BILLS ENACTED

SHOOTING OF WILD HORSES NOW LICENSED.

Amendments to Different Mining Acts Hours Of Labor are well Defined The McGill University Bill And Many Others.

Our legislature as in duty bound, has. thus far this session turned out a fair amount of legislation—good bad and in different.

It will be noted that the western boundary line of the railway belt has been defined. For some time differences of opinion had existed between the governments of the Dominion and of the Province, the bill lately passed does away with future disputation.

Bill No 24 provides that McGill University may establish a college in this Province. In the interests of higher education this will be found a most desirable enactment.

Bill No. 26 enacts that:—Any person, association or company operating a telephone line shall have the right to connect with public company's telephone lines provision is made for reception of messages from connecting lines and also rates for such messages.

Bill No 20 is short but sweet—it relates to hours of labor, notably smelters. The bill says that no person shall be employed in or about any smelter for a longer period than eight hours in any twenty four hours—a suitable penalty is provided for contravention.

No 29 enacts that every workman, employee or servant, where the rate of wages does not exceed four dollars per day shall be paid at intervals not to exceed two weeks.

Any servant ceasing work or being discharged shall be paid his dues forthwith.

No contract for wages shall be entered into that provides for the payment of wages at longer intervals than two weeks

Penalty for contravention $50.

No 30 is an amendment of the "Coal Mines Regulation Act." It provides that no person shall occupy any position of trust or responsibility in or about a mine if he is unable to speak English.

No 33 is an act to amend the "Placer Mining Act." It relates chiefly to the size of the creek diggings. The full amendment is published in this issue.

Bill No 35 lately passed by our legislature may possibly be far more reaching than was anticipated by its promoter. Clause 3 runs as follows:—

"Licences may be issued by the Government Agent of any district to shoot unbranded horses running wild upon public lands with the portion of the district described in said licence, upon such terms and conditions as such government agent may indorse upon such licence."

No provision is made for penalties in case of wilful or accidental shooting of branded or unbranded tame horses.

And who is to say which horses are wild and which are not.

Supposing a branded horse is shot accidently, what redress has the owner outside the courts of law?

Clause 4 provides for the reporting of the "date of killing and the locality where killed.

One may suppose without much fear of contradiction, that certain people would not go out of their way to report the accidental killing of a branded horse.

The act will in any case add to the burden of responsibility carried by the agents of the government—and will, incidently, add fees galore to those already garnered by the lawyers of the province. Litigation is expensive any way, horse litigation piles up fee and lies quicker.

This district is the home of horses and the happy hunting ground of dealers and and breeders alike, yet thus far complaints as to wild horses have been conspicuous by their absence.

Many yearlings, and often two year olds, can be seen on our ranges running with their dams,—are these to be left to the mercy of the licenced shooter of the unbranded wild horses.

LOWER NICOLA NEWS.

General Improvements to Facilitate the Spring Work.

L. Price left on last Friday's stage for Eburne. Mr. Price expects to be in the valley again in two months time.

Louis Hobbins and partner are busily engaged in getting out railroad ties, with headquarters at Cook, Quinn & Bressey's old camp, No 1.

Marcus Woodward and W. H. Gray are busily engaged at the Lower Nicola Saw Mill fitting up in anticipation of considerable business coming along in the future. Numerous minor repairs have been effected which will facilitate the business.

Wm. McNeil was in Lower Nicola last week on a business trip.

Wm. Presley, who is in charge of the rock cribbing outfit at Petit creek expects to get through at that point in about a month.

The rock encountered in the middle of the tunnel at Ten-Mile hill is proving a hard nut to crack.

The last will and testament of the late John Ogilvie is in the hands of a prominent Vancouver business man. Captain Flick who is acting for several creditors is in communication with the executers.

In an hotel in Montana there is a sign that reads: "Boarders taken by the day, week or month. Those who do not pay promptly will be taken by the neck.

A First Class Tea.

G. B. Armstrong the General Merchant at Lower Nicola has just imported a large shipment of first class tea. Deckajulie, the new brand is some which he has had specially imported from the tea growing plantations, and from a selected stock of fine plants. It makes a decicious beverage and at the price Mr. Armstrong is selling it, is within reach of all.

Judge Morrison's New Appointment.

Mr. Justice Morrison has been appointed deputy judge of the admiralty in British Columbia.

Gathering of Indians.

Notices are out for a grand gathering of all Indian chiefs in British Columbia to meet in Kamloops for a decision of important matters. The first day of the meeting will be devoted to devotional exercises according to the religions of the different chiefs, and be on Easter Sunday. There is something big on the tapis and it is believed a proposal will be made to send a delegate to lay their proposals to King Edward in person.

