PLANS ARE COMPLETED FOR PEACE OF MEXICO

U. S. Presents Scheme Already Accepted by General Huerta.

Constitutionalists Still Holding Out But Are Expected to Consent to Arrangements as Outlined.

Niagara Falls, Ont., June 8.—The United States government, through Justice Lamar, and Frederick W. Lehmann, presented today to the three South American mediators a complete plan for the pacification of Mexico.

It is the same in priniciple as that presented by the mediators and already agreed to by the Huerta government. It contemplates establishment at the earliest date practicable, of a new provisional government in Mexico City, which would conduct general elections for a permanent government.

The plan written by the American delegates, after consultation with the Washington government, includes several counter propositions of which the Huerta delegates will be advised tomorrow. A full conference of all delegates and mediators is planned for tomorrow or Wednesday. This is for the formal consideration and final drafting of the protocol.

Delegates Optimistic.

The Mexican delegates are optimistic and see the end of the parleys here. They are assuming that the American government will deal with the constitutionalists if the latter do not come into the negotiations immediately.

The mediators now are trying to evolve a method by which the peace plan will meet the approval of the constitutionalists before a protocol is signed, though the American government may conduct their negotiations with the constitutionalists.

There is a feeling of confidence that the constitutionalists eventually will approve the plans being worked out. While details of the peace plan are necessarily withheld until there is a final agreement, it is known that a large share in the new provisional

VETERAN'S MEDAL PRESENTED BY K. P.

R. Elley Honored by the Order of Which He Has Been a Member for 43 Years.

The members of Royal lodge No. 6, Knights of Pythias, to the number of 75, gathered in Castle hall last night to celebrate the 25th anniversary of the formation of the local order.

Chancellor Commander Archie Hogg occupied the chair, the first important business being the presentation of a veteran's medal to Brother R. Elley. Mr. Elley has been a member in good standing with the local order for the past 25 years and and had joined the order 13 years earlier in California.

The growth of lodge No. 6 was demonstrated when it was announced that the charter membership was 30 and had now grown to over 100 members.

A letter of congratulation was read from J. B. Kennedy, one of the charter members, who is now touring in Europe and was recently presented with a veteran's jewel..

After the roll call the following were presented with a group photograph, as being the survivors of the original charter membership: George Blakeley, D. A. Cameron, F. M. Eddy, R. Elley, W. E. Fales, Thos. Gifford, Sr., Geo. Gray, J. Henley, T. Irwin, Jos. Joggers, W. H. Leeming, W. N. McDonald, R. Mounce, Nels Nelson, P. Peebles, J. W. Reid, Thos. Turnbull, S. G. Tidy, Louis Witt, Dr. R. E. Walker.

The rest of the evening was spent in social intercourse, many visitors being present from other lodges. Refreshments were served and the gathering broke up following the singing of "Auld Lang Syne."

UNDER NEW MANAGEMENT.

City Moving Picture Theatre Changes Hands—Re-opens Friday.

The City Theatre is being redecorated and improved preparatory for the re-opening which takes place on Friday afternoon under the management of Messrs. A. McMillan and J. P. Pitner, the new owners. First class pictures will feature this popular movie, Charles W. Merrill, a well known coast pianist having been engaged, while Mr. Pitner will figure as a soloist.

Mr. McMillan hails from Kelowna where he interested himself in amateur lacrosse. He will probably identify himself withone of the local clubs when once he is settled.

Fire at Everett, Wash.

Everett, Wash., June 8.—Fire did extensive damage to the lumber and shingle mill of the Shull interests, here tonight, the loss being estimated to be between $4000 and $5000. The Shull people are well known in the lumbering industry, owning valuable mills and limits in Everett, Portland, and New Westminster, B. C.

WILL RAISE WRECK OF EMPRESS AT ONCE

Hull of Sunken Vessel Examined and Ship Can Be Raised Without Much Difficulty.

Toronto, June 8.—A large financial and brokerage house of New York, which is heavily interested in Canadian Pacific railway securities, was this morning advised from an authoritative source in Montreal that the Sunken Empress of Ireland would be raised at once. The report states that a diver went down to the wreck and carefully examined the exterior of the hull for several minutes. His report to the C. P. R. officials discloses the fact that the cut in her side would not be a difficult matter to repair and that the ship is not as extensively damaged as might be imagined.

MOTION OF CENSURE LOST ON DIVISION

Government Critisized for Alleged Failure to Provide Terminal Facilities at Quebec and St. John

Ottawa, June 8.—The commons sat until one o'clock debating a motion of censure of the government, moved by Hon. Wm. Pugsley, in connection with its conduct of the affairs of the National Transcontinental railway. There was no vote, the motion being declared lost on division.

The chief point of the opposition criticism relates to the changes in the grades and the alleged failure of the government to provide terminal facilities at Quebec and St. John. Hon. Robert Rogers, speaking in defence of the policy of the government, declared that the present administration had found the affairs of the N. T. R. in bad shape owing to mismanagement by the late government. The government was doing everything possible to handle the situation so that some good would result to the Canadian people.

Sir Wilfrid Laurier accused the minister of public works of bragging. The government had boasted of the superiority of Major Leonard, as a commissioner, but had introduced a bill with the object of getting rid of him as soon as possible. Sir Wilfrid Laurier dealt at length with the delay in connection with the terminals at Quebec.

The afternoon sitting was taken up with a debate on trans-Atlantic mail service.

THAW STILL FIGHTS FOR HIS FREEDOM

U. S. Supreme Court May Decide His Application cfr Release on Bail Next Monday.

Washington, June 8.—Harry K. Thaw's fight for freedom reached the supreme court of the United States today when Former Governor Stone of Pennsylvania, as counsel, asked for his release on bail pending a final decision of the proceedings by which the state of New York seeks to return the noted prisoner to Matteawan from his refuge in New Hampshire.

Chief Justice White gave representatives of the state of New York until Friday to file a brief in opposition to Thaw's release and a decision may be given next Monday when the supreme court will complete its work for the term and adjourn until fall. The supreme court rules provide for bail in such cases, and Justice Aldrich of the federal court of New Hampshire, who gave the favorable decision in the Thaw proceedings, announced in his decision, that he was not sure he ought to deny a release on bail, but would present the subject to the supreme court.

Mr. Stone set forth in his petition that his client was needed in court in Tennessee to testify in the settlement of his father's estate.

THEIR FATE UNKNOWN.

All Trace Lost of Two Americans Arrested by Mexicans.

Washington, June 8.—The Brazilian minister in Mexico City advised the state department today he had been unable to find any trace of E. B. Foster a newspaper man, and Patrick McKinney, another American, both arrested several weeks ago, and released an hour later. He reported that Max Blum and George Duvall were released from custody in Mexico City Saturday afternoon. They were held as spies.

OBJECT TO COST OF SEWER SYSTEM

Sapperton Delegation Presents Grievance to City Council.

Chief Bradshaw to Visit Winnipeg Convention—Condemned Buildings to Be Demolished.

The city council met last night and among other business heard an influential deputation, representing Sapperton, on the sewerage question. The cost of the scheme appeared to be the principal obstacle to its being received with open arms, and various suggestions were made on devices to secure a substantial reduction in the cost.

Finally, on the suggestion of Alderman Kellington, it was resolved that the Sapperton Ratepayers' association should meet and appoint a committee which should confer with the board of works and jointly draw up some questions, or indicate some point in the plans and scheme to an experienced outside engineer which might afford a basis of reduction and secure his opinion on it.

Another thing which it is believed will clear the minds of the ratepayers who are believed to be very hazy in their apprehension of the scheme, is that tonight Mr. Blackman, the city engineer, will attend the Sapperton ratepayers' association meeting, with the plans and specifications and fully explain the whole details of the undertaking.

Ex-Mayor Keary and Messrs. Munro and Watson were speakers for Sapperton and Aldermen Dodd, Kellington and Goulet took part in the discussion for the council.

Adam S. Johnston, solicitor, on behalf of Edward Goudy, wrote demanding $200 for oil cake, crushel barley and wheat alleged to be destroyed by the fire brigade when the latter were engaged in extinguishing the Brackman-Ker fire on Saturday, May 26.

The letter was referred to the finance and fire committees for report.

Will Attend Convention.

Police Chief Bradshaw was granted leave to attend the convention of chief constables at Winnipeg on June 22, 23 and 24, and the proposal to grant a sum of money to defray his expenses was left in the hands of the finance committee.

Alderman Kellington said they had a good chief who attended to his work conscientiously and well and there

(Continued on Page Four.)

SIR WM. WHYTE WORTH HALF MILLION DOLLARS

Bulk of Estate Goes to His Wife, But Relatives are Remembered—Total Value $587,199.

Winnipeg, June 8.—That Sir William Whyte was worth half a million dollars was disclosed today by his will which was filed for probate this morning. The chief beneficiary is Lady White who, with the exception of certain bequests, receives the estate of the late Sir William.

Insurance to the amount of $31,000 is left to Lady Whyte which, it is said shall not be considered part of the estate. Then for her benefit there is the sum of $175,000 to be derived from the sale of stock in the Winnipeg Electric company which is to be invested for her benefit during her life time. On her death this is to be divided into six equal parts and one portion each is to be given to Sir William's four daughters, Mrs. Margaret Fisher, Mrs. Christine Hunter, Mrs. Edith Meek and Miss Gladys Whyte. The remaining two-sixths are for the son of the deceased, William Whyte. Mrs. Helen Simpson, a sister now living in Fifeshire, Scotland, receives $5000; George Whyte, a brother in Liverpool, $3000, and James Whyte, brother, Toronto, $10,000.

To the Winnipeg general hospital is left $1000; Manitoba college a similar amount, while $2000 will go to Rev. Dr. Duval, whom the deceased describes as his "pastor." The total value of the estate is placed at $587,199. The will was made July 2, 1912.

VICTIMS BURIED.

Remains of Those Identified Interred Monday at Quebec

Quebec, June 8.—The bodies of Mrs. E. B. Hepburn of Vancouver, and her two small children were identified over the week-end, and were buried in Mount Harmon cemetery this afternoon. Others buried at the same time were Nanda Koskinan, Ernest Sarrinen and R. Graylon, members of the crew.

Ida Watson, the body of the little girl, which was found at Little Metis, has been identified as Edith Hart, aged five, whose father, mother and brother of Mortlach, Sask., were also lost. M. L. H. Roach, her grandfather, claimed her body last Thursday, but it was also identified as Vary Gray, of Terra Haute. C. J. Gray, of Terra Haute, however, viewed the body this morning and was satisfied that it was not his daughter.

"LET THEM DIE" A POPULAR SLOGAN

Militant Women Receive Little Sympathy from British Public.

Father Vaughn Says: "Let Them Start at Once and Make Up for Lost Time."

London, June 8.—"Let them die," is becoming a rather popular slogan in connection with the "hunger- striking" suffragettes since the public has become so profoundly resentful of the actions of the militant women.

It was reported today that the government intended to introduce legislation to indemnify the prison authorities against the results of letting the women die from starvation while in prison.

The Standard today interviewed a number of prominent persons, including clergymen, on the subject, and all of the latter who are quoted by the newspaper, express themselves in favor of the proposal.

