No Progress Reported At Peterson-Union Meet

VICTORIA (CP) — Labor Minister Leslie Peterson met Tuesday with union delegates representing British Columbia carpenters but no progress was made towards settling the construction industry dispute.

Representatives of the International Brotherhood of Carpenters (CLC) said they went to Victoria to impress on the labor minister there is no need for an industrial inquiry.

Mr. Peterson said "every possible settlement" was discussed.

"I'm concerned to try and get a settlement," said Mr. Peterson.

"But nothing resulted from our meeting to bring us closer to settlement."

Main issue in the dispute is the carpenters demand for a reduction in the work week from 40 hours to 37½ hours with no loss in take-home pay.

The Amalgamated Construction Association, which represents 322 contracting firms, has refused to sign any agreement which reduces the work week.

The association claims 185 affiliated firms have locked out their carpenters as a result of a strike against some of the firms.

However, spokesmen for the carpenters say only about 60 firms have participated in the lockout.

HEARTFELT GRATITUDE—Thanking Mrs. Joseph Gales Ramsay III, six Greek boys' hug her as they prepare to fly back to Greece from Minneapolis, Minn. She brought the boys to the United States for surgery to cure their heart ailments, and all the operations were sucessful. The boys are (clockwise from left) Dimitrious Papagiorgious, 7; Petros Liveris, 6; Constantinos Proedrou, 12; John Vlachos, 8; Spiero Mantzorous, 8, and Periklis Polychronidis, 5. The surgery was performed in Minneapolis.

CANADA WHEAT CROP BEATS ALL RECORDS

WINNIPEG (CP)—Five records, including an all-important one for wheat exports, went into the books as Canada closed out the 1965-66 crop year at the height of the Prairie grain boom.

Preliminary year-end figures, released Tuesday by the Board of Grain Commissioners, confirmed what had been obvious as the furious pace of grain movements continued to the year-ending date of July 31.

In the crop year starting Aug. 1, 1965, these were the records:

—Wheat exports of 546,000,000 bushels compared with 536,700,000 in the previous big year of 1963-64.

—Country elevator shipments of 801,400,000 bushels of the six principal grains (wheat, oats, barley, rye, flax and rapeseed) compared with 779,500,000 in 1963-64.

SET CLEARANCE MARK

—Direct overseas clearances from the Lakehead of 25,900,000 bushels all grains, against 21,600,000 in 1964-65.

—Overseas clearances from Pacific coast ports of 234,700,000 bushels all grains, compared with 225,800,000 in 1963-64.

—Wheat exports from Churchill, Man., of 25,100,000 bushels against 22,100,000 in 1964-65.

Falling short of previous high marks were total farm deliveries of all grains to licensed elevators (763,300,000 bushels against 851,200,000 in 1952-53); total movement of all grains except rapeseed through the licensed elevator system to domestic channels of 208,300,000 bushels (224,100,000 in 1963-64); and total Lakehead vessel shipments of 478,800,000 bushels all grains (490,200,000 in 1944-45).

A tight world wheat market, including an order for 220,000,000 bushels of wheat and flour from the Soviet Union, sparked the unprecedented export drive and taxed Canada's transportation facilities to the limit.

ORDERS TO FILL

There will be little if any letup in the new crop year that began Aug. 1, with new long-term orders from the Soviet Union and China in the books.

The traditional year-end rush of farm deliveries to country elevators was in evidence during the week ended July 31, and is likely to continue for another two weeks.

In an effort to get all possible stored grain off the farms and into export channels, the Canadian wheat board lifted quota restrictions from July 18 to Aug. 20. This means a farmer is free to deliver all the grain his country elevator can handle during the holiday period.

Country elevators took in 50,200,000 bushels of wheat in the last week of the crop year, compared with 16,500,000 bushels the previous week and 41,500,000 bushels the same week a year ago.

In the same week the railways hauled a whopping 27,100,000 bushels from the country elevators to terminals, against 16,700,000 bushels the previous week and 24,800,000 bushels a year earlier.

Armed Forces Council May Smooth Unification

By DAVE McINTOSH

OTTAWA (CP)—At least 14 persons, including two civilians, today will attend the first meeting of the newly-established armed forces council.

Gen. Jean V. Allard, who took over last month as chief of the defence staff, says the council will discuss policy, including planned unification of the armed forces into a one-type-uniform service.

The council, including the six-member defence staff and the chiefs of the six field commands, is scheduled to meet the second Wednesday of each month.

The two civilians who will sit in today are Elgin Armstrong, deputy defence minister, and Dr. A. H. Zimmerman, chairman of the defence research board—five in all.

However, a defence department spokesman said the old system is not being restored in *different form. Gen. Allard was* simply calling monthly instead of annual or semi-annual commanders' conferences.

The spokesman said Gen. Allard will receive recommendations from field commanders and act on them himself or, as the case may be, pass them on to Defence Minister Hellyer.

Mr. Hellyer has said that any officer who doesn't accept the policy of unification should resign. Consequently, any recommendations to Gen. Allard are likely to be within the confines of this policy and not that unification be ditched.

Informants said some of the senior officers attending the council meeting have heard Gen. Allard state privately before he became chief of the defence staff that he would never permit unification into a single *service of Quebec's Royal 22nd* Regiment. He is former commander of the regiment.

Lunar Orbiter Flight Delayed

CAPE KENNEDY, Fla. (AP) *Noisy radio data involving a* fuel-measuring system Tuesday forced a one-day postponement of an attempt to launch a Lunar Orbiter spacecraft toward an orbit about the moon to photograph the hidden backside and nine potential astronaut landing areas.

The countdown on the Atlas-Agena booster rocket progressed smoothly down to just seven minutes before the planned liftoff Tuesday afternoon. Then the blockhouse received some unintelligible radio signals from a system in the rocket that measures the amount of fuel and liquid oxygen in the Atlas tanks.

It was not known immediately whether the trouble was associated with the system or with faulty ground receiving equipment.

With a thunderstorm predicted for the cape area 45 minutes later, the space agency decided it could not find the source of the problem in time and called off the effort.

The launching was re-scheduled for 3:11 p.m. EDT today.

Smelter Near Kamloops Discussed

VANCOUVER (CP) — Lands and Forests Minister Ray Williston confirmed Tuesday there has been discussion between the provincial government and mining companies over a proposed smelter in the Highland Valley, near Kamloops.

The smelter, to be considered by a consortium consisting of Rio Algom Mines Ltd., Nippon Mining of Japan and Lornex, is expected to cost about $25,000,000.

Rumors that Premier Bennett would disclose the details of the smelter deal during the current provincial election campaign have been circulating in financial circles for some time.

R. D. Armstrong, president of Rio Algom, said Monday that discussions with the government have been of a general nature.

Chilcotin Author, R. Hobson, Dies

VANDERHOOF, B.C. (CP) — Rancher-writer Richmond Pearson Hobson Jr., the man who immortalized British Columbia's Chilcotin country in a best-selling book, has died.

Mr. Hobson, author of Grass Beyond the Mountains, died Sunday at his River Ranch, 50 miles south of this interior city. He was 58.

The book, published in 1951, told the story of the discovery of the last great cattle frontier in North America — the great grazing areas beyond the Algak and Itcha mountain ranges in northern B.C.

Mr. Hobson, one of the first cattlemen to venture into the Chilcotin, wrote two subsequent novels and was working on a fourth, To Hell With The White Man, when he died. All the books were written on the basis of the author's experiences in that area.

He lived part of the time in Palm Desert, Calif., and the rest in the Vanderhoof area.

Born the son of a prominent American admiral, he worked *briefly as a real estate broker* in New York until the stock market crash of 1929.

The following year, Mr. Hobson went "roughnecking" in the Texas oilfields and finally in 1932 came north to the cattle country of the Chilcotin.

He and partner Panhandle Phillips—one of the characters in his best-seller—formed the Frontier Cattle Company in 1936 and operated the large firm until its dissipation nine years later.

The Chilcotin country is bounded by Alexis Creek and Quesnel on the east, Tweedsmuir Park in the north and Bella Coola on the south.

Mr. Hobson is survived by his wife, Gloria, his mother, Grizelda and a daughter Cathy, 13, all of Vanderhoof.

Russia Expects Good Harvest

MOSCOW (Reuters) — Good harvesting weather for the rest of this month should ensure the Soviet Union enough grain to meet all its own needs this year, farming experts here say.

They predict a total grain crop of some 10,000,000 to 15,000,000 tons more than last year's 114,000,000 tons and, if the weather holds in the Virgin Islands, a spring wheat crop of between 40,000,000 and 44,000,000 tons.

So far this year, Russia has bought some 3,000,000 tons of wheat from Canada and nearly 1,000,000 from France, but observers see this as a pre-harvest precaution.

Had "Longing To Be Wanted," Married Five

SAN FRANCISCO (AP)—"I married these girls because I had a longing to be wanted."

That was the explanation of Robert Swartz, 36-year-old Oakland, Calif., barber, of why he is in jail charged with marrying five women and divorcing only one.

Two accused him of bigamy. The divorced wife filed *for child support. Another* wife posted $11,000 bail when he was first arrested for bigamy last April.

He first married when he was 17 in his home town of Hettinger, N.D. His wife, Pauline, bore him a son, Robert, now 20. She is seeking child support.

Swartz said he divorced Pauline in San Diego, Calif., in the early '50s.

'DON'T COME BACK'

He married Maria Ramirez, 45, of San Francisco in March 1963. But "one day when I left the house she hollered after me, 'don't come back'." He didn't. But she is the one who posted bail when he got into trouble.

He married Lydia Guzman in Reno, Nev., Nov. 30, 1964. She's the one who filed the first bigamy charge. That was last April when he went back to her house to get some of his clothes.

Next was Amada Swartz. They married May 24, 1965, and have a six-month-old son named Robert.

But when Amada became pregnant, Swartz said, she went to live with her parents. So he married Mary Sosa in Reno May 22. She filed the second complaint.

Swartz said he stayed with her only a month then returned to Amada.

Amada is still standing by him, Swartz said.

Blackout To Blame?

NEW YORK CP) — Several New York hospitals reported a sharp increase in births Mon*day and Tuesday, nine months* after the 1965 blackout in the U.S. northeast and a large part of Ontario.

Six major hospitals reported delivery and labor rooms constantly occupied. The birth increases ranged from 33 to 255 per cent above the hospitals' average for one day.

Sociologist Paul Siegel, who is directing a national opinion research council study on the impact of the 1965 blackout on 1,300 persons, said:

"The lights went out and the people were left to interact *with each other.*"

16 New Seniors Appointed To Citizenship Department

OTTAWA (CP)—The citizenship department, soon to become the manpower department, Tuesday announced 16 new senior appointments.

John C. Morrison, 48, was *named director of the immi*gration division's home branch. A native of Toronto, he has been director of the department's special services branch since 1964.

Director-general of the manpower division is Marcel Guay, 56, Quebec regional director with the National Employment Service since 1949. Mr. Guay also was named acting director of the manpower division's Quebec Region.

The remaining 14 appointments, including five persons from outside civil service, fill *top positions in the manpower* division's five regions. Regional headquarters will co-ordinate the work of the more than 250 manpower offices across Canada.

The other appointments include:

ATLANTIC REGION

Director: William C. Stewart, 44, a native of Scotland, who was a manager with the Unemployment Insurance Commission and the National Employment Service at Winnipeg.

Director of operations: G. D. A. Reid, 46, a native of London, Ont., who served as executive assistant to the assistant deputy minister of citizenship and immigration in Ottawa.

Assistant director: Ralph J. Coy, 60, a native of New Brunswick, who as the Atlantic re*gion's assistant director of the* Unemployment Insurance Commission and the National Employment Service in Halifax.

QUEBEC REGION

Director of operations: L. E. Duquette, 49, a native of Montreal, who served as manager of the Montreal metropolitan area of the Unemployment Insurance Commission and the National Employment Service.

Assistant director: Damase Toupin, 46, a native of Quebec City, who has served as member of the Unemployment Insurance Commission since the Second World War.

PRAIRIE REGION

Director: Terrence R. Watt, 46, a native of Canwood, Sask., who was president of Management Research (Western) Ltd. and chairman of the board of Westey Manufacturing Ltd.

Director of operations: John D. Devlin, 55, a native of Toronto who was manager of the Toronto Metro office of the National Employment Service.

Assistant director: Mrs. Jean W. Edmonds, a native of Winnipeg who was a regional economist with the Central Mortgage and Housing Corp. in Winnipeg.

PACIFIC REGION

Regional director: L. Stewart McGill, 49, a native of Almonte, Ont., who served as general personnel supervisor with Crown Zellerbach (Canada) Ltd., Vancouver.

Director of operations: Peter M. Allen, 42, a native of England who was personnel manager with Trans-Canada Pipe Lines, Vancouver.

Assistant director: John D. Drew, 35, a native of Oshawa who has served as research director and British Columbia representative for the manpower consultative service of the federal labor department.

Leader Arrested

Magazine Plans To Battle Tito

By IVAN STEFANOVIC

BELGRADE (AP) — Yugoslavs opposed to President Tito's one-party government pressed ahead Tuesday with plans to found a magazine to reflect their anti-government views. They acted despite the arrest of their leader, Mihajlo Mihajlov.

Marijan Batinic and Daniel Ivin were elected to the organ*izing committee for the meeting* to be held at Zadar on the Adriatic Coast.

Mihajlov, a former university professor who has been conducting a growing campaign against the "totalitarian power" of the Yugoslav Communist party, was to have presided at the Zadar meeting.

He summoned friends and supporters to help him found a magazine he hoped would lead to a new non-Communist party.

But he was jailed Monday for three days of questioning. Officials said the arrest was to prevent him from spreading false reports and to guarantee his personal safety during the scheduled period of the Zadar meeting.

