BRIDGE THE NICOLA

MEETING HELD ON TUESDAY ON THE SUBJECT.

Delegates Selected to Interview Government and Railway Co. to Construct a Bridge Between Town and Station.

An exceedingly well attended public meeting was held in Pooley's Hall on Tuesday evening to consider the question of a new bridge. H. H. Matthews was appointed to the chair and G. M. Brash secretary of the meeting.

A. E. Howse in a few words stated the purpose for which the meeting had been called and how the matter of a new bridge to connect with the railway station was an urgent necessity, the present facilities for crossing the river being totally inadequate for traffic besides being very inconvenient and as regards the foot bridge unsafe. James Pooley thought that the C. P. R. might be approached with a view to their doing something in the matter and suggested that a deputation might wait upon the officials of the C. P. R. and place the matter before them for consideration. A. R. Carrington suggested that failing the C. P. R. being willing to financially assist the scheme, they might be asked for a delegate to accompany the delegation from this meeting to interview the government. After a further discussion of the matter the following resolutions were moved seconded and unanimously agreed to. "That owing to the necessity of a bridge to connect more directly with the railway station on the opposite side of the river and to afford more convenient facilities for travel transport both to the station and to the road leading to Aspen Grove and other important points this meeting appoint Messrs. Howse, Winny, Clapperton and Broadbent a delegation to interview the government and urge upon them the importance of immediate construction of a suitable bridge.

"That this meeting would respectfully through its delegates that a bridge which would allow of wagons passing one another and with a side walk for passengers would be a suitable bridge looking to the growing importance and increasing traffic on the roads of this district."

The matter for present accomodation for traffic across the river was then brought up and Messrs Murray, Strickland and Marquart were appointed a committee to approach Mr. Clark with a view to obtaining permission to go through his place and if permission were obtained to arrange for getting a temporary foot bridge built across the river near that point. In the event of failure to obtain permission they were empowered to arrange for the necessary repairs to the present foot bridge so as to make it safe for passengers. A vote of thanks to J. Pooley for the use of the hall and to the chairman and secretary for their services concluded the proceedings.

Organize Board of Trade.

The people of Chilliwack are now beginning to think of the possibilities their town offers as a manufacturing centre.

So far the chief industry of the whole district has been farming, there being only one factory in the town. To make known the possibilities of the town and to encourage manufacturers to bring capital in there, the people of Chilliwack are talking of forming a Board of Trade. Already preliminary steps for the formation of such an organization have been taken.

Caledonian Ball.

On the evening of St. Andrew's Day a ball under the auspices of the Nicola Athletic Association will be held in Pooley's Hall, Nicola. The committee in charge of the arrangements are sparing no effort to make this a success and with a good floor, best of music and an enthusiartic throng of dancers, hope to make this the dance of the season. Tickets, price $2 may now be had from any of the committee and will be on sale at the various stores. At Coutlee tickets may be had from J. A. Richards or from S. J. Solomon and at Lower Nicola from G. B. Armstrong and A. Fyall and at Quilchena from S. Kirby and A. Jackson.

The Copper Situation.

The copper situation continues to be very satisfactory to the Boundary, says the Boundry Creek Times. With prices steadily advancing the outlook is full of encouragment. The fear expressed in some quarters that an artificial market was being created appears groundless. The best copper authorities both American and English say there is no stored copper and tnat the demand is equal to or in excess of supply. They claim to see steadily appreciating prices for some time in the future. This means much for the boundary country where the mining and smelting are already on an economical scale and where the introduction of electric power will still further reduce it. If small smelters and expensive power could produce copper without loss at 12 cents, say the profits of large smelters operated with cheap power and a 22 cent product ought to be very gratifying. In this way the companies will soon be able to recoup heavy initial expences and early losses.

Divorce the Hotel From the Bar.

If ever a mesalliance was contracted it was when the hotel was wedded to the bar room. Who brought about the match, who issued the license, who performed the ceremony that made these two one is not discoverable; but as a sample of match making it is very poor.

"Unequally yoked" is a mild way of describing this union.

The hotel is intended to be a place of rest and refreshment for all travellers male or female, temporary substitute for a home for those compelled to be away from their own hearths. Why should a bar room which neither rests nor refreshes, which is a desecrator of home be attached to such a place any more than to a barber shop, grocery store or post office? If the convenience of the patron of the bar was considered the post office of the small town and village is surely a better place for it.

If a man wants to sell liquor to his fellow man the law with apparent irrelevance says to him: "We cannot permit you to open a bar over which to dispense liquor to thirsty citizens from across the road, unless you attach to it a dining room and bedrooms in which to provide food and rest for travelers from the ends of the earth." What earthly connection there is between these two kinds of business the law does not elucidate.

However, this man wants to sell liquor because there is money in the business and so complies with the conditions by keeping a hotel after a fashion. If he is in the country or small town the law forces him to keep a large house for a very few travellers and it is an expense to him and not a money-maker if he keeps it well.