Father Berhard Vaughn, brother of the late Cardinal Vaughn, replied: "There would be nothing ethically wrong in letting them die. Let them start at once and make up for lost time."

Rev. Arthur Waldron, vicar of St. Matthews, Brixton, said: "If the women refuse food they should be allowed to die."

Rev. Richard Free, vicar of St. Clemens, Fulham, replied: "I think the suggestion very good. I have advocated it for many months."

Several of those interviewed denounced impartially both forcible feeding and the "hunger strike," while Willoughby Dickinson, a Liberal M.P., Lady Cowdray and Lady Muir MacKenzie dismissed the suggestion as preposterous.

RELIEF FUND FOR EMPRESS VICTIMS

Montreal Council Votes Ten Thousand Dollars for Sufferers—Subsciption List to be Opened.

Montreal, June 8.—The city council of Montreal this afternoon voted $10,000 for the relief of the sufferers by the sinking of the Empress of Ireland. As no steps have been taken by the city or any organization to open a private subscription fund for the Empress survivors, President J. C. Dale, of the Montreal board of trade, has taken the matter in hand and called a meeting for tomorrow in the board council chamber. A representative committee will be appointed at this meeting and an opportunity will be given to the sympathetic and generous-minded citizens to contribute.

While the C. P. R. company is still considering the question of the raising of the Empress, A. J. Lee, of Montreal, closely identified with the North America Wrecking company, also the Arbuckle Wrecking company in the United States, has written to the C. P. R. company suggesting the raising of the sunken ship by means of compressed air. He stated that this would be difficult and costly, but could be accomplished.

A party of four mourners from Edmonton, Alberta, have been in Quebec seeking the bodies of thirteen Edmonton passengers on the Empress. So far Robert Stevenson has found his dead wife and Robert Purvis has identified Mr. Scott and his child, these being the only identifications by the sad little party.

CASE PREPARED.

Railway Commission Will Receive Data Regarding Bridge.

The joint committee composed of representatives from the city councils of New Westminster and Port Moody and the municipal councils of Coquitlam and Burnaby with F. L. MacPherson and W. J. B. Blackman, engineer, and W. G. McQuarrie, solicitor, conferred yesterday and prepared their case for presentation to the railway commissioners in regard to the North road bridge. Mr. McQuarrie will support the application to force the G.N.R. company to commence the work they were ordered to do and fix a time for its completion.

OUTBREAK FEARED.

Mount Lassen Shooting Out Steam and Emitting Fire.

Red Bluff, Cal., June 8.—At 4.30 this afternoon a column of steam 700 feet high shot out of Mount Lassen. It is reported the mountain is emitting fire.

Tornadoes in South Dakota.

Huron, S. D., June 8.—Eight tornadoes about ten miles north and northwest of Wessington, this afternoon, damaged farm buildings. Particulars are not obtainable. Storms near Shenfield and Southwest Huron also did much damage. Heavy rains have fallen here, nine inches in a week, and the town is flooded.

FARMERS BANK BILL KILLED FOR SESSION

Given Six Months' Hoist by Senate Vote of 32 to 25.

Party Lines Completely Eliminated—Vote Came as Complete Surprise and Caused Comment.

Ottawa, June 8.—By a vote of 32 to 25, in which party lines were completely eliminatod, the bill to reimbourse the depositors of the defunct Farmers Bank was given a six months hoist by the senate tonight. Eleven Conservatives voted for the six months hoist and eleven against it. Twenty-one Liberals voted in favor of the amendment and 14 for the bill. The vote itself was a peculiar one as Senator Bostock, Liberal leader, voted against the six months hoist moved by Senator Power, one of his own followers and supported the government measure. Sir Mackenzie Bowell voted for the six months hoist while Senator Mason, president of the Home Bank, voted to reimburse the depositors.

The result of the vote means the adoption of the six months hoist, killing the measure as far as this session is concerned.

The vote came as a complete surprise and was soon the talk in the corridors.

The debate occupied a part of the afternoon and all of the evening sitting, the argument for and against the bill being much the same as those advanced in the commons.

CITY MUST PAY CAMPBELL'S EXPENSE

Account of Tranquille Sanitarium Approved—Board of Works Makes Various Recommendations.

At the city council last night the board of works made the following recommendations which were adopted:

That the four foot sidewalk which is in a dangerous condition on the south side of Auckland street, be renewed at an estimated cost of $100 and charged to the 1913 bylaw.

That the request of the Vancouver Milling and Grain company to have Tenth and Canarvon streets oiled has been complied with insofar as the material on hand would permit.

That temporary improvements be made on Columbia street from Asylum hill to Brunette street, at an estimated cost of $150, as any greater expenditure in the nature of repairs would be a waste of money.

That the request of Mr. Jones to have a short piece of concrete sidewalk laid on the easterly side of Third street, be granted.

That the necessary material to construct the balance of Mr. Adams' fence on McMartin street, be purchased, and with the understanding that Mr. Adams reconstruct his fence on the proper street line. Cost of material, $5.50.

It was also resolved to purchase a small cement mixer at $200 for the Glenbrook sewer.

The engineer strongly supported the purchase on the grounds of efficiency and economy. The convicts who were to do this work could not be expected to do this work properly by hand.

Health Report.

The health committee's report dealt fully with the conditions of the ladies waiting room at the BC.E.R. depot. A conference has been held with Mr. Purvis and Mr. Elson of the B.C.E.R., and Mrs. Barnard, Mrs. Cross and Mrs. Patchell, representing the Women's Auxiliary and arrangements had been made to have the place cleaned morning and afternoon. Mr Elson undertook besides, to see it attended to on any other occasion his attention might be drawn to it by the police matron or sanitary inspector.

The finance committee reported finding Hugh Campbell to having been a bona fide resident of the city, and recommended the application of the medical superintendent of Tranquille sanitarium for $1 a day for his maintenance, be granted.

The application on behalf of Mrs. Insley, the unsuccessful litigant in an action against the city for damages, that the city relieve her of the costs awarded against her was refused, but to work no hardship upon the lady an adjustment was made as to the property to be held in security for the legal expenses.

The report was adopted.

The fire committee reported that eleven meters had been destroyed by the fire extinguishing operators at the Brackman-Ker fire and the cost would amount to $148.48.

CANAL TOLLS VOTE DELAYED BY DEBATE

Amendments Still Being Proposed to Measure—Final Disposition of Bill at Hand.

Washington, June 8.—Debate in opposition to the Panama canal tolls exemption repeal occupied all of today in the senate and frustrated efforts of Democratic leaders to reach a vote on the repeal bill. Senators Poindexter, Martin and Smith of Michigan, spoke during the day and Senator Smith will continue tomorrow.

Lines were drawn for the final disposition of the measure, however, and parliamentary preliminaries were completed. Senator Simmons presented to the senate as a substitute for the committee amendment to the repeal bill the compromise amendment agreed upon by himself and Senator Norris of Nebraska. This amendment declares that the passage of the bill shall not be construed as a relinquishment of "any right the United States may have under the Hay-Pauncefote treaty or otherwise."

Senator Sutherland criticized the Norris-Simmons amendment and proposed the following: "Provided that nothing herein shall be considered as denying or abridging the right of the United States to discriminate in favor of the ships of commerce of its citizens in respect of the conditions or charges of traffic which may be imposed for the use of the Panama canal but on the contrary, such right is hereby re-asserted."

Oil Companies Incorporate.

Regina, June 8.—Since the beginning of June, five new Saskatchewan companies with a total capitalization of $1,460,000, have been incorporated under the law of the province for the purpose of drilling for oil.

CROWD DISAPPOINTED IN DIVORCE SUIT

Counter Suit Against Mme. Schumann Heink Suddenly Ceases—Curious Spectators Packed Court.

Chicago, June 8.—William Rapp's defense against the divorce suit of his wife, Mme. Ernestine Schumann-Heink, ceased suddenly today with the testimony of only four witnesses and the case was given over to the attorneys for argument.

Owing to the fact that Rapp filed a cross bill charging his wife with a statutory offense, a large crowd packed the sweltering court room eager for testimony bearing on the counter allegation. They were disappointed.

Bryan Humphries, who was the famous contralto's chauffeur for six weeks last winter, and Miss Helen Sattler, her travelling companion since 1910, were the witnesses. Humphries testified that he had glimpses of Geo. Balwin, of Appleton, Wis., off and on at his employer's home in Chicago. Miss Sattler said that she had known Balwin for two years and that she saw him last around Christmas, 1913. She said also that a policeman with a fine voice visited the madame at her home in Caldwell, N. J., for singing lessons.

FISHING BOATS LOST DURING SEVERE STORM

North Shore of New Brunswick Reports Nine Fatalities—Several Vessels Lost.

St. John, N.B., June 8.—During a severe storm on Friday night the fleet of fishing vessels on the north shore of the province, was badly crippled and reports vary concerning the number which have been lost, although it is definitely known that nine men have been drowned, eight from Caraquet, N.B., and one from St. Simon.

The ship which reached the city only this morning said that at least 40 small fishing vessels had gone down in the storm which raged along the coast. Some crews of smacks were rescued by the more sturdy of the little fleet, but it was impossible, owing to their being so widely scattered to save all. No less than five bodies were buried this morning at Caraquet and many homes have been bereaved by the disaster, which is one of the worst in the shipping history of the north shore.

The latest word in regard to the loss in the storm Friday was to the effect that two vessels had gone down and a third was missing. Nine men were drowned and the crew of the missing schooner have not been heard from. Eight of the men were from Caraquet and one from St. Simone, while each of the vessels was from the former place.

On board each of the schooners a father and two sons went down. Joseph was the master of one of the little vessels and his two sons, John and Arthur, sailed with him. All three were drowned and a neighbor named Dugas also. The master of the other schooner was R. S. Albert, and his two sons, Laroy and John, were members of his crew, as was his father and another man, Oliver Paulin.

The NEW WESTMINSTER News

An independent morning paper devoted to the interests of New Westminster and the Fraser Valley. Published every morning except Sunday by the National Printing and Publishing Company, Limited, at 63 McKenzie Street, New Westminster, British Columbia. ROBB SUTHERLAND, Managing Director.

SUBSCRIPTION RATES—By carrier, $4 per year, $1 for three months, 40c per month. By mail, $3 per year, 25c per month.

ADVERTISING RATES on application.

TUESDAY MORNING, JUNE 9, 1914.

JAPANESE ON THE RIVER.

Whether or not the authorities and the general public have recognized the menace to one of British Columbia's most important industries in the domination of the salmon fishing on the Fraser river by the Japanese, the menace is none the less real and, as one fisherman ably put it at the meeting on Saturday last, "When the Japs have the river it will not be long till they have the canneries too."

It may be that the suggestions made by the white fishermen for the betterment of conditions are impracticable, though there also is the remote probability that those white fishermen knew what they were talking about when they drafted the resolutions which were turned down by the fisheries inspector. In any event the "red danger lights on the Pacific," referred to last year in a speech in the empire's capital by Dr. Frank B. Vrooman, have cast their glow on the waters of the Fraser and unless something is done to extinguish them, and done quickly, British Columbia and Canada will have cause for deep regret in the years to come.

