The Turkey Shoot under the auspices of the Nicola Athletic Association held at Quilchena last Saturday afternoon was well attended and a general success.

The shoot commenced about two and continued till dark, when the balance of the birds were raffled.

The winners in the competitions were:
100 yards, W. A Jackson.
75 yards Fred A. Howse.
100 yards H. V. Inskip
50 yards, ladies, Mrs. Pooley.
75 yards, consolation, F. W. Auvache.
W. A. Jackson of Quilchena made the only bullseye.

Another turkey shoot under the auspices of the association will be held at Coutlee on Saturday, Dec., 16 when a dozen turkeys will be competed for.

A general meeting of the association will be held in the Bank of Montreal building on Saturday evening, December 2nd. As business of importance is to be transacted a full membership should be in attendance.

A committee of Rev. Geo Mason and A. W. Strickland are making arrangments for a hockey club in connection with the association. A meeting of hockey enthusiasts will be held immediately after the general meeting.

Arrangements will be made shortly to acquire suitable grounds for the association, it being the intention during the coming summer to build a club house for the use of members.

An official notice board of the association has been put up on the Nicola Herald building. All notices pretaining to the association's meetings etc., will be posted in this place, and members will kindly govern themselves accordingly.

Day of Intercession.

Wednesday, November 29, will be observed by the Church of England, both at home and abroad as a day of intercession for foreign missions. This annual day of united prayer has been observed since 1872, when the observance commenced at the instance of the society for the propagation of the gospel. In that year the 20th December was the special date, and all over England in stately cathedrals, venerable parish churches and modest mission rooms the united voice of prayer was heard. At that time foreign missions came in for a great deal more criticism than at the present time, and the London Times made a very bitter attack in a leader in which it questioned the existtance of any large number of missionaries or converts. Lord Lawrence replied in his usual dignified and masterly manner, and Arch Bishop Tait wrote to Mr De lane the editor, a letter of remonstrance, saying that "the article" must have been written by a very young man.

CONSUMUTION OF COPPER.

A London Expert's Opinion Concerning The Stocks and Values.

A certain amount of nervousness has found expression lately with regard to the possible over production of copper, says the London Financier. Under these circumstances a communicati n just received from a gentleman of considerable anthority on the metal exchange is interesting.

He speaks as follows: "Consumption in Europe has never been as good as now, and stocks were never so low. The continued decline in our supplies is getting alarming There are now only 8000 tons in stock in England and France, of which 6000 tons are in bar copper (standard) in England. Out of this over 3000 tons are already sold to consumers, leaving barely 3000 tons as counters for the world's copper market, and most of this will disappear into furnaces during the nex few months. Our market is considerably oversold as shown by the large backwardation. We are very bullish."

To this testimony concerning copper prices in Europe may be added the following cable information received from New York received by a city office from its agent; "Copper very firm; consumption very good. Spot copper scarce, extremely. We look for an advance unless you grow weaker.

Don't be a Kicker.

If there is a chance to boom business, boom it. When asked about a competitor or his business dont change countenance and act as if you had a pain in the stomach—smile and tell the good points. There is a lot of good in the worst of us. Hide your little hammer and speak well of all, no matter how small you may know yourself to be When a stranger drops in, jolly him. Tell him your town is the greatest on earth—in many ways it is. Tell him the business men do things—that they are broad minded and hustlers—that especially those in your line are to a man are the squarest you ever met—as good as yourself. Make him believe he has at last struck a place where white folks live.

Don't kick.

Help yourself along by boosting, and push your friends with you. It's easy No man ever climbed the ladder of fame by knocking other people down in character or business. No man ever got rich by trying to believe he was the best man in his line in town, or the ouly man who could get trusted. You cannot climb the ladder of succes by treading on other peoples corns and—don't knock.

You are not the only man. There are others, and most of them are honest, brainy, energetic and anxious to succeed as well as you. "Of minding your own business," said Franklin "there is no end." It makes other people like you. Nobody ever get "stuck" on a "knocker". Don't be one—be good. Hustle, be an optimist.

Stock Market.

The American stock markets remain very active and firm. Nearly all securities are quoted much higher than they were a year ago. Canadian Pacific shares vary from $170 to $175; American railway and industrial stocks are all higher and apparently stable.

The grain markets of Britian and the United States are firm with high prices ruling. The New York money market has recovered its balance and the average price for call loans is again at the low figure of five per cent.

ENJOYABLE EVENING GIVEN TO THEIR FRIENDS.

Nicola's Fraternal Society Holds an "At Home" to Its Friends After the Last Meeting.—A Large Attendance.