At Mihajlov's home in Zadar, where he and Batinic are staying, Ivin said threats against their personal safety would not stop them.

HIT COMMUNISM

Mihajlov's speech, to have been delivered at the meeting was released in advance Monday. In it Mihajlov repeated his criticism of Communism and blasted the Yugoslav party for wielding "totalitarian power."

As the text was being distributed to the foreign press, Mihajlov was arrested.

In the speech, Mihajlov, 31, also declared that Communism's idea of the class struggle could lead to the destruction of society.

"Despite all its deficiencies," he said, "even the worst multi-party system is better than the best one-party system."

Mihajlov is a former teacher of literature at Zadar University. He was arrested in March, 1965, and sentenced to nine months in prison for "belittling" the Soviet Union in a magazine article he wrote after a visit to Moscow. An appellate court quashed the sentence, but found him guilty of distributing a banned article. He was sentenced to five months in prison, but served only 37 days before the sentence was suspended for two years.

U.S. Sees Nuclear Nations As Builders

GENEVA, Switzerland (Reuters)—The United States proposed Tuesday that the big nuclear powers should become contractors to the rest of the world, using peaceful nuclear explosions to move earth, dig canals and build dams.

At the same time, it called on the 17-country disarmament conference to ban the spread of all nuclear explosives—even if they are for peaceful purposes—to non-nuclear countries.

The U.S. said a peaceful nuclear explosive device could be easily adapted as a weapon. But the non-nuclear countries could still benefit from the use of peaceful devices in compensation for being barred from developing them themselves.

Chief Soviet negotiator Alexei Roshchin told correspondents afterward the American statement was a thorough, accurate *and forceful presentation.*

River Level

Kootenay River level Tuesday, at Nelson 4:14 feet above zero; Monday, 4.34 feet above zero; at Queen's Bay, Tuesday, 1745.29; Monday, 1745.38.

Auschwitz Doctor Found in Ghana

ACCRA, Ghana (Reuters) — Dr. Horst Schumann, wanted in West Germany for alleged mass murder at the Auschwitz death camp during the Second World War, appeared in court here Tuesday on a West German government application for his extradition.

The 60-year-old doctor, believed to have been working as a medical officer in the Volta region of Ghana before his arrest in March, was ordered held in custody until Friday.

The government of former president Kwame Nkrumah turned down West German government applications for an extradition order.

But the new Ghanaian regime agreed to extradite him provided it was given evidence he had committed a criminal of*fence.*

229 Charolais Being Imported

OTTAWA (CP) — Permits to import 229 head of French Charolais cattle have been issued to 191 cattle breeders across Canada, the federal agriculture department reported Tuesday.

Earlier reports said 252 Canadian buyers had sought permission to bring in 1,730 Charolais, a top-flight breeding stock. Quarantine facilities cannot cope with that number.

Of the 229 to be imported this year, 10 will go to British Co*lumbia, 92 to Alberta, 61 to Sas*katchewan, 10 to Manitoba, 38 to Ontario, 17 to Quebec and one to Nova Scotia.

The number of Charolais brought in is limited by the size of the department's quarantine station at Grosse Ile, Que., which is being enlarged to handle this year's imported stock.

Last year the station's facilities to handle 110 cattle were stretched a little when 113 Charolais arrived. Of these, 109 survived the quarantine period and were released to their owners early this year.

The demand for the cattle has risen sharply since the first arrived last year under a new arrangement worked out between Canada and France.

B.C. Timber Harvest Climbs 6.4 Per Cent

British Columbia's timber harvest for the first half of 1966 is 45.5 million cubic feet or 6.4 per cent greater than the harvest for the same period last year, it was announced Monday by the B.C. Forest Service.

The total provincial cut to the end of June this year was 786.7 million cubic feet, compared to 741.2 million cubic feet for the first six months of 1965.

Production for June of this year was 126.9 million cubic feet or 8.8 per cent higher than the June, 1965, production of 116.6 million cubic feet. Harvest figures by forest district for this June were:

Vancouver, 84,136,957 cubic feet, up 4.6 per cent; Prince Rupert (Coast), 11,240,500 cubic feet, up 22.1 per cent; Prince Rupert (Interior), 2,963,980 cubic feet, down 2.5 per cent; Prince George, 6,319,462 cubic feet, up 21.9 per cent; Kamloops, 16,280,783 cubic feet, up 44.9 per cent; and Nelson, 5,928,488 cubic feet, down 21.8 per cent.

In the six-month period, production was up in all forest districts except Kamloops, as follows: Vancouver, up 10.6 per cent; Prince Rupert (Coast), up 21.0 per cent; Prince Rupert (Interior), up 1.1 per cent; Prince George, up 0.7 per cent; Kamloops, down 1.4 per cent, and Nelson, up 0.8 per cent.

International Law, Urged By Pearson

MONTREAL (CP) — Prime Minister Pearson made a strong plea Tuesday night for stronger backing from all nations for the creation of stable international law.

Speaking to 5,300 lawyers at *the annual convention of the* American Bar Association, Mr. Pearson said the only security the world can get against nuclear annihilation is "collective security based on collective action and on collective international policy."

"We should bend every effort to achieve this objective but we remain more concerned with other matters that seem to be more important than mere survival."

The prime minister said the world community should seek "a law for all humanity, based on justice and an accepted standard of behaviour; produced and protected by a world organization, with international forces behind international law."

'Seven Days' Out for Now

TORONTO (CP) — The CBC has shelved the controversial television show This Hour Has Seven Days and replaced it with a new hour-long public affairs program called Sunday.

A spokesman for the CBC said Tuesday that Seven Days will not be seen again, "at least not this fall."

The new show will be shown at 10 p.m. local time each Sunday, the time when Seven Days was shown. The first program is scheduled for Nov. 6, the CBC said in a statement.

The statement said the show will have a "variety of formats, including magazine shows which will investigate topical subjects of national and international interest to Canadians."

Daryl Duke, 37, has been named executive producer on Sunday. A native of Vancouver, Mr. Duke joined the CBC there in 1953 after working for the National Film Board. He left the CBC two years ago to do freelance work in the United States.

Seven Days ended in an uproar when CBC management fired the program's co-hosts Patrick Watson and Laurier LaPierre. Douglas Leiterman, the show's producer, was dismissed last month and Reeve Haggan, chief of CBC public affairs programming, resigned in protest against Mr. Leiterman's dismissal.

Viet Nam Situation No Worse — Johnson

WASHINGTON (AP) — Pres*ident Johnson said Tuesday he* sees no change for the worse in the Vietnamese war.

He also told a news conference he sees no sign the United States is "going to pot" in wage-price inflation.

In other countries, Johnson said, price increases for consumers have been anywhere from 200 to 500 per cent, but in the U.S. they amounted to eight per cent since 1960.

Johnson said his administration will urge labor and management to be as restrained as possible on wage and price increases.

"If it gets to the point where they are not restrained and it appears that other measures are essential, of course, we (the administration) will recommend them."

So far, he said, the govern*ment has come up with nothing* better than its present guide*lines aimed at holding pay in*creases to around 3.2 per cent.

Asked how he appraises the military situation in Viet Nam, Johnson said:

"I don't see any change for the worst at all. Our plane losses are under those that we have estimated. Our helicopter losses are under those estimated."

Sometimes losses are heavier than expected, sometimes much smaller, with weather, good or bad luck, and a lot of other factors involved.

Questioned about news stories from Saigon Monday that two reports, one by the U.S. Army and one by the U.S. marines, saw the possibility of the war running on from five to eight years, Johnson said: "We have not been able to find any of those reports in the government here."

Cranbrook Man Found Dead

CRANBROOK (CP) — Fred Hollman, 85, a retired blacksmith, was found dead Tuesday morning in the Kootenay River. He is believed to have fallen in the water after suffering a heart attack.

SERIOUS THREAT

NEW DELHI (AP) — Foreign Minister Swaran Singh told Parliament Tuesday the Indian government has informed the United States it would consider the supply of more American arms to Pakistan "a very serious *threat to the security of India.*"

SEEK NEW SHIPS

PIRAEUS, Greece (AP) — Greek shipowner is negotiating the purchase of 35 ships from the Soviet Union to be built in Soviet shipyard, shipping source here said Tuesday. If negotiations succeed, it will be the second multi-million-dollar order from the Soviet Union made by Achilleus Frangistas, who owns and operates the Franco Shipping Company in Athens.

Education Program Working Minor Miracles

Nelsonite Dies On Tuesday

James (Jimmy) Dietrich, well-known Nelson resident, died at his residence at 916 Mill Street, Tuesday.

Born at Viscount, Sask., on Sept. 12, 1907, he spent his earlier years there and at Watrous, Sask. He married the former Joyce Burton at Nakomia, Sask., in 1939. They came west to Nelson on their honeymoon and have resided here since.

Mr. Dietrich was well-known as a fireman, having been employed with a number of local firms. For the last two years he was a dispatcher at the post office. He had been a keen fisherman and was a hockey fan. He was also a member of the Eagles Lodge.

Surviving are his wife Joyce, a daughter Dianne, two sisters, Mrs. Kate Coulter and Miss Ann Dietrich of Vancouver and two brothers, Frank of Nelson and John of Watrous, Sask.

LOST AND FOUND

ST. JOACHIM DE COURVAL, Que. (CP)—Three elderly people lost in the woods near this town 67 miles northeast of Montreal were found Tuesday by Quebec Provincial Police. They had lost their way while on a berry-picking excursion.

Meeting Endorses Vote

At a public meeting in the North Shore Hall Monday, interested attendees heard several proposals for the purchase of the hall by the community on a tax sharing basis.

At the request of the Board of Management, representatives of the Regional District of Central Kootenay and Kenneth Smith of the Department of Municipal Affairs, Victoria, outlined to the meeting procedures for the acquisition of the North Shore Hall by area residents.

Stan Edey, chairman of the Board of Management, outlined the history of the Hall since its inception in 1957. Built through volunteer labor, pledges by North Shore residents and a substantial loan provided by the United Church of Canada, the Hall has provided recreational and social facilities for area residents. Mr. Edey advised the meeting that revenue from the Hall, while meeting operating costs cannot retire the outstanding debt. A request has been made to the Regional District of Central Kootenay for the purchase of the Hall by area residents at the price of the outstanding indebtedness of $16,250.

After discussion of the various methods of purchase presented by Mr. Smith the majority of the meeting endorsed a proposal wherein a referendum be held of property owners in area "F" of Central Kootenay. This area lies on the West side of Kootenay River and Kootenay Lake from near Taghum on the South to Kokanee Creek on the North.

Representing the Regional District were G. S .Rust, Chairman, H. Farenholtz, Vice-Chairman, Directors R. Mills, R C. Maddocks, Regional Planner, E. T. Clegg, Secretary - Treasurer E. T. Bodard, and Alternate Director for Area "F", R. E. Wallace.

OPERATION KOKANEE: SCOUTS' GOOD TURN

Operation Kokanee, held from July 30 to August 6, was the Boy Scouts Centennial Good Turn Project, for the Kootenay Boundary Region.

John Miller, Regional Scout Executive of Nelson, and Robert Clark, District Commissioner from Grand Forks led the group of 13 Scouts in the project. Scouts taking part were: Ulrich Klumpp, Wayne Dynneson, Darryl Wenzer and Wayne Dennill of Rock Creek; Alan Rusch, Robin McLauchlan, Blair MacGregor of Grand Forks; Chester Cahloun of Christina Lake; James Munns of Castlegar; Bill Hamilton of Nelson; Noel Collins of Crawford Bay; and Brian Churchill and Brian Beler of Cranbrook. All Scouts were from 14 to 17 years of age.

The project consisted of clearing the trail from Kaslo Lake to Tanal Lake and building a new foot bridge across the outlet of Kokanee Lake in Kokanee Glacier Provincial Park.

This work was done in consultation with M. E. Goddard, District Parks Officer of Nelson. The trail clearing consisted of removing over 125 logs varying in size from 6" to 18" in diameter, clearing underbrush and relocating the trail in several areas.

Two days were spent on this part of the project, representing over 200 man hours of work. Chain saw, swede saws, axes and pelaskies were used. Over 100 man hours of work went into the construction of the bridge.

The heaviest part of the job was hauling four large logs to the site to use as girders. Large suitable trees are scarce in the area and the four selcted were cut and pulled to the site by manpower. The approximate length of the bridge was 30 feet.

In addition to working, the Scouts explored the park and spent a day on the glacier. All camp duties were done on a team basis with duties rotating daily. All foods used except for the meat was instant or dehydrated. Fresh meats included roast beef, roast chicken and ham. Excellent refrigeration is provided by snow banks and the ice water. The lakes are very refreshing for swimming as most of the Scouts discovered. All food and camping equipment for the week was packed in. Tools were taken in by Okanagan Helicopters.

It was disappointing to learn that the Provincial Parks Dept. has not yet allocated any funds for basic sanitary or other development in the park. Camping sites are small in area and quite rocky. With the numbers of people using the park rapidly increasing and if these facilities are not installed, a well fertilized potato crop should be plantable in several years time.

One of the interesting comments made by hikers passing through was: "You mean they came here to work and paid for it too!" In addition to the basic fee to cover food costs the Scouts provided their own transportation to and from Nelson.

Enrichment, Corrective Subjects for Students

The transition that has brought a group of shy children into inquiring individuals has reached unquestionable success under the direction of a warm and understanding teacher affectionally known as "Mrs. Mac".

To those who don't know her so intimately, she's Mrs. M. B. MacMillan, head of the Education Department at Notre Dame University of Nelson.

Working round the clock, Mrs. MacMillan has with the assistance of a small core of dedicated professional and non-professional educators, set up a system for students from Grades 1 to 12, who are concentrating on either enrichment or corrective subjects.

