Fifty Years of Service to the Kootenay-Boundary — 1952

Vol. 51 — NELSON, B.C., CANADA—MONDAY MORNING, OCTOBER 20, 1952 — No. 143

WEATHER FORECAST

KOOTENAY — Clear and mild. Winds light and South 16. Low and high at Cranbrook 27 and 65, Crescent Valley 30 and 70, Revelstoke 35 and 65.

Sommers' Word On Celgar Okay Expected Soon

$65 Million Pulp, Paper Industry At Castlegar Nearing Realization

CASTLEGAR — Approval of Celgar Development Company's application for a forest management licence likely will be announced here shortly by Hon. R. E. Sommers, Minister of Lands and Forests and Rossland-Trail member of the Legislature. Mr. Sommers is in Castlegar now.

Provincial government approval of the licence would bring a $65,000,000 wood pulp and newsprint development to Castlegar as part of the Celanese Corporation of America's multi-million dollar Canadian expansion program.

The Social Credit cabinet Nov. heard five hours of argument for and against granting the Celgar application and then reserved its decision. Premier W. A. C. Bennett would not say, at that time, when the decision would be made public.

Reliable sources now indicate that Mr. Sommers, whose department is the one chiefly concerned with the project, wishes to make the announcement of the cabinet's decision in his home riding.

REAL ESTATE BOOM

In anticipation of the Celgar project going through Castlegar has been a major boom in real estate and business undertakings over the last year. First announcement of Celgar's plans came early in January when the company reported that the project would go ahead providing government approval would be secured for the forest management licence.

Three companies appealed Celgar against granting the licence to Mr. They are the William T. Joyce Co., of Chicago, Kootenay Forest Products and the Glacier Lumber Co., both of Nelson.

Area covered by the forest management licence is a million acres of timberland along the Arrow Lakes and Northwest of the Kootenay Lake.

The licence was approved last spring by E. T. Kenney, then minister of lands and forests in the Coalition administration. After opposition was registered the matter was referred to the cabinet and has been delayed by the breakup of the Coalition, the formation of a Liberal government, the provincial general election and then the assumption of power by the Social Credit government.

PRELIMINARY WORK

Celgar already has done some preliminary work on a site adjoining Castlegar to the West and has purchased land on both sides of the Arrow Lakes in that area.

Original Celgar plans called for a kraft mill to produce 400 tons of bleached and semi-bleached sulphate pulp daily and a ground wood mill with a capacity of 275 tons of newsprint daily. A plywood mill also was considered a possibility.

Cutting of timber in the licence area would be limited to the annual growth so that continuous forest operation would be assured. The mills would provide employment for 1000 men while 1200 others would be employed in woods operations.

Snowsell Says All Parties Should Enter By-Elections

VICTORIA, Oct. 19 (CP) — Failure of opposition parties to contest provincial by-elections next month in Similkameen and Columbia would set a precedent that "a premier has the right to select his cabinet ministers outside the legislature, without reference to the people," Frank Snowsell said Friday.

Mr. Snowsell, Saanich M.L.A.-elect and chief provincial organizer for the C.C.F., left tonight for the interior to begin groundwork for the by-elections.

The C.C.F. plans to contest both seats, which were recently vacated by Social Credit M.L.A.'s-elect who stepped down to allow Finance Minister Einar Gunderson and Attorney-General Robert Bonner to seek election to the legislature. The two men were appointed to the cabinet Aug. 1, because no elected Social Credit members had the necessary qualifications for the posts.

The two other opposition parties, Liberal and Progressive Conservative, have decided to stay out of the Similkameen fight. The Liberals, however, will run a candidate in Columbia. The Progressive Conservatives have not yet decided about the second riding.

Mr. Snowsell said it was the duty of all opposition parties to oppose the Social Credit candidates.

4 Killed When 2 Cars, Bus Crash

ST. HYACINTHE, Que., Oct. 19 (CP) — Four persons were killed and several injured when two automobiles and a bus collided Saturday night on a highway near this community 45 miles East of Montreal.

Killed were Liboire Provencher, 43, driver of one of the cars; his four-year-old daughter, Lise; A. Boisvert 35, a passenger in Provencher's car; and Boisvert's 10-year-old son Gaetan. All were from Montreal.

Mr. and Mrs. Armand Paradis, honeymooners from Windsor Mills, Que., were among bus passengers injured.

Several persons in the second car were treated at the scene of the accident.

Police said the bus swerved to avoid an unlighted farm tractor pulling a loaded cart and smashed into Provencher's car, coming from the opposite direction. The second car, driven by Fernand Giroux of St. John's, Que., plowed into the back of Provencher's vehicle.

B. C. Traffic Mishaps Soar

VICTORIA, Oct. 18 (CP) — British Columbia's highway accident toll continues to climb dizzily.

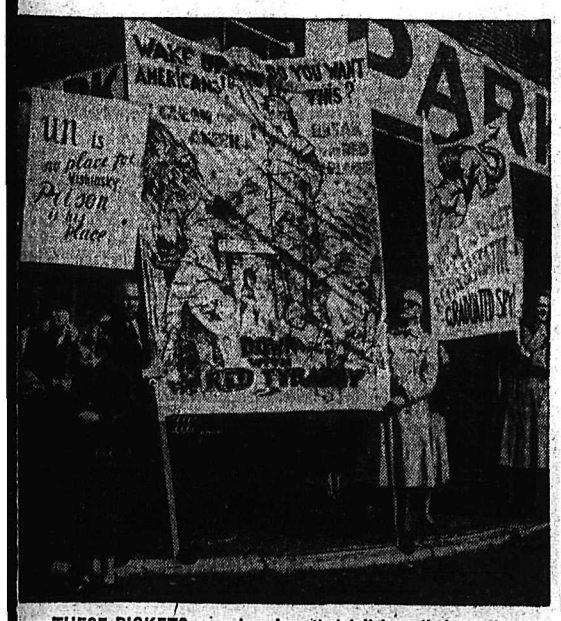
The Motor-Vehicle Branch reported today during the first eight months of 1952, 12,470 highway crashes killed 119 persons, injured 802 persons and resulted in property damage totalling $3,671,442.

In the same period last year, there were 11,717 accidents, 118 deaths, 945 injuries and $3,166,373 property damage.

To the end of August this year, 999,269 motor-vehicles were licensed to use the highways, compared with 975,283 in the same period in 1951.

No New City Hall For Burnaby

VANCOUVER, Oct. 19 (CP) — Hopes of many Burnaby ratepayers for a new $825,000 city hall were dashed today when the total number of votes was 59 short of meeting the 60 per cent mark needed to pass the bylaw Saturday. However, an $85,000 hospital bylaw was passed.



THESE PICKETS, carrying signs that tell how their sentiments lie, greeted Soviet Foreign Minister Andrei Vishinsky and his cohort, Andrei Gromyko, as the big wheels of the Soviet arrived in New York for the opening of the U.N. general assembly. Vishinsky is one of the Soviets' foremost debaters and orators. Gromyko, who is the Soviet ambassador to London, is well known in U.N. debates.

FIRE WIPES OUT CRANBROOK BALING SHED

Fire Prevent Spread To Nearby Planer and Garages

CRANBROOK, B.C. — The year's most spectacular fire here demolished the big baling shed of the Cranbrook Sash and Door Company Ltd. with its contents here Sunday evening.

Quick, efficient work of the city fire department under Fire Chief James Gordon and his assistant acting chief George Pask, with a dozen staff and call-firemen, and efforts of the company's crew prevented spread to the planer, garages and other equipment and the adjoining yards. Plant had closed for the weekend Saturday noon.

Entire baling shed was in flames before the fire was noticed and the fire department called to the location which is just outside city limits and within a block of St. Eugene Hospital, also outside city limits. All efforts were directed at confining the fire to the baling shed, and dry lines were laid from nearest hydrants to the hospital and to the Cranbrook street side just across the railway tracks, location of several garages and service-stations.

The blaze spread to the mountainous accumulation of shavings which tower between the factory and the hospital and these caught fire and are continuing to smoulder tonight.

Flames leapt hundreds of feet into the air dwarfing the near-by shavings burner where shavings waste has been disposed of from the plant for the past several years. Cause of the fire is unknown and appraisal of the damage has not yet begun.

With damage confined to the baling shed and conveyor, most work will continue as usual at the plant.

Liberals Plan Spring Meet

VANCOUVER, Oct. 19 (CP) — The advisory council of the British Columbia Liberal Association tonight decided to postpone the association convention scheduled for Penticton Nov. 14. It will be held, instead, in the Spring.

Following a closed meeting in which B. C.'s two new Cabinet ministers, Fisheries Minister Sinclair and Solicitor-General Campney, took part, the council announced the convention will be held at a date not later than the end of the Easter recess of the House of Commons.

This will enable Liberal B. C. Members of Parliament to attend the convention, at which a new leader will be chosen to replace former Premier Byron Johnson. The Liberals were crushed and Mr. Johnson was defeated personally in the June 12 provincial general election.

Gov't Postpones Forestry Probe

VICTORIA, Oct. 19 (CP) — The Provincial Government has abandoned plans — for this year at least —to name Chief Justice Sloan as a royal commissioner to delve once again into forestry policy in British Columbia.

An authoritative source said today Premier W. A. C. Bennett and the chief justice could not come to an agreement on the nature of the enquiry, and the idea has been dropped.

The Premier, it is understood, was thinking in terms of a short inquiry when he asked Chief Justice Sloan to act. Premier Bennett wanted the probe to deal mainly with troublesome aspects of the forest management plan.

Flash Fire Blocks Highway Traffic

HOPE, B.C., Oct. 19 (CP) —The 83-mile Hope-Princeton highway was closed to traffic for a short time Saturday as a slash fire burned out of control West of Allison Pass. The fire was reported under control today.

Pistol Packing Grandma

LOS ANGELES, Oct. 19 (AP) —A grey-haired woman in her 60s held up a cashier at a branch of the California bank today.

She walked sedately up to teller Marguerite Evert's window and said in a soft voice: "Fill up this bag with money."

"I can't hear you," Miss Evert said.

This time the woman, about 5 feet 3 and 125 pounds, spoke up.

"This Gun does my talking for me," she said. "I can use it."

Miss Evert filled the bag with approximately $1000.

The little old lady walked quietly to the door and disappeared.

NEW PRESIDENT OF THE U.N. ASSEMBLY in New York, Canada's Lester Pearson, left, greets permanent secretary Trygve Lie. The present session is expected to become bitter over the issue of the Korean war. Canada, said Mr. Pearson, had no specific issues to bring before the assembly.—Central Press Canadian.

Reds Hurl Full Regiment at Each Of Two Hills

SEOUL, Korea, Oct. 20 (Monday) (AP) — Thousands of Chinese Reds tried and failed last night and early today to drive American and South Korean troops off Triangle Hill and Sniper Ridge.

The Reds broke off the fight and dug in North of U. N. positions on the two central front hills.

Front line officers estimated the Chinese threw a full regiment—between 3000 and 3500 men — at each of the key hills.

The screaming Red attackers surrounded troops of the U.S. 7th Division on Pike's Peak, a knob at the Northern end of Triangle Hill, early in their assault, but the Americans broke out in hand-to-hand fighting and reached their own main lines on Triangle.

At last reports the Reds held Pike's Peak but the Americans were still in control of the rest of the hill mass. By 9 a.m. the fighting there decreased to sporadic small arms exchanges.

P.C.'s Elect Entire New Slate

VANCOUVER, Oct. 19 (CP) — The British Columbia Progressive Conservative party, its Legislature strength decimated in last Summer's provincial general election, fired its executive Saturday and elected a complete new slate of officers.

Herbert Anscomb, co-chief in B.C.'s old Coalition government, resigned as leader of the party. He had said earlier he would resign at the party's full-dress convention in December but changed his plans under the threat of a want-of-confidence motion.

At the same time, a new executive was elected to the provincial Progressive Conservative Association, the group which convened here Saturday.

E. Davie Fulton, Member of Parliament for Kamloops, replaced Maj.-Gen. G. R. Pearkes, V.C., Member of Parliament for Nanaimo, as president.

Kelowna Student To Represent B. C. In Eaton Contest

VICTORIA, Oct. 19 (CP) — Rudy Moyer of Kelowna will represent British Columbia in the T. Eaton scholarship contest at the coming Royal Winter Fair in Toronto, Agriculture Minister Kenneth Kiernan announced today.

Each province enters a student in the contest. The scholarship will de fray, to a large extent, the winner's expenses in securing a degree at the university of his choice.

Provincial representatives are chosen for such things as knowledge of agriculture, public speaking ability and general scholastic record.

Anscomb Resigns, Urges Party On

VANCOUVER, Oct. 19 (CP) — With a parting exhortation to his followers to fight "every election, everywhere at every time," Herbert Anscomb today confirmed his decision to resign as provincial leader of the Progressive Conservative party.

He declined comment on a dispatch from Victoria which hinted he may be approached to run as a Progressive Conservative candidate for the capital city in the next federal election. The dispatch said an offer would be made if Mr. Anscomb retired from the provincial field.

In announcing that retirement, Mr. Anscomb said, "My own view is that there should be a convention as rapidly as you can get one. I propose . . . to tender my resignation to that convention."

Attention All Burglars!

FALL RIVER, Mass., Oct. 19 (AP)—"Burglars, please, how about giving me a break?" pleaded cafe owner Steve Gardella Saturday in a paid advertisement in the Fall River Herald-News.

"Enough is enough," Gardella said in his ad. "I know you fellows have to live but so do I. Two burglaries in my establishment in four days to the tune of $800 is more than I can stand . . ."

Gardella's cafe was broken into last weekend and the night of Oct. 14 - 15. Cash and cases of whisky were stolen.

Father Saves Son From Blazing Bed

PORT COQUITLAM, B.C., Oct. 19 (CP) — Police are holding one man and are seeking a second in connection with a house fire in Port Coquitlam that narrowly missed taking the life of a five-year-old boy early today.

Police said an oil-fed fire partially destroyed the house, at 3:30 a.m. Volunteer firemen extinguished the blaze.

Before they reached the scene a downstairs tenant, Wilfred Aeichely, awoke to find flames eating into his bedroom. He realized his five-year-old son was trapped in the livingroom, centre of the fire.

Aeichely awakened his wife, then rushed into the living room and grabbed his son from the burning chesterfield. The child was unconscious, but responded quickly to treatment.

"One minute later and he would have been gone," said the father.

Police and officials of the provincial fire marshal's office found definite evidence that an oil barrel immediately adjacent to the living room had been tampered with.

Five persons escaped from the flaming house. They were Mr. and Mrs. Aeichely and their son, and Mrs. Minnie Vaggenstos and her 11-year-old son.

WARNS RESIDENTS OF FIRE HAZARD

VICTORIA, Oct. 19 (CP) — The B. C. Forest Service today warned Vancouver Island residents to exercise extreme caution in the forests over the weekend.

Officials said the fire hazard is still high and the weather will remain dry for at least another two or three days.

Of the 50 fires burning in B. C., 39 of them are in the Vancouver forest district, which includes Vancouver Island.

U. K. Makes Profit, Still E.P.U. Debtor

PARIS, Oct. 19 (Reuters)—Britain made her first profit in 1952 dealings with the European Payments Union in September—$37,100,000—but still is the organization's biggest debtor. She is $1,185,200,000 in the red with Western Europe's clearing house.

The figures were given today in a report by the Organization for European Econimic Cooperation, which runs E.P.U.

France lost most ground during the month—$54,000,000—mainly because of settling debts to Britain and Belgium.

Belgium, West Germany, The Netherlands, Denmark and Switzerland all were creditors.

Losers were Austria, Greece, Italy, Norway, Portugal, Sweden and Turkey.

ELECTED PRESIDENT

VICTORIA, Oct. 17 (CP) — Elected president of B.C. Division of the Canadian Weekly Newspapers Association here today was Lew Griffith, Cariboo Observer. New secretary-treasurer is A. W. Lundell, Revelstoke Review, and new vice-president, Ronald White, Kamloops Sentinel.

Pass Creek Man Dead After Car Over Bridge

Sedan Plunges 60 Feet Through Bridge Railing to River's Edge

Alec Nick Pereverzoff plummetted to his death on the edge of the Slocan River Sunday night when his car tore through the rails of the Slocan River bridge near Shoreacres.

Body of the Pass Creek Doukhobor was taken from the twisted wreckage of his 1948 sedan by R.C.M.P. shortly after it smashed into the West end railing and then bounced over to tear out 50 feet of the North side rails. The car had landed on its roof after the 60-foot drop from the bridge to the river's edge.

Pereverzoff was driving alone on No. 3 Highway toward Nelson when the accident occurred about 8:45 p.m.

Members of his family, who live seven miles from Castlegar up Pass Creek, were notified.

LUXURY LINER STRIKES ROCK

Limps Into Port On One Propellor

VANCOUVER, Oct. 19 (CP) — The $3,000,000 luxury liner Prince George, which shaved a rock off Ripple Point in dense fog early saturday, arrived in port today with escorting tugs fluttering around her.

