WEATHER FORECAST

Kootenay: A few clouds on Tuesday with widely scattered showers in extreme northern areas in afternoon. Low and high at Cranbrook, 45 and 85; Crescent Valley, 45 and 90.

B.C. ELECTION SEPT. 19

City To Sell Gas Works for $70,000

September Vote on Bylaw for Sale Planned; New Mains to Be Laid

City Council Monday night gave the first two readings to a bylaw that, if approved by taxpayers, will sell the city's more than 50-year-old gas works for $70,000.

The buyer, Inland Natural Gas Company, must pay the city two per cent of the gross annual sales in lieu of taxation on mains and in addition will pay three per cent of the gross annual sales in payment for the franchise to sell gas in the city.

The company, too, would take over all present personnel at the gas works, which is located on Government Road, and would maintain the present system of selling gas and the same prices until its natural gas pipeline has been completed over the Cascade-Rossland highway into Nelson.

The company anticipates the pipeline will be completed by November, 1957.

Further, if the ratepayers approve the sale, and Mayor Kary anticipates the bylaw will go to them about the end of September, the company plans to remain the entire city beginning immediately. Present city mains are obsolete and many are in need of repair.

Councillors decided on the sale and franchise after months of negotiation with the company, and, if ratepayers approve, the franchise would be for 21 years. The gas works has long been a money-losing department for the city.

Grand Forks, Trail, Rossland, and Warfield have granted franchises to the company, which will bring its natural gas pipeline from the Okanagan.

When the natural gas is piped in it will be sold on a competitive basis with other fuels, company officials have assured the city. The company's rates must be approved by the Public Utilities Commission.

$40,000 Fire At Hedley

HEDLEY, B.C. (CP)—Loss in a fire which destroyed four buildings and damaged two others here Sunday rose to an estimated $40,000 Monday when it was reported that a 70-year-old Chinese lost $10,000 in cash in the blaze.

Police were told that the man, identified as Eng Kim, had the money stored in tin pails in his shack, one of the four buildings destroyed.

A dozen people were made homeless in the fire, which wiped out an entire business block in this community 140 miles east of Vancouver. Nobody was injured. Cause of the blaze was not established.

Labor Picture Bright At Coast

VANCOUVER (CP) — The National Employment Service says the 8612 job seekers registered here can't fill the mounting number of vacancies.

Horace Keetch, manager, says: "It's the best year we've had since the war. It's well below last year's figure of 9752 job seekers."

He said engineers top the list of wanted workers. Skilled tradesmen and technicians are being snapped up and stenographers are in big demand, he said.

They Got Away With It

VANCOUVER (CP) — The keen sense of smell of customs officers can not be depended upon to detect alcoholic beverages, says magistrate Gordon W. Scott.

He dismissed charges against two men accused of having in their possession 374 bottles of whisky and six bottles of brandy when customs officers revealed that they had not broken the seals of any of the bottles to identify their contents.

The two men, Notis Zervas, 29, and Constantine Razis, were charged by the customs officials when they stopped a small truck on a city dock, and found the alleged contraband.

Identification, as laid down in the Customs Act, must mean more than stating where the whisky had come from, the magistrate said.

Union Chief Backs Stevenson

CHICAGO (AP) — Walter Reuther, the Auto Workers Union chief, came out formally Monday night for Adlai Stevenson for the Democratic presidential nomination.

Reuther, a powerful influence in the Michigan delegation which has 44 Democratic convention votes, told a reporter:

"I'm for Stevenson. Everybody knows I'm for Stevenson. I don't see why I should make a big production of it."

Previously Reuther had been reported as favoring Stevenson, but he had never said so.

BENNETT SEES FURTHER B. C. DEVELOPMENT

VICTORIA (CP) — Premier Bennett Monday predicted further industrial expansion would take place in British Columbia as a result of his meeting with a group of industrialsists in Vancouver Saturday.

He refused to name the industrialists but said one of the men was a top official in the Aluminum Co mpany of Canada.

"There will be a widening and a broadening of our industrial development so we can have a more balanced economy," said the premier. "From general discussions I can say there will be a further industrial expansion in our province."

Conservationist Leaves $7 Million In Will

VANCOUVER (CP) — The late Will J. Reid, conservationist and man who led the Buttle Lake fight, left a will of $7,000,000 when he died four months ago in California.

Half of the estate and the income from the revenue was left to Reid's widow. Long Beach Boy Scouts were left $361,350, Camp Firek Girls $180,620 and Ducks Unlimited in Alberta, $108,375.

"Blitzkreig Tactic" — Laing "Publicity Seeking" — Strachan

VANCOUVER (CP) — Provincial Liberal leader Arthur Laing said Monday night Premier Bennett's announcement of an election for Sept. 19 is a "typical blitzkrieg tactic unfamiliar to the people of Canada."

Mr. Laing said that Premier Bennett, who criticized previous Liberal administration in his radio broadcast announcing the election, spoke "with an air of crisis."

"We of the Liberal party would like Mr. Bennett to tell the people of B.C. what this crisis is . . . Mr. Bennett says things were never better in B.C. He has a mandate until 1958, so why has he called an election now?"

VANCOUVER (CP) — Premier Bennett was called a "publicity-seeking hound" Monday night by provincial CCF leader Robert Strachan in commenting on the premier's announcement of a Sept. 19 provincial election.

Mr. Strachan, opposition leader in the legislature said the premier "is bent on putting B.C. people to unnecessary expense."

"What's the Social Credit party afraid off?" he asked in an interview. "Its mandate is good until 1958, yet he (Mr. Bennett) insists on committing the people to an unnecessary expense of $300,000."

"That's how much it will cost the people to have this third election in four years . . .

"However, now that he has called it, it will give the people a chance to throw him out and get a good government, not one interested in seeking publicity but one that will see that the needs of the people are met."

80 BODIES DISCOVERED

Rescuers Try to Get Mine Dead To Surface

MARCINELLE, Belgium (Reuters) — Rescue teams were attempting to bring to the surface Monday night the bodies of 80 miners found during the day at the 2750-foot level of a disaster-struck coal mine here.

Authorities said at least "several dozens" of dead had been found at the level where 80 miners had been trapped when fire broke out in the mine last week. There was no mention of any survivors at this level.

Director of Belgium's federal mines administration, Andre Van Den Heuvel, gave this news to a huge waiting crowd, many of whom have kept their vigil since 270 miners were entombed here last Wednesday.

The unofficial Vatican daily Osservatore Romano Monday called for state intervention to enforce adequate safety measures in mines, and for the creation of an international "mine charter."

Soon after the national funeral of six other dead was held at Marcinelle earlier in the day, an angry crowd rushed to the gate barring them from the mine entrance. There were shouts of "Give us more news. Tell us what is going on. We have a right to know the truth."

Minutes afterward Van Den Heuvel appeared at the gate and made his announcement over the loudspeaker about finding the 80 bodies.

11 BOY ESCAPEES NABBED AT COAST

NANAIMO (CP) — Search parties were out all day Sunday rounding up 11 boys who escaped from Brannan Lake Boys' School here.

All were recaptured.

Police drove at speeds in excess of 80 m.p.h. to catch three of the boys. The car in which the boys were riding sideswiped another auto and then rolled over several times in a spill at Qualicum. The trio were taken without injury.

An RCMP constable and a police dog rounded up four more escapees at Pleasant Valley in the early evening.

Four others were picked up by staff members who joined a search party.

DIES OF INJURIES

NORTH VANCOUVER (CP) — An 83-year-old West Vancouver woman died in hospital Monday from injuries received when struck by a car.

Mrs. Elizabeth McKenzie died in North Vancouver hospital.

Her death brought to 16 the number of persons killed in accidents in British Columbia during the weekend.

Gov't Plans Silicosis Study

MISSION—Labor Minister Lyle Wicks announced Monday a full-scale inquiry will be conducted into the "whole field of silicosis."

Mr. Wicks, in making the announcement at the official opening ceremony of the Mission bridge, said: "In the public interest, it was the feeling of the government that the time has arrived for such an inquiry."

The inquiry will be conducted independently by silicosis specialist Dr. R. A. Riddell of Toronto.

Mr. Wicks added that the inquiry came about as the result of "many months" of study by the Department of Labor and the Workmen's Compensation Board.

TURBO-JET AIRLINER TO VISIT COAST

VANCOUVER (CP)—A Turbo-jet, Bristol Britannia Airliner will arrive here Sunday as part of a demonstration tour of Canada and the United States.

Officials of Canadian Pacific Air Lines said the Britannia will arrive here from Los Angeles at 2:30 p.m. PDT for a 24- hour visit.

The craft, largest commercial airliner to visit Vancouver, is a slightly earlier and smaller model than the five Britannia model 300s, on order by CPA for delivery in September, 1957.

The Britannia cruises at 400 miles an hour at 30,000 feet.

DOLLAR UP

NEW YORK (CP) — Canadian dollar was 1-16 higher at a premium of 1 31-32 per cent in terms of U.S. funds Monday. Pound sterling 1-16 lower at $2.78¼.

$150,000 Fire Possibly Set

SAINT JOHN, N.B. (CP)—City detectives are investigating the possibility of arson in a $150,000 uptown fire here Monday which left five firemen slightly injured.

Three alarms drew all the city's firefighting equipment to the congested business area where flames raged at the rear of the Agnew Surpass shoe store and threatened to spread to two adjoining three-storey structures.

Billowing clouds of smoke hovered over curious shoppers as they lined the streets by the hundreds while firemen poured tons of water on the flames to keep them from the other wooden buildings.

Police began immediate investigation of the two-hour outbreak after a shoe store clerk reported seeing two juveniles running from the rear of the structure minutes before the first alarm sounded at 1:47 p.m.

The second alarm sounded minutes later and the third at 2:50 p.m. Equipment at fire stations in nearby Lancaster stood by to cope with further outbreaks in either city.

Sullivan Leaves Hospital

DERBY, Conn. (AP) — Television personality Ed Sullivan and Robert H. Precht Jr., his son-in-law, were discharged from hospital Monday, a week after they were injured in an automobile accident.

Bennett Broadcasts Anticipated Report

VICTORIA (CP) — Premier Bennett announced Monday night his Social Credit government will go to the people on Sept. 19 this year.

The premier made the long-awaited election announcement at the end of a 15-minute political free time program over the Canadian Broadcasting Corporation network.

The Premier's speech which listed the major accomplishments of the government's four years in office, was also heard at a meeting of more than 400 Victoria Social Credit supporters holding a nominating convention for the city candidates in the election.

Mr. Bennett has for several weeks now put aside questions concerning an election this Fall and said it could come "anytime".

The votes this Fall will be cast in the "X" system in use before the alternate vote system was introduced by the Social Credit government during their minority reign in 1952.

The X votes will be cast to elect an increased number of representatives, 52 instead of 48, following an amendment passed before the last session was prorogued.

The amendment gave an additional member to the then one-member ridings of Delta, North Vancouver and Burnaby and divided the Northern Peace River constituency into two seats, north and south Peace.

Opposition members fought the redistribution plan bitterly and charged that other constituencies were more in need of increased representation.

E. E. Winch, (CCF-Bunaby) charged the government was concerned "wholly and solely in the maintaining of its political advantage, not with the people of B. C."

With the announcement Monday, B. C. became the fourth province in Canada to hold an election this year, preceded by New Brunswick, Quebec and Saskatchewan.

PREMIER BENNETT

Terrorists Blow Up Yacht

NICOSIA, Cyprus (Reuters) — Terrorist frogmen Monday blew up a 63-ton yacht owned by Capt. C. W. B. Worthington, captain of the guard of British Governor Sir John Harding.

Five crew members aboard at the time of the explosion in Kyrenia harbor, North Cyprus, escaped uninjured when the yacht settled bow-first in the harbor floor.

Worthington, a member of a wealthy British brewing family, held a regimental party aboard the yacht Saturday night. He was not on board when the frogmen struck Monday.

Georghios Efthymiou, 19 - year-old Greek Cypriot, was acquitted Monday by a special tribunal in Nicosia on a charge of murdering a British teacher here last June.

A four-day Greek-Cypriot general strike, proclaimed through out the island to protest the hanging of three Greek Cypriot youths convicted of terrorism, ended Monday.

Living Index Up Across Canada

OTTAWA (CP) — The consumer price indexes were higher in 10 regional Canadian cities during June, the bureau of statistics reported today.

In five of the city regions — Montreal, Toronto, Winnipeg, Edmonton, Calgary and Vancouver—increases equalled or surpassed the .6-per-cent rise recorded by the Canadian index in the same period while the five other areas were lower.

The bureau said higher food prices were mainly responsible for the increases, particularly potato prices which rose in all 10 regions.

The index figures by cities, with last year's figures in brackets, include: Winnipeg, 117.6 (116.6); Saskatoon-Regina, 115.6 (115.2); Edmonton-Calgary, 115.7 (114.9); Vancouver, 119.3 (118.4).

Betsy Heads for Florida

MIAMI, Fla. (AP) — Hurricane Betsy bore down on Florida's eastern "gold coast" Monday night from the east central Bahamas at a clip that could bring the storm's fringe winds ashore near Palm Beach by morning.

Betsy's position was given in a U. S. weather bureau bulletin at 9 p.m. EDT as a short distance southeast of San Salvador Island, 430 miles from Miami. That was 30 miles closer to the south Florida metropolis than the storm's location at 6 p.m.

The bulletin termed Betsy "a small but extremely severe" hurricane with 120-mile winds churning around a small area of its centre.

Black and red hurricane flags flew from Miami 169 miles north to Melbourne, Fla. Northeast storm warnings were displayed from St. Augustine to Key West, a stretch of 417 miles.

The storm was holding to its steady west - northwest course, moving at 18 miles an hour.

As Betsy bore down on Florida, millions of dollars worth of property damage was reported from Puerto Rico in the wake of the hurricane's overland slash there.

Civil defence officials said at least 21 towns, with populations of 8000 to 80,000, were hard hit.

Industrialist Says B.C. Lost Out on Iron Ore Deal

VANCOUVER (CP) — Victor Abrams, North American industrialist, says premier W. A. C. Bennett's recent threat to stop iron ore exports to Japan has cost British Columbia millions of dollars.

Mr. Abrams, New York millionaire who first came here to handle sales of $25,000,000 surplus Kitimat equipment, said Saturday:

Since premier Bennett's declaration Japan has suddenly turned its engineering attention to Mexico where we are sure of ore deposits and uninterrupted shipments."

Companies with which Abrams is associated will spend $60,000,000 in Mexico in the next few years. Abrams and associates have contracts to sell a minimum of 1,000,00 tons of ore to Japan each year, with the market expected to grow to 10 times that tonnage.

Mr. Abrams said the premier's announcement "couldn't have come at a more inopportune time as India had just clamped similar restrictions on ore sales to Japan."

He said Mexico's president A. Ruiz Cortines is co-operating fully with venture capital offered by Japan or any other country.

"Mexico is in the throes of an industrial revolution like the world has never seen. It's positively fantastic and certainly some of it is taking capital that would have come to .C. if the atmosphere had been better here."

The parent company involved in the multi-million dollar Mexico developments is Abrams' C. T. Takahashi De Mexico.

The Mexican developments are in iron and copper, and Abrams' Mexican company has optioned with Noranda, the world's second largest copper company, to handle the new copper strike.

IRON CURTAIN RISES

VIENNA (AP) — A promise came from Communist Hungary Monday that the Iron Curtain barrier along the frontier between Austria and Hungary will be completely removed by this Fall. Radio Budapest said Premier Andras Hegedus made the announcement in a speech at the border town of Sopron Sunday. He called booby traps on the border, where scores of refugees have lost their lives, a "technical rampart."

West Warned Against Using Force at Suez

By ARTHUR GAVSHON

LONDON (AP)—The Arab world warned the West Monday against using force in the dispute with Egypt over the Suez canal. And the British Labor party demanded that Prime Minister Eden publicly guarantee Britain will not attack Egypt.

Britain pressed a buildup of air, land and sea power in the Mediterranean despite the warnings.

Delegates of 22 nations were gathering in London for Thursday's conference, arranged by Britain, France and the United States, to consider international control of the canal. Egypt and Greece refused to attend.

In Washington, the state department reiterated complete accord with Britain and France that there should be "international means to insure the practical and efficient functioning of the Suez canal."

COMPROMISE SOUGHT

Behind the scenes there was a feverish search for a diplomatic compromise that would enable both President Nasser of Egypt and Eden to save face.

Other developments during the day:

1. A British government spokesman said some British troops are being pulled out of Germany in view of the Suez crisis. They will bolster the strategic reserve in Britain. Presumably they replace troops shipped to the Mediterranean.

In Damascus, a government spokesman said Syria has told Britain and the United States it might be unable to protect American and British oil pipelines across Syria against sabotage from "an angered people" if the West attacks Egypt.

