WEATHER FORECAST

Kootenay: Cloudy with a few snow flurries in the afternoon and evening. Little change in temperature. Winds light except occasionally south 20 in main valleys. Low and high at Cranbrook 10 and 32, Crescent Valley 15 and 35.

Bombay Sees Worst Riot in Eight Years

200,000 Protest Separate Statehood For Bombay; 10 Killed, 250 Wounded

By B. S. V. RAO

BOMBAY (AP) — More than 200,000 rioters led by Communists and Socialists of the extreme left turned India's second largest city into a smoking battlefield Monday. Ten persons were reported killed and 250 wounded and 1000 were under arrest when uneasy quiet was restored.

Police and army units stayed on the alert Monday night. There was sporadic violence even after darkness fell.

The riots, the worst in Bombay in the eight years of India's independence, grew out of protest demonstrations against the decision of the federal government to make a separate state of Bombay.

Police Monday night imposed a city-wide ban on the assembly of more than four persons. Authorities reported 165 passenger buses were damaged, including six burned out; 15 streetcars were wrecked by the rioters; five police outposts were set on fire, and some fire engines were damaged.

Gen. K. S. Thimayya, commander of India's southern army command, flew here from his headquarters in Poona to supervise army moves. At the height of the strife he hovered in a helicopter over the city, watching mob concentrations.

Communist leaders raced about the city on motor scooters flying hammer and sickle flags, egging on the frenzied mobs and ordering them to "capture" the state legislature, meeting to discuss the city's future under the new state plan.

It was the second successive day of violence and the third outbreak against the government in four days.

MRS. WOODWARD QUIZZED 3 HOURS

MINEOLA, N.Y. (AP) — Ann Woodward underwent a gruelling three-hour police quiz Monday night, the longest since she shot her millionaire husband to death Oct. 30. She broke down three times in uncontrollable weeping.

There was no official statement at the close of the exhaustive session. However, it was learned her response to questions left authorities still in agreement with her version of the slaying as a tragic accident.

Her eyes were red and her face pale as she left Doctors Hospital for the first time since she killed her millionaire sportsman husband.

The attractive, 39-year-old former model and radio actress has been under treatment for shock and hysteria for three weeks since she fired a shotgun blast that killed her husband, William Woodward Jr., 35, in the hallway of their home.

FRENCHMAN LYNCHED

19 Die In Clashes In Strife-Torn Morocco

By MICHAEL WEIGALL

RABAT, French Morocco (Reuters)—Frenzied Arab rioters Monday hauled a Frenchman out of his car and lynched him during the third straight day of violence in Morocco.

The death toll rose to 19 Monday night in various clashes, both among supporters of restored Sultan Sidi Mohammed Ben Youssef and the man he replaced on the throne, Moulay Ben Arafa.

The lynching took place in Taza, a town in the northeastern sector of the protectorate. Bad feeling flared after a Frenchman, thinking a Moroccan policeman was threatening him, drew out a pistol and wounded the officer.

Anti-French Arab leaders then rallied tribesmen from the town market and a shouting mob besieged the police station, set fire to parked cars, and lynched the French motorist.

The unrest swept Morocco after Ben Youssef made a triumphal return from exile last Wednesday. But there has been no definite pattern to the weekend clashes, which killed 18 persons and injured 60 in various cities and towns.

Gaza Incidents Continue

TEL AVIV (Reuters) — Egyptian coastal batteries opened fire on an Israeli motor fishing boat off the Gaza coastal strip Monday as Israeli sources reported a deterioration of the tense Arab-Israeli border situation.

There were no casualties and the fishing boat sailed out of range of the guns, an Israeli military spokesman said.

Cairo radio reporting the shelling said the boat violated Egyptian territorial waters, and Egypt protested to the mixed armistice commission.

Mentzer points to spot where officials claim the suitcase bomb John Gilbert Graham prepared was situated at the time of explosion. The FBI said wreckage in this section clearly showed powder burns.—AP Wirephoto.

Gov'ts to Finance North Ontario Pipeline Section

Crown Company To Foot $118 Million Bill For Difficult 675-Mile Stretch

OTTAWA (CP)—The federal government Monday night announced arrangements for federal-Ontario government financing of the $118,000,000 northern Ontario section of the West-to-East natural gas pipeline.

Trade Minister Howe said Parliament will be asked to form a crown company to build the difficult 675-mile stretch of the $350,000,000 line and lease it to Trans-Canada Pipe Lines Ltd., which is to purchase it eventually.

A contract between the government and Trans-Canada was signed Monday following cabinet approval of the agreement at a morning meeting.

"With this northern Ontario section arranged for," the government statement said, "the underwriters are confident that Trans-Canada Pipe Lines can finance the construction of the remaining sections of the all-Canadian line."

It was difficulty in financing that held up a projected start on the undertaking this year, following which the federal and Ontario governments stepped in with the current plan to build the link over relatively unproductive territory between the Manitoba-Ontario border and Kapuskasing, Ont.

SHARE COST

"The northern Ontario section, estimated to cost $117,633,000 initially, will be financed jointly by the Canadian and Ontario governments," the statement said.

"The Ontario legislature will be asked to approve participation by Ontario equal to one-third of the cost but not more than $35,000,000. The Parliament of Canada will be asked to authorize the Government of Canada to subscribe the balance."

Under the contract, Trans-Canada will have until May 1, 1956, to show the two governments that it has arranged for finances and supply and sales contracts to carry through its entire construction program.

After that, the crown corporation will build its section of the line, while Trans-Canada is building from Winnipeg to the Ontario border and from Kapuskasing to the Toronto area. These sections are to be completed in 1957.

CONNECT LINKS

They are to connect with lines scheduled to be built by Trans-Canada next year from Alberta to Winnipeg and from Toronto to Montreal. The Alberta-Winnipeg line will carry gas en route to the United States midwest. The Toronto-Montreal pipe is to bring eastern U.S. gas to Montreal to build up a market in advance of the arrival of Alberta gas.

Under the contract signed Monday by Mr. Howe and Trans-Canada president N. E. Tanner, Trans-Canada will lease the northern Ontario section for a maximum of 25 years.

Trans-Canada undertakes to purchase the northern Ontario section as soon as it can arrange the necessary finances. The government said the agreement terms give a strong incentive for doing so in a relatively short time.

Besides rental payments, Trans-Canada is to pay all operating and maintenance of the northern line. The crown corporation will provide works such as increased compression facilities to meet additional gas requirements, but is not to build any additional main pipeline or sales laterals.

The northern Ontario section — of 30-inch pipe like all of the main line east of Winnipeg — will be designed for an initial capacity of 300,000,000 cubic feet a day and an ultimate capacity of 530,000,000 cubic feet without looping (doubling) of lines.

Flat Tire Foils Life Saving Bid

CALGARY (CP)—A father's frantic race to save his son's life was foiled by a flat tire here Monday night.

Bryce Frederick Varley, 22, son of Mr. and Mrs. F. M. Varley, died in a Calgary hospital about 20 minutes after he was admitted.

Police said Bryce was shot accidentally by his father while they were hunting partridge north of Chestermere lake, about 10 miles east of here. Varley loaded his son into the car and sped toward hospital. But in a few miles one of the tires went flat.

He got his son to hospital about an hour after the mishap, but the doctor who attended him said it was too late.

French Send Reinforcements Into Hills

RABAT, French Morocco (Reuters — French Army reinforcements were sent to the Riff mountains of northern French Morocco Monday amid new reports of uprising among the tough hill tribesmen.

A French native affairs officer was killed with axes by a band of Moroccans in the market at Tabouda, near the border with Spanish Morocco.

One French soldier was killed and four soldiers and several rebels injured in clashes during the weekend, French sources said.

Many fires were seen on hilltops in the Riff area Monday night — the traditional Moslem call for tribesmen to assemble.

French Resident-General Andre Dubois told a press conference that the whole area between the Spanish Moroccan border and Oujda, near the Algerian frontier, is "in a state of great agitation."

French officials said about 1000 tribesmen had crossed into the Spanish zone.

PILOT DIES IN CESSNA CRASH

Plane Smashes Into Two Houses at Coast, None Hurt

VANCOUVER (CP) — A Cessna 140 plane crashed into two houses on Lulu Island Monday, killing the pilot and damaging one of the houses.

Dead is Nick Schilder, 23, who had been taking flying lessons since August.

A thunderous explosion was heard by residents as the light plane nose-dived in a 12-foot gap between the houses and burned the young pilot, trapped inside.

The wing of the Cessna caught on the side of one house and tore the telephone lines down.

No one was in the two houses at the time.

Former RCMP constable Eric Dewitt was standing by his car at the time of the crash.

"I thought it was going to hit me," he said.

"It made a whistling noise and exploded in a burst of flames as it hit the ground.

Schilder's parents are in the Netherlands.

Spurned Suitor Shoots Stewardess, Then Self

SEATTLE, (AP) — A rejected suitor shot a 25-year-old stewardess to death Monday night in a passenger-filled United Air Lines plane and then took his own life.

Robert Clendenin, 26, a trainee with the stock brokerage firm of J. A. Hogel and Company at Salt Lake City, died three hours later at Renton Hospital with bullet wounds in the head and neck.

The stewardess, Sally Shedd of San Francisco, was shot to death as she tried to struggle to her feet from a plane seat into which she had been shoved by Clendenin.

There were seven shots fired in the episode which unravelled before some 40 horrified passengers in the Los Angeles-bound DC-6B.

North Shore 20 Hours Without Electricity

North Shore residents many of them with only electric stoves to cook on and electrically run oil furnaces, were still without power late Monday night 20 hours after a pothead at the North end of the submarine cable across the West Arm failed at 4:10 a.m.

Four crewmen were still on the pothead platform 30 feet above the West Arm shoreline near midnight, repairing the pothead through which the North Shore is fed from the submarine cable. The Nelson Fire Department auxiliary lighting unit was supplying light for them to work by.

The electric light department expected the power would be on again just after midnight or 1 a.m.

Cold weather froze the insulating compound that fills the pothead, making it necessary to thaw it by blowtorches before repairs could be made, and repair work was slow and difficult. Splicing wires when the compound was removed, heating the compound to the correct temperature and then re-pouring it all took considerable time. The black, tar—like insulating compound must be a certain temperature for pouring and it had to be heated at the city substation, carried across the lake and brought to the exact temperature on the platform before it could be poured.

FAILURE RARE

Locating the trouble also took time as failure of a pothead is rare and crewmen checked the Nelson side where there is most chance of a failure before testing the pothead. They are expected to last 50 years. This one was installed in 1952 when the submarine cable was relaid.

HEARD ROAR

Nelson ferrymen told electrical workers later that they had heard a roaring sound on the platform about the time the power failed, but did not realize what it was.

Assistant electrical superintendent L. W. Bicknell was in charge of repairs in the absence of Superintendent A. C. VanSacker, who is in Vancouver.

A pothead is a pot-shaped container inside of which the submarine cable is spliced to the power wires. After the wires are spliced it is filled with an insulating compound.

Many North Shore residents were unable to cook from lack of power and electrically run oil furnaces would not operate leaving homes without heat. One family had an electrically driven pump bringing water into their home.

MILK PRICES GO UP IN KAMLOOPS

KAMLOOPS, B.C. (CP) — The price of milk here has been increased two cents a quart to 22 cents, three dairies servicing the community announced Monday.

Everard Clark, manager of a Vernon Dairy supplying milk to the Kamloops area, said the price of milk here had been out of line with other centres.

Wednesday deliveries to homes had been cancelled in an effort to hold the price line.

Egypt Asks Italy To Be Mediator

ROME (AP) — Premier Nasser of Egypt, in an interview with the Cairo correspondent for the Italian news agency Ansa, has asked Italy to serve as mediator between Egypt and the Western powers. Nasser said intervention by Italy could "clear the air between Egypt and the Western powers following the Egyptian-Czechoslovak accord for arms."

EARTH-LIKE METEORITE

LONDON (AP) — Soviet scientists reported today a 300-ton elements as the earth fell recently elements as the arth fell recently in the Sikote Alin mountains, just north of Vladivostok in the Far East. Moscow radio said the meteorite broke into hundreds of splinters on reaching the earth, the largest weighing about three tons.

TAKES BUCK WITH BOW

ALLENSTOWN, N.H. (AP) — Lou March of Plaistow Sunday brought down what was believed to be the largest deer ever killed with bow and arrow in New Hampshire. The 11-point buck dressed out to about 260 pounds.

Premier Backs Kiernan; Says Press Put Dairy Industry in Bad Light

VICTORIA (CP) — Premier Bennett Monday gave his full support to Agriculture Minister Kenneth Kiernan, under attack for allowing "deplorable conditions" to exist in the dairy industry.

Asked during a press conference whether Mr. Kiernan might be forced to resign, the premier said:

"The answer is 'No'. I have complete confidence in Mr. Kiernan."

The remark followed Mr. Justice J. V. Clyne's royal commission report on the B.C. milk industry in which he mentioned "deplorable conditions" existed on some Fraser Valley dairy farms.

Premier Bennett accused the press of "playing up" the dirty conditions aspect and said other parts of the report which vindicated present government policy, were ignored.

"The press is doing a disservice in tying to scare the people about unclean milk," said the premier. "No bad milk is getting into Vancouver. It's a wrong deduction by the press."

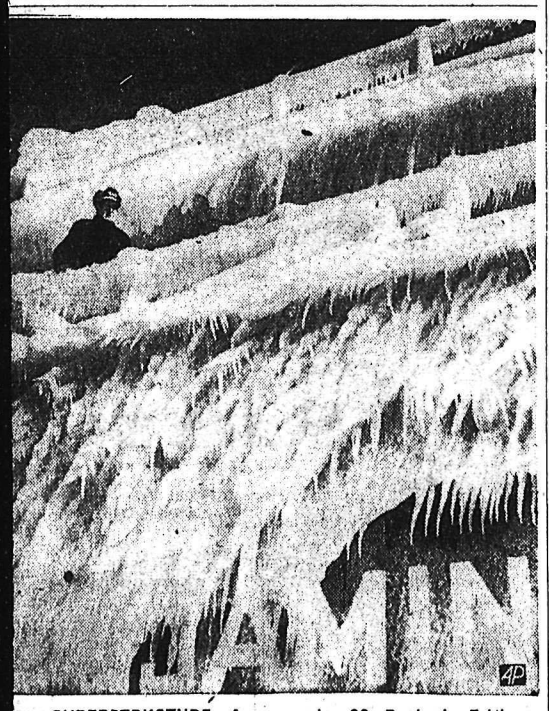
He said he would not deal with details of the Clyne report on milk as they would be dealt with by the agriculture department and by legislation.

"The department has moved very quickly on this report consumers can drink their milk in safety," he said.

Premier Bennett said the conditions had existed for many years under the Liberal and Conservative regimes and that the Social Credit government had ordered the royal commission to clear the matter up.

"If the trouble can be settled by more money, then money will be available from the treasury before the session.

"The government accepts its responsibility right down the line and will do its utmost to rectify any improvements necessary."



SUPERSTRUCTURE of ore carrier SS. Benjamin Fairless is coated with ice as it ties up at Gary, Ind., following a voyage from Duluth, Minn., in sub-freezing temperatures. Directing docking operations is Capt. L. J. Brissette, who brought 17,362 tons of ore on the boat.—AP Wirephoto.

Manning Says U. S. Firms Gaining Control in Alta.

By HAROLD MORRISON
Canadian Press Staff Writer

EDMONTON (CP) — Premier Manning disclosed Monday that large United States companies are gaining increasing control of Alberta's expanding oil industry and pinned part of the blame on the over-cautiousness of Canadian investors.

The provincial Social Credit leader told the Gordon economic commission Alberta has been criticized for opening doors to American money, but the province turned to the U.S. in the early days of the western oil boom simply because eastern Canadian firms didn't appear interested.

"The U.S. firms were willing to take the risk while eastern Canadian firms were slow in believing in our potential," the premier said.

"If we had waited for Canadian investment to get our start, we would be far behind where we now are."

But he indicated there is still time for Canadians to get aboard. Alberta had only "scratched the surface" in harnessing her resources. The future was rich with opportunity.