Aboard were 274 persons — 144 passengers and 130 crew members — when the four-year-old ship, bound from Alaska, struck with a glancing blow. No one was injured, but one of the propellors was damaged.

Capt. E. B. Caldwell, who was on the bridge, reported: "she struck, starboard aft, with a glancing blow. There was not too much of a thump."

RADAR OUT

He said the radar was not in operation. It went out of whack during the voyage North.

She made port under her own steam, using her one good propellor.

Ripple Point, not to be confused with the treacherous Ripple Rock in Seymour Narrows, is 130 miles North of Vancouver, It is some 40 from Ripple Rock.

The 5813-ton Prince George, owned by Canadian National Steamships, hit shortly after 3 a.m. She was aground only briefly and pulled herself free. She anchored in Knox Bay, surrounded by swirling fog until three tugs arrived.

Capt. Caldwell said the ship was travelling at reduced speed because of the fog when she struck.

He calmed the startled passengers, awakened by the impact, by speaking to them over the ship's public address system.

NO PANIC

"Everything was carried out with the least possible panic," he said.

"Things were handled very smartly, just as in the regular drills that we have. Nobody was very scared."

He said he had made every effort to have the radar repaired but was unsuccessful.

"Unfortunately, in cases like this, you can't find technicians and necessary spare parts in the Northern coast ports."

At Ottawa, the Department of Transport ordered a preliminary inquiry into the mishap. It will be carried out by Capt. J. C. Barbour, examiner of mates and mariners.

Teachers Hear Lands Minister

CASTLEGAR — West Kootenay Boundary Teachers' Federation heard Hon. R. E. Sommers, minister of mines, lands and forests, and Vancouver Normal School Principal F. C. Boyes as principal speakers at a convention banquet here Saturday night.

The social affair closed a three-day convention here during which discussions centred around the theme "Character, a Vital Goal in Education."

Sectional meetings for teachers of various courses, with teachers themselves, school inspectors and education department representatives speaking on various topics, were held earlier.

Special events of Saturday morning were a talk by Dr. Victor Goresky of Castlegar on "Mental and Physical Health in the Elementary School — What Can the Teacher do?" and a panel discussion on "Extra Curricular Activities—the Key to Character Building?" with S. Potter of Rossland as moderator and R. E. Cail, chairman.

At luncheon metings further speakers were heard, and in the afternoon, sessions wound up with a business meeting, featuring reports on B. C. Teachers' Federation activities by Miss Hilda Cryderman, second vice-president and J. A. Sprague, executive assistant of the B.C.T.F.

DIES ON WAY TO FATHER'S FUNERAL

VANCOUVER, B.C., Oct. 19 (CP) —Theodore W. Kalk, 35, of Englewood, B.C., died in a downtown hotel last night while en route to Indian Head, Sask., for the burial of his father. He suffered from a heart condition.

Mr. Kalk had flown from his Vancouver Island home after he was advised of his father's death.

PRISONER HANGS SELF

VANCOUVER, Oct. 19 (CP) — Leo Joseph Larocque, 27, hanged himself with his belt in a cell at the city jail here Saturday night, police reported today.

They said Larocque had been jailed on an intoxication charge. His body was found by the jailer.

Castlegar Bends Ear to Toll Bridge News

CASTLEGAR — Possibility of a toll bridge here, financed by private interests, has been revived by announcement in Nelson that Mayor Joseph Kary will attend a meeting in Victoria of the provincial cabinet to discuss with Eastern Canadian financial interests possibility of the construction of a toll bridge across the West Arm of Kootenay Lake at Nelson.

Castlegar Board's of Trade's Bridge Committee so far has received no information on the Victoria meeting but it is considered likely that anyone interested in a toll bridge in the area would consider Castlegar as well as Nelson. It is felt that a bridge at Castlegar would be less expensive than one at Nelson while present ferry traffic at Castlegar is heavier than on the Nelson ferry.

Castlegar's bridge committee already has pointed out that cost of the present ferry service would more than pay the amortization charges on a bridge costing $1,000,000.

Last February it was reported in Castlegar that a private American syndicate had evidenced interest in a plan to build toll bridges at Castlegar and Nelson. This plan, however, appears to have fallen through.

Possibility that Celgar Development Company's $65,000,000 forest products project for Castlegar may get cabinet approval in the near future is taken here as further hope for a bridge. Should a major industry be established on the Arrow Lakes, West of Castlegar, it is believed that a bridge would be a necessity.

Nylons Gain Young P.C.s' Attention

VANCOUVER, Oct. 19 (CP) — The subject of milady's nylon stockings Saturday took the attention of the executive meeting of the British Columbia Young Progressive Conservative Association.

In a resolution, the Association asked the Federal government to investigate the hosiery and textile industries with respect to the manufacture of women's nylon stockings.

The resolution said that when nylon hosiery was first introduced on the market, it wore for a considerable period of time. Nylon hosiery now develops runs "within a matter of days," the resolution added.

The resolution suggested that hosiery manufacturers were deliberately making their product less durable to increase sales.

He Didn't Know It Was Loaded

VANCOUVER, Oct. 19 (CP) — A woman and a six-year-old boy were injured on a street in suburban Burnaby yesterday in the accidental discharge of a shotgun.

Ken Chalmers told police he was preparing his gun for the opening of the duck season. He lined the gun out of the window of his home, and there was a sharp blast.

Mrs. Lola Shire, who had just stepped from a bus, was hit, and Harold Hanson, playing in the street, was knocked to the pavement.

At hospital, 15 lead pellets were taken from Mrs. Shire's legs. She is still in hospital. The Hanson boy was returned home after five pellets were taken from his body.

"My husband thought he had taken all the shells from the gun," Mrs. Chalmers said today. He just lined the gun out of the window.

"The window smashed," she said, "and we just stood looking at each other."

"Then I heard a boy start crying and saw him lying in the street," Mrs. Chalmers added. "My husband rushed out to help while I called the ambulance. It was a pure accident."

HERE IS ONE of the plastic heart valves developed by Drs. John Gillespie and Charles Hufnagle of Georgetown University, New York. Dr. Hufnagle placed one of the valves in the heart of a human patient — a first in surgical history. The valve is made of plexiglass and consists of a small plastic wall in a chambered tube to prevent the backflow of blood.—Central Press Canadian.

And in This Corner . . .

KELLOGG, Idaho, Oct. 19 (AP) — Lyle Peabody was a model prisoner and when he offered to redecorate the jail this week, police jumped at the chance.

Lyle, 45, did it up brown with shiny silver walls and a dull green floor.

Peabody isn't around to get compliments. He escaped last night and took off in the fire chief's light green sedan.

Police said Peabody's girl friend apparently boosted her 10-year-old son through a window to get a key out of the jailer's drawer and unlock the cell. Peabody was being held for extradition to California to face grand larceny charges.

LONDON, Oct. 19 (Reuters) — Lord Courtald-Thomson says Britons are turning from gourmands into gourmets.

Instead of masses of food, badly prepared, they now have "very little food" under rationing, but make sure it is well prepared.

Lord Courtauld-Thomson traces his gastronomic career from 1868, when, during a bout of pneumonia at the age of three, he ate the bread poultice off his chest. It was a soggy mess of bread soaked in hot water.

The 88-year-old peer was guest of honor last night at the annual banquet of Universal Cookery and Food Association, whose aim is to give Britons better cooking.

EVANSVILLE, Ind., Oct. 19 (AP) — Muggsy claims to be the only watchdog in the country that has its name in a city directory.

On page 293 of the Evansville city directory it says:

"Hawkins — Muggsy L wtchman R816 Sunset Ave."

And on page 292 is:

"Hawkins — Frank L (Martha) contr H816 Sunset Av."

Muggsy is a three-year-old female Boxer owned by Mr. and Mrs. Hawkins. Hawkins is a contractor.

When Hawkins got a postcard from the directory publisher asking the names and occupations of the members of the household, he listed Muggsy in what Hawkins says was "a sudden whim."

Hawkins said: "Matter of fact all Muggsy watches is the refrigerator door. A burglar broke in a year ago and Muggsy didn't say a word."

U. K. Bans Coffee Gifts to Army

OTTAWA, Oct. 19 (CP) — The British Army of the Rhine has issued an order banning shipments of coffee to troops in its area of Germany.

The army said today that relatives and friends sending parcels to troops in this area are being asked to eliminate coffee from their parcels. It will not be cleared through customs by the British authorities, who handle all mail to servicemen through army postal channels.

A separate order has lifted the duty-free concession on cigarettes, cigars, tobacco and spirits going to the United Kingdom. These now are available to Canadians in the U.K. through their unit and Navy, Army and Air Force canteens.

Argos Drive Home 25-6 Victory Over Calgary

By the Canadian Press

Toronto Argonauts are a 60-minute football team again.

The double blues proved it Saturday to hop into second place in the Big Four standings, four points behind the league-leading Hamilton Tiger-Cats. The Bengals made it look easy with a 21-1 decision over the winless Als.

The Toronto-Ottawa game was billed as the key contest of the Eastern football picture and the Argonauts, who have blacked out for some unaccountable reason in the last half of their previous three games, played it hard all the way. The victory put them into serious contention for a Big Four playoff berth, one point up on Riders.

Saturday's script was the same as the previous night marish games when Argonauts took a 12-0 first-half lead but the similarity ended there. The hard-charging Agronaut front wall tackled with authority to make sure the Riders didn't come back with the last-minute upset finish which had plagued the Toronto Club the last two weeks.

Hamilton should sew up its playoff berth next week at Montreal, allowing the Bengals to coast in until the schedule close Nov. 8. Rough Riders play at Toronto next Saturday and then meet the Tiger-Cats in home-and-home games while the Argonauts have a comparatively soft touch against the forlorn Als in the other home-and-home end-of-schedule contests.

Bombers Beat Stampeders 42-18 In W.I.F.U. Final

CALGARY, Oct. 19 (CP) — Winnipeg Blue Bombers, displaying superiority in every department, romped to a convincing 42-18 victory over Calgary Stampeders Saturday night in their final game of the Western Interprovincial Football Union conference.

With nothing at stake, both clubs relied on their benches and it developed that the Winnipeg reserves had a lot more to offer than the Stampeders.

Indian Jack Jacobs and Tom Casey powered Bombers to two majors and a 12-0 rlead in the first fou minutes of play and from that point on, made appearances only to convert Winnipeg touchdowns.

Scout Association Financially Clear

Phil Hoskins, treasurer of Nelson and District Boy Scout Association, in a report at the annual meeting of the Association told members the group would end the year with no outstanding accounts. Financial year ends the last of December.

ORTHODOX MEMBER GETS SOVIET INVITE

Discussion Sought; New Search for Verigin III Talked

VANCOUVER, B.C., Oct. 19 (CP) —British Columbia's 10,000 Doukhobors may seek a new leader in Russia.

It was reported today that the Soviet Union had sent an invitation to W. A. Soukeress, prominent member of the Orthodox Doukhobors, to visit Rusia and discuss the problems of the strange religious sect.

He did not accept the invitation, out it revived talk in the Doukhobor colonies of a new search for Peter Verigin the Third, the grandson of Peter (The Lordly) Verigin, who came from Russian exile in 1902.

It has been reported many times that Peter III died in Russia years ago, but many of the Doukhobors believe he is still alive. A member of the governments' consultative committee, which has proposed a $1,000,000 relocation plan for the Sons of Freedom, radical branch of the Doukhobors, disclosed here that Soviet authorities had sent the invitation to Soukeress. He did not, however, know the details.

Doukhobor colonies have been strife-torn for 50 years, the Sons of Freedom opposing man-made laws. The Orthodox Doukhobors have adopted some Canadian customs, and generally obey Canadian law.

The Sons of Freedom last year accepted as their spiritual leader Stefan S. Sorokin, 40-year-old refugee from Russia.

Nelson Chosen . . . F. H. Wheeler Heads Drama Association

Fredrick H. Wheeler was re-elected president of the West Kootenay Zone Drama Festival Association at a meeting here Saturday. Present at the meeting were members from Trail, Nakusp, Robson, Kinnaird and Nelson.

Nelson was chosen as Festival City for the 1953 Kootenay Zone Drama festival. The program and the type of plays to be produced at the festival were discussed by members and it was decided to incorporate one act operettas as well as dramas.

Extensive reading and studying is being carried on by all groups, it was reported.

Two new groups, Kinnaird Little Theatre and the Colombo Players of Trail were taken into the zone.

Trail announced its festival production of "Quiet Weekend," Kinnaird will produce "Bathroom Door" and Nelson, "The Silver Cord."

Bought Stolen Tools Court Is Told

Judgment in the case of Richard L. Jessop, charged with unlawfully retaining in his possession stolen tools, was reserved to October 24 by Magistrate William Brown in City Court Friday.

A tool box and tools valued around $40, stolen from the Department of Public Works around Sept. 1 were found in Jessop's possession October 9 following a search of a city garage, where he works, by Chief of Police Robert Hershaw, the court was told.

Conducting his own defence Jessop, who pleaded innocent, told the court he bought the tools from an unknown man he met in a beer parlor. In the course of a conversation during which Jessop said he needed tools for his new job at a local garage, the stranger said he had some he would sell. He bought the tool box and tools for $15, he testified.

Bruce Alridge was Crown prosecutor.

Two witnesses appeared for the Crown, C. G. Jeffs, foreman of the Public Works Department, who identified the tools, and Chief of Police Harshaw who testified having found the tools in Jessop's possession Oct. 9.

Jessop appeared on Oct. 15 when trial was adjourned to Oct. 17.

Blowout Causes High Street Accident

A tire blowout on High Street Saturday night resulted in about $50 damage when the car swerved and hit a passing vehicle.

The car, driven by Fred P. Guelmette of Salmo, was travelling West on High Street near Kootenay Lake General Hospital when the left front tire blew out causing the car to swerve and hit the back fender of a car driven by Robert Paterson, which was passing. Damage is estimated between $25 and $50.

No charges were laid pending investigation by city police.

Roughriders Score 31-28 on Eskimos

EDMONTON, Oct. 19 (CP) — Saskatchewan's down-and-out Roughriders, spirited by fabulous Glenn Dobbs, bowed out of the 1952 football season Saturday with an exciting 31-28 victory over Edmonton Eskimos before some 10,000 fans.

The game, exciting from the start despite the fact it meant nothing to the standings, closed off the 16-game Western Interprovincial Football Union schedule for both clubs and was Riders' final appearance.

The Egyptians played checkers as far back as 1600 B. C.

Krestova Tends to Its Own Affairs, Lack of Water and Wood, Frosts Big Problems

KRESTOVA — This Reformed Sons of Freedom centre couldn't have been quieter as it tended to its harvest time chores under a warming Saturday sun.

There weren't too many people at home; most were off on their Saturday visiting, marketing in Trail and Nelson, or not yet back for the weekend from their work in the sawmills and camps. In the fields atop the plateau a few were attending the meagre herd of stock animals, down in Goose Creek draw an elderly couple loaded their horse-drawn cart with cabbage, parsnips, chard. A couple of young bucks in a battered coupe rattled by; white-bearded Nick Berisoff sat in the sun and mended his boots. There was just no sign of the unrest that was said to be stirring the Boundary colony of Gilpin where other Freedomites live.

Spiritual leader Stefan S. Sorokin, who has been unwell lately, was away in Vancouver. He, with his aides Anton Kolesnikoff and Gaston Pozdnikoff, have made a prolonged and persistent effort to maintain peace in the West Kootenay colony. They have, to a considerable measure, been successful; there is some unrest in the colony, but not the violence that has visited there in the past. Scores of the Krestova Freedomites have been enrolled in the Reformed Sons membership, which embodies a pledge not to use "physical force or violence in his worldly struggle" and to illustrate "the power of God's word only through love, wisdom and meekness."

WATERLESS, WOODLESS

Krestova's Reformed Sons are still anxious to obtain a new home. There are practical economic reasons as well as the desire to make a new start. Only a portion of one of the three villages that make up the community has any creek water. Goose Creek provides for some of the gardens of the "Pump" village. In the others water is sold by the bucket or barrel. Wood is scarce on the plateau above Crescent Valley and Winter's are cold. The obtaining of fuels is a continual problem.

Frost, too, comes early to the settlement. This year it came in August and practically wiped out the tomato crop. One grower told of putting in $15 worth of seed potatoes this Spring only to have the plants killed off by Summertime frosts. The experiences of others is the same.

Is there any wonder, members of the Brotherly Council of 12 ask, that there is discontent and a desire to move. Chiefly, however, the desire to move is based on the hope of making a new start away from old connections and prejudices and away from troublemakers who persist in visiting the hilltop headquarters village in an effort to stir up resentment.

YOUTH SEEKS TO UNDERMINE LEADER

VANCOUVER, Oct. 19 (CP) — Stefan S. Sorokin, spiritual leader of the Reformed Sons of Freedom Doukhobors, Saturday said here he was "mystified" by the reported trouble and feeling of fear in the Boundary district Freedomite settlement of Gilpin.

"I do not know the meaning of the new trouble," he said. "The community I live in, Krestova, has remained quiet."

Sorokin, a refugee from Russia who became leader of the Sons last year, came to Vancouver for a medical check-up.

