R. E. Sommers Arrested, Charged

Pennies Add Up

MOUNT KISCO, N.Y. (AP)—The Mount Kisco Boys Club is counting its blessings in pennies.

Last spring, a national magazine mailed out 100,000,000 pennies, two each enclosed in letters to prospective subscribers.

However, 1,500,000 letters came back because of wrong addresses. That meant a return of 3,000,000 pennies, or $30,000.

Magazine officials blanched at the thought of opening all those returned letters and digging out the coppers. So they offered the job to the boys club on a 50-50 basis.

This far the club has banked $5000.

No End Seen To Pulp Strike

VANCOUVER (CP) — A strike of British Columbia's 6000 pulp and paper workers went through its eighth day Thursday with no end in sight.

"There has been no change whatever," said D. R. Blair, manager of the Pulp and Paper Industrial Relations Bureau, representing the seven firms involved.

Earlier this week Mr. Blair said no overtures had been made by either side.

On strike are members of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers and the United Papermakers and Paper Mill Workers.

It is estimated that more than $1,000,000 in wages and nearly $5,000,000 in production have been lost since the walkout began Nov. 14.

National Mining Plan Needed Says Herridge

OTTAWA (CP) — Armand Dumus (L-Villeneuve) said Thursday in the Commons that the Canadian mining industry has suffered a "substantial setback" in 1957.

Both production and value would be down this year compared to 1956 figures. Even by the end of July production of gold, copper, silver, lead and zinc were all down from a year ago.

Mr. Dumas urged increased federal aid under the Emergency Gold Mining and Assistance Act. This aid now amounts to about $10,000,000 a year.

H. W. Herridge (CCF-Kootenay West) said the problems facing base metal mines are clear evidence of the need for over-all national planning, and co-ordination of provincial and federal efforts.

Referring to demands in the U.S. for higher tariffs on base metals, he said:

"It's about time the government stood up to the United States and told them we're not going to be pawns to these interests."

New Laws to Deal With Drunk Drivers Urged

VANCOUVER (CP) — New legislation to deal with drunk and impaired drivers was advocated by assistant city prosecutor Bruce Harvey at the B.C. Traffic and Safety Council annual conference Thursday.

Mr. Harvey said Vancouver traffic courts are congested with cases involving these offences and another court may have to be set aside to handle the increasing flow.

"An average of 50 drunk or impaired driving offences now are handled each week and there is no indication that this figure will not increase."

Gertie's Goose Was Nearly Cooked

PORTSMOUTH, Eng. (CP)—A goose named Gertie was silly enough to stray from her owner's back yard.

A group of Royal Navy men took Gertie home and began fattening her up for Christmas dinner.

But someone told it to the Royal Marines — and the sailors quickly freed their captive.

Wednesday Gertie was back home with her owner. She is the personal pet of Maj.-Gen. H. C. Ritchie, commander of the marine base here.

Jobless Benefits May Be Extended

Possibility of 24-Week Period of Collecting Benefits Being Studied

By ALAN DONNELLY
Canadian Press Staff Writer

OTTAWA (CP) — With growing indications of fast-rising unemployment in Canada, the government is expected to propose next week an eight-week extension in the present 16-week period in which special wintertime unemployment insurance benefits can be paid.

Labor Minister Michael Starr told the Commons Thursday the government is giving "very serious consideration" to an extension.

"I expect to have some indication of our decision in a matter of days," he said, replying to a question by Stanley Knowles, deputy CCF leader.

Earlier, informed sources said the government likely will introduce legislation early next week to add eight weeks to the period for payment of the seasonal unemployment insurance benefits. The period would be extended before and after the present starting and ending dates of Jan. 1 and April 15.

At another point in the Commons sitting, Mr. Starr reported a 17-per-cent rise in unfilled job applications at national employment service offices during the three-week period before Nov. 7.

He said they totalled 327,388 on Nov. 7, compared with 188,362 a year earlier. Wednesday, the labor department said there were 278,698 unfilled applications at NES offices on Oct. 17.

Mr. Starr emphasized that these are not "official" figures on unemployment, since they included an unknown number who had found jobs on their own, or who had left the labor force.

The authoritative figures, he said, are those based on a bureau of statistics survey. Those figures, issued Wednesday, said that 208,000 persons were without jobs and seeking work at Oct. 19, a rise of 14,000 in a month and more than double the 98,000 unemployed a year earlier.

PREDICTS EMERGENCY

Claude Jodoin, president of the Canadian Labor Congress, said Wednesday a national emergency is shaping up and forecast that unemployment may total 500,000 by next March.

He urged extension of the period for wintertime unemployment insurance benefits, and also extension of regular insurance benefits to 52 weeks from the present 36.

Informed sources said the government has no present plans to take this second step.

However, the apparent decision on seasonal benefits indicates a change in government viewpoint. On Oct. 18, Mr. Starr said there was no intention of amending the unemployment insurance act this session.

The wintertime benefits now range between $6 a week for a person with no dependents who earned between $9 and $15 weekly during the preceding 30 weeks, and a top benefit of $30 a week for a person with a dependent who earned $57 or more a week in the preceding 30-week period.

A series of Commons queries Thursday indicated that the unemployment situation will be a prime political issue in the coming months.

Maurice Bourget (L — Levis) suggested a general program of federal public works across Canada to provide jobs.

Works Minister Howard Green said that was "quite impossible" and blamed the former Liberal administration for not having "a nice big program of works on the shelf which could have been pulled out."

Mr. Bourget, former Liberal parliamentary assistant for public works, said he is sure there are such plans "on other shelves."

"I've looked on all the shelves and under all the beds," Mr. Green replied. "We're going to do everything that can possibly be done in view of what was done by previous governments."

Tom Irwin (SC — Burnaby-Richmond) said an Italian firm had received an order for power transmission towers in British Columbia. He suggested the government urge Canadian companies to buy supplies in this country "even at an advanced cost."

Mendes-France On Upgrade

STRASBOURG, France (Reuters) — Former premier Pierre Mendes-France scored a significant political victory Thursday in his bid to return to power.

He succeeded in getting his close supporter, elder statesman Edouard Daladier, elected president of the Radical Socialist party at the start of the party's four-day annual congress here.

The election served as a rebuff to Felix Gaillard, France's 38-year-old premier who had hoped to gain the party leadership. Gaillard has the backing of the party's conservative faction.

In an acceptance speech, Daladier, 73, called upon the divided party to unite its ranks as a "necessary condition" for defending France's parliamentary system.

SOVIET ARTISTS COMING

TORONTO (CP)—Two of Russia's leading musicians will perform at Toronto's Massey Hall in February, it was announced Wednesday. Violinist Leonid Kogan, 34, will appear Feb. 6 and pianist Emil Gilels will perform Feb. 28.

Parliament Thursday

By The Canadian Press

Labor Minister Starr said he expects an announcement in a matter of days on extension of unemployment insurance benefits.

It was expected the government will propose an eight-week extension in the 16-week period in which special wintertime unemployment benefits are paid.

Prime Minister Diefenbaker disclosed in tabled correspondence the government plans no specific proposals for next week's federal-provincial fiscal conference.

Harold Winch (CCF-Vancouver East) proposed permanent voters' lists in federal and provincial elections as an economy measure.

Senator Jean-Francois Pouliot (L-Quebec) criticized government study of a possible bill of rights for Canada on the ground it would violate provincial rights.

Cecile To Wed Saturday

NORTH BAY, Ont. (CP) — Another page in the life story of the celebrated Dionne quintuplets will be written at Sacred Heart Church in Corbeil Saturday when Cecile Dionne becomes the bride of Philippe Langlois, a Montreal CBC audio-technician.

This is the second marriage within the ranks of the Quints in six weeks. On Oct. 11, Annette was wed to Germain Allard at Montreal.

Cecille, 23, and Philippe, 26, arrived at the Dionne home Wednesday night. For the last week they have been busy preparing the seven-room house in Lachine on the outskirts of Montreal where they will make their home.

All the members of the Dionne family expect to be present for the wedding except a sister, Pauline, one year older than the Quints, who is currently studying art in New Brunswick, and Yvonne, a Quint sister.

Quintuplets Marie and Annette, now Mrs. Allard, will attend. Yvonne's presence is uncertain, however. She was confined to hospital in Montreal for more than a month following an attack of 'flu and it was felt the trip might add to a pulmonary condition which followed the attack. The fifth Quint, Emilie, died in 1954.

MLA, Two Lumber Firm Presidents Facing Charges of Conspiracy

Gov't Must Resign Says Strachan

VICTORIA (CP)—Provincial opposition leader Robert Strachan said Thursday that "no government can remain in office when a cabinet minister is charging another government member in a criminal court for his actions when he, too, was a cabinet minister."

Mr. Strachan, CCF leader in the British Columbia legislature, said in a statement to the press that the government has "identified itself completely" with Sommers in the two years since the charges of bribery were first aired.

"Because of this I feel the government must resign," Mr. Strachan said.

B.C. Conservative leader Dean Finlayson would only comment: "I'm watching with great interest and fascination the attorney-general's latest manoeuvre."

Liberal leader Arthur Laing said that with a court case pending, he did not feel it correct that he should make any statement.

Slide Derails 17 CPR Cars

HAIG, B.C. (CP) — The engine and 17 cars of a westbound Canadian Pacific Railway freight train were derailed by a rockslide Thursday night at Haig, 90 miles east of Vancouver, on the railway's main trans-continental line.

None of the train crew of five was reported injured in the accident.

The derailment will necessitate re-routing mainline CPR trains either over Canadian National Railways lines between Hope and Basque or via CP Kettle Valley tracks between Hope and Spences Bridge.

Company officials expected it would take all night to clear the slide.

DOLLAR LOWER

NEW YORK (CP) — The Canadian dollar was ⅛ lower at a premium of 3 29-32 in terms of U.S. funds; a week ago four per cent premium. The pound sterling was 3-32 lower at $2.80 13-32.

Cases Against Trio Adjourned Until Nov. 28

By DAVID ROWNTREE
Canadian Press Staff Writer

VANCOUVER (CP) – Charges of conspiring to accept bribes from two lumber companies were launched in police court here Thursday against Robert E. Sommers, former British Columbia forests minister.

R. E. SOMMERS

CCF opposition leader Robert Strachan in a statement later called for the resignation of Premier Bennett's Social Credit government.

Sommers was charged with conspiring to accept bribes from two lumber companies in return for licences to cut timber on Crown land.

Hugh Wilson Gray and Charles Davis Schultz, presidents of the two firms, were jointly charged with conspiring to bribe Sommers.

Warrants for the arrest of the three men came as a surprise development in the Sommers case but the government disclosed the move was planned a week ago to avoid stalling investigation of the graft allegations.

The cases against Sommers, Gray and Schultz were adjourned until Thursday, Nov. 28, by Magistrate Oscar Orr. The magistrate declined to consider requests that the three be released without bail. He ordered sureties of $7500 for Sommers and $5000 each for the other two.

The three were returned to jail after the court appearance. Schultz was released during the afternoon, Gray in the early evening and Sommers at 9:30 p.m., when real estate was put up for his bail by relatives, Mr. and Mrs. John Abrosimo.

In Victoria, Attorney - General Robert Bonner said the criminal charge — which carries a maximum sentence of five years — was considered the best course to make sure that allegations of corruption against Sommers are cleared up.

A royal commission was appointed three weeks ago to decide whether Sommers was guilty of wrongdoing.

RCMP CALLED IN

The RCMP was ordered last week to begin the conspiracy action, Mr. Bonner said, when it became evident that appointment of the commission under Chief Justice Gordon Sloan "would be formally questioned."

Chief Justice Sloan said the criminal action means the commission has ceased to function.

Sommers was arrested at his Victoria home by RCMP officers. He was flown to Vancouver by seaplane. Schultz, president of C. D. Schultz Company Limited, and Gray, president of Pacific Coast Services and Evergreen Lumber Sales, were arrested at their Vancouver homes.

The prosecutor, Al Mackoff, said a warrant had also been issued charging Gray's brother John, sales manager of Evergreen Lumber Sales, with conspiracy. However, the warrant had not been served because John Gray was out of town.

Sommers, 46, his brow wrinkled and looking pale, smiled nervously from the prisoner's box.

NOTES EARLIER ABSENCE

Magistrate Orr noted that Sommers returned to Victoria a week ago after spending two months in the United States recovering from a nervous illness. During that time, his whereabouts were secret.

"I'm wondering if his health might not make him go away again," the magistrate told Nicholas Mussallem, Sommers' lawyer.

"There is no question of that at all," Mr. Mussallem said. "There is no possibility of his leaving the province for medical treatment."

"Yes, that is correct," Mr. Sommers said in his only words during the 20-minute appearance.

Mr. Mussallem and the lawyers for Gray and Schultz asked that their clients be released in their own recognizance — without bail and a promise they would return for trial.

