of decision and action with respect to the method of raising men for military service overseas which, in the recent plebiscite, the people requested, and which they said they desired the Government to possess."

The amendment deletes section 3 of the Act which contains the clause which restricted the government from calling up men for military service in any theatre of war outside the Dominion.

"Section three contains the one remaining restriction on the government's freedom of action in all aspects of the government's war effort," the Prime Minister said.

Mr. King said the National Resources Mobilization Act was enabling legislation and its use had been the prerogative of the government in the light of the relevant circumstances.

"This will remain true of the unrestricted powers which the amendment, if enacted would afford," the Prime Minister added.

He said the government could have proceeded by order-in-council under the War Measures Act to bring existing legislation into conformity with the will of the people as expressed in the vote on the plebiscite.

But by proceeding with a bill *"the government is providing* members of parliament, before any amendment to the National Resources Mobilization Act is made, the fullest opportunity of considering the effect of every *aspect of the amendment.*

Mr. King recalled that when he placed the plebiscite policy before the people, he had emphasized that it was desirable to remove any restriction or any appearance of restriction upon the powers of the government to effect a total war effort.

"By their vote in the plebiscite the people have experienced their readiness to have the sole remaining restriction upon decision of action, removed.

"The removal of Section 3 of the National Mobilization Act is, in other words, the logical consequence of the vote on the plebiscite."

GAS SITUATION WORSE; WARNS BUS OPERATORS

New Regulations and Economy Drive Planned

LUXURY TRIPS TO BE CUT OUT

OTTAWA, May 11 (CP.)—With the blunt warning that Canada's gasoline inventory "is steadily becoming worse," Munitions Minister Howe tonight heralded new transportation regulations he predicted will mean re-routing and re-scheduling of many bus services and abolition of duplicating runs.

The new orders provide that "no bus may be operated on a route not approved by the controller." They make it mandatory for "every operator to justify, as essential to a nation at war, any route which he now operates or intends to operate."

Transit Controller George S. Gray, who issued the new orders, said the "first move" in the campaign has already been taken.

"We have asked every municipality in Canada to report to what extent its public transportation services can be curtailed," he said. "Many have already acted to reduce mileage."

Under the new economy campaign, designed to conserve rubber, gasoline, steel and other important war materials, all weekend excursions and other luxury trips will be eliminated. In many communities, the announcement said, special extra-fare buses, special night services and all non-essential parallel routes will be either curtailed or discontinued.

"Broadly speaking," said the statement, "the yardstick for measuring whether a service is necessary will be this:

"If a person is capable of travelling on a public conveyance, he is capable of walking half a mile to board the conveyance."

PLAN MARKER

Other new regulations announced tonight provide that every bus must bear a registration marker supplied by regional offices of Transit Controller Gray. Enforcement officers have been instructed to watch for buses travelling on unassigned or unapproved routes.

"Buses now serving communities which do not need them must be transferred to runs where they are needed in the war program," Mr. Howe said.

French Rightists Booed as Try to Demonstrate

VICHY, May 10 (Delayed) (AP). A handful of French rightists attempted a demonstration in front of the American Embassy today, crying "Down with the United States; long live France," but they *were quickly booed away* by a number of other Frenchmen who happened to be present.

Police watched with smiles as several hundred Frenchmen drinking aperitifs at a bar across the street rose and shouted "Pigs! traitors!" at the nine members of the extreme youth organization staging the demonstration.

The nine demonstrators had linked *their arms as they paraded in* front of the Embassy and police didn't make a move as the Frenchmen sitting in the popular Cintra bar put the followers of Jacques Doriot in their places.

FRENCH COLONIES IN INDIA GO OVER TO FREE FRENCH

LONDON, May 11 (CP)—The British Broadcasting Corporation reported a spokesman in London as saying today "that Vichy had no power over the French Colonies in India as they had given their allegiance to the Free French over a year ago."

BRITISH SHIP HIT OFF ATLANTIC COAST

WASHINGTON, May 11 (AP)—The United States Navy Department announced today a medium-sized British merchant vessel had been torpedoed off the Atlantic coast and that survivors had been landed at an East coast port.

ITALIAN ATTACK ON BRITISH CONVOY THWARTED

Units of the Italian fleet were forced to flee when escorts of a British convoy heading for Malta got into action. A British light cruiser is shown throwing out a smoke screen while another cruiser elevates her forward 5.2 guns to shell the Italian fleet.

INDIAN FORCES REORGANIZE TO MEET INVASION

Upsets 100-Year-Old Military Policy

By PRESTON GROVER
(Associated Press Staff Writer).

NEW DELHI, India, May 11 — (AP). — Britain's Commander in India, Gen. Sir Archibald Wavell, was disclosed tonight to have reorganized the three Indian military commands into powerful and competent mobile armies to meet land or sea attack from the Japanese on Eastern or Southern India.

With the Japanese still reported marshalling a Bengal invasion fleet at Rangoon, and with only the gallant but exhausted force of Gen. Sir Harold Alexander standing between the enemy and the Northern gate to India(Gen. Wavell upset the 100-year-old Indian military policy by which the strongest forces were held on the Northwest frontier.

His primary purpose was to divorce the administrative functions of the Army from the fighting units *so that the defence along the coast* and Eastern and Northern frontiers would become the sole function of the fighting forces.

Three Army commands were created—Northeast, South and Northwest. The vast Central area will be administered under the Central India Command, the major function of which will be to train new defence forces.

Most of the trained British and Indian troops are expected to be concentrated in the armies of the Northeast and South. No change in officers commanding was involved.

LONDON, May 11 (CP).—Italy announced Saturday that 1194 Italian soldiers had been killed in the Balkans during April, 768 of them when a transport was torpedoed. In addition, 508 others were wounded. The announcement did not give details of the torpedoing.

Victoria Woman to Join C.W.A.C. Headquarters Staff

OTTAWA, May 11 (CP.)—Canadian Women's Army Corps headquarters tonight announced appointment of Capt. P. H. Lee-Wright, a Canadian from Victoria who has spent most of her life in England, as a headquarters staff officer.

She replaces Capt. Margaret Eaton of Toronto who goes to Montreal as staff officer there, replacing Capt. M. J. P. Ramsay who has been appointed assistant commandant of the C.W.A.C. training centre at Ste. Anne de Bellevue, Que.

French-Speaking Liberals Back Stand by Cardin

OTTAWA, May 11 (CP)—A meeting of the French-speaking Liberal Members of Parliament was held here today and at its close a committee from those who attended prepared a statement saying "a large majority" of Quebec Members endorsed the stand taken by Transport Minister Cardin in resigning from the Cabinet in protest against the Government's new manpower policy.

The statement said "Several members from other provinces "are of the same opinion."

The Quebec Members met in Mr. Cardin's *office* and one Member who was there said more than 30 Members attended. He said Mr. Cardin gave his reasons for breaking with the Government over the manpower legislation and that the endorsation of his stand given by the meetig was unanimous.

EXPECT STATEMENT ON CANADA'S RELATIONS WITH VICHY

OTTAWA, May 11 (CP)—Officials here said today they expect Prime Minister Mackenzie King will make a statement in the House of Commons within the next day or two on Canada's relations with the Vichy Government.

JAPS STRUGGLE TO WIN FREE OF CHINESE CLAWS

Held Fast Despite Reinforcements From Burma

By SPENCER MOOSA
(Associated Press Staff Writer).

CHUNGKING, China, May 11 (AP).—Chinese lines of entrapment held fast tonight around the remnants of a Japanese column enveloped and slaughtered on the Burma Road despite the shock of reinforcements rushed from Burma by the frustrated invaders of Free China's back door.

Two hundred and fifty miles South of this dramtic scene of Japanese annihilation, another all but forgotten Chinese Army, by-passed in the reckless Japanese dash up through the Shan states, was officially reported to have smashed three attacks by a fresh Japanese column in the Loilem sector near the River Salween.

In Western Yunnan Province, where the Burma Road begins its tortuous ascent on Chinese soil, the hapless Japanese column which is reported to have lost 4500 shock troops *in the Chefang trap, and* which has turned about to try and reach safety, still was surrounded by the Chinese, the High Command said.

GIVES WARNING

Gen. Lung Yung, Governor of Yunnan Province, said in a statement that the situation is developing in China's favor, but warned of the possibility the Japanese might attempt to drive on Kunming.

"If the Japanese risk such an adventure," he said, "they will encounter stout resistance from several hundred thousand Chinese troops in Yunnan who are firmly resolved to drive the invader out."

Japanese reinforcements rushed up from Burma were intercepted before they could reach the Chinese cordon and heavy fighting was in progress, a communique added.

ZANUCK IN LONDON

LONDON, May 11 (CP). — Col. Darryl Zanuck, of Hollywood, has arrived in London on a military mission, it was announced today.

Weather

Only seven degrees separated high and low temperatures in Nelson on Monday, which was another day of almost 24-hour rain. The temperature extremes were 37 and 44 degrees, and the precipitation for the 24 hours *ending Monday afternoon* at 5 o'clock was .75 inch, making 1.61 inches for the last three days. The hills again had snowy capes on their shoulders.

