Nelson Daily News

Vol. 54 — NELSON, B.C., CANADA—SATURDAY MORNING, AUGUST 20, 1955 — No. 102

WEATHER FORECAST
KOOTENAY: Variable cloudiness with scattered afternoon showers. Cooler. Low and high at Cranbrook and Crescent Valley, 50 and 75. Outlook for Sunday: Mostly sunny.

Floods Hit East States

Riots Mount to Frenzy Pitch

Arabs Vow To Slit French Throats; 24 Killed; Demonstrators Loot, Burn

CASABLANCA (Reuters)—Police reported Friday night 24 people were killed and 70 wounded in Kenifra and Casablanca during riots on the eve of the second anniversary of France's deposition of the former sultan of Morocco, Mohammed Ben Yussef.

Police said 11 were killed and 40 wounded in a clash between 700 rioters and troops at Kenifra, home of the fierce Berber tribesmen, in the Atlas mountains near Meknes.

The other 13 killed and 35 wounded were in Casablanca.

Arabs have vowed they will celebrate the deposition by "slitting the throats of Frenchmen."

The rioters in Kenifra were roused to a frenzy by anti-French agitators. They stormed through the Arab quarter, looting and burning seven stores. Then they hacked off phone wires, surrounded the police station and stoned Moroccan policemen.

Foreign legionnaires, backed by paratroopers, battled the rioters into submission.

Four Moroccans were killed and seven wounded.

CONFERENCE STARTS

PARIS (Reuters)—Premier Edgar Faure and other government leaders will begin a week-long conference Monday with leading Moroccan politicians in the Alpine spa, Aix-les-Bains, to seek a solution to the Moroccan crisis, the French government announced Friday night.

The government reached its decision after an eight-hour meeting between a ministerial committee of five, headed by the premier, and Morocco's tough resident-general, Gilbert Grandval.

Grandval flew to Paris Friday to appeal for immediate action. He is reported to have told the premier that time was running out fast—"and time is blood."

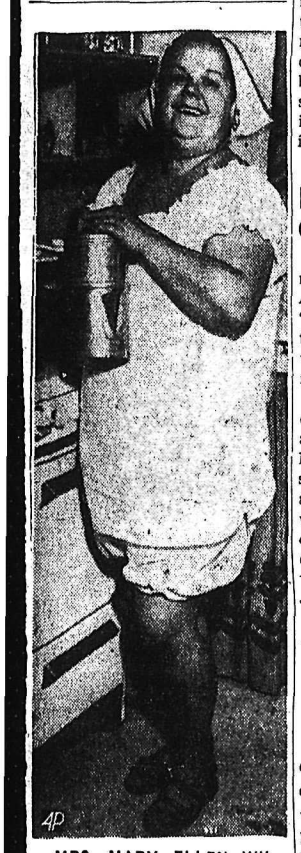
Farmers' Champion Motherwell Honored

INDIAN HEAD, Sask. (CP) — After a cairn was unveiled here Friday, the government speakers recalled the late W. R. Motherwell's oft-repeated advice: "Now is the time for farmers to take a militant stand."

The farmers did. Their militant approach to early grain handling, which they considered monopolized, resulted in a farm movement which produced wheat pools, co-operatives, an early government in Alberta and the embryo of the CCF party.

Motherwell, later a member of Saskatchewan's first cabinet and a federal agriculture minister, also was co-founder of one of the first Prairie farm organizations — the Territorial Grain Growers' Association.

The cairn honoring him and other farm leaders was unveiled by his six-year-old great granddaughter, Sharon Motherwell, while 1800 persons watched.



MRS. MARY ELLEN WILLIAMS posed in her kitchen wearing the "shortie" pajamas she says are the cause of her being ordered to vacate. Mrs. Williams says housing authority officials in Pittsburgh have ordered her out because she wore the pajamas recently while paying her rent. "It's a hideous looking outfit but it's not indecent," Mrs. Williams said. She added: "You ought to see some of the women in shorts and halters."—AP Wirephoto.

Hunt Goes on For 500-Pound Cranbrook Safe

CRANBROOK, B.C. — Intensive RCMP search for a steel safe removed from the Premier Service Station before dawn Friday morning continued through the day without results. It contained about $600 in cash, $1600 in cheques and the firms books and records.

Business is operated by P. J. Letcher and Roy Joyce, who discovered the theft when they opened the station on Cranbrook Street for busines at seven Friday morning.

A window had been knocked out of the back of the big square workshop and the back door opened from inside. Lock on the door from the shop into the office was broken. The safe, mounted on wheels, had been rolled to the back door then pushed end over end across the gravel to the lane which is fairly well illuminated from the Dench truck yard, and where there were indications a car had waited. The safe weighed about 500 pounds indicating more than two people were involved in its removal.

(See also story on Page 3.)

Mail Service to North Improved

DAWSON CREEK, B.C. (CP) — A stepped-up postal service is in store for the 1000-odd residents scattered along the world's longest rural mail route — a 1000-mile section of the Alaska highway in Canada's northwest.

A new contract to serve the remote section bordered by muskeg, spiralling peaks and a network of rivers was awarded Friday to a trucking firm operating out of this Peace River farming centre.

Northern Freightways, the successful bidder, will get $72,048 a year for supplying the mail from Dawson Creek — mile 0 on the Alaska Highway — to Whitehorse capital of the Yukon.

Service will be doubled from once a week to twice weekly - a well-received plan by the semi-isolated settlers who until 10 years ago had no regular mail service.

But the mail carriers who will make about 100 stops along the tortuous route — designated by mile-post numbers — will not only deliver the mail. Their trucks will be travelling post offices, selling stamps and money orders, collecting for c.o.d. parcels and dispensing information.

BCHA Executive To Call Meeting

VANCOUVER (CP)—A special meeting of the B. C. Hospitals' Association executive will be held "within 8 or 9 days" to discuss the situation arising from the provincial government's May wage freeze directive.

Percy Ward, secretary, said Friday it is hoped the group will have an answer from Health Minister Eric Martin by that time. The association wrote the minister twice asking him to rescind the directive which advised the provincial government would not meet wage costs above those of 1954.

Did-It-Herself

PITTSBURGH (AP) — Mrs. Mary Bucar added a new twist to the "do-it-yourself" craze.

The 41-year-old housewife said she'd been waiting a year for the city to fix a hole in the street in front of her home.

"Cars would run into it at night, make a big 'boom', and scare you silly," she said.

Thursday morning, Mrs. Bucar got a wheelbarrow, loaded it with rocks and filled up the hole. Then she cemented it over, blocked it off with a saw horse, and put up a sign "Slow Street repairs."

"It looks pretty good," Mrs. Bucar said of her repair job.

Young Teller Pleads Guilty

LETHBRIDGE (CP) — William Fazakereley, 18-year-old teller, pleaded guilty in police court on Friday to stealing $30,000 from the Bank of Montreal's branch here. He was remanded to Sept. 9 for sentence.

The prisoner, born in Liverpool, England, came to Canada in 1954, the court was told. Shortly after his arrival here he was hired by the Bank of Montreal as a junior clerk. He soon rose to the position of savings teller and following a short banking course in Calgary was promoted to senior teller.

"He had an almost unbelievable control of money in the bank — especially considering his age and possible temptation," observed the crown prosecutor J. Harper Prowse.

U.K. OFFICERS ADMIT HOAX

LONDON (Reuters) — Four young army officers have confessed that they took part in a raid on an army camp near Rhyl, North Wales, last Monday as a "practical joke" the war office announced Friday.

The raid, in which a sentry was trussed up, was thought to have been the work of Irish terrorists who earlier stole a large quantity of arms and ammunition from another army depot.

Nothing was stolen from the Kinbel park armory, near Rhyl. After the sentry had been bound by masked men, another guard raised the alarm by blowing his whistle.

The men—described at the time as young Irishmen wearing raincoats—fled through the darkness.

Canada Lost Out On Cheese Market

OTTAWA (CP) — A federal trade authority Friday dimmed hopes that Canada will ever regain the big cheese market she had in Britain in pre-war years. But he said that if quality remains high, exports could possibly rise to 12,000,000 or 15,000,000 pounds a year.

D. A. B. Marshall, Canada's commercial secretary in London said Canadian cheddar producers would have to reduce their prices by at least 10 cents a pound to compete with New Zealand if they wanted to boost exports to Britain to the 1938 volume of some 75,000,000 pounds.

Water Levels

Nelson: Friday 4.28; Thursday 4.40.

A 500-MILE canoe trip along the route of the fur traders of a century ago has ended for five middle-aged men who all say they are sorry they are not just starting. The trip took 21 days, starting at the Ile a la Crosse, 160 miles northeast of Prince Albert, and took the route along the Churchill River to The Pas, Man. They saw only five settlements en route, depended on their own muscle power to shoot rapids and portage their equipment. In the group were Dr. O. M. Solandt, chairman of the defence research board, Dutch Ambassador to Canada A. H. J. Lovink, Eric W. Morse, national director of Canadian Clubs, D. M. Collican, president of the Canadian Bank Note Co., and S. F. Olson, Chairman of the U.S. National Parks Association.—Central Press Canadian.

Cars May Have Radar Screens

WASHINGTON (AP) — A radar-equipped automobile said to stop automatically when something gets in its way has excited enthusiasm from Representative Louis Rabaut (Dem. Mich.)

Rabaut described for the congressional record the mechanism devised by Carl Rashid, Detroit safety engineer.

The car has a radar screen directly below the grillwork, several inches high and extending the width of the automobile. This projects an impulse, he said, "that is guaranteed to halt the car if anyone or anything gets in its path."

There is a similar apparatus on the rear of the car to prevent injuring pedestrians (or property) while the car is moving in reverse.

Rabaut said: "If you are approaching an object at a high speed, the radar is reducing car speed before you, the driver, are actually aware of impending danger. The car will then, if not manually halted, stop before striking the object."

Wheel Chair Travel Ends In Bus

NEW ALBANY, Ind. (AP)—"A man who loves his wife will do anything for her."

That's why Rocco Mendenhall, 50, pushed his invalid wife nearly 1,000 miles in a wheel chair.

The trek from Miami, interspersed with auto lifts, has ended on a hill near here. The tire of one of the wheels came loose.

A passing motorist, seeing the couple's plight, called police who brought the couple to county jail. Mendenhall was unable to find work in Miami and they decided to return to their Hot Springs, Ark., home.

The couple was given a meal at the jail and officials made arrangements to send them home by bus.

Whelan's Ashes To Be Scattered at Sea

VANCOUVER (CP) — The remains of police patrol superintendent Harry Whelan will be scattered over the waters of the sea he loved so well.

The police commission Friday granted permission for the Vancouver police department's patrol boat to scatter the late superintendent's ashes along Burrard Inlet.

His widow had made the request as Whelan was an ardent fisherman and a former master mariner.

Date of the ceremony will be announced later.

Whelan died at his home here Aug. 5 from a self-inflicted gunshot wound.

Scout Association Regrets PM Absence

NIAGARA-ON-THE-LAKE, Ont. (CP) — The Boy Scouts Association of Canada Friday expressed "regret" that neither Prime Minister St. Laurent nor any of his ministers are coming to the opening of the world jamboree today.

An association statement said:

"It is a matter of regret to us that the prime minister or any member of the federal cabinet were unable to accept the official invitation which we extended to them earlier this year to be present at the opening tomorrow of the eighth world jamboree."

While governments of 21 of the 66 countries whose scouts are participating will be represented at the ceremonies, Canada, as host country, will not be. Four thousand of the 10,000 scouts here are Canadian.

Over the signature of Jackson Dodds, jamboree camp chief and the deputy chief scout for Canada, the statement said:

"We have seen the statement which has appeared in the press to the effect that the federal government received no formal invitation to be represented . . .

"However, we appreciate very much the generous assistance that the federal government has given us in connection with the preparations for the jamboree and we are most happy that the Hon. Walter Harris, minister of finance, is to represent the government at the dinner which the federal government is tendering to the delegates at the international boy scout conference which is to follow the jamboree."

To Summon Man On Garbage Charge

VANCOUVER (CP) — Deputy harbormaster William A. Dobie said Friday a Vancouver man will be summoned under the National Harbors Board Act for dumping garbage in the harbor. It will be the first such charge laid here in eight years.

Ironically, the summons was issued against a caretaker at the Royal Vancouver Yacht Club, which has been calling for months for enforcement of regulations concerning littering the harbor.

Says No Teacher Shortage at Coast

VANCOUVER (CP) — Vancouver school board officials said on Friday they had no shortage of teacher applicants and there will be 50 new appointees on hand when schools reopen Sept. 6, with a record enrolment.

An official said the number of former teachers returning to the job, newly-married women staying on and preference for posts in larger cities where pay is usually higher were the main factors in the improved position.

A total of 134 teachers—88 in elementary and 46 in secondary schools—appointed this year increases staff to 1916 from last year's 1866.

Enrolment has reached a record 52,003, an increase of 2279 children over 1954.

Five new school units and a $350,000 repair program will have been completed when the new term begins.

B.C. Hospital Has Operating Surplus

REVELSTOKE (CP) — The Queen Victoria Hospital continues to operate within its prescribed budget and at the end of July had an operating surplus of $1600, administrator Paul Russell told the board of trustees at the regular monthly meeting.

Worst in History; 56 Die; Billions Damage

PHILADELPHIA (AP)—The death toll in the worst floods in eastern United States history rose to at least 56 Friday night as rampaging, muddy waters, fed by torrential rains, churned through nine states with property damage estimated at billions of dollars.

Although Friday's floods were the worst from the standpoint of damage caused, the death toll was still far short of the great Johnstown, Pa., disaster of 1889.

As swollen rivers and tributaries gushed over their banks in many sections, the governors of Pennsylvania, Massachusetts and Connecticut proclaimed a state of emergency.

Governor Abraham Ribicoff of Connecticut telegraphed President Eisenhower: "We are faced with a major disaster."

In New Jersey, southeastern New York and Rhode Island some vulnerable towns were isolated.

The drenching summer storm, causing the heaviest rainfall ever recorded in some sections — as much as 11 inches in a 36-hour period—developed Thursday after hurricane Diane spent its fury in the Carolinas.

WHIP NEW ENGLAND

The rains whipped across Virginia, where one was drowned, and moved northward through Washington, and the states of Maryland, Pennsylvania and New York. Friday they blew destructively into New England.

The known dead:

Pennsylvania 26—21 drowned, three traffic, two electrocuted.

Massachusetts 10 — Seven drowned, one traffic, two electrocuted.

Connecticut 16—15 drowned, one electrocuted.

Virginia, Rhode Island, New York and New Jersey — One drowned.

Twenty-five others were reported missing—20 in Pennsylvania, three in New Jersey and one each in Virginia and Connecticut.

Stroudsburg, a popular resort town in Pennsylvania's Pocono mountains, was one of the worst storm areas. For a long while it was isolated, encircled by swirling waters and without power or communication.

Even those in the town itself were unable so far to determine the number of dead in the area. All they can say is that nine "definitely are dead" with "possibly 20 others" listed as missing.

Waterbury, Conn., also suffered heavily from the flood waters. Mayor Richard C. Lee of New Haven said more than 15 lost their lives in Waterbury.

DELAWARE IN FLOOD

Governor George M. Leader of Pennsylvania flew to Stroudsburg to make a first-hand survey of the stricken section as far south as Easton, where the boiling Delaware already was 15 feet above flood level—nearly 39 feet high—to break the flood stage record of 38.1 set in 1903. And the river was still rising at Easton.

In common with a number of other cities afflicted by the floods, Stroudsburg was deprived of pure drinking water. Similar conditions existed at Scranton, Pa.; Bristol, Conn., and Easthampton, Mass.

The Red Cross, which dispatched 20 disaster experts into the flooded areas, trucked water to hospitals.

New England's toll in loss of life and damage was heavy.

The Boston and Maine Railroad suspended all train service in and out of Boston until the rain stopped. Service on many other lines was cancelled temporarily. The Montrealer, running between Montreal and Washington, was marooned at Holyoke.

In the 33 hours ending at 2:30 a.m., 11.54 inches of rain fell in Boston. The old record, set in 1933, was 7.83 inches. But heavier rainfall was received elsewhere.

4 Escapees From New Jail Caught

PRINCE GEORGE, B. C. (CP)—Four escapees from the new provincial jail in this central B. C. city were recaptured 20 miles east of here Friday.

They had been free for 36 hours.

Six RCMP officers apprehended the men at Giscome, after the station master at the Canadian National Railways station there reported four men hanging around the water tower.

Police said the four surrendered without incident.

The men, who escaped Wednesday night, were Rene Couvellier, 29, Prince George, Nicholas Markin, 21, Lower Post, B. C.; and Evan McGowan, 21, Lower Post, all charged with breaking and entering, and Lucien Auben, alias Marcel Tremblay, 33, Prince George, charged with forgery.

