WEATHER FORECAST

KOOTENAY: Sunny with a few cloudy periods in the southern areas. Southerly wind 20 in the main valleys. Low-high Cranbrook and Crescent Valley 20 and 55.

MAY QUIT . . .

Molotov Pawn in Soviet Game?

To Delay Announcing Plan To Resign Or Not To Resign Until Geneva Meet

By RICHARD K. O'MALLEY

MOSCOW (AP) — V. M. Molotov said Saturday night he will announce in Geneva whether he plans to quit his job as Soviet foreign minister.

Molotov leaves Tuesday for the four-power foreign minister's conference which opens in Geneva Thursday. Western diplomats here have speculated about his future as foreign minister ever since he confessed an "ideological error" in the magazine Kommunist Oct. 8.

Affable and smiling at a gala Kremlin reception for visiting Burmese Premier U Nu, Molotov was asked by this correspondent whether he intended to resign.

"I will give the answer to that question in Geneva and from Geneva," Molotov replied.

He was reluctant to discuss his plans in further detail.

In his confession in the magazine *Kommunist*, Molotov said he had erred "dangerously" in a major speech last Feb. 8 when he suggested the Soviet Union was not yet a full-scale socialist nation. The speech was made at the same supreme Soviet session at which Georgie M. Malenkov confessed errors and resigned as premier.

Molotov's confession led to mediate speculation about his future. The speculation was heightened by Molotov's absence from recent top-level conferences in the Crimea at which the Soviet line for the Geneva conference was believed discussed.

However, two days after the Kommunist article appeared Molotov told reporters at a party for Canada's external affairs minister Pearson in Moscow: "There is no question of my retirement."

Molotov, at 65 the last of the old Bolsheviks, has had his ups and downs in the Communist hierarchy. He has been active in Soviet government affairs since the days of the revolution.

One way or the other, it seems obvious enough that the Kremlin is attempting to confuse the West on this issue, among others. The Kremlin is fully aware of the reputation Molotov bears abroad as the carrier of the stubborn word of Stalin, as the herald of the inflexible policy.

NOT HIS OWN WORDS

Now the Kremlin is in the position of pointing out to the rest of the world that while the man in Geneva still is Molotov, the words he speaks are not necessarily his own. It has been made clear enough that he is to be considered the creature of the collective leadership. Thus, the Kremlin can have it both ways. If the Geneva conference should result in showing up Soviet policy in a bad light, Moscow can attempt to remove the bad taste by removing Molotov. If all goes well for the Kremlin, Molotov can stay around indefinitely.

Star Cutoff Promised in '56

QUAKE RATTLES SAN FRANCISCO

Statues Topple, Windows Crack; Phones Disrupted

SAN FRANCISCO (AP) — A sharp earthquake jolted San Francisco and the bay area Sunday night cracking windows, felling statues and disrupting telephone service.

The quake, at 8:11 p.m. PST and lasting two minutes, was recorded on the California Institute of Technology seismograph as 5.5 on the Richter scale.

The rolling earth quake apparently caused the most damage in the east bay communities of Walnut Creek and Moraga.

The tremor was felt within a 100-mile radious of San Francisco.

In this big seaport metropolis windows were shattered in some buildings. Plaster cracked in others.

St. Mary's University at Moraga said statues of the Virgin Mary and St. John Baptist de la Salle fell 25 feet from niches in its chapel.

Windows and dishes were broken both at Walnut Creek and at nearby Orinda.

Rev. John Weber, seismologist at the University of Santa Clara said the quake centred about 50 miles from Santa Clara. San Francisco and Santa Clara are about 50 miles apart.

Workers Bid for Wage Hike Turned Down

PRINCE RUPERT, B.C. (CP)—Requests for a general wage increase of five per cent and insurance coverage made by hospital employees here were turned down Saturday.

Civic mployees at Prince Rupert general hospital asked insurance coverage by the Credit Union Co-operative Health Service on a 50-50 basis plus federal unemployment insurance.

The Hospital board said no increases in wages could be granted unless there was a change in the recent B.C. Hospital Insurance Service directive freezing salaries.

The board said insurance is desirable in principle but decided the request could not be granted unless approved by BCHIS.

The hospital said expenses already will be greater than those allowed by the BCHIS-approved budget because of wage increases granted before the wage freeze directive was issued.

Civil Servants Seek Medical Plan

VICTORIA (CP) — The B.C. Government Employees Association wants the provincial government to speed up plans for a joint medical services scheme for all its employees.

In a resolution passed at the end of the association's annual convention here Saturday, the civil servants asked the government to expedite plans for the scheme on a 50-50 basis.

Paulson-Blueberry Tenders To Be Called Immediately

Bridge Superstructure Tenders Called October 29

Provincial ministers following the first cabinet meeting ever to be held in Nelson made these announcements to public gatherings here Saturday:

1—A start on construction of the Salmo-Creston cut off will be made in 1956.

2—Tenders will be called within days for a start on the Paulson-Blueberry section of the Southern Trans-Provincial highway.

3—That on October 29, tenders for the superstructure of the West Arm bridge will be called.

4—Provincial government is opposed to the principle of tolls on roads and bridges and expects revenue from oil and gas resources will contribute to the ending of tolls before they have actually paid for bridges.

5—It is the government's intention to let $60 million in new highway construction next year, part of which will be represented by federal funds for the trans-Canada route.

These statements were made by Premier W. A. C. Bennett and Highways Minister P. A. Gaglardi at the official start of construction of the West Arm bridge and a public banquet which followed in the evening.

(Also see Page 2)

Saturday morning the Provincial Cabinet, with the exception of three ministers, met in the city council chambers in the Chamber of Commerce building. The meeting was in camera. Hon. Wesley D. Black, provincial secretary, said later that "normal government business was discussed, orders in council were dealt with as well as problems pertinent to the Kotenay."

Following the meeting, the cabinet was entertained at a civic luncheon sponsored by city council with Hon. Ray G. Williston, minister of education, guest speaker.

Hon. Wesley D. Black, MLA for Nelson-Creston riding, provincial secretary and minister of municipal affairs, acclaimed as the man who did most toward the bridge declared the bridge construction officially under way. He pulled a lever at the bridge site that poured cement into the final approach footing in the afternoon at the ground-breaking ceremonies described by all as "a red letter day for Nelson and district."

Presented first with a tin hat like other construction workers wear, except that it was red, Mr. Black stepped down to the footing platform where a hopper of cement held by a giant crane waited, and tripped a lever releasing it. He said he felt he had done "only a very small part toward the bridge" and pulled the lever on behalf of "all those who had a share in making the start of construction a reality."

TOSSES IN HAT

Mayor Joseph Kary, who earlier had given an address of welcome to spectators and the cabinet, in a spontaneous gesture tossed his hat into the footing as the concrete poured in. Highways Minister P.A. Gaglardi, acting as master of ceremonies, said "that will give you people a lot of pleasure knowing you're running over the mayor's hat every time you cross this bridge."

Approximately 200 gathered for the historic ground-breaking ceremonies held against the sparkling blue waters of the West Arm and amid autumn sunshine.

Premier W.A.C. Bennett spoke briefly during the ceremonies recounting the history of the bridge and going on to enumerate government plans for highways in the Kootenay.

Hon. P. A. Gaglardi introduced cabinet ministers and contracting company officials who stood on a flag draped platform throughout the ceremony. Hon. R. E. Sommers, Minister of Lands and of Forests and Mines, Hon. Lyle Wicks, minister of labor, Hon. W. K. Kiernan, minister of agriculture, Hon. Ray G. Willistin, minister of education, Hon. Wesley D. Black, minister of municipal affairs and provincial secretary, Hon Eric C. Martin, minister of health and welfare, R. Worley, executive assistant to the Premier; George Poole, vice president of Poole Engineering Co., Ltd., and A. B. Sanderson, bridge designer, were present.

RECEIVE PLAQUES

Premier Bennett, Mr. Black, Mr. Gaglardi and Mr. Sanderson were presented plaques commemorating the event by Mayor Kary on behalf of Poole Engineering and Raymond International Companies. The mayor also received a plaque.

Hon P. A. Gaglardi, officiating at the ceremonies, enumerated what will go into the bridge in its two years of construction.

"It will be just under a mile," he said. "Its total weight will be 25,000 tons and would require a 14-mile truck convoy to transport it. It will have in it 2600 tons of solid steel, enough to reach 190 miles, from here to Asoyoos, and 11,000 cubic yards of concrete, that's 35 miles of sidewalks or 400 basements for Nelson homes," he said. It will have 70,000 lineal feet of steel piling. That's 13 solid miles for foundation pilings.

$3 MILLION

"If the bridge costs $3 million," Mr. Gaglardi explained, "the Canadian one dollar bills piled one on top of the other would be three times the height of the Marine building at Vancouver."

Announcing the bridge completion date as June 30, 1957, Mr. Gaglardi made the promise "Joe (Mayor Joseph Kary) on June 30, I'll take you by the hand and we'll walk across that bridge."

As the ceremonies ended 30 Sons of Freedom women, who had waited silently during the half-hour program, fell to their knees weeping, begging Premier Bennett to free their children from the New Denver welfare home where they are attending school. The premier, his cabinet and officials, proceeded to a city bus that waited to take them on a tour of the city.

AT BARBER SHOP

The women later in the afternoon waited outside a city barber shop were the Premier was which a cabinet minister, but did not see him as city police moved them on down the street and the premier and those with him left in a private car.

After touring the city, the cabinet attended a reception at the Hume Silver Room sponsored by the bridge contracting firms, Poole Engineering and Raymond International.

Minister of Education Mr. Williston toured the new Nelson High School during the afternoon with members of the School Board of District 7.

In the evening all attended a civic reception at the Civic Centre where Premier Bennett was guest speaker and 350 persons attended.

Couple Die on Eve of Wedding

CRANBROOK—Inquest opened Saturday morning into the deaths sometime within the previous 24 hours at a motel near Cranbrook of Leo Nordstrom, about 50, and Mrs. Mildred Fraser, about 38, whose marriage was to have taken place Saturday. The inquest was adjourned to next week.

The operator of the motel found them dead in one of his cabins Friday night and they had apparently been dead for several hours. An autopsy will take place. Mr. Nordstrom was a well known district logger who had lived in Crowsnest Pass area until the past few years when he moved to Cranbrook and worked as logger and millman, most recently in the Gold Creek area.

He is survived by his mother and brother here. Mrs. Fraser came from England to Canada and Cranbrook last year with her two children and was on the staff of the Selkirk-soft drinks plant. Her husband was killed two years ago in a motorcycle accident in England.

To Try to Form Morocco Gov't

RABAT, Morocco, (Reuters) — Moderate nationalist leader Si Hadj Fatmi Ben Slimane agreed Saturday to try to form French Morocco's first representative government after accepting the offer "in principle" from the four-man throne council.

Ben Slimane's acceptance was another step in the "new deal" reform program of French Premier Edgar Faure for the troubled North African potectorate. It will lead to eventual home rule.

ROYAL SISTERS CHAT TOGETHER

WINDSOR, England (Reuters)—Queen Elizabeth and Princess Margaret Sunday held their first sister-to-sister chat since the Princess was reunited with Group Capt. Peter Townsend 11 days ago.

They met in Windsor Castle and presumably discussed the recent meetings between the Princess and the 41-year-old divorced air attache.

Burns Protests Border Raid

JERUSALEM (Reuters) — Maj.-Gen. E.L.M. Burns Sunday condemned Israel for kidnapping five Syrians in a "well-planned" lightning border raid Saturday night.

Then the Canadian chief of the United Nations Palestine Truce Commission left for New York by plane to report to the UN on the Israel-Arab border situation. He will stop in Damascus for talks with Syrian officials on the raid.

Gen. Burns said the new clash tragically illustrated the UN Security Council's condemnation of "a policy of retaliation."

A communique from Gen. Burns' headquarters said bloodstains were found leading from the scene of the attack to the Israel border. Syria claimed one officer was killed in the raid.

UN investigation showed at least two Israeli platoons took part in the operation in which three Syrian military vehicles were burned.

In Damascus it was reported that Syrian reinforcements were sent to the Israeli border after the raid. Syria also asked the UN to intercede on behalf of the Syrians held by Israel.

SEEK BABE'S MOTHER

VANCOUVER (CP) — Officials at Vancouver General Hospital said Sunday they were trying to locate the mother of a premature baby left in the hospital's care since it was born Sept. 22. A spokesman said the woman was discharged about a week later but no one has made inquiries about the child since.

Saar Vote Shows Desire For Reunion With Germany

By BRACK CURRY

SAARBRUECKEN, Saar (AP) — Saarlanders overwhelmingly voted "no" to Europeanization Sunday. They hoped through this for release from French economic control and for early reunion with Germany.

Incomplete returns Sunday night in the plebiscite on the statute to put this rich, German-speaking frontier state under neutral control of the Western European Union while maintaining its customs and currency union with France showed:

89,621 voted "yes."
186,208 voted "no."

The landslide of pro-German votes ranged from about 70 percent or more in rural villages to 60 percent in industrial towns where pro-French premier Johannes Hoffmann's administration had been solidly entrenched since 1947.

Ninety-six per cent of the 644,000 eligible voters went to the polls in crisp, clear weather following a turbulent campaign.

NO DISORDER

Three pro-German parties and the Communists opposed the statute, while two parties led by premier Hoffmann supported it. West German chancellor Konrad Adenauer had urged approval of the Europeanization plan, which he worked out with the French.

Despite the bitter campaign, in which 41 persons were injured in rioting in August and September, the plebiscite went off without disorder.

The sale of alcohol was forbidden, but bars Sunday night were crowded with happy Saarlanders celebrating "a victory for Germany." They toasted the outcome with lemonade and mineral water.

Adenauer, their idol, signed the Europeanization draft in return for French agreement to West German sovereignty and membership in the NATO alliance.

He urged Saarlanders to approve the statute so as to assure French support for reunification of Germany.

PREDICT NEGOTIATION

But the Saarlanders heeded the slogans of pro-German parties that Germany's reunification should start in the Saar.

The Europeanization statute's defeat came almost on the eve of the Geneva Big Four conference of foreign ministers.

Advocates of the statute have repeatedly stressed that the Saarlanders would revert to French domination over both their politics and economy if the statute lost.

But pro-German forces have predicted that "German patriotism" in the Saar will compel the French to reopen negotiations over future treatment of the territory.

Premier Hoffmann summoned his cabinet to an emergency meeting. Informed sources said he was considering the possibility of submitting his resignation.

Isolated from the rest of the world by closed frontiers, Saarlanders trooped to the polls under the watchfull eye of 1005 neutral observers sent in by the seven-power WEU.

The borders of this 991-square-mile territory-squeezed between France and Germany — were sealed tight Saturday to keep agitators from infiltrating to upset the plebiscite.

Rogers To Be Honorary Canon . . .

New Trail Church Dedicated by Bishop

TRAIL — The new St. Andrew's Anglican Church was officially opened and dedicated Sunday by the Rt. Rev. P. R. Beattie, Bishop of Kootenay, with morning and evening services.

The Bishop, in his sermon, told the congregation that the building of the new church "is a victory not only for those at this parish, but for the whole diocese of the Kootenay.

He said the new church is primarily a result of 10 years of spiritual leadership by Rev. Jack Rogers and is a "pleasant consummation of his hopes and labors. He told those assembled that Mr. Rogers is being made an honorary canon of the diocese of the Kootenay.

