Canada Supports U.S. in New Resolution

Early Approval Ike's Plan Seen

Vote Today on Proposed Mid-East Program; $200 Million Aid Included

WASHINGTON (AP) — President Eisenhower's Middle East resolution won a major test in the House of Representatives Monday when the chamber voted 262 to 146 to bar any amendments to it.

With this "closed rule" established, chances appeared bright for quick approval of the president's request for standby authority to use United States armed forces in the Middle East if necessary to thwart Communist aggression.

"I think the resolution will pass by a large majority," House speaker Sam Rayburn (Dem. Tex.) said. Then it will be the Senate's turn to act.

Just before the House began debating the resolution two powerful Senate committees voted to review the entire post-war policy of the U.S. in the Middle East. However, leaders do not plan to hold up the Eisenhower resolution pending this review.

Rayburn said the house will be ready to vote on the new Eisenhower program today. In addition to its military clause, the resolution would authorize the president to launch a $200,000,000 economic aid program this year in the strategic area.

CHARGE GAG RULE

Several Republican and Democratic House members denounced the ban on amendments as "gag rule," but House leaders contended the resolution was too vital to the national interest to open it up to a free-for-all amending process on the House floor.

Representative Joe Martin (Rep. Mass.) said rejection of the program "might well precipitate the war we all seek to avoid."

The president was seeking congressional support of his new plan "because of his firm belief that it will be deterrent to a war."

The review of U.S. policy toward the Arab nations and Israel was ordered by the Senate foriegn relations and armed services committees. The review is to cover the last 11 years.

King's Trip Cost $50,000

NEW YORK (AP)—It cost King Saud more than $50,000 to come to the United States. Perhaps never before has a man crossed the Atlantic by commercial liner in more lavish style.

The king of oil-rich Saudi Arabia was guarded by U.S. marines and his own bodyguards, armed with machine-guns. His menu was specially prepared. A special compass was set up for him so Saud could face toward Mecca in prayer five times a day.

Capt. James Labelle of the American liner Constitution described Saud as a friendly passenger who tried to limit his demands on others.

"He expressed the desire to adjust himself to the American way of life while on the ship," Labelle said.

The king and his personal entourage numbered 70 persons, with 300 pieces of luggage—40 of them the king's own. Their transportation cost him about $35,000.

In addition, the party included six marines who formed an honor guard for the potentate, and five state department officials. Presumably, their tabs were picked up by the United States government.

Saud distributed about $20,000 in tips to ship's personnel who served the party. The tips ran from $100 to $400.

DR. GEORGE HESS, internationally known German-born physicist now attached to the U.S. army research and development laboratories, at Fort Belvoir, Va., makes final inspection of the vacuum tank in which the first earth satellite will receive a special test coating. The coating will protect the satellite's delicate instruments from extreme temperature and provide a reflective surface which will enable the satellite to be observed by the eye.—Central Press Canadian.

Debate Adjourned as Delegates Strive to Break Mid-East Deadlock

By LLOYD McDONALD
Canadian Press Staff Writer

UNITED NATIONS, N.Y. (CP)—A stormy Middle East debate in the United Nations has been adjourned—at least until Thursday—to the relief of western delegations who have been working to break a deadlock on the increasingly bitter dispute.

Speakers in the debate Tuesday reached the point of talking about a new war in the Middle East which might involve the world. Then Canada's L. B. Pearson, regarded as a leader in efforts to achieve a settlement satisfactory to both Egypt and Israel, threw his support behind the latest proposals to that end advanced by the United States.

That led to the adjournment called by Prince Wan of Thailand, the assembly president. By not setting a time for renewal of the debate, he gave in effect a breathing space for the working out of a formula whereby a complete Israeli withdrawal could be linked with a settlement along the armistice line.

TIME TO CONFER

Key delegates have at least until Thursday afternoon to confer outside the heat of assembly debate. While there is no indication yet what will be the terms of any resolution resulting, here in brief is the plan backed by Canada and the U. S.:

1. Israel must complete its withdrawal first.

2. Both sides must scrupulously adhere to their 1949 armistice agreement and refrain from all acts of hostility.

3. An arrangement then might be made for the deployment of the UN Emergency Force on both sides of the armistice line, in the Gaza Strip and in the Gulf of Aqaba area.

The last two areas have been held by Israel during their withdrawal from other areas invaded last October.

Canada and the U. S. say Israel and Egypt must give assurances of no belligerency in Gaza or interference with freedom of navigation in the gulf.

Secretary - General Dag Hammarskjold has given these three conditions his endorsement as the basis for any new settlement.

NO BELLIGERENCY

The debate reached its hottest Tuesday before Pearson spoke when Iraq's Fadhel Jamali said continued Israeli defiance would lead to war—a war "that would probably involve the whole world."

After the Arab leader spoke, Russia entered the debate for the first time during the current deadlock to back, as was expected, Arab demands for complete withdrawal.

But while Vassily Kuznetsov renewed Soviet criticism of the U. S. for what he called "a new plan of intervention into the internal affairs of Egypt," his speech was milder than that of the Iraqi delegate.

RESULTS OF TALKS

Canada then, through Pearson, put on the record some of the results of the external affairs minister's work in private during the last few days.

Pearson said he reserved the right to speak again later when the assembly may have before it "a resolution dealing with the substance."

He said his delegation "entirely agrees" with the U.S. proposal for stationing UN trops in Aqaba until, as the American delegate Henry Cabot Lodge said Monday "it is clear that the non-exercise of any claimed belligerent right has established in practice the peaceful conditions which must govern navigation in waters having such an international interest."

Pearson also advanced a new proposal regarding the Gaza Strip. Without amplification, he suggested that the UN be associated with steps to replace Israel's proposed civil administration there.

Israel has been making plans to set up a civil Gaza government, leaving the UN force to protect it against any Egyptian opposition. Egypt has opposed even a civil Israeli administration.

Electronic Techniques Boon to All

VANCOUVER (CP)—New electronic techniques and inventions offer something for everyone — from the housewife to the industrialist— an American physicist said here Tuesday.

Dr. Dale Trout of Milwaukee, head of General Electric's X-Ray research laboratories, told Vancouver Rotarians that electronic bombardment can preserve food, sterilize surgical dressings, add new zest to beer, speed up chemical processes and perform a growing range of other tasks.

Dr. Trout said his staff is also working on preventing potatoes from sprouting; bread from going mouldy; vegetables from softening and deteriorating; and stiffening wire and tape for a wide range of industrial and domestic uses, making it more heat-resistant and durable.

Student Pilot Scares City

DES MOINES, Ia. (AP)—A student pilot who had never flown alone stole a plane at gunpoint and buzzed this city for four suspenseful hours Tuesday before crash-landing on a rural road.

Police identified him as Roy Soderquist, 23, whose mother said the air force rejected him last fall.

The plane nosed over on landing. Two patrolmen who found him still in the cockpit said "all he did was smile."

When they put him into a police car, Soderquist went into convulsions from shock. He had no visible injuries.

The patrolman said they found two guns in the plane. They said Soderquist told them there still was some gas in the craft's tank.

Police said they were swamped with calls from persons who had become "hysterical" as the plane zoomed and circled the city at low altitudes. Some even pleaded with them to "shoot it down."

Commission for Fruit Industry Opens Today

KELOWNA, B.C. (CP)—A provincial royal commission to investigate the multi - million - dollar fruit industry in the fertile Okanagan Valley of British Columbia opens here today.

Presiding over the sessions, which may last more than two months, is the sole commissioner, Professor E. D. MacPhee of the commerce faculty at the University of B.C. Vancouver. Lawyer W. Kirke Smith is legal counsel and secretary is A. C. Carter of Penticton, assistant district horticulturist.

Today's session is expected to be devoted to the terms of reference of the commission and the scope of its inquiry. The hearings begin Feb. 2 in Salmon Arm.

Poujade's Day Seen on Wane

By ALAN HARVEY
Canadian Press Staff Writer

LONDON (CP) — Pierre Poujade, the brash bookseller from south-central France who injected a new "ism" into French politics — Poujadism — appears to be on the way out.

A year ago, "le petit Pierre" created a political sensation by heading a group that won 52 seats in the French national elections. Today, crushingly defeated in a Paris by-election, he is being counted out.

Both the right-wing Evening Standard and the Manchester Guardian, independent Liberal, toll the bell for Poujade. Commenting on the by-election result, the Guardian says:

"This marks a swing to the Conservatives the right wing in French politics and, for M. Poujade, a swing back toward the stationery counter."

BRITANNIA COMING

BRISTOL, England (Reuters)—Britain's latest long-range airliner the Bristol Britannia 312, left Bristol Tuesday on her maiden transAtlantic proving flight via the Arctic. After an all-night stop at Prestwick, Scotland she will fly over the polar regions to Canada for cold weather trials.

Parliament Tuesday

By The Canadian Press

The Commons approved without a vote the doubling of federal grants to universities to $16,000,000.

Prime Minister St. Laurent defended the grants as being in the national interest; there was no possibility of infringing provincial jurisdiction.

Leon Balcer (PC—Trois-Rivieries), breaking with his party, opposed the grants; they were "another step towards federal centralization."

A CCF bill that voluntary revocable checkoff of union dues be written into federal labor legislation was defeated 105 to 66, nine Liberals voting for it.

Justice Minister Garson declined to disclose what the RCMP found in its checks into Canadian activities of suspected spies arrested in the U.S.

The government moved in the Senate to set up a special committee to study farm land reclamation.

Hanna Counsel Checking Past

VANCOUVER (CP)—Christian George Hanna's legal counsel are double-checking to prove that he is free of a criminal past and fit to enter Canada.

The stateless little vagabond's plea for entry into Canada will be reviewed Friday before Mr. Justice Harry Sullivan of the B.C. Supreme Court.

Lawyers John Taylor and Donald White, acting for Hanna, said Tuesday they have written the RCMP and Scotland Yard about the refugee. They have asked a search of records to see whether he is listed on any international police lists as a former or wanted criminal.

"We don't suspect a thing, we think he's clean," said Mr. Taylor. "He seems to be just a humble little guy caught in the toils of immigration and entry laws of many countries."

Lack of evidence against Hanna would help clear his name in a new appeal for entry to Canada, they said.

Federal Health Plan Soon Martin Hopes

By HAROLD MORRISON
Canadian Press Staff Writer

OTTAWA (CP) — Health Minister Martin said Tuesday a national hospital insurance scheme may be implemented soon since it appears the approval of the necessary six provinces may be forthcoming.

He said the Ontario proposal expressed a number of differences with the federal offer but that these differences have been narrowed considerably. The remaining gaps could be settled by further negotiation.

"I should like to think that there now is reason to hope the federal hospital insurance proposal may soon command the necessary majority support to secure this important benefit for the Canadian people," Mr. Martin said in a statement.

The 1956 federal offer, to share with the provinces roughly on a 50-50 basis the cost of launching a standard hospital care and diagnostic service plan, was based on the entry of a majority of provinces representing a majority of Canadians.

The agreement of either Ontario or Quebec was needed along with five other provinces. So far only three have signalled approval—British Columbia, Alberta and Saskatchewan. The federal view is that once Ontario signs, most other provinces will join.

Troops Patrol Algiers Streets

By DAVID MASON

ALGIERS (AP)—Tough French troops kept the lid on this tense city Tuesday as a rebel - called general strike of Moslem workers entered its second day.

A number of Moslem shopkeepers cautiously lifted their iron shutters in face of a warning by Gen. Jacques Massu that his paratropers will rip open any store which stays closed. Many stores were opened by force Monday.

Heavily - armed troops—some fresh from the Suez expedition — patrolled the streets as helicopters hovered overhead. Although business life slowed down, French authorities claimed that the strike is a failure.

Meanwhile, the eight-day strike called by Moslem leaders to focus world attention on Algeria on the eve of a United Nations debate on the rebellion also spread to metropolitan France.

Thousands of North African workers failed to report for work throughout France. The number of those who stayed away reached 80 per cent in some factories.

NEW YORK (CP)—The Canadian dollar was 1-32 higher at a premium of 4 9-32 per cent in terms of U.S. funds. The pound sterling was 3-32 lower at $2.79 27-32.

Commission To Study Manitoba School System

WINNIPEG (CP) — A royal commission will study all aspects of education in Manitoba below the university level, the government announced Tuesday in the speech from the throne read at the legislature opening by Lieutenant-Governor J. S. McDiarmid.

The government said that in deciding on the commission it is "recognizing the importance of, the interest in, and the continuing high cost of education . . ."

Several organizations have asked for such a commission.

Although the study will not extend to university facilities, the government also announced several moves that will be made in that field, including increased appropriations for the University of Manitoba and establishment of a school of dentistry.

The legislature will be asked "to consider a new approach to teacher training by which suitable candidates will receive encouragement and financial assistance," the speech said.

TV Within Month For Kamloops

KAMLOOPS (CP) — Television programs, some of them produced locally, will be available here in less than a month, Ian G. Clark, president of Twin Cities Television Ltd., said Tuesday.

Mr. Clark said broadcasting equipment for the station, CFRC-TV, is soon to be shipped from testing laboratories in San Diego, Calif.

Construction of a 60-foot tower to house a 32-foot transmitting antenna, is scheduled to start in the near future, he said. The tower will be erected on the Television-Radio Building in the city centre.

The firm's application for permission to broadcast here was approved in Vancouver early in January by the board of governors of the CBC.

BENNETT SEES NO HEALTH PLAN IN '57

VICTORIA (CP)—Premier Bennett says he doesn't think there will be a national health plan this year.

He made the statement Tuesday when asked at a press conference if there might be a cut in the British Columbia sales tax should the British Columbia hospital insurance scheme merge with a national health plan.

The sales tax in B.C. is five per cent. It was raised from three per cent when hospital insurance premiums were ended.

Not Czar's Daughter

BERLIN (AP) —A West Berlin court disclosed Tuesday it has ruled a woman living in West Germany is not Anastasia, the daughter of the last czar of Russia.

Fire Out of Hand 15 Hours

REGINA (CP) — A tar-fed fire, which for 15 hours swept out of control through the upper floor on a new addition to a large Regina packing plant, was under control late Tuesday.

Firemen, however, did not expect to quell the blaze in the refrigerating room of the Intercontinental Packers Ltd. plant before this morning.

After drilling through the heavily-insulated tar, gravel and cement roof and ceiling firefighters were able to reach the heart of the fire for the first time since it broke out before midnight Monday.

In the early stages they were hampered by freezing temperatures, frozen pumps and dense smoke. Water was pumped through holes chopped through the walls of the $75,000, two-storey addition to the plant's main building.

Cause of the fire is not known but electricians were believed to have been working in the refrigerating room Monday.

Mayor Cool to Visiting Royalty

NEW YORK (AP) — King Saud of Saudi Arabia arrived on a state visit to the United States Tuesday with full fanfares from the U.S. government and the United Nations but with an official snub from New York City.

A rumbling 21-gun naval salute in New York Harbor emphasized the importance Washington puts on the Middle East monarch's call. The United Nations opened its General Assembly for a personal address by the king.

But Mayor Robert F. Wagner refused to stage the usual gala New York City ceremony for visiting luminaries. He dismissed the monarch as anti - Jewish, anti-Catholic and proslavery.

The welcome was not unanimous in the United Nations.

Israel and France boycotted the king's address. The French stayed away because of Saudi Arabia's action breaking off diplomatic relations with the Mollet government over the Middle East situation.

All 70 Saved as Airliner Crashes

PARIS (AP) — A French airliner from Tunis crash-landed in dense fog at Orly Field Tuesday night but all 70 aboard were seved by heroic rescue efforts.

About 50 persons were injured. Some of those taken to hospitals were in serious condition.

One engine burst into flames on impact, spreading blazing gasoline around the wrackage.

The big plane flopped over on its back under the shock and it broke into four pieces.

Fire engines and ambulances sped to the scene, about two miles away from the main terminal.

Air crash specialists from the adjoining American air force base dashed to aid the French in fighting the fire and in pulling screaming, semi - conscious survivors from the wreckage.

Freight Rate Aid For Maritimes Under Study

By JOHN LeBLANC
Canadian Press Staff Writer

OTTAWA (CP) — Federal experts have come up with plans for drastic revision of the basis of freight rate assistance to the Maritimes, though they have not yet reached the cabinet.

Proposals of government economic advisers, it was learned Tuesday, involve a shift in the emphasis of treasury payments under the 1927 Maritime Freight Rates Act to provide more help for rail freight moving out of the Maritimes than for traffic within these provinces.

However, informants say no legislative action is likely until the government gets indications from the seaboard provinces that the suggested changes are considered suitable to improvement in the Maritimes economy.

More Handicapped Placed in Jobs

OTTAWA (CP)—The National Employment Service last year found jobs for a record number of physically handicapped persons, the Unemployment Insurance Commission said Tuesday.

Last year 24,694 persons—18,096 men and 6598 women—found suitable employment, compared with 19,753 persons the year previous.

University Grants Necessary For Nation's Development—PM

OTTAWA (CP)—Prime Minister St. Laurent defended federal grants to universities as being in the national interest.

