Red Proclamation of Greek State Likely

Claim to Recognition Would Give Excuse for Open Aid From Soviet Satellites; Trap Escaped

By L. S. CHAKALES

ATHENS, July 17 (AP)—Developments strongly indicated today the imminent proclamation of a "free Communist" state in Northern Greece.

Eleftheria Ellada, official organ of the Communist-dominated E.A.M. (National Liberation Front), said the guerrilla radio had broadcast a statement from the guerrilla chieftain, Gen. Markos Vifiades, declaring it was "absolutely necessary" to create an independent Communist government in the "free regions" of Northern Greece to "free Greece from (foreign) intervention whose aim is to turn Greece into the starting point for war in the Balkans."

An Allied diplomat said the proclamation of a Communist Government might be advantageous to Soviet satellite governments because they could recognize the guerrillas as belligerents and openly give them aid.

The Communist newspaper Rizospastis said a radio station had been established by "headquarters of the Greek Democratic Army" (the guerrillas) within Greece and was broadcasting two hours daily.

Greek Foreign Ministry sources said they did not believe the station was in Greece but in Sofia or Belgrade, capitals of Bulgaria and Yugoslavia. They said the station had been operating two days.

SCATTERED FIGHTING

Only minor scattered clashes were reported in the Mount Gamila area North of Ioannina, capital of Epirus, causin gthe belief that the 2500 Leftists there had escaped a reported encirclement and were retreating toward Mount Grammos, on the Albanian border to the Northeast.

5 New Fires Reported In Kootenay

Five new forest fires have been discovered in Kootenay-Boundary to add to the 22 previously lighted by Monday's electrical storm, B.C. Forest Service officials at Nelson stated Thursday.

Sighted Thursday was a new blaze just six miles above Skookumchuck. A forestry plane was sent out to investigate, and a number of fire-fighters from the Skookumchuck fire have been distributed to the endangered area. Two new fires have been reported in the Creston District, one near Mission Creek and the other in the vicinity of the Bayonne Mines. The remaining blazes are at Salmo's Relief Mine and Kettle Valley. Crews left Thursday afternoon for these areas

The Skookumchuck fire itself remains quiet, and fire-fighters expect to have a guard thrown around it by Friday night. The three fires in the Cranbrook District are under control, as is the Palliser fire at the Upper Kootenay Lake region.

Fires at Midge Creek and Irishman Creek in the Creston District have been checked, and no reports have come in on the Boundary Creek fire.

Two small blazes in the Arrowhead country are presumably under control, along with one around Rossland.

Jubilant Over Jap Peace Treaty Conference

TOKYO, July 17 (AP)—General MacArthur was described as highly pleased and Japan generally jubilant over proposals for a preliminary Japanese peace conference next month.

The American State Department announcement caught Tokyo by surprise. If the conference is begun Aug. 19 as suggested, it would mean the start of active work on a treaty with Japan months before most officials here had expected it.

No comment was available immediately from MacArthur. But this new proposal follows his repeated insistence upon an early treaty.

Thousands at Banff As Indians Parade

BANFF, Alta., July 17—Banff's broad main thoroughfare reverted to an Indian trail again today as hundreds of Stoney Indians in full tribal regalia and mounted on gaily bedecked Indian steeds, paraded into town to officially open the four-day Indian Day celebration

Thousands of tourists from all over the United States, Canada and overseas lined the street as proud colorfully plumed Indian chiefs, their squaws and the odd wide-eyed papoose from their reserve at nearby Morley, Alta., filed down Banff Avenue to the Bow River Bridge where the judging of costumes took place.

LEGION LEADER SCORES FAILURE TO BOOST ALLOWANCES

VANCOUVER, July 17 (CP)—Robert MacNicol, Executive Secretary of the British Columbia Command of the Canadian Legion, criticized today the failure of the Government to grant veterans and their dependents increased allowances

"The Government has not hesitated to grant pensions to its friends and to increase the allowances to leaders of the Senate, in addition to voting some time ago an increase in House of Commons allowance to the tune of $2000 yearly," he said here

Fly Milk to Nome, 50 Cents a Quart

PORTLAND, Ore., July 17 (AP)—Two thousand quarts of milk will be flown weekly to Nome, Alaska, A. P. Larsen, dairy manager here said today

PASS MILLIONS IN ESTIMATES AS SESSION ENDS

Prosperity Depends On World Condition Throne Speech Warns

EARLY MORNING

By H. L. JONES
Canadian Press Staff Writer

OTTAWA, July 18 (CP) (Friday) — Parliament's legislative labors for 1947 came to an abrupt end early today with a multi-million-dollar flourish of estimate-passing after 5½ months of sittings.

Prorogation finished the third session of Canada's 20th Parliament following a long strength of 10-hours-a-day sittings that kept members sweating beneath the blistering capital sun.

The final act in the annual Parliamentary drama — it started Jan. 31 — came in the red-carpeted Senate Chamber, where Mr. Justice Patrick Kerwin of the Supreme Court of Canada — substituting for the vacationing Governor-General Viscount Alexander — declared the session prorogued and gave Royal assent to the last batch of bills — nearly 300 — passed by the Chambers.

But before that ceremonial curtain descended on the lawmakers' efforts, the House of Commons — the Lower Chamber — had labored furiously through the morning, afternoon and night hours to make prorogation.

A sparsely-populated Commons—most of the members had headed for home — rammed through hundreds of millions of dollars in appropriations. Almost every line had been thoroughly-aired somewhere along the route of the long session, and little remained to be threshed out, but occasional demurrers from Opposition members called for Government explanations.

Nevertheless, the Government's estimates rolled through in their original form.

FAIR RETURN

A major announcement evolving from the final discussions came from Trade Minister MacKinnon, who declared that in negotiations with the United Kingdom for a new 1948 contract price for the Canadian wheat crop, all efforts would be made to get a "fair return."

Consideration would be given, he said, to the difference between the contract price of $1.55 a bushel and the considerably higher world price.

As the Commoners moved into the Senate quarters to hear the final obsequies on the session, they were transferred from domestic considerations to those of international affairs.

"The restoration of peace and world recovery," said the speech from the throne, "has not proceeded as speedily as had been hoped for."

On the domestic side, it pointed out that the Parliament had passed legislation for continuation of wartime controls on prices, increased in old age pensions, consolidation of the defence departments, establishment of a Dominion Coal Board and a Maritime Commission.

A word of admonition as to the international outlook was added. "The maintenance of our prosperity will increasingly depend upon how conditions develop in other aprts of the world."

LIFT CEILINGS ON SOME PRODUCTS SOLD AT DESIGNATED FAIRS

OTTAWA, July 17 (CP) Ceiling prices have been removed on a number of home-made products when sold at certain fairs and exhibitions, the Prices Board announced today.

Included in the list are home-made wearing apparel or textile products, home-made raspberry or strawberry jam or jelly, home-canned fruits and vegetables or home-made bread and rolls when sold at the designated fairs

Also released from control when sold at such exhibitions are must farmers' samples of packaged foods, soaps, soap-based detergents or soap compounds packaged in smaller than normal size containers

BEVIN SEES OBLIGATION ON U.S.

HASTINGS, Sussex, July 17 (CP) Foreign Secretary Bevin declared today that the war-devastated nations of Europe "have a claim" on the United States for economic help — because, he implied the United States escaped direct war damage

Addressing Britain's Transport and General Workers Union, Bevin said the United States Secretary of State, George C. Marshall, in offering aid to Europe, had said in effect, "See what you can do for yourselves and we will supplement what you do."

Hon. C. A. Banks Unfolds Mining Exploits Before Civic Luncheon; Urges Preservation of Freedom

Hon. Charles A. Banks, mining-minded Lieutenant Governor of British Columbia, Thursday explained to nearly 100 prominent Nelson citizens what has detained him from returning here since his first visit a quarter of a century ago. He spoke at a civic luncheon in the Hume honoring himself and his wife during their day-long stay in Nelson.

City Council members and their wives, along with many business men and heads of governmental, civic and fraternal organizations, attended, and seated at the head table was His Honor and Mrs. Banks, Mayor T. H. Waters of Nelson and Mrs. Waters, C. B. Garland, K.C., Mayor James Bryan of Trail, Mayor J. R. Corner of Rossland, Mayor G. S. Baker of Kaslo, Most Rev. Martin M. Johnson, D.D., Bishop of Nelson, and Squadron Leader N. S. Macleod, District aide-de-camp to the Lientenant-Governor.

"I always wanted to come back to Nelson since my first visit here following the First World War," the Lientenant-Governor said. "While I find Nelson has not increased to any great extent in population, it has certainly improved. I am delighted to see it so prosperous, and both Mrs. Banks and myself are glad to be here again."

The official proceeded to describe his activities until his appointment to the governorship. An outstanding figure in mining circles and propagator of mining interests the world over, the Lieut.-Governor has offices established in Vancouver, San Francisco, Australia, Montreal, New York and other metropolitan centres. "We have, however, always maintained close connections with British Columbia, and have spent part of nearly every year in this Province," he stated.

The Lieut.-Governor's first mining operations were in the Cannibal Islands of New Guinea, where alluvian deposits were developed to a level of "world-wide renown." Some 2000 cannibals were employed in the gold production and became adapted to the white man's food and language. With the natives and a skilled engineering staff, operations were going strong by 1932 and carried on until World War II upon the Japanese invasion of the South Pacific, the mines ceased to function until the allied occupation. Destruction to equipment was heavy, he said, and difficulties are being encountered in obtaining replacements. Several claims are again in operation, and others are starting up.

Mining properties in Colombia, South America, are also directed by the Lieut.-Governor. Dredging operations in the Magdalena River territory were restricted during the war, but are now being reinstated.

"World War II found us in California," he said, and at that time it was a case of all hands on deck to save the ship." Mr. Banks was stationed for a period in England, in an official capacity for the Department of Munitions and Supply. There he worked in close touch with Canada's Army, Navy and Airforce, and found the work "very interesting." Mrs. Banks was connected with Club activities, and both were on the Beaver Club, which handled some 13,000 persons per day, 85 per cent of whom were Canadian service men.

They made numerous plane hops across the Atlantic, last year flying to Colombia, thence through the States to Ottawa, back to England and finally returning to Canada's West Coast.

"From our travels we have concluded that within the British Empire alone lies security. This is a sound country, we have fine neighbors to the South, and living in Canada, people have been greatly blessed by a land of plenty.

"Above all this is a land of freedom — the most important heritage we have. Let us guard well that freedom."

"HEAVENLY LITTLE SPOT"

Alderman A. H. Allan introduced personally each guest to the Banks' upon exit, and Mrs. Banks who hitherto had played the role of onlooker, commented briefly on Nelson being a "heavenly little spot."

As the Lieutenant-Governor is President of the Canadian Exploration Company which operates the Emerald Mine (Tungsten) near Salmo, the visitors left Thursday afternoon for a three-day stay there. They will then go to South Slocan and Trail.

Railways Faced With Strike Over Holidays

MONTREAL, July 17 (CP)—The Canadian Pacific Railway and the Canadian National Railways have been advised by the negotiating committee of the railway unions that steps have been initiated looking to the taking of a strike vote in connection with a dispute over paid vacations, it was learned today.

In a letter signed by F. H. Hall, Chairman, the negotiating committee wrote that the action followed refusal by the railways to accept the unanimous findings of a conciliation board which recommended a sliding scale of vacations with pay.

There was no immediate comment from the railways.

SAN FRANCISCO, July 17 (AP)—A strike which would tie up approximately 100 passenger trains and 1000 freight trains daily over the Southern Pacific system may be carried out even if President Truman should appoint an emergency board, a high union official said today.

Most Beautiful of 1100 Colleens Comes To Canada to Wed

VANCOUVER, July 17 (CP) — Erin's loss has become the gain of Canadian Navy veteran Arthur C. Sidall, 24.

The dark-haired Jeanette McFetridge who was judged to be Northern Ireland's most beautiful girl arrived here today to become the bride of University of British Columbia student Sidall.

Miss McFetridge, a former five-and-ten store clerk, won her first beauty honor when she was named "Miss Belfast."

Later in a Red Cross contest she took the title "Most Beautiful Girl in Northern Ireland," from 1100 colleens.

She met her husband at a Christmas dance in Belfast in 1944.

Unsanitary Bible?

VICTORIA, July 17 (CP) — [illegible] being [illegible] Victoria City Police Court Miss Nada F. [illegible] was fined $5 and costs or a July 3 traffic accident refused to kiss the court bible offered her by Court Clerk Ostler.

"It might not be clean," she said.

Then she opened her shopping bag and produced her own bible, carefully wrapped in tissue paper.

OTTAWA, July 17 (CP)—Canadian farmers' cash income from the sale of farm products during 1946 totalled $7,742,341,088, an increase of $44,643,800 over 1945, the Bureau of Statistics reported today.

Including payments made under the Wheat Acreage Reduction Act, the Prairie Farm Assistance Act and the Prairie Farm Income Act, amounting to $6,920,000 in 1946 and $6,439,000 in 1945, total cash income — 1946 was $1,759,311,000 against $1,704,137,880 in the preceding year.

$210,000,000 ROAD PROGRAM TO SERVE ALL NEEDS

VANCOUVER, July 17 (CP) — Minister of Public Works, E. C. Carson said in a speech here before a service club that the most travelled highways in British Columbia will be surfaced and made capable of carrying the trucks and busses of modern transportation within a year or two.

The Provincial Minister said that the Department has planned a highway system at a cost of $210,000,000 which will serve B.C. social and economic needs and attract tourists from across the border.

FIND 20 POUNDS OF CRUDE OPIUM

SEATTLE, July 17 (AP)—Howard MacGowan, Collector of Customs, said today that U.S. customs agents found 20 pounds of crude opium, worth $125,000 at illegal prices, hidden in the forward hold of the Dutch ship Mapia yesterday and today. Twelve pounds were found yesterday and eight today.

MacGowan said the officers and crew disclaimed knowledge of the opium.

The Mapia had been in Calcutta, Ceylon, the Straits Settlements and Honolulu before coming to the Pacific coast.

Claims Raiding Police Insulting

VANCOUVER, July 17 (CP) — A cabaret proprietor, R. Baden Parsons, declared today police officers who raided his place here in June used insulting language, as well as roughly pushing around his family and employees.

In a statement before the Police Commission Wednesday night, Parsons asserted that the two Sgt. Frank Colpitts of W.V. Police and a R.C.M.P. officer Sgt. Thomas, caused his children and mother to become hysterical after unnecessary roughness. Parsons was allegedly forced into the bedroom to remove his clothes.

The two officers, refuting the charges by Parsons, said that there was no rough handling.

The Mail Must Go Through

ABBOTSFORD, B.C., July 17 (CP) — [illegible] years after [illegible] letter which her daughter [illegible] to be from Kelowna, B.C., Mrs. C. F. Beck received it. Miss Beck, who now lives with her mother here, went down to collect the mail Tuesday and found the letter, postmarked "Kelowna July 7, 1947."

Polio in Washington

SEATTLE, July 17 (AP)—Seven cases of diphtheria and three cases of polio occurred last week in Washington, Dr. Arthur L. Ringle, State Health Director, said today. Four of the diphtheria cases are in Yakima County, and one each in Bellingham, Seattle and Grant County. One of the polio cases occurred in Yakima in June in Snohomish County but was not recorded until last week. The other two are Seattle residents.

Ocean Tragedy Takes 700 Lives

BOMBAY, India, July 17 (AP) — Nearly 700 passengers were reported to have perished today when a small coastal passenger ship, capsized by "two tremendous waves," sank in the monsoon-swept Arabian Sea 11 miles South of Bombay.