A SHIPLESS NAVY NEXT.

Vice-Admiral Sir Percy Scott has set a ball a-rolling in British naval circles which will go a long distance before it is stopped and which in its course may possibly wreck the great British navy as it is constituted today. The ball referred to is Sir Percy's statement published in the London Times that, in view of the great progress which has been made in building and operating aeroplanes and submarines, there can be no further use for battleships and very little chance for much employment of fast cruisers.

Of course this daring statement has drawn down on the head of its author a storm of criticism from every nook and cranny where hero worshippers kneel to the power that "rules the waves," but his critics leave Vice-Admiral Scott's position stronger than before they stormed it and have, by their frenzied denunciations, proved only one thing, viz., that Sir Percy is a thinker in advance of his times.

Sir Percy Scott is a sea fighter to the core and his conclusion was reached from the standpoint of a sea fighter desirous of keeping the British navy the great war power it is today and has been for centuries. But there is an argument between the lines of the free-thinking admiral's contention which goes a great way toyard advancing the dream of the universal peace party. If aeroplanes and submarines have made war too dangerous a game for big battleships and fast cruisers, the day will come when other inventions will blanket the effectiveness of the aeroplanes and submarines themselves and so on, till war will have developed into such a hazardous risk of lives and expensive equipment, that it will be eliminated forever from the program of the nations.

The Port Moody oil refinery has been fined for polluting the waters of Burarrd inlet. Up in Calgary when they find oil like that they don't call it polluting.

If a man who is awaiting trial on a charge of having attempted to commit suicide and who is out on five hundred dollars' bail, finished the job, could he be accused of jumping his bail.

A returned American from the Philippines says Chinese are needed in the islands to do the work in the fields. If we could persuade the Hindus they were needed somewhere else wouldn't it be a fine thing for B. C.?

Here's one you can wish on any railroad you like: "Fried eggs," said the man in the dining car. "Cain't git you no fried aigs, Suh," answered the darky waiter. "Why?" queried the traveller. "De cook he done say, Suh, dat de road's so rough, every time he try to fry aigs dey scramble."

ISMAY HIDES HIS HEAD IN SHAME

Man Who "Stole" His Life in Titanic Disaster Lives as Outcast on Bleak Irish Shore.

Costello, Galway Bay, Ireland, June 8.—For two years Bruce Ismay, the director of the White Star line who saved his life when the Titanic went down, has been "among the missing."

The captain of the lost liner went down with his ship; the first mate ended his broken life; but Bruce Ismay shouldered his way to a lifeboat and on to the deck of the rescue ship, Carpathia, and sailed to safety—and disgrace.

Then, of a sudden, he disappeared. Rumor whispered that his one-time friends avoided him, that club committees asked his resignation, that his mind was failing.

Englishmen have little sympathy for a coward. Few men would be willing to live the life that Bruce Ismay saved from the sea. No longer a steamship magnate, no longer a Beau Brummel in Belgravia, an outcast among men, and, at last, "among the missing."

And in the meantime the lost director was hiding in a remote house on Cois Fhairrge at the Heel of the Sea.

The loneliest road in Ireland runs from Minna to Costello along the shore of Galway bay.

Straight as an arrow it runs, with never a cabin in sight, and not path save the mail road. A shivering network of gray land and grayer water in this country of Iar Connacht.

In the very heart of the wilderness, a solitary lodge shows white against a patch of green. A locked gate bars entrance. Sheumas, the old jarvey, shook his whip at the lodge through the drenching rain.

"Look where he hides in misery and shame!" he cried. "Never a gentleman have I brought here but was turned from the door. Money he has and all that money will buy.

"But it cannot buy off his memories—the shrieks of drowning women crying down the wind, the shouts of strong men in their agony as the waters closed above them. This is his curse. What he did will be remembered until the Titanic is forgotten.

"Lonely the place is. He came here to hide. He little thought we would know him—we that stood around the Marconi masts at Clifden, waiting a long week for a word from across the sea.

"Look about you—bogs and fields of stones. I have seen men and women, decent, civil people, here, staring with hunger and blue with cold, but not one of them, old or young, would change places with the man that lives in that lodge on a life he stole—Bruce Ismay."

For the first time in the history of banking institutions in Canada a banquet was tendered the citizens in recognition of services rendered. The Union Bank of Canada were hosts last Saturday night at the largest and best banquet yet served in the northern part of the province, and the citizens of New Hazelton were the guests.

The prize list of the Armstrong and Spallumcheen fall fair will be in the hands of Sec. Wolfenden, in a few days and will be sent out to farmers and others in due course. The list contains many valuable prizes, in some cases these being double what was given last year and should encourage farmers to make even a better showing next fall than was made last year.

* * *

It is reported that the royal commission on Indian affairs, which is visiting different Vancouver island Indian reserves in the pursuit of its investigations, has reached Hardy Bay. Its work in that and other island and adjacent mainland reserves will occupy several weeks. According to the information now available, the commission should be back in Victoria about June 22.

FORTUNE OF $40,000 WAS LOST TO HIM

Mr. Auxier Misses Easy Money in Connection With Lease Deal.

Calgary, June 8.—To lose a fortune of $40,000 on what may be regarded as a mere technicality is the weighty burden of tough luck that has descended upon the shoulders of Mr. Auxier of this city.

It was like this. On May 13—just about 24 hours prior to the memorable discovery of oil in the Dingman well—Mr. Auxier took it into his head that it might eventually improve his financial status if he speculated in an oil lease. So he hied him to the office of C. C. Rees and there secured an option for one week on section 2, township 20, range 2, west of the fifth meridian. The price agreed upon for the option was $300. It was a verbal bargain, and then on the 15th of May, when the news was flashed far and wide that the best oil ever found in the world had been discovered on the Dingman property, Mr. Auxier hurried round to the office of Mr. Rees and informed him that he still intended to take up the option The next day he delivered to Mr. Rees a written acceptance of the option, and to his very great surprise, was informed by Mr. Rees that the deal was off.

Appealed to the Law.

Mr. Auxier was naturally very much upset by this announcement, inasmuch as the value of oil leases had jumped abnormally, and were threatening to lift the roof off the sky. Mr. Auxier did not feel like accepting the verdict issued by Mr. Rees, and appealed to the law, with the result that he obtained a writ against Mr. Rees for the purpose of enforcing the assignment of the lease. He further obtained an injunction preventing Mr. Rees from disposing of the lease.

But Mr. Rees was just as anxious about the matter as Mr. Auxier, and he too appealed to the courts, making application for a dissolution of the injunction, hearing of the argument being fixed for May 27.

Chief Justice Harvey heard both sides of the case and decided to dissolve the injunction on the ground that Mr. Auxier, in accepting the option, had not paid the $300 required in cash.

It is of interest to note that the mineral rights of the property in question are now valued at $250 per acre, making a total of $40,000, and because of his failure to pass over to Mr. Rees the paltry sum of $300, Mr. Auxier has missed the opportunity of pocketing $40,000.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee will be permitted to purchase whatever available surface right may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

TELLS STORY OF SEARCH FOR IDEA

Bachlet, Flying Train Inventor, Gives Details of Discovery.

Worked at It for Years—Stood Guard With Gun When Sharpers Tried to Steal Apparatus.

London, June 8.—Emile Bachelet, the inventor of the flying train, has written the following article explaining how he hit upon the idea which is now the talk of London.

"I have been asked to describe how I discovered the secrets of the flying train.

"I do so gladly. I am a stranger in a strange land, but it is a land which has given me a great welcome.

"The secret of the flying train did not come to me in a flash, as inventions sometimes do to their creators. It is the outcome of 20 years of study, of experiments that sometimes led somewhere and often led nowhere, of apparent achievement and again of bitter disillusionment.

Invented Electrical Appliances.

"I have worked hard. Often I have almost starved in order to get the necessary materials to carry on experiments. But all through I have been encouraged to persevere by the feeling that one day I should really produce something big. The knowledge that I had to do something to support my family also spurred me on to greater efforts, for I make no secret of the fact that all through my aim has been to make all the money I can through my inventions.

"I am a Frenchman, but I have worked in America for so long that I am almost more American than French. It was in 1893 that I started inventing in Tacoma, in the state of Washington. I invented appliances for combatting disease by electro-magnetism. My designs were adopted by many hospitals and doctors, but I could not make sufficient money out of them.

"It was while experimenting with magnetic currents on blood cells that I discovered that certain densities of blood were attracted or repelled more than others. When I found this out I shut myself up for hours on end thinking thinking, always thinking.

"You have got to put your brain to something that will make money for the family and keep the wolf from the door, I told myself, and I wondered what I could invent—something practical and commercial that had never been produced by man.

"I was not looking for an improvement. I was looking for a basic idea, a fundamental thing, something that should be absolutely and entirely new.

"Then I began to think of speed. Speed was what the world wanted, speed was the spirit of the age. Motor cars were speed, flying machines were speed. Faster, faster, was the cry of the universe. The people were shouting for speed. I thought if I could invent something that would go at a great speed I should do a great thing. Then I wondered how I could get great speed.

"At once I banished the idea of wheels from my mind; they would stand in the way of tremendous speed. I thought of every element in which my speed machine could operate—on the ground, under the ground, on the water, under the water and in the air. To get great speed I must eliminate friction, but how to do it I knew not. Then at last the idea of magnetic repulsion on a big scale came to me.

"If electro-magnetic waves repelled blood cells, why should they not repel metals to such an extent that when applied from the ground the current should force the metal body up in the air and keep it suspended there, thus counteracting the law of gravity.

Experimented with Many Metals.

"I went at the thing hammer and tongs. I experimented with every metal and every composition of metal under the sun. I found that gold and silver had a wonderful retarding effect on the electric waves but the best for commercial purposes proved to be aluminium and copper.

"Having raised my metal car in the air, I was faced with the problem of propelling it through space. I thought of an ordinary air propellor first and this I decided would be practical for passenger carrying purposes, but for carrying of mails and first class freight I wanted to shoot my trains through space without any human being on them—I wanted to send them flying away one after the other at 300 miles an hour—each and every train to be started and stopped from a central power station or series of power stations.

Sharpers Try to Steal Apparatus.

"I will not weary my readers by describing the many things I tried before I conceived the idea of solenoid electric pulling magnets to attract the train along at great speed.

"Every piece of apparatus in the making of the flying train has been manufactured in my workshop. I have never made a single drawing, but have carried everything in my brain.

"At Mount Vernon, in New York, where I worked for years, sharpers tried to steal my apparatus and I had to work in my laboratory with a revolver by my side. Once, too, when somebody broke in, I had to use it. But that is all past and done with now. I am happy in the fact that I have succeeded in my basic idea. It is for the engineers to develop the construction work on a big scale."

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM

513 JAMES ST., HAMILTON, ONT.

"Five years ago, I was taken down with what the doctors called Inflammation of The Bladder—intense pains in back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor.

My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once and the attacks were less frequent.

In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me." JOHN HERMAN. 178

GIN PILLS are sold at 50c a box—6 for $2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write us, mentioning this paper. Money back, if GIN PILLS do not give satisfaction. National Drug & Chem. Co. of Canada, Limited, Toronto.