3. In London, Maj. Salah Salem, Egypt's former propaganda minister who arrived by air to report the conference for a Cairo newspaper he edits, said that Egyptians are prepared to blow up the canal if their country is invaded.

4. Salah Osman, special Egyptian envoy to Indonesia, said in Singapore that Egypt is ready for any eventuality including "the dynamiting of the Suez Canal" if necessary.

5. Two flying boats began ferrying wives and children of British employees in the canal zone to Malta en route to Britain.

6. In Tel Aviv, opposition leader Menachen Beigin attacked the Israeli government's passive attitude toward the Suez crisis. He declared Nasser would follow up his seizure of the canal with an all-out attack on Israel.

ARAB LEAGUE MEETS

An emergency meeting of Arab League leaders in Cairo adopted a resolution saying Arab countries "consider any aggression against any Arab country as aggression against all other Arab countries."

Among the nine Arab nations pledging full support of Nasser's seizure of the Suez Canal last month were Iraq, Jordan and Libya, all allied to Britain by political and defence treaties.

Freight Increases

OTTAWA (CP) — Carloadings on Canadian railways increased 11.6 per cent during July to 402,233 cars from 360,830 a year earlier, the bureau of statistics reported Monday. The July increase raised the January-July total this year to 2,504,389 cars from 2,252,262 in the corresponding period last year, receipts from connections rose 4.9 per cent in July to 136,810 from 130,392 and 9.6 per cent in the seven months to 1,030,779 from 940,910 a year earlier. Grain movement showed the greatest increase over the seven months rising to 272,453 from 198,196 a year earlier.

SALVAGE SUNKEN SHIP

QUEBEC (CP) — Salvage workers from a Quebec firm started operations Monday to raise the ice-breaker Lady Grey, resting in 125 feet of water near Beauport on the St. Lawrence River five miles east of here. The vessel went down Feb. 1, 1955, following a collision with a ferry boat.

AN EGYPTIAN NATIONAL GUARDSMAN issues military uniforms and rifles to housewives at a "national liberation army" training centre in Cairo Aug. 10. Egypt has begun a military program for her growing volunteer forces, including women, and has welded them into a new peoples army to stand by the regular army in the Suez Canal crisis.—AP Wirephoto.

And in This Corner...

KITCHENER, Ont. (CP)—David B. Martin's family of 11 boys at nearby Floradale finally welcomed a baby sister Saturday. The family operates a farm.

In June, 1954, as seven brothers awaited a baby sister, twin boys were born.

Last September, as nine brothers awaited a baby sister, twin boys were born again.

Saturday, 11 brothers—all born at home—were waiting again. At hospital a baby daughter was born to Mr. and Mrs. Martin.

OSHAWA, Ont. (CP)—Here is a tale with a difference: Delbert Lewis, 32, of Bowmanville stole the dog-catcher's dog.

Said the magistrate, giving Lewis three months' suspended sentence: "It was stupid to steal the dog catcher's dog when he has all kinds to give away."

EDMONTON (CP)—A 52-year-old man told police that his wife had taken his two wooden legs and he was worried she might become intoxicated and destroy them. The police called at the couple's home and the 42-year-old wife surrendered the legs.

"Everything quiet on our departure," police said in their report.

VANCOUVER, Wash. (AP)—Charles K. Foshang, 22, was in jail Monday because he underestimated his size.

Sheriff's deputies found Foshang wedged securely in a window of a tavern early Sunday. He was in a weakened condition from impaired breathing.

He was booked on a charge of burglary with bail set at $1500.

Nelson Man New City Works Supt.

A 26-year-old Nelson man who has taken a year's post graduate studies at the University of California at Berkley, was named public works superintendent by councillors at their Monday night meeting. He replaces G. Q. Lake, who leaves Nelson after his holidays for an appointment at Burnaby.

J. E. (Ed) Olson, graduated from the University of B.C. in 1952, was a resident engineer on the Terrace-Kittimat branch line of the CNR for three years, then moved to the railway's research and development branch in Montreal. Last Fall took a post graduate course in business administration at the University of California.

Unmarried, a camera, tennis and bowling enthusiast, Mr. Olson, has lived all his life in the district and received most of his schooling in Nelson. His parents, Mr. and Mrs. J. E. Olson, live at 1124 Front Street.

Coast Forests Watched Closely

VICTORIA (CP) — The Vancouver Forest District will be kept under "constant review" to determine the possibility of a forest closure as a result of the current dry spell, a forest service official said Monday.

"The forests are becoming dangerously dry again and a third closure may be necessary," the official said. "There is no indication of any immediate let-up in the hot weather."

Orderly Development of Nelson Sought by Town Planning Survey

JUDITH ALLEN

MAURICE VANSACKER

Two of the L.V. Rogers High School students who were awarded scholarships for the University of British Columbia this Fall are Judith Allen, daughter of Mr. and Mrs. Nelson Allen, and Maurice VanSacker, son of Mr. and Mrs. A. C. VanSacker. A major award winner from L. V. Rogers High School this spring, Judith is winner of the $250 UBC Alumni Association regional scholarship. Maurice was awarded the $400 Pacific Brewers Agents Ltd., scholarship.

A planning study of the city of Nelson to assure organized development of residential and commercial areas, has been authorized by city council and is already under way.

The survey is being carried out by the Regional Planning Division of Municipal Affairs, which makes the survey at no cost to the city and recommends what course of development they feel would be most advantageous to the city. Council can accept the recommendation or reject it.

Council, with an eye on the city's steady development, has been anxious to get a town planning survey under way in order to assure that development would be organized and to the community's advantage. After lengthy consideration, council decided to take advantage of the town planning survey offered by the department of municipal affairs rather than set up its own town planning commission, which would have taken considerable time to set up and obtain town planning experts for.

The survey, being made by Alfred A. Staples of the Regional Planning Division, will take a week in the field and several months of research and study at Victoria before a recommendation can be made to council.

Mr. Staples was accompanied to Nelson by J. H. Doughty-Davis, director of the Regional Planning Division who has returned to Victoria.

Of particular concern to the mayor and council is the revising of the 1939 Zoning Bylaw which has long proved inadequate to control residential, commercial and industrial development in Nelson. This matter, as well as the actual zoning of the city, will receive first attention from the government planners, who agree with council that the new bridge, plus an ever increasing commercial expansion will soon radically change the face an character of Nelson.

If this radical change is to be for the better, with adequate protection for residential areas against commercial and industrial encroachment, with convenient shopping centres and plenty of off-street parking with smooth, safe traffic flows, then council felt planning must begin at once and so requested the survey.

Planning will take into consideration fringe areas although councils jurisdiction does not extend to them and only recommendations can be made.

College Chapel To Be Blessed Wednesday

Notre Dame College's founder, Most Rev. Martin M. Johnson, D.D., Co-adjutor Archbishop of Vancouver, on his first return visit to Nelson since taking up his office in Vancouver in March, 1955, will officiate at the blessing of the College chapel at 4 p.m. Wednesday.

Following the dedication ceremony, the former Bishop of Nelson will celebrate Pontifical Low Mass in the new chapel. Blessing will take place outside the chapel.

A number of Notre Dame students and alumni are expected to attend the dedication. It is also open to the public.

Establishing of the college in 1950 was one of Archbishop Johnson's many notable accomplishments throughout the diocese of Nelson during his 18 years as Roman Catholic bishop. Building of the chapel will complete the first phase in the new buildings program undertaken three years ago. This year has seen the completion and exterior decoration of the original classroom building and the opening of a college residence that will accommodate 60 men—notable progress from the college's beginning six years ago in a Nelson bakeshop.

STARTED DRIVE

An extensive financial campaign, originally launched by Archbishop Johnson, has been carried out throughout the diocese during the past two years to obtain necessary funds for this construction.

Due to delay in receiving materials, the chapel, which is designed in contemporary style, will not be completed by dedication day but will be usable. Architects Paul E. Smith and Partner of Trail are architects for the chapel and Louis Maglio is contractor for the $35,000 project.

It will provide facilities for college worship and religious training of students. This weekend, Friday to Sunday, the lay women's retreat will be held at the chapel; priests retreat from Monday to the following Friday, and the laymen's retreat from Friday, Aug. 24 to Aug. 26.

On Aug. 27 and 28, the college will be the site of the provincial convention of the Catholic Women's League.

ATTRACTIVE PRIZES IN SWIMMING GALA

Nelson boys and girls participating in the swimming gala August 22 will have a chance to win prizes ranging from travelling bags to swimming suits.

Recreation director Joe Johnson reported Friday that the North Shore district was well ahead in number of participants entered for the event. Four districts have been designated for swimming gala competition — North Shore, Fairview, Uphill above and including Latimer Street, and Uphill below Latimer. List of entries can be seen at the Civic Centre.

The more who enter the event, the more and better prizes will be, Johnson stated. Entrants of the seven to 10-year age group are especially required now to make the gala a success, he said.

BRITISH SOCCER

LONDON (Reuters) — Cricket close-of-play scores in Britain:

Australians 146 and 80 for 1, Derbyshire 111.

Middlesex 69 and 108 for 5, Surrey 176 for 9 declared.

Essex 249 for 8 declared, Kent 143 for 7.

Sussex 264, Gloucestershire 103 and 70 for 3.

Royal Air Force 154 for 7 vs. the Army.

Lancashire 109 and 0 for 1, Northamptonshire 236 for 8 declared.

Somerset 241 and 22 for 1, Glamorgan 313.

Hampshire 237 vs. Leicestershire.

Warwickshire 249, Nottinghamshire 228 for 9.

Worcestershire 126, Yorkshire 58 for 2.

FINED $5

Lloyd G. Scott of Nelson was fined $5 and costs in city court Monday when he pleaded guilty to a charge of failing to pay a parking fine for interfering with the entrance and exit of the Civic Theatre. He appeared before Magistrate R. S. Nelson.

Council Jottings...

In a letter to city council Monday night the Nelson Rod and Gun Club reported that it has completed work on Sportsman Park beside Cottonwood Falls. Council alloted $500 in the 1956 budget for the job. Mayor Joseph Kary commented that he found the park "much improved" with the work of the Rod and Gun Club.

• • •

An invitation was received by council from J. R. Johnson, recreational director, to attend as guests the Swimming Gala to be held at Lakeside Park on August 22, and also Sports Day at the Civic Centre Recreation Grounds on August 29.

• • •

A request to the city council for financial support for "Miss Nelson" at the Pacific National Exhibition at Vancouver was made Monday night by the Bonspiel Queen Committee. The request was referred to the finance committee with power to act.

• • •

A request to purchase a lot on Apex Creek in the Nelson Watershed reserve was made to city council Monday night by Stanley Linton of Nelson. Mr. Linton outlined the area on a map for council members. Council will review the request which was made previously by Mr. Linton and refused by council.

HALL STREET BEING PAVED

City public works crews completed paving five blocks of Kootenay Street Monday and moved their equipment to Hall Street between Baker and Vernon Streets.

Crews worked Monday preparing Hall Street for the surfacing.

After Hall, Vernon Street will be paved, then the equipment moved to Second Street where heavy ferry traffic is creating a dust problem.

First paving was done on Kootenay Street in order to finish paving work already under way before moving on to new projects.

Curbs are being put in on Kokanee Street in Fairview in readiness for paving and sidewalks work is going ahead.

Slight Drop in Gas Manufacture

Amount of gas made by the City Gas Works showed a slight drop during July in the monthly report of the Gas Works to city council Monday night.

A total of 1,274,000 cubic feet of gas were made last month, compared to 1,407,000 cubic feet in July of last year.

Output during July totalled 1,221,000 cubic feet, compared to 1,225,000, cubic feet in July of 1955 and the report stated that 1700 cubic feet of gas was used in the plant, compared to 2700.

The same report showed that 7724 gallons of propane gas were purchased last month, compared to 15,345 gallons for the same month last year. Propane gas manufactured totalled 8346 gallons, compared to 6988 gallons and propane sold, 848 gallons, compared to 1914 gallons.

A total of 57 services were cut on and 59 cut off during July, compared to 12 cut on and 13 cut off in July of 1956. Ten appliances were connected, compared to 15 the previous year and four were disconnected, compared to two. A total of 14 meters were repaired.

Parking meters repaired numbered 61 last month, compared to 74 in July of last year; parts used totalled 25, compared to 20; hours of labor, 106, compared to 98 and meters painted, 13, compared to 16.

South Nelson School To Be Ready This Week

South Nelson Elementary School will be ready for desks, books and supplies by the end of this week as the $97,000 renovation program nears completion.

Contractors, Stange Construction Company, have been held up in the renovation while waiting for materials on order. The program was to have been finished Wednesday, August 15.

The major job yet to be completed is the sanding and varnishing of the hardwood floors and the laying of heavy linoleum on the floors of the corridors.

Installation of heating and plumbing systems are not yet completed and some painting on the interior and exterior of the building is yet to be done.

The school will capacitate between 190 and 200 students this fall with seven class rooms, a music and activity room, library, office, book storage room and staff room.

Construction will begin today by Williscroft Contractors of Nelson on a two-room extension to Salmo Elementary School. The $24,000 project has a completion time limit of 90 days, but maintenance supervisor for Nelson School District No. 7, Arthur Collison said Monday that he expects the work to be completed within two months.

Work is also well under way on the installation of a basement to the Willow Point Elementary School.

Mrs. Heppell, Oldtimer, Dies

Nelson oldtimer, Mrs. Margaret Jane Heppell died at Kootenay Lake General Hospital Monday at the age of 91.

Born at Satley, County Durham, England, she came to Canada in 1907 settling in Nelson where she has remained for 49 years, maikng her home at 510 Silica Street. She was predeceased by her husband George in 1911 and two sons Robert and William in World War I. She is survived by two sons, Jack of Nelson and Walton of Seattle and one daughter, Mrs. H. (Maude) McDougall of Seattle, and one grand daughter, Joan of Seattle.

W. H. Riley, 38, Dies Suddenly

William Hepworth Riley died suddenly at his home at 823 Observatory Street Monday at the age of 38 years. He was born in Rossland and moved to Blewett as a boy.

He was with the Duke of Connaught's Own Rifles of the 28th Canadian Armored Regiment from 1941 to 1946 in Canada, England and the continent. On return from the war he married Emily Leeming and was employed by several Nelson firms. At the time of his death he was with Kootenay Forest Products.

He was the owner of Riley's Grocery, was active in curling and a member of the Nelson Legion.

He is survived by his wife, one son, Thomas; one daughter, Patricia; his parents, Mr. and Mrs. William Riley of Nelson; one brother, Alexander, in Calgary, and one sister, Mrs. Ron Zubick of Nelson.

JEWELS STOLEN

CHICAGO (AP) — William Benton, former Democratic senator from Connecticut, reported to police Monday thieves looted his hotel room of $16,700 worth of jewelry. Benton said the gems were taken from a 14th floor suite in the Ambassador East Hotel while he and his family were out Sunday. Benton said the jewels were insured and that the thieves failed to find a pair of priceless pre-Christian Greek earrings. Benton is a delegate from Connecticut to the Democratic National Convention.

Labor Day Target Set for Swim Pool

Installation of piping and laying of a concrete floor in the Rotary Club's swimming pool project at Lakeside Park may be completed by Labor Day, when a holiday sports program is to be staged at the park by the club.

This was revealed in reports on the project presented at the Governor's Assembly at the North Shore summer home of Mr. and Mrs. K. R. Yale, Monday night. Governor for District No. 156 is J. H. Coventry of Nelson.

W. L. Clark, community service director, and H. R. Coleman, swimming pool committee chairman, gave reports on the pool. They said that so far, $17,000 in contracts have been let on the project. This week, Kootenay Plumbing and Heating Company Ltd. would be putting in pipes. This would include scum gutters for taking off floating trash and pipe for circulating water taken through a treatment plant. The plant treats water taken from the pool by chlorination and filtration, then returns it to the pool.

The pipes also will be connected to mains replacing water lost by evaporation and so on. Laying of concrete follows this work and it is hoped to have the work completed by Labor Day. All this work will be included in the $17,000 in let contracts, and an additional $7000 will be required for the treatment plant.

The Labor Day sports program is aimed at raising more funds for the pool.

The assembly, attended by 32 Rotarians, was in charge of president David Fairbank. Wives of members also attended.

Advice on Rotary's various aims was given by Mr. Coventry and past district governor Harry D. Harrison took part in discussion.

Chairmen of committees reporting on projects for the coming year were R. M. Edwards, attendance; C. B. Mutchler, classifications; J. H Argyle, membership; K. D. McRae, Rotary International; J. R. Corner, programs; L. A. McPhail, fellowship; H. D. Harrison, magazine; Thomas Fox, for Vincent Moore, sergeant at arms; R. H. Dill, for G R. Norris, greeters; Nelson Allen, song leaders; E. T. Bodard, club bulletins; J. A. Dennison, vocational service; W. L. Clark, projects; A. B. Gilker, for W. C. Hancock, youth service; Dr. H. T. Lowe, international service; J. R. Corner, foundation fellowship.

