France Not Interested In Tension-Easing Talks

Sees Little Use Until Russia Alters Policy

PARIS (Reuters)—France will not "associate herself" with present tension-easing talks among the United States, Britain and Russia, Foreign Minister Maurice Couve de Murville reiterated Tuesday.

He told the National Assembly the government does not object to the talks aimed at easing cold war tensions.

But since they started three months ago, "nothing has been concluded, no basis of agreement has emerged and no basis of agreement appears for the moment likely to emerge."

He also said France is a "loyal and sure" NATO ally although "perhaps a difficult one."

He said that for any useful discussion with Russia, "there must be a real transformation of the Soviet Union and her policy."

The aim of Russian diplomacy is to "crystallize the present situation (in Germany), that is to say (for the West) to recognize the East German Communist state and prepare the neutralization of (all) Germany, that is to say its detachment from the West."

The Russians want to "legalize the status quo" in Germany with the exception of Berlin, he said.

"On this subject (Berlin) nothing must be done according to the Russians to consolidate what exists, that is to say the Western presence," he emphasized.

REFERS TO TALKS

He said recent talks with U.S. State Secretary Rusk and British Foreign Secretary R. A. Butler gave him the impression they were "perfectly conscious of the facts of the problem."

On France's relations with the Atlantic alliance, de Murville said: "France is perhaps a difficult ally. She is above all a loyal and sure ally. When serious crises arrive everyone can bear witness to that."

Referring to the partial nuclear test-ban treaty, which France did not sign, the foreign minister said France wants destruction of the means of delivery of nuclear weapons and a ban on making them coupled with an adequate control system.

"At the right moment we will propose a new discussion with our atomic partners for what seems to us the best possible approach to the nuclear disarmament . . ."

FBI Arrests Spy Suspects

WASHINGTON (AP) — The FBI announced Tuesday night the arrest of an American electrical engineer and a chauffeur for a Russian trading corporation on espionage conspiracy charges.

The FBI said the two men were arrested on a parking lot outside the railway station at Englewood, N.J. Also detained were two employees of the Russian mission to the United Nations, the FBI said.

The FBI said the conspiracy involved documents and other data relating to a highly sensitive air force contract being handled by the American's employer, International Electric Corporation of Paramus, N.J.

The FBI identified two men arrested as:

John William Butenko, 38, a control administrator in the field operations division of the International Electric Corporation.

Igor A. Ivanov, 33, of New York, an Amtorg Trading Corporation chauffeur.

FBI Director J. Edgar Hoover said Butenko in his position had top secret clearance for access to classified information. Butenko and Ivanov were arrested Tuesday night following a clandestine meeting in the railway station parking lot.

HUNTER CHARGED

HAZELTON, B.C. (CP) — Russel Nelson of Seattle was charged with criminal negligence in the fatal shooting of a hunting companion last week.

Dan. F. Miller, 40, of Edmonds, Wash., was apparently mistaken for a moose and shot while a group of four hunters was in bushland 50 miles northwest of this community 120 miles east of Prince Rupert.

The bullet that killed Miller passed through his body and struck Wilfred Edward Love, a guide, in the leg.

Bail of $3000 was set for Nelson.

Miller, an architect, was the father of six.

A coroner's jury had ruled his death accidental.

PGE CREWS OFF TO ATTEND FUNERAL

VANCOUVER (CP) — Supervisory personnel hleped man two Pacific Great Eastern trains Monday night and today as crews "booked off" to attend the funeral of a conductor killed in a derailment near Squamish last week.

General manager Joe Broadbent said that the PGE shut down the freight yards and offices to permit as many persons as possible to attend the funeral of Joseph Pakulak.

He said he knew nothing of a report that train crews stayed off the job in "silent protest" over length of PGE trains.

Discussions on the length of trains, in progress with the workers representatives for some time, were still in progress. Similar discussions had been held for years on major North American railways.

WESTWOOD TO RESIGN SHORTLY

VICTORIA (CP) — Recreation Minister Earle Westwood, personally defeated in the Sept. 30 provincial election, said Tuesday he will resign from the cabinet in two or three weeks.

Mr. Westwood made the announcement following a meeting with Premier Bennett. He said Mr. Bennett had asked him to remain in office long enough for him to "clean up a few things" in his department.

The minister, who lost to New Democrat David Stupich by a 19-vote margin in Nanaimo and the Islands, said he and the Premier did not discuss the future.

"We just talked the whole situation over — the election and the results," he said.

Mr. Westwood said the question of his successor wasn't discussed.

Layoffs Loom In Shipyards

VICTORIA (CP) — A union official said Tuesday the federal government's scrapping of navy shipbuilding plans will probably mean layofss for three-quarters of the 2,000 shipyard workers in Greater Victoria.

James McConachy, local business manager for the Boilermakers Union, said he is sure there will be insufficient commercial work to keep all the shipyard workers busy.

He sent a telegram to Prime Minister Pearson Monday asking the government to institute a crash replacement program for the scrapped $450,000,000 frigate construction scheme.

The telegram, on behalf of 10 unions in the industry, said cancellation of the program has eliminated hopes of stability in Canadian shipyards.

It said loss of the government contracts may turn the Victoria district into a depressed area.

Mr. McConachy said the unions would like to see the government institute a freighter program.

"It's about time Canada had some sort of merchant marine."

OTTAWA (CP) — The government's cancellation of the frigate construction program for the navy inevitably will mean a reduction in Canada's naval commitment to NATO, Douglas Harkness, former Conservative defence minister, said Tuesday in the Commons.

He said he was appalled the government had cancelled the $452,000,000 program for eight general purpose frigates without having anything to take its place.

Mr. Harkness accused the government of "a short-sighted policy."

TO FORM OWN INDIAN BAND

KELOWNA (CP) — Indians in the Westbank area near here have been granted permission by the federal government to secede from the Okanagan Band and form a band of their own.

Indian agent N. E. Whitehead said Tuesday the move is unprecedented in British Columbia.

The Okanagan Band comprises Indian groups throughout the Okanagan valley and governs reserves through the band council.

Three Men Have Narrow Escape

PRINCE GEORGE (CP) — Three Prince George businessmen Monday returned to their desks never happier and never more certain that luck was on their side.

Bob Thompson, Stan Carling and Stan Wilkins were in a Cessna aircraft that crashed Saturday at Germanson Landing leaving the plane a total wreck. All three walked from rubble unharmed.

The men left here at 11 a. m. Saturday on a business trip to Germansen Landing, about 120 miles north of Vanderhoof. The weather was good, flight plans had been filed, the plane was operating smoothly.

Shortly after noon Wilkins, the pilot, sighted the landing strip cut out of the brush by bush pilot Gene Jack, and readied the plane for a landing.

But two horses were spotted on the runway—horses sold to Jack by Carling two years ago—and Wilkins had to pull up fo a second try.

The second time over the horses still were there but on the third try the strip was clear and the landing began.

Then one of the two animals strayed back to the field and, spotting the horse, Wilkins quickly pulled back at the controls to give the plane height once again.

One lone tree at the end of the runway ripped through the port wing, the fuselage, Carling's suede jacket, and the roof of the cockpit.

The Cessna flipped and landed in thick bush. Stunned but not injured—not even a scratch — the men scrambled from the wreckage.

"I'd never walk away from something like that again," said Carling. "That tree took half my clothes off. . . "

Study Had Been Planned of Infant Deaths

VANCOUVER (CP) A spokesman for the B.C. Medical Association said Tuesday a study of infant mortality rates has been in the planning stage for five months.

Dorwin Baird said the study has nothing to do with allegations that several babies died needlessly each year in an unnamed B.C. hospital because of lack of nursing staff.

He said planning for the study began five months ago but the study had not yet got under way. It was to be conducted in conjunction with the University of British Columbia.

Wheat Market Seen for Canada In All Russ Satellite Countries

Mamie Just Sang

SPOKANE (AP) — A Republican party fund - raising show here Monday night came off as planned — but actress Mamie Van Doren's clothes stayed on.

The unpredictable blonde earlier had Republicans aghast when she threatened to do a striptease routine for the "go-party" in Spokane's Coliseum. Producer Leroy Prinz claimed it was all a publicity stunt that got out of hand.

An estimated 5,000 turned out to watch Mamie and a list of other headline entertainers go through their paces. Politics was limited to an intermission appearance by Representative Walt Horan (Republican —Wash).

Mamie, in fact, drew praise from local reviewers for her singing.

Menjou Passes at 73

HOLLYWOOD (AP)—Adolphe Menjou, the dapper, crisp-talking actor whose career spanned nearly half a century in films, died Tuesday after a long illness. He was 73.

He had been suffering from jaundice for some time. Death came at his home in Beverly Hills. With him were his third wife, the former Veree Teasdale, and his son, Peter, 27.

Menjou was one of Hollywood's great stylists. Though born and educated in the United States, he used his foreign-sounding name to advantage in the early days of silent films. With trim moustache, slicked hair and continental tailoring, he became the epitome of the European gentleman on the screen.

The adjective suave was inseparable from Menjou. His manners were impeccable, as were his clothes. The Menjou look reflected scrupulous care to the elegance of male attire, including vests, spats, cane and bowler.

Though type-cast to a marked degree, it never seemed to hurt him. Possibly it was because he could portray — with equal force — the irascible tycoon, the urbane wastrel or the warm-hearted uncle or father.

One of his earliest talking films was The Front Page, in which he played the garrulous managing editor.

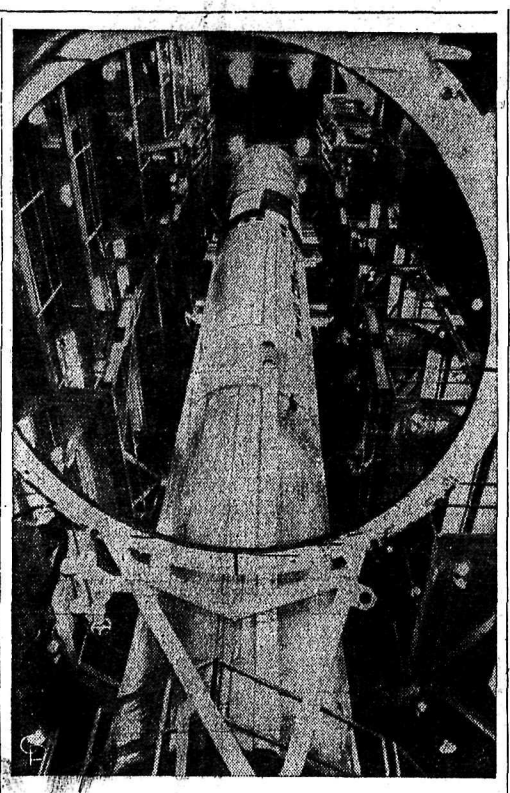
Menjou was proud of being a "thinking man." He read up to eight books a week and was fluent in five languages.

MAYOR WANTS TO HEAR GRIEVANCES

EDMONTON (CP) — Mayor William Hawrelak said Tuesday he would like to meet, face to face, representatives of a group of University of Alberta students and faculty members who led a demonstration against him in front of the city hall Monday night.

"I want to hear their grievances," he said. "I'd like to clear up any misapprehension or misunderstandings they have."

(See also story Page 10).



GEMINI LAUNCH VEHICLE—The first USAF Titan II Gemini launch vehicle accepted by NASA is shown at the Martin plant near Baltimore. It will be shipped to Cape Canaveral, Fla., where it will launch the first unmanned Gemini spacecraft into orbit in the next few months. The first step is to lower the second stage (the part above the painted area) by crane to the upright ring in foreground. It will be bolted on, then lowered to a horizontal position on a dolly.

Gov't Survives Two Confidence Votes

OTTAWA (CP)—The minority Liberal government beat back two more non-confidence motions in the Commons Tuesday night, both by overwhelming margins.

A Creditiste motion went down 210 to 27 and a Conservative issue was defeated 155 to 85.

In both votes the government drew heavy support from opposition groups.

On the first, the 13 Creditistes were backed by only eight New Democrats and six Social Crediters in their move to condemn nuclear bases in Quebec.

Against this lineup were the 119 Liberals, 86 Conservatives and five New Democrats.

Only the 85 Conservatives supported that party's motion, based on criticism of defence policies. It was opposed by the 119 Liberals, 15 New Democrats, eight Social Crediters and 13 Creditistes.

MEMBERS PAIRED

There were absentions on both votes by MPs who said they were "paired" with absentee members.

The government now has survived nine tests of confidence since Parliament opened May 16.

Prime Minister Pearson's administration had faced and survived seven previous confidence tests. Closest vote was May 21 when a New Democratic Party motion criticizing the acquisition of nuclear warheads went down, 124 to 113.

1800 Canadians To Return From Germany

ESQUIMALT, B.C. (CP)— An advance party of 60 members of the Queen's Own Rifles of Canada is to arrive Nov. 12 at Work Point Barracks, new home of the regiment now stationed in West Germany.

First representative of the Queen's Own, administrative Sgt. Fred Breurkens, is already at the barracks preparing for the men's arrival.

"The first battalion will come to Esquimalt from Fort MacLeod in Germany," he said Tuesday. "The second battalion was here before, left in 1957 to go to Germany and in 1960 returned to Canada at Calgary to be replaced by the first at Camp MacLeod."

The QOR this time in involved in a rotation with the first battalion, Princess Patricia's Canadian Light Infantry.

Starting Nov. 1, QOR personnel and their families will leave Dusseldorf in groups of about 100 every few days until all 1,800 men, wives and children are back in Canada.

"Most of our men will be going on leave when they get back to Canada," Sgt. Breukens said.

Little Dog Saves Friend

COQUITLAM, B.C. (CP)—Skipper almost bit off more than he could chew.

But the plucky little dog, a 20-pound mongrel, held onto Dixie's mane until help arrived.

The dog was credited with saving the life of Dixie, a 1000-pound saddle horse that fell into Mrs. William Falk's well here Monday.

Mrs. Falk was attracted by Skipper's frantic barking.

When she was in sight, the dog gave up his barking and grabbed his pal's mane to keep her head above water.

Mrs. Falk called the fire department.

