PEACE ENVOYS ON WAY SUNDAY

Press Campaign on Highways

Roads and Bridges Committee of the Nelson Board of Trade yesterday morning decided to press vigorously a campaign for the standardization and surfacing of the South Trans-Canada Highway between Nelson and Goatfell and of the Nelson-Nelway feeder highway from the United States.

Parts of these highways have been standardized, and parts have been surfaced. The Committee decided to press for completion of the work and for the necessary appropriations in the 1946 estimates.

To this end a public meeting has been called for Monday morning in the City Council Chamber to discuss representations to be made to Hon. Herbert Anscomb, Minister of Public Works at Victoria. It was suggested that a monster petition should be prepared and presented by a delegation to the Minister next month.

The meeting Monday morning is to be open to all who are interested in the modernization of these highways, for which strong support was expressed by Frank Putnam, M.L.A. for Creston-Nelson, who was present at the committee meeting yesterday.

JAPS BEGINNING TO SURRENDER; RUSS PRESS ON

LONDON, Aug. 17 (AP)—Japanese troops began to surrender in Manchuria today, with 20,000 laying down their arms, but there was no let-up in the Red Army drive closing in on the great city of Harbin from three sides, Moscow said tonight.

Some Japanese armies were apparently continuing their resistance, despite the ultimatum from Marshal Alexander M. Vasilevsky to surrender by noon today.

Enemy strong-points fell rapidly to the Russians, whose armed columns were stabbing through whatever resistance the Japanese could build up.

ADVANCES 100 MILES

Driving down the main railway line leading Southeast to Harbin through the Khingan foothills, one Red Army column advanced more than 100 miles from previously-reported positions and captured Pokotu and Chalantun, the latter 240 miles Northwest of Harbin.

Fall of Chalantun eliminated a major defensive point guarding the vital road and rail hub of Lungkiang (Tsitishar), 75 miles Southeast of Chalantun and 170 miles from Harbin.

Other forces driving from the West captured Wutancheng, Kailu, Tungliao and Kaitung, the last named an important town on the rail line leading North of Lungkiang and 180 miles Southwest of Harbin.

To Replace Vancouver Chief

VANCOUVER, Aug. 17 (CP) — Staff Inspector A. G. McNeill, Acting Deputy Chief of Vancouver Police Department, was today named Acting Chief to replace Chief Donald MacKay who will retire. The new Chief will take over his new duties Sept. 3.

Troops on the Move

By The Canadian Press

Homeward bound:

Due at Halifax: Hospital Ship Lady Nelson (Aug. 21) with 500.

Due at Quebec—Duchess of Richmond (Aug. 19) with 3930.

Due at Montreal — Manchester Shipper (Aug. 19) with 17 dependents.

Due at Montreal—Jamaica Producer (Aug. 20) with 14 dependents.

More Films Shortly; Cameras a Little Later

OTTAWA, Aug. 17 (CP) — The ending of the war doesn't mean an immediate return to the peace-time days when Canadians could buy film by the dozens of packs and had a fine choice of cameras, but the photography supply situation will improve somewhat shortly.

That was the word of Prices Board officials to the Dominion's snapshot and film enthusiasts today after an up-to-the-minute review of the situation. In brief, they said the wartime scarcity of film should disappear soon, but it may be some time before cameras again are in plentiful supply.

TO DEMOBILIZE AUSSIES STARTING OCT. 1

CANBERRA, Aug. 17 (CP Cable) —The War Cabinet today decided that demobilization of Australia's fighting forces would begin by Oct. 1 at the latest. Demobilization will be based on a point system under which points will be allotted for length of service, age and family responsibilities.

Prime Minister Chifley announced the revocation of more wartime controls and the ... power to direct labor and all manpower controls not considered essential to speedy reestablishment of servicemen and war workers.

ARMED POLICE CHARGE BUENOS AIRES RIOTERS

BUENOS AIRES, Aug. 17 (AP) —Sabre-brandishing mounted police charged into a crowd of hundreds in the centre of Buenos Aires' business district today and dispersed it to prevent further outbreaks after four nights of rioting between democratic and Nationalists elements.

Revised figures showed four killed and 200 hurt—many wounded by bullets—in the disorders. Police fired machine guns into a crowd of demonstrators early today, wounding nine.

The government banned further parades and other patriotic demonstrations, some of which had been authorized previously by police.

The disorders coincided with increasing demands for restoration of constitutional government.

Russia-Poland Border Fixed

BY EDDY GILMORE

MOSCOW, Aug. 17 (AP)—Poland's compensation for war damages will include 15 per cent of all reparations supplies from the Soviet zone of occupation in Germany under terms of the new Russian-Polish Treaty, it was announced today.

The treaty, signed here yesterday, also fixes the previously agreed-upon border between the two countries, following the Curzon Line except for deviations ranging from three to almost 19 miles in Poland's favor, the announcement said.

The pact was signed in an atmosphere of "hearty and mutual understanding" with Generalissimo Stalin, other high Russian officials and representatives of the Polish Government present, the announcement added. It is subject to ratification.

Terms of the reparations agreement include Soviet rejection in Poland's favor of any claims to German property, assets and shares in German industrial and railway transport enterprises situated on Polish territory, including that which Poland will receive from Germany.

Poland will receive 15 per cent of all reparations supplies from the Soviet zone of occupation in Germany, and 15 per cent of the serviceable industrial and capital equipment which the Soviet Union will receive from the Western zones of occupied Germany in accord with the Potsdam decisions

MUST SUPPLY COAL

But these considerations, the treaty provided, will be received in exchange for other goods from Poland and for the Soviet Union.

The equipment will go to Poland "without payments," the treaty added, but the Polish Government is required to supply Russia annually during the period of the occupation of Germany with coal at a special price.

ABLE TO BRING MORE SOLDIERS' WIVES TO CANADA

LONDON, Aug. 17 (CP Cable) — The outlook for movement of the wives of Canadian servicemen to Canada "is a little easier," a press release from Canadian Military Headquarters said today.

"In July shipping space was so tight that it was possible to send only 15 wives and two children," the release said. "The outlook now is a little easier—last week 70 women and children left—due to the fact all available space on commercial ships is being used."

"Wives are not taking space on troopships that could otherwise be used for returning veterans and the only women going back are those who are married to men already discharged in Canada or those who are pregannt up to six months.

"The reason that such high priority is given to wives of discharged servicemen is that when a man is discharged his army allowance to his wife automatically ceases. In some cases a wife who is still in the United Kingdom has no other source of income and the situation may work very real hardship. In such instances of need the woman should get in touch with the Dependents' Allowance Board."

Soldiers, Missing From Draft, May Leave Today

VANCOUVER, Aug. 17 (CP) — Army officials here said tonight that a "few" soldiers who were missing from a draft which left here by train last night for Shilo Camp and Brandon, Man., have been accounted for and "probably will leave tomorrow night."

The men were all veterans of the European war and volunteers for Pacific service being sent to Eastern Army camps following completion of 30-days leave.

Lift Controls on Car Manufacturing

OTTAWA, Aug. 17 (CP) — Munitions Minister Howe announced tonight the removal of all Government controls on the production of new automobiles and trucks but cautioned that restrictions on distribution of new vehicles will remain in force.

"From now on, manufacturers of cars and trucks will be limited in their output only by the availability of supplies and their own ability to accelerate production," Mr. Howe said.

He added, however, that dealers still are required to allocate new vehicles to essential users on a permit basis. He gave no indication when the distribution restrictions would be lifted.

Manufacturers previously were authorized to produce up to 10,000 passenger cars and 12,600 trucks by the end of this year. That authorization limited the passenger models to the lower price range while the latest order lifts this restriction, although initial production will remain in the lower price brackets.

Mr. Howe said the first new cars, which will be 1946 models, will likely start rolling from the plants in October.

He added that while there now were no restrictions on the importation of automobiles and trucks from the United States it was doubtful whether U.S. manufacturers would have many to spare for some time to come. As in the case of Canadian-made vehicles, these would be allocated to essential users.

Western Provinces to Block Freight Rate Revisions

EDMONTON, Aug. 17 (CP)—Premier E. Manning of Alberta said today that Provincial Governments of the four Western Provinces agreed at a conference in Ottawa to combine their efforts in opposing any attempt on the part of the railways to secure a general upward revision of freight rates.

He said the Western Provinces will fight any move by the railways to secure a general increase in freight rates and plan to obtain the best counsel available to handle their cases.

WALSH ASKS FOR REPORTS ON PEARL HARBOR

WASHINGTON, Aug. 17 (AP) — Chairman David Walsh (Dem.-Mass.) of the Senate Naval Affairs Committee asked the United States Navy today to give Congress a look at results of its investigation of Japan's sneak punch on Pearl Harbor Dec. 7, 1941. The Navy held up its answer.

"With the war in Japan ended the explanation of military expediency, which Congress agreed to be desirable while war was in progress, cannot be seriously urged as reason for now keeping the matter secret."

In addition to copies of the files, Senator Walsh asked Mr. Forrestal for his ideas about making the Pearl Harbor reports public.

The Navy Department said the Secretary had not yet replied and that it had nothing to say until he did.

Police Save Negro From Soldiers

LONDON, Aug. 18 (Friday) (AP) —The Press Association reported a riotous outbreak near Piccadilly Circus early today when about 30 white United States soldiers, "enraged by the beating and stabbing of two Marines, a G.I. and a white girl, by colored men," seized two Negro United States soldiers in the street at about 1 a.m.

According to the agency's account, the Negroes sought refuge in a club which was imediately besieged by white soldiers armed with clubs and other weapons.

One Negro who tried to break out was captured at Rainbow Corner, site of a big Red Cross Service Club for soldiers, the Press Association said.

"He was nearly lynched," the agency quoted a police sergeant as saying.

"Police beat off his attackers in the nick of time. Even so he had a serious head wound."

Order was restored by United States military police and London police who hurried to the scene.

HOLDING BACK ANIMALS WILL CAUSE LOSS

EDMONTON, Aug. 17 (CP) — Livestock producers here were urged today by Alberta Agriculture Department officials to avoid packing plant congestion by holding back animals for market as much as possible.

Officials said that if congestion is caused by a rush to market animals, then it will mean financial loss to the farmers.

MOVE TO SPEED NAZI WAR CRIMINAL TRIALS

LONDON, Aug. 17 (CP)—Britain, the United States, Russia and France today sent legal representatives to Nuernberg to hasten preparations to bring Germany's top war criminals to justice in the first mass trial.

The Nuernberg jail already houses about 15 of the major defendants, among them Herman Goering, and others will be transferred to the one-time Nazi shrine city from other prisoner of war camps.

Supreme Court Justice Robert H. Jackson, Chief United States Prosecutor for war criminals, and 16 members of his staff went to Nuernberg as the advance party of more than 100 members of the American group of lawyers, translators and interpreters gathered for the trial.

The British delegation was led by Sir Hartley Shawcross, new Attorney General, the Russians by Maj.-Gen. I. T. Nikitchenko, and the French by an aide of Prof. Andre Gros, France's delegate on the War Crimes Commission.

PUBLIC TRIALS

It still was not known whether Rudolf Hess, once the No. 2 Nazi who fled to England by plane early in the war, would stand trial in Nuernberg. One source close to Judge Jackson said he had been listed as a war criminal, but that Hess would be given a mental examination before decision was made whether to send him to Nuernberg.

Plans were underway to provide about 250 seats for press and radio representatives at the trial, and the Army Signal Corps will set up communications to provide transmission of 180,000 words daily. Pictures will be supplied by official photographers.

437 B-29'S LOST IN FLIGHTS AGAINST JAPAN

GUAM, Aug. 17 (AP)—Combat loss of 437 Superfortresses and crews of 237 of them in entire operations against Japan from Marianas and India-Burma was announced today by United States Army Strategic Air Forces.

A total of over 600 combat crew personnel was rescued by naval rescue agencies, headquarters said in a summary of strategic operations.

The bombers flew more than 10,000,000 miles and dropped 169,421 tons of bombs in an aggregate 32,612 flights by individual aircraft.

The communique said available intelligence confirms the major portions of the industrial productive capacity of 59 Japanese cities have been destroyed.

NO CHANGE IN CANADA'S MEAT RATIONING PLANS

OTTAWA, Aug. 17 (CP) — Donald Gordon, Chairman of the Prices Board, said tonight in a statement that Canada is making no changes in her plans to reinstitute meat rationing next month.

Mr. Gordon's statement said:

"My understanding is that the needs of the famine-stricken areas remain most urgent and that there is a serious immediate food shortage particularly in meat in those areas.