Mr. Clark and R. B. Allan announced that this year's main project would be furnishing of a Kootenay Lake General Hospital single bed ward with furnishings of a type that would be suitable in the new district hospital. A project of this size would not interfere with completion of the swimming pool, they explained.

The evening concluded with a community sing around a beach bon-fire, led by Nelson Allen and a social gathering in the Ken Yale home.

Muriel Lauder To PNE Next Week

"Miss Nelson" of 1956, Miss Muriel Lauder, will leave on August 25 or 26 for Vancouver where she will compete against 30 other girls from all over the province for the title of "Miss P.N.E." at the Pacific National Exhibition beginning August 22.

The 20-year-old Miss Lauder, Mid-Summer Bonspiel Queen will be in Vancouver for a week to be judged on the basis of talent, public speaking ability, personality and beauty. The winner will be announced on August 29.

Winner of the 1956 "Miss P.N.E." contest will automatically also carry the title of "Miss B.C. Lions" and attend the Grey Cup final in Toronto this year, it has been announced recently.

BUDGE BOUNCES HOAD

MUNICH, Germany (AP) — Budge Patty Monday upset Wimbledon champion Lewis Hoad of Australia, 1-6, 0-6, 6-2, 7-5, 6-4 to win the international Bavarian tennis tournament.

Hoad seemed on the way to an easy victory until Patty rallied strongly in the third set. From then on he outplayed the Australian ace.

NO SERIOUS FOREST FIRES

A total of 20 new forest fires have broken out in Nelson Forest district since Friday, assistant district forester E. W. Robinson reported Monday.

None of the new fires is reported to be serious but continuing warm weather has increased the fire hazard and extreme care with fire is urged.

A total of 81 men are fighting 27 fires in the district. All fires are reported to be under control.

BLACK RIBBON of asphalt is growing in length in the Slocan Valley with the government's program of improving the highway. The section here, recently paved by Mannix, O'Sullican, Marlowe, is near Crescent Valley. Extensive rerouting was done in the path of the paving crew.—Daily News photo.

Paper Notes Cominco's Resumption Of Exploration In Eastern Canada

TRAIL — After an absence of years, The Consolidated Mining and Smelting Company of Canada has resumed exploration activities in Eastern Canada, the Northern Miner states.

"The big western company has set up a permanent central exploration organization operating out of Port Arthur. It will cover the entire Precambrian shield, extending all the way from Yellowknife to Labrador and down into the Appolachion region of the Maritimes.

"The new central headquarters of Consolidated represents an amalgamation of two previously maintained divisions, the north-central and eastern. But it's at least five years since the company's representatives have been very active east of Manitoba."

Visiting the new offices, The Northern Miner got the impression that Cominco is embarking on a full scale exploration effort. For at the present time, it was learned, five separate prospecting parties are being maintained in the field —three in Ontario, one in the Northwest Territories and one in New Brunswick.

700 CLAIMS

The paper further states:

"The exploration heads would appear to be viewing New Brunswick with a particularly favorable eye. For here, something in excess of 700 claims have now been acquired. Both aerial and ground electromagnetic surveys are presently under way, together with detailed ground work. If results of this work warrant, drilling will follow.

The new central office is fully equipped, being complete with a library, drafting department, etc. G. N. Moore, exploration superintendent, heads the new arm, while R. A. Spencer is field engineer covering the territory east of the Lakehead and H. F. Aston responsible for the areas to the west.

The headquarters also maintains its own geological department. Dr. Neil Campbell is regional geologist, resident at Trail, while Dr. W. M. Little is resident geologist at Port Arthur.

The company's exploration arm maintains two aircraft, likewise based at Port Arthur.

Credit Union Chapter To Visit Burton

TRAIL — The West Kootenay Chapter of Credit Unions will pay its yearly visit to the Nakusp-Burton area next month.

Mrs. George Guenard, treasurer of the Burton and District Credit Union, has outlined plans for the meeting, which will take place in the Burton Hall September 15, to be followed by a bean supper. Guest at the meeting will be Alison Martin, director of the B.C. Credit Union League and of the Credit Union National Association. Mr. and Mrs. Guenard will entertain the visitors at their home following the dinner.

Bush Fire Quelled Above Riondel

RIONDEL — A lightning flash caused a bush fire on the ridge above Riondel that took a crew of 10 men several hours to extinguish.

The fire fighting crew under the leadership of Ray McGregor went by truck to Thompson's Cabin and hiked for about two and a half hours to reach the blaze. The fire was finally extinguished and the hungry crew returned to Riondel at about 9 p.m.

Mineral King Accident Claims Three Miners; Bodies Recovered

INVERMERE—Grim-faced men are taking their usual shift at the Mineral King Mine after participating in the recovery of the bodies of three of their fellow miners.

Last of the three bodies was brought to the surface about 9 a.m. Monday after a continuous 40-hour effort hauling rock and muck by cable buckets up the steep incline of the shaft between the second and the third levels.

The first victim, Ippazio Serracizza, hanging from a safety belt, was brought up shortly after the accident occurred about 1:30 p.m. Saturday. The second body was recovered at 8 a.m. Monday and the third about one hour later.

Ippazio Serracizza, 26, an Italian immigrant, was single. Leslie H. Rogers, 52, shift boss, was married and had three children. Anton Ornatowiz, 38, was married. All three resided at Mineral King.

Only Mr. Serracizza and Mr. Ornatowiz were actually working at the Grizzley when it collapsed. Mr. Rogers had returned to the No. 2 level after lunch on a routine inspection and did not wear a safety belt. Ornatowiz' job did not require one.

The three were killed when a grillwork between two levels of the lead-zinc-silver mine, owned by Sheep Creek Mines Ltd., gave way. Two of the men were carried to the bottom of the shaft and the third, who had a rope around him, was suspended in mid-air and killed by falling rock.

ON SAFETY BARS

H. E. Doelle, Nelson managing director of Sheep Creek Mines Ltd., said the accident occurred at a raise in the mine, which is 5600 feet up in some mountains

He said the three apparently were atop metal safety bars installed to prevent their falling into a hole. He could not understand, he said, why three men should have been on the bars at once, as was reported.

Mr. Doelle said the bars presumably had been weakened by blasting.

Five timbermen from Kimberley Sullivan Mine and five from Giant Mascot Mines at Spillimacheen assisted local crews in recovery work. A massive amount of ore had fallen down the shaft between No. 2 and No. 3 level covering the bodies of the trapped men.

The shaft is 120 feet deep but the bodies were recovered at about the 40 foot level.

Shifts of men varying from five to 36 as conditions warranted worked around the clock, the only light available being their miners' lamps. Tons of ore were removed.

HOPE DWINDLED

Hope that the men had fallen into a pocket and might be reached in time dwindled hourly but an Invermere doctor remained in the mine until Monday morning There were no eye-witnesses to the accident.

Miners working nearby suspected an accident when they heard no activity at the Grizzley and attempted first rescue work before calling for help. Mrs. Rogers was on holidays and could not be immediately located. As soon as she was informed that her husband was trapped she left for the Mineral King.

Preliminary inquest was held Monday afternoon at Invermere.

The mine employs 60 to 70 people.

Columbia's Socred MLA Is Renominated

INVERMERE — Richard O Newton, Member of the Legislature for Columbia riding which embraces the Windermere Valley, was nominated again Saturday.

Mr. Newton, a former school teacher now in business in Invermere, was first elected in Columbia in 1952. He resigned to provide a seat for Robert Bonner on the latter's appointment as Attorney-General, but ran successfully in the next election.

He is married and has two sons and a daughter.

R. O. NEWTON

Mrs. Thomas Of Kimberley Dies

KIMBERLEY — Funeral services will be held on Wednesday for Mrs. Laura Thomas, 58, who died in Kimberley Public Hospital Sunday.

Born at Penygroes, North Wales, Mrs. Thomas came to Canada in 1936 settling at Larder Lake, Ont. In 1951 the family came to Kimberley.

Surviving are her husband, Thomas Evan Thomas, and one son, Arvon, at home.

Trail Grocers Seek New Bylaw

TRAIL (CP) — Grocery outlets here have petitioned the mayor and council to revise the early store hour closing bylaw.

The petition signed by 50 per cent of the recognized grocery outlets was presented Monday to Mayor L. A. Read and he immediately called a special meeting of council for Tuesday.

The petition follows city council action against 19 Trail grocery stores for violation of the bylaw. The summonses were issued Saturday to the stores including the city's two large chain stores.

The store managers or owners are sceduled to appear in police court Tuesday afternoon.

Funeral Rites To Be Held in Creston

CRESTON — Everett Harold Dawson, 61, has died in Saskatchewan. Burial will take place in Creston.

He is survived by his wife, four daughters, Mrs. C. Weed at Flagstone, Mrs. F. Nohr of Vancouver, Mrs. Harold Flaterud in Saskatchewan and Mrs. Stan Readman in New Westminster, and four sons, Vernon, Lloyd, Larry and Neil, all of Creston.

Regatta To Be Held At Riondel August 26

RIONDEL — Mr. and Mrs. T. A. Johnston, who attended the Provincial Recreation Commission Summer School in Victoria, made their delegate report to the regular meeting of the Riondel Recreation Club.

A regatta is being planned for August 26.

Nakusp Logger's Death Accidental

NAKUSP — A verdict of accidental death, with blame attached to no one, was returned here Friday night by a coroner's jury in the death of Jacob Peter Rondesvadt, 26, killed in a logging accident early in the week at Vipond Creek, across the Upper Arrow Lake from Nakusp.

Those on the jury were Peter Hurry, foreman; Kaz Hoshizaki, Otto Yamagisawa, Mervin Kusick, David Johnson and George Dalzell.

Mr. Rondesvadt, a scaler, was employed by Art Flick logging operations and was alone at the time of the accident. His body was found under a tree-length log.

RIONDEL — At a general congregational meeting held here, it was decided to build a Community Church in Riondel.

A building committee of nine members was elected and building is expected to commence in the near future

28 Junior Boys At Camp Galilee

NEW DENVER—The Anglican Church camp at Slocan Lake, Camp Galilee, has had a good camping season.

The junior girls' camp was more than full and there were 28 present at the junior boys camp in session from August 5 to 15, under Archdeacon B. A. Resker. Leslie Waldie attended both boys camps while Bill Mackreath and Ken Wyllie were assistants and Earl Norris took charge at the weekend when Mr. Resker was away from camp.

The junior boys visited Sandon and the Forest Lookout over the lake near Silverton. Mrs. Norglen of Kinnaird was cook for the whole of the camping season.

The Girl Guide Association will be using the camp after the boys return Wednesday. Boys were present from Nelson, Nakusp, Arrow Park, Vancouver, Grand Forks, Procter, as well as Robson.

CPR Bridge Opened At Mission City

MISSION CITY (CP) — The Mission City CPR bridge officially reopens Monday.

G. W. Manson, vice-president of the CPR for Western region, cut a ribbon at 2 p.m. to signal formal reactivation of the 1,300-foot bridge that was shut down for about 54 weeks following collapse of a span. Fraser River currents had undermined a pier supporting the span. Traffic across the combined railway-highway bridge actually resumed last Thursday but the formal reopening was delayed until today.

Jehovah Witness' Founder Was Immoral, Divorced Man Says Dean

VICTORIA (CP) — A verbal blast from Christ Church Cathedral Dean Brian Whitlow, a counter blast, and now a counter-counter blast has boomed here on claims Jehovah's Witnesses advanced during the sect's big Victoria convention ended a week ago.

August 5, last day of the Witness convention, Dean Whitlow delivered a forceful sermon which was extremely critical of the sect's belief, and charged that sect founder Charles Taxe Russell was an immoral and divorced man.

Through Witness spokesman Cliff Roberts, this was denied, and certain fundamentals of the sect's belief explained.

But the cathedral bulletin Sunday came back at Witnesses once again, quotes from which follow:

"On consulting the dictionary of American Biography, we find the following: 'In 1909 his wife Maria Frances Ackley, whom he married in 1879, brought suit for divorce, alleged immoral conduct on Russell's part with female members of the church. The divorce was granted and, although appealed five times by Russell, was always sustained.' "

The parish bulletin added "as usual, the Witnesses appear to twist the truth."

Quoted also were excerpts from "Judge" Rutherford, who followed Russell as sect head. In his book called "With Strange Irony, 'Light,' are the following passages:

"The British Empire is the seat of Satan's beastly organization . . . the British-American two-horned animal . . . Like a frog makes much noise, and out of its mouth comes that which indicates the beast condition."

It is not surprising, the bulletin continues, that in 1940 the New Zealand government declared Witnesses a subversive organization "because for some time their propaganda appeared to be wholly devoted to vilification of religion, their fellow citizens, the state and the government."

Some months later the Australian government declared the Watch Tower Bible Tract Society an illegal organization.

"The Witnesses, according to the prime minister, were associated with four broadcasting stations which were suspected of giving information to the enemy as to the whereabouts of Australian ships, which might have made them a prey to raiders."

The bulletin quoted writings of Rev. J M. Swift on the situation in Australia.

Parishioners here also read a bit of doggerel verse as follows based on Witness belief only Witnesses will be saved when their "end of the world" comes about.

"We are God's chosen few
All others will be damned.
There is no room in heaven for you;
We can't have heaven crammed."

School Trustees To Go On Tours At Cranbrook Convention Next Month

CRANBROOK — Delegates to the 52nd annual convention of the B.C. School Trustees' Association at Cranbrook September 17-19 will see a mine "inside out."

The convention program includes a visit to Kimberley, home of the Consolidated Mining and Smelting Company's famed Sullivan mine.

At the Sullivan, visitors will see a model of the famous mine; a model made "inside out" so that the excavated workings show as solid, and the solids of the natural mine are empty space. Tunnels, adits, raises, the giant "rooms" where millions of tons of ore have been taken out, the immense "refilling" operation in which dirt and rock are poured into excavated spaces from the top of the mountain — all these are shown on the model.

Entertainment for the convention will extend over four days with Cranbrook School Board as the official host and Kimberley and other members of the East Kootenay B.C. School Trustees' Association branch assisting.

COFFEE PARTY

A coffee party is planned for September 16, the day preceding the convention opening, for guests arriving during the weekend. On opening day, September 17, two luncheons are planned at noon, with trustees at the Armory and school business officials at the KP hall. Non-delegate visitors will be entertained with a tea at the Cranbrook Golf Club during the afternoon.

On Tuesday, September 18, highlight of the entertainment will be a smorgasbord and entertainment at Kimberley.

The afternoon of the final day, September 19, will be given over to district tours during the afternoon, including a visit to the Sullivan mine and concentrator at Kimberley. The windup banquet and a dance are planned for the evening.

FOR 11 DAYS, 16-year-old Gordon Davidson, son of RCMP Sgt. W. H. Davidson and Mrs. Davidson of Kimberley, formerly of Nelson, has been lying unconscious in Cranbrook's St. Eugene Hospital. He suffered severe head injuries August 2 when the car he was driving ran into a herd of horses on the highway near Cranbrook. Two passengers were also injured, but have recovered.

450 People At CCF Picnic

CRANBROOK — The annual Cranbrook-Kimberley CCF summer picnic at Peckham's Lake Sunday drew an attendance of nearly 450 people during the course of the day's program.

It opened with a children's treasure hunt in the picnic grounds and surrounding poplar groves and continued through the day with children's races, horseshoe pitching and other summer activities.

Guest of honor was the constituency Member of the Legislature, L. T. Nimsick of Kimberley, and guests attended from all parts of the district.

In the distribution of booster prizes, Tom Hardy of Kimberley won a men's suitcase, Mrs. D. Hopkins of Cranbrook, a woman's suitcase, Mrs. "Pop" Hall of Jaffray, a car rug, Ivan Middleton of Kimberley, a hunting shirt and sleeping bag, and Lyn Lancaster of Newgate, a tricycle.

Families brought their own lunches but pop and ice cream were available free to all the youngsters during the day-long affair which had perfect summer weather.

MISS THORNTON OF SANCA DIES

CRESTON — Miss Elsie Thornton of Sanca, 74, died in Creston Valley Hospital, and funeral services took place Monday.

Born in Ireland, August 4, 1882, she nursed for 44 years and came to Creston in 1949. She had been staying with her sister, Mrs. Ross Doran at Sanca.

She is also survived by a brother in Ireland, another brother in Massachusetts and a sister in England, a nephew, Archie Doran, at Chapman Camp, and a niece, Shirley Babin, in Vancouver.

INDIAN STEEL

India's output of steel reached 1,260,000 tons in 1955, a gain of 17,00,000 tons over the previous year.