Rising two-fifths of a foot during the 24 hours ending Monday at noon, the lake at Nelson stood at exactly 4.00 feet above the low water mark. Sunday's reading was 3.60 feet, and Saturday's 3.32 feet.

Gas Ration for U. S. and Other Tourists to Be Cut Deeply

OTTAWA, May 11 (CP.)—The gasoline ration allowance for United States and other tourists in Canada will be drastically reduced May 15, Munitions Minister Howe announced today.

A departmental statement said the action was taken "because of the increasing gravity of the gasoline shortage in Canada."

A new order, issued by Oil Controller G. R. Cottrelle of Toronto and approved by R. C. Berkinshaw, Chairman of the Wartime Industries Control Board, will abolish the 20-unit coupon book which has been provided for tourists remaining in Canada more than 48 hours. This book is good for 100 imperial gallons under the present quota.

The order provides that if a United States or foreign car tourist proposes to stay in Canada long enough to need more gasoline than he has in his tank at the time he enters the country, he will be given at the border a ration book permitting the purchase of four units—20 gallons.

No more than one of these four units coupon books will be issued for any one car in any one year. To make it impossible to obtain a second coupon book, the Canadian customs officer will stamp the vehicle licence to show that a coupon book has been issued.

The order will make it clear that the responsibility for not running short of gasoline is up to the tourist *himself*. If he runs out of coupons, he will be given no more, and will have to arrange some other method of transporting his car back to the United States, for example, by freight.

Jap Invasion Troops Believed to Have Perished by Shipload

By YATES C. McDANIEL
(Associated Press Staff Writer)

ALLIED HEADQUARTERS Australia, May 11 (AP)—The postroops perished by the shipload in the Coral Sea battle was advanced today by competent informants who emphasized that allied announcements of enemy losses thus far have made little mention of damage to transport units known to have been part of the enemy force.

Conservative and still incompetent reports of the epic battle have listed only two Japanese transports or supply ships sunk and two more damaged but these observers said that when the full score is tabulated it may include a greater number of Japanese troop carriers.

The officially announced number of Japanese ships sunk or badly damaged in waters Northeast of Australia in the last seven days stood at 21.

United States and Australia ships and planes continued on the alert for additional signs of the enemy *although there was no true indica*tion that he had reformed his forces for another test of allied fire and steel.

Gen. MacArthur conferred again today with Prime Minister John Curtin for the second time in two days and Gen. Sir Thomas Blmey discussed the general war outlook and the implications of the Coral Sea battle with army Minister Francis Forde.

Drive On Kerch Believed Aimed At Rich Oil Deposits

Red Troops "Wage Stubborn Battles" Against Nazis; in Other Sectors 38 German Planes Are Destroyed

By HENRY C. CASSIDY
(Associated Press Staff Writer).

NEW YORK, May 11 (AP).—The BBC in a broadcast heard tonight by CBS quoted the German News Agency as speaking of "offensive and defensive actions fought East of the Kerch-Kharkov line."

MOSCOW, May 12 (Tuesday) (AP).—The first big Nazi Spring thrust began yesterday in the Eastern Crimea with a lunge toward Kerch, a key peninsular point along the shortest possible hop to the Soviet's Caucasion oil riches, the Russians announced at midnight last night.

"During May 11 in the Kerch Peninsula," the communique said, "our troops waged stubborn battles against the German Fascist troops who had taken the offensive."

This departure from the customary "Nothing to report" phrase *indicated the Germans had begun a large scale move*ment toward the oil fields so heavily prized by Hitler that he has expended uncounted thousands of lives in previous efforts to get them.

Thus, as many observers, includnig the Soviet military leaders, had expected, the German's main effort appears to be directed at smashing across the narrow Kerch peninsula not only to attempt to grab the rich fuel deposits but also to be in a position to turn the allied Middle Easern flank in another oil kingdom, Iran.

The Crimea was the first sector of *the Russian front to shake off* the paralyzing Winter which aided in thwarting the Germans' drive toward Moscow last November.

When it travelled through the Caucasus in mid-April the terrain already was hard and dry—ready again to provide a footing for the Nazis' mechanized might and the challenging iron monsters marshalled y the Soviets.

But the Germans have two deterrents on the Crimean front — the fact that the Russians are so firmly entrenched in the town of Kerch and the fact that the Russian defenders of Sevastopol have *put up such a heroic battle* to hold that important Soviet port at the Southwestern end of the peninsula.

The Crimea front also was the scene of a reported German introduction of poison gas. That happened for the first time in the war last Thursday, the agency Tass said.

PREPARED FOR GAS WARFARE

As far as chemical warfare is concerned the Russians themselves are believed amply prepared for the counter use of poison gas.

Long before Germany crashed into Poland, Russian military leaders warned they would use buckets of gas on an enemy who dared to use that weapon against them.

To the Russians it has been obvious that one of Hitler's main 1942 objectives would be the Caucasus. Many believe Germany's most pressing need is oil if she is to continue the war.

The Russian grip on Sevastopol remains a steady threat to any German push in the Kerch area. The Soviet estimated that approximately 50,000 Nazis have died on the approaches to that besieged city.

Preliminary reports did not give the exact strength of this sizeable Nazi push toward Kerch nor is it known just how much of the Kerch area is held by the Russians who have had months to fortify their hold.

In other sectors, there were no material changes during the day. It listed 38 German planes destroyed yesterday to 12 Russian losses.

With this bag, the Russians said German losses since May 8 totalled 209 planes to 98 Russian.

At the Northern end of the front the communique reported stubborn fighting in which the Germans were losing heavily in men and equipment.

Huns Make Quick Response to Churchill's Threat

BERLIN, May 11 (AP)—A Berlin broadcast quoted Wilhelmstrasse sources, commenting on Prime Minister *Churchill's Sunday speech*, as saying today "if Churchill deems it necessary to make use of certain armaments, the world may rest assured that Britain is about to commit another crime."

(The broadcast did not specifically mention by name poison gas with which Mr. Churchill declared Britain is prepared to retaliate if the Germans dare to use it.)

Non-Violent Non-Cooperation Only Alternative Says India Leader

By WILLIAM McFAGGIN
(Associated Press Staff Writer).

NEW DELHI, Idia, May 11 (AP). —Pandit Jawaharwal Nehru said today he was struck by the different ways in which the United States and Japan have reacted to the decision of the Congress Party to oppose a Japanese invasion of India with *non-violent non-cooperation.*

America, he said during the course of an exclusive interview, is criticising the party's decision as a sign of weakness, while the *Japanese are angry "at our spirit* of resistance."

The Japanese, he continued, had hoped to pass through India without interference of any kind from Indians.

Nehru, who received me at the home of a relative where he had stopped en route to the mountains for a few days rest, defended the decision as "the only alternative under the circumstances."

The other alternative—some sort of armed resistance under the state —disappeared, Nehru said, when Indian hope for immediate statehood was eliminated with the failure of the mission of Sir Stafford Cripps.

The Pandit (the word stands for "*wise man*") *said he would have* liked to organize guerilla bands and a home guard or a people's army of some kind.

Under present regulations Indians can join Gen. Sir Archibald Wavell's Indian Army but are unable to have an army of their own, Nehru said.

The Congress, while refusing to participate in British-promoted air *raid precaution measures*, is organizing its own instead. This is one branch of the extensive self-protection, self-sufficient program—as it is called—under which the Congress is organized for war.

Nehru said the people of India are so tremendously nationalist that they have had little interest in international affairs, but 10 years of effort by their leaders have succeeded in making them Pro-Chinese, Nehru said, and consequently they were anti-Japanese when the Japanese invaded China.

Mr. Justice Gordon Tells Nelson of Colossal Red Cross Task to Ease Sufferings of Humans

An inspiring address on the work and objectives of the Canadian Red Cross was given by Mr. Justice Gordon, Chairman of the Executive Committee of the Canadian Red Cross Society in the Legion Hall on Monday night marking the opening of the nationwide drive for funds of $9,000,000 to carry on the society's work.

Mr. Justice Gordon had high praise for Nelson's achievement in the past of donations to the Red Cross, marking that Nelson stood among the highest on the list of cities and towns giving most freely. That these donations had been given without a campaign was really remarkable, and he felt certain he said, that Nelson would reach the objective of $15,000 set by the Society.

Red Cross efforts came near to a crusade perhaps God's greatest gift to civilization with its main aim, as far as was humanly possible, to draw some of the poison from the fangs of war.

Explaining the reasons for keeping the Red Cross appeal separate from the Government campaigns an dthose of other organizations, Mr. Justice Gordon stated the fundamental and elementary principles of the Society were neutrality voluntary aid and could not be subsidized by Government grants; otherwise they would become an agent of the government and thereby lose both privileges and property set forth for the society at the Geneva convention. The government sets the objective, otherwise the society operates as a free agent retaining its valuable rights.

