BIG BATTLE FOR AACHEN OPENS

Allies Land on Morotai Isld

New Landing 300 Miles From Mindanao; Reported Gen. MacArthur Goes Ashore

NEW YORK, Sept. 14 — A special broadcast communique from General MacArthur's Headquarters announcing that Allied forces have landed in the Halmaheras and have established a beachhead on Morotai Island was reported tonight by Columbia Broadcasting System.

The new landing point is 300 miles Southeast of the Philippine Island of Mindanao. Gen. MacArthur announced that American losses up to the present time have been very light. He said we have suffered no air losses.

The text of the communique as reported by CBS:

"We have landed in the Halmaheras, 300 miles beyond New Guinea. Our ground forces under cover of naval and air bombardment seized beachheads on the island of Morotai, the most Northern of the Halmahera group. The point of landing was unexpected, the enemy having anticipated it in the lower parts of the islands where he had accumulated very strong forces in heavily defended positions.

"In bypassing these forces and landing further to the North he was taken by surprise and his initial resistance is being sharply overcome. Our ground losses up to the present time have been very light. And we have had no naval or air losses."

General MacArthur himself has gone ashore, according to a correspondent at the scene, Columbia Broadcasting System said.

Breakdown in News Herald Guild Hearing

VANCOUVER, Sept. 14 (CP) — Union representatives today withdrew from hearing of the conciliation board inquiring into a dispute between Vancouver News-Herald and Local No. 2 of the Vancouver Newspaper Guild over a Guild shop clause the Union seeks to have included in a new contract. The Board will report to Provincial Labor Minister Pearson that proceedings have broken down and that the Board is unable to proceed.

Daniel O'Brien, Regional Director of Canadian Congress of Labor, who is handling the Union's submission, withdrew when the conciliation board ruled that it could not hear certain charges by union representation of intimidation of employees by the management and of acts by the management "prejudicing" Board members before they sat.

O'Brien wanted the charges heard as a separate case and prior to the Guild shop clause hearing. J. Howard Harman, Board Chairman, said the board would hear any testimony from witnesses only as part of the Guild shop clause hearing and if it felt charges were proven it would so advise the Minister of Labor in a supplementary recommendation. Harman contended the Board had no authrity to hear the charges as a separate case.

Senator J. W. de B. Farris, Counsel for the News-Herald management, commented: "It looks to me as if the union has decided it hasn't a case and this looks like a good outlet."

Walter S. Owen, company representative on the conciliation board, said he agreed with Harman. H. W. Herridge, C.C.F. Member of the British Columbia Legislature for Trail, employees' board representative, indicated he will submit a minority report.

20 Carloads of O.K. Pears Reach Grand Forks Cannery

GRAND FORKS, B.C.—First of 20 carloads of pears from the Okanagan reached the Grand Forks cannery Sept. 9, where operations are now running full tilt on peaches and tomatoes. The plant has been short of help and the existing crews have been working long extra hours to keep up with the raw material arriving.

Goebbels Admits Supplies Short

NEW YORK, Sept. 14 (AP)—Paul Joseph Goebbels, German mobilization director, acknowledged today in Das Reich that Germany's losses were grave and said some German divisions could not be dispatched to the front because they "could not be supplied with necessary war equipment."

Veteran Province Printer Dies

VANCOUVER, Sept. 14 (CP) — Francis Herbert Connell, 66, veteran printer at the Vancouver Daily Province, died in hospital today.

Born in Hamilton, Ont., Mr. Connell served his apprenticeship with the Hamilton Spectator. He later was sent to South Africa to introduce the linotype machine there. Funeral services will be held here Saturday.

PRETORIA (CP)— It is expected that new collieries to be opened in the Transvaal will produce about 100,000 tons of coal a month at the start. After three years the output should be about 205,000 tons monthly.

Finnish Premier Suddenly Stricken

LONDON, Sept. 14 (AP)—Hantti Hackzell, Finnish Premier and Leader of the Finnish Peace Mission in Moscow, tonight was suddenly stricken with paralysis and his condition is critical, the Moscow Radio said.

Crack 3 Nazi Outposts Guarding Belfort

ROME, Sept. 14 (AP)—American and French forces of the 7th Army have cracked three strong outposts of German defences guarding Belfort Gap and now are 20 miles from Belfort, but the gap itself is still open for the movement of German units North of the Doubs River and West of the Vosges Mountains.

The closing stages of the campaign to destroy or drive out every German soldier in Southern France have brought the Allied divisions into the toughest fighting they have encountered so far.

"Considerable opposition" was encountered by Americans advancing Northeast from Vesoul, 7th Army Headquarters, announced late tonight, indicating the importance the Germans are attaching to holding open this lastline of retreat. French troops pushing North from Champlitte, 36 miles Northwest of Versoul, are encountering some enemy units who so far have been unable to reach the gap.

Churchill Goes Visiting in Que.

QUEBEC, Sept. 14 (CP) — Prime Minister Churchill went visiting in Quebec today.

Accompanied by Prime Minister Mackenzie King he drove through streets lined by cheering people to Spencerwood for a call on Sir Eugene Fiset, Lieutenant-Governor of Quebec, and then to the Legislative Buildings for a visit with the Provincial Cabinet headed by Premier Duplessis.

The tour followed a meeting with the War Committee of the Canadian Cabinet which formed a vital part of the Canadian-British phase of the Quebec Conference.

Premier Duplessis and his Cabinet were in session at their weekly meeting when the visitors arrived. The Premier went down to meet them at the door and escorted them through long corridors and the Legislative Assembly Chamber to the Council Room.

Photographers and reporters, rarely admitted to a Cabinet Room while a meeting is in progress, crowded around but after five minutes of picture-taking Mr. Duplessis lifted his hand with a quiet, "That's enough."

Mr. Duplessis saw Mr. Churchill to his car and turned to say goodbye to Mr. King.

"I wish you good health but not good luck," he said and the two political opponents laughed.

TO PROBE BROWDER'S POLITICAL ACTIVITIES

WASHINGTON, Sept. 14 (AP)—The political activities of Earl Browder, Communist leader, will be examined next week by the House of Representatives Campaign Expenses Investigating Committee. Chairman C. P. Ianderson announced today that Browder will be questioned Tuesday about the formation of his "Communist Association" which came into being after the United States Communist Party was dissolved.

EDEN ARRIVES TO JOIN IN QUE. TALKS

'Super-Command' in Pacific 'Disposed of' Before Meeting

By C. R. BLACKBURN
Canadian Press Staff Writer

QUEBEC, Sept. 14 (CP)—Foreign Secretary Anthony Eden flew in from Britain late today to join the corps of advisers sitting with Prime Minister Churchill and President Roosevelt at the 11th war conference here.

His arrival confirmed earlier expectations that the pressing issues of peace-making and political settlements were prominent in the discussions of the Allied leaders.

The first announcement that Mr. Eden was coming was made this morning, after published London reports that he was leaving for Quebec and that his last activity overseas was to consult leaders of the Polish government in Britain.

The only other outstanding news development today was the comment by Stephen Early, President Roosevelt's Press Secretary, that the question of creating a "super-command" in the Pacific theatre was "disposed of" before the Quebec conference opened. He would not elaborate.

Prime Minister Churchill sat in at a meeting of the Canadian Cabinet's War Committee under the chairmanship of Prime Minister Mackenzie King and later called upon Lieutenant-Governor Sir Eugene Fiset, and on Premier Duplessis who presented his provincial cabinet.

Mrs. Roosevelt, wife of the President, inspected the local Canadian Women's Army Corps barracks and left late in the afternoon by train for New York.

Mr. Early told reporters he did not expect Secretary of State Cordell Hull to come to the conference but said Mr. Hull was in constant telephone communication with the President.

The meeting of the Cabinet War Committee with Mr. Churchill, similar to a session held when the first Quebec conference was held last year, probably was the occasion of Anglo-Canadian talks which spokesmen said earlier would be a feature of the conference, and which possibly may be continued even after President Roosevelt's part in the conference is completed this weekend.

The Anglo-American discussions following Mr. Eden's arrival are expected to centre about the following subjects:

1. A restatement of the circumstances under which either Germany or Japan may ask for and obtain an armistice for the discussions of peace terms;

2. Consideration of the serious diplomatic problem created by the unyielding attitude of Russia toward Poland and Soviet reluctance to share fully in the discussion of immediate war aims.

3. An exchange of views on the recommendations so far formulated at the Dumbarton Oaks post-war security conference, for submission first to the big four and later to the United and associated nations governments looking toward the creation of a new League of Nations.

Obviously the first item, involving a revision of the Casablance "unconditional surrender" ultimatum, cannot be usefully decided without Russian acquiesence as far as Germany is concerned.

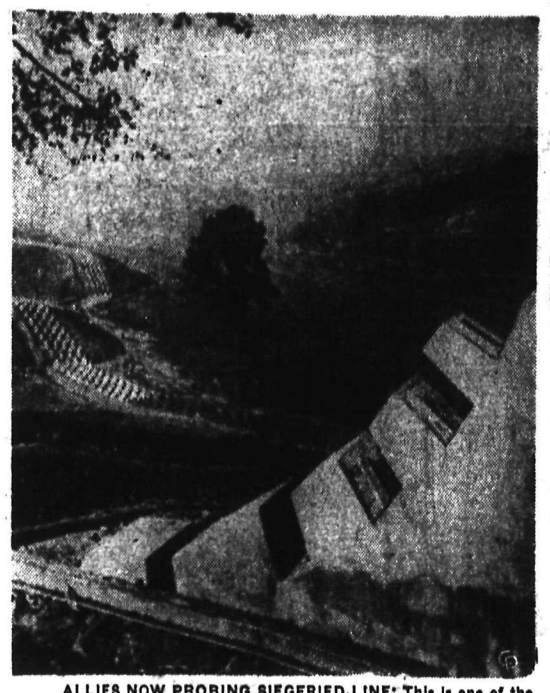
The British and American attitude is believed to favor bringing an end to the slaughter as soon as possible by an armistice, not to save German lives but to prevent the needless waste of Allied youth.

SYDNEY, Australia, Sept. 14 (CP Cable)—News that Sir William Glasgow, Australian High Commissioned to Canada, and R. M. Firth, Acting New Zealand High Commissioned to Canada, have been invited to the Quebec Conference followed an outburst of adverse comment in the Australian Press on the absence of Australian and New Zealand representation at talks dealing primarily with the Pacific War.

(It was announced in Quebec Wednesday night that Sir William Glasgow and Mr. Firth had been invited by Prime Minister Churchill.)

The Sydney Sun's Quebec correspondent cabled his paper the comment that Sir William's "11th hour invitation will probably permit him only to be in time to hear decisions already reached."

The same correspondent quoted an unidentified Washington official as saying: "It is an extraordinary situation." The correspondent added that after the Anglo-American talks the Canadian War Cabinet and Chiefs of Staff will have a separate conference with British experts.



ALLIES NOW PROBING SIEGFRIED LINE: This is one of the few pictures of the Siegfried Line permitted out of Germany before Hitler plunged the world into war. It shows a small part of the anti-tank defences of the great system of fortifications known as the Siegfried Line, or the West Wall, which Hitler boasts are impregnable. These tank barriers the Germans call "gravestones of tanks", the implication being that no tank could crash through such a barrier.

Hurricane Blasts Atlantic Coast

Freighter Swept Ashore; Big Waves Split Famous Atlantic City Pier

By The Canadian Press

Winds up to 90 miles an hour battered the Atlantic Coast last night as a severe hurricane sped towards New England, forced many seaside residents to flee for safety, dashed a 250-foot freighter on the shore and caused widespread damage.

The freighter Thomas Tracy, driven aground at Rehoboth Beach, Del., broke in two under a lashing by huge waves within an hour after Coastguardsmen rescued her crew of 31 men.

A report received by the Philadelphia Record said the mountainous waves split in half the famous steel pier at Atlantic City.

The 90-mile-an-hour reading of wind velocity was recorded at the Coastguard Station at Manasquan, N.J., about eight miles South of the resort city of Asbury Park.

Winds as high as 83 miles an hour were recorded on the Virginia coast.

Water five to six feet deep from the heavy rains blocked highways in the vicinity of Hicksville, N.Y., a Long Island community in an area hard hit by the hurricane of 1938.

Hundreds of automobiles were stalled along the Jericho Turpike on the Northern coast of Long Island and elsewhere.

The Weather Bureau reported an advisory warning that the storm centre would be expected to pass Eastern Long Island and enter Southern New England.

The hurricane warnings were lowered from Delaware breakwater to Norfolk, Va.

Reported breaks in the Long Island railroad signal system caused delay in keeping trains moving.

Ferry operations between New York and Hoboken, N.J., were suspended because docks were covered with two feet of water.

Beaches along the Southern shore of Long Island, including such resorts as Southampton, were evacuated.

In New York city sidewalks were virtually deserted. Winds whipping sheets of rain around the corners of tall buildings smashed plate glass windows.

NEWARK, N.J., Sept. 14 (AP)—The Atlantic hurricane sideswiped New Jersey tonight with gale-like winds, driving rain and storm tides bringing floods, power and light black-outs and transportation paralysis centring on Atlantic City, where one man was killed and 50 others injured.

The racing storm cut the famed ocean resort off from traffic communication with the outside world, swept sections of the Margate Boardwalk for distances up to 100 yards, demolished a small pier and slightly damaged the great million-dollar steel pier.

BOSTON, Sept. 14 (AP) — The Rhode Island seacoast town of Westerly reported 70-mile winds at 8.30 p.m. tonight as an Atlantic hurricane raced toward Southern New England.

At Wickford, up Narragansett Bay, wind velocity had reached 60 miles an hour and was whipping up the sea all along the bay.

Shortly after 8 p.m. more than 5000 State Guardsmen were stationed along the 17-mile stretch of Massachusetts coast and units throughout the State were alerted.

Home owners in Southeastern Massachusetts were notified by Guardsmen to prepare to evacuate on short notice.

Warn Patriots Not to Throw Flowers and Fruit

LONDON, Sept. 14 (CP)—A warning to the Netherlands people not to throw flowers, fruit and other offerings at Allied troops was broadcast today by Radio Orange, Free Netherlands station, the Netherlands News Agency reported. The broadcaster explained there had been several cases in which enemies and traitors had use dthe population's demonstrations to conceal explosives in flowers and fruit thrown at Allied troops.

BLOCKBUSTER: This unusual photo was taken by a cameraman of the RAF film production unit showing a 4000-pound blockbuster and a smaller bomb just after they were released from the aircraft during an RAF Bomber Command attack on July 25, over the Luftwaffe equipment depot at St. Cyr, France.

8th Breaks Stalemate on Adriatic Front

ROME, Sept. 14 (CP)—Field Marshal Gen. Albert Kesselring was officially reported throwing the combined weight of all his arms into battle tonight in an effort to hold the Gothic Line against the British 8th and Allied 5th Armies.

This report came after an announcement today that British, Canadian and Indian elements of the 8th Army broke a stalemate which halted their advance on the Adriatic front for several days when they advanced 1000 yards in the Coriano-San Savino area, six to 10 miles South of the Adriatic port of Rimini.

The 5th Army, which includes several fresh British divisions as well as American formations, meanwhile struck heavily at the great barrier before the Po Valley and Italy's industrial heart, trampling over enemy outposts on a 25-mile front from Pistoia to Lucca, Northwest of Florence.

Eleven German divisions were reported opposite the 8th Army on the front running Eastward from Florence to the Adriatic while the Germans had eight divisions facing the 5th Army.

German resistance was officially described as "increasing tremendously."

Fierce fighting continued in the Gemmano sector about 4½ miles South of Coriano British and Canadian troops in their 1000-yard advance used flame-throwers against dug-in tanks and opposition was described as heavy.

