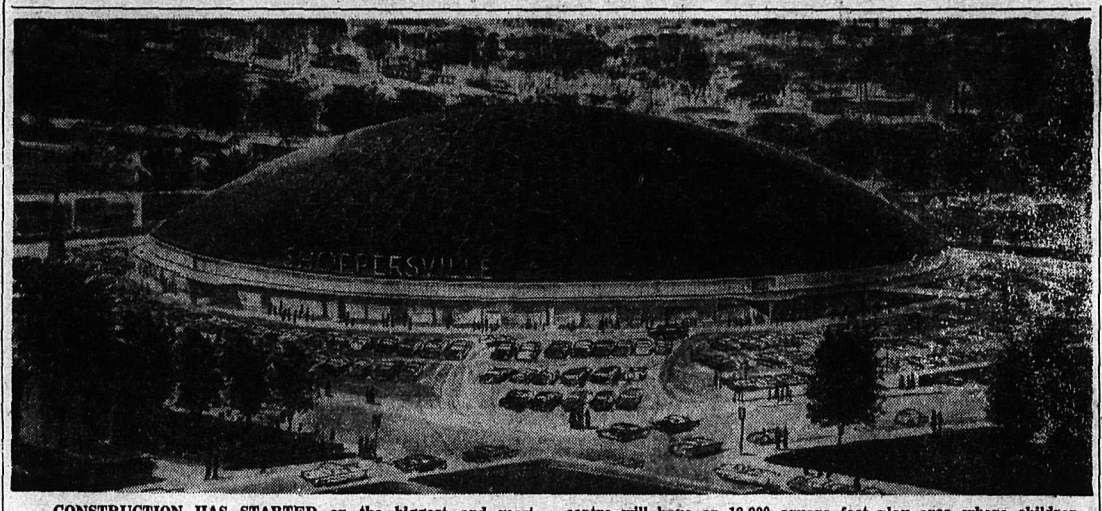
# 1960 Start for Wenner-Gren Project



*CONSTRUCTION HAS STARTED* on the biggest and most glamorous shopping centre in the world—a $27,000,000 project in the heart of Montreal. The gold-domed "Shoppersville" will contain 65 stores under one roof, will cover 1,500,000 square feet of floor area and parking space on three levels for 3600 cars. Besides two supermarkets, two restaurants and other retail stores, the dream centre will have an 18,000 square foot play area where children may be left in the care of trained supervisors; a care and feeding service for infants and two auditoriums, seating 1800, which can be used free of charge for religious or community groups. Completion is expected by 1960.

## General Motors Signs Contract

### 12-Hour Strike Ends With Agreement; 45,000 Off Work in Eastern Canada

NEW YORK (CP)—General Motors Thursday night became the last of the big three auto makers to agree to a contract with the United Auto Workers union.

The agreement, termed "sound and fair" by GM vice-president Louis G. Seaton, came after almost 36 hours of bargaining broken only by brief lunch recesses.

Twelve hours earlier, GM plants across the United States had gone out on strike.

The new three-year contract follows the Ford and Chrysler settlements reached earlier.

Seaton said the agreement provided for wage inequities settlements in GMs Chevrolet and Fisher Body divisions. The wage inequity issue had been a major stumbling block in the new negotiations.

The contract agreement must be ratified by Oct. 20.

**SHOULD BRING STABILITY**

Seaton said:

"This agreement represents a meeting of minds. It was arrived at through the give and take the bargaining table. It should mean for employees in GM plants across the country three good years of stability.

"The basic economic proposal that we made to the UAW Sept. 20 was accepted by the union. A number of contract changes have been made in the new agreement."

The settlement at General Motors overshadowed a number of other disputes on the U. S. labor scene, including a strike of deck officers against 21 coastal shipping lines and a strike by hotel workers in Pittsburgh.

Seaton said the UAW-GM agreement provided for short work week *compensation similar to agreements* reached between the union *and Ford and Chrysler. The short* work week was the second major *stumbling block.*

**LOCAL STRIKES**

UAW president Walter Reuther stressed the agreement was national in character and that local units are authorized to continue their strikes until the company and union come to terms on local problems.

"This contract represents very substantial progress for General Motors workers and their families," Reuther said. "It is good for GM workers and it is good for the country because it is non-inflationary in character."

## No Sign of Settlements

**Nearly 45,000 workers are off the job in 10 strike and lockout actions across Eastern Canada and none of the disputes show signs of settlement.**

The biggest, a Canadian Press survey shows, is in the Toronto construction industry where four trades unions and the Toronto Builders' Exchange are dead-locked on various wage issues and the question of industry-wide negotiations. More than 20,000 men are affected by an industry-wide lockout.

Probably the most serious situation is at Sudbury, in northern Ontario, where 13,000 members of the International Union of Mine, Mill and Smelter Workers (Ind.) shut down the big International Nickel Company eight days ago.

The union is demanding a 10-*per cent wage boost.*

**STEEL DEADLOCK**

*At Hamilton 8000 workers are* still out in a wage fight with the Steel Company of Canada. That strike began Aug. 12 and negotiations with the United Steel Workers of America (CLC) have been tightly deadlocked since.

Windsor prepared to get along without garbage collection and other civic services in a strike of 400 members of two civic unions which began Wednesday.

A variety of wage and benefit issues are involved.

Strike action by 135 electricians has tied up construction jobs at Sarnia. Pickets of the International Brotherhood of Electrical Workers (CLC) have been honored by 900 tradesmen since the walkout began Sept. 17. The union seeks a *30-cent hourly wage boost.*

## Sons "Resent Conformity"

VANCOUVER (CP) — The New *Denver school for Doukhobor* children was the "straw that *broke the camel's back" a Douk*hobor lawyer said Wednesday.

Peter Faminow told a student audience at the University of B.C. *"Doukhobors aren't against edu*cation."

"But they resent the conformity of Canadian education."

He charged the school will not make "loyal Canadians" of the children but will "cut the ties of parental love and loyalty to the *home."*

Mr. Faminow said the campaign *against the Doukhobors* was started in 1906 and has been increasing ever since.

"There is no solution in the present method of handling the Doukhobors," he said, "because it is only causing frustration at every level."

He accused Vancouver and Victoria papers of contributing to the frustration by "innacurate reporting and bias."

'Canadian education violates our pacifist principles by teaching nationalism and militarism."

He said the Doukhobors could "work communally, live communally and produce communally" for Canada if given the chance.

He described Doukhobors as Christian socialists.

"We could have been a proud community if Canada had lived up to the promises it made when we came," he said.

## Court Silent, But Sentenced Just the Same

*NANAIMO (CP) — Proceedings* were conducted in silence in Nanaimo Police Court Thursday when Roy Greenwood Priestley pleaded *guilty to obtaining money by false* pretences and was sentenced to three years in the penitentiary.

Priestley is totally deaf. The charge was written on a piece of paper by the magistrate.

The accused asked for three months of freedom on his own recognizance so he could pay back the m oney he had obtained.

## Washington, D.C., Without Papers

WASHINGTON (AP) — The first editions of Washington afternoon newspapers *failed to appear* Thursday as union pressmen stay*ed away from work.*

The pressmen did not report *for shifts after a night bargaining* session failed to produce agree*ment on a contract to replace one* which expired at midnight.

*REINFORCED CONCRETE BOXES,* the size of five-storey apartment houses, are being floated down the St. Lawrence River to be used as foundations for docks and wharfs. In Montreal alone there are almost 12 miles of continuous wharfs, most of which have as foundation the pre-cast concrete boxes, towed to the exact location and sunk. Five of the structures, each 112 feet long, 46 feet wide and weighing 4000 tons, were towed to Three Rivers, *65 miles away, and used in wharf constructions there. This photo* shows the open constructions of the crib boxes, which, heavy as they are, allow them to be floated, but once sunk form a firm underwater base for all types of docks. In the past five years nearly 100 such cribs have been constructed by the Foundation Co. of Quebec.

## Eight Provinces Protest Proposed Freight Rates

By JOHN LeBLANC
Canadian Press Staff Writer

OTTAWA (CP) — Eight provincial governments and several national organizations have filed formal protests with the board of transport commissioners against an application by the railways for a general 19-per-cent freight rate increase.

The increase of about $60,000,000 *a year is being sought by the rail*ways to cover the cost of a wage *settlement with employees. Board* hearings are due to begin here *Monday.*

It is the first time the railways *ever have asked the rail-regulating* board to provide a freight rate in*crease in advance of actually pay*ing out money in wage increases.

The major impact would be to settle the railways' dispute with 130,000 non-operating employees now threatening a strike.

**WILL FIGHT IT**

All of the eight provinces—every one except Ontario and Quebec — have indicated in advance submissions to the board that they will fight the increase, for various reasons.

*Mainly,* they agree that the board should not award a freight *rate increase before the railways* actually have incurred the addi*tional wage costs.*

In addition, each protesting prov*ince or area says that a general* rate increase would be detrimen*tal to its economy.*

For the governments of the four *Atlantic provinces, the Maritimes* Transportation Commission denies *that the railways are entitled to* any rate increase based on wages.

Any increase would be "inequitable, prejudicial and detrimental" to the four seaboard provinces.

**MANITOBA AGREES**

The Manitoba government takes the same stand, in almost the same words, with respect to its economy.

**The British Columbia government goes farther and says that the board has no jurisdiction to grant a quick "interim" increase as sought by the railways to cover wages.**

**Should the board grant an increase, it adds, there should be exceptions for such B.C. products as lumber and vegetables, plus any others that may be determined later as requiring special treatment.**

The Alberta government says there is no legal case for financial *need on the part of the railways* and the board has no jurisdiction *to increase freight rates until ad*ditional wage costs actually have *been incurred.*

**DISCRIMINATORY**

Alberta adds that the proposed increases would be laid mainly on a fraction of the freight rate structure, to the detriment of regions such as that province, where competitive forms of transport do not hold down rail charges. It would be discriminatory against Alberta.

Saskatchewan says no case has been made showing that railways are obligated to pay the additional wages. The board should — as it never has — allow freight rate increases on the basis of anticipated costs.

The increase would be "an un*just and inequitable burden"* on Saskatchewan, the province says.

## Typhoon Deaths' Toll Reaches 579

TOKYO (Reuters) — The death toll from typhoon Ida has risen to 579, japanese authorities reported Thursday night.

A full report on the devastation caused by Japan's worst typhoon in 24 years is not yet available, but there are at least 499 persons missing and 495 severly injured.

Rescue squads moving into the Kano River Valley, where floods drowned scores of families, said *the area was full of dead bodies* and the bloated corpses of live*stock.*

The typhoon caused more than *10,000,000,000 yen ($28,000,000)* worth of damage to various in*dustries, according to one report.*

## GUINEA BECOMES A REPUBLIC

CONARKY, Guinea (Reuters)—*Guinea formally proclaimed itself* a republic Thursday after 68 years of French rule.

France's other possessions in Africa watched closely as the world's youngest republic took its first in*dependent steps.*

After the Territorial Assembly *converted itself into a constituent* assembly, it announced the new *nation would adhere to the prin*ciples of the United Nations char*ter. It called upon the new govern*ment to seek diplomatic recogni*tion from other sovereign states.*

Guinea obtained its freedom by *voting against the new French con*stitution in a referendum Sunday. The 2,500,000 population rejected it 25 to 1.

Guinea's new government, approved by the assembly Thursday, contains 11 ministers and five secretaries of state. Sekou Toure, head of the leftist Democratic Party, serves as premier, foreign minister and defence minister.

## Gromyko Wants Mid-East Debate

**UNITED NATIONS, N. Y. (AP) — Soviet Foreign Minister Andrei A. Gromyko Wednesday called for a full-scale debate on the Middle East situ*ation to speed up the withdrawal* of U.S. troops from Lebanon and *and British forces from Jordan.***

**The Soviet foreign minister, *speaking to the U.N. General* Assembly, accused the two Western powers of deliberate stalling.**

## Bank Deposits Up

OTTAWA (CP) —Government of Canada deposits increased $392,939,000 to $459,160,000 in the week ended Oct. 1, the Bank of Canada reported Thursday in its weekly financial statement.

Chartered banks deposits increased $19,161,000 to $704,322,000, while notes in circulation increased $4,137,000 to $1,912,926,000.

## Russ Resume Nuclear Tests

MOSCOW (AP) — The Soviet Union announced Thursday night it has resumed nuclear test blasting after a six-month suspension.

The Soviet acknowledgement came within an hour after Washington announced detection of the second pair of Soviet blasts this week. The first were Tuesday.

Soviet Foreign Minister Andrei Gromyko announced before the Supreme Soviet March 31 the decision to stop the tests.

At that time, a Tass statement Thursday night said, the Kremlin said that if the U.S. and Britain *failed to follow its example "the* government of the U.S.S.R. would *be free to act in the question of* Soviet nuclear tests, bearing in *mind the security interests of the* U.S.S.R."

**TOOK ADVANTAGE**

Tass accused the United States and Britain of using the Soviet test suspension to gain "the greatest possible military advantage for their side, thus ignoring the will of the peoples."

**DOLLAR UP**

NEW YORK (CP) — The Canadian dollar was up 3-32 at $1.02 19-32 in terms of U.S. funds Thursday; a week ago $1.02⅝. The pound sterling was at $2.80 27-32.

## Signs Encourage Speeding, Conference Told

MONTREAL (CP) — *Motorists* are encouraged to speed by unrealistic highway signs, says J. L. Forster, acting traffic control engineer with the Ontario department of highways.

"Modern highways and new power-equipped cars make motorists feel they can exceed the posted speed limit in perfect safety," he told the Canadian Good Roads Association Thursday.

"With the exception of parking regulations, speed limits are probably the most abused section of the Highway Traffic Act in Ontario."

His department, in an attempt to create more respect for traffic signs and speed laws, had begun a review and revision of speed limits on all provincial highways.

## Diefenbaker To Hold Talks With Queen and Macmillan

OTTAWA (CP) — Prime Minister Diefenbaker will have an audience with the Queen and talks with Prime Minister Macmillan during his six-day visit to the United Kingdom a month from now.

An itinerary issued by the prime minister's office Thursday shows that Mr. and Mrs. Diefenbaker will have luncheon with the Queen and Prince Philip at Bucking*ham Palace Tuesday, Nov. 4.*

The prime minister's United *Kingdom visit, which starts a* seven-week world tour, will last *from the morning of Thursday,* Oct. 30, until Wednesday morning, Nov. 5.

The six-day stay also will include a weekend spent privately in Scotland visiting Edinburgh and Kildonan, in Sutherlandshire. great-great grandfather came to Canada from Kildonan with the Selkirk settlers who homesteaded at the Red River colony — now Winnipeg—around 1815.

On the first two days of his visit to London, Mr. Diefenbaker will meet with Prime Minister *Macmillan and expects to have* talks also with Commonwealth relations secretary, the Earl of Home, and other cabinet ministers.

**GUEST OF HONOR**

On Monday, Nov. 3, following his return from Scotland Mr. Diefenbaker will be guest of honor at a luncheon given by the lord mayor of London. The evening of Tuesday, Nov. 4, he will address a meeting of the Commonwealth and Empire Industries Association at the Royal Albert Hall.

Details have not yet been released of other parts of his world tour. He is expected to spend about a week in Europe, visiting Canadian Army and RCAF bases in France and Germany and the capital cities Bonn, Paris and Rome.

Mr. Diefenbaker then will spend three weeks in South and Southeast Asia, visiting India, Pakistan, Ceylon, Malaya and Singapore, and another two weeks in Australia and New Zealand. He is scheduled to arrive back in Canada Dec. 15 following a trans-*Pacific flight.*

## No Contest Ban For UBC Co-eds

VANCOUVER (CP) — University of B.C. officials plan no ban on co-eds entering beauty contests such as the board of governors of McMaster University, in Hamilton, Ont. imposed Thursday on girl students.

UBC's assistant president, *Prof. G. O. B. Davies, said:* "We've done so well with our *beauty queens we might as* well enjoy the privilege of hav*ing them."*

Several co-eds at McMaster planned to enter the Miss Tiger-Cats preliminary to the "Miss Grey Cup" contest. But members of the university board said "It isn't dignified."

(See story on page 4)

## Teachers Seek Pay Increases

NANAIMO (CP) — Nanaimo dis*trict teachers who got a 12-per*cent salary boost last year asked *Nanaimo District School Board* Wednesday night for a further sub*stantial increase for 1939.*

When board salary committee chairman Ted Barsby opened the communication from the 206-member NDTA he said he was 'shocked' at what he saw.

*Trustee Barsby reported to the* special meeting that current de*mands included requests for in*creases in the wage level of ele*mentary "A" teachers from the* current scale which starts at $3000 *and rises in 11 annual increments* to $4725, to a new scale starting at *$3600 and rising to $5850 in nine* annual increments.

*Secondary school teachers,* asked for hikes from the current $440 to $7000, setting the proposed new scale at an initial $4800 and rising in nine steps instead of the current 11 to a maximum of $7725.

The salary committee expects to begin negotiations with the teachers today.

The demands cover the 1958-59 school year only and will require re-opening of arbitration board findings.

## Labor Favors Wheat Agreement

SCARBOROUGH, Eng. (CP) — Britain's Labor party is "very *much in favor" of Britain rejoining* the International Wheat Agree*ment, Harold Wilson,* Labor's shadow chancellor of the ex*chequer said Thursday.*

Wilson said in an interview that *participation in IWA,* which Britain left in April, 1953, would be *consistent with Labor's policy of* bulk buying of Commonwealth pro*ducts.*

The economic program approved by the party's annual conference Wednesday included long-term buying agreements for "suitable commodities". Specifically mentioned were cotton and tobacco but Wilson said no decision has been made on the inclusion of grain.

## Name Conciliation Board in Dispute

VANCOUVER (CP) — Appointment of a conciliation board in a salary dispute between the Registered Nurses' Association of B. C. and eight Greater Vancouver-New Westminster hospitals was announced Thursday.

Chairman of the board is Vancouver lawyer H. L. Harkley. The hospitals' representative is lawyer C. George Robson and the nurses' representative is lawyer T. E. H. Ellis.

The nurses' contracts with the hospitals expired June 30, and negotiations for a new contract have broken down. They are seeking salary increases of $30 to $40 a month.

## Trench Area Surveys Complete --- Bennett

DAWSON CREEK, B.C (CP) — Premier Bennett of British Columbia announced Thursday that a proposed multi-million dollar development of the Rocky Mountain *Trench area of northern B.C.* will "definitely" begin in the late spring of 1960.

The development would be pushed by Swedish financier Axel Wenner-Gren.

