THE NORTH COAST

DEVOTED TO THE INTERESTS OF THE COAST DISTRICTS AND NORTHERN INTERIOR

VOL. 1. No. 27. PORT SIMPSON, BRITISH COLUMBIA. SATURDAY, FEBRUARY 8, 1908.

LOCAL JOTTINGS

Wm. Craigg, an employee of the North Coast Commercial Co., left last Monday for Port Essington.

Mr. Don. Moore, manager of the Cassiar cannery, was in town on Friday. He left for the south per Amur.

Miss Beeson was a passenger by the Princess May, going to Port Essington to be employed at the Caledonia hotel.

In the case of Harry Thaw the jury brought in a verdict of not guilty and he was immediately taken to the asylum for the criminally insane.

Mr. Geo. Swan, manager of the Hazelton telegraph office, came up from Vancouver this week and is a guest of Mrs. Alexander at Rocton point.

Mr. James Sharp, manager of the Hudson Bay company at this post, returned last week from a quick business trip to the Capital and Terminal cities.

Owing to the heavy fall of snow last Sunday, the Skating Carnival which was to take place at the lake the following Monday night, was postponed indefinitely.

Mr. J. L. Pierce, the well known mining engineer, was a passenger on the Princess May en route for Mexico. Mr. Pierce has just completed a trip on the Yukon river.

Mrs. John Conway, nee Miss Mary Williscroft, will hold her post-nuptial reception Friday afternoon, February 14th, from 4 to 6 p. m., and in the evening from 8 to 10 p. m.

Captain McLeod of the Princess May, received orders from Commodore Troup to call at Hartley Bay for the body of Grieve Macrone, which was to be taken to Vancouver for burial.

The celebrated Curling team from Dawson city were aboard the Princess May last Monday en route for Winnipeg, Man., where they will compete with the curlers of the Prairie City.

Miss Mathildah Hoffman, who has been employed at the Hotel Northern during the past four months, left last Monday for Port Essington, where it is her intention to start a modern cafe.

The many friends and acquinatances of Miss McCoskrie will be pleased to learn that the patient is slowly but surely improving in health, though as yet visitors are not permitted to her ward at the hospital.

The Meteorlogical Observer here reports for the month of January: Average temperature, 35.89; maximum temperature, 51.8 on the 4th; minimum temperature, 21.7, on the 30th. Total precipitation, 5.39 inches.

The steamer Amur left Friday evening for Masset, carrying a number of settlers, with their effects, going to colonize the north end of Graham island. The Amur was also bound for Skidegate and Jedway.

Editor Coyle of the Bulkley Pioneer, passed through here at the beginning of the week, bound for the interior. It is his intention this spring to establish a newspaper at Hazelton, a more central point than Aldermere.

The steamer Princess May, Captain McLeod, experienced a very rough trip north, returning to this port on Monday last at noon. The steamer was weather bound at Ketchikan the entire night previous to her arrival here.

The Rev. Mr. Farriar of Brandon, Man., inspector of Indian schools for the Methodist Missionary Society of Canada, came north on the steamer Venture from Kitamaat, and after spending a few days in town, a guest of Rev. and Mrs. Raley, left for the south by the Princess May.

Captain S. B. Johnston, who has been commodore of the Hudson's Bay sternwheelers for the past seven years, has resigned his position with that company and will navigate the new Grand Trunk steamer that is to ply on the Skeena river during the coming season. There is also a possibility of Captain Bucey leaving the Beaver line and going to the Yukon river this spring.

The clearing and developing of the town of Prince Rupert is reported to be going on at a rapid rate. Over 500 acres have been cleared and graded on the townsite and the dense volumes of smoke from clearing fires burning the brush, shows that the job of clearing up is being pushed to the limit. About 1000 feet of the main wharf along the waterfront is completed, and another 1000 begun.

Messrs. H. E. Bodine and Frank Watson have set out on a trip of 500 miles over the snow to the Peace river country with mails for the outposts of the Hudson's Bay company. They went by steamer from Vancouver to Kitamaat, and will go across the country to Hazelton by trail, crossing Babine river to Fort Connelly, across to Ingineeka river, down that to Findlay river and over the Findlay to Fort Graham. They secured two splendid dog teams for the trip.

On Tuesday afternoon last, at 4 p.m., the steamer Beatrice came in from the south with 48 railroad capitalists aboard for Queen Charlotte islands. The party, which had the steamer chartered for the trip, represented a billion and a half and spent 50 cents of that amount in Port Simpson. The Beatrice remained in port till midnight, and in the meantime the millionaires had the Port Simpson Concert band to play for them at dinner aboard the ship, and later on all went to Eagle House, where Mr. and Mrs. Dudoward entertained the party at a musical evening.