Close associates described the bearded leader as "a tired and very sick man who may be ordered to take a complete rest for his health's sake."

Sorokin said some recent unrest in the Doukhobor colonies had been caused by an unidentified young man.

"He told the people that they should follow my spiritual leadership but they should oppose me on material things — on matters of relocation and land problems," he said.

Sorokin, who has worked with the government's Consultative Committee on a $1,000,000 relocation plan, said he is most anxious to continue as leader.

ACTION FROM SOCREDS

"I want to continue as long as I am able. I have great hopes that the new provincial government will soon implement recommendations of the Consultative Committee and start relocation of our people."

The new trouble at Gilpin was reported Friday by a spokesman for the Consultative Committee. Hooded men were said to have made middle-of-the-night raids and some of the elder Doukhobors fled their homes, seeking a haven at Hilliers colony on Vancouver Island. Police at Grand Forks said they knew nothing of any such activities.

Red China After Ceylon Rubber

COLOMBIA, Ceylon, Oct. 19 — (Reuters) — Communist China has offered to buy 50,000 tons of Ceylon rubber or even the island's entire output for five years, reliable sources report.

They said the offer was included in a long-term trade agreement with Communist China which the Ceylon government now is considering. It recently sent a trade mission to Peiping for the negotiations.

The Chinese Communists also offered to sell Ceylon 200,000 tons of rice annually at favorable rates, the source added.

The prices quoted by China for the purchases were reported to be higher than world market rates.

Communist China has replaced Britain as Ceylon's biggest rubber customer.

$500 DAMAGE IN CAR COLLISION

About $500 damage was caused to two cars Saturday night when one crashed into the rear of the other one-half mile West of Tarrys. Driver of the lead car, William James Mayer of Nelson apparently was about to make a turn when the collision occurred. The other vehicle was driven by Charles James of Waneta.

The accident occurred about 11:30 p.m. No one was injured.

Rover Scout Works to Attend Switzerland Meet

A young Rover Scout, who has just come to Nelson from Vancouver, has an $800 objective.

James V. Christie, son of Mr. and Mrs. J. A. Christie, 912 Silica Street, plans to attend the Rover Scout assembly in Switzerland this Spring but he needs $800 to make the trip.

A Scout for 11 years and the youngest Rover Scout at the Blue Springs Ontario moot last year, James Christie is working at a Salmo mine to raise the money. He plans to attend the meeting with his former gorup, the 55th Rover Scout Troop in Vancouver who are also working to make expenses to make the trip.

Navy to Hold Tests

HALIFAX, Oct. 19 (CP) — The navy's Atlantic fleet will test its strength next week in a series of operations to cover convoy protection, minesweeping and defence of Halifax harbor.

The Royal navy submarine Artemis and the American sub Threadfin will also take part in the games, to be named Exercise Cordex.

Thirteen vessels, two helicopters and planes from two squadrons based at Greenwood, N. S., will participate.

Each phase of the operation will last a day, bringing the ships back to Halifax Oct. 22.

The submarines will attempt to penetrate Halifax harbor defences and lay mines and later will try to attack a simulated convoy of vessels protected by the carrier Magnificent and destroyer Crescent.

Late Sport Flyers Take Second From Trail

SPOKANE (AP) — Spokane Flyers scoring machine had a workout here Sunday night as they punched in eight goals to defeat Trail Smoke Eaters 8-2. The Flyers notched seven counters before a reply came from the visitors late in the third period.

First period — 1, Spokane, Scott (Hodges) 18:38.

Penalties — Rozzini 3:30; Palyga 3:30; Hodges 6:38, 11:08; Hyssop 6:38, 11:08.

Second period — 2, Spokane, Ramsden (Tilson, Scott) 8:19; 3, Spokane, Miller (Butler) 11:59; 4, Spokane, Ramsden (Tilson, Scott) 15:49.

Penalties — McPherson 18:41; Secco 18:41.

Third period — 5, Spokane, Miller (Butler, Bentley) 4:04; 6, Spokane, Bentley (Scott) 8:55; 7, Spokane, Rozzini (Grebinsky(13:48; 8, Trail, Hyssop (Secco, Crowchuk) 14:17; 9, Trail, Hyssop (Seccon, Crowchuk) 15:20; 10, Spokane, Toole 17:11.

Penalties — Mailey 6:06, 10:45; Butler 11:32; Krom 11:49 (major) 19:23; Rozzini 11:49; Miller (major) 19:23.

African Animals Loose in Big Storm

AVONMOUTH, England, Oct. 19 (AP)—Wild beasts ran loose aboard and storms lashed her deck but the City of Doncaster arrived safely with a cargo of African animals for British zoos.

During the 28-day trip, the 7257-ton vessel was held up for two days by storms in the Bay of Biscay. Then some of the 127 animals escaped. A baboon clambered up the main mast, ostriches kept seamen at bay with powerful kicks and the zebras got seasick.

But everything finally was rounded up without serious injury to anyone.

Plane Missing With Two Aboard

KLAMATH FALLS, Ore., Oct. 19 (AP) — Air force and civilian pilots flew over the mountainous region North of here today searching for a missing plane and its two occupants.

Everett Logan, 34, of Yakima, was the pilot of the missing plane. His 19-year-old wife, Pat, was believed to be a passenger.

They were en route from Yakima to Medford Saturday to visit relatives. They had stopped at Redmond, Ore., for oil. Logan had a five hour supply of gasoline.

LIQUOR LEADS TO FINES

Driving while ability to drive was impaired by alcohol and consuming liquor in public places resulted in fines for two Salmo men Saturday.

Donald A. Sadler was fined $75 by Magistrate William Brown in city court Saturday morning for driving while his ability was impaired and Antonio Gregoire, who was with Sadler, was fined $60 for consuming liquor in a public place. Charges were laid Friday night.

POWER BY 1954 . . .

1100 Men Speed Waneta Project

TRAIL — At the confluence of two powerful rivers 13 miles South of Trail, B.C., an industrial giant is growing. The $30,000,000 Waneta Power Plant of The Consolidated Mining and Smelting Company, being built on the Pend-d'Oreille River a short distance from its junction with the Columbia, is well advanced. Nearly 1100 men are currently employed on the job.

Cominco announced the project in the Spring of 1951 and work got underway in June of that year. Preliminary to work on the dam proper was the construction of a camp to house some 600 men; the levelling of a precipitous river bank area for construction of shops, warehouses and storage area, the construction of a two-mile road to give access to the gravel plant and the installation of a complete concrete mixing plant together with overhead aerial cableway for placing concrete and other material at the dam site.

In the Winter of 1951-52 the North one-third of the river channel was dammed off and construction of the base of the dam and training wall for the power house was commenced. This had progressed sufficiently to permit continuing work on the power house site during the high water period in the Spring of 1952. Recently, the South two-thirds of thet river channel was dammed and the water diverted through the North one-third. Portions of the dam and headworks have been poured on the North bank and pouring on the South bank is scheduled to start in the next month. The project is generally on schedule and barring unforeseen happenings, the Waneta Plant should be producing power early in 1954.

MILE-LONG CONVEYER

An extensive bed of good gravel was located about two miles from the site and a plant was installed to supply sizes up to six inches. The gravel is bein hauled one mile by 15-ton trucks and unloaded at a belt conveyor. The conveyor, which is nearly a mile long, carries the gravel to large storage piles over a reclaim tunnel from which it is conveyed to bins which feed the concrete mixing plant.

The total daily capacity of the concrete plant is 2000 cubic yards. To date, 44,500 of the 365,000 cubic yards needed for the entire project have been poured. It is estimated that the equivalent of 2,000,000 bags of cement will be used.

Concrete is hauled to the various parts of the construction site in six cubic yard buckets suspended from the 1800-foot aerial cableway.

About half of the men employed at the project live at the camp which was built near the power site, the remainder commuting to and from the Trail district daily. The payroll has now exceeded a third of a million dollars per month.

SECOND ONLY TO COULEE

One of the unusual features of the Waneta Power Plant is the huge power generating units which have been ordered. They will be the most powerful Francis type units ever constructed in Canada and second only to those installed at Grand Coulee for North American power operations. There is provision for four of the wheels at the Waneta Power Plant, but only two will be installed initially for a total output of 210,000 h.p.

The overall heigh of the dam is to be 250 feet, with a spillway drop of 200 feet. The top length of the dam is 900 feet. Power production is scheduled to start early in 1954.

Stone and Webster Canada Limited has been retained by Cominco for the design and general supervision of the power project and have contracted the excavation and construction of the dam and power house to the Northern Construction Company and J. W. Stewart Limited.

Hospital Receives Produce From Harvest Services

Fruits and vegetables of all types poured into Kootenay Lake General Hospital following Thanksgiving Day services in the district, Manager Lyall Cruikshanks said Friday the board of directors was "extremely grateful", to all donors. The quality of the fruits and vegetables was excellent, he said and every bit was utilized.

Donors were Church of the Redeemer in Fairview, St. Saviour's Pro-Cathedral, Ladies' Guild at Balfour, Procter United Church and the Churches of England at Castlegar, Kinnaird and Robson.

2 Months Jail for False Pretenses

Malcolm J. McDonald of Regina was sentenced to two months imprisonment when he pleaded guilty to a charge of false pretenses. The charge arose when McDonald cashed a $25 worthless check in Kelowna in July. He was apprehended by R.C.M.P. here last week.

Stipendiary Magistrate William Evans imposed the sentence in Provincial Court Friday.

The Weather

Synopsis: Rain and gales that whipped the North coast Sunday will decrease somewhat overnight. However, winds will increase further South and the rain area will also spread South. Cloudy and showers will spread into the Prince George area today but the South-Eastern part of the province will enjoy another sunny day of the current unprecedented drought.

Fire Demolishes Arrow Park Home

ARROW PARK — A young couple and their small baby were left homeless here Saturday when a fire completely demolished their rented two storey house.

Mr. and Mrs. Stanley Hampton were left without a home or any worldly possessions when a blaze, which is believed to have started in the kitchen, destroyed their home. Mrs. Hampton was down town when the fire broke out between 9 and 11 a.m. Saturday morning.

When discovered upon her return the blaze could not be curbed by neighbors who hooked up garden hoses and other equipment to fight the fire. The house, owned by William Jeffery, also of Arrow Park, was completely gutted before flames burst through the log walls and roof.

A new chesterfield suite, a bedroom suite and a kitchen set owned by the young couple was destroyed along with all their clothing and personal belongings.

About 250 quarts of fruit, preserved by Mrs. Hampton this Summer, were also burned and could be heard bursting from the heat long after the fire was out. Mr. Hampton is employed at logging in Arrow Park.

F. A. Bryant Named Park Superintendent

INVERMERE — Frank A. Bryant, formerly chief warden of Banff National Park, has been appointed Acting Superintendent of Kootenay National Park and has taken up residence at Radium Hot Springs.

Mr. Bryant has been in park service 25 or more years and has acquired much practical knowledge of park problems.

Since the return to Banff last year of Kenneth Ford, acting park superintendent, E. C. Peatfield of Radium Hot Springs has been officer-in-charge of Kootenay National Park.

LONDON (CP)—On display here is an automobile inner tube which is claimed to be virtually puncture-proof. It consists of a tube inside a tube. If the outer tube is burst, air is held within the inner chamber.

Thieves Get $1000 in Goods, Cash

INVERMERE — An Invermere merchant was robbed of $1000 in goods and cash when his store was broken into early Sunday morning.

Strangely, a store adjoining Charles Osterloh's establishment suffered no loss of goods or cash. The adjoining furniture and electrical shop owned by M. E. Tunnacliff has an open partition within the building through which easy access could have been gained. There was the possibility that the thieves became alarmed at something and fled.

Entrance was gained by smashing a plate glass door at the front of the building after efforts to break in at the rear failed. Mrs. Pat Hucal of Athalmer first noticed the broken door while delivering milk.

Goods stolen included 50 pairs of trousers, a dozen shirts, four blankets, 10 dozen face towels, house dresses and other goods. From the till $15 was taken.

R.C.M.P. investigating the robbery said Sunday a light or medium weight truck was used to haul the loot from the store site.

Cranbrook Water Supply Improved

CRANBROOK — Thirty percent improvement in city water pressure has been registered here since the low point in the Summer of 1950 of 71 pounds resulted in a profesional engineering survey by a consulting firm. Pressure for last month, measured by Fire Chief James Gordon regularly averaged 93 pounds.

Result of the survey was a report that supply and distributions were adequate for a much larger population, and check should be made for leaks at key points. This program has continued since then under city works superintendent Emil Erickson and scores of leaks wre located and repaired, with check continuing. Pressure made the spectacular rise in the face of an increase of over 80 new city water connections in the two year period.

Cleaning program is under way at present at the city reservoir on Joseph's Creek. Gate at the lower end of the spillway has been opened to lower the water in the six-acre artificial pond by seven feet leaving only a channel of water running through mud flats. When the bottom dries sufficiently it will be draglined to clean the pond and remove vegetable growth. Normally water surface is ten feet above it. Chlorination of city supply continues during the clean-up, and normal level will be restored shortly by closing the spillway gate.

FAROUK SAYS IRAN PREMIER PRO-RED

ROME, Oct. 18 (Saturday) (AP) —Farouk, former king of Egypt, today called Egyptian premier Mohammed Naguib "as Red as any other Communist."

The exile issued a statement through his official spokesman. Farouk, who abdicated last July after an army-led coup headed by Gen. Naguib had toppled the government, is living with his family at a hotel here.

Farouk's statement was in reply to comment which Naguib had made yesterday in Cairo to the effect the ex-King was "wooing the Western powers" with allegations that Naguib's regime was red-tinged. Naguib denied any sympathy for Communism, which he said is contrary to his Moslem religion.

Acheson Blamed in Anglo-Iran Split

SAN FRANCISCO, Oct. 19 (AP) —Dr. Henry F. Grady blames his former boss, secretary Dean Acheson for the ruptured Anglo-Iranian diplomatic relations, the Call-Bulletin said in a copywrited interview today.

"I think this tragedy can be laid at the feet of Mr. Acheson," said Dr. Grady, who was U.S. ambassador to Iran for 14 months.

Grady commented on dispatches from Teheran reporting Premier Mohammed Mossadegh's formal announcement that diplomatic relations with Britain had been broken.

"During my tenure as ambassador to Iran I made at least half a dozen recommendations, all of which were either ignored or flatly turned down by our government, under British influence and insistence.

"We just yielded, whereas I thought we had some bargaining power, what with $7,000,000,000 (given) to the British since the war.

"Acheson didn't see it. He has always been very tender toward the British . . ."

Dr. Grady said he believed a more moderate policy by Britain and the U.S., with continued payment of royalties, would have kept Iranian oil flowing to the West and prevented the present impasse.

TOMATOES, TOMATOES and more tomatoes are being harvested by L. C. Plumb of Creston, left, on property of a former B.C. minister of agriculture, Frank Putnam of Erickson, right. More than 2000 plants are bearing on the 1½-acre plot, and each vine is as heavily loaded as this one being displayed for the young sampler, Victor Friesen.—H. M. Buckna photo.

$500,000 Building Project at Kingsgate Now Near Completion

CRANBROOK—Dominion public works department negotiations for lands, properties and water system in Kingsgate area to serve the new customs and immigration buildings and residences for employees are now complete, J. A. Byrne, M.P., Kootenay East reports. New reservoir and new pipes system are planned to supply Kingsgate and its American counterpart, Eastport, with the American Public Utilities Commission supplying lines and power to the Kingsgate side under an old international local agreement.

Staffs are now occupying the new Canadian customs and immigration buildings, constructed over the past year by C. J. Oliver Construction Company. Buildings are rustic in effect, of red brick and natural finish wood, while work on driveways is continuing.

Residential group of buildings several hundred yards from the border station are also nearing completion, with Inland Construction of Creston doing the work, garages are being built and the housing will be ready for occupation before Winter.

Cost of the project is estimated at one-half million dollars, with $130,000 additional funds voted for it in the Spring. Kingsgate-Eastport is the province's second busiest border station and has been operating on a 24-hour basis since mid-August.

CHRIS MADSON

. . . who was elected C.C.F. candidate Sunday at a nominating convention in Golden. A resident of Radium, he will contest Liberal and Social Credit candidates in the forthcoming Columbia by-election.

Lister Busy Wiring Homes

LISTER — Contractors and electricians are busy preparing this town for power. Some homes are now enjoying the convenience of electricity from the new West Kootenay Power line and the balance of the homes should be completed within the next few weeks.

Last Rites for Kimberley Trapper

KIMBERLEY — Funeral services were held here Saturday for Lemuel Cambridge Gammon, a district prospector and trapper. The 56-year-old bachelor was found dead in his cabin near the John Wood ranch where he had resided for many years. The cause of death has been established as pneumonia.

He is believed to have relatives in New Brunswick.

Brazil is 65 times the size of England.

Vaughan Kimpton Heads Golden Liberal Group

INVERMERE — The Columbia Valley Liberal Association elected Vaughan Kimpton of Golden, president, at the annual meeting at Golden. He succeeds George Keenleyside, who is the Liberal candidate in the forthcoming by-election in Columbia riding.

