Aircraft Carrier Fire Snuffs Lives of 47

MANY A MOTORIST must have done a double take when he met this strange sight coming along the highway into Nelson Sunday evening. The eight-point elk lashed to the top of the car had several reflector buttons fastened to its antlers and its ghostly white appearance as it collected snow in its fur and ears made it look like a phantom creature. Meeting it on the highway must have been an unnerving experience.—*Daily News photo.*

Many Suffocate Under Steel Decks; Dead Still Being Found; Death Toll May Exceed 100

NEW YORK (AP)—A sinister, smoky fire roared more than 12 hours through the world's newest and largest aircraft carrier—the USS Constellation—at the Brooklyn navy yard Monday killing at least 47 persons. A police official said the death toll could exceed 100.

The blaze finally was declared under control late Monday night, but the huge vessel, nearing completion, continued to smoulder.

The fire started on the main deck when a small hoisting truck sheared off a plug on a tank of volatile jet aviation fuel, being used to flush the ship's piping system.

The liquid gushed along the deck and into a well where a welder's torch ignited it. At first there seemed some hope of controlling the flames, but the fire suddenly exploded out of hand and ravaged the sleek, missile-carrying carrier from stem to stern.

The blaze raged out of control from mid-morning until long after dark.

At 9 p.m. EST, about 11 hours after it started, the fire still was out of control in the bow and stern sections of the warship. Firemen hacked through 2½-inch steel plates to pour water into the hull, only to have it come out as steam in an indication of the tremendous heat inside the vessel.

However, as the fire became *more localized, some of 350 firemen* and 70 pieces of equipment on the pier were released.

The report of 47 known dead came from the navy. Most of the victims were civilian workers aboard the $250,000,000 carrier.

Police placed the number of injured at more than 200. Hospitals in the area were clogged to overflowing with choking, burned survivors.

Of the 4,200 persons aboard when the fire broke out, an un*counted number were trapped* below red-hot deck plating, at the mercy of flames and deadly fumes, their fate uncertain.

Rescuers could hear muffled poundings from trapped workmen.

They described victims they brought out with faces distorted in agony "as if they died trying *desperately for one more breath* of air."

"We haven't any idea how many people are down there," said Admiral Schuyler Pyne, commander of the navy yard. "They keep going down there and bringing people out. We just don't know how many more of them there are."

Some of the victims were drowned. Others were discovered below decks, their hands clutching their throats in grim testimony of suffocation.

Hundreds of survivors owed their lives to a massive rescue operation, launched as they scrambled for safety.

PLUNGE INTO WATER

Many made their way hand-over-hand down ropes and cables—some losing their grip and dropping into the icy East River, where they were picked up.

Firemen teetering on snow-slippery scaffolding squeezed some workmen through tiny portholes. Tugs braved roaring flames and billowing, choking smoke, to pluck others to safety, while huge shore-based cranes dipped down to snatch human cargo from the decks.

Acetylene torches ate holes through the hull of the Constella*tion well below the fire level to* aid rescuers in getting aboard the 60,000-ton carrier.

There were 4,200 workmen and a small navy complement aboard the Constellation when the fire broke out about 8 a.m. MST. They were swarming all over the vessel — as long as five city blocks and from keel to masttip *as tall as a 25-storey building*—when the fire started.

The blazing jet fuel cascaded along the main deck and, in the words of one workman, "inside of seconds that whole deck was covered with fire."

The keel for the Constellation was laid Oct. 10, 1957. She was equipped to carry 100 planes. In*stead of anti-aircraft guns, she* has surface-to-air missiles for defence against attack.

MEN DRIVEN BELOW

One survivor told of being driven below decks by the overpowering smoke. He and several companions took refuge for 1½ hours in a small compartment, where they closed themselves in against the fire. Firemen rescued them.

Less fortunate were 11 men who died in a 20-by-15-foot room far below the top deck. Rev. Joseph Fox, a Roman Catholic fire department chaplain, was with a rescue team that found them. He said:

"These men were all lying on the floor and in a way you could say they were huddled together like little puppies. All these men were unburned and it appeared they had suffocated in this little room."

The navy yard is only about two miles from the section of Brooklyn that was ravaged by fire and explosion Friday after the collision of two airliners above Staten Island. One of the planes, a jet, plunged into a Brooklyn street, killing the 84 persons aboard and seven on the ground.

Gold Coins Lost en Route

Plane Arrives at Malton Minus $18,000 in Gold Pieces

TORONTO (CP)—An international hunt is under way *for a box containing $18,000 worth of gold coins that van*ished between Zurich, Switzerland, and Toronto.

Trans-Canada Air Lines spokesmen said the coins—*consigned to the head office of the Bank of Nova Scotia* here—were put aboard a Canada-bound jet in London.

Passengers and cargo were switched to another DC-8 jet in Montreal to continue the westward journey. When this second plane arrived at Malton international airport here, the coins were missing.

The plane was searched here and again in Winnipeg and Vancouver, other stops on the flight.

The shipment originated in London Dec. 9, but word of the loss was held up until Monday as police tried to race the package.

BOX NOT BIG

The coins were in a box, measuring seven inches by four inches and three inches deep.

They were British sovereigns and United States $20 gold pieces and were to have been part of a bank display.

There was a two- to 2½-hour lag between the arrival in Mont*real of the overseas jet and the* departure of the second plane for here.

In Canada, the RCMP, TCA police and local officials were called in at various points across the country. Interpol, the international police force, was called.

NEVER GOT HERE

Supt. F. H. Woods-Johnson of the RCMP said Monday: "investigation seems to indicate the package never reached here."

"The general feeling at the moment" was that, providing the package was put aboard in London, "it must have been removed in Montreal."

An international gang may be involved; RCMP in Montreal said it could be a case of a freight handler in Montreal who "might have just pulled a case aside."

It was the second case of a gold shipment that went astray in this area.

On Sept. 24, 1952, a $215,000 shipment bound for Europe vanished from *Malton before it could* be loaded aboard a TCA North Star aircraft. It was never found.

No Pay Before Christmas for Rush Workers

OTTAWA (CP) — Postmaster-General William Hamilton offered no hope Monday for pre-Christmas pay packets for part-time holiday *helpers in the post office.*

Replying in the Commons to Erhart Regier (CCF-Burnaby-Coquit*lam), he said the matter of pay* cheques is up to the comptroller of the treasury and that it is not possible to get them out before Christmas.

Two Chain Stores Cleared In Trading Stamp Issue

By JOHN E. BIRD
Canadian Press Staff Writer

OTTAWA (CP)—The Supreme Court of Canada has upheld the legality of stamps issued by two of Canada's largest chain food stores but organizations opposed to them will continue to press for federal laws banning all types of trading stamps.

The court in an unanimous judgment Monday said that stamps being issued by Loblaw Groceteria Company (Manitoba) Limited and an Independent Grocers Alliance store in Winnipeg are not trading stamps within the meaning of the Criminal Code.

Trading stamps prohibited in Canada by the Criminal Code are specifically described in the code, the court said. However, the Loblaw and IGA stamps did not fall within this prohibition.

Mrs. A. F. W. Plumptre, national vice-president of the Canadian Association of Consumers, said in Ottawa that the Loblaw and IGA stamps are outside the definition because of a technical ity.

"The law is inadequate to ban trading stamps," she said. "We will continue to ask the federal government to amend the Crimi*nal Code to ensure that all types* of stamps are banned."

The court made its ruling in dismissing an appeal by the attorney-general of Manitoba against lower court judgments ruling that Loblaw and IGA stamps are not illegal within the meaning of the Criminal Code.

VICTORIA (CP)—Attorney-General Bonner says he does not believe British Columbia's statutory limitations on trading stamps will be weakened by a Supreme Court of Canada decision handed down in Ottawa Monday.

Mr. Bonner said British Columbia's trading stamp legislation is concerned only with the distribution of the stamps. Under the provincial law, passed at the last session of the legislature, anyone issuing, giving or selling trading stamps to a merchant is guilty of an offence, but the merchant is free to operate his own discount plans.

Airliner 11 Miles Off Course

NEW YORK (AP) — The United Air Lines DC-8 jet airliner involved in history's worst aviation disaster Friday was 11 miles from where it should have been when it collided with a Trans World Airlines Constellation over New York, the administrator of the Federal Aviation Agency said Monday.

The collision, with the jet falling in Brooklyn and the Constellation on Staten Island, resulted in the deaths of at least 135 persons.

In Washington, Gen. Elwood P. Quesada, FAA head, said he had advised President Eisenhower Mon*day that one of two electronic nav*igation aids aboard the DC-8 was out of commission at the time.

However, he said, this should not have caused the plane to stray from its course and it should not have been over Staten Island where *the collision occurred.*

Packages To Be Properly Marked

PENTICTON (CP) — Okanagan fruit growers Monday hailed new regulations forbidding marketing of packaged fruit with misleading labels.

The regulations, printed in the B.C. Gazette recently as changes to the Fruit, Vegetable and Honey Grades Act, state that all packages must show immediately below the grade description the name of the country of origin on imported con*tents and that the lettering be as* large as the lettering of the grade designation.

They also require that when produce is displayed for retail sale on counters or in bins, a suitable placard or label shall be conspicuously placed indicating the grade, and if imported, the country or origin of the product. All bags for use in prepackaging of produce must be submitted to the agriculture minister before use

Russia, Cuba Sign Trade Pact

MOSCOW (AP) — The Soviet Union and Cuba signed a commercial agreement Monday calling for a substantial increase in trade between the two countries. The Soviet Union will build an iron and steel mill and power plants in Cuba.

A communique announcing the results of talks between Premier *Khrushchev and Ernesto Guevara,* head of the Cuban economic mission, also, reported agreement on international affairs.

The Soviet Union expressed readiness to buy up to 2,700,000 tons of Cuban sugar a year if the United *States carries out its threat to buy* no more sugar from Cuba. This would be roughly one-half of the Cuban crop.

Khrushchev's appearance at the Kremlin Monday was the first in more than two weeks. He has had influenza.

Parliament

By The Canadian Press

Labor Minister Starr described the government's winter works program as part of the most comprehensive scheme of its type ever *undertaken by a federal govern*ment.

Prime Minister Diefenbaker said the Interprovincial Farm Union council should give the government a detailed report on its fear that Western feed grain prices are deteriorating.

The Senate gave first reading to a bill to relieve the Commons of responsibility in passing divorce bills this session.

The government's bill establishing a productivity council was given approval in principle in the Senate.

McLaughlin New Bank Head

MONTREAL (CP) — W. Earle McLaughlin, general manager of the Royal Bank of Canada, has been elected president succeeding the late M. M. Walter, the bank said Monday.

C. B. Neapole, 54, assistant general manager since 1951, was appointed general manager.

Mr. McLaughlin, 44, is the third president of the bank, Canada's largest and sixth largest in the *world in volume of business, in less* than a year.

Mr. Walter, who died Dec. 9 after a month-long illness, had taken over the presidency only eight months earlier. He had succeeded long-time president James *Muir, who died while on holiday* in Scotland.

Mr. McLaughlin was born in Oshawa. A graduate of Queen's University, he joined a Royal Bank branch in Toronto in 1936.

NEW YORK (CP) — Canadian dollar ⅛ lower at $1.02 3-64 in terms of U.S. funds. Week ago $1.02 5-16. Pound sterling 5 - 64 lower at $2.80⅝.

Bennett Letter Turns Down Fulton Proposal

OTTAWA (CP) — A letter rejecting the federal offer of financial help for Columbia River development has been received from Premier Bennett of British Columbia, Finance Minister Fleming said Monday.

Justice Minister Fulton also told the Commons good progress was made in treaty-drafting talks in Washington last week and that it is hoped to finish the job "very early in the new year."

The treaty would be ratified by Parliament and Congress to cover co-operative hydro and flood-control developments on the *international river over a period* of some 60 years.

H. W. Herridge (CCF — Kootenay West) raised the subject. He asked Mr. Fleming whether he had received a "billet doux" from Premier Bennett. Fleming said he'd received a letter dated Dec. 14 from the premier but didn't know whether it was ade*quately described as a billet* doux.

He read the short-and-sweet reply to Mr. Fleming's own letter of Dec. 6, setting out the details of the federal loan offer—$172,000,000 to pay half the cost of three storage dams in the $458,000,000 Canadian program. Interest would be charged.