He did not want to keep hotel in the first place, he found it only a distraction from his real trade of liquor selling, and cares little in what state it is kept as long as it is within the limits of what the law has demanded. There is no incentive to especially consider the accomodation of travellers nor to make the place attractive to them, as long as the paying part of the proposition is the bar.—Farmer's Advocate.

"IN MEMORIAM"

VERNON G GZOWSKI PASSES AWAY AFTER SHORT ILLNESS.

Attacked With Pneumonia About a Week Before Death.—Body Taken East By His Brother For Interment.

The death occurred last Friday at the construction camp hospital of George Vernon Gzowski, who was a member of the engineering staff of Loss, Macdonell & Co., contractors on the Nicola branch of the C. P. R. Mr. Gzowski was attacked with pneumonia about a week previous and was removed to the hospital where everything Dr. Ker and his assistants could do was done to alleviate the patients sufferings. The attack however was too severe and in spite of the best medical attention it was possible to obtain, the deceased passed away after a short illness.

During his illness his brother, C. S. Gzowski, was a close attendant at the bedside and was with him during his last moments.

The deceased was 29 years of age and was well known and respected all over the district, while on the construction he was a general favorite, liked by everyone with whom he came in contact. Of a most kindly disposition, cheery and good natured his many kind actions are remembered by a host of friends who will always treasure his memory.

The remains of the deceased were taken to Spences Bridge and after being embalmed were sent to Toronto for interment. C. S. Gzowoki a brother of the deceased accompanied the remains to their home in the east.

The deceased leaves a father, mother and several brothers and sisters to mourn his early loss and they have the sincere sympathy of the many friends of the deceased in this district with them in their sad bereavement.

Eligible Men Must Vote

An Ottawa despatch says: The speech from the throne at the opennig of Parliament on the 22nd instant, in addition to the reference to the intended tariff revision and an amendment to the Insurance Act, will promise an introduction of such legislation as experience has proved necessary for the perfection of the Canada Election Law. The act as proposed will certainly include clauses of a most drastic character and penalties for its infraction which even the most unscrupulous party workers will hesitate before incurring in. If the view of the special committee last session prevails, one feature will be a clause requiring every qualified voter to record a ballot in parliamentry elections on a penalty of disfranchisement for a term of years.

The Diamond Vale.

Work is still going on steadily at the Diamond Vale workings on the Garcia property. Day and night shifts keep the work going on all the time. It is expected that another hole will be put down shortly. The work is being done in a systematic manner and the ground thoroughly tested.

Bluejackets En Route.

The Canadian Pacific liner Lake Erie arrived at Quebec last week with over a hundred sailors and marines from Chatam Eng., en route for Esquimalt B. C. where they will go aboard a British warship. There are five officers in the party, and the men are in charge of Lieut. Douglas. The party left for the west on a special train.

Church of England Bazaar.

A bazaar and sale of work in aid of the parsonage building fund will be held by the Ladies Guild of the Church of England in Pooley's Hall on Friday November 30th. As the intention of the vestry is to get a parsonage built at the earliest possible moment, the Ladies Guild have kindly agreed to devote the funds raised at this bazaar to this purpose, and as the articles on sale are usually of a useful character besides being ornmental and are usually sold at a very moderate figure, it is hoped that the results from this sale of work will be no whit behind its predecessors. Refreshments will be served during the day and it is hoped that a large attendance will be present to further the objects of a bazaar which is in the highest degree worthy of patronage.

LOCAL NEWS.

G. Dickson of Coutlee and late of Granite Creek was a visitor to Nicola on Tuesday.

W. Rannie will have his firms contract on the Nicola railway completed in a few days.

J. M. Christian of Kamloopa, was in the Valley this week purchasing horses for the Northwest trade.

A. W. Strickland, manager of the Bank of Montreal at Nicola left yesterday on a visit to the coast.

F. Hart of Portland, Ore., arrived in Nicola today and will return on tomorrows stage to Spences Bridge.

Fred Richardson, representing the Ames, Holden Co. was in Nicola Valley this week doing business for his firm.

A series of special meetings will be held in the Methodist Church, Lower Nicola commencing on Sunday evening, November 18th.

Rev. Dr. Herdman of Calgary, representing the Presbyterian Church of the west was a visitor in the Nicola Valley the past week.

Hugh Irvine who for a number of years has been road man between Nicola and Spences Bridge left recently for the coast and expects later on to go up north.

J. B. Bright the well known contractor on the railroad visited Nicola on Tuesday. He expects to pull out very shortly to start work on his new subcontract on the V. V. & E.

J. Macdonell returned this week from Cariboo where his firm has a large contract at Bullion. He will remain on construction until his partner, C. S. Gzowski returns from the east.

The workmen on the other side of the river are making rapid progress with the new buildings, and despite the inclement weather expect to have them finished well within the stipulated time.

According to the report of the Provincial Bureau of Information about 20,000 acres of orchard were set out in B. C. during the past year, representing an aggregate of over a million trees, besides which about 500 acres were set out in strawberries.

ITEMS OF INTEREST

RAILROAD ACCIDENT NEAR KAMLOOPS TUESDAY.

One Passenger Killed and Seventeen Injured.—Captain Griffin Acquitted of the Charge of Manslaughter.