Secretary-treasurer is Miss Frances Dunn of Galena.

George Keenleyside will contest the seat which Richard Orr Newton recently resigned in favor of Attorney-General Robert Bonner. Mr. Keenleyside, a merchant is a prominent citizen of Golden. Very active in community affairs, he is chairman of No. 18 Golden School District, past president of the Columbia Valley Liberal Association and is active in church, hospital and civic centre enterprises.

Socreds Hold Whist Drive, Dance

WILLOW POINT — North Shore and Willow Point Social Credit group held a well attended whist drive and dance at the Crystal Hall. Whist prizes went to E. L. Harries and Mrs. Holmes, E. Stromme and J. O. Bates.

Refreshments were served by the Ladies Auxiliary. Mrs. F. Searle was convener. Music was provided for square dances called by W. Rivett.

One of the world's great Latin-American universities, the National University of Mexico was founded in 1553.

District Governor Honored At Invermere Lions' Banquet

INVERMERE—Lake Windermere District Lions' Club recognized District Governors' week with a banquet and dance held in the Edgewater community hall with District Governor J. A. Crowe of Spokane guest of honor.

Other speakers were Max Tenenbein, zone chairman, of Kimberley; William Weir, secretary of the Windermere District Board of Trade, Invermere; Dr. F. E. Coy, chairman of the Board of Commissioners for the village of Invermere and Melville McArthur of Windermere, president of the Lake Windermere District Lions Club.

Guests at the head table were introduced by Lion Joe Renwick of Canal Flat, vice president of the local group which is the first service club of the Windermere district.

Musical interludes were provided by the fine violin music of Dr. William Raven, former conductor of the Vancouver Philharmonic Orchestra (now the symphony), by Miss Joan Henderson, vocalist, of the Elkhorn Ranch, Windermere, and a Lions' Barber Shop quartette which made its first public appearance.

Lion's Club official flags and pennants of purple and gold decked the community hall for the excellent turkey dinner. Places were set for 150 guests.

President McArthur said the local Lions' Club has undertaken to sponsor the Christmas T.B. Seal campaign in an extended area that includes the Windermere District and the Columbia Valley North to Donald and South to Ta-Ta Creek.

FERNIE GETS IRON LUNG AS SAFETY MEASURE

FERNIE — An iron lung was brought to Fernie Thursday as a precautionary measure in the fight against poliomyelitis. Two patients are being treated here. One case is an eleven-year-old Fernie boy and the other a Newgate teenager.

In a statement issued by Dr. W. G. Watts, district Medical Health Officer, said, "These cases are being thoroughly investigated by the public health nurse and your medical health officer. We are working close with your local doctors, school board and city council so that when action is considered necessary, it will be taken quickly."

"Thank You Boys For Thanking Us"

NEW DENVER, — "Thank you 'Boys' it was wonderful" said New Denver and Silverton residents after a gala night of fun and dancing — all sponsored and organized by "The Mammoth Boys."

The "Boys" are a group of German, Polish and Dutch immigrants employed at Western Exploration's Mammoth Mine and the dance was an expression of appreciation to the citizens for the kindness and help they have given the immigrants.

The "Boys" looked after everything. The hall was beautifully decorated, the lunch delicious and the music grand.

Distinguished British Actor To Judge Dominion Drama Festivals

OTTAWA, Oct. 19 (CP) — John Allen, distinguished United Kingdom actor, stage manager and playwright, will adjudicate Canada's 13 regional drama festivals to be held next Winter.

This was announced today by Richard MacDonald, Dominion Drama Festival Executive Secretary-Treasurer.

The 40-year-old London stage veteran, who began his career at the famous Old Vic, will open the strenuous, 10-week adjudication tour in Ottawa Jan. 12, then swing east to Quebec and the Maritimes, west to the Prairies and Pacific coast and finally end the tour at St. John's, Nfld., March 26.

Currently with the BBC, Mr. Allen has gained international theatre experience through the United Nations Educational, Scientific and Cultural Organization. However, this will be his first visit to Canada and his first opportunity to study the stature of Canada's amateur theatre movement.

His only break with the theatre was during the Second World War when, for five years, he served as engineer lieutenant with the Royal Navy.

His particular interest is in young actors. Son of a one-time British drama critic for the Christian Science Monitor newspaper, he has acted and managed in scores of British theatre companies and even organized a company of his own for stage fledglings.

Two years ago he reported on children's theatres to the UNESCO Theatre Conference in Oslo and currently is chairman of the International Theatre Institute Conference on Youth and the theatre taking place in UNESCO House, Paris.

His frequent trips to Paris have given him a working knowledge of the French language.

Mr. Allen has written a number of plays and books on drama. A volume of his plays is to be published this fall.

LOCATION DATES

Dates and probable locations of the 13 regional drama competitions:

Eastern Ontario, Ottawa, Jan. 12-17; Western Quebec, Montreal, Jan. 19-24; Eastern Quebec, Quebec City, Jan. 26-28; Prince Edward Island, Charlottetown, Jan. 30-31; Nova Scotia, Feb. 2-4; place not decided; New Brunswick, Feb. 6-7; place not decided; Manitoba, Winnipeg, Feb. 12-14; Saskatchewan, Regina, Feb. 16-18; Alberta, Lethbridge, Feb. 20-21; British Columbia, Vancouver, Feb. 23-25; Western Ontario, Sarnia, March 9-14; Central Ontario, Toronto, March 16-21; Newfoundland, St. John's, March 26-28.

Movie Gossip

Hollywood Actors Show Up as More Than Politically Minded

By BOB THOMAS

HOLLYWOOD, Oct. 19 (AP) — Actors are getting into the political arena again.

During the Franklin D. Roosevelt years, the acting breed was vocal in support of candidates and issues.

Now Hollywood names are again beating the drums for the campaigners. Stars such as Irene Dunne, George Murphy, Rosalind Russell and Dick Powell are booming for Eisenhower. The Stevenson bandwagon has drawn such adherents as Ethel Barrymore, Robert Ryan, Ava Gardner and the Humphrey Bogarts.

Although actors have been active campaigners, they have seldom run for office, with a few exceptions.

Two years ago, Congress had two former acting figures. One was Helen Gahagan Douglas, Democratic representative from California. The wife of actor Melvyn Douglas, She was a stage and operetta star and appeared in one movie, "She". Mrs. Douglas was defeated in the Senate race by Richard Nixon, now Republican vice-presidential candidate.

The other was John Lodge (Rep. Conn.), now the Governor of his state and a leader in the fight to nominate Eisenhower. He played in many films of the early 30s, including "The Scarlet Empress" with Marlene Dietrich and "The Little Colonel" with Shirley Temple.

Albert Dekker served a term in the California Legislature, but said he gave up politics because he couldn't afford it. His pay as a representative was $1200 a year, about what he could earn in a week in the movies.

Another politico performer is Jimmy Davis, former Governor of Louisiana who has appeared in cowboy pictures.

Vancouver Suffers Heaviest Fog

VANCOUVER, Oct. 19 (CP) — Thousands of workers were late for their jobs Saturday as the heaviest fog of the season rolled over greater Vancouver.

Motor traffic was slowed to a crawl and many air line flights were cancelled. Trans-Canada Airlines landed its planes at Abbotsford and carried passengers to and from Vancouver by bus.

BACKACHE May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now. 5

Opinions Differ Upon Mario Lanza's Future

By JAMES BACON

HOLLYWOOD, Oct. 19 (AP)—Is Mario Lanza through in the movies?

Yes, a check of top industry disclosed today. The movie-makers, almost to a man, believe the booming tenor sang past the finish in his row with MGM over the ill-fated "Student Prince".

Lanza failed to show up for the picture although other members of the cast including co-stars Ann Blythe and Edmund Gwenn hung around for a week until the production was cancelled.

The movie moguls hold that an artist can be temperamental before a picture starts production. In fact, then it often makes good publicity. But when temperament sets in after production, that costs money. It cost MGM $700,000, the studio claims, and in this day of rising television and declining movie box office, that's a sin not easily absolved.

Lanza's agent, Music Corporation of America, and even some of his recently-fired business associates believe otherwise. They look for the whole thing to blow over and for Lanza to come back lustier than ever.

Lanza himself is mum to charges that he is super-eccentric in a town where eccentricity is the norm of behavior; that he is a fellow kicking $1,000,000 a year in the face; that he desperately is trying to ruin his career.

Lanza is not only on suspension from MGM but also the defendant in a studio suit for $5,195,888 damages. That represents MGM's claim of loss from the shelving of the picture, plus $4,500,000 in anticipated profits. The latter figure is a Conservative one. Lanza's "The Great Caruso," grossed $19,000,000 it's first year and some countries have not been heard from yet.

Newly Arrived Chinese Fears Reds, Suicides

ROCKY MOUNTAIN HOUSE, Alta., Oct. 19 (CP)—Police reported that a 21-year-old Chinese who came to Canada only five months ago took his own life here Friday. Friends said Gin Kwong Ken feared Communists would get him.

Sam Mah, owner of the restaurant at which the lad was working, said Ken became despondent after receiving a letter from his parents in China in which they urged him to return home because the Communists were forcing them to get him back.

Mr. Mah said his employee broke down and freely told those at the restaurant of his troubles. "The Communists have my father and my mother and they will get me," Ken was quoted as saying.

Local Chinese said that Communist threats against Chinese are quite frequent in Canada. But they did not wish to talk too much because they have too many relatives in China and fear reprisals.

Police said Ken died in hospital five hours after he had cut his throat with a butcher knife in his room.

Human blood has its greatest sugar content in the Winter.

Mayhew Loses Out On Pension Plan

OTTAWA, Oct. 9 CP) — Hon. Robert Mayhew, Canada's new Ambassador to Japan, will cease to be a member of the Commons five days before an act providing pensions for members comes into effect.

The act, passed at the last session of Parliament, will come into force on the first days of the new session —Nov. 20. The former Fisheries Minister's appointment as Ambassador takes effect five days earlier.

If Mr. Mayhew, wealthy 72-year-old Victoria businessman, was still a member of the Commons Nov. 20 he would be entitled to a life pension of a $2520 a year. He already is eligible for the $40-a-month pension paid to all Canadians 70 and over regardless of means.

Mr. Mayhew was first elected to the Commons in 1937 and has served the 17 sessions required to draw a pension as a member.

Salmo W. I. Plans C.N.I.B. Tag Day

SALMO — Plans for a tag day to aid the Canadian National Institute for the Blind were finalized at a meeting of the Women's Institute here. The meeting was held at the home of Mrs. Lange.

President Mrs. James Dodds told members that a representative of the Blind Institute will visit Salmo and outline to the group the Institute's work.

Arrangements were made for a bake, candy sale and tea. The proceds will go to the Kootenay Society for Handicapped Children.

Members were informed Miss Cross, W.I. sewing instructor, will hold classes at Salmo in the Spring of 1953.

NEW GLASGOW, N.S. (CP) — Twelve "silent" policemen donated by an industrial firm are being placed on duty in school areas. The metal figures, painted red and yellow, are a warning to motorists.

DIURETIC MAY BE YOUR NEED
when you're slightly
"OFF YOUR FEED"

Listless, sluggish feelings often indicate your body needs aid in getting rid of waste matter. Millions of people find Kruschen Salts give them happy relief in such cases. There are two reasons why Kruschen does this. First, Kruschen is a gentle yet effective laxative. Second, Kruschen is a diuretic; it promotes healthy action of the kidneys. Thus, Kruschen Salts work quickly and thoroughly, to help you enjoy the pep and zest that come with complete cleanliness "inside." Try a little Kruschen in your morning beverage when needed ... see how it helps to brighten the day!

• • •

FROM PINCHER CREEK . . . Mrs. R. Y. Laidlaw of Pincher Creek, Alberta, is visiting her son-in-law and daughter, Mr. and Mrs. C. W. Ramsden, 910 Davies Street.

Engagements

Mr. and Mrs. C. H. Hodgson, 1522 Stanley Street, announce the engagement of their daughter, Elsie to John William Corbett, 415 Delbruck St, son of Mr. V. Corbett and the late Mrs. Corbett. The wedding will take place on Monday, Nov. 10, at Trinity United Church at 7:30 p.m.

Okanagan Vows Of Interest In Kimberley

Of interest in Kimberley is the wedding of Mavis Cavell Wardle of Penticton and Edward Ainslie Strather of Kimberley. The wedding was solemnized by Reverend R. G. Eagles at the Anglican church in Penticton.

The bride, given in marriage by her father, is the daughter of Mr. and Mrs. A. S. Wardle of Penticton and the groom the son of Mr. and Mrs. I. G. Strather of Kimberley.

The bride wore a gown of pink and grey shot taffeta, pink accessories and carried a bouquet of colonial and pink rosebuds. Mrs. A. C. Nicholls, attendant to the bride was gowned in green velvet and carried a bouquet of pink carnations.

Mr. Arthur J. Strather, brother of the groom was best man.

The home of the bride's parents, where the reception was held, was decked in chrysanthemums and Autumn flowers. The couple will reside in Kimberley where the groom is on the high school staff.

LISTER W.I. PLANS TEA

LISTER — Plans are well under way for a tea and sale of goods sponsored by the Women's Institute here. At a meeting of the group, $25 was voted toward wiring of the Deer Lodge Hall. Four books were donated by the Institute to four pupils of the elementary school making the most progress.

Dress Up With Marian Martin

9044
14½—24½

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to MARIAN MARTIN, care of Nelson Daily News, Pattern Dept., Nelson.

FANCY FEATHERS AND PLUMES are a favorite millinery touch this season with top designers. Coyly curled ospreys, caught by a twinkling silver shoe buckle, highlight the rich black felt hat at left. A sweeping pheasant feather adds a chic look to the nubby wool beret, right.

W. M. S. Asks Liquor Be Made Less Attractive to Youths

The United Women's Missionary Society of Nelson will ask that youth be safeguarded against liquor when the B.C. Liquor Commission meets here in the near future.

The Commission has been set up by the B. C. government to study liquor sales including sale of liquor by the glass. It is holding public meetings at central points throughout the province where briefs and suggestions by citizens and organizations will be accepted and studied.

Following a request by the Liquor Control Commission that local organizations present suggestions on liquor control, W.M.S. members at their meeting Tuesday formed a committee to prepare a brief to present to the board when it meets here.

One suggestion the committee, which consists of President Mrs. M. T. Harris, Mrs. R. L. Dempsey, Mrs. J. A. Wilson and Mrs. C. M. Coventry, will make, is that liquor be made less attractive to juveniles and less accessible.

"More liquor is being consumed today than evet before, B. C. Temperance League statistics show," Mrs. Harris president of the Women's Missionary Society, pointed out.

Program topic of the meeting was a recent book by Dr. Gallagher "Along African Trails," which will be used at study group during the year. Five members explained something of interest in or about Africa.

Mrs. J. French spoke on the Holy Family's journey into Africa, Mrs. H. J. McLean on "Products of Africa which we use in everyday living," Mrs. R. A. Custer traced on a map Dr. Gallagher's journey through West Africa, Mrs. R. J. Patterson told of the life and work of the great explorer, David Livingstone, and Mrs. C. E. Jorgenson, described "Africa, the Land of Tomorrow."

Mrs. Harris conducted the devotional program, taking as her theme "The Grace of God." She also read a poem, "The Master Painter" by J. Walton Garner and an editorial from the Daily News entitled "Feed Them" which said in part: "Three quarters of the people of the world are cold, hungry, illiterate and discouraged. If the Western Nations will not take it upon themselves to feed, clothe, educate and encourage these unfortunates we have only ourselves to blame when Democracy fails and disaster overtakes us."

Tea was served by Mrs. Robert Smillie and Mrs. H. J. McLean.

Tea Proceeds Aid C.A.R.S. Work Here

AINSWORTH, — A well attended tea held in the Community hall here, netted $40. The proceeds will be donated to the Canadian Arthritis and Rheumatism Society.

Guest speaker, Miss Jean Comfort, physiotherapist gave a brief outline of the work done by the society in bringing relief to arthritis and rheumatism sufferers.

PHONE 144 FOR CLASSIFIED

Says English Rose Could Be Improved

LONDON (CP) — It seems that even the traditional "Old English Rose" is not all it might be.

"This is one field in which amateur gardeners could really help the professionals," said botanist Ann P. Wylie at the International Horticultural conference here.

Miss Wylie told the story of Empress Josephine, who, when husband Napoleon went to the wars, sent French rose seeds to many parts of the world to try to achieve by cross-breeding, a lavender-blue rose.

Empress Josephine was disappointed, but today lavender-blue roses are growing in several parts of the world from descendants of those seeds. Miss Wylie is advocating some such pioneernig spirit among today's amateur gardners.

Kate Aitken to Be Hobby Show Director

TORONTO, Oct. 19 (CP)—Kate Aitken, well-known broadcaster, journalist and lecturer, has been appointed director of women's activities for the newly-formed Canadian International Hobby and Homecraft show, it has been announced.