Fearing the dog would leap into the well, she ordered Skipper locked in 15-year-old Patty Dickson's basement while firemen worked four hours to free the hapless horse.

The horse was taken to a barn for attention but Skipper never stopped fretting about his pal.

The Dickson family finally had to prove to Skipper that Dixie was safe and took him to the stable where Dixie was sleeping.

With a contented wag of his tail, Skipper consented to be taken home, where he promptly fell asleep.

Poland, Hungary Negotiating; Czech, Russ Deals Completed

By DON HANRIGHT

OTTAWA (CP)—Canada appears to be on the verge of winning assured wheat markets in practically the entire Communist bloc for at least three years.

Czechoslovakia signed a five-year agreement Tuesday covering about 44,400,000 bushels—the longest-term deal ever negotiated by Canada.

The Czechoslovak delegation had scarcely left Trade Minister Sharp's office after the formal signing when his departmental officers began negotiations with a Polish team.

Meanwhile, informants said still another deal — this time with Hungary—appears possible.

Besides the huge $500,000,000 sale to Russia, agreements for other sales have been reached with Red China and Bulgaria.

With Cuba getting its grain from Russia, and Albania reported to be on the receiving end of some bought by the Peking regime, that leaves only Romania and Yugoslavia.

Prospects of long-term deals with those two satellites appear dim. Yugoslavia is considered here to be the most agriculturally self-sufficient member of the bloc. However, earlier this year it bought about 7,500,000 bushels of Canadian wheat worth about $14,600,000.

Credit for this feat of joint political-commercial salesmanship, accomplished in about six months, has been shared by the trade department with the Canadian wheat board and its chairman, W. C. McNamara.

But the foundation for the Czechoslovakian deal and the other impending negotiations were laid recently by Deputy Trade Minister James A. Roberts on a three-week swing through Eastern Europe.

Details of the Czechoslovakian arrangement:

The over-all agreement calls for Czechoslovakia to take 1,200,000 metric tons of Canadian wheat — about 44,400,000 bushels—over a five-year period starting Tuesday.

SIGN FIRST CONTRACT

In the first year, that is until Oct. 29, 1964, Czechoslovakia has agreed to take 350,000 tons or 12,950,000 bushels. The wheat board has already signed the first contract for the shipment of about 4,500,000 bushels between next March and June.

Prices quoted by the wheat board were those on the day of the contract signing. Since the wheat board price has gone up recently, it means a higher price than paid by Russia or Red China.

In the second year, Czechoslovakia would take between 300,000 and 400,000 metric tons —or between 11,100,000 and 14,800,000 bushels.

In the third, fourth and fifth years, the deal covers a combined total for all three years of between 450,000 and 550,000 tons—that is, between about 16,600,000 and 20,350,000 bushels.

However, to avoid lumping all those purchases into one year, the agreement calls for Czechoslovakia to take not less than 120,000 tons, or about 4,500,000 bushels, in each year.

The long-term agreement is outside two Czechoslovakian purchases totalling about 2,000,000 bushels of wheat from private Winnipeg grain dealers earlier this year.

Ginny Nears Newfoundland

HALIFAX (CP) — Reports of damage began to mount Tuesday night as hurricane Ginny moved across the Maritimes on a course toward western Newfoundland.

Many small buildings were knocked over by the winds that hit 100 miles an hour. Dozens of small vessels broke their moorings and were piled on shore and at least one freighter met the same fate.

Flames fanned by the high winds destroyed one of Nova Scotia's showcase farms near Amherst. Telephone lines were down in many coastal areas.

There were no reports of deaths or injuries by mid-evening when the worst of the storm appeared to be over for most of the Maritimes.

It was expected to be felt in Newfoundland and Labrador today.

NEW YORK (CP)—Canadian dollar up 1-32 at 92 13-16 in terms of U.S. funds. Week ago 92 27-32.

Pound sterling down 1-64 at $2.79 13-16.

Savings Bonds Sales Exceed $200 Million

OTTAWA (CP) — Sales of the 1963 series of Canada savings bonds had exceeded $200,000,000 by the close of business last Friday, Finance Minister Gordon announced Tuesday. He said sales through payroll savings plans had reached $146,000,000 and there was a "strong likelihood" that last year's payroll-plan record of $232,000,000 would be equalled or surpassed.

Penticton Plans 5-Point Development

PENTICTON (CP)—The Penticton public got a look Tuesday night at a five-part public and private development plan for the city.

The plan, announced by Mayor Maurice Finnerty, involves construction of a new building to house a modern library and a civic museum as well as workshop facilities for community arts; a multi-purpose convention centre, community hall and peace festival exposition building; a new city hall; a new city works yard; and a sub fire station in the city's south end.

Mayor Finnerty also announced that Dawson Construction Company Limited of Vancouver has entered into a commitment to build a 100-suite high-rise apartment building adjacent to the new city hall overlooking Okanagan Lake. The project is estimated to cost more than $600,000.

The Bank of Montreal also will construct a $250,000 building in the city hall area.

Total cost of the city's share of the plan, estimated at $1,350,000, will be financed through the Federal Municipal Development and Loan Act, the winter works assistance scheme, $450,000 from a special city fund and a tax increase of one mill.

The city will borrow a total of $675,000 under the federal plan.

Penticton ratepayers will vote on two money bylaws covering the development plan Dec. 5.

TUTS To Become TUTR?

VANCOUVER (CP) — After 24 years in the open Vancouver's Theatre Under the Stars has decided to run for cover.

The executive of the group that has been presenting musical comedies in Stanley Park voted to seek a building in which to operate next summer.

TUTS has been running recurrent financial losses in recent years because of rainy weather.

President Ken Meredith of the Civic Theatre Society which operates TUTS said Tuesday consideration will be given to moving to the Agrodome at Pacific National Exhibition or the Queen Elizabeth Theatre.

World News Briefly

CHICAGO (AP)—A U.S. federal judge fined a labor union local $12,000 Tuesday for its refusal to load wheat on the Canadian grain freighter John Ericsson.

The judge, James B. Parsons of U.S. district court, also sharply criticized the union in a case that has attracted wide attention in the United States and Canada.

LONDON (Reuters)—The foreign office Tuesday night said American-born Eleanor Philby, wife of Harold Philby, the "third man" in the Burgess and Maclean spy affair, joined her husband in Moscow last month.

A foreign office spokesman said Mrs. Philby left London by air Sept. 26 for Moscow.

Philby, a former foreign office official, who was correspondent of the London Observer and The Economist in Beirut, disappeared last January and later turned up in the Soviet Union.

VANCOUVER (CP)—The Canadian Scholarship Trust Foundation will make available $10,000 for mid-term emergency loans to university students, foundation president Percy Wright announced Tuesday.

Proof of genuine emergency will allow students to borrow up to $250 after Nov. 15, he said.

VICTORIA (CP)—British Columbia's provincial parks system drew a record 4,023,425 visitors in the 1963 tourist season, Recreation Minister Westwood announced Tuesday.

Roughly two-thirds of the users were British Columbians, other Canadians accounting for 17.9 per cent of the total and United States tourists 14.3 per cent.

And in This Corner . . .

GURRO, Italy (AP)—Don Paolo Grassi, Roman Catholic priest of this Alpine valley village of 700 population, was accused Tuesday of locking the mayor and deputy mayor in the church belltower.

It all started, villagers said, in a dispute between the priest and the municipality over failure to pay about $54 annual allowance for heating the parish house.

To emphasize his protest against this failure, the priest would not let the town's hired bell-ringer ring the town bell in the church's belltower.

Life here in the Alpine foothills is measured by the strokes of the bell. It rings at dawn, mid-day, sunset and sends the children to school.

Mayor Alessio Bergamaschi and his deputy mayor hastened to see what could be done about persuading the priest to let the bell-ringer ring the bell.

The mayor protested that in the dispute, somehow, the priest managed to lock him and the deputy mayor in the tower. They had to break the door to get out.

Peace is not yet restored. The mayor has filed charges against the priest alleging "illegal sequestration of person."

WINNIPEG (CP)—Bad temper has earned a winter in the sun for one of Winnipeg's four Siberian tigers.

The 300-pound animal, one of two males kept at Winnipeg's Assiniboia Park Zoo, has been fighting with his mates.

So, Dr. Gunter Voss, zoo curator, has made a deal with the Jacksonville, Fla., zoo to take him.

The tiger is expected to leave today on his 24-hour trip by air.

It hasn't been decided what Winnipeg will get in the exchange.

VICTORIA (CP)—A thief took a man at his word Tuesday and stole some handkerchiefs, towels and trinkets from his home.

H. S. Stepney, 84, complained to police when the articles were stolen.

Pinned to the front door of his house was a sign reading: "Come in. The door is unlocked."

Police advised Mr. Stepney to remove the sign and lock the door.

Pool, Library, Museum Top List of Suggestions

Nelsonites submitting proposals for the 1967 centennial club seemed most interested in a year-round swimming pool, a library or museum.

Tuesday night, the deadline set by the club, brought 24 proposals from city and district organizations and citizens.

Many of the other suggestions centered around Lakeside Park development on both the waterfront and park facilities.

Other recently submitted proposals read to the 24 persons attending were development of a museum of engineering, ski hill expansion, completion of Douglas Road, an acoustically perfect concert hall and a well equipped marina.

Other suggestions were development of a secondary road from Uphill area to upper Fairview, dining room facilities from a discarded stern wheeler, development of Prince Phillip Park or a waterfall area along the lines of a Hawaiian garden with bridges and a high class restaurant.

The Chamber of Commerce submitted a proposal to develop the Kokanee Glacier Park road.

Mayor T. S. Shorthouse made a motion to appoint a steering committee to decide a method of presenting the proposals to the people.

The committe of 10 includes five centennial members, the city solicitor and administrator and three council members.

City Worried Over Crater In Slag Pile

Partial removal of the Nelson slag pile has created a potentially dangerous situation at the former Hall Mines smelter site in Rosemont.

Removal of the slag left a crater with banks of soft soil structure. Monday night city council expressed concern over the present state of the property, fearing a repeat here of cave-in tragedies which have occurred in Trail and Cranbrook this year.

Council has advised the owner of the property, Consolidated Mining and Smelting of Canada Co. Ltd., of the danger and is anxious that the company will take precautions to lessen the danger.

$1000 DAMAGE IN TWO ROAD MISHAPS

CRESTON (Staff) — Two separate car accidents over the weekend here tallied up $1000 damage but the drivers and passengers all escaped injury.

Joseph W. Gardner of Crawford Bay was proceeding along the Riondel Road when his vehicle went over the bank sustaining $600 damage.

Police have charged Walter Bastien of Brocket, Alta., with driving without due care and attention after Bastien's half-ton truck went off the road into a wide sweeping ditch.

The accident occurred two miles east of Yahk on No. 3 highway. Passengers Francis Crow-Shoe and Edward Meat-Face, both of Brocket escaped injury.

A surprise birthday party speeds Mrs. E. Cox, 75, on her way to England. Mrs. Cox will return to London, following a 16-year separation from her two sons and relatives there. Over 28 guests at the home of Mrs. K. Mason, 717 Josephine Street, presented Mrs. Cox with a $50 savings bond and $26 in cash. Little Miss Lynda Mason pinned on her pink carnation corsage. Conveners for the Monday night "surprise" were Mrs. T. Murphy, Mrs. E. Bonacci, Mrs. E. Harper, Mrs. W. W. Wait and Mrs. Cox's daughter, Mrs. Rene Rutherglen.

Lots Gazetted for New Access Highway

The first concrete action on a new access highway into Nelson from the west has occurred with the gazetting of several lots on McDonald Drive in Rosemont.

City council was informed Monday night by the Department of Highways that the property near the junction of Railway Street and McDonald Drive had been gazetted in mid-October.

The action is the first since a government agent visited the Lakeview Crescent area last spring and made offers to purchase improvements and property of five householders. The offers were said to be far from satisfactory.

The gazetting is believed to have been prompted by the property owner's removal of sand and gravel from the site.

The proposed highways access cuts across this portion of Lakeview Crescent and McDonald Drive connecting with the proposed Ymir access in the vicinity of Cottonwood Creek, Silica and Railway Streets.

Council Jottings

Clarification of the development program of View Street under boundary extension bylaw was reiterated at city council Monday.

Waterworks and sewer service was included in the BE bylaws, but road construction wasn't, Ald. Edith Van Maarion, chairman of the then active BEC, replied to a query from Werner Epp of 203 View Street.

"There was no error on part of the BEC and no breach of faith in their scheduled plans. Road construction of View Street was not included but sewers and water were," Ald. Van Maarion said.

The sewers and water will not be installed until View Street is reconstructed, a heavy expenditure which is not planned to be financed in the immediate future.

* * *

Three parking meters will be removed from Baker Street corners to allow for right hand turn lanes. The meters on Baker Street at the corner of Ward Street will be taken out as will the one beside the Royal Bank at the corner of Stanley and Baker.

* * *

Opening of Seventh Street to connect Kokanee and Fell Streets will be a major undertaking, city works superintendent D. Likar said. He was referring to a request by Mrs. A. E. Simpson to have the street opened to give access to part of the property she has sold. The matter was referred to the public works chairman.

* * *

Also referred to the public works chairman was a request for improved sidewalk and steps by J. M. Bachynski of 1309 Vancouver Street.

* * *

Three stationary and two portable electric infra-red heating units will be installed in the city garage at a cost of not more than $500.

* * *

A full council was in attendance.

Funeral Held For Mrs. Lee

Funeral service for Mrs. Edith Lee, who died in Nelson Saturday, was conducted Tuesday at St. Saviour's Pro-Cathedral.

Rev. T. D. Wilding officiated and interment followed in Nelson Memorial Park.

Hymns sung were: "God is Love, His Mercy Brightens," and "The King of Love My Shepherd Is."

Pallbearers were Phillip J. Deerward, James C. Gray, R. Greyson, Maitland Harrison, Ivor Jones, Peter Offermann.

250 Expected at Witness Convention

About 250 delegates from seven congregations are expected to attend a three-day convention of Jehovah's Witnesses in Castlegar Nov.8-10.