LADD TO SEEK REELECTION

KELOWNA, B.C. (CP) — Mayor J. J. Ladd will seek another term as chief magistrate of Kelowna, it was announced Monday. Aldermen Dick Parkinson, Bob Knox and Jack Treadgold will seek reelection also. Ratepayers will vote on a plebiscite to give Inland Natural Gas, Ltd. permission to construct an underground distribution system in the city. Election day is Dec. 9.

Immigration Falling Off

EDMONTON (CP)—Citizenship Minister Pickersgill says Canada will admit 110,000 immigrants from Europe this year, a drop of 44,000 from last year.

In an interview during a visit to Edmonton, Mr. Pickersgill said Monday this falling off is ascribed to improved employment conditions overseas and other factors.

The minister said that since the end of the war in 1945, about 1,250,000 immigrants have entered Canada.

"I guess that one person in every 15 here is an immigrant or a child of an immigrant to this country since the war," he said. "That is a considerable part of the population."

Marie Dionne In "Run-Down" State

CALLANDER, Ont. (CP) — Marie Dionne, who left a Quebec convent last Wednesday for a hospital outside Montreal where two or her sisters are in training as nurses, Monday was reported suffering from pernicious anemia.

But Oliva Dionne, father of the four surviving Dionne quintuplets, said he knows only that Marie is ill and has been advised by doctors to build up her strength. They suggested a month would be needed to remedy a "run-down condition."

The 21-year-old girl, pale and fragile, left her cloistered convent Wednesday for the second time in 16 months. She was said suffering from fatigue, loss of appetite and loneliness.

Pernicious anemia is a disease which causes diminution of the red blood cells and its main symptom is a loss of appetite.

Says Indians' Lot Improving

EDMONTON (CP) — Citizenship Minister Pickersgill says conditions among northern Indians are continuing to improve.

In an interview published Monday in the Edmonton Journal, Mr. Pickersgill said reports he has received from officials refute statements contained in a series of articles by Jack Deakin, Journal staff writer, that conditions among northern Alberta Indians are pitiful. The articles appeared in September.

"To the best of our knowledge, Mr. Deakin was not on the reserves and did not see any official on the reserves," Mr. Pickersgill said.

Quoting from a report he had received from R. F. Battle of Calgary, regional supervisor of Indian agencies, the minister said there are 1300 Indians in the Fort Vermilion agency, comprising the Upper Hay River and Slave River areas in northern Alberta. There are seven reserves containing about 60,000 acres.

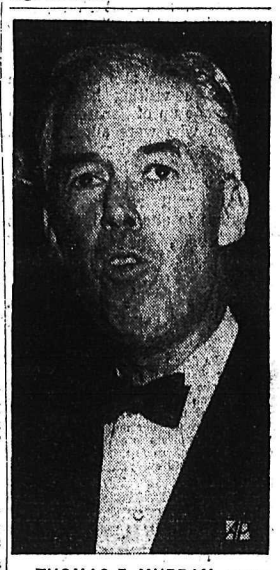
"The majority of these Indians hunt and trap over a wide area," Mr. Pickersgill said. "They are raising cattle and are increasing their herds. Many of the Indians have become individual owners."

ROBBED OF BONDS

VANCOUVER (CP) — William John Campbell of New Westminster told police Monday he was robbed of $4050 worth of government savings bonds Saturday night in a Vancouver bootlegging dive. He said a stranger approached him, took off his glasses, struck him in the face and robbed him.

CANADIAN DOLLAR UP

NEW YORK (CP) — Canadian dollar closed up 1-64 of a cent at a premium of 1-64 per cent in terms of U.S. funds Monday. Pound sterling was up 1-16 of a cent at $2.80¼.



THOMAS E. MURRAY, member of the Atomic Energy Commission, is shown during a speech at the golden jubilee dinner of the Fordham University Law School in New York in which he proposed that the U.S. explode an hydrogen bomb for world leaders to see as a declaration of American power and to spur the quest for peace. Murray told newsmen earlier that he was speaking for himself, and not the AEC.—AP Wirephoto.

Britain Offers Technical Skills To Boost Middle East Economy

By VINCENT BUIST

BAGHDAD, Iraq (Reuters)—Britain Monday proposed an alliance between the technical skills of the West and the oil wealth of the Middle East to bring peace and prosperity to the area.

Foreign Secretary Harold Macmillan made the proposal at the opening meeting of the council of the pro-Western Middle East Defence Organizationn—the five—power Bagdad Pact.

He said such an alliance would "work miracles in health, human welfare, productivity and enrichment of civilization" in the region which constitutes a vital desert flank of the Atlantic Alliance and lies on Russia's southern borders.

Usually reliable sources said Britain offered to put her experience in the field of peaceful uses of atomic energy at the disposal of member-states of the pact and that British scientists and technicians would be made available to those who wish to develop their own sources of nuclear power.

NEED TO CO-OPERATE

Speakers of all five members—Britain, Turkey, Iraq, Pakistan and Iran—stressed the urgency of economic and military co-operation in the area and expressed the hope the United States will join the jact.

The U.S. already has decided on military and political liaison with the pact and has four observers at the closed meeting which followed the morning's opening session.

The Associated Press reported the premiers of the four Middle Eastern powers and Macmillan set up a military committee of high officers to draw up proposal for a permanent military structure binding the members into a NATO-like organization.

Three premiers, Turkey's Adnan Menderes, Iraq's Nuri al Said and Iran's Hussein Ala—said the Arab-Israeli problem must be solved quickly in order to stabilize the Middle East.

Cemeteries' Control Poses Problem

VICTORIA (CP) — Public Utilities Commission officials have set Nov. 30 as the tentative date for a conference on regulations for control of cemeteries in B.C. The conference will be held in Vancouver.

It is the outcome of a provincial law enacted early this year, transferring control of cemeteries to the PUC. Since that time, PUC officials have been studying cemetery control legislation and regulations from across the continent.

"The more research we do, the more we find we will have to break new ground," said a spokesman.

Owners of private cemeteries, churchmen and municipal representatives are expected to attend the conference.

And In This Corner...

CHICAGO (AP)—It must have been a husky thief who hauled off $3350 worth of pennies from the office of a vending machine company Sunday. John Difiore, the owner, said the pennies weighed 280 pounds.

NEW DELHI (AP)—Nikita Khrushchev, Russian Communist party secretary, may doubt an Indian good luck sign a pretty Indian girl dabbed on his forehead Monday.

Half an hour later, in a boy scout camp, Prime Minister Nehru stretched out on a string camp-bed and then asked Krushchev to try it as well. The bulky Russian, who appears to outweigh 160-pound Nehru by at least 40 pounds, did so—and it collapsed under him.

CALGARY (CP) — Some persons have no faith in signs. On the door of a small safe in an implement sales company office is a bold sign which says "This safe is not locked."

But a would-be thief during the weekend took a hammer and pitted his knowledge and skill against the open safe. Eventually he knocked the handle off, but gave up and left the building. None of the money in the open safe was touched.

OLD BRIDGE, N.J. (AP) — The police didn't think it was funny when their squad car developed a flat as it rolled into Dill's service station.

They arrested John Slover, 48, on a charge of malicious mischief.

Slover, Medison township police said, had strewn tacks across the entrance to the service station.

He'll have to explain his actions in court.

Freedomite Women Protest Against Conditions at New Denver Institution

Sons of Freedom protest against living conditions at the New Denver welfare home were resumed Monday when a delegation of eight women filed passively into the Nelson office of the Provincial Welfare Branch.

Three members of the delegation were interviewed by W. H. Crossley, district supervisor of the welfare branch. They protested that heating was inadequate and that cold food was being served to Sons of Freedom children at the New Denver children's home.

Their protests were similar to those registered Friday by a larger delegation which visited the Nelson court house, Emmett Gulley, the secretary for the local co-ordinating committee on Daukhobor affairs, and the welfare branch.

Mr. Crossley announced that their complaints were being investigated and that R. M. Ross, supervisor of the home in New Denver, had already taken steps to improve the heating system.

Mr. Crossley also said that the delegation visiting him Monday was made up of Sons of Freedom women who were allowing their children to attend school.

Children being held at the home in New Denver are those whose parents will not permit their children to attend school. Provincial authorities have explaned they will release the children when their parents sign affidavits committing them to send the children to school.

NELSON PHARMACY
"Your Fortress of Health"

Mrs. A. Truswell Dies Here at 72

Mrs. Alma Truswell of Nelson died Monday at her home in the Hume Hotel at the age of 72.

She was born in Malmo, Sweden, and came to Canada at the age of 14 with her uncle, the late John Blomberg of Nelson. She attended school in Spokane.

She married the late Richard Truswell of Trail on October 10, 1921, at Spokane. Mr. Truswell predeceased her at Powell River in 1930, and she took up residence with her uncle, John Blomberg, till his death in January 1943. She has been in Nelson district since the death of her uncle. She owned a home on the North Shore.

Mrs. Truswell is survived by one brother, Arthur Nelson of Olympia, Washington, sisters in Sweden and nieces.

City Has First Accidents In Snow

First accidents since snow began to fall on Nelson occured in the city Saturday night when two cars were in collision at the Josephine and Carbonate Street intersection and another hit the bank on Ymir Road just inside city limits. There were other minor accidents over the weekend, Police Chief Robert Harshaw said Monady.

Approximately $600 damage was sustained by a car driven by William George Kennedy when his vehicle struck the side of Ymir Road and almost went into Cottonwood Creek.

Between $300 and $400 damage was done to two other Nelson vehicles when they were in collision at the Josephine and Carbonate Street intersection Saturday about midnight. George Lipsack was traveling South on Josephine Street and Andrew Savinkoff East on Carbonate Street when the accident occured. City police are investigating.

Kinnaird Commission Under Ratepayer Fire

KINNAIRD—The Kinnaird Village Commission came under a heavy fire of criticism at a meeting here Monday night, called for the formation of a Ratepayers' Association.

Of nearly 100 people who turned out, several voiced indignant and outspoken charges against the present administration. None of the commissioners attended.

The meeting gave unanimous support to nine questions to be submitted in writing to the commission. Answers will be expected at a public forum announced by the commission for Dec. 6.

One question asked: "How much money is actually missing?"

This was in reference to a statement contained in a recent Castle News story, a reprint of a letter signed by A. A. Lambert, chairman of the Kinnaird commission. The story in part read:

"Mr. MacBeth was appointed auditor for 1955 term succeeding the former auditor, H. H. Cryswr. On checking the village accounts, Mr. MacBeth was unable to reconcile the cash position as of January 1, 1955. Through his investigation a cash shortage was established covering part of 1955 and previous periods. A large part of this shortage has been accounted for but not collected. Due to the system of bookkeeping it is impossible to trace the balance."

Another question asks the commissioners for an explanation of the reported suspension of the village clerk, leading to his resignation (the clerk was R. J. Morice).

Another asked:

Why was the Kinberry water system purchased for the sum of $3750 in September when an offer of $2500 was refused in August? (Principal spokesmen to the discussion on this question were Ross McDiarmid, who expressed the view that the village should not have bought the water system at any price; and M. E. Moran, who gave particulars of the actual offer. Mr. Moran told of the water system owners having made an offer of $2500, of having been advised that no decision had been arrived at by the commission, and of the offer subsequently being withdrawn. He startled the meeting by then stating, "We made the second offer and we knew exactly what the village was prepared to pay.

Others asked:

"Why were taxes raised for the purpose of installing a chlorination plant when to date no chlorination plant is in operation?

"Would the commission define its policy in filling the clerk's position?

"Is it the opinion of the commission that the present financial discrepancy is due to the fact that an inadequate set of books has been kept?

"Why wasn't a public meeting called to inform the public of the proposed change in the zoning bylaw, as laid down in the Town Planning Act?"

Discussion on this question prompted two members of the audience to state that certificates of title turned in to the village office by them when road allowances were being arranged had been retained by the village. One man stated that he had been required to take legal action to regain his certificate of title. "The village staff doesn't know where mine is," the other said.

The reported retention of these documents is the subject of another question.

"Regarding the water extension bylaw, was a separate set of books kept and will a financial statement be issued?" the last question asked.

It was recommended that the Ratepayers' Association investigate village planning and make recommendations to the 1956 commission.

NAME PRESIDENT

The meeting elected Jerry Rust, Kinnaird resident for six months, association president; Frank Watkin, vice-president, and Mrs. Beulah Wright, secretary-treasurer.

A committee of three was named to work with the executive, its members being James Leckie, Ed Casserley and Floyd Petersen. George Jackson and Mr. McDiarmid, who took a considerable part in the discussion, declined active participation in the association's affairs, each stating he was seriously thinking of standing for election at the December municipal poll.

Council Wants Safer Sidewalks

Co-operation of store owners will be sought to keep Baker Street sidewalks safer for pedestrians.

City Council Monday night decided to ask that streets be kept as clear as possible of snow and ice, and to put sanding crews on whenever possible.

Realizing it was a difficult task when weather conditions changed so frequently, and thawing and freezing went on continually, Mayor Joseph Kary felt the store owners could give more co-operation. In some business blocks all but one or two sidewalk frontages would be cleared, he said, adding "perhaps the City should do it and charge them."

Even when the streets were cleared they were treacherous, pointed out Ald. Elizabeth Wallach, who had seen two women fall Saturday afternoon. "A fresh snowfall turns the streets into glare ice," the Alderman said, suggesting that city police officers contact the public works when conditions were bad.

Sanding crews are put onto the streets first, City Engineer G. Q. Lake said, and then to principal sidewalks, so there was often "quite a lapse" between sandings, although "we get to them as soon as we can."

Under City bylaws, property owners or occupiers are responsible for sidewalks.

It was also suggested by Alderman W. S. Smith that a sand receptacle be kept at the Fire Hall. Alderman Smith Monday had watched the fire trucks leaving the hall, and noticed that with icy conditions they had difficulty getting up Latimer Street because of icy conditions.

A receptacle of sand at the hall would save a lot of time, he said.

Diamond Urges Study of Bracewell Report to Promote Good Relations

TRAIL — A letter from R. W. Diamond, executive vice president, western region, of the Consolidated Mining and Smelting Company was read at Trail City Council Monday. It was a letter to the Corporation of the District of Tadanac as well as the City of Trail, suggesting that council make a co-operative study concerning the Bracewell report as it affects Cominco and the Municipality of Tadanac and that a joint statement be issued setting forth the facts of the case as they exist today in a manner that will constitute a foundation for future relations between the two municipalities and dispel for all time misunderstandings of the past.

The letter stated that Cominco has always been pleased to meet with City of Trail representatives to discuss city and mutual problems and would be pleased to meet with them again to discuss the Bracewell report when the relationships between the two municipalities and the company have been clarified. He was referring to certain misunderstandings which seemed to exist in some quarters due to study and controversy over the Bracewell report.

Mayor E. G. Fletcher in a lengthy prepared statement which was endorsed by council said that council had employed B. C. Bracewell because of a great deal of confusion and misunderstanding over the years regarding the pros and cons of whether Cominco and Tadanac have been carrying their share of the load in the community.

A study group of ratepayers prepared and presented to council a brief outlining their views in this regard, which apparently ignores in part the findings of the Bracewell report, which in essence finds the city in a fairly good situation financially and taxwise but suggests that certain conditions could be improved by approaching Cominco on moral grounds for assistance, to improve the general welfare of its employees.

Mayor E. G. Fletcher said that the study group's brief was confusing in that it mixed up the role of the company and the Municipality of Tadanac, which has led to a letter from Reeve G. W. Wilson of Tadanac pointing out their situation and in turn suggesting ways in which the two municipalities may mutually assist one another under the Municipal Act.

"When I first came on the council, the goodwill of both the company and Tadanac was very apparent," Mayor Fletcher said. "Any reasonable request for assistance was gladly given, which in some cases represented considerable financial outlays."

Mayor Fletcher ended his statement by saying "we agree with Mr. Diamond that all the misunderstandings which have occurred should be cleared up and that a fresh aproach be made to the problems confronting us. I am confident that Cominco desires to assist and will assist when a submission is made embodying the Bracewell report. To that end the council is preparing a brief which will be presented to Cominco in a very short time."

A letter from W. A. Curran representing the ratepayers study group on the Bracewell report, was received by council and indicated a desire to assist in this regard and a willingness and eagerness to meet with council.