C. A. Buch, General Manager of the Bombay Steam Navigation Company who assisted in the rescue work, said "not more than 15 to 20 persons have been saved." The survivors included 11 of the 39 crew members, including the captain.

Skimpy reports described the sinking as the greatest "ocean disaster in recent memory."

PROBE TWISTED MICMAC FOR MISSING FIVE

Restoration of Destroyer To Take Months

DEATH TOLL SIX

HALIFAX, July 17 (CP) — In the crumpled, shattered mass of twisted steel that is the remains of the bow of the destroyer Micmac, search crews continued digging tonight for the remains of five men still missing after the warship's collision with the freighter Yarmouth County Wednesday.

Six others were killed in the crash and 16 were injured, none of them seriously. The body of an unidentified rating was found in the wreckage today, bringing the death toll to six and decreasing by one the number on the missing list.

Restoration of the destroyer would take months. The tremendous engineering job would include the delicate and expensive operation of grafting a new 50-foot forward section on her crushed hull. One official said the Micmac would be "written off" but at Ottawa Defence Minister Claxton said the warship would be made seaworthy again.

Meanwhile, a naval investigation into the collision already was under way as a court of inquiry convened today and sat again tonight. Any naval court martial would be subsequent to the finding of the court of inquiry and would be based on evidence presented to the court, whose sittings are being held in camera.

NO RADAR WARNING

Lieut. John Watters reported today that he had not picked up the merchant ship on his radar scope. Asked about his own unofficial opinion of what could be the explanation for the freighter not being scanned he said the only suggestion he could offer was that radar often did not operate on objects "right on top of you."

Cmdr. J. C. Littler, Captain of the destroyer, had nothing but praise for his men, who faced the tragedy with "calm and efficiency." Within seconds after the crash, 178 seamen were divided into either rescue or damage control operations.

Of the eight civilian dockyard mechanics aboard, P. Hendricks of Halifax, was among the five missing.

SCAN COAST FOR MISSING PLANE

HALIFAX, July 17 (CP) — Search and rescue aircraft and ships were dispatched to the coastal waters off Msquodoboit harbor, 40 miles East of here tonight after residents reported hearing an explosion shortly after sighting a plane believed missing from the Naval Air Base near here.

The plane, a Firefly believed to be carrying two men, was on a "homing" exercise and the last message received from it said it was over Clam Bay, up the Eastern shore, and was heading East.

Seek Greener Fields

WINNIPEG, July 17 (CP) — Lack of employment in Halifax sent Albert Smithers, his wife and their four children travelling from [illegible] hoping to find a place [illegible] Dominion to govern [illegible]

The Smithers who sold their executive house and all their furniture, left Halifax June 4. They stopped at Montreal, Ottawa, Toronto and passed through Winnipeg Tuesday, more than half way to their destination Vancouver.

Mr. Smithers, a marine electrician, hopes to pick up his trade on the West Coast. On the trip he is doing electrical engraving on jewelry to earn their way.

Motorists have been "really wonderful and help us all they can," Mrs. Smithers said. But at one point, we had to walk about 20 miles and it was really hard on the children."

"We want to show that we're not all a bunch of cissies in Canada," the 34-year-old father said. "We'll make it alright."

Russ Thumbs Down on Balkan Border Plan

Poland, Yugoslavia Blame Troubles On Greece in Security Council Filibuster; Charter Breach Seen

By LARRY HAUCK

LAKE SUCCESS, July 17 (AP)—Russia late today said that the United States plan for settling Balkan border disorders was "unacceptable" and thus pointed directly to a possible Soviet veto.

Delegate Andrei A. Gromyko told the Security Council in a special session that the United States proposal for creation of a semi-permanent frontier watch was a "sharp breach" of the United Nations Charter.

He then added:

"The Soviet delegation cannot agree to creation of such a commission."

Gromyko spoke 45 minutes as the climax to what delegates called a modified filibuster after Poland had held the floor 40 minutes and Yugoslavia 58 minutes. With the added time for translations, the three addresses kept the Council busy from mid-morning to near the evening adjournment.

Backing up Russia, Poland blamed Greece for the disturbances and demanded immediate withdrawal of foreign troops from Greece, new elections and formation of a coalition government "representative of the whole nation."

Yugoslavia, like Russia, rejected an American proposal for a semi-permanent U.N. Commission in the turbulent Balkans. In the next breath she joined Poland hotly to contest a report of an on-the-spot U.N. Commission which held Yugoslavia, Bulgaria and Albania responsible for the border troubles.

Earlier, the Council agreed to take up Egypt's complaint against Britain in which Cairo asked for immediate withdrawal of troops and the termination of the British regime in the Sudan.

Sir Alexander Cadogan, British delegate, asked for time to summon experts and collect evidence. The Council decided not to start debate before Aug. 5.

"MAD AVIATOR" SOUGHT AFTER SCARING FLIGHT

Alleged Plane Thief Terrorizes Town With "Joy Ride"

WRECKS CRAFT

FORT ST. JOHN, B.C., July 17 (CP)—British Columbia Provincial Police tonight were searching for a man described as a "mad aviator" who is alleged to have taken a civilian plane from an unlicensed field here and went on a "joy ride."

The plane was owned by W. J. Winnick of Vegreville, Alta., had been grounded for violation of air regulations by the Department of Transport. It was left in the field by Winnick after he was grounded.

The unidentified man gave residents of the town an exhibition of flying as he "shot up" the town and dive-bombed a speed boat on Charlie Lake, for more than a half hour.

During his mad manoeuvers he worked over the nearby R.C.A.F. airfield, missed farm house chimneys by inches and "beat up" cars and trucks on the Alaska highway.

Landing his plane he refuelled at the unlicensed field and took off again. On his second landing he wrecked the plane, but got out and disappeared. He is believed to have been accompanied on his aerial escapade by another man.

At Vancouver R. Carter Guest, District Inspector of Air Regulations for the Department of Transport, said that the Fort St. John "shoot-up" was under investigation by his Department.

Mr. Guest said that he had not received any report of the incident, but that a member of his staff, G. C. Upson of Vancouver, was at the Northern Alaska Highway town investigating the matter. Mr. Upson was at Fort St. John on departmental business when the incident occurred.

GERMAN OUTPUT VITAL TO PLAN SAY HOLLANDERS

By JOSEPH E. DYNAN

PARIS, July 17 (AP)—Holland injected the German issue into the 16-power European economic conference today, insisting that German productive capacity be increased along with that of the rest of the continent.

Dr. Hans M. Hirschfield, acting chief of the Dutch delegation, told a steering committee session that German resources must be included in any general scheme for reviving the continent through economic co-ordination, French sources reported.

The committee, scheduled to draft a questionnaire to the participating governments on industrial, trade and agricultural needs and assets under the Marshall plan, decided to delegate this task to its executive committee which was instructed to finish it by Saturday.

Gets Rounded Look—No Pads

By DOROTHY ROE

NEW YORK, July 17 (AP)—All you'll need is a gilt frame to do justice to Fox Brownie's Fall collection of "Flemish renaissance" fashions, each gown of which is designed to make the wearer look like a portrait.

Designer Brownie has taken inspiration from the rounded lines of Rubens, the brilliant colors of Brueghel and Vermeer and the opulence of Frans Hals and Rembrandt, she explains, previewing the advance styles for the visiting fashion press. And there is a portrait quality about the rich reds and deep greens, the soft browns and electric blues with which Brownie plans to enliven the North American Winter landscape.

Her Rubensesque suits achieve a rounded look through the hips without benefit of padding, her "wallpoon cloaks" in fleecy woollens have flaring back fullness from shoulder to hemline.

The designer also shows a series of "night watch" clothes, for cocktail, dinner and theatre wear, in pure silk crepe, satin and taffeta, with rustling taffeta petticoats. These vary in length from six to 12 inches from the floor.

WASHER OUTPUT HOPS

OTTAWA, July 17 (CP)—Here's good news for the overburdened housewife, the Bureau of Statistics announced today that more domestic washing machines were produced in May than in any month on record. During the month, 17,742 units were produced, compared with 16,975 in April—the previous record — and only 11,377 in May last year.

LANGLEY PRAIRIE, B.C., July 17 (CP) — A verdict of accidental death has been returned in the case of four-year-old Marjorie Hewer of Aldergrove, B.C. The girl died Sunday following an accident in which she received a fractured skull after being struck by an automobile.

Resume Strip Coal Mining At Corbin

CRANBROOK, B.C., July 27—Resumption of strip coal mining operations at Corbin after a few years interval has attracted workers from this part of the district. The mining property, entirely an open pit operation, is owned by Corbin Colliers Ltd., but has not been operated by them since the general strike of 1919.

It has been leased to the Consolidated Mining and Smelting Company Ltd. for many years now and has been operated at intervals by them for a considerable period but during the past few years it has been closed.

The C. M. & S. has sublet the operation to O'Sullivan Construction Company of Lethbridge who resumed its working in June. Superintendent of operations is Jack Barber formerly of Cranbrook.

IN CROWS NEST

Corbin is in the Crow's Nest Pass coal field along the Elk valley about 20 miles from Fernie. The mine is at an altitude of about 6,000 feet and practically all the mining is done by power shovel. Of the 70 employees nearly 60 are employed on 50 trucks which haul the coal continuously to Fernie for railway loading.

Production is well under way and 1,000 tons are being shipped daily. All the coal mined is consigned to Trail where the C.M. & S. has its main operations. The road from Corbin to Fernie is constructed on a former railway bed, through some of the province's most spectacular mountain scenery in the Rockies.

Matric Results Known Tuesday

VICTORIA, July 17 (CP) — The results of university entrance and senior matriculation in British Columbia high schools will be announced Tuesday, the Department of Education said today.

Set Up Creston Credit Association

CRESTON, B.C., July 17 — The nucleus of commercial enterprise, in the nature of the Creston Valley Retail Merchants Credit Association was formed in the Legion Hall, when a few local merchants met to discuss credit problems in the town and the valley.

A set of bylaws will be prepared to be discussed at a second meeting next Tuesday night and possibly officers elected to operate the credit bureau.

All present were unanimous that some form of credit control should be established.

AUSSIES WON'T ATTEND

NEW YORK, July 17 (CP) — Prime Minister Chifley of Australia said today that Australia will not take part in the proposed United States conference on Japan Aug. 19. He said it conflicts with the Commonwealth conference on Japan already scheduled for Aug. 26 in Adelaide, the Australian News and Information Service reported.

MAY HAVE TO WAIT FOR LATER SAVINGS RETURN

First Cash Back to Taxpayers Next Year; Unsure About Rest

TRIAL PLAN

OTTAWA, July 17 (CP) — The Government has prepared plans to pay back compulsory wartime savings which were deducted along with income tax, Finance Minister Abbott said in the Commons today, but the first instalment of them will admittedly be on a trial and error basis and a lot of checks will undoubtedly go to wrong addresses.

Replying to requests by Stanley Knowles (CCF - Winnipeg North Centre) and John Diefenbaker (PC-Lake Centre) that the payments be made as quickly as possible and even in one lump sum, the minister said the Government would pay back the first year's amounts in 1948 but the other two years would have to wait until later.

The checks that go out will pay back sums deducted in 1942, 1943 and 1944. The minister said the Government would consider whether the last two years' amounts could be paid at once in 1949.

Publicity would be given the plan. In some 15,000 cases, he said, the checks would be for less than $1.

Sockeye Pack Promising

VICTORIA, July 17 (CP) — Weekly salmon pack bulletin of the Federal Fisheries Department indicated that sockeye salmon fishermen in the North were experiencing the second best year recorded during the past six years.

Pack to date this year has been 50,024 cases of sockeye, compared with 33,274 cases at this date last year and 76,494 cases at the same date in 1945.

Of this total for 1947, 8,222 cases have been coho and 3,321 cases have been bluebacks.

Postpone Newsprint Deliveries From Canada to Britain

LONDON, July 17 (Reuters) — Sir Stafford Cripps, President of the Board of Trade, announced in the House of Commons today that as a first effect of the decision to cut down dollar imports of newsprint, the newsprint supply company had been told to postpone deliveries of some 48,000 tons of newsprint due from North America during the next six months. It would have involved $4,400,000 (Canadian).

Faced with protests against the cuts—which will force British daily newspapers to return to the wartime four pages Monday when sales will be pegged at the June circulation—Sir Stafford stood firm by the Government's austerity import policy.

Claim Rebels Attacking Towns

TIHWA, Northwest China, July 16 (Delayed) (AP) — Chinese military authorities asserted today rebels have attacked highway towns in an effort to enforce their demands for removal of nationalist troops and of the new Sinkiang Provincial Governor Mesud Sabri.

The rebels, they said, are part of the separatist group in the Ili District of Northwestern Sinkiang, which adjoins Soviet territry.

Bodies From Wrecked Plane Found

MADRID, July 17 (Reuters)—The bodies of three occupants of a British Civil plane which crashed in the Lumbreras Mountains in Logrono Province in Northern Spain yesterday have been found, a message from Logrono said today.

HE WAS INDIFFERENT TO HEDY

LOS ANGELES, July 17 (AP)—Film Actress Hedy Lamarr was granted a divorce today from John Loder. British movie star, she testified, "He was extremely indifferent to me."

Married in May, 1943, they have one child [illegible] adopted son. She was awarded $[illegible] a month for their support.

Foresee Strained Accommodation In Jubilee Week

To date all the applicants for accommodation have been filled by the Civic Centre Commission machinery set up to handle billeting during Jubilee Week.

Margaret McDonald who is in charge of the billeting committee said Thursday that "the public is responding splendidly in taking visitors into their homes." She explained, however, that the greatest influx of visitors will be felt immediately before the Jubilee festivities.

Almost all local hotels have a backlog of reservations and it is foreseen that housing here will be strained to the utmost to provide lodging for an expected 2000 daily turnover of visitors. The Jubilee Committee has endeavored to arranged to bring in the public from various Kootenay points for a day's time and to provide transportation back at night to ease the strain on the accommodation.

Blood Transfusion Unit in Trail

TRAIL, B.C., July 17 — Some 11 pretty nurses will be on hand Friday and Saturday at the Trail-Tadanac Hospital to attend free blood donors who will be contributing a pint of blood to the B.C. branch of the Canadian Red Cross Transfusion Service.

The nurses, who will be under the direction of Dr. W. G. Rice, arrived by train and Red Cross vans from Vancouver tonight. The group will number at least 15, counting three drivers, a technician and Dr. Rice, who is expected later tonight.

The party will proceed to Nelson on Monday to receive blood donations there.

TOAST and TEA
BY J.V. McARELL

Mary Webb on sound in Nature says in The Spring of Joy. —"Oak leaves, on their firm stiff stems, brush each other roughly, long pendant willow leaves move with a shrewd whisper, rustling have lipped another colourlessly. Aspens and poplars have their leaves hung loosely on stalks almost as flexible as the willow, they quiver and twist, on the more bland of a breeze sets them to talk together, the coy leaves of young birch like running water and in a quiet place you can hear it across a wide field. She is equally sensitive to fragrance. The air is full of the scent of leaves and grass, fresh from rain, of the flowers, of the dew, smell of the cedar, the sweet and thick atmosphere from which when the dusk of beeches or the green gloom of the April larch woods. Sometimes, in places where there are no flowers, aromas dart upon one like little elves with sharp teeth from moss and stools, keen grass and pungent fir cones, damp soil and bracken. Fern leaves send out a curious sedative odour when crushed, and honeysuckle, rent by the moonlight, of gorse."