Hortland M. Cinch of Nelson said that the convention will feature Bible instruction, demonstrations and field experiences in the ministry. Don R. Mills of Toronto will address the gathering Sunday afternoon.

Salmo-Creston Now Open Round Clock

Effective immediately, the Salmo-Creston highway will be open for traffic all day.

A. E. Staite, district superintendent of highways, said there may still be only slight delays due to construction. Since the highway was unofficially opened Oct. 13 traffic has just been allowed along the route from 1 a.m. to 6 a.m.

The 46-mile link between the East and West Kootenay areas will be officially opened in the spring. About 10 miles of the roadway remain to be paved.

Three of Family Shot at Nanaimo

NANAIMO (CP) — Three persons were shot to death in suburban Harewood Tuesday night in what RMCP described as a murder-suicide.

Dead are Earling Waldmar Salo, 40, and his children, Roy, 13, and Glenda, five.

Mrs. Irene Salo was taken to Nanaimo General Hospital suffering from shock.

Police said a viewing of the body, preliminary to a formal inquest, will be held today. "We are investigating further," said a spokesman.

The shootings occurred in the Salo's wooden house in Harewood about 7:30 p.m.

Police said Salo and his wife were living apart. They said she witnessed her children being shot, then her husband, and ran to the neighboring home of John Rita, who notified RCMP.

Two other children Rebecca, 18, and Christy, 16, were staying with friends.

Salo was employed as a timber cruiser by Macmillan, Bloedel and Powell River Limited.

Police said a .303-calibre rifle, of the type commonly used in the Second World War, fired the shots.

"It's impossible to tell how many shots were fired — that will come out at the inquest," said a police spokesman.

"I believe they were all shot in the stomach."

The bodies were taken to the morgue in Nanaimo General Hospital, the same hospital where Mrs. Salo is recovering from shock.

Four Couples Ride Last Bus

The last scheduled Greyhound bus to use the old route from Creston to Nelson along Kootenay Lake arrived in Nelson Saturday night without causing much of a stir.

It was marked by the local depot's public address system announcing that it was the last to use the route and by four couples from points along Kootenay Lake between Kootenay Bay and Creston who decided to travel the route by bus for the last time.

After an evening in Nelson they boarded the 10:15 bus back home. Included in the party were Mr. and Mrs. Cliff Derbyshire of Crawford Bay, Mr. and Mrs. George Oliver of Gray Creek, Mr. and Mrs. Hunter McClure of Gray Creek and Mr. and Mrs. Tom Lymbery of Gray Creek.

Driver of the last bus was L. B. "Red" Sutherland.

On Sunday Greyhound first used the new Samo-Creston highway which is near completion.

Underground Wiring In Rosemont Studied

Unsightly power poles and their wires will be noticeable by their absence in Rosemont if the city electrical superintendent's suggestion is acted upon by city council.

J. W. D. Cramb proposed at council's meeting Monday night that it consider burying power cables beneath the ground, thereby removing poles from Rosemont skyline.

"It would be wonderful to get rid of those unsightly poles," Mayor T. S. Shorthouse exclaimed.

This type of work could best and most economically be carried out with the planned boundary extension overhaul of Rosemont topography planning of which is slated to begin shortly

It may be possible to bury the cables at the same time that sewer, water installation and road reconstruction is being implemented, Mr. Cramb said.

The electrical superintendent surmised that later on, even working in conjunction with reconstruction of the area, the program would cost 1½ to two times more than pole installation.

Greatest benefit from such a program would be its aesthetic value, less maintenance would be required. Repair costs, when required would be higher, he said.

Council approved in principle a plan presented by city planner G. A. Butling for the Rosemont area. Approval was to allow the planning for sewer installation program for 1963-1964 program to begin. It includes the area north of West Innes Street, the most settled portion of Rosemont. This will also entail planning for reconstructing the streets to the contours of the land. Street reconstruction will have to be accomplished before sewers or water installation can take place.

Ham Course To Begin

For persons interested in obtaining an amateur radio operators licence classes will begin Thursday night at the old hospital.

The course will cover all material necessary to write the examinations required for an amateur radio operator's certificate.

Organizing the class are J. Stevens, R. Benner and W. Statham.

Butorac Case Heard At Special Sitting

The trial of Michael M. Butorac of Trail and Parker Securities Limited of Trail on three charges of theft continues today in a special county court sitting at Nelson.

The trial opened here Tuesday with the Trail stockbroker and the firm of which he was president pleading not guilty before judge Eric P. Dawson of Nelson to three charges of theft. Originally, at a trial at Trail earlier this month, six charges were read; three have since been dropped for lack of supporting evidence.

The charges said theft included 500 Bethlehem Copper Corporation shares, 200 Interior Breweries Limited shares and 75 Consolidated Mining and Smelting Company of Canada shares. They were allegedly stolen through misapplication of funds or non-delivery, from Mr. and Mrs. Hamilton Currie of Trail.

Prosecutor is Leo S. Gansner of Nelson. Butorac is being defended by Michael E. Moran of Castlegar.

First witness for the prosecution, A. F. Plummer, Departmental Inspector for the Attorney General's Department, carried out an investigation for that department in November 1962 into Parker Securities Limited. He testified he interviewed Butorac in Trail Nobember 22 and 23 at the firm's office.

SEIZED EXHIBITS

He seized certain company books, record, cheques, cheque books and statements. They were held in Vancouver.

Royal Canadian Mounted Police Constable R. J. Hull of Trail testified he travelled to Vancouver later to return the documents to Trail where they were kept until turned over to Jack C. Yolland of Trail, who was appointed liquidator of the Parker Securities Limited firm.

Mr. Yolland was third witness and last for the day.

He testified he had been a chartered accountant in Trail for 12 years and had been appointed liquidator, he had had access to all books and records of the now defunct company and its office. He commented that he had "a great deal of familiarity" with the company. He explained he had been seeking to determine the financial position of the company when it went out of business.

He told the court he found records of the firm "meticulously kept until the end of June, 1962."

The court was told that following the preliminary hearing of the case, the accountant was appointed by the crown to continue in his previous capacity.

30 DOCUMENTS

He produced 30 documents which were submitted as evidence for the prosecution. They covered the period from May, 1961, to November, 1962.

Later in his testimony he said he could see no reason for the alleged crimes.

When cross examined by defence counsel Moran, Mr. Yolland said many of the shares had been in "street" form while some were registered. He could not answer positively when asked if it was possible to sell shares inadvertently and without knowledge of their being previously sold.

During cross examination he disclosed there had been no effort to cover up the defalcations in any way.

He said there was evidence of non-delivery of shares purchased as far back as 21 years.

When re-questioned by crown counsel he said Butorac had a good knowledge of the company's affairs and business transactions.

The sitting was adjourned until 10:30 a.m. Wednesday.

Cigaret Believed Cause of Car Fire

A carelessly discarded cigaret brought the Fire Department out early Saturday morning to extinguish a car fire.

The 1956 model car sustained little damage, the fire being conmined to the seat. The car belonged to R. W. Proudfoot, 806 Observatory Street.

Union Head Would Have Lung Cancer Compensable

VANCOUVER (CP) —A union spokesman recommended Monday that lung cancer can be added to the list of compensatable industrial diseases under the workmen's Compensation Act.

Al King, Western division secretary-treasurer of the International Union of Mine, Mill and Smelter Workers (Ind.) cited three cancer deaths in Trail to back his argument before the royal commission into the act.

He said three retired employees of the Consolidated Mining and Smelting Company of Canada Ltd. had died after years of employment in the company's silver refinery before it was rebuilt in 1940.

The company and the union had brought in Dr. R. V. Sutherland of the Ontario health department to study lung diseases in early silver refinery employees.

The company had voluntarily paid pensions to the three widows after the Workmen's Compensation Board had turned them down.

Mr. King admitted that since the silver refinery was rebuilt there was no evidence of further lung cancer. But he said that the disease could occur in similar circumstances in other industries.

No specific cause was given for the lung cancer, but Mr. King testified the refinery was dusty and smoky before it was rebuilt.

"It is high time protection and (safety) regulations were put into the metallurgical industry," King said.

He charged that in British Columbia "we wait until people die or get sick before action is taken."

Consolidated Mining and Smelting Company lawyer Peter Dewdney argued that Dr. Sutherland's report had not proven the refinery caused lung cancer but only increased the risks of lung cancer."

Nakusp Group Sees Woods Operations

NAKUSP— The Nakusp Chamber of Commerce was taken on a tour of woods operations of Columbia Cellulose Ltd., Celgar Woods Division and its local manager.

Despite poor weather, 16 members of the chamber accepted the invitation.

Leaving Nakusp at 9:45 a.m., the party headed for the Celgar Kuskanax ferry and 20 minutes later were at the low pass dump. They inspected and watched the dumping operation. Truck loads of logs were bundled by wrapping steel cable around each load before dumping.

Later, at Branch 6, they watched felling operations and inspected the landing, skidding and loading. One of the trees brought down was a pine, 40 inches through, an destmiated at 250 years old.

Just before lunchtime, they arrived at the hazard reduction and plantation, at Fostall Flats, where the site had been logged and the slash burnt under a controlled burning program, and where there is an area of experimental planting and reforestation.

They lunched at Caribou Lookout, later went on to the Whatshan operations. A large loader was demonstrated, picking up and loading huge logs effortlessly.

Back at Nakusp, they gathered at the Celgar office where the chamber members met department heads and heard further detail on woods operations.

Trail Man Vice-Chairman Cadet Group

VANCOUVER (CP) — A Trail man was among those elected as area vice-chairmen of the B.C. Air Cadet Committee at the opening day of the cadet committee meeting, held in Vancouver.

J. H. Curtis of Trail was named for the Kootenay area.

An airman who shot down eight enemy aircraft during the Battle of Britain was elected chairman of the B.C. Air Cadet committee.

Ernest A. McNabb, who retired from the RCAF in 1957 with the rank of group captain, succeeded James Ewart to the chairmanship.

Other officers elected at the opening day of the cadet committee meeting were: vice-chairmen R. B. McNimm and V. E. Forbes, Vancouver; area vice-chairman: Arthur Charlton, Victoria, for the Vancouver Island area; Don Corbishley, Oliver, for the Okanagan area.

A young cadet, Warrant Officer Paul Phipps of Nanaimo received the Dawson Shield as outstanding air cadet among the 25 Canadian cadets who visited Britain this summer.

The trophy is awarded to the cadet whose conduct best exemplifies the spirit of exchange visits.

21 Attend Real Estate Board Creston Meet

CRESTON — The semi-annual luncheon meeting of the Kootenay Real Estate Board was held at Creston Monday. Present were 21 representatives from Nelson, Creston, Cranbrook and Kimberley.

President of the Board, Allen Speers of Creston acted as chairman and welcomed all members and guests. Guest speaker was William Headen, assessor for the City of Nelson, who spoke on "Property Taxes and the Income Approach to Value".

After the adjournment of the meeting, board members were guests of Interior Breweries Ltd., and were taken on a conducted tour through their modern plant.

Election of officers will be held at the next meeting, to be held in Trail.

Mr. and Mrs. James Ryley Honored by Fernie Citizens

FERNIE — Leaving Fernie Monday, Mr. and Mrs. James Ryley, well known local couple, who have moved to Lillooet, were honored prior to their departure at a farewell gathering at the King Edward Hotel. Another farewell party was held for them the following day at the ski chalet.

Members of the Fernie Chamber of Commerce, city council and Snow Valley Ski Development Co. Ltd., accompanied by their wives officially bid farewell to the community-minded couple at the hotel reception.

Mr. Ryley, who has been government agent in Fernie, will take a simliar post at Lillooet.

During the evening chamber president, J. Minton, called upon H. McKay who, on behalf of the chamber of commerce, presented Mrs. Ryley with a bouquet of flowers and her husband with an inscribed colored photograph of Fernie.

Ski company president Telfer Dicks presented Mr. Ryley with a wallet and key case in appreciation for the work he had done on behalf of the skiing industry here.

Both speakers voiced the appreciation of their groups for the services Mr. Ryley had given.

OLYMPICS BID

Mr. Minton also paid tribute to Mr. Ryley for his work during the four years he was secretary of the chamber and particularly for his efforts during the drive to have the Fernie area designated as the site for the 1968 Olympics.

Alderman S. Thorne, acting on behalf of the mayor and council, expressed regret that the area was losing Mr. Ryley's services and wished the couple well in their new location.

Similar honors were paid Mr. and Mrs. Ryley when members of the government employees, police and the legal profession gathered at the ski chalet for an informal get-together the following day.

Jack Williams presented the Ryleys with a transistor radio as a memento of Mr. Ryley's years of association with members of the government employees and police while Don Bacon, vice-president of the Snow Valley Ski company, presented them with complimentary tickets for the Snow Valley hill.

New Government Agent Arrives At Fernie

FERNIE—Fernie's new government agent, F. R. (Rod) Carmichael and Mrs. Carmichael, have arrived in Fernie from Alberni. Mr. Carmichael succeeds James Ryley as government agent. Mr. and Mrs. Ryley and family left Monday for Lillooet.

Mr. Carmichael began his service with the B.C. government at Nelson in 1951, later serving as deputy government agent at Kaslo and then at Alberni.

He is an enthusiastic curler and in former years participated in a number of other sports. Mrs. Carmichael, the former Mary Waldie, was also employed in the government agent's office at Nelson.

They were married at Kinnaird in 1959.

Gov't Lack of Action Exasperates Promoters

Brewery Issue To Be Decided by Mayor, Council at Meet Tonight

FERNIE — A special meeting will be held tonight when city council and Mayor White will continue discussion concerning rebuilding of Fernie's Springbrook brewery.

Brewery promoters Mrs. A. Loptson and Orland Marty, who say they have lined up $70,000 for establishment of the brewery, said at the last council meeting that this would be their last effort "to get the show on the road."

The money will not be forthcoming until Attorney-General Robert W. Bonner gives a commitment that, once built and equipped, the new brewery would be able to get a licence, they pointed out.

If Fernie's brewery is not well under way by spring, Mrs. Loptson said, other interests will have completed plans for another B.C. brewery, but it won't be in Fernie.

