WEATHER FORECAST

Kootenay: Cloudy with showers. A few sunny periods in afternoon. Little change in temperature. Light winds. Low and high at Cranbrook and Crescent Valley 35 and 60.

U.S. Forces Must Leave Canada if U.S. Embroiled in War

Canada as Neutral Would Be Committing Act of War if Armed Forces Not Expelled

By DAVE McINTOSH
Canadian Press Staff Writer

OTTAWA (CP)—American troops stationed in Canada would probably be asked to leave this country if the United States went to war and Canada remained neutral, informants said Thursday.

They added that no hard-and-fast rule has been fixed for such an eventuality. The law of neutrality was in a process of change and no definite policy could be laid down in advance.

However, current opinion was that if the U.S. became involved in war and Canada did not, American forces based here would have to leave this country or Canada itself would be committing an act of war. It was extremely unlikely that U.S. forces would be interned in Canada.

Officials recalled that Canadian servicemen were allowed into the U.S. on leave in 1939, 1940 and 1941 before the U.S. entered the Second World War, but they carried no arms and, as a rule, wore civilian clothes. Except for those under diplomatic immunity, they could not work in the U.S. as members of the Canadian armed forces.

SOME SIGNIFICANCE

The problem has taken on some significance in recent months because of the Far East situation.

The possibility has arisen that the U.S. might get into a war with Communist China over the Nationalist-held islands of Quemoy and Matsu.

But Canada has made it plain it would not become involved in such a fight, providing it did not spread to North America.

There are understood to be some 3000 American servicemen now stationed in Canada, not including those at the three leased U.S. bases in Newfoundland, which are considered as American territory.

HURT DEFENCES

Departure of these 3000 Americans could hurt North American defences because some of these men operate stations in the Pine Tree radar line along the U.S.-Canada border.

Departure of American forces could also affect cold-weather tests of new equipment at Fort Churchill, Man. Normally, some 250 American servicemen are based at Fort Churchill but during equipment tests, such as on the anti-aircraft guided missile Nike, the number rises to some 500. The Nike was tested at Fort Churchill last winter and the winter before that atomic cannon were tried out there.

Victoria Students Win Top Honors

VANCOUVER (CP) — Two Victoria students have captured top honors in University of British Columbia graduation lists this year.

Lyle P. Robertson, a 21-year-old student of nuclear physics and an honors graduate in mathematics, Thursday was named the winner of the coveted Governor-General's Gold Medal. He also won $1600 in National Research Council scholarships.

Walter Douglas Young, 21, is winner of the Rhodes scholarship for all-around ability. His selection was announced earlier. He plans to study at Oxford university in England and hopes to enter Canada's external affairs department following his two-year period overseas.

The two Victoria students and other prize winners will receive their awards at graduation ceremonies scheduled Monday and Tuesday.

A total of 908 students graduated.

Parliament Thursday

By The Canadian Press

THURSDAY

Prime Minister St. Laurent rejected a CCF proposal that he make a personal investigation of Revenue Minister McCann's role in the Dempsey case.

Defence Minister Campney said he will study possible further Valcartier army camp rocket range.

The Liberals defeated a Progressive Conservative want-of-confidence motion in government budget policies by a vote of 121 to 66.

J. M. Macdonnell (PC—Toronto Greenwood) described increases in federal payments to municipalities on crown property as "cheese-paring."

Ross Thatcher (Ind—Moose Jew-Lake Centre) said government policy for northern development lacks aggressiveness and imagination.

Senator J. W. de B. Farris (British Columbia) said Senate appointments should be representative of Canadian thinking.

FRIDAY

The Commons will consider 1955-56 estimates. The Senate is adjourned until Tuesday.

IWA LAYS STRIKE PLANS

VANCOUVER (CP)—British Columbia's largest trade union, the 32,000-member International Woodworkers of America (CIO-CCL) began laying plans for a strike today following breakdown in 1955 wage talks with coast logging and lumbering firms.

Threaten To Hire New Crew if Workers Stay Off

VANCOUVER (CP) — Two hundred union furniture workers discharged Tuesday from Restmore Manufacturing Company, voted unanimously Thursday to remain off work until they can return "without discrimination." Plant officials said they would hire an entire crew unless the workers returned to work.

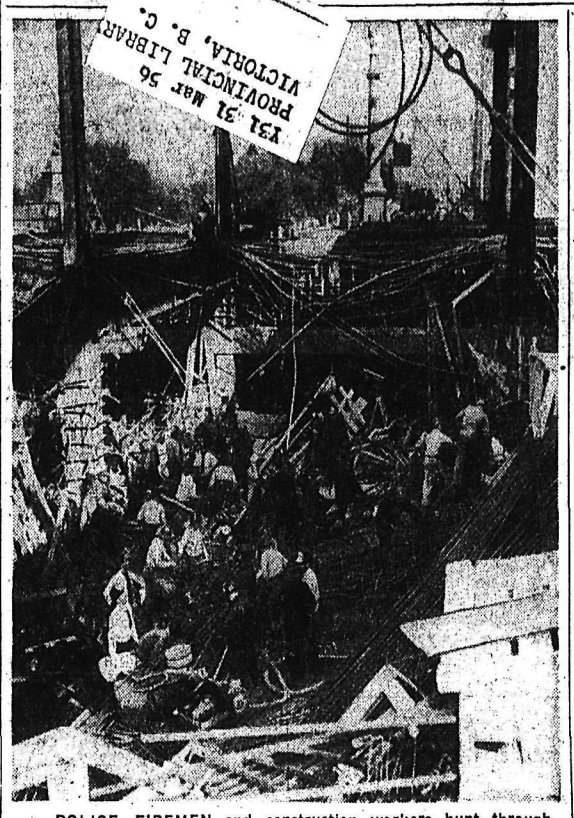
The workers, members of the International Woodworkers of America (CIO-CCL) were dismissed Tuesday following an alleged illegal sit-down strike in protest over the firing of the IWA's chief shop steward at the plant.

DOLLA RHIGHER

NEW YORK (CP)—The Canadian dollar was 3-32 higher at a premium of 1½ per cent in terms of U. S. funds Thursday. Pound sterling up 3-16 of a cent at $2.79 11-16.

MONTREAL (CP) — The U. S. dollar closed Thursday at a discount of 1½ per cent in terms of Canadian funds, down ⅛. It took 98½ cents Canadian to buy $1 American. Pound sterling $2.75 7-16, down ⅜.

U. S. dollar, bid 98½ asked 98 17-32.



POLICE, FIREMEN and construction workers hunt through wreckage that crashed 22 feet when centre section of exhibit floor of New York's new Coliseum collapsed during construction work May 9. View looking east shows the Christopher Columbus statue, upper centre, in Manhattan's busy Columbus Circle. Of 1000 at work on the building when the collapse occurred, one was killed and at least 50 injured.—AP Wirephoto.

Brandon Watching for Three Flood Crests

BRANDON, Man. (CP) — The Assiniboine River strained at its banks Thursday as three flood crests rolled eastward through western Manitoba.

The first crest was expected to hit Brandon late Thursday night or early today. The river rose four inches Wednesday night, up 14 inches from a low point three days ago, but still slightly below last year's peak.

Officials were confident the city's dikes, raised about 15 inches above normal level, would hold.

The second crest hit St. Lazare, Man., at the junction of the Assiniboine and Qu'Appelle Rivers. Both rivers rose four inches putting the Assiniboine three inches above the peak it hit in 1954. However the tiny community appeared to have weathered the crest.

The third crest passed through Kamsack, Sask., and crossed the border into Manitoba. Water resources officials said this crest, the largest of the three, may raise the level at Brandon as high as the record 1948 flood.

The situation at Oak Lake, a southwestern Manitoba lake swollen by the flooding Pipestone Creek, improved Thursday.

TEA PRICE DROPS 8 CENTS AT COAST

VANCOUVER (CP) — Tea drinkers in Vancouver got good news Thursday when wholesalers cut the price of tea eight cents a pound.

One large department store immediately passed the price cut on to consumers and other department stores and chain grocery firms said lower tea prices probably would be general by the weekend.

Bulk tea prices under the new price level will range from about $1.25 to $1.33 a pound for most brands.

Zinc Concentrates To U.S. Smelter

VANCOUVER (CP) — Arrangements for the sale of zinc concentrates from Silver Hill Mines Ltd., silver-lead-zinc property near Tulameen, B.C., have been completed with a United States smelter, company president Edward Borup said Thursday.

He said the contract calls for a good price and that the mine is being prepared for start of production this summer.

Agree On Austrian Treaty Terms

VIENNA (AP) — The Big Four agreed Thursday on final terms for an Austrian treaty of independence.

Foreign Minister Leopold Figl, mindful of an impending top-level East-West meeting, called it "a turning point in world history."

HEADS UNITED CHURCH CONFERENCE

VANCOUVER (CP) — Rev. Dr. George H. Hamilton of St. Giles Church, Vancouver, Thursday was elected president of the British Columbia conference of the United Church.

He succeeds Rev. Moir A. J. Waters, First United Church, Victoria.

Rev. Frank G. Patterson, St. Andrews United, North Vancouver, was named secretary, and Rev. Stanley L. Berridge, Powell River, assistant secretary.

Treasurer is Rev. J. Lyn Clerihue, St. Aidan's, Victoria.

Alberta Election Called As Legislature Dissolved

Seek Electors' Verdict On Liberal Charges of Illegality of Session

EDMONTON (CP)—The Alberta legislature was dissolved Thursday and an election called for "the earliest possible date." It likely will be held within the next two months.

The election was announced by Premier E. C. Manning after he told the assembly the electors are entitled to "express their verdict" on Liberal charges that most Social Credit members had disqualified themselves by having contacts with a government agency — provincial treasury branches.

The premier described the charges as "absurd, irresponsible and without foundation."

A government official said the date of the general election may be announced today.

The premier's secretary, A. D. Elliott, said the legislature was dissolved shortly after the third session was prorogued by Lt.-Gov. J. J. Bowlen.

He said no papers dealing with setting up election machinery have yet been signed by the premier. The election must be held between 34 and 44 days after the election writ has been issued.

Social Credit members went into closed caucus to formulate plans for the campaign.

It was the second time in the current session that the legislature had heard Liberal leader J. Harper Prowse's charges that government members were sitting illegally because they violated the Legislative Assembly Act by having financial dealings with the government or a government agency.

Earlier, Social Credit members John Landeryou of Lethbridge and R. S. Lee of Taber resigned their seats following Mr. Prowse's contentions that they held interests in an Edmonton building being leased by the government.

SITTING ILLEGALLY

Wednesday—The day after receiving his law degree from the University of Alberta—the 41-year-old Mr. Prowse contended that most government members were sitting illegally because they hold or had held accounts with the government's treasury branches, which operate along the same lines as chartered banks.

A new Legislative Assembly Act, passed at this session, allows members to deal with the branches but the previous legislation prohibited them from holding a contract with the government.

Said Mr. Manning:

"The absurdity of the contention is emphasized by the fact that under the legislation in question the public use of treasury branch facilities by any and all citizens of this province, including members of the legislature, has been an established and unquestioned practice for the last 17 years."

He said it was a "grave matter" for the Liberal leader to create "unwarranted suspicion as to the validity of all legislation passed in this House during the past 17 years . . ."

Mr. Prowse noted while making his charges that if they were proved, the members involved must pay the $200-a-day penalty for each day they sit in the House while disqualified under the act.

TELEPHONE TOO?

Mr. Maynard, illustrating the "ridiculous length" at which the legal technicality could be studied, noted that members of the assembly from outside Edmonton actually are disqualified to sit in the House because they rent a government telephone.

QUITE HAPPY

Mr. Prowse, first elected to the House while he was overseas with the army in 1945, said, "We are quite happy to go to the people at this time. I hope the premier intends to actually test the feelings and convictions of the people of Alberta; that he won't call the elections too quickly."

Present standing in the 61-seat House is Social Credit 49, Liberal four, CCF two, Progressive Conservative three, independent Social Credit one and vacant, two.

Kimberley School Band To Coast

KIMBERLEY — The Rotary sponsored high school band has left for the Coast to take part in New Westminster's May Day observances, share in a province-wide band conference and present a full concert of major band music in the S. J. Willis high school in Victoria. A band from this school visited Kimberley three weeks ago, so this will be a return visit.

Travelling in two buses the 60-member group is accompanied by their conductor Ralph Yarwood, music teacher at the McKim Junior-Senior high school, and by Mrs. J. Lukas, mother of one of the members.

Vietminh Begins Reign of Fear

HAIPHONG (AP) — Thousands of Communist Vietminh troops swept into the northwest section of this big seaport Thursday and immediately imposed an iron rule of fear.

Occupation of Haiphong will be completed today, ending French colonialism in North Indo-China. But the Vietminh did not wait for the final day to strike terror in northwest Haiphong.

The occupying army of Moscow-trained Ho Chi Minh ordered a roundup of all Vietnamese who had collaborated with the French and Vietnamese forces during the eight-year Indo-China war.

Almost before the echoes of throngs of Vietnamese cheering the Vietminh entry died away, the threat of arrest and imprisonment cast a black shadow over the lives of Haiphong's 236,000 citizens.

Vietminh army sound trucks blared their order, "Every person who co-operated with the French and Vietnamese forces must report immediately to the nearest police station."

The announcement ordered every Vietnamese to denounce himself if he or his wife in any way had aided the Vietnamese troops who fought on the side of the French expeditionary corps.

Adenauer Assured Of House Majority

HANOVER, Germany (AP) — A new four-party coalition government in Lower Saxony Thursday assured Chancellor Konrad Adenauer the two-thirds majority needed in the federal parliament's upper house to carry through West German rearmament.

VANCOUVER (CP) — The Vancouver Sun says Canadian army provost officers and RCMP are investigating in Vancouver and Tokyo a report that an organized ring is smuggling quantities of valuables into Canada through the army mails from Japan and Korea.

M-m-m, Those Navy Flapjacks!

OTTAWA (CP) — The Royal Canadian Navy boasted Thursday that when it serves pancakes and maple syrup, the memory "lingers for 11 years."

The navy told of receiving a request from a Mrs. D. Emmony of North Rugby, Eng., for the recipe of "a type of flapjack and sauce" her husband, a royal marine, ate for breakfast while serving on the Canadian cruiser Prince Davis in 1944.

The request was forwarded to Chief Petty Officer W. A. Stockley of Esquimalt, B. C., senior cookery officer at the navy's supply school.

By coincidence, CPO Stockley was senior cook on the Prince Davis in 1944. He sent Mrs. Emmony his griddle cake recipe and a recipe for sauce in case she couldn't get maple syrup in Britain.

U.S. May Resume Inoculations

By GEORGE KITCHEN
Canadian Press Staff Writer

WASHINGTON (CP) — The United States public health service indicated Thursday that if all goes well it may order limited resumption of inoculations with the Salk polio vaccine today.

A spokesman for the service said the decision depends on word expected shortly from a scientific team retesting vaccine made by Parke Davis and Company in Detroit. He said quick action can be expected to release batches of the company's product if the report is favorable and public health officials concur.