REJECTED—WITH REGRETS

The Bennett letter said the federal offer, "regrettably," was unacceptable. B.C. was prepared to guarantee Canada the execution of its provincial responsibilities for the purposes of signing a treaty with the U.S. It would demand that Canada, for its part, guarantee fulfilment of its federal *obligations under the treaty.*

Mr. Fleming said he deeply regrets the loan rejection. The "extraordinarily generous" offer apparently had been rejected out of hand. He said he remained prepared to discuss the offer further at any time or place with Mr. Bennett.

He told J. W. Pickersgille (L—Bonavista-Twillingate) there was no comparison with this offer and one presented to B.C. by the former Liberal government.

Liberal Leader Pearson asked whether Mr. Fleming didn't think it was time for both the federal government and the province to "stop playing politics and get on with the project?"

APPEAL REJECTED

OTTAWA (CP) — The Supreme Court of Canada dismissed an appeal by the Alberta attorney-general seeking, in effect, to reinstate a murder conviction against Cecil Raymond Warner of Edmonton.

Baby Budget Out Of Wraps Tonight

OTTAWA (CP) — The direction Finance Minister Fleming takes in his new budget tonight — to cut taxes or not — will be largely determined by his view of the health of the Canadian economy.

That view, as he has expressed it in public statements, is that business is going well, apart from the problem of unemployment.

There has been considerable speculation about the possibilities of tax cuts in Mr. Fleming's pre-Christmas baby budget — a supplement to his March 31 budget for the 1960-61 fiscal year. Much of *this is based on the premise Mr.* Fleming will decide to cut taxes to pep up a lagging economy.

"Although there is substantial unemployment, nevertheless Canada is enjoying prosperity and I think the prosperity will continue," he said.

Mr. Fleming's decisions on taxes won't be made known until after he starts his budget speech in the Commons shortly after 6 p.m. MST.

(See also story Page 4)

Legion Now 'Royal'

OTTAWA (CP) — The Canadian Legion Monday became the Royal Canadian Legion.

Prime Minister Diefenbaker said in a statement that the Queen has consented to the use of the prefix "royal" by the Canadian Legion, 225,000-member veterans organization.

Canada Disarmament Resolution Shelved

By JOSEPH MacSWEEN
Canadian Press Staff Writer

UNITED NATIONS, N.Y. (CP) Canada's disarmament plans took a severe hammering Monday and the hardest blow came when some co-sponsoring countries withheld support in a United Nations vote.

Debate centred on a resolution-on-a-resolution submitted Monday by Wallace B. Nesbitt, vice-chairman of the Canadian delegation, asking in part that the 15th General Assembly's Political Committee vote on Canada's disarmament plan, presented earlier in the session.

The committee adopted instead *29 to 16 with 26 abstentions,* an Indian resolution killing the request that it vote on the Canadian draft.

While the vote was procedural, the Canadian delegation's strategy for winning support of its plan before the assembly adsquelched. The assembly resumes sessions March 7, after which the resolution could have another chance.

THREE IN NINE OUT

The committee passed unanimously proposals by Canada — as amended by India — urging an immediate vote on three other resolutions having to do with cessation of nuclear tests and a ban on dissemination of nuclear weapons.

These were passed. The committee also recommended that nine other disarmament resolu*tions be put aside for the present,* along with that of Canada.

Indian Defence Minister V. K. Krishna Menon started the assault on the Canadian formula early Monday by stating it was "inappropriate" and would mean an "impediment" to a renewal of East-West negotiations.

Body Hangs In Main Square In Addis Ababa

ADDIS ABABA (Reuters)—Emperor Haile Selassie's troops hunted for rebels throughout Ethiopia Monday, with orders to "bring them back alive" to stand trial.

The emperor, meanwhile, established an office to investigate subversion in the imperial bodyguard, whose members played a role in last week's abortive coup.

As a grim warning, the body of rebel Col. Workineh Gebeheyu, said to have been killed while resisting capture, was left hanging in one of the capital's main squares Monday.

An Ethiopian official said the palace plot was led by two brothers Mangistou Newye, commander of the imperial guard, and Gemena Newye, governor of Jijiga, Eastern Ethiopia.

PLANT OFFERED TO CANADIANS

DETROIT (AP) — President *George Romney of American* Motors Monday offered to sell his company's new Canadian plant to Canadians.

Speaking at the annual meeting of company executives and executives from plants supplying parts to American Motors, Romney said the company has reviewed its plans under which it will open a Canadian *assembly plant next month.*

"I will tell the Canadian people then that as soon as they want to invest in American Motors operations in Canada we'll let them do it. And if they want to buy control of the operation we'll let them do that too."

The plant is in Brampton, Ont.

And in This Corner . . .

MIDDLETOWN TOWNSHIP, N.J. (AP)—Depressed? Think you've got troubles? Then check this chain of events and extend sympathy to the Port Monmouth rescue squad:

1. Hurricane Donna claims squad's $15,000 ambulance. Salvage value: $1000.

2. Squad gets $1800 worth of toys, plans raffle to finance new ambulance.

3. Squad schedules raffle, but big snow comes (last Monday), *cancels it out.*

4. Squad lugs toys to firehouse to use another time.

5. Firehouse catches fire (Sunday), toys lost.

The squad still plans to have a bingo game at some future date.

RIVERSIDE, Calif. (AP)—"The day I give free cups of coffee, snow will have to be piled six feet high against my door."

That's what cafe owner Ralph Aberth said after a few friends *asked for free cups of coffee in his diner.*

Aberth figured he was safe — it hasn't snowed in Riverside since 1948.

But Sunday — a balmy sunny day — he found the front door of *his cafe blocked by a pile of snow more than six feet high.* A man of his word, he served more than 200 free cups of coffee.

Six friends had made three round trips in a pickup truck to Big Bear Mountain, more than 40 miles away, to bring back enough snow for the prank.

Sites for New Blewett School Studied by Board

Nelson School District Number 7 board of school trustees Monday evening again stated their intention to rebuild the Blewett School, but not on the same site.

Charles Cuthbert, school district superintendent, said a committee was considering several sites but had not come to a definite recommendation yet.

The members of the board were in general agreement that the school should not be built on the old site. The fact that the insurance money cannot be used to buy a new site will not alter their plans. Money in a trust account will be used and repaid.

Earlier the board had discussed plans for a prefabricated building. The former two-room school may be replaced with a school of from three to four rooms.

Regarding land for the school site, a member of the board suggested a letter be sent to Hon. Douglas S. Harkness, federal minister of agriculture.

Mr. Cuthbert outlined procedure for obtaining sites for school purposes. He said when the site is selected, the property-owner will be approached. If a price cannot be decided on between the board and the owner the matter would go to arbitration. If it cannot be arbitrated the school board could expropriate land for the school site.

Planning for the whole district, in regards to school accommodation, is under way by a committee composed of Mr. Cuthbert and all school principals. This commitee is studying the location of each pupil's home. Maps of the city and the various districts are being carefully marked to show the density of pupil population in the districts.

When this commitee brings a plan of action, for school construction, to the school board the location of the school site for Blewett wil be decided.

Fire levelled the two-room school early Sunday morning on Jan. 3.

The 22 pupils had no educational facilities until directors of the school district arranged to accommodate them in Nelson Hume School.

Tree Glows Atop Hospital

A brightly decorated Christmas tree, shining high above the Gyro Park star from the roof of the Kootenay Lake General Hospital, is provoking delighted comments from downtown shoppers and Fairview residents.

Two 15-foot trees, tied side-by-side ot make one fine bushy tree, were set up on the hospital roof Friday evening.

A pipe to which legs have been welded forms the stand, and this holds the tree solidly in place with the help of 400-pound bags of sand used as anchoring weights. Guy wires prevent it from swaying.

Colored lights along the edge of the elevator tower are a base for the brilliant display.

SKI SERIES STARTS TODAY

First of a series of special ski instruction articles appears on the sport page today.

The articles are written by Anne Heggtveit, Canada's only Olympic gold medal winner in skiing in last Winter's Olympics.

Nelson Son Promoted To CNR Post

Charles F. Armstrong, 33, a native of Nelson, has been appointed assistant manager of the Toronto area of the Canadian National Railway.

Mr. Armstrong will be assistant to John H. Spicer, 36, formerly of Moose Jaw, Sask., named manager of the Toronto area, an administrative district taking in Oshawa, Toronto and Hamilton. It is one of three newly-organized Ontario areas.

Mr. Armstrong graduated from University of British Columbia in 1949 with a bachelor of commerce degree.

Before joining the railway, he served with the economic division of Trans-Canada Airlines as well as with the Railway Association of Canada at Montreal. He entered CNR service at Montreal in 1953.

He has served in Winnipeg and at the time of his latest appointment was assistant superintendent for the CNR Portage-Brandon division.

Mrs. St. Denis Passes at 61

Mrs. John Archie (Agnes) St. Denis, of 711 Carbonate Street, Nelson, died here suddenly Sunday evening, age 61.

She was born in Aberdeen, Scotland and was married in Scotland during World War One to William Britten. At the time of her engagement she was employed in forest service work. During World War One she worked as an interpreter of the German language for the British Admiralty.

She was the recipient of the Lincoln Nursing Profession Certificate in Scotland.

The couple came to Harrop in 1923 where they engaged in fruit farming until about 1939, when they moved to Nelson.

Predeceased by her husband in April, 1940 she later married John Archie St. Denis, of Nelson, who predeceased her in May, 1957.

Recently she has worked as a nurse on the staff of the Mount St. Francis Infirmary.

She was a member of the Cathedral of Mary Immaculate Parish and the Catholic Women's League.

She is survived by two sisters and one brother, and five nieces and nephews in Scotland.

City Snow Plowing Problems Pondered

Snow ploughing and removal of snow from city streets was raised by three aldermen at city council meeting Monday night.

Ald. J. H. MacMillan stated that residents of Davies Street would like snow removal service instituted in their vicinity because present operations leave snow piles blocking their driveways. This has been going on for several years, they had reported.

Mayor T. S. Shorthouse was in agreement with the request, stating it was hoped to keep a couple of the main city thoroughfares free of snow this winter.

Ald. J. W. McClelland wondered how the city sanding system for streets is derived. "Why don't they sand coming down?" he asked. "It's more dangerous coming down than going up."

Ald. W. K. Massey wondered what plans are being laid for plowing and snow removal of the arterial highway on Front Street. He was informed that the Deparment of Highways is responsible for plowing while the city is responsible for the snow removal.

Ald. Edith Van Maarion wanted to know if the city could plow and sand the road leading to L.V. Rogers High School, because of the safety factor involved.

She was informed that the school lies outside the boundary of the city and the Department of Highways is responsible for snow plowing and sanding.

D. Likar, city works superintendent, stated that he has been in touch with the Department of Highways on making an agreement in which the Department would snow plow the power plant road in return for the city's snow plowing and sanding of the road to the High School.

Vagrant Sent To Oakalla

Kenneth Walker of 215 Union Street was sentenced to three months imprisonment on a charge of vagrancy by Magistrate R. S. Nelson in city police court Monday.

Walker, originally from Moyie, will serve his sentence in Oakalla Prison Farm.

Walker claimed to be a door-to-door salesman, but an examination of his account books led the magistrate to believe that the accused had little means of supporting himself.

He was originally arrested at 4:30 a.m. Thursday near the premises of Palm Dairies Ltd. after constable J. Vecchio had spotted him trying the doors at the back of the building.

On searching the suspect, the constable said he found a flashlight, a pair of pliers, two small screwdrivers and a jackknife.

Walker claimed he was trying to get into the building to meet a friend who allegedly worked there, but he could not remember the man's name or where he lived.

FORKS POTATO MARKETING GIVING CONCERN

KELOWNA (CP) — Delegates attending the annual meeting of the British Columbia Interior Vegetable Marketing Board voiced complaints here Monday over the marketing of potatoes from the Grand Forks area.

Sam Scott, a delegate from Grand Forks, said potato growers are "extremely concerned" over the marketing agency's activities in the Kootenay area.

A number of complaints were received from the Grand Forks area over the agency's alleged lack of effort in the marketing of early potatoes. It was also said the board was "giving in to external pressures" in its policies.

The Board said it had advised against the growing of early potatoes in the Grand Forks area, owing to freight and marketing difficulties.

Magistrate To Be Away Three Weeks

Henry Ekkle of Nelson was fined $10 and costs for speeding near Surrey on November 29 by stipendiary magistrate K. D. McRae Saturday in provincial court.

Mr. McRae is substituting for stipendiary magistrate William Evans, who is presently legalizing Doukhobor marriages in the Kootenay and Okanagan.

