Fulton Awaiting Word From Sons

Has No Comment Until Sons "Clarify Position"

OTTAWA (CP)—*The federal government deferred decision Wednesday on the future of an offer to help the Sons of Freedom Doukhobors move to Russia.*

The decision followed a meeting in Victoria between B.C. government officials and Freedomite representatives. B.C. Attorney-General Bonner observed after the meeting that the proposed migration to Siberia was developing some of the aspects of a "low-key comedy."

Federal Justice Minister Fulton said here he understands some *new possibilities were raised by* the Doukhobors at the Victoria meeting. He was in touch with Mr. Bonner by telephone about the situation.

VIEWS NOT CLEAR

In an interview with The Canadian Press, he said views of the Doukhobors at this point are not *too clear, but that he gathered* some further representations are to be made by the Freedomites.

He said the Doukhobors might make their representations either to the provincial government or to himself.

Until the Doukhobors had clarified their position, he could make no further comment. He said their new representations *might be put forward within a* few days.

At Victoria, a three-man Freedomite delegation conferred for more than 1½ hours with Mr. Bonner.

DEADLINE PASSED

The meeting followed the passing at midnight Tuesday of the extended deadline for Freedomites to have filed application forms indicating they want to take advantage of government relocation assistance.

The B.C. government had received fewer than 50 forms when the deadline passed.

In the delegation which met with Mr. Bonner were Peter Elasoff, William Podovinikoff and Vancouver lawyer Harry Rankin.

The carried two carboard cartons into the meeting.

They said they contained forms signed by 2264 Doukhobors willing to trade Canadian citizenship for migration assistance if the governments meet new conditions laid down by the Freedomites Monday night.

Mr. Rankin said the discussions with Mr. Bonner were "exploratory and profitable." The delegation would report back to the interior colony.

"I can't say when these forms will be filed. They are all properly filled in," said Mr. Rankin.

The attorney-general, commenting later, mentioned the forms.

"They are carting them around in boxes which indicates they probably intend to do something with them sometime.

"They are serious in their discussions but the situation does have elements of a low-key comedy."

Mr. Bonner said Mr. Rankin gave assurance the sect would obtain a statement of acceptance from the Soviet Union.

In Ottawa Mr. Fulton said that as far as he has heard, no decision had been received from the *Russians on the request for admittance.*

The attorney-general said he felt future negotiations with the Sons would depend on this.

Asked whether the deal with the Doukhobors was off, the attorney-general replied:

"At the moment there is nothing before the government on which the government can act. . . ."

FREE TO LEAVE

"The Sons of Freedom have shown no evidence they are anxious to receive financial assistance . . . it was pointed out to their representatives they are free to leave at any time without recourse to the government."

However, he thought it likely that further applications for government assistance would be made.

The attorney-general said the *delegation did not place much* emphasis on new demands announced Monday night.

The sect asked for a statement from the government outlining *the exact amount of money that* would be assigned to each emigrant. They wanted their children now attending the New Denver government school to be released, and demanded an extension of the deadline to Nov. 15.

Mr. Bonner said the deadline could not be extended because the sect had not shown it would have been impossible to meet the original deadline.

PRESIDING over Royal Commission on Education in the Courthouse at Nelson yesterday were Dean S. N. F. Chant, left, of the University of B.C., and R. P. Walrod, manager of B.C. Tree Fruits Ltd., Kelowna. See stories on pages 2 and 16.

PICTURED in deep concentration during commission proceedings are, from left, E. K. Evans, principal, South Nelson school; J. M. Morley, principal, Hume school; Lawrence Owens, G. E. MacNeill, chairman of the Nelson District Teachers' Association committee which prepared a teachers' brief; and B. B. Stallwood, Central school principal, all members of the committee.

Tenements Levelled In Spectacular Fire

One Fireman Killed in 4½Hour Battle as Flames Raze 7 Buildings

By GEORGE McNEVIN
Canadian Press Staff Writer

SAINT JOHN, N.B. (CP)—One fireman was found dead Wednesday night after a savage blaze on Main Street. Workers freed another fireman from debris after a 4½-hour struggle.

Capt. Lloyd Hayward was killed when a tenement wall collapsed. Two other firemen, Everett L. Mingo and Frank O'Brien, were rescued soon after but fireman Jack Kyle was pinned by a beam across a knee.

Firefighters and others used chain saws and a crane to attack the debris. Oxygen helped to keep Kyle alive while rescuers crawled around under rubble.

The flames consumed seven old wooden buildings. Four tenements in a row were destroyed before the fire jumped across Main Street, a crowded north end thoroughfare. About 26 families were left homeless.

First noticed about 2 p.m., the fire was under control shortly after 5 p.m. but some flames still lingered among the ruins Wednesday night.

JUMPED STREET

The blaze flared in a tenement on Ann Street, just off the west side of Main Street. It spread to three nearby buildings and jumped Main Street to the Grand department store.

A laundry also was burned. All the buildings involved were of three storeys.

No estimate of damage in the fire, Saint John's worst in recent years, was available. The buildings were in an old sub-standard area where a clearance program has been going on.

A high wind fanned the fire in its leap across Main Street, 50 feet wide. Merchants and other occupants evacuated their buildings as it raced on unchecked.

A general alarm was sent out and Red Cross and other disaster units were called.

31 Perish in Air Collision Over Italy

By DOMENICO GIOGANO

ANZIO, Italy (AP)—A British turbo-prop airliner and an Italian jet fighter collided in a cloudless sky four miles over this Second-World-War battlefield Wednesday.

The 31 persons in the passenger plane fell to death. The fighter pilot parachuted into the sea and was rescued.

The four-engine British European Airways Viscount was flying at 23,500 feet. The weather was clear, but cold.

An airline spokesman said the collision tore open the front of the airliner's fuselage.

The plane's pressurized cabin was decompressed suddenly and most of the passengers were sucked out into the air.

Mrs. Alida Carini, a Nettuno housewife, looked up and saw the bodies falling, dark against the sky.

LEAFLETS IN SKY

"It looked as though they were throwing leaflets out of the plane," she said.

The Viscount plunged into an Italian army artillery range about 500 yards from the Mediterranean and burst into flames. Pieces of wreckage flew over an area of more than a mile.

One man was still alive when rescuers reached the scene, but he died in the ambulance taking him to a hospital.

The bodies of 27 others were scattered around the plane. Three bodies were found inside the burned fuselage.

There were 26 passengers and a crew of five on the plane. It was en route from London to Naples and Malta.

Among the passengers was Jane Buckingham, auburn-haired, 24-year-old London model, who was flying to Naples to see Indian Prince Shiv to straighten out a romantic tangle.

The Italian airman, Capt. Giovanni Savorelli, ejected himself from his single-seater fighter plane seconds before it exploded after the collision. A fishing boat picked him up in the Mediterranean. He was taken to a hospital in grave condition.

Accuses Police Of Intimidation

VANCOUVER (CP)—Vancouver police were accused Wednesday of "intimidating witnesses" in a case arising from a Seafarers International Union strike Sept. 18.

Lawyer Oris Kirk made the accusation before Magistrate James Bartman at the trial of Roderick Heinekey, 27-year-old union patrol man and business agent.

Heinekey is charged with obstructing a railway police officer and assault causing bodily harm during the union walkoff from the Canadian Pacific Railway's Princess Patricia.

Lawyer Kirk claimed police had seen his witnesses, demanded they sign statements and told them "you were told to say that" Mr. Kirk said: "They (the police) are trying to see there is no defence when we come to trial. I believe the CPR is also guilty of the same offence."

Prosecutor Roland Bouwman said there were "proper remedies" if the defence charges were true.

SKIPS TOWN

PRINCE GEORGE (CP)—Prince George lawyer John M. Tayler, wanted by police on a charge of auto theft, has left the city after breaking all his financial ties, RCMP said Wednesday.

Staff Sgt. A. N. Beaumont, officer in charge of the Prince George detachment, said an arrest warrant issued Oct. 10 and circulated nationally, has failed to turn up the lawyer, who was last seen in Victoria.

Sommers Case Going To Jury in 3 Parts

VANCOUVER (CP)—Mr. Justice J. O. Wilson, presiding at the ticklish Sommers bribery conspiracy trial, said Wednesday he plans to give the case to the jury in three parts.

He told counsel during a discussion of technicalities that his present plan is to give the jury the case first on the main count of conspiracy, which involves former lands and forests minister Robert Sommers, three timber executives and four companies accused.

Secondly, he said, he would ask the jury for a verdict on all of the substantive charges involving alleged donors of bribes and thirdly on all the substantive charges involving the alleged recipients of bribes.

Defence counsel Walter Owen, representing British Columbia Forest Products Limited and speaking for all six defence counsel, said the defence did not agree with this course.

Nor was the defence satisfied with a proposal by the judge to supply the jury with copies of the indictment, including a "working paper" on which they would record their verdicts.

Mr. Owen said the proposition was an innovation in Canada "with no precedent in British jurisprudence."

"We feel," he said, "that this is not the type of trial where innovations can be made without the possibility of prejudice to the accused."

Mr. Justice Wilson said he merely proposed to supply the working paper because it was obvious there would be a great number of verdicts. But he would be alarmed if he thought that in doing this he was supplying the jury with a new type of indictment.

At this point the jury foreman interjected that he had anticipated the situation and had already supplied himself with a working paper to be used when the jury came to consider its verdicts.

The judge remarked that since the foreman had taken this action, his intent probably could be accomplished without the bench entering into it at all, but he would leave the matter stand until Thursday.

The technical discussions preceded the resumption of crown prosecutor Victor Dryer's address to the jury.

In opening his final legal barrage Tuesday in the long drawn out trial, Mr. Dryer detailed evidence the crown says shows Sommers pocketed more than $8,000 between 1953 and 1955 in return for favors in issuing forest management licences to certain firms.

PHILIP TO MAKE FLYING VISIT

By ALAN HARVEY
Canadian Press Staff Writer

OTTAWA (CP) — Prince Philip flies 6000 miles next week to propose a toast to Commonwealth-United States friendship.

In one of the most fleeting visits royalty has paid to a far-off destination, he leaves London for Ottawa by Comet airliner Tuesday, makes a couple of brief speeches and heads for home the following Friday, Oct. 31.

It will be Philip's fourth visit to Canada. He is coming as president of the English-Speaking Union of the Commonwealth, and is to take a leading part at the union's third post-war conference of world branches, starting Sunday.

Woman Reports Glowing Red Ball

ALDERGROVE, B.C. (CP) — A woman said Wednesday she saw a mysterious red globe hovering near the ground when she looked out a window of her home a mile east of Aldergrove.

Mrs. O. B. Orwich said she watched the globe for 10 minutes during the night and that a bright flash lit up the sky as it began moving off slowly toward Vancouver, 40 miles west.

Mrs. Orwich described the globe as being about 30 feet in diameter and said it appeared to be about 300 yards away and almost on the ground near Aberdeen cemetery.

"It looked like a large plastic bag with a bright red light inside," she said. "The top was a little irregular but otherwise it was quite round, but looked slightly tilted."

Several other persons in New Westminster and Vancouver also reported seeing either a bright object or a flash of light in the southeastern sky shortly before 2 a.m. Wednesday. Some estimated it was at an altitude of at least 30,000 feet.

RCAF officials said they received three reports within a minute, and radio stations said they received other reports.

The RCAF said no aircraft were known to be in the area at the time.

Bennett Releases Power Supply

CAMPBELL RIVER (CP)—Vancouver Island industry eventually will be supplied with 400,000 horsepower of electrical energy by completion of the Strathcona power system which was officially opened Wednesday.

Premier W. A. C. Bennett and Timothy H. Crosby, chairman of the B.C. Power Commission, shared honors in a ceremony which cut the new Upper Campbell Lake dam and hydro plant into the system which already included John Hart and Ladore Falls installations.

Man Without Country, Hanna To Be Deported

OTTAWA (CP) — A slight, swarthy laborer who found a haven in Canada for 18½ months after more than a year of lonely exile on the high seas is to be deported.

Immigration Minister Fairclough announced Wednesday that 24-year-old Christian George Hanna will be deported Saturday to Lebanon because he failed to demonstrate that he wanted to become a good Canadian.

The stateless Hanna stowed on a ship at Beirut, Lebanon, and arrived in Canada after spending 15 months at sea. Lebanon has agreed—orally — to accept him.

Hanna, granted permission to enter Canada although inadmissible under immigration regulations, has been the centre of a storm of controversy since his unscheduled arrival in Canada in December, 1956.

FLOOD OF AID

His bid to enter Canada was supoprted by thousands of Canadians after they heard his story of world wandering. He received free legal help, money, job offers and three Vancouver women offered to marry him if it would help his cause.

His case was debated before the boards of immigration, the British Columbia courts and in the House of Commons. In the end he was allowed to stay in Canada and prove that he wanted to work and live in this country.

But Hanna, who arrived at Port Alberni, B. C., as a stowaway aboard the Norwegian freighter Gudveig, did not satisfy immigration authorities that he should be allowed to remain in this country.

TWO CONVICTIONS

Since he was granted permission in March, 1957, to remain, he has had several brushes with the law. He was convicted of intoxiation in a public place and last May was charged with committing an indecent act "with intent thereby to insult or offend a person."

Hanna's arrest came on the complaint of a 25-year-old housewife. He was found guilty of an indecent act and given a suspended sentence. No appeal was entered.

Mrs. Fairclough said:

"Although inadmissible within a strict interpretation of the immigration regulations, Mr. Hanna has been shown every consideration by the federal government and by a number of person in becoming established in Canada. As he has been clearly unable to do so his deportation has been ordered."

DOLLAR UNCHANGED

NEW YORK (CP) — Canadian dollar unchanged at $1.03 5-16 in terms of U.S. funds Wednesday; a week ago $1.03⅛; pound sterling up 1-16 at $2.80 13-16.

6-Cent Stamp Declared a Dud

OTTAWA (CP) — The six-cent stamp, issued by the post office since 1954, has turned out to be a white elephant. It is being discontinued.

J. R. Carpenter, superintendent of postage stamps, said Wednesday in an interview that this is the first time Canada has discontinued a stamp denomination since 1946 when an eight-cent stamp went by the boards.

The six-cent orange stamp, showing a three-quarter profile of the Queen wearing a crown, has failed to fill the job it was intended to do, Mr. Carpenter said.

Handyman Seeks Part Gen. Burnham Estate

A Balkan handyman living in Vancouver has become the latest litigant seeking a part of the $200,000 estate of Brig. Gen. Frederick William Elais Burnham, the late operator of a health centre at Halcyon Hot Springs on Upper Arrow Lake.

General Burnham left the bulk of his estate to Balkan charity. His will was contested unsuccessfully at the Coast this week by relatives.

Victor Kopraveca of Vancouver has filed a statement of claim against the executors of the Burnham will, claiming breach of promise on the part of the philanthropist, doctor, and founder of the White Cross.

Mr. Kopraveca says in his writ that General Burnham brought him from the Balkans after the First World War and that he worked without wage at the Halcyon Hot Springs hotel on the understanding he would receive a "major portion" of the estate.

General Burnham died in a fire which destroyed the main building of the Halcyon Hot Springs hotel in 1955.

His will left much of his estate for the poor and afflicted of Montenergo, Macedonia and Armenia. Two nephews contested the charitable bequest on the ground that the recipients could not be identified.

However, the will was upheld by Mr. Justice Ruttan in Supreme Court Monday.

In his writ, Mr. Kopraveca says he served as orderly for General Burnham in Serbia and that he came to Canada in 1926 at the request and with the assistance of the general.

He says the general promised to treat him as a son, provide him with a home and give him an education.

Social Register Disappoints Lady Docker

MONTREAL (CP)—Lady Norah Docker, the outspoken British blonde, dropped into Montreal Wednesday in time to take a poke at Canada's blue book of society.

"The Social Register? It's something that doesn't register," she told reporters shortly after arriving by plane from New York with her husband and 19-year-old son, Lance.

"I'd like to check into the bank balances of some of the people in the book. I'd like to find out how they ever became so social all of a sudden.

"No, I don't like the social register. I thought that in coming to Canada I would be free of all that social business. Really, this news about a social register is the first disappointment you've handed me here."

Canada May Scrap Plans For Bomarc

By DAVE McINTOSH
Canadian Press Staff Writer

OTTAWA (CP)—Possibility that plans to acquire the Bomarc guided missile for Canadian air defence will eventually be cancelled is being mentioned by some officials here.

The Bomarc is scheduled to come into operation at two Canadian bases in 1961 as a defence against manned bombers.

But by that time, some officials say, the manned bomber will no longer be the main air threat against the North American continent.

These authorities say Canada now should place most of its emphasis on the counter-missile—that is, defence against the intercontinental ballistic missile.

The defence research board has already given top priority to this project. Its scientists soon will employ United States Nike-Cajun rockets to carry instruments into space as part of their research into the detection and tracking of long-range missiles.

Next year, board scientists will fire their own instrument—bearing rockets as part of their experiments in development of solid-fuel propellants for a counter-missile.

Doctor Fined on Impaired Charge

NORTH VANCOUVER (CP) — A middle-aged Vancouver doctor was fined $50 in North Vancouver RCMP court Wednesday for operating a yacht while impaired.

Dr. C. E. Battle pleaded guilty to the charge laid under the Canada Shipping Act.

The doctor was taken off his grounded yacht by four RCMP constables after his distress signals were picked up along the coast from Alaska to Seattle Oct. 12. His vessel had run aground off Gambier Island in Howe Sound.

B.C. Labor To Back CCF

VANCOUVER (CP) — The British Columbia Federation of Labor Wednesday voted to support the CCF party in the next provincial election after two hours of debate at its annual convention.

The policy of backing the CCF party, which was adopted by a substantial, although not unanimous, vote, remains unchanged from last year.

However, recent meetings between provincial labor and CCF officials indicate the federation may have a larger voice in the picking of CCF candidates and the drafting of the CCF platform.

Views of the delegates representing 110,000 union members in B.C. were sharply divergent on the political action question.

Some delegates were solidly against any direct political action; others said it is impossible to sell union members on a poilcy which lines up with any one political party; others wanted an even stronger bond with the CCF.

About 25 of the 330 delegates voted against the resolution.

U.S. Army Satellite Launching Fizzles

CAPE CANAVERAL, Fla. (AP) The U.S. Army launched a balloon satellite toward space Wednesday night but apparently failed to put it in orbit.

A statement issued in Washington by the defence department and the International Geophysical Year committee 2½ hours after the launching said:

"Radio records received from the satellite instrument package show the performance of the rocket was not normal.

"While the information available is not easily interpreted it is practically certain the experiment was not successful and an orbit was not achieved."

The spectacular launching appeared to be perfect from the ground and the army said the missile was on its planned course when its first-stage burn-out came at the calculated time.

But when the signals were lost 10 seconds before the second stage of the rocket was due to ignite, it was not known what had happened to the satellite.

Scientists here had said it was possible the satellite might start beeping again 90 minutes after launching. But two hours after launching, there was no further word on the rocket's fate.

The scientists said they did not expect to have further information on the satellite before 9 a.m. Thursday.

Detailed examination of all instrumentation data was under way.

Thus, the whereabouts of the unique balloon satellite called "Beacon" was a mystery.

This was the sixth attempt by the army to fire its mighty Jupiter-C spaceward.

Three of the previous launchings were successful.

And in This Corner . . .

CODY, Wyo. (AP)—Big game guide Roy Glasgow wrestled with a grizzly bear Tuesday and came out of the contest with a slight hand wound.

Glasgow said he was scanning the mountains near here with binoculars, seeking bighorn sheep, when he spotted a grizzly cub.

As he watched the cub the mother grizzly came crashing through the trees toward him. Glasgow said the enraged bear was on him before he could escape.

She wrestled him to the ground. When the bear started biting at his legs, protected by heavy leather chaps, he jammed his binoculars in its mouth.

Suddenly the cub squealed and ran off. The mother bear forgot Glasgow and took off after the cub.

Glasgow's hand was scratched. The binoculars were ruined.

CHARLESTON, S.C. (AP)—A destitute transient housed overnight by the Salvation Army here is gone—but not forgotten. Officials reported their "guest" made off with a 1½-ton panel truck.

SEATTLE (AP)—An unknown parishioner made a record-breaking contribution to the St. Francis of Assisi Church in suburban Seahurst last Sunday.

It was a dollar bill. But it turned out to be the "lucky" one in a local newspaper contest.

Rev. William G. Quick exchanged the bill Tuesday for $3401.

CHICAGO (AP)—Edward Puidk, 42, Tuesday came to terms—his wife's—and saved their marriage.

Mrs. Stephanie Puidk, 42, told Judge Thaddeus Adesko she would not sue her husband, a paperhanger, for divorce if he promised to: Go to church every Sunday, turn over his pay to her, commit no act of mental or physical cruelty, not lose his temper, not use foul language in front of her or their two children, have more patience, permit her to have guests as often as she wishes and to be courteous to them, buy no more cars without her consent and to join her in seeing a minister of marital trouble arises.