He said in the Commons Tuesday there is "no intention and no possibility" of the grants infringing on "the exclusive legislative jurisdiction" of the provinces.

"This is something that is in the interests of the nation as a whole, that is almost indispensable to the proper development of the nation as a whole."

Mr. St. Laurent spoke as the Commons opened discussion of a requested appropriation which would double federal university grants to $16,000,000 a year.

The proposal was supported by spokesmen for all three opposition parties.

It was approved without a vote after three hours' debate.

MAY BE OPPOSITION

However, Leon Balcer (PC—Trois-Rivieres) indicated he is opposed to the move. The debate was adjourned until the evening sitting before he could elaborate.

The grants were begun in 1951. Except for their first year, Quebec universities have not accepted them, in line with the Quebec government's stand that federal aid is an infringement on provincial rights. Laval University at Quebec City and Sherbrooke University already have said they will not collect the expended grants.

The enlarged grants will be distributed by the National Conference of Canadian Universities, instead of by the federal treasury.

Amounts to be distributed in each province will be based on $1 per person of the province's population. That amount will be divided among universities in the province according to the number of undergraduate students.

If a university declines payment, its money will be held by the universities conference until collected or until Parliament disposes of the money otherwise.

Mr. St. Laurent said this is being done "so that there may be no suggestion that the whole Canadian people are being taxed for the benefit of only a portion or only certain regions of the country."

The Prime Minister said provinces have an exclusive right to legislate in the field of education.

FISH FLOUR SAID CHEAP, NUTRITIOUS

WASHINGTON (AP)—Guests at a Capitol luncheon Tuesday ate "dessicated, defatted and deodorized fish flour" but they said they wouldn't have known it if they hadn't been told.

Senate chefs, at the bidding of Senator Paul Douglas (Dem.-Ill.), slipped the flour into mushroom soup, rolls and chicken a la king.

Ezra Levin, president of the Viobin Corporation, Monticello, Ill., which developed the flour, claims it could solve the malnutrition problem throughout the world.

"It costs only 15 cents to make a pound of 100 per cent high-protein fish flour," Levin said. "The same amount of protein in the form of eggs would cost $3, in beef, $2.50 an din milk more than $1.

"Those are United States costs. The flour would cost even less if made in countries where prices are lower."

'Campaign' May Keep Tito Home

BELGRADE (CP)—The official Yugoslav newspaper Borba says President Tito cannot visit the United States because of the "anti-Yugoslav campaign" now going on there.

The Borba statement was quoted tonight by Tanjug, the official Yugoslav news agency.

Branko Draskovic, Yugoslav foreign ministry press chief, said recently there was "an invitation in principle" for Tito to visit the U.S.

The newspaper says a Washington visit "was losing all practical sense for the Yugoslavs" in view of the anti-Tito campaign.

Usually well informed sources here said Borba's stand did not necessarily mean Tito would ultimately turn down an invitation from President Eisenhower when and if it should arrive.

ENGLISH WIT ARRIVES

TORONTO (CP)—Sir Alan Patrick Herbert, English author, parliamentarian, social reformer and satirist, arrived here Tuesday to begin a series of speaking engagements. He will speak on "matrimonial surgery."

And in This Corner . . .

ANNAPOLIS, Md. (AP) — Bob Reifsnyder, 226-pound tackle twice voted most valuable Navy player in football games last year, tried out this season for the squash team.

He didn't make it.

"He isn't rough enough," says coach Art Potter.

The game is played with a racquet and a little ball bounced against a wall.

LOWESTOFT, Eng. (Reuters)—Garage proprietor John Day and his wife were watching television in their apartment when the set began to pick up radio messages sent out by the local fire brigade.

Day was about to switch it off when he heard a fire engine on its way to a fire report: "I am attending a fire at Day's garage."

The couple hurried outside—to find their garage on fire.

GLENDORA, Calif. (AP)—You could have knocked over the Vincent Carta family with a cat's whisker Tuesday. There wasn't a cat in their house wall after all.

For 24 days the Cartas had been hearing meows coming from the wall.

They knocked holes in the walls. They called "Kitty, Kitty." They put out saucers of milk. No cat.

And they had suggestions from everyone who professed to know how to get cats out of walls. It got so bad they disconnected the phone.

With the Cartas at the end of their rope and the cat presumed near the end of its nine lives, Roger Adams, a sound engineer, and Ole Hammer, a water system expert, tried their hand Tuesday.

Using sound devices, they tracked what sounded like a faint meow in the bathroom wall to a water meter. They turned off the water meter—no meow. They turned on the water meter—Meow.

The Cartas sighed in relief.

Now all they have to do is have the defective meter repaired and patch up the holes in the walls.

WINNIPEG (CP)—City council decided Monday night to buy land next to the Minto armouries to prevent the federal government building a large parade floor and maintenance building.

Tuesday the city learned the government already owns the land.

FINED $10

W. Saurers of Nelson paid $10 and costs Tuesday when he pleaded guilty to failure to stop at a "stop" sign near Fernie. Case was heard by Stipendiary Magistrate William Evans in provincial court.

Jubilee Year Noted At Chamber Annual

Visitors from outside points to the Nelson Chamber of Commerce annual meeting Tuesday night in the Silver Room, Hume Hotel, were reminded that 1957 is Nelson's 60th birthday.

Welcoming guests to the City, Mayor Joseph Kary said he and other citizens are "looking forward to meeting you several times." He through Nelson has "just begun to grow up," and said there will be many interesting and historical events in connection with diamond jubilee celebrations. Among these will be the Mid-Summer Bonspiel, opening of the West Arm bridge, and turning on of natural gas.

Talent Show On Tonight

Thirty talented Nelson residents will trod the boards Wednesday at the Civic Centre, when the Recreation Commission presents another Talent Show. All will get a prize, and the 10 top contestants will receive Gift Certificates ranging from $10 to $1.

Master of ceremonies will be civic recreation director Joe Johnson. Judges will be Fire Chief E. S. Owens, Mrs. Fiona Brown, Edward Lyons, and Miss Helen Chursinoff.

The Weather

The weak disturbance which moved south of the province during the early part of Tuesday brought very light precipitation to most areas of the province. Skies in southwestern districts of the province have cleared briefly in the wake of this disturbance but will cloud over again early Wednesday morning ahead of the storm approaching from the northern Gulf of Alaska.

Rain is already falling along the north coast as the warm air of this disturbance spreads rapidly eastward and by Wednesday forenoon or early afternoon precipitation from the storm should have reached the south coast and southern interior.

Says Welfare Society Fund Drive Continuous

TRAIL — A busy, successful and active year for the Trail District Welfare Society was reported by President Douglas Wetmore at the annual meeting held in city council chamber Tuesday night. Representatives from 25 organizations attended. All committees had to be active to meet an increase in demands of member agencies. A high degree of support had been experienced in the community during the year and the continued generosity of Cominco had been a mainstay in the society, it was stated.

Mr. Wetmore pointed out that the drive for funds did not end with the Fall canvass but was a continuous campaign as the demands were continuous. "Twelve hundred persons are employed here who are not members of the society. A close examination of conscience would be in order for such," he said.

Generally the welfare dollar is spent: prevention and cure of disease, 10 per cent; care of the sick and aged, 25; relief, 17; child education and recreation, 35; adult education and recreation, 12; miscellaneous 1.

New directors elected to serve three year terms: Mrs. A. Brokenshire, P. A. Lauriente, Rev. J. Scott, Rev. Father D. A. Sinclair.

BUILDING B. C. TO BE CHAMBER MEETING THEME

B.C. Chamber of Commerce, with 109 member Boards of Trade and Chambers of Commerce, ranks as the youngest provincial group making up the Canadian Chamber of Commerce, C. K. Bantock, manager, told the 64th annual meeting of the Nelson Chamber of Commerce Tuesday night in the Silver Room, Hume Hotel.

Theme of the provincial body's annual meeting, scheduled for May 3 and 4 in Vancouver, is "Building British Columbia, Our Common Interest." Mr. Bantock said member units should be considering resolutions for the annual meeting now.

Annual meeting of the Canadian Chamber of Commerce will be held Sept. 29 to Oct. 3 in Victoria. This will be the first annual meeting held in B.C. since 1948, when the gathering took place in Vancouver, and Mr. Bantock said it is "up to each area to turn out as much as possible."

However, Mr. Bantock placed annual meetings of individual Chambers on top of both these events, since they afford "re-dedication to a program of community development." President M. B. Ryalls of the Nelson group "does not stand alone." Outside encouragement and support are available anytime.

Introduced by H. D. Harrison, Mr. Bantock came to Canada from England 25 years ago. After serving in the Royal Canadian Air Force during the last war, he joined the Canadian Chamber of Commerce staff, and was appointed manager of the B.C. Chamber after its formation five years ago.

Decision Today On Carey Appeal

OTTAWA (CP) — Argument is expected to end in the Supreme Court of Canada today on an appeal by the attorney - general of British Columbia against granting a new trial to James Carey, 26, of Vancouver.

Carey, convicted by the B.C. Supreme Court last April 27 of murder in the shooting death of Vancouver Constable Gordon Sinclair, was granted a new trial by the Court of Appeals for B.C. Oct. 16.

Individual 'Most Important', Pybus Tells Chamber Meeting

Individuals are the "most impartant" units in a Chamber of Commerce, according to Ralph C. Pybus, national vice-president of the Canadian Chamber of Commerce.

Mr. Pybus, general manager of Commonwealth Construction Co. of Vancouver, was guest speaker at the annual meeting of the Nelson Chamber of Comerce, held Tuesday night in the Silver Room, Hume Hotel. With him was C. K. Bantock, also of Vanvouver, manager of the B. C. Chamber of Commerce.

Mr. Pybus called Nelson a "lovely spot," and brought greetings from the executives of the Canadian Chamber of Commerce. He read a telegram from Raymond Dupuis and Don Morrell, Montreal, president and general manager respectively of the Canadian Chamber, who were unable to attend the meeting as previously scheduled. The speaker thought it good to have a bilingual person like Mr. Dupuis at the helm of the national body, and said Mr. Morrell and his Montreal staff "do an excellent job."

New members accepted by the meeting show "evidence of growth," Mr. Pybus stated. Referring to the practice of some important people who maintain ghost writers, Mr. Pybus told members, "we all have ghost-writers." He stressed necessity to be well-informed on current topics,saying it is "hard to tell sometimes just where our influence goes out to."

The construction man paid tribute to "worthy foundations that we have to build upon." These foundations, he said, were laid by pioneers in Canada.

The Canadian Chamber of Commerce, "you and me" and 125,000 other people, was formed to give a "louder voice" at Ottawa. Some 750 Boards of Trade and Commerce make up this "grass roots, democratic movement."

Formation of policies, he said, results from "snowballing" thoughts. "All things come to us through one man." the individual Chamber member.

Mr. Pybus said Canada has been "wonderfully blessed by Almightly God." He hailed freedom of enterprise as "the core of our policy," and said the Canadian democracy is "built on a Christian basis." Our riches are those of the Kings of old."

Speaking more particularly of modern life, Mr. Pybus voiced a feeling there is danger both from within and without, and that people "become weak through easy living." We must keep our economy rolling," he said, while government and business "must create a confidence" to encourage foreign capital.

National Chamber officials received a good hearing when they met with Prime Minister St. Laurent and his cabinet this year to discuss highlights of the Chamber's policies

"Frightening" adverse Canadian trade balance attracted considerable attention from Chamber officials, who "welcome foreign investments." However, the same men "view with some concern" labor direction from other countries.

Mr. Pybus also mentioned Canada's need for immigration. "Selective? Yes, within reason."

Almost one-third of Canada's national income goes into taxes, Mr. Pybus estimated. "It's too much." An "overall" Canadian health plan would become a heavy burden, but the Chamber believes government help should be provided for those who can't help themselves.

Noting the increase in motor vehicle population and Canada's dependence on tourists, Mr. Pybus thought "the need is great for new highways," and recommended more government aid to provinces. The tourist industry is "vital" to us, and the Nelson area "could well be a tourist mecca," he said.

Among other problems with which the Chamber is "deeply concerned" are those involving labor and management. "Sometimes too much power can corrupt," Mr. Pybus remarked. "There are times when the right to strike must be held in abeyance," he said, mentioning the recent strike which tied up Canadian Pacific Railway train operations.

Canadians, Mr. Pybus thought, are now "going all out." "Like a couple who have just become engaged, they will have to look at their budget sometime, have to come down to earth and spring off a good, solid foundation."

Mr. Pybus received a Bachelor of Science degree in Civil Engineering and a Bachelor of Agriculture in Winnipeg, his home town. In 1924, he became a field engineer with Carter, Hall and Allinger, becoming an engineer in 1928. In 1944 the name was changed to Commonwealth Construction Company, with Mr. Pybus as director and western manager. Appointment as president and general manager for all Canada was made last November.

In addition to his Chamber activities, Mr. Pybus is a past president of the Vancouver Board of Trade, vice-president of the Vancouver Rotary Club, president of the metropolitan council, United Church of Canada in Vancouver, and will serve as chairman of the B. C. regional committee of the Canadian Chamber of Commerce this year.

CITY ORDERS STORAGE BUILDINGS

Two Butler buildings have been ordered for the City's new storage facilities on the Nelson foreshore, near the Powell Lumber Co. E. E. Olson, works superintendent, said they should arrive here in about two weeks.

The buildings, a public works equipment storage building and a smaller public works utility building, worth about $30,000, were ordered last week from Permasteel Engineering Co., Vancouver, who promised three weeks' delivery. Life of the structures is placed at 25 years.

Quotations have also been asked for a heater for the City's asphalt tanks, which Mr. Olson is going to move to the new site from their present quarters near the old City gas plant. A request has been made to the Canadian Pacific Railway to build a spur line onto the property, but no official okay has been received.

Foundations for the buildings have already been built by City crews.

Ramsay, Cottrell To Drive Buses

Ald. W. S. Ramsay and City garage mechanic Charles Cottrell will pilot two new City buses from Windsor, Ont. Ald. Ramsay will leave by air Thursday, and Mr. Cottrell will leave a week later. They will meet in Windsor, where Mr. Cottrell will inspect the buses thoroughly.

Fairview United Holds First Annual Meeting

About 115 persons attended the Fairview United Church's first annual congregational meeting on Monday night in the former St. Paul's building, with Rev. H. R. Whitmore in charge.

The meeting was preceeded by a family supper served by members of the various women's groups. D. J. Thompson extended thanks to the women on behalf of all those who had enjoyed the meal.

Mimeographed sheets giving the 1956 financial report were passed out. These showed that total receipts had amounted to $6043.68, with expenses to the amount of $5813.08, leaving a bank balance of $230.60.

First report was given by Mrs. Gordon Stewart concerning the Sunday school. She stated that the Sunday schools of the two United churches hadn't amalgamated at the time the churches did so, and therefore this group has been comprised of Fairview pupils for just three months. There are 152 pupils enrolled, with 22 teachers and officers.

In a report on the junior choirs, Mrs. R. B. Oliver told the gathering that there are 28 members in the girls' choir and 19 in the boys' choir.

CGIT PLANS

Miss Hazel Young, leader of the CGIT, told of a number of coming activities planned by the girls. Mrs. Arthur Foster, recording secretary of the Women's Federation, gave a report on that group, and O. L. Anderson reported for the board of stewards. A report from the Session was given by Mrs. H. W. R. Ramsden, and K. D. McRae told of the work done by the fund-raising committee. A new organization, the senior choir will make a report at next year's meeting.

Mrs. T. N. McGillivray was elected recording secretary. D. J. Thompson, George Lester, R. H. Thornton and Gordon Stewart were chosen members of the session. Added to the board of stewards were O. L. Anderson, Ross Fleming, Mrs. J. H. Coventry, Mrs. G. A. Clark, Walter H. Elmes, J. T. Mowatt and Horace Ward. Mrs. David Maloney was named chairman of missionary and maintenance committee.

Other elections included M. G. Jemson as delegate to Presbytery with Mrs. J. M. Armstrong as delegate to the British and Foreign Bible Society.

Mr. Jemson, head of the building committee, explained to the congregation that work on the new church, to be situated at Fifth and Elwyn Streets, was progressing. The excavation for the basement has been made and is ready for the next step.

***Structural drawings have been approved.* Arthur Foster of the finance committee stated the building program will start in two or three months. He pointed out that a few applications have already been made for the purchase of debentures when available.**

The building committee has recommended that the St. Paul's organ be moved to the new church. This could be done at an approximate cost of $6000.

Before the close of the meeting, W. G. M. Ross Fleming spoke in praise of the new organist, Angus Fraser, and J. H. Coventry expressed thanks on behalf of the congregation to "our hard-working minister."

Funeral Held For C. Openshaw

Funeral services for Charles Openshaw of Salmo, were held Tuesday at Thompson Funeral Home. Rev. E. Donovan Jones officiating.

Hymns sung were "Abide With Me" and "Blest Be the Tie That Binds". Mrs. W. A. Manson was organist.