Mr. Evans is expected to be gone for three weeks, spending the Christmas holiday season on Vancouver Island.

21 Accidents Reported in Week

No traffic fatalities were recordin the Nelson RCMP sub-division for the week ending December 18, the RCMP weekly traffic report reveals.

There were 21 accidents and six prosecutions during the week while for the province there were 333 accidents, three fatal accidents, three deaths and 93 prosecutions.

Mother of Nelson Man Dies at Coast

Don E. Sweet, well-known Nelson businessman, Saturday attended the funeral of his mother, Mrs. Roderick (Rose May) Sweet of New Westminster, who died recently.

Mrs. Sweet visited Nelson on a number of occasions but never resided here. She was predeceased by her husband in 1951.

Hostel To Close Today; Use of Hospital Sought

Another old civic building landed in the lap of city council Monday night while a bid for the use of one already in the city's hands was also heard.

The last of six inhabitants of the Nelson Hostel was expected to leave the old building today, reported city clerk C. W. R. Harper, and Mrs. V. Mason, matron at the building, will also be leaving today.

The two-storey wooden frame building on Lake Street was declared condemned as a men's hostel by Fire Chief E. S. Owens, and it was decided by council at a meeting November 30 to close the building by December 20.

At the time, W. M. L. Sanderman, district supervisor of social welfare, stated that there would be no difficulty in finding accommodations for the men. The last one to leave today has rented a room.

The council, through the urging of Ald. Edith Van Maarion, passed a motion to keep heating the building and to allow someone to live there rent free to keep up maintenance and ward off vandals. In making the motion Ald. Van Maarion was drawing from experience with the boarding up of the old hospital and not heating it which resulted in plaster falling from the walls. Vandals broke in and did considerable damage.

SEEKS HOSPITAL USE

A bid for the partial use of either the basement or ground floor of the old hospital was received from Zelko Kujundzic, principal of the School of Fine Arts

Mr. Kujundzic, in his correspondence, stated that the hoped-for increase in enrollment in the 1961-62 term from 17 day students and 46 night students attending this year calls for larger facilities than those available at the school's present location in the old unemployment office on Baker Street.

Mr. Kujundzic stated that at present it is hard to store materials and work of students in the present building and council should give thought to considerable space in the old hospital for the growing needs of the Fins Arts school.

Because of the special requirements of sculptor and ceramics department, which uses plaster, clay and stone, such space would have to be available in the basement or on the ground floor, and space for painting and graphic and metallic work would have to be situated to give ready access to the former departments.

The correspondence was referred to the incoming council for decision.

LAST MEETING

Attending their last council meeting were retiring Aldermen J. H. MacMillan and A. K. McAdams, who were defeated in the recent civic election. Incoming aldermen B. C. Affleck and F. A. Beresford and returning Alderman J. W. McClelland will be sworn in at the first council meeting in the new year, January 3.

At the same time the term of Dr. C. E. Bradshaw as police commissioner comes to an end and council will have to appoint a new man.

Ald. McAdams turned down an offer to take over as commissioner, stating that after eight years of public service he was looking forward to a rest.

Council Studies Boat Rental Proposition

An application for leasing a part of the beach near Lakeside Park for the purpose of a boat-rental business was heard by City Council Monday.

R. E. Sawyer of 307 Fourth Street in a letter stated that it is his wish to have 20 rowboats, all with safety equipment, for rent this summer for tourists and citizens interested in rowing on the lake.

He suggested that a possible site would be the old ferry landing dock, but it was brought out that the site is presently used by many for a boat-launching ramp.

Council agreed that such an operation was a needed addition to the park area. "I certainly think that it is a long overdue facility lacking in our park," said alderman Edith Van Maarion.

Mr. Sawyer stated that he planned to operate as long as the park was open and hoped to expand in the future to the rental of power boats, water skis, skin diving equipment, fishing tackle, etc.

The topic was referred to the incoming council for decision and action.

News Staff Members Return To Alberta

Reporter for the Daily News for nearly a year, Ron Darling leaves today to return to his home at Fort Saskatchewan, Alta.

Mr. Darling came to the News from the Calgary Albertan. He plans to return to Nelson next September to enter Notre Dame College to further his education.

Michael Harvey, advertising manager who also came to the News from the Calgary Albertan last year, returned last week to Calgary. He will be manager of a suburban weekly paper there.

Joining the Daily News advertising staff in the new year will be William Taylor, well known Nelson Maple Leaf hockey player.

Willowhaven Patients Enjoy Yuletide Party

Thirty visitors and 27 patients, ages 60 to 93 years, Sunday afternoon enjoyed the third annual Christmas party of the Willowhaven Private Hospital, located six miles east of Nelson, and observed the opening of the new 8-bed wing.

Four patients over 90 years of age enjoyed the two-hour party. One lively oldster was Andrew Scott, 93, an oldtimer of Willow Point, who took part in the Klondike Gold Rush in 1898. He was, at one time, manager of the Bank of Commerce in Nelson.

A Christmas buffet lunch was served while Christmas carols were played on the organ by J. S. M. Harts, one of the hospital directors.

Two birthdays were celebrated along with the Christmas party. Relatives of Mrs. Henrietta MacDougall of South Slocan, representing three generations, visited to celebrate the occasion of her 85th birthday.

Mrs. Marian McLaughlan of Grand Forks, was presented gifts on the occasion of the 81st birthday.

Members of the Order of the Eastern Star brought gifts which they presented to each patient.

Tobacco Plains Band Elects Woman Chief for 2-Year Term

CRANBROOK—For the first time in the history of the Kootenay Indian Agency, a band has elected a woman, Mrs. Nick Gravelle, as chief for a two-year term.

Also this week, the 53 members of the Tobacco Plains Band elected by acclamation two councillors, Mrs. Gravelle's brother - in - law, Alec Gravelle, and Mrs. Alice Shottanana. Mrs. Gravelle won the election over Justin Ignatius, and she is successor to her husband, who has just completed two years as chief.

The band council, which deals with internal affairs of the Tobacco Plains Band and also handles its welfare fund, meets regularly in its community hall in similar fashion to a city or village council.

The attractive new chief is a great - granddaughter of Michael Phillips, the first permanent white settler in East Kootenay, a Northwest Company and Hudson's Bay Company factor and its first Indian agent. His wife was daughter of the older Chief David and they were married at White's Landing, Montana, in 1873 and had 12 children.

LEGION ELECTS REDDING AS 1961 PRESIDENT

FRUITVALE — Canadian Legion Branch 196 held election of 1961 officers at their regular meeting in the Legion Hall, attended by 18 members.

H. N. "Hub" Redding is president by acclamation. Officers and executive are as follows: first vice-president, D. J. Morisette; second vice-president, A. H. Ackney; secretary, H. D. McCutcheon; treasurer, A. E. Topin; executive committee, D. C. T. Haines, I. L. DeBruyn, P. L. Ward, W. C. Payette, G. H. Higgins; sergeant-at-arms, S. Lind.

The annual turkey shoot will be held December 22 and 23 in the Legion hall basement, it was noted. Plans were also discussed for the New Year's Eve cabaret to be held in the Legion hall.

January 13 was the date for the annual meeting. The Branch is entering two teams in the West Kootenay Zone curling playdown, members were told.

The evening closed with a "smoker."

Kootenay Resident Of 50 Years Dies

CRANBROOK — Funeral service was held Monday for Everett McLellan, who died suddenly in St. Eugene Hospital Thursday at the age of 82 years. He had made his home here since 1955 and was a Kootenay resident of nearly 50 years.

Born at Tenny Cape, N.S., he came to West Kootenay around 1910, then enlisted in the 131st Battalion, Canadian Army, and served overseas in the First World War. On his return to Canada he settled at Kimberley, where he worked at the Sullivan mine until retirement in 1943. He and his wife, who predeceased him two years ago, continued their home there until they moved to Cranbrook.

Surviving are two sons, James in Kimberley and John in Cranbrook, a daughter, Mrs. Alec Watson in Vancouver, 16 grandchildren, and a sister, Mrs. Rachel Laffin in Nova Scotia.

The funeral service was held at McPherson Funeral Chapel in Kimberley, Rev. R. W. S. Brown officiating with interment in Kimberley Cemetery.

Successful Babysitters Announced

KIMBERLEY — Fire Chief J. Dickens has announced the names of successful participants who have completed the second babysitters' course of the Kimberley Fire Department.

Passing tests were Carol Shousta and Brian Brogden, 100 per cent; Diane Hockley, Donna Powers, Darlene Fisher, Joan Haverstock, Beverley McLellan, Terry Corriveau, Louise Turner, 95 per cent; Sandra Powers, Lynn Coldwell, Glennys Jaster, 90.4 per cent; Keith Scott, 86 per cent; Wendy Pearson, Germaine Fornasier, Jack Murphy, 81 per cent; David Worthy, 76.1 per cent; Allen Hockley, 66.3 per cent.

Committee Considers Fort for Restoration

CRANBROOK — For development of Fort Steele as a designated historic site and its restoration as a gold mining camp and Northwest Mounted Police post, a committee headed by L. J. Wallace, deputy provincial secretary, and provincial archivist, Dr. Willard Ireland, examined the village last week and met some of the property owners there.

They approved the project in principle and plan recommendation of further development similar to reconstruction of Barkerville in the Cariboo as it was during its roaring mining days. Barkerville has aroused tourist interest in that area far beyond expectations.

Fort Steele was established in the mid-1880's when a contingent of Northwest Mounted Police rode into the location via Golden from Fort Macleod to establish law and order in connection with unrest among Indians and newly settled whites drawn to nearby Fisherville on Wild Horse Creek, a motley population from the entire northwest area lured by the gold excitement on the creek. The fort operated as a military post for two years, and on withdrawal of the contingent became East Kootenay's major settlement.

A government office, gold commission office, post office and court centre were located there for a community of a few thousand and its gold rush excitement and accompanying gaiety marked the district's most colorful era.

East Kootenay Historical Association has been pressing for its restoration as a tourist attraction and tribute to early history for the past several years. In the 1960 provincial budget a start on the project by the Department of Recreation was approved but uncertainty as to the effect on the site of the Columbia Power project had not been settled until last month.

ABOVE WATER

Details of the Columbia treaty indicate the village site will remain well above water in the series of dams planned for hydro development, Mr. Wallace explained, which clears the way for its restoration if district support indicates it is warranted. Limited finances are available immediately toward acquiring title to the site.

Tentatively, the basic plan calls for use of 17 acres of the present community on the east side of the Kootenay River. Highway crossing of the river for the proposed new road from the Southern Transprovincial Highway northward is located about a half-mile down river from the present bridge. With the bend in the river, the highway would form an arc enclosing this 17-acre provincial historic site.

Property owners of this area, which include the log buildings of 1864 for Galbraith's ferry and post office-store, the Northwest Mounted Police barracks and a large part of the flat village site, were invited to a meeting at Fort Steele Sunday with representatives of the East Kootenay Historical Association to discuss uniform evaluation of the separate properties involved since acquisition of title to these is essential to the basic plan.

Discussion included possibility of concessions for tourist services either within the area or on crown property immediately adjoining it. Future of the entire project rests on whether the title to the proposed site can be secured.

History of the Wild Horse Canyon gold camp and of Fort Steele is among the most colorful of the entire west, and the Historical Association has been working for the past several years on restoration of the faint remains of the Wild Horse Creek camp at Fisherville and its cemetery, the Northwest Mounted Police barracks, and on collecting museum items for this restoration, which it believes could become one of the province's most outstanding tourist attractions.

Attend Banquet, Prizes Awarded

KIMBERLEY — Kimberley Rod and Gun Club members and their wives attended the annual banquet, to enjoy moose, deer, elk, goat, sheep, ducks and baked fish, served by Gus Mosi and members of the newly formed Ladies' Auxiliary to the club.

Guests included district game and fish biologists, both of whom stressed the need for sportsmen to become aware of the growing competition for use of land and water in order to protect their own interests.

Dealing with control of water pollution and effects of the proposed Columbia River developments, the fish biologist stated his department hopes to have funds allocated for hatcheries and stocking to offset any harmful effects to fish in the control and development areas.

T. DeCillia presented the following awards for the Fish Derby, sponsored annually by the Globe Hotel managements: Kamloops trout, C. Gallicano, 4 pounds 4 ounces; Eastern Brook trout, C. Gallicano, 1 lb. 9 ounces; Cutthroat trout, R. Armstrong, 1 pound, 14 ounces; Char, R. Schacker, 13 pounds; Bass, T. Schacker, 7 ounces.