TIRELESS IN EFFORTS

"Tireless in their efforts to alleviate the suffering of war, the Red Cross works incessantly for prisoners of war, he stated, sending food and comforts to the men taken by the enemy and locating "the lost" for relatives at home. On the Pacific front, the Red Cross is in daily contact with the Argentine, the intermediary between Japan and Canada, endeavoring to ascertain the casualties at Hong Kong and to send parcels to prisoners there. An effort was also being made through the Japanese diplomats returning to Japan.

In Europe, 80,000 prisoners were taken, mostly at Dunkerque and "it is the duty of the free to those in bond, these men who only surrendered at command from their officers after making it possible for 350,000 to escape, to make their lot a little easier if possible." he stated. These prisoners in German camps receive three meals a day, breakfast—tea substitute, lunch, soup containing a little meat, a few beans, fat, and potatoes; evening meal, the same, sometimes sauerkraut. Prisoners in Italian camps receive two meals, morning — melon, stewed mutton, Italian paste, peaches, evening, soup, pimento, hard boiled eggs, melon.

TO BOOST SHIPMENTS

The Red Cross sends 40,000 parcels via New York to Lisbon by Swiss steamers and intends to increase this number to 70,000 soon. The society intends to set aside $3,000,000 of funds donated in this campaign for this work and if the campaign is oversubscribed this amount will be increased, Mr. Justice Gordon stated.

The packing of these parcels was all done by women giving their services voluntarily and to give an idea of the colossal amount of work being done, he told of one of these groups packing 21,000 boxes in 60 minutes. The only cost to the Red Cross was for the trucks bringing in and taking the packed boxes to be shipped.

The Red Cross Information Bureau at Ottawa was also doing a stupendous task in endeavoring to locate those lost.

Another great effort on the part of the Red Cross is being made to the bombed victims in Britain where thousands of children have received help.

He mentioned here that the close cooperation from "our powerful and friendly neighbor to the South," the U. S. had sent $32,000,000,000 to the British Isles.

The Blood Donor system, making it possible to save many lives, cost the Red Cross $400,000 last year and will be again high.

Mr. Justice Gordon spoke on the Red Cross aid sent to Russia, and the wonderful response from the people of Canada during the appeal last Winter.

Calling on the citizens to keep the "Red Cross light burning brightly" and to make a little sacrifice to make it possible to do what is right and fair to those who have left us and to those who are taking the front line of danger, Mr. Justice Gordon closed his address.

W. F. Tuffrey, Commissioner of the Red Cross in B. C., spoke briefly on the wonderful response given by Nelson in the previous campaigns and hoped for the same generous donations to this campaign as in the past.

W. R. Grubbe, President of the Nelson Red Cross Society, was Chairman and H. Radcliffe gave a vote of thanks at the close of the meeting to Mr. Justice Gordon.

Council Backs Petition for Housing Act

At the request of the City Council of Kitchener, Ont., which has a housing shortage as the result of its war industries, the City Fathers on Monday night gave their endorsement to a resolution from the Ontario city petitioning the Dominion Government to continue instead of suspending the Dominion Housing Loan facilities, and to enlarge its scope by permitting the down payments of 10 per cent to apply also to houses costing $3600 or under.

The view was expressed that continuation of the Housing Loan policy would be a benefit to Western communities generally.

Over 50 Turn Out for R.C.A.F. Exams

Over 50 recruits turned out Monday to recruit in the R.C.A.F. and the R.C.A.F. (Women's Division) and at midnight last night about 20 were still being checked over by a mobile recruiting unit at the Nelson Armory. The recruits, "girls and men," were described as all keen to "get in" by Flying Officer J. E. Wright, officer in charge of the unit.

The recruting party began interviewing applicants at 2 p.m.

Flight Lt. Charles W. Taylor was medical officer, Cpl. H. A. Wright was in charge of classification tests and Lac. Reid was transport driver.

Section Officer Rhoda C. Keir of the R.C.A.F. (Women's Division) was also with the unit, to receive applications in that division from girls, and to explain the training involved.

Fo. Wright explained that the classification tests that were now being taken by all applicants were based more on practical common sense rather than school knowledge.

The tests show ability to learn, are composed of 80 questions and a half hour is given to write them.

He commended the excellent facilities at the Armories for recruiting, and said that the officers there were very helpful and cooperative. "We are all very much impressed with Nelson," he said.

Spokane Man Again Rotary Governor

VANCOUVER, May 11 (CP).—In hospital since yesterday suffering from a slight recurrent illness, Fred K. Jones, Spokane, was returned as District Governor of Rotary District 101 at the annual conference here today. Mr. Jones' condition is not serious.

Callura and Davey Crawford Draw

PROVIDENCE, R. I., May 11 (CP)—Angelo Callura of Hamilton, Ont., and Davey Crawford of New York battled to a draw in a stirring 10-round bout here tonight. Callura weighed 129½, Crawford 123¾.

Surface on Wall Doesn't Rank as Sidewalk Yet

A concrete sidewalk that will be built, not as a local improvement, but as a partnership enterprise between the City and residents concerned, with the latter paying cash, was authorized by the City Council Monday night, which accepted a petition from the residents of the North side of Silica Street between Ward and Josephine Streets in the 600 block.

The petitioners set forth, as individuals, the amounts they would pay, based on their frontage, and also particulars of instalments if time was required. All their shares will be cleaned up within a few months, payments being at the rate of 17½ cents per square foot, the usual rate, which approximates half the cost the City bearing the other half.

With ordinary concrete sidewalks, the owners of abutting property have an option of making payment in instalments over 10 years, but this walk of six feet width will rank as "a surface on top of a wall," and for this luxury, there is no provision for application of the Local Improvement procedure, and so a cash deal is in order.

A sidewalk petition from a group of property-owners on Sixth Street was referred to the Public Works Committee.

Rossland Staked by C. M. & S. to A.R.P. Hospital

ROSSLAND, B. C., May 11—The City Council was in the pleasing position Monday night of being assured a wanted facility, without having to lay out any money for it.

This facility is an emergency hospital, to be located in the High School, with at least $600 worth of equipment, an dconsidered by Dr. E. E. Topliff to be necessary in connection with the Air Raid Precaution service.

When Dr. Topliff approached the City Council with his request, the City Fathers got in touch with the Consolidated Mining & Smelting Company of Canada, which agreed to foot the whole bill. This issue of the matter was communicated to the City Council Monday night.

Lightning Move by Hitler to Determine War

LONDON, May 12 (Tuesday) (CP)—Berlin dispatches reaching London by way of Ankara today said Hitler is nearly ready with military and political preparations aimed at decisive action which will determine the issue of the war."

"Such action will be begun suddenly in different directions with lightning speed," Reuters quoted a dispatch from the Berlin correspondent of the Turkish News Agency.

Despie these repor tsteh t

Desptie these reports the calm with which Turkey views the situation was shown by the fact that the largest hotel in Ankara is demolishing its air raid shelter, reuters said.

It was explained that Turkish confidence is based in the first place on lack of Axis military preparations in the Balkans and second, by the belief that Germany has suffered so heavily in Russia tht she can not afford to open a new war theatre.

The first officially recorded game of baseball was played at Hoboken, N.J., in 1846; professional baseball began in 1865.

C. B. Browne, New Denver, Is Naval Graduate

OTTAWA, May 11 (CP).—National Defence Headquarters tonight made public name of cadets and officers who graduated Saturday at Brockville Officers' Training School.

Names of the graduates included C. B. Browne, New Denver, B. C.

Red Cross Drive Nets $200 in First Day Nelson

Canvassers, opening the Red Cross campaign for funds in Nelson Distric Monday, received $200 in cash donations lifting the total to $300. The Nelson Junior Chamber of Commerce opened subscriptions to the fund over the weekend with a $100 check. Pledges signed so far will net $5500 in the next 11 months.

Working in teams, the men in the business section and the women in the residential district, the Nelson workers began a campaign that is expected to net $15,000 in cash and pledged donations. The women, under Mrs. R. H. Dill, were out in force, though inclement weather confined somewhat the canvassers' activities.

Over 50 women are engaged in the drive, seven new canvassers having volunteered their service Monday. They are Mrs. G. Atkinson, Mrs. William Reydon, Mrs. D. D. Townsend, Mrs. Duncan Smith, Mrs. German Hunt, Mrs. A. E. Murphy, and Mrs. F. B. Pearce.

Stan Morris of Boxla, Puck Fame, Joins Up

Well known in Nelson, where during his 16 years residence he played box lacrosse, junior hockey and baseball, Stanley Edwin Morris of Canyon, B.C., leaves next Sunday for Calgary to join the Army Service Corps (mechanical transport).

He came to Nelson from the Prairies with his parents, Mrs. W. E. Morris, 402 Behnsen Street, and the late Mr. Morris.

For several years he was employed by the B.C. Public Works Department in Nelson and District.

He played on the Nelson junior boxla team in 138 when it took the Interior title; on the Nelson 1939 senior boxla West Kootenay championship team and played on the Nelson junior hockey team in 1937-38 and 40.

Malta Gets 70 Axis Planes For Record Bag

VALETTA, May 11 (CP)—Aided by reinforcements flown in from Egypt, the R.A.F. joined ground batteries in destroying or damaging 70 Axis aircraft over Malta since Saturday midnight, a record bag, British Headquarters announced tonight.