Pallbearers were W. Bouey, Wayne Nowlin, Harry Hughes, Joe Schurek, James Madden and Arnie Bystrom.

Burial followed in Nelson Memorial Park.

Service Club Cheque for $600

A cheque for $600 presented to Church of the Redeemer Monday night brings amount given to the parish by the Service Club during 1956 to $1100.

The cheque was presented at the parish's annual meeting in the Church Hall. Amount was reported in Tuesday's paper as $60.

No Water to Spare in Nelson

Works superintendent E. E. Olson said Tuesday afternoon the City is "holding its own in the water situation," but has "none to spare." He cited reasons for the situation as less snowfall than usual, no thaw, and no runoff into mountain streams which feed the city reservoir.

Lumber Firm Still Operating

Officials of Kootenay Forests Products, one of the major producers of lumber in the Nelson area, said Tuesday afternoon their plant is "still running," and logs are still going down the Lake. *According to the officials*, there "isn't any closure in sight."

About 240 men are employed in Kootenay Forest Products operations.

Fights

By The Associated Press

New York—Tony Dibiase, 148, New York, outpointed Chris Christensen, 148, Denmark, 10.

Birsto, Conn.—Chico Vejar, 153, Stanford, Conn., stopped Cecil (Buddy) Barbarosa, 155, Virgin Islands, 4.

Quebec—Pat Supple, 114, Montreal, outpointed Jackie Spurgeon, 115, New York 10.

Chamber of Commerce Re-Elects M. B. Ryalls

M. B. Ryalls was re-elected president of the Nelson Chamber of Commerce when the group held its annual meeting Tuesday night in the Silver Room at the Hume Hotel. Also returned to office were first vice-president C. W. Ramsden and second vice-president A. K. McAdams. Mayor Joseph Kary administered oaths *of office to Mr. Ryalls and Mr.* Ramsden.

Other officers are honorary president Ven Archdeacon F. H. Graham, past president V. C. Owens, honorary secretary R. D. Barnes, and the following committee chairmen and vice-chairmen:

Roads and bridges, M. J. Varseveld; membership, Fraser Tees, Vincent Fink; entertainment, J. G. Watson, C. W. R. Harper; freight and transportation, E. T. Stromstead, W. J. Shukin; industrial, E. L. Vance, John Erb; tourist and publicity, F. A. Beresford, Ben Sutherland; national affairs, Dr. G. R. Callbeck, G. B. Arnesen, Dr. John McCabe; finance, J. W. Graham, H. D. Harrison; civic affairs, Arthur Foster, Dr. T. H. Bourque; fish and wild life, E. T. Bodard, (no vice-chairman); retail activities, O. C. Odegard, Mrs. R. H. Bradley; toll committee, H. D. Harrison, T. West, R. Foxall; daylight saving time, Mrs. E. Van-Maarion, (no vice - chairman); house, Mayor Joseph Kary, Mr. Ryalls, Mr. Ramsden, and Mr. McAdams.

Officers were elected by acclamation *from a nomination* list presented by nominating committee chairman J. W. Graham.

About 100 people attended the meeting, including members, their wives, and representatives from other communities. Grace was said by Rev. K. Imayoshi of First Baptist Church.

GUESTS

Among guests were K. Ringland, Lethbridge; W. T. Waldie, L. Ackney, and J. M. Macbeth, Castlegar; Jack Morris, Kaslo; F. Nichols, Trail; Mr. and Mrs. R. Dyer, Spokane, Wash.; Fred Westfall, Nelson Junior Chamber of Commerce; A. Fabro, Kimberley; D. W. Taylor, Creston, Kenneth Wallace, Boswell, and Norman Brooks, of Kaslo-New Denver.

Financial statement gave a bank balance of $285.47.

Nine membership applications were accepted. They were from A. Fraser, E. S. Owens, W. E. Rusnack, A. W. Moore, R. L. McElroy, D. Marshall, G. M. Davies, R. Little, and R. Brown.

Mrs. E. Christiansen, secretary, read three communications, one from J. M. Macbeth, secretary of the Associated Boards of Trade and Chambers of Commerce, and two from Hon. W. D. Black, provincial secretary and minister of municipal affairs, MLA for Nelson-Creston, regarding a campsite in the Balfour-Queens' Bay area. He said 37 acres near Balfour had been deeded for public use, and steps are being taken to get another 15 adjoining acres for a picnic ground. Members earlier wrote Mr. Black expressing their *approval*.

Mr. Ryalls reminded members of the tour of 192 Texas farmers through this area last summer. He read a letter from "Rip" MacKenzie, one of the farmers, *who said he has shown a film* of the trip many times, and asked for pictures and literature about the district.

A letter was read from Honorary President Ven. Archdeacon F. H. Graham of Castlegar, expressing his "sorrow" at being unable to attend. Regrets also came from F. C. Ingram, Kimberley, who could not attend because of illness.

In reviewing 1956, Mr. Ryalls paid tribute to Mrs. Christiansen, who took over the Chamber office this year, also to honorary secretary R. D. Barnes. Nine regular monthly meetings were held, in addition to 38 committee meetings and two special meetings.

M. B. RYALLS

9288 SIGNATURES

Thanks were also extended to many who helped improve the *Chamber offices, making* a building Mr. Ryalls thought the Chamber could be proud of. Visitor's book for last year contained 9288 signatures from other parts of Canada, the United States, and other countries.

Plans for a new Yahk junction are "being pressed," the chairman said. Present "T" shaped junction is "dangerous" and tourists are often led to Kingsgate before they realize they have missed the turnoff into this area. John Learmouth, chairman of the roads and bridges committee, made a scale model of a proposed "Y" junction with information booth in the centre. It was displayed at the *annual meeting of the Southern* Trans-Provincial Highway Association in Creston last year, and was warmly received.

Mr. Ryalls expressed his appreciation for "wonderful co-operation" from MLA W. D. Black.

He also remarked that a display of photographs placed aboard Black Ball Ferries at Vancouver this Summer attracted much comment.

Work on the Chamber was "enjoyable," and "certainly worthwhile," and Mr. Ryalls again drew attention to the visitor's book, which contains "many and varied addresses."

Mention was also made of the *annual meeting of the West Kootenay* Rod and Gun Club Zone Association Jan. 19 and 20 in Salmo. E. T. Bodard, past president of the zone, is chairman of the Chamber's fish and wild life committee. Mr. Ryalls hoped that a government promise to have the Kootenay Lake and Lardeau River studied by two biologists this year if possible would lead to "more and better fishing in the near future."

Granby To Start Up At Phoenix by Fall

VANCOUVER (CP)—Granby Consolidated Mining, Smelter and Power Company plans to start production on its copper property at Phoenix by late Summer, it was reported here Tuesday.

The company would move mill and open-pit mining equipment to Phoenix from its Copper Mountain mine, if that property closes down as forecast in mid-April.

Granby officials said the company plans to operate a 500-ton-a-day mill at the Phoenix property.

Remac Miners to Vote Today on Latest Offer

SALMO—Strike vote scheduled to have been taken Tuesday by employees of the Reeves-MacDonald Mines Ltd, at Remac, members of Local 901, Nelson and district Mine and Mill Workers' Union, was called off at the last minute.

The company and union bargaining committee have reached agreement on outstanding points in their dispute, it was reported Tuesday. At a special meeting held in Remac Monday night, the bargaining committee recommended acceptance of the proposed terms for settlement.

The membership will vote on the latest offer today.

Terms of the latest offer were not announced. Disagreement on severance pay issue has been the crux of the dispute.

Crescent Valley Home Destroyed, Stove Explodes

CRESCENT VALLEY — Loss estimated at $3000 was incurred in a fire which destroyed the single-storey home of bachelor brothers here Tuesday morning.

Philip Rilkoff, one of the occupants, told RCMP he had stoked the kitchen stove, stepped outside the room when he heard an explosion and returned to find the stove and adjacent wall on fire.

Philip, in his twenties, was alone at the time. He is to be married, and was to have brought his bride to the home next month.

Most of the brothers' belongings were lost. The basement, in which preserved goods were stored, was virtually untouched by the fire.

BUCKET BRIGADE

Local volunteers formed a bucket brigade and shovelled snow on two neighboring houses, thus saving them from imminent destruction. Jack Hendren, South Slocan fire chief, and West Kootenay Power and Light Company No. 3 plant fire truck also arrived at the scene.

The house was located on the West side of Slocan River across the bridge leading from the Slocan highway on the road to the radio range station.

No insurance was carried.

MAYOR MATSON ASKS LEAVE

PENTICTON (CP) — City council Monday night granted Mayor Oscar Matson's request for leave of absence until March 31. He asked the leave for health reasons.

Mr. Matson said Tuesday "there is a possibility that I may require a slight operation . . . so I thought it only proper that I request leave of absence.

"However my condition is such that I am able to carry on with major problems of city business from my home and the council and myself are having committee meetings at my home on these problems."

Ald. Elsie MacCleave is the acting mayor.

Penticton to Form Refugee Committee

PENTICTON (CP) — Acting Mayor Elsie MacCleave Tuesday called a meeting for Feb. 5 to set up an organization to take care of Hungarian refugees arriving in Penticton.

Immigration officer H. M. Childerstone said the city has made no provision for refugees, who will continue to arrive.

Giant Mascot Setback Due To Lower Grade Ore

SPILLIMACHEEN — Due to a lack of sufficient hydro power in the early months of the fiscal year and also to a lower grade of ore milled, gross value of mineral production at Giant Mascot Mines dropped substantially in the year ended September 30, 1956, as compared with that in 1955, the annual report reveals.

Gross output in 1956 amounted to $1,584,646 as against $2,130,089 in the previous year. This was in spite of receiving an average price for lead of 15.9 cents per pound in 1956 as compared with an average of 15 cents the year before, president R. B. Buckerfield points out.

As a result of the difficulties the company suffered a net loss of $29,393. In 1955, a net profit of $25,237 was realized. However, it pointed out that an estimated profit of about $46,000 was made in the first quarter of the new fiscal year at the lead-zinc producer near Spillimacheen.

No new orebodies were developed during the year but the company has authorized an extensive exploration program which is currently under way. Officials believe this program can be financed out of monthly operating profits and that the present cash position will not be affected. It has also been decided that payment of dividends will be stopped until sufficient known ore reserves are blocked out. The company paid a total of $179,264 in dividends in 1956, equivalent to 8 cents per share.

Reserves dropped sharply during the year from 385,800 tons averaging 4.02 per cent lead, 0.8 per cent zinc, 0.65 ounces silves and 0.07 per cent copper to 107,700 tons averaging 3 per cent lead, 0.5 per cent zinc, 0.60 ounces silver and 0.07 per cent copper.

TONNAGE MILLED

The company milled 164,944 tons in 1956 or 452 tons per day averaging 3.34 per cent lead, 0.48 per cent zinc, 0.60 ounces silver and 0.06 per cent copper. From this, 8491 tons of concentrates were produced form which 10,436,508 pounds of lead, 1,441,136 pounds of zinc, 179,469 pounds of copper and 94,660 ounces of silver were secured. Recoveries for lead and zinc were 93.4 per cent and 84 per cent respectively. The barite circuit was not in operation. In 1955, 192,822 tons were milled or an average of 529 tons daily.

During the year, in participation with Consolidated Mining and Smelting Company exploration was carried out on Giant's Lead Mountain property which is five miles distant from the main operation. Some 400 feet of drifting and 2000 feet of drilling failed to show sufficient mineralization to justify further investigaton, H. L. Hill, the company's consultant, states.

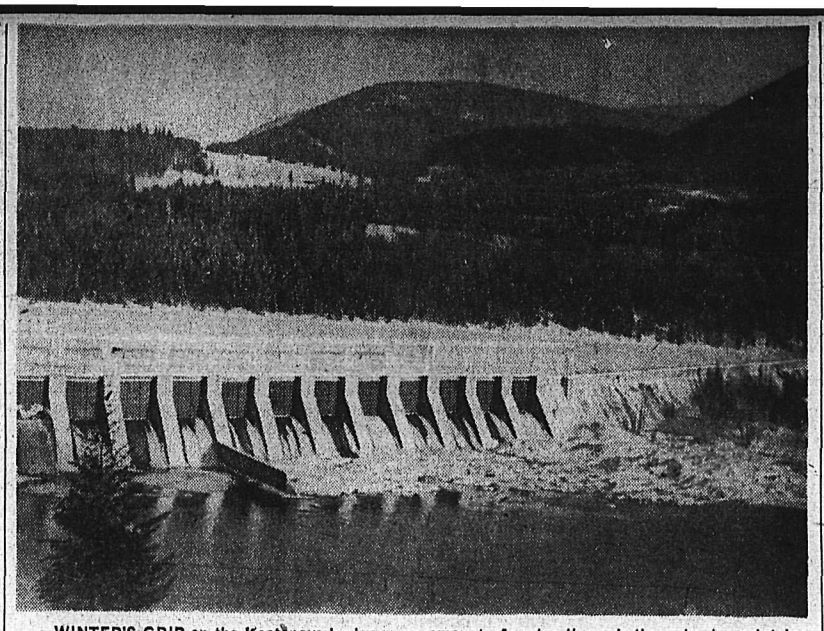
The company also purchased the Rothschild claim in the past fiscal year. This acquisition rounded out its holdings which are now a solid block, nine miles long and four miles wide.

Operating costs per ton climbed in 1956 to $5.64 as compared with $4.15 in the previous fiscal year. Costs were up due to the decreased mill tonnage during the period of power shortage and also to the increased exploration costs.

Capital expenditure during 1956 totalled $184,192 of which the bulk, $113,150, was laid out for shaft extension and underground equipment. The shaft was extended a slope distance of 200 feet during the year to open the 1000 level. A station, loading pockets and sump were also excavated.

Breaks Leg Sleighing

GRAY CREEK — While sleigh-riding at Crawford Bay, Leonard Syfchuck broke his leg. It was pinned between two sleighs. He was taken to Creston Hospital by William Stewart, and the leg was put in a cast.



WINTER'S GRIP on the Kootenays is shown in this picture of the Corra Linn dam south-west of Nelson, where West Kootenay Power and Light Company is allowing a minimum amount of water through the gates to maintain storage before runoff season. Ice covers from shore to shore, as is common along most of the wider parts of the river.—Daily News photo.

Two-Way Communication Set Up in Sullivan Mine

KIMBERLEY — The Consolidated Mining and Smelting Company has established a two-way communications system in its big Sullivan mine at Kimberley.

Through the hook-up, the traffic control man can keep track of the movement of locomotives underground. Not only motormen but supervisory personnel receive all messages simultaneously. News of emergencies can be relayed instantly.

COUNCIL GIVES FOREMAN VOTE OF CONFIDENCE

ROSSLAND (CP) — City council has passed a resolution giving a "unanimous vote of confidence to the competence, efficiency and sincerity" of City Foreman A. E. Roth following an investigation of charges of incompetence and neglect against him.

Council passed the motion at a special sitting last week and announced its decision Monday night. A group of citizens had demanded Mr. Roth's resignation.

SALMO MAN FINED

N. E. Koftinow of Salmo was fined $20 and costs Tuesday when he pleaded guilty to a charge of driving without due care and attention, before Justice of the Peace C.W.R. Harper in city court.

Charge arose from a traffic-accident Saturday in the 300 block on Vernon Street. Mr. Harper was on the bench because of illness of Magistrate R. S. Nelson.

Children Quit Sunday School From Boredom

LONDON (CP) — Many British children who stop going to Sunday school do so because they are bored, a report shows.

Among 1000 children replying to the question why they had stopped, 150 replied that they had lost interest — "I just got fed up with going" or "I got tired of it after all those years."

The report, prepared by a research committee set up by the Free Church Federal Council youth department in co-operation with other organizations, shows that most scholars leave Sunday school between the ages of 11 and 13, and are lost to the church.

One-third of Sunday schools questioned said difficulty was experienced through apathy among parents.

Cold Too Much For Crowing Forecaster

LITTLE FORT, B.C. (CP)—Mr. Chanticleer, the weather forecaster of this frozen settlement near Kamloops, is dead — a victim of the cold he crowed about.

The sturdy rooster owned by farmer Ben Krause was treasured for his gift of crowing before a weather change and for seven years he faithfully forecast the spiralling and plunging thermometer, rain and calm.

During last winter's coldest days his feet were frozen but the gallant bird kept to his self-appointed task and crowed. This week the mercury dropped to 49 below, the lowest Chanticleer had ever known. He was found frozen to death.

ANCIENT TOOLS FOUND

LIVINGSTONE, Northern Rhodesia (Reuters) — Wooden implements discovered here, waterlogged for more than 36,000 years, may be the oldest tools of the type yet found in the world. Dr. J. Desmond Clark, curator of the Rhodes-Livingstone Museum, has just been told by the British Museum that the implements "show very definite signs of having been worked by man."

Justina Joe Hearing Set

Preliminary hearing of an attempted murder charge against a 50-year-old Tobacco Plains Indian woman has been slated to begin Feb. 7 in provincial court. Stipendiary Magistrate William Evans set the date Tuesday.