RCMP put 30 men into the hunt after the foursome walked away from the week-old jail built at a cost of $500,000.

Warden W. S. Trant said at the time he couldn't understand how the men escaped from the cell block. The men escaped through an unlocked door.

Canada Railways' Revenues Higher

OTTAWA (CP) — Revenues of Canada's major railways jumped sharply in May by comparison with May, 1954.

The bureau of statistics reported Friday operating revenues reached $99,509,705, up from $89,453,591.

Operating expenses went up less steeply, and the result was net operating revenues of $11,150,991, compared with $4,134,905 a year earlier.

QUEEN MOTHER Elizabeth of Belgium is shown playing the violin at a private concert in the villa of Count Chigi Saracini, president of the famous musical academy in Siena, Italy. Accompanied by another violin, the royal artist was heartily applauded for her skill.
—Central Press Canadian.

Rapid Development Of A-Energy Seen

GENEVA (AP)—Sir John Cockcroft, Britain's atomic energy chief, says nuclear development will be so rapid that the atomic power station of 1970 will make the present plants as out of date as a model T ford.

In a Friday evening lecture, the British scientist also told the atoms-for-peace conference he had faith that the energy of the H-bomb would eventually be harnessed for peaceful uses.

Cockcroft, director of the atomic research centre at Harwell, said Britain is "working seriously on the problem" and "my faith in the creative ability of the scientist is so great that I am sure that this will be achieved long before it is essential for man's needs."

COAL CHEAPER AT FIRST

He said it would be a mistake to expect the cost of nuclear power to be cheaper than coal during the next decade, but he added there was "good reason to believe that in the second decade the cost of nuclear power will fall below that of power from coal and oil."

Cockcroft said there appeared to be ample supplies of uranium and thorium to supply the world's atomic power needs "until we achieve our final goal and produce by fusion reactions in the light elements an inexhaustible power source for the world."

Fusion is the process by which atoms for the H-bomb are made to explode.

Says Lease Arranged by Former Owner

Campney Terms Sun Statement "Incorrect and Unwarranted"

OTTAWA (CP)—Defence Minister Campney said Friday formal notice was given Aug. 8 of termination of his directorship with Como Investments Limited of Vancouver.

Moreover, he said, he had nothing to do with the leasing of a suburban Vancouver property, owned by the investment company and located in South Burnaby, to the federal government for use as a post office.

He said in a statement the lease was negotiated by a person who owned the property in 1950. Como Investments did not acquire the property until October, 1954.

UNWARRANTED INFERENCE

Mr. Campney issued the statement in connection with a story which appeared in the Vancouver Sun Aug. 16. The Sun said Mr. Campney was for nine months a shareholder and director of a private company—Como Investments—which owns the suburban postal station leased to the federal works department.

Mr. Campney said any inference that he had anything to do with the leasing of the property by the government "is wholly incorrect and unwarranted."

And In This Corner . . .

OMAHA, Neb. (AP)—Alva B. Collins of Omaha had paid $15, he told the court, for the battered car he was driving when arrested by sheriff's deputies for reckless driving and having faulty brakes. Judge Robert Troyer fined him $24 and costs.

DENVER (AP)—Benjamin C. Hilliard, referee in bankruptcy, has ordered a bankrupt Denver man to turn in five shares of uranium stock he owns for division among his creditors. The five shares are worth a total of 30 cents.

NEWBERRY, Mich. (AP)—With the help of her two sons, Mrs. John Johnson caught a four-pound 24-inch trout with a fly swatter.

Seven-year-old Steve spied the fish Thursday near the shore of Round Lake in this upper Michigan community. He called his mother.

She dashed out of the house with a fly swatter and took a cut at the trout. It jumped—right onto shore and between the legs of 12-year-old Johnny.

KEOKUK, Iowa (AP)—Wilbur Damon, 27, Keokuk, phoned the police station from a tavern, asking them to rush an officer over.

When patrolmen arrived in a squad car, Damon asked them to deliver a message to his wife saying he was sober.

Police disagreed.

Damon was fined $10 on an intoxication charge.

Insurance Company Head at Nelson On Kootenay Tour

K. R. Gowan, assistant manager of Crown Life Insurance Company in British Columbia, is in Nelson after completing a tour of the Kootenay. Albert Maida, district representative, accompanied Mr. Gowan.

The territory under Mr. Maida was fast-growing, Mr. Gowan said, and an additional man was already needed in the East Kootenay section.

Mr. Gowan's family accompanied him to Nelson following a stay in the Okanagan and enjoyed a further holiday here.

Gulley, Founder of Hoover Foundation, at Memorial Event

A Nelson man who was one of the founders of the Herbert Hoover foundation in Newberg, Ore., told of the dedication of the Hoover memorial, the home where he lived as a boy, on the occasion of Mr. Hoover's 81st birthday.

Emmett W. Gulley, who led the fund raising campaign to buy Hoover's boyhood home and restore it to its original state, was present when the home was dedicated August 10 in Newberg.

A luncheon for over 200 persons opened the ceremonies at which Hoover, former United States president, cut his 81st birthday cake and later addressed a gathering of over 2000. Mr. Hoover reminisced about his boyhood days and told how happy he was to see "old friends," once again. "Many of those in attendance were school chums and neighbors of Mr. Hoover," Mr. Gulley said.

Mr. Gulley, a long-time resident of Newberg, was a friend of Hoover's whom he met on several occasions, the first being a visit which Hoover made to Pacific College where Mr. Gulley was a student.

"Mr. Hoover was one of the first students to graduate from Pacific College," Mr. Gulley stated. "His uncle, with whom he came to live when he was orphaned at the age of 10, was the first principal."

Also dedicated to Mr. Hoover were the city park where as a boy he milked his uncle's cow and a recently completed highway, named "Hoover Boulevard."

"I was a student at Pacific College when I thought of buying Hoover's boyhood home from a private concern to convert it into a national shrine," Mr. Gulley recalled. "I started a movement to raise funds to purchase the property and after interesting a group of friends, organized the Herbert Hoover Foundation." Mr. Gulley told of purchasing the original furniture of the home and setting it up "just as Hoover had left it." "The dedication of the home was the climax of our work, and it was very heartening to be able to be present at the event," Mr. Gulley said.

Mr. and Mrs. Gulley, 703 Silica Street, attended the luncheon and Mr. Gulley also posed for one of the pictures with Mr. Hoover.

District Scouts Put in Time on Train Journey at Handcrafts

By NELSON SCOUT BILL GIBBON

The Jamboree Scouts of Troop 13, including boys from Nelson, Nakusp, Creston, Canyon, Salmo, Kimberley, Wynndel and Cranbrook have been mixed up and put in patrols.

The patrols are: Seal patrol with leader Bill Buchanan, second Denis Stanley and scouts Steve Barrett, John Soukoreff, Charley McDonald, Joe Liens, David Horrey and Bob West.

Sparrow patrol with leader Bill Robison, second Ted Swendson and Scouts Bob Jennejohn, Murray Bell, Terry Gordon, Burton MacKay, Bob Sitter, Wayne Highland.

Raven patrol with leader Jerry Black, second Norris Nygaard and Scouts Charley Morrison, Bob Chenoweth, Warren Andrews, John Merriam, Bill McMullen, Bill Lambert.

Swallow patrol with leader Bill Gibbon, second, Ken Erickson, and Scouts Wayne Gardner, Gerry Poulin, Dale Samuelson, Bryon Moseley, Michael Ekins.

Troop leader is Bob Maber.

TOUR GLASS PLANT

In Medicine Hat we had a 12-hour stopover to wait for the B.C contingent train which was bringing the main body of the B.C. Scouts. While there we were the guests of the Medicine Hat Boy Scout Association. Our meals were served in the St. Barnabas Church Parish Hall and were supplied by the scout mothers. We were also taken on a tour of the Altaglass works where we saw all kinds of glass ornaments and ceramics made. Then most of the Scouts went for a swim in one of the city's pools.

To fill in time on the train many handicraft projects were arranged. Some of the projects are for objects which will be used at camp, such as contingent woggles and patrol flags. Others include belts, lanyards, moccasins and knife sheaths. There is also a staff competition with a prize for the scout with the best made staff.

Because of the large number of scouts on the train the meals were served in rotation with one troop eating as soon as the other finished. There were two diners, both serving meals for about two and a half hours each meal.

PORTERS PARTICIPATE

Three Nelson boys, Fred Wah, Ted Swendson and Steve Barrett serenaded us with jazz. Even the porters got in on the fun. Late at night some of them gave us their versions of jazz on the trumpet and saxophone.

Nelson boys attending the world jamboree are Bill Gibbon, son of Mr. and Mrs. A. W. Gibbon; Fred Wah, son of Mr. and Mrs. F. Wah; Bill Lambert, son of Mr. and Mrs. T. C. Lambert; Bob Jennejohn, son of Dr. and Mrs. N. R. Jennejohn; Bob Maber, son of Mr. and Mrs. J. Maber; Stephen Barrett, son of Dr. and Mrs. G. R. Barrett; Charley Morrison, son of Mr. and Mrs. J. F. Morrison; Gerry Poulin, son of Mr. and Mrs. P. E. Poulin; Ted Swendson, son of Mr. and Mrs. T. Swendson.

Kelter to Head Centre In Vancouver

Ed Kelter, who recently resigned as recreation director for the city of Nelson, will leave for the coast at the end of the month to take over as director of the Mount Pleasant Community Centre in Vancouver.

Mr. Kelter is well known to Nelsonites, having served in prorec for years. During his stay in Nelson he has developed many potential gymnastic champions, raised the standard of recreation activities and has taught scores of children to swim and dive.

Life-Saving Fund Over $300 Mark

Fund to provide life-saving equipment for the growing lake-shore resort communities of Balfour, Queen's Bay and Procter has gone over the $300 mark.

Contributions amounting to $37 sent the fund higher Friday.

The Nelson Daily News, one of the four collection centres, received $25 from Vincent Fink and a $2 donation; Holiday Inn at Procter reported gifts totalling $2, and Tillicum at Balfour was given $5 by Chuck Noakes, $2 and an accompanying letter from E. J. Uhthoff, and another $1.

These brought total subscriptions since the fund began about two weeks ago to $316.25.

Municipalities Department Man Visits Here

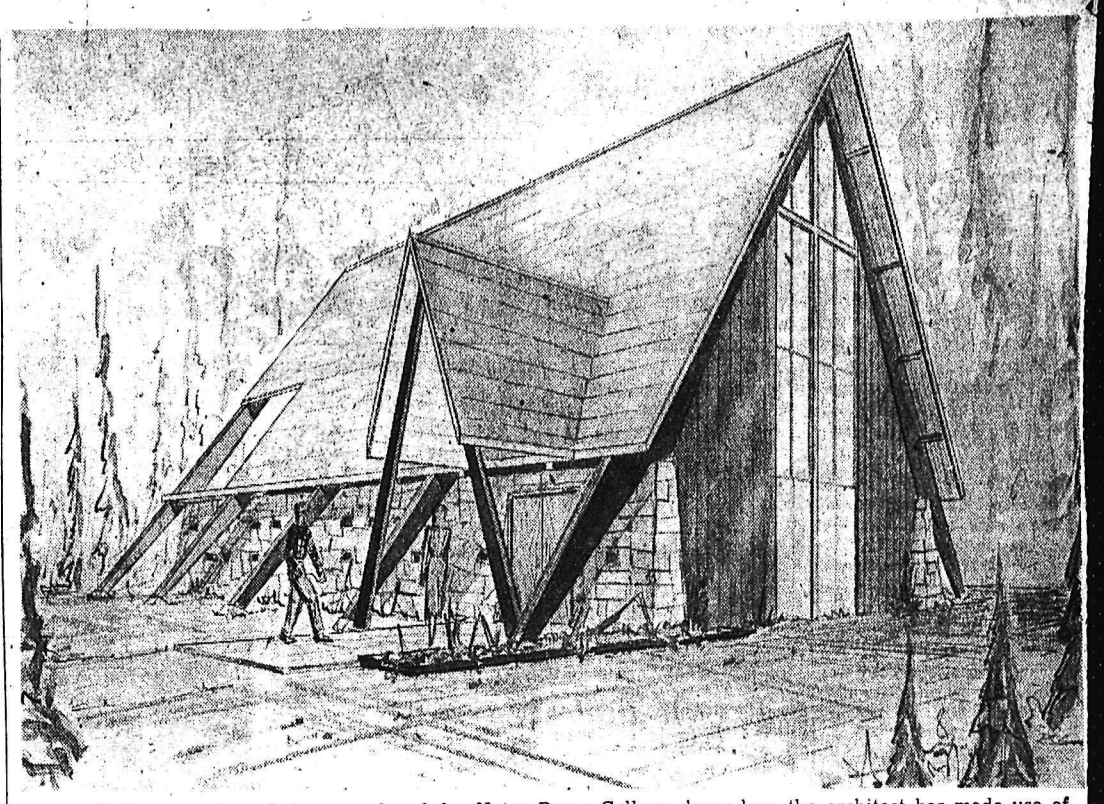
Supervisor of Municipalities, James D. Baird, of Victoria, was in Nelson Friday consulting with city officials. Mr. Baird has been visiting municipal heads in centres throughout the B. C. Interior advising on municipal matters.

Mother of Trail Man Laid at Rest

Funeral services were held in North Vancouver Friday for Mrs. Anna Marie Goranson, mother of Herbert Swanson of Trail. Mrs. Goranson died Tuesday at the Swedish-Canadian Rest Home in North Vancouver at the age of 86.

She is also survived by one daughter, Mrs. Lille Swendberg in Minnesota; one brother, Carl Johnson in Sweden; five grandchildren and one great-grandchild.

The skunk aids man by eating hordes of cutworms, beetles and grubs.



Artist's conception of the new chapel for Notre Dame College shows how the architect has made use of natural stone that abounds in the area and a design to complement the forest and mountain setting. Note the huge cross that dominates the window structure. Special gifts have provided $25,000 for the chapel, which will accommodate 140 worshippers. Architect is Paul D. Smith.

Swimmers Train For West Arm Competition

Ed Kelter, promoter of the 20-mile swim from Procter to Nelson which is to be staged Sunday, August 28, said Friday that seven contestants, six men and one woman, were training daily for the attempt.

Although a sponsor has not been found to put the event over, the race will definitely be held he stated. There will also be a swimming gala at Lakeside Park the same day with races and diving competitions for all ages.

With the temperature of the water warmer, it is expected the swimmers will be able to complete the swim and every effort is being made to find prizes for the winner.

Koolaree Girls Seek Treasure

A treasure hunt highlighted the day for the senior girl campers at Camp Koolaree in their fourth day at camp. When the signal was given the cabins set out to beat each other to the hidden treasure. Cabin four members proved to be the best detectives as they uncovered the edible treasure. Runners-up, Cabins five and three, also received prizes.

During rest hour the girls were kept busy composing cabin songs and yells which were presented at campfire.

In the sports events, Cabin five defeated Cabin four in a softball game by two points.

At campfire a "Dorothy Dix specialty" was conducted by Cabin five, as Dorothy Dix (Pam Humphries) gave the girls all the answers to their love problems. In a "name game" contest, Bev Berry and Heather Fulter failed to identify some campers and as a penalty had to roll a pine cone with their noses for 50 yards.

After a rousing sing-song, the girls carried their bunks outdoors and slept under the stars while Mrs. Jean Ellison sang them to sleep.

250 See Park Films

Five films were shown to a crowd of 250 at Lakeside Park in the series of Films Under the Stars, sponsored each Sunday and Wednesday by the Nelson Film Council.

The films included three from India, "Drums of Manipur," "Forgotten Empire" and "Kulu"; the Danish film, "They Caught the Ferry," and "Sailors of the Queen."

Four Die in Train Wreck

MARKED TREE, Ark. (AP) — At least four persons were killed and an undetermined number injured Friday when the Frisco Railroad's Kansas City-Florida Special passenger train was wrecked near here.

Lillian Miller to Represent Nelson At Vancouver Miss PNE Contest

Miss Lillian Miller will represent her city as "Miss Nelson" at the Pacific National Exhibition queen contest in Vancouver Aug 24 to September 5.

Daughter of Mrs. Pauline Miller, Lillian will leave Nelson August 27. Travel expenses are met by the PNE, including accommodation at the Hotel Georgia. Miss Miller, 18, is sponsored by the Nelson Hockey Booster Club. Word of her acceptance as a candidate was received from Vancouver by Mayor Joseph Kary.