SOCIETY AT WAR WITH DRUG HABIT

In Most of Large Cities of United States Campaign Is Under Way Against Practice.

In most of the large cities of the United States a campaign is under way to wipe out the use of habit-forming drugs, says the Toronto Mail and Empire. In the past ten years the dope habit has grown to be one of the gravest perils that confronts society, and despite strict laws designed for the purpose of putting an end to it, the drug users multiply. A prominent French physician said the other day that more strong constitutions and virile minds have been wrecked through the use of cocaine and similar drugs than through indulgence in liquor. The dangers of the liquor habit are familiar to everyone, yet by no means every man who drinks is brought to the verge of ruin through the practice. With dope it is different. There is no "moderate" dope fiend, no man who can "take it or leave it alone." The man who uses dope inevitably becomes a slave to the habit, and if he is not made a wreck, it is because at the last moment he has been rescued, or has rescued himself by a fight whose agony will never be forgotten.

Brought Here By Negroes.

It is said that the cocaine habit was brought to the northern states and Canada by the southern negroes. It was the blacks apparently who were the first "snow birds," that is to say, the habit of taking cocaine as a powder by sniffing it must have been discovered by some degenerate black. This is the method of taking the drug most comomn in this country and through the United States. Where the negroes learned the deadly habit is not known, but long before the taking of dope was at all common in North America the Indians in Brazil were confirmed dope fiends. They chewed the coca leaves, and found that they took the place of food. A man chewing these leaves will not need to eat for two or three days, and can perform remarkable feats of strength and endurance. Of course, he pays the penalty in the end, as do all users of dope, and to avoid the reaction takes more dope. As long as he can keep under the influence of the drug he will feel neither fatigue nor hunger, but the more he takes the more terrible is the reaction when the doses are discontinued.

Effects of Opium.

Speaking of the effects of opium a writer in an American paper said a few days ago:

"The drug produces feelings of satisfaction and personal comfort, a condition which lasts as long as it is taken in sufficient quantities. When discontinued, feelings of lassitude and mental depression, nausea and sometimes vomiting, accompanied by pains in the stomach, ensue. More or less itching of the skin, particularly about the nose, is a quite constant symptom. As the necessity for larger doses becomes more urgent, disturbances of the general health are manifest. The victim is restless and irritable, sleep is disturbed, appetite and digestion deranged, and there is constant mental depression. Chills followed by profuse sweating are not uncommon. The pupils are dilated, sometimes unequally, except while under direct influence of the drug, when they are minutely contracted. There is a gradual weakening of the moral sense, and the patient becomes an inveterate liar. In women, hysteria and nervous prostration are not uncommon—ultimately, a condition of loss of strength, with loss of appetite, is induced. The victime gradually becomes emaciated, sallow, grey and permanently aged. This is a condensed description of the symptoms. It is the story of action and reaction."

When Doctors Are to Blame.

The basis of all drug habits is that the primary effect of the drug is to relieve the secondary or reactionary effects of the same drug. For instance, opium is taken at first to relieve pain or produce sleep. After the primary effects have worn off the patient is wakeful restless, nervous, and intolerant of pain. He finds that another dose of the drug will once more produce sleep or relieve pain, and thus the habit is formed. There is an ancient saying to the effect that pain is no evil, and every conscientious physician knows quite well that local pain of any degree, moderate or severe, is frequently the only guiding symptom for discovering a deep-seated tumor. Pain is like a cough; it is not a disease, but a symptom, a storm signal as it were, and the doctors who will write a prescription for no other purpose than to deaden pain, without any effort to discover the cause of the pain, are responsible for fastening the drug habit upon many thousands of people. In United States there are hundreds of doctors who for 25 or 50 cents will write prescriptions for cocaine or any other drug, and it is through these medical certificates that the dope fiends secure their drugs. Victims of the habit grow supernaturally cunning, and might deceive an honest doctor by pretending symptoms whose treatment would naturally call for opium or cocaine.

Victims in Two Classes.

One of the most melancholy features of the drug habit is that so many of its victims are found among doctors themselves and chemists. Their occupations prevent them from securing as much sleep as the average man, for they are likely to be roused at all hours of the night. Knowing well the effect of the drugs, they begin by taking small doses to maintain their strength, and in a short time become veritable fiends. These victims belong to one class of drug users, and with them should be classed the thousands of persons who have been introduced to the "blessed needle," as Kipling once called it, by their physicians. However, the thugs, gunmen and other degenerates who sniff cocaine do so deliberately, for the sensations it offers them, and not for the relief of pain. They see somebody take the "coke" and they want to try it, too. They have no fear of forming the habit. In fact, they are quite willing to become victims, for they soon learn that under the influence of the drug they will perform feats of crime and daring that would otherwise be impossible.

WILL TAKE CARE OF PORT MANN SHORE

Government Promises to Guard Surrey's Rights—Sanitary Inspector for White Rock and Crescent.

At its last meeting the Surrey municipal council received communications as follows:

From W. G. Swan, divisional engineer C. N. P. R., New Westminster, re the request of the council for a spur track into the municipal gravel pit at Port Kells, stating that this was a matter that should be taken up with Mr. Holt, attorney for Mackenzie, Mann & Co., who was present in the east, but would be back in about three weeks' time. Received. Clerk to write Mr. Holt.

From Mrs. J. J. Elliott, complaining re the condition of the North Bluff and Stayt roads. Received and referred to Councillor Bradshaw.

From McQuarrie, Martin & Cassady, asking for a ceque for $127.40 for the plaintiff's costs in the Mackensen case, which would be paid over to the plaintiff's solicitors upon their undertaking to return same in the case of a rversal of judgment on appeal. Received and ordered paid.

From McQuarrie, Martin & Cassady, enclosing copy of letter received from the deputy minister of marine and fisheries, Ottawa, wherein he stated that no definite action would be taken in connection with the application of the C. N. P. R., for Port Mann foreshore until the application of the municipality had been given every consideration. Received.

From T. J. Thomas, assistant city clerk, New Westminster, stating that he was directed to reply to the request of Surrey for permission to tap the water main at the south end of the Westminster bridge, that water would be supplied at the rate of 10 cents per 100 cubic feet, the cost of connection to be borne by Surrey municipality. Received, but the Surrey council only wanted sufficient to sprinkle crushed rock they were putting on the road at South Westminster, and it was obtained elsewhere, as it was not deemed advisable to go to the expense of buying water.

From M. Elchinko, asking that the Coast Meridian road be opened across the G. N. R. tracks past section 7, township 9, so that he could get access to his property. Received and referred to Councillor Triggs.

From W. S. Vivian, assistant assessor and collector, reporting collections for the month amounting to 5$1,649. Received.

Summer Sanitation.

From Dr. F. D. Sinclair, stating that after an inspection of the summer resorts of White Rock and Crescent he considered it advisable that a special sanitary officer be appointed to look after same during the summer months. Received, and A. D. Matheson appointed to be sanitary inspector at a salary of $100 per month.

Moved, seconded and carried, that a vote of sympathy be sent to Mr. Griffin in the great loss that has befallen him by the foundering of the Empress of Ireland.

Contracts were awarded as follows: Elgin road, C. Feedham, $160; Rose road, graveling, William Bothwell, $113.40; Clow road, to E. Wade, clearing, grading, etc., at 16 cents per lineal foot, and corduroying at 9 cents per lineal foot; approximately $300 in all; Davis road, to Wm. Bothwell, for $565.

The clerk was instructed to write Messrs. Merritt & Worsnop that upon receipt of their certified check for $1,000 the contract for the construction of a road over the flats into Port Mann would be awarded to I. M. Clemens for $1,850, he being the lowest bidder.

The clerk was also instructed to notify George Figg, to at once cease hauling over the municipal roads with a traction engine.

Various accounts were passed and ordered paid and council adjourned to meet again Saturday, June 13th, at 1:30 p. m. at the municipal hall, Cloverdale.

COMPLETELY CURED OF DYSPEPSIA

By Na-Dru-Co Dyspepsia Tablets

We are continually hearing from grateful people who have had experiences like that of Miss Alice E. Cooper, of Niagara Falls, Ont., who writes:

"I wish to express my gratitude to you for the benefit I received from your most wonderful Dyspepsia Tablets. Having taken other medicines without having received the slightest relief, I heard of your Na-Dru-Co Dyspepsia Tablets and thought I would give them a trial. I have been completely cured of dyspepsia. I will be only too pleased to advise any one troubled with dyspepsia to give them a fair trial."

Na-Dru-Co Dyspepsia Tablets not only give the immediate relief from heartburn, flatulence, acidity of the stomach and biliousness, which is so much needed, but if taken regularly for a few days or weeks they completely cure the most aggravated cases of stomach trouble. When for 50c. you can get a box from your druggist, why go on suffering? National Drug and Chemical Co. of Canada, Limited, Montreal. 144

HEADACHES ALMOST DROVE HER WILD

Until A Friend Advised Her To Use "Fruit-a-tives"

NEWBURY, ONT., May 29th. 1913.

"About four years ago, I was in a dreadful run-down condition, weak and hardly able to walk up stairs. Weakness peculiar to women was the chief trouble. I had Headaches that almost drove me wild, and most distressing constipation. I took many dollars' worth of medicine from the doctors without any good results.

A neighbor advised me to take "Fruit-a-tives" and they proved to be the best medicine I ever got and the only medicine to do me any good. Today, I feel as a young girl, and am able to go about my household duties as usual. My health is splendid and "Fruit-a-tives" is the cause of it". MRS. WM. CRIM.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

TO THE MANU-FACTURER

In view of the industrial development in Greater Vancouver, actual and in prospect, and to the fact that in the past many manufacturing plants have been lost to the community owing to the exorbitant prices demanded for land, your careful attention is invited to the following:

The Coquitlam Terminal Company have for sale to bona fide business concerns, manufacturing sites, all clear and level, with trackage and ample waterfrontage at from twelve hundred and fifty dollars per acre, also home sites for employees at extremely low rates, with excellent school facilities, city water, electric light, etc. Address enquiries to

ADVERTISING TALKS

The News is the Morning Paper of New Westminster and the Fraser Valley. See that your business announcements appear in its columns.

Many advertisers lose sight of the fact that it is often wise to pay for special positions in a newspaper in order to conpel the reader's attention. This, of course, only applies to certain propositions, but it plays a very important part in the production of results.

Many newspapers charge from 15 to 25 per cent. extra for special positions, but the results mostly justify it, where the advertising does not deal with articles of daily or weekly consumption.

The grocer who is offering his weekly "specials" as well as discussing his general line of goods, the economy of dealing at his store, etc., would be unwies to use special positions. He invariably uses a very large space and the housewife knows that on certain days in the week she will see his special offerings in the particular newspaper that comes to her home. If she is interested in grocery bargains, she never fails to look through the newspaper for them on the days that she knows they will be advertised.

The grocer, therefore, can spend his appropriation to much better advantage by using larger space at "run-of-paper" rates.