"We offer this beautiful and useful building to God for His high purpose," said the Bishop. "I do not think I have ever seen such a building, which combines so well what is traditional and what is modern and fundamental, as this one does."

For a job well done he praised the architects. The $140,000 edifice with high peaked roof is a combination of traditional church design and modern treatment blended into one effect of simple reverence. Paul Smith of Trail was the architect.

Ike on His Feet

DENVER (AP) — President Eisenhower was well enough Sunday to stand upright unaided and step onto a pair of scales. They showed he had dropped four pounds in the month he has been in the hospital since a heart attack.

Eisenhower also made public a letter read to his cabinet in Washington Friday which put in writing authority for State Secretary Dulles to speak for him and the United States at the forthcoming Geneva foreign ministers conference.

Successful Big 4 Conference May Mean Another Meet in Spring

PARIS (AP) — Foreign Secretary Harold Macmillan of Britain said Sunday that if progress is made at Geneva this week toward easing international tensions there may be another meeting of the Big Four foreign ministers in the spring.

Macmillan made the comment to reporters before taking off for Paris from London. He came here for meetings with the North Atlantic Treaty Council and with U. S. State Secretary John Foster Dulles and French Foreign Minister Antoine Pinay.

Macmillan, who will represent Britain at the Big Four foreign ministers conference starting in Geneva Thursday with Soviet Foreign Minister Molotov, was asked what might be the next step if Geneva produced some progress. He replied: "Another Geneva—perhaps in the spring."

He said he thought the coming Geneva discussions might last three or four weeks and added that he regards German reunification and European security as highly important questions confronting the foreign ministers.

"The two are bound up together," he said, "and if we could only make progress on German unification and European security we should have a good basis for discussions of disarmament."

BOOM OPENS HUGE URANIUM MINE

URANIUM CITY, Sask. (CP) — The "boom" of the explosion of three tons of dynamite was not particularly loud nor was the concussion great.

Yet it moved 15,000 ton of rock and Gunnar's uranium mine, world's largest open-pit operation, officially was in production.

Prosaically, in workaday fashion, huge dump trucks moved into the pit minutes after the blast to resume the endless task of hauling the ore to the crushing plant on the hill. Three years and three months after two prospectors recorded what they laconically termed "widespread radioactivity," one of the world's richest uranium mines was open for business. Its ore grades about $40 a ton.

PAUSE FOR CENSUS

ISTANBUL (AP) — Life came to a dead stop in Turkey Saturday to allow a national census. Not a person stirred from his home or hotel except a legion of census takers and a few officials and doctors carrying special passes. Only international expresses and airliners were exempted from orders stopping trains, planes, boats, buses and cars.

Discourages Talk On Heart Trouble

QUEBEC (CP) — Dr. Lewis DeWitt Wilcox, a senior associate in the department of medicine at the University of Western Ontario London, suggested here Saturday that feature articles on heart disease in the lay press should be discouraged.

He said, the concern about the coronary circulation has increased a thousand-fold and now "everyone seems unhappily aware of the proximity and even the possibility of the coronary fate."

HISTORIC OCCASION was meeting of British Columbia cabinet in Nelson's Chamber of Commerce board room Saturday morning. It was the cabinet's third meeting outside of the capital city of Victoria, the first two being held at Kelowna and Kamloops Thursday. The members were entertained at a civic luncheon at noon, took part in ground-breaking ceremonies at the West Arm bridge site, and were honored at a public banquet at the Civic Centre in the evening. From left, Hon. Ray Williston, minister of education; Hon. R. E. Sommers, minister of lands and forests, and of mines; Hon. Lyle Wicks, minister of labor; Hon. P. A. Gaglardi, minister of highways; Hon. Eric C. Martin, minister of health and welfare; Hon. W. K. Kiernan, minister of agriculture; Mayor Joseph Kary, Premier W. A. C. Bennett, and Hon. Wesley D. Black, provincial secretary and minister of municipal affairs. Upper right, Mayor Kary turns over the gavel to the premier after giving his address of welcome.

And In This Corner . . .

LOS ANGELES (AP) — Officer Ray Fisher cited a motorists Saturday on a charge of driving through a red light.

The 59-year-old motorist's name was Safety First.

LIVERPOOL, Eng. (AP) — Britain has a nominee for the Tarzan of the future — four-year-old Tony Convey.

Unable to open his bedroom door. Tony crawled out the window, slid down a 14-foot gutter pipe, climbed a wall and four fences and walked across a field to a friend's house.

Wearing only his pajama top the strong boy said:

"I couldn't open the door, so I climbed out the window."

BROCKTON, Mass. (AP) — Alfonzo had the biggest doggone hangover in town Saturday.

The 70-pound canine is in the dog house after making a spectacle of himself Friday night during a trot of the local pubs. Friendly patrons helped him to his favorite beer and Alfonzo didn't know when to stop.

Thirst quenched, the boxer tried to wander alone down one of Brockton's main streets. In obvious distress, he wobbled, weaved, stopped, leaned against a pole for support and finally collapsed.

The dog's owner, Harry Alphonse, explained that people like Alfonzo and Alfonzo likes beer. They all usually get along fine.

PRATT, Kas. (AP) — Bill Murray, an ex-army paratrooper was dreaming of his war experiences Friday night — and he's displaying a battle scar to prove it.

Murray told friends he was dreaming of being in a plane ready to jump. The warning light was on and he was standing by the door with his chute hooked to the jump line. Just at that time the telephone by his bedside rang.

To the dreaming Murray the phone was the jump buzzer. He "jumped." Standing up in bed, he bounded across his sleeping wife and smashed into the bedroom wall. He broke his nose.

OF ROSSLAND DIES ON TRIP

ROSSLAND — John Henry Wilmott, resident of Rossland since 1909, died on a trip to Calgary Friday in his 70th year.

Born April 28, 1886, in Nottingham, England, he came to Rossland in 1909, and retired from the Consolidated Mining and Smelting Company five years ago. His wife, Ann, predeceased him October 11, 1941.

He has one daughter, Mrs. J. A. E. Robertson in Kimberley, one brother Alfred in Calgary and another brother, Enoch in England.

He was a member of Corinthian lodge AF and AM in Rossland, and was also a member of the Eagle aerie here.

Mr. Wilmott lived at the Allan Hotel, and was on a visit to Calgary when he became ill a week ago.

Sorghum, one of India's great staple foods, provides bread, porridge and livestick feed.

Must Never Become Mass Thinkers . . .

Students Urged by Minister To Prepare To Serve Changing B.C.

"Let us never develop a people who wil lthink and act in a certain way because it is the thing to do" Hon. R. G. Williston urged at a civic luncheon here Saturday. Speaking directly to members of Nelson school cabinets, who were guests with the provincial cabinet at the affair, he advised "you are going into a world different from any your dad and mum ever knew You are going with a British Columbia that has the greatest future of anywhere in the world . you must prepare yourselves to do a specific service for your fellows and to do a job in this expanding B.C."

Ald. Arthur Foster in thanking the minister of education for his talk spoke of his words as "a challenge to us all, the students and the adults."

The young minister, who has been teacher, principal and school inspector, spoke before a gathering of civic leaders, fellow members of the provincial cabinet and student representatives. The luncheon was given by the City of Nelson to honor the members of the provincial cabinet who Saturday morning held the first cabinet session ever convened here and the third outside the provincial capital.

Mr. Williston referred to the students and the province's people generally as British Columbia's greatest resource. Without people to learn the job of representative government and how to make it work then "all out resources in mines, forests and otherwise go for naught."

CRITICISM IS STRENGTH

Strength of democracy was in fact that "not all people think you are right all the time. It is the strength of our form of government that we are subject to question all the time."

If it was otherwise, because all had been taught to think and act in a pattern, there would be tragedy. But as long as there was singularity of thinking instead of mass thinking, wrongs will be righted and the population generally can support or not support as they willed a government in power.

He recited the history of Hitler and Juan Peron regimes as examples of what happened when people weren't thinking singly but as part of the mass mind. "God help us if that kind of thing ever develops in British Columbia."

Literature for Red China schools had been received in his office, he said. "If we put that kind of thing into our schools our young people would throw it out. It is designed for the non-thinking. Let us never develop people who will think and act in a certain way because it is the thing to do."

PREPARE SELVES

The speaker pictured a British Columbia of the future in a golden era. "We must have the people to harness our potential for the use of us all," he tol dthe students. Service to others was the greatest task that could be set before them, he declared, and he urged that they prepare themselves to carry it out. In this trmendously changing and growing sphere "professional people must give enough of their time to learn how to do the things required by these changes well. The job of the education department was to help students prepare themselves for this new job in circumstances so vastly different from those their parents had known. "It is our job to get you ready for the places you will be called on to accept so that you can live life one step ahead."

An assistance program had been developed by his department and approved by the cabinet just for this task.

Mayor Joseph Kary extended the city's welcome to those who were his council's guests. He referred to the cabinet's presence as creating a unique occasion, "a red letter day for our community."

Two delightful vocal solos were sung by Carol Coventry, daughter of Ald. and Mrs. J. H. Coventry Mrs. T. J. S. Ferguson was accompanist.

Following the luncheon the students' representatives were introduced to the cabinet by J. C. Loomer. All ministers, the provincial prime minister particularly talked interestedly with the students. Questions on their representative forms of school government were asked and comments exchanged in an informal period.

Representatives of school cabinets attending were Maurice Corbett, prime minister, Maurice VanSacker, Doreen Evans, Muriel Elmes, Joan McRory, Dinham Drew, Bill Gibbon, Dorothy Foster, speaker of the high school; Fred Facca, Notre Dame College student council president; and Andrew Zielinski, St. Joseph's Academy council president.

Members of the provincial cabinet attending were Premier Bennet, Hon. R. E. Sommers, Hon. Kenneth Kiernan, Hon. Eric Martin, Hon. R. G. Williston, Hon. W D. Black, Hon. P. A. Gaglardi, and Hon. Lyle Wicks.

Other guests at the head table were A. B. Sanderson, West Arm bridge designer, George Poole of the Poole Engineering Company, and George Mermet, School District No. 7 board chairman.

Jeffrey, Adams Spark Leafs to 7-2 Victory

WIHL STANDINGS

	W	L	T	F	A	Pt
Nelson	3	1	0	20	14	6
Kimberley	2	1	0	18	14	4
Trail	2	2	0	18	21	4
Spokane	1	4	0	21	28	2

SPOKANE (AP)—The Nelson Maple Leafs opened up a two-goal edge in the first two periods and went on to beat the Spokane Flyers 7-2 in a Western International Hockey League game Saturday.

The Leafs went all out in the third period, shooting in four goals and holding the Flyers to two. Some spectacular goal tending by Nelson's Gus Adams kept a flurry of Spokane pucks out of the net as the two teams scramblad next to the goal.

Herb Jeffrey, Nelson centre, scored three goals as he swished in counters in each period.

The Flyers, fighting to come back in that last period, threatened once as rookie right-winger Dave Gordichuck shot two goals within five-minutes of each other.

(Editors note: Communication difficulties delayed the report of the Nelson-Spokane hockey game until after midnight Sunday. Summary of goals could not be obtained).

50 Delegates Of Six Ridings At CCF Meeting

CRESTON — Over 50 CCF delegates from six provincial ridings in the Kootenays met in a two-day policy and organizational conference here Saturday and Sunday.

H. W. Herridge, MP for Kootenay West, was chairman. Arnold Webster, MLA, the party's provincial leader; Arthur Turner, MLA; Harold Thayer, provincial secretary, and Ron Riley, field organizer, came from Vancouver to lead the discussions and listen to the view of conference delegates on policy matters of local interest.

A highlight was the visit of M. J. Coldwell, CCF national leader, who was in Creston to address a public meeting.

An overflow crowd Saturday night of 150 sat down to a turkey dinner in Holy Cross hall. Mrs. H. Wightman was banquet convener.

Joe Wylie, president of the Creston CCF club, was banquet chairman, and Rev. Father E. Doyle gave the blessing.

The official welcome to delegates was extended by Dr. W. N. Fraser, chairman of the Village Commission.

Arnold Webster, delivering the main address, dealt with some of the features of the CCF program. He expressed concern over the recent dominion-provincial conference, saying how much the public had been led to believe that important results would be forthcoming. He said few results had been attained. He also said that the conference should have dealt with federal aid for education, international water power and its control, national health plan, sharing of taxes, and a clearer definition of the jurisdiction of municipal, provincial and federal governments.

Provincial secretary Harold Thayer reported an over 150 per cent increase in CCF membership in the six provincial ridings.

Delegates discussed plans for increasing the party's membership and a financial drive as part of the CCF program for action.

Arthur Turner outlined plans for educational discussion groups. Two series of six pamphlets each are available under the headings "Understanding the CCF" and "Understanding Our Economy."

Local issues considered ranged from the development of power on the Columbia under public ownership, forestry, fruit marketting, roads, hospital insurance and bridges. The recommendations of the delegates will be considered by the CCF provincial executive and the CCF caucus in arriving at policy for the coming session of the Legislature.

McGill Honors Archdeacon

TRAIL — Dean David L. Thompson, vice-principal and Dean of the Faculty of Graduate Studies and research of McGill University, presented Ven. Archdeacon F. H. Graham with an honorary life membership in the McGill Graduate society at a meeting of the society here Friday.

Archdeacon Graham obtained his B.A. at McGill in 1894 where he graduated as a first Galt gold medalist. He then went on to get his Licentiate of Theology at Diosesan college.

He came to B.C. in 1902 as rector of St. Saviors Pro-Cathadral in Nelson. In 1921 he became the Kootenay's second archdeacon. He retired in 1940 but has been called upon many times since then to take services and preach within the diocese.

Third Man Picked Up

FORT MACLEOD, Alta. (CP)—An 18-hour search for a man wanted in connection with a breakin at this town 36 miles west of Lethbridge ended Friday night when the man was picked up while hitchhiking.

Two other youths were charged with the break-in earlier and the three are being questioned in connection with a recent break-in at the Nelson, B.C. post office, RCMP said Saturday.

RCMP, acting on a tip from a truck driver, arrested Gordon W. Erickson, 20, and Harry J. Hill, 17, both of New Westminster, shortly after three men were seen leaving a transport garage.

Erickson and Hill were charged with breaking and entering and were remanded without plea for one week when they appeared in court Friday.

BAIT WORKED

FAVERSHAM, England (CP) — Trans baited with nuts were used to catch a small ape that escaped from a zoo in this Kent district.

Nelson Hub of Great Production Cabinet Told

Mayor Joseph Kary told Premier W.A.C. Bennett and his cabinet ministers about Nelson, its resources and its position in the Kootenay as he welcomed them to the city prior to their cabinet meeting Saturday morning.

The city's prominence rests on the economy of the Kootenay, he explained "an area that yearly turns out a product the value of which is in excess of $100 million."

"For this region of tremendous production in forest, mineral, agricultural and manufacturing wealth, Nelson does the banking, the distributing, the administering, the servicing," he explained.

Mayor Kary considered the cabinet meeting in the city as "unique and historical" and hoped it would not be the "last such occasion in Nelson."

He told the cabinet he felt there is a "real service being done when the government is brought so close to the people," as he turned the council chambers, located in the Chamber of Commerce building, over to them for their meeting.

The meeting was the third held outside the capital. One was held at Kelowna and another at Kamloops Thursday.

Pend d'Oreille Resident Dies

TRAIL — Edgar Hayward died suddenly at the Trail-Tadanac Hospital Friday morning in his 68th year.