Twenty-five raiders were knocked down for sure, 20 more were listed as probables and 25 were damaged.

In Sunday's fighting alone the island's defenders accounted for 63 enemy craft—42 of them listed as knocked down or probably destroyed an 21 damaged. Fighters shot down three more today and damaged four.

In the 48 hours ending Sunday midnight 29 Axis bombers and fighters were bagged, 27 probably destroyed and 37 damaged—all this at a cost of only three R.A.F. fighters.

One official said the island's present strong defences make it simply murder for the Axis airmen to continue the assault.

In Sunday's fighting the flaming carcasses of Axis dive bombers littered one airdrome.

Men Cannot Have Counsel in Seeking Postponement or Leave

OTTAWA, May 11 (CP) — War Services Minister Thorson told the House of Commons tonight that regulations prevented a man called for compulsory military service being represented by counsel when seeking a postponement or leave before a war services board.

The minister, outlining work of his department in the course of debate in committee on the war appropriations bill, was answering a question by Rev. Dan McIvor, Lib., Fort William.)

Mr. Thorson said war services regulations provided hearings before boards should be in camera and no one was entitled to be represented by a solicitor.

Out of 311,825 men called to report for physical examination for compulsory military training 11,568 had failed to report, Mr. Thorson told the House. But a large percentage of the delinquents had enlisted voluntarily, Mr. Thorson said.

He gave the information in reply to a question by John Diefenbaker, (Con., Lake Centre.)

Lists of those delinquents were kept constantly circulating through the 13 administrative divisions set up under the National Resources Mobilization Act, the Minister said, and he would welcome any information members could give him of persons delinquent from either the call for physical examination or for training.

Facts regarding delinquents were placed in the hands of the Royal Canadian Mounted Police, the Minister said, but the main objective of the Department ws to get men into the training camps and not into jails.

There had been 242 convictions for failure to obey the call-up, the Minister said, and the number of real delinquents was "not much over one per cent". In many cases changes of address accounted for failure to report.

Mighty German Army Reported in Action on Russ Front

NEW YORK, May 12 (Tuesday) (CP)—A German Army of 2,000,000 men and between 1,000 and 2,000 first-line Nazi planes went into action yesterday on a 250-mile Russian front between Dnieperopetrovsk and the Kerch end of the Crimean peninsula, the New York Times said today in a dispatch from Berne, Switzerland.

This may be the beginning of Hitler's long-heralded Spring offensive, the dispatch said, and quoted a military spokesman in Kuibyshev as reporting Soviet severses "at certain points."

The Times also reported large-scale German troop movements radiating North and South of the Smolensk area of the Central front.

LONDON, (CP.)—German troops stationed in Enghien, Southwest of Brussels, mutinied when ordered to leave for the Russian front, according to the Free Belgian news agency. Similar incidents were reported at Alost and Verviers.

Petain Hurries Back to Vichy for Reasons of "Imperious Concern"

VICHY, May 11 (AP)—Chief of State Marshal Petain hurried back toward Vichy tonight for reasons of "imperious concern" as this capital awaited developments in the United States—Martinique negotiations and as British forces—now called "the enemy" here—sought to extend their foothold on the French Island of Madagascar.

The aged Marshal and his wife were expected tomorrow morning after cutting short their Riviera vacation because of undisclosed "events."

Presumably Washington's action in dealing directly with Admiral Georges Robert, French High Commissioner in Martinique, for a new "arrangement" about that French Caribbean island, instead of pro-Axis Pierre Laval, was one of the "events" dictating Petain's return.

The announcement of Petain's return was the first public knowledge of his absence. He and Laval, his Chief of Government, have been in telephone communication daily.

An authorized source said Laval was unable to make a decision concerning Martinique until he had heard from Vichy's ambassador to Washington, Gaston Henry-Haye.

French sources here emphasized that Martinique held the Bank of France's bullion reserve, and one source also stressed the fact that the Free French warships there are "in perfect condition." The warships are the Aircraft Carrier Bearn and two cruisers, Jeanne D'Arc and Emile Bertin.

As anti-British demonstrations continued today in various parts of France under the direction of the French Legion—the single party permitted by Petain's regime—today's communique on Madagascar used the term "the enemy" for the first time in referring to Britain.

British troops were claimed to be dug in five miles from Mahagaga, or about seven miles South of Diego Suarez, the Occupied French naval base.

French officers taken in the capture of that base were said to have been interned aboard British ships in the harbor, and native troops discharged

NATIONAL WAR LABOUR BOARD

COST OF LIVING BONUS

The Dominion Bureau of statistics has found that the cost of living index number for April 1, 1942, of 115.9 (adjusted index 115) has not risen by one whole point or more over the index number for October 1, 1941, of 115.5 (adjusted index 114.6). Accordingly, the National War Labour Board, pursuant to the provisions of Section 12, of Order in Council P.C. 8253, determines and announces, for the period May 15, 1942, to August 15, 1942, subject to the right of employers or employees to apply to a War Labour Board for authorization of payment of such an amount of cost of living bonus as a Board may determine to be "fair and reasonable", under the provisions of the Order, that:

(a) There shall be no change in the amount or precentage of cost of living bonuses presently being paid;

(b) An employer who has not been paying cost of living bonuses may not begin to pay such bonuses.

By Order of the National War Labour Board,

Ottawa, Canada

Britain Is Now Better Equipped to Fight Hun Air Raids

By FOSTER BARCLAY
Canadian Press Staff Writer

LONDON, May 11 (CP)—A year ago London, veteran of day and night air raids, staggered under a series of thumping Nazi punches.

A year ago London reeled, fought for breath and more than 1000 of her people died during the night of May 10 in the fiercest raid of the war.

Today, virtually raid-free since last mid-Summer, London stands bulwarked as never before to face Nazi bombers whose last bit of mass-murder in this Empire Capital was less than 100 killed on the night of July 27.

Now, wherever two or more people gather talk eventually comes around to possible resumption of raids. If they do, greatly improved defences will meet the bombers but for the time being at least the tension and agony London knew a year ago is gone.

London bristles with anti-aircraft guns and various secret defence devices, some of them manned by Canadians. Each gun site is a small fort with guns in steel and concrete emplacements which look like slices of a miniature Maginot line.

Down in subterranean posts gunners stand by with headphones in communication with the main underground headquarters, nerve centre of the whole London defences.

Hundreds of searchlight batteries have been established. Barrage balloons have been overhauled and defence personnel trained to a key pitch.

Fire-fighting services have been reorganized, surface and underground shelters enlarged, strengthened and made more comfortable, immense water reservoirs erected at strategic points, rest centres re-equipped, hospital services broadened.

Special attention has been paid to air raid shelters. Hundreds of unsatisfactory shelters have been pulled down or closed an new-type shelters, equipped to withstand blasts, erected.

Ventilation, heating and sanitary arrangements have been improved against the day when Londoners may have to once more move underground in force. There are 7700 shelters in the London area with at least one-third of them equipped with canteens.

Keynote of the campaign to "streamline" equipment and services has been the motto in "Britain shall not burn."

This message has been spread through the country by huge posters.

In the rebuilding of fire-fighting services 1400 local authority brigades in Britain have been reconstituted as a national fire service, composed of 33 forces operating under a new code of discipline, and a new system of control.

Every civilian has been enroled in a fire-guard, an organization incorporated in the Air Raid Wardens Service intended to defeat incendiaries by dealing with fire bombs as they fall.

Report Violent Action of Japan's Dangerous Volcano

LONDON, May 11 (CP)—Asama-Yama, the largest active volcano in Japan, about 100 miles Northwest of Tokyo, erupted with great violence Saturday night, doing unestimated damage, according to the Berlin radio.

The broadcast, quoting dispatches from Japan, said the eruption was the worst in many years and the German-controlled Brussels radio characterized it as "a catastrophe." A thick rain of ashes blanketed the countryside for miles around, the Brussels version added.

India's Non-Violent Resistance Will Hinder Invasion Says Spry

By J. F. SANDERSON
Canadian Press, Staff Writer

WASHINGTON, May 11 (CP)—The Japanese will find the non-violent resistance or sit-down strike policy of the All-India Congress a mighty impediment to any attempt to invade India, it was predicted here today by Graham Spry, Canadian-born personnel assistant to Sir Stafford Cripps.

"It does not mean non-resistance but non-violent resistance," he said, adding that the policy had been "very effective" against Britain in the past.

The defence of India, however, does not rest on the philosophy of Gandhi—the philosophy of the sit-down strike—but on a well equipped army under Gen. Sir Archibald Wavell, Mr. Spry said, adding that British and American planes are moving into India in large numbers.

There were over 1,000,000 men under arms in India, 5 per cent Hindus. This army is being increased as rapidly as arms could be produced in India or shipped from Britain or the United States. Voluntary enlistments average 50,000 a month and this number was limited only by the availability of arms.

At a press conference today, Spry said Indian distrust of Britain and distrust among India's political parties led to the failure of the Cripps mission India had been offered what it took Canada 60 years to accomplish—independent nationhood and complete sovereignty at the end of hostilities.

