HURL ANOTHER 4500 PLANES AGAINST NAZIS

119 German Planes Bagged in Myriad of Daylight Smashes

START 25TH DAY

LONDON, May 8 (AP)—The Allied Invasion Command for the second straight day hurled 4500 planes against German defences today, blasting Berlin, Brunswick, Channel coastal emplacements and key rail targets and bagging 119 German planes.

The daylight smashes at myriad targets followed a night during which fleets of R.A.F. and Canadian bombers delivered heavy attacks on enemy targets in Northern France and Germany.

A morning attack on Berlin and Brunswick by nearly 2000 U. S. heavy bombers and their escorting fighters cost them 36 bombers and 13 fighters in great sky battles during which colliding Axis fighters and invading bombers occasionally fell looked in flames. (See page 3).

Fires from Sunday's raid still blazed in Berlin as the Americans attacked in a drizzling rain this morning, travellers from the Reich reported on reaching Sweden. Despite the bad weather bombs were said to have blanketed the centre of the city. One traveller said two or three bombs crashed into the ruins of Reichsmarshal Hermann Goering's spacious Air Ministry, which was hit Sunday.

A second formation of less than 250 American heavyweights in the afternoon attacked rail yards near Brussels, Belgium, and coast fortifications in the Calais and Cherbourg areas of France. Five bombers were lost on that mission.

Fighting deep inside Germany and five miles above the earth in 45-below-zero temperatures the American heavy bomber airmen shot down 80 German planes, while their fighter pilot escorts accounted for 56, a communique said.

After darkness fell Axis radio stations began fading from the air, indicating the two-way Allied pre-invasion sky bombardment from planes based in Britain and Italy would continue into its 25th straight day.

Late in the day more than 300 American medium and light bombers carrying 900 tons of bombs and escorted by fighters lashed at German rail targets at Namur, Belgium an airfield at Evreux-Fauville and coastal installations in France. One medium failed to return.

Waves of R.A.F. mediums augmented the steady dismantlement of German anti-invasion defences, destroying two ammunition dumps and two important bridges near Nantes, Northwest of Paris on the main feeder route to German positions on the Channel opopsite England.

Fighter-bombers in a dusk attack also knocked out a double-track, eight-span rail bridge over the Otse River at Hirson, France, returning crewmen said.

Chinese Battle to Hold Jap Claws Apart

CHUNGKING, May 8 (AP) — Fighting raged unabated in all sectors of the Honan Province battle area today as the Chinese, severely pressed at Loyang in the North, desperately attempted to keep apart the claws of a Japanese pincers along the North-South Peiping-Hankow railway.

The Chinese High Command conceded that along the railway the Japanese had driven Southward from Siping to Suiping, leaving only a 14-mile stretch of the line in Chinese hands, but said a Northward thrust at Chumatien by the Southern claw of the pincers had been repulsed.

Another column, pushing Northwest of Yehsien from Hsiangcheng Sunday was halted in a Westward thrust against Lushan, a Chinese communique said.

Another prong of the many-sided Japanese campaign, advancing Northwestward in Northern Anhwei against Fowyang from Yingshang, was beaten back in a counter-attack, the communique said.

The Chinese High Command said fighting South of Loyang continued Sunday "at the same place," six miles South of the city.

3 YRS. FOR MEN DOUKHOBORS; WOMEN GET 2½

Two Sisters Protest When Acquitted; Disrobe in Court

VANCOUVER, May 8 (CP)—Nine male members of the radical Sons of Freedom Doukhobor sect were sentenced to three years in penitentiary and five female members to 2½-year terms in Police Court here today at a session highlighted by two disrobing scenes. (See page3.)

The 14 were charged with parading in the nude after a Doukhobor ceremony in Stanley Park here last night.

Six other members of the sect—three men and three women—were arrested on nudity charges after they began to disrobe in Police Court today when Magistrate H. S. Wood refused to allow all six to appear as counsel for one of the defendants.

Two sisters in their early 20's—Pauline and Laura Reganoff—protested when acquitted on the nudity charges by Magistrate Wood and began to disrobe. They had taken their coats off when burly police officers rushed them to a police cell.

The two sisters were returned to court a few minutes later and fined $20 or a month in jail on charges of failing to produce registration cards. Similar charges against the 14 others were not proceeded with.

Sentenced to three years were:

John Strelioff, 29, Alex Legebokoff 36, Sam Salkikin, 43, Peter Holodin 33, Bill Pondnikoff 46, Tim Samarodin 25, Fred Babakaiff 30, Mike Bayoff 36, Fred Storgoff 48.

Sentenced to 2½ years were:

Helen Demoskoff 36, Mary Legebokoff 33, Pauline Kolodinin 30, 22, Lucy Savinoff 35.

Arrested on nudity charges today were:

Lucy Malakoff 19, Florence Perebolkin 22, Ann Rezansoff, 25, Pete Malow, 20, Tom Rezansoff, 11, Fred Antafaoff 23.

The six charged with nudity following the undressing parade in the court room today will probably appear in court tomorrow.

Police said tonight they were unable to locate a half dozen members city. They have not returned to their of the delegation still at large in the hotel and did not appear in court today along with the six who removed their clothing during the hearing.

Varying techniques were employed by the strippers in their two demonstrations here. Outer garments such as coats, were removed first and kept close at hand. Most demonstrators in the park scene then loosened the rest of their clothing and slid the garments down around their waists. Several more stanzas of a hymn were then sung before the demonstrators slid their remaining clothing down past their knees and remained standing naked in the coil of garments on the ground.

Some demonstrators, however, undressed in casual going-to-bed fashion, one garment at a time, placing each article of clothing in a neat pile to one side. Today's court room disrobing was accomplished in hurried manner.

The start of the undressing in the park here was heralded by an increase in the tempo and enthusiasm of the hymn singing.

The enthusiasm of part of the park audience also increased at this point and rihald cries of "Take it off—take it off" added a burlesque air to the show.

U.S. Bombers Strike Guam

PEARL HARBOR, T. H., May 8 (AP) — Land-based American bombers attacked Guam, former American island in the Marianas group, last Saturday for the second time in this war, United States Pacific Fleet headquarters announced today.

The daylight strike brought up enemy interceptors, approximately half of which were shot down. All American planes returned.

The raid was made by Navy and Army four-engined planes.

Pilots said they shot down seven Japanese interceptors, the press release said.

Headquarters also disclosed that on the same day, May 6, other American planes attacked the enemy from Paramushiro, in the Northern Kuriles, down through the central Pacific.

Westgate Found Guilty of Murder to Hang July 24

WINNIPEG, May 8 (CP)—Albert Victor Westgate, 43-year-old mechanic, tonight was convicted of murdering Grace Edith Cook, 16-year-old Winnipeg waitress in a downtown hotel Dec. 4, and sentenced to be hanged at Headlingley Jail next July 24. (See page 3.)

A few minutes after a jury, which deliberated 3½ hours, found Westgate guilty, Mr Justice W. J. Major passed sentence on the man who had earlier served 14 years of a life sentence for the murder of a St. Vital woman in South Winnipeg in 1928. Westgate was paroled in June, 1943.

The hanging will take place between the hours of one and six a.m., July 24.

Defence Counsel Sir Charles Tupper announced no decision has yet been made regarding an appeal of the conviction.

"It is murder or nothing," Cr Justice W. J. Major told the jury in his charge. "There is nothing to show that there are any elements present to reduce the crime to manslaughter."

He sai dthere was "a fairly strong chain of circumstantial evidence," but should there be "any reasonable doubt" a verdict of acquittal must be returned.

Westgate, who had heard the death sentence pronounced upon him twice previously took the verdict calmly and without a trace of emotion. He told Mr Justice Major he had nothing to say when the usual inquiry was made. Throughout the trial he sat listlessly in the dock, only showing interest in proceedings occasionally.

After the sentence was read, he was taken to the Vaughan Street detention home and later removed to a death cell at Headingley Jail, 12 miles West of Winnipeg.

Weather Forecast

Okanagan and Kootenay: Light winds, cloudy and cooler Tuesday; light winds partly cloudy and not much change in temperature.

VOTE 107 TO 20 TO BEAT BANK ACT AMENDMENT

Social Crediters Urge Issue of Debt Free Money

COLDWELL SPEAKS

OTTAWA, May 8 (CP) — The Commons tonight defeated by a vote of 107 to 20, a Social Credit amendment asking that the bill revising the Bank Act be not read a second time and that currency and credit powers be taken from chartered banks.

C.C.F. Members and Liguori Lacombe (C.D.N. — Laval - Two Mountains) and J. S. Roy (Ind.—Gaspe) voted in support of the Social Credit amendment.

The Progressive Conservatives voted with the Government in defeating the amendment.

J. H. Blackmore, Social Credit House Leader, said Social Crediters urged the issue of debt free money as a means of effecting control over currency and credit without socialization of the banks. The money issued should be based on the country's production.

If the Social Credit party had appeared to stress less the question of debt free money it was because the Government and its "menials" had "whined" about the effect of Social Credit arguments on Victory Loans.

It was an "abomination" to see that Canada with all its resources should only have 1.86 years of prosperity for each year of depression, he said. It was possible to avoid depressions by proper monetary policies.

Victor Quelch (S.C.—Acadia) said credit expansion had come in Canada after the war started and should have been available in earlier years when there was unemployment and resources awaited developments.

Rev. E. G. Hansell (S.C.—Macleod), speaking after Mr. Rose, said it was "refreshing" to see the Liberals had obtained some support."

Mr. Hansell said he would support the C.C.F. in its amendment asking consideration of nationalizing the banks.

OTTAWA, May 8 (CP)—M. J. Coldwell, C.C.F. Leader, today asked the Commons to consider the placing of chartered banks under national ownership and public control to promote peace, order and good Government for the people of Canada.

Speaking during debate on second reading to a bill revising the Bank Act, he moved that second reading not be given the measure, but rather that the House consider nationalization of the banks.

He said:

"We contend that a banking and financial system, owned and controlled by the nation, backed by all the resources of Canada, would give greater safety to the savings of the people of Canada than institutions whose self-perpetuating directors are responsible to none but their own shareholders and whose associations have jeopardized the savings of the people in the past, and whose policies have brought to the verge of ruin thousands of farmers, workers and business men.

Mr. Coldwell spoke after Hon. R. B. Hanson (P.C.—York-Sunbury) said that the proposals of the "Socialists" to nationalize the banks carry with them a most sinister threat to individual freedom and liberty and therefore to the privilege of democratic living in a free country."

"Commercial banking in Canada permeates all sections of business activity and affects practically every form of economic endeavor," said Mr. Hanson.

Mr. Coldwell said the failures of the present banking system were made apparent by the war which had proved that what was physically possible and desirable was equally financially possible.

The speech Finance Minister Ilsley had made on second reading of the bill was "political and provocative," he said.

"Adequate expansion, nation-wide employment, require a planned use of our resources, our human power, our capital equipment and our financial instruments. In such a setting the nation's bank should accurately reflect the nation's demand for credits and for funds. Where private enterprise and governments both fail to use the financial resources available, the economic structure verges on a state of entire collapse, a publicly owned central bank alone cannot prevent it, for the actual granting of credits rests with privately owned, profit-motivated institutions."

It was on these grounds that the CCF called for national ownership and control of the financial system, and particularly the banks.

The Royal Bank, the Bank of Commerce, the Bank of Montreal, the Bank of Nova Scotia, control more than 70 per cent of all bank assets, said Mr. Coldwell, the four banks and the six insurance companies, Sun Life, Canada Life, Great West, London Life, Manufacturers Life and Mutual, controlled more than 70 per cent of all the banking and insurance assets in Canada.

Mr. Hanson asked if any imagined that "if the banks of this country were brought under government ownership they would be administered free of political control, in the best interest of the business community and the nation as a whole."

"To contend otherwise is to be intellectually dishonest, especially in the light of present conditions," added Mr. Hanson.

"I have said without fear of contradiction that business often depends for the financing of its operations upon bank loans. It is quite evident, to myself at all events, the threat of withholding loans at a crucial time would be used to coerce borrowers into falling in line with the views, political or other, of the controllers of the banks.

"That has been the position in Germany, it has been true in Russia, where there is only one political party. In these countries and in this country if the Socialists have their way, you will support the dominant political party, or else! Make no mistake about that. Is that democracy? Is that the freedom for which we are fighting and giving our treasure, for which our sons, perhaps, are dying?"

Mr. Hanson said the Progressive Conservative Party was not offering any amendment to the bill at the present time, but "I do not want this House or the country to take the view that we are giving blanket endorsation to the bill, far from it. We think the bill can be improved by constructive suggestions."

Malkhov Hill Last Barrier Ahead

Red Army Charge at Main Defence Lines Killing 4,000 Nazi Troops

LONDON, May 8 (AP)—The Red Army has cracked the main Axis defence belt at Sevastopol, killed more than 4,000 Germans and won hilltops dominating that besieged Crimean fortress, Moscow announced tonight.

Russian troops now are fighting at the immediate approaches to the city, said a supplement to the Soviet communique, as Soviet planes hurl "thousands of bombs on enemy positions" in the final all-out drive to crush the trapped German-Romanian garrison dug into caves bordering the city.

The 4000 Axis dead were slain in a single sector where the Russians blew up 36 pillboxes and 27 blockhouses in their victorious charge, Moscow said.

Russian troops supported by masses of planes and powerful artillery fire began the final storming of positions held by an Axis garrison of perhaps 25,000 men on Sunday.

In two days the Russians advanced about four miles through a widely developed system of reinforced concrete fortifications erected since the German capture of the city July 2, 1942, and captured Inkerman, only two miles East of the city.

Ahead of the charging Russian infantrymen lies the last formidable barrier before Sevastopol, Malkhov Hill, whose seizure in the Crimean War of 1855 determined the surrender of Sevastopol.

Two lighthouses also were seized in the Inkerman area, both at the top of the Chronaya Estuary which forms Sevastopol's valuable bay.

Lyubimovka and Mekenzievy Gory rail stations, from two to three miles North and Northeast of Sevastopol, also were engulfed.

Karan, about three miles North, west of Balaklava, captured by the Russians April 19, was among the points seized on the Southern side of the city. Karak is 5½ miles South of Sevastopol.

ENEMY LOSING HEAVILY IN INDIA FIGHTING

Attempt to Seize Bases to Hide During Monsoon

KANDY, Ceylon, May 8 (AP)—Japanese troops are counter-attacking strongly in the Manipur Valley of Eastern India in an effort to regain positions recently lost and are suffering "disproportionately heavy losses," Admiral Lord Louis Mountbatten's headquarters announced today.

The enemy apparently is making an all-out effort to seize and consolidate a series of weather-proof bases in which to hole up during the imminent monsoon rainy season.

Heavy fighting continued around mountain-locked Kohima without material change in positions, with British and Indian forces holding firmly to the main part of the town. Allied patrols, pushing Northward from Imphal toward Kohima, gained six miles from their last announced position and now are 28 miles beyond Imphal, Mountbatten's communique said.

Allied air borne Commandos operating in central Burma ahead of Lt.-Gen. Joseph W. Stilwell's advance down the Northern valleys attacked a Japanese column on the road between Myitkyina and Bhamo, destroying transport and inflicting casualties on the enemy, Mountbatten announced.

This was the first official disclosure that the "Chindits" were operating in the Bhamo area.

Sink Three Ships in 48th Straight Raid on Caroline

ALLIED HEADQUARTERS, NEW GUINEA, May 8 (AP) — Allied bombers have heavily pounded the Wakde Island 120 miles Northwest of captured Hollandia, and the Southern Island group 140 miles beyond headquarter ssaid today.

Escorted heavy bombers hit Mokmer airdrome on Biak Island in the Schouten group three times, downing 10 enemy interceptors.

A total of 295 tons of bombs was unloaded on Wakde Island's airdrome and ramp and supply areas and on the Japanese Sarmia base on the mainland nearby.

Heavy bombers based in the Solomons sank three small enemy cargo ships near Truk in the Central Caroline. It was the 48th consecutive day of attack on the Caroline Islands.

Cape Hoskins airdrome on the North Central coast of New Britain has been occupied by American marines without opposition, a spokesman said.

Boards Endorse Using U. S. Route

Corridor Plan Wins Tho' Opposed; Urge Standardizing Kootenay Link

TRAIL, B.C., May 8—Delegates to the 44th annual convention of Associated Boards of Trade of Eastern British Columbia dealt with nine of 20 resolutions in a three-hour session here this afternoon.

A Rossland Junior Board of Trade brief on Doukhobor and Japanese problems in Kootenay District, read by Howard Bayley, was added to the original 18 resolutions for later discussion. The brief stated the problem with Doukhobors was largely one of a religious nature, while in the case of the Japanese the color bar was probably the most vilent feature.

The Sons of Freedom had been an evil factor throughout the whole history of the Doukhobor people in Canada, it stated. Problems confronting the Government were listed as removal from the District of all Doukhobors not willing to become law-abading citizens, the fact that some Doukhobors were industrious and law abiding, strong mutual distrust between Doukhobors and other members of the community, and the contentious problem of military service, which required prompt action.

It was recommended that representation be made to the Provincial Government that a commission be established to investigate the entire question.

DEPORT JAPS OR SPREAD 'EM

Two courses of action in regard to Japanese were suggested, repatriation of all Japanese to Japan, or dissemination of the entire group across the Dominion so that numbers residing in any one locality could be absorbed without serious effect. It was recommended that representations be made to both Provincial and Dominion Governments requesting joint establishment of a Commission to investigate the problem thoroughly.

Another Rossland resolution, urging establishment of a District Office of the Dominion Income Department which would be able to advise citizens on tax problems, was adopted.

During discussion it was suggested that the office might be located in Nelson to serve both East and West Kootenays.

Trail's resolution asking removal of the toll over the Canyon Highway between Yale and Lytton was adopted. Frank Putnam, M.L.A. Nelson-Creston, told the meeting that about $80,000 a year used to provide maintenance of the highway was collected.

AIR SERVICE

When Trail's resolution asking establishment of feeder lines connecting points in Southern Interior of British Columbia with main lines of Trans Canada Air Lines, was brought up, the Resolutions Committee asked to have a late Cranbrook Air Transport resolution dealt with at the same time. The two motions were referred back to the committee for amendment. Cranbrook's resolution asked representation to the Federal Government for inauguration of an airway service system in the District. An accompanying letter from the Spokane Chamber of Commerce was also read. The letter, addressed to the Cranbrook Board, anticipated a network of air lines radiating from Spokane to Northwest Pacific and to Southern Interior British Columbia. A meeting in Spokane was to take place soon, it said, and representatives from British Columbia would be invited.

A third resolution asking support of the request of the Senate and Board of Governors of University of British Columbia for dormitories for men and women, to cost $550,000, and asking the Government that high priority be given for such dormitories in any building program at the university, was also adopted.

Discussion of a Trail resolution asking that cost of education become a charge on the consolidated revenue of the Province was long, and wound up in an amendment by Guy Constable of Creston, that noted with satisfaction the Government had promised to appoint a commission to deal with education costs, and urging equalization of education costs throughout the Province.

The amendment followed Mr. Putnam's advice that the commission was planned. He thought that tax on land for education costs should be lessened, rather than taken off entirely.

