58 Perish in Avalanches

Ottawa Allots $465,000 for Columbia Study

Power Surveys of River Watersheds Tops List of Estimates Before House

A proposed allocation of close to half a million dollars for further study of the Columbia River power possibilities is in top place in Dominion Government attention to the needs of Kootenay West.

The sum of $465,000 for studies and surveys of the Columbia River watershed leads the list of items provided for in estimates now before the House of Commons, H. W. Herridge, MP, has advised The Nelson Daily News.

Next biggest sum is $355,000 to complete the Trail federal building. The sum of $75,000 would be provided to complete Nelson's new public building, and $60,000 for Castlegar's.

Other items provided for are dredging of the Columbia River narrows, $30,000; removal of gravel bar near Burton, $5000; snag and driftwood removal and straightening of the Duncan River, $5000; drift removal on Arrow Lake, $2000, and drift removal on Kootenay Lake and River, $1500.

Cost of these proposed works amount to $998,500.

In addition, the office and residence buildings of the Department of National Revenue at Nelway are to be painted. There is also provision in the estimates for construction of a residence and office at Waneta, and construction of a temporary warehouse at Patterson.

Hon. George C. Marler, Minister of Transport, has informed Mr. Herridge that authorization for the installation of lights at Albert and Whiskey Points has been given, and that he is looking into the question of other lights at Cape Horn and Johnson Point.

Necessary funds are also being provided for continuation of the investigation into Little Cherry disease.

QUAKE ROCKS TOKYO

No Damage in 30-Second Tremor Over 100 Miles

TOKYO (AP) — A frightening earthquake hit Tokyo with a crack and a long roll at 9:54 a.m. Monday but the city apparently escaped damage.

The underground jolt rattled and shook big steel and concrete buildings for about 30 seconds. Quiet soon returned to the oft-rocked capital.

The central meteorological observatory said the quake hit 4 on a scale of 7 for maximum intensity.

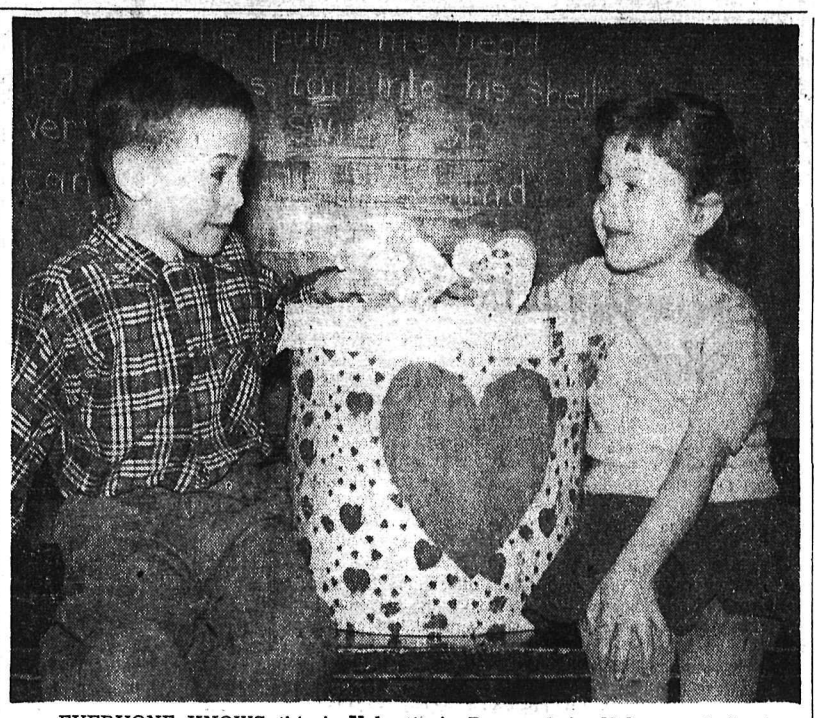
It shook an area more than 100 miles in diameter.

Few residents could recall such a violent quake in the capital since the war. Two smaller quakes rocked Tokyo last Friday.

Guests at the swank Imperial Hotel bolted for the doors when the building shook furiously.

The Imperial, built in 1922 by Frank Lloyd Wright, is almost the only major building that survived the great Tokyo earthquake and fire of 1923 when more than 100,000 were killed.

Residents in flimsy wooden houses outside the downtown area reported their homes were buffeted so badly it was difficult to stand.



EVERYONE KNOWS this is Valentine's Day and in Nelson and district schools the posting of valentines is a big event. When you're in Miss Agnes Jerome's room in Hume School you have this lovely box to post them in. Robbie Jones, son of Mr. and Mrs. Reg Jones, and Judy Low, daughter of Mr. and Mrs. Jimmie Low, have theirs all ready for sending. And who are the Valentines for? Judy and Jimmie will tell you that's a big secret.—Daily News photo..

Snowslides Bury Seven Yugoslavian Villages

By EDWIN SHANKE

LONDON (AP) — Avalanches Monday swept at least 58 persons to a "white death" as new snowstorms raged over shivering Europe. The known death toll in the continent's worst winter soared to 397.

Snowslides roared down the mountains of Macedonia in southern Yugoslavia and buried seven villages. Belgrade radio said 58 Yugoslavs lost their lives and another 19 were gravely injured. Rescue officials said 29 bodies had been recovered by nightfall. They estimated that 50 workers of the Mavrovo power station died under a giant snowslide which hit the village.

New disaster was threatened, the broadcast said, because the mountains of snow blocked the swollen Radika river at several spots and the water was rising dangerously.

Yugoslav troops joined mountaineers in rescue efforts but were handicapped by snowdrifts 12-feet deep in places. A mercy train with doctors, equipment and food bucked its way through the snow to the stricken area.

600 VILLAGES ISOLATED

In Austria, two women were feared killed in avalanches. Upwards of 600 villages in Italy, France, Greece and Yugoslavia were isolated by the snow.

Aircraft of European nations and the U.S. Air Force were out on mercy missions with blankets, clothes, food and fuel.

The wreckage of a Greek Air Force Dakota — on a mercy flight with 17 persons aboard — was spotted on 5800 foot Mount Dyrphis, 50 miles north of Athens. Rescue parties were not expected to reach the scene before today because of heavy snow. They held out little hope of any survivors.

The death toll by countries:

France 85, Britain 45, Italy 53, West Germany 22, East Germany and Berlin 5, Greece 26, Turkey 16, Denmark 19, Holland 14, Austria 9, Switzerland 10, Sweden 4, Yugoslavia 65, Spain 2, Belgium 4, Cyprus 2, Tripoli 2, Portugal 10.

The worst cold wave to strike Europe this century was in its third week and more cold and icy winds were predicted generally. The extended freezup, with hardly a break, brought extreme hardships and misery to millions in southern Europe unprepared and unused to such relentless cold.

The coldest spot in Europe was Muodoslompolo in Sweden's far north, where the mercury sank to 41 below zero.

FUEL SHORTAGE

Ice choked Europe's rivers and canals and practically halted transport of heavy tonnages of fuel and other supplies. Some of Europe's biggest cities were beginning to feel the pinch of short supplies.

Milan, Italy's second largest city, closed its schools for four days to conserve fuel. Vienna also was threatened with a coal shortage.

Ice blocked parts of the Oslo fjord and delayed shipping. Denmark's icebreakers were slowed to a snail's pace in their efforts to smash the thickening harbor ice.

Snow blanketed almost all France. Fruits and vegetables grew scarcer in Paris' central market and prices jumped as much as 50 per cent. In Lisbon water conduits froze up and cut off the capital's water supply.

148-Day GM Strike Over

TORONTO (CP) — The General Motors of Canada strike, longest in the history of North America's automotive industry, ended Monday night. It lasted 148 days.

The walkout officially ended at midnight. The 17,500 strikers, members of the United Auto Workers (CIO-CCL) gained a contract running to Aug. 1, 1958.

The workers will receive hourly wage increases totalling 18 cents spread over the next two years. The contract also covered a guaranteed annual wage, pensions, union security and health insurance.

The union backed down from a demand from full company-payment of health insurance payments and accepted a scheme of equal payment by company and employees. This was the most contentious issue.

George Burt, Canadian direction of the UAW, estimated union members will receive package benefits, including wage boosts, worth 25 cents an hour.

Texas Farm Party to Come Here in Summer

Nelson will probably entertain this summer, though briefly, a touring party of 180 students of farm methods from Texas.

The Canadian Pacific Railway has been informed by Travel and Transport, Inc., that the WFAA seventh annual farm study tour will be made by special trains from Dallas, through the United States to Regina and thence west.

The special train transporting the party along the Kettle Valley line will leave Cranbrook July 17 and arrive here about 2 p.m.

For the stopover of two to three hours, the travel agency is looking for a "pleasat town" that will prove of interest to the Texans.

Mayor Joseph Kary has expressed himself as fully in favor of Nelson being the chosen stopover point along the southern B. C. route of travel, and the Chamber of Commerce will be informed of the prospect of entertaining the visitors.

Last year the Penticton Board of Trade entertained the Railway Club of Southern California on a similar tour.

New Find Starts Oil Rush

EDMONTON (CP) — A new major find was announced Monday, ninth anniversary of the now famous Leduc discovery of 1947.

On Feb. 13 of that year Imperial Oil Ltd., brought in its No. 1 Discovery well at Leduc, 20 miles south of Edmonton, setting off a furious search for "black gold" and signalling the start of new prosperity for the province.

February, 1956, has brought a new major discovery, 200 miles north of Edmonton in the Lesser Slave Lake area where oil searchers had almost given up hope.

The provincial government reported Monday it has issued reservation rights to nearly 5,000,000 acres of land in the northern region. The filing of reservation claims, which is continuing, was described as the biggest "oil rush" in the history of northern Alberta.

Rail Hearings Into Third Week

MONTREAL (CP) — An attack on the wages yardstick being used by 16 railway unions in their contract demands has featured recent submissions by the railway industry to a conciliation board.

The three-man board Monday entered its third week of closed hearings into the multi-million-dollar deadlocked contracts dispute between five railways and 16 non-operating unions seeking wage, health-and-welfare and paid holiday concessions.

The railways continued submissions Monday to back up their stand that existing collective agreements should remain unchanged another year.

The wage standard of the durable goods industries—auto, furniture, electrical appliance and others—has been described by the unions as their "bed-rock" position. They seek a 26.3-cent-an-hour wage increase, their first since 1952. This would give them an hourly wage of $1.72.4.

Malta Vote Favors Integration 3-to-1

VALLETTA, Malta (Reuters) Malta's predominantly Roman Catholic electorate Monday rejected strong church pressure against closer integration with Britain, with final results showing a 3-to-1 majority in favor of integration.

The two-day referendum, which ended Monday night, was to decide whether Maltese members should sit in Britain's House of Commons.

Final result was 67,607 votes 74.8 per cent of the votes cast in favor of integration and 20,177 votes against. There were 2559 invalid votes.

Labor Minister Dom Mintoff pushed the referendum for outright integration of Malta with Britain, while the opposition Nationalist party favored Dominion status within the British Commonwealth.

Mintoff would not comment about the results of the vote, but it is understood he regards the results as a victory and a vote of confidence.

NOT CLEAR CUT

A spokesman for Roman Catholic Archbishop Gonzi, who demanded that guarantees of church freedom be written into Malta's constitution before the vote, told Reuters:

"This is not a clear and unmistakable expression of the people which the round-table conference between British and Maltese representatives in London rently stipulated."

Dr. George Borg Olivier, leader of the Nationalist party which boycotted the referendum, said: "The result shows the people's lack of confidence in integration. The plan should be dropped forthwith."

Miss Mabel Strickland, speaking for her Progressive Constitutional party, remarked: "It is quite impossible to integrate on such terms. The government held the referendum under completely favorable conditions as it was government-controlled."

Mother, Four Kiddies Slain

SHERBROOKE, Que. (CP) — A pregnant mother and her four children were clubbed to death in their home in a quiet residential section of the city Monday and police said they were holding the woman's husband as a material witness.