News has been received here that the new steamer Cariboo, being built by the Ailsa shipbuilding company of Ayr, Scotland, was launched December 23, and is expected to be ready shortly for the voyage out to this coast. Mr. Gordon Legg, manager of the Union Steamship company, who recently went to England with regard to the construction of the steamer, which is to be the best of the company's vessels, was present at the launching. It has been stated that when the steamer Cariboo reaches Vancouver the company may place a steamer on the west coast of Vancouver island.

Mr. B. Savage, teacher of the Indian school, gave a very successful entertainment last Friday evening in the concert hall above the school room. Rev. Mr. Ferriar acted as chairman and read the well arranged program, which was as follows:

Chorus—"Spring Song".....By the Pupils
Recitation—"I Love the Spring"..Miss Ethel Ross
Song—"Cindrella".....Mrs. Raley
Wand Drill.....theBoys
Duett—"Little Boy Blue".....
.....Mrs. Magar and Mr. C. Dudoward

"God Save the King."

At the close of the program Rev. Mr. Raley moved a vote of thanks on behalf of Mr. Savage, which was seconded by Mr. Anderson and carried unanimously throughout the enthusiastic audience.

WILL ALTER BOUNDARIES.

A Bill Is to Be Introduced At This Session.

Largely owing to the depopulation of Atlin and great reduction in the voting strength of that constituency, the provincial government is considering the advisability of merging it with a section of the Skeena electoral district. It is reported that a bill with that object in view will be presented in the legislature during the present session.

It is planned to divide the Skeena district at the same time. As outlined, it is intended that a portion of Atlin shall be thrown in with the coast of the Skeena, the dividing line of the latter being at Kitselas canyon. The remainder of Atlin will be placed with the eastern half of the Skeena and Omenica districts.

The result of this alteration of boundaries will not be to create additional representation, but it will give the Atlin representative a greater territory and more constituents. Appropriate names for the redistributed constituencies are now being considered.

AN ANCIENT MINE.

Discovery on Queen Charlotte Islands of Old Shaft.

A most interesting find has been made on the coast of Queen Charlotte islands lately. A prospector some time ago came across an old dump near the water with a large tree about eighteen inches in diameter growing on top of it. He looked around for some time and then began to scratch away the loose refuse around the base of the tree. He found some pieces of copper ore and to his astonishment a little further down squared timbers were discovered. Further investigation showed this to be the covering over an old shaft filled with water.

The man now realized that he had probably discovered something important so he set to work to bale the shaft out. He worked away for a long time but still the bottom was not reached. At last he came to a ledge at a depth of 175 feet. Descending the ladder, which was in good condition from being under water, he found on the ledge some old buckets containing native copper. Also there were miners' tools, buckets, shovels, etc.

Apparently the mine had been closed for the winter and the miners, whoever they were, never returned, probably having been drowned on the way out. Had it been abandoned the tools would not have been left in the mine. All the timbers were in good repair, but as the mine was flooded this would be expected.

Who were the people who dug this shaft? is a question which is being asked. How many years ago was it dug? The tree on the dump had undoubtedly grown there since the sinking of the shaft, for the roots spread out over the mouth and had to be cut away before an entrance could be effected. The oldest settlers and Indians know nothing of it. The dump had been noticed by many, but no one before had thought of looking further for the explanation of it.

The age of the tree has been variously estimated at from 50 to 150 years. Whoever it was, they must have found something there which they considered worth returning for, and the present finder is about to send up machinery to pump out the lower shaft and work it till it has been proved.

The mine is situated about 20 miles from Skidegate and 9 miles from Sandspit.—The Times.

The North Coast is informed by a party from Victoria that the existence of these workings was known twenty or thirty years ago, the same being situated about 12 miles from Skidegate, and were abandoned owing to the fact that the appliances for mining and reducing the ore were too crude to permit anything being done with success.

Hotel Arrivals.

Arrivals the past week at the Hotel Northern were: Mr. Peck, jr., Georgetown; A. Young, Masset; G. M. Swan, Hazelton; W. Emmonds, Victoria; L. Heppintall, Port Essington; J. C. Calhoun, Victoria; W. Weeks, Skeena river.

Bill Miner graduated as a stage robber in California in 1869. At present it is not known where ge gets his letters. —Greenwood Ledge.

This is a bissextile year of 336 days:; when ladies are permitted to propound popositions of love, in place of replying, "Oh! this is so sudden!" How the fair damsels acquired that special custom we cannot say; but, no doubt, it is a convenient one to practice at times. The Atlin market still presents a few sprightly young bachelors, ranging in age between 30 and 70, whose state of single bliss will be in jeopardy; however they can console themselves with the reflection that, the ladies will be sure to look before they leap!—The Atlin Claim.