23 Companies Registered in Week

VICTORIA, July 17 (CP) — Four Vancouver Island firms, one of them from Victoria, were among the 23 companies registered at the legislative buildings for the week ending today.

J. J. Walsh Laid at Rest

Funeral services for James Joseph Walsh who died here on Tuesday, were conducted from the Thompson Funeral Home Thursday afternoon, Rev. J. W. Robinson of St. Saviour's Pro-Cathedral officiating.

Officers and members of the Nelson Masonic Lodge No. 23 attended in a body, together with friends and neighbors.

"Abide With Me" was sung by the congregation, with Mrs. W. A. Manson as organist.

The Lodge burial ritual was read at the graveside by Acting Master Floyd L. Irwin, and interment was in the Masonic Section of Nelson Memorial Park.

Pallbearers, all members of the Masonic Lodges A.F. and A.M., were F. H. Glover, Capt. J. A. McDonald, H. N. McLean, J. A. McLellan, F. B. Pearce and F. C. Robinson.

Mr. Walsh, who had lived here 18 months, was formerly of Yorkton, Sask., where he resided for 26 years.

BRITAIN WILLING TO TAKE UP EGYPT COMPLAINT

LAKE SUCCESS, N. Y., July 17 (AP)—Britain today told the United Nations she would be willing to take up Egypt's complaint asking the withdrawal of British troops from Egyptian and Sudanese territory.

Sir Alexander Cadogan, British delegate, asked only for time in which to summon experts and collect evidence.

The Security Council decided not to debate the issue until after Aug. 5 and to devote the time meanwhile principally to the Balkans dispute. The Egyptian complaint was lodged last week.

Poland joined Russia in blaming Greece for the current Balkan disorders and demanded formation of a new coalition government in Greece, new elections and the immediate withdrawal of foreign military personnel.

Poland's views were stated by Dr. Oscar Lange, United Nations Security Council President, as the council met in extraordinary session in an atmosphere intensified by the fighting in Northern Greece.

"It is necessary that Greece be extricated from the network of international power politics," Lange said.

Deputy Finance Minister Here

J. V. Fisher, Deputy Minister of Finance for British Columbia, arrived in Nelson Thursday for a two-day visit. He is on an inspectional tour of the Province.

Herridge Backs Government in Land Act Debate

OTTAWA, July 17 (CP) — Hopes for a parliamentary prorogation today dwindled in the Commons as Progressive Conservative members pressed a continuing attack against the administration of the Veterans Land Act.

The criticism touched off last night by Donald Fleming (PM—Toronto Eglintin) took up the whole of the two hour morning sitting as opposition members rose to repeat demands for a royal commission inquiry into what they said was the "atrocious" work that went into veterans housing.

The Government found a champion in H. W. Herridge (People's C.C.F. Kootenay West) who said the situation already had been studied by a parliamentary committee whose report had been adopted by the house and suggested the opposition members keep their criticism to "proper proportions."

Lt.-Col. Douglas Harkness (P.C.-Calgary East) asked for the names of 20 officials who had been let out by V.L.A. but Capt. Walter Tucker parliamentary assistant to the veterans Minister said it would be "unfair" to make their names on record so they could be "pilloried" across Canada. In some cases they would be able to say they had done the best they could under the circumstances.

Swimming Classes Start Today at Gyro, Lakeside

Swimming classes will commence at Lakeside and Gyro Parks Friday morning with the initial plunge into the Gyro pool at 10 o'clock.

For the start of the swimming season two beginners classes will be held in the morning, one at Gyro at 10 o'clock in the morning followed by another class at Lakeside at 11 o'clock. Advanced swimmers will be instructed from two to three at Lakeside Park.

It was felt that the instruction at the Gyro Park would be a convenience to parents who accompanied their youngsters to classes, but found that the time element often kept the beginners from the classes.

LOCKE TO MAKE EXHIBITION TOUR AT COAST

Scarboro Golf and Country Club, Toronto, July 17 (CP) — Bobby Locke, the South African golfing star, said tonight he would go to the Canadian and U.S. West Coast the second week in September for a series of four or five exhibition matches.

Stan Leonard and Fred Wood, Vancouver pros playing in the Canadian Open here, will play with Locke and they may be joined either by L. Worsham, United States Open Champion, or Ellsworth Vines of Los Angeles, a former United States Davis Cup tennis player, also in the present tournament.

Leonard has been making arrangements for the series but said exact dates have not yet been set. The tour will probably take in Vancouver, Victoria and Seattle courses.

Can't Take Them With Her

LADNER, B.C., July 17 (CP) — Mary Chung Chuck will serve a three-month sentence at Oakalla prison farm without her four children, who asked that they be allowed to remain with their mother.

The woman was convicted last January on a charge of selling liquor and was fined $300 or three months in jail, but she failed to pay the fine.

The serving of her term was delayed because of her young children, youngest of whom was three weeks old at the time. Her conviction was appealed in New Westminster County Court, but the appeal was lost.

Buddy McNeil, Popular Scout, Dies

OLIVER, B.C., July 17 (CP)—Robert (Buddy) McNeil, 16, one of the best-known Boy Scouts in the province and popular athlete, died here of a heart attack Wednesday.

He was sitting in a chair beside the river bank when he collapsed and slid into the water. A companion, Harry Carter, pulled him out, but he was dead.

Young McNeil was awarded the Bronze Scouting Star for saving a fellow Scout from drowning. He was also a winner many times in the annual Kelowna Regatta and had been in training to compete again this year.

KISS YOUR TIRED FEELING GOODBYE!

Pepless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet—you can feel as if you had lead in your legs, dopey, tired and pepless.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams Pink Pills today. They are world-noted for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.

School Board Pays Tribute To F. A. Jewett

Trustees of Nelson School District No. 7 Thursday night paid homage to F. A. Jewett, who for 12 years has helped guide the educational program in the West Kootenays as schools inspector.

He is leaving for a similiar post at Mission and Chilliwack.

Mr. Jewett was presented "with a memento of the city which he served" — a colored photograph showing the panorama of scenery from his own doorstep.

"Pictures . . ." Mr. Jewett recalled, "I will remember many from Nelson and its surrounding country." He reviewed 12 years of travelling to out of way "schools where one could take off his coat and do some work."

"Every trip was a wonderful experience," Mr. Jewett told the Board. He recalled that he had seen 19 bears in his travels throughout the Kootenay school district. "I remember the streams, an old fence by the road—some spot where I once had my lunch on an old stump."

"My heart shall always be with the little schools out in the country," Mr. Jewett emphasized.

Of the Nelson School Board and of the city itself Mr. Jewett said: "You have a first class set of peoples here." He acknowledged improvements in the management of the Board with the comment that it had assumed the efficiency of a "business set-up."

The Board chose Clarence Ward and C. H. Sewell to represent Nelson at the School Trustees' convention at Harrison Hot Springs July 22 to 24. Alternative delegates are W. E. Wasson and Dr. C. E. Bradshaw.

Letters of resignation were read from Miss Winnifred Palmer, teacher at the Procter School and Miss Betty Collinson, who is leaving the staff of the Nelson High School to further her studies at the University of British Columbia.

Cranbrook Teacher Weds Sask. Man

CRANBROOK, B.C., July 17 — The marriage took place here Tuesday at Knox Presbyterian Church of Ethel Marie Leggatt of Cranbrook, formerly of Battleford, Sask., to Harris Whewell Workman of Willmar, Sask. Attendants were Miss Hael Helem of Saskatoon and Lee Clarkson of Willmar. Rev. T. E. Roulston performed the ceremony.

A reception followed in the church hall with the Ladies' Aid serving luncheon. The couple left on their wedding trip to Banff, and the bridesmaid, Miss Helen, Willmar where the groom operates a farm.

The bride came here five years ago as exchange teacher at Central School and has remained on the staff ever since.

A few days before the ceremony Mrs. James Johnston entertained at tea in honor of her and the bridesmaid, Mis Helem.

3 B.C. Scouts to Jamboree in France

VANCOUVER, July 17 (CP) — Three Boy Scouts will represent British Columbia at the International Boy Scout Jamboree in France. The three are Patrol Leader Douglas Williamson of this city; Patrol Leader MacGregor MacIntosh of Victoria; and Troop Leader Thomas Davis of Vernon, B.C., will be joined by Prairie Boy Scouts.

BABY'S HOT LITTLE HEAD

WHEN your Baby's head feels hot to your hand it may be because of simple fever common to some minor baby ailment. If so, Baby's Own Tablets will help reduce this simple fever by clearing harmful wastes out of the system.

Mrs. Francis Carroll, of Midland, has this to say: "My little baby was feverish and hot. I gave her Baby's Own Tablets and by night-time she was up and around again." If baby's fever is not promptly relieved consult your physician.

Baby's Own Tablets are sweet-tasting, easy to take—and have been used with confidence by mothers for over 50 years. No "sleepy" stuff—no dulling effect. Equally good for constipation, teething troubles, upset stomach and other minor ailments. 25¢ at druggists. Get a box today.

Tot Dies in Accident, Fall Into Water; Fly Pulmotor To Lardeau

KASLO, B.C., July 17—Murray Tillen, two-year-old son of Mr. and Mrs. Tillen of Lardeau, died Thursday morning at Lardeau following an accident and fall into Kootenay Lake.

The lad was apparently playing with a companion when the mishap occurred.

Dr. L. D. Besecker of Kaslo was rushed to the scene, and a pulmotor flown over from the Consolidated Mining and Smelting Company at Trail. Attempts at recuscitation were without avail, and the child was pronounced dead more than an hour later. Reports suggested that the lad met death in an accident immediately prior to falling into the water.

The body has been brought to Kaslo.

Tasty Recipes

By BETSY NEWMAN

No excuse necessary, we are sure, for a fine batch of desserts just right for this lovely time o' year when every meal should leave a pleasant memory and lingering palatability.

Pineapple Upside-Down Gingerbread to give the confection its full name, is a delicious dessert. Melt 2 tablespoons butter in pan; add 1-3 cup brown sugar; distribute evenly over the bottom of the pan. Arrange on top of sugar mixture 4 slices canned pineapple or one cup crushed pineapple, drained. Next blend 1-3 cup shortening with 1-3 cup sugar; add 2 eggs, and beat well. Stir in ¾ cup molasses. Pour ¾ cup boiling water over ¾ cup bran; add to first mixture. Add 2 cups sifted flour with teaspoon baking powder, teaspoon soda, teaspoon ginger and ½ teaspoon cinnamon. Spread on top of fruit. Bake at 350 F. about 45 minutes.

Loosen cake from sides of pan with a spatula, then invert on a large serving plate. Serve plain or with whipped cream. Yield 6-9 servings (9-inch pan).

DESSERT FOR YOUNGSTERS

Chocolate Sponge is a dessert that is good for the youngsters, if the big folks don't manage to eat it all! To serve 4 melt one package (¼ lb.) sweet chocolate in top of double boiler. Add 3 tablespoons butter and blend. Add 1-3 cup sugar, dash of salt; mix well. Cool slightly while beating 2 egg whites, stiffly.

Stir chocolate mixture into egg whites, gently but thoroughly. Turn into custard cups. Place in pan of hot water and bake at 350 F. for one hour and 15 minutes. Serve hot with cream.

If there is some left-over cake then use it as an ingredient for a delightful dessert. Chocolate Chip Queen Pudding to serve 4, starts off with 3 cups ½-inch cubes of stale cake placed in greased 8½-inch casserole. Add ¼ cup sugar and ¼ teaspoon salt to 2 eggs and 2 egg yolks, and beat slightly; then add 3 cups scalded milk and teaspoon vanilla.

POUR OVER CAKE

Pour over cake and mix well. Place in pan of hot water and bake at 350 F. for 50 minutes, or until custard mixture is just set, but not firm. *Be careful not to overbake at this stage.* Sprinkle package semi-sweet chocolate chips over top and cover with meringue.

To make meringue beat 2 egg whites with dash of salt until foamy *throughout. Then add 4 tablespoons* sugar gradually, beating after each addition until sugar is blended; continue beating until mixture will stand in peaks. Return pudding to oven and bake 12 minutes or until *delicately browned.* Serve warm.

WORCESTER, Eng. (CP)—Every house at Worcester which has been flooded is to receive two hundred-weight of free coal for drying out.

Canadian Miners To Seek Wages Equal to Americans

CALGARY, July 17 (CP)—Western Canada miners will seek comparable increases in wages and welfare fund contributions to those recently granted in the United States Robert Livett, President of District 18, *United Mine Workers of America* said here Wednesday.

Whether operators would be approached for increases prior to the expiration of the present contract next March 31, would be decided by the District officers and board members, Mr. Livett declared. Present plans call for a District Convention this December or in January prior to negotiation meetings with mine operators.

Mr. Livett has just returned from a meeting of the U. M. W. A. Board held in Washington.

Send Books on Hints For Home to Princess

LONDON, July 17 (Reuters) — A small book addressed to Princess Elizabeth at Buckingham Palace arrived by air yesterday as a gift from "Brides Incorporated" of America. The book contained "Hints on Building a Home," and "Your Budget" other headings were "Schedule for Housework" and "The Business of Being Missus."

COALVILLE, Leicestershire, England (CP)—Flt. Lt. K. Gamble flew from Japan to spend 48 hours' leave.

CUTICURA SOAP AND OINTMENT

Would Ban Women Smoking by Law

LONDON, July 17 (CP) — Brave George Easter of Brighton ventured into print with a suggestion that women be banned by law from smoking.

In a letter to the Sunday newspaper the people Easter said:

"It's time we had a law forbidding women to smoke. That would not only reduce consumption and save dollars but perhaps restore to our girls a bit of what they need — a bit of feminine sweetness and dignity."

Flying Santa Dies

ROCKLAND, Me., July 17 (AP) — New England's "flying Santa Claus," Capt. William H. Winslow died of a heart attack last night in the air where he had estimated he spent a quarter of his 62 years.

Except in the war years Winslow had "bombed" New England lighthouses with Christmas gifts packages annually since 1927.

WHADDON, Buckinghamshire, Eng. (CP) — Whaddon's Queen Eleanor, who died in 1290, is to be given a new cross.

DEATHS

NEW YORK (AP) — Mrs. Lucia Comstock Dunlap, 92, one of the first women journalists in the United States of author of books on journalism and church affairs.

AMITYVILLE, N.Y. (AP) — Rene Kraus, 44, biographer and former Austrian newspaper editor.

MELKSHAM, Wiltshire, England (CP) — [illegible] of Melksham.

LONDON (CP) — Fires in woodlands belonging to the British Forestry Commission last year caused damage estimated at $104,000 and destroyed 1100 acres.

Soothes instantly and quickly calms intense itching. Don't suffer. Ask your druggist today for **D. D. D. PRESCRIPTION.**

Report on Magnificent Dunkerque Evacuation Released From London

330,000 British Troops, 120,000 French Rescued; Air Attacks Worst

LONDON, July 17 (AP)—The Admiralty today released, seven years after the event, the epic of the British and French evacuation from the bombed, bloody beaches of Dunkerque between May 26 and June 4, 1940.

The matter-of-fact language of the dispatch from the late Admiral Sir Bertram Ramsay, who directed the operation, hid none of the magnificence of the achievement.

Sir Bertram was killed Jan. 2, 1945, when his plane crashed on a trip to Belgium.

Sir Bertram disclosed in his dispatch written June 18, 1940, that of the 176 British ships used in the operation 35 were sunk and 42 others damaged. The 176, ranging from destroyers and hospital ships to trawlers and drifters, were supplemented by approximately 700 little boats from British fishing points, in the rescue of the battered troops.