The bodies of Mrs. Romeo Drapeau and her children were found in the afternoon by police, acting on a tip from a priest in nearby Waterloo, Que. The victims had been beaten to death with an axe and a heavy stick.

They said the oldest boy, Claude, 7, was dressed for school and the second son, Pierre, 6, was apparently in the process of dressing when they were killed. The other victims were Michel, 3, and Manon, a little girl still in her cradle.

Police said Drapeau went to a parish priest in Waterloo and told him he had killed his wife and children. The priest informed police who took Drapeau into custody as a material witness.

Neighbors said he had complained recently of being tired and run down. They said he was about 40 and seemed devoted to his wife and family.

Parliament Monday

By The Canadian Press

Agriculture Minister Gardiner apologized to the Commons for having his Friday references to margarine use in Quebec deleted from Hansard.

Speaker Rene Beaudoin said he had erred in authorizing the deletion and accepted the responsibility.

Opposition Leader Drew, CCF leader Coldwell and acting Social Credit leader Hansell all criticized Mr. Gardiner for his action.

Dr. Owen C. Trainor (PC—Winnipeg South) proposed that health insurance premiums be deductible for income tax purposes.

Finance Minister Harris rejected the proposal, saying it tends to benefit only those paying health insurance premiums.

Burglar Marked Man

COLUMBUS, Ohio (AP) — Police think a burglar who broke into a parking lot shed Sunday night should be red-faced indeed. Charles W. Beeler, operator of the lot, aroused by numerous burglaries, rigged up a surprise for anyone entering the shed illegally. He put an open can of red paint inside over the door and connected it with a wire so it would trip when the door opened. It must have worked. Police said paint markings indicated the intruder got the full shower.

Eden-Ike Report Disturbs Soviet

MOSCOW (AP) — Russia asserted Monday the Eden-Eisenhower declaration on the Middle East "cannot but disturb peace" in that area. It warned against use of foreign troops there without a prior agreement of countries concerned and United Nations approval.

A statement issued to foreign correspondents at the foreign ministry said "any activities aimed at complicating and increasing tension in the region of the Middle and Near East cannot but be a matter of legal jurisdiction and interest for the Soviet Union" because the situation there is directly related to Soviet security.

"Lack of Candor" Destroys Trust

By RANALD MACLURKIN

LONDON (Reuters) — Foreign Secretary Selwyn Lloyd Monday charged Russian leaders with "lack of candor" over Britain's renegade diplomats, Guy Burgess and Donald Maclean, who reappeared in Moscow on Saturday 4½ years after vanishing.

Recalling recent disavowals by Soviet Foreign Minister Vyacheslav Molotov and Soviet Communist party chief Nikita Khrushchev that they knew anything about the former-foreign office men, Lloyd told the House of Comons:

"This kind of conduct shows you how difficult it is to establish the relations of mutual trust which the Soviet Union professes to seek."

The statement handed by Maclean and Burgess to Reuters Moscow correspondent Sidney Wiland, another British newspaper man and two Russian journalists was designed "to be used for propaganda purposes," the foreign secretary said.

Eden Reports . . .

Rein on Nuclear Weapons Discussed

LONDON (Reuters) — Prime Minister Eden told the House of Commons Monday that he and President Eisenhower discussed the possible regulation or limitation of nuclear weapon tests during their Washington talks.

Eden said investigations were taking place in Britain and America to see whether the tests gave rise to "any appreciable hazard."

"But I am bound to report," he said, "that Her Majesty's government at present share the conviction that the radiation dose to human beings arising from the testing of megaton weapons at the present rate is insignificant compared with the radiation dose received from natural causes."

Eden also said that "certain differences" exist between him and President Eisenhower over far eastern policy. Britain has been pressing for a relaxation of the trade embargo on Communist China.

REVIEW TRADE

"We have not receded from our position, nor, it is fair to say, have the U. S. government modified theirs," he said.

But the control of trade in strategic materials with Communist China will be reviewed, Eden noted.

Eden said that the Middle East is the "chief cause of concern" in the Washington talks, but Britain and the U. S. were in complete agreement over their obligations in trying to ease tensions there.

He added: "Of course any settlement must involve some compromise but there is nothing dishonorable in a compromise."

Britain and the U. S. are ready to help financially and to guarantee agreed frontiers, he said.

KELOWNA BABY RUSHED TO COAST

VANCOUVER (CP) — The three-month-old daughter of Mr and Mrs. Frank Maxson of Kelowna, B. C., a "blue baby" since birth, was flown here Monday by RCAF mercy plane.

The aircraft, with Flt. Lt. J.C.B. Tanguay, an RCAF doctor, aboard, landed at Hope, B. C., 100 miles east of here, when stiff head winds ran it short of fuel.

On the flight down, the baby was cared for in a portable incubator.

DYCK DUE FOR THIRD TRIAL

REGINA (CP) — Jacob Dyck will be tried on a murder charge next April for the third time.

He appeared in Queen's Bench court Monday, less than 24 hours after a second jury said it was unable to agree on a verdict, and was remanded in custody until the next sittings here.

Dyck, 45-year-old farm laborer, is charged with the New Year's Day, 1954, slaying of Mike Todor, 74, whose body was not found until last April.

Hit-Run Victim Still Unconscious

VANCOUVER (CP) — Victim of a hit and run accident Saturday night was still unconscious in hospital late Monday, 48 hours after being admitted.

Doctors said the victim, Alex Findlay, still had only a 50-50 chance of surviving.

He was suffering from pelvis and leg fractures and internal and head injuries.

Ike's Heart Gets Test Today

WASHINGTON (AP) — President Eisenhower will get a Valentine Day medical report today on the condition of his heart. On Wednesday he will leave for a vacation in Georgia, and he may reach a final decision there on whether to seek re-election.

A team of physicians including Dr. Paul Dudley White of Boston will meet at the White House about noon today to start analyzing the results of a series of tests the president underwent Saturday at the army's Walter Reed Hospital.

A few hours later the doctors will tell Eisenhower how his heart is standing the strain of the presidency more than 4½ months after suffering a coronary thrombosis in Denver, Colo., last Sept. 24.

His last previous full-scale examination was in mid-December.

At that time the physicians said they should know by the middle of February just how complete Eisenhower's recovery was going to be. The president plans to weigh the results of the new physical check-up in deciding whether to run again, but he told a press conference last week he probably will rely more on how he feels than on the doctors' reports.

THE COLD SPELL now upon Europe isn't discriminating. It falls on the rich and poor alike, even though the rich try to flee to the playground of the Mediterranean coast, usually immune. Here's a view of the Promenade Des Anglais at Nice after it was covered by a blanket of snow that made the semi-tropical plants look somewhat incongruous.—Central Press Canadian Photo.

Queen's Grooming Wins Applause From Nigerian Women Columnists

IBADAN, Nigeria (AP) — The Queen's restrained grooming has jolted Nigeria's Mayfair, where dusky beauties parade in king-size gold ornaments and apply their face powder with a ladle.

The royal visit has touched off a spate of lectures in fashion columns of the Nigeria press.

"All of us who are particular about fashion will have something to copy from the Queen," said a woman writer in the Ibadan Tribune.

"Let us watch the style and suitability of her dress.

"Let us see how nicely she does her hair and applies makeup."

"Adora" of the Lagos Times was more blunt.

"How would a distinguished African woman, not even a queen, have landed at Ikeja Airport?" she asked.

"I'll dare tell you.

On every other finger there would be at least two gold rings.

"Around the neck would be rows and rows of gold beads.

"There would be a long gold chain almost touching the knees.

"That is not all.

"On the blouse there would be two large brooches, each vying with the other for place.

"On the ears would be large earrings practically tearing the ears down.

"Around the wrists there also would be one or two gold bracelets.

"In fact, the only spot that would escape this extremism would be the teeth."

And in This Corner...

EVERETT, Wash. (AP) — Ralph W. Drake is a bit puzzled by an induction notice from his Chester Pa., draft board. Drake is an air force technical sergeant. He has been in uniform for nine years.

JACKSONVILLE, Fla. (AP) — A "creature from outer space" came down to earth and landed in city jail.

The "creature" turned out to be Richard Lorenz, 17, police said. They charged him with disorderly conduct in connection with several threatening letters to a teen-age girl.

The letters identified the writer as an invisible creature "from a planet in outer space; far out in space — 900 trillion miles out in space." One of them ended with this apology for the pencil scrawl: "I don't know why I can't write good when I'm on earth."

COLOMBO, Ceylon (AP) — Premier Sir John Kotelawala, welcoming a report that the United States will give Ceylon $5,000,000 in foreign aid, warned today he will not accept it if it has "strings attached." Kotelawala told reporters: "Even if aid comes from heaven it must be without strings."

NORTH VANCOUVER (CP) — Twenty-six motorists skidded right into court here Sunday when they received summonses for driving up Seymour mountain without chains. The tickets, issued under the Forestry Act, provide for a minimum fine of $25 and a maximum of $300.

PHOENIX, Ariz. (AP) — Bartender Jim Smith fired several shots at a prowler Sunday night and missed but they cut a main power line throwing half of north Phoenix into darkness. The prowler escaped in the dark.

No Trace Found of Grand Forks Man

GRAND FORKS — Peter W. Derhousoff, 26, missing from his home here since Thursday morning, had still not been found by Monday afternoon.

His parents, Mr. and Mrs. William Derhousoff, believe he may be lost in the Grand Forks area. He is unmarried.

Trail Again Plans Shopping Days

TRAIL — Retail section of the Trail Chamber of Commerce at a meeting here Monday night decided to hold a day similar to Trail Day to be held four times this year, in a close vote.

It was also decided that stores would remain open during the evenings on these four days which will be held on Fridays.

Minister To Look Into Roosville School Bus Situation

VICTORIA — Education Minister R. G. Williston will look into the Roosville school bus situation he told Fernie's Tom Uphill in the Legislature Monday.

The assurance came after Mr. Uphill had expressed grave concern over the position of school children in the Roosville and Grassmere district, able to attend school only with great difficulty since the school bus service to Fernie had been abolished.

"It's up to the school board, the minister said when Mr. Uphill first raised the question.

"Yes" the veteran member replied, "but a word from the minister can do wonders." The minister promised to look into the issue.

Mr. Uphill also drew to the attention of Premier W.A.C. Bennett the difficult position of Fernie merchants and others near both Alberta and American borders, who lose business to local residents who shop outside the province to escape the 5 per cent sales tax.

185 Freedomite Children Attending School

At present there are 100 Sons of Freedom voluntarily attending school in West Kootenay, and there are 85 others attending school at the New Denver Welfare Home. There are 25 to 35 children believed hidden away by parents at Gilpin and at Krestova.

In 1953 there were about 55 known depredations, 15 in 1954, and in 1955 there were five.

In 1954 $606,000 was spent on the problem. This includes CPR track and bridge patrols, West Kootenay Power and Light Company patrols and costs and RCMP patrols, all of which are still functioning, plus the New Denver Welfare Home and other items.

Slocan City Man Passes Here

Samizo Murakami, 61, of Slocan City, who came to British Columbia 40 years ago from Japan, died Monday morning in Kootenay Lake General Hospital.

Born in Hiroshima, Japan, Mr. Murakami came to Canada and worked as pond foreman for McNeil Trading Company at Vancouver, before coming to Slocan City in 1942, and had since worked for Passmore Lumber Company.

He is survived by his wife at Slocan City, four daughters, Mrs. Emi Nishimura of Slocan City, Mrs. Satoka Takeda and Mrs. Aki Kamigochi of Midway and Mrs. Kimi Tagami of Nelson; and six grandchildren.

DRIVES TO COMMON DANGER

John Schesnuk of Nelson who was involved in an accident on Ymir Road February 4, pleaded guilty to driving to the common danger in provincial court here Monday. He was fined $20 and costs by Magistrate William Evans.