Born in Longburton, England, he emigrated to Canada 40 years ago and was a stone mason and brick layer. He was bachelor, and had lived for the last 30 years in the Pend d'Oreille. He had been working in Fruitvale recently.

There is one nephew, Borden Hayward in Campbell River, and sister Mrs. Nora Y. Cross of Victoria and Mrs. Cuff of Lethbridge

Private funeral service was held Saturday evening in Clark's Funeral Chapel, Rev. James Young officiating. Cremation followed, and the ashes will be scattered in the Pend d'Oreille valley. His nephew and his wife attended the service. Mrs. Florence Carrivau, Pauline McGibbon and Mrs. R. Hebbird came from Vancouver.

District Nurses Pass Exams

Names of nearly 20 Kootenay and Boundary nurses are included in Registered Nurses Association of B.C. results released Saturday.

Those successful in examinations from this part of the province are:

Ellen Whalley, Fernie; Beverley Leech and Irma Lucille Maartman, Kimberley; Marjorie Shertobetoff, Lister; Beverley Ann E. Allan and Edith Odessa E. Clark, Creston; Muriel Jeanne Chambers, Barbara Fay Hufty, Joyce Elizabeth Turner and Jacqueline Dawn Miller, now Mrs. Rodger Nelson of Vancouver, of Nelson; Doris Greavision, South Slocan; Patricia E. Chaplin, Sadie Melenka, Celeste Desira Quaglia and Jeannette Frances Rusko, Trail; Margaret Catherine Williams, Castlegar, and Dorothy Mae Berry, Katherine Irene Hanson and Betty Diane Gordon, Rossland.

SEA CADETS TO BE INSPECTED

Area officer Lieut. Commander D. Tye of HMCS Discovery will be in Nelson tonight to inspect the Hampton Gray VC sea cadet corps.

It is the first visit to Nelson of the officer since Fall training has been under way. There are 39 sea cadets in the Nelson corps.

B.C. To Push Highway Work To Match Province Growth—Bennett

Five trans-provincial highways are the key to the opening up of vast development in B.C. and the provincial government plans to push them to completion as soon as possible Premier W. A. C. Bennett told a civic reception at the Civic Centre Saturday night.

He enumerated the highways as 1, the Trans-Canada Highway; 2, Northern Trans-Provincial Highway; 3, Peace River Highway; 4, Yellowhead Highway; 5, Southern Trans-Provincial Highway.

A total of $60 million will be spent on new highways next year, the premier said, three times that spent this year.

In an hour-long address to 350 persons, the Premier spoke with optimism and pride of B. C.'s future. He enumerated its resources, the number of new enterprises already under construction and those planned, of the interest foreign investments are showing in the province and the great untouched potentiality of northern B. C., which he felt was on the verge of vast expansion.

He compared B. C.'s future development to that of California a few years ago and envisioned the coming years as "the golden years of B. C."

He termed the West Arm bridge where he took part in ground-breaking ceremonies in the afternoon as "an important link in the Southern Trans-Provincial highway" and went on to outline an extensive read construction program designed to open up all of B. C.

CASCADE CONTRACTS

"If contracts are not already called they will be called this week on one of the Cascade sections of the Southern Trans-Provincial Highway' he said. Contract for another end will be called this Fall if the weather permits, or in the Spring, and the contract for the centre portion in the Spring, he said. "We want that highway finished at the earliest possible moment."

Creston-Salmo cutoff construction will start in 1956, the Premier revealed, "for it is an important highway as well."

"We also want the Trans-Canada completed. An enormous amount of contracts will be let on it next year,".

"This coming year the government will authorize enough money to build three times as much highways as last year.

'We intend to do as much on the trans-Canada highway as the other nine provinces put together," he added.

He spoke of the bridges the government will build and the government's dislike of tolls.

There are seven large bridges needed in B.C. including the First Narrows Bridge as well as many smaller bridges," he said. The small half-million bridges will be toll free, he said. The big bridges that amount to many millions of dollars will have tolls.

"These seven bridges," Premier Bennett said, amount to more in dollars than all the bridges built since the confederation of Canada.

The bridges would become free even before tolls paid for them, the premier revealed, for revenue from gas and oil resources will help pay for them

He described B.C. as "being discovered" then enumerated the foreign investors and industrialists who had visited his Victoria office recently — from France, Yugoslavia, Hugary, Holland and Belgium, as many as three in one day. "In fact I feel the only people who perhaps haven't found B.C. is Ottawa," the Premier quipped.

NO NET DEBT

As minister of finance the premier outlined the province's financial status "so the people will know we're not running the province into great debt as we progress."

"Your debt is $63 million less than three years ago and will be reduced by another $15 million in the coming year." In 1962 he said "there would be no net debt."

He expected the Pacific Great Eastern Railway, which the government is extending, will return a half million dollar profit this year and when completed would open up the Peace River area, diverting much of the trade from Alberta to B.C.

Premier Bennett was introduced by Hon. Wesley D. Black, MLA for Nelson-Creston, and thanked by P. H. Hoskins, vice-president of Nelson Chamber of Commerce.

WAITED 45 YEARS

Mayor Joseph Kary welcomed the cabinet and public to the banquet, expressing hope the cabinet would return in the near future. He recounted briefly the bridge history, saying "for 45 years we've been waiting and waiting for what has happened today and nothing could have thrilled me more than to see the start of construction across the West Arm."

Most Rev. T. J. McCarthy, D.D. Bishop of Nelson said grace and W. T. Waldie, president of the Associated Boards of Trade and Chambers of Commerce of South eastern B.C., toasted the queen.

V. C. Owen, Nelson Chamber of Commerce president was master of ceremonies at the reception which was under the auspices of the Nelson chamber.

Black Made Freeman; Mayor Gets New Hat

Hon. Wesley D. Black, provincial secretary and minister of municipal affairs, was made a "freeman" of Nelson at a civic reception for Premier W.A.C. Bennett and his cabinet Saturday night.

At the same time, Mayor Joseph Kary received a new hat from the provincial government after tossing his into a West Arm bridge footing as it was being poured during ground-breaking ceremonies in the afternoon.

Mayor Kary presented Mr. Black with a citation making him a "freeman, as a token of our apreciation of the service he has rendered our city and district."

He was made a "freeman" at a special city council meeting at 11:45 a.m. Saturday. Last time the city bestowed the honor was in 1947 when all living past mayors were made "freemen" during jubilee year.

Hon. P. A. Gaglardi, Minister of Highways, presented Mayor Kary with the hat saying it was the first time in the history of the government this had happened." In presenting it, he said "We as a government couldn't stand to see the mayor of your city catch a cold." He said the bridge would be "forever known as the bridge that goes over the mayor's hat."

30 Attend Tea Honoring Ministers' Wives

Between 25 and 30 attended a tea held at the home of Mrs. L. Hanic on the North Shore Saturday afternoon in honor of two cabinet ministers' wives.

Guests of honor were Mrs. W. K. Kiernan, wife of minister of agriculture and Mrs. Lyle Wicks, wife of the minister of labor.

Mrs. V. C. Owen and Mrs. Joseph Kary poured tea and Mrs. W. J. Van Maarion received the guests.

Mrs. Hanic is president of the Women's Auxiliary to the Nelson Social Credit organization.

Couple Return From Coast Trip

Mr. and Mrs. S. E. Briard, 919 Third Street, have returned from a two weeks' holiday to the coast during which Mr. Briard attended the Hospital Auxiliaries' convention in Vancouver, as the delegate from Nelson Hospital Auxiliary.

Mr. and Mrs. Briard also visited Spokane, Seattle and Okanagan points, Mr. Briard visiting brothers and sisters in the Okanagan and enjoying pheasant hunting.

Fast Time To Go to Plebiscite at Kaslo

KASLO — Kaslo City Council has decided to hold a plebiscite on Mountain Standard Time at the coming civic elections.

The action was taken upon receipt of a letter from the Kaslo Board of Trade stating that the Associated Boards would like municipal authorities in West Kootenay to hold plebiscites. Kaslo Council had previously gone on record as favoring advanced time.

Resignation of Louis Shutty, city electrician, was accepted with regret. Johannes Schultz, who waited upon Council and produced records showing four years apprenticeship as electrician in Denmark, two years as journeyman and three years in university, was engaged as assistant to the electrician for 30 days on probation.

Regarding flood damage, word was received that the highways minister stated he had no authority to make a grant to the city for rehabilitation.

C. C M. Halleran appeared before Council on behalf of a group of young people to ask for use of the hatchery building on free nights for get-togethers. Council decided that the Kaslo Recreation Association should be asked to sponsor the new club.

Broadwater Woman Represents School

DEER PARK — Mrs. Joan Mackereth of Broadwater was named representative for Deer Park-Broadwater school, at the annual attendance meeting held here recently.

C. H. King, secretary-treasurer of the school district, opened the meeting. The trustees' annual report was read by the chairman, after which Mr. King read the financial report. B. H. Harford, school inspector, was introduced and gave a brief talk. Mrs. W. Jacobson of Kinnaird and J. D. Smith, both members of the school board, were also introduced.

Deer Park Group Drafts Resolutions

DEER PARK — Members of the Farmers Institute met at the home of Romaine to draw up several resolutions which are to be presented at the annual meeting in Nelson next month.

A. Mackereth, R. Briggeman and P. Romaine were named as delegates to attand the Nelson meeting.

WINDERMERE TRADE BOARD ELECTS OULTON

INVERMERE — L. S. Oulton of Windermere was elected president of the Windermere District Board of Trade at the annual meeting. Vice-president is Heintz Seel of Edgewater and treasurer, W. H. Lloyd of Invermere. All three were elected by acclamation. The office of secretary is by appointment.

The executive committee includes Gilbert Cartwright, Canal Flat; Miss Alice Curtis, Invermere; Earle Gray, Invermere; Chris Madson, Radium Hot Springs; O. T. Phillips, Windermere; H. H. Moore, Edgewater; Rudy Hecher, Invermere and E. E. Trethewey, Windermere.

Retiring president W. Roy Lake also serves on the executive. The new officers take over January 1.

The Windermere District Board will be host in April, 1956, to the annual meeting of the Associated Boards of Trade and Chambers of Commerce of Southeastern British Columbia.

Reporting on 1955 activity Roy Lake, retiring president, said prosperity in the Windermere District has reached a high level. Completion of the B.C. Power Commission Spillimacheen hydro development was the largest project, reconstruction of Highway 95 is assured through the co-operation of the Department of Highways and other Boards of Trade in East Kootenay; the valley is in the midst of a building boom; new businesses have opened and the population has increased.

First Dentist At Cranbrook, Dr. Miles Dies

CRANBROOK — Dental practioner at Cranbrook for more than a half century, Dr. Frank Bruce Miles died at St. Eugene Hospital Saturday morning at the age of 73.

He was born April 22, 1882, at Upper Maucerville, N.B., where he grew up, and following attendance at Fredericton schools enrolled at Tufts University in Boston. He received his degree in dentistry there in 1903 and the following year came to British Columbia, passed his provincial council examination and in June, 1904, opened the area's first practice which he continued until April of this year, except for five months' illness in 1948.

During the second World War years he was the only dentist serving Cranbrook-Kimberley. He was a member of the B.C. Dental Association.

IN COMMUNITY WORK

He took an active part in city affairs from Cranbrook's earliest days. He was a charter member of rotary and currently honorary member, worker in the board of trade and active politically in the Liberal Association.

He was also a member of lodge No. 34,AF and AM Rockie Mountain Lodge and Selkirk Preceptory.

Surviving him are his wife, three daughters, Mrs. M. M. Pennington and Miss Nancy Miles in Cranbrook, and Mrs. D. M. Munro and seven grandchildren at Ste. Anne de Bellevue, Quebec; a brother. George Miles, at Maucerville, and a sister, Miss Kate Miles at Sutton West, Ont.

Funeral will be held Tuesday at Christ Church.

TRANSPORT FOR PROCTER CADETS IS PLANNED

PROCTER —Parents of Procter's six Sea Cadets gathered at the home of Mr. and Mrs. A. J. Garner to arrange a systematic means of weekly transportation to Nelson.

Also present were Rev. Father R. D. Anderson and Lieutenant Peter Marken of HMCS Hampton Gray VC and Norman Brown, who represented J. James, president of the Nelson branch of the Navy League of Canada.

N. C. MacLeod was elected president of the group of parents, Alec Maclean vice-president, and Mrs. MacLeod, secretary-treasurer. Their duties will include a canvass of the West Arm from Procter and Balfour to Nelson to comprise a list of boys and girls who will join the Sea or Air Cadets if a bus is approved. If 20 cadets are enrolled a bus will be provided and the cost distributed. The more who use it the less will be the individual cost. Interested persons are urged to contact any members of this committee. Parents here have been taking the boys into parades by car and squeezing in additional Air Cadets along the way.

Father Anderson and Lieut. Marken spoke on the training. discipline and opportunities afforded the Sea Cadets and pointed out that the Hampton Gray VC rates among the best in Canada. All instructors with the exception of Father Anderson, are ex-navy personnel. Proof of the high standard of instruction and the keen interest of the boys is the showing made by PO. Larry Fournier and PO. Maurice Van Sacker at the summer courses at HMCS Cornwallis and HMCS Shearwater, respectively. Ten cadets who went to Comox also did very well.

The Captain's trophy awarded to the best all-around ordinary cadet last May was won by John MacLeod of Procter and the runner-up was also a Procter boy.

Lieut. Marken went on to explain the relationship between the Sea Cadet Corps, the RCN and the Navy League. Uniforms and equipment are supplied by the Navy but the Navy League is responsible for shortages in stores and supplies. Mr. Brown spoke briefly on the work of the Navy League and all three men invited the parents to attend a parade now and then and especially annual inspection to see for themselves the benefits open to the Cadets.

CCF Leader Calls for National Forest Plan

CRESTON—A federal-provincial conference to implement a national forest conservation program was urged by CCF Leader Coldwell.

Canada's forest wealth is in jeopardy because of wasteful utilization and fire, he said in an address prepared for delivery at a public meeting.

His remarks were contained in a partial text of his speech issued to the press in advance of delivery.

Mr. Coldwell said a federal-provincial conference is essential. Any program should be under provincial jurisdiction, but initiative, coordination and financial aid could come from the federal government.

FAVORS BOARD

"The CCF," he said, "favors the establishment of a national forestry board with representatives of both federal and provincial governments to achieve greater coordination of forest policies." Also there should be federal grants-in-aid.

"Yet the Liberal government at Ottawa has declined again and again to take even the initial step," Mr. Coldwell said.

"It is content to depend upon the vastness of Canada's resources to make a proper conservation program necessary."

He said that "a point of great concern" is that in B. C. as in other provinces "it has not always been clear to what extent these resources have been alienated by provincial governments on the basis of political patronage."

"It is clear at any rate," he added, "that where powerful economic interests backing a political party are able to get special favors at the expense of the community, the end result will be a continuation of the vicious exploitive practices that have done so much to destroy and deplete the vast resources of this land."

Nuttall Resigns Fruitvale Post

FRUITVALE — Commissioner Jack Nuttall handed in his resignation at the last Commission meeting, citing business reasons. The vacancy will be filled on election day December 8.

He gave his final report onstreet lights, stating that all but a few had been installed, and these would be in before the first snow.

Commissioner Otto Schewe reported that reconstruction of the road running parallel to the Great Northern railway from highway 3A was nearly finished. He also reported that in his survey of village roads and lanes he had discovered that several residents along the lane behind Fruitvale Hotel had been dumping ashes into the lane. This practice in future will bring prosecution for offenders, as ashes must be placed in containers for collection by the garbage truck.