Magistrate Orr said that if the authorities had wished the release of the three men without bail they should have issued summonses, not warrants for arrest.

Prosecutor Mackoff urged "a very substantial bail because the offence was not an extradictable one and because Sommers had "completely disappeared for a time."

ACCUSED BY LAWYER

Allegations that the former minister accepted bribes from lumber companies were first made in December, 1955, by David Sturdy, a Vancouver lawyer.

Sommers gave up his two cabinet portfolios — mines and the joint one of lands and forests—in February, 1956.

He didn't resign his legislature seat for Rossland-Trail and in the landslide Social Credit election of September, 1956, gained his biggest majority in three successful contests for the southeast B.C. seat.

A few days after Mr. Sturdy made his charges at a royal commission into the province's wealthiest business, forestry, Sommers began a slander action. The case dragged on for two years and was thrown out of Supreme Court last Oct. 28 when Sommers failed to prosecute the suit.

This was during the time he was in the U.S. and couldn't be found. He asked postponement, pleading illness, but the judge ruled the request wasn't sincere because he failed to present new medical evidence of his condition.

COMMISSION CALLED

Premier Bennett appointed the royal commission under Chief Justice Sloan Oct. 31. It opened hearings Nov. 12 when Alfred Bull, lawyer for the Schultz company, said he would challenge the province's right to appoint a commission into criminal charges.

This was the delay which Attorney - General Bonner said the court action started Thursday would offset.

The conspiracy charge alleges the bribes were made between Jan. 1, 1953, and Sept. 30, 1955.

It says Sommers unlawfully accepted and that the two companies, their presidents, and John M. Gray gave the former minister "loans, rewards, advantages and benefits as consideration for his co-operation, assistance and exercise of influence in connection with... the issue, grant and award of forest management licences."

Sommers can be disqualified as a legislative member if convicted of a felony or infamous crime. A member who continues to hold his seat after disqualification is subject to a penalty of $500 a day for each day he sits in the house.

In issuing the CCF demand that the Social Credit administration resign, Mr. Strachan said "no government can remain in office when a cabinet minister is charging another government member in a criminal court for his actions when he, too, was a cabinet minister."

Macmillan to Paris To Patch Relations

By WATSON SIMS

LONDON (AP) — Prime Minister Macmillan announced Thursday he will go to Paris Monday to see Premier Felix Gaillard. Plainly, his mission will be to smooth ruffled British-French relations.

Macmillan told the House of Commons he and Gaillard will discuss the Tunisian arms mixup and next month's summit meeting of NATO powers.

Disagreement — or misunderstanding — over both the Tunisian arms matter and plans for beefing up the NATO alliance have sharply impaired the traditionally-cordial relations between the two countries.

Diplomatic sources in London said Gaillard is expected to press for two guarantees from Macmillan:

1. That there will be no repetition of British and American arms shipments to Tunisia.

2. That France and other European countries will not be assigned a secondary role in NATO in the working out of plans to tighten co-ordination in the alliance.

Both these questions were discussed in Washington this week by French Foreign Minister Christian Pineau. He came away exxpressing optimism on both counts. But all sections of the French press said Thursday that Pineau had left Washington almost empty-handed.

WINCH SUGGESTS PERMANENT VOTERS' LIST

OTTAWA (CP) — Harold Winch suggested Thursday that thought be given to establishing a permanent voters list for use in both federal and provincial elections as an economy measure.

The CCF member for Vancouver East told the Commons:

"I am confident that if this were done, hundreds upon hundreds of thousands of dollars would be saved for the taxpayers . . . and provincial and federal governments."

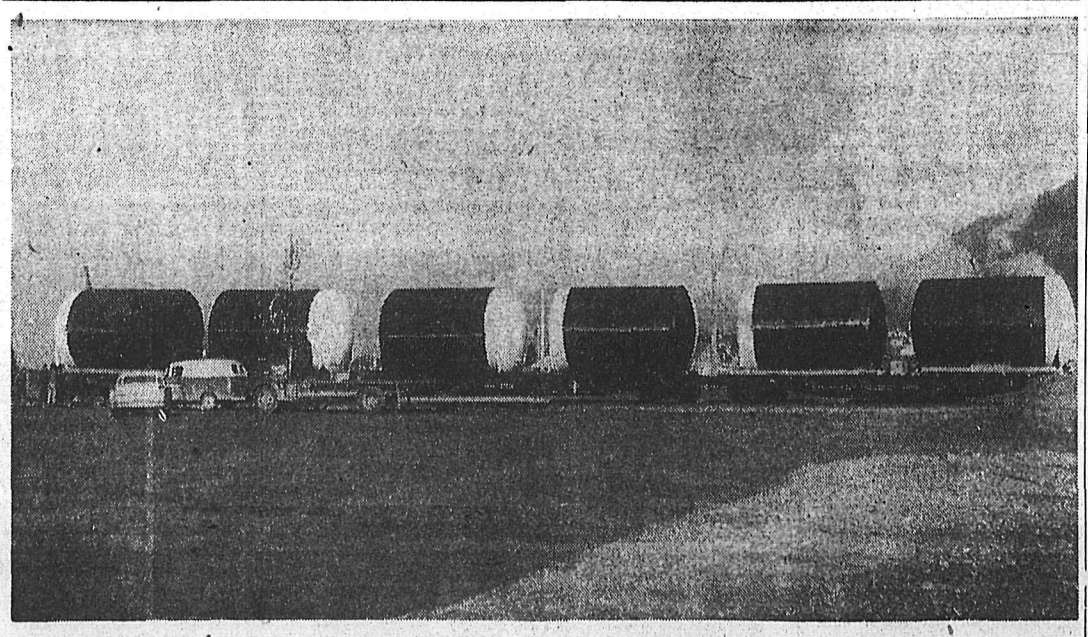
State Secretary Ellen Fairclough referred to his suggestion as "this interesting subject", but did not indicate her own views on it. At present a new voters list is prepared each election.

Higher Pay to Aged, Disabled Okayed by Senate

OTTAWA (CP) — Royal assent was given Thursday to government legislation enabling higher monthly payments to the needy aged, the blind and disabled, and broadening provisions of the War Veterans Allowance Act.

Chief Justice Patrick Kerwin, as deputy to the governor-general, gave assent in the Senate chamber.

Payments, under a federal-provincial formula, are raised to $55 monthly, from $46, for the needy aged between 65 and 69, the blind and the disabled. The Canadian residence qualification is reduced to 10 years from 20, and annual permissible absences from the country without disturbing benefits are raised to six months from three.



STORAGE TANKS for new brewing plant of Interior Breweries Ltd. roll into Creston on flatcars. Each tank holds 582 barrels.

—H. M. Buckna photo.

And in This Corner ....

OTTAWA (CP)—Anyone see an elevator go by—or up?

Detective Inspector Borden Hobbs is looking for one stolen Wednesday night from the Orme Building on uptown Wellington Street.

The building is being demolished and the $6000 elevator, which had been crated for shipment to Montreal was gone Thursday when workmen returned to the job.

TORONTO (CP)—Bread salesman Ernest Thornton, 42, handed $28 to the holdup man who entered his truck with hand in pocket Wednesday night.

But when a supervisor for the bread company drew alongside in a car, Thornton suggested to the thief:

"You better give me the money back and I'll forget the whole thing."

The thief obliged but said he was desperately short of money. Thornton peeled off a $10 bill and gave it to him as he left.

SHEFFIELD, Eng. (AP)—A tax valuation court granted shapely, 31-year-old Mrs. Mildred Barker a cut of £2 a year in her real estate tax Wednesday because of "wolves."

Mrs. Barker said the "wolves" are the male employees of an engineering works a few yards from her home. She testified she draws wolf whistles "when I hang out the laundry, when I wash the steps and when I sunbathe in summer."

She argued, and the tax court agreed, that this lessened the value of the house.

CATESVILLE, Tex. (AP) — Two youths made an untimely escape from the state reform school here.

Superintendent Herman Sapier was holding a barbecue for 34 law officers at the time. They pitched in and quickly rounded up the escapees.

WIGAN, England (AP)—Artist Jim Isherwood offered Wednesday to pay a speeding fine with one of his paintings assuring the court: "They'll be valuable in a few years."

The judge decided to take the cash—£2, 10 shillings.

FRUITVALE MAN TO STAND TRIAL

Fred Makiev of Fruitvale was committed for trial in county court on a charge of breaking and entering and theft. He appeared Thursday before Stipendiary Magistrate A. J. Smith of Fruitvale. No date was set for the higher court trial.

Makiev is alleged to have broken into the Premiere Theatre during the early hours of October 27 and taken $73.28 in cash. He is in custody. R. B. Allan appeared for the Crown, and defence lawyer was G. B. Arnesen. The trial took only one day, and no defence evidence was called.

Conservatives Meet Tonight

The most important meeting to date for the Nelson Conservative Association is scheduled for tonight when officers will be elected to direct its work in the coming months.

As large an attendance as possible is aimed at, the Association's executive said Thursday.

Guest speaker will be Dr. C. A. H. Wright of Trail, president of the West Kootenay Association, and the party's candidate in the last federal election.

The Women's Association, which has emerged as an active, enthusiastic group, will serve refreshments.

Must Build Six Feet From Street

A zoning board of appeal Wednesday ordered J. H. Niehaus of Nelson to build a home at 1420 Kootenty Street six feet back from the street to conform with city building regulations. Mr. Niehaus plans to build on the northerly 60 feet of two lots.

Chairman was W. J. Sturgeon and other members were A. K. McAdams and B. K. Arlidge.

Notice is hereby given that a Special General Meeting of the Property Owners of the above Zone will be held in Community Hall, Salmo, B.C., on Monday, 2nd Day of December, 1957 at 8:00 p.m. for the following purpose:

(a) To elect a trustee of the zone to replace the late M. C. Donaldson, deceased.

TRUSTEE: Mr. B. C. Fitzpatrick, Chairman of the meeting.
Mr. G. E. Penniket in attendance.

Dated: the 21st day of November 1957.
BY ORDER OF THE BOARD,
G. E. Penniket,
Secretary

May Change Suspension Procedure

VICTORIA (CP) — Highways department officials were reported Thursday to be considering changess in driving licence suspension procedure following a court decision which declared present methods invalid.

Murray A. Moggach of Trail appealed to county court at Nelson against suspension of his licence on the grounds that he had not been given an opportunity to present his case to the department before the suspension was ordered.

Officials of the motor vehicles branch recognize the validity of Mr. Moggach's case and will not appeal the decision. But they will continue for the present with the same system.

There is speculation of whether provision will be made in future for drivers to present their case to the department before suspensions are ordered. If such hearings were held there would probably be considerable delay in reaching a decision.

Mr. Moggach's appeal was the first since the present suspension system was inaugurated five years ago. A second on grounds of insufficient justification, will be heard Dec. 6 in Vernon.

The department has suspended 3131 licences so far this year, more than double the number suspended in the same period last year.

Notre Dame Retreat Held

Annual retreat of Notre Dame College students was held last week.

Rev. Father Aquinas of Missions of Atonement, Canal Flats, formerly rector at the seminary of the Atonement Fathers in Saracen, New York, preached to Catholic students, and Rev. Father R. D. Anderson of the Cathedral of Mary Immaculate preached to non-Catholics.

Conferences were held daily on the 10 commandments, led by Father Aquinas and Father Anderson and discussions were held later. The retreat has become an integral part of the college year, giving students a chance to examine their objectives in life. Periods of meditation and prayer were held, and silence, considered an essential part of the experience, was observed during the retreat.

Former Nelson Man Killed in Car-Train Crash

In a fatal accident at Port Moody, Sigford Eugene Johnson, formerly of Nelson, was thrown 20 feet from his car and killed when in collision with a CPR switch engine at a level crossing. The car was dragged for a distance of 50 feet and a dog in the car, badly injured, had to be destroyed.

Mr. Johnson lived for some years in Nelson. He was a carpenter, and built his home on Gore Street, now the J. S. Edwards home. He was one of the carpenters working on the Blaylock home when it was built. The family left Nelson about 1940, but one daughter, Asta, stayed on in Nelson for a time.

There are two daughters surviving, Asta, now Mrs. J. Queen of Courtenay, and Gertie, Mrs. I. Koombs of North Vancouver. Two sons also survive—Bror and Tron. Another son predeceased him in Vancouver some time ago.

Coast Doctor Making Survey

In Nelson on Thursday was Dr. E. A. Pritchett of the department of obstretics and gynecology of Vancouver General Hospital and University of B.C.

Dr. Pritchett, who has also visited other Kootenay centres, is making a survey on information related to maternal deaths for the purpose of teaching at all levels—medical students, post graduate and for scientific study.

Kootenay Labor Council Mooted . . .

Western Canada Bus Drivers Meet Here

A committee to attend meetings dealing with formation of a proposed Kootenay Labor Council was set up Thursday night when the executive board of local 1374, Motor Coach Operators of America, held their first general meeting in B.C. at the Hume Hotel.