Puidk scanned the commandments and then signed up.

Commission Would Buy North Shore Line

To Negotiate for Higher Purchase Price

An offer from the B.C. Power Commission to purchase the North Shore power line has been received by the City of Nelson.

The proposal, however, carries too low a price tag.

Power Commission, which submitted its bid following overtures from the City, offers $50,000 for the line that has a current value of over $250,000.

Council, which heard the giant power company's proposals during a regular meeting last night, plans to negotiate further. Electrical committee will bring a recommendation to the next meeting.

"There's a terrific gap between the price they offer and what we feel the line is worth," said Mayor T. S. Shorthouse.

Only two years ago the city put $200,000 in new construction on the 32-mile service. Original value of the installation was $400,000; present depreciative value is estimated at $250,000.

The North Shore line, which extends up the West Arm past Ainsworth, requires $300,000 in capital expenditures to enable its facilities to meet the rapidly expanding demand. City Council last week studied a proposal of rate increases outlined in a survey by M. A. Thomas, Vancouver consulting engineer. One of the points made by Mr. Thomas was the comparatively high cost of taking electricity across the river.

Mayor T. S. Shorthouse pointed out the net revenue would be $50,000 a year under the 15 per cent rate increase proposed by the Commission. "We should negotiate further on the price . . . the value is there."

Electrical Superintendent A. C. VanSacker reminded Council that while a $300,000 construction was required, the program could be undertaken over a period of several years.

"The line is not obsolete . . . it just isn't big enough."

But Council could not look at purchase price alone, Ald. B. C. Affleck said.

"It offers us the opportunity to get out from under a responsibility we've assumed over the last 40 years, and which is now too big for us."

The City's peak demand exceeds the plant output and water licence, and excess power is purchased under contract from West Kootenay Power and Light.

B.C. Power Commission would purchase electricity from the West Kootenay, pouring it through City of Nelson lines to the North hSore consumers. A rate increase of 15 per cent, and completion in six months is proposed.

"The City of Nelson has done an excellent job over the past years in meeting the requirements of the North Shore, but it is apparent if the requirements of the future growth are to be met, the City would be forced to make extensive additions and improvements," the letter said.

Seven major requirements were set out. They were:

(1) West Kootenay will supply energy at the interconnection between the Upper Bonnington plant and the City plant at standard rates. It is suggested the City will be able to "wheel" the energy required by the Commission for the North Shore over City circuits between the plant and the city limits. Adequate transmission capacity is said to be available on the line.

ANNUAL $1000 TO CITY

(2) Assume the city is ready to wheel energy at a cost of 0.03 cents per kilowatt hour, which would bring an annual revenue of $1000 per year, increasing as the load grows.

(3) A 60 KV line and river crossing will be constructed by the commission from the point of delivery just west of the city limits to a point on the North Shore where a new substation would be built, thus establishing an adequate and reliable source of supply, independent of the present underwater crossing.

(4) Assume suitable mutually *acceptable operating arrangements* could be made, based on equity to the city and the commission, and obviate expensive duplication of men and equipment. Commission expects to pay for the assistance.

(5) Would pay $50,000 for existing plant, in spite of its "relatively unreliable and inadequate condition."

(6) Would meet all reasonable load growth and assume full responsibility, and may have to spend up to $50,000 per year for rebuilding and expansion over the next four years if the load growth warrants.

(7) Revenue is inadequate to support expenditures and the commission would require the agreement of the city that at the time of transfer, it would publish jointly a signed statement to the effect that whether the city continued, or the Power Commission assumed control, new expenditures were substantial and there was no alternative but to increase rates.

"It is essential the line be self-supporting. We can't expect other customers to bonus this through below-cost rates".

Salmo Teacher Urges Technical School for B.C.

The Royal Commsision on Education, sitting Wednesday in Nelson, heard briefs from the Nelson District Teachers Association, Gerald H. Lee, principal of L.V. Rogers High School, District No. 7 School Board and F. T. Middleton, principal of the Salmo Junior-Senior High School. (Also see page 16.)

Conducting the hearings were Dean S. N. F. Chant, chairman, and R. P. Walrod, manager of B.C. Tree Fruits Ltd. of Kelowna. Two other members of the commission, John Liersch, vice-president of the Powell River Company, and secretary A. S. Towell of Vernon were unable to be present.

Mr. Middleton presented a brief at conclusion of the sitting.

One point recommended the establishment of an institute of technology in British Columbia, mentioning the lack of facilities for students with an inclination to technical training.

Dean Chant, speaking of a vocational training institute in Vancouver, said trade schools were unlike technical schools and did not fill the need of technically minded students.

"B.C. is one of the leading industrial provinces in Canada and we have no institutes comparable to that in Calgary or Ryerson Institute in Toronto," said Mr. Middleton.

Mr. Middleton said there was a lack of monies available from the provincial government for library equipment in the school. "Essential basic stock of non-fiction and reference material is not expendable" he said.

His third point was the fact that the ruling regarding the three and two and a half mile limits for school bus transportation should not apply equally to the two different climactic areas in B.C. He said that walking three miles in winter in the Kootenay climate was a more severe test than walking the same distance on the lower mainland in winter.

with responsible officers, should

Local Boards, in consultation

be allowed more leeway in the decision of the area limit for school buses and still qualify for government grants, he said.

Leahy Named Representative

W. C. Leahy was elected representative of the Granite Road attendance area of Nelson School District 7 at Central School Wednesday night.

The area covers South Nelson, Rosemont and Granite Road.

No one turned out at another meeting at the Hume School. Steve Ward, present representative and trustee, will again be appointed. This area covers the North Shore and upper Fairview.

Mrs. P. Dallas Passes at 81

Mrs. Lillian Florence Dallas, wife of the late Peter Dallas, and a 37 - year resident of Cranbrook, died Tuesday night in Mount St. Francis Infirmary after a lengthy illness. She was 81.

Mrs. Dallas moved to Cranbrook 50 years ago from Eastern Canada, and 13 years ago moved to Trail. She was born in Owen Sound, Ontario, in December, 1876. She was predeceased by her husband in 1934 and her son, Wilfred, in 1917.

During the last few years, Mrs. Dallas has resided in Nelson. She was a charter member of the Ladies' Auxiliary to the Brotherhood of Railroad Trainmen, and a member of the Pythian Sisters.

Surviving are a daughter, Mrs. F. W. Clarke of Trail; two sons, Donald of Trail and James of Vancouver; one sister, Mrs. C. K. Vahey, Calgary; three grandchildren and two great grandchildren.

Funeral services will be held in Cranbrook.

Mrs. G. Hamblin Of Nelson Dies

Mrs. Laura Hamblin, wife of Gordon Hamblin, a foreman of Kootenay Forest Products Ltd., died in Kootenay Lake General Hospital, Wednesday, after a long illness. She was 43.

Mrs. Hamblin moved to Deer Park, B.C., from Winnipeg, where she was born July 9, 1915. She moved to Nelson eight years ago.

Surviving are her husband; three daughters, Arlene, Donna and Sharron, all of Nelson; three sisters, Mrs. Ada Allen, Deer Park. Mrs. Shirley O'Brien of Spokane, and Mrs. Beverly Baker of Vancouver.

School Bus Purchase System Protested

School districts are severely hampered by present financial arrangements, the Royal Commission on Education was told at Nelson Wednesday.

Gordon Sargent, chairman of School District 7, made this comment during reading of a school board brief. (Also see page 16.)

One example of this handicap, he said, was the school bus situation. He said it was next to impossible to replace or purchase a new school bus without arranging such a transaction three years in advance, allowing for all procedures to be completed.

Before a new bus could be obtained, the old one must be condemned by police, but the old one had to be kept running somehow while negotiations were completed for a new one, which usually took three years.

Lions Open Bulb Drive

The Lions Club sent out 36 members to cover all parts of the city in the annual light bulb sales campaign Tuesday night.

The drive was reported Wednesday as having been highly successful. Further sales will be conducted Thursday night.

Proceeds will go to the $1400 two-bed ward which the club will furnish in the new hospital.

Drive chairman is Bob Phillips.

Definite Course Outlines Asked For Students in Teachers' Brief

The Nelson District Teachers' Association feels that the grade seven English language and mathematics texts are muddled up in their contents, the Royal Commission on Education learned here Wednesday. (Also see page 16.)

"The grade nine and 10 literature courses are both dull and uninspiring, Roman and Norse myths and stories of famous men may add interest to these courses," the teachers' brief stated.

They also feel that poetry should be selected with more care, that it should be more challenging.

The brief included five other changes the teachers would like to see:

1. More time allowed to sciences in junior highs.

2. Some choice of text books allowed the teachers and principal, as well as selection of courses. More should be demanded of the student.

3. All text books should be more carefully proof read for grammatical errors.

4. Some experimentation in a complete course by television should be carried out.

5. The present system of allotting letter grades should be reviewed. No matter how hard students work or how little they work, the letter grades must remain constant. For example, only five per cent receive A's and only five per cent get E's.

TOO MUCH FREEDOM

"It is our opinion that students are allowed too much freedom in course selection. Too many students choose courses that demand little or no work. Since they are compelled to have only one major to receive their high school diploma they are allowed too much freedom to fill the rest of their program with meaningless activities. The courses are meaningless because they don't lead toward any concrete objective or qualification."

The teachers "recommend that there be definite course outlines which students must follow. The outline should allow that student to specialize as well as to make well balanced education compulsory."

The students may choose to specialize in commerce, industrial arts, home economics, music or any other specialized course offered in the school. Along with the course the student must take social studies, science, English, mathematics, health and personal development and physical education.

Suggestions were also given for the schooling of secondary teachers:

1. Instead of four years of general arts and one year of teachers training, there could be four years of arts with one day a week of actual teaching followed by a seminar period dealing with teaching experience and methods, or

2. Four years of arts followed by one year of internship in a school as a salaried teachers assistant. This could be followed by a one year summer school session.

ASK HIGH STANDARDS

3. The entrance standards to the profession should be raised and rigidly observed . . . possibly a 70 per cent average for a BA.

"In addition we suggest in-service training of subject teachers, time off to visit experienced teachers in the area . . . on school time . . . along the lines of the present Home Economics Teachers Plan".

Dealing with supervision practices in elementary schools, the brief said the teacher was on the job continuously, working a minimum of 6½ hours without a break. This was one of the main reasons there was a shortage of teachers and to make the occupation more attractive, provision should be made for extra help to supervise before school, at the noon hour and after school.

Much of a principal's time was devoted to routine office work, supervising pupils and ordering, recording and distributing supplies. Such routine work should be performed by people trained for the work and paid accordingly.

Similarly in secondary schools, paid supervisors could relieve teachers of much routine work at noon and after school which hindered lesson preparation, marking and professional advancement.

Trail Man Nabs Forger

TRAIL (CP)—Alexander James Harvey, no fixed address, was sentenced to two years in Oakalla prison Wednesday on a forgery charge.

Police said Harvey was arrested Tuesday when he attempted to cash a forged postal money order which had been "kited" from $19.25 to $99.25.

Postal clerk Bill Orenchuk remembered the description of a man circulated by the postal department when Harvey bought his postal note in the Trail post office. He tipped off police and followed the man until police arrived to take over when he attempted to pay for groceries with the money order in a food store.

Harvey is wanted on 35 similar counts from Winnipeg to Victoria.

New Type Packaging Attracts Home Consumption of Kootenay Fruit

DESIGNED TO BOOST home consumption of home-grown fruit are new style cardboard, instead of wood, containers, being used for the first time in shipments from Nelson sub-central of the Associated Growers of B.C. Warehouseman W. W. Moojelsky stacks these apples in family-sized cartons which are popular with orchardists, packers and consumers.

SMILING member of the office staff at the sub-central, Miss June Graffi holds one of the new handi-pak boxes of West Kootenay pears. Cartons are light and easy to handle.

COMBINATION OF GRADES, but all good quality apples, are going into the Canada commercial packs being prepared for the market at Nelson sub-central, Associated Growers, which handles the bulk of the West Kootenay fruit crop. Grading here is being done by Robert Foxall, manager.

—Photos by Daily News photographer Ian Brown.

$1000 Goal Set in Cranbrook Drive

CRANBROOK — Cranbrook branch of the Kootenay Society for Handicapped Children has set a target of $1000 in its annual drive for funds, to be held Friday.

It is proposed to complete the drive in the one day, and volunteer canvassers are being allotted their territories.

While a small grant is received from the Department of Education for students under the age of 18, which helps to maintain the Juniper day school here, additional funds are urgently needed to meet operating and other expenses.

Six local students are enrolled this year at Juniper school.

MILL SHUTDOWN

DUNCAN, B.C. (CP) — The B.C. Forest Products Limited kraft pulp mill at Crofton will shut down Nov. 1 for nine days, vice-president W. W. Holland announced Wednesday.

Mr. Holland said the shutdown was made necessary to bring inventories into balance.

About 290 employees are affected.

Trio Remanded Another Week

VANCOUVER (CP) — Three men held at Oakalla prison on murder charges were remanded until next Wednesday when they appeared in police court Wednesday in suburban Burnaby. It was the second remand.

Brothers John Popoff, 27, and Larry Popoff, 23, and their cousin Harry Popoff, 19, are being held pending preliminary hearing at Trail for the Oct. 5 slaying of Clarence Douglas Garrett, at Kinnaird.

Garrett's battered body was found in the bush by a youth. He was the father of seven children.

Agency Methods Place Emphasis On Home Markets for Local Fruit

Why isn't more West Kootenay-produced fruit sold in West Kootenay stores?

One often hears this question from the lips of fruit growers, businessmen, housewives and from all those interested in the promotion of local industry.

But it won't be heard so often in future, if practices being adopted at the Nelson sub-central of the Associated Growers of B.C. prove as successful in the future as they are encouraging at the present time.

The sub-central, through which is funnelled the biggest part of the annual crop of the hundreds of West Kootenay orchardists, is doing two things this year with the apple harvest:

1. Using the lightweight, easy-to-handle "handi-pak" cardboard containers for packing;

2. Concentrating on packing what is known as Canada commercial grade, which constitutes 50 per cent fancies or better.

Already, with distribution of MacIntosh apples, this move to stimulate use of more Kootenay-produced apples has brought encouraging results, according to sub-central manager Robert Foxall.

"By using these family handi-paks instead of the old wooden boxes, we are reducing costs to the farmer and, we hope, to the consumer.

"With a mixture of sizes and grades, the cartons contain apples for the kids and larger ones to have the housewife peeling time when she bakes her pies."

Two carloads of the flat, unfolded cardboard handi-paks were piled ceiling-high in the sub-central warehouse as Mr. Foxall told his story. Each can be made up into a box as quickly as you can say "Applejack".

Foxall made one up, and stood on its sides to demonstrate the strength. Its three thicknesses of cardboard make it almost as strong as three-quarter-inch wood.

These are some of the other advantages:

Two handi-paks hold the same quantity of apples as one standard wood apple box. Two cost about the same money as one standard apple box plus paper protection, but nailing is eliminated by folding and glue.

The grower saves further money because two weigh about 60 per cent of one standard apple box; thus it costs less to ship the empties to the grower and the packed boxes to the wholesaler, retailer or consumer.

Coupled with the preferable features of the cardboard packages is the fact that lumber manufacturers in the area have been going out of box making in recent years.

Not only apples, but also prunes, pears and some peaches, have been distributed by the sub-central this summer and fall in handi-paks.

To say that they are being used for the first time in this district isn't exactly true: last year two carloads of MacIntosh apples were shipped from Renata in these packages. But it is the first time that handi-paks have come into general use here. In other fruit growing areas, including Creston, they have been used for some time.

Nelson and Trail have been large buyers of apples, which come from orchards at such places as Renata, Edgewood, Gray Creek, Kaslo, Johnson's Landing and Sunshine Bay. The eventual aim, of course, is marketing of the entire crop right here in the Kootenays.

"There should be no need for any importations from across the line at this time of year," Foxall states. "Our quality is good and our prices are competitive."

REGULATE FLOW

Tied in with attractive packaging is the sub-central's system of regulating flow to the market. Once packaged, apples for instance are stored at controlled temperatures (31 to 33 degrees Fahrenheit) for release at the most advantageous time.

Delicious, a fine table apple, go on the market now; Rome Beauties and other varieties noted as good cooking apples, will be kept until later.

Thus it is apparent that the agency's techniques work in the interests of the growers — and in the interests of the consumer public.

East Kootenay Teachers Elect Tom Day

CRANBROOK — East Kootenay Teachers' Association at the close of tis annual convention at Creston elected Tom Day of Kimberley new president, Tom Hutchison of Cranbrook vice-president and Adam Robertson of Creston secretary, and named Kimberley for its 1959 meeting.

Cranbrook, Kimberley, Creston, Golden, Windermere and Fernie school districts and Castlegar area in West Kootenay sent 417 teachers to the three-day meeting, most of which was occupied with workshop sessions in the various sections of the public schools curriculum at the various teaching levels.

Special guests who took part in discussion or made addresses at general assembly meetings were headed by Roderick Haig-Brown, author, conservationist and magistrate at Campbell River. Subject of his address at the public meeting which opened the convention was "The Place of the School in Society," and he spoke again at an intermediate science symposium on "Power vs Fish".

F. P. Levirs, former East Kootenay school principal and inspector, now assistant superintendent of instruction for the Department of Education spoke on trends, the history and the future of the educational program.

Other visiting speakers included Mrs. P. Wilks, Burnaby primary schools consultant, M. O. Edwards, Alberta department elementary supervisor; H. Farquhar of Victoria College; K. Spence, University Hill High School, Vancouver; Miss Mary Craig, mental health coordinator of North Vancouver schools; Miss Mollie Cottingham, University of B.C.; D. G. A. Gibson and Miss Freda Hilton of East Kootenay Health Unit, and C. D. Ovans and Mrs. H. Hodson of the B.C. Teachers' Federation executive.

A COMMERCE student at University of B.C., Archibald Henry Mullan, son of Mrs. E. H. Mullan of Trail, has been awarded a $250 UBC bursary by the Institute of Chartered Accountants of B.C. He plans to train as a chartered accountant after qualifying for his bachelor of commerce degree.

Blood Donors Rally To Calgary's Aid

CRANBROOK — Kimberley people responded well to a special appeal by the Canadian Red Cross blood service at Calgary at an extra mobile clinic set up in the centre. An outbreak of infectious hepatitis in parts of southern Alberta cancelled routine mobile clinics and left the Calgary blood bank with a low reserve.

Kimberley's two-day clinic returned 480 bottles.

Hospital Board Shows Willing Spirit

It can be assumed that a large majority of the taxpayers contributing to the construction of the new Kootenay Lake General Hospital will be in accord with the Hospital Board's decision to save some $10,000 in the construction of the staff residence.

In August, bids were called for the building of a staff residence and these bids ranged between $81,320 and $97,622. The planning committee had budgeted some $50,000 for this purpose. Revised specifications and a call for re-tender resulted in new bids that were approximately $10,000 greater than the cost will be under the new procedure decided upon by the Hospital Board at Tuesday night's meeting.

Briefly stated, the position of the Hospital Board is now this:

The board in effect has become the general contractor for the construction of the new staff residence. The hospital accountants will be handling also the accounting for the project. The board will sub-contract with the Laurence Simpson Company to do the structural work for a guaranteed figure of $36,000. The Hospital Board will sub-let the plumbing, heating and electrical work to local firms who have tendered this work at $18,000.

The result of this arrangement, which is a novel one for a public body to find itself in, will be that the taxpayers will be saved some $10,000. We might add that arrangements such as this are not novel for private persons and business, where frequently their private affairs will benefit from savings made.

It is not too often though, that a group of busy people will undertake all the extra headaches and give so much of their time as will be necessary in this case. The members of the Hospital Board and administrative staff have taken on an extra burden to save the taxpayers' money. We commend highly their efforts.

Farewell, Eliza

A report from London tells that the stall where George Bernard Shaw once bought flowers and got the idea for his character Eliza Doolittle has gone out of business. This would hardly have been a subject for the cables, say three years ago, but "My Fair Lady" has changed all that. Eliza Doolittle is much better known than when she simply figured in a play called "Pygmalion", even though a very good movie had been put out under the same title.

At all events, the stall at the corner of Norfolk Street and the Strand is no more. The original operator, whom Shaw knew well, died recently at the age of seventy-seven, leaving the business to her married daughter. But the authorities have decided that Norfolk Street is no place for the purveying of nosegays. As the municipal planners and zoners put it, this street is not "designated" for street trading.

Mrs. Kitty Wilson, the founder, had been allowed to stay on for old times' sake, but the authorities refused to extend the privilege to her daughter. The latter, expressing her bitter disappointment, packed her basket for the last time the other evening and went home.