Mrs. Justina Joe has appeared in court several times for remands.

Charge was laid against the woman by Royal Canadian Mounted Police after her husband, Moses Joe Dennis, was allegedly wounded Dec. 1 by a bullet in their reserve home, about 30 miles from Fernie. He was hospitalized in Vancouver for treatment.

Nanaimo Recreation Budget Increased

NANAIMO (CP) — The Nanaimo Recreation Commission submitted a proposed budget of $17,050 to city council Monday — $6000 more than was spent by the commission in 1956. The increase is to provide paid help for the summer playground programs, and other extensions of the recreation schedule.

The finance committee will consider the proposals and make its recommendations at a later date.

Fire Races Through Kimberley Store

KIMBERLEY — Fire Tuesday morning demolished the Redding Furniture store in the heart of Kimberley's concentrated business section. Efficient work by the fire department stopped the flames from spreading further.

The business was located on the West side of Spokane Street and during the past year had expanded into larger quarters with warehouse and storage space at the rear toward Mark Creek.

Smoke was rolling out of the building when the fire was first reported about 8 a.m. and main efforts were necessarily aimed at preventing spread to adjoining properties.

The business, founded by the late Frank Redding, was operated by his son and daughter, Ralph and Margaret Redding. Insurance was carried.

This was the third costly business section fire in East Kootenay within a week. Cranbrook's new and used furniture operated by McGovern Brothers burned last Wednesday, and the La Salle furniture and electric store in Fernie Sunday. All were fought in sub-zero temperature.

Natal Legion Elects Officers

NATAL — At a well attended meeting of the Michel-Natal Legion branch, officers were elected for the 1957 term.

Retiring president is George Mannion; president, James Grocutt; vice-president, William Chalmers; secretary, Robert Martin; treasurer, Roger Pasiaud. Sergeant-at-arms chosen was Ken McFarlane. The executive, consisting of five members, will include James Weir, J. F. Mitchell, William Lyne, George Mannion and Albert Krall.

The meeting decided that a social evening be held in April commemorating Vimy night.

It was also decided that a membership drive be undertaken throughout Natal-Michel and district as at present only 50 veterans are active Legion members.

INTRUDERS GET 50 CENTS AT CASTLEGAR

CASTLEGAR— Person or persons who broke into the Castlegar Building Supplies on Railway Avenue, just off the main street, here Monday night or Tuesday morning, got a mere pittance for their efforts.

Owner John Nagraeff discovered the break-in about 7 a.m. on Tuesday. No merchandise was missing, but 50 pennies had been removed from a small cash register. Two rear doors had been forced and the main office, where the cash register is kept, had been entered.

RCMP are continuing investigations.

TENDERS ASKED

Sub-Trade Tenders are requested by the undersigned for Heating, Plumbing, Electrical and Painting for "Office and Laboratory Building for Department of Agriculture, Creston, B. C." Tenders asked not later than Feb. 13, 1957.

A. E. JONES COMPANY, LTD.
Box 1449,
Cranbrook, B.C.

FERNIE CIVIC WORKERS WIN 10 CENT INCREASE

FERNIE — Agreement has been reached between the City of Fernie and the Civic Workers Union on the 1957 wage agreement covering the public works and electric departments.

Under the one-year agreement a 10 cents per hour increase and an additional statutory holiday with pay are granted. This makes eight statutory paid holidays. The new one is Thanksgiving. The new hourly rates are: laborers, $1.40; truck driver, $1.50; tractor and caterpillar operators, $1.55; grader operators, $1.65; handy man, $1.50; electrical department groundman and laborer, $1.40.

Saar Settlement Begins to Operate

TRIER, Germany (AP) — The Moselle River project, pivot of the recent Saar settlement, was officially born here with establishment of the three-nation Moselle Company.

Spokesman for West Germany, France and Luxembourg hailed the organization of the company which will deepen and widen the Moselle River, as "an historic day in European history."

Under the project, the Moselle will be an international shipping route connecting the rich coal fields of Lorraine in France with West Germany's industrial Ruhr.

Remanded For Week

TORONTO (CP) — Peter Woodcock, 17-year-old private school student accused of murder in the slaying of four-year-old Carole Voyce, was remanded for a week when he appeared in court Tuesday.

He will be given further psychiatric examination, the Crown said.

Carole's body was found Jan. 19. She had been raped, beaten and mutilated.

TRAIL MAN ANNOUNCES JAYCEES TO LAUNCH DRIVE FOR REFUGEES

CALGARY (CP) — G. L. Filippelli of Trail, president of the Canadian Junior Chamber of Commerce, said Monday the Jaycees soon will open a drive to assist Hungarian refugees.

He addressed a meeting of Jaycees from Calgary, Red Deer, Drumheller, Banff and Innisfail, Alta.

"Jaycees throughout the world are going to launch a fund-raising program for Hungarian refugees," Mr. Filippelli said.

Dog Owners Have a Duty

Though the weather is anything but spring-like at present, the days are passing and it will not be long before the dogs, after their usual manner, will be congregating on school grounds and open spaces.

It should be borne in mind by all dog owners that at such times dogs at large are unsafe. Less than a month ago three dogs in Vancouver dragged a boy into the bushes and severely injured him. Last year, too, a child was badly bitten by a dog in Fairview.

A reminder of the duties of dog owners appeared in the advertising columns of this newspaper, issued by the Chief of Police. It called attention to the fact that the age at which a dog must be licensed is four months, not, as many people imagine, six months. It also states that no person shall suffer or permit his dog to run at large in the city, and that dogs found unlicensed or running at large will be impounded.

Quite apart from the legal obligations of dog owners is the matter of their social responsibility to avoid giving cause for offence to others. For this reason dogs should be strictly controlled.

The old custom of chaining dogs up seems to have fallen into disuse, but parents should prevent dogs from following children to school. The amount of inconvenience caused by dogs on the school playground or attempting to follow them into school is considerable. It is here that children are so often bitten.

Dogs at large can be destructive of flower gardens and a nuisance to home owners by overturning garbage cans. It is also undesirable to have them follow their owners when they are shopping on Baker Street.

It may seem a hardship to animal lovers to restrict a dog's liberty, but it is a duty which they owe to the community.

When bad men combine, the good must associate; else they will fall, one by one, an unpitied sacrifice in a contemptible struggle.

—*Edmund Burke.*

Unaccustomed to His Face

When Mr. Harold Macmillan became Prime Minister of Britain, there was general rejoicing among the world's political cartoonists. Here was a subject, they agreed, made to order for their pens and brushes.

The chief caricaturable feature of the new Prime Minister has been his mustache, an enormously bushy creation. In depicting it, some cartoonists have given free play to their fancy, so that Mr. Macmillan emerges from their drawing boards looking something between a walrus and one of those long-haired dogs that are much admired around the shows. The canine look is increased by due attention to the subject's eyes, which in their natural state have a rather melancholy expression.

But it is now reported that one of Prime Minister Macmillan's first actions upon moving next door to No. 10 Downing Street was to shave off one-third of his mustache, which in his case is a lot of mustache. It no longer even droops over his lip.

This is the sort of treatment that cartoonists will deplore. They have the right to demand that every public man should make some contribution to their art, for there is nothing more frustrating to the profession than a prime minister who resembles thousands of other people. True, they are left with Mr. Macmillan's eyes, but it is doubtful whether these will suffice. It was the eyes cum mustache that set him apart from most of his fellow men.

Death to the Porcupine

The word is out; porcupines are unprotected by any game laws; moreover, they are a nuisance. This means that they can be shot on sight by anyone.

Luckily porcupines are not aware of this, for the thought that they are now regarded as public enemies would make them very sad indeed, for it may well be said that these friendly rodents are entirely unaware of any wrong-doing.

The Canadian porcupine is a large, harmless-looking beast. It has long hair which almost completely hides its spines, and a stumpy tail. It walks with a fat, friendly waddle and lives entirely on the bark of trees, a thing which almost certainly no one would want for themselves.

Although friendly by nature, the porkie is well able to defend itself, as many inquisitive dogs know to their sorrow, but it is unlikely that this animal would ever attack anyone.

Why, then, is it considered such an enemy? Well, that is chiefly a matter of circumstances and geography. In places where the forestland is being cleared for agriculture, the activities of the porcupine would probably be welcomed, for by eating the bark all around a tree, it causes the tree to die. Unfortunately, reforestation is of such national importance in Canada today that any beast or insect which endangers the growth of standing timber has to be exterminated.

The porcupine may well claim that man is the greatest destroyer of trees in the world, and that anyway, he got here first.

Maybe, for all its friendly look, the porcupine is a public danger and must be destroyed. We hope, however, that in destroying him because we need his food, we are not being too greedy.—Sault Ste. Marie Star.

Hours of Drudgery

People of the United Kingdom are rather set in their ways. They insist on driving on the left, when most peoples of the world drive on the right. They retain their system of pounds, shillings and pence, and their weights and measures.

Occasionally there are some rebels, such as a Plymouth teacher who advocates a change to the metric system. He protests against the time children have to spend on their mathematics, just because of the money, weights and measures they must contend with. He urges the students be freed "from the bondage of hours of arithmetical jugglery and drudgery. Our own system is complex enough, especially when it gets entangled in the various numbers of pounds contained in a bushel, but we can sympathize with students in the United Kingdom.

We recall one family which had been stationed in Arabia. The children were brought back to England for their education. The eldest, a girl of 12, was trying to fit in with the English system of education. A bright girl, she was on the verge of complete frustration with her arithmetic. The pounds, shillings and pence, the weights and measures represented mathematical gibberish to her. The simple tasks of adding and subtracting were difficult enough, but when she got into demical points and fractions she was academically undone.—Windsor Star.

J. J. C., Salmo—How many women are there to each man in Great Britain? What is the male and female population in Canada?

In 1951 census the population of Great Britain was given as 50,368,455. We are continuing inquiries regarding number of women to men. We understand it is high. According to the 1951 Canadian census, the breakdown of male and female population is given as follows: Males, 7,088,873; females, 6,620,556. We have not yet had breakdown figures for 1956.

Interested, Nelson—Why are certain birds classed as "goat-suckers"?

The name was bestowed by old world herdsmen who, hearing the bird-calls near their goat herds, believed the birds subsisted on stolen milk.

J. J., Nelson—Are mirages seen in Canada?

Mirages—Optical illusions due to progressive variations in layers of the atmosphere—are frequently seen in parts of the Prairie provinces.

Student, Kimberley—For a correspondence paper on art, will you please tell me when Claude Monet, the French painter, was born and died?

Claude Monet was born in Paris, November 14, 1840, and died at Giverny, December 5, 1926.

Says Farmers Have 'Sense of Real Values'

To the Editor:

Sir—In your issue of Jan. 23 under name of F. B. Pearce is an article which rather bothers me that a person of Mr. Pearce's knowledge and capabilities should stoop to poke fun at a person doing his best to tell his fellow men that his efforts in his line had been successful. From our Canadian point of view it is deplorable that we should have so far lost sight of the true food values of many of our home-grown agricultural products that they must resort to every conceivable trick of advertising to sell their product, but such is the case, and in this one case the result has justified the effort.

I gave Mr. Pearce more credit than that more cream would make his milk of more food value. Surely his years have not left him short of the knowledge that butterfat does not add to the food value of milk and in many cases is detrimental.

It was not what the farmer got that caused Mr. Pearce to be short of money to buy milk tickets. No, it was the result of all the high power salesmanship through advertising that dings at us from every angle.

If he thinks the farmer who milks the cow gets too much of his dollar I would like to take him along some day, but he will have to start at least two hours before Mr. Pearce usually leaves his bed and we won't be back till long past sunset.

Nor is it that the farmer does not know he is getting the smallest part of our economic values. Most of them have a true sense of the real values of life with a knowledge that they are working every day with their children, their wives and nature itself.

J. R. ANDREWS.

214 Innes St., Nelson.

(Editor's Note: The Daily News agrees with Mr. Andrews farmers are one of many groups experiencing economic difficulties. However, point of column referred to was that news story to which column referred, credited newspaper advertising with increasing selling power. In headlining story, magazines were inadvertently given the credit.)

It's Been Said

I am not a politician, and my other habits are good.—Charles Farrar Browne (Artemus Ward).

TODAY'S BIBLE THOUGHT

The earth is the Lord's and the fulness thereof, the world and they that dwell there-in.—Psalm 24:1.

That includes all of us. But if we are God's children all good belongs to us too.

Aunt Het

Amy makes fun of my double chin, but if I kept it as busy as she does hers, it would be wore to the bone.

The Shape of Things to Come

... F. B. PEARCE

Yesterday I had a letter from a friend in Kaslo asking if I know what has happened to the Art Club... Since the artist in the family has left home I am out of touch with it but I think it is still in being. Its chief trouble, I imagine, is a place to meet and I hope that eventually they will find a home i nthe old post office building, which would be a good place to display their pictures.

I am not one of those people who know much about art and my taste is not for the modern form of self expression. For that is what most of it is. I prefer the old style where the artist painted what everyone saw and not what these modernists declare they see. It may be that they have adapted the rhyme, "If spots arise before your eyes, take Beecham's pills," and when they get a bilious attack they go out and paint it. If that is so they are certainly successful. Their pictures make most people bilious.

On the other hand these artists of the new school may be visionaries with prophecy in their plant brushes and what they are depicting is the shape of things to come, when the atom bombs have passed this way when humanity looks like a shapeless lump of dough and the landscape has been blasted into new and horrible forms.

But most people will not agree with this and will prefer the first explanation that it is all a matter of indigestion, physical or mental, and suggest that some pictures might well be labelled, "After Eating Cheese and Pickles for Supper" or "Night View Through the Bottom of a Whiskey Bottle." My friend deals gently with such pictures by calling them "imbecile abortions." One of the friends of my heedless youth would have used the phrase "syphilitic abortions" which is more expressixe but not so nice.

As for our own home grown exponents of modern art, he has no kind words for them either, but it seems to me that they have a great deal of technical skill which might be used to better purpose. It may be that they have taken to painting abstractions because they lack courage to tackle realities. After all no one can say whether they are right or wrong and they certainly think they are right.

Their attitude and the fact that they have imposed themselves on the public has one unfortunate result. Younger painters and beginners are bewildered. They don't know whether to follow the old or the new and in most cases they are too young to follow their own bent, and the originality which every artist should have is denied to them.

The Canada Council which is to encourage the arts will have a difficult job... There is no doubt that in music, literature and art there are self appointed critics whose very existence depends upon supporting certain kinds of the three arts. They would an influence out of all proportions to their knowledge. But this is covered up by a jargon or patter unintelligible to others. But they are vociferous self-assertive and undoubtedly will try to control the Council in its development of culture.

How far our professional critics have failed is shown by the number of Canadian television and dramatic artistes who have not received recognition here but have found success in the United States.

What the Canada Council needs to direct it is men who are neither professionals or critics but who have a tolerant enough approach to encourage young artists to paint as the chose, writers to write as they like, and musicians to make the kind of music they like.

In the meantime an art club is a very good thing.

Taxi Driver Robbed Then Thrown Out

VANCOUVER (CP) — A taxi driver was robbed and flung from his cab late Monday night by an assailant who then drove off, leaving him in a ditch.

Roy Feitch, driver for Diamond Cabs, picked up a fare outside a hotel on Carroll Street here and drove him to North Vancouver.

After they reached their destination, the fare asked the driver to change $50. While Feitch was looking for change his fare slugged him, grabbed $30 from him and threw him out into the ditch.

He then drove away heading for Vancouver.

Your Individual HOROSCOPE

—By Frances Drake—

For Thursday, Jan. 31, 1957

MARCH 21 to APRIL 20 (Aries) —Venus and Mercury, well aspected, will assist real effort. Unusual ideas, dexterity of action, smooth sailing in familiar activities indicated.

APRIL 21 to MAY 21 (Taurus) — Happy indications, with your planets in fine position. Make every effort and sound suggestion pay; they can. Skilled work, artistic and scientific professions, mental work highly sponsored.

MAY 22 to JUNE 21 (Gemini)—A very promising day! You should have clever ideas galor, be more than ordinarily original and intuitive. Put some of those progressive ideas to work for new gains. Make good!

JUNE 22 to JULY 23 (Cancer)—Teachers, students, lawyers, scientists, all engaged in mental work are in fine position to achieve. Don't waste time on unessentials.

JULY 24 to AUGUST 23 (Leo)—While all matters may not run smoothly, the thinker and the ambitious one can make headway — especially in study, research, in conferences, organization work. Make today pay off!

AUGUST 24 to SEPTEMBER 23 (Virgo) — You may feel like overdoing now. Don't! Keep pace with the competition but don't overtax yourself. Study, improve, make your God-given talents count. Advertising, promotion, scientific research honored.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Venus and Mercury offer much help during this stimulating period. Be in there pitching. Be active, but don't overreach your goal. Professional people, skilled workers, trade, industry, economics favored.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Your planets, in fine aspect, honor personal efforts in ony worthwhile project. Familiar work, activities that require keen mental alertness among top favored. Keep smiling.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — You, too, can have benefits, advancements of you give close attention to what is essential and sidestep useless red-tape and time-wasting. Be quick to take advantage of good suggestions.