"Consequently, if there is an improvement in immediate supply, it would be a Godsend for the hungry people of the liberated areas and it should not mean that these improved supplies be used to increase North American consumption through the lifting of meat rationing."

16,000 Jobs Ready to Meet War Industry Layoffs

VANCOUVER, Aug. 17 (CP) — National Employment Service, with nearly 16,000 vacant jobs on its files, offered these jobs today as the answer to drastic industrial layoffs.

Many of the 12,760 jobs available for men and 2780 vacancies for women are out of the city.

"The labor supply in B. C. at present shows that for those who want jobs there are plenty of jobs available," said William McKinistry, Regional Superintendent of the service.

On the other hand, Tom Parkin, union official, said that a large percentage of the vacancies for women were for domestic help; and trained factory workers like those of Boeing should not be asked to go out as domestics.

KING CONGRATULATES ALLIED LEADERS

LONDON, Aug. 17 (Reuters)—The King has sent messages of congratulation to President Truman of the United States, President Kalinin, President Chiang Kai-shek of China and Queen Wilhelmina of the Netherlands on the occasion of Japanese capitulation, a Foreign Office spokesman said tonight.

Fighters, Flak Greet U.S. Planes

MANILA, Aug. 18 (Saturday) (AP)—Japan advised Gen. MacArthur early today that its surrender delegation had been selected and would leave for Manila tomorrow.

Prodded by a brusque note from Gen. MacArthur to quit its stalling tactics, which had carried over two days, and get on with the peace negotiations, Tokyo acted without further delay.

Gen. MacArthur's Headquarters announced at 2:45 a.m. (11:45 a.m. P.D.T., Friday) that the desired information had been received from the enemy capital.

The Tokyo message said the delegation could not leave until Sunday "due to necessary internal procedure" and promised further details would follow.

In Manila the Japanese delegation will hear what it must do before surrender articles are signed and the Allied occupation forces march into Nippon.

An Associated Press dispatch from Guam, saying that Admiral Nimitz had been appointed by President Truman as a United States representative, suggested a battleship in Tokyo Bay was the "logical scene."

COMMANDERS TO GET ORDERS

The Supreme Commander's curt message also may have sped the departure from Tokyo of three imperial parties carrying cease fire orders to field commanders, who were expected to be told the harsh truth by the flying missions some time today that they must lay down arms.

They left for Manchuria, China and French Indo-China by plane Friday under safe conduct. Only a few hours later 10 Japanese fighters and fierce anti-aircraft fire greeted four unescorted United States heavy bombers on a photo mission over the same general area from which the enemy planes took off.

Two Japanese planes were believed destroyed, and one bomber was shot up although none of its crew was injured.

Two fighters on separate reconnaissance flights over the Southern island of Kyushu also were fired upon by ground batteries the same day.

But slowly, the guns of war were falling silent on the battlefields spread across Eastern Asia.

FORCES EARNED ETERNAL THANKS DECLARES KING

OTTAWA, Aug. 17 (CP) — The King told his navies, armies and air forces of the Empire today, "you have earned the eternal gratitude of your countrymen."

"By God's mercies the forces of evil have been overthrown," his message said. "But many tasks remain to be accomplished if the full blessings of peace are to be restored to a suffering world. It is the duty of each one of us to ensure that your comrades have not died in vain.

"On behalf of all my peoples I thank you. God bless you all."

To Speed Data on Prisoners to Relatives

OTTAWA, Aug. 17 (CP) — Defence Headquarters announced tonight that a Canadian repatriation liaison group of 15 officers and 15 N.C.O.'s is leaving here immediately by air for Manila to arrange to repatriate Canadian prisoners of war held by the Japanese.

A statement said Canadian officers will visit the Japanese detention camps when it is possible and will send full details to Ottawa. Next-of-kin in Canada will be provided with all information available by the speediest route.

As soon as possible, the men will be moved to camps in or near Manila and given food, medical care where required and comforts and other amenities essentially Canadian such as cigarets, books and papers. They will be brought up to date on news developments from Canada.

Most of the Canadians held prisoner by the Japanese are men of the Winnipeg Grenadiers and the Royal Rifles of Canada, the units which fought the "lost" defence of Hong Kong before the crown colony surrendered to the Japanese Christmas Day, 1941.

The repatriation liaison group leaving here will be commanded by Lt.-Col. M. W. McA'Nult of Defence Headquarters, who has personal knowledge of the Winnipeg Grenadiers and the Royal Rifles of Canada and is a former commanding officer of the Sherbrooke Fusilier Regiment.

Canadian prisoners of war have been scattered throughout camps in Japan. There are said to be 376 in or near Hong Kong, while in Japan proper there are 1180, mostly in camps at Fukuoka, Osaka, Tokyo, Niigata and in 12 smaller camps.

SUSPEND PACIFIC COAST AIR PATROLS

VANCOUVER, Aug. 17 (CP) — All operational training and routine patrols by the R.C.A.F. on the Pacific Coast have been suspended, Western Air Command announced today.

Both the Navy and Army, however, will continue in an operational role until further notice.

Navy Failed to Keep Personnel Off Streets, Finds Riot Inquiry; No Blame for Blasts Established

OTTAWA, Aug. 17 (CP) — The Government made public today reports on the findings of investigations into the Halifax V-E "disorders" May 7-8 and the explosion at the Naval magazine in Dartmouth, N.S., July 18-19.

Reporting on the "disorders", Mr. Justice R. L. Kellock said he believed they owed their origin to "failure on the part of the Naval Command at Halifax" to plan for keeping their personnel off the streets of the city."

Reporting on the findings of a Naval Board of Inquiry, Navy Minister Abbott said "it has not been possible to determine the exact cause of the initial fire and explosion" at the Naval magazine. The Board was "unable to attribute direct blame to any person or persons."

TO PAY COMPENSATION

In both cases, Finance Minister Ilsley announced the Government had "decided to pay compensation on an ex gratia basis for damage to property directly resulting from either" Looting of stock in trade would be regarded as damage to property.

The disorders were touched off with news of the defeat of Germany. Mobs of servicemen and civilians roamed city streets, breaking windows, looting, stealing liquor and drinking.

The explosion, or explosions, rocked the Halifax-Dartmouth area time-after-time for hours and thousands fled their homes in fear of a repetition of the gruesome explosion of 1917.

Once started, "the development and continuance of disorders were due to the failure of the Naval Command to put down the initial disorders on each of the two days, May 7 and 8," said Mr. Justice Kellock, Royal Commissioner appointed to investigate the riots.

"Subsequently the insufficiency of the police forces, service and civilian, employed, as well as their faulty direction on both days, and the passive conduct of the Naval Command in allowing Naval personnel to continue unchecked on the afternoon of May 8 without taking any steps to deal with the situation until a very late hour, when the disorders had begun to play themselves out, explain the length of time during which the disorders continued."

At the same time Navy Minister Abbott said disciplinary action already has been taken so far as it has been necessary within the Naval service. He did not elaborate on this statement.

REGRETS STAIN

The Minister added it would be regrettable if because of the riots, the "truly great services" of Rear Admiral L. W. Murray, Commander-in-Chief of the Canadian Northwest Atlantic Command at the time, and those under his command "were to be forgotten by the people of Canada."

"I am confident that this will not be so. The importance of the services rendered to the Allied cause by the officers and men of the Canadian Northwest Atlantic Command can never be exaggerated."

In his report Mr. Justice Kellock said during the course of the inqury counsel had endeavored to ascertain whether there was "discontent with Halifax conditions."

After hearing the evidence the Commission said he had "no doubt that individuals have had trying experiences in crowded Halifax as other pepole have experienced discomfort during the war in other crowded centres of population.

"If there were in fact any underlying discontent or feeling of resentment on the part of service personnel in Halifax on May 7-8, the evidence failed to establish it, or that it had anything to do with the outbreaks."

"They Want Jobs," Says Agent as Thousands Laid Off in B. C.; Mass Labor Meeting Is Called

By KATHLEEN REX
Canadian Press Staff Writer

VANCOUVER, Aug. 17 (CP) — The post-war era has come to British Columbia but according to labor leaders it isn't the glorious thing they anticipated. They have planned a mass meeting here Sunday of all shipyard and aircraft workers to discuss the war-end which caused 3200 shipyard workers and an undetermined number of aircraft personnel to lose their jobs.

Men and women who in the early years of the war came to British Columbia from the Prairies are faced with either finding jobs in other parts of B.C. or returning home.

LAY OFF 300 DAILY

Principal cities affected by layoffs are Victoria and Vancouver. Approximately 2500 shipyard workers have been released in Vancouver and 700 from Yarrows' two shipyards in Victoria. The three Boeing aircraft plants in Vancouver today began laying off 300 aircraft workers daily.

"We're keeping a close watch on the women being dismissed to make sure they aren't being laid off indiscriminately," said S. Jenkins, Business Agent for the Boilermakers and Iron Shipbuilders Union (C.C.L.)

He said that the layoff was not yet causing any particular hardship but feeling among workers was that they didn't want to sit by and take unemployment insurance — they wanted jobs "and besides the money they get on their unemployment insurance isn't enough to support those who are married and have a family."

Meanwhile Selective Service officials announced there are 16,000 jobs still vacant in B.C. However, these jobs are varied and are scattered throughout the Province. Of this total 12,700 are available for men and 2780 for women. Most vacancies are in the logging and mining camps and there are 2,000 in the building trades.

"Miners and loggers are needed throughout the couhtry but of course men who take these jobs must be content to leave the city," said Horace Keetch of the local Employment Office. He added that wages in these industries was on a par with those paid in war plants. On the other hand workers who go into the sawmills must be content with lower wages.

The few jobs open to women are in the domestic or waitress line. There are also some clerical jobs available. "But of course the women can't expect to make $1 an hour as they were making in the war plants," Mr. Keetch added.

Tom Parkin of the Aero Mechanics Lodge (A.F.L.) said that 1200 of the jobs open to women are for domestic help and that trained factory workers should not be asked to go out as domestics.

Officials of the Boilermakers and Iron Shipbuilders Union said that contracts of shipyards here were cancelled whereas the Canadian Pacific Railway was arranging to have vessels built in Great Britain.

"We are told the C.P.R is having ships built in Great Britain because the cost of building ships here is too high," said Charles Caron, Secretary of the Union. "The C.P.R. argument on steamer costs is ridiculous . . . If the men can't get jobs building the ships they can't earn money to ride on C.P.R. coastal ships."

Plans continued today for the drafting of resolutions to be presented at the mass meeting Sunday. "We are going to demand a reduction in working hours to spread the remaining work among more persons," said Malcolm McLeod of the Boilermakers' Union. "We will also demand severance pay for those laid off after years of service in war plants.

At the meeting the Aero Mechanics Lodge will ask for a three-way conference between management, Governments, and workers to discuss the crisis.

Reds Continue to Defy Chiang

By SPENCER MOOSA

CHUNGKING, Aug. 17 (AP)—Communist defiance of Gen. Chiang Kai-shek continued today, but it was believed here that his troops soon would regain control of Nanking and Shanghai, despite the reported Communist bid for those vital Japanese-occupied cities.

Comunist Gen. Chu Teh issued orders to Lt.-Gen. Yasuji Okamura, Commander-in-Chief of the Japanese expeditionary forces in China, requesting the surrender to the Communists of all Japanese forces "except those troops of your command surrounded by the Kuomintang (Central Government) armies."

This was in conflict with the instructions issued by Gen. Chiang's war zone commanders to Japanese troops to cease military activities immediately and to await further instructions.

SEEK JAP ARMS

(A Tokyo broadcast recorded by The Associated Press quoted Okamura as saying his forces were "already in a state of cessation of hostilities," but that part of the Chungking Army was continuing its attacks on the Japanese.)

Gen. Chu Teh asked also that the Japanese surrender their planes and warships to the Communists.

In addition, the Communists demanded Gen. Chiang release the Young Marshall" Chang Hsueh Liang, under detention since he and the Communists held Gen. Chiang hostage for 12 days in 1936.

There was no indication that Communist leader Mao Tze-Tung had been persuaded to accept the invitation to confer with Gen. Chiang in Chungking in an effort to resolve the differences between the Central Government and Communist factions.

SEIZE FIELDS

Maj.-Gen. Patrick J. Hurley, United States Ambassador to China, at whose suggestion Gen. Chiang was believed to have extended the invitation, was reported ready to fly to Yenan and accompany the Communist leader back to Chungking. Gen. Hurley and Gen. Chiang were believed to have discussed the situation again today.