The members of Court Nicola of the Ancient Order of Foresters were "at home" to their friends on Friday evening and a royal time was had by the large number who partook of the Foresters hospitality.

After the business of the regular meeting was concluded the lodge room was opened to the guest, and games of differkinds were indulged in interspersed with music and singing until near eleven o'clock, when refreshments were served.

After justice had been done in disposing of the dainty viands dancing was the order for a short time.

CRISIS IN ENGLAND.

The political situation in England is critical. Premier Balfour's recent speech, suggesting that unless the split in the Unionist party on the fiscal question be mended he might resign the leadership, has hastened the desirability of an appeal to the country, and the Unionist party organs have been advising that this course be taken immediately. Sir William Campbell-Bannerman leader of the opposition, has announced his adoption of the principle of home rule for Ireland, which will have an important effect on the coming contest.

Balfour's hand has been forced in this crisis by Lord Londonderry who has tendered his resignation as president of the Board of Education.

Lord Mount Stephen, formerly president of the Bank of Montreal, and chairman of the Canadian Pacific Railway has contributed $50,000 to Queen Alexandra's donation for the unemployed. This is the largest individual subscription thus far received. This fund has reached over the million mark.

WAR OVER AT MIDWAY.

Two Railways Awaiting Decision of The Courts.

There has been no new developments this week in the railway construction war between the C. P. R. and the V.V.& E, or the Great Northern at Midway. Some time last week the former laid off the hundreds of men who were getting from $3 to $5 per day for holding possession of block No.2703, some five miles west of Midway, as the C.P R. now has an injunction, and the Great Northern is moving to expropriate the land needed. It is said that there were some men on the payroll of both companies at the same time.

In the meantime, the Great Northern contractors are proceeding with the work at the tunnel in Myers creek canyon, but are put to considerable inconvenience in not being able to dump their rock as before, as the material has to be put where a place can be found.

At the application to the courts as to who the rightful possession of the block of land belonged it was decided in favor of the C. P. R.

Information received at the post-office office department is to the effect that in respect to the fire on the C. P. R. near Ottawa, which destroyed western mails, no mail matter from west of Calgary was in the accident. This statement will allay the feelings of apprehension of many who feared that letters from British Columbia had been lost.

"SUNDAY TRADING"

QUESTION DISCUSSED FROM ANOTHER POINT OF VIEW.

Views of a "Scraper Holder," Whose Welfare Has Been Taken Care of By Correspondence the Past Two Weeks.

Editor The Nicola Herald, Sir:—What's all this talk about us chaps, Sundays? I take it we're none of us up here in Nicola for our health—we're all after the dollars.

Clergymen and others have been a writing to your paper about the sin of keeping open on Sundays. Well, if we goes to church it's dollars, dollars, dollars. If we goes to a store it's dollars, dollars, dollars. If we stays in camp it's dollars in the company's store, so what's the poor railroad man to do.

A man as I'm told is a clergyman writes to your paper saying as how there 'ain't no liquor 'tween here and Spences Bridge well, that cuts no ice, for any Siwash will get all the whisky he wants any time, and you bet the white man 'ain't a going to be left. So long mate.

He is much pleased with the showing in Aspen Grove and considers it one of the best camps, at its stage, than any he has ever visited before. It is his intention to become interested in the Nicola Valley.

NICOLA, B.C. NOVEMBER 30, 1905.

The Toronto News, denounces the Laurier government as "the most insolent, the most unscrupulous government that ever held office in Canada since confederation." But in order that the Conservatives may not be unduly elated over this outburst the News proceeds to remark;

"The truth is, that since its defeat in 1896 the Conservative party has shown neither purpose, unity or energy. It still seems to be mourning over its defeat, and to be railing at Providence for the extraordinary dispensation which gave power and patronage to the Liberal Leaders. It cannot get rid of the notion that it has a divine right to rule, and that Liberals in office are invaders and usurpers. During these nine years opposition, it has failed to develop a constructive policy, nor has it even been able to attack the work of its opponents with consistancy, moderation or sanity. The conservative party must lay down a constructive policy and stand by its platform whether it wins or loses elections, if it hopes to regain public confidence, and to show itself worthy of the party traditions.

The business committee of the inter-church conference on confederation announced the draft of a plan for church federation at the conference in the Carnegie hall, New York, last Saturday. The following are the chief points; a federal council of protestant churches to meet every four years, the first meeting to be held on Dec. 1, 1906. Each denomination to have four members in the council and one extra member for each 50,000 communicants. The council to act in the capacity of an advisory board, and to interfere in no way with the autonomy of individual denominations. The object is to be united action of social and moral questions and to give spiritual council and promote fellowship. An active committee to deal with the business of the council in the intervals of the meetings. Thirty denominations are to be in the confederation at the outset, and provision is made for the admission of others.