BENNETT DENIES ELECTION RUMOR

VICTORIA (CP) — Premier Bennett Thursday termed a Progressive Conservative report that there will be a provincial general election in the fall "propaganda" and vigorously denied it.

At the same time, the premier charged that a Victoria newspaper was "doing a disservice to British Columbia" by carrying the report of Robert Patch, vice-president of the B. C. Progressive Conservative Association.

Mr. Patch said he had "confidential information" that a fall election will be held.

"The government has no intention of calling an election this year," Mr. Bennett said at a press conference.

Semenick Appeals

VANCOUVER (CP) — Lawyer James J. Sutherland Thursday filed an appeal against the conviction of William (Silent Bill) Semenick on a charge of trafficking in narcotics. Semenick was sentenced to 10 years.

WINNIPEG SIGNS 20-YEAR GAS PACT

WINNIPEG (CP) — A 20-year contract covering deliveries of natural gas to Winnipeg by Trans-Canada Pipelines Limited has been signed by the pipeline company and Winnipeg and Central Gas Company, a joint announcement said Thursday night.

Prison Gates Shut On Russel Tongay

MIAMI, Fla. (AP)Russel Tongay surrendered Thursday to begin a 10-year prison term for the death of his aquatot daughter, Kathy.

Kathy, 5, who with her brother Bubba formed the aquatot pair, died in 1953 after diving on her father's orders from a 33-foot board. Medical authorities said internal injuries resulted, and Tongay was convicted of manslaughter.

The state Supreme Court this week closed the door to further hearings.

Gov't Trying To Hold Down Hospital Costs

VICTORIA (CP) — Premier Bennett said here Thursday the government is anxious to prevent a rise in overall costs of operating hospitals.

He was commenting at a press conference on reports from the mainland that some hospitals may have to cut staffs because the government has frozen all costs to the 1954 level. Hospitals are now responsible for any wage increases.

The premier said the payment to hospitals in B. C. is the highest in Canada.

Meanwhile, a spokesman said St. Joseph's hospital had negotiated for increases for some categories of employees this year and is in a "very awkward position."

"We can't cut our staff if we are going to keep up services."

An official of Royal Jubilee also said a cut in staff would mean a cut in services. He said the hospital would likely consider an appeal.

THERE WAS NOT A TRACE of a smile among her four daughters as Queen Juliana spoke at Wageningen, Holland, in ceremony marking tenth anniversary of liberation of the Netherlands from the Nazis. It was Canadian General Charles Foulkes, extreme right, front row, who accepted surrender of 120,000 German troops at that time. Seated at right of the Queen is her consort, Prince Bernhard. Dutch princesses, left to right, are: Marijke, Beatrix, Margriet and Irene.

B.C. Slamming Door on Power Opportunities Says McNaughton

OTTAWA (CP) — General A. G. L. McNaughton said Thursday British Columbia is trying to slam the door on Canada's opportunities to make the proper use of the country's rightful waters.

The chairman of the Canadian section of the International Joint Commission told the Commons committee on external affairs that B.C.'s proposed deal with the Kaiser Corp. of the United States to exchange Columbia river water for electric power was negotiated with full knowledge that U.S. government policy is "to take our water and to give us nothing for it."

He said the committee should study debates of the International Joint Commission concerning the Libby power project. This involves American proposals to use Columbia river water, to be dammed in B.C. at Mica.

"We told our engineers to disregard the boundary altogether in working out the project," he said. "Compensation would be worked out later.

"But when the application to build Libby came up it didn't take long to find out there was no boundary when it came to benefits going to the people downstream in the U.S. but that there was definitely a boundary when it came to the benefits returning to the people up in Canada.

"We were not going to take that lying down.

PROPER USE

"When we got this information that the United States was prepared to take our water and give us nothing for it we had our engineers devote their attention to making proper use of the waters in Canada."

Meanwhile, he said, Kaiser representatives had interviewed him last May in Ottawa about the Arrow lakes project.

"I felt that when they made up their minds on what they wanted to do we would hear from them and possibly have some further communication from the government of British Columbia."

The commission then would be able to advise both federal and provincial governments in the ligrt of its further knowledge.

"The first I knew that matters were not proceeding in that way was when I received a telegram last Sept. 17 from Mr. Sommers (lands minister R. E. Sommers of B.C.) saying the B.C. government was on the eve of making an arrangement with the Kaiser interests.

"I telegraphed in reply that it would be most unfortunate if an agreement were entered into before we had an opportunity to present information bearing upon this which we had just received.

"To my surprise is really too mild an expression — the reply was that a bargain had been struck."

Two days earlier, he said, he had received a report that two years' engineering surveys had been crowned with success.

"The situation concerned this new possibility for use of the flow from Mica creek reservoir to help out in the regulation of the Fraser for power without adding to the flood-protection problems or interfering with the salmon run — so important to British Columbia.

"This opened up the possibility of uses for our water and power ourselves in our own country. And the Kaiser development might well inhibit this larger plans.

"I think you can understand the feelings of the chairman of the Canadian section when the door was slammed in the face of this opportunity Canada might have to make the proper use of her rightful waters."

And In This Corner . . .

WINNIPEG (CP)—It was like looking for a needle in a haystack.

A purse containing $40 cash was lost in 31 tons of rags collected at greater Winnipeg schools during the White Cross Guild rag drive Wednesday.

Drive workers set about their search by first determining the school where the purse became lost, then located the truck with the school's rags still loaded. They found the purse.

VANCOUVER (CP)—It was an easy life for farmer Benjamin Crowe.

"He stayed in bed while I went for the cows—at 4:30 a.m. each day," Dorothy Pentland, 40, told the court Wednesday.

She is suing the 64-year-old farmer for breach of promise to marry her and a half-interest in his dairy farm.

Miss Pentland said she tended the cows for 17 years as well as acting as housekeeper for Crowe. She received no pay. Crowe, she claims, promised to marry her in 1937.

QUEBEC (CP)—Quebec City is too poor to run a dog pound, city councillors decided Wednesday.

After complaints from aldermen that homeless dogs in certain areas are ripping up freshly-planted lawns and flower-beds, the council asked the Quebec Society for Prevention of Cruelty to Animals to open a dog pound and trap the pooches.

The society agreed provided the city footed the bill—about $5000 a year.

The proposed bylaw came up for discussion Wednesday.

"Ridiculous," protested councillor Henri Gagnon. "We need the money for more important things." The bylaw was dropped.

QUEBEC (CP)—Adelard Labbe, 55, appeared in municipal court Tuesday for the 105th time on a charge of drunkenness.

He asked the court to acquit him so he could leave the city to find work.

"I won't come back for the rest of the summer," he said.

"In that case," Judge Rodolphe DeBlois said, "I'll give you another chance."

"Thanks," said Labbe, "but I don't promise not to visit you in the fall."

Chest Canvassers Get Tips For Monday "Blitz" Drive

"One Appeal for All Means More for All."

With that slogan behind them, more than 80 men and women will go from door to door in Nelson and district Monday night collecting for the 1955 Community Chest drive.

Although the campaign will extend over three weeks, the "blitz" canvass of the residential areas will be the starting point in the road toward this year's objective of $20,000, from which 20 agencies will benefit.

Fraser Tees, campaign chairman, at a preliminary meeting Thursday night, gave the army of canvassers their instructions in explicit detail.

Greater Nelson, Granite Road, South Slocan, North Shore and Willow Point will be covered.

Although cash donations are welcome, instalment giving is being emphasized, and for this the pledge card has been designed.

Total contributions in any one year are deductible for income tax purposes, receipts being issued by the Chest office.

Organizations and institutions become agencies of the Chest by voluntary application, J. R. Corner, president, told the large gathering. They have had ample time to apply for 1955 membership, and thus the list for this year is complete.

The agencies are the Canadian National Institute for the Blind, Easter Seals for Crippled Children, the Knights of Pythias cerebral palsy, B. C. Cancer Society, Canadian Arthritis and Rhsumatism Society, Camps Koolaree, Lourdes and Galilee, Ladies' Auxiliary to Nelson branch of the Canadian Legion, the Kootenay Lake Hospital and Mount St. Francis auxiliaries, Beta Sigma Phi well baby clinic, Soroptimist Club, IODE local welfare, Nelson Ministerial Association Relief fund, St. John Ambulance Association, Kootenay Society for Handicapped Children, Nelson Boy Scout Association and Air Cadets and Navy League.

"Provision is made for special grants," Mr. Corner pointed out. Last year Toronto flood relief got a helping hand from the Community Chest. When the Nelson Ministerial Association found that the need for transient help was increasing, the Chest came to its further support.

P. O. Bird, assistant secretary, will be handling campaign business eight hours a day during the drive at the Chamber of Commerce room, telephone 40.

Wide District Attendance at Thompson Rites

A large number of friends and members of lodges throughout the district attended funeral service for mining pioneer James Russell Thompson at Thompson Funeral Home Thursday afternoon. Mr. Thompson died in Kootenay Lake General Hospital Tuesday, aged 79.

Service was under the auspices of Nelson Lodge No 23, AF & AM Acting chaplain was E. J. Levêque. Floral tributes were in profusion.

Hymns sung were "Unto the Hills Around," and "Abide With Me." Organist was Mrs. W. A. Manson.

Pallbearers, all members of Masonic lodges, were C. B. White, W. H. Anderson, R. R. McCandlish, M. K. Ozelle, H. Moore, J. L. Irwin and N. Tattrie

Cremation followed

Mrs. W. Walford, Widely Known In District, Dies

The death occurred at Trail-Tadanac Hospital Thursday of Mrs. Ethel Alice Walford, wife of Wilfrid George Walford of 711 Elwyn Street, Nelson. Mrs. Walford, aged 57, died suddenly a few days after an operation.

Mrs. Walford, the former Ethel Parnaby, was an East Kootenay resident for nearly 30 years until her marriage in 1938 brought her to the Nelson and Trail districts. She was born at Ripon, Yorkshire, England and came with her brothers and sisters during her early school years to join her father, the late George Parnaby, at Cranbrook. The family resided in Cranbrook until the 1920's when Mr. Parnaby bought a ranch five miles outside the city. After their marriage Mr. and Mrs. Walford lived a Trail, Brilliant, South Slocan and Castlegar, and in 1944 settled in their present home in Fairview.

Keen gardeners both, and with her husband active member of the Nelson Garden Club, Mr. and Mrs. Walford made their corner lots at Fifth and Elwyn one of the most attractive gardens in the city. She was a supporter of the Kootenay Music Festival. She won many friends for her kindness to children, caring for many whose mothers were in hospital or at work.

Mrs. Walford is survived by her husband, two brothers. Harold in California and Raymond in Cranbrook; and five sisters. Mrs. A. Sutton, (Floss) in Ruislip, England, Mrs. W. C. Crebbin (Jean), Miss Gladys Parnaby, and Mrs. H. Brown (Anne), all in California, and Mrs. George Hirt at Chapman Camp.

Bank Depository Opening Today

The city, one of the oldest customers of Nelson branch of the Bank of Montreal, will have a prominent part when the bank's new night depository is opened today.

At official opening ceremonies at 10 a.m., city treasurer C. W. R. Harper will place the first wallet in the depository, the first to be installed at a bank branch here.

Others participating will be Mayor Joseph Kary and T. H. Waters, the contractor. A. R. Burnie, manager, will introduce the guests and conduct the ceremony.

The depository service is available to local business men after regular banking hours, seven days a week. It is particularly convenient for restaurants, hotels, theatres, food markets and service stations which do business later than other institutions.

Sister of Nelson Oldtimer Passes

Word of the death of her brother, F. H. Walley of Ingersoll, Ontario, has been received by Mrs. A. D. Emory of Nelson!

Mr. Walley, whose wife predeceased him about a year ago, had often visited Nelson.

Mrs. G. Harry Ferguson, formerly of Nelson and now of Toronto, is a daughter. A. Clyde Emory of Nelson is a nephew.

150 Tour Hospital, See Mock Operation

A mock abdominal operation proved a point of high interest as citizens took advantage of National Hospital Day to learn more about their Kootenay Lake General Hospital.

About 150 were estimated to have toured the hospital Thursday, with 131 registering in the guest book. This was 20 more than last year and 30 more than in 1953.

They saw, besides the mock operation, demonstrations of blood transfusions, an oxygen tent and intravenous and intra-muscular injections. They saw old and new equipment demonstrated, the different hospital departments open for inspection and then had tea at the nurses residence.

Invitation to visitors to have their annual chest X-ray didn't go unheeded. More than 60 miniature X-rays were taken during the busy and enlightening afternoon.

However, only one person took advantage of the opportunity to make suggestions about a community hospital.

Superintendent of Nurses Mrs. Warwick Bucknell was in charge of hospital arrangements. Publicity for the day, including a flashback to a 1936 hospital day, published Thursday, was handled by Mrs. F. M. Drew, KLGH archivist.

Women's Auxiliary to the hospital was in charge of the tea at the nurses home.

Mrs. L. G. Catley, hospital board director, invited citizens to take part in hospital day in a CKLN radio broadcast. She reviewed for listeners the origin of the day and described activities of a normal hospital day.

Bridge Tenders To Be Opened July 6

The British Columbia Toll Highways and Bridge Authority has called for tenders for Nelson's West Arm bridge, tenders to be opened July 6.

Preliminary estimates on the bridge have ranged between $3 million and $4 million. It is expected to take two years to construct.

Coal has been mined for more than three-quarters of a century on Vancouver island.

IT'S THAT DAY IN CALENDAR

If the horoscope for today says "be cautious in all matters," it's small wonder. To superstitious people, this is a black letter day; Friday the Thirteenth, a day to beware of black cats, workmen's ladders and a number of other traditional omens of misfortune.

The only consolation to be taken is that this is the only Friday the 13th this year. If you clear today without a mishap, you can stop worrying until January 13, 1956.

Kiwanians Urged To Continue Work For Handicapped

Continued support of the Kootenay Society for Handicapped Children was urged on the Kiwanis Club Thursday night by former district organizer Peter Melwood, a guest at the meeting at the Hume.

Mr. Melwood praised the club for the assistance it had given the society, but stressed that the work for less fortunate children must be carried on, and aid being needed more than ever.

Films were shown by civil defence co-ordinator E. W. White. They dealth with radiation detection instruments, and followed one he had shown previously on survival under atomic attack.

New Equipment to Brighten Park; 36,000 Plants for Beautification

Lakeside Park's face-lifting program will soon be launched and the city's annual parks and boulevards beautification will get under way next week if weather permits.

Two tennis courts, a swimming pool, new play equipment and picnic tables will give Lakeside Park a new look this Summer, and the bowling green is being put into shape.

Parks superintendent Frank Holt and a three-man crew will lay out 36,000 plants in the park, the former streetcar stop just North-East of the park, boulevards, Nelson Memorial Park cemetery, the hospital bank, and for the first time, the firehall grounds.

A new department is the Uphill playground, which is to be levelled and seeded in preparation for recreation programs.