The premier, aboard the inaug*ural run on the provincially-owned* Pacific Great Eastern Railway *from North Vancouver to the north*eastern B.C. communities of Fort St. John and Dawson Creek, made the announcement before a welcoming crowd of nearly 1000 here.

Construction "of this tremendous *project will definitely start in* 1960," he said.

"The *power potential of the* Peace River system has been es*timated at more than 4,000,000* horsepower.

**300-MILE LAKE**

"A lake nearly 300 miles long, flooding most of the trench, will be created by the hydro-electric system," he said.

The proposed power development was first announced in the B.C. legislature two sessions ago.

The lake created by the scheme would be the largest man-made body of water in the world.

The premier said surveys, costing between $8,000,000 and $10,000,000 have been completed, although *no final report on the development* has been announced. Plans will be drawn up within a year.

The premier added that he hoped *a start would be made shortly be*fore June, 1960.

"This will create a *great new* prosperity in this country . . . a *great future and a new era of* wealth," he said.

**MONORAIL PLAN**

As announced originally in the legislature, the Wenner-Gren plan included a complete aerial survey of a 40,000-square-mile area lying north of Prince George, between the Peace River in the east and the Western Divide; a 400-mile monorail railway to connect with the northern PGE extension; and development of the area's forest, hydro and mineral resources.

At the time, the development was discussed in terms of ultimate investment of $1,000,000,000 or more.

**Much of the area is covered with dense forest suitable for pulp production but difficult to reach.**

**Mining officials say the trench has yielded gold, coal, tin, copper, lead and zinc, mercury, asbestos, mica and iron to prospectors.**

The territory under survey extends to the B.C.-Yukon border and varies in width from 10 to 40 miles.

The estimated cost of developing the 300-mile lake has been set in the past at between $400,000,000 and $600,000,000.

At full capacity the project could generate four times the power now turned out at the Boulder Dam in Colorado, now the world's biggest power project.

## 17 Trapped

**BELGRADE (Reuters)—Seventeen coal miners still were trapped 2000 feet underground Thursday night, more than 30 hours after an explosion and fire that killed 30 men.**

**The fire was extinguished and rescuers worked desperately in an attempt to save the trapped miners.**

**The explosion, in a mine about 12 miles from the Bulgarian border, occurred about noon Wednesday while 188 men were in the pit. (For further details see story on page 6.)**

### Along Trans-Canada Highway . . .

## Plan $2 Million Campsite Program

MONTREAL (CP) — Prime Minister Diefenbaker said Thursday night the federal government will spend up to $2,000,000 on a share basis with the provinces to develop campsites and picnic areas along the Trans-Canada Highway.

He told the Canadian Good Roads Association meeting here this offer has been made to the provinces and has been received sympathetically.

"Work on this program will, I hope, get under way during the coming winter," he said.

**PROMOTE TOURISM**

*In making the announcement* he said that such facilities along the *Trans-Canada should do much to* promote tourist traffic in Canada and to strengthen national unity by encouraging more interprovincial travel.

Primarily, the project would help provide winter employment.

In effect the project is a resumption of a winter-work program initiated last winter as a temporary measure. The federal government shared with the provinces cost of developing picnic areas or campsites along any highway.

**The announcement came during a speech in which the prime *minister reviewed northern de*velopment, for which, he said, improved transportation "is undoubtedly the key".**

"What better preparation for the 100th anniversary of Confederation could there be than to spend the last decade of our first century as a nation in concentrating on the development of that sparsely populated but tempting four-fifths of our national territory that makes up the Canadian North?"

**HAVE OVERSLEPT**

Canadians had overslept in not realizing its potentialities.

With its minerals, its forests, its tourist attractions and its strategic position in North America's defence, "the great northland of Canada is no longer a forbidding waste of ice," he said.

With the view of developing the north, the federal government was sharing with the provinces in a $100,000,000 roads-to-resources program for work in the northern areas of the provinces and eventually to provide links with the northern territories.

*And over the next six or seven* years the federal government *would spend upwards of $100,000,*000 on roads in the two territories, which, the prime minister reiterated, "will in the foreseeable future have provincial status".

## *And in This Corner . . .*

**HOLLYWOOD (AP)—The new dream house of Jayne Mansfield and hubby Mickey Hargitay will have 11 bathrooms.**

**One will have walls of pink fur.**

**Recently, Jayne and Mickey claimed they had to sleep on the floor. It developed that it was a temporary situation — the custom furniture arrived.**

**"We're *spending $75,000 to redecorate,"* Mickey explained Wednesday, which should dispel any rumor the couple is in a financial bind.**

**The home, incidentally, was built by Rudy Vallee in his boola-boola heyday.**

MOUNT CLEMENS, Mich. (AP)—Hasker Dozier has spent 11 months in jail for not paying a court judgment against him in a traffic accident.

Recently, Dozier discovered he could obtain his release if he proved his possessions are worth less than $20.

"All I've got are my pants, shoes and the shirt on my back," *Dozier told Judge James E. Spier Wednesday.*

Then he remembered a watch on his wrist.

Judge Spier adjourned the case until the watch can be appraised.

**STANTON, Mich. (AP)—It was too cold in the cooler when the Montcalm county jail's heating *plant broke down Tuesday night.* With the mercury at 35 degrees, officers got permission to transfer five prisoners to the nearby Ionia County jail.**

**Four others, trusty prisoners, were allowed to go home. They were asked to return to finish their sentences when the furnace is repaired.**

WYNNE, Ark. (AP)—Mrs. Claude Brawner put a nice fat hen on the stove to cook, then dashed off to the beauty parlor.

When she returned, she took down a pint jar she thought contained bacon drippings and set about basting the bird.

Trouble was, something new had been added while she was gone.

Ever taste varnished hen?

**EAST LANSING, Mich. (AP)—Michigan State University students are beating the machine age with those littel foreign sports cars.**

**The tiny imports are low enough to scoot under the gates of mechanized parking lots and their drivers have been enjoying free parking.**

### SEES STIFFER EXAMS

TORONTO (CP) — Education Minister Dunlop of Ontario said Thursday Ontario students may soon face more and stiffer examinations and tests. He said, "If we followed present public opinion completely I believe we'd have entrance exams like we had years ago."

## Bishop Ragg To Conduct Mission at St. Saviour's

Rt. Rev. H. R. Ragg, M.A.D.D., Honorary Assistant to the Bishop of New Westminster, will conduct an eight-day mission starting in St. Saviour's Pro-Cathedral Sunday night and continuing through Sunday, October 12.

Bishop Ragg was born in Birmingham, England, Jan. 6, 1889. He took an honorary degree in history and was a distinguished athlete while at Cambridge, winning his "Blue" by running in the track meet against Oxford.

Bishop Ragg was ordained in England and came to Canada in 1913. He was vicar of Fruitvale, Trail, and Chilliwack, B.C., and Rector of All Saints, Winnipeg, Manitoba. He became Dean of Calgary in 1933 and was consecrated Bishop of Calgary in 1943. He resigned owing to ill-health in 1951. He has now regained his health and lives in Vancouver.

In 1914 he married in Armstrong, B.C., the daughter of Ernest Groves. Bishop and Mrs. Ragg have five children. There are three sons, all of whom are priests in the Anglican Church. There are 12 grandchildren.

Bishop Ragg has lectured in the Anglican Theological College in Vancouver on the devotional life and work of a priest. He is a widely experienced missioner and a dynamic preacher.

## Found Guilty Of Robbery

Lloyd George Sterling of Winnipeg was found guilty of theft Wednesday in connection with a daylight robbery here Monday.

Trial was adjourned to Friday morning when Magistrate R. S. Nelson will pass sentence.

Sterling ,38, was charged with taking $61 in cash from a till in Frank's Auto Service, 281 Baker Street, Monday. He pleaded not guilty.

## JOE JOHNSON LEAVES TODAY

Civic Recreation Director Joseph R. Johnson, who resigned last month, leaves today for Vancouver to take a Vancouver Parks Board post.

Mr. Johnson, who has been in Nelson since July 1956, will make his headquarters at the Marpole Community Centre starting Monday. He will be in charge of playing fields and other activities and will supervise a staff including an assistant, secretary, caretaker and groundsman as well as a swimming pool staff in summer.

He told a reporter he hoped that Nelson would soon set up a parks board. One of his last tasks was to set up a winter recreation schedule for next week at the Civic Centre.

## Beacon Hill Crew Member Visiting Parents in Nelson

One of the hands aboard the frigate HMCS Beacon Hill, which distinguished itself during the Centennial review at Vancouver and at the annual navy regatta, is visiting his parents in Nelson at present.

L/S E. D. Burton and Mrs. Burton of Victoria are guests of Mr. and Mrs. L. R. Burton of the North Shore. Under the command of Lieut. Commander Paul Wilson, the Beacon Hill won the coveted title of "Cock of the Fleet" after capturing 10 of 14 trophies for sailing and pulling whalers; at the annual navy regatta.

Other distinctions were awarded the ship with winning of four trophies at the PCRA annual rifle shoot and they hold the fleet Champion Golfer Trophy. At the centennial review they carried off a trophy for the whaler race.

One of the smaller ships of the fleet, the Beacon Hill is part of the Fourth Canadian Escort Squadron.

## Last Rites for District Oldtimer

Funeral services were held here Thursday for Gaetana Dalla (James) Serra, a district oldtimer.

Mr. Serra came to the Nelson area in 1913 and had worked in mines throughout the district.

Friends filled the chapel of the Thompson Funeral Home to attend rites conducted by Rev. Canon W. J. Silverwood of the Church of the Redeemer. Hymns sung were "Rock of Ages" and "Abide With Me". Organist was Mrs. W. A. Manson.

E. Spigariol, A. Mores, G. Peloso, J. Bonacci, T. Lissato and A. Sherwood were pallbearers. Interment was in Nelson Memorial Park.

## Hilarious Show Rocks Crowd "In a Daze"

Hilarity was infectious at the Capitol Theatre Thursday night when the audience went "Around the World in a Daze," with "a feller and the lady of his choice" after he had won at a quiz show.

A crowd of 300 laughed uproariously at the hill-billy antics of the girls from the Tennessee hills and chuckled at the wee folks' pantomime of Cinderella. The young girl dressed in true flapper style—fringe and all—drew rounds of applause for her performance of the Charleston and the harem girls brought the house down.

The hip-swinging fire-chief and the rest of the girls in transparent skirts, and veils looked like any Sultan's nightmare. They sometimes slipped up on their lines, but there was nothing the matter with their other lines except that they on the other hand, were inclined to slip down.

The barber shop quartette was called back for a second and third song, delighting the audience with "Rock," "Oh, Baby" and "Mary Anne".

Can-Can girls were on hand flipping petticoats to the gay tune of the Moulin Rouge and displaying shapely legs and gay garters. The little girl who twirled two batons and sang "There's Something About a Soldier", won special admiration from an audience that had thrown itself into the spirit of the show, enjoying every minute of it along with the performers. The hostesses, who previewed each plane touch down in verse, did nobly, for they had a good number of lines to remember and the old-time fiddler set toes to tapping.

Half of the fun for the audience seemed to be in trying to pick out who was who, among the local "characters" and when the show was over and the audience dispersing, laughter continued to erupt as people recalled humorous highlights.

The two-night show is sponsored by the Nelson Kiwanis Club and is directed by Miss Carol Reaves of Los Angeles. Proceeds go toward equipment for the new hospital.

## Legionnaires Urged To Boost Activities

The need to encourage more activities in the Canadian Legion was urged on members by a long time member at the Legion dinner meeting Thursday night.

S. J. Newell said he planned "to move into the background at the start of the new year," and urged members to select strong, new officers. Nominations are in December.

There were facilities that could be used by the many service clubs in Nelson, he said, and an executive was needed that would have the interests of the Legion at heart. Money was needed to reduce a mortgage.

He had been an executive member since 1942, president eight years, and it was time "for others to take over".

Added to present activities at the Legion will be cribbage and darts, he reported.

Mr. Newell also reported that he had attended a burning of the mortgage ceremony at Slocan City Sept. 27. The Legion there had paid off an $800 mortgage and celebrated in rousing style.

**ZONE MEET SOON**

At the fall convention at Castlegar Oct. 11 and 12, Joe Haley, noted Trail athlete, will report on his activities on Legion sports in connection with development of Olympic material, and show an hour-long film on field and track. This was reported in a letter from zone chairman G. H. Paterson of Rossland, read by secretary W. H. Burns.

Nelson delegates to the meeting will be T. Aldworth and A. S. Horswill. Provincial secretary Duncan MacLennan will also attend, and will stage a course for branch secretaries.

Plans for the Remembrance Day weekend were announced. There will be a church parade to the new Bethel Tabernacle, the old St. Paul's United Church, Nov. 9.

The annual dinner will be held on Remembrance Day, November 11, with annual ceremonies taking place at the Cenotaph in the morning.

Poppy Day sale will be Nov. 8, with B. Applegate chairman, and it was reported that under Grant Clark and Mr. Applegate advance sales of wreaths were double last year.

A letter from E. L. Glibbery, veterans welfare officer of the Department of Veterans Affairs, said he would be here to interview veterans from October 13 to 15.

J. K. Leitch offered to assist in plans for coming dances and chairman George Harvey called on others to come forward to join a committee now being formed.

The dinner meetings have been an experiment and members voted to continue the experiment. Ladies' Auxiliary members prepare the dinners.

New members accepted are C. R. Dunsmore, C. Edwards-Collins, C. C. (Bill) Padley, C. J. Schoonen, C. J. H. Verweij, E. J. Juras, V. J. Cave, P. D. McInnes, S. Be, G. F. Sikora, H. B. Stevenson, M. Stewart and C. Van Pelt.

A visitor was E. A. Bullock of No. 1 branch at Calgary.

## Aged Woman Heroine in Spokane Fire

SPOKANE, Wash. (AP) — A three-alarm fire in the Hyde building in downtown Spokane Thursday night felled 19 firefighters and a 71-year-old woman elevator operator who stayed on the job until all persons were out of the building.

The fire caused extensive damage to stores and offices located in the building. It apparently started in the rear of the structure and travelled up concealed spaces, false walls and ceilings before it was brought under control.

Elevator operator Mrs. Amy Martell sounded the alarm to late occupants of the building. She ran the elevator while thick, gray smoke poured through the first-floor and second-floor halls up to the sixth floor of the seven-floor building.

She was taken to a hospital here after she collapsed outside from smoke inhalation. She was treated and released.

Of the 19 firefighters felled by the smoke, 17 were treated at the scene. Two were taken to a hospital and then released.

Building officials said it was impossible to estimate the amount of damage. The structure was insured for $869,500.

Cause was undetermined.

| Edmonton | 47 | 71 | — |

## On Duty, Night 'n' Day

Around the clock duty will be performed by the latest member of Nelson's law enforcement staff.

But the long hours won't fizz on this new addition.

During the day the bright red, three-wheeled motor-bike keeps a constant surveillance over parking meters; at night it will add another vehicle to the police protection service.

City Council members, commenting that the small, easily manoeuvrable vehicles were employed by cities across the nation, remarked it would repay its $2000 cost within a year. Use of the motor-bike eliminates necessity of hiring a second man to patrol the "parking meter beat".

Increased revenues from meter violations alone would be considerable, it was said. "People knew it took an hour to make the tour, and took advantage of the time for free parking."

During the night the motor-bike will be used by the police force to patrol the business section, thus providing closer protection demanded by businessmen.

## Recommends Improvements For Air Strip

A report recommending long-term improvements to Nelson's waterfront air strip was received at a special meeting of City Council Wednesday night.

A.H. Wilson, regional director of air services, Department of Transport, reported on an inspection tour of the air strip—which he praised for its quick development — and of the seaplane harbor.

Mr. Wilson's recommendations for the air field were:

1. The strip is 2100 feet long and 150 feet wide at the south end, but only 100 feet at the Northeast end. Widening of this end is now considered to be of high priority.

2. When the northeast end is widened to 200 feet as suggested, the South half of the newly-erected fence should be re-oriented anti-clockwise in order to bring the South end of the strip closer to the C.P.R. tracks and the North end closer to the Yacht Club, thus eliminating the need for aircraft taking off northeastward over the existing buildings.

3. The strip is developed to the point where wind socks should be employed. The hangar area South of the airplane float would be partially filled, thus acquiring land adjacent to the railway track, where the City would construct T-hangars to be rented to aircraft owners, the report concluded.

## Durelle Wins 40th Knockout

MONCTON, N. B. (CP) — Yvon Durelle, British Empire light-heavyweight boxing champ and third-ranked in U. S. ratings, cut down Louis Jones of Rockland, Ill., at the 2:45 mark in the second round of a non-title fight Thursday night.

Durelle, from Baie Ste. Anne, N. B., meets Archie Moore for the world light heavyweight crown on Dec. 10 in Montreal.

The bout with Jones was a tune-up for the Moore fight. For Durelle it was the 76th win of his pro career and his 40th knockout.

## Legion To Support Low Rental Project

The Canadian Legion at Nelson will support any move towards establisment of low rental housing for senior citizens, it was decided at the October meeting Thursday night.

Members backed motions by T. Aldworth and George Harvey calling for Legion support of a move to get all Nelson clubs behind such a project and naming of a Legion committee to work with other groups.

President S. J. Newell appointed a committee of Mr. Aldworth, A. S. Horswill and M. B. Ferg.

Mr. Aldworth, who called for community backing of the project, was informed by Ald. Boyd C. Affleck that City Council had been at work for some time on selection of a tite. Nelson Kiwanis Club has also been conducting investigations into feasibility of building of low rental homes.

It was expected that a site proposal would come before council soon, Ald. Affleck said. The council was "highly sympathetic" to the project and the time would come when "all will be invited to participate." Action by the Legion "will be all to the good."

Mr. Harvey's motion urged naming of the committee to pursue the matter.

Provincial government regulations required that low rental homes for the aged be erected near churches, stores, theatres, and so on, Ald. Affleck said. Such a site was hard to find in Nelson.

**WINTER WORK**

Nelson had hoped the project would provide winter employment, he also remarked, and another winter construction job could have been the proposed RCMP barracks planned for the old Strathcona Hotel site. Enquiries had been made, and it had been learned that plans had yet to be drawn up.

Mr. Aldworth also introduced a subject described by Ald. Affleck as "thorny" and it was quickly dropped. He asked "when are we going to move the cenotaph into that beautiful spot" built by the city on the old bandshell site.

Ald. Affleck explaining to newcomer Mr. Aldworth that there was "a wealth of history behind the monument and many of us believe there is no better place for it." The "cream of our youth is represented there" and it should be respected.