Miss Miller was endorsed as Miss Nelson at a meeting in the City Council Chambers at the Chamber of Commerce building Friday night. Two committees were formed to assist in preparing Miss Miller for entry. Mrs. Helen Armson and Miss Mae MacFarlane will assist in wardrobe, beautician and deportment preparation and studies, Mayor Joseph Kary, William Armson and James Boates form a finance committee.

This morning the comely Nelson miss, who has resided here for four years, will begin to brush up on her knowledge of Nelson, the Kootenay and current affairs with the assistance of an advisory committee. Photographs to accompany her entry are to be taken later in the day.

Born in Yorkton, Sask., where she received her elementary schooling, she came to Nelson four years ago and graduated from Grade 11 at Nelson High school She was employed for a short time as a telephone operator at the B.C. Telephone Company and is now employed by Olson's Jewellery Shop.

Twenty-three girls from all parts of the province will contest for the title of Miss PNE, Miss Miller being the only representative from the Kootenay.

Gift of a beautiful Canadian Arctic fox fur made to a shoulder cape will be an added reward for the young British Columbia lady chosen as "Miss PNE" it was announced Friday by M. L. Barr, committee chairman. The young ladies make their first fair appearance Monday, August 28 and the winner is named at the Out-Door Theatre Wednesday night. August 30.

The Arctic Fox shoulder cape is being presented to the winner by the British Columbia fur Merchants Association representing all branches of the fur industry from the trapper to the retailer "Miss PNE" also wins a $1000 cash award from the Exhibition and will have the added title of Miss B.C. Lions as she competes in the big Miss Grey Cup contest in November.

Entry list for the "Miss PNE" contest has now closed. Other contestants will be from Salmon Arm, Penticton, Vernon, Duncan, Osoyoos, Nanaimo, Victoria, Kitimat, Burnaby, Chilliwack, New Westminster, Ladysmith, Surrey, Mission City, Abbotsford, Haney, Chase, Campbell River, Courtenay-Comox, Kelowna, Powell River and Vancouver.

Around and About

This is the initial sally into print for "Around and About," a column of news jottings from all corners of the Kootenay country. This department will welcome contributions from readers of suitable material, either amusing incidents or sideline slants on events of current interest to Kootenaians.

• • •

An assessor's lot is not always a happy one, but it certainly has its humorous features, according to Trev Roote of Vancouver in charge of the Schultz Appraisal Company which is endeavoring to equalize assessments in the city of Nelson.

For instance, there was the Doukhobor woman who couldn't speak English, so she gave a whoop and a small boy appeared to interpret.

One old fellow gasped when he learned his property was being reassessed: he had added a complete suite in the basement and finished upstairs without notifying the building department.

A woman refused the assessor's entry until told they would have to take it for granted that she had hardwood floors and the very best fixtures.

Then there was an old lady who asked the assessors to put the assessment of her son's house "as high as the sky."

Generally, though, assessors have met with a good reception from householders, having covered about 40 per cent of the residential area. They have found Fairview assessments to be reasonably accurate. Greatest discrepancies exist uphill.

The commercial area won't be probed until the government sets up manual classifications.

...August issue of Liberty includes **Viola MacMillan**, well-known in the Slocan, in an article on richest Canadians. Says the excerpt about her: "One of Canada's few self-made women millionaires is Muskoka, Ontario's stocky, dynamic Viola MacMillan, president of ViolaMac Mines Ltd., in British Columbia. Viola and her husband, George, have prospected across Canada. They bought their $10 million ViolaMac mine for $65,000. She sold stock to raise the $40,000 down payment. Says Viola, president of Canada's Prospectors and Developers Association, "My weakness is putting money into another hole in the ground. That's the kind of drama I love."

...While he has been a patient in Natal hospital, elderly **Gusto Quarin** has constructed a beautiful fiddle from matches and toothpicks. Quarin, who whiled away 60 hours making the violin, has made 60 such instruments in spare hours, and even accordions. Those who have heard him play the latest instrument say it has a fine, mellow tone.

...With registration in the Association of Professional Engineers of B. C., **Quentin Lake**, Nelson's energetic works superintendent, has been elevated to the rank of city engineer.

...**G. W. Gold**, who has been purser on MV Anscomb, his wife and three children will be packing bags for Australia. They hope to get passage in September or October. Vancouver-born and a resident of that city most of his life, Mr. Gold, a Second World War veteran, moved to Balfour in 1945. The move to the Land Down Under has been "planned for many years," and was decided upon definitely last Winter.

...For more than 15 years, **Theodore Valli**, president and publisher of The Winsted Evening Citizen at Winsted, Conn., has visited Nelson on an annual pilgrimage, and this Summer was no exception. His wife is a daughter of Mr. and Mrs. W. A. Weatherhead.

Because there are some kinds of mineral salts in car tires, porcupine consider them a tasty dish. But Kokanee Park porkies much prefer brake lining. **Vern Nelson and Bill Ramsden** spent two days fishing at Kokanee Lake in the glacier park. Upon returning to Nelson's panel truck, they discovered that porcupines had made a meal of one tire, chewing it so badly that it blew out. But worse, the walking pincushions had found the brake lining even more appetizing, and the anglers had to make the return trip out of the mountains without brakes.

...Tourist business, from the accommodation angle, is as good as, or better than, last year's, in opinion of **Bruce Clark**, secretary-treasurer of the 42-member Kootenay Courts and Resorts Association. More Albertans than usual are holidaying in the Kootenay playground, he believes. In Nelson itself about 15 units have been added to courts since last Summer.

...John Betjeman, in his City and Suburban contribution to the June 24 issue of British weekly publication Spectator, stated: "I am distressed about Lord Salisbury's motion to reform the House of Lords by excluding some of those delightful Peers who never put in an appearance. The less known a Peer is, the more he interests me: Lord Gardner, for instance, who may or may not exist somewhere in India; **Lord Aylmer**, who rarely leaves British Columbia, that home of quiet baronets: Lord Carberry, who changed his name by deed poll to Mr. Carberry and lives in Kenya; Lord Egmont happy in Alberta: all the retiring Peers who live in country places doing their local duty on farm and bench or working for their living in smoky cities..."

...Historian **R. G. Joy** answered a rap on his door at 904 Josephine Street and opened it on a stranger who introduced himself as **E. A. Bellis** from the Prairies. Born 47 years ago in Nelson, the son of J. E. Bellis, who was a streetcar conductor along with his brother, Harold Bellis, he was back in town to see familiar sights of his childhood. A trip to Fairview to try to locate his old home proved fruitless; it had been erased in changing face of Nelson. The home-comer was amazed at the transformation.

WHAT BEST DRESSED MAN IN CRANBROOK WILL WEAR during jubilee week, provided he enters the golf tournament, is sported in this picture by Bill Hume jr., Roy Proctor and Cameron MacDonald. The golfing regalia includes, you'll note, the facial adornments. The tourney will run for three days on Cranbrook's nine-hole golf course.

—*Jaycee photo.*

FOR CRANBROOK JUBILEE FETE . . .

Attics Being Ransacked For Edwardian Costumes

CRANBROOK — Cranbrook people are digging through attics for Edwardian costumes in preparation for the biggest party they have ever held, the Golden Jubilee August 31, to September 5, to mark the 50th anniversary of the city's incorporation in 1905.

The event is even more ambitious than the 1948 highly successful celebration to mark the 40th anniversary of construction of the railway which linked Cranbrook in 1898. The city's big three-tier birthday cake, complete with 50 electric candles and topped with a big key symbolizing Cranbrook's position in East Kootenay has been constructed and decorated by the Rebekah and Odd Fellow Lodges, located prominently at the intersection of Van Horne and Baker Streets.

Main purpose of the six days of play in the old fashioned way is to gather together former residents in a grand reunion but the secondary feature of providing a wide variety of participating and spectator events has grown even larger.

Opening day, August 31, will be devoted exclusively to the oldtimers. Most exclusive event for which guest list of no more than about 150 is expected is the Pioneers' Dinner at the Mount Baker School auditorium which the Scandinavian Sisters will prepare and serve. Stringent qualifications for invitation for the guest is residence in Cranbrook in 1905 or earlier, and the invitation also covers a partner. Longest-time residents eligible for this event are Sandy MacFarlane and Angus Morrison, both of whom arrived in Cranbrook in 1897 on foot over a tote-road well ahead of the steel rails. Appropriate entertainment program for these guests will follow the dinner rather than speeches and the whole event will lead up to a public Gay Nineties Ball which also will be in the school.

Major spectator event will be the annual Lions Club Rodeo set for the Saturday and Labor Day of the celebration week. This is the final scheduled competition of the Canadian Cowboys' Protective Association circuit of top stampede competitors and prizes for the rodeo here will total $2000.

Other spectator and competitive events include a three-day softball tournament at Baker Park with Lethbridge, Castlegar, Calgary and Brockett already entered, and a three-day 32-rink bonspiel at the curling rink for which ice will be made, both to start the Friday of the celebration, Sept. 2. Aquatic competition for swimming, diving and log birling at the Gyro swimming pool has been set for the Friday, and a Jubilee golf tournament at the Golf Club's premises Saturday and Sunday. Arts and Crafts Association plans a square dance festival for the Memorial Arena Friday evening, and a package commercial show is set for the arena Saturday and Monday.

Labor Day morning parade, under auspices of the Rotary Club with $400 in prizes to be built around the Edwardian theme, will be one of the largest events of the week.

Safe, $2200 Stolen From Cranbrook Garage

CRANBROOK (CP) — A safe containing $2200 in cheques and cash was stolen from the Premier Service Station here early Friday.

Police said the 500-pound safe, containing $1600 in cheques and $600 in cash was pushed to the rear of the building and apparently loaded aboard a truck.

Authorities said the robbery apparently took place sometime between midnight and 7 a.m. PDT.

Medical Officer Resigns Post

CRANBROOK — Medical officer and secretary since November, 1949, for the East Kootenay Health Unit, Dr. W. G. Watts has resigned to accept appointment effective in September as medical health officer for Etobicoke Township, a suburb of Toronto. He came to Cranbrook from Ontario and has been a member of Christ Church parish, Lodge No. 42, AF and AM, and of the Rotary Club. His wife and daughters will accompany him on his return East.

No successor has yet been named for the unit which covers five public health districts. Miss Norah Woods, PHN, head nurse for the unit, leaves soon on a year's leave of absence to continue public health studies at McGill for which she was awarded a dominion government bursary. Her successor has not yet been named.

Miss Vera Andrews, RN, of the unit staff, has been transferred from Creston to Cranbrook district. Additional public health nurses are still to be appointed for Creston and Kimberley, both of which points require two staff public health nurses. Paul Ritchie, located at Kimberley, is East Kootenay Health Unit sanitarian, but appointment of a second sanitarian is pending with each to be responsible for half the large district.

Missing Mother Presumed Dead

VANCOUVER (CP)—Mrs. Helena Jackson who disappeared from her North Vancouver home April 11, 1954 was declared dead by a Supreme Court order issued here.

Application for the order was made so the widow's estate may be settled. She is survived by two children, Graham, 20 and Margaret, 19.

Following Mrs. Jackson's disappearance in night attire, parties of more than 200 searchers and RCMP hunted nearby mountains and woodlands for more than a week without finding a trace.

$135,260 School Program Okayed

GREENWOOD — Referendum put to ratepayers of Kettle Valley School District recently for a $135,260 building program, has been declared approved by a 74 per cent majority, it was announced here Friday. Sixty per cent assenting vote was required.

An overwhelming "yes" vote in Greenwood city was responsible in the main for the referendum being put through.

Work will begin as soon as possible on its provisions: a four-classroom addition and auditorium-gymnasium for the Greenwood elementary - high school costing $90,000; and additions to Beaverdell superior, Kettle Valley elementary and Midway superior schools.

Jackson Basin Denies Reports

VANCOUVER (CP) — Reports that Jackson Basin mining Company has abandoned its uranium claims in the Slocan area, 250 miles east of Vancouver, were denied by company officials.

Exploration crews had been moved from the claims to carry out work on other property. This work will be completed by October 1.

Officials also announced the company has acquired some copper claims in the Highland Transvaal area near Ashcroft, where a crew now is working.

Washington Suffers From River Floods

WASHINGTON (AP) — The Potomac river has overflowed its banks threatening to drench historic monuments in Washington and along the Virginia shore. A high tide four feet above normal and heavy rains, both products of hurricane Diane, brought floods at several low points in the district of Columbia and Alexandria, Va. The tidal basin overflowed and water crept through the cherry trees toward the Jefferson memorial.

Cruelty to Young Dog Brings Fine

GUELPH, Ont. (CP)—A Rockwood, Ont., couple who said a year-old dog was making a nuisance of itself were fined $50 each for tying a tin can to the animal with a metal strap. Robert Henry and Mrs. Alfred Winter said the collie had bothered sheep and tried to get into a tent occupied by two girls on the Winter farm.

"Stinking Willie" Dread Cow Killer

ABBOTSFORD (CP)—Although no cases of cattle dying as a result of eating "stinking Willie" have been reported in Matsqui-Sumas-Abbotsford district, threat of cow killer remains high, department of agriculture officials reported on Thursday. Recently Tansy Ragwort, popularly known as "stinking Willie" was added to the provincial government's list of primary noxious weeds.

Apple Spray Advised

CRESTON — Apple growers who consider it necessary to apply a second brood codling moth spray to their orchards are advised to apply a control spray by this weekend or the first part of next week. Where adequate protection against pinpoint scab has not been provided, the addition of Ziram to this spray is recommended. Ziram should be applied at the rate of five pounds per acre in concentrate sprays and one pound per 100 gallons of spray in dilute sprays.

Two Kelowna Men Killed in Collision

KAMLOOPS (CP) — Two men were killed in a rear-end collision on the Cariboo highway near here early Thursday.

Dead are Joseph Frank Koenig, 20, of Kelowna, and George Travis 23, of Kelowna.

Critically injured with a broken neck is Ralph Wardell, 16, of 100-Mile House.

Minor injuries were suffered by Thomas Hannah, 25, and Robert Chappel, 16, both of 100-Mile House.

Failure of a lumber truck's lighting system is believed to have caused the fatality.

Why Is Home Ownership So Costly?

Mr. George Bain, of The Toronto Globe and Mail's reporting staff, has been looking at the "New Town" of Crawley, in southern England. He found that local authorities there were building four bedroom row-houses to rent, with subsidy, for $21.15 a month. The economic rent—*that is, the rent without subsidy*—would be about $24.

British wages and prices are roughly half what they are in Canada. But even when this is allowed *for, the result is startling.* Could a four-bedroom row-house be built, in Canada, to rent for $48 a month? Of course not. We doubt if such a house could be built to rent for less than $100 *a month, which is a lot more* than the average Canadian can pay, or should be expected to pay.

The cost of housing in Canada is keeping a lot of people in inadequate accommodation. It is the reason Canadian Legion branches continually pass resolutions asking for inquiries into housing costs and an effort to bring such costs within the reach of those with ordinary pocketbooks. Moreover, it is keeping would-be landlords from investing in rental accommodations because they feel the rents they would have to charge to get a reasonable return on their investment would be more than their tenants could pay.

The government has made some changes in its National Housing Act financing arrangements to speed up the construction of housing. These changes have eased down payment requirements, but they have not in any way eased the overall financial burden for the home-owner. Under these plans a home-owner over a 20-year or 25-year repayment period *can expect to repay something in the* neighborhood of twice the amount of his contract price. This plan is fine for the financial houses, but something better is needed to assist the *would-be home-owner — the people* who form the backbone of the nation.

However, more than an examination of financing arrangements is required. It should be known just why *all phases of home ownership are so* expensive. Are methods efficient and economical? Are workmen being put on the jobs skilled and honest in giving a day's work for a day's pay? *Are contractors' mark-ups reasonable* or unreasonable? Are prices of fixtures unreasonably high? Are land values exaggerated? Are planning, legal and servicing fees reasonable?

Housing is so vital to a nation's well-being that it is one field of endeavor in which the government can honestly interest itself without facing charges of interference in private business affairs.

A wet Spring and July; then August came to the rescue.

Winters are short, at this time of the year.

It's the time of year when the kids start counting off the remaining vacation days on their fingers, mothers feel their vacations are nearly about to begin, and the merchants put out the back-to-school displays.

Letters to The Editor

Letters to the Editor on any topic of genuine interest are welcome if they are brief, accurate and fair. No letter will be inserted in whole, or in part, except over the signature and address of the writer. Unsolicited correspondence cannot be returned.

Second Act of Bravery

To the Editor:

Sir—We have noticed a lot of comments as to Bernard Swendson's bravery in the Kline disaster, which is quite true; but had it not been for Mr. Fred Graves, Bernard would not be with us now. Mr. Graves swam out with all his clothes on and held Bernard up until a boat arrived to help.