Films taken by J. McKill, game warden of the Invermere area, were shown.

Ken Miles President Farmers Institute

CRANBROOK — Cranbrook Farmers' Institute has named its officers for 1961 as Ken Miles, president; Garnet Blaine, vice-president; Frank Hill, secretary; O. W. Higgins and V. C. Casselman, directors. Mr. Higgins was chosen delegate to the B.C. Beef Growers Association, of which the Institute is an affiliate.

Three applications to the department of lands for lease of land for grazing and homestead purposes, two at Fort Steele and one at Perry Creek, were approved by the meeting.

Members of the 4-H Clubs were guests and their advisers, J. W. Awmack, provincial agricultural agent for East Kootenay, John Clark of Wycliffe and Mrs. Garnet Blaine of Meadowbrook were thanked for their club work. This included a visit by Anne Berkholden of Kimberley to Pullman College in Washington, attendance of Sylvia Collinson of Cranbrook at the Pacific National Exhibition in Vancouver, where she was second in the Dairy Queen competition; Bonnie Bjorn of Fort Steele as an exchange visitor to a 4-H farm home in Idaho, and Robert Bjorn and Fred Clark to the Experimental Farm at Tranquille. These activities were in addition to the club's calf competition and home-making activities.

Probation Officer Arrives For E. Kootenay

KIMBERLEY — Richard Yerburgh has arrived in Kimberley to take over the position of provincial probation officer for the East Kootenay. He succeeds Ray Cutler, who has been transferred to Penticton.

Mr. Yerburgh, son of Rev. Canon and Mrs. R. E. M. Yerburgh of Kimberley, is accompanied by his wife and two small daughters.

MINER GOES HOME

VANCOUVER (CP)—A Britannia miner who was rescued from a collapsed mine shaft after his left arm had been amputated with a pair of scissors is home for Christmas. Henry Wenzel, 44, was released from Cambie Private Hospital here where he's been convalescing the past four weeks.

For GOODNESS it's GUINNESS stout

Housing Needed for Our Aged Ones

It is possible that countries with high standards of living have not such a high standard of social responsibility. Certainly Europe where the standards of living are comparatively low seems to have a social conscience greater than on this side of the Atlantic.

This is not, as is so often assumed, because the people have socialistic tendencies but rather perhaps because of their low standard of living they are more nearly aware of the needs of their less fortunate brethren. Their welfare schemes are not designed to remove the responsibility from the individual but rather to make it possible for everyone to enjoy a life uncomplicated by fears of poverty, sickness and old age.

Nowhere is this better seen than in England's treatment of the aged. There, old age is honored and respected. The aged have every consideration shown them. City councils build bungalows especially designed for their needs. The welfare departments care for them by assigning help to them in their housework according to the amount of such work the older people are capable of doing. The basic idea is to keep the aged in their own homes to the day of their death. They are not hurried off to institutions because there is no room at home for them.

Our own provincial health and welfare departments seem to be quietly working towards the same end. They, too, provide assistance for older people under certain circumstances but not according to a systemized plan and not with the underlying purpose of keeping old people in their homes as long as possible. They are probably the victims of a tight budget and cannot do all that they wish.

Old people value their independence. There are a great many of them living in Nelson and elsewhere on the brink of poverty. Their homes are often a single room in which they cook and sleep. Nevertheless they cling to this poor substitute for a home. Their fear is that they may become sick and have to be taken to hospital or to an infirmary. In England nursing care would be given to them in their own homes but our older persons have no such comfort.

The Kiwanis Club set out some time ago to provide cheap housing. For various reasons they have left their plans in abeyance. A great difficulty was finding a suitable site.

Nelson should not stand still on this matter. It should be given serious and early consideration.

News and Propaganda

Hugh Keenleyside's suggestion for integration of the Canadian and U.S. automobile industries has received some support from labor spokesmen, economists and others, but it has received a great deal more criticism. The critics believe that any move towards such integration would lead inevitably to economic union with the United States. The Vancouver Sun expressed that fear in an editorial headed "Integration or Subjugation", and Dr. Keenleyside, a former director-general of the UN technical assistance administration and now chairman of the B.C. Power Commission, replied in a letter to the editor.

Noting that "some critics have interpreted my idea as involving a form of economic union with the U.S.," he goes on to say that "this is a subject on which I feel very strongly, so let me make it clear at once that I am firmly opposed to anything like an economic union with the U.S."

He gives his reasons. Canada is a country with different values from those of the U.S.; Canada would be swamped with U.S. products, "including a great many that I consider cheap and nasty, which the present tariff helps to keep out"; under an economic union there would be no effective argument to force U.S. companies to establish factories in Canada in order to enjoy the Canadian market; such a scheme would disrupt our trade agreements with other, particularly Commonwealth, countries.

But just as emphatically, he thinks that in the automobile industry "we suffer from all the disadvantages and dangers of integration and reap none of its positive benefits."

Simply stated, his proposal is this: U.S. automobile manufacturers should assign to their Canadian plants an agreed and reasonable share of their total production and that the Canadian and United States governments should then abolish all tariffs between the two countries on automobile and automobile parts. And "it was an essential part of my proposal that the arrangements suggested with the United States producers should also be open to any manufacturers in any country who would agree to give a fair share of their total market to production facilities set up in Canada."

—*Penticton Herald.*

Heads or Tails

The suggestion made by an official of the British Royal Mint that all coins be made of colored plastic instead of metal has a great deal of merit.

Such money, he said, would be cheaper to manufacture, lighter to carry, easier to identify and would cut down on pocket wear and tear. Whether it would be easier to make or go further than the present coinage was not, unfortunately, touched on.

It is undeniably a sign of the times and our technological progress that new materials are continually replacing the old. It may be wise for the Canadian Mint to make some investigations along these same lines, particularly when some difficulty is now being found in providing native metal for our own five-cent pieces.

There are surely a dozen or more materials that could be used to replace the present amalgam, any of which would be acceptable to the Canadian people, just as long as no attempt is made to distribute too many wooden nickels.—*Victoria Colonist.*

Talking or Warring

"There is no alternative to talks except war," said Prime Minister Nehru, with simple realism, when he was questioned in the Indian Parliament about the protracted negotiations with China over the disputed border territories.

Mr. Nehru is correct, not only with reference to the Indian-Chinese dispute, but with reference to every major international dispute. There are two ways of handling any quarrel; by talking it over, or by fighting over it. Talking is infinitely preferable.

This is the principle on which External Affairs Minister Howard Green is working in his unceasing efforts at the United Nations to persuade the Big Powers to resume disarmament negotiations. While the Big Powers are talking, there is little danger of war.

—*Toronto Globe and Mail.*

It's Been Said

To be happy at home is the ultimate aim of all ambition; the end to which every enterprise and labor tends, and of which every desire prompts the prosecution.

—Samuel Johnson.

Letters to The Editor

Letters to the editor on any topic of genuine interest are welcome if they are brief, accurate and fair. They may be published over a nom de plume, but the name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go into the wastepaper basket. Typewritten letters must be double-spaced.

Qualified Men on Ambulance Services

To the Editor:

Sir—In reply to "Verbum Sapienti", this I do know, is that both ambulance services have fully qualified first aid attendants. And they and the ambulances come under the Workmen's Compensation Board: William Christie for the Thompson Ambulance; William Dalling for the Nelson Ambulance. In which case anyone calling for an ambulance will receive good attention until the doctor arrives, if necessary.

As far as the rescue service is concerned, I think this is necessary, as when a call is received they can have the equipment on the move in three minutes. I have known doctors to be a half hour and more before they get there, and often they will tell you to call the doctor on call. The rescue service has qualified first aid men also. The police department has some qualified first aid men.

Now if a doctor arrived at an accident and found one or more trapped in a car, and it was on fire, just how much good can he be? He has to call the rescue service to put the fire out, and possibly to use torches to cut the persons free.

Now I cannot see why our doctors cannot swallow at least half their pride and work with this service.

I wonder what would happen if one of their own was left in that condition until they got there. They should remember this is also possible to happen, as accidents are always caused in some manner, and a human is not perfect to not have an accident.

"MORE FIRST AID."

Hospital Well Prepared For Emergency Operation

To the Editor:

Sir—The following information on hospital emergency equipment may be of interest:

Forty-one recorded tests of the hospital's emergency generator have been conducted to date in 1960. This means that on most Sundays a quiet transferral to emergency power has been carried out. Most tests are of a half-hour duration; all are recorded in the engineering-maintenance log kept on all equipment. Hours of operation recorded for the generator to date are 39.5.

The emergency generator and motor has two safety arrangements. If the motor temperature is too high or the oil pressure is too low the equipment will "fail safe".

With any motor, temperature will continue to rise for a time after the motor is shut off. It is possible, if the generator is started, stopped and then started again within a brief span, that the motor temperature would be such as to activate the safety device and prevent the motor from re-starting immediately. This, in fact, occurred for the first time in 41 occasions on November 21 when the city substation lost its load and there were three successive outages.

To overcome the problem a bypass switch has been ordered to make it possible to bypass the safety device momentarily.

The hospital emergency generator will operate all operating room (surgery) and delivery room lights, one elevator, and maintain working lighting in all wards, nursery, emergency area, mechanical rooms, stairs and exits.

There is also a second emergency provision. A nickel cadmium battery system, maintained by a float or manual charger, will carry this same load for one to five hours, depending upon requirements, should the generator not function. Eleven recorded tests of this equipment have been carried out in the hospital's safety program so far in 1960.

R. H. PROCTER,

Criticism Killed

Five British chefs went to Frankfurt, Germany, a few weeks ago. They competed against other chefs from eleven countries at the International Cookery Exhibition. When the last dish had been tested, Britain's representatives shared the grand prix with the U.S.A. and between them collected four gold medals and a silver plaque.

This was cheering news for Britons who had been smarting under unfair criticism that British cooking was the world's worst.

—*Fort William Times-Journal.*

Confidential

We complain bitterly about secrecy in government, so it is only fair that any retreat from secrecy be noted and applauded. So we cheer this bit of news: "The army downgrades from secret to confidential a booklet of instructions for lubricating a Deere tractor."—*Milwaukee Journal.*

The Gentle Muse

What is hope? A smiling rainbow
Children follow through the wet;
'Tis not here, still younder,
Never urchin found it yet.
Never urchin found it yet.
What is life? A thawing ice-board
On a sea with sunny shore;—
Gay we sail; it melts beneath us;
We are sunk, and seen no more.
What is Man? A foolish baby,
Vainly strives, and fights and frets;
Demanding all, deserving nothing;—
One small grave is what he gets.

—Carlyle.

Report From Victoria

By HON. W. D. BLACK,
Provincial Secretary,
Minister of Municipal Affairs,
Minister of Social Welfare

We are in our thirteenth year of hospital insurance coverage, with around 90 approved acute-care hospitals in our province. We are also making good progress in the chronic care hospital insurance program.

We have become accustomed to this very necessary plan and sometimes we may forget that not all the provinces enjoy the same coverage. Some time in January the province of Quebec hopes to have its hospital insurance plan in effect. Quebec possesses 29 per cent of Canada's total population. When we consider that over 5 million people are just planning a program that we have had in operation for over 12 years, our progress becomes more significant.

Granted, when Quebec has her plan in operation, every province in Canada will have an acute-care hospital insurance program. However, in comparison to British Columbia, this will have taken 13 years to fully materialize. May we wish Quebec every success in her venture.

As most people will know, British Columbia has progressed in the hospital insurance program to the point that, on September 1, a coverage program for rehabilitation, chronic treatment and convalescent care became effective.

In starting this new program, we are faced with a shortage of hospital facilities which can provide this particular level of care. The several hospitals that qualify at the present time are either situated in the Lower Mainland, or on Vancouver Island. However, other hospitals throughout the province are displaying a keen interest. It may be expected that in a short time other hospitals will be making the necessary facilities available so that they will qualify under the program.

In addition to the requirements of this new program, there must also be provided adequate nursing home facilities for the bedridden, aged and infirm. Therefore, in addition to the new Rehabilitation, Chronic Treatment and Convalescent Care program, a new program of grants-in-aid is available to non-profit societies to assist in the construction of nursing home type facilities.

Tonight's the Night The Budget's Read

By ALAN DONNELLY
Canadian Press Staff Writer

OTTAWA (CP)—Canadians will learn Tuesday night whether Finance Minister Fleming has pre-Christmas tax cuts in his bag of budget surprises.