WARSAW SUBURB OF PRAGA TAKEN BY RUSS

Red Army Scouts May Have Crossed Into Slovakia

BUDAPEST BOMBED

By W. W. HERCHER
Associated Press Staff Writer

LONDON, Sept. 14 (AP)—Russian and Polish troops today captured Warsaw's industrial suburb of Praga on the East bank of the Vistula River, just across the 450-yard stream from the great Polish capital which the Germans seized after the 20-day siege in the first months of the war five years ago.

Mashal Konstantin K. Rokossovsky's 1st White Russian Army troops and Lt.-Gen. Igmund Berling's 1st Polish Army crashed into the city and reduced the German garrison after a day-long street battle.

Russian and Polish troops already hold bridgeheads across the Vistula 25 and 100 miles South of Warsaw, and the coming decision in the German-Russian part of the war is expected to be fought soon on the 150-mile strip of plains between that River and the Oder River in Germany.

The capture of Praga, 325 airline miles from Berlin, coincided with these important developments:

Another Russian Army was reported within 15 miles of Southern East Prussia, fighting along the Narew River near captured Lomza, 75 miles Northeast of Warsaw; in the South Red scouts were believed to have crossed from Poland into Slovakia; pro-Allied Romanian detachments were fighting in Western Romania within 135 miles of Budapest, Hungarian capital; Marshal Tito's Partisans had made a junction with the Red Army in Yugoslavia, and Berlin said other Soviet units had crossed into Greece from Bulgaria.

24 Air Veterans Among 27 Killed in Wreck

TERRE HAUTE, Ind., Sept. 14 (AP)—Twenty-four Air Force veterans who had completed up to 50 missions in overseas cambat were among 27 persons killed early today in a head-on collision of a passenger train and an express train on a single track three miles North of here. About 40 others, including 15 more Air Force veterans, were injured.

The soldiers, who had just completed 30-day furloughs, were enroute to a redistribution centre in Florida. They occupied the first three Pullman cars of the 14-coach Chicago and Eastern Illinois Dixie Flyer, which crashed into an express and mail train found from Florida to Chicago. The express carried no passengers.

The trains crashed at 2:20 a.m. C.D.T. in a heavy fog which enveloped the scene of death and destruction and hindered rescuers trying to locate the cries of the injured. Unhurt passengers helped volunteers pull the dead and injured from the wreckage. One of the dead was a member of the Women's Army Corps.

The engineer on the Dixie Flyer, Frank T. Blair, 52, of Farmersburg, Ind., died at noon of scalds and burns.

Lewis Rause of Evansville, Ind., fireman of the Flyer, was killed in the crash.

Tanks and Troops Pour Across Line

Canucks Fighting Fiercely to Hold Crossing on Leopold North of Bruge

LONDON, Sept. 14 (CP)—The American 1st Army opened a full-scale assault on the great Siegfried Line citadel of Aachen today, driving to within a mile of the city from the South, and poured tanks and infantry across the German frontier at a number of points in a general offensive extending Southward more than 90 miles.

Aachen, an important industrial city as well as a gateway to the Nazis' prized Ruhr and Rhineland regions, was already partially ringed from the West as well as the South as American armor plowed through tank traps and pill boxes and rolled through half a dozen outlying villages to close in on the border bastion.

Allied reconnaissance fliers returning to U.S. 9th Air Force Headquarters in France reported sighting American vehicles 16 miles inside the German border at one point, not immediately identified.

The 1st Army in closing in to Aachen captured Hergenrath and Gemmenich, Belgian border towns three miles South and three miles Southwest of Aachen, respectively, and seized the Nazi village of Forstebach two miles inside the border and five miles South of Aachen.

The Germans disclosed the penetration of their homeland, announcing that "with the largest array of forces" at Aachen the invaders had "succeeded in penetrating forefield positions of the Westwall at two points."

Field dispatches described German opposition as still surprisingly light in the Aachen area, with some forts in the Siegfried Line not even manned, but the thin Nazi forces opposing the invasion Northwest of Triar fought fanatically and had to be blasted to pieces, bunker by bunker and pillbox by pillbox. German villages were burned to the ground to route their suicide defenders.

American troops had a big advantage in firepower, at some points literally pulverizing with tanks and artillery sections of the Siegfried Line manned by Germans dependent upon rifles and machine-guns.

The United States 3rd Army continued to slash East and North from its half-dozen bridgeheads across the Moselle River near Nancy in Northern France.

Third Army troops occupied Mirecourt, 25 miles South of Nancy and 10 miles Southwest of Charmes, where the Americans threw another bridgehead across the Moselle.

Fighting edged closer to the serpentine Moselle West of Metz and in Thionville to the North, late front dispatches said. American infantrymen pushed East of Pont-a-Mousson.

Southward 40 miles the Americans made a new penetration of Germany, driving into Nazi territory some eight miles at a point Northwest of Prum. This is 60 miles North of Trier, near where the first invasion of Germany was made, and 40 miles West of Coblenz on a main road to that important city.

Near Trier, at the Southern end of this 90-mile invasion sector, American infantrymen and tanks fought into the Siegfried Line for a depth of two miles and widened their breach through thinly-manned and lightly-armed fortifications.

Headquarters announced a new crossing of the Netherlands frontier near Masstricht, 15 miles North of Liege, but did not say whether it was by British or American troops.

Canadian infantry advancing along the Northern coast of Belgium were reported fighting fiercely to hold a crossing of the 30-foot wide Leopold Canal they made Wednesday night at Koerkerke, five miles Northeast of Brugge (Bruges). They were under heavy enemy fire

The Canadians were fighting difficult going through country which had been flooded by the Nazis. Their tanks were confined to the roads, where they made easy targets for enemy anti-tank guns.

There was no further word of progress by the 1st Canadian Army against the besieged enemy garrisons at Boulogne, Calais and Dunkerque.

The British 2nd Army was pushing the Germans back from the Leopold onto the Schelde Canal. Some Nazis were believed to be trapped between the two waterways as they prematurely blew up many bridges over the Schelde, and the only one left standing was in Allied hands.

Entire Gestapo May Have to Stand Trial

WASHINGTON, Sept. 14 (AP)—The Allied policy for political and economical reform in Germany will be developed fully only after complete military occupation of the country, and then to a large extent on a trial-and-error basis, but it is probable the entire Gestapo may be brought to trial for war crimes.

With Allied armies driving on to German soil, it was learned today that the Allies are agreed only on certain fundamentals of post-victory policy in Germany, including:

1. Complete military occupation of all German territory.

2. Destruction of the Nazi party and organization.

3. Arrest of German leaders and functionaries, including probably all members of the Gestapo, to be held for trial for war crimes.

Beyond these points, planning was said to have been hampered by two major factors—ignorance of the nature and extent of hostility to the Nazis inside Germany, and Russia's fear of being caught in a "squeeze play" through an Anglo-American agreement which might set up resistance to Soviet influence and interests in Germany and all central Europe

The first of these two, it was suggested, can be remedied only after the Allied armies have taken possession of Germany and by observation of spontaneous developments within Germany have been able to assess the potentialities of political rehabilitation of the people.

The second factor Russian fear or suspicion—was described as being simpler to handle, although it is of equal or perhaps greater importance to the hope of permanent peace in Europe. The United States government's view was said to be that, for the immediate future at least and for the long run probably, complete and wholehearted Russian cooperation was the absolute essential.

So far as the military occupation of Germany is concerned, it is expected to follow in general the basis established in Italy, but will be far stricter and endure for a much longer time.

Export Trade Should Hit High in 1944

LETHBRIDGE, Alta., Sept. 14 (CP)—Value of Canada's export trade for 1944 should be "considerably in excess of $3,000,000,000—a level which far outstrips any previous year in the history of Canadian commerce, Trade Minister MacKinnon announced tonight.

Mr. MacKinnon said that during the first eight months of 1944 Canada's exports were valued at $2,282,000,000 compared with $1,874,000,000 in the corresponding period of 1943, an increas of $408,000,000,000 or about 22 per cent.

The exports included huge supplies of munitions, foods, clothing and some other needs for the rehabilitation of areas freed from Nazi domination.

The exports averaged approximately $285,250,000 a month, Mr. MacKinnon said.

U.S. Casualties Total 389,125

WASHINGTON, Sept. 14 (AP)—Officially announced casualties among the United States fighting forces have reached a total of 389,125.

War Secretary Stimson said today that army casualties for all theatres through Aug. 29, based on reports to next of kin, total 327,616, an increase of 21,821 from the total given a week ago. The latest navy casualty list reports 61,509, an increase of 1545.

Latest available figures show that Canadian armed services have suffered 50,162 casualties.

The army suffered 33,239 casualties from the start of the war up to July 31. The total was made up of 9501 killed in action, 287 presumed dead, 1308 missing, 3800 prisoners of war and internees and 18,343 wounded.

The R.C.A.F. casualties up to June 30 totalled 15,209, including 9475 killed in action, 3250 missing, 1626 prisoners of war and internees and 858 wounded.

Up to June 26, the navy casualties totalled 1714, including 1159 killed in action, 335 missing, eight prisoners of war and 212 wounded.

Churchill Wasn't Seasick at All

QUEBEC, Sept. 14 (CP) — Take the word of an official spokesman for it and Prime Minister Churchill wasn't seasick at all on his voyage to Canada for the Quebec conference—has never been seasick in his life.

That story about him telling President Roosevelt he had three days of seasickness was all a mistake, the spokesman told a press conference. Old countrymen who knew Mr. Churchill was the "best sailor we've got" had been alarmed to hear he had told Mr. Roosevelt on his arrival here that he had been sick three days on the way over.

What he really said was that for three days he had been "frightfully hot," not "frightfully sick," the spokesman said.

Vocational Training Plan for Returned Service Men, Women, Explained to Legion

Cooperation of the Canadian Legion in dealing with cases of men and women discharged from the Armed Forces who wish to take advantage of vocational training under the Federal Post-Discharge Order, was sought by Col. F. T. Fairey of Victoria, Regional Director for Canadian Vocational Training, in a discussion held at the Canadian Legion Thursday night. Col. Fairey was accompanied by G. A. Mundie of Vancouver, Field Officer.

The Vocational Training Plan was a continuation of similar work done for war industry when there was a great need of workers and for the Army and Air Force when need for tradesmen arose, Col Fairey said. The organization with its trained staffs and some equipment now operated under the Department of Labor and the Department of Education. Previously it had been under control of the Department of Pensions and National Health.

With the prospect of more service members returning, it had been decided to have committees set up in the larger centres of the Province so as to have a point of contact in each centre for them, and to reduce delay in dealing with cases.

Training in home localities to prevent crowding of applicants for training into big centres, was an objective. Measures put into effect for the benefit of the discharged were not rewards for service, he stressed. The Post-Discharge Order was made to help discharged members to readjust themselves in civilian life. A large proportion was expected to apply for the benefits. Many had gone to war right from school, had never worked and would find it difficult to settle down to civilian life.

TURN TO LEGION

Those returning who sought benefit of some kind would more than likely seek information from the Canadian Legion first, he said. For this reason his organization was keeping in touch with the Legion, and it was hoped that the Legion would add interested local people to its strength in this work. Those seeking these benefits contacted the Pensions and Health Department through the Welfare Officer, Col. M. T. Molson of Vancouver. It was the Department's intention as the work grew to place Welfare Officers in strategic centres. If the need here was large, then one would be placed in this District.

The whole purpose of the plan was for the orderly reestablishment into civil life of all persons who had served in the forces, including both home defence and active forces.

FIVE BENEFIT BRANCHES

First under the five branches of benefits was the person coming back from the war who already was trained and expected to return to a job. Training was not required. For these persons, it was intended to have placed in employment offices all over Canada a "placement officer". This official would look solely after the interests of the trained applicant, and see that he or she was placed in a good job paying adequate wages.

If a job was not available for a time, an out-of-work benefit could be applied for. Sitting every day in Shaughnessy Hospital were vocational guidance officers who dealt with the applications. These officers had files giving complete details on applicants and a medical officer also studied each case so as to prevent applicants going into jobs that might cause further injury to those having something of this nature. If the application was approved, a recommendation would be sent out setting a period of time in which out-of-work benefits would be received, an allowance to keep the person alive. If at the end of the time a job was still unavailable, the benefits could be extended.

Benefits in all cases were effective for the period of service, but not exceeding one year, except in certain cases.

VOCATIONAL TRAINING

The second benefit dealt with vocational training, which was in his charge. This benefit was designated for those who come back, who before the war had perhaps left school early and gone to work and now wanted better jobs than they had before the war. Perhaps they had been in technical units in the forces giving them the ambition to seek a better job.

Applications of these persons go before a rehabilitation committee which also has complete files on service people. The applicant eventually is interviewed by Field Officers of the vocational training branch and the whole matter talked over. If the applicant has chosen wisely, and there is a reasonable chance for employment in the training chosen, then the trailing will be given.

A recommendation may not be given for training, and an alternative suggested. The decision is left to the applicant, the whole interview being a matter of agreement. If trained at the end of the period required, then the applicant is placed in a job, but training time can be extended if necessary. The 12-month maximum applies here also, however.

A medical man must also agree on the recommendation. Sometimes a disability will not allow an applicant to work safely at the occupation he has chosen.

TRAINED IN INDUSTRY

There were three means of training. One was to put the applicant into a vocational or technical school. In a second instance, authority had been given Col. Fairey to use any privately owned or commercial school in which an applicant could be placed for training. The day might come when schools would be set up for this purpose. The third, which he hoped would be used most, was that of training right in the industries. Many were already being trained today in this manner in a wide variety of jobs by people who had been asked to do the training for the vocational branch.

Part of the pay that went to those being trained in this manner was reimbursed by the Government. The trainees were put on the payroll of the people training them. Under contracts that were made out by Field Officers, it was stipulated that the trainee receive living wages. Pay for the work that was done must be received. The sum was usually small at first, but grew as training progressed and the amount reimbursed by the Government was gradually reduced.

Field Officers saw to it that the applicant was properly trained and watched the trainee to see that he does his part. If the training is not adequate, then he is withdrawn and put into some other industry.

The third branch was that termed "awaiting return from an enterprise." This meant that a man who wanted to start a small business, but had no money, could receive assistance. Application would be made to the Board, which would send out an official to examine the situation and make report on the chances of success of the business. Money was granted to genuine cases, with the maximum 12-month period again applying. If the man had received benefits for two months, and still was not making a success of it, the case would be re-examined and a new benefit payment supplied. If it was found to be hopeless, the man would be advised to try something else.

Fourth branch dealt with the man who has a job, then suddenly becomes incapacitated. Benefit during temporary incapacity would be given for a short term.

The fifth branch was the "interrupted education benefit." Under this benefit, any applicant wishing to continue studies at Universities was assisted. Any fee charged by the university was paid. During the Summer vacation period, benefits ceased and the applicant was expected to look after himself. His progress was studied by officials and he had to take full advantage of his opportunity.

The benefit also reached out to those who had their matriculation and had intended to go to university, until the war interrupted their studies. Any discharged person who within 15 months of discharge could prepare himself for university training would be assisted in the same manner.

Coming under the coverage also were those wishing to go to Normal school; those who sought to go back to high school to continue higher education, and those who wished to complete high school for purpose of acquiring matriculation to fit them for specific jobs.

He summarized allowances under these benefits as follows:

For Benefits 1, 3 and 4: $50 a month for single person; $70 for a married person, with the usual $12, $12, 10, $8, $8, $8, allowance for children.

For Benefits 2 and 5: $60 single; $80 married, and the same allowance for children.

Closing he again urged the Legion to cooperate with the Board. Mr. Mundie, he said, would visit the district until such time as a Field Officer was named when the flow of returned forces became greater and the work too arduous for the Legion to handle.

THE TASTE TEST TELLS

Mix a drink with tap water—or ordinary "soda." Then mix another with Canada Dry's Sparkling Water. You'll be amazed at the difference in taste!

"BANNERS IN THE DUST"

BABY'S CONSTIPATION SERIOUS IF NEGLECTED

BABY'S daily movements are something of which absolutely accurate track must be kept. When he misses, something must be done at once. Constipation is serious for baby.