An appropriate note of pathos ends the cabled chronicle of the passing of another bit of old London:

"A few hundred yards away in the Theatre Royal, Drury Lane, the orchestra was breaking into the overture of the story of a flower girl who became a lady."

But there's no resisting progress.

—The Ottawa Citizen.

It's Been Said

That friendship will not continue to the end which is begun for an end.

—Francis Quarles, English author.

PRESS COMMENT

INEXPENSIVE AND APPRECIATED

Critics have been inclined to over-estimate the cost of preparing and packaging of foods and to underestimate the convenience and saving for the consumer.

The U.S. Department of Agriculture in a study of this business found that a consumer who bought $100 worth of unserviced foods in Washington, D.C., last winter, would have had to pay only 61 cents more for the equivalent quantity of "serviced" foods.

The convenience foods—those with "built-in maid service," such as frozen pre-cooked sausage and cut-up ready-to-fry chicken, it was reported, were little more expensive and some less expensive than unserviced foods.

In this day and age, few housewives would prefer to buy bulk breakfast cereals, unwashed potatoes or carrots or chickens just as nature grew them, rather than attractively packaged, clean food, all ready to go onto the stove. That sort of thing may come under the heading of merchandising frills but to the consumer it is an inexpensive *and valuable improvement.—Financial Post.*

HURRICANES

Most of us are getting tired of hurricanes being labelled Alice, Betty, Cora, and so forth, down the alphabet of girls' names. We are never going to get twenty-six of such well-publicized hurricanes in one season, at least we hope not, so couldn't we just once work backward, starting with Hurricane Zsa-Zsa and Hurricane Yvette? But when you come down to it, what's girlish about a hurricane? Why not name these devil winds after some real devils, like Account, Budget, Cut, Deficit, and Expenses?—The Wall Street Journal.

Interpreting the News

By GEORGE KITCHEN
Canadian Press Staff Writer

The big powers shortly will get what may be their last chance to keep membership in the world's most exclusive club—*the atomic set*—from getting out of bounds.

At present, membership in that club is confined to three countries — Britain, the United States and Russia. They hold that membership by virtue of the fact they are the only nations which currently have the technological know-how to make atomic weapons.

As the world's sole atomic powers, they meet at Geneva beginning Oct. 31 to see what they can do to strike some sort of agreement for a world ban on atomic tests, based presumably on control measures worked out earlier this year by scientists from East and West.

If they fail to reach agreement, they face the prospect that other—and perhaps less *desirable — members will seek admission.* France, for example, is about ready to make a bid and Red China one day may come knocking at the door.

The prospect of a fourth atomic power appearing on the international horizon worried the delegates at the UN disarmament talks which ended in failure in London last year. Delegates of all the nations represented there discussed the problem with some foreboding.

The problem worried them then, as it presumably does now, because they realize it would not stop at a fourth or fifth power. The possession, if not the capability of manufacturing, atomic weapons would spread to 10, 15 or 20 other nations, touching off an atomic arms race which would greatly increase the chances of a global nuclear war.

It would, they felt, enormously increase the possibilities of a fatal miscalculation on the part of one of the atomic nations and broaden the prospects for surprise attack. With a number of nations possessing atomic bombs, the task of working out any disarmament agreement would be far more difficult than it would be with only three members in the atomic club.

For that reason, there now are fairly free predictions that the Geneva negotiators stand a 50-50 chance of reaching an agreement of some sort.

This is based partly on indications that Moscow is worried about Red China, now *transforming herself into a major military* power. There have been reports the Chinese Communists have asked the Soviets for atomic weapons. The time may come when Moscow no longer will be able to refuse such requests.

The U.S. is in the process of installing intermediate-range missiles, armed with atomic warheads, on British bases. Negotiations are under way to expand such operations into Italy, France and—more importantly from the Soviet view—West Germany.

In theory, control of the nuclear components will be in American hands.

Moscow has been as reluctant to put nuclear weapons into the hands of its allies as Washington has been. But, if it has not to date set up similar bases in eastern Europe, there is a good chance it will do so as an answer to the American move.

Watch Your Language

PLANGENT—(PLAN-gent) — adjective; making a deep or loud reverberation, as clanging bells. Origin: Latin—plangere, to beat.

MAWKISH — (MOK-ish)—adjective; apt to cause nausea or satiety; marked by sickly sentimentality. Origin: maggoty.

MAGNILOQUENT — (mag-NIL-o-kwent) — adjective; grandiloquent; bombastic; speaking pompously. Origin: Latin—magnus, great, plus loquens, speaking.

TODAY'S BIBLE THOUGHT

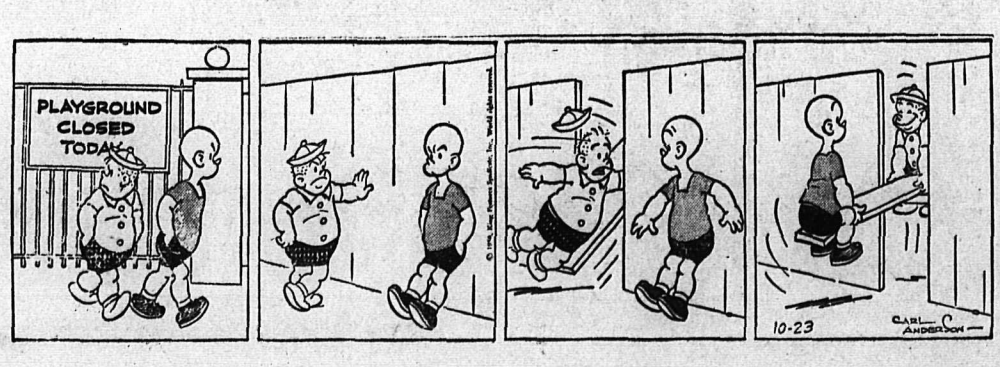
They'll Do It Every Time — Registered U. S. Patent Office — By Jimmy Hatlo

HENRY



Iron Ore Tax Up For Discussion

CINCINNATI, Ohio (CP)—The Premium iron ore tax case, a controversial issue with an important bearing on the future of the Canada - U. S. tax treaty, comes up Friday in the sixth Circuit Court of Appeals here.

The U. S. treasury is appealing a judgment by the U. S. tax court that it cannot collect from a Canadian mining firm, Consolidated Premium Iron Ore Limited, $2,587,000 it claims the company owes in back U. S. taxes on its operations from 1943 to 1949.

Canada views the U. S. treasury's attempt to tax the firm a violation of the tax treaty between the two countries, which is designed to prevent double taxation of companies or individuals.

The company, controlled by Cyrus Eaton, Canadian - born Cleveland financier, mines iron ore at Steep Rock near Atikokan, Ont.

Forest Fires Of Benefit To Deer, Grouse

VICTORIA (CP) — The only bright spot in British Columbia's disastrous fire season this year is the benefit which will accrue to B.C. game, especially deer and blue grouse, provincial parks biologist R. Y. Edwards said Tuesday.

"We don't say burn the country for the game, but it is a bright spot in an otherwise black picture," he said.

Mr. Edwards said the new, succulent growth such as huckleberries, salal and willows that will spring up on the burned-over land will provide plenty of feed for game animals.

"Deer and blue grouse and some other game animals and birds are never very abundant in dense forest, but remove the forest and they increase like compound interest," he said.

This year 4,100 fires in B.C. cost $4,500,000 in fighting costs and many times that amount in lost timber, but the thousands of burned areas have made places where the sunlight, air and moisture can reach; places where many new plants will grow.

"Catastrophes of the past, coupled with the logging industry, have made British Columbia—and especially Vancouver Island—a better game country for blue grouse and deer than before the *white man arrived,"* Mr. Edwards said.

RUSSIAN SALK VACCINE

MOSCOW (AP) — The newspaper Medical Worker said today that Salk-type anti-polio vaccine produced in the Soviet Union has been given 1,400,000 youngsters since inoculations began in April, 1957.

IT WOULD APPEAR Stan Musial and hula dancer Mapuana Kaloi are dancing at Honolulu airport. Actually—for the benefit of photographers—Stan was trying to show Mapuana how to swing a baseball bat. He and 21 other St. Louis Cardinals baseball players arrived there Oct. 10 on the first stop of a month-long tour of Hawaii and the Far East.—AP Wirephoto.

Bennett Says U.S. Holding Up Columbia Negotiations

VICTORIA (CP) — Premier Bennett of British Columbia has accused Ottawa and Washington of "just delaying" in negotiations on development of the Columbia River in B.C.

He told a press conference Tuesday that the United States and Canada should be negotiating at government level.

"The former (Liberal) minister, Hon. Jean Lesage, was doing that," the premier said. "But now the subject is back before the International Joint Commission."

"In our opinion the negotiations have to be at a high level to break through the red tape. We are pressing for action."

Mr. Bennett said there is no reason why negotiations can't go on before all engineering data is obtained on the river.

"It's all in the percentages anyway. An agreement would set the basis, and the final engineering details, the final detail."

But, he added, whatever agreement on division of power from Columbia development was reached, the B.C. government "would have to be satisfied."

HOLLYWOOD (AP) — Actress Barbara Stanwyck, suffering a severe congestion of fluid in her lungs, entered hospital Tuesday for observation and treatment to prevent pneumonia.

Arrest Dancing Negro Women

JOHANNESBURG (Reuters)—Some 250 singing, dancing Negro women were arrested and driven away in police trucks Wednesday when they protested against having to carry identity books.

The arrests brought the number of Negro women arrested after making identity book protests to 750 in the last few days.

A further 460 women gave themselves up voluntarily to police Tuesday because, they said, they felt the same as the others.

Wednesday's arrests, outside the native affairs department here, were made while officials at the nearby magistrates court were preparing for the appearance of 500 women arrested Tuesday.

The 500 were taken into custody after staging an unauthorized march on the native affairs office to protest having to carry the identity document issued to all Negro women.

Not Guilty Says Teenage Girl

LINCOLN, Neb. (AP) — Caril Ann Fugate, charged with murder as a companion to convicted killer Charles Starkweather, says she is innocent of any wrongdoing.

The 15 year-old Lincoln girl expressed confidence to reporters that she will be acquitted in a triat opening here next Monday.

She insisted she was coerced into accompanying the 19-year-old Starkweather on his bloody travels marked by 10 slayings in three days last January.

Starkweather was convicted on two counts in the slaying of Robert Jensen, a Bennet, Neb., schoolboy. He is scheduled to die in Nebraska's electric chair Dec. 13.

Caril is charged on the same counts in the same murder.

Minister Sinclair Blames UFAWU For Sockeye Wastage

VANCOUVER (CP) — President James Sinclair of the Fisheries Association of B.C. Wednesday blamed the United Fishermen and Allied Workers Union for wastage of thousands of Fraser River sockeye salmon.

Mr. Sinclair was replying to union business agent Homer Stevens, who claimed Saturday the sockeye were being destroyed because canners refused to buy them.

The disputed fish are the tail-end of the mighty sockeye run which is moving up the Fraser to spawning grounds on the Adams River.

Fisheries scientists don't want the weakened tailenders on the grounds because their eggs are subject to fungus diseases which could spoil the future sockeye crop.

Mr. Stevens said "thousands and thousands" of the sockeye have been caught and killed by fishermen trying to catch other species of salmon which can be sold.

He termed the fish wastage a "national disgrace."

Mr. Sinclair said the Association will not buy the "tail-end" sockeye because they are not fit to can.

"The real disgrace is the union's dictation to fishermen, refusing them permission to sell these second-grade fish at a reduced price," he said.

Mr. Sinclair said American and a few independent Canadian buyers were willing to take all the second - grade Adams sockeye they could get at 14 cents a pound.

But the union would not let its members sell for less than 28 cents a pound, the price paid for top-grade sockeye, he said.

American canners can pack the fish and call it by another name, he explained, a practice *forbidden by law in Canada.*

Mr. Sinclair said the association had asked the government to run tests of the "tail-end" fish and found them to be extremely low quality.

"They were the worst quality we have ever seen."

Mr. Sinclair claimed the association made repeated offers to the International Pacific Salmon Fisheries Commission to help stem the flow of unwanted sockeye up the Fraser.

"We first made the offer to supply men and equipment for *stopping the fish at a meeting* of the commission in Bellingham Sept. 11.

"Since then the offer has been repeated several times, but we have not had a reply from the commission."

New tricks for Hallowe'en treats with ROGERS' GOLDEN SYRUP

Dozens of candies (and desserts) are better *if you make them with Rogers' Golden Syrup.* For example, you can't go wrong if you make Popcorn Balls for Hallowe'en with this tested recipe:

POPCORN BALLS

1 cup granulated sugar
½ cup Rogers' Golden Syrup
4 tablespoons butter
½ cup water
1 teaspoon vanilla
Pinch of salt
8 cups of freshly popped corn

Place popcorn in a large buttered bowl and keep warm in a slow oven. Mix all candy ingredients except vanilla and salt. Stir in heavy pan over low heat until sugar dissolves. Cover for 3 minutes of boiling then remove cover and cook to soft crack stage (270°). Add vanilla and salt. Pour rapidly over corn and stir to coat each kernel. Dip hands in cold water and shape popcorn into *balls about the size of eating apples.*

QUICK ENERGY FOOD THAT'S GOOD SO MANY WAYS

Chinese Girl Student At Alberta University

EDMONTON (CP) — For the first time Chan Mee Lee is seeing leaves turn to gold and orange, and the young Chinese girl is looking forward to seeing her first snowfall.

Chan Mee Lee, a graduate of the University of Hong Kong, is registered at the University of Alberta for post-graduate work in educational psychology. She is studying on a World University Services scholarship and is living at Pembina Hall, the women's residence on campus.

Mee Lee means Little White Flower. Miss Chan chose Emily for her European name because it sounds closest to Mee Lee.

COLORFUL TOUCHES

Miss Chan's residence room is bright with a colorful, elaborately-embroidered linen Chinese bedspread and a scroll painting of a typical Chinese landscape.

To classes, she wears her traditional Chinese dress with high mandarin collar and slim fitted skirt, slashed at the sides to above the knees.

When she returns to Hong Kong she hopes to work as a teacher. Despite her degrees she probably will teach high school rather than university. Many middle - aged persons there take university courses and they would be unhappy taking lectures from a young woman, she thinks.

Emily misses the all-summer atmosphere of her home but a compensation will be seeing the leaves turn color. At home the family keep goldfish in a pool in their sheltered courtyard. She says goldfish are favorite pets in China

Couple Return From CPR Tour

HARROP—Mr. and Mrs. G. B. Alexander have returned from a tour of Europe as members of a "house party" for CPR pensioners.

The group left Montreal aboard the Empress of France, docking at Liverpool. Their route was from London to Boulogne by bus through France to the Mediterranean coast, to Florence, on to Rome and back via Switzerland and France.

During the last year 14,000 000 tourists have visited Italy, they learned. Of particular interest to the party was the large railway station in Rome which has 35 tracks.

Mr. and Mrs. Alexander were impressed by the cleanliness of many European streets which are thoroughly washed overnight, and the neat attire of all the school children who mainly wear uniforms.

Mrs. Alexander brought home necklaces of pink pearls made from fish scales in Saint-Guiloph, Italy.

WELSH ORIGIN

Flannel made from the wool of the mountain sheep was widely produced in Wales in the 16th century.

Callas Praised In Toronto Debut

TORONTO (CP) — Singer Maria Meneghini Callas made her Toronto debut Tuesday night in a concert that drew a crowd of 6000.

The famed singer was here for a one-night performance.

Music critic John Kraglund of The Globe and Mail said Miss Callas' performance "left no illusion that she is vocally the greatest soprano of our day."

"She is unquestionably the greatest singing actress we have yet encountered. . . ."

Star critic Hugh Thomson said:

"There's no question the character of her voice is dramatic and that she handles works of intensity, such as mad scenes, supremely well."

FRUITVALE PTA ADOPTS BUDGET

FRUITVALE — This year's budget was accepted when the Fruitvale Parent-Teacher Association met this week.

An appeal for increased membership was made by Mrs. C. Rogers.

Guest speaker was Dr. McKay who spoke on "When To Keep Your Child Home". He pointed out that a sick child does not learn at school.

"A sick child is a menace in the classroom" he told the PTA.

Nelson Woman At Fruitvale WI Charter Event

FRUITVALE — Charter members of the Fruitvale Women's Institute were invited to a recent meeting held at the home of Mrs. R. C. Webster, who was celebrating her 50th wedding anniversary.

Mrs. B. C. Affleck, first president of the WI when it was formed in 1920, came from Nelson, and other charter members present were Mrs. Albert DeBruyn, Mrs. E. Gordon, Mrs. Frank Gordon and Mrs. A. C. Webster. Mrs. D. C. Mason and Mrs. Webster are the only two acitve charter members remaining in the Institute, and both are life members.

Mrs. Ralph Leckett, president, welcomed the visitors, and presented Mrs. Webster with a corsage of yellow carnations.

Plans were made to hold a "gift for mental patients" coffe party again. It will be the third annual coffee party for these patients that the Institute has sponsored.

A shipment of B.C. WI centennial cookbooks has been received and for a short time there will be offered at cost price. There are also many history of the Valley booklets left. It was decided to donate two of these each to the Fruitvale junior high school and the J. Lloyd Crowe high school libraries. A copy will also be sent to H. W. Herridge, MP.

Mrs. Webster told of her recent trip to England, from the day they left Nelson, May 7, until arrival back at Vancouver Sept. 18.

Lunch was served by members at a lace-covered tea table centred by a two-tiered cake, decorated by Mrs. Alfred Endersby in golden motifs and topped with a bride and groom figurine. A toast was proposed to the Websters.

CLOSE DECISION

CAMBRIDGE, Eng. (CP) — The motion "that Great Britain should retain nuclear weapons" was defeated by 115 votes to 113 at a Cambridge Union Society debate here.

By TRACY ADRIAN

THIS IMPRESSIVE suit was designed by Fabiani, one of the outstanding designers of the Italian haute couture, a group that has made a great impression on fashions all over the world. Featuring the beautiful workmanship and tailoring for which the Europeans are noted, this outfit is of a soft brown and black tweed fabric. It has a straight, short skirt and a short, semi-fitted jacket.

Autumn Hues Predominate At Invermere Wedding

INVERMERE — Attendants in Indian Summer hues of orange ice and larkspur preceded a lovely bride down the aisle of Trinity United Church here when Barbara Anne, only daughter of Mr. and Mrs. James Alfred Laird of Invermere, became the bride of Mr. Allan Leonard Pederson, son of Mrs. A. R. Pederson of Kyle, Sask., and the late Mr. Pederson.

Rev. Aubrey Small officiated at the early evening ceremony at which the young couple exchanged wedding vows and rings. Best man was Stuart McMillan of Kyle, and ushers were A. M. Laird, brother of the bride, and Lorne Pederson, brother of the groom. Mrs. Alfred Davidson was organist.

The bride's gown of lace and nylon chiffon was fashioned with a bouffant skirt and a lace bodice with a dropped waistline in a starred effect. The neckline was delicately embroidered with mother of pearl sequins matching the mother of pearl and rhinestone coronet which held her chapel veil and she wore a pearl choker. A cascade bouquet of white chrysanthemums and flame pinocchio roses was a lovely contrast to the frosty bridal gown.

Orange ice chiffon fashioned the ballet length frock of Miss Lynn Tunnacliffe, maid of honor, and a frock of similar material in larkspur was worn by the bridesmaid, Miss Ursula Wehrli. Their net veils and gloves matched the dresses and they carried white spray daisies.

At the reception in the Lake Windermere Memorial Community Centre some 250 guests gathered to extend best wishes to the young couple. Receiving with them were the bride's mother in a two-piece suit of peacock blue worn with a bronze feather hat and a corsage of bronze chrysanthemums, and the groom's mother in a deep delphinium blue with a matching hat. Her corsage was of pink carnations.

The bride's table, damask covered, was centred by a three-tiered wedding cake, nestled in white chiffon with tiny rosebuds, and on top matching rosebuds stood in a crystal vase, which had belonged to the bride's maternal great-grandmother. The wedding cake was made by the bride's aunt, Mrs. K. M. Marples, and cut by her at the reception.

The toast to the bride was proposed by Marvin Tunnacliffe. A number of telegrams from Scotland, England and Canadian points were read by the best man.

For her honeymoon to Kyle, Sask., the bride changed to a suit of chocolate brown doeskin with an acqua hat and accessories and a topcoat of beige.

Out of town guests were Mrs. Pederson, Mr. and Mrs. Robert McIntosh, brother-in-law and sister of the groom, all of Kyle; Mr. and Mrs. Lorne Pederson, brother and sister-in-law of the groom from Calgary, Mr. and Mrs. McMillan, Stuart and Donald; Kenneth Campbell and Don Draper, all of Kyle; Richard Gerard, Calgary; Miss Diane Gerhard, Coleman; Miss Margaret De Boussier, Victoria, Miss Marion Graham, Miss Ursula Wehrli, Alert Bay; Miss Joan Waldon, Victoria; Miss Margaret Ann Philpot, Nelson; Mr. and Mrs. Richard Moe, Kimberley, and Mr. and Mrs. A. Staberg, Cranbrook.