They will get the news after the 55-year-old minister rises in the Commons at 8 p. m. EST (6 p. m. MST) to read the carefully-guarded secrets of his second budget speech of the year.

It has been called a "baby budget" — a supplement to his budget speech last March 31 which set out the government's financial program for the 1960-61 fiscal year that ends next March 31.

The new budget will certainly revise his previous forecast of a $12,000,000 surplus.

REVENUES LAGGING

With the current economic slowdown, federal tax revenues have been lagging behind last spring's expectations. The spring budget was based on a forecast six-per-cent economic growth to a Gross National Product in 1960 of between $36,500,000,000 and $37,000,000,000. Instead, gross national production took a downturn during April-June.

Moreover, government spending on a number of programs to stimulate the economy is expected to exceed last spring's forecast.

There has been considerable speculation that tax reductions as a further stimulus may be on the books. Much of this speculation has centred on possibilities of a change in the corporation income tax—now 50 per cent on profits over $25,000.

Prime Minister Diefenbaker may have dropped a hint on this score in a Dec. 7 speech in which he referred to the need for generating more jobs in canada.

"It should be made very clear to Canadians that it is only through profits that jobs can be maintained," he said in an address at the government's export promotion conference.

Some observers have said the government would have a political problem if it cuts corporation taxes without reducing personal income taxes as well.

INVESTMENT BOOST SEEN

There have also been suggestions that Tuesday night's budget will take a step towards encouraging more investment by Canadians in the country's development. The speech from the throne at the opening of the Parliamentary session contained these words:

"You will be invited to consider means by which to encourage a greater participation by Canadians in the ownership and control of industry and resources in Canada."

Speculation on how this might be accomplished has ranged from the idea of a government-sponsored national development ing Canadian investors only.

TARIFF MOVE LIKELY

One important tariff move seems likely. The throne speech announced the government's plans to revise the tariff definition of goods "of a class or kind made in Canada."

Under this decision, imports of some goods can enter Canada at lower rates if they are not of a kind made in Canada. The practice has been to grant higher tariff protection if Canadian production of the imported article exceeds 10 per cent of total Canadian consumption of it.

At last report the government was in the red by $10,300,000 in the first seven months of the fiscal year—a period when the government normally would have to build up a surplus if it hoped to break even at year's end. It's at the end of the year that bills pile up.

The last three fiscal years have all produced budget deficits, totalling some $1,051,000,000.

CUBA, HUNGARY SIGN

VIENNA (AP) — Communist Hungary and Cuba signed an agreement Sunday establishing diplomatic relations, Budapest radio said.

Learning First School Board Official Urges

TORONTO (CP) — Thomas H. Goudge, vice-chairman of the Metropolitan Toronto school board, said Monday that "the academic aspects" of education must come before such physical things as hockey.

He was commenting on a Globe and Mail story that quoted Stafford Smythe, general manager of the Toronto Marlboros organization of the Ontario Hockey Association Junior A division, as saying that junior hockey is being imperilled by unreasonable demands for high pass marks.

Sports editor Jim Vipond, in a dispatch from New York, quoted Smythe as saying boys are being pressed to get high grades or give up hockey.

"It seems that every time the Russians send up another Sputnik our educators want us to create more geniuses."

Mr. Goudge said: "Physical education must be supplementary to the basic education program — the academic aspects must come first."

Finance Crisis Faces New Orleans School

NEW ORLEANS (AP)—Money was a prime issue in the school integration struggle Monday as both the New Orleans school board and the legislature sought ways out of a tangled financial crisis.

The school board considered accepting a surprise offer of a $500,000 loan from Miss Ellen Steinberg, a St. Louis heiress. The offer was made in New York over the weekend.

In Baton Rouge, legislators scheduled a committee hearing on a one-cent sales tax that could net an estimated $45,000,000. Administration leaders said the money would pay the way for white students who wanted to go to private segregated schools.

Another bill would tax advertising in newspapers. Newspaper editorials have criticized certain aspects of the segregation fight.

Louis G. Riecke Sr., school board president, sent a telegram to Miss Steinberg thanking her board would weigh it seriously.

WANTS SCHOOLS OPEN

Miss Steinberg, daughter of millionaire banker and philanthropist Mark C. Steinberg who died in 1951, said she offered the money to help keep schools open. She asked the board to repay her —if possible.

The legislature has frozen school funds and warned banks they would honor school board cheques at their own risk. The board needs $3,000,000 to $4,000,000 to pay salaries and bills through June, 1961.

A three-judge federal court is expected to rule soon on the board's request for a court order to force four New Orleans banks to release school money.

Integration at two New Orleans elementary schools entered its fifth week.

Three Negro girls have been attending McDonogh No. 19 school, where a total white boycott is in effect. One Negro girl attends William Frantz school. Eight white children also attended Frantz school most of last week.

Servatius To Defend Eichmann

TEL AVIV (Reuters) — West German lawyer Dr. Robert Servatius arrived here by air Sunday night and said he would definitely defend former Nazi official Adolf Eichmann at his trial on charges of masterminding the Second World War deaths of millions of Jews.

Previous reports from Germany quoted Servatius as saying he would drop the case if "memoirs" attributed to Eichmann published in Life magazine were genuine. Servatius said Sunday night the "memoirs" were a "confession of facts but not of guilt."

Aunt Het

Marriage means a lot to a poor woman. It's the only time she gets to dress up with every stitch brand new at the same time.

Former U.S. Officer Weds Moscow Girl

LONDON (Reuters) — William Martin, a U.S. security officer who defected to the Soviet Union, has married a Russian girl in Moscow, the Soviet news agency Tass reported Monday.

Tass quoted Martin as saying in an interview that he has married a "wonderful Soviet girl and housekeeper."

Martin and Bernon Mitchell, code clerks employed by the national security agency in Washington, fled to the Soviet Union last summer.

Fireman Puts Case Before Association

ORILLIA, Ont. (CP)—An Orillia fireman who says he was fired for refusing to take out the town fire chief's garbage, Sunday turned his case over to the international Association of Professional Firefighters (CLC).

Robert H. Macdonald, 35, said he was ordered home Friday when he refused to obey orders of Lieut. Robert Shropshire to take out garbage from the private apartment of Chief Donald MacLeish above the fire hall.

"I feel it is not proper to enter the private apartment of the fire chief, on orders of any fire department officer, to do his lackey work," Macdonald said.

Moscow Radio Scolds Portuguese

LONDON (AP)—Moscow radio charged Portugal Monday with attempting to "drown in blood" growing demands by its African colonies for freedom.

The broadcast claimed reports of bloodshed and violence in Mozambique and Angola have leaked out.

The Soviet radio gave a list of alleged bombings, shootings, burnings and lootings dating back to March 29, 1959, and asserted that hundreds of Africans had been shot or thrown into jail.

The broadcast claimed Portugal has 20,000 troops in Angola, which borders on The Congo, and plans to increase the force to 60,000 in the near future.

Crews Clearing Train Debris

BENTON, Ark. (AP) — Work crews Monday began clearing the debris from a train derailment which erupted into flames after an explosion Saturday at nearby Traskwood.

The town's 200 residents, grateful that the blast caused only one serious injury, turn to repairing their shattered homes. Sixteen other persons sustained minor injuries.

Missouri Pacific Railroad officials attributed the derailment of 23 cars to a failure in a journal, part of the wheel mechanism. Still unknown is the cause of the explosion, which sent flames shooting 1,500 feet into the air and was heard 45 miles away.

Mayor E. A. Still estimated that 90 per cent of the village's homes were damaged. The town was evacuated after the first blast.

Before new tracks can be laid a blast crater 100 feet wide, 150 feet long and 75 feet deep must be filled.

Harry Dodridge, 63, who was thrown against a tree by the concussion, was the only injured person admitted to hospital.

Silver Slipper Dance Club Has Christmas Dance

Couples of the Silver Slipper Dance Club enjoyed their Christmas dance Friday evening in the ballroom of the Nelson hotel.

Individual tables centered with tiny seasonal centerpieces gave a cabaret effect to the hall. At the long refreshment table, an arrangement of red carnations and green boughs was complemented by tall red tapers.

Committee for the affair included Mrs. D. J. Thomson, Mrs. Glen Ellwyn and Mrs. J. J. Morey. Mrs. B. E. Latremouille was in charge of tickets for the second dance of the season which includes four evenings of dancing.

Mrs. Wigen Reelected President Wynndel WI

WYNNDEL — Mrs. M. Wigen heads Wynndel Women's Institute following recent election of officers. Mrs. Wigen is supported by secretary-treasurer, Mrs. J. Firth; directors, Mrs. T. Mountford, Mrs. Eda Foster, Mrs. J. Crane and Mrs. Fred Hagen. Auditors named for 1961 were Mrs. A. Hagen and Mrs. F. Merriam. Mrs. Merriam was chairman for the election.

The yearly subscription for the Nelson Daily News will be renewed, to be sent to the Wynndel room at the Creston Valley Hospital, for which service many patients have expressed their appreciation.

A donation of $10 will be sent to the Solarium. Christmas cards will again be sent out to newcomers and elderly people in the district as nesting tables and four chairs are well as persons living alone. Four being purchased by the Institute to assist the Community Club in providing more equipment for the hall. S. Moseley, who has acted as librarian during the year, was thanked for his services. The East Kootenay travelling library provides interesting reading for all kinds of age groups.

The first card party for the winter season, to be sponsored by the W.I., will be held January 18. The card party series planning committee includes Mrs. S. Moseley, Mrs. J. Firth, Mrs. M. Wigen, Mrs. B. Hagen and Mrs. F. Merriam.

The baby clinic, which is held on the third Tuesday, will be in charge of Mrs. Janzen and Mrs. Davidge for December and Mrs. K. Freed and Mrs. S. Moseley for January.

Discussion was held regarding the articles for the district display. The executive has decided upon a stuffed toy, pair of fancy knitted socks, any article made from a flour sack or one yard square of white cotton material. A display of handicrafts will also be held at the time of the district convention in May.

A vote of thanks was given to the 1959 director's board and members by Mrs. M. Wigen and the community as a whole for its support during the year.

Mrs. K. Freed and Mrs. S. Moseley were on the social committee.

The annual report for 1960 indicates the following accomplishments:

Assisting a needy family with a layette for their baby, also a burned-out family with bedding, clothing and other necessities, and sponsoring a shower for them; baby clinics for examination and inoculation of pre-school children, each with tea served to the mothers; a canvass for the Canadian National Institute for the Blind, and also a Cancer Association blitz, donations to various charitable organizations; activity on behalf of the Wynndel Community Library, which is part of the East Kootenay Travelling Library; sponsoring a collection for UNICEF and also a hospital fruit and vegetable shower.

A delegate was sent to the provincial WI convention in Vancouver and two carloads of delegates attended the East Kootenay district convention held at Grasmere, and two carloads also attended the Boundary County Homemakers at Bonner's Ferry.

Queen Elizabeth souvenir spoons were ordered and many sold; first prize was won for the community exhibit sponsored by the WI; second prize was won for articles displayed at the regional conference.

The Women's Institute has endeavored to promote good public relations in the district. Three successful card parties were held during the early part of the year; teas and bake sales were supported by the whole district; the Hallowe'en party was held for the youngsters up to grade 6; donations "in memoriam" are made to the Solarium fund annually.

Teachers Direct Play, Singing At PTA Meeting

KIMBERLEY — The McKim-Selkirk Parent-Teachers Association meeting attracted an attendance of 200 parents and children when 90 members of the Junior High School Drama Club and choir presented a nativity play, interspersed with favorite Christmas carols.

The production was directed by Mrs. Margaret Bates, art teacher, and Mrs. Gertrude Fraser, music instructor.

Outstanding costumes, scenery and lighting contributed to beauty of the production.

Presentation of corsages to the two teachers responsible for the the entertainment by P.T.A. president, Mrs. A. Oliver was loudly applauded by an appreciative audience.

Refreshments were served following the play.

BROWNIE SALE PROCEEDS $16

SALMO — Brownie leaders Mrs. T. Kennedy and Mrs. Uphill received staunch support from pack members who turned out in uniform to assist with the sale at a downtown store to raise money for membership fees.

Proceeds realized from the sale amounted to $16.

Committee Conveners Chosen

Final plans for their Christmas tree party and concert to be held Wednesday night at 7 p.m. were finalized by the Granite Road Women's Institute meeting at the home of Mrs. J. Mondini.