A letter of appreciation is to be sent to Mr. Curran for the effort put forth by himself and the study group and a request made that they hold themselves in readiness to meet with council at an early date.

"Be Your Age" Goes on Stage This Week

Long hours of rehearsing completed, except for the dress rehearsal, Nelson Little Theatre is ready for its production of "Be Your Age," a sophisticated comedy in three acts by Mary Orr and Reginald Denham, to be staged in Capitol Theatre Wednesday, Thursday and Friday.

Members of the cast, in order of appearance, are Isabelle Fraser, Pauline Niven, Peter Frankish, Don Andersen, John Applewhaite, Evelyn Ford, Herbert Dahlquist, Barbara Dahlquist, Beryl Fraser, Joanne Maynard and F. H. W. Chanter.

Director for this annual Fall production of the Little Theatre is Hewitt Ferguson.

Friday night H. A. D. Greenwood will present the Greenwood Trophy to H. C. Carne as the group's most valuable member during the 1954-55 season.

May Sell Old Salmo School

Permission to sell the Nelson district school garage on Ward St. has been received from the Department of Education it was announced at a meeting of the Nelson School District Board Monday night.

Two weeks ago it was revealed that an undisclosed buyer had offered $13,000 for the property. But before the sale can be made, the board must advertise the property calling for tenders to conform with department regulations.

The board also decided to apply to the department for permission to sell the old Salmo elementary school building and property.

A request for use of the Nelson Junior High School gymnasium by an archery club night school *class was granted providing the* Community Programs Branch approved the night school class. The letter of request was from Thor Andreassen, Civic recreations director, to instruct the archery class.

The board approved expenditure of $12.50 to assist in the expense of transporting students of the Salmo Junior and Senior High School to a performance of the play, Julius Ceasar, in Nelson on Nov. 29.

A letter of resignation from Mrs. M. E. Taylor, physical education teacher at the Nelson Junior High School, was accepted. Appointment of Miss Joy McEwen as a replacement for Mrs. Taylor was approved.

Payment of a grant to the West Kootenay High School Athletic Association was authorized. The grant, involving payment of $1 for each junior and senior high school teacher in the district, amounts to nearly $65.

Car Just Misses Dunking In Creek

Driver of a car that plowed into one side of the Ymir Road then crossed to hit the other side, stopping just short of going into Cottonwood Creek, was fined $250 in city court here Monday.

William George Kennedy of Nelson pleaded guilty to driving while his ability was impaired by alcohol, before Magistrate William Evans in city court.

He was alone in the car and escaped uninjured, but between $500 and $600 damage was done to his car. The accident occurred Saturday night inside city limits.

BUSINESSMEN REMINDED TO SHOVEL SNOW

Nelson businessmen who are forgetting to remove the snow from the sidewalk in front of their premises were reminded by City Police Chief Robert Harshaw Monday that it was their duty, according to a city bylaw. He said some complaints about the snow on the city business section sidewalks had been received.

The bylaws says snow must be cleared away by 11 a.m. after a snowfall and, if it is not police can have the work done and charge it up as municipal taxes.

Redeemer Church Servers Hold Pot Luck Supper

Seven teenage high school students who are regular altar servers at the Church of the Redeemer held a pot luck supper at their first regular meeting at the home of Rev. Canon W. J. Silverwood.

After the supper a meeting was held and Bill Lambert was elected president and Wayne Collett, secretary. Others attending were Michael Bennett, Gary Foxall, Peter Shayler, Bob Ramsden and Don Livingstone. Further meetings will be held at regular intervals.

Council Jottings...

Councillors sat for only one hour Monday night their shortest council meeting in four years, according to City Clerk C. W. Reeve Harper.

Recommendations made by the committee of the whole Council that a clerk be hired at the city garage to assist with work and that owners of or consumers on private water systems be advised that the city cannot undertake to thaw their water pipes, was approved by council.

• • •

J. W. Bagnall, 615 Innes Street, will be notified that the city does not consider itself responsible for costs incurred in repairing clogged water pipes. He had asked council to pay a plumbing bill incurred when a rock plugged a water pipe at his home. He believed the rock got into the pipe when a new house was connected near his home, but the pipes had not been opened when the connection was made.

• • •

Council expressed regret at receiving a letter inviting them to the unveiling of a histori monument to research and in dustry at Trail Saturday too lat to attend. The letter was receive Monday from the local committe of the Historic Sites and Monu ments Board of Canada and wa read at the council meeting.

• • •

Schultz Appraisal Company Vancouver has tendered the Ci a bill for $7400, balance of th $9400 account for a complete re assessment of homes and lands i Nelson. A $2000 advance was pai when the agreement, includin $6900 for homes, and $2500 fo land, was drawn up in the Sprin Assessment of the City is com plete, Clerk C. W. R. Harper tol *Council Monday night, except fo* the business section, which wa not included in this year's agree ment.

• • •

Legal opinion of the solicito will be sought in the return of bill sent W. D. Matthews, RR for clearing and cleaning th streets after the Strathcona Hote fire. A bill for $200 was sent t Mr. Matthews early last Summe after City crews and truck cleared the streets of brick an debris. Mr. Matthews, protested i a letter to Council he had no asked any help, and planned t do the clearing himself. Debri covered a large portion of th street, and City officials felt ther should be no delay in the clearin up, Mayor Joseph Kary said Mon day night.

• • •

Request from the Kootena Lake General Hospital Societ for the appointment of a directo was left with Mayor Kary fo further discussion with the Boar of Directors. Vacancy was mad by the resignation of D. F. Cun mins, who had been elected fill the unexpired portion of th term of office created by th resignation of R. H. Procter.

• • •

Application from C. Horwoo 920 Nelson Avenue, for a three year lease on the Lakeside Par concession was referred to th 1956 Council. Mr. Horwood re quested the lease on the basis o the regular rate of $250 per yea and said he was prepared to kee the interior and exterior in goo repair.

• • •

License to clean upholstery wa granted Mrs. Marie M. Beatt North Shore.

• • •

Nelsonites who tendered bids o the three lots at the old stre car barn site will be notified th City is not prepared to sell th property at present. Decision w made after Alderman Geor Eckmier proposed the land t held until the Spring, when t roads program was under wa and it could possibly be utiliz as a dumping ground for fill. A J. H. Coventry reported t property was not required for approach to a future Rosemo bridge. Bids were received fro S. P. Pond ($1500), D. W. G ($500) and Frank Amoroso, ($80

Kinauctions Off To Good Start

Kinsmen's part in fighting polio was given fine support at the Kinsmen Club's first Kinauction of the Air heard over CKLN Monday night, chairman J. E. Keegan said as bids on merchandise wound up.

The public responded very well, he said, and the Kinsmen members were "pleased with the first night's reception."

Response was good on almost every item advertised over the air, he said, and the whole evening ran smoothly.

Next week's auction on Nov. 28, will be under master of ceremonies Al Jack.

LATE SPORT

V's Down Elks 5-3

PENTICTON, B.C. (CP) — Penticton Vs took over second place in the Okanagan Senior Hockey League here Monday night, topping Kamloops Elks 5-3 in a loosely-played game.

A bright spot was the sensational netminding of both goalies — Ivan McLelland for Vs and Don Moog for Elks.

Polio Not Seasonal, Spread by Human Contact, Rotarians Learn

"There are a lot of misconceptions about polio and it would be good for the public to have them cleared up," Dr. N. E. Morrison told Nelson Rotary Club Monday. He enumerated some of them as he outlined the history of polio and development of the Salk vaccine.

Polio is a virus, he said, spread by human contact. It enters the body by the mouth, passes through the elimentary canal, organs associated with the blood, the blood stream itself and the nervous system.

Contrary to popular belief, a polio epidemic could occur in the Winter or in any season, Dr. Morrison said. The reason it is more apt to break out in the Summer is because travel is so much greater and people mix so much more.

The reason the disease has been so difficult to investigate is because it is caused by a virus too small to be seen by a microscope and because for every recognizable polio case there are many unrecognized ones, Dr. Morrison said. These unrecognized carriers made it difficult to trace the disease.

The reason some Salk vaccine caused polio in the United States this Summer, Dr. Morrison explained, is because it is so difficult to prepare. An exact amount of formaldehyde is needed to kill the virus, but keep the vaccine's immunizing qualities. This made preparation of large amounts of vaccine difficult and one company in the United States did not get it exact.

A GREAT CREDIT

"It is a great credit to the Canadian public health department that they went ahead with the vaccinations in spite of the bad stories from across the line," the doctor said. "There is not one recorded case in Canada where the vaccine has failed or caused polio."

Polio was first recognized as long ago as 1789, Dr. Morrison said. In 1890, just 65 years ago, it was found to be caused by an infection, and could be transmitted. In 1949 it was discovered it could be grown in test tubes, in 1951 that there were many kinds of polio and in 1953 Dr. Jonas Salk produced polio vaccine.

Dr. Morrison was introduced by Dr. J. G. M. McMurchy.

Rotarians also heard a report on the club's trip to Spokane Sunday made by John A. Ferguson. The North Spokane club will visit Nelson in the new year. Ken Counsell was named a committee to organize a choir to take part in the carol singing at the Civic Centre December 11.

"NOTHING IS SO EASY AS TO DECEIVE ONE'S SELF"
*(Author's name below)

When a Physician becomes sick he always goes to another Physician to diagnose his ailment. He knows that no one can properly treat themself. Symptoms of illness must be carefully noted and studied impassionately.

Do not deceive yourself by attempting self treatments. It is worth many times your Physician's charge to know that your health is in capable hands. When he tells you that your illness is not serious, as most often is the case, it is a wonderful feeling. Should some more difficult sickness threaten your health, an early treatment usually prevents any serious consequences.

MONUMENT TO INDUSTRY at Trail was unveiled Saturday afternoon, marking the first occasion that an industrial plant has been marked by the Historic Sites Monuments Board of Canada. Dr. W. N. Sage, above right, unveiled the monument to the Consolidated Mining and Smelting Company. The inscription on the plaque mentions "the tireless and successful research of engineers, metallurgists and chemists, resulting in the commercial development of important mineral resources of Canada." At left is Dr. C. H. Wright, chairman of the unveiling ceremony. —A. L. Fryling photo.

Cominco Earnings May Exceed $2 Per Share

TRAIL — With zinc production back up to former peak levels, and better prices on zinc, lead and silver, Consolidated Mining and Smelting Company earnings may top $2 per share this year against the 1954 net of $1.54 per share accorsing to The Northern Miner. This is a rough guess, made rougher by the uncertainties that continue to surround the fertilizer business. While Cominco's ferlizer production in 1955 is somewhat ahead of previous years, the year has proved a highley competitive one, with declines in general prices and in domestic sales.

This year's production of zinc will match, if not exceed, the record of 371 million pounds turned out in 1953. Last year production was cut back to 295 million pounds. The average price has been 2 cents a pound ahead of 1954.

Lead output has continued unchanged, and will be of the order of 330 million pounds. Average price is up 1 cent a pound in 1955 over the previous year.

Silver output is about as usual, with the price at its best level.

The fact that Cominco has paid $1.55 per share dividents this calendar year, against $1.20 last calendar year, is itself significant of the upward earnings trend. There is already keen interest in what the December declaration, for January, 1956, payment, will be. Last January the disbursement was 40 cents plus 35 cents, last July 40 cents plus 40 cents. A lift in the extra is widely expected.

Cominco metal sales have been very good and the company is carrying only a working surplus.

The slick surface of wet asphalt roadways has sent many a motorist limping to the garage with flattened fenders and shattered headlamps. But now research engineers have come up with something that sharply reduces this accident hazard. When their special aluminum oxide abrasive is applied to the road surface, it cuts down by more than 30% the stopping distance of your car when you apply the brakes at 30 m.p.h.

...So in addition to saving weight and work in a thousand everyday and special applications, aluminum may prove a major factor in saving lives, too.

Morning Blaze Wipes Out Windermere Mill

CRANBROOK — Cedar Creek Sawmill, edger and light plant of the Columbia Contracting Company, located some 50 miles north of Canal flat and a major producer for the firm's planer at Canal flat, were completely destroyed by fire Monday morning, the blaze started suddenly soon after the shift started.

The mill had a shift capacity of about 30,000 feet a day, and was a semi-stationary type. It employed about 20 men. Camp facilities shared among the mill crew, logging crew and pole camp in the same location are believed undamaged.

Columbia Contracting is a subsidiary of the Cranbrook Sash and Door Company Ltd. here, and efforts were started immediately to locate replacement equipment. Three other logging and portable sawmill units in the upper Kootenay supply the Canal Flat planer and operations are continuing at the planer.

"Peace River Jim" Cornwall, 86, Dies; Once Worked in Crows Nest

CALGARY (CP) — Col. James K. Cornwall, 86, a former member of the Alberta legisilature and a man who foresaw the agricultural possibilities of the Peace River district, died in a Calgary hospital Sunday night after a long illness.

Known to thousands in Canada's northland as "Peace River Jim," he had played many roles in his colorful career. In his time Col. Cornwall had been newspaper salesman, hunter, trapper, fur trader, riverman, sailor, mail carrier, dog-team driver, freight packer, transportation executive, soldier and explorer.

He came to Alberta in 1896 and started railway construction work, mostly in the Crow's Nest Pass district. Later he went to the Yukon and then returned to the Peace River region. He was a successful Liberal candidate in the Alberta legislature in 1908, representing the Peace River constituency.

When the First World War broke out, he organized a unit and served overseas from 1914 to 1918. He was officer commanding the 8th Battalion, CEF, for three years, winning the DOS.

SPOKE INDIAN TONGUES

In the North, Col. Cornwall learned to speak Cree, Chipewyan, Dogrib and Eskimo.

Col. Cornwall earned two names by his missionary work on behalf of northern Alberta and the Northwest Territories. He became known as "Peace River Jim" and "the Apostle of the North." The two titles reflected his life story.

Born in Brantford, Ont., Oct. 29, 1869, James Kennedy Cornwall was educated in the public schools of Brantford. Wanderlust seized him early. When he was 14 years old he went to Buffalo, N.Y., and sold papers. Then he shipped aboard sailing vessels on the Great Lakes and in 1893 he continued his sailing on the Atlantic ocean.

In 1896, Cornwall came to Alberta and started railway construction work. Then the lure of gold in the Yukon called him. A short stay in the Yukon convinced him there would be more failures than successes and he trekked back to Alberta.

His first views of the Peace River country were gained as he returned from the Yukon. The country appealed to him.

ADVOCATE OF NORTH

From 1896 onward his life was wrapped up in the North. He hunted and trapped in the district, carried mail under contract, drove dog teams, packed freight and engaged in fur trading. He saw prospects for a major transportation company, organized the Athabasca Shipping Co. Ltd. that operated steamers on the Mackenzie river and adjoining lakes, and became its president.

He experienced the hardships of the North. He was caught in many a blizzard and twice, with his partner, Jim Breden, was nearly frozen to death.

Wherever he went he talked and urged transportation facilities for the north. Derided at first, he started carrying mail by canoe and dog team. He urged road construction and improvement of shipping

Col. Cornwall is survived by his wife, Beatrice, of Victoria and Calgary; two daughters, three granddaughters; a sister, and three nieces and a nephew in eastern Canada.

School Teachers Tour Cominco

Secondary school teachers from the Trail-Rossland and Castlegar school districts toured Cominco plants Saturday. Guided by members of Cominco's technical staff the teachers saw the highlights of metallurgical and fertilizer production.

Following the tour the teachers and wives were guests of Cominco at a reception, dinner and hockey game. After dinner, which was chaired by Dr. C. H. Wright, color slides were shown covering Cominco's widely distributed operations. The commentary was supplied by J. Bryden, Administrative Assistant.

In an after-dinner speech, R. D. Perry, Cominco's General Manager, explained that the tour and entertainment were designed to give district teachers an opportunity to know more about the industry operating in their midst and to give the teachers and Cominco people an opportunity to know each other better. Referring to the monument to industry unveiled in Trail during the afternoon Mr. Perry said that it was as much a monument to teachers as to industry since without teachers the trained people necessary to the founding of an industry would never have been available.

A similar program for elementary teachers of both districts has been arranged for next Saturday.

Victoria Bypasses Hunters' Insurance

MISSION CITY (CP) — The government will not become involved in any insurance scheme for hunters, Game Commissioner F. R. Butler said here during the weekend.