Mrs. John T. Reid of Hespeler, Ont., has this to say: "Having had seven children and having used Baby's Own Tablets for all seven can say they are the best and gentlest regulator for children. During teething Baby's Own Tablets were a boon to me as they cleared up at once any digestive disturbance or fretfulness.

Equally effective for simple fever, teething troubles, upset stomach and other minor ailments of babyhood.

Quick in their action. Sweet-tasting—easily crushed to a powder, if desired. No "sleepy stuff"—no dulling effect. Get a box today. Sickness so often strikes in the night. 25 cents. Money back if not satisfied.

INVERMERE

INVERMERE, B. C.—Mr. and Mrs. Frank Staples of Creston were weekend visitors to the valley. They were accompanied by Mr. and Mrs. T. A. Moore and Mrs. R. Inglis of Cranbrook.

BOEING CHIEF DIES ENROUTE TO SEATTLE

WICHITA, Kas., Sept. 14 (AP)—Philip G. Johnson, 50-year-old President of the Boeing Aircraft Company of Seattle, Wash., died here today. Stopping here on a routine visit with local Boeing officials while en route to Seattle from the East, Johnson suffered a stroke Tuesday night.

LONDON—For the first time during this war, figures have been collected and published on the actual hours worked by almost all types of industrial workers in Britain. The survey was undertaken for the first pay week of July 1943, and the results published in the Ministry of Labor Gazette for February, 1944. It is shown that for the occupations covered the average for men of 21 years and over was 52.9 hours a week; for women of 18 years and over, 45.9; for youths, 14-20, 48; and for girls 14-17, 45.1. The average for all workers was 50 hours a week.

L. B. Duff, Noted Speaker, Writer, Tells of U.S., Russia as Partners

"From various sources we hear claims that free enterprise is decadent, diseased and done, and it is well to recognize now the elemental forces that may be crammed in the collection of converging currents to spell its doom," warned L. Blake Duff, noted speaker, author and historian of Ontario, who addressed a public meeting at the Capitol Theatre Thursday evening. The death of free enterprise would be the birth of slavery, said Mr. Duff, who is a former Welland, Ont., newspaper editor.

"My faith stands on this. Free enterprise broke the sod and tilled the soil, and built the West with its cities and colleges. It wrote every book on your shelves, painted every picture on your walls," said the speaker. Free enterprise was the axe and the spade, the pen and the brush of free men.

In a naddress that though serious was punctuated with humorous references to present and proposed legislation, Mr. Duff delighted a good audience with the brilliance of his talk. In a reference to the peace time program, and who should carry it on, Mr. Duff said: "It has been intimated that the present Liberal government will be too weary from the ardors of the war years to be able to maintain the burdens of the peace years. Well, if that is so, I know of a number of exceedingly well rested gentlemen who are willing to take a try at it."

Talking of the "baby bonus" bill he said the idea was originally thought up by Mussolini. New Zealand adopted it, and Canada, fearing the competition, took it up. He said it had some advantages, because a person did not have to spend the bonus on the children. Mr. Duff good naturedly poked fun at the manner in which the bill would work, and said that if ever he should be in parliament he would try for an amendment whereby persons with grown-up families could get back payments.

LET CANADA BE PREPARED

"We are assailed by a shower of after-the-war ideas. Let us get ready for them in the right way," he said.

"If you defend bureaucracy, then it is because you yourself long to be a bureaucrat, that you may wield power over a defenseless folk." he remarked.

Dealing humorously with wartime regulations, he cited instances in both Canada and the United States which were packed with irony.

Canada was a sleeping giant, but it had been roused. It had taken its place among the nations of the world. It was the fifth air power, the third sea power in the United Nations, the third world trading nation, and the fourth of all the nations in the making of war supplies. "As a grown-up, we have been doing, and will do the war job. As a grown-up, let us do the peace job," he pointedly observed.

Mr. Duff said that Canadians would have to be strong and vigilant in their external policies. They had not been always so. Unity among the nations was paramount, and he hoped that Canada would live up to the stature it had gained in war.

In his opening remarks, he referred to the fact, that in addition to the influence which the United States exerts as a close neighbor, Russia would play a big part as a neighbor in the time of peace. He said that a sense of gratitude for what Russia had done in the war, if nothing else, would bring Canada and Russia closer together.

Mr. Duff, who was introduced by G. A. Hoover, president of the Nelson Board of Trade, spoke of the beauty of the charming valley in which Nelson was situated. He also said he couldn't have come at a better time, for now a great load had been lifted off the shoulders of the people of the United Nations as the pincer movement closes in Europe.

Mr. Duff also spoke over Station CKLN on Thursday afternoon.

Rossland Social

By MRS F. G. BRAY

ROSSLAND, B. C., Sept. 14—PO Craig Ross of Maitland, N. S., arrived Sunday to visit his wife and family.

Petty Officer Richard Dickinson, RCNVR, Victoria, who is visiting his mother, in Trail, is renewing acquaintance here also.

Mrs. Sam Churchill and daughter-in-law, Mrs. Winston Churchill were the guests of Mrs. W. E. Warner of Slocan City over the weekend, returned home Monday evening.

PO. Cameron McKenzie, RCAF, is visiting Mrs. W. A. Turner, en route from Vancouver to Pearce, Alta., where he is stationed.

Mrs. C. A. Hanson, left Sunday, on an extended trip, visiting at Creston, then at American points in Idaho and Washington.

Mr. and Mrs. Jack Longstaff, who have been visiting Mrs. Longstaff's parents, Mr. and Mrs. William Cunningham, left Monday to return to their home in Inyokeran, Calif. They were accompanied as far as Spokane, by Mrs. Cunningham and their son, Derrick Longstaff.

Bill Evans returned Tuesday from West Summerland.

Miss Mary Jane Walker of Seattle is visiting her parents, Mr. and Mrs. Leslie Walker.

Mr. and Mrs. Alec Pollock left Wednesday to visit in Spokane.

Harvey Fleury has returned from Nelson.

Mr. and Mrs. Hans Osing of Kimberley accompanied by Mr. and Mrs. Justead and small daughter of Cranbrook arrived Monday to visit Mr. Osing's mother, Mrs. Albert Osing and other relatives.

Mrs. Kenneth McGuir arrived Tuesday from Vancouver to visit with her brother-in-law and sister, Mr. and Mrs. Wallace Hocking. Mrs. McGuire is enroute to Calgary after visiting her parents, Mr. and Mrs. Henry Metzgar, in Vancouver.

Pioneer Circle of St. Andrew's United Church held its first Fall meeting Monday evening at the home of Mrs. C. Bradshaw. The President, Mrs. R. Eccles was in the chair. A short devotional period was conducted by Mrs. Eccles, followed by a report of the last executive meeting, and a detail account of the expenses of repairing the manse. Mrs. Eccles and Miss M. Wilkie were unanimously reelected as President and Vice-President of the Circle for the ensuing year. Mrs. E. Jamieson was elected Secretary-Treasurer. Plans were discussed for the coming year. Refreshments were served by the hostess. Those present were: Mrs. George Bishop, Mrs. R. Eccles, Mrs. J. Shearer, Mrs. J. Gordon, Mrs. E. Jamieson, Miss M. Wilkie and Mrs. Bradshaw.

Government Square Circle of St. Andrew's church held its first Fall meeting Tuesday evening at the home of Mrs. Jack Henderson. Plans were made to hold a rummage sale later this month.

Mrs. Johnston, was welcomed as a new member. Refreshments were served by the hostess, assisted by Mrs Swanson. Those attending were Mrs. R. T. Fraser, Mrs. Freeman, Mrs. Hedley, Mrs. Joss, Mrs. H Lefevre, Mrs. Morin, Mrs. Nora Mrs. Swanson, Mrs. Urquhart, Mrs Clegg, Mrs. H. K. Johnston and Mrs. Henderson.

FAREWELL TO BACKACHE!

Her back ached—she felt miserable—no pep—she couldn't be "bothered" to go out—lost contact with her friends and was lonely. Her sister advised her to take Dodd's Kidney Pills. Her backache soon vanished—enthusiasm and energy returned—her eyes sparkled—her step was sprightly—and once again she was her "old self." 115

Say GOODBYE TO BACKACHE with Dodd's Kidney Pills

DIGESTION OFF? Jittery? Pepless?
—Your Nerves May Need Feeding

Every act—every movement of your body, no matter how small, is controlled by nerves. When nerves lack nourishment, every function of your body may suffer . . . digestion . . . bowels . . . muscles. You may sleep poorly, feel depressed, physically and nervously exhausted.

An impoverished blood condition due to lack of sufficient iron is often accompanied by nervousness, for nerves may thus fail to get their proper nourishment. So if you are nervous, rundown, pepless and tired with sluggish digestion and bowels because of this condition try Dr. Williams Pink Pills. They not only help build up the blood but they supply Vitamin B-1 which contributes to the normal functioning of the nervous system and the digestive tract. Then see what a difference your improved blood condition may make, not only in your energy and strength but in your nerves, digestion and bowel action. Get Dr. Williams Pink Pills today from your druggist.

Peace Rioters Shot in Berlin

LONDON, Sept. 14 (AP).—Heinrich Himmler, German dictator of the home front, tightened the lid on bomb-blasted Berlin with a reshuffled police command tonight a few hours after the French radio had reported peace riots there in which SS troops fired on the demonstrators.

Himmler named Kurt Goehrum, an SS group leader and Lieutenant General of Police, as Supreme Police Commandant for Berlin.

The SS brigade leader, Maj. Gen. of Police Erik von Heimbur, was named new Commandant of Berlin Security Police. He replaced Otto Klinger, an SS group leader and Lt. Gen, of Police, who was announced as pensioned.

Reports of troubles within the beleaguered Reich increased, meanwhile. The Moscow radio said thousands of foreign workers were escaping from German and Austrian warplants seeking to reach Yugoslavia and cross the Swiss border in response to Gen. Dwight D. Eisenhower's advice to quit their war machines.

The radio of the French Forces of the Interior at Lyon first reported the peace clashes in Berlin.

The broadcast did not indicate the source of the report and there was no information from other quarters.

A similar report, however, was broadcast later by the French National Radio at Lyon, the Ministry of Information said.

The United States Office of War Information quoted the Lyon radio as saying that "riots are reported to have taken place in Berlin," and added: "During one fight a small group of rebels routed an SS formation and went back into hiding before the arrival of police reinforcements."

ALWAYS DEPENDABLE AIRTIGHT WRAPPER ENSURES STRENGTH

"Tell My Wife I'm Okay" Radios "Missing" Fighter Pilot

By ALAN RANDAL
Canadian Press Staff Writer

LONDON, Sept. 14 (CP Cable).—Four months ago Wing Cmdr. Robert T. P. Davidson, D.F.C., of Vancouver was officially posted as "missing." Today he is safe in England after masquerading in France as a beret-wearing peasant, helping the Maquis in their sabotage of the German occupation forces and secretly studying the launching of flying bombs at their coastal sites.

The 27-year-old Wing Commander was flying with an R.A.F, Typhoon dive-bomber squadron May 8 when flak forced him to crash-land in France. He dashed away from his plane as soon as it landed because the engine was on fire and he feared the bomb load might go up. A moment later the fire seemed to go out so he ran back to the aircraft and over his radio called to his squadron mates in the sky above: "Tell my wife I am okay."

Then he sprinted into a wheatfield and disappeared—for four months.

As he hid in the field German soldiers hunted through a nearby woods for him. Davidson said today: "I heard a German officer give the order to shoot me on sight. Later they brought hounds to the spot and attempted to put them on my trail, but the wonderful French people came to my aid. They milled all around the aircraft and so confused the dogs that it was impossible for them to pick up my scent."

A French partisan working in the wheatfield that day indicated to Davidson that he was a friend. Several hours later when darkness fell and the Germans moved off the Frenchman led the young pilot to a farmhouse where he was fitted up with the shabby clothes of a French peasant, a beret and false identity papers.

The papers described him as a "specialist carpenter." Under the coaching of the French, Davidson's rudimentary knowledge of the language quickly improved.

For a few weeks Davidson hid in barns and pig-sties. From Frenchmen who worked in the vicinity of flying-bomb sites he gathered detailed material, including drawing plans, of Hitler's secret weapon. The Air Ministry now has this information and among the facts that Davidson was able to pass on was one, since confirmed by others, that 15 per cent of the robots crashed on take-off.

For some weeks Davidson mixed with the F.F.I. He joined them in cutting telephone wires, raiding guard posts, stringing rope across highways to trap dispatch riders, stealing guns and documents and blowing up bridges and military installations.

"We used to go out at night and slip past German patrols," he said. "We'd steal explosives and carry them away in sacks. Two or three days later a bridge would very mysteriously blow up."

Once when he was lunching at a farmhouse a German entered and sat down. By this time Davidson was very French and the Nazi shared the meal with an R.A.F. officer without realizing it.

"Just two weeks ago," Davidson said today, "I was in a town awaiting the advance of our troops and the Germans issued instructions to their troops to shoot anyone appearing on the streets. I was in an upstairs room of a house and saw a child in the street. Its mother ran after the kid without thinking. A shot rang out and she dropped in a heap on the road near the child.

"A Hun ran out from another doorway to where she lay wounded. She got on her knees and pleaded for mercy, with her hands clasped as if she were praying. The Hun simply finished her off with a bayonet. Then he killed the child. I saw it myself."

Davidson has been in the R.A.F. for seven years and has flown against the Japanese from Ceylon and against the Germans and their satellites from Greece, Crete, Norway, North Africa and France.

He came home from France with 4000 francs in his pocket. When asked where he obtained the money, he grinned and said: "You see, I taught some of my French friends to play poker."

GOV'T "PREVAILING RATE" WAGES BEING REVISED

OTTAWA, Sept. 14 (CP).—Wages paid "prevailing rate" Government employees across Canada, most of them engaged in construction work, have been reviewed and in many cases are being adjusted, to bring them into line with rates paid in the community in which the employees are working, Labor Department officials said today.

Under the Government's fair-wage plan, workers employed on Government projects of a temporary nature are usually placed on a "prevailing rate" basis, which means they are to receive the going rate for their type of job in the area.

Differences in the method of computing the cost-of-living bonus for Government employees and for workers in private industry have been one of the factors that has put the wages of these workers in many cases out of line with those generally paid.

"In the majority of cases the workers affected by the revisions will receive increases," an official said today. "There will, however, be some cuts."

The workers are employed by a large number of departments and there was no estimate available of the number affected.

Awaits Trial on Five Charges Rape

VANCOUVER, Sept. 14 (CP).—Alfred LaPlante, 36, today awaited trial on five charges of rape, five of burglary with intent to commit rape, three of robbery with violence, one of carrying an offensive weapon, one of possessing burglar tools, one of attempted robbery with violence, one of burglary and one of theft of a gun.

LaPlante was committed for trial on the charges after preliminary hearings in Police Court yesterday before Magistrate H. S. Wood. The Crown entered stays of proceedings on charges of indecent assault and of retaining stolen property.

On the witness stand five women identified LaPlante as the man who had assaulted them in their homes, testifying they had been awakened in their homes in the early morning hours and under threats of a knife or gun forced to submit to the attacker. The offences occurred in Vancouver East End homes from April to August this year, according to testimony.

LaPlante, unrepresented by counsel, declined all offers of the court to examine witnesses. Two detectives submitted a two-page statement in which LaPlante admitted his guilt on one charge.

Winnipeg Cameraman Killed in Italy

WINNIPEG, Sept. 14 (CP).—Capt. George A. Riley, 27, son of Lt.-Col. C. S. Riley of Winnipeg, was killed in Italy Sept. 5, it was learned here today.

Capt. Riley, prominent cameraman, a member of the Winnipeg Rowing Club, went overseas two years ago with the Royal Canadian Artillery.