DECEMBER 22 to JANUARY 20 (Capricorn) — Keen judgment, careful analysis and smart planning of your program should bring you opportunities for gain. Your attitude toward people and your duties will be important, however.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Some restrictive influences suggest extra care in new and unusual matters, changes in plans, atc. But day on the whole can be gainful and cheerful. Try the purposeful; be determined.

FEBRUARY 20 to MARCH 20 (Pisces) — Those who make careful plans and properly allocate tasks to save time and labor will have the best results now. Artistic, home and personal affairs preeminent in favor.

YOU BORN TODAY are adaptable, changeable, discerning, restless, very talented and able. You may not always apply yourself as diligently as you should for the achievement that could be yours, however. You are intuitive, can be successful at organizing, or in government and community affairs; make an able, patient teacher; are skilled with your hands. Keep studying, for the more sound knowledge you have, the greater your possibilities for accomplishment.

Birthdate of Franz Schubert, Austrian composer.—King Features.

Another Outstanding Year for Legion LA

Monthly and annual reports reflecting intensive activity in all its fields of endeavor were feature presentations of Monday night's general meeting of Ladies' Auxiliary to Nelson branch of the Canadian Legion. The meeting took place in the Legion lounge.

Mrs. A. O. Allen, president, named her committees for the year. Mrs. Steve Cameron will be general convener of catering, assisted by four groups headed by Mrs. B. L. Gray, Mrs. B. Glowachuk, Mrs. W. R. Gibbon and Mrs. Smythe. Mrs. G. S. Thompson will continue as Press representative. Mrs. S. C. Colman will have charge of layettes; Mrs. C. O. Anderson, ways and means; Mrs. S. Elliott, social; Mrs. James Dawson, finance; Mrs. R. McCreight, Hycroft; Mrs. J. C. Eckmier, baby spoons; Mrs. Dawson, birthday box; Miss Evelyn Forbes, hospital; Mrs. Norman Brown and Mrs. Len Bicknell, resolutions; Mrs. H. H. Currie, Handicapped, and Mrs. Thompson, Hospital Auxiliary liaison.

Mrs. Max Carne was reinstated in the membership, and Mrs. G. E. Saunby was initiated. Applications from Mrs. Mabel Nash and Mrs. Rose McGee were accepted, and they will be asked to be present at the next meeting for initiation.

Secretary Mrs. Irene Kerr read correspondence including letters of thanks for Christmas parcels, flowers and cards.

The meeting welcomed a visitor from Creston, Mrs. Tippie, Creston Auxiliary member, who told of their catering work.

NEWELL ADDRESS

S. J. Newell, president of the Branch, spoke of his long association with the Auxiliary, stating he had been behind the formation of the organization here.

Nelson branch now has the largest membership of any branch in the zone, he said. He asked for better attendance at card parties, and congratulated the Auxiliary on its wonderful reports and successful year.

Monthly reports included one from Mrs. Gray as treasurer, and one from Miss Forbes stating that Mrs. B. Kellogg and Mrs. Gregoire made 153 visits and distributed 140 small gifts.

In annual reports, Mrs. Currie outlined the work of the Kootenay Society for Handicapped Children and the school established here.

Miss Forbes said that 1112 visits were made to hospital patients during the year, and 995 treats including tobacco, candy, chocolate bars, cigarets and ice cream had been given out to cheer the patients. The members expressed pleasure at the tremendous amount of work done on this.

Cards had been sent to all members on their birthdays, Mrs. Dawson, who convened the birthday box, said.

Mrs. Thompson told of her year's liaison work with the Hospital Auxiliary, on inter-relation between the two organizations.

Gaily-decorated birthday gifts of gum, candy, tobacco, writing equipment and notepaper had been sent for distribution among elderly veterans in Hycroft, and thanks had been received from the matron, Mrs. B. Serres, who was assisted by Mrs. Colman, said. Mrs. Colman added that layettes had gone to London and locally as the need arose.

Membership report of Mrs. W. Burns was read by the secretary.

IMPROVEMENT JOBS

In a detailed report, Mrs. Allen told of the large sums of money expended and equipment bought for the Auxiliary kitchen, decoration of Legion halls and corridors and other purchases of the house committee, together with gifts sent to those leaving the Auxiliary, and of jobs in the offing such as covers for chairs and a table top for the kitchen. She thanked her committee for the many hours devoted to this work.

As welfare convener, Mrs. Gray reported sending 20 hampers of groceries and comforts for children, for needy veterans and their families at Christmas.

Mrs. Smythe reported a busy and profitable year in catering and thanked her committee.

The treasurer's report of Mrs. Gray showed that a great deal of money had been spent on good causes, and she was congratulated on her accuracy of her report by the auditors.

UNITY OF PURPOSE

Retiring president Mrs. Brown summed up a successful and progressive year, with the liaison with the branch improved and great comradeship all round. She thanked all members "without whom this could not have been possible." Mrs. Bicknell came in for special mention in convening the Poppy Day sales. The spirit of co-operation shown in catering, prevailed in all the year's activities. The secretary and treasurer were given special thanks, and Mrs. Thompson for her publicity work.

Mrs. Brown wished the incoming president a successful year and asked the members to continue to do their share.

A short talk on civil defence was given by Mrs. Thompson, who called for volunteers for a registration lesson to be held at the home of Mrs. R. Palmer.

Extracurricular Work May Tax School Child

By DR. GARRY C. MYERS, Ph.D.

Ambitious for their children, some parents arrange to have them take instruction outside of school in such fields as music, dancing, art, language or religious education.

All of these have merit. Yet, because of them, some of the children involved are overstimulated or lack time for fun and relaxation. Also, the success of their regular school work is often impaired by too many other activities. Some of these courses may seem more worthwhile than regular school work; but school success should come first, as a rule, especially if there is a chance the child will go on to college.

Organizations like the Scouts, church choir have very much to offer children. But more than one of them in addition to private lessons, or to one or two other extracurricular activities in the school or community, can be too much for some.

The talented, overeager, conscientious boy or girl in high school, who is attracted to many extracurricular activities at school or in the community or both, may be loaded up too heavily for good physical and mental health.

REFLECTED GLORY

Usually parents are proud of such a son or daughter and enjoy considerable reflected glory. Often they will egg this youth on, even if he has no time he can call his own, no time for leisure or relaxation, is usually tired and is worn out most of the time.

Not many parents are objective enough to weigh this child's problem or to seek measures for inducing him to reduce some of the extra activities at school and outside. Most teachers and leaders of these activities at school and away from school also encourage the overburdened youth to continue the program or even to add to it.

CONSIDERS SELF FIRST

Each leader tends to think first of the success of his own activity, and to attract pupils who can contribute most to it. Therefore, they will try those who are already doing well in others.

Usually these leaders are interested in their own enterprise first; the youth's welfare comes second.

Wise parents try to protect their children. In some instances, they will require the youth to drop one or more of his activities. However, the bigger problem is to cause the child to engage in extracurricular activities when he's not inclined to do so.

EXCELLENT YEAR FOR PAST CHIEFS

NEW DENVER — Pleasure at the group's success in 1956 and hopes for an increase in membership this year were expressed at the annual meeting of New Denver Pythian Sisters Past Chief's Club, held at the home of Mrs. J. E. Kennett.

Mrs. John Taylor was elected president for another year, vice-president is Mrs. Janet Graham, and secretary-treasurer, Mrs. C. W. Nelson. Chaplain is Mrs. Joseph Depretto.

Get-well cards were signed to members and will be sent to past chiefs Mrs. James Draper and Mrs. E. F. Angrignon. Miss M. H. Butlin will visit the sick during January and February.

The president welcomes Mrs. C. W. Nelson, past chief, as a new member.

Fast, deep-down relief from
Arthritic and Rheumatic Pain
with the skin-penetrating power of "Deep Heat"

Quick! Massage New Mentholatum Rub into the sore spots. In 30 seconds feel a warming glow . . . then comforting ease for painful hands, knee, shoulder, hip and other aching joints and muscles. Balmain Shows Royal Fashions

By NADEANE WALKER

PARIS (AP)—The coming visit to France of Queen Elizabeth and the Duke of Edinburgh inspired royally sumptuous fashions at Pierre Balmain's opening Tuesday.

Balmain said he drew his inspiration from "a season of royal weddings and royal visits."

His general line harks back to 1918, with forward shoulder seams and bloused-over tops giving a hollow-chested look, while puffy tucks and curved seams lend a Grecian urn shape to the hips.

Crepes and drapes continued top trends.

EXPENSIVE OUTFITS

Already noted for such luxuries as a floor-sweeping mink coat several seasons ago, Balmain must have been hard-pressed to pass his old triumphs. But he managed it with an ample triangular cape in ermine, bordered with white fox and ending in a train on the ground. Other unlikely combinations were lynx borders on a pink linen suit, big fur cuffs on chiffon, and a fur-trimmed lace suit.

PIONEER GROUPS

The first Canadian companies of Girl Guides were formed in 1910 at Toronto and St. Catharines Ontario.

SEW-A-RAMA

The Big Fabric Event for Spring

Spring's Newest Colors *Fashion's Latest Textures*

Phone and Mail Orders promptly filled. Shop in person where possible – you'll delight in viewing and handling these New in Fashion Fabrics. Thousands of Yards offered on This Big Annual Sale.

Save on Printed Cotton, Broadcloth, Corduroy

Style Setting Glenwood Prints
Make up your prettiest dress for the Summer season — in a Glenwood cotton floral or novelty print. Wash-fast, Summer colors in 36-inch widths. Ideal for Summer dresses, skirts, children's sunsuits and dresses. Tex-Made Glenwood washfast, printed cotton. Per yard 44

No Iron Plisse Crepe
Lovely floral patterns in plisse crepe. Easy to make up in pyjamas, nightgowns, and all kinds of baby clothes. Small, medium and large floral patterns, some children's designs. Pastel, washfast colors. 36-inch widths. Per yard ..... .55

PRINTED PERCALES
Long a favorite with home dressmakers — 36-inch width Amercian printed percales. You'll use these charming prints for Summer clothes — dresses, skirts, sundresses for yourself, sunsuits and dresses for the children. Nice too for kitchen curtains. Bright colors in small florals, new novelty patterns, and smart stripes. 36-inch widths. American printed percales in 36-inch widths. Per yard ..... .49

Washfast Colored Broadcloth
Vat dyed colored cotton broadcloth. First quality. Perfect for the new cafe curtains for your kitchen — make a matching tablecloth too. Or use it for little boys' shirts — teeners' blouses and skirts for Summer wear. Popular pastels and colors. 36-inch widths. Per yard ..... .44

GOLD PRINTED PONGERE ROLAC
A special Sew-a-rama value for everyone who sews for style! More than ever this Spring there's a call for pattern in fabrics — this paisley-type, gold-printed "Medallion" design is one of the most striking you'll see. Make it up in a sheath-style sun-dress with tiny matching jacket — try it for a short formal — or one of the classic shirt-waist style dresses. Pongers Rolac is an acetate and cotton fabric — crisp and cool for all kinds of Summer weather. Completely hand-washable too, and comes in 45-inch widths for less yardage per garment. In Bamboo Beige, Frost White, or pastel pink or blue, gold printed. Per yard 1.79

Wash-o-Matic Rayon Dress Lines
If you like a smart, practical dress for Spring and Summer, then this is the fabric you'll choose. It's Wash-o-Matic rayon dress linen — heavy, crease-resistant fabric that makes up into beautiful tailored dresses, pleated skirts, Spring suits, and afternoon dresses. It's washable too — and sun-fast — shrinkage controlled. Choose beautiful clear Spring colors of Sea Shell, Yellow, Sky Aqua, Capri-Blue, Driftwood, and Moss Rose. Wash-o-Matic rayon dress linen. 44-inch width. Per yard 1.39

In Sculptured Nylon
42-inch sculptured nylon fabric. Comes in beautiful, soft, pastel colors in a variety of floral-brocade designs. Features a silver or gold scroll effect in pattern. Makes up beautifully into dusters, housecoats, and lounging pyjamas. Or try one of the new, fancy, full skirts or blouses for party wear. Non-ravelling, very easy to work with. 42-inch widths. Sculptured nylon. Per yard 1.29

Orlon Rayon Flannel Suiting
Just in time for your new Spring suit! 54-inch flannel suiting made of 50% orlon, 50% rayon. Makes up beautifully into little boys' suits, pleated skirts, dresses and suits. Assorted colors. Per yard 1.49

Imported Gold Sateens
Beautiful, rich patterns imported from Europe. Lovely all-over designs in heavy gold overlay with predominating shades of blue, aqua, red, pink, black, rose and brown. A luxury fabric at a bargain price. Seen in advance Spring and Summer styles exclusively—in short formals, sun dresses, Spring afternoon dresses. Ten different designs — rich gold overlay. 36-inch widths. Per yard 1.29

Fine Wale Corduroy
So easy to make into lovely suits, jumpers, and dresses for the children—ideal for a two-piece Spring dress for Easter. Beautiful fresh colors of lipstick red, royal, electric blue, dusty rose, aqua, golden rod and rust. 36-inch width, fine-wale corduroy. Per yard 1.19

SOFT FLUFFY FLANNELETTE
Ideal for making up perky pyjamas for the children — cuddly nightgowns — and baby clothes. Comes in assorted floral and children's patterns. Washes perfectly. First quality, 36-inch cotton flannelette. Per yard ..... .49

U.S. Armed Services Show Missile Films

NEW YORK (AP)—The armed services shed new light on their missile programs Tuesday by announcing hitherto unidentified projects and showing motion pictures of some of them publicly for the first time.

The disclosures were made at the annual meeting of the Institute of the Aeronautical Aciences.

Maj.-Gen. B. A. Schriever, boss of the U.S. basslistic program, said the program is "beginning to pay dividends"—and that the Thor 1500-mile Intermediate Range Ballistic Missile had entered its flight test phase, while the Atlas and Titan 5000-mile Intercontinental Ballistic Missile programs had met "major milestones on schedule."

SHOWS FILM

At the same time Schriever announced the existence, and showed films of, two research vehicles, the Lockheed X-17 and the North American X-10.

Lt.-Gen. James M, Gavin, chief of army research and development, announced — and showed films of—a new army "field artillery guided missile," the Lacrosse.

Gavin said the Lacrosse is "a deadly accurate missile for close tactical support of ground troops in the field."

He added:

"Lacrosse is an all - weather guided missile capable of destroying enemy strong points in the field to supplement air or artillery attack.

"It is propelled in flights by a solid fuel rocket motor."

WILL ANSWER FIRE CALLS

The new weapon was designed and developed by the Cornell aeronautical laboratory, Buffalo, N.Y., it will be produced by the Glenn L, Martin Co., Baltimore.

An army release, elaborating on Gavin's brief announcement, said Lacrosse-armed units will be able to answer calls for fire "in the same time as required for conventional artillery and with rapidity in the field comparable to that of 105 mm howitzers."

The essential parts of the Lacrosse system are the missile itself, a launcher mounted on a standard army truck, and a guidance station.

Request More Money to Meet Cost of Suez

LONDON (AP) — The government Tuesday asked Parliament an additional £39,000,000 to cover cover the costs of the Suez operation.

The request, contained in a white paper, said the money is needed to cover additional army expenditures for the current financial year ending March 31.

Prime Minister Harold Macmillan estimated last November when he was chancellor of the exchequer that the Suez military operations would cost Britain £35,000,000 to £50,000,000. Additional requests are expected to cover navy and air force expenditures.

Cattle Shipments Up One-Third In B.C.

VICTORIA (CP) — Shipments of cattle from B.C., increased by one-third last year over 1955 to a total of 101,730 head.

A smaller increase in shipments of hides was noted by government inspector of brands Thomas Moore in his annual report released today.

Largest increase in exports was to the Prairie market, which was more than doubled last year at 22,610 head.

Prices held well on good finished stock but were lower on unfinished stock, Mr. Moore said.

Frost Tables Ontario Hospital Insurance

TORONTO (CP) — The Ontario government Tuesday unveiled a hospital insurance plan aimed eventually at assuring basic hospital accommodation for every resident of the province.

In an explanatory speech, President Frost emphasized that inauguration of the plan is conditional on acceptance by the federal government which offered a year ago to assist financially in provincial hospital care programs provided they were launched by a majority of Canada's 10 provinces representing a majority of Canada's population.

BROADER SCHEME

The Ontario plan goes beyond the Dominion scheme since it covers care and treatment of mental illness and tuberculosis, said the premier. Both were specifically excluded from the Dominion offer.

Cost of the Ontario plan, based on covering all the province's 5,500,000 population in 1956, would be $160,000,000 a year. "By 1960, however, we are warned that the costs could total nearly $300,000,000," although these could be kept in hand by sound administration.