About 2000 gladioli have been already planted in Lakeside Park and 35 varieties, from asters to zinnias, are waiting to be lifted from the greenhouse to go into plots and boulevards. This job should be completed about the first week of June, Mr. Holt estimated.

Grounds have been roughed out at the West end of the park for tennis court construction.

Rotary Club's swimming pool will be located at the end of the promenade, close to the bathhouse, reaching to the lake from that point.

New kiddies' equipment will feature a "mountain climber" near the boathouse. It permits inside and outside climbing to a dome top, and has an igloo entrance. Climb rings progress from large at the bottom to small at the top to force the child to lean forward while climbing.

Forty new picnic tables will bring the total to 65. Old tables will now be discarded. The new ones have metal frames and can be taken apart for convenient storage in the bathhouse. Tops and benches are bolted to the frames. Seats throughout the park have been painted pale green.

CHAIR LIFT PLANNED UP MOUNT SEYMOUR

VANCOUVER (CP) — B. C. Forest Service plans to build a $250,000 chair-lift up Mount Seymour on Vancouver's north shore, it was revealed Thursday in submissions made before the Sloan Royal Commission enquiry into the forest industry. It is part of a $700,000 promotion planned for Mount Seymour Park in the next two years.

THE B OF M'S NEW, SPECIAL "AFTER-HOURS" DEPOSITORY SERVICE

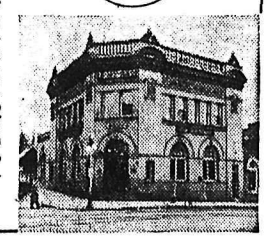
Now, Nelson business people, who are unable to make all their bank deposits during regular banking hours, will have an "after-hours" service seven days a week.

This new B of M Depository Service enables merchants, automotive service stations, restaurants, food markets, theatres, hotels and many other such businesses to deposit their receipts safely and conveniently *after regular banking hours.*

ANOTHER FIRST FOR CANADA'S FIRST BANK . . .

MY BANK B of M

The inauguration of the 'after-hours' depository marks another first for Canada's pioneer bank, for it is the first such service to be offered by a chartered bank in Nelson. Since it opened its first small office on Baker Street in 1892, the B of M has constantly endeavoured to keep pace with the growth of Nelson by expanding its services and pioneering new ones to meet the ever-increasing banking needs of the community.



For full details, please enquire at the B of M's Office at 298 Baker Street

In addition to Nelson, many cities from coast to coast are enjoying this new helpful B of M Depository Service.

Contracts Awarded for East Kootenay Bridges

CRANBROOK — Contracts for bridges in the East Kootenay have been announced in a statement of progress in highways and public works.

Goatfell and Curzon bridges on the Southern trans-provincial highway have been awarded to Manning Construction Company of Vancouver, in the amount of $72,828.

As part of work on the trans-Canada highway, construction of the Yoho Bridge East of Golden has been contracted with Baynes-Manning Company, Ltd., of Vancouver. The sum in this contract is $90.712.

Trail Male Chorus Sings at Salmo

SALMO — The Trail Male Chorus won applause from a large audience in the high school auditorium here Thursday night for a program that included solos by lyric soprano Kathleen Rose-Sinclair.

The Rotary Club of Salmo, only recently organized, sponsored the presentation.

Led by their well known conductor Hans Fogh - Domsmidt and with Gwendolen Kay as accompanist, the choristers delighted their audience with numbers that ranged from the classics through folk songs to contemporary compositions such as the Oklahoma chorus from the Rogers and Hammerstein musical production of the same name.

The soloist chose At Dawning by Cadman and Il Bacio by L'Arditi for her opening selections, and followed these with Gershwin's Summertime and The Sleigh by Richard Kountz.

In one offering, Italian Street Song by Victor Herbert, the soprano took the solo part with the chorus. Lewis Freeman, baritone, was soloist in Ain't It a Shame by Wilhousky.

Cranbrook Buys New Fire Truck

CRANBROOK — City order has been given for a new two-stage pumper fire truck for the City Fire Department, with delivery in Cranbrook expected in July. This new vehicle can operate on draught principle in controlling volume and pressure from hydrant sully.

Cost is $11,300 on a straight purchase basis, but the company is purchasing the department's fire truck which has been in service for more than two decades at a price of $1200 for direct delivery to the point at which it has been sold.

PRETTY Verna Frie, above, a grade 9 pupil at Kaslo high school, will be crowned as Kaslo's *May Queen of 1955* at the city's gala Victoria Day celebration, to take place this year on May 23. The annual festivities draw crowds to Kaslo from district points.

Voting Saturday On School Bylaws

SLOCAN CITY — For the second time in less than two months, ratepayers in the Slocan school district will go to the polls Saturday to vote on a $107,000 referendum which if approved will give the high schools at South Slocan and Slocan City activity rooms, and the high school at New Denver an addition to its existing activity room.

The referendum was defeated by one vote when it was first put to ratepayers March 26.

The district would be required to pay 50 per cent of the cost of the program, over the next 20 years.

Polling stations will again be at Sandon, Rosebery, Hills, New Denver, Silverton, Slocan City, Perry Siding, Appledale, Winlaw, Vallican, Passmore, Slocan Park, Crescent Valley and South Slocan.

Lumber Company Ups Production

NAKUSP — The M. G. Lumber Company of Nakusp, owned by Milton Davis, has increased production 40 per cent by the installation of some new features. This increased production has also caused the employment of one more man. Formerly operated by four men, the plant now employs five.

A new sawdust bin was built and chain conveyor for disposal of waste. A new loading dock was built and by using Charlie Sadd's lumber loader, the total operation was speeded up.

The mill operator expects to continue through the season. The lumber market is holding firm and looks promising for the year.

Overwaitea at Nakusp Changes To Super Market

NAKUSP — Construction work has started on the Overwaitea Store to convert the present building into a super market.

The contractors are now busy preparing the foundation work so that a crew of local carpenters may be at work in the immediate future. All allied work will be let to local craftsmen.

Lighting plans include four full building-lengths of fluorescent lights. Electrically refrigerated fruit and vegetable stands, frozen food locker and dairy produce display case will be installed as well as a refrigerated section in the new warehouse for all excess fruit and vegetable stocks. A modern meat department will be incorporated in the store.

The building will be heated by an oil furnace. Tile flooring will be laid and painting of the interior will be in the new pastel shades.

The same type of speedy checkout by the turn table system, as is being installed in the new store in Nelson will be used here.

The building will take up all the space between the present building and Gardner Electric. The new warehouse extends 25 feet beyond the present width and will run around 25 feet along the South side.

It is expected that in a month's time the work will be sufficiently advanced to require the evacuation of the building, and arrangements have been made to carry on the business in the Parish hall from that time until about the middle of August when it is expected the reconverted building will be ready.

Overwaitea first came to Nakusp in 1929 and opened a small store on Slocan Avenue in the present Nakusp Laundry and Dry Cleaners Building. Growth of the business necessitated the move to the present location about six years ago. H. Hare has been the manager here for the past six years.

IN CRANBROOK Saturday for the annual Spring meeting of the Association of Kootenay Municipalities, will be Hon. W. D. Black, above, Nelson-Creston MLA, provincial secretary and municipalities minister.

Churches Launch Drive for Funds

CASTLEGAR — The building fund program for the Kinnaird and Castlegar United Churches, which will be conducted during the next three weeks, has been started rolling.

F. A. Fairclough of Fairton Services, Ltd., in Vancouver, explained organization of the campaign to official boards of the two churches recently. He was introduced by Rev. L. C. Johnston.

Conveners of committees elected to date are: general canvass chairman and arrangements chairman for Castlegar, David Campbell; for Kinnaird, W. B. Walper; publicity and canvass treasurer for both charges, A. G. P. Santano; hostess chairman for Castlegar, Mrs. L. A. Grunerud, and for Kinnaird, Mrs. J. C. McLeod.

A canvass office has been established at the Cedar Crest Motel, telephone 2911.

Man Loses Eye In Cranbrook Fight

CRANBROOK — Broken glass which became involved in a fight early Sunday morning led to the hospitalization of Ernst Glur, and subsequent removal of an eye inpured in the outbreak.

Two men involved in the fight have been charged with assault occasioning actual bodily harm. They have been remanded for an unstated period and are being held in custody in the meantime.

SMART CADETTES from Cranbrook are inspected here at Kimberley by Major-General Christopher Vokes, CB, CBE, DSO, CD, General Officer Commanding the Army's Western Command. Major-General Vokes' visit was part of his annual inspection of Kootenay militia units and cadet corps.—Charles Wormington photo.

Cranbrook to Vote on $78,000 Sub-Station

CRANBROOK — Approval of a $78,000 debenture bylaw for increasing the city's electric potential is being sought by the city of the department of municipalities for ratepayer endorsation. The bylaw has been given two readings this week.

Power consumption has shown impressive annual gains in Cranbrook for 15 years without setback, and the demand has now exceeded the power available through the single Third Street substation from the East Kootenay Power Company. City's consumption last year was 8,305,800 kwh, compared with 1950's consumption of 5,370,400 kwh. Capacity of present facilities is 2000 KVA, while December demand registered at 2272 KVA.

Location of this additional substation would be in the airport vicinity at the North end of Joseph Street nearer industrial consumers.

The bylaw proposes city light rates as security for repayment over 20 years at four per cent interest, and if approved by the department would not necessitate increase in the city debenture mill rate levy.

Rosebery Lumber Firm Rebuilding

NAKUSP — The mill of Rosebery Lumber Company at Rosebery, operated for about a year, is being entirely rebuilt along modern lines. A completely new building is going up for the sawmill.

As part of the conversion, the first gangsaw for this area has been ordered from Europe by Columbia Machinery Company of Nakusp. In addition, an all automatic edger and infeed green chain will arrive in about a month.

The machinery will produce 25,000 board feet a shift, and there will be two shifts.

Another new installation will be a new burner.

Owners of the Rosebery Lumber Company are H. Jordan and Roy Yamada of Nakusp.

Columbia Machinery, besides having the contract to supply the machinery and install it, will also place the cement foundations on which the machinery is set.

"Have you ever talked to Vienna?" asked Frank Weinzeil.

He ordered the machinery by telephone. He just took down the receiver and asked central for a number in Vienna and she said "Just a minute."

"It was like talking to someone in town," he said. It costs $15 for the first three minutes and $4 for each succeeding minute. Asked how long he talked, he said he hadn't got his bill yet.

The other partner in the firm is Otmar Stroemeyer. They have been in Nakusp about two years.

Lister Hay Finds Seattle Market

LISTER — Surplus hay of the Lister Co - Operative Association look a sharp dip recently when four large trailer units came from Ellensburg, Wash., and carted off 55 tons of first and second cut alfalfa for use in the Seattle district where there is a shortage of feed.

The shipments were from the farms of John Huscroft and Adolphe Marzke.

It is expected that further shipments will be made for the same market.

The Chinese language consists of words of one syllable, but each sound may have 10 or more meanings

Patrol Wagon Escapee Fined At Cranbrook

CRANBROOK — Escape from lawful custody cost William Janzen a fine of $150 or in default three months when he pleaded guilty in court here before Magistrate Richard Shiell. He was arrested as the result of a Saturday night disturbance and escaped from the patrol wagon while being taken to the police station. On the disturbance charge he was fined $25 or one month, with sentences to run concurrently in the event of default, but he paid both fines.

For using purple gasoline, reserved by law for use on farm premises, in a private automobile, James Gee Won was fined $50 and costs when he pleaded guilty. Fines for motor carrier act infractions levied were $10 and costs against E. W. Still for trucking a load higher than regulations permit, and $10 and costs against Edgar Colter for trucking without the necessary carrier plates.

Interchange of Ideas, Not Fear, Greatest Hope To Avoid Atom Death

The possibilities of war, statesmen keep saying, have been made too horrible to contemplate because of the existence of nuclear weapons. Fear, they say, of what man would do to himself by their use will keep nations at least at arm's length.

But would it? Fear of gunpowder and shot introduced in an age when halberds, arrows, catapults and rams were the warfare vogue did not prevent continued conflict. Tanks, aircraft and bombs when rifles were the accepted thing did not prevent warfare. Nor did aerial rockets, thousand-plane devastation raids or flame-throwers prevent the start of the World War II holocaust. Korea came despite the fears engendered by the horror of napalm and the threat of germ warfare.

Yes, you might argue the degree of fear of the atom bomb and the hydrogen bomb is greater; it's all-ascending. Fear of gas was probably comparable; it choked and blistered and killed and was not selective of its victims. It was used in World War I, horrified civilized man, but still did not prevent World War II.

Could it happen again? Could Hiroshima be vague in our memories? Could the horror bombs be shelved as gas once was? All that history of past weapons has proven is that man is apparently sensible enough to put aside too powerful weapons, but not to stop fighting with others of less terrifying propensities.

Fear will not do it. The thing that will end warfare is the greater civilization of man, and that greater civilization must be based on the Christian considerations of understanding of fellow man. Perhaps, if we can just keep the leaders talking about the conference tables, eventually some inspired person will come up with the key word or plan that will win universal acceptance of that idea.

That is the idea of the United Nations organization: to have man settle his differences about the conference board and in the interchange of ideas instead of guided missiles.

A Different Capitalism

In announcing further enormous expansion plans for the Ford Company in the next three years, Henry Ford II remarked that hourly workers in his plants were now averaging just under $5000 a year. This brought sharply back to mind an announcement by Mr. Ford's famous grandfather, just before the First World War, that workers in the Ford Company henceforth would be started at $5 a day—even sweepers.

Ford's enemies claimed it was only an "advertising stunt", and one which would attract unfortunate people from all over the country to Detroit, where they could not find work in the Ford plants or any other.

But there is no doubt that this high-wage policy, aimed at making car-buyers out of the workers, played as big a part in the North American industrial revolution of our time as Ford's mass-production, assembly-line technique.

These twin ideas of high pay and high productivity have turned capitalism on this continent into a very different thing from the old capitalism of Europe which bred the discontents of Socialism and Communism.

Fluoridation

During a recent debate in City Council on the question of fluoridation an alderman sarcastically asked whether fluoridation cured cancer or heart disease. As it does not, as its value is in reducing tooth decay, he apparently thinks it not worth bothering about.

This is the attitude which should arouse parents to protest as strongly as possible. For what are the facts?

Doctors from the Hospital for Sick Children have stated that children graduating from high school in Toronto have an average of 13 to 14 cavities.

The Health League of Canada states that the cost to the average family for dental care is $26.50 a year. The city's Medical Officer of Health states that it costs the taxpayers $193,000 a year or dental care of children.

Fluoridation would cost 10 to 15 cents a year per capita. And in Brantford, where the Dominion Department of National Health and Welfare has been studying the effects of fluoridation since 1945, this is what fluoridation of the community water supply has done to tooth decay:

Reduced it in children six to eight years old 69 per cent.

Reduced it in children nine to eleven years old by 44 per cent.

Another fact—from the Canadian Dental Association—"It has been repeatedly demonstrated that children who have consumed fluoride-free water all their lives experience almost twice as much dental decay as those children whose natural water supply contains traces of this element."