Violators of building permits bylaw also received warning that they will be prosecuted without warning if found making alternations or repairs or doing new building without permits.

In response to complaints, the Commission decided to write to the school board asking why pupils were forced to stay outside during school recess, noon hour and after school while waiting for buses, in all types of weather. They create a traffic hazard, it was stated.

REALLY APPRECIATED

STANMORE, England (CP) — Rev. E. H. Loasby, rector of St. John's Church in this Middlesex village, received an anonymous donation of £10 as "a thankful offering for a beautiful summer."

Fernie Man East Kootenay Teachers' Head

CRANBROOK — Norman Gill of Fernie has been elected new president of the East Kootenay Teachers' Association, with Miss Alice Curtis of Invermere vice-president and A. G. Robertson of Creston secretary-treasurer. Past president is Miss Muriel Baxter of Cranbrook who is also geographical representative for East Kootenay on the provincial council of the B.C. Teachers' Federation.

Several resolutions dealing with curriculum changes were endorsed including recognition of the fine arts course in drama as a five-unit credit, instruction in slide rule computation and permission for mathematics and science students to use the slide rule in final examinations, and centralization of mimeograph material and school aids in a school district for rural schools' use.

Special speaker at the Association' annual meeting was B.C. Teachers' Federation general provincial secretary C. D. Ovans of Vancouver who outlined the working relationship between the organization and the Department of Education.

Visiting experts leading sectional discussion groups were Miss Elsie Roy, Vancouver primary schools supervisor on primary arithmetic, and Miss Jean Bailey, Burnaby schools intermediate supervisor on upper elementary school language arts.

Attending the meeting and annual convention of which W. L. Irvine was chairman were 285 teachers from Golden, Windermere, Fernie, Michel-Natal, Creston, Kimberley and Cranbrook School Districts.

WINDERMERE MAKES MOVE . . .

Thompson Fete in Planning

INVERMERE — Initial plans for the David Thompson centennial celebration in 1957 are being laid in the Windermere District, but will be tentative until they can be co-ordinated with plans made by other areas concerned in the celebration.

Plans to date include an essay contest among school children; a postcard map for tourists marking the historical site of the district; a pageant depicting scenes from the life of the great explorer; a display of historical mementos and a possible canoe trip down the Columbia River following the trip made by David Thompson.

Localu Indians will be asked to participate in the program. Committee members are O. T. Phillips, Windermere; Mrs. T. N. Weir, Invermere; Earle Gray, Invermere; William Davidson, Invermere and Dominic Nicholas of Columbia Lake.

HOTEL SOLD AT CRANBROOK

CRANBROOK — Cristall Hotels Ltd. has bought the York Hotel here and Norman Cristall has taken over its management from Mr. and Mrs. Henry Mazur, who bought it a year ago.

Mr. and Mrs. Cristall have arrived here from Vancouver to make their new home. They are former operators of the Prince George Hotel, and Mr. Cristall has been a member of the Rotary Club there.

Various Ideas Brought Forward at Parent-Teacher Meet at Kimberley

KIMBERLEY — The interior's most active branch of the Parent-Teacher Federation, Kimberley PTA, was host to the tenth annual Eastern border conference of the combined British Columbia Federation and the Washington Congress of Parents and Teachers. The meeting is held alternately in the two areas and came to East Kootenay for the first time this year.

Keynote address for the meeting opened the morning session given by Mrs. M. C. Pennington, girls' counsellor at Mount Baker High School in Cranbrook, and this was followed by an international exchange of experience in organization work in a discussion by Mrs. A. H. Young, president of the provincial organization and Mrs. W. K. Ostenss vice-president of the Washington conference with Mrs. J. S. McRae of Kimberley chairman.

School Inspector J. G. Kirk of Kimberley district spoke at the noon session on "Education is Everybody's Business."

Afternoon program was a film "Lessons in Living" with commentary and discussion led by Mrs. W. V. McDonald, provincial second vice-president. The evening program was a symposium "Youth in Group Action" with discussion among selected students accompanying delegates from Washington points, Cranbrook and Kimberley high schools, which was followed by an evaluation by the chairman of points brought out in the discussion.

Adult workshop which wound up the conference dealt with "Dynamics in Group Action."

All sessions were open to the public.

MORE AGGRESSIVE

LIVERPOOL, England (CP) — Canadian youth is "more aggressive and has less respect for parents" than youth in Britain, says Frank V. Nelson of Montreal, a parole officer. Nelson, 50, is a former supervisor of the Liverpool Boys' Remand Home who went to Canada in 1953 and returned here for a visit.

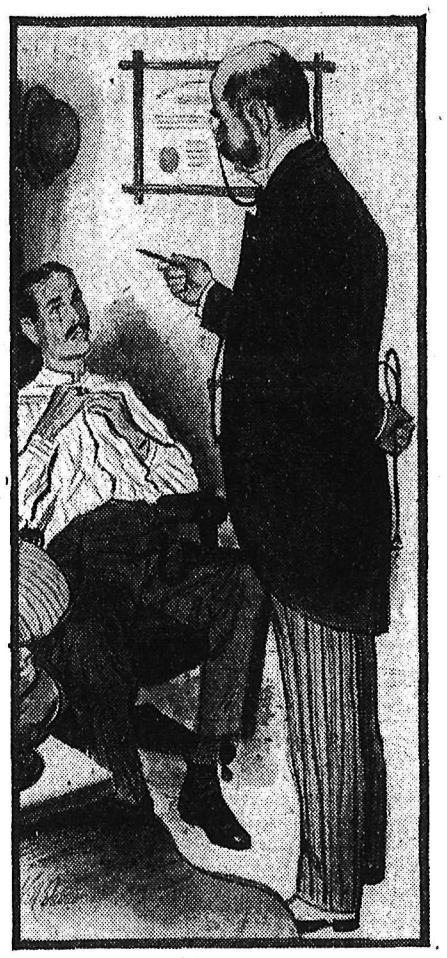
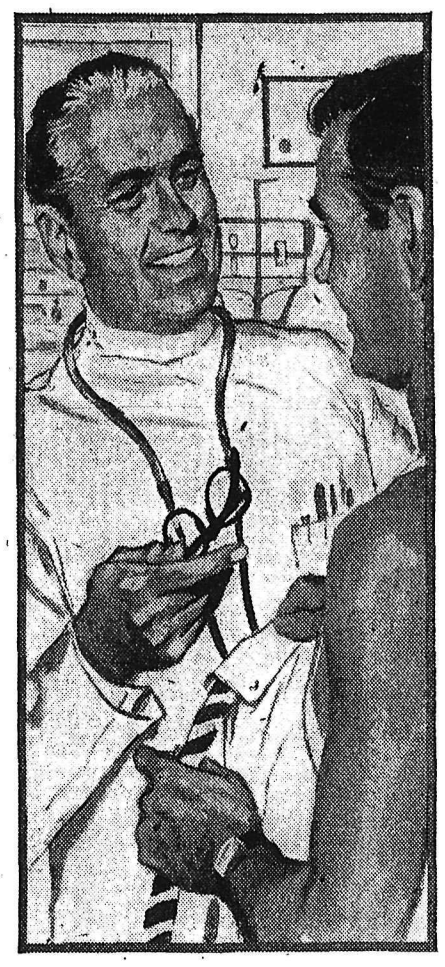
How times have changed — for the better!





Not so very many years ago, people with a history of certain ailments or diseases were unable to buy the life insurance they needed. Often, this resulted in considerable hardship for their families. But *today* . . . thanks to the results of new knowledge and research in controlling diseases, many such people are now accepted by life insurance companies — and can provide their families with vital financial protection.

This is another example of the many ways in which the life insurance companies in Canada have advanced with the times . . . offering better service to Canadians in all walks of life!

Improvements to Match Kootenay Advance

A start on construction of the Salmo-Creston cutoff will be made in 1956.

Contract for first construction of the Paulson-Blueberry section of the Southern Transprovincial Highway will be let within days.

Contract for the superstructure of the West Arm bridge, sub-structure construction of which is under way, will be let before the month's end.

A target date of June 30, 1957 has been set for opening of the bridge that spans one more gap on the No. 3 highway..

Expected revenues from gas and oil resources will be used to offset the costs of toll bridges and it is planned in this way to pay off construction costs and end tolls much sooner than would otherwise be possible.

The government is opposed to the principle of tolls and sees them as a necessity only making possible facilities at an earlier date than they could normally be expected.

These were the statements of Premier W. A. C. Bennett and his ministers to public gatherings following the first session of the cabinet ever held in Nelson. It must have been among the largest budgets of news of significance to the progress of the Kootenay-Boundary ever announced here in one day.

The highway projects alone equal and surpass the much-publicized 83-mile Hope-Princeton highway, which is a section of the same Southern Transprovincial route. To our mind they are of equal or more importance economically to that link between the Coast and the Okanagan. The tremendous advantages that have come to the Okanagan since opening of that road will be available to the even more industrially-rich Kootenay with completion of the two projects.

The foresight of the government in adopting these projects is equal to the spirit of the Kootenay that pressed for them. It is all together a satisfactory situation. There will be more needs, of course. There will always be needs while we progress. But it is unquestioned that a pattern of road progress is unfolding, and transport is such a vital part of overall progress that it becomes a toss-up in some cases whether roads create progressive development or progressive development creates roads. They are in juxtaposition.

This pattern of road development is as interesting as it is definite. Certain roads existed because the province was fortunate in an earlier highways ministry. But that earlier plan has been much improved and expanded upon. The latest blueprint has seen a shuttle ferry service established to break the Kotenay Lake bottleneck, a bridge is abuilding to close the West Arm gap, the Boundary links are closing as standardization progresses, the Wynndel-Kuskanook section has been modernized, the Salmo-Creston and Blueberry-Paulson cutoffs are to become realties, border roads connecting the main East-West highway are being standardized. This is just in the Kootenay-Boundary. The same has happened across the province. There can be no doubt that the all-Canadian, all weather route across British Columbia is to become an actuality.

B.C. One of Last Stands for Mountain Goats

(Wildlife Review)

The range of the Rocky Mountain goat is so remote and forbidding that these animals were believed to be legendary in pioneer days, and were thought to exist only in the fanciful imaginations of Western travellers.

They once ranged from Alaska down through the mountains to California, but much of their southern range has now become untenable. It is doubtful if there are any sizeable herds outside of British Columbia and Alaska today.

There is little fear of their extinction here because of the abundance of suitable range to be found within the province.

Rocky Mountain goats stand some three feet high at the shoulder, slightly less at the rump. They are some four feet in length, weigh between 200 and 400 pounds. Both sexes sport sharp, dagger-like horns—slightly longer in males than in females—which are never shed. These horns can be used with great effect when necessary, and there are records of bears and other enemies having been killed after impalement on the eight-inch spikes of an angry goat. But goats are so well equipped to escape in rugged mountain country that they rarely fight unless cornered.

Wild goats are white, with occasional traces of yellow in their coats, and it is almost impossible to see these animals in wintertime against a snow background. In summer they are easily visible as they seek lichens and mosses, which are their principal foods.

Their chin-whiskers (both sexes have them) give these animals a slightly ludicrous appearance, but one cannot help but respect them when one has seen their uncanny mountain-climbing ability. When alarmed, they move uphill with unbelievable swiftness and quickly put a healthy distance between themselves and the intruder.

Snowslides and malnutrition are believed to be the most serious limiting factors for mountain goats. Although golden eagles are known to take some kids, predation is not believed to be too important.

Rocky Mountain goats are found in many parts of British Columbia, with especially heavy concentration along the coastal mountains. They are often quite plainly seen from the decks of coastal steamers. Living as they do among the incomparable beauties of the upland country, mountain goats make an interesting and important part of our wildlife scene. An average of 50 animals yearly are taken by hunters.

Watch Your Language

SEMESTER — (see-MES-ter)—noun; originally a period of six months, hence, either of the two periods of instruction, commonly 18 weeks in length, into which the academic year is usually divided. Origin: Greek from Latin—Semestris, half-yearly, from Sex, six, plus mensis, month.

It's Been Said

Right intention is to the actions of a man what the soul is to the body, or the root to the tree.—Jeremy Taylor.

D.E., Nelson — Please tell me how to make papier mache. Can the finished article be colored with poster paint?

The following ingredients are required for making a lump of papier mache a little larger than an ordinary baseball, and weighing 17 ounces: Wet paper pulp made of dry paper one ounce, water three ounces, dry plaster of Paris, eight ounces; hot glue, half-gill, or four-and one-half tablespoons. While the paper pulp is soaking, melt some best Irish glue in pot and make it of the same thickness and general consistency as that used by cabinetmakers. Measure different ingredients to be used until result teaches you what good papier mache is like and after that you can be guided by your own judgment as you proceed. When taking paper pulp from water give it a gentle squeeze but by no means squeeze it as dry as you can. Now put it in bowl, cover with three tablespoon of hot glue and stir mass into soft and sticky paste; next add plaster of paris and mix it thoroughly. By the time you have used about three ounces of the plaster the mass should be so dry you can hardly work it. Now add remainder of glue and work up until it is again sticky, then add the rest of the plaster. Squeeze it thoroughly through your fingers and work till it is free from lumps, has been finely kneaded, and is sticky enough to stick fast to the surface of a planed board when you rub it by firm pressure of a finger. If it is too dry to stick add a few drops of either water or more glue — it makes little difference which — and work it up again. Keep surface of lump wet by means of a damp cloth laid over it, to prevent it drying. If you wish to keep it over night or longer, wrap it up in several thicknesses of wet cotton cloth and put it under inverted bowl.

Papier mache prepared as above had the following qualities: When tested by rubbing between thumb and finger, it was sticky and covered thumb with a thin coating. (Had it left thumb clean it would have been because it contained too much water.) When rubbed on a pane of glass it stuck tightly and dried hard in three hours without cracking, and could only be removed with a knife. When spread in a layer as thin as writing paper it dried in half-an-hour. A mass actually used dried hard enough to coat with wax in 18 hours and, without cracking, became as hard as wood; yet a similar quantity wrapped in a wet cloth and placed under an inverted bowl kept soft and fit for use for an entire week. We presume you could mix powdered color with the plaster of paris; also, when hard, any paints could be used.

V.B., R.R. 1 — An article about wine making by F. B. Pearce in your issue of September 29 interested me. Please tell me how I can get a copy of the book spoken of.

The Book is published by the National Federation of Women's Institutes, 39 Eccleston Street, London, S.W. 1., England, and costs three shillings and six pence. A money-order for this amount can be purchased from any bank or post-office.

Useful Giraffe

We've always felt that eventually a use might be found for giraffes. Down in Cape Town, South Africa, the Department of Surgical Research of the University of Cape Town Medical School has been making a special study of the giraffe's circulatory mechanism, and the United States Navy is said to be somewhat interested. Why?