KINGSTON, Jamaica (CP) — Sir John Huggins, Governor of Jamaica, has announced his intention of setting up a commission to make an economic survey of the colony.

$1800 A YEAR FOR UNITED CHURCH MINISTERS

LONDON, Ont., Sept. 14 (CP).—The 11th General Council of the United Church of Canada today voted that all ministers receive a minimum of $1800 a year. Council also decided that if a congregation could not finance this amount, the needed sum should be taken from the missionary and maintenance fund of the United Church.

Forty-six per cent of United Church ministers are affected by today's decision it was announced.

Rev. Thomas Bray, of Tuxford, Sask., Secretary of the Committee on Ministerial Stipends, criticized the Council for allocating large sums of money for radio, advertising, colored films and other equipment and then "distributing what money is left among the ministers."

"The church is suffering because its ministers are inadequately supported," he said. "We have been trying to settle the world's problems in these last few days. As a church we are supposed to have a keen sense of social justice.

"We are in danger of losing that sense of justice if we don't do something about our own ministers. We are afraid to face the issue. A church which can take young men and say to them: 'If you can go to charges in the West and stand them for a few years, you can come back and we'll try to do something for you,' is lacking in justice.

"We've had a change of government in Saskatchewan . . . and some say it is Socialist. I am not going to say anything about it. But I do know that we at least have succeeded in keeping Socialism out of the church."

A committee will be set up by general council to study ways of assuring an adequate stipend for all active ministers. This committee will report to the next general council.

B.C. Salmon Pack 854,366 Cases, Sept.

VANCOUVER, Sept. 14 (CP).—Total canned salmon pack from British Columbia's three fishing districts for the week ended Sept. 9 was 854,366 cases, it was announced today in a report from the chief supervisor of fisheries. The pack in the corresponding period last year was 911,133 cases.

Germans Evacuating Rhodes Reports Say

ISTANBUL, Sept. 14 (AP)—Reports reaching here today indicated the Germans were evacuating the Island of Rhodes, largest in the Dodecanese group. The Nazis were estimated to have more than a division on the island. Germans on the Greek mainland appeared to be concentrated at Salonika and Larissa, the reports added.

SYDNEY, Australia (CP) — Airbags used by United States Navy personnel brought from the depths of Sydney Harbor the tug Hero, sunk three years ago in a collision. The Hero had been used in the harbor for 57 years.

Tells Wife to Have Faith in Her Husband

By BEATRICE FAIRFAX

Dear Miss Fairfax:

My husband and I have been married three years, and I know he loves me. He's now in the service overseas. In his last letter he tells me he is going around with a married woman. He says it's with her husband's permission. They've invited him into their home, and if the husband can't go, he asks my husband to take his wife to dances and such.

Do I have any cause to worry? You know that's the way things get started. I love my husband very much, and wouldn't want him to fall in love with another woman. What do you advise I write him? I don't want to say something foolish.

—M. F.

As you say, that's the way things get started. But in a good many cases they don't go any farther, and the fact that this woman's husband suggests that his wife go to dances with your husband when he's not available makes the situation seem harmless.

Of course, you wouldn't want your husband to fall in love with another woman, and the best thing you can do is to have faith and believe it's just another of those overseas cases where everyone is trying to make things pleasant for a soldier.

Write to your husband, tell him how much you miss him and don't give him an inkling you're worried over the situation. Often the greatest wifely wisdom consists in not seeing things.

Crawford Bay

CRAWFORD BAY, B. C.—Mr. and Mrs. Dennis Deverson of Trail were recent visitors in the Bay.

Mrs. A. R. McGregor and Miss Winnie McGregor have left for Vancouver.

Mr. and Mrs. Austin Moore of Nelson are guests of Mr. and Mrs. W. Mooney at Port Crawford.

Miss Sylvia King has returned from a few weeks at Twin Bays.

Mrs. A. Deverson and her daughter Doris have returned to Trail after spending the Summer at their ranch here.

E. J. Nhthoff of South Slocan spent the weekend at his ranch here.

Ronald Milne was a recent visitor to Nelson.

Hints for Housewives

By BETSY NEWMAN

TODAY'S MENU

Baked Veal Steak — Baked Potatoes
Spinach — Sliced Tomatoes
Doughnuts — Coffee

RAISED OVEN DOUGHNUTS

4¾ cups sifted flour, 1½ cups milk, 1-3 cup shortening, 4 tablespoons sugar, ¼ teaspoon cinnamon, 2 eggs, well beaten, 2 teaspoons salt, 2 cakes compressed yeast, 4 tablespoons luks warm water, melted butter, 2 teaspoons nutmeg, sugar.

Soften yeast in the lukewarm water. Sift flour and measure. Bring milk to boiling point and pour over shortening, sugar, salt and spices in large mixing bowl, and cool to lukewarm. Add sifted flour, eggs and softened yeast and beat until well mixed. Cover and let stand in warm place until dough is light and double in bulk, about 50 to 60 minutes. Turn dough on to well floured board, turning over 2 or 3 times to shape into soft ball. This dough will be soft to handle. Roll out lightly to avoid stretching, about ½ inch thick and cut with a 3-inch doughnut cutter. Place rings 2 inches apart on greased baking sheets, brush with melted butter or margarine and let rise in a warm place until double in bulk, about 20 minutes. Bake in a hot oven, 425 degrees F., for 8 to 10 minutes. Remove from oven, brush tops lightly with melted butter and roll in sugar. This makes approximately 3 dozen doughnuts.

FRIED CAKES

1 cup sugar, 2 eggs, 1 teaspoon salt, 1 cup sweet milk, ½ teaspoon nutmeg or 1 teaspoon vanilla, 1 tablespoon melted butter, 1 tablespoon baking powder, 3 cups flour—about.

Beat eggs in mixing bowl, add sugar, then melted shortening. Sift flour with salt and baking powder. Add flavoring, then flour and milk alternately, adding more flour if necessary to make soft dough that you can roll out and handle. Roll lightly cut with doughnut cutter and fry in hot fat.

Unselfish . . .

Foster Parents Are Admired

By GARRY C. MYERS, Ph.D.

Always I have had great admiration for successful foster parents, and there are many such unselfish persons who with or without children of their own, have taken one or more children into their homes for loving care.

In these war days and the days ahead, the number of children needing foster homes will have increased tremendously. Those persons who open their arms and homes and give their hearts and heads and hands to these children are doing far more good than they realize.

School Starts . . .

Watch Child's Visual Defects

By LOGAN CLENDENING, M.D.

When the child first enters school there is suddenly thrust upon it an entirely new set of demands which involve exactitude of an entirely different nature to that to which it has been accustomed. These demands affect particularly two organs—the eye and the ear—and, of course, a third—the brain. Even in early childhood the parents usually can spot the situation if the child for some reason or other is more or less hard of hearing. But defects of vision may occur without anyone being aware of them.

In the playtime world of babyhood and early childhood, the requirements of accuracy for vision are not very exact.

The far-sighted eye can accommodate and bring objects into focus by strong muscular contraction of the muscles which thicken the lens of the eye. But this imposes strain more or less severe and the far-sighted child while not accused of stupidity like the near-sighted one, because he can by an effort see the letters of the lesson clearly, will begin when school tasks are imposed to complain of eye strain—aching eyes, rubbing the eyes, headaches, burning sensation in the eye lids, etc. He is subject to styes because he rubs his eyes so much with contaminated fingers.

The near-sighted eye cannot make adjustments for distant objects, because to bring a distant image into focus on his retina he has to relax the lens—the opposite of what the far-sighted child does—and these are no muscles to do this beyond a certain point. So the near-sighted child guesses at the images on the chart, and gets into corresponding amounts of difficulty. The condition may be suspected if the child is seen holding a boo kvery close to the eyes, but there are all degrees of near-sightedness and this test may not be sufficiently positive to arouse the suggestion that he is suffering from a visual defect.

The near-sighted child may in fact do close work better and with less difficulty and strain than the far-sighted scholar.

Astigmatism is another defect for which the child may compensate, but this compensation leads to eye strain.

CRANBROOK

CRANBROOK, B.C.—Mrs. Cartwright of Creston and Mrs. G. S. Peck of Vancouver were visitors at the home of Mr. and Mrs. H. A. McKowan.

Alan Graham has left on a holiday trip to Vancouver and Victoria. Accompanying him was his son, Peter Graham, who is enrolling for his first year at the University of British Columbia.

Word has been received here of the birth of a son Monday at Lambeth, Ont., to Mr. and Mrs. Douglas Munro. Mrs. Munro is the former Nora Miles of Cranbrook.

H. A. McKowan has been spending several days at Vancouver on business.

Rupert Porter has returned to his home here after spending several days at Vancouver.

Mrs. G. E. L. MacKinnon and daughter, Margaret have arrived here from their Summer home at Kaslo to remain for a fortnight before going to Montreal.

LONDON—The gratitude of Londoners whose houses have been damaged in the new blitz to the builders who are working so hard to make them habitable has been expressed by the Minister of Health, Mr. Willink. He included the thousands of builders who had come from the provinces to help in repair work ,the armed forces, and the Home Guard, who had turned out in the evening and at weekends. But the core are the London men, who are working seven days a week

ROBSON

ROBSON, B. C.—Mrs. J. Haworth, who has been visiting Mrs. Duncan Carter has returned to her home.

After a furlough spent with their parents, John Balano of the Canadian Army and Alec Balano of the RCAF have returned to their respective stations.

Mr. and Mrs. Halliday-Smith, formerly of Boswell have taken up residence in Robson.

Dr. and Mrs. Wright, who have spent two months at their ranch here, have returned to Brandon College.

Mrs. J. Carins has returned from an extended visit to her mother on the Prairie.

Stoker Stanley Price of the R. C. N. V. R. is spending his leave with his parents here.

Mrs. W. Wright and daughter Muriel were weekend visitors at the home of Mrs. H. Johnson.

NEW DELHI (CP)—The Royal Indian Navy now has a personnel 13 times greater than at the outbreak of war. There are an increasing number of Indian officers in command of ships and in other high posts.

LONDON (CP)—Lt.-Gen. F. E. Morgan, British officer who planned the details of the Western front invasion, has been knighted.

SAYS SWEET SPUDS YIELD MORE ALCOHOL THAN GRAIN

NEW YORK, Sept. 14 (AP)—Scientists of the distillers, Joseph E. Seagram and Sons, told the American Chemical Society yesterday that sweet potatoes can be made to yield more alcohol per acre than grain or sugar cain. J. A Jump, A. I. Zarow and W. H. Stark said alcohol potatoes are first dehydrated.

"My favorite for FLAVOR is Dad's favorite for WORK-ENERGY"

TRUST the youngsters to go for a flavor that's really *different!* And war-busy grown-ups praise this grand Grape-Nuts nourishment!

CARBOHYDRATES—for energy
PHOSPHORUS—for bones and teeth
IRON—for the blood
PROTEINS—for muscle-building

Grape-Nuts are *different* in every way. They're made of *two* grains—not just one. Sun-ripened wheat and malted barley are specially blended and double-baked to bring out all that famous flavor and make Grape-Nuts remarkably easy to digest. Get a package at your grocer's.

Wheat and malted barley for double goodness!

You'll like this two-grain cereal!

Anscomb for Roads From U.S.

Importance of the construction of first class highways North and South to connect with the United States border was emphasized by Hon. Herbert Anscomb, Minister of Public Works, in an address over CKLN Wednesday.

He dwelt on the necessity for feeder roads from the United States in the development of the huge tourist travel which he foresaw for the postward period, and of continued improvement of the East and West highways.

JOHANNESBURG (CP) — Included in a medical collection on view here is a medicine chest in which is a bottle of pills made up by David Livingstone, the famous explorer, for treatment of "interior fever."

Biscuits that "Click" with the whole family

Magic's Orange-Raisin Biscuits

2 cups sifted flour
4 teaspoons Magic Baking Powder
½ tspn. salt
2 tbspns. sugar
4 tbspns. shortening
½ cup raisins
1 tbspn. orange rind
1 egg
½ cup milk

Sift dry ingredients together. Cut in shortening until well mixed. Add raisins and orange rind. Beat egg slightly in measuring cup and add milk to make ¾ cup. Add to first mixture. Roll out about ½-inch thick; cut with floured biscuit cutter. Place on greased pan. Bake in hot oven (475°F.) about 12 minutes. Makes 16.

British and German-Owned Firms Indicted

SAN FRANCISCO, Sept. 14 (AP). —A Federal Grand Jury today indicted several British and German-owned companies, charging they monopolized the world supply of borax—strategic war chemical—in a cartel described by Government attorneys as one of the most ruthless and complete in anti-trust division annals.

Wealthy London, New York and California business men were made defendants together with the companies they controlled—Borax Consolidated, Ltd., of London, the American Potash and Chemical Corp., operating from New York headquarters, and their subsidiaries, exploiting the world's richest deposits of crude and sodium borates.

German members of the cartel, who anti-trust division attorneys say own 90 per cent of the American Potash and Chemical Corp., were not indicted. Their stock was taken over by the Alien Property Custodian after the German ownership was discovered in October, 1942 — 10 months after United States entry into the war.

KIMBERLEY

KIMBERLEY, B. C. — N. Tomlinson was a visitor to New Denver, a guest of his parents, Mr. and Mrs. H. Tomlinson.

● Sgt. Joan Scott-Lauder leaves today for Vancouver after spending a two-weeks' furlough with her parents, Mr. and Mrs. R. A. Scott-Lauder at Queen's Bay.

Tells Origins of a Free Press

History of the development of a free press from Gutenberg, Caxton and Tynndel to the daily newspaper of today was touched on by Louis Blake Duff, distinguished Canadian speaker, in an address over CKLN yesterday on "Names in the News". The names were Bruges, the home of Gutenberg; Cologne, which, said Mr. Duff, "drips with historical memories"; Mainz, where Tynndel printed his famous Bible; and Nelson, with its Nelson Daily News, which was today carrying dispatches containing these "Names in the News".

The first English daily newspaper was the Gazette, published in Oxford; the first American daily newspaper the Boston News-Letter, established in 1704, and the first Canadian daily was the Halifax Gazette, established in 1752.

Mr. Duff was introduced by Lieut.-Col. George A. Hoover, President of the Nelson Board of Trade.

At CKLN Mr. Duff found to meet him a former schoolmate in Eastern Canada in the person of Robert Smillie. They had not met for 50 years.

Po. T. Hunt, Well Known Here, Now Pilot

Wel known in Nelson, where he has spent several leaves in the past few years, Pilot Officer Thomas Hunt of Kent, England, has graduated as a pilot at No. 7, S.F.T.S., Macleod, Alta. He received his commission on graduating.

Pilot Officer Hunt has been a member of the Royal Air Force for seven years, having joined as an airframe mechanic before the war. He saw active service in France in 1940 and was among the forces evacuated from that country after it was overrun by the German army. He saw further active service in England during the blitz period before being transferred to Canada to serve at Medicine Hat.

He remustered to aircrew after completing a six year service period in the R.A.F. groundcrew, going first to Edmonton, then to Abbotsford and Macleod. At Macleod recently, he had a narrow escape from death when his plane collided with another in a cloud bank. He and his instructor escaped injury as their plane crash landed, while both occupants of the other plane were killed.

Luck was with PO. Hunt during his aircrew training. He was the winner of a $6300 home in Calgary when his ticket in a Greek relief fund raffle was drawn. He received cash in place of the home, making a donation to the Greek fund and placing most of the rest of the rest of the money into war bonds.

28 Years Since First B.C. Lib. Administration

VICTORIA, Sept. 14 (CP)—T. D. Pattullo recalled today that 28 years ago the first Liberal Provincial administration in British Columbia was elected.

Elected on that occasion, he has, without a break, been a member of the legislature and is the only one with that distintcion.

For 12 years he was Minister of Lands, five years leader of the opposition, eight years Premier. On various occasions he has held nearly al lthe other portfolios for brief periods.