PUBLIC MEETING

DELEGATES APPOINTED TO PLACE FACTS BEFORE OFFICIALS.

Resolutions Passed Asking For Appropriations for Roads in the Nicola Valley—Aspen Grove and Coldwater Sections.

There was a fair attendance at the public meeting held in the court house in Nicola on Tuesday afternoon. G. Murray, government agent was in the chair and called the meeting to order at 8.20. Ric A. Fraser was appointed secretary for the meeting. The chairman then briefly explained the object of the meeting and intimated that it was now open for discussion The first subject broached was regarding that part of the Princeton road between the mill dam and the Hamilton hill and the necessity of a better grade

After some discussion, on the motion of A. E. Howse seconded by A. R. Carrington it was unanimously agreed that "The government be asked to have survey made of a road from some point near the mill dam, Nicola, to the summit of the Hamilton hill, and that a sufficient sum of money be appropriated to construct the same at the earliest possible date"

On the motion of M. P. Stewart, seconded by A. E Howse it was unanimously agreed "That the government be requested to make an appropriation to continue the road up the Coldwater, now terminating at Dell King's to the survey line of the Great Northern Railway"

On a motion by A E. Howse seconded by A. R Carrington it was agreed that "the government be requested to renew the appropriation made for a road into and through the Aspen Grove section and that the engineer laying out the road be instructed to consult the interests of the Aspen Grove Camp generally with regard to the situation of the road."

On a motion by N J. Barwick seconded by M. P. Stewart it was agreed that "the government be asked to appropriate a sufficient sum of money to repair the main wagon road from a point near Blackwell's to Charters hill and to gravel same where necessary."

A E Howse then addressed the meeting as to the best means of placing the resolutions before the government and thought the best way would be by a delegation He moved that a subscription list be opened to defray the expenses of delegates to be sent to Victoria to make strong representations on behalf of these resolutions, and that Messrs. Strickland, McConnell and Fraser be appointed as delegates with power to add to their number. In explanation he said that as H. S Cleasby of Coutlee would be in Victoria on behalf of the Farmer's Institute it would be well if he could join forces with the other gentlemen named and so form a strong delegation fairly representative of the district.

Mr. Pye then brought up the question of the condition of the road along the railway line and A. E. Howse moved that a resolution be forwarded to Mr Stevenson that it was the wish of those resident in the Valley that the road be fixed up. Mr, Pye moved seconded by Mr. Barwick that the delegates bring the matter of the Spences Bridge road before the government and impress upon them the necessity of such work and the danger to travellers in its present state. On a motion by A. R. Carington seconded by G. M. Brash it was resolved that the delegates place before the government the necessity of making Nicola a separate mining district. G.A. Lafferty and G.M. Brash were appointed to take charge of the subscription list. After a vote of thanks to the chairman and secretary the meeting adjourned.

LOCAL NEWS.

F. M. McKeon paid a hurried visit to town on Wednesday.

W. H. Kimpton was in town on Monday on business.

Miss Josie McKitrick is visiting friends at Lower Nicola this week.

A. W. Johnstone came in on the stage from Kamloops on Monday night.

Frank Whitewood was a Nicola visitor from Douglas Lake yesterday.

Most of the users of ice in Nicola have their summer's supply of that article.

Mrs. Robt. Johnston of Lower Nicola was visiting in town this week.

N. J Barwick and Wm. Rice left this morning on a business trip to Douglas Lake.

F. W. Zeigler and George Murray were up as far as Stump Lake with some stock last week.

A. H. Owen is a visitor in Nicola this week. He leaves for an extended visit to Eastern cities.

R. J. Armstrong was in town on Wednesday and pulled out for Aspen Grove the same day.

R. F. Gaine was in town on Saturday and spend the week end at Quilchena, returning to Canford on Monday,

Quite a few of the residents of the valley have gone to Kamloops to take in the Masonic Ball held there to-night.

There is some chance now of our roads being put in repair. Have you put your name on the subscription list to defray the delegates' expenses?

The regular meeting of Court Nicola, A. O F. will be held tomorrow evening in Pooley's Hall. A full attendance of members is requested.

It won't be the fault of the Minstrel troupe if you don't have a good time on Monday night. Come prepared to have a good time and you will get it.

Owing to a typograpical error it was stated in the heading of an article last week that R. P. Inglis had purchased the Copper Standard, this should have read Golden Sovereign.

A very enjoyable evening was spent at the home of Joseph Guichon on Friday evening when a number of friends from all over the valley paid a visit. Dancing was kept up till a late hour.

The St. John's Ladies' Guild which was to have met at Mrs. Broadbent's Feb. 23. has been postponed until the following week—Friday, March 2nd. at 2 o'clock.

Mrs. Pooley, Sec'y.