"We're primarily concerned with giving the student assistance in using his resources," she began. And during the first two weeks the elementary and secondary students have learned to do just that.

Since the program commenced July 18, the 55 students enrolled from major B.C. centres, have written a daily evaluation of their work. Mrs. MacMillan then collects their scribblers every evening to enter her own comments on the student's progress. Remarks such as "this is an exciting program, I enjoy it"; "I've learned to study on my own and concentrate on my lessons"; and "thanks to your program I can now grasp the simple math problems", are what Mrs. MacMillan reads at the end of each day.

Students are encouraged to evaluate their daily assessments, such as their improvement in work habits and achievements, besides suggesting ways of improving the program.

"All their suggestions are carefully examined and if at all possible put into operation," Mrs. MacMillan explained.

In addition to treating each child individually she said the educators foster independent study habits and make the students responsible for their work and conduct.

To achieve this goal stress is put on four points —

* improvement of reading
* extending vocabulary
* giving assistance with the, thinking process in math and science
* creative writing

The student is given assistance in using the resources available throughout the school year by getting an insight into his own capability; learning to get the most out of a lesson; making an analysis of a problem; using a text and asking questions for help.

"Students are encouraged to listen with concentration to a lesson at the first presentation," the NDU educator said.

Commenting on the program, now in its third year, one of Mrs. MacMillian's assistants said, "within days of enrolment, students reluctant at first to believe this is a different school program, respond and begin to pinpoint their individual problems in all the academic areas.

"Since the first year of this program, certain constants have been evident — these youngsters want to learn and when this point is assumed at the beginning of the program student response is clearly evident," the assistant continued.

When the students understand and eliminate their problems the work production is amazing because of their sense of personal responsibility and their sense of achievement when they succeed.

"The first day students are required to take tests to discover their weaknesses and begin to understand their responsibility to eliminate the weak areas.

"The teacher's first responsibility is to establish confidence in the students by recognizing every accomplishment regardless of how little. Instructors are calm and relaxed. They speak quietly and have confidence that the students can achieve," Mrs. MacMillan concluded.

2000 Register At Chamber

For citizens of Nelson who take their city for granted, a glance through the guest book at the Chamber of Commerce would make them take a second look at their Queen City of the Kootenays.

In the guest book visitors from all over the world have signed their names and written their impressions of the city. The comment "beautiful" appears over and over again as well as such comments as "it's a wonderful little city," "I appreciated the service", "very impressive", "hospitality and scenery wonderful" and "one of best cities I've ever been in".

Visitors to the office this year total 2,339 and they include visitors from almost all states in the U.S. as well as from England, Ireland, Germany, Philippines, Sweden, New Zealand, Egypt, Jamaica, Ghana, South Africa, Netherlands and France.

Total of visitors registering for July was 1,723, an increase over the number in July of last year of 1,307.

NOTICE TO PROVINCIAL VOTERS

ROSSLAND - TRAIL ELECTORAL DISTRICT

Voters List Closes on Aug. 13, 1966

In order to vote in the forthcoming provincial general election on September 12, 1966, your application for registration as a provincial voter, made in accordance with the provisions of the "Provincial Elections Act", must be on file with the Registrar of Voters on or before Closing Day, August 13, 1966.

If you reeived the postal notice card stating that you are registered as a voter, sent to all registered voters by the Registrar during the week of June 20th, 1966, or if you have registered since that date, you need not again apply.

Being listed on municipal or federal voters lists does not entitle you to vote in provincial elections. Eligible unregistered persons may apply for registration until closing day, at any of the centres noted below.

Qualifications are:

1. Nineteen years of age or older.
2. Canadian citizens or British subject.
3. Resident of Canada for past 12 months.
4. Resident of British Columbia for past 6 months.

REGISTRATION CENTRES

Montrose Market, Montrose, B.C.

The Maple Store, Blueberry, Creek, B.C.

David Cooper's Men's Wear, Corner Columbia and Maple, Castlegar, B.C.

Pacific 66 Service, Genelle, B.C.

Deer Park Store, Deer Park, B.C.

Fruitvale Feed and Seed Store, Fruitvale, B.C.

Glenmerry Market, 3192 Highway Drive, Trail, B.C.

Castlegar Custom Upholstery, Castleaird Plaza, Kinnaird, B.C.

Highway Service, Oasis, B.C.

Marshall's Snack Bar, Robson, B.C.

Court House, Rossland, B.C.

Sweetnam's Ltd., 1435 Bay Ave., Trail, B.C.

Warfield Food Market, 870 Schofield Highway, Warfield, B.C.

Roy's Store, Syringa Creek, B.C.

On August 13, 1966 the Government Agent's Office in Rossland will be open from 8:30 a.m. to 12:00 noon and from 1:10 p.m. to 10:00 p.m.

REMEMBER:
You must register by AUGUST 13, 1966.

Kiernan Promises Improvements On King George Park This Year

ROSSLAND—Minister of Recreation Kenneth Kiernan has written to city council assuring it that improvements will be made to King George Park this year.

The promise comes after complaints were lodged with the provincial government two weeks ago that nothing had been done in the Rossland area to improve camping facilities or construct new ones to attract tourists to the area.

Council reminded Mr. Kiernan in a letter that when the Rossland - Sheep Lake Highway was completed a year ago, he promised to develop the Sheep Lake area and Rossland as camping and picnicking areas.

Mr. Kiernan said in his letter to council read Monday night that nothing could be done on the Sheep Lake area until a detailed map of the area had been completed.

Ald. W. Woodhouse said he hoped work on King George Park would begin soon.

"Summer is almost over and if something isn't done soon it will be too late."

Mr. Kiernan's letter was ordered filed.

TAXES

In other council business it was reported that by the end of July a total of $198,582 had been collected in taxes.

This is about 82 per cent of the whole, a considerably better showing for tax collections than in previous years.

Total receipts for the year to July 31 amounted to $321,724.78, while expenses totalled $231,-044.90.

Mayor Harry Lefevre said he was pleased at the financial standing of the city and thought that all committees were operating well within their budgets.

WATER SUPPLY

Rossland continues to have plenty of good, pure water. This was revealed by five water readings taken over a period of one week ... three at the swimming pool and two at the city's reservoir intake.

Although the city has plenty of water in its reservoirs, sprinkling restrictions were recently imposed because of low pressure being created in some parts of the city due to the high consumption of water during the recent hot weather.

"The restrictions will not be retained any longer than it will be necessary," said Mayor Lefevre.

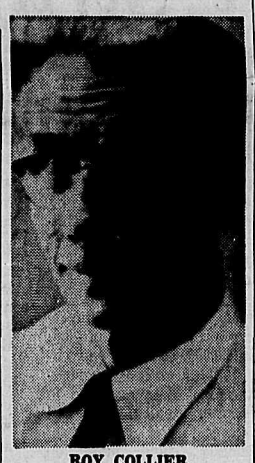
Arrow Champion Enters Election

A one-time Golden Gloves champion in the early 30s and more recently prominent in the Columbia Treaty areas as organizer and president of the Arrow Lakes Property Owners Association entered the election race for Sept. 12 as an independent candidate, Tuesday.

Mr. Collier, seeking election in the newly-formed riding of Revelstoke-Slocan, declared, "we have failed in our efforts to have the provincial government recognize the treaty area. It looks as though we have to tackle them in Victoria."

An active worker for the Social Credit Party for more than 30 years, he said he still praises and supports the accomplishments of the Bennett government, but, "We can't compromise on our pledge to respect and protect the rights of the individual."

He said he realized that an independent candidate faced handicaps, "but circumstances arise from time to time where this appears to be the best label."



ROY COLLIER

At Castlegar . . .

Burying of Material "Not Allowed" On Arrow Clearing, Chamber Assured

CASTLEGAR (Staff) — At a special meeting called by the Castlegar and District Chamber of Commerce, Dan Savage, resident manager for C. D. Schultz and Company, B.C. Hydro consultants on reservoir clearing, assured the representatives that no burying of material of any kind is allowed in the clearing of the reservoir area behind Arrow Dam.

This assurance came after adverse reports on the clearing made by Chamber member James Macbeth, who reported he found evidence of buried debris at Snag Bay and also stated that at Nakusp he had heard rumors of ditching and burying by clearing contractors.

Mr. Macbeth said he was unable to reconcile what he had found with the following clearing specifications which he read from a tender document:

(1) All trees, snags and existing stumps over five feet in height and other woody growth within the contract areas shall be felled and completely burned.

(2) All downed trees, upturned roots, logs, fences other than for the control of grazing cattle, driftwood and combustible material of all kinds other than merchantable timber shall be completely burned.

(3) The contractor shall take care to prevent any combustible material getting into the lake or any river or stream, and if it does get into such waters it shall be brought into land and completely burned.

Mr. Savage stated that the specificaitons mentioned apply to the whole reservoir and all the clearing specifications are the same basically. He added that his firm hadn't as yet given final clearance for Snag Bay.

Chamber president Herman Kemperman supported Mr. Savage's comments but added that he believed it "quite proper" for the Chamber and individuals to point out that there are areas "which require close scrutiny." He noted that until the final inspection of an area is made and payment authorized, any suggestion of wrong-doing is improper.

He also stated that the purpose of the meeting was to try and set out the facts without rendering judgment.

The meeting was attended by Chamber representatives and representatives of the Castlegar Sportsmen's Assocation and the Arrow Boat Club.

Cranbrook Revenues Climb Over $1 Million

CRANBROOK — Surplus of city operations for 1965 of $83,250 on total revenue of $1,198,648 and accumulated surplus of previous years amounting to $95,518 is reported in the city financial statement now being circulated. Accumulated surplus during 1965 declined by $12,208.

Expenditures tallied $1,210,916, with education major item at $337,636. General capital and loan funds required $172,295 from revenue with $107,575 for public works including streets, roads, equipment, land and waterways.

Protection to persons and property expenditure was $150,797, and recreation and community services cost $89,294. Social welfare expenditure was $93,229, and debt charges, principal and interest $88,139. Cost of general city government was $52,994

Of the revenue of $1,198,648 city taxation, including that for school purposes was largest item at $665,496. The city's utilities provided $176,990 as electricity and water operations surplus. Government grants contributed $195,808. City licences and permits contribution came to $87,716, half of which was professional and business licence.

The 37-page published statement analyzes the various spheres of city operations and includes the principal statistics of the city. Both most recent printed statements have received the national top award in city population category from the Federation of Mayors and Municipalities for presentation of financial operations and position. City treasurer G. M. Robertson established the accounting system which has aroused interest of other Kootenay municipalities.

A Trail city administration delegation was recent guest at Cranbrook city hall to examine the method of daily operations for accounting purposes, referred by the department of municipalities, and followed this up with an admiring acknowledgement of the procedures.

The statement lists taxable assessed land value at $3,025,455, improvements for school purposes at $11,093,272, and for other purposes $10,288,920. Borrowing power used is listed at $1,367,311, and borrowing power unused at the end of 1965 was $1,071,020. Number of voters listed was 2848.

Kinnaird . . . Paving Job Completed

KINNAIRD (Staff)—An $81,000 paving project which involved the paving of the entire village of Kinnaird has been completed.

The paving began a year ago and Carl Loeblich, chairman of the village council states he is "very pleased" with the project and added that "there is not an unpaved piece of road in the village now."

East Kootenay Work Shutdown Spreading

CRANBROOK — Contractor lockouts in East Kootenay in the current dispute with the Carpenters' Union over contract renewal by Tuesday have closed down work on 10 schools, an RCMP barracks, an old people's home, a provincial museum, snow sheds and a service station, involving 39 carpenters.

Only Fabro Building and Supply Ltd. of Kimberley, employing 14 carpenters on a variety of commercial projects, have not joined the lockout. Contractor projects such as the arterial highway construction through Cranbrook, and the airport construction, which employ no carpenters, are continuing. Union agent Bruce Comerford points out there is no union interference by locked out carpenters to continuing sub-trades work on projects underway, including schools and the Uphill home at Fernie, and picket lines have been withdrawn to facilitate this.

He accuses the Contractors' Association of deliberately closing down schools, hospital and public building contract projects with the objective of provoking government intervention, while continuing work on commercial and private construction by "devious temporary company creation."

Successful Season

Last Camp Session Begins at Koolaree

Camp Koolaree, the summer camp for boys and girls from the West Kootenay area by the United Church, Wednesday will begin the last phase of a successful summer's camping.

The last group of young campers have arrived at the camp and will stay about two weeks before Koolaree closes for another year.

Activities at the camp include Bible study, boating, swimming and various land sports.

The camp got off to a start this year about the beginnnig of July with a "Leadership Weekend", supervised by Jack Steed of Nelson and Fred Robins of Trail.

The three-day initiation session was followed by the first regular camping session, made up of "Senior" and "Intermediate" boys. This group was directed by Don Service formerly of Trail, himself an alumni of the United Church's camp. Adult assistants to the director during this session were Freeman Butts of Newfoundland and John Balcom of Vancouver.

Mr. Butts and Mr. Balcom, under the sponsorship of the United Church, are travelling across Canada working at the organization's various camps throughout the country.

Each camping session at Camp Koolaree lasts about two weeks.

The "Junior" boys group was next, directed by Bill Proctor of Nelson. His assistants were Mr. Butts and Don Fraser of Creston.

At the beginning of this month the "Senior" girls took over the camp. Their director was Mrs. Henry Stevenson of Nelson. Mrs. Stevenson is also a former Koolaree camper.

Mrs. J. Fleming of Rossland directed the Intermediate girls, assisted by Mrs. Geoff Parsons of Rossland and Mrs. B. Benedetti of Nelson.