COULDN'T WIN A WIFE—

UNTIL HE STEPPED OUT OF THE "B.O." BARRIER

STRANGE as it seems now, he was once lonely—*and puzzled.* Women were anxious to meet him, but their interest quickly died. The invisible barrier of "B.O." came between him and romance.

Then he made this simple discovery. A daily bath with Lifebuoy guards against "B.O." Lifebuoy's special purifying lather takes the odor out of perspiration, leaving you naturally fresh and clean.

And Lifebuoy's invigorating scent vanishes almost instantly. Yet Lifebuoy's important protection lasts for hours.

Supplies Lost to Germany, Gain to Allies

Loss of Rumania and Bulgaria to Germany will represent a tremendous reduction in supplies of essential war materials and a corresponding gain to the Allies.

Rumania was Germany's most important source of non-synthetic oil. Export to Germany last year was 3½ million tons.

From Rumania the Nazis were also obtaining coal, steel, and immense quantities of foodstuffs. It was the greatest exporter among the four Danubian states, and Germany was the chief beneficiary.

Bulgaria was also a heavy exporter of food supplies to the Nazis and it was a shipper of coal and of chrome, the latter invaluable to Germany after the Turkish supply was cut off.

The Three Polish Parties

Poles have a troublesome political problem on their hands. There is the Polish government-in-exile, headed by Premier Mikolajczyk, and opposing it are two groups, the Polish National Council, formed in Warsaw, and the Polish Committee of Liberation formed in Moscow. The opposition groups are not too friendly but they have one post-war policy in common. It is that Poland should be governed by the constitution of 1921 instead of by the constitution of 1935 under which the Mikolajczyk derives authority.

There are fundamental differences between the two constitutions. That of 1921 is democratic, that of 1935 provides for dictatorial powers.

Under the 1921 constitution Poland became an independent, democratic republic. The constitution placed executive powers in the hands of a council of ministers who were responsible to parliament consisting of two chambers, the Sejm (Diet) and the senate. Elections to both chambers took place every five years by general ballot and the system of proportional representation. Suffrage was universal. All over 21 years of age who enjoyed civic rights were entitled to vote and citizens over 25 were eligible for election to the Sejm. The judiciary was dependent on the executive. Individual rights of citizens were to be safeguarded, minorities were assured "full and unrestricted development of their national life through autonomous, legally recognized institutions," and were represented in the Sejm. Absolute toleration was guaranteed to all churches, and to all citizens freedom of speech and assembly, freedom of the press and the right to free primary education.

The 1935 constitution vests in the president dictatorial powers. It makes him responsible "before God and history" for the destinies of the state. He can nominate his successor, appoint and discharge ministers, dissolve the Sejm at any time and cannot be called to account for his official acts during the terms of his office. The right to vote is limited to "worthy" citizens. The system of universal, direct and equal suffrage by secret ballot and proportional representation was abolished by this constitution. A year after it came into effect, the press reported the persecution of Jews had been resumed in Poland and the introduction of a Nazi pattern of propaganda had been undertaken against them.

When the 1935 constitution was passed, the Polish parliament had lost its democratic character. The coup d'etat of Marshal Pilsudski in 1926 nullified parliamentary rule in Poland and introduced government by decree. Members of opposition parties who would have voted against this constitution had been imprisoned before 1931. On April 23, 1935, the day it came into effect, a dispatch from Warsaw stated: President Ignacy Moscicki signed a new constitution for Poland, practically ending parliamentary rule. The basis of the new regime is so-called "militarism"—a new term indicating centralization of power in the hands of the elite of the nation. Parliamentarism suffered another almost fatal blow in Poland when Marshal Pilsudski seized power after his military coup in 1926."

The Polish emigre government derives its legality from the 1935 constitution. To replace it by the 1921 constitution would mean putting itself out of power.

In the Mikolajczyk cabinet are some democratically-minded members, and perhaps he can arrive at a settlement which will provide for some sort of coalition administration during the primary reconstruction period.

Milk Bottles Are Square Now

After a year's trial, the innovation of square milk bottles in quarts and half-pints at Cedar Rapids, Iowa, and other cities in the United States, has proved a success.

Basis of the change from round milk bottles was the desire to conserve cold storage space and to increase truck loads. It was found that about 45 per cent more milk could be stored and considerably more milk be carried in trucks by using new cases, more compact and lighter in make than the conventional type. These cases require about one-third less space inside the truck, and save much work and time to the driver.

Grocers and retailers say that they can put 36 square quarts on a refrigerator shelf that held only 25 round bottles.

Press Comment

EDITORIAL REPARTEE OUT WEST

The Oakland, Calif., Tribune publishes a photograph of a beauty spot in Oregon under the caption, "A Stretch of California Shoreline." Thereupon the Portland Oregonian runs a picture of the San Francisco Golden Gate Bridge and calls it, "A Little Bridge, Built by Boy Scouts, on the Oregon Coast."

In that light-hearted fashion, once upon a time, the newspapers of this land jollied one another as a regular thing. Their readers were believed to enjoy it and to expect it. But that was long ago. In vain we comb the exchanges of this week and last for a parallel instance. They're all talking about subjects like politics and war.—New York Times.

CAPITAL LEVY

In Maclean's Magazine last year, Mr. Coldwell was asked whether he was in favor of a capital levy in Canada. He said he was.

In the midst of the Alberta election campaign he was questioned again and replied that a capital levy was not part of the C.C.F. plan, but that it might have to be considered.

Here are two very different statements. The people have the right to ask Mr. Coldwell what he means, whether he would enforce a capital levy, if he were elected, or not?

Years ago a capital levy might have affected only a small class of rich men. Today, when most families own Victory Bonds, it would affect virtually everyone. Canadians, we believe, are opposed to it. That may explain why Mr. Coldwell is trying to evade the issue now. Vancouver Sun.

WAIT YOUR TURN!

From the Chicago Sun comes the story of the retailer, who, annoyed because he had had to wait several months for an order, wired the manufacturer: "Cancel order immediately." Back came the response: "Regret cannot cancel immediately. You must wait your turn."—Soo Star.

BUT WHY IN WINTER?

It is conceded that women show their good sense by wearing such light Summer clothing, but Ottawa Citizen's T.D.F. wants to know what the verdict is when they continue to wear it all Winter. Well, it could be a matter of good form.—Kingston Whig-Standard.

FACING DEFEAT

No army that has lost confidence in ultimate victory can continue to fight indefinitely. There is no reason to believe, of course, that a collapse of the German forces is imminent, but the defeatist leaven is undoubtedly working. Sooner or later it will have its deliberating effect.—Windsor Star.

Today's Horoscope

You are very honest and frank; are determined and energetic, but you are apt to use your energy in the wrong direction. You are cheerful and witty, good company and a general favorite. You love your family, and are dearly loved by them. An important, busy year lies ahead of you. Endeavor to adjust business changes and dealings with elders early in the year, but avoid erratic actions. The child who is borne on this date will need to overcome super-sensitiveness, especially where the affections are concerned, to realize promised success, especially if he or she is born after noon.

Words of Wisdom

To reprove small faults with undue violence, is as absurd as if a man should take a great hammer and kill a fly on his friend's forehead.—Anon.

Etiquette Hints

Do not "make mountains out of molehills." "Good taste rejects excessive nicety; it treats little things as little things, and is not hurt by them," says Fenelon.

Test Yourself

1. Why does it hurt when you knock your funny-bone?
2. Is the lava issuing from a volcano hotter or colder than the substance within it?
3. What is the composition of thread-like clouds?

TEST ANSWERS

1. The ulnar nerve is superficial at that point.
2. Hotter, due to spontaneous gas combustion at the moment of issuance.
3. Minute ice crystals.

?? Questions ?? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions will not be answered by mail except when there is obvious necessity for privacy.

Subscriber, Kimberley—If a boy is serving in the army, and his mother is receiving a maintenance allowance, and he gets married, would the mother still receive any allowance?

In ordinary cases the allowance is transferred to the soldier's wife. However under special circumstances, an allowance can be made to the mother. Advise you to write full particulars to the Chairman of Dependents' Allowance Board, G. A. G. Bennet, Records Building, Ottawa.

W. I., Trail—Will you let me know how to be an airline hostess?

Regulations call for candidates to be registered nurses before they may become airline hostesses. Suggest you write for further information to J. J. Robinson, City Traffic Manager, Trans Canada Air Lines, Vancouver; and also, District Traffic Manager, Canadian Pacific Air Lines, Vancouver.

Subscriber, Nakusp—Will you print a recipe on how to dry green beans and also how to dry green corn?

Beans: Break or cut into inch lengths, or cut lengthwise into strips, in order to present more drying surface. Steam as follows: Place the beans in a wire basket fitted with a bail, or in a colander. Then place the basket on a rack in a kettle or preferably in a wash-boiler containing an inch of water. Boil briskly. Heat them in this steam until each piece is relaxed in appearance and texture, and heated completely to the centre. Test by removing a piece from the centre of the basket and press between thumb and forefinger, or taste a piece. The product should appear cooked, although not excessively soft. Spread a layer on trays one-half to one inch deep and place immediately in the evaporator.

Corn: Husk the corn, steam on the cob until the milk is "set." Cut from the cob and spread on trays.

X. A. Y.—Can a person of 70 obtain a pension when all property is in his wife's name?

Yes.

Newcomer, Nelson—Where is the bathing beach at Nelson known as Connaught Park?

Connaught Park was an earlier name of Lakeside Park, and was conferred on the Park by the City Council in honor of the visit of the Duke of Connaught as Governor-General in 1911 or 1912. The name Lakeside Park replaced the complimentary designation in 1920 when Mrs. Garland Foster was an alderman and chairman of the parks committee.

C.W., North Shore—What are the white-headed, white-winged gulls seen on the West Arm?

The herring gull, the California gull, and the ring-billed gull all answer this description, in their adult state, and all three of these gulls are seen here with great regularity, but most numerously in the Spring and Fall.

Oldtimer, Nelson—To settle an argument, who built the Nelson Wharf?

The original wharf was built entirely by the City of Nelson. About 1910 it was leased for 20 years to the C.P.R., which built an extension on the end, made a fill on the West side of the original wharf and built on the fill a curving spur from the tracks at Josephine Street, and built a curving section of wharf on the West side of the spur. In the early days the passenger trains used to wait on the main track for passengers to come up the wharf and board them at Hall Street. All structures except the spur track reverted to City ownership when the C.P.R. abandoned the wharf after the Procter-Kootenay Landing Link was opened, and eventually the City removed the entire Western timbering after it became a menace.

Looking Backward

10 YEARS AGO
(From Daily News, Sept. 15, 1934)

Nelson municipal library has received its first copy of the Rosicrucian Digest.

Miss Jean Ryan of the nurse-in-training class of the Kootenay Lake General Hospital, has left to spend her vacation at the Coast.

J. A. Ferguson was chosen Thursday night to head the Trafalgar Badminton Club for the coming season.

Back from a jaunt to the Reno mine where they planned to do a little skiing, Danny McKay and Jack Boyce report that the snow is too sparse yet.

25 YEARS AGO
(From Daily News, Sept. 15, 1919)

The Kaslo fair of 1919 was a great success in every way. It was officially opened by Mayor Stubbs, with a short but appropriate address.

The carpenters strike was over yesterday morning. The men returned back to work according to George H. Fraser of Nelson.

Mrs. A. J. Dill of Nelson returned to the city last night from Ymir, after visiting Miss M. Mitchell of the Ymir Hospital.

40 YEARS AGO
(From Daily News, Sept. 15, 1904)

On Saturday last Wallace Brown and George Tierney left for a hunting trip in the vicinity of Midway. Mr. Brown returned last night and reported they had killed 90 birds.

Porto Rico Lumber Company has opened up a new camp at Porto Rico siding and are also erecting another dam on the river to be used in flooding and bringing the logs to their mill at Ymir.

The McDonald Bros. of Nelson have taken over the Dominion Dairy.

War — 4 Years Ago

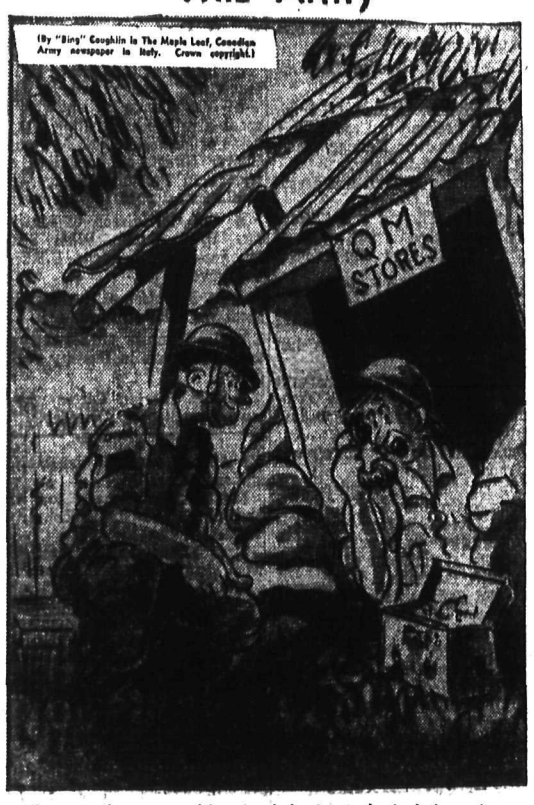
(By The Canadian Press)

Sept. 15, 1940—Nazi airmen battered in raids over United Kingdom—at least 185 German planes destroyed. Proclamation from Ottawa called single men and childless widowers of the ages from 21 to 24 years for military training.

FRENCH FARMER BRINGS NAZIS TO MARKET THIS TIME: This enterprising farmer of Marseilles rides into the city in a horse-drawn wagon, standing guard over two Nazi soldiers whom he captured during the fighting in that section of France.

This Army

(By "Bing" Coughlin in The Maple Leaf, Canadian Army newspaper in Italy. Crown copyright.)



"Four pouches, ammunition; ten helmets, steel; six knives, clasp; two pairs boots, ankle; right away heavens for the sake of!"

Canada's Roll of Honor

OTTAWA, Sept. 14—Names of 17 British Columbia men appear on the latest casualty list issued tonight by the Canadian Army. Pte. J. H. Spencer of Nelson is listed wounded.

Killed in action

Central Ontario Regiment:
Gooderham, Coningsby Cameron, L.-Cpl., Vancouver, B. C.

British Columbia Regiment:
Brailsford, Victor Josua, Pte., Sooke, B. C.
Love, Richard Maxwell Dibsor, Pte., New Westminster, B. C.
Christiansen, Christian, Pte., Britannia Beach, B. C.
Johnson, Harold, Pte., Ceepeecee, B. C.
Livingstone, James Thomas, Pte., Victoria, B. C.

Previously reported missing now reported killed in action

British Columbia Regiment:
Leslie, Cecil Oliver, Pte., Duncan, B. C.

Died of wounds

Alberta Regiment:
Suprenant, Ambrose Rodrigue, Pte., Kelly Lake, B. C.

Missing

Alberta Regiment:
Lysne, Kristian Morgan, Pte., Alberni, B. C.

Previously reported wounded, now reported missing

British Columbia Regiment:
Hill, Sydney, Sgt., Victoria, B. C.

Wounded

Manitoba Regiment:
Leclair, Oliver George, Pte., Vancouver, B. C.

British Columbia Regiment:
Hamilton, Angus, Cpl., Comox, B. C.
Nelson, Alfred Fern, Pte., Victoria, B. C.
Cambridge, Richard Beverly, Lt., New Westminster, B. C.
Spencer, Jack Herbert, Pte., Mrs. Eva M. Spencer (wife), 515 Robson St., Nelson, B. C.

Slightly wounded

Killed on active service

Anderson, Howard Francis, Sgt., Vancouver, B. C.
Kirschner, Irving, FO., Vancouver, B. C.
Milner, William Arthur, FO., Vancouver, B. C.
Swanson, John Edward, FO., Vancouver, B. C.