News is to hand of a railroad accident which occurred on Tuesday night about nine miles east of Kamloops. Very little information is to hand as to particulars, but it seems that an east bound and a west bonnd train collided at that point. One passenger was killed and sixteen or seventeen injured.

To Contest Dewdney.

Robert Jardine of New Westminster has been selected by Dewdney Liberals to contest that seat for the provincial house with Premier McBride at the coming election.

U. S Elections.

The state elections were held in the United States on Tuesday last. The principal interest was centered on the New York elections, which elected Hughes as governor over Hearst.

New Judge.

Announcement is made that W. H. P. Clement, country court judge of Grand Forks has been appointed to the position on the supreme bench made vacant by the promotion of Justice Duff to the supreme court of Canada.

Hindu Immigration.

The dominion government has made representations to the Indian government through the imperial authorities, which, it is hopes, will result in putting a stop to the wholesale immigration of Hindus to this country.

Yellowhead Pass.

The Grand Trunk Pacific has decideed upon Yellowhead Pass as the one which it is to use to reach the Pacific coast. This has been done after careful surveys The Government will be asked to approve this pass, which will give a grade through the Rocky Mountains of about four-tenths of 1 per cent.

Copper Going Up.

An expert formerly connected with the Clark interest, now identified with Heinze, says that the development of China and the Orient will be the means of doubling the price of copper in the nevt five years, and it is predicted that the metal will fetch 25 cents a pound before the beginning of next April.

Capt. Griffin Acquited.

Capt. Griffin of the Princess Victoria was acquited by Judge Henderson at Vancouver on Saturday of the charge of manslaughter in connection with the Chehalis disaster.

In pronuncing judgment the court said that the evidence of witnesses for the defence was unanimous on the point that the Chehalis swerved from her courre and brought about a critical condition of affairs. The court could find nothing in the evidence to justify it in fixing on Captain Griffin the stigma of a crime, and therefore acquitted him.

The announcement was received with applause.

NICOLA, B. C., NOVEMBER 15, 1906.

"BETTER TERMS."

The question of better terms is being thoroughly muddled by the Liberal press of this province. They say it is not a party question and then with all their puny might they twist and turn motives and statements to suit their own ends and in many cases make rash statements the very reverse of true.

With one accord they have denounced the line of conduct pursued by the Premier at the Ottawa conference and not content with villifying and shying mud at him they have totally misrepresented his attitude in connection with increased subsidies.

To take one instance the Premier has been charged with refusing the grant of 115,000 per annum awarded to this province under the provisions of the Quebec agreement.

The Premier has more than once explained that this grant was not in question. This grant, in line with similar grants to other provinces had already been decided upon and formed no part whatever of the case for "Better Terms."

The question at issue between the Premier of this province and the other Premiers was as to whether the sum of a million spread over a period of ten years was a suitable sum to hand over to B. C. in final settlement of the claims of this province to exceptional treatment. That the sum of $100,000 paid yearly for ten years filled the bill as regards the claims of this Province for special consideration. No sane man who has given this matter reasonable thought will believe, and it shows how poor an opinion the Liberal Press have of its readers when they deliberately ask them to endorse such a scheme, which would practically fix for all time the amount of money which this proxince, by reason of its configuration and inaccessibility is undoubtedly entitled to. Every thinking man who has the good of the province at heart will assuredly endorse the position taken by the Premier in turning down the trivial sum offered as a full and final settlement of our special claims. The statement that the Premier refused the grant of $115,000 per annum is a gross libel and has been done purely from political motives and it says little for the cause which it is supposed to represent, when the Liberal Press continue to publish these mis-statements, and try to decry the attitude of the Premier on a qnestion in which he should have the whole-souled support of everyone in the province.

BROUGHT PARTIES TOGETHER.

If Fernie Strike is Settled it is due to Minister of Finance.

The negotiations between General Manager Lindsey and Messrs. Burke and Sharp, representing President Mitchell, have been in progress for several days. Neither side will say anything for publication as to the nature of the negotations and the progress being made, but the public regards the fact that the negotations are continuing as a hopful sign.

It is now known that the provincial Government through Finance Minister Tatlow, has taken an active part in bringing the two parties together. Tatlow requested Mitchell to come himself or if that were impossible, to send a representative, and Mitchell sent Burke and Sharp in response to that request. Mr. Lindsey also returned to Fernie to meet these men at Tatlow's request.

The Telford Case.

Apropos of the refusal of the British Columbia Medical council to take action respecting the application of Dr. Robert Telford, of Vancouver, to have his name replaced on the roll, the Advertiser has the following: "Dr. Telford says that he understands the reason for the refusal to be, that he is still practicing his profession. He adds that if he would be restored within a reasonable time he would discontinue practice, but under the circumstances he will still continue to give his services free to patients at the Burrard sanitorium, though charges will of course be made for medicine, baths, rooms, etc. He will make application for re-instatment at the next session of the council.

KAMLOOPS, ASHCROFT, NICOLA AND SIMILKAMEEN MINING DIVISION OF YALE DISTRICT.