Meanwhile unofficial reports received in Chungking said Chinese underground forces allied with the Central Government had seized several air fields around Shanghai and Nanking, and had prepared them for United States planes to transport Chinese occupation troops to key Northern cities when the signal is given.

The Weather

Temperatures — Max. 93.6, Min. 57.9

Forecast Kootenay: Light to moderate winds. Partly cloudy with not much change in temperature.

Hundreds Throng to Flower Show Opening; Continues Today; Flower, Photo Display Admired

Hundreds of spectators visited the Nelson Garden Club's fourth annual Flower Show which opened Friday night, to thrill to a brilliant display of blooms from Nelson and North Shore gardens. They also marvelled at the collection of fine photographs prepared by the Nelson Camera Club and the interesting Nelson Beekeepers Club demonstration.

Mrs. A. A. Perrier captured the coveted Dick Ramsden Basket, held last year by E. W. Widdowson, and took seven first prizes and six seconds. Alderman H. H. Hinitt won seven firsts, six seconds and two thirds.

Other top winners were J. S. Holmes with six firsts, two seconds and one third, and C. W. Ramsden with five firsts, two seconds and four thirds.

Judges F. H. Chanter of Longbeach and M. Roberts, gardener for the Blaylock gardens on the North Shore, were highly pleased with the show. They stated that it was a remarkably good show despite the hot weather which was extremely hard on the flowers.

Particularly good, they said, were the sweetpeas, difficult to grow in the present heat, and the gladioli. They also had praise for the arrangements.

KEEPS UP INTEREST

Mayor N. C. Stibbs officially opened the show, expressing his happiness at the progress the Garden Club was making in keeping up interest of citizens in making Nelson a beauty spot.

He was also glad to see the Camera Club's interest in preserving in picture form the beauty of Nelson's gardens and parks, and complimented the Beekeepers for their contribution.

He felt no city in Canada regardless of size had done more along these lines than Nelson, taking for example, Lakeside Park, the Vernon Street boulevards and the Hospital bank which was rapidly taking shape and would be highly appreciated by Hospital patients and visitors.

Among highlights of the floral displays was an exhibition of blooms from Lakeside Park including beautiful marigolds and gladioli. Catching the eyes of many was the tiny model of the Seven Dwarfs standing in the garden of their home, prepared by Mrs. L. J. Maurer. Moss, marigolds, colored stones and tiny succulents all lent a fairy like tone to the model.

Interesting was a magnificent white lily placed on exhibition by Mrs. L. G. Weaver of Nelson. Mrs. Weaver's daughter, Mrs. Harry Eggleton, brought the lily to Nelson from Trinidad a year ago.

Another exhibition of asters and carnations of fine quality was shown by Mr. Chanter while Club members also put in separate exhibits in order to help swell proceeds for the Red Cross Jam fund. Flowers will be auctioned off Saturday night to close the Show.

PICTURES ATTRACT MANY

A new departure for the show was the picture gallery arranged by the Camera Club and paintings by District artists. District scenery, pastoral and Winter views and interesting studies of children were the source of delight and surprise for many visitors.

The ever-popular bee demonstration attracted large numbers of spectators all during the evening. A. S. Homersham of the Nelson Club gave lectures during the evening. Jars of honey and nectar-bearing flowers were shown along with the working hive and beekeepers' apparatus.

Commercial floral displays filled one end of the showroom in the former Fink Furniture Store. One florist had prepared a "peace" exhibit which was formed by everlasting flowers.

In charge of the Show were President A. S. Read, whose work on the tables and decorations was assumed by the general committee when Mr. Read was taken to Kootenay Lake General Hospital following an accident; Ald. H. H. Hinitt, at the door and who will auction off flowers tonight; C. W. Ramsden, advertising and promotion; T. W. Kail and S. Bentley, Show Committee assisted by Mr. and Mrs. C. D. Pearson and Mrs. J. Leeming and Mrs. Hinitt, Club Secretary, while many others had an active part.

The show continues today and tonight.

The judges, in some cases, found exhibits not up to standard and consequently there were instances where no first prize ribbons were awarded. Results of the judging follows:

CUT FLOWERS

Section 1:

Class 1, Antirrhinum, Snapdragon, 3 spikes, distinct color, L. F Tyson, North Shore, first; Mrs. A. Perrier, 1024 Hoover Street, second; C. W. Ramsden, 417 Sixth Street, third.

Class 2, Antirrhinum, Snapdragon, 2 vases, distinct color, 3 spikes each, Mrs. C. D. Pearson, third.

Class 3, Antirrhinum, Snapdragon, 6 spikes mixed, Mrs. A. Perrier, second.

Calss 4, Asters, double, 3 blooms, distinct, Alderman H. H. Hinitt, 516 Kokanee Street, first.

Class 6, Asters, double, 6 blooms mixed, Mrs. A. Perrier, first; Ald. H. H. Hinitt, second.

Class 12, Carnations, outdoor grown, 3 blooms, 1 color, Mrs. A. Perrier, second.

Class 13, Carnations, outdoor grown, collection, Special Ribbon, Mrs. A. Wallach, first.

Clas 16, Dahlia, large decorative, 3 blooms, J. S. Holmes, 315 Fourth Street, first; L. F. Tyson, second; C. W. Ramsden, third.

Class 21, Dianthus, double, 12 blooms, any color, or colors, Mrs. A. Perrier, second.

Class 23, Dianthus, collection, Ald. H. H. Hinitt, first.

Class 25, Gladiolus, any color, 1 spike, Special Ribbon, named, Mrs. S. A. Maddocks, 1107 Robertson Avenue, Special Ribbon, first; T. W. Kail, 919 Sixth Street, second; C. W. Ramsden, third.

Class 26, Gladiolus, white, cream, or blush white, 3 spikes, Ald. H. H. Hinitt, second.

Class 27, Gladiolus, yellow, 3 spikes, Ald. H. H. Hinitt, second.

Clas 28, Gladiolus, orange, apricot or buff, 3 spikes, Ald. H. H. Hinit, second.

Class 9, vase of Montebretia—Mrs. T. Dolphin, first.

Class 11, Chrysthanemums, best vase—Mrs. A. Wallach, first.

Intermeds Go to Salmo Sunday

Nelson Intermediate baseball team will travel to Salmo Sunday for the fourth game between these two teams this season.

Salmo so far has won two and Nelson one.

The Nelson team has suffered from player shortage this past three weeks as a couple of the regular players are on shift work and one other has been away for some time. Ken Highland is slated to do the mound work and John Harry will be on the receiving end. Herb Pitts will be on first, Ron Nash at second, Bob MacDonald at short, and Alec Brosino at third. The fielders will be chosen from Buzz MacDonald, Walt Tozer, Lorne Boates, Don Buchanan, Ron Cathcart and Johnson. The team will be leaving by car from in front of the Civic Centre at 12 sharp.

Lac. Joe Boletti Home From Overseas Service

Lac. Joe Boletti arrived in Nelson Friday for 30 days leave after three years service in the R.C.A.F.

Leading Aircraftsman Boletti joined the Air Force in 1942 and went overseas the same year. He was stationed in England until June, 1944, when he went to France and on into Belgium, Holland and finally Germany. In France he was stationed for a time with a famous tank-busting R.A.F. Typhoon rocket squadron, leaving it when he went to Belgium.

A Nelson boy, he joined the Daily News composing room staff in 1935, remaining until he enlisted.

War Workers Don't Wait for Layoffs

PORTLAND, Ore., Aug. 17 (AP) —Tinhatters in Portland area war plants began pumping the dismissal gun today as shipyards announced 15,000 workers might be laid off by this weekend.

Housing officials complained some residents left so quickly they didn't turn in keys. Farmers pleaded for war workers to put in two months helping harvest Oregon crops.

Reports indicated Kaiser's Oregon Shipbuilding Corporation would release 9000, the Vancouver yard 6000, and Swan Island 1000.

Aluminum Company of America officials at Vancouver said none of its 1000 employees would be dismissed.

Fire 2 Miles From Valuable Timber Stand

CRANBROOK, B.C., Aug. 17 — Except for the Lamb Creek fire the forest situation in Cranbrook District improved today with the Gold Creek and Lumberton outbreaks controlled. The fire on the mountain ridge between the heads of Lamb and Irishman Creek had increased from 250 to 800 acres in 26 hours and new fighters today raised the crew to 90 men.

This fire is still two miles from the boundary of the Kootenay's most valuable remaining timber stand, owned by the Cranbrook Sash and Door Ltd. Shortage of men remains the Forest Branch's biggest problem.

"I'm Licked" Says Nelson After Cochrane Cards 65

MEMPHIS, Tenn., Aug. 17 (AP)—Bob Cochrane, 32-year-old St. Louis amateur, stunned the greatest professionals in the United States with a seven-under-par 65 today to take a two-stroke lead at the halfway point of the $13,333 Memphis Open golf tournament.

Byron Nelson with a string of 11 straight victories behind him, folded with a one-over-par 73 and admitted: "I am licked." Nelson had an opening round 69 for a total of 142.

Cochrane's 65, coupled with an opening round 68, gave him a 36-hole total of 133. He is 11 under par and nine strokes ahead of the favored Nelson.

Closest pursuers were George Low of Clearwater, Fla., with 135, and Harold (Jug) McSpaden of Sanford, Me., with 136.

Low uncorked a six-under-par 66 to go with his opening 69. Playing perhaps the steadiest golf of the tournament, McSpaden duplicated his yesterday's 68.

The usually inperturbable Nelson showed visible signs of cracking as every club in the bag except his woods failed to respond to his touch

Trail Tot Rescued From Lake at Nakusp

What might have been a very tragic accident occurred Wednesday morning at the bathing beach, Nakusp. Little Donald McKenzie, three year old of Trail, who was playing on a raft that had drifted out beyond his depth, fell off.

Bill Barrow dived in and brought him up. Artificial respiration was applied and the little boy revived. He was taken to the hospital, where he remained until Thursday morning.—Arrow Lakes News.

Archbish'p Adams Struck by Car; Now in Hospital

Most Rev. Walter R. Adams, D.D. Archbishop of Kootenay, was knocked down by a car on Baker Street near the intersection with Railway Street, at 10:30 o'clock Friday night, as he was going down to the Union Station, and suffered a broken left ankle, two wounds on the left leg, and abrasions.

He was rushed to Kootenay Lake General Hospital, where he was under treatment by Dr. R. B. Shaw.

Birth Control Necessary Says Churchman

OXFORD, England, Aug. 17 (CP) —The conference of modern churchmen was told by Rev. J. P. Hinton today that contraceptives "are necessary in family and social life" and that the church should stipulate conditions for their use in shaping a "proper" eugenics policy.

Mr. Hinton is vicar of Westbury. He said a eugenics plan based on the use of birth control devices now was "most certainly being shaped by expediency" and added that the church should "think and speak more decisively regarding scientific contraception."

"To achieve and maintain a higher standard of living generally means limiting the number of children," he said. "Today, a man who has a child is rather expected to explain himself than to be congratulated."

A plant disease has destroyed most of the sea grass growing along the North American coast in recent years.

Rossland Redmen Swamp Visiting Trail Golden Bears 29-9

ROSSLAND, B.C., Aug. 17 — The Rossland Redmen defeated the Trail Golden Bears at the Rossland Arena Friday night, the score being 29-9.

Summary:

First period—1, Rossland, Babe Laface (Joe LaFace); 2, Rossland, Babe Laface (Joe Laface); 3, Rossland, Joe Laface (Jim Laface); 4, Rossland, Jack Laface; 5, Rossland, Babe Laface (Anderson); 6, Rossland, Art Laface (Anderson); 7, Rossland, Anderson; 8, Trail, Wilson; 9, Trail, Bilesky. Score 7-2.

Penalties, Jim Laface, 5 minutes, Spring, 2 minutes.

Second period—10, Rossland, Joe Laface; 11, Rossland, Joe Laface, 12 Rossland, Babe Laface (Art Laface); 13, Trail, Bilesky; 14, Rossland, Anderson (Joe Laface); 14, Rossland, Jack Laface; 16, Trail, Wilson (Bilesky); 17, Rossland, Jack Laface (Joe Laface); Score 20-4.

Penalties: Mondin of Trail and Jim Laface fought, with the result Mondin quit the game, and Monaghan took Mondin's penalty, which was 10 minutes, and Jim Laface getting five minutes. Art Laface, Rossland, Lane of Trail, each got two minutes.

Third period—18, Rossland, Jack Laface (Joe Laface); 19, Rossland, Joe Laface (Scott); 20, Trail, Monaghan; 21, Rossland, Jack Laface (Anderson, Joe Laface); 22, Trail, Wilson; 23, Rossland, Babe Laface (Anderson); 24, Rossland, Joe Laface (Babe Laface); 25, Rossland, Jack Laface (Joe Laface); 26, Rossland, Joe Laface (Anderson, Scott).