The nurse at the "Intermediate" girls' camp was Miss E. *Gines, a special nurse from the* Philippines.

The "Junior" girls' camp, which moves in today, will be directed by Mrs. F. Doubt of Kamloops. Mrs. Doubt is formerly of Trail and an ex-camper.

Adult assistants at the "Junior" girls' camp will be Mrs. D. Barclay of Fruitvale, Mrs. R. Gifford of Rossland and Mrs. B. McCauley of Fruitvale.

The camp's quarters consist of nine cabins, each of which will accommodate a maximum of 12 campers.

The camp this year had two new boats for water sports, donated to the camp by the Nelson Kiwanis Club.

The camp's life-saving equipment has been improved and renewed this year by the United Church Women's Units of the West Kootenay.

500,000 Gallons of Water To Run Generator One Hour

LIBBY, Mont. — You don't need a slide rule to conclude that it's going to require a lot of water to operate the intial four and the ultimate eight 105,-000 kilowatt generator at Libby Dam on the Kootenai River in northwest Montana.

Official ground-breaking ceremony to mark the start of the $352,000,000 multiple-purpose project for public benefit is scheduled for Saturday, August 13 at the dam site 17 miles upstream from the town of Libby, Montana. The Libby Chamber of Commerce is the sponsor.

Army engineers report that to operate one 105-000-kilowatt-capacity generator for one hour requires a flow of about 65.25 million cubic feet, or 1500 acre feet of water.

All water contained in army engineers' reservoirs is measured in acre-feet. An acre-foot is one acre in area one foot deep. The volume of flow of water in a river or over a dam is computed in cubic feet per second.

One cubic foot of water equals 7.48 gallons. One gallon of water weighs 8.34 pounds. Hence, one cubic foot of water weighs 62.4 pounds.

So, if you wish to carry this mental exercise further, it will require 488,070,000 gallons of water to operate one of Libby Dam's 105,000-kilowatt-capacity generators for one hour. This same quantity of water will weigh 4,070,503,800 pounds or 2,035,250 tons.

To ascertain the amount of water required to operate the initial four or ultimate eight generators, multiply accordingly.

HUGE LAKE

Army engineers estimate the lake to be formed behind Libby Dam will have a gross storage capacity of 5,850,000 acre-feet of which 4,965,000 acre-feet are classified as usuable storage for flood control and power generation.

When the first four 105,000 kilowatt generators begin producing electricity in 1973, they will add some 420,000 kilowatts to U.S. Army Corps of Engineers' installed and under construction hydro-electric output in the Pacific Northwest and the nation.

When the ultimate installation of eight generators are in operation, Libby Dam, a project of the Army Engineers' Seattle District, will make an even greater contribution, 840,000 kilowatts, to the Pacific Northwest Power Pool and total hydro-electric power production in the United States.

According to Colonel C. C. Holbrook, Seattle District Engineer, total hydro-electric generating installation, existing and under construction, in the United States today stands at 53 million kilowatts.

Of that figure, Corps of Engineers' hydro-electric plants, existing and under construction, account for 15 million kilowatts or almost a quarter of the nation's total.

Wasted Days

This country has been plagued in the recent past and continues to suffer from the effects of strikes and lockouts.

The cost is beyond calculation. And the loss of productive time, even if ultimately the worker profits, can never be recovered. These are the wasted days. And in their aggregate they can be counted in years.

All these discords are lamentable, and in the case of the Quebec hospital workers' strike, painful and profitless.

It appears to have become a pattern that dissatisfied workers are impatient of negotiation or conciliation where, it sometimes seems, the machinery does move very slowly. Even so, there can be little excuse for employees to take matters into their own hands and strike a plant in defiance of agreements and their own union leaders.

The wildcat strike of railway express workers in Montreal and Toronto, like that in the Hamilton steel mill, was sparked for the same reason: impatience at the pace of negotiations. It, too, was an illegal strike, unauthorized by the unions affected.

These actions are entirely unwarranted, for the strikers are not only defying the laws but their own, elected union officers. For the loss their action causes their employers they may not care; but they should have a thought for the damage they are doing their own cause and the reputation of the whole trades union organization in this country.

Reaction could very well lead to more restrictive legislation to control the situation; or, on a more hopeful note, it might hasten a reappraisal of the formulae which now govern labor-management agreements.

These wasted days no country can afford to tolerate indefinitely. —Victoria Colonist.

"Footloose in Britain" — Yardley Jones

"Well, look at it this way, hon — if we're as far as you say from Llanfairfechen Pier, we can't be all THAT far from Canada . . ."

Need for Conference

At their annual meeting in Toronto, the provincial premiers took a tough line on the federal government's proposals for medicare. Almost without exception they expressed criticism of the federal plan. Their criticism has reached Ottawa but with little apparent result. Prime Minister Pearson has replied, in effect, "like it or lump it." If the premiers so desire, they can discuss medicare at the federal-provincial conference in October — but Mr. Pearson can foresee no changes in federal legislation as a result of provincial protests.

When Ottawa made its medicare proposals some months ago, it was anticipated that the "carrot" of 50 per cent of the cost of an acceptable provincial scheme being paid by Ottawa would be sufficient to bring the provinces running.

But a majority of the provinces decided to hang tough. At the meeting of provincial premiers in Toronto, only Saskatchewan's Premier Ross Thatcher came out fully in favor of the Ottawa plan. His reason is not hard to find. Only Saskatchewan — thanks to the previous CCF government — has in operation a medicare plan that fully meets all conditions laid down by Ottawa. As a result, Mr. Thatcher can qualify immediately for federal aid, once the legislation is passed. In 1964 the Saskatchewan plan cost around $23 million, of which some $17 million came from provincial taxes. Thus Saskatchewan will gain at least $12 million a year.

The one thing on which a majority of premiers were agreed was that the federal medicare bill was conceived too hastily and without consultation with the provinces. They were almost unanimous in calling for a new conference on medicare with a view to arriving at a program that will more nearly satisfy the provinces and meet their particular needs. This, Ottawa is not prepared to grant, although there can be discussions at the federal-provincial conference. By its apparent stubbornness Ottawa could be putting itself in an embarrassing position. It can go ahead and pass the present medicare legislation over provincial protests. But if it does, it may find itself in the farcical position of sponsoring a "national" medicare scheme that covers, at most, only a couple of million Canadians in a very few provinces. This is not what most Canadians thought Mr. Pearson was talking about when he promised a national medicare scheme for Canada by July 1, 1967. But it is what they may get. — Winnipeg Free Press.

East - West Ties Weakened by Viet Nam Struggle

Eastern Europe wants closer ties with the Western world. But the war in Viet Nam is a major obstacle. John Best, Canadian Press correspondent in Moscow who visited Soviet bloc countries, describes how the Viet Nam situation is hampering relations.

By JOHN BEST
Canadian Press Staff Writer

Viet Nam is poisoning relations between Communist Eastern Europe and the West at a time when great strides could be made in building understanding and further eroding the Iron Curtain.

"Viet Nam is the big obstacle to a detente," says an East bloc official sternly. "Make no mistake about that."

There is a general feeling that valuable time is being lost in cementing East-West relations, in getting them to a stage where fragile and uneasy coexistence would be replaced by genuine understanding and co-operation.

All the countries blame the United States for the Viet Nam war. But they do it with varying degrees of enthusiasm. Some, such as Bulgaria, do it vehemently, while others, such as Hungary, do it more in sorrow than in anger. Romania does it with a ho-hum attitude.

Hungary, Romania and Yugoslavia have dabbled in peace-making ventures but so far with no noticeable results.

Hungary acted as a neutral go-between for a while last year, passing on to Hanoi the views of Washington and to Washington the views of Hanoi. "But there was no common ground and the action ceased," sadly remarks a Hungarian official. "Both sides apparently wanted military victory."

SETS UP BARRIER

In one way, Viet Nam has ironically demonstrated how strong coexistence between East Europe and the West had become. Generally, there is a yearning for closer ties with the West. East bloc officials say these must already have become sound in order to withstand the shockwaves of the Viet Nam conflict.

And the point is made that this is a good augury for the future.

But there has been what one Western diplomat calls an "accumulation of protests" against American policy in Viet Nam, the total effect of which is a serious brake on the development of good East-West relations.

East European officials make the point that it is impossible for a Communist country to stand idly by, without at least raising its voice in protest, when another Communist country—in this case North Viet Nam—is under attack.

They are little impressed by the argument that South Viet Nam is also under attack from North Viet Nam. At least in discussions with outsiders, they tend to take the position that infiltration of Northern troops and supplies is an insignificant factor in the equation.

CHARGE AGGRESSION

Symbols of the protest movement are mass workers' meetings demanding an end to American "aggression" and public posters bearing sinister silhouettes of U.S. bombers dropping payloads on North Viet Nam.

Viet Nam is a source of constant strain in relations between East European officials and Western diplomats, whether at formal conferences or cocktail parties.

On a more practical level, it complicates negotiations for East-West cultural exchanges —one of the few areas in which East-West coexistence is still at all active—particularly those involving the U.S.

"I sympathize with Gen. Westmoreland," says a U.S. cultural attache ruefully, commenting on the headaches that Viet Nam has caused in his work, "but I've got my troubles right here."

Everywhere, people are wishing that the nasty business could be ended before irreparable damage is done to the cause of international tranquillity.

So far, the East European countries have not committed themselves at least publicly to supply any particular amount of military equipment to North Viet Nam, though some are sending economic help and others medical assistance.

REACTION CAUTIOUS

Some Western observers suspect that the response might be stiffer but for the possibility it would damage improved trade and economic relations with the West, which the Eastern countries want desperately.

The East Europeans are keeping things in perspective, realizing as apparently Russia has done that their national interests are not directly affected by a war in the far-off land of Viet Nam, even if the war does involve a "fraternal country."

It is entirely possible that the generally moderate stand of the East Europeans has helped to condition Russia's own basically cautious response to a dangerous situation.

An interesting commentary on the conflicting priorities involved was provided when the North Vietnamese ambassador asked a high foreign affairs official of an East European country whether citizens of the country could not perhaps consume 10 per cent less meat, with the difference being sent to Viet Nam.

Relating this afterward, the official didn't say what he told the ambassador. But he made clear the nature of his response.

"How can we ask our workers to eat less meat?" he asked.

But the same official was insistent that only a halt to American bombing of North Viet Nam could lead to ending the war.

CIVIL DEFENCE

Only by constantly up-dating written Civil Defence plans can a municipality be sure, in emergencies, it has an adequate guide of operations.

HUBERT

Electronic Snoopers Studied

By ARCH MacKENZIE

WASHINGTON (CP) — The American citizen's right to know in an open society and his right to privacy in an age of electronic computers and snoopers have had a thorough airing here this year.

President Johnson has signed a bill which is the product of a 10-year congressional campaign to nail down the average citizen's rights to find out just what the government is doing. It remains to be seen how many loopholes are left in to guard security, trade and other government responsibilities.

At the same time, the justice department has disclosed that wire-tapping of telephones and the electronic "bugging" of assorted premises was much more widespread than the public believed.

One congressional committee piled up evidence of the brisk growth of these listening devices in every-day affairs.

Another was planning hearings to ward off the possibility that the government might, at the push of a computer button, throw together from its vast array of statistical data instant information files on millions of American citizens.

SEEKS LEGISLATION

Congressman John E. Moss, California Democrat, had been working for 10 years on his legislation to strengthen an individual's ability to get information on government operations except those involving "true national security or personnel investigative files."

Provisions exist now for court action to get such information.

But the fact that 27 federal government agencies opposed the bill as restrictive indicates that a lot of testing may be involved.

Another attack on the government's role in today's information world was signalled by Congressman Cornelius E. Gallagher, New Jersey Democrat who heads a subcommittee on invasions of privacy.

He said the government, for example, now keeps fingerprints on 175,000,000 of the nearly 200,000,000 American citizens. Coupled with the mounting statistical data acquired in tax returns, medical care and other areas, the government theoretically could build up "data banks."

"It would be possible to press a button and obtain an instant dossier on any one of millions of people," says Gallagher. "We must make certain there are adequate safeguards to protect the right of privacy of Americans as the government moves into the age of computers."

USE ELECTRONICS

At the other end of the scale is the whole range of government and private operations seeking to ferret out information electronically.

The Federal Bureau of Investigation, for example, for years in its crime - detection work has been using wire taps and bugging devices. Former attorney - general Robert Kennedy indicated recently that FBI head J. Edgar Hoover had conducted such work without tipping his erstwhile boss.

In the private sector, there has been revealing testimony before a committee headed by Democratic Senator Edward Long of Missouri.

Private detectives were said to have master keys to Washington hotels for electronic-detection work. Equipment existed to let car salesmen listen in on reactions of prospective buyers.

There was a "do-it-yourself" detection kit seemingly popular with husbands or wives suspicious of infidelity by their spouses.

Telephone companies were alleged to have arranged wire-tapping for law officers without court orders.

Question of Survival

By JOSEPH MacSWEEN
Canadian Press Staff Writer

The main question in Africa now is whether the federation o now is whether the federation of Nigeria will survive following its second coup within seven months.

Observers see the federation, most populous country in Africa with 55,000,000 people, on the brink of breakup and a return to tribalism.

A breakup, in itself, would not necessarily be a calamity if it came about through unscrambling of the main elements of the federation without conflict.

Each region of the federation is bigger than many other African countries.

A separate north would have a Muslim population of 25,000,000, mostly of the Hausa and Fulani tribes. Of the coastal areas, the east would have more than 12,000,000 Ibos, Nigeria's keenest businessmen and tradesmen. The west, with its more than 10,000,000 people, is well known for its Yoruba intelligentsia and professional men.