MR. AND MRS. W. KLINE.
R.R. 1, Nelson, B. C.

It's Been Said

Only the actions of the just smell sweet and blossom in the dust.—James Shirley.

Your Horoscope

Extensive gains are suggested. A strong will and generosity are indicated for a child born today.

FOR SUNDAY, AUGUST 21: A happy and successful year seems in store. Today's child may be artistic, musical and (or) literary.

That Hot, Hot Subway

It may not be news to subway riders, but these days the Toronto subway is H-O-T. So it may be interesting to note that the rapid transit authorities in New York City are thinking about air-conditioning their 7000 cars. Up to now the T.T.C. hasn't done any study of air-conditioning possibilities.

When the subway was built, it was thought the air-vent system, which draws down fresh air from the street to replace stale air in the subway, was all that was needed. At that, the exchange of air here—even though it just brings down hot air from the surface—is better than in New York, where the stale air hangs on.

The expense of air-conditioning the sub*way cars would be high, and special* problems, such as the constant opening of doors, would be faced. But the New York I.R.T. will have a test car operating by the end of August. It mightn't be a bad idea for the T.T.C. to keep track of the New York experiment. After all, each summer seems to be hotter than the one before.—Toronto Star.

Credit to Railways

Canadian railroads must be credited *with the lion's share of building up this* country. No other factor would have bridged the 4200 miles from sea to sea in the same sturdy fashion. It is encouraging to see them step out, adopt a "new look" and set their aims on better things to come. Willingness to please is a prime element in effective service, and there is no reason to doubt but that the public will respond to such inducement in the right spirit.—Victoria Colonist.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. QUESTIONS WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

Student, Kaslo—When were appeals to the British Privy Council abolished?

December 23, 1949.

W. L., Montrose—Where would one write for information pertaining to training as a television cameraman?

Radio College, Toronto; Ryerson Institute, Toronto; or Brooks' Institute, Santa Barbara, California, U.S.A.

Curious, Trail—How soon after death is a will filed, and would it be Vancouver or Victoria for this district? Is the search fee fifty cents?

Will is filed one week after death. Write to the Department of Vital Statistics, Parliament Buildings, Victoria, for information regarding will. Search fee is fifty cents.

Oldtimer, Nelson—Is it so that a compass needle does not point due north?

A compass needle, even when unaffected by extraneous magnetic fields, does not in general point due north. The amount by which its direction differs is called "magnetic declination", and the declination varies with the position of the observer and also slowly with time.

F. G. L., Castlegar—What would be the du*ties of a member of a City Council, any* city?

He or she must be a householder residing in the municipality or rated on the last assessment roll for land held in his own right. Also, a prospective member must live within five miles of the municipality if not living in his own house referred to above. Must be a Canadian citizen, at least 21 years of age, and not disqualified under any act of the Canadian government. Must watch public expenses as carefully as own expenses; must be familiar with the problems *of municipality; lend assistance beyond the* call of duty to those in need; be available for consultation with ratepayers of municipality.

Drainage A Simple Remedy

There is not the slightest excuse for the flooding which took place on the Lake Shore Road just west of the Humber Bridge, following the afternoon storms on Wednesday. Similar floods take place when there is far less rain than fell that day. The flooding is due to the failure of the road engineers to design proper drainage for the area.

The location is a relatively low, flat stretch between the Humber Bridge and the *Queen Elizabeth Way entrance. Water from* the surface of the Lake Shore Road, both lanes of the Queen Elizabeth Way, the Queensway and the intervening areas all tends to collect at that point. It is a grave reflection on the capacities of the engineers in charge of these highways that adequate storm conduits are not provided to take the water off the roads to the lake or the Humber River, both of which are only a few yards away. The job would not be expensive or difficult, but the interruption to traffic due to such occasions of flooding would be eliminated.—Toronto Globe and Mail.

Good Economic News

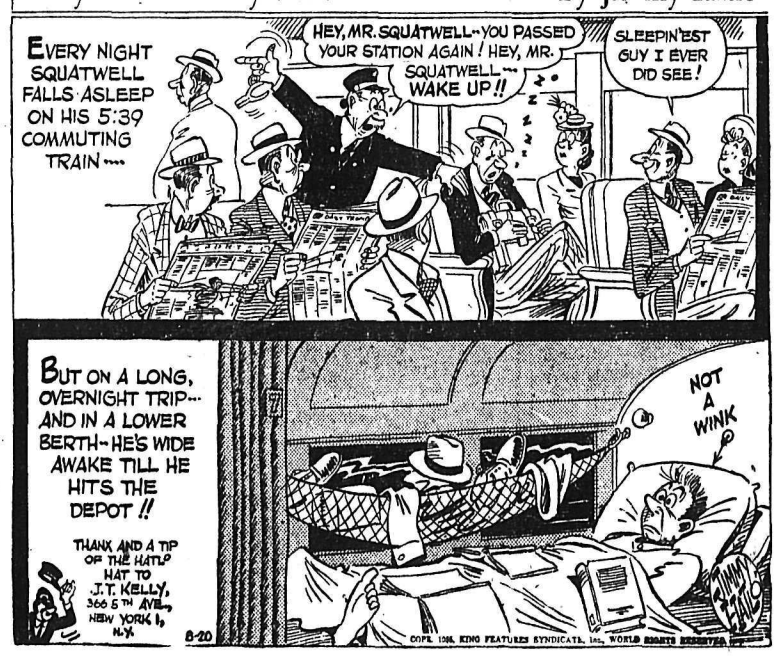
It is good news for the nation when a Canadian steel company is able to underbid a European competitor *for equipment for* Ontario's share of the St. Lawrence River power development. Dominion Bridge Company Limited got the contract for $1,698,800. The next low bid was from West Germany at a price almost $600,000 higher.

But a curious feature of the announced bids was that a Canadian firm also submitted the highest one. Its excess over the low bid was no less than $2,270,778, at a total of $3,964,570. Thus, while some Canadian engineering firms are learning to meet lower cost competition, it is obvious that others must undertake and complete a thorough study of the home market.

When industry in general has done that, and lowered its costs to competitive world levels, the national economy will be on a more sound basis — and industry will be earning more consistent profits. A prosperous nation must have competition at home, as well as in foreign markets.—Toronto Globe and Mail.

They'll Do It Every Time

By Jimmy Hatlo



Today's Bible Thought

Mary Magdalene came and told the disciples that she had seen the Lord.—John 20:18.

The world is willing to forgive men's sins, but not a woman's.

Mary Magdalene did become a great saint to prove that any sinner may be clean through the redeeming power of faith and love.

Aunt Het

A kid's bad manners don't show what kind of a man he'll be. Some of the best foods smell awful while cookin'.

Scotland--Then Back to Lincolnshire

. . . F. B. Pearce

Excessive nationalism is a curse in these days. It is very embarrassing to have your friends tell you how wonderful their country is as if daring you to declare yours is better.

The poor Englishman is at a loss when it comes to dealing with the Scots. He has long forgotten the history he learned at school and when they talk of Bannochburn he is apt to be bewildered. The Scottish crown jewels are in Edinburgh and when I remarked to the attendant that in their way they were the equal of the English crown jewels he said that the Scottish crown jewels belong to Scotland, but the English crown jewels to the Commonwealth. I didn't argue but it seemed to me that it was like saying "What's mine is mine, but what's yours is ours."

It was beautiful weather in Edinburgh and the streets were filled with tourists. Princes Street was crowded and though it has the reputation of being the finest street in Britain, I prefer Regent Street in London. We took a bus ride around the city and the driver told us about the famous places, and we went out to see the Forth Bridge which is still a wonder of the age and we visited the Castle.

The Scots are proud of Edinburgh Castle and rightly so for it is an imposing and at the same time a cheerful structure with none of the sinister appearance most castles have. There are no words to describe it well, but we enjoyed it very much. We saw Holyrood Palace too, but we were not too impressed with that.

MONEY CURBS CHOICE

Edinburgh is an entrancing city and we should have seen more of it, but like London it is expensive to stay in so we went South again through Melrose. We visited the Abbey which in its way is unique, but I was content to view it from the outside. One can have too much *even of beautiful ornamentation* and a procession of cathedrals had left me with no clear recollection of each of them Time and money are the bugbear of tourists and one wonders whether it is better to see a great deal in a short time on some particular spot in a longer period, but the money leaves one with less choice.

From Melrose we went to Hexham in Northumberland. On the way we *crossed the Cheviot Hills* and, at the highest point, the border between England and Scotland. The whole sweeping panorama of the Cheviots can be seen from this point stretching away in the distance.

CROSSING THE WALL

Just before we reached Hexham we crossed Hadrians wall, but I was the only one who caught a glimpse of it. Hexham was full so we went on five miles to Conbridge. That too was full for nearby is a Roman camp and many students spend their summer holidays there. We found good accommodation in a private house and that evening inspected the Roman ruins. It had been probably something like a brigade headquarters with offices and workshops. The floors had been heated by hot air flues and there was an acqueduct which filled a cistern. There were several temples too, for the Romans were tolerant of all religions

After Conbridge it was an easy run back to our starting point, but we detoured to visit York. It was Sunday so we missed the snarls of traffic in its winding streets We visited the majestic minster and walked along the city walls and saw the narrow "Shambles" where the butchers had their shops but we were glad to end our ourney in peaceful Lincolnshire.

Defend Gordon's Salary Boost

TORONTO (CP) — Four directors of the Canadian National Railways defended their decision to recommend a $25,000-a-year pay increase for Donald Gordon, *the railway's president.*

J. A. Northey of Toronto, Wilfred Gagnon of Montreal, W. J. Parker of Winnipeg and B. L. Daly of Montreal, said they considered the increase helped to bring Mr. Gordon's salary "into line with earnings of men in private industry who carry comparative-responsibilities."

Mr. Gordon's annual salary was raised from $50,000 to $75,000 Monday, making it the highest salary in the Canadian civil service.

Mr. Parker, head of the Manitoba Wheat Pool, said in his view Mr. Gordon's position is second only to the prime minister's for difficulty and heavy burden.

Car Crashes Into Truck, Kills Driver

VANCOUVER (CP) — One man was killed and two were injured shortly before midnight Thursday when a car crashed into a city waterworks truck and then plowed through a fence and came to rest against a house.

Dead is Jack McKenzie, 21, driver of the truck. Charged with manslaughter is 19-year-old Lance Darnell, said to be the driver of the car. He was released from hospital after treatment for minor injuries.

Still in hospital in good condition is George Balancius, 21, passenger in Darnell's car.

Two off-duty traffic officers who witnessed the accident, John Page and Hugh Wiebe, said in their report Darnell went through a stop sign and hit the truck, spinning it around and turning it over.

The car crashed over the curb, through a fence and into the verandah of a house.

B.C. Leaders United On Health Scheme

VANCOUVER (CP) — Labor leaders Friday joined with opposition political leaders in backing Premier Bennett's proposal to press for a national health scheme.

Premier Bennett said Thursday the B.C. government would seek a national health scheme, financed 50-50 by the federal and provincial governments. The proposal, he said, would be advanced at the October Dominion-provincial conference.

Dr. Gordon Ferguson of the B.C Medical Association said: ". . . I know the association would be quite ready to assist Premier Bennett in helping to plan a sound *basis for a national health service.* As a matter of fact, our association has written to provincial Health Minister Eric Martin offering our services."

LIBERALS IN FAVOR

Provincial Liberal leader Arthur Laing said he was in favor of a plan "visiting the costs of Canadian health on all the people of Canada."

"He can count on 100 per cent support from us," said E. E. Winch, veteran CCF member of the legislature and deputy leader of the B.C. house. "He (the premier) has at last come around to supopr'ting our position."

The proposal was termed "the best news of the summer" by Tom Alsbury, *Vancouver Trades and* Labor Council president.

R. K. Gervin, B.C. Trade Union secretary, said:

"All labor men will be happy to press for an overall health scheme. Labor believes in such a plan on a national basis. We have persevered for it for many years. The premier will have the best will of labor."

See Peace Uses For Tritium

By FRANK CAREY

GENEVA (AP) — Tritium, an ingredient of the hydrogen bomb, may prove a valuable help to commercial laundries in cleaning greasy clothes.

W. G. Brown of the United States Atomic Energy Commission's Argonne National Laboratory told the Atoms-For-Peace Congress Friday this radioactive form of hydrogen may also become widely used in the dairy, petroleum and other industries.

Tritium is the heavyweight of the three forms of hydrogen The others are ordinary hydrogen and deuterium. Tritium is made in atomic reactors by bombarding a form of lithium with atomic neutrons. It exists only in minute quantities in nature

Since tritium itself is a form of hydrogen, it could be mixed with materials containing hydrogen. And since it is also radioactive it could be detected with a geiger counter, thus allowing measurement of what happens to all hydrogen involved in a given process.

DISTRIBUTED IN GREASE

Thus, in laundries, tritium could be put into a washing solution for *greasy clothes and it would be*come distributed among the hydrogen atoms in grease.

Later the clothes could be inspected with a geiger counter to see whether all the grease had been removed.

"The low cost of tritium and the high dilutions which are permissible should lead to widespread use in industry," they reported.

Tritium might also have wide application industrially for measuring retention of dyes by fabrics study of combustion processes in the petroleum industry, petroleum exploration, and investigations of atmospheric pollution.

Mountain of Copper Pa[illegible] Weekly Wage of $60,00[illegible]

By FORBES RHUDE
Canadian Press Business Editor

MURDOCHVILLE, Que. (CP)—Five years ago this town was a wilderness, traversed only by trails, diamond drillers and woodsmen.

Today it is the centre of a great new mining industry. Some 2000 people live here, probably 4000 will be here within a couple of years, and the 25-square-mile townsite is laid out for 10,000.

Copper did it — a mountain of copper on which $40,000,000 has been spent in creating a mine which went into production in April and which provides a payroll of around $60,000 weekly.

When in full operation the mine is expected to produce 42,000 tons of copper yearly, worth, at 35 cents a pound, around $30,000 000, compared with a total Canadian production in 1954 of 303,000 tons.

The industry is the creation of *Gaspe Copper Mines Ltd., subsidi*ary of Noranda Mines Ltd., big northern Quebec copper producer, and the town is named after James Y. Murdoch, president of Noranda and of Gaspe copper.

In 1936 Noranda Mines went in diamond drilled, stopped during the war and started again afterwards.

The result was to establish existence in Needle mountain of 67,000,000 tons of low-grade ore estimated to average 1.3 per cent copper, but reported to be running higher on current production. Two per cent would mean 40 pounds of copper to the ton of ore.

TRAINED WORKERS

In 1951 Gaspe Copper Mines was formed and in February, 1952, W. G. Brissenden, now assistant manager came in with 12 experienced miners from Timmins, Ont.

In June gangs of men from Foundation Company of C[illegible] came in to start work on mi[illegible] buildings and townsite.

SPECIAL FEATURES

John B. Watts, chief mining engineer of Gaspe copper, describes some of the mine features as follows:

First copper producer in Canada to project such a large starting milling capacity — 6500 tons compared with a usual 1000 to 2000 *tons.*

Concentrator designed in two segments which can be run independently. Capacity could be doubled by doubling the power on the conveyor belt to 1200 horsepower.

One of perhaps two mines in Canada with diesel-mechanized underground equipment such as trucks and loaders.

Open pit workings at the top, in addition to containing copper, also *provide silica flux needed in* smelting.

EXPRESSED IN MONEY

The 1954 annual report of Noranda Mines showed advances to Gaspe Copper Mines at Dec. 31 *of* $37,129,280. The 1954 annual report of Gaspe Copper shows $35,276,000 spent at Dec. 31 as follows:

Mill (or concentrator) $6,151,000; smelter $4,803,000; other buildings and equipment $6,805,000; underground development and mining $4,293,000; townsite development and housing $4,273,000; indirect and other charges $5,070,000; administration and general expenses $1,664,000; cost of financing $2,217,000.

Banner Harvest For British

LONDON (AP)—British farmers have begun reaping one of the best harvests in living memory.

One of the most potent reasons for the exceptional crop has been a spectacularly sunny summer in a land where there's usually so much rain that umbrellas are a part of the national dress. Last year steady rains and high winds throughout the summer damaged much of the crop.

Secondly, myxomatosis, a pest disease, has killed off tens of thousands of rabbits which in past years have destroyed and damaged thousands of pounds worth of agricultural products.

And then there's the increased efficiency of the formerly tradition-bound British farmer. During and after the war he opened his arms and farms to mechanization.

ONE BLACK SPOT

Although the over-all harvest prospect is bright, there are a few isolated black spots.

Scattered sections in the south and southwest are threatened by sudden ravages of fungus disease, blackstem rust. It causes a shrinkage of wheat and loss of weight and quality.