This fact has been confirmed by the Dominion Department of Health's study of thousands of children in Stratford, Brantford and Sarnia. Stratford, with naturally fluoridated water, had the least tooth decay. Brantford, where the water was artificially fluoridated in 1945, is catching up to Stratford. Sarnia, with no fluoridation, had the most tooth decay, about the same that Brantford had in 1945.—Toronto Telegram.

Here to Stay

This week Israel is celebrating its seventh anniversary, and the occasion is being marked by Jewish people here in Vancouver as well as elsewhere.

The anniversary is heralded as the time to re-echo Israel's declaration of statehood. In this the young nation announced its desire to work in peace and friendship with all its neighbors for the development of the entire Middle East.

Israel has had trouble with the Arabs. Instead of turning the present armistice into peace treaties, the Arabs are accused of imposing an economic blockade upon Israel. They have built up their military forces on her borders, and there have been assertions that they will not rest until Israel is no more.

Such talk is nonsense. It is time the Arabs recognized that Israel is here to stay.—Vancouver Herald.

The Difference

One of the best illustrations we ever heard of the basic difference between the Workers' Paradise" of Soviet Russia and the present-day capitalism of America turns around the visit of a Ford engineer to the auto plant in Gorki.

The American had many questions to ask as he walked with his Russian counterpart through the factory, and received the full propaganda treatment. Over and over it was emphasized that all of the machinery and equipment, everything in sight, and the building, too, belonged to the workers. When they walked outside, the American pointed to the cars coming off the assembly line, and asked who got them. "Oh, they belong to the state."

Then the Russian engineer came to visit the American in Detroit. Walking through the Ford factory, he asked with good-humored sarcasm to whom all this belonged, only to get the answer he expected: "To Mr. Ford." But when they went outside and passed the immense parking lot the visitor enquired with amazement who could own all those cars. "Oh, those belong to the workers."

That's the North American story.

The quarrel is a very pretty quarrel as it stands; we should only spoil it by trying to explain it.—Richard Brinsley Sheridan, in "The Rivals".

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

H. F., South Slocan—We have been studying the planets in school, and would like to know which ones are visible at this time of year and in what part of the sky they could be found?

The planets to be seen in May on clear nights are Mercury, which follows the sun closely and is rather difficult to pick out for that reason though it can be discerned in the west; Venus, now visible at sunrise but in a mountainous country not so easy to spot; Jupiter, well past the meridian and setting at midnight; Saturn, rising about sunset and visible low in the southern sky for the rest of the night.

R. L., Ymir—What is the cost for a Manitoba birth certificate? Also, can any reader tell us how to make bleach from washing soda—how to mix the soda with other ingredients? Understand this is an old-fashioned bleach.

For birth certificate send $1.25 to Registrar Births, Marriages and Deaths, Parliament Buildings, Winnipeg. Can other readers help us with the bleach recipe?

Interested, Trail—Is there a post office at Sable River, Nova Scotia? And where is Cape Onion?

Yes, there is a post office at Sable River. Cape Onion is near Grandfalls, Newfoundland.

Reader, Trail—Will you please print address of Whitcomb & Gilmour, publishers, in Montreal?

Whitcomb & Gilmour Ltd., 1629 Sherbrooke Street, Montreal.

L. J. W., Nelson—Can you give me figures showing the strength of the British fleet in classes?

Our figures are for 1954: Battleships, active, one; in reserve, four; fleet carriers, active, one; training, etc., three; in reserve, two; light fleet carriers, active, two; training, etc., one; in reserve, three; in course of construction, six; cruisers, active, 10; training, one; in reserve, 15; under construction, three; daring class, active, six; in reserve, two; destroyers, active, 20; training, three; in reserve, 69; frigates, 33; training, 21; in reserve, 115; construction, 25; fast mine-layers, active, one; in reserve, two; monitors, in reserve, two; submarines, active, 37; in reserve, 20; minesweepers, active, 23; training, three; in reserve, 38; coastal sweepers, active, six; training, five; in reserve, 56; under construction, 57; inshore sweepers, active, nine; training, three; in reserve, 52; under construction, 57. Since these figures were published there have been more submarines built, several tankers, and similar war craft.

Gems of Thought

Dear reader, right thinking, right feeling, and right acting—honesty, purity, unselfishness—in youth tend to success, intellectuality, and happiness in manhood.—Mary Baker Eddy.

* * *

Youthfulness should be and can be like the continuous flowering of a plant; but its blossoming is too often atrophied or stunted by faults of behavior which are like weeds growing over one's personality.—Gelett Burgess.

* * *

In this is youth most wonderful: that it knows not fear.—Anonymous.

* * *

One thorn of experience is worth a whole wilderness of warning.—James Russell Lowell.

* * *

You grow up the day you have your first real laugh—at yourself.—Ethel Barrymore.

* * *

No one should make a statement like "Youth is the happiest time of life" without being prepared to accept its intellectual consequences.—William Lyon Phelps.

Your Horoscope

Your business and profession should prosper exceedingly in the months ahead, improving both your financial and social standing. Today's child will be of strong character and with very good moral principles. Musical and literary talents may also be observed.

Avoid shame, but do not seek glory—nothing so expensive as glory.—Sydney Smith.

Mother Makes Better Teacher

... F. B. PEARCE

The fact that most married women teachers are in elementary schools has unfortunately occasioned the jibe that these schools can be staffed with housewives. The inference, of course, is that the housewife-teacher is a person of indifferent intelligence and ability and not to be compared with the technically trained college graduate. To be a good housewife demands intelligence, patience, system and order. How important these are is borne out by the fact that inspectors in making their reports on the condition of the classroom refer to it as "housekeeping".

Marriage broadens the personalities of women and men. Women teachers who never marry never really understand boys, and, in some cases, this makes them unjustifiably unjust and harsh to them; but the married woman teacher finds that the ways of men and boys are much the same. She is not afraid of them, and she realizes that fundamentally they are likeable persons, in many respects more so than girls.

Like many other professions these days, teaching has many married women in its ranks. Such is the shortage of teachers that our school systems would be in a bad case without them. It is true that most of those who have returned to teaching are in the elementary schools, but this is the case in other countries. In England the Minister of Education stated that the possibility of reducing the size of classes depends upon two things: a greater number of entrants to the profession and the extent to which married women remain or return to teaching.

Necessity has largely forced school boards to abandon their policy of having only unmarried women on their staffs. It was a policy which was not dictated by educational efficiency but purely by the indefensible belief that there should not be two partners in a marriage working for salaries.

It has been said that a principal should have children of his own, since only by bringing up some of his own can a man really understand how to deal with children in school. The same is true of married women. Only those who have had a teacher leave to bring up her family and then return to teaching can best appreciate this. Girls who were not particularly good before marriage returned to make excellent jobs when their families were grown. Housekeeping, far from causing a deterioration, had improved their teaching.

TEACHERS SHOULD READ

Recently the emphasis has been very much on certification, since this is speciously stated to bring better teaching. This is not always the case, of course, by any means. A teacher can take a multitude of courses, but her ability to teach will depend entirely upon what use she makes of them. It is the avowed aim of the B.C.T.F. to have none but university graduates in all schools, elementary as well as secondary. That day is a long way off for many a junior high school would cease to operate today if it were not for teachers with elementary certificates. But the belief is growing, in all sections of society, that there is no road to a good salary except through the university.

But working for extra certification does not develop the personality of the individual. That can only come by extensive reading. Teachers need to learn to read rapidly and extensively, not necessarily "good books" or masterpieces of literature, but everything they come across. Even the most fatuous comic strip has, at times, some idea that is novel and worth remembering. But with much reading each individual acquires a reserve of ideas, phrases and words which not only increases his knowledge but his ability to express that knowledge well. And what does any teacher need more than knowledge and the ability to communicate that knowledge to others?

Africa, stretching 5000 miles from north to south, is about three times as big as Europe.

From an Oldtimer's Notebook

By R. G. JOY

Historian, Nelson and District Oldtimers Association

It seems that the promised bridge over the West Arm of Kootenay Lake to the North Shore is to become a reality instead of a dream. That shore will become more popular than ever.

In the early nineties, when one's fancies suggested a visit to Newlin Hoover's home there, it required going to the end of the CPR wharf and shouting and hallooing two or three times and waving one's arms in a beckoning manner. Rowboat was the only trans-water transport then. Hoover, you might find, was perhaps lonesome and about to make a cup of coffee and a biscuit. And perhaps tell a little gossip.

At that time we had no Nelson Daily News or CKLN radio. Telephones were in use, but Hoover's means of communication with his friends 62 years ago was to pull his flat-bottomed boat with home-made oars across the Arm and convey a friend back for a chat. The experience was somehow enjoyed by those who were fortunate enough to partake of his hospitality. A few years later one could be regaled with a bowl of delicious strawberries as his garden grew, and cream from the tin cow. A chat was often about the future possibilities of Nelson.

Hoover's cabin was always tidy. It was located about 200 feet west or downriver from the old powder magazine location now known as Burns' Point. He was well domesticated, having been married and the father of two children, a boy and a girl.

PROSPECTED

Newlin was kind to Billy Coles and I, and our friendship lasted through the years. He had prospected in his early days, having arrived here before the nineties. He pre-empted the land south of Hoover Street, later selling it for $7000. He told me of his locating in partnership with Oliver Bordeau the Lilly May mineral claim just off the Dewdney Trail near what later became the Rossland townsite.

He also stated that when others came up from Trail they scolded him for locating the best, as they thought, of the mineral showings. He told them to investigate the red streak showing on Red Mountain It was Morris and Bourgois and Bordeau who located on Red Mountain the Leroi, the Josie and War Eagle, famour producers of Rossland history. These mines caused the great rush of mining men that brought to the Golden City a name as one of the best gold-lode areas of British Columbia.

A short time ago I noticed an item in the Daily News informing us that 67 pounds of ore from the South belt produced over $1700 in gold. This shows that we have some enterprising citizens with us yet.

* * *

Billie Wilson, brother or cousin of the late Blake Wilson who became one of the leading citizens of Vancouver, was a recent visitor here from the Ininiaklin Valley.

Still another Wilson, Charles, was a partner of J. A. Kirkpatrick now of Vancouver. They were responsible for the K and W in the KWC Block at the corner of Ward and Baker Street. We must not forget Joe Wilson of the same family who was indeed a pioneer and ran a successful pack train carrying freight from Sproat's Landing before the CPR built into Nelson.

One of the early CPR employees told me that when President Van Horne was on a tour of inspection when the Columbia and Kootenay Railroad to Robson was being built, complained about engineers trying to put a straight line into Nelson. He urged them to follow the water as much as possible for blasting rock was too expensive. Van Horne said "all we need is a railroad that can carry freight faster than Joe Wilson's pack train."

Timber and Politics Bad Mixers B. C. Logger Declares to Sloan

VANCOUVER (CP) — Russell Boyd, Minstrel Island logger, has likened the B.C. timber management licence policy to an Axis corporate state.

Appearing for the small logger before Chief Justice Gordon Sloan's forest royal commission, he said a management licence in his area had created a "desperate" shortage of logging opportunities for independent operators.

"The chief forester looks forward to the day when every tree, regardless of ownership, and every man cutting one, will be under his control," Mr. Boyd said.

"In a broader field neither leader of the late Axis ever asked for more, and the corporate state is now a reality in the forest industry."

REPRESENTS INDEPENDENTS

The Minstrel Island logger, representing the Independent Loggers' Association, asked for a five-man forestry commission which would conduct all negotiations with applicants for management licences.

"Once the terms had been semi-finalized," he said, "they would be given the widest publicity and better offers would be entertained from competitive bidders before the final granting of any licence."

Mr. Boyd said the present procedure "in which the minister sits in judgment on his own decision is farce," and "timber and politics simply don't mix."

Coast Halibut Fleet Opens Season

VANCOUVER (CP)—British Columbia and American halibut fleets began fishing off the West coast at 6 a.m. Thursday.

Hundreds of boats have been clearing from Prince Rupert and other northern ports for the last several days in order to be on the grounds when the season opened.

Halibuters landed an all-time record 71,000,000 pounds of fish last year.

I reckon it's right about reachin' a man's heart through his stomach, but sometimes it's a mighty long detour to reach a mighty small place.

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always Follow these simple rules.

1. Never use a brush on them! Your dental plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.

2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."

3. Use a soaking-type cleanser made for false teeth only . . . Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor free. Get the world's largest selling denture cleanser. Polident, at your drug counter.

Recipes . . .

Bread-Baking at Home Is Simple Task Today

By MARGARET CARR

Today, making bread at home is a *simple, easy task* compared to what it was in grandmother's day.

Grandmother always started her bread-making the night before baking day, with yeast of uncertain quality and flour made from home-grown wheat. Today your corner grocery store provides you with yeast of good quality and enriched flour. Add to these some salt, sugar, fat and liquid—and you can make delicious bread while you are getting the family lunch or dinner.

ALABAMA BUTTERMILK ROLLS

1 teaspoon sugar
½ cup lukewarm water
1 envelope active dry yeast
4 tablespoons shortening
2 tablespoons sugar
1¾ cups lukewarm buttermilk
5 cups sifted all-purpose flour
1 teaspoon soda
1 teaspoon baking powder
1 teaspoon salt

In one-half cup lukewarm water thoroughly dissolve one teaspoon sugar. Sprinkle yeast on top of water. Let stand 10 minutes in a warm place, free from draft. Then *stir well. Cream shortening.* Add sugar and continue creaming until fluffy. Heat buttermilk to lukewarm, (not hot). Then add yeast. Sift together flour, soda, baking powder and salt. Continue to cream shortening and sugar, alternately adding sifted flour mixture, lukewarm buttermilk and yeast mixture. Turn onto a lightly floured table and knead until smooth and elastic, about five minutes. Cover dough and let rise overnight in the refrigerator or leave dough in a warm place free from draft for one hour or until double in bulk. Punch *down and knead again. Divide the* dough into two portions and knead each portion about 40 seconds. Mould one portion of the dough into a loaf and place in a greased *loaf pan. Shape second portion of* dough into rolls (makes one dozen) and place in greased muffin pans. Instead of dividing dough into bread and rolls, two loaves of bread can *be made, or two dozen rolls.*

EASY FRENCH BRIOCHE

1 package active dry yeast
1 teaspoon sugar
½ cup lukewarm water
¾ cup milk, scalded
¼ cup butter or margarine
1/3 cup sugar
1 teaspoon salt
4 egg yolks, well beaten
Grated rind of 1 lemon
4½ cups sifted all-purpose flour

Dissolve one teaspoon sugar in lukewarm water. Add yeast and let stand 10 minutes in a warm place free from draft. Then stir well. Pour scalded milk over butter or margarine, sugar and salt in large mixing bowl. Stir until sugar is dissolved. Stir the yeast, add to milk with the beaten egg yolks and lemon rind. Add about 1-3 of the flour—beat well to make smooth stiff batter. Stir in remaining flour to make a soft dough. Let rise in a warm place, covered with a cloth, until light and bubbly. Turn on floured board. Toss dough back and forth until smooth (keep hands well floured). Place in greased bowl — brush top with a bit of melted butter or margarine. Cover and store overnight in refrigerator. Next morning, shape small pieces of cold *dough quickly with the fingers.* Place in greased muffin pans. Cover. Let rise until double in bulk. Bake in a hot oven (425 deg. F.) 15 to 20 minutes.