MANY ADVANTAGES

Many observers, however, would regard a breakup as a tragedy for Africa, where so many countries have come to independence unprepared, with tottering economies and with senseless boundaries imposed by the European colonial powers.

Nigeria, blessed with educated and wise leaders and with formidable resources, was described as Britain's prize pupil in the system of parliamentary democracy.

It reamined faithful to that system while other African countries went over to the one-party formula. There was a boom of Western investment in this virile country—it even has an oil industry — which embraced within its borders more Negroes than any other state in the world.

Today in History

By THE CANADIAN PRESS
Aug. 10, 1966 . . .

The Liberals were returned to power in the federal election 13 years ago today—in 1953 — becoming the first party in Canadian history to win majorities in five consecutive elections. Under Prime Minister Louis St. Laurent, the party captured 170 of 265 seats, losing 10 each to the Conservatives and the CCF but still dominating Parliament completely. The Liberals' string of election victories had begun in 1935, under W. L. Mackenzie King, and ended in 1957.

1920—The government of the Turkish sultan signed the Treaty of Sevres, giving up its empire.

1945 — Japan offered unconditional surrender.

First World War

Fifty years ago today—in 1916 — Russians occupied Stanislau, Galicia; the British advanced northwest of Pozieres; Italians launched a drive on Trieste from Goritz.

Second World War

Twenty-five years ago today—in 1941—German airmen made a mass raid on Moscow, claiming a direct hit on the Kremlin; the RAF attacked enemy shipping off the French coast and targets in northern France; the South African air force attacked enemy positions in the Bardia area.

PLAN MORE LINER TRIPS

MOSCOW (AP) — The Soviet passenger liner Alexndr Pushkin will sail to Canada eight times in the 1967 season, twice more than during its initial season this year on the Atlantic run. The news agency Tass claimed Tuesday that the Purhkin had become popular on its run from Leningrad to Helsinki, Copenhagen, London and Montreal, carrying up to 500 passengers on some voyages.

Words of Life

Then saith Jesus unto him, Get thee hence, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve. Matthew 4:10.

TRUDY

". . . When Gil Fooley of 21 Main Street came to our office, flat broke, we didn't embarrass him with a lot of personal questions or ask for co-signers . . ."

Farewell Party Held For Officer and Wife

CRESCENT VALLEY — A group of friends gathered recently at the home of Cpl. and Mrs. A. V. Scully, Crescent Valley, to wish Cst. and Mrs. Michael Krevesky much happiness in their new home in Nelson. Cst. Krevesky has been stationed here with the RCMP for over two years and Mrs. Krevesky has been here since their marriage last August.

Cpl. Scully expressed his regrets at losting Cst. Krevesky but at the same time expressed his hopes that the young couple would be happy in their new posting. He presented them with a crystal vase on behalf of the following friends: Mr. and Mrs. Bob Dunsmore, Mr. and Mrs. Joe Bourgeois, Mr. and Mrs. Joe Dowes, Mr. and Mrs. Bob Elsdon, Mr. and Mrs. John Hawkins, Mr. and Mrs. Herb Sherratt, Cpl. and Mrs. A. V. Scully and Mr. and Mrs. Philip Konkin, who were not present. Geoff Watts also had a farewell gift for the Kreveskys'.

Mr. Geoff Watts was presented with a wallet by Cpl. Scully on behalf of himself and Cst. Krevesky. Mr. Watts has taught school for the past two years at Slocan Park School and will be leaving shortly for his home in Australia. He has been an Auxiliary member of the Royal Canadian Mounted Police for the past year.

Daughter of Pioneer Visits Gray Creek

GRAY CREEK — Interesting overnight guests were Mrs. Terry Chettleburgh and her daughter Anne from Oyster River, Vancouver Island.

Mrs. Chettleburgh is the eldest daughter of Arthur Houghton, one of the first Englishmen to discover Crawford Bay at the turn of the century. The Houghton brothers, Jack and Arthur, were prospecting from the Windermere Valley and came from the Kimberley area into the Kootenay Valley either through Rose Pass or Gray Creek.

The pair bought much of the Crawford Bay land which has been recently purchased by the Kokanee Springs Development Company.

Arthur Houghton married Miss Ursula Harrison, a daughter of Commander Harrison. They lived at Crawford Bay and La France. Their big log house at La France has been enlarged and is now occupied by Mr. and Mrs. Victor Johnson and their big family, two of whom now manage Destiny Store and Resort.

Mr. and Mrs. Terry Chettleburgh have recently sold their Oyster Bay Resort and are looking for a new home. Anne and her mother toured B.C. and found Basil Houghton near Stewart, where he was following his father's footsteps, prospecting.

Ainsworth

AINSWORTH HOT SPRINGS—J. B. (Pop Fletcher celebrated his 82nd birthday on Friday. Friends and neighbors called to wish him "many happy returns". Mr. Fletcher has kept store for 53 years here.

Mr. and Mrs. M. L. Brothers have as guests Mrs. Brothers' brother and sister-in-law of Trail for a few days.

Mrs. Bob Mahon of Quesnel visited her parents, Mr. and Mrs. J. B. Fletcher.

Mr. and Mrs. H. S. Currie and son Dennis have returned home after spending three weeks touring and visiting relatives and friends in Nova Scotia.

Recent visitors with Mr. and Mrs. C. A. Anderson were Mr. and Mrs. J. McFarland of New Westminster.

Visiting Mr. and Mrs. R. Butchart were Mr. and Mrs. H. Lysne of Stoney Plain, Alta.

Mr. and Mrs. M. Plecash have as their guests their daughter, Helen, and husband, Mr. and Mrs. Stan Snyden, of Campbell River.

Visiting Mrs. R. Sherraden were Mrs. P. Misen of Balfour, and her guests, Mrs. D. Lazorka of Creston and Mrs. F. Belyk and Mrs. D. Asman of Borden, Sask.

Mrs. J. Sutcliffe of Riondel and daughter, Mrs. H. Armstrong, and four children, and her sister-in-law, Mildred and two children, and Miss Linda Morey of Salmo were also visitors.

Gib Cardon of Kamloops is visiting Mr. and Mrs. J. Christopher at the Towers.

Weather Foiled Visit

KASLO—A week ago last Sunday the new airstrip at Kaslo had a visitor in the person of Mrs. E. Wadsworth of Victoria. She had been attending a pilots' seminar in Nelson and decided to visit some old friends in Kaslo.

She landed her twin-engine plane and had planned on walking into town, but it was raining hard and the ceiling was closing in so she decided to take off again. She reached Penticton to find a thunderstorm in progress and as a consequence all planes were grounded.

When Mrs. Wadsworth received her pilot's licence a few years ago she took top marks in a class of 52; the other 51 were all men.

Mrs. Wadsworth, the former Bessie McGibbon, was born in Kaslo and graduated from high school here.

Creston Notes

Winners of the regular match point duplicate game of the Mount Baker Bridge Club are as follows: R. Chatterson and Mrs. Tonnie Brikeland, first; Mr. and Mrs. Harry McLoughlin, second, and tied for third were G. Felker and Mrs. M. Whistlecroft, and Mr. and Mrs. V. C. Brown.

There were six tables in play.

Shower Honors Kaslo Miss

KASLO — The tastefully decorated Community Hall was the scene of a pretty bridal shower given by Mrs. P. Rempel, Mrs. K. Thiessen, and Mrs. E. Carson for Miss Beverley Seafoot of Kaslo, whose marriage to Mr. Terry Doe of Hills, B.C., took place Saturday.

The 28 guests took part in a contest in which Mrs. Maureen Settles received high score and Mrs. Tanis McLeod received low score. Mrs. Doreen Langille was winner of the lucky draw. Mrs. Mary Johnson delighted the guests with a skit.

Mrs. W. Seafoot, the bride-to-be's mother, and Mrs. Doe, the groom-to-be's mother, helped to unwrap the many beautiful gifts.

Ooohhh, ahhh... just what you're looking for. Find REAL ESTATE fast in the YELLOW PAGES. Where your fingers do the walking.

Sherbinin-Osachoff Principals Making Home at Crescent Valley

MR. AND MRS. COLLIN SHERBININ
Photo by Renwick Studio

Beautiful in a floor-length gown of peau de soie enhanced with lace, Kathryn Osachoff was united in marriage to Collin Sherbinin, July 30.

Her gown was styled on A-line with lace panels on the front, and the lace bodice featured a scalloped neckline with lilypoint sleeves. Her cathedral train was also of lace that fell gracefully from her shoulders where it was held by a bow of peau de soie. A similar bow added interest at the front waistline. She wore white satin shoes. Her three-tiered veil misted from a headpiece of six chiffon roses, centred with aurora borealis crystals, and lace leaves. Her cascade bouquet was of deep pink roses and she wore a pearl droplet gold necklace.

The couple was attended by Miss Jean Osachoff, the bride's sister, as maid of honor; Miss Irene Sherbinin, sister of the groom, as bridesmaid, and Mr. Mike Ostrikoff as best man, with Mr. Louis Gretchin serving as usher.

The bride's attendants were both in floor length pink chiffon over rayon. Dark green velvet bows accented the empire waistlines and the bodices were of pink lace. Small circlets of the same material as their dresses, adorned with pink net, made up their headpieces and they wore white gloves, pink satin shoes and carried bouquets of pink carnations.

At the afternoon reception in Taghum Hall, pink and white bells, streamers and flowers created the decor. On the bride's table were bouquets of red roses along with the three-tiered wedding cake, decorated with pink and white roses and topped with three white bells, pink lily of the valley and pink net.

The bride's mother was in a pink and white two-piece outfit with white accessories and pink carnation corsage, while the groom's mother chose a pink and beige two-piece outfit with white accessories and pink carnation corsage.

The Lord's Prayer preceded the Russian sitdown supper. Mr. Mike Ostrikoff proposed the toast to the bride and groom. The groom's gifts to his attendants were gold cufflinks and tie tack sets and the bride's gifts were gold pearl droplet necklaces.

The bride's going-away outfit was comprised of a beige knit two-piece suit with brown accessories, complemented by a corsage of red rosebuds.

Following their honeymoon at Harrison Hot Springs, Vancouver, Victoria and Seattle, the couple are making their home at Crescent Valley.

Out of town guests included Mr. John Chernoff of Saskatoon, Mrs. J. J. Chernoff of Verigin, Sask.; Mr. and Mrs. Fred Konkin of Blaine Lake, Sask.; Mr. and Mrs. Henry Peters, Waltheim, Sask., as well as many from Creston, Grand Forks, Kelowna and other Kootenay points.

TEACH MANY

The mean student-teacher ratio at kindergartens in Canada's larger school systems has been estimated at 45 to one.

About The Town

PHONE 352-3552

About 15 friends surprised Mrs. Peter Popoff of Blewett with a baby shower Monday night. A small shower cake, decorated with rosettes, was served, along with the delicious lunch.

As the guests came in they piled the presents in the baby's buggy. Two door prizes were won by Mrs. Sydney Shukin and Mrs. Mike Varabioff.

* * *

After visiting her sister, Mrs. D. T. Heddle, 514 Victoria Street, Mrs. T. Thompson left Sunday for her home at Binscarth, Manitoba.

* * *

Kokanee Bridge Club, Nelson, played a six-table Howell at their regular Monday night meeting. Winners were:

Mr. and Mrs. Neil Derby, first with 79½; Mr. and Mrs. G. D. G. Barwis, second, 78½; Mrs. P. W. Buckley and Mr. Dennis Randle, third, 76; and Mrs. Fred Hesse and Mrs. R. H. Bradley, fourth with 71½.

* * *

Mrs. Owen Smith and sons Owen and Michael from Toronto, who have been visiting her family Mr. and Mrs. Gordon Burns of the North Shore for the past month, leave for their home this weekend.

* * *

Mr. and Mrs. W. L. Clarkson, 704 Fell Street, have had as guest for the past week the latter's mother, Mrs. E. Glover, Killarney, Manitoba and sister, Mrs. F. S. MacKay and her son Garrie of Hilton, Man., and Miss M. G. Rodie of Glasgow, Scotland.

LARRY ALDRICH
PRINTED PATTERN

NEW SUIT LOOK — SOFT, YOUNG

IT'S THE NEWEST SUIT APPROACH — younger, softer and sleeveless, or with short sleeves. Definitely the crisp way to approach mid-summer and the changing seasons. Printed Pattern A939 reflects the fine cut and line characteristic of the Larry Aldrich collections. The brief, paneled front jacket has today's favored collar — widened to stand charmingly away from the neck. The slender skirt is eased by gathers below the waist. Choose linen, shantung, wool knit or tweed. Pattern includes ¾ sleeve version, too.

Printed Pattern A939 is available in Misses' Sizes 10, 12, 14, 16, 18. Size 10 top requires 2 yards 35-inch fabric; skirt requires 1¾ yards 35-inch fabric.

Send **ONE DOLLAR** for Printed Pattern A939 to NDN Pattern Dept., 60 Front St. West., Toronto, Ont. Please print plainly **YOUR NAME, ADDRESS with ZIP, STYLE NUMBER and SIZE.**

See 57 cream-of-the-collections designer originals in our Couture Pattern Book. Plus 50c free coupon — apply to any $1 pattern in Book. Send 50c now for new Couture Book.

hints from Heloise

DEAR HELOISE:

What do you do when you are baking fruit pie, or macaroni and cheese, and it boils over causing smoke in your oven, and you can't turn the oven off to clean it right then?

Well, you know what I mean!

Olive

* * *

Dear Olive:

When this happens, grab your box of table salt and open the big spout.

Open your oven door and pour the salt on any fresh spill, covering it with at least a ¼" of salt. This will not only stop the smoke, but any more juice that happens to drop from that side of the pie, will fall on the salt.

Now, here's the best part: Just leave that salt on those spills for a day or two and keep using your oven—it won't smoke any more.