First of the annual shows will be held in Toronto next year Feb. 6-14 and will include work by Canadian handicraft workers and displays from Britain, France, Germany, Belgium and other European countries.

Peterson, Swyshuk Vows Said

A double ring ceremony was solemnized in St. Paul's United Church when A. L. Peterson wed Dorothy Phyllis Swyshuk, daughter of Mr. and Mrs. W. Swyshuk of Flin Flon.

Rev. F. Payne officiated.

The bride, given in marriage by Duncan Darough, was gowned in a white wool afternoon dress, black velvet hat and matching accessories. She wore a corsage of mauve orchids and a double strand of pearls and earrings, a gift of the groom.

Matron of honor, Mrs. K. H. Wickens, wore a green and gold afternoon dress with green accessories. Her corsage was of red rosebuds.

The groom, son of Mr. and Mrs. J. Peterson of Medicine Hat and an R.C.M.P. officer, was attended by R. L. Lockwood.

At a reception held at the home of Mr. and Mrs. K. H. Wickens of 611 Hall Street, Sergeant W. H. Davidson toasted the bride, the groom responding.

Telegrams of congratulations were received by the couple from New Westminster, Flin Flon and Winnipeg.

Mr. and Mrs. Peterson will reside in Mission to where the groom has been transferred.

Big Bag for Duke

RAMBOUILLET, France, Oct. 19 (Reuters)—The Duke of Edinburgh finished second to Prince Bernhard of The Netherlands when bags were counted in President Vincent Auriol's "presidential shoot".

The Prince was credited with 132 of the total 655' pheasants, wild duck and rabbits killed by the 18 "upper-crust" marksmen. The Duke had 103.

Auriol, the host, came fourth with 61 kills.

Other guns included Gen. Matthew Ridgway, Allied Supreme Commander, Admiral Robert Carney, Commander-in-Chief Southern Europe and U. S. Ambassador James Dunn.

By tribal law of the Navajo Indians, a woman is never allowed to speak to her son-in-law or he to her.

and Mrs. C. Culleton.

Wives in Occupied Europe Keep Bags Packed Says Canadian Woman

EDMONTON (CP) — A former Edmonton girl back for a visit after living in occupied Europe with her American soldier husband, says that wives in occupied Europe keep bags packed with clothing and food all the time, ready for the alert to leave.

Mrs. E. A. Cherry, formerly Grace LaRose, said she could hardly adapt herself to the tension and suspicion.

"You get used to it, but underneath is a constant subconscious anxiety, she said.

Her husband, a warrant officer, was stationed at the U. S. military base in Tullin, 25 miles from Vienna.

ENOUGH FOOD

Food was in plentiful supply from the United States Army Commissary and she bought clothing from a catalogue or went shopping in Vienna. The latter was an experience.

"The clothes are made with huge seams, either to be let out or taken in," she said. A fitter made the adjustments in the shop for you."

Woollens were good but cottons and other materials were neither shrink-proof or dye-fast.

Mrs. Cherry said shoes bought in Austria are expensive, ill-fitting, clumsy and heavy to wear.

"And they squeak," she added.

In the city the girls dressed in gay colors, but in the country they clung to the traditional dress, peasant blouses and dirndl skirts.

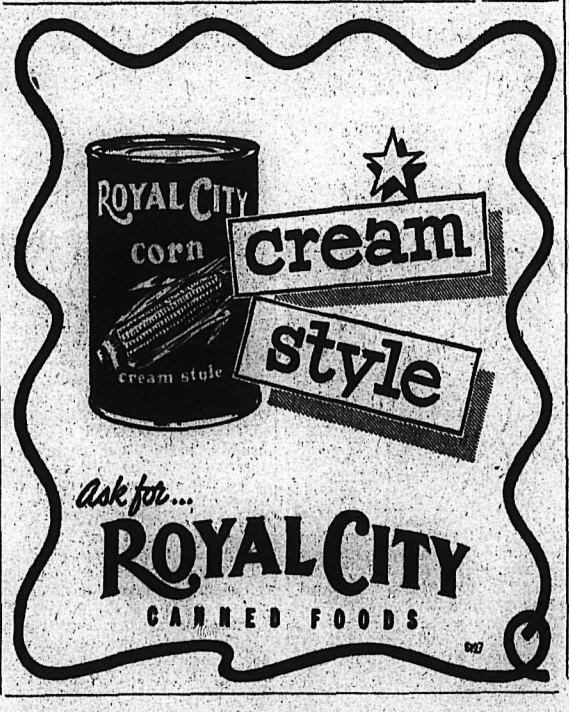
LANGUAGE A BARRIER

Language is a barrier to understanding as well as to speech, Mrs. Cherry commented. But in both the U. S. and British-occupied zones of Austria, a half hour's English now is taught daily.

Mrs. Cherry said she was able to manage the language sufficiently well to buy fruits and vegetables on the market.

The Cherrys had an attractive apartment. The U. S. Army rented houses and apartments from the Austrian government which paid the owners.

After their leave is completed, Mr. and Mrs. Cherry will go to Oklahoma where her husband will be stationed.



"Extra-rich Edwards costs no more...but what a difference!"

No finer coffee packed, yet Edwards costs no more than well-known quality coffees sold in paper bags!

Why accept a particle less enjoyment than you get with Edwards? Edwards is extra-rich—your first pound will prove it. Costs no more than other coffees sold in paper bags—compare the prices yourself! Edwards is roasted only to *order*, in small, rich batches... then rushed direct to Safeway. That's why it's rich, that's why it's fresh. That's why you don't need to accept anything less!

Start of Pro Rec —A Challenge

The return of Pro Rec will have a big welcome from all that host of people in Nelson interested in activities that are for the welfare of youth, in recreation and better health promotion. It is to be hoped the turnout at classes starting this week will justify the efforts of those who have striven for the renewal of the program here, and those who are giving their time as instructors and in organization.

To many the idea of Pro Rec simply means another form of athletic activity. They are right, but only to an extent. The advent of Pro Rec here can mean the start of a proper youth and adult recreation program to fill all the gaps that exist for such here. It can mean that eventually, and probably in the not-too-far-distant future Nelson can have a full-time youth work and recreational supervisor, the need for which has been recognized by church groups, Parent-Teacher Associations and civic authorities.

Pro Rec, a part of the national physical fitness program, has as its objective the physical, moral and mental development of youth and the provision of healthful and interesting recreation and hobby time for adults. In Nelson it will probably start with physical training, volleyball, basketball and sports instruction; it can develop to fulfill all its other objectives in accordance with the support and attention it receives from those who are really interested in youth and a better recreational and health program.

Challenge of New Conditions

The dairy industry has a right to whatever market it can hold under fair competition.

But fairness means being fair to all parties. It would be decidedly unfair for the Government to do anything that would increase the price of the raw materials out of which margarine is made in order to increase the price of that product to the people who can't afford butter.

This is a constantly changing world. The secret of survival in such a world is the ability to adapt ourselves to new conditions as they arise. To stand still and cry out against the changes is a sure way to extinction.

The future of any industry depends on how it meets the challenge of new conditions.

A Trust

"Democracy, to be real and efficient, must find means of raising to positions of power only the most trustworthy of its citizens."—John Galsworthy.

Your Horoscope

Mannerisms of a close friend or relative can be annoying if you let them upset you; so don't. The stellar portents are propitious, promising good fortune. Many fine traits and accomplishments may be looked for in the child born under these auspices.

"Beauty Is in the Eye Of the Beholder"

With the above premise we admit that Toronto, a la Pierre Berton, is beautiful; that Vancouver, a la Jack Scott, is more beautiful; then we submit that the Kootenays are most beautiful!

The grandeur of the Selkirks and the Purcell Ranges has been approximated, but never surpassed. Such cathedral-like peaks, such variety of contour, such gorgeous foliage on the lower levels, such plethora of timber species up to the perpetual snow-line where glaciers feed the waterways which in turn keep the wheels of industry moving. No need to confine the paean of praise to a man-made city. The glory of high mountains, deep valleys where shade is non-ending, lakes whose depths have never been sounded are daily lifting their beauty in adoration to the Creator of all. And yet—we have a word too for the beauty of our Interior cities, all so different and yet all the same. New Denver, that has been favorably compared to the Swiss mountain towns by international travellers; Kaslo, the envy of American tourists for its sense of peace amid unexcelled mountain and lake scenic splendor; Nelson, that Queen City, set on a hill that cannot be hid, boasts its mountains, lakes and streams that draw the world to its doors; Trail and Rossland, those twin cities, that make the breath to come faster in admiration for what has been done for adorning their cities in tree and shrub to cover the mountains that would too excel in scenic grandeur if not sacrificed for the good of all mankind by the ceaseless energy of its industry.

On the street bus two passengers inadvertently made me an eavesdropper. "Oh!" said one, "I really think that Beston is right. Toronto is more beautiful than Vancouver—the fog, you know." The other replied with a laugh: "He did not have much of a mountain to boast about, as we call mountains." Then apparently they compromised on: "Oh, well, anyway, either one, Toronto or Vancouver, so long as no one suggests living on the prairie!"

"What! No William Cullen Bryant?" thought I. And back out of the dim past came his lines, "These are the gardens of the desert, these the unshorn field boundless and beautiful, for which the speech of England has no name. The prairies. I beheld them for the first time and the dilated sight took in the encircling vastness.."

A newcomer to British Columbia does at first not see beauty, for that nostalgic longing for space prevents the admission for present grandeur of mountain and lake. He seems to understand the alleged saying of Robert Burns on his first visit to Ireland, "If God sent me here it was in His wrath." But Time, the Healer, takes away that homesick film from the eyes, and he adopts the mountains and lakes in all their beauty as his own.

And yet, the prairie-born knows in his own heart that God in a quieter moment in His works of Creation gave to them that breadth of landscape, wealth of trees, flower and shrub, with myriad of birds, treasures of heat and treasures of cold, to the just and the unjust an equal share in the glory of the rising sun and the mystic splendor of its departing rays. Then, as if for good measure pressed down and running over, He showered over all His handiwork that intangible something in the air that brings the wanderer from the ends of the earth home again when the leaves are changing their dress of green for Autumn carmine and gold, to change again while we sleep to sparkling diamond white.

Yes, beauty is in the eye of the beholder!

—MARGARET GRANT.

Looking Backward

10 YEARS AGO

From the Nelson Daily News Oct. 20, 1942

Nelson fire loss in September was $2000, all in the Walton boathouse fire, Fire Chief G. A. McDonald reported to City Council Monday.

Home nursing classes under the St. John Ambulance Association will begin here Friday. The course will be under Mrs. T. H. Glover and Miss Edna Wilson, Kootenay Lake General Hospital assistant superintendent.

25 YEARS AGO

From the Nelson Daily News Oct. 20, 1927

From 20 years ago — A post office was established at the Blue Bell mine and has been named Riondel, after one of the principal owners of the famous mine, to avoid confusion with another post office of the name Blue Bell in B.C.

50 YEARS AGO

From the Nelson Daily News Oct 20, 1902

J. M. Harris of the Reno Mine was in Nelson yesterday on his way back to Sandon from Spokane. There are 20 men working at the mine and shipments are being made each week to the Nelson smelter.

Frank Gibbs, manager of Brackman and Ker, returned to Nelson Saturday from a month's visit to California and the coast.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

D.M., Nelson — How can I clean a copper-bottomed pot in which a vegetable has burned to charcoal?

Immerse pot in heavy brine and leave 24 hours, then scrub with steel wool and all the burnt parts should clean right off.

L.J., Kimberley — Will you please give me a few words of information regarding the 1951 five-cent pieces. Is there a premium paid on those which bear the dates 1751-1951?

We do not know of any particular value attached to these coins.

H.E.M., Kaslo — Christmas Day is observed by most companies and firms as a holiday with pay. Are there other holidays with similar privileges? Are they compulsory?

It would depend upon nature of contract between employer and employee, whether employee worked irregularly and was paid on an hourly basis, or whether he was on the regular payroll.

Reader, Nelson — How many Canadian provinces have populations of over a million?

Three — Ontario, Quebec, and British Columbia.

Press Comment

This a topsy-turvy country. The man who wears the white collar is the slave.—Moose Jaw Times-Herald.

LABOR DISPUTES

Thousands of Canadians, who can see both sides of a dispute of labor and management, still entertain the hope that some better technique will supersede the strike. That way is along the line of judicial procedure. The courts are the only possible keystone of industrial peace. Courts adjudicate in matters involving life and death and freedom. There is no reason why they could not be trusted to give justice to both labor and management.—Vancouver Sun.

Verse

Kootenay Lake

Through Sirdar and Boswell and Crawford Bay
We followed the winding lakeside way,
Soared up a hill; wild ducks flew wide
And high, high above the azure tide,
Lost at last in a world of blue
Lake, woods and mountains all one hue.

By Sirdar and Boswell and Crawford Bay
Along the winding lakeside way,
Beauty, peace, lay hands on your heart,
Serene hosts, making you ever a part
Of this vale where time pauses; only is heard
Soft lapping of water, the cry of a bird.

Through Sirdar and Boswell and Crawford Bay
We followed the winding lakeside way,
Admired a glass mansion set in dark pines
Sheer on a cliff edge, haunt of lake winds;
Waved to a sail on an azure bay,
Saw a king pheasant strut as we went our way.

—MARY THORNE.

Cobalt 60 a Help In Cancer Treatment

Cobalt 60, "the poor man's radium", may be our biggest and most beneficent dividend from the atom bomb. It is now recognized as a cheap and plentiful substitute for high-priced radium, says the Reader's Digest, and it holds great promise in the treatment of cancer.

Like radium, Cobalt 60 emits powerful cancer-destroying gamma rays, but with a greater uniformity. Doctors are now using radiocobalt needles inside malignant tumors, particularly those that cannot be removed surgically. Thin tubes of flexible nylon, loaded with bits of Cobalt 60, are being sewn into cancerous tissues, to be withdrawn when the radiation treatment is complete.

Any hospital qualified to employ radiotherapy can afford Cobalt 60. It is safer than radium for the patient, the Digest article says, and easier for the doctor to handle. "Its versatility" says one radiologist, "opens up entirely new possibilities for the internal irradiation of cancer."

Today's Bible Thought

Talk is cheap, but deeds are precious. We should strive to live in harmony with the words of the Master and the purpose of God.

If a man love me, he will keep my words.—John 14:23.

Aunt Het

It ain't proof of love when your husband notices your new dress. What I like is bein' told I look wonderful when I've got on some old house dress.

Average annual rainfall in the mountains of Connemara in Ireland is more than 100 inches.

The American Voters Speak...

SAMUEL LUBELL, author and political analyst, gets United States election campaign dope from the people.

A tireless doorbell ringer, Mr. Lubell goes directly to the voters to find out what they're thinking politically, and why they feel the way they do.

Then he charts their voting behavior—by state, county, ward and precinct. He's been doing it for years—in the big cities, in the villages and hamlets, and in the farmlands.

His appraisal of the voting prospects in this year's important national election is based on those unmatched records and on what he's learning in the front-porch talks he's now having.

By SAMUEL LUBELL

General Dwight D. Eisenhower is losing some of his earlier gains in labor areas but still is running ahead of Thomas E. Dewey's 1948 showing among the nation's workers.

In four cities that I have visited recently—New York, Philadelphia, Pittsburgh and Youngstown, O.,—some workers told me they had intended to vote for Eisenhower but have changed their minds. The reasons they gave were what some describe as "the deal Eisenhower made with Taft" and the feeling that "maybe, after all, we'd better not take a chance on upsetting the prosperity we have."

Take one family of three voters in a steelworkers' precinct in Youngstown which I first visited the week after Eisenhower was nominated and revisited only a few days ago. All had voted for Truman in 1948. All were strong for Eisenhower during the Summer. Currently though, only the man of the house, a construction engineer, still intends to vote Republican on Nov. 4.

His wife explained what had happened:

"I thought Eisenhower was too big a man to let himself be used. He made a great name for himself and I felt he could afford to let nothing stand in the way of being a great president. I turned when he let Taft tell him what to do."

"My daughter doesn't know which way to vote," the woman went on. "The other night she was saying she still admires Eisenhower but she doesn't trust that Taft bunch."

In this same precinct however, of 23 Truman voters whom I interviewed five were swinging to Eisenhower. That was much the pattern I found in other cities—Gov. Adlai E. Stevenson is winning back some of the labor vote that was drifting toward Eisenhower earlier this Summer. But, even so, Eisenhower still is left with an appreciable number of converts from the Democratic ranks.

In one Pittsburgh labor area every sixth Truman voter I talked with was switching Republican; in two New York City labor precincts one of every five Democrats was swinging.

Although these are impressive gains, it would be a mistake to interpret them as evidence that the Democratic party's hold on the labor masses has been broken in any fundamental way.

In literally scores of instances people have explained their intention to vote for Stevenson in a single crisp sentence—"The Republicans are for the rich man" or "I'll be a Democrat as long as I punch a time clock."

Some workers actually refer to the Democrats as "the labor party". Even among carpenters and mechanics in small rural towns in the South, where trade unions do not exist, one finds this feeling of "the Democrats are the party of the worker."