And the disappearance of the rabbits has not been an unmixed blessing. Foxes and stoats, which usually feed on the bunnies, have started raiding young lambs and chicken roosts.

CAMERA NEWS

This week we would like to take a quick look at flash lamps and how they can help you in your photographic efforts. Lamps, as you know, are available in many sizes. The size is determined by the amount of light you get how quickly you get it, and how long it lasts. Your camera's shutter is designed to synchronize with a kind and use a lamp size not recommended in the camera manual, *are without synchronization* — and without a picture.

Steer clear of flash batteries that are past their expiration date. Six months, as a rule of thumb, can be considered creaky old age for photo-flash batteries.

Someone once said "you can't take it with you" but when it comes to light for picture-taking, that's another story—if you have flash-lamps handy, that is!

Now, if it happens that you haven't a handy supply of flash-lamps — or anything in the photographic line — then hustle over to RAMSAY'S CAMERAS 497 Baker St. We have a great line of camera supplies which means that you won't have to settle for "second best". Incidentally, there's some great new film on the market. Stop in and have us tell you how it can improve your work, or call 106.

TOP WOMAN ASTRONOMER READY FOR MOVE

TORONTO (CP)—Canada's outstanding woman astronomer, Dr. Helen Sawyer Hogg, is preparing to move to Washington to become program director for the astronomical section of the National Science Foundation.

The University of Toronto has granted her leave of absence from its David Dunlap Observatory at Richmond Hill, 15 miles north of Toronto, to accept the appointment with the government-endowed scientific program in the U.S. capital.

A product of New England, who graduated from Mount Holyoke College in 1925, she came to Canada in 1930 as the bride of an astronomer, the late Dr. Frank S. Hogg.

FAMILY LAUNCHED

While gaining international recognition as an astronomer, especially for her work with variable stars and star clusters, Mrs. Hogg has found time to tend house and raise three children.

"This is the first year I could have considered such an offer," she said. "My daughter Sarah is married; my older son, David, 19, is in third-year physics at Queen's University, and my other son, James, 17, is about to enter the same college.

"That means I'm free, temporarily. I'll come back to Canada whenever possible and my desk at the observatory will be ready for my return."

The keen, dark-haired woman will cover a wide field in her Washington post. She will assess new projects, make recommendations on allotment of funds, attend conferences and decide fellowships.

The National Science Foundation was launched in 1940, and "funds available for worthwhile programs are almost unlimited," she said. "In astronomy alone, I will have a ringside seat for several enticing experiments."

One of these is the earth satellite which may be launched by 1957. "Many light sources and other products of the universe never reach us because of our atmosphere," Dr. Hogg said. "Astronomically, the satellite could be a big thing."

QUEEN'S BAY — Mr. and Mrs. John Colgur of Fernie and their two children Lurlene and Darryl were recently guests of Mrs. Colgur's parents, Mr. and Mrs. G. Porteous. Miss M. Porteous of Nelson spent a few days holidaying with them at the same time.

Salads Tempting if Colors Well Arranged

By MARGARET CARR

The home economist of the consumer section, Canada Department of Agriculture, tells us that the design of the salad is important for eye appeal. If a salad looks intriguing, it will tempt the appetite and add sparkle to a meal.

In making salads, use color with a lavish hand but with good taste. Colors should never clash. For instance, red tomatoes and orange carrots should not be served together on a plate unless well relieved with greens. It is also well to be careful with beets, for the color tends to run into the other ingredients. For pleasing contrast, accent crisp light greens with dark parsley or watercress, or brighten the edges of lettuce leaves by dipping the damp leaves in a little gay paprika—this is particularly effective if the lettuce cup is used as a frame for the salad.

SHAPED FOR INTEREST

Give salads shape by moulding. There are several ways to do this. A salad made of chopped chicken, celery and nuts looks most appealing if the mixture is pressed into a custard cup, then unmolded and served on a gay lettuce leaf with sliced cucumbers for garnish. This same mixture could be used as a filling for scooped-out tomatoes or peppers or it could be molded by jellying it. For interest, fancy molds or odd shaped bowls, custard cups and other dishes can be used to give different shapes to jellied salads. Jellied salads can also be used as a stuffing. For example, green peppers filled with a jellied vegetable mixture, or small melon halves, filled with jellied fruit, ar emost intriguing when the pepper or melon is sliced to show the jellied centre. The melons may be peeled and covered with an icing of cream cheese for added effect.

An interesting salad can be made by hollowing out half a cucumber to form a boat large enough for one serving. This cucumber boat is then filled with cheese balls or with a mixed salad. A similar fruit salad is made by filling lengthwise wedges of small green melon with small cantalope balls.

A potato salad roll is attractive to look at, tasty to eat, and a little different to make.

POTATO SALAD ROLL

1 tablespoons milk
6 tablespoons mayonnaise
¾ teaspoon salt
2 teaspoons finely chopped onion
1-3 teaspoon paprika
1 diced hard-cooked egg (optional)
2 tablespoons finely diced green pepper (optional)
3 cups mashed potatoes
chopped parsley, spinach or celery leaves

Add milk, mayonnaise, salt, onion, paprika, egg and green pepper to mashed potatoes. Sprinkle parsley, spinach or celery leaves over a piece of wax paper. Spread potato mixture about 1 inch thick over the parsley, spinach or celery leaves in an oblong 12 inches by 8 inches. Spread a tasty meat, egg or cheese filling evenly over the potatoes and roll as for jelly roll. Chill thoroughly. Slice and serve, garnished on lettuce or other greens. Makes 6 servings.

Egg Filling

Combine 6 chopped hard-cooked eggs, ¼ cup chopped green pepper, ¼ cup chopped red pepper or pimento and salt and pepper to taste. Moisten with mayonnaise or salad dressing. (Omit egg and green pepper when making potato mixture).

Tangy Cheese Filling

Combine ¼ cup chopped onions which have been sauteed in 2 tablespoons mild flavored fat, 2 cups grated Canadian cheddar cheese (medium or old), 2 chopped hard-cooked eggs and ¼ cup chili sauce.

Dress Up With Marian Martin

SMART ENSEMBLE

Wonderful in sizes up to 50 — this ensemble takes you everywhere looking slim and pretty! Sundress is neat, simple—no frills to fuss over, launders in a jiffy! Little bolero is a lovely addition for cooler weather.

Pattern 9108: Women's sizes 36, 38, 40, 42, 44, 46, 48, 50. Size 36 dress takes 4 yards 35-inch fabric; bolero takes 1½ yards.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Guild Bazaar Opened by Dean

QUEEN'S BAY — Mr. and Mrs. J. G. LeQuime of Balfour donated their grounds and facilities of their resort to the Queen's Bay Guild for the holding of the annual church bazaar.

The day was ideal and the site very beautiful by the river, and the stalls under the shade trees were well stocked with work of various kinds, home baking, candy and other goods.

Very Rev. T. L. Leadbeater of Nelson, Dean of Kootenay, opened the sale with some well-chosen and humorous words and the many persons present made the sale a great success. Tea was served in the hotel dining room under the direction of Mrs. H. E. Mahood and Mrs. N. R. German of Queen's Bay and six young girls of Balfour who served the tea, were Betty Bowles, Penny Gold, Diane Fisher, Marilyn McEwen, Linda Forbes and Elaine Bowles.

Stall holders were home cooking—Mrs. George Porteous and Mrs. E. Baravalle; white elephant Miss Joyce Hirst; work stall, Mrs. J. S. Hirst and Hon. Mrs. K. A. Aylmer; pig in a poke, Pat Mahood, ice cream, David Hancock and the gate—H. E. Mahood.

Mrs. E. F. Phillips conducted a contest for an iced angel cake on a plate made and donated by Mrs. N. R. German and won by Mrs. R. A. Douglas.

A fowl donated by Mrs. J. S. Hirst was won by Mrs. Ritchie.

Those helping with transportation to and from Queen's Bay were Mrs. E. F. Phillips, G. Porteous, N. R. German and Mrs. E. Barravalle.

SEWING NEWS

By MARGARET PYE

Fashions change from year to year, so to keep up with the trend, one must use care and foresght when planning a new wardrobe. Be sure that your choice of style is not too extreme. Remember, simplicity of design is always in style and is also an indication of good taste. When buying materials —look for brand names. This is your guarantee that you are getting the best that our textile manufacturers can produce.

Speaking of brand names, we have just received a shipment of Indian Head (linen type cotton). This is an extremely versatile fabric, suitable for late Summer suits, dresses and blouses and is available in all the latest Autumn shades. — Get your suit or dress length now, at the CUSTOM SEWING CENTRE, for only $1.29 per yd. For those who have inquired, we now have felt material in a good selection of colors. According to fashion experts, this fabric will be more popular than ever this season. If you do not have a felt skirt, try making one. Even an amateur can finish one of these in an hour — and the cost is low.

Don't forget to make the CUSTOM SEWING CENTRE headquarters for all your sewing requirements.

JACKSON, A JACKRABBIT, begs for a handout in the Sacramento, Calif., home of young Lynnette Wood as she reaches into the refrigerator. Lynnette found the rabbit in a field five months ago when it was only a few days old. Jackson now eats about anything—including pretzels. He responds to his name and is housebroken. He sleeps in a washroom unless he can sneak atop a bed without being caught.—AP Wirephoto.

VETERAN CPR CONDUCTOR DIES

REVELSTOKE, B.C. (CP) — Omer Jones, 62 veteran CPR conductor and prominent in the activities of the Knights of Pythias, died suddenly at his home Thursday. He had recently been discharged from hospital following a heart attack.

He is survived by his wife, the former Florence Sinclair of Agassiz; one son, Sinclair of Agassiz; two daughters, Mrs. Inas Gillett, Brandon, Man., and Mrs. Murray Sim, Solsqua.

Strike Date Set

KELOWNA, B.C. (CP) — Bryan Cooney director of the Federation of Fruit and Vegetable Workers said Thursday the date for a strike by union members against packinghouses throughout the Okanagan has been set.

However, Mr. Cooney said the date will not be disclosed until 48 hours before the strike is sche 48 hours before the strike is cheduled to start. About 3,500 workers would be affected by the strike.

Movie Gossip ...

Story of Rossano Brazzi's Long Struggle Ends Like a Fairytale

By STAN SWINTON

ROME (AP)—Gina Lollobrigida and Sophia Loren steal the headlines, but Hollywood is more excited about another Italian—husky-voiced Rossano Brazzi.

Perhaps not since Charles Boyer whispered his invitation to the Casbah has a Continental leading man hit American movie-goers with such impact. Universal-International, with a keen ear to the feminine reaction to his role in "Summertime" with Katherine Hepburn, recently signed Brazzi to a contract for one picture annually for three years.

He plans two outside pictures each year, and has a round dozen offers to pick from. He is favored for the coveted lead in the film version of "South Pacific", the role played by Ezio Pinza on Broadway.

What is there about Brazzi that sets female hearts spinning? He isn't the typical tall leading man with handsome, regular features. Rossano's height is average, his build solid. His face is rather square, with lips which break often into a friendly smile. He is 38 years old, and looks it.

CLUSTER AROUND

Yet at a recent balcony party under the Roman stars, a circle of handsome women clustered around Brazzi minutes after his arrival. Standing inconspicuously to one side, beaming with pride at her husband, was Mrs. Brazzi, a cheerful woman who fits to perfection the average American idea of a middle-aged Italian housewife.

Asked to explain Brazzi's appeal one girl answer:

"Rossano just looks nice—like someone who would be good to you; romantic, yes, but kind, too. A man wouldn't understand."

Neither did producers — for years. Brazzi made more than 70 Italian pictures with little notice abroad. Only once did Hollywood call—in 1948 for "Little Women" with June Allyson.

"I was given a 50-year-old character part, and was so disgusted I came home to Italy," Brazzi recalls.

GOT LEADING PART

Then an American company hunting an Italian leading man for "Three Coins in the Fountain" picked Brazzi.

"I thought it would be just a small part. Instead, as it turned out, it was the crossroads of my life."

The picture was a smash hit, and Brazzi's touching love scenes with Jean Peters brought a flood of fan mail. Soon he was playing opposite temperamental Ava Gardner in "The Barefoot Contessa". Next Katharine Hepburn chose him as her leading man in "Summertime", which became another hit. All were filmed in Italy.

In September Brazzi goes to Hollywood.

"My first picture at Universal will be 'Love Affair', with Jane Wyman, an actress who can act, like Katharine Hepburn. Both are the kind of actresses it is exciting to work with. I'll stay at least a year in the States."

Polio Cases Fewer So Far

OTTAWA (CP) — Canada had 47 cases of polio last week, six more than the previous week.

The Health Department in a weekly report said Friday there have been 340 cases reported to date this year, compared with an average of 1105 for the same period of the previous five years.

So far this year there have been 10 deaths. At the same time last year there were 41.

Number of rases last week by provinces:

Prince Edward Island, one; New Brunswick, three; Quebec, six; Ontario, four; Manitoba, two; Saskatchewan, two; Alberta, 20; British Columbia, nine.

Penticton Safe Foils Robbers

PENTICTON, B. C. (CP)—An attempted safecracking at this Okanagan Valley centre early Friday failed, but blasts turned the office of Mac's Beverages into a shambles.

RCMP said the front of the large wall safe was so badly damaged that it couldn't be opened. The safe's bottom had been partly ripped out by the explosion. All the windows in the office were shattered.

Police said witnesses heard three muffled explosions shortly after midnight and saw two figures darting away from the building.

The foiled safecracking attempt followed a series of safe-blowings in the Okanagan.

Microwave Tower Being Built

BRANDON (CP) — Construction has started on the first tower in western Manitoba that will become a link in the coast-to-coast microwave chain being built to carry 3600 radio telephone lines across the country. First tower to be built here is in the Brandon hills, 15 miles south of the city. Towers will be about 30 miles apart.

Explains Fish Psychcology

NEW BRUNSWICK, N.J. (AP)—Most fish are stupid.

This statement may come as some surprise to weary fishermen who have waited hours in a brilling sun with nothing to show for their efforts but an empty bait can.

But it's the theory of a man who has spent some 16 years working on why fish venture to their destruction. This researcher is Dr. James Westman of Rutgers University.

Westman says fish don't learn. Pickerell will take a hook time and again, and other species may fall for a lure as many as three times.

Other findings turned up while Dr. Westman was fishing for information:

Casting food upon the waters, or "chumming," is not charity but the best way to land a fish. It brings a large number, some of whom get careless and wind up being food themselves. Also, the presence of other fish incites the competitive spirit among them, and they'll grab a hook with a delicious morsel more readily.

Propeller blades, far from scaring fish as most novice fishermen believe, actually may bring them to the hook. Other forms of agitation inducing them to bite include air jets, currents or lure action.

Westman may have the right idea, since he has used his theories to gather fish from laboratory tanks, farm ponds, lakes, and the ocean.

ATTLEE RECOVERS FROM BRAIN CLOT

LONDON (AP)—Former prime minister Clement Attlee is convalescing from a cerebral thrombosis he suffered after returning from a vacation trip to Yugoslavia 10 days ago.

Mrs. Attlee says that the 72-year-old Labor party chief is recovering from the brain clot but that he is also suffering from a skin ailment.

"He is not keeping any engagements," she said. "We shall be going away next week for a holiday in Pembrokeshire."

The Labor party's press office said there is no reason to believe that Attlee will not take his customary place in party leadership, especially at the annual conference in Margate Oct. 10-14.

The House of Commons is in recess until October.

Dartmoore Guards Now Unarmed

LONDON (Reuters)—Guards at Dartmoor, Britain's toughest jail, have put away their guns—the last prison in the country to stop using firearms.

The pentitentiary commissioners revealed this Friday in their report for last year.

The prison governor said the change meant an increase of "respect and trust" between jailers and convicts.

For many years armed guards have accompanied many of the parties of prisoners who go to work outside Dartmoor, the grim prison for Britain's worst criminals amid the swirling mists of the Devon moors.

Their purpose was "to act as a deterrent against escaping," the report said. But "if this deterrent had any effect, it lay rather in the threat than in the realization." The last time a prisoner was fired at was in November, 1951.

B.C. Druggists To View Cosmetics

VANCOUVER (CP) — More than 500 druggists from all parts of British Columbia will attend a five-day cosmetic display opening here Monday.

The display is sponsored by the Toiletries and Perfume Guild of B.C. which will host 13 representatives of the cosmetic industry from eastern Canada.

Calgary Livestock

CALGARY (CP)—On offer up to 11 a.m. on the livestock market Friday: 400 cattle, 10 calves. Thursday's sales: 798 cattle, 71 calves, 393 hogs, 54 sheep.