Take a wine merchant, however, who once or twice a year secures a small, choice parcel of imported vintages and instead of locking up his capital, desires to dispose of these goods at a nominal profit, it is particularly important that he should use special or preferred positions. Women, as a rule, do not buy wines for the home, and men do not look as carefully through the advertising pages as women do. It is, therefore, essential to place this kind of advertising in a special position where it cannot fail to catch the eye of the prospect. Similarly, sporting goods advertisements will amply justify the extra cost of appearing on the display page of a newspaper.

A well-known baker and confectioner in Montreal claims that a two-inch advertisement on the front page of a leading evening paper brings him better returns than four inches double column had obtained in other positions. The reason for this is that, although his is not special advertising, he has to make special efforts to catch the attention of ladies who invariably have somewhat set ideas upon the matter of bread and confectionery.

Don't reduce the size of your advertising for the sake of using preferred position unless you can tell the story of your product completely in the space you decide to use. If your goods are such that they are in constant demand either by the housewife or her husband, special positions are not essential, although where a competitor is using them it is as well to run an occasional card in special positions, drawing attention to your regular advertising on Tuesdays or Friday, or on such dates as you find it expedient to advertise in ordinary positions.

Reversed plates—white type on a black background—are helpful in catching the eye, but should be used only where the amount of copy involves only such a number of words as can be printed in big, bold type, and also where the plates can be used again and again at various intervals, on account of the extra cost of electrics.

Grocery Facts

When you come right down to grocery facts, it is price and quality that tell the tale. We don't know of a store anywhere that meets the two requirements more faithfully than the **Model.** We are certain no store in the city offers superior goods.

Potatoes, good quality, 100 lb. sack $1.75
Fine Creamery Butter, 3 lbs $1.00
Tea, imported direct, put up in 3 lb. boxes $1.00
Coffee—This is really good coffee. We do not wish you to take our word for it, we would like you to try it. Per lb. 40c
Local Fresh Eggs, dozen ...30c
B. C. Milk, 20 oz. tins 10c
Lipton's Pickles, bottle 25c
Peak Frean's Shortcake and Pat-a-cake Biscuits, 2 pkgs 25c
Boiled Ham, sliced to suit you, per lb. 40c
Crisco, the lard substitute, per tin .....35c. and 65c
Buchanan's Pure Jams, 4 lb. tins 65c

WILLS

There is a period in the life of every man when he thinks about the future welfare of those dependent upon him. Sometimes this does not come until sickness overtakes him. Then he makes a will—but it may be made under wrong influence.

Had the will been made during good health, the most deserving persons—according to the deceased's wish—would have shared in the distribution of the estate.

Do you not realize that it is your sacred duty to no longer delay making your will?

The advice of the Dominion Trust company in this matter may be of value to you. All such discussions are treated in strict confidence.

Dominion Trust Company.

May Market Dues.

The market clerk sent a cheque to the city council yesterday for $355.50 being market dues collected for the month of May.

Briquettes, Briquettes, cheaper than coal. Barry Davis & Co., Phones 880 and 411 L. (3456)

Burnaby Ratepayers.

The regular meeting of the Ward One Ratepayers' association, Burnaby, will be held Friday evening in Johnson's hall, Highland Park.

Mortgages—Alfred W. McLeod. (3446)

Many Books Read.

The total number of books issued to lenders from the Carnegie library for the month of May was 2418 and the total number of readers was 1698.

Moonlight excursion and dance on S. S. Paystreak, Wednesday, June 10. Full lower deck for dancing; good music. Boat leaves foot of Eighth St. at 7.30, calling at Ladners. Gentlemen 75c., ladies 50c. (3471)

Repairing Pavement.

The B.C.E.R. repair gang is now engaged in tearing up several portions of pavement near the Columbia street depot which will be relaid. It is expected that the cement mixer will be in operation at various points along Columbia street before the end of the week.

Eighth Rose Carnival, Portland, Ore.

From June 7th to 11th, the Great Northern railway will sell tickets to Portland, Ore., and return at $13.20 for the round trip. Return limit good train leaving Portland, June 16th. (3473)

Heavy Mail Monday.

Eastern mail flooded the local post office yesterday, that which should have arrived on Saturday and which was sent to Vancouver for fumigation, arriving at the same time as the usual Monday mail. Practically all of the mail matter was sorted and sent out early in the afternoon.

The Westminster ladies should not forget that the wig makers have taken over Mrs. Moseley's hairdressing parlors on Begbie street, two doors below Russell hotel. Phone 1329 for appointments. Their shampooing, facial massage, etc., is Pacific coast renowned. The manufacturing office at 115 to 117 McLeod block is always busy; they will send up for your work. Phone 62. (3478)

Sapperton Sewer Cost.

Mayor Gray gave a terse description of the cost of the sewerage scheme to the Sapperton ratepayers' deputation to the city council last night. On a 66 foot lot quoth the mayor, the cost figured out at five cents a day—the price of a cigar. Ex-Mayor Keary figured that out at $10 a year and for 30 years with compound interest. Nothing was said as to the effect of such a cigar for 30 years.

Pitt River Bridge.

Armstrong Morrison & Co. transported by two tugs several large scows with bunkhouses on board, and a piledriver up the Fraser on Sunday. Their destination was the Pitt river where work on the new bridge is expected to commence in a few weeks, when all the preparations for the accommodation of the workmen, and fixing up of machinery, will be completed.

Ho! for Harrison July 1st. Steamer Paystreak leaves Market wharf at 6 a.m. Orchestra on board. Tickets $1.50 at Hill's drug store. (3477)

W. C. T. U. Meeting.

The regular educational meeting of the W. C. T. U. will be held this afternoon at 3 o'clock in St. Stephen's church. Reports of officers for the past year will be made.

Westminster Brewery.

Malt, the principal food element in Weinweiser Beer, forms a two-fold action in that that it is both a digestive and a nutrient. Order a case from your dealer, or Phone 75 L. (3457)

"Star" Session Held.

The Burnaby school board, following reorganization last night, held a star chamber session at the West Burnaby offices, the press not being allowed to enter the precincts of the committee room. The trustees refused to give out anything for publication.

Snow and Hail in Paris.

Paris, June 8.—Two and a half inches of snow and hail fell in one hour in Paris this evening and the spectacle of horses struggling through snow on a June day in the Avenue Des Champs Elysess, was amazing. The air had in it a wintry chill, the temperature beinig 40 degrees Fahrenheit.

Y's Engage Tennis Courts.

The Y. M. C. A. and the Y. W. C. A. have joined in leasing the tennis courts at the old See House for the summer where the members of both organizations will have an opportunity to indulge in the sport during the present season. Each association will have certain days alloted to it for playing.

Fred Davis will sell by public auction (absolutely without reserve) the household furniture and effects of the well appointed residence of Mr. F.W. O'Donnell, on the premises at 579 Columbia street east, Sapperton, on Wednesday, June 10, at 1.30 p.m. sharp. The sale will include in part of an antique parlor suite, upholstered in figured velour, Brussels, Tapestry and other carpets, quantity of linoleums, lace curtains, dining room suite of oak extension table and six chairs, large oak library table, leather upholstered arm chairs and rockers, wax finished serpentine dressers with French plate mirrors, ladies dressing table, chairs and rockers in mahogany, heavy bronze bedstead with coil spring and Restmore mattress, very massive quartered oak hall tree, rockers, chairs, blankets and bedding, Moffat steel maleable range, dishes and cooking utensils, etc., etc. Take the Sapperton car to end of carline. OBJECT TO COST OF SEWER SYSTEM

(Continued from page one)

was no reason why his request should not be granted.

The invitation of the Women's auxiliary of the R. C. hospital to attend the annual meeting at the Y.W.C.A. rooms on the 15th inst was accepted on condition that the meeting was held at 3 p.m. and not 3 a.m. as set forth in the invitation.

J. J. Johnston, a director of the board of management of the Royal Columbian hospital representing the city council for the last two years, was reappointed.

On the recommendation of Building Inspector Turnbull it was agreed to permit Mrs. Doming of Agnes street, to proceed with the improvements on her house, provided she entered into an agreement to remove the buildings at the end of eight years.

Building to Be Torn Down.

On Mr. Turnbull's further recommendation the tearing down of the three buildings on lot 10, city block 22, was delayed until July 20, the agent of the proprietors having explained that the lease of the land would expire on July 11. He gave an undertaking that the proprietors would demolish them immediately thereafter.

On the advice of Mr. Martin, city solicitor, a formal resolution was passed ordering the demolition of the buildings, but deferring action until the time recommended by the building inspector.

L. H. Davidson of Adelphi, B.C., wrote offering to sell three Canadian lynx to the city for the zoo in Queens park. Mr. Davidson values the three animals at $90, two at $60 and one, a male at $35. The sex of the animals were two males and one female. They had been five months in captivity and were full grown and in first class condition. The letter was referred to the parks committee.

Fire Chief Watson recommended that the offer of Mahony and Kennedy to cover the city hall hose tower for $90, be accepted, which was done.

W. J. Whiteside, K.C., addressed the council on behalf of the Cash estate. The council had projected the tearing down of condemned property belonging to Mr. Whiteside's clients unless a certain agreement was signed. Mr. Whiteside explained the invidious position such a course would place his clients in, and on his suggestion the matter was left to the city solicitor and himself to arrange on some amicable settlement satisfactory to the council.

A request from the secretary of the Fraser Valley Development league to join that body was referred to the industrial commissioner for report.

Milk Analysis Extra Good.

The report of the medical health officer upon the analyses of 12 samples of milk taken from dairymen, round the city, was found remarkably good. There were no foreign properties in the way of preservatives and the sediment was infinitesimal, showing, the report said, that the dairymen were taking more care in milking and straining.

On behalf of the city baseball league H. Ryall succeeded in securing permission to charge 15 cents for admission to the grand stand in Queens park on week nights, provided the rest of the park was free to citizens. No charge will be made at the gate. To enable the league to charge 25 cents for admission to matches on Saturday afternoons, Mr. Ryall was instructed to specify each particular Saturday or furnish a schedule of the games to be played. The plan of sending round the hat had been found a dismal failure.

No More Lacrosse Games.

A comparison having been made to the arrangements with the lacrosse association, Mayor Gray incidentally remarked that there would be few more lacrosse games in New Westminster. Last Saturday only $250 had been taken under the Minto cup schedule and no team could be run on that sum after expenses and percentage were paid. The next game he understood would be played in Victoria and others in Vancouver.

A motion made by Alderman Dodd that the appropriation of $500 in aid of the Pacific Coast Advertising Men's entertainment be paid according to accounts certified by Industrial Commissioner Darling, was unanimously carried.

Alderman Jardine's leave of absence was extended two weeks.

Railroad Commissioners.

Mayor Gray, Aldermen Dodd and Kellington were appointed to attend the sittings of the railway commission in Vancouver in regard to the North road and Brunette road application and the new G. N. R. station.

A special meeting of the council was appointed for Thursday at 10 a.m. in view of the Vancouver pageant on Friday and the various committee meetings usually held on Friday were changed to Thursday also.

PLANS COMPLETED FOR PEACE OF MEXICO

(Continued from page one)

government will be given to the constitutionalists.

Provisional Government.

The plan calls for the establishment of a provisional government at the head of which shall be a neutral person with a cabinet of four persons representing the various political interests of Mexico.