Miss C. Murray left on Monday afternoon for Lower Nicola on her way to the coast. Miss Murray has secured a position in the Sonomos school, near Duncans, on Vancouver Island. She has a host of friends in the Valley who join in wishing her every success.

ITEMS OF INTEREST

MISS ALICE ROOSEVELT MARRIED DIAMOND THIEF CAUGHT.

Largest Steamer in World Being Built Old Cariboo Mining Men Organize Editor of Punch Resigns After long Service.

Sir Francis Burnand has resigned the editorship of Punch. He has been associated with that periodical for 44 years, and edited it for a quarter of a century. He will be succeeded by Owen Seaman at present assistant editor. Burnand's resignation is due to old age.

Word comes from the upper country that a movement is on foot amongst the old Cariboo mining men now resident in that section to form an organization on the lines of the Pioneer society. A call for the meeting has been issued and it is likely there will be a conference in Ashcroft. The membership will be limited to those who were in the country in the early days.

Another shipping record is being established by Harland and Wolff of Belfast. The White Star liner Adriatic, now under construction at Queens Island will have a tonnage of 25,000, length of 710½ feet and depth of 50 feet. She will be the largest vessel in the world. The record was previously held by the Baltic, built for the White Star Line by Harland and Wolff, with a tonnage of 23,876, 1240 tons less than the new vessel which she exceeds in length however by fifteen feet.

Washington, Feb.17—At noon today Miss Alice Roosevelt and Representative Longworth of Ohio were married. The ceremony took place in the east room of the White House Rev. Bishop Y Sameries officiating. The guests numbered about 1000 Immediately after the reception of the guests by the bride and groom a buffet wedding breakfast was served in the state dining room. The White House grounds are closed except to those invited as guests.

Vancouver, Feb. 14—Harry Hazzard who claims to be an insurance agent from New York, confessed today to complicity in the diamond robbery at McMillan's store last Saturday night. He declares that a third party smashed the window, and that he and a man named Barrington, for whom the police are now looking bought them from the thief. Sixteen out of the thirty two diamonds were recovered this morning. Nine were in the butt of Hazzard's loaded revolver. while the remainder were this morning taken from the safety deposit in the Royal Bank.

Vancouver, Feb. 17—It is reported here that the Grand Trunk Pacific Railway has purchased fourteen thousand acres more land in the vicinity of the proposed terminus at Kaien Island.

The deal has been made with the Indians of the north by E. G. Russell, representative of the Grand Trunk Pacific For these fourteen thousand acres the railway company will pay $7 50 per acre. The Indians wish to have a part of this amount divided among themselves almost immediately. In order to carry out the deal on amicable terms the railway company will probably meet this demand.

Remember the Coon Show.

NICOLA, B. C., FEBRUARY 22, 1906

As a result of the recent agitation to put before the government the needs of the Nicola district a public meeting was held in the court house on Monday afternoon when discussion on the various badly needed improvements took place. The opinion of the meeting was that strong representations should be made to the government and besides petitioning them to have a delegation go and interview them personally. Delegats were chosen and left this week on rheir errand, and while tney may not accomplish all that they went after, it is to be hoped that the most needed work will be commenced as a result of the delegation's visit to the ministers.

L. S. Montague a son of Sir Samuel Montague, the well known banker, will be the Liberal candidate for the city of London against former Premier Balfour.

CHILDREN SACRIFICED.

That more than a million infants have been sacrificed to the various concoctions known as soothing syrups and pain killers, and over twice that number killed by impure milk, is the declaration made by Prof. H. W. Wiley, chief of the chemistry bureau of the United States department of Agriculture. "We do not know anything about the milk we have left at our homes or the conditions under which it way produeed," he says. There are a thousand and one possibilities which might have combined to make what nature intended for a food the most virile posion that chemistry can produce. I have found that the foods we daily consume are so fraught with germ life of a harmful nature that I am most afraid to go to the table. The butter is painted; there is little other to be found anywhere. Canned goods are kept years and sold for the genuine article. I speak particularly of condensed milk. If we know nothing of the fresh milk we get, surely our knowledge is more limited as to the product that is put up in cans. The Lord intended us to resort to cans only to tide us over one season, until green fruits could be had again, but the canneries don't know this. There is no law requiring them to stamp the date upon their goods; if they did it would kill their sale.

If you wish neat and thoroughly comfortable eyeglasses that will not fall off, that you cannot shake off, our Sta-Zon will suit you.

PLACER MINING ACT.

Proposal To Widen the Width of Creek Claims.

The amendment which Dr. H.S. Young of Atlin, has introduced to the Placer Mining Act in the Provincial Legislature is calculated, he says, to give creek claims a much longer lease of life than at present. The life of a creek claim is at present limited to 250 feet square. Dr. Young points out in explanation of this amendment that in case of the distance between the benches being narrow and consequently the ground rich, the present size of the claim is satisfactory. On the other hand, however, where the gravel extends over a wide area between benches the 250 feet square is not sufficient.