He addressed the fall convention of the lower mainland zone of the B.C. Fish and Game Protective Association.

The government had been requested to compel hunters to have insurance, either through their clubs or independently. It was suggested this would be a means of improving farmer-sportsmen relations.

Second Lucky Escape For Coast Driver

BOSTON BAR, B.C. (CP) — A New Westminster man had a second lucky escape in three months when he leapt from his car as it plunged over a cliff near Boston Bar.

Dick McMillan said the car twisted out of control five miles south of Boston Bar but he was able to jump clear before it plunged over a 150-foot embankment.

Just after the Labor day weekend, he had a similar escape when another car which he was driving crashed 100 feet down a rocky cliff.

Spokane Holdup Man Gets $2000

SPOKANE (AP)—A man carrying a threatening note and perhaps a gun held up the First Avenue Branch of the Old National Bank Monday and escaped with about $2000 in $5, $10 and $20 bills.

He walked quickly out the front door and disappeared.

Mrs. Sharon Angelo said the man handed her a note which said, "This is a holdup," and then placed three paper bags, one inside the other, on the counter.

"I would have given him more but he said, 'that's all.' "

THIRTY-ONE DRIVERS from across Canada and overseas including L/Cpl. Carl Schmidt of Silverton, at left, were briefed on the format of the driving competition as a three-day joint Army-RCAF truck roadeo got under way at Montreal. The purpose of the contest, which features safe and skilled driving was to select six finalists, three from each service, to enter the armed services division of the annual National Safe Driving Competition in Toronto Monday and today. Studying the chart are, left to right, L/Cpl. Schmidt, stationed with the Army at Shilo, Man.; LAC Bert Nesbitt of Oak River, Manitoba, stationed with the RCAF at Lachine, Quebec; Flt.-Lt. F. A. Bourne of Toronto, over-all co-ordinator of the event; and Major F. H. Ellis, command safety officer at the Army central command at Oakville, Ontario, chief umpire of the event. L/Cpl. Schmidt is the son of Mr. and Mrs. C. Schmidt of Silverton. —National Defence photo.

Invermere Poultryman Finds . . .

"Courtesy" Pays Off In Contented Chickens

INVERMERE — Do chickens lay more readily when courtesy is handed out with laying mash and grain? Perhaps. Anyway at the Echo Poultry Farm near Invermere where chickens are warned by a knock on the door that a visitor is arriving, eggs supplies suffer no winter let-down and the chickens do not panic when the door is opened.

The owners, Mr. and Mrs. George Annis, collect up to 650 eggs daily even in raw November and they say the supply never does catch up with the demand. The market is entirely local except for two cases shipped weekly to Kimberley.

In the main hen house are 1035 Austra whites which the Annis' contend are an excellent breed where both quality poultry and quantity eggs are desired. In another hen house 500 ybunger birds are being readied for December laying.

In still another henhouse 150 roosters are being readied for December killing.

Baby chicks in November are a project that can be tackled only with the most modern of facilities. These are available at the Echo Poultry Farm and 556 day-old chicks arrived last week and are ensconced happily in a five-tier brooder with its own automatic heating system. These are a cross between Light Sussex and Rhode Island Red. In three weeks they will be promoted to new quarters in an adjoining room and their place will be taken by another 500 day-old chicks.

3000 EVENTUALLY

Mr. An[illegible]s to build up his chicken [illegible]on to 3000. At present [illegible] at about 2235. Modern s[illegible]ches in the henhouses have proven popular with the chickens and assist in keeping the henhouses clean.

The egg room is situated below the main henhouse. Here eggs are sorted, graded, candled, weighed and packed. Here too is a walk-in cooler where eggs can be kept at a steady 35 degree temperature.

Echo Poultry Farm has its own light plants. One is going constantly to heat the brooder and run necessary farm facilities as well as to provide domestic power. Another is a standby all ready to go if an emergency arises. A third Mr. Annis talks of selling but his wife teases him that he will never sell it. She declares her husband collects light plants as other men collect guns or stamps.

As necessary to the poultry farm as electricity and water is the family of cats — six at the moment — which keep mice out of the feed room. Feed is bought by the carload, 25 tons in a car.

Efficiency at the Echo Poultry Farm goes hand in hand with beauty. Horseshoe-shaped Lake Eileen is an entrancing little lake with two diminutive islands. Another smaller lake lies alongside both spring fed and lying between the shoulders of grassy hills. In the distance Mount Nelson and the Purcell's offer a contrast in majestic scenery.

Sheep, 23 in number, a black-faced ram and one cow are the farm livestock but do not rival the chickens which take up most of the owner's day and part of his night when the chicks are tiny and need careful supervision.

The age of specialization has come to the Windermere District. The dirge of general farming has been heard here, too. Two thriving poultry farms, the other being Lyndell Farm at Windermere, are running at top production to keep this district supplied with eggs.

John Lusk Enters Aldermanic Race

GRAND FORKS — A man who has been a member of the Grand Forks school board for two years and a CPR worker for the past 27 years, will seek election as an alderman here December 8.

John Lusk announced Monday he would enter the aldermanic race. He has been a west Grand Forks resident for 13 years.

Fort Langley Gets Ready For Pageant

FORT LANGLEY (CP)—A preview of the centenary celebration was seen last weekend at the annual Douglas Day observance in B.C.'s first capital.

The celebration commemorated the 97th anniversary of the founding of B.C. and the swearing-in of James Douglas, first governor of the new crown colony.

Two grand daughters and a great great granddaughter of Sir James Douglas, were present.

Speaker of the House T. J. Irwin, representing the provincial government, outlined plans of the centennial program committee, which will include a series of pageants symbolizing the history of the province. They will portray establishing of Hudson's Bay posts, enacting the arrival of the Royal Engineers, Fraser river gold rush of 1856-57, and end with the founding of B.C. at Fort Langley Nov. 19, 1857.

Giant Mascot Has $58,742 Profit

SPILLIMACHEEN — Giant Mascot Mines, Spillimacheen, lead-zinc producer, reports operating profit of $58,742 in September, the last month of the company's fiscal year. Capital expenditures for the month were $19,642.

Recovery was made from treatment of 14,885 tons of ore. The September profit compares with $55,856 from 15,726 tons in August, and $37,755 from 15,473 tons in September, 1954.

Fred Downey, Grand Forks Oldtimer Dies

GRAND FORKS — Frederick Downey, a pioneer resident of Grand Forks, died Sunday at Grand Forks Hospital. He was 83, and he had lived in Grand Forks 57 years. He ran a tobacco and confectionery store in the city and was active in community affairs.

Funeral services will be held Wednesday at St. John's United Church.

He is survived by one son, Alfred Downey at Grand Forks, two daughters, June at home and Mrs. William Lynes at Trail, two sisters, Mrs. W. Archault in Ontario and Mrs. J. Lifiton at Cleveland, Ohio, and four grandchildren.

First lighthouse on Long Point Island in Lake Erie was built about 1830.

Laws for Milk Production Must Be Rigidly Enforced

Mr. Justice Clyne has just issued the report of the Royal Commission on the milk industry. In it he recommends that farm inspection, health of animals and milk quality laws should be brought up to date and rigidly enforced, that farms which at present are shipping milk to the fluid market, although their licences forbid them to do so, should be barred from the market until they have passed proper inspections, and that all milk should be pasteurized. Although there are still some people who prefer raw milk, there are none who will not agree that the laws regarding the sanitary production of milk should be rigidly enforced. There seems to have been considerable laxity in this matter.

That part of the report dealing with prices is a curious mixture of free enterprise and government control. Price control, it says, should stay at the producer level, which means that the farmer will be given a guaranteed price for his products, but milk should be sold on a competitive basis by the distributors, and there should be no controlled price to the consumer. The report does not agree with the suggestion that stores shall be made to sell at the delivered price, and agrees that they shall sell it cheaper. All this, together with the fact that there should be no boundaries to the distributors' business, means that the distributors should be in sufficient competition with each other and should result in a drop in prices.

Probably the most significant statement in the report is the fact that British Columbia consumes less milk per capita per day than any other province and Vancouver only an average of .66 pints per day per person, against a national average of .86. The report also says that the public is turning away from fresh milk to substitutes, and that the government should do something about it.

While the report deals specifically with conditions in the Fraser Valley, where there is over-production of milk and a strong feeling among farmers that distributors are getting more than a proper share of the profits of the industry, its provisions will probably apply to the whole province. It is unlikely to make much difference in Nelson district, where, due to the close co-operation between the district veterinarian, the sanitary inspector and the medical health officer, the quality of the milk in all respects is high and the distribution shared by old established firms. It is a matter for congratulation to the farmers, too.

Nelson Concert Series A Worthwhile Effort

The series of concerts arranged by a group of Nelson citizens is a refutation of the charge so often levelled against Canadians that they have no culture and lack appreciation of the finer things of life.

The sponsors of the Nelson Concert Series are to be congratulated on bringing such outstanding artists to Nelson, and the support given by the public is an indication that such concerts should continue to be an important part of the cultural life of the city.

Much of its success is due to the untiring efforts of a few people, not necessarily musicians, but those who are interested in good music. By offering tickets for the series and not for individual concerts they have been able to budget for the best performers. If a larger number of tickets are sold the committee hopes to be able to extend and conclude the series with a concert by a symphony orchestra. This alone should be sufficient for all citizens to support the project.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

M. Q. P., Nelson—Would you please settle an argument by telling us where in Mrs. Beeton's cookery book we can find the famous advice regarding roasting a hare: "First catch your hare . . . ?

You won't find it in Mrs. Beeton's book. The often misquoted advice is in "The Art of Cookery", by Mrs. Hannah Glasse, printed and published in 1747. The correct quotation is: "First case your hare . . . ", to "case" meaning to skin.

Engaged, Nelson—We would like recipe for non-intoxicating cocktail suitable for a wedding reception and also for light salad to accompany cold chicken.

A popular temperance cup consists of juice of four oranges, juice of one lemon, juice of five limes (most Nelson grocery stores carry limes), three tablespoons powdered sugar, one quart grape juice (red or white). Mix well and serve in large pitchers with squares of ice. Decorate with slices of orange and pineapple, and one slice of cucumber peel. Tomato aspic salad is delicious, easily made, and easily served: Two envelopes gelatin, four cups tomato juice, one *tablespoon lemon juice, one teaspoon minced* onion, half teaspoon Worcestershire sauce, salt, pepper, curly endive, one and a half cups diced celery, mayonnaise or salad dressing. Soften gelatin in half cup cold tomato juice, dissolve over hot water and add to remaining tomato juice. Add lemon juice, onion, Worcestershire sauce, salt and pepper to taste. Pour into individual ring molds and chill till firm, or pour into small cups and chill. Unmold on small chop plate. If rings were used, fill centre of each mold with diced celery. Serve with mayonnaise or dressing.

Gardener, Nelson—Will you list garden produce that will store through the winter?

Cabbage, parsnips, beets, turnips, carrots, onions, sweet potatoes, squash, potatoes. Cool, even temperature is desirable in cellar. Ventilate during day when temperature is above freezing. Watch for excessive damp in cellar, as that will cause decay.

In Coeur d'Alenes

An old and respected member of the north Idaho mining community has recently announced the acquisition of a substantial interest in several other mining properties in the Inland Empire.

The Bunker Hill & Sullivan Mining and Concentrating Company has for several years been pursuing a technical modernization program advantageous to its own operations and to the city of Kellogg, where its facilities are largely centred.

The growth and development of its mining and smelting activities are now being followed by administrative changes that should improve the firm's ability to assume greater leadership in the lead, silver and zinc industries in this part of the country.

The consolidations and shifts of ownership which were revealed last week serve as another milestone in the march of progress in the Coeur d'Alenes and eastern Washington mining areas. The effect of these developments in the Bunker Hill and its allied holdings should make for greater stability and greater productivity. And that is welcome assurance, not only for mining employees but also for many thousands of Inland Empire citizens who are intimately affected as stockholders, business associates and neighbors.—Spokesman-Review.

Press Comment

Democracy was born in the small community, and it is in the choice of local officials that the citizen first exercised his sovereignty. Local elections will continue to be important as long as democracy retains its true nature.—New York Herald-Tribune.

LETTERS TO THE EDITOR

Letters to the Editor on any topic of genuine interest are welcome if they are brief, accurate and fair. No letter will be inserted in whole, or in part, except over the signature and address of the writer. Unsolicited correspondence cannot be returned.

All Ages of Teeners Cannot Be Classed Together, Insists Former Nelson Youth

To the Editor:

Sir—To all those concerned: First we should clarify the age group into which teenagers fall. Surely a 19-year-old cannot be classed with those of 13. Adults are comparing what they think would be interesting to people who are at the peak of their physical stamina, such as a teener of 17 and up, to those of lesser age.

The Thirty-ager relates a constructive idea that teeners give up certain privileges to allow them to attend a movie every night. This is constructive? To begin with, there is only one theatre in town. Another critic claims if the teenagers were helping with Brownies, Cubs, or an active member of Cadets, they never indulge in sin accomplished by other teenagers. Still others suggest teeners lick their own problems. Teeners are not presenting problems; we consider these a type of complaint.

Back to the point of teenage comparison. When articles are written about teenagers, *an older teen (18 or 19) feels rather concerned*, as most of this quibbling does not involve them.

It is quite obvious that the city of Nelson must be at fault to a certain extent. After all, this city is requesting a juvenile home, and most cities of this size do not require the presence of one.

I understand what these critics are trying to imply. But then why did F. B. Pearce state: "But as far as we are concerned you can go on being unhappy"? This type of encouragement, in my opinion, makes for worse co-operation from the teenagers.

One point I have to disagree with the teenagers is the price of entertainment. As a former Nelsonite, and now an Edmontonian, it has come to my attention how lucky the teeners are in Nelson. They consider 40 cents for a movie, or 35 cents for a hockey game, a tremendous fee—how about 90 cents and $1.75 respectively?

Remember, this is an opinion, not a criticism.

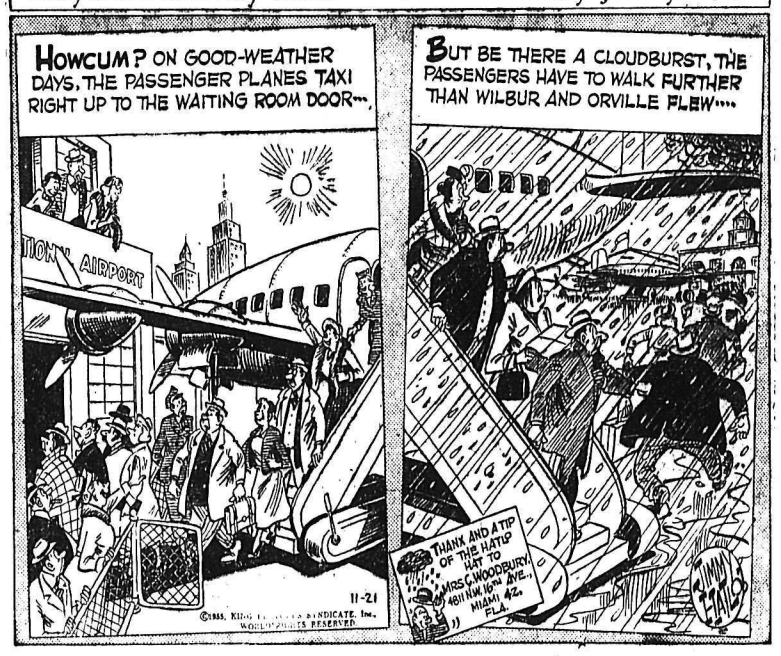
They'll Do It Every Time — By Jimmy Hatlo



Today's Bible Thought

And David put his hand in his bag, and took thence a stone, and slang it, and smote the Philistine in his forehead.—1 Sam., 17:49.

The skill developed in the humble task of protecting sheep from wolves saved an army later. There are no unimportant tasks.

Aunt Het

Helen don't see no harm in her ever-lastin' gossip. She thinks all bad habits go in your mouth instead o' comin' out.

Movie Gossip . . .

Margaret O'Brien, Gifted Child Actress, Takes On Mature Roles

BY BOB THOMAS

HOLLYWOOD (AP) — Margaret O'Brien is taking another stride forward in her campaign to be accepted as a grown-up.