Ernest Bouillet of the International Woodworkers of America, who is promoting organization of the council, spoke to the drivers.

The motor coach operators are affiliated with the American Federation of Labor and the Canadian Labor Congress.

Here for the meeting were division president Norman Chalmers of Calgary, W. C. Evans, Alberta representative, also of Calgary, S. R. Snowdon, Manitoba representative, of Winnipeg; G. G. Haggerty, Saskatchewan representative, of Regina; J. W. Graham, business agent, of Regina; and T. R Bond, B.C. representative, of Penticton. Frank Simister, president of the Nelson sub-local, and local members also attended.

Division 1374 represents employees of major over-the-road (highway) motor transportation systems from Vancouver to Winnipeg. Its more than 500 members are employed by Greyhound Lines, Saskatchewan Transportation System, Airlines Service of Trail, and other companies. Head offices of the division is at Regina, and that of the union is in Washington, D.C.

The group met November 18 in Penticton, headquarters for B.C. operations. These are the only two meetings they will hold in B.C. The visitors, travelling by bus, will leave for their homes today.

Mr. Chalmers said these meetings are an attempt to contact members and find out local problems.

The visitors were favorably impressed with Nelson, and a local member took them on a short tour Thursday morning.

Bert Gridley Dies Here at 74

A Kootenay resident about 50 years, Herbert Charles (Bert) Gridley, 74, died Thursday in Kootenay Hospital after a lengthy illness. His most recent residence was at the Nelson Hotel.

Mr. Gridley was a baker, soldier, guard and janitor during his life. He settled first at Robson, moving to Nelson about three years later. First job here was with Choquette's Bakery, then on Latimer Street, after which he helped his brother, the late Samuel Gridley, in a bakery and confectionery near where the Medical Arts Building is now located.

Enlisting with the 225 Battalion of the Canadian Army in 1916, he served in France and England. He was a janitor in the Kootenay Lake General Hospital and the Nelson Court House. During the Second World War he was a guard for the Consolidated Mining and Smelting Company at Trail.

Born December 25, 1882, at Fivehead, England, Mr. Gridley was a bachelor, and belonged to the Masonic Order and to Nelson Branch 51 of the Canadian Legion. Only survivor is a sister, Mrs. G. Simpson of Weston, Bath, Somerset, England.

Accreditation Discussed at Hospitals' Meet

At the British Columbia Hospitals' Association convention held in Vancouver, which was attended by representatives of the Kootenay Lake General Hospital, many questions of immediate interest to hospitals throughout the province were discussed.

From these discussions, A. E. McAdams, of the Kootenay Lake General Hospital Board, compiled a list of recommendations for the Board to consider.

One recommendation dealt with accreditation, a goal towards which KLGH has been working for some time. Accreditation involves the acceptance of the standards of the hospital as being on a level with the standards as set by the American Hospital Association, the American College of Physicians and Surgeons, the Canadian Medical Association, the Canadian College of Physicians and Surgeons and the Canadian Hospital Association. KLGH board of directors hope that accreditation will come within the next few years.

Socred Head Confident of Sommers' Innocence

TRAIL — Rossland-Trail Social Credit president Angus Drinnan said Thursday he was "happy the Sommers matter is going to be cleared up.

"Most of us are going to wait to see how the trial comes out. We feel confident that he will prove himself innocent."

Unable Commit '58 Work Now – Gaglardi

TRAIL — Final dinner meeting for 1957 of Trail Chamber of Commerce was held Thursday night.

A motion to hold the annual meeting in April or May at the call of the president was carried. The financial year and membership year will remain as at present from January to December. A motion concerning method of balloting was tabled until another meeting with a notice of motion being served.

A reply to a letter from the Chamber requesting information on road work was received from highways minister P. A. Gaglardi who said:

"I wish to acknowledge your letter of October 28 requesting certain information. Concerning the new Cascade-Kinnaird section, the proposed Sheep Lake - Rossland highway and the Salmo-Creston section of the South Trans-Provincial Highway.

"I regret that I am unable to answer any of your questions definitely at this time We are just now beginning the preparation of estimates for next year's program and it is not possible for me to commit this department to certain work or to make promises without knowledge of what funds will be voted by the legislature for work next year.

"We will, as you suggest do everything we can to complete all this work as soon as possible taking into consideration the funds available, 1960 deadline for completion of the trans provincial highway and the needs of the rest of the province.

Another letter from the office of the premier signed by the premier's secretary in reply to the Chamber's letter pointing out that this district appeared to be without representation stated that the premier had "carefully noted the contents."

A letter from Nelson Chamber suggesting that Trail conduct a plebiscite on the question of Daylight Saving Time was acknowledge and filed.

Trail merchants will be asked to review store closing hours on Monday's during the tourist season as many complaints had been received in regards to the present all-day closing on that day.

Junior Chamber to Assist Employment Committee

Members of Nelson Junior Chamber of Commerce agreed Thursday to assist the Winter Employment Committee by showing the cartoon "It's a Crime" at various local organizations and providing speakers to introduce the film and speak briefly about the probdem.

Request was made by D. M. Disney, local manager of the National Employment Service, after the meeting last week of the winter Employment Committee. The National Employment Committee. The National Film Board, which produced the film, will operate the projector, and an NES official will attend to help answer questions.

Jaycee Clifford Sherlock, chairman of the committee, said the unemployment situation was confronting every community, added the need was to create jobs for unemployed. An employment crisis, he said, detracts from a community's ability to develop itself, and he noted reference to a lack of interest among employed persons for the jobless.

The program might run about six months if one person did it alone, but could be shortened if others participated, Mr. Sherlock continued. It would be a "golden opportunity" for Jaycees to make use of their effective speaking training, of which he is also chairman. The film will be shown first to Jaycees interested in helping.

Regional director Ralph Aubry thought at least 12 showings would be needed, and these should be started now so action can be taken early in 1958. Mr. Frederickson pointed out it was a long-range program.

NEW PRESIDENT of Kiwanis Club next year will be Dr. Joseph Vingo, above, well known Nelsonite who has been active in many community affairs. He succeeds W. B. Christie, and replaces A. C. Cawley as president-elect. Mr. Cawley is moving to Victoria.

Kiwanians Say Farewell to Mr., Mrs. Cawley

Nelson Kiwanis Club bade farewell to a member who was to be president next year, then promptly unanimously elected a new one, Thursday night.

Members and their wives honored Mr. and Mrs. A. C. Cawley, who leave today for Victoria, where Mr. Cawley will be with the electrical energy inspection branch of the department of public works, at the club's dinner in the Hume silver room.

Mr. Cawley was president-elect. In his place will be veteran member Dr. Joseph Vingo, who had already been appointed secretary for the coming year.

A past president, E. W. Kopecki presented gifts from the club to Mr. and Mrs. Cawley, a brief case to the former and a weekend bag to Mrs. Cawley. Mr. Kopecki expressed the club's regrets at their departure and recalled Mr. Cawley as "always a willing, enthusiastic worker for club projects."

Mr. and Mrs. Cawley both responded briefly.

Mrs. E. W. White, on behalf of the Kiwanis women's club, paid tribute to Mrs. Cawley's "exceptionally fine" work as their president.

A film on life in Alaska, including scenes on the Alaska Highway, followed. It was shown by Russell Davis.

A guest was "Scotty" Cameron of Calgary.

Mr. Cawley is a native of Salmo, receiving his education there and at Nelson. Since leaving school, he has worked for Boeing Aircraft in Vancouver, West Kootenay Power and Light Company at South Slocan, and Nelson Electric Company Ltd., in sales and servicing. He has been a Kiwanian for five years, serving as a director as well as on various committees.

Mrs. Cawley, Kiwanis ladies' president, came to Nelson in 1919 from Saskatchewan. She received all her schooling here. Well known musician, she has been organist at the Church of the Blessed Sacrament in Fairview, and has been pianist at many functions. She was also a member of the St. Alphonsus Guild of the Fairview church.

FIREMEN ANSWER CHIMNEY BLAZE, FALSE ALARM

The Nelson Fire Department was called out at 12:35 p.m. Thursday to a chimney fire at the home of Mrs. Frank Maida, 705 Robson Street. The fire was extinguished in short order without too much difficulty.

A false alarm was turned in at 3:15 p.m. A young lad of five years was responsible for the alarm.

KEY POINT

Churchill on Hudson Bay had a population jump from 450 in 1949 to more than 1200 in 1956.

Nomination Day On December 2

Ald. Wallach Not in Running

Nominations for municipal office candidates close December 2 in Nelson and other B.C. communities. Nelson Poll will be December 12 in the former post office building.

A mayor, three aldermen and two school trustees are to be chosen. Two qualified electors of the municipality must nominate a candidate in writing and the form must also be signed by the candidates.

There will be at least a three-way mayoralty campaign in Nelson. In the running so far are former alderman T. S. Shorthouse, Ald. J. W. McClelland and Ald. C. F. Blakeman, both completing their first terms on City Council. Mayor Joseph Kary has not yet signified his intention.

Ald. Elizabeth Wallach, whose term also expires next month, has stated she will not seek re-election. She said her decision was made before she returned to the teaching profession this year.

School trustees whose terms expire are board chairman F. N. Emmott and Mrs. Richard Palmer. Mrs. Palmer will seek her second term but Mr. Emmott had not decided Thursday.

Police commissioners are now appointed by the lieutenant-governor except for the mayor, who is chairman. Present members of the Nelson commission are Dr. C. E. Bradshaw, elected last year for two years, and G. R. Stewart, appointed to succeed T. W. Wiginton, who resigned this year, and had been appointed by the lieutenant-governor to fill out the unexpired term of the late A. T. Richards. All civic offices are for two years.

ALDERMAN SIX YEARS

Only woman councillor for some years, Ald. Mrs. Wallach succeeded Arthur Foster as chairman of the finance committee, most important council committee, when Mr. Foster bowed out of council last year. She also represented council on the Civic Centre Commission. Elected first in 1951, Mrs. Wallach was the second Nelson woman councillor. At various times she has also been chairman of the gas and transportation committee, member of the public works committee and city representative to Selkirk Health Unit.

During 1955, as representative on the recreation commission, she organized and became chairman of the Nelson Recreation Commission. A native of Nelson, she received her Bachelor of Arts from University of British Columbia and taught girls' physical education in junior and senior high schools at Trail and Nelson. Mr. and Mrs. Wallach have two children.

With Stone and Besom

Following are results of Thursday night's play at Nelson Curling in the first competition of the 1957-58 season:

Nick Sardich 8, Jake Haines 11;
D. M. Sample 12, E. Ramsbottom 7;
Alex Ferworn 10, Dick Palmer 8;
Jim Harvey 12, Walt Wait 10;
A. B. Ronmark 11, A. H. Ronmark 8;
L. Peerless 6, N. Lutkowich 11;
Don Porteous 0, W. Marr 1;
H. Moore 8, J. Milne 6;
F. Carmichael 10, R. Chandler 15;
A. Reid 7, W. Tickner 10.

Wycliffe Bridge Job Rushed

KIMBERLEY — Closure of the Wycliffe Bridge during the hours of 8 p.m. to 6 p.m. caused some concern, but the district engineer advises it will be open from 6 p.m. to 8 a.m. for all traffic, and in order to complete the repairs soon as possible a 10-hour a day shift will work six days a week when possible. The bridge will be open to traffic all day Sundays.

Trucks who can make the trip before 8 a.m. will only have the return detour to make via Fort Steele. Mail service northbound will be Monday, Wednesday, and Friday mail to be posted on the day before but south bound mail will continue normally. It is expected the work will be completed in approximately three weeks, barring bad weather.

Cominco Banquet Honors Six Employees Who Have Completed 40 Years' Service

TRAIL — A gold medal dinner honoring six Consolidated Mining and Smelting Company employees with long-service records was held here Thursday night.

The men completed 40 years of service with the company in 1957, which has entitled them to the award of special gold medals. They are Isaac Tyson, Marc Beduz, Robert Oliver, Matthew Marshall, Louis Rowe and Harvey Lynn. At a similar ceremony held last year, 24 gold medallists with 40 years service or more, were guests of the company at what was termed a gold medal dinner.

Present at the dinner was R. D. Perry, vice-president and general manager, and other senior staff representatives. Presentation of the gold medals was made by divisional managers. Also attending were superintendents, foremen and supervisors from departments in which the guests of honor are employed.

Gold medals have been presented to Cominco employees in recognition of 40 years service since 1952. Presentations on Thursday evening brought the total to 50. Of the company's 7500 employees 1200 have 25 years of service or more, 700 have served the company for 30 years or more, and 23 are still serving after 40 years.