Trail's proposal that the Associated Boards give serious consideration to formulating and implementing a publicity program and information service with the object of attracting the largest possible volume of expected large post-war tourist traffic, received adoption after discussion. The resolution, it was stated, was an outcome of the meeting last Fall of District men and Victoria authorities with Spokane men, when a cooperative plan to prepare for tourist travel was discussed.

Twelve Spokane men will be in Trail Tuesday to take part in another conference on this subject.

Nelson's proposal urging completion of the Southern Trans-Canada Highwby as a main post-war project, including standardization of the section between Crow's Nest and Castlegar, a shorter ferry route across Kootenay Lake, building of bridges at Nelson and Castlegar, and a speedy decision on the route to be followed from Castlegar West, was adopted.

Display of a large map of the area involved, and presentation of a brief, was made by the Rossland Junior Board of Trade delegate, W. R. Selby, when the Rossland resolution asking endorsement of a route from Rossland to Cascade via Paterson and Latrier through the Colville National Forest Reserve in the United States was brought up. Lengthy debate preceded adoption of the resolution.

ASK AMERICAN CORRIDOR

The Rosslanders pointed out that careful consideration of three Canadian alternate route had been made. The route through the United States offered lower altitudes, the maximum being 3400 feet at Rossland, and a year-round road, where snowfall averages were much lower than in the present Cascade Highway link. It was suggested that the road would be sealed, and cars would travel "in bond." Cost of a 24-hour customs service at both ends would be considerably less than winter maintenance alone on any other route.

New Denver and Nelson delegates opposed the proposal, pointing out that a route through the Arrow Lakes was the only practical route, and foresaw delay in further work on roads already established in this area. C. F. McHardy of Nelson argued that Government engineers should be consulted before decision was made on a permanent route.

W. G. Ternan, veteran Associated Boards member, pointed out that diverting of the route through the Arrow Lakes would mean by-passing of about 30,000 people in the Trail Rossland area.

Stanley Orris, Grand Forks delegate, expressed support of the Rossland proposal, and discussion was climaxed by a spirited appeal from T. A. Love of Grand Forks for the U.S. route. Mr. Love proposed that a "corridor" on a lend-lease basis from the States, would be possible, suggesting that cooperation could be expected from the American Government. In discussing the plan in Washington, he had found approval from five Senators, and nowhere had he found disapproval.

Germans Claim Commandos Land in Italy

LONDON, May 8 (AP)—A Nazi Germany, seething tonight with anti-invasion preparations, boasted of super-fortifications and drummed pep talks into her populace, while she tightened her Western ramparts against the expected blow.

DNB reporter Karl Schulz reported the beaches of Nice had been converted by the Todt labor organization into "the strongest fortifications in the world," with "guns of all calibres hidden under reddish-brown stones or green nets."

From Berne it was reported Fascist officers said Allied Commandos based in Corsica and Sardinia had landed on the Ligurian coast of Northwestern Italy within the last few days on patrols preparatory to invasion.

The report was unconfirmed by Allied quarters.

U.S. Continues Raids on Kurile Islands

WASHINGTON, May 8 (AP) — Air attacks on Japan's Kurile Islands were continued Saturday with a raid by Navy planes on Paramushiro, the Navy announced today.

An enemy plane was shot down near Lulu Island, in the Caroline group.

American Firm to Take Over Control of Gold Belt

VANCOUVER, May 8 (CP) — **Bids of independent shares in Gold Belt Mining Co., Ltd., was considered and ordered passed by shareholders at an extraordinary general meeting held here today.**

Gold Belt Mining Co., will now pass into the hands of North American Mines, Inc., Boston, which prior to today's meeting held 1,237,000 out of 2,500,000 shares issued.

A recently-issued memorandum notified shareholders that the American company offered $130,000 for mine, mill and physical assets.

The meeting authorized reduction in capital from $1,500,000 to $843,500 by payment of 31¼ cents a share to independent shareholders through a fund of $413,500 paid London and Western Trusts Co., Ltd.

The memorandum also revealed that Gold Belt operations were halted by a shortage of labor last year and could not be resumed until after the war.

The company had $453,728 cash on hand, $50,000 in bonds, $133,853 in mining investments, accounts receivable of $4606, and an income tax claim of $15,000. Net assets after reserves were placed at $803,397.

HARTIN GIVEN ADJOURNMENT

VANCOUVER, May 8 (CP) — Another adjournment was given by Mr. Justice J. M. Coady in supreme court today today to Hilyard Hartin of Kaslo, B. C., in the latest suit of Mrs. Minnie Mead May's 20 years' litigation to recover the old Cariboo mining claims.

Hartin is being sued personally as trustee of the bankrupt Daybreak Mining Co., holder of the claims. He is appealing to the Supreme court of Canada from a recent decision of the B. C. Appeal Court permitting Mrs. May to proceed with her action against him as trustee.

Kootenay's Bond Scores

SIXTH VICTORY LOAN GENERAL CANVASS:

	Day's Sales	Total	Quota
Trail Unit	$31,400	$629,250	$950,000
East Kootenay	36,900	618,900	925,000
Nelson Unit	20,300	519,500	775,000

Windermere First Over Top in Kootenay; District a Third to Go

CRANBROOK, B. C., May 8—Windermere sub unit in the Victory Loan East Kootenay Unit sent word this afternoon by telephone that it had topped its $45,000 objective today by $1650 to become the Kootenay's first sub-unit to reach its quota.

W. H. Cleland of Invermere was sub-unit chairman, while the Canal Flat section of the Windermere sub-unit contributed substantially to the success when Newton Newman, its sales manager, reported today sale of $14,000 on the Flats' $12,000 objective. Also in the Windermere sub-unit the employees at Simon Ronacher Lumber Camp made appreciable purchases. All 16 of the Japanese employees at this camp made bond purchases. In topping its mark Windermere for the sixth time has led all East Kootenay sub-units in meeting its assigned objective.

East Kootenay Victory Loan unit reached the 67 per cent mark on Saturday's sales, according to official records here. Cranbrook holds second place with 82.09 per cent of its $215,000 quota. Fernie is third with 66.8 per cent of its $210,000 and Kimberley is fourth with 63 per cent of its quota, $240,000, passing rCeston with 62.5 per cent of its $145,000. Michel-Natal has 31.5 per cent of its $70,000 quota.

Subscribers to Saturday number 2684, far ahead of the fifth loan number for the same period when $892,000 less had been subscribed. Statistics follow:

	Sales	To date
Cranbrook	$ 1,450	$176,500
Creston	3,450	90,650
Fernie	10,250	140,650
Kimberley	8,500	151,450
Michel-Natal	100	22,000
Windermere	12,150	37,650
Totals	36,900	618,900

$51,100 a Day Needed to Meet Nelson Unit Quota; at Two Thirds Mark

Nelson District must send $51,100 a day for the next five days rolling in in Sixth Victory Loan purchases if the $775,000 general canvass quota is to be met.

Bonds to the value of $20,300 were reported sold Monday to step up the total sales to date to $519,500, just over 67 per cent of the objective.

A real boot to the special names list was given by a $25,000 purchase by an anonymous investor. Special names subscriptions to date amount to $125,000.

Leading the District still, was the Nelson sub unit, its sights set on a target of $500 invested for each one of this vicinity's 1300 men and women in uniform. Th einvestment already totals $430,250, over 71 per cent of the $604,000 allotment.

The weekend street entertainment, a publicity feature, attracted buyers of $600 in bonds to a sales booth here, it was reported Monday.

The day's sales and sub unit totals were:

Nelson	$ 15,200	$430,250
Kaslo	400	16,400
Nakusp	3,500	20,950
New Denver	450	42,900
Salmo	750	9,000
Totals	$ 20,300	$519,500
Special Names	$ 25,000	$125,000

TOAST and TEA

BY J. V. MCAREE

One of the oldest superstitions is that the ostrich sticks his head in the sand under the delusion that as long as he cannot see himself nobody else can see him. The thing has entered into our language as an everyday figure of speech and we suppose that it never will be relinquished. It seems too vivid—the picture of the ostrich, with his rear elevated, and his head and beak sticking in the sand. But the truth is that the ostrich never does this, probably has never done it since there were ostriches and desert sands from which the bird could refrain from blinding himself temporarily. The foundation for the superstition—and it is to be noted that nearly all superstitions have foundations—is that the young ostriches when alarmed probably by the shadow of a sailing eagle, will flatten themselves into the ground, spreading out their wings and thus camouflaging themselves. But they never bury their heads. When they grow older and are alarmed they run.

Would Warn Against Coming to Coast

VANCOUVER, May 8 (CP)—In an effort to relieve the wartime housing congestion here, Mayor J. W. Cornett said today the Federal Government will be asked to warn Prairie residents and those on non-essential missions against coming to Vancouver unless they have friends or relatives with whom they can stay. He added that he will also urge those who are not obliged to live in the city to seek accommodation in the Interior or other outside points.

American Planes to Bomb Yukon Ice Jam

DAWSON, Y. T., May 8 (CP)—American aircraft from Fairbanks, Alaska, have ben called in to bomb thet ice jam in the Yukon river here which has flooded part of this city, driven a number of families from their homes and made roads impassable.

The ice jam spreads form 20 miles below here extending into the mouth of the Klondike River at the South side of the city. River ice has backed up into the city and several streets are still under inches of mud and icy water. Ice jams moving down from Stewart and Coffee Creek may reach here soon and aggravate the situation.

No estimate has been made of damage done to river front docks and to homes in the path of the Spring flood.

Can't Prevent Doukhobor Trek to Coast

VANCOUVER, May 8 (CP) — Attorney-General R. L. Maitland of B. C., said in an interview tonight he did not see how anything could be done to prevent more Doukhobors from coming to Vancouver from the Kootenays if they should decide to do so in order further to stress their protest against jailing of sex members for nudity.

"I don't see how we can stop their movement as long as it is peaceful," Mr. Maitland said. "It is nice to think about but it can't be done. The only thing is to keep them moving when they arrive and stop them from congregating so that they will not break out like a rash. That is the job of the police here."

Air Blows Cut Nazi Oil Supply

NAPLES, May 8 (AP) — The German war machine, hard pressed by the Russians, facing imminent Allied invasion and possible new blows from the South, has been deprived of three-fourths of the output of its main oil source by Allied bombings of Romanian fields.

This was announced today by Lt.-Gen. Ira C Eaker, Allied Air Commander in the Mediterranean theatre, in a summary of results of the Mediterranean Air Force's Spring offensive. The air attacks also have disrupted all lines of German communications to the Russian front, he said.

Picturing the German Army as highly dependent upon Romanian oil, Gen. Eaker said destruction of refining facilities handling more than 90 per cent of Romanian crude rproduction would without doubt have an immediate adverse effect upon the Nazi war front.

He added: "The Ploesti refining system, with a capacity of some 9,800,000 tons annually, has been supplying more than 30 per cent of Germany's needs."

Keep Tight Rein on Exit Permits

OTTAWA, May 8 (CP)—A tight rein is being kept on labor exit permits required by persons going to the United States for longer than 29 days, a Labor Department spokesman said here tonight.

The Labor Department spokesman said the Department had no control over persons going on temporary visits up to 29 days.

Such persons do not require passports and do not have to surrendered.

He added:

"If it has been disclosed that skilled Canadian workers are going across the border on these temporary permits and have been remaining in the United States it can be taken for granted that the Labor Department will take every step possible to check this flow of workers."

Approve Boost to U.S. Public Debt

WASHINGTON, May 8 (AP)—Legislation to boost the United States public debt ceiling to a record high from $210,000,000,000 to $240,000,000,000 was approved today by the House of Representatives Ways and Means Committee. The public debt now stands at $187,212,487,081.92.

SLOCAN CITY

SLOCAN CITY, B. C.—Miss E. Landis of Crescent Valley was a guest of Mr. and Mrs. W. E. Warner and family, and has returned home.

Mrs. D. Peters of Appledale was a guest of Mr. and Mrs. H. Parker.

Howard Forbes of Trail visited his parents, Mr. and Mrs. O. A. Forbes.

R. C. Nye, who has been a guest of his son-in-law and daughter, Mr. and Mrs. E. W. Hicks, has returned home.

Pte. Norman Warner, who was home on furlough visiting his parents, Mr. and Mrs. W. E. Warner, left Wednesday for North Bay, Ont.

D. Wherrett is a patient in the Slocan Community Hospital, New Denver.

Sgt. J. E. Heslip, who was home on furlough, returned to Vernon, accompanied by his wife.

Sgt. and Mrs. Charles Hufty were visitors in Trail to visit Mrs. Hufty's mother, Mrs. H. Nixon, who is a patient in Trail-Tadanac Hospital.

DIES FROM INJURIES RECEIVED IN JUMP FROM BURNING HOME

VANCOUVER, May 8 (CP) — Mrs. Joseph Troll, 58, injured Thursday when she jumped 35 feet from the second story of her burning home, died in hospital last night.

Refers to Invasion "in Next Few Days"

MONTREAL, May 8 (CP)—Most Rev. Cyril F. Garbett, Anglican Archbishop of York and Primate of England, in an address to the Canadian Club today said that "in the next few days we shall be entering into the most bitter and decisive stage of the struggle with Germany."

CAMBRIDGE, England (CP) — Herbert Butterfield, Fellow of Peterhouse, and former historical professor of the college, has been elected professor of modern history in the University of Cambridge.

3. Pure, harmless, pleasant tasting.

Dr. Wernet's Powder

B. C. AND YUKON NEED $2 MILLION A DAY FOR LOAN

Total Now Above $900,000,000 for All of Canada

CHINESE DIG DEEP

OTTAWA, May 8 (CP)—The National War Finance Committee estimated tonight that total subscriptions to Canada's Sixth Victory Loan at the end of the 13th day of canvassing in the three-week drive would be "comfortably above" $900,000,000.

Vancouver reported that employees of Burrard Dry Docks, comprising three shipyards and the North Van Ship Repairs Company, have purchased $1,923,000 worth of bonds—a subscription well in excess of 90 per cent employee participation and more than 15 per cent of payroll. Burrard Dry Docks employ 14,000 persons.

Capt. D. O. Robertson, Army Victory Loan chairman in Newfoundland, tonight has the solution of a mystery which has been troubling him.

Early in the loan, Canadian troops in Newfoundland earned "V" flags. They were dispatched from Dorval by bomber but never arrived. Through a sudden change of orders, the bomber was diverted to India, and the flags have arrived there.

Charles and Tom Mah, Chinese residents of Chincok, Alta., had just about decided they couldn't afford any sixth Victory Loan bonds because — so they though, their investments in all the former loans hadn't brought them a cent.

Detailed explanations, the two Chinese, who though that all their previous purchases were in the nature of a gift to the government of their adopted country, broke into wide grins and dug down deep.

Charles upped his previous purchase of $800 by $1000 and Tom his purchase of $500 by $500. Two days later, the pair walked into Victory Loan headquarters on their own, jointly investing another $3000. Their total Victory Bond purchases since the war now total $9950.

In Ottawa, the Chiefs of Staff of Canada's three armed services were presented with Victory Loan penants in honor of their respective services having exceeded quotas.

At the time of the presentations, the Navy had $4,425,250 for 121 per cent of quota; the Army $20,564,800 for 150 per cent; and the Air Force $13,782,650 for 131 per cent. Both Army and Navy were also well beyond their totals for the whole of the Fifth Victory Loan.

Nearly two million dollars a day must roll in from the general public of British Columbia and the Yukon if this area is to reach its Victory Loan quota Saturday.

The public quota is $49,000,000. The amount invested up to Monday noon by the public was $39,734,002, or 81.09 per cent of quota. The amount still required is $9,265,948. The general public's response on Monday totalled $1,754,200—the lowest day's receipts of the Sixth loan.

The "large applications" section, which had a quota of $46,000,000, had reached 99.57 per cent, requiring only $199,350 to reach its objective.

Nearly $14,000,000 has been received as B. C.-Yukon's share of national applications.

From all sources, B. C.-Yukon has invested $99,500,200 or 82.92 per cent of this territory's overall $120,000,000 quota. The figure is $20,499,800 short of that quota.

The armed forces have reached 128.95 per cent of their quota, investing $2,965,950.

Vancouver City has reached 87.99 per cent of its $20,000,000 public quota.

Five divisions are still below the three-quarter mark. They are Fraser Valley, 70 per cent; Okanagan-Kamloops-Revelstoke, 68; the Kootenays, 63.62; Vancouver Island, 63.34; and Northern B. C., 59.79.

East Kootenays division stands at 67 with Trail at 68 and Nelson 67. Prince Rupert has taken precedence in Northern B. C., with 60 per cent but Quesnel-Wells-Williams Lake is nudging it. Atlin at 120 per cent is top unit in the Yukon-Peace River division, Dawson-Mayor up to 85.

Greater Victoria and the lower Vancouver Island-Rural-Gulf Islands unit are tied at 65 with Nanaimo just behind at 64, these three leadin gthe island with the exception of Ladysmith.

Invermere in the East Kootenays unit has gone $1650 over its $45,000 quota. Canal Flats, in the same district, is $2000 above its $12,000 objective. Sixteen Japanese internees, recently sent to Ronacher's camp at Invermere to operate a sawmill, each bought a Victory Bond.

Among large Victory Loan appliactions received at provincial headquarters on Monday were:

Royal Plate Glass & General Insurance Co., Vancouver, $65,000.

Estate of the late J. B. Fraser, Okanagan Falls, B. C., $50,000.

Edmonton Airmen Win Awards

OTTAWA, May 8 (CP) — Air Force headquarters announced tonight the award of Distinguished Flying Crosses to PO. P. J. Wilson, Edmonton, and PO. G. S. Milne, of Edmonton.

BLACKHEADS

simply dissolve and disappear by this simple, safe and sure method. Get two ounces of peroxide powder from any drug store, sprinkle on a hot, wet cloth, and apply gently—every blackhead will be gone.

Canadian Prisoner Camp Near Stettin

OTTAWA, May 8 (CP) — The first entirely Canadian prisoner of war camp in Germany has been established near Stettin and now has a population of 1400 men, the Wartime Information Board said tonight.

Known as "Stalag D" the camp has been in operation since the new year and includes a small library of about 100 books and a theatre. The men have an orchestra, organized sports and games and a gramophone.

Mining Picture Brighter Says Lanskail Report

TRAIL, B. C., May 8—A report on progress of agriculture and industry in the Kootenay-Boundary area was given by W. G. C. Lanskail, Secretary today at the 44th annual convention of the Associated oBards of Trade of Eastern B. C. in his annual report.

Increased production of seed and crops on farms of Grand Forks and of farm produce in the Creston area was notable, he said.

While the situation in the gold mines in West Kootenay showed no improvement, the picture was brighter, however, for base metals mines, and production had been under way at Zincton the Kootenay Florence at Ainsworth, the Whitewater near Kaslo, and the Lucky Jim and Reco near Slandon.

Coal production in the Crows Nest was more than half of the total production of B. C.

Tourist travel continued to fall off, but he pointed out that preparation for post-war traffic was under way.

No Potato Import Until 1943 Crop Finished

OTTAWA, May 8 (CP)—No imports of potatoes will be allowed while there are sufficient stocks of the 1943 Canadian crop available, the Prices Board announced tonight in releasing an order, effective May 25, setting ceiling prices for domestic and imported new potatoes.