Choice dry-fed butcher steers were selling 40 to 50 cents lower at a practical top of $20.50; butcher heifers easier, butcher cows easier to 50 cents lower; bulls about steady.

Choice dry-fed steers $19.75 to $20.50; good $18.50 to $19.50; medium $17.25 to $18.25; common $14 to $17.

Good dry fed heifers $17 to $18; medium $16.50 to $16.75; common $10 to $16.

Good cows $10.75 to $11.50; medium $9.75 to $10.50; common $8.75 to $9.50; canners and cutters $4 to $8.50.

Good bulls $11 to $12; common to medium $8.50 to $9.50.

Stock feeder cattle about steady for good kinds; plainer kinds draggy; good feeder steers $16 to $17; good stock steers $15 to $16.50; common to medium $9 to $14.50.

Hogs steady Thursday, $25.75 A grade; sows steady, $12.50 to $13.25.

Good lambs steady to 50 cents lower, $18 to $18.50.

ON SCHEDULE.— The 6,000-ton Texas-tower type "island" which will be offshore radar station in continental defense system is towed toward permanent location on George's Bank, 100-odd miles off the New England coast. Ocean-going tugs are Marion Moran, left, and M. Moran.

Malton Aircraft Strike Unsettled

TORONTO (CP) — Officials Friday announced attempts to settle a strike of 1700 production employees of de Havilland Aircraft of Canada Ltd., at suburban Malton, have broken down.

Louis Fine, chief conciliation officer of the Ontario labor department, said his efforts to mediate in the dispute have ended after three days of negotiations. The strike started 40 days ago

The strikers, members of the United Automobile Workers (CIO-CCL) are demanding a 10-cent hourly increase on their basic hourly rate of $1.72.

De Havilland laid off 1300 office workers soon after the strike started.

Courtney Ask CMHC To Reduce Prices

COURTENAY (CP) — Council has been asked to seek a reduction in the prices asked for Central Mortgage and Housing corporation homes in the 40-house development. Tenants of the homes, represented by Henry Schellinck and Gus Vesterbeck, have protested the high purchase price proposed by CMHC. Mr. Schellinck said from 30 to 35 persons would buy the houses they now occupy, "if the price was right."

He also read a letter from a Trail organization which had made a similar request sometime ago.

WALTER SCANLON, 17, grimaces as a policeman applies a tourniquet to his severely gashed left arm after a free-for-all among teen-agers in the Bronx, N.Y. Forty stitches were required to close the wound. Three others were hurt in the fight. The youths used as weapons broken beer bottles, a beer can opener, automobile radio aerials and a garrison belt.—AP Wirephoto.

4 MONTHS SECRETARIAL TRAINING

With *SPEEDWRITING* THE A-B-C SHORTHAND

COURSE BEGINS SEPT. 6 — ENROL NOW!

Office Open for Enrolment Every Day Beginning August 22 from 2 to 4 p.m.

Course Includes:

- *SPEEDWRITING* Shorthand
- TYPEWRITING
- BUSINESS ENGLISH AND CORRESPONDENCE
- SPELLING
- MATHEMATICS
- FILING
- SECRETARIAL TRAINING
- PRACTICAL ACCOUNTING
- TABULATION TECHNIQUE

Complete Training-One Low Fee

FREE Nationwide Placement Service

In East and West Kootenay
SPEEDWRITING Shorthand
is taught ONLY *at the*
TRAIL
BUSINESS COLLEGE

MISS EVELINA D'ANDREA, TRAIL, says . . .

"I find that my SPEEDWRITING shorthand is serving me very well in legal work. What I particularly liked about the course was the short length of time it took for completion. I asked for a quick course and I got what I wanted."

MRS. DAWN HELBECQUE, TRAIL, says . . .

"One of the greatest advantages of this course is the time in which it may be completed. I am back on the job again. Dictation is no bugbear in our office now.

MISS BERT PASQUALOTTO, TRAIL, says . . .

"I want to inform you that since completing your course I have been using it frequently and find it *simple and fast*. The basic rules are so simple that one can easily learn them in a few short weeks."

MRS. IRENE WEIR, TRAIL—"There is no doubt in my mind that a SPEEDWRITING course will put you on the road to success. After 16 nights at school I was asked to take dictation from my employer.

MISS BARBARA LETORIA, ROSSLAND—"Like so many others I didn't believe that in 16 weeks you could master any shorthand system. I was amazed when I found how easy and accurate this new SPEEDWRITING system was."

MRS. JAY MELATINI, TRAIL—"SPEEDWRITING Shorthand made it possible for me to qualify for a better job. SPEEDWRITING is easy to learn."

MRS. GOLDIE LAWRENCE, TRAIL—"When I enrolled for SPEEDWRITING I must admit I had my doubts any shorthand could be mastered in so short a time as was advertised. However, upon obtaining 100 words per minute in 23 nights I was thoroughly convinced it can be done."

MISS EDNA ALLAN, TRAIL—"I found SPEEDWRITING a "language" I could easily understand. In just 12 to 14 weeks I learned to write shorthand at a speed of over 100 words per minute. Years ago when I studied a symbol system it took me almost nine months to master this same accomplishment."

Other Courses Offered:

- Advanced Secretarial—
  18 to 20 weeks. This course includes SPEEDWRITING shorthand, dictaphone, speedtyping, business letter writing, business English, spelling, mathematics, filing, secretarial training, practical accounting, tabulation technique, electric typewriter operation, Gestetner duplicating machine.
- *SPEEDWRITING* Stenographic—
  12 weeks. This course includes SPEEDWRITING shorthand, speedtyping, business letter writing, business English, spelling, mathematics, filing, secretarial training, tabulation technique, electric typewriter operation, Gestetner duplicating machine.
- Dictaphone Stenographic—
  12 weeks. This course includes dictaphone training, speedtyping, business letter writing, business English, spelling, mathematics, filing, secretarial training, tabulation technique, electric typewriter operaton, Gestetner duplicating machine.
- Dictaphone Secretarial—
  16 weeks. This course includes dictaphone training and all subjects included in secretarial course, no shorthand.
- *SPEEDWRITING* Shorthand and Speedtyping—
  8 weeks. This course is for the clerk or bookkeeper who wants a secretarial position.
- *SPEEDWRITING* Shorthand—
  6 weeks. Famous ABC Shorthand. No symbols, no machines.
- General Office Course—
  16 weeks. Same as secretarial training without shorthand.
- Practical Accounting—
  12 weeks. This course is designed to give you a practical working knowledge of modern bookkeeping methods.
- Speedtyping—
  The fastest, most easily learned touch typing course.

Gregg or Pitman shorthand may be taken in place of SPEEDWRITING with the secretarial or stenographic courses. Time: 8 to 9 months.

TRAIL BUSINESS COLLEGE

"THE INTERIOR'S MOST MODERN BUSINESS SCHOOL"

625 VICTORIA STREET **PHONE 84** **TRAIL, B.C.**

This wall shelf can be made just by tracing the parts from a paper pattern onto the wood, then cutting them out and assembling them. The pattern is full-size, so you don't have to be a mathematician to figure it out. Just follow the step-by-step directions.

While instructions for decorating the finished shelves are given with the pattern, naturally you're the one who will decide on its color scheme. That depends on the room where you'll hang these shelves and the use to which they will be put. For instance, in a small apartment you may want them in your dining nook to hold a set of breakfast dishes. In a living room they can be used to display your collector's items or other decorative articles. There is no room, in fact, where such shelves will not be useful.

They can be painted one color to match the wall or the other wood trim in the room. In a modern room just the wood in its natural state would go wonderfully. For contrast of color, the inside back of the shelves might be one color, the shelves and outer frame another. Some artistic folks even like to line the back with a decorative wallpaper and match its basic background color in the paint for the wood shelves and frame.

Hanging these shelves over a long table set against the wall helps to create the illusion of cupboard, a sideboard or a high desk, depending on the kind of table and the room in which this is placed.

Send 40 cents in coin or money order (no stamps please) for Maryland Wall Shelf Pattern No. 24 to Pattern Department, NDN, Quinn Lumber and Builder's Supply Co. Ltd., 280 Maitland Street, London, Ont.

Valuable Member of U.S. Army Barred From Purchasing Home

SAN FRANCISCO (AP) — Dr Sammy Lee, famed Korean-American who twice won an Olympic diving championship, has twice been refused purchase of a home in Garden Grove, The Chronicle says in a copyrighted story.

Real estate operators in Southern California's Orange County refused to sell to Lee, now a United States Army major, because of his Korean ancestry, The Chronicle says.

Lee announced several months ago that he planned to practise in the area after leaving the army. He is an eye, ear and nose specialist in the army medical corps.

The Chronicle's Michael Harris says Gordon Tripp, a Garden Grove real estate salesman, told him Lee was refused a $12,000 home because:

"This is a tract home. These people live eight feet apart. These people are not open-minded. If we had a colored or Oriental family here, all hell would be raised.

"I would rather have Dr. Sammy Lee myself than half the families here, but if you have one—a nice one—then you'll have others."

The Lees tried to buy another house for $27,000. The promoter didn't sell.

Residential Construction a Major Factor in Canada's Building Boom

MONTREAL—A heavy and sustained demand for new and improved housing has been a powerful factor in Canadas rapid economic expansion over the past decade, according to a recent analysis made by the Canadian Office of the National Industrial Conference Board. At the end of 1954 the country's housing stock totaled over 3.8 million units, around one-fifth more than at the end of 1945. Over these same nine years, the total value of residential real estate in Canada more than doubled, rising to over $22 billion.

Of particular significance has been the vigorous rise in residential construction activity during the past three years—a rise that continued during 1954 despite the emergence of weakensses in various sectors of the economy and a slight decline in over-all business activity. In fact, the year 1954 witnessed a record-breaking boom in house building which added close to 100,000 units net to the housing stock (that is, after allowance for demolition, destruction and abandonment of existing houses), and which produced a peak carry-over of uncompleted dwelling units in 1955.

This remarkable strength in residential construction made an important contribution to the quick checking of Canada's 1954 recession, and acted as a powerful stimulant to business recovery in the latter part of the year.

Recent trends tend to confirm projections made early this year *that new records will be set in* 1955 in all of the principal indicators of housebuilding: the number of new dwellings started, the number completed, and the total value of residential construction expenditures.

MAJOR FACTORS

Various powerful factors have supported Canada's post-war housing expansion. Among these have been: (1) Rapid population growth, hinging on younger marriages, a high birth rate, and large-scale immigration; (2) A high rate of net family formation which, *together with an increase in non-*family households, has produced a much larger growth in family and nonfamily households than in the country's total housing stock; (3) An increasing proportion of second, third and fourth births in families halting the long-term trend toward smaller families; (4) A continued flow of population to urban centers, coupled with the rapid growth of suburban communities around metropolitan areas; (5) High and rising income; (6) Rapid resource development in outlying areas, necessi*tating new residential facilities;*

(7) The pressure toward an "undoubling" of families living together;

(8) An upgrading in the standard of living, with increased emphasis on the desirability of home ownership; (9) Rising rents that have kept costs of home ownership from becoming unduly unfavorable; (10) The experience of substancial capital gains on residential real estate in the persistently tight housing market; (11) The recent changes in legislation and lending terms that have not *only made it easier for middle and* low-income families to purchase a house but have also increased the liquidity and transferability of mortgages and broadened the availability of mortgage funds; (12) Adequate credit resources to support expanded construction activity and home ownership.

Some of the major features of he housing boom are: its complete dependence on privately-initiated housebuilding, with a curtailment of public housing outlays over the past two years, but with an enlarged role for public assistance for privately-initiated housing; its heavy concentration in cities and larger towns; a flattening out in construction costs for the past three years, after earlier rapid increases; high building standards, and improving workmanship; a speeding up in the average time for building a house; a very low proportion of vacancies among newly-completed houses; clear signs, more recently, of greater competition in the housing market, which has encouraged leading construction firms to aim for greater production efficiencies and to become concerned about the need for producing better and more appealing houses.

GOVERNMENT ROLE

The principal government legislation in the field of housing has consisted of the three successive National Housing Acts (1938, 1944, and 1954). This legislation, along with certain other programs for housing assistance, is administered by the Central Mortgage and Housing Corporation (established in 1945) as the agent of the Federal Government in the housing field.

In the formulation and application of this legislation, three primary principles have been adhered to:

1. That adequate rates of housing construction of the right types should be assured, but with a minimum degree of government interference or participation;

2. That healthy and strong conditions should be fostered in the housing sector, thereby contributing to the welfare and prosperity of many other sectors; and

3. That any government participation should be such as to contribute to the improvement of housing and living standards of the Canadian people.

At the present time, the principal terms of lending under the insured mortgage provisions of the Act are: (1) that the down payments required are 10 per cent for houses up to $8000 and 30 per cent for any additional amount (for example, $1400 on a $10,000 house, or $2900 on a $15,000 house), but with a maximum limit on the amount of any insured loan, depending on the type of dwelling being financed ($12,800 in the case of a single-family house); (2) that interest rates must not exceed 5¼ per cent (some banks and other financial institutions have recently lowered their insured-mortgage rate to 5 per cent) and (3) that maturities may not exceed thirty years (currently, most insured loans are actually being made with maturities of 25 years)

These terms are much less liberal than those available for comparable mortgage financing in the United States. But, compared with the more stringent terms that are available for conventional mortgage financing in Canada—usually involving down payments of 40 per cent to 50 per cent and, at present, interest rates of around 6 per cent—it is clear that the assistance thus provided for housing has been a critically important factor in the housing market. Scope for further liberalization in mortgage lending terms, particularly as regards reductions in down payments, leaves room for broadening not only the new housing market but also the market in existing dwellings, which in turn would encourage wider mobility of the population.

After 1960, the likelihood of an accelerated rate of family formation and births, reflecting the rise that occurred in births after the thirties, should greatly expand the country's housing needs.

Bruin Arrives Uninvited

SASKATOON (CP) — The Paul Dettillieux family have had an uninvited and unwelcome guest while entertaining.

Bruin, a 400-pound circus bear, leaned against their front door until it splintered and sauntered in just as the Dettillieux and their two guests were having a late evening snack.

Mrs. Dettillieux grabbed her sleeping baby from the crib and with her guests bolted out the back door.

The husband, who knew Bruin was trained, shut a door to restrict the bear to the hallway and phoned his owner.

Bruin broke away from his tether on the river bank nearby. Both Bruin and his owner left later on a tour of fairs and picnics around the province.

Boost Salaries of Postal Clerks

OTTAWA (CP) — Increases boosting the maximum salary of postal clerks, grade one, by $300 a year, retroactive to April 1, have been approved, it was announced this week. The revised range is: $2010-$2160; $2310-$2460; $2610-$2760; $2910-$3060.

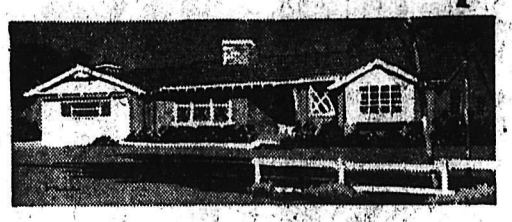
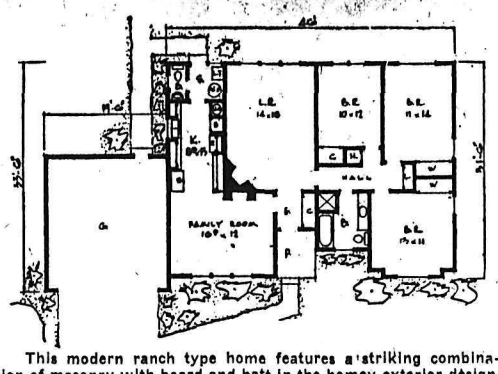
Home Workshop





This modern ranch type home features a striking combination of masonry with board and batt in the homey exterior design. The covered entry leads to a closeted hall. Three bedrooms and large living room with corner fireplace accentuate the feeling of spaciousness. The family room with its own fireplace or barbecue allows mother to keep an eye on the youngsters or the television set while going about her household duties.

These plans are published for the interest and information value only. The Daily News cannot supply detailed blueprints or specifications. Those contemplating building homes should consult a local architect, designer or builder.

Glass Blocks, Roofing For Sun Protection

Several things new under the sun today include new glass blocks, designed to give a house sun-glasses and rolled aluminum roofing, designed to install a roof that will bounce the sun's rays right back into Old Sol's face.

Also: Another aluminum product to give the do-it-yourself man a fancy screen door with his monogram in the centre, and a product to rubberize anything from a pair of pants to an entire roof.

As you may have noticed, glass blocks have been performing many tricks in architecture. Modern schools have been using a type that reflects sunlight up against the ceiling for floodlighting an entire ceiling without any direct glare. Other types have been used for skylights to admit light with heat in winter.