The onetime crild star is appearing on NBC's afternoon dramatic show, "Matinee." She's playing a 16-year-old (that's a step backward) who falls in love with a 30-year-old man (that's several steps forward).

Although she'll be 19 Jan. 15, Margaret has been allowed little more than puppy love in the movies. Film producers have trouble thinking of her as anything but the pig-tailed little girl with the winsome smile.

In many ways, she's much the same as when she was MGM's little queen Margaret. Her face has matured, but she has the same dainty beauty as before. And she still talks with a shy, quiet manner, often breaking into a nervous smile.

Margaret's ambition? It's to be a dramatic star, like her idols, Vivien Leigh and Jean Simmons.

Ottawa Urged To Examine Patent Abuses

OTTAWA (CP) — The Canadian Association of Consumers Monday suggested creation of a government commission to investigate abuses or misueses of Canada's patent laws and protect Canadian consumers.

In a written brief submitted to the Ilsley royal commission on patents, copyright, trade marks and industrial design, the association said the present patent system "provides opportunities for misuse that have been frequently used, apparently chiefly because no convenient method of examination or appeal now exists" beyond expensive court litigation.

"We respectfully suggest that a possible solution to this problem of misuse of our patent laws might be the creation by the government *of a commission*, similar to the restrictive trade practices commission, to carry on needed investigation of abuses or misuses of the intention of the Patents Act.

The CAC urged amendments to the present laws should "seek only the protection of invention in Canada through creating some method by wihch manipulation of patent portfolios and patent pools for monopolistic or blocking purposes could be prevented."

Knock on Door Just in Time

ROCK FALLS, Ill. (AP) — A knock on the door came not a moment too soon for Andy Chambers, 24, Sunday.

An attendant at a gas station had filled Chambers' five-gallon can with high-test gasoline instead of fuel oil for home heating.

Twenty minutes later the attendent discovered his mistake.

The attendant notified Fire Chief Russell Maynard and Police Chief Glenn Keime of the error.

Then Maynard and Keime asked the station to appeal for volunteers to make a house-to-house search. Within 20 minutes, between 60 and 100 turned out, several hundred others within an hour.

Throughout this town of 10,000 the volunteers trudged, knocking on doors. Two volunteers arrived at the four-room house in which Chambers lived with his wife and three other adults.

Chambers told the volunteers he had poured the fuel into the furnace's tank and "was just going to light it when you knocked on door."

DEATHS

By The Canadian Press

London — Pomaz Arciszewski, 78, a member of the council which heads the "state" maintained abroad by Polish exiles.

Regina — Dr. F. D. Munroe, 74, former Saskatchewan health minister and a pioneer in Canadian anti-cancer work.

Toronto — John E. Clarke, 76, former vice-president and general manager of the Carter Construction Company and past president of the Canadian Construction Association.

London — Capt. Charles Irving, 85, whose sailing memories stretched back to classic tussles 70 years ago between the last of the great tea clippers, the Cutty Sark and the Thermopylae.

Calgary — Col. James J. Cornwall, DSO, 86, soldier, adventurer and former member of the Alberta legislature and known to thousands in northern Canada as "Peace River Jim."

Graham Identified By Storekeeper

DENVER (AP)—In a face-to-face meeting in jail Monday, a Kremmling, Colo., store operator identified John Gilbert Graham, 23, as the man who bought from him "20 or 25" sticks of dynamite, detonating caps and wiring Oct. 29.

Graham is accused of rigging a dynamite bomb and placing it in his mother's luggage before she boarded a United Air Lines plane Nov. 1 at Denver.

Lyman Brown, 46, co-owner of the Brown Brothers Supermarket at Kremmling, in northwestern Colorado picked Graham out of a "showup" of seven jail inmates.

Says Pilot Not Notified of Suspected Bomb

TORONTO (CP)—The Canadian Air Line Pilots' Association said Monday it is concerned over a report that Trans-Canada Air Lines did not notify the captain of a Viscount passenger plane during a flight Saturday that a bomb was supposed to be in the plane.

The plane, flying from Ottawa to Toronto, landed safely at Malton Airport. It was grounded and searched after landing, but no bomb was found.

Captain Hugh Alcorn of Montreal, the pilot, said he knew nothing of the report that a bomb had been placed in the plane until he landed.

He said he was given landing precedence over two other aircraft circling the airport, but the control tower did not tell him why.

"I feel quite happy personally with the way it was handled," he said.

James Foy, chairman of the association, said the matter will be discussed at the next monthly meeting.

Hot Bread and Rolls Popular With Kids

By MARGARET CARR

Hot breads and rolls, fresh from he oven, are a great favorite at ur house, particularly among the younger members of the family.

California oranges and lemons were featured one morning at breakfast during the Food Editors Conference in Chicago several weeks ago. Oranges were in the *cocktail and in the waffle syrup* but best of all I thought were the delectable little hot breads that had been developed using lemons and oranges. Here's one which we thought very good.

TINY LEMON-POPPY SEED COFFEE RINGS

Filling — 4 tablespoons cornstarch, 1 cup sugar, ¼ teaspoon salt, 1¼ cups water, 1-3 cup lemon juice, 2 tablespoons butter or margarine, 1 teaspoon grated lemon peel, ¼ cup poppy seeds.

Mix cornstarch, sugar and salt in saucepan. Add water gradually, stirring until smooth. Bring to boil over medium heat, then cook for 8 minutes, stirring constantly. Remove from heat; add lemon juice, butter, grated peel and poppy seeds. Mix well and allow to cool. Makes 1½ cups filling.

Topping — 2 tablespoons sugar, 1 teaspoon grated lemon peel, melted butter.

Mix sugar and grated peel together. Set aside until needed. Have butter melted, but not hot, to brush on coffee ring.

Dough — 1 tablespoon grated lemon peel, 3 cups biscuit mix, 2-3 cup milk.

Mix grated lemon peel with biscuit mix; add milk and stir to make stiff dough. Divide dough into four parts. To make four coffee rings, roll each piece of dough into 8 x 5 inch rectangle, about ¼-inch or less in thickness. For each ring, spread with quarter of lemon poppy seed filling. Roll up tightly, beginning at wide side. Seal well by pinching edges of roll together. Place sealed edge down on lightly greased baking sheet. Join ends of roll to form a ring; seal. With scissors or sharp thin knife, make cuts two-thirds of the way through the ring at quarter-inch intervals. Brush with melted butter and sprinkle generously with sugar-lemon peel mixture. Bake at 400 degrees F. for 20 to 25 minutes (do not let rings become too brown). Serve hot. Pieces may be pulled apart at the table or cut again before serving. Makes four rolls.

If desired, roll may be sliced all the way through, and slices put together in greased loaf pan, instead of shaping into a ring.

COSTLY DISCARDS

LONDON (CP) — Smokers who drop their butts in the streets of Westminster may be liable to a £5 fine if the home office approves a new law recently passed.

A miscellaneous shower was held last week at the home of Mrs. E. Gare in honor of bride-elect Doreen Ozey. Mrs. Severyn acted as *hostess.*

Riondel Group Elects Officers

RIONDEL — Mrs. Ethyl Christensen was elected president of the Riondel Guide Association at a meeting held at the home of Mrs. Winnie Linville.

Also elected were Mrs. J. Todd, vice-president; Mrs. F. Downing, secretary-treasurer; Mrs. T. Sweeny, badge secretary; Mrs. H. Carl, sick convener; and Mrs. J. Donald, public relations officer.

Mrs. W. Linville, retiring president, expressed her thanks to the members for their cooperation during the past year.

Women's Advances Said To Have Made World Better Place

OTTAWA (CP)—Despite what some men may think, the world is a better place because of the political and social advances women have made during the last 30 or 40 years.

That was the reply given Monday by Mrs. Eleanor Roosevelt to a reporter's question at a press conference.

"It would not be a good thing to have a group, that makes up half the population and is still growing, without any responsibility," she said. Then, a good-humored twinkle in her eyes, she proceeded to enlarge.

Before women were allowed to vote, she said, governments reflected entirely the interests of men. Since women were given the franchise, however, the policies of governments had changed.

They were not entirely in the interests of women now, but the influence of the fair sex at the polls had made governments more conscious of such things as welfare of children, social security and social questions generally. This had benefitted everyone, not just women.

"If you go back you will find that all of this has come since the rise of women," she added.

Yvonne de Carlo To Marry Morgan

HOLLYWOOD (AP) — Sultry Yvonne de Carlo, long one of moveland's most eligible spinsters is marrying a widowed stunt man with an eight-year-old daughter in Reno this afternoon, her studio said Monday. He is Robert Morgan, 40.

News of the ceremony came as a big surprise, studio sources said. Miss de Carlo, 33-year-old native of Vancouver, has dated many prominent men over the years.

The couple met five years ago while working on a film and have had dates off and on.

MR. AND MRS. DEAN SNIDER

Newlyweds Take Up Residence in Nelson

When the former Lillian Forseth became the bride of Dean Snider at an impressive ceremony in Penticton Revival Centre, it was the first wedding for the World Church Fellowship branch in Penticton. Rev. Reginald Gillett of the Foursquare Gospel Church was in charge of the ceremony, in which Rev. R. L. Bradley also had a part.

Entering the church on the arm of her father, the bride was attractively attired in a floor-length gown of white nylon net over satin and a veil in fingertip length. She carried a bouquet of red roses.

Her bridesmaid Mrs. Chester Forseth wore a frock of pale blue nylon net over taffeta in ballerina-length. Her bouquet was composed *of pink and white carnations.*

The groom was attended by the bride's brother, Mr. Chester Forseth. Usher was Mr. Creighton Joiner.

Mrs. M. Tebbut, the soloist, sang "Because", and Mrs. Reginald Gillett *played the wedding music.*

The bride's mother chose a suit of Air Force blue with navy accessories and a corsage of red sweetheart roses.

An unusual feature of the occasion was tape recording made of the entire wedding for the bride's three brothers who are ordained evangelists in Europe and who are currently serving in England. About two years ago they held meetings in the Bethel Tabernacle here and are well known as Gospel musicans.

The reception was held at the home of Miss Lillian McFarlan, attended by 45 guests. The bride's table was centred with a three-tiered cake, and also candles. The guests were entertained by music. Gifts were opened and Mrs. Chester Forseth read telegrams from the bride's brothers in Gloucester, England, and her brother-in-law and sister, Mr. and Mrs. Don Lockwood of Rgeina. After refreshments were served, a number of guests spoke, among them the bride's parents, Mr. and Mrs. P. Forseth, Rev. Albert Webster of Wenatchee Evangelistic Centre, and Rev. Austin Amundson of New Westminster.

The bride donned a grey blue suit and black accessories, and a pink corsage, for travelling on a honeymoon to centres in Washington. The newly-married couple have taken up residence in Nelson.

Winnipeg Ballet Well Received

EDMONTON (CP) — Artistic Edmonton paid tumultuous tribute Saturday night to the reborn Royal Winnipeg Ballet.

The 17-year-old company, Canada's oldest professional ballet, captivated capacity audiences with superlative performances in the opening of a western tour, first since a 1954 fire that destroyed *the company's quarters and cos*tumes and almost put it out of business. The tour resumes in Vancouver tonight.

Every seat in the 748-seat auditorium of a north end high school was filled for four performances in the ballet's two-day appearance. Scattered "bravos," unusual in a Prairie city, punctuated the applause at the conclusion Saturday night.

DARYING PIONEER

First woman to make a ballooh ascension is believed to have been a Madame Thible at Lyons, France in 1784.

Gelatin Is Aid For Fingernails

By DR. HERMAN N. BUNDESEN

Do your fingernails split and peel easily? Then here's a tip—try some unflavored gelatin.

Splitting fingernails are a vexing problem for many women, especially housewives. For some time now, 2 relatively little has *been done by medical science* to relieve brittle nails.

But tests conducted by two doctors in Bridgeport, Connecticut, show that unflavored gelatin apparently has great value in preventing nails from splitting and peeling.

Daily doses (7 grams) of this gelatin in a glass of water, fruit juice or milk halted the affliction in all but eight of 36 women who took part in the survey, according to Dr. Saul Rosenberg and Kurt A. Oster.

Of the eigth who were not helped, three discontinued the *treatments and the five others* had other health problems.

NOTED IMPROVEMENT

While some women noted improvement after the first month, the test was carried out over a three month period, the approximate time required to grow new nails.

You can take your daily quota *of gelatin in any of several ways.* Empty the seven gram envelope into three-fourths of a glass of water, tomato juice, orange juice or other juices, stir and drink.

If you want to take it in milk, mix the unflavored gelatin in one glass of whole milk, or mix it thoroughly with 3 to 6 tablespoons of instant nonfat dry milk in a glass, fill with cold water, stir and drink.

The gelatin will not dissolve if served cold, but the solft particles will be disnersed in the liquid.

TAKEN HOT

It can be taken hot in bouillon or broth. Empty an envelope of unflavored gelatin into one-fourth cup of cold water to soften. Then add 1 bouillon cube and three-fourths cup of boiling water. Stir until the gelatin is dissolved.

If you wish, you can substitute *three-fourths of a cup of any very* hot broth for the bouillon cube and hot water.

Bank Profits Up

MONTREAL (CP) — The Bank of Montreal has reported record assets of $2,796,174,064 for the fiscal year ended Oct. 31, an in*crease of $248,665,825 over the pre*ceding financial year.

Deposits by the public with the bank also hit a record high at $2,591,326,311, a gain of $225,656,454 over last year.

Net profits were $8,042,146, compared with $7,344,274.

Injured Pilot's Parents To Fly Over To Alberta

DORDRECHT, Holland (AP) — The parents of Dutch pilot Gerhard Lozie, who is seriously ill in the Royal Alexandra Hospital in Edmonton, will visit their son with the aid of friends and townspeople.

A sum of 6500 guilders ($1700) was raised by a committee, headed by a Dordrecht notary. Mr. and Mrs. Lozie will leave by plane next Thursday and are due in Montreal Friday morning.

Lozie recently spent 10 days and nights on a wing of his crashed plane in northern Canada and suffered from severe frostbite.

Christmas Cheer To Saigon For ISC

OTTAWA (CP) — Christmas cheer for members of the Canadian armed forces and external affairs department serving with the international supply commission in Indochina will be flown to Saigon from Montreal Friday.

An RCAF transport will carry parcel mail and Christmas food to the 170-odd Canadians in Indochina, the army said Monday. Monday. Each soldier's or diplomat's next-of-kin has been invited to send a parcel weighing up to 10 pounds.

The aircraft also will carry films and sports equipment, magazines and periodicals from the Canadian Legion, individual ditty bags donated by the Navy League of Canada and a gift shipment of cigarets from the Province of Ontario. The plane will return Dec. 15.

DRY TIMBER

Timber is felled in winter to prevent sap fermentation, which leads to dry rot fungus.

Girls' Prank Brings Police

WINNETKA, Ill. (AP) — What two young girls "thought was real fun" turned into an extended nightmare for a middle-aged couple in this Chicago suburb.

For nearly four months, the telephone had been an instrument of torture for Maurice Franks, 56, and his wife, Violet, 47.

There were seven to 10 anonymous calls a day. Once there were 30.

Sometimes the callers, who sounded like women, would hang up. Other times they would tell Franks or his wife of a delivery being made to their home.

The deliveries came—unasked and unwelcome.

Once Franks came home to find a load of sand. Another time, a load of gravel.

KIDNAP THREAT

And so it went.

A month ago the caller threatened, Franks said, that they would "grab the boy". Franks started escorting his 13-year-old son to and from school.

Finally he reported the calls to the telephone company. A round-the-clock tap was put on the Franks' phone.

Most calls were too brief to be traced. But Friday of last week one of the mystery callers talked to Mrs. Franks for 22 minutes.

The call was traced to another Winnetka home. Police took a 12-year-old girl into custody Saturday. She admitted making the calls and implicated another girl, aged 13.

The girls were questioned and released to their parents without formal charge. A hearing is scheduled Friday.

"We did it just as a prank," police quoted them as saying. "We didn't have anything against Mr. Franks. We just picked him at random.

"We thought it was real fun."