Penalty—Lane, two minutes.

Fourth period—27, Rossland, Art Laface (Jim Laface); 28, Rossland, Jack Laface; 29, Trail, Lane; 30, Rossland, Jack Laface (Joe Laface); 31, Trail, Monaghan (Bilesky); 32, Rossland, Jack Laface (Joe Laface); 33, Rossland, Art Laface (Joe Laface); 34, Rossland, Scott (Art Laface); 35, Trail, Wilson; 36, Rossland, Jack Laface (Babe Laface); 37, Rossland, Jack Laface; 38, Rossland, Jack Laface (Scott).

Penalties—Bileski, Trail, and Jim Laface, Rossland, five minutes for fighting.

Teams:

Trail — Grubisic, goal; McNabb, Mondin, Bileski, Lane, Wilson, Martin, Monaghan.

Rossland—Richardson, goal; Jim Laface, Spring, Scott, Babe Laface, Joe Laface, Jack Laface, Art Laface, Anderson.

Referee, Rene Morin; Judge of Play, Max DesBrisay; Timekeepers, Camozzi and Henry; Scorer, C. L. Swift; Goal Umpires, Osing and McIntosh.

Large Forest Fire Near Salmo; Over 400 in District This Season

A fire of fairly large proportions was reported burning near Sheep Creek, South of Salmo, on Friday by Nelson Forest Service Officials. A report from Trail stated that City Police there were asked to rush men to the fire, and that 35 were sent. The fire was not under control on Friday evening.

Up to Wednesday last, 66 fires had been reported during the week, and the total then for the season was 383. With 21 new fires Thursday and more Friday, the total to date is well over 400. This is higher than last year's total 353 for the season.

In contrast to the present hazardous weather, at that time there was general rain over the District. This is the first time during the season that there have been more fires than last year. Of the 66 fires up to Wednesday, 24 were in East Kootenay, 24 in West Kootenay, and 18 in the Boundary.

In the Nelson District, a fire on Kokanee Creek was put out, and a crew has been sent into a new one on 49 Creek. The fire near the Reeves-MacDonald mine in the Pend d'Oreille area was under control and on a patrol basis.

A fire reported near Lemon Creek in the New Denver District Friday afternoon is under control, and a crew was dispatched to a blaze on St. Leon Creek in the Nakusp District on Friday afternoon.

Fires on Trout Lake and Arrowhead were quiet, and on patrol basis, and in the Rossland District a fire at Sheep Lake was under control A crew has been sent to a fire at the head of Boundary Creek in the Grand Forks District.

A crew has been dispatched to a fire at Lakevale near McCulloch in the Kettle Valley Ranger District and a crew is also working on a fire on Campbell Creek. The fire reported Thursday, on James Creek was under control, and the crew cut down to a patrol. A fire on the Upper Kettle River at Winnifred Creek was under control and on patrol basis.

LARGE FIRE AT BRUER CREEK

A large fire at Bruer Creek on the Upper Kettle River, has Nelson District and Kamloops District men working on it, and satisfactory progress is being made.

During the strong wind on Thursday the Kaslo District had a little trouble on fires in the Duncan area, and in some instances lost fire guard. Satisfactory progress is now being made.

Good progress was being made on a big fire in the Sirdar area which started Thursday, although it was not yet under control, but five more fires which sprang up Thursday along the railway near there, were under control.

On Corn Creek in the Creston District, men were working on two fires, one on Summit Creek is under control, and a crew is on its way to another at Goat River.

In the Fernie District a crew is working on the fire at Flathead. Cranbrook fires blew up again Thursday and a crew is working on them. One of these is at Gold Creek, one at Lumberton and one at the head of Lamb Creek.

A small fire near Golden was expected to be out Friday night, and a fire at Bush River, North of Golden is being investigated.

A fire at Skookumchuck Creek in the Invermere District has a crew working on it.

Dr. C. O. Swanson Chief Geologist for C. M. & S.

TRAIL, B.C., Aug. 17 — R. W. Diamond, Vice-President and General Manager of the Consolidated Mining & Smelting Company of Canada Ltd., announced today the appointment of Dr. C. O. Swanson F.G.S.A., F.R.S.C., C.I.M.M., to the newly created position of Chief Geologist for the Company.

Dr. Swanson graduated from the University of British Columbia in 1922, received his doctor's degree in geology from the University of Wisconsin two years later. During the period 1924 to 1936, he taught geology at the University of Wisconsin and the Michigan College of Mining and Technology, and did considerable geological work throughout the Michigan iron and copper districts, in the capacity of consulting geologist to the Jones & Laughlin Steel Corporation, and the Calumet and Hecla Consolidated Copper Company. In 1926 he was a member of an American group sent to Russia to study manganese ese deposits in the Tchiatouri District of Georgia.

In 1936 Dr. Swanson accepted a position on the faculty of the University of British Columbia, as Professor of Mineralogy and Petrography. Two years later he became consulting geologist for the Consolidated, and during the past few years has been Chief Geologist at the Sullivan Mine.

Dr. Swanson will shortly relinquish his post at the University of British Columbia, and with his wife and two sons will take up residence in Trail.

Rossland Has New Complaints of Low Pressure

ROSSLAND, B. C., Aug. 16 — George Dyson and V. Fredriksen appealed to the Rossland City Council Monday night for an investigation of the water pressure at their homes on the corner of First Avenue and Queen Street. Mr. Fredriksen stated it was impossible to have water upstairs in his home if some one else on the circuit was also using water. This was referred to the Fire, Water and Light Committee for investigation.

Messrs. Dyson and Fredriksen also asked what procedure was necessary for them to go through to connect up with the sewer on First Avenue. They were referred to the Board of Works, which was instructed to investigate the cost, also given power to enter into a mutual agreement with Mr. Dyson and Mr. Fredriksen.

Three other complaints received were referred to the Fire, Water and Light Committee for investigation. Those appealing for improved water services were Mrs. A. W. Kelly, A. Crossley, and R. C. Rose.

SUSPECT CORROSION

The Committee reported having investigated the three requests referred to it, for improved water services, and recommended that no action be taken at the Ozeroff and Mowatt properties until the owners installed new pipelines on their property, when, if the service did not improve, the city would take action. It was felt that the pipelines on the property were corroded, and in this way causing the low pressure. The matter of the Leggett and Herman pipeline was between the two property-owners concerned, and the city had no jurisdiction, it was stated. Mr. Herman had connected with the service pipe to Mr. Leggett's property before Mr. Leggett bought the place.

These various findings were accepted by the Council.

The Committee also reported the Forest Service had closed the Stony Creek area for fire hazard reasons.

Alderman Darby, chairman of the Fire Water and Light Committee, reported that from July 16 to 31, 64½ man days had been spent by that department.

DAY OF PRAYER TO BE OBSERVED AT CHURCHES

Official Day of Prayer and Thanksgiving that is being observed Sunday across Canada will be marked in Nelson by special services in the churches.

In the Cathedral of Mary Immaculate there will be Exposition of the Blessed Sacrament all day and Very Rev. F. Flynn and Rev. E. Doyle will be speakers.

"The Vision of Peace" will be the subject of Rev. G. G. McL. Boothroyd of the Trinity United Church and at St. Saviour's Pro-Cathedral Rev. J. G. Holmes will hold Thanksgiving Services at 11 a.m. and 7:30 p.m.

St. John's Lutheran Church will also hold services led by Rev. H. J. Kritsch pastor.

The Church of the Redeemer will hold Public Services of Thanksgiving at 11:00 a.m. and 7:30 p.m.

Shorten Week Instead of Laying Off Workers

TACOMA, Aug. 17 (AP)—No cutback in emplbyment is expected at the Tacoma smelter as a result of the war's ending. In fact, more employees may be needed as the plant shifts, as it expects to do eventually, from a seven day to a 40-hour week, Eugene White, manager, said today. It now employs 850.

Since last week 1800 shipyard workers have left the Todd Pacific Yards, some discharged, some leaving of their own accord.

The yard plans to release 2000 per month over the next nine to ten months.

Adam Armit Dies in Trail

TRAIL, B.C., Aug. 17 — The death occurred early today in the Trail-Tadanac Hospital of Adam Armit at the age of 58. Mr. Armit was born in Fifeshire, Scotland, and came to Trail 7 years ago. He was an employee of the C. M. & S. Co., and was foreman of the silver refinery for 15 years before transferring to the Tadanac Police Force two years ago due to ill health.

He is survived by his widow, Mrs. G. A. Armit, two daughters, Mrs. Roy Middlemass of Vancouver, and Mrs. Jack Buckles of Rossland, also two sons, John and Daniel, both at home, two sisters and one brother in Lethbridge, and two brothers and one sister in Scotland.

Decisions Greco

NEW YORK, Aug. 17 (CP)—Tony Janiro, 142, Youngstown, Ohio, tonight scored a unanimous eight-round decision over Johnny Greco, 143¼, Montreal.

Castlegar Board of Trade Formed

TRAIL, B.C., Aug. 17—The fast developing community of Castlegar today boasts of a new institution—the Castlegar and District Board of Trade. The new Board of Trade came into being with the adoption of a report and recommendation of a committee which had had the matter under consideration for several weeks. R. A. D. West is its first President. Other officers elected were: Vice-President, A. T. Horswill; Secretary-Treasurer, J. S. Scott; Council Members, S. C. Watson, Robert Waldie and Thomas Ratcliff.

The new organization adopted its constitution and bylaws and laid plans for its inaugural business meeting which will be held on a date in September to be decided upon by the newly-elected Council.

Application will be made at once through Trail Board of Trade to the Department of the Secretary of State at Ottawa for a Dominion Charter under the Board of Trades Act.

TOAST and TEA

BY JAS. MARTIN

In his last contribution to The Idler Dr. Johnston wrote: "There are few things, not purely evil, of which we can say without some emotion of uneasiness, this is the last. Those who never could agree together, shed tears when mutual discontent has determined them to final separation; of a place that has been frequently visited though without pleasure, the last look is taken with heaviness of heart; and the Idler with all his tranquility is not wholly unaffected by the thought that his last essay is now before him. The secret horror of the last is inseparable from a thinking being whose life is limited, and to whom death is dreadful. We always make a secret comparison between a part and the whole; the termination of any period of life reminds us that life itself has likewise its termination; when we have done anything for the last time we involuntarily reflect that a part of the days allotted us is past, and that as more is past there is less remaining."

Cancel "Freezing" Order . . .

To Lift Some Manpower Controls

OTTAWA, Aug. 17 (CP)—Labor Minister Mitchell announced today that several manpower controls, imposed as wartime measures, will be lifted in the near future and said that regulations under which workers were "frozen" in their jobs will be cancelled Sept. 17.

Mr. Mitchell said that effective Sept. 3, employers will be permitted to advertise freely providing they first register the vacancy with the Employment Office and providing that men responding to the advertisement are directed to apply to the Employment Office rather than to the employer. Such applicants would then be sent by the Employment Office under permit to the employer.

The regulation under which men were not allowed to leave agriculture will be eliminated after the 1945 crop is harvested. A tentative date for the cancellation of the regulation has been set at Nov. 15.

No change will be made immediately in any of the wage control legislation.

Another regulation to be eliminated Sept. 3 will be the one under which workers, compulsorily transferred to a job, could not leave without permission. The power to direct men to agriculture will be eliminated, possibly about Nov. 15.

These four manpower controls will remain in effect:

1. A man may not accept a new job without an Employment Office permit.

2. Seven days' notice must be given by male and female workers or an employer wishing to terminate employment, except where shorter notice is provided for in *regulations or by an Employment* Office.

3. Employers must list their vacancies with Employment Offices and those seeking work must register with the offices.

4. Labor permits are required by anyone wishing to seek or enter employment outside Canada.

These controls will be lifted as soon as warranted, said Mr. Mitchell.

He continued:—

"Canadians can well be proud, not only of accomplishments in battle and in production for war and for the needs of own and Allied civilians, but as well for the sane attitude pursued all throughout the war period, evidenced in the ready acceptance of some regimentation as a necessary evil in fighting the greater evil—the crazy idea of war.

"Good faith in carrying out promises in such things as priority in placement to veterans, in providing needed homes, in developing projects which will provide employment, producing lumber and building material for use at home and in Europe, and most important of all food for millions who face starvation, demands that a minimum of control be retained for a further period. However, assurance is given that the situation will be under constant review and even this minimum will disappear without too much delay."