Cupid Has His Way Today

All the world loves a lover, the old adage goes, and just by way of proving the point a special day has been set aside for the exchange of loving sentiments—Valentine's Day.

This trading of hearts generally begins in earnest in grade one when hearts are cut out and colored and a shy "Be My Valentine" is printed on the back in writing, wiggly in spite of terrific effort to keep it straight. The not-so-bashful will sign their names while others put a question mark and live in an agony of hope that the beloved will surely divine the sender.

In about grade three or four, though, the valentines change, with boys losing interest in girls, and girls pretending to lose interest in boys (though they never really do), then the comic valentine comes into its own. Not until later teens do the hearts and flowers sentiments return, this time in real earnest since every boy a girl meets is surely THE one and vice versa, and full advantage is taken of Valentine's Day to bare the heart's burden of love.

These start "To My Dear Sweetheart" then follow "To My Dear Wife" (or husband) and one is never too old to feel a warm thrill on receipt of this tender remembrance.

This year, being Leap Year, Valentine's Day could be quite a day.

City Offers $6700 For Old Post Office

The city, at the request of the Crown Assets Disposal Corporation at Ottawa, has submitted an offer for the old post office building. At a meeting of the committee of the whole council February 6 it unanimously decided to offer $6700 for the old building and site which is located at the centre of the city. The committee's action was approved by city council Monday night.

In its offer to the Crown Assets Disposal Corporation council said it was "mindful that in the purchase of property it is limited under the B.C. Municipal Act, to $1 multiplied by the population figure for the city in the last census, or else it must put a bylaw to the taxpayers.

The letter from Council also asked consideration of the fact that the new federal building has removed several properties from the tax roll.

Council made the offer after receiving a letter from the Crown Assets Disposal Corporation suggesting they submit an offer to purchase ahead of tender.

"It was the intention that as soon as the building was vacant, it was to be avertised for sale, the Corporation explained in the letter, but "in view of the fact you wish to acquire the building for municipal purposes it might be possible to sell the property to the city on a negotiated basis without advertising."

The Corporaton said it understood the new building would be finished by March 31 and the old one vacant by May 1.

No Solution To Bus Strike

TRAIL—A brief review of the bus strike situation was given by president F. W. Moffatt of the retail section of Trail Chamber of Commerce at a meeting here Tuesday night. A satisfactory solution to date has not been evolved he said.

Former Interior Stages Ltd., drivers, on strike since Friday, met with company officials Monday in an effort to decide whether or not they are prepared to purchase the firm's buses.

The drivers will report back to company president Murray Gibson after discussing price quotations made by the company's board of directors.

Monday's meeting between the company and its former drivers resulted from Mr. Gibson's promise that they would have the first opportunity to purchase equipment.

38 Petitions for Underpass at Bridge Approach

A number of far-sighted Fairview citizens petitioned city council Monday night for a pedestrian underpass under the new West Arm bridge approach for the convenience and safety of adults and children.

The petition, signed by 38 citizens, will be forwarded to the B.C. Toll Bridge Authority at Victoria for consideration as council has no power to act on it.

The petition asked for an underpass from Fell Street to Nelson Avenue as citizens feel the intersections at Gordon Road and Kokanee Street will carry heavy traffic to the park and lake when the new bridge is completed, and they will not be safe for adults or children.

Nelson Jail Has Staff Changes

Several staff changes have been made at the Nelson jail, Alex Tulloch, warden, announced Monday.

Douglas Wilbur Maddin has been transferred from Oakalla and promoted to deputy warden. The appointment became effective last month. Mr. Maddin was formerly an Oakalla guard.

Four men have been engaged as guards, taking the place of men who had resigned here. They are Hugh George MacDonald, Wallace Marlow, Stanley Booth Playdon and Joseph David Mitchell.

There are 12 men on the staff, including warden Tulloch, and two matrons.

PHONE 1844 FOR CLASSIFIED

Magistrate Scores Drinking and Driving

It's high time organizations and the public generally took stock of "the liquor infiltrating into public social functions," Magistrate R. S Nelson told Nelson Rotary Club Monday.

"Liquor, combined with automobiles, is becoming the third-largest killer in Canada. In support of this statement he quoted statistics showing that traffic accidents took the greatest toll among people between three and 40 years of age in Canada in 1954, and that 40 per cent of motor accidents are due to alcohol.

ience as a law enforcement officer and now as magistrate, he declared that fines aren't going to stop careless drivers from endangering lives. "They should be taken off the highways until they come to their senses."

Magistrate Nelson's forceful address, in which he railed strongly against drinking and driving, gave a sharp edge to an announcement by Leslie Foan, an oil company representative here, of his company's coming safety program.

In an attempt to stem the rise in Canada's accident rate, the company is launching a new type of safety plan using quiz-form advertising. By reading the ads, the drivers and high school students who will become the future driving generation, can find out what is wrong with their driving ability and road knowledge; for instance, how long it takes a car to stop at 60 miles an hour.

If it is shown that the scheme wisens up the public, it may continue over several years, Mr. Foan explained. The company's Share the Road Club of the Thirties ran for seven or eight years.

THE ANSWER

"The only way to overcome the traffic accident problem is to educate people to their responsibilities as citizens," Magistrate Nelson said. "All that governments can do is bring down the regulations; pedestrians and drivers must obey."

As a means, he suggested lectures to school classes. Students, who defy motorists by refusing to walk on sidewalks or on the left of the street of highways where there is no sidewalk, served to show up public indifference to the duties of pedestrians. Indifference, more than carelessness, was blamed by the speaker.

Films of motor vehicle accidents, giving viewers the sound of grinding metal and the sight of mangled bodies, would shock the public into awareness. Co-operation of radio stations and newspapers is also of valued help.

Furthermore, traffic safety conscious people should talk highway traffic safety to those less interested.

Mayor Joseph Kary introduced the speakers.

Luncheon guests were William Burgess of Vancouver, formerly of Kaslo; Harry Kennedy of Lethbridge and V. C. Owen.

V. R. Neill was named to arrange for participation by Rotary Club in the inter-service club bonspiel, February 25.

West Germany was the largest customer for French moving pictures in 1955, followed by Belgium.

Council Jottings...

Request from Nelson Chamber of Commerce that a flashing signal be installed at the Baker and Railway Street intersection, was referred to the public works committee for study and a report by City Council Monday night. The chamber considers the intersection a dangerous one. They sent a similar request to the provincial public works department.

City Engineer G. Q. Lake felt the present stop signs on Railway Street were serving the intersection well and that nothing could be gained by a flasher sign. If the flasher signal was red in all directions it would lead to a form of "After you, Gaston" with one car politely waiting for the other to move, he felt, and if it was amber on Baker and red on Railway Street, it would be the same as the stop signs presently there.

City electrical superintendent A. C. VanSacker suggested lighting the intersection to warn motorists it was a hazardous one. This had proven successful in other areas, he said.

• • •

A request from Nelson Canadian Pacific Pensioners' Association for permission for use of Lakeside Park either July 18 or July 25 for their annual picnic to be held in conjunction with the Oldtimers' Association, was referred to the Parks Commission with power to act. All requests for the park will be referred to the Parks Committee councillors decided, as there are many of them during the summer.

• • •

Request from C. H. Sewell, 41 High Street, to have the city remove branches from a tree on his property that were overhanging electric wires, was referred to the Electric Light Committee with power to act.

• • •

Council approved purchase of two new stenographers' chairs for city hall. One old chair was broken recently, and Ald. Arthur Foster suggested two be purchased as part of a uniform pattern to replace chairs in the city hall. They are $42 each.

• • •

City engineer G. Q. Lake was authorized to advertise for an engineering student to assist him with work during the four summer months, and authorized a salary up to $300 a month.

Civil Defence Deputy Hears Plans On Survival at CD Conference

J. G. James, deputy co-ordinator for West Kootenay Civil Defence, has returned to Nelson from Arnprior, Ont., where he attended a Civil Defence officers' training conference.

The conference dealt at length with survival planning, whereby populations would be evacuated from target cities when an H-bomb attack warning is given. Reception areas to take care of evacuees have been designated for some time, Nelson district being on of them.

Mr. James said F. F. Worthington, Canada's Civil Defence co-ordinator, told the conference of last year's thearetical mass evacuation scheme at Nelson in glowing terms. He was referring to an exercise conducted by Kootenay CD volunteers in which they theoretically conducted an evacuation of Trail, a target centre.

Civil Defence was described at the conference as the fourth arm of the West's defences, and possibly the most important arm because in an H-bomb attack, the civilians would suffer most, Mr. James said. The more Civil Defence is built up, the less effective the H-bomb attack would be.

The billions of dollars being spent on retaliatory weapons were aimed at discouraging an attack, because once it was launched the attacker knew its cities would be showered with similar bombs.

West Kootenay co-ordinator is E. W. White of Nelson.

Teen-Agers' Safe Driving Rodeo To Be Held at Cranbrook May 12

CRANBROOK — Teen-Agers Safe Driving Rodeo, sponsored nationally by the Junior Chamber of Commerce, has been set for May 12, for the Cranbrook competition under Cranbrook Jaycee sponsorship. Central locaiton in the city is being selected, and emphasis will be on skillful handling of a car. The winner will proceed to Vancouver for regional competition, and winner of this will go on to Ottawa for the national championship which leads to scholarships of $1000, $500 and $250. Jaycees here have named Brian Clapp chairman.

Establishment of an East Kootenay Jaycee district to include Creston, Kimberley and Cranbrook separately from the present Kootenay division is being petitioned and will be considered by the June regional meeting of B. C. districts at Prince George.

On a recent official visit here Ross Smythe, Montreal, Jaycees national president, presented the district with the L. J. (Flip) Filipelli trophy for annual competition in public speaking among East Kootenay Jaycee Clubs.

Regret was expressed at the club meeting here at resignation of George Skelton, charter Jaycee member and officer here, and currently district director on the regional board. He leaves soon for a new position in Lethbridge.

Scout Leaders Course Held

CRANBROOK—A Scout leadership course for pooled Cranbrook and Kimberley volunteers interested in participating in Cub and Scout work in their areas, drew a registration of 20, including four women volunteering for Cub work.

Leading the course of three evening sessions and a field day was Field Commissioner J. V. Scrivener, and his aiding team consisted of Scout and Cub leaders of troops and packs in the two centres. First evening session was Thursday at Cranbrook, with Saturday and Monday sessions at Kimberley Scout Hall, and the field day at Wasa where instructing teams demonstrated outdoor work of cooking, woodmanship, tracking and winter camp games.

Both Cranbrook and Kimberley have a backlog of boy applicants for Scouts and Cubs whose needs cannot be met until more leaders are available.

Trail Man's Father Passes

TRAIL—Carroll P. Charlton, 70, retired secretary-treasurer of Britannia Mining and Smelting Company, and father of Thomas Charlton of Trail, died in Vancouver Saturday. He also leaves his wife and another son, Jack, of Edmonton.

Kaslo Little League To Organize Again

KASLO — The wheels are being set in motion for organization of Little League here again this Summer.

Names of all boys interested will be taken through the school, it was announced at a Kaslo Recreation Association executive meeting at the home of W. Hendren, president. The Association has several hundred dollars worth of Little League equipment and uniforms. Coaches are badly needed, and it is hoped that several men will volunteer for this work.

MEMBERSHIP DRIVE

A membership drive will be held, with Mrs. A. J. Jardine in charge. As the Association works only for children's recreation, it was felt that good support would be forthcoming from parents and citizens generally.

Const. J. Flamank, Scoutmaster, reported there were 22 Scouts and 12 Cubs, all showing a keen interest. Improvements being carried out at the Scout hall included floor laying.

A father and son banquet is planned for February 29. Kaslo Recreation Association executive forms the group committee for the Scouts and Cubs.

A meeting will be held early in March to discuss plans for May 24 celebration and Little League organizing.