He did not know whether the Indian leaders could achieve sufficient unity among themselves to agree to counter-proposals, but was significant that no Indian political leader or no Indian political journal had questioned the sincerity of the British War Cabinet during the discussion that led to failure.

At only one time during the discussions, Mr. Spry said, did any Indian leader suggest that with the Japanese in the Bay of Bengal and in Burma, it would be possible to call a Constitutional Assembly immediately or to change the 1935 Constitution of India. That suggestion came on the last night of discussions on the Cripps plan.

Turning to the immediate threat to India by the Japanese, Mr. Spry said all declarations stating their opposition to the Japanese. The sit-down strike policy of the All-India Congress, he emphasized, did not apply to all the people of India, only to the Congress Party Members.

Russian Workers Giving All to Help Win War

TORONTO, May 11 (CP)—Russian industrial workers, spurred on by their slogan to "beat Hitler in 1942," are at work 12 hours a day, seven days a week, Eve Curie, scientist and author, recently returned from the Russian and Far Eastern fronts, said in an address here Saturday night.

Maps of battle terrain and communiques from the fighting front do not show the greatest accomplishment of the Russian military machine—the destruction of the German Army's morale, Miss Curie said, quoting Russian military leaders.

"Women are doing heavy factory work of the type that was always allotted to men, yet there is no complaining," she said. "They are willing to do anything to win the war. I don't think there is a single person in Russia who is both healthy and idle."

The white race suffered an "irreparable loss of face" in the Far East with the invasion of Burma, Miss Curie said, commenting on her experiences in Burma at the time of the Japanese attack.

"The Chinese has seen both the British and Americans pushed back by the Japanee and the white race has lost face with the Chinese. Never again will the Chinese permit themselves to be dominated or exploited by the white race."

The invasion of Burma was a game with "children playing with savages," she said. Japanese mastery of jungle warfare combined with the treachery of many of the Burmese overwhelmed the defenders.

Don't be a CUPBOARD QUISLING!

"Cupboard Quislings"! Is that too hard a name for people who selfishly lay in unnecessary stocks of clothes or food, or other goods for fear of shortages?

No! The name is not too hard, even though it may be earned through thoughtlessness. For in reality they are doing, in a petty, mean way, what the Quisling does in the open.

Anyone who buys more than is necessary for current needs—

Is breaking his country's law for personal advantage.

Is betraying his loyal neighbours and those who are not so well off as he.

Is, in effect, depriving our fighting men of the munitions and supplies they must have to defend us.

Is hindering our war effort and helping our enemies.

Loyal citizens avoid putting unnecessary and abnormal strains on our factories. In time of war, loyal citizens do not spend one dollar more on civilian goods than is absolutely necessary for current needs.

The law provides for fines up to $5,000 and imprisonment up to two years for hoarding; and hoarding is just another word for unnecessary selfish buying.

In cases where it is advisable for you to buy in advance of your immediate requirements—such as your next season's coal supply—you will be encouraged to do so by direct statement from responsible officials.

Sub Takes Honors in Sinking Floating Dock

A BRITISH PORT, May 11 (CP)—H.M.S. *Upright*, which flies the "Jolly Roger" flag of the Mediterranean submarine flotillas, is back in port after a year of duty. She brings back with her two special distinctions which set her apart from all other submarines—she is the only submarine in the world to have torpedoed and sunk a floating dock, and she has shot down a Messerschmitt as well.

The floating dock, in the tow of enemy tugs and escorted by three destroyers and two aircraft, was sighted in daylight just a mile off Cape Del Armi, Italy. Although there was a flat calm and all conditions favored enemy countermeasures, Lieut. John Wraith, Commander of the Upright, decided upon the attack. Another submarine saw the Upright's torpedoes hit the target.

"We dived deep immediately," said Wraith, "but unluckily we struck a patch of fresh water and went down, down well below the dangerous depth marks on the near, but did no damage."

The Messerschmitt was shot down by Lewis gun fire from the bridge as the Upright lay on the surface in Malta harbor. Able Seaman F. C. Wooley of London and Mate C. A. B. Spratling of Surbiton were on duty in the Conning tower when a ME 109F chased a new Maryland bomber overhead.

Spratling was on the gun and Woolley loaded. Smoke poured from the plane's engines and bullets ripped after along the fuselage. It crashed over the tops of buildings in the harbor.

The Upright's Jolly Roger also shows that she sank a destroyer, an Italian cruiser and four enemy transports during patrols.

Before the fall of Java, the Netherlands Indies purchased large quantities of percale and broadcloths in the U.S. for manufacture of native garments.

Meniere's Disease . . .

Sufferers From Dizziness Given New Hope

By LOGAN CLENDENING, M.D.

Meniere's disease is a severe form of dizziness or vertigo. Many people write to me about it every week. I am glad, therefore, to announce some good news in a discussion of the subject by Dr. Miles Atkinson of New York. Dr. Atkinson says, very sensibly in my opinion, that the doctors have always been looking for a single cause which suits all cases, when in his experience he has found that Meniere's disease has several causes, two of them being quite definite.

AKIN TO ALLERGY

One class of cases is undoubtedly caused by something akin to the state of allergy. The attacks are paroxysmal. Enough cases have now accumulated where the patients have been proved to be sensitive to something such as milk or wheat to allow us to say quite definitely that allergy is the essential factor in these cases.

A test which has proved valuable in recognizing this group of cases is the histamine skin test.

CONSTRUCTION OF ARTERIES

There is another larger group of patients with Meniere's disease in which the attacks of vertigo are probably due to construction of the arteries in the internal ear—in the organ of equilibrium. This second group of patients are likely to be elderly people, at least over 60 years old, and constiute a good deal larger group than the allergic group.

There is no reason why the arteries in the organ of equilibrium should not undergo constriction just as much as the arteries of the heart undergo constriction to produce angina pectoris in the same age group of patients. It has been found that treatment directed toward relieving spasm of the arteries will relieve attacks of Meniere's disease, such as the use of amyl nitrate pearls, nitroglycerine and other dilating agents.

QUESTIONS AND ANSWERS

H. S.:—What causes cracking of toes, knees and sometimes the jaw when eating? Could this be from a lack of vitamins

Answer: Some people are subject to these easily dislocated and rough joints. It does not appear to mean anything serious and is certainly not due to a lack of vitamins.

Join the LUX DAILY DIPPERS

Daintiness is vital to romance, so never risk your daintiness by wearing undies a second day without a dip in Lux to freshen them.

Undies absorb perspiration—which quickly leads to undie odor. That's why undies should get their Lux dip right after you take them off at bedtime. Lux whisks away perspiration—leaves undies fresh and dainty. Keeps fabrics bright and new-looking longer, too! So start your Lux daily dipping tonight.

Family Life . . .

Self Control and Discipline Needed In Home

By Garry Cleveland Myers, Ph. D.

We parents should enjoy our children's company and they should enjoy ours.

In order to enjoy our children best, we parents must plan and work together for their wise upbringing, having begun this planning together before the first child was born.

SELF-DISCIPLINE

One barrier to our happiness is in our human frailties, of course, and our difficulties in managing ourselves.

In order to enjoy our children and help them to enjoy us and one another, we must train them, from their early years, in good habits of routine and in respect for the rights of others and regard for constituted authority, in an atmosphere of sympathy and understanding and love. To do this requires constant thought and effort.

ESTABLISHING CONTROL

There can be no happy companionship if we are forever getting on one another's nerves. They must learn early that there are some things they must never do and some things they have to do, as members of the family. This control we must establish with as little annoyance to them as possible.

Q. Should the mother who does not have to work deny herself social pleasures in order to be home when the child returns from school in the afternoon?

A. Yes; for most days. I can hardly think of any better measure for home morale in these times than for mothers to be nearly always home at such times, even to welcome the child in the high school.

Hints for Housewives

By BETSY NEWMAN

TODAY'S MENU

Fresh Ham Roast
Boiled New Potatoes Gravy
Dandelion Greens
Mixed Spring Salad with
Magic Mayonnaise
Fresh Pineapple
Maple Refrigerator Cookies
Coffee

FRESH HAM ROAST

1 lean fresh ham, 1 onion, 1 teaspoon dried sage, salt, pepper.

Wipe Meat with damp cloth, put in roasting pan, sprinkle with salt and pepper and with a mixture of chopped onion and sage. Roast slowly at 300 degrees F., allowing 30 minutes cooking to the pound. You can also pot roast fresh ham. Brown all over in its own fat, sprinkle with salt, pepper, sage and onion as for oven cooking, cover and cook very slowly on top of stove, adding a very little hot water if necessary.

MAGIC MAYONNAISE

Two-thirds cup sweetened condensed milk, ¼ cup vinegar, or lemon juice, 1 egg yolk, ½ teaspoon salt, ¼ cup salad oil or melted butter, few grains cayenne, 1 teaspoon dry mustard.

Place all ingredients in mixing bowl and beat with rotary beater until mixture thickens. If you wish it thicker, place in refrigerator to chill before serving. Makes 1¼ cups. If you prefer, you can put mayonnaise ingredients into a pint galss jar and shake them, instead of beating.