Four of the 1957 gold medallists are still employed by Cominco, the other two having retired earlier in the year. They are:

Isaac Tyson, maintenance foreman, leaching plant, Trail, was born in Hensingham, England. He started with Cominco on June 27, 1917, working as mail boy and then beaker boy. In 1922 he worked as pipefitters helper and later as zinc plant plumber and plumber boss. In July, 1944, he was transferred to staff as zinc plant plumber foreman. Mr. Tyson resides in the village of Warfield. He has two sons, one a journeyman tradesman with Cominco and a younger son serving a machinist's apprenticeship at Tadanac.

Marc Beduz, presently employed as first aid attendant in the mine at Kimberley, was born in Fontanafredda, Italy. He started with the company on May 23, 1917. He worked as a cook at McDougall boarding house for many years. He resides at Kimberley and has a son who is a mine surveyor.

Robert Oliver, senior personnel assistant, Trail, was born in Nelson. He started with Cominco on March 1, 1917. Having worked with C.P.R. Telegraphs for five years at Greenwood, Sandon and Vernon, he started with the company as a telegrapher, later transferred to a clerical position. After serving as cashier for a year he entered the insurance department in 1928. In his present position with the welfare department of the personnel division, his work is chiefly associated with pensions an dhousing.

Matthew Marshall, clerk in charge of timekeeping, Trail, was born in Carluke, Scotland. He started with Cominco on August 1, 1917, in the assay office at Tadanac, as beaker boy. In 1918 he worked for a period of about six months at the Coughlin Shipyards, Vancouver. He returned to Cominco's assay office at Trail in February, 1919, and in the same month went to the zinc plant laboratory. He transferred to staff as a clerk in 1923.

Louis Rowe, retired, resides in Rossland. He was born in Tamar, Saint Neot, County of Cornwall. He started with Cominco on October 24, 1916. From 1916 until 1923 he worked at the LeRoi and Centre Star mines at Rossland. After working for a short time in Trail he returned to the LeRoi mine in 1926. Since that time he has worked in Tadanac on the labor gang, at the electric furnaces, in the cadmium plant and in the zinc tank rooms. Mr. Rowe retired on pension on May 1.

Harvey Lynn, retired, resides in Rossland. Born in Ishpeming, Michigan, he started with Cominco in August, 1913 and from that month worked at the LeRoi and Centre Star mines until September 11, 1922. From 1925 until 1931 he worked at the concentrator, Tadanac, and in February went to the zinc tank rooms. Mr. Lynn retired on pension in July.

Kinnaird Group Rehearses Mystery Play

KINNAIRD — Kinnaird's Little Theatre group is working hard to make the fall presentation, a mystery drama entitled "Gently Does It", one of the best ever presented to the people of the district.

Various committees are locating props and costumes, and the cast is rehearsing four and five nights a week.

Edward Bare, played by Gwilym Hughes, likes money so much that he marries his various wives for their money. What happens to these women makes the plot of the play. Mrs. Ruth Waldie plays Monica, his first wife; Evelyn Burrows plays the role of the second wife, Mrs. Joan Johnson is the near ill-fated prospective third wife. Mrs. Gwen Sommerfield plays the part of Emmie the maid, who remained loyal to the memory of the first Mrs. Bare. Stu Paul is the cynical young lawyer who is wise to what is going on in the Bare house, and takes appropriate steps to see that most things are kept under control. The play is being directed by Mrs. Robert MacBain, with stage production handled by Laurie Porter. Mrs. Alice Brooks is property chairman, Mrs. Gladys Collinson, make-up committee; Mrs. Ginny Walper, effects; Mrs. Ella Walker, costume committee; Mr. MacBain, lighting, and Mrs. Smibert is the prompter.

Cranbrook City Electricians Ask 45-Cent Increase

CRANBROOK — Wage increase of 45 cents an hour is proposed by Local 1675, East Kootenay, Brotherhood of Electrical Workers for their contract renewal with the city for its electrical department employees. Also proposed are three additional statutory holidays with pay to bring the number to ten each year, city supply of pole climbing equipment, three weeks paid holidays after ten years service, and double time instead of time-and-a-half for Sunday work.

Renewal is due January 1, and the city is now considering the proposals and will set a date for start of negatiations.

At the same meeting, proposal from Kimberley city council presented in writing that the three East Kootenay municipalities which includes Fernie, negotiate agreements on a district wide basis, was considered. Other certified bargaining agents for city employees include firefighters and General Workers Union for city works employees.

Cranbrook, Kimberley and Fernie council representatives expect to discuss this Kimberley proposal at a later date.

Extend 'Phone Service From South Slocan

SOUTH SLOCAN — B.C. Telephone Company construction crews are at work on a $13,000 project in South Slocan, V. C. Owen, district commercial and traffic manager at Nelson, has announced.

"The project will bring telephone facilities to residents awaiting service in Thrums, Tarrys and Crescent Valley, and provide for future growth in the area," reports Mr. Owen. "The exchange boundary will be extended to include these districts and this will eliminate the toll charge for some toll subscribers situated between South Slocan and Castlegar."

On completion of the project the new rate for the subscribers affected will be that of the South Slocan exchange, which serves a hundred telephones and is rated in group 1 (1 to 250 telephones).

Christmas Shopping to 9 p.m. At Cranbrook

CRANBROOK — Evening Christmas shopping hours to 9 p.m. daily from Monday, December 16 to include Christmas Eve were authorized by resolution by the city council this week.

Increase in local share of RCMP policing costs of cities in Cranbrook's category from $3,139 per man per year in a detachment to $3,411 will be effective June 1, the RCMP headquarters have notified the city.

Cost estimate of $1,000 was reported by City Electrical Superintendent George Burch for moving of a light standard and power pole in the vicinity of the post office lane approach, requested for easing loading and unloading of mail by trucks under the new post office arrangements where all mail is trucked. Further consideration by the city will preceed any action on this.

The city decided to accept an invitation of the Kimberley Kinsmen Club to enter a float in the Kimberley Snow Fiesta parade next February which will mark opening of Kimberley's centennial celebration.

Only one $500 and two $100 debentures of the City Local Improvements issue of $17,000 remain unsold, City Clerk George Robertson reported to the meeting. Sale is direct through the city hall.

The meeting authorized payment of $29,130.70 in accounts.

Liberal Convention Delegates Named

KASLO — Delegates to the forthcoming West Kootenay Liberal Association nominating convention November 23 in Trail were chosen Wednesday night when the Kaslo Liberal Association held an informal meeting in Grandview Hotel. The convention will pick a candidate for the next federal election.

A resolution was passed backing the Nelson Chamber of Commerce stand on Nelson bridge tolls. About 15 persons attended. Refreshments were served.

A Happy Anniversary

Royalty lives in the glare of publicity and despite all the limelight which has of late been concentrated on the Queen and her consort, it becomes evident that they have to some degree a life and happiness of their own.

It has been noted in the press with some surprise that the Prince gave the Queen an electric kettle as a present on the tenth anniversary of their marriage. The best that reporters can say is that it appears to be some intimate family joke. This must be frustrating for the palace snoopers who peer and probe into every part of the royal family's life, but let us hope it will continue to be a secret.

It is a most hopeful sign that the royal marriage is a success. It is only by working, playing and loving together that marriage becomes successful and one evidence of that is the foolish and nonsensical things which become family jokes and private sources of amusement and affection. As years go on these increase in number, and while mystifying to the outsider, strengthen the bonds which hold families together.

There will be many more such happy anniversaries we hope for the royal couple, and all their friends and loyal subjects will wish them continued health, and happiness to enjoy the small family jokes.

Safety Comes First

The surprise and alarm in Canada occasioned by Mr. Dulles' mistaken assertion that nuclear weapons were stored in this country highlights the timorous nature of our alliance with the United States.

If we have entered into a defensive alliance with the United States then that alliance should be complete. If the U.S. feels that it would add to the safety of the two countries if nuclear weapons were stored here or if she believes that inter-continental missile ranges should be established in Canada to protect her territory—and ours—then these things should be done.

Safety is far more important than national pride. For the sake of the common good and our own survival we must forego some of our sovereignty. There should be no half-hearted acquiescence in measures for our safety but the resolute determination towards making our alliance with the United States as effective as possible.

Remembering the colossal efforts put forth by the United States to ensure the safety of the Free World, its immense cost and its world-wide nature, it is a small thing for Canada to store nuclear weapons or to provide launching sites for the United States.

Blood Donations Make "Miracle" Possible

This month, in Vancouver General Hospital, a seven-year-old British Columbia boy, with a hole in his heart, was the first patient in this province to undergo heart surgery, by means of the mechanical heart-lung machine.

As a result of the operation the boy may shortly be discharged from the Children's Health Centre with the prospect of a useful life before him.

Behind this achievement, termed "another medical milestone in British Columbia" by Dr. Lawrence Ranta, head of the department of surgery at VGH, lies the story of years of careful experiment and testing at B.C. Medical Research Institute, under its director, Dr. Kenneth Evelyn, with the co-operation of a large team of medical specialists, scientists and technicians.

But to make this modern miracle possible—a most necessary contribution essential to the operation—was the supply of fresh whole blood, exactly matching the boy's own blood group, which had to be available to "prime" the heart-lung machine and be transfused to the boy.

This blood was most willingly given by donors of that particular blood group, registered with the Red Cross Blood Transfusion Service in Vancouver, These donors made two journeys to the blood donor clinic, first to have samples taken for careful cross matching with the patient's blood, and next, on the eve of the operation (for fresh blood must be used quickly) to donate their blood.

During the operation, which took seven hours, the boy's heart was freed from its task of pumping the blood through his body, while the heart-lung machine, or oxygenator, took over. Before this process starts, the machine was "primed" with fresh blood matching his own. If this was not done the boy would lose far too much blood in filling the machine before it could begin the job of keeping his circulation going. 14 pints of blood were needed.

During the time the "artificial heart" took over, the surgeons repaired the hole—about the size of a fifty cent piece—in the wall between the chambers of the heart. This critical part of the surgery took 23 minutes.

At Vancouver General Hospital there are an estimated 150 patients registered for further medical investigation with a possibility that they may undergo this heart repair operation. Present facilities and specialist staff will not allow for more than two a month but every one will require a supply of carefully matched fresh blood.

The brilliant researchers and the medical and technical men and women of B.C. Medical Research Institute and Vancouver General Hospital who have made such life saving operations as this one possible, are the first to point out that without the priceless gift of blood, donated by volunteers to the Red Cross blood donor clinics across the province, and made available to hospitals absolutely free through the Red Cross Blood Transfusion Service, most of these medical miracles could not be accomplished.

And these blood donors are the everyday folk—men and women—you and me, rich and poor, good and not so good, but all having this priceless gift to bestow through the Red Cross organization with its regular blood donor clinics in the bigger cities, and mobile clinics visiting cities and towns throughout the province.

We know, too, that illness or accident could befall any one of us, and if necessary we should receive this life-saving fluid which cannot, as yet, be scientifically manufactured.—B.C. Red Cross.

Watch Your Lanauage

IDES — (IDZ) — noun; plural; a certain day of the ancient Roman month, the 15th day of March, May July and October, and the 13th in other months.Origin: French from Latin—Idus.

It's Been Said

The luxury of doing good surpasses every other personal enjoyment.—Gay.

The Uninvited

The first conference of independent African nations is scheduled to meet next year at Accra, on the invitation of Prime Minister Nkrumah of Ghana. The countries taking part, besides Ghana, are Egypt, the Sudan, Ethiopia, Libya, Tunisia, Morocco and Liberia. A suggestion that an invitation be sent to the European nations which still have colonies in Africa was rejected.

One of the main subjects to be discussed is economic co-operation and the exchange of technical and scientific information for the development of industry and agriculture. This is an interesting idea, but the possibilities for mutual help are very limited. All the nations participating, except Egypt, are backward and undeveloped. Egypt has intensive agriculture and some industry, but it cannot cope with its own overwhelming economic problems.

None of these states has capital to export, and it is doubtful if any of them can furnish much technical or scientific assistance to its neighbors. If Ghana and other new African nations want substantial help in developing their resources, and improving their standards of living, it can come from only three sources—Western Europe, the United States, or the Soviet bloc.

Since the most promising of the three is still Western Europe, the rebuff to the European powers was perhaps a little bit too hasty.—Toronto Globe and Mail.

The Two Camps

For the moment, neither of the two camps as yet possesses absolute power in weapons. Even if the West does not succeed in catching up with Moscow, the Soviet advantages might be limited enough, for the possibility of nuclear reprisals would remain massive and quite enough to prevent an all-out attack. We may even suppose that the more powerful atomic weapons become, the less they will be made use of, seeing that such a step would entail the destruction of the aggressor . . . We can well envisage a war where, as in Korea, the belligerents would tacitly avoid the use of atomic weapons because of the fear of reprisals.

Dictatorship might provide for the Communist world certain advantages against an adversary like the United States where living standards have become an exacting idol, as well as tending to be identified with the conception of civilization itself. In such a struggle, and even if all the forces of NATO are effectively co-ordinated, the West will have need to make an appeal for weapons of a spiritual nature, taking this term in its widest sense.—Le Devoir, Montreal.