Food Handlers Course Planned At Cranbrook

CRANBROOK — The Health Unit should investigate the possibilities of starting a food handlers course in Cranbrook in May. This was decided at a meeting of the East Kootenay branch of the Canadian Restaurant Association, attended by Sven Erickson, national president of the Canadian Restaurant Association; Zeke Kwan, Lethbridge director and Fred Anderson, president of the Southern Alberta and Crow's Nest Branch; Joe Colombo of Creston, president of the East Kootenay branch, was in the chair, and restaurant managers and food handlers from Kimberley, Creston and Cranbrook, were present.

Mr. Colombo welcomed all present and introduced the guest speakers. Mr. Anderson explained the purpose of the Restaurant Association and expressed the wish that an active branch could be formed in the East Kootenay and discussed the operations of such a branch in the future.

Mr. Erickson, the national president, indicated the need for greatly improved methods of food handling both in equipment and organization, and informed the meeting of tremendous changes taking place in the industry.

Representing the East Kootenay Health Unit, Dr. Gibson and Mr. Hindley, senior sanitary officer, discussed the setting up of food handlers courses and the responsibilities of the Unit in dealing with the restaurants in the area.

Discussion took place regarding whether East Kootenay branch of the Association should remain affiliated to Alberta or to Vancouver. It was decided the present arrangement was more satisfactory.

The meeting closed with the showing of a film called "Dishwashing Dividends," introduced by Mr. Hindley.

AOTS Club To Be Formed at Cranbrook

KIMBERLEY — Kimberley United Church men's organization, AOTS, has undertaken sponsorship of organization of a new AOTS at Cranbrook United Church where its representatives will discuss its function in the church and communtiy at a dinner meeting.

Kimberley AOTS has installed David Calder as its new president, Lawrie Garvin vice-president, Thomas Wilson secretary and Joseph Smythe treasurer.

Renata Rancher, P. Letkeman Dies

RENATA—Peter M. Letkeman, a resident of Renata for 39 years, died in Kootenay Lake General Hospital in Nelson, Saturday, at the age of 82.

Born in 1874, in Kronsthal, Ekalarinoslav government, Russia, he came to Canada in 1892, settling in Manitoba. He came to Renata in 1917, cleared 15 acres of land and planted fruit trees as well as small fruits.

He sold his first orchard in 1948, and with some help, at the age of 75, planted three acres in fruit. He was in good health until a few months ago.

He leaves his wife, three sons, David and Jacob, in Renata, and Peter at Robson; and four daughters, Mrs. Fehr, of Winnipeg; Mrs Babcock of Brockington, Sask., Mrs. P. Peters of Renata and Mrs. J. Zimmerman of Nakusp.

Interment will be in Renata Cemetery.

Large Turnout Urged For Fruitvale Meet

FRUITVALE—All people interested in recreation in Fruitvale are being urged to attend the annual meeting of the Fruitvale Recreation and Projects Society, to be held Friday. The meeting was postponed owing to poor attendance at the originally-scheduled meeting.

"The faithful ones throughout the years have grown tired of striving to fulfill the needs of the community as far as a park is concerned," the Society officers state. The meeting will decide whether the organization, formed 12 years ago from representatives from all organizations for the purpose of providing recreational facilities and equipment for all kinds of recreation, will go on or disband.

Funds To Be Raised For Balfour Church

BALFOUR — A discussion on how to raise funds for a costly looming in the near future took place at a business meeting of officers of St. Michael's and All Angels Church, held at the home of Mr. and Mrs. T. Craigdallie and conducted by Rev. W. S. Beames. A report on condition of the church interior was given by W. Kline, convener of the church committee.

It was decided to increase the amount of insurance being carried, as it was felt the church was greatly under-insured.

Extension of City Boundaries Would Boost Government Grants

Welcome is the announcement by Premier Bennett of a new scale of government grants to municipalities representing an increase of $2,137,931 over the previous year's allowance.

The grants are drawn up on a per capita basis and there is an increase in the sliding scale.

The allowances, with last year's figures in brackets, are as follows:

Population up to 3500, $16 ($14); 3500 to 8000, $12 ($9); 8000 to 50,000, $8 ($6); over 50,000, $6.50 ($4.25).

Under the new arrangement Trail receives $137,440, an increase of $27,360; Kelowna receives $114,136, an increase of $21,534, and Nelson receives $95,264, an increase of $16,816.

Nelson's population on which it will receive grants is 6772. Thus the figures to arrive at the total grant of $95,264 are as follows:

First 3,500 with grant of $16 per capita: $16×3,500	$56,000
Remaining 3,272 with grant of $12: $12×3,272	39,264
Total grant	$95,264

For the increase the figures are:

$2 for the first 3,500	$ 7000
$3 for the remaining 3,272	9,816
Total increase	$16,816

From a study of these figures it appears that Trail and Kelowna and other small cities are increasing in population and that Nelson's growth is slower, probably due to the fact that their boundaries have been enlarged while Nelson's remain unchanged. If the city's population increased to $8000 it would add another $14,736 to the city's income, and with the suburban area population added, the city could qualify for a much larger grant. This is one source from which funds would become available for improvement work in the areas that might be amalgamated.

Action on Natural Gas Must Be Prompt

Nelson has built up a thriving community based on her electricity service, but now that consumption has reached the limits of production it is essential that some other source of power be obtained if her progress and the development of the neighboring areas are to continue.

Natural gas, which is both safe and economical, offers an alternative. Its availability, besides providing for domestic consumption, would encourage light industries to locate in the district. Its uses in this respect are manifold. There is a strong body of opinion in the city that the bringing of natural gas to the community is one of the most important steps which can be taken to ensure the city's well-being in the future.

The matter is urgent, and brooks of no delay. With the certainty that a pipe line will be built to Trail within a short time, City Council should immediately take steps to meet further with the representatives of Inland Natural Gas Company to discuss the terms on which gas can be brought to Nelson.

If the German people were ever allowed to express their feelings at free elections the puppets who are held in power in East Germany by Soviet arms would be swept away.
—*Sir Harold MacMillan.*

National Unity and Two Languages

A country facing the problem of welding a nation with two principal languages faces no easy task. Canada has been struggling with this problem for close to 200 years, and while some progress has been made, even the most optimistic person will admit that we still are far from the goal.

One of the most important indications in recent years that further progress has been made in the direction of national unity was made in a House of Commons addreses by Jamese E. Brown, M.P. He reported a new and widespread interest in the French language throughout various parts of Canada.

Not so long ago the French-speaking Canadians were confined to the province of Quebec, or to a few scattered pockets here and there through what are commonly called the English provinces. Now the number is increasing, and it is interesting to see that they are making a determined effort to preserve their native tongue.

If we are to be "at home" wherever we go, it becomes imperative that we have a ready understanding of the two languages in common use in the country. But there is only one way that we can accomplish this, and that is by constant application until we achieve an easy familiarity with the second language. This, of course, applies with equal effect to both English and French-speaking Canadians.—Nanaimo Free Press.

It's Been Said

Haste and rashness are storms and tempests, breaking and wrecking business; but nimbleness is a full fair wind blowing it with speed to the haven.—Thomas Fuller.

Gems of Thought

TRIUMPH OF JUSTICE

Why should there not be a patient confidence in the ultimate justice of the people? Is there a better or equal hope in the world?
—Abraham Lincoln.

* * *

Justice waits, and is used to waiting; and right wins the everlasting victory.
—Mary Baker Eddy.

* * *

Our whole social life is in essence but a long, slow striving for the victory of justice over force.—John Galsworthy.

* * *

Man is unjust, but God is just; and finally justice triumphs.—Longfellow.

* * *

Justice has nothing to do with expediency. Justice has nothing to do with any temporary standard whatsoever. It is rooted and grounded in the fundamental instincts of humanity.—Woodrow Wilson.

They'll Do It Every Time

By Jimmy Hatlo

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

K. M., Nakusp — I should be grateful if through your column you would give me some instructions for the care of growing of calla lilies, especially why apparently healthy plants developed buds which never open but stay same for weeks? Plants are tall but not spindly, well watered with hyponex when necessary and are rested in summer, placed in good window in winter.

Too much variation of temperature could be one of the causes, also humidity in the home could be too low. Calla lilies need a very humid atmosphere and even temperature.

A. M., Rossland — Can you tell me the length and weight of the tiger shark?

P. G. G., Kettle Valley, has kindly sent in the following information: "Perhaps I can add a little to A. M.'s argument regarding tiger sharks. In 1937 or 1938 I saw in Taronga Park Zoo, Sydney, Australia, what was then reputed to be the largest tiger shark ever caught. It was 14 feet long and I may add very much alive. I saw many sharks around the Australian coast but never a tiger shark bigger than that captive one. Other creatures of the sea attain sizes in excess of 60 feet but certainly not the tiger shark. One look at the terrible jaws of a tiger will convince anyone that 14 feet is ample for that particular species!"

W. S. C., R.R. 1 — Is there an agent for the Gibson Tractor Company in Nelson?

The Reuben Buerge Motors, Ltd. 603 Vernon Street, are agents for Gibson Tractor Company.

H. I. B., New Denver — Is there any firm that repairs cushions of a chesterfield suite in Nelson? Also, when did Albert Einstein die?

Nelson Upholstery, 409 Hall Street, repair chesterfield cushions. Albert Einstein died April 19, 1955.

National Catchwords

Americans apparently have a sure-fire way to identify a Canadian by his speech.

They say Canadians use the word "eh" all the time. We slip it into the conversation every two or three sentences.

"Nice morning, eh?" "Got a new suit, eh?" "Go jump in the lake, eh?"

It is possible that we use the word "eh" as often as Newfoundlanders are said to use the word "boy" or "bye".

This may be our national catchword, eh?

It should suit Canadian temperament, being a cautious, tentative and comradely syllable. The man who tacks "eh" on a sentence is asking his friends' opinion before he goes ahead.

"Are you with me?" he wants to know.

Some Americans use the word "see" to excess, if we are not mistaken. "It's this way, see?" they declare. We should avoid too-easy generalizations. But it occurs to us that "see" is a typically American word just as "eh" is typically Canadian.

Canadians ask you. Americans tell you.
—Sherbrooke Record.

"Tribute"

All eager little minions of the Communist Party in North America should be interested to learn how they stand with the big boss over there in the Kremlin.

Lester B. Pearson, Canadian Minister for External Affairs, has reported on a conversation he had with Nikita Khrushchev in Moscow recently. He complained to the Red leader that every Communist organization in the non-Communist nations of the world is an agency of Soviet Russia. That, said Comrade Khrushchev, is their headache, and he added, "Why not liquidate them or put the members in concentration camps?" Quite a tribute indeed to the value of service rendered by the home-grown Reds we have around the place.—Penticton Herald.

Watch Your Language

COMPROMISE — (KOM-pro-mize) — noun; a settlement by arbitration or by consent reached by mutual concessions. Verb transitive — to bind by mutual agreement. Origin: French — Compromis, from Latin—Compromissum, a mutual promise to abide by a decision, derivative of Com plus promittere, to promise.

Today's Bible Thought

Cast thy burden on Jehovah and He will sustain thee. Psalm 55:22.

When our burden becomes too great to bear, we can still just put the solution of our troubles on the Infinite who after all is our Father.

Aunt Het

There's only one explanation when two people don't get along. Gettin' what they want seems more important than gettin' along.

The Week At Victoria

By LEO T. NIMSICK
MLA For Cranbrook

This week has been rather hectic and the air around the Parliament seems as though it were charged with electricity and in danger of short circuit at any time. Both inside and outside the House one hears predictions of an election this Spring.

There has been much discussion and criticism during the session of the Attorney-General in regard to his handling of the statutory declaration made by Mr. Sturdy, which involved Mr. Sommers, Minister of Lands and Forests. Many of us are of the opinion that it should be dealt with as quickly as possible. Now it has been turned over to the RCMP and maybe something will be done. Such charges, whether true or false, are too grave to be treated lightly.