MAPLE REGRIGERATOR COOKIE

Three cups flour, ½ teaspoon soda, ¼ teaspoon salt, 1 egg, 1 cup butter or margarine, 1 cup maple sugar, ½ teaspoon vanilla.

Sift flour, measure and sift with soda and salt. Cream fat, add sugar gradually, creaming it in as added; then add egg and beat mixture until very light. Stir in dry ingredients gradually, add vanilla, and shape into a roll. Chill thoroughly, then slice and bake in a moderate oven 350 degrees F. You may add nut meats if you like.

DANDELION GREENS

Allow 1 pound of greens for 2 people. Wash very thoroughly, in several waters, removing discolored leaves and any grass or weeds. Put into large saucepan, cover and place over low heat. When greens arewilted and water has collected in bottom of pan, uncover, turn heat up and cook from 5 to 10 minutes, seasoning with salt during last five minutes. Drain greens by lifting them with a fork, transfer to hot vegetable dish and serve garnished with wedge-shaped pieces of lemon if liked.

The Amish people of Pennsylvania will not be much affected by the halt in sales of automobiles and tires—they never have used them.

Deer Park Rancher Injured by Gas Tank Explosion

Nahum Edwardson, Deer Park rancher, is a patient in Kootenay Lake General Hospital receiving treatment for a head injury sustained last week in an accident at his ranch. Mr. Edwardson was working on a gas tank when an explosion occurred.

His cousin, John Edwardson of Grand Forks, was in Nelson over the weekend to visit him.

Interference . . .

Shouldn't Tell Tales on Others

By BEATRICE FAIRFAX

Dear Miss Fairfax:

A very good friend of mine, who has been married almost a year, moved away. I have found out that her husband has been writing to a girl he was in love with before he was married. My girl friend knows nothing about it. Do you think I should tell her or just let it drift along and let her find out for herself?

WORRIED FRIEND

As long as your friend has not discovered that her husband is writing to one of his former girls, why make her unhappy by telling her? It's possible that this affair may not come to anything, and if it does she'll find it out soon enough.

It's never wise to interfere between married people. It has been the experience of well-intentioned friend who does this sort of thing that little more is accomplished than getting the ill will of both parties.

Fruitvale Auxiliary Benefitted by Tea and Card Party

FRUITVALE, B. C.—Mrs. G. Ross entertained at a daffodil tea and card party proceeds to be donated to the Women's Auxiliary of St. John's Church. Proceeds of sale of daffodils were handed over to the 109th Girls' Club, who work for the Fruitvale boys overseas. Four tables were in play, Mrs. F. Young assisted the first prize and Mrs. J. W. Olsen, second.

Mrs. F. Young assisted the hostess in serving tea. Those present were Mrs. H. C. Davis, Mrs. J. W. Olsen, Mrs. G. Grieve, Mrs. Arthur Ranson, Mrs. D. C. Mason, Mrs. F. Young Mrs. L. Ayre, Mrs. Knowler, Mrs. A. M. Barrett, Mrs. Knowler, Mrs. A. R. Heighton, Mrs. F. Easby, Mrs. J. Martindale, Mrs. Louis DeBruyn and Mrs. A. E. Borrow.

With petrol rationing the four-in-hand horse vehicle has appeared on Australian roads.

Plump Heroines Have Problems

By IDA JEAN KAIN

When you read a novel, don't you sometimes wonder about the author behind the book? Don't you puzzle over how she goes about creating the characters so that they grip your interest? I do. So when I talked with Fannie Hurst, one of my first questions was whether the heroine who gets her man is not invariably slim and beautiful.

The chances are she is. "I don't say the plump ones can't get their man," Miss Hurst said quickly. "But the odds seem to be against it." Nevertheless, she likes writing about women who are plump because they have more problems. By problems she does not mean marital unhappiness. The real trouble there she thinks, is not that a woman lets herself get plump but that she lets her mind take on suet—that is when her man is apt to stray."

You will be interested to know that the author likes fat women in the flesh, too— but would rather see than be one. She herself used to be overweight. Nowadays she is a svelte 137 pounds for her height of five feet seven and says that "when I get up in the morning the scale is my first destination.

If anything, she counts the calories too rigorously, and I disapprove of her diet. But I agree with her that "most women like to blame their glands when it is nothing but too much food that makes them fat. A little self-control is all that is needed. I am sure the best exercise in the world is to turn your head from left to right when offered more than you should eat.

AINSWORSTH

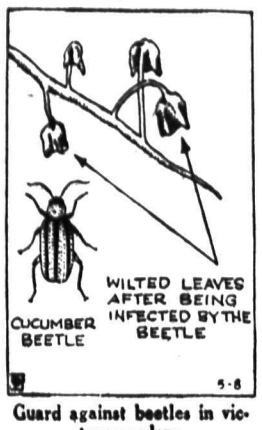
There were also five committees elected; Red Cross, Mrs. Pascuzzo, Spiritual Education, Mrs. Brock and Mrs. Genest. Press and Membership, Mrs. Dooling and Mrs. Eberlein. Social Welfare and Citizenship, Mrs. Godderis and Mrs. Smith. Entertainment, Mrs. McGrath and Mrs. Pascuzzo. Sick Committee. Mrs. Foisey, Mrs. Smith and Mrs. Staples.

Guard Against Cucumber "Wilt"

By DEAN HALLIDAY

If you enjoy fresh, crisp cucumbers from your own garden, protect the seedling plants early against cucumber beetles.



Guard against beetles in victory gardens

As illustrated in the Garden-Graph you can identify this yellow beetle by its black striped wings. The cucumber beetle eats the tender shoots and leaves of the young cucumber vine and, as they chew they infect the plants with bacterial wilt. The beetles carry the spores of this wilt on their backs.

To prevent this wilt, spray the plants with bordeaux mixture or dust with rotenone or activated pyrethrum. The rotenone will also control the beetles.

If you discover that one of the cucumber plants has the wilt, destroy it at once to keep the disease from spreading to other vines.

LONDON, (CP.)—A recent Army Council ruling permits soldiers to wear civilian shoes with battledress during office work or while walking out.

Unofficial List Announces Names of 35 Hong Kong Prisoners

OTTAWA, May 11 (CP)—A government announcement issued Sunday listed the names of 35 Canadian officers who are listed to be prisoners of war at Hong Kong.

The list was based on a cable receiver from the British Ambassador at Chungking, China, and one from Lt.-Col. Ride at Kukong, China.

The government statement accompanying the list of names said both cables seem based on the same unofficial sources of information. The information in the embassy telegram was apparently secured through Col. Ride and is assumed to be based on the personal recollection of himself and others:

It added, "The ommission of names therefore should not be construed as unfavorable."

The list

Winnipeg Grenadiers, Maj. Henry William Hook, Maj. John Albert aille, Maj. Kenneth Baird, Maj. Ernest Hodkinson, Capt. John A. Norriss, Capt. Edward B. Walker, Capt. Donald George Philip, Capt. Njall Odeigur Bardall, Capt. Alexander W. Prendergrast, Capt. David Aaron Golden, Lieut. Frederick V. Dennis, Lieut. Harry White, Lieut. John Edward Dunderdale, Lieut. James D. McVarthy, Lieut. Richard Maze, Lieut. Leonard Corigan, Lieut. George B. Harper, Lieut. Hugh Edward MacKechnie, Lieut. Railton A. H. Campbell, Lieut. Alexander S. Black, Lieut. William F. Nugent, Lieut. Robert William Philip, Lieut. Thomas A. Blackwood, George Porteous, Auxiliary services attached to Winnipeg Grenadiers.

Royal Canadian Army Medical Corps; Maj. John N. B. Crawford, Capt. Stanley M. Banfill, Capt. John A. G. Reid, Capt. Edward L. Terry, Capt. G. C. Gray.

Royal Rifles of Canada: Maj. John H. Price.

Headquarters "C" Force, Capt. U. Laite.

Canadian Dental Corps: Capt. J. C. M. Spence, Capt. Winston R. Cunningham.

High Scoring at Whist Drive

TRAIL, B. C., May 10—Exceptionally high scores were noted at the C.C.F. whist drive Friday night in Elks Hall, when 13 tables were in play. Mrs. B. Rhodes and J. R. Ilott, with a score of 197, were the winners of the first of the two first prizes, and Mrs. Alex Todd and "Dusty" Rhodes, with a score of 162, were the winners of the second first prize. Mr. and Mrs. J. R. Ross won the consolation with a score of 123. Refreshments were served after the cards to close the evening.

"Build B. C. Payrolls"

This Extra Richness

"Pacific Milk is always fresh and creamy and extra rich. I am impressed with this extra richness for I don't expect any milk to be as rich as Pacific is and I like it. In tea, coffee, cocoa, cakes, puddings and whipped cream it makes the food have a nicer taste."—From the letter of Mrs. W. P.