Kinnaird Scouts "Best Campers" Of Three Troops At Deer Park

CASTLEGAR—At the combined Scout camp for the Castlegar, Kinnaird and Robson troops held at Deer Park, the Kinnaird and Robson troops had a close race for the best camp for the eight days. The Kinnaird troop came out one point ahead and Castlegar was not far behind. The Kinnaird boys were under patrol leader Jack McIntosh and Robson boys were led by Rodney Brown. Jack McIntosh was voted the best Scout.

The site was ideal for a Scout camp and was made available by R. Fenner. C. H. King loaned his power boat which was operated by Bob King. Dr. H. Ruebsaat also provided a rowboat for swimming and fishing.

The Scouts did their own cooking and most passed their camp cook badge tests. There was regular instruction in various Scout skills such as tracking, axemanship and shelter building. Scouting games were played. Dr. Ruebsaat gave splendid instruction in rescuers' badge work and swimming and was a great help at the camp fires.

The boys visited the natural bridge at Renata and explored the site of the old construction camp of Brooklyn. The camp was in charge of assistant Commissioner Archdeacon B. A. Resker and Scoutmaster Ken Pickering. Scoutmaster G. Younghusband was present for the weekend. He has been transferred from Castlegar and so Robson is now without a Scoutmaster.

Rodney and Lorne Brown, Byng Gireaud and Bill Turick went on an adventurous 24-hour journey for their first class badge and encountered the only wet day. They explored the natural bridge and returned along the railway.

Badges were earned by camp cook, B. King, L. Brown, R. Brown, W. Thomlinson, B. Gireaud, J. D. Scott, J. McIntosh, P. Harcoff, B. Turick, L. Hackman, J. Smith, T. Batchelor; rescuer and sfimmers, R Brown, L. Brown, B. Turick, B. Gireaud, P. Harcoff, L. Hackman; poulrtyman, P. Harcoff, L. Brown, R. Brown, B. Turick; tenderfoot, W. Mackereth; pioneers, L. and R. Brown, P. Horcoff, B. Turick, B. Gireaud, J. D. Scott, L. Hackman, J. McIntosh. This is a total of 36 proficiency badges.

FEET HURT?

No matter how bad your feet have been torturing you, you'll dance with joy when you apply deep, penetrating BUCKLEY'S WHITE RUB. Vancouver Goes It Alone

Commercial sports are becoming more and more a feature of Canadian life and there seems to be a continual drive to increase this form of entertainment. During the Winter, hockey reigns supreme and the air waves are full of broadcasts, in the Summer baseball becomes the dominant passion and Fall finds us invited to become hysterical over football, a game of which many Canadians know little.

These commercial sports have their value, for they fill gaps in the lives of people and pleasantly fill their leisure hours, but now there is a movement on foot to have such games on Sundays. This movement has arisen in Vancouver and those who have visited that city on a week-end must have marvelled at the number of beautiful school playgrounds and wonder why they were not used by people who like sports. Apparently their love of sport is confined to watching rather than to participation.

Now the Vancouver city council has passed a bylaw to allow commercial sports on Sundays. This bylaw, the city solicitor warns them, is against them, but they have taken this action because the provincial government has made no move to legalize such sports. They hope to force its hand, but there can not be one law for Vancouver and one for the rest of the province.

It is doubtful if Premier Bennett would receive much support from the rest of the province for a measure allowing commercial sports on Sunday. Neither does it seem essential that Vancouver should have them until the whole province is prepared to accept them.

Air Travel Could Be Safer

Last year Canadian airlines carried 2,711,352 passengers. This year it will be more and it will go on rising as the airlines get more adequately equipped to meet the volume of traffic.

But airline operators, and government bureaus with the job of supervising air travel, need to show some prompt and decisive action on improving air safety. The recent double crash in the Grand Canyon points to one thing terribly wrong with present procedures.

Since 1950 in the United States there have been 65 mid-air collisions. How many near mid-air crashes there are nobody knows, but every pilot has his own terror stories of "the time we nearly . . ."

Here is the crux of the mid-air crash problem. Normally the airline pilot flies a pre-determined route. By agreement with ground control he follows the "highway" assigned him, a band 10 miles wide and 2000 feet deep and 100 miles long. (i.e. Nobody is supposed to be within 100 miles of his tail).

That works fine. Everybody knows where everybody else is.

But when bad weather comes up a pilot may and often does go off his route. And as soon as that happens the orderly and safe pattern of everybody knowing where everybody is, is destroyed and the air traffic picture in the area becomes pretty vague. Dodging around to avoid a storm he is likely to be moving in and out of clouds so much that looking out the window is unlikely to give any protection against collision with other aircraft.

Compounding the chaos and the danger is that storms have "soft spots" — areas of less turbulence. And it is to the soft spots that all the pilots naturally dive when they are jockeying their craft through a storm. So the "soft spot" tends to become the pathway for all the planes in that part of the sky.

Still fresh in one pilot's memory is one flight when he had been jumping around in thick clouds. Then he plunged through a "soft spot" and emerged in the blue to find four other planes "within spitting distance." In today's crowded skies, that degree of peril the public shouldn't be exposed to.

The smashed propeller tragedy of the TCA Viscount recently is under investigation. It has been called a freak accident. But the fact is that propellers and their performance aren't by any means as good as they should be. And this applies to props on conventional piston engines as much as to the turboprop variety.

Sometimes propellers "go crazy" and may whirl themselves up to such dizzy speeds that they will explode. Pilots are told to meet this emergency by standing the plane on its tail so as to stop all forward speed. This is a very drastic manoeuvre for commercial operators.

Canadian air regulations are, we are assured, tighter than the American which sounds good to us passengers. But the Grand Canyon mess proves that big reforms are overdue.—Financial Post.

New Labels

One of the hazards of modern living is the temptation to use a fancy name for an old ailment in hope of getting more attention and a new type of treatment. "Virus infection" for cold sometimes yields a pleasant-tasting medicine with a high alcoholic content. This does very little harm when the actual treatment is left to the doctor, who knows an old-fashioned cold when he sees one. In the field of economics, though, this same human failing can lead to serious errors.

When, for example, an old-fashioned case of over-production is re-labeled, the public is apt to become very confused. In Britain, the layoffs in the automobile factories were described, dramatically, as "a crisis of automation." Now it's turning out that too many people were making too many cars for the market to absorb — an old-fashioned economic ailment if we ever saw one.

On this side of the ocean, house-builders both here and in the U.S. are talking about a "financial crisis" and a "money squeeze" to describe a situation that arises at least partly because last year the industry produced considerably more housing units than were necessary to equal the rate of new family formation.

Everyone knows that a cold is a miserable ailment, no matter what you call it; but even in these days of 'mycins and -illins you have to go to bed to get over a cold. Similarly, a firm or an industry that's producing too much for the market to absorb is in an unpleasant spot; but giving the situation a fancy new name won't alter the ultimate remedy.—Financial Post.

Press Comment

Almost everybody sometime or other receives a subsidy, points out the Peterborough Examiner "in our semi-socialist way of living and of government today . . . Babies and families are being subsidized and so is everybody who uses hospitals and public institutions, even if they pay the highest price for private rooms. Most skilled industrial labor in Canada gets a form of subsidy through tariff protection, paid for by the consumer. Motorists get it in the form of costly highways. In many instances the recipient is unaware of the handout."

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. QUESTIONS WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

Reader, Nelson — Have you a good recipe for wine from red currants, made in a crock if possible?

To each gallon of red currants allow one gallon of water, and to each gallon of juice, three and one-half pounds or more of sugar. Put the currants into a large pan or crock and bruise them down to extract the juice. Pour over water, cover and leave for 24 hours. Then strain through a fine sieve, pressing the currants well. Measure the juice, add the sugar and when dissolved pour the mixture into a cask, reserving a little for filling up. Put the cask in a warm place and place a light cover over it. Fill up the cask as the liquor works out and add brandy (about 1 gallon) and stop the hole securely. Leave for nine months before bottling.

Interested, Creston — Any such case as you mention in your letter should be reported to the Social Welfare branch which will investigate to see if any eligibility requirements for social allowance are being violated. Local branches have offices in the Government Building in Creston and Cranbrook and at 556 Ward Street, Nelson.

A. D., Nelson — Did the Suez Canal ever belong to Britain or was it only leased?

In 1875 the British government purchased the Turkish khedive's shares in the canal to become the largest shareholder. Although the British government holds seven-sixteenths of the shares, the company is predominantly French for purposes of administration.

Subscriber, Silverton — Where can I order a subscription to the London Daily Mirror? Is there an agent in this locality?

Bishop's News Stand, 737 Baker Street, Nelson, will handle any Old Country subscriptions.

This Is Now

Every midsummer one moment comes with a special quality of nowness in it. It doesn't always alight at the same time or the same place, or arrive as other moments do at many places at once.

Like one of those big-winged butterflies that weave zigzag ribbons of color and motion through the pale air of a July day, this special moment settles now here, now there, to be observed by some lone individual who was just doing nothing in particular and expecting nothing unusual.

Then as if the chirp of crickets, the laughter of children, the barking of that loquacious dog down the road, and all the multitude of summer sounds and busynesses had stopped all at once and all together, a tiny eternity of silence grows amid or above or beneath the gentle tumult.

Nobody else hears that stillness. Nobody else feels the lightness of its hand — that turns a page of the open books as the hammock swings to and fro, that catches at a wisp of hair as a child streaks along a beach, that pushes a curtain aside to let a hollyhock look in at the dining-room window.

Of course, something like this happens to everyone, but always in some hidden place of inner solitude to which no one can lead another or can quite describe, and where one almost trips over the fact as it words itself: "This is it."—Christian Science Monitor.

Watch Your Language

OCCLUDE — (o-KLOOD)—verb transitive; to close; obstruct; to shut in or out by or as by closing a passage. Chemical — to absorb, said especially of the absorbing of gases by certain substances, as iron occludes hydrogen. Verb intransitive — Dentistry—to close with the cusps fitting together, as upper and lower teeth. Origin: Latin—Occludere, Occlusum, from Ob plus claudere, to shut.

It's Been Said

True generosity does not consist in obeying every impulse of humanity, in following blind passion for our guide, and impairing our circumstances by present benefactions, so as to render us incapable of future ones.—Oliver Goldsmith.

TODAY'S BIBLE THOUGHT

Fine linen is the righteousness of saints. — Revelation 19:8

Fine linen is free from missing threads or stains. The weaver rejects imperfect materials. We should study ourselves to discover flaws and gross imperfections.

Aunt Het

You can't get over your raisin' It don't make no difference how fancy a bathroom is fixed up. I still don't like the idea of showin' it off.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes, and find what your outlook is according to the stars.

FOR WED., AUGUST 15, 1956

MARCH 21 to APRIL 20 (Aries) —Day's tasks must be attacked eagerly, assiduously. Prospects are good if important, essential matters are not neglected. Have confidence in your convictions, if you are really right.

APRIL 21 to MAY 21 (Taurus) —Most favored pursuits under day's aspects: arbitration, cementing domestic relations, engaging in an enjoyable hobby. Don't let contention or argumentativeness stand in the way of your advancement.

MAY 22 to JUNE 21 (Gemini)—Today and tomorrow forecast potentially fine opportunities, even though your Mercury is an an inauspicious position. Good results can be brought about by diligent application of your talents and the use of tact.

JUNE 22 to JULY 23 (Cancer) —Your moon is now in an inauspicious sphere of influence; profitable results can be obtained only if a studious, energetic course is followed. Industrious activity is day's watchword.

JULY 24 to AUGUST 23 (Leo) —The sun portends excellent occasion for betterment. Strides may be taken in the field of politics, science, agriculture and government. Accomplish as much as you can during this period.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Hardships can be overcome by perserverance and patience. Realize your goals and ideals with this fact in mind. Be moderate in all activities.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Emotional stresses and strains tend to make one tense, overwrought, incompatible. The direct sensitive, philosophical manner of doing things is best. Enjoy good reading, music.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Mars' present position delegates to you hard work and the persistence to overcome difficulties. Your innate inventiveness and ingenuity will be helpful during this time. Be carefully active, lively.

NOVEMBER 23 to DECEMBER 21 (Saggittarius) — Somewhat mixed influences. Coordination of the important elements (mind and body, privilege and obligation) will be a necessary ingredient for success. Favorable results will follow commendable efforts.

DECEMBER 22 to JANUARY 20 (Capricorn) — Align yourself with those ideals (and means of achieving them) which will bring the greatest true rewards. Get needed rest, recreation.

JANUARY 21 to FEBRUARY 19 (Aquarius) — A stimulating change of atmosphere is often good for mental and physical vitality: meet new friends, go places, frequent the great outdoors. But don't neglect important tasks.

FEBRUARY 20 to MRCH 20 (Pisces) — Business matters may, and sometimes should, be of prime importance. But enjoy also social events, family activities. An enthusiastic approach and systematic follow-through is urged.

YOUR BORN TODAY have a multitude of talents and the personality for achieving top success and happiness if you control your leanings, attitude; keep an even disposition and do not be supersensitive. You have remarkable reserve vitality, are efficient in authority, intellectual, artistic, and like your home to be comfortable. Leo rules the heart; take care in this department. The entertainment world is the better for having Leoites in all its phases. You can be reached through sympathy, seldom by force. Birthdate of: Napoleon I, emperor of France, Sir Walter Scott, Scottish novelist-poet.

King Features

Commonplace Nonsense

F. B. PEARCE

America, the colossal, is among other things the home of the syndicated column. With their widespread country, the large numbers of newspapers and their genius for mass distribution it becomes a paying proposition for the syndicates to buy one columnist's output and distribute it to a number of newspapers. Many of these writers are persons of some distinction, but others seem to have been promoted by the syndicates. On the whole their articles are interesting, but simply because their articles appear in a number of papers does not mean that their words or opinions are always to be taken with authority. One such writer speaking of the Suez Canal said that the war showed that Britain could do without it which made one wonder why, in that case, it ever was built.

The literature and the writing of every nation always reveals its character. American articles have their own distinctive flavor. Sometimes this is so naive as to be almost laughable. Life, in a recent editorial stated solemnly "Religion plays a part in our society which is altogether unknown elsewhere." Evidently the writer had never been to Quebec which is not so far distant from New York as California with all its quack religions.

NONSENSE

Almost every kind of article is syndicated in America but the most popular seems to be those with a quasi-psychological or religious basis. People are always having emotional trouble, fights in the family and difficulties with children. What they do, how they act and the reasons for their actions is always interesting. So there are syndicated articles which proffer advice to the quarrelers and tell how to deal with children, but one gets the impression that the advice does not suit Canadians, and that often the cases discussed are imaginary. One doctor-psychologist-writer has made a name and fortune for himself by his writing on "Worry." He talks with authority but most of his stuff is commonplace nonsense.

It may have been Doctor Vincent Peale who led 'Life' to say that the American society has "a wider and deeper religious content than any other". Doctor Peale is a preacher, a writer and a television performer and his output of his own particular form of religion is enormous and his income correspondingly great. His chief and indeed only text is "Ask and ye shall receive." He can quote any number of cases where prayer has been answered but there sems to be little that the recipients do in return. One gets the impression that God, in Doctor Peale's eyes is Heaven's paying teller honoring all cheques without question. Like all the others Doctor Peale's writing are full of comforting baloney. People get tired of it as a steady diet and that may be why Billy Graham went to the other extreme and preached about Hell. He, too, is quite successful, financially.

CANADIAN SIDE

Canada has no syndicated columnist but she has a host of good ones spread throughout the country. They are content to serve their own communities and a small audience rather than meet the demands of a syndicate. They could write such stuff as is turned out by the Americans if they were willing to stick their tongues in their cheeks and go on repeating themselves. It may be that they are fundamentally too honest, or that they have a sense of the ridiculous which prevents them from doing so or that they have too much respect for their readers, but whatever the answer no Canadian has become a syndicated feature.

CONVENTION HIJINKS PANNED IN U.K. PRESS

LONDON (Reuters) — British correspondents in Chicago, writing for readers vitally concerned with the dangers of war in the Suez crisis, are railing against hijinks at the Democratic politcal conventon.

Don Iddon of The Daily Mail writes that he hopes this will be "the last of the circus presidential conventions."

Iddon describes men and women dressed as Indians demonstrating for Averell Harriman and beautiful girls waving banners for Adlai Stevenson, but "it's forced farce, not fun."

"Suez is a million miles away," Iddon says one delegate told him: "Suez is not Panama and — well—can't you see and hear this is election year."

Iddon concludes: "One day someone will work out a better way of choosing a president."

Henry Brandon, writing for The Sunday Times, calls the convention a "supreme pageant of contrived exhibitionism."

Shanghai Gets Bamboocrete Houses

HONG KONG (Reuters) — The first "bamboocrete" houses have been completed in Shanghai, says the New China News Agency. The Communists are using bamboo to replace the steel bars in reinforced concrete, claiming that it is strong and that the houses have withstood a typhoon.

Winch Ponders "Coin Flipping"

OTTAWA (CP)— Harold Winch, CCF member for Vancouver East, Monday suggested that decisions of the justice department's remissions branch must be reached by "a flip of a coin."