He urged that all workers who are doing a job which adds to the sum total of Canada's tremendous reconstruction obligation, to stay on the job.

Announcement of the changes in controls have been sent to all unions and to all employers having more than 10 employees.

Mr. Mitchell's announcement came a day after Munitions Minister Howe declared that there will be work for everyone in the reconversion period if workers accept the jobs that are available.

Mr. Howe said that only those who declined to accept available jobs would be the ones out of work during the switch-over from wartime to peacetime production. Although employment in war industries has been cut by 230,000 since V-E Day, May 8, there still was a shortage of between 130,000 and 140,000 workers.

Mr. Mitchell gave no indication as to when a change in wage control regulations may be expected. The Government's wage control order came into effect in December, 1943, as part of the fight against inflation and was amended in March, 1944.

The revision modified a section limiting wage increases to ability of the employer to pay without causing price increases, eliminated authority of the War Labor Board to reduce wages, reduced penalty clauses applying to convicted illegal strikers and instituted other changes in response to labor complaints.

Will Need Larger Export Credits

By R. K. CARNEGIE
Canadian Press Staff Writer

OTTAWA, Aug. 17 (CP) — Parliament will be called upon in the new session which opens Sept. 6 to make much larger provision for export credit than the $100,000,000 provided under the Export Credit Act during the last session, it was learned today.

This money will be necessary if Canada is to maintain trade with members of the United Nations whose lands are devastated by war. The need for the increased provision arises because credit agreements already negotiated or pending show that the $100,000,000 already voted will be inadequate.

On the other hand, now that the war is ended, the House will not be asked to vote any more money for mutual aid.

The Bretton Woods agreements were intended to provide a credit pool which would supply the needs of countries which are hard up until they are able to get on their feet but there is little chance of these agreements being ratified in time to come into effect for more than a year.

In the meantime, Canada will have to provide credits if she wishes to sell to those countries.

Credit agreements already negotiated by Canada with Czechoslovakia, Belgium and the Netherlands total considerably more than $60,000,000 and similar agreements are being negotiated with France; Russia, one of which alone might easily reach $100,000,000. There also will be the credits needed by Empire countries.

The export credits are on an entirely different basis from the gifts in mutual aid and it is expected most if not all of the loans now being negotiated to enable countries to buy Canadian goods will be paid back. In fact, finance officials regard most of them as good risks.

Any gifts Canada will make will be through U.N.R.R.A., which has asked this country to provide $77,000,000, a sum likely to be boosted because of the great needs of devastated countries.

The new Parliament will have before it the same estimates for civil expenditures as were presented last Winter and on which five-twelfths was voted in a blanket motion.

Jack Underwood, R.C.A.F., Killed Overseas

TRAIL, B. C., Aug. 14—Flt. Sgt. Jack Underwood, son of Mr. and Mrs. Frank Underwood of Trail, was killed on an operational flight with the R.C.A.F. overseas on August 9, according to word received here by his parents.

Flt. Sgt. Underwood enlisted in the Air Force in February, 1943, and went overseas during the Summer of 1944. Although Jack had been stationed with the Air Force in England since he went overseas, his parents were not told where he was when he was killed.

Disclose New Weapons in U. S. Air Force

By WILLIAM HARDCASTLE

WASHINGTON, Aug. 17 (Reuters) — Gen. H. H. Arnold disclosed today that the United States more than a year ago "possessed a robot bomb which could be guided to its target by television by a man sitting more than 15 miles away."

The Chief of the Army Air Forces also announced that the United States has a bomber "considerably better" than the B-29 Superfortress, with a range of more than 5,000 miles and which could dominate all of Eastern Asia with atom bombs from present Pacific bases.

At a press conference he disclosed sensational details of U.S.A.A.F. secrets hitherto covered by wartime security.

Appealing for continued research and maintenance of bases in both the Pacific and the Atlantic, Gen. Arnold said that the American Air Force should use Tokyo as a base for many years to come.

Declaring that a "Buck Rogers" conception of war is coming in the near future, he predicted "the time is coming when you won't have any men in a bomber—the missiles will be guided towards their target first by direct reading and then they will 'home' on heat, light or metal and choose their own target. That's coming as sure as shooting. Jet-propulsion will give these missiles tremendous speed."

Gen. Arnold told newspapermen that with the new 5,000-mile-range bomber and the atom bomb the Air Force possesses a weapon which at present dominates the future of war.

It was essential for the United States to maintain a front line of Pacific bases running from San Francisco through Honolulu to Midway, Wake, the Marianas and Tokyo.

"With the present bases in the Aleutians we can dominate the whole of Asia," he added. "As regards the Atlantic with its far smaller distances I leave the future to your imagination."

The Air Force Chief said that the V-weapons developed and still in process of development by the United States were considerably more effective than the German originals.

CARLOADINGS DOWN

OTTAWA, Aug. 17 (CP) — Carloadings for the week ending August 11 declined to 68,633 cars from 70,421 for the previous week, but increased over the 67,998 cars for the corresponding week last year, the Dominion Bureau of Statistics reported today.

We shall have failed, and the blood of our dearest will have flowed in vain, if the victory which they died to win does not lead to a lasting peace, founded on justice and established in goodwill. To that, then, let us turn our thoughts on this day of just triumph and proud sorrow; and then take up our work again, resolved as a people to do nothing unworthy of those who died for us and to make the world such a world as they would have desired, for their children and for ours.

No Market for Lambs and Beef; a Ridiculous Situation

LETHBRIDGE, Aug. 17 (CP) — Early Spring lambs, fat 100 pounds and milk fed, are going begging, said Wilbur McKenzie, Manager of the Southern Alberta Co-Operative Association, Limited, here today.

There are 2000 of these lambs along the foothills area where the grass has been tops this year, and they are ready for market, but buyers will not bid. Stockmen suggest they are waiting for a few weeks until the Summer ceiling on lamb is past. Lamb sells at about 40 cents over the retail counter.

The situation with regard to fat cattle is even less satisfactory, Mr. McKenzie said. With 6000 cattle in the yards in Winnipeg representing a serious glut and the Calgary market also jammed, buyers are showing no interest while Canada is talking of meat rationing.

Grain fed baby beef is on the Calgary market at $11.50, about the same bid for grass fat steers. "What encouragement is that to the farmer or rancher to provide the beef which, we are told, must be rationed?" he asked.

Wires are being sent from Alberta ranchers and dealers to Agriculture Minister Gardiner, and Food Controller Taggart asking why, when packers and butchers are protected by ceiling prices, there should be an apparently deliberate effort to force down prices, and why, in this situation, Canada should be talking of rationing.

There is also a demand that, now that the war is over, the American market be opened to a free flow of livestock.

May End Meat Rationing, U. S.

WASHINGTON, Aug. 17 (AP) — Agriculture Secretary Anderson said today he believes it may be possible to terminate meat rationing in the United States in the "very near future" — possibly as early as September.

(Meat rationing is scheduled to return to Canada in September.)

In an exclusive interview, the Secretary stated that an examination of demand and supply prospects as of today indicated that supplies not needed for military and other non-civilian requirements are rising sharply.

TO PROBE HALIFAX BLAST

OTTAWA, Aug. 17 (CP) — Navy Minister Abbott said today Rear Admiral V. G. Brodeur, C.B.E., commanding officer on the Pacific coast, has been appointed Acting Inspector-General of Naval Ordnance, charged with the duty of inquiring further into the situation at the Dartmouth magazine.

The magazine was the scene of the fire and explosion July 18-19 which rocked Halifax and Dartmouth and forced thousands to flee the cities.

Admiral Brodeur also will review the condition of all naval magazines in Canada, "making whatever recommendations to the Minister he may consider necessary."

C.P.R. EARNINGS UP

MONTREAL, Aug. 17 (CP)—The Canadian Pacific Railway Company today reported earnings of $6,481,000 for the week ended August 14 compared with $6,062,000 for the corresponding period last year, an increase of $419,000 or 6.9 per cent.

New Motorboat Industry in Slocan Is Flooded With Orders

Another motorboat building industry has been established in Kootenay.

R. W. Gardiner, who opened a plant at Slocan City in the Spring, states he is flooded with orders. Owing to the tremendous interest in boating he has found it necessary to enlarge his building and install a considerable amount of machinery to take care of the increased orders.

At present Mr. Gardiner employs seven men on the construction of watercraft, but with the repeal of gasoline rationing and the lifting of restrictions on engines, materials and fittings, he is confident the industry will forge rapidly ahead.

No New Cars for at Least a Year

TORONTO, Aug. 17 (CP) — Refrigerators, electric ranges and small model radios will probably be available within the new few months but the public will have to wait at least one year, if not longer, before it can purchase a new automobile, a survey here showed today.

Manufacturers and retailers in the city said the problem of producing automobiles continues to be a serious one. They said the fact that one United States factory has already turned out its first post-war car doesn't mean anything as materials, labor and the reconversion program continue to hold up production. "As long as the Government tells the manufacturer how many units he can produce, it will certainly tell him where the product must go," was the general belief.

Refrigerators are the next biggest problem and manufacturers said there may be small quantities available before the end of 1945 but they still don't know what materials will be released and in what quantity. They stated the lifting of Prices Board restrictions on the manufacture of electrical appliances doesn't mean as much as consumers have been led to believe as manufacturers continue to be stymied by labor and material shortages.

We Must Act Vigorously to Press Highway Needs

Roads and Bridges Committee of the Nelson Board of Trade is taking quick action, now that the war has ended, to press the necessity for completion of standardization and surfacing of the Southern Trans-Canada Highway between Nelson and Goatfell, where it joins the Kingsgate-Banff Highway, and the Nelson-Nelway feeder highway from the United States.

It is a case in which dynamic action is required. We cannot afford to delay. Postwar construction programs will soon be under way and if the claims of this district are not forcefully presented, they could be passed over because of pressure for improvements of other highways in other parts of the Province.

Kootenay highways are the worst in the more thickly populated sections of British Columbia, yet they are most vitally necessary if this province and its people are to profit from the immense tourist and commercial traffic from the Prairies and the United States.

Gasoline rationing has been repealed, tires and cars again will be plentiful. The traffic which has been dammed up by war conditions will go to areas which can be reached over modern highways. It will avoid areas, no matter how attractive for recreational or business reasons, to which the highways are of the primitive type of much of the mileage in Kootenay.

A public meeting at the City Hall on Monday morning will organize a campaign, a speedy campaign which will enable an effective presentation to be made to the Minister of Public Works at Victoria early in September.

The Need for Long-Range Municipal Planning

Under the heading, "Minimum Planning Goals for Small Cities", Edward B. Wilkins in an article in "Public Management", points out that "planning is a means, not an end." It provides the administrators of a city with valuable tools and techniques to accomplish the objectives of good government. A far-sighted planning program is as essential in the small as in the large city, both to the long-range determination of major governmental policies, and to the day-by-day direction of municipal operations.

"Planning," he says, "puts a spotlight on the social aims of the community and leads to ways and means of facilitating their realization with available funds."

He suggests that the minimum requirements of city planning are:

1—Basic studies (extending beyond the corporate limits, wherever necessary) of existing land uses, existing building heights, age of buildings, coverage of lots, land and building valuations, and vacant land to indicate existing conditions, recent trends or changes in use, values, and general building design, particularly with regard to the relationship of building area to lot area. These data give a picture of the physical conditions of the city at a given time. This material usually can be assembled from available sources by average clerical personnel.

2—Basic studies of population characteristics, including analyses relating to existing density, recent changes in population density and distribution, and summarization of age, sex and race composition, with particular emphasis on their usefulness in preparing zoning regulations and subdivision control measures, but keeping in mind as well their value in indicating trends of growth and change in the city in terms of the character of the people of which it is composed. These data are available from census reports and may be supplemented from vital statistics source material in health department files.

3—Additional basic studies, at least in general terms, in the fields of transportation, traffic, public utilities and the like which will be necessary for the development of sketch plans reflecting in broad terms desirable future development and providing the basis for physical planning and physical improvement programs as well as for the provision of supplemental information in checking the efficiency of present zoning and subdivision regulations or in preparing new ones.

4—The development of an adequate public works program for the post-war period by examining and classifying existing recommendations for public works projects . . . . and appraising their desirability as elements in the general pattern of community development, as means for providing employment, and with respect to the community's ability to pay for their construction, operation and maintenance.