Mr. Aldworth said he felt more people would go up to the cenotaph if they did not have to cross the road, "a dangerous crossing." A beautiful spot such as this would give "an air of reverence."

Stephen Cameron reminded that last year the Legion passed a motion sanctioning the move. President S. J. Newell agreed, but said that since then an attempt had been made to have City Council conduct a plebiscite. Ald. Affleck said the council of that time had refused to do so and recalled that a court injunction had blocked removal of the cenotaph.

## Lions Discuss Light Bulb Drive

Plans for the annual light bulb campaign were discussed at a meeting of the Nelson Lions Club.

The campaign headed by committee chairman R. A. Phillips, will be conducted door-to-door for three days, starting Oct. 14. Assisting Mr. Phillips on the committee are G. S. Cooper, W. J. Ebdon, Bill Wicken and D. M. Sample.

The origin, history and staging techniques of minstrel shows was outlined in a talk given by E. J. Leveque.

Out of town guests were Arthur Ring of Regina and Arthur Ness of Trail, while Warren Jennings, Louis Maglio and Frank Johnson were Nelson guests. The Club welcomed back Chris Trkla, who has returned from a six-month tour of continental Europe.

PHONE 1844 FOR CLASSIFIED

## Recreation For You

**Schedule under adult supervision beginning Monday, October 13th.**

**MONDAY**
8:00-10:00—Senior Basketball

**TUESDAY**
2:30- 4:00—Notre Dame
4:00- 5:00—Junior Twirling (Mrs. Mealey)
8:00-11:00—Badminton Club

**WEDNESDAY**
6:00- 8:00—Senior Basketball
8:00-10:00—Ladies' Keep-Fit (Mrs. Slater)
Men's Keep-Fit (G. Renke)

**THURSDAY**
2:30- 4:00—Notre Dame
4:00- 5:00—Junior Twirling (Mrs. Mealey)
8:00-11:00—Badminton Club

**FRIDAY**
6:30- 8:30—Junior Square-Dance Beginners (B. Dean)

**SATURDAY**
7:00- 9:00—Junior Advanced Square Dancers (B. Dean)

**SUNDAY**
1:00- 6:00—Badminton Club

Other classes will resume with appointment of Recreation Director.

Registrations may be made at Recreation Office between 4 p.m. and 5 p.m. (Monday to Friday) or 10 a.m. to 12 a.m. (Saturdays).

The cheapest and most beneficial way to spend your leisure time this winter.

Membership tickets good until March 31st, 1959.

—J. R. JOHNSON.

## 4000 Tour Cominco Plants During Summer

TRAIL—Nearly 4000 visitors registered for tours at Cominco's Tadanac and Warfield plants during the summer schedule. People came from all parts of Canada, the U. S., and many far-away lands, including England, Scotland, Australia, New Zealand, Switzerland, South Africa, Pakistan, Austria and Germany.

In addition, gatehouse guards report hundreds of inquiries from tourists unable to wait for guided tours. They are happy to receive plant information and souvenirs, and many express the desire to return at a later date to view the operations.

Some, hearing about Cominco, travelled long distances out of the way to get an on-the-spot look at what is taking place here. A farmer and rancher from Texas, growing cotton and raising beef, saw a Cominco fertilizer poster while on vacation. He came, with his family, a thousand miles out of his way to see the Warfield chemical fertilizer operation.

The Mayor of Exeter, Calif., made a return visit to Trail, this summer especially to visit the metallurgical and chemical fertilizer operations. He passed through the district, a few years ago, without knowing what was here, or realizing the scope of activities. During a ferry crossing in the Kootenays he struck up an acquaintance with a Cominco employee, who provided him with information and background about the metallurgical and fertilizer plants at Trail. Correspondence between the two prompted a return visit by the mayor.

Another woman from California read a book about British Columbia, and came this way while on holidays with the express purpose of seeing the district and the "huge smelter".

According to company guides, visitors were generally impressed with the Trail district, and displayed considerable interest in plant activities.

The winter schedule of plant tours, now in effect, will continue until March 31. Instead of two tours a day at each operation there will be one, metallurgical, starting at 10 a.m. and one, fertilizer, starting at 2 p.m. There are no tours on Saturdays, Sundays and statutory holidays.

# CD Hears Emergency Plans For Hospital

CRANBROOK—Emergency hospital expansion plan was presented in theory at a civil defence session here, showing graphically how St. Eugene Hospital facilities could be utilized to increase from normal 84 beds to 155 beds in the event of a wartime emergency or natural disaster.

In theory most of the routine local patients at St. Eugene were moved out immediately to their homes or nursing homes to clear the way for evacuees from disaster area or victims of the natural disaster. Reception area for patients was established inside the hospital rear sheltered bay where large hall space is available. From this area victims checked by an examining doctor are wheeled down the corridor to the elevator for moving to the second floor shock ward or surgery centre, each of which was staffed with two doctors.

From these centres patients were moved to second and third floor beds for nursing care. Arrangements for mobilizing emergency blood transfusion either through Red Cross or locally were outlined and plans for securing additional drug requirements were explained. The hospital would requisition the additional supply of beds required from hotels and other sources.

Cranbrook civil defence officer Ernest Rowe, and Sister Superior and her hospital staff drew up the expansion plan in practice at the hospital and presented it with diagrams and measurements to the meeting.

Mrs. T. H. Wilson, RN, presented the plan drawn up by her group for expanding hospital staff to meet the requirements. She said arrangements were complete for quickly increasing the staff as required, with current listing for the emergency of 50 additional nurses and nurses' aides who would be available. The five staff doctors and one retired resident doctor would be available, along with three dentists, five pharmacists, seven technicians, 24 first aid graduates and 40 St. John Home Nursing graduates.

**COMMENDS WORK**

G. C. Watkins, assistant civil defence director for the province, attended the meeting and commended the preparatory work done in all phases of civil defence. He stressed the flexibility which must be part of any program to meet any variety of emergencies from any direction. East Kootenay civil defence coordinator W. K. McRae and West Kootenay officer Robert Lowe also commented on the comprehensiveness of the Cranbrook hospital expansion plan.

RCMP Sergeant G. C. Boulton and Constable G. E. Tetzloff outlined highway communication plans through East Kootenay, and Don Neale, motor carrier superintendent, reported the vehicular program for the emergency.

## Kinsmen, Kinette Slates Installed

CRANBROOK — Frank Dillon has been installed as new president of Cranbrook Kinsmen by district deputy-governor Al Martyn of Nelson at a dinner meeting of Kinsmen and Kinettes. Mrs. Steven Bahrey was installed new Kinette president.

Rounding out Kinsmen officers were vice-president Red McLaren, past president W. O. Atkinson, secretary Archie Harrison, treasurer John Pistawka, and directors Gordon Lyons, Albert Holmes and Bruce Smith. Other Kinette officers are vice-president Mrs. John Pistawka, and past president Mrs. Joseph Ban Quan.

## Tax Sales on Two Cranbrook Properties

CRANBROOK — Only two properties came up for sale Tuesday at the city hall for tax delinquencies. Sale of both remains subject to payment of the tax delinquincies and current taxes plus interest within a period of one year.

Most substantial property was the Venezia Hotel Ltd., which the city purchased for the upset price of $2667.21. Second property was a residence on a lot and a half on Fifteenth Avenue owned by Basil Denby for which C. H. Reid submitted a bid of $243.36.

Delinquencies on the other seven properties listed for the sale were paid up by the owners prior to the sale date.

## WARDNER MAN LAID TO REST

CRANBROOK — Last rites have been held for Peter Keyandwy of Wardner, who died at his home after several weeks' illness. He was 78 years old.

Born at St. Ignace, Mich., Mr. Keyandwy came to Jaffray in 1923 and for 32 years worked in logging and lumbering in the Jaffray-Wardner area. He had been retired since 1949.

His wife, Minnie, survives him at their home, and one son, Alex at Birmingham, Ala., and daughter, Mrs. Josetta Anderson at Wardner, 10 grandchildren, four great - grandchildren; one brother and four sisters.

Rev. Brian Colwell of Cranbrook officiated at the funeral at Wardner United Church and burial was in Wardner Cemetery.

## Goldfish Can Be Menace To Lakes

MOOSE JAW, Sask. (CP) — The innocent-appearing goldfish is a menace when let loose in streams and lakes, conservation officials here have discovered.

They say goldfish, a species of carp, multiply and grow so rapidly in the waterways of Saskatchewan that if left unchecked, they would eventually leave no food for game fish.

Three years ago a Moose Jaw resident unwittingly dumped 12 goldfish into a nearby lake. When the lake was poisoned recently, teams from the Saskatchewan Department of Natural Resources and the Moose Jaw Fish and Game League found the original dozen had multiplied to 234. Some of the goldfish were 12 inches long and weighed 11 ounces.

Conservation officials explain the goldfish scour the bottom of streams as thoroughly as a vacuum cleaner, leaving no food for forage fish. When the forage fish are gone, there's no food left for such desirable game fish as pickerel, pike and trout.

Carp, cousins of the goldfish, are believed to have spread to Saskatchewan waters from the Mississippi. The trouble some scavenger is not native to North America, but was planted in the Mississippi generations ago by European settlers, who ate carp as a delicacy.

The carp multiplied rapidly and began advancing through the headwaters of the Mississippi. Conservation authorities believe carp in Saskatchewan have come up the Red River and west along the Assiniboine.

The Saskatchewan government has set up a net across the Assiniboine 30 miles inside the Saskatchewan-Manitoba border and sorts the fish, putting back desirable species and killing carp.

Fishermen and conservation men hope this barrier, coupled with fast action when local plantings of goldfish or carp are discovered, will keep down the scavenger fish population.

## New Crosswalks In Cranbrook

CRANBROOK — Two more pedestrian crossings were authorized for Cranbrook's intricate traffic system by City Council this week. A request of Cranbrook School Board the new crossings will be located on the north-south through street of Tenth Avenue at Third and Fourth Streets out of consideration for children of Tenth Avenue primary school. "Slow" signs on Eleventh and Ninth Avenues in Amy Woodland School vicinity were also authorized.

District Highway engineer W. M. Sproule suggested in writing to the city that the city-authorized pedestrian crosswalk over the arterial highway at the oblique Van Horne-Baker Street intersection would be better located on the straight section of Van Horne at Seventh Avenue, but the city disagreed that this would fill the need since it would terminate in the railway station parking yard.

Council approved the city parks and recreation committee recommendation of some changes in Memorial Arena regulations. Among them is authorization of Sunday use 2 to 5 p.m. for general skating and hockey. Rental rates were set at $50 a day for ice shows of local skaters, $100 for local sponsored shows with outside skating talent, $100 a performance for touring skating shows, and $150 in the event of touring shows performing twice. Hockey rental was established at half the net proceeds after amusement tax and guarantee are deducted. The rink is scheduled to open the middle of this month with R. L. DeArmond continuing as manager.

## To Install Beacon, Runway Lights at Cranbrook Airport

CRANBROOK — Department of Transport civil aviation division reported to the city this week that maintenance work at the municipal airport following the recent regular inspection includes $1800 for installation of an electric beacon, installation of runway lights is planned.

The report commended the city for its compliance with suggestions made after previous inspections and its efforts to improve steadily its airport facilities. Particularly commended was the removal of the Crestbrook lumber piles beyond the southern fence of the airport.

V. C. Brown and Harold Chernoff of Crestbrook Timber Ltd. attended the council meeting to outline the plans for the stationary sawmill the company is constructing in Cranbrook which will be in the lumber yard beyond the airport south fence, and they agreed to delay construction start until later this week while the city notifies the Department of Transport of the plan.

## N.Y. Bankers Learn About Sex

NEW YORK (AP) — Bankers are learning about S-E-X. At least the bankers in New York state have decided that the hand that rocks the economy should be told about the facts of financial and banking life.

The New York State Bankers Association has set up a women's committee to tackle the problem of women's understanding of money. Many husbands may think that women already have their own understanding of money —there's never enough of it.

But this isn't the idea the lady bankers have in mind. Rather it's a matter of spreading information about banking and finance.

First, the women bankers will work through the various women's clubs and organizations. There are some 800 of these in New York state, with a membership of around 200,000.

**CONTROL WEALTH**

Already the committee has 204 women bankers organized for the job. This, in the words of Albert L. Muench, executive vice-president of the New York State Bankers Association, is quite an accomplishment.

Women aren't hard to find in banking circles hereabout. There are more than 3,000 with banking titles. In the United States there are perhaps 300,000 bank women. But that isn't the reason the association is calling on them to do the job.

The fact is that women are important. Muench says women vote about 70 per cent of the shares at annual meetings of American corporations. He says they are the beneficiaries of 80 per cent of the trust funds. And they have the say-so in spending the greater part of the $355,500,000,000 a year of personal income.

Their economic importance to bankers also arises from the fact that 21,000,000 women are employed, bringing in some $42,000,000,000 before taxes. And each year, Muench says, more of them seem "anxious to learn more about money management and financial functions in an economy growing more complex."

Prime goals of the new drive, under the leadership of Mrs. Dorothy Noble Smith, assistant manager of a branch of the Chemical Corn Exchange Bank in New York City, are set forth thus:

1. To make the public aware of the bank's role in the community in financing business, agriculture, municipalities, families and individuals.

2. To expose the destructive force of inflation and preach the need for sound budgeting and planning.

3. To make the public see the bank as essential to a capitalistic economy.

## Adult Education Enrolment High

CRANBROOK — Cranbrook District School Board and its night school director, Ernest Rowe have had good response to the offer of adult education night school courses in academic and non-academic subjects. Sixteen courses are planned.

Widely-known artist, sculptor and writer Zeljke Kujundzie, art instructor at Mount Baker School, reports a good enrolment of Cranbrook and Kimberley adults for courses in art appreciation, painting and craftsmanship.

Non-vocational classes in square dancing have drawn heavy enrolment as in the past. Instructor will be Mrs. T. C. Brackenbury of Mount Baker School staff.

Pre-registration deadline was Sept. 29, and further registration and enrolment will be accepted at opening sessions of each course.

## Murder Without Death Possible Says Doctor

COPENHAGEN (AP) — Murder without killing. . .

It's quite possible, a Danish psychiatrist contends — a personality can be killed without destroying the body. To back up his contention, a new book by Dr. Paul J. Reiter tells the story of ne of the strangest cases in this country's criminal history.

In August 1951 two bank men were shot and killed in a robbery. The gunman, arrested five minutes later, was Pall Hardrup, a former member of Denmark's Nazi party. He told a story police could not at first believe. It was this:

Hardrup was ordered to rob by his guardian spirit. He needed money because the spirit wanted him to rule over a United Scandinavia and to give the world peace. He also had robbed a bank of $2,900 the previous fall. He had given the money to Bjor S. Nielsen who "handled my connections with the guardian spirit."

**PRACTISED YOGA**

In treatment by Dr. Reiter, Hardrup told of sharing a prison cell with Nielsen two years. They spent a lot of time practising yoga and hypnosis.

Dr. Reiter says Nielsen deliberately broke down Hardrup's personality by hypnosis and suggestion in order to use him for criminal purposes. Nielsen made the final test when he had the "guardian spirit" order Hardrup to marry a girl found by Nielsen.

Nielsen took Hardrup on pub crawls, made him seek prostitutes and almost succeeded in making him a drunkard. Dr. Reiter says all this was part of Nielsen's plan to make Hardrup ready for robbery. The first went according to plan. The second failed when Hardrup saw the bank men die from his bullets. That threw him into a mental conflict that upset the plan.

**MORAL COLLAPSE**

Although some psychiatrists say it is not possible to hypnotize a person into doing anything in violation of his moral code. Dr. Reiter contends it can be done if the person is broken down systematically over a long time.

Hardrup was sent to a mental home for life. Nielsen—an old offender often in prison since 1933 —got a life sentence for instigating robbery, attempted robbery and manslaughter. He took no direct part in the crimes but he committed a murder of a man's soul, Dr. Reiter says.

Hardrup is bound to end as a hopeless case. Dr. Reiter comments:

"Nielsen has a murder upon his conscience of which he has neither been accused of nor sentenced for—the murder of Hardrup's personality, which is now hopelessly beyond the range of any therapy."

## Memorial Service For Nurse Lost With Plane

KIMBERLEY — Rev. F. A. McPhee officiated at a memorial service at the United Church here for Elizabeth Morrison, RN, daughter of Mr. and Mrs. Charles Morrison of Kimberley. She was passenger on a small aircraft which disappeared near Honolulu; all four passengers are presumed dead.

She was born 24 years ago at Kimberley and graduated from high school here. After a year on the staff of Lloyd's Hardware, she trained at St. Paul's Hospital where she graduated in 1955. She was on Trail Hospital staff for a year, took post-graduate work at Michigan University, then in August, 1957, joined the Leahi Hospital staff in Honolulu. Her sister, Georgina, also a graduate nurse, had joined her there in early September.

She was active here in United Church Mission Band, CGIT, Girl Guides, Brownies and teacher in the Sunday school.

Surviving her are her parents here, a brother, Kenneth, at Cardston, Alta., and a second sister, Mrs. D. M. Wilson of Edmonton.

## Last Rites For Cranbr'k Pioneer

CRANBROOK—Funeral services were held here for John Peter Lundquist, resident here for 45 years. He died at Kimberley where he had made his home with his granddaughter, Mrs. George Plant.

Born 84 years ago at Taad, Lockne, Jamptland, Sweden, he brought his wife to Canada in 1907 and in 1913 they moved here from Winnipeg. He engaged in woods work for about 10 years, then joined the public works department crew here as blacksmith, carpenter and janitor and continued this work until superannuation in 1949. He was a member of the Cranbrook Senior Citizens Association. His wife died here in 1943.

Surviving him are three sons, Ray at Kinnaird, Vincent at Spillimacheen, and Arthur in the Canadian Army at Soest, Germany; three daughters, Mrs. C. R. Adams and Mrs. Ed Sanderson, Cranbrook and Mrs. Howard Brown, Langley Prairie, and 17 grandchildren and four great-grandchildren.

Lieut. N. Kapty officiated at the funeral at 2 p.m. Tuesday at McPherson Funeral Chapel and burial took place in Westlawn Cemetery.

## New Committees Set Up in PTA

NATAL — The first fall meeting of the Michel-Natal-Sparwood Parent-Teachers Association was held in the Elementary School at Natal with president Stephen Fleming in the chair.

Elections of committees were completed. Program Committee will consist of Miss J. Chisholm, Mrs. W. Wilson and Norman Gill; Project Committee of Ian Dufour, Mrs. N. Gill and Mrs. C. Chatterson. Frank Mitchell of Natal is the new secretary.