The order sets a maximum price for shipper or producer of $3.75 per hundredweight, f.o.b. Harrow, Ont., and Vancouver from May 25 to July 15; $3.50 from July 16 to July 29; $3.25 from July 30 to Aug. 12; $3 from Aug. 1 3to Aug. 31.

Delivered price to distribution centres in Canada must not exceed the Harrow or Vancouver base price, plus normal transportation charges not to exceed 40 cents per hundredweight. Maximum price delivered at any other point shall be the price figure for the nearest distributing centre plus the cost of transporting potatoes by freight in less than carload lots from such distributing centre to point of delivery.

A shipper may price his new potatoes on the basis of f.o.b. his farm or shipping point and in that even his maximum price is reduced by an amount to cover transportation costs from his farm or shipping point to point of delivery.

Plan to Stop Workers Going ACROSS BORDER

VANCOUVER, May 8 (CP) — Maj. J. B. Cowell, Regional Director of Selective Service, said today the Federal Government is planning action to halt unauthorized movement of badly needed Canadian workers to higher paying jobs in the U. S.

He said some Canadian workers have crossed the border on 29-day visitors' permits. Once on the other side, the 29-day visitor can disappear in some crowded city or war plant.

Pretty Wedding at Invermere

INVERMERE, B. C.—Trinity United Church, Invermere, was the scene of a pretty wedding April 1, when Jean Beith, eldest daughter of Mr. and Mrs. A. R. Blake, Invermere, became the bride of Sgt. Charles Harold Kemble, second son of Mr. and Mrs. C. F. Kemble of Fincher Creek, Alberta. Entering the Church on the arm of her father the bride was charming in a two piece ensemble of Saxe blue silk crepe, enriched with trapunto embroidery on the bodice. It was complemented by a diminutive hat of blue straw with matching nose veil and navy accessories. Her bouquet was of pink and white carnations and fern. Mrs. T. E. Poyston attended her sister as matron of honor. She chose a becoming frock of sea green crepe and a hat of oyster coloured straw with matching veil. A younger sister, Miss Dorothy Blake was bridesmaid. She was attractive in a two piece blue and white printed crepe ensemble with a hat of rose straw and rose accessories. Both attendants wore corsage bouquets of carnations and fern. T. E. Poyston was best man. Rev. R. F. Ennals officiated. Mrs. A. J. Dobbie presided at the organ.

O reception was held at Invermere where the bridal couple received the guests assisted by Mrs. Blake who was smart in a two piece dress of red and white printed silk with a black hat. She wore a corsage of white carnations and fern. The bride's table was centered with a three-tiered wedding cake flanked by pink tapers in tall silver candlesticks. The toast to the bride was proposed by A. Ashworth with a suitable response from the groom. Tea and coffee were poured by Mrs. A. Taylor and Mrs. A. Ashworth and Miss Kay Dobbie, Miss Allison Cleland, Miss Marion Cleland and Miss Marjorie Poyston were serviteurs. The bride and groom left later for a wedding trip to Fincher Creek where they will visit the groom's parents. The bride is well known throughout the Columbia Valley as she has lived in Invermere many years, attending high school here. She was on the staff of the B. C. Telephone Co. until her enlistment in the R.C.A.F. (W.D.). Following an illness she was discharged. Last Autumn she was on the staff of the hunting party of the Earl of Athlone and Princess Alice in the Kootenays where she met Sgt. Kemble, also a member of the staff. Sgt. Kemble is stationed at Prince George with the Pack Troop Transport. Mrs. Kemble plans to return to Invermere until such time as it is convenient to join her husband.

Lt. Col. Murray, Veteran Two Wars, Rancher, Dies Self-Inflicted Wound

A coroner's jury Monday afternoon found from evidence heard at a half-hour inquest that Lieut.-Col. John Murray came to his death at his South Slocan home early Monday morning from a self-inflicted bullet wound.

Col. Murray was found by his wife about 6 a.m. lying on the floor of an upstairs room, a bullet wound in his forehead, and a revolver near his left hand at his side. Dr. F. M. Auld, who was called, pronounced him dead about 7.15 a.m.

DEPRESSED SINCE RETIREMENT

He was said to have been depressed since being placed on the Canadian Army retirement list in late November.

Mrs. Murray, called as a witness, said that she had found her husband, breathing heavily, lying on the floor of the upstairs room, and noticed blood on the floor. She had gone immediately to the nearby home of her brother, J. D. Yeatman, to have a doctor summoned. She had been attracted to the room by sounds, and thought her husband might be ill, Mrs. Murray said. She had heard no shot.

Col. Murray had been very depressed since his retirement from active military duty, Mr. Yeatman testified.

A .445 Webley revolver, found near Col. Murray's body, and one expanded cartridge and five bullets from the gun were entered as exhibits by Cpl. John White of Nelson Provincial Police, who accompanied Dr. Auld to South Slocan. The lanyard of the Army issue officer's revolver had been held in the dead man's hand when he investigated, Cpl. White said. The gun barrel was stamped with Col. Murray's name. Undoubtedly from the shape and condition of the wound, the officer stated, the shot was fired from close quarters.

The wounded man was still breathing at the arrival of the doctor and the police officer, but was pronounced dead at 7.15 a.m.

Previous to the inquest, under Coroner Dr. F. M. Auld, the jury had viewed the body at the Thompson Funeral Home. The jury's finding, in part, was that, "John Murray, while in a despondent state of mind, shot himself in the forehead with a .445 Webley revolver . . ."

The jury comprised H. M. Whimster, foreman; L. Gordon Allen, J. E. Dale, W. J. Hipperson, Leslie Robertson and Everett N. Rolph.

Lt.-Col. John Murray, a veteran of over four years' service in World War I and of three year's service in this war, came to Canada from England as a youth of 17, and to the Kootenay three years later, in 1902. He was well known as an orchardist at South Slocan since 1913.

He had been active as a golfer, and earlier as a tennis player. For a time he was President of the South Slocan Conservaticosse Av South Slocan Conservative Association, and was a member of the Canadian Legion, and before entering service in this war of a Nelson service club.

MENTIONED IN DISPATCHES

Twice mentioned in dispatches during World War I, Col. Murray served in France, at Gallipoli. It was while in Egypt he attained his lieutenant-colonelcy. Following the war he returned to England to continue for a time in the Royal Army Service Corps.

In 1939 he reentered service with the rank of captain quartermaster, and for three years was in charge of all ordnance at Vernon military training establishment, and for a period was acting commandant. He was one of the Canadian officers placed on the retirement list on reaching retirement age in late November last year.

Col. Murray went overseas in 1914 to England to join the Imperial Middlesex Regiment. He was commissioner into the Royal Army Service Corps, and served at Amiens in France. From France he went to Gallipoli, and then was placed in charge of a remount camp in Egypt.

He was born at Liverpool on May 7, 1882. Coming to this district in 1902, his first interest was in the Reclamation Farm at Creston. For some years in partnership with William Whiteley, he was engaged in logging and lumbering in the Slocan, making his home finally at South Slocan in 1913.

Surviving are his wife at South Slocan; a son, Gnr. John Godfrey Murray, R.C.A.; a daughter, Mary Caroline Yeatman, (Molly) Murray at Toronto; and two sisters, Mrs. Jessie Strongitharm at Vancouver and Mrs. L. Schofield in South Africa.

Miss Murray, taking a physical training instruction course at Toronto University, is expected home Wednesday.

Views on Forest Cutting Heard

VICTORIA, May 8 (CP)—Whether in cutting British Columbia timber whole areas of forests should be levelled, providing the opportunity for complete replanting, or whether trees of greatest utilization should be cut and young trees lef to develop into the forests of the future, was an argumentative subject when the Forest Inquiry resumed here today.

Mr. Justice Sloan, presiding, heard these viewpoints introduced during the cross-examination of Chief Forester C. D. Orchard by J. E. McMullen, K.C., Counsel for the Canadian Pacific Railway and Vice-President of the Esquimalt and Nanaimo Railway.

Utilization of smaller trees in sawmills and development of plywoods and plastics might alter the character of the tree that could be used to greatest advantage, Mr McMullen suggested.

Mr. Orchard agreed, but held that the lumber industry might be very thankful 30 or 40 years hence if small trees were protected now instead of being destroyed by high-lead logging and slash-burning.

The C.P.R. solicitor said the "trade" needed lumber now and had a market for it.

"It might be a case of letting the baby eat until he kills himself with colic," Mr Orchard countered. The E and N by virtue of its large holdings owed a public responsibility. It should not permit small trees to be pulled down and burned as slash, he felt.

In the future the view as to best utilization might change.

When Mr. McMullen suggested that it might be "clean-log" areas now, and replant them, and come back to them after the virgin forest was used, Mr. Orchard said: "We think we know enough to be able to say the virgin forest won't last that long." If it was possible to use trees four to six inches in diameter the picture might change.

Temperatures

Nelson enjoyed a rainfall of .14 inch for the 24 hours ending Monday at 5 p.m., most of it falling during the night. This was the first rain, except for a few drops on two days to be recorded as a "trace," since the 16 inch precipitation of April 25, or just under two weeks. Extremes of temperature for the 24 hours were 48.2 and 39.7 degrees.

Bracken's Sister Heads D.B.E.

SASKATOON, May 8 (CP) — Mrs. Stuart Wilson of Portland, Ore., sister of John Bracken, National Progressive Conservative Leader has been chosen national president of the Daughters of the British Empire in the U. S.—a sister organization of the Imperial Order Daughters of the Empire.

Mrs. Wilson is spending a few days in Saskatoon visiting her mother and two sisters. Mrs. W. G. My- expected visit of her brother who ati and Mrs. M. J. Sexsmith. The unwas returning from the West, was the first time they had met in 10 years.

PROTEST REFUSAL TO DEDUCT BONDS FROM PAY

VANCOUVER, May 8 (CP) — International Union of Mine, Mill and Smelter Workers (CIO) has protested to the War Finance Committee in Ottawa that Hedley Mascot Gold Mines Ltd., has refused to make payroll deductions for employees purchasing Victory Bonds, S. H. Foote, Secretary of the Hedley Mascot Local said today.

Norman Whittall, head of the regional Victory Loan offices, said the Company had declined to use the payroll deduction plan. There are 84 employees in the plant.

V. J. Creedon, Secretary of Hedley Mascot, declined to make any statement.

Boys Found Dead in Truck Locker

LEICESTER, England, May 8 (CP-Reuters)—Bodies of two six-year-old boys, missing since April 30, were found today in a locker of an unused railway delivery truck. The boys were believed to have squeezed themselves into the 30-inches deep locker while playing and lowred the lid which automatically locked.

Parcels Mailed March 7-22 Lost

OTTAWA, May 8 (CP)—Loss through enemy action of a consignment of parcels, tobacco and news for members of the armed forces in the Mediterranean and mailed between March 7 and March 22, was announced today by Postmaster General Mulock. He said the items were despatched from the Canadian Base Post Office March 21 and 22.

Martinez Resigns

SAN SALVADOR, El Salvador, May 8 (AP)—President Gen. Maximiliano Hernandez Martinez, for 13 years head of this Central American republic, resigned today a little more than a month after a revolt against his government was bloodily suppressed.

Alaska Highway Gross Failure Says Magnuson

SEATTLE, May 8 (AP) — The much-publicized Alaska military highway was described as a gross failure tonight in a bitter attack on the $130,000,000 project by Congressman Warren G. Magnuson (Dem.-Wash.), Chairman of the Alaskan International Highway Commission.

"As a military supply road to Alaska the highway, in effect, does not exist at all," he declared in an interview to the Post Intelligencer. A written report containing the charges, which he said would be filed in United States Congress May 18.

Fanatics Disrobe in Police Court

VANCOUVER, May 8 (CP) — Six members of the radical Sons of Freedom Doukhobors disrobed in police court here today while 16 other members of the sect were appearing for preliminary hearing on charges of parading in the nude and of failing to show National Registration cards.

One man disrobed completely but the other five—two men and three women—were only partially stripped when court attendants hustled them out of the court room. Police took them into custody. The 16 who appeared for preliminary hearing, were charged after disrobing in Stanley Park here last night.

The arrests, climaxing a series of Sons of Freedom demonstrations during the past eight weeks, followed an unsuccessful protest against the two-year sentences imposed on 33 Doukhobors, who three weeks ago disrobed at Nelson.

Those arrested were Helen Demuskoff, 36, Pauline Reganoff, 23, Laure Reganoff, 20, Mary Legebokoff, 33, Pauline Kolodinin, 30, Mary Koodren, 22, Lucy Savinoff, 35, John Strelioff, 29, Alec Legebokoff, Sam Sulkikin, 43, Peter Holodin, 33, Bill Pozdnikoff, 36, Tim Samarodin, 25, Fred Babakoff, 20, Mike Bayoff, 35, and Fred Storgoff, 48.

They had spent the last week holding meetings, singing hymns, addressing small crowds and sent a representative to visit Mr. Justice A. Manson, chairman of the B. C. Mobilization Board and also Attorney-General R. L. Maitland in Victoria.

Irradiated and Vacuum Packed

Would Follow Sir Tedder "to Berlin Any Day" Says Houle

By JACK BRAYLEY
Canadian Press Staff Writer

OTTAWA, May 8 (CP). — Sqdn. Ldr. Bert Houle, one of Canada's leading air aces, today headed for his home at Massey, Ont., after a brief pause here where he told newsmen of the sharp contrast between the amount and quality of equipment available when he started in the North African campaign and that available now.

Houle, commanding office of the crack City of Windsor Squadron, was among 200 repatriated airmen who arrived here yesterday from overseas. Another ace in the party was Flt. Lt. George (Buzz) Beurling who left the train at Montreal.

Houle, aided by Fo. Rick (Snake) Rattle, Toronto, spoke of the day when an odd assortment of R.A.F. planes, many of them obsolete, stopped Field Marshal Erwin Rommel's advance at El Alamein—and just in time, for only 250 bombs were left in the supply dumps.

Houle said he remembered the thrill his comrades got when they heard that a convoy had finally got through with their first Spitfires.

"But we felt pretty let down when we learned that their motors were on another ship that had been sunk," he added. "There were always disappointments like that in the old days, but strangely enough nobody got panicky or desperate and we always felt we were going to win."

Houle said he thought Air Marshal Tedder, now Deputy Chief of the Allied invasion command, could "organize anything."

Tedder was Houle's commander during the desert campaign "and he took our scrubby bunch of men and planes and whacked hell out of the enemy."

Rattle gave his estimate of the Air Marshal with "I'd follow that guy to Berlin any day."

Armada of Heavies Hammers Berlin

By AUSTIN BEALMEAR
Associated Press Staff Writer

LONDON, May 8 (AP) — Nearly 2000 U. S. bombers and fighters blasted the Berlin and Brunswick areas today with a great fleet of heavy bombers pouncing for the second straight day on Berlin — the battered capital that the Germans now call "condemned to death."

Another armada of heavies hammered Brunswick 125 miles West of Berlin.

The powerful force—almost equal to that pounding Berlin by daylight Sunday—followed night assaults by the RAF and RCAF from West and South upon France, Germany, and Bucharest.

The heavies today numbered close to 1600, with about as many escorting fighters.

The bombers dropped perhaps 2000 tons of explosives on Berlin today.

Today's daylight operations pressed the tremendous pre-invasion air offensive into its 24th straight day and capped a 24-hour period in which probably 6000 Allied planes, thundering from bases in Britain and Italy, rained something like 10,000 tons of explosives on installations with which Hitler hoped to combat the allies Western invasion and stem the Russian drive into the Balkans.

The main blow of yesterday's daylight raids, perhaps the heaviest two-way assault thus far, was a terrific American raid on Berlin.

The RAF's home based night fleet last night hit Rennes airfield North of Nantes and other targets in Nantes, Tours, Salbris, 35 miles South of Orleans, and military installations on the Normandy coast as well as the great Nazi chemical centre, Leverkusen, just North of Cologne. Nine planes were lost in the night operations.

An RCAF communique said Canadian Halifaxes last night attacked military targets on the coast of Normandy and laid mines in enemy waters. Sunday evening R. C. A. F. fighter bombers again attacked military targets in Northern France.

All Canadian planes returned safely.

CHAPLAIN VERIFIES STORIES ON VISION OF JESUS

IPSWICH, England, May 8 (AP) —The Rev. Harold Godfrey Green, vicar of St. Nicholas Church and chaplain to British forces, said today he had verified "quite definitely" the story of hundreds of Ipswich residents who said they saw a vision of Jesus on a cross in the sky during an April 27 air raid alert.

"There was scarcely any variation—if any—in these accounts," he said after extensive conversations with residents in this East Anglian coast town. "Hundreds of persons have said they saw the sign clearly."

The vision was said to have lasted 15 minutes. It first took form in the shape of a large white cross, the chaplain was told, and then the form of Jesus appeared.

"His head was bowed and his feet were crossed — all who saw agree on these details," he said. "When it disappeared it did not drift away like clouds but vanished instantly and entirely."

Other clouds in the sky were said to have drifted by while the vision remained stationary.

BLANTYRE, Scotland (CP)—Mr. and Mrs. Alexander Struthers received a telegram of congratulations from the King and Queen when they celebrated their 65th wedding anniversary recently. Both are 92.

Failure to Cooperate in Ford Plant

By FRASER MacDOUGALL
Canadian Press Staff Writer

WINDSOR, Ont., May 8 (CP). — The National Wartime Labor Relations Board will meet in Ottawa tomorrow to "implement and clarify the grievance procedure" to be followed in the vast war vehicle-manufacturing plants of the Ford Motor Company of Canada which has been closed for all but two days since April 30 in a dispute with local 200 of the United Automobile Workers of America.

In making the announcement here today Mr. Justice O'Connor, Chairman of the Board, said "the real difficulty lies far deeper than the mere argument over grievance procedure."

"There has been a general failure to cooperate. The policy should be one of cooperation instead of constant disagreement."

Mr. Justice O'Connor, who arrived here Saturday and since then has held a series of conferences with both parties to the dispute, made his announcement in a statement which was accompanied by communications to him from both the Company and the Union.

In addition the Union issued a statement to the Press telling of an appeal by its strike comittee "to all other locals of the U. A. W. and to all workers in Windsor that no precipitate action be taken by them, expressing the confidence that the . . . Board meeting in Ottawa on Tuesday would deal with the Union's case fully and according to the full justice of its claims."

Meanwhile the work stoppage which involves 14,000 production workers, continued. Pickets were on duty at all the plant gates. Executives and office workers were at their desks, passing through the picket lines without disturbances.

BAY New Convertible Couches

The season is approaching when you may have visitors and an extra sleeping unit would be very convenient. We have just received a new shipment of couches that are quickly converted into comfortable double beds. Good value and good selection.