The Committee on Mines is investigating the Stewart-Cassiar road following a report that all was not as it should be. I was amazed to find that this job was carried out on a Cost Plus basis without any tenders being called for. This is more disturbing in view of the fact that this Government has made it known far and wide that tenders are called for All contracts. This Committee has got to hear all witnesses and you can well imagine the tension that prevails. Such questions as this would never be brought out to the public if there were no Opposition in the House.

We have had two night sittings this week and every other available minute is taken up with Committee meetings so I have not yet had time to get up to the rink to see some of our boys curling.

I was first to speak on Tuesday and covered many pertinent points of the Budget and other questions of concern to all the people.

Much of my time was spent in dealing with the Hospital Insurance Department. I was critical of the government policy in regard to all the trivial obstacles placed in the way of Committees engaged in the groundwork for the construction of a new hospital.

FREEZE ORDER HIT

The famous "freeze order" which has placed boards, responsible for the operation of the hospitals, in a strait jacket, also came under fire. This order has compelled hospitals all over the province to refuse to sign contracts with their employees and to cut services in order to keep within a budget that is prevented from taking into consideration the ordinary increasing costs. The Minister said this was not so but I doubt if he could convince the hospital boards to this effect.

During my talk I urged the Government to inaugurate a compulsory automobile insurance scheme patterned after the Saskatchewan plan which has been operating successfully now for nine years at a very low rate to the people and without any subsidy from general revenue.

We continually hear about the large industrial expansion going on in the province and governments too often make the mistake that this is an end in itself. Industrial growth is only here as a secondary part of life — a means to an end — the tool of mankind, and should never become the master. We should only be heartened when all these material things are reflected in a better way of life for all peoples.

With the following thought I will say "thirty" for this week, friends,

"Civilization compels the savage to work for his daily bread."

Queen Mother Sends Message To V.O.N.

OTTAWA (CP)—Queen Mother Elizabeth has sent a message of encouragement to the Victorian Order of Nurses on the occasion of V.O.N. Week which starts Feb. 19.

The message, sent through Governor-General Massey, describes the order as one of the leading voluntary organizations which give comfort and relief to sick Canadians.

V.O.N. Week is held annually to stimulate communities to create branches of the home nursing organization.

The Queen Mother is grand president of the order.

Gum Drop Chokes Young Child

LANCASTER, Pa. (AP) — Jacqueline Spicer, 18 months, choked to death Sunday on a gum drop while her father drove 10 miles at speeds up to 95 miles an hour in a vain attempt to reach a hospital for aid.

Ben Youssef Leaves Morocco For Paris

RABAT, Morocco (Reuters) — Sultan Mohammed Ben Youssef of Morocco left here Monday by air for Paris, where he will open talks with the French government to define Moroccan independence while maintaining ties with France.

111th Battery News

Pay parade will be held on Tuesday, February 14, at 1955 hours, at the Armouries. All ranks will attend in uniform.

It is suggested that the members of the unit invite male friends for an informal get-together from 2100 hours on.

Part One Orders by Lt. F. W. M. Drew, A-Officer Commanding.

Duties—Orderly Officer, 2nd Lt. H. H. Sampson; Orderly Sergeant, Bdr. S. R. Yorke, duty driver, L-Bdr. J. Denholm; Canteen Steward, Bdr. R. McGhie; Canteen Orderly, Gnr. D. D. Ife, Fire pickets, Gnr. C.G.M. Kidd, Gnr. R. L. Bonderud.

Parade: Tuesday at 1955 hours. Dismissal at 2155 hours.

Dress—As per instructions Battery Part One Orders.

Big Oil Rush Sweeps Alberta

CALGARY (CP) — The provincial government has issued reservation rights to between 4,000,000 and 5,000,000 acres as a result of the biggest "oil rush" in the history of northern Alberta.

Oil company spokesmen here estimated that 90 per cent of the major oil companies operating in the province have filed applications for oil and gas reservation tracts in the vast potential oil area opened up by a major discovery 200 miles north of Edmonton.

FROM B.C. TO SASK.

The area the oil companies are scrambling to obtain extends through northern Alberta, from a point roughly 80 miles east of British Columbia to the Saskatchewan border. Centre of interest is the area north of Lesser Slave lake.

The rush started when Union Oil Co. of California Ltd., brought in a wildcat well about 70 miles north of Lesser Slave lake. This was described as an important discovery because of the thick pay zone found in virgin territory.

Re-Route Trains By Spence's Bridge

PENTICTON, B. C. (CP)—Heavy snowfall in the Coquihalla Pass has made it necessary to re-route trains between Penticton and Vancouver via Spence's Bridge because of slides.

There has been a total of 370 inches to date in the pass, as compared with 224 inches at the same time last year.

Twenty-five inches fell in the Coquihalla Pass early Sunday, and this was followed by 12 inches Monday morning.

Nfld. Drama Club Wins Fourth Award

GRAND FALLS, Nfld. (CP) — Northcliffe Drama Club of Grand Falls was named winner of the Newfoundland regional Drama Festival for the fourth straight year Saturday night when adjudicator Pamela Stirling picked it above three others for its presentation of "The Holdin' Ground."

Northcliffe's win carried with it the Calvert Trophy, a $100 cheque and the possibility of appearing in the Dominion Drama Festival. Only eight of 60 entrants in 13 regional festivals will compete in the Dominion Festival.

The adjudicator said the play, a tale of Newfoundland fisherfolk by St. John's playwright Ted Russell, lacked drama but contained a "beautiful message."

U.S. To Pay For Radar Installation

OTTAWA (CP)—More American servicemen will be stationed in Canada to man radar stations, it was learned authoritatively Monday.

Informants said this will be one of the results of a new Canada-United States agreement for construction of additional radar stations in this country.

The agreement, tabled in the Commons, also provides that the U.S. pay for new radar installations in Labrador, Newfoundland, Nova Scotia, Ontario and British Columbia.

Previously, Canada paid one-third and the U.S. two-thirds for construction of radar installations in the southern part of Canada.

Daughter Born To Jordan Royalty

AMMAN, Jordan (AP)—Queen Dina Monday gave birth to her first child, a girl. The birth brought to all Jordanian mothers of the same day the promise of traditional money gifts from King Hussein. King Hussein, 20, married his 26-year-old cousin last April 19.

VANCOUVER (CP) — Vancouver's 700 police officers will seek a six per cent salary boost this year, it was reported Monday.

The increase would raise the monthly salary of a first class constable from $349 to $370.

Ford Shares Down in Price

NEW YORK (AP) — Nearly $46,000,000 has been wiped from the market valuation of the new Ford Motor Co. common stock since it was first offered to the public less than a month ago.

The 10,200,000 shares were sold at $64.50 each for a total of $657,900,000. At the end of last week they were quoted in the over-the-counter market at around $60 apiece for a paper loss of $45,900,000. The shares are due to be listed on the New York stock exchange around March 1.

For a time immediately after the sale of the issue was cleared by the securities and exchange commission Jan. 17, the shares were quoted at above $70. At that figure, investors had a paper profit of $56,100,000.

POOR TIMING

Wall Streeters were agreed that the steady decline in quotations from that high could be attributed to unfortunate timing. The shares were sold, they said, at a time when auto makers were cutting production and when the stock market was in a decline.

Brokers also reported soon after the offering that some investors sold their shares simply because they weren't able to get as many as they wanted at the offering price.

In any event, the fact is that you now can buy Ford shares at a much lower price.

DEATHS

By The Canadian Press

Salt Lake City — Wilson McCarthy, 71, president of the Denver and Rio Grande Western Railroad.

Toronto — William J. L. Townsend, assistant treasurer of Canada Packers Ltd.

Toronto — Vincent Andrew Kerr, 55, former executive of Colgate-Palmolive Ltd.

Egypt Turns Down Jordan Meeting

CAIRO (AP) — Egyptian Premier Gamal Abdel Nasser has refused to attend a Jordan-proposed meeting of Arab government chiefs to discuss the Arab-Israeli dispute. A well-informed source said Nasser would not meet with the Iraqis.

The Arab meeting to consider ways of halting "Israeli aggressive designs" was proposed by Jordan Premier Samir el Rifai during a weekend visit. El Rifai flew on to Saudi Arabia to push his proposal.

Jordan sources said Syria, Iraq and Lebanon, previously visited by El Rifai, have agreed to the meeting.

The Jordan government radio tonight called the Egyptian rejection "tragic."

Britain's Trade Gap Widens

LONDON (Reuters) — Britain's trade gap increased last month to more than £74,000,000, provisional figures issued by the Board of Trade showed Monday.

The board said the excess of imports over exports and re-imports in January totalled £74,200,000. This was £12,100,000 more than the average for the last quarter of 1955 and just over £2,000,000 more than the 1955 monthly average.

Churchill Attends Commons' Debate

LONDON (Reuters) — Sir Winston Churchill Monday made one of his now infrequent visits to the House of Commons, to hear a government statement on the Burgess-Maclean case and Prime Minister Eden's review of his visit to Ottawa and Washington.

The former prime minister, who returned Friday from a vacation in the south of France, was looking well and smiled as members cheered him.

If Russia Invites, Graham Will Go

HONG KONG (Reuters) — American evangelist Billy Graham said on his arrival here Monday from Manila that he would visit Russia if he received a formal invitation.

He told reporters that Soviet churches asked him last year to visit Russia, but no date had been fixed.

There was a rumor, he said, that another invitation with a fixed date was being forwarded to him by the Soviet Southern Baptist Church.

Death Penalty For Stealing Coal

SEOUL (Reuters) — President Syngman Rhee Monday ordered the death penalty for anyone caught stealing coal in South Korea. He ordered guards to draw lines around coal dumps and shoot if necessary at anyone crossing them.

South Korea is trying to increase coal production to save dollars spent on imports.

Lumber Board Feet Higher Than '54 Total

MONTREAL (CP) — Canada's lumber production hit a record high of 7,750,000,000 board feet in 1955, the 48th annual convention of the Canadian Lumbermen's Association was told here Monday.

CLA manager W. J. LeClair told the opening session of the three-day convention that last year's total output was 848,000,000 board feet higher than the 1954 figure.

Canada's lumber export also set a record last year, he told some 2000 convention delegates, totalling 4,893,721,000 board feet in 1955, compared with 4,049,452,000 the previous year.

Check Boy's Arson Story

BOSTON (AP) — Police Monday sought the members of a teen-age fire-setting gang after an 11-year-old boy admitted he and the others set more than a half-dozen fires which caused in excess of $200,000 damage in the last two years.

Police said the boy was the youngest of a gang which he implicated.

Major blazes admitted by the lad, police said, included:

The fire which levelled the Temple of Congregation Atereths Israel with a loss of $175,000 last Feb. 5.

A $5000 fire at a riding academy in which 16 horses died Feb. 2, 1955.

A basement fire at St. Richard's Roman Catholic Church Feb. 6.

Vandalism and fire at a branch public library on Dec. 26.

Six separate fires in St. John's (Catholic) Church in parochial school Feb. 5.

Police quoted the boy as saying he and some of a group of six boys set the fires because they "liked to see firemen and engines."

Nehru Warns India Against Reds

AMRITSAR, India (AP)—Prime Minister Nehru asked India's working classes Monday to concentrate on constructive activities and not be misled by Communists.

Addressing the annual convention of his Congress party, Nehru said:

"It is a tragedy that the workers of India are being pulled in many directions by so-called saviours at a time when they should be building India and building themselves up."

Calling on Socialist party trade unions to fall in line with his own Congress party unions "since our objectives are common," Nehru lashed out at Communist unions and said:

"Remember, the Communists do not have your interests at heart. Their only goal is to agitate and in this they use you as their pawns. We cannot get along with the methods they adopt."

Experts To Study Westinghouse Terms

HARRISBURG, Pa. (AP)—Two labor experts, appointed as a fact-finding board by Governor George M. Leader of Pennsylvania, Monday prepared to study the disputed issues in the marathon Westinghouse strike, now in its 120th day.