5—Concurrently with the conduct of the above program of studies, examination should be made of the organization of the existing planning and zoning agencies (or preparations made for their creation if they are lacking), and steps should be taken toward the formulation of a long-range planning program for these agencies. Their work will be more easily accomplished if a program for the presentation and explanation of planning and zoning materials to the general public is developed, and if public interest in the planning program is stimulated and maintained. Primary emphasis in the production of all planning studies should be upon their utility as guides to governmental operations. However, many of the studies, particularly those which can be presented in pictorial form, will be found to have considerable appeal to public interest, and no opportunity should be neglected to make use of them in evoking public support.

The idea is that every city should develop a complete master plan for the location of future public works and properties and special studies regarding traffic, health, welfare, police, fire, recreation, and other municipal activities.

Looking Backward

10 YEARS AGO

(From Daily News, Aug. 18, 1935)

Centuries ago Diogenes, armed with a lantern, set out to find an honest man. He was born 2000 years too soon, for the honest man appeared in Nelson yesterday—when he left with the Daily News, a purse that he picked up on Ward Street, where it now awaits a claimant who may have it on telling in one guess what the date is on the solitary penny it contains.

25 YEARS AGO

(From Daily News, Aug. 18, 1920)

William Thomlinson, miner and mineralogist of New Denver, has been engaged by the Department of Mines, Ottawa to collect ores and other economic substances for exhibition purposes.

Ian McDonald has been appointed lifeguard and swimming instructor at the Park, and is on duty every afternoon from one until 6 o'clock. Mr. McDonald states that the lifesaving classes are keeping him busy as so many have applied for lessons.

40 YEARS AGO

(From Daily News, Aug. 18, 1905)

According to several high officials, Prince von Buelow was suddenly called from Berlin to see the Emperor at his Summer palace. It is suspected by the British Government—who admit that recently Germany and Great Britain have been on the point of breaking relations—that the Kaiser is seeking to form a European combination against the British Isles and the Empire.

Today's Horoscope

You have a keen, logical mind capable of great reasoning powers. Your courage, self-assurance and faculty for handling people suggest that you are a born leader. Your hobbies are of the intellectual and cultured nature. Outside sources of help may come to you to bring closer the goal nearest your heart. If you need help, advice, or counsel, seek it from someone whose judgment your really can trust.

HOROSCOPE FOR SUNDAY

Strong emotions, an observant and absorbing mind, and a love for peace and harmony in all relations are your dominant traits. You are considerate, sympathetic, quick in anger, yet equally quick to forgive and forget. This Sabbath, when you are celebrating a birthday, the hour of meditation and prayer at church services should give you a light that glows within you and bring you joy and happiness. Do a kind service for another while in this mood.

Test Yourself

1. What flower is traditionally supposed to be held by a corpse?
2. What have the following articles in common—buckler, greave, hauberg, gauntlet, gorget?
3. By what names were the upper and the lower classes of Rome referred to?

TEST ANSWERS

1. The lily.
2. They are parts of men's armor.
3. Patricians, plebians.

Words of Wisdom

Mercifulness makes us equal to the gods.—Claudian.

?? Questions ?? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except when there is obvious necessity for privacy.

Reader, Nelson—Could you please tell me the altitude of Rossland, Kimberley and Calgary?

The altitude of Kimberley is 3662 feet; Rossland, 3517 feet, Calgary, 3500 feet. This makes Kimberley the highest city in Canada.

D. M., Trail—Could you please give me the address of Dr. William Bates? He is the "father of seeing without glasses".

Last address known is Broadway and 40th Street, New York.

R. H., Jaffray—Do the N.R.M.A. soldiers who have served in Canada receive the $7.50 gratuity pay?

Those eligible are service personnel who have served on active service in this war either without territorial limitation, or in the Aleutians Islands, and who have been honorably discharged.

R. S., Creston—Does an electric bulb become less efficient when old; that is, is more current used for the amount of light produced?

An electric bulb deteriorates with age and becomes less efficient, that is, it gives less light in proportion to the current consumed. Minute particles of the filament are deposited on the interior of the bulb.

Letters to the Editor

Letters may be published over a nom de plume, but the actual name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Street Cars a Part of Nelson's Life

To the Editor:

Sir—Your editorial in Wednesday's issue on the Nelson transportation system is a timely one.

Seems as though our old street car system is getting shoved around quite a bit in the last few years, in spite of the facts and figures it operated at a loss of $9735 last year, while the Civic Centre had a loss of $11,125, meaning nothing much one way or the other, since our main "chore boy" for profit and loss is the electric light system.

We have a population of approximately 5800, so that our street cars cost us roughly $2 per head; that is paid by the holy all of us who use light, if we except our other junior "chore boy", the Water Works Department.

If our chore boys decide to share the cost of our street car loss, there is still $11,743 left to pay the other losses, which, with the help of "general surplus", is cancelled out.

Our street cars are an institution in our city, a part of our way of life (whatever that weighs), and if I may say so, a bit of our scenery, much as the Alps make Switzerland Alpine; or the North side of the 500 block on Carbonate cockeyed!

So let's not pick on the street cars without looking around to see what doesn't make our watch tick.

The alternative to our present system might well be rubber tired cars in place of our tired ones, and a loop around Fairview, for in spite of our 1912 map of Nelson, Fairview is a part of Nelson.

While I am at it, might I put in a plug for Chatham Street? High Street has 20 feet of cement; Front Street is even narrower; the only full width street connecting Nelson with Fairview is Chatham Street, 60 feet wide, but apparently it would cost too much to fix; or something!

FRANK CARTER.

Nelson, B. C. Aug. 15, 1945.

Press Comment

CAUSE FOR ALARM

With a British carrier task force joining for the first time in the attack on the Japanese home islands, the fury and power of the air offensive against the enemy in the Pacific have been brought to a new height. It is an appropriate time, indeed, for the Japanese to warn their people against the fatal German belief that dissension among the United Nations would provide a way to victory. The arrival of British carrier-borne planes over Tokyo is something that the Japanese cannot ignore, but they cannot fail to note as well the more significant fact of Allied unity demonstrated by the inclusion of some of the finest units of the Royal Navy in Admiral Halsey's command.—New York Sun.

AHEAD OF THEMSELVES

Then those planes to fly at 2,000 miles an hour could leave Halifax at noon and arrive in Vancouver the same morning two hours before they started.—Brandon Sun.

War — 4 Years Ago

By the Canadian Press

August 18, 1941—Russian forces made powerful counter-attacks on central and Northern Ukrainian fronts; Red Army forced to evacuate Kingisepp near the Estonian frontier. British pilots attacked Axis ports and supply bases in Libya.

August 19, 1941—United States established the South Atlantic air ferry service to speed aircraft deliveries to the Middle East. Nazis claimed capture of six warships and two submarines under construction at Nikolaev, Russian Black Sea port.

Etiquette Hints

Candles are not used on formal luncheon tables.

Appointments Made to Nelson School Staffs

Four new additions to the teaching staff of the Nelson Schools have been appointed, it was disclosed at the School Board meeting at the Central School on Thursday night, and four who taught at the schools previously are returning, after leave of absence.

The new teachers are Miss Betty Holt, who is to teach at Central School, Miss Mary E. Patmore, who is to teach at the Hume School, and Miss Jean M. Thomson and T. E. Walmsley, who are to teach at the Junior High School.

Mr. Walmsley is a graduate of the University of British Columbia, has a Bachelor of Arts degree, and is proficient in physical instruction, music and singing.

Those returning to the school staffs are Miss Doris E. Robinson, Mrs. Charlotte E. Thom, (formerly Miss Ferguson), Bruce B. Clark and Perry C. Richards, the two latter having received their release from the Armed Forces.

The resignations of Miss Connie Sullivan, a teacher in Junior High School, and G. Wallach, who has been offered a position as Veteran's Officer in the Unemployment Insurance Commission, were accepted.

Miss Rosa T. Stewart and Gerald H. Lee were granted leave of absence for one year to attend U.B.C.

Miss Betty Collinson was chosen as stenographer at Central School on a temporary basis, and Mrs. V. Grizelle was accepted as pianist and stenographer at the Junior High School.

The School Board decided to send a letter to A. J. Cornish whose retirement was accepted, expressing their appreciation of his services.

Camp Busk Cub Session Closes

The Cub Camp at Camp Busk came to a successful close after seven days of varied outdoor life. Three fishing trips were made up Kokanee Creek by the older boys and several short boating trips were enjoyed. Swimming was the favorite pastime. Eleven Cubs were qualified for their swimmers badge.

Three timers were Paul Wolf, Jim Ballantyne, Norman Hanson, Arnold Sherwood. Two timers were Doug McLean, Sam Siminoff, Billy Parker, Roger Kerby and Bruce Davis, South Slocan, while Initiates were Neil McLean, Neil Horswill, Tom Marshall, Denis Edgar, Eugene Jacobson, Scott Owen, Ray Welbourne, Ernest Karchie, Ray Poulin, Pat Poulin, Sandy Laing, George Mulloy, Michael Bartlett, Teddy Settle, Brian McKay, Danny Dolphin, Billy Defoe and Barry Lusk, Grand Forks.

The Scout Camp of three days preceded the Cub Camp. Their role was to prepare camp for themselves and the Cubs and also make five poles for the new telephone line.

Two passed their swimmers test, completed part of their cyclist test and one qualified in cooking.

Bob Wassick is an eight timer, three timers were Norman Davis, South Slocan, Philip Holmes, Fred Anderson. Two Timers were Crawford Young, Gilbert Johnston, Ray Lewis and Bob Bland, South Slocan. Initiates were Ted Copper and Chril Roger, South Slocan.

Some of the Scouts stayed as assistants along with Bob Edgar, who wears the King Scout Badge.

On Sunday evening, August fifth, the camp fire was officially opened by R. R. Brown, District Commissioner, who also the same evening performed the ceremony of investing Ross F. Young as Cubmaster.

Each evening singing was enjoyed around the campfire, the Cubs all crowding around Johnny Weaver and his accordion.

Among the visitors who replenished the Canteen were Mr. and Mrs. Vic Owen, Mrs. E. H. Edgar, Mrs. Laing, and Mr. and Mrs. Bill Defoe.

Ross F. Young was Camp Scoutmaster and Cubmaster, assisted by Johnny Weaver, the cook who is an 11 timer, three as a Cub, twice as a Scout and six as cook. Ivan Lewis, Cubmaster, was a visitor and assisted during his stay.

Interpreting THE WAR NEWS

By JAMES D. WHITE
Associated Press Staff Writer

Vice-Admiral Onishi, founder of Japan's suicide corps, has now committed suicide himself "in atonement for" the failure of the mass madness he unleashed.

If this seems ridiculous here, it is not so to the Japanese. Onishi had sent loyal young men to their deaths in a campaign which failed. It was his decision; he now accepts that responsibility and destroys himself to show his remorse.

Onishi may or may not have believed the myth he helped perpetuate, but the effect is that in the minds of living Japanese their way of doing things is still right.

It is safe to think that many more military suicides would be reported if the throne and the new Cabinet were not leaning over backward to handle the military with kid gloves.

The Emperor's second rescript praises and thanks Japanese armed forces for their efforts and tells them in effect that their cause was no less righteous because the world rose up and smote them in its wrath.

". . . We believe the loyalty and achievements of you officers and men of the Imperial forces will for all time be the quintessence of our nation . . . we trust that you . . . will comply with our intention (to make peace) and will maintain a solid unity and strict discipline in your movements and that you will bear the hardest (of) all difficulties, bear the unbearable and leave an everlasting foundation of the nation."

Hirohito does not order his troops, but "trusts" that they will comply with his "intention." He does not use that unpleasant word surrender.

The new Premier and War Minister, Prince Higashi-Kuni, also has high praise and sympathy for Japanese troops who are about to "lay down their arms" but does "order" them "to refrain from any outbursts of emotion at the sacrifice of their sentiment, face stark reality calmly and squarely, and maintain solid unity and strict discipline in order to carry out the Imperial instructions to the letter."

As Japanese troops continue fighting in several areas, there is every indication that Tokyo is striving desperately to keep the military in line, but at the same time it cannot be doubted that every word uttered is scanned for its effect on listening Allied capitals.

Rossland Bans Any New Outdoor Plumbing

ROSSLAND, B.C., Aug. 16 — Reporting to the City Council Monday night, on the Board of Health meeting of Aug. 3, Alderman Lefevre said the Board heard the report of Dr. Telford on the Swimming Pool conditions, and had sent a copy of the report to the Swimming Pool Society.

A letter from Dr. J. F. Amyot, informed the Board that Mrs. Jean McAllister, Public Health Nurse, had resigned, and he recommended Miss F. A. Kennedy, who had been in the District for some time, to fill the position. The Board decided to recommend Miss Kennedy to the City Council and School Board.