The bride was born and raised in Invermere and after graduating from the David Thompson high school she attended the nurses' training school at Royal Jubilee Hospital, Victoria. Her groom was raised in Kyle and joined the navy in 1954.

They will reside in Victoria until February when the groom will receive his discharge from the navy. Then they plan to live in Calgary.

Robson Notes

Mr. and Mrs. W. T. Waldie were recent guests of their son-in-law and daughter Mr. and Mrs. C. Lovland of Spokane.

New Books for Autumn On Library Shelves

Many new books for fall and winter reading have arrived at the Nelson Municipal Library.

Some of the fiction selections are:

"Women and Thomas Harrow" by John P. Marquand, "A Mixture of Frailties" by Robertson Davies; "The Seventh Man" by Max Brand, "Love Calls the Doctor" by Elizabeth Seifert, "The Midnight Sea" by Ian Cameron, "A Hospital Summer" by Lucilla Andrews, "The Serpent and the Staff" by Frank Yerby, "Swear By Apollo" by Shirley Baker, "The Arizona Clan" by Zane Grey, "A Man Had Tall Sons" by Martha Ostenso, "Husband for Victoria" by Vaughan Wilkins, "Cocktail Time" by P. G. Wodehouse, "Black Midas" by Jan Carew and "The Dead Man's Knock" by John Dickson Carr.

Here are a few of the non-fiction choices: "African Switchback" by Nicholas Mosley, "A Hundred Years of Evolution" by G. S. Carter, "The Sweet and Twenties" by Beverley Nicholas, "Once to Sinai" by H. F. M. Prescott, "Sail Ho" by James Bisset, "Daughter of the Gold Rush" by Klondy Nelson, "And Promenade Home" by Agnes de Mille, "Eisenhower: Captive Hero" by Marquis Childs, and "The Russian Revolution" by Alan Moorehead.

BAZAAR PLANNED BY RENATA WI

RENATA — Final arrangements for their fall bazaar and tea Nov. 8 were made by members of the Renata Women's Institute at their October meeting at the home of Mrs. I. Wiebe. Besides booths, there will be a fish pond for youngsters.

A baby spoon is to be purchased for Renata's Centennial baby, Patrick Thaine Haegedorn, born in July.

Twenty - five Centennial cook books have been sold here and in Deer Park and 15 more are being ordered.

An ornamental flowering tree has been planted in the cemetery as a Centennial reminder.

Special convener for the bazaar is Miss Ethel White with Mrs. J. Dyck and Mrs. W. J. Hale being the lunch committee, Mrs. I. Wiebe fancy work and Mrs. Lila Wither, fish pond. A door prize will be donated by Miss E. White.

Ainsworth Notes

AINSWORTH—Mrs. R. A. Sherraden has had as guests her brother and sister-in-law, Mr. and Mrs. R. Griffin of Borden, Man.

Miss Pat Heath has returned to her home after being employed in the Cariboo for the summer.

Mr. and Mrs. J. Dickenson of Claresholm, Alta., were guests of Mr. and Mrs. H. S. Currie.

Mrs. J. W. Burns and daughter Jean have returned from Vancouver where Jean underwent an operation.

Robson WI Entertains Neighboring Group

DEER PARK — Members of the Deer Park Women's Institute were pleasanlty surprised when members of the Robson WI entertained them at a tea at the home of Mrs. V. Coleman. Refreshments were served by the hostess Institute.

Those coming from Robson were Mr. and Mrs. R. W. Chalmers, Mr. and Mrs. H. Evans, Mrs. P. McPhee, Mrs. M. Sutherland, Mrs. M. Smecher and Mrs. E. Ballard. Other guests were Mrs. A. Simmons of Vineland, Ont., Mrs. C. Jamieson, Rainier, Ore., and Mrs. A. W. Kent.

Guiders Urged To Set Example for Discipline

TRAIL — A Guiders' training session based on discipline and ceremonies, conducted by Mrs. A. M. Rizzuto, divisional trainer, was held in the East Trail Guide Hall.

The session opened with the traditional Horseshoe ceremony and the breaking of colors. There were 31 Guiders taking part.

Mrs. H. F. Hyson, division commissioner, was in attendance for the purpose of enrolling four recruits and renewing promises of two former members. These six members were presented by Mrs. H. F. Hutchinson, district commissioner for Trail-Rossland, and they will be working with various Brownie Packs. They are Mrs. Florence Milne, Rivervale, Mrs. G. W. Rutley, Trail, Mrs. W. Neil and Miss L. M. Cooper of Rossland, and the two former members are Mrs. Quarrie of Rossland and Mrs. Joyce Dilling of Rivervale.

Mrs. H. B. Quain spoke on discipline and basic fundamental teaching using the laws of Brownies and Guides to create trust and security through unselfishness and service. She urged Guiders to be ever mindful that the example set by their patience and understanding will build discipline.

Mrs. Rizzuto explained the part ceremonies played in the movement. Demonstrations were performed by all, covering those ceremonies that do not change and were handed down by the founder Lord Baden-Powell, and others.

Mrs. Hyson spoke of the need of volunteer Guiders for the teenage girls. She also gave a brief outline of work covered at a recent Commissioners' meeting held at Naramata.

A welcome was extended to Guiders from Castlegar, Penny Harvey, Brown Owl, and Mrs. K. Sanderson, Tawny Owl.

Dress Up With Marian Martin

9279

SO SLIMMING

Half-sizers! This is the dress you asked for — a smooth and slimming sheath to take you smartly everywhere from now through fall. Note diagonal bodice line, touch of contrast.

Printed Pattern 9279: Half Sizes 14½, 16½, 18½, 20½, 22½, 24½. Size 16½ takes 3¾ yards 35-inch; ¼ yard contrast.

Printed directions on each pattern part. Easier, accurate.

Send FIFTY CENTS (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

YWCA to Seek Recruits in West

TORONTO (CP) — The Young Women's Christian Association is planning recruiting drives in Central and Western Canada, the organization's annual report says.

The report, presented to 140 delegates at the YWCA annual meeting, said the organization is short of staff and help is needed from throughout Canada to fill personnel posts.

The recruiting drive will be based on a successful pilot project conducted with various church groups in cities in the Atlantic provinces. More than 700 persons interested in working full-time on Christian education were found.

The report also said a special committee is trying to raise $100,000 in the next three years to extend YWCA work and recruit and train personnel.

MORE VISITORS

LONDON (CP) — In the first half of this year 498,500 overseas tourists came to the United Kingdom, eight per cent more than the same period last year.

Says Major Oil Companies Put Pressure On Retailers

VANCOUVER (CP)— Canadian automotive and gasoline retailers were urged Monday to close ranks against pressures exerted by major oil companies seeking to establish market control over retailers.

The call came from John Nerlinger Jr., executive secretary of the U.S. National Congress of Petroleum Retailers, in an address to the seventh provincial convention of the Automotive Retailers' Association.

Mr. Nerlinger listed the pressures as price discrimination as a means to market penetration; pressure on retailers for exclusive dealing; repressive contracts limiting retailers' freedom of choice in products they purchase; overbuilding of service station facilities; and short term and unfair leases imposed by suppliers on retailers.

He said world-wide operations of the largest companies have given retailers similar problems in Canada, the U.S., Great Britain, Australia, New Zealand and India.

"Service station operators and small businessmen in all of the countries have shown their determination to protect their basic freedoms and make the free enterprise system work in petroleum distribution," he said.

The convention winds up today with consideration of a number of resolutions, including one pressing for a ban on self-service gasoline stations in B.C. and another seeking provincial control over the building of retail outlets.

Eight provincial associations are represented at the convention.

Science Nearer To Producing Test Tube Life

WASHINGTON (AP) — Science may be getting close to producing life in a test tube, says the Smithsonian Institute.

Such an accomplishment, it claims, would be "one of the outstanding events in all history."

Summarizing an article by Dr. Wendell M. Stanley, director of the virus laboratory at the University of California, the Smithsonian says:

"The way seems open, following recent revolutionary chemical developments, to the actual laboratory synthesis of a structure having most of the properties of a living agent."

BREAK BARRIERS

Stanley has described remarkable recent progress in breaking down the barriers between non-living molecules and living organisms.

The Smithsonian's digest added:

"The remaining essential step, he says, seems to be synthesis of one of the chemically highly complicated nucleic acids which forms an essential component of viruses and of genes, the units of heredity. This may be close at hand."

The government research agency said Stanley pictures a kind of "ladder of life" as being constituted as follows:

(1) Nucleic acids; (2) viruses, which incorporate nucleic acids; (3) single - celled living things, such as bacteria and protozoa; and finally (4) multi - celled organisms comprising all higher forms of life.

"The barriers between these have broken down one after another in the last few years," said the Smithsonian.

PRODUCE PROTEINS

"This progress seems to have culminated very recently, Dr. Stanley says, in a demonstration by Dr. H. Fraenkel-Conrat at the University of California that one of the nucleic acids may have all the essential properties of a gene or of a group of genes. Already proteins, building stones of life, have been produced from amino acids. . . .

"The remaining step seems to be the synthesis of this nucleic acid out of its constituent parts . . . just as proteins have been synthesized from amino acids.

"It would be one of the outstanding events in all history."

BALLOON SATELLITE

WASHINGTON (AP) — An inflated balloon of aluminum foil and plastic film may be the next United States satellite to go into orbit. Such a sphere is to be included in the next army satellite-firing attempt. It is to be sent aloft in a modified Jupiter-C rocket and inflated automatically with nitrogen hundreds of miles above the earth.

BLEND OF STYLES — Werner Ring, at wheel, and Helmet Mueller sit in Volkswagen car which they embellished with an American-style body at Speyer, Germany. Body which measures five feet wide and 14 feet long was placed on the German chassis.

Russians To Compete In Foreign Aid Field

MOSCOW (Reuters) — Premier Tuesday night that underdeveloped countries should be helped through an international fund created with savings made by reducing armed forces and cutting military budgets.

Khrushchev, speaking at a reception here, rejected other suggestions for joint Western-Soviet aid to underdeveloped countries and said Russia is ready to compete in this field with the West.

"We won't help them (the imperialists) so that they can further rob and impose a perpetual yoke on the Arab peoples," he told guests at the reception given for Soviet leaders by Marshal Badel Hakim Amer, vice - president and minister of war of the United Arab Republic who is visiting Moscow.

"HONEST HELP"

"We will help them ourselves and do it honestly with those countries with which we have agreements.

"They (the West) cannot compete with us in this. The wolf and the sheep cannot live together because the wolf has fangs to eat the sheep with, not to help it."

The Soviet leader, in his first public appearance in Moscow after two months' vacation on the Black Sea, said the Soviet Union is friendly with the United Arab Republic because "we don't need your riches." He added:

"But the imperialists want to help you by giving you one kopek and getting 10 rubles back."

CLAIMS "WANT OIL"

"Why do they do it? Because they want your oil, your diamonds, your raw materials—not because they care for your welfare, but in order to subect you more, to squeee the last drop of juice from you, which they have been doing for centuries."

After speaking of the possibility of establishing an international fund, Khrushchev told his audience at Moscow's Sovietskaya Hotel:

"We recommend to the imperialist countries that instead of spending money on the movement of their troops for intervention, as was the case in Lebanon and Jordan, to transfer these means to countries in need of assistance."

TORONTO FLOODLIGHTS PEDESTRIAN CROSSWALK

TORONTO (CP) — Metropolitan Toronto council Tuesday night approved installation of yellow floodlights over pedestrian crosswalks.

Pedestrians have the right-of-way at crosswalks. A controversy over how to mark the crosswalks developed after three pedestrians were fatally injured at the new crossings.

Denies Pope's Diaries Lost

ROME (Reuters) — Nephews of the late Pope Pius XII denied a Communist newspaper report that diaries the pontiff kept for 40 years had disappeared from his apartments in Vatican City.

Unita, organ of the Italian Communist party, alleged the diaries were in the possession of one of the Pope's close acquaintances or a member of the West German Embassy.

The Pope's nephew, Prince Carlo Pacelli, counsellor general of the Vatican, told a reporter:

"I know nothing about this foolish affair or the existence of any diaries."

Another nephew, Prince Marcantonio Pacelli, described Unita's story as "an invention from A to Z."

Vatican sources last week said the pontiff's diaries, written in a form of shorthand which he invented himself, were placed under seal by his cardinals when he died Oct. 9.

His successor will have to decide what to do with the diaries. They may contain a full account of his visions and if they can be deciphered would provide important testimony if attempts are made to canonize him as asaint.

Britain Anxious To Oust All Trade Restrictions

By FORBES RHUDE
Canadian Press Business Editor

SEIGNIORY CLUB, Que. (CP) Britain is sincerely and positively anxious to get rid of trade restrictions, H. Leslie Brown, assistant deputy minister of trade and commerce, said Tuesday at the annual meeting of the Canadian Exporters' Association.

Mr. Brown—stating that this is his personal opinion based on his recently-completed two years in London as Canadian commercial counsellor—was replying to expressions of skepticism from some of the delegates.

He cautioned, however, that it will take another year to show whether or not Britain's present confidence is strongly based.

Britain had, he stated, given a good demonstration of her intentions at the Commonwealth trade conference in Montreal when she had announced further relaxations of restrictions on imports from dollar countries, and had stated she would advise British colonies to follow the same course.

DOLLAR SHORTAGE

However, he continued, Britain still is suffering from a dollar shortage despite the great improvement in her foreign exchange situation.

Britain, Mr. Brown said, has gained new confidence from a variety of factors, including the fact that the two-year cycle of recurring financial crises which had marked the post-war years and finally been broken.

Now she had passed the two-year mark since the last crisis in good form and had made her Montreal announcements in September — traditionally the worst month of the year in its drain on exchange funds.

So far as further trade relaxations are concerned, Mr. Brown said much will depend upon the next 12 months. If Britain could have another good year, then full convertibility might be "at hand."

BARRIERS STILL UP

Some exporters expressed disappointment that they are finding trade barriers in the colonies about as severe as ever, despite Britain's advice, and they questioned the value of the British announcement.

"Personally," said Mr. Brown, "I have every confidence that the British statement at Montreal in regard to the colonies was not made lightly." He advised a little more patience.

Mr. Brown was one of about a dozen officials of the department of trade and commerce who attended Tuesday's sessions which were devoted to informal discussions of various exporting problems.

The two-day gathering ended Tuesday night with the association's annual dinner, addressed by Sir Saville Garner, United Kingdom high commissioner to Canada.

PREMIUM HANDICAP

The exporters—concerned with the handicap to them of the premium on the Canadian dollar —were told that they will probably have to continue to live with it for a while.

A. G. Robinson of the Imperial Bank of Canada commented:

"If we had some idea of how much borrowing Canadians will do in the United States in the next year, we would have something on which to base a forecast. My personal opinion is that any exporter who looks for the Canadian dollar to return to par is being over-optimistic."

Rabies Threat To Children

OWEN SOUND, Ont. (CP) — A federal veterinarian says a rabies epidemic which has been killing livestock and menacing children is "worsening every day." He gave figures which indicate there may be as many as 50,000 rabid foxes in the area.

Dr. T. J. Cornish told Grey County council Tuesday night rabid foxes are beginning to raid built-up areas and "will be seen on the streets of Owen Sound soon" if drastic action isn't taken.

Dr. Cornish said there probably is an average of 50 to 100 foxes a square mile in the county. There may be as many as 500 foxes in some districts. Four of every 10 of them could be rabid, Dr. Cornish said.

TAG FOXES

Councillors decided to trap, tag and release 24 foxes, whose pelts will be worth money, in an effort to encourage hunters to seek out and destroy the animals. Twenty-three of the foxes will carry tags worth $50. The 24th will be worth $100.

Grey County abolished its $5 bounty for fox pelts Aug. 1 when officials began refusing to handle them for fear of catching the disease. Up to that point about 1400 were presented for payment this year.

Of the problems associated with fox control, not the least, Dr. Cornish said, is the animal's breeding ability. He said 25 penned females and two males could multiply to 1000 within two years.

The rabies epidemic reached southern Ontario with the gradual migration of the Arctic fox to warmer regions.

British Labor Gets Ready For Election

LONDON (Reuters) — The Labor party, expecting a general election next spring, Wednesday allocated £25,000 for an immediate pre-election campaign.

The decision was taken at a meeting of the party's governing national executive, which also set up a special campaign group.

Prime Minister Macmillan has said he does not contemplate a general election this winter unless there is some unforeseen development.

The government's current five-year mandate runs out in 1960.

PEOPLE'S CHOICE

LONDON (CP) — Worshippers have been asked to suggest subjects and texts for sermons at Holy Trinity Anglican church in the Kingsway district.

President Ogilvie Mills To Discuss Purchase Offer

MONTREAL (CP) — H. Norman Davis, president of Obilvie Flour Mills Company, Ltd., in a statement Wednesday said he has not seen "the official offer" for purchase of a "limited quantity" of Ogilvie shares and it has not been discussed with the company's board of directors.

His statement followed an announcement in Toronto by National Trust Company Limited that it was acting as agent for an unidentified client. The issue jumped $8.75 on the Toronto Stock Exchange to $44.75 following the offer, involving $12,325,000, to purchase 300,000 shares at the $44.75 figure on a first-come, first-served basis.

Mr. Davis' statement said:

"According to a press dispatch an offer is being made to Ogilvie shareholders on behalf of an undisclosed purchaser for a limited quantity of shares for acceptance within a very short time limit.

TERMS INDEFINITE

"I have not seen the official offer but from the dispatch the terms are indefinite, qualified by protective provisions and seem to be designed to urge shareholders to act in haste.

"The offer has not been discussed with the Ogilvie board of directors.

"The annual report for the year ending Aug. 31 will be mailed to shareholders this week but under the circumstances the shareholders should now be apprised of the fact that there has been a substantial improvement in operating earnings and, in spite of a decline in investment income, net earnings were $2.35 a share, which represents an improvement of nearly 30 per cent over 1957.

"At the same time there is an increase in the excess of market value of marketable securities over balance sheet valuation amounting to $1,700,000 during the year.

"A number of large share holders have informed me that they do not intend to accept the offer.

"I am trying to obtain full details of the offer, for discussion at the regular meeting of the board."

Just in time for '59!

Announcing Nelson's new Dodge-De Soto dealership

CITY AUTO SERVICE Limited

R.R. No. 2 Phone 447

Chrysler of Canada is happy to join Mr. Lloyd Renwick, President of City Auto Service, Limited, in announcing the appointment of his organization as Nelson's newest Dodge-De Soto dealership. The business, for years well-known in the community for complete, expert automotive service, is delighted to bring you the long, low and wonderful new '59 Dodge, the dramatic, luxurious new '59 De Soto, and handsome, rugged new '59 Dodge trucks.

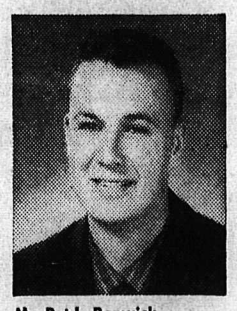
Drop over first chance you get and meet Mr. Renwick and his competent staff. You'll find that City Auto Service, Limited, is conveniently located on Castlegar-Nelson Highway less than a mile from the centre of town.

You'll also find a warm welcome waiting you . . . and the promise of prompt, personal attention to all of your automotive needs.

Mr. J. O. McKen, Vice-President

Mr. Lloyd Renwick, president, has been in business for himself for over 34 years. He has operated City Auto Service, Limited, since 1948, during which time the business has steadily grown. In 1956 he formed a four-way partnership with his two sons Maurice and Pat, and Mr. J. O. McKen. Mr. Renwick is an active member of the Chamber of Commerce and the Nelson Curling Club.

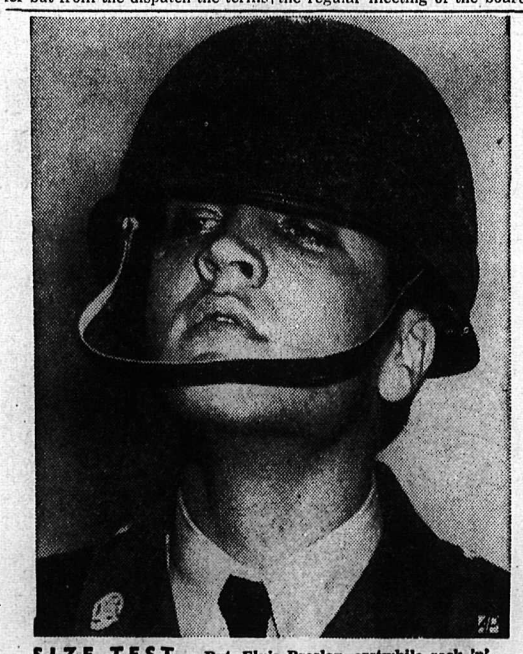
Mr. Maurice G. Renwick, General Manager



Mr. Pat L. Renwick, Secretary-Treasurer

DODGE-DE SOTO DIVISION

CHRYSLER CORPORATION OF CANADA, LIMITED



SIZE TEST — Pvt. Elvis Presley, erstwhile rock 'n' roll star, looks puzzled as he tries on helmet upon arrival at German base where he'll serve as tank crewman.