Now a new type has been developed with a layer of pale green fibrous glass sandwiched between two hollow glass blocks. The two partial vacuums keep out much of the sun's heat, while the opaque fibre glass diffuses the light in all directions while filtering out the glare.

Aluminum roll roofing and siding, which can be laid like a rug, is estimated to reduce installation costs by as much as 50 per cent—so say the makers. Cross-corrugated, the idea was developed for roll steel roofing which is expected to be out on the market in about a year. But meanwhile rights were granted to apply the process to aluminum. The result is a product that is permanent, fireproof and rustproof. The rolls cut down on waste and overlap. While prices average about 10 per cent higher than sheet aluminum prices, this is *supposed to be more than offset* by savings on installation.

The do-it-yourself aluminum idea, which has set many a handy man to work making his own metal sash storm windows and screens, now has been extended to combination storm and screen doors.

You buy a kit of aluminum extrusions with a non-sag feature which the manufacturer says is guaranteed. The door comprises hollow aluminum mullions, tubular door closer, stainless steel hardware and hinges and interchangeable panel of aluminum screen or glass. The kit includes all parts including a solid kick-plate panel and wrought aluminum grill with your initial.

Liquid rubber is now being put out in a paint form which you can apply by brush, spraying or dipping. It is supposed to dry quickly at normal temperatures into a sturdy but flexible protective coating.

The manufacturers say you can even use it to rustproof rain gutters and drain pipes or to patch a leaky roof. It has withstood tests up to 220 degrees and down to 20 below zero.

Garden Hints

Apple trees can be planted in late fall after the trees have shed their leaves.

• • •

Onions should be pulled and allowed to dry thoroughly before the arrival of wet, cold weather. Unless the tops are dried off well, the bulbs will not keep in storage.

• • •

It is advisable to cut the tops of asparagus plants late in the summer, before they go to seed. This conserves the strength of the plants. Burn the tops to check disease.

• • •

Make necessary divisions of perenianls as they cease flowering. Handling each kind when ready will give better results than a general replanting in autumn.

• • •

Trim off old canes of raspberries and blackberries and burn the trimmings. If left in the vicinity of the plants, they may harbor rust and anthracnose disease over the winter.

• • •

Balanced fertilizers should be worked into the soil along the vegetable rows. Quick-acting kinds will promote the rapid growth of lettuce and other leaf crops.

• • •

As the annuals mature, seed may be collected for use next year. By clipping off the faded bloom of annuals a long flowering season is assured.

• • •

Iceland poppies can be started easily from seed at this time. It is better to pick the seed pods and then sow the seeds than to depend upon their being self-sown.

Loans for Home Renovations Now Available

A possible solution to Canada's housing problem is seen in the recently announced regulations covering loans for home renovations and alterations. According to Canada Institute of Plumbing and Heating estimates, there are enough obsolescent houses in Canada suitable for every family in Canada at present living in inadequate or over-crowded quarters.

The Institute bases its opinion on a recent survey it made of renovations to houses built prior to 1936. Of the householders quizzed over 35 per cent gave financial reasons for either delaying or abandoning projects for alterations or renovations to their homes.

Under the present regulations, chartered banks can lend home owners up to $2500 for conversion of the house into a duplex, and if a multiple dwelling is planned, a similar amount for the first extra unit, plus $1250 for each additional unit up to four. Since repayments can be made over periods up to five years, in certain cases, the projects can be made almost self-supporting from the very start.

Bomber Coach Puts Emphasis on Speed

By AL VICKERY
Canadian Press Staff Writer

WINNIPEG (CP)—In their long life span in Canadian football, Winnipeg Blue bombers have been both the scourge and the butt of the gridiron.

Three times Winnipeg has won the Grey Cup — best record of any western team. The Bombers have won the Western Interprovincial Football Union championship five times in the last 10 years.

However, they also have wallowed in the mire of the also-rans, and last year they barely made the playoffs — edging Calgary Stampeders for the third and last spot.

The writing was on the wall; some changes had to be made.

Major change came this summer when veteran star passer and quarterback Jack Jacobs announced his retirement. The swing was towards youth and speed, and Jacobs at 36 had neither.

ACCENT ON SPEED

Coach Al Sherman, returning for his second season with the club, indicated early that his quarterbacks would have to run. He lost fleet-footed Bob Freeman of Auburn, who preferred to sit out football rather than join the Bombers after they won a court injunction to prevent him from playing in the United States.

Sherman promptly elevated halfback and relief quarter Buddy Leake of the University of Oklahoma to the No. 1 signal-calling slot and brought in George Elliott from Northeastern State Teachers College, Oklahoma, to fill the second position. Both are excellent runners and adequate passers.

Backing them up will be Gerry Vincent from the Winnipeg junior Rods, who was converted from end to quarterback. Vincent will probably see little action at quarter but might get plenty at kicking.

Hard-running Bob McNamara from the University of Minnesota and speedy Leo Lewis from Lincoln College, Missouri, gave the Bombers the best ground attack since Bob Sandberg carried the load himself in the late 1940s. Pat Oleksiak from Tennessee and Canadians Lorne Benson, Chuck Lumsden and Ron Kelly give the club lots of power at fullback.

Glen McWhinney, obtained in an off-season cash deal from Edmonton, gives Bombers one of the best flying wings in the West. McWhinney is a better than average blocker, a good pass receiver and runner. Place-kicking Buddy Korchak and Nick Miller, both local products, give solid depth to the flying wing spot.

Reserve backfield strength will come from Gerry James, most valuable Canadian player last year but injured in early workouts; veteran Tom Casey, who also will spearhead the defensive backs; speedster Ron Latourelle from the Rods; Elton Taylor, a promising second-year man and graduate of Winnipeg minor leagues; and Gordie Rowland, runback specialist and able safety man.

Holdovers Ron Vaccher and Cece Luining and newcomer Ron Meadmore will handle some of the defensive end duties.

Line coach Larry Cabrelli has developed a front wall that will give little away to any of the other WIFU clubs.

Palmer Ends 3rd Round With 5-Stroke Lead

By W. R. WHEATLEY
Canadian Press Staff Writer

WESTON, Ont. (CP) — Arnold Palmer of Latrobe, Pa., played with a steel nerve and the assuredness of a veteran Friday to take over a five-stroke lead in the Canadian open golf championships after three rounds.

Palmer, 25-year-old newcomer to the circuit, fired a dazzling 64 to set up a total of 195, a record for any three rounds in the tournament. During his third round he hit three spectators.

It was a sizzling day for Palmer in sizzling weather and hot enough to cause the temperamental Tommy Bolt of Chattanooga to explode. Tommy lost both his temper and his caddy, changing bag-toters at the 12th hole.

Palmer threatened to make it a runaway, starting out Friday with a two-stroke lead.

Little Jackie Burke, Jr., of Kiamesha Lake, N.Y., tried valiantly to make up strokes on the ex-U.S. amateur champ. The way Palmer was going, it was all in vain.

FIRES 67

Burke himself shot a five-under-par 67 to stay in the closest spot with 200, but he was three strokes worse off than he was at the halfway mark.

It was a case of perfection golf by the 26-year-old newcomer. Palmer was down the middle with his drives and his approach shots were superb. When he had long putts he almost invariably sank them. He rolled up nine birdies and went over par only at the 235-yard par three 11th when his drive was to the right and he pitched short.

Freddie Hawkins of St. Andrew's Ill., and Art Wall, Jr., of Pocono Manor, Pa., were tied for third place with 202, seven strokes behind Palmer.

At 205 was Mike Souchak of Grossinger's N.Y., and at 206 Jerry Barber of Los Angeles.

Stan Leonard of Vancouver, falling off to a par 72 for the first time, was bracketed at 207 with Marty Furgol of Lemont, Ill.

Lester Patrick To Retire Soon

VICTORIA (CP) — The "Silver Fox" may soon retire from the hockey wars.

Lester Patrick, 72-year-old scion of the great Patrick family of hockey, is expected to sever active connection with Victoria Cougars of the Western Hokey League, a club official said Friday. Patrick, former head of New York Rangers of the National Hockey League, is major stockholder in the Cougars.

Fred Hutchinson, general manager of the Victoria club, said Patrick is completing a deal whereby his sons Lynn and Murray will take over control of the Cougars along with Hutchinson.

The general manager said any announcement on a retirement date would be "premature."

"There is a remote possibility the sale will fall through but a definite announcement will be made in the near future."

Patrick himself declined comment.

Both Murray (Muzz) and Lynn Patrick manage National Hockey League teams. Muzz has Lester's old job as head of the New York club and Lynn heads Boston Bruins.

ENDS COLORFUL CAREER

Retirement for the great Lester, who said recently he always wanted to be a lawyer, will mean the end of a hockey career that started on the frozen ponds of the Prairies and Quebec.

He was born in Drummondville, Que., Dec. 30, 1883, the son of an Ulster storekeeper and lumber man and played his first hockey there.

He never looked back once started in hockey. As a player and as a manager he was never called for dishonorable behavior. He was powerful on the ice and resourceful as a manager. He inaugurated the game's first major farm system and, with brother Frank, the profitable playoff system and dozens of rule improvements. The two brought hockey to British Columbia.

ONE-GAME COMEBACK

He played hockey till the age of 39, starring on defence. Fifteen clubs went into the Stanley Cup finals with Lester either playing or managing. A legendary feat was his one-game comeback in goal at the age of 44.

His hair turned white at an early age, resulting in the nickname "Silver Fox."

The ambitious Patrick brothers persuaded their father to back hockey in B.C. in 1911. Father Patrick sold his lumber business at Nelson, B.C., for $1,000,000 and built artificial ice plants in Vancouver and Victoria to launch the Pacific Coast Hockey League.

Before the league folded in 1926, the Patricks had brought up some of the game's greatest stars. Frank operated in Vancouver and Lester here.

Eventually Lester went to New York to manage the Rangers in the expanding NHL.

QUIT IN '47

Lester quit hockey in 1947 as vice-president of Madison Square Garden. He had left the Rangers in 1946 and the next year received the scroll of membership in hockey's Hall of Fame at Kingston, Ont.

Retirement did not suit Lester. In 1949 he started the Victoria Cougars and joined the rejuvenated Pacific Coast League, later to become the Western Hockey League.

But age was starting to catch up with the "Silver Fox." Last year he couldn't stand the excitement of watching his own team play a full schedule and Hutchinson has been doing most of the work with the club.

Grid Fans See Openers Tonight

By The Canadian Press

At least 13 weekends and 44 games of Western conference professional football begin tonight.

The 40-game regular schedule of the Western Interprovincial Football Union wil lopen with traditional rivalry. The Grey Cup champion Edmonton Eskimos meet Calgary Stampeders in the cow town, while Winnipeg Blue Bombers go against Saskatchewan Roughriders at Regina.

There was a possibility of thundershowers at Calgary where game time is 8:30 p.m. MST. At Regina, action starts at 7 p.m. MDT and a heat wave with 90-degree temperatures was expected to continue.

Monday night games see Edmonton at Winnipeg, while the Stampeders open the Vancouver season against British Columbia Lions, who won only one game in WIFU play last season.

Each of the five teams will play 16 games, eight of them at home by Oct. 29. The two-game, total-point semi-finals open Nov. 5, and the best-of-three finals on Remembrance Day.

By next weekend, all five clubs must cut down to the 12 imports allowed them under altered WIFU regulations. The Big Four teams this year will carry 10 imports.

Kathie McIntosh Swims Lower End Of Lake Winnipeg

WINNIPEG (CP) — Kathie McIntosh, 20-year-old Winnipeg stenographer, became the first person to swim 18 miles across the lower end of Lake Winnipeg Friday night when she pulled into the shore at Winnipeg Beach at 10:40 p.m CDT. She entered the water at Grand Marais on the lake's east shore at 5:32 a.m.

Bedlam broke loose along the shoreline of the beach, 45 miles north of Winnipeg. Thousands of persons screamed, car horns and whistles blared, lights flashed on and off as the attractive brunette stood up in the shallow water and waded in. Hundreds of the spectators, clothes and all, walked out into the lake to greet Miss McIntosh.

With only feet to go in her long swim — she was in the water 16 hours and 48 minutes — the chant went up from the shore: "Come on Kathie, come on Kathie."

A mounting list of prizes awaited the courageous miss.

The prizes included $1100 in cash, a free airplane trip to New York, a lifetime supply of nylon stockings and a wrist watch.

Miss McIntosh, who failed Sunday in her first attempt to swim the lake, swiftly overtook four men who made earlier starts Friday. None finished.

NO BOUT TILL ROBINSON PAYS

CHICAGO (AP)—A sum of $2,500 stands between Sugar Ray Robinson and his middleweight title fight with champion Bobo Olson in Chicago Stadium Nov. 4. That's the money Radzienda of the Illinois Athletic Commission says that Robinson is reported to owe to fight promoter Sam Silverman and the Callahan Athletic Club of Boston.

"The sum represents losses allegedly incurred by Silverman and the Callahan Athletic Club when Robinson withdrew from a scheduled March 5 bout with George Small," said Redzienda.

Robinson has been suspended in Massachusetts. The Illinois athletic commission has ruled that Robinson must clear himself with the Massachusetts athletic commission before he can fight Olson here.

YANKS INVITED TO JAPAN

NEW YORK (AP) — New York Yankees have been invited to make a goodwill trip to Japan, similar to that taken by the Giants two years ago, and there's a good chance they will accept.

No final decision has been made and until one is reached the club can make no statement, a Yankee spokesman explained.

However, it is reported that the plans call for the Yanks to undertake a seven-week trip this fall that will include four games in Honolulu and 12 in Japan.

Lions Are Champions Of Little League

The Lions are the 1955 Nelson Little League champions as they copped the pennant this year with 12 wins and six losses for a score of .667.

Final league standings are:

	W	L	Pct.
Lions	12	6	.667
Kinsmen	10	8	.555
Rotarians	10	8	.555
Kiwanis	9	9	.500
Gyros	4	14	.222

The Lions were in the cellar in league standings half way through the year, but came back to win nine out of their last ten contests. The Kiwanis, who led the league up until two weeks ago were nosed out by the Lions who tied for second spot.

Playoffs get under way Monday when the Lions will meet the Rotarians. Wednesday night the Kinsmen will tee off against the Kiwanis.

Salmo Catches Humes to Even Ball Series

Salmo evened their best-of-three fastball series with the Humes Friday when they scored their winning run in the eighth on an error and a passed ball. The score was 4-3 and made a third game necessary to decide the team to meet Passmore in the final for the Nelson and District championship. A large crowd at Salmo saw the home team triumph.

Humes took a two-run lead with a first inning spree that produced three hits including doubles by Harold Mayo and Bob Keeble.

After Salmo collected one run in the fourth on two walks and a double by Burns the Humes extended their lead with one in the fifth as Mayo scored his second run of the game.

Salmo kept pecking away and in the fifth scored when Scribner singled and came home on St. Denis' triple. They evened the count in the sixth and then in the eighth Al Thiesen errored on a hit by Dixon. Singles by Pat Stranberg and Burns gave the Salmo club their first win.

Barefoot was the losing pitcher giving up eight hits, striking out four and walking three. Bush gave up six hits struck out one, and walked none.

The next game of the series will be played in Nelson Sunday.

Bud Andrews Inks Contract For Smokies

TRAIL — The highest goal scorer in the WIHL, Mel (Bud) Andrews is back with Trail Smoke Eaters and Smokie fans are hoping he can turn the trick again. Bud rattled in 35 goals last season and added 22 assists for a grand total of 57 points. He finished second to Bobby Kromm, who had 62 points, as top point-maker on the Trail club.

Bud is a sharpie around the net as his six-game winning goals will testify. He connected for the hat trick five times to run second best to Kimberley's Claude Bell in this department.

Bud played Junior hockey with Humboldt Indians and Moose Jaw Canucks, and also with Moose Jaw Millers, seniors. He has played for Vernon, and last year was his first in Trail. He made it a successful one and should be counted on to carry a fair share of the load this term.

Bud is married and has three children, all future hockey stars if they take after their 'paw.'

Colville Here Against Outlaws Twice Sunday

The Nelson Outlaw Baseball Club take the field here Sunday in a doubleheader against the Eagles from Colville, Wash.

The Eagles came up with an impressive record, finishing in second place of their seven-team league with only two losses, both to the Chewelah Indians, the league winners. They were the only club to win against Indians doing it twice.

The air forc eclub that lost to the Outlaws 2-1 Thursday in Nelson, finished in third spot behind their city rivals. The Outlaws in a trip to the American city split with the Eagles.

One of the main reasons for the Colville club's success is big chucker Hal Davis, who held the Spokane Indians scoreless for five innings. Last season the same Colville team took both games of a double header here and will be out to do the same again and break the Outlaws' seven-game winning streak. The Nelson team will be out in full strength for the two games.