Overflow of several septic tanks had been remedied, the report stated.

The Board recommended that erection of outside toilets in Rossland be prohibited from now on.

The minutes of the Board of Health meeting were adopted and incorporated in the Council minutes, and its recommendations were adopted.

Application of Miss F. A. Kennedy for the position of Health Nurse was accepted, and the City Clerk was instructed to inform the School Board of this.

Ask Addition to Junior High School

Plans for an addition to the Junior High School building are to be submitted to the Nelson Rehabilitation Committee for consideration, the Nelson School Board decided Thursday night.

Possible sites for the proposed new High School building were also discussed, although no conclusion was reached. It was agreed that the two delegates going to the School Convention at Port Alberni on Sept. 23, should see the Minister of Education about plans for the High School, while at the Coast.

The decision to enlarge the present nursing service was brought up, and it was decided that an application be made to the Provincial Health Department for a car for the public health and school nurse.

It was stated that Miss Frith of the Institute of Public Health Workers is to visit this District in the Fall.

Nakusp C.C.F. to Put Up Harding, Tracey for Nomination

NAKUSP, B.C.—Randolf Harding and Frank Tracy were named by the Nakusp C.C.F. Club as candidates whose names would be placed before a Kaslo-Slocan nomination convention in connection with the forthcoming provincial election.

BRAN MUFFINS

1½ cups bran, 1 cup pastry flour, 4 teaspoons baking powder, ½ cup brown sugar, 1 egg, ¾ cup milk, 1 tablespoon melted butter, 2 tablespoons SOYHART SPREAD.

Sift flour and baking powder together, add bran and brown sugar, mix milk with beaten egg, melted butter and SOYHART SPREAD and add to dry ingredients.

Fill greased muffin tins ⅔ full. Bake at 375° to 400° F. for 20 to 25 minutes.

A Recipe on Each Label.

SOYHART

J. L. TRUMBULL LTD., Vancouver, B.C.

WHEN a man has lived for several years among strange sights in far places, in a world of excitement and adventure, it is not easy for him to return to the work he left behind and settle down to normal peacetime living. If, in addition, he returns with some physical disability, his problem is even greater.

It is this latter aspect of the rehabilitation of our fighting men that has led this Company to make a special study of the placement of disabled veterans in its organization.

Of the 2400 and more men who left the Company to go to war, about three hundred already have returned. All of them will be given the opportunity to return to their former employment (or as far as possible any other type of work they may prefer) WITH A STANDING EQUAL TO THAT WHICH THEY WOULD HAVE ATTAINED HAD THEY STAYED AT HOME.

But some, fortunately not many, of them have returned maimed, sick, or perhaps just mentally upset. These will need, and will receive, special consideration. They are being trained to do such work as their disability allows, and at the same time encouraged to realize that their special tasks are as vital to the organization as the more strenuous work being done by their fellows.

In this way Consolidated is endeavouring to fulfil its part in Canada's obligation to her fighting men. Our work along these lines will be continued until all those of our 2400 veterans who return to us have been fully reinstated.

Five Games Scheduled for Oldtimers Golf

There are five games scheduled for the Senior Men's Tournament to be held Saturday and Sunday. The entrants, who are 45 years and over, are to contact their opponents and arrange their Saturday afternoon games.

The draws are R. E. Horton vs. J. D. Kerr; L. S. Bradley vs. B. G. Townshend; S. A. Maddocks vs. R. L. McBride; T. R. Wilson vs. H. A. Doak; A. H. Allan vs. A. E. Murphy.

FRUITVALE MAN APPOINTED FENCE VIEWER

VICTORIA, Aug. 17 (CP)—Robert Kydd of Fruitvale, B. C., has been apointed fence viewer for Rossland-Trail Electoral District by order-in-council to replace C. J. Doble.

Lieut. Hampton Gray, Nelson Navy Airman, Listed Missing

Lieut. Robert Hampton Gray has been reported missing while on active service, his parents, Mr. and Mrs. J. B. Gray, 815 Baker Street, were informed in a wire received from Naval Service Headquarters and dated Aug. 16.

A member of the Royal Canadian Naval Volunteer Reserve, the 26-year-old lieutenant was serving in the Middle East on a Royal Navy ship, the aircraft carrier Formidable. Loaned to the British Navy as a pilot, his job was that of Flight Commander, leading the flight from the deck of the carrier.

He was mentioned in dispatches after taking part in the air blows of the Royal Navy's Fleet Air Arm, which resulted in the destruction of the German battleship Tirpitz, in August 1944.

After finishing his third year of a four year arts course at University of British Columbia, he joined the Navy in August 1940. By September 21, he was in Plymouth, England, and was attending Naval College there during the blitz.

He was last in Nelson in May, 1944, when he spent a month's leave with his parents.

Lieut. Gray's brother, Jack, who was a Sergeant-Gunner in the RCAF, was the first Nelson boy to be killed in the war. Both boys were native sons of Trail.

LIEUT. R. H. GRAY
This picture was taken in front of his home in Nelson when he was still a sub-lieutenant.

Woman Passenger Drowns in Creek; Pinned by Car

Mrs. G. Mills drowned in a small creek at Summerland Thursday after the car in which she was riding pitched off the road and into the water. The car, which was driven by Samuel Carson, missed the small bridge over the creek, turned over and pinned the woman underneath it.

The accident occurred at 10:30 p.m. A coroner's inquest is being held.

In 1886 Alexander Buntin installed at Valleyfield, Que., what is claimed to have been the first wood grinder for wood pulp manufacture in America.

PRICE-GARLAND

● St. Saviour's Pro-Cathedral, gaily decorated with a mass of Summer flowers presented a lovely scene Thursday afternoon at three o'clock when Rev. J. G. Holmes united in marriage Edith Gwen, only daughter of C. B. Garland of Nelson and the late Mrs. Garland, and Richard Price, son of Mrs. R. Price and the late Mr. Price of Trail. The youthful bride's attendants were Mrs. E. W. Forrester of Trail as matron of honor, Miss Betty Price of Trail, sister of the groom, and Miss Doreen Robertson of Nelson as bridesmaids. The groom was supported by E. W. Forrester of Trail, while the ushers were Glen Price and Lieut. Miller, R.C.N.V.R., of Trail. Miss Margaret Graham of Nelson supplied the wedding marches and music during the signing of the register. Given in marriage by her father the fair bride looked lovely in her wedding gown of floor length heavy silk, featuring the long torso waist line, sweet heart neck line and long sleeves. Her chapel veil was held in place by a wreath of white rosebuds. Her bouquet was of red roses and fern, and her only ornament was amethyst pendant belonging to her mother. The reception which followed the ceremony was held at the Canadian Legion where the beautifully decorated cake centred the bride's table. Mrs. Alex Leith and Mrs. W. E. Wasson were invited to pour while the serviteurs were girl friends of the bride. Mrs. Ernest Greenwood of Seattle and Miss Edith Irvine of Vancouver, both aunts of the bride, were here for the wedding. Following the honeymoon being spent at the Coast the happy couple plan on making their home in Trail. Mrs. James McGregor, Mrs. Vincent Fink, Mrs. Paul Lincoln and Mrs. Alex Leith and Mrs. C. W. Appleyard were responsible for the attractive floral decorations in the church and the Legion.

● Lieut. Peter Dewdney is visiting his parents, Mr. and Mrs. E. E. L. Dewdney, Stanley Street.

● Mr. and Mrs. W. A. Gordon, Third Street, have had as guests Mr. and Mrs. O. J. Harwood of Revelstoke who spent a week here.

● Mrs. J. Gille was a visitor to Nelson yesterday.

● Mr. and Mrs. E. Cuenin of Oakland and Mr. and Mrs. George Whitehead of Hayward, Calif., have returned after ten days visit in Nelson.

● Flying Officer and Mrs. Charles Bovart of Vancouver are guests at "No Eats" the Summer place at Crescent Bay of Mr. and Mrs. H. M. Whimster.

● Mrs. McEwing was a shopper from Salmo yesterday.

● H. W. Wells was in the city from Passmore yesterday.

● J. T. Andrews, Medical Arts Apartments, has as guest his daughter, Miss Betty Jane Andrews of Spokane.

● Mrs. G. G. Fair and her daughter of Salmo, spent yesterday in town.

● Miss Phyllis Ryan, Mill Street, is spending a week at the Coast.

● Mrs. Robert Todd, Front Street, and her guests, Mr. and Mrs. A. E. Anderson of Medicine Hat, were recent guests at the Coventry Summer place at "Shady Nook", Crescent Bay.

● Mr. and Mrs. M. S. Weatherhead of Medicine Hat have returned after a week spent at the home of Mr. and Mrs. W. A. Weatherhead, Fourth Street, Fairview.

● A. R. Moore of Willow Point visited town yesterday.

● Sheriff Harper and Mrs. Harper have visiting them their niece, Miss K. Oats of Vancouver.

● Robert Boyer of Willow Point spent yesterday in Nelson.

● Shoppers in the city yesterday included C. Johnson of Salmo.

● Miss Irene Denny of Willow Point was among shoppers in the city yesterday.

● Mr. and Mrs. F. F. Payne, Hoover Street, have as guest for a few days Miss Alice Aspell of Vancouver, who has visited friends in Kelowna.

● Mrs. W. R. Perry, Robson Street, has taken up residence at 1002 Kootenay Street.

● J. Brennan was a visitor from Ymir yesterday.

● Mrs. Ann Aduddell, Silica Street, entertained members of the Circle of the Cathedral of Mary Immaculate at her home Thursday night when those present included Mrs. Joseph Sturgeon, Mrs. M. J. Vigneux, Mrs. Henri Gagnon, Mrs. C. F. McDougall, Mrs. M. DeGirolamo, Mrs. P. Bialkowski, Mrs. D. A. McPherson, Mrs. Edith Edgar, Mrs. D. Aurelio, Mrs. Louis Coletti, Mrs. A. Ling, Mrs. J. Muraro, Mrs. M. J. Varseveld, Miss Albertine Choquette¼ Mrs. W. G. Fullerton, Mrs. T. Wall, Mrs. A. T. Noxon, Mrs. F. Boyd, Miss W. Kinahan, Mrs. D. McInnes, Mrs. A. G. Gelinas, Mrs. G. F. Stevens, Mrs. J. Morrison, Mrs. Jean Kasper, Mrs. G. A. Tapp, Mrs. J. P. Herron, Mrs. Norbert O. Choquette and Mrs. L. H. Choquette.

● Mr. and Mrs. J. B. Fletcher of Ainsworth wish to announce the marriage of their daughter, Doris Ella, to Stewart Emmerson Fyfe of Kaslo.

Engagements

● Mr. and Mrs. George Bush wish to announce the engagement of their eldest daughter, Elva Grace, to Cpl. Dan Downey, eldest son of Mr. and Mrs. Downey of Hazenmore, Sask., wedding to take place in Nelson, Thursday, September 6.

Feminine Navy at Koolaree Has V-J Celebration

CAMP KOOLAREE, Aug. 16 — Ahoy! We all pulled into Koolaree about 3:15 Monday, after a riotous trip on the end of a freight train. Such humiliating transport for sailors! We settled ourselves in our cabins, and had a dip, then we enjoyed one of Sally's hearty meals.

Crews were selected as follows: H.M.C.S. Hozoji, under Captain Willy (Miss Dorothy Williams of Trail); H.M.C.S. Noah's Ark, under Captain Squirrel (Miss Shirley Owen of Trail); H.M.C.S. Tilarta, under Captain Wynne (Miss Anne Cribb of Cranbrook); H.M.C.S. Handy Haven, under Captain Meg (Miss Margaret Cribb of Cranbrook); H.M.C.S. Seasick, under Captain "D" (Mrs. Doris Bradshaw of Nelson); H.M.C.S. Yokum, under Captain Daisy Mae (Miss Mae Bowkett of Nelson)

The crews are under the able direction of Admiral Frankie (Miss Frances Moran of Trail). Our camp is looked after by Cubby (Mrs. J. C. McCubbin of Victoria), and our Camp Mother is Pilot (Mrs. Halleran of Nelson) with the aid of Terry, her son, as mascot. A sunset service and a campfire ended the day.

ATOMIC BLONDE COSTUME WINNER

Our second day in camp began officially at 7, unofficially at 5:45. We spent our day in Bible study, interest groups, eating and swimming. The day ended not with the usual campfire ritual, but with a bang-up V-J celebration. A masquerade was held. The best dressed couple were Norrie Cummins and Jeannette Muir as Arabs. Best single man was Claire Marlatte as The Flying Dutchman. Best single lady was Muriel Stuart as an Indian squaw. The most original costume was won by Bob Vallence, who caused a sensation as the Atomic Blonde. After the masquerade we all went to the lodge to sing and do barn dances, then we rounded off a most enjoyable evening with cocoa and doughnuts. If the girls were as tired as the leaders, they were asleep when "Lights Out" went.