P-TA attendance trophy was won by Mrs. W. Cousan's class. It was decided to hold the next monthly meeting in the Sparwood School on October 23. Films were shown.

**SHEDS RAIN**

Muskrat fur, from the animal which lives in marshlands, is waterproof.

## Kinsmen Park Opened At Natal Ceremonies

NATAL — The Kinsmen Park at Natal, built by the members of the Michel-Natal-Sparwood Kinsmen Club, was officially turned over to the Michel-Natal Community Fund at a fitting ceremony in the newly constructed park.

RCEME band from Blairmore was in attendance and opened the proceedings with a parade which included children from the community.

In introductory remarks Kinsman president Earle Tabor of Sparwood welcomed the crowd and introduced the prominent guests including governor Al Martyn of Nelson. He thanked the general public for support of Kinsmen money raising efforts and volunteers who contributed advice and working hours to the playground area and installation of equipment.

Into the project there had been put forth over 500 hours of Kinsmen voluntary labor in cleaning and laying out the site. Through the help of many persons outside the Kinsmen organization around $1000 was realized by improvising and manufacturing many pieces of equipment and on fencing.

District Governor Martyn officially opened the park, cutting the ribbon and permitting the throng of youngsters to enter. Mr. Martyn had high praise for the Kinsmen club for their "splendid efforts" and commended it as being "one of the finest in B. C." Past president James McVeigh, who officially turned over the area to the Community Fund representative Dr. R. Glasgow, described the parks contents. They include a slide, presented by pupils of the Elementary School, two sets of swings, teeter-totters, ocean wave, monkey bars, kiddies' totter and picnic tables. The Kinsmen have invested $1450 in the park for materials and equipment estimated to be worth in excess of $2000.

Plans call for the addition of grass, a sand box and a wading pool.

At the park the children received tickets for free ice cream after past president Jim McVeigh turned over the park to representatives of the Community Fund.

**MURDER PRICE**

In Anglo - Saxon times every man's life had a fixed money value called the weregild, to be paid if he was murdered.

## The Price of Lead, Zinc

If anyone doubted how high a price the United States was going to pay for restricting lead and zinc imports it is only necessary to read the flood of criticisms printed in this newspaper yesterday (September 24). To protect a minor industry and save the jobs of a relatively few thousand men, we are seriously damaging the economies of a number of friendly countries and we have created a great deal of hard feelings.

Canada found the imposition of the American import quotas to be "basically contrary to the principles of the trade agreement between Canada and the United States". Australia foresaw "tremendous consequences" that would have a serious effect on her economy. In Peru, the move was called "economic aggression against our country" and it will cost that unfortunate nation $20,000,000 a year in export earnings and consequent unemployment. In Mexico the effect is expected to be disastrous. "Such a step by President Eisenhower," said a Mexican spokesman, "makes a mockery of the Good Neighbor policy." Even in the United States the smelting and refining companies are unhappy.

The damage is done for the present and the mistake cannot be rectified immediately. However, it must be hoped that the quota restrictions will be annulled as soon as possible. The United States at its present stage in history cannot sensibly go in for trade restrictions, cannot jeopardize commodity markets that later will be vital to our existence and must not so cavalierly damage our relations with friendly nations for reasons that are more internal politics than economics.

—The New York Times.

## Reverie On Summertime

Each year from all across the nation
Tourists travel on vacation
So when they think of where they've been
Each one will see a different scene.

* * *

**OCEAN HOLIDAY**

The sound of surf that breaks on shore,
And pounding waves that foam and roar,
Blue-green sea and sandy beaches
(Barnacles and clams and leeches),
Bays and cliffs of crags and rocks,
Islands shaped in squares or blocks—
Reflections of a gold sunset,
An old, discarded fisher's net,
The smell of fish and fishing boats,
Mountains only climbed by goats,
The ripple of a boat at sea:
All these things come back to me.
Of my days spent on the coast,
These are the things I remember most.

* * *

**CITY HOLIDAY**

Screaming trolleys, tooting buses,
Backseat driver causing fusses,
Traffic lights in one long line,
Watching for a crossing sign,
"No left turn" and "One-Way Street,"
The marching of a million feet;
"Keep on moving! Stop! Turn Right!
Change Direction! Go! Green Light!"
It isn't gracious, calm or pretty;
It's exciting. It's the city.
Clothes in windows and showcases,
All the unfamiliar faces;
Neon signs with colors bright
Animate the street at night.
Office buildings storeys high,
Smokestacks etched against the sky;
Children screaming, dogs are barking,
Where is there a place for parking?
The city's pulse and noisy row
Are things that I remember now.

* * *

**THE PRAIRIES**

The miles and miles of road that seemed so straight,
The cattle fences, broken by a gate.
The prairie towns, such lazy little places;
The people in them all had friendly faces.
Wheat elevators, purple, strict and tall.
The water towers, highest of them all.
The farm we went to, wheat that leans and sways,
The perfect bliss of long hot summer days.
Cool lemonade, such contrast to the sun,
The men and tractors, home when day was done.
The sunset painting glowing, golden land,
The silhouettes of cattle where they stand;
These things will simply seem to me as keys
Unlocking precious prairie memories.

* * *

**MOUNTAIN HOLIDAY**

The bliss of solitude is here,
And loneliness becomes no fear
Among the mountains cut with ridges,
Rushing rivers, silver bridges.
Fishing, hunting, outdoor sports,
Bowling greens and tennis courts.
The glaciers, peaks and tourist park,
The lights in cities after dark.
Nature's paintbrush decorates
Valleys, cliffs and jewel-like lakes,
Flowers, shrubs and many trees,
Mineral springs that never freeze.
The crispy tang of mountain air—
(That sign that says not to feed that bear!)
Things make you think in a wistful way
Of another mountain holiday.

* * *

Around the fire in winter's prime
We sit and think of summertime.
How long ago those hot days seem;
But not as long if your heart can dream.

—Margaret Catley (Age 15).

## Letters To The Editor

### Booting Seat Warmers Out Not Answer, Feels Nimsick

To the Editor:

Sir—My purpose in writing this letter is to comment on a news item which appeared in the "Sun" dated Sept. 5, 1958, entitled "Lazy-Pupil Ban Lauded by Trustees."

The article dealt with the provincial cabinet order that "seat warmers" over 15 years could be kicked out by local school boards.

I suppose the first impulse of a taxpayer is to agree with such procedure, because he may think it would cut down the costs of education. Such quick, impulsive decisions may seem to solve a problem in theory, but when put into practice we will find that many other questions are involved.

It is my understanding that "seat warmers" are students who make no effort to work and thereby hold back other students.

The question that bothers me is "what are these boys and girls going to do when they are banned from school?"

They may go out looking for a job, but there are very few jobs for children at that age, and what jobs there are, in many cases are ones which take advantage to exploit a boy or girl, because they can get them to work for less than an adult.

They may walk the streets doing odd jobs, but this may lead them into becoming delinquents, and a greater charge upon society than just being a lazy pupil.

If by banning them from school society was finished with them it may be the solution, but what type of citizen they become in later life will be a direct reflection of the type of training they received during their formative years. I am sure everyone will agree that walking the streets at 15 years is not the best type of training. Whether these young people become assets or liabilities to society is a very important concern of society. Therefore, before such a drastic ruling is made, consideration should be given to the consequences.

As these pupils proceed through school, I am sure the teacher, who has the greatest influence on the training of a child outside of the home, makes a continuous observation of the pupils, and discovers the peculiarities of certain students long before they are 15 years. In many cases if the teacher was given a greater amount of freedom and cooperation from parents and society, these peculiarities troubling certain students may be corrected in their early years.

If we are going to ban these students at 15 years, then every effort should be made by specially qualified people to find out why the pupil does not work. He or she should be given I.Q. and aptitude tests to see if the child has a particular ability for something outside of the studies given at the school.

Every person has some special abilities if they are developed, and they must be developed if we are to build a strong and progressive nation.

Other schools, which give special technical training, and apprenticeship courses, in most cases can provide the outlet for the training of students who do not seem to fit into our general educational course. The Department of Education should see that the training necessary for such pupils is provided. The money we spend on such training will probably prove infinitesimal compared to the money spent on delinquency in later life as a direct result of the lack of training.

To me, if we are going to ban lazy pupils at 15 years, we must do it from a positive approach, such as the foregoing suggests, but just to turn them out on the street is a negative approach, and the cure will be worse than the illness.

Hoping that this letter will give rise to further discussion on this problem, and thanking you, Mr. Editor, for this space, I remain,

LEO T. NIMSICK, MLA.

## McMaster University Bans Beauty Contest

HAMILTON (CP) — Girl students at McMaster University here have been told that they may be expelled if they enter beauty contests, it was learned Thursday.

The board of governors has ruled: "Girl students can't enter beauty contests. It isn't dignified."

The edict was made soon after a number of girls showed interest in entering the Miss Tiger-Cat contest, the prize for which is a fur coat and an all-expenses-paid trip to Vancouver to compete for the Miss Grey Cup title.

Cries of indignation were heard from the campus. "We have sent an official protest to the board of governors," said the student council. "This isn't fair."

Officials of the Big Four Hamilon Tiger - Cats Football Club are accepting entries until next Wednesday, when the last preliminary round will be held preceding the finals.

"Even if the ban isn't lifted in time for the TiCat event, it must be reversed," said one student. "The ban doesn't merely apply to this one contest, it applies to all contests. And that means we can't have beauty queens for our dances or any other campus event."

## GM Workers Beat UAW In Picket Line Setup

By CHARLES C. CAIN

DETROIT (AP)—General Motors Corporation workers in three states jumped the gun on the United Auto Workers' 11 a.m. strike deadline Thursday and set up picket lines three hours before the scheduled company-wide walkout.

GM officials said the pickets appeared at the Delco radio plant at Kokomo, Ind., Fisher Body No. 1 in Grand Rapids, Mich., and Electro Motors in Lagrange, Ill.

The walkouts came while negotiators took a brief recess in their night - long bargaining session amid reports they still were far apart on a new contract.

Union leaders said there was no possibility of postponing the strike deadline and many issues still were unresolved despite negotiations that have been running almost continuously since Wednesday morning.

Chrysler and Ford already have settled on new three-year contracts with the UAW.

The Chrysler agreement came Wednesday, making it two down and one to go for the UAW workers, the industry's big three.

The Chrysler agreement included a three-year pact, similar in most details to the agreement Ford and the UAW worked out Sept. 17 after a seven-hour strike Chrysler has 75,000 UAW workers.

**TWO BIG PROBLEMS**

Both GM and the UAW conceded that any GM settlement would follow the broad pattern of the Chrysler-Ford pacts, but two major problems complicated the bargaining picture.

One of these was union insistance on wiping out what it termed inequities in wage scales paid GM workers in adjoining plants for doing an identical job, Reuther said, for example, that some comparable jobs in GM plants in three adjacent Michigan cities—Bay City, Saginaw and Flint—have a wage spread of 10 cents hourly. GM denied there was such a gap.

**SIGNS CONTRACT**

TORONTO (CP) — Metropolitan Toronto council today signed a two-year contract with its waterworks employees and outside workers who threatened to strike last month. The contract gives employees a 10-per-cent pay increase, spread over two years.

## Gaitskell Approves Dulles' Statement

SCARBOROUGH, Eng. (Reuters) Labor party Leader Hugh Gaitskell Thursday warmly welcomed the "apparent change of attitude" about the Chinese off - shore islands by State Secretary Dulles.

"I equally regret the intransigent attitude adopted by the Chinese Nationalists," Gaitskell told the party's annual conference.

Dulles "appears to be taking a much more favorable line as regards the evacuation of the offshore islands," Gaitskell told the 1,200 socialist delegates:

Gaitskell has called for neutralization of Formosa under a United Nations guarantee.

He spoke against a motion calling on the next Labor government to cease unilaterally the manufacture of nuclear weapons.

"If we do this on our own and remain in the NATO alliance, all you do is to shelter behind the American bomb."

The motion to ban nuclear weapons production was rejected by a 5 to 1 majority. Another resolution, opposing missile bases in Britain, was defeated by a similar majority.

**SPECIAL EXPORT**

Frozen rock-lobster tails are an increasingly valuable export from South Africa to the United States.

## Roaring Gas Jet Greets PGE At Chetwynd, B.C.

CHETWYND, B.C. (CP) — A flaring gas outlet and a roaring bonfire greeted the Pacific Great Eastern Railway's inaugural run when it reached this northern British Columbia town Wednesday.

The train left North Vancouver Tuesday morning bound for the north - eastern communities of Dawson Creek and Fort St. John.

The gas outlet—a length of steel pipe bringing gas in from the pipeline running throughout this city—was lit by Premier Bennett. The bonfire was touched off after the premier left the celebrations.

**PLENTY TO EAT**

At an outdoor barbecue staged by the city great pans and tubs of food — salads, grilled and broiled meat, rice, potatoes and trimmings — weighed down a large square food bar. Gallons of coffee and a few pots of tea were there for washing it down.

The town's population, normally 750, as more than doubled as people came in from communities up to 100 miles away to join in the festivities.

Premier Bennett told a crowd of about 200 that while the coming of the PGE to this town was of importance, "the events which follow will bewilder those of us who are the most optimistic about the great future facing this country."

**PREMIER "AMAZED"**

Mr. Bennett said he was "amazed and thrilled to see the great progress made" in this community and in the surrounding area.

"There are many people who don't appreciate this great Peace River empire," the premier said, but he was "sure that the coming development will surpass the development that has taken place so far."

Mr. Bennett thanked the railroads for loaning and renting cars to the PGE for this three-section inaugural run. Equipment had been borrowed from the CPR, CNR, and several U.S. rail lines.

**READ THE CLASSIFIED DAILY**

They'll Do It Every Time — By Jimmy Hatlo

## TODAY'S BIBLE THOUGHT

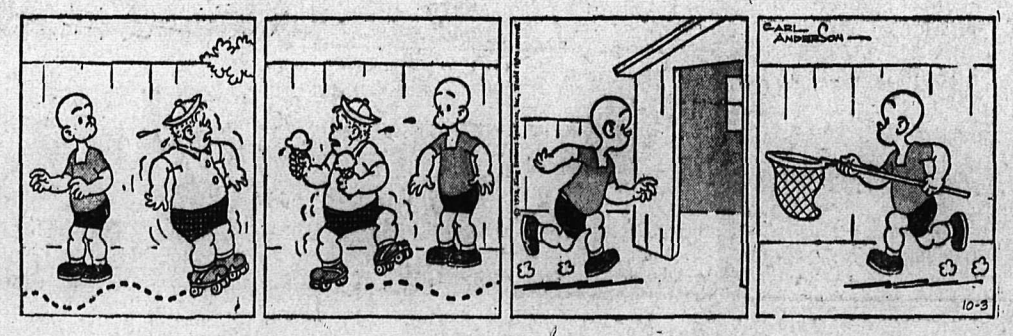
**Whose goings forth have been from of old from everlasting.—Micah 5:2.**

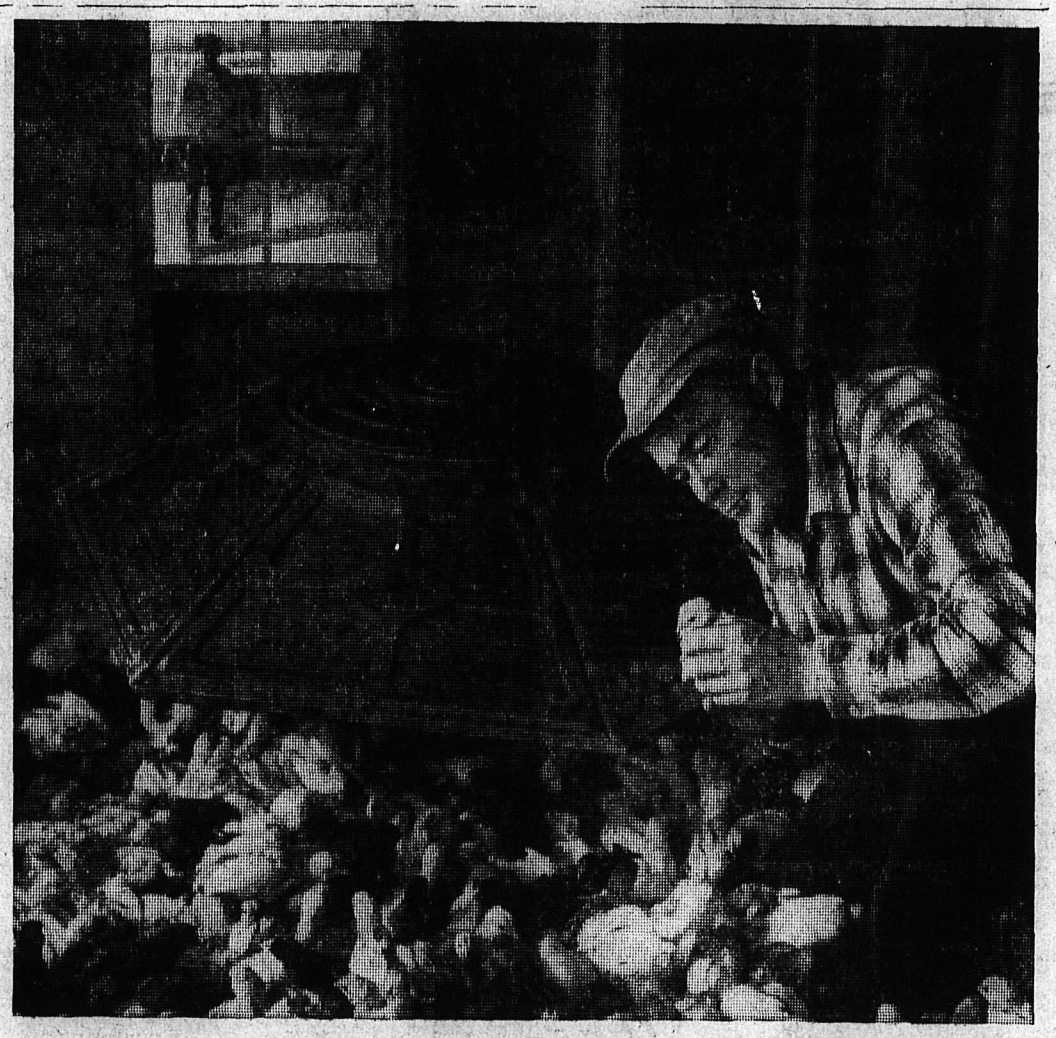
Some of us plan a day or a week or a year ahead. The Creator planned countless ages ahead. We are a part of His plan. Let us play our part.