CHESTERBED AND 2 CHAIRS

Covers of rich Brocaded Velours. Chesterfield and one chair in Wine, one chair in Green. — Special value, suite: $179.00

CONVERTIBLE DAVENPORT

A really good-looking couch in Chesterfield style. Covers of rich brocaded velour in shades of Mahogony and Wine. Bedding compartment in base. H.B.C. Special, each $89.50

LOOSE CUSHION Couches

A nice couch at a low price. Covers of good Tapestry in Green, Blue, or Rust tones. Makes in to soft double bed. H.B.C. Special $59.00

Convertible Lounges WITH ARMS

Good looking and well-made couches of Tapestry. Arms and backs of Walnut finish hardwood. Specially priced Each $69.50

WINNIPEG Couch Pads

Refresh your Winnipeg Couch with these colorful cretonne pads. Colors are Wine, Green, Rose or Blue in floral effects. Well filled. Each $9.50

Watch Norway as Invasion Point

LONDON, May 8 (AP)—The Germans, anticipating invasion within three weeks, have created an elaborate super-Gestapo in Western Europe with lists of political unreliables and prominent individuals marked for summary seizure, an informant with underground connections with Germany said today.

Hitler personally selected for command of this vast police force General Von Woyrsch, son of a German army commander in the last war and one of the Nazis' most notorious disciplinarians.

The minute the Allies set foot upon the Western shores of Europe, the Germans are said to be all set to begin one of the greatest mass roundups of the war with prospects that firing squads will have their hands full.

The informant said the program calls for the immediate arrest of prominent leaders in various parts of Western Europe to be held as hostages and executed in case of hostility by the public.

The Germans are said to be watching Norway as one of the likely invasion points. Headquarters now are in Oslo but the Germans were reported to have prepared quarters in Norway for their occupation forces. Stockholm dispatches told of a second German line of defence under consideration on Jutland all the way from the East to the West coast.

Another Swedish report said the province of South Holland, including the Hague, had been declared a close dares that may be visited only by special permit. Civilians also were banned from flooded areas of Holland and forbidden to keep boats there.

The Netherlands has contributed more than 2,000,000 tons to the shipping pool created by the United Nations.

Identity Mystery in Murder Case

WINNIPEG, May 8 (CP) — Lac Alfred G. Cheshire, surprise witness called in the murder trial of Albert V. Westgate, today testified in assize court that he saw Edith Cook, victim of the strangle-slaying, in a downtown department store late in the afternoon of Dec. 4.

Cheshire, brought from Calgary during the weekend, claimed as a crown witness he was within 10 or 15 feet of the girl, but did not speak to her. He had known her for three years. Witness said the girl wore a brown coat.

Olive Cook, 15-year-old sister of the dead girl, was then called. She said she had been in the Department store, around 4.30 p.m., Dec. 4, with a girl friend. She did not see Cheshire, but she had seen his father in the store.

Mrs. George Cook, mother of the girls, said her daughters were "much alike," except that 16-year-old Edith had "fairer hair." She said Edith wore a green coat.

Mr. Justice W. J. Major today dismissed an application of Sir Charles Tupper, Defence Counsel, to have the case taken from the jury. Sir Charles claimed that the crown's witnesses had "exonerated the accused."

In his address to the jury, A. A. Moffatt, Crown Counsel, termed Cheshire's identification of the girl he saw in the store as a case of "mistaken identity."

Edith Cook had planned to make a trip to Vancouver, a trip, he said, promised by Westgate.

Westgate had fallen down on his promise. He had told her Dec. 4 that the trip was off.

"Did it end in a row?" asked Mr. Moffatt, "and was her death the result."

"Westgate was always in the picture. There had been friendly and intimate relations between the two."

Mr. Moffatt said two things stood out clearly—a wrist watch and two pairs of new shoes. They had belonged to the girl.

"The watch was found in Westgate's possession," he added.

Westgate says he did not see the girl that day, the day she was murdered.

Crown Counsel said that the girl had died between 2.30 and 4 o'clock on the afternoon of Dec. 4.

Westgate had been identified as the man who exchanged the shoes in a downtown store.

"When he exchanged the shoes, he knew Miss Cook was dead," said Mr. Moffatt.

Sir Charles Tupper started his address to the jury following the luncheon recess.

A BRITISH PORT, (CP)—The British submarine Torbay, flying two Jolly Rogers complete with symbols to denote various vessels destroyed, returned to base after its second tour of the Mediterranean. The Torbay sank 28,000 tons of merchant shipping and once surfaced to bombard shore installations in the Aegean Sea.

MOSCOW WARNS HITLER OF GREAT BLOWS

LONDON, May 8 (CP Reuters)—Moscow radio warned Hitler today of coming great blows from the East, West and South and declared it cannot meet them "for the simple reason that he has not the forces to do it."

"The world today is keyed up to the highest pitch of tension for this is the eve of decisive battles in which great blows struck from the East will merge with the blows struck from the West and South," Moscow said.

Thieves Take $700 From Wooden Leg

VANCOUVER, May 7 (CP) —Leo Peirron, 36, told police yesterday thieves took $700 from his wooden leg and a diamond pin valued at $100 when they beat him up in Stanley Park Saturday night.

Peirron who had been arrested on a charge of drunkenness, did not tell police of the robbery until after his release.

Send Child to Summer Camp

By GARRY C. MYERS, Ph.D.

More children than ever before should go to camps this coming Summer. Some community organizations have done excellent service in this direction.

With adequate community interest stirred up, it should not be hard to raise the necessary funds through contributions. But why should there not be such services for children done with public funds. Some far-seeing mayors and councilmen might discover ways to his end. Public money so spent would be good public economy.

We also need more playground leaders for next summer than ever before.

For tots and children of elementary school age, churches can provide many wholesome programs such as the vacation church school, free and open to all children in the immediate neighborhood. There should be scores of these this coming Summer in many areas which had only one or two last Summer.

More children than heretofore, whose parents can afford to send them to private Summer camps, should attend this Summer, especially at the age range of 12 to 14.

If you have a boy or girl you are sure would profit from a Summer at camp, and can afford to send him but he doesn't want to go, tell him once and without argument he will go and apprise him of the opening date. Then make your word good. Children who want least to go to a Summer camp need it most, as a rule. A difficulty is going to be that good camp counsellors are scarce, which means that parents who select a private camp will want to exercise more than usual thought and caution in its selection.

Should she go home with the man who brought her?

It's Etiquet even though you meet the "one and only"—to return to your home with the man who brought you. It's Etiquet too, to keep yourself sweet and dainty. Before your dates, use Etiquet—the new antiseptic deodorant cream. *More effective!

SALMO W.I. HOLD TEA AND CARD PARTY

SALMO, B.C.—Women's Institute held a Tea Bridge and Whist party Saturday afternoon in their rooms. Bridge and whist prizes were won by Mrs. Smith Curwen, Mrs. Bills Shewart, Mrs. C. H. Berthner. Tea was served by Mrs. E. Lund, Mrs. R. R. Clare and Mrs. J. Dehnke.

Guessing contest was won by Mrs. H. Breese.

Posture . . .

Watch Your Step When You Walk

By IDA JEAN KAIN

You see women who tilt forward as they walk and sort of lean into the wind. They hurry along with their heads and necks thrust forward and hips trailing. They look as though they were trying to get ahead of themselves.

Then you see some whose posture is too correct. They throw their shoulders back with terrible determination, and their chests out, and sail down the avenue.

And there are the women with the duck step. It seems to be characteristic of a high percentage of the ones over 40. They walk with their toes turned out so far at the sides their feet almost go in opposite directions! This position of the foot stiffens their knees and they walk as if they had the brakes on.

The first two walks are a complete trow-away of energy. With the body so badly out of alignment, it's necessary to do a balancing act in addition to walking and, of course, this puts undue strain on muscles and joints. And toeing out throws the entire weight to the inside of the foot, which is its weakest position. This makes your feet hurt and wears you out.

Any of these posture faults is a trouble maker. Now, the minute you hear the word "posture", you are apt to stiffen right up. Take it easy. A stiff posture is right back in the direction of over-correction and leads to tension and waste of energy. Start fresh. Forget all the disconnected rules about "shoulders back," "stomach in." They're wrong, anyway. Put the emphasis on freedom from tension and keep in mind one rule: "Up". Make believe you have a string attached to the crown of your head which gives you such a lift that it holds your head squarely on your shoulders, raises your chest, automatically contracts the lower abdominal muscles which pulls the hips down and under, and, all in all, gives you the correct line-up.

Your shoulders should be down and relaxed and arms hanging loosely from the shoulders—that keeps you from tensing up.

Check up on your footwork. Point your toes straight ahead and swing your legs from your hips as you walk, with thighs fairly close together.

Your posture may have started going wrong in fatigue. Then by slumping you strengthened the wrong muscles and weakened the right ones. That is why poor posture sometimes feels easier even though, actually, it is taking more out of you. But with a little practice and corrective exercise you can realign for more energy and poise.

Hints for Housewives

By BETSY NEWMAN

Before the war is won, we'll be using many kinds of fish, some we never used before.

TODAY'S MENU

Planked Lake Superior Whitefish
or Royal Broiled Mullet
Lima Beans Broccoli
Molded Tomato Salad
Snow Cake Coffee

PLANKED LAKE SUPERIOR WHITEFISH

1 whitefish, (about 4 pounds), salt, paprika, pepper, 4 tablespoons cooking oil, 1 tablespoon lemon juice, 1 egg, 1 quart mashed potatoes, 1 lemon, sliced, parsley, dash Tabasco sauce, 2 tablespoons chives, chopped.

Have fish scaled, boned and split down the back. Wash and dry thoroughly, rub with salt, paprika and pepper, brush with 2 tablespoons cooking oil. Place skin side down on 2-inch plank, which has been pre-heated and greased, or use a heat-proof glass platter. Place in hot oven (450 degrees F.) and cook 20 to 30 minutes. Baste 3 times with sauce made by combining 2 tablespoons cooking oil, lemon juice and dash of Tabasco. Garnish platter with border of hot mashed potatoes brushed with beaten egg, and return to oven to brown. Serve garnished with lemon slices, parsley and chives. Serves 6.

ROYAL BROILED MULLET

2 pounds mullet filets, 1 teaspoon salt, ¼ teaspoon pepper, 3 tablespoons vegetable shortening, paprika.

Season filets with salt and pepper and place, skin side down, in greased broiler pan. Dot top with shortening and sprinkle with paprika. Broil in pre-heated broiler 2 inches from heat for about 10 minutes, or until done. Serves 6.

SNOW CAKE

¼ cup butter, 1 cup sugar, 1* cups sifted flour, ½ teaspoon vanilla, ½ teaspoon salt, 1½ teaspoons all-phosphat baking powder, ½ cup milk, 2 egg whites.

Cream butter with half the sugar until light; work in sifted dry ingredients alternately with milk to which vanilla has been added. Beat egg whites stiff, gradually adding remaining sugar. Fold into mixture and bake in greased loaf pan in moderate oven (350 degrees F.) about 45 minutes. When cold frost with boiled frosting.

BEMBRIDGE, Isle of Wight — (CP)—Lady de Robeck collapsed and died in the street here. Aged 66, she was widow of Admiral of the Fleet John de Robeck.

NATAL

NATAL, B.C.—Sgt. Carl Ploco returned to spend leave from the Army at the home of his wife and family here.

Mrs. S. English of Michel is visiting the Coast.

Mrs. J. Tappay and son, Kenneth, of Bellevue are holidaying at Natal.

Mrs. J. Humi returned to her home at Natal after holidaying at the Coast.

Mr. and Mrs. E. Bernardo and son returned to Natal after visiting at Fernie.

Mr. and Mrs. N. Pillpoit and family of Natal were recent Pass visitors.

Mr. and Mrs. R. DeLuca and son of Michel were recent Fernie visitors.

Pte. Bonno Truant is spending leave with his parents here from Petawawa, Ont.

Roy Weaver left Natal recently to join the Army at the Coast.

Mrs. J. Oley, Mrs. S. Krall, Mrs. M. Chala and A. Krall of Natal attended the funeral of the late Mrs. J. Hortak.

Nerves . . .

Self-Conscious Girl Should Keep Herself Busy

By BEATRICE FAIRFAX

Dear Miss Fairfax:

I have been brought up by very strict parents, the youngest of eight children, and pushed around plenty. I have acquired a terrible case of nerves. I've been this way all my life and now, at 27, am even more so. I can't seem to act natural while around people, and if they look at me I'm ready to fold up. My sister-in-law has taken me out to overcome this, but though I'm all right for an hour or so, I just collapse when a man comes into view.

I'll carry out anything you suggest, as I've tried everything I could think of to overcome this feeling.

—M. C.

The best way to overcome extreme self consciousness is to be so absorbed in something interesting that you'll forget all about your nerves. Impossible, you may say, but it's not impossible at all to judge by the number of letters which come to this column from women who have found themselves in doing for others.

If you need the money, there was never a better chance for getting a a job than at the present time. Do something, get active. Don't sit around and brood over the way you were treated in your childhood. Get that nice sister-in-law to help you find employment. Also, consult your family physician.

"Adam and Fallen Man," Subject

"Adam and Fallen Man" was the subject of the Lesson-Sermon in all churches of Christ, Scientist, Sunday.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The night is far spent, the day is at hand: let us therefore cast off the works of darkness, and let us put on the armor of light." (Romans 13: 12).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health With Key to the Scriptures" by Mary Baker Eddy: "The parent of all human discord was the Adam-dream, the deep sleep, in which originated the delusion that life and intelligence proceeded from and passed into matter."

Harrop Airwoman Graduates

HARROP, B.C.—Mr. and Mrs. J. Berry have received word of the graduation of their daughter, Aw. Susan Berry, from No. 1 Wireless School, R.C.A.F. (W.D.) Montreal, and is now stationed at the Flying Centre, Clarenholm, Alta.

LONDON, (CP) — Harry Roy, dance band leader, decided to halt broadcasting activities due to the BBC ban on dance band leaders announcing their programs.

Remedies . . .

Deep Breathing Aids Weak Heart

Patients with angina pectoris can often overcome a threatened attack by taking deep forced breaths and continuing the exercises for several minutes. Even fainting attacks can be prevented by this prolonged breathing. Many patients of this sort who had been taking remedies without benefit were made quite comfortable and free from attacks *after a course of forced breathing exercises.*

The subject has certainly been neglected by the medical profession all over the world. One or two observers have written about it, but there has been no general trial of their recommendations.

It is worth a trial. The habit of systematic daily deep breathing exercises morning and evening might well be undertaken by all of us over 30 to help out our heart and circulation. They can even be taken in bed by invalids.

MRS. I. GRAY AND C. CAWLEY WINNERS AT SALMO WHIST

Mrs. Ida Gray and C. A. Cawley were winners at the C.C.F. whist drive held in the Salmo Community Hall Friday. Prizes for low score went to Mrs. T. Colbert and Mr. Thistlewaite. There were five tables in play.

Rossland Social . . .

By MRS. H. FLEURY

ROSSLAND, B.C., May 7—Daffodils and honeysuckle banked the altar of St. Andrew's United Church Saturday when in an early evening ceremony performed by Rev. W. Murray Cameron, at 6:30, Cecilia Mae, youngest daughter of Mrs. Jessie Sommerville and the late T. Sommerville of Rossland, and Pilot Officer Edward Richard Scammell, only son of Mr. and Mrs. E. J. Scammell of Regina, were united in marriage. The slender brunette bride made a lovely picture as she entered the church on the arm of her brother, Gordon Sommerville, to the strains of the "Wedding March" played by Organist Lewis Freeman. She wore a white formal wedding gown fashioned from imported French lace made with fitted long bodice to which the full circular skirt en train was gathered. The sleeves were also long and fitted, and the bodice featured the sweetheart neckline. Her veil was of delicate old Scotch lace held in place with clusters of lilies of the valley at either side of the Juliet cap. It fell gracefully to form a train. She wore a strand of pearls and carried a bouquet of red roses and lilies of the valley. The bride's attendants were her sister, Mrs. Ronald Griswold as matron-of-honor, the groom's sister, Miss Aileen Scammell and Miss Bella Morrison, the latter of Trail, as bridesmaids. Mrs. Griswold wore a crisp daffodil yellow eyelet embroidery frock with which she carried a bouquet of Japanese Iris and yellow rosebuds, the flowers being repeated in her clever headdress. Her pearl and jewel pendant was a gift from the bride. Blue lace fashioned the bridesmaids' gowns and they carried bouquets of yellow roses, these were repeated in their head-dresses. Their pendants of oriental topaz were gifts from the bride. The three dresses were fashioned along similar lines to the wedding dress except for their short puf sleeves, with which they wore long white sink jersey gloves. Allison Martin was best man. Wilfred Hahn and Alan Brownlee were ushers and the pews were marked with white bridal ribbon and honeysuckle. Following the ceremony a reception for about 100 guests was held at the Parish Hall, which was artistically decorated with spring flowers. Mrs. Jessie Sommerville, mother of the bride assisted in receiving wearing an attractive floral silk jersey dress in allover design of grey, delft blue and violet. Her straw hat, veil trimmed, was of matching violet. Mrs. Scammell, mother of the groom, chose a becoming floral two-piece dress on grey background with which she wore a straw hat decorated with a large bunch of purple violets. Both mothers had corsages of white carnations and violets. Mrs. O. Bisson and Mrs. A. H. Freeman presided at the reception table which was covered with a very heavy lace cloth and centered with a mirror plaque holding red and white carnations in a silver basket. The wedding cake, a pedestalled three-tiered cake, was embedded in white tulle and centered the bride's table. The white cake filled with lilies of the valley used to top the wedding cake was used by the bride's parents 38 years ago on their wedding cake. At each corner was a lighted white taper. Charles Dale proposed the toast to the bride. Lewis Freeman sang, accompanied by Mrs. S. Brunock. Participants included Mrs. Gordon Sommerville, Mrs. Wilfred Hahn, Mrs. Albert LaPage, Mrs. Bruce MacAulay, Mrs. Jack Richardson, Miss Joan Guillaume of Trail and Miss Jean McDonell. For the wedding trip to Calgary, Banff and Jasper the bride changed to a stunning checked taffeta dressmaker suit in navy and white, made with pleated skirt and peplum jacket. Over this she donned a smart Navy topcoat in Chesterfield tyle. Her chic sailor chapeau was of matching taffeta, trimmed with self ruching, navy bows and veil. Her smart and gloves were of white, while her other accessories were navy. Red rosebuds formed her corsage. Following the honeymoon, Pilot Officer and Mrs. Scammell will live at Portage la Prairie, where the groom is an instructor with the Royal Canadian Air Force. The bride was raised and educated in Rossland and for the past three years has been on the office staff of the Consolidated Mining & Smelting Company, Tadanac. The groom graduated from the University of Alberta 1943, obtaining his B.Sc. degree. Out of town guests included the groom's parents, Mr. and Mrs. E. J. Scammell, and his sister, Aileen, of Regina, and several Trail friends.

St. George's Anglican Church Guild met Wednesday night at the home of Mrs. J. J. Quinn. Following routine business, refreshments were served by the hostess, assisted by Mrs. George Nixon, Jr. Others present included Mrs. C. F. Orman, Mrs. O. Auzier, Mrs. F. J. Brooks, Mrs. W. C. Brooks, Mrs. S. R. Davies, Mrs. R. P. Mann, Mrs. George Nixon, Sr., Mrs. J. B. Mowatt, Mrs. O. Tobiasson, Mrs. A. Woodward, Sr., Mrs. E. Matthews, Mrs. Looney, Mrs. M. E. Jackson and Mrs. J. Young.

Mrs. R. W. Haggen returned at the weekend from the Okanagan, where she spent a few days.

These soft, white hands are in the Navy now!