"I hate to say this," Mr. Winch told the Commons during discussion of justice department estimates, "but I think it must be a case of heads you die, tails you live."

He said this conclusion was based on a number of recent decisions of Western Canada cases in which persons convicted of premeditated murder had their death sentences commuted to prison terms, while others who killed in passion or while drunk were hanged.

Mr. Winch, who served on the joint parliamentary committee on capital and corporal punishment, also charged that some recommendations of that committee were not borne out by evidence taken during its 2½ years of hearings.

This was particularly true, he said, of the communitee's report that capital punishment is a deterrent to crime. He said there was no such evidence.

Famous Trichologist Will Demonstrate How To Grow Thicker Hair And Guarantees It!

DEMONSTRATION TO BE HELD HERE

This new method of home treatment for saving and growing thicker hair will be demonstrated in Nelson, B.C., on Wednesday ONLY, August 15.

These private demonstrations will be held at the Hume Hotel on Wednesday ONLY—12 noon to 9 p.m.

London, Ont. — In an interview here today William L. Keele, internationally famous trichologist and Director of the Keele Hair Experts, Ltd., said: "There are 18 different Scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so-called cure-all could correct all the disorders," he explained.

GUARANTEED

"The Keele firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offer a guarantee," Keele said.

Once a person avails himself of the Keele treatment his skepticism immediately disappears. To insure this we offer this guarantee: "If you are not completely satisfied with your hair progress at the end of 30 days your money will be refunded."

HOPELESS CASES DISCOURAGED

First, the Trichologist is quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in this last category.

If there is fuzz, no matter how light, thin or colorless, the Keele Treatment can perform wonders.

A complete, private examination is given by a Trichologist to determine the condition of his scalp and cause for his hair trouble.

FREE EXAMINATION

This examination is very thorough and highly technical, it requires 20 to 30 minutes. The Trichologist makes no charge for this examination and no appointment is necessary. After the examination the person is told the required length of treatment and how much it will cost.

After starting treatment, the person makes regular reports to the Keele firm in London to check the progress of the home treatment.

To spread the opportunity of normal healthy hair to the thousands who are desperately looking for help, independent Trichologists are visiting various cities to conduct examinations and start home treatments.

NO CURE-ALL

"We have no cure-all for slick shiny baldness," Keele emphasizes. "If there is fuzz, the root is still capable of creating hair and we can perform what seems to be a miracle.

There is one thing Keele wants to be certain every man and woman knows. If a recession appears at the temples or a spot begins to show up on the crown of the head, there is something wrong, and it should be given immediate attention.

HAIR FOR LIFETIME

"If clients follow our directions during treatment and after they finish the course, there is no reason why they will not have hair all the rest of their lives," Keele said. "Our firm is definitely behind this treatment, it all depends on the individual client's faithful observance of a few simple rules."

HOW'S YOUR HAIR?

If it worries you call Trichologist Dana McGinnis at the Hume Hotel in Nelson, B.C., on Wednesday ONLY, August 15, 12 noon to 9 p.m. The public is invited. You do not need an appointment. The examinations are private and you will not be embarrassed in any way. ****

Loss Mounts In Hedley Fire

HEDLEY, B.C. (CP) — Loss in a fire which destroyed four buildings and damaged two others here Sunday rose to an estimated $40,000 Monday when it was reported that a 70-year-old Chinese lost $10,000 in cash in the blaze.

Police were told that the man, identified as Eng Kim, had the money stored in tin pails in his shack, one of the four buildings destroyed.

A dozen people were made homeless in the fire, which wiped out an entire business block in this community 140 miles East of Vancouver. Nobody was injured. Cause of the blaze was not established.

Gov't To Sue Firm In Fish Poisoning

OTTAWA (CP) — Fisheries Minister Sinclair announced today the government has decided to take legal action against an aviation company which dropped DDT on a New Brunswick fish hatchery killing more than 800,000 salmon and trout.

Replying in the Commons to Thomas M. Bell (PC — St. John-Albert), he said the government contends there was negligence on the part of Forest Protection Ltd., a company set up by several pulp and paper firms to conduct forest spraying operations. The company also is partly financed by the federal and New Brunswick governments.

Fire Damages Liner

PORT ELIZABETH, South Africa (Reuters) — A fire which broke out Sunday in the hold of the 25,576-ton liner Athlone Castle was extinguished after nearly eight hours by the Port Elizabeth fire brigade. Passengers slept throughout the fire, cause of which was not known, and the vessel sailed for Capetown on her way to Southampton.

About the Town

Engagements

Mrs. H. McCandlish, 214 Victoria St., Nelson, announces the engagement of her only daughter, Barbara Joan, to Mr. Patrick L. Renwick, of Nelson, B.C. The marriage will take place at Trinity United Church, Nelson, B.C., Saturday, September 8th, 1956, at 2 p.m.

ENGAGEMENT

Mr. and Mrs. Andrew Barrett announce the engagement of their elder daughter, Dorothy Evelyn, to Mr. Norman Gabana, son of Mrs. Mary Gabana of Trail, B.C., and the late Mr. Antonio Gabana, the wedding to take place Saturday, September 15th, 1956, in the Cathedral of Mary Immaculate at 3:30 p.m.

BOSWELL CLUB MAKES DONATION TO FALL FAIR

BOSWELL — A request from the Crawford Bay and District Fall Fair for a donation was met by the Boswell Women's Club August meeting at the home of Mrs. Duncan MacFarlane. Members agreed to send $5 to help pay costs.

A letter of sympathy will be sent to Mrs. Crayford on the death of her husband, and to Mrs. W. Hewitt, his daughter. Mrs. Norman Anderson was welcomed on her return to club meetings after absence of nearly a year owing to an accident.

Final arrangements were made for a garden party, sponsored by Mrs. Paul L. O'Sullivan, for funds for the Handicapped Children's Society.

Boswell Notes

BOSWELL — Mr. and Mrs. Fredrick Simpson and son Donald spent the weekend at Summerland.

Mrs. L. O. Ebey and daughter Diana Lee, from Los Angeles, Calif., and Miss Sheila Penson of Erickson are guests of Mr. and Mrs. W. Embree and Mr. and Mrs. E. Whitney.

Rev. E. R. Hope of Creston conducted the monthly church service in the Memorial Hall. Mr. Hope has just returned from his Summer vacation where he visited friends on Vancouver Island and in the Okanagan. J. Pryke substituted for Mr. Hope at the July service.

Sandwiches Tempt Appetite In Summertime

By MARGARET CARR

Take-it-easy meal-getting has become a fashionable feature of the season.

Sandwiches take top billing among the quick-fix foods that lighten kitchen work. They are sure-fire warm weather appetite tempters, too.

Any summer event that's right for eating is ripe for a sandwich. There's a sandwich creation to suit all ages on any eating occasion.

BACON 'N' EGG SALAD SANDWICH

Six slices bacon, chopped, 4 hard-cooked eggs, chopped, ¼ cup mayonnaise, 2 teaspoons prepared mustard, 2 teaspons finely chopped onion, 2 slices enriched bread, butter or margarine, 4 lettuce leaves.

Fry bacon until crisp. Drain. Add bacon to eggs. Mix mayonnaise, mustard and onion. Add to egg mixture. Blend well. Spread bread with butter or margarine. Spread egg salad on four slices bread. Top with lettuce. Cover with remaining bread slices. Makes four sandwiches.

HONEY-SWEET PEANUT BUTTER SANDWICH

One-half cup peanut butter, ¼ cup honey, 2 teaspoons shredded orange, ½ cup chopped ripe banana, 12 slices enriched bread, butter or margarine, 6 lettuce leaves.

Blend peanut butter, honey and orange rind until smooth. Add banana and mix lightly until blended. Spread bread with butter or margarine. Spread peanut butter mixture on six slices bread. Place lettuce on each sandwich. Cover with remaining bread slices. Makes six sandwiches.

MUSHROOM SOUFFLE SANDWICH

Two cups tiny peas, ½ cup chopped celery, ¼ cup chopped onion, 2-3 cup crumbled blue cheese, 6 slices bacon, chopped, 2-3 cup cream of mushroom soup, ½ cup milk, 2 teaspoons prepared mustard, 2 eggs, beaten, 8 slices enriched bread, butter or margarine.

Drain peas and measure into bowl. Add celery, onion and cheese. Fry bacon until crisp. Drain and add to vegetable mixture. Mix soup with milk, mustard and eggs. Spread bread with butter or margarine and place four slices in greased eight-inch square baking dish. Spread vegetable mixture over slices of bread. Top with remaining four slices of bread. Pour soup mixture over bread. Bake in moderate oven (350 degrees F.) 40 minutes. Makes four sandwiches.

MR. AND MRS. WILLIAM OLIVER LEE
—Hannay Photo.

Nelson Has Interest In Vancouver Wedding

Gladioli and stocks shading from cream to deep gold made an effective background in Vancouver Heights United Church when Rev. N. D. McInnis united in marriage Marguerite Helen, elder daughter of Mr. and Mrs. J. P. Cavill, granddaughter of Mrs. M. Croll of Nelson, and William Oliver Lee, eldest son of Mr. and Mrs. Robert Lee of Dauphin, Man.

Given in marriage by her father the tall golden haired bride looked exquisite in her white bridal gown of imported lace with pure silk organza and nylon net over taffeta. The fitted basque bodice had a bateau neck line and cap sleeves, while the fully crinolined skirt, sweeping from the new lowered waist line, was slightly entrain. Her headdress was fashioned of medallions of matching lace encrusted with sequins and pearls with a fingertip veil of imported illusion net. She carried a shower type bouquet of yellow roses and white stephanotis.

TURQUOISE

Matron of honor Mrs. R. Morrisey, sister of the bride, and bridesmaid Miss Helen Cavill, her cousin, were gowned alike in pale turquoise embroidered taffeta. These gowns too, featured bateau necklines and cap sleeves with the new long waist line and bouffant skirts. Their matching head pieces were crowned with a wreath of tiny yellow flowers. They carried shower type bouquets of yellow carnations and gladioli.

Mr. Beverely Barnard of Penticton was best man and ushers were Mr. Roy Micklejohn of Penticton and Mr. W. Paulin of North Vancouver. Soloist was the bride's uncle, Mr. C. H. Cavill of Haney.

OUTDOORS RECEPTION

The reception was held in the spacious lawn at the home of the bride's parents where a table covered with a beautiful lace cloth loaned by the bride's aunt, Mrs. C. H. Bland of Nelson, had turquoise candles and yellow rosebuds flanking the three-tiered wedding cake.

Mr. J. Sinclair of Vancouver gave the toast to the bride. Many congratulatory telegrams which were received from Nelson, Rossland, Vernon, Kitimat, Ottawa and Mordon and Dauphin were read by the best man.

For her going away costume the bride chose a tailored suit of blue with white accessories. Her corsage was fashioned of American Beauty roses.

After a honeymoon on the Island the couple will motor to Dauphin. From there they will return to Kitimat where they will make their home.

The bride, a graduate of Vancouver Normal School, was a member of the first Kitimat school staff. The groom, also a pioneer of Kitimat, graduated in architecture from the University of Manitoba.

Out-of-town guests came from Kitimat, Campbell River, Haney, Penticton and Victoria.

New Denver

NEW DENVER — Mr. and Mrs. A. Klokstad of Vancouver were the guests of the latter's brother-in-law and sister, Mr. and Mrs. A. R. McGorman and also visited her mother, Mrs. J. Pederson, who has left with them to visit for a week in Alberta.

Mrs. George Newborn, her parents Mr. and Mrs. James Forsythe and her uncle and aunt Mr. and Mrs. George Forsythe motored to Crescent Lake, Wash., where they accompanied Mrs. J. Forsythe's granddaughter, Margaret Anne back to her parents, Mr. and Mrs. Carman Stewart of Spokane, who met them at Crescent Lake.

Mr. and Mrs. David S. Brown have as their guests Mr. Brown's parents, Mr. and Mrs. Gordon S. Brown of Toronto.

Mrs. Les K. Jones and family of Canal Flat are visiting the former's father, Neil Tattrie and brother-in-law and sister, Mr. and Mrs. R. E. Crellin.

Mr. and Mrs. J. Hirschfield of Vancouver are spending a holiday with the latter's parents, Mr. and Mrs. J. Ed Kenneth and brother-in-law and sister, Mr. and Mrs. S. E. Thomlinson.

MOUNTAIN LAKE

Agnes lake in Alberta, west of Lake Louise, was named after Baroness Macdonald of Earnscliffe, who visited there in 1886.

Now Many Wear
FALSE TEETH
With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

The Doctor . . .

Nervous Ailment Helped by Drugs

By DR. HERMAN N. BUNDESEN

Development of numerous new tranquilizing agents has sparked recent medical advances. In today's monthly review of medicine, let's take a look at some of these drugs.

Serpatilin is a combination of the tranquilizing agent, Serpasil, and the mild psychomotor stimulant, Ritalin. It is used by the doctor in the treatment of various disorders marked by tension, nervousness, anxiety, apathy and mild depression.

Recent clinical studies have indicated that combining the two drugs produces complementary action. Serpasil frees the patient from tension and anxiety while Retalin stimulates and brightens his mental outlook.

Serpatilin is reported useful in treatment of hypertension, chronic fatigue, menopause ailments and other conditions.

Meratran-Reserpine is a combination of a powerful but harmless mood-lifting chemical with a tranquilizing agent. Doctors report it combats the three major symptoms of Parkinson's disease —trembling, mental depression and muscular rigidity.

While the new drug does not affect the underlying disease, it does hold the physical symptoms in check while also giving the Parkinsonian patient experiences of pleasant relaxation.

The tranquilizing drug, Miltown, is reported to be effective in freating epilepsy and in controlling severe pain associated with advanced cancer.

The drug brought relief to 83 per cent of the patients to whom it was administered in one particular type of epilepsy and some relief to one of every three persons tested with epilepsy of all types, Chicago doctors report.

But here is a timely word of caution: This drug should be used only under the doctor's direction.

Riondel Notes

RIONDEL — Mr. and Mrs. Fred Trueman of Smithers were overnight visitors at the J. Jolie home recently. Mr. Trueman and Ms. Jolie are brother and sister.

M. and Mrs. Don Ewen and daughtes of Remac were recent visitors at the J. Lemmon home.

At a bingo held in the Recreation Hall, the Curling Club report a take of $60 to be applied to the building fund.

Freeman's

AUSSIE VISITOR HAS TAUGHT IN MANY LANDS

VICTORIA (CP) — Australian-born Mrs. Lincott Pemberton, 68, who has taught school and travelled all over the British Commonwealth during the last 43 years, is on the move again after being in Canada only one year.

This time she is heading for the Fiji Islands.

She started her wandering by working from Central Queensland to Perth. When she had taught in all secondary schools in the area, she sailed to southwest India.

She taught for a year in Ootacamund before going to Burma and then to Darjeeling, in northeast India.

England was her next stop. Natal, South Africa and Rhodesia followed. In Rhodesia she married Leonard Pemberton, who loved travelling as much as she.

HOME ON WHEELS

In 1930 Pemberton built his wife a home-on-wheels. They travelled in it through Africa and Australia. It was their home for 20 years.

Mrs. Pemberton describes the caravan as the ideal way to travel and live, with no upkeep, taxes or servant problem.

Returning to Africa they found a village called Mbabane in Swaziland and decided this would be "home."

After Mr. Pemberton's death four years ago, Mrs. Pemberton stayed in Mbabane for a time and then set out again on her travels.

PHONE 1844 FOR CLASSIFIED

Ainsworth Notes

AINSWORTH — Bob Sherraden's nephews, Ken Macdonald and David Garling of Powell River, spent a week's holiday here.

Mrs. J. Sanderson and granddaughters Sandra and Louise left for Vancouver to spend their holidays.

Mrs. Mike Laughton and sons Mike and Pat of Nelson are visiting Mike Laughton for a few days.

John Burns left to visit his aunt in Kimberley and Peggy Burns is visiting relatives in Nelson.

BOSWELL — Mr. and Mrs. Budarick and son of Kamloops are guests of Mr. and Mrs. Dunc MacFarlane.

Commons Hears Hint RCMP Used For Political Purposes In B.C.

OTTAWA (CP)—Veiled charges that provincial administrations may be using the RCMP for political purposes were made Monday in the Commons.

George Nowlan (PC—Digby-Annapolis-Kings) *said it is possible*, apparently, for a provincial government to employ the RCMP for political purposes or for provincial investigation for which the Canadian taxpayer should not be asked to pay.

He was referring during study of justice department estimates to a certain investigation in British Columbia, one of eight provinces — all except Ontario and Quebec—which have contracts with the federal government whereby the RCMP performs the work of a provincial police force.

The B.C. case deals with a provincial government request to the RCMP for an investigation into activities surrounding granting of a certain forest management licence by the province.