The Dominion government would contribute about 35 per cent of the cost of the Ontario plan. The rest would come from premiums paid by those insured and from the provincial treasury.

Rates of individual premiums had not been decided.

The plan would be administered by the Ontario hospital services commission established last year, by the Blue Cross hospital plan or by a crown corporation similar to Blue Cross with personnel drawn from the Ontario Hospital Association.

EASE MUNICIPAL COSTS

The plan would eliminate hospital deficits, lighten or remove from municipalities cost of hospital treatment for indigent patients and cover cost of care in mental hospitals or tuberculosis sanatoria through a small additional premium.

The Ontario proposal called on the Dominion to reconsider exclusion from its assistance formula of depreciation on hospital buildings, costs of administration and revenue from co-insurance plans under which insured persons make a specific payment for hospital treatment in addition to premiums.

In addition to standard ward care in active treatment hospitals, benefits would include in-patient diagnostic services, treatment in convalescent hospitals and hospitals for the chronically ill and specified out-patient services.

It would cover such extra services as operating room, delivery room, drugs and so on provided in hospital.

The "tooling up" in accommodation for a health plan had been going on since 1947 when approval had been given to construction programs adding 24,556 hospital beds and 3920 nursery bassinets. The province's capital grants totalled $47,000,000.

Oil Directors Sued For Over $10 Million

CALGARY (CP) — A $10,250,000 suit against the directors of Fargo Oils, Ltd. and two other oil companies was launched Monday by Peter A. Schwerdt of Victoria before the Supreme Court of Alberta.

Mr. Justice J. M. Cairns adjourned the case for three weeks to give Schwerdt's counsel time to find Schwerdt and have him appear in court.

Schwerdt launched the suit claiming misconduct and mismanagement by the board of directors of Fargo Oils, General American Oil Co. of Texas and General American Oils, Ltd.

The case was adjourned to Feb. 18.

Union Objects To Employing 18 Refugees

KELLOGG, Idaho (AP) — The Bunker Hill Co., replying to union protests against the hiring of 18 Hungarian refugees, said today it had to hire 12 unskilled workers to get six needed technicians.

Bunker Hill sent personnel representatives to Camp Kilmer, N. J., to hire technical help and the local mine, mill and smelter workers union passed a resolution opposing their hiring "as long as present residents of this country are rustling for a job in the district."

The union distributed a mimeographed statement here explaining its stand, claiming a refugee is not in a favorable position to protest working under "hazardous and unhealthy speed-up conditions."

"The fear that a protest might lead to his being sent back to almost certain imprisonment would likely provide a powerful incentive to him to accept sub-standard conditions and remain silent," it said.

"We see in this kind of squeeze play a great anti-union danger."

The union pamphlet gave this definition of a refugee:

"Usually one who leaves his country during a time of strife. He is usually one who, having helped start the fireworks, has sufficient money to enable him to pull out when the going gets rough, leaving the working people and others who have little or no financial means holding the sack."

The 18 refugees and their families arrived earlier this month to make their home here and work for Bunker Hill, North Idaho's largest lead producer.

Convict Jet Pilot In Damage Charge

NICOSIA, Cyprus (Reuters) — RAF jet bomber pilot was convicted today of deliberately damaging his aircraft before takeoff to avoid bombing Egypt last November.

A court-martial found FO Dennis Kenyon, 24, guilty of 'wilfully' lowering the undercarriage of his Canberra bomber to avoid carying out "a warlike operation in the air."

Sentence was not announced immediately.

Kenyon, who pleaded not guilty, testified at the start of his trial Monday that he had accidentally pushed the wrong button because of nervousness on his first combat mission.

The air force alleged that Kenyon claimed it was an accident only after a serious charge had been made against him and "he sought a new avenue of escape."

Kenyon was found guilty of the main charge of deliberatly retracting the plane under-carriage before take-off Nov. 1 "with intent to relieve him from carrying the said order to bomb Suez into effect."

CONTEMPLATED SUICIDE

The red-haired Kenyon admitted that he had stated that he did not agree with Britain's military action in Egypt, but he had no political or religious views and he thought it was far better to say he had intentionally caused damage rather than to say he had made a mistake and was incompetent.

Kenyon told the court at this point that he had contemplated killing himself

Kenyon said: "I had been training for five years. Flying means more than anything else to me in life—and this mistake at testing time meant I had failed miserably."

Kenyon, who is married, said he arrived in Cyprus in mid-October with the possibility of an operaton in the offing. He added:

"I was rather worried and with the approach of time, worry increased and on the day in question I was in a very excited condition, unable to sleep or eat."

Canada Forms Fund For Old Actors

TORONTO (CP) — Members of the theatrical profession have formed a charity organization called the Canadian Actors' Fund to care for people of the theatre who are no longer capable of earning their livelihood and need financial aid.

The organization is patterned after the American Actors' Fund, founded in 1882 and which last year paid out about $400,000, to help elderly and unemployed actors.

Actors' Equity Association of Canada has endorsed the organization and is providing voluntary staff and facilities until an independent agency can be formed.

To raise money for its charitable work, the actors' fund will sell monthly memberships at $2 each which entitle holders to attend business meetings and benefit performances.

Chairman of the fund, Toronto actress Jane Mallett, said she has plans for many benefit performances to be held across the country.

Fire Destroys Railway Shop At Spokane

SPOKANE (AP) — A $200,000 fire in 10-below weather destroyed the Northern Electric Railway Co. car shop and five boxcars Monday night.

Fire Chief W. A. Dunham said railway company hydrants near the buildings were frozen and firemen had to search blocks away to find hydrants that would work.

No one was working in the 300-by-150-foot frame building at the time and no one was injured in the fire. The building contained railway offices, tools and machinery for repair and manufacture of boxcars.

Dress Up With Marian Martin

CINCH TO MAKE!

Five days out of seven, this is the dress you'll reach for! It's easy to sew—jiffy to iron—always looks crisp and fresh! Make it all one color, or have the top and skirt contrast for a smart new separates effect. Choose faille, linen, bright cottons.

To Test Smog By Machine

VANCOUVER (CP) — A machine that delicately sniffs the atmosphere and records the density of air pollution is expected to be installed atop city hall or the police station here, it was learned Tuesday.

The $350 machine has been ordered by the city engineering department to assess the amount of smoke, industrial ash and dirt in Vancouver air.

A tiny vacuum pump draws in air and then expels it through a filter tape. Samplings from the tape are fed through another part of the machine to establish the degree of pollution.

The machine has already been tried out in the Sarnia-Windsor area of Ontario and in Trail.

City smoke inspector Joe Satterwaite said that although the amount of soot falling on the city has decreased in recent years — to 20.7 tons per square mile last year from 32 tons in 1949 — there is still room for improvement.

Royal Advisers Opposed Schooling For Charles

By ADRIAN BALL

LONDON (Reuters) — British newspapers say the Queen and the Duke of Edinburgh disregarded the views of orthodox advisers in sending Prince Charles to day-school for a "democratic training for kingship."

The tousle-haired, eight-year-old Charles became the first heir to the British throne to attend an ordinary school. In the past, future kings and queens were educated by private tutors.

Charles beacme a pupil earlier this week in a modest private school near Buckingham Palace.

He sat next to a doctor's son at an oak desk in one of the cream-and-green schoolrooms. His other schoolmates — 101 in all —include the sons of lawyers, clergymen, journalists, businessmen and service officers.

LUNCHES EXTRA

His schooling will cost between £27 and £30 a term, with lunches two shillings and sixpence (35 cents) a day extra.

Teachers reported that Charles enjoyed every minute of his first day.

Headmaster is a 47-year-old former artillery colonel and onetime clergyman who in his youth represented England as an athlete in international events.

The school is run on modern lines by a staff of eight women teachers, and the most severe punishment that a boy can receive is to be deprived of taking part in his favorite sport.

The headmaster told reporters: "A school should be a happy place and the first thing we aim at is that the boys should be happy. We teach the boys how to get along together; and that they must regard themselves as one of a team."

DISREGARDED ADVICE

The Daily Mail says the Queen and her husband are insisting on their son having a democratic education "despite the advice of some of their more orthodox advisers."

The newspaper adds: "The Duke's own experience of school life was the deciding factor." The Duke attended a "free expression" school in Scotland.

The prince will spend 6½ hours at the school five days a week, for the next 18 months. A report on his work will be sent to Buckingham Palace each term.

Newspapers did not give the name of the school he is attending now, allowing Charles privacy from the curious.

Officer Demoted In Traffic Charge

VANCOUVER (CP)—Staff Inspector John Dunn has been reduced to the rank of inspector in the city police department after being found guilty on two charges laid under the police disciplinary code.

The disciplinary charges were laid after Dunn was fined $30 in North Vancouver police court for driving without due care and attention. He pleaded guilty. They grew out of a traffic accident in North Vancouver.

Though reduced in rank Dunn will retain first place on the seniority roll of police inspectors.

SUGAR BEETS

World production of sugar beets in 1956 is estimated at 130,000,000 tons, a gain of 4½ per cent over the previous year.

Opportunities and Difficulties Face Canadian Exporters To East

By FORBES RHUDE
Canadian Press Business Editor

Countries of Australasia and the Far East currently offer many difficulties for Canadians wishing to sell there, but there are opportunities, too.

This seems to be the gist of comment by C. F. Terrell of Toronto, assistant export manager of Coleman Lamp and Stove Co. Ltd. following a visit to those areas.

Here are highlights from his remarks, as given to a Toronto meeting of the Canadian Exporters' Association:

Australia: — Current policy is to increase exports, produce everything possible required for Australian consumption and reduce imports to the lowest possible level. To trade, one must have something very essential such as capital equipment and raw materails. Those who wish to participate in the Australian market should either be prepared to establish branch plants or become associated with established Australian firms.

New Zealand: — New Zealanders will do everything in their power; to assist the United Kingdom. Recent advices indicate that import licences for dollar goods for have been cut by some 50 per cent at U.K. request. However, there is a market for Canadian goods but you must go looking for it.

Fiji: — Fiji is a very large dollar earner with which few Canadian exporters seem to have business relations. They have import-restrictions but have been very fair to Canada.

Hong Kong: — It creates much of present competition in south-east Asia — along with Japan, Germany and China. Conditions such as labor and factory conditions and costs add up to low-cost production and, amazingly enough, quality is satisfactory.

China — The United States has tried to cut off supplies to the mainland, but China is able to buy almost what she wants. But what does she want? Certainly not consumer goods. China encourages visitors, issues visas without difficulty, arranges transportation, hotels and guides, and is again looking for export markets.

Thailand: — This is a wonderful country and an excellent market if you are competitive.

Philippines — Main problem is competing with Americans, who receive preferential tariff treatment.

Singapore and Malaya: — Import restrictions continue, but if you are competitive there is always the opportunity of shipping via Hong Kong.

Western Samoa, Cook Islands, New Guinea, Papua, Society Islands (Tahiti), New Caledonia, New Hebrides, American Samoa, Carolines, Hawaii and many other islands:

Don't overlook them. With proper representation business is available.

Mr. Terrell advised exporters to seek more efficient production methods; analyze material costs and try to find lower-priced substitutes; take every advantage of duties and sales-tax drawbacks; make sure commodity descriptions are correct and that lowest possible inland and ocean freight rates are applied; and appeal to the steamship conferences when ocean freight rates put prices out of line.

Protest Rates For Booklet

PENTICTON, B.C. (CP) — Two aldermen protested at a council meeting here against the advertising rates in the British Columbia Centennial Record.

The cost of a page in four colors is $1200, said alderman J. G. Harris, while three colors costs $950 and one color $800. He asked how many communities could pay for this type of advertising.

Alderman A. E. Titchmarsh said the B.C. Centennial Committee and the government should prohibit sale of space.

Told that big companies are buying space to advertise B.C. and their products, Mr. Titchmarsh said: "Centennial documents should be above that kind of venality."

Council decided to advise the publishers that they are not interested in such advertising and that advertising should not be sold in the booklet.

City clerk H. G. Andrew noted that every community will have an item in the boklet whether they buy advertising or not.

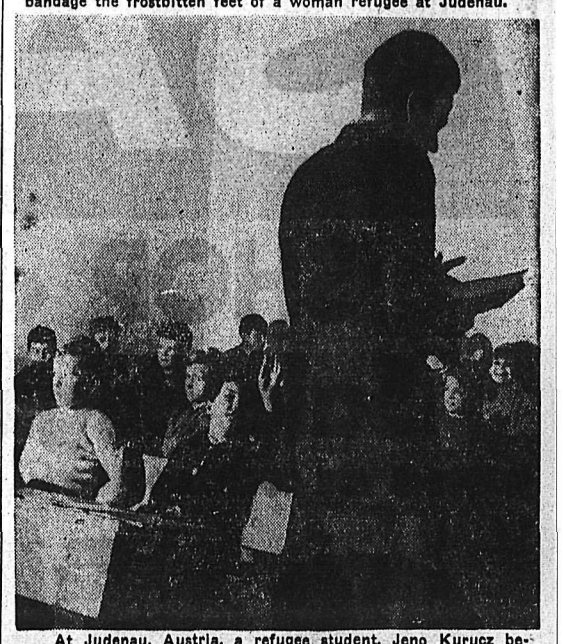
Austria Harbors 80,000 Refugees

Dr. Baudouin and a Red Cross nurse, both from Holland, bandage the frostbitten feet of a woman refugee at Judenau.



At Judenau, Austria, a refugee student, Jeno Kurucz becomes teacher for a group of his younger countrymen. The classroom was installed and is maintained by efforts of the Austrian students.

Volunteer helper from the University of Vienna, Ingeborg Ewers slices bread for refugees at Judenau, Austria. Over 1400 refugees are accommodated there, and university and high school students from surrounding schools do most of the work.

So far, half of the estimated 165,000 refugees from Hungary have managed to get no farther than Austria in their flight to freedom. Most of them are young and crossed the border with no possessions other than the clothing on their backs. In Austria they find friendship and hope and usually adequate food, but they realize, at the rate their numbers are being absorbed into other countries, they may have a long, long wait in Austria where they cannot possibly be absorbed into the economy of the country. One of the outstanding services performed by the Austrian border residents is the patrolling of the border watching for refugees fleeing under the noses of Communist guards. As soon as refugees are spotted they are hustled out of the range of Communist guns. Many Hungarians have been shot close to the border.

Bennett Refuses Discussion On B.C. Multi-Million A-Project

VICTORIA (CP) — Premier Bennett declined comment Tuesday on a report that B.C. had lost a chance to become the site of a multi-million dollar atomic project.

"Everybody is entitled to their opinion," he said, referring to the statement made in Vancouver Monday by Prof. Harry V. Warren of UBC.

Prof. Warren said the development, by European interests, hinged on construction of the $500,000,000 Moran Dam on the Fraser, which has been stalled in a fish-versus-power dispute.

Premier Bennett would not say whether approaches had been made to his government by the six European countries said to be ready to go head with the atomic project.

Takes nothin' from nobody

...outclasses 'em all!

When the light says "go"—you GO! You leave the pack behind when you nudge the accelerator of the new kind of Ford! Pick your own brand of ginger—a great V-8 like the one that broke 458 power-and-endurance records on the Bonneville Salt Flats . . . or the road-proved Mileage Maker Six—the most *modern* Six in Canada! Whichever you choose, *you'll take nothin' from nobody!*

Even-Keel Ride lays a pavement on every road! A big part of the magic of the new kind of Ford is in its revolutionary new frame-and-suspension system—Even-Keel Ride. It smooths the bumps, straightens the curves, paves the road in front of you. You sit low, snug and comfortable, while your Ford hugs the road like a coat of paint. It's fun to go first—and go *smooth*—in a Ford!

Ford makes it easy to feel like a million! Ford's styling is a whole era ahead of the field. It's the kind of styling that makes people stop and stare with envy, the kind that makes competitive cars look old-fashioned! It's yours in 18 Ford models—9 Fairlanes, 4 Customs, 5 Wagons—every one of them long, low and lovely!

Quality goes deep in the new Inner Ford! Ford has built-in quality in places you never see. Bodies are heavier, more sturdily built; they're completely insulated to keep out sound and weather; doors close with the solid authority of a bank vault. Every nut and bolt is new, each inch newly engineered!

In looks . . . in get-up-and-go . . . in satin-smooth ride . . . in quality and solidity . . . *Ford takes nothin' from nobody!*

—that's the new kind of FORD with Even-Keel Ride

Leafs Overpower Dynamiters 7-1

Nelson Maple Leafs, seeking revenge after a recent 8-4 defeat in an exhibition encounter with the Dynamiters in Kimberley, came roaring back with a 7-1 victory over the same team at the Civic Arena Tuesday night.

The able goaltending of Gus Adams and offensive work of Wendy Keller, who scored twice and assisted on two others, and linemate Lee Hyssop, who also scored two, were the main reasons for the one-sided victory.