## Aunt Het

The hills groaned in Bible times, so this hill-billy music probably ain't new.

HENRY





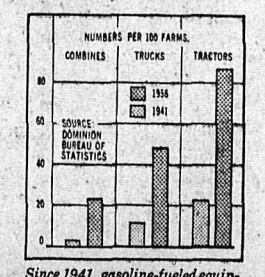
# THEIR LIVES – HIS LIVELIHOOD – DEPEND ON OIL

**Imperial contributes to a better life for Canadians through constant leadership in oil...finding new supplies...pioneering more useful products**

There are more than five tractors for every six occupied farms in Canada...one motor vehicle for every four Canadians. More than half the homes in Canada are heated by oil.

Canadians consume half again as much gasoline today as they did in 1946, nearly five times as much heating and diesel fuels. Imperial has been a major contributor to this better life, more productive economy. In 1946, Canada produced less than one-tenth of its oil needs. In 1947, Imperial discovered oil at Leduc, in Alberta. Today, Canada's own fields produce nearly 60 percent of our requirements.

Through its nine refineries from coast to coast . . . and in its research operations, larger than the rest of the Canadian oil industry put together...Imperial has constantly been able to lead in the development of newer and more useful products . . . to make a fuller life for Canadians.



*Since 1941, gasoline-fueled equipment on farms has risen sharply.*

ESSO IMPERIAL OIL LIMITED

IMPERIAL OIL . . . FOR 78 YEARS A LEADER IN CANADA'S GROWTH

# About the Town

PHONE 1844

Sunday afternoon from three o'clock until six, an open reception will be held in the Silver Room of the Hume Hotel for Mr. and Mrs. Harry Amas of Victoria, who are celebrating their sixty-fifth wedding anniversary. Mr. and rMs. Amas are well known in Nelson where they lived for many years. They will arrive Saturday to visit their son-in-law and daughter, Mr. and rMs. H. C. Grizzelle of 609 Latimer Street.

* * *

Mr. and Mrs. D. J. Thomson, 805 Fourth Street, had as weekend guests from Calgary Miss Marjorie Black and Mrs. Jack Tibbett. Miss Black attended a dinner held Monday night by the Soroptimist Federatoin of the Americas, Western Region.

* * *

Mr. and Mrs. J. H. Coventry, 610 Davies Street, returned Wednesday night from a holiday at the Coast.

* * *

Mr. and Mrs. J. J. Phelps and family, who were Nelson residents previously for two and a half years, have returned after living in Courtenay and Summerland to take up residence at 1302 Cressley Avenue.

* * *

Mr. and Mrs. J. Robertson of Montreal were recent guests of Mr. and Mrs. S. R. Brown, 905 Fourth Street, en route home from the American Mining Congress Convention recently held in San Francisco.

Miss Helen Sloan, formerly of Nelson and now of Vancouver, left Monday after visiting Mr. and Mrs. D. M. Sample, 903 Josephine Street, for the past two weeks. Mrs. Sample attended the Soroptimist East Kootenay meeting at Kimberley and Cranbrook last week.

* * *

Mr. and Mrs. C. H. Biddell of the North Shore are leaving Saturday for Vancouver where they plan to embark for Europe on a freight steamer via the Panama Canal. Mr. and Mrs. Biddell will visit relatives in England and on the Continent and expect to be away six months.

* * *

Honoring Rev. K. Imayoshi, who is leaving Nelson soon, a dinner with Chinese menu and appointments was held at the home of Mrs. F. M. Auld, 421 Nelson Avenue, Monday. Host and hostesses at the dinner for Rev. Imayoshi and friends were Mr. and Mrs. Ken Hingwing and Miss Jean Hingwing.

## Ainsworth Notes

AINSWORTH—During the weekend, Ainsworth community honored Mr. and Mrs. C. Carpenter, who have managed the swimming pool there for the past two years, and Mrs. Taylor prior to their leaving the district.

## Announcement

Mr. and Mrs. Harry Amas of Victoria, formerly of Nelson, will be at home in the Silver Room, Hume Hotel, Sunday afternoon, Oct. 5, from 3 to 6 on the occasion of their sixty-fifth wedding anniversary.

## Engagements

Mr. and Mrs. W. W. Moojelsky announce the engagement of their youngest daughter, Kathleen Constance, to Mr. Jack Postnikoff, youngest son of Mr. and Mrs. Andrew Postnikoff of Grand Forks, B.C. Marriage will take place on Oct. 19, 1958, in the Silver Room of the Hume Hotel at 1 p.m.

## ROBSON COUPLE FETED ON 25th ANNIVERSARY

ROBSON — Celebrating the 25th wedding anniversary of Mr. and Mrs. H. F. Hyson of Robson, Mrs. L. M. Quance and Mr. and Mrs. J. H. Smith entertained at the home of Mrs. Quance Sunday.

A corsage of red roses and tiny white chrysanthemums was presented to Mrs. Hyson and Archdeacon B. A. Resker made presentation of an anniversary card and gift to the guests of honor on behalf of those assembled.

Former friends at the time of Mr. and Mrs. Hyson's marriage, Mr. and Mrs. J. Campbell of Creston, were present at the occasion.

The tea table was centred by a wedding cake decorated in white and silver and flanked by tall white tapers in silver holders. Autumn leaves and flowers ornamented the rooms of the Quance home for the anniversary celebration.

## Road Camp Theme Of Surprise Evening Shower

CASTLEGAR — A road construction camp was the theme for an evening's fun when a surprise miscellaneous shower was held for Miss Sheryl Riley, October bride-elect, in the Legion Hall Monday.

Conveners of the shower were members of the Ladies' Auxiliary to Canadian Legion Branch 170. Miss Riley is a member of the Auxiliary.

A mock wedding was featured during the evening's entertainment. The hall was decorated with road construction props, including a line of washing and guests wore jeans and plaid shirts. Mrs. Edith Dinner was bride at the wedding, Mrs. H. Bate the groom. Mrs. D. J. Adshead the bride's father, Mrs. D. Peppard the minister and Mrs. M. Peachy pianist. The bride's bouquet of carrots, leeks and cabbage leaves tied with ribbons and streamers was caught by the guest of honor.

A decorated wheelbarrow filled with gifts was presented by Bernadette Lamb to the bride-to-be, who opened them with the assistance of her mother and sister, Carol Lee.

Miss Riley and her mother, Mrs. B. Hill, were presented early in the evening with corsages of tiny pink rosebuds and pink carnations.

Conveners for the occasion were Mrs. Dinner and Mrs. Adshead, assisted by Mrs. Peppard.

STAGE FOLK

The old term "thespians" for actors comes from Thespis, known as the father of Greek tragic drama.

Take entertainment with you wherever you go with the fabulous Emerson PORTABLE TV RADIO

See and hear it now at Gardner Electric Nakusp, B.C.

## Junior Home Nursing Classes Start Next Week

Junior home nursing classes in Nelson will start the second week in October, it was learned at a meeting of the Nelson chapter, Registered Nurses' Association, Tuesday evening.

Senior classes may not start until after the New Year, it was thought, and instruction will be given by chapter members.

Junior classes will hear eight letcures on home nursing and one on civil defence.

Nurses of the chapter will donate good clothing and jewellery to the Essondale apparel shop and plan to collect any donated articles suitable for gift wrapping for mental patients at Christmas. Members hope to have donations left at the Nurses' Residence before the October meeting.

Canada is the only country supplying Koreans with knitted articles, said Miss Flora MacLean, who reported on a Red Cross regional meeting at Cranbrook. She said local Red Cross groups supply materials for knitted articles. Miss MacLean also reported 30 items loaned from the Red Cross loan cupboard since June.

Miss MacLean told members of interesting topics discussed at the Canadian Nurses' Association annual meeting in Ottawa in June, which she attended as representative of West Kootenay Registered Nurses.

The convention, which was opened by Prime Minister John Diefenbaker, was attended by 2400 nurses from the 10 provinces, said Miss MacLean. Many internationally known nursing heads spoke at the conference.

Outstanding resolution passed at the meet was a pension plan for Canadian nurses, to come into effect next year, it is hoped, said the delegate.

Main topic of discussion at Ottawa was a safety program, which stressed the need for more attendance at home nursing classes, in view of the recent accident rate, possible future civil defence needs and general lack of sufficient hospital beds.

## LA STARTS FALL SEASON WITH APPOINTMENTS

CASTLEGAR — Members were appointed to attend various fall affairs at the first season's meeting of the Ladies' Auxiliary to Canadian Legion Branch 170, with Mrs. D. Peppard presiding.

Mrs. Peppard was appointed to attend the September 29 Handicapped Children's Society meet and Mrs. E. A. McDonald to be official delegate to the zone conference in Castlegar October 11 and 12, at which Mrs. E. Dinner will be standard bearer.

Mrs. Bridgett Lamb of Kinnaird was initiated into the auxiliary and committee reports were read. It was learned that 12 hospital visits were undertaken. Mention was made of paint work accomplished in the kitchen by Mrs. Peppard, Mrs. D. Adshead and Mrs. W. Dunn.

A donation of dish towels was received from Mrs. C. Saliken of Thrums, and a jewel case was presented to member Miss Sheryl Riley, who is to be married this month.

Mrs. B. Hill and Mrs. M. Peachey were hostesses for the evening.

## S. Slocan Has New Sunday School Superintendent

SOUTH SLOCAN — Sunday School will open for its first fall session in St. Mathew's Anglican Church Sunday, reports the church bulletin.

The bulletin extends an invitation to all children to attend the Sunday School, which will be conducted by Mrs. M. James, who is replacing Mrs. Harry McDougall as superintendent of the school.

## Robson Notes

ROBSON — Proceeds of a successful coffee party held last week at the home of Dr. and Mrs. W. L. Wright, will be given to the Women's Institute. Serving with the hostess, Mrs. Wright, were, Dr. Wright, Harry Evans, and Eric McPhee.

Mrs. W. T. Waldie motored to Vancouver last week accompanied by her daughter Dawn, who will remain in Vancouver to resume her studies at UBC. Mrs. Waldie returned home Sunday.

Mr. and Mrs. J. Raine, accompanied by their daughter Mildred, spent their vacation at coastal points, returning home Monday. Miss Raine remained in Vancouver, where she has enrolled at UBC.

## Ainsworth Notes

Friends and neighbors presented the former residents, who will live in Shutty Bench, with a combination TV table and magazine rack and Mrs. Taylor with a planter. Mrs. M. J. Baker made the presentation.

Get this "Trusty Crusty" PIE CRUST MAKER

Yours for ONLY 50¢ and one Quaker Flour Guarantee Certificate

- Makes perfect size crust for 9 or 9½ inch pans!
- No rolling pin to wash . . . dough will not stick to rolling pin.
- No pastry cloth necessary!
- Economical! No dough is wasted . . . no mess or fuss.
- Use with all pie dough recipes!
- Speeds baking! No ragged edges to trim . . . no re-rolling of dough necessary!

It's easy to use!

Place your pie dough inside the zippered plastic bag and roll until the dough evenly reaches the edges of the bag. You'll get a perfect pie crust every time!

Send 50¢ and a guarantee certificate from any package of Quaker Flour to The Quaker Oats Company of Canada Limited, Peterborough, Ontario.

## ONTARIO GIRL WRITES TUNES FOR HINDU SONGS

BELLEVILLE, Ont. (CP) — A Canadian girl has written tunes for more than 100 songs in Hindu for youngsters in India.

She is Muriel J. Stephenson of Willowdale, Ont., a Toronto suburb, who has spent five and a half years as a United Church missionary.

She taught music while studying languages at Indore, and wrote tunes which have been distributed to other missionaries in Hindu-speaking areas.

She visited Belleville recently while on leave.

## Guide Commissioner Takes Leave of Absence

ROBSON — District Commissioner Mrs. W. K. Fox has reconsidered her resignation from leadership of Guides and Brownies, it was learned at a recent meeting of the Associaiton at the home of Mrs. R. Bro.

Mrs. Fox will take leave of absence for a time, she said, instead of resigning from the work. She gave a report of the District Guide camp held during a summer weekend at the Salvation Army campsite.

Divisional Commissioner, Mrs. H. F. Hyson, and Mrs. Bro agreed to undertake leadership of the Guide company until other leaders can be found.

Two names were submitted to Mrs. Bro for position of Tawny Owl for Brownies who are without one at present. Mrs. D. A. Duncan, Tawny Owl of the First Robson Pack for the past five years, was presented with a Thank You Badge prior to leaving the district, it was reported.

HOW TO REPRODUCE the lovely free and flowing lines of this new Fall Fashion in a fabric of your own choice is very simple—if you follow the new techniques in dressmaking. It's a short, easy-to-understand story, for Marian Martin Printed Pattern 9358 will guide you every inch of the way. Most important is your ability to retain the shape and to keep the brisk flare of the skirt, even if you use a soft crepe. This is done by using a non-woven Pellon interfacing. There are many weights. For this dress, the lightweight, all-bias Pellon was used. The dress requires about three yards of interfacing for the skirt and about one-half yard of the all-bias interfacing for the neck. Remember, it does not have to be cut on the grain nor will it ravel or shrink. Simply follow the directions and enjoy the smartest dress you have ever made.

Marian Martin Printed Pattern 9358 comes in Misses' Sizes 10, 12, 14, 16, 18. Size 16 takes 4⅛ yards 35-inch fabric.

Send FIFTY CENTS (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Style Number, Size, Name and Address.

Send order to MARIAN MARTIN, care of Nelson Daily News Pattern Department, Nelson, B.C.

## Innards of Women's Books Can Be Deadly to Males

By HUGH MULLIGAN

NEW YORK (AP) — While men dally in barber chairs over male magazine articles on fly tying, rhinoceros hunting and love along the lower Zambeze, their wives are at the beauty parlor digesting the insidious innards of the women's magazines.

The men's periodicals are for escape and relaxation; the women's are deadly serious.

What chance does a full-page picture pullout of Anita Ekberg have against a whole phalanx of morally indignant clergy, psychiatrists and marriage counsellors armed to the teeth with handy hints on how to keep the male animal at bay, bring him to heel and keep him from scratching the furniture?

"Are women behind politically?" "How to talk to husbands." "Faced with infidelity, what can the wise wife do?" "Handling alcoholic husbands." "Can this marriage be saved?" "84 ways to make your marriage more exciting."

MOTHER COMPLEX

These are just a few article titles culled from recent issues of Redbook, Woman's Day, McCall's, Ladies Home Journal and similar arsenals of feminine aggression.

Almost all these articles are written by men, usually doctors of philosophy or better. This is no doubt part of some over-all strategy. It's much more effective, say if hubby persists in spitting on the rug, for her to quote the Mayo brothers or Dr. Benjamin Spock rather than Emily Post or Amy Vanderbilt on the subject of hearthside expectoration.

In "84 ways to make your marriage more exciting," McCall's this month gives the results of a marital brain - storming session presided over by a man, William Pleuthner, a vice - president at Batten, Barton, Durstine and Osborn.

Here, as numbered in the article, are some suggestions for husbands: 1. Kiss the back of your wife's neck once a day. 2. Don't always think you have to keep your chin up. Cry a little—she'll love mothering you. 18. Grow a beard. 19. Leave a party when your wife wants to, within an hour or so.

## Luncheon For Grandmothers Held At South Slocan

SOUTH SLOCAN — A "grandmothers' luncheon" was held at the home of Mrs. J. D. Yeatman honoring Mrs. A. Lees, who has been visiting her daughter, Mrs. D. J. Davis, Sr.

Among those attending were Mrs. M. A. McFadden, Sr., Mrs. J. Stuart, Sr., Mrs. V. Brewster, Sr., Mrs. C. M. Murray and Miss Molly Murray.

Mrs. Lees has since left for Vancouver to spend the winter with her daughter, Miss H. Lees.

# Dulles Speech Alarms Chinese Nationalist

By GENE KRAMER

TAIPEI, Formosa (AP) — A Chinese Nationalist official said Thursday State Secretary Dulles has created misgivings that the United States might compromise Nationalist rights.

Dulles indicated at a press conference in Washington Tuesday the U.S. would be willing to negotiate over the offshore islands if the Chinese Communists would stop shelling the Quemoy group.

President Chiang Kai-shek and other Nationalist leaders have rejected Dulles suggestions that Nationalist forces on the islands be reduced if a cease-fire could be arranged.

**SOME MISGIVINGS**

The responsible Nationalist official, who declined to be identified, said Dulles created misgivings that the U.S. would fail to honor its pledge. Washington *promised, he said, not to prejudice* Nationalist rights at the talks of the U.S. and Red Chinese ambassadors in Warsaw.

The Nationalist foreign ministry declined immediate comment on President Eisenhower's statements at his press conference Wednesday.

Eisenhower agreed with Dulles that Chiang should not have concentrated 100,000 troops on the offshore islands. He implied he backed Dulles on a tighter U.S. control over Chiang's ability to drag the U.S. into war with China.

**CHIANG OPPOSES**

Chiang said in an interview with AP correspondent Spencer Moosa Wednesday that he opposes reducing the offshore garrisons. He implied he would not be bound by any cease-fire negotiated between Washington and Peiping.

The foreign ministry later flatly rejected the Dulles formula and insisted that the large force on Quemoy is necessary to defend the island against the first step of an assault on Formosa.

The Communists bombarded Quemoy with 1073 shells between midnight and noon Thursday the 41st day of their artillery assault on the offshore islands.

**MORE PLANES**

American C-119 Flying Boxcar planes began arriving from Okinawa at a southern Formosa air base for use in dropping supplies to the Quemoys. Six or more are expected to be delivered by the U.S. air force. Nationalist crews must be trained and the U.S. insignia painted over before the planes can replace smaller C-46s on supply drops.

The U.S. also is supplying larger landing ships to bolster the Nationalist convoys to Quemoy.

## Pope Addresses Special Audience

CASTEL GANDOLFO, Italy (AP)—The Pope, apparently fully recovered from a slight loss of voice, held a special audience Thursday and spoke a full 15-imnutes in Latin.

One of the persons in the audience said members of his group were "amazed and surprised" at the pontiff's vivacity.

The informant was one of a group of 100 members of the religious Congregation of the Institute of the Oratory of Saint Filippo Neri, now holding its world congress in Rome.

Vatican sources, as well as Rome's Il Quotidiano, official organ of Italian Catholic action, said the pontiff's brief ailment was a temporary loss of voice due to fatigue.

The fatigue resulted from two months of intensive work during which the 82-year-old head of the Roman Catholic Church held audiences almost daily and addressed more than a score of gatherings.

Wednesday, at his weekly general audience which was so big that it had to be held in two sections to accommodate the some 10,000 pilgrims and tourists, the Pope was advised by doctors not to speak. He limited himseld to giving his blessing.