Conveners were chosen for various committees: Mrs. B. A. Pickering for the sunshine committee; Mrs. Mondini for the home economics committee; Mrs. G. R. Pickering for social welfare; Mrs. J. Doerksen for agriculture; Mrs. Fred Olson and Mrs. B. A. Pickering for citizenship.

Gifts to be taken to Mount St Francis Infirmary for Christmas were wrapped.

The Institute Christmas party was planned for January, to be held at the home of Mrs. B. Norcross.

Hostesses for the meeting were Mrs Olson, Mrs. W. C. Leahy and Mrs. G. R. Pickering.

Etcheverry Stuck in Canada Whether He Likes It or Not

Must Seek a Court Ruling if He Balks

By JACK SULLIVAN
Canadian Press Staff Writer

TORONTO (CP)—Sam Etcheverry may as well face it, he's ticketed to play his professional football in Canada next year. If he balks at the idea, he can go to court for a ruling.

This, in effect, is the decision of Commissioner G. Sydney Halter of the Canadian Football League. The Winnipeg lawyer squelched rumors concerning the future of the 30-year-old quarterback by declaring Saturday he is not free to play in the United States in 1961.

The Montreal Alouette player, traded with end Hal Patterson for Hamilton Tiger-Cats' quarter Bernie Faloney and guard Don Paquette last month, had a no-cut, non-trade clause in his contract with the Als, which meant he couldn't be peddled off without his consent.

The Als didn't talk it over with him and immediately speculation arose that the contract breach gave him a free hand to play with any club he wished.

Not so, Halter said in an interview during a break in the closed weekend sessions of general managers of the nine pro Canadian clubs. They met to sort out details of the two-year East-West partial interlocking schedule starting next year.

SCHEDULE DRAWN UP

The managers decided 20 interlocking games between the eastern Big Four and the five-team Western Interprovincial Football Union would be played in 1961 and also in 1962—10 in the East and 10 in the West—and drew up a tentative schedule but did not decide on firm dates.

They also recommended a change in the Grey Cup game date, but this has to be passed at the CFL annual meeting in Winnipeg, Feb. 9-11.

Commenting on the surprise Etcheverry trade and rumors, Halter said the 30-year-old former University of Denver star must play with Tiger - Cats in 1961 or be waived out of the Big Four and WIFU before he can play with an American team. No club in Canada would pass him up.

The no-trade clause in the contract was an issue only between the player and the Montreal club, Halter said, and had no bearing on the question whether Etcheverry was a free agent.

Etcheverry has promised Ticat officials he will let them know by Friday whether he is willing to play for them next year.

DATES POSE PROBLEMS

"There are *still quite a few* problems" to settle before firm dates of interlocking games are drawn up, Halter said. The general managers will get together again in Pittsburgh on Jan. 10 and in all probability, will have *something concrete to offer* at the CFL annual meeting. The Canadians will be in Pittsburgh for the annual American college coaches' convention.

Tentative agreement was reached for the following schedule of games for 1961 and 1962:

1961 — Eastern teams in the West: Ottawa and Hamilton at Winnipeg, Regina and Calgary; Toronto and Montreal at Edmonton and Vancouver.

Western teams in the East: Saskatchewan Roughriders, Winnipeg Blue Bombers and Calgary Stampeders at Toronto and Montreal; British Columbia Lions and Edmonton Eskimos at Hamilton and Ottawa.

1962 — Eastern teams in the West: Toronto and Montreal at Winnipeg, Regina and Calgary; Ottawa and Hamilton at Edmonton and Vancouver.

Western teams in the East: B.C. Lions and Edmonton at Toronto and Montreal; Saskatchewan, Calgary and Winnipeg at Hamilton and Ottawa.

The Grey Cup final is certain to be played at Toronto on Saturday, Dec. 2, next year, departing from the traditional last-Saturday-in-November date. Halter said the general managers felt the game should be played the first Saturday in December to provide more leeway in working out the interlocking schedule.

Half-Baked Maroons Leave For Europe

MONTREAL (CP) — Winnipeg *Maroons, a senior - calibre team* without a league and short on workouts this season, left by air Monday night for a Czechoslovakian hockey tour minus four players and dour about the prospects of winning.

Gordon Jukes of Estevan, Sask. the secretary-manager of the Canadian Amateur Hockey Association, was among those who saw the team off. He said he'd be happy if the Maroons broke even on the tour.

Team manager Terry Hynes said:

"We've got a pretty good club but you can't go over and expect to win games four men short and with little playing time behind you."

He said Maroons have made only seven appearances this season and have had only 75 hours practice.

The nine - game tour starts Thursday and ends Jan. 4. In that stretch, the Maroons will meet teams ranging from junior calibre to top European status.

18 PLAYERS ON TRIP

Eighteen players made the trip. Among those left behind for personal and business reasons were first-string goalie Gord Dibley and top - line centre Fred Dunsmore.

But it was hoped that the two would find their way clear to rejoin the club in Czechoslovakia next week.

Winger Chuck Lumsden and defenceman Bill Johnson were the others unable to make it.

The Winnipeg roster lists knocked around virtually every league on the continent. Bill Juzda, 39, a hardrock defenceman who played seven years in the National Hockey League, is one of the rearguards.

Top Australian Cup Player Has Bursitis

MELBOURNE (AP) — Neale Fraser, Australia's top singles player, may have to undergo a minor knee operation before the Davis Cup challenge round against Italy in Sydney Dec. 26-28.

Fraser is suffering from bursitis —a small gathering of fluid — behind the left knee.

Australian captain Harry Hopman is quoted as saying specialists are considering draining the fluid from Fraser's knee in the hope that he will make a speedy recovery. It is only a minor operation but there is a risk of fluid reforming in two or three days.

Stamps Locked in First Spot In WHL Scoring Leadership

VICTORIA (CP)—Lou Jankowski and Ron Leopold of Calgary Stampeders are still locked in a two-way battle for the Western Hockey League scoring leadership.

Stampeders played only two games last week but Leopold got four assists and his 22nd goal to pull even with Jankowski with a 43-point total. Jankowski got his 24th and 25th goals, plus an assist and loomed as a challenger for Doug Adam's league record of 53 goals for one season.

The two have an eight - point edge over Seattle's Rudy Filion with 35 points. Seattle playmakers Guyle Fielder and Marc Boileau have 34 and 32 points respectively.

Biggest gainer of the week was hard - skating Calgarian Gordie Vejprava who scored four goals and made three assists.

Calgary Goalie Lucian Dechene leads the goalkeepers with a 2.10 goals - against average, followed closely by Vancouver's Claude Evans with a 2.30 average.

Seattle defenceman Frank Arnett continued to lead the penalty parade with 80 minutes in 27 games.

The leaders:

	G	A	Pts
B. Jankowski, Calgary	25	18	43
Ron Leopold, Calgary	22	21	43
Rudy Filion, Seattle	12	23	35
Guyle Fielder, Seattle	8	26	34

U.S. Pro Golfers Release Sched

LUNEDIN, Fla. (AP) — The United States Professional Golfers Association Monday released a summer tournament schedule which adds about $850,000 to the prize money for which touring pros will play this year.

The winter tour, ending with the Masters Tournament in early April, carries about $600,000 in prizes. Still to be arranged are two summer dates and the fall schedule.

The total for 1961 likely will be larger than the listed prizes and probably will exceed the 1960 figure of $1,600,000, J. Edwin Carter, PGA national tournament director, said.

Two new summer tournaments *are the $50,000 American Golf* classic at the Firestone Golf Club, Akron, Ohio, site of the 1960 PGA championship, and the $20,000 Waco Turner Open at Burneyville, Okla., which runs concurrently with the Las Vegas Tournament of Champions.

Science Now Shrinks Piles Without Pain or Discomfort

Finds Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In case after case, while gently relieving pain actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a famous scientific institute.

Now this new healing substance is offered in *suppository or ointment* form called *Preparation H.* Ask for it at all drug stores—money back guarantee.

NHL's Big Seven

By The Canadian Press

Montreal's Henri Richard made a bid to join his teammates Bernie Geoffrion, Dickie Moore and Jean Beliveau as the league scoring leaders in weekend National Hockey League action.

The diminutive centre scored one goal and assisted on another as Canadiens defeated Boston Bruins 4-2 in Boston Sunday. He now has 35 points, for fifth place.

Geoffrion remains first with 49 points while Moore and Beliveau follow in second and third place respectively.

The leaders:

	G	A	Pts.
Geoffrion, Montreal	24	25	49
Moore, Montreal	25	21	46
Beliveau, Montreal	14	30	44
Mahovlich, Toronto	29	11	40
Richard, Montreal	16	19	35
Howe, Detroit	10	24	34
Ullman, Detroit	9	25	34

Strikes 'n' Spares

Results of Monday night men's Five Pin bowling: Gordons 3 Odd Balls 1, Notre Dame 3 Clarkson 1, Royal Bank 3 Scholars 1, Playboys 1 Bouchard 3, Mac Bev 3 Rams 1, Civic 4 Two Petes 0. High single Red Brochu 330; high aggregate, Pete Fahlman 913; team high single, Bouchards 1138; team high aggregate, Mac Bev 3066.

Turkeys were won by: Fred Bradley, Bill Cartwright, Jerry Grant, Warren Ife.

WITH STANE AND BESOM

Results of Nelson Curling Club competitions:

Section C playoffs:

R. Boates 10 A. Allan 12 (extra ends)

R. Nash 9 H. Farenholtz 8

L. Bicknell 11 E. Hunt 7

J. Harvey 9 G. Barefoot 4

Section D playoffs:

D. Hans 1 L. J. Muarer 13

Tuesday draws:

7 p.m. H. Ronmark (winner of section F) vs. A. Allan (winner section C); J. Leeming (winner of section E) vs. L. J. Maurer (winner of section D).

Winners play again at 9 p.m. J. Harvey (winner section A) vs. D. Cathcart (winner section B).

Fight Set March 13

NEWARK N.J. (AP) — The third Floyd Paterson-Ingemar Johannson world heavyweight title fight will be held March 13 in Miami's Orange Bowl, the Newark Star-Ledger said *Monday night.*

Once Penniless, Buys Athletics

CHICAGO (AP)—Charles Finley, virtually penniless 13 years ago, Monday bought himself control of Kansas City Athletics baseball club for $1,975,000.

For six years the suave 42-year-old group insurance baron has been trying to buy a major league club.

Probate Court Judge Robert Dunne Monday approved Finley's bid for 52 per cent of the Athletics' stock left in the estate of the late Arnold Johnson.

Finley mushroomed into a multi-millionaire on a plan to sell high income group insurance to doctors. He devised it while recuperating from a 27-month seige with tuberculosis a dozen years ago.

In gaining the majority stock, Finley outbid a Kansas City syndicate by $125,000.

Warriors Drop 4-1 Decision to Cougars

WINNIPEG (CP) — Winnipeg Warriors bounced several pucks off the goalpost and dropped a 4-1 decision to the Victoria Cougars in a Western Hockey League game Monday night.

The Warriors hit the goalpost three times in the third period alone in the game before 3000 fans at the Winnipeg arena.

The win moved the Cougars four points ahead of the last-place Warriors, who were left with 18 points in the WHL standings.

Gordon Labossiere, a recent acquisition from Edmonton Flyers, scored the only Winnipeg goal at 2:05 of the first period to give the Warriors a 1-0 lead at the end of the first period.

Wayne North, Jim Hay and Bert Fizzell scored for Victoria in the second while Bill Saunders counted for the visitors in the third.

Labossiere's goal came after he grabbed the puck at centre ice, beat one defender, then walked around defenceman Hugh Currie and slammed the puck into the net from 15 feet out.

North's goal came on a rebound shot after Warriors' goalie Harry Lumley blocked a shot by Doug Macauley at point-blank range.

Lumley never saw the puck on Hay's goal. Hay fired it from the boards 35 feet out with Macauley blocking Lumley's vision in front of the net.

Fizzell's 50-foot blueline shot bounced into the net off Lumley's glove.

In the third period, veteran Lorne Davis hit the Victoria goalpost with two minutes gone. A bouncing shot by Al Nicholson hit the post again 10 seconds later and Davis did it again still later.

The Warriors pressed to the end but ran up against a tough Victoria defence. With only 23 seconds left, Saunders connected with the only goal of the third.

The Warriors had the Cougars penned in their own end much of the third period and often throughout the game.

Victoria's goaltending veteran, Marcel Pelletier, had 29 stops to 19 for former National Hockey League star Harry Lumley in the Winnipeg net.