Missing on active service after air operations

Squibb, Harold Edward, F.-Sgt., Youbou, B. C.

Cranbrook I.O.D.E. to Raise Funds for Christmas Parcels

CRANBROOK, B.C.—Kuskanook Chapter, I.O.D.E., resuming its twice-monthly meetings after the Summer holidays, has completed plans for its initial Fall project, a general tag day set for Saturday to raise funds for the Christmas parcels for district personel serving overseas. Mrs. G. M. Argue as Regent is General Convener with committee members Mrs. W. J. Barber, Mrs. George Lunn, Mrs. H. E. Osborne, Mrs. W. D. Smith, Mrs. Alec Steele, Mrs. Lloyd Coulter, Miss Claire Taplin and Miss Isobel Dunlop.

The Christmas parcels will require a fund of over $700. Reported at the meeting was a net profit of $442.97 from the cabaret in mid-August.

The Chapter has voted to continue the annual donation of prizes for scholastic standing in various subjects at Central and High Schools started two years ago. Their adoption of the Mayook School also will be continued.

Cranbrook Plans Survey for Post War Jobs

CRANBROOK, B.C. — The Cranbrook and District Rehabilitation Committee gave hearty support to a suggestion made at a public meeting here by Colonel F. T. Fairey, Director of Technical Education for the Province, that a district survey should be made of all possible openings in technical jobs and trades, as well as the chief industries in preparation for post-war discharge of district service personnel.

Colonel Fairey as Rehabilitation Council Field Officer told the meeting of the training facilities and benefits which will be open to discharged service people. He said there are no restrictions as to classifications of potential employment, and the district which has a detailed survey of its openings will assimilate its service people into its community life quickest.

The meeting, held under the local committee auspices, was well attened, and the committee plans to meet shortly to organize its district survey.

Doubly Useful

WHEN you open a can of Irradiated Carnation Milk, what you pour out is a double-concentrated milk for use in recipes calling for cream, and for creaming coffee, fruits and cereals.

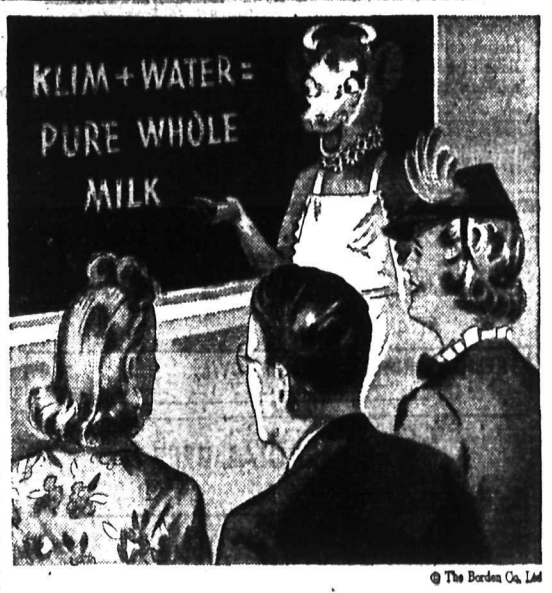
For milk recipes, just take half Carnation and half water. There you have whole milk consistency and full food value. Grand for drinking, too... chilled nicely, of course.

Carnation is just whole milk with part of the natural water taken out. Sterilized so that it keeps indefinitely unopened... homogenized for creamy smoothness and *Irradiated* for extra "sunshine" vitamin D. Write for free illustrated cook book. Carnation Co., Ltd., 470 Granville St., Vancouver.

IRRADIATED **Carnation Milk**

A CANADIAN PRODUCT "from Contented Cows"

If you don't see Carnation Milk at your grocer's, ask for it



© The Borden Co. Ltd

It's simple, first we subtract then you add, that's all!

SAYS ELSIE: "KLIM Powdered Milk is pure, whole milk with nothing removed but the moisture. So all you do is take water, add KLIM, mix, and presto you have fresh creamy milk again. Easy, isn't it?"

Only KLIM has all these features:

1. KLIM is pasteurized whole milk—*powdered*. Only the natural moisture has been removed. All the cream is left in.
2. KLIM keeps fresh indefinitely in its vacuum-sealed container. Even after opening, KLIM keeps fresh and sweet for a long time. (Note: Be sure to replace lid tightly.)
3. KLIM is light, easy to carry. Saves space. Ready for immediate use. Just follow the simple directions printed on the can.

KLIM is a vital product required in large quantities for our fighting forces everywhere. Naturally the amount for civilian use is restricted. However—for infant feeding—if you have difficulty in getting a sufficient supply have your dealer get in touch with us.

THE BORDEN COMPANY LIMITED
Dry Milk Division - Toronto 4, Ont.

"IN HANDY POWDERED FORM"

Here Is Your 4X WEEKLY RECIPE

CREAMY EGGS ON TOAST

4 tablespoons butter, 2 tablespoons minced onion, 4 tablespoons flour, ½ teaspoon salt, 2 cups milk, 2 teaspoons minced parsley, 6 hard-cooked eggs, sliced, 12 slices 4X Bread toasted

1. Melt butter, add onion and cook until soft but not brown.
2. Add flour and salt, stir until well blended.
3. Add milk slowly, stirring constantly until thick and smooth. Bring to a boil and cook 2 minutes.
4. Add parsley and eggs. Cook until eggs are heated through.
5. Cut 6 slices toast into triangles.
6. Pour eggs over remaining slices of toast; garnish with triangles. 6 servings.

ıortest, Safest Kootenay Ferry oute Urged by Citizens; ontent Leave Details to Engineers

Shortest, safest." These two rds describe the unanimous view- nt of district men on the route the new Kootenay Lake ferry. ey were used over and over again a meeting called in Nelson Thurs- morning by Hon. Herbert Ans- nb, Minister of Public Works and unicipal Affairs, which sought the inion of all people interested in planning of a new route for a w ferry.

Choice of the shortest and safest ste was left by the gathering in hands of the Provincial High- y Board, composed of the Minis- , A. L. Carruthers, Chief Engin- and Chairman, A. Dixon, Dep- Minister, H. C. Anderson, Assist- Chief Engineer, and William msay, District Engineer of Kam- ps, formerly of Nelson. All mem- s of the Board were present at meeting, which was held in the urthouse.

Opinion also was unanimous that hourly service able to handle 600 s and trucks a day would be re- red for the expected influx of rists after the war.

K POSSIBLE ROUTES

Six possible routes were display- on a sketch drawn up by the gineers. Numbered, they showed , the present 11-mile run from asers Landing to Gray Creek; , nine miles from Balfour to Gray eek; (3), Five and three-quarter les from Balfour to Kootenay y; (4) four and one-half miles m the Southern end of Queen's y to Kootenay Bay; (5) four les from Balfour to Smelter Bay, d (6), six miles from Southern een's Bay to Smelter Bay.

If Kootenay Bay is chosen as the st side landing point, construct- n of a 1.1 mile road link to the d running beyond Gray Creek d on through Port Crawford, will be necessitated. Continuation of this link for a matter of 2½ miles would be necessary if Smelter Bay is chosen. Following the lakeshore, the link would, in either case, start from a point 7¼ miles from Gray Creek.

On the West side, choice of a South Queen's Bay landing would necessitate a one-mile link from Balfour to the Southern end of Queen's Bay which would also follow the lakeshore.

Before selecting a rout, it was necessary to consider what the volume of traffic would be, C. F. McHardy of Nelson declared. Results from tourist planning work by Spokane and Kootenay-Boundary representatives were going to be tremendous. He foresaw a great flow of tourists into this area from the United States, and also from the Prairies, with the new ferry having to handle 600 or more cars, trucks and transports a day.

He favored the Balfour-Smelter Bay route. At the old Balfour wharf site, the landing would be protected from wind, while backing the Smelter Bay site were the opinions of two pioneers of the District who had years of experience in operating boats on the main lake. A half-mile section of new road would have to be built on the Balfour side.

G. A. Hoover, President of the Nelson Board of Trade, suggested that the Government had capable engineers who knew the topography of this territory intimately, and who were experienced in the placing of roads where they would give the best service. For these reasons they were best qualified to choose the best ferry route.

C. W. Appleyard hoped that the valuable farm land in the Kootenay Bay area would not be overlooked in selecting a ferry landing on the East side. This valuable area would be more populated if it were not so isolated, and a ferry landing site near the area would help to open it up.

Kaslo favored the Queen's Bay landing site, G. S. Baker told the gathering. C. R. Fahrni, also of Kaslo, suggested the East landing be built at the end of the road running from Gray Creek, through Port Crawford, and on along the lake level.

W. J. E. Biker told the Minister's party he had resided here 35 years and had spent many years on the lake in weather of all kinds while with the Water Branch. An ordinary scow with a three-foot freeboard could tackle any kind of weather the Queen's Bay area could offer. His choice of a route would be between the Northern end of Queen's Bay and Kootenay Bay.

A steady service with reasonable cost was required. With three trips an hour at a cost of 35 to 50 cents a trip, money would be made by the ferry.

Leading support for the shortest and safest route were Frank Putnam, M.L.A., Nelson-Creston, Lieut. Col. C. E. Mallandaine of Creston, A. J. Watson of Kootenay Bay, James Draper of New Denver, and George Pease, Gordon Williams and R. A. Peebles of Nelson.

Mr. Carruthers told the gathering that he would ultimately have to make recommendations to the Minister as to what should be done. He was anxious to find a real solution to the problem, and expressions given by the District men would help.

PLAN 40-CAR FERRY

The type of ferry being considered would, providing local conditions such as prevailing winds, drift and so on were right, be able to handle about 40 cars. It would be a propellor-driven craft with fore and aft landing arrangements, and able to handle heavy trucks and trailers in the centre lane. Maximum accommodation allowing for the most rapid unloading was sought. He intimated in later discussion that it would be 180 feet in length with a maximum speed of about 12 miles per hour.

The Board would have to be careful in its choice of a harbor, he said. The ship could not be manoeuvred into position like the Kootenay Lake stern-wheelers, but had to come to a dead stop and be provided with landings of a dock or slip type.

Careful consideration of wind conditions had to be made, he said. In response to questions as to whether building of a breakwater if necessary was practical, he said this was under consideration and was thought feasible.

Mr. Anscomb asked if it was the opinion of the gathering that Smelter Bay and Kootenay Bay were safe for a modern ferry. This was for experts to decide was the answer.

Mr. Carruthers reminded the meeting that elapsed time also had to be considered. It had been shown that from the time the slow bell was given, a dead stop made by the ferry, cars and passengers unloaded and reloaded, the ferry re-started and the full bell given, it took fully 15 minutes for the best type of ferry known to go through this operation.

He asked if a two-ferry run would solve the problem. Mr. McHardy thought that another ferry or ferries could be added if necessary. The meeting was told that a standby ferry would be available in any event.

Thanks to the group of men were expressed by Mr. Anscomb, and he promised that the Board would do the best it could. Everybody could not be satisfied, but the best possible would be done for everybody.

Mr. McHardy expressed the thanks of the gathering to the Minister and his party for their courtesy and the extended time given to the subject.

Other delegates to the meeting included D. L. Kerr, R. D. Barnes, Harry Burns, John Erb and A. L. Creech of Nelson.

12 Teams Likely for Junior Lady Trundlers

Largest ladies five-pin league in season is in prospect for the Nelson Junior Ladies Bowling Club it was indicated at the annual meeting Thursday night. A membership of 72, providing 12 teams, will be lined up by the opening of competition Oct. 2.

Miss Helen Duclos was re-elected to the Presidency, Mrs. Vera Lord taking over the duties of Secretary-Treasurer.

The Club, largest in City competition, last season had a league of eight teams. This season, because of the greatly increased membership, it will operate a two-night-a-week schedule, play being on Mondays and Fridays.

Nazi Prisoners Cut Fuel Wood, Help Harvest

LETHBRIDGE, Alta., Sept. 14 (CP).—German prisoners of war are working in Canada's forests and fields, cutting fuel wood in Ontario, Quebec, Manitoba and Northern Alberta, and helping harvest the bountiful crops on the prairies.

The Lethbridge Herald, in one of a series of articles on the prisoners of war, said today that approximately 5000 of the 31,000 German prisoners in the Dominion are working in non-war industries.

By far the largest number are employed in forests, about 3000 cutting fuel wood in Ontario; 200 in Quebec, 300 in Manitoba and 300 in Northern Alberta.

There are well over 1200 in agricultural work, most of them on farms in Southern Alberta, and about 200 in Saskatchewan harvest fields.

The working parties are men from all branches of Hitler's war machine, the majority from the Lethbridge camp which at its peak had a population of 13,500. At present it has 8600 prisoners.

The prisoners-of-war labor program is directed by the Federal Department of Labor in cooperation with the Department of National Defence. Guards, meals and lodging are supplied by the military.

Morley Heads Nelson Teachers

Nelson Teachers Association at its annual meeting elected M. J. Morley to the presidency for 1944-45. Other officers elected were Miss G. Hudson, Vice-President; Mrs. M. Harrop, Secretary; and Miss C. Sullivan, Treasurer. A representative from each of the four public schools will complete the executive.

teachers is to be held in Trail this

Convention of West Kootenay Fall. It is expected a large number of Nelson teachers will attend.

German Communist Leader Killed

LONDON, Sept. 14 (CP)—Ernest Thaelmann, the German Communist leader, was killed in an Allied air attack on the Buchenwalde concentration camp near Weimar Aug. 28, the German radio asserted tonight.

Dr. Rudolf Breitscheid, A Social Democrat leader, was killed in the same attack, the broadcast said. Both he and Thaelmann were former members of the Reichstag.

Wimar is 50 miles West Southwest of Leipzig, in a region which has been a frequent recent target of Allied planes seeking Germany's last oil supplies. However, neither Allied nor German reports have mentioned Weimar as a bomb objective since March 25, when the Germans said the town was attacked. Nor have there been previous reports of attacks on concentration camps.

Persons in London with good contacts with Germany expressed skepticism. They suggested that the former Reichstag leaders were eliminated in Hitler's campaign to wipe out every possible political leader, even those in concentration camps, who might make peace with the Allies.

Vaccination was discovered by Edward Jenner, an English physician.

C.M.&S. Employees In Trail Area Are Voting on Medical Contract; Alternatives Explained, Rossland

ROSSLAND, B. C., Sept. 14 — Tuesday evening a small crowd of C. M. & S. employees met in Technocracy Hall to hear the Medical Committee explain the new medical agreement to be made between the Medical Committee and the C. S. Williams Clinic. J. H. Conroy was chairman, and others of the committee present were C. Billingsley and Mr. Webb of Trail and A. E. Lane of Rossland.

Mr. Lane, who is Secretary, gave a resume of all business conducted between the committee and the physicians since the C. S. Williams clinic gave notice of termination of contract on June 12, on the grounds that they could not afford to continue it.

Voting on the continuation of a medical agreement and on the two plans under which the Medical Committee can operate, started Thursday, and will continue Friday.

The C. M. & S. Company has agreed to continue payments under any new agreement, on the same basis as paid under the old plan.

In explaining the two proposed plans, Mr. Billingsley stated that under plan 1, the deductions would remain the same as now, but no drugs would be supplied under plane 2, the employee would pay 24 cents per month more than now, and the Medical Committee would pay one-half the cost of drugs presented so long as the drugs are listed in the local formulary, which will be drawn up by the physicians, druggists and Medical Committee.

This formulary would contain a list of drugs used most commonly in this district.

Under both plans, specialists will be provided in any case where it is recommended by the physician and approved by the committee.

PLAN 1

In deal, plan 1 was follows:

Deductions from the wages or salary of each employee will remain the same, that is $1.28 per month. Of this sum $1.14 will be paid to the physicians for all medical aid excepting drugs and specialists treatment and 14 cents will go to the Medical Committee's fund to take care of specialist cases.

Neither the physician nor the Medical Committee will provide drugs.