SCANS THE SKIES — Burton Willard, a budding astronomer at 18, stands with the 61-inch focal length Newtonian-type optical system telescope he built at Charleston, N. H. He uses the two-mirror telescope to observe the moon and orbitting satellites.

Will Ask Ottawa To Vote Up To $50 Million For Highway

By JOHN E. BIRD
Canadian Press Staff Writer

OTTAWA (CP) — Parliament will be asked at its next session to vote an additional sum—perhaps $40,000,000 to $50,000,000—for construction of the Trans-Canada Highway.

This would increase the federal government's share of the 4,470-mile coast-to-coast road network to some $300,000,000, compared with an expenditure of $250,000,000 now authorized under the Trans-Canada Highway Act.

A works department official said the exact additional amount will be known in a few weeks. The department has asked the nine provinces that signed agreements under the highway act—all except Quebec—what milage and other works they plan to complete by Dec. 31, 1960, target date for a paved highway from coast to coast.

COULD BE HIGHER

Once this was known the department could determine the additional funds the federal government would have to spend. The official said this now is estimated roughly at $40,000,000 to $50,000,000 but could be higher.

About 41 per cent — or some 2,000 miles—of the highway now has been paved. Construction started in 1950. There is an additional 1,200 miles paved to provincial standards but not to Trans-Canada specifications.

The official said parliamentary approval of the additional expenditure would receive top priority.

He said more money would have to be voted by Parliament to enable the government to keep pace with a faster rate of highway construction by the provinces. The provincial governments wanted to get as much work done as possible before Dec. 31, 1960, when the highway act expires.

When the act was passed in 1949 it limited the federal share of construction costs to $150,000,000. The government agreed to pay 50 per cent of the cost of new construction and half the expense of bringing sections of highway paved before the passage of the act up to Trans - Canada standards.

The act was amended early in 1956, increasing federal spending to $250,000,000. The 50-50 split in costs was continued but Ottawa also agreed to pay 90 per cent for the closing of vital uncompleted gaps up to 10 per cent of the total mileage within any one province.

Cumulative federal and provincial commitments for highway construction at Oct. 4 totalled $435,422,301. Of this total, Ottawa had committed $259,821,130—nearly $10,000,000 more than the amount authorized by the act.

DIED IN CRASH

TOKYO (AP) — Communist China said today three Moroccan students were among 65 passengers who died in the crash of a Soviet TU-104 et airliner 400 miles east of Moscow last Friday. Radio Peiping named the Moroccans and said they were returning from China after attending the fifth congress of the International Union of Students.

Trans-Canada Pipe Completes Gas-Line Test

TORONTO (CP) — Trans-Canada Pipe Lines Limited announced that final testing of the company's natural gas line from Alberta to Montreal was completed today and approval from the board of transport commissioners for Canada received. The final testing took place between Hearst and Kapuskasing in Northern Ontario.

Construction of the 2,294 - mile pipeline, longest natural gas line in the world, was completed near Kapuskasing Oct. 10.

Natural gas from Alberta will arrive in Toronto Friday and then will move through the line to Ottawa and Montreal.

Construction of the Trans-Canada line began in July, 1956, near Burstall on the Alberta - Saskatchewan border. By the winter of 1957 Alberta natural gas was being used in homes and industries as far east as Port Arthur. The Toronto - Montreal section of the project also was completed late in 1957 and placed in service with an interim supply of gas.

During the 1958 construction season, 5,000 men built the final 852 miles of the line, working east from Port Arthur on the Northern Ontario Pipe Line Crown Corporation section of the line, and north from Toronto on the Trans-Canada section.

Official ceremonies marking the completion of the $375,000,000 project will be held later.

Trustee Rouses Objections . . .

Violent Reaction Follows Remembrance Day Remarks

TORONTO (CP)—Violent reaction here has followed the statement of the Victoria, B.C., school trustee who said observance of Remembrance Day is "hypocrisy."

Richard Reeve, Victoria school board member opposed his board when it approved the distribution in schools of Remembrance Day poppies. "How long are we going to perpetuate Remembrance Day?" he asked.

"Mr. Reeve is nuts," said Jim Drysdale, president of the Maple Leaf branch of the Canadian Legion.

"Nov. 11 is the most important thing we have. It should be continued because there were countless lives lost in both wars and the only thing that will prevent another war is for people to remember those killed before."

"IT'S OUTRAGEOUS"

Frank Ellis of the legion's Baron Byng branch here said: "It's outrageous. He (Reeve) should be put away somewhere. We believe in honoring the memory of our fallen comrades."

Martin Venman, president of the Baron Byng branch said Mr. Reeve "must be a crackpot to make a statement like that."

Toronto school trustee Margaret Perney, who lost a brother in the First World War, stressed that Nov. 11 is an important day.

"This is a moving thing, something deep down in people who have had a personal contact with the wars in this way. The honor and respect we can pay those who died is little enough."

HAD WRONG IDEA

MOSCOW (Reuters)—A Soviet scientist says Albert Einstein's theory of relativity has been misinterpreted in the Soviet Union. Prof. Alexander Alexandrov of the Soviet Academy of Sciences told a conference Tuesday that Soviet scientists had made "mistakes" about it. Under Stalin, Einstein's theory was treated as an expression of idealistic philosophy and its author condemned.

NATO Needs Overhaul Says Montgomery

NEW YORK (CP)—Inconsistencies in United States foreign policy have weakened the west's general strategic position and, if continued, could lead to the breakup of the Western alliance, Field Marshal Viscount Montgomery says in an instalment of his memoirs published Tuesday.

The British war leader's story is being serialized in Life magazine and, in Canada, by Weekend Magazine.

Montgomery writes that the United States must exercise convincing powers of leadership in the free world.

"I often think that the United States' foreign policy is inconsistent. She appears to have one policy in the assembly of the United Nations, and another and different one when her own national interests are involved."

FINAL TESTAMENT

Monty's views on the political outlook are contained in what he calls "a sort of final testament" winding up the story of his campaigns.

Montgomery says the time has come for a thorough overhaul of the concept and organization of NATO, and outlines the need for these changes:

1. Although a major war is unlikely, limited and cold war activities outside the NATO area are likely to increase. "These must be handled firmly," Montgomery says, "so that they do not become the forerunner of a full-scale war. The major contribution of certain selected nations to NATO defence could well be to produce forces which are organized and equipped for these contests."

2. The politico-military structure needs "a searching examination." Montgomery says it is top-heavy, expensive and does not work well. Staffs should be ruthlessly pruned and paperwork cut. Furthermore the NATO council is in Paris while its military advisers are in Washington.

"How can two organizations cooperate closely and efficiently if they are 3,000 miles apart?" Montgomery writes.

3. There is "no organization for the higher direction of any war in which we might become engaged."

4. National organizations for producing the forces we need in peace and war are unsound in the case of many continental nations. They are based largely on a system under which large groups of men are called up only in times of emergency. The system is out of date.

5. Simplicity and decision, two absolute essentials in war, have disappeared from the NATO military organization. "We are producing commanders trained in the art of compromise," Montgomery says.

6. The high cost of defence is not being seriously tackled, except in the United Kingdom.

There are many ways in which the over-all cost to the NATO nations can be reduced, Montgomery says. One is that when the German contribution is complete, we should aim to get a proportion of armed forces of the other continental nations back into their own countries, thus saving expenditure on foreign currency.

EFFICIENT METHOD

Another "very efficient way" would be to have collective balanced forces for NATO as a whole rather than on a national or regional basis at present. Such a system also would tend to bind the nations more closely together since they would be dependent on each other.

In this instalment of his memoirs Montgomery also tells of his efforts late in the Battle of Europe to alert the American high command to the military and political importance of capturing the capitals of Germany and the eastern European countries ahead of the Russians, with an eye to the future political and strategic importance of those areas.

"Once over the Rhine I began to discuss future operational plans with Eisenhower. We had several meetings. I had always put Berlin as a priority objective. It was a political centre and if we could beat the Russians to it things would be much easier for us in the post-war years."

The Eisenhower position, however, was opposed. A letter to Montgomery on March 31, 1945, ended with the following words:

"'You will note that in none of this do I mention Berlin. That place has become, as far as I am concerned, nothing but a geographical location, and I have never been interested in these. My purpose is to destroy the enemy's forces and his powers to resist.'"

Montgomery says the important point was to have a political balance in Europe which would help the Western nations to win the peace.

"But what happened? The possibility of seizing Vienna disappeared when it was decided to land in southern France; the troops for the landing were taken from Field Marshal Alexander's force in Italy and that put a brake on his operations.

"As regards Prague, the 3rd American Army was halted on the western frontier of Czechoslovakia toward the end of April, for reasons which I have never understood. Berlin was lost to us when we failed to make a sound operational plan in August 1944, after the victory in Normandy.

"The Americans could not understand that it was of little avail to win the war strategically if we lost it politically; because of this curious viewpoint we suffered accordingly from VE-Day onwards, and are still so suffering."

STALLED BUSES

CROYDON, England (CP) — Rainwater in the garage fuel tanks immobilized 20 buses during a peak traffic period. How the water got in the tanks is a mystery.

Anaconda Boosts Price of Copper

NEW YORK (AP) — The Anaconda Co., third largest U.S. producer of copper, Wednesday increased the price of the metal by 1½ cents to 29 cents a pound. The change was effective Wednesday.

New Pope Must Raise College Of Cardinals to Full Strength

VATICAN CITY (AP) — The new pope will face the question of raising the College of Cardinals to its normal strength. But Vatican circles doubt he will move quickly to do so.

He may wish to delay appointing new cardinals until he can thoroughly study the qualifications of the possible candidates.

Normally the College of Cardinals has 70 members. Death has cut its numbers to 55. Assuming the new pope comes from the College of Cardinals, there will be one more vacancy, or a total of 16, when he is crowned.

Besides the vacancies, a number of prelates, aged and ill, are unable to devote full time to their duties. Fully a dozen of the 55 cardinals are more than 80 years old. Only six are less than 60.

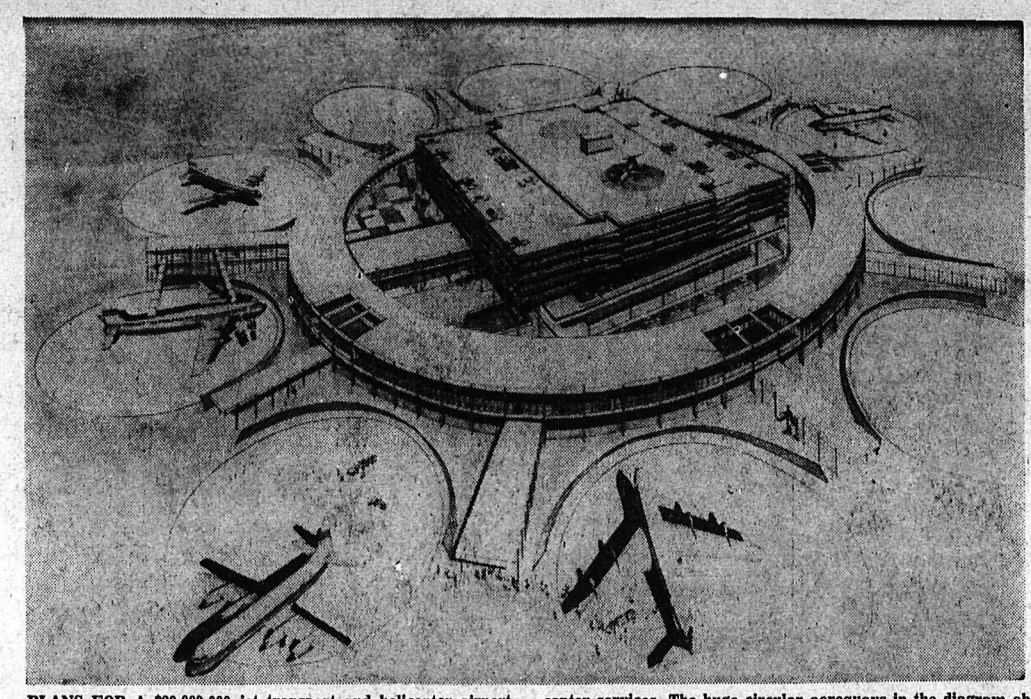
The number of 70 cardinals was set by Pope Sixtus V some 400 years ago. The question of increasing this number has come under Vatican consideration increasingly in recent years.

Pope Pius XII named no new cardinals until 1946, seven years after his reign started. However, war marked six of those years.

The new pope need not fill all the vacancies at a single consistory. If he feels it necessary to have the immediate assistance of new cardinals, he could call a consistory at any time to name one, two or as many new princes of the Church as he desires.

Both consistories called by Pope Pius were large. He raised 32 to the purple in 1946, 24 in 1953. Other popes frequently have preferred smaller consistories for one or two new cardinals. Pope Pius XI called 17 consistories—all relatively small — to create cardinals.

The question of new cardinals is important to many areas of the world. Roman Catholics in Africa, the Philippines and Mexico would like to have a cardinal. England is now without one. The United States, which had five at one period, now has three.



PLANS FOR A $20,000,000 jet transport and helicopter airport at Malton, Ont., are being considered by the department of transport. Traffic by 1971 is estimated at 4,000,000 passengers a year, and much of it is expected to be by huge jets and short-run helicopter services. The huge circular aeroquays in the diagram above are self-contained and have high fences to prevent damage from jet exhaust. The central building is for administrative personnel.

Bench Questions B.C. Counsel On Lower Freight Rate Appeal

OTTAWA (CP)—British Columbia counsel met sharp questioning from the Supreme Court of Canada bench Wednesday as the province appealed for lower freight rates on grain for consumption within the province.

The province is asking the court to overthrow a 1956 board of transport commissioners decision denying a reduction in rates from the Prairies to B.C.

The B. C.-proposed reductions would amount to around 60 per cent.

B. C. is being opposed before the court by the other western provincial governments, the transcontinental railways and some Prairie grain organizations.

C. W. Brazier of Vancouver, B.C. counsel, said that Parliament's 1951 freight rate equalization statute dictated that the rates on grain going to B.C. for domestic consumption should be levelled off with the much lower rates on export grain.

The domestic rate from Calgary to Vancouver is about 2½ times that of the export rate. The westbound export rates are tied to the low statutory Crowsnest rates on eastbound export grain.

JUSTICE REPLIES

In response to Mr. Brazier's claim that the domestic and exprot rates should be equalized, Mr. Justice I. C. Rand said it could be suggested that B. C.'s export rates be raised to the domestic level.

Mr. Brazier said no one had yet proposed that. Certainly, the railways had not.

When Mr. Brazier noted that the domestic rates had soared far above the export rates in recent years, Mr. Justice Rand inquired:

"But how are you affected by the fact that the export rate is lower?"

Mr. Brazier said the domestic and export rates to the Lakehead are the same.

LARGEST PORT

When he noted that Vancouver last year was Canada's largest grain exporting port, Mr. Justice Rand observed:

"And you think that traffic was promoted for the purpose of lowering the rate to local consumers?"

Mr. Brazier said the disparity between the two sets of rates is too great.

"The fundamental thing,"Mr. Justice Rand said, "is that the domestic rate has no commercial relationship to the export rate.

"They are not competitive. It makes no difference to you what the export rate is."

British Actor To Adjudicate DDF Regionals

OTTAWA (CP) — Richard Ainley, British actor-producer, will adjudicate the Dominion Drama Festival's regional plays this winter.

Mrs. Donald W. McGibbon of Toronto, DDF president, made the announcement at a press conference Wednesday.

Mr. Ainley, son of Henry Ainley one of the "greats" of the British theatre, will adjudicate 14 regional festivals from Newfoundland to British Columbia between early January and mid-April.

He has acted in the British and American theatre.

Mrs. McGibbon said a system of zoning to bring together several festival regions and to use Canadian or U. S. Adjudicators in the zones now is being studied by a festival committee.

Dates and locations for ths year's regional festivals include:

Toronto, Jan. 5-10; Vancouver, Jan. 14-17; Edmonton, Jan. 19-22; North Battleford, Sask., Jan. 24-27; Winnipeg, Jan. 29-31.

India Signs Loan Pact With Canada

OTTAWA (CP)—Acting Canadian Finance Minister J. M. Macdonnell and High Commissioner C. S. Venkatachar of India Wednesday signed an $8,800,000 loan agreement to finance Indian purchases of Canadian wheat.

It is second loan made this year, bringing the total to $33,000,000. The first agreement, signed in February, provided for a $25,000,000 loan, of which $24,200,000 was advanced.

The total loan will be repaid in seven equal instalments annually, beginning Dec. 31, 1961. It will bear an interest rate of 4¼ per cent, payable annually starting Dec. 31, 1959.

The $8,800,000 second loan was negotiated and announced earlier.

Canadian Exporters Challenged To Help Undeveloped Countries

SEIGNIORY CLUB, Que. (CP) Sir Saville Garner, United Kingdom High Commissioner to Canada, Tuesday night challenged Canadian exporters to help raise the living standards in underdeveloped countries and so tap promising markets for goods.

He told the closing dinner of the two-day annual meeting of the Canadian Exporters' Association:

"The African villager, the Indian peasant and the West Indian laborer — who at present make almost no demand on the world's goods—present a stimulating opportunity.

GREAT VICTORY

"If we can meet it, we shall not only have achieved a great victory in the battle for men's minds, but we shall also have set up new demands."

Referring to the September Commonwealth trade conference in Montreal, Sir Saville said:

"We all recognize that in today's world all of us are interdependent. But at Montreal there was a new directness and a new conviction that prosperity is indivisable and that it is not healthy for world peace or international stability that some countries should have so much and some so little.

DEMOCRATIC DANGER

"We also know that if the hopes of the less-developed countries are too long deferred, the democratic institutions may be in danger."

Sir Saville said Britain today is strong and is reaping the rewards of restraint in the last year.

"Our foreign exchange reserves have been steadily rising and the last six months saw the first surplus in trading since the beginning of the century. I believe the prospects for an upsurge in Anglo-Canadian trade are good."

ANSWERS DOUBTS

In reply to express doubts about British concessions announced at Montreal, H. Leslie Brown, assistant deputy minister of trade and commerce, said:

"Britain is sincerely and positively anxious to get rid of trade restrictions. British statements at Montreal were not made lightly."

He suggested the next year would tell how far Britain would be able to go in removing all restrictions against imports.

This year she had at last broken the post-war two-year cycle of recurring financial crises and if she could continue this for another 12 months, then full convertibility of sterling might be "at hand."

Kingston Rioters Receive Strappings

KINGSTON (CP) — Seven Kingston Penitentiary rioters have received strappings for their part in two disturbances at the prison Friday and Monday.

Warden Walter F. Johnston said Wednesday he couldn't reveal how many strokes each prisoner was given but added the authority was received from Ottawa. He said that no prison or penitentiary can use corporal punishment without clear cut evidence and without authority from the commissioner of penitentiaries.

START THIRD YEAR

WASHINGTON (AP)—America Illustrated, the Russian-language magazine of the U.S. Information Agency, went into its third year of publication Tuesday. The magazine is sold primarily in Russia.

Movie Gossip...

Rita Hayworth Spends Happy Birthday On Utah Location

By BOB THOMAS

ST. GEORGE, Utah (AP) — Amid these rocky buttes you can find a new Rita Hayworth — relaxed, radiant and although she is marking her 40th birthday, as beautiful as ever.

The reason for all this appears to be her fifth and apparently most successful marriage.

While Rita was lunching in the shade of her trailer dressing room here on the rocky Utah plain, Gary Cooper, Van Heflin, Richard Conte and Tab Hunter were emoting before the camera. Rita is the lone actress in the cast of They Came to Cordura.

Her conversation was easy, contrary to what it usually is on the Hollywood stages. It was noted that she was observing a birthday. Does she like birthdays?

"Sure, doesn't everyone?" she said in an un-actresslike reply. She smiled as she reflected on her return to the outdoor epic.

"I got my start in westerns," she said. "I was 14 or 15 at the time and I did about a dozen of them at Republic and other studios."

Rita said that this is her first separation from husband James Hill. While she's here, he's scouting locations for a film he'll producer in Mexico. But they burn up the long-distance wires, and she left no doubt that their alliance is a happy one.

Their formula: Golf and the quiet life.

PLAY LOTS OF GOLF

"We don't go out much at all," Rita said. "We like to stay home and entertain a few friends now and then and maybe see a movie. Jim and I also play a lot of golf together."