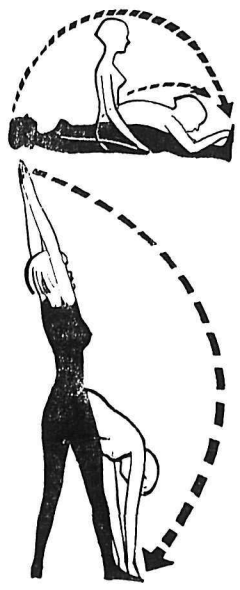
Enjoy Skiing with Anne Heggtveit

Anne Heggtveit, Canada's only skier to ever win a gold medal at the Olympics, is starting her series of instructional ski articles today. Miss Heggtveit's column will appear in The News five days a week.

NO. 1

Hello Ski Friends!

Meeting you this season is going to be a very enjoyable experience. I hope we shall have many new members in our family of skiers.



"Skiing is not merely a sport but a way of living." It doesn't take long to realize this. But as life has its problems, so does skiing. Perhaps some tips picked up in my many years of training both *here and abroad may help you* solve some of yours. As the season has now begun, let's start today.

To pick up where you left off last year as well as to prevent minor or major accidents, pre-season training is a must. Let's not forget that if all our muscles are in good condition we react more quickly and automatically when necessary.

For general fitness all year round there are several well-known exercises which I follow. (1) The sit-up. With hands at sides, sit up putting your head to your knees, stretching finger-tips to toes. (2) Toe touching. Clasp hands above head, knees stiff, touch toes of each foot alternately. Starting at *ten times for each exercise,* increase one a day until you reach thirty. Remember that speed is important and should increase as you progress.

I do hope that you will join these daily meetings and that you will feel free to write to me with your particular problems and questions.

Curvis Voted Best Young Boxer

LONDON (AP)—Britain's boxing writers Monday voted Brian Curvis, 23-year-old British and Empire welterweight champion, "the best young boxer of 1960."

Curvis headed John Caldwell, British flyweight champion, and Chic Calderwood, British light heavyweight champion, who were *tied for second.*

MADRID (Reuters) — Justice Minister Antonio Iturmendi has claimed that Spain has one of the lowest proportional prison populations in the world. Iturmendi said that Nov. 1 the total number of prisoners was under 16,000—representing 51.5 prisoners for each 100,000 of population.

Dallas Police Arrest Escapee

DALLAS, Tex. (AP) — Police early Monday arrested a former air force pilot who took part in the wartime atomic bomb raids on Japan and held him for return to a Veterans' Administration Hospital.

The former pilot is Claude R. Eatherly, 41, of Van Alstyne, Tex. He disappeared Nov. 22 from the VA hospital at Waco, Tex., where he was a mental patient.

A patrolman stopped a car for failing to halt at a traffic light and recognized Eatherly as the driver. He was accompanied by a woman.

Eatherly was the pilot of one of the B-29 bombers which flew reconnaissance for the planes dropping A-bombs on Hiroshima and Nagasaki in Japan. He received the Distinguished Flying Cross and other decorations.

Since his separation from the air force as a major in 1947, the tall and pleasant former flier has been a mental patient several times.

He pleaded not guilty by reason of insanity and won acquittal in 1957 on charges of breaking into post offices at Avoca and View, in west central Texas near Abilene. Testifying at the trial, a psychiatrist said Eatherly suffered from a guilt complex and once stated he felt responsible for killing 100,000 people in Hiroshima.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

P W K Q U A G R R J Q R R O I F K O
F K Z D I G U I Y B I X R U A R O Q R
R Q W I Y A — V S B Y I Q U S A.

Yesterday's Cryptoquote: NO ONE REGARDS WHAT IS BEFORE HIS FEET; WE ALL GAZE AT THE STARS—ENNIUS.

HELP WANTED

OPPORTUNITY OF A LIFETIME
We do not believe selling is actually a way of life. A successful salesman is not born, but rather created by instruction in the art of human relations.
Therefore, a large progressive systematic savings corporation, with a terrific opening for salesmen, is offering, absolutely without obligation, a free evening sales course to be conducted in Nelson, beginning *January 30.*
We are looking for the services of high calibre men and women, who sincerely want to improve their status in life.
For further particulars apply to Box 3409, Nelson Daily News.

SIMPSONS-SEARS — Nelson

MARKET TRENDS

NEW YORK (AP)—The stock market closed slightly lower Monday.

Steels fell as the industry operating rate declined again in view of approaching shutdowns for the holidays.

Most aircrafts also took a mild *downtrend. Autos nudged ahead* on balance, with Ford up ¾. The picture was mixed for chemicals, tobaccos, electronics, and nonferrous metals. Oils were easy. *Drugs made some fair gains.*

The Associated Press average of 60 stocks fell .50 to 219.10.

Volume was 3,630,000 shares with Standard Oil (New Jersey), *the most active issue, dropping* at 38¾ on 53,700 shares.

In the Canadian list, International Nickel gained ½, Distillers-Seagrams ⅜ and Canadian Pacifc ¼.

Mixed American exchange *quotations included Shawinigan* up ⅜ and Molybdenite ⅛ higher.

MONTREAL (CP)—The Montreal and Canadian stock ex*changes closed lower Monday.* Trading was light and changes mostly fractional.

Closing averages: Banks up 0.09 at 58.36, utilities off 0.1 at 141.6, industrials off 1.1 at 268.5, combined off 0.8 at 226.2, papers up 1.6 at 423.3 and golds down 1.04 at 70.58.

Losses of ½ were recorded by Canadian Iron at 18 and Interprovincial Pipe Line at 61¼. Steel Co. of Canada at 65¾ fell ¼ and B.A. Oil at 27⅜ eased ⅛.

Canadian Breweries at 43¼ added one point and Canadian Bank of Commerce gained ⅜ at 57⅛. Trans-Canada Pipe Line at 18⅞ and Royal Bank at 71 rose ¼.

Hudson Bay fell ⅜ at 45⅛ and Consolidated Smelters declined ¼ at 19¾. International Nickel at 56⅞ added ⅛.

Of the 225 issues traded, 58 advanced, 68 declined and 99 were unchanged.

Industrial volume was 92,200 shares, mines and oils 134,100 shares.

TORONTO (CP) — Industrials scored their twelfth consecutive success in a fairly active stock market Monday. There were modest increases on a broad front.

On index, industrials were up .50 at 511.44, with golds up .07 at 88.10 and Western oils up .42 at 79.38. Base metals eased .12 at 158.72.

Volume was 1,726,000 shares compared with the 1,690,000 shares traded on Friday.

Minnesota and Ontario Paper gained 1½ at 30½, and Abitibi, Consolidated Paper and Great Lakes *all improved* ¼.

Ford of Canada jumped ½ at 137, National Trust was up two points at 63, and Loblaw Groceterias Inc. gained 1¾ at 14.

Denison saw the only major change among senior uraniums, off 40 cents at $9.30.

Western oils were fairly strong, Pacific Petroleum gaining 20 cents at $9.65.

Your Individual Horoscope

By Frances Drake

Look in the section in which your birthday comes, and find what your outlook is, according to the stars. **For Wednesday, December 21, 1960**

MARCH 21 to APRIL 20 (Aries) — Many things may seem to go worng at same time, and most of all when we need our composure, dignity, clear thinking. Today may have some hazards: be careful, thoughtful.

APRIL 21 to MAY 21 (Taurus) — If you cannot get all issues and matters attended to that you wished, do as much as reasonable, without worry or strain, and start fresh tomorrow. Your best is always good.

MAY 22 to JUNE 21 (Gemini) — Mercury benefically placed suggests new contacts, renewing old ones of intrinsic value, assisting others who have not got as many advantages. Fine day for good deeds.

JUNE 22 to JULY 23 (Cancer) — Haste makes waste, remember? We forget this old admonition too often, and it is one of the truest. Speed qualifies if accuracy and sure-footedness accompany.

JULY 24 to AUGUST 23 (Leo) — Much better aspects and gains available than apparent. Dig deep, search out little advantages, they lead to big ones, ultimate high standing. Better-than-good opportunities.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Begin slowly *enough to* be safe, then accelerate tempo as you advance, never too greatly. Self-restraint always important — in all issues. Similar day to Sagittarius'.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Mixed aspects; you man run into less agreeableness than hoped for, but keep going at YOUR *affairs, remain duly ambi*tious. Smoothness comes with time, sturdy effort.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — If you have a feasible idea, work on it, discuss it with interested people. Keep trying, no matter the opposition; never be discouraged. BUT *happy associates* are an important factor.

NOVEMBER 23 to DECEMBER 21 (Saggitarius)—More suggestions about than may be usable, but hints from any wise, trustworthy sources should be investigated for possibility. Don't agree with every trend.

DECEMBER 22 to JANUARY 20 (Capricorn) — Slow down occasionally to recheck, make sure you are on right road, under correct tactics and best procedures. We all should. Good aspects; but others' feelings call for attention.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Wait till you check, then make that move, but never lose opportunity. Today has unique gains for your leanings and talents. Awaken to the wider fields.

FEBRUARY 20 to MARCH 20 (Pisces) — More than just "good" offerings now, but HOW you re-act and identify and accept the challenges will show what results will be. Take care not to over-ride due authority.

YOU BORN TODAY: roundly *ambitious, uncluttered in thinking,* ready for new vistas, fresh responsibilities (IF true to better self, advancing with the energetic, clear-headed people of your Sign). To hit *the mark soon and often* you may sometimes disregard diplomatic necessities: This is not wise. Yes, be direct, rugged, but some tact and co-operation for good of all *must exist,* and you are first to agree to this when really thinking. Economical with time, talents, you can do much in little time, and since not afraid of work, you reach *heights often* untried-for by others. Protect strength by conserving it. Birthdate of: Albert P. Terhune, American author.

New Broadway Play Surprise Of the Season

By WILLIAM GLOVER

NEW YORK (AP)—A big surprise of the Broadway season is All the Way Home, which went from box-office bomb to boom in 24 hours.

"Which just proves that not all drama happens onstage," says producer Fred Coe.

Based on the novel, A Death in the Family, which posthumously won James Agee the Pulitzer Prize in 1958, the play opened Nov. 30 to five respectful reviews and two rave reviews in the New York daily newspapers.

The box office sold just $883 of tickets the next day—not enough to cover one day's operating costs. The grim decision to close Saturday night was published. That did it.

The following day, Friday, box office revenue jumped to $2,600. On Saturday receipts at the matinee were $3,754, for the evening performance, $4,011.

Coe and Arthur Canto, his co-producer, decided that night to give the show another chance. With $25,000 on hand from the initial capitalization of $150,000, they determined to "give the play a chance to finds its public."

Ed Sullivan lauded the drama on his television show and other enthusiasts bought newspaper ads extolling the drama of a boy and his family.

The last-minute box office boom held steady: $27,000 the first full week, $20,000 last week despite Monday's blizzard.

"We're in; we're in," said Cantor. Tickets are now selling through February — and after that, who knows? The once-unhappy sponsors now feel that it may rank high when the annual theatre awards come along in early spring—which could stimulate a further ticket torrent.

Embassies Confirm France-Israel Joint Research

LONDON (AP) — The Israeli embassies in London and Paris confirmed Monday that France and Israel are engaged in joint atomic research but said it "is concerned only with the use of atomic power for peaceful purposes."

Both Israel's ambassador to Britain, Arthur Lourie, and the Israeli embassy in Washington denied reports published in Washington and London that Israel is trying to build an atomic bomb. Some of the reports said the French were helping secretly.

Information was said to have reached U.S. intelligence agencies that Israel *would be capable of* exploding its first nuclear device within a year. The Washington Post said Israel had developed a nuclear reactor secretly and *might produce a nuclear weapon* in about five years.

CAN'T AFFORD BOMB

An Israeli Embassy spokesman in London said his country has neither the means nor the intention to manufacture an atomic bomb.

"We have been conducting a *joint project* with France on developing isotopes and heavy power," the spokesman said. His government is building a reactor using enriched uranium it got under President Eisenhower's atoms - for - peace program, he said.

An Israeli Embassy spokesman in Paris said the reactor, located *near Rehovoth,* would go into operation within a few days.

DIGGING FOR BEER

ORLANDO, Fla. (AP)—Police have padlocked the gate leading to the city dump because people were digging to reach several truckloads of beer dumped in a trench. There was speculation the beer was discarded because some of the cans were only partially filled in the bottling process.