Then, using your metal pancake turner or a spatula, remove the hardened crust . . . and continue to clean from there.

You will find this will save you lots of time cleaning your oven. No use for us to spend our time cleaning hard, sticky goop off an oven floor when you can lift it up like a pancake.

Besides, I figure that little bit of salt is cheaper than our highly valued elbow grease.

* * *

Heloise

* * *

DEAR HELOISE:

You suggested peeling stringy celery with a potato peeler.

I do that, but instead of cutting it into service size pieces, I *break* the stocks, breaking *against* the strings that are left after the peeling process.

I can then pull off additional strings that are imbedded in the celery.

Mary Sanders

* * *

DEAR HELOISE:

Recently a friend ate an evening meal with me.

Afterwards she insisted on helping me with the dishes.

When she asked where my dish cloth was, I told her I used a sponge.

After the dishes were done, I noticed she proceeded to wring the water out of the sponge.

Please tell your readers . . .

Don't ever *wring* a sponge unless you want to ruin it. Squeeze it!

Alice

* * *

DEAR HELOISE:

A recent discovery of mine was that the syrup from canned fruit makes excellent popsicles.

Myrna Waddell

* * *

DEAR HELOISE:

The points of the collars on my husband's permanently-pressed shirts have filled with tiny bits of dirt that won't come out. The shirts are unwearable.

Can you suggest a method of removing these particles?

Mrs. A. L. B.

* * *

Bless your little heart.

The shirt makers couldn't give me an answer either. But hold on, Hon . . . let's both bet one of our friends has the answer.

If any of you can help our friend (and me), please drop me a line in care of this paper. Lots of us will appreciate you for it.

Heloise

* * *

DEAR HELOISE:

Here's a little hint for those who buy a shampoo and find that it doesn't suit their hair.

Don't throw it away.

When cleaning hair brushes and combs, use the shampoo instead of your regular soap.

With a little hot water it will make your brushes and combs sparkle.

Terry Capozio

* * *

DEAR HELOISE:

Take your child's previous year's picture from your billfold when you get the new one, and put the old one beside the report card in his or her scrapbook.

It shows how they change from year to year and brings back many fond memories.

Mrs. Ralph V. Green

(© 1966, King Features Syndicate, Inc.)

New Denver Notes

NEW DENVER—Mr. and Mrs. Sam Kondo and family of Toronto, who left Sandon 20 years ago, were back to see Sandon and district. They also visited Mr. and Mrs. G. Stewart.

Dr. and Mrs. W. Darylchuk and two friends of Saskatoon visited E. L. Carter Saturday.

Visiting L. Fried are his brother, Ott Fried, and son of Spokane.

Mr. and Mrs. W. A. Budden, Debbie and Lesli of Creston, accompanied by Sigrid Anderson, are holidaying at their cabin at Whatshan Lake.

Mrs. Grace Butler left Saturday to visit her son and daughter-in-law, Mr. and Mrs. Wayne Butler and family at Edmonton for about two weeks.

Mrs. J. Minnis of Vanada, B.C., and her mother, of Nelson, were visitors during the week.

Mr. and Mrs. G. Palmer and family of New York spent a few days with Mr. Palmer's brother and sister-in-law, Mr. and Mrs. G. Palmer and family at Rosebery.

Mr. and Mrs. Ken Casley and family have as guests the former's brother, Roy Casley of Vernon, and sister, Mrs. Arthur Cooper of Hope.

Mr. and Mrs. T. Maxinuk and family are visiting relatives in Vernon.

Mrs. Anne Schnaebele has as guests Mr. and Mrs. C. Eveson of Glenwood, Alta.

Mr. and Mrs. Bill Gould had their grandson and his wife, Mr. and Mrs. Mickey Gould, holidaying with them from Ladysmith.

Mr. and Mrs. S. Heslip and Ronnie have as their guests Mrs. Heslip's brother and sister-in-law, Mr. and Mrs. Harold Russell and son of Duncan.

Mr. and Mrs. Q. A. Forsythe and family have as their house guest Miss Barbara Craig of Vancouver.

Mr. and Mrs. N. Takenaka have as guests their son and daughter-in-law, Mr. and Mrs. M. Takenaka and family and her sister, Miss Loke Alired, all of Calgary.

Miss June Boudier, nurse-in-training at Vancouver General Hospital, after a week's holiday at the home of Mr. and Mrs. A. E. Thomas, has returned to Vancouver.

On July 28, at St. Anthony's Church, New Denver, Mr. and Mrs. Wally Fulkco had their infant daughter baptised Deborah Marie by Rev. Thomas Fulkco of Kelowna, brother of Mr. W. Fulkco. Godparents were Mrs. Ken Casley and Mr. W. Fulkco. After mass a delightful breakfast was served to the immediate family at the home of Mr. and Mrs. W. Fulkco.

Mr. and Mrs. J. H. McDonaugh returned home Monday evening from Ocean Park where they went to attend the christening of their granddaughter. The infant daughter of Mr. and Mrs. James Ernest Martin of Ocean Park was christened Theresa Anne by Rev. Bruce in St. Mark Church. Godparents are John McDonaugh, uncle of the baby, and great-aunt Miss Anne Martin. An open reception followed at their home.

Mrs. Webb Still Spry Despite Her 99 Years

KASLO — A birthday party took place on the lawn at the home of Mrs. Webb in Kaslo July 30.

With the assistance of Mrs. M. Laybourne, who made the beautifully decorated birthday cake, Mrs. A. Miller, Mrs. Webb's daughter, served delicious refreshments to friends and neighbors who dropped in to wish Mrs. Webb "many happy returns".

Why so special? Well, it was Mrs. Webb's ninety-ninth birthday. She is a most remarkable person, for she lives alone in her own neat little house, does all her own housework, and a little gardening, and reads without the aid of glasses.

Mrs. Webb was born in England but came to Canada many years ago.

B.C. APRICOTS
READY NOW . . .
for preserving and eating fresh

Winter doesn't have to mean dull unexciting meals . . . not if you put up a good supply of B.C. Apricot jam and preserves.

B.C. Apricots are the easiest of all fruits to home-preserve . . . no peeling is necessary – the stones drop out freely, and you'll like the way they hold their sun-sweet flavor when preserved.

When you're buying B.C. Apricots for preserving, be sure to get plenty for fresh eating treats, too. They're perfect with breakfast cereals . . . delicious and full-flavored in fruit salads, fruit cocktails and shortcakes . . . and a delightful snack just as they come from the box.

Your most economical fruit preserves for next winter . . . will be the fruit you preserve NOW during the B.C. fresh fruit season.

B.C. Apricots are now at their best, and attractively priced.

PRESERVE YOUR B.C. APRICOTS NOW!

B.C. BRITISH COLUMBIA

Your Individual Horoscope

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Thursday, August 11, 1966

MARCH 21 to APRIL 20 (Aries) — You have the equipment and training to set a praiseworthy mark now. Planetary aspects are auspicious. Express your thoughts in a clear, lucid manner for best reception.

APRIL 21 to MAY 21 (Taurus) — No day for non-thinkers. The unproductive will fall by the wayside. Yours is a vibrant Sign, with intense expressive tendencies. Make the most of YOUR skills and talents.

MAY 22 to JUNE 21 (Gemini) — Leave no wide gaps in either plans or schedule. Opportunities are all around you. Make certain that you are in the receiving line early. Steady effort will bring fine rewards.

JUNE 22 to JULY 23 (Cancer) — The desire for escape from reality is fairly common but that is the "easy way out" and can never prove profitable. Bear this in mind now, when there is a tendency to "drift." Take the right road, as your good judgment and foresight dictates.

JULY 24 to AUGUST 23 (Leo) — "Prestige," "status," "success" are all too familiar as mere words. Real meanings of these symbols will not be handed to you; you must earn them. You CAN, if acting in conformity with the best of Leo's traits.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Do not fear the future. This could defeat your purposes. Ignorance magnifies dilemma, so be prepared to offset it with a calculated program based on knowledge, and know-how.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Don't run with the conformists now. A little daring could pay off. If you desire that extra rating and pursue it diligently, advancement will be yours sooner.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — This is a day which calls for calmness and good judgment. Do not let unexpected situations ruffle you and do not let yourself be pushed into errors.

NOVEMBER 23 to DECEMBRE 21 (Sagittarius) — In spite of some confusion now, you can handle situations more ably than others, thus enhancing your position. Facing facts and being realistic are two of your best assets. Use them!

DECEMBER 22 to JANUARY 20 (Capricorn) — Don't underrate your inventive ideas. Take advantage of promising aspects to perform in a stimulating manner, befitting your Sign's talents. Avoid discord.

JANUARY 21 to FEBRUARY 19 (Aquarius) — A long, hard day ahead As a first rate starter, you may sometimes wind up tired, limp. Review progress made. Be eager to plan advance performance — with zest.

FEBRUARY 20 to MARCH 20 (Pisces) — Step up energy and join the "get up and go" group. Translate action only into laudable effort. Your exuberance is relished by all. Dispense it willingly.

YOU BORN TODAY: Activity is your key word. With this beginning, you have many assurances of success since you can step into openings, new spots at any age, and do a bang-up, often brilliant, job. Do not permit individualism to become extreme, nor impulses get out of hand. Your enthusiasm and expressiveness, well-directed, are high-powered assets. Leoites can antagonize others unwittingly, so be alert. In government and military life, you are intrepid, hardy, daring. Many noted orators, actors and business executives have been Leo-born. Birthdate of: Gov. Gifford Pinchot, of Pennsylvania.

Britons Still Pack Pubs

By JAMES F. KING

LONDON (AP) — Despite Prime Minister Wilson's austerity program, Britons are packing the pubs at lunch time and streaming into the betting shops. There's money around and jobs aplenty with no signs yet that belt-tightening in government is beginning to hurt.

But Britain today is a nation of underlying fears, confusion and doubts. The honeymoon days of the post-war welfare state—accepted by both Socialists and Tories alike—are over. The social services, including the health scheme, are here to stay but there could be some trimming.

Britain's political system could be at stake in the present crisis, too—a system that demands complete loyalty from parliamentary members of the party in power.

Wilson's Labor party, which depends for support largely on the trade unions, is torn by a revolt of a bloc of leftist legislators, who are openly fighting a wage freeze, and some big trade unions.

DISCIPLINE REBELS

Wilson has a comfortable 96-vote majority in the House of Commons. But growing talk about disciplinary action against the rebels could put his government in a shaky position.

Rebel leader Michael Foot last week told Parliament in calling for a revolt against the wage freeze:

"If everyone took the course I'm advising my friends to take, the government would be defeated."

But no one takes seriously, at this stage, the possibility of a national — or coalition — government.

Wilson is expected, however, to shake up his cabinet.

Political commentator Harold Hutchinson, writing in The Sun which supports Wilson, said "one could sense in the last month or so that if there were a de Gaulle in Britain, his prospects would not be at all bad.

"If that is right, it is a serious danger signal."

At last count there were 454,000 unfilled jobs going in Britain and 280,000 people out of work.

But fears come from official warnings that the reductions could bring unemployment approaching half a million this winter.

HOLIDAYERS SUFFER

Bookings for holidays overseas were at record highs but the clamp down—putting a £50 ($150) limit — on spending abroad has forced many to plan vacations at home.

Government explanations of the importance of having a British army in West Germany or fulfilling other overseas commitments to keep in the swim as a world power have not sunk in yet.

There's surprisingly little grumbling heard considering the ominous warnings of immediate sacrifices to save the pound.

But a new Beatles record, Taxman, goes like this: "I'm the taxman . . . if you drive a car, I'll tax the street . . . if you're feeling cold, I'll tax the heat . . . if you take a walk, I'll tax your feet."

Smart City Coat

By VERA WINSTON

GREEN and white or blue and white stripes are the color combinations used for this handsome coat of diagonal weave wool.

The bodice is close-fitting and the inset midriff uses the weave in reverse direction for added interest.

The separate white linen collar is detachable. There is, of course, a self-collar underneath.

A handsome town coat!

Billy Martin To Attend Nationals Rookie Camp

Canada's National Hockey Team, led to a third place finish in the World Amateur Hockey Championships by goalie Seth Martin last winter may have another Martin on the club this season — Seth's nephew Billy.

National's publicity man Phil Reimer announced in Winnipeg that Billy Martin will attend the Nats rookie camp in Montreal beginning August 13. Martin, leading scorer of the Rossland Warriors of the Western International Hockey League last season with 48 goals and 53 assists, leaves B.C. on Thursday for the flight east.

Ron Huston, Cranbrook Royals' top scorer was originally slated for the Nationals this season, but he was unavailable to confirm whether he would still go to the Canadian team this season.

Netminder Seth Martin had also planned to fly east with his nephew but said Tuesday night he wouldn't make the trip because it would involve too much time off work.

BILLY MARTIN
. . . Nationals?

Billy's 48 goals last season topped the league and pushed his point total to 161 in 50 games for an average of just over two points per contest.

Also attending the rookie camp for the National squad will be such outstanding junior stars as Serge Savard, a defenceman from the Montreal Junior Canadiens; Danny O'Shea of Oshawa Generals, leading scorer in the Memorial Cup final last year; talented forward Craig Cameron from Edmonton Oil Kings and former Brandon Wheat Kings star Brian Harper.

Carl Brewer, who retired from Toronto Maple Leafs last year could also find himself on the National squad this time around.

The National team will be a truly Canadian club this season as each minor hockey setup in the 10 provinces will send two players to the tryout camp.

August may seem like an early start for hockey in Canada, but Russia, defending champions, opened their camp on the Black Sea on July 15 and have been on skates for two weeks now.

