PROGRESSIVE CO'Y

BUILDING ROADS AND INSTALLING TELEPHONE SYSTEM.

Diamond Vale Coal & Iron Mines, Ltd., are Improving Their Property at Diamond Vale. – A Dining Hall Opened.

The Diamond Vale Coal & Iron Mines Ld., are still busy improving their property a staff of men being engaged this week in putting in telephone poles to connect with the trunk line on the wagon road. Besides carrying the telephone wires, the poles will also probably carry an electric light cable, and supply current to the various business houses and dwellings in the vicinity. A good road is being built from the wagon road through to the shaft, and the various buildings of the company will front on this road. The new dining hall is now in use, although the inside finishing is not quite complete. This building will furnish accommodation for a large force of men, and a separate dining room is furnished for the staff. There is a large and roomy kitchen in connection and everything possible is being done for the comfort of the men employed, a feature of this company's undertakings which might well be copied by other organizations.

CORRESPONDENCE

To the Editor The Nicola Herald:

As on several occasions parties have been hauling earth from the street, (Dalley street), notice is hereby given that those who have done so are requested to fill the excavations made—and that such interference with the roadway may result in prosecution.

—ONE INTERESTED.

Want Arbitration.

The coal operators at Calgary are sending forward an application to the labor department for a board of arbitration to consider the matters which are in dispute, and upon which they failed to come to an agreement recently.

J. Graham, of Coutlee, returned from a visit to the coast on Monday's train. The results from the car of ore shipped to the smelter are so far very satisfactory.

Keep in mind the football game billed for tomorrow afternoon. The men with the care-worn features believe they already have the single fellows beaten to a whisper.

Alexander Faulds, M.E., superintending engineer and mine manager of the Nicola Valley Coal & Coke Co., Ld., paid a short visit to Nicola on Monday, returning on the afternoon train.

The Ladies' Aid of St. John the Baptist church will meet at the residence of Mrs. Fred. Howse on Friday, April 26th, at 2.30 p. m. A full attendance is equested.—MRS. POOLEY, Secretary.

The Diamond Vale Supply Co. is in the thick of its clearing sale this week, and judging from the shelves it has been most satisfactory. The new goods are now on the way and a large and selected stock will soon be on view, second to none in the valley. The new company is slaughtering prices on the old stock with a view to clearing it out, and those in search of bargains should not miss paying the store at Coutlee a visit before they are all gone.

New Licence Act.

Under the provisions of the "Extra Municipal Trade Licences Act 1907," which came into force on 27th March, a few changes will be noted in the amounts of fees to be paid for trade and other licences.

With regard to the licences under the new act, the periods of the licences run concurrently with the fiscal year, that is, where they are for six months, for the periods from 1st January to 30th June, or from 1st July to 31st December. Where existing licences are current under the old acts, these will remain in force until the period stated thereon expires.

The following statement of license fees will probably prove of local interest:—

Item 1.—By each person keeping a hotel, saloon or other building where a billiard table is used for hire or for profit, $5 for each table for every 6 months.

Item 5—By every person carrying on the business of a wholesale or of a wholesale and retail merchant or trader, $50 for every 6 months.

Item 6.—By every person carrying on the business of a retail merchant or trader, $5 for every 6 months.

Item 7.—By every person owning a pack train of six or more animals, freight wagon, stage coach, omnibus or other vehicle of locomotion used in transporting goods or passengers, for hire or profit, a distance beyong ten miles from the boundary line of any incorporated city or town, and who is not liable for a wholesale or retail merchant's licence fee, $5 for every six months.

Item 8.—By every person owning a pack train of less than six horses or other animals, dray, wagon, omnibus or other vehicle of locomotion, used in transporting goods or passengers for hire or profit within a distance of ten miles from the boundary line of any incorporated city or town, and who is not liable for a wholesale or retail merchant's license fee, $2.50 for every six months.

Item 9.—By every owner or keeper of a livery stable who is not liable for a wholesale or retail merchant's licence fee, $10 for every 6 months.

Item 11.—By every person carrying on the business of banking, whether the same be private banking or a savings bank and whether the same be carried on under a Dominion or Provincial charter or under the name and style of an incorporated company, or on account of a private firm or individual at one place of business, $400 for one year; and for each other place of business in the province other than a municipality, $100 for 1 year.