SERIAL STORY . . . . . By JERRY BRONDFIELD

No Refuge From Love

CHAPTER THIRTY-EIGHT
(Continued)

He slapped the engineer on the back. 'Nothing to wory about. Now, if you'll excuse me, gentlemen, I'll put in a call to the New York office."

Enid Blair answered the phone. "Hello," he said cheerfully. "What's cooking?"

"I'll put you through to Mr. Whitworth," she said briefly.

"Hey," Neil said. "I won't bite you."

There was a short silence, and then, hurriedly, as though she were saying something she shouldn't, Enid said, 'Molla broke off her engagement with Tay."

He heard the crackling as she made the connection with Burton Whitworth's office. Whitworth said hello three times before Neil snapped out of it.

"They're going to blast in three days," Neil said mechanically. His thoughts were far from the subject.

"Good," he heard Whitworth say. "I'll be down to see how it goes."

Neil hung up. So Molla had broken her engagement. He wondered what had happened; if something had come up suddenly to make her do that. He wished suddenly that he were in New York then.

Three ays later the army engineers took over. Burton Whitworth and Dr. Jordan sat down on the bank alongside Neil and watched every proceeding with eager eyes.

Dr. Jordan puffed calmly on his pipe, but Whitworth was a bundle of nerves.

"Why must they take so much time?" he muttered. "What are they discussing down there. What do they think they're blowing up—Boulder Dam? That thing isn't more than 25 feet long if it's an inch."

"Twenty-two," Neil said, by way of correction. "Give 'em time," boss. We build 'em, they smash 'em."

The engineers finally got their first charge set. "Here it comes." Neil said tersely. An engineer gave the all-clear sign and signalled to the detonator. There was a muffled rumble, followed by a terrific roar. The great mass of concrete shook in a cloud of dust.

They all ran down when the dust settled. The engineers swarmed all over the structure.

"Pretty well cracked, but still plenty solid," one said. "It would still hold a wall of water behind it if it had to."

"Get that second charge ready," the chief engineer shouted.

Neil's eyes were shining. "That first charge would have wrecked the thing normally."

Fifteen minutes later the second charge was ready. The signal was given and again there was the terrific roar.

The cracks gave way to crumbling segments this time and small pieces were torn out at various intervals.

The engineers were sweating. "You've got something here, fella," the chief called to Neil. "It's taking everything we're giving it."

They tried a third blast. This time great chunks came out of the base and slowly, somewhat majestically, the dam crumbled as though fighting to the very last."

Burton Whitworth mopped his brow. "Lord, what punishment that thing took." He turned to Dr. Jordan, his hand extended.

"Walter, you did it. You've got something great there. Uncle Sam will be just as proud of you as I am."

He grabbed Dr. Jordan by the arm. "Come on, let's see what the army brass hats think about it now."

Neil watched them sramble down the bank and join the excited group of army men who were examining the wreckage of the dam.

Then he turned away and trudged along the edge of the stream to his station wagon.

His work here was done. Now he had to pack and go back to New York. Right at the moment there was a more important piece of business there than that which he had just completed.

(To Be Continued)

BLACKHEADS

simply dissolve and disappear by this one simple, safe and sure method. Get two ounces of perozine powder from any drug store, sprinkle on a hot, wet cloth, and apply gently—every blackhead will be gone.

(Advt.)

Does YOUR JOB keep you "cooped up"?

"NO ROOM FOR EXERCISE in a box office! Selling tickets to crowds in a hurry is nervous strain, not exercise. But I keep fit! How? Here's the ticket. I steer clear of harsh cathartics, make sure of getting lots of needed 'bulk' by eating crisp Kellogg's Bran Flakes *every* morning."

HE RUNS AN ELEVATOR ALL DAY—irregular hours at a trying job, no chance for exercise . . . yet he keeps well and cheerful, starts every day with Kellogg's Bran Flakes.

Don't risk "SHORT TEMPERED" days

These busy times you can't afford depressed, headachy days, losing your temper at little things. Yet if your job keeps you chained to desk or work-bench, you may be hampered by these very symptoms of incomplete elimination. To avoid them, watch your habits. But no harsh cathartics either! Keep food wastes moving promptly by making sure of needed "bulk" in your diet. Join the thousands who start every morning right with crisp, delicious Kellogg's Bran Flakes With Other Parts Of Wheat every day in the year. Gently laxative, they help supply valuable minerals and proteins, too. And they're so downright *good* you'll *want* to make Kellogg's Bran Flakes a daily habit. Get a package today, now in two convenient sizes. In restaurants ask for the *individual* package with the inner, WAXTITE, sealed bag.

Take these two steps to health:

1. To get well, see your doctor.
2. To keep well, watch your habits.

Don't let incomplete elimination rob you of an alert mind, a healthy body. But shun harsh cathartics! Instead, make sure of enough "bulk" in your diet by eating a bowl of delicious, mildly laxative Kellogg's Bran Flakes *every* day in the year. Look for the golden-yellow package at your grocer's. Made by Kellogg's in London, Canada.

KEEP FIT WITH KELLOGG'S

every day in the year!

educe Tin Sizes Three for anned Salmon

TTAWA, May 11 (CP)— A uction to three tin sizes for can- salmon, lobster and haddies and hibition of the use of tinplate for king clam chowder, clam bull- and scallops were announced ay by George C. Bateman in his acity as Administrator of non rous metals for the Wartime ces and Trade Board.

mall sizes requiring extra tin- e in their manufacture have n eliminated, but A. N. McLean, Products Administrator, said public "will not be deprived of goods."

elivery of the Canadian salmon k to Britain will be made in two s of tins, the smallest one hav- been found unsuited to the cur- t system of coupon rationing re. Lobsters will still be available six and 12-ounce tins and haddies 14-ounce sizes.

he Board said clam chowder can ily be made at home and that m bouillon can be packed in sub- ute container. There was no sur- s of scallops for canning.

Canners are allowed to use up ir stocks of small sized cans, and vision is made for special per- s for packing clam chowder, uillon or scallops in tinplate," the ard's statement said.

CREW OF TORPEDOED HIPS ARE SAFE

RIO DE JANEIRO, May 11 (AP)— ght members of the crew of the 02-ton United States freighter mmot du Pont torpedoed near rmuda April 23, have been landed Recife, the Brazilian Govern- ent made known today. The fate 42 crew members was not known.

Troops at Madagascar Strengthen Positions

LONDON, May 11 (CP)—British troops were believed by informed London sources to be continuing their occupation of strategic points on the big French island of Madagascar today, meeting little or no resistance.

These sources said they had no further information about operations since the announcement May 7 of the end of resistance at the naval base of Diego Suarez. They said Vichy reports of continued fighting probably referred to small, isolated French units.

The Vichy radio broadcast a report that the British advance South from captured Diego Suarez had come to a standstill and that the British forces are entrenching their positions. It said the French had destroyed their airfield at Anivarano to make it useless.

The Vichy report said the British forces appeared to have interned on board their ships all captured officers of the land and air forces, and that non-commissioned officers and troops are in camps on the island. Native troops were said to have been demobilized.

Dim Out Order for Calif. Coast

SAN FRANCISCO, May 11 (AP)—A nightly "dim-out" of lights that can be seen from the ocean was ordered today for Northern California.

Each night, all lights visible from the sea must either be dimmed or extinguished.

The area extends from the Santa Maria River, North to the Oregon line.

Jap Destroyer and Two Cargo Ships Sunk

WASHINGTON, May 11 (AP)—The Navy anounced today that United States submarines in the Western Pacific had sunk a Japanese destroyer and two cargo ships, one of them a naval auxiliary.

These three sinkings raise the toll of Japanese ships, both naval and commercial, taken by United States submarines to 42 sunk, 12 probably sunk and 11 damaged. Only four days ago, on May 7, submarines were reported to have sunk three commercial vessels, including a medium sized tanker.

A communique said the sinkings were not related to last week's naval clash in the Coral Sea.

Army Train Enroute to Montreal

OTTAWA, May 11 (CP).—Canada's $3,000,000 armytrain, visited by 800,176 persons in its three-months, 15,000 mile tour, left for Montreal last night where it will be dismantled. Travelling showcase of Canadian army equipment, the train under command of Lt.-Col. J. E. McKenna, made 200 stops during its tour of the Dominion.

HUNS REPORT INDIAN TOWN RAIDED

LONDON, May 11 (CP).—A Berlin broadcast of DNB dispatches today said Japanese bombers yesterday heavily raided the Indian town of Imphal (Manipur), 40 miles West of the Burma frontier.

Gas Rationing for Eastern States Announced

WASHINGTON, May 11 (CP)—Price Administrator Leon Henderson Saturday night set the basic gasoline ration for non-essential motorists in the Eastern seaboard of the United States at three gallons a week, effective next Friday, as a wartime measure to conserve the fuel.

As a result of the ruling, Office of Price Arministration officials said, passenger-car drivers who held seven-unit "A" cards will be entitled to purchase a total of 21 gallons for the 47-day period from May 15 to July 1, when the permanent plan is to go into effect.

As a possible means of raising the basic ration proposals for building an $80,000,000 1500-mile pipeline fromTexas to the New York-Philadelphia area, twice rejected by the War Production Board, were brought forward again today.