This is "Captain Daisy Mae" signing off.

FOLKESTONE, England (CP) — Development schemes, including an all-year-round season, are being considered to make "Hell Fire Corner" a mecca for tourists.

NAIROBI, Kenya (CP) — Kenya's woman-power problem is so acute that the authorities declare it is impossile to release women who have been directed to do work of national importance, and they will probably not be released until the end of the war with Japan. A shortage of nurses is causing some alarm.

A STATEMENT REGARDING
GASOLINE QUALITY

Imperial Oil Limited will commence supplying ESSO EXTRA and 3-STAR gasolines of their pre-war high quality to motorists, farmers and other consumers throughout Canada at the earliest possible moment.

Due to production and distribution problems involved there will necessarily be some delay. Gasoline users can be assured that no effort is being spared to hasten this change.

Imperial Oil's extensive wartime research and development will result as soon as possible in Imperial gasolines surpassing pre-war standards.

Imperial Oil's production facilities are unequalled in Canada and motorists and others can consequently depend on Imperial Oil just as they have always been able to depend on Imperial Oil for the very best petroleum products available.

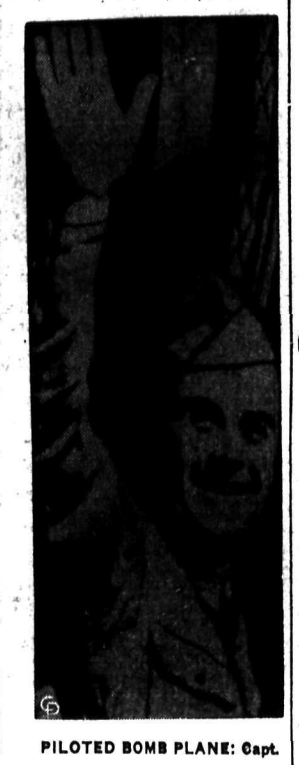
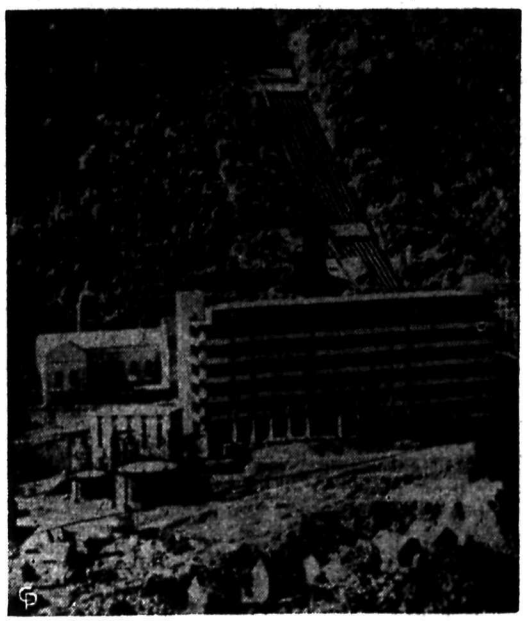
TODAY'S News Pictures

PIONEER OF ATOM SMASHING: Standing beside the cyclotron he developed at Berkeley, Cal., is Dr. Ernest Orlando Lawrence, famed American scientist, who has been a pioneer atom-smasher. Use of the cyclotron is believed to be at the bottom of the development of the atomic bomb. Dr. Lawrence is one of the world's foremost authorities on the structure of the atom, transmutation of atoms, etc. He may have been a member of the group of British and American scientists who developed the atomic bomb, the most terrible weapon in history. Dr. Lawrence is director of the radiation laboratory at the University of California. He is a native of Canton, S.D.

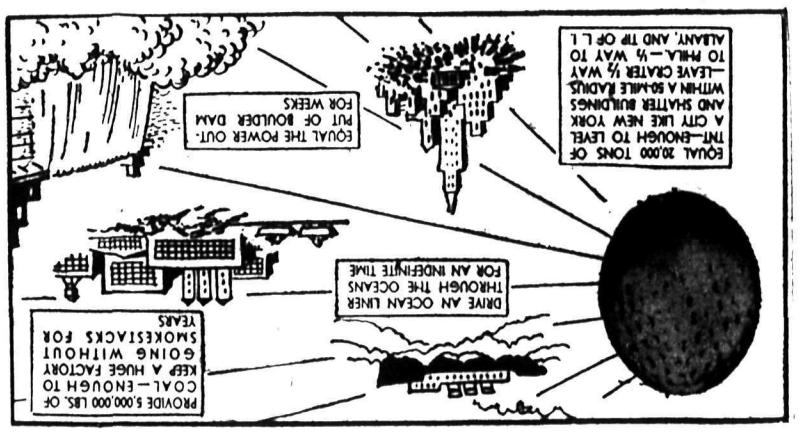


PILOTED BOMB PLANE: Capt. Paul W. Tibbets who was pilot of the B-29 which dropped the first atomic bomb on the Japanese army base at Hiroshima. He is a former medical student of the University of Cincinnati.

Major-General Leslie Richard Groves, officer in charge of the U. S. atomic bomb project. One bomb is equal in explosive force to 20,000 tons of TNT.



HOPED TO PERFECT ATOMIC BOMBS HERE: Pictured is Europe's largest hydro-electric plant at Rjukan, about 80 miles West of Oslo, Norway, where the Nazis planned to make atomic bombs. The buildings were wrecked by the Norwegian underground, preventing any further research on the deadly missile.



ATOMIC FORCE CAN BE POWER FOR GOOD OR EVIL: You can give your imagination full rein in thinking of the new atomic force harnessed by British and American scientists. Chances are that even in imagination you can't exaggerate the potentialities of the force. Atomic power of golf ball size could shatter a city the size of New York and spread destruction for a radius of 50 miles. But it also has power for the benefit of mankind. The above diagram shows only a few of the possibilities.

by Laura Wheeler

BEGINNERS' CROCHET: Crocheted of straw yarn, this light-as-a-feather beanie is a delight to wear. Any beginner can do this crochet as a first attempt.

Grain in Various Stages Across Prairies

WINNIPEG, Man., Aug. 17—Grain over the Western Prairies is now in various stages of harvesting, meagre in some places and progressing elsewhere as weather allows, according to C.P.R. survey for the week. Moisture conditions in Southwestern and West Central Alberta have been improved by recent showers making the crops in these areas fair to good, says the report, especially where crops were beginning to deteriorate because of the heat.
Alberta's moisture improvement, too late for grain already ripened, will help late crops and feed, though more rain would be welcomed.
Alberta's harvest is making best headway along the Southern subdivisions and operations are expected to be fairly general in the South next week. Some wheat outturns around Lethbridge are estimated at 15 to 30 bushels to the acre.
Peace River crops are ripening in bright warm weather and cutting of barley is in progress. Winter wheat in this district will bring heavier yield than was at first expected, though coarse grains will not yield normal averages. All yields are expected to be somewhat reduced.
British Columbia peaches are soon to move in volume and general crops look promising.

Complete Repairs on Columbia

NAKUSP, B.C. — S.S. Columbia, which has been under repair in the Nakusp yards, left for Robson Monday under the captaincy of Capt. Robert Manning.

MANCHESTER, England (CP)—Charged with being late for work 550 times in five years, an apprentice in a firm here was fined £3. ($13.50).

Market Trends . . .

MARKET TRENDS
NEW YORK, Aug. 17 (AP)—Weakness in rails generally unsettled the market and leaders declined fractions to more than two points.
TORONTO—The mining groups particularly the gold issues, displayed price improvement in comparatively quiet trading. It was evident there was no accumulation of buying orders over the double holiday and trading remained sluggish through most of the session. Western oils were up slightly and the industrials were steady to slightly lower. Turnover for the day was around 725,000 shares.
MONTREAL—Trends were mixed as trading progressed. Constructions generally tended downward while base metals and refineries were firm.
LONDON—The stock market featured a sharp upward movement in British railways following the speech from the throne which made no mention of nationalization of railways. Some profit-taking, however, reduced the earlier improvement.
VANCOUVER—Golds and oils were irregular. Total turnover was 56,250 shares.
CHICAGO — Trade uncertainty over future price levels, following the war's end, prompted renewed liquidation in grain futures.
Losses in rye reached 4⅞ cents a bushel at times, and wheat and oats were off almost tow cents in late trading. Corn was down more than a cent and barley more than two cents.
Prices held fairly steady in early dealings but when longs began liquidating their holdings, little demand was uncovered. Authorities said traders were unwilling to enter into heavy commitments at this time, fearing that war time price of commodities might not hold.
Wheat closed ⅛ to 1⅜ cents higher, corn was down 1¼ to 1⅞, oats were off 1⅜ to 1Z, rye was 1¾ to 4⅛ cents lower, and barley was down 1⅝ to 2⅜ cents.
WINNIPEG — Approximately 1,500,000 bushels of wheat were reported sold for export to the United Kingdom over the victory ofer Japan holidays.
Rye futures prices declined after a break of five cents on the Chicago market. Dealings were moderately active.
At close rye futures prices were 2⅛-1¼ lower with Oct. at $1.46; Dec. $1.40½; and May $1.39⅝-¾.

WINNIPEG GRAIN

WINNIPEG, Aug. 17 (CP)—Grain quotations:

	Open	High	Low	Close
Rye:				
Oct.	148¾	149¼	144⅜	146
May	141¼	142⅜	139½	139c
Oats:

Rye 2 C. W. 148.

FOREIGN EXCHANGE

NEW YORK, Aug. 17 (CP)—The Canadian dollar was unchanged at a discount of 9 7-16 per cent in terms of United States funds in closing foreign exchange dealings today. (Ottawa Foreign Exchange Board rates, 9.09-9.91 per cent discount). The pound sterling was down ⅛ at $4.02¾.

Find Rich Values In "Low Grade" Zone, Dentonia

A. J. Arland, engineer of Dentonia Mines Ltd. has reported important values on samples taken between the 300 and 400 foot levels on the Anchor claim of this Greenwood property. This location is approximately 1500 feet North of where present diamond drilling is being conducted, and in the past was considered a low grade zone. Four channel samples taken over a length of 10 feet gave the following assays: Across one foot two inches 0.35 ozs. in gold, valued at $12.70 per ton. Across one foot 9.6 ozs. gold valued $369.60 and 55.6 ozs. silver valued $19.46 or a total value of $388.00. Across two feet ten inches 1.36 ozs. gold valued $52.36 and across two feet six inches 1.48 ozs. gold valued $56.98. Three of the samples were not assayed for silver, but the average ratio for silver content is roughly 6 ozs. silver for 1 oz. gold.
Sampling is proceeding to determine the length of this ore body. As soon as labor is available, work will be done on the 400 and 500 foot levels to determine the depth of this vein.
A 310 cu. ft. compressor has been purchased by the Company to replace the rented compressor, and will be shipped to the property immediately.

SPORTING SUPPLIES TO CONTINUE SHORT

TORONTO, Aug. 17 (CP) — Little improvement this year in the sporting goods supply is foreseen by Toronto retailers and manufacturers although the Prices Board has said there are no Government restrictions on production of sports equipment.
They believe shortages of labor and of such materials as first class steel and leather will continue to hold down the output until well into 1945.

Petain Commuted to Life Imprisonment

PARIS, Aug. 17 (AP)—Gen. de Gaulle today commuted Marshal Petain's death sentence to life imprisonment.

The action consisted of approving a statement the court wrote into its verdict which expressed the wish that the execution not be carried out.

A jury of the High Court of Justice condemned the 89-year-old head of the Vichy regime to death for betraying the state to the Germans during the occupation.

Surface the Highways Campaign

To organize a campaign for the standardization and surfacing of the Southern Trans-Canada Highway from Nelson to Goatfell, and the Nelson-Nelway feeder highway from the United States, a

PUBLIC MEETING

under the auspices of the Roads and Bridges Committee of the Nelson Board of Trade will be held in the City Council Chamber at 10:30 a.m. Monday.

All members of the Board and others interested are urged to attend.

The general plan is to prepare a monster petition and to send a delegation to Victoria to present it and impress upon the Government the importance of action now, so that appropriations may be provided for 1946 work on the standardization and surfacing of these essential highways.

The War is over. If we do not take prompt action this district could be passed over in favor of others which pressed their highway claims more vigorously.