The strike has shut down 30 Westinghouse plants and made idle about 55,000 workers in two unions — 44,000 in the International Union of Electrical Workers (IUE) and 10,500 in the Independent Electrical Workers (UE).

The IUE said it "accepts" the fact-finding program. Westinghouse said it wants to examine details of Leader's plan before replying.

Aussie Laborites Re-Elect Evatt

CANBERRA (Reuters) — The Australian parliamentary Labor party Monday re-elected Dr. Herbert Evatt to the leadership of the party.

Evatt and Allan Duncan Fraser were the only candidates for the leader's post. Evatt received 58 votes and Fraser 20.

All party positions had been declared vacant after last December's general election, according to party practice.

Arthur Calwell was re-elected deputy leader, and Senator Nicholas McKenna was elected leader of the opposition in the Senate.

WHY OH WHY SUFFER COLD MISERY FOR DAYS

When the first Buckley's Cinnamated Cold Capsule starts to give relief in seconds, helps make you feel better fast, then, every capsule you take will give you more and more relief until all cold symptoms are gone, or double your money back. 4 cold-fighting ingredients in each Capsule, that's why they work so fast. 12 Doses 35¢. 30 Doses 79¢. Sold everywhere.

Crepe Fourres Make Fine Pancake Day Fare

By MARGARET CARR

The incomparable French chefs have given us the inspiration for this new recipe called Crepe Fourres or pancakes stuffed with apples. So wonderfully elegant is this dessert that just glancing over the recipe will send many a good cook scurrying off to the kitchen in search of the pancake mix. Crepe Fourres comes to us as a serving suggestion for Pancake day. Tomorrow would be a perfect time to introduce this dessert, but for our money, this is one treat to keep on the active file and serve over and over again.

Really simple to prepare, the pancake is made like a French crepe. It's done by pouring the batter into a hot frying pan and rolling the pan until the sides and bottom are evenly coated. Then, into the oven it goes, and when the edges are crisp, out it comes to be filled with a marvelous combination of butter fried apples all sprinkled with sugar and spiced with cinnamon. Need we go on?

Pancake Day will be heralded as a gala event at your house if a Crepe Fourres graces your table. Though we've billed it as a dessert, you'll find it equally as delicious as a special brunch or supper dish. In fact, any time you serve it is the right time.

CREPE FOURRES

Filling:
- ¼ cup butter or margarine
- 3 medium apples, cut into thin slices
- 1/3 cup sugar
- ½ teaspoon cinnamon

Pancake Shell:
- ½ cup pancake mix
- 1 egg
- ¼ cup milk
- 2 tablespoons melted shortening

For apple filling, melt butter in frying pan. Combine sugar and cinnamon and add with apples to melted butter. Cover and cook about 5 minutes over low heat until apples are just tender. Remove from heat and let stand while making pancake shell.

For pancake shell, combine pancake mix, egg, milk and shortening. Beat with rotary beater until batter is smooth. Lightly grease sides and bottom of a 10-inch frying pan. Place over heat and allow the pan to become very hot. Pour batter into hot frying pan, immediately rolling the pan until sides and bottom are evenly coated to the thickness of ¼ inch. Cook over moderate heat until dry on top. Prick the bottom of pancake in several places.

Bake in a moderately hot oven (400 deg. F.) for 5 minutes, or until edges are crisp and brown. To remove pancake from pan, run a knife around edge, tilting pan and sliding pancake on to a serving dish. Gently fold pancake over like an omelet. Fill with warm apple filling. Pour melted butter over the top of the pancake; sprinkle with sugar. Serve immediately.

Salmo Legion LA Slate Installed

SALMO — Installation of officers of Ladies' Auxiliary to Salmo branch of the Canadian Legion was carried out recently by R. Stenton, president of the branch.

Those installed were Mrs. F. Middleton, president; Mrs. Stenton, vice-president; Mrs. H. Mang, secretary; Mrs. C. Roach, treasurer; Mrs. M. Bush, Mrs. J. Grant and Mrs. Eva Henry, executive members; Mrs. B. Fergusson, sergeant-at-arms, and Mrs. Grant, standard bearer.

Reports were read and acted on. Plans were made for a quilt contest and Easter tea. Arrangements were also made for catering to a local lodge.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*) — discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called *Preparation H. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.**

No individual prizes will be paid.

(CLIP FOR REFERENCE)

Procter Talent In Spotlight at Amateur Night

PROCTER—For a long time, William A. Henke, intermediate teacher at the Procter Superior School, has been fostering the idea of an amateur night of all local talent and this week saw the realization of his dream with a full two-hour program of varied entertainment of vocal, instrumental and elocution presentations.

Comedy was supplied by a novelty song and dance to the tune of Little Brown Jug played by Marjorie Iwanik and performed by Dawn Iwanik and Sandra King dressed as a poverty-stricken, drinking couple. The audience insisted on an encore, although the length of the program curtailed encores automatically.

The program opened with several songs by junior girls Beth Ogden, Jolene Mucha, Jean Munch, Susan Bonacci and Georgia Sokoloski sitting around a synthetic campfire. John Dvorak Sr., played an accordion solo, then Mrs. O. Bedard, soprano and Mrs. B. J. Fitchett, alto, sang a duet, "It's Almost Tomorrow" with Mr. Fitchett at the piano. Grades 5 to 8 were to sing four songs under the direction of Mr. Henke but this was cut to one because of the 20 items to follow.

Little Darlene Ward recited "A Laugh," then the Fransen family performed with Judith Fransen at the piano. Their tiny preschooler sang a lullaby to her doll, was joined by sister Sheila to sing "My Valentine," and then by brother Thor to sing "Home on the Range." Mrs. D. Cameron played a sprightly medley of popular tunes of yesteryear including "Smile a While" and "Little Grey Home in the West." Marjorie Iwanik played the accompaniment for Cecile Mucha to sing "Galway Bay."

THREE INSTRUMENTS

F. Mamchur, versatile teacher of Harrop school, played selections on three instruments, the guitar, mandolin, then the violin featuring European music and accompanied at the piano by Mrs. A. Metcalfe. He played Ukrainian, Russian, Polish, Hungarian and Romanian dances ending with the Scottish Highland Fling. Mrs. M. McMullin yodelled while her father, Mr. Fitchett, played the piano, then Judith Fransen played a piano solo.

Mrs. R. Anderson played while her daughter Janet, festival winner, sang a solo and also accompanied her husband Roland Anderson when he sang "The Rose of Tralee' and his encore Handel's "Silent Worship" to a hushed hall. His little daughter Judith performed "Row Your Boat" and "Jingle Bells" on her xylophone and Wayne Moore sang "The Royal Telephone."

Mrs. W. S. Beames of Kaslo played the piano while Mrs. J. Boyce captivated the audience with her rendition of the "Minuet in G" followed by her encore of Irish tunes. Mrs. Anderson played the accompaniment for Pamela Rowley to sing "Lavender Green" and Mr. Fitchett played while Tony Taylor played a trumpet solo "Somewhere Over the Rainbow."

The once-popular harmonica made a welcome comeback as Hallam MacKinnon blew "The Wreck of the Old 97," and "Casey Jones." A recitation, "The Woodbox" was appreciated in this district where nearly everyone has one, and was pleasingly told by Martin Mucha. Ronald Garner performed Beethoven's Moonlight Sonata then O. Bedard held his listeners spellbound with the "Cremation of Sam Magee." The program concluded with a dance by Cecile Mucha and Marjorie Iwanik in red and white can-can costume to the tune of "Daddy-O."

TO BUY PROJECTOR

Mr. Henke, master of ceremonies, strikingly decorated the stage with wine and blue drapes, achieving a professional look. He announced David Solecki and G. A. Phillips winners of a draw. Proceeds of the contest were earmarked for volleyball team uniforms but returns from the talent night are to be used towards the purchase of a filmstrip projector for the Procter and Harrop school.

The concert was followed by a dance to the music of Fitchett's orchestra. Mrs. J. G. James and Mrs. R. French called squares while members of the Procter square dance clubs exhibited the skills learned at the weekly meetings. Lunch was served by members of the Procter Parent-Teacher Association.

Shower Honors Miss Betty Hecker

The staff of Burns Lumber Company and friends honored bride-elect Miss Betty Hecker at a tea and miscellaneous shower Sunday afternoon, when the hostesses were Mrs. Fred Morris, Mrs. David Meakins, Mrs. George Barefoot, Mrs. F. K. Boyd and Miss Winnifred Kinahan.

The tea table centered with a cut glass bowl of red carnations was presided over by the bride-lect's mother, Mrs. Stephen Hecker, who was assisted in serving by Mrs. B. Hunter, Miss Elsie Evans, Miss Lydia Hecker, Mrs. R. J. Hickey, jr., Mrs. Charles Symonds and Miss Mary Anne Burns. The many beautifull and useful gifts were presented to Miss Hecker in a double-locked ancient Spanish treasure chest, which was carried to her by Fred Morris and David Meakins. A special prize was also presented to Miss Hecker.

Dress Up With Marian Martin

SEW-VERY-SIMPLE

EASY dress plus EASY coat add up to the most fashionable new spring outfit! Make the sleeveless dress in a gay checked cotton — the coat in a contrasting pique or faille. Princess coat has no waist seams—quick to cut out, put together—flattering to wear!

Pattern 9320: Girls' Sizes, 6, 8, 10, 12, 14. Size 10 dress, 2¾ yards 35-inch; coat 3½ yards.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted), for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to MARIAN MARTIN, NDN, 60 Front St., W., Toronto, Ont.

As Seen in Our Windows

$44.50

Freeman's

LONDON (CP) — New Year's Eve customers in a Colindale district tavern heard something crash and saw something fly past the windows. A gust of wind had blown the new year in and the pub door off.

DESK-BOUND OFFICERS

LONDON (CP) — L.-Col. Jock Moore, 42, in the Army Quarterly criticizes "serious-minded officers who sit at desks chasing papers from IN trays to OUT trays." Now that fox hunting is out of reach of most officers he suggests the army should sponsor sailing and skiing.

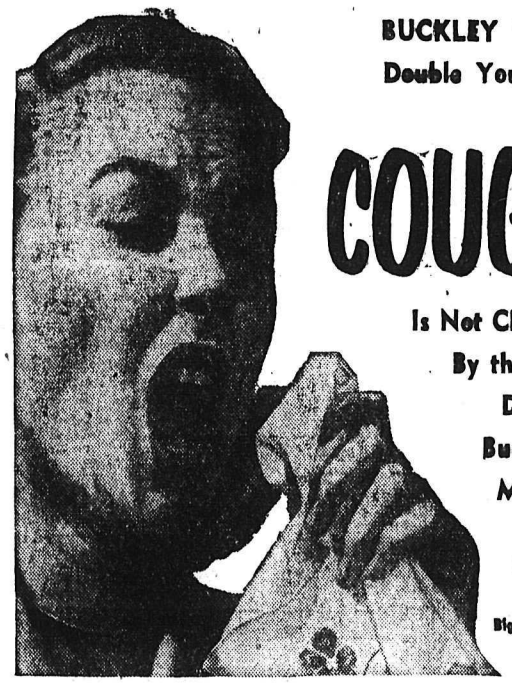
WHY GAMBLE ON COUGH RELIEF!

BUCKLEY Will Give You Double Your Money Back If

COUGHING

Is Not Checked By the First Dose of Buckley's Mixture



Reg. Size 50¢
Big Family Size 85¢

No matter how badly you are coughing — how maddening that throat tickle is W. K. Buckley will give you double your money back if coughing is not relieved fast with BUCKLEY'S MIXTURE.

In fact, Buckley's Mixture is so dependable that, should it fail to relieve your cough, you should see your doctor. For 30 years Buckley's Mixture has been bringing fast relief from coughs, colds, asthma and bronchitis to increasing millions of Canadians. And here's why: Buckley's Mixture is NOT a syrup. It is a therapeutic mixture of medicated ingredients, made without syrups or other diluting agents.