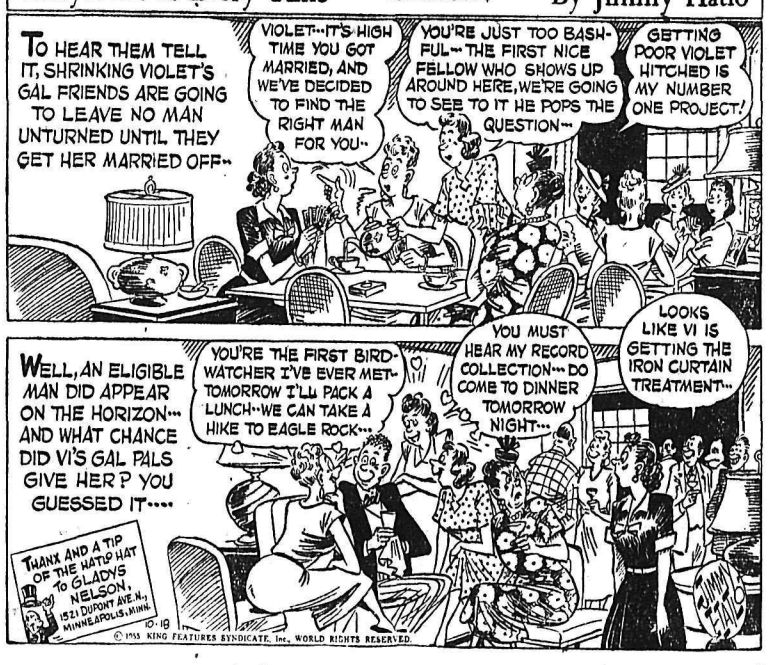
Well, it's a long story (almost as long as a giraffe's neck), but the gist of it is that the Navy would like to find out if something can't be done to prevent aviators from blacking out during high speed manoeuvres.

The giraffe has what is probably the most powerful heart of any living creature. It has to be, to pump blood a maximum distance of 15 feet without bursting either itself or an artery. It is felt that if we know all there is to know about a giraffe's pumping system, it might be possible to find out how to fortify the pilot's blood pressure and enable him to withstand the pull of gravity.

There appears to be just one trouble: You can't put a giraffe's heart in an aviator's bosom. Nevertheless, we are glad to learn that the giraffe is being taken seriously at last and not regarded just as one of nature's whimsies. We'd be glad to see our faith in the giraffe justified.—The Providence Bulletin.

They'll Do It Every Time

By Jimmy Hatlo



Today's Bible Thought

Create in me a clean heart, O God, and renew a right spirit within me.—Psalm 51:10.

Paul accomplished this by saying it is no longer I that live but Christ that dwelleth in me.

Aunt Het

I reckon it was immodest to say I was the best cook in town, but I ain't goin' to tell a lie just for the sake o' modesty.

Test Machine For Cleaning Eider Down

OTTAWA (CP) — Industrial revolution may be near for the Eskimos' eider down industry in the Canadian Arctic.

The northern affairs department announced it is testing a down-cleaning machine invented in Iceland. It is expected to be demonstrated in Arctic Eskimo communities next year.

The down comes from "self-plucking" eider ducks which nest in the north during the summer, particularly on off-shore islands.

When the nest is made, the female duck lines it with down. After the eggs are hatched and the young leave the nest, the down is gathered by the Eskimos. It is used mainly for clothing. In southern Canada it is used to make outdoor clothing and camping equipment because of its good insulating qualities.

SLOW WORK

Eskimo women now have to clean the down by rubbing it across parallel lines of sinew, wire or string after heating it to carbonize foreign matter in it.

The new machine cleans eider down more quickly and efficiently than any known method. It beats and rotates the down in an enclosed box.

Northern affairs officials said they hope the machine will encourage the Eskimos to gather bigger supplies of down. In Iceland, down brings as much as $18 a pound.

They hope that the Eskimos eventually will establish eider duck colonies similar to those in Iceland where duck eider "farming" is done on a large and scientific scale.

Says Modern Poems Make Good Puzzles

TORONTO (CP)—Many modern poems make good crossword puzzles but poor poetry, Wilson MacDonald, 75, told a gathering held in his honor to celebrate his 50th anniversary as a poet.

Mr. MacDonald said some modern poems are so painful in their perfection they contain wrong words to preserve technical concord.

"A real poet is a man who hears the whisper of God in his ear and has the capacity to translate that whisper into beautiful language," he said.

Mr. MacDonald received many messages of congratulation on his anniversary, including two from Moscow.

FTC Challenges Cure for Bald

WASHINGTON (AP) — The Federal Trade Commission has challenged the claims of a firm distributing a do-it-yourself kit to overcome baldness.

The FTC announcement of its complaint said the firm advertised that its do-it-yourself treatment would help anyone who is not "completely shiny bald."

The proceeding was against Millard, Inc., of Chicago. The FTC said the firm advertised:

"If there is fuzz, no matter how light, thin or colorless, the Millard people can perform wonders."

"If clients follow our directions during treatment, and after they finish the course, there is no reason why they will not have hair the rest of their lives. . . ."

The FTC said the Millard method is "not new and is not effective in causing or maintaining a normal head of hair, under any circumstances, for life."

MAN WITH A DEEP PROBLEM — Bjoern Naeslund, competing on a new rough-riding motorcycle course at Stockholm, Sweden, freed his machine to finish second in race.

Hitler's Jawbone Said In Russia

CAMP FRIEDLAND, Germany (AP) — Hitler's former dentist, just released from Soviet captivity, says he flew to Moscow in 1945 with the fuerhrer's jawbone to identify it for the Kremlin.

The dentist is Helmut Kunz, formerly a major in the SS Elite Guard. He said the Russians exhumed the charred remains of Hitler and Eva Braun, the fuerhrer's bride and former mistress. They committed suicide in a bunker beneath his Berlin chancellery April 30, 1945. The bodies were cremated and buried in a shallow grave.

Another German returnee, Karl Schneider, former captain in the SS and Hitler's transportation officer, also said Hitler's jaw was sent to Moscow. Schneider said the Russians performed autopsies on both Hitler's and Eva Braun's remains.

Urge Action on Mulligan Case

VANCOUVER (CP)—Four Vancouver aldermen Saturday called on the city police commission to meet without delay and accept Chief Constable Walter Mulligan's request that he be relieved of his position.

The aldermen said the dismissal of Chief Mulligan, chief constable for 8½ years, and the appointment of a new chief would end turmoil at police headquarters and lift the morale among the men.

They said turmoil had existed ever since commissioner R. H. Tupper opened his prolonged probe four months ago into alleged corruption and laxity in the 750-man police force.

Chief Mulligan, 51, in a letter to the police commission Friday, asked that he be dismissed because "my former usefulness . . . is ended."

THOSE IN FAVOR . . . .

Those who said they are in favor of quick action were aldermen Bill Orr, Birt Showler, Jack Cornett and Mrs. Anna Sprott.

Mr. Orr said: "The time has come to relieve Mr. Mulligan of his post. Morale in the police department is terrible. A new chief would be a new broom that would sweep clean."

Mayor Fred Hume, a member of the three-man police commission, said today the commission will meet "early next week" to discuss Chief Mulligan's request. He declined to comment on the letter.

Sensational Case Breaks Open in U.K. With Arrest of Irish Girl

LONDON (Reuters)—One of the most tangled cases in British criminal history seems headed for a showdown following the surprise arrest in Ireland of a tall, cool-eyed brunette for alleged conspiracy to defeat justice.

The woman is Margaret (Rita) Comer, 27, wife of a self-styled London gangster king, whose acquittal last month in a stabbing case provoked a sweeping police investigation.

Rita was arrested in a dawn raid on her sister's home in Dublin and was hustled by plane to London, where she was charged with two men and held for a hearing next Thursday.

MONTH-LONG INVESTIGATION

The charge, climax of a month-long investigation by Scotland Yard special detectives, accused Rita of conspiring to "defeat the course of public justice" at the trial of her husband, Jack (Spot) Comer, who is still in London.

The same charge was made against Morris Goldstein, 43, and Peter MacDonough, 45, who were arrested here at the same time Rita was picked up in Dublin.

Rumors of perjury, bribery, intimidation of witnesses and police corruption have been ripe since Comer was acquitted Sept. 23.

The bookie and self-styled underworld king had fought a savage knife battle with another bookie, Albert Dimes, in broad daylight in a crowded street of London's Soho quarter.

But when the case came to court, testimony dried up. In separate trials, both Comer and Dimes were acquitted for lack of evidence on charges of wounding each other.

Venom Jet Scrapes Bus In Death Fall

MALVERN, England (Reuters) —A British air force Venom jet fighter scraped the top of a double-deck bus before crashing in a field near here Friday. The bus passengers escaped injury but the pilot of the plane was killed.

It's harder than ever to **make money**

. . . To print your own, that is. The Bank of England has made the counterfeiter's lot an even unhappier one by pressing a thin strip of aluminum foil into the paper used for making bank notes. Seems the do-it-yourself enthusiasts find it virtually impossible to duplicate.

It is nice to think that there will probably be a little bit of Canada wherever this new paper currency circulates. Great Britain imports 80% of her aluminum from Canada, and in turn represents one of the major markets for Canadian aluminum.

Faye Humble, John Tamas Wed In Pretty Creston Ceremony

CRESTON — Creston's Trinity United Church decorated with pink and white gladioli and dahlias was the scene of a pretty wedding on Oct. 10, when Elizabeth Faith Humble became the bride of John Tamas. The bride is the daughter of Mr. and Mrs. Eric Foreman Humble, of Creston and the groom is the son of Mr. and Mrs. William Tamas of Creston. Rev. R. B. Knipe was the officiating clergyman. The wedding music was played by Mrs. Fraser. Mrs. Thelma Ingram was soloist and sang "The Bells of St. Mary" as the bride's mother entered the church, and "Because" during the signing of the register.

The bride, given in marriage by her father, chose a gown of nylon tulle and chantilly lace over satin. Her long sleeves ended in lily-points trimmed with seed pearls. The chapel length veil was held in place by a coronet of seed pearls. She carried a bouquet of red roses centred with white roses. She was attended by Miss Sharon Reid, who wore an aqua nylon net gown with sfole peplum, with rhinestones and a matching head band. She carried pink roses with white chrysanthemums. Audrey Wurst chose a pink nylon net dress with bolero and a matching pink band and she carried yellow roses with white chrysanthemums.

Best man was Mr. Martin Kardos and Mr. Ray Humble, brother of the bride, ushered the guests. The bride's mother chose a gray dress with mauve accessories while the groom's mother wore a gray suit with white accessories.

Eagles hall was beautifully decorated with pink and white streamers and wedding bells and candles and a lace table cloth and pink tulle around the three-tiered wedding cake made a lovely setting. The bride's and groom's mothers met the 40 guests. A telegram was read by Mr. Martin Kardos from Mr. and Mrs. W. D. Tamas of Nelson.

Uncle of the groom, Mr. Andrew Toth proposed the toast.

Out of town guests were Mrs. R. Richmond, Mrs. M. Baynon and daughters of Kimberley, Mr. and Mrs. Reg French and family of Kinnaird, Miss Audrey Wurst and Mr. W. D. Tamas of Nelson and Mr. and Mrs. Stan Snedman of Red Deer. The couple left on a honeymoon to Coeur d'Alene, Trail and Kinnaird. The bride chose a fall green wool suit with purple accessories and wore a corsage of pink and white carnations.

On their return, they will reside in Creston.

The bride's mother made all the bouquets.

Arts Festival Warning Voiced

OTTAWA (CP) — Ian Hunter, former director of the famed Edinburgh Festival, said Friday he is fascinated by the proposal for an international music and arts festival in Ottawa.

But he warned that if Canada launches the festival the aim must be — not financail gain — but a quickening of artistic life in this country.

"I feel it would be a great mistake to embark on such a festival with the feeling it is something that will bring financial benefit through the tourist trade," said the 36-year-old Scot, who was brought here to advise on the feasibility of the festival proposal.

He spoke at a press conference at Government House, residence of Governor-General Massey who started the festival idea rolling in 1952 with a speech suggesting study of the idea.

UNPUBLICIZED STUDY

Mr. Massey is honorary chairman of a 20-member provisional committee which, after a year's unpublicized study, called in Mr. Hunter to advise before a final decision is made.

As envisioned by the committee, the festival would start in 1957 or 1958 as a top-drawer event combining the best talents obtainable in the world in music, painting, theatre and the other arts.

Mr. Hunter, who leaves next week for a flying tour of western Canada, said he hopes to give the committee a final recommendation within a month together with a budget of what it will cost.

PRETTY STUDENT

LONDON, Ont., (CP)—A pretty Japanese girl is taking a two-year post-graduate English course at the University of Western Ontario. Michiko Sasaoka, 23, is a graduate of Tokyo university.

Misinformation on Food Fads Dismissed by Diet Specialists

ST. LOUIS (AP) — So you've been skipping meals as a good way to reduce? Or perhaps eating olives and oysters in the belief they'll make you more virile? If so, you're wasting your will power or your time, says the American Dietetic Association.

Have you always thought junior neds a thick steak after a strenuous afternoon on the football field because protein needs are increased with physical activity?

Misinformation, say the association's food and nutrition experts. They add that it just isn't true, either that sassafras thins the blood, or that cheese is constipating.

These are on a long list of food fallacies drawn up by the association's community nutrition section. The executive board of association, in convention here, has resolved to establish a program of providing the public with sound food and nutrition information.

MANY STRANGE IDEAS

The nutrition authorities are appalled by the amount of phoney food beliefs swallowed and digested by so many.

Who, for example, does not believe that milk, potatoes and bread are fattening—or that fruit and fruit juices are not fattening?

The members of the American Dietetic Association don't.

Neither do they accept the old chestnuts that fish is brain food, or that fresh pork in summer will make one ill, that celery is good for the nerves, or that garlic pills help your memory.

The association's community nutrition section also has drawn up a list of groups responsible for spreading false information about food.

The salesman who distorts facts to sell his product, and the professional person who fails to keep well informed and passes on out-of-date beliefs are on it, along with many others.

Slocan Nurses' Sale Brings $15

SILVERTON — The Slocan Nurses Chapter held a rummage sale in the Municipal hall. The sum of $15 was realized. Mrs. E. Avison and Mrs. Betty Nelson were in charge.

AID HOSPITALS

MONTREAL (CP) — Helen Guiton, author and former Montreal school principa, has been appointed editor of the Record, official organ of the National Council of Hospital Auxiliaries of Canada. The magazine, published yearly, served 604 auxiliaries with 65,000 voluntary workers.

WOMEN POLICE

In 253 there were 1800 women police in England and Wales, and 176 in Scotland.

PATTERN M313
design by ALAN PHILLIPS

PROMINENT DESIGNER

Vurtain rising on the new EMPIRE line — a silhouette of gentle curves and beautifully manipulated lines! Alan Phillips (dashing) young designer of Richard Cole's salon) created this flattering day-dress with special emphasis on a woman's femininity — and figure! Raised rounded bosom, nipped-in waist, and a slim parade of buttons (no buttonholes) to mark the lovely "princess" skirt. *The Original — in fine blend of silk and worsted* — can be seen only at the most exclusive shops. Happy news for home couturiers — the pattern for this wonderful Alan Phillips design can be ordered right from this column! A soft wool, bengaline, or taffeta fabric — little sewing time — to make this stunning Original yours.! Pattern M313 is available in Misses' Sizes 10, 12, 14, 16, 18 and 20. Size 16 requires 2⅞ yards 54-inch fabric. Send FIFTY cents (in coins) plus three cents tax for Pattern M313 to N.D.N. Prominent Designer Pattern Department, 60 Fornt St. W., Toronto, Ont. Please print plainly YOUR NAME, ADDRESS with ZONE, STYLE NUMBER and SIZE.

BACKACHE

Jack-O'-Lantern Pie Hallowe'en Surprise

By ALICE DENHOFF

Fall's first party, more often than not, is for Hallowe'en —especially if there are youngsters in the household.