Keller, star of Leafs' most recent WIHL game, a 7-0 whitewashing of Trail Smoke Eaters, continued his effective play in the exhibition tilt. With Keller's two second-period goals and the first period counters by Hyssop, defenceman Marsh Severyn and playing coach Pat Egan, Leafs piled up a 5-0 lead before Barry Craig notched Kimberley's only goal at 14:30 of the second.

Hyssop's second goal at 17:33 and Pilla's early in the third completed the scoring. Pilla and teammate Dave Stewart picked up the only penalties of the game.

Lineups:

Kimberley—Goal: Betker; defence: Andre, Jones, Pelto, Kershaw; forwards, Mellor, Bell, McNiven, Craig, Barre, McTeer, Nash, Matthews, Rondquist

Nelson—Goal: Adams; defence, Severyn, Gare, Stewart; forwards: Hyssop, Keller, Maglio, Pilla, Gaber, Koehle, Siminoff Lipsack, Egan.

Summary:

First period—1, Nelson, Hyssop, (Keller) :31; 2, Nelson, Severyn (Lipsack) 6:14; 3, Nelson, Egan (Gaber, Severyn) 9:30

Penalties: None.

Second period:

4, Nelson, Keller (Egan) 7:06; 5, Nelson, Keller (Gare) 13:32; 6, Kimberley, Craig (Bell) 14:30; 7, Nelson, Hyssop (Siminoff) 17:33;

Penalty—Pilla 8:39.

Third period—8, Nelson, Pilla (Keller) 1:19.

Penalty—Stewart 11:45.

Ferguson Blasts Pro Tennis

MELBOURNE (AP)— Don Ferguson, president of the Lawn Tennis Association of Australia, has launched a new blistering attack on professional tennis. He said Tuesday:

"Professional tennis could easily rob Australia of all its topline players within two or three years."

Ferguson recently opposed the renting of Kooyong, Australia's Wimbledon, to professional promoter Jack Kramer. He accused Kramer of trying to "kill" amateur tennis.

Ferguson's new blast, registered at an LTAA meeting, apparently was provoked by the poor crowd turnout for the Australian national championships, completed Monday at Kooyong.

The galleries were the smallest in years, sometimes reaching no more than 2,000. The stadium has held 15,000 for Davis Cup matches.

HERB CAPOZZI, former tackle with Montreal Alouettes, was recently appointed general manager of B.C. Lions of the Western Interprovincial Football Union. He retired from the Als of the Interprovincial Rugby Football Union last year. He had been working with the CBC in Montreal as a program executive.—CP photo.

League Considering Catastrophe Plan

CHICAGO (AP) — The American League is preparing a catastrophe plan which would enable a baseball club, if disabled by a transportation accident to continue with a high-calibre lineup selected from a league player pool.

A three-member committee is putting the finishing touches on the plan, to be submitted to the league at its meeting in New York Friday.

Thinking of a rehabilitation plan first started with concern over possible serious personnel loss in a plane crash but was expanded to cover any kind of transportation accident which might prevent a team finishing its schedule.

The plan hinges upon uniform insurance precaution by all clubs which might total $1,750,000 a club. Virtually all carry nearly that much insurance now.

In event of a club disaster a league meeting would be held to determine how many players will be required by the disabled club. The other clubs would submit a list of 10 players from their normally active list of 25.

PICK FROM POOL

From this pool, the disabled team could pick one or more players from each club with a theoretical price list of, say, $100,000 for the first choice, $75,000 for the second, $50,000 for third, etc. Because each team would submit its own 10-player list, there would be no possibility that players such as Mickey Mantle, Ted Williams or Al Kaline would go to the crippled club.

The available talent would be of major league calibre. Members of the rehabilitation committee include Joe Cronin of Boston Red Sox, Hank Greenberg of Cleveland Indians and George Weiss of New York Yankees.

BEATS RECORD

BRISBANE (Reuters) — John Devitt, Australian Olympic swimmer, Monday broke the men's 100-metres free-style world record with a time of 54.6 seconds.

Devitt, competing in the Queensland championships here, clipped 2-10ths of a second off the record 54.8 established by Dick Cleveland of the U.S. in April, 1954.

Coach Warwick Paces Smokies To 6-2 Victory Over Rossland

ROSSLAND — Defenceman Harry Smith scored a split second before the buzzer sounded the end of the Western International Hockey League game here Tuesday night, finishing off Trail Smoke Eaters 6-2 victory over Rossland Warlors.

Playing coach Grant Warwick was the mainspring of the Trail win as he scored a hat trick. Jack McIntyre and Adi Tambellini accompanied Smith in the single goal department.

The two Rossland markers came in the final frame off the sticks of forward Steve Chorney and defenceman Vic Lofvendahl. Lofendahl scored after only 42 seconds third period play and ruined Seth Martin's hopes of a shutout. Trail's Bill Warwick was sitting out a cross-checking penalty when the goal was scored.

Of the five penalties handed out by referees Bob Maker and Al Toikko, three went to Smokies. The victory left Trail only two points behind front running Spokane.

GRANT SCORES FIRST

The game was at a scoreless standstill until 8:24 of the first period when Grant Warwick neatly scored his first goal of the night. The Trail general faked Reno Zanier to the lefthand side of the net and slapped the puck into the goal to the goaltender's right.

McIntyre followed his coach's example minutes later on assists from linemate Bobby Kromm and defenceman Joe Conn.

Appropriately enough, Grant, who opened the scoring also closed it for the period with the eventual winner. He slapped the puck at Rossland goaltender, then knocked in his own rebound as Zanier fell attempting to make the save.

The Trail leader's third marker came early in the second frame with brother Bill sitting out a highsticking penalty.

Tambellini made it a total of five midway through the second to give Trail a comfortable edge going into the finale.

Despite the loss, Zanier worked well between the Rossland pipes. He turned aside a total of 36 shots while Martin at the Trail end made only 23 stops.

LINEUPS

TRAIL—Goal: Martin; defence: Smith, Conn, Kraiger, Coburn; Forwards: Tambellini, Hoekley, B. Warwick, G. Warwick, D. Warwick, Shabaga, Kromm, J. McIntyre, Penner.

ROSLAND—Goal: Zanier; defence: Fletcher, Lofvendahl, Short, Ferguson; Forwards: P. McIntyre, Turik, Luchini, Hyssop, Chorney, Andrews, Rypien, Birukow, Desrosiers.

SUMMARY

First period — 1. Trail, G. Warwick (D. Warwick, Penner) 8:24 2. Trail, J. McIntyre (Kromm, Conn) 1:00. 3. Trail, G. Warwick (Penner, D. Warwick) 15:28.

Penalties: Andrews 2:24, Smith 12:54.

Second period — 4. Trail, G. Warwick (Kraiger) 4:29. 5. Trail, Hockley (Smith) 12.06.

Penalties: B. Warwick 3:05, Short 16:10, B. Warwick 19:16.

Third period — Rossland, Lofvendahl (Lucchini) :42. 7. Rossland, Chorney (Birukow - Lucchini) 7:07. 8. Trail, Smith (B. Warwick) 19:59.

Penalties: None.

30 Rinks Entered For B.C. Bonspiel

Up to Tuesday night, 30 rinks had entered the British Columbia bonspiel to be staged here starting Monday. Officials of the host Nelson Curling Club said it was hoped to bring the entries up to 40 by Friday night, the deadline.

Entered to date are eight rinks, one from each curling zone in the province who will compete for the right to represent B. C. in the Dominion finals and will also participate in the B. C. bonspiel; 10 rinks from outside of Nelson who will participate in the B. C. spiel only, and 12 Nelson rinks for B. C. play.

Among the out-of-town rinks coming will be one skipped by E. Doebell of Vancouver's Capilano Club and including two Coast newspaper men, sportswriter Annis Stukus and manaing editor Hal Straight of The Vancouver Sun.

Stukus is well known across Canada for his sports endeavors, particularly in football. He is former coach of B. C. Lions and Edmonton Eskimos football teams of the Western Interprovincial Football Union.

Bonspiel organizers expressed disappointment that more local rinks had not entered out of the Nelson club's membership of 160. "Too many skips have banded together, thus limiting the number of rinks as well as limiting the classified leads and seconds from the club participating," it was stated.

From Trail Curling Club, one of the largest curling clubs in B. C., only one rink—the Reg Stone crew who will represent the West Kootenay zone in provincial playdowns—has entered to date, it was noted.

Ski Slants

By SILVER KING SKI CLUB

The day we had been waiting for came last Sunday, when the wheels started turning on our new ski lift. Actually no one was really sure that the cable would go around the bull-wheels and pull skiers back up the hill. Now we know it will — of course there are "bugs" to be ironed out. We found that holding onto the ropes was too tiring on the arms and the ropes need to be guided around the towers at top and bottom.

Many skiers voiced their disappointment, but you must realize that this lift has been the creation of our mechanical group and never having made anything like this before — they couldn't be expected to have everything perfect the first run but you can bet they are working day and night to correct the faults. The rest of us should be patient and realize the problems they have and you can bet they will fix them.

* * *

We have another problem on the ski hill too. Many of the skiers who were beginners a few weeks ago have advanced now through The Daily News free ski lessons to the stem turn. To learn this the students must traverse the hill. This makes it difficult for the advanced skiers, who ski from the top of the hill to the bottom, to miss hitting students traversing the hill. In a couple of weeks most of the beginners will have graduated to semi-advanced skiers and this problem will ease up. In the meantime we hope every one will realize that the main difficulty is our hill is too small — a situation which cannot be remedied till next season —also we must realize that all the new skiers are going to make Nelson a real ski centre.

* * *

Ski classes will continue again on Saturday and Sunday this weekend. Please try and give your name early each day for the class you wish to take. Classes start at 11 a.m. on Saturday; 10 a.m., 1 p.m. and 3 p.m. on Sundays. Those wishing instructions must report each day in the cabin.

Golfers Plan Tour

PALM SPRINGS, Calif. (AP)— The Professional Golfers Association has announced a 10-week tournament tour of the west to follow the Tam O'Shanter in Chicago in 1958.

Ed Carter, PGA tournament bureau manager, said high spot of the tour will be a $50,000 centennial tourney at Vancouver, B.C., over Labor Day.

Cards End Deals, Sign Musial

ST. LOUIS (AP) — St. Louis Cardinals wound up their 1957 contract business Tuesday by signing Stan Musial, the National League's highest-paid player.

The 36-year-old first baseman and outfielder presumably signed again for about $80,000, his reported salary since 1951.

"I'm not so sure whether we signed Stan or he signed us," said general manager Frank Lane.

Asked whether there was any change in his contract, Musial said, "I've never had any difficulty with the Cardinals and I am very happy with my contract."

"I want to play as long as I can and do a capable job," he added. "Once you're past 35 you are on a year-to-year basis, but I think I can keep playing a couple more years at least."

BROOMBALL GAME ENDS 1-1

At the Civic Arena on Sunday night, members of the City electrical and fire departments engaged in a friendly game of broomball, which ended in a 1-1 tie.

Jimmy Lowe of the electrical department and fireman Bing O'Neill scored the counters. Outstanding players were Lowe, Bud Hesse, and Winlaw for the electrical boys, with staunch defensive work by Brian Ryley and Ted Jalotte, aided by forwards Jimmy Lowe and Ken Wyley. Referee Fire Chief E. S. Owens assessed one penalty to Jack Morgan for wrestling with the goal-tender.

Two firemen suffered injuries. Bill Eckmier sustained a broken wrist, and Ted Gillott suffered a sprained ankle.

The game was the aftermath of a Civic skating party and bean supper. About 20 fans, including Mayor Joseph Kary, city councillors, and their wives, cheered the players.

$22,000 FOR INJURED CHAMP

NEW YORK (AP) — A total of $22,000 is being turned over to the Art Larsen fund to help pay medical expenses for the former national tennis champion who was severely injured in a highway accident last November.

The announcement was made Tuesday by fund officials. A total of $13,000 was realized through sale of tickets for a tennis exhibition. The rest was donated.

Larsen, partly paralyzed and blinded in one eye, is reported slowly improving.

Knox May Join National Football League

CALGARY (CP) — Reports that quarterback Ronnie Knox may sign with the National Football League in the U. S. are not disturbing Calgary Stampeders of the WIFU. Knox, who played with Hamilton Tiger-Cats of the Big Four and later with Stampeders last season, is said by Chicago Bears owner George Halas to be thinking of joining the NFL club. He was Chicago's third draft choice.

BOLD RULER RUNNING

MIAMI, Fla. (AP) — Wheatley Stable's Bold Ruler and 12 other outstanding three-year-olds compete today at Hialeah Park in the $20,000-added Bahamas Stakes.

SCOTLAND'S CONTRIBUTION to the Royal Montreal Curling Club's 150th birthday bonspiel are seen here taking time out to chat with Fred Lucas, left, past president of the Dominion Curling Association. Alex MacMaster, W. S. Henderson and R. T. Grierson are members of the Scottish rink. Scots' chances of retaining the Strathcona Cup are slim. After Monday's play Canada had 1030 points, Scotland, 833. —Central Press Canadian.

NHL Scoring Race Between Beliveau, Lindsay, Howe

MONTREAL (CP) — Messrs. Beliveau, Lindsay and Howe — take your pick—appear to have the 1956-57 National Hockey League scoring title in the bag.

They have monopolized the first three positions since Nov. 20 when the 70-game schedule was about 20 games old.

Now, with about 25 games remaining, they have accumulated such a head start on the rest of the lineup that it appears a superhuman effort is needed to overtake them.

The official NHL statistics, released today, show Jean Beliveau of Montreal Canadians and Ted Lindsay of Detroit Red Wings tied for first place with 59 points each. Lindsay's team - mate, Gordie Howe, is third with 58.

The fourth man in the race, Norm Ullman of the Red Wings, is 14 points behind Howe.

THE LEADERS

Tennis Star Shirley Fry Plans To Wed

MELBOURNE, Australia (TP) —U. S. women's tennis star Shirley Fry said today she will not defend her Wimbledon and American titles this year.

Miss Fry, who will marry fellow American Karl Irvin in Sydney, Feb. 16, will live in Sydney for the next three or four years and will not tour.

"After that I am not certain nor can I say definitely when we will return to the United States," Miss Fry said. "If we like living here we may settle for good."

Miss Fry added the Australian women's championship to her list of titles Monday when she defeated Althea Gibson.

The couple announced their engagement last November after knowing each other for 10 years.

Detroit Coach Says Wings in Good Spot

By DAVE DILES

DETROIT (AP) — Possibly no two teams in National Hockey League history have been more evenly matched than Montreal Canadiens and Detroit Red Wings.

Eleven times the Wings have won the NHL championship. It has gone to Montreal nine times, since the league took its present shape in 1926-27.

The Stanley Cup has gone seven times to Detroit and six times to Montreal.

The 1956-57 season finds the two clubs in a hot battle for the league lead and they're even in games played between each other. Detroit has won three games at home and Montreal has come up with three victories on home ice. There has been one tie in Detroit and one in Montreal.

What the two clubs do in their remaining six games with each other will decide which team takes the laurels, says Detroit coach Jim Skinner.

WINGS LEADS NOW

Red Wings enjoy a three-point lead and have played one game fewer than Canadiens.

"Last year we were chasing them," said Skinner. "We had to beat Canadiens to gain any ground at all. That makes it a lot rougher, puts the pressure on the second-place team a lot more. Now the situation is reversed. They have to catch us."

Although Boston Bruins grabbed an early lead this year they are given little chance to overtake either Canadiens or Wings. Bruins lack depth and are in third place.

The other three clubs, New York Rangers, Toronto Maple Leafs and Chicago Black Hawks, are scrambling for the fourth and last playoff spot, with Hawks just about counted out of the running.

At this point last season, Montreal had won four, lost three and tied one against Wings. After that Detroit could manage just one win and one tie in the last six contests. Canadiens won the last four in succession over Detroit, scoring 15 goals to the Wings' six.

It was all even between the two teams in the 1953-54 and 1954-55 seasons, too. They begin their stretch-drive Thursday in Montreal and resume the activity Sunday in Detroit.

Four Teams Enter Fernie Puck Tourney

FERNIE — All arrangements have been completed for the Fernie 3300 Club's second annual hockey tournament to be played in the Fernie Arena Saturday.

Four top intermediate teams from southeastern British Columbia and southern Alberta have accepted invitations. They are the Coleman Grands, Lethbridge Allisters, Fernie Rangers and Cranbrook Selkirks. Last year's tournament winners were the Coleman Grands. Proceeds of the event are used by the 3300 Club in their promotion of pee wee hockey and the upkeep of the 3300 park.

Fielder Leads Maloney By 17 Points

SEATTLE (CP) — The three top scorers in the Western Hockey League garnered only two assists each last week, but their individual scoring leadership was not seriously challenged.

Guyle Fielder of Seattle, with a pace-setting 50 assists, has a total of 81 points, 17 more than Vancouver's Phil Maloney, league headquarters said in statistics compiled before Tuesday night games.

Maloney's total is made up of 27 goals and 37 assists Eddie Dorohoy of Seattle is third with 20 goals and 40 assists. Sid Finney of Calgary and Ray Kinasewich of the Americans are tied for fourth with 57 points and their 29 goals each are also tops in the league.