Justice Minister Garson informed Harold Winch (CCF—Vancouver East) the federal government would pay the costs of such an investigation which, Mr. Winch said, involved sending an RCMP inspector to the United States many times.

Mr. Winch asked that, in view of the facts, the federal treasury pays the cost, the results of the investigation be tabled.

Mr. Garson said under the terms of the police agreement with the provinces, a provincial attorney-general could ask the RCMP to conduct any investigation which he could ask of a provincial police force. The federal government did not take advantage of the agreements to exert any influence on the administration of justice, a constitutional responsibility of the provinces.

The exchange prompted Mr. Nowlan to ask Mr. Garson to consider revising the agreement with B.C. when it comes up again because it should not be the intention of such agreements to give a province the right to use the RCMP for any purpose but normal police duties.

Mr. Nowlan said he did not want to comment on the B.C. case but added:

"I think it is fairly obvious, from what has been suggested, that it would be possible—whether it has been done here no one knows or at least I do not know—for the attorney-general or a minister of the crown in the provincial administration to use the RCMP, shall we say, for political purposes or to conduct investigations of various kinds which certainly the people of Canada as a whole should not be called upon to pay for . . ."

DISLIKES SETUP

Mr. Nowlan, who was informed that the RCMP has contracts also to act as the local police in 120 Canadian municipalities, said he is not happy about that situation either.

"I think it may possibly involve them (RCMP personnel)—I know it has—in situations where, to say the least, public comment is not what we would like to have in view of the record of this force in the past."

H. W. Herridge (CCF—Kootenay West) said he also does not think much of the police agreements with municipalities. He did not think it was to the advantage of the force to go around a small town "trying shop doors and chasing small boys for stealing apples."

That kind of work could be carried out by local policemen.

St. Laurent Rejects Demand For Probe

OTTAWA (CP) — Prime Minister St. Laurent Monday again rejected an Opposition demand that a Commons defence committee be established to investigate criticisms of government defence policies by two retired army generals.

The latest demand came from John Hamilton (PC—York West) who referred to statements by Lt.-Gen. Guy Simonds, former chief of the general staff, and Maj.-Gen. W. H. S. Macklin, former army adjutant-general.

Needlecraft By Laura Wheeler

FUN TO MAKE!

Adorable playmate for your own daughter — a dolly that's the love of every bazaar! Make her dress of scraps; hair of straw yarn (fun for little girls to braid)!

1000 Welcome Navy's Arrival

VICTORIA (CP) — Esquimalt harbor resumed appearance of a major naval base as nine ships of the Pacific Command completed a two-month cruise.

More than 1000 friends and relatives fringed jetties on both sides of the harbor to see the navy come home

The arrival meant more travel for 132 cadet officers who shipped out for their first sea training after 10 months at tri-service colleges here, in Ontario and Quebec.

The 9000-ton cruiser Ontario carried 69 of them. The balance served in destroyers Crescent, Athabaskan, Cayuga, Sioux, or frigates Sussexvale, Stettler or St Therese, comprising the second Canadian escort squadron.

Those aboard Cayuga arrived back early after a dash for port to carry CPO John Kennaugh, 51, to hospital. He was reported in good condition in Naden hospital but officials did not describe his ailment.

PARLIAMENT FILM FOR SCHOOLS SUGGESTED

OTTAWA (CP) — Mrs. Ellen Fairclough suggested Monday Commons Speaker Rene Beaudoin should look into the possibility of having a film made about the workings of Parliament for distribution in Canada's schools.

The Progressive Conservative member for Hamilton West said in the Commons that she understands six films of and about Parliament have been made in recent years, including television telecasts. The best of the films should be selected and incorporated into a single hour-long film that could be shown in the schools.

Mr. Beaudoin said he would look in to the question and asked members whether they would approve of a telecast showing the Commons' part in the opening of Parliament. He received no reaction.

The matter was raised as the house passed in a matter of minutes Speaker Beaudoin's estimates for the 1956-57 fiscal year.

The Opposition made no reference to the unprecedented motion of censure against Mr. Beaudoin last June.

Howard Green (PC—Vancouver Quadra) said there is a tendency to hire non-veterans as members of the Commons protective staff. He asked that the practice of hiring veterans be followed.

QUEEN BRAVES STORMY SEA ON SCOTTISH TOUR

OBAN, Scotland (Reuters) — Queen Elizabeth Monday braved gale-force winds and mountainous seas to visit this port on schedule on her Scottish tour.

Her royal barge also helped rescue reporters and photographers following in a motorboat.

The Queen and the Duke of Edinburgh left other members of the Royal Family aboard the yacht Britannia for the stormy trip to shore and a rain-drenched welcome.

The motorboat full of newspaper men trailing the Queen on her six-day tour through the western isles was whirled out of control by the fierce wind. The royal barge rushed to the rescue and took the reporters in tow.

Elizabeth waded through foot-deep puddles to get to Oban's town hall.

Claims Socreds Against Farmers

PITT MEADOWS, B.C. (CP)—Erhart Regier, CCF member of parliament for Burnaby-Coquitlam, told a party picnic here the Social government in B.C. is against farmers and laborers.

Mr. Regier, addressing 250 persons at the CCF Dewdney riding association picnic, said the Social Credit government has caused millions of dollars loss to farmers by "destroying the orderly marketing of milk" and that the CCF calls for full reimposition of the price control system for milk.

British Columbians are the heaviest-taxed persons in Canada, Mr. Regier contended. The CCF would rearrange taxes, raising more from those most able to pay

Speaking of roads and bridges, Mr. Regier said the CCF believes a six-lane bridge should be built at Haney and a six-lane highway should be built to Garibaldi Park. The park itself should be developed by the federal government, since it would cost an estimated $30,000,000.

SLIGHT GAIN

Oslo, the capital of Norway, had a population of 450,600 at the end of 1955, up 921 from a year previ-

Far North Draws Prospectors As Hunt for Uranium Continues

"In the Ottawa press we read that Labor Minister Gregg placed a resolution on the Commons order paper, which would authorize fishermen to be brought under the terms of the Unemployment Insurance Act. The measure would include fishermen employed by others, those self-employed and those working on shares. It is expected to result in demands for similar coverage for other self-employed persons, such as farmers and loggers.

"This brings to mind the plight of the prospector; surely he comes under the obave category," suggest E. W. Florendine, secretary of the Chamber of Mines of Eastern British Columbia.

"Consider the prospector returning from his adventurous and often dangerous and daring venture into the unknown fastness in the mineralized zones of British Columbia, he said. From Spring to late Fall he toils over mountain and vale where no roads or paths exist, and often he has no place, as the saying goes, to lay his head.

"But what happens in the late Fall and he has not been successful in his venturous trip? Even if he has, he still is maced with the disposal of his find which may or may not be interesting to a mining company, or possibly be a gainful find from a financial point of view.

"How then is the prospector, without whom there will be no new mines, going to be able to exist throughout the Winter? which at present he is obliged to do, without financial assistance? Surely Ottawa should give consideration to the prospectors sole effort and bring him under the terms of the Unemployment Act. Possibly the prospector would be recognized similar to fishermen, farmers and loggers, if this is brought to the attention of the Dept. of Labor at Ottawa."

URANIUM SEEKER

In November of 1954, Franc Joubin, the discoverer of the Blind River basin uranium deposits, when visiting Vancouver, remarked on the lack of interest in uranium prospecting in British Columba. He stated that the surface had not been scratched by B.C. uranium seekers.

This does not apply to the N.W. T. according to information received by the Chamber, relative to Yellowknife and Aklavik areas.

Gus Kvist, a well known mining man, partitularly in connection with mill operations left here in May of 1955 for Yellowknife and returned here this month for a visit only. One of his first calls was the Chamber of Mines, and on renewing his membership, he handed over to the secretary a splendid specimen of high grade uranium ore, which he explained came from the Rayrock Mine, Yellowknife. He expects to return to the Consolidated Discovery, Yellowknife Mines Limited in about one week.

Mrs. I. Johnson of Nelson, reports that while in the Aklavik area in company with three other prospectors, a number of claims were staked by the group. At that time they had very little knowledge regarding the mineralization of the property. However, she states that specimens of ore were sent to Ottawa for an assay, and the report reveals that the claims contain uranium. Consequently Mrs. Johnson is rounding up her clan of prospectors (all women I understand), and with her associates will be leaving for Aklavik shortly.

MANY VISITORS

The increase of interest in the Kootenay mining centre is evident, judging from the number of new mining companies visiting the Chamber in search of information on mining properties.

Jim Millar, mining engineer and President of the Northern Exploration, Edmonton, together with his fieldmen, E. J. Wendeborn and W. Boldt paid the Chamber a lengthy visit.

Bill Watson, president of the Belair Mining Corporation Ltd., and his associate, C. Hartcourt, showed interest in our district. Charlie Madden, representing Brewis & White, Toronto, also called and conversed on possibilities in this area.

T. Sjoquist and his wife, together with C. Ryley of Vancouver and J. O'Shaughnessy of the Geiger Propecting Syndicate, Kamloops, checked a number of properties in Nelson district.

There were other representatives of new companies, and we had the usual visit from the Noranda Mines Ltd., and the Bunker Hill Mines. F. Novak and associates have taken over the Spokane Mine, which is again active and being prepared for mining operations.

W. E. Chantler of Toronto visited the Chamber to renew old acquaintances. He assisted Dr. C. E. Cairns in the latter's geographical survey of S. E. British Columbia.

FROM DEPARTMENT

Joe Figner of Burton and Joe Rogacz of Quesnel were interested visitors, being here three days. Fred. E. Mackay, Dept. of Trade and Commerce of B.C. made his first visit to the Chamber.

A few of the other recent visitors were Gordon Miller of Edgewood. James E. A. White, Geologist from Pittsburgh, interested in Rossland Mining Division.

Captain Nelson Macdonald of Ashcroft, who stated that he held the Snow Storm claim group.

Mark J. Long, representative for Gordon Bennett of Vancouver, was interested in business possibilities in Nelson.

A. Wagner of Calgary, connected with the Croesus Mining Co. Ltd., was introduced to the Chamber by J. Crockart, also of Calgary. Joe Gunther, prospector, Kootenay Bay, B.C.; Bill McKenna, Calgary; Norman Putaty, Vancouver; M. Greig, Victoria; F. Gonzales, Dryden, Ont.; J. J. Eason, Calgary; C. W. Adam, W. Vancouver; N. M. Eskola, Eevteh, Minn.; J. Murphy, Redmond, Wash.; Mort Lang, Vancouver; S. Burgess, Ymir; J. E. McMan, Vancouver; George Donaldson, Altameda, Calif.; R. K. Evans, Kamloops; Ken MacIntosh, Lancaster, Ont.; W. J. McKim, Kimberley and others.

The Lake View Mine has been taken over by the Blumont Ltd., of Calgary. Both R. Mutch, a director of this company, and A. C. Welch, also connected, visited the Chamber. E. G. Timmons has been placed in charge of mining operations, and states that drifting towards a new ore body in the lower levels is in progress, and favorable results are expected.

Sunny Burgess and his associates are now ready to transfer their ore — copper and silver — to the Kenville Mill, a matter of four to five thousand tons being ready for this movement. They are operating the Silver King Dandy mine.

Walter Maybank, Mining Engineer for the McLeod Cockshutt Gold Mines Ltd., Toronto, is still in this area, being keenly interested in copper properties.

It is understood that drilling operations are in progress in the Apex area, also similar efforts are being put forward in the Argenta and Hamill Creek locations.

Tourists visiting the Chamber are undoubtedly carriers of information in connection with our mineral wealth, which this Chamber is offering with a view to induce capital to enter our mineralized zone, so that development of mining can be advanced.

In the Chamber of Mines letter to the press in 1953, the secretary remarked that irrespective of the base metal prices existing then, the officers of our Association believed that Canada was on the thresoold of a vast mining development. Evidently we are now entering that period.

"Owners" Block Busy Highway

GRANTS PASS, Ore. (AP) — A rope barricade and a private property sign stopped traffic on U.S. Highway 99 Sunday afternoon as four brothers sought to support their claim of ownership on a 16½-foot strip across the heavily travelled route.

Most tourists took the delay in good humor and some stopped to talk with Robert G. Stumbo, a Wolf Creek, Ore., logger and spokesman for his clan. Stumbo and his brothers claim their father purchased the property 40 years ago. When the highway was built, the Stumbos say, no one bothered to ask for a right-of-way or to purchase the land.

So now they plan to go to court, if necessary, to clarify the situation. The brothers staked their claim near Azalta Flats, about 40 miles north of Grants Pass. They strung the stout rope across the road, and a sign which read: "Private property — permission to trespass revocable at any time."

Then the brothers stood guard, and some reports said they were armed. It lasted just over 30 minutes. After one car pushed through the blockade, allowing several other to follow, the Stumbos finally removed the rope and retreated.

They plan to ask the Douglas County Court for a toll road franchise.

A handbill distributed by the Stumbos related, in part: "After waiting nine years for some compensation, or at least a thank you note, we have decided to remind the state of our ownership. In order to repossess our land it has been necessary to temporarily close the highway."

They did just that, bringing state police and sheriffs' deputies from surrounding towns to check on reports of a major traffic tie-up. Vehicles were backed up for half a mile on each side of the barricade and as many as 200 cars and trucks were delayed.

Author Joyce Cary Dying of Paralysis

OXFORD, England (Reuters) — Joyce Cary, 67-year-old British author of eccentric and witty novels, says he is dying from an incurable paralysis.

"But I don't want to alarm my friends unduly," he said from his bed. "I am not likely to die at any moment." He said he had contracted the disease possibly through some form of poisoning he had picked up in the Tropics.

The illness has not discouraged him. He is working on short stories, and next week he plans to start work on a new novel.

Republican Prosperity Claims "An Illusion" Say Democrats

CHICAGO (AP) — Democratic platform drafters today adopted a plank saying Republican claims of prosperity have been "an illusion" for millions of Americans.

They said, in a declaration on domestic policy, that farmers, small businessmen, low income workers, old people "living on a pittance" and young people seeking an American standard of education have suffered under the present administration.

They said further that lack of prosperity among these groups is infiltrating the entire U. S. economic system.

"Its fever signs are evidenced by soaring monopoly profits, while wages lag, farm income collapsed, and small business failures multiply at an alarming rate," the plank said.

The drafting committee also took a slap at the Republican administration's policies on atomic energy. It asserted that a lead in this field established under the Democratic Truman administration is being lost under the Republicans.

The prosperity and atomic energy planks were the first worked out in final form for submission to the full 108-member platform committee Tuesday and to the Democratic National Convention itself later.

CPR Net Income Up $4 Million

MONTREAL (CP) — Canadian Pacific Railway Company Monday announced net income of $21,562,565 for the six months ended June 30, 1956, compared with net income of $17,428,534 in the same period of 1955.

Railway revenue in the 1956 half-year was $242,874,499, as against $215,360,378 in 1955 while railway expenses increased to $227,404,123, from $202,771,959 last year.

This left net railway earnings of $15,470,376 for the six month period this year, compared with $12,583,419 last year. Income from petroleum rents and royalties increased to $14,069,908, from $12,664,086 in the six months ended June 30, 1955.

NEW LAB FOR INSECT STUDY

OTTAWA (CP) — Insect problems in the Brandon, Man., area will be studied at a new entomology laboratory to be built in Brandon by the agriculture department.

A return tabled in the Commons Monday for Walter Dinsdale (PC—Brandon-Souns) said plans for the $75,000 laboratory now are being prepared by the department of public works. The building will be located at the experimental farm and will have an attached greenhouse.

The return said most insect problems in the Brandon area are connected with garden and field crop insects.

Socred Leader "Used Big Stick"

PORT ALBERNI (CP)—Charles (Curly) Wilson, first vice-president of the Alberni District Social Credit League, resigned from office Monday following the nomination of W. J. Carr to represent the Alberni riding in the forthcoming provincial election.

Mr. Wilson stated that he could not support Carr for election and that he resented the "big stick wielded by Social Credit League president, Noel J. Murphy, prior to Saturday night's nomination convention."

"To remain in office would be to support Carr and Murphy and I can't do that," he said. "I can't work for such an election."

Mr. Wilson stated that he would retain his membership in the party.

Dress Up With Marian Martin

SPORTS SEPARATES

Mix-match separates wardrobe! Five smart styles for active wear; to sew in endless color and fabric combinations! Cool bra-top, fitted jacket, flare skirt, classic shorts and pedal pushers. All wonderful fashions for sun and fun — all easiest sewing for you!

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to MARIAN MARTIN, NDN, 60 Front St. W., Toronto, Ont.

Announce New Way To Shrink Painful Hemorrhoids

Science Finds Healing Substance That Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*) — discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called *Preparation H**. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.

*Trade Mark Reg.