To Ask Extradition For Juan Peron

BUENOS AIRES (AP) — The federal judge investigating treason charges against Juan Peron, said Monday he is going to ask that the deposed Argentine president be extradited from Panama.

Judge Luis Botet said he has arrived at the conclusion that during the decade of Peron's regime, citizens were submitted to "a monstrous illicit association aimed at committing crimes."

Londonderry, near Truro, in Nova Scotia, was settled by colonists from Ulster in 1761.

10 POPULAR SHADES

Top Firms Plan 120-Passenger Turbo Airliner

MONTREAL (CP)—Progress toward development of a super airliner by top American, British and Canadian companies was announced here Monday.

A joint announcement by General Dynamics Corporation and the Bristol Aeroplane Company said that weekend discussions resulted in progress toward the development of a 120-passenger turbo-prop airliner "in the 500-miles-an-hour class."

The announcement followed talks among officials of Canadair, Montreal subsidiary of General Dynamics, Convair, another General Dynamics firm with headquarters in San Diego, and Bristol, a British outfit with offices here.

"Progress has been made in long-term collaboration of their aviation interests," the announcement said.

Find Frozen Body

HALIFAX (CP) — An RCMP search party Monday found the frozen body of one of two youngsters missing in woods near here.

The body of 11-year-old John Simms was found but there was no trace of his brother Gordon, 17. They entered the woods to hunt Sunday, a few hours before the worst November blizzard in history hit the province.

The search for Gordon is continuing.

Girl Pipers Delay 'Peg Grain Trading

WINNIPEG (CP)—Trading was suspended for several minutes Monday on the Winnipeg Grain Exchange when a parade of Toronto football fans, led by the Toronto girls' pipe band, marched into the pit. The fans are in Winnipeg for the day en route to the Grey Cup game in Vancouver.

Cheer leadersturned handsprings on the trading floor. Several traders joined in an impromptu square dance.

Traders whistled and cheered as Miss Canada, 22-year-old Dallis Smith of Whitehorse, Yukon, and Miss Hamilton Tiger-Cat, 18-year-old Joan Lounsbury were brought into the pit.

News-Chronical To Absorb Despatch

MANCHESTER, England — (Reuters) — The former Kemsley provincial newspaper, The Daily Dispatch, Monday was incorporated into the northern England editions of The News-Chronicle.

The Daily Dispatch's 500,000 circulation was the largest of Britain's provincial papers. It was published by the Kemsley chain in Manchester.

The paper did not cease publication two weeks ago as erroneously reported by Reuters.

Slight Omission

CRICH, England (Reuters) — The local vicar, Rev. John Brown, paused during a funeral service here, excused himself to help the undertaker and four bearers dig the forgotten grave, and returned to complete the service.

Admit Dismissals In Diplomat's Case

LONDON (Reuters) — One foreign office official was asked to resign and another was permitted to resign following investigations into the disappearance of diplomats Guy Burgess and Donald Maclean, the House of Commons was told Monday.

Foreign Undersecretary Robert Turton made the statement in reply to a question on Burgess and Maclean, who the foreign office recently said had been long-term Russian agents.

Turton did not identify either of the men who resigned from the foreign office.

No officials were fired or transferred as a result of the investigation, he said.

GIVE UP SEARCH

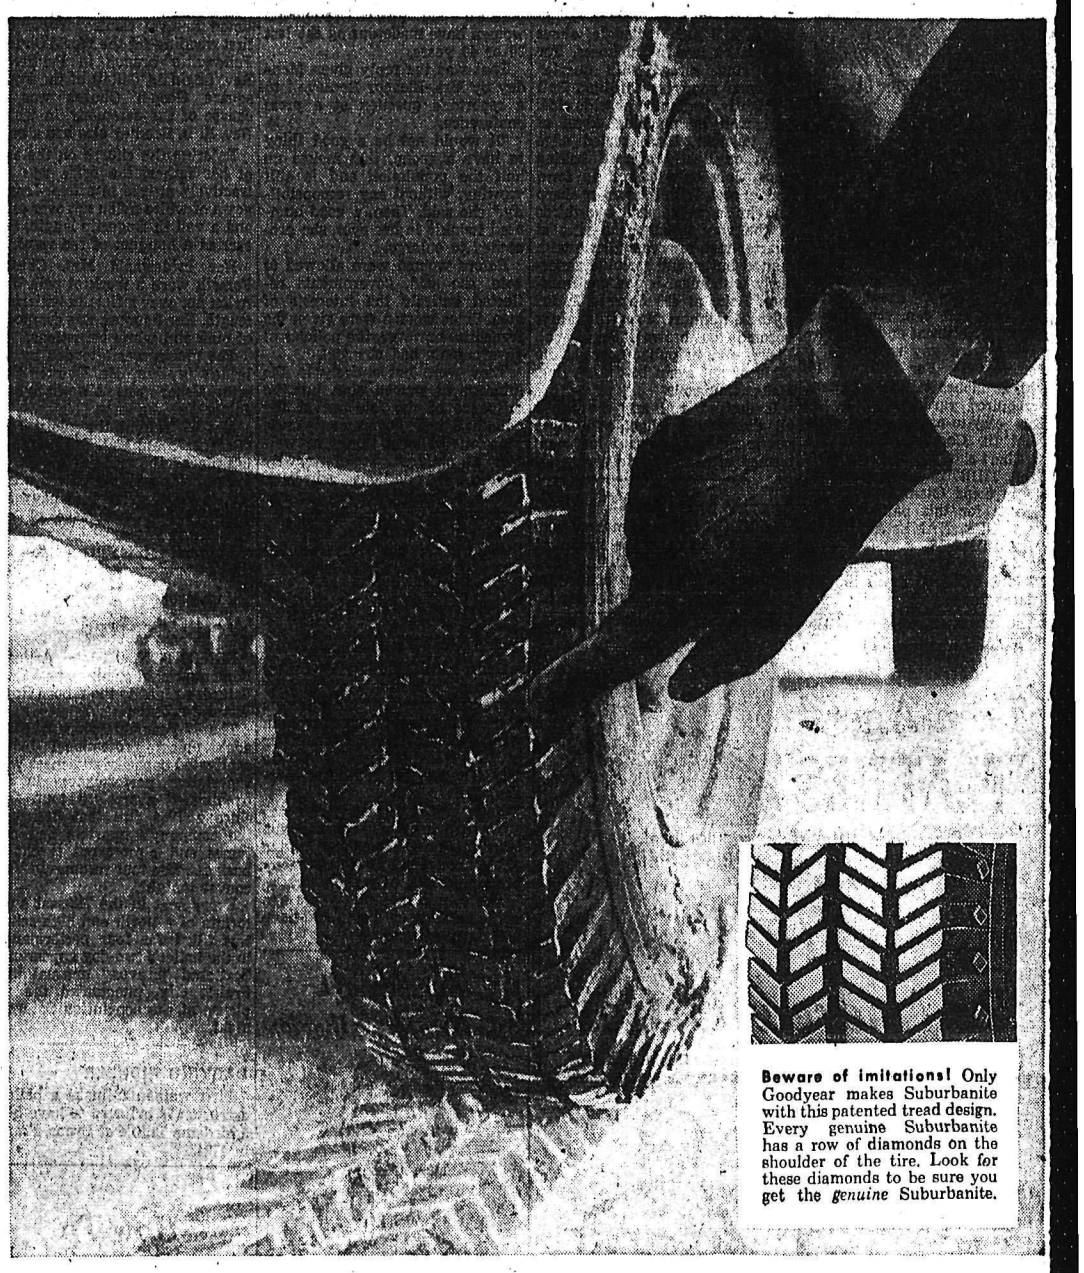
DUNCAN, B.C. (CP) — Search for a hunter near here was abandoned by RCMP Sunday.

Police said they had exhausted all leads to the disappearance of Lewis Billings, 36, who left his home here Thursday to go hunting.

Search will not be resumed unless new clues are found, police said.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.



Beware of imitations! Only Goodyear makes Suburbanite with this patented tread design. Every genuine Suburbanite has a row of diamonds on the shoulder of the tire. Look for these diamonds to be sure you get the *genuine* Suburbanite.

Here's the patented Suburbanite tread design . . . the proven Goodyear tread that has made all other mud-snow tires obsolete.

Look closely at the tread. No big, stiff knobs or lugs here . . . no deep wide depressions to clog up with snow. This tread is composed of 464 live-acting cleats—cleats with 1,856 sharp, biting edges—cleats that are tough and strong, yet flexible enough to work like clawing, grabbing fingers.

And notice how these cleats are staggered and set at an angle (found, by the way, *only* on *genuine* Suburbanites). Their sharp edges bite into snow or mud, just like a skiers' skis are angled to bite into snow when climbing a hill.

Here's a mud-snow tread that's self-cleaning too. And it rolls quietly on the bare pavement—none of that annoying rumble you get with ordinary winter tires.

In fact this tread has everything you ever dreamed of for mud and snow conditions. Ask any man who uses them—he'll back up 100% what we say in this ad. Then see your Goodyear dealer—ask him for Suburbanite tires for your car or your truck. Auto tires available both tubeless or conventional.

SUBURBANITE winter tires by GOODYEAR

FOR CARS AND TRUCKS

SUBURBANITE—Reg. T.M. The Goodyear Tire & Rubber Company of Canada, Limited.

Extra power for winter starts

To turn over your engine in cold winter weather, you need a battery with plenty of reserve power. Goodyear Factory Fresh batteries have that extra power . . . assure you of the added amps you need for sure-fire starting all winter long.

SPORTS

Around the KOOTENAY in Sport

By RED MELLOR

KIMBERLEY—The WIHL policy of neutral referees is already paying off in big dividends. Each team in the league has won at least one game on foreign ice, and the cry "the referees beat us" hasn't been uttered after any of the losses incurred by visiting teams.

The problem of homers in WIHL refereeing is history, with the players in the league being the happiest next to the honest hockey fans, who want to see the games won fair and square, regardless of which team wins.

The only complaint remaining that can be voiced against the officials is looseness and lack of control, and granted these have made their brief appearances, but these in the early stages of neutral refereeing will probably be greatly exaggerated especially if the home team is losing on home ice. It's a condition time will cure.

The fact that the refereeing is honest and unbiased is the important thing. WIHL clubs can now venture away from home knowing the team playing the best hockey will win. Until the advent of neutral refereeing, such was not always the case, with players admitting that on winning the home contest, they felt that they had Jesse James on their side, while in away from home games, after seeing a hard-earned goal or two lead washed by questionable penalties wondered if all effort was in vain.

That refereeing is a tough job is an undoubted fact, besides being a thankless effort. Vociferous boos and criticism will do no harm, but the tossing of litter on the ice easily could, not only to the officials but to the players.

• • •

Dynamiters' successful two-game sweep of their second West Kootenay tour was well-deserved. Their previous attempt while in the stages of recuperating from several injuries and strenuous successive games showed them definitely knocking on the door, with Nelson Maple Leafs barely keeping it closed by scoring with a scant 40 seconds of overtime remaining. On this latest safari, with a complete and rested roster, last season's B.C. finalists with their typical drive walked right in, collecting a well-earned four points.

The acquisition of Ken McTeer looks like the steal of the season. With the fast skating centreman placed on the open market by the Smoke Eaters, Dynamiters' executive and coach Norm Larson felt any rookie scoring 40 points in his first senior year must have something and didn't hesitate in signing him. In games played to date, besides fast skating, aggressive two-way hockey, he has registered 11 points, of which six are timely goals.

The return of defenceman Bill Jones to the Dynamiter lineup is a notable one. The Dynamiter captain, entering his ninth year with the club, is a pillar of strength with his position playing, stick checking, consistent puck blocking and safe clearing.

Besides Dynamiters, back with an injury-free roster and again in their winning ways, the outlook on Kimberley's winter carnival, the Snow Fiesta, is also bright, with a rich layer of snow blanketing the country-side.

Smokies Handed 7-1 Defeat at Kelowna

WIHL STANDINGS

	W	L	T	F	A	Pts
Spokane	9	7	0	79	67	18
Trail	7	9	0	61	73	14
Nelson	7	9	0	60	79	14
Kimberley	7	10	0	85	91	14

KELOWNA, B.C. (CP) — Kelowna Packers, en route for a swing through the Western International Hockey League, made their last game at home a good one by whipping the Trail Smoke Eaters 7-1 here Monday night.

The Okanagan Senior Hockey League club led 2-0 at the end of the first period on Jack Kirk's opening goal and Mike Durban's deflection of Alf Pyett's slap shot.

The second period was scoreless and Trail's Saplywy finally poked one in at :31 of the third frame. Jim Middleton, Bill Swarbrick with two, Moe Young and Brian Roche scored to sew things up.

Middleton and Bobby Kromm tore into each other early in the game and Kromm was given a misconduct and a minor for his part which included a fracas with spectators.

Lineups:

Trail (WIHL) — Goal: Martin; defence; Fletcher, McLeod, Kraiger; forwards: Conn, Shabaga, Lenardon, Penner, Turik, McIntyre, Demore, Saplywy, Kromm.

Kelowna (OSHL)—Goal: Gatherum defence: Schai, Hanson, Kirk, Pyett; forwards: Durban, Kaiser, Young, Roche, Swarbrick, Jones, Middleton, Jablonski.

SUMMARY

First period: 1. Kelowna, Kirk 2:45; 2. Kelowna, Durban (Kaiser) 17:44. Penalties: McLeod, 3:02; Conn, 5:54; Swarbrick, 6:13; McLeod, 7:10; Trail (team misconduct) 8:02; Fletcher, 12:24; Hanson, 14:02; Schai, 14:52; Kraiger, 15:45.

Second period: No scoring. Penalties: Schai, 3:32; Middleton, 6:22; Kromm, 6:22; Kraiger, 7:00; Conn, 7:01.

Third period: 3. Trail, Saplywy (Penner) :41; 4. Kelowna, Middleton (Young, Jones) 3:11; 5. Kelowna, Swarbrick (Roche, Kirk) 6:02; 6. Kelowna, Swarbrick (Roche, Jablonski) 18:28; 7. Kelowna, Young (Jones, Kirk) 17:40; 8. Kelowna, Roche (Jablonski) 18:23. Penalties: Schai, 8:35; Durban, 9:40.

Nelson Rinks Still Winning

By EROS PASUTTI
Canadian Press Staff Writer

VANCOUVER (CP) — Two Prairie rinks recorded their third straight victories Monday to lead the favorites in the early stages of the $11,500 Totem bonspiel here.

In the Totem primary event draw No. 8, Farenholtz of Nelson beat Neff of Vancouver 8-4 and Ryalls of Nelson beat Bellamy of Vancouver 11-5.

In the Evergreen primary event, Ryalls of Nelson beat Berner of Vancouver 9-8 in the second round of the 12th draw.

Pacing the ranking rinks as the second round of the Totem event neared a close were Howard Wood Jr., of Winnipeg and Garry Thode of Saskatoon.

Civic Lunch for Football Fans

WINNIPEG (CP)—More than 200 Toronto football fans ate a "businessmen's lunch" Monday. And the visitors, guests at what was billed as a civic luncheon, applauded Mayor George Sharpe as he said:

"Western hospitality begins here in Winnipeg."

The $600 bill for the roast beef and apple pie lunch was paid by a group of Winnipeg business men who presented city council last Friday with six $100 bills to cover expenses. Aldermen bickered for two weeks over paying for the luncheon. They reluctantly agreed to pay the bill, then accepted the business men's offer.

Despite all the publicity the lunch was a success. Fred Gardiner, chairman of Toronto's metropolitan council, was diplomatic. Asked what the Torontonians thought over the luncheon squabble, he put his finger to his lips, smiled, and said nothing.

PIPED IN

The Royal Alexandra Hotel reeled to the sound of the Toronto girl's pipe band as it ushered in the head table guests. Gardiner presented non-smoking Mayor Sharpe with a crested cigaret lighter. In turn, Gardiner was presented with a Manitoba mink bowtie.

With Stane and Besom

Results of games played Monday night at the Nelson Civic Curling rink were:

Bruce 10, Gilker 6.
Lutkiwich 6, Mason 9.
Ronmark 8, Walt 10.
Lockwood 11, Parrish 8.
Harvey 11, Hesse 7.
Meakins 10, Maurer 5;
Peerless 8, R. Carmichael 6;
Stern 7, Jeffries 5;
Hunt 1, Palmer 0 (default);
Nash 8, Moore 6.