Postmaster General Aylesworth was elected in North York constituency made vacant by the resignation of Sir Wm. Mulock.

Goldwin Smith was asked by the Toronto World what he thought of the New York election. His answer was: "I belong to neither political party nor have I ever meddled, nor do I propose to meddle with any election outside of my own riding; and there I vote not for the party, but for the man. I think that we must look to the farmer as the best representative, not only of our best industries, but of sound political character to the broad interests of the state. A Liberal I have always been and am; but the machine, with all its trickery and its indemnity bills profanes that glorious name."

The department of Inland Revenue has given the department of Justice orders to prosecute a number of manufacturers of adulterated jams and jellies and maple syrup. The department could also include liquor, as it is probably the most adulterated of anything manufactured in Canada. No doubt the liquor habit is an evil, but there is no necessity of allowing the business of selling same so much latitude, besides the licenses holders in a great many cases dilute the goods or manufacture it themselves. The different brands of "firewater" which are nicknamed in the interior are many.

"NICOLA VALLEY."

The following verses have been received at the Nicola Herald office for publication. The author is doing considerable in the the State of Washington to advertise the section in prose and poetry. And this is one of his unique ways of bringing the Nicola Valley to the notice of the public

There is a country north of ours
It is our neighbor and our ally.
It has a place that's very rich
And it's called the Nicola Valley.

It's soil is very productive
And it often has been stated,
That it produces immense crops
When it's properly irrigated.

It has a large coal basin
With iron as an ally.
It has a railroad building
Up in the Nicola Valley.

It has mineral in the mountains
That is making capital rally.
To build up big industries
And make wealth in Nicola Valley.

The monied men they see the boom
That is coming to our ally,
They are getting ready to make a rush
To the famous Nicola Valley.

Now when you read these verses
You will with others rally,
So be on time and get in line
For the rush to Nicola Valley.

Midway and Vernon Railway.

The statment is receiving credence in coast cities that the Midway & Vernon Railway, now under construction will be extended to Vancouver.

It is reported at Vancouver that it will connect with some continental system, but on this point there is no definite statement.

It is a well known fact according to the report, that the intention has been to to build a through line, for, comparitively speaking, the present system starts at nowhere and ends at nowhere. Whether the Midway & Vernon will be constructed as an independent project or will be part of another through service is a matter not yet settled, at least as far as the unofficial information can be relied on.

It is understood also that Mr. A. A. Arthur, who is connected with the financial backers of the Midway line, and who was in Vancouver a short time ago, is connected with the project of operating a ferry service between Victoria and the mainland, perhaps by way of Vancouver, and perhaps by way of Seattle by way of Port Angeles.

Chinese Evade Poll Tax.

The Vancouver World claims that in spite of the $500 poll tax which is so far restrictive that no Chinaman ever volun tarily pays it to come into the country. Chinese nevertheless are entering Canada in large numbers, is the very startling in ference, an inference amounting to a practical certainty, which must be drawn out from certain facts which have been brought to the attention of the World—that is that while in China, the Chinamen get registered as members of Chinese firms in British Columbia and thus pass the customs without being challenged.

Advertising Did It.

In an eastern city a few weeks ago, burglars entered the sleeping apartments of a business man one night and carried away a considerable amount of money and other articles of value. In an interview the next day, the victim told of some valuable silverware which was hidden be hind the dresser and had been overlooked by the visitors the night before. The following night the burglars returned and got the silverware, and still some people will contend that it doesn't pay to advertise.

May Disqualify Opposition.

The Alberta Legislature will not meet until next March.

FISHING LICENSES.

Only Bona-Fide Residents to be Granted Licenses.

A radical change in the granting of fishing licences for the Fraser river has been proposed, and is being heartily approved by the business men and many canners.

It is that only bona fide settlers or property owners should have the privilege of obtaining licences. This, would of course include all Indians of the province whether they owned property or not.

The strongest point urged in favor of the suggestion is that it would do away entirely with the undesirable element which generally gathers along the river during the fishing season, and is the cause of nearly all the trouble and disturbances which occur.

It is claimed that many of this element are hobos and worthless characters from the south, who come up to the Fraser river just for the fishing season, and make false declaration regarding their being British subjects.

The supporters of the proposed change also suggest that should the licenses be limited to settlers and Indians, all settlers who apply for licenses should be identified by the fishery officer or by a reputable citizen before the license was issued.

Writs for the Saskatchewan election have been issued. Polling takes place on December 2nd.