Smooth and pretty in spite of grimy jobs... All because I use Hinds Honey & Almond Cream before and after work!

Yes, Hinds Honey & Almond Cream has a job in the Navy with me! Hinds protects my hands *like an invisible glove* against pore-deep dirt and painful chapping. No rough, ugly hands for me ... every day, before and after work, I smooth on Hinds to keep my hands soft and pretty. So, "all's well" with my hands . . . and, when he's ashore, a certain Sub-Lieutenant loves to hold them . . . thank you!

HINDS HONEY & ALMOND CREAM for HANDS and wherever skin needs softening!

Simple Additions Multiply the Servings

TRUE-FLAVORED, tempting, easy-to-prepare, Jell-O and Jell-O Puddings are not always readily available at your grocer's these days. So you'll appreciate such recipes as these, that add simple ingredients to produce *more* servings per package . . . and deliciously!

APPLE-WHIP FLOATING ISLAND

1 package JELL-O Vanilla Pudding
2½ cups milk
Apple Whip (See below)

Prepare Jell-O Pudding with milk, as directed on package. Cool. Turn into dessert bowl, chill. At serving time, top with spoonfuls of Apple Whip. Six servings.

Apple Whip. Beat 1 egg white with pinch of salt until stiff. Gradually beat in 2 tablespoons sugar. Grate 1 medium apple, mix with 1 tablespoon sugar, add to egg white mixture and whip stiff.

ORIENTAL COMPOTE

1 package Orange JELL-O
2 cups hot liquid (peach juice with water)
½ teaspoon salt
1 cup cold cooked rice
1 cup peach slices (canned or preserved)

Dissolve Jell-O in hot liquid. Add salt. Chill. When slightly thickened, fold in rice. Pour half of mixture into dessert glasses, to one third fill. Add a layer of peaches. Cover with remaining Jell-O. Chill. Six or eight servings.

If your grocer is temporarily out of Jell-O or Jell-O Puddings, please don't blame him. He's doing the best he can, to make his limited supplies go round.

JELL-O AND JELL-O Puddings

4 silly syllogisms

1. All harness horses wear collars. Your Uncle Joe wears a collar. Therefore your Uncle Joe is a harness horse.

This syllogism wouldn't fool you for a minute. It might sound like reasoning, but you'd know it was phony.

2. All Airedales have big feet. Most policemen have big feet. Therefore most policemen are Airedales.

Would you fall for this one? If so, just try calling the next policeman you meet an Airedale and see what happens.

3. All turtles bask in the sun and go swimming. All bathing beauties bask in the sun, and some also go swimming. Therefore some bathing beauties are turtles.

If you'd never seen a bathing beauty you might get tricked into believing this one. Actually, the only connection between the two is an occasional turtle-neck sweater.

4. Coffee is a hot mealtime drink enjoyed by many people. Postum is a hot mealtime drink enjoyed by many people. Therefore, Postum MUST taste like coffee.

This one—which is just as silly as the others—has taken in many people.

Postum doesn't taste like either coffee or tea. It's not supposed to. It's a delicious, invigorating beverage with a grand flavor all its own.

Postum is enjoyed by millions . . . and everyone can enjoy it . . . all they want of it. For Postum contains no caffeine or other stimulant. It can't possibly harm you.

Instant Postum is economical and convenient. Costs less than a cent a cup. Made instantly right in the cup by adding boiling water or hot milk.

Trail Unit at 66 Per Cent in Loan; $629,250

TRAIL, B. C., May 8—Trail district general canvass reached 66 per cent of its $950,000 quota at the end of the second week of the three-week campaign according to figures reported today. The second weeks' business was down considerably from the $50,000 subscribed i nthe first week so that the district goes into the final week today with one-third of the total still to raise.

Fruivale continued to head the district with 91 per cent of its $21,000 quota obtained. Castlegar was second with 73 per cent and Greenwood came up fast over the weekend to reach 72 per cent for third place.

Trail City had reached 65 per cent and Rossland had reached 63 per cent of its quota when figures were released today. Grand Forks was trailing with 50 per cent of its $68,000 quota subscribed.

In the internal canvasses C. M. & S. employees reached 80 per cent of their objective today with $178,950 still to raise. West Kootenay internal canvass stood at 81 per cent and the Tadanac municipal canvass at 64 per cent.

The janitors and cafeteria division continued to lead the C. M. & S. internal canvass with 121 per cent of quota today. The antimony plant, reported 100 per cent for second place while the SO2 recovery plant had 95 per cent the electric shop 80 per cent.

	Day's sales	Total
Trail	$13,250	$439,400
Rossland	7,400	94,850
Castlegar	1,900	16,750
Fruitvale	500	19,150
Grand Forks	5,650	33,800
Boundary	2,200	25,300

NAKUSP

NAKUSP, B.C.—The Evening Auxiliary of the United Church was held Monday evening, May 1st, at the home of Mrs. Frank Tracey with Mrs. E. J. Oxenham, presiding. Final arrangements for the "Springtime Bazaar" were made. The pricing committee and sales ladies were appointed as follows. Mrs. Larry Ward, Mrs. L. Embree, Mrs. R. S. LaRue; tea committee, Mrs. Butler and Mrs. O. Grondahl. The Auxiliary will be responsible for the Sunday service of the Church on Mothers Day, Mrs. Tracey served refreshments at the close of meeting assisted by Mrs. H. O. Gardner. Thos present were Mrs. E. J. Oxenham, Miss A. L. Bowes, Mrs. F. R. Henke, Miss Mary Kershaw, Mrs. R. S. LaRue, Mr. L. Embree, Mrs. J. Olson, Mrs. L. Ward, Mrs. H. O. Gardner and Mrs. Tracey.

To honor the memory of her mother whose birthday was "May Day" Mrs. Raph Isip again entertained at the annua event with a Grandmother's Tea. The tea table was covered with an ecru lace cloth, with daffodils and narcissus and ivory candles in silver candlebras. O. P. Horsley rendered piano selections. Mrs. J. Grigg gave several readings and Mrs. E. W. Bill sang. Assisting Mrs. Isip were Mrs. George Keys, who poured and Mrs. J. Grigg. Other present were Mrs. C. Gregory, Mrs. T. Harvey, Mrs. M. Cutler, Mrs. J. Parent, Mrs. R. McWhirter, Mrs. A. Lidberg, Mrs. M. Baird, Mrs. R. H. LaRue, Mrs. O. H. Gardner, Mrs. L. J. Edwards and Mrs. H. Waterfield.

J. Taylor of New Denver was a visitor here.

Mrs. M. Rogace of Arrow Park was a Nakusp visitor.

Mrs. R. Buerge has returned from Vancouver.

Mrs. T Morehouse has returned from the Coast.

Mrs. J. Argyle, who has visited in Nelson, returned to Nakusp on Tuesday.

Mrs. G. L. Phillips of Trail was a Nakusp visitor.

Miss H. A. Stennock of Winnipeg was a Nakusp visitor.

NAKUSP, B. C.—The May meeting of the United Church Ladies' Aid was held one week earlier, May 4, in honor of Miss Rhine Hamer's birthday. Miss Hamer has been church and Sunday School organist for the past 33 years. After the regular meeting many guests arrived for the birthday tea. A check was presented to Miss Hamer from the Aid. Mrs. E. W. Bill, Past President, spoke of Miss Hamer's love and devotion to the work, and of the esteem to which the members of the churche had for her. Miss Hamer received many other gifts. Afternoon tea was a gay affair. Those attending were Mrs. E. W. Bill, Mrs. H. L. Miller, Mrs. O. P. Horsley, Mrs. M. Ion, Mrs. H. Sunstrom, Mrs. O. Grondahl, Miss Jean Pawsett, Mrs. B. McRobert, Mrs. P. Henke, Mrs. J. Riely, Mrs. C. Hambling, Mrs. Buttler, Mrs. A. Watson, Mrs. A. Ramond, Mrs. E. C. Johnson, Mrs. G. Keys, Mrs. Taylor, Mrs. M. Hoy, Mrs. L. Brown, Mrs. A. J. Harrison, Mrs. H. Kershaw, Miss Betty Miller, Miss Hamer, Mrs. Patterson and Mrs. R. H. LaRue.

Visitors from Trail were J. English, Des Ashey, W. Lausener, A. J. Cameron and W. J. Wagstaff.

Rev. Mr. Gilbert and Mrs. Gilbert left Thursday for Nelson.

Mrs. Graham McIntosh has left for Nelson.

Dr. A. Francis of New Denver was a Nakusp visitor.

Mrs. H. O. Gardner entertained at the tea hour Wednesday afternoon in honor of her two sisters-in-law, Mrs. Smith Gardner of Edmonton and Mrs. Stanley Williams of Graham's Landing, who are visiting Mr. and Mrs. Hunter Gardner of Glenbank.

Mr. and Mrs. W. Funk of Fauquier were visitors in Nakusp.

Miss Nancy Howard of New Denver was a Nakusp visitor.

J. James of Arrow Park was a visitor.

Mr. and Mrs. E. Holford of Burton were visitors in town.

Mrs. O. Groenhuijsen and two young children are guests of Mrs. Groenhuijsen's parents, Mr. and Mrs. J. W. Bailey.

Mr. and Mrs. A. Greenal of East Arrow Park were Nakusp visitors.

Mrs. Hunter Gardner entertained at the tea hour on Thursday afternoon to honor her son's wife, who is holidaying in Nakusp. Invited guests were Mrs. J. Harris, Mrs. R. Barlow, Mrs. Larry Ward, Mrs. E. J. Oxenham, Mrs. F. Tracey, Mrs. B. Sampson, Mrs. H. G. Gardner and Mrs. O. Groenhuijsen.

Arrow Lakes Teachers Meet

NAKUSP, B.C.—The school teachers of the Arrow Lakes met on Saturday afternoon, April 29th, in the School House with R. Harding of Burton presiding. Reports of the Easter convention held in Vancouver were discussed.

The meeting expressed keen disappointment that the plan for obtaining the services of a District Health Nurse had received little support.

Plans were made for the next meeting. This will take the form of a luncheon for the members of the Arrow Lakes Teachers local.

After the business session Miss B. White of the Nakusp school led a discussion on Practical Arts made practical and Miss M. Kirk, also of the Nakusp teaching staff, spoke on music appreciation.

INVERMERE

INVERMERE, B.C.—Mrs. Cherrington arrived Monday from Rossland to visit her son-in-law and daughter, Mr. and Mrs. J. Burnstill, Invermere.

Petty Officer Raymond Clement is spending a furlough with his parents, Mr. and Mrs. O. R. Clement, Windermere.

Mrs. Chalker, Edgewater, was admitted to the Lady Elizabeth Bruce Memorial Hospital, Invermere Sunday.

Mrs. George Johnston, has returned home from the hospital.

Mrs. J. Pietrosky has returned to Invermere after a holiday spent at Golden and Vancouver.

The doll's house raffled by the Junior Red Cross of the Athalmer-Invermere school was won by Miss Laura Palmason of Athalmer. The four-room doll's house had been made and completely furnished by pupils of the school.

R. Langford of Jasper visited the district this week purchasing horses for the National Parks.

Dr. Mary Crawford has returned to Invermere from Calgary where she spent the past several weeks visiting her staff, Mrs. O. B. Davidson.

Mr. and Mrs. Marples were business visitors to Kimberley and Cranbrook Friday.

Flying Officer Jame Ashworth, son of Mr. and Mrs. A. Ashworth, Invermere, has recently been promoted from the rank of Pilot Officer according to word received by his parents. P.O. Ashworth has been on active duty in India for more than a year.

Pte. T. C. Lewis is spending leave with his wife and family in Invermere.

Sgt. Ronald Ede is on leave with his parents, Mr. and Mrs. Ernest Ede, Windermere.

Mr. and Mrs. Douglas Mitchell, who resided in Invermere for the past year have moved their residence to Cranbrook. Mr. Mitchell is a C.P.R. tie inspector. Mrs. Mitchell planned to visit her parents at Canal Flat before continuing the trip to Cranbrook.

QUEEN'S BAY

QUEEN'S BAY, B. C.—Mr. and Mrs. W. H. Foster of Nelson were Sunday visitors here.

Former Nelson Girl a U.S. WAC; Daughter an Law.

FORT OGLETHORPE, Ga., May 8—Mother and daughter in uniform is becoming an accepted sight—but when they're wearing the uniform of different countries its khaki of another color.

Pte. Sibell L. Mackenzie-Tepoorten of Detroit, Mich., is the mother—and she's in the Women's Army Corps. Her 21-year-old daughter, Patricia Rosa MacKenzie, Leading Air Woman, 11th Recruiting Centre, Toronto, has been a member of the RCAF for 22 months.

Pte. MacKenzie Tepoorten is now taking her five week's basic instruction at the Third WAC Training Centre here. Educated at the Sacred Heart Convent, Nelson, B. C., she was doing secretarial work in Detroit before enlisting in the WAC.

Leading Air Woman MacKenzie attended Brown School and was studying at St. Clemens School for Girls in Toronto at the time she joined the RCAF.

Pte. Tepoorten will "take over" in one of the 239 jobs in which the WAC's are supplementing the forces of the Army, both in this country and abroad, at the conclusion of her training period.

She sums up the way she feels about it in one sentence—"A mother's place is beside her daughter—in uniform."

$809.44 Worth of War Savings Stamps Sold During April

Mrs. G. S. MacIntosh reports the following sales of War Savings Stamps in Nelson during April, the total amount being $809.44.

Hume School, $67; Central School $40.25, Junior High $62.19, High School $18.75, Post Office $15.75, Sub. Post Office, $65.50.

Junior C.W.L. Returns Officers

Junior Catholic Women's League has returned by acclamation its entire slate of officers, headed by President Mrs. B. B. Brown, for 1944. Others are Mrs. F. D. Cummins, Vice-President; Mrs. Dan MacDougall, Second Vice-President; Mrs. rFed Romano, Secretary, and Mrs. G. M. Benwell, Treasurer.

Marriage Rates in B.C. Going Down

VICTORIA, May 8 (CP) —Marriages are still on the downward trend, but births are on the increase in B. C. according to the March report of the government's vital statistics branch. In March this year there were 1726 births, compared with 1677 in the same month of 1943.

Marriages in March totalled 570, compared with 775 in March of 1943.

Wife of Trail Printer Dies Suddenly at Coast

VANCOUVER, May 8 (CP)—Funeral services for Mrs. Violet Archibald, 55, who died suddenly Friday, will be held here Tuesday.

Well known in Trail, where her husband, Marvin B. Archibald, is a printer on the Trail Times, she leaves: four sons, Leslie, Copper Mountain; Sub. Conductor Leonard C., Canadian Forces in Italy; Pte. Berle, England, and Lt. R. E. Vernon; two daughters, Mrs. Gordon Mitchell, Vancouver, and Miss Lillian, Trail, four brothers, Harry Pugh, Berkley, William P. Pugh, Blubber Bay, John F. and Clarence, Vancouver; four sisters, Mrs. H. C. Cumming and Mrs. Florence Harding, Vancouver; Mrs. Louis Lebourdais, Quesnelle, and Mrs. Robert Voight, San Francisco.

Cranbrook Customs Collections High

CRANBROOK, B.C.—Customs and inland revenue collections at the port of Cranbrook and its outports for the past month continue unusually high at $80,458.44, though slightly below the previous month's collections of $31,234.28.

Elephants like onions as much as they do peanuts.

Ottawa Must Live Up to Its Pledges and Move Japanese From Kootenay When War Ends

When the Japanese attacked Pearl Harbor the situation on the Pacific Coast was critical. We might have had an invasion, and certainly were subject to a raid in force.

The British Columbia Coast area was panicky, and with good reason. Its fears were accentuated by he presence of about 24,000 Japanese, many of them able-bodied men, many of them fishermen and knowing the Coast inlets as well or better than we do ourselves.

In the national interest, the Japanese had to be evacuated from the Coast. There was no question as to that.

From districts in British Columbia to which it was proposed to send them, and from other provinces, there was opposition to their admittance. To remove this opposition, the Kootenay district, to which about 10,000 were sent, and the other provinces to which varying numbers were gradually sent, the biggest single early extra-B. C. movement having been to the Alberta sugar beet fields, were promised that if in the interest of national security the Japanese were temporarily accepted they would be removed after the war.

That was the governing and all-important consideration in the acceptance of the Japanese in various parts of the country. A second pledge that was categorically made was that the Japanese would not be allowed to purchase land or other property, nor would they be allowed to go into business.

Out of patriotism, and to further vital national interests in a time of major emergency, the Japanese were accepted in Kootenay and other parts of Canada, but only on the clearly given promise by officials of the B. C. Security Commission, acting under full authority of the Dominion government, that it was for the duration only.

What was to be done with the Japanese after the war was not the local concern of the districts which accepted them. The Japanese are primarily a British Columbia Coast problem. The battle as to the ultimate disposition of the Japanese is most directly the concern of the Coast, where baby they are, rather than of the districts which accepted them to remove a menace from the Coast after Pearl Harbor.

Without losing sight of the fact that national interests are involved and that there are present and post-war international considerations, the problem is not basically one to be solved by Kootenay or the provinces of Canada which accepted the Japanese on a temporary basis. The Japanese belong to the Coast; they logically, if to remain in Canada should go back to the Coast. Objections of the Coast to receiving them should be fought out by the Coast with the Dominion government, without consideration for even the possibility that they would be left in the districts which do not want them, and which received categoric pledges that they would not be asked to retain them after the war.

Nelson Board of Trade does well to prepare to take vigorous action in the matter, after the government at Ottawa had had the audacity to state in reply to a question from W. K. Esling, M.P., that the removal of the Japanese from West Kootenay at the conclusion of the war involved a matter of "future" policy. If Ottawa has even the rock-bottom respect for the undertakings which it gave when the Japanese were evacuated to districts which only reluctantly and out of patriotism received them, the policy is already established. It was established when the Japanese were moved. If any "future" policy should include any variation from the original policy it would be a flagrant betrayal of a government pledge.

What other provinces decide as to the Japanese is their affair. They can, if they so desire, agree to a modification of Ottawa's original pledge. What Ottawa does with the Japanese, what final disposition is decided upon after Japan has been defeated, is Ottawa's affair. But very definitely it is Kootenay's affair to see that Ottawa does what it promised us it would do, move the Japanese from here.

It is a serious matter. It is vital to the future of the West Kootenay district. Nothing that has developed in the whole history of the district has more seriously menaced our future than the cynical suggestion from Ottawa that it can by a mere statement in the house repudiate an agreement, after the other party to the deal, the people of West Kooenay, have carried out their part.

If the Japanese were left in Kootenay, thousands of them forming a proportion of our total population that is horrifying to conemplate, they would break down our economic structure. They would reduce portions of West Kootenay to the level of the least desirable parts of East End of Vancouver. They would lower the average standard of living in this district; they would lower wage scales; they would drive out of Kootenay large numbers of our own workers; they would threaten the agricultural industry; they would reduce to poverty and ultimately destroy many small businesses; they would injure all business, large or small, by reducing average living standards, average wages and average purchasing power.

The discussion in Parliament Friday brought no satisfactory answer from the government, though Acting Prime Minister Ralston said that a full statement would be made before the end of the session.