A buffet is the best way to handle such an affair and, if it is nicely handled, adults will enjoy it, too.

Plenty of spaghetti with a really good sauce goes over well and, of course, the ever-popular 'burgers and franks. Cookies served with ice cream shakes will do, with the proviso that there is a goodly supply.

If you bake cookies, use raisins for making a variety of faces and Hallowe'en designs. Use plenty of yellow and black for the decorations which children generally enjoy helping to make.

Large paper jack-o'-lanterns are obtainable in the stores, as are yellow and black paper tablecloths and napkins.

HALLOWE'EN PIE

The big surprise might be jack-o'-lantern pie. Light, refreshing, different and not difficult to do, it is made with a graham cracker crumb crust.

For the crust, thoroughly blend together 16 graham crackers that have been finely rolled (1½ cups crumbs) ¼ cup softened butter or margarine and ¼ cup sugar. Press well-blended mixture firmly against bottom and sides of a 9 inch pie plate in a neven layer.

Bake at 375 degrees F. for 8 minutes. Cool; fill.

To prepare filling, cook 1 cup canned pumpkin in top of double boiler over boiling water 10 minutes, stirring occasionally.

Mix together 3 egg yolks, ½ cup sugar and 1 cup milk. Add to pumpkin together with ½ teaspoon each salt and ginger, ¼ teaspoon nutmeg, teaspoon cinnamon and 2 tablespoons butter.

Stir and cook until of custard consistency (about 15 minutes). Remove from fire.

Soften 1 envelope (tablespoon) plain gelatin in ¼ cup cold water and add to hot mixture, stirring until dissolved. Chill.

When mixture begins to stiffen, beat 3 egg whites stiff. Gradually beat in ½ cup sugar; fold into pumpkin mixture.

Pour into graham cracker crumb crust. Chill until firm.

Make jack-o'-lantern face with whipped cream put through a pastry tube.

Deer Park

DEER PARK — W. Budden of the Celgar Development Company, Castlegar, and his assistant, spent a few days on a timber cruising trip in the mountains around Deer Park.

Mr. and Mrs. D. Demmon of Trail were the recent guests of Mr. and Mrs. C. S. Phelps.

P. Doell of Renata was the recent guest of Mr. and Mrs. C. T. Williamson, en route to West Arrow Park where he will be employed.

Dr. and Mrs. C. Bradshaw of Trail and Mrs. Bradshaw sr., of Nelson were recent visitors to Deer Park.

Mrs. Gilyean has returned to her home in Trail after spending som etime at her summer home here.

Mrs. P. Romaine, teacher of the Deer Park elementary school, returned from Nelson where she attended the recent teachers' convention.

YOUTHFUL COOK

WINNIPEG (CP) — Among 11 boys taking the industrial food cource—chef's training — at the technical-vocational school here is Norman Kirton, 17. He says "I've been cooking since I was seven because I like it." He often prepares supper for his mother.

Shower Given for Procter Bride-Elect

PROCTER — Mrs. Fred Sokoloski was hostess to about 50 guests when she entertained at a miscellaneous shower, honoring Miss Sarah Latkin, whose marriage to Joseph Lepitzki is to take place this week. The bride-to-be is the daughter of Mr. and Mrs. W. Laktin of Procter and the groom-elect is the son of Mr. and Mrs. T. Lepitzki of Vancouver.

Speaking on behalf of the gathering of friends Mrs. N. Dosenberger wished Miss Latkin happiness and presented the gifts. Autumn flowers brightened the rooms and Marie Smith, Cecile Mucha and Marjorie Iwanik assisted the hostess in serving. After their marriage the young couple will honeymoon in Vancouver then take up residence at Farron where Mr. Lepitzki is employed.

Ballerina Married

LONDON (Reuters) — Nadia Nerina, prima ballerina of the Sadler Wells company, flew home to Britain two weeks ago in the middle of a North American tour for a secret wedding, it has been revealed here. Miss Nerina, 27, arrived in Brtain Oct. 8 and three days later married fellow South African Charles Gordon, 28. After a week's honeymoon she flew back to the United States to rejoin her company.

Sent To Prison For Shooting Young Lad

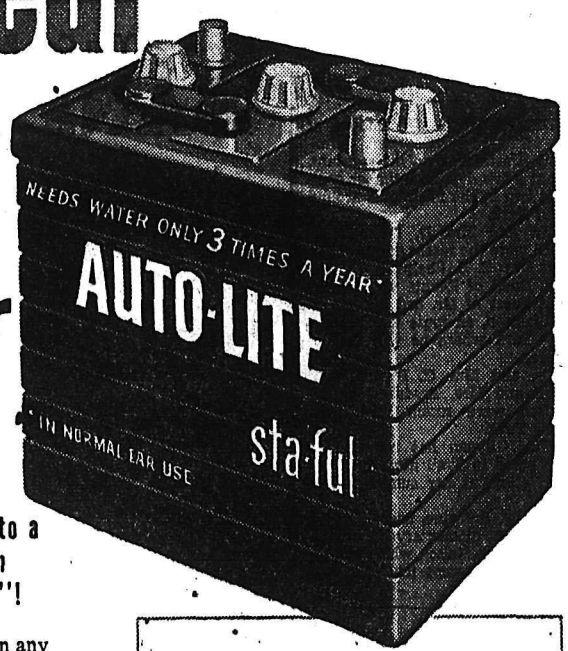
KAMLOOPS (CP) — John Norman Cairns, 28, of Merritt, was sentenced here to 23 months imprisonment on a charge of causing bodily harm to Robert Edward Sahara, 13.

Mr. Justice Harold McInnis who told him it was a miracle he hadn't killed young Sahara whom he shot in the neck last August.

The defence said Cairns was under emotional stress and had been drinking at the time of the offence and that he was not capable of forming any intent to harm the boy, whom he had never seen before.

Needs Water Only 3 Times a Year*

*IN NORMAL CAR USE



Lasts Longer Too!

You're always off to a good start with an Auto-Lite "Sta-ful"!

Wherever you drive, in any season, you can be sure of quick, trouble-free starts with an Auto-Lite "Sta-ful" battery.

The "Sta-ful" stays stronger longer than any ordinary battery because of its special construction.

Get the full story on the Auto-Lite "Sta-ful" battery — the battery that needs water only 3 times a year in normal car use and lasts longer, too. See your Auto-Lite Battery dealer to-day.

Royals Edge Cougars 4-3 While Seattle Downs Vancouver 6-4

By The Canadian Press

In Western Hockey League play Saturday night New Westminster Royals hung on gamely in the face of a strong third-period drive by Victoria to edge the Cougars 4-3 at New Westminster.

Seattle spotted Vancouver two goals in the first period, then came back to win a rough and tough game 6-4 at Seattle.

At Calgary a goal by Paul Masnick after 3:41 minutes of overtime gave Winnipeg Warriors a 5-4 victory over Calgary Stampeders in a game played before 4627 fans.

Regina Regals took over sole possession of third place in the League's Prairie division with a 2-0 win at Saskatoon over Saskatoon Quakers before more than 2500 fans.

The Seattle markers were divided among Alex Kuzma, Ollie Dorohoy, Bev Bell, Jim Bedard, Rudy Filion and Bowness. Freddie Brown sank a pair for Vancouver, with Carl Kaiser and Les Lilley tallying singles.

Royals marked their first home victory for this season, playing before 2600 fans. The teams went through a scoreless first period before the Royals built a 3-0 lead in the second.

The Cougars tied it up in the third but right-winger Motto McLean came through with his third goal of the season at the 17:30 mark to give the Royals the win.

Warriors notched their second win in as many nights. Friday night they downed the league-leading Edmonton Flyers 4-2.

The setback prevented Calgary from moving into a tie with Edmonton for first place.

Masnick's overtime goal was his second of the game. Barry Cullen also notched a pair and Eddie Mazur tallied the other Winnipeg marker.

Bill Shvetz led the Stampeders with two goals while Sid Finney and Steve Witiuk connected for the others.

Regina Royals and Quakers were tied for third before the game.

The shutout for Regina's Lucien Dechene was the first of the season. He earned it on brilliant netminding, especially when the Quakers kept the Regals hemmed behind their own blue line most of the third period.

George Senick, a former Quaker and a standout for Regina, scored Regal's first goal and newcomer Norm Johnson their second. Both came in the second period.

The Quakers carried most of the play in the latter stages of the game but Regina checked closely to help Dechene gain his shutout.

American League Has Most Rookies On All-Star Team

ST. LOUIS (AP) — The American League, for the first time in four years, dominated the 1955 rookie all-star team selected Saturday by The Sporting News.

The junior circuit placed eight of the 11 players on the squad in a poll of sportswriters conducted by the baseball weekly. It was the first time since 1951, when Mickey Mantle, Minnie Minoso and Gil McDougald broke in, that the American League won more berths than the National.

The squad lineup:

Norm Zauchin, Boston, first base; Hector Lopez, Kansas City, second base; Jose Valdivielso, Washington shortstop; Ken Boxer, St. Louis, third base; Elston Howard, New York Yankees, left field; Bill Virdon, St. Louis, centre field, Carlos Paula Washington, right field; Hal Smith Baltimore, catcher; and Herb Score, Cleveland, Frank Lary, Detroit, and Jack Meyer, Philadelphia, pitchers.

Bowl Teams Forecast

NEW YORK (AP) —The Orange Bowl, once the poor cousin of the older and richer post-season U. S. college football events, can be excused for doing a little strutting itself these days.

With its exclusive Atlantic Coast Big Seven tieup, the Miami, Fla., fixture has a lien on Maryland and Oklahoma, the two teams with the best chances of carrying perfect records to the end of the season.

Duke, Yale and Colorado were knocked from the unbeaten-untied ranks Saturday, leaving an even half-dozen with unsullied banners.

There are top-ranked Michigan; her three closest challengers, Oklahoma, Maryland and Navy, 2, 3 and 4 respectively; West Virginia No. 8 and Holy Cross, No. 20.

FOOTBALL FORECAST

With the season a little more than half completed, the bowl situation stacks up approximately this way:

Rose Bowl-Michigan vs UCLA.

Sugar Bowl-Auburn vs West Virginia.

Cotton Bowl-Texas Christian vs Georgia Tech.

Orange Bowl-Maryland vs Oklahoma.

Both Maryland and Oklahoma seem to have easy paths the rest of the way after one - sided triumphs Saturday. Maryland smashed Syracuse, the conqueror of Army 34-13, and Oklahoma shot back from a 0-14 deficit to smother Colorado, hitherto unbeaten, 56-21.

Maryland plays South Carolina next Saturday, then follows with Louisiana State, Clemson and George Washington. Oklahoma, riding a 24-game winning streak, has Kansas State, Missouri, Iowa State, Nebraska and Oklahoma A and M in order.

Connie Mack Leaves Hospital

PHILADELPHIA (AP) — Connie Mack, 92-year-old former owner and manager of Philadelphia Athletics, was discharged Saturday from Presbyterian Hospital, just three weeks after he broke his right hip in a fall.

SETS SPEED RECORD

INDIO, Calif. (AP)—Ernie Rose of Patterson, Calif., set a world speed record for hydroplanes on the nearby Salton Sea Sunday in the B class racing runabout division. His time was 61.058 miles an hour. Rose set the previous mark of 59.840 on this course last year.

20 m.p.h. Hockey Needs Energy

When hockey players break away at speeds of 15-20 m.p.h., they use up plenty of energy and between periods, they need a fast, safe pick-up. A recent survey made by Lloyd Percival of Sports College, showed that over 80% of the leading International athletic trainers recommend tea with added lemon or orange and honey as the best and safest way to pep up energy.

Tea can be used as an effective pick-up by anyone whose work calls for intensive physical or mental effort.

To obtain full details of how this successful energy pick-up should be used, write to: Sports College, 12 Glen Road, Toronto, Ontario.

Dynamiters Drub Smokies 8-4; Bell, Hockley Star

IN THE NET for the Maple Leafs tonight when they meet the Dynamiters in Kimberley will be 20-year-old rookie Gus Adams, above.—Vogue photo.

KIMBERLEY — Paced by the high scoring performances of linemates Cal Hockley and Claude Bell, Kimberley Dynamiters earned their second win of the young WIHL season, trouncing the game Trail Smoke Eaters 8-4 here Saturday night. Some 1200 watched Dynamiters fashion the victory, scoring two unanswered first period tallies, equally dividing four second session markers, and outscoring Smokies 4-2 in the final stanza.

Cal Hockley led the Kimberley scorers with a six-point effort comprising three goals and three assists, closely followed by Claude Bell, who also registered the hat trick plus two assists for five points. Buz Mellor with a goal and an assist and Ray McMiven with a singleton rounded out the Kimberley scoring.

Tallying a goal and an assist for Trail were Mike Shabaga and Gerry Penner with Bob Andrews and Don Fletcher registering single tallies. Lenardon and Birukow both garnered two assists and turned in creditable performances.

At the 10-minute mark of the third period the re-occurrence of a groin injury forced Seth Martin to retire. He was replaced by Zanier. At this point Dynamiters were leading 5-2.

A hard fought tussle also produced the firstpenalty shot of the season, awarded to Kimberley as Smith, who otherwise played a fine defensive game, cleared the puck from the Trail goal crease with his hand. Cal Hockley was elected to take the shot and made no mistake, driving a low hard shot past Zanier.

Play opened fast and rugged with the referees serving strict notice, banishing Mellor and Lenardon for high-sticking, the same two again for fighting, and Smith for holding.

No scoring was done, however, till both teams were at full strength Hockley getting his first one, a 12-foot drive, assisted by Bell and Andre. Trail pressed to even the count on Craig's tripping penalty, but yeomen service by Jones and Andre quelled the attack as the forcing Dynamiters went two up at 18:35 on Bell's 15 foot screen shoot.

Trail opened the second period scoring, when veteran Mike Shabaga tipped in Conn's blueline relay, and Trail evened the count on a three-way picture goal at 11:38, Andrews doing the honors. But ten seconds later Bell, standing on Martin's doorstep, banged in the winner and McNiven put Dynamiters two up at 15:33.

Trailing two goals, Smoke Eaters opened the third period on a determined basis, narrowly missing goals when Shabaga missed the net while in the clear and Lenardon couldn't control a bouncing puck while being home-free.

Hockley put Dynamiters three goals ahead while McLeod was serving an elbowing penalty. It was at this point that Martin was injured, sprawling out with Hockley falling over him just after the right winger lifted the puck high into the net.

Play resumed at 9:34 after a 15-minute delay with Zanier replacing Martin, and at 13:46 a high slap shot by Penner from Birukow's pass-out put Trail's third tally on the scoresheet.

Their threat was short-lived as Bell and Hockley completed their hat tricks on successive counters and, after Fletcher's goal, Mellor closed the scoring.

Referees Maker and Sutherland handled the contest which saw Kimberley outshoot Trail 51-34.

Lineups:

Kimberley—Goal Betker; defence Jones, Craig, Andre, Lebiodia. Forwards Hockley, Barre, Kreklewetz, Mellor, Knippleburg, Bell, McNiven, Larson.

Trail—Goal Martin, defence Fletcher, McLeod, Conn, Smith; forwards Andrews, Birukow, Shabaga, Turik, Demore, Penner, Lenardon.

First period summary:

1—Kimberley, Hockley (Bell, Andre) 6:04; 2—Kimberley, Bell (unassisted) 18:35.

Penalties:—Lenardon, Mellor 1:04; Lenardon, Mellor 3:27, Smith 4:09, Craig 9:50.