Publish the Names?

The law says that a newspaper must not publish the name of any boy or girl under the age of 16 who has got into trouble. Teenagers may go around pushing or beating people, perpetrating acts of vandalism, creating a breach of the peace, holding drinking parties in public places or private homes, and generally acting as bad characters, but they are shielded from publicity. The idea behind it, we presume, is that being shown up for what they are would impair their standing with relatives and friends and be a disgrace to their parents, nice people who were quite unaware what their nice family was up to.

There are conflicting views with regard to that. Police Chief Dan McLeod, of Port Arthur, feels that young people aged 14 years and over who get into trouble should have their names published and take the consequences. Those under 14 Mr. McLeod thinks have their parents to blame. The chief constables of Edmonton and Vancouver are for full publicity in the newspapers. Chief Anthony of Edmonton says it is the parents who worry most. They ask him if the names of their troublesome children can be kept out of the papers, so as not to disgrace the family. Vancouver chief Archer, would publish the names of delinquents of any age who are charged, and that of the parents as well.—Port Arthur News-Chronicle.

Long, Low Cars

In vain have mayors, aldermen and traffic experts wrung their hands over parking problems and pleaded with U.S. (and Canadian) car-makers to stop putting out longer and more powerful cars. A welcome sign is the ever-increasing army of smaller imported cars which can be parked easily and operated economically. They may even become the Davids to the U.S makers' Goliaths. We could be wrong, of course, but we nurse the hunch that the ordinary Canadian doesn't really want to drive a car that looks like a submarine with a built-in living room. We like to think that the ordinary Canadian regards a car as something to get somewhere in, not to spend a fortune on.

—Ottawa Journal.

They'll Do It Every Time — By Jimmy Hatlo

TODAY'S BIBLE THOUGHT

Judge me, O Lord, I have trusted in the Lord, therefore I shall not slip. Psalm 26:1.

Men who have put their trust in wealth or false friends have found themselves deserted and defenseless. You can count on God.

Aunt Het

There wouldn't be any unhappy marriages if folks could get over the idea that marriage entitles 'em to boss one another.

Decision Near on Unemployment Insurance Benefits Extension

OTTAWA (CP) — Labor Minister Michael Starr said Thursday he expects a decision "within a matter of days" on possible extension of the time period for seasonal unemployment insurance benefits.

Replying in the Commons to Stanley Knowles, deputy CCF leader, Mr. Starr said "very serious consideration" is being given to the matter.

Such benefits now start Jan. 1 and end April 15. It is understood Mr. Starr will propose an extension of this 16-week period to 24 weeks with payments starting before Jan. 1 and continuing after April 15.

Claude Jodoin, president of the 1,100,000 - member Canadian Labor Congress, Wednesday urged the government to take this step, among others, as an emergency measure to relieve winter unemployment.

Mr. Jodoin also proposed an extension of the period in which a recipient may receive regular unemployment insurance benefits to 52 weeks from the present 36 weeks.

However, informed sources said the government's present plan is to seek an extension of the seasonal benefits.

The seasonal benefits now range between $6 a week for a person with no dependents who earned between $9 and $15 weekly during the preceding 30 weeks and a top of $30 a week for a person with a dependent and who earned $57 or more a week in the preceding 30-week period.

What Is Cyclo-Massage:

Cyclo-massage is a high-frequency, variable, small amplitude, multi-directional, multiple rebound arc motion which is developed by the patented, scientifically engineered, precision built, cycloid motors and is transmitted widely through the soft and hard tissues of the body as a deeply penetrating, soothing, gentle cyclo-massage.

WHAT DOES CYCLO-MASSAGE DO?

Obective studies of many people by competent observers confirms that the proper use of the indicated Niagara unit is in many cases an excellent aid in:

1. Increasing blood circulation in the area of application as this is measured by skin temperature and radio isotopic dilution techniques.
2. Decreasing muscle spasm of a variety of types, from that associated with athletic injuries and incisional wounds, to spasm and fatigue associated with long continued postural positions, to longer lasting localized or more general areas of muscle spasm as in medically diagnosed chronic or sub-acute arthritis, bursitis, and fibrositis in many cases.
3. Decreasing many types of muscle and joint pain such as that of medically diagnosed chronic or sub-acute arthritis, bursitis or fibrositis and more particularly in relieving pain associated with muscle spasm such as in muscle strains or minor sprains, low or high back pain, and in muscle cramps associated with fatigue.
4. Relaxing nervous tension and enhancing sleep in many people.
5. Decreasing the overall sense of fatigue and drowsiness of long hours of work.

Hector Ermacora, Kimberley, B.C.

Engagements

Mr. and Mrs. R. A. Paterson, South Burnaby, B.C., announce the engagement of their youngest daughter, Donna Mary, to John Paul Steadman, son of Mr. and Mrs. J. G. Steadman of Deer Park, Wash. The wedding will take place in Deer Park, Dec. 21.

Lady Lions Plan Christmas Party

Plans were made for a Christmas party and for Christmas boxes to be given to elderly people, at the monthly meeting of Lady Lions, held at the home of Mrs. Art Stevens with Mrs. R. J. Coventry and Mrs. George Craig co-hostesses.

A new member, Mrs. Connie Barkes, was welcomed to the group. Winner of the evening prize was Mrs. R. L. Duncan.

New Denver Legion Given Donation

NEW DENVER — A donation to the branch was made when Ladies' Auxiliary to New Denver branch of the Canadian Legion met recently.

An application for membership from Mrs. John McLean was accepted.

MR. AND MRS. ROYAL LANDELS FETTERLEY
Vogue Photo.

Newlyweds Make Home on North Shore

Making their home on the North Shore are Royal Landels Fetterley and his bride, the former Joyce Burkitt Thomas, who were married in the Church of the Redeemer by Rev. Canon W. J. Silverwood.

The groom's parents, Mr. and Mrs. W. A. Fetterley, and the bride's uncle and aunt, Mr. and Mrs. William Kinahan, are all of Nelson. Mr. Kinahan gave his niece in marriage.

The bride's gown was fashioned of white lace with a nylon hoop skirt over taffeta. The jacket was long sleeved. From her tiny white hat flowed a fingertip veil. Her only jewelry was a locket, a gift from the groom. The bride's bouquet was composed of white carnations and chrysanthemums.

As a bridesmaid, Rosena Klein wore a ballerina-length dress of blue nylon taffeta with a net overskirt, and a blue bandeau. She carried a bouquet of pink carnations. The bride's gift to her attendant was a pair of earrings and a matching necklace.

Mr. Philip A. Bailey was best man. Mr. W. Hamilton and Mr. M. Boettger were the ushers.

Before 50 guests assembled in the Redeemer hall, Mr. E. J. Leveque, an old friend of the family, proposed the toast to the bride. The best man read telegrams from Prairie points and England.

The bride's table was centred with a three-tiered wedding cake attractively decorated. This was flanked by crystal candlesticks and white candles. Mrs. F. J. Klein and Mrs. Elsie Morgan poured, and Miss Mimi Sturgeon, Miss Joan Bluett, Mrs. Jo. White and Mrs. S. Stasyn served. Mrs. George Palethorpe was in charge of the guest book, and Mrs. Margaret Stuart served the wedding cake.

The couple travelled by car to points in the United States on their honeymoon. The bride selected for travelling a blue wool tweed afternoon dress with white accessories, and a carnation corsage.

The groom, Mr. George Bondaroff.

The reception was held in the Robson community hall, which was decorated in pink and white. The three-tiered wedding cake was embedded in pink net, surrounded by rosebuds. The parents of the young couple helped receive the guests. The bride's mother was attired in a mauve nylon suit, and the groom's mother was attired in a nylon flowered dress of pink and mauve.

The couple have taken up residence in Kinnaird.

RINGS AND VOWS were exchanged recently in St. Stephen's Presbyterian Church in Creston when Mildred Fern Roebuck became the bride of Kenneth Douglas Spiers of Madeira Park, B.C. The bride is the daughter of Mr. and Mrs. Roland Roebuck of Creston, and the groom is the son of Mr. and Mrs. Douglas Spiers of Quesnel.—*H. M. Buckna photo.*

Mrs. Doerksen Granite Road WI Head

The Granite Road Women's Institute's annual meeting was marked by election of officers and arrangements for late-year projects.

Mrs. M. Doerksen was named president, Mrs. D. Crowley, vice-president; Mrs. C. Ironmonger, secretary; Mrs. D. Anderson, treasurer, and Mrs. G. Pickering, director. Mrs. P. Leahy will be entertainment convener, Mrs. E. Smith, sunshine convener, and other conveners will be elected at the next meeting.

Plans were made for a Christmas party for all children of Granite Road, to be held December 21.

Members also will bring a gift to the next meeting, the gifts to be sent to patients at the Provincial Mental Hospital for Christmas.

Co-hostesses were Mrs. E. Farenholtz, Mrs. G. Pickering, Mrs. Ironmonger and Mrs. I. Ronmark.

Couple Married In Robson Rites

ROBSON — Marriage of Mike Bondaroff and Mable Verigin took place recently. The bride is the daughter of Mr. and Mrs. Pete Verigin of Pass Creek, and the groom's parents are Mr. and Mrs. Fred Bondaroff of Kinnaird. The Russian ceremony was held in the Robson Community Hall. Soloist was Miss L. Malloff of Grand Forks.

The bride was attired in a white lace dress with a white nylon head shawl. Her corsage was of red rose buds.

Bridesmaid was Miss Laura Plotnikoff, cousin of the bride. She was attired in a pink nylon suit, with a pale blue carnation corsage.

The best man was a cousin of

IODE Keeps Education, Charitable Work Up

A record number were present at the home of Mrs. R. B. Brummitt when Kokanee chapter, IODE, met, hearing reports from various members concerning recent works of the organization.

Mrs. E. C. Wragge told the group that the order is giving substantial assistance to Eastern Commonwealth medical students being trained in India. Mrs. Arthur Foster, secretary of services at home and abroad, stated that food parcels are being sent regularly to Britain. She also reported on her attendance at the inaugural meeting of Canadian Mental Health Association.

Members voted $50 for IODE centennial bursary, and Mrs. Brummitt, who is educational secretary, was given authority to make a gift of records or books to their adopted school along with calendars which are given to all local schools.

Welfare convener, Mrs. W. W. Ferguson, reported that four families are receiving milk regularly, gift of the chapter. She read a letter from a family in the country. This family with seven children thanked the group for donations of clothing. It was also noted that Christmas hampers will be sent to needy families.

Mrs. G. B. Russell, hospital convener, told members that 44 magazines had been taken to the hospital and Christmas gifts are being arranged for Kootenay Lake General Hospital and Mount St. Francis patients: Mrs. R. H. Dill reported caring for residents of Nelson Hostel for Aged Men on their birthdays as well as at Christmas.

Four IODE members were in attendance at court when 50 persons received their Canadian citizenship. Greeting and citizenship cards were given to the 50 by Mrs. R. Palmer on behalf of Kokanee chapter.

A successful month at the Thrift Shop was reported by Mrs. Harold Lakes.

Co-hostesses for the meeting were Mrs. Wragge and Mrs. J. P. Horswill. Tea was served.

WOMAN NAMED FOR FIRST TIME

OTTAWA (CP) — Margaret Aitken, 49-year-old Toronto newspaper columnist, Thursday became the first woman to be elected chairman of a standing committee of the Commons. She will head the committee on standing orders.

Mis Aitken was among the chairmen of 13 of 15 standing committees of the House elected Thursday at a committee organization meeting.

The Senate also has elected only one woman as chairman of a standing committee. She is Senator Cairine Wilson, chairman of the committee on immigration and labor. Senator Wilson, first woman appointed to the upper house, was elected a committee head sevearl years ago.

Aneurin Bevan Sues Spectator

LONDON (Reuters) — Aneurin Bevan Thursday told a jury "my character and the usefulness of my position" were affected by a magazine article that said he had a tank-like capacity for whisky and coffee.

Bevan, Labor party spokesman on foreign affairs, testified in his libel suit against The Spectator, weekly political review. Richard Crossman, member of the Labor party's national executive, and party secretary Morgan Phillips also are plaintiffs in the suit.

The Spectator article said that when the three party leaders attended an Italian socialist convention in Venice they "puzzled the Italians by their capacity to fill themselves like tanks with whisky and coffee."

The article also stated that while "the Italians were never sure if the British delegation was sober, they always attributed to them an immense political acumen."

NELSON

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Saturday, November 23, 1957

MARCH 21 to APRIL 20 (Aries) —Finances, business management, essential work and usual weekend interests under fine Moon, Sun and Jupiter aspects. Tackle urgent tasks first, then less important matters. Have some fun.

APRIL 21 to MAY 21 (Taurus) —You may be able to take it a little easier than some now, but the day is so favorable that you should not bypass good advantages or offers that could mean benefits. Follow a sensible course. Finances favored.