## Civic Services at Standstill, Windsor

WINDSOR, Ont. (CP) — All Windsor civic services, except for fire and police protection, were at a standstill Thursday as two city workers unions continued their strikes. Members of Local 543 of the office workers, voted Wednesday night to join the public work employees, who walked out Wednesday.

The new strike affects 196 employees at city hall and other civic offices.

Pickets were set up at all entrances to city hall at eight a.m. Thursday and picketers were instructed to note the names of any union members who crossed the line. They were told not to interfere or talk to anyone attempting to enter the building.

## Ontario Advised To Lower Taxes

By PETER SYPNOWICH
Canadian Press Staff Writer

TORONTO (CP)—The Ontario government opened a giant industrial development conference Thursday and was promptly told it should work for lower taxes, adequate tariffs and increased immigration if it wants more industry.

"Neither government policy nor public attitudes now are as favorable as they should be if industrial growth is to continue in Ontario," said Stuart D. Armour of Hamilton, economic adviser to the Steel Company of Canada.

The two-day conference was organized by the province's trade and industry branch with the aim further industrial development. A registration of more than 1,000 municipal officials and industrialists is expected.

**HIGH TAXES HURT**

Mr. Armour said high taxes are hurting Ontario manufacturers. They were financing "socialistic" welfare measures and such projects as the $100,000,000 highway extension program announced by the Ontario government to develop traffic from the United States.

A taxation system was needed which would encourage rather than inhibit capital investment by manufacturing.

As for tariffs, the Ontario government should take the initiative to bring about "a realistic tariff policy geared to the needs of the unique Canadian economy and not framed to suit the doctrinaire notions of some group of economic or political theorists."

**TARIFF PROTECTION**

Without tariffs to offer protection against low-wage European competition, Canadians were in danger of reverting to European standards of living.

Mr. Armour said six American states along Ontario's land and lake border — New York, Michigan, Ohio, Minnesota, Wisconsin and Pennsylvania—have an area three-quarters of Ontario's, but a population eight times as great. Average personal income was $2,142 compared to $1,610 in Ontario.

"While we have been indulging in more and more costly excursions into welfarism and other socialist practices, the states I have named in the main show a greater adherence to free enterprise.

"What we people of Ontario seem to have forgotten, despite our reputation for conservatism and hard - headedness, is that whenever we encourage or permit the state to do something for us, we are imposing another burden on our production."

## Miners Killed In Yugoslav Coal Pit

BELGRADE (Reuters)—An explosion half a mile underground killed 27 coal miners, the Yugoslav government announced Thursday.

The explosion ocurred Wednesday night in a pit in Serbia, near the Bulgarian border. More than 20 miners still were trapped in the mine and an unknown number injured.

A total of 188 miners were in the pit when the explosion occurred, the government announcement said. Of these, 140 were reported safe.

Radio Belgrade said an electric transformer exploded in the Podvis pit in eastern Yugoslavia. Fire swept the gallery, blocking the miners' exit.

**MORE RACIAL VIOLENCE**

LONDON (Reuters) — A Negro and a white man were taken to hospital early today after a stabbing incident in the race-troubled Notting Hill district. The white man was reported to be critically injured.

## Alberta Doctor Not In Favor Of Antibiotics

DETROIT (AP) — A University of Alberta medical research director says giving antibiotics to surgery patients is a waste of money and can increase their susceptibility to serious infection.

Dr. Robert G. Harrison, director of surgical research at U of A, told doctors attending the annual meeting of the Michigan State Medical Society such routine drug administration adds $30 to the average surgery bill.

"Furthermore, the main disadvantage is that the patient may become sensitized to the antibiotic so that it cannot be used later when needed," Dr. Harrison said.

It has been demonstrated in controlled research that just as many patients who are given antibiotics get wound infections as among those who do not have the drugs, he said.

Whether a wound becomes infected depends upon the number of germs that get in, the general condition of the patient and whether the tissues are left healthy or damaged, he added.

## Diefenbaker to Pay Visit to Germany

BONN (AP)—Canadian Prime Minister Diefenbaker will visit West Germany next month, a government spokesman said Thursday.

The Canadian leader is to spend two days in the West German capital and also make an inspection visit to the Canadian Infantry Brigade stationed in Germany.

The spokesman said the detailed program is not yet available but the prime minister is due in Bonn on Nov. 7.

Diplomatic sources said the visit to West Germany would be a sidetrip on a tour of the Commonwealth. He will stop off in Germany on the way from London to Karachi.

The sources said that Diefenbaker also plans a quick informal trip to France to meet Gen. Charles de Gaulle.

It also is expected that he will make a stop at Rome.

## Rear-Admiral Views Royal Navy Subs

HALIFAX (CP)—Rear Admiral Hugh F. Pullen Thursday inspected 280 officers and men of the Royal Navy's 6th Submarine Squadron stationed here.

It was part of activities to commemorate the launching of Britain's first submarine and the founding of the British submarine service 57 years ago.

The 6th squadron of three subs and about 300 men, 20 per cent of them Canadian, is based here to provide Canadian naval ships and aircraft with the means to exercise in anti-submarine warfare.

**TSE HEAD RETIRES**

TORONTO (CP) — The retirement of Arthur J. Trebilcock, president of the Toronto Stock Exchange, was announced today. He joined the Standard Stock and Mining Exchange as counsel in 1927.

# Blame Careless Smoking Habits For Increased Deaths in Fires

OTTAWA (CP)—Careless smoking habits are the chief cause of Canada's rapidly rising death rate from fires, a National Research Council survey showed Thursday.

The survey, presented at a two-day fire research and prevention conference here, also showed that fire deaths among infants cannot be generally attributed to the carelessness of teen-aged or aged babysitters.

A second study, based on the experimental burning of a number of homes abandoned during construction of the St. Lawrence Seaway, showed that a person on the second floor of a dwelling has as little as two minutes to escape after a fire has started.

The two papers highlighted the conference which precedes the formal opening Friday of the National Research Council's new $1,000,000 fire research building. The meetings were attended by federal, provincial and municipal fire-fighting officials and observers from Britain and the United States.

The fire death survey is based on a study of 698 fire deaths in Ontario between 1954 and 1957. However, the general conclusions were applicable to all of Canada.

The study also showed that:

1. Most fires in homes occurred in dwellings where either the walls or ceilings were made of combustible material.

2. The fire death rate is higher in remote areas due mainly to lack of fire fighting equipment.

3. The death rate is highest in winter and during the night.

The study said that of 254 deaths in building fires in Ontario n 1956 and 1957, a total of 53 were caused by bad smoking habits.

The next two main causes of fires were faulty use and maintenance of non-electrical cooking equipment and non - electrical space heating appliances.

During 1956-57 a total of 82 children under seven died in fires in Ontario, 12 of them through clothing fires.

"In 75 cases the child was in the care of parents at the time, and in 54 out of 71 cases the person responsible for the care of the child was in the age range 21-34," the survey said.

"Thus fire deaths of infants cannot be generally attributed to the carelessness of babysitters or to the immaturity or senility of the persons in charge of them."

## France To Grant Togoland Freedom

PARIS (Reuters)—France announced Hhursday she has agreed to grant complete independence to French Togoland in 1960.

The French government has exercised United Nations Trusteeship of the African territory since 1946.

Only two days ago, the French West African territory of Guinea automatically gained independence after voting aginst Premier de Gaulle's new constitution on Sunday.

Premier Sylvanus Olympio of Togoland informed the French government during his recent visit here of his country's wish to become independent at the end of the present trusteeship system.

## Movie Gossip...

### Making Films In Yugoslavia Stimulated Hollywood Star

By BOB THOMAS

HOLLYWOOD (AP)—How are things in Yugoslavia?

The way the movie business is these days, it's not outlandish to ask that question. From Van Heflin you get an answer: "Very friendly."

Van has just returned from Europe, where he toured 13 countries with his wife, three children, nurse and dog. But the most stimulating part of his half-year stay abroad was working on a movie in Yugoslavia.

**MADE IN TWO COUNTRIES**

The movie was Tempest, an epic made jointly by Yugoslavian, Italian and American film companies. The interiors were shot in battle scenes on the plains near Belgrade.

"It was the first time," Van said, "that a major film was made by Western producers behind the Iron Curtain. Yes, I know that War and Peace was supposed to have been shot in Yugoslavia. But the producer, Dino Dilaurentis, also produced our picture and he told me that it wasn't."

The Yugoslav government went all-out to co-operate, he reported, even to supplying 2,500 cavalry troops for a battle of the Catherine the Great era.

"The cost of that battle scene would have been prohibitive in Hollywood," Van said. "You just couldn't find that many trained riders and horses. Nor could you pay them enough for the stunts they took. The 2,500 put on a charge right through exploding charges with horsemen falling in the front ranks so the others had to leap over them.

"In one day alone, 37 men were sent to the hospital."

**USE ARMY MEN**

The horsemen were army regulars and he didn't know what they were being paid. But the extras who played serfs earned just under a dollar a day; not a bad wage in Yugoslavia, Van said.

His other observations: Accommodations were excellent at the Metropole, a hotel in Belgrade. Food was excellent with the accent on steaks, pork and lamb. The cost of whisky was prohibitive, and vodka is unknown.

"But the thing to remember is that Yugoslavia is still Communist, with all that that implies," Van added.

This Saturday Oct. 4th is NEWSPAPER BOY DAY

BOY'S... SIZE 8

There's something heart-warming about a pair of well-worn shoes standing beside a young fellow's bed. Sometimes they symbolize the work and play which makes up his day – his sprint to school, his part in sports, his spare time tasks and social activities. Somehow, too, they foretell the future – predict a useful and successful career for him.

We know of many such pairs of shoes in your town or city... shoes which travel miles each week, step by step, to bring to you and your neighbors a daily package of thrilling news and welcome entertainment. They belong to your newspaper boy.

Later, they will be replaced by a larger and shinier pair of shoes that will carry their owner into the more difficult paths of business, industrial and professional life. But right now, they are only boy's shoes, and their wearer is engaged in his first business venture – a newspaper route of his own.

We're doing everything possible to help him, but he needs your encouragement too! Long after these boyhood shoes are forgotten, you'll be proud to have had a part in fitting a worthy young man for a real success in life.

The Nelson Daily News and all Newspapers across Canada join their customers on this annual occasion to salute the Newspaper Carrier Boy.

# Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

**For Saturday, October 4, 1958**

MARCH 21 to APRIL 20 (Aries) —Your planet Mars is very well aspected. A good opportunity to make gains. But, as you progress, be careful not to override others. Be considerate.

APRIL 21 to MAY 21 (Taurus)—Influences are somewhat mixed, so look beyond the surface. Push ahead and plan activities shrewdly. If honorable and progressive you will win. But do control emotions.

MAY 22 to JUNE 21 (Gemini)—The favorable results which this day can bring are well worth your best efforts. Conscientious work in almost any field will be rewarded, but don't expect spectacular results.

JUNE 22 to JULY 23 (Cancer) — Advance with precision, tact and steadiness. Don't fret at slow-moving projects. A realistic attitude and good management will pay off.

JULY 24 to AUGUST 23 (Leo)—Business and most personal matters can be handled more effectively, efficiently if started and completed before the late p.m. Try not to carry day's work over into evening.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Your innate fine qualities could be very helpful in molding this day's results. Gains hinge on direction and use of good common sense. Industrial work, research, art, the sciences have planetary encouragement.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Especially favored now: handling produce, items of adornment for the individual or home, hotel and confectionery work, dealings in clothing and millinery; also matters connected with higher education.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Business and domestic matters both favored. Under especially good influences: typists, bookkeepers, salespeople, clerks generally. Control emotions to assure clearer, calmer judgment.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Think twice before accepting the advice of others if it is contrary to your instincts. Your intuitive nature is usually ace high. Sound investments favored.

DECEMBER 22 to JANUARY 20 (Capricorn) — A period for daring and for pioneering, for new advances in scientific and creative work. Make use of fine planetary aspects to advance in your trade or profession. Improve your skills and learning.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Especially favored now: Engineering, study, architecture, the successful conclusion of well-planned projects. It's up to you.

FEBRUARY 20 to MARCH 20 (Pisces) — Determine objectives, whether business or recreational, then cooperate with friends and loved ones to attain maximum enjoyment for all. Day need not be hectic; it can be tranquil, yet profitable.

YOU BORN TODAY always look at things from both practical and artistic standpoints. You cheer other people's efforts; are willing to work hard and long to achieve your objectives. You make efficient secretaries, able nurses, guardians, conscientious industrial workers. Don't let little things "get on your nerves." Your intuition and perception are excellent, but you must also listen to others, and take time in making judgments. You thrive under harmony, could do well in music, the theatre.

Birthdate of: Rutherford B. Hayes, 19th U.S. president.

## Warns GRA On Heavier Taxes

MONTREAL (CP) — A federal government statistics expert Thursday told the Canadian Good Roads Association expenditures for roads must be considered with great care to avoid heavier taxation or reduced services at various government levels.

G A. Wagdin, director of the public finance and transportation division of the Dominion Bureau of Statistics, said the consequences of demands for road improvements should not be underestimated. He was addressing the association's annual meeting.

Text of his address was released to the press in advance of delivery.

He said: "How to raise the money necessary to build the miles of top quality roads needed today poses difficulties that continue to demand the best in fiscal management."

Direct taxation on road users did not meet road coasts. In 1955, direct levies on road users, for example, represented only 74 per cent of total expnditures on roads by the federal and provincial and municipal governments.

## Buenos Aires' Pickpockets Getting Busy

BUENOS AIRES (AP) — Now that spring has arrived here, Buenos Aires' busiest seasonal workers, the pickpockets, have come out of hibernation.

All Argentines faithfully maintain that the large number of pickpockets in Buenos Aires come from Chile. The police blotters invariably list Chileno as the nationality. However, in Chile the pickpockets are said to be all Argentines. A local wag explains this circumstance as a reciprocal trade agreement.

When Alberto Gainza Paz, editor of La Prensa, returned to Buenos Aires after years of exile he got a big welcome at the airport. Thousands cheered. And his pocket was picked.

Jazzman Louis Armstrong played to standing room only in an appearance here this year. The dips missed Louis but sneaked out the wallets of several members of his band.

Spring is an especially good time for the pickpockets because overcoats which hamper successful dipping have come off and the citizens after the long winter have relaxed their guard.

The most adept pickpockets operate in pairs. They usually work the city's overcrowded subways and buses or wherever a big crowd gathers. One bumps the victim while the other lifts his wallet.

## Famous Woman Doctor Dies

LONDON (AP) — Dr. Marie Stopes, 78, who became famous as author of the outspoken sex book Married Love, died Thursday.

She was the widow of A. V. Roe, one of Britain's pioneer airplane makers, who died in 1949. She used her maiden name in her career.

Married Love created a sensation when published in 1918. She later became a prominent advocate of birth control. Her writings on this subject included Radiant Motherhood.

Survivors include a son, Harry Berdon Stopes-Roe.

## Bevan Promises to Quit Tests If Labor Returned to Power

SCARBOROUGH, Eng. (CP)—Aneurin Bevan said Thursday Britain will quit testing nuclear weapons, "whatever the consequences," if the Labor party returns to power.

But Bevan, the party's spokesman on foreign affairs, sidestepped committing any future Labor government to giving up the making of nuclear weapons.

He opened debate on foreign policy at the annual conference of the party against a background of controversy that has divided its membership.

One faction urges Britain to renounce her rights to manufacture nuclear weapons without waiting for an international agreement.

Bevan told the conference:

"It is absolutely impossible for us, with the knowledge we possess as an opposition to say anything about any kind of weapon.

"We are not pledging ourselves to make it, and we are not pledging ourselves not to make it.

"We must leave ourselves room for manoeuvre."

**CRITICIZES DULLES**

Bevan criticized both U.S. State Secretary Dulles and Foreign Secretary Selwyn Lloyd for the way they have conducted Western relationships with the Communist world.

In attacking the American secretary, Bevan said:

"We in the Labor party always have opposed the tendency to divide the world into God's nations and devil nations.

"That is why we resent the language used by Foster Dulles—it is the language of religious bigotry and the language of ruination."

The socialist leader asserted that the British foreign secretary has a record of "unparalleled failure" in the conduct of the nation's diplomacy.

The 1,200 delegates gave Bevan a tremendous ovation.

**REAFFIRMS SOCIALISM**

The section of zealots that formerly recognized the 60-year-old party treasurer as its leader applauded him Wednesday night as he reaffirmed his Socialist principles and rejected compromises designed solely to win elections.

Nuclear disarmament is the only aspect of Labor's foreign policy likely to provoke controversy in the debate. The conference already has demonstrated enthusiasm for a resolution moved by party leader Hugh withdrawal of Nationalist Chinese troops from Quemoy, and general agreement is expected on other measures.

## Driver Not Charged In Tot's Death

TORONTO (CP) — Four-year-old Dennis Shulko, who came here a month ago from Edmonton was killed Wednesday when struck by a car as he bent down to pick up a toy airplane that fell on the street in front of his home in suburban New Toronto.

His sister, Shirley, 13, warned the boy not to step on the street when she saw the toy drop, but said Dennis told her "I can make it."

Mrs. Jean Shulko and her children, Ken, 20, Lillian, 19, and Shirley, would have celebrated Dennis' fifth birthday with him Saturday. The father died two years ago and the family came here together.

Driver of the car, William Fraser, 33, of suburban Etobicoke, said there was no chance to avoid the boy. He was not charged.

Dennis died en route to hospital.

## Wholesale Price Index Drops

OTTAWA (CP) — The general wholesale price index dipped by one-fifth of point in August to 226.8 from 227, marking the third consecutive monthly decline in the price yardstick.

The index, based on 1935-39 prices equalling 100, showed declines in August for furs, poultry, fresh meats and livestock, raw cotton, raw wool as well as raw sugar, linseed oil, cottonseed oil, hogs and steers, the bureau of statistics reported Thursday.

These offset rises for eggs, hides, skins, leather, copper, fir, cedar, sisal, fir timber and beef hides.

**STEAL $10,000 IN PENS**

TORONTO (CP) — Thieves broke into the Parker Pen Company plant in suburban Don Mills Wednesday night and took $10,000 worth of pens. Police said they cut their way in through a brick wall and cleaned off an assembly line of ball point pens.

## Chase Bank Denies Offer to Gordon

NEW YORK (CP)—An official of the Chase Manhattan Bank Thursday described as "sheer fantasy" a report Donald Gordon, president of Canadian National Railways, had been offered the job of bank president.