This golf routine sounded off beat for Rita, who was once one of the queens of the Hollywood right life. But their linking on the links was all her idea, she said.

"I had taken two months of lessons once and then gave it up,' she said. "When Jim and I were dating, I suggested we try some golf. He had been a baseball and football player, but had never played much golf. We tried it and liked it."

Bishop Advises Chaplains To Keep Off Psychiatry

TORONTO (CP) — Chaplains in mental hospitals should avoid using the jargon of doctors and make no attempts to be amateur psychiatrists.

The advice was given here Tuesday by Rt. Rev. E. S. Reed, Anglican Bishop of Ottawa, as he addressed a meeting of the Ontario-Quebec region of the Association of Mental Hospital Chaplains.

"You are not there to be amateur psychiatrists," he told the audience of rabbis, Roman Catholic priests and ministers.

Bishop Reed said the chaplains were links with the outside world.

One of the chief troubles of a mental patient is the awful loneliness. Many never get a visit from their relatives. I know of children being buried without a single member of their families at the graveside — I know this because one of my priests has been burying them."

Dr. C. R. Fielding, dean of divinity at the University of Toronto's Trinity College said religion has often made people mentally ill.

HAS MADE ILL

"There are many experienced persons in this room who could tell about the dreadful things religion has done to make people mentally ill," he said.

He added a hospital superintendent had complained to him that religious services disturb some patients.

He warned delegates of professional tensions which occur between medical men and clergymen because many of the clergymen's functions had been taken over by other professionals.

Save Life of Smallest Baby

BELFAST (AP) — A team of doctors and nurses has won a fight for the life of a baby claimed to be the smallest ever to survive.

Teresa Toner, nicknamed Renny, weighed only one pound, six ounces when she was born 14 weeks prematurely at Downpatrick, Sept. 11.

She was brought to hospital here and placed in an incubator.

Today Penny weighs almost two pounds, is 13½ inches long and has a head circumference of 9¼ inches. Doctors hope she will be home for Christmas.

Penny is the seventh premature child born to 32-year-old Mrs. Rosaleen Toner, wife of a postman. Four of their babies died after birth.

LOST WITH ALL HANDS

BUENOS AIRES (Reuters)—The Argentine naval tug Guarani, missing with its 36-man crew since Oct. 15, now is considered loss with all hands, the navy said today. The last message from the tug received a week ago said she was in a severe storm in the Drake Straits off the southern tip of South America.

DEATHS

By The Canadian Press

Montreal — Joseph Hector Dutrisac, 69, well-known Montreal theatre manager, producer and booking agent.

Windsor, Ont. — Inspector Arthur Irwin, 62, head of the Windsor police department service division and former Canadian revolver champion.

Salerno, Italy — Mario Simoni, 68, who saved Benito Mussolini from death during the First World War when he dashed into no-man's-land to drag back the wounded Corporal Mussolini.

Provinces Keep Up Expenses

OTTAWA (CP)—The pattern of higher income and expenditures of provincial governments will be maintained in the current fiscal year, the bureau of statistics said Wednesday.

It estimated that by next March 31 net general revenues of the 10 provincial governments will total $2,051,000,000 and expenditures before providing for debt retirement will reach $2,226,000,000.

These totals compare with actual revenues of $2,012,000,000 and expenditures of $2,046,000,000 in the fiscal year ended last March 31.

Chief factors in higher revenues will be higher receipts from motor fuel and fuel oil sales taxes, federal government subsidies and new federal - provincial tax-sharing agreements, the bureau said in its first analysis of the year of provincial government operations.

Canada Advised To Quit Making Interceptors

TORONTO (CP) — A leading rocket expert says Canada could have made a great contribution to space science instead of pouring $400,000,000 "down the drain" developing the supersonic CF-105 interceptor aircraft.

The comment was made by Kurt R. Sterling, former Canadian scientist and now head of a U.S. naval rocket research laboratory in Washington.

"Why don't you Canadians leave the building of supersonic planes to the Americans?" he said in an interview.

"A gigantic economy is needed to construct this type of aircraft."

The amount Canada spent on the CF-105 is more than the U.S. spent on the highly successful Vanguard project, Mr. Sterling told a TV panel that although Canada is making a small contribution to rocket research, it should abandon development of supersonic aircraft and concentrate on missiles.

He added that Canada could have launched a rocket to the moon with the money spent on the CF-105.

REBELS TRAPPED

ALGIERS (Reuters) — Four hundred Nationalist insurgents today were reported surrounded in the Saida-Berthelot area of western Algeria by French forces. The anti-rebel operations started last Wednesday.

TIME FOR FUN — Shirley Temple amuses her daughter, Lori, five, on TV set in Hollywood. Child is making acting debut with her mother in a Mother Goose story.

B.C. Labor Demands Eades Resignation by 5-1 Vote

VANCOUVER (CP)—The 110,000-member B.C. Federation of Labor Wednesday voted by a ratio of 5 to 1 to demand immediate removal of J. Edwin Eades as chairman of the workmen's compensation board.

Delegates to the federation convention in Vancouver demanded his dismissal despite his plain speech Tuesday calling for an investigation of workmen's compensation.

Approval of the resolution, however, was not unanimous.

John Squire, MLA, Port Alberni, led several delegates in opposing the resolution.

He claimed "elimination of Mr. Eades will solve nothing . . . If Bill Black (federation president) were put in his job, nothing would be resolved.

"The problem lies with the appeal system which is a farce and it is not the fault of the chairman. It requires legislative action."

Other delegates, including Sam Jenkins of the Boilermakers Union, were loud in criticizing Mr. Eades personally.

"He's got to be removed. All those parasites up there have to be removed," Mr. Jenkins said.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Friday, October 24, 1958

MARCH 21 to APRIL 20 (Aries) — Encouraging rays for all worthwhile lines of endeavor. Make time count. Extra hard work can lead to additional achievement. Good Mars and Uranus influences.

APRIL 21 to MAY 21 (Taurus)—Especially favored now: Scientific pursuits, study of hygiene, economics, aviation, new discoveries in medicine. Taureans have the talent for these fields, but all require hard work.

MAY 22 to JUNE 21 (Gemini)—Compare ideas with friends, loved ones; you may be helped more than you suppose. Remain calm, alert to opportunity. Be thoughtful in all things.

JUNE 22 to JULY 23 (Cancer)—Today is full of promise and good tidings for worthwhile interests, and there should be no time or room for worry, fretting.

JULY 24 to AUGUST 23 (Leo) — Your innate initiative, buoyancy and general capability can, properly used today, bring gains, fresh benefits, perhaps valuable new friends and contacts.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Good influences for worthwhile endeavors, wholesome activities generally, and for personal interests. A fine period in which to improve on methods.

SEPTEMBER 24 to OCTOBER 23 (Libra) — You could find yourself in the thick of things by noon. But don't worry; you have the equipment to succeed if you apply it properly. Make decisions deliberately, calmly. No carelessness. Don't fear difficult work.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — A day for calm, unhurried action — but not for procrastination. Going businesses, essentials, family matters most highly favored. Use every reasonable, honest effort to achieve.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Aim at faultless performance now since much can be achieved by you capable, well-balanced folk. Keen observation suggested.

DECEMBER 22 to JANUARY 20 (Capricorn) — This is no day in which to make drastic changes. Go forward with pre-planned activities; seek help but don't be insistent about it. Be sensible in money matters, consistent in effort.

JANUARY 21 to FEBRUARY 19 (Aquarius) — A sensible but hopeful procedure in your affairs can bring pleasant and fruitful results not only for today but for the future. A splendid day for personal achievement, for routine matters.

FEBRUARY 20 to MARCH 20 (Pisces) — Establish your program and pace yourself to accomplish without waste motion. Seek all the advantages possible. Sidestep all non-essentials.

YOU BORN TODAY are tenacious, determined and fond of luxuries; have the welfare of your fellowman and loved ones always in your mind. You are inclined, at times, to procrastinate, but once you decide to proceed and follow through, great gains can be realized. Develop your many talents which can aid you in your chosen field. Seek intelligent, congenial associates. You are a good mixer; use this gift to advantage—never unwisely. Avoid stubbornness.

Birthdate of: A. Van Leeuwenhoek, Dutch microscopist.

Two Bomarks Intercept Targets

WASHINGTON (AP) — Two Bomarc missiles launched in rapid sequence at Cape Canaveral, Fla., successfully intercepted their targets, the U.S. Air Force reported Wednesday.

In 13 seconds Tuesday, both of the missiles blazed aloft in search of two unmanned B-17 bomber targets over the Atlantic.

The missiles roared into action after buttons were pressed at a computer centre in Kingston, N.Y., 1500 miles away.

The Bomarc, which has a range of about 250 miles, is powered by a liquid propellant booster rocket on takeoff and two 10,000-pound thrust engines that rush the missile to three times the speed of sound for sustained flight. Canada recently announced plans to incorporate the Bomarc in her national defence network.

Mindszenty Refused Permission To Leave

LONDON (Reuters)—The Hungarian foreign ministry has refused permission for Josef Cardinal Mindszenty to leave Hungary to attend the conclave in Rome to elect a successor to Pope Pius XII, Budapest radio said Wednesday.

TCA Counsel Claims Distortions, Half-Truths Load CPA Evidence

OTTAWA (CP) — TCA counsel J. G. Edison charged Wednesday that a document which CPA tried to submit as evidence before the air transport board was loaded with distortions and half-truths.

Board chairman C. D. Shepard said he was inclined to agree with Mr. Edison that the document—described as a summary of evidence by CPA witness Frederic Kimball, an American aviation consultant—appeared to have been prepared for more than one purpose.

He admitted the document as evidence because the board felt anything submitted to it should be accepted. But he emphasized that the board has the right to give any evidence introduced "the weight it deserves."

Mr. Edison maintained that the fact that Canadian Pacific Airlines had to assemble information of this kind indicated there was a major "weakness" in the company's bid for a slice of Trans-Canada Air Lines' cross-country air monopoly.

QUALIFIES ARGUMENT

Mr. Kimball, under questioning by Mr. Edison, made a number of qualifications to his original argument and contentions. Mr. Edison said some of his original statements had been "misleading."

Mr. Kimball had stated that TCA was ready for competition "on mere size alone."

Under questioning by Mr. Shepard, he agreed that other factors had to be considered; that the case could not be decided on size alone.

Mr. Kimball had stated that TCA had boosted its share of the domestic air cargo market to almost 80 per cent of the total, from 30 per cent in 1956. But he agreed with Mr. Kimball that this did not tell the complete story.

GIVES FIGURES

Mr. Edison introduced figures to show that when all air cargo is considered, including charter and non-scheduled flights, TCA's portion of the total had declined to 29.6 per cent in 1957 from 30 per cent in 1946.

"I suggest the compilation you make," Mr. Edison told Mr. Kimball, "is misleading and inappropriate."

"You may characterize it as you wish," Mr. Kimball replied, "but footnotes made clear what we had done."

Mr. Edison said Mr. Kimball had included charter and non-scheduled air cargo figures for the period 1946-51. He wondered why he had not made any effort to get similar figures for the 1951-57 period. Instead, Mr. Kimball had included only scheduled flights in that latter period.

"This is the effort I made," Mr. Kimball replied, without saying directly why the full figures were not included for the 1951-57 period.

Mr. Edison also noted that Mr. Kemball had tried to make an analogy between the Canadian situation and one that existed in Hawaii where the U.S. Civil Aeronautics Board had opened a monopoly to competition in 1948.

QUERIES ON HAWAII

Had Mr. Kimball ever been in Hawaii? No. Did he know the size of Hawaii? Yes, the seven islands stretched a distance equivalent to the distance between Montreal and Toronto.

Did Mr. Kimball know that two years after the CAB had granted Trans-Pacific Airlines a franchise to compete with the awaiian airlines monopoly, TPA came back and pleaded for a mail haulage subsidy? Yes, Mr. Kimball knew that.

Did Mr. Kimball know that in 1956, both lines would have shown a loss were it not for payment of a mail haulage subsidy.

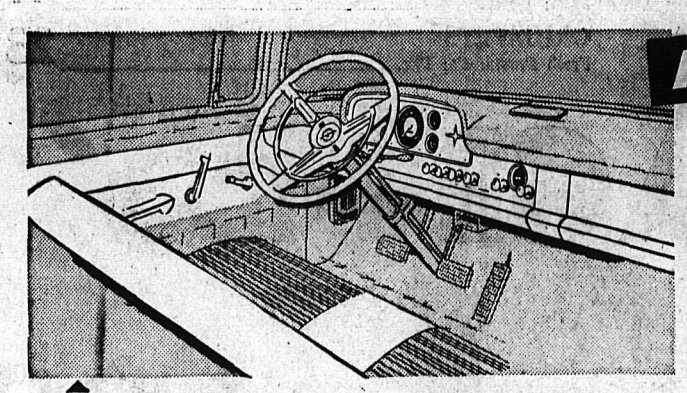
"Yes, they would have shown a loss but not a considerable loss," Mr. Kimball replied.

Earlier Mr. Kimball said TCA discriminates in its fares and charges less only where the monopoly is challenged by competitors.

"TCA has tended to charge less and to offer better service over competitive routes than over its routes across Canada," the Westport, Conn., consultant told the board Tuesday.

New Styleside Pickup! Easy-loading cab-wide body gives extra style and extra room. Extra strength, too, from heavier new bumper to rigid wrap-around rear body corners.

Go FORD-WARD for savings!



New Cab Interiors! Easy on the eye, easy to drive in, easy to keep up! New standard upholstery is *twice* as durable as last year's rugged fabric. New Custom Cab features 2-color styling, chrome-trimmed instruments, 5" of foam rubber in the seat.

Canada's Lowest-Priced Line of Tilt Cabs! Can carry a 2-ft. longer body than a conventional truck (or haul a 2½' longer trailer) and keep within the *same overall length*. Outstanding engine and transmission accessibility cuts maintenance costs.

Research Proves Some Leaders Tinkered With Verdi's Score

LONDON (AP) — Music lovers hearing the operas Rigoletto, Il Trovatore and Falstaff may get an imperfect understanding of what Giuseppe Verdi meant to communicate to them.

London conductor Denis Vaughan says his research in Italy show the most widely used Verdi scores differ from what the comsposer originally set down in his precise hand.

Vaughan, 32-year-old Australian, is assistant to Sir Thomas Beecham and organizer of the Beecham Choral Society.

"A Verdi opera is, of course, always great, but I am sure that it would be finer still if the music were played as Verdi meant it to be," Vaughan said.

"Verdi needs to be republished, every scrap of him from beginning to end, with careful attention to the original manuscripts, which are preserved in Milan."

Vaughan made a particularly close study of photographic facsimiles, which recently became available, of the original Falstaff manuscript.

SCORE DIFFERENCES

"It is, admittedly, a thick volume," said Vaughan. "But comparing it with the scores usually used by British, European and American orchestras, I found no fewer than 27,000 deviations from the original Verdi.

"In almost every case, the deviation is less pleasant than the original, detracting from the skill and musical feeling of the master.

"In Falstaff, for instance, Verdi meant that the trombones should play at their loudest only five times. In popular scores they come to full volume 25 times. Verdi was right."

Vaughan can't explain why Verdi, who died in 1901 at the age of 87, should have been so misunderstood by publishers.

"But of course he has been reprinted many times, often from manuscripts on which individual conductors have made their own marks, changing a little here and there. It was something like the art students who 'improve' the work of their masters by adding bits of paint here and there. It can be scraped off, and Verdi needs to be scraped."

Dynamite Sticks Found Under Bridge

SAANICH (CP) — More than 40 sticks of dynamite have been removed from under a bridge used daily by scores of school children.

First indications of the danger were noted when 12-year-old Michael Thompson turned in a stick he had found while playing near the bridge.

How the dynamite got under the bridge is a mystery, investigating officers said.

Blasting expert Arthur Winters said it is of a type usually used in heavy construction blasting.

Fingerprint Tests Off

AYLMER, Que. (CP) — Police Chief Roland Brazeau has called off his plan to fingerprint 1,500 school children in connection with a $5,000 fire in Aylmer High School last week.

After Chief Brazeau announced his plan Mayor Telephore Lortie and officials of both the Roman Catholic and Protestant school boards opposed it. "The parents would be up in arms," the mayor said.

Traffic Fatalities Down From 1957

OTTAWA (CP) — Canadian traffic fatalities in the second quarter of the year totalled 740, a decline of 12 from the corresponding period last year, the bureau of statistics reported Wednesday.

This brought the half-year total to 1,276—11 less than last year.

Injuries in the April-June period totalled 19,970, up from 19,676 a year earlier, making the six-month total 34,884, against 33,736 in 1957.

Traffic accidents in the second quarter were down to 47,554 from 47,606, but were up in the half-year to 101,703 from 101,161.

Fatalities by provinces in the second quarter, with 1957 figures in brackets: Newfoundland, 7 (13); Prince Edward Island, 3 (1); Nova Scotia, 28 (27); New Brunswick, 35 (25); Quebec, 232 (235); Ontario, 254 (285); Manitoba, 22 (30); Saskatchewan, 33 (33); Alberta, 66 (48); British Columbia, 60 (54); Yukon and Northwest Territories, none (1).

UBC Inherits 10-Ton Library

VANCOUVER (CP)—A 10-ton collection of books relating to Canada, acquired from the estate of a Montreal manufacturer, has been presented to the library at the University of British Columbia here.

Librarian Neal Harlow, who announced the acquisition Wednesday said it will give the university one of the best collections of Canadiana in the world.

The books were bought by a group called the Friends of the Library, but purchase price was not disclosed.

"We know we have 10 tons of books because we paid transportation charges on that weight," Mr. Harlow said. But only 4 000 books of the estimated 20,000 in the collection were catalogued.

The books belonged to the late Thomas Murray, Toronto - born garment manufacturer who died in 1955 at the age of 77. He began collecting books early in life, moved to Montreal while a youth and retired from business at the age of 50 to open a book store.

The extent of his book collection was unknown until his death.

It contains the first book printed in Montreal, a 37-page volume worth more than $500 which outlines regulations of a lay association connected with the Seminaire de St. Sulpice.

Another volume, valued at $850 was written by Nicholas Denys, an early governor of Acadia, and contains and early map and description of the Maritimes.

"The chief value of the collection lies in the fact that it is rich in publications relating to Eastern Canada," librarian Harlow said.

Grandson of Last Conservative Leader Opens Manitoba Session

By STAN McCABE
Canadian Press Staff Writer

WINNIPEG (CP)—A Conservative government will be in power for the first time since 1915 when a special session of the Manitoba legislature opens Thursday.

Since Conservative Premier Sir Rodmond Roblin resigned in 1915, the governments have been Liberal, Progressive or Liberal-Progressive.

Premier Duff Roblin, 41-year-old grandson of the last Conservative government leader, will lead a minority group in the 57-seat house. If the Liberal - Progressives with 19 seats and the CCF with 11 combine against him, his 26 Progressive Conservatives could topple from power.

Although political observers do not expect this to happen at the special fall session, there have been rumblings of rebellion from the opposition camps.

SPEAKER SPARKS

One possible source of a spark that would set off political fireworks is the selection of a speaker. Speculation has centred on A. W. Harrison, veteran Progressive Conservative member for Rock Lake, but one published report said the Liberals under former premier D. L. Campbell would oppose his election and that his defeat would be taken by Mr. Roblin as defeat of the government.

Another speculative story said Mr. Roblin might pick a Liberal as speaker.

Dr. W. G. Martin, conservative member for the Winnipeg riding of St. Matthew's and a former Ontario welfare minister, was mentioned as a likely choice for the speaker's job. However, he was eliminated when the premier named him Tuesday to second the address in reply to the speech from the throne.

SESSION PROMISED

Premier Roblin promised the fall session of the legislature in the campaign preceding the provincial election last June 16, in which his party took the largest block of seats in the house.

He said at a press conference last week the government will submit "four or five pieces of legislation, with all bills to be in the members' hands opening day. The bills are expected to deal with record road expenditure of more than $24.000.000, an expanded system of education grants, creation of an industrial development bank, and a provincial farm credit plan.

The government is expected to provide for financing of these projects without bringing down a regular budget.

In an effort to keep the session as brief as possible, the government has announced the usual opening day program will be changed to include the speeches moving and seconding the address in reply to the speech from the throne, as well as the speech to be delivered by Lieutenant-Governor J. S. McDiarmid.

FRIDAY FOR CAMPBELL?

Mr. Campbell is expected to make his contribution to throne speech debate Friday.

The government is expected to ask the house to waive its rules to allow morning, afternoon and evening sittings if necessary to cut the length of the session.

Mr. Roblin has held private meetings with Mr. Campbell, the opposition leader, and CCF Leader Lloyd Stinson, apparently in efforts to work out a house program acceptable to all parties. Besides the representatives of the three major parties, the house has one other member, Mayor Stephen Juba of Winnipeg, elected as an independent.