If that 'full statement' contains any suggestion that the government does not intend to live up to its pledges to the districts which accepted the Japanese for duration it will not be satisfactory to Kootenay. We did not want the Japanese, and they must be moved away when the war ends.

Looking Backward

10 YEARS AGO
(From Daily News, May 9, 1934)

Work on Victoria Street widening project in the 700 and 800 blocks, was well advanced and the ultimate appearance can readily be imagined.

Mr. and Mrs. J. B. Gray, Baker Street motored to Edgewood over the weekend.

Another shift was added to the Goodenough mine at Ymir yesterday.

Mrs. I. S. Bradley, Josephine Street, has returned from a month's visit to Tacoma, Wash.

25 YEARS AGO
(From Daily News, May 9, 1919)

A banquet was held in honor of E. W. Beatty, President of the Canadian Pacific Railway, while on his Western tour.

A successful work sale was held in the Parish Hall, by the Mothers Club of St. Saviour's Church yesterday, funds going to the Memorial Hall for the enlisted boys of the church.

Mr. and Mrs. F. T. Abey of Kaslo were in the city yesterday and stayed at the Hume.

40 YEARS AGO
(From Daily News, May 9, 1904)

William Elson, one of the best known and popular conductors on the C. P. R. Pacific division today was appointed train master at Revelstoke in succession to the late Thomas Downie.

George T. Mallery and Robert MacKay of Kamloops passed through town last evening on their way to attend the grand lodge of K. P. at Grand Forks.

Rev. W. W. Baer left this morning to attend the B. C. Methodist conference which opens at New Westminister May 19.

Verse

FOR THE FUTURE

They listen to the news, the stay-at-homes,
And in their spirits follow all the way
The flights of daring which their sons pursue.
And pray to God to keep them safe from harm
To come back to a purer, safer world.
May it be so! Their part is just as great
To build a firm foundation over here,
To carry out the hopes that better things
May come from out the bitter chaos wrought
By friends of darkness who would all enslave.
The bright and shining life for all that they
Met give to generations following on.
It must be better, merely not as good
As that which brought this torment to our time. E. I.

Natal, B. C.

Separate and Mix Music

Hollywood sound engineers are using scientific counterparts of the curtain stretcher and the rake mixer to glorify film recordings of voices and music, says a science writer in the New York Times.

Engineers "stretch" the sound volume of a studio scoring stage of limited proportions to the acoustical dimensions of a concert hall. Then, as a housewife separates an egg to whip the white and stir in the yolk, only to reunit them later by folding in the beaten white, a vocal solo is skimmed off the top of the instrumental accompaniment, poured into separate channels, thinned and thickened here and there for the best results, and finally reunited in desired proportions for final recording.

T. A. R., Salmo—What is the roof of the world?

The expression roof of the world is applied to the Pamir Plateau in Central Asia. Its Persian name has this significance.

K. F., Truna—When were watches invented?

The first watches were made early in the 16th century, and Peter Hebe is credited with the invention. These early watches had but one hand, the minute hand and its mechanism being invented in 1687.

W. T. S., Galloway—Can one estimate how far away a flash of lightning is?

One can tell quite accurately how far away the flash of lightning is by taking a watch and noting the number of seconds which elapse between the flash of lightning and the time when one hears the roll of thunder. If as much as five seconds elapse it is about a mile away, since sound travels only about 1100 feet per second, and there are 52800 feet in a mile.

E.E. J., Kimberley—Why does a bump follow a knock on the head instead of a dent?

When a person bumps his head the soft tissues covering the bone are elastic and are stretched like rubber. While at the time of the bump there is a dent, the tissues straighten out, but some of these on the sides of the bump are injured and some even killed. Nature's way to cure the place where the injury occurred is to fill it with blood. The little white cells of the blood take up and carry away the dead tissues and fill this place with blood which causes the swelling.

Religion and the Drama

(Summary of address by Rev. Archibald Stewart to his fellow members of Nelson Little Theatre Association).

Origin of the drama is to be found in religious observances. In the Middle Ages the theatre was a powerful agent in bringing to the less educated a knowledge of the Bible history and in enforcing the Church's moral teachings.

Unfortunately, the Puritans in their zeal emptied the baby with the bath water and condemned the theatre utterly. Suppression of the theatre was and is a hopeless task, nor is it desirable. The drama is a great gift, like poetry, painting and music, which is intended for use. Moreover, in humanity there is a real need for the stage; were it not so, the long waged war on the theatre would have been crowned with success.

Should we not plead for the cleansing of the theatres so that they may contribute to the intellectual and moral life of the community? What we desire is a theatre which will express the truth beautifully and cleanly.

THEATRE IS WEEK-DAY CHURCH

The theatre is really the week-day church, and a good play is essentially identical with a Church service as a combination of artistic ritual, profession of faith and sermon. Wherever the theatre is alive the Church is alive also.

Just think of the spectacles in the Bible which are being acted over and over again, every day! Cain and his envy of Abel, Noah and his love of wine, Sarah and her unkindness to Hagar, Jacob getting the better of his brother by a trick, Joseph's ill-treatment by his brothers. Think also of those more lovely spectacles — Joseph welcoming the brethren, and returning good for evil, Samuel and his faithfulness to God, Nehemiah holding to a hard task through thick and thin, and Daniel daring to do the right.

The thing one has to remember, and the thing an actor is most tempted to forget, is that reality is on the other side of the footlights. If he forgets that, the tendency to artificially will prove too strong for him. A subtle falsetto will creep into his voice, and a suspicion of affectation will mark his behavior. As soon as this happens, first class work will be impossible. But as long as he remains conscious of the real people on the other side of the footlights he will talk as real men talk and act as real men act.

Only thus can success be achieved in our profession or any other.

The pulpit is very much like the stage. It is easy to lose touch with real men and women and real life. It was said of an old Scottish minister that he was invisible all the week and incomprehensible on the Sunday. The one is the inevitable outcome of the other. The minister who gets out of touch with men will soon forget to speak their language.

And all the men and women merely players.
"For all the world's a stage.
They have their exits and their entrances
And one man in his time plays many parts,
His acts being seven ages."

Gems of Thought

MAN OF INTEGRITY

"The integrity of men is to be measured by their conduct, not by their professions." —Junius

"The man who does his work, any work, conscientiously, must always be in one sense a great man." —Mulock

"True honesty takes into account the claims of God as well as those of man. It renders to God the things that are God's as well as to man the things that are man's." —C. Simmons

"The man of integrity is one who makes it his constant rule to follow the road of duty, according as Truth and the voice of his conscience point it out to him." —Mary Baker Eddy

"A mind conscious of integrity scorns to say more than it means to perform." —Robert Burns.

Standard of Civilian Life in Italy Shocks Lieut. Howard

Lieut. B. C. Hoard, a nephew of T. W. Clarke of New Denver, and who has realtives in Robson, Trail and Penticton, has written interesting letters to Mr. Clarke describing life in Italy. Lieut. Howard is one of eight nephews of Mr. Clarke's in the services.

The letters in part follow:

"After an uneventful voyage I am not settled in "Sunny" Italy. Did I say "sunny"? That is purely and simply a lie and a misnomer. Since landing I have experienced two hours all told of sunny weather—the rest rain and just dull dampness. It promises to be nice when Summer comes though.

"Coming off the ship with a party of four men and other baggage officers and their men we finally found someone to direct us to a place where the baggage from our ship was expected to be landed. Never have I seen such ruin and mud and filth in all my life, by comparison London is untouched. The baggage was unloaded onto landing craft which landed on beaches or what is known as a "hard". There it is loaded by hand onto vehicles drawn up to the waters edge. We marched off to one of these hards about two miles from where we landed, marching in full equipment in pouring rain through clay mud and water. Our march took us through some of the dock area and all you could see was ruin. We spent the night on the beach watching and waiting for our baggage.

"Every Italian civilian I saw was shockingly filthy, ragged and bedraggled. Their servility, their dejectedness and their dirty raggedness embarrassed me. They beg for cigarettes, picking up our butts as soon as we drop them; they were like wolves over a few crumbs of bread or a little stew in the bottom of a can. Yet they are working, being paid and fed. Stealing—you dare not leave anything unguarded. They wear boots and shoes that have little more than an excuse for a sole left, and many have no socks. That is war—may there never be another one.

"After unloading our baggage my four men and myself went off on the last truck on a 40-mile run to camp. Coming to camp I saw much of the city and many towns and never in all my life have I seen anything like it. The average standard seems to be comparable with that standard of living in our filthiest slums. It is common to see family laundry draped out on lines on the main streets.

CHILDREN SORRY SIGHTS

"The women and children are sorrysights—dresses torn, hems uneven and generally wearing anything wearable. It is the custom here for women to carry loads in things like our clothes baskets balanced on their heads.

"Food is plentiful—lots of oranges and greens.

"In the country most houses are without chimneys — built of sandstone and plaster and painted at one time pinks and blues — now washed out horrors. One place I glanced into as we went by a horse was being shod while in the same room a barber was performing on a local citizen.

"I arrived at camp, reported, saw my men taken care of, and was quartered in the officers mess. The mess is in an apartment house recently built, very modern, clean and no danger of lice. The bathroom is well equipped and the food is O.K.

"I have seen Mt. Vesuvius at night and the night I saw it, it had just finished belching and the top was an orange glow. I drove up here through the mountains—right over one mountain, in fact, on a good paved road. Many of the peaks are snow-capped, most are rocky with vineyards around htair lower slopes. Farm houses nestle into the mountain-sides. Behind our camp is a good-sized mountain range and away up near the top we can see a monastery.

HOUSE IN "SHELL"

"Our men are under cover in some sort of large building which was never finished—we call it the "shell." The officers mess is quite modern and all floors in hallways, rooms, etc., are parque or cement and inlaid marble. The walls are very poor construction—plaster or stucco over sandstone, and far from soundproof. There is an adjoining apartment house and civilians live there. Our batman can hand our washing out their window to the woman next door who does it. It is quite cheaply done, too—costs just a few "lire" (one lire is approx. one Canadian cent).

"This morning was bitterly cold and as I stood warmly clad on parade I watched little Italian boys and girls with bare legs and broken shoes poking in the garbage dump and pocketing biscuits they found. It isn't necessary because there is lots of food and their parents can get it for them. It is kind of heart-rendering but there is nothing one can do. We will see worse sights before this is over.

"There are some beautiful scenes here for instance last night the moonlight on the snowy mountain tops made quite a striking picture. When I look up out of my windows I can see nothing but mountains—but if I look down I see a street where dirty ragged urchins are playing—donkeys and donkey carts passing—old women go by in sandals with their woolen stockings full of holes—there is no color—no cleanliness—only drabness and filth.

"I guess you would like to know what we eat here. Well, most of our foods are canned stewed meat, dehydrated potatoes and fresh carrots, cabbage or salad stuff. If we don't have canned beef, we have canned bully beef. We have porridge—good tea—lots of fresh oranges and our pastries, made with white flour, are better than those we had in England. The margarine here tastes like hard lard—but in England it was like real butter.

GERMAN FIGHTERS, BOMBERS COLLIDE

LONDON, May 8 (CP) — At least two airmen of the American bomber force that raided Brunswick today told of seeing German fighters ram or collide with the bombers.

"There were fighters and bombers colliding all over the sky," said Lieut. L. Houston of Helena, Mont. "My ship flew through the wreckage of a couple of them."

Another airman said a Messerschmitt, its tail shot off, went down out of control, "then nosed up," hitting a bomber head on.

LLANDAFF, Wales (CP)—The Archbishop's electoral college of the Church in Wales will be summoned here at the end of May or early in June to elect a new archbishop to succeed Dr. Charles A. H. Green, who has resigned. The selection will be from the five remaining Diocesan bishops, Dr. D. L. Prosser, 75, Dr. John Morgan, 56, Dr. William Havard, 55, Dr. Edward Williamson, 53, and Dr. Alfred Monahan, 67.

CASUALTIES

OTTAWA, May 8 — The Canadian Army issued its 456th casualty list of the war today as follows:

WARRANT OFFICERS, N.C.O's and MEN

Previously reported missing, now reported killed in action

British Columbia Regiment

McLachlan, Donald James, A/Sgt., Calgary, Alta.

Died

Royal Canadian Ordnance Corps

Schneider, John Conrad, Cpl., Calgary, Alta.

Seriously wounded

Williams, Ernest Charles, Pte., Valemount, B. C.

Slightly Wounded

British Columbia Regiment

Brown, James, Pte., Vancouver, B. C.

Injured

Royal Canadian Ordnance Corps

Porter, Henry, Pte., Kildonan, West Coast, Vancouver, V. I., B. C.

Slightly Injured

Royal Canadian Corps of Signals

Knight, William Herbert, Sigman, Victoria, B. C.

Royal Canadian Ordnance Corps

Buchanan, Lawrence Campbell, Pte., Burnaby, Vancouver, B. C.

Seriously Ill

Royal Canadian Ordnance Corps

Whiteborne, John Ronald, R.S.M., Grande Prairie, Alta.

Pounce on Nazi Convoy, Sink One

LONDON, May 8 (CP)—Carrier-borne planes of the Royal Navy pounced on two German convoys off Norway Saturday, sinking one and possibly two supply ships and damaging three other vessels, the Admiralty announced today, while French crews in an English Channel battle early today probably sank two other Nazi ships.

Barracudas of the Fleet Air Arm struck the Southbound convoys of Kristiansund, South of Trondheim, sending a medium-sized supply ship down with bomb and torpedo hits, and breaking a large, heavily-loaded supply vessel in two. Two torpedoes hit a tanker, an escort vessel was bombed, and a small supply ship was damaged by near misses, a communique said.

Two intercepting German planes were shot down and two British aircraft were lost.

Frenchmen manning light coastal forces fought the Channel battle with a strongly-escorted German convoy, probably sinking a supply ship and trawler by torpedoes, another bulletin said.

No Longer Russians But Nazis Who Clamor for Second Front

LISBON, May 8 (AP) — One of the most extraordinary development in the European war zone in recent months is the fact it no longer is the Russians who are clamoring for a second front—it is the Nazis.

The new Russian attitude is best illustrated by Stalin's recent reference to the allies' "considerable contribution" toward a Soviet victory.

Sharply contrasting is an article in Nazi propaganda Minister Goebbels in Das Reich, sarcastically belaboring the allies for failure to invade Western Europe and blurting out that among the German people there's a greater anxiety that the invasion might not come, than that it will come."

Goebbels doesn't explain why the Nazis are afraid the invasion won't come except to refer vaguely to the tremendous defensive preparations completed around the periphery of Europe, to high morale of the defenders of the Atlantic wall and to a mysterious array of secret weapons ready to go into action the moment the allies start an invasion.

He fails to mention that while the ramparts are solidly built and the defence machinery ready and the defenders alert, Nazi Europe gradually an dremorselessly is being plowed up and under behind the back of the Nazi soldiers guarding the periphery.

The urgent need in their situation is a quick opportunity to repel an enemy attack and inflict disastrous casualties in the hope the Allies will call off the siege and go home.

Says Mr. Gold Seal
"I'M AT MY BEbest WHEN THE CHIPS ARE DOWN".

"I'm a much more determined character than I look: You see, I have an inborn sense of responsibility. That's why, in addition to devoting our machine-shop exclusively to armament specialties, I accepted the challenge of wartime shortages and went all-out to maintain the quality of my product, Congoleum Gold Seal Rugs and Congoleum by-the-yard. I reflected that by thus assuring a dependable source of colourful, cheery, work-saving, budget-easing floors, I would in my own quiet way, be doing a real morale job. And thousands of Congoleum fans across Canada, seem to agree with me."

CONGOLEUM
GOLD SEAL Rugs

HOW TO HELP MR. GOLD SEAL MAKE GOOD

You can get added wear out of your Congoleum floors with very little effort. Brush and mop them regularly and renew the brightness of their surface with an occasional waxing. Make sure too, that the floor underneath is smooth and free from crevices or knobs. If it is a rug, move it every few months to "spread" the traffic. Yes, a little care will pay big dividends.

SPORTS

Catchers Are Batting Heroes

By JACK HAND

NEW YORK, May 8 (AP)—If you want to be a big league hero, grab yourself a first baseman's mit and follow in the steps of Nick Etten of the Yankees, Howie Schultz of the Dodgers, and the other major league first-sackers who are grabbing the sports headlines these days.

Etten's .476 average is the best in either circuit, a sensational start after a .271 record a year ago.

Schultz, termed "adequate" after compiling a .269 mark late in 1943 as a rookie from St. Paul, started off with a wild splurge of 20 runs batted in during the first three weeks of the season, and has banged out four home runs, to top the circuit.

Phil Weintraub of the Giants came back for another try, has knocked in 15 runs, 11 in one game when the New Yorkers smothered Brooklyn, 26-8. Phil Cavaretta has been getting his hits although the Cubs continue to wallow in a disappointing slump.

George McQuinn of the St. Louis Browns has been a key man in their sensational spurt, stepping along a few paces behind Vernon Stephens in the R.B.I. Department. Hal Trosky of the White Sox has three homers in the first 16 games to indicate his comeback attempt will be a success.

YORK AND CRONIN

Rudy York of Detroit has been holding up his end as a nestablished slugger, and Joe Cronin, who just moved over to first for his Boston Red Sox, has shown he can belong to the slugging first baseman's club.

To top off the record, Joe Kuhel of Washington and Tony Lupien of the Phillies are leading their respective leagues in base-stealing.

BALL SCORES

By The Canadian Press

AMERICAN ASSOCIATION

Louisville 4, St. Paul 11.
Indianapolis 3, Minneapolis 8.

First Ball Game Played at Procter Won by Home Team

PROCTER, B.C.—The first ball game of the season was played on Sunday afternoon at the Procter ball field when the Nelson "Boy Scouts" came out to play the "Procter Tigers." The game ended in favour of the Procter team, the score being 35 to 14.

Ian MacLeod of the home team, hit two home runs during the game.

The "Boy Scout" team consisted of Colin Brown, Roy Langill, Ivan Walton, Jimmy Todd, Earl Casemore, A. Hood, Richard Wasnick, Rodie Brown, Tommy Shrieves, Owen Brown and Harvey Nelson.

The players of the "Procter Tigers" were Allan Donaldson, Mervyn McMullin, Peter Gretchin, Graham McMullin, Walter Malahoff, Stanley Donaldson, Steve Malahoff, Ian McLeod, Herbert Donaldson and Donald MacLeod.

Mr. T. Lewis of Nelson was score keeper and H. Dow was umpire.

Catches 13-Pounder Near Kaslo Point

KASLO, B.C.—Kaslo fishing enthusiasts have been busy the past few days. Constable O. Olaholm landed a fine 13 pound salmon near the Kaslo point on Friday.

LONDON—In turning from defence to attack, British fighter planes have had to be designed for greater range of operations—distance and altitude. In the Battle of Britain the maximum operational time was about 1 hour and 20 minutes for fighter types; since then it has been greatly improved upon, and now fighter-bomber sweeps are being carried further and further into enemy territory.

Major Leagues Vote Postpone Deadline

CHICAGO, May 8 (AP) — The major leagues have approved by mail vote a proposal to extend until June 15 the deadline for reducing their squads to the 25-player limit, Commissioner K. M. Landis said today.

Landis said the proposal also had been submitted to the minor leagues to complete official action.