No other internal questions are included in the peace plan as recommendations and suggestions with reference to agrarian and educational reforms are phrased in such a way as to constitute advice rather than dictation.

The plan includes provision for general amnesty the payment of claims, the withdrawal of the American forces from Vera Cruz, and kindred subjects which would develop when General Huerta retired and a new provisional government was installed.

The new provisional president would name his own cabinet, but men virtually selected here would be chosen by him. Constitutionalists would have a voice in the formation of this cabinet, as at least two of their party would be named. The new government would be given formal recognition by the United States and thus be enabled to float loans and rehabilitate Mexico's financial condition.

Already there is talk of a $100,000,000 loan to cover obligations arising out of four years of almost incessant revolution.

CITY WILL DECK ITSELF IN GAY HOLIDAY ATTIRE

Saturday's Visit of Ad Men Will Be Occasion for Display of Bunting in New Westminster.

New Westminster can deck herself out when it becomes necessary. It has been suggested that Saturday next, when the delegates to the Pacific Coast Advertising association convention visit the city, is an appropriate time for the display of bunting on the business blocks and private residences. Some four hundred visitors will invade the town on that date. They will be over to have a good time following a three days' session held forth in the Terminal City and it is up to the citizens of New Westminster to reciprocate and show them that the Royal City does not take second place to any community on the coast when it comes to entertaining.

At 8 o'clock Wednesday evening in the board of trade room the final meeting of the general committee in charge of the entertaining of the guests will be held. At this session the various sub-committees will make their reports and the final scrutiny of the program will be made.

In connection with the pageant to be held in Vancouver on Friday when May Queen Eva Atkinson and ex-Queen Jean McPhail will be in the procession. It is expected that Mrs. Scular, New Westminster's first May Queen, will be present. An invitation has been forwarded which it is hoped she will accept.

DISPOSED OF APPEALS.

Burnaby Court of Revision Completes Its Labors.

All of the appeals made against alleged high assessment were disposed of by the court of revision in Burnaby yesterday, the majority of the twenty-five cases left over from the previous week being disposed without alteration in any manner.

A brief meeting of the various committees was held later in the day, the most important business being left until next Monday when the tax rate is expected to be struck.

TRUE HOSPITALITY SHOWN SHRINERS

J. R. Agar and C. A. Welsh Speak Highly of Entertainment Received at Atlanta, Ga.

Speaking highly of the true southern hospitality accorded them by the citizens of Atlanta, Ga., J. R. Agar returned yesterday from attending the 1914 imperial council of Shriners. Mr. Agar stated that the citizens of the Georgia city could not have bettered the entertainment accorded the hundreds of delegates, the minutest detail accompanying every move.

C. A. Welsh, also a delegate to the council, returned home last night and voiced the sentiments of Mr. Agar in the royal time they enjoyed during their stay in the south. Mr. Agar spent considerable time in the eastern states, visiting in Savannagh, Philadelphia, New York, Buffalo and Detroit, Mich.

The next council will be held in Seattle in July, 1915, the Washington state delegation being successful in swinging the vote towards the Sound City.

HOSPITAL BOARD MEMBERS.

Mrs. Ferguson and Miss Wright Are Honored.

Mrs. A. H. Ferguson and Miss Scharley P. Wright were re-elected members of the hospital board of the Royal Columbian hospital as representing the local council of women. At a meeting of the council held yesterday two new societies affiliated, the Anti-Tuberculosis society and the Burnaby branch of the Royal Victorian Order of Nurses.

An invitation to attend a convention of the Lower Mainland Women's institutes to be held in this city on June 25 and 26, was accepted. Yesterday's meeting was the last to be held until September.

WILL VISIT WINNIPEG.

American Governors Will Make Trip Over Meridian Road.

Winnipeg, June 8.—The governors of the American states of Texas, Oklahoma, Kansas, Nebraska and North and South Dakota, are expected to arrive in Winnipeg early in July making the trip in automobiles from Galveston, over the long talked of meridian road, which it is said is now completed with the exception of a small stretch near Morris on the Canadian side of the line. The party will be entertained here by the Winnipeg Automobile club.

BELT LINE IS STARTED.

Contractors Move Houses Preliminary to Grading.

Sumas, June 8.—Work started last week on the Milwaukee belt line around this city. Neinaber and Baxter, of Kendall, have the contract of construction of the line, which is about three miles long. Houses and fences are now being moved preliminary to grading.

The belt line circles the town and connects the Milwaukee road with the British Columbia Electric. Terminals will be built in the northeast part of the city.

UXORICIDE TO BE TRIED.

John Ireland Failed to Commit Suicide By Acid Route.

Prince Albert, Sask., June 8.—In a fit of anger seizing a shotgun which lay near, John Ireland, a farmer of the Biggar district, on the afternoon of May 24 shot and instantly killed his wife, Jessie Ireland, in full view of his wife's sister and immediately afterwards attempted to commit suicide by drinking carbolic acid, according to evidence given on the stand at the preliminary hearing of a murder charge preferred against Ireland at Biggar. The accused, who has not yet fully recovered from the effects of the acid, has been committed to the Prince Albert jail to stand trial by a judge and jury at the next sitting of the supreme court.

LACROSSE GOLF BOXING

SPORT

BASEBALL CRICKET

LACROSSE SHAKE-UP

Reports Pro Games Will Be Transferred to Victoria and Vancouver—Support Lacking.

Due to lack of support from local fans, the professional lacrosse club is considering the advisability of transferring practically all the remaining home games to either Vancouver or Victoria. Only $250 was taken in at the gate at Saturday's contest which divided up among the players, after paying expenses in the way of ground rent and advertising, leaves very little, in fact not enough to warrant the players continuing the game.

It is expected that a meeting of the association will be held either in Vancouver this week or in Victoria following Saturday's game when a decision as to the rest of the schedule will be taken up.

Back east the Big Four clubs are having their troubles, the patronage so far not coming up to expectations.

WON CHAMPIONSHIP

Dr. R. F. Pettit Writes from New Mexico of Winning High Honors at Kennel Club.

J. J. Jackson of Edmonds, of Collie fame, has just received a letter from Dr. R. F. Pettit, New Mexico, informing him that his former collie bitch Seedley Sousie has won the American championship for collies under American Kennel club rules. Seedley Sousie won the championship under the Canadian Kennel club rules and was never defeated in Canada. Since Dr. Pettit purchased her she has been shown against the best imported collies in the cities of New York, Chicago, St. Louis and other principal cities in the states. Her owner is so gratified with the success of Seedley Sousie that he is negotiating with Mr. Jackson for the acquisition of his two other collies bitches Lady Sousie and Sundridge Rose, which made a sweep of everything within their reach at the Vancouver and Victoria spring shows.

GAME POSTPONED

Injury to Capt. Cheape Results in Game Being Put Over to Saturday.

Out of courtesy to the English team which suffered a serious setback on Sunday when Capt. Cheape was injured in a practice game, the first international polo match scheduled for today, has been postponed until Saturday next. Considering the great amount of rabidness which always creeps into contests between England and the United States, the action of the American skipper in offering to put the date back five days comes as an agreeable surprise.

Without the services of Cheape the Britishers would have been no match for the American four, who are favorites in the contests.

SHAMROCK IV.

Sir Thomas Lipton Feels Optimistic of His Fourth Try.

Southampton, June 8.—"I never felt more confident of winning the cup," said Sir Thomas Lipton tonight when asked his opinion regarding his new challenger for the America's cup.

"What I have seen of Shamrock IV under sail," he continued, "has convinced me that she is a certain cup lifter. When she sails her race for the cup off Sandy Hook, I am sure she will prove able to do what she was built to do."

BASEBALL TONIGHT

Moose and Columbus Mix—McLeod and Horn the Opposing Box Artists.

Another attempt will be made to lower the colors of the Moose baseball team this evening at Queens park, Tommy Walsh of the Columbus having secured McLeod to do the twirling against Jack Horn. The impending fall of the herd has been forecasted so often during the past two seasons that the fans are becoming suspicious at the announcement of the "Moose getting theirs" and proclaim themselves in the Missouri class.

Providing the weather settles, another bumper crowd should be on hand this evening considering the classy ball being dished out by the city league. Should McLeod be in the box this will allow Hood to act as receiver thus giving Steele a chance to display himself on first. Steele has been playing out of his position behind the bat, having made a name for himself as a first sacker with the St. Francis semi-pro team of Victoria.

Without disparaging the Moose any the fans would feel tickled to death to see their colors lowered and yesterday even Bill Graham, optimist as he is, admitted that horse shoes played a prominent figure with the herd's victory over the Electrics on Friday last. Credit, however, must be given to the Moose infield, the polished finish being responsible for several victories recorded both this season and last.

Fred Lynch probably will handle the indicator. The skipper of the Electrics on Friday last, took it upon himself to pour out his indignation upon the umpire for alleged partiality. An umpire's position in this city is never of the best and no little comment was heard against this outburst, considering the fact that the captain of the Electrics practically handed the game to the Moose by fumbling three made-to-order outs in one inning.

SPORT CHATTER

(By the Potter.)

A nice little mix-up is on between the Brighouse and Steveston arena authorities. Talk of an injunction being issued against the former by the latter being the latest piece of news. According to present indications there dones not appear much chance of the Vaise-O'Leary fight taking place on Lulu island on June 20.

Charlie Luca of Saskatoon and Frenchy Vaise, holder of the Canadian lightweight title, have been matched for a 20 round scrap in Nelson on July 15, during Chahko Mika week.

The weekly intermediate lacrosse game at Queens park will probably be played on Wednesday instead of Thursday night of this week. Burnaby wants to advance the date on account of several players being available that evening and the West Ends are agreeable.

Alex. Turnbull should just about cinch the championship of the Pacific Coast Amateur Lacrosse league on Saturday afternoon. The Mann cup looks good for New Westminster providing the V. A. C. can defeat Brampton at the end of the month. The Ontario team leaves on June 17.

Trouble is brewing in Winnipeg on account of three Victoria amateur lacrosse players who deserted Vancouver island some two weeks ago to play with the C. N. R. of the wheat metropolis. The league executive of Winnipeg recently passed a motion that no player out of a job is eligible to play the game. It is now up to the Mackenzie-Mann interests to get the youngsters some fairly good paying positions.

It would look mighty good for the Pacific coast should the Washington university crew capture first place at the annual race on the Hudson. The crew left Seattle on Saturday bearing the good wishes of hundreds of sporting enthusiasts on the coast.

A fine race is being run in the West Dewdney lacrosse league, Port Moody and Port Coquitlam now being tied for first place. At Port Moody last Friday, the ranchers defeated the leaders, while Burquitlam accounted for Maillardville on the Sapperton park by a score of 5-3. The league standing is as follows:

	W.	L.	Goals F.	Goals A.
Port Coquitlam	3	2	22	14
Port Moody	3	2	22	20
Burquitlam	2	3	10	15
Maillardville	2	3	17	23

RIFLE SHOOTING.

Civilians Notch Good Scores on the Brownsville Ranges.