Comics Rank High On TV

MONTREAL (CP) — Television impresario Ed Sullivan says Canadian comics John Wayne and Frank Shuster are the "hottest commodity" on American television today.

The newspaper columnist and television master of ceremonies was high with his praise for the two comedians, who joined the Ed Sullivan Show on a special basis this year.

"Exceptionally talented, they are doing something not being done by any other U.S. comics. They do a type of satire nobody does anymore, and they do it brilliantly. People get tired of mother-in-law jokes," said Mr. Sullivan, visiting Montreal to see the Master Photo Dealers' and Finishers' convention here.

"I expect these boys will be around for a long time."

China Clipper Closes Door on Big Four

Normie Kwong, popular all-Canadian with the Edmonton Eskimos, says 'This winter I've tackled the big four problem and thrown it for a loss. With "Prestone" Brand Anti-Freeze in the radiator of my car I know that my cooling system is protected against those four evils: frost, rust, corrosion and clogging. And believe me, this is a happy feeling of security.'

Take a tip from Normie and protect your car, too, with "Prestone" Brand Anti-Freeze and its exclusive magnetic film which coats every rubber and metal surface in the cooling system. But make sure that you get genuine "Prestone" Brand Anti-Freeze . . . identified by the Green Tag which will be tied to your radiator.

Spotted Horses Make Comeback in Alberta

HIGH RIVER, Alta. (CP) — Spotted horses are making a comeback.

There is a new interest in the old strain of western horses and the Appaloosa Horse Club of Canada, formed four years ago, now boasts a membership of more than 150.

Purpose of the club is to present a breed of saddle horses possessing a romantic history, a glamorous coat and unsurpassed utility.

PRINTED RECORD

This year the club reached a major milestone with the first printed record of stock approved for foundation purposes. A total of 406 animals were listed.

Grant MacEwen, club historian, wrote:

"For every true horse lover the Appaloosa has a romantic message; not only does it belong to what many students regard as the oldest strain in the world but its North American record distinguishes it as the noblest warhorse of Indian days in the West . . . it has an unusual amount of hardiness."

History says that the great Persian warrior, Rustum, was only a little more famous than his spotted horse Rakush. Spotted horses were taken along the Mediterranean shores and Libyan leopard horses were said to have carried robber bands on the North African coast. Spanish adventurers who followed Columbus brought the spotted horse to North America.

In North America some horses were lost, others abandoned and others undoubtedly stolen by Indians. The Indians, generally, conducted breeding in an unimaginative manner but not the Nez Perce tribe of the Columbia River basin in the United States Pacific Northwest.

IMPROVED STOCK

The Nez Perce recognized the spotted horses' inherent superiority and practised selective breeding to improve their stock.

The horses became known under a new name — Palouse — from the little river along which many of them grazed. Palouse led to Apalouse, Apalousy and finally Appaloosa.

After the Nez Perce were defeated in the Battle of the Bear's Paw in northern Montana in 1877, their horses were scattered. Some Appaloosas went wild, some were slaughtered but some were taken by stockmen who learned the horses' singular coat and markings were the least of the breed's features.

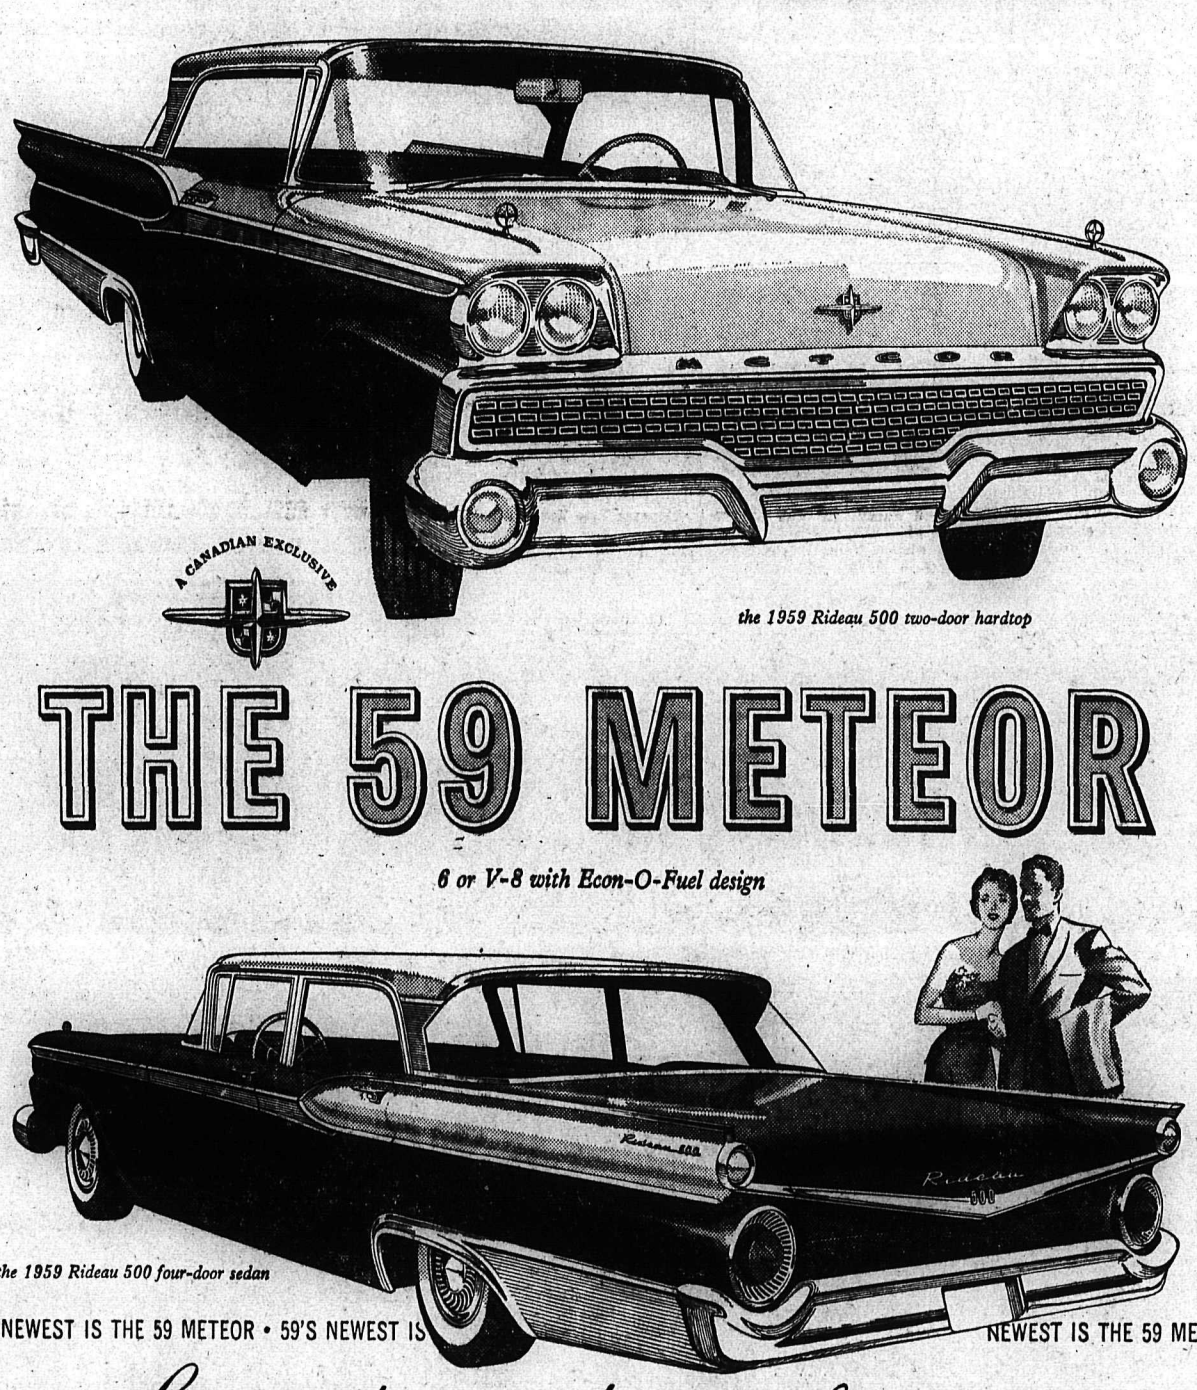
In 1938 the Appaloosa Horse Club was formed with headquarters in Moscow, Idaho. In 1950 the club and the Appaloosa breed were approved by the national stallion board of the United States.

When Jim Wyatt, a rancher of the Turner Valley area near High River, set out to pioneer the Appaloosa breed in Canada, he was in the right spot because there are more spotted horses in Alberta than in any other province.

At the Wyalta ranch the Appaloosas hold the spotlight with three stallions, Speckel's Boy, Speckel Junior and Patches W. Wyatt has a brood mare band of some 20 along with yearlings and sucklings.

Paintings uncovered by archaeologists give an indication of how old the breed is. Lifelike paintings and statuettes have been found in western Europe showing horses with dark spots which appear very much like the present day Appaloosas although the pictures are estimated to be 18,000 years old.

INTRODUCING



the 1959 Rideau 500 two-door hardtop

176 Rinks In Totem Bonspiel

VANCOUVER (CP)—Official entries of 176 rinks from Western Canada have been received here for the Totem Bonspiel to be held Grey Cup week—Nov. 23 to 28.

Heading the list of 80 entries from outside the Vancouver area is the Matt Baldwin rink from Edmonton, last year's national champions. There are 13 other rinks entered from Alberta.

Saskatchewan and Manitoba are also represented in the entry list.

One of the most famous names in hockey a couple of decades ago was that of Baldy Northcott. His Winnipeg rink is among the Manitoba group that also includes the Al Derrett rink.

One entry is contingent upon the Saskatchewan Roughriders not being in the Grey Cup. Roughrider Bill Clark says he will have a rink in the Totem providing he is not playing football. Saskatchewan still has a chance to make the WIFU finals.

The B.C. curling champions, the Tony Gutoski rink of Victoria has entered.

11-2 ODDS ON AGGRESSOR

LONDON (AP) — Aggressor remained as the 11-2 betting favorite Wednesday night for the Oct. 29 Cambridge Handicap.

But Britain's top bookmakers shortened the odds on second choice Babur from 15-2 to 7-1.

The race at Newmarket will be over a mile and a furlong. An Irish sweepstakes is based on the result.

Famed Harringay Arena Closing

LONDON (AP) — On my left Tommy Farr . . . on my right Max Baer. . . .

Twelve thousand fight fans cheered wildly. About 50 minutes and 12 rounds later Welshman Farr had won on points and moved nearer a crack at Joe Louis' world heavyweight title.

All that happened 21 years ago, on April 15, 1937, at London's Harringay Arena.

Tuesday night, from the same Harringay ring, the Baer-Farr introduction will be made again.

The two boxers are among famous names in the prize fight business with a sentimental date—to say farewell to Harringay Arena.

The world-famous arena, scene of about 600 fights, is being closed as a sports centre and being turned into a warehouse.

Tuesday night's show will be topped by the lightweight 10-rounder between Carlos Ortiz of New York and Britain's Dave Charnley.

Harringay's closing will rob London of one of its finest indoor arenas.

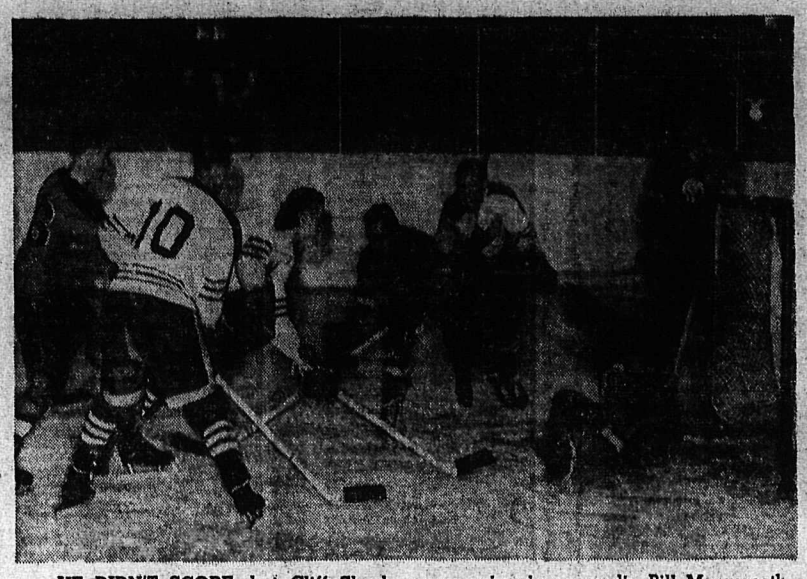
ENGLAND BLANKS RUSS

LONDON (AP)—England crushed Russia 5-0 in an International soccer match before a sell-out crowd of 100,000 fans at Wembley Stadium Wednesday.



HE DIDN'T SCORE, but Cliff Shockey was going in on goalie Bill Margoreeth full steam when Daily News photographer Ian Brown caught this action at the Civic Centre Arena last night. Players from left are, Laurie Bursaw, Andy Drobot, Shockey, Joe Conn, Con Madigan, Margoreeth and Gordie Robertson.

Leafs Lick Losing Streak By Trouncing Smokies 7-4

The Nelson Maple Leafs put a stop to their brief losing streak by handing a 7-4 defeat to the Trail Smoke Eaters at the Civic Arena Wednesday night.

Nelson's Lee Hyssop led the scorers as he banged the rubber past Seth Martin three times.

Action started in the first period at the 5:04 mark when Dave Stewart scored with assists from Marsh Severyn and Bill Thieman. Nelson's second goal came less than a minute later when Hyssop got his first, assisted by Shorty Malacko.

Trail, at a loss for the first few minutes, seemed to come alive when Laurie Bursaw popped the puck past Bill Freno at the 10:17 mark. The assists on Bursaw's goal went to Ad Tambellini and Ron Flinn. Bursaw, not content with one goal, rifled in another one two minutes later, Tambellini again getting the assist.

The tie was broken just before the buzzer sounded when Hyssop got his second goal. The assists this time went to Ollie Dorohoy and Mickey Maglio.

Only two goals were scored in the second period, the first fired in by the Smoke Eaters' Norm Lenardon. Ray Hamilton and Joe Conn gave the helping hand on this one.

Nelson's fourth goal came at the 13:04 mark. Guess who? Hyssop again, assisted on this one by Dave Stewart.

And so the period ended with Nelson Maple Leafs in the lead 4-3.

Up until this time both teams had been banging away without gaining much headway. It's hard to say what happened in the dressing rooms, but when the third period started, Nelson came on the ice and slammed three goals home in the space of six minutes.

Andy Drobot got the first counter to bring the score to 5-3 in Nelson's favor. Malacko received the assist. Malacko, on a lone effort, got another to heighten the Leafs' hopes. Less than a minute later Drobot got the honors on his second goal of the evening, and set up Cliff Shockey and Madigan.

The Smoke Eaters lined in their last one after Hockley took the puck from John Rypien and slammed it home.

Penalties ran thick, with the major one given just before the game was over. Bob Kromm got a game misconduct for himself when he got into a penalty box fracas.

Lineups:

Nelson—Bill Freno; Marsh Severyn, George Gibson, Ollie Dorohoy, Dave Stewart, Shorty Malacko; Lee Hyssop, Bill Thieman, Bill Taylor, Andy Drobot, Mickey Maglio, Gordy Garant, Cliff Shockey, Charlie Goodwin, Con Madigan.

Trail—Seth Martin; Gordie Robertson, Cal Hockley, Ray Hamilton, Joe Conn; Ernie Secco, Bob Kromm, Norm Lenardon, Ron Flinn, Primo Secco, Ed Cristofoli, John Rypien, Gerry Penner, Ad Tambellini, Laurie Bursaw, Gerry Godfrey and Bob Parker.

First period — 1, Nelson, Stewart (Severyn, Thieman) 5:04; 2, Nelson, Hyssop (Malacko) 6:42; 3, Trail, Bursaw (Tambellini, Flinn) 10:17; 4, Trail, Bursaw (Tambellini) 10:19; 5, Nelson, Hyssop (Dorohoy, Maglio).

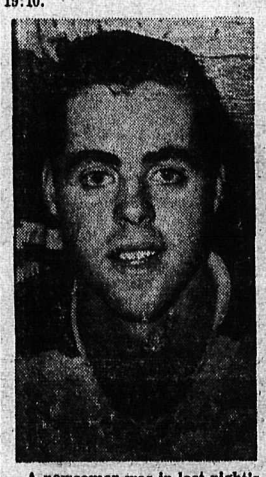
Penalties—None.

Second period — 6. Trail, Lenardon, unassisted, :08; 7. Nelson, Hyssop, (Stewart) 13:04.

Penalties—Lenardon, Malacko, Dorohoy, Rypien.

Third period — 8, Nelson, Drobot, (Malacko) :52; 9, Nelson, Malacko unassisted, 3:33; 10, Nelson, Drobot (Shockey, Madigan) 5:24; 11, Trail, Hockley (Rypien) 17:20.

Penalties—Penner, 10:14; Freno 13:05; Gibson, Kromm 16:40; Conn, 11:50; Secco, 13:09; Thieman, 13:20; Hockley, 14:02; Secco 17:05; Malacko, 18:03; Kromm 19:10.



A newcomer was in last night's Nelson lineup. He was Charlie Goodwin, above, long awaited left winger from Delisle, Sask. Goodwin is fast and shifty. "I have another coming just like Charlie on the way," said Coach Ollie Dorohoy.

Cards Leading Ground Gainers

PHILADELPHIA (AP) — Frank (Pop) Ivy's Chicago Cardinals obviously have the forward pass down pat. They lead the National Football League in gaining yards with it and in defending against it.

Ivy took over the Cards this season after winning three Grey Cups in four years for Edmonton Eskimos.

The Cardinals have gained 963 yards in four games with the pass, NFL figures showed Wednesday. On defence, the Cardinals have allowed 38.7 per cent completions of the 75 passes thrown by its four opponents.

The Cardinals also maintained their lead in total offence with 1671 yards, ahead of Baltimore with 1658 and Cleveland with 1647.

Leaders in the other departments included Cleveland, rushing, 1045; Washington, punting, 45.7 yards; Baltimore, scoring, 143 points; and New York, rushing defence, three yards allowed per play.

PACKERS DOWN CHIEFS 5-4

KAMLOOPS (CP) — Kelowna Packers edged Kamloops Chiefs 5-4 here Wednesday night in an overtime battle that erupted into a wild brawl late in the third period.

The win broke a two-game losing streak for Kelowna while Kamloops lost their fifth in five starts before 670 fans, one of the smallest crowds in the past three years.

Packer marksmen were Mike Durban, with two, Gerry Goyer, Moe Young, and Harry Smith. Buddy Evans, Ken Harris, Johnny Milliard and Gerry Prince connected for Chiefs.

Flyers, Flyers Battle to Draw

SPOKANE (AP) — The Edmonton Flyers battled Spokane Flyers to a 3-3 overtime tie Wednesday night in a Western Hockey League game.

Both teams had scoring opportunities in the 10-minute sudden-death extra period but air-tight goal tending by Edmonton's Dennis Riggin and Spokane's Emile Francis thwarted every scoring attempt.

The prairie team poured it on while Blinky Boyce was off the ice on a Spokane penalty from the 17 to 19 minute mark in the third period. Edmonton kept right at it early in the overtime, unleashing four fast shots that brought out the best in Francis.

Then it was Spokane's turn. Bud MacPherson drew a hooking penalty after spoiling an effort by Del Topol.

TIED 5-5

NEW WESTMINSTER (CP) — New Westminster Royals and Victoria Cougars played through 70 minutes of fast hockey to finish in a 5-5 overtime tie in a Western Hockey League game here Wednesday night.

It was the third straight overtime game on home ice for the Royals who lost the previous two to Calgary and Seattle.

In the see-saw game, Royals went ahead 2-1 in the first period, but only preserved their slim margin in the second period with two goals in the last 33 seconds of the period by Hugh Barlow.

Barlow's two goals made it 4-3 at the end of the second session.

In the third Cougars outscored Royals 2-1 to force the overtime session. Neither team could score.

FIRST WIN IN FIVE

WINNIPEG (CP) — Winnipeg Warriors scored their first victory in five Western Hockey League starts this season with a 2-1 verdict over Calgary Stampeders Wednesday night in a Prairie Division game before 2802 fans.

Veterans Pete Kapusta and Billy Mosienko scored the Winnipeg goals while Ron Leopold got Calgary's lone marker.

Jordan Decisions Ortega in 12 Rounds

LONG BEACH, Calif. (AP)—Don Jordan of Los Angeles earned a crack at the world welterweight championship Wednesday night when he scored a split 12-round decision over Gaspar Ortega of Mexico before a socialite crowd in the ballroom of a local hotel.