Donations Made For Vacation School Kit

Mrs. James Crozier and Mrs. Charles McEachern were hostesses for the Margaret Foster Group of the United WMS at the home of Mrs. George Robertson. Mrs. Gordon Webb gave a report of the recent Presbyterial.

Mrs. Robert Dickson reported on community welfare work. The supply secretary, Mrs. E. Cook, received *donations from the CGIT,* Explorers and Mission Bands of both United Churches for the vacation school kit. Forty-two hospital and 14 home calls were made during April. *Members will take part in* the WMS service in St. Paul's next Sunday.

Hospital Auxiliaries President Re-Elected

OTTAWA (CP) — Mrs. J. Cecil McDougall of Montreal was re-elected president of the National Council of Hospital Auxiliaries of Canada Inc., Wednesday.

Other officers elected at its biennial session included: vice-presidents, Mrs. W. P. Fillmore, Winnipeg; Mrs. W. B. Frost, Melfort, Sask., and Mrs. D. B. Menzies, Edmonton. The council has associate membership in the Canadian Hospital Association, currently meeting here.

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted) *for this pattern. Print plainly* SIZE, NAME, ADDRESS, STYLE, NUMBER.

Send your order to MARIAN MARTIN, NDN, 60 Front S. W., *Toronto, Ont.*

Exercise Slims, Dieting Reduces

By IDA JEAN KAIN

Solve this mystery: Why is it that one reducer can slip into a dress a size smaller than another reducer her same weight can wear, even though both have taken off an identical numbmer of pounds and are the same height? The explanation is that one reducer exercised regularly and slimmed off inches while dieting to lose weight.

Since exercise is not an effective means of reducing weight, many of you are puzzled as to just where exercise fits into a reducing program. Exercise is slimming. Diet is reducing. Slimming refers to inches . . . reducing to pounds.

If your figure has spread, but you are not actually overweight, you *do not need to cut calories. Exercise* will restore tone to flabby muscles. With specific calisthenics, you can re-shape your measurements.

However, those of you who need to reduce must curb calories. To improve your measurements as you lose excess pounds, exercise along with dieting.

Some of you may remember the streamlining miracle of the overweight who lost 28 inches while reducing only 30 pounds! Many inquiries came in following that column, asking how this was possible. The miracle was brought about through streamlining calisthenics.

This young woman, the mother of *four boys,* two of school age, two younger, arose every morning at 5 in order to have time for her thirty minutes exercise period. Again, here are the exact measurement changes *accomplished:* Bust, from 40 to 35; waist, from 33 to 28; abdomen, from 44¾ to 36; hips from 43½ to 37½; thighs from 25 to 21¾. She reduced from 172 to 142 pounds. Her height is 5' 5".

Her doctor had given her permission to swing into calisthenics . . . which she certainly did — slimming 8 inches off the stomach (abdomen); *6 inches of the hips and* 5 inches off the waistline, plus the other places.

Since there is a 2 inch difference through the important measurements from one dress size to the next, it is easy to figure why this reducer could wear a dress two sizes smaller than another reducer who had lost a total of 30 pounds but failed to exercise.

Not all overweights can take vigorous exercise. However, streamlining exercises need not be rugged. A smooth stretch with a slow motion side-bend takes little effort but slims the important middle measurement. If the doctor approves of exercise for you, take advantage of precision calisthenics . . . they work wonders.

GOOD SHOT

BEDFORD, England (CP) — Best pest killer of Bedfordshire for 1954 is marksman C. F. Skevington, who shot 3060 wood pigeons between March and October.

Couple Married At Appledale

APPLEDALE — A lovely Spring wedding was celebrated in the traditional Russian custom at the home of the bride's parents here when Anne Lawrenoff, elder daughter of Mr. and Mrs. W. Lawrenoff, became the bride of Alec Poznikoff, elder son of Mr. and Mrs. W. Poznikoff.

Bridesmaid was Miss Winnie Bonderoff, and the best man was Mr. Larry Soukeroff.

The brunette bride was lovely in a floor-length white gown of Chantilly *lace and net over white satin,* the fitted bodice being of lace, and having a Peter Pan collar and long sleeves. The full skirt featured lace inserts. A tiara studded with *sequins and pearls held her lace-*edged fingertip veil. The bride's bouquet was of red roses, and as jewelry she wore the groom's gift, a rhinestone necklace.

The bridesmaid chose white nylon and a bouquet of pink carnations.

A wedding dinner was served to relatives and friends. A three-tier wedding cake centred the bride's table.

Later in the day the wedding party came to Nelson for a second ceremony at the home of the groom's parents.

The couple left for a honeymoon to be spent at coast cities. For the trip the bride chose a navy blue tailored suit with pink accessories.

Out-of-town guest included the bride's brother Samuel of Coleman, Alta., and Mrs. W. Chernoff of Creston.

United WMS Plans For Two Services

The United Women's Missionary Society made plans for the church service Sunday at which Mrs. James Armstrong will be the speaker, and for the CGIT affiliation service Tuesday, and for the annual Spring tea.

Eight boxes of good used clothing *were packed for overseas relief* under the convenership of Mrs. F. Lowe.

In the devotional period, Mrs. Stenson read the Scripture lesson and *Dr. Annie Smith led in prayer.* A well presented study of the final chapters of "The Church in India" was given by Mrs. R. L. Patterson, Mrs. J. C. Chambers, Mrs. J. H. Blunt and Mrs. N. C. Stibbs.

"Never has the Church in India more earnestly sought true friendship than now," she said. "One of its most serious weaknesses is its continued dependence upon large sums of money from overseas; another, the absence of sufficient Indian leadership. Canadians realizing the day of isolation is past is important, and Christian living is more important than ever.

"In India, particularly, our Canadian stand on NATO, and our share in the Colombo plan is equally admired. The Christian church can give an expression of feeling and a sense of direction to its government in the matters of relief, and stand behind it to alleviate the suffering and feed the hungry.

"If we are willing to look upon mankind as one family, as the Scriptures teach us, and with a revival of Christian conviction and obedience, there is no reason why all these great ills that curse mankind cannot be tackled. The door of opportunity swings wide open for every Christian. Never in the world's history were so many people seeking a sense of security, peace and the right to live their lives. This is the seed in which the truth of God grows best."

Adjudicator Praises UBC Players For Entry's Professional Finish

REGINA (CP)—The four remaining plays in the Dominion Drama Festival here have two excellent performances to beat, one by a Toronto group, the other by a British Columbia entry.

Mrs. Gerda Wrede, adjudicator for the festival, was able to find only minor faults in both plays. "The Country Girl" performed Tuesday night by the Toronto Playcraftsmen, and "The Crucible," staged Wednesday night by the University of British Columbia Players' Club Alumni.

Mrs. Wrede said "The Crucible," written by Arthur Miller and based on the Salem witch hunts of the late 17th century, also was up to professional standard.

She said both "The Country Girl" and "The Crucible" showed the advantage of having trained directors. The British Columbia performance was able to reach the audience without a word being spoken. It showed excellent teamwork which made the group on stage come alive. Lighting was skillfully used and cueing and timing were perfect.

Scarred Escapee Said Dangerous

WINNIPEG (CP)—Search for a scarfaced convict, described by police as "extremely dangerous," was launched throughout western Canada Thursday.

Police established roadblocks in souhtern Manitoba as the hunt for 36-year-old Alexander Zakopiac began. Zakopiac, serving a 30-year prison term for attempted murder and armed bank robbery, escaped early Thursday from the mental hospital at Selkirk, 30 miles north of here, where he was undergoing observation. He had recently been transferred from Stony Mountain penitentiary.

Winnipeg's inspector of detectives, James Mulholland, said Zakopiac is "one of the worst criminals we've had in years."

Zakopiac, described by police as a drug addict, was wanted in Vancouver for attempted murder but officials there did not execute their warrant when he was given 30 years in Manitoba.

Advises Gas for Death Penalty

OTTAWA (CP) — Clinton T. Duffy, former warden of San Quentin penitentiary, Thursday urged that if the death penalty is to be retained in Canada condemned persons should be executed in a gas chamber.

He told the Commons - Senate committee on capital and corporal punishment and lotteries that both hanging and electrocution are gruesome and the body is disfigured.

"I favor the lethal gas method of execution because it is much more humane," he said. The condemned person lost consciousness a few seconds after the executioner pressed a lever.

Mr. Duffy, now a member of the adult authority of the California department of corrections, testified at the last public meeting of the committee. Several closed sessions will be held to prepare a report for submission to Parliament.

Saigon Asks France To Withdraw Troops

SAIGON (AP) — Premier Ngo Dinh Diem is asking France to withdraw its army in South Viet Nam to the 17th parallel or pull completely out of the turbulent Indochina state, a government spokesman said Thursday.

The 17th parallel separates the south from Communist-ruled North Viet Nam.

Prospects of any immediate French compliance with such a request appear slim. The bulk of Viet Nam's French population and of France's holdings are concentrated in the areas where the French troops are based.

GATT Criticized By Australians

By TERRY DOWNEY

MELBOURNE (Reuters) — Some Australian farmers, manufacturers and traders want Australia to withdraw from the 34-country General Agreement on Tariffs and Trade.

Critics blame GATT for the recent cuts Australia made in her imports, the troubles of the Australian wheat industry in markets overseas and difficulties of Australian manufacturers seeking to compete in world markets against countries with cheaper production costs.

Trade minister John McEwen answered the critics by saying in effect: "We are unhappy about GATT. We know that it has its faults, but it is the only agreement there is and better to belong to it than 'go it alone.'"

The main criticism of GATT in Australian centres around the imperial preferences worked out in Ottawa in 1932. The agreement, which "freezes" existing tariff arrangements, means that the terms of the Ottawa agreement must be preserved, and Australians say Ottawa preferences now are working against Australia.

Typical of the grumblings about GATT in Australian primary industry was the discussion at a recent conference of wheat growers' federation. Complaining that Britain was buying wheat from the United States, T. C. Stott said it was necessary "to overhaul the whole question of reciprocal trade between Australia and the United Kingdom."

If it was logical for Britain to seek cheaper wheat markets, he declared, it was equally logical for Australia to go to Japan for cheaper textiles. "Australian buying of Japanese textiles would enable Japan to buy Australian wheat and barley," he added.

R. W. C. Anderson, a spokesman for manufacturers, criticized GATT on the grounds it denies Australia the right to give tariff protection to her own industries.

Urge More Plays For Children's Theatre

REGINA (CP) — A theatre conference held in conjunction with the Dominion Drama Festival here submitted to a special committee nine resolutions to encourage children's theatre in Canada.

They included a recommendation for a national library of child plays with an annual competition to encourage authors to write for children. Television and radio stations were asked to produce good plays to help children in the theatre field.

Aim to Give Ike Vaccine Control

WASHINGTON (AP) — A move is gaining momentum in the United States Congress to give President Eisenhower sweeping stand-by powers to clamp controls over distribution and prices of Salk polio vaccine.

Representative Jesse Wolcott (Rep. Mich.) said the proposal seems to be a "happy compromise" between contradictory demands for only voluntary guides and for drastic, compulsory and immediate controls. He thought stand-by powers should be satisfactory to the Eisenhower administration, which has opposed federal controls so far.

Wolcott, usually a foe of federal controls, is senior Republican on the House of Representatives banking committee, now considering a wide variety of vaccine control bills.

DUAL-TEMP *Refrigerator-Freezer*

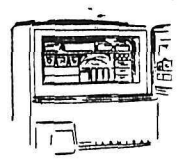
Admiral's Exclusive "Magic Ray" Lamp produces purifying ozone and bacteria-destroying rays that keep the air inside sunshine fresh, prevent food flavours from mingling. Admiral's "Magic Ray" Lamp means that you can place sliced onions and butter side by side on a Dual-Temp shelf. They can't trade flavours. And Admiral's famous "Humid-Cold" main food compartment actually keeps food fresher, longer.

Tested and proved in use, only the Admiral Dual-Temp gives you these vital food-protecting features. Make the Admiral Dual-Temp Refrigerator your choice!

These Features Make the DUAL-TEMP the WORLD'S MOST-WANTED REFRIGERATOR-FREEZER

- **DECORATOR HIGHLIGHTS.** Tarnish-Proof Canyon Copper Trim gives a rich new colour accent to the "Glacier-Tone" interior. Top of cabinet is flat, not curved. Objects won't fall off when placed on top. Ideal for built-in installations.
- **SEPARATE FULL-WIDTH "COLD SEAL" FREEZER DOOR** has trigger-action latch. Freezer is separately insulated and completely sealed off from main food compartment.
- **3 ICE CUBE TRAYS** plus frozen dessert and storage pan. 2 Ejector-Type ice trays pop-up a party supply of 36 ice cubes. Separate tray has 12 individual ice molds.
- **2 EXTRA-LARGE PORCELAIN CRISPERS** keep fruits and vegetables dewy fresh and crisp for days.
- **DIAL-TEMP COLD CONTROL** has unlimited number of settings to suit your needs . . . under *any* conditions in *any* climate. Handily located in upper part of cabinet out of small children's reach.

"Touch-O-Magic" Door Opener! Door opens with gentle touch of your elbow when hands are full. It takes only 2½ pounds of light pressure to make the door swing open by itself.



Huge separate Sub-Zero Freezer fast freezes at temperatures as low as 52° below freezing. 81 lbs. of food stay safely frozen even up to one year. Full-width super-speed freezing shelf.

Only Admiral gives you so much practical storage space. 3 full-width "Glide-Out" Shelves. King-Size Dairy Chest with 3 egg racks. Butter keeper and snack compartment. 3 Deep Capacity Door Shelves.

No Defrosting Ever! No switches to adjust, no clocks to set, no pans to empty! Excess moisture evaporates automatically.

Prices and specifications subject to change without notice.

Churches' Views On Divorce Scored by Canon

LONDON (Reuters) — Canon Charles Raven, one of Queen Elizabeth's chaplains, criticized the Church of England recently for its attitude toward divorce.

Canon Raven, 69-year-old former vice-chancellor of Cambridge University, told the London Marriage Guidance Council: "I am not very happy about the way in which my own church and Christendom generally are handling the present situation regarding divorce.

"It is a rather tragic thing that so many religious people seem to think the proper way of handling the difficulties of marriage is by enforcing the law against any kind of divorce.

"I do not believe that monogamy wants that kind of defence . . . it is such a good thing itself that to penalize the people who fail to attain it is not the best way of commending it."

Under Church of England rules, no party to a divorce, innocent or guilty, can be remarried in a church.

Dance Named After Princess

LONDON (CP) — A new dance called "Princess Margaret's Fancy" hit London Wednesday night, and the Queen's 24-year-old sister helped to introduce it.

The occasion was the English Folk Dance and Song Society's exhibition. Within 15 minutes of her arrival, Princess Margaret was out on the floor swinging and whirling with 250 other dancers.