Some fairly good scores were registered by the Civilian Rifle association members on the ranges on Saturday afternoon. Billy Sloan headed the list with 98, closely followed by M. J. Knight with 97. Following are the scores:

	200	500	600	Ttl
W. J. Sloan	32	34	32	98
M. J. Knight	33	33	31	97
Geo. Burr	30	34	28	92

Juniors at Maillardville Defeat Blue Mountain School.

A lacrosse match between juveniles representing Maillardville school and the Blue Mountain school, was played on the Fraser Mills athletic club grounds on Saturday and resulted in a win for the Maillardville hopefuls by a score of 4-2. George Proulx acted as referee.

Baseball Player Killed.

Sparks, Okla., June 8.—A foul ball struck Thomas Gilpin, a player in a ball game, over the heart today and caused his death within a few minutes.

Murray and Chip Matched.

San Francisco, June 8.—Billy Murray of Sacramento and George Chip of Pittsburg, were matched here today to box 20 rounds for the middleweight title in San Francisco on July 4. Mike Gibbons, whom Murray meets in New York on June 18, may be substituted, however, if he defeats Murray.

TAG DAY RECEIPTS.

Net Result of Efforts of Ladies Was $390.80—Less Than Last Year.

The woman's auixilary of the Royal Columbian hospital desire to thank the general public for their liberal response to their appeal on Saturday last for tag day. However, the result was not as large as last year. Still the auxiliary feel that it is not want of confidence in their work, but rather to the present financial depression and the small attendance at the lacrosse match. We take this opportunity of thanking all our kind friends who sold tags or helped us in any other way. We took in $395.30, expenses $4.50, total $390.80.

A Hot Time in N. Y.

New York, June 8.—Death and many prostrations were reported in the wake of the heat wave of this city and its suburbs today. The temature reached 93 degrees. Many persons overcome by the heat were removed to the hospitals.

CHINESE ORDER FOR BELGIAN KING

Big Asiatic Republic and Little European Monarchy Are Exchanging Courtesies.

Ghent, Belgium, June 8.—A Chinese diplomatic mission entrusted with the duty of delivering to the king of the Belgians decorations conferred by the Chinese government, recently arrived in Brussels.

They were duly received in an audience by the king, during which his excellency, Lou-Tseng-Tsiang, presented to King Albert the insignia of the Order of Grand Merit, enclosed in a richly embossed case bearing the Chinese coat of arms, together with an autograph letter from the president of the Chinese republic.

His majesty warmly thanked the ambassador, with whom he engaged in friendly conversation, expressing earnest wishes for the continued prosperity of China, and begging the ambassador to convey to the president the assurance of his constant efforts to strengthen the bonds of friendship uniting Belgium and China, and to foster the development of commercial intercourse between the two countries.

Later in the day the grand marshal of the court visited the Hotel Vue et Flandre, and, in the name of the king, presented the ribbon of the Order of Leopold to his excellency, Lou-Tseng-Tsiang, head of the mission; the cross of commander of Shia-Yi Ding, counselor of the mission, and the insignia of officer of the Order of the Crown to the mission secretary, Li-Chi-Schung.

C.P.R. SHIPS TO CALL AT PHILIPPINES

Empresses Will Include Islands in Their Schedule—Increase Expected in Business.

Victoria, June 8.—For the first time in the history of the C. P. R. a steamship flying the checked houseflag of that fleet will steam from Victoria for Manila next week. The blue ribbon liner Empress of Russia, Capt. W. Davison, is scheduled to sail on Thursday next and her outward trip will mark the inauguration of the new service to the Philippine Islands. Following strong representations on the part of many Americans, business men and commercial interests of the far-away isles, the C. P. R. has decided to extend its operations.

From Victoria the Empress of Russia will proceed to Yokohama, Kobe and Nagasaki, thence to Manila and Hongkong. On the homeward run she will call at Shanghai, Nagasaki, and Yokohama. The advent of the fast Empresses into the Manila trade is expected to cause a readjustment of the business of the lines running out of San Francisco. It takes 28 days by the southern route, while the C. P. R. flyers will reach Victoria 17 days out from the islands.

Trip Through Rockies.

Since there are 5,000 United States people in the Philippines, mostly officials and well-to-do people, who are compelled to travel frequently, owing to the tropical climate, it is expected that the new service will prove very popular and mean that a majority of United States people going to or from the Philippines will take the Canadian route, thus not only saving nearly two weeks, but getting the trip through the Canadian Rockies, and also the more interesting voyage, with calls at Japanese and Chinese ports en route. Incidentally the improvement it will give in accommodation with the Philippines will mean that most of the United States mail matter will use the Canadian route.

With this new leg in its Oriental connections the Canadian Pacific ocean and land route will extend more than half way round the world. With its present system, from Liverpool across the Atlantic, Canada and the Pacific to Hongkong it covers a distance of 11,841 miles. With the addition of the Philippines it will cover not far from 12,500 miles, which is by far the greatest direct distance covered by any transportation company in the world.

AUSTRIA DOUBLES MILITARY EXPENSE

Minister of War Asks for Enormous Sum and Encounters Protest From the People.

Vienna, June 8.—The Austro-Hungarian taxpayer has become gravely alarmed over the fact that the military estimates for the coming year are nearly double the army and navy expenditure of seven years ago. From government sources there have come frequent assertions that relations with other countries are most peaceful and amicable. If this be true, the people are wondering why the government comes forward with a military budget which could not be much greater if the empire was on the verge of war.

The sum asked by the minister of war is $186,000,000. The army wants $115,000,000, while the navy will get along with $36,000,000. The remaining $35,000,000 will be spent on the militia and reserve forces. Seven years ago the total budget for the three branches of the service amounted to only $96,000,000, a sum considerably less than is now demanded for the army alone.

The popular protest is that the advance is utterly out of proportion to the normal increase in the nation's financial and commercial wealth, but the most disquieting feature is that the present budget contains no extraordinary items, so there is no reason to expect that next year's estimate will bring any relief.

Spent Big Sums.

At the time of the war scares, during the ennxation of Bosnia in 1908, and during the more recent Balkan wards, the ministry of war took advantage of the situation to procure everything that was needed to bring the army up to a high state of efficiency, and enormous sums were spent on two mobilizations. The rate of spending then inaugurated seems to have been kept up, and each succeeding budget has been larger than the one before. Immense sums have been put into new guns, and technical equipment for the engineers and field forces.

While it is contended that the general increase in the cost of labor and materials has much to do with the increasing budgets, the press has lately been discussing the influence exerted by the ring of manufacturers of steel and armaments.

Since Austria-Hungary started to build ships of the dreadnought type three years ago, the taxpayers have been astonished to find that these are costing many millions more than warships of similar size and power built by Germany and Great Britain. The iron and steel and other materials employed are all considerably dearer than in the other two countries named. It is charged that the government is being held up by a ring of manufacturers. Since it is the settled policy of the various governments not to buy anything outside the country if it can be obtained in Austria-Hungary, it has been difficult to find a remedy for the situation.

Apparently the manufacturers' ring constitutes a very powerful organization. The shareholders include many influential and exalted persons. The shares in one of the principal shipbuilding concerns have risen in the past few years from $80 to $1840, an increase of 2300 per cent.

NEW CAPTAIN FOR ANTIQUATED TUB

Derelict Which Represents Britain's Naval Might in These Waters to Change Commanders.

Victoria, June 8.—When the British sloop of war Shearwater returns to Esquimalt from Mexican waters, her present commander, Frederick H. Walter, will leave her and proceed to the old country. Commander Charles W. Trousdale has been appointed to succeed Commander Walter, and it is understood that the change will be made on June 25, providing the Shearwater can leave the seaboard of the troubled republic in the south.

Commander Trousdale has been in the service sinme January, 1888. He was promoted to a lieutenancy in 1896, and reached his present rank in December, 1907. He is an ex-gunnery officer and has just completed the war college course. This is the first time that he has been ordered to the Esquimalt station. Commander Walter, who is now in charge of the Shearwater in Mexican waters, has been in command of the Pacific squadron for the past two years, having relieved Commander Vivian.

It is understood that the re-commissioning of the Shearwater will be carried out next November. A number of the officers and bluejackets are due for return tickets to Portsmouth.

At her heavy gun-layers' tests last year the Shearwater fired twenty-three rounds from her four-inch guns, and made 40.00 points, on an average of 1.20 hits per gun. Her best shot was Petty Officer M. McCullock, who made two hits out of six rounds fired.

The Algerine, Commander R. G. Corbett commanding, did must better. She fired seventeen rounds from her four-inch guns and made a total of 58.33, on an average of 1.75 hits per gun. Her best shot was Leading Seaman A. Lorraine. The Algerine, however, did much better in the preceding year when she fired on an average of three per gun.

GET SUSPECTED PAIR AFTER REVOLVER DUEL

Kalispell, Mont., June 8.—Two members of the sheriff's posse hunting the burglars who blew open and robbed the Rexford Junction postoffice safe of $400 early yesterday morning accosted two men in the railway yards at Eureka, seven miles east of Rexford, at 11:30 p. m. yesterday and in an exchange of shots wounded and captured one of the men. It is believed he is one of the burglars.

The two men answered the challenge of Deputy Sheriffs Claude Glendenning and Joe Nowatney by commanding the officers to throw up their hands and opened fire at once. Deputy Claude Glendenning shot the smaller of the two in the right lung, the bullet coming out at the back of the neck. Glendenning was scratched in the ear by the first shot.

The captive gave his name as Tom Kelly, but refused to say more. When searched only a pocket knife and a dollar watch were found. He was taken to Eureka. It is believed he will recover.

His companion dashed into the forest, but was later taken. He refused to talk.

Northern Lincoln county is being hunted for three bands of outlaws, the bandits who held up a Great Northern train the night of May 14, the railway warehouse pilfirer who shot Deputy Drake, and the Rexford burglars. The man captured last night resembles the advertised description of one of the train holdups and the brief view of his companion has led the officers to suspect they are the same pair.

Anti-Trust Law Upheld.

Washington, June 8.—Missourii's anti-trust law, attacked as unconstitutional because they exempt labor combinations, were upheld today by the supreme court.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building to be known as Postal Station "C", Mount Pleasant, Vancouver, B. C.," will be received at this office until 4.00 P.M., on Monday, June 22, 1914, for the construction of the aforesaid building.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of A. Campbell Hope, Esq., Architect, 603 Hastings Street West, Vancouver, B. C.; Wm. Henderson, Esq., Resident Architect, Victoria, B. C.; on application to the Postmaster, Vancouver, B. C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, May 23, 1914.

Newspapers will not be paid for advertisement if they insert it without authority from the Department.—60946. (3432)

Government Issues Rules For Picking Berries

The provincial government has sent out the following timely rules for picking and shipping strawberries and raspberries, which should prove of interest to Fraser Valley growers:

Strawberries

Make pickings as soon as the color of the berries indicates the proper market maturity. For long express shipments pickings should be made when berries show about one-third color, the degree of color depending upon the distance of market.

Make frequent pickings, going over the vines on alternate days. Immediately after a period of rain go over the whole patch, cleaning up all the fruit and sending all the fruit that is fit to the cannery.

Pick in the cool part of the day if possible and do not allow the fruit to stand in the sun or dust after picking. Carry the stands to the packing shed at once after they have been filled.