Waterfront Is Sunday Mecca

Nelson's waterfront was populous Sunday, as the general trend in Nelson was to wend one's way toward the water.

Youngsters were fishing from the City wharf, from the boathouses, from the mud flats, and at the mouth of Cottonwood Creek, and were getting plenty of Rocky Mountain whitefish. One bunch of youngsters who stood on the sewer outlet near the old C.P.R. trestle, landed about 25 fish.

There was a constant stream of people on the Launch Club floats and City floats, and on the wharf, while large numbers were also at Lakeside Park, which is in Spring array. At various points along the waterfront youngsters were wading.

Some rowboats and canoes were to be seen on the lake, and also a few launches proceeding at "dead slow", having their first tryout since the water rose enough to let them get out.

Mad Russian Is Hope of Cubs

By CHARLES CHAMBERLAIN
Associated Press Sport Writer

CHICAGO, May 8 (AP) — Lou Novikoff, the Chicago Cubs' $60,000 bench decoration, says he is getting ready to start a Russian offensive. His confidence was restored yesterday when he spanked a single against the Pittsburgh Pirates as a pinch hitter—the first time he had been to bat this season.

The Mad Russian, who never hit below .363 in three minor leagues only to flop as a big league rookie, is going to be given a chance for a regular job by the Cubs' new manager, Charlie Grimm.

Baseball's forgotten man thinks he can bat for Grimm. He notched a neat .370 in 90 games for Grimm's Milwaukee Brewers in 1941 after the Cubs had dispatched him there on option.

Next year he returned to the Cubs, becoming the only .300 hitter on the club, then held out for a reported $15,000 in 1943, finally signed and rushed into Chicago as the team's savior. He flunked, getting in only 78 games and waving his bat for a sick .279.

"Let him bat—don't try to make him think," the new skipper analyzes. "I think the Russian will produce for us—when you've got a 12-game losing streak, you've got to think of something. We'll work the devil out of him in the next 10 days, then turn him loose in left field."

Venezuelan Makes Good for Cincy

CINCINNATI, May 8 (AP)—The Cincinnati Reds are far from sorry they imported Chuchu Ramos, six weeks ago, from the tropics of Venezuela.

The front office said today the fiery 26-year-old rookie right-fielder demonstrated in St. Louis yesterday in his major league debut that he can play ball with the best of 'em, by getting three hits in four times at bat from the uncharitable Max Lanier.

Forestry Officer Visits Windermere

INVERMERE, B.C.—R. W. Davey, Counsel for the Commission of Inquiry, Forestry Resources of British Columbia, and Harold Turner, Kamloops, President of the Interior Lumber Manufacturers Association visited Invermere this week, meeting representative of lumber firms throughout the district. They were accompanied by R. E. Allan, Nelson, District Forester.

They appeared impressed with forest resources in the Columbia Valley. A brief had been prepared by the Windermere District Board of Trade regarding conservation of local forest lands and other factors of major importance. Suggestions made at the meeting will be added to the brief and it will be submitted to a hearing of the Commission.

It was the opinion of the meeting that the possibilities of the forest production of the district are encouraging and that the same output may be maintained for a large number of years under a sustained yield plan.

To Ask Release of Home Defence

VANCOUVER, May 8 (CP)—Mayor J. W. Cornett and Alderman W. D. Greyell, Chairman of the Utilities Committee, will ask Maj.-Gen. G. R. Pearkes, General Officer Commanding, Pacific Command, to find out if federal authorities will release at least part of the home defence forces here for essential civilian work, it was reported today.

Selective Service officials have reported there are some 12,300 unfilled jobs in B. C.

NOTHING TO DO WITH US SAYS VERIGIN

BRILLIANT, B.C.—John J. Verigin, when asked to comment on the fact that the Doukhobors at present in Vancouver were reported to be of the Union of Spiritual Communities of Christ, said: "The Sons of Freedom have a habit of assuming the name of Union of Spiritual Communities of Christ. As a member of the executive committee of this organization I have to make it known—we have nothing to do with them."

Junior Calf Club Plans Potato Competition

CRANBROOK, B.C.—Because of various difficulties in securing calves, the South Kootenay Junior Calf Club is planning to include a potato competition in its Spring program, with all entries starting with 25 pounds of certified Netted Gem seed potatoes. Those able to secure calves will continue in that category.

Tentatively a Junior show at Elko is planned for the Fall prior to the annual livestock auction there. Exhibition of the competition potatoes and other vegetables will be featured with judgings. The Club decided at its annual meeting to add elementary veterinary medicine and common calf diseases to its Summer course of study about calves.

A charter member, Tpt. Gordon Earl was chosen honorary President with Bill Sweet of Waldo, President, Bob McDonald of Rosebville, Vice-President and Lita Lynn of Newgate Secretary-Treasurer. The newly formed Jaffray Calf Club has now affiliated.

U.S. BIRTH RATE SLIDES

WASHINGTON, May 8 (AP)—The United States' birthrate is on the skids until after the war, says a Census Bureau official. The wartime peak of 3,000,000 babies may drop to approximately 2,100,000 a year, Wilson H. Grabill, Fertility Analyst, told a conference of statisticians at George Washington University yesterday.

Girl Guides Ready for Relief Call

LONDON, May 8 (CP-Reuters)—Sixty trained British Girl Guides are standing by awaiting the call to do special relief work in Europe after the invasion. The United Nations Relief and Rehabilitation Administration also is ready for European relief and has increased its staff to begin the task of feeding and clothing Europe in the wake of invasion forces.

Dodger Bantam hockey team, which in its third season of existence, under Coach Ian Currie, set 18 new records for Nelson Civic Centre Bantam hockey for 12-game and 15-game distances, while sweeping to the League championship with 15 straight wins. It also won the Bantam Cup, a separate event, in four straight wins. In League play the team as a whole set eight new team records, the first string, consisting of Miller, Bachynski and Staples, set six records for a single string, and Miller set four new individual records and Bachynski one. Several of these records also surpassed existing Midget marks as well, for the nine years of Civic Centre hockey, and those made at the 15-game distance also topped all existing 15-game marks but one. In 15 games the team scored 154 goals, on which 114 assists were allowed, for a total of 268 scoring points, while it had only 11 goals scored against it. Eight of these boys will be Midgets next season.

Sitting, left to right, John Bachynski, Joe Staples (Captain), Vernon Miller, Joe (Buck) Stedile, Donald Stainton, Arnold Kennedy. Bill Goggin, standing, Keith Sullivan, Harvey Nielsen, Arthur Nelson, Ian Currie (Manager and Coach), Attilio Moras, Raymond Carinan, Lloyd Mair.

Mackenzie King and Curtin Talk Over Empire Secretariat Proposal

LONDON, May 8 (CP Cable)—World economic and monetary problems came under examination today as the British Commonwealth Prime Ministers started the second week of their war-time talks in the Empire capital.

As the conversations resumed following a weekend adjournment, it became known that Prime Minister Mackenzie King of Canada and Prime Minister Curtin have held lengthy man-to-man talks about their divergent views on the latter's proposal for an Empire secretariat.

Mr. Curtin has strongly advocated formation of an Empire secretariat as an informative body. Mr. King has made clear he is firmly opposed to the idea, because he is satisfied with existing machinery for consultation among the self-governing parts of the Empire.

The informal get-together was the first opportunity—apart from conference sessions—that Mr. King and Mr. Curtin have had to discuss matters of concern to Canada and Australia.

The conference sessions resumed this afternoon with discussion on monetary stabilization proposals and the attitude of the Dominions toward various plans for economic settlement after the war.

The delegates are not expected to go into such a involved problem as monetary stabilization in detail.

The premiers also will consider ideas for a worl dsecurity organization to maintain peace, once the war is won, and will go into various intra-Empire matters, among them the problem of machinery for consultation amongst the Dominions and Great Britain.

Crowe Reviews Associated Boards' Work and Current Problems

TRAIL, B. C., May 7 — Tribute to the men who have given time and energy in the work of the Associated Boards of Trade of Eastern British Columbia, "the Parliament of the Kootenay-Boundary" was paid by J. L. Crowe of Trail, President of the organization in his annual report to the 44th annual convention of the Associated Boards which opened in the City Hall here today.

President Crowe pointed out that it was at Rossland in 1901 that the first convention was held, and they had been carried on without interruption since that time.

Loss of some of the familiar figures of past conventions was recorded in proceedings each year, he noted, and this year was no exception. He paid tribute to the late E. K. Etewart of Fernie, who was Vice-President of the Associated Boards at the time of his death. "Men of his calibre are rare," he said. "He was a good businessman who in the furtherance of business, never hesitated to give unstintingly of his zeal and endurance to put his whole heart and weight behind any matter for the good of his city, province or country. We will miss E.K."

"Many and varied have been our meeting places," he continued. "the records mentioning such places as Moyie, Fort Steele, Greenwood and Kaslo, small towns where once business thrived, and we hope, will again."

"Time and conditions change. Two world wars have been thrust upon us in the meantime too. We are living in the shadow of the daily expected announcement of the opening of the great European invasion. After 4½ years of war we do at least see signs of victory for the allied forces on all fronts. On the home front we have recently completed our Canadian Red Cross drive. Our districts gave generously, very generously, and this helped to put the B. C. quota well over the top. Other generous canvasses of money and time have helped to do the same for many other war services. We are entering the third and last week of the Sixth Victory Loan drive. Some Board members are not here today because of the part they are taking in this very important work. Various obstacles, including income tax, may have retarded them some, but it is the general opinion that units within our district will reach their objective. Since the first War Loan with a total of $200,000,000, to the Fifth Loan reaching $1,383,275,250, Canada has not fallen down and the Sixth Loan will be no exception.

CONGRATULATES KIMBERLEY

"We have to offer our congratulations to the baby city of Kimberley and to its newly elected Mayor and Council. It is significant that the ratepayers of Kimberley should choose for their Mayor, a former Kimberley Board of Trade President, in the person of Mr. Clifford Swan.

"Within the last year Natal Board of Trade has joined this Association and Nakusp has returned as well.

"On Nov. 12 and 13, several members of the Kootenay Boards of Trade attended the Travel Bureau Conference in Spokane. This was sponsored by the Publicity Tourist Bureau of the Spokane Chamber of Commerce and was held at the suggestion of E. G. Rowebottom, Deputy Minister of Trade and Industry of Victoria. Your president was among those in attendance. The purpose of the gathering in the Washington Inland Empire and Kootenays in preparation for the anticipated Post War Tourist Travel. Our Spokane friends were good hosts and in the several sessions quite lively discussions were indulged in. One of the most striking evidences of unity of thought in our deliberations was that here we were in Spokane—non British territory — forming resolutions and making representations to our several departments of the British Columbia Government.

"Our Association is now operating under a new constitution and bylaws passed at our Creston convention. There are several departures from the old regulations, one in particular being that the Resolutions Committee will meet during the adjournment of our Board. Thi shas been done so that members of the Committee, usually the most interested delegates, will not miss any of the Convention procedure.

"VICTORY" HIGHWAY "PROBABILITY"

"One of the most interesting resolutions to come before us is that presented by the Rossland Junior Board of Trade. It has to do with the Rossland-Cascade section of the Southern Provincial Highway, or rather the road that will do away with the above highway and give us in its place what is now called the "Victory" Highway (or sometimes referred to as the "Corridor" High-

Donaldson of Salmo Heads Resolution Committee, Trail Meet

TRAIL, B.C., May 7 — Resolutions Committee to deal with resolutions before the 44th annual convention of the Associated Boards of Trade of Eastern B.C. opening here today was selected by President J. L. Crowe. Chosen were M. C. Donaldson of Salmo, Chairman; C. H. Clegg of Rossland; Secretary; S. N. Mitchell of Trail, C. F. McHardy of Nelson, J. W. Hume of Cranbrook, James White of Fernie, and T. W. Clarke of New Denver.

Check Rejects to Assure Jobs Useful to War

OTTAWA, May 8 (CP)—Mobilization Boards have been instructed to make a survey of all men rejected for compulsory military service in order to assure they are in jobs where they are most useful to the war effort, Arthur MacNamara, Director of National Selective Service, said today.

"This is just another approach to a problem we have already attacked through the compulsory transfer orders," said Mr. MacNamara. "Previously we have dealt with men rejected by the army on a bulk basis, now we are getting down to individuals—it is a matter of getting down to where the teeth in the comb are fine."

Under compulsory transfer orders men subject to military call who are in designated occupations not regarded as having a high priority may be required to transfer to more essential work.

The check being made by Mobilization Boards will apply to those rejected because of their physical condition or any other reason.

fours, I am sure, Mr. Secretary, we all appreciate your good work."

"Bylaw No. 1, Section B, limits the term of President to two years. Recently we have had a new incumbent annually. Some doubt the wisdom of this complete reversal of the old long term policy, but in my opinion this should be continued, as the presence of an Associated President in a different member Board, each year is good contact and should serve to revitalize the parent body."

Frank Putnam Ships 77 Head of Fattened Stock to East

CRANBROOK, B.C.—Creston's first scale experiment of fattening livestock on its rich supply of field crops, cover crops and waste from peavines is culminating successfully.

Frank Putnam, M.L.A., one of the experimenting horticultural operators, shipped 77 head to Kitchener, Ont., consigned as beef cattle to P. Burns and Company, in what is believed to be the best cattle shipment ever made from this section of the province.

The animals averaged 1083 pounds in weight, showing a gain of 383 pounds per animal over the fattening period of five to six months. The fattening was done on Mr. Putnam's Kootenay Flats property and the sale was negotiated by Ivan O'Neill.

Livestock operations started in Creston a little more than a year ago as a result of the success of livestock operators in the Eastern part of East Kootenay where breeding and raising conditions were good but fattening and "finishing" could not be accomplished because of thin field crops. Creston field operators with surpluses of feed were persuaded to take on the fattening of these animals and success was so marked that more livestock has been imported from Southern Alberta.

Development of livestock interest is the direct result of the original Waldo Stockbreeders' Association projects to improve the breed in the district.

BUYS P. BURNS BUSINESS IN CRANBROOK

CRANBROOK, B.C.—P. Burns and Company retail meat business here in operation continuously on the same site since the city started in 1898, has been bought by W. H. Richards, who has been its manager for the past year.

Mr. Richards has been employed by the firm for the past 18 years and was transferred here from Calgary. He will operate the store under his own name and Frank Colonna, formerly of Field will continue as his assistant.

Gets Six Months For Urging Strike

THREE RIVERS, Que., May 8 (CP) — Judge J. A. Metayer today condemned Jean Jodoin and Philip Cutler, American Federation of Labor organizers, to six months in jail on charges of having counselled war workers to strike, to remain on strike and to urge fellow-workers to strike in connection with the last October strike at the nearby Shawinigan Falls plant of the Aluminum Company of Canada.

Gnr. Hyde Returns From Overseas

CRANBROOK, B.C. — Returning from more than four years service with the Canadian Army overseas, Gnr. Ron Hyde is spending a 30-day leave here with Mr. and Mrs. Ray Williston, recovering from injuries to a foot. He is a member of Cranbrook's own 107th Field Battery, Royal Canadian Artillery, which went overseas early in 1940.

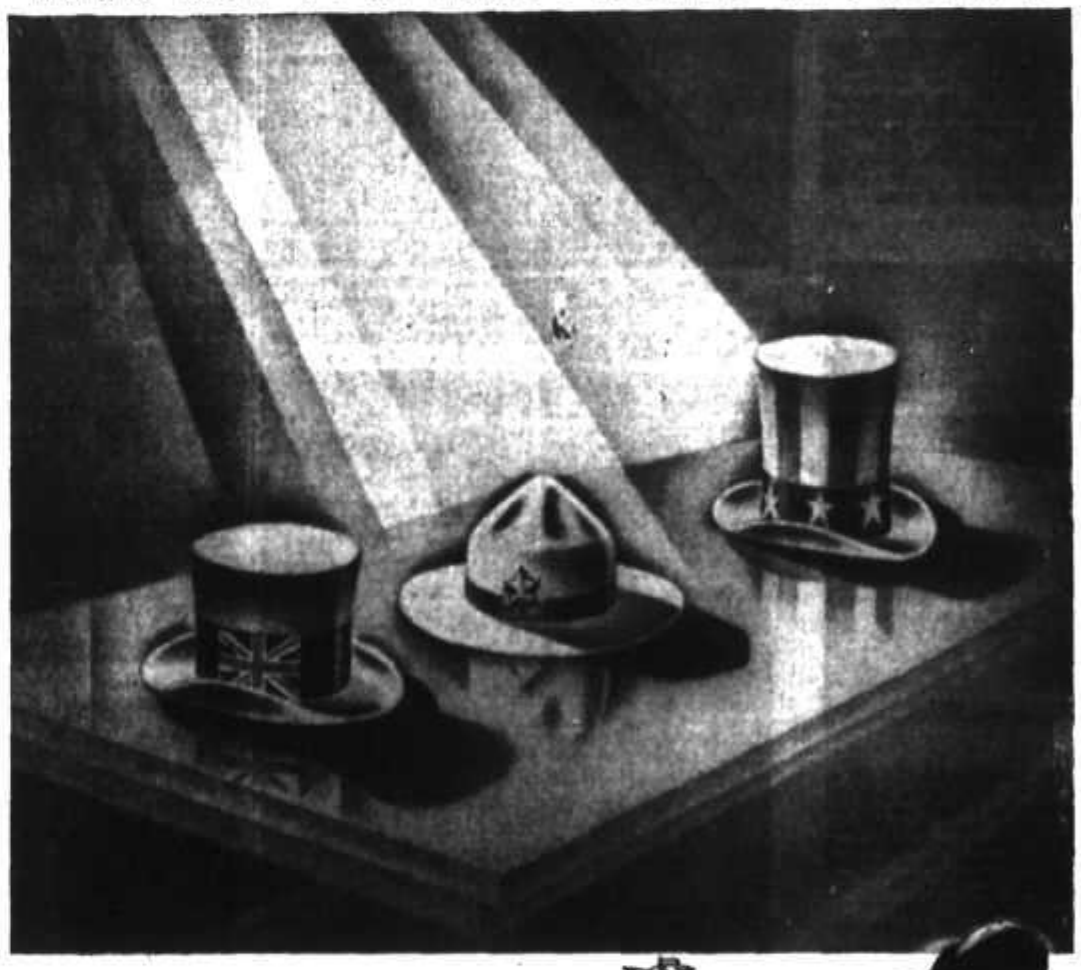
He visited Cranbrook, in Kent County, England, while abroad, and has brought back with him photographs of the English town from which this city derives its name.

Associated Boards Honors Memories Stewart, Wells Gray

TRAIL, B.C., May 7—A minute's silence in respect to the memory of the late E. K. Stewart of Fernie, Vice-President of the Associated Boards of Trade of Eastern British Columbia at the time of his death, and Hon. A. Wells Gray, Minister of Lands for B.C. since 1933, who died at Victoria Sunday, was recorded at the 44th annual convention of the Associated Boards here today.

Aluminum owes its name to the Romans, who called certain salts alumen.

LONG MAY THIS PARTNERSHIP PROSPER...



FOR a long time now, John Bull, Uncle Sam and Johnnie Canuck have been doing business together. Today, more than ever, we are united in a common purpose.