In fact, one of the more striking paradoxes of the entire election campaign is the unswerving Democratic devotion expressed by so many workers, while, in the very same precincts other workers are shifting to Eisenhower. My own explanation for this apparent contradiction is that the cleavage between "the common man" and the well-to-do which Franklin Roosevelt drew so sharply, remains as firmly etched as ever in the minds and emotions of the voters. Temporarily, however, for some voters, this consciousness of class interest is being suppressed beneath more provoking issues—the Korean war, the draft, inflation communism and, in a few instances, corruption.

Perhaps the political picture on the labor front can be summed up best in football parlance. Gen. Eisenhower is not breaking through for a spectacular political touchdown, but he is netting three and four-yard gains all along the labor line in city after city.

Pearson Sought Quick Action on Racial Vote

By NORMAN ALTSTEDTER

UNITED NATIONS, N.Y., Oct. 19 (CP)—South Africa will probably walk out of the United Nations Assembly as a result of the Assembly's decision to discuss the racial conflict in South Africa, say informed sources.

South African delegate G. P. Jooste is expected to receive instructions from Prime Minister Daniel Malan and will make his position known when the question comes before the Assembly's Political Committee next week.

In a procedural wrangle before the final vote on the South African question, a ruling by Assembly President L. B. Pearson, Canada's External Affairs Minister, was overturned by the Assembly which voted 43 to 10 against Pearson's decision, with seven countries abstaining. It was the first such reversal of a presidential ruling on a major issue in U.N. history.

QUICK ACTION ASKED

Informed sources said today that Pearson had been advised by U.N. legal exeprts that he had a perfect right to put the question to the Assembly in the manner which he did. He also had advice from Canadian advisers that he would be on shaky ground in such a move.

But Pearson, these sources said, decided to go ahead and put it to the Assembly—telling delegates it was up to them to decide whether it was a good or bad ruling—in the interests of getting quick action on the matter.

Are Their Faces Red?

TORONTO, Oct. 19 (CP) — A weary Toronto City Council, fervently wishing it had a few graduates in forestry among its members, still hasn't disposed of the problem of the maple trees on University Avenue.

The trees—127 of them — were ordered some months ago to provide Autumn coloring on the boulevard in the centre of the wide avenue that runs south from Queen's Park into the city's down town district.

Depsite protests from some Council members, it was decided to order a species of acer rubrum (red maple) from The Netherlands because the experts explained that it provided brighter shades of red, gold and yellow than native Canadian varieties.

Came October, and University Avenue's maple unanimously turned a dirty shade of yellowish brown.

HARD TO TAKE

An outraged Council asked Prof. R. C. Hosie of the University of Toronto's faculty of forestry to examine the offending trees.

The professor looked them over and pronounced them acer platahoides, or Norway maple, which can be grown in Ontario. Nurseries quote them at about half the price of red maples.

Alderman Roy Belyea promptly cast himself in the role of the Council's hatchet-man. He insisted that the trees be removed at the contractor's expense and replaced by red maples. The alderman insisted that a perfectly satisfactory variety of acer rubrum could be supplied by Ontario farmers.

DEATHS

By The Canadian Press

Chicago — David A. Smart, 60, president and chairman of the board of Esquire, Inc., publishers of Esquire and Coronet magazines.

Toronto—Dewey D. Bloom, 53, director of publicity and public relations for Metro-Goldwyn-Mayer Pictures of Canada, Ltd.

Zurich, Switzerland—Bishop J. W. Ernst Sommer, 71, head of the Methodist Church of Germany.

Tokyo—Admiral Keisuke Okada, 84, Prime Minister of Japan from 1934 to 1936.

Montreal — John Lonsdale Gilmour, 61, president and chairman of the board of Johnson and Johnson Surgical Supplies.

KARACHI (CP) — East Pakistan's first big cigaret factory will go into production next year at Chittagong. The factory will be capable of producing 50,000,000 cigarets a month at the start.

Doctor Discovers Blood Pressure Drops When Patient on Left Side

By ALTON L. BLAKESLEE

NEW YORK, Oct. 19 (AP)—Dr. Paul Stein of New York has found that blood pressure dropped in 63 per cent of 100 persons when they turned onto their left sides, compared with lying on their backs or on their right sides or sitting up.

The drop occurred in both healthy people and those with heart ailments. The drop was greater on the average in persons who usually had above-normal pressure.

VARIED RESULTS

The drop varies individually.

It doesn't bother some people at all. They can lie or sleep on their left sides as comfortably as on the right.

But others get breathing trouble, tightness, a feeling of pressure or angina heart pains. The distress is most pronounced in people with certain lung ailments, lack of normal blood supply to the heart, high blood pressure and abnormal position of the heart.

STOPS OPERATIONS

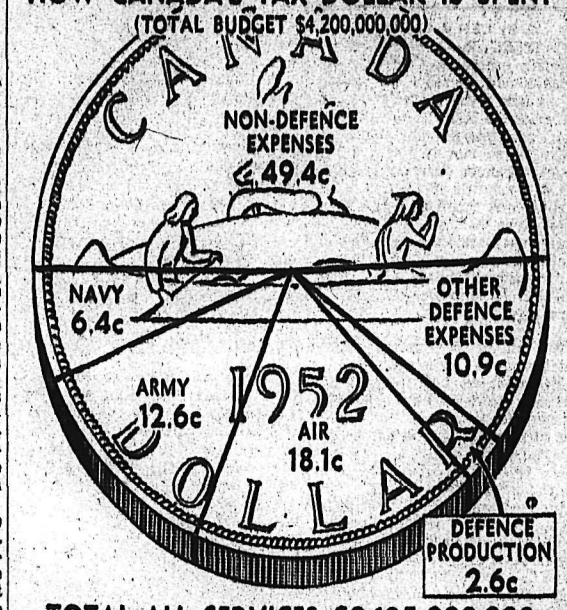
The fall in blood pressure has been noted before in people laid on their left side for chest surgery. Somtimes their blood pressure falls so low it can't be detected and operations have had to be stopped.

A fall in blood pressure rarely seems to come from lying on the right side, Stein says. The drop on the left position is apparently due to a combination of factors, he says.

A shifting of the heart itself, certain kinds of obstructions in veins and in the heart, enlargement of the heart and nervous reflexes all may play a part in bringing about the fall in pressure.

HOW CANADA'S TAX DOLLAR IS SPENT

(TOTAL BUDGET $4,200,000,000)



TOTAL ALL SERVICES $2,125,000,000

(NAVY $269,000,000; ARMY $532,000,000; AIR $760,000,000; DEFENCE PRODUCTION $108,000,000; OTHER DEFENCE EXPENSES $460,000,000)

TAX DOLLAR . . . More than half of Canada's tax dollar is being spent on national defence. Of the total budget of $4,200,000,000, 50.6 per cent, or $2,125,000,000 is divided among the navy (6.4); army (12.6); air force (18.1); defence production (2.6); and other defence expenses.—CP photo.

Business Spotlight . . .

Vancouver Taxi Business Marks Up Steady Rise in Twenty Years

VANCOUVER, Oct. 19 (CP) — Taxis in this city of 340,000 ran up 3,500,000 on their meters last year. The take is expected to be bigger this year.

Twenty years ago, Norm McLeod, now manager of the city's largest tax firm, drove his first hack here.

"It was a 12-hour night shift that grossed 60 cents and netted me 20 cents," McLeod recalled recently.

He now runs an 85-car fleet which last year carried 1,135,880 passengers, ran 4,080,000 miles and reported a payroll of $463,832.

The cab business, says McLeod, is costly and its expansion is restricted by traffic congestion.

In 1950, his company paid out $136,000 for gasoline, $30,000 for insurance, $12,000 for stand rental, $10,000 for telephones and $6800 for licences.

EX-CABS UNPOPULAR

"We run the cars up to 16 months. Then we get only $1200 for the trade-in. That is $100-a-month depreciation. The reason is, the public won't buy ex-cabs, although no car is kept in as good condition as a cab. It has to be. It doesn't make money in the garage."

Another problem is traffic.

"In the old days," McLeod says, "from the pier to Hotel Vancouver was an easy three-minute trip. Today you often have to wait four minutes to get started. We have got to the point where our daytime business is at its absolute peak."

"Should you tip?" McLeod was asked.

"Tipping," he replied cagily, "is an established custom—if you get the service."

Wo!! No Beer!

SHEFFIELD, Eng., Oct. 19 (AP)—Sheffield college students sadly bowed to public opinion today, substituted lemonade for beer in their annual foot race, and drinking marathon.

John Watkinson, President of the Students' Union, said "the marathon will be held on Nov. 1 as planned, but in deference to public opinion a limited quantity of lemonade will be consumed during the race instead of beer."

Originally, the students were to drink beer at eight taverns during the one-mile race. Outraged oldsters complained that some of the students might get sick.

Around the KOOTENAY in Sport

By LEN WALKER

CASTLEGAR — Badminton was officially ushered in Friday evening when 30-odd members participated in the first organized games of the season at the High School gym.

After looking the club over it appears to me that this will be, no doubt, a banner year for the players of the shuttle sport. There were about 10 new members on hand and a few who had not had previous experience with a racquet, were shown the hows and whyfors from two experienced players, President Bill Karoiff and Secretary Robin Pincott.

• • •

The talk of basketball is finally being voiced with the coming of colder weather. I understand that last year's coach of the senior Dominoes, Rennie Mitchell, is expecting to turn out this week to start workouts and round a team into shape to enter the Trail league in which six teams will likely be competing. Already two of last year's team, Zanier and Forte, have been out practicing and they tell me they are rarin' to get going."

• • •

If plans now underway go through, Castlegar will be cousin to Nelson in the ever-important promotion of sport for kids. I have learned that Rennie Mitchell, who no doubt must be tabbed "Mr. Sport," is at present working on a scheme that will see boys from the age of 12 to 16 attending a basketball school conducted by himself. On top of this he hopes to form a basketball little league for these boys.

If this can be accomplished, there is no reason why it cannot, then I am positive that Castlegar could produce senior teams for the future from their homebrews that would be a credit to any community. Luck and success in this venture, Mr. Sport, and I hope that when the time comes that you need help in organizing that you will call upon the citizens of this town to aid you. I am sure they will, for it's a big step towards promoting sportsmanship and the people realize only too well that the world needs just that.

• • •

Turning to the anglers' sport for a moment, here is one for you fishermen who say the big one got away. Little Tobey Grippich went fishing up at Lardeau last weekend and was rewarded after a 20-minute struggle with a Dolly Varden, weighing 16 pounds and measuring 35 inches.

Red Wings Score 6-1 Win Over Canadiens

By The Canadian Press

The heavy-firing Detroit Red Wings shot their way to the top of the National Hockey League last night, battering goalie Gerry McNeil of the Montreal Canadiens with a 6-1 defeat.

The victory ran the scoring barrage of the N.H.L. champions to 13 goals in the last two games. Tony Leswick of Detroit, hitherto scoreless, got two goals in the battle.

The defeat put Canadiens into a second-place tie with Chicago Black Hawks, the previous leaders, who dropped a 3-2 decision to Toronto Maple Leafs. In the other Sunday night game New York Rangers and Boston Bruins played to a 2-2 tie.

At Detroit, McNeil went into the game with a presentable 1.40 goal defensive average and blocked 14 shots in holding the Wings scoreless in the first period. Then Marty Pavelich, Metro Prystai and Gordie Howe slammed in second-period goals.

Leswick joined in the barrage with his two third-period goals, one on a puck-stealing solo dash that thrilled 12,287 fans. Defenceman Red Kelley also scored for the Wings.

Dick Gamble scored Montreal's only goal at 2:42 of the third period from 30 feet out. Wing goalie Terry Sawchuk stopped 15 other shots and McNeil had 38 saves.

Howe's goal at 10:49 of the second period and Leswick's solo dash were the most dramatic. Howe, leading scorer in the N.H.L. last year, skated in from the right side and barged recklessly to the goal mouth, firing his shot from five feet out as he spilled to the ice.

At 8:39 of the final period Leswick stole the puck from a defenceman while Montreal had a one-man advantage. He skated to within a few feet of the net before ramming it in.

Toronto scored two third-period goals to win over Chicago before a crowd of 12,891.

Harry Watson and rookie Ron Stewart scored the vital goals after George Gee's second score of the evening had put the Hawks into a 2-1 lead. Gee scored at 8:08 of the opening period, off a pass from Al Dewsbury, to give Chicago a margin it held until 7:35 of the second when Tim Horton scored on assists from Max Bentley and Howie Meeker.

At 7:52 of the third, Gee connected again, Bill Mosienko and Lee Fogolin getting assists. Then, at 13:07, a freak goal credited to Watson, with the assist to Rudy Migay, put the Leafs into a 2-2 tie. Al Rollins, Hawk goalie, had blocked Watson's shot with his shoulder but a sweep of his arm, as he tried to clear the puck, sent the rubber into the nets.

The Leafs won it at 15 minutes when Ted Kennedy got past the Hawk defence and passed to Stewart who drove it into a corner.

New York winger Paul Ronty fired a goal at 17:46 of the third period against his former Boston teammates to give the Rangers their tie with the Bruins.

Ronty's tying effort came on a gang-play started by Ranger defenceman Hy Buller, who was out to atone for a penalty which aided Boston's two-goal surge just a bit earlier.

Boston's two tallies came only 66 seconds apart at 15:51 and 16:57 while Buller was in the penalty box for holding Davey Creighton as he glided in alone on Ranger netminder Lorne Worsley.

Creighton scored for the Bruins Jerry Toppazzini to tie the score on assists from Leo Labine and 1-1. Veteran Woody Dumart got the second in combination with Milt Schmidt and Labine. New York's Nick Mickoski had sent his club ahead at 8:50 of the finale with the game's first goal, Gaye Stewart assisting.

By The Canadian Press

Montreal Canadiens moved at least temporarily into a first-place tie with Chicago Black Hawks in the National Hockey League Saturday by defeating Boston Bruins 2-1 before 14,527 fans.

In the other Saturday night game Toronto Maple Leafs clicked for three goals in less than two minutes of the third period to edge New York Rangers 4-3 as 13,126 fans watched at Toronto.

A standout for New York was Lorne Worsley, recalled from Saskatoon Quakers of the Western Hockey League when goalie Chuck Rayner was hurt in a pre-season game.

NELSON CIVIC CENTRE COMMISSION

SCHEDULE

October 20 - 26, 1952

ARENA

MONDAY
3.45- 5.00—Figure Skating
5.00- 6.00—Minor Hockey
6.30- 7.45—Senior Hockey

FRIDAY
4.15- 6.00—Boys' Pro Rec
6.00- 7.30—Senior Men's Basketball
7.30 —BASKETBALL GAME NOTRE DAME vs TRAIL

SATURDAY
9.00-12.00—Jr. Ladies' Basketball League
1.00- 5.00—Jr. High Badminton Club

SUNDAY
1.00- 6.00—Men's Badminton Club

Strikes and Spares

It was Bill Klochek of the Palms who was high scorer in the Mixed Commercial League. He rolled a 282, 239 and 246 for a 770 aggregate. Single honors were rolled by Walter Clarkson of Superiors who bowled 331.

For the ladies, Dot Waterer was top scorer with a 325. Also bowling in the 300's were Olie Watson, 303, and Gene Koehle, 300. Olie Watson of the Seven Up team took ladies' aggregate honors with a 712 score. Dot Waterer of Dynamos took the only other 700 ladies score. The Dynamoes also took team honors with their 1060 single and 2988 aggregate.

Fast-Starting Leafs Open With Victory

Lakesiders Solve Dynamiter Combination in 1st Chapter

Pasqualotto Starts Off 4-Goal First Period Run; McLay Starry

NELSON 6, KIMBERLEY 2

Before most of the cash customers had settled in their seats at the rink Saturday night or those that were seated had paid their respects to their neighbors, Bruno Pasqualotto was up and about his coach's business. He rapped in a goal in 27 seconds with the help of Lee Hyssop and Bill Haldane to get the Nelson Maple Leafs away to the fastest start in years as they met the Kimberley Dynamiters in the opening game of the W.I.H.L. in Nelson. Then with Yost and the Mellor boys more intent on other things than hockey the Leafs made it four to one before the end of the first period. It was that period that decided the game.

Kimberley did their best forechecking in that period, but their penalties helped wear them out and the Leafs took full advantage of it. While Hockley, Banting and Lamb, looked good for the newcomers to the Dynamiter roster, it was still the old guard of Buzz Mellor, Red Mellor, Kavanagh, McNiven, and Barre that did the puck carrying. McLay played smart in the Kimberley net and repeatedly turned back Hyssop, Lowe, Red and Fritz Koehle and Haley when they were in on him alone.

Coach Eddie Wares turned out three fairly evenly matched lines and for early season play there was some nice team work. All three lines figured in the scoring, while the last goal of the game, scored by Marshall Severyn, found assists going to Hyssop of the first line and Fritz Koehle of the third line.

The big fault of the Leafs lay in their desire to get right in on McLay before they tried to beat him. The slim goaltender was at his best in this department and turned back repeated Nelson thrusts. His blocking was one of the features of the game.