Later she joined Britain's clog-dance champion, Jack Taoduff, a 21-year-old miner from Newcastle, in a square dance. Said Taoduff:

"She's smashing and so easy to talk to. It was the biggest thrill of my life. Oh well, back to the pit on Monday."

The princess, who danced for three hours, wore the first royal version of the A-line, a pale pink and mauve taffeta gown, billowing out from below the hips.

Forest Products To Build Pulp Mill Near Duncan

DUNCAN, B. C. (CP)—A $25,000,000 pulp mill with a daily output of 250 tons will be built at Crofton 10 miles from here.

H. G. Munro, president of British Columbia Forest Products, ended almost a year of speculation Wednesday when he announced plans for the mill in a speech to the Duncan Chamber of Commerce.

Mr. Munro said the plant will employ 225 men and will have an annual payroll of $1,250,000. During construction 350 to 750 workers will be employed. Their payroll is expected to total $5,500,00.

Construction of the mill is one of the obligations in the forest management licence granted the company.

Mr. Munro said chips from the nearby company operations at Cowichan, now being exported to the United States, will be used in the new mill plus much material now left on the forest floor.

The mill would also take output of small loggers and farmers' woodlots.

Future Airliners To Carry 100

TORONTO (CP) — Huge turbo-jet passenger airliners, carrying 100 passengers each and flying the Atlantic in a few hours, were predicted Thursday for five or six years hence by Clayton Glenn of Trans-Canada Air Lines' engineering department.

Addressing the 69th annual meeting of the Engineering Institute of Canada, Mr. Glenn said:

"The turbo-jet transport aircraft in use five or six years from now ..will fly almost twice as fast, have three times the fuel capacity, cost 2½ times as much to build, will carry 100 passengers in place of the current 60 and will cross from Montreal to London in half the time."

Two such aircraft, flying a daily schedule, could carry as many passengers as the Queen Mary does in the same time it takes the ship to cross.

Mr. Glenn's remarks were contained in excerpts released to the press before delivery.

Southwark cathedral in London, England, mainly built in the 13th century, was known as St. Marie Overie until 1540.

STEELWORKERS TO START BARGAINING

PITTSBURGH (AP) — The United Steelworkers (CIO) mapped strategy Thursday for a fight to secure a "substantial wage increase" in unprecedented simultaneous negotiations with six major American steel producers.

The union's 170-member wage policy committee approved the "substantial" boost demand of USW president David J. McDonald Wednesday. McDonald declined to reveal the exact amount. Steel workers now average $2.33 an hour in the United States.

The union has some 600,000 American members in basic steel plants and as many more in steel fabricating firms.

This year, talks will be held with Bethlehem Steel Corp., republic Steel Corp., Jones and Laughlin Corp., Inland Steel Co., and Youngstown Sheet and Tube Co., in addition to U. S. Steel.

There was no comment from the companies on the union action.

Recommend Board To Settle Deadlock

VANCOUVER (CP) — Two government labor officials Thursday recommended appointment of a conciliation board after failing to break a bargaining deadlock between 32,000 union woodworkers and coast lumber and logging operators.

Breakdown of a month-long attempt by conciliation officer Bob Forgie to reach a settlement was announced by Joe Morris, president of B. C. district, International Woodworkers of America (CIO-CCL).

A conciliation board is expected to be set up within three weeks to review the dispute which centres on a union demand for a 10-cent across-the-board hourly wage boost.

Massey Leaves On 10-Day Tour

OTTAWA (CP) — Governor-General Massey left Ottawa by air Thursday on a 10-day tour which will take him to nine cities and communities in Saskatchewan and Manitoba.

Mr. Massey and his official party flew direct to Saskatoon, arriving in that university centre after a flight of more than four hours in the RCAF's luxury airliner, the C-5.

Following a brief arrival ceremony he spent the night in his private railway car at the CNR station. The special car arrived in Saskatoon Wednesday night from Ottawa.

Today, Mr. Massey will receive an honorary degree from the University of Saskatchewan and give the convocation address. The honorary degree will be presented by Lieutenant-Governor W. J. Patterson of Saskatchewan.

Magistrate Deals Sternly With Boys

NANAIMO, B.C. (CP)—Brannan Lake school boys are finding Magistrate L. Beevor-Potts a hefty stumbling block in their plans for misbehavior.

The magistrate transferred two more boys from juvenile court to ordinary court Thursday and then sentenced both, William John Stewart, 16, and Keith Burgoyne, 15, to one year in the young offenders unit at Oakalla. In addition both boys were given two year indefinite terms.

"Behave and you'll be out in a year," said the magistrate. "Misbehave and you'll stay over there a long time."

Children Vaccinated

QUEBEC (CP) — Some 100,000 children in the province have received their first Salk vaccine anti-polio injections, the Quebec health department announces.

BLISTER-PROOF GUARANTEE

PRINTED ON EVERY CAN OF

MARSHALL-WELLS FORMULA 5

HOUSE PAINT

This NEW KIND OF HOUSE PAINT bonds so tightly on new wood moisture can't get through. New FORMULA 5 is fume- and stain-proof, too!

The most severe test you can give paint is on new wood. Here "Formula 5" gives you a startling demonstration of two of its big advantages. It's completely self-priming — sealing the wood pores to provide its own best undercoat. And it's 100% blister-proof — so fully bonded that no moisture can make it blister . . .

Many will say this is impossible — but Marshall-Wells stands behind every can of "Formula 5" with a double-your-money-back guarantee!

Five years of rigid testing on homes and in our laboratories proved that the qualities that make "Formula 5" blister-proof on new wood also make it the most blister-resistant paint you can apply to previously painted wood! Furthermore, it will not stain from rusting or corroding metals, nor discolor from sulphurous fumes in the air.

Use the new "Formula 5" House Paint on your new home or next repaint.

One Way to Cope With High Costs . . .

Coast Rumors Fly on Government Operation of B. C.'s Hospitals

VANCOUVER (CP) — The Vancouver Province says the British Columbia government may take over operation of hospitals in the province in order to cut costs.

The newspaper says government officials hinted at this action following a wave of protest from hospital administrators over the government refusal to increase grants to cover new wage increases for hospital employees.

The government, in a letter to officials of the B.C. Hospital Insurance Service earlier this week, said hospitals would receive no additional compensation for wage increases above the salary level in effect in 1954.

Hospital administrators also said they would have to cut staffs in order to balance their budgets.

There was no official comment from Victoria Thursday on the situation and Health Minister Eric Martin, holidaying in interior B.C., could not be reached.

The Province says government circles in Victoria are hinting that the government will take over hospital operation and incorporate hospital staffs in the civil service if the hospitals are unable to cope with the situation individually.

It is estimated that B.C. hospitals will need $36,000,000 to carry on operations this year. Of this amount, the government pays $29,000,000.

Under B.C.'s compulsory health insurance legislation, the government pays a per diem rate to the hospitals for each patient treated. The patients pay an additional $1 a day.

OTTAWA (CP) — The Senate's special committee studying Canada's illegal drug traffic is taking to the road again. Senator Thomas Reid (L—British Columbia), chairman, announced Wednesday night the committee will make one-day trips to Toronto May 20 and Montreal May 27. It will hear representations from police and other civic groups in those cities.

FOR THE FOURTH YEAR, wheat farmers of Saskatchewan are faced with the prospect of poor crops due to spring floods. All hope of a bumper crop have been dispelled by abnormal rain and snow, which have rendered all but well-paved roads impassable, and have wrecked farm houses and barns by the score. This scene is typical of communities almost up to the B.C. border.
—Central Press Canadian.

Final Nevada Blast Again Postponed

LAS VEGAS, Nev. (AP) — The Atomic Energy Commission Thursday again postponed its final nuclear blast of the 1955 series in Nevada shortly before the shot was to go off.

After a final weather briefing the AEC announced that "unfavorable wind conditions" cause the second postponement.

PHONE 1844 FOR CLASSIFIED

Three Killed by Live Rocket, One Badly Hurt

By SHIRLEY MORRIS
Canadian Press Staff Writer

VALCARTIER, Que. (CP) — A teen-age girl and two men died at Valcartier army camp in the explosion of a rocket they were collecting for scrap metal.

The blast which dismembered the three also seriously injured the wife of one of the men, but she was able to make her way for help.

SNEAKED ONTO RANGE

Army spokesmen said the group sneaked onto a rocket range by a prohibited road at the rear of the camp. They had collected about 50 expended rockets when they touched off the live one.

The spokesman said the used rockets are usually left lying on the range for a time after they are set off. They are then collected by the army and sold.

The victims were dismembered by the blast. Mrs. Daigle was expected to lose an arm as a result of the explosion.

Provost officers patrol the area of the camp grounds but the group apparently used darkness as a cover to sneak through, the spokesman said.

WARNED REPEATEDLY

The spokesman said residents of the area have been warned repeatedly to stay off the ranges but they have continued to slip through to collect the scrap metal. Signs ordering civilians to keep out had been posted on all sides of the camp.

Mrs. Daigle told police she lost consciousness after the explosion and came to to find the dismembered bodies of her three companions lying beside the car. She then dragged herself to the nearest house for help.

Quebec Youths Sent for Trial

BRANDON (CP)—Three Quebec youths, charged with the Jan. 9 slaying of a Roman Catholic priest, were committed to stand trial at the Brandon fall assizes when their three-day preliminary hearing ended here.

Notified of the committal through an interpreter, the three — Claude Paquin, 17, and Gerard Yvon de Tonnancourt, 17, both of Montreal, and Guy Ferragne, 18, of Riviere des Prairies — said they had nothing to say. Of the trio, only de Tonnancourt speaks English.

The three were accused of the pistol-slaying of Rev. Alfred Quirion, 44, whose body, pierced by three bullets, was found in his car parked off the highway five miles east of here. The youths were arrested in Brandon shortly after the body was discovered.

EXPECT CROWDED UNIVERSITIES 1960

TORONTO (CP) — University graduates in the honors and professional courses are too few to go around, Dr. G. Edward Hall, president of the University of Western Ontario, said Thursday.

"But the picture can start to change in 1960 with the influx from our secondary schools—if we are ready for them."

In an address to the annual meeting of the Engineering Institute of Canada, Dr. Hall said governments, the people and industry must work hand in hand to make it possible for the universities to be ready for this influx.

Today's secondary school problems are tomorrow's university problems, he said. By 1960 the number seeking higher education will be twice the present total.

TO BARGAIN ON SALMON PRICE BOOST MAY 18

VANCOUVER (CP)—Union-management bargaining on demands by 6,000 coast fishermen for 1956 salmon price boosts will get under way here Wednesday.

Demands for price hikes ranging from 23 per cent on sockeye to 56 per cent on summer chums will be thrashed out by representatives of Fisheries Association of B. C., acting for the operators and United Fishermen and Allied Workers Union (Ind.).

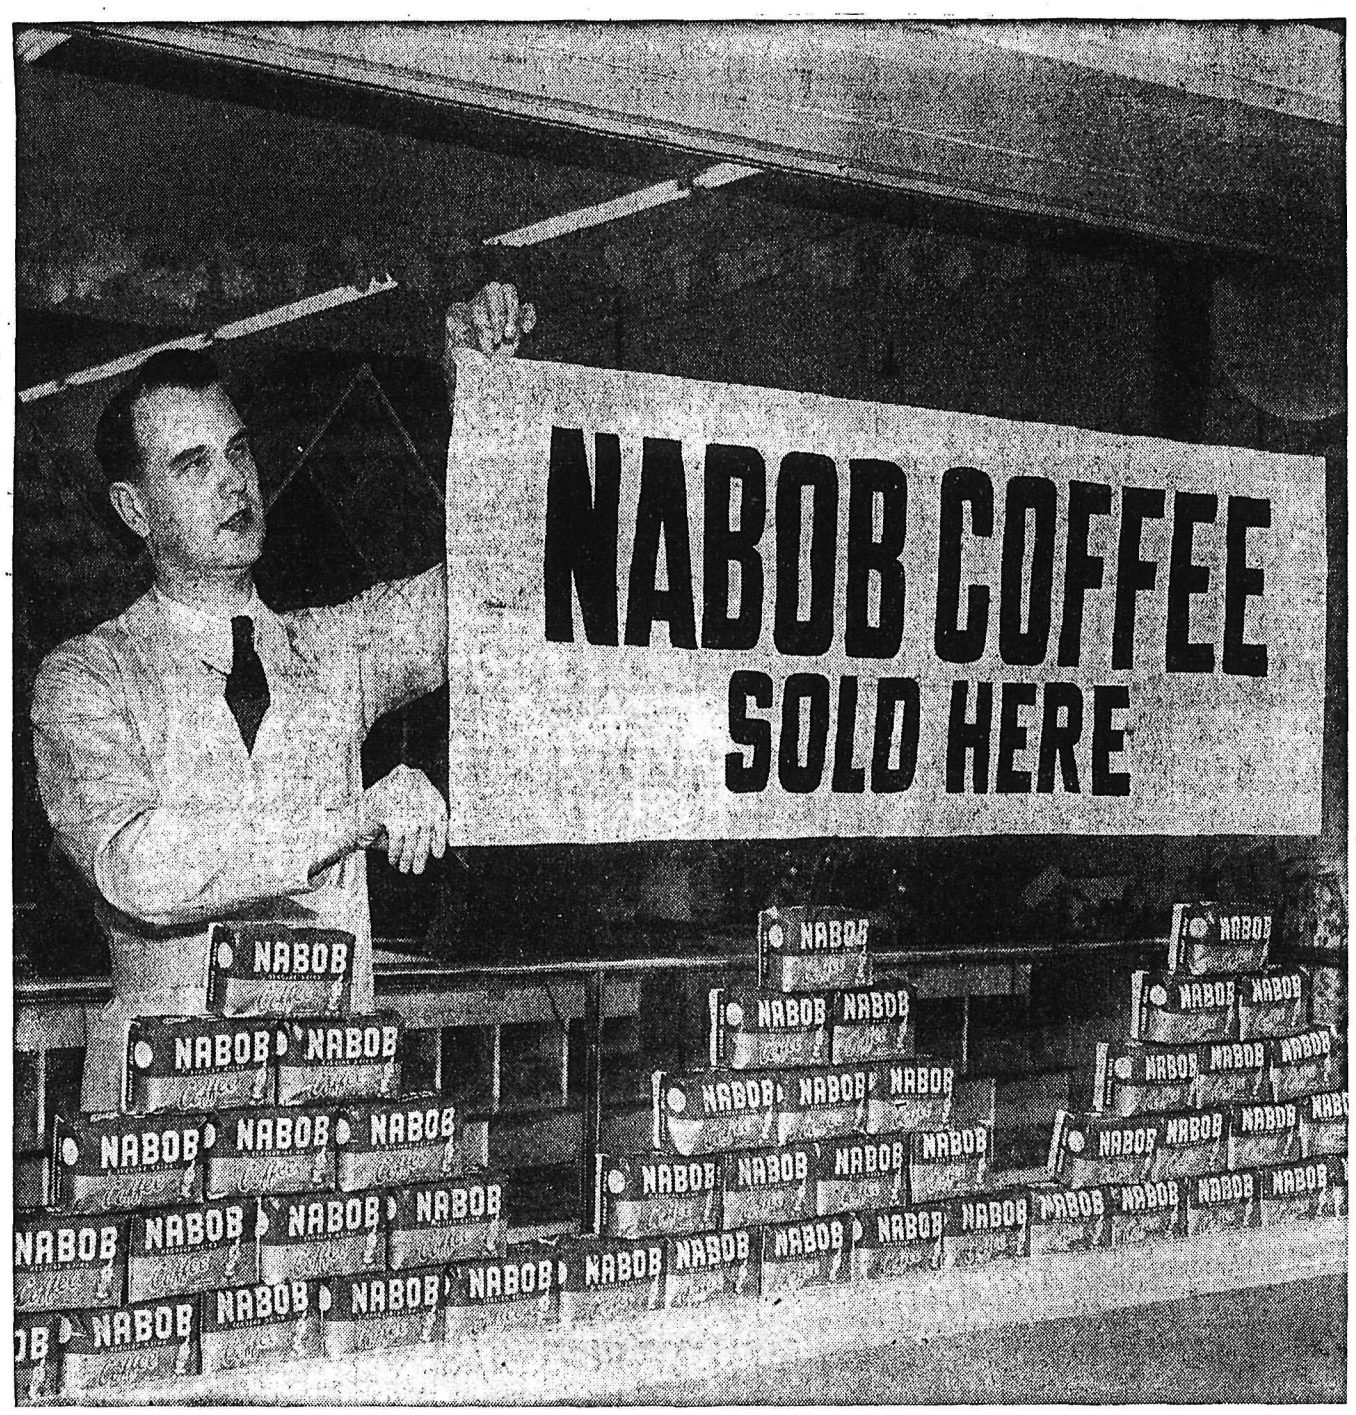
Price increases asked by the union this year, with last year's rate in brackets, are: sockeye, 27 cents (22); coho, 18 cents (13); pinks, 11 cents (7¾); summer and fall chums, 9 and 11 cents. (5¾ and 8).