Under the planned rationing system as announced by the O.P.A five types of cards entitling holders to varying amounts of gasoline for the 47-day period will be issued. They are:

A cards—allowing non-essential motorists driving less than six miles a day, 21 gallons.

B-1 cards—allowing 33 gallons to those who "must" drive six to 10 miles a day.

B-2 cards—allowing 45 gallons to those who must drive 10 to 14 miles a day.

B-3 cards—allowing 57 gallons to those who must drive more than 14 miles a day.

X cards—for "essential" drivers such as doctors who cannot predict their daily mileage, giving unlimited gasoline for essential uses only.

RANCHER FOUND SHOT FOUR HOURS AFTER WIFE'S DEATH

PENTICTON, May 11 (CP)—Thomas Harold Evans, 68-year-old Penticton fruit rancher, was found dead yesterday morning with a gunshot wound in his chest, four hours after the death of his wife. Neighbors found his body in a chicken coop with a shotgun nearby.

U. S. Sub Sneaked Supplies to Blockaded Corregidor

WASHINGTON, May 11 (AP)—The United States submarine Trout sneaked through the Japanese blockade to carry badly-needed anti-aircraft ammunition to embattled Corregidor during the first days of February, Lt.-Col. Walter Cleer revealed last night in an NBC broadcast.

The Army officer said the fleet-going submarine brought in a small quantity of new, three-inch anti-aircraft ammunition with mechanical fuses.

Nelson Pictures Printed in Telephone Talk

"Blossom Time in the Nelson District" is the subject of a picture on the latest issue of "Telephone Talk" published by the B. C. Telephone Company of Vancouver.

The photograph is a beautiful one of an orchard in bloom.

Three-quarters of an inside page is also given up to photographs of Kootenay. One shows Foreman G. R. Drews construction gang rebuilding a pole line on Granite Road West of Nelson. Another shows George Cassells, Allen Doyman and Foreman Drew stringing a 200-pair aerial cable for local service at the corner of Stanley and Silica Streets.

A third depicts R. V. Smith and W. Woodall on a cable job at Grohman Narrows just West of Nelson.

Spitfires Attack Hun Targets

LONDON, May 11 (CP)—Spitfires attacked targets in German-occupied territory this afternoon after weather had restricted activity during the morning, the Air Ministry announced.

A gashilder at Cayeaux was set on fire, a machine-gun post on the coast bombed and an airdrome at St. Valery-en-Caux machine-gunned.

BERLIN, May 11 (AP)—The German High Command claimed today that German bombers scored direct hits on a factory at Folkestone and blasted a military camp on the British South coast in daylight forays across the English Channel yesterday.

PARIS, May 11 (AP)—The German Air Force yesterday attacked the Southeastern Eenglish towns of Hastings and Bexhill with high explosive and incendiary bombs, the German-controlled Paris radio said today.

(The British Air and Home Security Ministries said some damage and a small number of casualties, some of them fatal, were caused Sunday morning by German raiders at two points along the Southeast coast of England.)

Gas Would Bring Swift Answer from Britain

BY DREW MIDDLETON
Associated Press Staff Writer

LONDON, May 11 (AP)—Observers who have seen some of the preparations in the past three years believe a gas offensive on a scale undreamed of in the First Great War will be this country's swift and terrible answer if Germany resorts to that weapon in a desperate bid for victory in Russia.

New gases and new techniques have been developed by British scientists. According to one well informed source reserves of "some of the most deadly gases yet discovered" have been built up.

The deadly partnership of the bomber and gas has been developed.

Any liquid gas can be sprayed from the air by replacing the bomb racks with a tank of the chemical.

Ejected at an altitude of five miles the gas reaches the ground as a fine mist. Experts say that mustard gas used in this way by the R.A.F. would make useless entire sections of industrial towns such as Stuttgart, deny to the German Navy the use of Kiel's shore installations and close railroad centres and roads to the Army until the decontamination squads had finished their work—no small job.

Presumably several hundred bombers would be required, however, to spray Berlin or Hamburg effectively.

In addition to the spraying method, it is believed that numbers of small bombs filled with choking gas, such as phosgene, would be used.

The enormous expansion of the R.A.F. has extended the gas target area to the very rail centres and depots from which German men and supplies are dispatched to the Russian theatre.

The fighting services and home security department have built up Europe's most complete protection against enemy gas. Millions of gas masks have been distributed.

Names Six Units at Madagascar

LONDON, May 11 (CP)—A military commentator today revealed the names of six regiments, battalions of which took part in last week's fighting around the Vichy naval base of Diego Suarez, on Madagascar.

The regiments were the Royal Scots Fusiliers, the South Lancashire Regiment, the East Lancashire Regiment, the Seaforth Highlanders, the Royal Welsh Fusiliers and the Northamptonshire Regiment.

There were also "some tanks, special service (Commandos) troops and Royal Marines participating," he said.

Reuters heard the German-controlled Paris radio broadcast a report that British forces on Madagascar "have come to a standstill and are apparently awaiting the arrival of reinforcements."

NELSON SOCIAL

By MRS. M. J. VIGNEUX

• Mr. and Mrs. J. Morrison, Carbonate Street, announce the marriage of their eldest daughter, Margaret Louise, to Morten Harris, second daughter of Mr. and Mrs. Harris Johnsen of Rossland. The marriage took place May 1 in the Rectory of St. Francis Xavier Church at Trail. Rev. Father Carral officiated.

HOME ON LEAVE

• Mr. and Mrs. William Taylor, Kerr Apartments, have as guest for a fortnight, their son, Pte. W. Taylor, who arrived Sunday from the Coast.

• Mrs. R. Ball was in town from Kaslo Saturday

• Mrs. Duncan Downie of Trail attended the Pythian Sisters gathering last evening.

• Mrs. E. M. Long, Latimer Street, who has been a patient in Kootenay Lake General Hospital for the past week, has returned to her home.

• Among those spending a few days fishing at Kootenay Cottages, Gray Creek, were Mrs. Douglas Bowman Weed of Morristown, New Jersey, and her sister, Mrs. Howard Paulsen, of Spokane.

• P. Werstiuk of Gennell, spent the weekend at his home on Silver King Road.

• Mrs. Wright of Castlegar and her son were city shoppers Saturday.

HOME FROM U. B. C.

• Mrs. J. G. Bunyan, Kerr Apartments, has as guest her son, Donald, who attends U.B.C. in Vancouver.

• William Kinahan of Trail visited the Kinahan home Sunday.

• Mrs. Charles Watts, Carbonate Stree, received word at the weekend of the death of her nephew, Pilot Officer Alan Frederick James, R.C.A.F., third son of Mrs. Jessie James of 118 Scott Street, Winnipeg, who was killed in action April 24.

• Mr. and Mrs. Joseph Bachynski of Trail arrived yesterday to spend a few days at the homes of their mothers, Mrs. P. Werstiuk and Mrs. Loboy, Silver King Road.

RETURNS FROM COAST

• L.E. Hamson, Hoover Street, returned Sunday night from a week spent in Vancouver where he accompanied Mrs. Hamson, who is remaining there for an indefinite period.

• Mr. and Mrs. W. Byers, Hall Mines Road, had as guest their daughter, Mrs. W. Easton and her children of Castlegar.

• Mrs. Archie Bremner of Salmo spent yesterday in town with her sister, Mrs. W. H. Miller, Carbonate Street.

• Mrs. Frank Broughton and her daughter were in the city from New Denver yesterday.

• Mrs. P. G. Palmer of Rossland attended the Pythian Sisters meeting in Nelson last evening.

• Shoppers in the city yesterday included Mrs. John Taylor of New Denver.

• W. Turner was in town from Castlegar Saturday.

• Mr. and Mrs. L. L. Robinson of Ymir spent yesterday in Nelson.

• Recent visitors in the city included Mrs. H. E. Cooper and her sister-in-law, Mrs. Cooper of Balfour.

VISITORS FROM STATES

• Mr. and Mrs. Harlan J. Payton, Mr. and Mrs. Henry Jones and Mr. and Mrs. Alvin Jensen of Spokane, who brought with them, Mr. and Mrs. R. J. Hutchison of San Mateo, Calif., were recent guests at Kootenay Cottages, Gray Creek.

• L. R. Clubine, mining man of Salmo, visited town yesterday.

• Corporal and Mrs. J. DeVoin were in the city from Castlegar Saturday.

• Mrs. Frank McKenzie of Rossland visited Nelson yesterday and attended the Pythian Sisters meeting last evening.

• James Draper of New Denver was a recent visitor in town.

• Mrs. Jean Norris of Trail was in the city yesterday to attend the Pythian Sisters gathering last evening.

• Mrs. Avison of New Denver visited Nelson yesterday.

Government Restrictions On Telephone Installations
Are Now In Effect
In the interests of the national war effort, the Wartime Prices and Trade Board has issued Order No. 119, greatly curtailing telephone installations. If you are contemplating any telephone move or installation, it is desirable that you ask about the regulations before making definite plans. Revised restrictions came into effect on May 1.