Later, Ald. Jack Sweeney said he understood the government will issue only one more brewing licence. It could be Fernie's, but Ald. S. Thorne was inclined to argue validity of the "one more licence" news.

Mr. Marty stated, "We can bring almost one million dollars to Fernie; we can bring an industry employing 32 people and that means 32 families. We would like council's support to pressure Mr. Bonner."

Mayor White was not in attendance at this meeting.

Council is in favor of the industry but did not decide immediately what to do about it.

USE THE CLASSIFIED ADS

Sewer Survey Approved, Bus Re-routing Deleted

NATAL — Two controversial items left over from the last meeting of Natal Village Commission were settled with little discussion at the last regular meeting.

A sewer survey, urged by chairman Orlando Ungaro but opposed strongly by commissioner Joe Altomare, received the commission's endorsation. Mr. Ungaro was given authority to instruct the consulting engineers to go ahead with the survey, at a cost of between $200 and $300. This is an addition to the waterworks survey already approved. Only Mr .Altomare still opposed the sewer survey.

Commissioner Altomare, who had pressed for rerouting of the school bus off the highway onto Pacific Avenue, failed to get a seconder for his motion that it be investigated further. The chairman, himself against rerouting, ordered the motion deleted from the minutes and the subject dropped.

As it studied its budget of 1963 revenue and expenditure, the commission found that it should end up with a surplus of $1379 on the year's operation, in addition to setting up a reserve fund for equipment of $2000.

WATERWORKS ONLY DEBT

Chairman Orlando Ungaro commented that all debts were paid except for the waterworks. The waterworks utility, bought about a year ago for $22,000, is being paid off through debentures. An extra $10,000 was debentured at the same time to allow for necessary renovations.

The commission decided to have a closer look at the waterworks budget and instructed village clerk Miss Loretta Montemurro to prepare some figures on it.

On the general budget, the village ended last year with a surplus of $6300. Biggest 1963 revenue was $13,264 in provincial grants.

Budget total for this year is $47,995. Biggest item on the cost side of the budget is under the heading of general government, covering salaries of the office staff, payment to the village commissioners and general office costs. Protection to persons and property accounts for $5480 of the expenses, including fire department costs, street lights and miscellaneous small items such as $10 worth of dog tags. Public works accounts for $2100, while maintenance of municipal property cost another $4810. Municipal equipment costs ran to $2200. Big items on the expenditures side of the budget were the $14,300 school tax levy, $3700 repaid on the village's bank loan and $1890 for garbage pick-up.

16 Building Permits To $77,959 Issued

CRANBROOK — A total value of $77,959 was represented by 16 permits issued for construction during September, it was reported at the reecnt council meeting.

Works superintendent Emil Erickson reported 1,676 lineal feet of previously asphalted street was surfaced from street to curb under local improvement bylaws, along with construction of 1,810.4 feet of new five-foot concrete sidewalk. City tourist park revenue, now exclusively from tenters and trailers, tallied $2,711 to the end of September for the season.

Electricity consumption by the city system in September, supplied by East Kootenay Power and Light, was 1,907,480 kilowatt hours, up one per cent compared to the corresponding month of 1962. Net gain of 51 meters to the city system was recorded to the end of September for 1963, electrical superintendent George Burch reported.

Fire Chief Vernon Doll reported eight alarms during the month, with only minor damage. One call was extra-municipal; 16 ambulance calls were dispatched.

Five new water connections and two new hydrants were installed, and supply conditions remained satisfactory through the month. Water pressure, as regularly measured in the downtown area, averaged 111 pounds for September.

First Time KC Officers Training School at Natal

NATAL — Knights of Columbus from five East Kootenay councils met in St. Michael's Hall at Natal recently for the 1963 officers' training school.

The officers' training school is an annual affair and was conducted for the first time at Natal, hosted by the Father Anthony OMI Council of Natal-Michel. Councils represented were from Fernie, Natal-Michel, Cranbrook, Creston and Kimberley.

The training school for K. of C. officers was under the direction of district deputy M. F. Wasnock of Fernie.

Seventy officers participated in the workshop session, which started at Sunday noon and ended at 5:30 p.m. in the evening.

State six-point chairman J. V. Varcoe, of Trail conducted the school, while other state officers present were G. A. Bregoliss of Kamloops, provincial state deputy, and O. T. Managhan of Penticton, provincial state treasurer.

Chaplains present were Rev. L. M. Trainor of Natal-Michel and Rev. Joseph Barnes of Fernie.

Visiting wives, Mrs. G. A. Bregoliss, and Mrs. C. T. Managan, with several of the Fernie Knights' wives, were entertained at an afternoon tea at the home of Mr. and Mrs. Frank Schmaltz of Natal.

Law vs Justice

Canada is probably one of the few democratic countries where a government monopoly exists.

The Liquor Board is Canada's monopoly, and whatever good may result from its control system, it is clear that it violates many canons of justice. A monopoly is an evil thing in itself; since it is not responsible to the will of the people, it can and does impose excessive prices, and it makes its own laws.

A defence lawyer is quoted as saying in Vancouver that the liquor laws are uncivilized. He was defending two cabaret owners charged with permitting liquor on their premises, and stated that under the present system even the best of operators could run into difficulties through no fault of their own.

This is obviously the case. Anyone could smuggle in liquor and no cabaret owner nor an employee would dare suggest that the bulge in a patron's pocket was due to the presence of a bottle, nor could he be challenged to disprove it by anyone but a police officer.

The principle of equity or natural justice is violated when an individual is charged with an offence due to the action of another of which he has no knowledge and does not condone. It occurs not only in this case, but in every case where a beer parlor operator serves a minor who appears to be and declares he is legally of age. The injustice of the law is such that it will impose a punitive fine on the operator while the minor who commits the crime often goes almost unpunished. It is the case of the innocent suffering for the sins of others.

The general public long ago decided that law and justice are not the same thing, and the magistrate in Vancouver hearing the case said he was bound to act on the law as it stands. To him, "Whether it is good or bad is not the point."

To whom, then, is it the point? Not apparently to the lawyers, who have never criticized the law, nor to the courts, which uphold the law but do not dispense natural justice, but only the law to the accused. It might perhaps be that if these were prepared to carry their case to the highest courts of the land they might find one which considered that the rights of the individual in such cases were of more importance than the letter of a bad law. Unfortunately, the expense is prohibitive.

But it seems only right to suggest that the Attorney-General's department should employ part of its time in scrutinizing laws which are so obviously prejudicial to justice and amend them so that while retaining the same purpose of well-conducted liquor outlets, the regulations are more in accordance with natural justice.

Enmity Slim Basis for Friendship

In extremity you do not refuse help from all but those you fully approve. During the recent war, Sir Winston Churchill said once that in appropriate circumstances he would be prepared to make favorable reference to the devil himself. But in less critical matters and times, it is not enough to share a strong dislike to have a foundation for friendship.

In all the world, the fear in the very marrow of the bones of the largest number of men is nuclear war. Among the things in dispute between Russia and China just now is the attitude toward nuclear war. Because China seems almost complacent about it, Russia appears even benign by contrast in the dispute between them. But their disagreement on this and some additional points does not eliminate agreement on some others.

It is sensible to keep in mind the fact of which the Soviet Communist Party has just reminded the Chinese Communist Party, that the former is as much in favor of revolutions in capitalist countries as ever. It just doesn't feel it necessary to run the risk of atomic war to promote them.

The West regards Russia at present almost as warmly as it did at the time of the events which evoked Sir Winston's remark. There is the breach with Red China. There is the agreement banning nuclear tests and other signs of harmony on the intergovernment level. But still, more recently than it is comfortable to remember, there was the attempt to set up nuclear missiles in Cuba.

Transient sentiment alone, as it happens, doesn't shape government policies. The gentlemen in foreign offices haven't much use for emotion over the things that affect public opinion. They aren't entirely beyond the reach of public opinion, however, which it is why it is sensible to meet friendly overtures halfway and at the same time to make a distinction between them and national interests.

—*Montreal Star.*

Animal World

A fellow we know says it seems only a question of time until advertisements for pet foods and pet vitamins will outnumber those for human beings. "The way sponsors are going at it, you'd think the animals were watching television," he said, and while he was still saying it, the words seemed to die on his lips. "By gosh," he continued, "the sponsors are right. Cats and dogs are actually watching television. And why shouldn't they? Some of them even become principals in their masters' wills—and they can have all the fancy dog chow, beef stew and baby shrimps they want."

Our source for this is not exactly what you'd call a confirmed animal lover; he's rather a little confused in his evaluations of human beings and animals. He approves of horses wearing straw hats on hot days, for example, and thinks it senseless that young men should walk bareheaded in zero weather.

For generations, he admits, horses have expected blankets during their work on winter streets, and the custom of outfitting the more delicate and fancier dogs in a bright variety of sweaters or other apparel is securely established. But Madison Avenue hasn't yet fully exploited this field. We can expect any day to watch TV commercials on the latest fashions in pet wear, along with the usual plugs on parakeet foods. We may already be well into the era when no modern, sophisticated, educated dog will be satisfied with a soup bone under the table so long as the family is dining in style over its head.—*The Biddle Survey.*

Surprise Contents

In packages so poorly addressed that they cannot be delivered or returned, French postal inspectors found during the past three months: one and a half human skulls, 250 live leeches, five live queen bees, one handlebar, one handlebar moustache, 100 sterilized Bolivian butterflies, 47 match boxes each containing one insect from Russia, one sickle and three hammers.—*Paris Aurore.*

New Plan To Cut Auto Deficits To Begin Friday

By DON HANRIGHT

OTTAWA (CP) — This year Canadians will buy about 500,000 cars costing roughly $1,500,000,000. It has been estimated that they can choose from among 400 or more models.

But not one in the lot will be a truly Canadian car. There is no such thing.

Meeting the bulk of the demand will be the southwest Ontario plants of American owned and controlled subsidiaries of the big three—General Motors, Ford and Chrysler. Added to this will be the output of the Canadian branches of Studebaker and American Motors.

Judging from 1962 statistics, about 75,000 new cars will be imported from Britain, Germany, Sweden, Italy and elsewhere.

Canada is stuck with this situation. The idea of investing the huge sums needed to develop, produce and market an all-Canadian car in a relatively small market that has such easy access to imported and American-designed models is considered unrealistic.

IMPORTS TOP EXPORTS

Economically, the result has been that Canada imports about $500,000,000 more in automotive products annually than it exports. Most of the discrepancy is in parts.

This can be viewed in the light of these factors:

1. The net automotive exports make up a huge part of Canada's international deficit in commodity trade and services. This current-account deficit is shrinking—it was down to an annual rate of around $500,000,000 a mid-year compared to $850,000,000 last year—but still is regarded as far too large.

2. Practically every economic move by Prime Minister Lester B. Pearson's minority Liberal government since it took office last April has been conditioned by its determination to correct, substantially if not entirely, the balance of payments situation.

3. He and his ministers have been blunt on how they intend to go about it: They say they cannot look to widening overseas surpluses to offset the huge deficit with the U.S. and they are against higher tariffs; they have aimed squarely at increased Canadian production of manufactured goods for the United States market.

ANNOUNCES PROGRAM

Hence Industry Minister Drury's announcement last Friday—after talks in Washington—of a three-year tariff incentive program to increase Canadian automotive production and exports. Despite American complaints, it will come into effect Friday.

The system will give car manufacturers in Canada a remission of import duties on imported vehicles and parts to the same extent that they increase exports of Canadian-made vehicles and parts beyond the volume of the preceding year. is a dollar-for-dollar plan.

The Canadian subsidiaries of the big three have welcomed the scheme. A similar policy was applied by the previous Conservative government a year ago on automatic transmissions and certain car engines. It boosted Canadian auto parts exports to $30,000,000 from $10,000,000.

The new plan will apply to the entire range of imported vehicle and parts, except for tires and tubes.

Mr. Drury said that if the industry takes full advantage of the plan, it could lead to increased production and exports of between $150,000,000 and $200,000,000 annually.

A key provision is that the car manufacturers in Canada will be able to earn duty remissions on imports through increased exports of parts by Canadian independent producers to the parent U.S. auto companies.

WILL FEEL IMPACT

It is expected to be about a year before the scheme begins to have an impact on Canada's trade position.

Meanwhile, it likely will do nothing to improve the snappish exchanges between Washington and Ottawa on this and other Canada - U.S. issues in recent weeks.

U.S. Commerce Secretary Luther Hodges has tried to rally the U.S. auto companies against the plan, and has said the U.S. will retaliate if the Canadian scheme violates rules under the General Agreement on Tariffs and Trade.

Mr. Drury, on the other hand, was at pains in his Friday announcement to point out that no new trade restrictions are involved and that the plan would be carried out "entirely within the context of Canada's trade agreement commitments."

With this step taken, the guessing in Ottawa concerns what field the Liberal government will concentrate on next. Said Finance Minister Walter Gordon last week:

"The same sort of thing must be tried in other sectors of the economy."

Interpreting the News

By HAROLD MORRISO
Canadian Press Staff Writer

The prospect of placing a man on the moon by the end of this decade now appears to be just a slowly dying dream. Russia might have done it, but Soviet Premier Khrushchev says he no longer is interested. While the U.S. would like to do it, technical accomplishments so far indicate the U.S. still has a long road to travel just to catch up to what Russia has done so far.

It is probably Khrushchev's desire that the U.S. keep well behind and not close the space gap that caused him to announce his withdrawal from the moon race. For it is this very challenge of a race that aided President Kennedy's campaign to gain the billions of dollars from Congress to keep the American space program moving at high speed.

WHAT'S THE HURRY?

Now some legislators are beginning to wonder what all the hurry is about, especially when Khrushchev makes clear he won't try to get to the moon first. Moreover, the U.S. national debt is soaring and more legislators want to put an axe to the U.S. budget to halt the series of budget deficits that have contributed to the inflated debt.

The ironic twist is that while the Kennedy administration has been placing emphasis on the moon race, the president is well aware the U.S. military concern is not so much to beat the Russians to the moon as to provide in the process the kind of American skill that could successfully meet a Soviet military challenge in space.