BRUINS BLANK CANADIENS 1-0

The Bruin bantams captured their third straight win in the Bantam League as they gained a close 1-0 win over the Canadiens at the Civic Arena Monday afternoon. It was a battle of the goalies with Brian Dixon of the Bruins coming out on top over Doug Seaby of the Habs. Dixon earned his first shutout as he withstood a terrific third period drive by the Canadiens.

The only goal of the game was scored by Alan Swetlikoe late in the first period with Irwin assisting. The win moved the Bruins into second place one point ahead of the Habs. There were five penalties, three to the Bruins. Buck Eckstrom was referee. Bernie McCabe kept the time and score.

Muzz Has High Regard For Canadiens of '55

NEW YORK (CP)—One of Muzz Patrick's favorite subjects these days is Montreal Canadiens and each time he discusses the National Hockey League leaders he gets a bit more enthusiastic.

Several weeks ago the New York Rangers general manager said the current edition of the Canadiens was the best team in hockey today.

Now he's suggesting the Flying Frenchmen of this season could become the best club the NHL has ever seen.

His remarks may be something of a boost for his own Rangers, holding down second place, because he made his comment after the New Yorkers had held the Canadiens to a 1-1 tie here Sunday night.

The point is that if the Rangers can hold Montreal to a draw, even occasionally, then they're a pretty fair team themselves.

NO COMPARISON

Patrick said that if today's Canadiens aren't the greatest team in hockey history, then only Detroit Red Wings of recent years can match them.

"I'd say it's a toss-up between the two clubs. Certainly this is the greatest club Montreal has ever had. I saw the old Canadiens with Howie Morenz and Aurel Joliat play many times.

"There's no comparing that team with this one. This Montreal outfit is many, many times better.

"It could develop into the best NHL history . . . Chances are they'll get stronger with age."

Patrick said the Montreal power play — Maurice Richard, Jean Beliveau and Bert Olmstead up front and Boom Boom Geoffrion and Doug Harvey on the points—is the mightiest such combination ever.

"Even Detroit couldn't equal that," he said.

This devastating combination will be without Geoffrion for about five weeks. He suffered a shoulder separation when checked by defenceman Lou Fontinato Sunday night.

Chuck Rayner to Tend Nelson Goal Friday

Chuck Rayner, one of the most spectacular goalies in the history of the NHL, will tend goal for the Nelson Maple Leafs on Friday night when they host the OSHL's Kelowna Packers at the Civic Arena.

Better known to WIHL fans as the coach of the Maple Leafs, Rayner has made only three appearances in the Nelson goal.

His last stint in goal for the Leafs was in the final playoff game with the Kimberley Dynamiters in March. Kimberley won 3-2 in overtime.

His only appearance as goalie in Nelson came last season in a league game with the Trail Smoke Eaters. The Maple Leafs made sure of that one, winning 7-2. He also played in an exhibition game in Cranbrook.

Rayner announced his intention to give his regular goalie, Gus Adams, a well-earned rest and started practice sessions Monday morning. He will practice morning and evening until Friday.

At the Civic Arena Monday night, it was hard to believe that "Bonnie Prince Charlie" had been out of action for eight months.

It was raining pucks as a battery of Maple Leaf forwards fired shot after shot while Rayner displayed the form that won him the Hart Trophy, NHL's most valuable player award, in 1950, climaxing eight years in the New York Ranger nets.

CHUCK RAYNER

Esk Linemen New, But Backfield Little Changed

By JIM PEACOCK
Canadian Press Staff Writer

EDMONTON (CP) — Montreal Alouettes may see a lot of new faces when they hit the Edmonton Eskimo line in the Grey Cup football final at Vancouver's Empire Stadium Saturday. But there won't be much change in the backfield personnel.

The defending-champion Eskimos have 10 new men among the 21-member line to draw from for the 1955 classic and Alouettes are bound to meet some of them Saturday. Four newcomers have been added to the backfield.

Whether the additions and deletions have strengthened the club, coach Frank (Pop) Ivy refuses to say. Asked if he feels his club is stronger than last year when Eskimos nipped Montreal 26-25 in the Grey Cup game at Toronto, Ivy cautiously replied:

"You can't compare teams like that."

STRONGER ON FORM

On the season's play, the Esks would seem stronger. They lost only two of 18 games played so far this year while in 1954 they suffered six defeats in 21 games, including the Grey Cup semi-final and final.

In any case, Ivy has three tons of football material — 4400 pounds of it along the line — from which to draw his Grey Cup team this year. The Eskimo line averages 210 pounds a man while the backfield average weight is 190.

Hopes For Good Valdes-Baker Bout

NEW YORK (AP)—Boxing promotor James D. Norris said Monday he hopes heavyweight contenders Nino Valdes and Bob Baker will put on a sensational fight in Cleveland Dec. 7.

"If they do," said the president of the International Boxing Club, "then I would have a good talking point with Ay Weill for a title defence by Rocky Marciano before June."

Weill manages Marciano, the heavyweight champion.

Norris, who arrived Monday from Florida, said he would like to match Marciano against the Baker-Valdes winner for Miami, Feb. 22.

Asked by reporters at an impromptu press conference at the IBC offices if his "feud" with Weill was "on the square," Norris said "Yes. He seems to be sore about something but I'm sure we can get together."

Juves Play Tonight

A change in the Minor Hockey League games tonight will see the juvenile Quakers playing the Royals at 8 o'clock. Due to an oversight, the midget game originally slated for eight will be cancelled.

CIVICS STOP GLADE IN COMMERK PLAY

In the only game played Sunday in the Nelson Commercial Hockey League, Civic Hotel continued their winning ways by defeating a much improved Glade team. The 13-7 score was by no means an indication of the game. Civic defeated Queens the previous week.

Glade went all out on the offensive attack but were continually caught short in the enemy zone thus setting up more than half of the Civic's goals. Denisoff showed remarkably well in goal for Glade, but it was shown that it takes more than one man to stack his ability against two and three man rushes on Civic breakaways.

Bachynski led the winners with four goals and four assists, Bennedetti had three goals and three assists, Harrison scored twice, Deno, Burns and Richardson had singles. Samoyloff paced the losers with two goals with singles going to Waykin, Podnoroff, Hadikin, Kinakin and A. Shertobitoff.

Queens Hotel were guests of Creston over the weekend, enabling Mel Buerge Motors to play a practice game against a combination of Glade and Civic players.

NHL LEADERS
By The Canadian Press

Standing: Montreal, won 11, lost 3, tied 6, points, 28.

Points: Beliveau, Montreal, 24.

Goals: Lindsay, Detroit, Sloan, Toronto, M. Richard, Montreal, and Beliveau, 11.

Assists: Olmstead, Montreal, 17.

Shutouts: Plante, Montreal, 5.

Penalties: Lindsay, 71 minutes.

Edmonton Plans Welcome Home

EDMONTON (CP)—Win or lose in the Grey Cup football final at Vancouver Saturday, Edmonton Eskimos will be feted at a homecoming parade and civic banquet here next Monday.

Mayor William Hawrelak announced Monday that Art Potter has been named chairman of a committee drawing up arrangements for the return celebrations.

Meanwhile, a committee under Walter Sprague is completing plans for the trip to Vancouver and the game between Eskimos and Montreal Alouettes.

About 4000 Edmonton district residents are expected to travel to Vancouver and the planning committee has about $6500 to spend on celebrations. A float is being made for the city in New Westminster and plans are to scatter Eskimos ice cream bars along the route of the Grey Cup parade in Vancouver Saturday.

Davis Cup Challenge Round Dates Set

MELBOURNE (AP)—The Davis Cup challenge round will be held in Adelaide Dec. 26-27-28, it was decided at a meeting of the Australian Lawn Tennis Association Monday night.

The meeting was told that provision would be made to accommodate 17,000 spectators.

Melbourne, host to the Olympic Games next Nov. 22-Dec. 8, had hoped to get the challenge round, too, as a followup to the games.

Australia regained the Davis Cup from the United States by 5-0 at Forest Hills, N.Y., last August.

District Fans See Hockey On TV

First television view of a Western International Hockey League game was enjoyed by Nelson and district fans Sunday afternoon, when the final period of the game in which Spokane defeated Nelson 8-3 was picked up on TV screens.

Reception on channel 6 is not too good in Nelson, and viewers found it a little difficult to follow play. The ice, which has a green concrete base, appeared black on TV and the puck was hard to see.

One viewer, finding the TV announcer's commentary hard to follow, turned back the volume and listened to CKLN's Earl Warren on their radio set while watching the picture. They reported that his commentary followed the play perfectly.

Strikes 'n Spares

Doug Hall sent the pins flying for a neat 311 points in Men's Commercial League play, and he wound up with an aggregate of 725.

His team, the Hilltopers, led teams with high total of 1104 and high aggregate of 3106.

In Senior Women's League play, Lena Koehle of the Paterson team rolled high single of 278 and high aggregate of 719, while the Miller-skipped team was tops with high single and aggregate of 984 and 2691, respectively. Bowling in the 600s were Vivian Cook, 681; Fanny Parker, 655; Isobel Locatelli, 640; Betty Wicken, 636; Fern Porteous, 624.

Mixed Commercial League women's high single and high aggregate went to Rose Matheson of CPR Diesels with 249 and 666, respectively, while men's high single, a sizzling 330, was racked up by Bruce Malcolm of Hume.

Bill Hille of Hille-Hall took high aggregate with 760. Team high single and aggregate went to Hume with 760 and 1135.

Scoring more than 700 were Bing O'Neil, 707; Bruce Malcolm, 744; George Clow 747; Joe Sikorski, 750.

how good can a good rum be?
COLUMBUS RUM
is the answer!

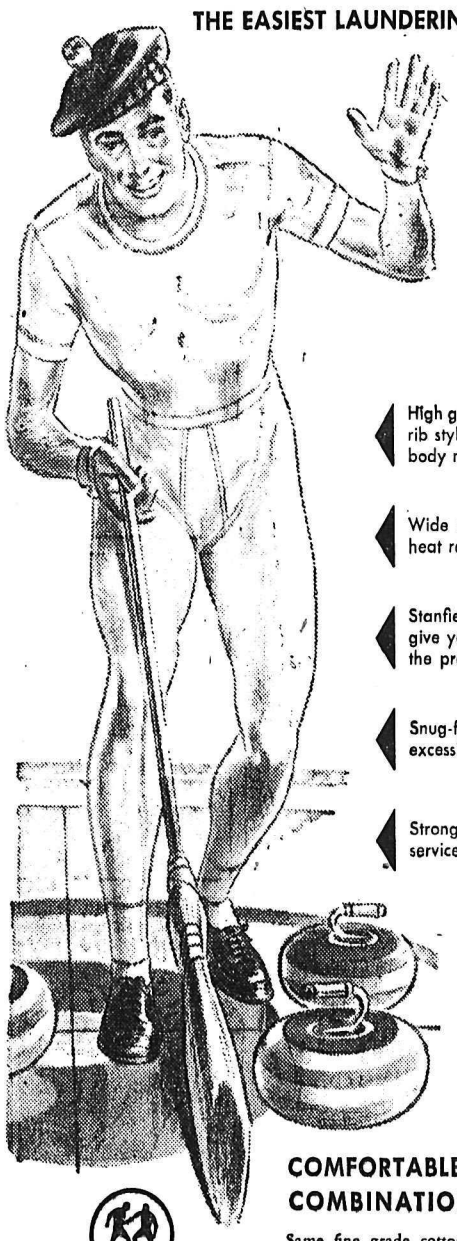
STANFIELD'S
SHIRTS (1411) AND LONGS (1412)
THE EASIEST LAUNDERING SHIRTS AND LONGS MADE



After each wash they're like new again — the same comfortable fit, the same healthy warmth-giving garments as they were the day you bought them. And that's not just after the first wash — it's after the twenty-first or thirty-first, or one-hundred-and-first! See them at your nearest Men's or Department Store.

High grade cotton yarns in extra strong rib style knit that gives and takes with body movement.

Wide mercerized elastic waistband — heat resistant, won't roll or chafe.

Stanfield's original DOUBLE-SEAT to give you double the wear and double the protection.

Snug-fitting cuffs prevent riding up and excessive knee wear.

Strongly reinforced to give you extra service over the years.

SHIRTS available in sizes 34 to 46, short sleeves only, pullover style, each $1.95

LONGS available in sizes 32 to 44, pair $2.50
(Talls slightly higher.)

TRADE MARK REG'D

COMFORTABLE LOW-COST COMBINATIONS (1400)

Same fine grade cotton yarns, rib-knit in medium weight and featuring lined front opening, military insert shoulders and reinforced crotch. Sizes 34 to 44, pair... $3.95
(Oversizes slightly higher.)

Logging Firms Agree to Raise

SEATTLE (AP)—A plywood official announces that the AFL lumber workers and plywood, lumber and logging industries in five Western states have agreed on a new two-year contract.

The official, Alfred J. Schweppe of Seattle, said the fact covers industry workers in Washington, Oregon, California, Idaho and Montana.

He forecast quick certification of the new pact, which calls for a five to 15-cent an hour raise effective from this Dec. 1 to April 1, 1957. The present pay scale starts from a $1.93 base.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes, and find what your outlook is, according to the stars.

FOR WEDNESDAY, NOV. 23, 1955

MARCH 21 to APRIL 20 (Aries)—Don't reach out for more than is reasonable. Take sufficient time for reviewing where it would help. Make decisions only after careful analysis.

APRIL 21 to MAY 20 (Taurus)—Remember your true friends. Do not leave them out of plans which include new acquaintances except where reasonable. Spend wisely.

MAY 21 to JUNE 21 (Gemini)—It isn't how much you can get done; it is how well. Handle things in proper order and as ably as you can.

JUNE 22 to JULY 23 (Cancer)—Manufacturing, handling new accounts, dealing with new acquaintances, and research are up for careful analysis now. Be diplomatic with all. It's really a good day.

JULY 24 to AUGUST 22 (Leo)—This is no time for slowing down, except where health demands it. Intelligent reading, music, the company of children are spare time tonics.

AUGUST 23 to SEPTEMBER 23 (Virgo)—Give special consideration to your family and loyal friends now. Also note that Mercury's position suggests less tension and anxiety.

SEPTEMBER 24 to OCTOBER 23 (Libra)—Count ten before you make that hasty answer; think again before you decide to act. Perhaps a different approach to everyday matters would also be wise.

OCTOBER 24 to NOVEMBER 22 (Scorpio)—Give yourself a break by being systematic and ruling out non-essentials that could clutter your day, hamper efforts. Do not put off things you can do well.

NOVEMBER 23 to DECEMBER 22 (Sagittarius) — Look into the "little" things. Are there some that really need more attention than they get? Aim to be the peacemaker in family, community affairs.

DECEMBER 23 to JANUARY 21 (Capricorn)—Be as careful in matters you dislike as you are about things you do like. Only in this way can you do a good job.

JANUARY 22 to FEBRUARY 20 (Aquarius)—Things out of the ordinary, artistic matters, handicraft, new and progressive ideas and methods can advance now. Heed your intutition.

FEBRUARY 21 to MARCH 20 (Pisces)—Be careful in investing, buying, exchanging, and do not make needless changes unless definite improvements are assured. Act with reason, logic.

YOU BORN TODAY are of the enterprising, self-reliant Sign Sagittarius, but you have some traits from the waning Scorpio. Both Signs show great energy and activity. Be careful about the associates you meet along your way. You can shine especially in sports, promotion, statesmanship, banking, photography, the ministry, handling animals. Develop moderation, patience.

Birthdate of Franklin Pierce, 14th U.S. President.

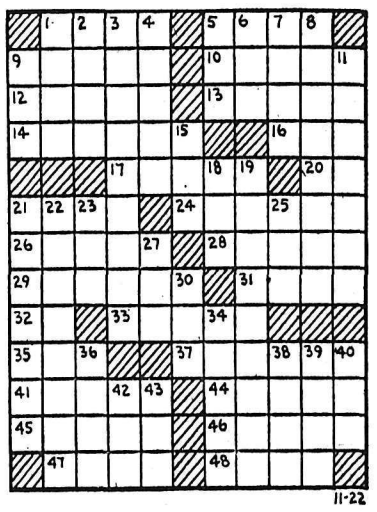
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

Blame Seaquake For Joyita Mystery

AUCKLAND (AP)—Marine inspectors completed a preliminary survey of the 70-ton "ghost ship" Joyita and reported the disappearance of her 25 passengers and crew could be explained in only one way—a "seaquake."