Side by side, Canadians, Americans and Englishmen march along the road that leads to final victory. On the hot sands of North Africa, on the slopes of Sicily and Italy, our men have fought well together . . . given strength one to the other. Now, we look forward to the peace . . . and the ways in which we can preserve it.

Future world security rests to a large extent upon continued co-operation between the British Commonwealth and the United States. Of all nations, Canada is best situated to assure such co-operation. For we, of Canada . . . a major member of the British Commonwealth, have long been a close friend and neighbour of the United States. We know and like them both so well, we are the common meeting-ground for mutual understanding. Thus will Canada help the world to Win the Peace!

BLONDIE

Contract... By Shepard Barclay

A PRETTY PRICE TO PAY

FOUR TRICKS is a pretty high price to pay for a single mistake. But it is the simple mistakes that cost the most, and they can be that expensive every once in a while. Failure to make an ordinary safety play can bring terrific punishment, especially such a basic one as discontinuing trump leads in order to leave one in dummy as protection against a ruff which can wreck you if you have to make it in your own depleted hand.

North: ♠ 9 8 7 6 4 3 ♥ 3 2 ♦ J 10 7 ♣ K 5
West: ♠ 3 ♥ A 8 ♦ 8 5 4 3 ♣ Q J 10 9 6 2
East: ♠ Q J 10 5 ♥ 7 6 5 4 ♦ 3 ♣ A 8 4 3
South: ♠ A K ♥ K Q J 10 9 ♦ A K Q 9 6 ♣ 7

(Dealer North. North-South vulnerable.)

North	East	South	West
Pass	Pass	2 ♥	Pass
3 NT	Pass	3 ♦	Pass
3 ♠	Pass	4 ♦	Pass
4 ♠	Pass	5 ♦	

South ruffed the second club lead with the diamond 6, then brought in the diamond J, K and A and led the heart K to the A. West returned the club J, which South ruffed with the diamond Q. Then in consternation, he realized that, with his own trumps now gone, West had the diamond 8 left. He saw he was ruined. To save something from the wreck, he laid down the spade A and K, but West ruffed the latter and then raked in his club 10, 9 and 8 setting the contract four tricks before giving up the last one with the heart 8 to the Q.

South could have made his contract easily. After the second diamond showed what he was up against, he should have left the J or 10 in dummy while he switched to hearts, leading until West scored the A. If a club came back then, he could have ruffed it with that trump which he left in the dummy, then could have come to his own hand with the spade A and dropped West's last two trumps. He could have finished the hand then with heart tricks plus the spade K, having lost nothing except one trick in clubs and one in hearts.

* * *

Tomorrow's Problem

North: ♠ Q 8 4 ♥ 6 5 3 ♦ J 9 8 2 ♣ 8 7 5
West: ♠ A K J 9 5 ♥ J 10 7 ♦ 4 3 ♣ K J 3
East: ♠ 10 6 3 1 ♥ 9 8 4 2 ♦ 6 ♣ 10 9 6 2
South: ♠ 7 ♥ A K Q ♦ A K Q 10 7 5 ♣ A Q 4

(Dealer East. Neither side vulnerable.)

How should South play for 5-Diamonds on this deal after West leads the spade K and switches to the heart J?

TENDERS FOR COAL
(Western Provinces)

SEALED TENDERS addressed to the undersigned and endorsed, "Tender for Coal for Western Provinces," will be received until 3 p.m. (E.D.S.T.), Wednesday, May 31, 1944, for the supply of coal for the Dominion Buildings and Experimental Farms and Stations throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from the Purchasing Department of Public Works, Ottawa, the District Resident Architect, Winnipeg, Man., the District Resident Architect, Saskatoon, Sask., the District Resident Architect, Calgary, Alta., and the District Resident Architect, Victoria, B.C.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. Coal dealers' licence numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order, a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

By order,
J. M. SOMERVILLE,
Secretary.

Germans Launch Strong Drives to Crush Partisans

LONDON, May 8 (CP) — German forces have launched strong drives throughout Yugoslavia in an apparent effort to crush the Yugoslav partisan army of Marshal Josip Broz (Tito) announced today.

"Our units are putting up heroic resistance and in many cases are going over to the counter-offensive," declared the broadcast communique which said Partisans had captured Klandano in Eastern Bosnia and were fighting in the streets of Berani in Montenegro.

Fernie Navigator Says "It Was a Swell Attack"

LONDON, May 8 (CP) — At least seven squadrons from the Canadian bomber group participated in the RAF widespread offensive last night, the Canadian striking military objectives on the Normandy coast.

The Leaside, Iroquois, Thunderbird, Bison, Lion, Snowy Owl, and Alouette Squadrons were among those participating and all the Canadian planes returned.

"All our planes seemed to be over the target in about two minutes," said Fo. Jack Lancaster of Fernie, B.C., a Snowy Owl navigator. "It was a swell attack."

The force was over enemy territory only five minutes, said Wing Cmdr. Turnbull of Govan, Sask., while Wo. Jim Hope of Lakeville, Ont., a Thunderbird wireless operator, termed it a "case of hit and run."

Wo. Gus Utas of Lacombe, praising the work of the Pathfinders said the target was easily discerned despite a slight haze.

Reports "Real Battlefront" Near Paris

By CHARLES S. POLTZ
Associated Press Writer

MADRID, May 8 (AP) — A German newspaper the Hamburger Fredenblatt, sent its Paris correspondent to Annecy recently to ascertain how much truth was in the story of the resistance against German occupation by the Maquis of Upper Savoy. His description of conditions in Southeastern France covered a page and a half of the paper and might be considered one of the greatest tributes to French resistance.

"Only a few hours from Paris by train," wrote G. Brautigam in the Hamburg newspaper, which has just reached here, "there is a real battlefront."

For his trip he donned the uniform of the Vichy militia. The sight of this uniform he said, led a waiter in an Annecy restaurant "to serve me nothing but carrots for lunch and despite everything I said, I still got nothing but carrots."

On walls of the militia headquarters he found maps of the region with the area controlled by the Maquis marked with little red flags and other flags for positions of the Vichy forces.

The corps of resistance, he said, was formed by the 27th regiment of the Chasseurs Alpins, the famed "Blue Devils" of prewar France, and "many units of the Italian armies."

He found the city surrounded by reinforced concrete pillboxes, machine gun nests, searchlights and light artillery.

INVERMERE BROWNIES HAVE CHURCH PARADE

INVERMERE, B.C. — The Second Windermere Brownie Pack held a Church Parade at Trinity United Church, Invermere, Sunday. The Brownies were led into the Church by their pack leader Eileen Tyler and accompanied by the Brown Owl, Mrs. T. N. West and Tawny Owls Mrs. J. L. Johnson and Mrs. J. Burnstill.

Market Trends . . .

LONDON, May 8 (CP) — After a hesitant start trading on the stock market expanded on a generally firm undertone. Industrials advanced, with brons and steels a particularly strong feature, but home rails were neglected. Oils and British funds were higher and internationals lower.

NEW YORK — Buyers maintained a highly selective attitude toward the stock market and, while scattered specialties managed to keep in the progressive ranks, numerous leaders were stalled by profit taking. Transfers were around 800,000 shares.

Canadian issues were fractionally mixed. Canadian Pacific and Lake Shore gained ¼ and ⅛ respectively but McIntyre and Seagrams each lost ⅛.

CHICAGO—A firm market developed in rye when the May contract advanced more than a cent following an announcement by General Foods Corporation that it had not sold any of its stocks of the cash grain. Oats were steady on wet weather in the midwest which halted farm work and curtailed corn marketings.

At the close wheat was unchanged to ¼ higher. Oats were unchanged to ⅛ higher. July 79⅞. Rye was ahead ⅝-1¼. There was no trading in barley.

MONTREAL — Selected issues were irregular in their fluctuations up to the final hour on the stock exchange and rich market in industrials. Asbestos, Canadian Car and Foundry B advanced on fractional gains and, in a little west Canadian industrial pld., Cement, Tel., Massey common and pfd., Sugar and Steel.

Rubble was active and firm in mines.

TORONTO — The Western oil stocks and some of the junior gold issues accounted for the bulk of the trading and most of them moved upward to record substantial gains. As a group the golds were down a bit at the close. Western oils were slightly higher and the industrials and base metals finished the day about even with Saturday's final prices. Volume was around 850,000 shares for the day.

Base metal stocks continued quiet and steady. Moderate weakness was displayed in the industrial group, the utilities, steels, papers and distils.

WINNIPEG — Rye futures eased in late trading following early advances of as much as ⅝ cent. Traders attributed the decline to thin support.

Futures at the close were ⅝ cent to 1¼ higher with May at $1.81¼, July $1.30⅝ and October $1.28.

VANCOUVER — Trading was quiet on the Vancouver exchange today with both mines and oils holding steady. Total turnover was 17,100 shares.

Dentonia remained unchanged at 1¼ and Privateer closed at 35. Premier slipped 3 to 98.

Pacific Petroleum was up ½ at 4½ and East Crest was unchanged at 8. Vulcan dropped 1 to 58.

Yukon River on Rampage After Spring Breakup

DAWSON, Y.T., May 8 (CP). — United States aircraft may come from Fairbanks, Alaska, in an attempt to bomb the Yukon River ice jam it was reported here today. Extending for 20 miles below here, the Spring breakup is flooding part of the city and a number of families have been driven from their homes. The Arcade Cafe and Royal Alexander Hotel have a foot of water on their floors.

Other ice jams from Stewart and Coffee Creek, on the Yukon are expected to reach here soon.

The electric light plant was threatened, but the water receded before any damage was done. Substantial damage was done to terminal docks and at one time three entire streets were under water. Many visitors to the city from outlying points were marooned in town because of the depth of water on the main roads.

Civic officials said the flood reached an all time high, exceeding previous records set by the flood of 1925. Last night the water was receding slowly and immediate danger was considered over.

Sign Agreement for Governing of Liberated Areas

LONDON, May 8 (CP) — The Russian and Czech governments have signed an agreements for the administration of areas of Czechoslovakia liberated by the Red Army, London and Moscow announced today.

The Red Army reached the Czech border in the Carpathians several weeks ago.

The relationship between the Soviet commander in chief and the Czech administration is established in the document signed in London by V. Z. Lebedev, Russian Ambassador to the Czechs, and by H. Ripka, Minister of State and Acting Foreign Minister of the Czechoslovakia government in exile.

Aussie Newsmen on Tour in Canada

OTTAWA, May 8 (CP) — Three Australian newspapermen who arrived in Victoria during the weekend will visit military and industrial centres in Canada in a tour that will take them from the West coast to Halifax in more than a month of travelling, the Wartime Information Board said here today.

The Australians, Fred Smith and Melbourne, chairman of the Australian United Press, Don Whittington, Canberra staff correspondent of the Sydney Daily Telegraph, and Allan Dawes, Melbourne Herald War Correspondent came to Canada at the invitation of the Dominion Government.

The itinerary of their tour was made public by the W.I.B. today.

They are scheduled to remain in Victoria and Vancouver this week, leaving next Monday by RCAF plane for the Queen Charlotte Islands, Prince George and Fort St. John, stopping at RCAF stations at Whitehorse, Yukon Territory, and going on to Edmonton.

U.S. Pilot Breaks First World War Record

A U.S. FIGHTER BASE IN ENGLAND, May 8 (AP) — Capt. Robert S. Johnson of Lawton, Okla., a fighter pilot, shot down two enemy planes over Germany today to boost his total to 27, all bagged in the air—and become the first American ace in the European theatre to break Capt. Edward Rickenbacker's combat record of 26 aircraft kills in the First Great War.

Fly Spray Formula Given at Nakusp Institute Meeting

NAKUSP, B.C. — The Women's Institute met on Tuesday at the home of Mrs. P. Zupp, Mrs. A. B. R. Stanley, President, in the chair.

A letter was read from the Red Cross asking one more bed could be made in Nakusp and district.

Mrs. Morton gave an interesting talk on making fly fog. She stated that the devices which at their best of the pyrethrum daisy should be taken and ground for high a mixing machine where, times taking one pound of this powder to one gallon of neat oil make a good fly spray.

Mrs. F. Hamilton reported for the canteen and said cleaning of the new place had been done.

It was decided to sell one tea and bake sale this month.

Mrs. M. Bulmer was elected delegate to attend the District convention. Mrs. Mollet was nominated as alternative delegate.

Mrs. R. C. Johnson was presented with Women's Institute Federated pin in recognition of over 30 years membership.

Mrs. P. Zupp and Mrs. Walter White were joint hostesses to a social afterno

Runaway Team Brings $10 Fine to Driver

For leaving his team of horses improperly tethered, Andrew MacKay, Kootenay Valley Dairy driver, was fined $10 by Magistrate William Mrown in City Police Court Monday. He pleaded guilty to the charge laid under the Streets and Traffic Bylaw.

The charge arose from an accident May 2 when the team ran away down Stanley Street from Observatory Street, finally crashing into a telephone pole at the Mill-Stanley intersection. The broken pole, falling, damaged a nearby fire hydrant.

Almost three-fourths of the 4000-mile boundary between Canada and the U. S., is water.

Kootenay Man for Cabinet?

Rossland-Trail Liberal Association will meet soon after the funeral of Hon. Wells Gray, Minister of Municipalities at Victoria, to consider a resolution urging that when the vacancy in the British Columbia Cabinet is filled it be by a Kootenay representative.

Frank Putnam, Member for Creston-Nelson, is being supported for the post.

Welcome Delegates to Associated Boards Convention at Trail

TRAIL, B.C., May 7—Delegates to the 44th annual convention of the Associated Boards of Trade of Eastern British Columbia were welcomed by Mayor Herbert Clark of Trail and Dr. C. A. H. Wright, President of the Trail Board of Trade, as the convention opened at the City Hall here today.

Mayor Clark extended the welcome of the City of Trail and offered his wishes for a successful meeting. The District as a whole would benefit from the results of the convention, he felt. The heavy slate of business before the delegates would require careful deliberation, he said.

Dr. Wright extended a welcome on behalf of the Trail Board of Trade. The Associated Boards was one democratic institution in which the voice of the Kootenay was expressed, he said. He gave an outline of the agenda to be followed and of arrangements for entertainment of the visitors.

New Ruling on Medical Expense in Income Tax

HAMILTON, May 6 (CP) — National Revenue Minister Gibson said here today that by a recent ruling of the income tax department deductable allowances for unusual medical expense provided by the income tax Act have been extended to apply to Osteopaths, chiropractors, physio-therapists and others registered under any Dominion or Provincial Legislation.

Col. Gibson said the act permits a deduction for medical expenses in excess of five per cent where payment is made to any qualified practitioner registered under any Dominion or Provincial legislation."

In the case of a single man, the deductions run to $400. For married men they may reach $600 with an additional $100 deduction for each dependent up to and including four.

ROYAL BANK OFFICIALS HERE

Royal Bank officials from the Coast in the person of B. O. Moxon of Vancouver, British Columbia Supervisor, and W. J. McFadyen of New Westminster, attended the annual meeting of the Associated Boards of Trade in Trail yesterday.

They came to Nelson last night and today with S. A. Maddocks, Manager of the Nelson Branch of the Bank, will attend the Associated Boards banquet in Trail.

Water Level

A rise of exactly a fifth of a foot in 24 hours brought the West Arm at Nelson up to 20 foot above the low water mark or zero as recorded by the Dominion Public Works gauge at 1 p.m., Monday.

Rotarians Told Why Nutrition Body Organized

Sixty per cent of Canada's people, Miss Eileen C. Cross, Nelson home economics teacher, told Nelson Rotary Club Monday, showed signs of suffering from poor nutrition. The 20 per cent, revealed as "badly malnourished" through a survey conducted under the Dominion's nutrition program, suffered because of lack of money to buy proper foods. The plight of the other 40 per cent, whose nutrition was regarded as "fair", resulted from indifference.

Miss Cross in her address sought the cooperation of the Rotarians in support of the local committee, recently formed under the program to combat the problem brought about by poor eating habits. It would be this committee's aim, she said, to try to reach the individual in developing a nutrition program suite dto the community's needs, to interest restaurants in preparing and offering well-balanced beneficial meals, to extend distribution of milk to those requiring it, to conduct a poster competition, and possibly at some future time to hold classes and conduct lectures on nutrition.

RESULT OF SURVEY

It was the number of rejections among prospective military service recruits that decided the authorities to hold the survey to discover the reason for the extensive evidence of dietary defects among Canadians. Primary aim of the survey was to discover what defects existed, and to reveal the part nutrition of workers played in war factory production. Past surveys were consulted, family group and individual surveys were conducted.

The greatest lack in popular diet was of Vitamin B and complex, found in Canadian wheat. There was also revealed a lack of Vitamin C, calcium and iron. Among low-income families, protein was also lacking in the diet.

The Canada Nutrition Program was the result. The Dominion authorities were working with industry, the Provincial authorities were working through the schools and local committees. It was the local committee's duty to work with the individual.

DUBLIN CP—When all other transport to Punchestown race course was banned because of Eire petrol shortage, hire of a "carriage and pair with driver for two days" was advertised at $162. The course is 21 miles from Dublin.

Interpreting The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

First official allied estimates of damage done Nazi communications and oil installations in Romania and the Balkan theatre strongly support the expectation that a Russian drive through the Galati gap into the Danube Valley will coincide with—if not precede—the impending Anglo-American invasion of Europe from the West. The Germans' capacity to hold the critical 40-mile front between the Siret River and the Carpathian foothills has been badly undermined.

More than one-third of the total Nazi oil came from Romania.

Berlin commentators see the final Russian assaults to recapture Sevastopol in the Crimea as designed to free Red Armies engaged in that siege for operation sin Romania. There is every indication that the Allied air attacks on such vital Nazi communications hubs as Budapest Bucharest and Ploesti, which is a key rail centre as well as an oil pipeline hub and refinery plant core were jointly plotted by Russian-allied staffs.

In the light of the revealed success of the Allied bombing operations in the Balkans, it is a fair guess that the German high command is already preparing for a new retreat in that sector. The battle of Galati Gap or of the Bucharest plain as Gen. Eaker tremed it is apt to be one of decisive actions of the year's campaign in Europe.

Lewis Asks Return of $60,000

WASHINGTON, May 8 (AP) — John L. Lewis today withdrew the United Mine Workers' application for reinstatement to the American Federation of Labor and asked for return of a $60,000 check representing a deposit for the first year's per capita tax.

Fellow Citizens!
We Have Undertaken to Raise
$500 IN VICTORY BONDS
For Every One of the 1300 Men and Women on Active Service From Our District.
Citizens: We Are Short $174,000
which means 348 MEN are not yet supported
WE DARE NOT FAIL

We have undertaken to raise $500 in Victory Loan Bonds for every one of our 1300 men and women on active service from our District.

Citizens—we are short $174,000, which means 348 men are not yet supported. We dare not fail.

We have only five days to go before the close of the campaign. We can only accomplish our undertaking by every citizen doing his or her duty now.—Time is short.

We again appeal to every citizen to subscribe to the utmost, from money in the Bank, on the monthly saving plan, or by borrowing from your bank. Telephone 906 and a salesman will call. Or make your subscription through your bank.

"Every added hour the war lasts means more death, more horror—more lifelong suffering for someone—more bitterness—more long and tortured years of recovery. Every hour saved means that some lad who might have died will be alive and free tomorrow."