Some 330,000 of the British troops who had been driven out of Europe by the victorious Germans were brought back to Britain.

The Admiralty, Sir Bertram wrote, had expected at the utmost to rescue 45,000.

FRENCH NAVY LOSSES

The French Navy, too, suffered heavy losses among the 196 ships it flung into the evacuation of French troops from the beaches. Nineteen were sunk and two damaged. In all, 123,095 French troops were transported across the channel in British and French ships.

Through "intensive" air attack, minelaying by plane, action by motor torpedo boats, coast artillery gunfire and submarine operations the Germans tried to block the evacuation, Sir Bertram reported. All their operations succeeded in part, but the air attacks were the worst.

"Heavy air attacks started May 29," Sir Bertram wrote.

"From then onwards the scale and vigor of the air attack increased and during June 1 all ships in Dunkerque, off the beaches or in the approach channels were subjected every two hours to an unprecedented scale of attack by aircraft in such numbers that the Royal Air Force were unable to deal with the situation."

A footnote reported that the R.A.F. destroyed 262 German planes over the beaches between May 26 and June 4.

At about 4 p.m. May 29 a two-hour dive bombing attack on Dunkerque Harbor forced the cessation of embarkations, but the operation was resumed at dusk. That air attack, however, blocked the harbor, and all troops thereafter were loaded from the beaches, wading out into the surf.

TOLL MOUNTING

"Heavy" air attacks by more than 100 bombers started soon after dawn June 1 "and it became evident that a very serious threat to daylight evacuation again was in being. The toll of casualties among the ships during the day was mounting, particularly among the destroyers."

On June 2 this signal came from the beaches: "Wounded situation acute and hospital ships should enter during day. Geneva convention will be honorably observed, it is felt, and that the enemy will refrain from attacking."

HOSPITAL SHIPS

So two hospital ships started out and both, Sir Bertram reported, were attacked by junkers planes. One, the Paris, was "badly damaged" and it subsequently sank "and the last attempt to evacuate the wounded by hospital carrier from Dunkerque was brought to nought."

Sir Bertram wrote that "the number of soldiers taken off the beaches by motor boats cannot be estimated. One 35-foot motor launch alone ferried off 600 men to transports and carried 420 direct to England.

CREW KILLED IN B. O. A. C. PLANE CRASH

LONDON, July 17 (Reuters)—All members of the crew were killed and 12 passengers were injured when a British Overseas Airways Corporation Aircraft bound from London to Calcutta crashed at Shaibah Airdrome, near Basra, Iraq, A.B.O.A.C. official said today.

No passengers were killed.

The injured were taken to an Indian General Hospital near Basra.

Jag Jirwan Ram, Indian Minister of Labor, returning from consultations with the British Government was among the passengers.

Nehru Resigns Chairmanship Of Conference

LONDON, July 17 (Reuters)—Pandit Jawaharlal Nehru, Vice-President of India's Indian Government, has resigned from the chairmanship of the All-India States Peoples Conference, new Delhi radio said tonight.

"Differences of opinion" regarding the conference's policy to the Indian states were said to have caused his resignation.

***Nehru has been Vice-President* of the Indian Interim Government since September, 1946.**

As leading member of the mainly Hindu Congress party, he played an important part in the struggle for Indian independence.

Approve Western Hemisphere Military Pact

WASHINGTON, July 17 (AP)—The House of Representatives *Foreign Affairs Committee today* approved legislation calling for arms standardization and military co-operation between the countries of the Western Hemisphere.

The committee limited the United States' expenditure to $50,000,000 for a five-year program.

Chances of the bill's passage at this session of congress appear *slight in view of the drive for adjournment* by the end of the next week. It will probably lie over for action early next year.

Before stamping its approval, the committee wrote in an amendment to provide that execution of the program must be consistent with the United States' "good neighbor" program.

Fire Subsides In Alaska

ANCHORAGE, Alaska, July 17 (AP)—A new fire break was cut around the town of Kenai today as the Kenai Peninsula forest fire subsided somewhat in its March upon the village and its 600 residents.

Army officers said they were confident the town could be saved although the flames were only three miles away yesterday when the fire turned against the wind toward Chickaloon Bay.

Forty-seven soldiers were rushed in by air yesterday from Port Richardson and a plane was to fly in from the same establishment to spray the area with DDT to kill mosquitoes which have added to the discomforts of the fire fighters.

Purchases Weekly Paper at Vanderhoof

PRINCE GEORGE, B.C. July 17 (CP) — Harry G. Perry publisher of the Prince George Citizen and Prince Rupert Daily News today announced the purchase of the weekly Nechako Chronicle at Vanderhoof, B.C., from W. J. Rimes. Mr. Perry will take over the publication after July 31.

Title Duke of Edinburgh May Be for Philip

LONDON, July 17 (AP)—Court circles said today that the Duke of Edinburgh is the title most likely to be conferred on Lieut. Philip Mountbatten when he marries Princess Elizabeth.

The only other person to hold the title was Prince Alfred, second son of Queen Victoria, who died in 1900. He once was offered the throne of Greece, which later was accepted by Mountbatten's great-grandfather, Prince George of *Denmark*.

Industry Seeks Better Forest Management

PETAWAWA, Ont., July 17 (CP)—Unless problems of better forest management are solved, the pulp and paper industry of Canada may be accused of not using its best efforts to discharge the responsibility which it has in regard to economic utilization and conservation of the country's forest, F. L. Mitchell, General Manager of the Canadian Pulp and Paper Association said here yesterday.

Mr. Mitchell spoke at the first gathering of a three-day Summer meeting of the Woodlands section of the Pulp and Paper Association of Canada which drew more than *400 forestry men from Coast to* coast.

WASTE LANDS

Maj.-Gen. Howard Kennedy, Chairman of the Ontario Royal Commission on Forestry, said his report would focus attention on the problem of bringing back waste farm lands to forest production in Ontario.

He said that his recommendations, if implemented, would in the next 20 years make farmers want to stay on the farms because farmland would become more profitable and attractive as a result of the wood crops and improvement of land.

J. D. B. Harrison, former chief of the Economics Division of the Dominion Forest Service, Ottawa, and now chief of the Forestry Branch, *United Nations Food and Agriculture* Organization, Washington, said that surveys are reassessing the forest resources of the world, and annual statistics would be issued yearly as part of F. A. O. service.

Julian H. Merrill, of Nipigon, Ont. was named Chairman of the committee on forest fire prevention.

Fireman Killed In Oakland Fire

OAKLAND, Calif., July 17 (AP)—One firman was killed and three others injured today in a blaze that swept a half-block in West Oakland's *warehouse area before being* brought under control.

Assistant Fire Chief Manning Basch said damage would amount to $100,000 at least. Owners of property consumed by the flames said the loss would run much higher.

Fireman Louis Cetraro, 27, was killed. Spectators said they saw him fall into a burning building when the roof collapsed. His body was recovered.

Memorial Arena Seeks Insurance From Old Arena

VICTORIA, July 17 (CP)— The Memorial Arena Committee will meet Friday to discuss the possibility of obtaining the use of the $55,000 insurance money from the old arena which burned at the Willows Grounds April 1944, Ald. R. A. C. Dewar Committee Chairman, said today.

Ald. Dewar said he believed it would require provincial government approval before the insurance funds, which are held in a special account by the city, can be used, and that tenders should be called for the remaining portion of the arena construction so it can be ascertained exactly how much more money is needed to complete the building. When the roof structure is finished and the refrigeration plant paid for there will be $68,452 left in the fund. If the $55,000 insurance money can be used it will bring available funds up to $133,450.

Doubt has been expressed whether this would cover the rest of the building costs, some estimates putting it as high as $200,000.

ALBERTA REJECTS FREIGHT RATES COMPLETELY

OTTAWA, July 17 (CP)—Alberta's Government called on the Board of Transport Commissioners today to reject completely the railways' application for higher freight rates.

But if the board should find the railways need more revenue, then it should remove "regional discriminations" and establish nation-wide "parity" before granting any increases, the Social Credit Government urged in a brief.

Reiterating the contention that Alberta stands at the peak of the freight-rate structure by reason of its long hauls, the government declared any percentage increase such as asked by the carriers could result *only in the "deterioration" of Alber*t s'ai pitsoonni
ta's position in relation to other provinces.

FINAL HEARING

The province's submission was laid before the commissioners as they continued final Ottawa hearings in the five-months-old National Freight-Rate Inquiry. It was signed by Hon. W. A. Fallow, Minister of **Railways and Telephones, and read by Prof. Andrew Stewart, head of the University of Alberta's Department of Economics.**

Besides emphasizing claims of Alberta's "disadvantageous" position, the government presentation made four major contentions.

Only grounds given by the railways *for the increase were those of* "expediency and the immediate need of additional revenue." But the high level of traffic this year to date knocked out the claim of expediency.

"The Province of Alberta," the brief continued, "maintains that there is insufficient reason for any hasty action in increasing freight rates by a method that has only its simplicity to recommend it."

On both outgoing and incoming freight, said the brief, Alberta generally was subject to "the highest rates of any area in Canada."

Dealing with competitive rates, the brief said competitive forces might make it impossible for the railways to make an increase uniform .Thus, "non-competitive areas such as Alberta will in effect be required to assume an even greater proportional share of the burden than they now are bearing.

VICTORIA, July 17 (CP) — The Foods Administration of the Wartime Prices and Trade Board has written the City Council indicating that the restrictions against the sale of sliced bread will not be lifted *until the paper shortage has eased.*

Rossland Junior Board of Trade Renews Victory Highway Promotion

ROSSLAND, B.C., July 17—More active promotion of their "Victory Highway" was unanimously decided upon by the Rossland Junior Board of Trade at their regular monthly meeting.

Keen disappointment was expressed when a telegram from Hon. E. C. Carson, Minister of Public Works, was read, advising that he was unable to accept the Board's *offer to have the Minister's party* make a tour of the proposed Victory Highway route from Patterson to Cascade via U.S.A. Members felt that Mr. Carson's visit for the inaugural cruise of the new Kootenay Lake ferry Anscomb should have included Rossland.

A letter will be sent to Mr. Carson assuring him that the Board has by no means forgotten the invitation already acepted by the Minister to go over the route. Several members spoke about the enthusiasm that had previously developed across the border for this project, and it was felt that these individuals and organizations should not be let down. Letters will be sent to Victoria and Ottawa pressing for action on the matter.

L. H. Whittaker, editor of the Rossland Miner, was guest speaker for the evening. Mr. Whittaker dealt with the objectives of a newspaper, outlining the factors involved in editorial policy, news dispensation and collection, and advertising. It was the speaker's opinion that an editor's function was to sense current trends in thought and to crystallize this feeling, rather than attempt to formulate public opinion through a purely personal presentation of ideas. Many questions were asked.

A letter was ordered written to the Rossland Public Works Department pointing out the inadequacy of the present road signs at the corner of Columbia Avenue and St. Paul Street, and making suggestions *regarding this matter.*

G. W. Hertig, President of the Rossland Senior Board of Trade, and representing that body at the meeting, reported on the recent Associated Boards convention at Fernie. This body was actively behind the Victory Highway, he said.

Dan Irvine, Chairman of the Ways and Means Committee, was asked to consider taking the Board's "Barber Shop Quartet" Jubilee float to Nelson in early August. In view of the relatively low prizes being offered, and the present state of finances, the Board did not feel too enthusiastic about losing money on the idea. The value to Rossland in publicity was recognized however, and Mr. Irvine and committee promised to see if something could still be done.

Harry Stevens was accepted into membership and was formally installed. Guests were Phil Welsh, J. Lilburn and Roy Brown.

DENIES CAN. DOLLAR TO BE DEVALUED

Abbot Has No Intention of Recommending Action

STATEMENT ASKED

OTTAWA, July 17 (CP)—Finance Minister Abbott today in the Commons branded as "completely without foundation" recurring reports in financial circles that the Canadian dollar was to be devalued and said he had "no intention" of recommending such action to the Government.

Mr. Abbott commented briefly after J. M. Macdonnell (PC-Muskoka-Ontario), Progressive Conservative financial critic, asked for a statement on Canada's foreign exchange position.

The Minister replied he felt no useful purpose could be served by frequent statements on that situation.

He then recalled he had made an **extensive statement on the exchange position in his budget speech when he said this position could not be improved by dollar devaluation.**

"That still holds good today," he went on.

Pacific Milk
IRRADIATED AND VACUUM PACKED

"Yes, yes, of course I'm glad to see you—who's your cute friend with the crisp, crunchy, delicious Grape-Nuts Flakes?"

"Ha! Ha! . . . I fooled you Jim! That's our new cook. She won't serve anything but malty-rich, sweet as a nut Post's Grape-Nuts Flakes for breakfast."

"Well what are we waiting for? Let's get home quick and dig into that giant economy package."

"And don't forget that Grape-Nuts Flakes are made of two grains—wheat and malted barley. They give you carbohydrates for energy, proteins for muscle, phosphorus for teeth and bones, iron for the blood, and other food essentials. They taste wonderful. They're good for you. They're easy to digest."

Voice Hope Moscow Will Accept Jap Talks Without Big Power Veto

By JOHN M. HIGHTOWER

WASHINGTON, July 17 (AP)—Despite the widening split between Russia and the Western Allies in Europe, United States officials voiced hope today that Moscow will agree to Japanese peace treaty talks free of any big power veto.

If the Kremlin rejects the United States proposal this government will have to decide whether to go ahead with a "separate" treaty with Japan—that is, one without Soviet participation.

OWNS NO TERRITORY

Unlike her position in Germany, Russia has no occupation forces in Japan and controls no Japanese territory. House officials here contend that a separate peace with a functioning Japanese Government could be made to work.

The United States proposal for a veto-free conference of 11 states to begin work on the Japanese treaty was announced yesterday. It is a radical departure from European peace-making procedures in two respects.

In the first place the conference would make decisions by a two-thirds vote, with or without concurring votes of the big powers.

In the second place the treaty drafting would be done not alone by the great powers but by seven *other nations as well, each with a* primary interest in the Japanese settlement.

The countries which the United States proposed for participation are the big four of the Far East—the United States, Britain, China, and Russia—plus Canada, the Philippines, India, Australia, New Zealand, France and the Netherlands.

Bearded Elks From Nelson, Tall Elks From Halifax, Short Elks From Dawson Creek Invade Vancouver for Meet

VANCOUVER, July 17 (CP) Fezzed, purple clad elks swooped down on Vancouver yesterday from all parts of the country marking the 35th annual conventions here.

Hotel and restaurant accomodations were swelled to the limit, as the delegates in the gleaming white duck trousers and royal purple jackets came from near and far by car, train and plane to attend the three day festivities.

Bearded elks from Nelson tall elks from Halifax, short elks from Dawson. 417 of them gathering one of the most colorful groups to be seen in Vancouver in a long time.

Hon. Dr. G. M. Weir and acting Mayor J. D. Cornett extended welcome to the Fraternal Order, as Grand Exalted Ruler Harrison Perile of North Vancouver acknowledged their greetings with a response.

The order presented a cheque for $1,050 to the Save the Children Fund, the current drive of many noteworthy ones undertaken by BPOE since its beginning.

VEL* works magic!

CUTS DISHWASHING TIME 3 WAYS

VEL penetrates, cuts grease, loosens dirt faster.
VEL eliminates wiping . . . makes dishes, glasses gleam . . . no streaky film to wipe away.
No dishpan ring with VEL . . . no soap scum to scour away.