He proposes to make it 250 feet long in the direction of the stream. It will however extend 1000 feet wide, 500 feet on each side of the center of the stream. By this system Dr. Young points out, the miner who stakes the claim will have a fair chance to get at the rich streams. By limiting it to 250 feet in width a miner might carry on his work in a low grade dirt with no prospect of reaching the pay streak in the limited width. Under the system he proposes the chances are altogether altered. It would result, he thought in miners taking up their residence on the claims for years. This is of importance, the member from Atlin points out, in his district, and points out that it is in line with the proposal made for the Yukon. The Yukon claims however, is proposed to be 500 feet on each side of the central line. Governor McInnes, who is on his way to Ottawa, includes this proposal among others which he will submit for approval to the Dominion Government.

Where Canada Leads the World.

Canada has the largest continuous wheat fields in the world.

Canada produces the finest wheat in the world, No. 1 Manitoba hard setting the world's standard.

Canada's average wheat yelid per acre for ten years was the greatest on the American continent.

Canada leads the world in dairy export.

Canada's trade in ten years has increased more rapidly than any other country in the world.

Canada has the most valuable white pine forests on the American continent.

Canada has the most valuable nickle deposits in the world.

Canada has the greatest system of fresh water navigation in the world.

Canada has a greater water power than any other country in the world.

Advertising is Broad.

Advertising in itself means publicity, and publicity is a broad and comprehensive term. It does not mean a word whispered to a favored few. It is, rather, synonymous with a general broadcast declaration, and the broader the scope of the announcement the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagance. — American Medical Journal.

Japan's War Costs.

The London Times publishes a despatch from Tokyo saying that the financial program of the cabinet which has passed the Lower House will undoubtedly be passed by the upper house. According to the program, debts which aggregate $911,000,000 in 1907, will be completely paid off be 1930, during which intervale there will by six operations of conversion. The program shows that the domestic debts now amounting to $287,500,000, will be entirely discharged by 1942.

A physician has declared that the chief cause of baldness is intellectuality. The baldheaded sinners have been looking for such a reason for a long time.

There are two kinds of patriots—those who are ready to go to war when they are needed, and those who are ready to go to war when not needed.

LOCAL NEWS

Where are you going on Monday night?

The Minstrel Show in Pooley's Hall.

W. Voght of Forksdale was in town on Tuesday.

Joseph Collett of Rockford was in town on Tuesday.

Jes. Richards of Coutlee was in town on Tuesday.

John P. McConnell paid a visit to the town on Monday.

J. Chapman of the Forks was a visitor to town on Saturday.

S. Kirky of Quilchena paid a visit to Nicola on Tuesday afternoon.

MINSTREL SHOW—Don't forget it on Monday the 26th. Boost it among your friends. There will be a great time.

The Raspberry Brothers of Minnie Lake were in town on Tuesday.

Fine Fresh Laid Eggs only 25c a dozen. G. B. Armstrong, Lower Nicolr.

Where are you going my pretty maid?
To the coon show in Nicola, Sir, she said.
There'll be singing and dancing and lots of fun.
On Monday night, so don't look glum.
But coax me and take me right up to the hall,
And don't stand out like a blooming rag doll.

Humour in British Elections.

At a Tory meeting in Whitechurch, a speaker, annoyed at a chorus of rejoinders shouted from the audience exclaimed, "One fool at a time!" "Go on Boss" was the response from one of the opponents.

At a tariff reform meeting in East Anglia the candidate was asked by a burly smith's striker; "I swing a sledge-hammer six days a week for 17s. Do you call that a fair wage? 'No,' answered the candidate. "Will your policy give me a better wage?" 'Yes' was the reply. "Then you'll have to get rid of that little devil in the chair 'cos he's the man as pays me.'

At one of Mr. Lloyd George's meetings in Carnarvon Boroughs, according to the the Liverpool post, a heckler, with a view of disparaging the origin of the president of the Board of Trade, asked him if he remembered that his grandfather drove a donkey and cart. "You will have to for give me ladies and gentlemen," was the witty reply. The cart has quite escaped my memory. I see the donkey is still alive."

At a Tory meeting in the Spaulding division the chairman in relating his canvassing experience, said he called at a house and saw the voter's wife. He inquired as to the politics of her husband. 'Well' she replied, 'when he goes to Tory meetings he is a Tory and when he goes to a Liberal meeting he is a Liberal." 'But' queried the canvasser 'what is he when he is at home?" And the lady gave the unexpected reply. "When he is at home he is a nuisance."