The B. C. Saturday Sunset says that it is feared there is some truth in the report that Canadians lack a sense of humor. We are sure from experience that our worthy and polite postmaster-general is shy on that saving grace. He refused us the use of the mails some years ago because we were slowly making a paradise of the earth. However, there is some excuse for our friend Lemieux. A Frenchman can hardly be expected to understand the lights and shades of English, Irish or B. C. humor, especially when the church has a hold on one coat-tail and the grafting politicians on the other.—The Greenwood Ledge.

Dr. A. P. Low, director of the Canadian Geological survey, who was dangerously ill a year ago, has had a recurrence of his trouble, and R. W. Brock, well known for good and faithful service on the survey, and particularly in connection with the economic geology of the interior of British Columbia, has been appointed acting director. Regret is felt at the illness of Dr. Low who has given to the survey the best years of his life, and who brought to the work of the department ripe experience, sound judgment and rare enthusiasm. Should his illness, however, prove so serious as to preclude further direction or connection with the work of the survey, it is gratifying to know that he is to be succeeded by a man of Mr. Brock's talents. Mr. Brock is in full sympathy with the miner and ready to lend him a helping hann in the solving of difficulties that so frequently present themselves.—The Hedley Gazette.

We are informed by the Provincial Minister of Finance that the holders of debentures for the loan of 1904 to the amount of $80,000 have accepted payment of this amount with accrued interest. Of the whole amount of the loan of one million dollars there now remains only $28,000 outstanding, which is represented by debentures running for the next seven years and repayable at the rate of $4,000 annually. It is quite possible with the higher rates now obtainable for money in the general money market, that the holders of these outstanding debentures may also encash them at the Provincial treasury. In any case the loan is practically repaid. The transaction is proved to have been a good one for the province in every way. The negotiation of the loan placed the provincial finances in a satisfactory position. Its repayment years before it was due has been a demonstration of the present sound condition of the provincial finances and of the large and substantial financial resources of British Columbia.—The News Advertiser.

IMPROVING THE ISLANDS.

Government is Building Trails to Jedway.

Under contract from the Provincial government, interesting improvement works are being carried on in the Queen Charlotte islands, says The Province. Trails are being built across Moresby Island to Jedway, and different sections of the country are being opened up.

Mr. L. T. Watson, who has charge of the work for the government, has also been commissioned to stock the islands with game. He will this winter secure from the mainland fifty pair of deer and transport them to the islands. Stringent regulations will be put in force to protect the game for several years, and by that time the animals will probably have become so plentiful that they can be shot by prospectors and settlers.

J. Lake, managing director of the Union Steamship company, is at present in the old country superintending the details of the construction of the new steamer Cariboo. In a letter received by the Victoria agent, Mr. Lake states that the Cariboo will arrive on this coast during the latter end of March.

THE BANK OF VANCOUVER

(To be Incorporated by Act of Parliament of Canada. Charter Applied For)

This proposed bank is being organized and will have its Head office in Vancouver with its directors chosen by the subscribers to its stock at the organization meeting.

The Western Provinces, and British Columbia in particular, have for some considerable time felt the urgent need of an institution such as the proposed Bank of Vancouver. The formation of new industries and the developing of those already established, has been very seriously retarded for want of ordinary financial accommodations, and the primary object of this new bank will be to alleviate the situation by largely confining its operations to the splendid field awaiting it in the Pacific Coast Provinces, and more especially in British Columbia.

The bank proposes to do business on the safe and well-laid-down lines of the old established banks, and will earn their respect and good will by a continuation of this policy.

The Bank of Montreal has its head office in Montreal.
The Bank of Toronto has its head office in Toronto.
The Bank of Ottawa aas its head office in Ottawa.
The Bank of Hamilton has its head office in Hamilton.
The standing of these banks is beyond question.

	Par value of stock per share.	Present value per share.	Rest account or undivided profits
The Bank of Montreal	$100 00	$260 00	$11,000,000 00
The Bank of Toronto	100 00	235 00	4,500,000 00
The Bank of Ottawa	100 00	226 00	3,000,000 00
The Bank of Hamilton	100 00	217 00	2,500,000 00

The above banks, while doing a general banking business throughout the Dominion, each aims at fostering and developing business and trade especially in their respective cities and districts THE BANK OF VANCOUVER will aim to do the same, that is, to encourage and promote legitimate business in British Columbia particularly.

The capital asked for is $2,000,009.00 in 20,000 shares of $106.00 each. The first $500,000.00 of stock is offered the public at a premium of 10 per cent., that is, at $110.00 per share.

Payments can be made in full or on the instalment plan. Interest will be allowed at 3 per cent. per annum upon the par value of the stock and until organization.

The provisional directors, when appointed, will reserve the right to increase the premium upon the remainder of the stock, also to allot or reject any subscription in whole or in part.