Referee Frankie Van, under California's 10-point-a-round system, scored it 116-114 for Jordan and judge Tommy Hart had it 116-114 for the Los Angeles contender.

To the surprise of most ring experts and the crowd which paid $25 and $15 for the charity event, judge Lee Grossman had Ortega in front 115-113.

Matchmaker George Parnassus promised the winner a match with the world champion, Virgil Akins of St. Louis, in Los Angeles' Olympic Auditorium in December.

Ortega, who is rated No. 3 among welterweight contenders, weighed 145¾ and Jordan 143¾.

Jordan is ranked No. 1 in some ratings as a lightweight and is not ranked in the welterweight division.

Fights

By The Associated Press

Portland, Ore. — Denny Moyer, 149, Portland, Ore., outpointed Johnny Saxton, 150, New York, 10.

Philadelphia — Len Matthews, 133, Philadelphia, outpointed Orlando Zulueta, 135, New York, 10.

Holyoke, Mass. — Chico Vejar, 161, Stamford, Conn., knocked out Lem Harvey, 160, New York, 2.

Richmond, Calif. — Sixto Rodriguez, 171, San Anselmo, Calif., outpointed Willie Gilbert, 162, Los Angeles, 10.

Fresno, Calif. — Rudy Jordan, 141, Los Angeles, outpointed Teddy (Redtop) Davis, 141, San Jose, 10.

Ivy Introduces Canadian Caper

By JOE MOOSHIL

CHICAGO (AP)—This is the year of varied formations and Chicago Cardinals are adding spice to the already hopped-up National Football League.

Coach Frank (Pop) Ivy, who took over this season after winning the Grey Cup three times in four years with Edmonton Eskimos in Canada, has introduced the double wing-T and triple wing-T in the pro loop.

His success is a matter of record. Cardinals are tied for second place in the eastern division and lead the entire league in total offence. They have lost two of their four games only because of failings on defence.

Ivy's innovations are hand-me-downs from Canadian football.

These wing formations enable a team to exploit the passing game no end as attested by the Cardinal record of 63 completions in 119 attempts for 1023 yards and eight touchdowns.

Season 1958 - 1959

SEASON SEAT SALE

The seat sale for last season's contract holders will be open at the CIVIC CENTRE Today, Friday and Saturday, Oct. 23rd, 24th and 25th. Patrons wishing to retain the same seats for the forthcoming season as held previously are asked to make a note of the time and dates below:

Today through Sat., Oct. 23 to Oct. 25

Civic Centre Office — 9 a.m. to 5 p.m.

19 Games $23.75 Less Discount.

Contract $3.75

FREE 2 GAMES The price of season tickets will be reduced by $2.50 if purchased by Saturday, October 25th.

New subscribers wishing Season Tickets or Contracts will be able to obtain them on the above dates, also.

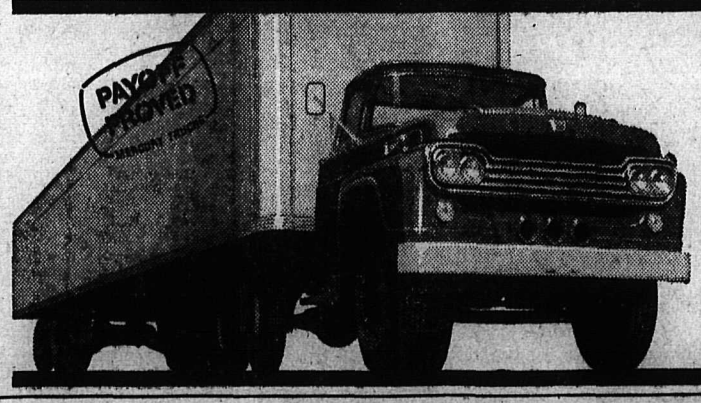
The Nelson Club, under the capable managment and coaching of Ollie Dorohoy, is lining up some good, fast young players and Nelson hockey enthusiasts can rest assured that no effort will be spared in lining up the best hockey talent available to represent Nelson for the coming season.

MIGHTY MERCURY TRUCKS

Introducing for '59

LIGHT DUTY SIX OR V-8—New payoff-proved Mercury Light Duties are here with many new improvements, new advancements. Both Six and V-8 engines run best on lower-priced, regular gasoline. Handsome new styling combines with Mercury's big capacities to give you trucks that look like a million, yet work for pennies. An industry-new seat covering wears twice as long as former fabrics. New Multi-Drive Merc-O-Matic provides two automatic driving ranges for all conditions. New power transfer differential helps prevent bogging down in mud, snow or on ice. Your Mercury Truck dealer has the full story.

MEDIUM DUTY SIX OR V-8—'59 Mercury Medium Duties offer you payoff-proved economy, power and comfort in conventional, tilt cab and school bus models. But '59's story doesn't end there. They're new from modern grille to far more durable seat covering materials. New improvements in both Six and V-8 engines give you full short-stroke power from lower-priced, regular gasoline. A new internal shoe parking brake, standard on all Mercury Medium Duties, gives nearly 50% greater holding ability. These are just a few of the payoff-proved features that make Mercury Trucks Canada's best buys for profitable medium duty trucking.



HEAVY AND SUPER DUTY V-8—'59 Mercury Trucks give you more of what you want for Heavy and Super Duty operations. These payoff-proved giants in conventional, tilt cab and tandem models feature Mercury's rugged V-8 engines. And they run best on lower-priced, regular gasoline. A wide range of transmissions includes the fully automatic Transmatic and the 8-Speed Roadranger. New rear axles and lower rear axle ratios give you top capacity and economy. Cabs feature stronger construction, heavier sheet metal reinforcements and longer wearing seat fabrics. Get the full story from your Mercury Truck dealer.

Certain features illustrated or mentioned are standard on some models, optional at extra cost on others.

ONE-MAN REBELLION

PARIS (Reuters) — Eight bruised and bandaged policemen told a court today how 26-year-old Claude Jubier pelted them with bottles when they tried to arrest him for taking part in a bar fight. He scored bullseyes as successive reinforcements arrived but eventually was overcome by sheer weight of numbers. Jubier, charged with "rebellion," was jailed for three months.

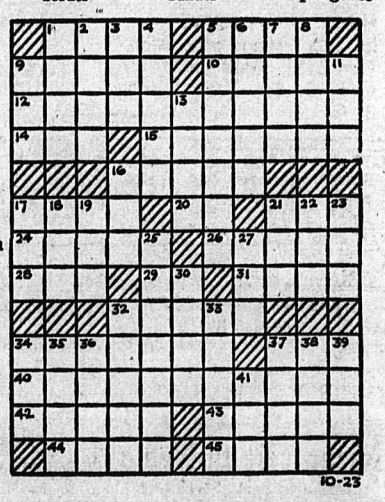
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

Q ZJW ZCPPVXRSSK FJGP QF WBT, BV TQFC PDRJS ZCPPVXRSWPEE Q ZJW TJQF—TCQFHJW.

Yesterday's Cryptoquote: ALL OTHER KNOWLEDGE IS HURTFUL TO HIM WHO HAS NOT THE SCIENCE OF GOODNESS—MONTAIGNE.

PUBLIC NOTICES

TENDERS

SEALED TENDERS, addressed to the undersigned, and marked "TRANSMITTER BUILDING, CRESCENT VALLEY" will be received up to 3:00 p.m. Pacific Standard Time, Thursday, November 6th, 1958, for the construction of Transmitter Building and related work at Crescent Valley, Aeradio Station, Crescent Valley, B.C.

Plans, specifications, labor conditions, tender form and related documents, and pre-addressed return tender envelope may be obtained on application to the Purchasing Agent, Room 405, 739 West Hastings Street, Vancouver, B.C., upon receipt of an accepted cheque made payable to the Receiver-General of Canada for the sum of $25.00. This cheque will be returned upon the return of the plans and specifications in good condition.

Each tender must be accompanied by a security deposit as stipulated in the tender form and any tender not accompanied by a security deposit as called for will not be considered.

Any tender submitted by telegram will not be considered.

The Department does not bind itself to accept the lowest or any tender.

T. G. HOW,
Regional Director, Air Services.
Department of Transport,
739 West Hastings Street,
Vancouver 1, B.C.
October 20th, 1958.

Village of Slocan
COURT OF REVISION

PUBLIC NOTICE is hereby given that a Court of Revision will be held at the Village Hall on Saturday, the first day of November, commencing at 10:00 a.m.

The purpose of the Court is to hear all complaints and correct and revise the new annual List of Electors, and for that purpose the Court may:—

(a) Correct the names of electors in any way wrongly stated therein; or
(b) Add the names of electors omitted from the list; or
(c) Strike out the names of persons from the list who are not entitled to vote or who are disqualified from voting; or
(d) Correct any other manifest error therein.

The names to be included in the list are those of persons qualified as electors as at September 30th, 1958.

A copy of the List of Electors will be posted at the Village Hall on the twentieth day of October, and will remain so posted until the sitting of the Court of Revision.

It is the responsibility of each elector to see that his name is on the List of Electors, since there is no provision for the Returning Officer at a municipal election to allow a person to vote if that person's name is not included in the certified List of Electors.

C. C. STEPHEN,
Village Clerk.

The Corporation of the City of Nelson

COURT OF REVISION
VOTERS' LIST 1958-59

Court of Revision for the purpose of correcting and revising the Voters' List for the City of Nelson will be held in the City Hall on Saturday, the 1st day of November, 1958, at 10 o'clock. a.m.

C. W. R. HARPER,
City Clerk.

Dated at Nelson, B.C.,
October 21st, 1958.

The court of revision to review the list of electors for the 1958 municipal elections in the Corporation of the Village of Salmo will hold its first hearing Saturday, November 1, 1958, at ten o'clock in the morning in the village office.

FRANK FLOOD,
Village Clerk.

MARKET TRENDS

NEW YORK (AP) — The stock market drifted down for the third straight day.

Motors, metals, chemicals and oils declined. Steels, rails, retail merchandising and aircraft producers finished mixed. Tobaccos and airlines advanced.

The Associated Press average of 60 stocks dropped 70 cents at $197.50.

While the bulk of the list ended lower, much of the interest was provided by several high-flying stocks late in the day. Polaroid and Lorillard ran away from the rest of the market. Polaroid closed 5⅝ higher, following a gain of 1¼ Tuesday and 7⅞ last week. Lorillard raced ahead 4¼.

Studebaker - Packard was the most active stock, off ⅜.

International Nickel lost ¾ in the Canadian list. Other copper stocks were also lower following a drop in the price of the metal on the London market. After the exchange closed, Anaconda and Kennecott increased prices, effective Wednesday.

Also lower were Aluminum Ltd., Canadian Pacific, Distillers-Seagrams, Hudson Bay Mining and McIntyre Porcupine. Walker-Gooderham and Dome Mines gained.

American exchange prices were mixed. Jupiter Oils edged ahead in the Canadian section. Canadian Marconi and Shawinigan lost.

TORONTO (CP) — The stock market closed down for the third straight session amid moderate trading.

Industrials were the chief losers as they slipped more than two points on index. Base metals were down almost 1¾ points as coppers weakened. Western oils lost almost 1½ points. Golds showed a slim gain.

Ogilvie was the fifth most active industrial and featured the list. It climbed 8½ points then slipped ⅛ to close at 44⅝. The issue traded 4939 shares following an announcement that an offer had been made to purchase 300,000 shares of the issue at 44¾. The buyer was not named.

Trans-Mountain Pipe Line was the only other of the five most active industrials to show a gain. It was up ¼ at 12⅝.

Aluminum dipped ⅞ at 33.

Coppers, after rising for 10 days, fell before profit-taking. International Nickel, Canada's leading copper producer, was down 1¼ at 88¼. Hudson Bay and Noranda each lost ¾.

Giant Yellowknife, ahead 30 cents at $4.90, provided golds with a slight edge.

Western oils were down as seniors lost fractions. Home Oil B was hardest hit, losing 1 point at 18½.

Index changes: Industrials off 2.04 to 498.48; golds up .02 to 82.90; base metals off 1.61 to 180.49; western oils up 1.44 to 141.03.

MONTREAL (CP)—Prices were irregularly lower in active trading on the Montreal and Canadian Stock Exchanges.

The papers were mixed. Powell River gained 1½ at 38¾, and Price Bros. was up ½ at 46. Consolidated lost ⅝ at 39⅛, and Abitibi was off ⅜ at 36.

Down ⅞ in the base metals were Aluminum at 33 and International Nickel at 88⅛. Hudson Bay lost 1 at 59, while Asbestos was up ⅞ at 33½.

Two new highs were established in the utilities, Gatineau up 1 at 38½, and Consumers Gas up ½ at 37.

The refining oils were generally lower. Imperial lost ⅝ at 43¾, Canadian gained ¼ at 28½, and McColl was off ½ at 69.

In other issues Viau lost 3 at 65, Montreal Trust Co. gained 1 at 34, a new high, and Building Products was up 1½ at 39½.

Oils were mixed in a narrow range.

$53,877 NET INCOME FOR GAS COMPANY

VANCOUVER (CP) — Net income of Inland Natural Gas Co. and subsidiaries for the year ended June 30 totalled $53,877. The company, which distributes gas from the Westcoast Transmission Co. pipeline to the British Columbia Interior, had operating income from sales of gas, production of oil and natural gas and other sources of $1,766,603. Operating expenses amounted to $1,243,548.

President John A. McMahon said Tuesday in releasing the figures that the report contains only six months of operating results for the parent company and one year's operation for subsidiaries.

All revenues accruing to Inland before Jan. 1 were used to offset pipeline construction.

START ON SEWERS

PENTICTON (CP) — Penticton should be able to start on a $1,300,000 sewer system expansion project at discussions between city council and Dr. D. R. Stanley of Edmonton, engineering consultant.

Finished design of a new disposal plant which is to be part of the project, however, will not be completed before February and construction cannot begin until the design is completed.

Two Men Fined On Game Charges

INVERMERE — Fines of $200 each for shooting game out of season and fines of $10 plus costs for carrying loaded firearms in a vehicle, were levied in court here on Roland Harry Patsson of Kinnaird and Gordon Alexander MacDonald of Trail, both of whom pleaded guilty.

The first charge was laid in connection with the shooting of a cow and calf moose Oct. 11 in the Findlay Creek area near Canal Flat. The animals were badly wounded and still alive on arrival of John Bayley, game warden. Two days later the men were apprehended in the Fernie area with two loaded firearms in their truck.

Commission Told . . .

B.C. Education Lacking Compared to Soviet System

A careful comparison between British Columbia's educational system and that of the Soviet republic shows that B.C. appears to be lacking in four important respects, G. H. Lee, principal of L. V. Rogers High School, stated at the outset of his brief to the Royal Commission on Education in Nelson Wednesday.

These are, he said:

1. The general interest and support of the public towards education. There is no doubt that the Soviets have attached much more importance to education's place in their economy than we have in ours.

2. Stemming from this first deficiency, we are not putting a large enough share of our resources into education.

3. We are not attracting our best brains into education. In fact we are having difficulty in staffing our schools even if we let down our standards, and accept any people we can get as teachers.

4. We are not making as great demands of our students in the actual time spent in school and the number of courses studied as the Soviets and we are not giving as large a portion of our students advanced education as they are.

Mr. Lee said he feels that there are three avenues of escape that are being followed and, "we should investigate and follow where they prove practical."

The first is to make better use of reserve personnel, through an apprenticeship plan, such as the recent attempt in Prince George.

In the second place "we should seriously consider the training of teacher assistants, so as to make the best possible use of our teaching staff." And finally, he added, "we should use the 'teacher team' rather than the single teacher, for working with the subject, and use a more flexible system of class grouping."

Mr. Lee said that the present system of having six different teachers present the same course to six groups of 30 pupils was extremely wasteful both in the use of teachers and in the effectiveness of the result.

"In other places 300 students receive the information from one teacher just as well as 30 do.

"By using this flexible arrangement," he said, "we should be able to make effective use of visual aids in education, and be prepared to make use of closed circuit television, if and when it comes into general use."

Mr. Lee said: "We must have a more efficient system of education. The present system is very wasteful." He estimated that 50 per cent of the teaching process is spent on presenting material to the students in the form of lectures and the other 50 per cent is used in application of the material.

On the basis of a limited experiment in this direction, he had come to the conclusion that a teacher could lecture to 100 pupils as effectively as to 30, combining three classes. Following such a lecture, students would break into small discussion groups for practical application of what they had learned in the assembly.

Another suggestion of Mr. Lee's relating to the suggestion of using "resource personnel" was the possible use of university graduates who were more advanced in experience and years as teachers' assistants, with furthering of their teacher training following a year's apprenticeship as assistants. This experiment had been followed in Prince George.

"We are not using specialization to the best advantage," said Mr. Lee. "If Socrates were to join our teaching staff, he would probably end up in administration, not teaching." This illustration followed his remarks on the time necessarily spent by specialized teachers on administrative matters rather than teaching.

TEACHER RATING

The essential recommendations in the District No. 7 school board brief, concerned teachers rather than students. The brief was presented by Gordon Sargent.

"The assets required by teachers are: sound character, enthusiasm, sincere interest in, and affection for youth. A teacher must always *be capable of getting and holding* respect as an individual as well as for high learning."

"It is therefore necessary to readjust our present assessment methods.

"Teachers must be selected, promoted and paid according to merit based upon this order:

1. Proven classroom discipline and ability;
2. Record of pupil attainment;
3. Principal's report and inspector's report;
4. Participation in and value to school activities outside of the classroom sphere;
5. Character example in and out of school;
6. Valueto community life, particularly in rural areas;
7. Academic qualifications.

"At present teachers cannot be considered as professional personnel. They are employees, organized and paid as such. Many of them undoubtedly have the prestige which professional men and women enjoy, but membership in their own union, or association, and their insistence on a set wage scale denies them the right to the term 'professional'.

"A merit rating would encourage professional status, but teachers can do more by setting and demanding a code of professional ethics, which if in existence, is not very apparent at the present, except as far as their combined efforts to benefit themselves materially."

The school board felt that education should be free to all, up to grade 10, or age 16.

"For 'A' students it should be free until they reach university level, and even through university for those choosing professions or careers for which lack of personnel is of national consequence."

School costs should be averaged per capita across Canada, but on a provincial basis. Fifty per cent of the cost should be met by federal funds, derived from general *taxes, and the other 50 per cent* should be paid by the provincial government out of regular wage deduction, on a percentage basis.

He continued, "we are beginning to see the adverse effect of two much and varied curricula and too low a standard of attainment. A poor mediocrity is encouraged. High intelligence is not encouraged as it should be, neither is it stimulated in our program. Too many are held back to appease the dullards and lazy ones."

The school board suggested that, "first we reorganize our curricula; simplify it and raise its standards; secondly we should reorganize our assessment and rating of teachers; thirdly, equalize and distribute school costs and create a federal pattern with provincial interpretation of standards.

Most 'Sons' Won't Go, UBC Professor Says

VANCOUVER (CP) — The hard core of Sons of Freedom Doukhobors, those blamed for terrorizing interior British Columbia for years, will not migrate to Russia, says an authority on Doukhobor problems.

Professor W. G. Dixon of the University of B.C. told a service club meeting Tuesday that "even if there is considerable migration, there will still be a residue of problems that we will have to deal with and possibly they will become much worse."

He said he is not surprised the Freedomites are demanding new government terms in their long-proposed migration to Russia. The real resistance group would not migrate.

"This hard core of the Sons of Freedom derives a great satisfaction in conflict. They will not readily give up that conflict."

Professor Dixon, director of the School of Social Work at the university, has spent considerable time studying Doukhobor problems.

"Secondly, most Sons of Freedom don't want to give up the good living in B.C.," he said. "They are not poverty stricken. They have cars and trucks. There is money about. Most do not do back-breaking farm work any more, but work as laborers. Even their claim that they are searching for new lands is spurious.

"The mvoement of any group is a tremendous administrative problem. They have to consider property owned, money owed, all other costs. They are finding this out now. Most will never go."

The Sons of Freedom, seeking to establish a community in Siberia, were to have presented certificates by midnight Tuesday for all those *wishing to emigrate. They have* asked that the deadline be extended to Nov. 15.

The professor said there is "no magic answer" to Freedomite problems.

"The best possible talent must be employed in dealing with the radical religious sect. Also, a five- or seven-man commission should be set up.

"It should have money to lend or apply to a peculiar Doukhobor problem. These commissioners should be able to deal directly with school boards, municipalities, the police."

The Freedomites also wanted acceptance by other Canadians, so that the "problem will not really have a solution in the halls of government, but in the hearts of men."

Cranbrook to Press For Natural Gas

CRANBROOK — Representative of Inland Natural Gas, which operates the gas service in cities of the interior supplied by pipeline from Alberta, will be notified by the city that the Mayor and Council will meet him Oct. 31 to discuss further proposals for extending this service to Cranbrook. Since the proposal was made two years ago and company president John McMahon outlined plans, the matter had been tabled.