MAY 22 to JUNE 21 (Gemini) — Don't expect or reach for the impossible. But do carry out scheduled plans since good results are likely. Fine aspects should aid you in most endeavors.

JUNE 22 to JULY 23 (Cancer) — Your home, family and private interests are under very generous planetary influences. Be happy, duly ambitious; strive for fresh gains.

JULY 24 to AUGUST 23 (Leo) — A good outlook. Several planets in auspicious positions. If work is on your program, do it quickly, efficiently; leave some time for wholesome fun, family affairs.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Similar to Gemini today. The real results of your efforts and interests will be up to you. Don't neglect necessary matters but don't overdo.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Your indications now are akin to Taurus'. Give close scrutiny to investments or business propositions. Generally, the day is very friendly.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Financial gains may not be forthcoming immediately, but it is a grand day for improving relationships, making advancement in work and other worthwhile activities.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — This day's planetary aspects should liven up your ambition and eagerness to attain more than just the usual. Your Jupiter is in auspicious position for your specific interests.

DECEMBER 22 to JANUARY 20 (Capricorn) — Steady application to important matters will earn you time for rest and pleasant diversion when you need them most. You have sound sense; use it.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Avoid needless errors in making estimates, etc. Be careful in making promises, too. Good work, wise precautions and thoughtfulness will bring benefits, generous rewards.

FEBRUARY 20 to MARCH 20 (Pisces) — This should be a big day for you. Get essential tasks done quickly so that you have time for some pleasant diversion —sports, reading, music, a walk in the outdoors.

YOU BORN TODAY are spirited, versatile, imaginative, intuitive, generally clever and efficient. You bear chacteristics from both the waning Sign Scorpio and the rising Sagittarius. You may be fond of the sciences; would make a good actor, able teacher; can handle groups well. You also have the ability to mimic and entertain; are straightforward, sometimes too abrupt, sharp. Birthdate: Franklin Pierce, 14th U.S. pres.

MARKET TRENDS

NEW YORK (AP) — The stock market continued to rally briskly Thursday as Wall Street anticipated further credit-easing moves by the federal reserve board.

Key stocks advanced from 1 to 3 points and some were up as much as 5 or so.

The rise was fairly general, except for aircrafts which were badly unsteeled near the close when heavy selling hit Curtiss-Wright, which takes dividend action next week. Republic Aviation also dipped sharply. It, too, meets next week.

The Associated Press average of 60 stocks rose $2.50 to $156.80 with the industrials up $3.70, the rails up $1.80 and the utilities up $1.00.

After the close, federal reserve figures indicated that the policy of credit-easing was continuing mildly. At the same time, the discount rate was cut to three per cent from 3½ per cent in three more reserve districts, bringing the total of eight out 12 since taet week.

Canadian gainers on the New York exchange included McIntyre Porcupine, up 2⅛; Walker-Gooderham, 2½; International Nickel 1⅛; Hudson Bay, Mining ¾ and Distillers-Seagrams ¼.

Canadian gainers on the American exchange included St. Lawrence, Imperial Oil, Scurry-Rainbow Oil, Sapphire Petroleums, Shawinigan, Jupiter Oils and Richwell.

MONTREAL (CP)—The Montreal and Canadian stock markets moved steadily forward Thursday and industrial gains of around three points were chalked up. Trading was light.

All industrial sections took part in the advance. Main gainers were International Paper up 3½ 75, Trans-Mountain up 2½ at 63, Building Products up 1 at 33, Steel of Canada up 1½ at 50½, Canada Cement up 1¼ at 21, Interprovincial Pipeline up 1⅛ at 39½ and Dominion Stores up 2 at 48.

Up a point were Calgary Power at 66, Imperial Oil at 40¼, McColl at 57, Royal Bank at 63, Howard Smith at 27, Hudson Bay at 47, International Nickel at 72 and Dominion Foundries at 26.

There were comparatively few movements in the mines and oils section. Gains of each were shown by Consolidated Denison at 11⅞ and Hollinger at 21⅜. Home Oil B gained ½ at 15¼ and Titan lost 25 cents at 2.05.

TORONTO (CP) — The stock market Thursday scored its best gain in four sessions as prices climbed higher, following the pattern set by Wall Street. Trading, however, continued at a slow pace all day.

The industrial index jumped five points as key issues moved up in a three-point rage. Western oils were more than a point higher on index and base metals added nearly a point. Golds, down for most of the session, rallied at the close to post a moderate advance on index.

The final volume of 1,466,000 shares was a shade better than Wednesday's 1,457,000.

Falconbridge led senior base metals with a 1⅛-point advance to 24⅜. Campbell Chibougamau climbed 40 cents to $5.30 to pace lower-priced mines.

Western oils didn't have as many prominent price changes as the other sections but their gains outnumbered losses three-to-one. Most gains were held to 15 cents or less.

Index gains: industrials 5.04 to 407.31; golds .34 to 70.18; base metals .89 to 152.21; western oils 1.18 to 130.83.

FREEDOM FIGHTER FINED

WASHINGTON (AP)—A former Hungarian freedom fighter was found guilty Wednesday of carrying a "Molotov cocktail" near the Russian Embassy here during last month's anniversary of the 1956 Hungarian revolt. Gabor L. Babler, 24, was ordered to pay a $150 fine or spend 30 days in jail on a charge of carrying a deadly weapon. He paid the fine.

All Scientists Are Not Highly Paid But They Have Free, Creative Lives

By ALTON L. BLAKESLEE

NEW YORK (AP)—Thousands of tomorrow's potential scientists are dying on the vine.

A scientist needs an intelligent mind, special training — often years of rigorous training—and real interest. Talent in science, say leading scientists, is essentially intense interest.

But many bright young minds are being steered away from science. Educationists and scientists cite numerous reasons:

"Science and mathematics courses are not emphasized enough in schools, including early enough and well enough.

Mathematics is a cornerstone of science, but many youngsters think algebra as a horrid word. Arithmetic often is taught boringly—pupils may spend hours on compound interest rates which they likely never will use—rather than being made alive and interesting.

"Any good student is irked to death by the memorization and formulas and routineness with which science is taught these days," says Dr. R. W. Lefler, professor of physics and education at Purdue University.

DON'T GO BACK

Numerous teen-agers, a Purdue survey finds, regard scientists as longhairs or squares, as unable or incapable of living a normal life, or of enjoying life.

Many students avoid science courses as hard, or for squares. If the science bug bites them later on in university, they find it would be necessary to go back, at extra time and expense, to make up what they had missed. So they turn to something else.

Students often avoid science because they see higher pay and rewards going to careers in selling, advertising, medicine, business, entertainment and other fields.

Some scientists make very good incomes. Some are notoriously underpaid, especially in teaching and basic research, and especially by standards of their contributions to human welfare and progress.

Money is not the sole reward for most scientists. They would like more, of course. Their rewards include doing what they like, being creative, learning more, finding values that carry no dollar sign.

ADELAIDE, Australia (AP) — New British long range weapons soon will be tested at a vast new launching site close to the present Woomera facilities. About ¼7,000,000 is being spent this year on the range.

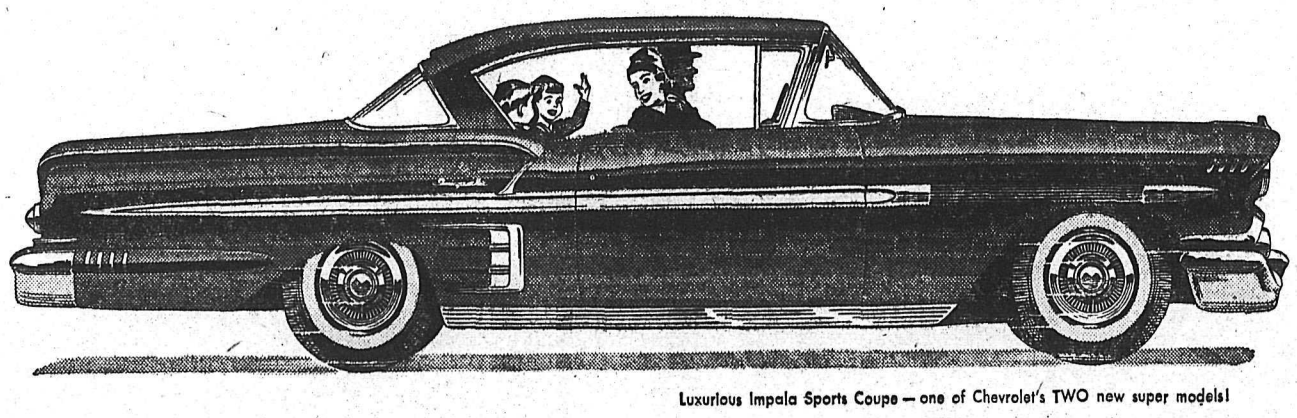
Box 1156, Nelson News

THE YEAR'S NEWEST CAR, THE NEWEST CAR IN YEARS!



Luxurious Impala Sports Coupe — one of Chevrolet's TWO new super models!

It's almost too new to be true! It sets a new style in styling. It takes a new approach to power. It's new right down to the smooth and solid way it rides. Now for '58, Chevrolet takes the giant step — the biggest, boldest move any car ever made!

It's long, low and luxuriously new — the beautifully moving '58 Chevrolet. It's new from ride to roof . . . new in every gracefully sculptured contour, from its bold new grille to its unique Gull-Wing rear fenders. And it offers quick-responding power aplenty in any engine you pick — V8 or 6.

NEW BODY-FRAME DESIGN

Chevrolet's new low-sweeping silhouette for '58 combines a new Body by Fisher with a new X-type frame. It's dramatically lower and wider — and a full 9 inches longer!

NEW TURBO-THRUST V8

Chevrolet unveils the revolutionary Turbo-Thrust V8* with Wedge-Fire design. Wedge-shaped combustion chambers are precision-machined in the cylinder block, not the head — a radical departure that helps achieve a new pinnacle of performance.

NEW FULL COIL SUSPENSION

Deep-coil springs provide cradle-soft action at every wheel, completely replacing conventional leaf spring rear suspension. New Full Coil suspension is standard on all '58 Chevies.

A REAL AIR RIDE

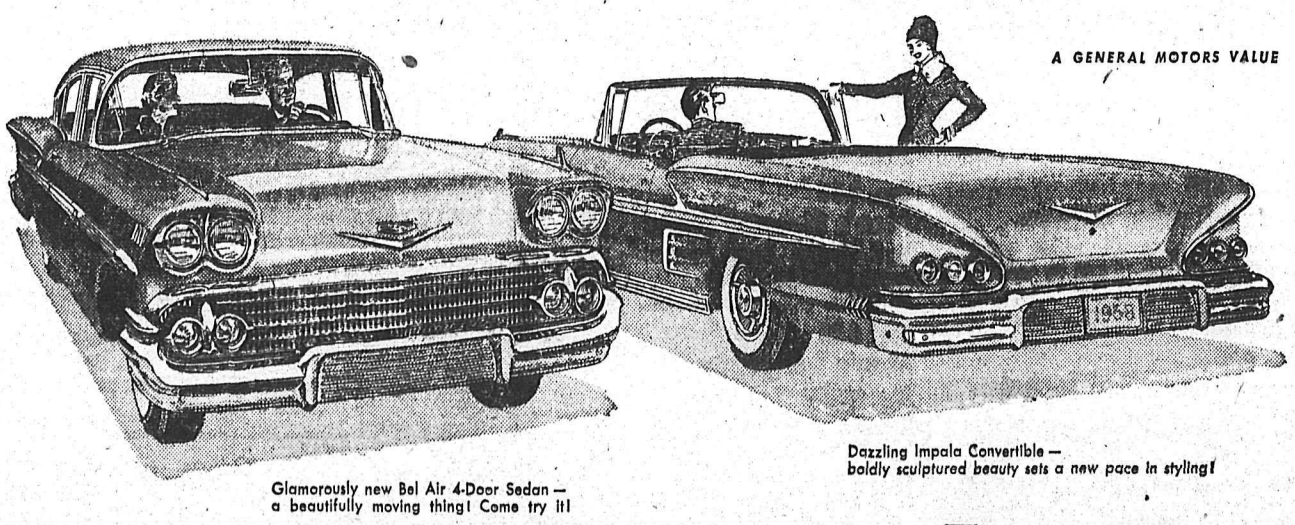
No matter what price car you're accustomed to, you'll never be sitting prettier! Chevy's new Level Air suspension* literally carries you on cushions of compressed air, with all its natural shock-absorbing properties. Available *now*, on all four wheels!

THE BEAUTIFUL WAY TO BE THRIFTY

Never before has there been so much low-priced luxury! Sedans with thin pillar styling . . . stunning interiors . . . a new foot-operated parking brake . . . triple-turbine Turboglide* and smoother-than-ever Powerglide*.