The rumor, attributed to a government source in Ottawa, was "the most I've heard of it," Gordon said in Redditt, Ont., Wednesday.

## Princess Has Narrow Escape

BRUGES, Belgium (AP) — Princess Margaret was nearly knocked down by an auto while sightseeing in Bruges Thursday.

The princess, wearing a lilac blue tweed suit and black shoes and carrying a silk headscarf in her hand, was walking through the cobbled streets of this picturesque city.

The auto, a sky-blue Fiat, pulled up just in time and the princess suffered only a brief fright.

Martha Sels of Antwerp, who was driving the Fiat, said afterwards:

"I'm sorry it all happened and I wish someone will convey my sincere apologies to the princess."

# Movie Gossip . . .

## Hollywood Believes There's Life In Movie Business Yet

By BOB THOMAS

HOLLYWOOD (AP) — Notes and comment on the Hollywood scene. . .

You'd never know there was a movie depression. Every studio in town has at least one picture shooting, and that's not bad these days.

Universal-International is stirring back to life after a long slumber. Even the so - called beached whale — MGM — is in the swim again with pictures starring Cary Grant, Frank Sinatra, Deborah Kerr, Rossano Brazzi, Audrey Hepburn, Tony Perkins and Debbie Reynolds.

**STILL KICKING**

The consensus around town: There's life in the movie business yet . . .

Meanwhile, back in the swamps . . . Bill Holden can just see it coming. Pending court approval, he'll play in The Horse Soldiers with John Wayne, John Ford directing. It is a Civil War saga and will be shot largely on location in the South.

"I can just see Jack Ford telling me to get into the swamp and start sloshing," Bill sighed. "I haven't worn a business suit or worked in a Hollywood studio for three years. I left just as the five-day week went into effect."

So he's been working six and seven days a week on locations all over the world, and making millions . . .

**DEAN MARTIN BUSY**

Hard - working Dean Martin —yes, you read that right — has only five pictures lined up for himself. They include Who was that lady I saw you with? with Tony Curtis, Oceans 11, with Frank Sinatra and The Bells are Ringing with Judy Holliday.

Sinatra's new album, only the Lonely, indicates there must be a lot of torch-bearers in the land. It may be his biggest seller to date . . . Nice to see Richard Long doing well again. He had some rough times after the death of his wife, Suzan Ball. Now he and Mara Corday are happy with their new baby and he's getting some good roles. He just finished a movie, The House on Haunted Hill. . .

# Moscow Radio Pooh-Poohs U.S. Proposals

LONDON (AP) — Moscow Radio said Wednesday night there is nothing new in the latest United States proposals for a Far East settlement.

The broadcast asserted it was "putting the cart before the horse" to say the Chinese Communists must stop blockading the offshore islands before any promise of a Nationalist withdrawal.

Commenting on State Secretary Dulles' Tuesday press conference, Moscow added:

"Of course, Mr. Dulles was more softspoken than usual. He seemed to be trying to create the impression that his policy is bringing about a relaxation of tensions, but actually nothing of the sort is taking place."

U.S. leaders, the broadcast went on, "have been compelled to attempt to rehabilitate themselves before world public opinion and in the eyes of their own people."

The Soviet government newspaper Izvestia, the raido said, accused UN Secretary-General Dag Hammarskjold of bowing to the "pressure of American diplomacy" in his report this week on the Middle East.

# Blame Calculation Errors For Narrows Bridge Crash

VANCOUVER (CP) — Four engineers said Wednesday two errors in calculations caused collapse of the partly-completed Second Narrows bridge which killed 18 workmen.

The mistakes were suggested in a report submitted to the Royal Commission investigating the disaster. The engineers are Ralph Freeman and J. R. H. Otter, both of London, England, and F. M. Masters and J. R. Giese of Harrisburg, Penn.

The two outermost spans of the north side of the bridge over Burrard Inlet fell June 17. When the first span collapsed it pulled the concrete base at the inner end out of place, causing the second span to tumble. The Dominion Bridge Company is handling the beam work.

In addition to the 18 killed in the collapse, a skin diver was drowned while searching for bodies two days later.

Mr. Freeman said the errors lay in a group of stringer beams laid across pilings to act as a base for steel legs temporarily supporting the spans. He said one miscalculation resulted in the shear stress appearing to be only half as much as it should have been.

The second was made in a check on the need for web stiffeners, pieces of metal inserted at intervals along the length of I-beams to counteract buckling.

**WRONG THICKNESS**

Mr. Freeman said this calculation was based on the one-inch thickness of the beam flanges, instead of the .653-inch thickness of the centre webs.

He said if this calculation had been made properly, attention would have been called to the high general stressing of these beams. The stiffeners "would then have been provided and the accident would not have occurred."

The inquiry was to resume Thursday with a visit to the grillage work blamed for the disaster.

# Irish Play Rocks Toronto Audience

TORONTO (CP) — Toronto's newest theatre rocked to five curtain calls Wednesday night for the world premiere of Irish playwright Sean O'Casey's Cock - A - Doodle Dandy.

The Playhouse, which has not housed live shows since the 1920s, aims to bring New York theatre to Toronto and to encourage Canadian writers and actors. O'Casey's play, the theatre's first, is to go to New York in about a month.

# Gas Stations Complain of Price Cutters

TORONTO (CP) — The federal justice department got a request Wednesday for a price-fixing investigation from the people who retail the product—gasoline.

The appeal emerged from the annual convention of the Ontario Service Association—the gas station owners — which complains that unbranded dealers have been getting surplus stocks unloaded by the oil companies at lower wholesale prices.

The justice department said it had already received complaints about gas-price wars in the Toronto and Hamilton districts.

T. D. McDonald, the department's investigations director, is reported to have told the 700 operators at a private meeting Wednesday the complaints are being investigated.

The association wants greater independence from the oil companies. United States Congressman James Roosevelt, a California Democrat who spoke to the meeting, said the time has come when the oil companies must choose between Independent dealers and company-operated service stations.

# First Wounded Canadian Returns From Lebanon

MONTREAL (CP)—Sgt. Ralph Hall, first Canadian soldier to be wounded with the United Nations peace observer team in Lebanon, arrived here Thursday.

He is to spend "two or three days," in army hospital here before heading for his home at Virden, Man. He is to receive further treatment in Winnipeg.

Sgt. Hall, a veteran of service in Europe and Korea, suffered wounds to the head and abdomen while driving near Beirut airport Aug. 26.

"We were carrying mail to the group headquarters when suddenly bullets started flying all around us," said Sgt. Hall, 26, a member of the Postal Corps.

"We were going around a sort of traffic circle around a hill. On one side everything was quiet. As we drove to the other side we ran right into a fire fight."

**DOESN'T KNOW**

"I still don't know what hit me. I was told it was snipers' bullets, but it felt like shrapnel. It could have been a grenade.

"Despite the fact we were in an all-white UN Land Rover, we got hit. We got out of there fast, but not fast enough, I guess."

Four other men in the vehicle were unhurt.

"I wasn't what you call good duty," Sgt. Hall continued. "We had about six weeks in Lebanon and the rest of the time we spent in the Gaza district and in Egypt. The desert was terrible.

"The worst part of it all is that I was almost due to come home anyway. I was set for rotation Nov. 25. That would have been the end of my year's tour."

# Man Risks Life To Prevent War

NAIROBI, Kenya (Reuters)—Bill Griffin, a police signals officer, stepped between the spears of warring tribesmen in the Olenguruone region of southern Kenya and prevented a tribal war.

Police reports reaching here on Thursday said a party of Masai tribesmen armed with spears and knives crossed the Amala River looking for cattle in a nearby settlement of the Wanderobo tribe. Armed Wanderobo tribesmen surrounded the Masai.

Griffin—the only white police in the area—arrived as the first blows were being struck. He stepped between the spears of the opposing tribesmen and called on the Masai to retreat.

When they hesitated, he seized a rifle from a tribal policeman and fired shots in the air. The Masai retreated and a clash was averted.

# Rustlers Find 11 Holsteins Too Much

HAMILTON (CP) — Rustlers who herded 11 Holstein cows almost 10 miles Tuesday apparently abandoned their project when dawn caught them short of their destination, Chief Constable Doug Mitchell of Ancaster township said Wednesday night.

The cattle were stolen from a pasture rented by farmer Wilhelm De Boer of Alberton. They were found grazing in a patch of bush in Onondaga township by Mr. De Boer and his two sons early Wednesday. The cows were valued at $3,000.

Chief Constable Mitchell said the herd could not possibly have broken out of the pasture or have wandered so far. He said the cattle were probably driven along back roads and abandoned when dawn caught the rustlers short of their destination. At first it was thought the cattle were moved by truck.

Mr. De Boer said a Hamilton fortune teller named Madame Mojelski pinpointed the location of the stolen herd. He said the rustlers probably intended to return to the gully later and take away the herd in trucks.

## Strikes and Spares

In this week of bowling, George Lane of Headpin 5 in the Men's Commercial League bowled 628 and 782 to capture the high single and aggregate while Lena Koehle of Hume Hotel in the Mixed Commercial League was second with 277 and 750.

Team high single in the Men's Commercial League went to Finning Tractor for their 1028 while the team high aggregate was copped by B&L with 2922.

In the senior women's league Mart Paterson of Billie's rolled 275 to grab the high single while high aggregate of 649 was trundled by Lena Koehle of Lena's. Lena's also captured the team high single as well as aggregate with 989 and 2624.

Chuck Symonds of Lucky Strikes split the pins to receive the high single and aggregate of 205 and 513 in the 10 pin League. In the same league team high single and aggregate went to the Four Lads for their 829 and 2393.

Doris Holliday of Five Flukes in the Variety Club scored 253 and 659 to get the high single and aggregate and Sputniks had 823 and 2282 for the team high single and aggregate.

High single of 245 was rolled by Dot Weech of the Mix-Ups in the Junior Ladies' League but high aggregate went to Marg Smith of Corner Pins with a 553. Dot Weech's Mix-Ups captured the team high single and aggregate for their 783 and 2246.

Mixed Commercial League play saw one team capture all the honors. That team was the Hume Hotel which captured the team high single and aggregate of 1324 and 3426 while Fred Koehle bowled 309 for the high single; high aggregate went to Bruce Malcolm for his 789.

In the Friday Mixed League Lorraine May of Hot Shots carded a 241 and 625 for the women's high single and aggregate while the men's was captured by Garry Rosling of North Shore Five for his 265 and 677. Hot Shots grabbed the team high single and aggregate with a 1048 and 2905.

## Intermediate League Plans Season

CRANBROOK — In preparation for the November 29 opening of the intermediate Alberta-B. C.-Montana Hockey League team representatives have met here to rough out the 1958-59 season plans.

Certain entries are Coleman Grands who won the ABCM playoff championship and the Alberta Senior B championship last season, the Cranbrook Selkirks, Fernie Rangers and Great Falls Americans. Taber, Alta., sent representatives and are seriously considering an entry. The League will accept entries until Oct. 10. Both Kimberley and Rossland failed to respond to invitations to consider entry.

Financially the league operated at a slight loss in the 1957-58 season. Individual teams reported fairly wholesome financial situations in their own balance sheets. The League decided to eliminate the $200 subsidy by Great Falls to each other team in the league playing two games at Great Falls to assist in travelling costs. This was put into effect two years ago when the Americans entered the League.

Ron Colleaux of Fernie was elected league president and will name the secretary and statisticians.

Cranbrook Selkirks have chosen Jim Allen their president, Hamie Patton vice-president, Keith DeArmond secretary, Don Larsen treasurer John Gierl team manager, Bill Moselle coach, and Bill Sechewsky public relations officer. They expect to have try-outs and practices starting the third week in October and some standout exhibition games before the League opens.

# Braves Drub Yanks for 2 in Row

## Burdette Takes 4th Straight Series Game

By JACK HAND

MILWAUKEE (AP) — Lew Burdette won his fourth straight world series game Thursday, hitting a three-run homer during a record seven-run first-inning Milwaukee spree as the Braves made it two in a row in a 13-5 romp over New York Yankees.

The hero of last year's series saw his 24-inning scoreless streak snapped in a jittery first inning. But 42 minutes later, when the Braves finally were retired in their first time at bat, he didn't have a care in the world. The Braves wound up with 15 hits and the Yanks had only seven.

Not since the 1921 New York Giants scored eight times in the seventh inning of a series game had the Yankees squirmed in such misery as they did in that long first frame. First Bob Turley, their 21-game winning ace, and then Duke Maas felt the power of the world champions' bats before Johnny Kucks finally ended it.

**LAST-DITCH RALLY**

After that it was strictly a matter of going through the motions until the ninth when a Yankee rally against a tiring picther netted three runs. Mickey Mantle had hit a long home run over the centrefield fence in the fourth but Burdette was rolling along with a steadily-mounting lead.

Hank Bauer's leadoff homer in the ninth, a single by Gil McDougald and Mantle's 11th series home run over the leftfield fence brought action in the Milwaukee bullpen. Mantle's homer, incidentally, put him in second place for series homers behind Babe Ruth's total of 15.

After Norm Siebern also singled, Burdette steadied again and retired the last three batters to make it safely home with this most-important victory.

**FOUR-GAME RECORD**

Burdette, the three-time winner in last year's Milwaukee triumph, was the first pitcher to win four in a row from the same club since Lefty Gomez of the Yanks turned the trick against the New York Giants in 1936-37 with the help of Johnny Murphy in one game.

The Braves routed Turley before he could retire more than one man. Billy Bruton's leadoff homer on a 3-2 pitch set the pace. Line drives were being drilled to all corners. It looked like batting practice.

When the final totals were in it was discovered the Yankees had taken their worst beating in many a moon. The Dodgers thumped them 13-8 in 1956 when the Yanks lost the first two and bounced back to win. The 1921 Giants also bombed them 13-5 in 1921.

That seven-run inning was the biggest first inning splurge in series history. Every one of the five Yankee pitchers took a heavy battering. Johnny Kucks and 42-year-old Murry Dickson escaped with the least damage but they, too, were groggy when they left.

**LEW IN TROUBLE**

At the start the crowd of 46,367 got a scare when Burdette was struggling in a deep hole with the bases loaded and nobody out in the first inning. A single by Bauer, who now has hit safely in 16 series games, a wild throw by Eddie Mathews and an intentional pass to Mantle had loaded them up. When Elston Howard forced Mantle at second, Bauer came home with the run that broke Lew's shutout streak.

Bauer had been the last Yankee to score against Burdette in the third inning of last year's second game. He followed with six shutout innings and then blanked New York 1-0 and 5-0.

Yogi Berra got Burdette off the hook by bouncing into a double play that ended the first inning. Then the Braves went to work.

Bruton, whose 10th-inning single won the opener 4-3, lashed a 375-foot homer into the rightfield bleachers. Red Schoendienst bounced a double past Bauer.

Turley managed to blow a third strike past Eddie Mathews. That was the first and last man he was to retire. Hank Aaron worked him for a walk, watching slow-breaking stuff miss the plate, and Wes Covington singled to centre, driving home Schoendienst.

**BRINGS MAAS IN**

Out of the dugout came manager Casey Stengel. He waved to the bullpen where Maas had been warming up. The Duke got Frank Torre on a fly to left but walked Del Crandall on a 3-2 pitch, loading the bases. Then Johnny Logan singled sharply to left, knocking in both Aaron and Covington for a 4-1 lead.

Burdette, who fancies himself quite a hitter, strolled to the plate for a look at the stuff Maas was throwing. He waited for one pitch, a strike, and then swung. The ball sailed over the leftfield barrier at about the 355-foot mark. All of a sudden it was 7-1.

The statisticians, digging deep into the record books, discovered it was the first homer by a pitcher since Bucky Walters of Cincinnati in 1940, and the fifth in all series competition. However, Burdette had hit three in the regular season and Maas should have known better.

**JUST ROUTINE**

The rest of the game was purely incidental. Mantle got his two homers and Bauer got one.

Kucks, who finally got Milwaukee out in the first, yielded a run in the second on Mathews' double, his first series hit, and Covington's single.

All was quiet in the Braves' camp until the seventh when they suddenly realized that an old man, Dickson, was doing the chucking. Singles by Aaron, Covington and Torre and a sacrifice fly by Crandall added two more runs.

They teed off on Zack Monroe in the eighth. A walk to Bruton, who had three hits, Schoendienst's second double, singles by Mathews and Aaron and a sacrifice fly by Andy Pafko were good for the Braves' final three runs.

Howard bumped his left knee trying to grab Burdette's home run in the first inning. After a trip to the dugout for repairs, it was decided to replace him with Norm Siebern.

There will be an open date today. Both clubs flew to New York immediately after the game. The series will be renewed Saturday at Yankee Stadium.

Don Larsen, the perfect game pitcher of the 1956 series, will pitch for the Yanks in the third game. Handicapped by a sore right elbow, Larsen returned to duty in late September. The 29-year-old right-hander finished with a 9-6 season record.

Manager Fred Haney said he would not announce his third-game pitcher until after today's workout. The best guess was Carlton Willey, a 27-year-old rookie who compiled a 9-7 record after his recall from Wichita in mid-May. Veteran Bob Rush (10-6) also was a possibility.

## Series Facts and Figures

By The Associated Press

Second Game:

Third game—Saturday, Oct. 4 at Yankee Stadium.

## FIELDER ADDS STRENGTH TO FEEBLE TOTEMS

SEATTLE (CP) — The presence of high-scoring Guyle Fielder at the Seattle fall training camp has calmed the jumpy nerves of coach Keith Allen, but he admits "we still need a couple of guys for our totem pole."

The Seattle Totems, a new name for an old club under new ownership, in the Western Hockey League, possesses all the elements of a darkhorse.

A weak third-place finisher in the Coast Division last year, the Totems of 1958-59 appear slightly stronger on defence, with the addition of Jim Hay and Frank Arnett. Holdover are Gordy Sinclair, an all-star two straight seasons, Lionel Repka, veteran Bill Davidson and Les Hunt, the hard-hitting youngster who found himself last season after a disappointingly slow start.

The Totems' goaltender, Billy Tibbs, will be making his second attempt to crack the WHL, having been beaten out of a job in New Westminster last season by Bev Bentley.

**FIERCE ANIMAL**

A full-grown Asian tiger may weigh as much as 500 pounds.