Killy Leads Giant Slalom; Scott Henderson in 18th

PORTILLO, Chile (AP)—Favored Jean Claude Killy, ace of the French team, raced over the giant slalom course in one minute, 37.22 seconds Tuesday to take the lead after the first heat in the world alpine ski championships.

The second and final heat will be run today.

Killy, who won the downhill title Sunday and will compete in the slalom later in the week, beat out team-mate Guy Perillat by .21 of a second. Perillat finished in 1:37.43.

Karl Schranz of Austria was third in 1:37.64. Jakob Tischhauser of Switzerland placed fourth in 1:37.96.

Leo Lacroix of France, who finished second to Killy in the downhill, was eighth in 1:39.49.

Scott Henderson, 23, of Banff, Alta., finished in a tie for 18th and complained, with others, of a poor course. His time was 1:41.49.

SCOTT HENDERSON
. . . Places 18th

SHEPHERD 25TH

Keith Shepherd, 20, of Waskesiu, Sask., finished 25th in a time of 1:42.93. Rod Hebron, 23, of Vernon, B.C., was 27th in 1:43.16.

Wayne Henderson, 22, of Banff, finished 29th in 1:43.61 while Peter Duncan, 21, of Mont Tremblant, Que., was 32nd in 1:43.89.

Canadian coach Dave Jacobs of Montreal said the course "was very turny and the snow was very hard, but not icy. The skiers went over the very hard pack and their skis clattered making it hard to hold turns."

Scott Henderson said: "I felt I skied the top part well but people who were watching said I wasn't working hard enough at the bottom."

Wayne Henderson, Scott's brother, said: "I thought the race was difficult, the turns very hard and chattery. I didn't do nearly as well as I had expected."

Thrums Takes Opener 22-3

THRUMS — Thrums walloped Dravo 22-3 Tuesday night to take a one game lead in their best-of-three West Kootenay Ladies' Softball League semi-final series.

Anne Konkin went all the way on the mound to take the victory while Hazel Maloss was charged with the loss.

The second game of the series goes Thursday night in Dravo.

Konkin contributed a home run to her own cause in the second inning the only one of the game while L. Pyper chipped in with five hits in five trips to the plate, including a triple and a double.

M. Schmidt also tripled for the winners as she collected four hits. M. Maron went four for five for Thrums and D. Ostosoroff added a double.

For Dravo, A. Zeberoff collected three hits in four trips to the plate while M. Beffette went two for three.

Bragan's Stormy Career Comes to Lightning End

By RON SPEER

ATLANTA (AP)—Bobby Bragan's stormy career with Atlanta Braves came to an end Tuesday when he was fired as manager and replaced by Billy Hitchcock.

The change, long expected, was made in an attempt to get the Braves out of the second division in the National League, general manager John McHale said.

"We owe it to the fans of Atlanta to finish just as high as we can," McHale said. "We waited this long, hoping Bobby could get the club moving. All the evidence pointed to the fact that he couldn't."

Hitchcock, who managed Baltimore Orioles in the American League in 1962 and 1963, took over with the Braves in seventh place, 12½ off the lead.

The 50-year-old baseball veteran had been considered Bragan's probable successor ever since he was hired as an Atlanta coach last winter.

NO UPHEAVAL

"I don't plan to make any startling changes," Hitchcock said. "I just found out I was the manager when I was awakened at 7:40 this morning."

Hitchcock said he hopes to bolster the Braves' struggling pitching staff by "putting confidence in my pitchers, and giving them the responsibility."

Pitching problems plagued Bragan all season, and he has been the target of Atlanta fans' boos for weeks. He also was unpopular with Milwaukee fans last season before the Braves left Wisconsin.

Bragan, also fired as manager of Pittsburgh Pirates and Cleveland Indians, was in his fourth season with the Braves.

Poorest Season Finish Ever For Slocan Silver Kings

SLOCAN — Since joining the Slocan Valley Senior Baseball League, some six years ago the Slocan Silver Kings won the League title and trophy. Today the Silver Kings are idle for the remainder of the season as they failed to gain a playoff berth. For the first time since entering the league they finished in the cellar with a two-wins-and-eight-loss record, a complete reversal from previous years. The Silver Kings, in their losing efforts enjoyed the season with a bright future outlook as they have six rookies who will certainly help the club next year.

Manager Ron Nash, a veteran with many years of experience has certainly helped the club in the past two season. Nash has indicated this is his last season of baseball. However, if he hangs up his spikes the fans will certainly miss him.

The Silver Kings batting title was copped by Jim Doi with a .421 average, with Reg Cherenko hitting .389 followed by Ron Nash at .367; Bruce Ferguson .333; Vic Osis .294; Dennis Cherenko .266; Flem Bjerg .250; Ed Woods .230; Jerry Osis .226; Bob Fitchner .214; Gary Pitters .160: Ed Osis, .131 and Graut Brons .125. Vic Osis led the club with two triples and three doubles while Bruce Ferguson and Jerry Osis were tops in runs scored. Jim Doi gathered the most hits and runs batted in. Ron Nash held a fine .941 fielding average while first baseman Jerry Osis was second with a .936 mark.

Fergus drew the most walks. Cherenko led the pitching staff in strike-outs and righthander Bjerg had the lowest earned run average on the team. Ed Woods has proved to be the most valuable pinch-hitter while Ferguson was picked as an outstanding rookie.

Tanner Wins Gold Medal With New World Record

By JACK SULLIVAN
Canadian Press Sports Eeditor

KINGSTON, Jamaica (CP)—Elaine Tanner, the Mighty Mouse swimming sensation from Vancouver, won gold and silver medals and threw in a world record for good measure Tuesday night at the British Empire Games.

Eight more medals, including five in swimming, ran Canada's total at the Games to 25 after 48 championships. The swimmers, of course, were by far the bellwether of the Canadian team with a total of 13 medals.

World records were broken in three of the four swimming finals run off Tuesday, raising the number of world marks smashed at the Games pool to 10 since the Commonwealth sports festival started last Friday.

Miss Tanner's gold medal, the sixth for Canada in four days of competition, came in the 220-yard butterfly when she outdistanced team-mate Marilyn Corson of Parry Sound, Ont., and clocked a world record 2:29.9.

It was the second gold medal for Miss Tanner, and Canada's second world record in swimming. The first came last Friday when the women's 440-yard freestyle relay team, given a tremendous start by Miss Tanner, won the gold medal.

WON IN SHOOTING

In addition to swimming, Canada won a silver and a bronze in shooting and Sharon Whittaker, a Toronto teacher, got a silver as the losing finalist in the women's badminton singles.

Miss Tanner, a 15-year-old brunette, seemed on her way to another gold in the women's 110-yard backstroke when she led with about 15 yards to go. But she tired near the end—it was her third race of the day—and England's defending champion, Linda Ludgrove, caught the Canadian whiz in the closing yards to win the gold.

The furious pace sapped the English winner's strength and at the end she said "I'm shattered, I'm shattered."

Miss Ludgrove's winning time of 1:09.2 was just under her Games record of 1:09 flat set in a heat. Miss Tanner clocked 1:09.9.

SETTLED FOR SILVER

Ralph Hutton of Ocean Falls, B.C., was unlucky enough to come up against a pair of Australian swimmers who grabbed gold medals in the two men's events—the 220-yard backstroke and 440 - yard freestyle—held Tuesday night. Hutton had to settle for a silver and a bronze.

Peter Reynolds, 16, clipped 1.5 seconds off his world mark to win the gold in the backstroke with a time of 2:12.0. Hutton was second for the silver in 2:13.5, a clocking that equalled Reynolds' old mark. Another Australian, Karl Byron, won the bronze.

It was Reynolds' third gold medal. He earlier won the 440-yard individual medley and was a member of the victorious Aussie men's 880-yard freestyle relay quartet.

Robert Windle, another Aussie, cracked the third world record of the night in the 440 freestyle in 4:15.0. Jon Konrads of Australia had set the world mark of 4:15.9 in 1960.

Hutton was barely beaten by John Bennett of Australia for the silver. Bennett also was under the world record in 4:15.8.

The Canadian pressed Windle, 21-year-old student from New South Wales, almost all of the way.

But Hutton, swimming within 45 minutes of the backstroke final, tired near the windup and Bennett won the silver by a touch. Hutton's time was 4:16.1.

WANTS MEDAL

"All I want is one crummy gold medal," Grumbled the 18-year-old Hutton.

"I wish someone would push me to a world record," was his first comment after being reminded that it was the third time in these Games that he had placed second to someone who had set or equalled a world mark.

Miss Tanner, in chalking up her world record, bettered the old one of 2:31.9 by a full two seconds. It was set a year ago by Susan Pitts of the United States.

England scored heavily in the gold medal department Tuesday with eight to take the team leadership with a total of 18. Runner-up Australia has 13.

England won three of the four women's badminton gold medals, and captured the middle heavyweight weightlifting, men's individual epee fencing, 4,000 - metre pursuit cycling, free pistol shooting and the women's backstroke.

Dr. Jules Sobrian, pistol-packing physician from Omemee, Ont., brought down an unexpected silver in the free pistol event, just squeezing past Gary McMahon of Dartmouth, N.S., who took the bronze.

Charles Sexton of England, with 544 points, won the gold. Sobrian had 358 points, two more than McMahon.

Two Canadian fencers advanced to the semi - finals of the men's epee but lost as Bill Hoskyns of England captured the gold. The Canadians were Peter Bakonyi of Vancouver and Konrad Widmaier of Toronto.

Earlier Gerry Wiedel of Toronto was eliminated.

Sobrian, 31, was born at San Fernando, Trinidad, and is married with one child. He began shooting while interning in Toronto in 1961.

He's an amateur gunsmith, owns and flies his own plane, hunts and fishes, and has held Ontario and Canadian shooting championships.

MEDICAL OFFICER

He is medical health officer of the village of Omemee, 12 miles west of Peterborough.

McMahon, born in Roland, Man., is 34, single, a research scientist living in Dartmouth, N.S. He began shooting competitively in Halifax in 1957 and has won Canadian open and close grand aggregate championships .

He won a third-place bronze medal for Canada in the centre-fire pistol event at the 1959 Pan-American Games in Chicago; was 11th in free pistol in the 1960 Olympics in Rome, the highest ranking in international pistol shooting by anyone in the Commonwealth to that time; he was 16th in the free pistol in the 1964 Tokyo Olympics where he placed 47th in rapid-fire pistol.

In fencing, Bakonyi was the best in his round, registering three victories and two defeats while receiving 13 hits. Widmaier took the fourth and last qualifying spot in his rounds, breaking even 3-3 with 23 hits received.

Wiedel was beaten handily—one triumph to five defeats and 26 hits received.

The surprise medals Tuesday were in contrast to Monday's performance by Bill Crothers of Markham, Ont., who frankly admitted he "blew" the 880-yard final and a medal which had been almost a certainty.

PLACED FOURTH

Crothers came fourth in his speciality, and although his 1:47.3 time equalled the former Games record set by Peter Snell of New Zealand in 1962, he told reporters:

"I just blew it. I tried to get through, but the hole never opened. You can't go anywhere in a corner."

Noel Clough of Australia won the 880 in a brilliant 1:46.9. Wilson Kiprugut of Kenya and George Kerr of Jamaica were 3-10ths of a second behind Clough. Kiprugut got the silver medal and Kerr the bronze.

Sharing the spotlight with the Crothers upset was the defeat of Australia's Ron Clarke—for the second time—in a distance event. He lost the six miles Saturday to an unknown Kenyan army private named Naftali Temu. Monday he bowed to another Kenyan, Kipchoge Keino.

The bronze went to Allan Rushmer. Keino's time was a near-world record clocking of 12:57.4. Clarke came home in 12:59.2 and Rushmer in 13:08.6.

After the race, Clarke looked at his second-place medal and said:

"I've got more of these things than Father Christmas. Always second best—always the silver, never the gold. Kep proved himself better than me . . . but how can I quit until I prove I'm better than him?"

Pirates Edge Mets To Retain First Spot

By THE ASSOCIATED PRESS

Pittsburgh Pirates edged New York Mets 2-1 and stayed on top of the National League pennant scramble Tuesday night.

Pitcher Woody Fryman singled home what proved to be the winning run in the Pirates' two - run fourth inning after Donn Clendenon had doubled across the first.

San Francisco Giants dropped one game back by losing to Cincinnati Reds 3-2. The Reds won in the seventh when Vada Pinson singled home Sammy Ellis to break a 2-2 tie.

Houston Astros' five - run uprising in the ninth beat Chicago Cubs 8-5. Ron Davis doubled home Bob Lillis with what proved to be the winning run.

St. Louis Cardinals edged Philadelphia 3-2 when relief pitcher Nelson Briles cut short a ninth inning rally by the Phillies.

New York Yankees whipped first place Baltimore Orioles 4-1 in the American League as Joe Pepitone and Roger Maris each hit two-run homers.

Fred Whitfield hit a three-run homer to lead Cleveland Indians over Boston Red Sox 5-0. Detroit Tigers erupted for five runs in the eighth to defeat Washington Senators 8-3 and Chicago White Sox edged Kansas City Athletics 2-1 on Ken Berry's sacrifice fly in the sixth.

Ed Kirkpatrick's third - inning triple helped California Angels defeat Minnesota Twins 2-0. Kirkpatrick broke a scoreless tie with his triple following Bobby Knoop's leadoff walk in the third.

TEXANS FACE COLTS IN DECIDING GAME

Trail Conacher Newsmen, winners of the West Kootenay Junior Baseball League season title, captured the A series of the quarter-final by dumping Castlegar Cubs 5-4 and 22-1 over the weekend.

In the B series, Nelson Junior Texans take on Northport Colts tonight in Nelson to decide who will advance to the semi-finals. Nelson won the opening game in Northport 5-1, but the Colts rallied to nip the Texans 2-1 in the second contest, played in Nelson.