With excitement over the moon race deflated by Khrushchev's withdrawal, Kennedy will have to find some other equally attractive incentive to continue the intensified drive necessary to overtake the Russians. With the cold war thawing and the Kremlin beset by such earthy problems as the lack of food, more questions likely will be asked in and out of Congress why Americans must put up such intensified pressure in space.

The difficulties Kennedy may find in pleading for maintenance of urgency in programming probably will be multiplied by his government's own public concentration on U.S. accomplishments — the emphasis on the number of successful U.S. orbits in contrast to the Soviet success in tandem orbiting of manned spots for longer periods in more advanced space equipment.

BOOSTERS STILL BIGGER

Even at this stage, the U.S. has yet to produce a rocket booster equivalent in power to that used by the Russians for the last few years. All the American talk of overtaking the Russians is based mainly on boosters and vehicles still in the planning or prototype stage.

With Khrushchev now bowing out of the moon race, Kennedy likely will switch his campaigning for more space funds on the basis of need to improve U.S. technology—he may switch the emphasis from the moon race to a technological race. But that likely will not carry with it the same glamor and public appeal of a race to the moon.

And it may be difficult to cry havoc about the Soviet military threat in space when Russians are having trouble finding enough food. Undoubtedly, the Kennedy government will get sufficient funds to keep the space program operating at slower speeds but this won't help the U.S. schedule of getting an American on the moon by 1970.

CIVIL DEFENCE

In emergencies, the main role of Civil Defence is co-ordinating and assisting services at municipal ,provincial and federal levels.

HUBERT

"We got lost for five whole hours just ducking a toll bridge!"

Bruce Was a Gay Old Dog Until . . .

FRESHWATER, Isle of Wight (AP)—A nine-year-old sheepdog named Bruce is recovering from an operation which veterinarians say was necessary to correct a change in his sex.

Said his owner Mrs. Kathleen Cotton Monday night: "Bruce is doing fine but we won't know for a week if the operation has been successful."

Bruce had the reputation of being a fairly gay dog on this island off the south coast of Britain. In his time, he had fathered a number of pups and had never been known to back out of a fight. But a few weeks back, his attitude changed. Instead of being the hunter, Bruce became the hunted. The backyard at the Cotton residence was invaded by neighborhood hounds who apparently found that Bruce had become attractive.

Mrs. Cotton called in a veterinarian surgeon and told him of her fears—that Bruce was changing sex. The veterinarian agreed and operated. Bruce still is in bandages.

In London, experts said the situation was rare but not impossible.

"One gets examples of animals born with certain of the generative organs of both sexes which do not become evident until later in life," said one expert.

Shooting Causes Negroes to Riot

PHILADELPHIA (AP)—Hundreds of Negroes surged through a North Philadelphia neighborhood Monday night protesting the slaying of a Negro by a policeman. Many of them broke windows, looted stores or menaced white drivers, authorities said.

Policemen estimated about 500 Negroes rioted through the streets before they were dispersed by about 60 policemen. Shattered glass littered the streets until garbage trucks and street cleaners moved in this morning.

The situation was so tense that for a while policemen turned back photographers, fearing flashbulbs might touch off more outbreaks.

Twenty-three persons, 19 of them minors, were arrested on charges of malicious mischief, disorderly conduct or breach of the peace.

POLICEMAN HURT

Frank Jackson, 38, a policeman, was struck on the head by a milk bottle while trying to break up one mob. He fell to the ground unconscious and was taken to a hospital.

The neighborhood has been tense since Saturday's slaying of Willie Philyaw, Jr., 24, a Negro. The police said he was shot by white Patrolman John Tourigian after lunging with a knife at the officer. The policeman told authorities he was arresting Philyaw for shoplifting.

Speakers at a sidewalk meeting branded the police account of the shooting a distortion and one called for "an eye for an eye, a tooth for a tooth."

At Jackson, Miss., a federal judge ordered the Walthall County voter registrar to stop discriminating against Negro applicants. The injunction was issued at the request of the justice department.

Police at Hattiesburg, Miss., arrested a white Yale divinity student and two Negroes who were there to boost a civil rights drive.

BANK PICKETED

At St. Louis, about 100 demonstrators sang and prayed at the treasurer's office in city hall protesting alleged discriminatory hiring practices at the Jefferson Bank and Trust Company.

Some of the signs they carried read, "take city money out of Jim Crow banks."

Retail merchants at Lawrenceville, Va., home of Governor Albertis S. Harrison Jr., adopted an equal employment opportunities resolution on recommendation of the town's biracial commission.

A board of education plan to correct racial imbalance went into effect at Lincoln elementary school at Englewood, N.J. The school—98 percent Negro—has been the scene of boycotts and sit-ins.

The classrooms were closed, except for kindergarten, and pupils shifted to predominantly white schools.

In St. Louis, more than 350 Roman Catholics participated in a downtown protest against racial injustice. About one-third of them were priests and nuns.

Fish Poisoning Scare Causes Huge Layoffs

DETROIT (AP) — The botulism food poisoning scare is causing a reported 20,000 layoffs in the Great Lakes commercial fishing industry.

Current and pending Great Lakes area layoff reports came from commercial fishing sources Monday as representatives of the industry began meetings with government officials in Washington in an effort to regain the housewife's favor.

Sales of smoked fish dropped drastically after seven deaths from botulism and a government warning to the public not to eat smoked fish from the Great Lakes area unless it is known to have been properly processed.

The deaths were in Michigan, Tennessee and Alabama.

The Federal Food and Drug Administration agreed at the meetings with industry men to issue a statement re-emphasizing that its warning on smoked fish does not apply to fresh fish, salt water fish, canned fish, fresh-frozen fish or smoked fish from any place except the Great Lakes region.

H. J. Dornbos and Brother, Grand Haven, Mich., fish packer which the FDA said had produced a contaminated smoked chub (whitefish), held back on plans to resume smoking through given FDA permission to go ahead.

HALT WORK OCT. 7

David Price, Dornbos plant manager, said operations would be closed until FDA officials "get to the bottom of this matter." The FDA said no botulism had been found in Dornbos products since the Tennessee deaths. Dornbos quit operations voluntarily Oct. 7.

Federal and state officials seized the stocks of two other Michigan processing companies after reporting discovery of botulism organisms in samples. State food and standards director J. Lyle Littlefield named the companies as the St. Joseph Fisheries of St. Joseph on Lake Michigan and Royal Snack Food Incorporated of Detroit.

Representatives of the industry from such widely separated areas as New York and California said at Washington their market had pactically vanished.

Secretary Roy Jensen of the Michigan Fish Producers Association said fish processors are laying off 5,000 workers and that 3,000 licensed fishing boat operators with 7,000 crew members will be stopping work shortly.

Harold Kozloff, secretary-treasurer of the Kozloff Fish Company of Detroit, a distributor, said 5,000 to 10,000 employees of fish distribution warehouses and retail sales centres are being laid off.

To Repair Lawrence's Railway

LONDON (AP) — A British civil engineering group announced Monday it has won a £10,000,000 ($30,000,000) contract to repair the famous Hejaz Railway blown up by Lawrence of Arabia.

The line runs from Damascus, Syria, to Al Madinah (Medina), Saudi Arabia, and has carried hundreds of thousands of Moslem pilgrims part of the way to Mecca, the holy city, since its completion in 1908. It was built by a German banking consortium as a spur of the famous Constantinople to Baghdad railroad.

During the First World War the Hejaz railroad acquired vital strategic importance and Lawrence of Arabia and his Arab guerrilla forces repeatedly blew up sections of it.

A spokesman for Alderton Construction Company Limited, which heads the British group, said it had taken them seven years to land the order in the face of stiff international competition.

"We have been set the formidable task of making good the track at the tough rate of a mile-a-day average," he said.

"There are some 525 miles to be dealt with plus a number of new works such as new stations."

The original railroad was built between 1901 and 1908. Trains operated only three times a week but they cut the camel caravan trip to 2½ days from 50.

Christine Ordered to Stand Trial

LONDON (Reuters)—Playgirl Christine Keeler and three co-defendants were ordered to stand trial Tuesday on perjury and conspiracy charges.

The 21-year-old redhead was accused of giving false testimony to put a cast-off West Indian lover behind bars. The three other defendants were accused of helping her pin charges of assault on the man, singer Aloysius (Lucky) Gordon.

Ordered to stand trial with Christine Keeler were her roommate, Paula Hamilton-Marshall, 25; her housekeeper, Olive Brooker, 56, and Jamaican truck driver Rudolph Fenton, 39.

The court fixed bail for Miss Keeler at a total of £3,000 ($9,000) and £1,500 for Miss Hamilton-Marshall.

Fenton's bail was fixed at £1,000 and Mrs. Brooker's at £750.

DEFENDANTS FREED

The four defendants posted the bail and were freed to await trial at the Old Bailey, London's central criminal court where the late osteopath Stephen Ward was convicted of living on Christine Keeler's earnings as a prostitute.

Gordon was first sentenced to three years in prison for assaulting the redhead, but was released after a successful appeal.

All four defendants were accused of conspiracy to pervert justice by telling lies to the police. The three women were also accused of perjury.

Testimony during the preliminary hearing indicated Christine was punched and kicked by another man on the night of Gordon's alleged assault in August, 1962.

Cancer Drug Not On Sale in Canada

OTTAWA (CP) — A federal health department official said today that the cancer drug krebiozen is not on sale in Canada.

Dr. C. A. Morrell, head of the food and drug directorate, was commenting on statements made last week in Chicago by Dr. Stevan Durovic, developer of the controversial drug. Dr. Durovic said krebiozen has been sold to doctors in Canada with the approval of the Canadian government.

"If it is on sale here, it is being sold illegally," said Dr. Morrell.

Dr. Morrell added that the government never "approves" a drug. It only gives the manufacturer a letter of compliance certifying that the drug has met standards set by the health department.

Such a letter has not been sent in connection with krebiozen, he said.

Today In History

By THE CANADIA NPRESS

The U.S. Congress repealed the nation's Neutrality Act 22 years ago today—in 1941—virtually putting the country on a war footing. The action was taken because of the sinking by a Nazi submarine of the U.S. destroyer Reuben Jones off the coast of Iceland with the loss of 100 men. It was the first Nazi destruction of an armed U.S. vessel.

1768—The first Methodist chapel in the New World was dedicated in New York City.

1922 — Benito Mussolini and his Fascist followers took power in Italy.

World Briefs

SALISBURY, Southern Rhodesia (Reuters)—Sir Roy Welensky, prime minister of the federation of Rhodesia and Nyasaland, plans to retire and take up farming near here when the federation ends Dec. 31.

CATHOLICS PROTEST

ST. LOUIS (AP)—More than 350 Roman Catholics, about one-third of them priests and nuns, took part in a procession and prayer rally in downtown St. Louis Monday night in a protest against racial injustice. John Dunsford, associate professor of law at St. Louis University, a Catholic-operated college, called the rally "a public confession that we have sinned in the pride of race."

Beatlemania Driving U.K. Teenagers Mad

LONDON (AP)—Police admitted Monday that Beatlemania—one of the wildest teen-age phenomena yet—just about has them beat.

"It's spreading all over the country," said a police spokesman, "and it's causing some anxiety."

Beatlemania is a mass hysteria generated by the Beatles—four singing, guitar-playing youngsters from Liverpool.

Three London newspapers are doing series of stories about them. Other papers chronicle their activities, many of them on front pages.

Not one of the Beatles can read music, yet their phonograph records are out-selling the world's established recording artists.

Now appearing in Sweden, the Beatles got one Swedish girl so enthused that she rushed to the stage and jumped on the back of George Harrison, one of the Beatles.

TEEN-AGERS RIOT

In London last week, screaming teen-agers rioted when tickets for a Beatle concert during Christmas week went on sale. More than 80,000 tickets were sold in the first two hours.

Seven thousand teen-agers went wild in Newcastle Upon Tyne Sunday in front of a box office selling tickets for a future appearance of the Beatles. One girl had her jeans torn off. She reached the box office wrapped in a blanket.

In Carlisle, nine were injured when a crowd of 600 rioted in front of a box office. In Hull Monday morning, 50 police battled 2,000 teen-agers trying to buy tickets for a performance next month.

A girl named Eileen Lawry told reporters how she lost her job. A photograph of her standing in line for a ticket was published in a local paper. Her boss saw it and told her she had to choose between her job and the Beatles.

"I chose the Beatles," she said.

Two girls were expelled by the Grove Park School for Girls at Wrexham, North Wales, when they organized a midnight rum-drinking party. Caught by the headmistress, they said they were celebrating because it was the birthday of one of the Beatles.

Hudson's Bay Company Winter Sale

INCORPORATED 2ND MAY 1670

Pair Having Barnstorming Honeymoon

VERNON (CP) — It's turning into a Cloud Nine honeymoon for Jacques and Lilliane Callan.

Married Oct. 5 in Winnipeg, the two are barn-storming through the west with a repertoire of parachute demonstrations, passing the helmet among crowds that gather to watch.

They are in the Okanagan Valley now and gave a performance here Sunday before about 500 spectators at the local airport.

Callan does a free fall from 8000 feet to 2000 feet, then pulls the ripcord.

Lilliane, who has been practising her role for a year, specializes in the "kite chute" in which she and her parachute are attached by a 600-foot rope to her husband's car, and pulled until she becomes airborne. The stunt can take her as high up as 450 feet.

The pair say they hope to make a living with performances throughout the continent. Right now, they're saving up for a more conventional honeymoon in Peru.

Longden-Cunningham Rites

Exchange Wedding Vows At St. Paul's-Trinity

St. Paul's - Trinity United Church was scene of an early fall wedding ceremony at which Ethel Marie Cunningham, only daughter of Mr. and Mrs. Robert Hugh Cunningham, became the bride of Mr. George Ernest Longden, younger son of Mrs. Elsie Longden.

Rev. Peter W. Faris officiated at the marriage service which took place at 11:00 a.m. October 12.

The bride was given in marriage by her father. She wore a lovely, full-length satin brocade gown, the puffed, bouffant skirt caught at the sides with narrow bows of self-material and gathered to a fitted bodice, which was enhanced by a modified sweetheart neckline and lily point sleeves.