The Joyita, now at Suva, Fiji Islands, was found drifting and deserted in the South Pacific three weeks ago. She had sailed from Samoa on a two-day voyage to the Tokelau islands Oct. 3. A big air-sea search uncovered no trace of the missing passengers and crew. The Fiji government ruled out piracy.

Investigators said the only imaginable cause of the disaster was an undersea eruption that threw everyone overboard. The Tonga government is being asked to help check the "seaquake" theory.

SHIGEKO NIIMOTO, left, and Suzue Oshima, right, two of a group of Hiroshima victims brought to the U.S. some months ago for plastic surgery, receive a visitor at a New York hospital. The girls were left badly disfigured by the first atomic bomb ever used in war—the one dropped by an American B-29 on Hiroshima, Japan, on Aug. 6, 1945.

Market Trends

TORONTO (CP) — The stock market moved down Monday under pressure of tighter-money measures announced last week by the U.S. Federal Reserve Board and Bank of Canada and in the wake of a decline in prices at New York. Trading was cautious.

Most industrial groups were lower though utilities were firm and foods won irregular support.

NEW YORK (AP) — The stock market declined Monday in moderate manner.

The market was a trifle higher at the start, but it turned mixed and was around its lowest point at the finish. Rails and coppers at one time did well, but they ended lower.

LONDON (Reuters) — Chancellor of the Exchequer R. A. Butler's weekend warning that stronger anti-inflationary measures will be imposed if necessary had a dampening effect on the markets Monday.

Gilt-edged stocks registered falls of up to ¼. Dominion issues were also easier. Canadian Pacific was quietly firm among rails.

Calgary Livestock

CALGARY (CP) — Trade was moderately active on the livestock market Monday but prices were a little easier, particularly on stocker and feeder steers and stock steer calves.

On offer were 1150 cattle and 500 calves with a heavy run off truck in sight. Bulk of offerings were medium to good stocker and feeder steers and stock steer calves of all classes.

Choice butcher steers 19.50-20.25, good 18-19.25, medium 15.50-17.50; common 10-15; choice butcher heifers 17.50-18; good 15.50-17; medium 13-15; common 10-13; good cows 8.50-9; medium 8-8.25; common 7.50-8; canners and cutters 5-7.

Good bulls 9-9.50; common to medium 7-8.50; good feeder steers 15-16.50; good stock steers 15.50-17; common to medium 10-14.50; good stock steer calves 15-17.50; good butcher weight heifer calves 350-450 pounds, 13.50-15; good to choice veal calves 16-17; common to medium 10-15.

Hogs closed steady last week at 20.25 and sows at 10.50-11.25.

RENEW TRUCE FOR ANTARCTIC BASES

LONDON (Reuters) — Britain, Chile and Argentina Monday renewed for another year their "Antarctic Truce," limiting the number of warships they will send to the disputed regions of the Antarctic, the foreign office announced.

Argentina and Chile claim sections of the British-administered Falkland island dependencies in Antarctica. Britain and Argentina each have eight bases there and Chile four.

Ice Block From Air Hits House

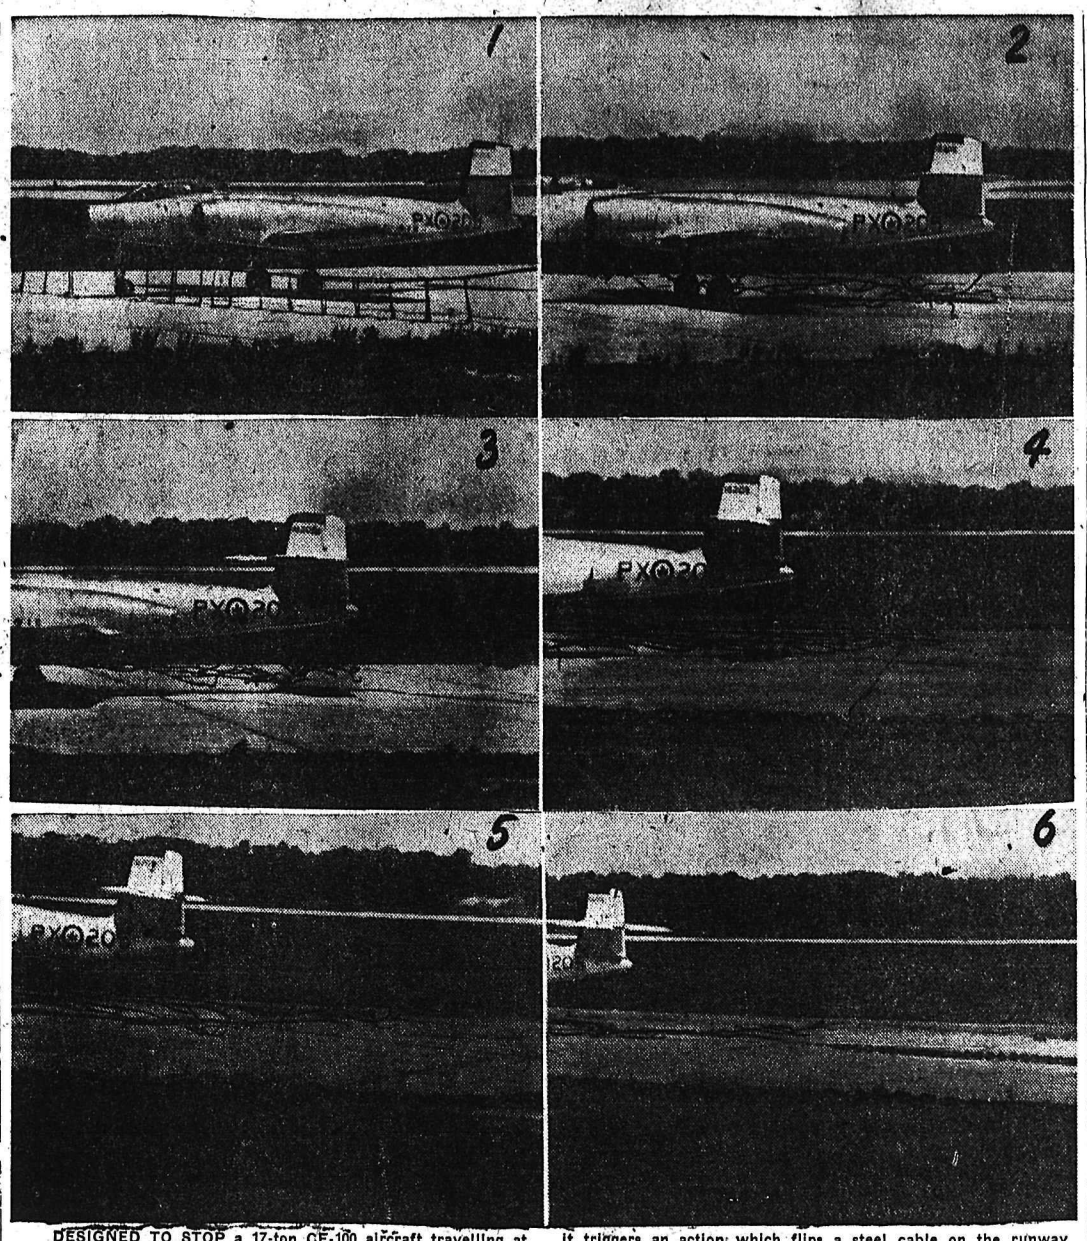
WHALLEY (CP) — A Whalley family narrowly escaped injury in a freak accident.

Mr. and Mrs. John W. Leswyk missed by inches being struck on the head by a large lump of ice that apparently fell from the sky. Their two children, Ronnie, 9, and Eleanor, 4, were playing in a partially-constructed utility room when the object fell on the roof directly above them.

The couple heard the crash moments after a four-engine plane passed over the house.

A large dent in the roof marked the spot where the ice-bomb landed.

Officials at the Sea Island airport said ice frequently forms on planes, but usually breaks off in small particles when the craft reaches warmer air.



DESIGNED TO STOP a 17-ton CF-100 aircraft travelling at more than 100 miles an hour, this runway barrier is now undergoing tests at the RCAF's Central Experimental and Proving Establishment. The barrier, at RCAF Station Uplands near Ottawa, is an accident prevention device assembled near the end of a runway and is designed to stop an aircraft should its brakes fail on landing, overshoot the runway on a flame-out landing, or lose its power on take-off. These photographs, from left to right, show the barrier stopping a CF-100 during trials. The first photo shows the nosewheel of the CF-100 just before it hits the barrier, while the second shows it immediately afterwards. When the nosewheel hits the nylon tape of the barrier it triggers an action which flips a steel cable on the runway up against the main undercarriage. In the third and fourth photos, the tapes from the barrier stream from the undercarriage which now has the cable firmly hooked around it. The ends of the cable are attached to two heavy chains which lie along the edges of the runway and ahead of the plane. As the aircraft moves down the runway, it picks up more and more of the weight of the chains until the drag stops the aircraft. In the fifth and sixth pictures, the CF-100 is dragging the chains in loops behind it, and has slowed almost to a halt in a relatively short distance.

—National Defence photo.

Mail Proposes Meeting of Eden and Ike

LONDON (Reuters)—The Daily Mail proposes a meeting at Gettysburg, Pa., soon between President Eisenhower and Prime Minister Eden because a common policy between Britain and the United States has become of "critical importance."

"Differences seem already to have arisen over the four-power failure," the Conservative newspaper says, referring to the recent meeting in Geneva of the foreign ministers of Britain, the United States, Russia and France.

Listing apparent differences in policy between Britain and the United States, the Daily Mail says John Foster Dulles, U.S. secretary of state, had claimed the Geneva spirit had survived the foreign ministers' meeting.

"If a drink survives after one man has flung it in the face of another, we believe him," the newspaper says.

ELECTION SUSPICIONS

The Daily Mail says Dulles minimized the Geneva failure because of the impending presidential elections in the United States.

It claims the same elections are influencing American support of Israel through a desire to conciliate the Jewish vote at home.

Britain apparently is supporting the Arabs.

"Here is a situation of grave danger, with Britain apparently ranged on one side and America on the other," the Daily Mail adds.

It also claims there is Anglo-American rivalry over oil in the Persian Gulf area.

In the face of these apparently contradicting policies in the Middle East, Russia is increasing her influence in the area.

Must Produce Less to Save IWA—Hinman

EDMONTON (CP) — The Alberta government predicted Monday that the International Wheat Agreement may cease to exist unless world wheat producers agree to limit production.

Agriculture Minister Hinman told the Gordon economic commission that the IWA, which Canada is seeking to renew, has created a problem in surpluses which "it cannot handle very well."

He suggested Canada get rid of her wheat surplus by selling for local currencies abroad as the United States is doing or by granting overseas customers extensive credit to buy Canadian goods.

A. E. Grauer, commission member, said the plan would be the same as barter. It would be unilateral action on Canada's part in contrast to the multilateral arrangements of the IWA.

Mr. Hinman replied:

"I think the IWA has built a problem which it cannot handle very well. It will cease as an agreement unless countries are willing to limit production."

Fear Low Neck Dresses May Shock Royalty

LONDON (AP) — The tabloid Daily Mirror Monday delivered a frontal attack on pretty film stars who sport plunging necklines before the Royal Family.

"The bare fact is," says the paper, "that film stars' necklines at these royal functions are sagging daringly below the Plimsoll line of modesty."

(The Plimsoll line is a mark prominently painted on a vessel's hull to show how deeply she may be loaded.

The Mirror, usually not adverse to publishing pictures of a shapely figure, pointed an editorial finger at two of the country's cutest cuties, blonde Diana Dors—Britain's answer to Marilyn Monroe—and pert-nosed Jackie Lane, both of whom recently appeared before members of the Royal Family in extremely low cut evening gowns.

Coast Police Kept Busy By Juveniles

VANCOUVER (CP)—A weekend of juvenile violence hit a peak here Sunday night when a youth tried to run down two detectives, police reported Monday.

Two shots were fired at the youth's speeding car by detective Tom Dixon as he and his partner, Gordon McQueen, flung themselves against a wall in a narrow Chinatown lane to avoid being run down.

One of the bullets hit the rear of the car and the other blew out a tire.

The youth—suspected of having been in contact with a known drug trafficker—retained control of his car and sped away.

FIND MINOR UNCONSCIOUS

In other weekend juvenile crimes police reported a robbery with violence, gang fights, assaults, an abduction and a large drinking party where a minor was found unconscious.

Four youths are being sought in the abduction and assault of a 15-year-old Vancouver girl. She was held in their car for four hours and tossed out on a highway near Mission, 40 miles east of here.

POINTS OF INTEREST
THE FN RIFLE

One of the facts recognized after the Second World War was that the bolt operated rifle did not provide the infantry soldier with the necessary rate of fire. To remedy this a self loading semi-automatic) rifle was required. After thorough study and investigation it was considered that the FN rifle offered the best promise of meeting the requirement. This rifle has now been adopted as standard for the Canadian Army. The nomenclature of the weapon wlil be Rifle 7.62 mm, Cl. The FN rifle fires the 28 inch (length) high velocity 7.62 mm (.30 inch) calibre rimless round. In comparison with the .303 Mark 7 bullet fired from the No. 4 rifle, this 7.62 mm bullet has a greater velocity and is 18 per cent light. The FN rifle weighs about 9.5 pounds, a 20 round magazine, length of the weapon 44.5 inches, gas operated and air cooled. This rifle will increase the fighting effectiveness of infantry.

The 111th HAA BTY. RCA will not cease training while work is being done to the Armouries. Arrangement will be made for other accommodation. Training will be carried out as per syllabus.

The weekly parade will be held at the Nelson Armouries today at 1955 hours.

Part one orders issued by Capt. H. T. Gumbert, officer commanding.

Duties — Orderly officers for the week, Lieut. F. Tees; orderly NCO, Bdr. R. McGhie; duty driver, Gnr. K. Loewen; canteen steward, L-Bdr. J. Denholm; canteen orderly, Gnr. D. S. Harris.

Dress — Battle dress, khaki berets, ankle black boots, web anklets, waist belts, khaki ties.

Training — As per syllabus.

B. C. Organized Labor to Merge

VANCOUVER (CP)—The B. C. Federation of Labor has unanimously voted to merge with the B. C. Trades Union Congress.

Secretary George Howe told the Federation's annual meeting during the weekend that the move will mean the province's 110,000 workmen will be speaking with one voice.

It would remind the provincial government, he said, that organized labor is an important factor in B. C.

PRIEST HEADS LOCAL

OMAHA (AP) — A Roman Catholic priest has been elected to the presidency of Local 70 of the American Federation of Labor. As far as is known here, it's the first time a priest has been named to head a labor union in the United States. Rev. Francis P. Schmitt, director of music at Father Flanagan's home for boys at nearby Boys' Town, was elected Sunday night by the AFL affiliate.

Accuses Big Three of Backing Down

NEW DELHI (CP) — Soviet Premier Bulganin told the Indian Parliament Monday "we resolutely repudiate war as a means to settle disputable international problems."

"For the same reason we stand for peaceful regulating of unsettled questions by negotiation," he said.

Addresses by Bulganin and Communist party secretary Nikita Khrushchev, on a two-week visit to India, were read in Hindi by interpreters to a joint session of Parliament.

NO POSITIVE RESULTS

Bulganin said: "To our great regret, our efforts to end the deadlock on the question of disarmament and the prohibition of atomic and hydrogen weapons has not so far brought about positive results.

"As a matter of fact, the United States, England and France have backed down from what they themselves proposed at the beginning of the year."

FALLS INTO POST HOLE

OTTAWA (CP) — Howard Murphy, 2½-year-old toddler, was revived by a workman and two housewives Monday after he fell head first into a waterfilled post hole and was trapped. Workman Charles Gaudreau, called by two youngsters after they were unable to free their playmate, pulled the child out unconscious. His head was under water. Two neighboring housewives revived the boy with artificial respiration, a hot bath and a tot of whisky.