Each picker should be provided with stands holding six cups. Remove the berries from the vine by breaking the stem over the forefinger ingiving the berry a little side motion. Do not injure the berry in any way, either by pressure or by tearing it loose from the calyx or "hull." Pick the vines clean and place soft berries in separate cups for the cannery, throwing the culs away.

Pack the berries in a cool shed having plenty of light. Before packing remove the berries from the picking cups, placing them upon a cloth covered packing frame. Be sure the berries are perfectly dry before packing. Forcing currents over the berries while they are upon the frames removes all moisture, brings out the lustre on the fruit and leaves it in a cool condition.

Use experienced packers. For long distance shipments use at least three grades. A, distant market grade, using only sound, partitially colored fruit. B, local market grade, using sound and well colored fruit. C, cannery grade, which includes a good quality of ripe fruit. All berries that are showing the least indication of decay or deterioration, are culls and must be thrown away. Such berries will spoil the rest of the crate.

To determine the proper color that berries should have for long distance shipment by express the best plan is to study the train schedules and determine the amount of time it will require the berries to arrive at their destination. Pick several cups of berries at different stages of maturity and place them in a temperature of 65 degrees. At the end of the given time inspect the berries and determine which is in the best shape. For this test the cups should be wrapped up in newspaper and the time of the test should be two or three days over the actual train time.

When packing for market use uniform sizes of berries, placing them in clean, new cups. Have the top layer of berries come slightly above the outside edge of the cups and have the rows faced evenly so as to give an attractive appearance.

As soon as packed, place the cups in a crate and keep in a cool place. In nailing on covers use four nails to the cleat. Do not nail superflously as it irritates the consumer and deflects from the packers' reputation.

Cool the berries down to 60 degrees before shipping. This may be done by leaving the fruit in the night air and shipping in the morning.

Raspberries.

Pick the berries as soon as the fruit will slip off the core without crumbling or mashing. Every berry that is red must come off the vine.

Pickers must use small carriers attached to the waist so as to hold the cups. Pick directly into the shipping cup and never transfer from one receptacle to another any raspberries that are to be shipped. Have a separate cup for cannery berries. Throw away any berries showing decay. Do not put one overripe berry in the shipping cup as it will spoil the rest and the market condition of the whole crate will be ruined.

Berries should not be picked while the bushes are damp, either from dew rain or fog, except for cannery purposes.

See that the cups are filled full, having all the corners filled to the top.

Pickers must not pinch the berries nor hold them in the hand to be crushed. The berry should be taken firmly between the forefinger and the thumb, with a lateral twist removed from core and placed directly in the shipping cup. Pinching makes a red discoloration after the berry has been on the market a few days, which is followed by premature softening and decay.

As soon as picked place the cups in a crate, which should be kept in a cool place. Never allow berries to stand in the sun or dust after being picked. For express purposes cool the berries to 60 degrees by fanning them with night air and ship the following morning.

REMARKABLE TRIP IN NORTH COUNTRY

Mounted Police Encounter Many Difficulties During an Investigation —Aged Trapper Dies.

Prince Albert, Sask., June 8.—story of a remarkable trip in the wilds of the north is told by Detective Sergeant Prime of the local detachment of the R. N. W. M. P., who in company with Constable Lush and a man named Webb, returned to the city from an investigation trip to Gull lake, where an old trapper named Stephen Nicholls was found dead in his shack with a bullet wound in his body.

They set out more than four weeks ago to investigate Nicholls' death but upon arrival found no suspicious circumstances, everything pointing to suicide. When the police arrived at his shack, situated at Gull lake, 20 miles north of Candle lake, the corpse was lying in the corner of the rude cabin, both hands still clasping tightly a 38 calibre revolver. He was shot through the heart and the nature of the wound indicated that the shot was fired at exceedingly close range. The thumb of one hand was still pressed tightly in the trigger and was only removed with difficulty.

Old Trapper Buried.

After making a thorough search of the goods and chattels and two other shacks which belonged to him, Sergt. Prime decided to bury the trapper and with his companion hewed out a coffin from a tree in the neighborhood. In this the frozen corpse was laid and interred by the party, Sergt. Prime reading a short burial service. They then shaped another tree into a makeshift monument, placing over it a crossbar and burning into this the deceased's name and age, which was thought to be about 65.

The return trip of the party, like the outward journey, was no light task. The only guide the travellers could find were the trapper's lines. There was no semblance of a road and day by day they were compelled to wade up to their knees in swamp. About 40 miles out the horses and rigs which the party took, were abandoned and the members had to make their passage through the wilds on foot. They encountered many difficulties, but with the exception of an accident to Constable Barker, another member of the party, who had to return with an injured foot, there was no serious mishap.

Conan Doyle at Winnipeg.

Winnipeg, June 8.—Sir Arthur Conan Doyle arrived here this morning from the east and leave for the west tonight. Sir Arthur addressed the Winnipeg Canadian club at noon.

Certain Relief

from headaches, dull feelings, and fatigue of biliousness, comes quickly—and permanent improvement in bodily condition follows—after your stomach, liver and bowels have been toned and regulated by

AUSTRO-ITALIAN TROUBLES INCREASE

Centre of Unrest Appears to Be at Trieste, Where Shipyards Are Showing Favoritism.

Vienna, Austria, June 8.—The disputes between Austrians and Italians in Kustenland, which is inhabited by a conglomeration of people of Italian nationality, Slovenes, and Croatians, have been causing trouble in both countries. The Italians living in Austria claim many rights which the government is unwilling to concede, including a university.

This quarrel is, however, of old standing. The more immediate cause of the present dispute was the fights between Slav and Italian workmen in Trieste, which led to anti-Austrian demonstrations throughout Italy. The actual root of the trouble, of which these demonstrations are merely the outward signs, is the belief that Austria wishes to drive her Italian subjects out of the country.

The Italians, rightly or wrongly, are convinced of this, and naturally resent it. The centre of all this unrest, Trieste, is a most important naval port, where dreadnoughts and other craft are being built, and the authorities in charge there may have shown preference for Austrian workmen, not wishing the Italians to know all that was being done in the shipyards.

Decision Comprehensibel.

In the same way the decision to employ Slavs or Croats, only, in public offices, is very comprehensible, when the nature of the work which is closely connected with the navy is taken into account.

The Italians, however, fail to understand all this, and the feeling is very bitter.

Besides this merely local trouble, the race for supremacy in Albania, where both Austrians and Italians have opened schools, and are running a neck-to-neck race to get all the power and influence each into their own hands, has a certain influence on the relations between the two peoples.

Letters from Albania state that the Italians are actually enticing the children away from the Austrian schools by providing them with free meals and clothes, while the Austrians retaliate by giving them pocket money. How much of this is true is difficult to ascertain, but it is quite certain that each country is spending money in its effort to teach the young generation in Albania its own language, to the exclusion of the other.

The Albanians, of whom remarkably little is heard, seem to be profiting by what is offered them by either party, and the subsidies, on a small scale, with just as much willingness as their fathers accepted the bribes of agents of different persuasions, without worrying themselves greatly as to the pledges required by the givers. These promises they very glibly make and very often fail to keep.

This state of affairs and the great jealousy which exists between the agents of the two countries, is naturally reflected at the seaport from which the boats for Albania sail, and the present ferment in Trieste and its neighborhood is probably very largely due to the trouble in Albania.

New Hazelton's first celebration was from every point of view, a great success.

ADVERTISE IN THE DAILY NEWS

Summer Advertising

The most valuable asset in advertising is age. It is something which cannot be rushed or bunched. It has no overnight competition. The new advertiser can't date back.

Advertising cannot take a vacation without a loss. The cumulated values of previous months or years immediately begin to shrink or evaporate. It will invariably cost more to make good the shrinkage than to omit the vacation.

Good advertising is a continuous performance before the same audience. No better definition was ever invented. It admits of no exceptions or variations.

Buyers are not so firmly attached to buying traditions during the Summer months as at other seasons. They go about more, enjoy more freedom, are interested more in variety. The new advertiser finds it easier to break in; the old advertiser finds it necessary to be more persistent and watchful. The province of advertising is to attract new customers, as well as to hold old ones, and the vacation season, more than any other, is the season of changes; the season, more than any other, when the advertiser can least afford to permit his goods and his service to be forgotten. The trifling purchase of July or August is often the forerunner of a much larger purchase in October or November.

Use the New Westminster News during the Summer Months and Keep Your Trade Lively.

MORE INTERESTING NEWS ABOUT OUR DEPARTMENT MANAGERS' SALE WEEK

Our Department Managers' Sale Week begins its second days' selling on Tuesday. Business building, as our buyers and managers have been hard at work trying to accomplish during the last few months, has made them each keenly observant of the wants of the buying public in this city. Now it is their week of special selling to get big returns. Each department is anxious for the greatest record of increased business for one week, and it is up to the respective managers to accomplish this. The managing of this store and the conducting of this business is left entirely to them for this week. There is no limit to the reduction inducements they can offer you to secure your trade. They promise you almost an unlimited array of bargains and it will profit you to make a special trip down to McAllisters, Limited each day this week. Read our managers' ads. for Tuesday's business and remember each manager is ready to supply you with goods exactly as they have advertised, and personally assist you if desired in securing the very best of the bargains offered you.

MR. RIDDLE

Manager of the Furniture Department.

I offer on Tuesday some of the biggest real bargains in various kinds of furniture that I have ever seen given in any store during the man years I have been in business. It is a positive fact that many of the lines advertised here could not be manufactured today for these prices, and this applies to the better as well as the cheaper grades of furniture.

MR. THOMAS

The manager of the dress goods and silk departments has some extraordinary values in his departments. Customers would do well to make it a point to visit this section during this week's sale.

The Dress Goods Department Offers along with goods from ordinary stock a special lot consisting of 2750 yards of Woollen Dress Goods. This includes many weaves and varieties. To facilitate quick handling they have been classed into three lines that include goods that are worth twice and in some instances three times the price.

THE 45c VALUES.

Are your choice of weaves as Voiles, Serges, Panamas, Bedford Cords, Diagonals, Cashmeres, Taffetas, Rice Cloths, Tweeds, etc. A big variety and new, fresh goods, in all shades, and also cream, white and black. Included are values usually to $1.00 per yard.

THE 65c VALUES

include such a variety that any weight of dress can be had. If you require a cloth suit or skirt you can choose from a number of novelty striped suitings, Tweeds, Whipcords or Diagonal Serge in a choice range of colors as greys, browns, blacks, navys, greens, tans, etc. For dresses or skirts are Panamas, Voiles, Serges, Ratines, Venetians, Cashmeres, Satin Cloths, in a big variety of either fancy or staple colors.

For Wash Suits or Dresses

are an assortment of two-tone Bedford Cords, two-tone Rice Cloths, Cream Serges, Ratines, etc., in colors as pale blue, grey, mole, cream biscuit, pink, blue and white, grey and white, navy and white, and other shades. All 65c per yard. Values up to $1.45 per yard included. All per yard 65c

SILK DEPT. SPECIALS.

See the 29c Table.

The qualities are what you usually pay up to 65c for, and comprise fancies, tamolines, Jap taffetas, Pongees, Chinas, etc.; a good selection. All at, per yard 29c