Second period summary:

—Trail, Shabaga (Conn, McLeod) :27; 4—Trail, Andrews (Shabaga) 10:28; 5—Kimberley, Bell (Lebioda, Hockley) 11:48; 6—Kimberley, McNiven (Knippleburg) 15:33.

Penalties:—McLeod, 17:43.

Third period summary:

7—Kimberley, Hockley (Bell, Knippleburg) 9:34; 8—Trail, Penner (Birukow) 13:46; 9—Kimberley, (Hockley, Mellor) 14:50; 10—Kimberley, Hockley (penalty goal) 15:10; 11—Trail, Fletcher (Birukow, Penner) 16:40; 12—Kimberley, Mellor (Hockley) 19:34.

Penalties:—McLeod 7:13, McLeod (misconduct) 18:42.

V's, Elks Victors in OSHL

By Canadian Press

Penticton Vs defeated the Kelowna Packers 6-2 Saturday night to rack up their second victory in two starts.

At Kamloops Elks came out on the better end of a 5-2 score here Saturday night when they defeated Vernon Canadians in a Okanagan Senior Hockey League encounter.

Dick Warwick counted two of the Penticton goals when the others were scored by Hal Tarala, Doug Kilburn, Bill Warwick, and Jack McDonald.

Kelowna scores were made by Mike Durban.

The game was marked with 23 penalties as the referees clamped down hard.

Tarala scored early in the first period, and assisted MacDonald in another. Both goals were on three-man power plays.

Durban answered for the Packers with one on a power drive.

Dick Warwick gained an easy one with seconds to go as goalie George Hall failed to clear.

Kilburn scored on a pass from Jack McIntyre and Durban answered again on his own rebound from a narrow angle, with Ivan McClelland down.

Dick and Bill Warwick wrapped things up in the third with one apiece.

Kamloops' scoring was by billy Hryciuk, Art Asleson, Joe Conners, Howie Hornby and Gaff Turner.

Vernon goals were made by Tom Stecyk and Odie Lowe.

Elks took a 2-0 lead at the end of the first and enlarged it to 3-2 at the end of the second.

Hank Greenberg Withdraws Offer

SAN FRANCISCO (AP) —Hank Greenberg, general manager of Cleveland Indians, Saturday withdrew his offer to take over the financially-battered San Francisco Seals of the Pacific Coast League.

Greenberg's lawyer quoted him as saying the persons to whom the offer was made, had, in effect, rejected it when they asked for time to think it over. He had offered to put up $150,000 of his own money to be used as working capital and to issue debentures to pay the club's $200,000 in debts.

Milwaukee Braves of the National League, meanwhile, were reported planning to make an offer for the franchise within 10 days.

Carpenter Scores 17th TD; Riders Drub Lions; Esks Blank Bombers

By The Canadian Press

Saskatchewan halfback Ken Carpenter scored his 17th touchdown of the season Saturday to set a new Western Interprovincial Football Union record and tie a Canadian mark only a few hours old when the Roughriders swamped the British Columbia Lions 33-7 at Regina.

At Edmonton, Eskimos blanked Winnipeg Blue Bombers 12-0 in a game that featured sparkling attacks by both teams.

About 16,000 persons turned out in chilly weather to see the league-leading Eskimos win their 13th victory in 15 starts, with one game of the schedule left to play.

Carpenter, the 27-year-old offensive star jumped into the scoring limelight along with halfback Pat Abruzzi of Montreal Alouettes as the second-place Roughriders bounced Lions from practical contention for a WIFU playoff berth.

Abruzzi scored four touchdowns Saturday as Alouettes thumped Toronto Argonauts 43-12. Carpenter scored his 16th and 17th against Lions to tie the eastern mark.

The loss meant although Lions could tie Winnipeg Blue Bombers on points for the third and last playoff spot, they now are out in the cold to all intents and purposes because of an inferior scoring average.

Blue Bombers lost their last chance to make second place in the final standings, but they were assured of a playoff spot because of Lions' loss. Bombers now have 12 points, Lions 10, and the runnerup Saskatchewan Roughriders 18.

Fullback Normie (China Clipper) Kwong, who scored the only Edmonton touchdown in the first quarter, picked up 30 yards during the game to break the rushing record set last year by Howard Waugh of Calgary Stampeders.

JAMES AND CASEY STAR

End Rupe Andrews was also believed to have brought a WIFU record to Edmonton by making his ninth pass interception of the season.

Kwong's touchdown was converted by former Maryland tackle Bob Dean, who also booted field goals in the second and fourth quarters to complete the scoring.

Halfback Gerry James and veteran back fielder Tom Casey were the stars of the Winnipeg side, both showing outstanding power and speed. Despite their gains, the Edmonton defence held firm when Bombers neared paydirt.

Hergesheimer Nets Two As Rangers Down Hawks

By The Canadian Press

Wally Hergesheimer fired two goals to pace New York Rangers to a 5-4 National Hockey League victory over Chicago Black Hawks Sunday night and preserve the Rangers' undefeated home record.

Hergesheimer, fighting to regain the form that made him a 20-goal man with the Rangers for three consecutive years before he missed most of last season with a broken leg, took passes from Dean Prentice and Harry Howell to wrap up the see-saw game at the 12:40 mark of the final period.

Danny Lewicki opened the firing in the first period to put the Rangers in front but ex-Ranger Nick Mickoski equalized seconds later with the first of two tallies. With two Hawks in the penalty box, the New York power play clicked and Hergesheimer and Dave Creighton gave them a 3-1 lead by the end of the period.

Mickowski scored his second goal and setting up Jack McIntyre for another to put Chicago back on even terms in the second session. Early in the finale Tony Leswick put the Hawks in front with a solo counter. Ron Murphy got that one back within two minutes, setting the stage for Hergesheimer's game-winner.

DOUBLE SHUTOUT

Rookie Glenn Hall and veteran Terry Sawchuk worked simultaneous shutouts Saturday night as Detroit Red Wings and Boston Bruins played the first National Hockey League scoreless tie this season. Hall made 19 saves and Sawchuk 28.

It was the 14th consecutive game Bruins failed to win on Olympia ice. The streak, dating back almost two full years, includes 11 defeats and three ties.

At Montreal, Canadiens made an inhospitable mess of coach Dick Irvin's return to his old hockey haunts, submerging his Chicago Black Hawks under a 6-0 shutout. Toronto Maple Leafs defeated New York Rangers 3-2 at Toronto in the third Saturday game.

Play was quiet at Detroit in the early stages after referee Jack Mehlenbacher handed out four penalties in the first 18 seconds. Only six penalties were called the rest of the way.

Sawchuk foiled Dutch Reibel three times at close range. The big save, however, came with less than five minutes to play when Gordie Howe got in on a breakaway and Sawchuk took the backhand shot in his pads.

TWO FOR ROOKIE

Henri (Pocket Rocket) Richard led the goal parade for Montreal, the 19-year-old rookie bagging two. Big brother Maurice scored one and singles went also to Dickie Moore, Bert Olmstead and Floyd Curry.

It was the third shutout of the season for Montreal goalie Jacques Plante, who has allowed four goals in five home games and four in two on the road.

The largest crowd of the season, 13,815, turned out to see the revamped Hawks make their first Montreal appearance under Irvin, who coached Canadiens 15 years before switching to Chicago. Canadiens victory kept them safely at the top of the NHL standings.

Centre Tod Sloan scored twice to lead Leafs to victory.

The 27-year-old Sloan showed his best early-season form in a long time as he sent Leafs into a 2-1 lead in the first period and counted what turned out to be the winning goal early in the third. That ran his goal-total to four in eight games.

Right winger Eric Nesterenko scored the other Toronto goal. Centre Dave Creighton and right winger Andy Hebenton tallied for Rangers.

The New Yorkers, led by such stalwarts as Harry Howell, Danny Lewicki, Creighton and Bill Gadsby, swarmed around the Toronto nets late in the third period but were stopped by goaltender Harry Lumley the few times they broke through the Leaf defence.

Leafs Travel To Kimberley

The league-leading Nelson Maple Leafs will be guests of the Kimberley Dynamiters tonight for the season's first game between these two teams.

New arrival, Jack Moore, will play his first game this year with the Leafs. Moore, a husky right winger, played several games with the Maple Leafs last season before going to the Ponoka Stampeders in the Alberta Intermediate league. He will replace Red Koehle tonight, working with Herb Jeffrey and Joe Bell.

The Dynamiter production line, Buzz Mellor, Claude Bell and Cal Hockley, is intact again this year. This trio was the WIHL's top scoring line last season with 221 points and is well on the way to another successful year, having gathered 20 points in only three games. Hockley is high point man with three goals and five assists.

The Dynamiters have been a tough team to beat on home ice in the past and few player changes have taken place this year. However, the Dynamiters have only three games behind them and are unlikely to have attained the playing condition reached by the Maple Leafs, who have played a total of six games and who opened training camp several days earlier.

If Charlie Rayner's blue line brigade can thwart the lethal Dynamiter front line, then the Maple Leafs should start the season on the right foot on Kimberley ice.

Hotspurs Gain Top Place Tie

Hotspurs defeated Celtics 1-0 in a Nelson Junior Soccer League match Saturday afternoon to slip into a tie with the Wanderers for first place in league standings. Wanderers gained first place Friday when they downed Rangers 2-0.

Hotspurs' winning goal came on a penalty shot by Corbett. Late in the second half the Celtic attack slipped into high gear but was held scoreless by the Hotspurs' skillful defensive play and the fine goal-tending of Ted Archibald.

The Wanderer-Celtic match Friday was one of the cleanest, most closely-contested matches of the season. The Wanderer 2-0 victory was largely due to the accurate passing of a tightly co-ordinated forward line. Scorers for the Wanderers were Englebacht and Abrahamsen.

WALES BEATS ENGLAND FIRST TIME SINCE '38

LONDON (CP) — Goals by Cliff Jones and Derek Tapscott in the first half gave Wales a 2-1 upset victory over England Saturday, the first time the Welsh have beaten the English in international soccer since 1938.

(Scores on Page 6)

Playing in Cardiff, Wales outplayed England and wasn't scored upon until the second half when centre half John Charles headed the ball into his own net for England's lone goal.

Alf Sherwood, Welsh captain and fullback, followed English winger Stanley Matthews all over the field. His tactics kept Matthews tied up most of the time and took the sting out of England's attack.

Jack Morris Heads Kaslo Shuttlists

KASLO — Jack Morris was elected president of the Kaslo Badminton Club at its annual meeting here. Also elected were, vice-president, Iris Clarke, and secretary-treasurer, Mrs. Betty Tate.

Indications are that the coming season will be the best in years. In order to encourage new members, visiting players are to be allowed one free night and a few new racquets are to be purchased for novices wishing to try the game.

Toronto and Montreal Markets Break Attack of Monday Blues

By PATRICK FELLOWS
Canadian Press Staff Writer

Prices made a cautious but persistent advance on stock markets in New York, Toronto and Montreal last week. A run of three Monday slumps, triggered by the Sept. 25 news of President Eisenhower's illness, was broken when the week's opening session recorded a mild forward movement

Th advance continued quietly throughout the week and at the close Friday stood at around the 424 mark

Some traders said the market picture would remain uncertain. Prices of some stocks are seen as relatively high and many institutions are investing only on declines.

A $5-a-ton increase in the price of newsprint by St. Lawrence Corporation strengthened paper stocks in anticipation of a general price rise.

WESTON'S STOCK SOARS

Weston's was a standout Thursday with a jump of $9.25 on rumors that the company would take over the big U S. supermarket chain of Safeway Stores Inc. of San Francisco. Safeway officials later denied the reports. Weston's was the top performer of the week at Toronto, adding $11 to $133.

Other best advances at Toronto went to Ford A. up $5, Canada Malting 4, Toronto Mortgage 3⅞ St. Lawrence corporation 3½, Canadian Westinghouse 3⅛. Between two and three points ahead were Chrysler, General Motors, Shawinigan, International Petroleum, Federal Grain and Canada Iron Foundries.

The advance in base metals closely followed that of industrials. International Nickel was up $4 The company announced a copper price increase Thursday.

Outstanding among urainiums was Brunston, following underwriting. The stock shot up 44½ cents to 64 on a turnover of 1,344,000 shares.

Golds showed very little change. McIntyre added $1.50.

OILS STRONG

Western oils made the best average advance of the week. Petrol Oil and Gas, selling at 40 cents in June, piled up gains for the second week and closed at $2.75, *up 81 cents on a 1,363,000-share* turnover. Canadian Collieries was strong with a 1⅞ advance.

Week's index changes at Toronto: Industrials up 4.90 to 424.25, golds down .49 to 84.22, base metals up 2.52 to 201.28 and western oils up 4.83 to 111.97.

At New York the Associated Press average of 60 stocks was up $4.20 to $169.90.

Week's index changes at Montreal: Banks up .20 to 47.01, utilities up 2.1 to 129 4, industrials off 1.60 to 277.00, combined off 0.30 to 227.8, papers up 14.70 to 1375.15 and golds up 0.11 to 74.33.

Week's volume at Montreal: 339,285 industrials and 2,884,788 mines. Previous week's volume: 386 313 industrials and 3,551,013 mines.

Zinc Back to One Price After Week in Split Price Parade

NEW YORK (AP) — Zinc joined copper for a short time last week in the split price parade. Customers protested. And at the end of the week the price advance was rescinded and all hands were selling at the old price of 13 cents a pound, basis East St. Louis.

Special high-grade zinc has been in short supply for months. The automobile industry is the greatest user.

For almost five years the price tag for special high-grade zinc has been on the basis of 1½ cents a pound above the quotation for prime western. This price of 14½ cents was maintained by those still selling prime western at 13 cents. The three producers boosting prime western to 13½ asked 15 cents for special high grade.

Then American Smelting and Refining Co., raised its premium for special high grade by a quarter cent to 1¾ cents a pound. Since it is one of those retaining the 13-cent base price, its special high grade was thereby priced at 14¾ cents a pound.

Consumers thus found two prices set on prime western and three on special high grade.

The American Die-Casting Institute protested the half-cent increase in basic price.

Copper users also found two prices quoted. The major producers held to their 43 cents a pound price and reported consumer demand greater than supply at that quotation. Custom smelters, who refine copper from scrap, reported sales at 45 cents a pound.

Major metals prices:

Copper—43-45 ents a pound, delivered. Foreign 40-45 cents, nominal, New York.

Lead—15.50 cents a pound, New York; 15.30 cents, St. Louis.

Zinc—13-13.50 cents a pound, East St. Louis; 13.50-14 cents, New York.

Silver—91,625 cents an ounce, New York; 79.75 pence, London.

New Model Comet Jets Stand Tests

LONDON (Reuters). — The makers of Britain's Comet jetliners have completed tests to ensure that the latest models will not crash because of metal fatigue

The de Havilland Aircraft Company announced Saturday it has completed more than 3000 separate fatigue tests on metal components for the Comet IV, during which they survived the equivalent of 60 years' wear. Vital parts survived the equivalent of 120 years' wear

The tests were inaugurated after exhaustive investigations into disastrous crashes of Comet IVs last year. The de Havilland experts intend that the new models shall have a "fatigue life equivalent" of six times the life expectancy of a jetliner.

Discharge McCarthy Witness From Army

FT. DIX, N.J. (AP)—G. David Schine, a key figure in the McCarthy-army hearings a year ago, was discharged from the army Saturday.

Schine, a specialist third class in the military police — a rank equivalent to that of corporal — spent 11 months of his two-year hitch at Ft. Richardson, Alaska.