JUST put a few teaspoonfuls of VEL in your dishpan (about half as much as soap.) Add water. VEL gives the water amazing new cleaning power that lasts long after suds dissolve. VEL removes grease faster, more completely than soap—in hardest water. Your dishes, glasses sparkle and shine without the touch of a towel.

Gives water amazing cleaning power . . .
Cleans long after suds dissolve . . .
Makes hard water act soft . . .
Washes better even in cool water . . .
Economical—try using half as much . . .
Contains no alkalis, milder to hands . . .

VEL keeps stockings sheerer, lovelier!

Says Shirley Underwood of Toronto:

"After washing with VEL my nylons rinse bright and sheer as new! A few dips, a little gentle squeezing in lukewarm water, and VEL makes nylons and undies gloriously fresh! No dulling soap film!"

KEEPS MY WOOLENS SOFTER, FLEECIER THAN ANY SOAP!

Says Mrs. S. Brown of Newmarket, Ont.:

"I've never had a wool sweater stay so soft and fleecy. Washed with VEL and lukewarm water there's no shrinking or matting, no clogging soap film—colours stay bright.

VEL makes water WETTER to clean all things BETTER

Believe Shoplifting Ring Broken

WEST VANCOUVER, B. C., July 17 (CP) — Police were believed to have ended a flourishing shoplifting ring with the arrest here yesterday of a man and a woman and the recovery of goods stolen from three local stores.

The two, Edward Bates, 44, Vancouver and Florence Shore, 25, Twig Island, were taken into custody by police as they left a store.

11 Japs Executed

TOKYO, July 17 (AP) — Allied Headquarters legal section announced today that 11 Japanese convicted of war crimes have been executed in Manila for "killing hundreds of Philippine and American civilians, including women and children, in the Philipie Islands."

TAXI HOME?

VICTORIA, July 17 (CP) — Bill Jenkins of Esquimalt, B.C., visited his friend, Pat Lewis, here last Saturday night and was going to take a taxi home.

"Why the taxi? I could push you that far in a wheel-barrow," said Lewis.

Jenkins bet him two cases of ale that he couldn't.

Pat did it last night. Distance six miles: Time one hour and 15 minutes, with two stops for refreshments.

LONDON (CP)—Supersonic rocket-propelled aircraft tests are to be carried out soon. These tests will have an important bearing on developments in aviation and are designed to pave the way for safe flying at supersonic speed.

NATAL

NATAL, B.C., July 17 — Mr. and Mrs. Russell Jansen, were visitors of Mrs. M. Oley on their way home to Abbotsford.

Lac. I William Eckersley of the R.C.A.F. was a visitor of Mr. and Mrs. P. J. Chala. He is at present spending a month furlough at the home of his parents at Fernie, before returning to his station at Rockcliffe, Que.

Mr. and Mrs. J. W. Beech returned home after a two week holiday at the coast.

A surprise birthday party in the form of a picnic honored Mrs. Susan Krall who celebrated her 75 birthday. The picnic was held at Baily's ranch with some 50 relatives grandchildren and friends attending. During the afternoon softball games between the men and ladies were played along with horse-shoe pitching hot-dog eating and fishing contest. Refreshments were served. The guest of honor was also the recipient of a beautiful gift.

Two miscellaneous showers, the first in the Mission hall for Miss Dolly Lee and the second in the Oddfelow's hall for Miss Linda Montemurro, took place here.

WOULD HAVE GOVERNING BODY FOR COLUMBIA

WASHINGTON, July 17 (AP) — Senator Glen D. Taylor (Dem.-Ida.) said Wednesday at a press conference that he has ready for introduction in the Senate legislation to create a Columbia Valley authority.

The proposed Columbia Valley authority would cover the entire drainage area of the Columbia River Basin, including the States of Washington, Oregon, Idaho and part of Western Montana. The river basin extends North into Canada.

The governing body of the proposed agency would consist of three directors, two of whom must have been been residents of the valley for five years and an Advisory Board of 24 members

The guests of honors were the recipients of many beautiful presents. Both will also be June Seattle, Wash., after the wedding brides with the former going to and the latter going to Spokane, Wash.

BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

WHEN HONORS ARE BEST

MANY players place a greater value on high honors when they are in the suit that is bid. More experienced and observant devotees of the game have learned that in several definite respects *the honors can be more useful* when they are elsewhere, so long as the suit named contains adequate stoppage if naming it should cause partner to try No Trumps.

North: ♠ Q J 10 7 4 ♥ A 8 5 2 ♦ 6 4 ♣ J 4

West: ♠ A 9 8 ♥ Q 6 3 ♦ K 3 2 ♣ Q 8 5 3

East: ♠ 6 5 3 ♥ 9 7 ♦ J 10 7 5 ♣ 10 9 6 2

South: ♠ K 2 ♥ K J 10 4 ♦ A Q 9 8 ♣ A K 7

(Dealer: South. East-West vulnerable.)

South	West	North	East
1. 1 ♥	Pass	2 ♥	Pass
4 NT	Pass	5 ♦	Pass
5 NT	Pass	6 ♣	Pass
6 ♥	Dbl		
2. 1 ♦	Pass	1 ♠	Pass
2 NT	Pass	3 NT	Pass
4 NT	Pass	5 ♦	Pass
6 NT	Dbl		

Notice how both North and South at Table 2 shied away from bidding their four-card heart suits, simply because they did not contain "a trick-plus" at the top. As a consequence of this, they got into an unmakable contract in No Trumps, even after West's double told South how to play the heart suit. Four spade tricks, four in hearts because of a *winning finesse against the Q.* two clubs and one diamond added up to only 11 tricks. South was unable to build up any play against West, such as a squeeze or throw-in, so was obliged to stake everything on the diamond *finesse. When it lost, he was* down.

Where South opened with his heart suit at Table 1, he had no trouble. West cashed the spade A, then led another spade, and it was all over but the shouting. *Hearts were finessed right be*cause of the double, spades furnished discards of three diamonds, and there was a trump left in the dummy to ruff the third club. West was bitterly disappointed to find the heart A sitting over his Q. He expected to find both of the top honors at his right, since South bid the suit first, and didn't think he would even need his minor suit honors to set it.

• • •

Tomorrow's Problem

North: ♠ 8 6 ♥ J 9 2 ♦ J 8 6 2 ♣ A K Q 10

West: ♠ 10 ♥ A K Q 10 4 ♦ 7 5 ♣ 8 7 5 4 3

East: ♠ K 9 5 4 ♥ 6 5 3 ♦ K Q 4 3 ♣ J 9

South: ♠ A Q J 7 3 2 ♥ 8 7 ♦ A 10 9 ♣ 6 2

(Dealer: South. Neither side vulnerable.)

How should South try for his 4-Spades here after ruffing the third heart, and how should East thwart him?

Surveyors Check Marks at Invermere

INVERMERE, B. C., July 17—A group of surveyors establishing and checking Geodetic Datum Bench Marks through the Kootenay and Columbia Valleys are at work in the district.

This survey is in connection with the investigation of the water of the Columbia.

The group have pitched camp near the Lake Windermere railway siding at Athalmer.

INVERMERE

INVERMERE, B. C. — Mrs. E. E. Tunnacliffe and Mrs. Moore of Salmon Arm have returned from a short trip to Montana where they visited relatives.

Mrs. A. R. Blake has returned after a visit to Eastern Canada and the Prairies. She attended the wedding of her son, John, at Huntington, Que., early in June.

Mr. and Mrs. G. R. Clement have returned after a visit of a few weeks to Prairie points.

Mr. and Mrs. D. C. Howell and family of Edmonton have been visiting Mrs. Howell's parents, Mr. and Mrs. W. Stewart.

Miss Josie and Miss Mae Guey have returned from Trail.

Mr. and Mrs. W. P. Lake have as guests their daughters, Mrs. R. W. Bateman and her children, Bobbie and Lynn, of Carrot River and Mrs. Powellson of Lund, B.C. and her son, Bobbie.

Miss Audry Kenning was a hospital patient this week.

Miss Joan Tegart has returned from Calgary where she was the guest of her brother-in-law and sister, Mr. and Mrs. Robert Woodall.

H. B. Martin was a patient in the hospital this week.

Mr. and Mrs. Harold Mitchell of Los Angeles are guests of Mr. and Mrs. Lloyd Tegart.

Mrs. Winston Wolfenden and infant daughter have returned to their home at Brisco from the Hospital.

Mrs. Chalker has returned from the Lady Elizabeth Bruce Memorial Hospital.

Ernest Boker of Edgewater has returned home from the Lady Elizabeth Bruce Memorial Hospital.

Mrs. Sereda of Wellington, Alta., was a patient in the hospital at Invermere this week.

SYDNEY, Australia (CP) — The shortage of teachers in New South Wales is so acute that a former deputy director of education went back to teach a one-teacher school. Among his pupils are his own grandchildren.

Rossland

ROSSLAND, B. C. — Mr. and Mrs. C. J. Mitchell, Columbia Avenue, had as their guests, Mr. Mitchell's uncle and aunt, Mr. and Mrs. A. W. Mitchell of Vancouver, and Douglas Mitchell and Ray Payne of Vancouver. The party left to visit relatives in Nelson before returning via Spokane and Seattle.

Mr. and Mrs. Ernest Carkner and daughters are spending several weeks camping at Christina Lake.

Mr. and Mrs. Roy Stephens left on a motor trip to the Coast.

Mrs. Peter McLellan entertained with a charmingly arranged double *birthday party when she honored* her granddaughter, Bernardine McLellan and grandson, Lloyd McLellan. The spacious living rooms were artistically decorated with summer flowers. Games and contests were enjoyed after which a lovely birthday supper was served. The nicely appointed table was covered with a linen cloth and was decorated with two prettily decorated birthday cakes. Bernardine's was topped with ten lighted candles; while Lloyd's had nine. Dainty white baskets of goodies were used as favors. The *invited guests* were Bernadine and Lloyd McLellan; Sidney Alice; Nellie, Pat and Heather Littlewood; Marie, Eileen and Rosaleen Monohan, Bobby and Larry Profili, Diane Sdao, Rosemary Turner, Irene Conroy, Yvonne Walker, Tommy Long, Gladys and Steve Reed; Lloyd and Trevor Price; Ronnie Hill; Caron Driscoll; Mrs. Littlewood; Mrs. A. Price, Mrs. Fred Phillips, Mrs. Lloyd McLellan, Mrs. James Shellard, Mrs. G. Long and Mrs. P. McLellan.

Mr. and Mrs. Edward Daly and two daughters of Edmonton will spend three weeks visiting relatives here.

Mrs. Anton Hubner entertained the members of Maple Leaf Temple No. 4 Pythian Sisters when the evening was spent working on articles for the Fall Bazaar. Refreshments were served by the hostess assisted by Miss Alice Norris and Miss Betty Vetere. Present were Mrs. F. M. MacKenzie, Mrs G. Nixon, Mrs. W. K Scatchard, Mrs Mildred Dixon, Mrs Harry Dixon, Mrs. J. Woodward, Mrs. E. Therrien, Mrs. Emily Cox, Mrs. B. W. Littley, Mrs. E. Draper, Mrs. P. G. Palmer, Miss Alice Norris and a guest Miss Betty Vetere and the hostess

Miss Jennie Henderson left on a holiday at Revelstoke and Mara Lake prior to going to the Coast.

Miss Dorothea Johnson, who has been residing at Kimberley with her sister, is the guest of Miss Eleanor Hubner Mr. and Mrs. William Pollock, accompanied by their daughters, Joanna, Peggy and Leona, were guests of Mr. and Mrs. J. Bourget at Nelson.

ATHALMER MAN TAKES ENGLISH GIRL AS BRIDE

INVERMERE B.C.—A romance of war-time Britain culminated in a wedding at the Church of the Canadian Martyrs on Wednesday, July 9 when Miss Winnifred Goacher of Brighton, England, exchanged marriage vows with Aton Stagberg of Athalmer.

Rev. Father Agnellus officiated at the morning ceremony and Andrew Stagberg was his brother's groomsman.

Given in marriage by J. A. Laird, who had been her host since her arrival in the valley, the bride was charming in a gold linen suit, with which she wore a brown hat trimmed with gold flowers and brown accessories. Her bouquet was composed of organe tiger lilies and white Shasta daisies.

Miss Barbara Laird was bridesmaid.

A reception was held at the *groom's home.*

The bride's table was graced with a three tiered wedding cake set upon a lace and linen cloth and flanked by white tapers. The toast to the bride was proposed by H. Tyler to which the groom responded.

The couple left for a honeymoon trip to coast points.

The bride came out from England a month ago after waiting for passage for many months.

MARGATE, England (CP)— For the first time in nearly 20 years, a Margate juvenile court magistrate ordered four strokes of the birch rod for a 13-year-old boy. The boy had broken into three churches and stolen from offertory boxes.

MAESTEG, Wales (CP) — Mrs. Rose Barnes, 43, gave birth to her 18th child a month after her husband's death.

India and Dominion Status

The idea of offering Dominion status to the Indian government or governments did not originate in London at the time of the Viceroy's visit at the end of May. Dominion status had been requested by the Congress Party three months earlier in its resolution of March 9th, 1947, which read:

"The Working Committee welcome the declaration made on behalf of the British Government of their definite intention to transfer power finally by a date not later than June, 1948, and to take steps to that end in advance. The transfer of power, in order to be smooth, should be preceded by the recognition in practice of the Interim Government as a Dominion Government, with effective control over services and administration."

The reason for desiring Dominion status was that this arrangement would bring complete self-government sooner than was possible under the Earlier United Kingdom plan, which provided for Britain's withdrawal by June, 1948. The Interim Government still functions under the old 1919 constitution (the 1935 Government of India Act was in force only in the provinces, not at the centre), since no constitutional change was made when the Interim Government was formed in September, 1946. It is an illustration of the elasticity of United Kingdom constitutional practice that such out-dated machinery functions at all. While Lord Wavell treated his Council as much like a Dominion cabinet as the constitution permitted, and refrained from using his emergency powers, the very existence of those powers was, in the minds of most Indian leaders, an obstacle to complete self-government.

The Viceroy has had the power to overrule executive decisions of his Council, a power not exercised, however, since 1879. The Viceroy has had the power to enforce any measure voted down by the Legislature by certifying that such action is necessary for the peace and good government of India. Some subjects require the prior consent of the Viceroy before being discussed in the Legislature. And looming even larger than the dormant powers of the Viceroy is the fact that ultimate control over the Viceroy and his Council rests not with the Indian electorate but with the Secretary of State for India and the United Kingdom Parliament.

As soon as India receives Dominion status, the authority of the Secretary of State for India will disappear, and no act of the United Kingdom Parliament can have effect in India without the consent of the Indian governments.

Indians will thus make practical trial of Dominion status while framing their new constitutions. They will have the chance of finding out from experience whether they agree with the other Dominions that Dominion status means independence plus collective security. In any event, it will rest with whatever Indian government or governments emerge to decide their future status with regard to the Commonwealth, and their relation to one another.

Trade Agreement

Under the three-year trade agreement between Poland and Great Britain, exchange of goods to the value of 60,000,000 pounds sterling is foreseen.

During the first year, Poland will export to England 260,000 tons of coal to the value of 800,000 pounds and furniture to the value of 600,000 pounds. Poland will receive from Great Britain: machinery, industrial equipment, textile, raw materials, metals, etc.