Try it. The moment its bracing flavour touches your tongue you'll know why its action is so fast—so powerful—so positive. You'll feel a split second sense of relief as the powerful brisk-tasting medication liquifies the tough, tenacious mucus and aids its expulsion. You'll feel chest tightness quickly dispelled, breathing becoming easier and your raw membranes being soothed as your breathing passages are helped back to normal. Get Buckley's Mixture now.

BUCKLEY'S MIXTURE

Russ Port Open To Foreign Fishermen

STOCKHOLM (AP) — Russia has told Sweden that the Soviet Baltic port of Klaipeda (Memel) "is open to foreign fishermen" in distress.

In a communication to the Swedish Sea Rescue Association, the Russians said foreign fishing vessels "will only have to observe the usual rules of the port" when seeking protection from storms or difficult conditions.

Capt. Hans Hansson, head of the Swedish rescue group, termed the Soviet communication "rather revolutionary." He said Swedish fishermen had previously avoided the Klaipeda coast, which is in Soviet Lithuania.

READ THE CLASSIFIED DAILY

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what you routlook is, according to the stars,

For Wednesday, February 15, 1956

MARCH 21 to APRIL 20 (Aries) —*There may be some irritating* tendencies but if you keep out of their zone you can achieve and be content. Many endeavors can advance now with your able support. *Be progressive.*

APRIL 21 to MAY 21 (Taurus)—Mixed vibrations — neither encouraging nor restrictive in tendency. It's really up to your intel*ligent management and discrim*inating taste how well you advance or fall behind. Use your talents.

MAY 22 to JUNE 21 (Gemini)—Mercury's aspect stresses care in all written matters, legal interests, promises, estimates, contracts, etc. But day will yield good results for intelligent honest efforts.

JUNE 22 to JULY 23 (Cancer)—Discretion, keen judgment and willingness to cooperate where and WHEN you should are this day's "musts." You will do right, we know.

JULY 24 to AUGUST 23 (Leo)—There are times when it is more profitable and advantageous to restrain one's self and get a better perspective of how to proceed than to speed ahead and perhaps have to retrace steps; such is today.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Heed Gemini now. Showing understanding of others' needs, you can have a productive day. Heed health requirements; have wholesome diversion.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Read Taurus. If consistent and patient, you should have no real trouble with problems, work or other activities. Remember, it is often profitable to join with others rather than go it alone.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Express thoughts in a clear, concise manner and, if undertaking obligations, be sure *of the terms. Facts are essential.* Don't try the impractical.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Some extra forethought and planning can help *you to make valuable short cuts,* cut red tape for more efficient results. Familiar matters can advance quickly under smart handling.

DECEMBER 22 to JANUARY 20 (Capricorn) — Simplest ways and means may well be the more profitable today. Don't worry if all your efofrts don't show immediate or sufficient returns. They will produce later.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Don't put off small necessary matters nor spend much time on unessentials. Things done quickly but well will save you bigger tasks later. Your intelligent management needed now.

FEBRUARY 20 to MARCH 20 (Pisces) — A tricky day in spots and reassuring, helpful at other hours. Some time spent in wise planning and taking proper precautions to avoid errors can save you time, give fine benefits.

YOU BORN TODAY have many distinguished characteristics, including sincerity, adaptability and inventiveness. Changeableness, any inclination to excesses should be firmly corrected before they take hold. You have talents, splendid capability to succeed in your life's work or career. Aim high, seek God's guidance, and achieve the top.

Birthdate: Galileo, famed Italian astronomer, philosopher; Elihu Root, lawyer, statesman.

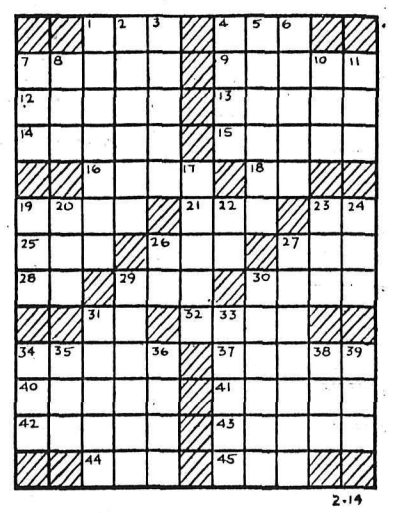
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

U N K X S L X G F X O U Z S J J O E U X I W
M O N K N I O C N G X U — L E O F E J.

Yesterday's Cryptoquote: THIS WAS THE FASHION OF OUR FOREFATHERS—PROVERBS.

Calgary Livestock

CALGARY (CP) — Trade was moderately active on the livestock market Monday but prices were barely steady to lower.

No bulls were sold early and no stock steer calves were offered. Receipt were 500 cattle and 23 calves, more than half the cattle being good to choice butcher steers, the remainder mixed auality cows and heifers.

Choice butcher steers 16.50-17; good 15.50-16.25; medium 13.50-15; common 10-13; good butcher heifers 13-13.75; medium 11-12.50; common 9-11; good cows 9.50-10; medium 8.75-9.25; common 7.75-8.50; canners and cutters 4.50-7.50; good feeder steers 13.50-15; good stock steers 13.50-14.50; common to medium 10-13; good to choice veal calves 16:59-19; common to medium 12-16.

One load of hogs sold Friday 10.75; sows closed 10.75.

Good lambs 17-18.

Winnipeg Grain

WINNIPEG (CP) — Cash grain prices:

Oats, 1 feed, 74½.

Barley, 1 feed, 99¼

Market Trends

NEW YORK (AP) — Prices declined moderately in the stock market Monday. It was the quietest and narrowest market in months.

The Canadian issues were mostly lower on the New York exchange. Granby Mining and Hiram Walker both fell ½, International Nickel slipped ⅜, Canadian Pacific and McIntyre both dropped ¼ and Distillers Seagram lost ⅛. Aluminium Ltd. was up ½.

TORONTO (CP) — Some of the recently strong copper issues continued to roll ahead in active trading on the stock exchange Monday. Selected western oils were firm, but a weaker trend persisted among industrials.

Fewer than a dozen industrial stocks moved as much as a point. Utilities, constructions and financial institutions tended higher, while papers led the lower trend.

MONTREAL (CP)—Some easier prices were evident in industrial issues at the close of moderately active trading on the Montreal and Canadian stock exchanges Monday.

Base metals held firm as Aluminium added seven-eighths and Noranda three-quarters. In the steels, Algoma slid a point, while Stelco and Dosco each gained a quarter.

LONDON (Reuters) — The London stock market continued last week's depressions today with sentiment influenced by economic uncertainties.

British funds recovered initial falls following a cessation of selling. Dominoin and colonial issues were fractionally lower.

Industrials were generally depressed and there were few signs of recovery. Motors were dull.

LARGE BARLEY CARGO LEAVES PRINCE RUPERT

PRINCE RUPERT, B.C. (CP)—Largest single barley cargo ever loaded in the history of the government grain elevator here was taken aboard the Norwegian freighter Sun Karen which sailed for the United Kingdom.

The vessel took on 10,010 long tons. Previous high tonnage of barley shipped from the elevator here was 9700 tons.

Boy Crosses Pole to Meet Father In B.C.

VANCOUVER (CP) — Five-year-old Niels J. Stjerengaard has completed a 6400-mile airplane trip from Denmark to join his father in British Columbia.

The blonde, blue-eyed lad does not speak a word of English. He carried a large brief case, wore plus fours, a fur-lined cap and wool scarf.

Reporters commandeered Danish-born Orla Sorensen, Canadian Pacific Airlines ground-crew man, to act as interpreter and began asking questions.

Asked if he had brought his father a present, Niels hesitated and then said: "Yes, in my rubber boot in a suitcase I have hidden a present for him. Grandfather hid it there and father will find it when he unpacks my baggage — a bottle of Danish Schnapps."

Discreet inquiries revealed that the present was not contraband.

After a four-hour rest here, the boy flew on to Prince Rupert where his father, a widower, lives.

SAVES SPACE

The use of microfilm for keeping permanent records in a small space was developed by Rene Dagron, French chemist, in 1870.

May Pay Dividend . . .

Sunshine Lardeau's Position Improves

Intimation that a small dividend would be paid by the end of 1956 was given at the annual meeting of Sunshine Lardeau Mines by John Drybough, president.

Mr. Drybrough said that development at the company's property was proceeding satisfactorily, and that outstanding bonds to the amount of $75,000 should be retired soon. When provision has been made for capital expenditures of $75,000, and as soon as a minimum of $250,000 in working capital is reached, the payment of a dividend will be considered.

Discussing operations at the mine, near Camborne in the Lardeau district, the president said that development of new ore remains a problem. (Ore reserves are given in the annual report as 42,500 tons averaging 0.10 ounces gold, 13.2 ounces silver, 9.6 per cent lead and 9.9 per cent zinc.)

As more new openings are made, Mr. Drybrough continued, more holes drilled and more ore mined, better understanding of the occurrence is gained and the knowledge put to use. The geologists have advanced some new ideas about the most favorable places to search which may reduce the cost of finding ore.

A series of holes was drilled on No. 4 vein below 10 level and indicates a shorter oreshoot with possibly somewhat lower values, he said. The Eclipse vein is being drilled below 10 level and the continuity of the oreshoot has been proven to a depth of 180 ft. although the vein is narrower. Very little has been done on the Sandy vein since the work mentioned in the annual report and there are no ore developments there, the president told the meeting.

Generally speaking, he continued, much favorable ground remains to be investigated and it is the intention of the management to prosecute the development campaign as diligently as possible.

Mr. Drybrough then reviewed operations since publication of the annual report. In November, 1299 tons was milled and a profit of only $646 was realized. This was due to severe weather which interrupted mine and ore transport operations. In December, 2160 tons was milled and operating profit amounted to $24,931. Estimated figures show that in January, 2600 tons was milled, giving an operating profit of $30,000.

WORKING CAPITAL STRONGER

At the end of December the excess of assets over liabilities was $179,730. A further amount of $50,000 of debentures was redeemed leaving only $75,000 outstanding. Capital expenditures amounted to $153,840 in 1955 and it is the hope of the management that the 1956 expenditures will be kept below half that level.

Taking a look at future operations, the president stated that in 1956 the grade of ore will be slightly lower, but that this will probably be offset by higher average metal prices. The steady demand for metals encourages the hope that the price level will be maintained during the year. With no impairment of the mill tonnage rate it is expected that 1956 will be as profiable as 1955.

Mr. Drybrough said that ore currently developed above 10 level assured continuous operation for 1½ years without finding ore beneath the level, and that ore possibilities on the still to be explored Sandy vein are strong; that surface buildings at the property are fairly complete, but that purchase of a new diesel engine for electrical power is necessary and would comprise the major part of the 1956 capital expenditure appropriation; that the tax-free period for Sunshine Lardeau ended on Nov. 1, 1955; that Berens River Mines no longer exists and that Newmont Mining Corporation of Canada Ltd. has taken over the Sunshine Lardeau debentures and is providing management at the mine; and that when the debentures are retired it would be up to the shareholders to decide as to whether they wished the Newmont management to continue.

All directors were re-elected and a motion was passed authorizing payment of reasonable directors fees and expenses.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at any drug counter.

RUB AWAY THROBBING PAIN

Arthritic and Rheumatic Aches

Here is how to prove it yourself!

Just massage the aching spots briskly with Buckley's White Rub. Right away you feel a comforting, glowing, warmth which means the circulation is being stimulated, and local congestion broken up. Tortured muscles and joints respond quickly from the combined action of the pain relieving ingredients in every jar. Why spend another minute of misery—get WHITE RUB today, and comfort right away. Only 59¢ — but priceless when you get an ache or pain.

SPORTS

Here's John Speaking on SHORT SPORT

After a supremely successful weekend in which Nelson Maple Leafs won two hockey games, both by coming from behind in the last period, Chuck Rayner's apprehension towards the upcoming playoffs must have lessened considerably.