Your Chevrolet dealer is waiting right now to show you the beautiful way to be thrifty —the '58 Chevrolet. **Optional at extra cost.*

A GENERAL MOTORS VALUE



Glamorously new Bel Air 4-Door Sedan — a beautifully moving thing! Come try it!

Dazzling Impala Convertible — boldly sculptured beauty sets a new pace in styling!

CHEVROLET '58!

Only franchised Chevrolet dealers display this famous trademark CHEVROLET *See Your Local Authorized Chevrolet Dealer!* C-658D

SPORTS

Alexandrov Won't Join Chicago Black Hawks

TORONTO (CP) — Russians are sorry, but Veniamin Alexandrov, who is supposed to be some shakes as a hockey player, won't play for the Chicago Black Hawk organization. The 18-year-old centre ice star can't accept money for playing hockey.

That was the official Russian reply Thursday to a move by the Hawks who put the player on the National Hockey League negotiation list. His name was placed on the list Wednesday by Chicago scout Bob Wilson after watching the Russians practise at Maple Leaf Gardens.

Russian officials were amused at the manoeuvre. "I understand little about such things, but you may say that the boy won't play for anyone but our team," said Col. Pavel Korotkov, chief of the touring team. "We have games or practices every day and there is no time for him to play with another team."

The colonel, chairman of the Soviet Ice Hockey Federation, added that he wouldn't try to stop Chicago representatives from signing Alexandrov. "I just happen to know that it won't do them any good."

Meanwhile, elaborate plans are being made to make the Russians feel at home when they open their exhibition series against Whitby Dunlops.

DETROIT-BORN GOALIE MIGHT REPLACE JOHN

OSHAWA, Ont. (CP) — Whitby Dunlops may use an American-born junior goaltender in their exhibition game against Moscow Selects in Toronto tonight.

Dunlop officials announced Thursday night they have arranged for the services of Carl Wetzel, with the Hamilton Cubs of the Ontario Hockey Association junior A series, to replace regular John Henderson, injured in practice Thursday night.

Wetzel, 19, was born in Detroit, Mich., where he played his first hockey, is the property of Detroit Red Wings of the National Hockey League.

Officials said there is still a "faint possibility" Henderson may play with his injured knee frozen. It was struck by a puck shot by defenceman Roy Casey.

The veteran goaltender, formerly with Boston Bruins of the NHL was a major factor in Whitby's surprising drive to the senior hockey title last season and their subsequent choice as Canada's representative in the world hockey championships.

Cabinet Approves 1964 Games Site

TOKYO (AP) — The Japanese cabinet Thursday approved plans for a survey of facilities needed for holding the 1964 Olympic Games here.

The government voted last month to invite the international games here. Tokyo will be host to the 1958 Asian games and a huge stadium now is being built in a downtown park.

Look Askance At Goal Kissers

HARROGATE, England (Reuters)—Soccer players who hug and kiss their goal scorers the way European players do have upset Britain's soccer association secretary.

Before kicking off at an army game here, Sir Stanley Rous told 500 cadets:

"These ideas have crept into football since we began to play continental teams. We have copied some of their emotional style of expression.

"That is not the British method. I do not like to see footballers hugging and kissing a colleague who scores a goal."

ADOPTION CAMPAIGN

TORONTO (CP)—Welfare Minister Cecile of Ontario turned to radio advertising Wednesday in his campaign for more adoptions in the province. The campaign had resulted in more than 100 adoptions so far.

Water Reveals

Whisky's true flavour

Water (plain or sparkling) is your most reliable guide to the whole truth about any whisky. Water adds nothing, detracts nothing, but reveals a whisky's true natural flavour and bouquet. Put Seagram's "83" to the water test and you'll agree — to be that good with water, it must be a superb whisky and a more satisfying drink with any man's favourite mixer.

Distillers Since 1857

Seagram's "83" Canadian Whisky

Ski Slants

By SITZMARK

We've just recuperated enough from last week's work party in time to write a few notes to get you all pepped up for this weekend's work.

We sure had a time last Sunday in an effort to string our cable around the lift line. We were only half successful. The cable is now stretched from the bottom to the top, and with any luck at all we should get it around the upper tower and down to the bottom this weekend.

There was a good gang on the hill last Sunday and we hope they will all be on hand again to see the job finished.

We had the help of some non-skiers last week and would have been stuck without them. John Hawkins and Bob McDonald of South Slocan operated the wire puller. Roy and Bob Hickey were on hand from early morn until dark.

Ed Stromstead and Oscar Houberg were again on the job, and Gene Poulin was a ball of fire. We hope, Gene, you will continue to come out, but for goodness sake take it easier.

While we have made a lot of progress recently on the ski lift, there are still many things to do. We have been fortunate with the weather so far, but gradually the ground is becoming frozen, which is going to make it a bit harder for us to finish the job.

All the intermediate towers have to be stabilized yet. Our upper tower needs to be finished and guy-wired against the strain of the take-up. Art Waters, John Wepk, Bill Heddle and Oscar Houberg have almost completed the bottom drive shed. When all these jobs have been done, then it will be a matter of installing machinery and all this is quite possible if we keep at it every weekend.

Last year our small lift was not completed and operating until the middle of February. But that was a small operation compared to our new lift. Let's not have to say "too little and too late" on this job. Be there on Sunday and lend a hand.

Our ski-lift program was mentioned in the last issue of National Skiing Magazine, published in the United States. Also, the Spokesman Review had a reporter in Nelson recently to write a story on our ski hill. I believe it will be in the Dec. 5 edition.

Skiing is big business all over the country. I do not believe there are many people in Nelson who realize how big. Also, how many of Nelson's ctizens realize how big this Silver King Ski Club and Centennial project is?

Not many have even taken the time to drive out and take a look. It's only two miles out the Nelway Highway and five minutes walk to the bottom. I urge you all to come and have a look! Get interested in Nelson's future!

We are all going to miss our "shot-in-the-arm" man, Ed Stiles, when he and Mrs. Stiles take off for Europe next week. We all realize that without his help our lift would be only a dream.

He has left us with all blueprints and instructions for completing the lift. It's up to us to see it's in working order so he can have a ride when he returns.

Bon voyage, Mrs. Stiles and Ed. Have a good trip.

And again, many thanks from the Silver King Ski Club.

BIONDA SIDELINED

BOSTON (AP) — Defenceman Jack Bionda is lost to Boston Bruins of the National Hockey League for at least a week as the results of a practice accident.

Bionda was struck Wednesday on the left foot by a shot off the stick of centre Bronco Horvath during a scrimmage at Boston Garden.

Bionda's injury cuts the Bruins' defence down to five men. Leo Boivin has been sidelined since last month.

No Jail Sentence For Kid Chocolate

HAVANA (AP)—Kid Chocolate, once the idol of Cuba's fight fans, won't have to serve a seven months jail sentence for possessing one marijuana cigarette.

President Fulgencio Batista agreed to pardon him providing he received proper medical care so that he eventually could seek employment, it was learned Thursday.

He was arrested last January but was not tried until November. Cuban Sports Association officials and fans came to his aid as soon as they learned of his plight and appealed to President Batista.

FAMED CASTLE

Windsor Castle, largest inhabited castle in the world, has been the home of British sovereigns for more than 800 years.

Smokies Confuse Scrambled WIHL Race; Beat Spokane

TRAIL — The unpredictable Western International Hockey League became even more topsy-turvy here Thursday night as Trail Smoke Eaters led all the way to defeat Spokane Flyers 4-2 at Cominco Arena, bolstered by the stellar puck-stopping of starry Seth Martin.

From Laurie Bursaw's unassisted marker early in the first period with Flyers shorthanded, Smoke Eaters were in command. Bursaw, pressed into service along with Ernie Secco and Gerry Godfrey in an emergency before game time, scored once and earned an assist in a performance that may well have eased the woodsman's axe from its threatening position over his head.

Bursaw had been demoted from right wing on Smokies' production line when Warren Hicks popped into the Smokie camp from Kelowna of the Okanagan Senior Hockey League. Since his demotion he had played on a basis somewhat less than regular.

Godfrey missed two games between Trail and Nelson last week, and Secco had played only rarely. But last night, united for the first time on one line, they took charge. Godfrey scored once, as did Adolf Tambellini, with veteran Cal Hockley adding the insurance marker in the third period.

Rookie Lloyd Maxfield, Spokane's leading scorer, added two goals to his point-total, and sat out the penalty that allowed Trail to take the lead in the first period. John Zahara, injured in Nelson Wednesday night, did not play.

Trail's victory tied them with Nelson, each having seven wins and seven losses. Spokane is first by two points despite their defeat.

LINEUPS

Spokane—goal: Sofiak; defence: Plante, McLaren, Hodges, Lancien; forwards: Kubasek, Nadeau Maxfield, Whittal, Gordichuk, Beattie, Bodman, Goodwin.

Trail — goal: Martin; defence: Robertson, Andre, Hamilton; forwards: Tambellini, Penner, E. Secco, Hicks, Hayes, Kromm, Hockley, Bursaw, Godfrey.

SUMMARY

First period — 1. Trail — Bursaw, 4:27.

Penalty: Maxfield, 4:03.

Second period — 2. Trail — Godfrey (E. Secco, Bursaw) ::33; 3. Spokane — Maxfield (McLaren) 10:02; 4. Trail—Tambellini (Hicks, Penner) 15:45.

Penalties: Hodges 6:44; E. Secco 17:10.

Third period — 5. Trail — Hockley (Kromm, Hayes) 1:45; 6. Spokane — Maxfield (Nadeau) 6:18.

Penalty: E. Secco, 4:48.

Edmonton in Frenzy Over WIFU Series

EDMONTON (CP) — The football pot that began bubbling last Saturday night when Winnipeg Blue Bombers upset the favored Edmonton Eskimos 19-7 in the first game of the western football final, was boiling over in Edmonton on Thursday.

Eskimos' 5-4 victory in Wednesday night's hard-knocking second game turned up the heat and this city's populace wasn't even trying to regain the composure lost during the final quarter of the series evener.

Jackie Parker, hero of the Wednesday night piece at Clarke Stadium, was the most talked about man in town, but the faithful — particularly the 19,000 who saw the game — were marvelling also at the gritty display put on by the Big Blue.

The green and gold colors of the Eskimos turned up everywhere Thursday as stenographers arrived at work sporting huge yellow 'mums and yards of ribbon; otherwise - staid businessmen turned out in bright yellow and green hats and business places stuck "Go Esks Go" placards among the Christmas decorations.

While the fans mulled over the excitement of the Wednesday night thriller, in which Parker punted the tying point out of the Edmonton end zone on the second-last play after Gerry James had missed by a yard what could have been the winning field goal, the clubs prepared for Saturday night.

The football medics were busy patching up the wounded and trying to sooth the bruises suffered in the first two games.

Coach Bud Grant of Bombers feared halfback Pete Mangum and fullback Charlie Shepard would be out for Saturday night, Mangum with a sprained ankle, and Shepard with a reinjured hip.

Thomson Outlines History Of Association to OLRB

TORONTO (CP) — Jim Thomson, one of the main organizers of the National Hockey League Players Association, outlined a history of the association Thursday before the Ontario labor relations board.

Hearing opened on an application by Toronto Maple Leafs players to have the association certified as bargaining agent. Thomson, a defenceman, last year was with Toronto and was sold to Chicago. He is secretary of the association.

Maple Leaf Gardens Limited, opposing the motion, filed a list of 31 players under contract. Eighteen of them — all the members of this year's team — signed the application dated Nov. 5. The other 13 players are with teams in the American Hockey League.

THREE MAIN PROPOSALS

The association's proposals include three main points:

1. A $7,000 minimum salary. Now there is no formal minimum though most teams recognize $6,500.

2. Adjustments in the pension plan. The players want stronger representations on the plan's board of governors, a study of the plan and contributions to it by owners or a share of the income from television games.

3. Less control over players with service in the league. The association wants a player with enough years of service to be a free agent if he is waived out of the league.

Fights

By The Associated Press

Tokyo — Leo Espinosa, 118, Philippines, outpointed Koji Ishibashi, 116½, Japan, 12. (For Orient bantamweight title); Hiroshi, Okawa, 133¾, Japan, outpointed Onsap Laemfapha, 134¾, Thailand, 12. (For Orient lightweight title); Kenui Fukuchi, 143¾, Japan, outpointed Somdez Yontrakit, 146¼, Trailand, 12. (For Orient welterweight title).

GERRY COLEMAN IN FRONT OFFICE

NEW YORK (AP) — The New York Yankees revealed Thursday that Jerry Coleman, second baseman and utility infielder, retired as a player on Nov. 1 and now is employed in the club's front office as an assistant of Lee Macphail, director of player personnel.

Coleman, whose .364 batting in the 1957 world series led the Yankees, will scout and help at various farm training camps. Some of his time will be spent in public relations work.

Now 33, Coleman has been with the Yankees nine years.

COLE DROPS TV SHOW

HOLLYWOOD (AP) — Nat (King) Cole announced Wednesday that he is giving up his musical variety television show on NBC "due to personal appearances previously contracted for."