The first period was definitely the decider. Pasqualotto's goal came in the first half minute of play and when Yost and Pasqualotto went off for waving their sticks like a couple of flags, Don Haley moved in with Neil McClenaghan to give Nelson a 2-0 lead. The fat was in the fire and Red Mellor added to the heat with a high sticking penalty. Twelve seconds later Haldane counted from Lowe. Buzz Mellor scored the lone Kimberley counter at the eleven minute mark after a solo meander through the Nelson defence area when the puck seemed glued to his stick. It was a low shot and Boomer Rodzinyak, who played a brilliant game in the Nelson net, was beaten. Fritz Koehle made it 4-1 on a pass from Smith and brother Red.

PASQUALOTTO DAMAGED

The second period was an even affair, Smith scoring for Nelson and Sutherland for Kimberley. Pasqualotto was cut on the top of the head with a high stick, and went off for repairs. He came back later to finish the game.

Severyn tallied the final counter three quarters of the way through the final period.

Four penalties were handed out to Nelson by Lang and Wicken, and five to Kimberley, one of them a misconduct to Buzz Mellor. There was nothing wrong with his choice of English, it was the order in which he phrased it.

While the refereeing was good, the present time, with the National Hockey League referees taking a strict course to try to eliminate much roughing, holding and high sticking, would seem to be the right time for the referees in the League to follow suit. The cry had always been that the amateur players should be seasoned as early as possible for the roughest type of game, but that argument doesn't hold now. And our national game can stand a lot of cleaning up.

Lineups:

Kimberley—McLay; Jones, Johnston, Sutherland, Yost, Buzz Mellor, Red Mellor, Kavanagh, Bell, McNiven, Lamb, Barre, Port, Hockley, Banting.

Nelson—Rodzinyak; Gare, Severyn, Pasqualotto, Wares, Malacko, Hyssop, Haldane, Lowe, Smith, McClenaghan, Fritz Koehle, Red Koehle, Haley.

Summary:

First period—1, Nelson, Pasqualotto (Haldane, Hyssop) :27; 2, Nelson, Haley (McClenaghan 1:02; 3, Nelson, Haldane (Lowe) 6:59; 4, Kimberley, Buzz Mellor 11:18; 5, Nelson, Fritz Koehle (Smith, Red Koehle) 19:28.

Penalties—Yost and Pasqualotto, high sticking, :57; Red Mellor, high stick 6:47; Buzz Mellor, misconduct 12:49; Bell, slashing 14:46.

Second period—6, Nelson, Smith (Red Koehle) 12:40; 7, Kimberley, Sutherland (McNiven) 19:12.

Penalties — McClenaghan, trip, 5:47; Johnston, knee, 19:43.

Third period—8, Nelson, Severyn, (Hyssop, Fritz Koehle) 15:42.

Penalties—Haley, hooking, 5:16; Gare, holding puck, 17:16.

Cards Upset Giants 24-23

NEW YORK, Oct. 19 (CP) — The unheralded Chicago Cardinals pulled the upset of the day in the U.S. pro football league today by coming from behind to edge the highly-rated New York Giants 24-23.

The result is that the Cardinals now share first place with the Giants and Cleveland Browns in the six-team American conference.

San Francisco 49ers, meanwhile, remained atop the National Conference by numbling Chicago Bears 40-16 to stretch their unbeaten streak to four games. San Francisco is the only unbeaten team in either conference.

Cleveland remained up with the American Conference leaders by swamping Philadelphia Eagles 49-7.

In other games today Detroit Lions turned back Los Angeles Rams, defending champions, 24-16, Washington Red Skins edged winless Pittsburgh Steelers 28-24. Saturday night Green Bay Packers gave Dallas Texans their fourth straight setback, 24-14.

Ollie Matson, Dan Panciera, and Charley Trippi engineered the Cards' victory over the previously unbeaten Giants.

PENTICTON V's DRUB VERNON CANADIANS 7-0

PENTICTON, B.C., Oct. 19 (CP)—Penticton V's scored their second straight victory in the young Okanagan Senior Hockey League season Friday night by pulverizing Vernon Canadians 7-0. The V's edged Kamloops 5-4 in their season opener Tuesday.

Penticton led 2-0 at the end of the first period and increased their lead by one goal in the second. They rapped in four more in the final period without a reply.

Pats Slap Tigers With 5-4 Victory

MEDICINE HAT, Oct. 19 (CP) — A confusion of whistles resulted in a disputed overtime goal which gave Regina Pats a 5-4 victory over Medicine Hat Tigers Saturday in a Western Canada Junior Hockey League game before 1300 fans.

Jack Chandler scored the winning goal at 5:33 of overtime on a pass from Gordie Cowan. Bev Bell and Cowan each sniped two goals to round out Regina's total. Two regular defencemen playing forward, Bill McCulley and Johnny Paolone, scored all Tiger goals. Team Captain McCulley scored three, Paolone one.

The first Greek Orthodox church in the United States was founded in 1866 at New Orleans.

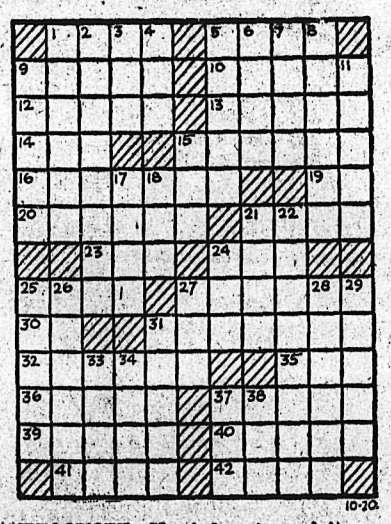
Saturday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

L LONGFELLOW
A X Y D L B A A X R

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

W S M Z P X M J N, W S M Z W T P K, X M P X F F G B J Z J Z P P—F W V D N P F F W G.

Saturday's Cryptoquote: WOMAN REDUCES US ALL TO THE COMMON DENOMINATOR—SHAW.

Farmer's Living Costs Lower, Operating Up

OTTAWA (CP) — Family living costs on Canadian farms eased during August, but peak costs for farm labor, building materials and binder twine trimmed benefits to farmers searching for ways to cut operating expenses.

With food prices down, farm living costs declined to 204.1 from 209.6 last April and 214.1 in August last year, the Bureau of Statistics reported today.

This reduced the composite index of commodities and services used by farmers—including living costs—to 222.7 during August from 229.8 in April and 228.6 in August, 1951.

STOCKHOLM, Sweden (CP) — The harvest of cereal grains in Sweden this year is expected to be 60 per cent greater than last year, when there was a crop failure. Both cereal and feed grains were expected to be 25 per cent greater than the average for the past five years.

B. C. Cartoonist Popular in U.K.

LONDON (CP)—So Prime Minister Nehru of India doesn't like comic strips? Well, he ought to try reading Flook.

That's the advice given by a columnist in the Times of India, as reported here. The columnist says the strip of which Flook is the hero involves "a dream world more real than life, more imaginative than dreams."

The tip followed Nehru's recent complaint at a press conference that he didn't like comic strips and didn't understand why newspapers paid good money for them.

Flook is drawn by Wally Fawkes, formerly of Vancouver and now living in London. The cartoon character named Flook is a rotund, panda-like creation capable of transforming itself into virtually anything at short notice. The strip mystifies some but has a large following of devoted readers.

British House-Owners Take Paint Brushes in Hand to Beat Prices

By MURIAL NARRAWAY
Canadian Press Staff Writer

LONDON (CP)—An "I-can-do-it-myself" movement is on in Britain—and retailers have found a new market.

Since the Second World War, an increasing number of British householders—stung by the high prices of professional decorators and in many cases by low standards of work—have decided to make their own repairs.

The result, a country-wide survey shows, is that 72 per cent of the population now can be classed as amateur painters, paperhangers and carpet-layers.

And as more and more house-proud men and women roll up their sleeves weekly to tackle jobs of which they have little knowledge, big firms are supplying tools suitable for the amateur touch.

SALES RESISTANCE

The survey followed complaints by 1,221,600 workers and owners of decorating and allied businesses about unexpected sales resistance. Householders, often criticized by the press for "taking" bad service without complaint, apparently were making their disapproval felt in at least one section.

"Only Municipal contracts are preventing a slump in building repair jobs," said a representative of the National Federation of Building Trade Employers.

The survey shows that at least 34 per cent of the population have become paperhangers—and paint manufacturers were quick to produce the necessary materials for amateur painters.

New cheap emulsion paints are on the market, so fast drying that three coats can be applied in one day. A new cellulose paint, dry in one hour and dust-free in 15 minutes, enables car owners to join the home-decorating trend.

BIG MARKET

The increasing importance of the amateur market is seen in numerous magazine articles on the tools required and the best approach to the varied jobs. More than 70,000,000 square feet of plywood will be produced within the year, and "an immense proportion will go to the amateur market," says the Timber Association.

One firm in the Midlands is producing cheap furniture that can be assembled and painted at home. Seven pieces, including chairs, table and bookcase, cost just under £15.

The survey established that painting and distempering (calcimining) took second place only to laundering, and were well ahead of gardening and other household hobbies. More than half of those interviewed said they grow vegetables, nearly half knit, others bottle fruit, 42 in every 100 make their own jam, one in five are amateur carpenters, and nine in 100 men sole their own shoes.

Nudist Colony Finds Life Good For Soul but Hard on Nude Feet

By PRESTON GROVER

ISLE OF LEVANT, France (AP)—Life in this Mediterranean nudist colony is fine for the soul and hard on the feet.

The island lies 10 miles off France opposite the summer vacation spot of Le Lavandou. I took a boat ride over.

As the boat comes in to the small dock, the nudists come running out from among the trees and rocks and help the passengers ashore.

The island is six miles long and two wide, containing nearly four square miles of trees, barren rocks, and brush.

Mainly the island seems to be rocks, gravel and dry paths under the trees.

NUDE SHOPPERS

Many live in tents although there are four small hotels. People come from England, Germany, Holland, France, Spain, Italy and both North and South America. At a grocery store the nude little housewives buy long loaves of bread and sacks of food, cuddling them in their arms as they mince in bare or sandled feet along the gravely paths to their tents.

Besides nudists, there are on the island a few goats, rabbits, snakes, lizards, butterflies and birds.

Also there are a lighthouse, a few French soldiers—in uniform—and a jeep.

CHAIN STORES SALES INCREASE

OTTAWA (CP)—Sales in Canadian food chain stores increased by $7,000,000 during August to $58,762,000 from $51,921,000 in August last year, the Bureau of Statistics reported today.

Sales were higher in five other types of chain stores, too, the Bureau said, while stockpiling of goods on the shelves increased in all six types, with the exception of drug and variety shops, where value of stocks declined.

Sales in women's clothing stores increased during August to $3,165,000 from $2,901,000 last year; shoe stores, $3,142,000 from $2,763,000; hardware stores, $1,402,000 from $1,086,000; drug stores, $2,604,000 from $2,459,000; and variety stores to $13,633,000 from $12,496,000.

JOHN A. BOYD GEORGE W. SWENY, M.Sc.

Imperial Bank of Canada announces the election of Mr. John A. Boyd, Toronto and Montreal, and Mr. George W. Sweny, Vancouver, to the Board of Directors.

Mr. Boyd is the Canadian Representative of Lazard Brothers & Company Ltd., London, England; Vice-President of Canadian Marconi Company and a Director of Cockshutt Farm Equipment Ltd., John Inglis Company Ltd., English Electric Company of Canada Ltd., Rolls-Royce of Canada Ltd., and a member of the Canadian Board Yorkshire Insurance Company Ltd.

Mr. Sweny is President of Neon Products of Western Canada Ltd., Vancouver Iron Works Ltd., Vancouver Engineering Works Ltd., and Wilkinson & McClean Ltd., Alberta. He is also President and Director of a number of other Companies.

Crude Oil Nears Output Record

CALGARY (CP) — Crude oil production in Alberta during the week ended Oct. 13 reached a near record of 215,705 barrels daily, according to figures released by the Petroleum and Natural Gas Conservation Board.

The daily average was 1708 barrels less than the record set during the week ended June 16 and compares with a daily average of 178,125 barrels for the week ended Oct. 6 and 176,427 barrels daily for the corresponding period last year.

Production came from a total of 3438 wells either producing or capable of producing, an increase of 18 over the previous week.

Redwater accounted for most of the increase with a daily average of 94,903 barrels compared with 76,662 barrels for the previous week, while Leduc production increased from 51,783 to 59,447 barrels daily. Wizard Lake was third with only 26 wells, producing 9256 barrels daily; Turner Valley, 329 wells, 7448 barrels daily; Acheson, 97 wells, 5794 barrels daily and Armena, 68 wells, 4041 barrels daily.

Steel Output Helps Transform Canada

By H. D. CRAWFORD
Central Press Canadian Writer

OTTAWA—Steel is transforming Canada into a great industrial nation. Huge new industrial plants are being erected. Steel-producing companies are expanding their furnace capacity this year to turn out additional hundreds of thousands of tons of this metal so vital to peace or war. New iron ore regions are being developed that may one day become major sources of steel for the United States as well as Canada.

One of the most imagination-stirring developments now taking place is the gigantic, around-the-clock airlift of heavy equipment and other freight needed by the thousands of men who are constructing a railroad through a roadless wilderness from Seven Islands on the St. Lawrence River to rich iron ore regions 360 miles northward along the border of Labrador and Quebec.

AIRLIFT

This is the greatest private-enterprise airlift in history, and the new Quebec, North Shore and Labrador railway is probably the first railroad built by air. By mid-1954, a year earlier than originally planned, the Iron Ore Company of Canada hopes to start hauling iron ore from Labrador-Ungava open-pit mines down the new railroad to the new ore docks now being constructed at Seven Islands.

More than 6000 men are working for the Iron Ore Company of Canada this year. Some are pushing steel rails as far northward as possible before next winter's snows force suspension. Others are building railway yards and permanent ore docks at Seven Islands. Still others are building hydro-electric plants for towns and mining operations.

MILE A DAY

Some of the most difficult construction, a 2250-foot tunnel and a 680-foot bridge across the Moisie river 12 miles north of Seven Islands, has been completed. Crews now laying more than a mile of track a day hope to place 190 to 200 miles of steel rails by the end of the 1952 construction season.

The six American and three Canadian companies that compose the Iron Ore Company of Canada are investing some $200 million in this Labrador-Quebec drive for iron ore to feed the hungry steel furnaces of the future.

A townsite for the northern terminus of the railroad has been chosen near Knob lake, the major airbase. The Burnt creek campsite, originally considered as the probable townsite, was found to be atop a rich iron ore deposit. Careful considerations were given to the water supply and sewage disposal, and about $10 million have been earmarked for building the town.

Fifteen aerial "work horses" are kept constantly busy hauling all kinds of freight northward from the St. Lawrence area to various airstrips that have been bulldozed out of the wilderness. During the first seven months of 1952 they carried as much freight as the 24 million pounds hauled in all of 1951.

Although planes have been hauling freight and business-bound passengers since 1948, the top-grade pilots, whose mileage last year equalled 80 times around the world, have an enviable casualty-free record.

Conservative estimates are that 437 million tons of readily available iron ore of high quality can be mined by open-pit methods in regions leased by the Iron Ore Company of Canada. Less conservative estimates raise the potential tons into the billions. Intensive exploration is continuing in Labrador and Quebec.

SEEKS BRITISH CAPITAL

Newfoundland's Prime Minister Joseph R. Smallwood has recently been trying to interest British firms in developing other regions of Labrador.

From Seven Islands ore docks, the ore can be shipped to east coast or Montreal ports and hauled by rail to steel mills. If the St. Lawrence seaway is built, ore boats can carry the iron ore directly to existing facilities at Cleveland and other Great Lakes ports. Erie, Pa., is only eight miles farther from Seven Islands that it is from loading docks for Mesabi range ore in Minnesota.

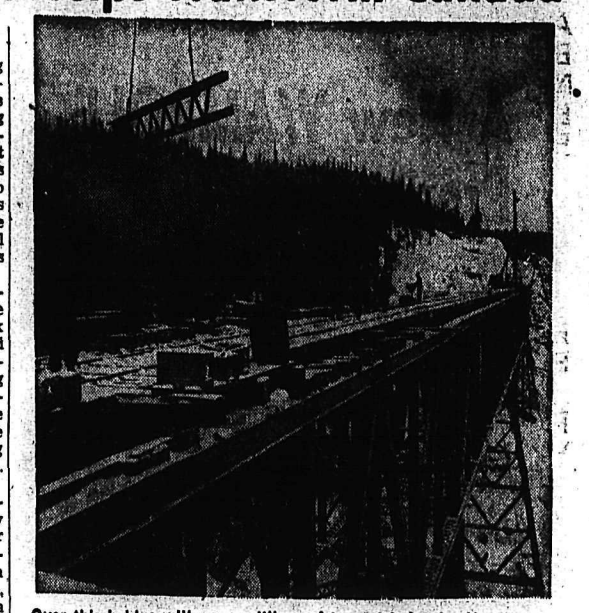
Canada has rich iron ore deposits also at Steep Rock mines west of Port Arthur. The Wabana mines on Bell Island, Newfoundland, are believed to have proven reserves of four billion tons of iron ore, some of it under the waters of Conception Bay.