Item 12.—By each person practising as a barrister or solicitor in the province, $25 for every 6 months.

Item 13—By every person following the occupation of a conveyancer, real estate or land agent, $25 for every six months. Provided that any person may without being liable for this licence fee transfer, sell or expose for sale any property of which he is the absolute owner.

Item 16.—By every person (other than a farmer or orchardist selling produce grown by him upon his own land in the province) engaged in peddling or hawking any merchandise. fish, game or farm or orchard produce, $20 for every 6 months.

W. Strachan left Nicola on Tuesday for an indefinite stay at his old home in Victoria.

A. Jackson, of Quilchena, is rapidly getting his stock opened in his new store at Merritt, where he will be permanently located in the course of the next two weeks.

TO BUILD A BRIDGE

INSTRUCTIONS RECEIVED TO PROCEED WITH WORK.

Force of Men Under R. Trodden Getting Out Piles—Bridge will Probably be Finished Before High Water.

Rights of way on both sides of the river have at last been settled and instructions to proceed with the work were received from Victoria. R. Trodden, who has charge of the work, at once started men to work getting out piles, and getting everything in readiness for a start. There is every probability of the bridge being finished before high water, as with the present cool weather it is hardly likely that the water will rise enough to interfere with the construction.

The Methodist church receives from the owners of the townsite two choice lots facing on Dalley street, on the east side, and a short distance north of the Church of England. These lots and a certain sum in cash from the provincial government, form the "quid pro quo" for the right of way through the Methodist church property.

The right of way on the other side of the river has also been arranged and there will therefore be a road from the station, round the Y of the railroad, to connect with the Princeton road, and this is sure to prove a decided convenience for the many people using this highway.

Dead Cattle in River.

Kamloops people are very greatly exercised over the alleged dumping of 100 head of cattle on the ice of the Thompson river above the town. If what is claimed is true, the action is nothing short of criminal, for these carcasses are sure to contaminate the waters of the river, which are used for drinking purposes for more than one town along its banks. The man who could be guilty of such an action should be very severely dealt with.

W. H. Armstrong, of the Nicola Valley Coal & Coke Co., Ld., paid a visit to the property of the company last week and expressed himself as well satisfied with the progress of operations.

The new store at Merritt, which is being built by D. McInnes and I. Eastwood, is rapidly approaching completion and will be occupied by them in the course of the next two weeks, when they will open up a first class and up-to-date meat store.

Mrs. J. Wilson and son G. T. Wilson, of Vancouver, are spending some time visiting in Nicola. G. T. Wilson will shortly accept a position on the staff of a surveying party here. Our readers will be interested to know that Mrs. Wilson is a sister of W. W. B. McInnes, ex-Governor of the Yukon.

No. 1 of the Bulkley Pioneer is to hand this week. Its purpose is to exploit and call the attention of the reading public to Bulkley valley and northern British Columbia. The paper is well edited, and judging from its first issue, should prove of great benefit to those who are interested in this practically unknown land. An interesting sketch of the Bulkley valley and its large mineral resources is given by the editor, E. Morrison Grout, and there are other articles on similar subjects relating to the district which are worthy of perusal. We welcome the new addition to the B. C. press and wish it every success.

A Lark (?)

Harry Shrimpton came down from the solitudes of Aspen Grove Monday, and by way of relaxation, took on an inordinate cargo of coyote booze. During the still watches of the night, he arose from his dusty roadside couch opposite the hotel and turned loose upon the calm ozone such a series of howls and yelps that one traveler, awakened from peaceful slumber, insisted that all the inmates of the Vancouver dog pound had escaped. Constable Clark heard this awe-inspiring serenade and soon had the tumultuous Harry and his jag gathered in. Next morning Magistrate Murray gave Shrimpton a severe talking to and allowed him to depart on a suspended sentence.

Foresters' Dance.

Perhaps the most enjoyable of all the many dances held under various auspices in Nicola was that of the Foresters last Friday evening in Pooley's hall. The decoration committee of the order especially are to be congratulated on the tasteful and chic manner in which they carried out their work, which reflects the greatest credit on those who had charge of it. There was a large attendance of the members and friends present, and dancing was kept up till an early hour in the morning, refreshments being served during an interval in the dancing. It is hoped the order will benefit by an increased membership for their labors on this occasion.