The top 10:

	G	A	Pts
Fielder, Seattle	22	59	81
Maloney, Vancouver	27	37	64
E. Dorohoy, Seattle	20	40	60
Finney, Calgary	29	28	57
Kinasewich, Seattle	29	28	57
Senick, Seattle	23	26	49
Wylie, Vancouver	13	36	49

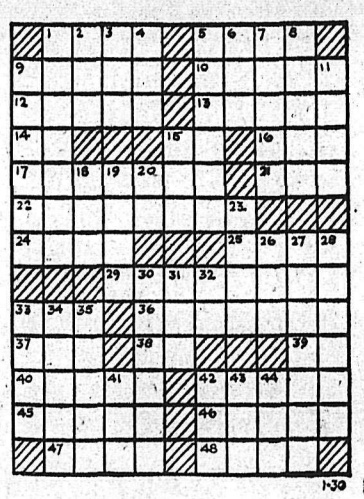
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

M Y J T R O P F T J O R P W L, J T R S P T • T J L B W M L R Y J W L O R D P F F R F — O R M T R.

Yesterday's Cryptoquote: INTO EACH LIFE SOME RAIN MUST FALL, SOME DAYS MUST BE DARK AND DREARY —LONGFELLOW.

Calgary Livestock

CALGARY (CP) — The cattle market was moderately active at the stockyards Tuesday as 900 cattle and 25 calves were offered. Bulk of the offerings was good butcher steers and heifers. Good and choice light butcher steers steady; choice kinds scarce; good and choice steers over 1150 lbs. steady.

Good and choice butcher heifers firm; common and medium grades generally steady; medium to good cows steady with odd sales topping 10; bulls fully steady.

Choice steers 17.50-18.50; good 16.50-17.50; medium 14-16; common 12-14, choice heifers 15-16; good 13.50 - 14.50; medium 12-13; common 10-11.50; good cows 9.50-10; medium 8.50 - 9.25; common 7.25 - 8.25; canners and cutters 5.50-7; good bulls 10.50-11.50; common to medium 8-10; good feeder steers 15.50-17; good stock steers 16-16.50; common to medium 12-15; good butcherweight heifer calves 16 - 17.50, odd sale to 18; good to choice veal 17-19; common to medium 12-15.50.

Hogs advanced 75 cents Monday 20 a grade; sows 15 liveweight.

Temporary Work Stoppage Hits Pacific Northwest

SEATTLE (AP) — Thousands of men were temporarily out of work in the Pacific Northwest Tuesday as a power shortage cut sharply into industrial production and cold weather caused layoffs in some lumber and construction fields.

Concern also was growing about the effect of the weather on crops — particularly spring cauliflower — in the Roseburg area.

Hardest hit by a power shortage was the region's aluminum plants. They have lost all their interruptible power loads and have had to cut production about one-third.

Kaiser Aluminum and Chemical Co. announced it is laying off 500 men at its Spokane plant and 50 at Tacoma.

Aluminum Co. of America sent some 170 workers home at its Vancouver, Wash., and Wenatchee plants.

And the Reynolds Metals Co. reported it laid off 300 at its Troutdale and Longview plants.

The contractor building the Dalles dam on the ice-blocked Columbia River furloughed some 500 men because of the cold. Closure of other industries in the region made idle 250 more.

At Albany in the Willamette Valley mills shut down Monday because logs were too brittle to turn on the lathes. Production difficulties also were caused by sheets of green veneer freezing together in stacks.

An estimated 1,000 were temporarily jobless in the Albany area because of the cold.

Market Trends

NEW YORK (AP) — A rebound by steels led the stock market to higher ground late in quiet trading.

U.S. Steel, after an uncertain start, was up around a point.

Distillers-Seagrams ran against a slight downward trend among Canadian issues on the New York exchange and gained ⅛. Walker-Gooderham was off ½, Hudson Bay Mining ¾, Granby Mining ¼ and Aluminium Ltd. ⅛. Canadian Pacific was unchanged.

TORONTO (CP) — The stock market was mixed in closing trading with industrials having about as many gains as losses but the declines moving in a wider range.

Senior base metals were mixed in a fractional range. Pronto Uranium gained 35 cents among lower-priced mines and Sherratt added 20 cents. Chibougamau Jaculet was off 20 cents.

MONTREAL (CP) — Industrial stock backed and filled throughout a listless session on the Montreal and Canadian exchanges. Price changes were generally held to small fractions.

Algoma dropped 2 points while National Steel Car advanced a point among steels. In base metals International Nickel and Smelters tacked on ¼ while Hudson Bay dipped similarly. Refining oils were mixed with McColl up ⅛ and International Petroleum off ⅝.

Money and Watches As Royal Tips

NEW YORK (AP)—King Saud distributed an estimated $20,000 in money and solid gold wrist watches as tips to personnel of the liner Constitution who served the royal party on its trip here.

Cash tips ranged from $100 to $400 each. Among those receiving gold watches was Capt. James LaBelle of the ship.

Wicks Accuses Sinclair of Being Not Truthful and of Arrogance

VICTORIA (CP) — Provincial Labor Minister Lyle Wicks Monday lashed out at the "arrogance" of the federal government and accused fisheries minister James Sinclair of "distorting the truth."

A claim by Mr. Sinclair that tolls on the Lions Gate bridge were being used to subsidize non-profitable bridges in the interior of the province was labelled "irresponsible drivel" by Mr. Wicks.

"Here was grossly-garbled misinformation being peddled by a minister of the crown," Mr. Wicks said in his strongly-worded address.

The remarks were contained in a copy of his speech given to the press before delivery on the provincial CBC free-time political broadcast.

The labor minister said Mr. Sinclair's "malicious invention" had come from "within the thick shell of arrogance and unreality which has encrusted Ottawa."

"Under the barnacles — under the cloak of infallibility — under the thick hide of arrogance — all respect for the public has rotted away," he said. "And gone with it is all ability to gaugue the public's requirements realistically."

Expect Action On Six-Day Shopping Plan

VICTORIA (CP) — Dormant for months, the issue of six-day versus five-and-half day shopping may soon become lively again in Victoria.

A strong indication that new legislation is planned was given last summer when the government, rejecting a Victoria request that six-da yshopping be allowed through order in council said "it is much wiser to consider your proposal in relation to the whole rather than deal with the problem in a piecemeal manner at this time."

At that time, Mayor Percy Scurrah viewed the government's decision as stemming from a heavy demand for revision of the 25-year-old Shops Regulation and Weekly Holiday Act. This act provides that stores, with some exceptions, must close for half a day each week.

"It means the government will consider the whole matter at the next session and probably bring in legislation dealing with it," the mayor said.

Further indication of intended action was given at the annual meeting of the Union of B.C. Municipalities, when the Department of Municipal Affairs, busy with the complete revision of the Municipal Act, sought municipal opinion on regulation of store hours.

Consensus of the municipalities, City Manager C. C. Wyatt says, seemed to be that they should be permitted to make their own store hours regulations.

Parochial School Poses Problem

COQUITLAM, B. C. (CP) — Reeve Jimmy Christmas will meet this week with the co-adjutor Archbishop of Vancouver in an effort to work out a settlement of Coquitlam's parochial school question.

Three Roman Catholic schools, valued at some $300,000, were taken over by the city last Sept. 30, for non-payment of back taxes amounting to $10,000. The district has been trying to get the schools off its hands ever since.

Reeve Christmas asked council to withhold further action until he has had a chance to meet with Msgr. Martin Johnson, co-adjutor archbishop in nearby Vancouver.

Fruit Growers Hope For Weather Break

KELOWNA (CP) — Okanagan fruit growers, mindful of the disastrous 1949-50 winter freeze and the below-zero readings in November, 1955, are anxiously awaiting a break in the weather which will bring an end to the current cold spell.

Temperatures this season have plunged to a low of 13 below. According to John Smith, supervising horticulturist, no serious damage has been reported to date, but if the mercury dropped to around 20 below, peaches and apricots would suffer.

Conant Resigns

WASHINGTON (AP) — President Eisenhower Monday accepted with "deepest personal regret" the resignation of Dr. James B. Conant as ambassador to West Germany. Conant, former president of Harvard University, told State Secretary Dulles he wishes to return to private life.

Head of U.K. Nuclear Works Arrives U.S.

MONTREAL (CP) — Viscount Chandos, head of one of Britain's four nuclear energy companies, arrived from New York for a brief visit to Canada accompanied by Lady Chandos.

Viscount Chandos as Oliver Lyttleton was minister of production from 1942 to 1945 and secretary of state for the colonies from 1951 to 1954.

He will meet with industrial and government leaders in Montreal, Ottawa, Toronto and Hamilton. He is chairman of Associated Electrical Industries, Ltd., in London and also heads the AEI — John Thompson Nuclear Energy Company.

NEW ALMANAC CARRIES HOST OF INFORMATION

By HARRY HANSEN

Foreign and domestic events that will affect the welfare of North America for many years to come are nominated as top news of 1956 by the World Almanac and Book of Facts for 1957.

Ahead of all other actions the Almanac puts the military intervention of Britain and France to obtain control of the Suez Canal, which split the Western Allies, united the Arab world, brought the Soviet armed might into the Middle East and failed to help Israel or curb Egypt.

Next in importance the World Almanac names the crushing of the Hungarian revolt by the Soviet Union, proving that Russianization is more important to the Kremlin than a peaceful world in which freedom and justice prevail.

Election results in the United States, the use of atomic energy for civil and military purposes and the results of desegregation also are among the top events described by the World Almanac and Book of Facts for 1957.

PRINTS DOCUMENTS

The impact of international events on the U S. is also reviewed, including the results of the down-grading of Stalin, Moscow's forgiveness of Tito's independent stand, the resurgence of the Polish national spirit and the repudiation of Stalin's hatchet men in satellite countries.

The World Almanac also publishes the essential documents in the Suez Canal dispute and describes the push of the Soviet into the Near East by sending arms and technicians and the effect on the security of Western Europe and the U. S.

The wide interest in celestial phenomena, spurred by the theories of earth satellites and space ships, has led the editors of the Almanac to augment the section on Astronomy. Information on how to study the stars and the weather, and what eclipses to expect, continues the information that has been traditional for almanacs since the days of Ben Franklin's Poor Richard.

The 1957 World Almanac continues its comprehensive reports of sports events, one of its most popular features.

The World Almanac annually reports the scientific events of the year and the section on medicine lists the newest developments in fighting disease. It features mountaineering and exploration. One of its most useful sections gives religious information.

The World Almanac and Book of Facts for 1957 is published by the New York World-Telegram and The Sun, 125 Barclay St., New York 15, N. Y. Paper $1.25; postpaid $1.35. Cloth $2.00, postpaid $2.10.

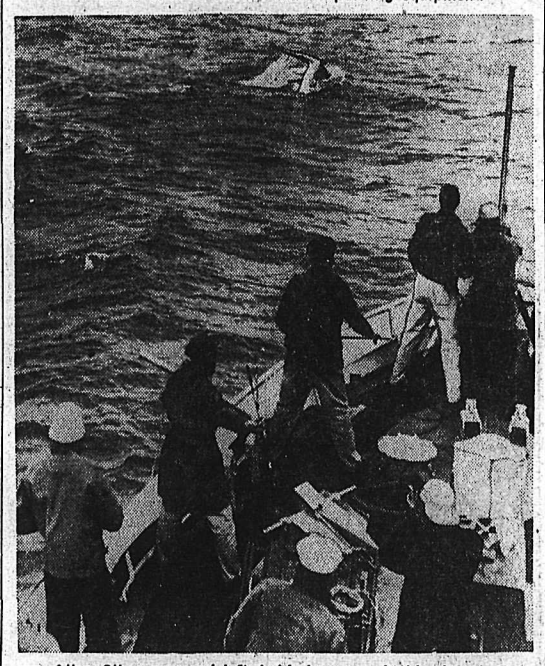
Whale Won't Be Tranquilized

Dr. Nolan with electrodes and harpooning equipment.



Allan Silvers, second left, holds harpoon. At his right is Dr. Nolan with markers. In distance is whale, but not at all tranquil.

These scenes show the attempt to get an electrocardiogram of a 50-foot gray whale by dosing it with 500 milligrams of the tranquilizing drug serpasil off Catalina Island, Calif. A human can be tranquilized by two and one-half milligrams. But the whale only got mildly docile. A syringe-like harpoon was shot through its 10-inch blubber and they gave it the juice, but to no avail. The whale shook the harpoon loose and dived—presumably to be the most tranquil whale in history once the drug took its full effect. All this was under direction of Dr. Frank G. Nolan, osteopathic surgeon. A similar experiment was attempted last year by Dr. Paul Dudley White, President Eisenhower's heart specialist. Dr. White didn't get any electrocardiogram either. Both want the electrocardiograms, heart tracings, for research.

MOSLEM SHRINE

The chief mosque at Mecca, Arabian city where Mohammed was born, is capable of holding 35,000 worshippers.

Odds... and Ends ... by M. D. B.

While his mother was choosing a few groceries from the shelves I heard a wee codger speaking in low wistful tones to the store's proprietor, "Do you think I could have sumpin?" he asked. Had his mother heard him she would have been horrified as all mothers are horrified when their offspring come out with some anti-etiquette-ism. Of course, underneath, mothers aren't horrified at all any more than any other adult who can remember being quite small once.

* * *

Why, I remember practically every time we went to a certain meat store on Baker Street I used to come out with a weiner in my grubby little fist which I had got by fair means or foul. I was amazed at how forgetful store people could be—didn't they realize their duty to such as me? But they were pretty good, I really didn't have to remind them very often.

* * *

I can remember being taken to the grocery store and being admonished on the way not to ask for anything. I don't know whether I promised not to or not. When we got there I waited a polite interval, watching every move the grocer made and when things got to a point where it didn't look as though the grocer was going to remember I finally asked him if I could whisper something to him. He lifted me up onto the counter, much to my elder's embarrassment, and I whispered to him, "Do you have any candies today?"

* * *

I remember he chuckled good-naturedly and gave me a couple of little candies and we parted the best of friends—we understood each other. I got a bit of a scolding on the way home, but it wasn't much—my elder must have understood too. Oh, we had all kinds of cute little tricks which we thought we were getting away with, but now, when I hear a small person say, "Do you think I could have sumpin?" I know we didn't get away with as much as we thought we did.

Says One Dollar Worth Two In 1903

COURTENAY, B.C. (CP) — Canadians are cheated by an unstable dollar, Speaker Tom Irwin told the Comox-Alberni Social Credit Federal Association.

He said the present money system cheats the thrifty and brings old age pensioners to the point of despair. The dollar of today was worth $2.03 in 1903.

Italian Firm Gets Order For B.C. Turbine

VICTORIA (CP) — B.C. Power Commission has awarded a contract fo rthe supply of a 35,000-horsepower hydraulic turbine for use in its Ash River development to the Ansaldo-San Gregorja Co. of Genoa, Italy.

The contract is the first ever to be awarded by the commission to an Italian firm. With a bid of $235,-543, the Italian company was low bidder, and is able to make favorable deliveries, a commission spokesman said today.

Award of the contract came closely on the heels of the cabinet's authorizing the commission Monday to proceed with the $12,-000,000 Ash River portion of its Somass project to serve the power-starved Alberni Valley.

Although the new turbine will be manufactured in Italy, it will be installed by Flanders Installations Ltd. of Vancouver. Work is expected to start in the Spring, and it is hoped to have the plant delivering power by the Fall of 1958.

How to meet his future needs... now!

Just now, you may be confident that you will have the money for the education of your children. But who can prophesy what your situation will be in the 1970's? The answer is: You do not have to be a prophet.

The Metropolitan Life Insurance Company has a new, flexible plan which can help you guarantee your children's future. It is called the Education-Estate Builder, and if you have young children, it can help to solve many of your future financial problems. The Education-Estate Builder works this way:

You take out insurance on the life of your son or daughter which provides, say, $1,000 a year for *each* of the four years of college. Then, when your child is ready for college, the money for college will be ready, too!

On the other hand, if the money is not needed for college or some other purpose, then each $1,000 of the Education insurance will become $5,000 of Limited Payment Life insurance *for the same premium.* The Life insurance then starts out with a cash value equal to the Educational fund.

The Life insurance will become paid up in a limited number of years, the exact period varying according to your children's ages when the policy was taken out and when it becomes Limited Payment Life. If the decision is made to continue the insurance, no evidence of insurability as to physical condition or occupation will be required.

Under this plan, a $4,000 Educational Fund may thus become a $20,000 life insurance estate. Think how you would have liked such a nest egg at the beginning of your career!

This is a completely new Educational Plan which gives greater flexibility in planning your children's future than ever before. It can help to guarantee funds for education, or establish a sizable life insurance estate at an early age when cost is low.

Your Metropolitan Representative will be glad to show you how this plan can be adapted to your particular needs. He will welcome the opportunity to prove that . . .

Metropolitan service is
as local as Main Street . . .
as close as your phone.