A tiara of sequins and pearls held her chapel veil and she wore a three-strand pearl necklace and matching earrings. Her bouquet was of yellow carnations and white stephanotis.

Maid of honor was Miss Marcia Gail Cheveldave, and bridesmaid was Miss Linda Marilyn Thomas, cousin of the bride. They wore identical frocks of patterned yellow and green taffeta with yellow tulle. Their headpieces were of matching net and their accessories were white, as were their carnation bouquets.

Best man was Mr. Ronald Skene, and Mr. Bertram Longden, brother of the bridegroom, was usher.

The mother of the bride chose a double-knit pink sheath dress with white accessories and pink carnation corsage.

The mother of the bridegroom wore a navy and white suit with white accessories and white carnation corsage.

Miss Betty-Lou Jones was in charge of the guest book at a reception held in the Eagles Hall in the afternoon. A toast was proposed to the bride by her uncle, Mr. Ray Thomas. The best man proposed a toast to the bride's attendants.

The bride's bouquet, caught by Betty-Lou Jones, was sent to a favorite aunt who was unable to attend the wedding. For travelling the bride changed into a three-piece suit of beige and green, with green accessories and red rose corsage.

The newlyweds will take up residence at 916 Edgewood Avenue in Nelson.

Styles Never Out-Dated

Dean of Fashion Shows New Collection on 79th Birthday

TORONTO (CP) — Alfandri of Montreal, known as the dean of Canadian fashion, celebrated his 79th birthday Tuesday with a showing of his new holiday collection of formal and casual evening wear.

The collection, designed exclusively for a firm specializing in bridal and evening fashions, is the second shown by the old master since he came out of retirement about two months ago.

His gowns and dresses, all characterized by an absence of horizontal seaming to achieve a long, slender but shapely silhouette, were described by the shoe's commentator, Cathy Smythe, as "clothes you can wear for as long as 20 to 25 years."

A pink evening gown Alfandri designed many years ago for his daughter, now a grandmother, was shown with a blue gown of almost identical design from his latest collection. Both are high fashion today.

Dinner dresses were shown in a variety of colors and fabrics—evergreen jersey, rose peau de soie, delustred wine satin, Italian ivory brocade.

JA To Serve Fall Styles With Coffee

A new twist will be given to a coffee party held by the Junior Ladies' Auxiliary to Kootenay Lake General Hospital this morning when they entertain their guests with a fall fashion display.

Highlight of the event will be presentation of a cheque by the auxiliary to the hospital for purchase of an incubator for testing the efficiency of sterilizers for the Central Sterilizing Room.

Mrs. J. F. Hogg will be commentator for the fashion show. Mrs. H. F. Stewardson is coordinator.

Children will be entertained in a special playroom and given refreshments by baby sitters, under the direction of Mrs. J. P. Rivers and Mrs. D. C. Patterson.

AUTHOR WEDS

NEW YORK (AP) — British comedian Peter Cook, 25, co-author and a performer in the satiric show Beyond the Fringe, and Wendy Snowden, 23, an English painter and stage designer, said: "We waited five years and that was long enough. So we got married." The ceremony was performed Monday in the side chapel of St. Luke's Trinity Episcopal (Anglican) Church in Greenwich Village.

Nurse From Rossland to Get High Award

ROSSLAND — Mrs. John E. Hooper, 6000 Iona Drive, U.B.C., will be awared Helene L. Balfour Prize as head of the 1963 nursing graduating class at the University of British Columbia's fall congregation November 1.

Mrs. Hooper is the former Elaine Muth, daughter of Dr. and Mrs. H. J. Muth of this city. She graduated from Rossland High School before enrolling at the University of British Columbia.

She is currently employed as a special nurse at the Vancouver General Hospital.

CALIFORNIA and other southern points are on the honeymoon itinerary of Mr. and Mrs. Peter Poznikoff, who were united in marriage recently at a Russian wedding ceremony held at the homes of the bride and bridegroom at Perry Siding and Glade, respectively. The bride is the former Mary Evdokimoff, daughter of Mr. and Mrs. William Evdokimoff, and the bridegroom is the son of Mr. and Mrs. Pete D. Poznikoff. The bride chose scalloped white lace over satin with lilypoint sleeves for her bridal ensemble and her corsage was of red roses and lily of the valley. Her attendant was Katie Verigin. Mr. George Kinakin supported the bridegroom. The newlyweds will reside at Glade. The bridegroom is employed at Celgar.—*Photo by Renwick Studio.*

Rossland Woman Naval Exchange Appointment

ROSSLAND — A Rossland woman, Lieutenant Dorothy M. Gower, RCN, has been appointed to the staff of the naval training centre in Bainbridge, Maryland.

She succeeds Lt.-Cmdr. Jean Crawford-Smith of Toronto, who has been appointed to the staff of the assistant commodore personnel Atlantic Coast (Manning) at Halifax, as staff officer (Wrens) and as Wren new entry training officer.

In her exchange appointment with the United States Navy, Lt. Gower will serve in the Naval Training Centre, Bainbridge, Maryland; the Officer Candidate School, Women, Newport, R.I.; on special assignments in the Great Lakes Training Centre, Illinois, and in Washington, D.C. Lt.-Cmdr. Crawford-Smith was the first RCN Wren officer to be appointed for duty with the U.S. Navy.

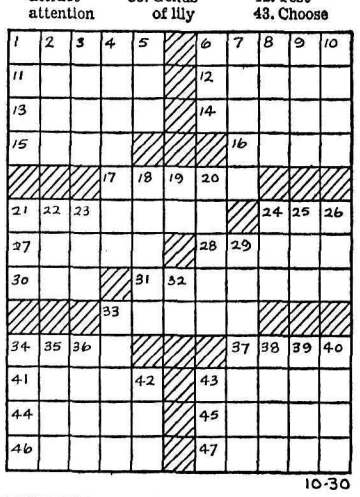
Yesterday's Answer



10-30

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

D L J C Y H P I H G C K M Y X N X C K;
P D X H Y F H S H F L C K H G C Y C O-
G P N C T P H M Y.—T M J P X

Yesterday's Cryptoquote: IMAGINATION IS A SORT OF FAINT PERCEPTION.—ARISTOTLE

Two Children Baptized at Invermere

INVERMERE — Two recent baptismal services have been held at Christ Church, Invermere.

Receiving the rites of baptism were:

Lana Doreen, infant daughter of Mr. and Mrs. Albert Potter of Invermere, at a service at which Rev. Gavin Rumsey officated. The godparents are Mr. and Mrs. William Perron of Wilmer.

Mr. Rumsey officiated also at the baptism of his own infant daughter, Suzanne Elizabeth, on Thanksgiving Day. Godparents are Rev. and Mrs. Charles Reeve of Vernon and Mrs. George Annis of Invermere.

Fruitvale AYPA Members Attend Kelowna Meet

FRUITVALE—Chaperoned by sponsor Mrs. K. Jones, three members of the Anglican Young People's Association to St. John's Church attended the AYPA conference of the provincial conference held in Kelowna. Making the trip were Miss B. Comeau, Miss Donna Hagen and Conrad Nay.

Miss Comeau was named provincial recording secretary.

The Fruitvale AYPA is attempting to form a youth club in the parish for boys and girls between the ages of 12 and 14 years. Conrad Nay is in charge of applications.

BARON INJURED

WASHINGTON (AP)—Baron Robert Silvercruys, former Belgian ambassador to the United States, was injured when struck by an auto near his home here Monday night. The baron, 70, suffered a fractured spine and multiple bruises. He was reported in satisfactory condition at Georgetown University Hospital.

MRS. McKNIGHT HEADS GUIDE ASSOCIATION

INVERMERE — Mrs. A. McKnight was elected president of the Radium Local Association for Girl Guides at the annual meeting.

Vice-presidents are Mrs. Herbert Blakley and Mrs. J. Pratt, and the secretary is Mrs. T. Ross. Mrs. Ernest Larson, past president, is badge secretary and the fairy godmother for the brownies is Mrs. G. J. Ferguson.

Girl guide captain is Mrs. Fred Christensen of Invermere, and the lieutenant, Mrs. Pratt. Mrs. J. Peters is Brown Owl and Tawny Owl is Mrs. Emil Hess.

The meeting was attended by Mrs. T. N. Weir, district commissioner.

Charred buns in a stone oven dating to 200 AD have been found by archeologists on Helgo Island, Sweden.

Man Not Entitled To See Birth Court Says

OTTAWA (CP)—The Supreme Court of Canada Monday rejected a damage action launched by a Stanley, Man., farmer after he was refused permission to watch his wife give birth to a child in the Bethel Hospital at Winkler.

The court also dismissed an action by Henry K. Elias against Dr. Harold U. Penner for failing to live up to a "contract" to permit him to be present in the hospital delivery room when another woman of his wife's age was giving birth to a child.

The case involved an application by Mr. Elias for leave to appeal against Manitoba court decisions dismissing his action against Dr. Penner. The supreme court rejected the application after a brief hearing without giving reasons.

The case dates back to Nov. 4, 1954, when Mr. Elias' wife gave birth to a child. Mr. Elias said at the time that he wished to be present in the delivery room but Dr. Penner refused his request.

SUES DOCTOR

After the birth of the child, Mr. Elias launched a damage action against Dr. Penner on the grounds that the doctor had interfered with his right to witness the birth. He said he had this right under the terms of a marriage contract he and his wife had signed.

Mr. Elias claimed damages for "grievous mental harm," and for "irretrievable personal loss." He said the wrong he suffered was an "intolerable outrageous injustice."

Mr. Elias claimed that after the birth of the child, Dr. Penner agreed to make it possible for him to witness the birth of a child by another woman of his wife's age.

The supreme court upheld lower court decisions ruling that Dr. Penner did not enter into such a contract.

The Manitoba appeal court said Mr. Elias "must surely have been aware that no woman about to be delivered would ever consent to have a strange man present in the delivery room when her child was being born." It said "it would be a very strange thing if such an arrangement could be made with such a woman and her husband."

LEAFS SUSPENDED

Golfing Gimmick Saves Red Faces

By ALAN HARVEY

LONDON (CP) — Compact golf, complete with automatic tees and "embarrassment curtains" for self-conscious beginners, came to Britain Tuesday.

In a move that may transform the nation's leisure habits, Europe's first automatic, day-and-night golf centre, including automatic driving range and miniature course, opened on a 10-acre site in Finchley, north London.

The new enterprise is the brainchild of 48-year-old Doug Henderson, a real estate man from Toronto who figures British fairways are wide open to invasion by transatlantic golfing gimmicks.

The Finchley centre is the first of 67 similar ventures planned for most of the big cities in Britain.

HAS 48-TEE RANGE

Formally opened by sportsman Lord Brabazon of Tara at a Tuesday evening ceremony, the centre has as its main attraction a 48-tee, double-decker driving range with automatic tee and mechanical ball "harvester" designed to eliminate stopping and retrieving.

Golfers will buy a bucket of 60 balls for five shillings, so expenses work out at a penny a drive. At regulation public courses, one can play 18 holes for anywhere from three to five shillings.

Henderson's course is floodlighted. Golf professionals will be available at twice-weekly clinics and there are screened-off tees for bashful beginners. Henderson chose Britain rather than Canada for the invasion because he has the European patents for automatic equipment sewn up.

Cotton Takes Henry Hank

FLINT, Mich. (AP) — Eddie Cotton of Seattle jabbed his way to a unanimous 15-round decision over Henry Hank of Detroit to win the Michigan version of the world light heavyweight championship Tuesday night.

Cotton, ranked the No. 1 challenger by the World Boxing Association, kept the younger Hank off balance through the early rounds and won easily.

Referee Jack Stein gave the fight to Cotton 146-140 under Michigan's 10-point must system. Judge T. Ray Johnson had it 148-137, while judge Francis Shepherd had it 146-140. The Associated Press card had Cotton in front 143-139.

There were no knockdowns. Cotton weighed 172½, Hank 175.

Strikes and Spares

Ladies' Matinee A — Uphills 4, Our Gang 3; Knockouts 2, Five Rads 5; Red Hots 7, Luckies 0. High single, Winnie Cooper of Our Gang, 220; high aggregate, Amy Robertson of Five Rads, 577; team high single and aggregate, Five Rads, 876 and 2472.

Boom Boom Sets Hot Pace In NHL Scoring Contest

MONTREAL (CP) — Bernie (Boom Boom) Geoffrion may be headed for another 50-goal season in the National Hockey League—if he can maintain his current scoring pace.

The burly 32-year-old Montreal right winger won the NHL scoring championship with 50 goals and 45 assists in 1960-61, but has come up with only 23 goals in each of the last two seasons.

This year, he has collected six goals and six assists in his first seven games and is only one goal behind the blistering pace he set in 1960-61.

Official NHL statistics released Tuesday show two other players currently tied with Geoffrion for the scoring leadership.

Stan Mikita of Chicago and Jean Beliveau of Montreal also have 12 points, but it took Mikita eight games to collect six goals and six assists. As for Beliveau, only three of his 12 points represent goals.

HULL FOURTH

Bobby Hull, Chicago superstar who also has enjoyed a 50-goal season, moved into fourth place in the scoring race by netting two goals and two assists in the Black Hawks' three games last week. He now has 10 points, five of them goals.

Montreal rookie John Ferguson, left winger on the line with Geoffrion and Beliveau, has nine points and is tied for fifth place with Ken Wharram of Chicago.

Ferguson has four goals and Wharram two.

A victory and a tie during the weekend maintained the Hawks at the top of the league standings, now with a comfortable four-point margin.

Toronto and Montreal are tied for the runner-up spot with eight points each, but the Leafs are ranked ahead because they have four victories to Canadiens' three.

Detroit has seven points, New York six and Boston Bruins, with one victory and one tie in eight starts, have three.

HALL TOP GOALIE

Glen Hall of Chicago took over the goaltending leadership from Detroit's Terry Sawchuk, allowing only four goals in three games last week while Sawchuk was scored on eight times in two contests.