Thaw Jury Disagrees.

The jury could come to no agreement in the famous trial of Harry K. Thaw for the murder of Stanford White in the Madison Square roof gardens, New York, last summer.

It is stated that the jurymen stood seven for a verdict of guilty and five for acquittal. Although out for 48 hours they could come to no unanimous decision.

Justice Fitzgerald expressed no surprise at the outcome, and after dismissing the jury, committed Thaw back to the Tombs to await a new trial.

There is little hope that the Thaw case can be resumed before next fall, owing to other homicidal cases to come up that have precedence.

W. Murray, of Lower Nicola, returned on Monday from Aspen Grove, where he has been having his mineral claims surveyed.

BUSINESS LOCALS.

Another lot of Fresh Fruit and Vegetables at LEONARD'S Friday. 1t

FOR SALE.—Seed Peas, Cabbages and Parsnips; also a few Yorkshire Pigs about April 1st.—R. H. WINNY.

Comfort is produced by using good tobacco and the "Shield Brand" pipe sold by J. A. Scott, tobacconist, Kamloops.

Settings of eggs from pure bred Plymouth Rocks for sale; orders taken now; price $1.00 a setting. E. G. WALKER, Coldwater.

EGGS FOR HATCHING.—Thoroughbred Barred Plymouth Rocks a winter laying strain bred for egg production and beauty. $1.00 per 13.—F. MATTHEWS, Kamloops.

J. B. Haddad, traveling jeweler and watchmaker, of Vancouver, will be in Nicola the first week in May. Parties requiring jewelry or watch repairing can have same attended to by Mr. Haddad at coast prices.

COAL OPERATIONS

NICOLA VALLEY COAL & COKE CO. DEVELOP PROPERTY.

Contract For Further Tunneling Let.—Pipe Line Being Laid.—Coal Mining Machinery is Already On the Way.

Developing operations on the property of the Nicola Valley Coal & Coke Co., Ld., still continue, and a further contract for tunneling has been let. So far the development work has been highly successful and proves up a very large body of excellent coal, all of which taken from the tunnels is finding a ready market, and is giving great satisfaction. A pipe line from the Coldwater river is being laid and fast progress is being made with this necessary auxiliary to the property of the company. Machinery for the mines is now on the way and very soon a large body of men will be employed mining coal on a commercial basis, contracts having already been arranged with this end in view.

EDITORIAL NOTES.

It is now over a month since attention was called, in the columns of this paper, to the attitude of the townsite owners with regard to the Nicola townsite. Evidently nothing has been done in the matter, and it is a moot question whether anything will be done. It is certainly a most irritating state of affairs when the townsite owners pursue the short-sighted and unbusiness-like policy which they are doing, and one too which is in the highest (or rather, lowest) degree selfish and unfair to the general and business interests of the community.

It is an open secret that the owners are unable to agree as to what action should be taken in the matter, (the water-works scheme evidently being the stumbling block), and while they are deciding what they should dc much valuable time is being frittered away and valuable opportunities lost for want of a little common sense and ability to realise and grasp the possibilities of at once placing the townsite on the market. Already in outside circles there is felt a want of confidence in the townsite, owing to the inefficient and procrastinating way in which the townsite is being handled and further delay will only accentuate and encourage this feeling, one which should, by the most strenuous and expeditious measures be avoided, or Nicola will receive a blow from which it will take her a long time to recover.

The owners of the townsite in their individual capacities are shrewd business men and it seems a rank pity that they can come to no agreement on the subject. Surely something can be done to end the present deadlock, and place Nicola where she will receive her share of the prosperity which is rapidly spreading over the province.

It would be amusing, were it not so sad, to look at the situation from an outsider's point of view, and see a town, the terminus of a new line of railway in the far-famed province of British Columbia, and yet a town lot cannot be bought from the owners of the townsite.

It is to be sincerely hoped, in the interests of the community in general and business houses in particular, that an agreement will be arrived at soon, or some suggestion made by which lots can be placed on the market and the growth of the town no longer held back.

"Better late than never," may be a good maxim, but "never late" is a better one, and applies appropriately to accident insurance. You should investigate this matter at once. Full particulars and rates from G. M. Brash, Nicola.