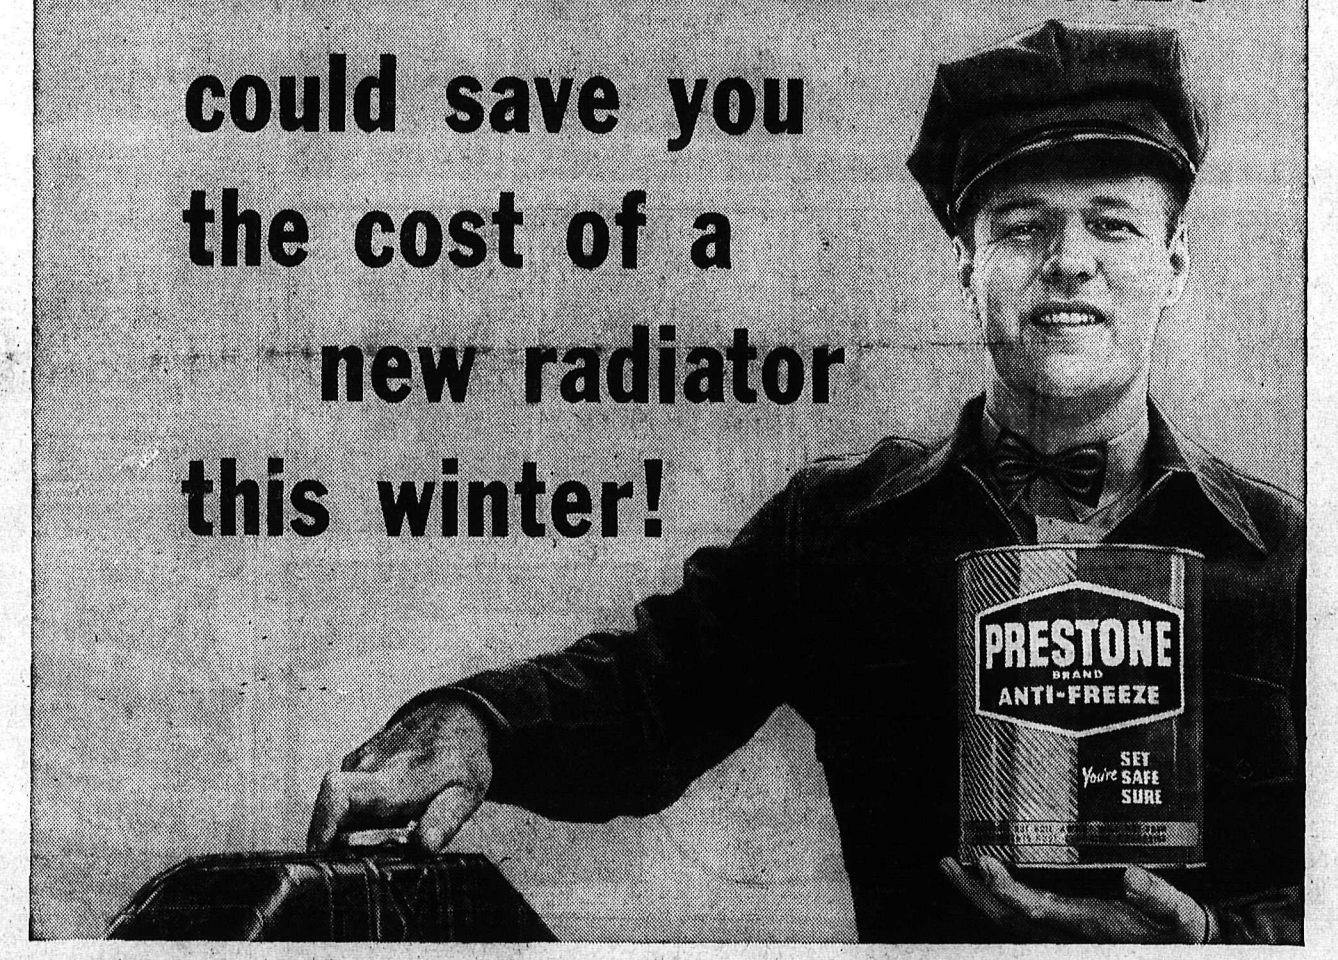
Magnetic film—exclusive to "Prestone" Brand Anti-Freeze—could save you the cost of a new radiator this winter!



STOPS RUST AND CORROSION—ENEMIES AS COSTLY AS FROST!

Only "Prestone" Anti-Freeze gives your car's cooling system freeze-up protection *plus* positive protection from rust and corrosion. Because only "Prestone" Brand Anti-Freeze contains magnetic film.

Magnetic film works by coating every metal surface throughout the entire cooling system. As a microscopic but tough and tenacious film it seals these surfaces away from rusting or corrosive elements . . . gives your car the positive protection it needs.

"Prestone" Anti-Freeze also contains an anti-foaming agent—guarantee that there will be no loss from foaming. Nor will "Prestone" Anti-Freeze ever clog your radiator.

Check the protection that "Prestone" Anti-Freeze offers. Protection from freeze-up—from rust—from corrosion—from foaming—from clogging. This is *complete* protection! And it's yours only when you insist on "Prestone" Brand Anti-Freeze.

"Prestone", "Eveready", and the Union Carbide Symbol are trade marks.

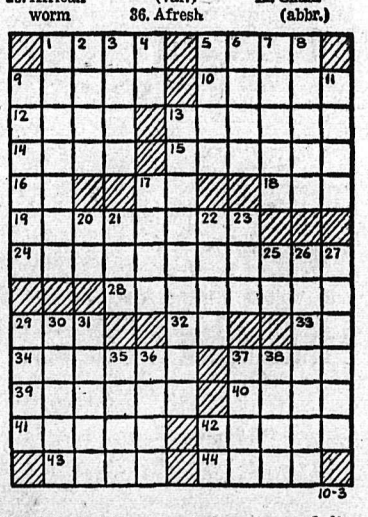
Yesterday's Answer



**DAILY CRYPTOQUOTE — Here's how to work it:**

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

BRU NIS OLFF ORL ATDNRTLK BRTNR ORL MLZC MTZOHUHD VU? —ORINWLZIC.

Yesterday's Cryptoquote: NATURE IS A MUTABLE CLOUD, WHICH IS ALWAYS AND NEVER THE SAME—EMERSON.

(© 1958, King Features Syndicate, Inc.)

### PUBLIC NOTICES

NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF CHARLES WILLIAM WATSON, DECEASED

TAKE NOTICE that Letters Probate to the above Estate have been granted to Annie L. E. Thompson, and all persons having claims against the said Estate are required to file the same, duly verified on oath, care of Messrs. Boyle, Aikins, O'Brian and Company, 208 Main Street, Penticton, B.C., solicitors for the Executrix, before the 31st day of October, A.D. 1958.

AND FURTHER TAKE NOTICE that after that date, the Estate will be distributed having regard only to claims of which the Executrix has notice.

DATED THIS 28th day of September, A.D. 1958.

BOYLE, AIKINS, O'BRIAN & COMPANY, 208 Main Street, P.O. Box 129, PENTICTON, B.C.

AUCTION OF TIMBER SALE
X-77801

There will be offered for sale at public auction, at 11:00 a.m. Local Time, on October 20, 1958, in the office of the Forest Ranger, Edgewood, B.C., the Licence X-77801, to cut 1,126,000 cubic feet of fir, spruce, balsam, lodgepole pine, larch, hemlock trees and trees of other species, on an area situated on part Lots 4112, 4113 and vacant Crown Land, Upper Kettle River, Osoyoos Division Yale Land District.

Seven (7) years will be allowed for removal of timber.

Provided anyone unable to attend the auction in person may submit a sealed tender, to be opened at the hour of auction and treated as one bid.

Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B.C.; the District Forester, Nelson, B.C.; or the Forest Ranger, Edgewood, B.C.

NOTICE TO CREDITORS
EARL STEVENS, DECEASED

NOTICE IS HEREBY GIVEN that all persons having claims against Earl Stevens, deceased, late of Howser, B.C., who died thereat on the 9th day of August, 1958, are required to file particulars thereof with the undersigned solicitors for the executor or before the 1st day of November, 1958, after which date the executor will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims which shall then have been filed as above required.

DATED at Nelson, B.C., this 25th day of September, 1958.

GARLAND, GANSNER AND ARLIDGE,

# Dulles Sends Message To Chiang Kai-shek

WASHINGTON (AP) — State Secretary Dulles has sent President Chiang Kai-shek a message designed to assure him the United States is standing by its basic policies on Formosa and Nationalist China.

The message represents a move by Dulles to bridge the split that developed from statements Dulles made at a press conference Tuesday. His statements were interpreted as meaning the United States has prepared to bargain with Red China on the future status or at least the military use of the Nationalist-held islands of Quemoy and Matsu.

Chiang replied Wednesday he found Dulles' statements "completely incompatible" with Nationalist China's determination to defend Quemoy and Matsu.

While the Dulles message to Chiang was secret, officials stressed these points:

In his press conference, Dulles said there must be a dependable cease-fire before the U.S. would want a reduction of Nationalist forces on Quemoy. So far the Reds have rejected the whole idea of a cease-fire.

Dulles left unchanged the U.S. pledge not to bargain with the Reds over any concession involving Nationalist Chinese rights. Specifically, he avoided any comment that would change the U.S. stand for leaving the legal title to Quemoy and Matsu in Nationalist control even if the defences were modified.

## SAANICH SCORES SECOND RECORD BUILDING COUNT

VICTORIA (CP) — Saanich has marked up its second biggest building month in a record breaking year.

The municipality issued 135 building permits for construction valued at $979,270 last month, including 80 permits for dwellings worth $934,200. Ninety dwelling permits were issued in the record breaking month earlier in this year.

## Pearson Apologizes To Diefenbaker

RED DEER, Alta. (CP) — Liberal Leader Lester Pearson apologized Wednesday night for tagging Prime Minister Diefenbaker a phoney. Any such statement was due to "a little over-Liberal excitement."

He spoke to a rally audience about statements made Tuesday night in Calgary.

"In the excitement of the discussion, I am told, I called the Bill of Rights a phoney. Probably I did.

"But am also told I called Mr. Diefenbaker a phoney. If I said that, I had no right to say it. The reference to Mr. Diefenbaker as being phoney was a stupid statement and can be put down to a little over-Liberal excitement."

# House Curfew On Nicosia

NICOSIA, Cyprus (Reuters) — Authorities clamped a tight house curfew on Nicosia Thursday after Greek-Cypriot students demonstrated against Britain's new politiccal plan for the island.

Trouble flared for the second straight day over the seven-year partnership plan which went into effect Wednesday.

The plan started with a general strike by Greek Cypriots which paralyzed the island. Troops clashed in gunfights with terrorists. Bobs were hurled at army trucks and police broke up demonstrations with tear gas.

Most Greek Cypriots oppose the plan, under which Britain, Greece and Turkey would share administration of hte island for seven years. A government adviser appointed by Turkey took up his post here Wednesday.

**SHOUT SLOGANS**

Thursday a long procession of school children with Greek flags walked through Nicosia streets shouting anti-British slogans and support of exiled Greek Cypriot leader Archbishop Makarios and the EOKA terrorist organization.

Then authorities slapped on the curfew as air raid warning sirens sounded throughout the city. Officials said it was done so that any demonstrations would be "nipped in the bud."

# Congressman Deplores Anti-Dumping Laws

OTTAWA (CP) — A visiting United States congressman Thursday expressed regret over Canada's new anti-dumping legislation that permits an upgrading of import valuations for tariff purposes.

"This sort of action breeds action on both sides," Representative Frank Coffin, Maine Democrat, said at a press conference here.

"We're trying our best to solve our problems by action in the opposite direction."

Mr Coffin and Representative Brooks Hays, Arkansas Democrat, are visiting Canada as part of a continuing study of Canada-United States relations by the foreign affairs committee of the U.S. House of Representatives. They were co-authors of a preliminary report on the subject issued last May.

The report in May dealt mainly with Canadian grievances against U.S. policy. The congressmen were asked whether there are some problems Canada itself should correct.

"We prefer not to lecture Canadians," Mr. Coffin said.

**MAY POINT OUT**

But he added that a subsequent report may point out some of the problems the United States has. "I think we have to strike a balance."

Mr. Hays said their current visit to Canada—a follow-up to visits last December and January—is aimed at seeing what problems require priority treatment.

"Canada is so essential to our well-being and survival that we're trying to relieve every strain."

The committee already had achieved one of its purposes: To achieve an awareness of the problems in the U.S. Congress and people.

Another advance had been the decision to set up a parliamentary-congressional committee of legislators from both countries to study problems of the two countries.

**LATIN INTEREST**

Mr. Hays said that in the past there has been far more congressional interest in Latin-American affairs than in Canadian ones, although Canada bought 10 times more from the U.S. than did Latin - American countries. One sub-committee of the House foreign affairs committee was devoted to Latin-American affairs, while Canadian affairs were dealt with in the European sub-committee.

Under questioning by U.S. correspondents here, Mr. Coffin agreed the committee's preliminary report last May erred in saying that only two U.S. newspapers, the New York Times and Chicago Tribune, have permanent american representation in Canada.

But he said one main source of irritation among Canadians is the small amount of Canadian news published in the United States.

## $10,000 Trust Fund For Campanella's Youngest Children

NEW YORK (AP) — A $10,000 trust fund was given to injured baseball star Roy Campanella Tuesday night for the education of his three youngest children.

The gift from a Boston underwriting firm was presented to the long-time Brooklyn Dodger catcher on the This Is Your Life television program.

"This is wonderful," said Campanella. "It takes a great load off my mind about the kids' future."

Campanella was hurt in an automobile accident this year and now is partially paralyzed.

# Shipping Dispute Breaks Down

NEW YORK (AP)—Talks have broken off between striking union deck officers and ship operators in a dispute affecting passenger and dry cargo vessels in ports from New England to the Gulf coast.

Contract negotiations recessed indefinitely Wednesday in the dispute involving 20 steamship firms and the Masters, Mates and Pilots Union. There was no indication when they would be resumed.

About 40 ships already have been made idle by the walkout. The number could grow to 300 should the strike be a long one. The old contract between the union and the employer group, the American Merchant Marine Institute, expired at midnight Tuesday. The union announced a strike an hour later.

The disagreements are over vacation, pension and welfare benefits. Wages are not involved.

**WEST COAST UNAFFECTED**

The dispute does not affect west coast operators and tankers, or foreign flag lines and American companies that have contracts with another officers union.

Ships at sea operated by the employer group will be struck when they reach their American home ports.

The 1,300 - member union has pledged that all ships loaded with military cargo will sail.

Among big passenger liners already made idle are the United States and the America of the United States Lines and the Santa Rosa of the Grace Lines.

**VITAL INDUSTRY**

Annual value of forest industries in British Columbia is more than $500,000,000.

# This Is Voting Day In Brazil

By JULIUS GOLDEN

RIO DE JANEIRO (AP)—Brazilians vote today for members of both houses of congress and for state governors. The election will set the stage for the 1960 presidential elections.

Nearly 14,000,000 voters are expected to cast ballots for all 326 members of the Chamber of Deputies, one-third of the 63-member senate and governors in nine of Brazil's 21 states.

Most eyes will be on Vice-President Joao Goulart. Although not a candidate, his political strength will be shown by the votes pulled in by his Brazilian Labor Party, which has Communist support. The vice-president is the political heir of dictator-president Getulio Vargas who died in office in August, 1954.

Many political sources say Goulart has paid a price for Communist support in this election and possibly in the 1960 presidential election. The price: legality for the Communists.

The Communists have a membership of only 20,000 in this country of about 52,000,000 people. But in 1946, they polled 600,000 votes.

One of the chief campaigners is not a candidate. He is Luis Carlos Prestes, leader of the Communist Party. He emerged only this year after 11 years in hiding to stump for the Labor Party. He still is awaiting trial on charges of subversive activities but by court order is not subject to arrest.

Carlos Prestes says he wants his party legalized, re-establishment of diplomatic and commercial relations with the Soviet Union and Brazil's public utilities nationalized.

# French Organize Algiers Welcome

By ANDREW HOROWIEC

ALGIERS (AP) — Premier de Gaulle returned to Algeria Thursday to inspect troops and deliver a policy statement. He was expected to spell out at least some of his plans for this troubled North African territory.

A big welcome awaited him, though scattered incidents of sabotage and terrorism were staged by nationalist rebels in the countryside overnight.

De Gaulle took a Caravelle jet airliner from Paris to Oran, in western Algeria. At Oran he boarded a smaller plane for Tiaret, 130 miles southwest of Algiers. He planned to start with an inspection of troops in the Moroccan frontier area.

**FOURTH VISIT**

This is the fourth visit of the 67-year-old de Gaulle to Algeria since he assumed the premiership June 1.

He is delivering a policy statement at Constantine Friday.

The mixed peoples of Algeria—French, Arabs and Berbers—waited with mixed emotions for clarification of his intentions toward the territory, officially regarded in Paris as part of France.

They had contributed heavily to the landslide indorsement Sunday of de Gaulle's new constitution. The Fifth French Republic with the strongest executive branch the country has known for three-quarters of a century, will be born under the new charter next Sunday.

French authorities arranged the welcome. They ordered up flags and asked the townspeople of the cities on de Gaulle's tour to line the streets to cheer him.

**A REMINDER**

The tone of the reception by Algeria's French settlers, outnumbered by North Africans about 9 to 1, was intended to remind de Gaulle that his victory in the constitutional referendum was an outgrowth of their May 13 right-wing uprising that swept him to power.

Army sources hinted that de ant measures aimed at crushing the rebellion, perhaps a sizable increase in the 500,000 - strong French Army that so far has failed to crush it.

Whether he will also map the political future of Algeria at this time is anybody's guess. Informed sources said he likely will prefer to wait until after forthcoming legislative elections so he can thresh out that matter with Algeria's chosen representatives.

WINDSOR, Ont. (CP) — Real Caouette, leader of the Social Credit Rally, a new Social Credit party in Quebec province, said Wednesday night his party has no ambitions in the next Ontario provincial election but will concentrate on putting Social Credit into federal power. "We will be fighting our principles in the federal election," he added.

I wish to thank Dr. McCullough, the nurses and staff of the KLG Hospital for their care and kindness, Mr. Whitmore for his kindly messages and friends for visits, cards and beautiful flowers.

Mrs. Andrews.

## 13-Year-Old Boy Held in Arson Charge

VANCOUVER (CP) — A 14-year-old boy who reported three fires since last June has been charged with setting each of them.

Arrest of the boy was the result of almost three months of investigation by Lt. George Birnie of the fire warden's department and city police.

The young suspect was lodged in a juvenile detention home after the arson charges were laid against him Wednesday.

Officials said the charges concerned fires June 10, when an old garage was destroyed; Sept. 10, when about $200 damage was done to a church book room; and Sept. 29, when a car and garage were extensively damaged.

Investigators said the boy turned in the alarm at all three fires.