The political importance of the agreement was stressed by a Polish newspaper "Rzeczpospolita" in an editorial:

"The Polish British Trade Agreement, signed in London on June 9th, is an important event not only from the economic but also from the political point of view. The external policy of Poland after the war has been attacked by the foreign press and British public opinion has been partly under its influence. In spite of this, the Trade Treaty between England and Poland has been signed. We consider it to be a proof that not only some of the prejudices against the "iron curtain" have disappeared but also that our efforts and results in the reconstruction have been appreciated in Great Britain. At the Labor Party Congress in Margate, it has been stressed that the agreement is a political event and a member of Parliament, Mr. Driberg, expressed the view that the treaty should have been signed a year ago."

Room for Russia

When the full effect of the European conference on economic security comes to be felt by the Soviet, it will have no one but itself to blame. Every chance is being given the Reds to get into the picture. Not only was the door left open, but Norman Armour, Assistant Secretary of State of the United States, issued a direct appeal to Russia to change its mind and participate.

When the Communists flare forth with the complaint that they have been ignored and pushed aside, they will have little basis for any such charge. They have their chance to line themselves up with decent nations which want to rebuild a world fit for human beings, but they seem bent on staying out.

It seems impossible for the Soviet to come out of this with credit or profit to itself. If enough nations line up with Britain and France—and the list of acceptances is growing—the Russians will face the worst situation they have ever been in. But they are asking for it.

Those Saucers

Twenty-two students of the University of Sydney, New South Wales, have seen those flying saucers so clearly that they were able to draw pictures of them. They were members of a class of 450 instructed by its professor of physiology to stare for ten minutes at a point in the sky about a mile distant. That their classmates were blind to what they saw did not destroy for them the reality of the objects. There is no assurance that they could accept the explanation of their teacher that what they had seen was not in the sky but in their own eyes—red blood corpuscles passing in front of the retina. They undoubtedly feel that the mysterious disks, already reported from forty States, at last have appeared "down under." Possibly the professor's practical experiment will give to the saucers a short life in Australia. But then, down there it is Winter. Here it is Summer, traditionally our silly season.

Lance H. Whittaker

ON FRIENDSHIP

During the past few days I have had the privilege of seeing again a close friend of 15 years standing. In the past 10 of those 15 years I have seen him only twice, and then for a very brief period—but our friendship has not diminished in the slightest.

Most people have such friends. Nearly everyone has a close pal who seems always life's rarest pleasures; yet it is often difficult to give that comradeship which is one of life's rarest pleasures; yet it is often difficult to put your finger on just what it is in this relationship which gives a good deal more than others.

My friend is gone again now, and I have been trying to pin down this special understanding there is between us.

It is true that we have many interests in common—this is possibly a first essential of any friendship; and it is true that we are the same age, and have many common weird and wonderful experiences to recall and remember, but these do not seem sufficient reason for the bond between us.

For my own part I have come to believe that my high regard for my friend is largely inspired by the fact that he is still growing and learning. So many people stop growing and learning.

I never speak with him, or received a letter from him, that I do not learn some new thing or see some new significance in an old thing. He is continually exploring new frontiers in such mundane fields as foods, flowers, stars and statistics. His ideas and interest ranges over the whole gamut of everyday things and his viewpoint is invariably that of a beginner, striving to understand and know all things.

To me such a personality has magnetism and fascination, and calls forth a like characteristic in my own nature that revitalizes my thinking and gives all living a fresh meaning.

It is difficult to repay my friend with anything short of high loyalty and an equal response to the challenge of his friendship.

C. M. V., Nelson—"High Flight" written by John Gillespe Magee Jr., 19-year-old American flier killed Dec. 11, 1941 in action with Royal Canadian Air Force, is as follows:

Oh, I have slipped the surly bonds of earth,
And danced the skies on laughter-silvered wings;
Sunward I've climbed and joined the tumbling mirth
Of sun-split clouds—and done a hundred things
You have not dreamed of—wheeled and soared and swung
High in the sunlit silence. Hov'ring there,
I've chased the shouting wind along and flung
My eager craft through footless halls of air.
Up, up the long delirious, burning blue
I've topped the wind-swept heights with easy grace
Where never lark, or even eagle, flew;
And, while with silent, lifting mind I've trod
The high untrespassed sanctity of space,
Put out my hand, and touched the face of God.

T. I., Rossland—Would you give me the formula for making a bath to clean silver coins?

The ingredients for such a bath are 10 parts of sulphuric acid and 90 parts of water. Let the coin lie in this until the crust of silver sulphide is dissolved. From five to ten minutes usually suffice.

Looking Backward

10 YEARS AGO

From The Daily News of July 18, 1937

Today's venue for the International Mining Convention, which is winding up its three-day program, is Salmo valley, where the caravan party will split up into a number of groups to visit the principal gold mines.

Thirteen members of the 111th Battery, R.C.A., Nelson, left Nelson on the noon train Thursday for Shilo Camp for an eight day course in artillery training.

25 YEARS AGO

From The Daily News of July 18, 1922

C. G. Simpson, yesterday was awarded the contract for the erection of the Nelson War Memorial on Vernon Street.

Big forest fires are raging on the North fork of the Kettle River at Lynch Creek in the Boundary Country.

40 YEARS AGO

From The Daily News of July 18, 1907

Percy J. Gleazer has been appointed Mining Recorder at Ymir.

At a meeting held in Procter yesterday an athletic association was formed and F. J. Sammons was elected President of the new organization.

W. H. Aldridge came in from Trail yesterday on his way East where he will spend several weeks.

Press Comment

ROADS, TAXES AND CERTAINTY

Estimates by the Federal Works Agency that Federal, State and local expenditures on highway construction will amount to $1,250,000,000 this year are not unrelated to the fact that seven States have increased their gasoline tax this year. When a single State, like Ohio, can draw up a long-range program for highway modernization that calls for the expenditure over 20 to 30 years of more than the whole nation is spending this year, it is clear that the States will look to gasoline taxes and other taxes for the revenue needed. Many States are reported by the Public Administration Clearing House to be on the search for new revenue now. Deferred expenditures on public works will be made, but the money which States saved during the war, or set aside for post-war public works, will not go far as it was then expected to go. Hence the imposition of a cigarette tax where none previously existed, the increase of a tax where one did exist; hence the certainty that the gasoline tax is still on the way up to a new high national average.—New York Sun.

THE PILLORY

Our English penal system was relieved of one of its barbarities on June 30, 1837, by an act abolishing the pillory. Who invented the punishment is unknown, for it was common in various forms in many countries and from very early times. In England it was in use before the Norman Conquest, and was designed then, as later, for the punishment of cheats, vagrants and other minor culprits, but under the jurisdiction of the Star Chamber it was used also for the degradation of political and religious offenders.

In this latter office it sometimes proved singularly ineffective. When Daniel Defoe was sentenced in 1703 to stand for three days in the pillory for his satirical attack on the government's persecution of dissenters, the crowd, instead of pelting him with garbage after the usual fashion, surrounded the pillory with flowers. The same tribute was offered to other poplar heroes, but, on the other hand, when Titus Oates stood in the pillory in 1685 he was very nearly killed.—Manchester Guardian.

BABY'S BOTTLE

Young fathers and mothers who know only too well the high destruction rate of babies' feeding bottle will welcome the ingenuity of the inventor who has designed a plastic bottle which can be thrown away after it is used once, at a cost of about one cent a bottle. The young king or queen who rules most households with chubby little hands is no respecter of glass bottles nor of the expense entailed every time he or she sends one crashing to fragments on the floor.—The Boston Post.

Movie Gossip

Jane Wyman Discovers Why Type Casting Works; Groucho Content

By BOB THOMAS

HOLLYWOOD, July 17 (AP)—Jane Wyman is discovering the way type casting works in Hollywood. As the result of her neat job as Ma Maxter in "The Yearling," all her film offers are for mother roles.

Jane was pencilled in for the role of a 12-year-old's mother in "Christopher Blake," but she has asked Warners to excuse her from it. She does not want to be pigeon-holed in maternal parts.

Instead, she would like to go ahead with "Johnny Belinda," in which she would play a deaf mute until final moments of the picture—a la "Spiral Staircase."

Groucho Marx apparently is contented about his debut as a single in "Copacabana." He has made it known he's available for more appearances without his brothers . . .

Phyllis Calvert has to finish "My Own True Love" and be out of the country by Oct. 11. Otherwise she will overstay her six-month permit and have to pay both an English and U.S. income tax.

Maureen O'Hara's plans to appear in "Out of All Time" for R.K.O. in England have hit a snag. Britain has indicated it wants either the leading man or director to be an Englishman. . . . Clark Bable is back in town and he must be happy over the way "The Hucksters" turned out. Clark wants to charter a boat for a fishing trip down Mexico way. He starts work on "Homecoming" Aug. 15. . . .

Jack Carson is getting to be known as "Available Carson" around Warners. After "Romance in High C," he'll do "Barbary Host," a story of 1910 San Francisco (what—no earthquake?) Then "Forever and Always." Although his contract calls for three a year, Jack doesn't mind the extra work. The bonus dough gladdens his heart. . .

"I Wonder Who's Kissing Her Now" (T.C.F.—105 minutes) is a musical biography along the lines which should be familiar to moviegoers by now. Adhering to the old-style formula, it offers some old Joe E. Howard tunes embellished with color. Mark Stevens and June Haver head an uninspired cast.

Koolaree Echoes

Monday was sports day in camp and all boys joined in the various events. First, second and third winners are listed as follows:

Junior 50 yard dash:—1, Jonathan Magwood; 2, Webster Laurie; 3, Teddy Smith.

Senior 50 yard dash—1, Tommy Gibson; 2, Jonathan Magwood; 3, David Murray.

Back to back race—Bobby Davies and David Murray.

Sack race—1, Webster Wallace; 2, Glen Ford; 3, Bruce Routley.

Long distance race—1, Bobby Waldie; 2, Jonathan Magwood; 3, Bobby Davies.

Potato Peeling contest participants were Neil Horswill, Norman Ink, Ernest Mason, Don Shorting, Lyle Killins, Tom Walmsley, Norman Hamson, Ernest Vyse.

Both Mrs. Lyons, Camp Mother and Nurse and Mrs. Fred Robins, Canteen, are very busy looking after their charges.

Showery weather in the evening made it necessary to hold the campfire inside.

The camp fire skit "Lil Abner" put on by the senior counsellors was enjoyed by the boys. Cast was as follows: Lil Abner, Ralph Stinson; Mammy Yokum, Mrs. Robins; Hairless Joe, Bob Gray; Lonesome Polecat, Ray McLeod; Daisy Mae, Richard Tyson; Indian Maiden, Mrs. Lyons; Pappy Yokum, Fred Robins.

Glen Smith's tribe also put on a skit "The Shooting of Dangerous Dan McGrew." Cast included Colvin McBurney, Jonathan Magwood, David Bradshaw, Bill Endicott, Ken Grunerud, Richard Grieve, Lloyd Gleichman, Bobby Knowles, John Longworth, Alan Rose, and Robert Rowlands.

Visitors to the camp today included Rev. Arthur Anderson from Nelson and Rev. J. Rogers of Trail, both of whom took bible study classes.

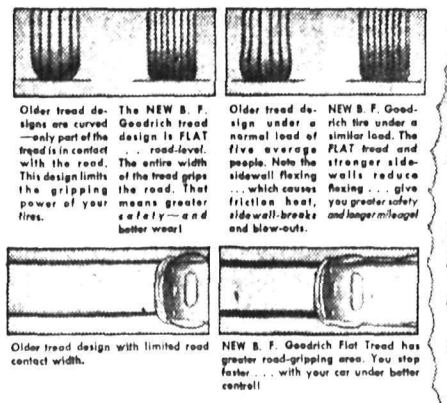
NEVER BEFORE HAS THERE BEEN A TIRE LIKE THIS



Older tread designs are curved—only part of the tread is in contact with the road. This design limits the gripping power of your tires.

The NEW B. F. Goodrich tread design is FLAT . . . road-level. The entire width of the tread grips the road. That means greater safety—and better wear!

Older tread design under a normal load of five average people. Note the sidewall flexing . . . which causes friction heat, sidewall-breaks and blow-outs.

NEW B. F. Goodrich tire under a similar load. The FLAT tread and stronger sidewalls reduce flexing . . . give you greater safety and longer mileage!

Older tread design with limited road contact width.

NEW B. F. Goodrich Flat Tread has greater road-gripping area. You stop faster . . . with your car under better control!

Here is a completely new and different tire. It's made of a new kind of rubber. It's designed differently! Engineered differently! Built differently . . . to give you the longest mileage and greatest safety on the road today!

Look at that newly-designed, massive tread. It's FLAT. Hugs the road. Gives you surer, safer stops and starts. Look at the newly-engineered, mighty-muscled tire body. New cord construction makes it 35 per cent stronger. And those stronger sidewalls, coupled with the flat tread, reduce road flexing. This tire runs cooler!

21 MILLION bruising test miles have proved this great NEW B. F. Goodrich tire will outwear the finest pre-war tires. It's the longest-mileage tire ever built by B. F. Goodrich.

THIS is the tire you want for post-war motoring. It's rugged, road-eager . . . quiet as your shadow. See your local B. F. Goodrich dealer. Ask for this great NEW tire—today!

B. F. Goodrich Batteries

For extra stamina, dependability and long life—choose a B. F. Goodrich Battery! Every model is super-charged . . . over-capacity . . . packed with rugged power to meet today's heavy needs. Your local B. F. Goodrich dealer has the right battery for your car, truck, bus, tractor or radio. See him today!

'anks Dump Double on Indians o Equal Straight Wins Record

By STEVE ROBERTSON
Canadian Press Staff Writer

New York Yankees Thursday nalled the American League rec- d of 19 straight victories made Chicago White Sox in 1906 when y defeated Cleveland Indians in h ends of a doubleheader, 3-1 and

Bobo Newsom, 38-year-old right- nder obtained by waivers from shington Senators about 10 days o, won his second straight in a nkee uniform in the opener. It s his 200th since he came up to majors in 1929

Rookie Vic Raschi, recently bought up from Portland of the cific Coast League, also won his ond game for the Yanks, giving six hits in the nightcap.

Only two streaks in modern major baseball exceeded the present Yank skein. New York Giants ran off 26 in a row in 1916, the highest total ever achieved, and, also in the National League, Chicago Cubs rolled off 21 saraight to close out the 1935 season.

The second place Detroit Tigers me from behind twice to win from ashington, 7-5 and 4-3. After the nators had gone ahead on a pair homers by Stan Spence, the gers came back with two runs in fourth and added another in eighth on Dick Wakefield's home- er to win the opener. Hal Wagner's ninth inning single drove home the tying and winning runs in the second game.

11 INNINGS

Boston's Red Sox whipped Chicago White Sox twice, 4-1 and 6-3, but needed 11 innings to win the same game. Joe Dobson held Chicago to six hits in the opener. After tying the second game in the ninth with two runs, Boston scored three more off Gordon Maltzberger in the 11th to win.

At St. Louis, the Browns' defence collapsed in the inning as Philadelphia Athletics—already fairly certain of a triumph—clubbed home nine runs to clip the last place Brownie's 16-2.

Over in the National League, a Queen bested a King as Pittsburgh Pirates defeated Brooklyn Dodgers 7-1. The Queen was pitcher Mel Queen who went the distance for his first victory of the year. The King was Clyde King, Dodger right-hander, who, after being tagged for home runs by Ralph Kiner, Hank Greenberg and Jim Bloodworth, bowed out after five innings.