Gurantee For Arch

Alouettes Up for Game With Ticats

MONTREAL (CP) — Montreal Alouettes whipped through a brisk practice Thursday — a practice that will be their last this season unless they can defeat Hamilton Tiger-Cats by more than seven points in Hamilton Saturday.

When the secret workout ended coach Douglas (Peahead) Walker refused to be drawn into talking about any new strategy he has planned.

"Hamilton is hard enough to beat anyhow," said Walker, with the obvious implication that anybody thinking Walker would tip his hand must be crazy.

The Ticats won 17-10 in Montreal last Saturday in the first game of the total-point, two-game Big Four football final.

NEED MORE SCORING

The Als have been working hard all week with the full knowledge that to pull the series out and represent the East in the Grey Cup game they'll have to cut loose with more scoring potential.

One thing in the Als' favor is the players' morale. There has been a noticeable build - up in mental attitude approaching that the team showed in defeating Ottawa Rough Riders 24-15 in Ottawa Nov. 13. Three days later they were tossed against the Ticats and the letdown, despite the Als' determination, was obvious.

After that game Walker blamed the defeat more on the club's inability to "get up" for the game than on the absence of Joel Wells and Ted Elsby.

PONDERING RETIREMENT

DUNN, N.C. (AP) — New York Yankee pitcher Tommy Byrne has indicated he may not play baseball next year.

Byrne told the Dunn Kiwanis Club Wednesday, "I'm going to be hard to sign. I have been very seriously thinking about retiring."

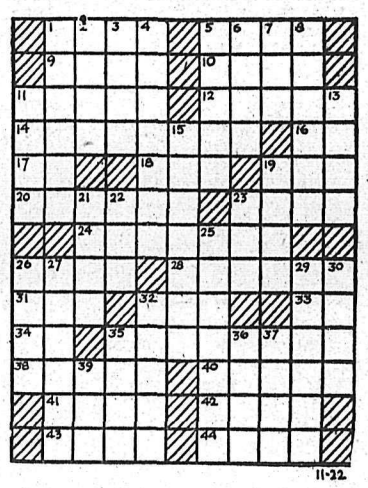
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

UV, DPG EAUHPGY KHKYDJVWBX; DPG UYK JVK HUBWAAU PE OP. LWKJD — OQWJV.

Yesterday's Cryptoquote: THE EARTH BELONGS TO THE LIVING, NOT TO THE DEAD — JEFFERSON.

Too Realistic

CARDIFF, Wales (Reuters)—Sailor Robert W. Mawson, 21, made an imitation £5 note to impress his friends by lighting a cigaret with it, a court was told Thursday.

The gag was so successful he made two other notes—with airmail paper and ordinary ink—to try the trick again. But someone stole one and tried to cash it.

Mawson was fined £1 plus costs on a charge of forging three £5 notes.

REFUSE REFUELLING

NEW DELHI (AP)—Iraq has refused to allow British - built Hawker Hunter jet fighters being ferried to Indian for the Indian Air Force to refuel at her military airfield at Habbaniya. This was disclosed by Indian Deputy Defence Minister Surjit Singh Majithia today. He gave no reason for the Iraqi decision.

PLAN REFINERY

PRAGUE (Reuters) — A consignment of heavy Czechoslovak trucks was dispatched today to the Syrian port of Latakia to help transport equipment for the oil refinery Czechoslovakia will build at Homs.

Prominence Given in British Press to Visiting Canadian

By KEN METHERAL
Canadian Press Staff Writer

LONDON (CP)—Britain began beating the drums in earnest Thursday to herald the arrival Friday of 50 Canadian industrialists—the largest government trade mission to visit the United Kingdom.

The News Chronicle has a front page banner headline, "The Maple Leaf Special," atop a story giving details of the luxurious spe7ial train the British government is providing for the Canadian delegates' 1,129-mile tour of British industrial centres.

Other papers give prominent play to the arrival Wednesday of James Duncan, 64-year-old chairman of the Ontario Hydro-Electric Power Commission and deputy leader of the trade mission, who told reporters on his arrival Wednesday the aim of the trade mission is to stimulate exports from Britain to Canada, without interfering with local production in Canada.

CANADA'S GREAT FUTURE

"Canada is still on the threshold of its period of greatest development," said Duncan. "It has a tremendous future. By the turn of the century we shall have a 40,000,000 population with a very high standard of living."

He said this would provide "a tremendous market - of - the-future" for Britain. But to capture a large share of the market from the United States, whose $4,000,000,000 worth of exports to Canada last year was more than eight times greater than those from the U.K., British manufacturers would have to give top priority to the Canadian market.

The Financial Times inserts a note of caution. It says there is a "fairly widespread belief that any British firms which can meet Canadian needs competitively, in deliveries and service, as well as price, have had opportunities completely open to them for years."

"If they have not taken advantage of them by now, some people doubt whether the visit from Canadian businessmen will make much difference."

CARD OF THANKS

We wish to extend our heartfelt thanks to Dr. Ruebsaat, nurses and staff of the Kootenay Lake General Hospital for their kindness and care to our dear husband and father. Also to our friends and neighbors for their acts of kindness, expressions of sympathy, For the beautiful floral offerings and cards during our recent bereavement.
Pauline Rezansoff and family.

FUNERAL NOTICE

GRIDLEY — Funeral services for the late Mr. Herbert Charles (Bert) Gridley will be held at the Thompson Funeral Home Monday at 2 p.m. Rev. H. R. Whitmore will officiate and interment will take place in Nelson Memorial Park.

WATERLOO, Ont. (CP)—Stolen kisses cost two Toronto students $5 each Wednesday. The students of Ryerson Institute of Technology were convicted of obtaining liquor while minors and fined $10 and costs each. Magistrate J.R.H. Kirkpatrick added another $5 for kissing two girls who objected.

Odds . . . and Ends

. . . by M. D. B.

Glancing through some of the many papers that come to the News my eye was caught by a head over a story: "Potato Growers Hear Bug Talk". Unfortunately nowhere in the story did it mention what kind of a bug did the talking. Probably some potato bug that figured it knew its onions.

* * *

Then in the ads that are always good for a laugh I found in the lost column "Lost — man's dark blue trousers . . ." I have heard of fellows losing their shirts. If the police were really onto their job they would raid the place. On the other hand the man might have been standing on a corner waiting for the bus; but you'd think he'd have missed them — the weather being none too balmy.

* * *

Then in the Found column was the following: "Found — upper denture . . ." It must have been a man's — a woman would get along as easily without her tongue as her upper plate. And in the personal column this prize bit made me chuckle: "Young man familiar with domestic work (fond of cooking etc.) likes to meet a lady of strong personality . . ." Translated this would appear to mean effeminate fellow wishes to meet girl who likes to wear the pants. He didn't mention "matrimony if suited" but you can just see him in the kitchen whipping up a souffle while his better half pulls stumps on their 40 acres.

* * *

Noticed an interesting paragraph in the Wildlife Review written by J. J. Ingalis in which he says: "Grass is the forgiveness of nature — her contant benediction. Fields trampled with battle, saturated with blood, torn with the ruts of cannon, grow green again with grass, and carnage is forgotten. Streets abandoned by traffic become as grassy as rural lanes and are obliterated. Forests decay, harvests perish, flowers vanish, but grass is immortal."

* * *

I liked that bit, for it reminded me of the joy I felt on seeing the green blades covering the bare dirt of my yard. Of course you remember when I grew my bit of lawn?

At Least 3 Killed . . .

Explosion Rips Open Freighter

NAPLES, Italy (Reuters)—At least three persons were killed and about 100 were injured when a violent explosion ripped through the 2,285 - ton Italian freighter Anna Maria Ievoli here Thursday.

The ship, with a large hole torn in her right side, sank an hour after the explosion. Only a part of the forepeak remained above water.

The blast, in the ship's boiler room, caused panic in Naples and shattered hundreds of windows in the port area.

A steel plate measuring about 33 by 16 feet was hurled by the force of the blast about 100 yards onto a city square, injuring people and tearing down streetcar wires.

LEAP OVERBOARD

Some of the ship's crew were on board at the time. A few were seen jumping overboard while others were rescued by firemen before the vessel went down.

Owner Gennaro Ievoli said the freighter returned to Naples 2½ months ago for repairs which were completed early Thursday.

The ship was to have left for Sicily Friday.

Divers searched the bowels of the sunken vessel for members of the crew, which normally consisted of 26 men.

People in the street dashed wildly away from the port area and inhabitants and office workers in waterfront buildings rushed outside when the explosion rocked the city.

The first of the ship's crew who managed to get away said the explosion occurred while the steamship was taking on fuel.

The ship went down in 40 feet of water 1,000 feet from the main square. Only part of her bow projected above the surface.

Canadair Makes New Jet Trainer

MONTREAL :CP) — Canadair Limited announced Thursday it has developed a new jet basic training aircraft intended to replace light piston-engine planes such as Harvards and Chipmunks in teaching pilots their fundamentals.

Two prototypes are in production, scheduled for completion in the fall of 1958, company officials said in a statement.

Pilot and instructor will sit side-by-side in the little turbo-jet, designed with RCAF co-operation to meet air force requirements. It will be known as the CL-41 or Canadair Trainer.

The interior of another version can be redesigned to make it a four - seater, multi - purpose airpose aircraft, officials said. Preliminary design is under way on inclusion of an armament pack for use in training and to give the aircraft a practical ground support role.

U.S. INTEREST

A full-scale mockup—a model not intended to fly—in the military version has been built as a check on design arrangement and has been studied by the RCAF and the United States navy and air force.

The CL-41 is to be powered by a single turbo-jet engine of the latest light-weight design, the officials said.

It will have a thrust of about 2,000 pounds for a maximum speed of 470 miles an hour, a stalling speed of only 74 miles an hour and a take-off ground run of 1,000 feet.

Wingspan will be 36 feet, four inches; overall length, 21 feet, 11 inches, and overall height, slightly more than nine feet.

The aircraft will have a design gross weight of 6,250 pounds, including a ton of fuel permitting a range of almost 1,000 miles at an average speed of 350 miles an hour.

Industrial Index Steady

OTTAWA (CP) — Canada's industrial employment index for Sept. 1 stood at 127.6, unchanged from August but 1.5 per cent above last year's Sept. 1 figure of 125.7, the bureau of statistics reported Thursday. The index is based on the 1949 figure equalling 100.

The payrolls index rose .1 per cent to 204.2 a month earlier and 6.9 per cent from 191 a year ago. Per capita average weekly earnings increased to $68.50 from $68.41 a month earlier and $65.01 a year earlier.

Higher pay rates in some industries contributed to the minor increase. Other factors were a slight lengthening of the workweek and less employment in motor vehicle and parts and accessories industries.

Integration Plan Denied by London

LONDON (Reuters)—The foreign office Thursday denied the existence of a British - American plan for the integration of military forces in the Atlantic pact.

Reports of the plan, said to include monopoly rights for the United States and Britain on the manufacture of nuclear weapons, have been published by French newspapers.

But a foreign office spokesman said that "no Anglo - American plan exist and any details of any proposals are, therefore, pure speculation."

He added that Britain and the United States favor greater pooling of resources within the alliance "but this is obviously a matter for collective discussions and decisions within NATO."

Says Rhodesia Investment Good

SALISBURY, Rhodesia (Reuters)—The economic climate of the Rhodesian Federation is "just about ideal" for businessmen and investors, Rhys M. Sale, president of the Ford Motor Company of Canada, said Thursday.

"I have heard that Swiss bankers believe there are three major countries for investment in the world today—Venezuela, Canada and the Rhodesian Federation," he added.

Sale could not say whether the Ford company would set up a motor assembly plant in the Rhodesian Federation.

Sale and C. E. Dalton, vice-president of the overseas division of the Canadian Ford company, are in the federation to survey conditions. They have already visited South Africa and they fly to Rome Friday before returning to Canada by way of the Far East.

"Little Europe" To Name Capital

BRUSSELS (Reuters)—The six foreign ministers of "little Europe" are expected to meet in Paris Dec. 17 or 18 to select a "capital of Europe," an official source said here Thursday.

The "capital" will be the headquarters for the proposed European common market and the European atomic energy community (Euratom) linking West Germany, France, Italy, The Netherlands, Belgium and Luxembourg.

Brussels, Strasbourg, Luxembourg and Milan are competing for the title of "European capital" with Paris an unofficial candiate.

Newsprint Down In Production

MONTREAL (CP) — Canadian newsprint production in October totalled 548,678 tons, a decrease of 33,407 tons from October, 1956, the Newsprint Association of Canada reported Thursday.

Canadian shipments were 544,437 tons, a decrease of 34,001 tons from October, 1956.

Production for the first 10 months was 5,456,334 tons compared to 5,395,062 for the corresponding period last year. Total shipments for the 10 months were 5,372,271 against 5,352,954.