DEMAND GROWS

Defence industries are now using large quantities of steel. Substantial increases in Canada's steel requirements are also resulting from expanding production of rolling stock, motor vehicles and electrical machinery and equipment.

Shipbuilding and the construction of numerous new manufacturing plants likewise are increasing the demand for steel. Canada's rapidly growing petroleum and natural gas industries create huge demands for steel and iron products.

Canadians expect that while their steel requirements are increasing constantly, their new steel mill furnaces and facilities will provide the sinews for the booming manufacturing plants that are making Canada an industrial giant, whether the future holds peace or war.



Over this bridge will come millions of tons of Labrador-Ungava ore —Central Press Canadian

Search Fruitless For Missing Plane

HALIFAX, Oct. 19 (CP) — Twenty-four planes from bases in Newfoundland the the Maritimes searched without success today for a twin-engined American Beechcraft missing on a flight from New York to Goose Bay, Labrador.

The plane, carrying two men, was last sighted over Seven Islands, Que., last major centre before the hop over the barren hinterland of Labrador.

Story Controversy Raised by New Historian by Life of Saint Joan

By RUSSEL HOWE

PARIS (Reuters)—A French historian has published a long, learned thesis to prove that Joan of Arc never was burned at the stake and that the English burned a masked "witch" in her place.

Joan lived on and was married five years after her "execution," historian Jean Grimod states.

His thesis, which has created a furore in the French religious world, asserts further that Joan was not born at the national shrine of Doremy, and that she was not called d'Arc.

She was, according to Grimod, the illegitimate daughter of the Duke of Orleans, brother of King Charles VI of France and Isabel of Bavaria.

STATES ENGLISH KNEW

Grimod points to the constant questions of the court concerning Joan's origins and sets out to prove that the English knew of them. Therefore, to avoid burning someone of royal birth, they burned a masked "witch" in her place, he says.

She thus was spared the legendary execution which "is not mentioned in any religious, official, or judicial records," the thesis states.

The historian says Joan's coat of arms was that of the French royal family, but bearing the brisure (mark) of bastardy.

Grimod says Joan was married in Luxembourg in 1436, five years after her "execution," and may have spent the intervening years in exile in England.

He says her marriage certificate, signed by the Dean of Metz, is still in existence and adds that evidence exists of a visit by Joan to Orleans in 1439, when she was given 210 gold pounds by the municipality "for help to the town during the siege by the English."

A similar gift, he declares, is on the records of the city of Tours.

Joan's existence, the thesis concludes, is traceable up to 1443—12 years after her "execution."

Scientists Seek Reasons for Homing Pigeons' Love of Home

By ROBERT MARX

CAMBRIDGE, England (Reuters)—Curious scientists are prying into the sex life of the homing pigeon to find out why it sometimes takes the long way home.

Can a bird of the opposite sex lure the messengers from the instinctive beeline for the home loft? Peeping toms at Cambridge University's zoology department hope to see the answer through the eyes of tiny microfilm cameras strapped under test pigeons' wings.

Each day they log the flights of birds released many miles away. They want to know why some of the homing pigeons take three times as long as others to fly the same distance.

The scientists are also trying other tests—such as "jamming the pigeons' radar."

Midget magnets are mounted on the birds. If it is a magnetic force which causes them to return home, the scientists believe the real magnets will neutralize that instinctive force and the birds won't know which way to turn.

Non-magnetic trickery has already failed. Pigeons accustomed to flying south toward their homes were suddenly released at a spot from which they would have to fly westward. The scientists figured they would continue to fly South and become lost. But all the birds returned home.

Homing pigeons have been used as messengers since biblical times. King Solomon used them. The Roman historian Pliny tells of homing pigeons flying messages during the siege of Modena in 42 B.C.

These days the homing birds are mostly a sporting breed. Pigeon racers pit their birds in long-distance flights in which the speedsters often cover more than 500 miles between dawn and dusk.

Just after the war some 600 pigeons took off from France and winged across the channel toward the finish in England. Britain was hungry and the meat ration small. About 500 pigeons did not finish the race.

National Theatre Outcome of Little Theatre Companies

SARNIA, Ont., Oct. 19 (CP)—A national professional theatre for Canada will be a natural evolution of the amateur movement, Richard MacDonald, Executive Secretary of the Dominion Drama League, said during a visit here.

In a small way Canada already has a professional stage, he said. Three such groups, including the Totem theatre, are flourishing in British Columbia.

While not a direct outcome of the Dominion Drama League, many of the professional actors have come from community Little Theatre organizations.

Texas boasts of more airports than any other state in the U. S.

Spokane Flyers Squelch Smokies 7-1

By the Canadian Press

Spokane Flyers opened their Western International Hockey League season Saturday night at home by flooring Trail Smoke Eaters 7-1.

In Saturday night's other W.I.H.L. game, Nelson Maple Leafs ran up an early lead and spun it out to defeat Kimberley Dynamiters 6-2 at Nelson. It was Nelson's first league game.

In the Okanagan Senior League, Penticton V's pushed their undefeated string to three by downing Vernon Canadians 5-3 at Vernon. Kamloops Elks spoiled Kelowna Packers home opener, 6-3, and took over second place.

Spokane opened up a 2-0 lead in the first period and led 3-0 after the second. Bill Ramsden scored two for the Flyers and the other five goals went to Ralph Luke, Hugh Scott, Jack Miller, Gino Rozzini and Bernie Grebinsky. Mike Shabaga tallied for Trail after Spokane had a 4-0 lead.

Nelson built up a 4-1 lead in the first period and maintained the margin at 5-2 in the second.

Penticton and Vernon stayed even until the last period when the V's rammed in two unanswered goals. Doug Kilburn scored two for Penticton and Ernie Rucks, Merv Bregg, and Don Culley the others. Vernon marksmen were Don Jakes, Bill Geary and Bill Holmes.

Kamloops, scoring their second win over Kelowna in as many meetings, banged home a pair in the second period after a scoreless first and outscored the Packers 4-3 in the third.

Twice the Packers came within one goal of Paul Thompson's crew but a peerless performance by Hal Gordon in the Kamloops net was the difference. Kelowna outshot Kamloops 31-19.

Norm Larsen, newcomer from Calgary Stampeders, scored two for the Elks. Jack Taggart, Jack Smith, Gunnar Carlson and Andy Chakowski got singles. Kelowna goals were scored by Mike Durban, Jim Middleton and Ken Amundrud.

Summaries:

SPOKANE 7, TRAIL 1

First period — 1. Spokane, Luke 1.21; 2. Spokane, Scott (Tilton) 5.10.

Penalties — none.

Second period — 3. Spokane, Miller (Rozzini 8:15.

Penalties — Malley 6.30, Fodey 6.30, Grekinski 9.47, Kromm 19.52.

Third period — 4. Spokane, Rozzini 1.53; 5, Trail, Shabaga (Sinclair) 5.27; 6. Spokane, Ramsden 18.01; 7. Spokane, Grebinsky (Tilton) 18.22; 8. Spokane, Ramsden (Tilton, Scott) 18.34.

Penalties — Grebinsky 4.48, Rozzini 8.53, Corrado 8.53, Butler 13.57.

PENTICTON 5, VERNON 3

First epriod — 1, Penticton, Rucks (Berry) 9.51; 2. Vernon, Jakes (Lucchini) 12.24; 3. Vernon, Geary 16.00; 4. Penticton, Bregg (Defelice) 18.00.

Penalty — Jakes.

Second period — 5. Vernon, Holmes (McKay) 2.45; 6. Penticton, Kilburn (Warwick, Schmidt) 19.29.

Penalties—Harms, Defelice, Johnston, Pettinger.

Third period — 7. Penticton, Kilburn (Warwick) 10.23; 8. Penticton, Culley (Defelice) 16.44.

Penalties — Berry, Johnston.

KAMLOOPS 6, KELOWNA 3

First period — scoring — none.

Penalties — Taggart, Kotanen, Hanson.

Second period — 1. Kamloops, Smith (Carlson) .10; 2. Kamloops, Taggart (Lundmark) 8.55.

Penalties — Terry, Carlson, Lundmark, Goodacres.

Third period — 3. Kamloops, Larsen (Milliard) 4.54; 4. Kelowna, Durban (Middleton) 12.57; 5. Kelowna, Middleton (Durban) 13.27; 6. Kamloops, Larsen (Milliard) 16.16; 7. Kelowna, Amundrud (Kuly) 17.21; 8. Kamloops, Carlson 19.20; 9. Kamloops, Chakowski (Milliard) 19.49.

Penalties — Durban, Taggart, Kotanen.

Cartagena, Colombia, is one of the few walled cities left in the world. It is one of the finest medieval cities of the Western Hemisphere.

FRESH FROM HIS WORLD SERIES TRIUMPH, Casey Stengel holds up five fingers after signing a two-year contract in New York for an estimated $100,000-per-year to manage the New York Yankees. Stengel has won four world championships in a row as Yankee pilot and in '53 will shoot for his fifth, which will make him the first manager in baseball history to accomplish the feat. Stengel has already achieved one first — his new pact makes him the highest-paid pilot in baseball history. With Casey at historic signing are: President Dan Topping, left front; Stengel; General Manager George Weiss, rear left, and club official Bob Becker. — Central Press Canadian.

British Wilwyn Cops 11th Consecutive Win

BY JOHN CHANDLER

LAUREL, Md., Oct. 19 (AP) — Wilwyn, a strapping brown invader from England, won his 11th consecutive and most important victory Saturday as he defeated six rivals from four countries in the inaugural running of the $50,000 Washington International at Laurel Park race course.

In last place was Indian Hemp, an Irish-bred owned by Max Bell, Calgary publisher.

It was one of the most exciting races ever seen in the state of Maryland, and a history-making event that assures a continuance of such international affairs in years to come. In addition, the British horse set a course record on the turf.

Wilwyn, ridden by Manny Mercer of England, drew tremendous cheers from a record Laurel crowd of 26,014 as he drove home under a lashing effort in the final eighth of a mile to defeat the American Ruhe by 1¾ lengths.

TIGER CATS LICK ALOUETTES 21-1

HAMILTON, Oct. 19 (CP) — Hamilton Tiger-Cats practically clinched a Big Four Football Union playoff berth Saturday by smashing Montreal Alouettes 21-1 before a crowd of only 7000.

The victory gave Tiger-Cats 15 points, three up on Toronto Argonauts who took over the runner-up spot with a 25-6 triumph over Ottawa Rough Riders.

Tigers are four points up on the Riders with all teams having three more games to play before the schedule closes Nov. 8.

COUGARS DOWN ROYALS 4-3

NEW WESTMINSTER, B. C., Oct. 19 (CP)—Victoria Cougars jumped into first place in the Western Hockey League Saturday night by squeaking by New Westminster Royals 4-3 on Ed Mazur's last-minute goal.

The win enabled the Cougars to hurdle Saskatoon Quakers to top spot. The Quakers were beaten for the first time this season, losing 3-2 to Edmonton Flyers.

Lethbridge Sons Whip Canucks 7-2

LETHBRIDGE, Alta., Oct. 19 (CP)—Lethbridge Native Sons scored four goals in the first period Saturday night and went on to whip Moose Jaw Canucks 7-2 in a Western Canada Junior Hockey League game before 2100 fans. The loss was the second in as many nights for Canucks on their current five-game Alberta road trip.

Left winger Dick Lamoureuz paced Sons' attack with two goals. Billy Dea, Dave Magee, Roger La Plante, Steve Arisman and Les Colwill got the others. Wally Blaisdell and Mike Zwyer were the Moose Jaw scorers.

ABBOTT HOPES FOR TAX REDUCTIONS

ST. CATHARINES, Ont., Oct. 19 (CP) — Finance Minister Abbott said Friday it is not realistic to expect "substantial reductions" in taxation unless international tension lessens or Canada's production capacity increases.

He told a meeting of young Liberals:

"I don't anticipate in the immediate future any possibility of substantial cuts in defence. We are not at present spending in excess of the danger that faces us or in excess of our share of world security," he said.

He said he felt that increased productivity was the "more promising avenue" and if it continues "I think we can count on it giving some real measure of taxation relief."

He said two major budget items, national security and social security, represent nearly 75 per cent of Canada's total spending. There is little prospect of cutting spending for defence or social services which, he said, the people had asked for.

Canadian Food in N. Y. Exhibition

NEW YORK, Oct. 19 (CP)—A Canadian food exhibit has gone on display in the Canadian showroom in Rockefeller Centre.

Crocks of maple butter, smoked hams, bacon, cheeses, canned lobster and many other products give the showroom the look of a small but well-arranged supermarket.

The exhibit, the sixth this year, is designed by the Canadian government Exhibition Commission to give visitors a picture of the range and variety of the food products and agricultural commodities Canada produces.

The Department of Trade and Commerce, which sponsors the exhibition, dispatched to the industries concerned an invitation to send samples to be included in the display.

Canners and meat packers, brewers and tobacco growers, and many others responded and the total result is one calculated to arouse interest and stimulate trade.

Dieppe Prisoners To Try for Award

TORONTO, Oct. 19 (CP)—An effort will be made by Dieppe prisoners-of-war to obtain the maltreatment award which the Federal government has announced will be paid to survivors of the Hong Kong expedition. The award amounts to $1 a day for the period of imprisonment.

Some 250 of the men who were captured at Dieppe last night heard J. Clark, President of the Hong Kong P.O.W. Association and Joseph Noseworthy, C.C.F. member of Parliament for York South, urge them to act as a group rather than individually in their demand for compensation.

The College of Gravelbourg was founded in 1918 for education of French-speaking Canadians of Saskatchewan.

Canadian Movies Popular Abroad Says Film Head

YORKTON, Sask., Oct. 19 (CP)—W. H. Jobbins, assistant director of the Commercial division, National Film Board, tonight said Canadian films have gained wide acceptance abroad.

Speaking at Yorkton's second annual documentary film festival, Mr. Jobbins said Canadian films are popular because they are directed at promoting international understanding and lack the propaganda element so obvious in some films from other countries.

Mr. Jobbins said the National Film Board intends to interpret Canada honestly to countries abroad and at the same time explain the relation of Canada's various parts.

The film festival, only one of its kind in Canada, is held to encourage use of audio-visual aides. Films shown are voted on by the audience to determine the best among them. There are numerous entries sponsored by foreign governments, as well as Canadian, American and British commercial entries.

Four films have so far been judged of particular excellence by audiences. They are a Danish entry, entitled "Shakespeare and Kronborg; a film on aluminum production called "Package Power", produced by Crawley Films, Ltd.; A. J. Arthur Rank film of an Antarctic expedition, entitled "The White Continent," and a National Film Board production on the life of the late Arthur Lismer, noted Canadian artist.

Australian Laborite Wins Byelection

MELBOURNE, Australia, Oct. 19 (Reuters)—The Labor opposition has won a convincing victory in the Federal byelection at the Victoria seat of Flinders. The poll was regarded as a pointer to the government's standing with the public.

When counting ended the Liberals' last election majority of 5000 had been wiped out. Labor candidate Keith Ewart was 3346 ahead with only 1500 votes to be counted.

Votes counted so far were: Ewart 20,242, John F. Rossiter, Liberal, 15,967. Two Independents tallied 929 votes together.

Flinders had been held for the Liberals for 12 years by the late Col. Rupert Ryan.

Coast Fog Shrouds Violent Robberies

VANCOUVER, Oct. 19 (CP)—Dense fog provided a curtain for two tall, thin men who staged five separate street robberies.

Five men were robbed of $320, all were beaten, and three were sent to hospital, one with a possible skull fracture.

They came out of the fog like ghosts, beat their victims, and then disappeared.

It was the worst fog of the season, blanketing sections of greater Vancouver until mid-morning Saturday.

South Korean Casualties Highest on U.N. Records

WASHINGTON, Oct. 19 (AP)—The United States is estimated to have borne about 35 per cent of the battle casualty load in Korea while supplying nearly half the United Nations combat manpower engaged in the conflict.

South Korea has suffered the heaviest losses, an estimated 61½ per cent. The other 15 U.N. countries have borne the remaining 3½ per cent.

No precise comparison between American and other United Nations figures of killed, wounded and missing can be made for a given date.

The official U. S. casualty total last week stood at 121,154. The last tabulation made from United Nations and foreign sources, Aug. 30, placed the total for all other U.N. forces at 221,876, of which all but 10,899 were South Koreans.

Link With Last Outlaws Dies

SANTA MONICA, Calif., Oct. 19 (AP)—William Anson (Bill) Loomis, 92, perhaps the last of the law officers who dealt with the bandits of the old west, died Friday.

He was personally acquainted with such figures as Jesse James, Billy the Kid, Pat Garrett, Red Kelley and Wyatt and Morgan Earp. He claimed to have officiated at 15 hangings.

Loomis was a cowpuncher in the Las Cruces, N.M., area before he became city marshal at Leadville, Colo.