In the only other game, with Harry (The Cat) Brecheen knocking in the first two runs, the fourth-place St. Louis Cardinals downed Boston Braves 5-2. The victory moved the Birds to within 4½ games of the leading Brooklyn Dodgers.

inden, Leaving Nelson, Honored at uck Banquet; Jackets for Champs

Y. C. Van Linden, veteran kid ckey Manager and President of Fairview Athletic Club, was nored at a farewell banquet at Club Thursday evening, where mbers of the B.C. Juvenile ckey Champs of the past season, re also honored with the presenion of leather sports jackets.

Linden for his work at the helm the Fairview Athletic Club was nored with a Honorary Life Membership Scroll and became the eleventh Club member to be so recognized during the 27 years that the Club has been functioning.

Alderman Jimmy Ringrose one of the Club's old originals was on hand to make the presentation to Mr. Linden. In accepting the scroll Mr. Linden expressed his regrets at leaving a Club in which during his three years as resident he had had the pleasure and opportunity of meeting "so many splendid boys and young men."

In presenting the swanky blue and gold leather jackets to the various members of the Nelson Juvenile B.C. Champs, Alderman Ringrose expressed his best wishes to the boys for the fine work they had done in bringing the Juvenile title back to Nelson last Spring. He also wished those who would be on next Winter's team the best of luck. Guilford Brett and Lee Hyssop, vice team captains, also spoke words of appreciation for the fine work carried on by Mr. Linden. Other team members who spoke briefly were Bob Hallbauer, Ron Macintyre, Brown Bear Koehle, Mickey Maglio, Denny Kraft and Trainor Alec Ringrose. Walt Malahoff, Vice-President of the F.A.C., also had words of praise for Linden and the job he had done in piloting the Fairview Club during the past few years.

Alderman Ringrose spoke warmly of the work done by Linden and Porter. Slim Porter, President of the Nelson Amateur Hockey Association, Coach of its Reps teams and general manager of the Fairview Athletic Club, in a closing address expressed the regret of these organizations at losing the services of "such a useful and conscientious worker and member." To Mr. Linden, Porter extended best wishes and success in his new work in Vancouver. Porter also extended the thanks of the hockey kids to those who contributed to the Juvenile Hockey Jacket Fund.

Rest for Net Stars; East in Strong Lead

By NORMAN ALTSTEDTER
Canadian Press Staff Writer

VICTORIA, July 17 (CP)—Western Canada tennis stars have 10 matches left to overtake their Ontario and Quebec rivals who lead today by a six-point margin in the four-day East-West matches.

Results of play which started Tuesday on the grass courts of the Victoria Lawn Tennis Club, will be considered along with those at the Dominion championships at Vancouver next week in selection of a Davis Cup team.

The two four-man squads rested today and the 20-match competition continues tomorrow with the feature match expected to be that between Montreal's Henri Rochon, the Eastern squad's No. 1 player and Jim Skelton of Vancouver, Captain and second player for the West.

Longshot Comes In at Edmonton

EDMONTON, July 17 (CP) — Swing Leader, a 20 to 1 shot, outran a classy field in the fourth race of the Edmonton Exhibition race meet here today to return $65.30 for a straight win ticket — the biggest price of the meet to date.

Longshots or near longshots had a field day on the day's card with double figure prices being posted in five of the seven races. Other longshots to get down in front were Bobpara in the first, Bobin Bobout in the second, Shasta Hill in the third, and Gloverdale in the sixth.

Champ Progresses

DES MOINES, July 17 (AP) — Frank Stranahan, defending champion from Toledo, Ohio advanced to the third round of the Western Amateur Golf Tournament today with a 6 and 4 victory over Robert Abrahams of La Grange, Ill.

Marvin (Bud) Ward, Spokane, Wash., also won his morning match, getting Hal Stone, Bloomington, Ill., 6 and 5.

New Battle For Zale and Champ Rocky

By SID FEDER

CHICAGO, July 17 (AP)—Along the streets of Brooklyn today a hero's homecoming parade awaited Rocky Graziano, boxing's black sheep boy who won the world's middleweight boxing championship with a smashing victory over Tony Zale in sweltering Chicago Stadium.

As Rocky headed East for the parade, the build-up began for the third in the Zale-Graziano series of thrillers, with the best guessing that the next match might be in Chicago, Philadelphia, Cleveland or even New York, where Rocky still is barred.

One thing is certain—thriller No. 3 can't be held until late October or November, because while Rocky has the title, he also has some fancy souvenirs from his six-round technical knockout victory over game Tony, which evened things for his six-round knockout defeat by the Indiana steel mill hand in New York last September.

These souvenirs included a sliced left eye, still held together with clamps today, and a right eye which was shut tight.

Meantime, a disappointed Zale looked ahead to the third meeting, with the quiet prediction that he wanted to "try Rocky once more, because I'm sure I can lick him."

Rocky, gaily proclaiming that the "black sheep just became the champion," said all he wants now is reconsideration for a licence in New York State. His licence was revoked last Winter for failure to report an alleged bribe offer.

"I always been in clean fights," Graziano said.

Confident Aussies Arrive On Cup Hunt

MONTREAL, July 17 (CP) — The Australian Davis Cup team stepped onto Canadian soil today for the first time since 1938 and, unblushingly, Manager C. Roy Crowley said he believed his team held an "excellent chance" to duplicate the success of pre-war Aussies and win back from the United States the Dwight Davis Cup.

To Montreal tennis folk, more than ordinarily interested since the Australians play Canada here starting Aug. 7, found Jack Bromwich, the man with the two-handed tennis swing, the only familiar figure on the "down under" team.

His playing mates are Dinny Pails, Geoff Brown and Colin Long—newcomers since pre-war days of such Aussie stars as Adrian Quist and Jack Crawford who knocked back the Japanese here.

BETTER TENNIS

Coming here from England where they competed in tournaments, including the famed Wimbledon events, Crawford said he believed the standard of play in major tournaments he has seen this year, is better than it was in the two years before the war.

The new arrivals were anxious to know how the Canadian cup team shapes up but at this juncture nobody could tell them except to say, "Wait and see how the trials tourney on the West coast turns out."

The Aussie team will begin full-dress rehearsals here Monday for cup competition.

Vancouver Site for Senior Men's Track and Field Championships

By JIM McCURDY
Canadian Press Staff Writer

VANCOUVER, July 17 (CP) — Canada's top track and field stars, augmented by a 17-man United States squad, converged on Vancouver today for the senior Men's Canadian Championships scheduled here Saturday.

A total of 85 entries were filed for the 17 championship events with elimination heats slated Friday for British Columbia's over-sized 60-man squad.

A powerful three-man squad will represent Eastern Canada while Manitoba and Saskatchewan each have entered two men. Alberta will be represented by its one-man gang, George Sutherland of Dewinton.

Sutherland, who is Canadian Decathlon Champion, is entered in seven events, and will be trying to break his own record of 158 feet, 2¼ inches in the 16-lb. hammer throw.

The men's championships will be held in conjunction with the 61st renewal of the Caledonian games. Colorful Highland dance and piping contests will provide added attractions.

TWO FROM QUEBEC

Quebec has two of the Eastern entries in Adrien Pronovost of Quebec, entered in the six-mile open, and R. F. Bartlett of McGill University, Montreal, out for the 16-lb. shot, open, and throwing the discus.

Gordon Haight of Hamilton, Ont., will compete in the quarter and half mile distances.

Dick Tettamantic and Sveln Sigusson, both of Winnipeg are the Manitoba entries. The former is listed for the 100 and 220 yd. dashes and 440 yd. short distance trial, while the latter is slated for the major weight-tossing events.

Saskatchewan runners are K. L. Moore of Easton and Gordon M. Youmans of Saskatoon. Moore, a distance man, is in the mile and the half mile. Youmans will give the Prairie Province representation in all other standard sprint distances.

HOLDS RECORD

The American delegation will be headed by Dave Henthorne of Eugene, Ore. Henthorne, considered a threat in the 100-yd. dash, holds the record in Northern Division of the Pacific Coast Athletic Conference—9.6 seconds. His time equals the Canadian record, held jointly by Cyril Coafee of Calgary, Leigh Miller of Pictou, N. S., Bert Pearson of Halifax and Sigurd Neilsen of St. John, N. B.

British Columbia's well rounded squad will have Jack Burney and Roger Wellman as sprinting threats with Bill Parnell the main threat in distance events. Rex Moore who usually cleans up in field events, and Rod McIsaac appear to be B. C.'s main threats in the weight department.

TRAIL TWO

Carrying Trail's banners into the championship meet will be S. D. Layton and E. N. Catalano. There are no other Kootenay entries.

Sensational Golfing Puts Delaware Pro Out in Front in Open

By W. R. WHEATLEY
Canadian Press Staff Writer

Scarboro Golf and Country Club, Toronto, July 17 (CP) — Ed Oliver, the rotund Wilmington, Del., pro of 10 years' experience, set a blistering pace today in the second round of the Canadian Open Golf Championship, establishing a double-round record of 131 for the open and equalling the competitive course record of 63.

Oliver's sensational eight-under-par sent him three strokes ahead of Bobby Locke, the South African money player who scored a five-under-par 66 today and set his two-round score at 134.

Oliver's 131 for the two rounds bettered the old mark of 133 made by Lawson Little of Cleveland when he won the open in 1936. The 63 for today's play for Oliver matched the mark made in 1938 by amateur Don Carrick of the Scarboro Club.

More than two score players were under par for 36 holes.

Nearest to Locke, at 136, came Clayton Haefner of Charlotte, N.C., who had a 67 yesterday, and Bobby Gray, the host professional, who shot a four-under-par 67 today.

PALMER SLIPS

Johnny Palmer, Badin, N.C., who led yesterday with a 66, couldn't keep up the pace and took a 73 today, two over par, for a 139 total.

Gray's 136 was best of the Canadian entrants, but one stroke behind came Nick Wisnock of Detroit—who uses the family spelling "Westlock" there — but was formerly from the Scarboro Club. Wisnock stayed under par with a 70 today. Also with 137 were Ed Furgol of Pontiac, Mich., who shot a 65 today, and Tony Penna, Cincinnati, with a five-under 66.

Oliver's hot play today was matched only by the weather. The chunky winner of the Texas open and fourth-high money man this year on the United States pro circuits, needed only 26 putts for today's 18-hole round. He drove the greens consistently on the shorter holes and one-putted 10 greens. He took no more than two putts anywhere.

BIG THREE DESERTED

About 2500 followed the Locke-Haefner-Stan Leonard threesome, but began to desert the international trio when word spread that Oliver was taking the course apart.

Close to 1000 were still trailing the big threesome when they came to the home hole, where Haefner dropped a 10-foot putt for a birdie. Locke, over the green, needed a par four and Leonard, Vancouver Marine Drive pro, caught a trap and went one over par.

Leonard, who carded a 69 yesterday, was unsteady at spots today but finished in par 71 for a 36-hole total of 140, nine strokes off Oliver's pace. Leonard got into a trap at the home hole and then two-putted.

Par-wrecking among the 143 who finished today's play — several dropped out—left the even-par player in practically a hopeless position. Par for 142 of the 36 holes found him 11 strokes off the pace.

Lew Worsham, United States open champion, had a three-under par 68 for a 138 total, equalled by Bill Nary of Los Angeles, also with a 68 today, and Bill Kerr, Toronto Thornhill, who went around in 67.

Leafs To Gun For Third Rung At Trail Tonight

Nelson's lacrosse might will invade Trail tonight in an effort to overthrow the Golden Bears from their third spot in the League standing. By virtue of last Saturday's win over the Rossland Redmen the Leafs moved within one game of the Trailites.

Coach Bud Cooper has ben driving his charges all week despite the hot weather. Checking and passing are shaping up and according to Cooper the locals are looking forward to bringing the Mann Cup to Nelson following the playoffs in September.

Although the Leafs are still flooring a reduced lineup, they will travel to Trail with the strongest expeditionary force to date. Steve Krizan is back from a holiday and will contribute his services. Len Appel, who played his first full time home game Saturday night and who showed much improvement from steady practise, will patrol the defence region with the regulars.

Those to play tonight are Vic Graves, Krizan, L. Choquette, Appel, S. Morris, F. Graves, A. Choquette, H. Mayo, H. Wassick, Cooper, D. Griffin, H. LaPointe, M. Maglio and A. Townsend.

OVERSEAS CRICKET

LONDON, July 17 (Reuters) — Rain hampered play in County Cricket again today and matches could not be played at Nottingham, where the Home County is playing Hampshire.

Scores at close of play:

Lancashire vs Northamptonshire. First innings: Lancs 271; Northampton 89. Second innings: Northampton no runs for one wicket.

Gentlemen vs Players. First innings: Gentlemen, 302; Players, 344 for 8, declared. Second innings: Gentlemen, 8 for 1.

Warwickshire vs Kent. First innings: Warwick 104, Kent, 143. Second innings: Warwick 149.

Yorkshire vs Leicestershire. First innings: Yorks 167 for 3. Rain stopped play.

Somerset vs Middlesex. First innings: Somerset, 212 for 8.

Nottingham vs Hampshire. First innings: Hants 222 for 2. No play today.

Essex vs Glamorgan. First innings: Glamorgan 323, Essex, 59 for 2. No play today.

Canadian Top Threat to Diamond Sculls Winner

DETROIT, July 17 (AP) — Although there is no one in sight who figures to give Philadelphia's John B. Kelly, Jr., much of a fight in the United States sculling championship, headline event in the two-day National Rowing Regatta which opens tomorrow on the Detroit River, the rest of the 27 races on the busy program may go a long way toward providing a line on the United States' 1948 Olympic team.

Kelly, who comes here from a rousing victory in the Diamond Sculls at Henley-on-Thames in England, arrived today to defend his national crown on the Detroit Boat Club course off Belle Isle.

Top threat to Kelly here looms as Theodubois, 36-year-old Winnipeg veteran who won the national sculling title the last time he entered, in 1941, took the Canadian Henley the same year and repeated in the Henley in 1942.

This is Dubois' first year back in competition since he entered the Canadian Army in 1942 but he's the top darkhorse candidate to unseat the youthful Kelly, who has been sweeping every title in sight.

By the Starting Gate

Acceptance by a judge of the Ontario General High Court, and by the Ontario attorney-general, or the crown counsel acting on his orders, of a plea of guilty of manslaughter, made on behalf of two young men who were on trial for murder, recently, was, in my opinion, a bad precedent for Canadian justice.

Time and again have I heard Canadian judges explain in assize court, that plea of guilty of murder cannot be accepted; that, irrespective of what the accused wishes to plead, the court will enter a plea of not guilty, so that the trial will proceed in regular form, and all the facts known to the Crown and to the Defense be brought out.

That is the law right now in New York State. At least a famous writer of "whodunits" put that statement in the mouth of one of his characters recently.

But in the Ontario case, the trial did not proceed. The Crown entered into an arrangement with the defense to accept a plea of guilty of manslaughter, and the court accepted the arrangement. Thus the taking of evidence was sidestepped, the accused were not placed at any risk for their lives, and there was no jury decision as to the facts.

In plain words, the self-confessed slayers obtained the desired manslaughter conviction at a bargain rate. The Province of Ontario sold this to them in exchange for saving it a criminal trial.

This opens Canada's door to the common American court practice of trading a manslaughter plea for withdrawal of the capital charge.

Do you remember the Leopold-Loeb case?

Two student sons of wealthy Chicago families, just barely under 21, used to amuse themselves with unnatural vices, and drove up to a school to find a schoolboy victim. They happend to see Bobby Franks, cousin of Loeb, and persuaded him to enter their car. His body was found later in a ditch. A broken lens from Leopold's pince-nez put a newspaperman on the trail that led to young Leopold, and the police soon had a case against the two millionaire undergraduates.