Elect President B.C. Lay Association

VANCOUVER (CP) — Leonard C. Bushell of Vancouver Thursday was elected president of the B.C. Lay Association, United Church of Canada.

Mr. Bushell is assistant agent for CPR telegraphs in Vancouver and in church work is a member of the board of directors, Central City Mission, and superintendent of the Sunday School at Renfrew United.

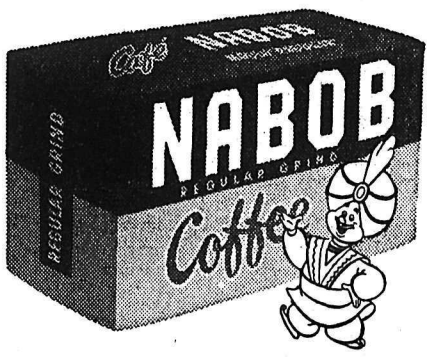
George Mussallem of Haney and Eric Kelly, Vancouver, were elected vice-presidents with W. H Whiteley of Vancouver re-elected secretary-treasurer.



The Sign of a Good Grocer

Good grocers always stock brand leaders. And grocers throughout Western Canada know that Nabob is the coffee most of their customers want. Nabob's marvelous flavor has made it the most popular coffee by far with coffee lovers everywhere. When you insist on Nabob you know you're getting the greatest coffee value you can buy. If your food store is not stocking Nabob now, ask for it. Don't take a substitute or "second best" coffee.

The most popular coffee in the whole of Western Canada!



HOW MANY MINUTES PER GALLON?

Of course, you **don't** have to make gasoline yourself. But you **do** have to work at your job to make the money to buy gasoline. And today you don't have to work nearly as long as you did in 1939, or even 1946.

Back in 1939, the average Canadian had to work **33 minutes** to earn enough to buy a gallon of gasoline.

Seven years later, in 1946, the same Canadian had to work **29 minutes** to earn enough to buy a gallon of gasoline.

Today he has to work only **17 minutes** - about half as long as in 1939 - to buy a gallon of gasoline.

(It's much **better** gasoline, too. Two gallons of today's gasoline does the work of three gallons made in the 20's.)

SPORTS

Seniors Favor District Four-Team Ball Loop

Nelson Maple Leafs senior baseball club will work towards formation of a league with Trail, Rossland and Fruitvale, it was decided at a general meeting at the Hume Thursday night. A schedule will probably be drawn up when Nelson goes to Fruitvale Victoria Day.

Welcomed to the Maple Leaf executive was M. N. (Slim) Porter, who does not anticipate organization of a junior team this season, and will bring up his last year's juniors to round out the senior club.

A secretary-treasurer and club statistician will be appointed at a later date as well as several more executive members.

Coaching the team at Friday evening's practice will be Nelson's fire chief, E. S. Owens, another welcome newcomer.

Juniors turning out will be W. Waters, K. Harmston, Ed Isaacson, George Benwell, Speed Hendrikson, Tom Marshall and Jim McNabb.

Seniors will be Bob Koehle, M. Severyn, Reni Masi, Jim Todd, Dunc Kennedy, Don McKinnon, Bernie Clarkson, Ernie Gare, Bill Haldane, Swede Larson, Wendy Keller, Red Wassick, Bob McNabb, T. Naka, Les Hufty, Frank Hufty, Denny Kavanaugh, Lee Hyssop, Jerry Koehle and Jack Bay.

CHOICE OF Nelson Figure Skating Club as president for its 1955-56 season is Mrs. A. W. Helbey, above, who has served the organization as vice-president previously.—Vogue photo.

300 Kimberley Kids Turn Out For Baseball

KIMBERLEY — Call for recruits from nine to 17 years old for juvenile, pony, little and peewee baseball teams under Kimberley Kid Baseball Association auspices brought in applications through their teachers from 300 players. So far there is a shortage of coaches for the 20 teams to be drawn up from enlistments, with qualification for this office interest in youngsters and a general knowledge of baseball. A half dozen more are needed.

Setting up for the season the adult Association is headed by Ray McNiven as president, Ralph Westgate vice-president, C. W. Davis secretary, Lewis Morton treasurer, Chuck Kinrade commissioner, Hap Elliot uniforms manager and Bill Selby records and equipment manager.

With Rotary Park and McKim school scheduled for grass seeding this year, play in the four leagues is expected to centre at Lindsay Park and possibly the Lower Blarchmont school yard.

FIRST SLOCAN BASEBALL SUNDAY

NEW DENVER — The first ball game of the season will match New Denver-Silverton nine and Nakusp team at Silverton Sunday afternoon. The teams in the past have been evenly matched and provided exciting sport.

Starting lineups have not yet been named.

Eight May Try Lake Swim

TORONTO (CP)—An official of the Canadian National Exhibition said Thursday eight swimmers have requested entry forms for the swimming race across Lake Ontario to be sponsored by the exhibition this summer.

They are: Brenda Fisher of England; Toufic Bleik of Beirut, Lebanon; Hamed Moustapha and Abdel Latif Abou Heif, both of Cairo, Egypt; a third Egyptian whose name is unavailable; Cliff Lumden of suburban New Toronto; Shirley Campbell of Fergus, Ont., and F. J. Gill of Maiduguri, Nigeria.

Rosewall May Lose Top Ranking

MELBOURNE (AP) — Ken Rosewall may be dropped from Australia's top-ranking tennis doubles combination, it was indicated Thursday.

Sir Norman Brookes, president of the Lawn Tennis Association of Australia, said Lewis Hoad and Rex Hartwig would be teamed next month in England's Queen Club and Wimbledon tournaments and if they succeed they will be Australia's doubles pair in the coming Davis Cup rounds.

The Rosewall and Hoad firm had kept Australia well to the fore of international play in recent years. But it crashed in the Davis Cup play-off against the United States last December.

Cockell Workouts Not Inspiring

By JACK HAND

SAN FRANCISCO (AP)—If Don Cockell doesn't show more against Rocky Marciano than he does in the gym, the little fat man will be just another horizontal British heavyweight Monday night.

"He's a horrible gym fighter," you are warned before he climbs through the ropes at his training camp in suburban San Rafael. After it's over, you are advised to pay no attention to what you saw.

Jack Solomons, the British promoter, shrugs off Cockell's workouts.

"In London, I can't even get the boxing writers to bother to look at him in training," he said. "They say he never shows them anything."

The challenger's manager, John Simpson, hastens to explain that Don dislikes public workouts, feels it's "a bit rotten" to show up his sparring partners.

Cockell holds his left hand low, inviting the right hand bombs that the heavyweight champion throws. He shows little ability at fighting on the inside and tying up his man. A left jab is Don's best weapon and he has a tendency to counterpunch to the body after he has drawn a lead.

EXCESS FAT

Although Cockell has taken off 12 pounds, there still is a roll of excess fat that won't pare down.

This is no wily Joe Walcott, no master boxer like Ezzard Charles. If there is dynamite in his punch, his record of one technical knockout in his last seven fights doesn't reflect it.

On the credit side, Cockell appears to be a strong young fellow with quick arms and fair speed for a man of his roly-poly build. The strength of his chin must remain a doubtful factor until Rocky tees off on it.

If Cockell's jab can cut Marciano's nose or open a gash around one of his eyes in an early round he might turn out to be the man England has been waiting for since the days of Bob Fitzsimmons. But that's a big "if."

Rocky hits too hard.

KNOWS HORSES BETTER THAN GRANDCHILDREN

NEW YORK (AP)—Sunny Jim Fitzsimmons, 80-year-old horse trainer who missed taking his fourth Kentucky Derby when Swaps beat the favored Nashua Saturday, never lets anything upset his sense of humor.

Mr. Fitz, who often has said "we'll win our share and lose them too," disclosed at a testimonial dinner that he was training 60 horses at Aqueduct race track.

"I have 17 grandchildren and 17 great grandchildren," he added. In reply to a question, he said: "Gosh, no, I don't know all of them."

Then as the diners laughed, he added:

"But, I know the names of all 60 of my horses, and their breeding."

Dressen Would Alter Bonus Rule

WASHINGTON (AP) — Chuck Dressen, complaining that some fine baseball potential is being wasted by lack of experience, came up Thursday with a new gimmick for changing the bonus rule.

"Let's change the rule so we can send these kids down to the minors for seasoning," the Washington manager said. "It hurts baseball when these kids have to learn the game sitting on the bench of a big league team."

Dressen had taken a good look Wednesday at what the rule can do to bonus player Harmon Killebrew, fro whom the Senator reportedly paid $30,000.

The 18-year-old Idaho youth was tighter than a mainspring and his flubs at third base, which Dressen attributed to inexperience, were costly to Washington against Ned Garver and Detroit Tigers. Tigers won 7-0.

The present bonus rule requires that any player signed for a big cash bonus must remain with his major league club for two seasons.

Under Dressen's plan, a team could send a bonus player to the minors for training but would be required to carry him on its roster which is limited to 25.

$40,000 Suit Filed Against Robinson

MILWAUKEE (AP) — A $40,000 damage suit has been filed in federal court against Jackie Robinson, Brooklyn Dodgers' first baseman, and the Brooklyn ball club, by a Milwaukee husband and wife who claimed they were hit by a bat thrown by Robinson June 2, 1954.

The couple, Mr. and Mrs. Peter Wolinski, charged they were both struck on the head when Robinson, sent to the bench after being evicted from the game at County Stadium, tossed his bat over the top of the Brooklyn dugout and into the box seats.

The Wolinskis claimed they both suffered brain concussions, severe headaches and cuts and bruises.

Jones Pitches Season's First No-Hitter for Cubs

CHICAGO ((AP)—Sam (Toothpick) Jones, towering Chicago Cubs righthander, pitched the first no-hitter of the major league season Thursday, defeating Pittsburgh 4-0 and adding a dramatic touch by striking out the side in the ninth after loading the bases on walks.

The first Nero to hurl a no-hit, no-run game in the majors, Jones faced 31 batters, walking seven and striking out six. It was the first no-hitter in 38 years in Chicago.

Jones, 29, a six-foot-four 200-pounder, gave the small crowd of 2,918 a thrill when, after walking the first three Pirates in the ninth, he struck out Dick Groat and Roberto Clemente on three pitches each and then got dangerous Frank Thomas on a called third strike with the count two and two.

The fastball pitcher who threw 136 pitches had left only one Pirate stranded before his sensational ninth and walked Gene Freese, pinch-hitter Preston Ward and Tom Saffell.

Manager Stan Hack and the entire Cub infield clustered worriedly around Jones after the bases were loaded.

But Big Sam, who munches toothpicks when he pitches, settled down and began pouring the strikes when Groat stepped up.

Not since the famous double no-hitter between Fred Toney of Cincinnati and Jim Vaughn of the Cubs in 1917 had a National League no-hitter been pitched in Chicago. That game, played at Weeghman Field, the site of Wrigley Field, went 10 innings with the Reds winning 1-0 on two hits in the 10th.

FOURTH WIN

It was the season's fourth triumph against three defeats for Jones, who last season won 15 and lost eight for Indianapolis in the American Association, and was second high in the league in strikeouts with 178.

Jones gave all the credit to veteran catcher Cylde McCullough.

"I was just out there throwing fast balls and cruves. Clyde deserves all the credit. He knows all the batters and kept telling me how to pitch to them. I just threw what he told me."

Boxing Probe Postponed

PHILADELPHIA (AP) — The Pennsylvania athletic commission Thursday postponed until Monday the start of its scheduled probe of professional boxing in the state and, especially, last Friday night's Harold Johnson-Julio Mederos bout.

Commissioner Al Klein, in a telephoned statement, said the delay was to enable further investigation before the open hearing. The hearing was to have been held today.

"This postponement was necessitated by the discovery of certain leads to pertinent information which cannot be run down prior to the scheduled opening of the hearing," Klein said.

"The commission, after a telephone conference, decided that it would be to the best interests of our objective to postpone the hearing until Monday, by which time we believe that these leads will have been run down. The decision to postpone the hearings was by unanimous agreement."

Klein declined to be more specific as to the nature of the "leads" the commission is investigating.

Chemical tests made on Johnson after he collapsed have shown traces of a barbiturate-type drug, a medicine often used to induce sleep or relaxation.

Gov. George M. Leader ordered a 90-day suspension of professional boxing in Pennsylvania after receiving a report on what happened.

At the same time he called for a thorough probe of this fight and the entire boxing situation by the commission.

Mayor's Drive Opens Kaslo Golf

KASLO — At Kaslo Golf and Country Club official opening ceremonies, a large crowd watched Acting Mayor Herman Carlson drive off the first ball to start mixed two-ball foursomes on their first round of the season.

The acting mayor complimented the club on the excellent condition of the course and clubhouse and stated that if the club wished to bring power to the clubhouse, city council would give all possible assistance.

The tournament ended in a three-way tie, which necessitated a play-off of two extra holes, when Mrs. A. W. Bavington and John Cochran won first prize and Mrs. W. V. Drayton and W. J. D. Walker were awarded the marshmallows.