Withdraw German Car From Racing

STUTTGART, Germany (Reuters) — The German-made Mercedes automobile, which returned to competition only three years ago to dominate the world's speedways, is being withdrawn from all racing, a surprise announcement said Saturday.

It came as the car's makers were celebrating its brilliant success this year in winning three world championships.

Mercedes cars were withdrawn from Grand Prix racing after the Le Mans disaster last June in which 82 persons were killed when a Mercedes plowed into a crowd. Today the firm said it is also abandoning "for some time" sports car racing.

The firm's decision to pull out entirely from racing came as a shock to their drivers, who had not been told of the dicision made by the board of directors 10 days ago.

During the McCarthy-army hearings, the army claimed the McCarthy group brought improper pressure on the army to get preferential treatment for Schine. But the McCarthy camp charged Schine was used as a "hostage" to force the committee to go easy in its investigation for alleged Communists in the army.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars:

For Tuesday, Oct. 25, 1955

MARCH 21 to APRIL 20 (Aries) —You may be limited in the scope of your activities but don't ration the scope of your activities but don't ration the quality of your work. A keen, analytical outlook important. Routine matters and domesticity most favored.

APRIL 21 to MAY 20 (Taurus) —Don't permit your natural enthusiasm and ability to produce to be stifled by "wet blankets". Avoid arguments which usually lead nowhere. Plan an "action day."

MAY 21 to JUNE 21 (Gemini)—International news may bring a surprise. Show your true worth; your position may be improved thereby. Maintain a cheery attitude, which others will appreciate.

JUNE 22 to JULY 23 (Cancer)—Unused talents, like hoarded money, do not produce. Donate your efforts to worthy causes. A display of dignity and a discerning program are best bets today. Stay close to your job.

JULY 24 to AUGUST 23 (Leo)—Your associations can "make or break" you. Choose the right ones. Use logic, reasoning. Join the doers. Things move swiftly these days; keep pace, you are able.

ANGUST 23 to SEPTEMBER 23 (Virgo) — Use care in finances and employment matters. Interchange of ideas with associates, plans for future action favored. Give your best. Don't take all at "face value."

SEPTEMBER 24 to OCTOBER 23 (Libra)—Promote new, clever methods when the opportunity presents itself. Lost time is never regained. Don't be temperamental or you will destroy your effectiveness.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Don't dwell on past unpleasantness and don't let anyone persuade you to wrangle over it. Do enough forward thinking to promote more progressive action. Spend free time cheerfully.

NOVEMBER 23 to DECEMBER 22 (Sagittarius) — There may have been some changes made during the past few weeks that generally affect your business or finances. Review carefully, study new possibilities, retrench where you should.

DECEMBER 23 to JANUARY 21 (Capricorn)—People can be aggravating, you say at times—but then we ALL are people, so we all fit into the bother-the-next-fellow category occasionally. Recognizing our own shortcomings is important.

JANUARY 22 to FEBRUARY 20 (Aquarius) — Why not enjoy the benefits of this day fully? You will if you go about duties conscientiously and also enjoy the pastimes you like for relaxation. Keep on an even keel.

FEBRUARY 21 to MARCH 20 (Pisces) — Trust others as you wish to be trusted. Also remember to investigate where there could be deceit or even witless errors. Do not overlook details, no matter how small.

YOU BORN TODAY have a variety of assets for a variety of fields. But you may tend to spread your activities or interests too thin and thus defeat the excellent gains your talents could produce for you. Concentrate on one or two things at a time. You will feel less rushed, better fit for bigger things. You could do well at law, military life, science. You have unusual energy and recuperative powers.

Birthdate of: Georges Bizet, famous French music composer, Thomas Babington Macauley, noted Eng. essayist, statesman; Richard Byrd, aviator-explorer.

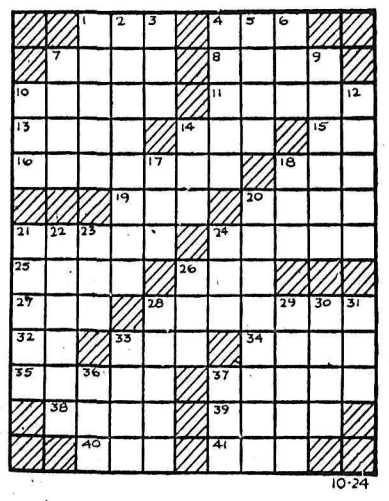
Saturday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints Each day the code letters are different.

A Cryptogram Quotation

M R I W L R T C U B X B X L R K K C L X W B P U F M H K U B P U N C W U M I — F M G C Q U W W.

Saturday's Cryptoquote: MADE EVERY DAY HE HAD TO LIVE TO HIS LAST MINUTE A PREPARATIVE—BYRON.

"Do It the Easy Way"

Recall Missionary Back To England

JOHANNESBURG (Reuters) — Rev. Trevor Huddleston, a Church of England missionary noted for opposing South Africa's racial discrimination, has been recalled to England where he will work as a master of novices, it was learned Saturday.

The missionary's sympathy with the Africans has irritated South African authorities. Once police shut down a meeting he was addressing.

His only comment was: "In a religious community, one is under a vow of obedience, and therefore such decisions must be gladly accepted."

U.K. Insurance Co. Head Tours Canada

MONTREAL (CP)—The head of one of Britain's biggest insurance firms said Saturday United Kingdom investors are taking an intense interest in Canada.

Sir Frank Morgan, 67, head of Prudential Assurance Company, said in an interview that as Britain regains economic confidence her interest in Canadian development increases. Accompanied by Rupert Thorp, who formed Prudential's Canadian branch in 1926, Sir Frank is on a Canadian tour.

Bernard's End To Guessing Game

LONDON (AP) — Lt.-Col. Marcus Lipton, Labor member of Parliament, demanded that the government put an end to the Princess Margaret-Peter Townsend guessing game.

"The public," Lipton said, "is getting fed up with this long drawn out business.

"Apparently they love one another and if someone is holding up a marriage, then let him say so. It may be the Church, or somebody else. But anyhow, let's stop all this guessing."

When Parliament reassembles Tuesday, Lipton is going to ask Prime Minister Eden "whether he will introduce legislation to repeal or amend the Royal Marriage Act of 1722."

OUT-OF-DATE CONTROL

"The present government says it believes in freedom from controls. If it does, then it should abolish the out of date controls still exercised by the Royal Marriage Act."

The act forbids any member of the Royal Family under 25 years old from marrying without the sovereign's permission. After 25, the Royal Family member must give a year's notice to Parliament. Should Parliament disapprove, any marriage would be null and void.

Princess Margaret was 25 last August.

BROADSTAIRS, England (AP) —Fire broke out Saturday in Bleak House, said to be the dwelling used by the novelist Charles Dickens in his story of the same name.

Servants at the house discovered curtains ablaze in a sitting room, threw water over the fire and called the fire department. Considerable damage was done.

SHORT SHIRT-TAIL

SALFORD, England (CP) — A man who bought a shirt in this Lancashire town complained to the weights and measures officer than "the tail was too short." Objection over-ruled.

BACKACHE May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now. 81

Fashion Designer and Movie Star Wife Find Ideal Home In Brazil

By BOB THOMAS

HOLLYWOOD (AP) — The two persons you would least expect to find settling in the wilderness of Brazil are Janet Gaynor and Gilbert Adrian.

Yet the famed fashion designer an his wife, first winner of the Academy Award, have just returned from nine months at their new home, 1000 miles inland from Rio de Janeiro. And after the first of the year they'll be heading back for another lengthy stay.

What prompts two people who have led active professional lives to leave civilization behind?

"We fell in love with the place," Miss Gaynor related. "We went down there for the Brazil film festival in January of 1954.

"A friend of ours was flying inland to look over some property and asked us to go along. So we did. Our friend didn't find the place she wanted, but we did."

"Everything seemed ideal," Adrian continued. "It wasn't too much like a jungle. The place had been cleared for coffee growing. It seemed like a perfect location for our painting."

MARY MARTIN AGREES

Their enthusiasm for their new home is contagious. In fact, they have already converted one famous family — Richard Halliday and Mary Martin.

"We thought we had chosen the place quickly," Miss Gaynor laughed. "We had been there about a week before we decided we wanted to live there. Dick and Mary came one afternoon and left the next morning. They saw it in the daylight only about six hours. But they told us we had to find them a place to live there."

Now the Hallidays own the next farm. Miss Gaynor said they plan to go there after Miss Martin does her telecast of "Peter Pan" in January.

There is road transportation from the coast, but air travel is regular and more satisfactory.

Women Make Good Job of Doing Themselves

[illegible] EG (CP) — Winnipeg wiv[illegible] taking the "do-it-yourself" slogan seriously. And the husbands don't seem to be objecting.

A new night class for women only, part of the school district's annual evening classes, guarantees to teach the women how to weatherstrip the windows, repair a leaking hot water tank and, if necessary, install kitchen cabinet locks.

The class will also train women on how to cut glass and glaze a window, repair a garden hose, clean a clogged drain pipe, mix and tint paint and use interior and exterior paint.

If she still has some energy left she can "repair scratched furniture, install rubber and plastic tile, replace fuses, fix and adjust locks, repair electrical equipment."

And just in case that doesn't cover everything there's another item: "When to call a service man."

New York Regains Much Ground Lost in Former Stock Jitters

By WALTER BREEDE Jr.

NEW YORK (AP) — Business, spurred by record consumer spending, headed for new high levels last week.

Department store sales showed a thumping eight per cent gain over year-ago levels, steel production (scheduled at 96.1 per cent of capacity) was up 31 per cent, the auto industry rolled out 1956 models in increasingly heavy volume, rail freight traffic was the highest in nearly three years

Corporate earnings reported for the first nine months pointed to lush rewards for shareholders. Chalking up record profits were such blue chip firms as Continental Can, Eastman Kodak, St. Regis Paper and Union Carbide. The stock market regained a substantial portion of the ground it had lost in the aftermath of President Eisenhower's heart attack.

TO GO INTO 1956

Top executives attending the annual Hot Springs, Va., meeting of the U.S. government's business advisory council said business activity will continue on a high plateau well into 1956 or longer.

U.S. government experts said the total of all business activity—the "gross national product" — might thrust to an unprecedented high this year of nearly $400,000,000,000, if the rate of gain in the current quarter measures up to that of July-August-September.

Other boom signals: Average take-home pay of U.S. factory workers in September reached its highest level in history $71.55 after taxes for a married worker with two children.

Labor Secretary Mitchell, looking ahead to 1956, predicted more jobs, fewer unemployed and possible manpower shortages.

Law Custodian Steps Down From Office

OTTAWA ((CP) — Clare Moyer, for 17 years custodian of the mass of laws put on Canada's statute books since pre - Confederation times, retired Saturday.

Mr. Moyer, in his time a $12-a-week newspaper reporter, a lawyer and a prime minister's secretary, steps down on his 68th birthday.

The native of Preston, Ont., son of a country doctor, held perhaps the most history-steeped title of any servant of Parliament-clerk of the Senate, clerk of the Parliaments and master in chancery.

He is succeeded in the $13,500-a-year post by a man 10 years his junior, John F. MacNeill, lawyer son of a Hampton, N. B., Baptist minister. Mr. MacNeill was formerly law clerk of the Senate.

War Would Spread Red Doctrine, Mao

TOKYO (Reuters) — Mao Tse-tung, Red China's head of state, has been quoted here as saying that he would be prepared to bet that "at least 80 per cent of the world would become Communized" in the event of a third world war Asahi Shimbun, a leading Japanese newspaper, says Mao made his remark to a group of Japanese Diet parliament members, adding that because of this, "there is no reason for us to be

Russian Economist Encourages Tours

LONDON (AP) — Alexander Tulipnikov, an economist who toured Canada and the United States recently with a Russian agricultural delegation, said Saturday there should be more visits of this kind.

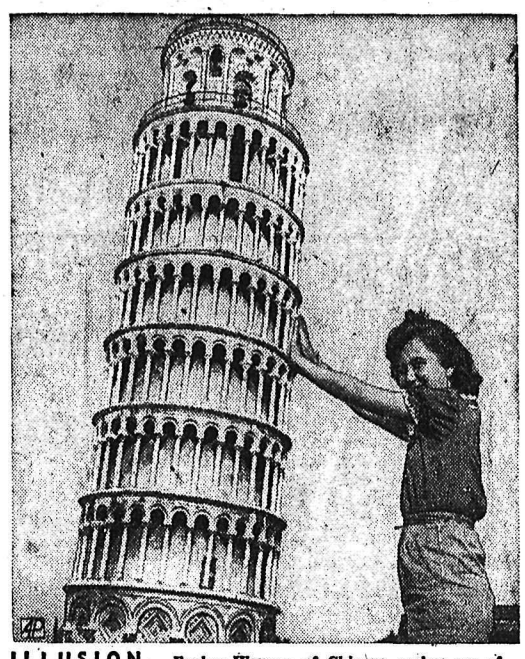
Interviewed over Moscow radio, Tulipnikov said "the contacts we established last summer should be encouraged and developed in every way . . . We saw much that can well be applied to Soviet agriculture."

He said "we were particularly interested" in self-feeders for cattle, "extensive use of antibiotics to the fodder to stimulate animal growth.

"The western farmers of the United States and Canada raise the cattle with a small expenditure of labor."

EASTBOURNE, England (Reuters)—Geoffrey Dean, six-foot-six, got tired of being asked "is it cold up there?" so he formed the Eastbourne and District Topliners' Club. The chairamn is 26-year-old Miss Monica Cornford, who is six feet and a half-inch.

The qualifications are that men must be more than six feet tall and women more than five feet, eight inches. The club magazine, The Beanstalk, gives lists of firms which specialize in clothing for tall people.



ILLUSION — Evelyn Wanzer, of Chicago, makes use of optical illusion, not muscle, to "support" the 272-foot Tower of Pisa, Italy, that has been leaning for most of its 900 years.

Employers Stand to Gain From New Retirement Pension Plans

By The Canadian Press

More and more workers in Canadian industry are coming under retirement pension plans.

For a variety of reasons, both employers and unions have been either inaugurating, or negotiating for, pensions in a miscellany of ways.

Some 80 per cent of office employees and 70 per cent of plant workers in industry now are covered by some form — contributory or non-contributory—of retirement allowances.

In an analysis of industrial pension plans, Labor Research, a monthly bulletin of the Canadian Congress of Labor, lists these advantages for employers in such plans:

1. Improved employee morale.
2. Greater employee identification with the company's future success.
3. Reduced turnover of personnel.
4. Easier recruiting of workers.
5. Increased good-will in the community.

AN ACCEPTED FACT

"Whatever the approach," Labor Research says, "it seems clear pension plans for wage earners have become an accepted fact of industrial life and are likely to remain so in the foreseeable future."

Labor Research suggests income tax legislation has been a factor in the establishment of contributory plans. For about 35 years, the federal government has progressively expanded the amount and nature of tax-deductible income put into a pension fund.

"What does the future hold for industrial pension plans in Canada?" Labor Research asks.

"As long as the present level of old-age security legislation is maintained, there is every reason to believe that such plans will continue to exist and expand in number.

"Should present legislation be substantially liberalized, the tendency will be for industrial pension schemes to be negotiated as supplements to the government scheme, which is the prevailing pattern in the United States.

"The word 'negotiate' is used advisdely, since it is quite clearly the policy of the labor movement to make pensions a bargainable issue where this is not the case . ."