Chuck has said several times he believed the club would be operating in high gear by playoff time. Playoffs are just five games and 13 days away, so it begins to appear he was correct all the while.

Yours truly saw only one off-color note during the weekend doubleheader. It appeared from our vantage point that Yogi Kraiger, Don Fletcher and rugged Ray Hamilton were attempting to rough up a few of the smaller Leaf forwards, especially Lee Hyssop and Fritz Koehle.

We would never suggest in any way, shape or form that those boys were operating under orders from their coach, Jimmy Morris. And far be it from us to hint that it was deliberate.

But Fletcher charged more than halfway across the ice to try and pound Fritz Koehle into the boards in the first period. Fritz made like an acrobat, however, and leaped over the big blueline bouncer.

Foiled in his attempt to flatten Fritz, Fletcher crashed Hyssop twice in the first period. With the Nelson attack sputtering, it appeared the strategy was working to perfection.

Lee's productivenss was cut to nothing in the first period as he seemed a little shaky from the pounding he had been taking. Although Fritz scored one goal in each period, both on passes from Vic Howe, Hyssop had been held scoreless.

The Trail-Nelson game Saturday night has already been covered completely, but we mentioned those examples of rugged, possibly even dirty play, to point up the fact that sticks, elbows and knees are being carried higher every game.

It is fortunate that two Nelson players, Wendy Keller and Vic Howe, were not injured severely Friday night. Wendy had three stitches put in his forehead where he was clipped by Gord Andre's stick. Vic was slashed across the head at the precise moment of the final buzzer and retaliated with an elbow to the nose.

Wendy's three-stitch cut resulted in a slight concussion that kept him out of Saturday's game in Cominco Arena, but it appeared for a while that he had been even more seriously racked up.

It was no fault of Gord Andre that Wendy was not hospitalized for a substantial period. The blow could have caused many serious injuries, maybe even a fractured skull.

But Kimberley and Trail players are not the only ones who believe in carrying sticks at the ready .Some Nelson skaters do the same, as do members of Spokane Flyers We are not able to suggest a way of discouraging the careless stick-carriers, but we do know it must stop.

After Keller's Injury Friday night, Chuck Rayner said: "If it's that kind of league, we'll have to play that kind of hockey."

He may be right, but I, for one, will hate to see it.

Injuries to hockey players are all too frequent now. I believe it is up to coaches, managers, referees and league officials, in that order, to cut out such dangerous actions. But I don't believe they'll do a thing about it.

Notes From a Frayed Cuff: Mike Fraser, attending University of British Columbia on a scholarship, is one of the mainstays of UBC's most successful basketball squad in years. To quote coach Jack Pomfret: "It's tough playing basketball without the ball. His rebounding gets the ball for us."

With Stane and Besom

Results of Monday night's curling competitions at Nelson Curling Club are as follows:

7 p.m.—A. . Hesse 10, E. Ramsbottom 8.

JAMES D. NORRIS PLEDGES PLENTY FOR NEW PLAYERS

PALM BEACH, Fla., (AP) — "We will spend $100,000 for the acquisition of additional hockey players before the start of the 1956-57 hockey season," James D. Norris, president of Chicago Black Hawks hockey club, said Monday.

Norris made his announcement to members of the National Hockey League during their annual meeting.

He said the expenditure had been decided upon as the success of Chicago Black Hawks had not been quite up to his hopes this season and that the strengthening program of buying additional players had been agreed upon. He said 35 home games would be played in the Chicago Stadium in 1956 and 1957.

Clarence Campbell of Montreal, president of the league, said it had been decided to advance the date of the draft meeting to early June, which is calculated to make players available at an earlier stage and would facilitate planning for the 1956-57 season.

Husbands! Wives!
Weak, Run-down, Old?

Thousands of couples are weak, tired, lack energy and pep; they feel run-down, old because bodies lack iron at 40, 50, 60. Try Ostrex Tonic Tablets today. Supplies invigorator you, too, may need to revitalize, stimulate, energize and build-up entire body. Feel years younger. "Get-acquainted" size costs little. Or start with big, popular "Economy" size and save 75¢. At all druggists.

Regina Qualifies For School Spiel

REGINA (CP)—Bob Hawkins of Regina defeated Jim Cosgrove of Delisle 8-1 in the third game of the best-of-three series Monday to win the Saskatchewan high school boys' curling title.

Hawkins lost the first game of the series 6-4 but came back to win the second 8-7 on an extra end. The Regina rink now advances to the national championships at Fort William Feb. 20-23.

Major Events Won By Host Clubbers

ROSSLAND — Although he failed to win a single individual event John Platt of Red Mountain walked off with the alpine combined, major event of the Red Mountain Ski Open over the weekend. Platt came up with 2.29 points, 3.10 points more than his nearest rival, Don Bruneski, also of Red Mountain.

Another Red Mountain representative, Ginger Edwards, won the women's alpine combined, with 3.32 points. She held a whopping margin over Elizabeth Green, her team-mate.

Honesty Pays Off

TORONTO (CP) — Fred Leigh's honesty three months ago will be worth $500 to him today, police said Monday. When his daughter, Evelyn, 9, found $500 on a junk pile three months ago, Mr. Leigh, an out-of-work laborer, was tempted to keep it to feed his hungry family. Instead, he handed it over to the police. Police informed him Monday that since no one has claimed the money in the last 90 days, he can have it.

The British merchant navy in 1954 had 148,600 masters, officers and men, not counting Asiatic seamen serving on some routes.

Jordan Rink Will Represent B.C.

VICTORIA (CP) — The Harold Jordan rink of Kimberley will represent British Columbia in the Dominion curling championships, scheduled for Moncton early next month.

The Kimberley crew earned the right by defeating Lloyd Harper of Quesnel in two straight games in the provincial finals at the Victoria Curling Club Sunday.

Jordan and Harper came out in the double-draw knockout between the eight zone champions. After winning the first game of the best-of-three final, 6-5, Jordan came through in the second 10-8.

Jordan's rink also won a tertiary event in the 61st annual B. C. bonspiel and will take home the Victoria Times and provincial championship trophies.

Jordan's rink was the steadiest of the eight zone winners.

Yank Skaters Feud, Bicker

GARMISCH - PARTENKIRCHEN, Germany (AP) — Feuding and bickering among American figure skaters — the United States', only successful Olympic group — became worse Monday.

Coach Ted Patterson of Cambridge, Mass., said, "In honesty I must admit" that part of the team refused to move into the hotel where the Americans are headquartered for the Feb. 16-19 world figure skating championships.

He said he "hesitated to take disciplinary action" at a time like this. It was too close to big competition.

Team members not living with the remainder of the Americans are Carol Heiss of Ozone Park, N.Y., and Ronnie Robertson of Long Beach, Calif. Their mothers and personal coaches are with them at another hotel in Garmisch.

"I gave them until six o'clock last night to get out here with the rest of us," Patterson said. "They did not show up."

Patterson said he was unable to explain Robertson's attitude.

Miss Heiss, however, starred in a hassle at Cortina, Italy, which caught the attention of 10,000 spectators and brought heavy criticism on her. The 16-year-old New Yorker refused twice to pose with Olympic champion Tenley Albright of Newton Center, Mass.

Miss Heiss placed second to Miss Albright and Robertson placed second to Hayes Jenkins of Colorado Springs, Colo.

MINOR HOCKEY

Bantam Bruins edged out Black Hawks 4-3 in a Bantam League game at the Civic Arena Monday afternoon. The win moved Bruins into a fourth place tie with Canadiens with both teams now just one point behind the third-place Hawks.

Bruins scored once in the first period, and three times in the second. The Hawks came up with two goals in the second and one in the third. Walt Cherenko and Jimmy Cain paced the winners with two goals each. Swetlico picked up two assists, Cain and Blackstock one each. Dave Neilson, Jim Turner and Dave McGowan were the goal getters for the Hawks. Assists went to Peters, Neilson, Arnot, McLeod and Borch.

Referee Wayne Farenholtz handed out two penalties to the Hawks and one to the Bruins. Mike Laughton and Gerry Tames kept the score and time.

NHS Hoop Squads Win Doubleheader

Both Nelson High School basketball squads used one big period to run up victories in boys' and girls' contests against Rossland High School at the Civic Centre Saturday night.

Trailing 24-23, at half time, Nelson' boys constructed a 30-27 lead by the three-quarter mark and scored seven field goals and three foul shots in the final frame to down their Rossland Rivals, 47-32.

In the girl's 33-17 victory, a second quarter in which Nelson scored 12 unanswered points made the difference.

Terry Elmes, Wayne Wharton and Gordon Towhey, with 15, nine and eight points, respectively, led Nelson to victory in the nightcap. In the girls' contest, Marilyn Ure and Donna Dewar paced Nelson's scorers with seven points apiece. Irene Siminoff and Lorna Farenholtz each added five.

Baseball Outlaws Plan Yearly Spiel

The Outlaws are coming!

But that is no call for mothers to lock their kids in the cellar or lock the cupboard because these outlaws aren't thieves. And besides, they won't get here until Saturday.

Between today and Saturday, the Outlaw Bonspiel, which is the occasion for all this commotion, will be quite a topic of conversation in Nelson. Last year, just about this time, curlers, mostly inexperienced, spent most of two days at Nelson Curling Club.

And nearly everybody walked off with a prize. The Outlaw Baseball Club, who put on this extravaganza (?), have rented the ice for two days, and have all but filled the quota of rinks.

Ron Nash of the Outlaws is in charge of operations.

BRITISH SOCCER

LONDON (Reuters) — Results of soccer games Monday in Britain:

FOOTBALL ASSOCIATION CUP
(Fourth round, third replay)

Chelsea 0 Burney 9 (extra time)

Fourth replay a Tottenham Hotspur's ground Feb. 15.

SCOTTISH CUP
(Fifth round replay)

Playoff Dates Released; Howe Stays With Hyssop

Western International Hockey League playoff dates were released Monday and Nelson Maple Leafs, expected to tangle with Trail Smoke Eaters in the semi-final round, swing into action Feb. 27, just two days after the schedule closes. Other dates are: Feb. 28, March 1, 2, 3, 5 and 6.

Every club has now five games remaining and will have only four after tonight. Spokane Flyers meet the Smokies in Trail's Cominco Arena while Leafs, bolstered by the evident return to form of vigorous Victor Howe, travel to Kimberley to oppose the mangling Dynamiters in the Kimberley bandbox.

After tonight, Leafs will have three games at home, one each against Spokane, Trail and Kimberley in that order. Their lone road contest is in Spokane, Feb. 25.

Any combination of three Spokane victories or Nelson losses will eliminate Leafs from first place contention, while Trail is one point better off. The same setup of three wins or losses will keep Trail in second place, unless, of course, Nelson overcomes the one-point deficit they are now faced with.

Leafs' record has been much better this year in Trail than in Nelson, especially against the Smokies. They have grabbed five victories in succession in the Smoky City.

The answer seems simple enough. Nelson's squad is packed with speedy forwards who just love the relative safety afforded them in the spacious Trail arena. Lee Hyssop and Vic Howe, especially, enjoy playing in Cominco Arena, as witness their performance Saturday night.

Sparked by Howe, Hyssop, Fritz Koehle and Gus Adams, Leafs rattled the Trail cage for five successive goals in the final frame and emerged with a 7-6 victory, after leading, 7-5 at one stage.

Heartened more than a little by Howe's performance while teamed with Hyssop and Fritz, Coach Chuck Rayner, whose club is starting to move now after a siege of injuries, has decided to keep the combination intact. Bud Andrews, expected to play after a three-game layoff with a badly-hacked hand, will play sparingly, probably on a line with Herb Jeffrey and Joe Bell.

Hyssop, who was given official credit for four points after a slight mix-up, was not in gear last night as Chuck pushed a few of his less active players and Intermediate reserves through a light scrimmage. He spent most of the time on the rubbing table as trainer Steve Cochrane rubbed him down.

Basic rules of arithmetic, geometry and algebra were known to scholars more than 4000 years ago.