LEOPOLD—LOEB TRADE

Just as the Harry Thaw case introduced the expression "brainstorm," into the language, so the Defense specialists introduced the "adrenal glands," which were said to be disordered, and to account for the claimed mental instability of Leopold and Loeb, at the magistrate's hearing. When the murder trial was finally reached, the State accepted a plea of guilty of manslaughter, and the killers were put away for long terms. Once safe from the risk of a capital punishment, Loeb, the younger of the pair who had previously put the blame on Leopold, admitted he was the planner and leader in the Franks killing.

Since then, which was a quarter century ago, uncounted numbers of killers in American courts have avoided trial on the capital charge, by pleading guilty to manslaughter. It is in fact the accepted practice of Defense attorneys of most states to offer such a trade. When the Leopold-Loeb bargain was accepted, Chicago newspapers pointed out that in the future this trading privilege would would be claimed as a right by killers, who, if it was refused to them would be able to charge that the State had one law for the rich and another for the poor.

Precisely that argument was made at the very next murder trial in Chicago, and made good for the killer concerned.

I am also greatly disturbed at some other aspects of Canadian justice.

BOBTAILED JURIES

It takes 12 good and true men to sit on a capital case, or any kind of criminal jury case, in Canada as a whole but apparently in Alberta and Saskatchewan a six-man jury decides whether or not a man is guilty of a hanging offense. That shocks me.

In a trial anywhere else in Canada the 12th juryman must be convinced as well as the first six. A criminal jury traditionally consists of 12 individuals, whose varying mental bents and diversified experience must all line up together before the accused can be found guilty.

And what is the only reason for the six-man jury? Not a shortage of potential jurors, but a desire to save dollars.

And now we have an experienced coroner at the Coast, advocating abolition of inquests. His ground? That a finding by a coroner's jury seldom if ever leads to a criminal prosecution, therefore the institution is a waste of money. This puts money ahead of human life.

MONEY MAIN CONSIDERATION

If money is to be the main consideration of administering so-called justice, why stop with abolishing the public inquiries into unnatural deaths? Maintenance of order is costly in the extreme; the inquests are a mere fleabite. Why not abolish all agencies for supporting public order, such as the police and courts? Differences over crimes could be mutally adjusted, possibly arbitrated, murders could be compromised.

Canadians have been rather proud of their administration of justice. In my opinion, they had better register dissent to some trends, or they will find their pride turning a bit sour.

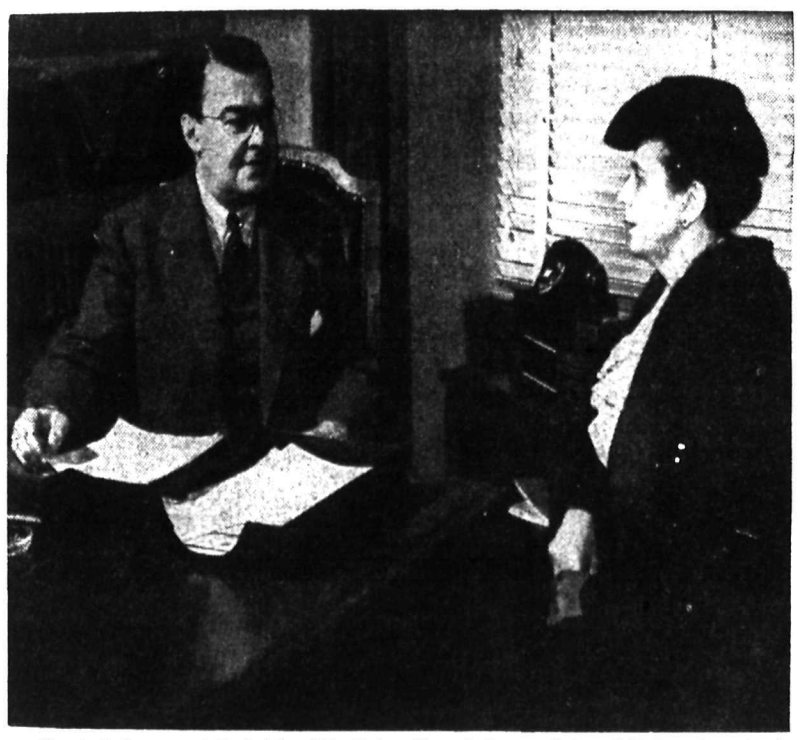
TODAY'S News Pictures

Ugly or Beautiful, He's Useful

Some persons consider he Philippine tarsier ugly, others point he's a cute little fellow when he's asleep. In any case, he's useful when it comes to catching insects as he can jump 10 feet after a bug, and has built-in adhesive discs on his feet to hold him to trees when insect hunting. Related to the lemur, a monkey-like animal with a long, bushy tail, the tarsier weighs only a half pound. There are 34 now at the Bronx Zoo.

Little Pauline's Coaxing Develops Into A Tug O' War

All dogs do not take to water with the enthusiasm of ducks. Little Pauline Grant discovered this great truth when she tried to lure her pooch "Queenie" into the surf at Carson Beach, South Boston. Pauline's coaxing eventually developed into a tug o' war. When "Queenie" was faced with the grim choice of dunking or being strangled she surrendered and went in—up to here.



Mrs. A. S. Ferguson of Fredericton, N.B., first woman Region Director of Family Allowances, discusses administration of the Family Allowances Act in New Brunswick with Hon. Paul Martin, Minister of National Health and Welfare, in his Ottawa office. A former Judge of Probate for Victoria County, N.B., Mrs. Ferguson was in Ottawa attending the second conference of Regional Directors of Family Allowances.

LAGOS, Nigeria (CP)—A fresh step was taken in the progress of Britain's African colonies towards self-government when the first legislative council with an African non-official majority started in Nigeria recently.

Chief Engineer, 20 Others Let Go In Housing

VANCOUVER, July 17 (CP)—The Vancouver Province in a dispatch from Ottawa today said that the Chief Engineer of the Veterans Land Act Administration and 20 other officials have ben "permitted to resign or have been released from the department" as a result of incompetence revealed in carrying out housing projects.

The dispatch added that the Department of Justice has been called to determine whether the contractors could be held liable for faulty construction. It continued:

"These facts were presented to a tense House of Commons late Wednesday night by Walter Tucker, Parliamentary Assistant to the Veterans' Affairs Minister, after that department had been raked by Donald Fleming (PC-Eglington).

ROYAL COMMISSION

"Mr. Fleming, pointing out that a majority of the Public Accounts Comittee severely criticized the administration, demanded a Royal Commission.

"The particular project criticized in its report was at Sarnia, but Mr. Fleming said that according to offcial admission, conditions were as bad or worse elsewhere, notably at Braefoot, Vancouver Island.

"Shocking evidence had been submitted to the committee, he said. Houses which with repairs, oost the public $10,000 each, could have been built with repairs, cost the public built for $4500, according to the statement of more than one builder.

"Mr. Tucker referred to the measures taken to purge the department of inefficient officials and said 'in other words, there has been no sparing of those who have not done a good job so far as this work is concerned. . ."

Squatters Survive Second Night in Open

MONTREAL, July 17 (CP) — Praying that no rain would fall, 16 veterans' families spent their second straight night in the open on the grassy sward of St. Helen's Island last night since their eviction from the old army barracks in which 12 of them moved into a squatter movement last Spring.

The approximately 80 members of the families were evicted Tuesday by the Central Mortgage and Housing Corporation on authority of the Federal Justice Department.

ONE CASUALTY

First casualty of the eviction was Heliodore Chauvetted, father of five children and an army veteran, who became ill and was taken to hospital in Montreal by ambulance last night.

Where and when the families would be able to find new accommodation was not known.

Four of the families were evicted for non-payment of rent and the rest for illegal squatting.

J. S. Hodson, a Corporation official, said the eviction was "deplorable" but that permission to allow the families to remain "would be an open invitation" for other squatters to take over other property.

THOUGHTLESS

Meantime, J. E. L. Price, head of the Canadian Legion's Housing Committee, termed it a "damn shame" that thoughtless or trouble seeking veterans should make their children suffer by illegal squatting. Mr. Price said the Legion is 100 per cent behind Central Mortgage and Housing Corporation in the eviction action.

"The Legion has ben working hard to ensure that no worthy vetern is left out on the sidewalk and to date all have been looked after with the exception of this small group who, I believe have been used by Communists under the leadership of Gagnon."

(Henri Gagnon, a Labor Progressive party organizer, has organized several squatter movements in the Montreal district).

NANAIMO, B. C., (CP)—An English shilling minted 88 years ago has popped up in a most unusual place—in the inside shell of an oyster taken by W. G. Hunter in the Nanaimo River mouth.

Market Trends

TORONTO—In one of the slowest trading days in many months prices were mixed as industrials slipped back moderately and mining issues maintained minor gains. Western oils were off in majority but only a few issues traded.

Montreal—Price changes on the minus side continued to predominate in dull laggy trading.

NEW YORK—Special stocks moved up while many leaders negotiated an orderly retreat.

VANCOUVER—Oils continued to slip while mines edged off and industrials were unchanged.

LONDON — Anglo-Iranians and Burmas led a run-up in the oil section. Few features developed in other divisions. Interest was displayed in the foreign bond market where Japanese, Brazilians and Greeks improved.

CHICAGO—Grains suffered wide losses in fairly heavy trading.

Calgary Livestock

CALGARY, July 17 (CP)—Cattle market active; quality ordinary. No hog price established Wednesday.

Wednesday's receipts: 780 cattle, 40 calves, 135 hogs, 129 sheep. This morning: 75 cattle, 42 hogs, 59 sheep.

Good to choice butcher steers 14.00-14.75, common to medium 11.00-13.50. Good to choice butcher heifers 13.00-13.75; common to medium 10.00-12.50.

Good cows 9.50-10.00; common to medium 7.50-9.25. Canners and cutters 5.00-7.00.

Good bulls 9.50-10.25; common to medium 7.50-9.00. Good stocker and feeder steers 10.25-11.00.

Spring lambs 14.25 - 14.75. Good ewes 5.50-6.75.

Alexanders Tour Edmonton District

EDMONTON, July 17 (CP)—Canada's soldier Governor General, Viscount Alexander of Tunis, Lady Alexander and their three children arrived in Edmonton today to begin a 15-day tour of the Canadian Northwest.

They were greeted by Lieutenant-Governor J. C. Bowen, Acting Premier W. A. Fallow, Mayor Harry Ainlay of Edmonton, Air Vice-Marshal K. M. Guthrie of North West Air Command, Maj.-Gen. F. F. Worthington, Officer Commanding Western Command, Cmdr. R. Pike, Officer Commanding H.M.C.S. Nonsuch, Commissioner H. Darling of the Royal Canadian Mounted Police and Walker L. Taylor, Western Production Manager of Imperial Oil Limited. The party drove directly from the station to the Calmar-Leduc sector of the Edmonton oil field.

VIEW OIL WELLS

They viewed the railhead tank site at Nisku, South of Edmonton, and then proceeded to Imperial Oil's No. 6 well. There they were greeted by Mayor Leo St. C. Gaetz of Leduc and A. L. Burrows, second Vice-President of the Edmonton Chamber of Commerce.

Their Excellencies viewed with interest the drilling rig and the site and listened to a brief explanation of operations. At the well, a newsreel was made. The party continued on to No. 1 Discovery well and then to the town of Leduc via the Okalta well and the Calmar highway. At Leduc the Imperial Seismic Camp base for geophysical explorations, and other oil developments were pointed out.

At noon they were guests of the Lieutenant-Governor and Mrs. Bowen at a private luncheon.

The three children Rose 13, Shane 12, and Brian seven, will attend the Edmonton Exhibition. The Vice-Regal party will leave Edmonton for Grande Prairie, Alta., and Dawson Creek, B.C., to begin their tour of Northern British Columbia, the Yukon and the Northwest Territories.

LONDON (CP)—The L.N.P.A. will ask Parliament to sanction the construction of a new double-line Woodhead tunnel under the Pennines on the Manchester-Sheffield route.

Corner Casbah Jargon Junked By Reef Teens

By RAY TIMSON
Canadian Press Staff Writer

TORONTO (CP)—The slanguage is sliding. Canada's 'teen-agers who, during the war cooked up a most unintelligible vocabulary known as hep-talk are returning to a speech comprehensible to everyone.

A girl is no longer referred to as a "swishy little dish with a gam-bolling gait that makes the Vansomes whistle the equivalent of woo woo." She's just a girl now—Mary Brown.

And that store at such and such an intersection where the gang congregated and split "shakes" is a store—not the "corner casbah." Dad's car is the family automobile —not the "blitzbuggy."

Today, sympathy goes to the bobby soxer who doesn't rate." She doesn't get tabled a 'sunken punkin' droolin' with schoolin' and strictly a feeble greeble." The slanguage is gone—taboo.

From 1941 until last Fall words and phrases along the same lines as those above, poured from 'teen-agers' mouths at a clip faster than John L. Lewis declares strike action.

At a dance in 1944 we witnessed a youth "make the approach." His exact words: "Greetings Gate, are you a dead beat? You're not? Then you're a cruisin' Susan and a gen alligator? Well, come on celery, let's stalk." Which means, folks, just what the 'teen-ager will say in a ballroom today: "May I have this dance, Miss?"

STICK TO GRAMMARS

The kids certainly kept apace with wartime tempo. Their comments were so advanced that even Buck Rogers took a back-seat. But tempus fugit, and wartime 'teen-are sticking to the grammar text-agers are growing up. Today they books.

The reason for this rather sudden change-over may be found in the fact that Pop is no longer in the war plant and is not dead on his feet when he comes home at night. He has more time to correct that son of his. Here's an example:

Johnny, 1944: "Say what's the matter old man? You look beat from your bobby-sox to your dandruff. Don't be a glump, shake up your watch-works and slide your jive."

Johnny, 1947: "Evening, Dad. Can I get you the paper?

Or:

Father, 1944: "Who was that on the 'phone, son?"

Johnny: "Oh, it was just a C.O.D. from my clicker. We're going to make with the feet on the main drag and stop for a fizz or three."

Johnny, 1947: "It was Mary Brown Dad. We are going for a walk and possibly a soda."

At any rate, the slanguage is sliding—and so are a few parents and English teachers, sliding into a chair, with relief.

KNOCKS "SOLITARY" FOR AWOL SOLDIERS

LONDON (Reuters) — Solitary confinement as a punishment for soldiers who desert was criticized by Dr. W. L. Nuestatter, an army psychiatrist writing in the British Medical Journal.

"It is very questionable," he wrote "if solitary confinement is not uneconomic in retarding (deserters') rehabilitation as soldiers, which is the aim of military prisons."

WORCESTER, Eng. (CP) — Advertisement in Worcester Times read: "Lost—blue span-roof bungalow and contents in Severn floods."

COMPANY LIMITED
PHONES 26-27 WHOLESALE-RETAIL NELSON B.C.

Important To Coal Consumers

It is the responsibility of fuel dealers to keep the consumer of coal fully informed at all times as to the availability of supply.

We wish to advise our coal consumers to take their coal during the summer months when it is available rather than run the risk of short supply experienced in the past few years.

Here are the reasons why coal consumers should fill their bins now.

There will be 50 days production lost this year as a result of the institution of a 40 hour week for mine-workers.

Emergent conditions such as a recurrence of last year's railway car shortage and severe storms could cause delay in filling orders next winter.

Prices are now as low as they conceivably can be this year.

Be Wise – Fill Your Coal Bin Now!