Hall now has 17 goals against him in eight games for an average of 2.13.

In second spot is Toronto's Johnny Bower, who has 17 goals charged against him after seven games. Sawchuk is third with 18 goals-against in seven appearances.

Both Hall and Bower have one goal charged against them that was scored into an empty net in the dying moments of a game. The empty-net goals are included in goals-against totals for purposes of awarding the Vezina Trophy.

Bruins are the league's most penalized team so far, with a total of 124 minutes. The individual penalty leader is Larry Jeffrey of the Red Wings with 34 minutes—more than one-third of his team's total.

The leaders:

Palmer, Nicklaus Taking Time To Smell the Roses

By WILL GRIMSLEY

PARIS (AP) — The week-in and week-out tournament grind is beginning to tell on golfers Arnold Palmer and Jack Nicklaus, and they're going to slow down next year.

That's what both of them said Tuesday before leaving for the United States with both the individual and team trophies of the Canada Cup international competition.

"For five years, ever since I won my first Masters, I have been under constant pressure," said Palmer, whose official golf earnings are approaching a half million dollars.

"I haven't really had any rest, although I've knocked off for a couple of weeks here and there. Every time I tee up I'm expected to win. Believe me, this is a tremendous drain on a man."

QUOTES HAGEN

Palmer said he is reminded of a remark once made by the fun-loving golf great, Walter Hagen: "In travelling down the highway of life, don't forget to stop and smell the roses."

"I think it's time I smelled a few roses," said the 34-year-old Palmer.

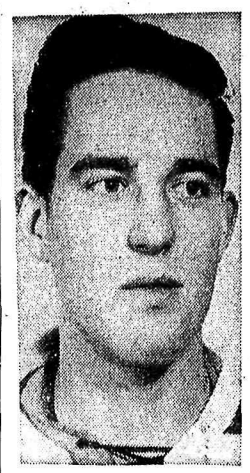
"When I get home—which is rarely — my two daughters, Peggy, 7, and Amy, 5, say, 'Daddy, when are you going to take us to the movies?' or 'Daddy, why don't you take us for an airplane ride?' I just growl at them. That's not good."

Nicklaus is only 23 and a touring pro less than two years, but already he is beginning to feel the pressures of constant competition.

"I've been going for 19 weeks without a day's rest," Jack said. "In those 19 weeks, I have seen my two children for just half a day on two occasions.

"I don't like this kind of existence. My family is too important to me. I'm definitely going to slow down, starting next year."

Nicklaus has two sons—one 21 months old, the other seven months.



ERNIE MOISEY
. . . to dress.

Knights Shoot for Second Spot

Aiming at second place, Notre Dame Knights will be battling the Trail Junior Smoke Eaters and over-confidence tonight in the Civic arena.

Currently trailing the second-place Cranbrook Canucks by one point, a victory over the cellar dwellers would put Knights one point up and four back of the league-leading Gonzaga Bulldogs. Knights and Bulldogs meet in Spokane Sunday.

"They're going to be surprised when Trail takes to the ice," said coach Ernie Gare at his club's practice session Tuesday. Only a few Knights were in gear as mid-term examinations demanded their attention but a full roster will be ready for tonight.

Gare figures the Trail club is improving each time out and if they appear with a few of last season stalwarts, now bolstering the senior Smokies, they could be rough.

Gare expects to make two changes in the lineup which has netted his club one win, a tie and a loss to date. Nelson product Ernie Moisey and defenceman Bill Sloan from Drumheller will dress. Who will sit out the game will not be known until the first face-off.

Sloan will most likely be seeing most of his action on the blueline though he can skate with the forwards while Moisey will be on the front wall.

Player to watch on the winless Smokies will be Ray Picco, who turned in two good scoring games against Cranbrook.

Coming off a 12-4 whipping of Cranbrook, the Knights, Gare fears, may take last year's league champions too lightly and this could prove disastrous.

Banned Year for Failing To Appear at Rossland

By VERN SIMALUK

The Nelson Maple Leafs have been suspended for at least one year for failing to appear for a scheduled Western International Hockey League game Tuesday night.

WIHL secretary Glenn Mason of Trail confirmed last night that the WIHL had decided to enforce Canadian Amateur Hockey Association regulation No. 76 which covers the situation. Hence, the Leafs are finished for the season.

According to the regulation, all players and members of the Leaf executive are suspended for at least a year. The club's $500 bond posted with the league has been forfeited to the league.

Mr. Mason said Leaf president Don MacDonald was informed of the league's decision by telegram late last night.

Nelson was scheduled to meet the Rossland Warriors last night but only the referees, Warriors and about 50 fans showed up at the Rossland arena. Leafs had sought postponement of the game on the grounds of a lack of players. The league refused.

"Rossland didn't want the postponement and the WIHL considered that the Nelson club was not making an effort to obtain players," said Mr. Mason.

"Hence the Nelson request was refused and the Nelson president was advised of the consequences of not keeping this date.

"The WIHL now considers the Nelson club is suspended as per CAHA rule 76. The league is planning to continue operation on a four-team basis."

BCAHA ADVISED

A telegram has been sent to the British Columbia Amateur Hockey Association notifying it of the suspension.

Mr. Mason stated that none of the league executive's vice-presidents were consulted in regard to the suspension but that the league was going by "the book" and it had no alternative in this case.

After a disastrous game Sunday in Spokane in which four players were injured, the Leafs sought postponement of the Rossland contest until a later date.

Tuesday morning the club sent telegrams to the WIHL executive and the Warriors and informed Trail news media of their decision not to attend.

The injuries to several key players plus the refusal of veterans to play unless defenceman Harry Smith is allowed to join the team left coach Bob Wiest with a skeleton crew to meet the league-leading Warriors. At a Monday night practice only seven players dressed.

Veterans refused to play any more without Smith, stating the only reason they indicated their willingness to play was because it was believed Smith and Bobby Kromm would be playing for the Leafs.

Leaf players at this time include: goaltenders Gus Adams, Bruno Forlin of Trail; defencemen Frank Carlson, Shorty Malacko, Marsh Severyn, Dave Stewart; forwards: Doug Kilburn, Mickey Maglio, Kromm, Howie Hornby, Mike Laughton, Alf Wakelam, Al Romer, Lyle Folksted, Charlie Burdette; and coach Bob Wiest.

The Leafs had threatened several times to withdraw from the league if Smith was not granted his release from Trail Smoke Eaters.

Wharram's Trio Gives Black Hawks Victory

CHICAGO (CP-AP) — Led by the three-goal scoring spree of Ken Wharram — two in the first and one in the third — Chicago Black Hawks defeated Detroit Red Wings 5-1 in a National Hockey League game Tuesday night.

In the process of running their unbeaten string to seven games, the league - leading Hawks thwarted Detroit star Gordie Howe's bid for a record-breaking 545th goal. Howe tied the record set by Montreal's Maurice Richard Sunday night. The 18-year veteran was held to only four shots by the Chicago defence.

It was Wharram's first hat-trick — three-goal performance —of his seven-year NHL career.

The triumph boosted the Hawks' lead to six points over the idle Toronto Maple Leafs.

Wharram scored twice within a minute mid-way in the first period. The tiny right wing took a goal-mouth pass from centre Stan Mikita and beat a helpless Terry Sawchuk in the Detroit nets. The time was 11:36.

Then, at 12:07, Wharram raced in behind left wing Ab McDonald, picked up a rebound of McDonald's shot and drilled a 10 footer behind Sawchuk.

LED 4-0

Al MacNeil made it 3-0 at 14:30 and at 6:40 of the second period Johnny McKenzie beat Sawchuk to make it 4-0.

Then in the third period Wharram carried the puck into Detroit ice with only defenceman Doug Barkley to beat.

He moved in close and at 13:27 fired through the defenceman's legs to complete his three-goal night. It was his fifth goal of the year.

Play was delayed late in the first period when Sawchuk collided with Chicago's Bobby Hull and needed three stitches to repair a cut on his right eyelid.

Chicago goalie Glenn Hall's shutout was wrecked at 8:53 of the third period when Norm Ullman, on assists by Gordie Howe and Andre Pronovost, poked one by on a power play while Wharram was serving a tripping penalty.

SUMMARY

First period — 1. Chicago, Wharram (Mikita, Pilote) 11:36; 2. Chicago, Wharram (McDonald, Pilote) 12:07; 3. Chicago, MacNeil (Maki, Murphy) 14:30. Penalties—Jeffrey, 5:01; McDonald, 18:03; Pronovost, 19:48.

Second period — 4. Chicago, McKenzie (Hull, Hillman) 6:40. Penalties—Hillman, 9:41; Gadsby, 15:36.

Third period — 5. Chicago, Wharram (Mikita) 13:27; 6. Detroit, Ullman (Howe, A. Pronovost) 15:43. Penalties — Vasko, :25; Young, 3:11; Barkley, 6:48; Ullman, 8:53; McKenzie and Jeffrey, 11:42; Wharram, 14:01; Ingram, 16:38.

Saves:

Sawchuk	13	10	7—30
Hall	8	9	8—25

One-Armed Guide Battles Fierce 800-Pound Grizzly

CANIM LAKE, B.C. (CP) — A 50-year-old Indian guide took on an 800-pound grizzly, matching a wooden arm and hook against the bear's overwhelming power.

They fought for minutes while two hunters shot again and again into the bear's hide and literally blew the animal off the buide.

guide.

community 225 miles north of Vancouver, and the story was told Tuesday by the doctor who closed Eddy Dixon's wound with 40 stitches.

"He was very lucky to come through it — and very courageous," said Dr. Peter Mudge. He said Dixon, a former chief of the Canim Lake Reserve who lost his left arm in a sawmill accident, was with two American hunters.

SHOT BEAR FIRST

"Dixon and one of the hunters both put shots into the bear," said Dr. Mudge. "The bear chased one hunter down the hill. Then it started to chase the other hunter. But he was an old fellow and Dixon, fearing the man couldn't outrun the bear, did quite a courageous thing. He waved his gun to attract the bear to him.

"The bear came toward Dixon. He grabbed his rifle and just split it in two like that. Then he struck Dixon with his paw, sending him to the ground.

"I suppose the bear . . . broke the rifle so as not to get shot again. Dixon got severe cuts to his scalp and right arm. While the bear was over him, the American hunters kept pumping bullets into the Grizzly. He was huge. About 800 pounds they say. After it was over they counted 13 shells.

"Dixon has a lot of guts. He was quite calm. He had to ride four miles on horseback before he could get to the road again to get a ride into town. He didn't complain at all, though he must have been in pain. He was very calm.,

"It took me two hours to fix him up."

Reporters were able only to determine Tuesday that the hunters were from Las Vegas, Nev., and that their first names were Cleo and George. They were carrying 300 magnum rifle

It was learned the men had shot a moose two days earlier and saw the bear beside the carcass when they went to pick it up Friday.

One of the hunters shot at the bear and when it disappeared, thought he had killed it. He was confronted by the grizzly as he approached the carcass and all three men then fired at the animal.

The shots that finally brought the bear off Dixon struck the grizzly in the neck and between the eyes.

Why do we set world speed records?
—FOR SAFETY

Although new Studebaker models have just set 72 World Speed Records, our purpose is not to set records, but to prove the extra safety features we build into our cars. Important features that protect you and your family, day in, day out. This is why Studebaker cars set Speed Records, and why you can have Disc Brakes that stop in almost half the regular distance. This is why seat belts are factory installed and the unitized bodies are built on girder-strong, Armor Guard frames.

And these are good reasons for you to get down to your dealer and take a fresh look at a great new car . . . new styling . . . new performance . . . new economy.

MAKE SLIGHT GAINS

BERN (AP) — The Communists, Conservatives and Socialists made slight gains in last week's elections to a new Swiss Parliament. The Socialists gained two seats to become *the strongest party in the 200-*seat National Council with 53 seats. They were followed by the middle class Radical party with 51 seats (unchanged) and the Conservatives with 48 seats (up one). The Farmers and Artisans party lost one of its 23 seats, the Liberals gained one seat for a total of six, while the Independents remained the strongest splinter group with 10 seats as before.

MARKET TRENDS

NEW YORK (AP)—For the second consecutive session more stocks fell than rose Tuesday on the New York Stock Exchange while the Dow Jones industrial averages continued to make record highs. Trading was heavy.

General Motors, riding on news of record nine months earnings and on hopes that directors next Monday will take generous dividend action and perhaps split the stock, again set the pace for the advancing blue chips.

GM touched another record high and kept a gain of 1⅝ at 89 on 226,400 shares, making it the second most active stock.

The Dow Jones industrial average rose 1.11 to a peak of 760.50.

Standard and Poor's 500-stock index edged down 0.2 to 74.46.

Meanwhile, of 1,342 issues *traded 605 declined and 456 advanced.*

CARBIDE BIG GAINER

Influential in the advance of the averages were gains of 4 points by Union Carbide, 1¾ by General Electric, ⅞ by Allied Chemical and 1⅛ by U.S. Steel.

Steel rose in advance of news which came after the close, that profits had risen sharply, pretty much as expected. The biggest steelmaker paced an advance by steels as a group. Youngstown Sheet rose 2⅜.

The Associated Press average of 60 stocks edged off .1 to 282.3 from Monday's peak.

Volume totalled 6,100,000 shares compared with 7,190,000 Monday.

Among Canadian issues traded Walker Gooderham rose ½, McIntyre Porcupine ⅜, Canadian Pacific ¼ and International Nickel ⅛. Granby Mining eased ⅜.

The trend on the American Stock Exchange was irregularly lower. Canadian Javelin added ⅞, Brazilian Traction ⅛ and Preston and Fargo Oil each 1-16. Scurry Rainbow Oil lost ¼.

TORONTO (CP)—The stock market rallied slightly near the close of moderately heavy trading after a slow day Tuesday.

The industrial index dipped 1.56 with other sections registering fractional changes.

The industrial board was generally mixed with few concrete trends. Banks were easier, Nova Scotia off and Toronto-Dominion ⅜.

Canada Packers A and Harding Carpets both slipped one point and Aluminium and Canada Steamship Lines each.