The Medical Committee will provide specialist treatment in any case where it is recommended by the physicians and approved by the Committee; but the Medical Committee will not pay any amount in excess of the minimum fee of the schedule of the British Columbia Medical Association. The Medical Committee will not be responsible for the cost of any transportation of a dependent to or from a specialist.

In a chronic ailment the physician will continue to give treatment, excepting in the case of a patient whose right to medical services arises after the last day of January, 1940, if the chronic ailment was present on the day when the patient became entitled to medical services.

DEPENDENTS

In the case of dependents, plan 1 provides:

(a) Medical services will not be given to a housekeeper.

(b) A brother or sister of an employee, whose father is dead will be given medical services, if:

(1) Under the age of 18 years, or if over 18 but prevented by physical or mental infirmity from providing for himself;

(2) Necessarilyand entirely dependent upon, and maintained by employee, and

(3) Resident with employee within the medical area.

JOINT MEETINGS

The new agreement will provide for the holding of joint meetings by the Medical Committee, the physicians and the representatives of the Company early in the year, but not later than February 8 for the purpose of discussing questions, which may have arisen in respect of the agreement and of considering any necessary amendments.

The new agreement will provide that the Medical Committee may, without the necessity of obtaining a ballot of the employees, agree to an amendment, if such amendment does not have the effect of increasing sums to be paid by the employees or pensioners, or of decreasing the services prescribed thereunder.

Confinement of a patient will not be covered by medical services unless the name of employee has been in the register for at last 30 days before confinement. Confinement cases include all pregnancies which do not terminate in a birth.

PLAN TWO

Under the alternative plan, the sum deducted from the wages or salary of each employee will be $1.52 per month, which is an increase in the deductions of 24 cents per employee per month. Of this sum, $1.14 will be paid to the physicians and 38 cents will be paid to the Medical Committee's fund to take care of drugs and specialists' treatments.

The Medical Committee will pay half the cost of all drugs prescribed by the physicians for any patient which appear in a local formulary.

Specialist treatment will be provided by the Medical Committee in any case where the physician recommends it and it is approved by the Medical Committee, but the Medical Committee will not pay any amount in excess of the minimum fees of the schedule of the British Columbia Medical Association.

Also, the Medical Committee will pay the cost of transportation of a dependent to and from the specialist prescribed; or, if a dependent wishes to consult a specialist other than the one prescribed, an amount for transportation not exceeding the cost of transportation to the specialist prescribed. Thus, if the specialist prescribed was in Nelson, and the dependent wanted to go to one in Vancouver, he would be allowed only the cost of transportation equal to that to Nelson.

In the old agreement, the dependent had to pay half the cost of specialist and transportation.

Chronic ailments, dependents, regular joint meetings, amendments of agreement and confinement cases are dealt with the same as outlined for Plan 1.

Many interesting questions were asked, and answered by Mr. Webb and Mr. Billingsley.

L. E. E. Hamilton moved a vote of thanks to the Committee for their work and plans made.

Mr. Conroy, in replying, regretted so few were interested, and stated the Committee was only working to get the most for the employees at the least cost.

Slocan City and Trail Airmen Win Honor Awards

OTTAWA, Sept. 14 (CP)—In one of its biggest lists of awards of the war, Air Force Headquarters announced tonight 22 decorations—one Bar to the Distinguished Flying Cross, 20 Distinguished Flying Crosses and one Distinguished Flying Medal—to members of the R.C.A.F. serving overseas.

FO. T. A. Cachioni, Kelowna, B.C.

FO. G. F. Carruthers, Gervin, Sask.

FO. E. A. Greenwood of Moose Jaw, Sask.

FO. K. W. Jones of 1399 Third Ave., Trail, B.C. (reported missing Aug. 5.)

PO. J. E. Mitchell of Saskatoon.

D.F.M.—

Flt. Sgt. N. R. Modeland of Vancouver.

Zelbin Retried, Fined $20 on Assault Charge

In County Court before His Honor Judge W. A. Nisbet Tuesday afternoon, William J. Zelbin, Castlegar, was retried on the charge of assault, and was fined $20. He had previously been tried by Magistrate S. Humphries at Castlegar and had been sentenced to two months imprisonment.

Although Zelbin pleaded guilty to the charge, that of assault to his wife, His Honor examined the witnesses as that was the only way to find out the facts of the case. Sentenced on August 8 in the Magistrate's court, where he had also pleaded guilty, Zelbin gave a notice of appeal August 12.

Witnesses heard were Mrs. Mary Zelbin, his wife; Zelbin, himself; Charles William Johnson, Thrums; Constable D. Pye, Castlegar; C. T. Loff, brother-in-law of the accused; R. Foxall, Nelson; Frederick Markin, Castlegar; and W. J. Sturgeon, Nelson.

L. S. Gansner acted for the appellant and E. P. Dawson for the Crown.

Enemy Relief Unrra Problem

By JAMES McCOOK
Canadian Press Staff Writer

MONTREAL, Sept. 14 (CP)—Delegates arriving for the United Nations Relief and Rehabilitation Council meeting which opens tomorrow were agreed that a major problem to be decided is whether UNRRA assistance will be granted in enemy as well as liberated countries.

The understanding has been that PNRRA will operate in enemy or ex-enemy territory only if the enemy can pay for all the relief granted. But delegates said it now was obvious there would be difficulty in applying this hard and fast rule.

Millions of workers from other countries have been taken to Germany for forced labor and their return to their homes in a matter which UNRRA will accept as one of its rehabilitation responsibilities. This makes it practically certain that UNRRA will operate within German boundaries in some form. Whether its benefits will be made available to the German people themselves still has to be decided.

Displaced or homeless persons in Europe are estimated to number more than 30,000,000.

UNRRA has not gone into action in Italian territories now under control of the Allies where the military still are in charge of relief operations. Here again a decision will have to be made by the UNRRA council on whether Italians are to be granted assistance.

Sergt. Percy James Ruetz, of Kitchener, Ont., serving overseas with the Royal Canadian Medical Corps has been awarded the Military Medal for gallantry in action in Italy. He was born in Walkerton, Ont.

Season on Does Over; Buck Are Fair Game

Two-week open season on whitetail does was over Thursday in the Nelson-Creston, Cranbrook, Fernie and Columbia Electoral Districts. Killing of the female deer over one year old was permitted this season, at the request of farmers who claimed whitetails were causing considerable damage in orchards and fields.

Mule and whitetail bucks are fair game in the Kootenay from today until Dec. 15. Bag limit for the season is two buck of one year or over in addition to one doe that may have been taken in the two-week season.

Today is also the opening of the two-month season on moose and a three-month season on elk in the Fernie Electoral District.

Temperatures

At no time during the 24 hours ending at 5 p.m. Thursday did the Dominion Government's registering thermometer in Nelson show the mercury as high as 60 degrees, the top point being 59.6 degrees. This covered the coldest 24 hours of the present Fall, when the rain that started Wednesday afternoon kept going most of the night, to give Thursday's weather a precipitation of .12 inch. The two-day rainfall was over a quarter inch — exactly .26 inch. As the low point reached by the mercury in Thursday's 24 hours—5 a.m. to 5 p.m.—was 45.8 degrees, the range during the period was only 13.8 degrees.

Wednesday afternoon Mount Kokanee showed new snow for the first time this Fall, and Thursday Fairviewites were able to see some snow near the Silver King.

Batting Leaders

Reds and Cubs Divide Doubleheader

CHICAGO, Sept. 14 (AP)—Roy Hughes, Cubs' third baseman, hit a home run with two on to beat Cincinnati 4-2 in the second game of a doubleheader after the Reds took a 13-inning opened 3-2.

First:			
Cincinnati	3	8	0
Chicago	2	12	4

Heusser and Mueller; Erickson, Vandenberg (8), Wyse (10), Fleming (13) and Gillespie, Williams (11).

Second:			
Cincinnati	2	9	1
Chicago	4	5	1

Konstanty, Carter (8) and Mueller; Derringer and D. Williams.

VOISELLE A 20-WINNER

NEW YORK, Sept. 14 (AP)—Bill Voiselle became the first New York Giant pitcher in seven years to win 20 games in a single season by hurling his mates to a 12-1 verdict over Philadelphia Phils in the first half of a curtailed twin bill today.

The second game was postponed because of rain.

Voiselle's mates counted eight times in the sixth—includig a grand slam home run by Ernie Lombardi.

Philadelphia	1	7	1
New York	12	15	1

Schanz, Karl (8), Kennedy (6), Shuman (7) and Peacock; Voiselle and Lombardi.

DODGERS SHADE BRAVES

BROOKLYN, Sept. 14 (AP)— A home run by Red Durrett in the eighth tied the score, and a single with the bases loaded in the ninth by Augie Galan gave Brooklyn Dodgers a 5-4 victory over Boston Braves today. The second game was postponed by rain.

Boston	4	10	2
Brooklyn	5	11	0

Javery, Hutchings (6), Hutchinson (7), Barrett (9) and Hoffert; Wells, Webber (8) and Owen.

Human tears usually consist of pure water, with saline traces.

Large Entry Lady Golfers Ready for Championship

A large entry of fair fairway enthusiasts is lined up and ready for the opening gun in the two-day Kootenay Ladies Open Golf Championship here Saturday. Rossland-Trail and Kaslo, as well as Nelson, will be represented in competition.

Draw for the event will be made tonight. Two nine hole rounds will be run off Saturday and two 18-hole games on Sunday. Mrs. Harold Lakes of Nelson is present holder of the Hablewood Cup, that goes with the District title.

Visiting golfers will be entertained at a banquet at the golf course Saturday.

TODAY'S News Pictures

ROYAL PARTY VISITS R.C.A.F. BOMBER GROUP: Accompanied by the Queen and Princess Elizabeth, His Majesty the King recently visited several stations of the Royal Canadian Air Force Bomber Group in Britain. The royal party is pictured above standing with Group Captain Clare Annis, O.B.E., Vancouver, B.C. (next to Princess Elizabeth), Air Commodore J. E. (Johnny) Fauquier, D.S.O. and Bar, D.F.C., Ottawa, Canada's leading Pathfinder (holding gloves), and Air Marshal L. S. Breadner, C.B., D.S.O., Air Officer Commanding-in-Chief of the R.C.A.F. Overseas, (extreme right). Standing in the doorway, left and right are Air Commodore C. R. Slemon, C.B.E., of Bowmanville, Ont., and A-V-M C. M. McEwen, M.C., D.F.C. and Bar, of Montreal. His Majesty wears the uniform of a Marshal of the Air Force. (R.C.A.F. Photo).

CANADIAN SOLDIER OFFERS AID: Pte. G. R. MacDonald, Canadian soldier, takes time out during the Allied drive through France to administer first aid to a little French child as other youngsters look on.

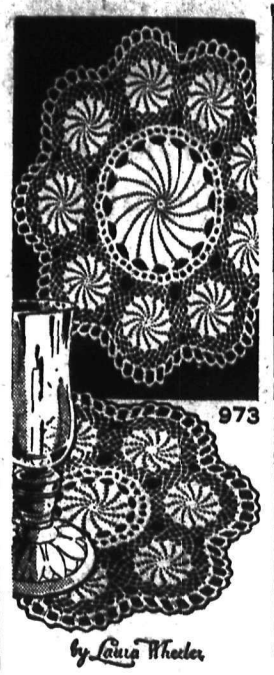
MAQUI HEROINE: Isabel Townsend Pell, 43-year-old New York society woman, has been revealed as an almost legendary heroine of the French resistance movement on the Riviera. On Aug. 15, an American parachute sergeant and his 16 men dropped 10 miles from their landing zone. Landing in the little town of Tanaron, they fought a battle with the Nazis, captured several, and with three of their own number wounded, were surrounded by an overwhelming number of Nazis. Their rescue was directed by Miss Pell as comcander of the Maquis group which came to their aid. The rescue and subsequent post D-Day activities culminated her four-year-long saga as a heroine of the underground.

$200 A MONTH JUST ENOUGH FOR PEKES: Mrs. Ida Mae McGuire of Napanee, Ont., who will receive $200 a month income from a $100,00 trust fund to care for 23 Pekingese dogs and a black Persian cat that belonged to the late Mrs. May Marguerite Shaw of New York. Mrs. McGuire is pictured here with some of the dogs which she will tawe to her Pekin Inn Kennels.

GOT 160 NAZIS: A recent photo of Canada's Cpl. Earl McAllister of Hamilton, Ont., who has to his credit capture of 160 Germans at St. Lambert Sur Dives. This photo was taken at a Nazi battery knocked out near Abbeville, France.

"WHIZ KID" GUINEA PIG: Shown at work assembling the 500 odd parts of an aircraft "injection carburetor" as part of his job as a volunteer assembly "guinea pig" to test effectiveness of photographic "exploded views"—visual aids used to prevent guesswork in war production and armed services' manuals—is 11-year-old Jack Butler, of Chicago. Jack amazed technicians and engineers by assembling the inpection carburetor in 90 minutes. Jack was selected about a year ago as a "guinea pig" to work after school hours.

SQUADRON HEAD: Sqdn. Ldr. O. C. Kallio, D.F.C., Ironwood, Mich., recently assumed command of the City of Windsor squadron in Italy. After four years' service in the U.S. Army Air Force as a "gunner-mechanic," Sqdn. Ldr. Kallio obtained his discharge from the U.S. forces in order to enlist in the R.C.A.F. at the outbreak of the European war, as an AC2 aero-engine mechanic, later remustering to aircrew. Before succeeding to his present command, he led an R.A.F. squadron of the Desert Air Force.



ROSETTE DOILIES: The beauty of these crocheted doilies add that look of luxury to your home. They are handiwork that endures.

Two different sized rosette doilies are given. Pattern 973 contains directions for doilies; illustration of stitches; list of materials.

Send 20 cents for this pattern to The Nelson Daily News, Needlecraft Dept., Nelson. Write plainly pattern number, your name and address. Patterns will be mailed to your home in about 15 days. There may be some further delay in delivery because of the large increase in orders during the present season.

TODDLER'S PATTERN: She will look just like a doll in Pattern 9124. Includes two dainty frocks, bonnet, rompers, slip and panties. All of them easy to make.

Pattern 9124 in toddler sizes: 6 months, 1, 2, 3, 4, 5 years. Size 2, bonnet and dress, 1⅞ yards 35-inch fabric.

Send 20 cents for this pattern to The Nelson Daily News, Needlecraft Dept., Nelson. Write plainly pattern number, your name and address. Patterns will be mailed to your home in about 15 days. There may be some further delay in delivery because of the large increase in orders during the present season.

Porcupine Club Sends 5 Cartons to V-Bundles

GRAY CREEK, B. C.—The Porcupine Club met at Gray Creek Hall when those present were Mrs. Benthien, Mrs. Anderson, Mrs. Lymbery, Mrs. Wolfhard, Mrs. George Oliver and Mrs. Clark. Five cartons of quilts and clothing have been sent to V Bundles since February.

The Overseas Christmas Parcels were discussed and Mrs. Clark was asked to buy required socks and cartons. It was resolved to put up a notice asking for donations and to pack the parcels at the October meeting, members bringing home-baking and candy.

Mrs. George Oliver asked if the Porcupines would help the Rod and Gun Club put on a whist drive for funds for Overseas Parcels. It was agreed to help and to supply the supper.

KASLO

KASLO, B.C.—Mr. and Mrs. Jack Hendren and small daughter Judith, were guests of Mrs. Hendren's father, A. L. Grayling.

Mrs. W. Hendren left on Thursday to spend a month with friends at Alert Bay and Squamish, B.C.

Mayor and Mrs. A. Davidson of Calgary are guests of Mrs. C. Moore at Mirror Lake.

Mrs. T. A. Powell of Edmonton is visiting Mirror Lake with her daughter, Dr. Marion Irwin.

Mr. and Mrs. George Amas of Newport, Wash., have been guests for the past week of Mr. and Mrs. Percy Amas.