Fruitvale leads theC series by virtue of their 4-3 victory over Trail Smoke Eaters in the opening contest.

Rossland Junior Capilanos and Grand Forks split a doubleheader in series D to force a third and deciding game also. Grand Forks won 6-5, but the Caps rallied to take a 10-9 win to square the series.

Kaslo Wallops Nakusp To Clinch Second Place

KASLO — Kaslo batters gave 400 rabid fans plenty to cheer about Sunday as they walloped Nakusp 17-4. The home town club collected 14 hits, seven of them for extra bases, including one home run, three triples and three doubles.

Leading the parade with George Nelson and Norm Command, both having three hits in five trips to the plate, Nelson had a triple and Command a double and Nelson added five stolen bases to his record.

Mike Linn pitched controlled ball for the winners, scattering six hits, no walks and prevented himself from getting in trouble at any time with his control. While not on the mound, Linn went two-for-five at the plate, including a triple and double good for four RBIs.

Ed Mesenchuk of Kaslo and L. Falkman of Nakusp collected the only home runs.

It was a long day for Nakusp chucker Pat McQuire as he faced 49 Kaslo batters, striking out eight and walking seven but he gained some measure of revenge as he collected two hits in three trips to the plate to lead the Nakusp hitters.

The best play of the game came when Kaslo second baseman George Nelson raced into shallow right field to snag a hit by the first baseman with runners on first and second. Nelson, ignoring the easy play to first or second, rifled home a shot that cut off the runner trying to score from second. The Kaslo catcher then completed the double play with a perfect throw to second to nail the runner.

Kaslo clinched second spot in the league, meeting Nakusp in the semi-finals this weekend.

PUBLIC NOTICES

INTERNATIONAL JOINT COMMISSION

PUBLIC NOTICE

STORAGE OF WATER KOOTENAY LAKE

NOTICE IS HEREBY GIVEN that on 26 July, 1966, the International Joint Commission received an application from Cominco Limited, Trail, B.C. dated July 11, 1966, for approval to store two feet of water in Kootenay Lake in addition to the storage approved by the Commission's Order of Approval dated November 11, 1938, such approval to be for a period of one storage year commencing in August, 1966.

The Applicant states that the application was prompted by a request from Kaiser Aluminum and Chemical Corporation and associated industries in the Northwest States of the United States who seek to avoid an interruption in their power supply which could occur in the event of adverse water conditions during the fall and winter of 1966-67; and the regulation proposed would also result in substantial benefits in Canada by increasing the firm energy capability of the West Arm power plants.

Any Government or interested person may present a Statement in Response to the Commission prior to or at the hearings referred to below. Such Statements in Response should set forth facts and arguments bearing on the subject matter of the application and tending to oppose or support it in whole or in part. Fifty copies should be provided.

NOTICE IS ALSO GIVEN that the International Joint Commission, pursuant to its Rules of Procedure, will conduct public hearings on this matter in the Royal Canadian Legion Hall, Creston, B.C. on 11 August and in the American Legion Hall, Bonners Ferry, Idaho, on 12 August, beginning at 10:00 a.m. local time.

At the hearings all interested persons will be given opportunity to present their views regarding the subject matter of the application. Oral statements will be heard and written submissions may be filed.

Copies of the application are available for inspection at the offices of the Commission in Washington and Ottawa and at the following places in Canada:
Office of the Village Clerk, Creston, B.C.
Office of the City Clerk, Trail, B.C.
Nelson, B.C.
Office of the District Engineer, Water Resources Branch, Department of Mines and Technical Surveys, 325 Granville Street, Vancouver 2, B.C.

W. A. Bullard,
Secretary, United States Section,
International Joint Commission,
1711 New York Avenue, N.W.
Washington, D.C. 20440

D. G. Chance,
Secretary, Canadian Section,
International Joint Commission,
308, 75 Albert Street,
Ottawa 4, Ontario.

CARD OF THANKS

We wish to extend our thanks and appreciation to our many friends, neighbours and relatives for their many acts of kindness, messages of sympathy, and the beautiful floral tributes which we received in the loss of our parents, Mr. and Mrs. T. Clem. Special thanks to the Rosemont neighbours and the Nelson Ladies' Curling Club.
—Arnold, Audrey and Ed Clem

TORONTO DEMOLISHING WORRIES REALTORS

TORONTO (CP) — Metropolitan Toronto, one of Canada's fastest - growing areas, probably will tear down more *houses this year than it will* build.

That is one of the problems facing local real estate officials, increasingly worried by rapidly growing demand for accommodation and a 24-per-cent increase in price during the last 12 months.

In the first six months of this year, only 2,028 detached, semi-detached or duplex houses were started in Toronto, a real estate *spokesman says.*

"This means we will have 5,000 new units at the most this year—but we demolish more than that.

"During each of the last three years 10,000 units were started. And to meet today's demand, not even 10,000 a year is enough, so where does that leave us?"

For one thing, the spokesman says, it has caused the average price of new houses to soar to $27,622 at the end of June compared with $23,800 at the end of January and $21,914 in January, 1965.

APARTMENT RENTS RISE

It also has resulted in a jump of five per cent and more in apartment rents. And the vacancy rate for Metro Toronto apartments has declined to an estimated less than one per cent compared with 1½ per cent a year ago and a normal rate of four or five per cent.

"Home economists figure that to buy a $27,000 home a person should be earning at least $10,000 a year," the real estate man says.

"Since only about four per cent of the population is in that category, it means a lot of people simply are forced to go without."

Total accommodation starts in *Toronto slumped 19.1 per cent* in the first six months of this year to 10,460 from 12,934 a year ago. But the situation now may be even worse than these figures indicate, the Toronto Real Estate Board says, since the decline in June was a startling 40-per-cent drop to 2,698 from 4,461 in June, 1965.

OTHER CITIES HIT TOO

Similar declines have taken place in other centres. In Montreal, Canada's largest city, in the first six months of this year DOLLAR OFF ..... starts declined to 9,836 from 11,947; in Vancouver, to 4,250 from 6,301; and in Edmonton, to 1,322 from 2,059.

Loans by life insurance companies for residential building in the first four months sagged to $154,000,000 from $168,000,000 in the same period last year. Loans by trust and loan companies fell even more sharply in the same period, to $70,000,000 from $122,000,000.

Jack Key, President of the Toronto Real Estate Board, says this decline in the supply of mortgage money, created by the federal government's tight-money policy, has caused a shortage of new homes and dropped the rate of new housing starts to the lowest level in 13 years.

"The present policy is failing to take into consideration increases in marriages, immigration and new family formation," he says.

"This mounting demand unless satisfied will send prices even higher."

MARKET TRENDS

TORONTO (CP) — Trading was dull on the Toronto Stock *Exchange Tuesday.*

A total of 2,750,000 shares changed hands compared with 2,805,000 Monday.

Interprovincial Pipe Line and Du Pont gained 1 each to 77½ and 41¼ in the industrial list. Massey-Ferguson added ¼ at 34 *while Royal Bank slid ½ to 70* and Levy ⅜ to 18¼.

Jaye Explorations jumped 8 to 47 cents on 356,800. A number of brokers say they don't know of any reason for the stock's recent popularity.

In western oils Canadian Superior *and* Scurry Rainbow were up 1¼ to 21¼ and 32¼ respectively. Hudson's Bay rose ½ to 18½ while Home A dipped ⅜ to 21¾.

Among uraniums Denison was off ½ to 62, Roman Corp. ⅜ to 14¾ and Rio Algom ¼ to 26⅝.

On index, industrials were up .02 to 156.80, golds .59 to 188.22, Western oils .46 to 106.01 and the TSE .02 to 149.96. Base metals dropped .25 to 96.87.

MONTREAL (CP) — Prices on the Montreal Stock Exchange Tuesday were irregularly mixed.

Canadian Breweries on 23,175 shares closed ⅛ higher at 6¾. Dominion Glass on 9,200 shares finished ¼ up at 15½. Dominion Bridge added ⅝ at 20⅞ and Alcan on 6,768 shares was ⅛ stronger at 33¾.

Other ⅛-point winners were Distillers-Seagrams, Labatt and Salada Foods, at 30⅞, 17¾ and 11⅛ respectively.

Canadian Marconi was 5⅞, off ⅛, in sales of 2,050 shares. Molson B lost ⅛ on 6,224 shares, while the A issue remained unchanged at 17. CPR and Canada Cement slipped ⅛ to 59⅞ and 40⅜ respectively.

Bell Telephone stood unchanged at 50¼, 4,508 shares being traded. Interprovincial Pipe Line advanced ½ to 77½ and Maritime Telephone ⅝ to 22⅝. Quebec Natural Gas weakened ⅛ to 12⅛.

Among banks, Toronto-Dominion lost ½ to 59 and Royal ⅝ to 70. Montreal and Canadian Imperial Commerce were both unchanged at 56 and 60⅝ respectively.

MacMillan-Bloedel traded in a range between 26 and 26½ and finished unchanged at 26⅛. Consolidated slid ¼ to 37¾ and Domtar ⅛ to 17½ in the shaded papers section. Price Bros., bucking the trend, added ⅛ to 14¼.

Senior oils were irregularly lower. Home A stood ½-point down at 21¾. The B issue, after touching 22⅞ and 22½, was unchanged at 22¾. Pacific Pete hit a new low of 10⅞, down ¼, an 3,929 shares.

Industrial volume was 132,700 and mines and oils 1,037,300, compared with 91,300 and 1,478,100 Monday.

On index, utilities were up 0.24 at 137.70; industrials unchanged at 156.74; banks off 0.43 at 114.09; and papers off 0.16 at 115.31. The composite index was unchanged at 149.13.

NEW YORK (AP)—The stock market declined moderately on average Tuesday.

The averages were knocked down by a slump of 4⅝ to 180⅛ by du Pont.

The Dow Jones average of 30 industrials fell 4.23 to 844.82. The Associated Press 60-stock average declined 1.1 to 305.3. Standard and Poor's 500-stock index dipped 0.10 to 45.28.

Of 1,372 issues traded, 561 advanced and 556 declined. Volume swelled to 6,270,000 shares from 4,900,000 Monday. Of the 15 most active stocks, 10 advanced, four declined and Midland Ross was unchanged.

U.S. Steel declined ½ to 41⅞, Bethlehem lost ⅜ at 32½ and Republic was off ½ at 38½.

Edmonton Treats Student Patients

By JANE BECKER

EDMONTON (CP)—Michael, brown-eyed and pensive, is 10 years old and looks younger. His home is Old Crow, a remote Indian settlement on the Yukon's northern fringe. Because he has severe arthritis, Michael is probably one of the best-cared-for children in Canada.

As a student-patient at the $3,500,000 Glenrose School Hospital in Edmonton, Michael has had the benefit of all the medical treatment a team of Edmonton doctors and therapists can devise, and the special education services of the Edmonton public school board, in a setting made possible by the substantial resources of the Alberta government.

His arms and legs encased in splints, Michael goes to school by wheelchair in the bright new building which is home, hospital, playground and schoolroom to him. His classrooms are specially-designed, broad-loomed and color-keyed, with desks built so wheelchairs will fit under them.

He swims in a regulation pool with below-water bars to assist him, suns himself on a patio, goes to barbecues in a treed courtyard, has meals in a bamboo-decorated dining room, and sleeps in a study-bedroom.

FACILITIES TESTED

In September, about 60 other physically - handicapped children between five and 17 years old and 40 who are emotionally disturbed will join Michael in the Glenrose's first full operating year.

Michael was one of the youngsters in a year-old pilot project, in which the Glenrose tested its aim of giving the chance they missed to children whose handicap had prevented them getting an education.

Premier Manning called it "the boldest, most far-reaching program of its kind ever attempted in Canada" when he announced plans for the Glenrose eight years ago.

People connected with the hospital and others who know *it* by reputation believe it is still that, thanks largely to the government's generous approach to its design and execution.

Concerned by the lack of suitable schooling for children with severe handicaps, the Alberta department of education is classed as a *hospital partly* because matching federal grants are available for hospitals though not for schools.

COSTLY PROJECT

Besides the capital cost, operating expenses for last year's pilot project were $250,000. Officials *estimate they could soar* to $1,000,000 annually when the Glenrose is in full operation with 120 day youngsters as well as the 100 in-patients.

The Glenrose will accept children with such handicaps as cerebral palsy, polio after-effects, muscular dystrophy, seere asthma, cleft palat and relip as well as juvenile paraplegics and amputees. Alberta's 13 thalidomide babies will be cared for when they reach school age.

The only entrance requirement is that a child be able to benefit from schooling and medical treatment.

ATTENTION HUNTERS!

This autumn, you must have a Canada Migratory Game Bird Hunting Permit to hunt ducks; geese, coots, sandhill cranes, rails, woodcock, mourning doves, band-tailed pigeons, gallinules or snipe.

The purpose of this special permit is to provide information that will result in increased hunting opportunity through more efficient management of the resource. The Canadian Wildlife Service needs an accurate method of measuring waterfowl populations.

Presently, aerial and ground surveys of the breeding grounds in spring and mid-summer, and of the winter-ing grounds are providing some information, but not enough. Biologists need to know how many birds of each species are harvested, so that hunting regulations can be set to maintain breeding populations.

Variation in licensing systems has prevented a country-wide harvest survey. But now, sales records of the Canada Migratory Game Bird Hunting Permit, and questionnaires to some hunters, will enable the Wildlife Service to obtain the information needed. The new permit must be purchased in addition to any required provincial licences. Purchase of the new permit is not necessary this year in the Yukon and the Northwest Territories.

These permits are on sale now for $2.00 at rural post offices, and at most city post offices. Check with your local post office to find out where permits are being sold.