Among gainers, Canadian Tire jumped 3¼ to 37⅞, Dominion Foundries and Steel one point to 68½ and MacMillan, Bloedel ½.

Noranda advanced ¼ among mixed senior base metals.

New Hosco caught the eye among speculative mines, ahead seven cents to $2.12 on more than 166,000 shares.

In senior western oils, Great Plains gained .

On index, industrials declined 1.56 to 655.23, golds .13 to 84.73, western oils rose .35 to 121.80 and base metals .16 to 212.29. Volume for the day was 2,898,000 shares compared with 3,089,000 Monday.

MONTREAL (CP)—Banking issues dragged the stock market down slightly Tuesday on the Montreal and Canadian Exchanges.

The banking index dropped 1.2 as Royal Bank and Bank of Montreal fell 1¼ each and Toronto-Dominion lost ⅝.

The composite index dipped 0.1 to 125.7.

Trading was fairly active as industrial volume hit 138,000 shares and mines and oils turned over 466,700.

Papers were stronger, adding 0.6 to 114.9, largely on the strength of MacMillan, Bloedel, up ⅜.

Utilities were also higher as the index rose 0.6 to 123.0. Bell Telephone climbed ⅝.

In senior base metals, International Nickel and Asbestos were ½ higher.

Industrials were 0.1 lower at 126.5. CIL fell ½.

In mining issues, Surluga climbed 11 cents.

Business Spotlight . . .

Maritimes Rely On U.S. Economy

HALIFAX (CP)—Short term prospects of the Atlantic provinces are perhaps affected more at any one time by the economy of the United States than by any other factor.

According to the October newsletter of the Atlantic Provinces Economic Council, the Atlantic regional outlook is good if the United States economy continues its present strength and business expansion.

Next April, if there is no dip in this trend, the United States will set a peacetime record for *the duration of a business expansion* — 37 months since March, 1961.

If Congress accepts President Kennedy's proposals for tax reduction, then the record long expansion will be almost assured. Already the House of *Representatives has passed an* $11,000,000,000 tax cut for 1964.

Business investment in new plants and equipment is expected to receive some push from the proposed tax cuts. The strength of the American business growth is indicated by several *things such as the absence* of speculation in stock market shares and the consistency of corporation profits.

U.S. CAPITAL SCARCE

U.S. monetary developments, such as the Kennedy-proposed interest equalization tax, de*signed to ease American bal*ance of payments problems, have contributed to a tendency to "dry up"—as Finance Minister Gordon puts it — United States investment capital as far as new Canadian issues are concerned.

These developments have led to an increase in short-term Canadian interest rates which has had the effect of adding a degree of uncertainty to the Canadian prospects for economic expansion.

On a more positive note, however, the basic strength of Canada's current expansion has been maintained in recent months.

The recent sale of wheat and wheat flour to Russia will provide additional purchasing power to the Canadian economy of $500,000,000 over the next year. A portion of this amount will come directly to the Maritimes, with Halifax and Saint John port facilities han*dling part of the shipments.*

During the summer, the economy of the Atlantic provinces remained auspicious. Employment continued to rise slightly and unemployment to fall. Construction plans, as well as construction already initiated, have *struck a chord of prosperity,* which may not herald an immediate boom in the Atlantic provinces, but have produced a measure of satisfaction among provincial economists.

PLAN TWO PROJECTS

Two major projects are slated *to start soon. One is the base* metal smelter to be constructed in the Bathurst, N.B., area by Brunswick Mining and Smelting Corporation with expenditures estimated at about $20,000,000 while another project is a $1,000,000 fish processing *plant for Georgetown, P.E.I.*

Manufacturing shipments are generally buoyant, especially in Nova Scotia. The increase in the Atlantic region's factory output reflects the continuing gradual expansion of manufacturing activity.

The increase in the regional labor force has not been startling in the last year, but it is stable while unemployment has declined, mostly as a result of more non-farm employment and the slow growth of the labor force.

Perhaps more tangible has been the increase in labor income due to greater consumer spending which has become a definite force in the expansion of the Atlantic provinces. This consumer spending has been small—a 5.5 per cent increase at best in the province of Newfoundland — but it has been rising consistently in all four provinces.

Your Individual Horoscope

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Thursday, October 31, 1963

MARCH 21 to APRIL 20 (Aries) — When not sure, DON'T act Wait till all the data and facts are in, and KNOW what they stand for. Situations could deceive if you are not on guard.

APRIL 21 to MAY 21 (Taurus) — More than you wish of details, extra or unexpected responsibil*ities? Get all in order early and,* with vigilance and clear-cut deliberation, break through obstacles. Think calmly.

MAY 22 to JUNE 21 (Gemini) — Study requirements; discriminate carefully between what's necessary and what's not too important to your schedule. There may not be time for all, so you will want to tend to essentials fully.

JUNE 22 to JULY 23 (Cancer) — Your innately good style, demeanor and overall attitude can win laurels. Disinclination to do your best, however, will surely disenchant others and hurt your cause. Don't yield to such lethargy.

JULY 24 to AUGUST 23 (Leo) — Planetary influences stimulate vigor for day's regular activities and enough interest to create fresh style and incentive for future possibilities.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Warnings are up where behavior and disposition are concerned. Without realizing it, you could be too quick to speak or prescribe. But many advantages are offered for intellectual achievements.

SEPTEMBER 24 to OCTOBER 23 (Libra) — In professional matters, statesmanship and private affairs use caution, and don't take success for granted. It must be earned all the way.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Some crash programs are necessary; others are initiated without proper coordination or organization: then all involved suffer needless delays, aggravation. Bear in mind as you consider the unique in action.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Any number of endeavors can be handled successfully, but WHICH are appropriate NOW? That is the pertinent question. Focus on available small gains—and happily.

DECEMBER 22 to JANUARY *20 (Capricorn) — You can make* your personality felt in many departments. But even if success doesn't some as rapidly as you wish, your thoughtful ideas and orderly system will carry weight soon.

JANUARY 21 to FEBRUARY 19 (Aquarius) — After carefully listening to those who are experienced, and taking all likelihoods into consideration, make decisions and agreements — and stand by them! Personal affairs? Discretion.

FEBRUARY 20 to MARCH 20 (Pisces) — Home-making, improving and tightening your schedule, managership generally call for plenty of attention. Premiums promised for consistent, common sense effort

YOU BORN TODAY can look forward to several weeks of varied and lively activity. You have strength of purpose and the acumen needed for big enterprises and patience for tedious ones. Scorpio is a Sign of resolution, bravery, swift action when it is required, and that sixth sense needed in emergencies. Steer your way with sufficient thought for future conditions, and your advanced thinking will bring you new glory. Once you curb tendencies toward procrastination and pessimism, your innate industriousness and vision will help you to climb the steep (or easy) hills with equal grace and dignity. Birthdate of: John Keats, poet; John Evelyn, diarist.

LONDON (Reuters) — The Daily Sketch says Prime Minister Sir Alec Douglas-Home is expected to fly to Washington within six weeks to meet President Kennedy. The mass-circu*lation tabloid said the talks* probably will be in December and lead to "an intense initiative following up the improved relations with Russia."

U of A Students Picket Edmonton Mayor Hawrelak

EDMONTON (CP)—About 25 University of Alberta students and more than 300 supporters of Mayor William Hawrelak clashed for 10 minutes in front of Edmonton's city hall Monday night.

There were no injuries or arrests as a result of the noisy demonstration. The placard car*rying students marched quietly* but were booed, jeered and shoved by the angry crowd that lined the front entrances to the city hall.

Between 25 and 50 police officers established control after the crowd ripped placards from *the hands of students, a re*porter had his notes torn to shreds by a middle - aged woman, another reporter had a tape recorder snatched from his his hands, and two cameramen were slapped and pushed.

The students handed out mimeographed copies of a statement protesting mayor Hawrelak's election Oct. 16.

Mayor Hawrelak was in the city hall under police guard during the disturbance.

Aldermen, who had adjourned a meeting of city council after its business was finished, watched the disturbance from the ninth-floor cafeteria.

'HAWRELAK MUST GO'

Signs carried by the demonstrators said: "Hawrelak must go," "give Edmonton a democratic choice," "An end to our *turbid morality*" and "the more money the less virtue."

One man was escorted from the crowd by police and put on a chartered bus. Five policemen guarded the bus door until a private car arrived and the man was escorted to it by a flying wedge of police.

A week ago at the inaugural meeting of city council, four University of Alberta employees were arrested after they attempted to read a statement protesting Mayor Hawrelak's election. The four have been remanded on charges of causing a disturbance and disrupting a council meeting.

Mr. Hawrelak resigned in 1959 as mayor after a judicial inquiry found him guilty of "gross misconduct" in land deals.

Tonight the council chamber was packed by 150 spectators for the two-hour meeting. Extra chairs were placed in the aisles.

Questions Romney's LDS Beliefs

LANSING, Mich. (AP)—Michigan's only Negro state senator challenged Governor George Romney Monday to confirm or deny that "Mormons still believe the 'curse of Cain' follows Negroes from their birth to their grave."

"I am just not going to get into a discussion of religious matters," Romney answered in a press conference.

The challenge came in a floor speech by Senator Basil Brown, (Dem. Detroit) who said he considered published accounts of Mormon policy toward Negroes an affront to his race.

"If a man believes in the inferiority of Negroes," Brown said after his floor speech, "how can he represent nearly 1,000,000 Negroes in this state as their governor?"

"I didn't run for governor of Michigan as a Mormon," said Romney. "I ran as an American citizen.

ALL CITIZENS EQUAL

"The only question is whether I accept the fact that we are all equal as citizens and as children of God, and I accept that without reservation."

Brown quoted an article by a Mormon who said he had been taught by the church that Negroes are inferior.

"I was never taught that," Romney said. "In my 24 years in Michigan my actions in working to eliminate discrimination *and injustice in housing,* employment, education and public accommodations speak louder than any words."

The articles—one from Look magazine and excerpts from the Deseret News of Salt Lake City —quoted one of the top national *officials of the Church of Jesus* Christ of the Latter Day Saints, Mormon, as saying "the Negro cannot achieve priesthood in the Mormon Church."

Ailing Gina Goes Before Cameras

LONDON (AP) — Italian actress Gina Lollobrigida, croaking with a sore throat, again defied doctors' orders Tuesday and insisted on going before the cameras for her new film.

"The doctor gave me some pills last night," said Gina, 36, "and I had a good night's sleep."

Asked how she felt, she replied:

"My throat still hurts—but I feel much better."

Miss Lollobrigida — whose marriage to Yugoslav - born Milko Skofic was reported by a friend last week to be breaking up—*is making a picture called* Woman of Straw. She has denied that her marriage is near an end.

She said today she hopes to fly to Paris next week, then on to Rome to see her six-year-old son, Milko Jr., and her husband.

Gina was taken ill in her automobile Monday.

A doctor diagnosed her illness as tonsillitis and told her to spend three days in bed.

Mary To Be Included In Decree

VATICAN CITY (Reuters)—The ecumenical council Tuesday voted to include a chapter on the Virgin Mary in the draft decree, De Ecclesia, by a narrow margin, indicating a deep division of feeling.

Many progressives and modern churchmen thought a chapter on the Virgin would help improve links with other Christians.

In another major action today, the council approved a document endorsing efforts to work out an international perpetual calendar and a fixed date for Easter. The vote was 2,154 in favor, 21 against, and 16 in favor with reservations. Two ballots were null.

The vote on Mary was much closer.

The motion carried by only 40 votes.

Two council fathers voted for incorporation with reservations, and three ballots were blank.

It was one of the closest votes in the council since the assembly of 2,300 prelates opened more than a year ago. Council decisions usually require a two-thirds majority, but the action today was considered procedural and required only a majority of the 2,193 prelates voting, or 1,097 votes.

At the heart of the matter is the highly controversial question of whether the role of the mother of Christ has been overemphasized in Roman Catholic theology. It is a question that has troubled Christians for centuries.

Some of the delegates feel that a separate schema might put undue emphasis on Mary and distort her role in the church. This group holds that by mak*ing the Marian document* part of a larger topic on the nature of the church, the council could improve relations with Protestants.

Warm Weather Delays Flights Of Mallards

SPRINGFIELD, Ill. (AP)—Unseasonably warm weather in the Prairie provinces of Canada has delayed the departure of many mallard ducks for the annual flight southward across Il*linois, the state conservation* department said Monday.

As a result, hunters may see fewer mallards on the opening day of the duck hunting season Nov. 1 than they did a year ago.

Breeding ground investiga*tions made this past summer* indicate that mallards and diving ducks were hatched in slightly greater numbers than in 1962, Lodge said.

U.S. JETS IN CANADA TO GET A-ARMS FIRST

OTTAWA (CP)—American jet interceptors stationed in Canada will be equipped with nuclear warheads before Canadian fighter planes, informed sources said Tuesday.

However, Canada's 56 Bomarc anti-aircraft missiles at North Bay, Ont., and La Macaza, Que., will be fitted with nuclear tips before any interceptors in Canada, American or Canadian, the sources said.

The Bomarcs are expected to get their nuclear warheads by the end of November.

Under a recent agreement, Canada gave the U.S. permission to arm American interceptors at Goose Bay, Labrador, and Harmon Feld, Nfld., with nuclear air-to-air missiles.

The sources said the American interceptors will get warheads soon while the nuclear storage dumps for Canadian interceptors based at Chatham, N.B., Bagotville, Que., Val d'Or, Que., Ottawa, North Bay, Ont., and Comox, B.C., will not be completed until October, 1964.

Beaverbrook's Dunn International Stirs Art World

The Dunn International exhibition of contemporary painting, one of the most controversial displays in the history of North American art, closed recently at Fredericton's Beaverbrook Art Gallery. 102 paintings representing most of the styles of the 20th Century, included the works of such august artists as Picasso, Chagall and Braque as well as "pop art" which uses such things as tomato cans and posters combined in eccentric ways. It was a big production and an even bigger success. Six lavish prizes were awarded, each worth $5,000. The prize paintings, one of which was executed by the meticulous Canadian painter Alex Colville, are reproduced in color in the current issue of Weekend Magazine.