Net Earnings

By THE CANADIAN PRESS

British Mortgage and Trust Company, year ended Oct. 31: 1960, $204,185; 10 mos. ended Oct. 31: 1959, $189,671.

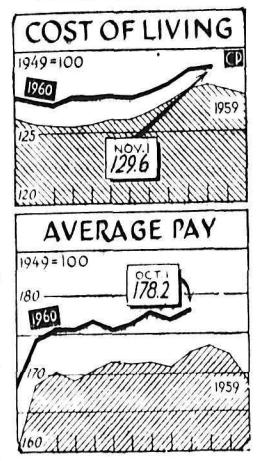
Donohue Brothers Ltd. 9 mos. ended Sept. 30: 1960, $810,345, $1.35 a share; 1959, $677,116, $1.13.

Dover Industries Ltd., year ended Sept. 30: 1960, $ 81,440, 1959, $295,592.

Imperial Flo-Glaze Paints, year ended Aug. 31: 1960, $115,879, $1.78 a share; 1959, $201,813, $3.04.

SOVIET OPENS TUESDAY

MOSCOW (AP)—The Supreme Soviet (parliament) opens a holiday season session Tuesday for meetings expected to deal primarily with the 1961 budget. When the Supreme Soviet met last May, Premier Khrushchev rocked the world with the announcement that an American U-2 plane had been shot down over Soviet territory.



***RECORD HIGH — Canada's* cost-of-living index reached a record high for the third straight month, rising two-tenths of a point to 129.6 at Nov. 1. Previous high was 128.3 a month earlier. Upper graph traces living costs, based on 1949 prices equalling 100, for 1959 and to date this year. Lower graph shows the index of average industrial wages and salaries. The index, based on 1949 figures equalling 100, was 178.2 at Oct. 1, up 1.4 from 176.8 at Sept. 1. (CP Newsmap)**

B.C. Highlights

THIEVES ATTACK MAN

VANCOUVER (CP)—Loren McAdie, 40, was hit on the head with a crowbar Sunday when he called at his office and found two men trying to force open a safe. As he entered his office and turned on the light a man stepped from behind the door and struck him with the crowbar.

LIBERAL RESIGNS

VANCOUVER (CP) — Lawyer Frank Lewis has resigned as president of the B.C. Liberal Association due to the pressure of business. Mr. Lewis, long - time Liberal and president since May, 1959, said he will continue to give the party his full support.

GOODWILL MISSION

VANCOUVER (CP)—About 55 members of the Vancouver Board of Trade will visit Britain, Italy and Switzerland on a 22-day tour leaving Vancouver April 2. R. D. Noble, tour chairman said it is a "trade mission but also a good-will mission."

U.S. Acra Embassy Seeks Source of Ku Klux Klan Plot

ACCRA (Reuters) — United States embassy officials said Sunday they were trying to identify the organization responsible for a violently anti - American pamphlet linking the U.S. government and the Ku Klux Klan in a "Congo plot."

The 16-page, pocket-sized pamphlet now circulating here accuses the KKK, an American racist group, of "organizing special units of racist killers to be sent" to the troubled former Belgian Congo.

It claims the U.S. government "supplies these gangs with money and arms."

The pamphlet purports to be from a group of American Negroes calling themselves the "American Friends Association."

Suspect Youths Of Cutting Burglar Alarm

MONTREAL (CP) — Police squad cars and beat patrolmen moved quietly through north-end streets throughout Sunday night following the deliberate cutting of a main burglar alarm cable.

The cable, carrying more than 200 wires and connected to police headquarters and the Dominion Electric Protection Company, provided protection for about 200 banks, trust companies, fur depots and other businesses in a 27-square mile area.

Police fears that the break was the work of an organized gang were increased when 200 subscribers found their telephones dead and several pay phones had their receivers ripped out.

Insp. Leo Tremblay, co - ordinating police operations, said early Monday, "We're working on the assumption that the men who did this were after the big money."

While a Bell Telephone crew worked to repair the circuits, Dominion Electric provided police with a list of 21 key businesses in the area. Police were posted at each one.

Phone calls went out to some of the 180 other Dominion Electric clients whose premises could not be guarded individually. Many owners rushed to guard their stores.

A couple reported seeing the cable being broken at 7:00 p. m. by two youths with an axe. "It took about 15 blows."

When they tried to phone police their line was dead.

It was expected to take until 9:00 a. m. to repair it.

DEATHS

By THE CANADIAN PRESS

Glace Bay, N.S.—Clarie Gillis, 65, CCF member of Parliament for Cape Breton South from 1940 to 1957.

Toronto—W. Gordon Mills, 74, former deputy minister of national defence.

Kingston, Ont. — Thomas McLeod, 87, who survived Antarctic expeditions which claimed the lives of the famed explorers Robert Falcon Scott and Sir Edward Shackleton.

New York—Stephen Baltz, 11, lone survivor of the double plane crash over New York Friday.

Hillsborough, Calif. — Paul I. Fagan, 70, [illegible] list and one-time minor-[illegible] baseball club owner, apparently of a heart attack.

Canada's Exports Cut Trade Deficit

OTTAWA (CP) — Canada's fast-growing export sales helped cut the country's deficit on international trade in goods and services to $114,000,000 in the third quarter of the year, the Dominion Bureau of Statistics reported Monday.

It was less than one-quarter of the deficit during the April-June period, and the smallest third-quarter deficit since 1955.

Commodity trade produced an "unusual" $98,000,000 surplus during July-September, the bureau said. In April-June there wa a merchandise deficit of $176,000,000.

Payments for so-called "invisible" items such as tourist travel, payments for foreign investments and freight costs, produced a $203,000,000 non - merchandise deficit. This was a reduction from a $289,000,000 deficit in the previous quarter.

This put Canada's balance of payments deficit in the first nine months of the year at $894,000,000 compared with $1,153,000,000 in the corresponding period last year.

GOODS DEFICIT DOWN

More than 5 per cent of the nine-month deficit was in invisible non - merchandise transactions—$764,000,000. The merchandise trade deficit was cut to $130,000,000 for January-September from $419,000,000 a year earlier.

Meanwhile, there was a continuation of the inflow of foreign capital which has served to finance most of Canada's balance of payments deficit.

The bureau said there were two notable features: A "substantial" inflow of capital for direct investment in foreign-controlled business and a "sharp" decline in the inflow of capital resulting from sales of stocks and bonds.

The country gained $146,000,000 in long-term capital during the third quarter—more than enough to finance the current account deficit for the period, but the lowest three-month figure since the final quarter of 1955.

In the first nine months, the inflow of long-term capital financed more than 85 per cent of the current account deficit.

Canada's merchandise exports during July - September totalled $1,400,000,000 — a record third-quarter figure — compared with $1,286,000,000 a year earlier.

OVERSEAS SALES BOOM

Merchandise exports in the first nine months of the year made a substantial rise to $4,007,000,000 from $3,703,000,000 a year earlier. Shipments to the United States were down slightly, but overseas exports expanded by more than 22 per cent.

Merchandise imports this year have shown little change from last year.

But the main factor in the balance of payments deficit continued to be the deficit in "invisible" non-merchandise transactions.

Payments of interest and dividends on foreign investments in Canada contributed to almost half of the $764,000,000 deficit on invisibles during the January-September period.

Payments to foreign investors exceeded income payments on Canada's investments abroad by $350,000,000 during the nine months, compared with a $329,000,000 deficit a year earlier.

Tourist travel produced another $132,000,000 deficit while freight payments led to a $59,000,000 deficit.

As usual, Canada's biggest deficit was with the United States—an over-all $951,000,000 deficit in the nine months. Of this, $501,000,000 was on merchandise trade.

There was a nine-month surplus of $105,000,000 in all transactions with the United Kingdom and a $48,000,000 deficit with all other countries.

Langi, C.Ss.R. will be the celebrant and interment will take place in the Soldier's Plot in Nelson Memorial Park. Rosary will be recited at the Thompson Funeral Home, to-night (Tuesday) at 7 p.m.

Narrow Defence Costs Payment

PARIS (Reuters)—West Germany and the United States have narrowed the gap to one per cent in their differences over a bigger German contribution to NATO defence costs, it was disclosed here Sunday night.

The U.S. wants to cut to 30 from 37 per cent its contribution to supply and installation costs, with West Germany increasing its share correspondingly.

A West German delegation spokesman said his government would be prepared to increase its share to 20 from 14 per cent, leaving a token one per cent which West Germany would like its allies to pay.

Odds... and Ends

... by M. D. B.

In less than a week Christmas will be just a memory to add to all the others. In some unique way to most people it will be just a little different than any before. To some young couples it will be their first together, their first in their own home, the first one they have shared with a small addition to the family circle and so on. Women, I believe are inclined to hoard these things in their hearts more than men. How often have you heard some mother say, "Why yes, remember, that was the Christmas Ginny couldn't make it home," or "That Christmas we had roast goose instead of turkey," or some such remark.

* * *

It always gives me a warm glow when I see parents making happy Christmases for their children. I don't mean lavishing expensive gifts on them — little gifts of love, to my mind speak more of the spirit of Christmas than giving children too much too soon. I mean carrying on little family traditions — special cookies, perhaps, or the ritual of trimming the tree together and of keeping good-natured despite the press of time. The latter, I believe is the hardest thing parents, especially mothers, have to do. It's not much use telling a child of the loving Mother Mary, and doing nothing but scold him as he goes with head in the clouds, flying with reindeer or indulging in other childhood fancies. Most children try to please, but if they don't always measure up to the errands and tasks at hand, it's probably because they are small replicas of older humans.

* * *

I notice quite a number of homes have sprouted colorful decorations, with doorways lit by Christmas lights and a few outdoor trees sparkling in the darkness. The little trees on the Baker Street lamp standards are covered with snow (as I write this) and the muted glow from the vari-colored lamps is as mysterious as the light that lit the Stable. To the lights surrounding the elevator tower at the hospital has been added a tree laden with colored lights — it is certainly lovely to see.

* * *

School will be out tomorrow and from there on the excitement will increase. With so much snow it would be wonderful if a few hills were designated for sledding to get the children out of mother's hair.

Father's Help Of No Avail

LONDON (AP)—Patrick Kinsella, who had a kidney grafted from his father in an operation that made British medical history, died Monday.

The graft was made in October. The father made a normal recovery. Patrick, 17, made good progress until last weekend, when he was rushed back to hospital for emergency treatment.

Canadian Soldiers Finish Winter Warfare Exercises

CHURCHILL, Man. (CP) — Seventy Canadian soldiers completed a winter warfare exercise Friday after battling a sub-Arctic blizzard near this northern outpost.

Winds up to 50 miles an hour whistled around the campsite of the army trainees 12 miles from here on the western shore of Hudson Bay Wednesday night. Blowing snow reduced visibility to zero.

But the only casualties in the four-day outing in the barrens and on an earlier trip were a few men with frostbite.

The last outdoor expedition 610 miles north of Winnipeg was part of a three - week instructors' course in winter warfare for 40 members of the group.

The remaining 30 who combined with them in the final rigorous fight with the elements were on a special two - week northern training course, an extension of similar training in their home units.

The men in the exercise came from units all the way from Balmy Victoria, B.C. to wintry Lunenburg, N.S.

SHUFFLED 60 MILES

All told, they shuffled 60 miles on snowshoes toting 80 - pound rucksacks and took turns hauling toboggans loaded with 150 pounds of camping gear and supplies.

Temperatures dipped to 10 below, mild for this region.

Protected by Canadian-designed arctic clothing, the men stood sentry duty around the clock and carried out day and night patrols.

They were taught to build defensive positions and snow caves as shelters and, when not too far above the tree-line, lean-tos and teepees.

It will be tougher next month when new contingents embark on similar courses. Officers said they expect January temperatures to dip to 40 below and winds to blow at 30 miles an hour.

The operation was under the command of Maj. Frank Battershill of Winnipeg. Assistants included Sgt. Maj. Neil McKerracher of Edmonton and Chatham, Ont. and Sgt. Al Erford of Regina.

Macmillan Plans Meetings With NATO Leaders

PARIS (AP)—Prime Minister Macmillan is reported to be planning a series of personal meetings with the leaders of Britain's three biggest Atlantic Alliance partners.

Informants said that barring unforeseen developments:

Chancellor Adenauer of West ness prevented this month.

Macmillan may come to Paris, possibly in February, for a meeting with President de Gaulle.

In March or April Macmillan will fly to Washington at the invitation of President-elect Kennedy, who by then will be president.