Dr. W. Irwin has left for Moose Jaw, Sask., after a vacation spent at his Summer home at Mirror Lake.

Mrs. A. Brown has as her guest at her Mirror Lake home, Mr. and Mrs. W. H. Colley of Calgary.

After a few days spent with her parents, Mr. and Mrs. John Alm, Mrs. Charles Gould has left for Vancouver.

Tony Hansen has returned to Poplar after a week in Kaslo.

Mr. and Mrs. E. J. Leveque and daughters Marion and Audrey of Rosebery, were recent guests of Mr. and Mrs. C. R. Fahrni in Kaslo.

Pat Diney of Johnson's Landing is attending school in Kaslo and has taken up residence with her sister, Mrs. C. Anderson.

Mr. and Mrs. Charles Bowker were shoppers in Nelson Friday.

Mrs. H. Beck was a recent visitor to Nelson.

Sgt. Frank Green of Nelson, Trail Killed in Crash

Sgt. Frank Green of Nelson and Trail lost his life in an air crash overseas, his father H. Green, former Nelson post office employee, at Calgary, has been advised. Sgt. Green and his crew were returning from R.C.A.F. night operations July 24 when their plane cashed 1½ miles Northeast of Slingsby, Yorkshire, England.

A private funeral was held in the little English church where five months earlier he had been married. Burial was in London, home of Sgt. Green's wife, at Finchly Cemetery.

Sgt. Green was born at Carroll's Landing, May 27, 1921 and attended public school there. He lived and attended High School at Nakusp for three years. Later, on moving to Nelson he was employed at Cuthbert Motors Ltd. From Nelson he went to Trail to work for the C. M. & S. He was active in all sports.

He enlisted May 23, 1942 at Nelson in the R.C.A.F., graduating August, 1943, at Macdonald, Man., as a wireless air gunner. He went overseas a year ago, and was shortly to have been commissioned as a pilot officer.

Surviving are his wife, Mrs. Helen Green of the W.R.N.S., stationed at Bournemouth, England; his father, Lac. H. Green, R.C.A.F., Calgary; two sisters, Mrs. W. Gregory at Nakusp and Mrs. J. Adshead at Makinson; and four brothers, Arthur, with a tank corps in Italy, Leslie, David and Clifford at Vancouver.

Japs Claim 816 Allied Planes Lost

NEW YORK, Sept. 14 (AP)—The Japanese in a broadcast Imperial headquarters communique today claimed they had destroyed or damaged 816 Allied planes during August, including 28 B-29 Superfortresses said to have been shot down in the Western mainland of Japan. Superfortresses carried out two major operations during August against the Japanese homeland. Washington announcements said seven were lost.

Calgary Livestock

CALGARY, Sept. 14 (CP)—Cattle market steady on good butcher cattle. Good stockers and feeders steady. Common stockers hard to sell. Veal calves slow.

Today's receipts: 115 cattle, 18 calves, 158 hogs, 31 sheep.

Good to choice butcher steers 10.50-11; common to medium 9-10.25. Good to choice butcher heifers 9.50-10.50. Good cows 7.50-8.25. Good bulls 5.75-6. Good stocker and feeder steers 8.50-9.50. Stock cows and heifers 5.50-8.50.

Good to choice veal calves 9-10; common to medium 7.50-8.50.

Hogs yesterday 16.60 for A's at yards and plants. Sows 9.25 at yards and plants.

Good lambs 10.50-10.65.

Barley: All futures at ceiling prices of 64¾B.

Cash prices: Oats: 2 C.W. 51½; ex 3 C.W. 51½; 3 feed 51½; ex. 1 feed 51½; 1 feed 51½; 2 feed 50; 3 feed 48½; track 51½.

Barley: All at ceiling prices 64¾.

Rye: 2 C.W. 89⅜.

Market Trends . . .

NEW YORK—Stocks generally continued to back water although scattered issues breasted the current for modest recoveries.

Canadian issues were weak. Distillers Seagrams and Lake Shore easing ⅛ each, Hiram Walker ½ and C.P.R. ¼. Dome Mines bucked the trend to gain ⅛.

MONTREAL—Trends were steady to lower. Losses were small.

TORONTO—Selling speeded up on price weakness and the result was a fairly wide decline generally.

The senior golds held fairly well. Lake Shore lost ¼. Bralorne and Hollinger were down minor fractions and Dome gained ½ to 26.

Steep Rock sold back to 3.15 in active trading and recovered part of the loss. Labrador dropped 40 cents, Falconbridge 20 and Pend Oreille 10.

VANCOUVER—Both Mines and Oils were on the downward track.

CHICAGO — Wheat, corn and rye were weak in late futures trading but oats and barley were firm to strong in quiet markets.

At the close wheat was ½ to 1⅛ lower than yesterday's finish, September $1.56⅞. Oats were unchanged to ⅛ higher, September 50⅞-60⅛. Rye was off ⅞ to 1¼, September 93⅛. Barley was ¼ higher to ⅛ lower, September 99½. Compared with todays opening quotations, corn closed ¾ higher to 1¾ lower, December $1.07⅛.

WINNIPEG — Rye futures prices touched seasonal lows, declines ranging about three cents a bushel.

United States houses have been heavy buyers in the export market, taking around 7,000,000 bushels of oats yesterday and today, while the United Kingdom took 100,000 bushels of wheat today, and 200,000 bushels of No. 3 Northern were sold for Greek relief shipment.

Three Jap-Americans Convicted for Refusal Bear Arms

BOISE, Idaho, Sept. 14 (AP) — Three Americans of Japanese ancestry, each of whom testified that he regarded himself as a citizen of Japan, were convicted in Federal Court here yesterday of refusing to bearing arms for the United States. They were Jim Hajime Akutsu, 24, his brother, Hitoshi GeneAkutsu, 18, and Yoshito Smith Nayami, 19, all of Seattle. The defendants were the first of 35 indicted by a Federal grand jury on similar charges.

Gestapo Commit Horrible Crimes at Brussels

By HAROLD MAYES
Reuter War Correspondent

BRUSSELS, Sept. 14 (CP-Reuter).—Atrocities committed by the Germans were described vividly when I visited the former Gestapo headquarters in a peaceful Brussels street.

Men were herded into tiny compartments measuring only three feet square by three feet deep and subjected to torture if they refused to talk.

Others were placed 40 and 50 in a room only nine feet by seven.

Pregnant women were kicked in the stomach and burned with lighted cigaret ends. Thousands of citizens were subjected to horrible treatment.

In one small room with light and air from only one small grating in the pavement 24 people were herded.

One person was allowed out each day to be given an opportunity to talk.

Their daily food was a small piece of black bread and a mug of thin soup not much thicker than water.

Prisoners were strung to the ceiling by their feet and bludgeoned with metal-loaded rubber truncheons. Their fingernails were pulled out.

My informant was a 57-year-old Brussels warehouseman, father of 10 children, who was accused of fraud and illicit transport of arms from Paris to Brussels and was in prison for four days last July.

Public to See Fire College Drills, Contests

A considerable number of features of the British Columbia Fire Chiefs Association fire college will be open to the public. The four-day college opens here Monday.

Sections of the college open to the public will be lectures and pictures at the Legion Hall on Monday and Tuesday evenings. Tuesday afternoon there will be auxiliary fire services and special contests at the Ball Park. Also open to the public will be the demonstration of fire fighting equipment at the Ball Park on Wednesday afternoon.

On the final day of the college, Thursday, the public will be able to watch the full program from morning till late afternoon, these including first aid contests, rescue contests and fire department contest drills.

EXPECT SEED CROP TO REACH $50,000 AT GRAND FORKS

GRAND FORKS, B.C.—First carload of vegetable seed from the district for export has now gone forward. Crop conditions through the valley are not quite so good as in July, but the output of the district will run upwards of $50,000 more than last season, according to local authorities.

Misunderstandings on Ceilings Brings Fines for Merchants

While butchers must pay six cents per pound for sliced bacon than for slab bacon the retail ceiling price is the same. This fact was brought out when three Nelson butchers appearing before Magistrate William Brown in City Police Court Thursday morning pleaded technically guilty to the charge of exceeding the ceiling prices.

It was also brought out that retail prices of lard, under the ceiling, must represent fixed mark up on wholesale prices and if a merchant on a fluctuating market makes three or four purchases of the same grade of lard he is, therefore, in a position of selling at varying prices for the same quality.

The three merchants involved were the Butcherteria and the Fairview Cash Grocery and Burns & Co., Ltd., A. E. Rosse, Manager. Butcherteria and Fairview Cash were fined $50 an each case and the Burns Company $75.

W. W. Ferguson acted as counsel in the three cases for the Wartime Prices and Trade Board while C. H. Hamilton represented the Burns Co. and Mr. Shorthouse appeared for Butcherteria and Fairview Cash.

The cases followed a large number of others recently in Rossland and Trail.

Mr. Shorthouse made the following statement to the Magistrate in explanation of the difficulties of interpreting the regulations:

"Referring to the lard price in question, I might say that we had, earlier in the year, purchased from a local wholesale house, 30 pounds of lard in one-pound packages at a price of 12½ cents a pound. Since lard is a very slow moving line with us and since we had other brands to dispose of, we placed it in the freezer for safekeeping, where it had been overlooked.

"We had since purchased lard at the increased price of 14½ cents and when I printed my more recent list, I had based the selling price on the more recent cost

"With regard to the bacon price. There has been a good deal of misunderstanding in relation to the markup of this commodity and when I listed bacon, I first got in touch with the local Board and was advised by them my price was in line.

"I learned from them at that time the Board in Vancouver had not clarified the bacon order in this respect.

"There was a good deal of opposition to the order for the reason that the packing houses' price to the retailer on sides of bacon was 32¾ cents and the sliced being 38¾ cents allowing packers six cents a pound spread for the time and waste which goes with the operation of slicing.

"This was how we arrived at our retail price and we had never knowingly been notified to the contrary."

$275 in Fines From Boeing Skiers

NORTH VANCOUVER, B. C., Sept. 14 (CP)—Fines totalling $275 were meted out in police court today to 10 members of Boeing Ski Club who pleaded guilty to a charge of "entering a closed forest area, without first obtaining an authorized permit."

William Parker President of the Club, was fined $50, with the option of 60 days in jail.

Nine others were fined $25 or 30 days.

They are: Clark Williams; William Turner, Phyllis Lucas, Rhoda Olsenberg, Muriel Johnson, Florence Johnson, Kay McLeod, Frances McKnight, and Hilad Gerein.

Canadians in Japan May Send Cables

OTTAWA, Sept. 14 (CP)—Possibility that Canadian prisoners-of-war in Japan may shortly be able to send 10-word cablegrams to their next-of-kin in Canada was seen here today with the announcement from Red Cross officials in Washington that such an arrangement was in prospect for American prisoners.

An External Affairs Department spokesman said that the Canadian Government had been working with other Allied powers for some time in an effort to arrange for cablegrams from nationals in Japan.

Under the United States plan the cables will be paid by the American government. A Canadian plan proposed that the cables be paid by the receiver.

The United States messages will be forwarded from prisoner areas to Tokyo where they will be censored, then sent to the International Red Cross at Geneva for relay to the United States.

The United States agreement is not expected to become operative for at least a month. It is not known immediately whether the Japanese Government has approved the Canadian proposal.

Big U.S. Oil Company Registers in B.C.

VICTORIA, Sept. 14 (CP)—One of North America's biggest oil companies, Socony-Vacuum Company, Standard Oil Company of New York, today was extra-provincially registered under the Companies' Act.

Socony, in its registration papers, informs the Registrar of Companies that "the principal business which the company will carry on in the province is geological and other exploratory work in connection with oil development."

B. C. Representatives of Socony-Vacuum are Buell, Ellis and Sargent, Vancouver. Capitalization is $100,000.

Water Level

Controlled level of the West Arm at Nelson, at 1 p.m. Thursday by the Dominion Public Works gauge, was an even five feet, a gain for the 24 hours of .02 foot.

Interpreting The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

Quebec, Sept. 14 (AP)—The arrival of Foreign Secretary Eden to join the Quebec conference circle has stirred speculation as to whether there might have been developments in the Europen war theatre calling for the instant attention of Prime Minister Churchill and President Roosevelt.

Until there is more official light on Mr. Eden's trip, its possible connection with an early collapse of organized German resistance cannot be ruled out.

There have been startlingly swift developments in the West since Messrs Roosevelt and Churchill reached Quebec which London has translated into estimates that six weeks or less will see the end of major hostilities in Europe, whatever mopping-up of isolated enemy groups remains to be done.

Such predictions find no echo in conference circles. The stress of all official outgivings here has been kept continuously upon the war beyond in the Pacific. It is certain, however, that the war maps at Chateau Frontenac show a more detailed picture of the situation on the Western front than is available to the public.

That is a matter of tactics rather than strategy. It is calculated to keep the Germans uncertain as to whether the main blows will fall in the gigantic multi-army vise which Gen Eisenhower is closing upon the Rhineland hump, West of the river itself, from the Maastrict gateway to the Lorraine and Belfort gaps.

What is disclosed tends to confirm the view of some military observers that at least the outer section of the "West Wall" is definitely lacking in defensive qualities. It was constructed, in their view, not to ward off attack but as the base from which the blitzkrieg that swept France out of the war was loosed.

Poles and Russ to Exchange Populations

MOSCOW, Sept. 14 (AP). — The Soviet-sponsored Polish Committee of National Liberation signed an agreement today with the Soviet Republics of the Ukraine and White Russia to exchange populations.

(Great sections of pre-war Eastern Poland, generally to the Curzon Line, have been claimed by Stalin as part of the Ukraine and White Russia.)

The agreement provides that all Polish citizens as of Sept. 15, 1939, living in the Ukraine or White Russia may move voluntarily to Poland. Ukrainians and White Russians living in Poland may move voluntarily to Russian territory. Hundreds of thousands are affected.

Under the terms, persons evacuating Poland may join collective farms or "receive a piece of land for the individual household." Persons moving to Poland "also will receive land in compliance with the agrarian laws of Poland"—under which the committee already is splitting up great estates.

Other terms removed tax debts, exempted evacuated households from taxation and insurance duties for two years and awarded a sum to evacuated households to be repaid over a period of five years.

The old Spanish mission at Santa Barbara, Calif., has been in continuous use since its founding.

ATTENTION HUNTERS

The Hunting Season Opens Today, Sept. 15th, and we quote below the regulations regarding the purchase of ammunition:

The Allotment

(a) Every person possessing a registered Rim Fire rifle is entitled to 100 Rim Fire cartridges. Persons possessing more than one Rim Fire Rifle are still entitled to only 100 Rim Fire cartridges.

(b) Every person possessing a registered shot gun is entitled to 50 shot shells. Persons with more than one shot gun, irrespective of gauge, are entitled to only 50 shot shells. Within this limit of 50 they may purchase some of each gauge.

(c) A person possessing both registered Rim Fire rifles and registered shot guns is entitled to a maximum of 100 Rim Fire cartridges and 50 shot shells, irrespective of the number of Rim Fire rifles and shot guns he possesses.

(d) No person with a registered Centre Fire rifle is entitled to Centre Fire cartridges for sporting purposes.

(e) Essential users are entitled to apply for ammunition for sporting purposes in addition to their allotment for essential purposes.

The Hunter

(a) No hunter is entitled to ammunition unless his firearms are registered.

(b) Application must be made to the Local Ration Board (in Nelson, apply to Game Warden's office in Medical Arts Bldy.) The applicant must present both his gun registration certificate AND his ration book or card.

(c) If the Local Ration Board is satisfied with the application it will issue a Hunter's Purchase Permit for Small Arms Ammunition.

(d) Permits will be issued from August 15th to September 30th inclusive. No Hunters' Purchase Permits for Small Arms Ammunition will be issued after September 30th.

(e) Hunters may use the permits for purchasing ammunition from September 1st to December 31st, 1944, inclusive.