Provincial Co-operation Needed To Evolve Criminal Law -- Garson

OTTAWA (CP) — Justice Minister Garson said Monday the only way to evolve good criminal law is to have the co-operation and agreement of the provinces which, under the constitution, have jurisdiction over the administration of justice.

Mr. Garson was replying in the Commons to criticisms by George Nowlan (PC—Digby - Anapolis-Kings) who charged that the government had allowed reform of the criminal law to "drift along".

That was not so, Mr. Garson said. A deliberate plan had been proceeding slowly but effectively over a period of eight or nine years.

The first thing that has to be done, he said, is to reshape the Criminal Code and put it down in clear language that the layman can understand. That had taken five years of hard work by a royal commission and parliamentary committees.

In addition, a parliamentary committee had studied matters relating to capital and corporal punishment and lotteries, two royal commissions were studying the problems relating to legal defence of insanity and criminal sexual psycopaths and a special committee had recommended sweeping changes to Canada's penal remissions systems.

Now, the government was in a position to bring reforms in criminal law to a head, in co-operation with the provinces.

Mr. Garson has said he plans to bring the provinces together to discuss how the recommendations of the various investigating bodies can be implemented.

SPORTS

The SHORT CIRCUIT

By JOHN SHORT
Sports Editor

Probably the only individuals jumping up and down with glee over the present epidemic of marathon swimmers, as far as I can see, are bathing suit manufacturers.

Their joy, however, is justified.

After all, it seems that everybody old enough to know better or young enough to take a chance is preparing to launch an aquatic assault on any one of a million watery obstacles.

And I am willing to stake my last pair of broken shoe-laces on the belief that almost every one of them wears a bathing suit.

Hence, bathing suit sales are booming, unless the pictures circulating of Marilyn Bell, Shirley Campbell, Brenda Fisher, Cliff Lumsden, ad infinitum, were posed photos, guaranteed not to shock the more sensitive newspaper readers.

Of course, I'm only trying to inject humor into what has become serious business. Some so-called writers, dripping crocodile (or should I say tuna fish?) tears, have gone so far as to call it a deadly serious business.

And mostly because Marilyn Bell, Canada's answer to Petunia Porpoise, was unconscious when she was hauled from the frigid waters of Juan de Fuca Strait last Friday.

Isn't that so much sentimental drivel? Why anybody who knows anything must realize that it is contrary to the unspoken rules of marathon swimming to quit while still able to think. One school of thought subscribes to the theory that becoming numb as early as possible is a sure-fire method of completing the swim.

Evidently the belief is that the swimmer can't feel the cold.

* * *

It is becoming more and more possible that someday famous marathoners will be introduced to admiring masses as: "Danny Dogfish, champion of Squawk Hollow Creek" or "Henrietta Herring, who so fearlessly spent 3½ seconds underwater one week ago Friday in search of the safety pin she needed to ensure her continued safety."

The beaming master of ceremonies will hardly find it necessary to add that Miss Herring was swimming WITHOUT goggles. The use of underwater gogles would be almost as bad as quitting while still conscious.

And no self-respecting swimmer would do that.

Vancouverite Tops After First Round

EDMUNSTON, N.B. (CP) — Bryan Copp, an 18-year-old redhead from Vancouver, held a one-stroke edge Monday at the end of 18 holes of the 36-hole Canadian junior golf championship.

Copp went out in 37 and home in 39 for a 71, a score that will rank him high among the qualifiers for the Canadian amateur tournament that starts here Wednesday.

Tied in second place were Bob Kennedy of Moose Jaw, Sask., and Gary Cowan of Kitchener, Ont., each with 77s.

Two Maritime juniors, Bill Hutchinson of Saint John, N.B., representing his province and Prince Edward Island in the interprovincial team championship, and Perry Locke of Dartmouth, N.S., each carded 80.

Defending Champ Paces Qualifiers

EDMUNSTON, N.B. (CP) — Moe Norman, defending Canadian amateur golf champion, paced a six-man par-breaking attack during the first 18 holes of the qualifying round of the Amateur Monday.

Norman methodically pounded out a 69 on the 73-par course to lead four United States amateurs and Jack Ellis of Vancouver.

Doug Sanders of Miami Beach, Fla., and Ted Lenczyk of Newington, Conn., were only one stroke behind the Kitchener, Ont., fireball.

Bill Foote, Jr., Newington Beach, Cal., also found the course to his liking carding a 71.

Ellis and Arthur Peterson, Fitchburg, Mass., were the other par breakers, each with 72s.

Yank, Canadian Pace Qualifiers

WINNIPEG (CP)—Barbara McIntire of Toledo, Ohio, and Rae Milligan of Jasper, Ajlta., Monday shot 75s to tie for medal honors in the 18-hole qualifying round of the Canadian women's open golf championship.

They will lead two groups of 16 players each into match play today in the championship flight. Players with scores of 88 and better qualified for the title hunt.

Six of the eight Americans entered in the week - long classic made the grade in the qualifying round, including Pat Lesser of Seattle, who tied defending champion Marlene Stewart of Fonthill, Ont., for the runner-up spot with 76. Others were Judy Bell of Wichita, Kan., Virginia Dennehy of Lake Forest, Ill., Mary Patton Janssen of Charlottesville, Va., and Mrs. Maurice Glick of Baltimore, Md.

Top Canadians qualifying included: Janet MacWha of Montrel, Canadian junior champion Betty Stanhope of Edmonton, Shirley Woodley of Toronto, and three time runner-up Mary Gay of Kitchener, Ont.

Brenda Fisher Betters Previous Record for Lake Ontario Swim

TORONTO (CP)—Britain's Brenda Fisher Monday set a record for swimming across Lake Ontario, completing the 32-mile stretch in 18 hours, 50 minutes.

By so doing she became the third person to cross the lake and cropped two hours and six minutes from the previous best time set by Toronto's Marilyn Bell in 1954.

John Jaremey, 36, a Toronto steamfitter, swam the lake last month, taking 17 minutes longer than Marilyn.

Brenda slipped into the Niagara River at Niagara - on - the - Lake, Ont., at 10:56 p.m. Sunday night. During the last quarter-mile of her gruelling marathon the elements conspired to rob the sturdy 28-year-old fisherman's daughter from Grimsby, England. But four-foot waves, lightning, thunder and torrential rain could not stop her.

Brenda holds the women's record of 12 hours, 43 minutes for the Channel, which she has swum twice, and last April set a women's record of 12 hours, 11 minutes for the 29 - mile River Nile swim.

It was the 41st attempt within the last two years to beat the lake. The water rush was triggered by Marilyn's successful bid.

VETERAN SWIMMER

Brenda is an old hand at distance swimming. She started as a speed swimmer at the age of seven, coached by present coach Herb McNally, and switched to distance swimming as a personal tribute to her brother, killed while serving with the RAF during the Second World War.

Brenda came to Toronto from Grimsby last year for the purpose of swimming the lake. On her first attempt, last September, she was forced to retire after 12 hours 43 minutes, having covered 23 miles, because strong winds kicked up large waves.

Monday the 150 - pound athlete swam through darkness, rain and then into brilliant sunshine. But she ended the grind in a thunderstorm.

Upsets Rare In First Round

OTTAWA (CP) — Play progressed true to form with one minor exception Monday in preliminary open events at the Canadian junior tennis championships.

Close to 100 singles matches were run off but 14 others and a number of doubles competitions were cancelled by a heavy rain.

Rain drenched the 17 courts of the Rideau Lawn Tennis Club, permanent site of the championships, late in the afternoon.

Rod Laver, 17-year-old southpaw swinger from Brisbane, Australia, showed some of the form which brought him the U. S. junior men's singles crown.

He methodically rolled over a pair of Montreal players, dumping Brian Patterson 6-0, 6-1 in the opening round and making Keith Carpenter his second victim by a 6-1, 6-1 score.

Russ Disappointed; Kuc Misses Record

MOSCOW (AP) — Viladimir Kuc used up too much of his strength in the opening mile Monday and failed by six seconds to set a world record in the 5000 metres run.

Some 60,000 spectators turned out to see Kuc bid for a record in the gigantic Soviet spartakiad sports festival and his time of 13 minutes 42.2 seconds failed to satisfy them. It was the sixth-best 5000 metres ever run and should be good enough to give Kuc a gold medal at the Olympics in Melbourne if he can duplicate the performance.

ANNOUNCE TRIAL DATES

TORONTO (CP) — Miro Pristupa, physical director of the Canadian Sokol Organization, Monday announced that the Canadian Gymnastic championships and Olympic trials will be held here Aug. 18 and 19.

The meet will pit athletes performing on the horizontal bar, the parallel bar and calisthenics.

PENTICTON (CP) — Clem P. Bird, president of the world champion Penticton V's hockey team, was elected a trustee of the Penticton parks board to succeed H. H. Wickett who recently resigned.

Out of 746 votes polled, Mr. Bird received 550.

Robbie Won't Fight For IBC

NEW YORK (AP) — Middleweight champion Ray Robinson said Monday he is "finished" with the International Boxing Club and will meet contender Gene Fullmer for an independent promotor in California.

"I'm finished with the IBC and Jim Norris (IBC president)," said Robinson. "I'm going to conclude arrangements this week for a title defence against Fullmer with either Cal Eaton in Los Angeles or Bill Kyne in San Francisco," said Robinson after arriving from his training camp at Greenwood Lake, N. Y.

"Eaton has offered me $135,000, of which $15,000 was for training expenses, plus $60,000 for television. Kyne is ready for a similar offer.

Robinson admitted that he had an exclusive contract with the IBC but insisted "it's illegal and won't stand up in court."

TOLD TO PLAY SO THEY DID

LONDON (AP)—The Welsh Guards' band was ordered to play before the start of the army-air force cricket match Monday.

Ant that's just what they did—to an empty house. No spectators arrived for the match and all the seats were empty. Rain kept the fans away.

But the orders said play. So the band played.

Braves Bump Redlegs With 5-1 Victory

MILWAUKEE (AP) — Milwaukee Braves Monday night dulled Cincinnati's threat to their National League lead by beating the Redlegs 5-1 on the strength of Del Crandall's two-run homer.

Braves' third straight win over Cincinnati was seen by a crowd of 38,580, setting a four-game-series attendance record of 162,880 for the Milwaukee park.

Rookie Taylor Phillips notched his third major league win without a setback and Crandall and Danny O'Connell provided the batting muscle the young hurler needed to go all the way.

Crandall's homer with a man on in the sixth broke a 1-1 tie after his long sacrifice fly had tied the score in the second. O'Connell drove in the Braves' final two runs in the eighth with a bases-loaded single.

Frank Robinson's 26th home run in the first kept the Redlegs from being shut out.

Phillips, a 23-year-old southpaw from Wichita of the American Association, scattered seven hits and walked only two.

The Braves, who lost the first game of the series and were only one game up on the Redlegs, now lead Birdie Tebbetts' third-place club by four games.

Ontario Golfers Hold Early Edge

EDMUNDSTON, N.B. (CP) — The Ontario team Monday took a two-stroke lead in the first round of the interprovincial Willingdon Cup matches as the week-long Canadian amateur golf championships started in ideal weather here.

Ontario's aggregate score of 302 topped Manitoba's 304 and was eight strokes up on defending champion British Columbia's 310.

NEW SLOGAN SENDS LEAFS INTO 1956

TORONTO (CP)—The Toronto Maple Leafs came up Monday with a new slogan and a bunch of new faces for the 1956 National Hockey League season. Now, it's "rock 'n roll with Howie Meeker and his crew cuts."

The musical note was revealed Monday by general manager Hap Day at the Leafs' annual pre-season press conference. Altogether, Leafs will have 29 players out when they open the training season at Sudbury, Ont., Sept. 18.

Stocky crew-cut Meeker, appointed coach last April on a one-year contract, told the conference "if we have a goalkeeper of NHL calibre, and I think we have, we'll give Montreal an awful battle for top spot in the final standings."

In a post-season deal, the Leafs sold veteran goalkeeper Harry Lumley to Chicago Black Hawks and called up Ed Chadwick from Winnipeg Warriors of the Western Hockey League.

Meeker's crew cuts were identified as five juniors signed to pro contracts this year.

They are defencemen Bob Baun and Al MacNeil and wingers Gary Collins and Bob Pulford, all with Toronto Marlboros, last year's Memorial Cup champions, and winger Pat Hannigan of Toronto St. Michael's Majors.

Suspend Backstop Indefinitely

NEW YORK (AP)—Jim Mangan, third string catcher said manager Bill Rigney "is the worst manager I ever played for," Monday and was suspended indefinitely by club president Horace Stoneham.

"Mangan is suspended as of today until further notice because of his action leaving the club at Pittsburgh yesterday," Stoneham's notice read.

Mangan, who was purchased from Pittsburgh, left at the end of the second inning of the first game of a doubleheader with the Pirates. He stayed away from the park during the entire second game but returned to New York with Giants.

QUEBEC MILITIAMAN CAPTURES SECOND QUEEN'S GOLD MEDAL

By CECIL SMITH
Canadian Press Staff Writer

SOUTH MARCH, Ont. (CP)—A 26 - year - old miltia officer Monday won the Queen's Gold Medal match for the second time at the 88th annual Dominion of Canada Rifle Association shoot.

Lieut. Edson L. Warner of Lennoxville, Que., a member of the Sherbrooke Regiment (12th Armored) and a shooting member of Canada's Bisley team in 1953 and again this year, posted 183 of a possible 200.

His score also won him the General Sir Arthur Currie Trophy.

However, a protest was turned into DCRA officials by competitors who complained that Warner had taken too long to fire on several shots. A time limit of 45 seconds is allowed.

If the protest is allowed, both the Queen's Medal and General Sir Arthur Currie Trophy will go to Sgt. J. R. (Bud) Hardy, 28, of Kingston, Ont., and Vancouver, who posted a score of 175. Sgt. B. H. Bell of Regina, finished with 174 and Capt. J. H. Orphan-Smellie of the British rifle team 172.

The Queen's match is fired in four stages — firing deliberate from 600 yards, firing with movement from 600 to 100 yards, rapid firing from 300 yards, and snap-shooting from 300 yards.

Lions Beat Argos; Dublinski Hurt

VANCOUVER (CP)—B.C. Lions defeated Toronto Argonauts 20-15 in an exhibition football game Monday night which may also have cost the Argos the services of their star quarterback, Tom Dublinski.

Argo import tackles Bill Shipp and Frank Machinsky were also helped off the field because of injuries. Extent of their injuries was not immediately known.

Dublinski, who received a two-year no-cut contract when he signed with Argos last year, suffered an injury to his left leg a couple of seasons ago which kept him out of the game for some time.

Ryder Answers Critics After Marilyn's Swim

VICTORIA (CP)—Gus Ryder Monday answered charges of cruelty in connection with Marilyn Bell's unsuccessful attempt to swim Juan de Fuca Strait Friday.

The charges were made in newspapers, in letters and by telephone calls.

The Toronto swimmer plans to make a second attempt during the last week in August.

"I'm determined to make that swim," she said Monday.

"Marilyn was in less danger of drowning than your children are when they go to many of your beaches," her coach said.

Ryder said that in 30 years of operation his Lakeshore Swim Club in Ontario has "accommodated thousands and thousands of youngsters without a tragedy.

"The safety strategy of Friday's swim was for Cliff Lumsdon, manager of our pool and lifesaving chief, to pace Marilyn intermittently during the afternoon and to stay with her for the last five or six miles, not only to encourage her but also to protect her."

In the coaching boat, he said, were five people quite able to make a rescue if necessary. The boat was never more than 10 feet from Marilyn and Ryder seldom took his eyes off the young swimmer.

BILKO, MAUCH CONTINUE MARCH

SAN FRANCISCO (AP) —The two men with the big sticks, Steve Bilko and Gene Mauch, continued their batting domination of the Pacific Coast League last week, driving Los Angeles toward the PCL baseball championship.

The giant Bilko, righthanded Angel first baseman led on a percentage basis with an average of .370, in runs batted in with 135. and in home runs with 47.

His teammate, second baseman Mauch, topped the PCL in hits to date, with 177. Bilko has 170.

NEW YORK (AP) — Willie Troy, 164, of Washington, D.C., fought a 10-round draw with Jerry Luedee, 166, of New Haven, Conn., in the feature bout Monday night at St. Nicholas Arena.

Race Tightens; One Race Left

OTTAWA (CP) — Only three-quarters of a point Monday night separated leader Bruce Kirby of Montreal and runner-up Bud Whittaker of Toronto with only one race remaining in the Olympic one-man dinghy trials.

With 11 of 12 races completed, Kirby, who sails with Montreal's Royal St. Lawrence Yacht Club, had 34¾ points. Don Burwash of Ottawa's Britannia Yacht Club was third with 26.

The final race will be sailed today, winds permitting. Highest scorer at the end of the 12th race will be named to represent Canada in Finn-class dinghy competition at the Olympics.