Tea was served by the ladies, the tea table being daintily decorated with daffodils.

The executive expressed pleasure at the turnout of younger members and hoped that more young people and others would take advantage of the fine golf course.

British Cricket

LONDON (Reuters) — Cricket close-of-play scores in Britain today:

Derbyshire 179 and 100 for 4, South African Tourists 113.

Middlesex 209 for 7 declared and 187, Essex 129 and 8 for 1.

Cambridge University 223 and 122 for 3, Leicestershire 269.

Yorkshire 317, Oxford University 138 and 156. Yorkshire won by an innings and 23 runs.

Northamptonshire 180, Lancashire 5 for 4 (rain curtailed play).

Hampshire 146 and 124 for 2, Nottinghamshire 357.

Somerset 278 and 181 for 11, Royal Air Force 149.

Warwickshire 42 and 171 for 4, Worcestershire 223.

Cubs See First No-Hit Game in 40 Years' Play

By The Associated Press

Sad Sam Jones abruptly overcame a touch of wildness by striking out the last three men he faced to pitch the first no-hitter of the season Thursday as Chicago Cubs knocked off Pittsburgh 4-0.

It was the first no-hit game ever by a Negro in major league baseball and the first by a Cub pitcher in 40 years. The last hitless major league game was spun by Milwaukee's Jim Wilson against Philadelphia June 12, 1954.

Jones, 29, packed the ninth inning with drama for a crowd of 2918 at Wrigley Field as he walked the first three men, then retired the next two on straight strikes. He ended it all by firing a called third strike past Frank Thomas on a 1-2 count.

In the only other National League game, Brooklyn went into extra innings at Milwaukee tied 1-1.

Rain postponed New York at St. Louis, and Philadelphia at Cincinnati.

McDERMOTT WINS

In the American League, Washington's Maury McDermott outdueled young Herb Score to snap first-place Cleveland's winning streak at six games 3-0, and Chicago scored four in the ninth to beat Baltimore 6-2. Detroit and New York Yankees were idle.

Manager Stan Hack admitted he was ready to yank Jones if the righthander had walked another man in the ninth. But he didn't tell Sam that and Jones just chewed away on his ever-present toothpick to whiff Dick Groat and Roberto Clemente. Then he curved Thomas to death.

Jones, who came to the Cubs with outfielder Gale Wade and cash from Cleveland last winter in return for Ralph Kiner, walked seven and fanned six for the afternoon. His mates backed him up with some brilliant fielding and 15 hits off loser Nelson King and Vern Law. One of the hits was Ted Tappe's homer.

At Washington, McDermott flattened the Indians on four hits and only once was in trouble. That was in the fourth when the tribe loaded the bases with none out. McDermott fanned Dave Pope and Larry Doby and got Hank Foiles on a fly ball.

TWO HITS

Score gave just two hits in the six frames he worked, but the singles by Mickey Vernon and Ed Fitzgerald followed walks to give the Nats their first two runs. The other came off reliefer Art Houtteman.

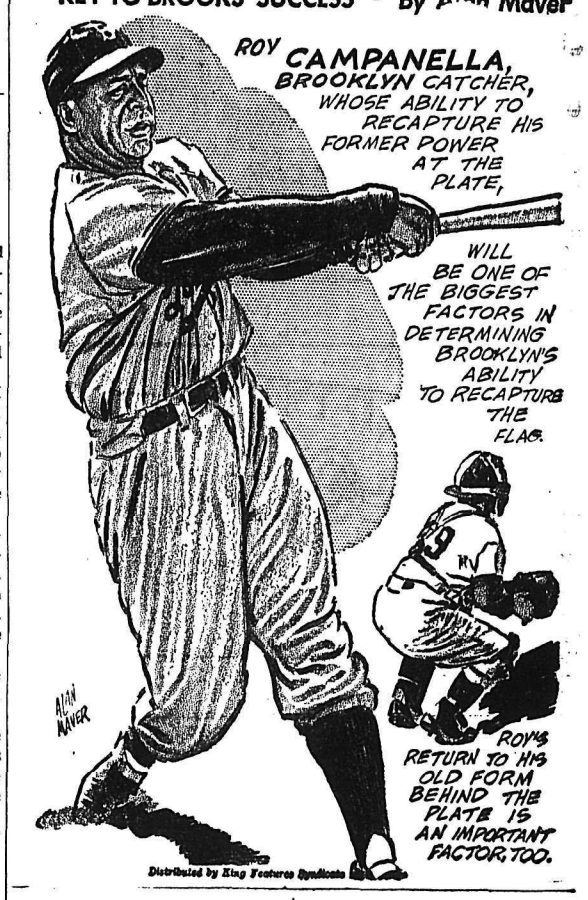
McDermott fanned nine, two more than Score, who now is tied for the major league with the Yankees' Bob Turley at 57 strikeouts.

A walk followed by three singles and Jim Rivera's two-run double broke up a 2-2 game for the White Sox at Baltimore with Harry Dorish claiming the victory in relief of Jack Harshaman. Dorish and Mike Fornieles held Orioles in check over the last three innings. Frank Moore, third of four Oriole pitchers, was the loser.

ANCIENT SPORT

Bull-fighting as a popular sport is believed to have started in the historic Mediterranean island of Crete.

KEY TO BROOKS' SUCCESS - By Alan Maver



Redmen Veterans Head Workouts

ROSSLAND — Most of last season's championship squad will line up with Rossland Redmen when Western International Box Lacrosse League begins play here Tuesday against Trail Golden Bears.

Under new Coach Joe Laface, turnouts have been smaller than expected, but the Redmen still shape up well.

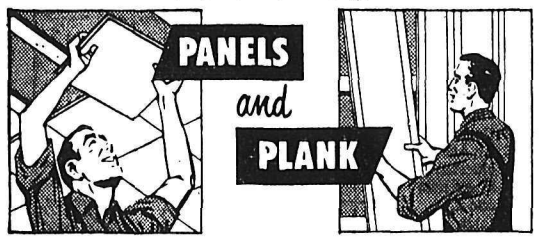
Bud Duperon is again in the nets, but will have some stiff opposition from Joe Bouvert, who played with both Kamloops and Trail last year. Other remaining members of last season's team include Captain Babe Laface, scoring champion Bert Bertoria, Don Davis, Ken Davis, Ray Scott, Pie Laface, Pete Bourchier, Julie Bilesky and Jim Scott, who scored the winning goal in the final playoff game last year.

Juniors Wayne Ferrey, David Henry, Carmen Gipman, and Irv Lavaratto are all making determined bids. Ferrey and Henry saw limited action last year and stand a good chance of making the team.

BUDDHIST COUNTRY

Thailand — ancient Siam — has some 18,000 Buddhist temples.

IT'S SO EASY TO...
Remodel
WITH Johns-Manville
decorative



Now, remodelling is easy to do and easy on your budget with the attractive Ceiling Panels and Wall Plank of J-M Insulating Board. Both can be applied right over old cracked surfaces or used in new construction. Light, easy to handle, flame-resistant, smooth-surfaced. And in their lovely colors, J-M Panels and Plank insulate, decorate and remodel all in one operation. For free, colorful, idea book write Canadian Johns-Manville, Dept. N-511, 156 McPhillips St., Winnipeg, Manitoba.

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

S W L A F E A M, R E T M H R? H K, Z E!
H N H M, S W L A M S H R M; V A F E—O E P M E Z.

Yesterday's Cryptoquote—PROVERBS ARE ART--CHEAP ART AS A GENERAL RULE THEY ARE NOT TRUE—CONRAD.

PUBLIC NOTICE

DOUKHOBOR LANDS ALLOTMENT INQUIRY ACT

NOTICE OF PUBLIC HEARING

His Honour, Judge Arthur E. Lord, sole commissioner appointed under the above named Act, will hold a public hearing at Nelson, B. C., in the Supreme Court room in the Court House, at 10:30 A.M. commencing Monday, May 16th, 1955, and at the same time each morning thereafter for the balance of that week, to inquire into, among other things:

(a) Whether the lands at present occupied by Doukhobors and owned by the British Columbia Land Settlement Board should be disposed of by that Board; and

(b) If it is desirable that such lands should be disposed of, what divisions and subdivisions, if any, should be carried out for purposes of such sale, and to whom, and at what prices and on what terms should such lands be sold; and

(c) If such sales should be made, what provisions, if any, should be made from the proceeds for the claims of the Government of British Columbia, and of the creditors of the Christian Community of Universal Brotherhood Limited.

Any person or organization wishing to submit a claim or evidence in writing or by word of mouth, in reference to the above matters, is requested to communicate with the undersigned in order that arrangements may be made to submit such claim or evidence. No cost will be involved, and a Russian language interpreter will be present at all times. A further public hearing will be held at Grand Forks, B. C., at a later date, to be advertised.

April 15th, 1955, Nelson, B. C.

W. J. STURGEON
Secretary,
Doukhobor Lands Allotment Commission,
P.O. Box 260, Nelson, B. C.

AUCTION SALE

TIMBER SALE X62315

There will be offered for sale at Public Auction, at 1:00 p.m., on June 17th, 1955, in the office of the Forest Ranger, Kaslo, B. C., the Licence X62315, to cut 1,562,000 cubic feet of Hemlock, Cedar, Spruce, Larch, Fir, White Pine and Balsam and 122,680 Lineal Feet of Cedar Poles and Piling on an area situated on part of Lots 9667, 9668, 9669, between Woodbury and Munn Creeks, Kootenay Land District.

PUBLIC NOTICE (Continued)

AUCTION SALE

TIMBER SALE X62635

There will be offered for sale at Public Auction, at 11:00 a.m., on May 30th, 1955, in the office of the Forest Ranger, Winlaw, B. C., the Licence X62635, to cut 1,479,000 cubic feet of Spruce, Balsam, Hemlock, Fir, Yellow Pine, Larch, White Pine, Cedar and Lodgepole Pine, and 158,000 lineal feet of cedar poles and piling, on an area situated on Vacant Crown Land on Trozzo Creek, Kootenay Land District.

Six (6) years will be allowed for removal of timber.

Provided anyone unable to attend the auction in person may submit a sealed tender, to be opened at the hour of auction and treated as one bid.

Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B. C., or the District Forester, Nelson, B. C., or the Forest Ranger, Winlaw, B. C.

LAND REGISTRY ACT
(Section 161)

IN THE MATTER OF Lot 5 in Block 2 of Lot 206-A, Kootenay District, Plan 1998

Proof having been filed in my office of the loss of Certificate of Title No. 87114-I to the above mentioned lands in the name of James M. McDearmid and bearing date the 31st July, 1951, I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue Provisional Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

L. A. McPHAIL,
Deputy Registrar.

Green-Herridge Amendment Defeated 15-10

OTTAWA (CP) — Progressive Conservative and CCF members of the Commons railway committee failed Thursday in an attempt to write an "all-Canadian" clause in a charter for a western pipeline company.

The committee approved a bill to incorporate Westspur Pipe Line Co., sponsored by Imperial Oil Ltd. to set up a gathering system to bring oil from southern Manitoba and Saskatchewan to the interprovincial pipeline running from Edmonton to Sarnia, Ont.

Howard Green (PC—Vancouver Quadra) and H. W. Herridge (CCF-Kootenay West) urged an amendment to the bill stipulating the company's main lines must not run outside Canada.

AMENDMENT DEFEATED

Company officials opposed this, saying they may eventually want to sell oil to the United States. However, they were willing to accept a restriction against transporting gas outside Canada.

An amendment to this effect, proposed by Mr. Green, was defeated by a vote of 15 to 10.

Company president J. F. Barrett of Toronto said the new firm is not interested in gas. But it felt it should have the right to ship oil to the U.S., particularly since Canada could not provide a large enough market for available Canadian oil.

The Westspur bill already has been passed by the Senate.

Market Trends

NEW YORK (AP) — The stock market went through a spell of weakness Thursday, but a buying rally cut losses and held the decline to moderate proportions.

It was the second day of severe losses for the market, and it was the second time that buying managed to reduce the worst of the fall.

Canadian issues were mostly lower. Hiram Walker dropped 1¼, McIntyre lost ¾, International Nickel fell ⅝, Canadian Pacific slipped ½ and Dome Mines lost ¼. Distillers Seagram was up 2¼.

TORONTO (CP)—A late rally in some industrial stocks failed to pull the market out of a drift into lower territory at the Toronto stock exchange Thursday.

Minus signs punctuated all sections of the list, though scattered gains were seen, particularly in the golds group.

Rodney Making Slow Progress

CHICAGO (AP) — Rodney Brodie, survivor of an operation that separated him from his Siamese twin brother, continued to make "slow progress" Thursday.

That was the latest report from the Illinois Research and Educational Hospital. Rodney, 3½, was taken there last week from his home near Ferris, Ill., and found to be suffering from a brain hemorrhage. He still is on the critical list.

Rodney and his brother Roger, linked at the top of their heads, were separated by surgery Dec. 17, 1952. Roger died 34 days later.

St. Laurent to Discuss Floods

OTTAWA (CP) — Prime Minister St. Laurent said Thursday he has agreed to confer here Monday with three Saskatchewan government ministers who will present him with a report on the recent floods in the Prairie province.

He told E. G. McCullough (CCF—Moose Mountain) in the Commons that Premier Douglas asked him by telegram Wednesday to meet with the three ministers. The meeting will start at 10:30 a.m. Monday.

Mr. St. Laurent said the Saskatchewan officials will report on surveys and estimates of damage caused by the floods and present him with drainage plans for the Qu'Appelle valley.

AA Active In Jail

CHICAGO (AP)—Alcoholics Annonymous, a group devoted to helping persons addicted to alcoholism, has established a unit in the county jail here. More than 100 prisoners have enrolled. Prisoners who have indicated a desire to cure themselves of the drinking habit meet in the jail three times a week.

Kartala volcano in the Comoro island off the African east coast is 8500 feet high, visible more than 100 miles.

Wives Advised Not to Mother Tired Husbands

By MARTHA COLE

WASHINGTON (AP) — Ladies: does your husband sart fidgeting as soon as he's sat still for 30 minutes?

Does he take a vacation only to race madly to see how much you can see and do within allotted time?

Is he getting a paunch?

What he needs, says a psychologist, is one long, long weekend every month.

Just a blank weekend—not lost by drinking, but simply lost.

"You should order your life so that there comes a long weekend every month, or every two months, at the most, when there is nothing wrong with doing nothing," said Dr. Nathan Kohn Jr., a personnel consultant from Clayton, Mo.

He was talking to wives of delegates to the convention of the National Industrial Advertisers Association.

PROBLEM GROWING

The problem is growing worse and worse, he said. It's the automatic age coming upon us.

"Your husbands and all of us who try to think have tremendously increased pressure," he said.

"When he comes home he wants to discharge tension; he wants to get something out of his system. But there's the wife; she's thinking, 'Oh, good, he can watch out for the kids so I can get things on the table.'

"Try to put yourself in his place, try to understand.

"But don't feel sorry for him. Don't think 'Oh, the poor thing.' Then you become mothers instead of wives. You create new tensions."