Coast Girl Sets 3 Swim Records

By LEE EUSTACE
Canadian Press Staff Writer

MONTREAL (CP) — Seven Canadian swimming records and one world mark were broken Friday night in finals of the Canadian swimming and diving championships.

It brought to nine the number of Canadian marks established during the day and to 20 the number of records set since the three-day meeting started Thursday.

The world record was set by the starry senior women's quartet from the Walter Reed Hospital Swim Club in Washington, D.C. They broke their own world mark of 4:32.4 for the 200-yard medley relay with a time of 4:30.5.

Helen Stewart of Vancouver set her third record of the meet with a time of 1:19.3 in the junior women's 200-yard medley swim and earlier Friday in qualifying heats cracked both the junior and senior Canadian records in the 100-yard freestyle.

Her time for the distance was 58.8 seconds, one-tenth of a second faster than the senior record set by one of the Americans Thursday night and a full 1.5 seconds ahead of the old junior mark.

Swims Gibraltar

TARIFA, Spain (AP)—Spanish swimmer Jaime Cortazar, 25, swam the Strait of Gibraltar Thursday. He started at Punta Marroqui, Spain, and swam slightly more than 22 miles to reach the African coast at Punta Leona in 8 hours, 24 minutes.

Passmore Gains Final With Win Over Transfer

The league-leading Passmore team, of the Nelson and district fastball loop advanced to the finals Friday night by winning their second straight game from Transfer. The score was 6-4.

Passmore, after winning the first game earlier in the week by a 9-0 count found the going rougher. They had to come from behind in order to go into the finals.

Transfer opened the scoring in the second when John Vecchio started with a triple. He later scored when Stoochnoff made an error on a ground ball by John Bachynski.

Passmore came right back in the third to even matters when Nazaroff homered. He belted one of Alex Ferworn's fast balls to gain the four bases.

Again Passmore found themselves behind the eight ball as the Transfer counted three runs in their half of the third. Two walks a fielder's choice and an error did the damage.

Passmore made the game close in their half. They counted twice on two hits. They captured the game in the fifth when they counted two more runs with some fancy base running.

Passmore picked up their insurance run in the sixth when Bill Konkin, who had come in to pitch in the fourth doubled and later crossed the plate on a sacrifice hit.

Stoochnoff and Konkin gave up six hits, had eight strikeouts and walked one man. Ferworn gave up a total of nine safeties, walked one and struck out five.

Conley Out For Season

MILWAUKEE (AP)—A medical specialist made it official Friday: Milwaukee Braves' righthander Gene Conley is out for the season. Dr. Bruce Brewer reported that the towering pitcher has suffered an injury to ligaments that hold together the bones of the shoulder.

KOOTENAY TRACK AND FIELD MEN TO VANCOUVER

TRAIL — Five Trail-Rossland track enthusiasts and their coach left Thursday night for the British Columbia track and field meet in Vancouver.

Joe Haley has been coaching Sharon Platt, Glen Cividen and Bob Bush of Trail, along with Ken Grieves and Elaine Penny of Rossland for the past month and a half, under the sponsorship of the TAA. He will accompany them to the meet in the hope of witnessing some Trail district wins.

All five track stars have made good showings in local and West Kootenay track meets. A win or a place in the provincial meet will mean a chance to train under the Olympic training program.

Ed Kelter, recreation director of Nelson, reported Friday that due to lack of practice no Nelson contestants would be making the trip to the coast city.

Harmon Threatened

CINCINNATI (AP) — Charles (Chuck) Harmon, Cincinnati Redleg utility player, said Friday he had received a threatening letter. He turned the letter over to the FBI and postal authorities.

The letter, mailed from New York City, threatened the Negro player if he returns there.

"The next time you are in New York you're going to get shot in the head," the letter said.

C. M. Higgins, postal inspector in charge here, said he believes the letter was "the work of some crank."

Metal Prices

NEW YORK (CP)—Spot prices:
Lead—New York, .15.
Zinc—East St. Louis, .12½.
Silver—New York, .90¾.

Market Trends

NEW YORK (AP) — The stock market nudged upward Friday when prices improved late in the session

Canadian stocks were higher. McIntyre advanced two points to 85, International Nickel gained ¾, Distillers Seadgram advanced ⅝ and Canadian Pacific was ahead by ⅛.

TORONTO (CP) — The stock market dawdled along at its slowest pace in more than three months Friday. Prices were irregular pattern, but gains among key issues in base metals sent the group's index to a record high by the close.

Industrials were mostly mixed in slow trading.

MONTREAL (CP) — Advances maintained a slim edge over declines at the close of a dull session on the stock market Friday. The price movements were narrow.

Papers, base metals and banks were modestly higher. There were few price variations in other industrial sections.

LONDON (CP)—Buying interest continued at a low ebb on *London stock exchange Friday,* with small but persistent selling sending the prices lower.

Pressure against government issues continued throughout the morning session, and losses extended to ¾, but some recovery took place by afternoon.

Winnipeg Grain

WINNIPEG (CP) — Cash grain prices:
Oats—No. 1 feed, .721.
Barley—No. 1 feed, 1.02½.

Cause For Pride

NEWTON, Kan. (AP)—Newton (pop. 11,590), has begun its third year without a traffic fatality. In observance of the occasion, Newton police handed out 110 free parking tickets to overtime parkers.

Koolaree Echoes

The Cabin three girls of the Senior girls camp at Camp Koolaree took to the road on their second day at camp as they hiked to Russell's Landing where they swam and enjoyed a picnic supper.

Leaders Mrs. Doubt and Mrs. Hallman announced that winners of the totem pole were Cabin three campers and Indian Heads Cabin four.

After games the girls held their sunset service on the beach.

At campfire Cabin four presented a skit entitled, "All Three of Us," starring Jane Morrison, Mavis Wynn and Jean Coulter. Leader, "Smoky" read the story, "Winnie the Pooh." The singsong was led by Great Brave, Bev Humphries and Bev Daly.

Sask. Puts Out Feelers on British Cement

REGINA (CP)—The Saskatchewan Department of Co-operation will investigate the possibility of importing British and Continental cement next year via the Hudson Bay route.

There has been "an acute though temporary" shortage in Saskatchewan each year, W. J. Hansen, director of trade and business information services, said Thursday.

COULD ARRIVE EARLY

"Prospective imports of cement could arrive at Churchill in the last week of July and begin reaching points of destination in Saskatchewan early in August," he said.

"From past experience, it is considered probable that British and Continental cement could be laid down at prices competitive with cement now coming in from the United States."

A minimum demand of 1500 tons—75 carloads—would be necessary to make such a shipment economically feasible.

Oil Co. Denies Men Trapped In Plane Accident

CALGARY (CP)—The oil company owners of a plane which crashed in northern Saskatchewan with the loss of four lives say it appears at least three of the men were killed instantly and not in the fire that followed.

An Imperial Oil Ltd. statement said the four company employees "were not trapped in the burning plane by excessive baggage and tools as indicated in earlier stories of the crash."

It added, quoting Bruce Middleton of Toronto, the company's air-transport manager:

"It appeared beyond question to those who visited the scene of the crash that one of the victims was killed on impact, and it is almost certain that two others died the same way. It is possible that a fourth victim may have lived for a matter of seconds, but he was severely, if not fatally, injured by the impact."

SAY ENGINE O.K.

Imperial Oil, in its statement on preliminary investigations at the crash scene, said faulty engine maintenance was not a factor. Evidence had indicated an engine failure at the landing approach plunged the Beaver aircraft into the bush just yards from the lake on which it was attempting to land.

The plane crashed Saturday after taking off from a lake near The Pas, Man., and rescuers had quoted the two survivors as saying the other men had been trapped inside the burning wreckage. One of them was also quoted as saying the engine hadn't been overhauled.

The plane was on a flight to Regina Beach, near Regina.

Convicts' Money To Remain In Custody

VANCOUVER (CP) — More than $2000 found in the pockets of convicted bank robber Daniel Haddon will remain in custody of the courts for the time being, Mr. Justice McInnes has ordered.

Haddon is serving 15 years for the $10,000 holdup robbery last December of a Royal bank branch in West Vancouver. Police found $2289 on him when he was arrested.

Royal Bank officials claim the money is part of the bank loot and have appealed to the court for its recovery. Haddon appeared personally in court to argue the money was his own.

In a judgment, Mr. Justice McInnes ordered the deputy court registrar not to pay the money to either claimant until he issues a further order.

Industrial Hygiene

TRAIL—Dr. W. S. Huckvale of Trail has received a degree in industrial hygiene from the University of Toronto.

Dr. Huckvale has been with the C. S. Williams clinic since 1945. Specializing in industrial hygiene he has presented various papers on the subject at medical conferences.

The program at Cominco has been praised by outside experts who hold the program up as a model for other industries to follow.

Born in Medicine Hat, Alta., Dr. Huckvale received his M.D. degree at the University of Alberta.

The course he has recently completed deals with the study of industrial diseases and hazards such as lead poisoning.

Decide Site For Next Big Jamboree

NIAGAR-ON-THE-LAKE, Ont. (CP)—The next World Jamboree will be held at Sutton Coldfield, England, in the summer of 1957, it was announced Friday.

Maj.-Gen. Dan Spry of Canada, director of world Scouting's International Bureau in London, told a press conference the movement is breaking its usual four-year cycle for Jamborees to commemorate Scouting's 50th anniversary and the 100th birthday anniversary of its founder, Lord Baden-Powell.

Scouting is booming along at an expansion rate of 500,000 a year throughout the world, Gen. Spry said. Canada, with 92,000 in 1945, has now 175,000.

The United States membership leads with a total of 3,774,000, more than one-half the world total of 6,300,000.

He said 35,000 are expected for the 1957 Jamboree—against the 10,000 here—because of England's closeness to Europe and the Middle East, enabling greater representation from countries there.

Milk Strike Looms Nearer

VANCOUVER (CP)—Union and management hopes of averting what could be Vancouver's first milk strike appeared no nearer Friday, with both sides refusing to comment on negotiation progress at Thursday's crucial meeting.

Second in a last-ditch series of talks between nine major dairies and Milk Drivers and Dairy Employees Union (TLC) will be held next Tuesday, as strike balloting enters its second day.

The government-supervised strike vote, to back up wage demands and retention of the present six-day delivery, will begin Monday for some 900 union members.

Balloting (in all plants and branches of the nine major dairy firms) is expected to take up to a week.

Union secretary John Brown refused to comment on Thursday's meeting because of the union's "ticklish position" in the negotiations.

The union wants to retain the present six-day deliveries and has declared it will strike before accepting another milkless day a week, demanded by the distributors.

However, it was learned that the milkmen are willing to reduce their pay demands if the company will retain a six-day service.

Minister Pearson Declares . . .

Real Hope For Peace Lies In Christianity For Christians

TORONTO (CP) — External Affairs Minister Pearson says that to assume that real peace has been achieved because four men smiled into the cameras at Geneva would be dangerous and unrealistic.

Mr. Pearson told 8000 delegates to the world convention of the Churches of Christ (Disciples) that hope could be taken from the easing of interantional tensions in recent months.

But real peace is not to be found in conferences of leaders at or below the "summit" but in the hearts and souls of men.

"We should not indulge in any premature rejoicing or loud hosannahs," he said. "We must not become unreasonably exultant when things seem to be going well on the international front; nor unreasonably discouraged when there are setbacks, as there will certainly be."

NEED CHRISTIAN CHARITY

In the long run, there is only one answer to the challenge of interdependene in the hydrogen age.

"It is the answer of Christian charity and understanding; and in showing by our actions — not merely by our words — that we are in truth our brother's keepers."

At the same time, Mr. Pearson, a Presbyterian minister's son, questioned the influence of organized Christian religion as a unifying force for world peace.

"Records of the past make us doubt whether organized Christian religion is likely to play an important part in driving home the recognition of that interdependence of peoples which will lead to greater unification than has ever been achieved before."

CHRISTIANITY DIVIDED

After 2000 years, he said, Christianity remains the religion of a relatively small minority of the world's people. It was so divided that Christians for centuries had contended against each other theologically and on the battlefield.

"In the mistaken and often sincere belief that God's will was being done, Protestants were set against Catholics, Christians against Moslems, and the Jews and unbelievers have been persecuted.

"Unless Christianity can spread among Christians (as well as non-Christians), charity, tolerance and understanding it will not be adequate to face the challenge of this shrinking atomic world."

U.S. Discloses A-Power X-Ray

GENEVA (Reuters)—American scientists have produced a portable X-ray machine weighing between 20 and 50 pounds and operating on atomic power, it was disclosed Friday.

Dr. R. G. Daggs of the U.S. Army medical research laboratory at Fort Knox, Ky., made the disclosure before the atoms-for-peace conference. The 12-day meeting ends Saturday.

Daggs said that since the X-ray machines require no electricity, they can be sent to the site of an accident for immediate examination of broken limbs. The pictures are inferior to modern X-rays but clear enough to locate bone fractures or foreign bodies, he said.

Will Speak on WHO Assignment

Some of her experiences while serving with the World Health Organization in Pakistan will be related by Miss Maude Dolphin at the evening service at St. Saviour's Pro-Cathedral Sunday.

The former Nelson girl is holidaying here after completing a two-year assignment in Pakistan. Posted to Syria next, she will leave by air September 9.

Expectant Fathers To Take Courses

HAMILTON (CP) — At last something is being done to soothe the nerves of the expectant father. The Council of Community Services announces its series of prenatal classes this fall will include a session designed to prepare young husbands for the arrival of the first baby. The fathers' course will consist of six two-hour study periods.

Cause of Polio Remains Enigma

CHICAGO (AP) — Polio will remain baffling until man learns what causes it to break out and spread in epidemic style, a medical scientist says.

Dr. Theodore J. Bauer, chief of the United States communicable disease centre, reports that incidence of the "baffling disease" had been growing in North America for more than a decade.

"Poliomyelitis," he added, "also is increasing in many other parts of the world, which suggests that we may be witnessing a worldwide pandemic, the end of which is not yet in sight."

Dr. Bauer said the disease will continue to be anenigma unless the basic epidemiological principles that govern its occurrence and spread are uncovered.

Dr. Bauer, in an article in the journal of the American Medical Association, suggested communicable diseases be given top priority in health programs, as these maladies most frequently hit "the young and vigorous."

One of each 10 deaths is caused by a communicable disease, he found, and the threat is "far more serious" among persons under 35 years of age, where the ratio is one to four.

The communicable ills include polio, the common cold, measles, mumps, rabies, smallpox, diphtheria and the venereal diseases.

100,000 Jam Streets To Welcome Marilyn Bell Back To Toronto

TORONTO (CP) — Swimmer Marilyn Bell's home town Friday gave her one of the biggest ticker tape welcomes the city has ever seen.

As she returned from Europe and her conquest of the English Channel, thousands of persons jammed hot downtown streets to cheer her and her party.

The 17-year-old swimmer, who landed at suburban Malton airport during the noon hour on the last lap of her journey home, was whisked into the city by a motorcycle escort to a point near the downtown Union Station, where a parade formed up for the victory march up Bay Street to the City Hall and a civic reception.

DRAPED WITH STREAMERS

Streetcars continued to run until the moment of the parade. They were draped with the long tapes thrown from the upper storeys of the big financial houses by excited staff members.

Crowds started gathering outside City Hall more than three hours before Marilyn was due. Families brought their lunches with them and camped on the lawns in front of the building to wait in humid heat for the welcome-home ceremonies.

Deputy Clerk Oscar Norris estimated the City Hall crowd at more than 100,000 persons, and described it as "biggest since the 1951 royal tour".

Riding behind three bands in a gale of thunderous cheers and billowing ticker tape, Marilyn smiled and waved as she moved slowly up Bay Street in an open convertible.

Mounted city police officers led the parade up to the steps in front of City Hall, where Mayor Nathan Phillips and members of the Board of Control welcomed Marilyn.

The Mayor, declaring it "a great day for Canada", said Marilyn exemplified "the unconquerable Canadian spirit which never says die".

He presented her with a chest of sterling silver, a gift from the citizens of Toronto. To Gus Ryder, her coach in the Channel swim and in her triumph last September over Lake Ontario, went a silver platter.

"THE MAN'S STORE"

Former Champ Nabs Teen-Age Thieves

CAMDEN, N. J. (AP)—Former heavyweight boxing champion Jersey Joe Walcott chased and captured two teen-age boys after a sporting goods store in downtown Camden was robbed of $25, police reported. Walcott, a special juvenile investigator officer attached to Camden's police department, was standing on the street a few feet from the store. Wallcott, his pistol drawn, gave chase and forced the youths against a wall.