Whittaker nosed out Kirby, and Burwash was third in the first of two races Monday. Burwash won the second, sailed in light winds and a steady rain. Whittaker was runner-up and Kirby trailed.

Husbands! Wives!
Get Pep, Vim; Feel Younger
Thousands of couples are weak, worn-out, exhausted just because body lacks iron. For new younger feeling after 40, try Ostrex Tonic Tablets. Contain iron for pep; supplement doses vitamin B_1. ROSSLAND, B. C.

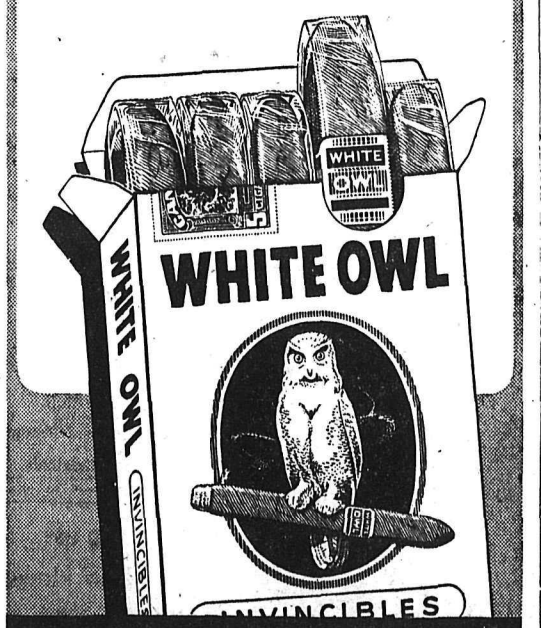
Fishermen who begrudge the effort involved in catching live crickets for bait can buy a quart of them, by mail, from a Georgia cricket farm.

We learn that it takes fifteen days for cricket eggs to hatch, eight weeks for the insects to grow to bait size. We note, too, that the brooders where they laze about in 85° temperature, lapping up chicken mash, are made of aluminum. But we confess we're not too surprised. It simply means that this busy metal has found still another use in the busy housing industry — this time providing clean, warm, pleasant quarters for aristocratic crickets. You see aluminum everywhere these days!

ALUMINUM COMPANY OF CANADA, LTD. (ALCAN)

Buy WHITE OWL
in the handy cellophane-wrapped pack of 5



GUARANTEED QUALITY AND FRESHNESS

Now 3 Gillette Razors SUPER-SPEED
... new shaving comfort for every type of skin and beard!

LIGHT ... for men with sensitive skin and for most younger men.

Market Trends

NEW YORK (AP) — Another slow, uneventful decline was staged by the stock market. Volume continued to melt away as prices wilted.

If there was any particular news that could depress prices it was the latest tightening of credit, this time by major commercial paper dealers, but interest rates have been rising for months.

TORONTO (CP) — Industrials suffered their worst index loss in more than two months as the stock market slipped back. Profit-taking sifted across the board in all sections, cutting down the highs made in the last two weeks.

Brokers said the downward trend was a stabilization of the market, following the record advances made over the last month.

Child Drowned

PENTICTON (CP) — Mark Alaric, three-year-old son of Mr. and Mrs. Wilfred Alaric of Oliver, was drowned in Osoyoos Lake Sunday.

A family picnic was being held at a point near where Mica Creek enters Osoyoos Lake and the children were playing in the water. Mark's sister came running to the parents stating Mark had disappeared in the water.

It was not until Monday morning that the body was recovered.

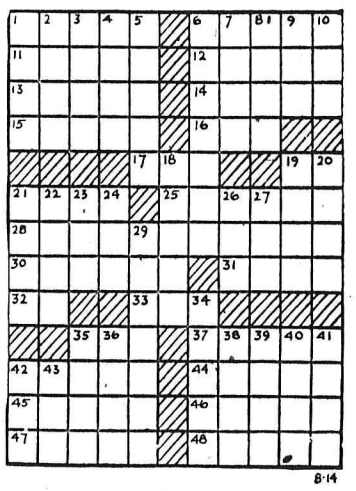
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

R T E V, T J V H V C A, T D V W V J Q X P E R P K V, Z T K T W V P J L N B C W — S P J Z D. S P J A L.

Yesterday's Cryptoquote: I SAY THE WORLD IS LOVELY, AND THAT LOVELINESS IS ENOUGH — BUCHANAN.

Canada's Fruit Crop Estimates Fall Off

OTTAWA (CP) — All major Canadian fruit crops this year will be sharply lower than in 1955, the bureau of statistics said Monday in its first estimate of fruit production.

Estimated yields indicate declines ranging from nine per cent for pears to 72 per cent for loganberries.

Here are the estimated production figures:

Apples, 12,217,000 bushels (19,142,000 in 1955); pears, 1,376,000 bushels (1,510,000), plums and prunes, 516,000 bushels (828,000); peaches, 2,235,000 bushels (2,883,000); apricots, 93,000 bushels (184,000); sweet and sour cherries 473,000 bushels (763,000); strawberries, 17,059,000 quarts (22,674,000); raspberries, 5,313,000 quarts (12,099,000); loganberries 344,000 pounds (1,237,000); grapes, 79,922,000 pounds (94,732,000).

Apple production in British Columbia was estimated at 4,764,000 bushels compared with 6,405,000 last year.

Rotary Day Arranged For Labor Day Crowds

Nelson Rotary Day at Lakeside Park September 3 will be the club's newest and one of its biggest efforts to raise more money for its swimming pool project.

Announcement was made by president David Fairbank at the club's luncheon meeting in the Hume Monday when programs were distributed to members for sale.

The program will be way at the top of the entertainment list for Nelson and district adults and children for the Labor Day holiday.

The morning will be taken up with children's games, including races and a peanut scramble. There will also be a children's hat parade, with prizes for the best girls' and boys' hats. The creations must be home-made.

Games of chance and skill, designed to provide fun for all members of the family, will be held after the lunch hour.

An exhibition of water skiing, sponsored by the Ski Club, has been lined up as one of the main events of the afternoon. There will also be an hour-long event which the sponsoring Rotarians are keeping secret. This will be followed by a contest for $200 in prizes donated by local merchants.

A straw dance on the tennis courts at night will bring the day to a close.

Confusion as Auto Workers Return To Jobs

BIRMINGHAM, Eng. (Reuters) —Automobile workers chanting victory songs marched back to Birmingham factories Monday at the end of a big strike—and found there wags no work for most of them.

Although the three-week dispute with the British Motor Corp. combine had been settled, short time was again operating. For most factories the working week will not begin until today or Wednesday.

Thousands who had paraded around the Austin plant singing a parody on Marching Through Georgia were sent home again.

Angry union leaders demanded an immediate meeting with the management.

They claimed that the settlement—admitting the principle of compensation for men laid off—had indicated that normal work schedules would be resumed today.

Confusion was reported at other factories over short-time working, but no incidents were reported.

Cave Explorers Make Record Descent

GRENOBLE, France (AP) — A cave explorer team claimed a cave descent record by going down 3,300 feet in the Gouffre Berger Sheperd Pit of the Alps in the Dauphine region near here Sunday. The previous claimed record in the same cave was 3250 feet.

TOT KILLED UNDER TRUCK WHEELS

CHILLIWACK (CP) — Kenneth Richardson, 18 months, was killed when run over by a truck early Monday on the mill road, about two miles west of Chilliwack.

Police said the youngster was playing with a group of children near a parked dump truck. They said he crawled under the truck and was crushed when it started up.

TOKYO (AP) — An earthquake shook Central Japan before dawn Monday but caused no damage, the Japanese weather bureau announced. The bureau described the quake as "strong" in intensity and said the epicentre was located "some 12 miles under the surface" off Izu peninsula.

ATTENTION MEMBERS OF THE CANADIAN LEGION AND LADIES' AUXILIARY

Members will meet at the Canadian Legion on Thursday at 1:30 p.m. for the purpose of attending the funeral service of our late comrade William Hepworth Riley.

FUNERAL NOTICE

HEPPELL — Private funeral service for the late Mrs. Margaret Jane Heppell will be held Wednesday at 2 p.m. at Thompson Funeral Home. Mrs. E. H. Patterson will officiate and interment will be in Nelson Memorial Park.

FUNERAL NOTICE

RILEY — Funeral service for the late William Hepworth Riley will be held Thursday at 2 p.m. at Thompson Funeral Home. Mrs. E. H. Patterson will officiate and interment will be in the Soldiers' Plot in Nelson Memorial Park.

PENTICTON (CP) — Malcolm Andrew Smith, 24, of Vernon, was drowned Sunday in Skaha Lake.

He had gone swimming alone and shortly after was seen in difficulties. An unidentified man in a boat made an unsuccessful rescue attempt.

Smith's body was recovered from 15 feet of water about 10 minutes after he went under.

He was employed by the Henderson Garage of Vernon. His parents reside at Vancouver.

Odds . . . and Ends

. . . by M. D. B.

The first birth pangs have been felt and they will increase in intensity until the United States has delivered up another president. There is nothing on this earth like an American election for ballyhoo and mud-slinging, and all concerned come out scarred, but victorious, even the losers.

* * *

I once read that you should never tell an American you do not understand the election procedure, because he might try to explain it to you.

* * *

It used to be enough to hear nothing but politicians speaking on the radio, now you have to look at them as well. TV from here on in will be a lost cause unless you have a favorite to root for.

* * *

This year the Republicans are solid behind Eisenhower so that saves them splitting into two camps and going at it hammer and tongs to decide their presidential candidate. It's the Democrats who will be rent in twain and of course this is only the beginning. After the two camps of Democrats have hurled all the insults they can lay their tongues to and called each other all manner of vile names they finally get around to electing a candidate. Following this they sew up the party breach, slap each other on the back, spit on their palms and gird themselves for the big fight.

* * *

For this they pool all the invective they exchanged among themselves and with all they can muster collectively they "smear" the other presidential candidate who replies in like vein. In this they remind me of a Mark Twain character who cussed everything and everyone individually and then ended up with good general all-round cuss in case he had missed anyone.

* * *

During this period the air waves will sizzle, radio and TV sets will blow tubes right and left. Mars, which will be nearer the earth this year than it has been for some time, will be rocked off its orbit and Martians will shake their heads and wonder if it would be wise, after all, to contact Earth.

* * *

In the end a president will be elected and the opposition will come out bloody, but unbowed. I hope this has clarified the Great American Process for those who still think of a democrat as a horse drawn vehicle.

Dies at Victoria

VICTORIA (CP)—Col. Herbert Tom Goodland, resident of Victoria since 1928 when he retired as deputy controller of the War Graves Commission in France, died here Monday in the Veterans' hospital aged 81.

Col. Goodland, born at Taunton, Somerset, served for a time as deputy sergeant-at-arms in the legislature here.

Service Above Self As Motto For All, Rotary Governor's Call

Rotarians new district governor J. H. Coventry paid his official visit to his home club in Nelson Monday in what he described as a "trial" address in his leadership role. In coming months he will call on other clubs in the area.

In his speech to the Nelson club at Monday's luncheon in the Hume Hotel, Mr. Coventry exhorted Rotarians to live up to the three aims set forth by the new international president, Paul Lang: "Keep Rotary Simple", "More Rotary in Rotarians" and "Learn More About Each Other."

He noted that the Rotary movement had made "phenomenal growth" in 50 years. Since the first club was formed in Chicago, 9100 clubs had sprung up in 99 countries. The rise, he said, could only be attributed to Rotary fulfilling the need of businessmen for friendship and fellowship.

By the objective of "Keep Rotary Simple" it was intended that clubs adhere to the organization's ideals and foster the idea of service as the basis of worthy enterprise.

"The motto of service above self," Mr. Coventry said, "should be carried into personal, family and community life."

Rotary has shown, he continued, that high business ethics and Christian principles are compatible, and these same ethical standards should be indoctrinated into today's youth, who, in the speaker's opinion, "are not as bad as some people think."

The democratic way of life, he suggested, will be maintained by people living up to their obligations, more than by building up the nation's armed forces.

FOSTER RESPECT

While Rotary was not established to reform countries or to influence international politics, it can and has gone a long way in fostering respect and understanding between nations. To illustrate the point, he passed on to Rotarians information gleaned at the recent international conference in the United States.

"It has been stated that one per cent of the world's population created all the trouble of the last 50 years. Could it be that one per cent could bring about understanding and world peace?" he asked.

Rotarians attended a supper party at the North Shore summer home of member K. R. Yale in the evening.

Luncheon guests were Ed Cairns and Donald Wilson of Lethbridge, Marsden Baird of Nakusp, Andrew Nelson of Vernon, D. H. T. Mollison of Victoria, Gerald Stibbs of Seattle and C. E. G. Fisher of Vancouver.

Woman Dies Of Injuries

NANAIMO (CP)—Mrs. Charles A. Preese of Cedar, injured late Friday in an up-island accident which claimed the life of her husband, died in Ladysmith General Hospital Sunday night.

Third weekend fatality on the island has been identified as Winnipeg hockey player, William Henry Blaine, 20, who was killed in a separate accident Saturday.

Mrs. Preese's husband was killed instantly Friday after a head-on collision of two cars, four miles north of Ladysmith. The Preese's eight-year-old daughter sustained minor injuries and was discharged from the hospital this morning.

Occupants of the other car, J. D. Kendall, Malahat post office, and Robert Griffin, Shawnigan Lake, escaped with minor injuries.

Blaine was killed when the car in which he was riding turned over in a ditch off the island highway, near the Departure Bay cut-off.

Nanaimo RCMP said Blaine, goalie for the Winnipeg Barons last season, was killed instantly when he was thrown from the vehicle.

His companion, Alec McDonald, of Detroit, suffered head injuries and a possible broken leg.

He was reported unconscious and in "serious" condition at Nanaimo Hospital. The accident occurred at 3:30 a.m.

Blaine had been working at Port Alberni during the summer and was returning to Winnipeg to celebrate his 21st birthday.

SAFE STOLEN WITH $200

NANAIMO (CP)—A 700-pound safe was stolen from the Nanaimo Realty Co. during the weekend. It contained $200 in cash and a small number of cheques and documents.

Entry into the Church Street office was gained through a rear door, through which the safe was removed. The firm announced that a $200 reward will be paid anyone who gives information leading to the arrest and conviction of the thieves. Fifty dollars is offered to anyone recovering the safe and contents.

Brothers Hurt as Car Strikes Horse

PENTICTON (CP) — Two brothers were injured during weekend when their car struck and killed a horse near Olala, 35 miles south of here.

In Penticton hospital with cuts and bruises is Ray Ferguson of Princeton. His brother, Bob, was released earlier after treatment.

Police said the brothers were coming to Penticton and had just passed another vehicle when the horse jumped into their path.

TROPICAL AREA

The Federation of Nigeria in West Africa lies entirely within the tropical zone.

Denial of Revolver Permits To Prospectors Flares In Commons

OTTAWA (CP) — Justice Minister Garson said Monday it would be "monstrous" for the RCMP to overrule a British Columbia decision not to issue permits enabling prospectors to carry revolvers.

He made the statement after Howard Green (PC—Vancouver Quadra) told the Commons that the RCMP has as much right as the B.C. attorney-general to issue permits.

However, Mr. Garson said the RCMP issues permits only in the federal sphere of law enforcement. It had responsibility over the issuance of permits to such persons as interprovincial express employees.

Provincial attorneys-general were responsible for permits issued within a province. In B.C., the RCMP acted under the instructions of the provincial attorney-general in its role as a provincial police force.

It would be monstrous for the RCMP in B.C. to refuse permits as the provincial police force and grant them under its powers as a federal force. This would be a good subject for a Gilbert and Sullivan operetta.

Mr. Garson said if Mr. Green feels prospectors should be permitted to carry revolvers for protection he should make representations to the province and to him.

STORK LOSES RACE WITH AMBULANCE

PRINCE RUPERT (CP) — The stork placed second in a race to hospital, losing out to the Prince Rupert ambulance speeding from Port Edward with expectant mother Mrs. Robert Clayton of Sunnyside.

A five-pound, seven-ounce boy was born to Mrs. Clayton while en route to Prince Rupert General Hospital.

Both mother and child are reported doing well.

Driver A. H. Iveson said he was thoroughly relieved that Mrs. Clayton was accompanied in the back of the ambulance by her mother.

U.K. NEWSPRINT RATION GOES UP

LONDON (Reuters) — British newspapers will get a larger newsprint ration as of next Sunday, August 19.

Announcing this Monday the newsprint rationing committee said the board of trade had issued an order for a new rationing period to last from Aug. 19 to Dec. 9.

The rationing plan is scaled according to the price and the daily size of each newspaper. A large daily newspaper selling at twopence will be able to issue 1,200 pages in 16 weeks, or an average of 12½ pages a day. A small daily newspaper selling at twopence will be able to issue 2,400 pages or an average of 25 pages a day.
